

1

00:00:00,000 --> 00:00:07,000

Highly advanced humans living thousands of years ago,

2

00:00:07,000 --> 00:00:13,000

unidentified DNA in the human genome,

3

00:00:13,000 --> 00:00:18,000

and ancient chronicles describing heavenly interventions

4

00:00:18,000 --> 00:00:20,000

on Earth.

5

00:00:20,000 --> 00:00:24,000

Did humans really evolve from apes,

6

00:00:24,000 --> 00:00:29,000

or is our intelligence the result of an otherworldly design?

7

00:00:29,000 --> 00:00:33,000

What are humans made of?

8

00:00:33,000 --> 00:00:37,000

Why do we evolve the way we do, grow the way we do,

9

00:00:37,000 --> 00:00:38,000

think the way we do?

10

00:00:38,000 --> 00:00:41,000

There's no explanation for human beings.

11

00:00:41,000 --> 00:00:44,000

They shouldn't be here on this planet.

12

00:00:44,000 --> 00:00:48,000

Science and the world of history, even in archaeology,

13

00:00:48,000 --> 00:00:50,000

is still scrambling around for answers.

14

00:00:50,000 --> 00:00:54,000

We should finally come to grips with the idea

15

00:00:54,000 --> 00:01:00,000

that extraterrestrials had something to do with our development.

16

00:01:00,000 --> 00:01:05,000

Millions of people around the world believe we have been visited

17

00:01:05,000 --> 00:01:09,000

in the past by extraterrestrial beings.

18

00:01:09,000 --> 00:01:12,000

What if it were true?

19

00:01:12,000 --> 00:01:17,000

Did ancient aliens really help to shape our history?

20

00:01:17,000 --> 00:01:22,000

And if so, might evidence of alien contact help to unlock

21

00:01:22,000 --> 00:01:26,000

the mystery behind the creation of man?

22

00:01:57,000 --> 00:02:00,000

South Africa

23

00:02:00,000 --> 00:02:07,000

25 miles northwest of Johannesburg lie the Malapa Caves.

24

00:02:07,000 --> 00:02:12,000

Here, in August of 2008, paleoanthropologist Lee Berger

25

00:02:12,000 --> 00:02:16,000

and his nine-year-old son Matthew discover several fossilized

26

00:02:16,000 --> 00:02:20,000

skeletal remains of two million-year-old early humans,

27

00:02:20,000 --> 00:02:24,000

including a female adult and male child,

28

00:02:24,000 --> 00:02:29,000

perhaps a mother and son.

29

00:02:29,000 --> 00:02:33,000

The size and shape of the bones indicate that the individuals

30

00:02:33,000 --> 00:02:38,000

walked upright and had modern hands.

31

00:02:38,000 --> 00:02:42,000

Over the past several decades, scientists have unearthed

32

00:02:42,000 --> 00:02:47,000

the remains of nearly two dozen different types of early human ancestors,

33

00:02:47,000 --> 00:02:53,000

all known as hominids.

34

00:02:55,000 --> 00:03:00,000

We have an extremely good fossil record of ancient hominids.

35

00:03:00,000 --> 00:03:05,000

And I think the picture emerging from it is pretty clear that

36

00:03:05,000 --> 00:03:08,000

in earlier days, before homo sapiens came along,

37

00:03:08,000 --> 00:03:13,000

there were typically many different kinds of hominids coexisting in the world.

38

00:03:13,000 --> 00:03:16,000

We have a hard time getting our minds around this now

39

00:03:16,000 --> 00:03:18,000

because of course there's just one kind of human on Earth today

40

00:03:18,000 --> 00:03:20,000

and there are seven billion of us,

41

00:03:20,000 --> 00:03:23,000

but at one time, within the last few hundred thousand years,

42

00:03:23,000 --> 00:03:28,000

you could find two or even three species of hominin

43

00:03:28,000 --> 00:03:34,000

living in the same area at the same time.

44

00:03:34,000 --> 00:03:39,000

Most mainstream scholars tell us hominids evolved from an ape ancestor

45

00:03:39,000 --> 00:03:41,000

nearly six million years ago

46

00:03:41,000 --> 00:03:47,000

through what is referred to as natural selection.

47

00:03:47,000 --> 00:03:50,000

This theory of evolution was first popularized

48

00:03:50,000 --> 00:03:53,000

by English anthropologist Charles Darwin

49

00:03:53,000 --> 00:03:57,000

in his 1859 book *On the Origin of Species*.

50

00:03:57,000 --> 00:04:01,000

Darwin's mechanism of evolution was natural selection.

51

00:04:01,000 --> 00:04:06,000

That is to say a long-term process whereby better adapted individuals

52

00:04:06,000 --> 00:04:09,000

reproduce more successfully.

53

00:04:09,000 --> 00:04:14,000

Darwin's theory of evolution by natural selection

54

00:04:14,000 --> 00:04:22,000

explains that organisms with certain traits such as mutation

55

00:04:22,000 --> 00:04:26,000

turn out to be actually beneficial,

56

00:04:26,000 --> 00:04:31,000

turn out to be of advantage in the struggle for reproduction.

57

00:04:31,000 --> 00:04:36,000

So mutation allows organisms to survive

58

00:04:36,000 --> 00:04:42,000

and to pass on to the next generation this mutation.

59

00:04:45,000 --> 00:04:48,000

Darwin speculated that over time,

60

00:04:48,000 --> 00:04:53,000

hominids walking on two feet used their hands to make tools.

61

00:04:53,000 --> 00:04:56,000

This in turn made them smarter.

62

00:04:56,000 --> 00:05:01,000

Then, approximately 200,000 years ago,

63

00:05:01,000 --> 00:05:05,000

hominids evolved into homo sapiens or modern man.

64

00:05:05,000 --> 00:05:09,000

But many scholars dispute Darwin's findings.

65

00:05:09,000 --> 00:05:12,000

We don't see dolphins building cars.

66

00:05:12,000 --> 00:05:15,000

We don't see elephants building houses.

67

00:05:15,000 --> 00:05:18,000

That might sound trite, but it's a fact that these animals

68

00:05:18,000 --> 00:05:21,000

just simply haven't progressed in the way we have.

69

00:05:21,000 --> 00:05:23,000

And the big question is, why is that?

70

00:05:23,000 --> 00:05:27,000

Why should that happen? Why should we be so unique?

