

1

00:00:00,000 --> 00:00:03,040

Commandments from a divine realm,

2

00:00:03,040 --> 00:00:05,640

steering the course of history.

3

00:00:05,640 --> 00:00:07,840

There are people in every age

4

00:00:07,840 --> 00:00:10,240

who know where the future lies.

5

00:00:10,240 --> 00:00:12,640

There are people who set out a path

6

00:00:12,640 --> 00:00:15,680

and really lead other people along this path.

7

00:00:15,680 --> 00:00:20,280

Mysterious journeys to other worlds.

8

00:00:20,280 --> 00:00:23,640

Glowing clouds coming down from the sky,

9

00:00:23,640 --> 00:00:25,800

pillars of fire,

10

00:00:25,800 --> 00:00:28,640

voices coming from the heavens.

11

00:00:29,640 --> 00:00:33,640

And strange encounters with supernatural beings

12

00:00:33,640 --> 00:00:36,640

revealing visions of the future.

13

00:00:36,640 --> 00:00:40,640

We have to ask ourselves, who were these gods?

14

00:00:40,640 --> 00:00:43,640

Were they just a figment of our ancestors' imagination?

15

00:00:43,640 --> 00:00:45,640

Or did they exist?

16

00:00:45,640 --> 00:00:48,640

Were the prophets of the ancient world

17

00:00:48,640 --> 00:00:50,640

really messengers from God?

18

00:00:50,640 --> 00:00:54,640

Or did their knowledge come from more mysterious sources?

19

00:00:55,640 --> 00:00:58,640

Prophets were targeted to be the spokesperson

20

00:00:58,640 --> 00:01:03,640

for the extraterrestrial powers trying to rule the world.

21

00:01:03,640 --> 00:01:05,640

Millions of people around the world

22

00:01:05,640 --> 00:01:08,640

believe we have been visited in the past

23

00:01:08,640 --> 00:01:10,640

by extraterrestrial beings.

24

00:01:10,640 --> 00:01:13,640

What if it were true?

25

00:01:13,640 --> 00:01:18,640

Did ancient aliens really help to shape our history?

26

00:01:18,640 --> 00:01:21,640

And if so, might there be evidence

27

00:01:21,640 --> 00:01:24,640

in the stories of ancient prophets

28

00:01:24,640 --> 00:01:27,640

and their mysterious predictions?

29

00:01:51,640 --> 00:01:53,640

GABEL KASHEM ETERIF

30

00:01:53,640 --> 00:01:55,640

Egypt

31

00:01:55,640 --> 00:01:59,640

This mountain rising out of the Sinai Desert

32

00:01:59,640 --> 00:02:01,640

is believed by some to be the site

33

00:02:01,640 --> 00:02:05,640

of two of history's most important divine encounters.

34

00:02:05,640 --> 00:02:08,640

The peak where the Biblical patriarch Moses

35

00:02:08,640 --> 00:02:11,640

encountered the burning bush.

36

00:02:11,640 --> 00:02:13,640

The Biblical patriarch,

37

00:02:13,640 --> 00:02:15,640

the Biblical patriarch,

38

00:02:15,640 --> 00:02:17,640

the Biblical patriarch,

39

00:02:17,640 --> 00:02:20,640

the peak where the Biblical patriarch Moses

40

00:02:20,640 --> 00:02:23,640

encountered the burning bush.

41

00:02:23,640 --> 00:02:26,640

And the place where Moses later received

42

00:02:26,640 --> 00:02:29,640

the Ten Commandments from God.

43

00:02:29,640 --> 00:02:34,640

But what was the true nature of Moses' divine encounter?

44

00:02:34,640 --> 00:02:36,640

Was he a normal human,

45

00:02:36,640 --> 00:02:40,640

randomly chosen to deliver the Word of God?

46

00:02:40,640 --> 00:02:43,640

Or did he possess a special gift,

47

00:02:43,640 --> 00:02:46,640

an inherent ability to communicate

48

00:02:46,640 --> 00:02:49,640

with the worldly forces?

49

00:02:49,640 --> 00:02:52,640

Mystical literature from all over the world

50

00:02:52,640 --> 00:02:56,640

has accounts of visitations from angels, gods,

51

00:02:56,640 --> 00:02:59,640

some kind of supernatural creatures that interact

52

00:02:59,640 --> 00:03:02,640

and interfere, that represent some powers

53

00:03:02,640 --> 00:03:04,640

beyond our understanding.

54

00:03:04,640 --> 00:03:06,640

We see this in the Bible with Moses.

55

00:03:06,640 --> 00:03:09,640

He is just one of several examples of leaders

56

00:03:09,640 --> 00:03:12,640

who are guided by divine guidance,

57

00:03:12,640 --> 00:03:15,640

who really are getting the help of the gods

58

00:03:15,640 --> 00:03:17,640

and getting to their goal.

59

00:03:17,640 --> 00:03:20,640

In addition to stories of the Prophet Moses,

60

00:03:20,640 --> 00:03:23,640

the Hebrew and Christian Testaments

61

00:03:23,640 --> 00:03:27,640

also feature similar accounts of numerous other prophets,

62

00:03:27,640 --> 00:03:33,640

including Elijah, Isaiah, Noah, Abraham,

63

00:03:33,640 --> 00:03:37,640

Enoch, and Jesus.

64

00:03:37,640 --> 00:03:41,640

Prophets are a major element in almost all ancient societies.

65

00:03:41,640 --> 00:03:44,640

These were people who functioned sort of as liaisons

66

00:03:44,640 --> 00:03:47,640

between the mortal world and the immortal world,

67

00:03:47,640 --> 00:03:49,640

between the gods and the humans.

