

1

00:00:00,269 --> 00:00:06,273

Roswell was probably the single most well-known UFO event in human history.

2

00:00:06,273 --> 00:00:11,276

What people don't realize is this was not the first crash.

3

00:00:11,276 --> 00:00:19,281

World governments have been collecting and trying to reverse engineer alien technology for decades.

4

00:00:19,281 --> 00:00:24,284

You have to wonder if we've been purposely given this technology.

5

00:00:24,284 --> 00:00:34,290

Due to retrieving extraterrestrial technology, we have reached a level that put us on our path to the stars.

6

00:00:34,290 --> 00:00:44,297

Since the dawn of civilization, mankind has credited its origins to gods and other visitors from the stars.

7

00:00:44,297 --> 00:00:47,299

What if it were true?

8

00:00:47,299 --> 00:00:52,302

Did extraterrestrial beings really help to shape our history?

9

00:00:52,302 --> 00:00:59,306

And if so, could more evidence be found by looking beyond Roswell?

10

00:01:22,321 --> 00:01:38,331

Washington DC, April 2011

11

00:01:38,331 --> 00:01:44,335

The FBI releases thousands of files as part of its online FBI vault.

12

00:01:44,335 --> 00:01:51,339

One particular file draws the attention of the media and independent researchers.

13

00:01:51,339 --> 00:01:59,344

The memo, dated March 22, 1950, is a briefing to FBI Director J. Edgar Hoover

14

00:01:59,344 --> 00:02:08,350

regarding informed information about three flying saucers that were recovered in New Mexico.

15

00:02:08,350 --> 00:02:14,354

Investigators immediately connect the memo to the infamous Roswell incident,

16

00:02:14,354 --> 00:02:23,359

a purported UFO crash that many people believe was covered up by the military in 1947.

17

00:02:23,359 --> 00:02:31,364

But this document is just the latest in a series of government files that have been released in recent years,

18

00:02:31,364 --> 00:02:38,369

suggesting there may be more to the Roswell crash than the public was told.

19

00:02:38,369 --> 00:02:47,375

As an investigative reporter, I think what I am amazed by is how many leaked documents from the 1940s

20

00:02:47,375 --> 00:02:58,382

have actually come out into the world and lay out details about what really happened at Roswell.

21

00:02:58,382 --> 00:03:07,387

On July 4, a rancher named Mac Brazel finds all kinds of strange silver debris.

22

00:03:07,387 --> 00:03:11,390

He knows he doesn't understand what he's walking through.

23

00:03:11,390 --> 00:03:19,395

He decides to go into Roswell and tell the sheriff something has crashed on my ranch.

24

00:03:19,395 --> 00:03:25,399

Intel, coming out of Roswell Army Airfield, get assigned to go to the debris field.

25

00:03:25,399 --> 00:03:33,404

And these men are told that they are to pick up every single thing that is in the debris field on the Mac Brazel ranch.

26

00:03:33,404 --> 00:03:36,406

Everything is to be picked up.

27

00:03:36,406 --> 00:03:43,410

On July 8, 1947, the headline on the front page of the Roswell Daily Record

28

00:03:43,410 --> 00:03:49,414

reports that the military had retrieved a flying saucer.

29

00:03:49,414 --> 00:03:54,417

But the following day, the official story is suddenly changed

30

00:03:54,417 --> 00:04:00,421

to suggest it was nothing more than a failed weather balloon.

31

00:04:00,421 --> 00:04:04,423

Roswell was the home of the 509th bomb group.

32

00:04:04,423 --> 00:04:08,426

This was the only atomic bomb capable squadron anywhere in the world.

33

00:04:08,426 --> 00:04:12,428

These people were the best of the best.

34

00:04:12,428 --> 00:04:22,435

The idea that intelligence personnel at this base would mistake a weather balloon for something exotic is preposterous.

35

00:04:22,435 --> 00:04:29,439

So that, arguably, is the start of the UFO cover-up.

36

00:04:29,439 --> 00:04:33,442

Weather balloons swamp gas, meteorite, it doesn't matter.

37

00:04:33,442 --> 00:04:37,444

It's always something else but a UFO.

38

00:04:37,444 --> 00:04:40,446

The Roswell crash was covered up.

39

00:04:40,446 --> 00:04:51,453

The fact that they retracted the story of having captured a flying saucer, in my opinion, it was quick PR damage control.

40

00:04:51,453 --> 00:04:54,455

The world was told, nope, just a weather balloon.