71

00:05:27,000 --> 00:05:29,000

Tool-ed use doesn't really come into play

72

00:05:29,000 --> 00:05:32,000

for several million years after the first earliest humans

73

00:05:32,000 --> 00:05:33,000

began to walk upright.

74

00:05:33,000 --> 00:05:36,000

And then brain size doesn't really begin to expand

75

00:05:36,000 --> 00:05:38,000

and really mushroom in size

76

00:05:38,000 --> 00:05:40,000

until the last several hundred thousand years.

77

00:05:40,000 --> 00:05:43,000

So actually, six million years of human evolution,

78

00:05:43,000 --> 00:05:46,000

there are millions of years separating each of those major features,

79

00:05:46,000 --> 00:05:49,000

upright posture, tool use, brain expansion.

80

00:05:49,000 --> 00:05:51,000

So Darwin was wrong because he couldn't possibly

81

00:05:51,000 --> 00:05:53,000

have known the chronology in his day.

82

00:05:56,000 --> 00:06:00,000

In 1967, British zoologist Desmond Morris

83

00:06:00,000 --> 00:06:03,000

argued against Darwin's theories on evolution.

84

00:06:03,000 --> 00:06:06,000

In his book, *The Naked Ape*.

85

00:06:07,000 --> 00:06:10,000

In it, Morris wrote that there was no reason

86

00:06:10,000 --> 00:06:14,000

why man stood alone from other species in terms of his nudity.

87

00:06:14,000 --> 00:06:16,000

Well, of course, as homo sapiens,

88

00:06:16,000 --> 00:06:19,000

we still continue to have a coating of hair,

89

00:06:19,000 --> 00:06:22,000

but that hair is very much reduced over most of our bodies.

90

00:06:22,000 --> 00:06:25,000

And that reduction probably goes back

91

00:06:25,000 --> 00:06:28,000

way beyond homo sapiens in time.

92

00:06:28,000 --> 00:06:31,000

It probably goes back to the time when the very first

93

00:06:31,000 --> 00:06:35,000

early bipedal hominids came out of the forests

94

00:06:35,000 --> 00:06:39,000

in Africa, into the savannas, where they had more sun

95

00:06:39,000 --> 00:06:43,000

and more thermal radiation to cope with.

96

00:06:50,000 --> 00:06:52,000

In places like Europe, northern Europe,

97

00:06:52,000 --> 00:06:54,000

why we lost body hair?

98

00:06:54,000 --> 00:06:56,000

It's a chicken and egg question.

99

00:06:56,000 --> 00:06:58,000

Did we lose our body hair because we began to wear clothing

100

00:06:58,000 --> 00:07:00,000

to keep us warm?

101

00:07:00,000 --> 00:07:02,000

Or was there some other factor at work that caused us

102

00:07:02,000 --> 00:07:04,000

to lose our body hair?

103

00:07:04,000 --> 00:07:08,000

And so it was lost because they didn't choose those men as mates.

104

00:07:08,000 --> 00:07:11,000

There's no way to ever answer that question.

105

00:07:11,000 --> 00:07:18,000

If we were to subscribe 100% to the idea of survival of the fittest,

106

00:07:18,000 --> 00:07:23,000

isn't it illogical to think that all of a sudden

107

00:07:23,000 --> 00:07:27,000

we're completely naked and we're losing all of our fur?

108

00:07:27,000 --> 00:07:30,000

I mean, that makes absolutely no sense,

109

00:07:30,000 --> 00:07:33,000

because right after we shed our fur,

110

00:07:33,000 --> 00:07:36,000

we had to wear furs to keep warm.

111

00:07:36,000 --> 00:07:40,000

Had we not worn any furs, we would have frozen to death.

112

00:07:40,000 --> 00:07:42,000

We would have died.

113

00:07:42,000 --> 00:07:45,000

So the whole idea that we shed all of our hair

114

00:07:45,000 --> 00:07:48,000

in order to survive because we were stronger,

115

00:07:48,000 --> 00:07:52,000

logically, makes no sense.

116

00:07:55,000 --> 00:07:58,000

But if Darwin's theory of natural selection

117

00:07:58,000 --> 00:08:02,000

cannot account for the appearance of intelligent, hairless homo sapiens,

118

00:08:02,000 --> 00:08:04,000

what can?

119

00:08:06,000 --> 00:08:09,000

Might the transition of hominids to modern human beings

120

00:08:09,000 --> 00:08:13,000

have been the result of an otherworldly design,

121

00:08:13,000 --> 00:08:16,000

as ancient astronaut theorists believe?

122

00:08:17,000 --> 00:08:20,000

Alfred Russell Wallace, a colleague of Darwin,

123

00:08:20,000 --> 00:08:24,000

called it the Intelligence Evolution.

124

00:08:24,000 --> 00:08:28,000

Darwin believed that the human brain had been driven into existence

125

00:08:28,000 --> 00:08:30,000

by natural selection,

126

00:08:30,000 --> 00:08:33,000

but Wallace couldn't quite see how this could be so.

127

00:08:34,000 --> 00:08:40,000

What Wallace perceived was that the way that humans think,

128

00:08:40,000 --> 00:08:44,000

the intellectual faculties are qualitatively different

129

00:08:44,000 --> 00:08:47,000

from anything that had preceded them,

130

00:08:47,000 --> 00:08:51,000

and he couldn't quite see how this enormous gap

131

00:08:51,000 --> 00:08:54,000

could be bridged by natural selection.

132

00:08:54,000 --> 00:08:57,000

So he invoked another explanation

133

00:08:57,000 --> 00:09:03,000

for the evolution, the arrival of modern human cognitive abilities.

134

00:09:03,000 --> 00:09:09,000

His choice was a spiritual explanation.

135

00:09:12,000 --> 00:09:16,000

Alfred believed there was an unseen creative spirit

136

00:09:16,000 --> 00:09:20,000

that was behind all life on our planet,

137

00:09:20,000 --> 00:09:23,000

and he believed that this unseen creative spirit

138

00:09:23,000 --> 00:09:25,000

had interceded three times.

139

00:09:25,000 --> 00:09:27,000

In this planet,

140

00:09:29,000 --> 00:09:34,000

the first was to create life from inorganic matter.

141

00:09:35,000 --> 00:09:38,000

And then the second time was when animals

142

00:09:38,000 --> 00:09:41,000

achieved some kind of consciousness.

