

1

00:00:00,000 --> 00:00:04,540

Events predicted centuries before they occur.

2

00:00:04,600 --> 00:00:07,500

He was able to perceive the rise of Napoleon,

3

00:00:07,580 --> 00:00:08,880

the rise of Hitler.

4

00:00:08,940 --> 00:00:12,920

Atomic weapons dropped on Hiroshima and Nagasaki.

5

00:00:12,980 --> 00:00:16,280

Objects moved with the power of the mind.

6

00:00:16,340 --> 00:00:18,520

Without touching it, I'm able to control it.

7

00:00:18,580 --> 00:00:19,960

I can hold it over there.

8

00:00:20,020 --> 00:00:21,620

I can pull it back there.

9

00:00:21,680 --> 00:00:22,920

Wow.

10

00:00:22,980 --> 00:00:26,500

Communications that happen without speaking a word.

11

00:00:26,560 --> 00:00:29,860

This thing, telepathically, can we even

12

00:00:29,880 --> 00:00:31,060

communicate it with me?

13

00:00:31,120 --> 00:00:33,420

And it said, we are here to help you.

14

00:00:33,500 --> 00:00:36,700

There are many who believe that the human brain possesses

15

00:00:36,760 --> 00:00:40,700

extraordinary, untapped abilities given to us

16

00:00:40,760 --> 00:00:43,440

by extraterrestrial beings.

17

00:00:43,500 --> 00:00:46,240

You have to wonder if, ultimately, the goal is

18

00:00:46,300 --> 00:00:50,480

to activate all the humans on this planet.

19

00:00:50,540 --> 00:00:54,040

If true, once we learn to access the full potential

20

00:00:54,120 --> 00:00:58,980

of the brain, will we discover a new reality and destiny

21

00:00:59,000 --> 00:01:00,680

for humankind?

22

00:01:00,740 --> 00:01:02,840

It's possible that extraterrestrial beings

23

00:01:02,900 --> 00:01:05,940

are sending messages to assist us in averting

24

00:01:06,020 --> 00:01:06,680

a future disaster.

25

00:01:10,120 --> 00:01:14,660

There is a doorway in the universe.

26

00:01:14,720 --> 00:01:18,920

Beyond it is the promise of truth.

27

00:01:19,000 --> 00:01:21,760

It demands we question everything

28

00:01:21,840 --> 00:01:24,200

we have ever been taught.

29

00:01:24,260 --> 00:01:27,660

The evidence is all around us.

30

00:01:27,680 --> 00:01:31,660

The future is right before our eyes.

31

00:01:31,720 --> 00:01:34,460

We are not alone.

32

00:01:34,520 --> 00:01:36,760

We have never been alone.

33

00:01:46,040 --> 00:01:48,680

Paris, France.

34

00:01:48,740 --> 00:01:52,680

June 30, 1559.

35

00:01:52,740 --> 00:01:56,280

In a freak accident, French King Henry II

36

00:01:56,300 --> 00:01:59,080

is mortally wounded while jousting in a tournament.

37

00:02:03,840 --> 00:02:07,240

10 days later, he dies.

38

00:02:07,320 --> 00:02:12,680

The news shocks the French people, except for one man.

39

00:02:12,760 --> 00:02:15,260

The seer, Michel, did Nostradamus.

40

00:02:18,120 --> 00:02:21,760

Years earlier, Nostradamus foretold the death of King Henry

41

00:02:21,820 --> 00:02:26,160

in La Profitier, a collection of 940,000.

42

00:02:26,280 --> 00:02:28,720

The Nostradamus is one of the most

43

00:02:28,780 --> 00:02:30,220

influential in the world.

44

00:02:30,280 --> 00:02:34,820

He has been working on 32 predictions about the future.

45

00:02:34,880 --> 00:02:37,860

Now, his macabre vision has been realized

46

00:02:37,920 --> 00:02:41,300

with startling clarity.

47

00:02:41,360 --> 00:02:46,000

Nostradamus' fame as a prophet starts with the prophecy

48

00:02:46,060 --> 00:02:49,600

that King Henry II would die in a justing accident.

49

00:02:49,660 --> 00:02:54,180

He died as the prophecy said accrual of death.

50

00:02:54,180 --> 00:02:55,440

Nostradamus and Ephesians.

51

00:02:59,180 --> 00:03:04,220

Long after his death in 1566, Nostradamus' most chilling

52

00:03:04,280 --> 00:03:08,260

prophecies became known around the world.

53

00:03:08,320 --> 00:03:10,960

He's famous today because in 1555,

54

00:03:11,020 --> 00:03:14,660

he predicted the rise of Napoleon, of Adolf Hitler,

55

00:03:14,720 --> 00:03:16,760

of the death of Princess Diana.

56

00:03:16,820 --> 00:03:20,000

Nostradamus is perhaps the most enduring name

57

00:03:20,060 --> 00:03:21,840

in post-biblical prophecy.

58

00:03:21,860 --> 00:03:24,440

And people continue to feel that they can learn what's

59

00:03:24,500 --> 00:03:27,700

around the next corner by studying his quatrains.

60

00:03:27,760 --> 00:03:33,840

His prophecies are foggy, cloudy, cryptic, full of word

61

00:03:33,900 --> 00:03:35,740

plays called anagrams.

62

00:03:35,800 --> 00:03:39,040

He was trying to create a difficult verse

63

00:03:39,100 --> 00:03:43,280

to avoid the church's justices burning him.

64

00:03:43,340 --> 00:03:46,980

Nostradamus did not claim to have been born with the ability

65

00:03:47,040 --> 00:03:48,820

to see the future.

66

00:03:48,880 --> 00:03:51,120

He said that this gift came to him suddenly

67

00:03:51,160 --> 00:03:54,000

in his mid-40s when he traveled Southern Europe

68

00:03:54,060 --> 00:03:57,460

as a physician and chemist fighting the plague.

69

00:03:57,540 --> 00:04:01,600

But just what or who gave him the incredible ability

70

00:04:01,680 --> 00:04:06,280

to see the future was a mystery even to him.

71

00:04:06,340 --> 00:04:08,980

He was single-handedly fighting the plague,

72

00:04:09,040 --> 00:04:12,120

and his wife and his two children died.

73

00:04:12,180 --> 00:04:15,120

He packed up his mule and literally in one night

74

00:04:15,180 --> 00:04:20,620

left everything and disappeared from the historical crime

75

00:04:20,660 --> 00:04:23,460

chronicles for about six years.

76

00:04:23,520 --> 00:04:26,620

The shock, the grief, the shattering of what had happened

77

00:04:26,700 --> 00:04:29,960

to him had awakened the family gift.

78

00:04:30,040 --> 00:04:33,560

He had an awakening experience that somehow opened up

79

00:04:33,640 --> 00:04:35,300

his psychic ability.

80

00:04:35,360 --> 00:04:39,040

It's quite possible that his brain itself was somehow altered.

81

00:04:39,100 --> 00:04:41,000

A switch was flipped, and when he came back,

82

00:04:41,080 --> 00:04:43,540

he had the ability to see into the future

83

00:04:43,620 --> 00:04:44,580

and to make prophecies.

84

00:04:45,280 --> 00:04:46,980

A psychic awakening?

85

00:04:47,040 --> 00:04:49,120

Is it possible that Nostradamus's ability

86

00:04:49,180 --> 00:04:51,880

to predict the future was somehow activated

87

00:04:51,960 --> 00:04:55,660

by the trauma he experienced?

88

00:04:55,720 --> 00:04:58,620

Many researchers of extrasensory abilities

89

00:04:58,700 --> 00:05:01,660

believe the human brain contains incredible potential

90

00:05:01,720 --> 00:05:04,300

that scientists have not yet discovered,

91

00:05:04,360 --> 00:05:08,240

and which are sometimes switched on by traumatic events.

92

00:05:08,360 --> 00:05:11,400

Evidence of this can be found not only in the life

93

00:05:11,460 --> 00:05:14,940

of Nostradamus, but also extraordinary cases

94

00:05:15,000 --> 00:05:16,940

documented in modern times.

95

00:05:21,040 --> 00:05:25,480

Melbourne, Australia.

96

00:05:25,540 --> 00:05:31,380

February 2012, 21-year-old college student Ben McMahon

97

00:05:31,460 --> 00:05:34,420

is driving home from a car accident.

