

1

00:00:00,000 --> 00:00:06,000

Prehistoric sculptures of reptilian beings.

2

00:00:06,000 --> 00:00:08,000

Something significant happened.

3

00:00:08,000 --> 00:00:13,000

Something that would alter our understanding of human history.

4

00:00:13,000 --> 00:00:16,000

Weird elongated skulls.

5

00:00:16,000 --> 00:00:19,000

Nearly 4,000 years old.

6

00:00:19,000 --> 00:00:29,000

You would see that those elongated skulls were people who were somehow half alien, half human.

7

00:00:30,000 --> 00:00:38,000

And ancient myths of small grey beings with large heads and black oval eyes.

8

00:00:38,000 --> 00:00:45,000

There have been descriptions of grey beings going back hundreds if not thousands of years.

9

00:00:45,000 --> 00:00:52,000

All around the planet, ancient evidence points to strange otherworldly visitors.

10

00:00:53,000 --> 00:01:04,000

This data suggests beyond a shadow of a doubt that physical extraterrestrials visited Earth in the remote past.

11

00:01:04,000 --> 00:01:12,000

Millions of people around the world believe we have been visited in the past by extraterrestrial beings.

12

00:01:12,000 --> 00:01:15,000

What if it were true?

13

00:01:15,000 --> 00:01:20,000

Did ancient aliens really help to shape our history?

14

00:01:20,000 --> 00:01:28,000

And if so, might science finally reveal the truth behind the mystery of the grays?

15

00:01:50,000 --> 00:01:55,000

The World of the Roses

16

00:02:02,000 --> 00:02:05,000

Roswell, New Mexico.

17

00:02:05,000 --> 00:02:09,000

July 3, 1947.

18

00:02:09,000 --> 00:02:18,000

A flash of light streaks across the sky and crashes in the desert near the Roswell Army airfield.

19

00:02:18,000 --> 00:02:24,000

Rancher Mac Brazel hears the impact and investigates the next morning.

20

00:02:24,000 --> 00:02:28,000

He reports what he finds to authorities.

21

00:02:28,000 --> 00:02:33,000

The field of debris was like nothing ever seen before.

22

00:02:33,000 --> 00:02:40,000

And the rancher reported finding what looked like initially foil-like material that when it was scooped up and collected,

23

00:02:40,000 --> 00:02:43,000

it had these strange properties like memory metal.

24

00:02:43,000 --> 00:02:47,000

In other words, it would resume its original shape when it was crumpled up, if you like.

25

00:02:47,000 --> 00:02:53,000

This sort of suggested possibility that something very strange had come down at Roswell.

26

00:02:53,000 --> 00:02:55,000

And they find five alien bodies.

27

00:02:55,000 --> 00:02:58,000

Alien because they do not look human.

28

00:03:07,000 --> 00:03:12,000

Using her medically sealed, smaller coffin-sized boxes,

29

00:03:12,000 --> 00:03:16,000

these bodies were transported and looked at, medically analyzed,

30

00:03:16,000 --> 00:03:20,000

and then shipped off to various areas of classified research.

31

00:03:23,000 --> 00:03:29,000

They're described as the classical gray, three and a half, four feet tall,

32

00:03:29,000 --> 00:03:35,000

black wraparound eyes, slits for a mouth, long arms,

33

00:03:35,000 --> 00:03:40,000

depending on which description between three and five fingers.

34

00:03:43,000 --> 00:03:52,000

At first, U.S. military personnel announced that they had recovered debris from an unknown spacecraft.

35

00:03:52,000 --> 00:03:56,000

But later, they reversed themselves.

36

00:03:56,000 --> 00:04:00,000

Because 24 hours later, the military completely changed its story and said,

37

00:04:00,000 --> 00:04:03,000

sorry, I made a big mistake, it was just a weather balloon.

38

00:04:03,000 --> 00:04:08,000

But of course, no statement was made as to how trained military personnel

39

00:04:08,000 --> 00:04:12,000

couldn't tell the difference between a flying saucer and a weather balloon.

40

00:04:14,000 --> 00:04:17,000

But why did the military change their story?

41

00:04:17,000 --> 00:04:25,000

Was it because they found something else, something otherworldly, as ancient astronaut theorists believe?

42

00:04:26,000 --> 00:04:30,000

People who claim to have been associated with the crash at Roswell

43

00:04:30,000 --> 00:04:34,000

claim that there were several alien bodies recovered.

44

00:04:34,000 --> 00:04:38,000

It's very strange that they would talk about beings.

45

00:04:39,000 --> 00:04:46,000

We also know that the mortician was called, and that they were asked to come up with small little caskets.

46

00:04:47,000 --> 00:04:49,000

Something obviously happened at Roswell.

47

00:04:49,000 --> 00:04:51,000

What was it exactly?

48

00:04:51,000 --> 00:04:55,000

We really don't know, but I think it was out of this world.

49

00:04:57,000 --> 00:05:00,000

This is kind of the core of the Roswell legend.

50

00:05:00,000 --> 00:05:07,000

Our government, which is in a democracy supposed to be of the people, by the people, for the people, is covering this up.