143

00:09:41,000 --> 00:09:45,000

And the third time was when humans

144

00:09:45,000 --> 00:09:50,000

suddenly were able to have the mental abilities that we have today.

145

00:09:51,000 --> 00:09:56,000

But he felt that it wasn't just a random selection

146

00:09:56,000 --> 00:09:58,000

like Charles Darwin thought.

147

00:09:58,000 --> 00:10:01,000

He believed that all of these changes

148

00:10:01,000 --> 00:10:05,000

had a creative intelligence behind it.

149

00:10:07,000 --> 00:10:09,000

The view that I have is that

150

00:10:09,000 --> 00:10:12,000

because the rest of nature hasn't changed that much,

151

00:10:12,000 --> 00:10:14,000

that arguably we shouldn't.

152

00:10:14,000 --> 00:10:17,000

So that suggests to me we're seeing something potentially

153

00:10:17,000 --> 00:10:19,000

that has gone against nature.

154

00:10:19,000 --> 00:10:21,000

And if it's gone against nature,

155

00:10:21,000 --> 00:10:25,000

maybe that means because somebody has been manipulating nature.

156

00:10:27,000 --> 00:10:30,000

There's no explanation for human beings.

157

00:10:30,000 --> 00:10:32,000

They shouldn't be here on this planet.

158

00:10:32,000 --> 00:10:37,000

If we were evolved and changed

159

00:10:37,000 --> 00:10:42,000

by an extraterrestrial source from our early primate ancestors,

160

00:10:42,000 --> 00:10:46,000

that's the only way really you can account for the human species,

161

00:10:46,000 --> 00:10:49,000

unless you of course put God in the equation.

162

00:10:49,000 --> 00:10:53,000

And who knows who the gods may have been.

163

00:10:54,000 --> 00:10:58,000

Charles Darwin might be rolling over in his grave right now,

164

00:10:58,000 --> 00:11:02,000

but it's very possible that mankind came about

165

00:11:02,000 --> 00:11:05,000

because of extraterrestrial intervention.

166

00:11:09,000 --> 00:11:12,000

Did the evolution of modern humans

167

00:11:12,000 --> 00:11:16,000

really receive a jumpstart by extraterrestrial beings

168

00:11:16,000 --> 00:11:19,000

as ancient astronaut theorists believe?

169

00:11:19,000 --> 00:11:23,000

And if so, might there be tangible evidence?

170

00:11:23,000 --> 00:11:27,000

Some scientists believe proof can be found

171

00:11:27,000 --> 00:11:30,000

inside the human brain.

172

00:11:36,000 --> 00:11:39,000

Chicago, Illinois

173

00:11:39,000 --> 00:11:42,000

December 2004

174

00:11:42,000 --> 00:11:46,000

Researchers at the Howard Hughes Medical Institute

175

00:11:46,000 --> 00:11:48,000

of the University of Chicago

176

00:11:48,000 --> 00:11:50,000

published the results of a study

177

00:11:50,000 --> 00:11:53,000

that claims the sophistication of the human brain

178

00:11:53,000 --> 00:11:57,000

was the result of a so-called special event.

179

00:11:59,000 --> 00:12:04,000

They said mankind's intelligence was not only the result of evolution

180

00:12:04,000 --> 00:12:07,000

and that around 50,000 years ago

181

00:12:07,000 --> 00:12:12,000

the genes of ancient humans went through an intense amount of change

182

00:12:12,000 --> 00:12:15,000

in a relatively short amount of time,

183

00:12:15,000 --> 00:12:19,000

which some refer to as the big bang of the brain.

184

00:12:22,000 --> 00:12:27,000

No one really knows how human beings develop so fast

185

00:12:27,000 --> 00:12:29,000

in such a short period of time.

186

00:12:29,000 --> 00:12:31,000

I don't believe it was done naturally.

187

00:12:31,000 --> 00:12:36,000

It's very clear that fully modern intellectual function

188

00:12:36,000 --> 00:12:39,000

is a very recent acquisition in our lineage.

189

00:12:39,000 --> 00:12:42,000

It's not an improvement upon what was there before.

190

00:12:42,000 --> 00:12:47,000

It's a new kind of manipulation of information in the mind.

191

00:12:48,000 --> 00:12:52,000

There's no other animal creature on the planet

192

00:12:52,000 --> 00:12:54,000

that has such a comparative point,

193

00:12:54,000 --> 00:12:58,000

and that's why they call it the big brain event.

194

00:12:59,000 --> 00:13:01,000

People talk about the missing link.

195

00:13:01,000 --> 00:13:06,000

Where is the link between going from apes, monkeys, gorillas, etc.

196

00:13:06,000 --> 00:13:10,000

to being able to develop atomic weaponry and fly in space?

197

00:13:11,000 --> 00:13:14,000

When we're looking at the origins of man,

198

00:13:14,000 --> 00:13:18,000

we've realized that 50,000 years ago

199

00:13:18,000 --> 00:13:22,000

we really went where no creature on Earth had ever gone before.

200

00:13:22,000 --> 00:13:25,000

We have become human.

201

00:13:26,000 --> 00:13:31,000

But what was the spark that spurred human intelligence?

202

00:13:31,000 --> 00:13:33,000

Was it a genetic mutation

203

00:13:33,000 --> 00:13:37,000

brought about by the natural selection process of evolution

204

00:13:37,000 --> 00:13:40,000

as many mainstream scientists contend?

205

00:13:40,000 --> 00:13:44,000

Or could it have been a genetic modification

206

00:13:44,000 --> 00:13:47,000

produced by extraterrestrial beings,

207

00:13:47,000 --> 00:13:50,000

as ancient astronaut theorists believe?

208

00:13:50,000 --> 00:13:55,000

There is the idea that there was a gene or genes

209

00:13:55,000 --> 00:13:58,000

that popped up sometime in our ancestors.

210

00:13:58,000 --> 00:14:00,000

Or randomly, that may have given us the ability

211

00:14:00,000 --> 00:14:03,000

to symbolically represent objects in our environment

212

00:14:03,000 --> 00:14:05,000

or be abstract.

213

00:14:05,000 --> 00:14:07,000

Those are things that, for instance, chimpanzees

214

00:14:07,000 --> 00:14:10,000

have a great deal of trouble with, even when they're taught language.

215

00:14:13,000 --> 00:14:16,000

Homo sapiens emerging from Africa

216

00:14:16,000 --> 00:14:19,000

started to behave symbolically.

