

1

00:00:00,000 --> 00:00:05,000

In the Mojave Desert, there is a structure built of a stow,

2

00:00:05,000 --> 00:00:07,000

everlasting life.

3

00:00:07,000 --> 00:00:10,000

People were supposed to walk in one door and come out the other

4

00:00:10,000 --> 00:00:12,000

and be healed.

5

00:00:12,000 --> 00:00:15,000

And according to the architect, it was designed by other

6

00:00:15,000 --> 00:00:17,000

worldly beings.

7

00:00:17,000 --> 00:00:21,000

He could communicate with distant ancestors or even time travelers

8

00:00:21,000 --> 00:00:23,000

coming and going from the earth.

9

00:00:23,000 --> 00:00:26,000

They showed him the future, and this was his destiny.

10

00:00:26,000 --> 00:00:30,000

In your wildest imagination, you wouldn't come up with something

11

00:00:30,000 --> 00:00:32,000

like the Integra Tron.

12

00:00:32,000 --> 00:00:36,000

The dome was taking many different scientific ideas and melding

13

00:00:36,000 --> 00:00:38,000

them together.

14

00:00:38,000 --> 00:00:42,000

Could this strange dome building really provide the heat to

15

00:00:42,000 --> 00:00:43,000

immortality?

16

00:00:43,000 --> 00:00:46,000

If we could figure out the Integra Tron, then for all intents

17

00:00:46,000 --> 00:00:50,000

and purposes, we could live forever.

18

00:00:51,000 --> 00:00:56,000

There is a doorway in the universe.

19

00:00:56,000 --> 00:01:00,000

Beyond it is the promise of truth.

20

00:01:00,000 --> 00:01:06,000

It demands we question everything we have ever been taught.

21

00:01:06,000 --> 00:01:09,000

The evidence is all around us.

22

00:01:09,000 --> 00:01:13,000

The future is right before our eyes.

23

00:01:13,000 --> 00:01:16,000

We are not alone.

24

00:01:16,000 --> 00:01:20,000

We have never been alone.

25

00:01:27,000 --> 00:01:33,000

Santa Ana, California, February 9, 1978.

26

00:01:33,000 --> 00:01:38,000

Aerodynamics engineer and inventor George Vantassel is in his

27

00:01:38,000 --> 00:01:42,000

hotel room, preparing to reveal his latest scientific discoveries

28

00:01:42,000 --> 00:01:47,000

in a television interview when he suddenly and unexpectedly dies.

29

00:01:50,000 --> 00:01:53,000

Friends and family members are shocked when it is reported that

30

00:01:53,000 --> 00:01:56,000

he suffered a fatal heart attack.

31

00:01:56,000 --> 00:02:02,000

Since Vantassel, at 67 years of age, was in perfect health and had

32

00:02:02,000 --> 00:02:05,000

shown no warning signs.

33

00:02:05,000 --> 00:02:10,000

His sister, Peggy Manio, became suspicious when she discovered

34

00:02:10,000 --> 00:02:15,000

that the body had been cremated before she was even notified.

35

00:02:15,000 --> 00:02:19,000

And perhaps most curious of all, his wife Doris claimed that during

36

00:02:19,000 --> 00:02:23,000

her husband's funeral, their home was ransacked and George's

37

00:02:23,000 --> 00:02:26,000

papers stolen.

38

00:02:27,000 --> 00:02:34,000

As soon as he passed away, mysterious vans and trucks showed up

39

00:02:34,000 --> 00:02:40,000

and all of his equipment and plans and drawings and a lot of his

40

00:02:40,000 --> 00:02:44,000

writings were loaded up into these trucks, supposedly government

41

00:02:44,000 --> 00:02:49,000

trucks, and hauled away, never to be seen again.

42

00:02:49,000 --> 00:02:54,000

If the government found all this stuff important enough to show up

43

00:02:54,000 --> 00:02:59,000

right after he died and hauled away, then at least some people

44

00:02:59,000 --> 00:03:03,000

within the government believed there was something worth studying,

45

00:03:03,000 --> 00:03:06,000

something worth looking at.

46

00:03:06,000 --> 00:03:10,000

But what was George Vantassel working on that would elicit so much

47

00:03:10,000 --> 00:03:14,000

interest from the United States government and even prompt family

48

00:03:14,000 --> 00:03:19,000

members to speculate that he may have been murdered?

49

00:03:19,000 --> 00:03:23,000

While Vantassel had been working on a number of intriguing projects,

50

00:03:23,000 --> 00:03:28,000

including an anti-gravity device, his masterwork was a machine he had

51

00:03:28,000 --> 00:03:33,000

built in the Mojave Desert called the Integratron.

52

00:03:33,000 --> 00:03:38,000

It was a machine designed to extend life and perhaps even lead to

53

00:03:38,000 --> 00:03:41,000

immortality.

54

00:03:41,000 --> 00:03:47,000

George Vantassel often quoted Corinthians 15:26.

55

00:03:47,000 --> 00:03:51,000

The last enemy to be destroyed is death.

56

00:03:51,000 --> 00:03:55,000

George believed that our lifespan is too short and in order to get

57

00:03:55,000 --> 00:03:58,000

wisdom, we should live longer.

58

00:03:58,000 --> 00:04:02,000

And that was part of his motivation to create this machine, to bring

59

00:04:02,000 --> 00:04:04,000

wisdom to people.

60

00:04:04,000 --> 00:04:07,000

Because just as you're getting it together, boom, you die.

