

1

00:00:00,000 --> 00:00:08,000

ancient stories that describe civilizations long before our own.

2

00:00:08,000 --> 00:00:12,000

Oral histories can always talk about the before the before,

3

00:00:12,000 --> 00:00:15,000

when gods and people walked the land.

4

00:00:15,000 --> 00:00:20,000

New discoveries that challenge conventional history.

5

00:00:20,000 --> 00:00:25,000

These Mesoamerican sites actually extends the time frame for archaeology

6

00:00:25,000 --> 00:00:29,000

from 10,000 years to tens of thousands of years.

7

00:00:29,000 --> 00:00:36,000

And monumental structures that suggest that everything we think we know about our planet is wrong.

8

00:00:36,000 --> 00:00:43,000

This pyramid city is so deep in the ocean, it must be 50,000 years old.

9

00:00:43,000 --> 00:00:52,000

There's no question in my mind that pre-existing civilizations on this planet had high technology.

10

00:00:52,000 --> 00:00:55,000

They had help from the extraterrestrials.

11

00:00:55,000 --> 00:01:01,000

But if human civilizations existed on Earth tens of thousands of years ago,

12

00:01:01,000 --> 00:01:03,000

what happened to them?

13

00:01:03,000 --> 00:01:10,000

And could it be only a matter of time before their fate becomes our own?

14

00:01:13,000 --> 00:01:18,000

There is a doorway in the universe.

15

00:01:18,000 --> 00:01:22,000

Beyond it is the promise of truth.

16

00:01:22,000 --> 00:01:27,000

It demands we question everything we have ever been taught.

17

00:01:27,000 --> 00:01:31,000

The evidence is all around us.

18

00:01:31,000 --> 00:01:35,000

The future is right before our eyes.

19

00:01:35,000 --> 00:01:38,000

We are not alone.

20

00:01:38,000 --> 00:01:41,000

We have never been alone.

21

00:01:41,000 --> 00:01:53,000

April 2018.

22

00:01:53,000 --> 00:01:58,000

A groundbreaking paper is published by NASA scientist Gavin Schmidt

23

00:01:58,000 --> 00:02:03,000

and astrophysicist Adam Frank that tackles an intriguing question.

24

00:02:03,000 --> 00:02:07,000

Might advanced civilizations have existed on Earth in the remote past

25

00:02:07,000 --> 00:02:11,000

that have been completely lost to history?

26

00:02:11,000 --> 00:02:14,000

This paper asks a very interesting question, which is,

27

00:02:14,000 --> 00:02:18,000

can we detect ancient civilizations that are tens of thousands of years old?

28

00:02:18,000 --> 00:02:21,000

And the intriguing answer is really no,

29

00:02:21,000 --> 00:02:24,000

because all evidence of these civilizations and remnants of them

30

00:02:24,000 --> 00:02:28,000

would have been destroyed in that time frame.

31

00:02:28,000 --> 00:02:33,000

The evidence for them would be hard to find, they were saying.

32

00:02:33,000 --> 00:02:40,000

Cataclysms and earth changes in the past would have erased the evidence for these civilizations.

33

00:02:40,000 --> 00:02:45,000

You know, we're only a couple hundred years into a technological civilization.

34

00:02:45,000 --> 00:02:49,000

That's not a very long time frame in the fossil record.

35

00:02:49,000 --> 00:02:57,000

So if our civilization got wiped out, we would possibly disappear from that record in the future.

36

00:02:57,000 --> 00:03:06,000

Once humankind is gone, all those skyscrapers, all the results of human civilization

37

00:03:06,000 --> 00:03:10,000

will be gone after a thousand years.

38

00:03:10,000 --> 00:03:15,000

So who knows what will be left after a hundred thousand years

39

00:03:15,000 --> 00:03:21,000

or in some cases hundreds of thousands of years?

40

00:03:21,000 --> 00:03:24,000

According to mainstream archaeology,

41

00:03:24,000 --> 00:03:32,000

the earth's earliest civilization emerged in the area of modern-day Iraq around 3000 BC.

42

00:03:32,000 --> 00:03:37,000

But the surviving histories of many ancient peoples tell of an earlier age,

43

00:03:37,000 --> 00:03:44,000

one where mortals and beings known as gods lived side by side.

44

00:03:44,000 --> 00:03:50,000

Oral histories have been around generations upon generations upon generations.

45

00:03:50,000 --> 00:03:57,000

And they always talk about the before the before, when gods and people walked the land.

46

00:03:57,000 --> 00:04:02,000

Hesiod was a Greek author who wrote that there were five ages of man,

47

00:04:02,000 --> 00:04:09,000

the golden age, the silver age, the bronze age, the age of heroes and the age of iron.

48

00:04:09,000 --> 00:04:14,000

In the golden age, basically people were living beautiful lives along with the gods.

49

00:04:14,000 --> 00:04:17,000

And he thought this was real, he didn't think this was a myth.

50

00:04:17,000 --> 00:04:20,000

The Aztecs have other ages of man.

51

00:04:20,000 --> 00:04:26,000

Other cultures have similar ways of breaking up time and going back into deep time.

52

00:04:26,000 --> 00:04:30,000

It's their understanding of their origins.

53

00:04:31,000 --> 00:04:35,000

When we look into the historical records of the Greeks and the Aztecs,

54

00:04:35,000 --> 00:04:38,000

they're often talking about ages.

