

1

00:00:00,000 --> 00:00:05,000

For centuries, mankind believed that life only existed here

2

00:00:05,100 --> 00:00:06,740

on Earth.

3

00:00:06,840 --> 00:00:12,280

But today, many scientists agree that we are not alone.

4

00:00:12,380 --> 00:00:15,880

Practically every human civilization that has ever

5

00:00:15,980 --> 00:00:24,060

existed tells us we are not alone in the cosmos.

6

00:00:24,160 --> 00:00:28,000

A long, long time ago, extraterrestrials came here and

7

00:00:28,500 --> 00:00:35,500

through a targeted mutation of our genes, we became human.

8

00:00:35,600 --> 00:00:39,580

We have, in theory, a worldwide civilization that

9

00:00:39,680 --> 00:00:43,680

has extraterrestrials interacting with it.

10

00:00:43,780 --> 00:00:46,520

And human beings, as we are today,

11

00:00:46,620 --> 00:00:52,220

who are possibly the genetic breeding of these aliens.

12

00:00:52,320 --> 00:00:55,620

If we're being visited, they've probably always been here.

13

00:00:56,620 --> 00:00:59,180

Millions of people around the world

14

00:00:59,280 --> 00:01:01,320

believe we have been visited in the past

15

00:01:01,420 --> 00:01:04,160

by extraterrestrial beings.

16

00:01:04,260 --> 00:01:07,020

But what if it were true?

17

00:01:07,120 --> 00:01:11,500

Did ancient aliens really help to shape our history?

18

00:01:11,600 --> 00:01:15,900

And if so, why did they come here?

19

00:01:16,000 --> 00:01:18,840

And just what was their mission?

20

00:01:25,620 --> 00:01:27,620

What was their mission?

21

00:01:27,720 --> 00:01:29,720

What was their mission?

22

00:01:29,820 --> 00:01:31,820

What was their mission?

23

00:01:31,920 --> 00:01:33,920

What was their mission?

24

00:01:34,020 --> 00:01:36,020

What was their mission?

25

00:01:36,120 --> 00:01:38,120

What was their mission?

26

00:01:38,220 --> 00:01:40,220

What was their mission?

27

00:01:40,320 --> 00:01:42,320

What was their mission?

28

00:01:42,420 --> 00:01:44,420

What was their mission?

29

00:01:44,520 --> 00:01:46,520

What was their mission?

30

00:01:46,620 --> 00:01:48,620

What was their mission?

31

00:01:48,720 --> 00:01:50,720

What was their mission?

32

00:01:50,820 --> 00:01:52,820

What was their mission?

33

00:01:53,320 --> 00:01:57,820

On July 20, 1969, the Apollo 11 mission

34

00:01:57,920 --> 00:02:01,520

reached its destination.

35

00:02:01,620 --> 00:02:05,320

And two men, Neil Armstrong and Buzz Aldrin,

36

00:02:05,420 --> 00:02:08,320

actually walked on the moon.

37

00:02:08,420 --> 00:02:11,220

They've got the flag up now, and you can see the stars and

38

00:02:11,320 --> 00:02:12,220

stars from the limit.

39

00:02:12,320 --> 00:02:13,220

They've got the flag up now.

40

00:02:13,320 --> 00:02:14,220

Beautiful.

41

00:02:14,320 --> 00:02:15,220

That's beautiful.

42

00:02:15,320 --> 00:02:19,020

It was the first time in history that beings left their home

43

00:02:19,120 --> 00:02:20,720

and traveled through space.

44

00:02:20,720 --> 00:02:24,320

Were we really the first creatures in the universe capable

45

00:02:24,420 --> 00:02:27,320

of traveling to another world?

46

00:02:31,420 --> 00:02:34,820

Given the vastness of the universe and the billions of years

47

00:02:34,920 --> 00:02:39,520

that it took to create our galaxy, is it so hard to imagine

48

00:02:39,620 --> 00:02:43,820

that such a thing might have happened before?

49

00:02:43,920 --> 00:02:47,820

Perhaps it's the first time in history that a human being

50

00:02:47,820 --> 00:02:52,920

might have happened before, perhaps thousands of times

51

00:02:53,020 --> 00:02:56,920

and over the course of millions of years.

52

00:02:57,020 --> 00:03:03,920

The ancient alien astronaut theory presupposes that thousands

53

00:03:04,020 --> 00:03:08,620

and thousands of years ago, even before recorded history,

54

00:03:08,720 --> 00:03:13,720

Earth was visited by astronauts from another world.

55

00:03:13,720 --> 00:03:19,720

If alien beings did in fact travel to Earth, why?

56

00:03:19,820 --> 00:03:26,220

Did they come to explore, to plunder, to study, to hunt,

57

00:03:26,320 --> 00:03:29,120

or to breed?

58

00:03:29,220 --> 00:03:31,820

When Armstrong and Aldrin explored their incredible

59

00:03:31,920 --> 00:03:36,220

surroundings, they found the moon a barren landscape.

60

00:03:36,320 --> 00:03:40,220

It seemed to offer little more than a lifeless oasis of rocks

61

00:03:40,320 --> 00:03:42,220

and dust.

62

00:03:44,220 --> 00:03:48,720

But in 1986, further testing determined that the lunar

63

00:03:48,820 --> 00:03:53,720

landscape actually contains a high amount of helium-3,

64

00:03:53,820 --> 00:03:57,520

an extremely powerful, non-polluting, non-radioactive

65

00:03:57,620 --> 00:03:59,120

fuel source.

66

00:04:01,820 --> 00:04:04,920

Experts estimate that a single space shuttle filled with

67

00:04:05,020 --> 00:04:08,520

this material could satisfy all the energy needs in the United

68

00:04:08,620 --> 00:04:11,320

States for an entire year.

69

00:04:14,220 --> 00:04:18,520

Think of it, are matas of spaceships, mining the moon

70

00:04:18,620 --> 00:04:22,420

and other planets for natural resources?

71

00:04:22,520 --> 00:04:25,620

Could this help explain why Earth might have served as a

72

00:04:25,720 --> 00:04:30,120

destination for travelers from other worlds?

73

00:04:30,220 --> 00:04:33,220

We'd go out there with robot mining crews and eventually

74

00:04:33,320 --> 00:04:38,420

human mining crews, mine those planets, extract the ore,

75

00:04:38,520 --> 00:04:41,920

ships would come, they'd take the ore and bring them back.

76

00:04:41,920 --> 00:04:45,420

Well, if we would do it, why wouldn't extraterrestrials?

77

00:04:48,620 --> 00:04:52,620

But if alien excavators did come to Earth perhaps thousands

78

00:04:52,720 --> 00:04:55,720

of years ago, wouldn't there be evidence?

79

00:04:59,420 --> 00:05:03,720

Here, in what is now known as Iraq, lies what is commonly

80

00:05:03,820 --> 00:05:07,420

regarded by historians and archaeologists as the cradle

81

00:05:07,520 --> 00:05:09,320

of civilization.

82

00:05:09,620 --> 00:05:14,920

Between 3500 and 1900 BC, the fertile area between the

83

00:05:15,020 --> 00:05:18,620

Tigris and Euphrates rivers was the home of the Sumerian

84

00:05:18,720 --> 00:05:19,720

people.

85

00:05:19,820 --> 00:05:23,020

The Sumerians were one of the first cultures that built

86

00:05:23,120 --> 00:05:27,920

actual cities with streets and a street grid, like almost

87

00:05:28,020 --> 00:05:30,920

like New York City where you have, you know, a square street

88

00:05:31,020 --> 00:05:31,920

grid.

89

00:05:32,020 --> 00:05:35,220

They invented cobblestones.

90

00:05:35,320 --> 00:05:38,320

They had a sewage system.

91

00:05:38,320 --> 00:05:40,820

They were taught in an agriculture.

92

00:05:43,420 --> 00:05:47,020

The Sumerians also invented the first known writing system

93

00:05:47,420 --> 00:05:50,220

by using cuneiform script on clay tablets.

94

00:05:51,320 --> 00:05:55,120

In the 19th century, archaeologists exploring the

95

00:05:55,220 --> 00:05:58,920

ancient ruins of Nineveh discovered 22,000 of these

96

00:05:59,020 --> 00:06:00,020

clay tablets.

97

00:06:00,920 --> 00:06:04,320

When they were later translated, the texts described

98

00:06:04,420 --> 00:06:07,720

many stories similar to those found in the Judeo-Christian

99

00:06:07,720 --> 00:06:08,720

Bible.

100

00:06:09,720 --> 00:06:13,720

Virtually every story that's in Genesis, the Flood story,

101

00:06:13,820 --> 00:06:17,020

Adam and Eve story, they all have precedence with the

102

00:06:17,120 --> 00:06:18,220

ancient Sumerians.

103

00:06:22,020 --> 00:06:26,620

In 1976, author Zechariah Sitchin published his own

104

00:06:26,720 --> 00:06:30,220

translations of the Sumerian texts in a series of books

105

00:06:30,320 --> 00:06:32,220

called The Earth Chronicles.

106

00:06:33,620 --> 00:06:37,120

According to Sitchin, the clay tablets describe an alien

107

00:06:37,120 --> 00:06:41,620

race known as the Anunnaki who came to Earth to mine gold.

108

00:06:43,820 --> 00:06:47,020

Zechariah Sitchin has essentially suggested that the

109

00:06:47,120 --> 00:06:51,420

reason why we were visited in the remote past is because

110

00:06:51,720 --> 00:06:56,120

the ancient astronauts home planet needed gold for their

111

00:06:56,220 --> 00:06:59,920

atmosphere and that their gold content in the atmosphere

112

00:07:00,320 --> 00:07:02,320

was depleting.

113

00:07:03,120 --> 00:07:07,820

So they came to Earth in order to mine gold and bring it back

114

00:07:07,920 --> 00:07:09,120

to their home planet.

115

00:07:16,520 --> 00:07:17,720

But why gold?

116

00:07:18,620 --> 00:07:21,620

What are the unique properties of this precious metal that

117

00:07:21,720 --> 00:07:23,920

might make it important and worth traveling through the

118

00:07:24,020 --> 00:07:25,020

galaxy for?

119

00:07:29,520 --> 00:07:32,020

I think for extraterrestrials, gold would be an

120

00:07:32,020 --> 00:07:33,820

important resource just like it is for us.

121

00:07:34,620 --> 00:07:37,720

If it's at all like our society, one of the major things

122

00:07:37,820 --> 00:07:39,520

that's going to be built on is electricity.

123

00:07:39,820 --> 00:07:42,520

And gold really is one of the top conductors and its

124

00:07:42,620 --> 00:07:46,120

maleability and its ability to make it into wires, use it

125

00:07:46,220 --> 00:07:48,820

in really small forms as nanoparticles, is going to make

126

00:07:48,920 --> 00:07:52,220

it an incredible technological resource for any sort of

127

00:07:52,320 --> 00:07:54,620

life forms that reach that level of dealing with

128

00:07:54,720 --> 00:07:56,520

electricity and technology as we do.

129

00:07:57,920 --> 00:08:01,820

One of the exciting directions is possibly as an energy

130

00:08:01,820 --> 00:08:05,520

source through properties called thermoelectric effects

131

00:08:05,620 --> 00:08:08,820

where it can take heat and turn it directly into electricity.

132

00:08:09,120 --> 00:08:12,620

This would be obviously a very nice clean energy source.

133

00:08:13,720 --> 00:08:17,920

With its capacity to create energy and conduct heat, some

134

00:08:18,020 --> 00:08:22,120

scientists believe gold may also be an invaluable asset in

135

00:08:22,220 --> 00:08:24,220

the construction of spaceships.

136

00:08:24,820 --> 00:08:26,920

Gold actually reflects infrared light.