68

00:03:49,640 --> 00:03:52,640

They have a message, which is a communication from God,

69

00:03:52,640 --> 00:03:55,640

but what's very interesting about that is not just a message,

70

00:03:55,640 --> 00:03:59,640

the presence of God is felt to be in the words of the Prophet himself.

71

00:03:59,640 --> 00:04:01,640

So the one who hears the Prophet

72

00:04:01,640 --> 00:04:03,640

actually is encountering the presence of God

73

00:04:03,640 --> 00:04:05,640

and not just a message from God.

74

00:04:05,640 --> 00:04:08,640

So if you have a Prophet who is an authority figure

75

00:04:08,640 --> 00:04:10,640

in your community and he says,

76

00:04:10,640 --> 00:04:12,640

this God is upset about this,

77

00:04:12,640 --> 00:04:16,640

and you have to use the X, Y, or Z to placate this God or goddess,

78

00:04:16,640 --> 00:04:18,640

you did it.

79

00:04:18,640 --> 00:04:21,640

But what's the source of these prophetic messages,

80

00:04:21,640 --> 00:04:24,640

truly, of a divine nature?

81

00:04:24,640 --> 00:04:27,640

According to ancient astronaut theorists,

82

00:04:27,640 --> 00:04:30,640

there is perhaps another possible explanation

83

00:04:30,640 --> 00:04:35,640

as to who or what may have been contacting these prophets

84

00:04:35,640 --> 00:04:38,640

of the ancient past.

85

00:04:38,640 --> 00:04:41,640

What we're beginning to realize is that this is not religious,

86

00:04:41,640 --> 00:04:45,640

but that these are people who have had anomalous experiences

87

00:04:45,640 --> 00:04:50,640

with entities and that this is contact with a non-human intelligence.

88

00:04:50,640 --> 00:04:55,640

Prophets and prophecies are evidence that these higher beings

89

00:04:55,640 --> 00:05:00,640

are instructing us to help create civilization

90

00:05:00,640 --> 00:05:03,640

for us to move forward.

91

00:05:03,640 --> 00:05:07,640

And even to give us some warning of the future,

92

00:05:07,640 --> 00:05:09,640

this is what's going to happen.

93

00:05:09,640 --> 00:05:12,640

You need to get ready.

94

00:05:13,640 --> 00:05:17,640

Is it really possible that extra-terrestrial beings

95

00:05:17,640 --> 00:05:21,640

made contact with the ancient prophets?

96

00:05:21,640 --> 00:05:26,640

Perhaps the answers can be found by looking further into the story of Moses,

97

00:05:26,640 --> 00:05:30,640

as written more than 3,000 years ago

98

00:05:30,640 --> 00:05:35,640

and chronicled in the Hebrew Testament's Book of Exodus.

99

00:05:36,640 --> 00:05:43,640

Moses' first encounter with God occurs in the third chapter of the Book of Exodus.

100

00:05:43,640 --> 00:05:47,640

Moses encounters a burning bush and God speaks to him out of this burning bush.

101

00:05:47,640 --> 00:05:49,640

And Moses was given a mission,

102

00:05:49,640 --> 00:05:53,640

and the mission is to liberate the Hebrews indentured in Egypt.

103

00:05:53,640 --> 00:05:58,640

The idea of the burning bush is very interesting to me

104

00:05:58,640 --> 00:06:02,640

because things like burning bushes really don't exist,

105

00:06:02,640 --> 00:06:07,640

especially if they all of a sudden give instructions.

106

00:06:07,640 --> 00:06:12,640

So we have to ask ourselves, what did our ancestors describe?

107

00:06:14,640 --> 00:06:20,640

And so the burning bush idea could have been a technological creation,

108

00:06:20,640 --> 00:06:25,640

which Moses described as a burning bush.

109

00:06:25,640 --> 00:06:29,640

Might the burning bush, as described by Moses,

110

00:06:29,640 --> 00:06:34,640

really have been an extra-terrestrial device, a machine,

111

00:06:34,640 --> 00:06:38,640

or perhaps even a type of spacecraft?

112

00:06:40,640 --> 00:06:46,640

If so, then with whom, or with what, was Moses really communicating?

113

00:06:46,640 --> 00:06:54,640

Perhaps more clues can be found in the story of another equally mysterious close encounter.

114

00:06:55,640 --> 00:06:58,640

Telet Daba, Egypt.

115

00:06:58,640 --> 00:07:02,640

Some scholars and researchers believe that it was here,

116

00:07:02,640 --> 00:07:05,640

in the northeastern region of the Nile Delta,

117

00:07:05,640 --> 00:07:12,640

where the Israelites began their exodus and where Moses had his second divine encounter,

118

00:07:12,640 --> 00:07:16,640

this time with an incredible object in the sky.

119

00:07:17,640 --> 00:07:23,640

They were met partway toward their destination by what I would call a biblical image.

120

00:07:24,640 --> 00:07:28,640

The Bible tells us that it is the presence of God,

121

00:07:28,640 --> 00:07:33,640

manifesting himself in a dramatic way, accompanying the Israelites.

122

00:07:33,640 --> 00:07:35,640

The question has always been asked,

123

00:07:35,640 --> 00:07:38,640

well, what was that cloud of fire?

124

00:07:38,640 --> 00:07:42,640

The question is, what was the fire?

125

00:07:42,640 --> 00:07:45,640

The question is, what was the fire?

126

00:07:45,640 --> 00:07:48,640

The question is, what was the fire?

127

00:07:48,640 --> 00:07:51,640

The question is, what was the fire?

128

00:07:51,640 --> 00:07:54,640

The question has always been asked, well, what was that cloud of fire?

129

00:07:54,640 --> 00:07:56,640

What is it? Is it God?

