

1

00:00:00,000 --> 00:00:09,000

Is it possible that humankind's true origins lie not on Earth, but 400 light-years away?

2

00:00:09,000 --> 00:00:14,000

According to our traditions, we all are beings of star people.

3

00:00:14,000 --> 00:00:20,000

Throughout the world, ancient people pointed to the Pleiades and called it home.

4

00:00:20,000 --> 00:00:26,000

References to the Pleiades go back thousands of years into antiquity.

5

00:00:26,000 --> 00:00:32,000

And in fact, the Kepler Space Telescope has found evidence of planets in the Pleiades.

6

00:00:32,000 --> 00:00:38,000

Now, a new discovery provides an intriguing link to the star system.

7

00:00:38,000 --> 00:00:43,000

This object seems to come from the Pleiades star cluster, which is quite astonishing.

8

00:00:43,000 --> 00:00:49,000

It's almost like a calling card of where the extraterrestrials came from.

9

00:00:49,000 --> 00:00:52,000

They came down from the Pleiades.

10

00:00:53,000 --> 00:00:58,000

There is a doorway in the universe.

11

00:00:58,000 --> 00:01:02,000

Beyond it is the promise of truth.

12

00:01:02,000 --> 00:01:08,000

It demands we question everything we have ever been taught.

13

00:01:08,000 --> 00:01:11,000

The evidence is all around us.

14

00:01:11,000 --> 00:01:15,000

The future is right before our eyes.

15

00:01:15,000 --> 00:01:18,000

We are not alone.

16

00:01:18,000 --> 00:01:22,000

We have never been alone.

17

00:01:30,000 --> 00:01:36,000

Maui, Hawaii, October 19, 2017

18

00:01:36,000 --> 00:01:42,000

Scientists at the University of Hawaii, Haleakala Observatory,

19

00:01:42,000 --> 00:01:46,000

detect a strange object traveling through our solar system.

20

00:01:46,000 --> 00:01:49,000

They initially catalog it as an asteroid.

21

00:01:49,000 --> 00:01:56,000

But after further examination, researchers observe that the object accelerated as it approached the sun,

22

00:01:56,000 --> 00:02:01,000

acting more like a comet, but without any other comet-like characteristics.

23

00:02:01,000 --> 00:02:09,000

The PHIME forces astronomers to reclassify it as something entirely new, an interstellar object.

24

00:02:09,000 --> 00:02:13,000

We'd never seen anything like this in the solar system before.

25

00:02:13,000 --> 00:02:20,000

We get an estimate of its size at about 800 meters or half a kilometer in length.

26

00:02:20,000 --> 00:02:28,000

Roughly a cigar-like shape was moving very fast, a little more than 195,000 miles per hour.

27

00:02:28,000 --> 00:02:34,000

You get a chill sometimes when you understand something is very important or is really exciting,

28

00:02:34,000 --> 00:02:37,000

and that's what I felt with this object.

29

00:02:37,000 --> 00:02:43,000

Our Milky Way galaxy is estimated to consist of 100,000 million stars,

30

00:02:43,000 --> 00:02:47,000

each indicating the presence of a solar system.

31

00:02:47,000 --> 00:02:53,000

Because the distances between them are so vast, astronomers believed it was impossible

32

00:02:53,000 --> 00:02:57,000

for an object from another solar system to reach our own.

33

00:02:57,000 --> 00:03:00,000

Until now.

34

00:03:00,000 --> 00:03:03,000

It just came from outside our solar system,

35

00:03:03,000 --> 00:03:07,000

meaning it wasn't material from our star being created.

36

00:03:07,000 --> 00:03:11,000

It's from a different star system somewhere else.

37

00:03:11,000 --> 00:03:14,000

That's historic that we've actually seen it.

38

00:03:14,000 --> 00:03:20,000

We now know objects can travel from one star system to another.

39

00:03:20,000 --> 00:03:25,000

Researchers dubbed the interstellar visitor, a Muamua, a Hawaiian term,

40

00:03:25,000 --> 00:03:28,000

meaning a messenger from afar arriving first.

41

00:03:28,000 --> 00:03:34,000

Is it possible that the interstellar visitor was, in fact, a messenger?

42

00:03:34,000 --> 00:03:38,000

One sent on a mission to our solar system.

43

00:03:38,000 --> 00:03:47,000

Different scientists have analyzed the data and deduced that it's something very different to an astrodural comet.

44

00:03:47,000 --> 00:03:53,000

So the scientific data does point to it actually being some artificial creation.

45

00:03:54,000 --> 00:04:01,000

We've had open speculation about how this thing might be an interstellar spacecraft.

46

00:04:01,000 --> 00:04:05,000

Talk from a Harvard professor.

47

00:04:05,000 --> 00:04:09,000

The chair of Harvard's astronomy department, Dr. Avi Loeb,

48

00:04:09,000 --> 00:04:14,000

noted that the object seemed to follow the propulsion patterns of a new technology

49

00:04:14,000 --> 00:04:17,000

that is currently being tested for future space missions,

50

00:04:17,000 --> 00:04:20,000

known as solar sail propulsion.

51

00:04:21,000 --> 00:04:27,000

Large reflective sails capture sunlight to propel a craft through the vacuum of space.

52

00:04:27,000 --> 00:04:30,000

You can design essentially photon sails.

53

00:04:30,000 --> 00:04:37,000

So the idea has been to make a material that reflects photons, which is light, very efficiently.