61

00:04:07,000 --> 00:04:11,000

If you could walk through this machine, counterclockwise, come out the

62

00:04:11,000 --> 00:04:16,000

other side and be 30% younger, what more could you do with your life?

63

00:04:16,000 --> 00:04:21,000

It's in the middle of nowhere, it's incredibly flat, and there you see

64

00:04:21,000 --> 00:04:26,000

this white round building with a half dome on top, and it's got these

65

00:04:26,000 --> 00:04:29,000

16 sections.

66

00:04:29,000 --> 00:04:36,000

Integratron was made in a way that is very ideally suited for capturing

67

00:04:36,000 --> 00:04:38,000

energy.

68

00:04:38,000 --> 00:04:42,000

And the way George Vantassel thought of the Integratron as a battery

69

00:04:42,000 --> 00:04:45,000

charger, a way to prolong life.

70

00:04:45,000 --> 00:04:51,000

The basic idea behind the Integratron was to introduce a machine

71

00:04:51,000 --> 00:04:56,000

through harmonics with which you then can rejuvenate your cells.

72

00:04:56,000 --> 00:05:00,000

Because if we could figure out a way from preventing our individual

73

00:05:00,000 --> 00:05:05,000

cells from deteriorating or getting older, then for all intents and

74

00:05:05,000 --> 00:05:09,000

purposes, we could live forever.

75

00:05:09,000 --> 00:05:14,000

At the time of his death, George Vantassel had just announced that the

76

00:05:14,000 --> 00:05:19,000

device he had been working on for 24 years was 95% complete and would

77

00:05:19,000 --> 00:05:22,000

be fully functional within weeks.

78

00:05:22,000 --> 00:05:26,000

When his house was ransacked during his funeral, the core of the

79

00:05:26,000 --> 00:05:31,000

Integratron and other critical components also disappeared, leaving

80

00:05:31,000 --> 00:05:35,000

no question as to what the intruders were after.

81

00:05:35,000 --> 00:05:42,000

Those papers and that equipment, none of that has ever been seen again.

82

00:05:42,000 --> 00:05:46,000

Could this unusual structure located in the middle of the Mojave

83

00:05:46,000 --> 00:05:50,000

Desert really hold the key to immortality?

84

00:05:50,000 --> 00:05:54,000

While it may sound far-fetched, many who have studied the incredible

85

00:05:54,000 --> 00:05:58,000

story of George Vantassel are convinced that he might actually have

86

00:05:58,000 --> 00:06:03,000

succeeded in a quest for eternal life that has endured for thousands of

87

00:06:03,000 --> 00:06:05,000

years.

88

00:06:05,000 --> 00:06:08,000

When we took a bite out of that apple in the Garden of Eden, we had

89

00:06:08,000 --> 00:06:12,000

knowledge. The price of that knowledge was that we were aware of our own

90

00:06:12,000 --> 00:06:16,000

mortality and since that day, we've been looking for that fountain of

91

00:06:16,000 --> 00:06:23,000

youth, that way to extend our lifespan or maybe even live forever.

92

00:06:23,000 --> 00:06:29,000

In 2018, archeologists excavating the tomb of a Han dynasty noble family

93

00:06:29,000 --> 00:06:34,000

in Lu Yang, China unearthed some of the earliest evidence ever found of

94

00:06:34,000 --> 00:06:37,000

human efforts to cheat death.

95

00:06:37,000 --> 00:06:42,000

Recently, in an archeological dig in a Chinese burial chamber, an ancient

96

00:06:42,000 --> 00:06:47,000

2000-year-old bronze pot was recovered with the remnants of a substance

97

00:06:47,000 --> 00:06:53,000

that was later determined was probably an elixir of immortality.

98

00:06:53,000 --> 00:06:58,000

Ancient Taoist texts confirmed the liquid substance to be a legendary

99

00:06:58,000 --> 00:07:03,000

potion brewed by Chinese alchemists, granting eternal youth to those who

100

00:07:03,000 --> 00:07:08,000

dared drink it. Lab results revealed the potion is largely made up of

101

00:07:08,000 --> 00:07:13,000

potassium nitrate and alunite, which while not poisonous, are used in

102

00:07:13,000 --> 00:07:16,000

pesticides, fertilizers and rocket propellants.

103

00:07:16,000 --> 00:07:21,000

It's a powerful reminder of the fact that humans probably for thousands

104

00:07:21,000 --> 00:07:29,000

of years have had this sort of desire to extend our lives.

105

00:07:29,000 --> 00:07:34,000

The Han dynasty elixir is just the latest of many ancient attempts at

106

00:07:34,000 --> 00:07:39,000

immortality discovered by archeologists over the years.

107

00:07:39,000 --> 00:07:45,000

But what drives humankind to seek eternal life? Is it merely self-preservation?

108

00:07:45,000 --> 00:07:49,000

Or could there be another force at work?

109

00:07:49,000 --> 00:07:54,000

One that may be connected to the fact that every ancient culture on Earth

110

00:07:54,000 --> 00:07:58,000

described the gods as immortal.

111

00:07:58,000 --> 00:08:02,000

In ancient Greek myths, we learn of the food of the gods, which they called

112

00:08:02,000 --> 00:08:08,000

ambrosia, an immortality food. These beings possessed some form of a liquid

113

00:08:08,000 --> 00:08:12,000

or an elixir that ultimately somehow altered their blood and promoted

114

00:08:12,000 --> 00:08:19,000

immortality. Some of the stories that we hear about this drink ambrosia is

115

00:08:19,000 --> 00:08:24,000

when the eyewitness is taken up into the sky.

