

1

00:00:00,000 --> 00:00:05,000

Crossing dimensions of time and space.

2

00:00:05,000 --> 00:00:10,000

Technology beyond comprehension.

3

00:00:10,000 --> 00:00:13,000

They are watching.

4

00:00:13,000 --> 00:00:15,000

They are waiting.

5

00:00:18,000 --> 00:00:21,000

They are already here.

6

00:00:21,000 --> 00:00:23,000

What the hell is that?

7

00:00:23,000 --> 00:00:27,000

I had this intense fear come over me.

8

00:00:27,000 --> 00:00:30,000

I just can't believe it.

9

00:00:45,000 --> 00:00:47,000

Bucks County, Pennsylvania.

10

00:00:47,000 --> 00:00:51,000

Just outside the urban crush of Philadelphia.

11

00:00:51,000 --> 00:00:53,000

I moved up here six years ago.

12

00:00:53,000 --> 00:00:55,000

I'm 52 years old.

13

00:00:55,000 --> 00:00:57,000

I've married 32 years.

14

00:00:57,000 --> 00:00:59,000

I have two children.

15

00:00:59,000 --> 00:01:01,000

I think Bucks County is beautiful.

16

00:01:03,000 --> 00:01:08,000

But for Denise Murter, it's not all peace and quiet.

17

00:01:08,000 --> 00:01:12,000

It was in April of 2008.

18

00:01:12,000 --> 00:01:16,000

It was in the middle of the night somewhere around one o'clock in the morning.

19

00:01:18,000 --> 00:01:22,000

My dog, Alex, is a little Yorkie and he goes to bed with us.

20

00:01:23,000 --> 00:01:27,000

He sat up on the bed and he was really growling.

21

00:01:29,000 --> 00:01:31,000

It was unusual for him to growl.

22

00:01:37,000 --> 00:01:38,000

He wouldn't lay down.

23

00:01:38,000 --> 00:01:41,000

He wouldn't quit to the point where he was showing his teeth.

24

00:01:43,000 --> 00:01:46,000

So I finally decided that there's got to be something wrong.

25

00:01:52,000 --> 00:01:58,000

I was kind of nervous about living there on the first floor apartment.

26

00:01:58,000 --> 00:02:01,000

And I used to live in a house three stories.

27

00:02:14,000 --> 00:02:18,000

I just kept looking everywhere trying to figure out what is he hearing,

28

00:02:18,000 --> 00:02:20,000

you know, what is going on.

29

00:02:22,000 --> 00:02:24,000

I thought for sure we had an intruder.

30

00:02:44,000 --> 00:02:47,000

I figured since I'm up that I would search around the back

31

00:02:47,000 --> 00:02:51,000

to make sure there wasn't like an animal coming out of the woods or deer out back.

32

00:03:22,000 --> 00:03:25,000

I thought I was going to be able to find a way to get out of there.

33

00:03:36,000 --> 00:03:39,000

A bright light in the sky caught my eye.

34

00:03:44,000 --> 00:03:47,000

It looked like headlights of a car.

35

00:03:48,000 --> 00:03:52,000

I had a way for it to move and shift to really get a good look at it.

36

00:03:52,000 --> 00:03:56,000

At first I could just see around shape.

37

00:03:59,000 --> 00:04:03,000

My parents worked with airplanes so I knew it wasn't a plane

38

00:04:03,000 --> 00:04:05,000

and I knew it wasn't a helicopter.

39

00:04:06,000 --> 00:04:09,000

And it wasn't like an airplane moving across the sky.

40

00:04:09,000 --> 00:04:13,000

It would go from one point to another point and stop.

41

00:04:14,000 --> 00:04:19,000

I felt like the object was scanning the area,

42

00:04:19,000 --> 00:04:22,000

the way it was moving, looking for something.

43

00:04:22,000 --> 00:04:25,000

I had this terrible, terrible fear come over me.

44

00:04:30,000 --> 00:04:32,000

I didn't know what was going to happen.

45

00:04:35,000 --> 00:04:36,000

I was worried.

46

00:04:43,000 --> 00:04:46,000

There was a huge thing in the sky.

47

00:04:46,000 --> 00:04:48,000

I don't see it.

48

00:04:50,000 --> 00:04:52,000

But it was huge and the light I couldn't see.

49

00:04:52,000 --> 00:04:53,000

What did you see?

50

00:04:53,000 --> 00:04:54,000

My heart.

51

00:04:54,000 --> 00:04:55,000

It was massive.

52

00:04:59,000 --> 00:05:00,000

Oh my God.

53

00:05:01,000 --> 00:05:02,000

What is that?

54

00:05:02,000 --> 00:05:03,000

I don't know.

55

00:05:04,000 --> 00:05:07,000

It was shaped like a pill.

56

00:05:07,000 --> 00:05:12,000

It had the round edges and then there was this boomerang shape.

57

00:05:12,000 --> 00:05:16,000

It was almost like a fender of a car attached to this round part.

58

00:05:17,000 --> 00:05:18,000

There was no wings.

59

00:05:18,000 --> 00:05:20,000

There was no propellers.

60

00:05:20,000 --> 00:05:21,000

There was no sound.

61

00:05:21,000 --> 00:05:22,000

It was dead silence.

62

00:05:26,000 --> 00:05:29,000

It left no trail, no sound.

63

00:05:29,000 --> 00:05:31,000

It was gone in an instant.

64

00:05:33,000 --> 00:05:34,000

What was that?

65

00:05:36,000 --> 00:05:39,000

I knew it was nothing that I've ever seen in my life.

66

00:05:39,000 --> 00:05:40,000

You saw what it is?

67

00:05:40,000 --> 00:05:41,000

I saw it.

68

00:05:41,000 --> 00:05:42,000

Crazy.

69

00:05:43,000 --> 00:05:45,000

Don't tell anybody about this, okay?

70

00:05:45,000 --> 00:05:46,000

Tell them.

71

00:05:46,000 --> 00:05:47,000

Let's go back to bed.

