

1

00:00:00,000 --> 00:00:02,800

An Irish legend.

2

00:00:02,840 --> 00:00:06,880

The supreme deity lived inside New Grains.

3

00:00:06,900 --> 00:00:09,440

Strange statues in Japan.

4

00:00:09,480 --> 00:00:13,980

They are in what literally look like space suits

5

00:00:14,020 --> 00:00:16,780

and a mysterious African tron.

6

00:00:16,820 --> 00:00:19,380

They didn't see themselves as earthlings.

7

00:00:19,420 --> 00:00:22,920

They saw themselves as aliens.

8

00:00:22,960 --> 00:00:25,400

All connected by a single sound.

9

00:00:25,420 --> 00:00:27,960

We have this repeated story of these beings

10

00:00:27,960 --> 00:00:29,600

that said they came from the stars

11

00:00:29,620 --> 00:00:31,260

and they introduced themselves

12

00:00:31,300 --> 00:00:33,300

always with the same phonetics.

13

00:00:33,340 --> 00:00:35,360

You have dogon.

14

00:00:35,400 --> 00:00:37,000

You have dogu.

15

00:00:37,040 --> 00:00:39,000

You have dakda.

16

00:00:39,040 --> 00:00:40,740

What's the commonality here?

17

00:00:40,780 --> 00:00:44,580

Because we have not similar but identical stories.

18

00:00:44,620 --> 00:00:47,580

Could a simple syllable reveal the identity

19

00:00:47,620 --> 00:00:49,380

of extraterrestrial visitors

20

00:00:49,420 --> 00:00:51,580

from thousands of years ago?

21

00:00:51,620 --> 00:00:53,860

There's a cross culture as a reference

22

00:00:53,880 --> 00:00:56,120

of some type of amphibious creature

23

00:00:56,120 --> 00:00:57,760

that they thought of as a god.

24

00:00:57,780 --> 00:00:59,860

And might they provide new clues

25

00:00:59,900 --> 00:01:02,720

about mankind's very origins?

26

00:01:02,760 --> 00:01:06,500

All these cultures were visited by the same people.

27

00:01:12,040 --> 00:01:16,740

There is a doorway in the universe.

28

00:01:16,780 --> 00:01:20,880

Beyond it is the promise of truth.

29

00:01:20,920 --> 00:01:23,680

It demands we question everything

30

00:01:23,720 --> 00:01:25,480

we have ever been taught.

31

00:01:25,480 --> 00:01:29,020

The evidence is all around us.

32

00:01:29,060 --> 00:01:33,360

The future is right before our eyes.

33

00:01:33,380 --> 00:01:35,720

We are not alone.

34

00:01:35,760 --> 00:01:38,660

We have never been alone.

35

00:01:50,200 --> 00:01:54,040

Mali, Africa, 1931.

36

00:01:54,840 --> 00:01:57,440

French anthropologist Marcel Grille

37

00:01:57,480 --> 00:01:59,680

treks through the forbidding desert

38

00:01:59,700 --> 00:02:03,240

in search of the mysterious dogon tribe.

39

00:02:03,280 --> 00:02:05,940

When he finds them, he becomes fascinated

40

00:02:05,980 --> 00:02:09,620

by their culture and traditions.

41

00:02:09,660 --> 00:02:12,420

As Grille starts collecting dogon legends,

42

00:02:12,460 --> 00:02:14,920

he notices an eerie similarity

43

00:02:14,960 --> 00:02:18,460

to ancient tales found across the globe.

44

00:02:18,500 --> 00:02:22,800

Tales of amphibious gods, in this case called nomads,

45

00:02:22,800 --> 00:02:26,100

who came from the sky, lived in the sea,

46

00:02:26,140 --> 00:02:29,700

and helped mankind.

47

00:02:29,740 --> 00:02:33,200

They describe these nomads as being very, like,

48

00:02:33,240 --> 00:02:36,440

mermaid or merman-like, but bequeathing

49

00:02:36,480 --> 00:02:39,840

lots of knowledge of astronomy, math, and science

50

00:02:39,880 --> 00:02:41,880

to this ancient race.

51

00:02:41,920 --> 00:02:44,280

The dogon would say that the nomo

52

00:02:44,320 --> 00:02:47,060

were these extraterrestrial gods,

53

00:02:47,080 --> 00:02:50,620

but they needed a watery environment to live in

54

00:02:51,440 --> 00:02:54,480

though they could come on land.

55

00:02:54,520 --> 00:02:56,980

Grille learns that their arrival is known

56

00:02:57,020 --> 00:02:59,520

as the day of the fish.

57

00:02:59,560 --> 00:03:02,760

The dogon actually said, well, this was our creator

58

00:03:02,780 --> 00:03:06,360

god, nomo, who descended from the sky

59

00:03:06,400 --> 00:03:10,460

in a loud whirlwind of a storm of thunder,

60

00:03:10,500 --> 00:03:13,700

smoke, and lightning.

61

00:03:13,740 --> 00:03:17,340

But what struck Grille and shocked the world

62

00:03:17,380 --> 00:03:19,840

weren't the dogon legends themselves.

63

00:03:20,840 --> 00:03:24,600

But where they said their amphibious gods came from,

64

00:03:24,640 --> 00:03:30,040

a star that no one on Earth knew existed until 1862,

65

00:03:30,080 --> 00:03:35,020

long after the dogon claimed they knew of its existence.

66

00:03:35,040 --> 00:03:37,580

In the 1930s, when French anthropologists

67

00:03:37,620 --> 00:03:41,580

were first discussing the nomo with these dogon priests,

68

00:03:41,620 --> 00:03:44,020

the dogon priests said that the nomo

69

00:03:44,060 --> 00:03:47,960

were coming from the star system of Sirius.

70

00:03:48,080 --> 00:03:51,820

Well, the French anthropologists were amazed at that

71

00:03:51,860 --> 00:03:54,720

and were confused as well.

72

00:03:54,760 --> 00:03:56,920

According to the dogon, their gods

73

00:03:56,960 --> 00:04:01,060

didn't come from Sirius A, a star that is clearly visible

74

00:04:01,100 --> 00:04:05,040

in the evening sky, but from its tiny companion,

75

00:04:05,060 --> 00:04:09,200

a dying star called Sirius B that can only be seen

76

00:04:09,240 --> 00:04:12,340

with advanced high-powered telescopes.

77

00:04:12,380 --> 00:04:16,580

Sirius A is the brightest star in the sky

78

00:04:17,200 --> 00:04:21,340

because it is very luminous, and it is also

79

00:04:21,380 --> 00:04:23,640

fairly close to the Earth.

80

00:04:23,680 --> 00:04:28,280

In astronomy, it is a known fact that there is a Sirius A

81

00:04:28,320 --> 00:04:30,220

and a Sirius B.

82

00:04:30,240 --> 00:04:34,820

Sirius A can be seen, and Sirius B, for us,

83

00:04:34,860 --> 00:04:38,120

is invisible because it's just too small.

84

00:04:38,160 --> 00:04:43,160

Now, the dogon knew about the invisible companion star

85

00:04:43,200 --> 00:04:44,460

to Sirius.

86

00:04:44,500 --> 00:04:46,460

How did they know?