41

00:04:54,455 --> 00:05:02,460

And for more than 30 years, that's where it was left, until witnesses started to surface,

42

00:05:02,460 --> 00:05:05,462

saying no, it was actually an extraterrestrial craft.

43

00:05:05,462 --> 00:05:13,467

And people saw alien bodies.

44

00:05:13,467 --> 00:05:19,471

In April of 2014, ancient astronaut theorist, Georgiosuclos,

45

00:05:19,471 --> 00:05:26,475

traveled to Walker Air Force Base in Roswell, New Mexico to meet with the city's mayor, Del Journey,

46

00:05:26,475 --> 00:05:40,484

and to get a rare look at the hangar where the Roswell wreckage and extraterrestrial bodies were allegedly first taken.

47

00:05:40,484 --> 00:05:42,485

Wow.

48

00:05:42,485 --> 00:05:46,488

This is huge, what do you think?

49

00:05:46,488 --> 00:05:49,490

Man, I have goosebumps right now. I mean, we're walking on history.

50

00:05:49,490 --> 00:05:51,491

It's amazing, isn't it?

51

00:05:51,491 --> 00:05:53,492

Are you familiar with where this body is?

52

00:05:53,492 --> 00:05:57,495

Well, you know, the information that I have says that it's probably right over here in the corner.

53

00:05:57,495 --> 00:06:03,498

They took them over there, did an examination of the bodies.

54

00:06:03,498 --> 00:06:05,500

So this is where it was?

55

00:06:05,500 --> 00:06:09,502

This is it. Yeah, come on in.

56

00:06:10,503 --> 00:06:17,507

They had the debris out here in the hangar area, and they bring the bodies inside this room.

57

00:06:17,507 --> 00:06:21,510

I really don't know what to say, because I mean, if this was it, you're standing where...

58

00:06:21,510 --> 00:06:22,510

In it, yeah.

59

00:06:22,510 --> 00:06:29,515

Where extraterrestrial beings might have been.

60

00:06:29,515 --> 00:06:32,517

Where did the debris go? Where did it end up?

61

00:06:32,517 --> 00:06:34,518

Well, it ended up with the government, of course.

62

00:06:34,518 --> 00:06:38,521

My understanding is it took the bodies to Wright-Patterson Air Force Base.

63

00:06:38,521 --> 00:06:47,526

It certainly probably took the debris as well, and have it well preserved in a military installation someplace.

64

00:06:47,526 --> 00:06:58,533

Roswell researchers suggest a government-sanctioned bond of secrecy has prevented witnesses of the crash and retrieval from coming forward publicly.

65

00:06:58,533 --> 00:07:07,539

But many did choose to come forward later in life, including the first military officer to arrive at the Roswell crash site,

66

00:07:07,539 --> 00:07:10,541

Major Jesse Marcell.

67

00:07:10,541 --> 00:07:17,545

According to his grandson, Marcell privately shared many details of his experience with the family.

68

00:07:17,545 --> 00:07:22,548

My grandfather, Major Jesse Marcell, he was the head of intelligence for the 509th bombing group.

69

00:07:22,548 --> 00:07:35,557

As a kid, basically around the dinner table we talked about Roswell, and through conversations, we learned that my grandfather is the lead investigator into what has become known as the Roswell incident.

70

00:07:35,557 --> 00:07:40,560

And when he was looking at debris, he couldn't make heads or tails or any sense out of what he was looking at.

71

00:07:40,560 --> 00:07:44,562

He had gathered some of the debris and decided to take it home with him.

72

00:07:44,562 --> 00:07:49,565

It kind of came to this idea that, you know, whatever this stuff is, it's very significant, it's going to change humanity.

73

00:07:49,565 --> 00:07:54,569

And I want my family to be a part of it. This is very important.

74

00:07:54,569 --> 00:08:04,575

According to the family's story, Major Marcell came home after his first visit to the site and laid the debris out on the floor of their kitchen.

75

00:08:04,575 --> 00:08:09,578

Some of the material was a strange, thin metal, similar to foil.

76

00:08:09,578 --> 00:08:15,582

Except when crumpled up into a ball, it would bounce back to its flawless state.

77

00:08:15,582 --> 00:08:25,588

Marcell also claims the metal was not the same material featured in newspaper photographs being held by his grandfather.

78

00:08:25,588 --> 00:08:31,592

There's a pretty famous picture of him holding a piece of debris, which is trying to piece of foil, basically.

79

00:08:31,592 --> 00:08:35,595

He knows whether balloon material begrudgingly went along with the story, held it.