217

00:14:19,000 --> 00:14:22,000

They started to manipulate information in their mind

218

00:14:22,000 --> 00:14:25,000

in a way in which their predecessors had never done before.

219

00:14:25,000 --> 00:14:29,000

They disassembled the world around them into a vocabulary

220

00:14:29,000 --> 00:14:33,000

of discrete symbols and recombined them

221

00:14:33,000 --> 00:14:36,000

so they could imagine new kinds of worlds.

222

00:14:39,000 --> 00:14:43,000

Long, long time ago, extraterrestrials arrived on this planet.

223

00:14:44,000 --> 00:14:47,000

They realized that the planet was full of life

224

00:14:47,000 --> 00:14:50,000

and one of them was the most advanced form,

225

00:14:50,000 --> 00:14:52,000

was one of our ancestors.

226

00:14:54,000 --> 00:14:59,000

They took the DNA out and they changed the basic information

227

00:14:59,000 --> 00:15:01,000

in the DNA.

228

00:15:01,000 --> 00:15:04,000

This is what our genetics are doing every day.

229

00:15:04,000 --> 00:15:09,000

Now the cell was changed, the product you plant into the womb

230

00:15:09,000 --> 00:15:12,000

of a female of the same species.

231

00:15:12,000 --> 00:15:17,000

This female will give birth to a child approximately after nine months.

232

00:15:17,000 --> 00:15:20,000

But because of this artificial mutation,

233

00:15:20,000 --> 00:15:24,000

and that's different because it was made artificially

234

00:15:24,000 --> 00:15:26,000

by the extraterrestrials.

235

00:15:29,000 --> 00:15:34,000

What if, as part of the genetic updates human beings were getting

236

00:15:34,000 --> 00:15:38,000

from extraterrestrials, one of those genetic updates

237

00:15:38,000 --> 00:15:43,000

involved a software download, a biological download

238

00:15:43,000 --> 00:15:47,000

to differentiate the different hemispheres of the brain

239

00:15:47,000 --> 00:15:53,000

to allow human society, tool making, fire, social organization

240

00:15:53,000 --> 00:15:58,000

to be created and from that, that particular species of hominid

241

00:15:58,000 --> 00:16:01,000

became the human being we are today.

242

00:16:02,000 --> 00:16:07,000

If alien species out there could fly across interstellar space,

243

00:16:07,000 --> 00:16:12,000

then in all probability they would have similar DNA recombinant technology.

244

00:16:12,000 --> 00:16:16,000

Of course it would depend on their own genetic composition

245

00:16:16,000 --> 00:16:21,000

being similar to ours, but if they understood sufficient chemistry

246

00:16:21,000 --> 00:16:25,000

and physical principles from their own experience

247

00:16:25,000 --> 00:16:28,000

of the physical world model, then in all probability

248

00:16:28,000 --> 00:16:31,000

manipulating our DNA would be simple.

249

00:16:41,000 --> 00:16:47,000

But if alien beings created humans by genetically altering our primitive ancestors,

250

00:16:47,000 --> 00:16:52,000

might various versions of hominids have been the result

251

00:16:52,000 --> 00:16:56,000

of experiments at creating intelligent life on Earth,

252

00:16:56,000 --> 00:16:59,000

as ancient astronaut theorists contend.

253

00:17:01,000 --> 00:17:04,000

This is one of the greatest unanswered questions.

254

00:17:04,000 --> 00:17:09,000

The ancient records do not say that we are part of a social experiment.

255

00:17:09,000 --> 00:17:13,000

The ancient records say that we were bestowed upon this gift.

256

00:17:13,000 --> 00:17:17,000

The gods gave us the gift of intellect and it is for us to use it.

257

00:17:17,000 --> 00:17:21,000

So yes, we might actually be part of an experiment,

258

00:17:21,000 --> 00:17:23,000

but it might be an experiment in intelligence.

259

00:17:23,000 --> 00:17:28,000

It might actually be a game of kind of the greatest reality TV show

260

00:17:28,000 --> 00:17:32,000

whereby the entire human species is watched by ancient aliens

261

00:17:32,000 --> 00:17:36,000

who have been watching this show for maybe 50,000 years.

262

00:17:39,000 --> 00:17:45,000

Fox P2 is a gene that was found in our nucleotides

263

00:17:45,000 --> 00:17:51,000

and it is something that sets us completely apart from any other animal.

264

00:17:52,000 --> 00:18:00,000

And scientists have suggested that that gene alone is responsible for language.

265

00:18:00,000 --> 00:18:04,000

And there is absolutely no evidence of origin

266

00:18:04,000 --> 00:18:09,000

or that this thing somehow mutated from the animal kingdom towards us.

267

00:18:09,000 --> 00:18:15,000

So this gene exists out of nowhere without any origin.

268

00:18:15,000 --> 00:18:22,000

So my question is, is it possible that this gene was given to us

269

00:18:22,000 --> 00:18:28,000

or grafted into us by extraterrestrials in the remote past?

270

00:18:28,000 --> 00:18:31,000

And the answer is yes.

271

00:18:35,000 --> 00:18:44,000

Was it the same non-human ancient aliens of so many ancient settlements on this planet

272

00:18:44,000 --> 00:18:50,000

deciding that they wanted humans to be able to communicate at a more sophisticated level?

273

00:18:50,000 --> 00:18:56,000

I think that's the fundamental angst today among people trying to understand

274

00:18:56,000 --> 00:19:01,000

who are we in relationship to extraterrestrials

275

00:19:01,000 --> 00:19:06,000

that may have been manipulating DNA on this planet for thousands of years.

276

00:19:09,000 --> 00:19:12,000

Might the evidence of our alien origins

277

00:19:12,000 --> 00:19:16,000

really have been passed down to us implanted in our genetic code

278

00:19:16,000 --> 00:19:20,000

as ancient astronaut theorists believe?

279

00:19:20,000 --> 00:19:23,000

Perhaps further evidence can be found,

280

00:19:23,000 --> 00:19:27,000

not by scientists but by religious scholars

281

00:19:27,000 --> 00:19:31,000

that claim Adam and Eve really did exist.

282

00:19:37,000 --> 00:19:39,000

The Hebrew Bible

283

00:19:39,000 --> 00:19:45,000

In it, the Book of Genesis describes how God created the first two humans,

284

00:19:45,000 --> 00:19:49,000

Adam and Eve, in the Garden of Eden,

285

00:19:49,000 --> 00:19:54,000

and told them to go forth and multiply.