137

00:08:27,320 --> 00:08:31,620

Infrared is basically light that's not quite red.

138

00:08:32,420 --> 00:08:35,320

And so you don't see it, but we interact with it as heat.

139

00:08:35,820 --> 00:08:38,220

The radiation will interact with your molecules and make

140

00:08:38,320 --> 00:08:40,320

them vibrate faster and you'll feel that as heat.

141

00:08:40,620 --> 00:08:43,720

So it makes a great heat shield, partly because it's so

142

00:08:43,820 --> 00:08:46,020

malleable you can make it very thin, it's easy to work

143

00:08:46,120 --> 00:08:48,120

with and it has great properties for reflecting

144

00:08:48,220 --> 00:08:49,020

and heat protection.

145

00:08:53,220 --> 00:08:56,620

The only metal that really lasts is gold.

146

00:08:56,920 --> 00:08:58,620

Gold is indestructible.

147

00:08:59,020 --> 00:09:03,220

All gold from ancient times still exists today.

148

00:09:05,420 --> 00:09:10,220

If you look at Zacharias' Sitchin's theories that ETs came

149

00:09:10,320 --> 00:09:13,320

down from another planet in our solar system, which is on a

150

00:09:13,420 --> 00:09:17,520

3600 year elliptical orbit, that they were running out of

151

00:09:17,620 --> 00:09:21,520

minerals and gold specifically that they somehow needed to

152

00:09:21,620 --> 00:09:23,420

line their atmosphere with.

153

00:09:24,420 --> 00:09:28,820

This extraterrestrial stage is first measure our planet and

154

00:09:28,920 --> 00:09:32,420

they have the instrument to find out where on this planet

155

00:09:32,520 --> 00:09:34,420

do we find raw material.

156

00:09:35,420 --> 00:09:39,420

Through their incredible equipment, they find a planet

157

00:09:39,520 --> 00:09:40,820

that has this.

158

00:09:40,920 --> 00:09:42,120

It's got gold.

159

00:09:42,220 --> 00:09:44,920

So they decide we're going to go there and we're going to

160

00:09:45,020 --> 00:09:45,420

mine.

161

00:09:45,520 --> 00:09:48,420

So they send some expeditions to planet Earth.

162

00:09:48,520 --> 00:09:52,320

All of a sudden they get here and the factions begin to

163

00:09:52,320 --> 00:09:56,020

say, well, there's a lot of gold here, but we're not digging

164

00:09:56,120 --> 00:09:56,920

it out.

165

00:09:57,020 --> 00:09:57,920

What are we going to do?

166

00:09:58,020 --> 00:09:59,120

We need workers.

167

00:10:00,720 --> 00:10:04,520

The story that came down to the Samaritans is that the Anunnaki

168

00:10:04,620 --> 00:10:11,020

were mining gold on the Earth and the run of the mill workers

169

00:10:11,120 --> 00:10:14,420

complained that this is really hard work and we're tired.

170

00:10:14,520 --> 00:10:16,420

We don't want to do this anymore.

171

00:10:16,520 --> 00:10:18,120

And so they had a big council.

172

00:10:18,220 --> 00:10:21,120

They decided to create a primitive worker called the

173

00:10:21,120 --> 00:10:21,920

Anudamo.

174

00:10:25,520 --> 00:10:29,520

So they look at what is on this planet and that is Homo erectus

175

00:10:29,620 --> 00:10:32,520

and they say, well, they're not very intelligent and they're

176

00:10:32,620 --> 00:10:33,920

not going to listen to us.

177

00:10:34,020 --> 00:10:36,520

So we're going to genetically alter them.

178

00:10:37,620 --> 00:10:41,120

The Anunnaki created humans as a slave species.

179

00:10:41,220 --> 00:10:44,720

According to Zechariah's sitchin, the Adamu were the

180

00:10:44,820 --> 00:10:46,720

first modern humans.

181

00:10:46,820 --> 00:10:49,320

They were created by the Anunnaki.

182

00:10:49,320 --> 00:10:54,520

450,000 years ago when they genetically mixed their DNA with

183

00:10:54,620 --> 00:10:56,120

that of prehistoric man.

184

00:10:58,720 --> 00:11:02,720

They took one cell of one of these ancestors of us.

185

00:11:02,820 --> 00:11:06,520

They changed the cell by an artificial mutation.

186

00:11:06,620 --> 00:11:09,720

They changed the DNA code what our genetics are doing every

187

00:11:09,820 --> 00:11:10,420

day.

188

00:11:10,520 --> 00:11:12,320

It's carved in their stone.

189

00:11:12,420 --> 00:11:14,520

This is not something made up.

190

00:11:14,620 --> 00:11:16,920

This is part of the Samaritan history.

191

00:11:16,920 --> 00:11:21,120

They believed that the gods came down and created them and

192

00:11:21,220 --> 00:11:23,120

they were their slave species.

193

00:11:23,220 --> 00:11:27,120

They knew that and they didn't have any philosophical beliefs

194

00:11:27,220 --> 00:11:29,220

about the purpose of man or anything.

195

00:11:30,320 --> 00:11:34,520

You believe Sitchin's theory that mankind was created by

196

00:11:34,620 --> 00:11:36,920

E.T.'s for slave laborer.

197

00:11:37,020 --> 00:11:39,520

All of a sudden it makes sense.

198

00:11:39,620 --> 00:11:42,720

And then when you look at the biblical terms of what may have

199

00:11:42,820 --> 00:11:46,620

happened, you see that the human race is a human race.

200

00:11:46,620 --> 00:11:47,420

What may have happened?

201

00:11:47,520 --> 00:11:48,720

Adam and Eve?

202

00:11:48,820 --> 00:11:53,720

Sure, they may have been two individuals back a long time ago,

203

00:11:53,820 --> 00:11:55,320

the beginning of time.

204

00:11:55,420 --> 00:11:58,620

But perhaps Adam and Eve were the first of the genetically

205

00:11:58,720 --> 00:12:00,720

created human beings.

206

00:12:04,120 --> 00:12:07,620

Closer comparisons between the Hebrew Bible and the Samaritan

207

00:12:07,720 --> 00:12:12,720

texts reveal many similarities, not only in their stories,

208

00:12:12,820 --> 00:12:15,420

but also in their language.

209

00:12:15,520 --> 00:12:17,520

Is Hebrew for man?

210

00:12:17,620 --> 00:12:21,720

Adamu is what the Samaritans refer to as first man,

211

00:12:21,820 --> 00:12:24,320

the Anunnaki slaves.

212

00:12:24,420 --> 00:12:28,920

But do the Samaritan tablets actually describe an alien race,

213

00:12:29,020 --> 00:12:33,020

a race that conducted mining operations on a global scale?

214

00:12:38,520 --> 00:12:42,220

Thousands of miles away on the African continent,

215

00:12:42,220 --> 00:12:46,820

ruins of ancient gold mines have recently been discovered.

216

00:12:46,920 --> 00:12:50,820

The largest concentration can be found in South Africa,

217

00:12:50,920 --> 00:12:54,020

where some excavations, according to scientists,

218

00:12:54,120 --> 00:12:57,820

date back some 150,000 years.

219

00:12:57,920 --> 00:13:01,820

There are areas that have an abundance of gold right now,

220

00:13:01,920 --> 00:13:04,020

so it's very possible that they could have mine it.

221

00:13:04,120 --> 00:13:06,420

Now the big question is, how do we know they weren't human

222

00:13:06,520 --> 00:13:08,320

beings that simply did that?

223

00:13:08,420 --> 00:13:11,720

Why the E.T. theory?

224

00:13:11,820 --> 00:13:15,620

In many languages in Africa, the native word for star

225

00:13:15,720 --> 00:13:19,020

means bringer of knowledge or enlightenment.

226

00:13:19,120 --> 00:13:23,320

Some African cultures believe that extraterrestrial beings

227

00:13:23,420 --> 00:13:27,320

have been visiting the Earth for tens of thousands of years.

228

00:13:27,420 --> 00:13:31,420

Zulu legends speak of a time when visitors from the stars

229

00:13:31,520 --> 00:13:35,620

came to excavate gold and other natural resources.

230

00:13:35,720 --> 00:13:38,820

These mines were worked by artificially produced flesh

231

00:13:38,820 --> 00:13:42,420

and blood slaves created by the first people.

232

00:13:42,520 --> 00:13:45,720

Some ancient mines in Southern Africa are thought to be

233

00:13:45,820 --> 00:13:49,020

100,000 years old or older.

234

00:13:49,120 --> 00:13:53,220

If humans weren't doing that mining 100,000 years ago

235

00:13:53,320 --> 00:13:56,320

and making metals, then we would have to assume

236

00:13:56,420 --> 00:13:58,720

it would be extraterrestrials doing it.

237

00:13:58,820 --> 00:14:00,920

Alien slave mines?

238

00:14:01,020 --> 00:14:03,720

Genetically engineered humans?

239

00:14:03,820 --> 00:14:06,720

To believers of ancient astronaut theory,

240

00:14:06,720 --> 00:14:10,620

these notions are not far-fetched fantasies or fairy tales,

241

00:14:10,720 --> 00:14:12,120

but facts.

242

00:14:12,220 --> 00:14:15,620

And they point to additional evidence of alien mining

243

00:14:15,720 --> 00:14:19,620

a half world away on the American continent.

244

00:14:25,620 --> 00:14:29,620

Peru has long been known as the Land of Gold.

245

00:14:29,720 --> 00:14:34,620

In ancient times, Incan rulers adorned themselves with it.

246

00:14:34,620 --> 00:14:38,520

And when the Spanish explorers arrived in the 16th century,

247

00:14:38,620 --> 00:14:43,520

they sent shiploads of their plunder back home to Spain.

248

00:14:43,620 --> 00:14:47,520

Gold was largely a valuable commodity because of being rare

249

00:14:47,620 --> 00:14:50,520

and easy to make jewelry, coinage,

250

00:14:50,620 --> 00:14:52,520

and they're looking at like the ancient Incas.

251

00:14:52,620 --> 00:14:55,520

Those people are using gold as a status symbol.

252

00:14:55,620 --> 00:14:59,520

Many cultures thought it came directly from the gods.

253

00:14:59,620 --> 00:15:03,520

People thought gold was so pure, so wonderful, it must heal,

254

00:15:03,520 --> 00:15:07,420

and they would actually occasionally ingest pure gold.

255

00:15:07,520 --> 00:15:12,420

Certainly, we're discovering more and more as we get better at archaeology

256

00:15:12,520 --> 00:15:16,420

and as we can look into these things, applications that people have used.

257

00:15:16,520 --> 00:15:20,420

For instance, there was some evidence that ancient people had very primitive batteries

258

00:15:20,520 --> 00:15:23,420

and this would be a place in which gold would be very useful

259

00:15:23,520 --> 00:15:27,420

because of its electrical properties and its conductivity.

260

00:15:27,520 --> 00:15:30,420

It should not be surprising then

261

00:15:30,420 --> 00:15:35,320

that people would find archaeological evidence of ancient gold mines.

262

00:15:35,420 --> 00:15:42,320

But some sites have recently been discovered that date back some 50,000 years.

263

00:15:42,420 --> 00:15:47,320

All throughout areas in Peru, you see remnants of what could have been

264

00:15:47,420 --> 00:15:50,320

ancient mining operations.

265

00:15:50,420 --> 00:15:55,320

It's there. They go down some cases thousands of feet deep.

266

00:15:55,420 --> 00:15:58,320

Gold turns out to be surprisingly easy to mine for

267

00:15:58,320 --> 00:16:01,220

even though it's relatively rare.

268

00:16:01,320 --> 00:16:04,220

There's a lot of common techniques ancient people used

269

00:16:04,320 --> 00:16:07,220

and some of them were used well into recent times.

