

1

00:00:00,000 --> 00:00:02,440

The

2

00:00:02,440 --> 00:00:06,680

sealed vaults believed to be cursed.

3

00:00:06,680 --> 00:00:11,720

There seems to be a bizarre magical power that hides behind that door.

4

00:00:11,720 --> 00:00:15,160

Mysterious relics under guard from above.

5

00:00:15,160 --> 00:00:20,000

As they approach, skies open up and the gods intervene.

6

00:00:20,000 --> 00:00:24,640

And riches so great, it is cost men their lives.

7

00:00:24,640 --> 00:00:26,280

People have died over this.

8

00:00:26,280 --> 00:00:28,280

This is for real.

9

00:00:28,280 --> 00:00:33,880

On every continent, there are stories of incredible treasures that have been lost for centuries.

10

00:00:33,880 --> 00:00:38,280

But how have these vast fortunes remained hidden for so long?

11

00:00:38,280 --> 00:00:46,280

Is it possible that the world's greatest lost treasures have a connection to other worldly beings?

12

00:00:46,280 --> 00:00:53,280

Man has always been fascinated with ancient treasures, the gold, the silver, the jewels.

13

00:00:53,280 --> 00:00:59,280

But in other cases, it can be technology of the extraterrestrial gods themselves.

14

00:00:59,280 --> 00:01:07,280

Millions of people around the world believe we have been visited in the past by extraterrestrial beings.

15

00:01:07,280 --> 00:01:10,280

What if it were true?

16

00:01:10,280 --> 00:01:15,280

Did ancient aliens really help to shape our history?

17

00:01:15,280 --> 00:01:21,280

And if so, might the proof lie hidden with the treasures of the gods?

18

00:01:23,280 --> 00:01:28,280

The truth is that the truth is not the truth.

19

00:01:28,280 --> 00:01:33,280

The truth is not the truth.

20

00:01:33,280 --> 00:01:38,280

The truth is not the truth.

21

00:01:38,280 --> 00:01:43,280

The truth is not the truth.

22

00:01:54,280 --> 00:01:57,280

Kumran, the West Bank.

23

00:01:57,280 --> 00:02:08,280

It was here between 1947 and 1956 that the Dead Sea Scrolls were discovered.

24

00:02:08,280 --> 00:02:17,280

Religious writings that include the earliest known surviving manuscripts of works from the Hebrew Bible.

25

00:02:17,280 --> 00:02:25,280

But one of the Dead Sea Scrolls, found in Cave 3, was much different than the rest.

26

00:02:25,280 --> 00:02:36,280

Known as the Copper Scroll, it is the only scroll that is not parchment or papyrus.

27

00:02:36,280 --> 00:02:42,280

The first translation of the Copper Scrolls was probably done by John Allegro in 1956.

28

00:02:42,280 --> 00:02:47,280

He immediately realized that it was a list of treasure, buried treasure.

29

00:02:47,280 --> 00:02:54,280

The Copper Scroll is possibly the greatest treasure map in human history.

30

00:02:54,280 --> 00:03:03,280

It gives us 64 locations where a treasure that is worth potentially \$2 billion could be found.

31

00:03:03,280 --> 00:03:11,280

People assume that these 64 items of treasure had to be buried or come from Jerusalem.

32

00:03:11,280 --> 00:03:17,280

Because there clearly were references to temple-type treasure.

33

00:03:17,280 --> 00:03:22,280

A number of very intrepid explorers have tried to find the treasure, but no one has been successful yet.

34

00:03:22,280 --> 00:03:26,280

It has not been discovered in Jerusalem.

35

00:03:26,280 --> 00:03:33,280

Does the vast treasure described in the Copper Scroll remain buried in Jerusalem to this day?

36

00:03:33,280 --> 00:03:44,280

Or is it possible that it has remained hidden for all these years because it's actually buried in another part of the world?

37

00:03:44,280 --> 00:03:55,280

Metallurgist and treasure hunter Robert Feather has spent years studying the Copper Scroll and believes that the treasure isn't that of the Israelites.

38

00:03:55,280 --> 00:04:04,280

As a metallurgist, the first thing I kind of noticed was that you don't measure gold in kilograms, which is what they were doing.

39

00:04:04,280 --> 00:04:18,280

So I looked at it again and interspersed amongst the ancient Hebrew letters were Greek letters, 14 Greek letters, and also the weight terms were Egyptian.

40

00:04:18,280 --> 00:04:26,280

It's engraved on highly pure copper, 99.9%.

41

00:04:26,280 --> 00:04:37,280

I began to research it and realized the only place that you could find copper of that purity was in Egypt.

42

00:04:37,280 --> 00:04:46,280

After examining the Copper Scroll from every angle, Robert came to the conclusion that the treasure does not lie in Jerusalem.

43

00:04:46,280 --> 00:04:51,280

But over 600 miles southwest in Egypt.

