

1

00:00:00,000 --> 00:00:07,000

We're so excited to be able to see this.

2

00:00:07,000 --> 00:00:09,000

So this is it?

3

00:00:09,000 --> 00:00:11,000

It's very heavy. It's heavy.

4

00:00:11,000 --> 00:00:12,000

Wow.

5

00:00:12,000 --> 00:00:18,000

Could physical evidence of alien visitation have been hiding in plain sight?

6

00:00:18,000 --> 00:00:20,000

This is a very strange piece.

7

00:00:20,000 --> 00:00:23,000

It is a strange piece for us as well.

8

00:00:23,000 --> 00:00:28,000

Did part of an alien craft fall from space?

9

00:00:28,000 --> 00:00:33,000

We acknowledge these uncertainties about its dating and its composition.

10

00:00:33,000 --> 00:00:35,000

So we have a real mystery here.

11

00:00:35,000 --> 00:00:41,000

Or are we looking at alien technology made right here on Earth?

12

00:00:41,000 --> 00:00:44,000

This defies everything we know.

13

00:00:44,000 --> 00:00:45,000

Definitely.

14

00:00:58,000 --> 00:01:03,000

N.

15

00:01:03,000 --> 00:01:05,800

So long as we have someone else.

16

00:01:20,120 --> 00:01:29,480

Two-winged Quiang province, northern Vietnam,

17

00:01:29,480 --> 00:01:33,440

In the early morning hours, three strange metal spheres

18

00:01:33,440 --> 00:01:35,200

are seen falling from the sky.

19

00:01:38,360 --> 00:01:41,080

Witnesses report that one of the spheres

20

00:01:41,080 --> 00:01:43,880

seemed to be flying in a mysterious pattern

21

00:01:43,880 --> 00:01:47,760

before crashing to Earth and making a loud thunder-like sound.

22

00:01:50,280 --> 00:01:56,840

Witnesses saw these spherical-shaped metallic balls,

23

00:01:56,840 --> 00:02:00,080

which are recovered by the Vietnamese military.

24

00:02:00,080 --> 00:02:02,640

We have photographs of them,

25

00:02:02,640 --> 00:02:06,720

but we don't have whatever the objects were.

26

00:02:06,720 --> 00:02:08,800

Now, of course, the big question is,

27

00:02:08,800 --> 00:02:11,120

could they be connected to the UFO phenomenon?

28

00:02:13,160 --> 00:02:16,760

Numerous similar spheres were seen in Spain in 2015

29

00:02:18,720 --> 00:02:20,840

and in Africa in 2011.

30

00:02:22,880 --> 00:02:26,240

The skeptic would argue that this is just simply space debris

31

00:02:26,240 --> 00:02:28,360

and nothing else.

32

00:02:28,360 --> 00:02:32,760

But what's particularly intriguing is that in March 1974,

33

00:02:32,760 --> 00:02:36,800

very strange sphere was found at Fort George Island in Florida.

34

00:02:36,800 --> 00:02:39,400

It was found by the Bets family.

35

00:02:39,400 --> 00:02:44,680

On March 26, 1974, on a remote piece of land

36

00:02:44,680 --> 00:02:47,120

in Fort George Island, Florida,

37

00:02:47,120 --> 00:02:49,960

owned by Jerry and Antoine Bets,

38

00:02:49,960 --> 00:02:53,280

a wildfire broke out in the middle of the night,

39

00:02:53,280 --> 00:02:55,040

burning acres of brush.

40

00:02:57,240 --> 00:03:00,520

The cause of the fire is unknown.

41

00:03:00,520 --> 00:03:04,640

But the next day, as the family was investigating the damage,

42

00:03:04,640 --> 00:03:07,320

they came upon a strange object,

43

00:03:09,320 --> 00:03:10,520

a metal sphere.

44

00:03:11,520 --> 00:03:15,120

Jerry Bets and her son, Terry, went out there,

45

00:03:15,120 --> 00:03:18,960

and Terry sees this metallic-looking ball

46

00:03:18,960 --> 00:03:20,520

in the ground there.

47

00:03:20,520 --> 00:03:23,360

And he picks it up and shows it to his mother,

48

00:03:23,480 --> 00:03:26,480

and they take it back to the house.

49

00:03:27,480 --> 00:03:29,320

And a couple of weeks went by,

50

00:03:29,320 --> 00:03:33,920

and Terry had the ball on a table next to his bed.

51

00:03:34,920 --> 00:03:37,360

And he took his guitar out.

52

00:03:37,360 --> 00:03:41,560

He started strumming it, and the ball started vibrating.

53

00:03:44,360 --> 00:03:48,000

I was about 10 or 11, and one night they pulled it out.

54

00:03:49,000 --> 00:03:50,880

I think it was a mayonnaise lid out,

55

00:03:50,880 --> 00:03:54,440

and we were holding it in different places on the sphere,

56

00:03:54,440 --> 00:03:57,920

and it would be magnetized and stick in some areas

57

00:03:57,920 --> 00:03:59,000

and not in others.

58

00:04:00,000 --> 00:04:02,840

I can't remember which household members said,

59

00:04:02,840 --> 00:04:05,280

well, watch this, and they walked past it.

60

00:04:05,280 --> 00:04:07,440

It was sitting on the carpeted floor,

61

00:04:07,440 --> 00:04:10,240

and it followed them and moved as they did.

62

00:04:10,240 --> 00:04:11,840

They took a few steps and turned,

63

00:04:11,840 --> 00:04:14,280

and it rolled right behind them into a stop.

64

00:04:16,240 --> 00:04:18,800

I had never seen anything like it before.

65

00:04:19,800 --> 00:04:24,800

The bed sphere began to make headlines in April of 1974.

66

00:04:25,800 --> 00:04:28,040

One of the first to break the story

67

00:04:28,040 --> 00:04:30,920

was a young reporter named Ron Kivit,

68

00:04:30,920 --> 00:04:34,440

who conducted an exclusive interview with Jerry Betts

69

00:04:34,440 --> 00:04:37,600

just after she had made her amazing discovery.

70

00:04:38,600 --> 00:04:41,800

When you found it, was it just lying flat on top of the ground?

71

00:04:41,800 --> 00:04:44,520

It was lying on the ground, it's not a lot, but we're hearing.

72

00:04:44,520 --> 00:04:45,360

Right.

73

00:04:45,360 --> 00:04:47,360

We ain't supposed to make a lot of room, right now.

74

00:04:47,360 --> 00:04:48,200

Mm-hmm.

75

00:04:48,200 --> 00:04:50,280

And then we noticed that Jeff Friver,

76

00:04:50,280 --> 00:04:52,400

who got the best description of this,

77

00:04:52,400 --> 00:04:54,880

that if the giant gyroscope says there's

78

00:04:54,880 --> 00:04:56,440

these vibrating and clivering regions,

79

00:04:56,440 --> 00:04:57,840

and you put it on a flat surface.

80

00:04:57,840 --> 00:04:59,200

Mm-hmm, right, Steve.

81

00:04:59,200 --> 00:05:01,920

That was a very tough, all-in-the-connected.

82

00:05:01,920 --> 00:05:03,080

I could imagine you would.

83

00:05:06,800 --> 00:05:11,640

In February of 2017, investigative journalist

84

00:05:11,640 --> 00:05:15,600

Linda Moulton Howe traveled to Jacksonville, Florida,

85

00:05:15,640 --> 00:05:18,760

just 20 miles from the site, where the Betts family

86

00:05:18,760 --> 00:05:20,840

made their incredible discovery.

87

00:05:20,840 --> 00:05:21,720

Hi, Ron.

88

00:05:21,720 --> 00:05:22,800

Hi, Linda.