54

00:04:37,000 --> 00:04:42,000

You deploy this and you basically accelerate under star light, and then you just cruise.

55

00:04:42,000 --> 00:04:47,000

Was similar alien technology used to repel Oumuamua?

56

00:04:51,000 --> 00:04:59,000

It makes you wonder, was that a targeted mission, some sort of probe that has been sent in to look for life?

57

00:05:00,000 --> 00:05:06,000

Before man actually went to the moon and walked on it, we sent a lot of probes around the moon to look at it.

58

00:05:06,000 --> 00:05:14,000

And it's quite likely that some version of NASA from some other star system could send a probe here

to Earth.

59

00:05:17,000 --> 00:05:25,000

The trajectory of the interstellar object took it past the Sun, where it made a turn and then ran parallel to Earth's orbit.

60

00:05:25,000 --> 00:05:31,000

It traveled between our planet and Mars before it began its journey out of our solar system.

61

00:05:31,000 --> 00:05:35,000

When Oumuamua arrived, nobody knew where it came from.

62

00:05:35,000 --> 00:05:44,000

Then in 2018, an astronomer at the University of Fortfordshire retraced its movements and discovered that it came from the Pleiades.

63

00:05:45,000 --> 00:05:50,000

We have to ask, is it possible that it was actually sent from the Pleiades?

64

00:05:51,000 --> 00:06:00,000

For ancient astronaut theorists, the revelation that Oumuamua traveled to our solar system from the

area of the Pleiades star cluster is highly intriguing.

65

00:06:01,000 --> 00:06:12,000

The Pleiades figures into the creation stories of many ancient cultures from all around the world, where it was taught that divine beings came from these stars to see life on Earth.

66

00:06:13,000 --> 00:06:24,000

If we look at the mythologies of the Pleiades around the world, there's some indication that this star cluster is in some way related to a visitation in ancient times.

67

00:06:24,000 --> 00:06:37,000

Located over 400 light-years from Earth near the constellation of Taurus, the Pleiades is commonly recognized as seven bright stars, but actually consists of thousands.

68

00:06:39,000 --> 00:06:51,000

The Pleiades, everybody's heard of the Pleiades, they're also known as the Seven Sisters, because if you have really good eyesight, you can see seven stars in a very compact configuration, one in the winter sky.

69

00:06:51,000 --> 00:06:58,000

And in fact, there are a lot more stars than seven. There are actually 3,000 stars in the Pleiades.

70

00:06:59,000 --> 00:07:16,000

So the Pleiades is a star cluster. They're not separated by huge distances, but they occur in a small area. That's different from a constellation, where the stars could be moving in all sorts of directions and are separated by huge distances.

71

00:07:16,000 --> 00:07:30,000

The importance of this massive star cluster to ancient peoples is revealed not only by their creation stories, but also in how they oriented their most important structures.

72

00:07:31,000 --> 00:07:38,000

All around the world, we find ancient structures that have alignments that infer a relationship to the Pleiades.

73

00:07:38,000 --> 00:07:45,000

Now, these can be found at places like Chaco Canyon in Mesoamerica in various parts of the world.

74

00:07:46,000 --> 00:07:53,000

It's clear that the ancient people wanted to incorporate the rising of the Pleiades in some way with the building of these megastructures.

75

00:07:55,000 --> 00:08:05,000

Additionally, ancient artwork and artifacts pay homage to these same stars, with one depiction dating back an incredible 18,000 years.

76

00:08:06,000 --> 00:08:19,000

Perhaps the earliest reference to the Pleiades is in the Lascaux Caves in France. But these go back thousands of years into antiquity, even before the written language.

77

00:08:20,000 --> 00:08:30,000

The Pleiades constellation shows up in various artifacts, one of them even being a Sumerian tablet relief that shows what appears to be some type of a god coming out of the Pleiades constellation.

78

00:08:31,000 --> 00:08:37,000

An interesting artifact coming out of the 1600s is the never sky disk depicting the constellation of Pleiades.

79

00:08:38,000 --> 00:08:53,000

Worldwide, we find hundreds of references having to do with the Pleiades. Not just on one continent, not just in one culture, but in multiple continents, in multiple cultures worldwide.

80

00:08:53,000 --> 00:09:03,000

That to me indicates that something happened here on Earth having to do with someone visiting from the Pleiades.

81

00:09:04,000 --> 00:09:12,000

The seven stars making up the star cluster of the Pleiades are very often represented as human figures.

82

00:09:12,000 --> 00:09:23,000

In Greek mythology, they are seven sisters. And in India, they are associated with the seven rishi.

83

00:09:24,000 --> 00:09:32,000

These are wise benefactors to humanity from some kind of astronomical place in the sky.

84

00:09:34,000 --> 00:09:41,000

We have to wonder, why are the Pleiades being so specifically picked out of the night sky?

85

00:09:42,000 --> 00:09:48,000

Is it possible that the Pleiades are the place where our sky gods have come from?

86

00:09:50,000 --> 00:09:57,000

With thousands of stars in the Pleiades, could it be a place that contains an Earth-like planet?

87

00:09:58,000 --> 00:10:02,000

One that could have been the home planet for our extraterrestrial ancestors.

88

00:10:03,000 --> 00:10:07,000

The Kepler space telescope has found evidence of planets in the Pleiades.