87

00:04:47,460 --> 00:04:54,120

For thousands of years, Sirius A has played an outsized role

88

00:04:54,160 --> 00:04:59,560

in the imagination of Greeks, Persians, Hindus, Romans,

89

00:04:59,600 --> 00:05:03,000

Polynesians, and countless others.

90

00:05:03,040 --> 00:05:07,880

The Egyptians even based their calendar on Sirius A,

91

00:05:07,900 --> 00:05:10,340

and some believe they aligned the Giza pyramids

92

00:05:10,380 --> 00:05:14,940

to Orion's belt, which points to Sirius A.

93

00:05:14,960 --> 00:05:19,700

Villages along the Nile and along the Euphrates,

94

00:05:19,740 --> 00:05:26,640

ancient Mesopotamia, they lined up their village dwellings

95

00:05:26,680 --> 00:05:31,780

to mimic the constellation in which Sirius sat.

96

00:05:31,820 --> 00:05:34,380

Sirius A is one of the closest stars to us.

97

00:05:34,420 --> 00:05:37,720

It's 8.6 light-years away.

98

00:05:37,760 --> 00:05:40,520

Unlike the sun, which has beautiful golden color,

99

00:05:40,560 --> 00:05:43,560

Sirius A is a bluish-white color,

100

00:05:43,580 --> 00:05:47,560

indicating it's much hotter than the surface of the sun.

101

00:05:47,580 --> 00:05:51,120

And that corresponds to it being more massive than the sun

102

00:05:51,160 --> 00:05:52,320

and burning hotter.

103

00:05:52,360 --> 00:05:53,660

It'll have a shorter lifespan.

104

00:05:58,160 --> 00:05:59,860

But how could the dogon have known

105

00:05:59,900 --> 00:06:01,740

about the existence of Sirius B?

106

00:06:04,700 --> 00:06:06,940

Could they have at one time been in possession

107

00:06:06,980 --> 00:06:09,040

of advanced technology?

108

00:06:09,080 --> 00:06:13,540

Or could there be another, even more profound explanation?

109

00:06:13,580 --> 00:06:16,280

The dogon had an amazing degree of knowledge

110

00:06:16,320 --> 00:06:17,480

about the Sirius system.

111

00:06:17,520 --> 00:06:20,420

They knew that the orbits of the two stars

112

00:06:20,460 --> 00:06:25,460

were about 50 years, period, and that the invisible star

113

00:06:25,500 --> 00:06:29,460

was very dense and past its prime.

114

00:06:29,500 --> 00:06:33,740

They also knew that the brighter one was a larger star

115

00:06:33,780 --> 00:06:35,640

than the sun.

116

00:06:35,680 --> 00:06:40,680

The dogon also knew that Sirius B is about the size of Earth

117

00:06:40,720 --> 00:06:43,520

and spins on its axis.

118

00:06:43,560 --> 00:06:48,580

There is no logical explanation for why the dogon tribe

119

00:06:48,620 --> 00:06:51,820

knew about the Sirius star system naturally.

120

00:06:51,860 --> 00:06:53,920

We didn't have telescopes in those days.

121

00:06:53,960 --> 00:06:55,560

How did they know this?

122

00:06:55,600 --> 00:06:59,600

It's as if an ET came here and just told them all about that.

123

00:06:59,640 --> 00:07:01,100

It's an amazing story.

124

00:07:03,640 --> 00:07:08,140

One theory is maybe the aliens gave them this knowledge.

125

00:07:08,180 --> 00:07:09,640

It can't be ruled out.

126

00:07:09,680 --> 00:07:12,180

That's one possibility, because they got it right

127

00:07:12,180 --> 00:07:13,800

on the dot.

128

00:07:13,840 --> 00:07:17,640

But if a race of amphibious Nomo came from Sirius B

129

00:07:17,680 --> 00:07:20,480

and gave the dogon such gifts of knowledge,

130

00:07:20,520 --> 00:07:23,220

did they only visit this one desert tribe?

131

00:07:25,760 --> 00:07:29,660

Or did they visit other peoples in other lands?

132

00:07:29,700 --> 00:07:33,260

It would be one thing if there's only one legend

133

00:07:33,300 --> 00:07:35,260

of a fish man worldwide.

134

00:07:35,300 --> 00:07:42,100

But the Nomo is one story of dozens of amphibians.

135

00:07:42,100 --> 00:07:46,600

Phibious bringers of knowledge to our ancestors.

136

00:07:46,620 --> 00:07:49,060

The ancient Hindus talk about this.

137

00:07:49,100 --> 00:07:53,500

The ancient Greeks, they all had these fish people

138

00:07:53,540 --> 00:07:57,040

that during the day taught mankind.

139

00:07:57,080 --> 00:08:00,740

And then at night, they wandered back into the ocean

140

00:08:00,780 --> 00:08:03,320

to just emerge the next day.

141

00:08:03,340 --> 00:08:08,060

If the Nomo from Sirius B visited numerous ancient cultures,

142

00:08:08,080 --> 00:08:11,020

is it possible that some physical evidence survived?

143

00:08:13,100 --> 00:08:18,600

Sierra Leone, Africa, the early 1990s.

144

00:08:21,600 --> 00:08:25,600

As civil war rages across the country,

145

00:08:25,640 --> 00:08:30,840

rebels begin forcing villagers to mine so-called blood diamonds.

146

00:08:30,880 --> 00:08:34,380

But from deep within the earth emerges a vast treasure

147

00:08:34,420 --> 00:08:35,420

they weren't expecting.

148

00:08:36,420 --> 00:08:42,420

Mysterious figures ranging from 5 to 10 inches tall,

149

00:08:42,460 --> 00:08:47,420

often with reptilian or amphibian features.

150

00:08:47,460 --> 00:08:49,800

They're very strange statues.

151

00:08:49,820 --> 00:08:54,660

Some are clay, some are of granite or limestone.

152

00:08:54,700 --> 00:08:59,840

They are humans and human figures with lizard heads.

153

00:08:59,880 --> 00:09:01,840

There are hundreds of them.

154

00:09:01,960 --> 00:09:05,000

Archaeologists date the statues, known as the Nomali,

155

00:09:05,040 --> 00:09:08,140

to around 500 years old.

156

00:09:08,180 --> 00:09:10,640

When Europeans first came into contact

157

00:09:10,680 --> 00:09:13,880

with the people of Sierra Leone.

158

00:09:13,920 --> 00:09:16,680

But researchers point out that the statues

159

00:09:16,720 --> 00:09:21,420

were found buried as much as 150 feet deep,

160

00:09:21,460 --> 00:09:24,760

which would suggest that they are extremely ancient.

161

00:09:24,880 --> 00:09:29,920

Normally, the deeper you go, the more ancient things are.

162

00:09:29,960 --> 00:09:33,920

That indicates great antiquity.

163

00:09:33,960 --> 00:09:38,760

We know that Angela Petone was able to date the Strada

164

00:09:38,800 --> 00:09:42,600

to 17,000 years old.

165

00:09:42,640 --> 00:09:44,600

We asked the chiefs, and they'll tell us

166

00:09:44,640 --> 00:09:46,800

it could be even older.

167

00:09:46,840 --> 00:09:49,840

17,000 years old.

168

00:09:50,840 --> 00:09:53,840

If true, it would make the Nomali statues

169

00:09:53,880 --> 00:09:57,880

among the oldest man-made artifacts ever found

170

00:09:57,920 --> 00:10:01,920

and date them to 12,000 years before the first known

171

00:10:01,960 --> 00:10:04,920

civilizations on Earth.