286

00:19:54,000 --> 00:19:58,000

For centuries, scientists and theologians have debated

287

00:19:58,000 --> 00:20:05,000

whether this story of the creation of man was mere myth or historical fact.

288

00:20:05,000 --> 00:20:09,000

The Torah mentions that humanity is made out of the dust of the earth

289

00:20:09,000 --> 00:20:14,000

and that God breathed life into this to make us animated.

290

00:20:14,000 --> 00:20:17,000

Here is the breath of soul, the breath of vitality,

291

00:20:17,000 --> 00:20:21,000

the divine breath which suggests that we, the spark,

292

00:20:21,000 --> 00:20:26,000

the life force that makes a human body tick is divine in its nature.

293

00:20:28,000 --> 00:20:34,000

In 1987, scholarly disagreements over the origin of man intensified

294

00:20:34,000 --> 00:20:38,000

with the discovery that the genetic lineage of every living person

295

00:20:38,000 --> 00:20:43,000

could be traced back to a single woman who once lived in Africa.

296

00:20:46,000 --> 00:20:48,000

It's pretty well established by now,

297

00:20:48,000 --> 00:20:51,000

particularly from the molecular, the DNA record,

298

00:20:51,000 --> 00:20:55,000

that homo sapiens did originate at one place in Africa

299

00:20:55,000 --> 00:21:01,000

and after having become fully modern in the sense of intellectually modern,

300

00:21:01,000 --> 00:21:06,000

they were then spread out to occupy Europe, to occupy eastern Asia,

301

00:21:06,000 --> 00:21:09,000

and the old world in general.

302

00:21:09,000 --> 00:21:11,000

It's sometimes called the Eve model,

303

00:21:11,000 --> 00:21:14,000

not meaning that we're all descended from the same woman,

304

00:21:14,000 --> 00:21:19,000

but it does mean that there was a woman in that early human population

305

00:21:19,000 --> 00:21:22,000

migrating out of Africa who was the only female

306

00:21:22,000 --> 00:21:26,000

who ultimately left her genes in every modern person.

307

00:21:26,000 --> 00:21:30,000

But is it possible that mainstream science and the book of Genesis

308

00:21:30,000 --> 00:21:33,000

are both pointing to the same moment in ancient time

309

00:21:33,000 --> 00:21:36,000

when modern man first appeared on Earth?

310

00:21:39,000 --> 00:21:41,000

The myth of Adam and Eve, I think, is not a myth.

311

00:21:41,000 --> 00:21:43,000

I think it's a true story.

312

00:21:45,000 --> 00:21:48,000

I think Adam and Eve were on this planet.

313

00:21:48,000 --> 00:21:51,000

They were the first human beings that we know of,

314

00:21:51,000 --> 00:21:54,000

and they helped populate this planet.

315

00:21:55,000 --> 00:21:57,000

What is the Garden of Eden?

316

00:21:57,000 --> 00:22:02,000

I think it just happened to be the area that the genetically manipulated human being,

317

00:22:02,000 --> 00:22:05,000

Adam and Eve, were placed.

318

00:22:05,000 --> 00:22:06,000

That's where they lived.

319

00:22:06,000 --> 00:22:08,000

That's where they started to breed,

320

00:22:08,000 --> 00:22:12,000

and that's where the populations of the planet started to grow.

321

00:22:12,000 --> 00:22:17,000

If Adam and Eve actually had existed, as described in the Hebrew Bible,

322

00:22:17,000 --> 00:22:24,000

might this also mean that a serpent really did tempt them to eat from the tree of knowledge?

323

00:22:24,000 --> 00:22:29,000

If so, might this account have been an effort to describe the sudden awakening

324

00:22:29,000 --> 00:22:35,000

of the modern human mind when man first became an intelligent being?

325

00:22:37,000 --> 00:22:42,000

In the Bible, it says that if you eat from this tree, you will be like God.

326

00:22:44,000 --> 00:22:48,000

Satan, in the form of a snake, tempts Adam and Eve

327

00:22:48,000 --> 00:22:51,000

and promises them that they will be like God.

328

00:22:52,000 --> 00:22:57,000

The knowledge that Adam and Eve acquire, as well as humanity in general,

329

00:22:57,000 --> 00:23:02,000

gives man the ability to eventually carry out genetic manipulations.

330

00:23:05,000 --> 00:23:07,000

So what was this tree of knowledge?

331

00:23:07,000 --> 00:23:14,000

Is the tree of knowledge, in fact, the helical DNA sequencing in our own bodies

332

00:23:14,000 --> 00:23:19,000

that was genetically engineered by extraterrestrials 50,000 years ago

333

00:23:19,000 --> 00:23:22,000

so that we would have the abilities that we have today?

334

00:23:22,000 --> 00:23:27,000

In my mind, it's our DNA itself that is the tree of knowledge.

335

00:23:28,000 --> 00:23:31,000

But why was this suddenly a bad thing?

336

00:23:31,000 --> 00:23:37,000

It would seem that the aliens, some of them wanted us to have this knowledge,

337

00:23:37,000 --> 00:23:40,000

to be like the gods, but others said,

338

00:23:40,000 --> 00:23:44,000

no, no, man is not to have all of this knowledge.

339

00:23:44,000 --> 00:23:48,000

This is also the same story of the Greek god Prometheus,

340

00:23:48,000 --> 00:23:53,000

who, against the orders of the other gods, comes down to earth

341

00:23:53,000 --> 00:23:56,000

and gives mankind the knowledge of fire.

342

00:23:56,000 --> 00:24:04,000

But because of this gift of mankind, he himself, as a god, is like Satan.

343

00:24:04,000 --> 00:24:06,000

He's banished from the earth.

344

00:24:06,000 --> 00:24:07,000

And why?

345

00:24:07,000 --> 00:24:11,000

Because he helped mankind to have greater knowledge.

346

00:24:15,000 --> 00:24:22,000

The whole idea or concept of Satan is based on a misunderstood visit

347

00:24:22,000 --> 00:24:25,000

by extraterrestrials in the remote past.

348

00:24:26,000 --> 00:24:29,000

According to the ancient astronaut theory,

349

00:24:29,000 --> 00:24:34,000

the reason why we have the idea of a Satan today

350

00:24:34,000 --> 00:24:38,000

is because there might have been some type of a mutiny

351

00:24:39,000 --> 00:24:45,000

between good and bad extraterrestrial factions in the remote past.