89

00:10:07,000 --> 00:10:14,000

So Kepler works by finding dips of light as a planet passes in front of the star that it's orbiting relative to the Earth.

90

00:10:15,000 --> 00:10:22,000

Astronomers were able to see that there is some dimming of stars in the Pleiades, which is likely caused by planets.

91

00:10:23,000 --> 00:10:29,000

Could the Pleiades star system be the place where human life on Earth first originated?

92

00:10:30,000 --> 00:10:41,000

And if so, could there be a connection between the Pleiades and the unusual interstellar object that came to our solar system in 2017?

93

00:10:43,000 --> 00:10:50,000

Perhaps the answer can be found by examining a culture that continues to call the Pleiades home.

94

00:10:52,000 --> 00:10:56,000

Coming up, we all offspend the star people.

95

00:10:56,000 --> 00:11:05,000

So they consider themselves to be hybrids, genetic offshoots of Pleidian visitors to the Earth.

96

00:11:10,000 --> 00:11:16,000

Malakai, Hawaii. January 25, 2020.

97

00:11:17,000 --> 00:11:31,000

Indigenous Hawaiians celebrate the annual Makahiki Festival, a four-month-long period honoring the Hawaiian New Year and the reappearance of the Pleiades star cluster in the sky.

98

00:11:32,000 --> 00:11:39,000

The celebration commemorates Lono, the god of rain and peace, and his arrival to Earth in a canoe.

99

00:11:40,000 --> 00:11:54,000

It's a time of celebration and to acknowledge the Hawaiian's connection to the Pleiades star system, because this is how the Hawaiians consider their ancestors actually having first established a presence on the Earth.

100

00:11:55,000 --> 00:12:00,000

We have more kind of connection with the Pleiades, but we call it Napuaikalani, the people of the heavens.

101

00:12:01,000 --> 00:12:05,000

According to our traditions, we are created by the Mother of the Sky and the Mother Earth.

102

00:12:05,000 --> 00:12:08,000

We all offspend the star people.

103

00:12:12,000 --> 00:12:22,000

The festivities incorporate the recitation of the Kumalipau, a sacred chant of over 2,000 lines, passed down for centuries solely by oral tradition.

104

00:12:23,000 --> 00:12:38,000

The chant chronicles the creation of the first humans, and is said to go back over 1,100 generations back to the very beginning of their civilization.

105

00:12:39,000 --> 00:12:53,000

In Hawaii, the Kumalipau is the genealogical record of the Hawaiians, and it goes back centuries if not thousands of years.

106

00:12:54,000 --> 00:13:07,000

And according to the Hawaiians, the Kumalipau actually traces the ancestry of Hawaiians to the Pleiades, so they consider themselves to be hybrids,

107

00:13:08,000 --> 00:13:12,000

and they make offshoots of Pleidian visitors to the Earth.

108

00:13:14,000 --> 00:13:32,000

The Pleiades are the first stars ever mentioned in ancient literature, and play a prominent role in the creation stories of various cultures, including the Siberians, Southeast Asians, Pacific Islanders, Australians, and Indigenous Americans.

109

00:13:33,000 --> 00:13:46,000

Throughout the Pacific, in Japan and the Philippines, we have stories of gods coming from the Pleiades, and a Japanese emperor is said to have been descended from the Pleiades.

110

00:13:47,000 --> 00:13:58,000

The Cherokee call themselves the original people. We say we were dropped here, the Great Spirit put us here, and that our true home, our ancestral home, is in this star system.

111

00:13:59,000 --> 00:14:07,000

The Mayans believed the Pleiades was the home of the ancestors, and their language refers to the star system as seeds.

112

00:14:08,000 --> 00:14:16,000

The seed, the source of things, the egg from which something grows, so they're seeing the star system as the source of their civilization.

113

00:14:17,000 --> 00:14:30,000

The original people of Australia know so much about their sky heroes. They came from the stars. Many elders tell me time after time, the Pleiades, they are our people, they are our ancestors.

114

00:14:31,000 --> 00:14:44,000

The similarities are astounding. We really have to question why there are so many similarities between these different cultures and the creation stories all around the world, linked with beings from the Pleiades.

115

00:14:45,000 --> 00:14:57,000

Among the many legends expressed by native Hawaiians, one is that visitors from the Pleiades came to Earth and established the lost continent of Lemuria, also known as Mu.

116

00:14:59,000 --> 00:15:08,000

From the creation of Kumulipu, there were some people that lost, and this we call the Mu or the Lumaria people you might refer to, the people that's in the dark, we call it Po.

117

00:15:08,000 --> 00:15:12,000

They existed at one time and then we lost them, like Luiz and Sidi.

118

00:15:14,000 --> 00:15:22,000

The land of Mu, also called Lemuria, is one of these lost continent stories like Atlantis, but this one is thought to be in the Pacific.

119

00:15:23,000 --> 00:15:30,000

The great civilization of high culture and technological achievement that vanishes under the sea.

120

00:15:31,000 --> 00:15:42,000

We humans were close to the gods and reached a very advanced stage of culture and civilization and technology, and it slipped away.

121

00:15:43,000 --> 00:15:56,000

There were some ideas that the continent of Lemuria was where humanity began. This then would be the point of origin for humanity.

122

00:15:57,000 --> 00:16:11,000

Some of the tribal elders and other priests in the Hawaiian native religions believe that all Hawaiians are Lemurians.