116

00:08:24,000 --> 00:08:30,000

There are actual ancient Greek mythologies that describe these shiny star

117

00:08:30,000 --> 00:08:35,000

islands that descend from the sky and then under their own propulsion moved

118

00:08:35,000 --> 00:08:44,000

around, the entire Greek pantheon of gods is based on visiting extraterrestrials.

119

00:08:44,000 --> 00:08:50,000

Is it possible that humanity's centuries-old quest to attain eternal life

120

00:08:50,000 --> 00:08:54,000

is fueled by a desire to become like the otherworldly beings that our

121

00:08:54,000 --> 00:09:00,000

ancestors actually encountered? Curiously, there are a number of stories

122

00:09:00,000 --> 00:09:05,000

from the ancient world presented not as fiction, but as historical record

123

00:09:05,000 --> 00:09:11,000

that describe people of an earlier age living extraordinarily long lives.

124

00:09:11,000 --> 00:09:16,000

In the Old Testament, the book of Genesis, we learn of figures like Noah and

125

00:09:16,000 --> 00:09:21,000

Methuselah who lived for hundreds of years, eight and nine hundred years.

126

00:09:21,000 --> 00:09:26,000

The Bible never tells us how they were able to live that long.

127

00:09:26,000 --> 00:09:31,000

There is an artifact at the Ashmolean Museum in Oxford, England that is

128

00:09:31,000 --> 00:09:40,000

called the WB44 Kings List of Ancient Sumeria. On there, you have a chronology

129

00:09:40,000 --> 00:09:48,000

of kings and the combined years of when these rulers were in charge is

130

00:09:48,000 --> 00:09:56,000

two hundred and forty-one thousand years. And on that WB44 list, you have

131

00:09:56,000 --> 00:10:02,000

so-called historical figures where you actually have archaeology corroborating

132

00:10:02,000 --> 00:10:09,000

existence of those people. So in my opinion, the WB44 list is a list of

133

00:10:09,000 --> 00:10:15,000

extraterrestrial space travelers and the entire Kings List is correct.

134

00:10:15,000 --> 00:10:21,000

Could it be that George Vantassel and many others like him have been driven

135

00:10:21,000 --> 00:10:25,000

by a deep-seated memory of a time when our ancestors existed alongside

136

00:10:25,000 --> 00:10:31,000

extraterrestrials who seemed to live forever? Perhaps the answer can be

137

00:10:31,000 --> 00:10:35,000

found by examining the events that led to the construction of the

138

00:10:35,000 --> 00:10:40,000

Integratron and George Vantassel's Alien Encounter.

139

00:10:47,000 --> 00:10:53,000

Standing alone in California's Barren Mojave Desert is a towering seven-story

140

00:10:53,000 --> 00:10:59,000

boulder called Giant Rock. It is here that George Vantassel's strange journey

141

00:10:59,000 --> 00:11:05,000

began in the 1940s, just three miles from where he would eventually build

142

00:11:05,000 --> 00:11:11,000

the Integratron. Giant Rock is a twenty-five thousand-ton boulder that

143

00:11:11,000 --> 00:11:17,000

takes up fifty-eight hundred square feet and is until recently the largest

144

00:11:17,000 --> 00:11:22,000

freestanding boulder in the world. This massive boulder has long been held

145

00:11:22,000 --> 00:11:27,000

sacred by local Native American tribes who believe it to be a site of great

146

00:11:27,000 --> 00:11:32,000

power. Spiritual vortexes like Giant Rock are known to be places where

147

00:11:32,000 --> 00:11:37,000

people can have extraordinary spiritual experiences, healing experiences,

148

00:11:37,000 --> 00:11:42,000

deep states of meditation. And what we find out at Giant Rock is that the local

149

00:11:42,000 --> 00:11:46,000

Native American Indian tribes, the Serrano and the Chemahuevi, would do their

150

00:11:46,000 --> 00:11:51,000

ceremonies at Giant Rock but only the chief was allowed to get close to Giant Rock.

151

00:11:52,000 --> 00:11:59,000

In November of 2019, ancient astronaut theorist David Chilriss traveled to the

152

00:11:59,000 --> 00:12:04,000

site of Giant Rock to meet with local historian Barbara Harris and learn more

153

00:12:04,000 --> 00:12:08,000

about the inception of the Integratron.

154

00:12:08,000 --> 00:12:14,000

Hello Barbara. Hi, thank you for coming. Thanks for having me here.

155

00:12:14,000 --> 00:12:19,000

So please tell me the story of Giant Rock. Well they say it is millions of years

156

00:12:19,000 --> 00:12:26,000

old and basically this whole area here is made up of granite and many, many years

157

00:12:26,000 --> 00:12:33,000

ago there is a volcanic eruption and of course this is the product of that volcanic

158

00:12:33,000 --> 00:12:39,000

eruption. What is the early story of Giant Rock then with Native Americans?

159

00:12:39,000 --> 00:12:45,000

Well this ground was considered very sacred by Native Americans and they would

160

00:12:45,000 --> 00:12:50,000

come here and use it seasonally but they considered it so sacred that only the

161

00:12:50,000 --> 00:12:55,000

shamans and the chiefs were allowed to stay here at the rock. At the turn of the

162

00:12:55,000 --> 00:13:00,000

19th century the homesteading and the white men started to come in.