270

00:16:07,320 --> 00:16:12,220

A lot of it involves using water often to change the properties of the rock around it.

271

00:16:12,320 --> 00:16:19,220

A lot of heating and freezing and the gold will come loose.

272

00:16:19,320 --> 00:16:23,220

In addition to gold, other ancient sites in Peru

273

00:16:23,320 --> 00:16:27,220

provide evidence that they were once mined for quartz.

274

00:16:27,220 --> 00:16:31,120

Hematite and red ochre.

275

00:16:31,220 --> 00:16:35,120

They're used for different things. Quartz is incredibly common.

276

00:16:35,220 --> 00:16:38,120

It's basically silicon dioxide. It's kind of like glass.

277

00:16:38,220 --> 00:16:43,120

It's a great mineral. It's hard, but it can be formed into pretty sculptures.

278

00:16:43,220 --> 00:16:46,120

You can make quartz statues.

279

00:16:46,220 --> 00:16:50,120

You could probably even use it for money before you discovered minerals and gold.

280

00:16:50,220 --> 00:16:57,120

Hematite and ochre are much more valuable because of their iron oxides.

281

00:16:57,220 --> 00:17:00,120

And particularly ochre is important as a pigment.

282

00:17:00,220 --> 00:17:04,120

So as soon as you're going to start having painting, cave drawings even,

283

00:17:04,220 --> 00:17:07,120

or any sort of artwork, you need to make colors.

284

00:17:07,220 --> 00:17:14,120

And making color can be a challenge and ochre is a great source of that.

285

00:17:14,220 --> 00:17:19,120

Also located in Peru are the world famous Nazca lines.

286

00:17:19,220 --> 00:17:23,120

While the origins of these ancient geoglyphs remain a mystery,

287

00:17:23,120 --> 00:17:30,020

the area in which the lines are located suggests that a major excavation took place there,

288

00:17:30,120 --> 00:17:34,020

perhaps hundreds of centuries ago.

289

00:17:34,120 --> 00:17:38,020

Now Nazca entire mountain tops have been removed.

290

00:17:38,120 --> 00:17:42,020

I mean, this all requires machining.

291

00:17:42,120 --> 00:17:48,020

And I'm not talking, you know, a little wheelbarrow and a pick.

292

00:17:48,020 --> 00:17:55,920

I'm talking sophisticated machinery because we today would also need sophisticated machinery

293

00:17:56,020 --> 00:17:58,920

in order to achieve such feats.

294

00:17:59,020 --> 00:18:06,920

Could the vast flat plain located in the Nazca desert be evidence of a gigantic mining operation?

295

00:18:07,020 --> 00:18:11,920

One that took place hundreds of thousands of years ago.

296

00:18:11,920 --> 00:18:19,820

Whoever comes here in a spaceship, Nazca would be like a beacon as in come here

297

00:18:19,920 --> 00:18:26,820

because the moment you come to Nazca, you're sort of confronted with a cliff note to planet Earth,

298

00:18:26,920 --> 00:18:32,820

where you have all sorts of raw materials that exist in that one particular spot

299

00:18:32,920 --> 00:18:36,820

in very, very abundant quantities.

300

00:18:36,920 --> 00:18:40,820

I think the Nazca lines aren't evidence of search for gold,

301

00:18:40,820 --> 00:18:47,720

they're evidence of some communication with possibly ETs or gods from above.

302

00:18:47,820 --> 00:18:52,720

But despite the controversy, one thing is certain.

303

00:18:52,820 --> 00:19:00,720

The plain and the lines that scar the surrounding countryside are not natural formations.

304

00:19:00,820 --> 00:19:08,720

But while scientists and ancient astronaut theorists remain divided about who or what created the Nazca lines,

305

00:19:08,720 --> 00:19:11,620

they are in agreement about one thing.

306

00:19:11,720 --> 00:19:21,620

The so-called Band of Holes, located in the Pisco Valley, is a complete mystery.

307

00:19:21,720 --> 00:19:28,620

In the mountains of Peru, we have what's commonly referred to as the Band of Holes.

308

00:19:28,720 --> 00:19:37,620

And it is this Band of Holes that were carved or dug into the mountainside.

309

00:19:37,620 --> 00:19:45,520

It's a bunch of little shallow holes dug into the ground, and it's had all kinds of explanations.

310

00:19:45,620 --> 00:19:51,520

Some people say it was just pot hunters, you know, looting, looking for burials.

311

00:19:51,620 --> 00:19:56,520

Some people think it looks like some kind of machine was running over the territory.

312

00:19:56,620 --> 00:20:02,520

Some people think it was some kind of systematic mining operation.

313

00:20:02,520 --> 00:20:07,420

They need raw material, be it gold, be it silver, be it uranium, whatever they need something.

314

00:20:07,520 --> 00:20:10,420

And they send something down like a shuttle.

315

00:20:10,520 --> 00:20:14,420

It can be a robot. No, extraterrestrials are on board.

316

00:20:14,520 --> 00:20:23,420

And this robot just crashes over the surfaces and collects and measures raw material and disappears again.

317

00:20:23,420 --> 00:20:33,320

The holes run about three feet apart and measure six to seven feet in depth and number in the thousands.

318

00:20:33,420 --> 00:20:40,320

Often we see regular structures like that and we assume either a person or intelligent life had to make it.

319

00:20:40,420 --> 00:20:47,320

But there's lots of examples in nature where the natural processes lead to large-scale what we call pattern formation.

320

00:20:47,420 --> 00:20:49,320

You see it on a small scale in animals.

321

00:20:49,320 --> 00:20:53,220

You look at leopards and zebras. Leopards have spots, zebras have stripes.

322

00:20:53,320 --> 00:20:58,220

Surprisingly on geological scales some of the same processes that give you spots on a leopard

323

00:20:58,320 --> 00:21:03,220

could give you indentations in the ground and raised areas that would look like holes.

324

00:21:03,320 --> 00:21:12,220

It would take a long time over geological scales, but we've had a long time and that might be what they're left over from.

325

00:21:12,220 --> 00:21:23,120

Mainstream archaeologists suggest the holes were used to store grain, but ancient astronaut theorists reject that notion.

326

00:21:23,220 --> 00:21:32,120

It's a mystery because who in their right mind would go ahead and dig all these holes for what?

327

00:21:32,220 --> 00:21:41,120

The other intriguing aspect about the band of holes is that you can only see it from the air.

328

00:21:41,120 --> 00:21:48,020

When you stand down there all you see is a couple of holes dug into the ground and it doesn't really mean much.

329

00:21:48,120 --> 00:21:56,020

But if you're up in the air there is this long band with these individual holes that you can see

330

00:21:56,120 --> 00:22:09,020

and you can conceivably create some type of message that can only be seen from the air.

331

00:22:09,020 --> 00:22:14,920

But if ancient aliens came to Earth searching for gold, why did they leave?

332

00:22:15,020 --> 00:22:20,920

More gold still exists here as do many other valuable minerals.

333

00:22:21,020 --> 00:22:27,920

Could it be that ancient mining operations were just the means to another possibly greater end?

334

00:22:28,020 --> 00:22:35,920

Or perhaps the real alien mission on Earth was to hunt the greatest prey in the universe?

335

00:22:36,020 --> 00:22:38,920

Man.

336

00:22:39,020 --> 00:22:46,920

Alamosa, Colorado, September 7th, 1967.

337

00:22:47,020 --> 00:22:53,920

When a three-year-old horse named Snippy went missing, her owners grew concerned and went out

looking for her.

338

00:22:54,020 --> 00:22:57,920

Their search yielded a gruesome and mysterious discovery.

339

00:22:58,020 --> 00:23:05,920

Snippy's body had been mutilated almost surgically.

340

00:23:05,920 --> 00:23:13,820

An examination of the carcass showed that her skin and flesh had been neatly cut, her heart and brain had been removed,

341

00:23:13,920 --> 00:23:17,820

and a formaldehyde-like odor emitted from the remains.

342

00:23:17,920 --> 00:23:22,820

An autopsy also revealed that her spinal fluid had been removed.

343

00:23:22,920 --> 00:23:29,820

The events of Snippy's death stunned the community and remained shrouded in mystery even to this day.

344

00:23:29,820 --> 00:23:40,720

Since the mutilation, an estimated 50,000 similar events have been reported around the world, most of them involving cattle.

345

00:23:40,820 --> 00:23:46,720

But it was not until about the middle of the 1970s that cattle mutilations really entered into ufology.

346

00:23:46,820 --> 00:23:54,720

Farmers would come out and find some prized livestock that was alive and healthy the day before, then it was just suddenly dead.

347

00:23:54,720 --> 00:23:58,620

It looked like it had been cut up in a rather odd way.

348

00:23:58,720 --> 00:24:08,620

Certain parts of the body looked like they were cut out in ways that seemed to be almost surgical.

349

00:24:08,720 --> 00:24:16,620

Television producer and UFO investigator Linda Howe has been tracking the mystery of animal mutilation for over 30 years.

350

00:24:16,720 --> 00:24:21,620

I began trying to get to the bottom of what was happening to all of these animals.

351

00:24:21,620 --> 00:24:29,520

There were horses, cows, other domestic animals found for the same pattern of bloodless excisions.

352

00:24:29,620 --> 00:24:33,520

The law enforcement called them animal mutilations.

353

00:24:35,620 --> 00:24:42,520

266-some Polaroids from so many cases, and the first thing I felt was anger.

354

00:24:42,620 --> 00:24:47,520

And then I felt nervous and then I felt afraid.

355

00:24:48,520 --> 00:24:55,420

I sat across from sheriffs who told me, Linda we're not dealing with predators, disease and satanic cults.

356

00:24:55,520 --> 00:24:59,420

We're dealing with creatures from outer space.

357

00:25:03,520 --> 00:25:08,420

There are several explanations for why aliens would want to experiment on cows.

358

00:25:08,520 --> 00:25:15,420

One is that they're just looking for food, one that they're looking for some kind of information about vertebrate organisms.

359

00:25:15,420 --> 00:25:20,320

Another one is that they're looking for some kind of genetic material for some reason.

360

00:25:21,420 --> 00:25:32,320

The closest answer I've ever gotten was from a man who had had very upfront and close and personal observations of non-humans in his work for the government.

361

00:25:32,420 --> 00:25:38,320

He told me, he said, the best answer I can give you Linda is it's a genetic harvest.

362

00:25:38,420 --> 00:25:43,320

But once you have said a genetic harvest from Earth, there's even a bigger question.

363

00:25:43,320 --> 00:25:52,220

Why a genetic harvest from Earth? What is being made with this genetic harvest? To what end?

364

00:25:57,320 --> 00:26:02,220

The answer to these questions might be found in our ancient past.

365

00:26:02,320 --> 00:26:09,220

In the bizarre, almost Frankenstein-like experiments that were practiced by early civilizations.

366

00:26:10,220 --> 00:26:23,120

We have ancient descriptions from Egypt where it says specifically that the gods created these chimeras.

367

00:26:23,220 --> 00:26:36,120

Mixed beings or hybrids, we find paintings where you have a human body with a cut-off head and a red tube coming out of it.

368

00:26:36,120 --> 00:26:46,020

And next to it, you have just the head of some animal and in the next picture, because they look like comic strips almost,

369

00:26:46,120 --> 00:26:54,020

and in the next picture, you see the same human body with the animal head attached to the human neck.

370

00:26:54,120 --> 00:27:03,020

Incredibly, examples of strange human-animal hybrid beings date back to a time even older than ancient Egypt.

371

00:27:03,020 --> 00:27:09,920

According to mainstream archaeology, ancient Sumeria is the earliest civilization of humankind.