80

00:08:35,595 --> 00:08:39,597

And if you take a look at that, you'll notice that he's not looking at the camera.

81

00:08:39,597 --> 00:08:42,599

He's looking up somebody barking at him orders.

82

00:08:42,599 --> 00:08:46,601

He fell in line begrudgingly and did what he was supposed to do.

83

00:08:46,601 --> 00:08:53,606

Is it possible that an alien craft really did crash in Roswell?

84

00:08:53,606 --> 00:09:00,610

And if so, might there be a larger conspiracy that goes beyond New Mexico?

85

00:09:00,610 --> 00:09:12,618

Ancient astronaut theorists say yes, but they also believe that Roswell was not the first or only extraterrestrial crash on Earth.

86

00:09:18,622 --> 00:09:25,626

Cape Gerardo, Missouri, April 12, 1941, 9.30 p.m.

87

00:09:26,627 --> 00:09:39,635

Reverend William Hoffman gets a call from local police informing him that there has been a crash, and he is needed at the site to offer spiritual comfort to the victims.

88

00:09:39,635 --> 00:09:47,640

He probably thought it was going to be an automobile crash, but to his surprise when he arrived,

there is a disc-shaped craft.

89

00:09:48,641 --> 00:09:56,646

And there are three alien-looking bodies on the ground, tiny, big heads, big eyes, small mouths.

90

00:09:56,646 --> 00:10:08,653

The military was there, the FBI was there, and he was astonished to find that this was a crash of some kind of UFO, and that the being was an extraterrestrial.

91

00:10:08,653 --> 00:10:16,658

He had the chance to look inside the disc and found that there were hieroglyphic type inscriptions on the walls inside.

92

00:10:16,658 --> 00:10:22,662

The government told him, you're not to say a word about this to anyone, this is totally classified.

93

00:10:24,663 --> 00:10:35,670

Hoffman's account would remain a secret until after his passing, when his wife, on her deathbed in 1984, divulged the details to the rest of the family.

94

00:10:36,671 --> 00:10:45,677

Witnesses have since come forward to corroborate the account, including the Sheriff's brother and members of the fire department.

95

00:10:45,677 --> 00:10:55,683

Further details about the military response have since been leaked, and the incident has become known as the bombshell before Roswell.

96

00:10:56,684 --> 00:11:13,694

The story is that a military unit from Sexton, Missouri, only about 30 miles away from the crash site, comes in with orders to gather up these bodies, gather up this disc, and fly it to Washington, D.C.

97

00:11:14,695 --> 00:11:29,704

So Cape Gerardo, Missouri, from 1941 appears to be where our retrieval as a government of things that were described as from another world begin.

98

00:11:30,705 --> 00:11:37,710

Cape Gerardo crash was a preparation for the military's response to the Roswell crash.

99

00:11:38,710 --> 00:11:47,716

And the military learned an awful lot about how to handle these events and how to make sure that they put a blanket of secrecy over future crash events.

100

00:11:50,718 --> 00:12:01,725

While the Roswell crash is now infamous, what is lesser known is that similar incidents were reported all across America around the same time.

101

00:12:02,725 --> 00:12:16,734

These incidents include crashes in San Antonio, New Mexico, Twin Falls, Idaho, Hebgen Lake, Montana, Braxton County, West Virginia, and many others.

102

00:12:18,735 --> 00:12:22,738

But why were so many mysterious crashes suddenly being reported?

103

00:12:23,739 --> 00:12:40,749

Many believe the defining event of the 20th century was World War II. It was a conflict that would involve nearly every nation on Earth and cost the lives of over 60 million people.

104

00:12:41,750 --> 00:12:53,758

The war gave rise to weaponry far more advanced and deadly than modern man had ever known, including the atomic bomb.

105

00:12:56,759 --> 00:13:02,763

It also gave rise to a tremendous surge in UFO reports. But why?

106

00:13:03,764 --> 00:13:12,770

A large portion of these alleged UFO sightings have occurred in the decades during World War II and immediately afterwards.

107

00:13:14,771 --> 00:13:23,777

And part of the theory there is that because the United States had developed atomic weapons and used them on Japan,

108

00:13:24,777 --> 00:13:34,783

and then continued to test them in Nevada, New Mexico, and other areas, the extraterrestrials themselves were very concerned about this.

109

00:13:35,784 --> 00:13:51,794

Some have suggested that the moment that we developed nuclear capabilities, that this somehow signaled the extraterrestrials, that we have reached a level of technology because one thing can be said for sure,

110

00:13:52,795 --> 00:14:02,801

that worldwide the eyewitness accounts or reports for UFO sightings have gone up ever since the deployment of our first hydrogen bomb.

