

1

00:00:00,000 --> 00:00:07,000

Megalithic monuments, linked together by electromagnetic energy.

2

00:00:07,000 --> 00:00:14,000

Prehistoric ruins, arranged across vast distances, in straight lines.

3

00:00:14,000 --> 00:00:21,000

And advanced mathematics, carved into landmarks more than 5,000 years ago.

4

00:00:21,000 --> 00:00:27,000

Or ancient man's spectacular structures, built by humans alone.

5

00:00:27,000 --> 00:00:34,000

Or do they bear evidence of being designed and interconnected by other worldly visitors?

6

00:00:34,000 --> 00:00:41,000

These cultures were doing something on a global scale, interacting, creating a pattern.

7

00:00:41,000 --> 00:00:51,000

The layout of these ancient monuments could be a secret code that the ancients created for later societies.

8

00:00:51,000 --> 00:00:58,000

The ancients placed pyramids and obelisks and other standing stones at key places.

9

00:00:58,000 --> 00:01:07,000

And they were somehow being used as navigational beacons by the ancients and the extraterrestrials.

10

00:01:07,000 --> 00:01:15,000

Millions of people around the world believe we have been visited in the past by extraterrestrial beings.

11

00:01:15,000 --> 00:01:17,000

What if it were true?

12

00:01:17,000 --> 00:01:22,000

Did ancient aliens really help to shape our history?

13

00:01:22,000 --> 00:01:26,000

And if so, did they leave behind a secret code?

14

00:01:26,000 --> 00:01:32,000

One which reveals mankind's extraterrestrial origins.

15

00:01:48,000 --> 00:01:57,000

The Great Pyramid of Egypt

16

00:01:57,000 --> 00:02:05,000

Stonehenge in England

17

00:02:05,000 --> 00:02:08,000

The Great Pyramid of Egypt

18

00:02:08,000 --> 00:02:12,000

Teotihuacan, Mexico

19

00:02:12,000 --> 00:02:18,200

Mexico, and Machu Picchu, Peru.

20

00:02:18,300 --> 00:02:21,000

All around the world, ancient man

21

00:02:21,100 --> 00:02:23,900

built extraordinary structures.

22

00:02:24,000 --> 00:02:28,040

And although separated by vast distances and thousands

23

00:02:28,140 --> 00:02:33,120

of years, researchers believe that a secret code embedded

24

00:02:33,220 --> 00:02:37,380

in megalithic monuments may reveal the truth behind the

25

00:02:37,480 --> 00:02:40,760

connections between numerous ancient civilizations.

26

00:02:42,960 --> 00:02:45,960

When you look at where the ancients built their monuments,

27

00:02:46,060 --> 00:02:49,300

it is clear that they were marking the places where the power

28

00:02:49,400 --> 00:02:51,300

of the Earth could be harnessed.

29

00:02:51,400 --> 00:02:53,200

So the question really is, can we still

30

00:02:53,300 --> 00:02:56,840

maintain that all of these sites were simply chosen by accident,

31

00:02:56,940 --> 00:03:00,540

or is there far more to it than that?

32

00:03:00,640 --> 00:03:02,980

The evidence clearly suggests that these cultures were

33

00:03:03,080 --> 00:03:05,380

doing something on a global scale,

34

00:03:05,480 --> 00:03:09,620

interacting, creating a pattern which is really unique and lost

35

00:03:09,720 --> 00:03:10,520

to us right now.

36

00:03:12,860 --> 00:03:16,200

Some researchers have discovered a strong connection

37

00:03:16,300 --> 00:03:20,160

between sacred structures and powerfully charged areas

38

00:03:20,260 --> 00:03:23,800

of the globe, where the Earth's electromagnetic energy

39

00:03:23,900 --> 00:03:27,000

gathers, electromagnetic energy waves

40

00:03:27,100 --> 00:03:30,780

provide for all visible light in today's radio and cellular

41

00:03:30,880 --> 00:03:34,640

communication, as well as microwaves and x-rays.

42

00:03:34,740 --> 00:03:39,220

Energy, scientifically, is a property that things have,

43

00:03:39,980 --> 00:03:43,680

that we say technically allows it to do work or make things move.

44

00:03:43,780 --> 00:03:46,580

So you think of things like magnetic fields,

45

00:03:46,680 --> 00:03:50,620

electric fields, gravity, things moving, heating things up.

46

00:03:50,720 --> 00:03:52,620

Those are all forms of energy.

47

00:03:52,720 --> 00:03:55,920

And the one thing we do know is the Earth has a magnetic field,

48

00:03:56,020 --> 00:03:59,600

and the magnetic field connects different parts of the Earth.

49

00:03:59,700 --> 00:04:02,360

And these strange anomalies occur, like gravitational anomalies

50

00:04:02,460 --> 00:04:05,600

again, and magnetic anomalies, and even like anomalies

51

00:04:05,700 --> 00:04:08,500

to do with distortions of vision.

52

00:04:08,520 --> 00:04:10,520

If you sort of mark them on a map where they all are,

53

00:04:10,620 --> 00:04:14,760

they seem to form into these geometric grids.

54

00:04:14,860 --> 00:04:17,460

It seems that ancient people, possibly

55

00:04:17,560 --> 00:04:22,140

with the help of ancient aliens, early on map the entire Earth

56

00:04:22,240 --> 00:04:28,240

and noted these special power spots and vortex areas that

57

00:04:28,340 --> 00:04:31,340

occur on islands and mountain areas and jungles

58

00:04:31,440 --> 00:04:33,180

all around the planet.

59

00:04:33,280 --> 00:04:34,180

It was important to them.

60

00:04:34,460 --> 00:04:39,060

And these places are related by geometry and latitude

61

00:04:39,160 --> 00:04:42,260

and longitude.

62

00:04:42,360 --> 00:04:46,860

Known as the World Grid, ancient astronaut theorists

63

00:04:46,960 --> 00:04:49,760

believe our ancestors purposely constructed

64

00:04:49,860 --> 00:04:54,200

their monuments on energy lines that when mapped and connected,

65

00:04:54,300 --> 00:04:57,640

create a significant pattern.

66

00:04:57,740 --> 00:05:00,640

The concept of the World Grid is that the Earth

67

00:05:00,700 --> 00:05:05,540

is like a giant crystal, and energy is flowing around it,

68

00:05:05,640 --> 00:05:08,700

little nodules.

69

00:05:08,800 --> 00:05:13,440

And energy paths are intersecting and moving

70

00:05:13,540 --> 00:05:14,720

all over the world.

71

00:05:19,820 --> 00:05:24,060

In the fourth century BC, Greek philosopher and mathematician

72

00:05:24,160 --> 00:05:28,600

Plato taught that the basic structure of the Earth evolved

73

00:05:28,660 --> 00:05:33,500

from geometric shapes now known as platonic solids.

74

00:05:33,600 --> 00:05:35,860

Well, Plato left a tantalizing clue

75

00:05:35,960 --> 00:05:39,000

as possibly the first mention of the World Grid.

76

00:05:39,100 --> 00:05:41,200

He basically described the Earth as being

77

00:05:41,300 --> 00:05:45,000

created from 12 pentagonal faces and 20 points

78

00:05:45,100 --> 00:05:47,380

or vertices on the surface.

79

00:05:47,480 --> 00:05:50,580

And when you join these together and mark them on a map,

80

00:05:50,680 --> 00:05:53,380

you realize that there's kind of geometrical formations

81

00:05:53,480 --> 00:05:55,180

that appear between them.