51

00:05:07,000 --> 00:05:14,000

The second thing that is implicit in this legend is of course that extraterrestrials have been

visiting the Earth.

52

00:05:17,000 --> 00:05:23,000

But if alien beings did in fact crash at Roswell, who are they?

53

00:05:23,000 --> 00:05:25,000

And what do they want?

54

00:05:26,000 --> 00:05:31,000

September 19, 1961.

55

00:05:31,000 --> 00:05:38,000

According to news accounts, Betty and Barney Hill were driving through New Hampshire late at night,

56

00:05:38,000 --> 00:05:44,000

when a large flying saucer rapidly approached them and then hovered over their car.

57

00:05:44,000 --> 00:05:48,000

They saw strange figures through the windows of the craft.

58

00:05:49,000 --> 00:05:58,000

And mysteriously, the couple also reported complete memory loss of the two hours immediately following the encounter.

59

00:05:59,000 --> 00:06:02,000

No one really knows to this day what Betty and Barney Hill saw.

60

00:06:02,000 --> 00:06:08,000

However, the details of their case do reflect on various other versions of alien abduction.

61

00:06:09,000 --> 00:06:15,000

I say alien abduction because some of the pieces of information that they discuss, the loss of time,

62

00:06:15,000 --> 00:06:22,000

seeing beings that actually came out of this craft and associated and interacted with them, and they weren't human.

63

00:06:26,000 --> 00:06:32,000

Ultimately, under hypnosis they recall being brought out of the car and taken aboard the ship.

64

00:06:32,000 --> 00:06:41,000

That it was a legitimate abduction and that Betty pleaded with her captors, if you will, that not to harm her.

65

00:06:42,000 --> 00:06:51,000

As she laid on this table and experiments were done on her, like a needle being inserted into her stomach,

66

00:06:51,000 --> 00:06:56,000

Barney relays a number of skin samples and sperm being taken from him.

67

00:06:57,000 --> 00:07:02,000

The beings described by Betty and Barney Hill fit the classic case of a gray.

68

00:07:02,000 --> 00:07:08,000

Now, there are variations to size and dimensions of these beings, but they all seem to have the same characteristics.

69

00:07:08,000 --> 00:07:14,000

Slim, skin-dilly bodies, large oval heads, large oversized eyes.

70

00:07:18,000 --> 00:07:26,000

The hills were the first documented case of an alien abduction in modern time, but it is not the last.

71

00:07:29,000 --> 00:07:36,000

Since the 1960s, there have been many more similar reports, including that of Kim Carlsberg,

72

00:07:36,000 --> 00:07:44,000

a commercial photographer who in 1988 claimed to have been abducted by gray aliens in the middle of the night.

73

00:07:46,000 --> 00:07:55,000

We were living on the beach in Pacific Palisades and I walked up to the window and I saw this light on the horizon that I had never seen before.

74

00:07:56,000 --> 00:08:01,000

I'd lived on the beach my whole life and it wasn't a boat and it wasn't a star.

75

00:08:01,000 --> 00:08:10,000

I just watched this craft, the next thing I knew, it jetted into the stars and disappeared and I went to bed as usual.

76

00:08:11,000 --> 00:08:15,000

I woke up in the middle of the night and I was not in my bed any longer.

77

00:08:16,000 --> 00:08:19,000

They were naked, they were off-white, they were not gray.

78

00:08:20,000 --> 00:08:25,000

They had huge heads, huge wrap-around black eyes, tiny little bodies.

79

00:08:26,000 --> 00:08:45,000

There are many stories of grays abducting humans into their spaceships and even of being inseminated with alien reproductive material and then conceiving human-alien hybrid babies and having those fetuses removed from their bodies and then grown on the alien spaceships.

80

00:08:46,000 --> 00:08:54,000

In some cases people report going back onto the spaceship and being able to see these hybrid offspring.

81

00:08:57,000 --> 00:09:08,000

I was being used for my DNA. They were creating hybrid children from my eggs, someone else's sperm and combining it with their DNA and their sperm.

82

00:09:09,000 --> 00:09:16,000

I would be implanted with an alien fetus and they would leave the fetus in my body for a few months.

83

00:09:17,000 --> 00:09:24,000

Then they would bring me back again later and then they would remove it. It was horrific, it was terrifying.

84

00:09:25,000 --> 00:09:32,000

You can't have so many people saying that they've been abducted and not have some possibility of truth with that.

85

00:09:33,000 --> 00:09:45,000

I think it's happening. I don't know if it's a hybridization program for these ETs or whether they're trying to bring these hybrids back to this planet one day when the environment changes.

86

00:09:47,000 --> 00:09:53,000

But in my opinion something very strange is happening to these people who claim to be abducted.

87

00:09:54,000 --> 00:10:08,000

There's an overabundance of testimony from just too many people who say that they remember these types of creatures and having been taken by them.

88

00:10:09,000 --> 00:10:13,000

I think the grays make perfect sense. Now the question is where are they from?