111

00:14:03,802 --> 00:14:10,806

So is it possible that we, by doing that, signaled extraterrestrial life out there?

112

00:14:11,807 --> 00:14:23,814

You have to wonder what was going on because various UFO crashes were allegedly happening throughout North America in the late 40s and 50s and 60s.

113

00:14:24,815 --> 00:14:33,821

Did the dawning of the nuclear age really usher in a new era of extraterrestrial encounters?

114

00:14:34,821 --> 00:14:42,826

And if the U.S. military was actively retrieving UFO wreckage, just where were they taking it?

115

00:14:42,826 --> 00:15:01,838

Groom Lake, Nevada, just 900 miles from Roswell, New Mexico. Perhaps the most well-known site rumored to be hiding alien debris is the secret engineering base known as Area 51.

116

00:15:02,839 --> 00:15:13,846

After years of denying its existence, on August 16, 2013, the United States government officially acknowledged the base.

117

00:15:14,847 --> 00:15:24,853

It was one of the single most sensitive hidden military bases. Everybody who worked there was sworn to secrecy to death.

118

00:15:25,854 --> 00:15:36,861

And it was not until 2013 that there was a confirmation that Area 51 is real and had been real for a very long time.

119

00:15:37,861 --> 00:15:52,871

Believed by many to hold the wreckage from the infamous Roswell crash of 1947, the U.S. government still claims the secret engineering base has never housed any extraterrestrial remains.

120

00:15:53,871 --> 00:16:06,880

The announcement seems to have been tossing the public a bone, that we indeed have an area of advanced research and development in what we refer to as Area 51.

121

00:16:06,880 --> 00:16:14,885

Who knows what's really going on there? Just because they said this, that or the other thing doesn't mean it's true.

122

00:16:14,885 --> 00:16:20,888

Would anybody trust the CIA to tell the truth, the whole truth and nothing but the truth?

123

00:16:21,889 --> 00:16:30,895

When you listen to people who have left Area 51, they claim that it's got extraterrestrial craft, that we have tested in reverse engineer.

124

00:16:30,895 --> 00:16:38,900

There's no question in my mind that Area 51 has been a very secretive government base for all kinds of things.

125

00:16:39,900 --> 00:16:50,907

Is it possible that Area 51 actually houses otherworldly artifacts? Artifacts that were retrieved from extraterrestrial crashes?

126

00:16:50,907 --> 00:17:05,917

Ancient astronaut theorists say yes and suggest that even more evidence can be found by examining some of mankind's latest and most extraordinary technological advancements.

127

00:17:06,917 --> 00:17:09,919

July 1997

128

00:17:09,919 --> 00:17:20,926

On the 50th anniversary of the Roswell incident, retired United States Colonel Phillip J. Corso publishes his book *The Day After Roswell*.

129

00:17:20,926 --> 00:17:34,935

In it, he not only confirms that an extraterrestrial craft crashed in Roswell, but also that the

wreckage had been secretly collected and stashed by the United States military.

130

00:17:34,935 --> 00:17:46,943

Phillip J. Corso was a Lieutenant Colonel in the United States Army who had a long and actually very successful career in the military, was highly decorated.

131

00:17:46,943 --> 00:17:55,948

And in the day after Roswell, he made an incredible claim that he worked at the Foreign Technology Division within the Army Research and Development

132

00:17:56,949 --> 00:18:03,954

and had key access to ET technology from the Roswell crash.

133

00:18:04,954 --> 00:18:16,962

According to Colonel Corso's account, military scientists and engineers tried for years to make sense of the debris collected at Roswell, but were unsuccessful.

134

00:18:17,962 --> 00:18:29,970

Colonel Phillip Corso claimed that part of his duties on the Army's Foreign Technology desk was to take extraterrestrial technology,

135

00:18:29,970 --> 00:18:38,976

recovered from the crash at Roswell, and without disclosing the source of this, in other words, not letting on that this was extraterrestrial,

136

00:18:38,976 --> 00:18:46,981

was to get this into the hands of scientists with some of the big U.S. corporations.

137

00:18:49,983 --> 00:19:01,990

In his book, Colonel Corso stated that he seated the alien materials and information to high-tech companies under the guise that it was recently acquired foreign technology.

138

00:19:02,991 --> 00:19:11,996

What Corso described in his book was that they would identify corporations that had already made breakthroughs in certain areas.