130

00:07:56,640 --> 00:07:59,640

Or, as the ancient alien theory suggests,

131

00:07:59,640 --> 00:08:04,640

it could have been some type of a craft, a beacon that they had to follow.

132

00:08:04,640 --> 00:08:09,640

The Hebrew people, they were following the object, and it makes it very clear

133

00:08:09,640 --> 00:08:15,640

that whenever the object was on the ground, the people stopped and camped.

134

00:08:15,640 --> 00:08:18,640

When it was taken up, they broke camp and they moved forward.

135

00:08:18,640 --> 00:08:21,640

The object was leading them.

136

00:08:21,640 --> 00:08:26,640

In the description of a pillar cloud of fire, a pillar is cylindrical in shape

137

00:08:26,640 --> 00:08:29,640

and perhaps quite hard or solid.

138

00:08:29,640 --> 00:08:32,640

This is very similar to UFOs that are reported now.

139

00:08:32,640 --> 00:08:35,640

The flying saucer types are more famous,

140

00:08:35,640 --> 00:08:39,640

but the cylindrical shaped UFOs are very common and they can be very large,

141

00:08:39,640 --> 00:08:42,640

up to a half mile in length perhaps.

142

00:08:42,640 --> 00:08:47,640

Some students of UFOs think these are mother ships,

143

00:08:47,640 --> 00:08:52,640

and the fact that it's a cloud by day suggests, as in modern UFOs,

144

00:08:52,640 --> 00:08:57,640

that there's some type of halo effect around the UFO.

145

00:08:57,640 --> 00:09:01,640

If we look at it in that context, perhaps the ancients would have described

146

00:09:01,640 --> 00:09:06,640

a gleaming UFO in the day as a cloud, a bright cloud,

147

00:09:06,640 --> 00:09:11,640

and they would have described a brightly lit UFO at night as a fiery pillar.

148

00:09:11,640 --> 00:09:16,640

Was this strange pillar of fire and cloud really a physical manifestation

149

00:09:16,640 --> 00:09:24,640

of God, or was it an advanced technological device of an otherworldly origin?

150

00:09:24,640 --> 00:09:28,640

As far as ancient astronaut theorists are concerned,

151

00:09:28,640 --> 00:09:32,640

further clues may lie in the story of Moses' final divine encounter

152

00:09:32,640 --> 00:09:36,640

on the summit of Mount Sinai.

153

00:09:36,640 --> 00:09:43,640

Moses receives a message from God that he is going to land on Mount Sinai.

154

00:09:43,640 --> 00:09:47,640

So he gathers the nation of Israel around the mountain.

155

00:09:47,640 --> 00:09:52,640

This huge, bright glowing cloud lands on Mount Sinai.

156

00:09:52,640 --> 00:09:57,640

And it's quite spectacular because it's surrounded by all sorts of preternatural phenomenon

157

00:09:57,640 --> 00:10:01,640

of the sounds of trumpets and clouds and fire.

158

00:10:01,640 --> 00:10:05,640

The Jewish people are told to stay at the bottom of Mount Sinai,

159

00:10:05,640 --> 00:10:10,640

but Moses is authorized, and you might even say protected,

160

00:10:10,640 --> 00:10:17,640

by the pillar of cloud and fire so that he can go up there and everybody else can't.

161

00:10:17,640 --> 00:10:23,640

According to the biblical texts, Moses ascends the mountain and enters the glowing cloud.

162

00:10:23,640 --> 00:10:29,640

There, he communes with the Almighty God, the creator of the universe.

163

00:10:29,640 --> 00:10:35,640

And after 40 days, he returns, carrying the Ten Commandments.

164

00:10:35,640 --> 00:10:40,640

But for ancient astronaut theorists, the story of what happened on Mount Sinai

165

00:10:40,640 --> 00:10:47,640

may, in fact, offer compelling evidence of a very different type of encounter.

166

00:10:47,640 --> 00:10:51,640

Moses, going up with God, being gone for 40 days,

167

00:10:51,640 --> 00:10:54,640

it sounds very much like the Contactee experience today,

168

00:10:54,640 --> 00:11:00,640

where Contactees are given rules and regulations and ideas to follow,

169

00:11:00,640 --> 00:11:04,640

you know, in terms of elevating the human race.

170

00:11:04,640 --> 00:11:08,640

The commandments that are given go against our very animal nature,

171

00:11:08,640 --> 00:11:16,640

because to some extent, what the Bible says is that God would will to give divine power to humans

172

00:11:16,640 --> 00:11:20,640

if we could handle it, but the problem is that we don't have the ethics to handle it.

173

00:11:20,640 --> 00:11:26,640

Thou shalt not kill, thou shalt not commit adultery, thou shalt not steal.

174

00:11:26,640 --> 00:11:31,640

The Ten Commandments are a start toward handling divine power.

175

00:11:31,640 --> 00:11:37,640

And the prophets were picked to be the spokesperson for powers

176

00:11:37,640 --> 00:11:42,640

that were trying to rule the world through rules and regulations,

177

00:11:42,640 --> 00:11:46,640

commandments that would bring about moral obedience,

178

00:11:46,640 --> 00:11:50,640

which is superior to following our animal instincts.

179

00:11:50,640 --> 00:11:57,640

Is it possible that Moses' encounter on Mount Sinai was not with the Almighty God,

180

00:11:57,640 --> 00:12:02,640

but with some sort of extraterrestrial messenger,

181

00:12:02,640 --> 00:12:08,640

one that deliberately sought to guide and govern human behavior?

182

00:12:08,640 --> 00:12:15,640

Ancient astronaut theorists say that such a profound and controversial notion is possible,

183

00:12:15,640 --> 00:12:22,640

and claim additional evidence can be found in the story of yet another Old Testament prophet,

184

00:12:22,640 --> 00:12:29,640

one who delivered ominous warnings of the future and described unearthly beings

185

00:12:29,640 --> 00:12:33,640

that descended from the heavens.