372

00:27:10,020 --> 00:27:25,920

And the interesting part is the fact that their earliest writings are filled with references of these bizarre beings that descended from the sky called the Anunnaki.

373

00:27:26,020 --> 00:27:29,920

Anunnaki means those who from the heavens came.

374

00:27:34,020 --> 00:27:38,920

But is there any physical evidence of these human-animal hybrids?

375

00:27:39,020 --> 00:27:42,920

If so, wouldn't we have found skeletal remains?

376

00:27:43,020 --> 00:27:48,920

The answer may have been found in Sakara, Egypt, home to that country's oldest pyramid.

377

00:27:49,020 --> 00:27:57,920

In 1851, French scholar and Egyptologist Auguste Mariette explored a deep-tomb dedicated to the sacred Apis Bowl.

378

00:27:58,020 --> 00:28:01,920

Inside were two sealed and intact sarcophagi.

379

00:28:01,920 --> 00:28:06,820

But when Mariette opened them, what they contained was shocking.

380

00:28:08,920 --> 00:28:13,820

They opened the sarcophagus and they didn't find a bull.

381

00:28:13,920 --> 00:28:23,820

Instead, they found this black mass of what's called bitumen, a type of asphalt, and inside this stinking mass,

382

00:28:23,920 --> 00:28:30,820

they found the bone fragments of seven different types of animals crushed up.

383

00:28:32,920 --> 00:28:41,820

According to the accompanying texts, some type of monsters existed during the time of the Egyptians.

384

00:28:41,920 --> 00:28:49,820

And so who knows whether or not the priests instructed the people to destroy these beings,

385

00:28:49,920 --> 00:28:54,820

to rip them apart, to crush their bones, and put them inside this stinking mass,

386

00:28:54,920 --> 00:29:00,820

and put them underneath a lid in the sarcophagus weighing 80 tons.

387

00:29:01,820 --> 00:29:07,720

I mean, in all of Egypt we can find mummified remains of every single animal,

388

00:29:07,820 --> 00:29:14,720

but we find these sarcophagi that contain these crushed up bones.

389

00:29:14,820 --> 00:29:23,720

Doesn't that mean the ancient Egyptians did not want for those creatures to ever return after their death?

390

00:29:24,720 --> 00:29:33,620

Of course, mainstream scientists and archaeologists believe ancient Greek and Egyptian stories of animal and human hybrids

391

00:29:33,720 --> 00:29:37,620

are just fanciful products of the imagination.

392

00:29:37,720 --> 00:29:39,620

But are they?

393

00:29:39,720 --> 00:29:44,620

There is this period in pre-Dynastic Egypt where these Damai gods ruled.

394

00:29:44,720 --> 00:29:47,620

We have not found human remains, we do not know who they were.

395

00:29:47,620 --> 00:29:54,520

But we do have scientific evidence that at least the ancient Egyptians believed firmly that they ruled.

396

00:29:54,620 --> 00:30:00,520

As to whether they are just human beings like you or I, or whether they come from somewhere else,

397

00:30:00,620 --> 00:30:04,520

or whether they are a hybrid being, we have no idea.

398

00:30:04,620 --> 00:30:12,520

What if ancient civilizations possessed the advanced scientific knowledge of our own modern-day scientists?

399

00:30:12,520 --> 00:30:19,420

What if they too had unlocked the mysteries of DNA, cloning and gene splicing?

400

00:30:20,520 --> 00:30:22,420

Why is this so fascinating?

401

00:30:22,520 --> 00:30:27,420

Well, because if you look at this from a genetics aspect,

402

00:30:27,520 --> 00:30:37,420

we're in the process right now today of being able to recreate creatures like that.

403

00:30:37,420 --> 00:30:42,320

I mean, this is Frankenstein, this is science fiction stuff, yet in ancient Egypt,

404

00:30:42,420 --> 00:30:52,320

we have the exact same descriptions, the exact same depictions of some very bizarre hybridization program,

405

00:30:52,420 --> 00:30:56,320

which took place thousands of years ago.

406

00:30:58,420 --> 00:31:06,320

They are mixing alien animals and human DNA, not just for 10 years or 20 years,

407

00:31:06,320 --> 00:31:10,220

but for thousands and thousands of years.

408

00:31:10,320 --> 00:31:13,220

And that's why there are so many alien abductions,

409

00:31:13,320 --> 00:31:18,220

and that's why each generation is psychically more advanced than the next,

410

00:31:18,320 --> 00:31:23,220

until we get to the complete union of two cultures, the ultimate hybrid.

411

00:31:26,320 --> 00:31:30,220

I think the answer clearly is, we're not alone in this universe,

412

00:31:30,220 --> 00:31:39,120

and we have non-human intelligences interacting with this planet for reasons that are still unknown to most of us.

413

00:31:39,220 --> 00:31:43,120

It leaves you feeling a little nervous.

414

00:31:43,220 --> 00:31:50,120

If alien beings came here, as some suggest, to perform strange mutation experiments on animals,

415

00:31:50,220 --> 00:31:53,120

could they have done the same on humans?

416

00:31:53,220 --> 00:31:56,120

And if so, why?

417

00:32:01,220 --> 00:32:08,120

Life on Earth comes in a tremendous diversity of shapes and sizes.

418

00:32:08,220 --> 00:32:16,120

It can be found from the depths of the deepest oceans, to the peaks of the highest mountains.

419

00:32:16,220 --> 00:32:24,120

But the vast array of life forms we see today is only a small portion of what has existed on this planet

420

00:32:24,220 --> 00:32:27,120

during its millions of years of history.

421

00:32:27,120 --> 00:32:38,020

In fact, scientists estimate that 97% of all the species that have ever lived on Earth are now extinct.

422

00:32:38,120 --> 00:32:50,020

Most scientists today will tell us that there have been six major extinction events that have occurred during the history of life on Earth.

423

00:32:50,020 --> 00:33:00,920

The most recent of these extinction events was the one that occurred 65 million years ago and wiped out the dinosaurs.

424

00:33:01,020 --> 00:33:14,920

Paleontologists attribute these mass extinctions to natural causes such as meteor strikes, floods, and dropping sea levels.

425

00:33:14,920 --> 00:33:22,820

But another theory suggests that these extinctions were not caused by nature, but by alien beings.

426

00:33:22,920 --> 00:33:30,820

In the ancient Sumerian texts, they can control whether they can cause droughts and they did this to humans.

427

00:33:30,920 --> 00:33:36,820

They are capable of producing their own diseases.

428

00:33:36,820 --> 00:33:45,720

But were now extinct life forms actually exterminated in order to make way for other perhaps more docile or desirable species?

429

00:33:45,820 --> 00:33:50,720

Was the intent to clear the way for colonization or invasion?

430

00:33:50,820 --> 00:33:59,720

And if so, what sort of technology would be needed to affect such a widespread change?

431

00:33:59,720 --> 00:34:06,620

Some theories say that we have that technology now called scalar technology.

432

00:34:06,720 --> 00:34:13,620

We heat up through high electrical impulses, a certain spot on the water, and that creates a hurricane.

433

00:34:13,720 --> 00:34:18,620

And by making a path with that beam, you can track the hurricane.

434

00:34:18,720 --> 00:34:26,620

Now if we can do that, and this is hypothetical, if we can do that, why can't an alien culture say,

435

00:34:26,620 --> 00:34:31,520

let's create an ice age on planet Earth?

436

00:34:31,620 --> 00:34:42,520

It will kill off the dinosaurs, but pave the way for aliens to implant human beings on planet Earth.

437

00:34:42,620 --> 00:34:47,520

Did alien beings come to Earth in order to stay?

438

00:34:47,620 --> 00:34:53,520

Might they, as some believe, have seeded it with their own genetic offspring?

439

00:34:53,520 --> 00:34:56,420

If so, where is the proof?

440

00:34:56,520 --> 00:35:05,420

Some ancient astronaut theorists point to myths that describe gods coming down from the heavens in order to mate with humans.

441

00:35:05,520 --> 00:35:12,420

Ancient texts talk about the fact that whoever visited the Earth in a remote past, these gods,

442

00:35:12,520 --> 00:35:16,420

thought that Earth women were quite beautiful.

443

00:35:16,420 --> 00:35:27,320

So in many occasions, we find stories where those visitors essentially mated with Earth women.

444

00:35:27,420 --> 00:35:33,320

It was misinterpreted, misunderstood as something divine that came here.

445

00:35:33,420 --> 00:35:38,320

They were flesh and blood extraterrestrials.

446

00:35:38,420 --> 00:35:46,320

Native American folklore refers to those beings who came down from the heavens to breed with Earth women as star people.

447

00:35:46,420 --> 00:35:54,320

The star people are extraterrestrial people.

448

00:35:54,420 --> 00:35:58,320

They are not from this Earth.

449

00:35:58,420 --> 00:36:04,320

They visit. They are star ancestors.

450

00:36:04,420 --> 00:36:11,320

There's a great deal of interaction between them,

451

00:36:11,320 --> 00:36:20,220

like some of the American Indian star husband tales where some woman sleeping outside at night looks up at a star

452

00:36:20,320 --> 00:36:27,220

and thinks it's very beautiful and would like to go there and winds up finding herself in the morning being pulled up into heaven

453

00:36:27,320 --> 00:36:35,220

and meeting with a supernatural being who was associated with that star and becoming the bride of the star husband.

454

00:36:35,220 --> 00:36:45,120

According to Native American mythology, the brides of these alien beings would become pregnant and give birth to star children.

455

00:36:45,220 --> 00:36:55,120

They would be raised by the native mother until the age of six when they went to live with their star father.

456

00:36:55,220 --> 00:37:05,120

Similar stories of intimate encounters between celestial beings and humans can be found in ancient Hebrew and Judeo-Christian Testaments.

457

00:37:05,220 --> 00:37:13,120

They are often referred to as the Sudapagraph or what many refer to as the Apocrypha.

458

00:37:13,220 --> 00:37:22,120

There are lots of instances in the Sudapagraph. These are the books that didn't make it into the Bible where people are visited by beings that aren't from this Earth.

459

00:37:22,220 --> 00:37:32,120

Before the Bible became the Bible of today, there were many additional books that used to be a part of the Bible.

460

00:37:32,120 --> 00:37:45,020

They were removed in what was called the Council of Nicaea because those books contained too much information, dangerous knowledge.

461

00:37:45,120 --> 00:37:56,020

Genesis 6 talks about these watchers that are kind of angels that came down from heaven and had sex with the women of the Earth.

462

00:37:56,020 --> 00:38:04,920

These strangers had sex with beautiful young girls on our planet. How can angels have sex?

463

00:38:05,020 --> 00:38:14,920

This is impossible. In our view, angels were something spiritual, not something that has a body and a feeling of sex, but they had sex.

464

00:38:15,020 --> 00:38:23,920

Our prehistoric ancestors could not understand and they believed that these extraterrestrials are some kind of gods.

465

00:38:23,920 --> 00:38:32,820

The conception of the Christ, an angel comes to the holy mother, to the Virgin Mary, tells her that she is going to be blessed by God with a child.

466

00:38:32,920 --> 00:38:37,820

And then, essentially, she finds herself pregnant.

467

00:38:37,920 --> 00:38:51,820

There is an angelic reality portent in the New Testament, whether it be at the birth of Jesus or his resurrection, we've got the possibility of other powers from another world being involved from the beginning to the end.

468

00:38:51,820 --> 00:39:05,720

The more literal version is the idea that Jesus is strictly alien, which, of course, is since he is. Even if you take him as the Son of God, then obviously he is not of this Earth.

469

00:39:05,820 --> 00:39:14,720

I tend to believe that Jesus was a very spiritual human being who understood a lot of things that we're beginning to learn today.