82

00:05:55,240 --> 00:05:59,300

Plato wrote that there was a world soul,

83

00:05:59,400 --> 00:06:02,580

and this world soul he described as a sphere that

84

00:06:02,680 --> 00:06:07,380

was composed of 120 equal identical triangles.

85

00:06:07,480 --> 00:06:10,080

I believed that that model actually

86

00:06:10,180 --> 00:06:13,180

could be applied to the Earth.

87

00:06:13,280 --> 00:06:16,620

To illustrate Plato's sphere of triangles,

88

00:06:16,720 --> 00:06:21,100

anthropologist Beth Hakens designed a model of the Earth

89

00:06:21,200 --> 00:06:23,100

divided by 15 circles.

90

00:06:25,200 --> 00:06:28,940

Well, here you can see a cluster of 10

91

00:06:29,040 --> 00:06:33,240

of the triangles of the 120 that Plato mentioned.

92

00:06:33,340 --> 00:06:35,340

Besides seeing this as triangles,

93

00:06:35,440 --> 00:06:41,020

you can see it as 15 equators that actually cut the Earth

94

00:06:41,120 --> 00:06:42,120

in half.

95

00:06:42,220 --> 00:06:44,820

You'll see they all go around whichever way you look.

96

00:06:44,920 --> 00:06:46,760

They're all great circles.

97

00:06:46,860 --> 00:06:50,120

It's a geometric model of the Earth energy grid

98

00:06:50,220 --> 00:06:52,860

of what Plato discovered 2,500 years ago.

99

00:06:52,920 --> 00:06:57,680

But is it possible, as ancient astronaut theorists believe,

100

00:06:57,780 --> 00:07:01,120

that man was able to capture and use the Earth's energy

101

00:07:01,220 --> 00:07:03,660

at power centers around the world to help

102

00:07:03,760 --> 00:07:07,120

build their megalithic monuments?

103

00:07:07,220 --> 00:07:09,560

There's fascinating ideas that they were actually

104

00:07:09,660 --> 00:07:12,200

using this for anti-gravitational purposes,

105

00:07:12,300 --> 00:07:14,900

and they were actually able to lift and quarry

106

00:07:15,000 --> 00:07:17,100

and move these huge megalithic blocks

107

00:07:17,200 --> 00:07:20,240

at great distances around the planet.

108

00:07:21,240 --> 00:07:23,000

And so we have to question, was there

109

00:07:23,100 --> 00:07:25,340

something to do with this grid that they were actually

110

00:07:25,440 --> 00:07:27,980

harnessing, and they were able to use the energies from it

111

00:07:28,080 --> 00:07:29,980

to move and construct these sites?

112

00:07:34,620 --> 00:07:37,960

But how could ancient civilizations tap into Earth's

113

00:07:38,060 --> 00:07:39,320

energy?

114

00:07:39,420 --> 00:07:41,760

And how could the Earth's electromagnetic energy

115

00:07:41,860 --> 00:07:44,860

fields have even been known to ancient man?

116

00:07:45,860 --> 00:07:49,320

The ancients clearly understood that if they located

117

00:07:49,420 --> 00:07:51,000

their sacred sites at these places,

118

00:07:51,100 --> 00:07:53,760

they would get some sort of powerful alignment

119

00:07:53,860 --> 00:07:56,500

with the Earth, the universe.

120

00:07:56,600 --> 00:07:59,500

Everything would come into flow, and it would be a great place

121

00:07:59,600 --> 00:08:01,200

for their places of worship.

122

00:08:01,300 --> 00:08:03,940

The question is, where do they get the information?

123

00:08:04,040 --> 00:08:05,780

Is it something that was passed down to them

124

00:08:05,880 --> 00:08:07,940

from a higher human civilization,

125

00:08:08,040 --> 00:08:11,080

or was it passed down to them from some point of view?

126

00:08:11,080 --> 00:08:14,380

The layout of these ancient monuments

127

00:08:14,480 --> 00:08:17,880

and these celebratory places, because they

128

00:08:17,980 --> 00:08:21,020

lie on the Earth's magnetic grid,

129

00:08:21,120 --> 00:08:25,720

well could be a secret code that the ancients created

130

00:08:25,820 --> 00:08:31,300

for later societies containing a secret about the relationship

131

00:08:31,400 --> 00:08:34,600

of those civilizations that they were able to use

132

00:08:34,700 --> 00:08:36,300

to build a new world.

133

00:08:36,400 --> 00:08:39,100

And so they were able to use the same method

134

00:08:39,220 --> 00:08:41,420

to build a new relationship of those civilizations

135

00:08:41,520 --> 00:08:42,660

to ancient aliens.

136

00:08:47,960 --> 00:08:51,700

Exeterrestrials told our ancestors, hey, here,

137

00:08:51,800 --> 00:08:54,840

create this on that particular point.

138

00:08:54,940 --> 00:08:57,340

And they did that all around the world.

139

00:08:57,440 --> 00:08:59,840

And now when we connect all those places,

140

00:08:59,940 --> 00:09:02,320

when we plot them on a globe, they

141

00:09:02,420 --> 00:09:07,420

create this perfect pattern that would have been impossible

142

00:09:07,520 --> 00:09:08,620

by chance.

143

00:09:08,640 --> 00:09:11,280

And it's a huge mystery how it was done,

144

00:09:11,380 --> 00:09:14,280

unless you take into consideration

145

00:09:14,380 --> 00:09:18,120

that this might have been a quote unquote message

146

00:09:18,220 --> 00:09:21,460

for our generation that was left behind

147

00:09:21,560 --> 00:09:24,800

by exeterrestrials who visited our ancestors

148

00:09:24,900 --> 00:09:25,860

in the remote past.

149

00:09:28,360 --> 00:09:31,040

Is it possible that early man learned

150

00:09:31,140 --> 00:09:34,000

how to harness the Earth's own powerful energy

151

00:09:34,100 --> 00:09:36,940

from extraterrestrial beings?

152

00:09:37,000 --> 00:09:40,640

And if so, might the finding by researchers

153

00:09:40,740 --> 00:09:43,440

of a so-called world energy grid

154

00:09:43,540 --> 00:09:47,380

provide proof of contact with alien visitors?

155

00:09:47,480 --> 00:09:49,480

Ancient astronaut theorists believe

156

00:09:49,580 --> 00:09:54,180

the answer on both counts is a resounding yes.

157

00:09:54,280 --> 00:09:57,660

The world grid could have been used as a source of free

158

00:09:57,760 --> 00:10:01,860

and inexhaustible energy that was flowing continuously

159

00:10:01,960 --> 00:10:03,560

around our planet.

160

00:10:03,620 --> 00:10:07,460

They were somehow being used by the ancients and the

161

00:10:07,560 --> 00:10:12,620

extraterrestrials for energy and as even navigational

162

00:10:12,720 --> 00:10:15,900

beacons for their spaceships.

163

00:10:16,000 --> 00:10:19,040

A lot of these ancient sites on the world grid

164

00:10:19,140 --> 00:10:22,540

are always associated with UFO sightings.

165

00:10:22,640 --> 00:10:25,240

The UFOs themselves seem to understand

166

00:10:25,340 --> 00:10:26,840

that these are important places.

167

00:10:26,940 --> 00:10:29,140

And it's almost as if they're kind of feeding off

168

00:10:29,240 --> 00:10:31,980

the energy of these places when they come to visit the Earth.