186

00:12:36,640 --> 00:12:39,640

Northern Israel

187

00:12:39,640 --> 00:12:45,640

According to Bible texts, it was here in the 9th century BC

188

00:12:45,640 --> 00:12:52,640

that the prophet Elijah reportedly had several encounters with both angels and God,

189

00:12:52,640 --> 00:12:58,640

during which he was given prophetic warnings of drought and cataclysm.

190

00:12:58,640 --> 00:13:05,640

One of the most important prophets in Israel's tradition, of course, is Elijah.

191

00:13:05,640 --> 00:13:11,640

Elijah predicts some rough things coming, and of course they do.

192

00:13:11,640 --> 00:13:19,640

He warns of a drought that's going to devastate Israel and cause all his starvation.

193

00:13:19,640 --> 00:13:26,640

He also is interesting because he was never known to have died,

194

00:13:26,640 --> 00:13:33,640

and it's thought that in some ways, yeah, he was taken into space and lives for eternity.

195

00:13:33,640 --> 00:13:39,640

In Elijah's final encounter with God, written in the second book of Kings,

196

00:13:39,640 --> 00:13:49,640

the prophet goes up by a whirlwind into heaven by what's described in the Hebrew Bible as a fiery, horse-drawn chariot.

197

00:13:49,640 --> 00:13:56,640

There's a story in Kings about Elijah who reported seeing this strange aerial phenomena

198

00:13:56,640 --> 00:14:04,640

that was described variously as sort of bright whirlwind-like cloud lit up, clearly some sort of object in the sky.

199

00:14:05,640 --> 00:14:14,640

Elijah's experience details a spinning object or a spinning beam that took him up into the object.

200

00:14:14,640 --> 00:14:19,640

We see a whirlwind that came over him and a chariot of fire.

201

00:14:19,640 --> 00:14:28,640

So the question is, was it the chariot of fire that was spinning, or was it a beam that came down and took him up?

202

00:14:29,640 --> 00:14:36,640

For the faithful, this extraordinary event is believed to be a religious miracle.

203

00:14:36,640 --> 00:14:46,640

But could Elijah have been chosen by heavenly beings to fulfill an other worldly purpose, as ancient astronaut theorists contend?

204

00:14:46,640 --> 00:14:52,640

The one thing that many people don't realize is that the first story we can read about Elijah

205

00:14:52,640 --> 00:15:04,640

doesn't talk about that he was taken up there with horses, but just by that fiery chariot that initially was described like a fiery furnace.

206

00:15:04,640 --> 00:15:06,640

Now what's a fiery furnace?

207

00:15:06,640 --> 00:15:09,640

Could the fire have been some sort of engine?

208

00:15:09,640 --> 00:15:16,640

When he's taken up in a whirlwind, you only have to look at, for example, when the space shuttle takes to the skies.

209

00:15:17,640 --> 00:15:23,640

You know, you have this rumbling, roaring jet flames, etc., etc.

210

00:15:23,640 --> 00:15:28,640

If you look in that context, you could really place this into a UFO category.

211

00:15:30,640 --> 00:15:39,640

When you look at Elijah, there's a nuts and bolts craft there, a fiery chariot, and they get inside it.

212

00:15:40,640 --> 00:15:46,640

They meet these beings, which are luminous beings, that talk to them and struck them.

213

00:15:46,640 --> 00:15:54,640

It's important to realize that the biblical religion is an extraterrestrial religion, meaning that God is not from Earth.

214

00:15:54,640 --> 00:15:56,640

We learn this in the Lord's Prayer.

215

00:15:56,640 --> 00:16:03,640

Our Father, who art in heaven, hallowed be thy name, my kingdom come, thy will be done, on Earth as it is in heaven.

216

00:16:04,640 --> 00:16:10,640

Extraterrestrial help is sent to Earth to help humanity in the quest to do God's will.

217

00:16:10,640 --> 00:16:18,640

Was Elijah really a man chosen by other worldly beings to help them steer the course of humanity?

218

00:16:18,640 --> 00:16:27,640

And if so, might this help explain other, even more incredible biblical encounters between God and mankind?

219

00:16:27,640 --> 00:16:34,640

Manchester, New York, March 1830

220

00:16:34,640 --> 00:16:44,640

24-year-old visionary Joseph Smith Jr. publishes The Book of Mormon and creates The Church of Jesus Christ of Latter-day Saints.

221

00:16:44,640 --> 00:16:50,640

A religious movement with more than 14 million followers today.

222

00:16:51,640 --> 00:17:00,640

Incredibly, The Book of Mormon includes Joseph Smith's personal accounts of his interaction with an other worldly being.

223

00:17:00,640 --> 00:17:03,640

Joseph Smith had something like a vision.

224

00:17:03,640 --> 00:17:09,640

He wrote that an angel appeared to him, the angel at the name of Moroni.

225

00:17:09,640 --> 00:17:16,640

And this angel appeared three times and told to Joseph Smith, he should go to a certain little hill,

226

00:17:16,640 --> 00:17:21,640

he should put a stone plate away and inside he would find a cave.

227

00:17:21,640 --> 00:17:24,640

And in the cave, he would find unknown writings.

228

00:17:25,640 --> 00:17:33,640

He showed Joseph Smith the location of the buried treasure, these golden plates with a message from some place else.

229

00:17:33,640 --> 00:17:36,640

A new revelation, a new Book of the Bible.

230

00:17:36,640 --> 00:17:40,640

He explained that he had come from the star system plateies.