55

00:04:39,000 --> 00:04:42,000

Often ages that span many thousands of years.

56

00:04:42,000 --> 00:04:47,000

And it opens up the possibility that humanity in fact has gone through intermittent periods of dark and light

57

00:04:47,000 --> 00:04:50,000

for many, many thousands of years for millennia.

58

00:04:50,000 --> 00:04:53,000

And it's just part of our experience here on Earth.

59

00:04:55,000 --> 00:05:01,000

Stories of an age before modern humans can even be found in early Judaic texts,

60

00:05:01,000 --> 00:05:07,000

which describe a race of humans that existed on the earth long before the biblical Adam.

61

00:05:08,000 --> 00:05:12,000

The pre-Adamic civilizations are hinted to in the Bible.

62

00:05:12,000 --> 00:05:18,000

There is a curious genealogy which is portrayed in the Book of Genesis chapter 36,

63

00:05:18,000 --> 00:05:26,000

which states, these are the kings who reigned in the land of Edom prior to there being a king in Israel.

64

00:05:28,000 --> 00:05:35,000

There were intelligent, technologically advanced civilizations of a humanoid nature here on Earth

65

00:05:35,000 --> 00:05:37,000

prior to Adam.

66

00:05:38,000 --> 00:05:43,000

According to Inokian literature, we have a record of it being technologically advanced,

67

00:05:43,000 --> 00:05:47,000

even to the point of having nuclear technology.

68

00:05:50,000 --> 00:05:55,000

I think there's extensive knowledge from many cultures, many traditions

69

00:05:55,000 --> 00:05:59,000

that something existed before our modern human civilization developed.

70

00:05:59,000 --> 00:06:04,000

There might have been other civilizations on Earth that predated us

71

00:06:04,000 --> 00:06:10,000

that were not the only technological civilization on the planet, but just the latest one.

72

00:06:10,000 --> 00:06:18,000

There have been previous ones that existed that were destroyed and that have forgotten over time.

73

00:06:20,000 --> 00:06:25,000

Could it be that these ancient stories are more than just fanciful tales

74

00:06:25,000 --> 00:06:32,000

and that our planet has witnessed the rise and fall of more than one so-called advanced civilization?

75

00:06:34,000 --> 00:06:41,000

We have stories of the golden era when the so-called gods still mingled among men.

76

00:06:41,000 --> 00:06:46,000

So you have to wonder what gods and what time and who were they?

77

00:06:46,000 --> 00:06:52,000

According to mainstream archaeology, the gods were nothing but a figment of our ancestors' imagination

78

00:06:52,000 --> 00:06:57,000

and I wholeheartedly disagree with this because our ancestors were very clear

79

00:06:57,000 --> 00:07:04,000

in distinguishing gods of nature and gods who actually descended from the sky physically

80

00:07:04,000 --> 00:07:07,000

and taught mankind in various disciplines.

81

00:07:08,000 --> 00:07:14,000

So if there's a prehistoric civilization, what I'm saying is that that knowledge did come from the extraterrestrials.

82

00:07:15,000 --> 00:07:19,000

A central idea behind what is known as ancient astronaut theory

83

00:07:19,000 --> 00:07:26,000

is the notion that extraterrestrials came to earth in the distant past and altered the course of humanity.

84

00:07:27,000 --> 00:07:34,000

If the various stories of ancient civilizations are true, including those concerning gods living among mortals,

85

00:07:34,000 --> 00:07:39,000

could it mean that alien visitations may have happened more than once?

86

00:07:39,000 --> 00:07:44,000

Ancient astronaut theorists believe that not only is such a profound notion possible,

87

00:07:44,000 --> 00:07:52,000

but that evidence can be found by examining the stories of the Sumerian civilization that emerged 5,000 years ago.

88

00:07:53,000 --> 00:07:56,000

And the beings they called the Anunnaki.

89

00:07:57,000 --> 00:08:01,000

The term Anunnaki means those who from the heavens came

90

00:08:01,000 --> 00:08:08,000

and our ancestors thought they were being visited by these divine magical beings.

91

00:08:09,000 --> 00:08:15,000

In the ancient Sumerian texts, they were described as bringing knowledge and science.

92

00:08:16,000 --> 00:08:20,000

They were often depicted as bird type people.

93

00:08:21,000 --> 00:08:29,000

Curiously, a similar figure to the bird-headed Anunnaki exists in cave art discovered in Lascaux, France,

94

00:08:29,000 --> 00:08:32,000

which dates back to roughly 16,000 BC.

95

00:08:33,000 --> 00:08:41,000

In the Lascaux cave is a deep shaft with an incredible pictorial story on the wall.

96

00:08:42,000 --> 00:08:51,000

It shows a huge bull-like creature next to which is a bird man, a figure with a bird's beak.

97

00:08:52,000 --> 00:09:00,000

The bird man of Lasso was considered to be a shamanistic figure, but we have to ask the question, could this be something more?

98

00:09:00,000 --> 00:09:07,000

Could this be an otherworldly being, an extraterrestrial being who interacted with this prehistoric culture in France?

99

00:09:09,000 --> 00:09:18,000

In 2019, archaeologists in Indonesia announced that they discovered rock art in a cave on the island of Sulawesi

100

00:09:18,000 --> 00:09:22,000

that they believe was created at least 44,000 years ago.

101

00:09:23,000 --> 00:09:28,000

If true, it is the oldest pictorial record of storytelling ever found.