139

00:19:11,996 --> 00:19:23,003

And so he was giving them kind of strategic inspiration in what direction they should operate in order to be able to successfully develop those advanced technologies.

140

00:19:24,004 --> 00:19:31,008

Only after the Roswell crash did companies like IBM all of a sudden flourish.

141

00:19:31,008 --> 00:19:43,016

And the reason why IBM flourished is because they just happened to be at the right place at the right time that were given the assignment to reverse engineer some of these things.

142

00:19:44,017 --> 00:19:55,024

According to Colonel Corso's account, night vision was engineered from the lens on an eye of an extraterrestrial pilot.

143

00:19:55,024 --> 00:20:01,027

Kevlar came from studying alien spacesuits.

144

00:20:01,027 --> 00:20:08,032

And integrated circuits were developed from their spacecraft's control panel.

145

00:20:14,036 --> 00:20:24,042

Isn't it interesting that after the 1947 crash in Roswell, New Mexico, our technology took off just like a rocket.

146

00:20:26,043 --> 00:20:32,047

Silicon chips in all kinds of other technology, laser technology, fiber optics.

147

00:20:32,047 --> 00:20:39,051

All of this stuff came right after 1947 when Roswell crashed.

148

00:20:40,052 --> 00:20:50,058

The day after Roswell was the real thing, I recognized the names of the generals in the airfields that he was talking about from my days in defense.

149

00:20:50,058 --> 00:20:53,060

So this was not new territory for me.

150

00:20:53,060 --> 00:20:55,062

And I spoke to a general.

151

00:20:55,062 --> 00:20:58,063

He said every word is true and more.

152

00:20:59,064 --> 00:21:10,071

Colonel Corso would also claim that the reverse engineering of various downed alien crafts was not limited to the United States, but was happening worldwide.

153

00:21:10,071 --> 00:21:18,076

And the funding for the research and development of this extraterrestrial technology required an

elaborate ruse.

154

00:21:18,076 --> 00:21:25,081

A ruse that would also function as a distraction from increased UFO sightings.

155

00:21:25,081 --> 00:21:27,082

The Cold War.

156

00:21:27,082 --> 00:21:31,084

The Cold War was never really a war.

157

00:21:31,084 --> 00:21:43,092

It was an agreement between Russia and the United States that we're going to give the public something else to worry about atomic bombs falling out of their heads, rather to think about UFOs and flying saucers.

158

00:21:45,093 --> 00:21:54,099

During the Cold War, when Russia was supposedly our enemy, we had a joint military base at the South Pole with the Russians.

159

00:21:54,099 --> 00:21:58,101

And we had a joint space base with the Russians too.

160

00:21:58,101 --> 00:22:02,104

So you have to ask what was going on here.

161

00:22:02,104 --> 00:22:12,110

I believe governments all across this planet have been hiding the knowledge of extraterrestrial visitations and crashes on this planet.

162

00:22:12,110 --> 00:22:14,112

They're not telling us the truth.

163

00:22:14,112 --> 00:22:16,113

We've had crashes in Russia.

164

00:22:16,113 --> 00:22:18,114

We've had crashes in Roswell, New Mexico.

165

00:22:18,114 --> 00:22:21,116

We've had a crash in Cape Girardeau, Missouri.

166

00:22:22,117 --> 00:22:25,118

It's happening all over this planet.

167

00:22:25,118 --> 00:22:27,120

The big question is why.

168

00:22:30,122 --> 00:22:38,127

Is it possible that the retrieval and reverse engineering of downed alien spacecraft goes far beyond Roswell?

169

00:22:38,127 --> 00:22:49,134

And might the Cold War and space race have provided a cover to justify innovations derived from extraterrestrial technology?

170

00:22:49,134 --> 00:23:03,142

Ancient astronaut theorists say yes and suggest that further evidence can be found by examining what some researchers refer to as the Russian Roswell.

171

00:23:19,153 --> 00:23:27,158

Military rocketry research and development base, Kapustin Yar. Erratic blips appear on the radar screens.

172

00:23:29,159 --> 00:23:37,164

At the same time, a MiG-Jet fighter pilot sees an unidentifiable cigar-shaped object flying in front of him.

173

00:23:37,164 --> 00:23:49,172

What we have now come to understand is that there was an engagement of the Soviet military with an unknown object that came into the airspace at or near Kapustin Yar.

174

00:23:49,172 --> 00:23:53,174

And the Soviet MiG fighter was scrambled to intercept.

175

00:23:55,175 --> 00:24:00,179

The aircraft engages in a three-minute dogfight with the UFO.