89

00:05:22,800 --> 00:05:23,920

Nice to meet you.

90

00:05:23,920 --> 00:05:24,760

Nice to meet you.

91

00:05:24,760 --> 00:05:26,880

Yes, thank you.

92

00:05:26,880 --> 00:05:29,360

She arranged to meet with Ron Kivit

93

00:05:29,360 --> 00:05:32,160

to get a firsthand account of his experience

94

00:05:32,160 --> 00:05:34,080

with this bizarre object.

95

00:05:34,080 --> 00:05:36,120

And you've actually held this silver spoon.

96

00:05:36,120 --> 00:05:38,080

I have actually held it all.

97

00:05:38,080 --> 00:05:39,120

Right.

98

00:05:39,120 --> 00:05:40,600

Talk about what happened.

99

00:05:40,600 --> 00:05:42,160

I'm so curious.

100

00:05:42,160 --> 00:05:44,520

You get to their house.

101

00:05:44,560 --> 00:05:47,680

How was the Betts sphere introduced?

102

00:05:47,680 --> 00:05:50,120

How did they show you?

103

00:05:50,120 --> 00:05:54,600

The ball was on a coffee table, a glass-top coffee table,

104

00:05:54,600 --> 00:05:57,880

in a four-year, much like this, a little bit larger.

105

00:05:57,880 --> 00:06:01,320

But it was wind-solving around almost like an atrium.

106

00:06:01,320 --> 00:06:04,840

And I said, you know, can I pick it up?

107

00:06:04,840 --> 00:06:06,000

Jerry said, oh, sure.

108

00:06:06,000 --> 00:06:07,280

So I picked it up.

109

00:06:07,280 --> 00:06:11,600

And it was heavier than I anticipated it to be.

110

00:06:11,600 --> 00:06:12,920

About 20 pounds, right?

111

00:06:12,920 --> 00:06:13,760

That's what they said.

112

00:06:13,760 --> 00:06:15,480

Yeah, about 20 pounds.

113

00:06:15,480 --> 00:06:17,520

The ball had a much rougher texture to it

114

00:06:17,520 --> 00:06:19,440

than I anticipated.

115

00:06:19,440 --> 00:06:23,280

And if you move it, you could hear a very faint tinkling

116

00:06:23,280 --> 00:06:23,880

inside it.

117

00:06:27,280 --> 00:06:28,600

It wasn't a hum or a buzz.

118

00:06:28,600 --> 00:06:31,640

It was that tink, tink, tink.

119

00:06:31,640 --> 00:06:33,560

Terry had the ball in his room.

120

00:06:33,560 --> 00:06:37,800

And he began to notice that even when the ball wasn't moving,

121

00:06:37,800 --> 00:06:41,200

he could hear this tinkling sound.

122

00:06:41,200 --> 00:06:42,200

Well, it would suggest.

123

00:06:42,240 --> 00:06:45,160

It was conscious or was downloading,

124

00:06:45,160 --> 00:06:46,960

uploading information from something

125

00:06:46,960 --> 00:06:49,760

that it was involved with.

126

00:06:49,760 --> 00:06:51,880

Well, the consciousness of it, I decided

127

00:06:51,880 --> 00:06:54,320

I wanted to take the ball outside and get

128

00:06:54,320 --> 00:06:56,720

some pictures of what natural light.

129

00:06:56,720 --> 00:06:58,880

The ball was back on the table.

130

00:06:58,880 --> 00:07:03,080

So we all get up to leave to go find the spot to shoot it in.

131

00:07:03,080 --> 00:07:08,800

And the ball rolled all the way to the edge and stopped.

132

00:07:08,800 --> 00:07:11,120

And it was just like, don't forget me.

133

00:07:11,160 --> 00:07:14,840

That's when the hair stood up on my arms.

134

00:07:14,840 --> 00:07:17,840

After observing the strange behavior of the sphere

135

00:07:17,840 --> 00:07:20,480

for several weeks, the Bets family

136

00:07:20,480 --> 00:07:24,880

decided to submit it to the military for examination.

137

00:07:24,880 --> 00:07:26,760

It got interest from the Navy.

138

00:07:26,760 --> 00:07:29,400

It got interest from the United States government.

139

00:07:29,400 --> 00:07:32,360

And during the testing of it, they found

140

00:07:32,360 --> 00:07:35,520

it was made of a stainless steel metallic alloy,

141

00:07:35,520 --> 00:07:40,120

specifically the Ferris alloy number 431.

142

00:07:40,120 --> 00:07:44,840

And then when it was analyzed with X-ray spectrography,

143

00:07:44,840 --> 00:07:48,560

the interior of the sphere was hollow

144

00:07:48,560 --> 00:07:51,600

and had smaller spherical objects,

145

00:07:51,600 --> 00:07:57,400

which were analyzed to have an atomic weight of 140.

146

00:07:57,400 --> 00:08:01,760

Now, the largest atomic weight that we see in nature

147

00:08:01,760 --> 00:08:04,880

is uranium, which is a 92.

148

00:08:04,880 --> 00:08:08,040

So these smaller, super heavy balls

149

00:08:08,040 --> 00:08:11,160

that were inside with an atomic weight of 140

150

00:08:11,160 --> 00:08:13,640

caused certain scientists to speculate

151

00:08:13,640 --> 00:08:16,880

that if anyone actually tried to drill inside the sphere,

152

00:08:16,880 --> 00:08:19,920

that it could be the equivalent of a thermonuclear weapon,

153

00:08:19,920 --> 00:08:23,120

that those elements could go into criticality

154

00:08:23,120 --> 00:08:24,520

and create a massive explosion.

155

00:08:29,480 --> 00:08:34,360

So the point is this sphere has very peculiar properties

156

00:08:34,360 --> 00:08:38,240

that suggests that it is, in fact, some sort of artificially

157

00:08:38,240 --> 00:08:41,560

intelligent technology.

158

00:08:41,560 --> 00:08:47,000

Do you think that it is a viable hypothesis that at least

159

00:08:47,000 --> 00:08:50,800

the Navy from the work that they did knew this is not

160

00:08:50,800 --> 00:08:51,640

terrestrial?

161

00:08:51,640 --> 00:08:53,200

Oh, absolutely.

162

00:08:53,200 --> 00:08:57,520

And it was after the Navy examination

163

00:08:57,520 --> 00:09:01,520

that everything seemed to basically come to a halt.

164

00:09:01,520 --> 00:09:03,840

Correct.

165

00:09:03,840 --> 00:09:08,440

I never got a real clarification on what happened, you know.

166

00:09:08,440 --> 00:09:13,240

But now the ball has disappeared.

167

00:09:13,240 --> 00:09:16,200

Is it possible the Navy discovered evidence

168

00:09:16,200 --> 00:09:20,280

that the bed sphere is of extraterrestrial origin

169

00:09:20,280 --> 00:09:26,080

and secretly confiscated it for further examination?

170

00:09:26,080 --> 00:09:30,240

Jerry and her family are not interested in talking

171

00:09:30,240 --> 00:09:32,000

about the sphere anymore.

172

00:09:32,040 --> 00:09:36,080

Jerry still want to discuss what happened with it.

173

00:09:36,080 --> 00:09:38,920

Maybe nobody will ever see it again.

174

00:09:38,920 --> 00:09:40,840

That's a possibility, you know?

175

00:09:40,840 --> 00:09:42,600

I don't know.

176

00:09:42,600 --> 00:09:46,520

To date, no one has been able to locate the sphere

177

00:09:46,520 --> 00:09:49,880

or explain what it was.