44

00:04:51,280 --> 00:05:01,280

When you start to analyze the phraseology, you get things like Nahal Haggadol, which is Great River.

45

00:05:01,280 --> 00:05:05,280

There's no Great River near Jerusalem or in Judea at that time at all.

46

00:05:05,280 --> 00:05:11,280

The only Great River, and it's always referred to in those same terms as the Nile.

47

00:05:11,280 --> 00:05:20,280

But most compelling of all Robert's finds was a name he found hidden within the text of the Copper Scroll.

48

00:05:20,280 --> 00:05:30,280

I took the first ten Greek letters and put them together and read the name Akhenate.

49

00:05:30,280 --> 00:05:40,280

And I came to the conclusion the Copper Scroll was talking about Aramana, the capital city of Farah Akhenate.

50

00:05:40,280 --> 00:05:55,280

Is it possible that the famous treasure of the Copper Scroll, millions of dollars in gold and silver, is really hidden not in Jerusalem, but somewhere in Amarna, Egypt?

51

00:05:55,280 --> 00:06:04,280

And if Robert Feather's analysis of the scroll is correct, why is there a connection to Akhenaten?

52

00:06:04,280 --> 00:06:13,280

Akhenaten was known historically or rather through modern history as the heretical fair.

53

00:06:13,280 --> 00:06:26,280

Akhenaten banishes multiple gods and declares that there is only one god, Atten, and the Atten is the sun-disk.

54

00:06:26,280 --> 00:06:39,280

Ancient astronaut theorists contend that Atten was not merely a symbolic deity, but based on something Akhenaten actually witnessed in the sky.

55

00:06:39,280 --> 00:06:50,280

Akhenaten and other Atnists are seen worshipping this special disk of the sun that is reaching down to touch them.

56

00:06:50,280 --> 00:07:02,280

And you have to wonder if this sun-disk isn't a representative of some kind of alien spaceship or flying saucer.

57

00:07:02,280 --> 00:07:09,280

Prior to Akhenaten, the Pharaoh was one of the gods, but not God incarnate.

58

00:07:09,280 --> 00:07:17,280

Akhenaten changes this. With Akhenaten, he is the living God in a way that no Pharaoh had been before.

59

00:07:17,280 --> 00:07:24,280

Akhenaten was a very interesting fellow because of the way he looked.

60

00:07:24,280 --> 00:07:37,280

He had a very bizarre face with an elongated skull, with a spindly body sort of with a pot belly and chicken legs.

61

00:07:37,280 --> 00:07:49,280

And so some have proposed that Akhenaten himself might have been an extraterrestrial.

62

00:07:49,280 --> 00:08:00,280

Is it possible, as ancient astronaut theorists contend, that Akhenaten was actually an extraterrestrial being?

63

00:08:00,280 --> 00:08:15,280

Curiously, much like the treasure written of in the copper scroll, the fate of Akhenaten remains shrouded in mystery.

64

00:08:15,280 --> 00:08:23,280

There was a concerted effort to eliminate Akhenaten. His name was stricken, carved out of the temple walls.

65

00:08:23,280 --> 00:08:32,280

The Amarna heresy, as it was known, had to be completely deleted from the Egyptian record.

66

00:08:32,280 --> 00:08:47,280

In 1932, when British archaeologist John Pendleberry excavated Akhenaten's tomb, he found no evidence that Akhenaten had ever been buried there.

67

00:08:47,280 --> 00:08:56,280

Some speculate the final resting place of the Pharaoh was in a tomb in the Valley of the Kings, Tomb 55.

68

00:08:56,280 --> 00:09:07,280

However, recent archaeological evidence has led others to suggest the body found in this tomb belongs to someone else.

69

00:09:07,280 --> 00:09:15,280

Most Egyptologists would agree that the bodies found in this tomb is not Akhenaten.

70

00:09:15,280 --> 00:09:29,280

Akhenaten just disappeared. But had we, had this tomb survived, for example, one would imagine that the treasures, the wealth, would have been probably equivalent, if not more, than Tutankhamun's tomb.

71

00:09:30,280 --> 00:09:40,280

One of the great mysteries of ancient Egypt is where the body of Akhenaten is.

72

00:09:40,280 --> 00:09:48,280

If they could find his body, it might reveal that he was in fact part extraterrestrial and that this is why he looked as he did.

73

00:09:49,280 --> 00:09:59,280

Could the treasure locations given on the copper scroll also lead to the mummy of the heretic Pharaoh?

74

00:09:59,280 --> 00:10:11,280

And if Akhenaten truly had alien origins, as ancient astronaut theorists suggest, might this

treasure hold some value to beings from beyond our world?

75

00:10:12,280 --> 00:10:26,280

According to author Zechariah Sitchin, Sumerian texts suggest ancient humans were made to mine gold for their gods, gods who were in fact extraterrestrials.

76

00:10:26,280 --> 00:10:32,280

Many ancient cultures were in the pursuit of finding precious gold and silver and jewels.