169

00:10:34,060 --> 00:10:36,920

Did ancient cultures around the world

170

00:10:37,020 --> 00:10:40,460

really build their monuments using powerful Earth energy

171

00:10:40,560 --> 00:10:43,360

under the guidance of star travelers?

172

00:10:43,460 --> 00:10:46,700

As ancient astronaut theorists believe,

173

00:10:46,800 --> 00:10:49,300

perhaps further evidence can be found

174

00:10:49,400 --> 00:10:52,280

by taking a closer look at the strange link

175

00:10:52,380 --> 00:10:55,680

between some of the oldest monuments on Earth

176

00:10:55,780 --> 00:10:58,080

and their connection to the stars.

177

00:10:59,080 --> 00:11:06,080

The Boine River Valley, 30 miles north of Dublin, Ireland.

178

00:11:06,180 --> 00:11:10,060

Here, within this archaeological site,

179

00:11:10,160 --> 00:11:14,260

lie the ruins of the New Grange passage tomb,

180

00:11:14,360 --> 00:11:17,160

built around 3150 BC.

181

00:11:21,060 --> 00:11:24,160

This is New Grange, which is Ireland's foremost

182

00:11:24,220 --> 00:11:27,260

monument in terms of its mythical and historic significance.

183

00:11:27,360 --> 00:11:30,860

It was constructed here by a community of farmers

184

00:11:30,960 --> 00:11:34,260

and astronomers who inhabited this valley.

185

00:11:34,360 --> 00:11:38,460

And together, they enshrined their spiritual and scientific

186

00:11:38,560 --> 00:11:40,240

beliefs monumentally in stone.

187

00:11:45,380 --> 00:11:48,980

Constructed with over 200,000 tons of stone,

188

00:11:49,080 --> 00:11:51,780

quarried 70,000 tons of stone.

189

00:11:51,840 --> 00:11:55,340

Quarried 75 miles away, New Grange

190

00:11:55,440 --> 00:11:59,080

is known as a passage tomb because the enormous mound

191

00:11:59,180 --> 00:12:03,220

has one passageway that leads to a centralized chamber

192

00:12:03,320 --> 00:12:05,660

in which bone fragments have been found.

193

00:12:14,760 --> 00:12:17,400

This is the central chamber of New Grange

194

00:12:17,500 --> 00:12:19,700

with its massive corbeled ceiling which

195

00:12:19,720 --> 00:12:23,320

has kept the chamber dry, completely bone dry for 5,000

196

00:12:23,420 --> 00:12:24,600

years.

197

00:12:24,700 --> 00:12:26,100

At the end of the chamber here, it

198

00:12:26,200 --> 00:12:28,600

opens up into this opening with the three recesses.

199

00:12:28,700 --> 00:12:30,940

And there are three very large basin stones

200

00:12:31,040 --> 00:12:32,400

in each of the recesses.

201

00:12:32,500 --> 00:12:35,740

And it was in these basins that the remains of the dead

202

00:12:35,840 --> 00:12:37,980

would have been placed.

203

00:12:38,080 --> 00:12:39,580

The amazing thing about New Grange

204

00:12:39,680 --> 00:12:42,780

is what they've managed to do with these giant stones

205

00:12:42,880 --> 00:12:46,220

is create an opening in the chamber, which

206

00:12:46,320 --> 00:12:48,920

accepts sunlight on the dawn of the winter.

207

00:12:49,920 --> 00:12:52,220

In fact, the structure's main chamber

208

00:12:52,320 --> 00:12:59,320

remains in darkness except for one day at Winter Solstice.

209

00:12:59,420 --> 00:13:03,000

When the sunrise illuminates the 60 foot long passageway

210

00:13:03,100 --> 00:13:08,160

and central chamber for mere 17 minutes.

211

00:13:08,260 --> 00:13:11,140

They saw the other world as lying amongst the stars

212

00:13:11,240 --> 00:13:15,840

and they believed that in placing the bones of their dead

213

00:13:15,900 --> 00:13:17,860

deceased relatives in the chamber,

214

00:13:17,960 --> 00:13:20,640

that the souls of the dead would be brought into the other world

215

00:13:20,740 --> 00:13:22,140

on the dawn of the Winter Solstice

216

00:13:22,240 --> 00:13:24,900

when the light of the sun came in and perhaps drew the spirit

217

00:13:25,000 --> 00:13:26,340

out into the other world.

218

00:13:27,840 --> 00:13:30,680

The remarkable layout of the tomb's ground plan

219

00:13:30,780 --> 00:13:33,380

is an achievement many researchers believe

220

00:13:33,480 --> 00:13:35,080

could only have been accomplished

221

00:13:35,180 --> 00:13:37,420

with advanced knowledge of constellations.

222

00:13:37,520 --> 00:13:40,020

And the discovery of the tomb's ground plan

223

00:13:40,120 --> 00:13:41,520

is a great achievement.

224

00:13:41,580 --> 00:13:44,620

The passage and chamber are cruciform in shape.

225

00:13:44,720 --> 00:13:47,820

They're shaped like a cross, which we think

226

00:13:47,920 --> 00:13:49,920

is very significant because it seems

227

00:13:50,020 --> 00:13:52,220

to be based on the shape of the constellation

228

00:13:52,320 --> 00:13:57,100

Cygnus, which is the swan constellation of the sky.

229

00:13:57,200 --> 00:14:02,600

Cygnus is one of the most important constellations

230

00:14:02,700 --> 00:14:04,100

to the ancients.

231

00:14:04,200 --> 00:14:07,600

We know it probably better as the northern one.

232

00:14:07,660 --> 00:14:11,260

And these set of stars seem to mark

233

00:14:11,360 --> 00:14:14,300

where the Milky Way actually breaks into two.

234

00:14:14,400 --> 00:14:18,700

And universally for prehistoric societies around the world,

235

00:14:18,800 --> 00:14:23,200

this point in the sky known as the Cygnus Rift

236

00:14:23,300 --> 00:14:26,040

has been seen as an entrance and exit

237

00:14:26,140 --> 00:14:28,940

into some kind of sky world.

238

00:14:29,040 --> 00:14:30,680

We call it heaven today.

239

00:14:30,780 --> 00:14:33,280

And it was seen as a sign of the sky.

240

00:14:33,340 --> 00:14:38,780

And it was seen as the point in the sky of cosmic creation.

241

00:14:41,440 --> 00:14:45,320

Is it possible the ancient people at Newgrange

242

00:14:45,420 --> 00:14:49,280

receive knowledge of our solar system and distant galaxies

243

00:14:49,380 --> 00:14:52,860

from another, more otherworldly source,

244

00:14:52,960 --> 00:14:56,860

as ancient astronaut theorists believe?

245

00:14:56,960 --> 00:15:00,060

And might the ancient builders have intentionally

246

00:15:00,120 --> 00:15:06,720

left a code for future civilizations to decipher?

247

00:15:06,820 --> 00:15:09,720

If so, what were they trying to tell us?

248

00:15:12,320 --> 00:15:14,960

They were experts in astronomy.

249

00:15:15,060 --> 00:15:17,660

They were also experts in building.

250

00:15:17,760 --> 00:15:23,700

How they possessed both, I find to be very uncanny.

251

00:15:23,800 --> 00:15:27,340

Because they're supposedly doing this without high tech

252

00:15:27,420 --> 00:15:29,880

equipment and instruments.