98

00:05:34,480 --> 00:05:37,640

21-year-old college student Ben McMahon

99

00:05:37,720 --> 00:05:44,620

is driving home one afternoon when a semi-truck runs a red light

100

00:05:44,680 --> 00:05:47,420

and broadsides his car.

101

00:05:47,480 --> 00:05:50,920

The accident leaves McMahon in a coma.

102

00:05:50,980 --> 00:05:54,560

When he awakens a week later, McMahon shocks everyone

103

00:05:54,620 --> 00:05:59,160

by speaking in fluent Mandarin, a language he only casually

104

00:05:59,220 --> 00:06:02,060

studied in high school.

105

00:06:02,100 --> 00:06:05,900

Dr. Say McMahon suffers from foreign language syndrome,

106

00:06:05,960 --> 00:06:11,400

a rare condition that occurs after a traumatic brain injury.

107

00:06:11,460 --> 00:06:13,140

There have been certain circumstances

108

00:06:13,200 --> 00:06:15,740

where people have had an injury of the brain

109

00:06:15,800 --> 00:06:20,440

and then suddenly develop some completely new ability.

110

00:06:20,500 --> 00:06:22,300

It's a little bit like the Itzavon phenomenon

111

00:06:22,380 --> 00:06:26,180

where somebody has just these unbelievable abilities

112

00:06:26,240 --> 00:06:31,420

in a given domain that are kind of unexplainable.

113

00:06:31,440 --> 00:06:35,180

The brain is a compilation of billions of nerve cells

114

00:06:35,240 --> 00:06:38,680

that work together to help us have our thoughts, feelings,

115

00:06:38,760 --> 00:06:40,560

and experiences.

116

00:06:40,620 --> 00:06:42,820

Almost everything is still mysterious about the brain.

117

00:06:42,880 --> 00:06:45,560

I mean, we understand the basics of how things work,

118

00:06:45,620 --> 00:06:49,220

but when it comes to our actual feelings, our thought,

119

00:06:49,300 --> 00:06:51,900

our emotions, our consciousness, we really

120

00:06:51,960 --> 00:06:55,400

don't have a good answer as to how the brain helps us

121

00:06:55,460 --> 00:06:58,500

to have those different experiences.

122

00:06:58,520 --> 00:07:01,420

People who have suffered traumatic brain injuries

123

00:07:01,500 --> 00:07:05,360

have developed incredible skills such as perfect recall,

124

00:07:05,440 --> 00:07:09,060

an advanced understanding of mathematical concepts,

125

00:07:09,140 --> 00:07:13,340

and the instantaneous mastery of musical instruments.

126

00:07:13,400 --> 00:07:16,340

But is it possible that the human brain contains

127

00:07:16,400 --> 00:07:19,840

even more incredible abilities just waiting to be unlocked?

128

00:07:22,920 --> 00:07:24,980

The untapped potentials of the brain

129

00:07:25,060 --> 00:07:27,420

are barely researched yet.

130

00:07:29,420 --> 00:07:33,760

Those researching creative people assume

131

00:07:33,820 --> 00:07:36,400

that most of the work that is done that is truly

132

00:07:36,460 --> 00:07:39,600

innovative, new, original, and valuable

133

00:07:39,660 --> 00:07:41,900

is done by the part of the brain we can't track,

134

00:07:41,960 --> 00:07:44,840

the part that is barely understood.

135

00:07:44,900 --> 00:07:47,440

The difference between the average human

136

00:07:47,500 --> 00:07:51,440

and the prophets and the seers is not that the prophets

137

00:07:51,500 --> 00:07:53,640

and seers have a different DNA.

138

00:07:53,700 --> 00:07:58,380

It is simply that they allow their extracentury perception.

139

00:07:58,380 --> 00:08:01,160

And their abilities to be enhanced.

140

00:08:01,220 --> 00:08:04,920

And that is the reason why they receive messages

141

00:08:05,000 --> 00:08:06,520

from the beyond.

142

00:08:06,600 --> 00:08:10,500

This speaks to the enormous hidden capacity of the brain.

143

00:08:10,560 --> 00:08:13,040

And even opens up questions of whether or not

144

00:08:13,100 --> 00:08:14,900

our brain capacity is in the brain itself,

145

00:08:14,960 --> 00:08:16,640

or maybe it's outside of the brain,

146

00:08:16,700 --> 00:08:20,100

and somehow we're able to tap into these other abilities

147

00:08:20,180 --> 00:08:22,940

outside the brain.

148

00:08:23,000 --> 00:08:25,820

The human brain, unlike the brains of animals,

149

00:08:25,860 --> 00:08:29,420

contains a large neocortex, the region responsible

150

00:08:29,500 --> 00:08:33,960

for language, logical reasoning, and consciousness.

151

00:08:34,040 --> 00:08:39,040

Many believe it is also the seat of psychic abilities.

152

00:08:39,100 --> 00:08:42,880

In 2015, researchers in Germany determined

153

00:08:42,940 --> 00:08:45,440

that the human neocortex only developed

154

00:08:45,520 --> 00:08:49,980

after it was activated by a single gene.

155

00:08:50,040 --> 00:08:53,280

Around 200,000 years ago, some neuroscientists,

156

00:08:53,320 --> 00:08:56,520

our neocortex was mysteriously switched on.

157

00:08:56,580 --> 00:08:58,260

And nobody knows how.

158

00:08:58,320 --> 00:08:59,880

Of course, ancient astronaut theory

159

00:08:59,960 --> 00:09:02,420

says it's extraterrestrials.

160

00:09:02,500 --> 00:09:06,820

That beings came from elsewhere and tweaked our DNA.

161

00:09:06,900 --> 00:09:10,000

This is very important because within the neocortex,

162

00:09:10,060 --> 00:09:15,840

we now know our precognitive abilities, psychic abilities.

163

00:09:15,900 --> 00:09:19,680

If we're actually genetically engineered by extraterrestrials,

164

00:09:19,740 --> 00:09:22,580

and they want us to have a certain kind of a brain,

165

00:09:22,640 --> 00:09:26,620

you have to wonder if ultimately what the goal is

166

00:09:26,680 --> 00:09:30,420

with extraterrestrials is to activate really

167

00:09:30,480 --> 00:09:33,820

all the humans on this planet so that we're using

168

00:09:33,880 --> 00:09:38,460

our brain power and our psychic abilities.

169

00:09:38,520 --> 00:09:41,500

Perhaps what the extraterrestrials did when they

170

00:09:41,560 --> 00:09:44,700

fashioned our DNA and activated our neocortex

171

00:09:44,760 --> 00:09:47,400

was cosmic consciousness, cosmic awareness,

172

00:09:47,460 --> 00:09:51,000

psychic abilities that could potentially link us

173

00:09:51,020 --> 00:09:54,000

to extraterrestrials.

174

00:09:54,060 --> 00:09:57,500

If human DNA was fashioned by extraterrestrials

175

00:09:57,560 --> 00:10:00,400

as ancient astronaut theorists propose,

176

00:10:00,460 --> 00:10:03,140

is it possible that within it lie powerful,

177

00:10:03,200 --> 00:10:06,380

extra sensory abilities?

178

00:10:06,440 --> 00:10:08,980

And have there been people who have been able to activate

179

00:10:09,040 --> 00:10:12,980

these talents, whether by accident, through practice,

180

00:10:13,040 --> 00:10:16,380

or by extraterrestrial intervention?

181

00:10:16,460 --> 00:10:18,520

Perhaps further clues can be found

182

00:10:18,540 --> 00:10:21,420

by examining not only claims of clairvoyance,

183

00:10:21,480 --> 00:10:25,080

but the incredible capability to move objects with the mind.

184

00:10:32,160 --> 00:10:39,560

Durham, North Carolina, 1935.

185

00:10:39,640 --> 00:10:43,400

Duke University parapsychologist Joseph Banks Rine

186

00:10:43,480 --> 00:10:47,180

publishes a study that ignites a firestorm of controversy

187

00:10:47,200 --> 00:10:50,500

in the scientific community.

188

00:10:50,580 --> 00:10:53,840

Rine claims the brain has psychic abilities.

189

00:10:53,920 --> 00:10:59,880

He calls extrasensory perception, or ESP.

190

00:10:59,960 --> 00:11:04,060

Parapsychology consists of five very distinct characteristics

191

00:11:04,120 --> 00:11:05,060

that we studied.