77

00:10:32,280 --> 00:10:37,280

They always did this under the premise that they were gathering it for their gods.

78

00:10:37,280 --> 00:10:46,280

It's very possible that just like we have from the ancient Sumerian texts, man was actually created to mine the gold and precious jewels for the gods.

79

00:10:47,280 --> 00:10:57,280

Zechariah Sitchin speculates that gold is absolutely necessary for the people of the 12th planet, who we often think of as the extraterrestrials who visit us as gods.

80

00:10:59,280 --> 00:11:04,280

Gold has also proven to be a valuable element for space travel.

81

00:11:04,280 --> 00:11:10,280

Gold is highly conductive and obviously you would probably have a lot of electrical based equipment on your ship.

82

00:11:11,280 --> 00:11:17,280

Gold also has great thermal properties. It's incredibly easy to work with. You can make it very thin.

83

00:11:17,280 --> 00:11:23,280

So I think the properties of gold really make it very useful for interstellar travel.

84

00:11:24,280 --> 00:11:34,280

Might our ancestors have secreted away vast caches of gold upon the orders of extraterrestrial gods?

85

00:11:35,280 --> 00:11:43,280

Or if the treasure described in the copper scroll is truly buried in a marna hidden with the mummy of Akhenat,

86

00:11:43,280 --> 00:11:50,280

is it possible that once it is found it will reveal something even more valuable than just gold and silver?

87

00:11:51,280 --> 00:11:56,280

Could the treasure be buried with some type of alien technology?

88

00:11:59,280 --> 00:12:05,280

I think the copper scroll will lead to much more than just the simple finding of material treasure.

89

00:12:07,280 --> 00:12:17,280

The more I immerse myself in the subject, the more I realize that it opens up a whole panoply of truths that are far more important than mere gold and silver.

90

00:12:20,280 --> 00:12:29,280

Once the code is finally cracked, will the copper scroll lead us to evidence that aliens visited Earth in the distant past?

91

00:12:30,280 --> 00:12:37,280

Ancient astronaut theorists say yes and believe that not far from where the copper scroll was found,

92

00:12:37,280 --> 00:12:44,280

a treasure of even greater significance is still waiting to be uncovered.

93

00:12:45,280 --> 00:12:53,280

Temple Mount, Jerusalem, Summer 2013

94

00:12:55,280 --> 00:13:04,280

Just 164 feet from the Temple Mount's southern wall, archeologist Dr. Alot Mazar makes a stunning discovery.

95

00:13:05,280 --> 00:13:13,280

An inscribed earthenware jug that dates back 3,000 years to the time of King Solomon.

96

00:13:15,280 --> 00:13:24,280

The discovery may confirm what many historians have suggested, that Solomon's Temple once stood at this exact location.

97

00:13:26,280 --> 00:13:38,280

In addition to the historical significance, the find intrigues treasure hunters, as it may indicate that other, much more valuable relics, may also lie buried at Temple Mount.

98

00:13:39,280 --> 00:13:51,280

Solomon's Temple was built in the 10th century BC by the great king of Israel, Solomon, and it was built initially to house the Ark of the Covenant.

99

00:13:54,280 --> 00:14:01,280

According to the Hebrew Bible, Solomon's Temple was constructed upon direct orders from God.

100

00:14:02,280 --> 00:14:17,280

Although it is best known for having housed the Ark of the Covenant and possibly even the Holy Grail, some treasure hunters believe another relic of profound historical significance may lie buried at the site.

101

00:14:18,280 --> 00:14:24,280

A relic that ancient astronaut theorists claim is of extraterrestrial origin.

102

00:14:27,280 --> 00:14:29,280

Solomon's Ring

103

00:14:30,280 --> 00:14:40,280

One of the lesser known great treasures of history is Solomon's Ring, and it is said that this ring had the name of God engraved upon it in a very secret and cryptic way.

104

00:14:43,280 --> 00:14:47,280

The ring was representative of the authority from beyond this world.

105

00:14:48,280 --> 00:14:59,280

The wielder of that ring would be able to compel any and all who recognized that source of extraterrestrial power to do whatever he wished.

106

00:15:01,280 --> 00:15:07,280

In the Islamic records, the Ring of Solomon was given to him by angels.

107

00:15:08,280 --> 00:15:15,280

It gave him magical powers. Through this ring, he could control the gen or genies.

108

00:15:18,280 --> 00:15:25,280

According to both the Koran and the Hebrew Talmud, Solomon's Ring also aided him in constructing the Temple itself.

109

00:15:28,280 --> 00:15:37,280

Somehow this ring gave him the power to control other worldly beings for one of a better term, demons, you can call them genies, or you can call them extraterrestrials.

110

00:15:38,280 --> 00:15:47,280

Solomon was in need of a higher technology in order to build his temple. He knew that he had to contact Ashmo D'ai.

111

00:15:49,280 --> 00:15:53,280

Later known by the Greek name Asmodeus, was the head of the Dale Mounts.