102

00:09:29,000 --> 00:09:36,000

And curiously, among the images painted on the cave walls is a depiction of a human-like figure with a bird's head.

103

00:09:37,000 --> 00:09:43,000

The paintings depict a group of eight humanoid hunters approaching a group of animals.

104

00:09:44,000 --> 00:09:51,000

And one of them appears to have a very large bird beak 44,000 years ago.

105

00:09:52,000 --> 00:09:58,000

We have these bird men in Indonesia, 18,000 years ago, they're in France.

106

00:09:58,000 --> 00:10:08,000

So what are the chances of these bird men figures being just coincidentally created in these different areas?

107

00:10:09,000 --> 00:10:21,000

We have to ask ourselves, are these bird men actually representatives of the Anunnaki who are extraterrestrials who came all over the world in prehistory?

108

00:10:22,000 --> 00:10:31,000

But if, as ancient astronaut theorists insist, the Earth played host to numerous advanced civilizations long before our own,

109

00:10:31,000 --> 00:10:37,000

what happened to them? And why is there no hard evidence to prove they existed?

110

00:10:38,000 --> 00:10:41,000

For many, the answer can be found hiding in plain sight.

111

00:10:42,000 --> 00:10:49,000

And the hard evidence exists in the form of objects made using the only substance that can stand the test of time.

112

00:10:50,000 --> 00:10:51,000

STONE

113

00:10:54,000 --> 00:11:08,000

Boston, Massachusetts, 2020. Aerospace engineer and satellite imaging expert Dr. Mark Carlotto has spent the past three years investigating some of the world's most impressive archaeological sites.

114

00:11:09,000 --> 00:11:18,000

After closely examining each site's precise geographical orientation, he has come to the incredible conclusion that many ancient structures provide evidence.

115

00:11:19,000 --> 00:11:28,000

A being far older than has been suggested by mainstream archaeology, and were likely built tens of thousands of years ago.

116

00:11:29,000 --> 00:11:36,000

If you look at many monuments today, they're often built with respect to the Cardinal directions.

117

00:11:38,000 --> 00:11:43,000

So knowledge of the Earth, of astronomy, of the heavens was very important in alignments.

118

00:11:44,000 --> 00:11:53,000

Because most of the world's megalithic structures were built so that they would be in precise alignment with the Earth's Cardinal directions of north, south, east and west,

119

00:11:54,000 --> 00:12:03,000

Dr. Carlotto's investigation at a breakthrough after he noticed that Teotihuacan, the ancient complex north of Mexico City, didn't properly line up.

120

00:12:04,000 --> 00:12:07,000

An extraordinary possibility then occurred to him.

121

00:12:08,000 --> 00:12:15,000

Perhaps the structure was built tens of thousands of years earlier, when the Earth's poles were not in their current locations.

122

00:12:16,000 --> 00:12:20,000

It was an idea that was not as far-fetched as it seems.

123

00:12:21,000 --> 00:12:29,000

In the 1950s, Harvard-educated scientist Charles Hapgood proposed a theory known as crustal displacement.

124

00:12:29,000 --> 00:12:41,000

Whereby, at certain moments in history, the Earth's crust suddenly and rapidly shifts positions, and in the process, changes the positions of the north and south poles.

125

00:12:42,000 --> 00:12:56,000

Plate tectonics have plates moving slowly as individual separate plates. Charles had a theory that basically instead of a slow, steady movement, he was really interested in sudden, quick movements of the crust as a whole.

126

00:12:56,000 --> 00:13:07,000

What Hapgood was saying was that the thin crust of the Earth can slip forward on the mantle, and therefore the north pole and south pole can shift somewhat.

127

00:13:08,000 --> 00:13:12,000

And this causes huge cataclysmic changes.

128

00:13:13,000 --> 00:13:31,000

Hapgood's analysis is based on climate data, looking at patterns of climate change, changes in glacial patterns, ice ages, and then correlating those patterns with what he believed was the cause, which was a shift to the poles.

129

00:13:32,000 --> 00:13:39,000

Hapgood believed that over the last 100,000 years or so that there were three previous locations of the north pole.

130

00:13:39,000 --> 00:13:53,000

And when I looked at the imagery of these Mesoamerican sites and realized that these pyramids and temples were not aligned to north, I thought perhaps they were aligned to former north poles that Hapgood had discovered.

131

00:13:54,000 --> 00:14:05,000

Hapgood actually sent this theory to Albert Einstein, who endorsed it. And when Einstein died, he actually had Hapgood's book open on his desk.

132

00:14:06,000 --> 00:14:19,000

Dr. Carlotto believes that some of the world's most impressive ancient structures not only confirm Hapgood's theory, but radically alter our understanding of intelligent life on planet Earth.

133

00:14:20,000 --> 00:14:28,000

So my process for analyzing these images starts with a geographically registered image where north is up.

134

00:14:28,000 --> 00:14:34,000

So for example, here we have Teotewa Khan and this is where my search began.

135

00:14:34,000 --> 00:14:41,000

And let me just highlight the four sides so we can define a direction towards the north.

136

00:14:41,000 --> 00:14:47,000

As you can see in this image, the pyramid is not oriented to the cardinal directions north, south, east, and west.

137

00:14:47,000 --> 00:14:56,000

To test his theory, Dr. Carlotto was curious to find out if other ancient structures shared Teotewa Khan's same geographic anomaly.