253

00:15:29,980 --> 00:15:32,380

But they did look toward the heavens,

254

00:15:32,480 --> 00:15:36,220

and they tried to copy the heavens.

255

00:15:36,320 --> 00:15:38,820

When we look at the ancient people themselves

256

00:15:38,920 --> 00:15:42,160

and ask why they did it, they are quite straightforward

257

00:15:42,260 --> 00:15:43,560

in answering this question.

258

00:15:43,660 --> 00:15:45,560

And that answer is simply because this

259

00:15:45,660 --> 00:15:48,560

is to do with the gods and figuring out when the gods would

260

00:15:48,660 --> 00:15:49,500

come into future.

261

00:15:53,240 --> 00:15:56,740

Throughout the world, there are numerous ancient sites

262

00:15:57,240 --> 00:16:00,640

that were built in precise alignment with constellations,

263

00:16:00,740 --> 00:16:04,920

primarily Cygnus and Orion.

264

00:16:05,020 --> 00:16:07,480

Perhaps the most famous example can

265

00:16:07,580 --> 00:16:11,120

be found at the Giza Plateau in the layout

266

00:16:11,220 --> 00:16:14,760

of the three great pyramids of Egypt.

267

00:16:14,860 --> 00:16:19,400

I discovered in the early 80s that there was a correlation

268

00:16:19,500 --> 00:16:22,160

between Orion's belt and the layout of the three pyramids.

269

00:16:22,260 --> 00:16:25,340

You have two large pyramids aligned with each other,

270

00:16:25,400 --> 00:16:28,900

and a third smaller one offset from that alignment.

271

00:16:29,000 --> 00:16:30,400

Well, that's the same way you have the stars.

272

00:16:30,500 --> 00:16:34,440

You have two bright stars, and a third less bright star

273

00:16:34,540 --> 00:16:36,880

offset from the line of the other two.

274

00:16:36,980 --> 00:16:37,940

The correlation is evident.

275

00:16:40,720 --> 00:16:43,380

Other ancient sites built in close alignment

276

00:16:43,480 --> 00:16:48,120

with the constellation of Orion include the ancient city

277

00:16:48,220 --> 00:16:51,560

of Teotihuacan in central Mexico,

278

00:16:51,660 --> 00:16:53,600

established in 100 BC.

279

00:16:56,340 --> 00:16:58,900

The layout of the ancient Hopi villages

280

00:16:59,000 --> 00:17:05,440

in the American Southwest and the Thornborough Henges,

281

00:17:05,540 --> 00:17:10,120

a Neolithic landscape complex in Yorkshire, northern England,

282

00:17:10,220 --> 00:17:15,520

dating to between 3,500 and 2,500 BC.

283

00:17:15,620 --> 00:17:17,120

The Thornborough Henges are believed

284

00:17:17,220 --> 00:17:20,460

to be a copy of the stars of Orion's belt,

285

00:17:20,560 --> 00:17:23,100

and the accuracies just stunning.

286

00:17:26,340 --> 00:17:28,000

Now, is that coincidence?

287

00:17:28,100 --> 00:17:31,200

I mean, it really is exact.

288

00:17:31,300 --> 00:17:34,740

But why were so many civilizations around the world

289

00:17:34,840 --> 00:17:36,440

focused on Orion?

290

00:17:36,540 --> 00:17:41,280

Constellation of Orion has a special magnetism for us.

291

00:17:41,380 --> 00:17:43,980

Partly it's because it does look like a man,

292

00:17:44,080 --> 00:17:46,180

and certainly the Egyptians claimed

293

00:17:46,280 --> 00:17:48,060

that their gods came from there.

294

00:17:48,160 --> 00:17:51,320

And there is a sense that this is where we come from,

295

00:17:51,420 --> 00:17:55,100

that somehow the human race has been implanted on this planet.

296

00:17:56,100 --> 00:17:58,320

And that that's where our father lives.

297

00:18:01,060 --> 00:18:04,300

Some researchers believe, in addition to mirroring

298

00:18:04,400 --> 00:18:08,300

the three stars in Orion's belt, the pyramids at Giza

299

00:18:08,400 --> 00:18:11,800

also encode in their placement a significant message

300

00:18:11,900 --> 00:18:14,340

about the origin of their culture.

301

00:18:16,240 --> 00:18:19,580

The position of Orion's belt relative to the Milky Way

302

00:18:19,680 --> 00:18:22,720

is the same as the pyramids relative to the night.

303

00:18:22,780 --> 00:18:25,140

When you look at the two images, they look the same,

304

00:18:25,240 --> 00:18:28,020

except one is stellar and one is earthly.

305

00:18:28,120 --> 00:18:31,820

What adds to this is that the alignment,

306

00:18:31,920 --> 00:18:37,620

the pattern of Orion's belt matches what is on the ground,

307

00:18:37,720 --> 00:18:41,060

not at the time that Egyptologists tell us.

308

00:18:41,160 --> 00:18:47,300

But in 10,500 BC, when you look at the sky in 10,500 BC,

309

00:18:47,400 --> 00:18:50,340

the lock is almost perfect.

310

00:18:51,340 --> 00:18:53,340

At that same date, the constellation.

311

00:18:53,440 --> 00:18:56,840

Leo is aligned perfectly with the gaze of the Sphinx.

312

00:18:56,940 --> 00:19:02,540

So at 10,500 BC, even though the pyramids were built in 2,500 BC,

313

00:19:02,640 --> 00:19:05,980

we see a terrestrial alignment of the monuments on the Earth,

314

00:19:06,080 --> 00:19:08,420

mimicking the stars in the sky.

315

00:19:08,520 --> 00:19:11,960

So you have two constellations locking themselves

316

00:19:12,060 --> 00:19:14,920

with two sets of monuments, the Sphinx and the three pyramids,

317

00:19:15,020 --> 00:19:17,960

in 10,500 BC.

318

00:19:18,960 --> 00:19:20,460

It cannot be a coincidence.

319

00:19:23,320 --> 00:19:25,460

Was it something they intuitively channeled

320

00:19:25,560 --> 00:19:28,360

or did somebody else, someone from higher up,

321

00:19:28,460 --> 00:19:31,960

teach them all of this stuff and help them to build these monuments

322

00:19:32,060 --> 00:19:35,660

and help them to create these messages from ancient times

323

00:19:35,760 --> 00:19:39,340

to try to get us to appreciate who we really are,

324

00:19:39,440 --> 00:19:42,540

where we really came from, and why we're really here.

325

00:19:42,600 --> 00:19:46,640

Might the builders of Egypt's pyramids and of the New Grange

326

00:19:46,740 --> 00:19:50,700

passage tomb really have embedded in their structures

327

00:19:50,800 --> 00:19:55,640

a secret code telling us about the otherworldly origins

328

00:19:55,740 --> 00:19:58,240

of the elite rulers of their societies,

329

00:19:58,340 --> 00:20:02,720

as ancient astronaut theorists believe?

330

00:20:02,820 --> 00:20:05,320

If so, might there be hidden messages

331

00:20:05,420 --> 00:20:09,620

contained in other ancient monuments around the world?

332

00:20:09,680 --> 00:20:13,580

Perhaps answers can be found by examining what some researchers

333

00:20:13,680 --> 00:20:15,680

call ancient flight paths.