231

00:17:40,640 --> 00:17:45,640

And so, the source of the Book of Mormon is extraterrestrial.

232

00:17:47,640 --> 00:17:54,640

Smith actually describes several different cases where he appears to be with this extraterrestrial Moroni.

233

00:17:54,640 --> 00:18:01,640

We really have to wonder if these aren't just mythological explanations or physical events that actually took place.

234

00:18:02,640 --> 00:18:06,640

Joseph Smith is interesting because he meets mythical beings.

235

00:18:06,640 --> 00:18:14,640

The story of Smith is to some extent unique in the sense that obviously religion was created based on what he encountered.

236

00:18:15,640 --> 00:18:22,640

However, which way you want to look at this, whether it's flesh and blood alien or an actual angel, they're both extraterrestrials.

237

00:18:22,640 --> 00:18:24,640

So there's no question about that.

238

00:18:24,640 --> 00:18:37,640

They misunderstood those visits as being angelic in nature when in reality they were visited by physical space travelers.

239

00:18:37,640 --> 00:18:46,640

Is it possible that the angel Moroni, who instructed Joseph Smith Jr. was in fact an otherworldly being?

240

00:18:46,640 --> 00:18:56,640

And if so, could the Book of Mormon really be evidence that these beings have shared celestial information with mankind?

241

00:18:56,640 --> 00:18:59,640

The Fourth Century BC

242

00:19:03,640 --> 00:19:05,640

Lumbini, Nepal

243

00:19:05,640 --> 00:19:07,640

The fourth century BC

244

00:19:08,640 --> 00:19:15,640

It was during this period that the Jataka tales, ancient Buddhist poems and prose, were written.

245

00:19:16,640 --> 00:19:22,640

These incredible writings document the supernatural birth and life of the supreme Buddha,

246

00:19:22,640 --> 00:19:27,640

a spiritual leader upon whose teachings the Buddhist religion was founded.

247

00:19:28,640 --> 00:19:38,640

The Buddhist mother is Queen Maya and it's believed that she had a dream one night that a white elephant entered her womb.

248

00:19:38,640 --> 00:19:42,640

That she was conceived and the Buddha was born.

249

00:19:43,640 --> 00:19:52,640

The Buddha is supposed to have reached enlightenment after meditating for a long time under a tree.

250

00:19:52,640 --> 00:19:56,640

The enlightenment is called Nirvana.

251

00:19:58,640 --> 00:20:07,640

According to some ancient astronaut researchers, before Buddha began laying the foundation for one of the world's great religions,

252

00:20:07,640 --> 00:20:13,640

he was psychically imprinted with telepathic messages by otherworldly beings.

253

00:20:13,640 --> 00:20:24,640

In Buddhism, there's an interesting story of Buddha meeting with what are called the devas or these special luminous spirits.

254

00:20:25,640 --> 00:20:30,640

Devas are like superhuman beings, like superheroes.

255

00:20:31,640 --> 00:20:38,640

They can fly, they live longer, they are stronger, they are much taller than humans.

256

00:20:38,640 --> 00:20:42,640

They also have craft that help them fly.

257

00:20:42,640 --> 00:20:47,640

You have to wonder who these devas are. In many ways, they are very much like extraterrestrials.

258

00:20:47,640 --> 00:20:55,640

Buddha actually writes about this state and calls it Parna-Vana and basically says that this is also the link with the immortals.

259

00:20:55,640 --> 00:21:01,640

And other traditions basically say that this is when contact with the gods is made.

260

00:21:01,640 --> 00:21:05,640

Many religious figures have had some type of out-of-body experience.

261

00:21:05,640 --> 00:21:11,640

Buddha himself described being able to access multiple dimensions interacting with different beings.

262

00:21:11,640 --> 00:21:18,640

There could be other dimensions, other realities in parallel with us that contain extraterrestrials.

263

00:21:19,640 --> 00:21:31,640

Do the strange accounts of Elijah, Joseph Smith Jr. and Buddha really prove divine beings have been influencing mankind for thousands of years?

264

00:21:31,640 --> 00:21:41,640

And if so, do the words of these prophets, when looked at together, reveal a master plan for the human species?

265

00:21:42,640 --> 00:21:55,640

Ancient astronaut theorists believe that even more clues may be found in the centuries-old accounts of prophets and holy men who lived long before the Bible was conceived.

266

00:22:01,640 --> 00:22:03,640

Persepolis, Iran

267

00:22:04,640 --> 00:22:11,640

Here, 30 miles northeast of the city of Shiraz lay the ruins of an ancient capital.

268

00:22:13,640 --> 00:22:27,640

Built by the Persian conqueror Darius more than 2,000 years ago, Persepolis was once a mighty city that legend says was protected by a powerful god named Ahuru Masta.

269

00:22:28,640 --> 00:22:40,640

An etched in stone atop the crumbling remains of a building called the Tripaloum is the depiction of this ancient god seated inside a winged disk.

270

00:22:40,640 --> 00:22:56,640

Ahuru Masha was central to the ancient Persian religion, Zoroastrianism, and the experiences of a prophet named Zoroaster, who lived 2,600 years ago.

271

00:23:10,640 --> 00:23:21,640

According to ancient Zoroastrian texts called the Avesta, Zoroaster's first meeting with Ahuru Masha occurred at the top of a mountain that was shrouded in clouds and bathed in an eerie light.

272

00:23:41,640 --> 00:23:51,640

Zoroaster carries this idea that there is this one true god. It is literally the god of truth, and truth is a great central principle in the Zoroastrian worldview.

273

00:23:51,640 --> 00:23:59,640

Right and wrong, good and evil, black and white, very strong contrast, and you are to identify with the good and search the truth.