138

00:14:56,000 --> 00:15:02,000

What I ended up doing was developing an algorithm as the basis for analyzing their alignment.

139

00:15:02,000 --> 00:15:09,000

So now as we'll see, when we zoom out, we'll find that Teotewa Khan is aligned to other sites nearby.

140

00:15:09,000 --> 00:15:11,000

And I'll show you that by zooming out here.

141

00:15:11,000 --> 00:15:17,000

And this shows a number of other sites in the Valley of Mexico that are aligned in the same general direction.

142

00:15:17,000 --> 00:15:22,000

All of these lines are meridians that lead to a point east of Hudson Bay.

143

00:15:22,000 --> 00:15:28,000

Incredibly, these sites align with a location that Hapgood proposed was once the North Pole.

144

00:15:28,000 --> 00:15:33,000

Hapgood believed the Hudson Bay Pole existed 12,000 to 18,000 years ago.

145

00:15:33,000 --> 00:15:38,000

So these sites by virtue of their alignment to this particular pole could be that old.

146

00:15:39,000 --> 00:15:47,000

If Dr. Carlotto's analysis is correct, it would date the construction of Teotewa Khan to at least 10,000 BC,

147

00:15:47,000 --> 00:15:52,000

which is 10,000 years older than mainstream archaeologists propose.

148

00:15:52,000 --> 00:15:56,000

And he contends that other ancient sites were built even earlier.

149

00:15:56,000 --> 00:16:04,000

One of the most enigmatic sites on Earth is Baalbeck, the Temple of Jupiter in Lebanon.

150

00:16:05,000 --> 00:16:14,000

As you can see, this site is oriented to a point in northern Greenland that Hapgood believed was a former location of the North Pole.

151

00:16:14,000 --> 00:16:22,000

Based on Hapgood's theory, Baalbeck's alignment to northern Greenland was dated to a staggering 50,000 years ago.

152

00:16:24,000 --> 00:16:32,000

Another site nearby, the western wall in the city of Jerusalem, is aligned in the direction of the Greenland Pole.

153

00:16:32,000 --> 00:16:37,000

And let's take a look at a third site, the Parthenon in Athens.

154

00:16:37,000 --> 00:16:47,000

We believe that the original structures at these sites, in other words, the original sites themselves were established as long ago as 50,000 years.

155

00:16:47,000 --> 00:16:53,000

According to Dr. Carlotto, these are still not the oldest structures that exist on Earth.

156

00:16:53,000 --> 00:17:01,000

Based on Hapgood's theory, the North Pole was located in the Bering Sea more than 100,000 years ago.

157

00:17:02,000 --> 00:17:09,000

So this is the Temple of the six Monoliths at Oyetid Tambo, and it's the Sun Temple.

158

00:17:09,000 --> 00:17:12,000

Normally Sun Temples are aligned to the kernel directions.

159

00:17:12,000 --> 00:17:15,000

They have an eastern side that faces the rising sun on the equinox.

160

00:17:15,000 --> 00:17:19,000

Here the Sun Temple is tilted approximately 45 degrees.

161

00:17:19,000 --> 00:17:26,000

An alignment to the current pole doesn't make any sense, but if we now change our reference and look at an earlier pole,

162

00:17:26,000 --> 00:17:34,000

this pole thought to have existed in the Bering Sea, then the orientation of the Sun Temple makes perfect sense.

163

00:17:34,000 --> 00:17:46,000

So what's significant about this analysis is that it actually extends the timeframe for archaeology from 10,000 years to tens of thousands of years to perhaps 100,000 years or more.

164

00:17:47,000 --> 00:18:00,000

So it's my contention that the five ages of the Aztecs, the five ages of the Greeks, and the previous and current locations of the pole are all correlated.

165

00:18:00,000 --> 00:18:02,000

They all tell the same story.

166

00:18:02,000 --> 00:18:09,000

The idea that cataclysmic pole shifts actually occurred is startling.

167

00:18:10,000 --> 00:18:24,000

These structures can be much older than archaeologists admit, and ultimately hundreds, thousands of years later, people found them again and started reusing them.

168

00:18:24,000 --> 00:18:26,000

It's a fascinating thought.

169

00:18:26,000 --> 00:18:32,000

Are the remnants of long lost civilizations still standing today?

170

00:18:32,000 --> 00:18:42,000

The remains of the ancient civilizations that existed on Earth as much as 100,000 years ago, but misinterpreted by scholars as being much more recent.

171

00:18:42,000 --> 00:18:52,000

Perhaps the proof can be found by examining physical evidence of ancient writing dating back more than 10,000 years.

172

00:18:53,000 --> 00:18:57,000

Boston, Massachusetts.

173

00:18:57,000 --> 00:19:00,000

February 1st, 2019.

174

00:19:02,000 --> 00:19:14,000

Geologist Dr. Robert Schock and his colleague Dr. Manu Saifsehdei announced a discovery that has the potential to radically alter the currently accepted timeline of human history.

175

00:19:15,000 --> 00:19:25,000

They believe they have found hieroglyphic writing at the 12,000-year-old archaeological site of Gobekli Tepe in Turkey.

176

00:19:25,000 --> 00:19:31,000

If true, it would pre-date the early-known writing by thousands of years.

177

00:19:32,000 --> 00:19:44,000

At Gobekli Tepe, I'm convinced now that we have evidence of actual what we can only call writing, symbolic notation, writing on some of the pillars.

