

1

00:00:00,000 --> 00:00:04,000

They have superhuman intelligence.

2

00:00:04,000 --> 00:00:08,000

They are vastly more intelligent than average person.

3

00:00:08,000 --> 00:00:11,000

Knowledge of other worlds.

4

00:00:11,000 --> 00:00:18,000

He was able to access information that there's no way he could know about.

5

00:00:18,000 --> 00:00:21,000

And possess mysterious powers.

6

00:00:21,000 --> 00:00:28,000

There was one girl who could wave her hands and spontaneously the flower buds popped open

7

00:00:28,000 --> 00:00:31,000

right in front of everyone's eyes.

8

00:00:31,000 --> 00:00:36,000

On every continent there are incredible stories of children so advanced

9

00:00:36,000 --> 00:00:41,000

that some believe they come from the stars.

10

00:00:41,000 --> 00:00:45,000

So these star children in a way are some new race perhaps

11

00:00:45,000 --> 00:00:49,000

that's living amongst us right now.

12

00:00:49,000 --> 00:00:57,000

Millions of people around the world believe we have been visited in the past by extraterrestrial beings.

13

00:00:57,000 --> 00:01:00,000

What if it were true?

14

00:01:00,000 --> 00:01:05,000

Did ancient aliens really help to shape our history?

15

00:01:05,000 --> 00:01:13,000

And if so, might there be a connection between extraterrestrials and star children?

16

00:01:27,000 --> 00:01:32,000

The World of the Universe

17

00:01:43,000 --> 00:01:49,000

Throughout the world there are children who possess astonishing abilities.

18

00:01:49,000 --> 00:01:59,000

In 2002, Shou Yano graduated summa cum laude from Loyola University, Chicago at the age of 12.

19

00:01:59,000 --> 00:02:07,000

Six years later he received a PhD in molecular genetics and cell biology.

20

00:02:07,000 --> 00:02:12,000

In 2006, six-year-old Aynan Celeste Collie of Singapore,

21

00:02:12,000 --> 00:02:20,000

who spoke his first words at two weeks old, gave a science lecture about acid and alkaloids.

22

00:02:20,000 --> 00:02:28,000

And in 2013, Adam Kirby became the youngest member of British Mensa at just two years old,

23

00:02:28,000 --> 00:02:37,000

scoring 141 on an IQ test and reading books by the age of 10 months.

24

00:02:37,000 --> 00:02:42,000

Highly gifted children often know things that they shouldn't know.

25

00:02:42,000 --> 00:02:48,000

They often surprise us with the things they're able to understand at very young ages.

26

00:02:48,000 --> 00:02:56,000

And they're able to bring together disparate pieces of information from history, scientific

discovery,

27

00:02:56,000 --> 00:03:01,000

and their own experiences and heightened intuitive sense.

28

00:03:01,000 --> 00:03:09,000

Throughout human history there have been children who stand out for their advanced knowledge and incredible abilities.

29

00:03:09,000 --> 00:03:16,000

But are these uniquely talented and intelligent children simply the product of good genetics?

30

00:03:16,000 --> 00:03:24,000

Or could there be another explanation for why some children display abilities far beyond their years?

31

00:03:24,000 --> 00:03:29,000

Some ancient astronaut theorists believe there are children born here on Earth

32

00:03:29,000 --> 00:03:33,000

who have a connection to beings from beyond our world.

33

00:03:33,000 --> 00:03:37,000

They call them star children.

34

00:03:37,000 --> 00:03:44,000

When we see these star children, these children who are gifted with extraordinary human function,

35

00:03:44,000 --> 00:03:53,000

born seeming to know things already, show that there is some sort of interaction going on with a non-physical intelligence.

36

00:03:54,000 --> 00:04:00,000

The concept is that children are being born with a higher level of awareness.

37

00:04:00,000 --> 00:04:09,000

These kids, many people believe, are being born in order to help usher in a true new age,

38

00:04:09,000 --> 00:04:17,000

a time of peace, a time of greater consciousness, and greater prosperity for the planet.

39

00:04:18,000 --> 00:04:25,000

What is commonly termed the star children has always been with the American India, people throughout the ages.

40

00:04:25,000 --> 00:04:31,000

And these are special children. They're the ones that can heal with their hands.

41

00:04:31,000 --> 00:04:39,000

These star children are said to have lots of special qualities, their psychic abilities are quite enhanced.

42

00:04:39,000 --> 00:04:46,000

And so these star children in a way are some new race that's living amongst us right now.

43

00:04:47,000 --> 00:04:54,000

Is it possible that some of the world's most gifted children really have an otherworldly connection,

44

00:04:54,000 --> 00:05:01,000

a connection that endows them with special gifts and the power to transform society?

45

00:05:01,000 --> 00:05:10,000

Today, there is evidence that a higher number of unusually gifted children are being born than ever before.

46

00:05:11,000 --> 00:05:20,000

There is genetic evidence to prove that humans are evolving at a rapid rate of speed.