192

00:11:05,120 --> 00:11:12,260

One is telepathy, which is mind to mind communication.

193

00:11:12,340 --> 00:11:15,540

Clairvoyance, it's getting information about objects

194

00:11:15,560 --> 00:11:18,340

or events from a distance, whether it be something that

195

00:11:18,400 --> 00:11:20,540

be in a drawer in another room, or even something

196

00:11:20,600 --> 00:11:22,500

halfway around the world.

197

00:11:22,580 --> 00:11:26,140

Precognition, which is getting information through time,

198

00:11:26,200 --> 00:11:29,240

usually from the future, but sometimes from the past.

199

00:11:29,320 --> 00:11:35,480

We also study psychokinesis, or mind-matter interaction.

200

00:11:35,560 --> 00:11:39,660

ESP is really just the ability, or at least evidence,

201

00:11:39,720 --> 00:11:42,360

of the ability to glean information

202

00:11:42,420 --> 00:11:44,420

in an extrasensory manner.

203

00:11:44,440 --> 00:11:46,040

So we're left with a question.

204

00:11:46,120 --> 00:11:48,280

How is this information being exchanged?

205

00:11:51,280 --> 00:11:52,580

From a neuroscience perspective,

206

00:11:52,660 --> 00:11:55,020

there's a lot of controversy as to whether something

207

00:11:55,080 --> 00:11:56,320

like ESP exists.

208

00:11:56,380 --> 00:12:01,360

Is there some sensory process that our brain is able to tap into?

209

00:12:01,420 --> 00:12:05,060

Is our brain able to get to some more basic level of how

210

00:12:05,120 --> 00:12:09,100

the universe works and can pick up what other people are

211

00:12:09,160 --> 00:12:10,600

thinking or feeling?

212

00:12:10,660 --> 00:12:13,700

There are studies that purport to be able to show

213

00:12:13,740 --> 00:12:16,580

these kinds of phenomena as being real,

214

00:12:16,640 --> 00:12:20,040

and I think they need to be taken seriously.

215

00:12:20,120 --> 00:12:22,820

While working within the British Ministry of Defense,

216

00:12:22,880 --> 00:12:25,980

Nick Pope became aware that numerous world governments

217

00:12:26,060 --> 00:12:28,920

have devoted a significant amount of time and money

218

00:12:28,980 --> 00:12:31,860

to studying and even employing people claiming

219

00:12:31,920 --> 00:12:35,060

to have psychic abilities.

220

00:12:35,120 --> 00:12:39,500

In August 2019, he traveled to Durham, North Carolina

221

00:12:39,560 --> 00:12:41,840

to visit the Rhine Research Center.

222

00:12:41,900 --> 00:12:42,940

Hello.

223

00:12:42,940 --> 00:12:45,480

Hi, I'm John Crew, the executive director of the Rhine.

224

00:12:45,540 --> 00:12:46,480

I'm Nick.

225

00:12:46,540 --> 00:12:47,280

Nice to meet you, Nick.

226

00:12:47,340 --> 00:12:48,280

Come on in with me.

227

00:12:48,340 --> 00:12:49,280

I have someone I'd like you to meet.

228

00:12:49,340 --> 00:12:50,320

Great, thank you.

229

00:12:50,380 --> 00:12:52,220

John has been developing a new method

230

00:12:52,280 --> 00:12:54,780

to detect and measure psychic abilities.

231

00:12:54,860 --> 00:12:56,020

Nick, this is Ed Edwards.

232

00:12:56,080 --> 00:12:56,820

Hi.

233

00:12:56,880 --> 00:12:57,680

Great to meet you.

234

00:12:57,760 --> 00:12:58,860

Good to meet you, Nick.

235

00:12:58,920 --> 00:12:59,720

Talk me through this.

236

00:12:59,780 --> 00:13:04,760

What are we looking at here, and what are you going to do, Ed?

237

00:13:04,820 --> 00:13:06,860

OK, this equipment here, what it does

238

00:13:06,940 --> 00:13:10,240

is pick up the electrical energy I generate in my brain,

239

00:13:10,300 --> 00:13:12,000

and I'm able to control it.

240

00:13:12,020 --> 00:13:12,960

How do you do that?

241

00:13:13,020 --> 00:13:16,400

I mean, talk me through what you actually think.

242

00:13:16,460 --> 00:13:19,860

I can feel the different electrical sensations in my head

243

00:13:19,940 --> 00:13:22,000

that I consciously control.

244

00:13:22,060 --> 00:13:23,100

Like a tingling, or?

245

00:13:23,160 --> 00:13:26,740

Yeah, a tingling, magnetics, electrical sensations.

246

00:13:26,800 --> 00:13:28,180

And then out on my own, I've learned

247

00:13:28,240 --> 00:13:30,980

to generate these high energies in my hands.

248

00:13:31,040 --> 00:13:34,480

And for example, you know what neuropathy is in people,

249

00:13:34,540 --> 00:13:36,320

feet go numb and everything.

250

00:13:36,380 --> 00:13:39,380

I can apply this energy to that, and the neuropathy

251

00:13:39,460 --> 00:13:41,120

will clear up in about four minutes,

252

00:13:41,140 --> 00:13:43,280

in about eight out of 10 people.

253

00:13:43,340 --> 00:13:45,320

So it's like you're activating something.

254

00:13:45,380 --> 00:13:46,280

Correct.

255

00:13:46,340 --> 00:13:49,420

Ed talks about helping people to activate their immune systems,

256

00:13:49,480 --> 00:13:51,980

helping them to deal with physical problems.

257

00:13:52,060 --> 00:13:54,960

And I'm wondering, what is the mechanism behind this healing?

258

00:13:55,020 --> 00:13:57,720

And that's what we're going to be testing here, right?

259

00:13:57,800 --> 00:13:59,460

This is something I can demonstrate

260

00:13:59,520 --> 00:14:02,260

that really most other people can't.

261

00:14:02,340 --> 00:14:03,400

I'd love to see this.

262

00:14:03,460 --> 00:14:04,800

OK, well, let me turn it on.

263

00:14:07,900 --> 00:14:10,500

OK, now I'm going to hold these two units right here.

264

00:14:10,520 --> 00:14:12,860

And all they're doing is picking up the electrical energy

265

00:14:12,920 --> 00:14:14,360

in my body.

266

00:14:14,420 --> 00:14:16,760

So from a scientific perspective,

267

00:14:16,820 --> 00:14:20,800

this machine measures static electricity and static fields.

268

00:14:20,860 --> 00:14:24,500

And Ed is apparently generating static fields.

269

00:14:24,560 --> 00:14:26,400

So if I want that thing to go the right,

270

00:14:26,460 --> 00:14:28,000

I pull on the right side of my brain.

271

00:14:28,060 --> 00:14:29,740

If I want it to go on the left, I pull it

272

00:14:29,800 --> 00:14:32,140

on the left side of my brain.

273

00:14:32,200 --> 00:14:34,340

You tell me when, I'll pull it back to the right.

274

00:14:34,400 --> 00:14:39,980

So if I was to say right, you would and left,

275

00:14:40,020 --> 00:14:42,860

and right again.

276

00:14:42,920 --> 00:14:45,260

Without these controls, just to be clear,

277

00:14:45,320 --> 00:14:47,020

this doesn't move at all.

278

00:14:47,100 --> 00:14:49,360

If there's any ambient static fields in the area,

279

00:14:49,420 --> 00:14:51,300

it'll wiggle around a little bit.

280

00:14:51,360 --> 00:14:52,700

One of the things we thought is maybe it

281

00:14:52,760 --> 00:14:54,760

has to do with pressure he's exerting on it.

282

00:14:54,840 --> 00:14:56,300

As he increases pressure on one side,

283

00:14:56,360 --> 00:14:57,940

it moves one way or the other.

284

00:14:58,000 --> 00:15:00,780

But as you can see, he can also have this effect

285

00:15:00,840 --> 00:15:02,040

without touching it.

286

00:15:02,100 --> 00:15:04,980

Without touching it, I can hold it over there.

287

00:15:05,040 --> 00:15:06,180

I can pull it back there.

288

00:15:06,180 --> 00:15:11,180

Mentally, I'm just changing polarity in my head,

289

00:15:11,260 --> 00:15:14,260

or I'm going from one side to the other.