178

00:09:49,880 --> 00:09:52,760

But perhaps further clues may be found

179

00:09:52,760 --> 00:09:56,320

by returning to the very site where the mysterious bed

180

00:09:56,320 --> 00:09:58,320

sphere was first discovered.

181

00:10:03,000 --> 00:10:10,840

Talking with the bed's family, you

182

00:10:10,840 --> 00:10:13,720

thought you're dealing with really honest people who

183

00:10:13,720 --> 00:10:16,680

are very puzzled about what this sphere is.

184

00:10:16,680 --> 00:10:20,720

When I first talked to them, I was convinced

185

00:10:20,720 --> 00:10:23,760

that all of them were telling me the truth.

186

00:10:23,760 --> 00:10:29,840

For George Island, Florida, February 3, 2017,

187

00:10:29,880 --> 00:10:33,120

investigative journalist Linda Moulton-Howe

188

00:10:33,120 --> 00:10:35,880

is traveling with reporter Ron Kivit.

189

00:10:35,880 --> 00:10:38,960

To the site where a mysterious metal sphere that

190

00:10:38,960 --> 00:10:42,520

displayed the uncanny ability to move on its own

191

00:10:42,520 --> 00:10:46,880

was first discovered in 1974 by the bed's family

192

00:10:46,880 --> 00:10:50,720

following a wildfire on their property.

193

00:10:50,720 --> 00:10:53,480

This would have been an area where the fire would have been.

194

00:10:53,480 --> 00:10:57,040

We're getting closer.

195

00:10:57,040 --> 00:11:00,440

Now, this is the kind of wood stick would have found in it.

196

00:11:00,440 --> 00:11:03,560

But all of this here, you can see where the palmetto's.

197

00:11:03,560 --> 00:11:04,400

It's thick.

198

00:11:04,400 --> 00:11:06,440

It's hard to go through.

199

00:11:06,440 --> 00:11:08,520

In fact, it's almost amazing.

200

00:11:08,520 --> 00:11:12,440

Without the fire, they would never have found it.

201

00:11:12,440 --> 00:11:13,680

Gosh.

202

00:11:13,680 --> 00:11:17,640

So there's the mystery of what caused the fire.

203

00:11:17,640 --> 00:11:19,720

How long had it been there?

204

00:11:19,720 --> 00:11:23,240

What is it intended to be found?

205

00:11:23,240 --> 00:11:25,920

Skeptics of the bed sphere's story

206

00:11:25,920 --> 00:11:30,400

claim it was part of a sculpture that fell from an artist's truck.

207

00:11:30,400 --> 00:11:34,200

So this is what it would have all looked like before the fire.

208

00:11:34,200 --> 00:11:37,680

But Ron Kivit says this is impossible.

209

00:11:37,680 --> 00:11:40,080

Since the sphere was discovered in the middle

210

00:11:40,080 --> 00:11:44,000

of a densely forested area, 20 miles from any stretch

211

00:11:44,000 --> 00:11:46,800

of main highway.

212

00:11:46,800 --> 00:11:50,280

You know, now that I'm here where the bed's family found

213

00:11:50,280 --> 00:11:55,040

that sphere, it's just so clear that any of the stories

214

00:11:55,080 --> 00:11:58,680

about an artist over on the road having something falling off

215

00:11:58,680 --> 00:12:02,360

a truck and rolling through all of this thick palmetto.

216

00:12:02,360 --> 00:12:03,200

It's impossible.

217

00:12:03,200 --> 00:12:04,600

Impossible.

218

00:12:04,600 --> 00:12:09,440

And the whole idea that they would never have found it

219

00:12:09,440 --> 00:12:10,600

if there had not been a fire.

220

00:12:10,600 --> 00:12:13,120

The fire was integral to finding the ball.

221

00:12:13,120 --> 00:12:17,560

What do you think, talking with Terry and Jerry?

222

00:12:17,560 --> 00:12:18,920

I know they found it.

223

00:12:18,920 --> 00:12:21,480

I know how they found it.

224

00:12:21,480 --> 00:12:24,560

They knew right away after that first incident or so

225

00:12:24,600 --> 00:12:26,240

that they had something special.

226

00:12:26,240 --> 00:12:30,040

If it was a hoax, somebody put it there.

227

00:12:30,040 --> 00:12:33,720

If it was not a hoax, somebody put it there.

228

00:12:33,720 --> 00:12:34,640

Or something.

229

00:12:34,640 --> 00:12:37,320

Or something.

230

00:12:37,320 --> 00:12:41,600

If this mysterious sphere was of extraterrestrial origin,

231

00:12:41,600 --> 00:12:45,080

as ancient astronaut theorists suggest,

232

00:12:45,080 --> 00:12:49,400

might it have been intentionally placed on the bed's property

233

00:12:49,440 --> 00:12:51,600

and even have started the fire that

234

00:12:51,600 --> 00:12:53,360

resulted in its discovery?

235

00:12:56,600 --> 00:12:59,160

Throughout history, similar spheres

236

00:12:59,160 --> 00:13:03,320

have appeared in artwork that dates back hundreds of years

237

00:13:03,320 --> 00:13:07,240

and are often depicted as coming from the heavens.

238

00:13:07,240 --> 00:13:10,280

In Christian art, you'll see these incredible examples

239

00:13:10,280 --> 00:13:13,880

of angels holding bowling ball-sized spheres

240

00:13:13,880 --> 00:13:15,760

in their hands.

241

00:13:15,760 --> 00:13:18,160

In other examples, Jesus himself holds

242

00:13:18,280 --> 00:13:21,800

a metallic sphere.

243

00:13:21,800 --> 00:13:26,480

God is portrayed holding a sphere.

244

00:13:26,480 --> 00:13:28,720

So when you go back to the Betts family

245

00:13:28,720 --> 00:13:31,120

and compare it with what we know about these spheres

246

00:13:31,120 --> 00:13:34,200

in Christian mythology, you have to ask,

247

00:13:34,200 --> 00:13:37,360

are we dealing with something of ancient origin

248

00:13:37,360 --> 00:13:39,960

or possibly of extraterrestrial origin?

249

00:13:43,120 --> 00:13:46,760

Where is that sphere today?

250

00:13:46,760 --> 00:13:49,760

My wager, one of our government agencies

251

00:13:49,760 --> 00:13:52,600

has this bet sphere.

252

00:13:52,600 --> 00:13:56,240

And our government has probably learned a great deal

253

00:13:56,240 --> 00:14:00,320

about a sphere that has self-activating software

254

00:14:00,320 --> 00:14:05,640

and maybe has been sending and receiving the whole time.

255

00:14:05,640 --> 00:14:08,920

The concept of a self-activating metal sphere

256

00:14:08,920 --> 00:14:12,640

with the ability to communicate is not as far fetched

257

00:14:12,640 --> 00:14:14,520

as it may sound.

258

00:14:14,520 --> 00:14:17,800

In fact, science is on the verge of discovering

259

00:14:17,800 --> 00:14:20,000

a similar technology today.

260

00:14:21,160 --> 00:14:25,400

Beijing, China, March 2015.

261

00:14:26,360 --> 00:14:29,640

Here at Tsinghua University,

262

00:14:29,640 --> 00:14:33,680

scientists announced the creation of a self-fueled robot

263

00:14:33,680 --> 00:14:37,200

in the form of a small liquid metal sphere

264

00:14:37,200 --> 00:14:39,480

that is capable of shape-shifting.

265

00:14:40,960 --> 00:14:43,920

When energy is applied from the outside externally,

266

00:14:43,920 --> 00:14:46,080

the metal would change shape.

267

00:14:46,080 --> 00:14:48,960

But they also noticed that it could also produce

268

00:14:48,960 --> 00:14:51,360

its own power supply for about an hour.