47

00:05:20,000 --> 00:05:29,000

For example, an anthropologist from the University of Wisconsin named Professor John Hawks studied human DNA.

48

00:05:29,000 --> 00:05:39,000

And what he found was that in the past 5,000 years alone, human DNA has evolved by 7% in its overall genetic structure.

49

00:05:39,000 --> 00:05:47,000

That is a staggering amount every decade we're getting smarter and smarter and smarter.

50

00:05:47,000 --> 00:05:57,000

But those who have studied the star children phenomenon say that these unusually gifted children display more than just superior intelligence.

51

00:05:57,000 --> 00:06:07,000

Star kids are advanced in several departments. These kids are much brighter than the old school child of a previous generation.

52

00:06:07,000 --> 00:06:15,000

They are very sensitive. They are compassionate. They have a mission sense.

53

00:06:15,000 --> 00:06:29,000

They're using special gifts they have as advanced star kids. For example, in an area of telepathy, they can pick up on things that somebody else is thinking or sensing.

54

00:06:29,000 --> 00:06:41,000

Parents of star children know that their children are different. Maybe their child is psychic and talking about seeing things that other people can't see.

55

00:06:41,000 --> 00:06:48,000

Or hearing things other people can't hear or knowing things that other people don't know.

56

00:06:48,000 --> 00:06:56,000

Some of the star children have very high energy. They can go long periods without sleeping, without eating.

57

00:06:56,000 --> 00:07:02,000

It's just not your normal typical child.

58

00:07:02,000 --> 00:07:16,000

According to Nikki Patillo, her daughter Maddie has told her that her home is in the sky and is displayed numerous astonishing abilities like telekinesis and psychic visions.

59

00:07:16,000 --> 00:07:23,000

But could 10-year-old Maddie Patillo really have superhuman abilities?

60

00:07:23,000 --> 00:07:33,000

If so, where did they come from? And is it possible that star children have been with us for thousands of years?

61

00:07:33,000 --> 00:07:49,000

Ancient astronaut theorists say evidence that star children may have existed on Earth in the distant past can be found in a story that dates back over 2,000 years.

62

00:07:49,000 --> 00:07:54,000

Greece, the 6th century BC.

63

00:07:54,000 --> 00:08:06,000

Nezarkis, the father of philosopher and mathematician Pythagoras, was traveling home from work one day when he came upon an abandoned infant staring at the sun.

64

00:08:06,000 --> 00:08:11,000

And he was surviving, solely on the dew from a nearby tree.

65

00:08:11,000 --> 00:08:17,000

Nezarkis named this baby Astryos, which literally means star child in Greek.

66

00:08:17,000 --> 00:08:26,000

And here is an early example of a magical child. He adopted and he raised it with Pythagoras and his two brothers, so it was part of their family.

67

00:08:26,000 --> 00:08:37,000

According to the Greek myth, as recorded by Antonius Deogenes, Nezarkis gave the child to Pythagoras to be his servant and apprentice.

68

00:08:38,000 --> 00:08:50,000

Although Pythagoras is considered one of history's greatest mathematical minds, some ancient astronaut theorists believe he may have received advanced knowledge from the boy Astryos.

69

00:08:50,000 --> 00:09:03,000

It's believed that Astryos was actually sent to Earth in order to instruct Pythagoras, whose mystic concepts became foundational to the ancient world.

70

00:09:03,000 --> 00:09:13,000

So here we have a curious story of someone named Star Child, who had these special powers, whose birth is really a mystery.

71

00:09:13,000 --> 00:09:23,000

And so this child, Astryos, was perhaps one of the early extraterrestrial children sent to planet Earth.

72

00:09:24,000 --> 00:09:31,000

Could this peculiar child have actually instructed one of the greatest minds of the ancient world?

73

00:09:31,000 --> 00:09:47,000

And considering the Greeks described powerful beings who came down from the sky, is it possible, as ancient astronaut theorists suggest, that Astryos was the offspring of the gods, part human and part divine?

74

00:09:48,000 --> 00:10:00,000

Many ancient cultures, among them the ancient Greeks and the Egyptians and many others, describe how some children were born from humans and the so-called gods.

75

00:10:00,000 --> 00:10:06,000

Star children are what some consider a new breed of people.

76

00:10:07,000 --> 00:10:12,000

Is the story of Astryos really an early account of a star child?

77

00:10:13,000 --> 00:10:23,000

And if the star children have existed here on Earth throughout our history, what is the source of their superior intelligence and unexplainable abilities?

78

00:10:25,000 --> 00:10:36,000

Science tells us that in addition to the two-strand double helix DNA, there's an additional ten etheric strands of DNA that has dormant in humans and has been since recorded history.

79

00:10:36,000 --> 00:10:49,000

It's highly possible that alien creators have designed us this way and certain individuals are chosen throughout time to awaken these dormant strands in order to help mankind advance.

80

00:10:52,000 --> 00:10:57,000

Are star children really tapping into something inherent in our DNA?