172

00:10:04,960 --> 00:10:07,560

But for ancient astronaut theorists,

173

00:10:07,600 --> 00:10:10,800

even more interesting is a strange similarity

174

00:10:10,840 --> 00:10:14,840

between tales of the ancient and ancient gods.

175

00:10:14,880 --> 00:10:18,840

The ancient gods were the first to come to Earth.

176

00:10:18,880 --> 00:10:22,840

Between tales of the Nomali and the stories of the Dogon tribe

177

00:10:22,880 --> 00:10:26,840

and their Nomo gods, 1,200 miles away in Mali.

178

00:10:29,840 --> 00:10:33,840

A similarity that could reveal the identity of mankind's

179

00:10:33,880 --> 00:10:35,840

extraterrestrial ancestors.

180

00:10:43,840 --> 00:10:47,520

In the early 1990s, mysterious figurines

181

00:10:47,520 --> 00:10:49,520

were uncovered in Sierra Leone, Africa,

182

00:10:49,560 --> 00:10:52,520

that were buried in a strata of the Earth so deep,

183

00:10:52,560 --> 00:10:58,520

it suggests that they could be as much as 17,000 years old.

184

00:10:58,560 --> 00:11:02,520

They are believed to represent gods called the Nomali,

185

00:11:02,560 --> 00:11:07,520

that have been revered by the native people for centuries.

186

00:11:07,560 --> 00:11:11,520

They are also similar to the stories of the Dogon tribe of Mali,

187

00:11:11,560 --> 00:11:15,520

who although located some 1,200 miles away,

188

00:11:15,520 --> 00:11:17,520

worship gods called the Nomo,

189

00:11:17,560 --> 00:11:20,520

who descended to the Earth in a whirlwind.

190

00:11:20,560 --> 00:11:23,520

They were forced to come down here and live on Earth.

191

00:11:23,560 --> 00:11:26,520

Their eyes were so bright that you could not look into them,

192

00:11:26,560 --> 00:11:28,520

because they shone like the sun.

193

00:11:28,560 --> 00:11:32,520

And their voices were so powerful that when they spoke in one village,

194

00:11:32,560 --> 00:11:34,520

you could hear them in the next village.

195

00:11:34,560 --> 00:11:38,520

They're actually here on Earth as guides helping humanity.

196

00:11:38,560 --> 00:11:41,520

So this is a very interesting tale that we see across cultures,

197

00:11:41,560 --> 00:11:44,520

where they actually have some interaction with beings

198

00:11:44,520 --> 00:11:48,520

that come down from the sky and teach them knowledge.

199

00:11:48,560 --> 00:11:54,520

Like the Nomo, the Nomali gods are depicted as having amphibious traits,

200

00:11:54,560 --> 00:11:58,520

and are often shown entwined with crocodiles.

201

00:12:00,560 --> 00:12:05,520

The Nomo and the Nomali, could it be that the creatures that came to Earth,

202

00:12:05,560 --> 00:12:11,520

hundreds of thousands of years ago, were somehow aquatic creatures?

203

00:12:12,520 --> 00:12:17,520

It's very conceivable that ET races that came here many, many, many years ago,

204

00:12:17,560 --> 00:12:21,520

looked like maybe an alligator standing upright.

205

00:12:21,560 --> 00:12:23,520

Who knows?

206

00:12:23,560 --> 00:12:26,520

It's very conceivable, that's what they saw.

207

00:12:28,520 --> 00:12:33,520

Could the Nomali and the Nomo represent the same extraterrestrial visitors?

208

00:12:33,560 --> 00:12:38,520

And could those visitors have come from serious bee?

209

00:12:39,520 --> 00:12:42,520

Words are thought of as thought fossils.

210

00:12:42,560 --> 00:12:45,520

They are a record into themselves.

211

00:12:45,560 --> 00:12:49,520

And when we begin to compare words, we find some very interesting things.

212

00:12:49,560 --> 00:12:53,520

In Sierra Leone, we learn of statues called Nomali.

213

00:12:53,560 --> 00:12:58,520

Then we flip over to the Dogon, and we find that they worshiped a god called Noma.

214

00:12:58,560 --> 00:13:04,520

Is there a linkage between these two cultures that are supposed to be entirely separate?

215

00:13:04,560 --> 00:13:06,520

Linguists would argue that there is.

216

00:13:06,520 --> 00:13:10,520

Perhaps the most enticing clue as to the Nomali's true origins,

217

00:13:10,560 --> 00:13:13,520

was discovered in the early 1990s,

218

00:13:13,560 --> 00:13:19,520

when one of the mysterious Nomali figurines was found to contain a chromium sphere.

219

00:13:19,560 --> 00:13:25,520

Inside of it, they found a sphere made of chromium.

220

00:13:25,560 --> 00:13:33,520

The fascinating thing about this is that chromium was not isolated by us until 1797.

221

00:13:33,520 --> 00:13:38,520

But how is it possible that this sphere was placed inside a statue

222

00:13:38,560 --> 00:13:44,520

made 17,000 years before scientists isolated chromium?

223

00:13:44,560 --> 00:13:46,520

There are two schools of thought.

224

00:13:46,560 --> 00:13:51,520

One would be that there were ancient civilizations which were far advanced in that area,

225

00:13:51,560 --> 00:13:55,520

which have been absorbed back into the jungle.

226

00:13:55,560 --> 00:14:01,520

And the second one is that there was an influence from some extraterrestrial beings.

227

00:14:01,560 --> 00:14:03,560

That came from this kind.

228

00:14:05,560 --> 00:14:09,560

This is absolutely inexplicable in present paleontology.

229

00:14:09,600 --> 00:14:15,560

You have to assume that there was a contact with an advanced technology.

230

00:14:15,600 --> 00:14:21,560

But if this chromium sphere was produced by extraterrestrial visitors to Earth,

231

00:14:21,600 --> 00:14:26,560

what was the purpose of placing it inside a Nomali statue?

232

00:14:27,560 --> 00:14:31,560

Some believe the answer may lie in a further examination.

233

00:14:31,600 --> 00:14:33,560

Up Serious B.

234

00:14:33,600 --> 00:14:39,560

We have to wonder if this is some type of representation of Serious B.

235

00:14:39,600 --> 00:14:43,600

The Serious system is always thought of as one of the best possible places

236

00:14:43,640 --> 00:14:46,600

for we would find intelligent life.

237

00:14:46,640 --> 00:14:50,600

Could Serious B be one of the home places of gods

238

00:14:50,640 --> 00:14:53,600

that came from that star system and brought ancient knowledge?

239

00:14:56,600 --> 00:15:01,600

Perhaps further clues can be found by examining a sacred syllable

240

00:15:01,640 --> 00:15:06,600

that ties the dogon to a civilization thousands of miles away.

241

00:15:11,600 --> 00:15:13,600

Paris, France.

242

00:15:14,600 --> 00:15:18,600

Ancient astronaut theorists believe that housed in the Louvre

243

00:15:18,640 --> 00:15:22,600

is an unlikely clue to the mystery of the dogon tribe of Mali.