274

00:24:00,640 --> 00:24:17,640

Some researchers believe these divine prophecies provide proof that the prophet Zoroaster was following commands from an extraterrestrial being, one who perhaps came to earth to sow the seeds of what is now known as civilization.

275

00:24:18,640 --> 00:24:32,640

When we look at Zerosthra encountering Ahuru Masta, what we are confronted with here are human beings who are encountering non-human intelligences.

276

00:24:32,640 --> 00:24:41,640

These are indicative of physical encounters. These are encounters with something which is otherworldly, yet physical.

277

00:24:41,640 --> 00:24:51,640

We have to ask ourselves, were they just a figment of our ancestors' imagination, or did they exist?

278

00:24:51,640 --> 00:25:07,640

These are extraterrestrial or alien entities who come here and provide some kind of information exchange and guidance program between cultures and entities who are willing to help that culture.

279

00:25:08,640 --> 00:25:21,640

Is it possible, as ancient astronaut theorists believe, that extraterrestrials contacted prophets in the distant past in order to guide the development of human civilization?

280

00:25:21,640 --> 00:25:32,640

And if so, might there be more clues found in the historical accounts of what is perhaps the most intriguing character in all of ancient Greece?

281

00:25:33,640 --> 00:25:35,640

Mount Parnassus

282

00:25:36,640 --> 00:25:51,640

On the flanks of this 8,000 foot peak lie the ruins of a marble sanctuary that was once home to one of history's most famous prophets, a temple priestess known as the Oracle of Delphi.

283

00:25:52,640 --> 00:25:59,640

The Oracle of Delphi is the most famous oracle from the ancient world. There was a temple there dedicated to the god Apollo.

284

00:25:59,640 --> 00:26:10,640

Apollo is the central god for prophecy, and a temple was established for Apollo in Delphi, and that became the seat of the actual oracle where people would visit.

285

00:26:11,640 --> 00:26:21,640

The Oracle of Delphi was located in the temple of Apollo, which would have been, at the time, the major building structure.

286

00:26:22,640 --> 00:26:33,640

This was the central point, so the oracle was all important, everything else was there because of

the oracle in the complex.

287

00:26:35,640 --> 00:26:48,640

Also known as Pythia, the oracle could be found sitting on a tall, three-legged seat over an opening in the earth, where vapors rising from the ground would put her into a trance.

288

00:26:51,640 --> 00:27:06,640

The Oracle of Delphi would basically channel the god Apollo. Apollo was really the god of civilization, he was the god of light, he was the god of prophecy, and she would become Apollo.

289

00:27:07,640 --> 00:27:13,640

You can imagine how it is when something supernatural or superhuman comes into a human body.

290

00:27:14,640 --> 00:27:25,640

It, of course, creates a fused state, essentially, it creates a weird trance. Nowadays we have movies about possessions and stuff like that, it's kind of like that, it's not necessarily demonic.

291

00:27:26,640 --> 00:27:36,640

But anytime the supernatural becomes housed within something natural like a human body, it is inevitably going to be causing some kind of trance, some kind of fused state or something.

292

00:27:37,640 --> 00:27:49,640

For more than a thousand years, the oracle and her numerous successors dispensed advice to everyone from emperors and generals to poets and politicians.

293

00:27:50,640 --> 00:28:05,640

Prophecy was central to the Greek worldview and the affairs of state, the planning of battles, any important decisions would be taken to the oracle to be considered to get some kind of guidance from beyond ordinary knowing.

294

00:28:07,640 --> 00:28:20,640

You can come and ask about giving birth to a child, you can come and ask about crops that you want to plant, you can come and ask about joining the army, you can come and ask about undertaking a military expedition.

295

00:28:21,640 --> 00:28:34,640

The priestess is there to be the liaison, and in fact when people come to the oracle and ask questions, they specifically ask the priestess, and she's the one who channels the answer from Apollo back down to the human beings.

296

00:28:36,640 --> 00:28:42,640

But just what or whom was the reason for the oracle's bizarre trance-like state?

297

00:28:44,640 --> 00:28:59,640

One in which, according to contemporary accounts, she could accurately predict everything from the Trojan War and the eventual decline of Greek power to the slaughter of the famed 300 Spartans at Thermopylae.

298

00:29:00,640 --> 00:29:13,640

Mainstream researchers say it was most likely due to her inhalation of intoxicating fumes from various gases seeping out of Mount Parnassus.

299

00:29:15,640 --> 00:29:26,640

But might she in fact have been in contact with an extraterrestrial being, one whom the ancient Greeks knew as Apollo?

300

00:29:27,640 --> 00:29:42,640

The idea that Apollo was possibly some extraterrestrial makes sense because they want us to develop, they want us to have civilization, they want us to have technology, and to be like them.

301

00:29:44,640 --> 00:29:53,640

We've always been their pet project, so to speak, meaning that they helped us become who we are today.

302

00:29:54,640 --> 00:30:02,640

Were ancient so-called gods like Uhuru Masta and Apollo really part of an advanced race of celestial beings?

303

00:30:03,640 --> 00:30:10,640

Aliens who used human agents known as prophets to instruct and steer the course of human civilization.

304

00:30:11,640 --> 00:30:19,640

If so, might these same extraterrestrials also be the force behind one of history's most infamous prophets?

305

00:30:20,640 --> 00:30:30,640

A man who claimed to have visions of some of the most cataclysmic events in history, the 16th century prophet named Nostradamus.

306

00:30:40,640 --> 00:30:43,640

Southern France, 1555.

307

00:30:46,640 --> 00:30:54,640

Here, a chemist and apothecary named Michel de Nostradamus publishes an almanac titled The Prophecies.

308

00:30:56,640 --> 00:31:05,640

In it, he writes more than a thousand four-line poetic verses called quatrains, verses that seem to predict the future.