81

00:10:57,000 --> 00:11:07,000

According to geneticist David Reich of the Harvard Medical School, there is in fact something mysterious inside us that has yet to be identified.

82

00:11:09,000 --> 00:11:23,000

In his study published in the fall of 2013, Reich examined the genome of Neanderthals and another group of ancient hominids known as denisovans, both of which interbred with humans.

83

00:11:24,000 --> 00:11:33,000

He discovered that their DNA, dating back more than 400,000 years, contains an unknown ancestor.

84

00:11:35,000 --> 00:11:45,000

Now this is incredibly exciting to me because I've always maintained that what some geneticists currently refer to as junk DNA might not be junk after all.

85

00:11:46,000 --> 00:11:49,000

And this study proves this in part.

86

00:11:49,000 --> 00:11:58,000

DNA is a code and just because its code hasn't been cracked yet doesn't mean it's actually junk.

87

00:11:59,000 --> 00:12:10,000

And to speculate even further, what if this unknown species was not of earthly origin and every human being already is partalian?

88

00:12:11,000 --> 00:12:22,000

Is it really possible that extraterrestrial beings modified mankind's DNA in the distant past as ancient astronaut theorists contend?

89

00:12:23,000 --> 00:12:31,000

And if so, might certain exceptional people, like star children, have found a way to channel their alien origins?

90

00:12:32,000 --> 00:12:41,000

Perhaps additional clues lie in the Mexican desert where discovery was made of a mysterious skull.

91

00:12:48,000 --> 00:12:50,000

Comper Canyon, Mexico.

92

00:12:51,000 --> 00:12:59,000

In 1930, while exploring a mine tunnel, a teenage girl unearths two skulls.

93

00:13:02,000 --> 00:13:04,000

One of them is oddly misshaped.

94

00:13:07,000 --> 00:13:13,000

Radiocarbon dating tests reveal the skull is roughly 900 years old.

95

00:13:14,000 --> 00:13:23,000

And according to a dentist who examined the upper jaw, the mysterious relic came from a child no more than five years old.

96

00:13:25,000 --> 00:13:34,000

Mainstream scientists insist the deformation of what is now known as the star child skull is due to a genetic disorder.

97

00:13:35,000 --> 00:13:43,000

Most likely, hydrocephalus, a condition in which an abnormal amount of fluid causes the skull to enlarge.

98

00:13:45,000 --> 00:13:54,000

But paranormal researcher and caretaker of the skull, Lloyd Pie, says he has ruled out this possibility based on the skull's unique shape.

99

00:13:55,000 --> 00:14:04,000

It wasn't hydrocephalic because it's clear that if you're hydrocephalic, you blow up like a balloon. You don't blow up with a defined shape and with a crease down the middle.

100

00:14:05,000 --> 00:14:13,000

You definitely don't grow up with a crease down the middle between two of your suture lines.

101

00:14:14,000 --> 00:14:30,000

But many researchers are not only baffled by the volume of the skull, which measures more than 10% larger than that of an average adult, but also a number of other characteristics they say are distinctly not human.

102

00:14:31,000 --> 00:14:44,000

The star child skull has half the thickness of ordinary human bone, but it's also twice as dense as ordinary human bone with a consistency more similar to dental enamel.

103

00:14:46,000 --> 00:14:54,000

It has bizarre thick strands in it, almost like there's some extra powerful weave inside the bone.

104

00:14:55,000 --> 00:15:04,000

It also has this bizarre reddish residue that appears to be similar to bone marrow, but very

different from what we normally see.

105

00:15:07,000 --> 00:15:09,000

There are no sinus cavities, for instance.

106

00:15:11,000 --> 00:15:20,000

There are many attachments inside the skull for tendons that human beings don't have, and it appears to be some sort of hybridization.

107

00:15:20,000 --> 00:15:24,000

It's part human, but also part something else.

108

00:15:28,000 --> 00:15:39,000

When the star child skull is subjected to forensic reconstruction, the face that is produced appears eerily similar to descriptions of gray aliens.

109

00:15:40,000 --> 00:15:51,000

It has all the physical attributes that are typically described by people who have encounters or alleged that they have encounters with gray aliens.

110

00:15:51,000 --> 00:15:54,000

It has very unusual eyes.

111

00:15:56,000 --> 00:15:59,000

It has expanded parietals.

112

00:16:01,000 --> 00:16:03,000

It has a crease down the middle.

113

00:16:04,000 --> 00:16:07,000

It has a very, very narrow lower face.

114

00:16:08,000 --> 00:16:11,000

Plus, it has a monster brain in that head.

115

00:16:15,000 --> 00:16:20,000

Lloyd Pie launched what he calls the star child project.

116

00:16:20,000 --> 00:16:28,000

Working with independent researchers to determine exactly who or what this unusual skull belonged to.

117

00:16:29,000 --> 00:16:37,000

According to him, DNA tests carried out by trace genetics in 2003 revealed shocking results.