72

00:05:47,000 --> 00:05:48,000

Talk about it one more time.

73

00:05:48,000 --> 00:05:49,000

Talk about it one more time, okay?

74

00:05:49,000 --> 00:05:50,000

I'm not supposed to tell anybody.

75

00:05:50,000 --> 00:05:51,000

People are going to think you're crazy.

76

00:05:51,000 --> 00:05:52,000

What am I supposed to know?

77

00:05:52,000 --> 00:05:53,000

Come on, let's go back to bed.

78

00:05:53,000 --> 00:05:54,000

Dan, don't go to bed.

79

00:05:54,000 --> 00:05:55,000

It's probably still out there.

80

00:05:55,000 --> 00:05:56,000

Let's go back to bed.

81

00:05:57,000 --> 00:05:58,000

Dan, no more.

82

00:06:01,000 --> 00:06:05,000

My husband Dan was afraid I'd be ridiculed.

83

00:06:07,000 --> 00:06:10,000

But I just felt so strongly about it.

84

00:06:10,000 --> 00:06:15,000

I just had this terrible urge that I had to say what I saw.

85

00:06:19,000 --> 00:06:23,000

The next morning, Denise contacts the editor of the local paper.

86

00:06:24,000 --> 00:06:27,000

I don't know what possessed me to call the newspaper

87

00:06:27,000 --> 00:06:29,000

because I'm not that type of person.

88

00:06:29,000 --> 00:06:31,000

I told him about my incident.

89

00:06:31,000 --> 00:06:35,000

He said, I want you to do me a favor and contact Mufon.

90

00:06:36,000 --> 00:06:40,000

The Mutual UFO Network is an international organization

91

00:06:40,000 --> 00:06:43,000

that investigates UFO sightings around the world.

92

00:06:46,000 --> 00:06:50,000

We get about one case per day in Pennsylvania to investigate.

93

00:06:51,000 --> 00:06:56,000

Of those cases, we probably can eliminate 80% as an identifiable flying object.

94

00:06:57,000 --> 00:07:01,000

I'm always skeptical because a lot of people want to believe

95

00:07:01,000 --> 00:07:05,000

and there's a difference between having a good case with evidence

96

00:07:05,000 --> 00:07:07,000

and just wanting the case to be real.

97

00:07:08,000 --> 00:07:10,000

I got involved in this case with Bob Gardner,

98

00:07:10,000 --> 00:07:13,000

my chief investigator for Pennsylvania.

99

00:07:14,000 --> 00:07:19,000

What impressed me with Denise was that she was ready to tell her story.

100

00:07:23,000 --> 00:07:26,000

Bob came out the following day to talk to me.

101

00:07:27,000 --> 00:07:28,000

It was right there.

102

00:07:29,000 --> 00:07:32,000

It was huge. It was hovering overhead.

103

00:07:34,000 --> 00:07:37,000

She was a middle-aged woman, professional.

104

00:07:37,000 --> 00:07:39,000

She was very genuine.

105

00:07:39,000 --> 00:07:41,000

She was exact to what she reported.

106

00:07:42,000 --> 00:07:44,000

Pool of light was mesmerizing.

107

00:07:44,000 --> 00:07:48,000

I felt like he thought I was telling the truth.

108

00:07:48,000 --> 00:07:51,000

It was almost like it was dancing and I was so scared.

109

00:07:51,000 --> 00:07:54,000

And they were just like right across the air.

110

00:07:54,000 --> 00:07:59,000

First thing we do is we eliminate anything that could be man-made,

111

00:07:59,000 --> 00:08:01,000

anything that could be a natural phenomenon.

112

00:08:02,000 --> 00:08:03,000

I could see a ton of it.

113

00:08:03,000 --> 00:08:08,000

I didn't see any lights or anything that could be construed as a UFO.

114

00:08:08,000 --> 00:08:13,000

And I had a general idea how the moon was at that time of the day.

115

00:08:13,000 --> 00:08:14,000

So I knew it wasn't the moon.

116

00:08:14,000 --> 00:08:16,000

Tell me more about the lights.

117

00:08:16,000 --> 00:08:21,000

Was it more of a wash across the whole area or were there beams?

118

00:08:21,000 --> 00:08:23,000

All over my lawn there was just...

119

00:08:24,000 --> 00:08:27,000

What did Denise see hovering above her yard?

120

00:08:27,000 --> 00:08:30,000

You know, one of the things we had to work through was,

121

00:08:30,000 --> 00:08:32,000

is this power craft?

122

00:08:32,000 --> 00:08:34,000

Is this a military craft?

123

00:08:34,000 --> 00:08:38,000

I just kept going through the aircrafts that I knew growing up,

124

00:08:38,000 --> 00:08:39,000

being down at the airport all the time.

125

00:08:39,000 --> 00:08:44,000

My father will grove Air Force Base is close by.

126

00:08:46,000 --> 00:08:50,000

And I did think, is it something that they were doing?

127

00:08:51,000 --> 00:08:55,000

Dr. Scott Miller tracks developments in classified aircraft technology

128

00:08:55,000 --> 00:08:57,000

known as black projects.

129

00:08:57,000 --> 00:09:00,000

There have just been tremendous technological advancements

130

00:09:00,000 --> 00:09:04,000

that have taken place in the so-called black world.

131

00:09:04,000 --> 00:09:08,000

It's estimated the Air Force budget yearly for classified aircraft

132

00:09:08,000 --> 00:09:10,000

is in excess of \$10 billion.

133

00:09:10,000 --> 00:09:15,000

The Department of Defense and various agencies have made no bones about it.

134

00:09:15,000 --> 00:09:18,000

They want to broaden the stealth bandwidth.

135

00:09:18,000 --> 00:09:23,000

They want to go completely from the acoustic range all the way

136

00:09:23,000 --> 00:09:27,000

through electromagnetic, through the visible regime.

137

00:09:27,000 --> 00:09:31,000

And if possible, the ultimate would be a vehicle that is invisible.