309

00:31:06,640 --> 00:31:11,640

Michel Nostradamus at an early age began having visions.

310

00:31:11,640 --> 00:31:18,640

He would stare into the water in a bowl, and he would begin to see visions of what he thought was the future.

311

00:31:19,640 --> 00:31:31,640

At the time that he was doing this, seeing into the future was considered witchcraft, and he risked being called a warlock and being taken by the Inquisition and basically killed.

312

00:31:32,640 --> 00:31:48,640

So what he did was he masked his visions in quatrains for line prose poems, which he hid the future very carefully so that you wouldn't really understand the quatrains until after the event had occurred.

313

00:31:50,640 --> 00:31:53,640

Some people say that he channeled his prophecies.

314

00:31:54,640 --> 00:32:05,640

I think he just went into either a higher state of consciousness or a very deep meditative state, and he was seeing things that he then would write about.

315

00:32:06,640 --> 00:32:29,640

In the centuries after his death, Nostradamus has been credited with predicting everything from the great Chicago fire of 1871 and the rise of Hitler in the 1930s to the dropping of the atomic bomb on Hiroshima in 1945.

316

00:32:30,640 --> 00:32:42,640

Nostradamus was able to access information which was not available to any of his contemporaries. As such he was identified as a visionary, a seer, a prophet, whatever name we want to give him.

317

00:32:43,640 --> 00:32:53,640

But perhaps the biggest unsolved mystery concerning Nostradamus is that no one knows the source of his mysterious powers of prediction.

318

00:32:54,640 --> 00:33:09,640

Was he fed futuristic information from a higher spiritual power like the oracle of Delphi? Or was he obtaining his uncanny knowledge from an otherworldly or extraterrestrial origin?

319

00:33:10,640 --> 00:33:17,640

We know that he somehow was able to train his brain to really make contact with something out there.

320

00:33:19,640 --> 00:33:29,640

Now science is going to try and give this various names, whether it is zero point energy, the zero

point field, a different dimension, whatever it is.

321

00:33:30,640 --> 00:33:46,640

Some researchers believe that everything and everyone connects through the zero point field, where a collection of electric charges from every thought, action and event of the past, present and future is stored.

322

00:33:47,640 --> 00:33:58,640

The zero point field is thought to be where everything that ever was thought or every behavior, every action, anything that involved energy was dumped into the field and still is.

323

00:33:59,640 --> 00:34:05,640

It literally contains all information for the infinite time that we have been here.

324

00:34:08,640 --> 00:34:19,640

The concept of the zero point field rests on the theory that the universe occupies more than just the three spatial dimensions of height, width and depth.

325

00:34:20,640 --> 00:34:24,640

And this evolving concept is known as string theory.

326

00:34:24,640 --> 00:34:33,640

In string theory there are typically 11 dimensions that are envisioned. They're what we call very small or wrapped up or compact.

327

00:34:34,640 --> 00:34:43,640

So if these dimensions are sufficiently small and curved and compact, we wouldn't be able to experience moving along them so we wouldn't know they exist.

328

00:34:44,640 --> 00:34:53,640

But if string theory is in fact correct, isn't possible that the zero point field exists in another dimension?

329

00:34:54,640 --> 00:34:56,640

One undetected by mankind.

330

00:34:58,640 --> 00:35:06,640

Dozens of ancient cultures describe the existence of a cosmic well of knowledge that only certain people have the ability to access.

331

00:35:07,640 --> 00:35:10,640

The Hindus refer to it as the Akashic record.

332

00:35:11,640 --> 00:35:22,640

The Akashic record, the idea behind it is that all of the information in the universe is sort of pre-existing and an individual can actually tap in to that information.

333

00:35:23,640 --> 00:35:32,640

What we see is that Nostradamus fits this perspective of people who are able to access information which is not of this world.

334

00:35:33,640 --> 00:35:39,640

He was able to take his brain, his mind outside of the constraints of this reality.

335

00:35:40,640 --> 00:35:51,640

And when he was there, he was able to get information which he then brought back to us and in his case wrote down so that we were able to later partake in this information.

336

00:35:52,640 --> 00:35:58,640

I think any of these great prophets were accessing the zero point field or as I call it the grid.

337

00:35:59,640 --> 00:36:06,640

I think we all access information that we don't normally have. I think we do it in dreams and I think we do it when we have deja vu.

338

00:36:07,640 --> 00:36:13,640

So I think we're all doing this. It's a gift. It's a talent or maybe a skill that is within all of us.

339

00:36:14,640 --> 00:36:21,640

So perhaps people like Nostradamus are really able to tap into that grid, that field at will.

340

00:36:22,640 --> 00:36:35,640

Were the ancient prophets really able to access incredible information from a hidden dimension or from extraterrestrial beings as some ancient astronaut theorists believe?

341

00:36:36,640 --> 00:36:41,640

And if so, could there still be prophets at work today?

342

00:36:42,640 --> 00:36:47,640

Men and women who are in league with other, perhaps other worldly forces.

343

00:36:47,640 --> 00:36:56,640

Perhaps the answer can be found, not on another planet, but inside the mind of Albert Einstein.

344

00:37:01,640 --> 00:37:03,640

September 26th, 1905.

345

00:37:04,640 --> 00:37:15,640

Swiss patent clerk Albert Einstein publishes a groundbreaking paper in a German scientific journal, upending centuries of belief on how the cosmos works.

346

00:37:16,640 --> 00:37:27,640

In the paper, Einstein proposes his theory of special relativity, in which he imagines a universe where both space and time are fluid and flexible.

347

00:37:28,640 --> 00:37:43,640

Prior to Einstein's theory of relativity, physicists tended to view the physical world as a static, immovable universe where everything was set into its place.