118

00:16:39,000 --> 00:16:53,000

While scientists uncovered mitochondrial DNA, or DNA inherited solely from the mother, they were unable to detect nuclear DNA, or DNA from both the mother and father.

119

00:16:54,000 --> 00:17:02,000

When we tried to recover the star child's nuclear DNA in six attempts, no recovery.

120

00:17:02,000 --> 00:17:13,000

So at that time, what that obviously indicated was if the star child's mitochondrial DNA was recoverable, that meant it had a human mother.

121

00:17:13,000 --> 00:17:20,000

And if its nuclear DNA was not recoverable, then there was something wrong with the father's DNA.

122

00:17:23,000 --> 00:17:30,000

Because if the father had been human, you would have had as easy a recovery of it as you did of the human mother.

123

00:17:30,000 --> 00:17:36,000

So we knew right then in 2003 something was very wrong with at least dad.

124

00:17:39,000 --> 00:17:48,000

And so we formed the assumption, based on the evidence, that it was a human alien hybrid with a human mother and an alien father.

125

00:17:49,000 --> 00:17:58,000

But more advanced DNA testing in 2011 revealed something even more shocking.

126

00:17:58,000 --> 00:18:06,000

The DNA, not only of the father, but also the mother, did not appear to be human after all.

127

00:18:06,000 --> 00:18:13,000

Once we began to recover longer stretches of the mitochondrial DNA, we found out that they didn't really fit at all.

128

00:18:14,000 --> 00:18:24,000

And so now the genetic evidence indicates that it didn't have a human mother. It's just purely alien.

129

00:18:26,000 --> 00:18:34,000

Reasons mainstream science resists any kind of information that is in support of UFOs and aliens.

130

00:18:35,000 --> 00:18:43,000

It's simply because it's going to change everything about a certain aspect of their bailiwick, of their purview.

131

00:18:46,000 --> 00:18:57,000

Although Lloyd Pie passed away in December of 2013, his research team hopes to one day recover the entire genome of the Starchild skull.

132

00:18:58,000 --> 00:19:06,000

Ultimately revealing the truth about what they and other researchers maintain is another worldly species.

133

00:19:09,000 --> 00:19:20,000

By looking deeper into this skull and looking at the genetics, it's very possible that if we can analyze the full spectrum of the genome, we might find our first proof of extraterrestrial intervention.

134

00:19:21,000 --> 00:19:37,000

One of the things we have to seriously consider is the possibility that human life on Earth did not originate on Earth, that we might be the surviving remnant of settlers who came here long ago.

135

00:19:38,000 --> 00:19:55,000

When we find brain sizes that are twice as big as a normal human brain, we are left with compelling evidence that the extraterrestrials that we think we're looking for might be a lot closer to us than we ever would have dared to imagine before.

136

00:19:56,000 --> 00:20:04,000

Might this extraordinary skull have been that of an alien child that lived here on Earth hundreds of years ago?

137

00:20:06,000 --> 00:20:13,000

And if so, is this an ancestor of the Starchildren that some believe are among us today?

138

00:20:14,000 --> 00:20:25,000

Perhaps further clues can be found by examining cultures who believe certain children are born with a direct link to the stars.

139

00:20:30,000 --> 00:20:36,000

Currently, there are 562 Native American tribes in the United States.

140

00:20:37,000 --> 00:20:45,000

Many of them, like the Navajo, Hopi and Zuni, have stories of otherworldly beings visiting Earth.

141

00:20:48,000 --> 00:20:56,000

Often referred to as star beings, these alien visitors are said to come down from the sky to teach mankind.

142

00:20:57,000 --> 00:21:04,000

And in some cases, they are even said to mate with human women, resulting in the birth of star children.

143

00:21:06,000 --> 00:21:10,000

The stories of star children are quite common in Native culture.

144

00:21:11,000 --> 00:21:16,000

There can be quite a variety of forms of that sort of thing as well.

145

00:21:17,000 --> 00:21:25,000

But typically, there's a star and a human being that join together and a child is born from that union.

146

00:21:26,000 --> 00:21:36,000

They were then cared for and raised by the Indian tribes until the age of six, when the star beings would return and retrieve the star children

147

00:21:37,000 --> 00:21:45,000

and leave the entire tribe staring up into the night sky, wondering what had happened to them and where they'd gone.

148

00:21:46,000 --> 00:21:52,000

That's quite an interesting story in itself to give birth to a star child and then have it taken from you.

149

00:21:53,000 --> 00:21:58,000

There's also the story of some star children have been left behind.

150

00:21:59,000 --> 00:22:06,000

To become interwoven into the tribe, a lot of them later in life become elders, even at a very young age.

151

00:22:07,000 --> 00:22:13,000

And that's because they're believed to carry the ability or the knowledge to heal the Earth.

152

00:22:14,000 --> 00:22:25,000

According to the Hopi people, a tribe of more than 18,000 living on a reservation in northeastern Arizona,

153

00:22:26,000 --> 00:22:32,000

it is the star children who will ultimately repair what they call the Koyani scotsi,

154

00:22:33,000 --> 00:22:38,000

meaning a life of corruption and turmoil or life out of balance.