123

00:16:12,000 --> 00:16:22,000

The belief that the Hawaiian islands were originally part of Lemuria or Mu, this great continent in

the Pacific Ocean that suffered a terrible cataclysm and sank under the waters.

124

00:16:22,000 --> 00:16:29,000

This is another connection with the Pleiades because it's thought that the Pleiadians were the original settlers of Lemuria.

125

00:16:30,000 --> 00:16:41,000

Hawaiian oral traditions say that Lemuria disappeared into the sea, but some ancient astronaut theorists propose another, even more profound possibility.

126

00:16:42,000 --> 00:16:47,000

The common accepted idea is that Lemuria at some point sank.

127

00:16:47,000 --> 00:17:01,000

I actually think Lemuria, in my opinion, was not a land mass. It was a craft that landed in the sea and it was able to move around.

128

00:17:02,000 --> 00:17:14,000

Move around under its own propulsion. Somebody who has no idea about high tech, well then for all intents and purposes that thing just disappeared.

129

00:17:14,000 --> 00:17:22,000

Or it sank because it's no longer there. It was another example of misunderstood technology.

130

00:17:23,000 --> 00:17:26,000

Could that have been ancient Lemuria?

131

00:17:26,000 --> 00:17:39,000

Is it possible that Lemuria, described by the native Hawaiians as a place of high technology, was an island made not of earth and rock, but of metal?

132

00:17:39,000 --> 00:17:46,000

Could it have been a massive spaceship that descended into the sky and set a course for the Pleiades?

133

00:17:47,000 --> 00:17:56,000

Ancient astronaut theorists say yes and suggest that further evidence can be found embedded within human DNA.

134

00:17:59,000 --> 00:18:06,000

Coming up, they compared the DNA of the bone and there was no comparison with human DNA.

135

00:18:06,000 --> 00:18:12,000

These groups shared this belief about the Pleiades being the origin point.

136

00:18:17,000 --> 00:18:22,000

Mount Kailash, western Tibet.

137

00:18:24,000 --> 00:18:32,000

Followers of Hindu, Buddhist, Jain and Bon faiths consider this peak the earthly abode of their gods.

138

00:18:34,000 --> 00:18:41,000

Many pilgrims making their ascent to the peak stop at the Sapturishi caves on the southern face of the mountain.

139

00:18:42,000 --> 00:18:49,000

Here they pay their respects to the seven great sages, the divine benefactors of mankind.

140

00:18:51,000 --> 00:18:59,000

Sapturis are here on earth to train, to impart their knowledge to human beings.

141

00:18:59,000 --> 00:19:11,000

And after they finished their job and they went back to the sky, they went back to heaven and the

Pleiades are their wives.

142

00:19:11,000 --> 00:19:22,000

The Sapturis are linked to the Pleiades star system. We actually have a connection between these ascended masters and the Pleiades star system.

143

00:19:23,000 --> 00:19:31,000

Today, many people of India, Tibet and Nepal claim that they can trace their genetic lineage to the Sapturis.

144

00:19:31,000 --> 00:19:36,000

Powerful cosmic beings associated with the Pleiades.

145

00:19:37,000 --> 00:19:44,000

Ancient astronaut theorists say intriguing new scientific evidence may actually help to prove these stories true.

146

00:19:45,000 --> 00:19:51,000

They point specifically to the region's native mountain people known as the Sherpas.

147

00:19:52,000 --> 00:19:59,000

The Sherpas are well renowned for being able to survive at very high altitudes. This is no fluke.

148

00:19:59,000 --> 00:20:06,000

They found that the Sherpas carry a specific gene that enables them to survive in oxygen-starved environments.

149

00:20:06,000 --> 00:20:10,000

If we were up there, we would probably get very sick or even die.

150

00:20:12,000 --> 00:20:18,000

Geneticists have identified a super-athlete gene encoded into Sherpa DNA

151

00:20:18,000 --> 00:20:23,000

that regulates oxygen in the body much more efficiently than other human populations.

152

00:20:24,000 --> 00:20:31,000

And in July 2014, geneticists identified exactly where this unique gift came from.

153

00:20:31,000 --> 00:20:36,000

It was passed down by a mysterious ancient lineage of pre-humans.

154

00:20:40,000 --> 00:20:43,000

Southern Siberia 2010

155

00:20:48,000 --> 00:20:53,000

In the remote, all-time mountains at an elevation of over 14,000 feet,

156

00:20:54,000 --> 00:21:00,000

archaeologists discover a pinky bone of an ancient humanoid species that dates back 40,000 years.

157

00:21:04,000 --> 00:21:10,000

These bones have been analyzed at the Max Planck Institute for Anthropology in Germany.

158

00:21:10,000 --> 00:21:14,000

And they are absolutely specialized in DNA.

159

00:21:14,000 --> 00:21:21,000

They compared the DNA of the bone and there was no comparison with human DNA.

160

00:21:22,000 --> 00:21:28,000

Anthropologists named this new species, Denisovan, after the cave where the bone was found.

161

00:21:29,000 --> 00:21:37,000

And from this small bone fragment, scientists have been able to sequence the entire Denisovan genome.

162

00:21:37,000 --> 00:21:40,000

Something incredible came out of this DNA testing.

163

00:21:40,000 --> 00:21:47,000

They found that the Denisovans had the same super-athlete gene found in the Sherpas of Tibet.