352

00:24:48,000 --> 00:24:52,000

And so the mutineers were cast out by the commander,

353

00:24:52,000 --> 00:25:00,000

and they became known as the evil, fallen angels, which they never were.

354

00:25:02,000 --> 00:25:05,000

If, as ancient astronaut theorists believe,

355

00:25:05,000 --> 00:25:10,000

extraterrestrials were responsible for providing humans with intelligence,

356

00:25:10,000 --> 00:25:14,000

might they have also given man the ability to speak?

357

00:25:15,000 --> 00:25:18,000

Our voice box, our larynx, is so different than the apes.

358

00:25:18,000 --> 00:25:21,000

Even the chimpanzee, who is our closest cousin,

359

00:25:21,000 --> 00:25:24,000

that we're able to produce sounds and produce language.

360

00:25:24,000 --> 00:25:28,000

To a scientist today, that's almost like it was genetically designed

361

00:25:28,000 --> 00:25:33,000

so that we can say words and sing.

362

00:25:34,000 --> 00:25:37,000

There really isn't anything more advanced than the human language.

363

00:25:37,000 --> 00:25:42,000

So many different cultures, dialects, languages around the world.

364

00:25:42,000 --> 00:25:48,000

And the very fact that we can communicate on such a deep, extensive level,

365

00:25:48,000 --> 00:25:51,000

that really sets us apart from all other animals.

366

00:25:52,000 --> 00:25:55,000

Who invented language? Where did that come from?

367

00:25:55,000 --> 00:25:57,000

Was that something instilled in us?

368

00:25:58,000 --> 00:26:01,000

I think these are mysteries that to a large degree,

369

00:26:01,000 --> 00:26:04,000

science and the world of history, even in archaeology,

370

00:26:04,000 --> 00:26:06,000

are still scrambling around for answers.

371

00:26:06,000 --> 00:26:08,000

Maybe we shouldn't be looking down here for answers.

372

00:26:08,000 --> 00:26:10,000

Maybe we should be looking up there.

373

00:26:13,000 --> 00:26:17,000

We are told in the Bible that we are made into the image of God.

374

00:26:17,000 --> 00:26:19,000

What does that mean?

375

00:26:19,000 --> 00:26:23,000

Does it mean that we were made physically in somebody's image?

376

00:26:23,000 --> 00:26:28,000

And so therefore the question, namely whether we are descendant from apes

377

00:26:28,000 --> 00:26:32,000

and other creatures on this planet, or whether we truly have been engineered,

378

00:26:32,000 --> 00:26:34,000

can be answered by mythology.

379

00:26:35,000 --> 00:26:39,000

Mythology is able to say that we are not descending from the ape,

380

00:26:39,000 --> 00:26:43,000

but that something happened on this earth and an alien intervention came

381

00:26:43,000 --> 00:26:45,000

and we were the end result of this.

382

00:26:47,000 --> 00:26:51,000

In my opinion, the extraterrestrials, by an artificial mutation,

383

00:26:51,000 --> 00:26:54,000

they created the intelligence of human.

384

00:26:54,000 --> 00:26:56,000

Then the extraterrestrials disappeared.

385

00:26:57,000 --> 00:27:04,000

And some of our ancestors had again sex with their ancestor, with ape-like beings.

386

00:27:04,000 --> 00:27:09,000

And that was gone into mythology, original sin.

387

00:27:10,000 --> 00:27:12,000

Then they return again to God.

388

00:27:12,000 --> 00:27:14,000

They realize what happened.

389

00:27:14,000 --> 00:27:18,000

And they decided to destroy the whole race by a great flood.

390

00:27:18,000 --> 00:27:24,000

And to restart the experiment again with what we call in mythology, Noah.

391

00:27:24,000 --> 00:27:27,000

That's old text. That's the way it is.

392

00:27:30,000 --> 00:27:35,000

It would appear that extraterrestrials came here,

393

00:27:35,000 --> 00:27:39,000

used great apes, other early hominids,

394

00:27:39,000 --> 00:27:45,000

created what would be Neanderthal man or homo erectus, somebody similar to us.

395

00:27:46,000 --> 00:27:52,000

And then refined that hominid until they came up with homo sapien

396

00:27:52,000 --> 00:27:57,000

and then the other early hominids were destroyed.

397

00:28:23,000 --> 00:28:26,000

Northern Iraq

398

00:28:27,000 --> 00:28:32,000

Along the east bank of the Tigris River, opposite the city of Mosul,

399

00:28:32,000 --> 00:28:36,000

lie the ruins of the ancient city of Nineveh,

400

00:28:36,000 --> 00:28:41,000

a place originally inhabited by the Samaritans of Mesopotamia.

401

00:28:44,000 --> 00:28:50,000

Here, in 1842, British archaeologist Austin Henry Layard

402

00:28:50,000 --> 00:28:54,000

unearthed the ruins of the great library of Ashurbanipal,

403

00:28:54,000 --> 00:29:01,000

a royal archive containing thousands of clay tablets with cuneiform inscriptions.

404

00:29:01,000 --> 00:29:06,000

Dating to 3000 BC, the messages carved into stone

405

00:29:06,000 --> 00:29:10,000

are considered to be the world's first written accounts.

406

00:29:10,000 --> 00:29:16,000

Samaritan tablets are probably one of the oldest form of a written record that we have.

407

00:29:17,000 --> 00:29:23,000

They've been translated and they tell exciting stories about how gods intermingled with human beings

408

00:29:23,000 --> 00:29:26,000

and actually had a hand in the creation of human beings,

409

00:29:26,000 --> 00:29:31,000

whether or not it's just mythology or if it's fact, no one really knows.

410

00:29:32,000 --> 00:29:39,000

According to interpretations of the Samarian tablets, the gods were called the Anunnaki.

411

00:29:40,000 --> 00:29:45,000

What we're looking at here is a Samarian tablet that actually shows the Tree of Life,

412

00:29:45,000 --> 00:29:49,000

flanked by divine beings. You can see here the Anunnaki on each side.

413

00:29:49,000 --> 00:29:55,000

We also see the winged disc, a symbolic reference that the Anunnaki had the power of flight.

414

00:29:55,000 --> 00:30:02,000

They actually had necklaces with astronomical references, a moon, a star, various symbols,

415

00:30:02,000 --> 00:30:08,000

which even could be symbolized as a wristwatch, technology being used 6000 years ago.