290

00:15:14,320 --> 00:15:17,760

Removing any physical contact with the machine,

291

00:15:17,820 --> 00:15:20,060

Ed has just demonstrated something

292

00:15:20,120 --> 00:15:22,600

many would consider impossible.

293

00:15:22,660 --> 00:15:27,900

He moved the toggle using only the power of his mind.

294

00:15:27,960 --> 00:15:30,600

Sounds like you're at the real forefront

295

00:15:30,680 --> 00:15:33,380

of some cutting edge research here.

296

00:15:33,400 --> 00:15:36,480

Well, it's difficult to find people who are able to consistently

297

00:15:36,540 --> 00:15:38,140

have these sorts of effects.

298

00:15:38,220 --> 00:15:40,680

And the fact that Ed has consistent effects

299

00:15:40,740 --> 00:15:44,720

allows us to explore the phenomenon in a lot more detail.

300

00:15:44,780 --> 00:15:48,820

Now, at the UVA studies, they do the extensive EEG brain

301

00:15:48,880 --> 00:15:50,120

mapping on me.

302

00:15:50,180 --> 00:15:52,020

And what they've learned about my brain compared

303

00:15:52,100 --> 00:15:55,800

to all the other EEGs is just freaking them out up there.

304

00:15:55,860 --> 00:15:59,800

My brain is operating on all levels of consciousness

305

00:15:59,860 --> 00:16:01,500

all at the same time.

306

00:16:01,520 --> 00:16:03,760

Typically, the human brain generates

307

00:16:03,820 --> 00:16:07,560

specific brain waves while in different states of consciousness.

308

00:16:07,640 --> 00:16:10,400

But neuroscientists who have studied Ed's brain

309

00:16:10,460 --> 00:16:13,600

claim it is capable of generating all of these separate brain

310

00:16:13,680 --> 00:16:16,140

waves simultaneously.

311

00:16:16,200 --> 00:16:19,580

When it comes to the brain waves that our brain has,

312

00:16:19,640 --> 00:16:22,640

we have denoted them alpha waves, beta waves,

313

00:16:22,720 --> 00:16:24,280

theta waves, and so forth.

314

00:16:24,340 --> 00:16:26,780

These are essentially different frequencies.

315

00:16:26,840 --> 00:16:29,780

Certain types of brain waves are essentially

316

00:16:29,800 --> 00:16:31,400

different frequencies.

317

00:16:31,480 --> 00:16:34,540

Certain types are associated with sleep patterns

318

00:16:34,600 --> 00:16:35,740

and things like that.

319

00:16:35,800 --> 00:16:38,640

But it's always been a little difficult to know exactly

320

00:16:38,700 --> 00:16:41,440

how to interpret all of the different types of brain waves

321

00:16:41,520 --> 00:16:43,540

that we have.

322

00:16:43,620 --> 00:16:46,680

An argument can be made that ESP or sacrokinesis

323

00:16:46,740 --> 00:16:52,480

or precognition could be where the brain reaches a level

324

00:16:52,560 --> 00:16:55,260

that we are unfamiliar with.

325

00:16:55,320 --> 00:16:59,160

Not because it doesn't exist, but because the great majority

326

00:16:59,200 --> 00:17:02,700

of people have not learned how to harness that side

327

00:17:02,760 --> 00:17:04,500

of the brain.

328

00:17:04,560 --> 00:17:08,540

Is it possible that abilities like telepathy and psychokinesis

329

00:17:08,600 --> 00:17:11,600

are just waiting to be developed?

330

00:17:11,680 --> 00:17:16,880

If so, is ESP something that anyone can master?

331

00:17:16,940 --> 00:17:20,280

ESP is something that everyone has to some extent.

332

00:17:20,340 --> 00:17:23,220

Just like any other skill or talent you might have,

333

00:17:23,280 --> 00:17:26,620

whether it be a musical talent, whether it be a sports talent,

334

00:17:26,640 --> 00:17:29,580

everyone has a bit of natural abilities.

335

00:17:29,640 --> 00:17:33,020

But there are some people who practice really hard

336

00:17:33,080 --> 00:17:35,020

and they get better at it whether they have

337

00:17:35,080 --> 00:17:37,020

the natural ability or not.

338

00:17:37,080 --> 00:17:39,320

Everyone has the ability to develop

339

00:17:39,380 --> 00:17:41,520

their extrasensory perception.

340

00:17:41,600 --> 00:17:44,260

It is because it is part of our DNA.

341

00:17:44,320 --> 00:17:48,640

It is innate in the human nature to be able to tap

342

00:17:48,700 --> 00:17:53,940

into other realities beyond our normal human senses.

343

00:17:53,960 --> 00:17:57,800

Could it be that harnessing extrasensory abilities

344

00:17:57,860 --> 00:18:02,940

is the key to connecting with extraterrestrial beings?

345

00:18:03,000 --> 00:18:06,240

Perhaps further clues can be found by examining

346

00:18:06,300 --> 00:18:09,680

ancient stories of the shining ones.

347

00:18:17,280 --> 00:18:20,620

Durham, North Carolina.

348

00:18:20,640 --> 00:18:24,640

August, 2019.

349

00:18:24,720 --> 00:18:28,280

Nick Pope is meeting with parapsychologist John G. Kruth

350

00:18:28,340 --> 00:18:30,980

to observe an experiment with Ed Edwards,

351

00:18:31,040 --> 00:18:35,020

a man who has demonstrated psychokinetic abilities.

352

00:18:35,080 --> 00:18:37,920

John has brought Ed and Nick to a dark room.

353

00:18:37,980 --> 00:18:41,660

Here, he intends to study Ed's abilities with a device

354

00:18:41,720 --> 00:18:45,260

that measures individual light particles called photons.

355

00:18:45,320 --> 00:18:48,000

We have a very sensitive piece of equipment here.

356

00:18:48,040 --> 00:18:50,540

It's called a photomultiplier tube.

357

00:18:50,600 --> 00:18:54,840

The photomultiplier tube will measure a single photon

358

00:18:54,900 --> 00:18:57,340

of ultraviolet light every half second.

359

00:18:57,400 --> 00:18:59,580

It's one of the most sensitive instruments

360

00:18:59,640 --> 00:19:01,340

for measuring light that exists.

361

00:19:01,400 --> 00:19:03,180

Choose a standard physics experiments

362

00:19:03,240 --> 00:19:04,840

and laser technology.

363

00:19:04,920 --> 00:19:07,240

The reason we have that in here is because we're trying

364

00:19:07,320 --> 00:19:11,620

to measure light that comes from the human body.

365

00:19:11,680 --> 00:19:15,960

The human body naturally emits light.

366

00:19:15,980 --> 00:19:21,220

The average person emits 14 to 20 photons

367

00:19:21,280 --> 00:19:24,960

by centimeter square per second.

368

00:19:25,020 --> 00:19:27,460

This is very, very low.

369

00:19:27,520 --> 00:19:28,960

So today, what we're going to do

370

00:19:29,020 --> 00:19:32,060

is we're going to have Ed just sit like he is right now,

371

00:19:32,120 --> 00:19:34,360

and we're going to take a baseline reading from him.

372

00:19:34,420 --> 00:19:36,200

Once we take a baseline from him,

373

00:19:36,260 --> 00:19:39,300

then I'm going to ask Ed to start doing the exercises

374

00:19:39,360 --> 00:19:41,160

that we were seeing downstairs to see if there's

375

00:19:41,220 --> 00:19:43,460

any change in our photon readings.

376

00:19:43,480 --> 00:19:45,860

In the control room, Nick and John

377

00:19:45,920 --> 00:19:47,960

will observe the experiment on computers

378

00:19:48,020 --> 00:19:51,860

that record the amount of light Ed produces in the dark room.

379

00:19:51,920 --> 00:19:54,300

So what are you actually hoping to observe here,

380

00:19:54,360 --> 00:19:58,100

and how will this tie in with ESP and parapsychology

381

00:19:58,160 --> 00:19:59,300

more generally?

382

00:19:59,360 --> 00:20:02,700

The emission of light, if it's being projected from him,

383

00:20:02,760 --> 00:20:06,300

would be a type of PK or psychokinesis.

384

00:20:06,380 --> 00:20:09,260

It may be a mechanism that might enable

385

00:20:09,340 --> 00:20:11,540

the ability to observe the light.

386

00:20:11,560 --> 00:20:15,000

It's a mechanism that might enable ESP.