164

00:21:47,000 --> 00:21:54,000

And not only that, after additional testing, they actually found that the Denisovans passed down this gene to them.

165

00:21:55,000 --> 00:22:03,000

What we're beginning to discover is that human origins are a lot more complex than what we ever imagined.

166

00:22:03,000 --> 00:22:12,000

In the decades since the Denisovans were discovered, scientists have traced their DNA to modern human populations in Australia,

167

00:22:12,000 --> 00:22:16,000

the Americas, the Pacific Islands, India and Tibet.

168

00:22:16,000 --> 00:22:25,000

And to this day, remarkably, the native people that inhabit these regions all share a profound connection to the Pleiades star cluster.

169

00:22:26,000 --> 00:22:35,000

Researchers have found these groups shared this cultural belief about the Pleiades actually being the origin point,

170

00:22:35,000 --> 00:22:45,000

as being critical for the establishment of their culture, their history, their lineage is somehow attributed to the Pleiades.

171

00:22:46,000 --> 00:22:54,000

Is it possible that the Denisovan bone fragment found in Siberia once belonged to an extraterrestrial being from the Pleiades?

172

00:22:55,000 --> 00:23:03,000

Stories of visitors from the star cluster are so widespread, they have even been given a name, the Pleiades.

173

00:23:05,000 --> 00:23:13,000

We've had all kinds of guests over the many years I've been doing coast to coast that have talked about various star systems and clusters, including the Pleiades.

174

00:23:13,000 --> 00:23:21,000

And they talk about how the Pleiades are primarily Nordiques, they look like us, or should I say we look like them.

175

00:23:22,000 --> 00:23:29,000

In eyewitness descriptions, they are described as light beings and blue-skinned beings that come from the sky.

176

00:23:30,000 --> 00:23:38,000

The ancient civilizations knew that the Pleiades have been in contact with Earth since the beginning of time.

177

00:23:40,000 --> 00:23:46,000

It is possible that the Pleiades seeded the Earth with their own DNA

178

00:23:47,000 --> 00:23:54,000

to upgrade the genetic material of humanity to ensure that it will continue to evolve.

179

00:23:55,000 --> 00:24:06,000

While the Pleiades is cited as the ancestral home for many cultures around the world, historians and mythologists point out that there are other star systems, like Orion and Sirius,

180

00:24:06,000 --> 00:24:12,000

that also figure prominently in ancient accounts concerning mankind's place of origin.

181

00:24:13,000 --> 00:24:20,000

Different cultures imagine they have come from specific locations in the constellations, like the Pleiades or Sirius.

182

00:24:20,000 --> 00:24:23,000

Orion shows up in so many different locations.

183

00:24:24,000 --> 00:24:32,000

At least in mythology, at least the lore is claiming there are planets there that could be inhabited by creatures like us.

184

00:24:33,000 --> 00:24:38,000

All those stars, what is out there, what is our relationship to that?

185

00:24:39,000 --> 00:24:45,000

If it would only be one culture of ancient times describing this, fine.

186

00:24:46,000 --> 00:24:56,000

But if you have all ancient cultures, especially the origin stories, that talk about the same thing, then the answer is clear. Something else went on.

187

00:24:57,000 --> 00:25:05,000

So, if we have these ancient structures that were built in the form of Orion or the Pleiades, for example,

188

00:25:05,000 --> 00:25:12,000

then what if it's an illustration to suggest where these extraterrestrials came from?

189

00:25:13,000 --> 00:25:23,000

Is it possible that the origin stories of ancient cultures are not merely based on imagination, but were inspired by actual historical events?

190

00:25:23,000 --> 00:25:30,000

And if so, does this mean that aliens from more than one star system came to Earth in the distant past?

191

00:25:31,000 --> 00:25:37,000

As far as ancient astronaut theorists are concerned, the answer is a resounding yes.

192

00:25:37,000 --> 00:25:47,000

And they not only point to ancient stories as proof, but to the various descriptions of different types of beings being reported by eyewitnesses, even today.

193

00:25:49,000 --> 00:25:53,000

There's a wide variety of beings out there that are said to have come to Earth.

194

00:25:53,000 --> 00:25:57,000

You have the grays, you have the reptilians, and the Pleiades.

195

00:25:58,000 --> 00:26:13,000

The Pleiades then fit in as part of a whole roster of different types of beings that are visiting Earth in the ancient world, mating with humans, creating hybrid offspring, and influencing human civilization.

196

00:26:15,000 --> 00:26:25,000

If the Pleiades were one of a number of extraterrestrial factions that visited Earth from different star systems, have they left? Never to return.

197

00:26:26,000 --> 00:26:31,000

Or could they still be living amongst us? Even as we speak.

198

00:26:33,000 --> 00:26:38,000

Coming up, they all fled into the stars, seeking protection, and there were transformed into stars.

199

00:26:38,000 --> 00:26:46,000

Some kind of conflict between beings from the Orion system and another group of beings from this Pleiades system.

200

00:26:47,000 --> 00:26:50,000

The Pleiades

201

00:26:52,000 --> 00:26:54,000

Adams County, Ohio.

202

00:26:55,000 --> 00:26:57,000

2020.

203

00:26:58,000 --> 00:27:10,000

Here, in what was once home to a mysterious group of mound builders known as the Edina culture, is arguably one of the most extraordinary ancient sites in North America.

204

00:27:10,000 --> 00:27:12,000

Serpent Mound.