89

00:10:14,000 --> 00:10:22,000

So if you think about the grey alien with the large head, small body, why are these the aliens that are so often projected?

90

00:10:23,000 --> 00:10:34,000

As a scientist you really have two sides that you like to think about. One is why do we project them that way if they're just our projection and if they did really exist hypothetically would intelligent life look radically different?

91

00:10:35,000 --> 00:10:37,000

And I think there the answer can be very much yes.

92

00:10:38,000 --> 00:10:46,000

But what can explain the similarity of the grays described by abduction victims?

93

00:10:47,000 --> 00:10:55,000

And why do recent descriptions match ancient depictions of so-called sky gods found all around the world?

94

00:10:56,000 --> 00:11:02,000

Might they be from the same race of other worldly beings as ancient astronaut theorists believe?

95

00:11:03,000 --> 00:11:15,000

Something can be said about a potential presence of grays in the remote past because there are some figurines and some cave drawings that look like grays.

96

00:11:16,000 --> 00:11:30,000

There are some statues in ancient Sumeria but we can also find cave drawings in Europe and for example in Australia where the heads feature a triangular shape with the big almond eyes.

97

00:11:33,000 --> 00:11:44,000

Cave paintings in the Kimberley region of Australia nearly 5,000 years old could be among the earliest depictions of grays ever discovered.

98

00:11:45,000 --> 00:11:57,000

According to local legends the carvings are of ancient spirits called the Wanjina who appeared during dream time to create the landscape and influence its inhabitants.

99

00:11:58,000 --> 00:12:04,000

Really what you have there is a typical depiction of your gray alien being.

100

00:12:05,000 --> 00:12:14,000

The almond shaped eyes, the almond shaped heads because quite often you find in rock art various strange creatures there but not necessarily the grays.

101

00:12:15,000 --> 00:12:19,000

So to have in the Kimberley cave the depiction of a gray is really extraordinary.

102

00:12:20,000 --> 00:12:31,000

The Wanjina were beings that descended from the sky and essentially jumped stars civilization in and around Australia.

103

00:12:34,000 --> 00:12:47,000

In fact the originals of today still pray to those beings and to me that is significant because what we have here is what I refer to as living mythology.

104

00:12:47,000 --> 00:12:56,000

That these mythologies have been kept alive over thousands of years and to me there is no coincidence in that.

105

00:13:00,000 --> 00:13:09,000

Might alien beings known as the grays really have been visiting Earth for thousands of years as

ancient astronaut theorists believe.

106

00:13:10,000 --> 00:13:19,000

Perhaps the answer can be found not in the stars but in man's earliest depictions of sky gods.

107

00:13:25,000 --> 00:13:29,000

Iraq a region once known as Mesopotamia.

108

00:13:29,000 --> 00:13:41,000

Located on the east bank of the Tigris River opposite the modern city of Mosul lie the remains of the ancient city of Nineveh.

109

00:13:45,000 --> 00:13:56,000

Here in 1849 6000 year old Sumerian clay tablets were discovered that contain the earliest known form of written records.

110

00:13:57,000 --> 00:14:09,000

Interpretations of the accounts engraved on the tablets speak of an alien race called the Anunnaki who settled in Sumer and bred with humans.

111

00:14:11,000 --> 00:14:21,000

The Anunnaki which comes from Sumer our modern day Iraq speak of gods that literally created us humans in their image and after their likeness.

112

00:14:22,000 --> 00:14:33,000

So when we go back to some of the Sumerian epics and various texts that go back thousands of years the Anunnaki are a great resource of realizing these were actual beings that existed.

113

00:14:34,000 --> 00:14:39,000

And the Anunnaki even worked with or had some relationship with the grays.

114

00:14:40,000 --> 00:14:47,000

With the Anunnaki what Anu really is a description of the fact that they're linked with their created deities.

115

00:14:48,000 --> 00:15:00,000

And in this case Anu is linked with the constellation of Orion very specifically saying that these creatures come from somewhere out there in the universe and have come from there to us.

116

00:15:01,000 --> 00:15:15,000

When you look at the evidence it appears that there was a number of different alien species that were coming to this planet.

117

00:15:16,000 --> 00:15:21,000

You have the smaller big headed gray aliens.

118

00:15:22,000 --> 00:15:29,000

You have the very tall literal giants that were sometimes called the Anunnaki.

119

00:15:30,000 --> 00:15:37,000

We have other alien species that allegedly look almost identical to us.

120

00:15:42,000 --> 00:15:49,000

In the American Southwest the ancestors of the native Hopi Indians believed in deities from other worlds.

121

00:15:51,000 --> 00:15:54,000

And created illustrations of them on Kenyan walls.

122

00:15:55,000 --> 00:16:03,000

But in some cases researchers believe the depictions of sky gods match modern day descriptions of the grays.

123

00:16:07,000 --> 00:16:12,000

In Hopi culture there are spirits called Kachina that represent really beings from the other world.

124

00:16:13,000 --> 00:16:18,000

They really are a mixture of nature spirits, earth spirits.

125

00:16:18,000 --> 00:16:23,000

Some of them also really take on almost aspects of very powerful ancestors or gods.