416

00:30:09,000 --> 00:30:14,000

The written accounts etched into stone suggest the Anunnaki were giant beings,

417

00:30:14,000 --> 00:30:20,000

standing 8 feet tall, who came to Earth in search of gold for their home planet.

418

00:30:22,000 --> 00:30:28,000

When the Samarian gods, the Anunnaki, realized the toll it was taking to mine the gold themselves,

419

00:30:28,000 --> 00:30:33,000

they decided to fashion a worker being, a slave to mine the gold for them.

420

00:30:34,000 --> 00:30:39,000

And they explained in the Samarian creation tales that this was an arduous process.

421

00:30:39,000 --> 00:30:45,000

So it's very possible that our genetic evolution was a process done by the Anunnaki

422

00:30:45,000 --> 00:30:48,000

to create us in their image and after their likeness.

423

00:30:49,000 --> 00:30:57,000

They created man according to the Samaritan text. They created Adam and Eve.

424

00:30:57,000 --> 00:31:04,000

How interesting that the Bible will echo the story, but talk about it in terms of God.

425

00:31:05,000 --> 00:31:12,000

It's almost like these highly advanced creatures were acting as teachers.

426

00:31:13,000 --> 00:31:18,000

And certainly Samaritan culture and mythology is full of stories of, you know,

427

00:31:18,000 --> 00:31:26,000

receiving visitations from these mysterious, higher entities that bestowed wisdom and fantastic ideas and concepts.

428

00:31:26,000 --> 00:31:31,000

And you know, you have to wonder, is this just down to myth or was somebody coming down

429

00:31:31,000 --> 00:31:34,000

and really trying to give us a push if you like.

430

00:31:37,000 --> 00:31:45,000

Ancient chronicles of sky beings creating human life are common in early cultures found all over the world.

431

00:31:45,000 --> 00:31:52,000

But while mainstream scholars often dismiss this evidence, might such tangible historical accounts

432

00:31:52,000 --> 00:31:59,000

provide proof of alien intervention in man's evolution, as ancient astronaut theorists believe.

433

00:32:00,000 --> 00:32:05,000

The Samaritans are not the only culture that talks about this.

434

00:32:05,000 --> 00:32:13,000

Also in the Quran it says that language was given to us by Allah or God.

435

00:32:14,000 --> 00:32:19,000

The Maya Popul Vuh says that language was given to us by the gods.

436

00:32:20,000 --> 00:32:25,000

The ancient Egyptian texts are saying the exact same thing.

437

00:32:26,000 --> 00:32:31,000

It doesn't matter what ancient culture we look at.

438

00:32:31,000 --> 00:32:37,000

They all say the same that language was a gift from the gods.

439

00:32:39,000 --> 00:32:47,000

We should finally come to grips with the idea that extraterrestrials had something to do with our development.

440

00:32:48,000 --> 00:32:59,000

Prior to the use of early systems of writing, ancient people carved symbolic communication into stone, called petroglyphs.

441

00:32:59,000 --> 00:33:04,000

The oldest date to about 10 to 12,000 years ago.

442

00:33:06,000 --> 00:33:12,000

According to ancient astronaut theorists, petroglyphs located in the American Southwest

443

00:33:12,000 --> 00:33:19,000

linked the prehistoric ancestors of the Zuni and Hopi tribes with star beings.

444

00:33:24,000 --> 00:33:27,000

The first graphic expressions by humans were petroglyphs.

445

00:33:27,000 --> 00:33:31,000

That means symbols or figures scratched into stone.

446

00:33:31,000 --> 00:33:36,000

The Hopi Indians, for example, scratched petroglyphs into their rock faces

447

00:33:36,000 --> 00:33:41,000

that show people with radiating reeds, gods that descend from the sky.

448

00:33:43,000 --> 00:33:54,000

The Hopi Indians say that these beings are Cachinas, beings from space who came to Earth in aircraft, who are not gods, but who brought them knowledge from another planet.

449

00:33:57,000 --> 00:34:00,000

We have the same phenomenon in Europe, in Valcomonica.

450

00:34:01,000 --> 00:34:05,000

We have it in Asia, we have it in Brazil.

451

00:34:07,000 --> 00:34:18,000

When we look at the fact that all around the world we hear similar legends of people from the stars coming down and having a profound impact on the people of this country or that particular culture.

452

00:34:18,000 --> 00:34:26,000

All in broadly similar time frames, you know, we're seeing a pattern developing and it's difficult to dismiss that that pattern is suggestive.

453

00:34:26,000 --> 00:34:33,000

In our ancient past, creatures came down, interacted with us and maybe manipulated us to become the people we are today.

454

00:34:37,000 --> 00:34:43,000

Why are so many past civilizations all saying similar things?

455

00:34:43,000 --> 00:34:51,000

I think the simple answer is, is that the same thing happened and they know the story.

456

00:34:51,000 --> 00:35:04,000

And the story is that extraterrestrials came to this planet, genetically made and manipulated whatever creatures were here at the time and helped jumpstart society.

457

00:35:07,000 --> 00:35:22,000

The bottom line is, every civilization talks about the existence of man through the eyes of a god and if you think of the eyes of the god as ETs, it all makes sense.

458

00:35:22,000 --> 00:35:27,000

Back then, this was the way they communicated, events that were significant to them.

459

00:35:28,000 --> 00:35:39,000

And so when we have this imagery of the so-called star people and petroglyphs and things like that, they're clearly chronicling something real, to my mind at least, that occurred in their history.

460

00:35:39,000 --> 00:35:41,000

The big question is what?

461

00:35:41,000 --> 00:35:55,000

But while the evidence of contact between alien beings and early humans is compelling, what if life did not begin here on Earth but arrived from somewhere else?

462

00:35:58,000 --> 00:36:05,000

Huntsville, Alabama, NASA's Marshall Space Flight Center.

463

00:36:05,000 --> 00:36:26,000

Here, in March of 2011, astrobiologist Richard Hoover reports the extraordinary news that he found microfossil organisms, or ancient bacteria, inside rare meteorites that are more than four billion years old, dating back to the birth of our solar system.

464

00:36:28,000 --> 00:36:34,000

Until recently, scientists did not believe life could survive the rigors of space travel.

465

00:36:34,000 --> 00:36:42,000

But Hoover's finding suggests that live bacteria made it to Earth and may have even taken root here.