178

00:19:44,000 --> 00:19:51,000

We're still trying to interpret them, but if this analysis is correct, they had writing.

179

00:19:51,000 --> 00:20:04,000

And according to standard conventional thinking, up until now, writing in literacy did not exist anywhere on Earth until 6,000 or 7,000 years after Gobekli Tepe.

180

00:20:04,000 --> 00:20:10,000

And what we see at Gobekli Tepe, I don't believe that's the beginning.

181

00:20:10,000 --> 00:20:20,000

Could the strange symbols found on the stone pillars at Gobekli Tepe represent a writing system that was developed by a long-lost civilization?

182

00:20:20,000 --> 00:20:24,000

One that thrived more than 12,000 years ago.

183

00:20:24,000 --> 00:20:35,000

As far as ancient astronaut theorists are concerned, physical evidence of lost civilizations has been found that they believe to be much, much older.

184

00:20:36,000 --> 00:20:44,000

Pinar Del Rio, Cuma, 2001.

185

00:20:44,000 --> 00:20:57,000

Canadian explorer Paulina Szylicki and her team are conducting an oceanic survey off the coast when they detect curious formations more than 2,000 feet underwater.

186

00:20:58,000 --> 00:21:05,000

They found, when they were taking images, some kind of pyramidal structure and other structures.

187

00:21:05,000 --> 00:21:11,000

There were circular areas. There was what appeared to be some kind of city built down there.

188

00:21:11,000 --> 00:21:14,000

It was about 2 square kilometers in size.

189

00:21:14,000 --> 00:21:19,000

And so this is something quite astonishing if this is, you know, a reality.

190

00:21:19,000 --> 00:21:32,000

This pyramid city is so deep in the ocean that geologists and archaeologists are saying that it must have been 50,000 years old for sea levels to be that low.

191

00:21:32,000 --> 00:21:35,000

50,000 years old?

192

00:21:36,000 --> 00:21:52,000

Might the formations found off the coast of Cuba corroborate the findings of Dr. Mark Carlotto, who suggests that the alignments of Balbec, the Greek Parthenon, and numerous other ancient structures date back some 50,000 years?

193

00:21:52,000 --> 00:21:58,000

We've got ruins all over the world that are underwater.

194

00:21:58,000 --> 00:22:02,000

Ruins have been found underwater in Lake Titicaca.

195

00:22:03,000 --> 00:22:10,000

The formation of Yonaguni off the southern Japanese island of Yonaguni.

196

00:22:10,000 --> 00:22:18,000

We have underwater cities around India, such as Dwarka, which is the famous home of Krishna.

197

00:22:18,000 --> 00:22:28,000

And Indian archaeologists for years thought it was just a mythical city until they started finding these underwater ruins off of Gujarat.

198

00:22:28,000 --> 00:22:32,000

There's over 200 known sunken cities in the Mediterranean.

199

00:22:32,000 --> 00:22:39,000

So much of the evidence for early civilizations on planet Earth would be underwater today.

200

00:22:39,000 --> 00:22:51,000

So they were obviously built at a time when the ocean levels and the seas and the continents were quite different than they are today.

201

00:22:52,000 --> 00:23:01,000

All of this evidence tells us that there were extraordinary civilizations and cultures that have been lost to the story of the world until now.

202

00:23:01,000 --> 00:23:10,000

Although many of the worlds known underwater ruins still await excavation due to the difficulty of reaching them and retrieving artifacts,

203

00:23:10,000 --> 00:23:20,000

it is hoped that divers will someday be able to examine these structures and find symbols carved into them that match those found at Gobiakle Tepe.

204

00:23:22,000 --> 00:23:29,000

But as far as Dr. Robert Shock is concerned, the wait may already be over.

205

00:23:29,000 --> 00:23:40,000

In 1991, he ignited a firestorm of controversy when he suggested the great Sphinx of Giza was built long before the age of the pharaohs.

206

00:23:41,000 --> 00:23:52,000

At that time, all the Egyptologists agreed that the Sphinx had been carved in 2500 BC that was carved from scratch from the limestone bedrock.

207

00:23:52,000 --> 00:23:59,000

I'm a geologist. I went there. I looked at the Sphinx within the first couple of minutes and knew there was something amiss.

208

00:23:59,000 --> 00:24:09,000

What we did is we looked at subsurface weathering, mineralogical changes to figure out when the rock was carved.

209

00:24:09,000 --> 00:24:21,000

I came to the conclusion that the Sphinx goes back not just a few thousand years, but to the end of the last Ice Age, so to about 10,000 BC or so.

210

00:24:22,000 --> 00:24:28,000

Key to Dr. Shock's analysis was the type of erosion he observed in the base of the Sphinx.

211

00:24:29,000 --> 00:24:44,000

If you look at the body of the Sphinx itself, I as a geologist noticed immediately that the core body is eroded not by wind and sand as you expect for the Sahara Desert, but it is water precipitation.

212

00:24:45,000 --> 00:24:52,000

Water erosion in the Sahara Desert? If this analysis is correct, what could have caused it?

213

00:24:53,000 --> 00:25:05,000

There's a huge increase in global temperatures at 9700 BC. This correlates with the melting of the glaciers rising of sea levels.