138

00:09:31,000 --> 00:09:36,000

You end up with aircraft that typically have a nontraditional form,

139

00:09:36,000 --> 00:09:41,000

and that creates potentially a strange sighting for somebody.

140

00:09:42,000 --> 00:09:46,000

But the craft Denise saw was completely silent.

141

00:09:46,000 --> 00:09:50,000

Nothing could move like that without some kind of sound.

142

00:09:52,000 --> 00:09:56,000

There's absolutely no way to make anything perfectly silent.

143

00:09:56,000 --> 00:09:59,000

You would have to have something that is 100% efficient

144

00:09:59,000 --> 00:10:01,000

in order not to produce noise.

145

00:10:10,000 --> 00:10:12,000

Within days of Denise's sighting,

146

00:10:12,000 --> 00:10:15,000

MUFON receives more calls from area residents.

147

00:10:16,000 --> 00:10:20,000

The reports are trickling in that people are seeing something in the skies.

148

00:10:20,000 --> 00:10:23,000

All of a sudden we're getting 15 cases a day.

149

00:10:23,000 --> 00:10:27,000

I am kind of skeptical, but there was so many reports.

150

00:10:27,000 --> 00:10:32,000

One of these reports has an eerie similarity to Denise's sighting.

151

00:10:34,000 --> 00:10:37,000

You have to believe something was flying over this area.

152

00:10:43,000 --> 00:10:49,000

In Bucks County, Pennsylvania, Denise Murter sees a strange craft hovering over her backyard.

153

00:10:50,000 --> 00:10:52,000

Don't tell anybody about this, okay?

154

00:10:52,000 --> 00:10:54,000

We'll talk about it in the...

155

00:10:54,000 --> 00:10:56,000

Going against her husband's wishes.

156

00:10:56,000 --> 00:11:00,000

Denise contacts the Mutual UFO Network and discovers

157

00:11:00,000 --> 00:11:03,000

there is no explanation for what she saw.

158

00:11:03,000 --> 00:11:05,000

It was a strange sighting.

159

00:11:05,000 --> 00:11:07,000

She was in a strange place.

160

00:11:07,000 --> 00:11:09,000

She sees the UFO Network and discovers

161

00:11:09,000 --> 00:11:12,000

there is no explanation for what she saw.

162

00:11:12,000 --> 00:11:14,000

It was right there.

163

00:11:16,000 --> 00:11:19,000

It was huge. It was hovering overhead.

164

00:11:19,000 --> 00:11:22,000

I did think for a second, did that really happen?

165

00:11:22,000 --> 00:11:26,000

I thought for sure people were really going to think I'm bonkers.

166

00:11:26,000 --> 00:11:29,000

Then, just days after Denise's sighting,

167

00:11:29,000 --> 00:11:33,000

MUFON receives a call from another Bucks County resident.

168

00:11:34,000 --> 00:11:38,000

We had a good witness by the name of Cliff Taylor.

169

00:11:39,000 --> 00:11:41,000

He was sleeping.

170

00:11:41,000 --> 00:11:45,000

He was around four in the morning and his dog started barking and woke him up.

171

00:11:57,000 --> 00:12:00,000

He sees a large object moving towards his house.

172

00:12:01,000 --> 00:12:05,000

It couldn't be an airplane because of how slow it was moving.

173

00:12:05,000 --> 00:12:09,000

When the lightning went off, he was able to see detail to it

174

00:12:09,000 --> 00:12:13,000

where it had all kinds of structure on the top of it

175

00:12:13,000 --> 00:12:16,000

and windows along the sides of it.

176

00:12:31,000 --> 00:12:33,000

I was really glad to hear about Cliff's story

177

00:12:33,000 --> 00:12:36,000

just to prove there was something really going on.

178

00:12:37,000 --> 00:12:42,000

We're getting collaborating witnesses that are seeing the same object now

179

00:12:42,000 --> 00:12:44,000

within the same area.

180

00:12:45,000 --> 00:12:47,000

With more and more sightings popping up,

181

00:12:47,000 --> 00:12:51,000

I thought it would be a good idea to contact Philadelphia International Airport

182

00:12:51,000 --> 00:12:55,000

to see if anything has turned up on the radar tracks

183

00:12:55,000 --> 00:12:58,000

and we caught a break.

184

00:12:58,000 --> 00:13:02,000

They did find an object that matched the same date and time frame

185

00:13:02,000 --> 00:13:04,000

as Cliff Taylor's sighting.

186

00:13:04,000 --> 00:13:07,000

This object didn't have a transponder code to it.

187

00:13:07,000 --> 00:13:12,000

A transponder code is something that's attached to all the aircraft in the area.

188

00:13:12,000 --> 00:13:16,000

Because there was no transponder code on it, there was nothing else to group it

189

00:13:16,000 --> 00:13:19,000

under an unidentified flying object.

190

00:13:22,000 --> 00:13:26,000

Did the craft come from beyond our Earth?

191

00:13:28,000 --> 00:13:31,000

My first reaction is to be a skeptic

192

00:13:31,000 --> 00:13:37,000

until I can see enough proof and go through the steps to investigate the case.

193

00:13:40,000 --> 00:13:45,000

Two weeks later, the eyewitness evidence continues to mount.

194

00:13:48,000 --> 00:13:52,000

Alex, you know, growling in the middle of the night showing his teeth

195

00:13:52,000 --> 00:13:55,000

and I'm like, oh my god, it can't be. It's back again.

196

00:13:58,000 --> 00:14:09,000

I can see a lot of lights. I can actually see like tiny little windows on the craft.

197

00:14:11,000 --> 00:14:16,000

I just remember feeling desperate to have proof of what I saw.

198

00:14:16,000 --> 00:14:19,000

I usually keep my camera by the back door.

199

00:14:23,000 --> 00:14:27,000

I just was trying to do the best that I could at this point.

200

00:14:28,000 --> 00:14:33,000

Just keep aiming it up in the air and keep snapping and hope I got something.