348

00:37:44,640 --> 00:37:50,640

The biggest change after Einstein's theory of relativity was how we viewed space and time.

349

00:37:51,640 --> 00:37:57,640

We thought of space literally as just what we moved through and time is how you measured things going forward.

350

00:37:58,640 --> 00:38:05,640

And Einstein made them geometrically connected to each other. They were no longer fundamentally

different and you had to account for them together.

351

00:38:05,640 --> 00:38:12,640

He showed that time and space were relative and that time and space can be warped.

352

00:38:13,640 --> 00:38:19,640

And ultimately that time travel and space travel and black holes and time warps.

353

00:38:20,640 --> 00:38:23,640

All of these things were possible.

354

00:38:24,640 --> 00:38:31,640

Although Einstein never claimed that his profound knowledge had divine origins, as did the prophets of ancient times,

355

00:38:31,640 --> 00:38:38,640

his insights into the fundamental nature of the universe were no less powerful and influential.

356

00:38:39,640 --> 00:38:50,640

Whenever someone like Einstein is able to look at the universe and physics and then see things in a different way,

357

00:38:50,640 --> 00:39:01,640

this is a kind of mystic awareness and you have to wonder if it's not some contact with extraterrestrials where ETs appear to you in your bedroom,

358

00:39:02,640 --> 00:39:09,640

give you some insight and knowledge that's going to help you on your way to that new scientific discovery.

359

00:39:10,640 --> 00:39:19,640

Einstein's wife reported after he died that his favorite book was Isis Unveiled by Madame Blavatsky.

360

00:39:21,640 --> 00:39:28,640

It's a book all about the innate psychic ability of humans, about the hidden history of the human race.

361

00:39:29,640 --> 00:39:41,640

And I believe that Einstein was very much into all of this and used his own psychic abilities to create the theory of relativity.

362

00:39:42,640 --> 00:39:50,640

And in fact, Einstein got the theory of relativity by standing on a street and looking at the mist surrounding a streetlight

363

00:39:50,640 --> 00:39:58,640

and imagining in his head how long it took for the light to go from the streetlight, hit the mist and reflect to his eye.

364

00:39:59,640 --> 00:40:10,640

And then he realized in kind of a transcendental meditative quiet moment that light travels and then the theory of relativity came from that mystical experience.

365

00:40:11,640 --> 00:40:23,640

Were Einstein's insights the result of his own incredible IQ or were his discoveries aided by his ability to tap into the knowledge of the universe,

366

00:40:24,640 --> 00:40:30,640

the same kind of knowledge that was also made available to the great prophets of the ancient world?

367

00:40:31,640 --> 00:40:41,640

The word prophet is used in areas of innovation and great thinkers and engineers and developers of products are sometimes thought of as prophets.

368

00:40:42,640 --> 00:40:44,640

There are new prophets constantly.

369

00:40:45,640 --> 00:40:53,640

1953. James Watson and Francis Crick discover the shape and makeup of DNA.

370

00:40:54,640 --> 00:40:58,640

In 2000, J. Craig Venter decodes the human genome.

371

00:40:59,640 --> 00:41:04,640

Might these also be examples of modern day prophets functioning in our midst?

372

00:41:05,640 --> 00:41:09,640

Prophets that are able to tap into advanced alien knowledge.

373

00:41:10,640 --> 00:41:15,640

There are people in every age who know where the future lies.

374

00:41:16,640 --> 00:41:22,640

And they are called prophets, whether they are Steve Jobs or Einstein or whoever.

375

00:41:23,640 --> 00:41:28,640

They are people who set out a path and really lead other people along this path.

376

00:41:29,640 --> 00:41:36,640

When you start looking into what they are, you're beginning to realize that there are certain anomalies in the lives of these people.

377

00:41:37,640 --> 00:41:49,640

The information which they possessed, which helped us guide along the path, really is not theirs, but that they somehow are messengers of a larger reality.

378

00:41:50,640 --> 00:41:57,640

I think prophets could be communicating with extraterrestrial, extra-dimensional beings, angels, guides.

379

00:41:57,640 --> 00:42:05,640

If you're channeling information that is far beyond your own wisdom, you're automatically going to assume it's coming from somebody smarter than you.

380

00:42:07,640 --> 00:42:12,640

They may be coming crossing over dimensions so that they can impart their knowledge.

381

00:42:15,640 --> 00:42:24,640

But why would other worldly beings use humans to shape our religions, our politics, our science?

382

00:42:27,640 --> 00:42:37,640

Is there perhaps an extraterrestrial plan for the human species, one that is guiding us to our next, or perhaps final, destination?

383

00:42:38,640 --> 00:42:47,640

You have to wonder, why do they care about us? Why would they want to help us, give us prophecies, instruct us in better lives?

384

00:42:48,640 --> 00:42:52,640

In many ways, it's only natural that they would. We're like their children.

385

00:42:53,640 --> 00:43:00,640

We try to reduce them to great prophets, great leaders, but truly they were great mystics.

386

00:43:01,640 --> 00:43:11,640

And the story of a great mystic is really that he is somebody who has part of his being in this reality, and part of his being in another reality.

387

00:43:13,640 --> 00:43:18,640

These are people who have had a foot in this dimension, but also in another dimension.

388

00:43:23,640 --> 00:43:32,640

Prophets, chosen by beings from other worlds, and bearing messages that have changed the destiny of mankind.

389

00:43:33,640 --> 00:43:45,640

Could there really be an ultimate plan that is, as yet, unknown to us? Perhaps the answer lies hidden, still waiting to be discovered.

390

00:43:45,640 --> 00:43:52,640

Or maybe it will be revealed when they return.