470

00:39:14,720 --> 00:39:27,620

But it's also very possible that he might have been an extraterrestrial who came down to teach us things. That defined intelligence is very real in some form or fashion.

471

00:39:32,720 --> 00:39:40,620

Tales of gods made in with humans are prevalent in everything from Greek and Roman mythology to Native American legends.

472

00:39:41,620 --> 00:39:54,520

In China, at the end of the 5th century BC, the country was divided into seven states, each ruled

by powerful warlords who battled for territory and power.

473

00:39:54,620 --> 00:40:01,520

It was during this turbulent era when the legendary story of Huang Di first appeared.

474

00:40:02,520 --> 00:40:10,420

A great god took the form of a dragon and came down to a hilltop where a young maiden was out gathering fruit.

475

00:40:11,520 --> 00:40:18,420

And as this great dragon came near, the sky darkened. It was like a storm. She was terrified and she passed out.

476

00:40:18,520 --> 00:40:27,420

When she came awake again, the sun had come out again and the dragon was gone and she was pregnant.

477

00:40:27,420 --> 00:40:41,320

Much like the story of the Virgin Mary and Jesus, the story of Huang Di told of an earthling woman who would give birth to him, the legendary first emperor of China who ushered in a time of great change.

478

00:40:41,420 --> 00:40:49,320

Gods deliberately bred with humans so that they could produce, they could get a race that they could trust and control a little bit better.

479

00:40:50,320 --> 00:40:55,220

In my mind, legends and myths are based on something real.

480

00:40:55,320 --> 00:41:05,220

While they've been mythified and distorted and exaggerated in many cases, but there's in my mind some core of truth here.

481

00:41:07,320 --> 00:41:14,220

Another prevalent theme in ancient texts, myths and religions is that of a cataclysm of some kind.

482

00:41:15,220 --> 00:41:22,120

Usually, these come in the form of an intense flood, fire or other devastating catastrophe.

483

00:41:23,220 --> 00:41:30,120

In the Hebrew Bible, for example, God punishes mankind for their decadence and sinful ways.

484

00:41:30,220 --> 00:41:44,120

He sends punishment in the form of a great flood, which destroys nearly all living things on the

planet, except for Noah, his family and the animals rescued by the fire.

485

00:41:44,220 --> 00:41:51,120

He then abhors his ark. Similar stories can be found in numerous ancient texts.

486

00:41:51,220 --> 00:42:01,120

Many of the mythical tales of most civilizations include some kind of idea that there are gods that came to earth at some point.

487

00:42:01,120 --> 00:42:21,020

One interpretation has been that these are literal descriptions of visitors from space, not gods, but some creatures with advanced technology that came to earth in times past and either created mankind,

488

00:42:21,120 --> 00:42:31,020

brought culture to the earth, brought civilization, and then for some reason departed, usually under some kind of breach between gods and gods.

489

00:42:31,120 --> 00:42:42,020

Take the case of the once thriving Mesoamerican cultures of the Aztecs and the Mayans.

490

00:42:42,120 --> 00:42:47,020

By the year 1500 AD, they had all but vanished.

491

00:42:47,120 --> 00:42:57,020

But why? Was there a natural disaster of some kind? Or is there another, more otherworldly explanation?

492

00:42:57,020 --> 00:43:05,920

At some point, it all crashed in a cataclysmic disaster.

493

00:43:06,020 --> 00:43:15,920

And the world, as they knew it, came to an end and tidal waves washed across continents.

494

00:43:16,020 --> 00:43:24,920

Areas of the planet went underwater, and the megalithic building that was going on then too, also completely stopped.

495

00:43:24,920 --> 00:43:37,820

And it's what we see at certain areas like in Peru, where giant blocks of granite have been quarried and harshly moved to where they were going.

496

00:43:37,920 --> 00:43:42,820

But then it all came to a sudden, complete halt.

497

00:43:43,720 --> 00:43:53,720

For nearly 3,000 years, the Mayan civilization thrived in Central America.

498

00:43:53,820 --> 00:44:01,720

Among their many accomplishments, the ancient Maya invented a remarkably complex and accurate calendar.

499

00:44:01,820 --> 00:44:08,720

According to scholars, the calendar started on August 11, 3114 BC.

500

00:44:08,720 --> 00:44:16,620

The first calendar cycle ends about 5,000 years later, on December 21, 2012.

501

00:44:16,720 --> 00:44:26,620

But why? Did the Mayans know something about mankind's future? Something we have forgotten or chosen to ignore?

502

00:44:26,720 --> 00:44:34,620

There's a lot of excitement being generated now about the Mayan calendar ending in year 2012.

503

00:44:34,620 --> 00:44:41,520

And if there is such a cataclysm or some massive earth change, it's suddenly going to occur.

504

00:44:41,620 --> 00:44:54,520

And so the idea that ancient people, like the Mayans say, were somehow totally in tune with this and had knowledge of these kind of vast cosmic cycles,

505

00:44:54,620 --> 00:45:03,520

which apparently lead to cataclysmic changes on the earth, that's the kind of advanced knowledge that we wouldn't expect them to have.

506

00:45:03,520 --> 00:45:10,420

And where would they get that kind of knowledge? You would think that would have to come from extraterrestrials.

507

00:45:10,520 --> 00:45:19,420

If we accept the notion that alien beings left behind the Mayan calendar as some type of ancient advanced warning device,

508

00:45:19,520 --> 00:45:23,420

might they have left other astronomical instruments here on earth?

509

00:45:23,520 --> 00:45:31,420

And if so, why was it so important for ancient civilizations to track the stars?

510

00:45:34,420 --> 00:45:40,420

The Stars

511

00:45:40,520 --> 00:45:51,420

Since the beginning of time, man has gazed in wonder at the night sky. Stars became the stuff of legends, home of the gods,

512

00:45:51,520 --> 00:45:55,420

and sometimes man's final resting place.

513

00:45:56,320 --> 00:46:03,320

It is no surprise then that ancient man built monuments dedicated to these celestial wonders.

514

00:46:03,420 --> 00:46:08,320

When we look at ancient monuments around the world, these megalithic structures,

515

00:46:08,420 --> 00:46:15,320

we find that many of them are aligned astronomically.

516

00:46:15,420 --> 00:46:23,320

To the sun, to planets, to stars, numerous examples can be listed.

517

00:46:23,320 --> 00:46:30,220

Stonehenge is essentially an ancient astronomical observatory.

518

00:46:30,320 --> 00:46:37,220

Yes, it may have been used for ritualistic purposes, it may have been used for religious purposes,

519

00:46:37,320 --> 00:46:44,220

but it's very clear that it was also used for astronomical purposes, for observations.

520

00:46:44,220 --> 00:46:51,120

We're not surprised whether it's Stonehenge, Pyramids, or perhaps the Nazca lines,

521

00:46:51,220 --> 00:46:58,120

that ancient people understood events that were going to happen in the sky and when they would repeat.

522

00:46:58,220 --> 00:47:03,120

But why was ancient man so fixated on the sky?

523

00:47:03,220 --> 00:47:11,120

And why did they construct elaborate stone monuments and temples in order to track the movements of the stars?

524

00:47:11,120 --> 00:47:15,020

Was it simply to help farmers know when to plant their crops?

525

00:47:15,120 --> 00:47:20,020

Or might there have been another, perhaps more, profound purpose?

526

00:47:20,120 --> 00:47:31,020

Could they, as some believe, have been constructed as a type of extraterrestrial GPS system?

527

00:47:32,020 --> 00:47:34,920

Napta Playa, Egypt

528

00:47:35,020 --> 00:47:44,920

500 miles south of Cairo, in Egypt's Nubian desert, sits one of the oldest astronomical sites ever discovered.

529

00:47:45,020 --> 00:47:55,920

In 1974, archaeologist Fred Wendorf almost passed it by, before noticing its small stone artifacts and toppled rocks.

530

00:47:56,920 --> 00:48:03,820

It's a very intriguing site, it's just strange stone formations, circles, stone alignments,

531

00:48:03,920 --> 00:48:09,820

bizarre, trimulize with strange rocks around them.

532

00:48:09,920 --> 00:48:16,820

Later excavations put the date of the astronomical device at approximately 5000 BC,

533

00:48:16,920 --> 00:48:23,820

making it close to 1000 years older than the remarkably similar formation at Stonehenge.

534

00:48:23,820 --> 00:48:29,720

When they brought an astronomer, they realized that it was a ceremonial site, very intensely astronomical.

535

00:48:29,820 --> 00:48:36,720

The intriguing thing about this site is that it shows that they were tracking stars over thousands of years.

536

00:48:36,820 --> 00:48:41,720

And to track stars over that period, they must have been aware of what we call precession,

537

00:48:41,820 --> 00:48:48,720

which means that they weren't simply astronomers or ancient astronomers, they were very sophisticated astronomers.

538

00:48:49,720 --> 00:48:59,620

Could the people who built Napta Playa 7000 years ago have possessed an advanced understanding of physics and astronomy,

539

00:48:59,720 --> 00:49:03,620

one that rivals or perhaps surpasses our own?

540

00:49:03,720 --> 00:49:07,620

And why were they tracking Orion and Sirius?

541

00:49:09,720 --> 00:49:16,620

In 1994, the mystery of Napta Playa took on even greater significance.

542

00:49:16,620 --> 00:49:25,520

When Robert Baval announced a surprising discovery along Egypt's Giza Plateau.

543

00:49:25,620 --> 00:49:29,520

The Great Pyramid contained four long interior shafts.

544

00:49:29,620 --> 00:49:37,520

Baval determined that they were each precisely aligned with specific stars in the sky.

545

00:49:37,620 --> 00:49:43,520

The southern ones aligned to the Belt of Orion and Sirius,

546

00:49:43,520 --> 00:49:47,420

and the northern ones aligned to the Sirius Polar stars.

547

00:49:47,520 --> 00:49:49,420

Again, this is very intriguing.

548

00:49:49,520 --> 00:49:53,420

In terms of construction engineering, that's bull's eye.

549

00:49:53,520 --> 00:49:58,420

As an engineer, I know that it's one thing building a pyramid,

550

00:49:58,520 --> 00:50:01,420

but it's another thing building a pyramid that kind of precision.

551

00:50:01,520 --> 00:50:08,420

Baval also proved that the three pyramids of Giza were laid out in the precise order and position

552

00:50:08,520 --> 00:50:12,420

of the three stars of the Orion's Belt constellation.

553

00:50:12,420 --> 00:50:22,320

But what exactly is the significance of the shaft alignment and the layout of the pyramids themselves?

554

00:50:22,420 --> 00:50:24,320

I mean, we're deciphering a message.

555

00:50:24,420 --> 00:50:28,320

The question is whether it is religious or whether it is a stellar message.

556

00:50:28,420 --> 00:50:39,320

The fact is that what we have on the ground is an image of a constellation that we know now is the birthplace of stars.

557

00:50:39,320 --> 00:50:49,220

Little stars are being born in there, and the Egyptians themselves believe that their gods had descended from the stars.

558

00:50:49,320 --> 00:50:53,220

That could be either a knowledge of ancient astronomy,

559

00:50:53,320 --> 00:50:59,220

or it could also be a roadmap to where these ETs may have come from.

560

00:50:59,320 --> 00:51:05,220

But why were the ancients so fixated on the Orion and Sirius constellations?

561

00:51:05,220 --> 00:51:14,120

Some believe the answer can be found on the other side of the world in North America.

562

00:51:14,220 --> 00:51:18,120

Cholula, Mexico is home to the largest pyramid in the world.

563

00:51:18,220 --> 00:51:26,120

More than 3,000 years old, it is estimated that it took approximately 1,400 years to complete.

564

00:51:26,220 --> 00:51:31,120

Even though the Cholula pyramid doesn't look like much because of the overgrown vegetation,

565

00:51:31,120 --> 00:51:40,020

it is in fact the world's largest monument ever constructed by human hands.