155

00:22:39,000 --> 00:22:46,000

The Hopi believe the Earth is out of center. It's not balanced any longer.

156

00:22:47,000 --> 00:22:55,000

And it's the star children that live among the Hopi that advise even the elders on how to put the Earth back into balance again.

157

00:22:58,000 --> 00:23:05,000

The star kids job as they grow up is going to be not only to inherit the Earth as the phrase goes,

158

00:23:05,000 --> 00:23:09,000

but to reform the Earth, to remake human society.

159

00:23:15,000 --> 00:23:23,000

In the Hopi legend, it is said that the star children will prepare humankind for the arrival of what they call the blue star

160

00:23:24,000 --> 00:23:27,000

and the Kachina or star being who will arrive with it.

161

00:23:28,000 --> 00:23:42,000

There's a lot of debate what the blue star is, but when the blue star comes, it will crash to the Earth.

162

00:23:43,000 --> 00:23:54,000

This dwelling place in the sky will crash to the Earth, and the blue star Kachina will take off his mask in the village plaza.

163

00:23:55,000 --> 00:23:58,000

And that will be the end of the fourth war.

164

00:23:59,000 --> 00:24:14,000

Many Hopi refer to the blue star as a house in the sky, leading some ancient astronaut theorists to suggest that this prophecy is a reference to the impending arrival of extraterrestrial life.

165

00:24:15,000 --> 00:24:26,000

Some Hopi refer to the blue star as a house in the sky or a dwelling in the firmament that one day will descend from the stars amidst a fiery crash.

166

00:24:28,000 --> 00:24:30,000

Now what does this mean?

167

00:24:31,000 --> 00:24:37,000

To me, what is described here might be the eventual arrival of extraterrestrial craft.

168

00:24:37,000 --> 00:24:50,000

The day they will return will change mankind's history forever, because then the truth will be revealed to the masses in one instant for everyone to see.

169

00:24:52,000 --> 00:25:03,000

But if the star children of Hopi mythology really were advanced otherworldly beings, might there be some still living among us in the present day?

170

00:25:07,000 --> 00:25:17,000

And if so, might we find other ancient cultures with similar legends of unusual children possessing extraordinary powers?

171

00:25:20,000 --> 00:25:23,000

Tibet, just northeast of the Himalayas.

172

00:25:25,000 --> 00:25:32,000

This plateau is the world's highest and largest, spanning more than 450,000 square miles,

173

00:25:33,000 --> 00:25:36,000

known as the roof of the world.

174

00:25:37,000 --> 00:25:44,000

It is here that the Buddhist spiritual leader called the Dalai Lama began his rule more than 600 years ago.

175

00:25:46,000 --> 00:25:51,000

In 1937, the 14th Dalai Lama was recognized.

176

00:25:53,000 --> 00:26:00,000

Now living in exile in India, following the Chinese takeover of Tibet in 1959,

177

00:26:01,000 --> 00:26:06,000

Tenzin Gyatso is believed to be the reincarnation of a Buddhist deity.

178

00:26:08,000 --> 00:26:13,000

So all of these Dalai Lama are then the bodhisattva incarnated beings.

179

00:26:15,000 --> 00:26:20,000

And then Dalai Lama is obviously the incarnated being of the previous Dalai Lama.

180

00:26:21,000 --> 00:26:26,000

So in a sense, they all are the incarnations of the bodhisattva, Vajrakiteshvara.

181

00:26:30,000 --> 00:26:36,000

Upon his death, the outgoing Dalai Lama will transfer his essence into the form of a Buddha,

182

00:26:37,000 --> 00:26:42,000

until the time at which his spirit can reincarnate into its new chosen body.

183

00:26:44,000 --> 00:26:51,000

A committee of high llamas or priests is tasked with searching for the young boy who will be the next leader.

184

00:26:53,000 --> 00:26:58,000

The choosing of Dalai Lama is a long and arduous process.

185

00:26:59,000 --> 00:27:04,000

The 13th Dalai Lama before his death pointed towards the east.

186

00:27:05,000 --> 00:27:12,000

And so when he died, the expectation was that the 13th would be reincarnated in the eastern part of Tibet.

187

00:27:13,000 --> 00:27:19,000

Now the first thing that they do is they go to Lama Latse,

188

00:27:20,000 --> 00:27:27,000

a lake that is sacred to Palden Lama, a protector deity of the Dalai Lama's line.

189

00:27:28,000 --> 00:27:39,000

And the viceroy then, rating, went and had a vision and saw a house close to a monastery with a turquoise roof in the east.

190

00:27:40,000 --> 00:27:45,000

And so they began to send out explorations of that.

191

00:27:47,000 --> 00:27:52,000

A selection party, they will go and look for the signs of the previous Dalai Lama.