176

00:24:00,179 --> 00:24:13,187

The jet was able to fire off a missile, and the missile apparently hit the craft just as the craft hit the MiG with some kind of blinding flash of light that caused the MiG with the UFO to crash.

177

00:24:18,190 --> 00:24:23,193

When people talk about UFO crashes, they talk about Roswell as if it's the only time it ever happened.

178

00:24:23,193 --> 00:24:25,194

But it's happened repeatedly.

179

00:24:26,195 --> 00:24:37,202

Kapustin Yar is another great example of a genuine Roswell-type crash, this time in the Soviet Union, and totally classified under the umbrella of national security.

180

00:24:37,202 --> 00:24:49,209

There are special teams designed to create a cover story, and the wreckage goes off to warehouses in which that technology is analyzed and understood.

181

00:24:54,213 --> 00:25:09,222

Rumors have circulated for years that nearly a quarter mile beneath the surface of the Kapustin Yar base are hallways and chambers containing downed extraterrestrial craft, and rooms where alien autopsies have been performed.

182

00:25:10,223 --> 00:25:29,235

This is really the Soviet Union's Area 51. It was very, very remote. The Soviets did all of their major rocket testing, a lot of their advanced back-engineering of Nazi technology from World War II. This was a very, very sophisticated place.

183

00:25:30,235 --> 00:25:40,242

Some people came up with the idea that this was the main storage of the crash UFOs in the Soviet Union, and the secret tests are being done there.

184

00:25:43,244 --> 00:25:55,251

Curiously, at this secret facility, the Soviets developed better nuclear weapons and delivery systems in 18 months than they had anticipated creating in five years.

185

00:26:00,254 --> 00:26:11,261

In 1959, the United States Central Intelligence Agency began to monitor the covert base and collect aerial photographs from a U-2 reconnaissance mission.

186

00:26:13,263 --> 00:26:24,270

When the United States sent recon missions over there during the Cold War, they looked down and they saw these incredible carved images on the ground around Kasputin Yar.

187

00:26:25,270 --> 00:26:37,278

When we actually look at the depictions of these geoglyphs, they look similar to what we see in crop circles and in certain ancient landforms visible on Earth.

188

00:26:37,278 --> 00:26:45,283

So there clearly appears to have been an attempt to communicate with the extraterrestrials, perhaps saying, X marks the spot, come here, guys.

189

00:26:46,283 --> 00:26:54,288

Kasputin Yar was one of the former Soviet Union's most secretive air bases. The rumor is that they were researching UFO technology there.

190

00:26:54,288 --> 00:26:59,292

And one wonders if it's possible if those symbols were in fact used to attract UFOs.

191

00:27:03,294 --> 00:27:11,299

According to ancient astronaut theorists, this so-called Russian Roswell isn't the only site of its kind.

192

00:27:12,300 --> 00:27:22,306

In the middle of Australia lies the military base Pine Gap, located in an area that has long been associated with UFO activity.

193

00:27:22,306 --> 00:27:33,313

The facility is said to extend five miles underground and is rumored to have been used for researching electromagnetic propulsion since the 1960s.

194

00:27:34,314 --> 00:27:43,319

In the remote hills of China, there are a series of bizarre runways over a mile long and over a half mile wide.

195

00:27:43,319 --> 00:27:54,326

Researchers have spotted strange aircraft parked along the runways and believe it is the testing ground for extraterrestrial spacecraft.

196

00:27:55,327 --> 00:28:10,337

And at the Royal Air Force's Rudlow Manor, located in the countryside of Wiltshire, England, many believe the British Ministry of Defense has been storing crashed UFOs since the 1950s.

197

00:28:12,338 --> 00:28:23,345

With the existence of all of these places around the world, it suggests that world governments have been collecting and trying to reverse engineer alien technology for decades.

198

00:28:24,345 --> 00:28:35,352

Is it possible that not only Area 51, but also other secret military sites across the globe, contain extraterrestrial artifacts?

199

00:28:35,352 --> 00:28:47,360

And if so, how is it that so many UFO crashes occurred at roughly the same time period and scattered across multiple continents?

200

00:28:48,361 --> 00:29:02,369

You kind of have to wonder if the extraterrestrials realize that conflict throughout our planet does actually help us develop better aerospace and other technology.

201

00:29:02,369 --> 00:29:15,378

And so it would seem that with these various UFO crashes that were allegedly happening all over the world, these extraterrestrials are purposely trying to advance us forward.