214

00:25:06,000 --> 00:25:18,000

But when you have all this water being put into the atmosphere, the atmosphere can only hold so much water. It comes down as precipitation. It comes down as torrential rains.

215

00:25:19,000 --> 00:25:31,000

But if, as ancient astronaut theorists believe, the great Egyptian megalithic structures were built more than 10,000 years ago, what happened to the advanced civilization that created them?

216

00:25:32,000 --> 00:25:39,000

Perhaps the answer is closer than we think and can be found embedded in the pages of the Holy Bible.

217

00:25:40,000 --> 00:25:44,000

London, England

218

00:25:45,000 --> 00:25:46,000

2014

219

00:25:47,000 --> 00:26:00,000

Dr. Irving Finkel, one of the world's foremost experts on cuneiform writing and a curator at the British Museum, publishes a book titled *The Ark Before Noah*.

220

00:26:01,000 --> 00:26:11,000

In it, Finkel translates a Sumerian tablet that dates back 3700 years and rewrites the biblical story of Noah and the Great Flood.

221

00:26:12,000 --> 00:26:15,000

The book sparks a global sensation.

222

00:26:16,000 --> 00:26:24,000

When this tablet came across the desk to me and I realized clearly how important it was, it was one of those heart-stopping moments.

223

00:26:25,000 --> 00:26:31,000

Everybody in the world is interested in Noah's flood and where he might have come from, so it's a really big thing.

224

00:26:32,000 --> 00:26:49,000

In the Bible, God decided because human race was so sinful and wicked to destroy everything and a last minute relented enough to inform Noah that he has to build a boat really fast and put all the animals in and shut the doors.

225

00:26:49,000 --> 00:26:53,000

Then afterwards life could continue and the waters went down.

226

00:26:54,000 --> 00:27:00,000

But the tablet is at least a thousand years older than the story in the Bible.

227

00:27:01,000 --> 00:27:08,000

So of course this means that the question of where the story came from has a whole different explanation.

228

00:27:11,000 --> 00:27:13,000

There's a similar story in India.

229

00:27:13,000 --> 00:27:18,000

India, King Manu was warned by a fish that there would be a Great Flood.

230

00:27:19,000 --> 00:27:21,000

The king built a great boat and survived.

231

00:27:22,000 --> 00:27:31,000

In an Aztec version, a sacred couple hide in a hollow tree with a little corn and somehow manage to survive the deluge.

232

00:27:32,000 --> 00:27:40,000

Other versions come from Irish legend, Norse lore also from China. This is a terribly important motif.

233

00:27:40,000 --> 00:27:49,000

We're used to history being something that's written down in books, but for most of the human experience, history was told in stories shared around campfires.

234

00:27:50,000 --> 00:27:56,000

It doesn't mean that it's all made up and I think it's one of those moments where the myths are telling us about the truth of the past.

235

00:27:57,000 --> 00:28:02,000

Yussello, the Netherlands, 1940.

236

00:28:05,000 --> 00:28:12,000

Dutch archaeologist Cornelis Hidsolar is excavating a sandpit when he notices something strange.

237

00:28:13,000 --> 00:28:17,000

A thin layer of ash buried 50 feet deep in the soil.

238

00:28:17,000 --> 00:28:31,000

It's like a layer of black ash. This suggests there was a great conflagration that took place and it dates to between 11,000 and 13,000 years ago.

239

00:28:32,000 --> 00:28:38,000

Over the next few years, the ash layer, dubbed Yussello Horizon, is found all over the world.

240

00:28:39,000 --> 00:28:49,000

The Yussello Horizon is found actually in 10 countries on four continents in Australia, in South Africa and other parts of Europe and India.

241

00:28:50,000 --> 00:28:57,000

And this deposit of ash around the world is evidence of a worldwide cataclysm.

242

00:28:58,000 --> 00:29:05,000

Could this layer of ash really be evidence of a devastating global event, like the one known as the Great Flood, for instance?

243

00:29:06,000 --> 00:29:20,000

Geologist Dr. Robert Schock believes the cataclysmic event and the resulting layer of ash was created by a devastating solar flare, a sudden flash of increased brightness on the sun.

244

00:29:21,000 --> 00:29:26,000

Based on my analysis of the evidence, there was a major, major solar outburst.

245

00:29:27,000 --> 00:29:32,000

This caused enough flash, the glaciers to melt.

246

00:29:33,000 --> 00:29:37,000

Virtually instantaneously, it caused evaporation of water.

247

00:29:38,000 --> 00:29:42,000

We have physical evidence of this in the geological record.

248

00:29:44,000 --> 00:29:51,000

To many, the Yussello Horizon is the strongest evidence yet discovered that supports stories of the Great Flood.

249

00:29:52,000 --> 00:30:03,000

For ancient astronaut theorists, proof of a global flood could offer some of the most compelling evidence that extraterrestrial intervention occurred on Earth in the distant past.

250

00:30:05,000 --> 00:30:14,000

In the Babylonian poem The Epic of Gilgamesh, the hero Atnapishtim is told of a coming flood by the god Enki.

251

00:30:15,000 --> 00:30:22,000

In Vedic texts, King Manu is alerted by Lord Vishnu, who appeared in the form of a fish.

252

00:30:23,000 --> 00:30:27,000

And in the biblical tale, Noah is warned by God.

253

00:30:29,000 --> 00:30:40,000

The common denominator in the flood myths around the world is that there was an otherworldly being, an extraterrestrial being who is providing knowledge to certain humans of what is to come.