163

00:13:00,000 --> 00:13:06,000

And that has to do with this early prospector who lived under the rock.

164

00:13:06,000 --> 00:13:11,000

Frank Kreitzer, then he was responsible for building the roads to Giant Rock.

165

00:13:12,000 --> 00:13:18,000

In 1930 George van Tassel had a chance encounter with prospector Frank Kreitzer at his

166

00:13:18,000 --> 00:13:24,000

uncle's auto repair shop in Santa Monica which led to him investing in Kreitzer's

167

00:13:24,000 --> 00:13:30,000

mining operations in the Mojave Desert. Kreitzer was known in the area for his

168

00:13:30,000 --> 00:13:35,000

eccentric behavior which included using mining dynamite to blow a hole in the

169

00:13:35,000 --> 00:13:42,000

bottom of Giant Rock, one big enough to live in. Van Tassel's initial ties to the

170

00:13:42,000 --> 00:13:47,000

area stemmed from a friendship forged with Kreitzer over the years.

171

00:13:47,000 --> 00:13:54,000

He lived under this rock. Yes, he was actually a guy who was looking for people to

172

00:13:54,000 --> 00:14:02,000

come and visit him under his rock. However Frank he also had a dark side to him.

173

00:14:02,000 --> 00:14:10,000

So in July of 1942 the US government had the old man's draft and it required people

174

00:14:10,000 --> 00:14:15,000

between the ages of 18 and 64 to register for the draft.

175

00:14:15,000 --> 00:14:22,000

And so he got caught up in that. Yeah, he was 54 and the local sheriffs came out here

176

00:14:22,000 --> 00:14:26,000

who happened to be friends with him and offered to take him into the local town

177

00:14:26,000 --> 00:14:32,000

to register for the draft. He walked into a back room and came out wearing a pair

178

00:14:32,000 --> 00:14:38,000

of binoculars that had wires attached and he basically said leave me alone or

179

00:14:38,000 --> 00:14:43,000

we're all going to go to hell together. And he took the two wires put them together and...

180

00:14:46,000 --> 00:14:54,000

Right under here then. Yes. Okay, wow. And he blew up into little pieces and one sheriff

181

00:14:54,000 --> 00:15:00,000

actually one of his rib cages came off and impaled into the other one and the other sheriff

182

00:15:00,000 --> 00:15:05,000

came flying out of the bottom of the rock and the other sheriff who stood out here

183

00:15:05,000 --> 00:15:11,000

stood in shock while it all happened. Frank Kreitzer's bizarre and violent action

184

00:15:11,000 --> 00:15:17,000

shocked the local community. Many questioned if he may have been influenced by the energy

185

00:15:17,000 --> 00:15:23,000

of giant rock itself which the local Native American tribes had warned was only meant

186

00:15:23,000 --> 00:15:32,000

for sacred purposes. And according to geologists, giant rock does in fact produce energy.

187

00:15:32,000 --> 00:15:38,000

The interior of the rock is white because it is primarily composed of quartz,

188

00:15:38,000 --> 00:15:46,000

a mineral that generates an electrical charge when under stress as it would be inside a massively heavy rock.

189

00:15:47,000 --> 00:15:55,000

Giant rock is also believed to be located on top of a natural earth energy line also known as a lay line.

190

00:15:57,000 --> 00:16:03,000

George Vantasel said the Integratron needed to be in a special place full of energy.

191

00:16:03,000 --> 00:16:11,000

We have a coal mine right nearby. This area has lay lines and aquifers.

192

00:16:11,000 --> 00:16:18,000

There's actually a mountain of quartz right here and you can feel the energy when you're here.

193

00:16:19,000 --> 00:16:25,000

Could electrical energy emanating from giant rock have had a deadly effect on Frank Kreitzer?

194

00:16:26,000 --> 00:16:35,000

Despite the horrific event that occurred at giant rock, one man was still drawn to the site, George Vantasel.

195

00:16:36,000 --> 00:16:44,000

Over the course of his many visits to Kreitzer's rock home, he had become convinced that it was a place of unusual energy.

196

00:16:45,000 --> 00:16:53,000

Now you have a vacancy under the rock. Vantasel told his wife, pack the girls, we're moving out to live under a rock.

197

00:16:53,000 --> 00:16:56,000

So did the Vantasels live underneath this rock then?

198

00:16:56,000 --> 00:17:00,000

No, actually most of their living quarters were outside.

199

00:17:00,000 --> 00:17:05,000

The underground area was primarily used for his channeling and meditation.

200

00:17:05,000 --> 00:17:10,000

So as the story goes, Vantasel had an experience.

201

00:17:11,000 --> 00:17:18,000

Before his death, Frank Kreitzer had transformed the nearby ancient lake bed into a small airport.

202

00:17:19,000 --> 00:17:29,000

According to George Vantassel, on the night of August 24th, 1953, a craft landed on the runway that was not of this world.

203

00:17:31,000 --> 00:17:36,000

He described the encounter in a 1964 television interview.

204

00:17:36,000 --> 00:17:38,000

What did you see?

205

00:17:38,000 --> 00:17:48,000

A bell shaped type of anagravity ship that they operate as a scout ship out of their big carriers.

206

00:17:48,000 --> 00:17:49,000

How big?

207

00:17:49,000 --> 00:17:53,000

This was 36 feet in diameter, 19 feet high.

208

00:17:53,000 --> 00:17:55,000

And where was it? On the ground?