387

00:20:15,060 --> 00:20:19,800

And how would this tie in with telepathy and clairvoyance?

388

00:20:19,860 --> 00:20:22,000

Well, when we're talking about light,

389

00:20:22,060 --> 00:20:26,000

we're talking about information carrier system.

390

00:20:26,060 --> 00:20:28,140

If you think about fiber optics,

391

00:20:28,200 --> 00:20:30,060

how the entire internet works,

392

00:20:30,140 --> 00:20:33,840

it's all done using light in different frequencies

393

00:20:33,900 --> 00:20:35,640

and different patterns,

394

00:20:35,700 --> 00:20:37,500

and this is what we're measuring in here.

395

00:20:37,580 --> 00:20:40,680

We're measuring light.

396

00:20:40,680 --> 00:20:44,020

It's possible that the light being modulated

397

00:20:44,080 --> 00:20:46,020

can be what the carrier signal could be

398

00:20:46,080 --> 00:20:48,880

for the information being transferred in ESP.

399

00:20:48,960 --> 00:20:49,960

All right?

400

00:20:50,020 --> 00:20:50,960

About ready?

401

00:20:51,020 --> 00:20:52,020

Yes.

402

00:20:52,080 --> 00:20:53,020

OK.

403

00:20:53,080 --> 00:20:54,120

Hey, Ed.

404

00:20:54,200 --> 00:20:55,220

Yeah?

405

00:20:55,300 --> 00:20:56,820

All right, I'm going to turn the lights off

406

00:20:56,900 --> 00:20:58,360

so we can start to study.

407

00:20:58,420 --> 00:21:00,860

OK.

408

00:21:00,940 --> 00:21:04,940

John kills the lights and begins the experiment.

409

00:21:05,000 --> 00:21:08,680

Ed is going to attempt to generate energy with his mind.

410

00:21:08,700 --> 00:21:11,980

First, John will record a baseline measurement.

411

00:21:12,040 --> 00:21:14,740

And you can see we're starting to take readings now.

412

00:21:14,820 --> 00:21:18,580

Typically, what would you expect to see in this experiment?

413

00:21:18,640 --> 00:21:22,420

So what we typically see is we'll see a baseline,

414

00:21:22,480 --> 00:21:24,560

which kind of wiggles around a little bit.

415

00:21:24,620 --> 00:21:27,720

It'll usually be between 12 and 20 photons

416

00:21:27,780 --> 00:21:29,520

that we'll see it moving back and forth.

417

00:21:29,600 --> 00:21:31,660

If we get it to go beyond it to a point

418

00:21:31,720 --> 00:21:34,600

where it's two times the baseline or higher,

419

00:21:34,660 --> 00:21:36,740

then that's extremely significant.

420

00:21:36,800 --> 00:21:38,100

So that's what we're looking for.

421

00:21:38,100 --> 00:21:39,100

OK.

422

00:21:39,160 --> 00:21:41,460

With their baseline readings complete,

423

00:21:41,520 --> 00:21:45,360

John starts the next phase of the experiment.

424

00:21:45,440 --> 00:21:46,360

OK, Ed.

425

00:21:46,440 --> 00:21:47,800

You can start your sitting session.

426

00:21:47,860 --> 00:21:48,640

OK.

427

00:21:52,500 --> 00:21:55,340

Ed begins his process to generate energy.

428

00:21:55,400 --> 00:21:58,680

And almost immediately, the computer readings change.

429

00:21:58,740 --> 00:21:59,540

Oh, look.

430

00:21:59,620 --> 00:22:00,780

That one jumped up to 156.

431

00:22:00,840 --> 00:22:01,680

Oh, wow.

432

00:22:01,740 --> 00:22:02,980

Now we're seeing 105.

433

00:22:03,040 --> 00:22:05,420

You can see it's consistently at a higher level

434

00:22:05,480 --> 00:22:07,280

than it was during the baseline.

435

00:22:07,340 --> 00:22:08,500

And this is what we look for.

436

00:22:08,580 --> 00:22:09,540

Right.

437

00:22:09,600 --> 00:22:11,140

We've had nothing on this scale before.

438

00:22:11,200 --> 00:22:12,200

Nothing close to that.

439

00:22:12,280 --> 00:22:14,740

Before he started to produce something.

440

00:22:14,820 --> 00:22:17,640

We just got a very big spike into the 500s.

441

00:22:17,720 --> 00:22:18,840

Oh, wow.

442

00:22:18,920 --> 00:22:20,580

The sudden change on the computer screen

443

00:22:20,640 --> 00:22:24,380

suggests something extraordinary that Ed can consciously

444

00:22:24,460 --> 00:22:27,560

manipulate energy with his mind.

445

00:22:27,620 --> 00:22:32,760

Up until this point, I think psychic talk was just that.

446

00:22:32,820 --> 00:22:33,760

It was talk.

447

00:22:33,780 --> 00:22:38,480

But even I can see that that is statistically significant.

448

00:22:38,540 --> 00:22:40,480

You don't need statistics to know that there's

449

00:22:40,540 --> 00:22:41,680

something unusual going on here.

450

00:22:41,740 --> 00:22:42,540

Sure.

451

00:22:46,380 --> 00:22:49,320

In a second experiment, a thermographic camera

452

00:22:49,380 --> 00:22:52,360

monitors heat patterns on Ed's body.

453

00:22:52,420 --> 00:22:55,760

And it detects an unexpected anomaly.

454

00:22:55,820 --> 00:22:58,120

On his palms with his hands, you see,

455

00:22:58,200 --> 00:22:59,920

it seems to be getting warmer.

456

00:23:00,000 --> 00:23:02,400

And it does seem to be getting brighter near the top of his head,

457

00:23:02,460 --> 00:23:03,500

too, doesn't it?

458

00:23:03,500 --> 00:23:06,240

It does look as if the head, or dare I say it,

459

00:23:06,300 --> 00:23:08,180

the brain is heating up here.

460

00:23:08,240 --> 00:23:10,280

Could this be mental energy?

461

00:23:10,340 --> 00:23:11,380

It's possible.

462

00:23:11,440 --> 00:23:14,080

Some people talk about the same pattern on the forehead

463

00:23:14,140 --> 00:23:19,520

and on the hands as something we've seen other healers.

464

00:23:19,580 --> 00:23:22,160

I came to the Ryan Research Center

465

00:23:22,220 --> 00:23:24,320

not really knowing what to expect.

466

00:23:24,400 --> 00:23:27,920

I've come away with a changed perspective.

467

00:23:28,000 --> 00:23:31,360

I've seen light associated with ESP.

468

00:23:33,540 --> 00:23:36,840

Light created by mental energy?

469

00:23:36,900 --> 00:23:40,240

John's experiment may show that the human brain has

470

00:23:40,300 --> 00:23:43,680

far more potential than previously thought.

471

00:23:43,740 --> 00:23:48,880

Could these abilities stem from an extraterrestrial origin?

472

00:23:48,940 --> 00:23:51,720

Curiously, across ancient cultures,

473

00:23:51,780 --> 00:23:55,820

there are stories of gods and holy figures emitting light.

474

00:23:55,880 --> 00:23:58,520

In Irish legend, we learn of the two of the da da,

475

00:23:58,580 --> 00:24:00,220

or the two of da da.

476

00:24:00,300 --> 00:24:02,360

These are luminous humanoid beings

477

00:24:02,380 --> 00:24:05,320

who are considered to be beings of immense wisdom who are also

478

00:24:05,400 --> 00:24:06,460

called the shining ones.

479

00:24:09,120 --> 00:24:12,360

Similar to the shining ones of the Celtic tradition,

480

00:24:12,440 --> 00:24:15,200

the ancient Sumerian gods called the Anunnaki

481

00:24:15,260 --> 00:24:17,740

are described as glowing.

482

00:24:17,800 --> 00:24:21,080

In Judeo-Christian traditions, when Moses came down

483

00:24:21,140 --> 00:24:23,300

from Mount Sinai with the Ten Commandments,

484

00:24:23,380 --> 00:24:26,640

he, too, was described as glowing.

485

00:24:26,720 --> 00:24:30,520

Might this description be more than metaphorical?

486

00:24:30,540 --> 00:24:33,120

In a meditative state, you can actually

487

00:24:33,180 --> 00:24:37,020

increase the number of photons up to 1,000, 2,000,

488

00:24:37,080 --> 00:24:42,020

or even 100,000 photons per second,

489

00:24:42,080 --> 00:24:44,520

which is extremely bright.