269

00:14:52,280 --> 00:14:55,240

And because of this action, it would move too.

270

00:14:56,360 --> 00:14:58,280

And of course, most people are concerned

271

00:14:58,280 --> 00:15:00,400

using it in the field of robotics.

272

00:15:00,400 --> 00:15:01,960

Just imagine where that can go.

273

00:15:04,560 --> 00:15:07,840

We're seeing the first steps that we are making

274

00:15:07,840 --> 00:15:12,000

towards having these types of exotic alloys

275

00:15:12,000 --> 00:15:14,880

that could in the future give us the ability

276

00:15:14,880 --> 00:15:18,000

to emulate the type of extraterrestrial technology

277

00:15:18,000 --> 00:15:21,680

that we already see in out-of-place artifacts.

278

00:15:21,680 --> 00:15:25,080

In addition to creating shape-shifting robots,

279

00:15:25,080 --> 00:15:28,280

this new technology may be used by doctors

280

00:15:28,280 --> 00:15:32,480

to make repairs inside the body without performing surgery.

281

00:15:33,560 --> 00:15:37,920

It could also lead to fully flexible electronics,

282

00:15:37,920 --> 00:15:42,440

as well as major advances in artificial intelligence.

283

00:15:42,440 --> 00:15:45,320

Some ancient astronaut theorists proposed

284

00:15:45,320 --> 00:15:49,160

that it was a similar technology that powered the Betsphere.

285

00:15:50,520 --> 00:15:54,800

This is a possible explanation for what could be going on

286

00:15:54,800 --> 00:15:58,880

with the super-heavy balls inside the Betsphere.

287

00:16:00,120 --> 00:16:03,480

They may be using some sort of similar technology

288

00:16:03,480 --> 00:16:06,360

in order to roll themselves around inside,

289

00:16:06,360 --> 00:16:09,720

which then allows the ball to be able to roll around

290

00:16:09,720 --> 00:16:12,520

much like a self-propelled bowling ball.

291

00:16:12,520 --> 00:16:14,280

So with these new discoveries,

292

00:16:14,280 --> 00:16:15,920

we now have a plausible explanation

293

00:16:15,920 --> 00:16:18,680

for how the Betsphere was able to roll around.

294

00:16:20,680 --> 00:16:23,480

As modern scientists develop new alloys,

295

00:16:23,480 --> 00:16:28,480

we have to wonder if these artifacts like the Betsphere,

296

00:16:28,840 --> 00:16:33,640

they are perhaps there for us to examine

297

00:16:33,680 --> 00:16:38,680

and retro-engineer and use and create for ourselves

298

00:16:39,000 --> 00:16:40,560

and our own space industry.

299

00:16:42,480 --> 00:16:45,200

Ancient astronaut theorists suggest

300

00:16:45,200 --> 00:16:47,920

that objects like the Betsphere

301

00:16:47,920 --> 00:16:51,040

have been purposely left behind by extraterrestrials

302

00:16:51,040 --> 00:16:53,760

for thousands of years in order to help

303

00:16:53,760 --> 00:16:57,520

in the development of mankind's technological evolution.

304

00:16:58,440 --> 00:17:02,760

As further proof, they point to mysterious metal ingots

305

00:17:02,800 --> 00:17:06,880

recently recovered from a shipwreck off the coast of Sicily

306

00:17:06,880 --> 00:17:11,880

that are unlike any other metal known to exist on Earth.

307

00:17:17,320 --> 00:17:20,040

Sicily, 2015.

308

00:17:21,880 --> 00:17:24,840

Archaeologist Sebastiano Tusa

309

00:17:24,840 --> 00:17:28,600

excavates a shipwreck less than a mile off the coast,

310

00:17:28,600 --> 00:17:33,240

which has remained undisturbed for more than 2600 years.

311

00:17:34,240 --> 00:17:39,240

His team dredges up an ancient payload of 39 metal ingots.

312

00:17:41,520 --> 00:17:44,400

Interestingly, spectrographic analysis

313

00:17:44,400 --> 00:17:47,440

of the recovered alloy reveals the compound

314

00:17:47,440 --> 00:17:51,440

is unlike anything ever found in the ancient or modern world.

315

00:17:53,880 --> 00:17:56,120

The interesting part about this

316

00:17:56,120 --> 00:17:59,240

is the composition of the ingots that they found.

317

00:17:59,240 --> 00:18:03,720

The metal is 80% copper and 20% zinc.

318

00:18:04,680 --> 00:18:05,760

There was other things found in it,

319

00:18:05,760 --> 00:18:08,280

but that's the majority of the opposition.

320

00:18:09,640 --> 00:18:13,960

Now, zinc only occurs in nature as spallarai.

321

00:18:13,960 --> 00:18:16,960

It's a zinc sulfur complex.

322

00:18:16,960 --> 00:18:18,480

In order to create zinc,

323

00:18:18,480 --> 00:18:21,520

which didn't come around until about a thousand years ago,

324

00:18:21,520 --> 00:18:25,880

you have to actually process the zinc out of this sulfite

325

00:18:26,120 --> 00:18:29,320

that they didn't have that technology back then.

326

00:18:29,320 --> 00:18:35,160

What was someone doing blending together copper, zinc,

327

00:18:35,160 --> 00:18:37,120

lead, nickel, iron?

328

00:18:37,120 --> 00:18:38,920

This is a complex alloy.

329

00:18:38,920 --> 00:18:41,640

This is nothing easy to do.

330

00:18:41,640 --> 00:18:43,760

It suggests the possibility

331

00:18:43,760 --> 00:18:46,960

that it could have special electrical or energetic properties

332

00:18:46,960 --> 00:18:49,120

that we don't even know about.

333

00:18:49,120 --> 00:18:51,080

People would not be expected

334

00:18:51,080 --> 00:18:53,840

to be making such a complex alloy back then.

335

00:18:54,840 --> 00:18:57,760

How is it possible that such an advanced alloy

336

00:18:57,760 --> 00:19:01,800

was manufactured over 2,600 years ago,

337

00:19:01,800 --> 00:19:04,720

centuries before man had the technology

338

00:19:04,720 --> 00:19:08,440

to manipulate elements like zinc into metals?

339

00:19:08,440 --> 00:19:10,840

And what was its purpose?

340

00:19:12,600 --> 00:19:15,080

Based on the composition of this alloy,

341

00:19:15,080 --> 00:19:18,800

scientists believe what they have found is auracalcum,

342

00:19:18,800 --> 00:19:22,960

a metal associated with the legendary continent of Atlantis.

343

00:19:24,840 --> 00:19:27,840

According to Plato's fourth century dialogues,

344

00:19:27,840 --> 00:19:29,840

the Timaeus and Critias,

345

00:19:29,840 --> 00:19:32,840

Atlantis possessed a power and technology

346

00:19:32,840 --> 00:19:36,840

greater than any other civilization on Earth.

347

00:19:36,840 --> 00:19:40,840

It was founded and ruled over by the Greek god Poseidon,

348

00:19:40,840 --> 00:19:45,840

whose temple was covered in a precious metal called auracalcum,

349

00:19:45,840 --> 00:19:48,840

which translates to mountain copper.

350

00:19:49,840 --> 00:19:53,840

The composition of the alloy is not specified by Plato,

351

00:19:53,840 --> 00:19:57,840

but based on its electrical properties, color and luster,

352

00:19:57,840 --> 00:20:01,840

scientists suggest that if it really did exist,

353

00:20:01,840 --> 00:20:06,840

it most likely consisted of copper mixed primarily with zinc,

354

00:20:06,840 --> 00:20:09,840

just like the metal found in the shipwreck.