209

00:17:55,000 --> 00:18:02,000

No, I was hovering 10 feet off the ground and the man got off of the ship and approached me.

210

00:18:02,000 --> 00:18:04,000

Did you go into this ship?

211

00:18:04,000 --> 00:18:11,000

I walked with him to a spot underneath it and an anagravity beam took me up through a hole in the bottom.

212

00:18:13,000 --> 00:18:19,000

While skeptics were quick to write off George Vantasel as some kind of delusional mad scientist,

213

00:18:19,000 --> 00:18:25,000

many who knew him or have studied his work believe he was nothing short of a genius.

214

00:18:25,000 --> 00:18:26,000

George was super smart.

215

00:18:26,000 --> 00:18:28,000

At 14, he drops out of school.

216

00:18:28,000 --> 00:18:37,000

At 17, he becomes a certified pilot, moves out west and work for Howard Hughes and then became friends.

217

00:18:37,000 --> 00:18:43,000

They both had a calling to, let's say, hire or mystical or psychic experiences.

218

00:18:43,000 --> 00:18:51,000

The parallels would be Edison who fought in this realm of electricity that nobody could understand,

219

00:18:51,000 --> 00:18:54,000

but he somehow channeled or Nikola Tessa.

220

00:18:54,000 --> 00:19:02,000

He was so sensitized to the electromagnetic spectrum that many of his inventions just came naturally.

221

00:19:02,000 --> 00:19:08,000

And that may have been some place where George Vantasel came from.

222

00:19:08,000 --> 00:19:16,000

George Vantasel claimed that over the course of his life, extra-terrestrials communicated with him many times.

223

00:19:16,000 --> 00:19:21,000

And the most important message he received was to build the Integratron.

224

00:19:26,000 --> 00:19:28,000

Landers, California.

225

00:19:30,000 --> 00:19:32,000

April, 1957.

226

00:19:33,000 --> 00:19:40,000

An eclectic group of several hundred travelers descend upon the Mojave Desert to gather at Giant

Rock.

227

00:19:40,000 --> 00:19:47,000

It is here that George Vantasel holds his annual interplanetary spacecraft convention.

228

00:19:47,000 --> 00:19:57,000

And while there are no paved roads or facilities of any kind, it has attracted enough attention to garner a feature in Life Magazine.

229

00:19:58,000 --> 00:20:05,000

So George has the idea he's going to do the first intergalactic spaceship convention.

230

00:20:05,000 --> 00:20:09,000

A couple hundred people show up. It's a beautiful event.

231

00:20:09,000 --> 00:20:13,000

Two years later, there's 11,000 people there.

232

00:20:13,000 --> 00:20:25,000

The 1950s, 1960s, Giant Rock ended up being the nexus of the most highly attended UFO conferences that has ever happened in the United States.

233

00:20:25,000 --> 00:20:31,000

The Giant Rock convention was largely responsible for fueling interest in the UFO phenomenon.

234

00:20:31,000 --> 00:20:36,000

But for George Vantasel, it served a more important purpose.

235

00:20:37,000 --> 00:20:45,000

George goes on to give these conventions for 23 years, collects donations and uses that as a way to help fund the dome.

236

00:20:46,000 --> 00:20:52,000

Vantasel claimed that the extraterrestrials that had communicated with him at Giant Rock

237

00:20:52,000 --> 00:20:59,000

gave him instructions for building a machine that could rejuvenate cells in the human body to extend life.

238

00:20:59,000 --> 00:21:01,000

Perhaps indefinitely.

239

00:21:01,000 --> 00:21:07,000

At the peak of the Giant Rock spacecraft convention attendance,

240

00:21:07,000 --> 00:21:14,000

he gets an architect to draw up the plans for this vision that he has.

241

00:21:14,000 --> 00:21:21,000

This vision of a white dome in the desert that he's going to build near Giant Rock.

242

00:21:21,000 --> 00:21:26,000

And in 1958, they break ground and they begin work.

243

00:21:26,000 --> 00:21:32,000

While many in the mainstream scientific community paid little attention to Vantasel's project,

244

00:21:32,000 --> 00:21:41,000

some believe he was a visionary on the level of Nikola Tesla, who also claimed to be in contact with alien entities.

245

00:21:41,000 --> 00:21:49,000

George Vantasel was very clearly influenced by Nikola Tesla, a Serbian-American researcher known throughout the world as a genius.

246

00:21:49,000 --> 00:21:54,000

Contributed so much to science and electricity and innovation.

247

00:21:54,000 --> 00:21:59,000

Nikola Tesla published an article in 1898, and Tesla states in his article,

248

00:21:59,000 --> 00:22:05,000

when you're exposed to eye voltage for a short period, say 15 minutes or less, you get beneficial effects.

249

00:22:05,000 --> 00:22:13,000

Tesla was an inspiration for rejuvenation, and this is what George Vantasel was very attuned to.

250

00:22:13,000 --> 00:22:20,000

And in fact, Tesla announced that he had been receiving radio waves from extraterrestrials,

251

00:22:20,000 --> 00:22:22,000

specifically messages from Martians.

252

00:22:22,000 --> 00:22:31,000

So this is very similar to George's experiences, and both of them were interested in the effect of high voltage on humans.

253

00:22:31,000 --> 00:22:37,000

Both men were derided by the scientific community for their claims of alien contact.

254

00:22:37,000 --> 00:22:44,000

But today, it is well known that electromagnetic waves have a number of beneficial effects on the human body,

255

00:22:44,000 --> 00:22:51,000

including nerve regeneration, wound healing, pain management, and even treating diabetes.