205

00:27:12,000 --> 00:27:18,000

The serpent mound is a massive 1400 feet long and three foot tall effigy of a serpent.

206

00:27:18,000 --> 00:27:22,000

It is the largest in the world and you can only really see it from above.

207

00:27:22,000 --> 00:27:30,000

Scientists can't agree when it was originally built or why it was built. It really is one of the big mysteries of the ancient world.

208

00:27:31,000 --> 00:27:43,000

While archaeologists still debate the true purpose of the serpent mound, ancient astronaut theorists believe the answer may be found in the traditional stories of the native people of the region.

209

00:27:43,000 --> 00:27:50,000

A people whose legends tell of a great battle waged between a serpent and visitors from the Pleiades.

210

00:27:53,000 --> 00:27:58,000

According to the legend, there were two entities involved in this great battle.

211

00:28:00,000 --> 00:28:07,000

A water serpent and the thunderbird, which represented star people from the Pleiades culture.

212

00:28:07,000 --> 00:28:14,000

So we may have had two extraterrestrial races battling at serpent mound.

213

00:28:14,000 --> 00:28:19,000

Some significant things about serpent mound that gives credibility to the story.

214

00:28:19,000 --> 00:28:25,000

Core samples have revealed there's triated crystal and also deposits of iridium found in serpent mound.

215

00:28:25,000 --> 00:28:34,000

And according to lore, this battle involved high-tech weapons that may have caused this triated crystal or this deposit of iridium.

216

00:28:36,000 --> 00:28:43,000

Not only is iridium one of the rarest metals on earth, it's also one of the most corrosion resistant.

217

00:28:43,000 --> 00:28:52,000

And it can withstand incredible heat, which is why it's used in a lot of high technology, including space probes.

218

00:28:53,000 --> 00:29:03,000

Is it possible that the iridium found at serpent mound came from some sort of extraterrestrial craft that was engaged in battle, as ancient astronaut theorists suggest?

219

00:29:03,000 --> 00:29:09,000

And if so, could its presence at the site reveal the battle's outcome?

220

00:29:10,000 --> 00:29:18,000

Ancient astronaut theorists often think that there were several kinds of extraterrestrials who were coming to the planet.

221

00:29:18,000 --> 00:29:25,000

And one type of extraterrestrial was a reptilian serpent type of humanoid entity.

222

00:29:25,000 --> 00:29:31,000

And some people think that they were fighting wars over domination of planet earth.

223

00:29:31,000 --> 00:29:35,000

And it seems the reptilians won the battle.

224

00:29:36,000 --> 00:29:42,000

While alien factions battling for control of the planet may sound like the stuff of science fiction fantasy,

225

00:29:42,000 --> 00:29:51,000

ancient astronaut theorists suggest that strikingly similar stories can be found in cultures throughout the world that also support this notion.

226

00:29:56,000 --> 00:30:03,000

Amada, South Australia, dating back more than 20,000 years.

227

00:30:04,000 --> 00:30:15,000

The rock art at Wallininga, also known as Cave Hill, is considered some of the most significant on the continent and contains the oldest depictions of the Pleiades.

228

00:30:15,000 --> 00:30:23,000

The art represents the so-called Seven Sisters being chased by star beings associated with the constellation of Orion.

229

00:30:23,000 --> 00:30:30,000

According to legend, they were forced to flee into the night sky where they became the Pleiades.

230

00:30:31,000 --> 00:30:37,000

There is one dreaming story that runs through the whole of this country and that's the Seven Sisters of Pleiades.

231

00:30:37,000 --> 00:30:43,000

It is the same narrative that barely changes from place to place. Sometimes it's Orion, sometimes it's Southern Cross chasing them.

232

00:30:43,000 --> 00:30:47,000

But it is something that permeates through the whole of their religion.

233

00:30:49,000 --> 00:30:57,000

The details of the stories of the original people of Australia are eerily similar to one found over 8,000 miles away in Greece.

234

00:30:58,000 --> 00:31:05,000

According to the mythology, the Seven Sisters were fleeing an earthly pursuer called Orion.

235

00:31:08,000 --> 00:31:15,000

In the Greco-Roman tradition, the Pleiades are the daughters of Atlas and a goddess Pleiades.

236

00:31:15,000 --> 00:31:21,000

And they are seven daughters. Orion is also a demigod as it were, a hero.

237

00:31:21,000 --> 00:31:30,000

And he was chasing after them and as a result of it, they all fled into the stars seeking protection and they were transformed into stars.

238

00:31:32,000 --> 00:31:42,000

6,000 miles from Greece, the native Kiowa tribe in Wyoming tells the story that Devil's Tower was clawed by a great bear that was in pursuit of seven maidens.

239

00:31:44,000 --> 00:31:50,000

The Pleiades, the bright stars that come to see clearly by the eye, are important in the ancient lore.

240

00:31:50,000 --> 00:31:56,000

Kiowa tradition tells us the maidens knelt to pray for help calling upon the gods.

241

00:31:57,000 --> 00:32:04,000

The ground was raised into the sky that bear tried to follow in vain and clawed the side of the rock.

242

00:32:05,000 --> 00:32:12,000

To protect the maidens, the great spirit allowed them to remain in the sky as the Seven Sisters.

243

00:32:14,000 --> 00:32:15,000

The Pleiades.

244

00:32:16,000 --> 00:32:23,000

How can it be that cultures separated by such vast distances and indeed time have an identical story?