112

00:15:54,280 --> 00:16:11,280

With this ring, clearly none of human origins, Ashmo D'ai was hereby compelled and required to provide for Solomon whatever he needed to fulfill the building of the Temple of God.

113

00:16:12,280 --> 00:16:16,280

So Ashmo D'ai gave to Solomon something called the Shamir.

114

00:16:17,280 --> 00:16:24,280

Now the Shamir is described in traditional literature as this little worm you put on the stone and would cut it precisely.

115

00:16:25,280 --> 00:16:34,280

The Shamir was a quote unquote worm that could cut and drill through even the hardest of stones rather with ease.

116

00:16:35,280 --> 00:16:39,280

What if this Shamir was some type of laser cutting device?

117

00:16:39,280 --> 00:16:49,280

Is it possible that Solomon possessed an extraterrestrial device wielding incredible power?

118

00:16:50,280 --> 00:16:55,280

Power that gave its bearer control and command of other worldly beings.

119

00:16:56,280 --> 00:17:02,280

And if so, might this explain the mystery surrounding the disappearance of Solomon's ring?

120

00:17:02,280 --> 00:17:15,280

Solomon's ring, like many of the other temple treasures, like the Ark of the Covenant, were considered too hot to handle by average human beings.

121

00:17:16,280 --> 00:17:20,280

These things were concealed when the time was made proper.

122

00:17:21,280 --> 00:17:26,280

In 586 BC, the first Temple, Solomon's Temple, was destroyed.

123

00:17:27,280 --> 00:17:44,280

Said by Nipika Neza, the Babylonian King, one theory holds that the most fabulous treasure we can almost conceive of, gold, silver, the Ark of the Covenants, possibly Solomon's ring, are buried in a secret chamber beneath the Temple Mount.

124

00:17:45,280 --> 00:17:54,280

Could the ring of Solomon, like the Ark of the Covenant, have been hidden somewhere under Temple Mount for hundreds of years?

125

00:17:55,280 --> 00:17:59,280

Or has it been discovered and secreted away to another location?

126

00:18:01,280 --> 00:18:12,280

In 1867, British Army engineers mapped the vault under the Temple ruins and discovered pointed arches with keystones after the Gothic style.

127

00:18:13,280 --> 00:18:29,280

Archaeologists would later discover artifacts including a sword, a spur, a lance, and a small cross, all of which belong to the 12th century warrior monks known as the Knights Templar.

128

00:18:30,280 --> 00:18:39,280

Originally formed in 1118 AD to protect pilgrims traveling to Jerusalem, the Knights Templar were based at Temple Mount.

129

00:18:40,280 --> 00:18:49,280

During their time in Jerusalem, the group of warrior monks rose from relative obscurity to being the most powerful order of the Crusades.

130

00:18:51,280 --> 00:18:56,280

By 1139, the Pope makes the masterful to nobody except himself.

131

00:18:57,280 --> 00:19:14,280

When you look at ancient biblical histories, and I do treat them as histories, basically the Ark of the Covenant and Solomon's ring are the two most powerful weapons of the Bible, and the possession of either one of those would have made their order, the Knights Templar, virtually invincible.

132

00:19:16,280 --> 00:19:22,280

Did the Knights Templar actually find the lost Temple treasures, including Solomon's ring?

133

00:19:22,280 --> 00:19:34,280

If so, could they have discovered that the ring really did possess some other worldly power, and might that power have led to their untimely end?

134

00:19:38,280 --> 00:19:46,280

On a Friday the 13th in 1307, the Knights Templar were rounded up and burned the state for heresy.

135

00:19:47,280 --> 00:19:56,280

With their demise, did Solomon's ring and its other worldly powers vanish from the earth forever?

136

00:19:58,280 --> 00:20:04,280

Or might it have been spirited away and hidden with the rest of the reported Templar treasures?

137

00:20:06,280 --> 00:20:13,280

It is said that Solomon imprisoned the demon Asmodeus to protect the treasure in his temple.

138

00:20:14,280 --> 00:20:21,280

Later on in the Legends of the Knights Templar, we discover that the Templars are communicating with Asmodeus.

139

00:20:22,280 --> 00:20:33,280

And to this day, there is a church in the southwest of France near Renlis-de-Toe, known to be a Templar stronghold, which has a statue of Asmodeus in the front of the church.

140

00:20:34,280 --> 00:20:40,280

Was Solomon's ring more than just a myth?

141

00:20:41,280 --> 00:20:46,280

And will it someday be rediscovered with the rest of the Templar treasure?

142

00:20:47,280 --> 00:20:58,280

And is it possible that this ancient artifact, along with the treasure of the Comperse Groll, could reveal an alien connection in the distant past?

143

00:20:58,280 --> 00:21:12,280

Ancient astronaut theorists say yes and claim that yet another long lost treasure with a direct link to extraterrestrials may still lie hidden on the other side of the world.