244

00:15:22,640 --> 00:15:24,640

It's a carved stone made of basalt

245

00:15:24,680 --> 00:15:28,640

with a depiction of the Babylonian King Hammurabi,

246

00:15:28,680 --> 00:15:31,640

speaking with a divine being.

247

00:15:31,680 --> 00:15:34,640

Below that carved in cuneiform

248

00:15:34,680 --> 00:15:38,640

is perhaps the most significant legal text in the ancient world.

249

00:15:38,680 --> 00:15:41,640

The Code of Hammurabi.

250

00:15:41,680 --> 00:15:46,640

King Hammurabi ruled ancient Babylon in the 18th century BC

251

00:15:46,680 --> 00:15:50,640

and he devised the world's first known set of laws for the first time

252

00:15:50,680 --> 00:15:52,680

in the world's first known set of laws.

253

00:15:52,720 --> 00:15:56,680

For example, this is where we get the idea of an eye for an eye.

254

00:15:57,680 --> 00:16:01,680

But what's fascinating to me is that according to King Hammurabi himself,

255

00:16:01,720 --> 00:16:05,680

this was dictated to him by a being that came from the sky.

256

00:16:08,680 --> 00:16:12,680

In my mind, King Hammurabi was documenting exactly what happened.

257

00:16:12,720 --> 00:16:16,680

He was advised by an extraterrestrial.

258

00:16:16,720 --> 00:16:19,720

Ancient astronaut theorists suggest that not only

259

00:16:19,760 --> 00:16:22,720

were the Babylonian gods extraterrestrials

260

00:16:22,760 --> 00:16:24,720

who instructed King Hammurabi,

261

00:16:24,760 --> 00:16:28,720

but that one of them provides an intriguing connection

262

00:16:28,760 --> 00:16:33,720

to the dogon of Africa and their amphibious visitors from Sirius B.

263

00:16:34,760 --> 00:16:39,720

That god, the chief god of the Babylonians, was called Dagon.

264

00:16:41,720 --> 00:16:45,720

They have a god named David.

265

00:16:45,760 --> 00:16:50,760

And it too is an amphibious human god.

266

00:16:51,760 --> 00:16:56,760

The Babylonian god Dagon sounds eerily similar to the dogon tribe,

267

00:16:56,800 --> 00:17:00,760

who claim they were visited by beings from Sirius B.

268

00:17:02,760 --> 00:17:06,760

Is that because the dogon named themselves after the same god?

269

00:17:08,760 --> 00:17:13,760

The ancient Babylonians had a god half human, half fish,

270

00:17:13,800 --> 00:17:15,800

called Dagon.

271

00:17:15,800 --> 00:17:20,800

Is there a relationship between the dogon and the dogon

272

00:17:20,800 --> 00:17:24,800

and the deity of the Babylonians that brought civilization to Earth?

273

00:17:24,800 --> 00:17:26,800

Absolutely there could be a relationship.

274

00:17:28,800 --> 00:17:32,800

The Babylonians worshiped Dagon in a temple called Imor,

275

00:17:32,800 --> 00:17:34,800

or the house of the star.

276

00:17:34,800 --> 00:17:37,800

Could this be Sirius B.?

277

00:17:37,800 --> 00:17:42,800

Did inhabitants of this distant star visit both the dogon and the dogon

278

00:17:42,840 --> 00:17:48,840

and the Babylonians in the Middle East and leave their name,

279

00:17:48,840 --> 00:17:52,840

perhaps Dagon or Dagon, embedded in both places?

280

00:17:53,840 --> 00:17:57,840

What if when the extraterrestrials visited,

281

00:17:57,840 --> 00:18:00,840

our ancestors listened to their language,

282

00:18:00,840 --> 00:18:03,840

words with dog, dog, something,

283

00:18:03,840 --> 00:18:08,840

that was the most prevalent term that they just heard.

284

00:18:08,880 --> 00:18:12,880

So the idea that we have these cultures with a rude word

285

00:18:12,880 --> 00:18:16,880

is the same indicates to me all these ancient cultures

286

00:18:16,880 --> 00:18:19,880

were visited by the same people.

287

00:18:20,880 --> 00:18:23,880

According to ancient astronaut theorists,

288

00:18:23,880 --> 00:18:27,880

the extraterrestrials implanted evidence of their visitation

289

00:18:27,880 --> 00:18:31,880

within the traditions of the cultures they encountered.

290

00:18:31,880 --> 00:18:33,880

And further proof of this can be found

291

00:18:33,880 --> 00:18:36,880

by examining another early civilization.

292

00:18:36,920 --> 00:18:39,920

On the opposite side of the planet.

293

00:18:45,920 --> 00:18:52,920

The Imperial Palace, Tokyo, Japan, New Year's Day, 2019.

294

00:18:54,920 --> 00:18:57,920

Sighting age and ill health,

295

00:18:57,920 --> 00:19:00,920

Emperor Akihito abdicates before a crowd

296

00:19:00,920 --> 00:19:04,920

of more than 90,000 well-wishers and family members.

297

00:19:04,960 --> 00:19:08,960

Including his eldest son, Crown Prince Narohito.

298

00:19:08,960 --> 00:19:12,960

Four months later, Narohito succeeds his father

299

00:19:12,960 --> 00:19:15,960

and descends to the Chrysanthemum Throne,

300

00:19:15,960 --> 00:19:19,960

carrying on a tradition of the oldest royal family on Earth,

301

00:19:19,960 --> 00:19:25,960

stretching back over 2,500 years to 660 BC.

302

00:19:25,960 --> 00:19:29,960

According to legend, the Japanese Imperial family

303

00:19:29,960 --> 00:19:32,960

is descended from divine amphibious beings

304

00:19:33,000 --> 00:19:36,000

who, like the Babylonian god Dagon

305

00:19:36,000 --> 00:19:39,000

and the Dogon gods of Mali, came from the sky

306

00:19:39,000 --> 00:19:41,000

and lived in the sea.

307

00:19:41,000 --> 00:19:45,000

The Japanese name for these beings is Dora-goen.

308

00:19:45,000 --> 00:19:49,000

In English, we call them dragons.

309

00:19:51,000 --> 00:19:54,000

Emperor Jimu, who was the founder

310

00:19:54,000 --> 00:19:57,000

of the Japanese Imperial line,

311

00:19:57,000 --> 00:20:00,000

was supposedly a descendant of the dragon king

312

00:20:00,040 --> 00:20:04,040

and the dragon king lived in an underwater palace

313

00:20:04,040 --> 00:20:08,040

that was massive and very prosperous

314

00:20:08,040 --> 00:20:11,040

and through successive marriages,

315

00:20:11,040 --> 00:20:16,040

eventually his descendants became rulers of Japan.

316

00:20:17,040 --> 00:20:21,040

Early myths indicated that the dragon was also

317

00:20:21,040 --> 00:20:25,040

an amphibious water type animal,

318

00:20:25,040 --> 00:20:28,040

also in some ways a half-man,

319

00:20:28,080 --> 00:20:32,080

half-amphibious type.

320

00:20:32,080 --> 00:20:36,080

He later morphed into a flying serpent, as we know.

321

00:20:39,080 --> 00:20:42,080

The Japanese language is unique to Japan

322

00:20:42,080 --> 00:20:45,080

and also isn't connected to any other language,

323

00:20:45,080 --> 00:20:49,080

not even other Asian languages, such as Korean and Chinese.