355

00:20:10,840 --> 00:20:15,840

It was said that the temple of Poseidon on Atlantis

356

00:20:16,840 --> 00:20:20,840

flashed with the red light of auracalcum.

357

00:20:20,840 --> 00:20:25,840

The copper tint of this metal caught the attention of the seekers

358

00:20:25,840 --> 00:20:27,840

that came to this sacred place.

359

00:20:27,840 --> 00:20:30,840

This is not just an attractive color.

360

00:20:30,840 --> 00:20:32,840

This has spiritual implications.

361

00:20:32,840 --> 00:20:34,840

There was something about this metal

362

00:20:34,840 --> 00:20:37,840

that was said to resonate with the divine.

363

00:20:37,840 --> 00:20:41,840

Perhaps it was its origin that it had come from heaven.

364

00:20:41,840 --> 00:20:43,840

It fell out of the sky.

365

00:20:46,840 --> 00:20:48,840

According to Plato's story,

366

00:20:48,840 --> 00:20:51,840

the Greek god Cadmus, son of Poseidon,

367

00:20:51,840 --> 00:20:53,840

came down from Mount Olympus

368

00:20:53,840 --> 00:20:57,840

and gave auracalcum to the people of Atlantis.

369

00:20:57,840 --> 00:21:02,840

An important figure in early Greek mythology was Cadmus,

370

00:21:02,840 --> 00:21:04,840

a divine character, the first hero,

371

00:21:04,840 --> 00:21:09,840

fifth in the lineage from Zeus of the Greek gods.

372

00:21:09,840 --> 00:21:13,840

It was Cadmus that brought the making of bronze.

373

00:21:13,840 --> 00:21:16,840

He knew how to make alloys, special metals,

374

00:21:16,840 --> 00:21:19,840

which in the early days of civilization

375

00:21:19,840 --> 00:21:22,840

was the beginning of technology.

376

00:21:22,840 --> 00:21:27,840

So Cadmus is the one who shows us the divine nature of metalwork

377

00:21:27,840 --> 00:21:31,840

and gives this as a gift to the generations.

378

00:21:33,840 --> 00:21:38,840

Why are we so quick to dismiss the underlying stories in those myths?

379

00:21:38,840 --> 00:21:40,840

Those stories talk about extraterrestrials

380

00:21:40,840 --> 00:21:42,840

coming and visiting our culture.

381

00:21:43,840 --> 00:21:46,840

They talk about gods that walked among us

382

00:21:46,840 --> 00:21:48,840

and interacted with humans,

383

00:21:48,840 --> 00:21:51,840

but with a severely advanced technology

384

00:21:51,840 --> 00:21:53,840

beyond anything that we have today.

385

00:21:54,840 --> 00:21:58,840

Ancient astronaut theory says that the legends of these Greek gods

386

00:21:58,840 --> 00:22:00,840

are not just mythological,

387

00:22:00,840 --> 00:22:03,840

but they're actually rooted in actual events.

388

00:22:06,840 --> 00:22:08,840

Is it possible that the Greek gods,

389

00:22:08,840 --> 00:22:10,840

or extraterrestrial beings,

390

00:22:10,840 --> 00:22:14,840

are ancestors witnessed descending from the sky?

391

00:22:14,840 --> 00:22:17,840

As ancient astronaut theorists suggest.

392

00:22:18,840 --> 00:22:20,840

And does the discovery of Orycalcum

393

00:22:20,840 --> 00:22:22,840

provide physical evidence

394

00:22:22,840 --> 00:22:27,840

that the legendary continent of Atlantis truly existed?

395

00:22:27,840 --> 00:22:31,840

These artifacts could allow you to conclude

396

00:22:31,840 --> 00:22:35,840

that the continent of Atlantis was real,

397

00:22:36,840 --> 00:22:38,840

that it sank,

398

00:22:40,840 --> 00:22:43,840

and that it possessed high technology

399

00:22:43,840 --> 00:22:46,840

before it met its tragic fate.

400

00:22:47,840 --> 00:22:50,840

According to ancient astronaut theorists,

401

00:22:50,840 --> 00:22:54,840

discoveries like the metal ingots found off the coast of Sicily

402

00:22:54,840 --> 00:22:57,840

provide evidence that extraterrestrials

403

00:22:57,840 --> 00:23:00,840

have been fostering mankind's technological evolution

404

00:23:00,840 --> 00:23:03,840

for thousands of years.

405

00:23:04,840 --> 00:23:08,840

And they suggest that even more compelling evidence can be found

406

00:23:08,840 --> 00:23:11,840

by examining a mysterious artifact

407

00:23:11,840 --> 00:23:15,840

discovered in the tomb of King Tut.

408

00:23:19,840 --> 00:23:21,840

Cairo, Egypt.

409

00:23:22,840 --> 00:23:24,840

At the Egyptian Museum,

410

00:23:24,840 --> 00:23:27,840

an entire floor is dedicated to the incredible treasures

411

00:23:27,840 --> 00:23:30,840

found in the tomb of King Tutankhamun.

412

00:23:32,840 --> 00:23:34,840

Among them is a metal dagger

413

00:23:34,840 --> 00:23:38,840

that has baffled both scientists and archaeologists

414

00:23:38,840 --> 00:23:40,840

because it appears to be made of iron,

415

00:23:40,840 --> 00:23:44,840

but dates back to at least 1322 BC.

416

00:23:45,840 --> 00:23:49,840

More than a century before, Egypt's iron age.

417

00:23:50,840 --> 00:23:53,840

On May 20th, 2016,

418

00:23:53,840 --> 00:23:56,840

a new layer was added to the mystery.

419

00:23:56,840 --> 00:24:00,840

Researchers from the Journal of Meteorics and Planetary Science

420

00:24:00,840 --> 00:24:03,840

announced that they had finally determined the composition

421

00:24:03,840 --> 00:24:06,840

of King Tut's dagger.

422

00:24:06,840 --> 00:24:08,840

After detailed analysis,

423

00:24:08,840 --> 00:24:12,840

it was confirmed that the blade is indeed iron,

424

00:24:12,840 --> 00:24:16,840

forged from metal that originated not on Earth,

425

00:24:16,840 --> 00:24:19,840

but in the stars.

426

00:24:21,840 --> 00:24:26,840

Meteorites are very difficult to fashion into objects.

427

00:24:27,840 --> 00:24:30,840

Anybody, even today, who's ever worked with a meteorite

428

00:24:30,840 --> 00:24:33,840

will tell you that because of the high nickel content,

429

00:24:33,840 --> 00:24:36,840

they're very, very brittle and very difficult to work with.

430

00:24:36,840 --> 00:24:40,840

Considering the difficulties of working with meteoric metal,

431

00:24:40,840 --> 00:24:43,840

even with today's technology,

432

00:24:43,840 --> 00:24:46,840

how did metal urges 3,300 years ago

433

00:24:46,840 --> 00:24:49,840

perform such tasks?

434

00:24:50,840 --> 00:24:52,840

This dagger is completely out of place

435

00:24:52,840 --> 00:24:55,840

in the fact that unlike simple objects like beads,

436

00:24:55,840 --> 00:24:58,840

they can be simply hammered out and rolled,

437

00:24:58,840 --> 00:25:03,840

this has been perfected to a point where it has no hammer marks on it.

438

00:25:03,840 --> 00:25:05,840

It's completely smooth.

439

00:25:05,840 --> 00:25:07,840

It has a nice edge all the way around on it.

440

00:25:07,840 --> 00:25:10,840

It almost looks as if it had been cast,

441

00:25:10,840 --> 00:25:12,840

but in order to achieve that,

442

00:25:12,840 --> 00:25:15,840

you would have to reach temperatures of 3,000 degrees.