256

00:22:51,000 --> 00:23:00,000

And like Nikola Tesla, George Vantassel did attract the attention of at least one government organization during his lifetime.

257

00:23:00,000 --> 00:23:02,000

The FBI.

258

00:23:02,000 --> 00:23:10,000

The FBI's involvement with George Vantasel, which was considerable, started in the 1950s.

259

00:23:10,000 --> 00:23:16,000

The feds were interested in the technology that George was working with and uncovering at the Integra Tron.

260

00:23:16,000 --> 00:23:27,000

Declassified FBI documents confirm the bureau did, in fact, conduct surveillance on many of Vantasel's speeches and presentations for years.

261

00:23:28,000 --> 00:23:31,000

He was definitely monitored by the FBI.

262

00:23:31,000 --> 00:23:35,000

They were aware of what he was doing out in the desert.

263

00:23:35,000 --> 00:23:44,000

If you go back into the early 50s to the early 60s, that was the high point around the world of

people seeing extraterrestrial craft.

264

00:23:47,000 --> 00:23:52,000

During this time of increased UFO activity in the late 1950s and early 60s,

265

00:23:52,000 --> 00:23:59,000

Vantasel finally had the resources necessary to begin constructing the Integra Tron.

266

00:23:59,000 --> 00:24:09,000

It is a circular plan, two-story hemispherical umbrella dome structure, 43 feet in diameter and 33 feet tall,

267

00:24:09,000 --> 00:24:16,000

designed to facilitate cell rejuvenation by means of manipulation of electromagnetic waves.

268

00:24:18,000 --> 00:24:20,000

Let's talk about this picture.

269

00:24:20,000 --> 00:24:24,000

This is a picture of the machine we're building down there.

270

00:24:24,000 --> 00:24:26,000

This structure is actually up.

271

00:24:26,000 --> 00:24:30,000

We're working now on the parts on the equipment that operate it.

272

00:24:30,000 --> 00:24:39,000

This rim around here has armatures 57 feet in diameter, which will be better than four times bigger than the biggest armature's ever made before.

273

00:24:39,000 --> 00:24:44,000

The incredible thing about the construction is there are no nails.

274

00:24:44,000 --> 00:24:47,000

Every piece is fit together.

275

00:24:47,000 --> 00:24:51,000

All the wood, it's formed, it's shaped.

276

00:24:51,000 --> 00:24:55,000

There's a little glue and then there's the fiberglass shell.

277

00:24:55,000 --> 00:25:04,000

Construction of the building was completed in 1960, but Vantasel would manufacture the technology to power it himself.

278

00:25:05,000 --> 00:25:15,000

Over the next two decades, he worked on the apparatus to achieve his goal of cell rejuvenation through the controlled manipulation of electromagnetic waves.

279

00:25:19,000 --> 00:25:24,000

Because it's all built of wood, it's unable to conduct electricity back to the earth.

280

00:25:24,000 --> 00:25:37,000

And so there's simply this kind of swarm of electromagnetic energy within the vessel that essentially can't get out.

281

00:25:37,000 --> 00:25:50,000

And so in theory, your cells, which are also electrical impulses within them, may be rejuvenated and recharged

282

00:25:50,000 --> 00:25:56,000

so that their electrical component is not fading away as you get older.

283

00:25:58,000 --> 00:26:10,000

While the Integra Tron was never finished, one man who worked closely with George Vantasel has managed to build a working model that represents the device at 95% completion.

284

00:26:12,000 --> 00:26:18,000

Is it possible that the key to activating the immortality machine is still within reach?

285

00:26:21,000 --> 00:26:28,000

Landers, California, November 2019.

286

00:26:28,000 --> 00:26:35,000

Continuing his investigation of the Integra Tron, David Childress has arranged to meet with Bob Benson.

287

00:26:35,000 --> 00:26:37,000

Hey, I'm David Childress.

288

00:26:37,000 --> 00:26:43,000

A protege of Vantasel's and one of the only men alive known to have worked directly with him.

289

00:26:43,000 --> 00:26:45,000

You knew George Vantasel.

290

00:26:45,000 --> 00:26:47,000

Sure did, John. I got some things I'd like to show you.

291

00:26:47,000 --> 00:26:49,000

Oh good, I'm looking forward to seeing it.

292

00:26:49,000 --> 00:26:51,000

Yeah, all right.

293

00:26:51,000 --> 00:27:00,000

In Vantasel's final years, Bob Benson helped him to publish various writings on the scientific principles behind the Integra Tron.

294

00:27:00,000 --> 00:27:03,000

So I was living here at his house.

295

00:27:03,000 --> 00:27:04,000

At his house.

296

00:27:04,000 --> 00:27:05,000

At his house.

297

00:27:05,000 --> 00:27:06,000

Which was at the Integra Tron, wasn't it?

298

00:27:06,000 --> 00:27:07,000

Right.

299

00:27:07,000 --> 00:27:08,000

And what was he like then?

300

00:27:08,000 --> 00:27:13,000

Very down to earth, but he was very intelligent. He was wonderful.

301

00:27:13,000 --> 00:27:19,000

While Vantasel never disclosed the full details for building his rejuvenation machine,

302

00:27:19,000 --> 00:27:23,000

Benson attempted to create a model of it based on what he learned.

303

00:27:23,000 --> 00:27:28,000

He didn't leave takeover instructions for anybody, so nobody knew what to do.