201

00:14:34,000 --> 00:14:37,000

My camera was really acting crazy.

202

00:14:40,000 --> 00:14:46,000

I feel like the craft is knowing that I'm watching it.

203

00:14:48,000 --> 00:14:53,000

I felt like they were surveilling the area, like they were looking for something.

204

00:14:53,000 --> 00:14:58,000

It was beaming down lights in the trees at different areas around my yard.

205

00:15:03,000 --> 00:15:09,000

I was really starting to worry about my safety. Maybe it wants me.

206

00:15:24,000 --> 00:15:29,000

I couldn't move. I felt like I was paralyzed.

207

00:15:44,000 --> 00:15:47,000

To be honest, I don't know how long I was out there.

208

00:15:48,000 --> 00:15:55,000

I did pray to God that this was going to be the last lighting because I don't think I could handle much more, you know.

209

00:16:02,000 --> 00:16:07,000

I contacted Bob Gardner. I said, Bob, you're not going to believe this.

210

00:16:07,000 --> 00:16:09,000

I said, but it happened again.

211

00:16:10,000 --> 00:16:11,000

This is the exact camera.

212

00:16:11,000 --> 00:16:15,000

She had pictures of the object and that is rare.

213

00:16:18,000 --> 00:16:20,000

A lot of times people don't think to take a picture.

214

00:16:20,000 --> 00:16:23,000

They're more excited about seeing something and want to keep an eye on it.

215

00:16:26,000 --> 00:16:29,000

I don't really think I captured anything wonderful.

216

00:16:29,000 --> 00:16:32,000

Some of them were just like colorful lines.

217

00:16:32,000 --> 00:16:35,000

But one of the photos shows something more.

218

00:16:38,000 --> 00:16:41,000

I was just so amazed by this.

219

00:16:41,000 --> 00:16:44,000

I saw was a row of lights like a boomerang.

220

00:16:44,000 --> 00:16:48,000

You could tell that these lights were around a physical object.

221

00:16:49,000 --> 00:16:54,000

There's no way that there was a bunch of stars or the moon or anything was lined up like that.

222

00:16:54,000 --> 00:17:01,000

This just added more weight in our favor that, yeah, we're onto something that could possibly be a UFO.

223

00:17:01,000 --> 00:17:05,000

It was really disturbing.

224

00:17:05,000 --> 00:17:09,000

Your brain goes a mile a minute when you see something and you don't know what it is.

225

00:17:09,000 --> 00:17:13,000

I really did have a hard time sleeping after that.

226

00:17:19,000 --> 00:17:24,000

It just felt like they're on some type of mission to get something, but I didn't know what.

227

00:17:24,000 --> 00:17:25,000

Why?

228

00:17:25,000 --> 00:17:28,000

Why is it me? Why is it this backyard?

229

00:17:28,000 --> 00:17:31,000

And why does it keep coming back?

230

00:17:36,000 --> 00:17:40,000

When a strange ship visits her backyard for the second time,

231

00:17:40,000 --> 00:17:44,000

Denise Murter manages to capture an image on camera.

232

00:17:48,000 --> 00:17:50,000

Supported by the police,

233

00:17:50,000 --> 00:17:55,000

supported by other witnesses in the Bucks County area,

234

00:17:55,000 --> 00:17:59,000

and photographic evidence,

235

00:17:59,000 --> 00:18:04,000

and with no other plausible explanation,

236

00:18:04,000 --> 00:18:09,000

MUFON investigators believe Denise caught sight of a UFO.

237

00:18:09,000 --> 00:18:17,000

There was certainly things going on here that didn't seem to be conventional or of our technology.

238

00:18:18,000 --> 00:18:23,000

For Denise, the bizarre experiences are far from over.

239

00:18:35,000 --> 00:18:38,000

This time it's even closer to my house.

240

00:18:38,000 --> 00:18:42,000

I could see it playing its day.

241

00:18:42,000 --> 00:18:47,000

It was hovering over a tree right outside my bedroom window.

242

00:18:47,000 --> 00:18:52,000

It couldn't get any closer, or I don't know, it'd be on top of the apartment building.

243

00:18:52,000 --> 00:18:56,000

I just couldn't get my eyes off of it.

244

00:18:56,000 --> 00:19:00,000

I had this intense,

245

00:19:00,000 --> 00:19:03,000

fear.

246

00:19:03,000 --> 00:19:08,000

I did feel like my life was in jeopardy.

247

00:19:08,000 --> 00:19:11,000

I didn't want to get hurt.

248

00:19:11,000 --> 00:19:15,000

I just felt so much better.

249

00:19:15,000 --> 00:19:18,000

I felt so much better.

250

00:19:18,000 --> 00:19:21,000

I felt so much better.

251

00:19:21,000 --> 00:19:27,000

I felt so much better when I saw the light.

252

00:19:27,000 --> 00:19:31,000

I felt so much better when I saw the light.

253

00:19:31,000 --> 00:19:59,000

All

254

00:19:59,000 --> 00:20:06,760

this glitter came out of the craft and it went into two different trees. It was sparkling

255

00:20:06,760 --> 00:20:14,440

like Christmas lights. I actually closed my eyes and opened them back up. I'm like, oh

256

00:20:14,440 --> 00:20:28,920

my gosh, am I dreaming? This quietness came over me and I don't know if it has

257

00:20:29,000 --> 00:20:33,800

communication with your self-conscious. I just remember the words like it was yesterday.

258

00:20:35,640 --> 00:20:37,640

Don't worry, I'm not here to hurt you.

259

00:20:53,080 --> 00:20:55,400

As fast as it came, it just disappeared.

260

00:20:59,800 --> 00:21:05,720

I did really feel in my heart that that was a UFO. I feel like now that this has happened,

261

00:21:05,720 --> 00:21:10,680

I have to believe in aliens unless these ships are driving themselves.

262

00:21:18,040 --> 00:21:20,280

Is life beyond Earth possible?