245

00:32:23,000 --> 00:32:34,000

Could it be that they're recording real events, that there was some kind of conflict between beings that originated from the Orion system and another group of beings from this Pleiades system?

246

00:32:34,000 --> 00:32:38,000

Could it be that these Pleiades returned to their home in the stars?

247

00:32:39,000 --> 00:32:47,000

Do these similar ancient traditions provide a historical record that extraterrestrials from the Pleiades were forced to flee the Earth?

248

00:32:49,000 --> 00:32:59,000

Based on the legend of the native Hawaiians, some ancient astronaut theorists believe there could be another, even more incredible possibility.

249

00:33:00,000 --> 00:33:08,000

Part of Hawaiian legend is that Lemurians used lava tubes for safe harbour from invasion.

250

00:33:08,000 --> 00:33:15,000

And I think that was a legend that is established on a war that occurred prior to the last great flood.

251

00:33:15,000 --> 00:33:23,000

So this was the Lemurians being driven underground. Many of them remained and some of them returned to the Pleiades.

252

00:33:24,000 --> 00:33:32,000

Throughout the Pacific there are also stories that Lemuria or Mu is now basically underneath the ocean.

253

00:33:33,000 --> 00:33:42,000

So if Lemuria was actually some kind of a crab, we have to wonder if it is capable of going underwater.

254

00:33:42,000 --> 00:33:47,000

And it's quite possible as well that these extraterrestrials are under the oceans.

255

00:33:48,000 --> 00:33:59,000

If the events chronicled in numerous ancient traditions really occurred, is it possible that the Pleiades did not retreat to their home planet thousands of years ago,

256

00:33:59,000 --> 00:34:05,000

but are still here and can be found somewhere deep beneath the ocean?

257

00:34:07,000 --> 00:34:08,000

Coming up...

258

00:34:08,000 --> 00:34:15,000

The indigenous elders say this is where they go to commune with their otherworldly ancestors.

259

00:34:16,000 --> 00:34:21,000

Who began having experiences with these Pleiadean star visitors.

260

00:34:25,000 --> 00:34:28,000

New South Wales, Australia

261

00:34:29,000 --> 00:34:40,000

According to the indigenous population, distinctive rock formations in the Blue Mountains called the Three Sisters are what remains of seven stone spires that once stood here.

262

00:34:41,000 --> 00:34:46,000

Locals associate them with the seven visible stars of the Pleiades.

263

00:34:47,000 --> 00:34:58,000

To this day, the elders believe this area contains a cosmic cord, a sacred link to these stars that allows them to make contact with their ancestors.

264

00:34:58,000 --> 00:35:02,000

And some believe it is the site of their return.

265

00:35:03,000 --> 00:35:10,000

There are definitely stories of Pleiades in contact through the whole of that region, Blue Mountains and Gosford.

266

00:35:12,000 --> 00:35:15,000

It is where they've come down and worked with them.

267

00:35:15,000 --> 00:35:22,000

I've been with elders who swear to this day they have spoken to tall blue beings and they've given information to them.

268

00:35:23,000 --> 00:35:30,000

In the paranormal investigation community, the Blue Mountains are considered a hotspot for extraterrestrial activity.

269

00:35:31,000 --> 00:35:36,000

Since the 1950s, there have been hundreds of UFO sightings.

270

00:35:36,000 --> 00:35:43,000

This corroborates the views of the indigenous elders who say this is a location where they go to commune with their otherworldly ancestors.

271

00:35:43,000 --> 00:35:49,000

So could this mean that they have been able to communicate with the otherworldly ancestors?

272

00:35:49,000 --> 00:35:56,000

But if extraterrestrials from the Pleiades have returned to Earth after a long absence, why now?

273

00:35:56,000 --> 00:36:05,000

Perhaps further clues can be found by examining details from an alleged alien abduction event half a world away.

274

00:36:19,000 --> 00:36:21,000

Bogota, Colombia

275

00:36:21,000 --> 00:36:25,000

November 3, 1973

276

00:36:25,000 --> 00:36:32,000

Engineer Enrique Castillo-Rincon is at home when a strange voice invades his mind.

277

00:36:33,000 --> 00:36:42,000

According to Rincon, this telepathic communication is from a cosmic being whose origin lies 400 light years away in the Pleiades.

278

00:36:43,000 --> 00:36:49,000

Rincon is instructed to visit a specific lake where physical contact would be made.

279

00:36:50,000 --> 00:36:54,000

Once there, he claims to have been taken aboard a Pleiadian spacecraft.

280

00:36:56,000 --> 00:37:03,000

Enrique Castillo-Rincon began having experiences with these Pleiadian star visitors.

281

00:37:04,000 --> 00:37:12,000

He says that he was chosen by the Pleiadians to be an ambassador where he would actually be given a lot of information,

282

00:37:12,000 --> 00:37:25,000

the history of Pleiadian interaction with humanity and our true history as a species and how the Pleiadians have been interacting with us for many millennia.

283

00:37:26,000 --> 00:37:35,000

Some of the messages Rincon receives talk of great changes coming in the near future including an imminent Third World War.

284

00:37:37,000 --> 00:37:43,000

You can imagine that this sort of information would be of great concern to the authorities.

285

00:37:43,000 --> 00:37:55,000

Indeed, after one of his public appearances, Rincon claims that government agents took him to Washington DC where top level officials interrogated him.