304

00:27:28,000 --> 00:27:32,000

So I looked for the research and I couldn't find anything, so I had to go on my own.

305

00:27:32,000 --> 00:27:36,000

And what I did, I said, well, I'll start by building a model.

306

00:27:36,000 --> 00:27:38,000

I incorporated the things that I knew.

307

00:27:38,000 --> 00:27:43,000

This spoke thing you see here, that's an actual electrostatic generator.

308

00:27:43,000 --> 00:27:45,000

It's 58 feet in diameter.

309

00:27:45,000 --> 00:27:51,000

It weighs 1,500 pounds and it's lifted up with air jets that are around the bottom.

310

00:27:51,000 --> 00:27:53,000

And then there's brushes on them.

311

00:27:53,000 --> 00:27:56,000

And what they do is they generate electricity.

312

00:27:57,000 --> 00:28:03,000

The electricity generated by the brushes travels through a wire that connects to a capacitor.

313

00:28:04,000 --> 00:28:11,000

The capacitor is designed to discharge when it reaches a certain level of electricity.

314

00:28:11,000 --> 00:28:14,000

It starts off very low like this.

315

00:28:14,000 --> 00:28:17,000

As it goes, it builds up to a part.

316

00:28:17,000 --> 00:28:20,000

It builds up, builds up, builds up, builds up, builds up, builds up.

317

00:28:20,000 --> 00:28:25,000

Bang! And then this comes on. This is the spark gap. This is the regulator.

318

00:28:25,000 --> 00:28:28,000

See? Boom. Now it's regulated.

319

00:28:28,000 --> 00:28:30,000

You walk through this little door right here.

320

00:28:30,000 --> 00:28:34,000

You walk around the back of it and out the other end there.

321

00:28:34,000 --> 00:28:36,000

And you rejuvenate it instantly.

322

00:28:36,000 --> 00:28:41,000

This is a rejuvenation machine sent by extraterrestrials to help human beings.

323

00:28:41,000 --> 00:28:46,000

So how close do you think that George Vantassel was to completing the Integra Tron?

324

00:28:46,000 --> 00:28:49,000

He says it was 95% done.

325

00:28:51,000 --> 00:28:57,000

Doctor of Engineering Physics Tom Vallone is an expert in what is called bioelectromagnetic healing

326

00:28:57,000 --> 00:29:02,000

and has spent years studying both Nikola Tesla and George Vantassel.

327

00:29:02,000 --> 00:29:09,000

Based on his research, he believes the Integra Tron was decades ahead of its time.

328

00:29:10,000 --> 00:29:17,000

I would say that the genius of George Vantassel is very evident in the design of the Integra Tron.

329

00:29:17,000 --> 00:29:24,000

He integrated a number of technologies that were slowly being evolved over the 20th century.

330

00:29:24,000 --> 00:29:27,000

The spark in the middle is the actual Tesla coil.

331

00:29:27,000 --> 00:29:33,000

And this is designed by Nikola Tesla to not only provide for the study of high voltage,

332

00:29:33,000 --> 00:29:39,000

but also biological benefits of being exposed to just Tesla coil frequencies.

333

00:29:39,000 --> 00:29:47,000

The design we have here is the best current knowledge that we have of finishing the Integra Tron design.

334

00:29:47,000 --> 00:29:57,000

Considering what scientists now know about how electromagnetic frequencies and ions can benefit the human body,

335

00:29:57,000 --> 00:30:06,000

is it possible that George Vantassel really was just weeks away from completing a working immortality machine?

336

00:30:07,000 --> 00:30:14,000

While Vantassel was ahead of his time, he claimed to be tapping into knowledge from the ancient past.

337

00:30:14,000 --> 00:30:26,000

He constantly referred to the Old Testament in regards to the references for angels and for God and the construction of the Integra Tron.

338

00:30:26,000 --> 00:30:32,000

But he was convinced from his extraterrestrial experiences that angels were space people.

339

00:30:33,000 --> 00:30:43,000

Vantassel said that the instructions that he was given to build the Integra Tron were very similar to the instructions that Moses was given

340

00:30:43,000 --> 00:30:47,000

by the god Yahweh to build the tabernacle.

341

00:30:47,000 --> 00:30:55,000

So Vantassel believed in ancient extraterrestrials and UFOs, and he saw all of these things as connected.

342

00:30:57,000 --> 00:31:02,000

Vantassel was particularly intrigued by the great pyramid of Giza,

343

00:31:02,000 --> 00:31:10,000

which he believed was built to utilize the piezoelectric properties of the quartz contained within its granite blocks.

344

00:31:11,000 --> 00:31:18,000

In the piezoelectric effect, electrical energy accumulates in rocks and otherwise lifeless matter.

345

00:31:18,000 --> 00:31:30,000

We see even in George's writings that the pyramids were to him a powerhouse made of granite and therefore piezoelectric and very high energy accumulators.

346

00:31:30,000 --> 00:31:36,000

George was convinced that the pyramid structure was designed to rejuvenate people.

347

00:31:36,000 --> 00:31:52,000

Vantassel had computed that the site of the Integra Tron was also in line with the great pyramids and that this area was a rare vortex

348

00:31:52,000 --> 00:32:05,000

where energies from beneath and above the earth made it possible for us to be in contact with intelligences that we usually weren't able to easily reach.