334

00:20:21,120 --> 00:20:27,860

Here are for sure England, June 30, 1921,

335

00:20:27,960 --> 00:20:31,400

while horseback riding through the British countryside,

336

00:20:31,500 --> 00:20:35,400

amateur archaeologist Alfred Watkins notices

337

00:20:35,460 --> 00:20:39,360

that ancient features and structures across the landscape

338

00:20:39,460 --> 00:20:43,860

appear to be arranged along straight lines.

339

00:20:43,960 --> 00:20:48,200

Four years later, in 1925, Watkins

340

00:20:48,300 --> 00:20:52,900

publishes the Old Straight Track, a book in which he proposes

341

00:20:53,000 --> 00:20:55,860

that man's earliest monuments and megaliths

342

00:20:55,960 --> 00:21:00,860

were linked by a network of long straight tracks.

343

00:21:00,960 --> 00:21:03,120

Here, for the first time, Watkins

344

00:21:04,120 --> 00:21:06,120

He referred to them as lay lines,

345

00:21:06,220 --> 00:21:10,320

but as to what these were, he could only really say that perhaps

346

00:21:10,420 --> 00:21:15,040

they were lines that were used by the ancients

347

00:21:15,140 --> 00:21:17,540

to communicate from one place to the next.

348

00:21:17,640 --> 00:21:21,340

In other words, they were simply markers on a journey.

349

00:21:21,440 --> 00:21:26,440

Lay lines are mostly found in England and France.

350

00:21:26,540 --> 00:21:31,540

They're literally geographic markings between sacred sites.

351

00:21:31,560 --> 00:21:33,560

They might be old churches.

352

00:21:33,660 --> 00:21:36,900

They might be churches built on top of megalithic ruins.

353

00:21:37,000 --> 00:21:38,740

But you'll see dead straight lines

354

00:21:38,840 --> 00:21:42,740

between these sites that have been maintained.

355

00:21:42,840 --> 00:21:46,040

The Michael line in England is a straight line,

356

00:21:46,140 --> 00:21:47,640

and it is measurable.

357

00:21:47,740 --> 00:21:50,180

It's a magnetic field line that you can measure,

358

00:21:50,280 --> 00:21:54,320

and it will be higher than other areas around it geographically.

359

00:21:55,320 --> 00:21:58,320

In his book, Watkins further theorized

360

00:21:58,420 --> 00:22:01,320

that ancient landmarks along lay lines

361

00:22:01,420 --> 00:22:04,060

were deliberately placed by early man

362

00:22:04,160 --> 00:22:08,100

for the purpose of line of sight navigation.

363

00:22:08,200 --> 00:22:10,900

Watkins believed they were trade routes originally,

364

00:22:11,000 --> 00:22:12,900

but later it was noticed that some of them

365

00:22:13,000 --> 00:22:14,500

went over really obscure terrain,

366

00:22:14,600 --> 00:22:17,400

like mountains and bogs and streams and all this kind of stuff,

367

00:22:17,500 --> 00:22:19,400

so they couldn't really have been walking,

368

00:22:19,500 --> 00:22:21,700

so it seems like they were walking on a path

369

00:22:21,700 --> 00:22:23,700

or a mapping system.

370

00:22:23,800 --> 00:22:28,760

Some researchers believe that lay lines are magnetic in nature

371

00:22:28,860 --> 00:22:34,400

and delineate the lines of Earth's unseen energy fields.

372

00:22:34,500 --> 00:22:38,040

But if lay lines were useful for overland navigation

373

00:22:38,140 --> 00:22:41,380

to the ancients, might they also have been useful

374

00:22:41,480 --> 00:22:45,380

for aerial navigation by extraterrestrial visitors

375

00:22:45,480 --> 00:22:47,380

as ancient ancestors?

376

00:22:47,440 --> 00:22:52,080

Something extraordinary happened along those lay lines

377

00:22:52,180 --> 00:22:56,380

because the once very physical and real visit

378

00:22:56,480 --> 00:23:03,380

of extraterrestrial beings has been forgotten.

379

00:23:03,480 --> 00:23:07,320

Trelborg, Denmark, here, along the northern reaches

380

00:23:07,420 --> 00:23:09,420

of the European continent,

381

00:23:09,520 --> 00:23:14,360

lie the archaeological ruins of the ancient ancient

382

00:23:14,440 --> 00:23:17,660

European continent, lie the archaeological ruins

383

00:23:17,760 --> 00:23:23,160

of a Viking fortress dating to 900 AD.

384

00:23:23,260 --> 00:23:26,100

For decades, mainstream historians

385

00:23:26,200 --> 00:23:28,500

have been baffled by the precise nature

386

00:23:28,600 --> 00:23:31,760

of Treloborg's perfectly circular design,

387

00:23:31,860 --> 00:23:35,060

with a courtyard divided into four zones,

388

00:23:35,160 --> 00:23:38,860

each with four long houses, and gateways

389

00:23:38,960 --> 00:23:42,260

open precisely to the four cardinal directions,

390

00:23:42,260 --> 00:23:47,060

north, south, east, and west.

391

00:23:47,160 --> 00:23:50,160

Some believe such a strict geometric design

392

00:23:50,260 --> 00:23:52,260

would have required extensive knowledge

393

00:23:52,360 --> 00:23:53,660

of advanced engineering.

394

00:23:58,660 --> 00:24:03,560

The mystery deepened in 1982, when pilot Preben Hansen

395

00:24:03,660 --> 00:24:06,960

discovered a direct line of flight from Treloborg

396

00:24:07,060 --> 00:24:09,660

to three other Viking fortresses,

397

00:24:09,660 --> 00:24:12,060

all constructed with a similar design.

398

00:24:16,560 --> 00:24:19,060

Treloborg was the starting point.

399

00:24:19,160 --> 00:24:23,560

40 miles farther, another fort appeared.

400

00:24:23,660 --> 00:24:25,460

Then he found others so that there

401

00:24:25,560 --> 00:24:27,560

was a line of four forts in Denmark.

402

00:24:33,360 --> 00:24:35,860

Given that the Vikings were basically seafaring people

403

00:24:35,860 --> 00:24:39,360

and these sites are spread out so far over land

404

00:24:39,460 --> 00:24:41,460

and great distances, it implies that maybe

405

00:24:41,560 --> 00:24:43,260

they had some other way of getting to these places.

406

00:24:43,360 --> 00:24:45,460

Perhaps they even were able to fly.

407

00:24:45,560 --> 00:24:49,060

Now, how they would fly, what the technology was.

408

00:24:49,160 --> 00:24:51,560

It's a good question, but it seems unlikely

409

00:24:51,660 --> 00:24:54,360

that they would be able to find all these spots,

410

00:24:54,460 --> 00:24:57,360

survey them, and place monuments and structures there

411

00:24:57,460 --> 00:25:00,560

if they were simply a seafaring race.

412

00:25:00,660 --> 00:25:04,860

These Viking fortresses are all on one stride line.

413

00:25:04,860 --> 00:25:08,160

You continue the one line stride ahead over the Alps

414

00:25:08,260 --> 00:25:10,560

for thousands and thousands of kilometers.

415

00:25:10,660 --> 00:25:14,860

And under the line, always holy places from antiquity

416

00:25:14,960 --> 00:25:17,160

from Stone Age.

417

00:25:17,260 --> 00:25:22,860

And the line points directly to Delphi, Delphi in Greece.

418

00:25:22,960 --> 00:25:26,160

Delphi was the place of the god Apollo.