202

00:29:18,380 --> 00:29:38,392

Maybe a lot of what we were dealing with, including some of the crashes in the 40s and the 50s, might have been planned to put certain technologies in human hands to start a process in which humans would begin to try to develop technology.

203

00:29:39,393 --> 00:29:48,398

I had a friend that was involved in the research of trying to back engineer the UFO propulsion.

204

00:29:48,398 --> 00:29:56,404

The information that we've gotten from these craft is way too advanced for us to copy.

205

00:29:56,404 --> 00:30:03,408

They're using materials that are unobtainable on Earth or anywhere in this solar system.

206

00:30:04,409 --> 00:30:20,419

With the collapse of the Soviet Union and the end of the Cold War in the early 1990s, there were many who believed that the development of alien technology would no longer be kept a secret.

207

00:30:20,419 --> 00:30:24,421

Unfortunately, this was not the case.

208

00:30:25,422 --> 00:30:37,429

When the Cold War ended, the truth embargo, which is what it was and is, should have been lifted and the public should have been brought into the situation and should have been told what was going on.

209

00:30:37,429 --> 00:30:42,433

It is taxpayers' money who have financed all of this stuff.

210

00:30:42,433 --> 00:30:56,441

Was the Cold War really an orchestrated event intended to serve as a smokescreen for governments to harvest extraterrestrial technology?

211

00:30:56,441 --> 00:31:06,448

And if so, what does the end of the war suggest about the world's next generation of advanced scientific breakthroughs?

212

00:31:12,452 --> 00:31:19,456

Lund University, Sweden, August 27, 2013

213

00:31:19,456 --> 00:31:29,462

Researchers confirmed the existence of a new element on the periodic table created through nuclear fusion.

214

00:31:29,462 --> 00:31:36,467

They name it Unimpensium or Element 115.

215

00:31:36,467 --> 00:31:53,477

Although most scientists still don't know much about this unique radioactive component, it shares commonalities with plutonium, used in experimental rocket fuels.

216

00:31:53,477 --> 00:32:08,487

Element 115 has its own lore in the UFO history, so this was said to be an element described by a gentleman named Bob Lazar, who claimed to have worked just south of area 51 on an ET flying saucer.

217

00:32:08,487 --> 00:32:21,495

The government is holding nine alien spacecraft that are belled by a modified gravity generator.

218

00:32:21,495 --> 00:32:32,502

Work is being conducted 15 miles south of the group, like at that isolated area, all night designated as S4, that at least one of those crafts operates.

219

00:32:32,502 --> 00:32:42,508

According to what Lazar said, these alien craft ran on Element 115, and there's no evidence that we have this even occurring naturally anywhere on Earth.

220

00:32:42,508 --> 00:32:53,515

Well, it turns out that scientists now claim to have created Element 115 by atomic collisions.

221

00:32:53,515 --> 00:33:02,521

I think this recent discovery of Unimpensium really does help us understand the significance of Bob Lazar's testimony.

222

00:33:02,521 --> 00:33:18,531

This was a man who was exposed to a very rare element that was allegedly part of the propulsion system of an extraterrestrial vehicle.

223

00:33:18,531 --> 00:33:25,536

On December 23, 2015, yet another groundbreaking material makes headlines.

224

00:33:25,536 --> 00:33:39,544

Scientists, working at the University of California, announced the creation of a new metal that is strong and lightweight, but also flexible and resistant to extremely high temperatures.

225

00:33:39,544 --> 00:33:46,549

What's really exciting about these materials is you don't lose a lot of its flexibility, what we call its plastic-like properties.

226

00:33:47,550 --> 00:33:57,556

A lot of metals when you make them strong become very brittle, so this material has a large number of applications, whether it be a car, an airplane, or a spaceship.

227

00:33:58,556 --> 00:34:19,570

While this miracle metal is unlike any alloy developed before, some believe its description is actually familiar, and that it may be a match to the strange material allegedly retrieved by Major Jesse Marcell from the infamous Roswell crash.

228

00:34:20,570 --> 00:34:33,579

Most of the stuff from Roswell was extraordinarily lightweight, very thin foil-like material, very, very strong, but weighing next to nothing. That's from people who handled it.

229

00:34:36,580 --> 00:34:42,584

The UCLA guys are doing research, open research more or less, with stuff from Roswell.

230

00:34:43,585 --> 00:34:54,592

This material is the beginning of an entirely new revolution in materials science, where we are now going to be able to engineer materials at the molecular level.

231

00:34:54,592 --> 00:35:07,600

And this does appear to be the fruits of a long-term, reverse engineering program where those technologies are being brought into the corporate sector, and now it's become something that we all take for granted.