192

00:27:52,000 --> 00:27:56,000

And if this particular child exhibits certain those qualities,

193

00:27:57,000 --> 00:28:02,000

and then he will be presented also with many of the personal belongings that the Dalai Lama had,

194

00:28:03,000 --> 00:28:08,000

along with other new objects, and if he's a true reincarnation of that particular Dalai Lama,

195

00:28:09,000 --> 00:28:14,000

then he will identify those objects that belong to the previous Dalai Lama.

196

00:28:15,000 --> 00:28:27,000

And this is seen as a test of the Dalai Lama that the Dalai Lama would have some access to past memories and familiarities of a previous incarnation.

197

00:28:31,000 --> 00:28:36,000

There is some sort of interaction going on with a non-physical intelligence.

198

00:28:36,000 --> 00:28:43,000

They are essentially downloading information that they shouldn't seem to have in and amongst themselves.

199

00:28:44,000 --> 00:28:56,000

One explanation for this is the possibility that there is a soul aspect that is from the gods, from extraterrestrials, that is somehow coupling with people on Earth.

200

00:28:57,000 --> 00:29:06,000

This idea of a reincarnated child carrying knowledge from beyond our world mirrors the modern-day Star Child concept.

201

00:29:07,000 --> 00:29:11,000

These souls are coming from all areas of the galaxy.

202

00:29:12,000 --> 00:29:18,000

Some of them are souls that have reincarnated here on Earth many, many times.

203

00:29:19,000 --> 00:29:21,000

Other souls come from other places.

204

00:29:22,000 --> 00:29:33,000

So you have to wonder if the Dalai Lama himself isn't some early Star Child who's here on Earth to help the Tibetan people, especially in all of mankind.

205

00:29:35,000 --> 00:29:39,000

Could the Dalai Lama really have a connection to other worldly beings?

206

00:29:41,000 --> 00:29:48,000

And might he, like the blue star Kachina of the Hopi stories, be here to help shape the future of mankind?

207

00:29:51,000 --> 00:30:00,000

While most stories of Star Children describe them as being here to aid humanity, could there be some that have a more sinister mission?

208

00:30:07,000 --> 00:30:08,000

Abilene, Texas.

209

00:30:09,000 --> 00:30:11,000

180 miles east of Dallas.

210

00:30:14,000 --> 00:30:16,000

Late one night in 1996,

211

00:30:16,000 --> 00:30:22,000

journalist Brian Bethel was waiting in his parked car just outside a movie theater

212

00:30:23,000 --> 00:30:27,000

when two young boys walked up and asked for a ride home.

213

00:30:29,000 --> 00:30:33,000

Bethel was nervous initially at the approach of these children and he wasn't sure why.

214

00:30:34,000 --> 00:30:38,000

He estimated their ages to be somewhere between 10 and 14 years old.

215

00:30:39,000 --> 00:30:42,000

They began to speak to him in a very strange manner.

216

00:30:43,000 --> 00:30:48,000

And they came up with this unlikely story of needing money to go to the local cinema.

217

00:30:49,000 --> 00:30:50,000

Could he give them a ride back home?

218

00:30:51,000 --> 00:30:56,000

And they seemed very malevolent, very evil. There was something deeply unsettling about them.

219

00:30:58,000 --> 00:31:04,000

Finally, the children made eye contact with Bethel at which point he realized their eyes were solid black.

220

00:31:05,000 --> 00:31:09,000

Not just the pupil, but the entire eye solid black.

221

00:31:10,000 --> 00:31:11,000

This sort of pushed Bethel over the edge.

222

00:31:12,000 --> 00:31:18,000

With the car in reverse, he pulled away from these kids as quickly as he could and when he glanced back, there was nothing there.

223

00:31:25,000 --> 00:31:33,000

Bethel documented his account on the internet and soon others were posting similar encounters with the so-called black-eyed kids.

224

00:31:34,000 --> 00:31:41,000

Since publicity has been given to the phenomenon, other people have come forward who talked about sightings and encounters in the 40s and the 50s.

225

00:31:42,000 --> 00:31:44,000

So we're not really sure when it all actually began.

226

00:31:45,000 --> 00:31:53,000

Is it possible, as ancient astronaut theorists suggest, that these strange beings are star children with evil intentions?

227

00:31:55,000 --> 00:32:03,000

What differentiates the black-eyed children from the star children is the fact that the star children are very often described as being friends.

228

00:32:04,000 --> 00:32:07,000

They are extremely benevolent and positive.

229

00:32:09,000 --> 00:32:15,000

The black-eyed children are devilish, occult-driven and totally negative.

230

00:32:18,000 --> 00:32:29,000

There's a contemporary urban legend that there are black-eyed children that will show up at your door and ask for a glass of water, a big sum of food, or asked to use the phone or something.

231

00:32:30,000 --> 00:32:36,000

They are demonic. They are trouble. They are children, so they seem innocent.

232

00:32:37,000 --> 00:32:41,000

But watch for the black eyes that will give away the trouble to come.