126

00:16:24,000 --> 00:16:26,000

These are otherworldly creatures.

127

00:16:27,000 --> 00:16:30,000

The translation for the word Kachina is very simple.

128

00:16:30,000 --> 00:16:31,000

It means teacher.

129

00:16:32,000 --> 00:16:39,000

The Kachina were not a part of the spiritual world but they were in fact a part of the physical world.

130

00:16:39,000 --> 00:16:45,000

They descended from the sky in what the Hopi referred to as fiery shields.

131

00:16:47,000 --> 00:16:54,000

They would touch down on earth, spend time with human beings, teach them, give them knowledge.

132

00:16:54,000 --> 00:17:01,000

And then they would use the same quote unquote shields to fly back into the sky.

133

00:17:02,000 --> 00:17:07,000

The Kachinas were physically living with them.

134

00:17:07,000 --> 00:17:14,000

And at some point it is said that the Kachinas took to the mountains specifically the San Francisco mountains outside of Flagstaff.

135

00:17:14,000 --> 00:17:17,000

And then that later they disappeared.

136

00:17:19,000 --> 00:17:23,000

The Kachinas in the Hopi culture are known as gods.

137

00:17:23,000 --> 00:17:30,000

And this term gods I use loosely because we now look at the information and wonder if they're possibly extraterrestrials.

138

00:17:32,000 --> 00:17:36,000

Now what's interesting is this theme is replicated across many different cultures.

139

00:17:36,000 --> 00:17:40,000

The gods come here and find our human females attractive.

140

00:17:40,000 --> 00:17:43,000

So this is the same thing reported by the Hopi Indians.

141

00:17:45,000 --> 00:17:54,000

But if grey aliens came to earth in the distant past and mated with humans, where is the physical evidence of this union?

142

00:17:54,000 --> 00:18:00,000

Researchers point to numerous elongated humanoid skulls found on several continents.

143

00:18:03,000 --> 00:18:14,000

Might such remains actually be of a hybrid species, part alien and part human, as ancient astronaut theorists believe?

144

00:18:15,000 --> 00:18:26,000

One of the things that you see around the pyramids here on coastal Peru is that they're associated with these skulls.

145

00:18:26,000 --> 00:18:34,000

It would seem that those elongated skulls were half alien, half human.

146

00:18:35,000 --> 00:18:48,000

In fact, some of the recent DNA testing that's been done here in Peru is indicating that these people are somehow half human and half some other race.

147

00:18:51,000 --> 00:18:57,000

Well, these elongated skulls is a phenomenon which is worldwide.

148

00:18:57,000 --> 00:19:03,000

We found them in Central America, we found them in South America, you find them in Egypt.

149

00:19:03,000 --> 00:19:14,000

So I think in the very, very beginning these extraterrestrials, they must have had longer heads than the normal human brain.

150

00:19:17,000 --> 00:19:30,000

They're found all over the globe and we have to wonder if this was some type of either lost advanced civilization or were these actually extraterrestrials visiting various cultures and having similar influences?

151

00:19:31,000 --> 00:19:39,000

Maybe some of these elongated skulls are actually artifacts to say beings existed at one time, then ancient man considered gods.

152

00:19:46,000 --> 00:19:48,000

And it's once again cross-cultural.

153

00:19:48,000 --> 00:19:53,000

We find it specifically at a very brief period in time in ancient Egypt under Akhenaten.

154

00:19:53,000 --> 00:20:00,000

Then specifically in Peru an awful lot of excavations are happening where you see strange skulls being uncovered.

155

00:20:00,000 --> 00:20:05,000

Specifically these skulls which are really larger than they should be.

156

00:20:06,000 --> 00:20:12,000

It seems very straightforward that somehow the gods were visually linked with elongated skulls.

157

00:20:13,000 --> 00:20:27,000

Might elongated skulls, some estimated to be over 4,000 years old, really be evidence of the existence of grey aliens in the ancient past?

158

00:20:28,000 --> 00:20:35,000

And if so, could this be proof of intermingling between human and alien civilizations?

159

00:20:36,000 --> 00:20:42,000

For ancient astronaut theorists, the answer on both counts is a categorical yes.

160

00:20:43,000 --> 00:20:52,000

Perhaps further evidence can be found, not here on Earth, but on the surface of a nearby planet.

161

00:21:00,000 --> 00:21:01,000

Mars.

162

00:21:02,000 --> 00:21:04,000

July 31st, 2008.

163

00:21:06,000 --> 00:21:11,000

NASA's Phoenix lander successfully touches down on the Martian surface.

164

00:21:13,000 --> 00:21:23,000

And while searching for evidence of microbial life, the robotic spacecraft finds trace amounts of water frozen underneath the soil.

165

00:21:24,000 --> 00:21:35,000

The discovery of an element so essential to life raises speculation that Mars may have been home to alien life forms in the distant past.

166

00:21:36,000 --> 00:21:47,000

Now when we start scouring the solar system for evidence of an alien species, what we're really

beginning to find out is that Mars is by far the best candidate.