324

00:20:49,080 --> 00:20:52,080

Yet the Japanese word for this creature

325

00:20:52,080 --> 00:20:56,080

is strikingly similar towards embedded in languages

326

00:20:56,120 --> 00:20:58,120

all over the world.

327

00:20:58,120 --> 00:21:01,120

Dora-goen in Japanese,

328

00:21:01,120 --> 00:21:04,120

dragon in English,

329

00:21:04,120 --> 00:21:07,120

dragon in India,

330

00:21:07,120 --> 00:21:10,120

dragon-y in Swahili,

331

00:21:10,120 --> 00:21:13,120

dracon-tion in ancient Greek,

332

00:21:13,120 --> 00:21:17,120

and dragoi in the Basque language found in Europe,

333

00:21:17,120 --> 00:21:21,120

which is also unconnected to any other language.

334

00:21:21,120 --> 00:21:24,120

So once again, we have that similar word,

335

00:21:24,160 --> 00:21:28,160

dogon, dagon, dragon.

336

00:21:28,160 --> 00:21:32,160

So perhaps all of these words are indicating

337

00:21:32,160 --> 00:21:36,160

these half-human, half-amphibious extraterrestrials.

338

00:21:38,160 --> 00:21:41,160

Do these linguistic similarities suggest

339

00:21:41,160 --> 00:21:45,160

that the Japanese were visited by the same beings

340

00:21:45,160 --> 00:21:49,160

from Sirius B that were encountered by the dogon in Mali,

341

00:21:49,160 --> 00:21:53,160

the people of Sierra Leone, and the Babylonians?

342

00:21:54,160 --> 00:21:57,160

Ancient astronaut theorists say yes,

343

00:21:57,160 --> 00:22:00,160

and also suggest that actual physical evidence

344

00:22:00,160 --> 00:22:04,160

of the connection exists in the form of strange figurines

345

00:22:04,160 --> 00:22:07,160

found buried all over Japan.

346

00:22:09,160 --> 00:22:13,160

Tokyo National Museum, Japan.

347

00:22:13,160 --> 00:22:15,160

The country's oldest national museum

348

00:22:15,160 --> 00:22:19,160

is home to a collection of mysterious clay statues.

349

00:22:19,160 --> 00:22:22,160

The date is far back as 10,000 years.

350

00:22:22,200 --> 00:22:25,200

More than 18,000 of these figurines

351

00:22:25,200 --> 00:22:28,200

have been found throughout the Japanese islands,

352

00:22:28,200 --> 00:22:32,200

and again, their name is eerily familiar.

353

00:22:32,200 --> 00:22:35,200

They are called the dogu.

354

00:22:36,200 --> 00:22:40,200

The dogu are small clay figurines

355

00:22:40,200 --> 00:22:44,200

that are usually about 15 to 30 centimeters in height,

356

00:22:44,200 --> 00:22:47,200

and they date from one of the earliest periods

357

00:22:47,200 --> 00:22:51,200

of Japanese history from about 14,000 BCE to 1,000.

358

00:22:52,200 --> 00:22:55,160

Much like the similarly sized

359

00:22:55,160 --> 00:22:58,160

normally figurines in Sierra Leone,

360

00:22:58,160 --> 00:23:01,160

more than 8,000 miles away,

361

00:23:01,160 --> 00:23:05,160

the dogu were also found buried deep in the earth.

362

00:23:05,160 --> 00:23:09,160

When one buries something, one is expressing reverence for it.

363

00:23:09,160 --> 00:23:14,160

So if you find something that's buried with a lot of care

364

00:23:14,160 --> 00:23:17,160

and ritual preparation, it means it could be

365

00:23:17,160 --> 00:23:20,160

some kind of sacred item.

366

00:23:20,160 --> 00:23:24,160

But perhaps the strangest thing about the dogu

367

00:23:24,160 --> 00:23:26,160

is what they're wearing.

368

00:23:26,160 --> 00:23:29,160

So here we have a replica of a dogu statue,

369

00:23:29,160 --> 00:23:31,160

which is life-size.

370

00:23:31,160 --> 00:23:33,160

You have patterns that are represented here

371

00:23:33,160 --> 00:23:36,160

that look almost technological in nature,

372

00:23:36,160 --> 00:23:40,160

and if we focus on goggle features of the dogu statues

373

00:23:40,160 --> 00:23:43,160

that have led many people to speculate that this, in fact,

374

00:23:43,160 --> 00:23:46,160

might be some kind of helmet that's part of a space suit.

375

00:23:46,160 --> 00:23:49,160

You really have to wonder what's going on here

376

00:23:49,160 --> 00:23:52,160

because in the case of the dogu,

377

00:23:52,160 --> 00:23:55,160

if you look at this from a modern-day perspective,

378

00:23:55,160 --> 00:24:00,160

in my opinion, those are people in some type of space suits.

379

00:24:04,160 --> 00:24:06,160

For ancient astronaut theorists,

380

00:24:06,160 --> 00:24:09,160

even more intriguing than the appearance of these figurines

381

00:24:09,160 --> 00:24:12,160

is their name, dogu.

382

00:24:12,160 --> 00:24:17,160

Once again, echoing divine names found across multiple cultures.

383

00:24:18,160 --> 00:24:21,160

Here we are talking about a civilization on the island of Japan

384

00:24:21,160 --> 00:24:25,160

that is entirely separate, far across the ocean,

385

00:24:25,160 --> 00:24:29,160

a vast distance from Africa and Egypt and Mesopotamia,

386

00:24:29,160 --> 00:24:35,160

yet they worship a deity with the very same name, fanatically.

387

00:24:35,160 --> 00:24:37,160

Is it the same being?

388

00:24:37,160 --> 00:24:39,160

Common sense, tell us.

389

00:24:39,160 --> 00:24:43,160

We have to at least consider that as a possibility.

390

00:24:43,160 --> 00:24:46,160

If uncanny cultural and linguistic similarities

391

00:24:46,160 --> 00:24:48,160

found in different parts of the world

392

00:24:48,160 --> 00:24:52,160

are the result of extraterrestrial visitation,

393

00:24:52,160 --> 00:24:55,160

wouldn't there be physical evidence as well?

394

00:24:55,160 --> 00:24:58,160

Some alien artifact left behind

395

00:24:58,160 --> 00:25:04,160

that could prove our ancestors had contact with beings from another world?

396

00:25:04,160 --> 00:25:08,160

According to ancient astronaut theorists, there is.

397

00:25:09,160 --> 00:25:13,160

From the mysterious statues of Sierra Leone

398

00:25:13,160 --> 00:25:16,160

to the dogon tribe of Mali

399

00:25:16,160 --> 00:25:20,160

and the Babylonian worship of Dagon

400

00:25:20,160 --> 00:25:23,160

to the Japanese stories of dragons

401

00:25:23,160 --> 00:25:26,160

and the curious dogu figures,

402

00:25:26,160 --> 00:25:29,160

according to ancient astronaut theorists,

403

00:25:29,160 --> 00:25:33,160

there are eerie similarities between ancient cultures

404

00:25:33,160 --> 00:25:36,160

and ancient civilizations.

405

00:25:36,160 --> 00:25:39,160

There are similarities between ancient cultures

406

00:25:39,160 --> 00:25:41,160

that indicate they were all visited

407

00:25:41,160 --> 00:25:47,160

by the same extraterrestrial beings from Sirius B.