490

00:24:44,600 --> 00:24:48,460

This tells us that when we are in a heightened state of awareness,

491

00:24:48,520 --> 00:24:50,700

in a higher state of consciousness,

492

00:24:50,760 --> 00:24:54,640

our bodies emit a huge amount of light.

493

00:24:54,700 --> 00:24:58,800

And perhaps that is the reason why we call it enlightenment.

494

00:25:00,540 --> 00:25:03,680

Is it possible that by reaching a state of enlightenment,

495

00:25:03,740 --> 00:25:07,280

one is able to connect with extraterrestrials?

496

00:25:07,360 --> 00:25:09,520

Opening the third eye is a poetic way

497

00:25:09,580 --> 00:25:11,660

of saying illumination or enlightenment.

498

00:25:11,720 --> 00:25:16,760

This is gaining access to some perception, some vision that

499

00:25:16,820 --> 00:25:19,460

is beyond ordinary experience.

500

00:25:19,540 --> 00:25:22,340

And this helps us with the tasks we have.

501

00:25:22,400 --> 00:25:25,700

This helps us with the challenges making plans.

502

00:25:25,780 --> 00:25:29,400

It is a kind of ordinary magic to grasp some information

503

00:25:29,460 --> 00:25:32,220

that is beyond everyday imagination.

504

00:25:32,300 --> 00:25:35,900

Extraterrestrials don't speak English or French or Chinese.

505

00:25:35,960 --> 00:25:40,360

They communicate with humans through telepathy.

506

00:25:40,440 --> 00:25:43,640

When you come in contact with an extraterrestrial,

507

00:25:43,700 --> 00:25:47,840

you're going to feel like they are reading your mind.

508

00:25:47,900 --> 00:25:52,380

And you'll be able to exchange information spontaneously

509

00:25:52,440 --> 00:25:53,380

through telepathy.

510

00:25:53,400 --> 00:25:58,900

Could it be that people who have activated a higher brain

511

00:25:58,980 --> 00:26:02,340

function emit light, making it possible for them

512

00:26:02,400 --> 00:26:05,940

to communicate with extraterrestrial beings?

513

00:26:06,000 --> 00:26:09,980

And if so, what are they trying to say?

514

00:26:10,040 --> 00:26:12,080

Perhaps further clues can be found

515

00:26:12,140 --> 00:26:15,780

by examining how psychic abilities have been utilized

516

00:26:15,840 --> 00:26:17,820

by the United States government.

517

00:26:23,880 --> 00:26:32,380

Washington, DC, 1995.

518

00:26:32,440 --> 00:26:36,780

The US government declassifies the Stargate Project,

519

00:26:36,840 --> 00:26:39,280

a secret army unit that employed people

520

00:26:39,340 --> 00:26:42,980

with psychic abilities as spies.

521

00:26:43,040 --> 00:26:45,480

The clandestine unit gathered intelligence

522

00:26:45,540 --> 00:26:49,480

about persons, places, and events from great distances

523

00:26:49,540 --> 00:26:51,880

by sensing with their mind.

524

00:26:51,940 --> 00:26:55,980

A practice called remote viewing.

525

00:26:56,040 --> 00:27:00,440

During the 1970s, President Jimmy Carter's administration

526

00:27:00,520 --> 00:27:03,220

used remote viewers to locate a downed Russian spy

527

00:27:03,280 --> 00:27:05,780

plane in Africa.

528

00:27:05,860 --> 00:27:08,420

You talk to any of the old remote viewers, the ones

529

00:27:08,480 --> 00:27:10,460

from the Stargate program, they'll

530

00:27:10,520 --> 00:27:14,120

tell you how accurate and how important

531

00:27:14,200 --> 00:27:17,500

and how relevant their information was.

532

00:27:17,620 --> 00:27:23,560

John Favonco has been a remote viewer for over 20 years.

533

00:27:23,620 --> 00:27:27,600

I worked with corporations as a professional remote viewer

534

00:27:27,660 --> 00:27:28,660

on these projects.

535

00:27:28,740 --> 00:27:32,840

Corporations, intelligence, counter-terror for the FBI

536

00:27:32,900 --> 00:27:35,700

after 9-11.

537

00:27:35,780 --> 00:27:39,880

Remote viewing fits into ESP, but remote viewing

538

00:27:39,940 --> 00:27:43,580

is also kind of like the Swiss army knife of psychic

539

00:27:43,600 --> 00:27:48,000

functioning, because it kind of uses all of these different

540

00:27:48,060 --> 00:27:53,840

aspects of ESP in order to get information on things.

541

00:27:53,900 --> 00:27:57,600

A key part of remote viewing involves entering a trans-like

542

00:27:57,680 --> 00:28:02,400

state, which John does by listening to specific sounds.

543

00:28:02,480 --> 00:28:03,780

We have brainwaves.

544

00:28:03,840 --> 00:28:08,940

And in the thinking monkey mind state that we're normally in,

545

00:28:09,020 --> 00:28:11,580

that is beta.

546

00:28:11,660 --> 00:28:15,920

If you think about an EEG, it's very high peaks and valleys,

547

00:28:16,000 --> 00:28:17,260

moving fast.

548

00:28:17,320 --> 00:28:19,960

That's not a very good place to remote view from.

549

00:28:20,020 --> 00:28:22,060

So when we listen to the binaural beats,

550

00:28:22,120 --> 00:28:25,140

they move us down into alpha, which is a little bit slower

551

00:28:25,200 --> 00:28:28,240

and meditative, and also down into theta.

552

00:28:28,300 --> 00:28:32,300

And we like to stay in the alpha to the theta zone

553

00:28:32,380 --> 00:28:35,480

using that tool in order to get the best information.

554

00:28:36,380 --> 00:28:40,480

During a trans state, the brain begins to relax,

555

00:28:40,560 --> 00:28:45,060

going down from beta to theta to alpha state,

556

00:28:45,120 --> 00:28:49,620

which is between 4 and 8 hertz.

557

00:28:49,700 --> 00:28:55,400

Profits and seers tap into the theta layer of reality,

558

00:28:55,460 --> 00:28:57,900

where they are extremely relaxed,

559

00:28:57,960 --> 00:29:01,700

which allows them to receive visions and imagery

560

00:29:01,700 --> 00:29:06,240

beyond the normal human perception.

561

00:29:06,300 --> 00:29:08,700

While working as a remote viewer,

562

00:29:08,780 --> 00:29:13,280

Vivanko claims to have gathered more than just information.

563

00:29:13,340 --> 00:29:17,880

He has also encountered other worldly beings.

564

00:29:17,940 --> 00:29:23,820

I'm at home, and I'm having this crazy dream.

565

00:29:23,880 --> 00:29:29,560

So I open my eyes, I sit up, and there's this thing.

566

00:29:30,480 --> 00:29:33,120

I'd say like six feet away from me.

567

00:29:33,180 --> 00:29:38,060

It's got a head shape like a football on its side,

568

00:29:38,120 --> 00:29:43,200

two eyes, it's got these sort of spindly legs.

569

00:29:43,260 --> 00:29:46,340

So I start backing up, and I'm starting to go, whoa, whoa, whoa.

570

00:29:46,400 --> 00:29:50,400

And it telepathically communicated with me.

571

00:29:50,480 --> 00:29:53,140

And they said, we are here to help you,

572

00:29:53,200 --> 00:29:55,740

and we want you to help us.

573

00:29:55,800 --> 00:29:58,640

John was not the only remote viewer on his team.

574

00:29:58,700 --> 00:30:00,600

To have such an experience.

575

00:30:00,660 --> 00:30:04,900

Now, the other viewers started to experience the same thing.

576

00:30:04,960 --> 00:30:08,500

And so that's when we started to, OK, now, you know,

577

00:30:08,580 --> 00:30:11,440

I'm not hallucinating.

578

00:30:11,500 --> 00:30:14,240

It is not only remote viewers who have reported

579

00:30:14,320 --> 00:30:17,420

telepathic communication with other worldly beings.

580

00:30:20,380 --> 00:30:22,820

In the ancient world, priests and seers

581

00:30:22,880 --> 00:30:24,820

developed various methods to enter

582

00:30:24,880 --> 00:30:26,520

an altered state of consciousness

583

00:30:26,580 --> 00:30:28,520

to connect with their gods.