167

00:21:48,000 --> 00:21:54,000

Given that our local solar system already has example of two planets, one that clearly has life because we're here.

168

00:21:56,000 --> 00:22:03,000

And then one like Mars that could have had it started and then just because it was in the wrong place or not quite right, it didn't keep going.

169

00:22:03,000 --> 00:22:06,000

Gives hope that there really is more life elsewhere in the universe.

170

00:22:08,000 --> 00:22:12,000

Mars has a special place in our consciousness and our folklore.

171

00:22:12,000 --> 00:22:28,000

Going back to the time of really the ancient Greeks, this becomes more important as we get closer to the end of the 19th century where you have reliable astronomy, powerful telescopes that can see, for example, some of what are called canals on the planet Mars.

172

00:22:29,000 --> 00:22:33,000

People have begun to imagine a civilization that perhaps existed long ago on Mars.

173

00:22:34,000 --> 00:22:40,000

Created these canals for transportation or for other reasons, but then something cataclysmic happened.

174

00:22:41,000 --> 00:22:49,000

That possibility of life on that planet was destroyed and so the denizens had to flee and go somewhere else.

175

00:22:50,000 --> 00:22:54,000

Is it possible that Mars was once a fertile planet like the Earth?

176

00:22:55,000 --> 00:23:04,000

And if so, might it have been home to a species of beings we call the Greys as some ancient astronaut theorists believe.

177

00:23:07,000 --> 00:23:21,000

All mythologies consider Mars to be the planet of war, so you cannot exclude that sometime in the past this could be 10,000 or 100,000 of years ago Mars had a civilization.

178

00:23:22,000 --> 00:23:31,000

And the civilization destroyed itself, whatever the reason was, and some of the winners of the situation escaped to Earth.

179

00:23:33,000 --> 00:23:42,000

Our ancestors were also convinced that there was life on Mars. Mars has always been singled out as this cosmic twin of planet Earth.

180

00:23:43,000 --> 00:23:48,000

It's almost as if it's somehow part of our DNA that somehow tells us we need to go to Mars.

181

00:23:49,000 --> 00:23:57,000

And if we did have a broader at one point, the likely chance is that we're going to find evidence of this broader on Mars.

182

00:23:58,000 --> 00:24:06,000

Everything which we know about non-human life, contact in the past or in more recent times, it is somewhat humanoid.

183

00:24:07,000 --> 00:24:13,000

And so to find out that this species would have a base on Mars is I think very much in the line of expectations.

184

00:24:14,000 --> 00:24:22,000

Any type of species on Mars today would probably be subterranean. Now this is an interesting piece for the idea that the Greys occupy Mars.

185

00:24:23,000 --> 00:24:30,000

We know that here on Earth we do see evidence of subterranean activity. Maybe the Greys actually came from Mars.

186

00:24:33,000 --> 00:24:42,000

But if Mars might have once sustained life and possibly intelligent beings, might other more distant planets in the universe also be able to see the future?

187

00:24:43,000 --> 00:24:48,000

We also have supported life and perhaps even a thriving civilization.

188

00:24:52,000 --> 00:24:54,000

December 5th, 2011.

189

00:24:55,000 --> 00:25:09,000

Scientists using NASA's Kepler space telescope confirm that they have found two planets orbiting a distant sun-like star that are in a narrow range of space within their solar system called the habitable zone.

190

00:25:10,000 --> 00:25:14,000

In which a planet might have water and perhaps sustain life.

191

00:25:16,000 --> 00:25:22,000

So there's been the recent announcements of the Kepler-B and new planets and it's been a very exciting period for astronomy.

192

00:25:23,000 --> 00:25:30,000

Our telescopes have gotten powerful enough to finally find planets around other suns. We have them around ours, why would we be unique?

193

00:25:31,000 --> 00:25:40,000

Kepler-22b is an example. 2.5 times the size of Earth rotates on a 290-day orbit, very similar to our own properties here on Earth.

194

00:25:41,000 --> 00:25:49,000

Potentially the Greys or various other aliens that have been visiting us come from other worlds that we're now finally starting to locate.

195

00:25:50,000 --> 00:25:59,000

And so what we're having here is really a trash-hold. Science, NASA in this case, has really made a lunge forward in saying we have left the field of possibilities.

196

00:26:00,000 --> 00:26:09,000

We've entered the realm whereby the ancient alien theory is no longer a theory but is really coming closer and closer and closer to evidence, if not proof.

197

00:26:10,000 --> 00:26:21,000

I think it's very possible that Kepler will find more and more planets some Earth-like. They've already come up with a theory that there are billions of planets in our galaxy now.

198

00:26:22,000 --> 00:26:25,000

Some of them are bound to have intelligent life.

199

00:26:28,000 --> 00:26:38,000

If grey aliens did originate from habitable planets like Kepler-22b, is there evidence that their intergalactic quest led them to Earth?

200

00:26:40,000 --> 00:26:52,000

According to ancient astronaut theorists, we need look no further than the megalithic structures and pyramids of Central America's ancient city of Teotihuacan.