419

00:25:26,260 --> 00:25:31,460

And the mythology about Apollo says every year, two times,

420

00:25:31,560 --> 00:25:34,460

Apollo took his heavenly chariot

421

00:25:35,160 --> 00:25:38,760

disappeared in a faraway land in the north.

422

00:25:41,760 --> 00:25:44,660

Apollo flies on one stride line.

423

00:25:44,760 --> 00:25:47,460

At several points, he makes a stop.

424

00:25:47,560 --> 00:25:50,060

Wherever he makes a stop, the Stone Age people

425

00:25:50,160 --> 00:25:53,560

start to create a holy place of it because here was a god.

426

00:25:59,160 --> 00:26:03,260

Is it possible that the ley lines that connected early civilizations

427

00:26:03,260 --> 00:26:07,060

actually flight paths, as ancient astronaut theorists believe?

428

00:26:10,060 --> 00:26:14,060

And might such flight paths have been used by extraterrestrial

429

00:26:14,160 --> 00:26:15,060

spacecraft?

430

00:26:18,460 --> 00:26:21,160

The extraterrestrials in the past knew exactly

431

00:26:21,260 --> 00:26:23,660

that the future generations would develop technology.

432

00:26:23,760 --> 00:26:24,760

They would fly.

433

00:26:24,860 --> 00:26:25,660

They would measure.

434

00:26:25,760 --> 00:26:27,660

They would photograph their own land.

435

00:26:30,260 --> 00:26:32,660

So by photographing their land, they would realize

436

00:26:32,660 --> 00:26:35,160

something strange here in the ground.

437

00:26:35,260 --> 00:26:40,860

How could a straight line link ancient Egypt, the pyramids,

438

00:26:40,960 --> 00:26:45,260

the Oracle of Delphi in Greece, and Viking fortresses

439

00:26:45,360 --> 00:26:48,360

that would have been established thousands of years later?

440

00:26:48,460 --> 00:26:50,160

It made no sense.

441

00:26:50,260 --> 00:26:55,160

But it does make sense if these installations are along

442

00:26:55,260 --> 00:26:58,260

straight lines across the Earth's grid.

443

00:26:58,760 --> 00:27:05,060

And if somehow those straight lines marked navigation routes

444

00:27:05,160 --> 00:27:11,260

for ancient extraterrestrials that used them as markers

445

00:27:11,360 --> 00:27:16,960

to navigate the globe from society to society.

446

00:27:17,060 --> 00:27:21,460

Is it possible that these ancient sites along the ley lines

447

00:27:21,560 --> 00:27:25,760

were nothing else but refueling stations for ancient astronaut

448

00:27:25,860 --> 00:27:26,560

craft?

449

00:27:28,760 --> 00:27:32,260

And the answer is yes, because just like today,

450

00:27:32,360 --> 00:27:35,260

a plane goes in straight lines.

451

00:27:35,360 --> 00:27:40,360

And if a plane needs to refuel, it lands an airport that's

452

00:27:40,460 --> 00:27:43,960

on its course and not, you know, 1,000 miles to the east

453

00:27:44,060 --> 00:27:45,460

or 1,000 miles to the west.

454

00:27:45,560 --> 00:27:48,760

A plane flies straight.

455

00:27:48,860 --> 00:27:53,360

It was suggested that UFOs may be connected in some way,

456

00:27:53,460 --> 00:27:56,160

because it could well be that they are following the paths

457

00:27:56,160 --> 00:27:58,360

of magnetic fields, the different variations,

458

00:27:58,460 --> 00:28:02,160

the different strengths that exist.

459

00:28:02,260 --> 00:28:07,360

It was often seen that UFOs seem to either appear or descend

460

00:28:07,460 --> 00:28:13,660

or rise in connection with where the ley lines seem to intersect.

461

00:28:13,760 --> 00:28:18,860

And this has been seen time and time again around the world

462

00:28:18,960 --> 00:28:20,860

at different UFO hotspots.

463

00:28:26,160 --> 00:28:29,860

Might the sacred sites along ancient flight paths really

464

00:28:29,960 --> 00:28:33,960

have been landing points or perhaps fueling stations

465

00:28:34,060 --> 00:28:37,360

for extraterrestrial space vehicles?

466

00:28:37,460 --> 00:28:39,860

Perhaps further evidence can be found

467

00:28:39,960 --> 00:28:42,660

by examining the ancient civilizations that

468

00:28:42,760 --> 00:28:46,360

are connected from opposite sides of the globe.

469

00:28:51,360 --> 00:28:52,460

Cusco, Peru.

470

00:28:52,960 --> 00:28:56,060

Here lie the impressive ruins of the ancient capital

471

00:28:56,160 --> 00:29:04,660

of the Inca Empire that thrived from the 13th to 15th century,

472

00:29:04,760 --> 00:29:07,860

long suspected by ancient astronaut theorists

473

00:29:07,960 --> 00:29:10,860

to have been a place visited by extraterrestrial beings

474

00:29:10,960 --> 00:29:13,260

in the distant past.

475

00:29:13,360 --> 00:29:18,560

Cusco is considered to be an axis mundi, which in religion

476

00:29:18,560 --> 00:29:24,860

or mythology means the center or naval of the world.

477

00:29:24,960 --> 00:29:26,460

They are very important sites.

478

00:29:26,560 --> 00:29:30,360

And quite often when you start looking at some sites like Cusco,

479

00:29:30,460 --> 00:29:33,260

Cusco literally means naval of the world.

480

00:29:33,360 --> 00:29:36,960

It was the naval of the empire of the Inca.

481

00:29:37,060 --> 00:29:38,960

So Cusco isn't unique.

482

00:29:39,060 --> 00:29:41,460

We really find naval sites everywhere.

483

00:29:41,560 --> 00:29:44,460

And the naval sites are quite often the most important sites

484

00:29:44,560 --> 00:29:45,460

of a culture.

485

00:29:45,460 --> 00:29:46,460

Jerusalem is one.

486

00:29:46,560 --> 00:29:48,360

The Giza Plateau is another.

487

00:29:48,460 --> 00:29:53,860

World navals, because they lie along the Earth's magnetic grid,

488

00:29:53,960 --> 00:29:58,760

were places where the ancients created what could only be called

489

00:29:58,860 --> 00:30:03,860

heavens gates, altars, places where human beings could communicate

490

00:30:03,960 --> 00:30:05,360

with otherworldly entities.

491

00:30:08,960 --> 00:30:11,420

Evidence can also be found connecting Cusco's

492

00:30:11,420 --> 00:30:15,980

with another world naval over 2,000 miles away in the South

493

00:30:16,080 --> 00:30:19,820

Pacific, Easter Island.

494

00:30:19,920 --> 00:30:23,220

Although mainstream historians and archaeologists believe

495

00:30:23,320 --> 00:30:27,820

the two places were never in contact in ancient times,

496

00:30:27,920 --> 00:30:31,820

Cusco and Easter Island feature strikingly similar styles

497

00:30:31,920 --> 00:30:36,620

of stonework with colossal multi-sided stones precisely

498

00:30:36,720 --> 00:30:39,820

fitted with the ancient ancient stones.

499

00:30:40,320 --> 00:30:43,720

Precisely fitted as if each joint was welded together.

500

00:30:46,720 --> 00:30:50,620

The walls at Cusco are identical to the walls

501

00:30:50,720 --> 00:30:54,720

we can find in the base foundations of some of the Muayy's

502

00:30:54,820 --> 00:30:56,220

on Easter Island.