263

00:21:21,240 --> 00:21:29,400

Dr. Daniel Batchelder is involved in the search for planets capable of supporting life

264

00:21:29,400 --> 00:21:31,080

beyond our solar system.

265

00:21:33,480 --> 00:21:39,000

The only place we have found life in the universe, of course, is on the Earth, which is a planet.

266

00:21:39,000 --> 00:21:46,600

So if we're looking for the evidence of life outside of the Earth, we think that we have to have a planet.

267

00:21:46,840 --> 00:21:51,080

The number of planets that we are finding outside of our solar system is increasing daily.

268

00:21:51,960 --> 00:21:56,760

That is increasing the chances of there being life elsewhere in the universe.

269

00:21:58,760 --> 00:22:05,480

But could an alien spacecraft travel the vast distance from a faraway planet to Denise's backyard?

270

00:22:07,720 --> 00:22:13,160

To actually send an object out there is a question of propulsion, essentially.

271

00:22:13,240 --> 00:22:16,760

We know what is needed for interstellar travel.

272

00:22:16,760 --> 00:22:21,080

There are a few tweaks that we need to make here and there to our current technology,

273

00:22:21,080 --> 00:22:26,280

but we ourselves within the next 100 years or so could actually be capable of visiting other planets.

274

00:22:26,280 --> 00:22:31,800

So the thought that there are other beings out there that may be more highly evolved than us

275

00:22:31,800 --> 00:22:37,080

or have better technology visiting our Earth, it's not something that you can immediately discount.

276

00:22:37,720 --> 00:22:42,440

The next day was rough.

277

00:22:43,720 --> 00:22:48,520

I really thought, who in the hell is going to believe this story?

278

00:22:51,560 --> 00:22:58,520

On July 8th, Denise called me and said, Bob, the object came back and this time it was there for about 40 minutes.

279

00:22:59,800 --> 00:23:05,480

And it released a debris field that came down that was all sparkling.

280

00:23:05,560 --> 00:23:13,000

I looked around to see if I heard or saw any other instances in the case where metallic objects came down

281

00:23:13,000 --> 00:23:15,640

and I wasn't able to find anything.

282

00:23:15,640 --> 00:23:23,000

My privetry just lit up and this was like this silver shower of flakes.

283

00:23:23,000 --> 00:23:24,120

It was unbelievable.

284

00:23:24,120 --> 00:23:30,920

I'm thinking, did this actually happen or is she adding to the story just to make it a little more dramatic?

285

00:23:30,920 --> 00:23:32,440

It was unbelievable.

286

00:23:33,000 --> 00:23:35,000

Let me take a closer look at that.

287

00:23:39,000 --> 00:23:44,200

There's nothing that I could see physically that happened to the trees.

288

00:23:44,200 --> 00:23:47,160

By looking at it, you couldn't tell that this was affected at all.

289

00:23:47,160 --> 00:23:50,360

It's funny, Denise. I don't really see any marks here.

290

00:23:51,560 --> 00:23:55,560

There's no evidence of any kind.

291

00:23:55,560 --> 00:23:58,440

At this point, I'm a little upset now.

292

00:23:59,000 --> 00:24:01,000

Denise's making this up.

293

00:24:03,000 --> 00:24:05,000

Alright.

294

00:24:05,000 --> 00:24:07,000

It's always skeptical. I'd be honest with you.

295

00:24:07,000 --> 00:24:11,000

I didn't believe her that these metallic sprinkles were dropped into her tree.

296

00:24:13,000 --> 00:24:19,000

Denise faces an even stronger reaction when the area sightings garner more media attention.

297

00:24:21,000 --> 00:24:23,000

People were mocking me.

298

00:24:23,000 --> 00:24:25,000

People were going into my husband's job.

299

00:24:25,000 --> 00:24:27,000

They were going in with Tim.

300

00:24:27,560 --> 00:24:29,560

I swear I was never going to talk about it again.

301

00:24:29,560 --> 00:24:35,560

It's really worth all this to do this for nothing except to torture my family and myself.

302

00:24:35,560 --> 00:24:41,560

But her most recent experience prompts a surprising response.

303

00:24:47,560 --> 00:24:51,560

I realized that I was going to be a little bit more aggressive.

304

00:24:51,560 --> 00:24:53,560

I was going to be a little bit more aggressive.

305

00:24:54,120 --> 00:25:04,120

I received this email from this person in Florida stating that he had something that happened to him that scared them to death.

306

00:25:12,120 --> 00:25:22,120

When a strange craft visits her backyard for the third time, Denise murders unusual experiences moved from surreal to the utterly bizarre.

307

00:25:24,120 --> 00:25:30,120

Press coverage prompts ridicule from the community and Denise tries to bury the incidents.

308

00:25:30,120 --> 00:25:36,120

Until she receives an email describing an unexplained event over a decade and a half earlier.

309

00:25:42,120 --> 00:25:48,120

My name is Jared Lee. I'm a graduate student at the University of Florida. I'm an aerospace engineer.

310

00:25:48,680 --> 00:25:54,680

I was 13 years old living in Havana, Florida. My mother and father both worked for the state of Florida.

311

00:25:54,680 --> 00:25:58,680

The area there was sparsely populated.

312

00:25:58,680 --> 00:26:04,680

We went to town, went to Tallahassee to pick up a pizza.

313

00:26:04,680 --> 00:26:08,680

We got home probably around 10.

314

00:26:18,680 --> 00:26:22,680

Have you guys seen this?

315

00:26:22,680 --> 00:26:24,680

What's that son?

316

00:26:24,680 --> 00:26:26,680

What's happening, Jared?

317

00:26:26,680 --> 00:26:30,680

There appeared to be lights coming down from the top of the trees.

318

00:26:30,680 --> 00:26:34,680

They looked like they were scanning the forest floor looking for something.

319

00:26:34,680 --> 00:26:38,680

We assumed that this was hunters shining for deer.

320

00:26:39,240 --> 00:26:45,240

Somebody said how did they get the lights to the top of the trees?