201

00:26:53,000 --> 00:26:58,000

The word Teotihuacan means, we're man met with the gods.

202

00:26:59,000 --> 00:27:11,000

The main reason why Teotihuacan was even built there was because at one point some type of extraterrestrial contact took place at Teotihuacan.

203

00:27:14,000 --> 00:27:23,000

According to researchers, Teotihuacan's three main pyramids were built in precise alignment with the three bright stars of the Orion constellation.

204

00:27:24,000 --> 00:27:33,000

And astonishingly, the smaller structures along the broad avenue were positioned to represent our solar system.

205

00:27:34,000 --> 00:27:39,000

Teotihuacan has a main road, orientated north-south.

206

00:27:41,000 --> 00:27:45,000

On this main road you have different buildings, mostly pyramids.

207

00:27:46,000 --> 00:27:51,000

Every building has the position of one planet in our solar system.

208

00:27:52,000 --> 00:28:00,000

And the distances between one building and the next correspond with the distances of the planets in our solar system, including the asteroid belt.

209

00:28:01,000 --> 00:28:13,000

You see, in our solar system we have in the center the sun, then comes Mercury, Venus, Mars, between Mars and Jupiter is the asteroid belt, then comes Uranus, Neptune, Pluto, etc.

210

00:28:14,000 --> 00:28:20,000

But the constructors of this could not have known this. Where does this knowledge come from?

211

00:28:23,000 --> 00:28:28,000

When you look at pyramids themselves, they are a special geometric form.

212

00:28:28,000 --> 00:28:39,000

In fact, the locations of many of these pyramids could also be mapped out into geometric grid patterns on the Earth.

213

00:28:40,000 --> 00:28:51,000

And you have to think that whoever is guiding such a precise network of pyramids must have been a very advanced culture, probably extraterrestrials.

214

00:28:52,000 --> 00:29:00,000

These are strange structures and if you look at them, you just say, number one, how did they build this with primitive tools?

215

00:29:01,000 --> 00:29:02,000

If they had tools at all.

216

00:29:04,000 --> 00:29:08,000

I think there's one of two things going on here on this planet.

217

00:29:09,000 --> 00:29:19,000

Either Earth is very old and life started much earlier and human life started millions of years before we think they did.

218

00:29:19,000 --> 00:29:22,000

Or there was some kind of extraterrestrial help.

219

00:29:24,000 --> 00:29:34,000

We seem to have megalithic monuments and information, cross cultures around the globe that seem to be coming from some type of outside source.

220

00:29:35,000 --> 00:29:36,000

It goes back thousands of years.

221

00:29:37,000 --> 00:29:40,000

We have artifacts, for instance, in random places like Armenia.

222

00:29:41,000 --> 00:29:43,000

There are actual reliefs of what look like grey aliens.

223

00:29:44,000 --> 00:29:49,000

Sumer, modern day Iraq, we find figurines, little statues.

224

00:29:50,000 --> 00:29:51,000

They look like grey aliens.

225

00:29:52,000 --> 00:29:55,000

The evidence that we see here is that the grays do exist.

226

00:29:59,000 --> 00:30:11,000

Does the discovery of distant, possibly life sustaining planets, add credence to the evidence of grey aliens in our recent and prehistoric past, as ancient astronaut theorists believe?

227

00:30:13,000 --> 00:30:21,000

Perhaps further evidence can be found in ancient stone carvings of strange creatures known as the reptilians.

228

00:30:27,000 --> 00:30:28,000

Chichen Itza, Mexico.

229

00:30:31,000 --> 00:30:32,000

Vijay Anagara, India.

230

00:30:34,000 --> 00:30:36,000

And the Forbidden City in China.

231

00:30:39,000 --> 00:30:40,000

All across the ancient world.

232

00:30:41,000 --> 00:30:49,000

Are numerous pyramids and temples dedicated to what the ancient inhabitants refer to as sky gods?

233

00:30:52,000 --> 00:31:05,000

But is it possible, as some ancient astronaut theorists contend, that the so-called sky gods were in fact another form of grey alien, known as the reptilians?

234

00:31:06,000 --> 00:31:13,000

All throughout Central and South America, people worship this winged serpent.

235

00:31:15,000 --> 00:31:25,000

But it gets even better, because half way around the world, in ancient India, we find the stories of flying snakes again.

236

00:31:28,000 --> 00:31:32,000

They were very aware that snakes cannot fly.

237

00:31:33,000 --> 00:31:43,000

However, whatever it was that they saw flying around the sky, could best be described as a winged serpent.

238

00:31:46,000 --> 00:31:56,000

Whenever creatures are being encountered, we are going to look towards the animal kingdom to find comparisons with what we are seeing.

239

00:31:57,000 --> 00:32:04,000

And basically what that suggests is really that the creature looks like us, but also has some reptilian features.

240

00:32:06,000 --> 00:32:15,000

So when we're looking at creatures in modern UFO mythology, specifically the grays, what you have is interbreeding between the grays and reptiles.