144

00:21:12,280 --> 00:21:32,280

This town of less than 4,000 is the site of a treasure hunt that's been going on for over a century.

145

00:21:33,280 --> 00:21:43,280

And what many believe is hidden here, among the red rocks and canyons, is one of the greatest lost treasures in the world.

146

00:21:44,280 --> 00:21:54,280

Something's buried here that's a very valuable, that costs people their lives. People have died over this. This ain't no fun again. This is for real.

147

00:21:55,280 --> 00:22:03,280

If you've ever seen Indiana Jones or National Treasure, that's fictional, but the treasure that we're looking after is real.

148

00:22:03,280 --> 00:22:09,280

And that's what all of those movies were based off of is the truth in history of the ancients.

149

00:22:09,280 --> 00:22:15,280

Twenty years of investigation and research has us convinced that Montezuma's treasure is here in Utah.

150

00:22:16,280 --> 00:22:35,280

Montezuma's treasure? In the American Southwest? Why would the lost treasure of a culture that existed in Mexico hundreds of years ago lie hidden in Utah?

151

00:22:36,280 --> 00:22:46,280

According to legend, the ancestral birthplace of the Aztec people is, in fact, somewhere in this area of the United States.

152

00:22:46,280 --> 00:22:59,280

The Aztec mythology says that they came from a land called Aztlan. And this is a city that was apparently in what's now the American Southwest. Very, very advanced civilization.

153

00:23:00,280 --> 00:23:06,280

In the Aztec stories, their homeland of Aztlan was created through an extraordinary event.

154

00:23:07,280 --> 00:23:15,280

An event that, according to ancient astronaut theorists, depicts an encounter with extraterrestrial beings.

155

00:23:16,280 --> 00:23:33,280

The Aztec chronicler Geronimo de Mendieta recorded a very interesting creation myth in which a goddess threw a giant flint knife from the heavens into the seven caves of Chico Mostoc.

156

00:23:34,280 --> 00:23:47,280

Causing the birth of 1,600 gods. Now imagine for a moment that you know nothing about high tech. You'll use words with which to best describe what you see.

157

00:23:49,280 --> 00:23:54,280

And all of a sudden, you have these giant flint knives descending from the sky.

158

00:23:55,280 --> 00:24:12,280

So what are we really looking at here? Could it have been that the 1,600 settlers were in fact extraterrestrials who had crash landed on Earth and then brought their civilization to the indigenous people of that time?

159

00:24:13,280 --> 00:24:25,280

According to Aztec codices, their ancestors were instructed by the gods to migrate south to Mexico around 1064 AD.

160

00:24:26,280 --> 00:24:33,280

Over the course of the next 500 years, they grew to be the greatest empire in North America.

161

00:24:34,280 --> 00:24:49,280

But on June 29, 1520, King Montezuma II was killed during the Spanish conquest of Mexico and the Aztec empire came to an end.

162

00:24:52,280 --> 00:24:55,280

What happened in the aftermath is debated by historians.

163

00:24:56,280 --> 00:25:05,280

But according to some accounts, the Aztecs gathered as much of their valuables as they could carry and fled to the north.

164

00:25:07,280 --> 00:25:16,280

This treasure was spectacular. It was epic. It was hundreds of pounds of gold and silver and priceless objects.

165

00:25:17,280 --> 00:25:20,280

A golden disc the size of a cartwheel that was shaped like the sun.

166

00:25:21,280 --> 00:25:31,280

They needed to get this treasure out to a safe place. And this is the story behind the Aztec exodus, north in what we now know as the American Southwest.

167

00:25:32,280 --> 00:25:42,280

The Aztecs are said to have carried tens of thousands of pounds of gold, silver and priceless relics north in the direction of their ancestral homeland.

168

00:25:43,280 --> 00:25:56,280

But why? Why would the Aztecs travel nearly 2,000 miles, putting both their lives and their treasure at risk, to reach a homeland that they had left over 500 years earlier?

169

00:25:57,280 --> 00:26:04,280

According to their own stories, the Aztecs' vast treasure was a gift for their most important god.

170

00:26:05,280 --> 00:26:14,280

This wealth of the Aztecs was being held in safe keeping for their god, Quetzalcoatl. So it was a sacred treasure.

171

00:26:15,280 --> 00:26:23,280

Quetzalcoatl is said to have brought understandings of astronomy and astrology. He is really the father of the Aztec empire.

172

00:26:24,280 --> 00:26:32,280

But we have to ask ourselves, is it possible that Quetzalcoatl was an historical figure and not just a mythological being?

173

00:26:34,280 --> 00:26:48,280

Quetzalcoatl is represented as a feathered serpent, but also he is represented as a big being with the helmet, and he is sitting on a half-open sort of egg.

174

00:26:49,280 --> 00:26:52,280

Quetzalcoatl was definitely an extraterrestrial.