408

00:25:47,160 --> 00:25:52,160

If there were beings from the Sirius Star System,

409

00:25:52,160 --> 00:25:56,160

they may have come for a short period of time,

410

00:25:56,160 --> 00:25:58,160

they may have been harvesting metals,

411

00:25:58,160 --> 00:26:01,160

they may have been harvesting genetic material,

412

00:26:01,160 --> 00:26:03,160

and then they go.

413

00:26:04,160 --> 00:26:07,160

But is there any physical evidence?

414

00:26:07,160 --> 00:26:12,160

For some, the presence of a chromium sphere inside a statue

415

00:26:12,160 --> 00:26:15,160

estimated to be 17,000 years old

416

00:26:15,160 --> 00:26:19,160

and ancient figurines that appear to depict space suits

417

00:26:19,160 --> 00:26:21,160

are proof enough.

418

00:26:21,160 --> 00:26:23,160

What could there also be?

419

00:26:23,160 --> 00:26:26,160

Actual artifacts from another world.

420

00:26:26,160 --> 00:26:29,160

Among the people of Sierra Leone,

421

00:26:29,160 --> 00:26:32,160

local legend has it that when they're not in the world,

422

00:26:32,160 --> 00:26:35,160

but when their normally gods fell from heaven,

423

00:26:35,160 --> 00:26:38,160

part of the sky turned to stone

424

00:26:38,160 --> 00:26:40,160

and rained down with them.

425

00:26:42,160 --> 00:26:46,160

These strange blue stones called sky stones

426

00:26:46,160 --> 00:26:49,160

have been found with the statues,

427

00:26:49,160 --> 00:26:51,160

and at first, archeologists thought,

428

00:26:51,160 --> 00:26:54,160

okay, it's just blue stones.

429

00:26:54,160 --> 00:26:56,160

But when they analyzed it,

430

00:26:56,160 --> 00:26:59,160

and they couldn't figure out how these had been made, too.

431

00:26:59,160 --> 00:27:01,160

Although the people in Sierra Leone

432

00:27:01,160 --> 00:27:05,160

felt that they were actually pieces of the blue sky

433

00:27:05,160 --> 00:27:07,160

that fell with the normally.

434

00:27:09,160 --> 00:27:11,160

If these mysterious blue stones

435

00:27:11,160 --> 00:27:15,160

are really connected to the legend of the sky turning to stone

436

00:27:15,160 --> 00:27:19,160

and raining down on the Earth with the arrival of the normally,

437

00:27:19,160 --> 00:27:21,160

what could they be?

438

00:27:21,160 --> 00:27:26,160

Some type of protective covering for an alien spacecraft.

439

00:27:26,160 --> 00:27:28,160

Pieces of a heat shield, perhaps,

440

00:27:28,160 --> 00:27:32,160

like the tiles that covered the bottom of the space shuttle?

441

00:27:32,160 --> 00:27:36,160

And if so, might further scientific examination of them

442

00:27:36,160 --> 00:27:38,160

support the idea that the normally

443

00:27:38,160 --> 00:27:41,160

were actually extraterrestrial visitors?

444

00:27:41,160 --> 00:27:45,160

Perhaps from the Sirius Star System.

445

00:27:46,160 --> 00:27:52,160

Seattle, Washington, March 6th, 2019.

446

00:27:52,160 --> 00:27:54,160

In search of further evidence

447

00:27:54,160 --> 00:27:56,160

that the normally statues

448

00:27:56,160 --> 00:27:58,160

have an extraterrestrial connection,

449

00:27:58,160 --> 00:28:01,160

ancient astronaut theorist David Childress

450

00:28:01,160 --> 00:28:04,160

has arranged to meet up with Skystone Collector

451

00:28:04,160 --> 00:28:07,160

and researcher Jared Collins.

452

00:28:07,160 --> 00:28:09,160

Jared has, in his possession,

453

00:28:09,160 --> 00:28:12,160

a number of the mysterious blue stones

454

00:28:12,160 --> 00:28:15,160

that were found near the statues.

455

00:28:15,160 --> 00:28:18,160

Jared has been collecting skystones

456

00:28:18,160 --> 00:28:22,160

since he first heard about them in 2013.

457

00:28:22,160 --> 00:28:25,160

He became fascinated by their enigmatic nature,

458

00:28:25,160 --> 00:28:29,160

betraying neither obvious mineral nor man-made origin.

459

00:28:31,160 --> 00:28:33,160

So how was it that these stones were actually discovered

460

00:28:33,160 --> 00:28:35,160

in modern times?

461

00:28:35,160 --> 00:28:38,160

This was actually discovered in 1991

462

00:28:38,160 --> 00:28:40,160

by a man named David Ledbetter.

463

00:28:40,160 --> 00:28:43,160

He was in Sierra Leone on a mining concession

464

00:28:43,160 --> 00:28:45,160

looking for golden diamonds.

465

00:28:45,160 --> 00:28:49,160

And when he was having his crew dig,

466

00:28:49,160 --> 00:28:52,160

occasionally these stones would appear.

467

00:28:52,160 --> 00:28:56,160

And interestingly, David went to the village chief

468

00:28:56,160 --> 00:28:59,160

to ask if he'd ever seen any of these stones before.

469

00:28:59,160 --> 00:29:02,160

And the chief said that when these stones are found,

470

00:29:02,160 --> 00:29:04,160

large amounts of golden diamonds

471

00:29:04,160 --> 00:29:07,160

usually follow shortly thereafter.

472

00:29:07,160 --> 00:29:10,160

What do other geologists say about stones like this?

473

00:29:10,160 --> 00:29:12,160

Are they able to identify them?

474

00:29:12,160 --> 00:29:14,160

We've sent these now to 12 different labs.

475

00:29:14,160 --> 00:29:17,160

There is not one piece of consensus in here.

476

00:29:17,160 --> 00:29:19,160

Everybody has a different opinion.

477

00:29:19,160 --> 00:29:22,160

We still don't know, actually, if these are natural or man-made.

478

00:29:22,160 --> 00:29:24,160

So maybe it's from another planet.

479

00:29:24,160 --> 00:29:26,160

I don't know. I really wish I did.

480

00:29:26,160 --> 00:29:28,160

And I would love a chance to actually be able to get this

481

00:29:28,160 --> 00:29:30,160

in front of somebody else who could look at it again.

482

00:29:30,160 --> 00:29:33,160

I've got some friends at the University of Washington,

483

00:29:33,160 --> 00:29:36,160

and I think we can set this up and have another test done.

484

00:29:36,160 --> 00:29:38,160

That would be fantastic.

485

00:29:38,160 --> 00:29:40,160

I would love to get some consensus on this

486

00:29:40,160 --> 00:29:42,160

to understand what this actually is.

487

00:29:42,160 --> 00:29:45,160

While tests conducted on the stones found with anomalies

488

00:29:45,160 --> 00:29:48,160

have so far produced conflicting

489

00:29:48,160 --> 00:29:51,160

and sometimes even confounding results,

490

00:29:51,160 --> 00:29:55,160

David is eager to have them tested for himself.