443

00:25:16,840 --> 00:25:18,840

In order to melt that meteorite,

444

00:25:18,840 --> 00:25:21,840

and then of course add the necessary fluxes

445

00:25:21,840 --> 00:25:24,840

to get the impurities out and then cast the blade,

446

00:25:24,840 --> 00:25:27,840

which brings up even more questions for the researchers.

447

00:25:27,840 --> 00:25:30,840

If they were smelting iron,

448

00:25:30,840 --> 00:25:33,840

it would change our whole outlook on Egyptian history.

449

00:25:35,840 --> 00:25:39,840

What could explain the presence of this mysterious metal dagger

450

00:25:39,840 --> 00:25:41,840

in King Tut's tomb,

451

00:25:41,840 --> 00:25:44,840

when no other similar artifacts have been found in Egypt

452

00:25:44,840 --> 00:25:47,840

dating back to this period?

453

00:25:47,840 --> 00:25:50,840

Might Egyptian metallurgists have had help

454

00:25:50,840 --> 00:25:53,840

working with this difficult compound?

455

00:25:55,840 --> 00:25:58,840

Ancient astronaut theorists say yes,

456

00:25:58,840 --> 00:26:01,840

and suggest stories found throughout the ancient world

457

00:26:01,840 --> 00:26:05,840

reveal that extraterrestrials taught our ancestors

458

00:26:05,840 --> 00:26:07,840

the secrets of metallurgy

459

00:26:07,840 --> 00:26:10,840

in order to help move society forward.

460

00:26:11,840 --> 00:26:15,840

True metallurgy in the sense of putting different metals together

461

00:26:15,840 --> 00:26:19,840

as alloys dates back to maybe 3,800 BC,

462

00:26:19,840 --> 00:26:24,840

when bronze was first discovered as an alloy of tin and copper.

463

00:26:24,840 --> 00:26:27,840

Maybe the second most important development

464

00:26:27,840 --> 00:26:30,840

after the harnessing of fire.

465

00:26:31,840 --> 00:26:35,840

As we think of modern times and our emphasis on technology here,

466

00:26:35,840 --> 00:26:38,840

it is the sacred roots to all of that.

467

00:26:38,840 --> 00:26:41,840

Stories emerged out of all the religious systems

468

00:26:41,840 --> 00:26:44,840

about the gods as metal workers.

469

00:26:45,840 --> 00:26:47,840

Hephaestus in the Greek imagination

470

00:26:47,840 --> 00:26:51,840

made the weapons and the armor for the gods.

471

00:26:52,840 --> 00:26:56,840

In the Celtic imagination, it was the great goddess Brigid

472

00:26:56,840 --> 00:27:00,840

who made beautiful and wonderful and powerful things

473

00:27:00,840 --> 00:27:03,840

into metal and then into fabricated form.

474

00:27:03,840 --> 00:27:07,840

In Japanese, Lord Kanayago came to earth

475

00:27:07,840 --> 00:27:10,840

to teach the people metalworking.

476

00:27:10,840 --> 00:27:14,840

There seems to be a ubiquitous understanding from ancient cultures

477

00:27:14,840 --> 00:27:18,840

that metallurgy is from the heavens.

478

00:27:18,840 --> 00:27:21,840

Could there be some tide that in the past

479

00:27:21,840 --> 00:27:25,840

certain abilities were originally brought to man,

480

00:27:25,840 --> 00:27:27,840

possibly by extraterrestrials,

481

00:27:27,840 --> 00:27:31,840

and things we would create had a certain energy or myth about them

482

00:27:31,840 --> 00:27:33,840

that still is alive today?

483

00:27:33,840 --> 00:27:36,840

According to ancient astronaut theorists,

484

00:27:36,840 --> 00:27:38,840

the most compelling of these stories

485

00:27:38,840 --> 00:27:43,840

originates in the same place as King Tut's mysterious dagger.

486

00:27:43,840 --> 00:27:49,840

Egypt, where they worshiped a sacred object called the Benben stone.

487

00:27:50,840 --> 00:27:54,840

Ancient Egyptian texts describe the Benben stone

488

00:27:54,840 --> 00:27:58,840

as a meteoric iron object that belongs to the heavens.

489

00:28:00,840 --> 00:28:05,840

The original Benben stone mysteriously disappeared,

490

00:28:05,840 --> 00:28:09,840

but many ancient depictions of it remain.

491

00:28:10,840 --> 00:28:15,840

The Benben stone has a very strange origin.

492

00:28:16,840 --> 00:28:22,840

It is thought that the Benben stone descended from the sky like a firebird.

493

00:28:24,840 --> 00:28:26,840

If you look at the Benben stone,

494

00:28:26,840 --> 00:28:33,840

sometimes it is described or depicted with people coming out of this stone.

495

00:28:34,840 --> 00:28:38,840

Now, to me, this looks very similar to a lunar module.

496

00:28:39,840 --> 00:28:45,840

If you have the idea that this firebird is descending from the sky with fire and smoke,

497

00:28:45,840 --> 00:28:50,840

well, if you look at a rocket descending, these are firebirds.

498

00:28:50,840 --> 00:28:57,840

So our ancestors perhaps witnessed some type of a craft descending from the sky,

499

00:28:57,840 --> 00:29:00,840

out of which these extraterrestrials came,

500

00:29:00,840 --> 00:29:05,840

which set in motion our technological evolution.

501

00:29:06,840 --> 00:29:08,840

According to Egyptian texts,

502

00:29:08,840 --> 00:29:12,840

their gods were extraterrestrial beings that came to Earth

503

00:29:12,840 --> 00:29:16,840

and taught our ancestors the secrets of metalwork.

504

00:29:17,840 --> 00:29:23,840

If true, might this be why we find isolated examples of advanced and sacred metallurgy

505

00:29:23,840 --> 00:29:29,840

occurring long before mankind was known to have grasped such technology?

506

00:29:29,840 --> 00:29:35,840

Ancient astronaut theorists say yes and suggest that hidden away

507

00:29:35,840 --> 00:29:39,840

in the storage area of a small museum in Eastern Europe

508

00:29:39,840 --> 00:29:42,840

is even more astounding evidence,

509

00:29:42,840 --> 00:29:47,840

the remnants of what might be an extraterrestrial spacecraft.

510

00:29:49,840 --> 00:29:53,840

Transylvania, Romania, 1970.

511

00:29:55,840 --> 00:30:01,840

Workers digging a trench along the banks of the Meurs River unearthed two giant bones

512

00:30:02,840 --> 00:30:08,840

and with them, a mysterious metal object buried 35 feet beneath the surface.

513

00:30:09,840 --> 00:30:13,840

The discovery brings the project to a halt

514

00:30:13,840 --> 00:30:17,840

as the crew takes their findings to a nearby museum.

515

00:30:17,840 --> 00:30:22,840

This strange object, known today as the Wedge of Ayur,

516

00:30:22,840 --> 00:30:27,840

continues to baffle archaeologists because it is an aluminum alloy

517

00:30:27,840 --> 00:30:33,840

that appears to have been made thousands of years before humans were able to smelt or fabricate metal.

518

00:30:35,840 --> 00:30:40,840

It was 10 meters in depth, associated with some bones,

519

00:30:40,840 --> 00:30:44,840

which they later identified as woolly mammoth bones.

520

00:30:45,840 --> 00:30:50,840

If they were contemporary, all of them, then they were in use sometime in the period

521

00:30:50,840 --> 00:30:55,840

when the Andertals roamed the Earth, so they were extinct 40,000 years ago,

522

00:30:55,840 --> 00:30:58,840

and they must be older than that.