321

00:26:45,240 --> 00:26:51,240

Because these are 60, 70 foot tall trees and you can't get a deer stand up that high.

322

00:26:51,240 --> 00:26:53,240

You can't climb that high.

323

00:26:53,240 --> 00:26:57,240

My dad got a really worried look on his face.

324

00:26:57,240 --> 00:26:59,240

What's going on?

325

00:26:59,240 --> 00:27:01,240

I don't know what that could be.

326

00:27:01,240 --> 00:27:03,240

Honey.

327

00:27:03,240 --> 00:27:07,240

It was the first time in my life that I actually seen him afraid.

328

00:27:07,800 --> 00:27:09,800

Come on.

329

00:27:25,800 --> 00:27:31,800

All of a sudden, on the left side, this large red ball of light with at least five feet in diameter.

330

00:27:32,360 --> 00:27:36,360

And then from the right, you had another blueish green colored ball of light

331

00:27:36,360 --> 00:27:38,360

glide up to where these lights were coming from.

332

00:27:38,360 --> 00:27:44,360

Both the balls of light disappeared and it was complete darkness for maybe a second or two.

333

00:27:44,360 --> 00:27:46,360

Jared, maybe we got to go inside.

334

00:27:47,800 --> 00:27:55,800

And then this gigantic beam of light, a glistening golden white colored light,

335

00:27:55,800 --> 00:27:59,800

shines straight to the floor of the forest.

336

00:27:59,800 --> 00:28:01,800

The entire forest lit up.

337

00:28:01,800 --> 00:28:05,800

You could see the particles glistening all through the forest.

338

00:28:09,800 --> 00:28:11,800

I don't know what's going on.

339

00:28:11,800 --> 00:28:15,800

At the very top of the light, you could make out the entire craft.

340

00:28:15,800 --> 00:28:19,800

The size of the thing was unbelievable.

341

00:28:19,800 --> 00:28:21,800

What the hell is that?

342

00:28:21,800 --> 00:28:29,800

The phenomenon was ongoing for probably between 10 and 15 minutes total.

343

00:28:29,800 --> 00:28:31,800

Oh my God!

344

00:28:31,800 --> 00:28:33,800

Never heard a sound.

345

00:28:33,800 --> 00:28:35,800

Never seen it move.

346

00:28:35,800 --> 00:28:37,800

It clicked off.

347

00:28:39,800 --> 00:28:41,800

And it was gone.

348

00:28:45,800 --> 00:28:47,800

Are you okay? Are you okay?

349

00:28:47,800 --> 00:28:49,800

What the hell was that?

350

00:28:51,800 --> 00:28:57,800

It was the most amazing thing that I had ever experienced in my life.

351

00:28:59,800 --> 00:29:05,800

What made me want to contact an East was how she described the light.

352

00:29:05,800 --> 00:29:11,800

I've never heard another account anywhere where the person had seen the light in that kind of detail

353

00:29:11,800 --> 00:29:15,800

and described it that way as being glitter-like.

354

00:29:15,800 --> 00:29:21,800

I was thrilled to find out that something did come back to collaborate my story.

355

00:29:21,800 --> 00:29:27,800

The way I described it, he thought it was to the T of what he experienced.

356

00:29:29,800 --> 00:29:35,800

Did Denise and Jared witness some kind of natural electrical phenomena?

357

00:29:35,800 --> 00:29:43,800

Dr. Joseph Dwyer, professor of physics and space sciences, specializes in lightning research.

358

00:29:45,800 --> 00:29:48,800

Ball lightning has been reported for hundreds of years.

359

00:29:48,800 --> 00:29:55,800

People will describe a ball the size of a soft ball that will move horizontally.

360

00:29:55,800 --> 00:29:59,800

It will last several seconds, maybe as bright as a 60 watt light bulb.

361

00:29:59,800 --> 00:30:02,800

It's not necessarily just a white light.

362

00:30:02,800 --> 00:30:05,800

It has colors that other people have reported, sparks coming out from it.

363

00:30:05,800 --> 00:30:07,800

There are a lot of theories of ball lightning.

364

00:30:07,800 --> 00:30:13,800

It could be some kind of a chemical reaction, something burning that is floating along.

365

00:30:13,800 --> 00:30:18,800

It could be electrical. It could be some kind of a plasma heated ball of gas.

366

00:30:18,800 --> 00:30:24,800

Does ball lightning explain the bright lights Jared and his parents saw?

367

00:30:24,800 --> 00:30:31,800

Ball lightning has been described to do a lot of very bizarre things, to enter people's houses, to go through windows.

368

00:30:31,800 --> 00:30:37,800

A lot of stories have it moving horizontally, but it I suppose could also move up and down.

369

00:30:37,800 --> 00:30:46,800

There was no way to mistake something like that for something that my family and I witnessed the years earlier.

370

00:30:46,800 --> 00:30:54,800

Ball lightning doesn't account for the hovering craft and glittering particles both Jared and Denise clearly report seeing.

371

00:30:54,800 --> 00:30:58,800

So were the lights caused by a rare weather phenomenon?

372

00:30:58,800 --> 00:31:05,800

St. Elmo's fire is an electrical discharge, is a coronal discharge in electrified atmosphere.

373

00:31:05,800 --> 00:31:14,800

If there's thunderstorms, if there's electrical activity in the atmosphere, you can have ships or aircraft, anything that can produce electric fields will require an electrical charge.

374

00:31:14,800 --> 00:31:25,800

What you would see is sort of a diffuse, maybe purplish-blueish glow. It's not hot, but it can emit light somewhat like a flame, so it's called St. Elmo's fire.

375

00:31:25,800 --> 00:31:32,800

Did Jared simply see the effects of St. Elmo's fire on an aircraft passing through a thunderstorm?

376

00:31:32,800 --> 00:31:41,800

I had been sent on assignment to Uzbekistan. I noticed in the evening out on the tarmac a strange light off in the distance.

377

00:31:41,800 --> 00:31:45,800

It was essentially a type of a St. Elmo's fire.