286

00:37:57,000 --> 00:38:08,000

What made Rincon's case fascinating was that documentation subsequently has come out, substantiating that the CIA did actually bring him to the United States for a debriefing.

287

00:38:09,000 --> 00:38:18,000

Since 1973, other contactees have come forward professing to have been given similar information by beings from the Pleiades.

288

00:38:21,000 --> 00:38:32,000

Ancient astronaut theorists speculate that this increase in contact and the recent appearance of a Muamua may indicate that they are preparing humanity for their return.

289

00:38:33,000 --> 00:38:41,000

We know from many different sources that the Pleiadians have been interacting with humanity and are connected to us.

290

00:38:41,000 --> 00:38:50,000

So if that is the case, Muamua could be part of humanity's awakening to the greater cosmic reality.

291

00:38:51,000 --> 00:39:04,000

Muamua, the first visitor from outside the solar system, it's almost like a calling card, a business card of where the extraterrestrials came from.

292

00:39:04,000 --> 00:39:06,000

They came down from the Pleiades.

293

00:39:09,000 --> 00:39:15,000

Are we entering a new era of alien visitation, as ancient astronaut theorists suggest?

294

00:39:16,000 --> 00:39:21,000

One where we will see the return of the Pleiades and other extraterrestrial races.

295

00:39:22,000 --> 00:39:29,000

Perhaps further evidence can be found by examining a second interstellar object that recently entered our solar system.

296

00:39:37,000 --> 00:39:41,000

Crimea, August 30th, 2019

297

00:39:42,000 --> 00:39:51,000

At the Margo Observatory, amateur astronomer Gennady Borosov detects a strange object traveling through the sky.

298

00:39:51,000 --> 00:39:59,000

It is dubbed the Borosov Comet and becomes the second interstellar object ever discovered in our solar system.

299

00:39:59,000 --> 00:40:05,000

Nearly two years after, Muamua traveled from the Pleiades star cluster.

300

00:40:06,000 --> 00:40:12,000

The Borosov Comet is the second known object we found that has interstellar origins.

301

00:40:12,000 --> 00:40:19,000

It was traveling way too fast to have come from our own outer solar system, which means it has to have come from another solar system.

302

00:40:20,000 --> 00:40:27,000

Whether we're just getting better at detecting these objects or whether we're seeing this new kind of thing swinging by our sun,

303

00:40:27,000 --> 00:40:32,000

it's a really exciting time to be looking for things that are coming from outside our solar system.

304

00:40:33,000 --> 00:40:41,000

This is kind of alarming to some astronomers because we wonder, are these cosmic messengers coming here bringing us warnings?

305

00:40:41,000 --> 00:40:48,000

Are they signaling something? Is this just the start of more interstellar objects entering into our solar system?

306

00:40:48,000 --> 00:40:52,000

And if so, how many more of these objects are we going to start seeing?

307

00:40:54,000 --> 00:41:00,000

In 2017, a paper was published trying to estimate the number of interstellar objects that we might have.

308

00:41:02,000 --> 00:41:11,000

One estimate suggests that at any one moment we might have one Muamua-like object inside the orbit of Earth at any time.

309

00:41:11,000 --> 00:41:14,000

It shows us new possibilities of what's out there.

310

00:41:14,000 --> 00:41:18,000

We've had a piece of something from another solar system delivered to us.

311

00:41:18,000 --> 00:41:22,000

I think this is inching us closer to the discovery of life elsewhere.

312

00:41:22,000 --> 00:41:26,000

My personal belief is there is life out there.

313

00:41:27,000 --> 00:41:33,000

Now, after the historic discovery of two interstellar objects that were delivered to our solar system,

314

00:41:33,000 --> 00:41:36,000

could a new age be upon us?

315

00:41:36,000 --> 00:41:41,000

One that will soon see the arrival of intelligent beings from another world.

316

00:41:41,000 --> 00:41:47,000

If Muamua is an interstellar probe, we know now that it comes from the Pleiades,

317

00:41:47,000 --> 00:41:53,000

is the Borisov object also some form of intelligently directed interstellar object?

318

00:41:53,000 --> 00:41:58,000

There are other species out there that are also sending probes that we soon will discover.

319

00:42:00,000 --> 00:42:08,000

In the earliest of oral traditions and the earliest of texts, everybody is waiting for someone to return.

320

00:42:09,000 --> 00:42:16,000

I hope that we will make official contact within our lifetime, meaning in the next 50 or so years.

321

00:42:16,000 --> 00:42:21,000

I've always said that the big secret will be when the hatch opens and they walk down the ramp

322

00:42:21,000 --> 00:42:25,000

that will look at each other in the mirror because they will look like you and me.

323

00:42:26,000 --> 00:42:31,000

Throughout human history, we have looked to the stars to guide our ships,

324

00:42:31,000 --> 00:42:38,000

to align our most sacred monuments and to search for our place in the universe.

325

00:42:38,000 --> 00:42:43,000

But could we have a far more profound connection with these distant suns?

326

00:42:44,000 --> 00:42:49,000

And if so, are we on the verge of recovering this lost knowledge?

327

00:42:50,000 --> 00:42:57,000

Perhaps now that we are able to detect the visitors coming to our solar system from the far reaches of space,

328

00:42:57,000 --> 00:43:05,000

we will soon discover that humanity's origins lie not on Earth, but light years away.