241

00:32:16,000 --> 00:32:31,000

Some researchers believe that before settling on primates, grey aliens may have viewed reptiles as Earth's dominant life form, one they could exploit for reproductive purposes.

242

00:32:32,000 --> 00:32:46,000

If so, might the grays have combined their genes with the DNA of reptiles to create hybrid reptilian creatures that for a while coexisted with early hominids on Earth?

243

00:32:47,000 --> 00:32:52,000

And might this explain the numerous ancient depictions of reptilian beings?

244

00:32:54,000 --> 00:32:59,000

In ancient India, we have the naga, half man, half snake.

245

00:33:01,000 --> 00:33:09,000

It was allegedly a creation by the god Vishnu or Krishna. And who were these gods?

246

00:33:09,000 --> 00:33:18,000

According to the ancient alien theory, the gods were nothing else but genetic products of extraterrestrials.

247

00:33:20,000 --> 00:33:25,000

The Shethi are an interesting subset of the Hopi tradition.

248

00:33:26,000 --> 00:33:32,000

They are quite reptilian in nature as well because they are a species which tend to go underground.

249

00:33:33,000 --> 00:33:44,000

Now when we make comparison to UFO folklore, we quite often find or hear that some of these entities prefer the underground or live an underground basis.

250

00:33:46,000 --> 00:33:52,000

If you go back even to the biblical days, the description of Satan is somewhat reptilian.

251

00:33:53,000 --> 00:34:04,000

It's very possible he was a reptilian extraterrestrial and that the human beings of the time just interpreted that as something from the heavens.

252

00:34:05,000 --> 00:34:08,000

There are various reports in South America.

253

00:34:08,000 --> 00:34:16,000

And even in Asia, in China, we have this similar reference of reptilians and kings being denoted as a dragon symbol.

254

00:34:16,000 --> 00:34:22,000

So there must have been some type of global influence that took place from our reptilian source.

255

00:34:31,000 --> 00:34:38,000

In ancient Chinese culture, we have four dragon kings and they are the deities of the sea.

256

00:34:39,000 --> 00:34:44,000

And they decided that they had a crystal palace underneath the ocean.

257

00:34:44,000 --> 00:34:48,000

But it is not mythological in the sense that it is completely invented.

258

00:34:48,000 --> 00:34:55,000

Somehow these weird creatures made contact with the early Chinese and hence were remembered in Chinese mythology.

259

00:34:57,000 --> 00:35:02,000

Not only do they have reptilian characteristics, but supposedly they could shape shift.

260

00:35:03,000 --> 00:35:10,000

Actually become another type of form of a body, a human being, alien versus human.

261

00:35:10,000 --> 00:35:21,000

Now a lot of these things are hard for us to grasp and understand, but throughout time there are reports of these reptilian creatures having amazing abilities, even the ability to change their shape.

262

00:35:22,000 --> 00:35:41,000

Some researchers have also theorized that the reptilians may have battled hominids for domination of Earth, resulting in the near extinction of the hybrid species and forcing survivors to go

underground.

263

00:35:42,000 --> 00:35:51,000

It's clearly evidence that ancient man were witnessing things, whether it be extraterrestrials visiting us or beings that lived maybe underground.

264

00:35:57,000 --> 00:36:06,000

We don't know, but there are clear references of some type of advanced humanoid reptilian being that has influenced our cultures.

265

00:36:11,000 --> 00:36:28,000

Might such legends and depictions of reptilian serpents and dragons have been prehistoric man's way of documenting their encounters with supernatural hybrid creatures produced by grey aliens, as some ancient astronaut theorists believe?

266

00:36:30,000 --> 00:36:37,000

Perhaps the evidence may even show that we are more closely connected to the grays than ever imagined.

267

00:36:42,000 --> 00:36:49,000

Washington DC. The National Institute of Health.

268

00:36:50,000 --> 00:37:02,000

Here in 1990, scientists began the Human Genome Project to identify every gene in the human body and determine what makes up our DNA.

269

00:37:03,000 --> 00:37:11,000

This scientific breakthrough may allow us to manipulate human evolution and alter the human race.

270

00:37:12,000 --> 00:37:21,000

But is it possible, when we have become masters of human evolution, that we may finally understand the true nature of grey aliens?

271

00:37:22,000 --> 00:37:39,000

When you look at the physiology of what we think the grays are, large head, huge wraparound eyes, spindly body, you have to ask yourself, does this make sense in an evolutionary sense?

272

00:37:40,000 --> 00:37:48,000

The answer is no, but does it make sense if these beings are bioengineered?

273

00:37:49,000 --> 00:37:54,000

The answer to that is yes. That's what the grays really, I think, most realistically are.

274

00:37:55,000 --> 00:38:12,000

I believe that extraterrestrials found on this planet a species that they were able to change the genetic code that would allow them to interact and secure the longevity of their species.

275

00:38:13,000 --> 00:38:14,000

We're the product of that.

276

00:38:15,000 --> 00:38:24,000

We're the genetic carrier, if you will. One of the reasons why they're still abducting us, that tweaking of the genetic code is still going on.