378

00:31:45,800 --> 00:32:00,800

I can understand how someone who's never experienced this could misidentify the St. Elmo's fire for something otherworldly, but it doesn't resemble what we've seen in the least.

379

00:32:00,800 --> 00:32:05,800

That is not what we saw. It's not even close. It's a joke.

380

00:32:05,800 --> 00:32:12,800

Learning about Jared's incident, MUFON investigators revisit Denise's case.

381

00:32:12,800 --> 00:32:19,800

We have an outside witness that didn't know Denise. Now contacting her, saying that he saw the same thing.

382

00:32:19,800 --> 00:32:26,800

This added a lot more credibility to the case that this wasn't a one-time type phenomenon.

383

00:32:26,800 --> 00:32:29,800

And it opens up an exciting possibility.

384

00:32:29,800 --> 00:32:36,800

A close encounter of the second kind is a situation where this evidence left behind.

385

00:32:36,800 --> 00:32:42,800

Where you not only see the craft, but it leaves some sort of residue or evidence behind.

386

00:32:42,800 --> 00:32:48,800

Finding physical evidence would elevate this case to a whole new level.

387

00:32:48,800 --> 00:32:52,800

Those encounters are rare. Look at this.

388

00:32:53,800 --> 00:33:05,800

In 2008, Denise Murter witnesses a strange craft showering the trees in her backyard with glittering light particles before vanishing into thin air.

389

00:33:05,800 --> 00:33:10,800

17 years earlier, Jared Lee experiences a similar event.

390

00:33:10,800 --> 00:33:21,800

I don't know how anybody could come up with a story like this if you're a sane person. It's just something that you never hear of.

391

00:33:21,800 --> 00:33:30,800

In light of Jared's recent report, MUFON investigator Bob Gardner turns his attention to the trees in Denise's backyard.

392

00:33:30,800 --> 00:33:37,800

Look at this. In July, these leaves are showing signs of severe aging.

393

00:33:37,800 --> 00:33:40,800

Signs of aging that they shouldn't be showing in October.

394

00:33:40,800 --> 00:33:44,800

Something rapidly caused these leaves to age.

395

00:33:44,800 --> 00:33:50,800

So that's why I figured, let me collect the evidence and I'll send it out to the lab.

396

00:33:50,800 --> 00:33:57,800

I made this almost like a crime scene. I made sure I put rubber gloves on to collect the samples.

397

00:33:57,800 --> 00:34:05,800

I took samples from the private tree that was affected and the soil and the maple tree and the soil.

398

00:34:05,800 --> 00:34:14,800

Then he went down the street from me and found a similar tree to my tree in the backyard and he took samples from that tree.

399

00:34:14,800 --> 00:34:21,800

A control sample lets the labs know what the baseline reading should be for that area.

400

00:34:21,800 --> 00:34:27,800

I immediately bagged everything up to keep it from being contaminated.

401

00:34:27,800 --> 00:34:37,800

The way Denise described the sparkles were that they were just hovering there, floating around in the air.

402

00:34:37,800 --> 00:34:44,800

I kind of thought that these could have been some kind of sensors or some kind of experiment going on.

403

00:34:44,800 --> 00:34:57,800

Maybe this is some sort of a probe that's being dropped into the trees to take samples and then was being pulled back up into the ship for whatever purpose that they had.

404

00:34:57,800 --> 00:35:04,800

I was hoping that by sending these out to the lab to be tested that we would get some answers.

405

00:35:04,800 --> 00:35:13,800

A thousand miles away in Florida, Jared Lee works to identify the craft he saw 17 years earlier.

406

00:35:13,800 --> 00:35:21,800

I honestly believed that it was something that our military had, that they had maybe gotten off course.

407

00:35:21,800 --> 00:35:32,800

Havana is situated in the panhandle of northern Florida and we have many large military bases that specifically deal with aircraft.

408

00:35:32,800 --> 00:35:36,800

It wasn't uncommon to see military aircraft in the area.

409

00:35:36,800 --> 00:35:46,800

I spent a lot of my time in the library. Every book I could read on aircraft, space vehicles, rockets, experimental aircraft.

410

00:35:46,800 --> 00:35:54,800

For a solid object that size to hover in place, I don't know of a technology we have that's capable of doing that.

411

00:35:54,800 --> 00:36:01,800

We have a blimp base in Florida and Pompano Beach. Is it possible that what we could have seen

could have been a blimp?

412

00:36:01,800 --> 00:36:15,800

The type of airships that potentially have been sighted and related to unidentified flying objects are probably more a mixture of those airplane, traditional blimp hybrid combination.

413

00:36:15,800 --> 00:36:23,800

It would either have a deltoid lifting body shape or a literally wing kind of shape.

414

00:36:24,800 --> 00:36:32,800

An airship of the type I'm talking about could easily be perceived as not moving at all or moving extremely slowly.

415

00:36:32,800 --> 00:36:38,800

And then also because of the propulsion systems you would need could also have a very high speed dash capability.

416

00:36:38,800 --> 00:36:44,800

But this advanced airship technology is only very recently established.

417

00:36:46,800 --> 00:36:52,800

I realized the blimp couldn't have possibly been responsible for what we've seen.

418

00:36:53,800 --> 00:37:00,800

Through his studies at the University of Florida, Jared explores other possible explanations.

419

00:37:00,800 --> 00:37:11,800

We had a professor here that was doing research on something called weave, which is a wingless electromagnetic air vehicle.

420

00:37:11,800 --> 00:37:20,800

And this was a state of the art type of propulsion that would revolutionize the aerospace industry.

421

00:37:20,800 --> 00:37:25,800

So I sought him out, asked if I could be part of his team.

422

00:37:25,800 --> 00:37:36,800

I had the feeling that there could be a relation or link between what he was doing and the vehicle we seen in the early 90s.

423

00:37:36,800 --> 00:37:43,800

After working for Dr. Roy, I realized that was erroneous.

424

00:37:43,800 --> 00:37:49,800

We're not capable of producing anything like I witnessed that night.