233

00:32:46,000 --> 00:32:50,000

As the years have unfolded, more and more people have come forward with their encounters.

234

00:32:51,000 --> 00:32:58,000

It seems very clear at this point that there's something much more sinister going on than just a simple urban legend.

235

00:33:00,000 --> 00:33:08,000

Most people describe the black-eyed children as being in the age range of 10 to early teens.

236

00:33:09,000 --> 00:33:11,000

They're described as having very pale skin.

237

00:33:12,000 --> 00:33:17,000

Not a blemish is ever seen on the skin. Their eyes are solid black.

238

00:33:19,000 --> 00:33:21,000

Now, this is the most startling trait, obviously.

239

00:33:22,000 --> 00:33:32,000

They tend to speak in a very cold manner and repeat phrases frequently, as if they've memorized certain key things to say and repeat.

240

00:33:33,000 --> 00:33:43,000

And they say things like, we're hungry, we want in, but with this dead look, and I mean, again, black eyes are looking at these kids with black eyes.

241

00:33:44,000 --> 00:33:51,000

Close the door. They will leave. They won't like try to break in or anything like that, but they want in.

242

00:33:52,000 --> 00:33:56,000

And I think if they get in, I think maybe they're after your soul or something like that.

243

00:33:57,000 --> 00:34:02,000

Now, of course, if a kid comes knocking on your door, your first thought is, well, you want to help him.

244

00:34:03,000 --> 00:34:08,000

But that's the very last thing that crosses the mind of the black-eyed children, witnesses.

245

00:34:09,000 --> 00:34:11,000

They want to get as far away from them as possible.

246

00:34:11,000 --> 00:34:17,000

There have been cases where security cameras were present during the encounter.

247

00:34:18,000 --> 00:34:23,000

Very mysteriously, the security cameras experienced glitches in their tape.

248

00:34:24,000 --> 00:34:27,000

In some ways, it makes it all the more intriguing.

249

00:34:29,000 --> 00:34:37,000

There are many theories about the black-eyed children, but some ancient astronaut theorists believe their appearance and mannerisms

250

00:34:38,000 --> 00:34:41,000

reveal an extraterrestrial origin.

251

00:34:45,000 --> 00:34:50,000

They have these jet black solid eyes, hence the name, look very, very creepy and weird.

252

00:34:54,000 --> 00:35:03,000

It's reported that the black-eyed children, too, may be hybrids, but they're a little more evil than the normal star children that we're accustomed to.

253

00:35:07,000 --> 00:35:18,000

It's possible that for all the light that is coming in with these star children, there's also a counterbalance, something dark that is coming in at the same time.

254

00:35:19,000 --> 00:35:28,000

And it may be that these black-eyed children represent the negative side of the actual star children that are coming into our world.

255

00:35:29,000 --> 00:35:36,000

Could the black-eyed kids actually be extraterrestrials in a limbo state between dimensions?

256

00:35:37,000 --> 00:35:43,000

And might these childlike beings be part of a much larger, otherworldly agenda?

257

00:35:48,000 --> 00:35:56,000

Ancient astronaut theorists say yes and point to the hungry ghosts of Thailand as proof.

258

00:35:58,000 --> 00:36:06,000

According to this legend, the spirits of some children can become trapped in between the worlds of life and death.

259

00:36:07,000 --> 00:36:17,000

And every year during the full moon of the 7th lunar month of the Chinese calendar, these spirits are free to roam the Earth.

260

00:36:18,000 --> 00:36:22,000

The Hungry Ghost Festival is designed to placate these spirits.

261

00:36:22,000 --> 00:36:29,000

People believe that because of their desires, because of their needs, they can make contact with humans.

262

00:36:30,000 --> 00:36:35,000

Often these desires translate into extreme desires for food.

263

00:36:37,000 --> 00:36:47,000

The hungry ghosts that come out of Thailand seem to be descriptions of what appear to be children, and their insatiable appetite can never be filled.

264

00:36:48,000 --> 00:36:51,000

These hungry ghosts are to be feared.

265

00:36:52,000 --> 00:37:06,000

Some people in Asia believe that the appearance of these black-eyed children is a manifestation of a hungry ghost, asking you to invite it inside so that it can have food or water or whatever else that it desires.

266

00:37:08,000 --> 00:37:16,000

Are the hungry ghosts of Thailand somehow connected with the black-eyed kids seen in America today?

267

00:37:17,000 --> 00:37:23,000

And if so, is this further evidence that there really are star children among us?

268

00:37:24,000 --> 00:37:33,000

Some ancient astronaut theorists believe the answer might be connected to the prophecies of one of the world's most legendary psychics.

269

00:37:34,000 --> 00:37:48,000

Edgar Cayce has been called the most documented psychic of the 20th century, having given thousands of psychic readings to seekers while in an unconscious state.

270

00:37:49,000 --> 00:37:56,000

He was known for diagnosing illnesses, and for revealing information about the past and future.

271

00:37:57,000 --> 00:38:08,000

In July of 1932, Edgar Cayce predicted that between the years of 1998 and 2015, a new humanity would emerge.