584

00:30:29,480 --> 00:30:34,940

In Ireland, Celtic shaman rhythmically banged on drums.

585

00:30:35,020 --> 00:30:37,680

The famous Greek seer, the Oracle of Delphi,

586

00:30:37,740 --> 00:30:41,120

would inhale a noxious gas and go into an ecstatic dance.

587

00:30:44,420 --> 00:30:48,420

Perhaps the most curious tale comes from ancient China,

588

00:30:48,480 --> 00:30:51,320

where Taoist priests would practice a mystic dance

589

00:30:51,380 --> 00:30:54,920

ritual called the pace of you.

590

00:30:54,980 --> 00:30:57,460

The pace of you is a mediumistic trend

591

00:30:57,500 --> 00:31:02,060

that enables practitioners to escape the normal confines

592

00:31:02,120 --> 00:31:05,160

of time and space and travel to the stars

593

00:31:05,220 --> 00:31:09,800

in order to communicate with the divine beings that inhabit them.

594

00:31:09,860 --> 00:31:13,900

And there, they would interact with various astral deities

595

00:31:13,960 --> 00:31:16,700

and stellar powers or stellar divinities

596

00:31:16,760 --> 00:31:23,340

in order to directly ask them for advice about future events.

597

00:31:23,400 --> 00:31:26,340

Astral deities with stellar powers?

598

00:31:26,380 --> 00:31:28,580

Might the priests have been communicating

599

00:31:28,640 --> 00:31:30,680

with extraterrestrials?

600

00:31:30,740 --> 00:31:34,220

With these trans-like states, the whole idea

601

00:31:34,280 --> 00:31:40,080

is to really contact the gods and higher beings.

602

00:31:40,140 --> 00:31:43,720

And are you perhaps contacting extraterrestrials?

603

00:31:46,920 --> 00:31:50,720

In modern times, powerful leaders from Winston Churchill

604

00:31:50,780 --> 00:31:53,520

to Ronald Reagan sought counsel from people

605

00:31:53,600 --> 00:31:57,100

with psychic abilities for all types of decisions.

606

00:31:57,160 --> 00:32:00,360

What leader wouldn't benefit from knowing

607

00:32:00,420 --> 00:32:05,400

what lies around the corner, whether it's good news or bad news?

608

00:32:05,460 --> 00:32:09,100

And perhaps have the opportunity to try to prevent

609

00:32:09,160 --> 00:32:12,600

something catastrophic from happening on their watch.

610

00:32:15,140 --> 00:32:18,680

So I think this is just a continuation of something

611

00:32:18,740 --> 00:32:22,820

that has been with us since the dawn of civilization.

612

00:32:22,840 --> 00:32:27,920

If psychics have been steering the highest affairs of a nation,

613

00:32:27,980 --> 00:32:30,920

might they be part of an extraterrestrial agenda

614

00:32:30,980 --> 00:32:34,320

to direct the course of life on Earth?

615

00:32:34,380 --> 00:32:39,320

But if so, how could other worldly beings know the future?

616

00:32:39,400 --> 00:32:42,700

Perhaps clues can be found, not within the mind,

617

00:32:42,760 --> 00:32:45,900

but from far beyond our known universe.

618

00:32:46,400 --> 00:32:51,400

In 1991, author Michael Talbot publishes the book,

619

00:32:51,460 --> 00:32:53,400

The Holographic Universe.

620

00:32:53,460 --> 00:32:57,940

In it, Talbot proposes that the universe is like a holograph,

621

00:32:58,000 --> 00:33:02,600

an image or scene produced by a photographic projection.

622

00:33:02,680 --> 00:33:05,780

In a holographic universe, all the information,

623

00:33:05,840 --> 00:33:10,980

past, present, and future, exists all at once.

624

00:33:11,000 --> 00:33:13,180

Within this holographic universe,

625

00:33:13,240 --> 00:33:18,840

your own past lives and future lives have already happened.

626

00:33:18,920 --> 00:33:21,520

Everything is contained there.

627

00:33:21,580 --> 00:33:25,380

So with the ability to tap into the holographic universe,

628

00:33:25,460 --> 00:33:27,720

you can see the past.

629

00:33:27,780 --> 00:33:30,120

You could see the future, and you would know

630

00:33:30,200 --> 00:33:33,320

what's going to happen next.

631

00:33:33,400 --> 00:33:36,460

In Western cultures, the past is the only way

632

00:33:36,540 --> 00:33:38,200

to get to the present.

633

00:33:38,960 --> 00:33:43,200

In Western cultures, where time is seen as a linear progress,

634

00:33:43,260 --> 00:33:45,560

the concept of a holographic universe

635

00:33:45,640 --> 00:33:48,300

may seem like science fiction.

636

00:33:48,360 --> 00:33:51,500

But numerous cultures, both ancient and modern,

637

00:33:51,580 --> 00:33:54,900

believe that time is cyclical and repeats itself

638

00:33:54,980 --> 00:33:56,640

on an endless loop.

639

00:33:56,700 --> 00:33:59,640

Buddhist and Hindu beliefs refer to this cycle

640

00:33:59,720 --> 00:34:01,280

as kalachakra.

641

00:34:01,340 --> 00:34:03,920

The notion of kalachakra refers to this idea

642

00:34:03,980 --> 00:34:08,180

that there is a synchronicity between the two.

643

00:34:08,260 --> 00:34:10,860

There are various cycles in the universe.

644

00:34:10,920 --> 00:34:13,860

There is the large cosmic time cycle,

645

00:34:13,920 --> 00:34:17,160

which is then synchronized with other cycles

646

00:34:17,240 --> 00:34:22,340

that go from the rotation of planets all the way to seasons.

647

00:34:22,400 --> 00:34:24,900

So all of these cycles are interconnected

648

00:34:24,980 --> 00:34:27,440

in this great circular motion,

649

00:34:27,500 --> 00:34:32,440

which goes back to a circular notion of time.

650

00:34:32,520 --> 00:34:37,280

Many religious stories speak of a place outside of time.

651

00:34:37,340 --> 00:34:42,940

Perhaps one could travel outside of time and back into time.

652

00:34:43,020 --> 00:34:50,180

Later or earlier, it makes the concept of time travel workable.

653

00:34:50,240 --> 00:34:54,720

Time travel, a place outside of time.

654

00:34:54,780 --> 00:34:58,220

Could the concepts of past, present, and future

655

00:34:58,280 --> 00:35:01,720

only exist from a person's perspective,

656

00:35:01,780 --> 00:35:05,660

moving through space and time?

657

00:35:05,700 --> 00:35:09,700

If all moments in time are actually happening simultaneously,

658

00:35:09,760 --> 00:35:13,500

might the mind be able to see beyond the specific point in time

659

00:35:13,560 --> 00:35:17,240

in which it physically exists?

660

00:35:17,300 --> 00:35:19,700

Some ancient astronaut theorists believe

661

00:35:19,780 --> 00:35:22,380

that extraterrestrials designed the human brain

662

00:35:22,440 --> 00:35:24,820

with other, even more extraordinary,

663

00:35:24,880 --> 00:35:29,380

extra sensory abilities we have yet to discover.

664

00:35:29,460 --> 00:35:34,360

In the 1970s, this French philosopher by the name of Dr. Jean Chiron

665

00:35:34,380 --> 00:35:38,460

proposed that each and every single particle

666

00:35:38,520 --> 00:35:42,860

that's in existence throughout the entire universe

667

00:35:42,920 --> 00:35:47,860

contains the entire knowledge of the universe.

668

00:35:47,940 --> 00:35:50,300

He called that the eternal spirit.

669

00:35:50,360 --> 00:35:55,280

And he said, and this is my favorite quote of the entire book,

670

00:35:55,340 --> 00:36:01,980

that the brain is the last untamed beast in the universe.

671

00:36:05,360 --> 00:36:08,360

Is it possible that the next step in human evolution

672

00:36:08,420 --> 00:36:11,260

depends not on our mastery of technology,

673

00:36:11,320 --> 00:36:15,320

but on the mastery of our own minds?

674

00:36:15,400 --> 00:36:19,360

Will our ascension into the stars come not through physics,

675

00:36:19,440 --> 00:36:21,940

but something more?

676

00:36:22,000 --> 00:36:27,440

We think that we need a machine to make us more intelligent,

677

00:36:27,500 --> 00:36:31,640

to make us more superior and enhance our ability.