503

00:30:56,320 --> 00:31:00,220

And those two places are so far apart.

504

00:31:00,320 --> 00:31:03,220

I wonder how was it done?

505

00:31:03,320 --> 00:31:08,320

Either the builders traveled from one place to the other

506

00:31:08,820 --> 00:31:15,820

or the builders in each culture were visited by the same teachers,

507

00:31:15,920 --> 00:31:20,920

the teachers from the stars, extraterrestrials.

508

00:31:23,420 --> 00:31:28,420

These navals of the world might have been geodesic points

509

00:31:28,520 --> 00:31:31,020

which you can use to navigate from the air.

510

00:31:31,120 --> 00:31:33,920

There are interesting accounts about this.

511

00:31:34,320 --> 00:31:38,820

For example, from Apollonius, who lived in Rome in 4 AD,

512

00:31:38,920 --> 00:31:41,820

that he descended with Thunderbirds, that he had visited

513

00:31:41,920 --> 00:31:43,820

the city of the gods.

514

00:31:43,920 --> 00:31:48,820

There he was given talisman, which he was supposed to bury.

515

00:31:48,920 --> 00:31:51,520

There is a similar legend from Cusco.

516

00:31:51,620 --> 00:31:54,720

There the children of the Sun God are supposed to have

517

00:31:54,820 --> 00:31:58,120

plunged a rod into the earth.

518

00:31:58,220 --> 00:32:01,820

And there are similar legends on Easter Island.

519

00:32:03,920 --> 00:32:07,820

If Cusco and Easter Island were linked in ancient times

520

00:32:07,920 --> 00:32:12,320

by space travelers, what might this say about other centers

521

00:32:12,420 --> 00:32:13,320

of the world?

522

00:32:16,020 --> 00:32:20,420

Strangely, some ancient civilizations are located on the

523

00:32:20,520 --> 00:32:24,420

exact opposite sides of the planet.

524

00:32:24,520 --> 00:32:28,120

A line drawn from Easter Island through the center of the earth

525

00:32:28,220 --> 00:32:32,920

points to Mohenjo-Daro-Pakistan, a once great empire believed

526

00:32:33,020 --> 00:32:36,520

by ancient astronaut theorists to have been destroyed by a

527

00:32:36,620 --> 00:32:39,020

nuclear blast thousands of years ago.

528

00:32:43,120 --> 00:32:46,520

And from Nazca Peru, a line through the earth points to

529

00:32:46,620 --> 00:32:51,820

Ankerwat Cambodia, a site of great religious significance,

530

00:32:51,920 --> 00:32:55,420

known in ancient myths to have been built as a landing zone

531

00:32:55,520 --> 00:32:57,620

for sky beings.

532

00:32:57,720 --> 00:33:02,520

And astonishingly, these four sites lie on one circle around

533

00:33:02,520 --> 00:33:06,620

the globe, a circle that also includes the location of the

534

00:33:06,720 --> 00:33:09,420

great pyramids of Egypt.

535

00:33:09,520 --> 00:33:12,820

This is really the underlying mystery, I think, which is not

536

00:33:12,920 --> 00:33:16,920

necessarily why were these monuments built, for what purpose,

537

00:33:17,020 --> 00:33:20,920

but also why were they built on those specific places?

538

00:33:21,020 --> 00:33:24,320

Because really, what we are beginning to understand is that

539

00:33:24,420 --> 00:33:27,120

all of these monuments from the past were not just built

540

00:33:27,220 --> 00:33:30,320

haphazardly on the surface of the earth, but were built in

541

00:33:30,320 --> 00:33:33,420

very specific locations.

542

00:33:33,520 --> 00:33:36,320

It appears that ancient people either mapped the earth in some

543

00:33:36,420 --> 00:33:39,820

esoteric way that we can't comprehend yet, or it was

544

00:33:39,920 --> 00:33:44,220

sacred knowledge handed down over thousands of years.

545

00:33:44,320 --> 00:33:48,320

Might such connections between ancient sites around the world

546

00:33:48,420 --> 00:33:52,120

suggest that there was some sort of strategic link between

547

00:33:52,220 --> 00:33:56,620

these civilizations, as ancient astronaut theorists believe?

548

00:33:56,620 --> 00:33:59,420

And if so, what could this mean?

549

00:34:02,420 --> 00:34:05,320

Before the advent of satellite-guided global positioning

550

00:34:05,420 --> 00:34:10,320

systems, the science of geodesy was used to determine the exact

551

00:34:10,420 --> 00:34:15,320

position of geographic points on the globe.

552

00:34:15,420 --> 00:34:19,120

One of the oldest of earth's sciences, the use of geodesy

553

00:34:19,220 --> 00:34:22,320

dates back thousands of years.

554

00:34:22,420 --> 00:34:25,720

There's clear records that geodesy was used by the Sumerians

555

00:34:25,720 --> 00:34:27,020

in ancient times.

556

00:34:27,120 --> 00:34:32,620

Several of the landing spots used by the gods were actually

557

00:34:32,720 --> 00:34:35,620

triangulation points to the landing corridor.

558

00:34:35,720 --> 00:34:39,420

Things like Balbeck in Lebanon or Jerusalem were actually

559

00:34:39,520 --> 00:34:44,120

extensive megalithic monuments or platforms that were used to

560

00:34:44,220 --> 00:34:46,820

launch spacecraft.

561

00:34:46,920 --> 00:34:49,820

An ancient man recorded stories around these locations of

562

00:34:49,920 --> 00:34:54,020

seeing great smoke, fire, and loud noise as these ships ascended

563

00:34:54,020 --> 00:34:55,520

or descended from these locations.

564

00:34:58,120 --> 00:35:00,820

I'd probably highly reason both the ancients had systems of

565

00:35:00,920 --> 00:35:01,820

navigation.

566

00:35:01,920 --> 00:35:04,420

I mean, we know the Romans did effectively that.

567

00:35:04,520 --> 00:35:06,820

And that was why they were so efficient at getting around

568

00:35:06,920 --> 00:35:09,620

their empire in addition to their roads and keeping track

569

00:35:09,720 --> 00:35:10,320

of things.

570

00:35:12,720 --> 00:35:17,820

In the early era of our own flight, pilots used markers

571

00:35:17,920 --> 00:35:22,820

which would be church steeples or mountains and obvious

572

00:35:22,820 --> 00:35:26,120

physical monuments that they could see.

573

00:35:26,220 --> 00:35:31,020

Just like that, the ancient aliens, they were able to also use

574

00:35:31,120 --> 00:35:35,920

this world grid and the pyramids and obelisks and other

575

00:35:36,020 --> 00:35:40,420

monuments that were built at these special power places

576

00:35:40,520 --> 00:35:41,420

to navigate.

577

00:35:44,520 --> 00:35:47,420

It's almost like the ancients were building these sites

578

00:35:47,520 --> 00:35:50,220

and they were mapping the planet in fast antiquity, possibly

579

00:35:50,320 --> 00:35:52,220

up to 10,000 or more years ago.

580

00:35:53,820 --> 00:35:57,620

Because of the interaction between ancient civilization

581

00:35:57,720 --> 00:36:02,220

and ancient aliens, these ancient societies, recognizing

582

00:36:02,320 --> 00:36:05,420

the importance of these spots and the presence of ancient

583

00:36:05,520 --> 00:36:11,220

aliens, place these monuments as a map for the star people,

584

00:36:11,320 --> 00:36:15,520

for the ancient aliens to follow and to direct them to the

585

00:36:15,620 --> 00:36:19,220

civilizations they might well have started by themselves

586

00:36:19,320 --> 00:36:20,420

as colonies.