523

00:30:58,840 --> 00:31:02,840

The Wedge was analyzed three times, to my knowledge.

524

00:31:02,840 --> 00:31:06,840

The main metal in its composition is aluminum.

525

00:31:07,840 --> 00:31:11,840

Humans didn't really start working with aluminum until well into the 1800s.

526

00:31:12,840 --> 00:31:15,840

So when you look at this Wedge and you analyze it,

527

00:31:15,840 --> 00:31:19,840

it really has most of the modern properties we would associate with aluminum.

528

00:31:20,840 --> 00:31:24,840

This incredible metal artifact was discovered at a time when Romania

529

00:31:24,840 --> 00:31:28,840

was behind the iron curtain of the former Soviet Union.

530

00:31:29,840 --> 00:31:35,840

For decades, government officials refused to reveal where the Wedge of Ayur was being held,

531

00:31:37,840 --> 00:31:40,840

even after the fall of the USSR.

532

00:31:44,840 --> 00:31:47,840

But its location has recently come to light,

533

00:31:47,840 --> 00:31:50,840

and in January of 2017,

534

00:31:50,840 --> 00:31:56,840

ancient astronaut theory pioneer Eric Von Daniken and his protege, Georgiosuchlos,

535

00:31:56,840 --> 00:32:00,840

sought out the Wedge to see it for themselves.

536

00:32:05,840 --> 00:32:09,840

On January 18th, 2017,

537

00:32:09,840 --> 00:32:12,840

at the National History Museum of Transylvania,

538

00:32:12,840 --> 00:32:17,840

ancient astronaut theorists Georgiosuchlos and Eric Von Daniken

539

00:32:17,840 --> 00:32:22,840

were offered a rare opportunity to get a first-hand look at the Wedge of Ayur.

540

00:32:23,840 --> 00:32:27,840

Museum curator Anna Gruya has taken it out of a storage locker,

541

00:32:27,840 --> 00:32:32,840

where it has been deliberately hidden from the public since the early 1970s.

542

00:32:34,840 --> 00:32:37,840

Okay, I'm just going to put my gloves on.

543

00:32:37,840 --> 00:32:38,840

This is great.

544

00:32:41,840 --> 00:32:43,840

So this is it?

545

00:32:43,840 --> 00:32:45,840

Oh, okay.

546

00:32:45,840 --> 00:32:47,840

This is strange.

547

00:32:51,840 --> 00:32:52,840

It's very heavy.

548

00:32:52,840 --> 00:32:55,840

Georgiosuchlos, take it. It's heavy.

549

00:32:55,840 --> 00:32:56,840

Wow.

550

00:32:57,840 --> 00:33:00,840

This was found at a depth of 10 meters,

551

00:33:00,840 --> 00:33:03,840

which is about 30 feet in the ground.

552

00:33:03,840 --> 00:33:04,840

Yes.

553

00:33:04,840 --> 00:33:06,840

Yes, and here this is where they took the sample out,

554

00:33:06,840 --> 00:33:08,840

and here to make the analysis.

555

00:33:08,840 --> 00:33:11,840

And here you see two pieces that are broken off, sort of.

556

00:33:11,840 --> 00:33:14,840

So maybe it was attached or something.

557

00:33:15,840 --> 00:33:17,840

But very strange.

558

00:33:17,840 --> 00:33:19,840

So what does the museum have to say about this?

559

00:33:19,840 --> 00:33:22,840

This is a very strange piece.

560

00:33:22,840 --> 00:33:25,840

It is a strange piece for us as well.

561

00:33:25,840 --> 00:33:31,840

As historians, we do not consider it a historical object that we're used to.

562

00:33:31,840 --> 00:33:34,840

We don't know what it was used for,

563

00:33:34,840 --> 00:33:41,840

and we acknowledge these uncertainties about its dating and its composition as well.

564

00:33:42,840 --> 00:33:44,840

So for what can you use this?

565

00:33:44,840 --> 00:33:46,840

It looks like a hammer or a shuffle,

566

00:33:46,840 --> 00:33:49,840

but Georgiosuchlos, what is the word in English?

567

00:33:49,840 --> 00:33:51,840

Bacchushovel.

568

00:33:51,840 --> 00:33:53,840

Oh, an excavator tooth.

569

00:33:53,840 --> 00:33:54,840

Well, it looks like this.

570

00:33:54,840 --> 00:33:57,840

It could have been something like this.

571

00:33:57,840 --> 00:34:00,840

But these excavator tubes are never made out of aluminium.

572

00:34:00,840 --> 00:34:01,840

No, it's too weak.

573

00:34:01,840 --> 00:34:05,840

They are made out of steel, especially hard steel.

574

00:34:05,840 --> 00:34:07,840

So it could not be that.

575

00:34:07,840 --> 00:34:10,840

So we have a real mystery here.

576

00:34:10,840 --> 00:34:15,840

But do you see this patina over this whole object?

577

00:34:15,840 --> 00:34:17,840

And this creates another problem.

578

00:34:17,840 --> 00:34:18,840

Yes.

579

00:34:18,840 --> 00:34:20,840

Because you cannot fake a patina.

580

00:34:20,840 --> 00:34:25,840

It's impossible to artificially create a patina.

581

00:34:25,840 --> 00:34:30,840

The patina is a thin coating of various metal compounds

582

00:34:30,840 --> 00:34:35,840

that forms on the surface of the metal during exposure to atmospheric elements.

583

00:34:35,840 --> 00:34:40,840

The older the object, the thicker the patina layer will be.

584

00:34:41,840 --> 00:34:45,840

It takes hundreds, if not thousands of years,

585

00:34:45,840 --> 00:34:50,840

for a thick layer of patina, as this apparently is, for it to develop.

586

00:34:50,840 --> 00:34:51,840

Yes, we agree.

587

00:34:51,840 --> 00:34:53,840

There are two basic problems.

588

00:34:53,840 --> 00:34:59,840

One, that aluminium was not invented at the age when we presumed this was in use.

589

00:34:59,840 --> 00:35:02,840

And second, it's the patina, as you noted.

590

00:35:02,840 --> 00:35:04,840

Which speaks for the date, for the age of it.

591

00:35:05,840 --> 00:35:08,840

So we still have a mystery here.

592

00:35:08,840 --> 00:35:11,840

Thank you very much for showing us this object,

593

00:35:11,840 --> 00:35:16,840

because I know that there was a time when nobody knew where it was,

594

00:35:16,840 --> 00:35:18,840

somewhere in a box in the back,

595

00:35:18,840 --> 00:35:22,840

which means present-day archaeology has a problem.

596

00:35:22,840 --> 00:35:24,840

And they're doing magnificent work.

597

00:35:24,840 --> 00:35:26,840

But when something like this comes along,

598

00:35:26,840 --> 00:35:31,840

we should investigate this and not put it in a box in the back.

599

00:35:31,840 --> 00:35:32,840

Definitely.

600

00:35:32,840 --> 00:35:36,840

It did depend on mentalities and official position.

601

00:35:36,840 --> 00:35:39,840

It isn't currently exhibited.

602

00:35:39,840 --> 00:35:47,840

Because we have to admit as historians that we do not know more details about it.

603

00:35:47,840 --> 00:35:50,840

For us, it's just baffling at this point.

604

00:35:50,840 --> 00:35:53,840

But taking the logic further,

605

00:35:53,840 --> 00:35:58,840

this conflicting information could have just two solutions so far.

606

00:35:58,840 --> 00:36:02,840

One, that it is really not so old,

607

00:36:02,840 --> 00:36:04,840

and the context is irrelevant,

608

00:36:04,840 --> 00:36:08,840

and the patina was somehow produced in special circumstances.