466

00:36:42,000 --> 00:36:57,000

Microorganisms trapped inside comets can survive the travel through interplanetary space and interstellar space.

467

00:36:57,000 --> 00:37:04,000

And the reason is that microorganisms are trapped in the rocky core.

468

00:37:04,000 --> 00:37:09,000

Around you have a thick shield of icy material.

469

00:37:09,000 --> 00:37:15,000

And on top you have a stratification of dust.

470

00:37:15,000 --> 00:37:23,000

Dust is highly effective in shielding the microorganism from ultraviolet light.

471

00:37:23,000 --> 00:37:36,000

So comets are an excellent vehicle to transport microorganisms, single cell life, amino acid in the vastness of space.

472

00:37:39,000 --> 00:37:52,000

Instead of aliens coming to Earth in UFOs, in classic Hollywood terms, a microbial piece of life

comes to Earth, say on a meteorite, survives entry into our atmosphere, crashes on the planet and begins to thrive.

473

00:37:54,000 --> 00:38:05,000

The theory that life on Earth began with alien organisms landing here from other parts of the universe is controversial.

474

00:38:05,000 --> 00:38:18,000

Called panspermia, one of the most vocal proponents of this theory was Sir Francis Crick, a British scientist who co-discovered DNA in 1953.

475

00:38:18,000 --> 00:38:29,000

Francis Crick, co-discoverer of the double helix in cells, said that all this can't happen by chance, but has to have been engineered.

476

00:38:29,000 --> 00:38:37,000

One of his arguments is that the rotation of the DNA is in the same direction for all living things.

477

00:38:37,000 --> 00:38:47,000

Had DNA developed on Earth, it would probably have had a 50-50 distribution, and that's exactly what we don't have.

478

00:38:47,000 --> 00:39:02,000

One of the reasons why I think the theory of panspermia is so incredible is that it tells you that there's life throughout the universe.

479

00:39:02,000 --> 00:39:12,000

If panspermia is correct, life came here on comets or meteorites, and we're being seeded not only on this planet, but other planets as well.

480

00:39:12,000 --> 00:39:15,000

And it could be part of the great design.

481

00:39:18,000 --> 00:39:33,000

It is the intentional, the deliberate colonization of other planets, other worlds, by an intelligent race of beings, using not flying saucers landing in the desert somewhere or in the middle of a city,

482

00:39:33,000 --> 00:39:42,000

but the best way to colonize a planet, you colonize it with your own DNA and let the DNA sprout into your own species.

483

00:39:43,000 --> 00:39:53,000

In terms of our science and technology today, we have the ability to extract cells and DNA at a genetic level and save them.

484

00:39:53,000 --> 00:39:56,000

That's how we have so-called test tube babies.

485

00:39:56,000 --> 00:40:07,000

For couples who can't have babies, we preserve the materials for when they're needed, and the day may well come when we send into outer space the equivalent of like Noah's Ark,

486

00:40:07,000 --> 00:40:13,000

but instead of sending literal animals, we send their essence, their DNA, their genetic makeup.

487

00:40:15,000 --> 00:40:19,000

I don't rule out the idea that we could seed a whole new world.

488

00:40:20,000 --> 00:40:31,000

Today, scientists know that only about 5% of the DNA contained in our genes is used to reproduce human beings.

489

00:40:31,000 --> 00:40:38,000

The remainder is an undisciftable code, once referred to as junk DNA.

490

00:40:39,000 --> 00:40:50,000

But is it really possible that so much of our DNA is unnecessary, or might the majority of our DNA be decoded sometime in the future?

491

00:40:50,000 --> 00:40:56,000

And when it is, what might our DNA reveal about the origin of modern man?

492

00:40:57,000 --> 00:41:11,000

Just because we cannot decipher 95% of our genetic material doesn't necessarily mean that that 95% is in fact useless.

493

00:41:12,000 --> 00:41:16,000

Nature is extremely efficient.

494

00:41:16,000 --> 00:41:21,000

DNA is the most powerful storage device in the universe.

495

00:41:21,000 --> 00:41:32,000

Not even with all the supercomputers combined in the world could we store as much information as we could store on DNA.

496

00:41:32,000 --> 00:41:43,000

So I'm suggesting that the ultimate proof of extraterrestrial life will not be found in a crashed spaceship or in a text,

497

00:41:43,000 --> 00:41:48,000

but it will be found within our own genes.

498

00:41:51,000 --> 00:41:53,000

We have so much to learn from studying our own DNA.

499

00:41:53,000 --> 00:41:59,000

We're only just now beginning to decode the human DNA sequence.

500

00:41:59,000 --> 00:42:09,000

And as we do that, what we may discover is that extraterrestrial DNA is built into our own genetics.

501

00:42:10,000 --> 00:42:17,000

Whatever is out there created the universe, this planet, and other planets, and life.

502

00:42:17,000 --> 00:42:27,000

And I strongly believe that this tie-in with whether gods and ETs were one of the same might very well be the case.

503

00:42:28,000 --> 00:42:38,000

It does not take away from the fact that there's a god, that there's a higher power, that there's some creation out there that made the ETs.

504

00:42:38,000 --> 00:42:47,000

But I think that layer between god and man is right in the middle, and that's extraterrestrials from other planets.

505

00:42:48,000 --> 00:42:55,000

We have to learn that most of our knowledge in religion is wrong, except one thing.

506

00:42:55,000 --> 00:42:59,000

There is creation, there is what we call god in all respect.

507

00:42:59,000 --> 00:43:07,000

And we have to learn by religion, we are very teeny little beings in this gigantic universe,

508

00:43:07,000 --> 00:43:12,000

and we have to learn why god is absolutely unexpressible.

509

00:43:12,000 --> 00:43:15,000

It's so gigantic, it's so wonderful.

510

00:43:15,000 --> 00:43:21,000

So we would never lose god when we continue to think of extraterrestrials.

511

00:43:21,000 --> 00:43:23,000

God becomes bigger.

512

00:43:26,000 --> 00:43:33,000

Is it really possible that humans evolved from bacteria growing in some sort of primordial ooze?

513

00:43:33,000 --> 00:43:42,000

Or were we intelligently designed by a higher power of extraterrestrial origin, as ancient astronaut theorists believe?

514

00:43:42,000 --> 00:43:48,000

Perhaps the answer lies within the very essence of what makes us human.

515

00:43:48,000 --> 00:43:54,000

And with this knowledge, we may yet discover our rightful place in the universe.