175

00:26:53,280 --> 00:27:10,280

If Quetzalcoatl really was an alien being, as ancient astronaut theorists suggest, could this be further proof of Zachariah Sitchin's theory that gold is an important commodity to extraterrestrial space travelers?

176

00:27:11,280 --> 00:27:21,280

And might the Aztecs have brought their treasure back to their ancestral homeland in the hopes that Quetzalcoatl would exact vengeance on their enemies?

177

00:27:23,280 --> 00:27:31,280

The purpose of this treasure was to preserve it as tribute for Quetzalcoatl when he returned and help them, hopefully, eventually vanquish their enemies.

178

00:27:32,280 --> 00:27:43,280

What's really interesting is that as you get into the American Southwest, what you find is that there are Aztec writings, Aztec hieroglyphs and petroglyphs on rocks even as far north as Utah.

179

00:27:44,280 --> 00:27:51,280

Perhaps somewhere they actually do have these treasures still stored away, still waiting for the day when Quetzalcoatl returns.

180

00:27:53,280 --> 00:28:06,280

In the 1950s, four stone tablets known as the Peralta Stones were discovered near the Superstition mountains in Arizona.

181

00:28:07,280 --> 00:28:26,280

Treasure hunters Paul and Dan Dilman are convinced that the symbols carved on these stones, along with a fifth tablet they discovered in 1982, will one day lead them to the legendary gold of Montezuma, hidden here in the mountains and canyons of Utah.

182

00:28:27,280 --> 00:28:28,280

Check this out, look at the markings.

183

00:28:29,280 --> 00:28:30,280

It's amazing, man.

184

00:28:31,280 --> 00:28:33,280

You got an Indian headdress, you got the sun symbol.

185

00:28:34,280 --> 00:28:35,280

Sun symbol just like the tab right here.

186

00:28:36,280 --> 00:28:41,280

You got a tape, wavy lines in the arch, the T, everything's on here.

187

00:28:42,280 --> 00:28:43,280

That's just a tablet, perfect.

188

00:28:44,280 --> 00:28:45,280

Yeah.

189

00:28:46,280 --> 00:28:57,280

But if the Dilmans ever do uncover the entrance to the Aztec homeland of Aslan and the hiding place of Montezuma's gold, might they find more than they bargained for?

190

00:28:58,280 --> 00:29:10,280

If Azlan was founded by an extraterrestrial god, as treasure hunters get closer and closer to perhaps finding the location of Azlan, do they really want to break that seal?

191

00:29:11,280 --> 00:29:17,280

Because no one really knows what's behind it and the consequences of such a find might actually be to the human race.

192

00:29:17,280 --> 00:29:24,280

Is Kanab, Utah really the hiding place of the lost Aztec treasure?

193

00:29:25,280 --> 00:29:33,280

And if so, when it is found, might it reveal evidence of alien contact in the distant past?

194

00:29:33,280 --> 00:29:49,280

Ancient astronaut theorists say yes and claim that more evidence of a connection between the world's greatest lost treasures and extraterrestrial intervention can be found in Greece.

195

00:30:03,280 --> 00:30:10,280

The ancient time, known as the Sanctuary of Apollo, was established sometime before 1200 BC.

196

00:30:13,280 --> 00:30:21,280

It was here that the legendary Oracle of Delphi, a succession of priestesses of Apollo, prophesied for the people of Greece.

197

00:30:22,280 --> 00:30:39,280

According to the Greek author Plutarch, the Oracle would enter a small chamber in the temple of Apollo, take her seat on a tripod, and inhale sweet smelling vapors, inducing a trance-like state from which he could communicate with the gods.

198

00:30:40,280 --> 00:30:45,280

It was the seat of Apollo's Oracle, so he was the one who provided prophecies there.

199

00:30:46,280 --> 00:30:51,280

The priestess is there just as a conduit for it, and in fact she has no power of her own.

200

00:30:54,280 --> 00:30:57,280

So Apollo himself is not going to show up to actually deliver the oracles.

201

00:30:58,280 --> 00:31:00,280

He's on Mount Olympus, he's with the other Olympian gods.

202

00:31:01,280 --> 00:31:04,280

His line is open for questions, but he's not going to show up himself.

203

00:31:05,280 --> 00:31:16,280

Lots of people came to visit looking for answers to questions that they had, and these are people not only in mythology, but in fact actual people in history coming to visit.

204

00:31:17,280 --> 00:31:23,280

If you go to Delphi today, you can see inscriptions of the answers that were given to questions.

205

00:31:23,280 --> 00:31:43,280

Although the oracle made her final prophecy over 1600 years ago, for many the sanctuary of Apollo remains an important site because of the relics and offerings that may still lie there to this day.

206

00:31:44,280 --> 00:31:54,280

But some believe that among these riches lies a much more profound treasure, an Amphelostone.

207

00:31:55,280 --> 00:32:09,280

In Greek, the word Amphelos literally translates to navel, and while there were numerous Amphelostones throughout Greece, the ache-shaped Amphelostone at Delphi was the most significant.