566

00:51:40,120 --> 00:51:49,020

In fact, the volume of the Cholula pyramid, the whole pyramid complex, is 4.45 million cubic meters.

567

00:51:49,120 --> 00:51:59,020

The Great Pyramid in Egypt only has 2.5 million cubic meters in volume.

568

00:51:59,020 --> 00:52:19,920

So the Great Pyramid at Giza is way taller than the Cholula pyramid, but volume-wise, the Cholula pyramid is by far the largest man-made structure ever created on planet Earth.

569

00:52:20,020 --> 00:52:28,920

Originally built by the Olmecs in the 3rd century BC, the pyramid was later added on to and used by the Toltecs and the Aztecs.

570

00:52:29,020 --> 00:52:34,920

It was a place of religious ritual and human sacrifice.

571

00:52:35,020 --> 00:52:45,920

But along with its history of bloodshed, an examination of the pyramid reveals that the ancient cultures of the region had a remarkable understanding of astronomy.

572

00:52:46,020 --> 00:52:52,920

It's interesting to consider what the Aztec people thought about its origins.

573

00:52:52,920 --> 00:53:00,820

They did not think it was built by humans like us, which is our theory today.

574

00:53:00,920 --> 00:53:12,820

According to the ancient Aztec tradition, the Cholula pyramid was built by a being they called a giant.

575

00:53:12,820 --> 00:53:24,720

If you look at the Aztec cosmology, you'll see that these giant beings were identified with different celestial objects.

576

00:53:24,820 --> 00:53:36,720

The one in particular that is said to have built the Cholula pyramid is identified with the planet Venus.

577

00:53:36,720 --> 00:53:45,620

Both the Aztecs and the ancient Egyptians charted most of the planets in the solar system thousands of years before European astronomers.

578

00:53:45,720 --> 00:53:55,620

But why? And even more compelling is the fact that the two cultures were thousands of miles and half a world apart.

579

00:53:55,720 --> 00:54:04,620

Mainstream archaeologists are telling us that all these civilizations around the world, in the Americas, on remote Pacific islands, in Asia and Africa and Europe,

580

00:54:04,620 --> 00:54:15,520

that they're all disconnected with each other and that there wasn't some contact with South America and Egypt or any of these ancient civilizations.

581

00:54:15,620 --> 00:54:24,520

But really, it has to be the other way around. All of these ancient civilizations were connected in some way.

582

00:54:24,620 --> 00:54:31,520

But were these holy sites, as ancient astronaut proponents suggest, really connected to each other?

583

00:54:31,520 --> 00:54:37,420

And if so, why? Are they evidence of aliens coming to Earth?

584

00:54:37,520 --> 00:54:41,420

Whoa, I'm getting a series of lights right there. I got it, I got it, I got it.

585

00:54:41,520 --> 00:54:51,420

These reports that we continue to get from people of ET visitations and craft clearly points out to me that we're being visited and we have been visited.

586

00:54:51,520 --> 00:54:53,420

Well, there it is, over the left.

587

00:54:53,420 --> 00:55:02,320

They may have physically left the planet in terms of a civilization, but they're continuing to come back and monitor us for some reason.

588

00:55:02,420 --> 00:55:05,320

Wow, more appeared, bro.

589

00:55:05,420 --> 00:55:06,320

Yeah.

590

00:55:06,420 --> 00:55:17,320

If aliens are watching us today, what are they waiting for? Or, as some claim, have they already left messages for us in plain view?

591

00:55:23,420 --> 00:55:32,320

90 miles west of London, in the county of Wiltshire, the English countryside remains pretty much as it has for thousands of years.

592

00:55:32,420 --> 00:55:43,320

Small farms, stone walls and rolling green hills provide inhabitants with an environment of peace and stability.

593

00:55:43,420 --> 00:55:52,320

This historic region is also home to a large number of ancient sacred sites, many built thousands of years ago.

594

00:55:52,320 --> 00:56:01,220

It's an ancient sacred landscape where most of them occur. There are monuments that you know about Stonehenge, Ave Berry, Silverie Hill.

595

00:56:01,320 --> 00:56:14,220

This is one small area that seems to be a manipulated landscape that was done thousands of years ago where sacred rituals have taken place.

596

00:56:14,220 --> 00:56:27,120

But in 1978, Wiltshire's tranquil landscape became the focus of a controversy that persists to this day.

597

00:56:27,220 --> 00:56:39,120

Today, alongside the tracks of farm machinery, a new set of circles were found. No human tracks lead to the markings.

598

00:56:40,120 --> 00:56:57,020

There, carved in fields of wheat, barley and rye, were elaborate geometric patterns. Even more curious was the fact that much like the famed Nazca lines of Peru, the designs were only visible from the air.

599

00:56:57,120 --> 00:57:05,020

When you see it for the first time, you go, what in the world is that doing there? I mean, it's obviously not natural.

600

00:57:06,020 --> 00:57:15,920

There have been cases that have been traced back for hundreds of years, so-called mowing devil, where apparently some sort of devil supposedly mowed a field in a single night.

601

00:57:16,020 --> 00:57:22,920

But they became recognized as a phenomenon only when these circles started appearing in English wheat fields.

602

00:57:23,020 --> 00:57:31,920

They were very simple things at first, but they kept occurring year after year, and each year they seemed to get a little more elaborate.

603

00:57:31,920 --> 00:57:43,820

One of the early theories was that there was some kind of whirlwind that was making them, but as they became more elaborate, they also became associated with paranormal activity, particularly UFOs.

604

00:57:43,920 --> 00:57:50,820

Some people said they saw light in the field at night, and some people began to read that as a UFO presence.

605

00:57:51,920 --> 00:57:57,820

This circle in a Wiltshire field is just one of two hundred such markings to have been discovered in the last six weeks.

606

00:57:58,820 --> 00:58:03,720

To farmers and scientists, how they're formed or by whom remains a big mystery.

607

00:58:04,820 --> 00:58:18,720

Not surprisingly, the region became the focus of intense interest from UFO enthusiasts and skeptics, each offering explanations as to who or what was responsible for this strange phenomenon.

608

00:58:19,720 --> 00:58:28,620

But if in fact, alien beings from another planet were responsible for the crop circles, why were they making them in England?

609

00:58:28,720 --> 00:58:34,620

Were they trying to contact us? Or were their clues embedded in the designs?

610

00:58:34,720 --> 00:58:41,620

And was the proximity to Stonehenge and other ancient sites of any particular significance?

611

00:58:41,620 --> 00:58:49,520

So you have the idea of these earth energies and these ancient structures, and then the crop circles are appearing around them.

612

00:58:49,620 --> 00:58:56,520

And many of the crop circles appear to be some kind of signals of ancient writing.

613

00:58:56,620 --> 00:59:04,520

The crop circles are calling us back to a time before science and spirit got separated when we were whole. We had a sense of wholeness.

614

00:59:04,620 --> 00:59:10,520

And here they're landing near sacred sites that are from an ancient time when we did experience those things.

615

00:59:11,620 --> 00:59:19,520

When I saw the first photographs, I was haunted actually. Are these extraterrestrials doing this?

616

00:59:19,620 --> 00:59:24,520

Are we dealing with somebody who knows how to bend space and time?

617

00:59:24,620 --> 00:59:36,520

Our entire relationship with the universe and quantum physics and all of its complexities has been pushed hard by crop formations alone.

618

00:59:36,520 --> 00:59:48,420

Certainly it is one theory that extraterrestrials are trying to communicate in a big way through popular media.

619

00:59:48,520 --> 00:59:53,420

Crop circles do get in the newspapers all over the world. Perhaps that's what they want.

620

00:59:53,520 --> 00:59:59,420

These are being carefully designed. They're not accidental, both in terms of the shape and where they land.

621

00:59:59,520 --> 01:00:05,420

These aren't accidents. There's a mind behind this that's making these decisions.

622

01:00:05,420 --> 01:00:14,320

Where's that mind? What kind of body is it in?

623

01:00:14,420 --> 01:00:18,320

Scientists struggled to find an explanation for the phenomenon.

624

01:00:18,420 --> 01:00:30,320

Until in 1991, two self-proclaimed British pranksters, Doug Bauer and Dave Chorley, came forward

and proclaimed that they were the ones responsible.

625

01:00:30,320 --> 01:00:36,220

They showed how they could make crop circles in a single night using some very simple tools.

626

01:00:36,320 --> 01:00:41,220

At the time, people said, well, that must be the explanation for it.

627

01:00:41,320 --> 01:00:55,220

Nevertheless, some researchers remain skeptical that a single pair of elderly men could have created literally hundreds of designs in the dead of night, with little more than a few boards and some rope.

628

01:00:55,220 --> 01:01:02,120

You know what was very effective? You still will run into people, crop circles, oh, forget about them. Those two old guys made them.

629

01:01:02,220 --> 01:01:06,120

Come on, don't be so naive. They were done by those two old guys years ago.

630

01:01:06,220 --> 01:01:12,120

Why do you pay attention to them anymore? Very effective piece of disinformation.

631

01:01:12,220 --> 01:01:23,120

During the years that followed Bauer and Chorley's confession, crop circles continued to appear in the English countryside and at various locations around the world.

632

01:01:23,120 --> 01:01:28,020

Some were inarguably the work of artists or jokesters.

633

01:01:28,120 --> 01:01:40,020

But after studying soil samples and grain dispersion patterns in the disturbed farmland, researchers concluded that it would be impossible for all of these designs to be man-made.

634

01:01:40,120 --> 01:01:46,020

Well, in what we would consider to be a mysterious crop circle where we can't identify it being made by people, the lay is absolutely beautiful.

635

01:01:46,020 --> 01:01:53,920

The lay of the crop, it's like a million carpet layers came down and put these stalks of green down right parallel to one another.

636

01:01:54,020 --> 01:02:01,920

It's just a gorgeous thing to behold. When the hoaxers make them, they tend to be sloppy and messy because they haven't got that same force.

637

01:02:02,020 --> 01:02:06,920

They're doing handmade manipulation, which doesn't lay them down quite as beautifully.

638

01:02:07,820 --> 01:02:16,820

In 1991, noted biophysicist Dr. William Levenson put forth a startling new theory.

639

01:02:16,920 --> 01:02:32,820

After spending ten years studying crop circle sites and samples, he concluded that they were created by a complex energy system, which he called a spinning plasma vortex, that comes down from somewhere high up in the atmosphere.

640

01:02:36,920 --> 01:02:44,820

Biophysicist Levenson has now analyzed 350-some samples from crop formations in his career.

641

01:02:44,920 --> 01:02:48,820

Now, if Levenson were sitting here with me, he would say,

642

01:02:48,920 --> 01:02:55,820

All I can do is I can take you from the ground, I can take you from the crops, up.

643

01:02:55,920 --> 01:03:02,820

But I can't tell you what sets in motion that spinning plasma vortex in the first place.

644

01:03:02,820 --> 01:03:06,720

It's still a huge mystery.

645

01:03:06,820 --> 01:03:13,720

The anomalous things that happen inside crop circles are in fact one of the indications that you're in a so-called genuine circle.

646

01:03:13,820 --> 01:03:16,720

Because indeed, the weirdest things happen.

647

01:03:16,820 --> 01:03:21,720

Batteries fail. Brand new batteries. People go in with cameras. Cell phones don't work.

648

01:03:21,820 --> 01:03:26,720

There have been people who have started reading all kinds of messages into these crop circles.

649

01:03:26,720 --> 01:03:29,620

That they have some kind of digital significance.

650

01:03:29,720 --> 01:03:33,620

That you can read the kind of numerology and there will be a kind of message.

651

01:03:33,720 --> 01:03:38,620

People are really reading something into it.