254

00:30:41,000 --> 00:30:44,000

This tells us that there is definitely an extraterrestrial connection.

255

00:30:46,000 --> 00:30:53,000

If advanced civilizations existed on Earth that were lost to history, could the story of the flood explain what happened?

256

00:30:55,000 --> 00:31:07,000

Ancient astronaut theorists say yes and suggest that further evidence can be found within the Dead Sea Scrolls, discovered in a cave in Jerusalem in 1947.

257

00:31:11,000 --> 00:31:19,000

Some Bedouin shepherds came across these jars and inside these were ancient texts.

258

00:31:20,000 --> 00:31:36,000

Very quickly, archaeologists and linguists started to realize that these contained Jewish religious literature that were of incredible importance, not just to the Jewish people, but to the world as a whole.

259

00:31:37,000 --> 00:31:43,000

Among the texts is a story that describes the birth of Noah that doesn't appear in the Old Testament.

260

00:31:44,000 --> 00:31:55,000

Noah is described of having skin that is wider than snow, of having hair that is wider than the widest of wool, and Noah's eyes were brighter than the sun.

261

00:31:56,000 --> 00:32:04,000

Now, when Noah was born, the father Lamech went to his father, Methuselah, and says, this is not my son, what happened here?

262

00:32:05,000 --> 00:32:11,000

And Methuselah then says he may have come from a different place where man has met the angels.

263

00:32:12,000 --> 00:32:16,000

Now, we need to first figure out what is the kernel of truth.

264

00:32:16,000 --> 00:32:20,000

And in my opinion, it certainly was not a giant ship made out of wood.

265

00:32:21,000 --> 00:32:27,000

And you combine that with Noah, who looks very otherworldly. Well, there is your answer.

266

00:32:30,000 --> 00:32:36,000

Could a worldwide flood explain the disappearance of an advanced civilization that preceded our own?

267

00:32:38,000 --> 00:32:45,000

And if so, were there survivors that kept the memory of this pre-flood world alive through oral traditions?

268

00:32:46,000 --> 00:33:00,000

Ancient astronaut theorists believe that not only did an advanced civilization exist for many centuries before the great flood, but that remnants of its lost technology can be found all over the world.

269

00:33:05,000 --> 00:33:08,000

Jerusalem, 2016

270

00:33:09,000 --> 00:33:17,000

Researchers with the Israel Antiquities Authority, studying the Dead Sea Scrolls, make a major discovery.

271

00:33:18,000 --> 00:33:26,000

Using state-of-the-art imaging technology, they uncover a passage of ancient text, previously unseen by the naked eye.

272

00:33:27,000 --> 00:33:38,000

These researchers have discovered a new passage in the Dead Sea Scrolls that indicates that Noah's Ark wasn't in the shape of a ship at all, but was in the shape of a pyramid.

273

00:33:40,000 --> 00:33:46,000

Curiously, this is not the first time that Noah's Ark has been depicted as a pyramid.

274

00:33:47,000 --> 00:33:52,000

In the 15th century, Italian artist Lorenzo Gabberte created his masterpiece.

275

00:33:52,000 --> 00:33:59,000

A series of ten panels that depict scenes from the Old Testament.

276

00:34:01,000 --> 00:34:08,000

The Italian sculptor Lorenzo Gabberte was selected to create the doors going into the new Florence Cathedral, the Il Domo.

277

00:34:10,000 --> 00:34:12,000

These doors are called the Gates of Paradise.

278

00:34:13,000 --> 00:34:24,000

And something that is very extraordinary about them is that in one instance he shows Noah's Ark as a pyramid that resembles the Great Pyramid of Giza.

279

00:34:25,000 --> 00:34:34,000

Is it possible that Lorenzo, while he was working for the church, learned about the true nature of Noah's Ark and then depicted it in his sculpture?

280

00:34:35,000 --> 00:34:52,000

According to historians, the Pyramid of Joseph, constructed in 2600 BC, was the first pyramid ever built in Egypt, and the Great Pyramid was built 100 years later.

281

00:34:53,000 --> 00:34:59,000

But the dating of the Great Pyramid and the two smaller pyramids that stand next to it is a point of major contention.

282

00:35:00,000 --> 00:35:04,000

With many researchers suggesting they were built much earlier.

283

00:35:07,000 --> 00:35:11,000

The Step Pyramid of Dozier is considered the world's first pyramid.

284

00:35:12,000 --> 00:35:16,000

It's a six-tiered pyramid built very near the Giza Plateau.

285

00:35:16,000 --> 00:35:36,000

Egyptologists often assume that the older pyramids are less well-created and smaller, such as Zoser's Pyramid, and that ultimately they're building up better and better until they finally built the Great Pyramid as their final construction masterpiece.

286

00:35:37,000 --> 00:35:46,000

But it may be completely reversed of that, and that the Great Pyramid, which is by far the best of all the pyramids, is actually the oldest of the pyramids.

287

00:35:48,000 --> 00:35:53,000

In 2500 BC, according to archaeology, humans made the Great Pyramid.

288

00:35:54,000 --> 00:36:05,000

Now, in old writing, especially in the book of Enoch and in the so-called Hitat, which is a book from an Arabian writer, they say the Great Pyramid was constructed before the Great Flood.

289

00:36:06,000 --> 00:36:11,000

What if the Great Pyramid existed perhaps even from millennia before the Zoser Pyramid?