208

00:32:10,280 --> 00:32:15,280

This navel really just represents sort of the center of the earth.

209

00:32:16,280 --> 00:32:23,280

Now not the center of what we think of as the earth, but the center as the most important place for the Olympian gods.

210

00:32:24,280 --> 00:32:32,280

One story is that Zeus sent some birds flying in different directions, and where they met was the Amphelost, that was the navel of the earth.

211

00:32:33,280 --> 00:32:35,280

This is where this oracle would be established.

212

00:32:40,280 --> 00:32:51,280

But in addition to marking the center of the earth for the Olympians, in some ancient Greek accounts, the Amphelostone was also the source of her prognostications.

213

00:32:54,280 --> 00:32:57,280

Sometimes the Amphelostone exerts some power.

214

00:32:59,280 --> 00:33:08,280

Sometimes it's just a vessel for gaseous fumes that get you high and put you in the right mindset to talk to the gods.

215

00:33:09,280 --> 00:33:11,280

Sometimes it's just a stone.

216

00:33:14,280 --> 00:33:31,280

If true communication took place between our world and extraterrestrials, which the ancient Greek gods were, then I prefer to think that some type of transmitter was used and only the oracle knew how to operate it.

217

00:33:32,280 --> 00:33:33,280

Why?

218

00:33:33,280 --> 00:33:37,280

Because she was the chosen one.

219

00:33:37,280 --> 00:33:47,280

It may be that the Amphelostone is a depiction of a working technological device that was not made of stone at all.

220

00:33:54,280 --> 00:34:01,280

Could the Amphelosts really have been a technological device that enabled humans to communicate with extraterrestrials?

221

00:34:02,280 --> 00:34:13,280

Ancient astronaut theorists say yes, and as proof, they pointed the stories of what happened to those who dared to go after the treasure.

222

00:34:14,280 --> 00:34:33,280

According to the 2nd century Greek author, Pausanias, in 279 BC, the Celtic king Brennis led an attack on Greece with a force of more than 200,000 men, intent on claiming the treasure of Delphi.

223

00:34:33,280 --> 00:34:45,280

And it's said that the Celts were coming to Delphi in order to steal the treasure, but as they approach and they get close to the oracle, skies open up and the gods intervene.

224

00:34:47,280 --> 00:34:56,280

Apollo caused the ground to shake, fierce storms, landslides, finally a terrible frost.

225

00:34:57,280 --> 00:35:00,280

Legends grew that the great treasure was protected.

226

00:35:04,280 --> 00:35:16,280

After over 1500 years of offering divine guidance, the Temple of Apollo was shut down by Roman Emperor Theodosius in 395 AD.

227

00:35:17,280 --> 00:35:23,280

And ever since, the fate of the Delphi treasure and the Amphelosts has remained a mystery.

228

00:35:24,280 --> 00:35:37,280

This was probably one of the most important centers for Greek religion in the ancient world, and so of course it has got a big old bullseye on it once Christianity starts taking off.

229

00:35:38,280 --> 00:35:47,280

And the Amphelost stone, which, if you believe that was invested with the power that made the oracle work, they would naturally get rid of that.

230

00:35:48,280 --> 00:35:58,280

Curiously, a Roman recreation of the Amphelost stone carved with an intricate net-like pattern remains in the Museum of Delphi to this day.

231

00:36:00,280 --> 00:36:09,280

And there are those that believe that the original was not in fact destroyed, but confiscated and hidden away at the Vatican.

232

00:36:10,280 --> 00:36:16,280

But others believe the Amphelosts still lies in Greece.

233

00:36:17,280 --> 00:36:30,280

And in 1936, the German government funded an excavation of Olympia and Delphi headed by archaeologist Hans Schleif, a member of the famous Nazi on a Narbe society.

234

00:36:31,280 --> 00:36:36,280

The Nazi on a Narbe society was basically the SS paranormal division.

235

00:36:37,280 --> 00:36:50,280

Apparently was the inspiration for films like Raiders of the Lost Ark, and the purpose of it was to find relics and evidence and possibly weapons from these very advanced Aryan gods that the Nazis

believed they were directly descended from.

236

00:36:51,280 --> 00:36:58,280

The on a Narbe expeditions in Delphi were looking for something mysterious, something hidden.

237

00:36:58,280 --> 00:37:02,280

Was it just a treasure of gold and jewels or was it something more?

238

00:37:03,280 --> 00:37:11,280

It may not have been a treasure hunt at all. It may have been an attempt to establish direct communication between the Nazis and the gods.

239

00:37:12,280 --> 00:37:23,280

If the Amphelostome was in fact a piece of ancient alien technology, then their ability to have obtained that could have actually changed the outcome of the war.

240

00:37:27,280 --> 00:37:36,280

If the Amphelostome is indeed a direct line to advance beings from other worlds, could its power be used for destructive ends?