272

00:38:10,000 --> 00:38:21,000

According to him, this highly evolved group of humans, referred to as the Fifth Root Race, would be capable of great powers that would benefit humankind.

273

00:38:22,000 --> 00:38:29,000

These children, he said, would be super advanced humans with extrasensory capabilities. They'd be psychic.

274

00:38:31,000 --> 00:38:35,000

They might have the ability of telekinesis, the ability to move objects with their minds.

275

00:38:38,000 --> 00:38:44,000

And Cayce said that they would actually be able to trace their lineage back to the ancient world.

276

00:38:45,000 --> 00:39:09,000

What Edgar Cayce was getting in his future visioning was a transformed society, and that is the same kind of vision that the Hopi ancestors have handed down their oral tradition that there will be a transition from current corrupt fourth world to a much better, kind, just, peaceable, environmentally sensitive, made over society.

277

00:39:10,000 --> 00:39:19,000

Edgar Cayce was talking about star children, manipulated genetically by ETs, planted on this planet for some future event.

278

00:39:20,000 --> 00:39:24,000

I think Cayce saw it in his trances, and it's happening now.

279

00:39:26,000 --> 00:39:30,000

Is it possible, Edgar Cayce, foretold of the coming of star children?

280

00:39:31,000 --> 00:39:35,000

Advanced beings that can be traced back throughout ancient mythology.

281

00:39:36,000 --> 00:39:41,000

And if the star children do exist, how do we identify them?

282

00:39:44,000 --> 00:39:51,000

In 1982, the Chinese government launched a nationwide search for children with extraordinary abilities.

283

00:39:52,000 --> 00:40:00,000

Some of the talents they looked for were psychic powers, telekinesis, and the ability to manipulate time and space.

284

00:40:00,000 --> 00:40:17,000

There was one girl who could wave her hands over a bush that had buds of flowers on it, and spontaneously accelerate time so that the flower buds popped open right in front of everyone's eyes.

285

00:40:18,000 --> 00:40:23,000

Some could read while blindfolded, some could move objects telepathically.

286

00:40:24,000 --> 00:40:36,000

We don't know what became of these children because this was some years ago now, but the fact that the research was done and something was identified seems to bolster Cayce's prophecies.

287

00:40:37,000 --> 00:40:42,000

The question then becomes, where does this extra human function come from?

288

00:40:43,000 --> 00:40:49,000

Is it some part of our extraterrestrial DNA that's been activated by the process that the Chinese put them through?

289

00:40:49,000 --> 00:40:57,000

Could we actually see a new, higher functioning, more advanced, superior human being in our future?

290

00:41:00,000 --> 00:41:10,000

In total, the Chinese identified more than 100,000 children who had what researchers refer to as extra human function, or EHF.

291

00:41:11,000 --> 00:41:20,000

Is it possible, as some ancient astronaut theorists suggest, that this is evidence that the star children phenomenon is real?

292

00:41:21,000 --> 00:41:34,000

A lot of people believe that these star children that are coming into our world actually vibrate at a higher level of existence than most humans do.

293

00:41:34,000 --> 00:41:47,000

It's a higher level of connectivity, a higher level of sensitivity that allows them to connect into the collective consciousness in a way that most of us have forgotten how to do.

294

00:41:48,000 --> 00:41:55,000

The potential of these children is exciting, and the possibilities are unlimited.

295

00:41:56,000 --> 00:42:12,000

There are those who believe that human beings are going through an evolutionary leap, and that some children are being born today with special abilities that future generations will eventually all possess.

296

00:42:13,000 --> 00:42:21,000

But could they also have been sent here with a profound plan, perhaps one of extraterrestrial design?

297

00:42:22,000 --> 00:42:37,000

I believe that the star children, they have a mission from different parts of the universe, but I believe that they're here for purpose, and I think one of them is to correct what has happened into the planet that we're on, Mother Earth.

298

00:42:38,000 --> 00:42:54,000

The timing of all these star-sea children suddenly appearing with all these new attributes and gifts would make sense if alien creators would awaken these DNA strands in order for these star-sea children to advance us into this new era of enlightenment.

299

00:42:55,000 --> 00:43:10,000

With these star children a new phase, an advanced, more spiritual, more knowledgeable type of humanity is appearing all over Earth.

300

00:43:10,000 --> 00:43:25,000

Won't this be really the end result of extraterrestrials manipulating us and helping us to grow and achieve the kind of civilization that the extraterrestrials have planned for us all along?

301

00:43:26,000 --> 00:43:36,000

Are there really alien children numbering in the tens of thousands, being born here on Earth, as some ancient astronaut theorists suggest?

302

00:43:37,000 --> 00:43:40,000

And if so, why are they here?

303

00:43:41,000 --> 00:43:43,000

Is it to replace us?

304

00:43:44,000 --> 00:43:55,000

Or is it to teach us about our potential and to guide us into the future, one in which we will all become star children?