425

00:37:50,800 --> 00:37:58,800

The vehicle we witnessed that night was something not made by us as in human beings on this planet.

426

00:37:58,800 --> 00:38:02,800

It came from something somewhere else.

427

00:38:05,800 --> 00:38:10,800

Denise was the only person I knew that had seen something similar to what I witnessed.

428

00:38:10,800 --> 00:38:13,800

I felt very connected to him.

429

00:38:13,800 --> 00:38:20,800

He was so happy to have someone to talk to that went through the same exact thing, and now he knows he's not crazy, you know?

430

00:38:20,800 --> 00:38:22,800

And I feel the same exact way.

431

00:38:22,800 --> 00:38:28,800

It did renewed my interest in trying to find an answer.

432

00:38:28,800 --> 00:38:41,800

Learning that MUFON was investigating that case and that they had took some samples from the tree there made me want to go back and re-look at the area that we had witnessed and all those years earlier.

433

00:38:44,800 --> 00:38:51,800

The trees had never grown similar to the trees in the other area.

434

00:38:51,800 --> 00:39:04,800

There's almost a perfect ring of trees that appear discolored from the air and appear completely different, unhealthy color from the rest of the trees in that area.

435

00:39:04,800 --> 00:39:14,800

Were the glittering particles that Jared saw also responsible for the damaged leaves MUFON investigators recovered from Denise's backyard?

436

00:39:14,800 --> 00:39:17,800

Can science provide the answer?

437

00:39:19,800 --> 00:39:23,800

There was something extraordinary happen in my tree.

438

00:39:23,800 --> 00:39:41,800

In Bucks County, Pennsylvania, during the summer of 2008, a mysterious craft releases an astonishing shower of glittering particles across Denise Murders' backyard.

439

00:39:44,800 --> 00:39:48,800

There was something extraordinary happen in my tree.

440

00:39:48,800 --> 00:39:57,800

Looking for trace evidence, MUFON investigators sent samples of the affected leaves to the lab.

441

00:40:00,800 --> 00:40:09,800

Physical evidence plays an important role in any case that we have. The more evidence we can gather, the better judgment we can make on the case.

442

00:40:09,800 --> 00:40:14,800

I was curious about what they found when they analyzed those tree samples.

443

00:40:14,800 --> 00:40:19,800

Is there some sort of chemicals, some sort of residue that's left on the leaves?

444

00:40:21,800 --> 00:40:28,800

Phyllis Budinger, an analytical chemist, specializes in identifying unknown molecular substances.

445

00:40:29,800 --> 00:40:32,800

My major emphasis is on infrared spectroscopy.

446

00:40:34,800 --> 00:40:45,800

You look at the substance with infrared light and the molecular vibrations interact with the infrared light at various frequencies.

447

00:40:45,800 --> 00:40:54,800

The resulting spectrum is unique for each individual molecule. It's just like DNA is unique to each individual.

448

00:40:55,800 --> 00:41:02,800

What I was looking for was anything unusual on the leaves and in the soil that should not be there.

449

00:41:04,800 --> 00:41:06,800

I could not detect anything.

450

00:41:07,800 --> 00:41:12,800

When nothing shows up on the molecular level, Phyllis takes a different tact.

451

00:41:12,800 --> 00:41:23,800

I sent the samples to a lab for elemental analysis, which has the acronym ICP, which means inductively coupled plasmids.

452

00:41:23,800 --> 00:41:28,800

A really good technique for identifying elements.

453

00:41:28,800 --> 00:41:34,800

There is elevated boron on the private leaves and not on the control leaves.

454

00:41:35,800 --> 00:41:39,800

Boron is an element. It's number five on the periodic table.

455

00:41:39,800 --> 00:41:48,800

There was no elevated levels of boron in the soil, so there was no explanation as to where this boron came from.

456

00:41:48,800 --> 00:41:54,800

The tree that wasn't hit did not have anything like that on the leaves.

457

00:41:54,800 --> 00:41:58,800

My tree was definitely radiated with something from this craft.

458

00:41:59,800 --> 00:42:04,800

Boron is something that's commonly used in a lot of aerospace applications.

459

00:42:04,800 --> 00:42:12,800

It's also used in fertilizers and things like that, so it wouldn't be out of place, but in that amount on that tree, highly unusual.

460

00:42:15,800 --> 00:42:19,800

Samples also show elevated levels of magnesium.

461

00:42:19,800 --> 00:42:23,800

It came across something called faucets repetitions.

462

00:42:23,800 --> 00:42:27,800

It listed similar chemicals that are found in UFO investigations.

463

00:42:27,800 --> 00:42:31,800

And what do you think shows up boron and magnesium?

464

00:42:32,800 --> 00:42:34,800

Take a closer look at that.

465

00:42:34,800 --> 00:42:51,800

You don't find the boron and magnesium generally in your trees in a backyard, but it's a common chemical found when somebody describes a close encounter of the second kind, where something touches soil leaves from a craft.

466

00:42:51,800 --> 00:42:57,800

I felt the testing proved that there was something that happened without a doubt.

467

00:42:57,800 --> 00:43:01,800

There was boron and magnesium in my tree, and it just doesn't get there by itself.

468

00:43:03,800 --> 00:43:11,800

Send those samples off to the lab, cemented that case to me, and saying, yes, this case involved alien contact.

469

00:43:11,800 --> 00:43:15,800

And yes, what Denise did see was an alien craft.

470

00:43:16,800 --> 00:43:23,800

Our understanding of science is only good until the next breakthrough happens.

471

00:43:23,800 --> 00:43:29,800

We may find out life is more abundant than we could have ever imagined.

472

00:43:32,800 --> 00:43:37,800

It's making me wonder now, since this has happened, like, anything's possible.

473

00:43:37,800 --> 00:43:46,800

And, you know, all those people that say things that happen now, like, you know, now I'm not going to, like, shun them or I'm really going to listen to them.

474

00:43:48,800 --> 00:43:50,800

Everything has changed.