678

00:36:31,660 --> 00:36:35,560

But you have access to certain powers and capabilities

679

00:36:35,640 --> 00:36:38,640

way beyond the machinery.

680

00:36:38,700 --> 00:36:42,540

The human brain has the ability to communicate

681

00:36:42,600 --> 00:36:46,940

with other beings, other dimensions and realities.

682

00:36:47,000 --> 00:36:50,440

Some people believe that the prophets and seers

683

00:36:50,500 --> 00:36:54,380

may have a hybrid extraterrestrial lineage.

684

00:36:54,440 --> 00:36:58,980

But I believe that everyone has this capability.

685

00:36:58,980 --> 00:37:02,980

The way to evolve is through consciousness.

686

00:37:03,040 --> 00:37:06,240

Consciousness is more powerful and more important

687

00:37:06,320 --> 00:37:09,820

than machinery and AI.

688

00:37:09,880 --> 00:37:13,620

Is it humanity's destiny to master psychic abilities

689

00:37:13,680 --> 00:37:17,360

that could put us in contact with other intelligent beings

690

00:37:17,420 --> 00:37:21,560

and lead to our ascension from Earth?

691

00:37:21,620 --> 00:37:23,800

There are some who believe that a man who

692

00:37:23,860 --> 00:37:26,900

harnessed these abilities centuries ago,

693

00:37:26,900 --> 00:37:31,660

Michelle de Nostradamus, left a warning for future generations

694

00:37:31,720 --> 00:37:34,960

that this extrasensory evolution may be critical

695

00:37:35,020 --> 00:37:38,500

to the survival of humankind.

696

00:37:45,700 --> 00:37:50,200

July 23, 2012.

697

00:37:50,260 --> 00:37:52,900

A solar flare erupts from a powerful storm

698

00:37:52,960 --> 00:37:56,100

on the surface of the sun and hurdles towards Earth.

699

00:37:56,860 --> 00:37:59,860

Due to the tilt of the planet on this particular day,

700

00:37:59,920 --> 00:38:03,960

we barely miss bombardment by the apocalyptic flame.

701

00:38:04,020 --> 00:38:07,520

Had it happened one week earlier,

702

00:38:07,600 --> 00:38:11,400

humans would have faced a global catastrophe.

703

00:38:11,460 --> 00:38:16,020

Now scientists say it could happen again.

704

00:38:16,100 --> 00:38:20,520

And next time, a solar flare could strike a fatal blow.

705

00:38:21,140 --> 00:38:23,940

Remarkably, over five centuries ago,

706

00:38:24,020 --> 00:38:26,940

Michelle de Nostradamus made a prediction

707

00:38:27,020 --> 00:38:29,980

about the end of life on Earth that to many sounds

708

00:38:30,040 --> 00:38:34,440

eerily similar to the potential effects of a solar flare.

709

00:38:34,520 --> 00:38:39,240

Nostradamus has made one of the farthest future

710

00:38:39,320 --> 00:38:42,140

dated prophecies in history.

711

00:38:42,220 --> 00:38:44,940

The fire sears and dries out and destroys

712

00:38:45,020 --> 00:38:46,740

and desiccates the surface of the Earth,

713

00:38:46,820 --> 00:38:50,440

destroying all the other things that are in the Earth.

714

00:38:50,520 --> 00:38:53,180

He's living a small life on the surface.

715

00:38:53,240 --> 00:38:55,280

But then he gives some hope, he says,

716

00:38:55,340 --> 00:38:58,520

but the races of humanity will go on.

717

00:38:58,580 --> 00:39:00,980

And then he makes a statement that he never

718

00:39:01,040 --> 00:39:04,140

has made in any of his utterances.

719

00:39:04,220 --> 00:39:07,740

He starts using astrological identifications

720

00:39:07,820 --> 00:39:10,640

for places in space as locations.

721

00:39:10,720 --> 00:39:15,040

He says, some will go to Aquarius for a few years.

722

00:39:15,120 --> 00:39:18,140

Others will go to the constellation of cancer.

723

00:39:18,140 --> 00:39:21,140

A hint of a man from the 16th century

724

00:39:21,200 --> 00:39:24,900

trying to grasp the concept of the galactic stage

725

00:39:24,960 --> 00:39:28,400

of human civilization.

726

00:39:28,460 --> 00:39:32,400

The idea that somebody from around 500 years ago

727

00:39:32,460 --> 00:39:35,860

said that we'll have to leave planet Earth

728

00:39:35,940 --> 00:39:39,140

in order to live elsewhere to continue life,

729

00:39:39,200 --> 00:39:42,760

that's incredibly fascinating because what does a man

730

00:39:42,840 --> 00:39:47,440

from 500 years ago know about leaving planet Earth?

731

00:39:48,140 --> 00:39:52,040

Could Nostradamus have been warned about a future catastrophe

732

00:39:52,100 --> 00:39:54,900

by other worldly beings?

733

00:39:54,980 --> 00:39:57,100

And might they be shepherding humanity

734

00:39:57,180 --> 00:40:00,340

until we unlock the full potential of our brain

735

00:40:00,420 --> 00:40:04,320

and become shining ones like them?

736

00:40:04,380 --> 00:40:06,420

Other extraterrestrial civilizations

737

00:40:06,480 --> 00:40:09,280

are going to focus on consciousness,

738

00:40:09,360 --> 00:40:13,320

on making their bodies into light.

739

00:40:13,400 --> 00:40:16,560

When you become a light body, you

740

00:40:16,580 --> 00:40:20,180

have access to certain powers and capabilities

741

00:40:20,260 --> 00:40:22,780

way beyond the machinery.

742

00:40:22,860 --> 00:40:25,020

Humanity is evolving.

743

00:40:25,080 --> 00:40:27,320

We are advancing our consciousness,

744

00:40:27,380 --> 00:40:31,560

and it is consciousness that directs your thoughts.

745

00:40:31,620 --> 00:40:35,760

It is consciousness that can manage your body.

746

00:40:35,820 --> 00:40:38,360

And consciousness has the ability

747

00:40:38,420 --> 00:40:42,260

to communicate directly with machinery.

748

00:40:42,320 --> 00:40:46,260

Anything that contains artificial intelligence.

749

00:40:47,020 --> 00:40:49,060

There have been a number of studies that have shown

750

00:40:49,120 --> 00:40:51,620

that consciousness seems to be able to go beyond

751

00:40:51,700 --> 00:40:53,600

just what is in the human brain.

752

00:40:53,660 --> 00:40:55,960

And that is something that I think all of us

753

00:40:56,040 --> 00:40:58,460

need to think about.

754

00:40:58,540 --> 00:41:01,500

What the future holds remains to be seen,

755

00:41:01,580 --> 00:41:05,700

but one argument is that the development of psychic abilities

756

00:41:05,780 --> 00:41:09,180

is going to be the next step of human evolution.

757

00:41:09,240 --> 00:41:14,020

That unlocking these abilities that perhaps lie dormant

758

00:41:14,040 --> 00:41:18,520

to all of us is going to be the key to upgrading

759

00:41:18,580 --> 00:41:21,080

humanity to the next level.

760

00:41:21,160 --> 00:41:23,620

It seems quite possible that as we evolve,

761

00:41:23,680 --> 00:41:26,020

our psychic abilities will also evolve,

762

00:41:26,100 --> 00:41:27,600

and that maybe our ultimate destiny

763

00:41:27,660 --> 00:41:30,460

is to become telepathic beings like what we see

764

00:41:30,520 --> 00:41:34,360

with these extraterrestrials.

765

00:41:34,440 --> 00:41:38,600

Could it be that one day soon, all humans

766

00:41:38,660 --> 00:41:41,040

will be able to tap into incredible abilities

767

00:41:41,160 --> 00:41:45,400

that lie dormant within the brain?

768

00:41:45,460 --> 00:41:49,400

Will we be able to move objects with our minds,

769

00:41:49,480 --> 00:41:52,840

communicate telepathically,

770

00:41:52,900 --> 00:41:56,480

and even see into the future?

771

00:41:56,540 --> 00:42:00,420

Perhaps once we reach a new level of psychic awareness,

772

00:42:00,480 --> 00:42:03,280

we will be able to both see and realize

773

00:42:03,360 --> 00:42:06,720

our destiny in the stars.