652

01:03:38,720 --> 01:03:42,620

In terms of who or what is delivering them, we have no way to know that.

653

01:03:42,720 --> 01:03:46,620

We only have science fiction that tells us what's coming to visit us.

654

01:03:46,720 --> 01:03:49,620

So we have to just speculate about where this might be coming from.

655

01:03:49,720 --> 01:03:53,620

We have to wait for whatever the source is to introduce itself to us.

656

01:03:53,620 --> 01:04:02,520

Are we dealing with time travelers? Are we dealing with spiritual forces from some dimension we don't understand?

657

01:04:02,620 --> 01:04:09,520

Are we dealing with advanced intelligences that are not even in this galaxy that are from someplace else?

658

01:04:09,620 --> 01:04:15,520

And is this a form of communication? The conversations keep getting more and more complicated.

659

01:04:15,620 --> 01:04:21,520

Crop circles are our contact. We're being contacted just because we don't have the bodies to shake hands with.

660

01:04:21,520 --> 01:04:24,420

We have the evidence that the bodies have left us.

661

01:04:24,520 --> 01:04:28,420

I'm absolutely convinced that crop circles are evidence of intelligent life.

662

01:04:28,520 --> 01:04:32,420

There is intelligence bombarding us, winking at us, waving.

663

01:04:32,520 --> 01:04:37,420

Are these mysterious crop circles messages or warnings?

664

01:04:37,520 --> 01:04:42,420

Or might they have another perhaps more profound purpose?

665

01:04:42,520 --> 01:04:47,420

Could they be futuristic clues guiding us to our ultimate destiny?

666

01:04:47,420 --> 01:04:52,320

Or ancient symbols paving the way for our ultimate destruction?

667

01:04:58,420 --> 01:05:01,320

Belize Central America

668

01:05:01,420 --> 01:05:08,320

In 1924 British adventurer Frederick Mitchell Hedges traveled here with his daughter Anna

669

01:05:08,420 --> 01:05:13,320

to explore the ruins of the ancient Mayan city of Lubantun.

670

01:05:13,320 --> 01:05:20,220

One afternoon Anna climbed to the top of a crumbling pyramid hoping to see the ocean.

671

01:05:20,320 --> 01:05:25,220

It was high noon and she was at the top and the way the sun came in, the way the rocks had moved

672

01:05:25,320 --> 01:05:31,220

and that there was just a small opening and the light from the sun went through and they hit the top of the skull.

673

01:05:31,320 --> 01:05:36,220

And she ran down and she was all excited. She said there's someone in there with a flashlight.

674

01:05:36,320 --> 01:05:43,220

Anna's father and others in their party were too large to fit inside the small opening of the pyramid.

675

01:05:43,320 --> 01:05:48,220

So they tied a rope around Anna and lowered her into the hole.

676

01:05:48,320 --> 01:05:53,220

When she came back up, Anna held the top of a strange crystal skull.

677

01:05:53,320 --> 01:05:57,220

A second search uncovered a matching jaw.

678

01:05:57,320 --> 01:06:06,220

The two-piece skull weighed 11 pounds seven ounces and appeared to be carved from a single piece of rock crystal.

679

01:06:06,320 --> 01:06:10,220

It's the only crystal skull which is almost perfectly humanoid.

680

01:06:10,220 --> 01:06:16,120

It's the only crystal skull which has a detachable jaw and when I say almost perfectly humanoid,

681

01:06:16,220 --> 01:06:20,120

the one thing which is missing is the sutures on the cranium.

682

01:06:20,220 --> 01:06:22,120

It has a perfect cranium.

683

01:06:22,220 --> 01:06:30,120

So it almost suggests that even though it's a human crystal skull, those who were carving it somehow felt that this creature was not born.

684

01:06:30,220 --> 01:06:34,120

It somehow came into this world perfectly.

685

01:06:34,220 --> 01:06:40,120

The skull's appearance created an immediate sensation among the local tribesmen.

686

01:06:40,220 --> 01:06:43,120

When the natives saw it, it was like their god had returned.

687

01:06:43,220 --> 01:06:46,120

They all started crying and kissing their earth and everything.

688

01:06:46,220 --> 01:06:49,120

They were just so excited and Mitchell had just seen this.

689

01:06:49,220 --> 01:07:01,120

He presented it to the high priest and they put it in an altar and for 24 hours a day they burned flames around the crystal skull.

690

01:07:01,220 --> 01:07:10,120

The Mayan elders believed that in ancient times, 13 crystal skulls were buried in secret places around the world.

691

01:07:10,220 --> 01:07:13,120

Currently, it is claimed that seven have been found.

692

01:07:13,220 --> 01:07:22,120

Four are in private collections and one each in the British Museum, the Smithsonian and the Kate

Bradley Museum in Paris.

693

01:07:22,220 --> 01:07:31,120

All have been the focus of intense examination, speculation and even worship.

694

01:07:31,220 --> 01:07:37,120

A lot of natives and a lot of people working with crystal skulls say that the high quartz content skulls

695

01:07:37,120 --> 01:07:46,020

and especially the quartz skulls themselves is the highest frequency or energy or vibration possible on the physical plane.

696

01:07:46,120 --> 01:07:51,020

And so a lot of native people kind of worshiped or took care of these objects

697

01:07:51,120 --> 01:07:58,020

because they knew that they had or felt that they had the highest energy possible on the earth plane.

698

01:07:58,920 --> 01:08:07,920

But what are the exact origins of these mysterious crystal skulls?

699

01:08:08,020 --> 01:08:18,920

Since their discovery, scientific tests have determined that the two owned by the British Museum and the Kate Bradley were not authentic pre-Columbian artifacts.

700

01:08:19,020 --> 01:08:23,920

Could it be that the Mitchell Hage's skull was also a fake?

701

01:08:24,820 --> 01:08:32,820

In the 1960s, it underwent extensive testing by art curator Frank Dorland and the Hewlett Packard Company.

702

01:08:32,920 --> 01:08:35,820

They used the most advanced stuff that they had.

703

01:08:35,920 --> 01:08:41,820

They could not find any marks on it except for around the jaw and I think a little bit around the eyes.

704

01:08:41,920 --> 01:08:45,820

The only place they saw tool marks using their techniques.

705

01:08:45,920 --> 01:08:50,820

At the time, Hewlett Packard found that the temperature always stays about the same temperature.

706

01:08:50,820 --> 01:08:52,720

No matter if it's in hot or cold.

707

01:08:52,820 --> 01:08:55,720

It was carved against the lines of the crystal.

708

01:08:55,820 --> 01:08:59,720

If anybody tried to do that, it would break into a thousand pieces.

709

01:08:59,820 --> 01:09:07,720

It's made out of a high level of electronic crystal and they're not really sure exactly where it came from.

710

01:09:07,820 --> 01:09:12,720

If you listen to the academics, crystal skulls are all modern fabrications.

711

01:09:12,820 --> 01:09:17,720

Meaning somebody has gone on there with a wheel and has carved them as such.

712

01:09:18,720 --> 01:09:24,620

And this is where the big divide is between established academics and alternative researchers like myself,

713

01:09:24,720 --> 01:09:29,620

who feel that the academics are not using all the available evidence to draw their conclusions.

714

01:09:29,720 --> 01:09:33,620

And in short, we believe that the academics are wrong in their conclusions.

715

01:09:38,720 --> 01:09:42,620

Are these skulls really ancient artifacts?

716

01:09:42,720 --> 01:09:47,620

And if not, who or what carved them?

717

01:09:47,720 --> 01:09:54,620

Crystal skulls, according to certain stories, yes, they're alien artifacts.

718

01:09:54,720 --> 01:09:58,620

Even some people think they're made on another planet.

719

01:10:01,720 --> 01:10:05,620

I think there are links between crystal skulls and extraterrestrials.

720

01:10:05,720 --> 01:10:10,620

Not necessarily that they were carved and created by extraterrestrials.

721

01:10:10,720 --> 01:10:13,620

That I've been told they were created by humans.

722

01:10:13,620 --> 01:10:19,520

But they were created specifically to hold records from alien civilizations.

723

01:10:19,620 --> 01:10:26,520

Could there actually be some type of coded information stored inside these skulls?

724

01:10:26,620 --> 01:10:30,520

And if there is, how could it be retrieved?

725

01:10:30,620 --> 01:10:37,520

There's a legend that there were 13 skulls and that when the 13 skulls come together,

726

01:10:37,620 --> 01:10:41,520

then something significant will change in the world.

727

01:10:42,520 --> 01:10:52,420

Legend suggests that there are 12 additional worlds out there, planets which are inhabited by intelligent species.

728

01:10:52,520 --> 01:11:03,420

Now, we belong to those worlds or to those planets and our planet Earth is called Planet of the Children.

729

01:11:04,420 --> 01:11:13,320

They also suggest that these 13 crystal skulls that allegedly exist on Planet Earth,

730

01:11:13,420 --> 01:11:19,320

were each brought here from one of those 12 planets.

731

01:11:19,420 --> 01:11:31,320

And the 13 skull is the one that apparently contains all of the information of all those 12 different worlds.

732

01:11:32,320 --> 01:11:38,220

Within each crystal skull, information is stored and in fact IBM has shown that too,

733

01:11:38,320 --> 01:11:43,220

that quartz crystal can store millions of gigabytes of information.

734

01:11:43,320 --> 01:11:52,220

And in fact any quartz crystal or a crystal skull could hold much more information than any computer we have now.

735

01:11:53,320 --> 01:12:01,220

So when these crystal skulls would be brought together, they begin to interface with each other.

736

01:12:02,320 --> 01:12:14,220

And ultimately, greater knowledge and information is condensed and brought to us and that's the legend of the crystal skulls.

737

01:12:14,320 --> 01:12:23,220

But as ancient astronaut theorists maintain, why would visiting aliens have given the crystal skull to the Maya?

738

01:12:23,320 --> 01:12:24,220

To what purpose?

739

01:12:24,320 --> 01:12:27,220

The skull is a very important motif for the Mayans.

740

01:12:27,220 --> 01:12:32,120

When you look around the Mayan monuments, you see skulls carved pretty much everywhere.

741

01:12:32,220 --> 01:12:36,120

They use it for some of that in the notation for calendars.

742

01:12:36,220 --> 01:12:43,120

And it is the Mayan calendar that many people refer to when discussing the possibility of a new Armageddon.

743

01:12:43,220 --> 01:12:47,120

Are the skulls somehow linked to this?

744

01:12:47,220 --> 01:12:51,120

The current keeper of the Mitchell-Hedges skull believes they are.

745

01:12:52,120 --> 01:12:58,020

2012, just a few years away, all these different things are happening, the wars, etc.

746

01:12:58,120 --> 01:13:04,020

And I think the skulls are coming forward to do what they were made to do.

747

01:13:04,120 --> 01:13:09,020

But are these skulls the trigger that will begin the dawn of a new era?

748

01:13:09,120 --> 01:13:19,020

Or will they simply be used as a tool by some form of extraterrestrial intelligence to guide mankind to its next stage of evolution?

749

01:13:19,020 --> 01:13:24,920

If so, is this intelligence waiting and watching for the right moment?

750

01:13:25,020 --> 01:13:28,920

And from where exactly could it be watching us?

751

01:13:37,020 --> 01:13:42,920

If extraterrestrial beings do exist in the universe, where are they?

752

01:13:42,920 --> 01:13:49,820

That was the question posed by Enrico Fermi, one of the leading scientists of the 20th century.

753

01:13:53,920 --> 01:14:01,820

Shortly after the Second World War, the famous physicist Enrico Fermi, who was taking part in the Manhattan Project to build the atomic bomb,

754

01:14:01,920 --> 01:14:06,820

was talking at Los Alamos with some friends about the reports of flying saucers.