587

00:36:21,420 --> 00:36:24,920

Is it really possible that many of the world's most famous

588

00:36:25,020 --> 00:36:28,820

ancient sites were part of an interconnected network whose

589

00:36:28,920 --> 00:36:32,620

placement on the globe was planned tens of thousands of years

590

00:36:32,720 --> 00:36:37,020

ago by visitors from other galaxies as ancient astronaut

591

00:36:37,120 --> 00:36:38,220

theorists contend?

592

00:36:39,820 --> 00:36:43,520

Perhaps more evidence can be found among numerous strange

593

00:36:43,620 --> 00:36:49,020

symbols hidden in plain view along the northwest coast of

594

00:36:49,120 --> 00:36:49,820

France.

595

00:36:54,320 --> 00:36:56,620

The Gulf of Morbihane.

596

00:36:57,220 --> 00:37:01,620

Along the rocky coast of French Brittany is the small island

597

00:37:01,720 --> 00:37:02,820

of Governus.

598

00:37:04,220 --> 00:37:09,020

Here lie the remains of a passage grave known as the

599

00:37:09,120 --> 00:37:14,420

Governus Tomb built around 3,500 BC.

600

00:37:15,420 --> 00:37:21,620

Governus is an extraordinary passage grave that illustrates

601

00:37:21,720 --> 00:37:29,020

highly advanced mathematical knowledge dating back to prehistoric

602

00:37:29,120 --> 00:37:29,820

times.

603

00:37:31,120 --> 00:37:35,020

What's really amazing about Governus is that there are

604

00:37:35,120 --> 00:37:41,620

spirals and hand axes and almost things that look like

605

00:37:41,620 --> 00:37:45,320

fingerprints that have been carved onto the megalithic

606

00:37:45,420 --> 00:37:50,520

slabs and mathematicians have determined that there are hidden

607

00:37:50,620 --> 00:37:53,520

messages, hidden mathematical messages.

608

00:37:53,620 --> 00:37:56,720

When people came to Governus and they began to make measurements

609

00:37:56,820 --> 00:37:59,920

of how these stones were placed, they began to realize that

610

00:38:00,020 --> 00:38:03,820

these stones weren't just placed haphazardly in some kind of

611

00:38:03,920 --> 00:38:08,520

coincidental form, but actually explained extraordinary

612

00:38:08,620 --> 00:38:10,620

understanding and knowledge of mathematics.

613

00:38:12,620 --> 00:38:19,220

Fifty-two megalithic stones were used in the construction of

614

00:38:19,320 --> 00:38:24,120

the passage grave of which 26 are engraved with unique symbols

615

00:38:24,220 --> 00:38:28,020

by adding, dividing and multiplying the numbers of symbols

616

00:38:28,120 --> 00:38:31,320

with significant stones or groups of stones.

617

00:38:31,420 --> 00:38:34,920

Researchers have discovered the correct spherical size of the

618

00:38:35,020 --> 00:38:39,320

earth, the number of days in a year and the mathematical

619

00:38:39,420 --> 00:38:40,920

constant Pi.

620

00:38:42,620 --> 00:38:45,020

Pi is a very special number in mathematics.

621

00:38:45,120 --> 00:38:47,920

Pi is a fundamental property of all circles.

622

00:38:48,020 --> 00:38:51,920

It's the ratio of a circle's circumference to its diameter.

623

00:38:54,120 --> 00:38:58,820

These mathematicians have not only determined the numerical

624

00:38:58,920 --> 00:39:03,620

Pi way, way, way before it was ever discovered, quote,

625

00:39:03,720 --> 00:39:08,420

unquote, but also the exact longitude and latitude of the

626

00:39:08,420 --> 00:39:13,120

island. Now that is sensational because why would

627

00:39:13,220 --> 00:39:16,820

Stone Age people know about the longitude and latitude of

628

00:39:16,920 --> 00:39:18,420

that particular island?

629

00:39:19,920 --> 00:39:23,120

But do such findings of precise mathematical knowledge at

630

00:39:23,220 --> 00:39:28,920

Governus engrave there more than 5,000 years ago suggest

631

00:39:29,020 --> 00:39:32,120

that its builders were leaving a secret code for future

632

00:39:32,220 --> 00:39:35,520

generations as ancient astronaut theorists can tell.

633

00:39:36,020 --> 00:39:38,920

Clear, precise construction of these huge structures.

634

00:39:39,020 --> 00:39:44,920

None of this makes any sense unless the construction was

635

00:39:45,020 --> 00:39:49,120

directly commissioned by extraterrestrials because they

636

00:39:49,220 --> 00:39:53,720

knew that we'd have to wear with all to decipher the message.

637

00:39:56,520 --> 00:39:59,620

But is it really possible that the principles of advanced

638

00:39:59,720 --> 00:40:03,720

mathematics were brought to earth and given to man by alien

639

00:40:03,920 --> 00:40:08,920

visitors? According to ancient astronaut theorists, the idea

640

00:40:09,020 --> 00:40:11,820

is not only possible, but probable.

641

00:40:13,220 --> 00:40:16,420

There is no way that we could have achieved the moon landings

642

00:40:16,520 --> 00:40:19,420

for instance without a very advanced knowledge of higher

643

00:40:19,520 --> 00:40:24,020

mathematics that these ancient cultures seem to know way, way

644

00:40:24,120 --> 00:40:25,820

back many, many thousands of years.

645

00:40:27,020 --> 00:40:30,320

Then it doesn't. It spans very much into different parts of

646

00:40:30,420 --> 00:40:31,120

our culture.

647

00:40:32,120 --> 00:40:37,420

There seems to be a single universal mathematical geometric

648

00:40:37,520 --> 00:40:40,920

code for how the universe works and somebody has been trying

649

00:40:41,020 --> 00:40:44,120

to get us to wake up to this fact for thousands and thousands

650

00:40:44,220 --> 00:40:45,420

and thousands of years.

651

00:40:47,420 --> 00:40:53,720

Because ancient astronauts were aware that our development one

652

00:40:53,820 --> 00:40:59,120

day would reach a highly advanced technological status, they

653

00:40:59,120 --> 00:41:04,320

wanted to leave behind some type of a message, a type of secret

654

00:41:04,420 --> 00:41:09,120

code that needed to be deciphered by a future generation

655

00:41:09,220 --> 00:41:13,520

that understood or would understand what really happened

656

00:41:13,620 --> 00:41:17,420

in the past and that generation is us.

657

00:41:19,520 --> 00:41:24,620

The world energy grid, star alignments, ancient flight

658

00:41:24,720 --> 00:41:26,920

paths and mathematics.

659

00:41:28,220 --> 00:41:32,420

Did ancient astronauts really leave behind a secret code

660

00:41:33,520 --> 00:41:38,920

embedded in the stone monuments of early man, one that reveals

661

00:41:39,020 --> 00:41:41,620

the extraterrestrial origins of our world?

662

00:41:42,720 --> 00:41:49,920

If so, why was it to test us to see if we could figure the

663

00:41:50,020 --> 00:41:51,520

code out for ourselves?

664

00:41:52,620 --> 00:41:57,320

Was it simply to communicate with us or was it to prepare us

665

00:41:57,920 --> 00:42:00,620

for the day they will return?