290

00:36:11,000 --> 00:36:18,000

Then the Egyptians come along, discover it, and decide, hey, maybe we can make one of those too, and that's when they build the Zoser Pyramid.

291

00:36:19,000 --> 00:36:28,000

Perhaps the most similar common motif or style is the pyramidal shape that seems to exist throughout the world.

292

00:36:28,000 --> 00:36:36,000

In Egypt, in Mesoamerica, in China, giant earthen mounds in the shape of pyramids. Why pyramids?

293

00:36:37,000 --> 00:36:45,000

Is it possible that pyramids were built by cultures all around the world because they were trying to recreate much older structures that survived a Great Flood?

294

00:36:46,000 --> 00:36:58,000

Ancient astronaut theorists say yes, and some researchers have even suggested that those pyramids that were built by pre-flood civilizations represent a form of lost technology.

295

00:36:59,000 --> 00:37:12,000

In his 1998 book, *The Giza Power Plant*, noted machinist and engineer Christopher Dunn, proposed that the shape, positions of chambers, and proximity to underground rivers

296

00:37:12,000 --> 00:37:16,000

indicate the Great Pyramids of Giza functioned as power plants.

297

00:37:18,000 --> 00:37:23,000

I personally think that the pyramids were some kind of energy generators.

298

00:37:24,000 --> 00:37:33,000

And here we have the strange idea that the ark itself wasn't a boat-type shaped thing, but it was actually a pyramid.

299

00:37:33,000 --> 00:37:42,000

So is it possible that whoever built the pyramids of Egypt was doing so to try to preserve their technology?

300

00:37:46,000 --> 00:37:54,000

For ancient astronaut theorists, the possibility that the Great Pyramid served a technological purpose presents an intriguing question.

301

00:37:54,000 --> 00:38:09,000

If a lost civilization was able to build massive power plants, perhaps with the assistance of extraterrestrials, could they also have had the means to escape a world ending cataclysm by leaving the Earth?

302

00:38:15,000 --> 00:38:22,000

Mountain View, California, January 16, 2018

303

00:38:23,000 --> 00:38:34,000

Geneticist Eric Jarvis and data management company DNA Nexus announced plans to create a biological database of every vertebrate species on Earth.

304

00:38:36,000 --> 00:38:45,000

The development of this new genetic DNA database is essentially a modern-day version of Noah's Ark.

305

00:38:46,000 --> 00:39:02,000

Where all of these animals, their DNA is selected and kept in these special databases, and in the future we could resurrect any of these animals if we had to, if there had been some mass extinction on the planet.

306

00:39:03,000 --> 00:39:18,000

But many researchers are hopeful that by the time a global cataclysm strikes, humanity will have developed the means to transport this modern-day ark into space and seek out a new home planet.

307

00:39:21,000 --> 00:39:26,000

We don't have forever on this planet.

308

00:39:27,000 --> 00:39:41,000

Let's say our resources are running out. Let's say something else happens. Or let's even say we know and we can calculate this that 252 years from now we will be met by a giant collision with an asteroid.

309

00:39:42,000 --> 00:39:47,000

Well, we better do something about that. So we better start working on that today.

310

00:39:48,000 --> 00:39:54,000

In 2018, a company named Axiom Space revealed plans to put a hotel in Earth's orbit.

311

00:39:56,000 --> 00:40:00,000

Meanwhile, NASA is preparing to send astronauts to Mars.

312

00:40:03,000 --> 00:40:12,000

Considering humanity's current efforts to venture into space, if advanced civilizations existed in Earth's distant past, might they have done the same?

313

00:40:14,000 --> 00:40:21,000

Cultures all around the world talk about humans deciding on their own to leave the planet. They call this ascension.

314

00:40:22,000 --> 00:40:27,000

In many of the flood myths, the common theme is that it had been prophesied and people knew it was coming.

315

00:40:28,000 --> 00:40:30,000

Maybe their answer was to migrate into space.

316

00:40:31,000 --> 00:40:38,000

There are a number of craters on the moon that have what look like pyramids right in the middle of the crater.

317

00:40:39,000 --> 00:40:42,000

Mars apparently has similar pyramid structures on it.

318

00:40:43,000 --> 00:40:50,000

Maybe they were created by this super civilization of the past, just like we're going to do in the near future.

319

00:40:53,000 --> 00:41:03,000

Could it be that pyramids and other structures were built on the moon and Mars, not by beings who are coming to planet Earth, but by those who are fleeing it?

320

00:41:05,000 --> 00:41:11,000

Did Earth's refugees build these structures to sustain them while they sought out a new home?

321

00:41:12,000 --> 00:41:20,000

As far as ancient astronaut theorists are concerned, this notion presents another, perhaps even more profound, possibility.

322

00:41:22,000 --> 00:41:34,000

With modern UFO activity, you have to ask yourself, are these UFOs from this ancient civilization that left before the Cataclysm and now they're come back?

323

00:41:35,000 --> 00:41:45,000

Is it possible that civilizations that inhabited the Earth tens of thousands of years ago did not die off, but survive on another world?

324

00:41:46,000 --> 00:41:51,000

And if so, might they be capable of returning to their home planet as alien visitors?

325

00:41:53,000 --> 00:42:03,000

Perhaps as we venture deeper into space, we will make contact not with extraterrestrials, but with mankind's ancient ancestors.