277

00:38:25,000 --> 00:38:33,000

The grays are our space brothers. I don't think they're necessarily evil. We're an end to a means.

278

00:38:34,000 --> 00:38:47,000

Could extraterrestrials have bred with humans? You sort of need two things to happen. One is the life form would have had to be carbon-based like us, presumably, because the chemistry has to work.

279

00:38:48,000 --> 00:38:54,000

The second thing is, you would need basically the same genetic type structure.

280

00:38:54,000 --> 00:39:07,000

So you could imagine if there was another planet with fairly similar conditions that gave carbon-based life forms, what would evolve, there is a good likelihood that you would get species like us.

281

00:39:08,000 --> 00:39:11,000

And if they were close enough, then, of course, they could interbreed with humans on Earth.

282

00:39:13,000 --> 00:39:18,000

Why would they be creating a hybrid being? Is there something that's going to happen here on Earth?

283

00:39:19,000 --> 00:39:28,000

Where our genetic makeup maybe won't be able to survive some type of solar activity or something that needs to genetically modify us so that we can still survive?

284

00:39:29,000 --> 00:39:34,000

Is it for our own good as humans, or are they doing it for their need as aliens?

285

00:39:37,000 --> 00:39:47,000

If gray aliens interbreed with humans, might their biology and appearance be a reflection of their more advanced evolution as a species?

286

00:39:48,000 --> 00:39:54,000

And if so, might they provide a hint of what humans may look like in the distant future?

287

00:39:56,000 --> 00:40:13,000

Even though the grays kind of look very different to us, you know, the larger heads of smaller bodies, the big black eyes, in terms of evolution, you need hands, you need fingers and thumbs, you need eyes, you need ears, you need a mouth, you need to be able to communicate.

288

00:40:13,000 --> 00:40:18,000

Because you would need that type of form to really advance yourself as a civilization.

289

00:40:20,000 --> 00:40:37,000

When you're a super technologically advanced race, you don't really need big muscles. You don't really need sex organs if you're being genetically engineered, biologically and cybernetically, most likely, to function in the capacity that they do here.

290

00:40:38,000 --> 00:40:45,000

A super large head, for example, houses a hell of a large brain, easily their greatest asset.

291

00:40:46,000 --> 00:40:52,000

It's a brain that allows them to have a cognitive capacity, probably vastly beyond what we're able to have.

292

00:40:53,000 --> 00:41:00,000

It's a brain that allows them, most likely, to have telepathic capabilities that are beyond the capability of most humans.

293

00:41:01,000 --> 00:41:10,000

I tend to subscribe to the theory that we are in their image. Sounds like the book of Genesis, doesn't it?

294

00:41:11,000 --> 00:41:24,000

But it's very possible that ETs who look like we do, or should I say we look like they do, came here, did a little manipulation, genetically altered what was here on the planet.

295

00:41:25,000 --> 00:41:32,000

Created the Adam and Eve, turned it into modern man, and then left for whatever reason.

296

00:41:33,000 --> 00:41:37,000

There is a missing link. The missing link is E.T.

297

00:41:38,000 --> 00:41:49,000

They've changed our genetic code eons ago, and through a process of evolution, you have the human development to the point where we're going into space.

298

00:41:49,000 --> 00:41:56,000

Our evolutionary process is a direct result of genetic manipulation by E.T.

299

00:41:59,000 --> 00:42:10,000

But could an alien species, such as the grays, really travel to Earth from a star system hundreds, or perhaps thousands of light years away?

300

00:42:11,000 --> 00:42:15,000

Or might the grays actually be time travelers from our own future?

301

00:42:15,000 --> 00:42:19,000

As some ancient astronaut theorists suggest.

302

00:42:20,000 --> 00:42:27,000

I think what we have is a whole shift in the imagination in the 20th and 21st century.

303

00:42:28,000 --> 00:42:36,000

Alien grays are actually beings from the future who are traveling in time to the present time, which is their past.

304

00:42:37,000 --> 00:42:42,000

And they have evolved into this strange, hairless, grayish, bug-eyed form.

305

00:42:43,000 --> 00:42:46,000

I have to wonder if they're actually interdimensional.

306

00:42:47,000 --> 00:42:53,000

I say this because the evidence suggests they have the ability to fold space and time with their technology.

307

00:42:54,000 --> 00:43:02,000

Once we're talking about interdimensional beings, and what we're finding is that today, ancient history and future, I think are all the same.

308

00:43:03,000 --> 00:43:08,000

That also explains why there are so many time anomalies happening with these events.

309

00:43:09,000 --> 00:43:13,000

So it's very possible that they actually come from a distant part of our future.

310

00:43:16,000 --> 00:43:19,000

Will we ever know the truth about the grays?

311

00:43:20,000 --> 00:43:23,000

What is the secret to their mysterious origin?

312

00:43:24,000 --> 00:43:31,000

And why, if they exist, do they appear to be so interested in our world?

313

00:43:32,000 --> 00:43:37,000

Are they here to study us, to communicate with us?

314

00:43:39,000 --> 00:43:43,000

Or are they really coming here to warn us of our future?