755

01:14:06,820 --> 01:14:14,720

And Fermi suddenly said, in relation to extraterrestrial intelligent beings, where are they?

756

01:14:14,820 --> 01:14:23,720

And he was simply making the point that if there was a civilization somewhere in the galaxy that had arisen, say, 100 million years ago,

757

01:14:23,820 --> 01:14:26,720

then they had plenty of time to spread across the galaxy.

758

01:14:26,820 --> 01:14:34,720

Fermi said, gee, if there's all of these civilizations out there, on all of these planets out there, where is everybody?

759

01:14:36,820 --> 01:14:47,720

The Fermi paradox, as it became known, was an attempt to explain the lack of evidence of aliens, despite the mathematical probability of their existence.

760

01:14:47,820 --> 01:14:56,720

Up until this point, to modern time, no credible scholar, no credible scientist, looks at any of the evidence that ancient alien enthusiasts put forth and say,

761

01:14:56,820 --> 01:15:00,720

yes, this is evidence of ancient aliens, and no credible scholar does that.

762

01:15:00,720 --> 01:15:09,620

Moreover, the whole SETI project, the Search for Extraterrestrial Intelligence, has been going on now for nearly 50 years.

763

01:15:09,720 --> 01:15:18,620

The fact that we have found no radio telescope evidence of extraterrestrials plays very much into the Fermi paradox,

764

01:15:18,720 --> 01:15:28,620

in that it further indicates, if they're out there, why aren't we hearing from them, and we don't seem to be hearing from them.

765

01:15:31,720 --> 01:15:43,620

But in the 1960s, MIT astrophysicist John Ball rebutted Fermi's hypothesis with a controversial one of his own, the Zoo Hypothesis.

766

01:15:43,720 --> 01:15:58,620

A Zoo Hypothesis says that we are in a zoo or a wilderness area that they have essentially left

alone and are going to leave alone to allow us to develop in our own way in their own rate.

767

01:15:59,620 --> 01:16:12,520

Extraterrestrials have detected us on Earth, but have chosen not to come here, not to invade, but rather to observe us as we observe animals in the zoo.

768

01:16:15,620 --> 01:16:21,520

They've thought, we'll do a study of those earthlings and see what sort of people they are.

769

01:16:22,520 --> 01:16:35,420

Now why would they do this? Well, if on the one hand we have nothing they want, that's surely true, and on the other hand, we aren't able to interfere with whatever they're doing, that's also surely true.

770

01:16:35,520 --> 01:16:44,420

They're out there doing their own thing, and they're not paying any attention to us, and we're not clever enough to eavesdrop on whatever they're doing.

771

01:16:45,420 --> 01:17:01,320

That's the predicament we're in. We have something that is looking down and monitoring us. We are on the Petri dish, and we can't get out far enough to see what's behind those eyes behind that microscope.

772

01:17:02,320 --> 01:17:21,220

If aliens are watching us right now, where are they? Some believe they are sitting out in space in what are called Lagrange points, named after mathematician and astronomer Joseph Lagrange, who discovered them in 1772.

773

01:17:21,320 --> 01:17:26,220

There are five of these points between the sun, the earth, and our moon.

774

01:17:27,220 --> 01:17:39,120

Lagrange points are points between two bodies where the forces balance equally. Think of like a seesaw, when you have one really heavy person and one really light person, there's a kind of balance point in there, and that's what a Lagrange point is.

775

01:17:40,220 --> 01:17:52,120

Lagrange points is where we send some of our own satellites, and that's a point in space where you can just sort of sit there and head for millions of years if you had to, without having to worry about in-course corrections.

776

01:17:52,120 --> 01:18:01,020

If you go anywhere else in the solar system, then in order to keep pace with the earth, as it orbits the sun, you've got to continually change your position.

777

01:18:02,120 --> 01:18:12,020

So people have talked about Lagrange points as a place where a spacecraft might hide out, because you don't have to do a lot to stay in that spot. It's sort of equally balanced and you just get

carried along.

778

01:18:13,020 --> 01:18:25,920

If an extraterrestrial race would have ever visited our solar system, they could have placed a probe in those specific points in order to observe us, to record us, what have you.

779

01:18:26,020 --> 01:18:37,920

So, I mean, this is not something that the ancient astronaut theory has proposed. This is, you know, university professors, astrophysicists who have proposed this.

780

01:18:38,920 --> 01:18:52,820

Some argue that another reason alien beings have yet to reveal themselves is because they don't yet consider us worthy. This forms the basis of John Ball's jungle hypothesis.

781

01:18:53,820 --> 01:19:07,720

The jungle hypothesis just means that if you have animals such as ants that live in the jungle, no matter how many of them you have, there are chances of ever having seen a human being very slim.

782

01:19:08,820 --> 01:19:14,720

Not because we're hiding or anything, but we just don't have a reason to go into the jungle and step on ant hills.

783

01:19:15,720 --> 01:19:25,620

So, the idea is that we are probably related to advanced extraterrestrial intelligence, similar to an ant hill might be related to humans.

784

01:19:25,720 --> 01:19:32,620

And the fact that we've never seen any extraterrestrial intelligence is just, we don't have anything they want.

785

01:19:33,620 --> 01:19:55,520

We could actually shake hands with something that might have been coming and going on this planet for literally thousands, perhaps millions of years, and has kept a distance during the last age of man for reasons unknown, and maybe is waiting for us all to finally grow up.

786

01:19:55,520 --> 01:20:22,420

One thing that can be said with a great deal of confidence is that if the contact is initiated by them, they are going to be not only superior to us, but greatly superior to us. They won't be just beginners like we are, they will be far more advanced than we are.

787

01:20:25,520 --> 01:20:54,520

Both the jungle and zoo hypothesis propose that alien beings are watching us, but are, for the time being, keeping their distance. But what if they're not? What if the alien mission was to integrate with our society in a way that avoids detection? If so, might they be walking among us right now?

788

01:20:56,520 --> 01:21:10,520

According to the ancient astronaut theory, aliens may have come to Earth for many reasons, to

excavate, to breed, to conquer, or simply to explore.

789

01:21:12,520 --> 01:21:22,520

Certainly we want to go out and find out about things we don't know about. We see the moon, we want to go up to the moon and find out more things about it. We see Mars, we want to go there, we want to go to Jupiter, we send out our probes.

790

01:21:22,520 --> 01:21:29,520

So if aliens are something like us, then perhaps they have that same kind of motivation. They just want to go learn.

791

01:21:31,520 --> 01:21:46,520

Just like we exhibit curiosity, there are other species out there that have the same trait. It will be very egotistical to think that we're the only explorers in this galaxy.

792

01:21:47,520 --> 01:21:56,520

I mean, that would be a very sad statement to suggest we're the only ones with a brain and want to go out there and explore.

793

01:21:59,520 --> 01:22:12,520

But while our own journeys into space have been brief and largely exploratory, could other beings traveling millions of miles to Earth have stayed? And if so, might they still be among us?

794

01:22:13,520 --> 01:22:23,520

Many ancient astronaut theorists think this all happened in the past and the extraterrestrials came here, did this and did that, and then they took off back to their own planet.

795

01:22:25,520 --> 01:22:30,520

But there's a lot of evidence to show that extraterrestrials who might have come here in the past, they've never left.

796

01:22:31,520 --> 01:22:40,520

They have bases somewhere on the planet, underneath the oceans, inside mountains.

797

01:22:42,520 --> 01:22:51,520

In South America, there is very strong beliefs that many UFOs come out of lakes and underwater.

798

01:22:52,520 --> 01:23:05,520

And that Lake Titicaca and other lakes in Peru and Bolivia and other areas of South America have some kind of underground, underwater, alien base associated with them.

799

01:23:11,520 --> 01:23:18,520

If aliens were coming to our planet, there seems little doubt that they would stop at the moon on their way here.

800

01:23:21,520 --> 01:23:23,520

The moon itself is kind of the eye in the sky.

801

01:23:26,520 --> 01:23:28,520

NASA says that the moon is apparently hollow.

802

01:23:33,520 --> 01:23:37,520

During the Apollo missions, the command module crashed into the moon.

803

01:23:41,520 --> 01:23:44,520

And the moon rang like a bell for hours.

804

01:23:45,520 --> 01:23:49,520

There are craters on the moon which they cannot find bottom to.

805

01:23:50,520 --> 01:23:59,520

And it's thought by some researchers that these bottomless craters are entrances inside our moon.

806

01:24:05,520 --> 01:24:10,520

The whole enigma of the moon gets weirder and weirder the more you know it.

807

01:24:10,520 --> 01:24:16,520

Was the moon actually brought here from another solar system and put into orbit around our planet?

808

01:24:17,520 --> 01:24:23,520

Biologists say that life on this planet could never have occurred without our moon.

809

01:24:24,520 --> 01:24:28,520

And the reason for that is that the moon creates the tidal effect.

810

01:24:29,520 --> 01:24:38,520

And without the effect of tides and this rhythmic motion on the oceans, life would never have begun on this planet.

811

01:24:41,520 --> 01:24:47,520

In my mind the evidence is there.

812

01:24:48,520 --> 01:24:54,520

That the moon is a gigantic spaceship in orbit around our planet.

813

01:24:56,520 --> 01:25:00,520

It's occupied by some extraterrestrial race.

814

01:25:01,520 --> 01:25:08,520

In many ways it's much like the George Lucas Death Star concept in Star Wars.

815

01:25:08,520 --> 01:25:15,520

Where they're building this artificial moon that's capable with technology of actually destroying a planet.

816

01:25:19,520 --> 01:25:26,520

But if alien beings are using the moon as some sort of satellite for Earth observation, why?

817

01:25:27,520 --> 01:25:31,520

What would be the purpose and where is the proof?

818

01:25:31,520 --> 01:25:40,520

They would like to see us evolve. They are great masters, great avatars.

819

01:25:41,520 --> 01:25:47,520

They are very high and so are we. And we need to live up to our potential.

820

01:25:50,520 --> 01:25:54,520

We really need to live up to our potential for all people.

821

01:25:54,520 --> 01:26:11,520

And today we are living still as if we are alone in the universe while hundreds and thousands of people are seeing unusual craft in the skies as they did 5,000 years ago.

822

01:26:12,520 --> 01:26:24,520

And so in a way the idea that the ancient aliens would finally be coming around full circle all the way into the 21st century.

823

01:26:26,520 --> 01:26:35,520

It's trying to push open a truth that governments have suppressed in the 20th century. It's really very ironic.

824

01:26:36,520 --> 01:26:46,520

There are many diverse and conflicting theories concerning the idea that alien astronauts have been visiting the Earth for centuries.

825

01:26:47,520 --> 01:26:54,520

But perhaps the proof lies in the most obvious place of all. Right within ourselves.

826

01:26:56,520 --> 01:27:03,520

Somewhere in our genes it is coded that extraterrestrials were here thousands of years ago.

827

01:27:03,520 --> 01:27:11,520

And it takes a certain time before this message is open to us maybe in the brain.

828

01:27:12,520 --> 01:27:17,520

I don't believe extraterrestrials, ETs, ancient astronauts are the missing link.

829

01:27:18,520 --> 01:27:22,520

I think what they very well could be, they may be the beginning of the link.

830

01:27:22,520 --> 01:27:29,520

The link that helped genetically alter human beings. The link that jump-started our civilization the way we are today.

831

01:27:30,520 --> 01:27:38,520

It's very possible they came down here and saw some creature and they said you know what we're going to jump-start this.

832

01:27:39,520 --> 01:27:44,520

It may take another 10 million years for this thing to become smart and intelligent.

833

01:27:45,520 --> 01:27:49,520

So they created us and we're smart and intelligent now aren't we?