491

00:30:00,160 --> 00:30:02,160

At the University of Washington,

492

00:30:02,160 --> 00:30:05,160

David and Jared meet with renowned geologist,

493

00:30:05,160 --> 00:30:07,160

Professor Peter Ward.

494

00:30:07,160 --> 00:30:10,160

Hi, I'm David Childress. I talked to you on the phone.

495

00:30:10,160 --> 00:30:11,160

It's good to meet you.

496

00:30:11,160 --> 00:30:13,160

And this is Jared Collins.

497

00:30:13,160 --> 00:30:15,160

Thank you so much for seeing us today.

498

00:30:15,160 --> 00:30:16,160

Jared, both of you guys,

499

00:30:16,160 --> 00:30:19,160

welcome to the University of Washington ISIL lab.

500

00:30:19,160 --> 00:30:22,160

So what do we have in this beautiful box?

501

00:30:22,160 --> 00:30:24,160

We're sort of hoping that you can tell us.

502

00:30:28,160 --> 00:30:31,160

Well, well, well, what are these beauties?

503

00:30:31,160 --> 00:30:34,160

We have been through many tests on these,

504

00:30:34,160 --> 00:30:36,160

and no one can identify them.

505

00:30:36,160 --> 00:30:39,160

They cannot tell us whether these are natural or artificial.

506

00:30:39,160 --> 00:30:42,160

What's causing the blue color, if this is ancient or modern.

507

00:30:42,160 --> 00:30:45,160

So they've been checked for the common blue minerals I take it.

508

00:30:45,160 --> 00:30:48,160

One thing that we know for sure is that this is not turquoise.

509

00:30:48,160 --> 00:30:51,160

This is not lapis. This is not erinite.

510

00:30:51,160 --> 00:30:54,160

The fact that it's so unbelievably light

511

00:30:54,160 --> 00:30:58,160

really suggests that there's an organic component to it.

512

00:30:58,160 --> 00:31:01,160

Anything that goes blue generally is much heavier.

513

00:31:01,160 --> 00:31:03,160

So this is really a mystery.

514

00:31:03,160 --> 00:31:07,160

I should mention also that this only comes from one very specific part,

515

00:31:07,160 --> 00:31:09,160

from one very specific village.

516

00:31:09,160 --> 00:31:12,160

It has never been found anywhere else in the world.

517

00:31:12,160 --> 00:31:17,160

Well, let's do a test that removes any doubt about them being partly organic.

518

00:31:18,160 --> 00:31:20,160

So Erin is going to take this rock,

519

00:31:20,160 --> 00:31:25,160

and she's going to scrape it into these tiny little tin cups.

520

00:31:25,160 --> 00:31:29,160

The tin cups themselves will load into our mass spectrograph.

521

00:31:29,160 --> 00:31:32,160

They will then be heated to a thousand degrees centigrade.

522

00:31:32,160 --> 00:31:35,160

Everything inside will combust and turn to gas,

523

00:31:35,160 --> 00:31:39,160

and those individual gas molecules will then be sampled

524

00:31:39,160 --> 00:31:44,160

and we can examine if there are any truly organic molecules in this rock.

525

00:31:44,160 --> 00:31:48,160

Or is there some life process that was involved in this formation?

526

00:31:50,160 --> 00:31:53,160

Will the test performed on the so-called skystones

527

00:31:53,160 --> 00:31:58,160

reveal that they contain previously undiscovered organic material,

528

00:31:59,160 --> 00:32:02,160

possibly from a different world?

529

00:32:03,160 --> 00:32:08,160

And if so, could it mean that both the skystones and the normally statues

530

00:32:08,160 --> 00:32:16,160

are evidence of an extraterrestrial event that occurred on Earth centuries ago?

531

00:32:22,160 --> 00:32:26,160

Sedona, Arizona, March 2019.

532

00:32:26,160 --> 00:32:31,160

Two weeks after bringing the so-called skystones found in Sierra Leone,

533

00:32:31,160 --> 00:32:35,160

to the University of Washington for examination,

534

00:32:35,160 --> 00:32:40,160

David Childress received an email from geologist Dr. Peter Ward.

535

00:32:40,160 --> 00:32:45,160

In the email, Dr. Ward wrote that the results were so strange,

536

00:32:45,160 --> 00:32:49,160

they ran the tests three times, thinking it was a machine error.

537

00:32:49,160 --> 00:32:53,160

And at it, this gives me the creeps.

538

00:32:53,160 --> 00:32:58,160

To learn more, Childress contacted Dr. Ward through video chat.

539

00:32:58,160 --> 00:33:02,160

Hi, Dr. Ward. So I wanted to learn about the results.

540

00:33:02,160 --> 00:33:05,160

Yeah, it was pretty cool. I mean, it was much stranger than we thought.

541

00:33:05,160 --> 00:33:09,160

There really seems to be some sort of organic aspect to this.

542

00:33:09,160 --> 00:33:13,160

It's got element nitrogen in it in really high concentrations.

543

00:33:13,160 --> 00:33:17,160

Having this high amount of nitrogen, puts it into a,

544

00:33:17,160 --> 00:33:20,160

wow, that's a very peculiar rock category.

545

00:33:20,160 --> 00:33:24,160

We were looking for a possible extraterrestrial origin.

546

00:33:24,160 --> 00:33:30,160

Is it possibly a meteorite or even part of a spaceship that exploded?

547

00:33:30,160 --> 00:33:35,160

Let's just say that there's a possibility that it came from off the Earth.

548

00:33:35,160 --> 00:33:39,160

As we signed the saying, it's worth more study.

549

00:33:39,160 --> 00:33:43,160

Thanks again for doing these tests and letting us use your lab.

550

00:33:43,160 --> 00:33:45,160

Yep, no problem. See you later.

551

00:33:46,160 --> 00:33:49,160

Although the skystones are still a mystery,

552

00:33:49,160 --> 00:33:55,160

David and Jared have confirmed that they are unlike any other stone ever examined.

553

00:33:55,160 --> 00:34:01,160

Could they have arrived on Earth with the strange beings that are depicted in the normally statues?

554

00:34:01,160 --> 00:34:07,160

Is this perhaps physical evidence that linguistic similarities found across the globe?

555

00:34:07,160 --> 00:34:17,160

Dogon, Dagon, Dragon, Dogu point to some sort of extraterrestrial intervention.

556

00:34:17,160 --> 00:34:24,160

Ancient astronaut theorists say yes, and they claim that in yet another earthly location

557

00:34:24,160 --> 00:34:28,160

may be found the most significant evidence of all.

558

00:34:28,160 --> 00:34:32,160

A possible alien home base.

559

00:34:34,160 --> 00:34:37,160

County Mead, Ireland.

560

00:34:37,160 --> 00:34:44,160

Here in the Boine River Valley, a large circular mound rises out of the Earth.

561

00:34:44,160 --> 00:34:49,160

The New Grains Passage Tomb built around 3200 BC.

562

00:34:49,160 --> 00:34:56,160

It was constructed with over 200,000 tons of stone quarried 75 miles away

563

00:34:56,160 --> 00:35:02,160

and contains one passageway that leads to a centralized chamber.

564

00:35:02,160 --> 00:35:06,160

New Grains is one of the most important sites in all of Europe.

565

00:35:06,160 --> 00:35:10,160

It was possibly a stone circle with 36 or 37 stones.

566

00:35:10,160 --> 00:35:13,160

Only 12 of these still remain.