232

00:35:08,601 --> 00:35:29,614

It's been seven decades since the, what I call the first lie, which was the foundational lie at Roswell, happened, and still the official line of the United States is that this is a subject they don't know about and don't care about, which is about as far from the truth as you could possibly get.

233

00:35:30,615 --> 00:35:46,625

We're beginning to understand the extraterrestrial craft, its mechanism, how it works and how it functions. And I'm convinced we're going to be able to travel in space sooner than later, the same way that these ETs have come here.

234

00:35:47,625 --> 00:35:57,632

It's almost as if these extraterrestrials are giving us a little bit here, a little bit there, and they're leading us somewhere, which we're ultimately going to find out very soon where this is going.

235

00:35:57,632 --> 00:36:26,650

Is it possible modern-day scientists are finally decoding the puzzle of the advanced technological

debris left scattered across the globe? Could it be that we have finally reached a level of technological sophistication that allows us to fully understand extraterrestrial technology and prepares us for yet another alien encounter?

236

00:36:28,651 --> 00:36:50,665

Tucson, Arizona, June 17, 2014. Just two months before his death, Void Bushman, a senior scientist at Lockheed Martin, working with missile and laser technology, records a video confessional to be released after his death.

237

00:36:51,666 --> 00:37:06,675

My name is Void Bushman. I'm a senior scientist from Lockheed Martin. I have 27 patents and have changed the world several times.

238

00:37:07,676 --> 00:37:24,687

According to Bushman, while working at Lockheed Martin, he met with individuals with the highest clearance at Area 51. These individuals provided him materials he understood to be extraterrestrial technology.

239

00:37:25,687 --> 00:37:49,702

They would give me pieces of UFOs and I would come to my laboratories. There are three elements which the UFOs contain. One is tailoring the other's uranium and the other's palladium. And not only that, but the things pick up and fly using anti-gravity.

240

00:37:50,703 --> 00:38:02,711

But perhaps the most intriguing claim made by Bushman involves knowledge of extraterrestrials aiding government scientists at bases like Area 51.

241

00:38:02,711 --> 00:38:29,728

There are approximately five feet, four and a half to five feet tall. We have a total of at least 18 that exist and operate with our facility. Now, notice the eyes are different, nose are different. But they do have five fingers, five toes, two eyes.

242

00:38:32,730 --> 00:39:00,747

The release of the video online creates a stir, with many viewers insisting that it must be a hoax. But why would a renowned engineer and physicist lie about something so important? Could it be that the long-held rumors of reverse engineering of otherworldly technology and even stories of extraterrestrial involvement in secret military projects are actually true?

243

00:39:02,749 --> 00:39:28,765

So much of the digital world goes right back to the retrieval of extraterrestrial craft and beings. Which the government drew a wall and said no one is to know. But the truth is, the 21st century is being built on extraterrestrial technology.

244

00:39:29,766 --> 00:39:39,772

How is it possible that in the last 70 years we've accomplished more than in the last 5,000 years technologically speaking?

245

00:39:39,772 --> 00:40:06,789

What makes us so special today that we didn't know about 5,000 years ago? So I think that the technological advancements we've made are due to retrieving extraterrestrial technology. One has to wonder if these puzzle pieces were left here deliberately or on accident.

246

00:40:09,791 --> 00:40:33,806

If the US military and perhaps other militaries around the world have gained technology from crashed alien ships on our planet, then you would think that the extraterrestrials themselves want us to have this technology. And that we've actually been given the same kind of technology.

247

00:40:33,806 --> 00:40:45,814

I mean we've seen staggering technological developments recently. It's been suggested that this is part of a program to bring us up technologically.

248

00:40:46,814 --> 00:41:05,826

One of the most amazing things about this idea of reverse engineering alien technology is that it's taken quite a while for us to actually be able to understand it and to be able to utilize it. Maybe we are now reaching a level of technological sophistication that we're going to be able to match the advanced extraterrestrials.

249

00:41:06,827 --> 00:41:20,836

All these things come back to the question of what are their designs on our planet and are they interested in our best interests or are they interested in their best interests?

250

00:41:21,836 --> 00:41:42,850

Might Roswell and other crashes covered up worldwide have been orchestrated by aliens in order to technologically advance the human race? Have world governments been secretly reverse engineering the extraterrestrial debris scattered across the globe?

251

00:41:42,850 --> 00:41:57,859

Perhaps the time has arrived for humanity to become a truly space-faring civilization, as it may have been intended by our alien ancestors all along.