609

00:36:08,840 --> 00:36:12,840

So it's a new object, strangely preserved, let's say.

610

00:36:12,840 --> 00:36:17,840

And the second option is, of course, that it's not of terrestrial origin.

611

00:36:18,840 --> 00:36:20,840

In all of your adventures,

612

00:36:20,840 --> 00:36:25,840

how does this compare to some of the other things that are inexplicable?

613

00:36:25,840 --> 00:36:27,840

I am helpless. I have no idea.

614

00:36:27,840 --> 00:36:29,840

That says it all right there.

615

00:36:30,840 --> 00:36:31,840

Very bizarre.

616

00:36:31,840 --> 00:36:32,840

Bizarre.

617

00:36:34,840 --> 00:36:39,840

I've known about this thing since the early 1990s.

618

00:36:40,840 --> 00:36:47,840

And I have to tell you that looking at it in person was a dream come true.

619

00:36:47,840 --> 00:36:51,840

And it's a very strange thing.

620

00:36:52,840 --> 00:36:53,840

I mean, how do you explain this?

621

00:36:53,840 --> 00:37:00,840

It certainly looks as if it was part of a larger object.

622

00:37:00,840 --> 00:37:05,840

And the question is, was it a component of a device?

623

00:37:05,840 --> 00:37:08,840

Was it a component of something larger?

624

00:37:09,840 --> 00:37:14,840

If the wedge of iod really is over 40,000 years old,

625

00:37:14,840 --> 00:37:16,840

then who made it?

626

00:37:16,840 --> 00:37:18,840

And what was it used for?

627

00:37:18,840 --> 00:37:21,840

Some ancient astronaut theorists believe

628

00:37:21,840 --> 00:37:23,840

they may have the answer.

629

00:37:24,840 --> 00:37:28,840

An aeronautical engineer who saw the iod wedge

630

00:37:28,840 --> 00:37:29,840

looked at it and said,

631

00:37:29,840 --> 00:37:34,840

that's a piece of a landing gear for a vertical takeoff and landing aircraft.

632

00:37:34,840 --> 00:37:38,840

Ancient astronaut theorists have also looked at this wedge

633

00:37:38,840 --> 00:37:43,840

and surmised that it's possible that it's part of a crashed extraterrestrial craft.

634

00:37:44,840 --> 00:37:50,840

Could the wedge of iod really be a remnant of an extraterrestrial craft?

635

00:37:50,840 --> 00:37:53,840

Perhaps similar to the one some say,

636

00:37:53,840 --> 00:37:56,840

the Egyptians represented with the Ben-Benz Stone.

637

00:37:57,840 --> 00:37:59,840

Ancient astronaut theorists say yes

638

00:37:59,840 --> 00:38:04,840

and suggest evidence recently recovered from a meteorite in Russia.

639

00:38:05,840 --> 00:38:08,840

Maybe another gift from our alien ancestors,

640

00:38:08,840 --> 00:38:13,840

one that propels us towards the next great technological leap.

641

00:38:14,840 --> 00:38:17,840

The New York Times

642

00:38:18,840 --> 00:38:22,840

Siberia, Russia, 1979

643

00:38:22,840 --> 00:38:25,840

A meteorite crashes into the Koryak Mountains.

644

00:38:27,840 --> 00:38:32,840

Nearly four decades later, in December 2016,

645

00:38:32,840 --> 00:38:37,840

researchers studying pieces of the meteorite at the University of Florence,

646

00:38:37,840 --> 00:38:39,840

Caltech and Princeton,

647

00:38:39,840 --> 00:38:44,840

announced that it has brought with it an incredible rare metal formation

648

00:38:44,840 --> 00:38:46,840

called a quasi-crystal.

649

00:38:48,840 --> 00:38:52,840

This quasi-crystal features 60 points of rotational symmetry

650

00:38:52,840 --> 00:38:56,840

made up of aluminum, copper and iron.

651

00:38:57,840 --> 00:39:02,840

It is an exotic pattern that has never before been found in nature

652

00:39:02,840 --> 00:39:06,840

and could lead to the next major technological leap.

653

00:39:07,840 --> 00:39:10,840

This thing should not exist,

654

00:39:10,840 --> 00:39:13,840

and yet there it is on this meteorite.

655

00:39:13,840 --> 00:39:19,840

Now, quasi-crystal alloys violate the known laws of physics completely,

656

00:39:19,840 --> 00:39:22,840

but what we have heard from whistleblowers

657

00:39:22,840 --> 00:39:25,840

is that the surfaces of extraterrestrial vehicles,

658

00:39:25,840 --> 00:39:27,840

such as the one that crashed in Roswell,

659

00:39:27,840 --> 00:39:30,840

are made of quasi-crystal alloys,

660

00:39:30,840 --> 00:39:35,840

and certain quasi-crystal alloys, when electrified, generate anti-gravity,

661

00:39:36,840 --> 00:39:41,840

extraterrestrial intelligences may have been wanting us to find these quasi-crystals,

662

00:39:41,840 --> 00:39:46,840

and it shows that there could be a whole new world of technology waiting for us to unlock,

663

00:39:46,840 --> 00:39:50,840

and what we're looking at is a very likely possibility

664

00:39:50,840 --> 00:39:55,840

that these out-of-place artifacts are just some of the table scraps

665

00:39:55,840 --> 00:40:00,840

from an extraterrestrial civilization that had way more advanced stuff than that.

666

00:40:00,840 --> 00:40:04,840

Are extraterrestrials giving mankind the tools needed

667

00:40:04,840 --> 00:40:08,840

to reach the next level in our technological evolution?

668

00:40:10,840 --> 00:40:13,840

And if so, where are they leading us?

669

00:40:15,840 --> 00:40:19,840

The stories of these very powerful ancient alloys

670

00:40:19,840 --> 00:40:23,840

suggest that these are pathways back to our origins,

671

00:40:23,840 --> 00:40:27,840

that these are ways that we can connect with our own life,

672

00:40:27,840 --> 00:40:32,840

that these are ways that we can connect with our original extraterrestrial visitors,

673

00:40:32,840 --> 00:40:35,840

and also point a way forward for us,

674

00:40:35,840 --> 00:40:38,840

because as we begin to understand these technologies,

675

00:40:38,840 --> 00:40:42,840

perhaps one day we'll even be able to duplicate them.

676

00:40:43,840 --> 00:40:46,840

As modern scientists develop new alloys,

677

00:40:46,840 --> 00:40:51,840

we have to wonder if these ancient artifacts of strange alloys

678

00:40:51,840 --> 00:40:58,840

aren't extraterrestrial artifacts that are perhaps there for us

679

00:40:58,840 --> 00:41:04,840

to examine and retro-engineer and use and create for ourselves

680

00:41:04,840 --> 00:41:06,840

and our own space industry.

681

00:41:08,840 --> 00:41:12,840

There is no question that we are getting closer and closer

682

00:41:12,840 --> 00:41:16,840

to whatever technology the extraterrestrials possessed.

683

00:41:16,840 --> 00:41:21,840

Are the unexplained metal artifacts found all over the world

684

00:41:21,840 --> 00:41:25,840

proof that we have been visited by other worldly beings?

685

00:41:26,840 --> 00:41:32,840

And did extraterrestrials teach our ancestors secrets of metallurgy

686

00:41:32,840 --> 00:41:37,840

that we are just now beginning to develop and reproduce?

687

00:41:39,840 --> 00:41:43,840

Perhaps by examining these strange metal objects,

688

00:41:43,840 --> 00:41:47,840

we will begin to not only understand our past,

689

00:41:47,840 --> 00:41:55,840

but also be better prepared to face our ultimate destiny.