241

00:37:37,280 --> 00:37:43,280

And if so, is that why it remains hidden to this day?

242

00:37:44,280 --> 00:37:56,280

Ancient astronaut theorists say yes and suggest there is yet another extraterrestrial treasure with even more devastating powers yet to be found.

243

00:37:57,280 --> 00:38:03,280

Kerala, India 2011

244

00:38:05,280 --> 00:38:12,280

Police officers with high powered rifles stand guard at the entrance to the Sri Padmanabashwamy temple.

245

00:38:12,280 --> 00:38:18,280

A sacred Vedic structure dedicated to the Hindu god Vishnu.

246

00:38:19,280 --> 00:38:28,280

Under orders from the India Supreme Court, appointees unlock five secret vaults hidden beneath the temple that have been sealed for centuries.

247

00:38:30,280 --> 00:38:37,280

And door after door they unearth giant caches of relics. Together, valued at nearly \$22 billion.

248

00:38:40,280 --> 00:38:45,280

But when they reach the final chamber, chamber B, it cannot be opened.

249

00:38:46,280 --> 00:38:52,280

It has three doors on it. First one is kind of a grating metal door.

250

00:38:52,280 --> 00:39:00,280

The second has a heavy wood door. Finally, there's a strong iron door that is shut. It's stuck.

251

00:39:00,280 --> 00:39:06,280

Among the warnings in chamber B are depictions of cobras, a terrifying image.

252

00:39:06,280 --> 00:39:11,280

Suggesting bad things will happen if you open this.

253

00:39:12,280 --> 00:39:20,280

And then the last door has no locks, it has no any latches. According to legend, it was sealed with a mantra.

254

00:39:20,280 --> 00:39:27,280

It's called Aastanaga Bandana Mantra and no one knows what that mantra is.

255

00:39:31,280 --> 00:39:40,280

There seems to be a bizarre curse around whatever is in this room. Anyone who tries to get into the room has all sorts of bad things.

256

00:39:41,280 --> 00:39:46,280

It's not just luck or even illness or fatalities.

257

00:39:48,280 --> 00:39:59,280

On July 17th, 2011, just three weeks after the first five chambers were accessed, the person who petitioned the court to force the chambers opened,

258

00:39:59,280 --> 00:40:04,280

T.P. Sundara Rajan came down with a fever and died.

259

00:40:04,280 --> 00:40:16,280

The following month, a group of Indian diviners issued a dire warning that opening the final chamber would have deadly consequences for the people involved and for the land.

260

00:40:16,280 --> 00:40:24,280

The locals started circulating the rumors that any attempt made by a man would cause tremendous harm.

261

00:40:24,280 --> 00:40:31,280

We do not know what is in the chamber and there has been rumors that it contains deadly weapons.

262

00:40:32,280 --> 00:40:44,280

But what is it that lies behind the door of Chamber B? Could it be simply monetary treasure? Or is it something more profound and dangerous?

263

00:40:44,280 --> 00:40:56,280

Indian texts such as the Mahabharata describe gods wielding ancient divine weapons and waging epic battles in the sky.

264

00:40:56,280 --> 00:41:07,280

In the Mahabharata, there is a fierce battle that reads like modern day science fiction with reference to unknown weapons and a single projectile

265

00:41:07,280 --> 00:41:19,280

charged with all the power in the universe, an iron thunderbolt, a gigantic messenger of death

which reduced everything to ashes.

266

00:41:20,280 --> 00:41:31,280

Is it possible that Chamber B is the hiding place for the kind of deadly technology described in the Vedic texts?

267

00:41:31,280 --> 00:41:37,280

What's behind it is something special and dangerous.

268

00:41:37,280 --> 00:41:48,280

It's possible that what's inside of this unopened chamber is some kind of extraterrestrial technology that could change the world.

269

00:41:49,280 --> 00:42:01,280

You're talking about extraterrestrial technology which is not meant to be found, it is not meant to be understood and it is not meant to be utilized by man.

270

00:42:04,280 --> 00:42:14,280

Could Vishnu's treasures sealed behind the iron-clad door of Chamber B really be an ancient link to some devastating alien technology?

271

00:42:15,280 --> 00:42:33,280

And if so, might this mysterious treasure like other so-called ancient lost treasures in Egypt, Greece, Jerusalem, or the American Southwest be far more valuable or perhaps dangerous than mere monetary riches?

272

00:42:34,280 --> 00:42:43,280

The buried treasure may not be the reason for our yearning or our searching. It might be the meaning of life, it might be the good life itself.

273

00:42:43,280 --> 00:42:53,280

Life is so full of mysteries, when you have to open your eyes, there's so much to uncover here, so much treasure and it's not just gold and silver, it's knowledge.

274

00:42:53,280 --> 00:43:07,280

Man has always been fascinated with ancient treasures and discovering these treasures, the gold, the silver, the jewels, but in other cases it can be technology, the extraterrestrial gods themselves.

275