567

00:35:13,160 --> 00:35:21,160

And after that, a huge mound made of stone and Earth was built within the stone circle itself.

568

00:35:21,160 --> 00:35:26,160

Within this, we have a huge chamber, which is a cruciform shape or a cross.

569

00:35:26,160 --> 00:35:31,160

It's got some beautiful carvings on the 97 curb stones that go around the edge,

570

00:35:31,160 --> 00:35:35,160

as well as on the main entrance stone and within the chamber itself.

571

00:35:35,160 --> 00:35:41,160

Mainly zigzags and spirals and most notably a triple spiral

572

00:35:41,160 --> 00:35:46,160

at the back of the main chamber within the actual site itself.

573

00:35:46,160 --> 00:35:50,160

New Grains was designed to honor the Winter Solstice,

574

00:35:50,160 --> 00:35:56,160

but according to a book published in 2012 called The New Grains Serious Mystery,

575

00:35:56,160 --> 00:36:03,160

the entire mound was also built to align with the star Sirius A in the night sky.

576

00:36:03,160 --> 00:36:09,160

The declination of Sirius is the same as the winter solstice sunrise moving across the sky.

577

00:36:09,160 --> 00:36:15,160

And through the light box, which is a rectangular area just above the main entrance,

578

00:36:15,160 --> 00:36:19,160

this is where you witness not only the sunlight coming through,

579

00:36:19,160 --> 00:36:23,160

but also later in the day, Sirius light coming through as well.

580

00:36:26,160 --> 00:36:33,160

The doggone of Mali in West Africa claimed that their gods came to Earth from the star Sirius B.

581

00:36:34,160 --> 00:36:41,160

Ancient astronaut theorists connect these visitors to gods with similar names all over the world.

582

00:36:43,160 --> 00:36:49,160

But they also point out an intriguing connection to New Grains in Ireland.

583

00:36:49,160 --> 00:36:53,160

In addition to being in line with the star Sirius,

584

00:36:53,160 --> 00:37:01,160

legend says that this megalith was built by a Celtic god with a name that sounds by now eerily familiar.

585

00:37:02,160 --> 00:37:04,160

The god, Dagda.

586

00:37:04,160 --> 00:37:09,160

The main god that's associated with New Grains is called Dagda.

587

00:37:09,160 --> 00:37:17,160

So here once again we have this same word that appears to mean something about gods coming from Sirius.

588

00:37:17,160 --> 00:37:21,160

The dwellers of the British Isles worshiped a god named Dagda.

589

00:37:21,160 --> 00:37:24,160

That cannot be my coincidence.

590

00:37:24,160 --> 00:37:32,160

The god known as Dagda was said to be the leader of a group of other worldly beings called the Tuatha Dedenon.

591

00:37:32,160 --> 00:37:41,160

So the Tuatha Dedenon were this renowned fairy race that arrived mysteriously in Ireland many thousands of years ago.

592

00:37:41,160 --> 00:37:47,160

The supreme deity of the Tuatha Dedenon was Dagda, Dagda Maul.

593

00:37:47,160 --> 00:37:49,160

He was a renowned god.

594

00:37:49,160 --> 00:37:53,160

He was said to have built and lived inside New Grains.

595

00:37:53,160 --> 00:38:00,160

They had very advanced weaponry and different types of what sounds like machinery.

596

00:38:00,160 --> 00:38:08,160

But also they taught the high arts of civilization and they were said to be almost like the shining ones of the biblical tradition.

597

00:38:08,160 --> 00:38:14,160

It's almost like a science fiction movie when you start looking at these ancient Irish myths.

598

00:38:15,160 --> 00:38:20,160

Could New Grains have once been an alien outpost on Earth?

599

00:38:20,160 --> 00:38:31,160

Was Dagda the supreme leader of a race of highly advanced extraterrestrials that came to Earth and left a lasting influence on our ancestors?

600

00:38:31,160 --> 00:38:37,160

Perhaps the answer can be found by examining the Dark Star.

601

00:38:44,160 --> 00:38:55,160

Across the world, ancient people claimed they were visited by amphibious beings from Sirius who gave the gift of knowledge and technology.

602

00:38:55,160 --> 00:39:10,160

The dogon of Maulie, daegon of the Babylonians, the dogu of Japan, Dagda of Ireland, and the dragon whose name echoes in languages all over the world.

603

00:39:11,160 --> 00:39:19,160

So you have to wonder, is it possible that all the Ruth words come from the same visitors?

604

00:39:19,160 --> 00:39:24,160

And my answer to that is a resounding yes.

605

00:39:24,160 --> 00:39:28,160

But what about the English language?

606

00:39:28,160 --> 00:39:35,160

Is there any connection in English between the ancient syllable dog or dag and the star Sirius?

607

00:39:35,160 --> 00:39:40,160

Experts say the answer is hiding in plain sight.

608

00:39:40,160 --> 00:39:47,160

Sirius is the dog star. Tonight when you go outside, look for the three stars that make up Orion.

609

00:39:47,160 --> 00:39:52,160

And Orion's belt has an arrow that points right to Sirius.

610

00:39:52,160 --> 00:39:55,160

So you can see Sirius the dog star tonight.

611

00:39:55,160 --> 00:40:04,160

And in fact today, the reason we talk about the dog days of summer is that those are the days that Sirius is overhead.

612

00:40:05,160 --> 00:40:11,160

It's very interesting that these beings said they came from Sirius, which we call the dog star.

613

00:40:11,160 --> 00:40:17,160

Because when etymologists try to trace the origins of the English word dog, it's not attributable.

614

00:40:17,160 --> 00:40:22,160

They can't find the origin of that word.

615

00:40:22,160 --> 00:40:30,160

The word dog is one of the strangest in the English language because no one knows where it came from.

616

00:40:30,160 --> 00:40:35,160

English is mostly derived from German, Latin and French.

617

00:40:35,160 --> 00:40:43,160

The German word for dog is Hund. The Latin word is Canis. And the French word is Chien.

618

00:40:43,160 --> 00:40:47,160

So where do we get dog?

619

00:40:47,160 --> 00:40:57,160

Is it possible that some being from the dog star from this system gave that type of vocabulary of Dagon, Dogon, Dogu?

620

00:40:57,160 --> 00:41:02,160

And all these similarities are speaking of one race that visited ancient man.

621

00:41:02,160 --> 00:41:12,160

And I think in this particular case, whatever came down here at the time, or what group of extraterrestrials came down here at the time,

622

00:41:12,160 --> 00:41:19,160

they were referred to as this and then other civilizations just carried it and picked up on it.

623

00:41:19,160 --> 00:41:26,160

We have to at least ask the question, is this in fact the name of these God beings? And I believe it is.

624

00:41:27,160 --> 00:41:36,160

Is it possible that ancient statues unearthed in West Africa represent the opening chapter in the story of humankind?

625

00:41:36,160 --> 00:41:47,160

Do they depict advanced beings that traveled to our planet from the Sirius star system to create the first humans and ignite civilization on Earth?

626

00:41:47,160 --> 00:41:55,160

And did these extraterrestrials leave behind evidence of their visitation for future generations to find?

627

00:41:55,160 --> 00:42:06,160

Perhaps these clues point not only to their home planet, but to where we must travel in order to reunite with our alien ancestors.