349

00:32:06,000 --> 00:32:18,000

Could the great pyramid have once acted as a fountain of youth that enabled people to live for centuries, as is described in both the Hebrew Bible and the Sumerian King's List?

350

00:32:19,000 --> 00:32:33,000

If extraterrestrials really did give George Vantassel instructions for building the Integra Tron, is it possible that they were providing humankind with a technology that existed on earth thousands of years ago?

351

00:32:34,000 --> 00:32:46,000

Perhaps further clues can be found by examining newly discovered aspects of the Integra Tron that may reveal it had a second, even more profound purpose.

352

00:32:50,000 --> 00:33:01,000

In the year 2000, many of George Vantassel's followers were dismayed when the new owners of the Integra Tron decided to use the structure to house sound baths.

353

00:33:03,000 --> 00:33:08,000

But others believe it brings to light a key element of Vantassel's intention.

354

00:33:08,000 --> 00:33:17,000

Integra Tron was made in a way that is very ideally suited for capturing energy and especially sound energy.

355

00:33:20,000 --> 00:33:29,000

It has tremendous acoustic properties and the way the sound moves about and reflects off of the dome structure is really unique to this building

356

00:33:29,000 --> 00:33:34,000

and comes back to the way it was constructed and the way it was made and the materials that went into producing it.

357

00:33:35,000 --> 00:33:47,000

The dome of the Integra Tron enhances the acoustic experience within. This is very much like ancient temple sites like New Grains that are somewhat domed and also focus on the acoustical experience.

358

00:33:48,000 --> 00:34:04,000

It's a real mystery that it has all these beautiful sound qualities and properties to it, but it's interesting to consider that all along maybe the Integra Tron's design really was, as a sound frequency machine, more than an electrostatic generator of some sort.

359

00:34:05,000 --> 00:34:17,000

It seems odd that there would be so many amazing acoustical properties to it if they weren't supposed to be there. Maybe it could have been both, both sound and using electromagnetism in its design.

360

00:34:18,000 --> 00:34:29,000

Although Ventassel's direct work at the Integra Tron ended more than 40 years ago, its unusual architecture continues to produce scientific revelations.

361

00:34:30,000 --> 00:34:37,000

But if the structures acoustic and geometric properties serve a technological purpose, what could it be?

362

00:34:38,000 --> 00:34:52,000

The Integra Tron is a beautiful geometric building divided into 16 parabolic arcs in the dome up top and then it's an octagon on the bottom. So it seems to be functions of 8s, 4s, 16s.

363

00:34:53,000 --> 00:35:00,000

All geometrics have a sum total of their angles. Well, it also means that we are living in a harmonic system.

364

00:35:01,000 --> 00:35:18,000

The sacred geometry of the Integra Tron is very unique. It is a 16 sided building. We don't see those very often. We did see one in a painting by Raphael, the marriage of the Virgin, where he shows a 16 sided tower that is thought to be Solomon's Temple.

365

00:35:18,000 --> 00:35:28,000

This is very important because Solomon's Temple was the permanent home of the Ark of the Covenant. And maybe this is what Ventassel was hinting at with the construction of the Integra Tron.

366

00:35:29,000 --> 00:35:37,000

The Ark of the Covenant is a device that opened up a blazing portal through which Moses or an Israelite high priest could communicate with an other world being.

367

00:35:38,000 --> 00:36:05,000

The Ark of the Covenant? The sacred object that was described in the Bible as a device with which to communicate with God? Is it possible that George Ventassel, who sometimes referred to the Integra Tron as the Tabernacle, was building a machine that would not only rejuvenate the human

body but would use acoustic frequencies to connect with otherworldly beings?

368

00:36:06,000 --> 00:36:31,000

And it is allowing us through our mental state without ever having to make actual contact with an extraterrestrial that there is some latent design built into us, possibly intentionally, that we have a little transceiver that when we get everything right and we start playing these tones according to these exact codes and keys left behind for us, that we might open this portal of communication.

369

00:36:32,000 --> 00:36:44,000

Perhaps this is ultimately what Ventassel envisioned the Integra Tron doing, was being able to open up a portal or a gateway so that he could communicate with extraterrestrials coming and going from the Earth.

370

00:36:44,000 --> 00:37:09,000

If the incredible story of George Ventassel is true and he was carrying out an alien agenda, could the Integra Tron be more functional than we know? Could it be used to reconnect with the very beings he claimed to be in contact with and thereby recover the key to completing it?

371

00:37:15,000 --> 00:37:31,000

More than four decades after his death, George Ventassel's Integra Tron still stands in the Mojave Desert. While the device was never finished, many still see it as commemorating a genuine extraterrestrial encounter.

372

00:37:32,000 --> 00:37:48,000

When you come to the Mojave Desert, there are a couple of places you have to go. You have to go to

Joshua Tree National Park, and you have to go to the Integra Tron. And people come from around the world to see it.

373

00:37:48,000 --> 00:37:56,000

The Integra Tron is the center, historically, of UFO culture.

374

00:37:57,000 --> 00:38:20,000

There's talk of trying to re-engineer the Integra Tron at some point in the future to have the spinning armature outside and generate this electronic field. Many scientists and physicists and experimenters have been going out there for a couple of decades now, and there definitely is something subtly going on energetically at the Integra Tron. It is still a frequency machine.

375

00:38:21,000 --> 00:38:46,000

If extraterrestrials really did give Ventassel instructions for how to build the Integra Tron, might the same alien beings one day choose another human conduit to finish the project? Could it be that humanity simply was not ready to possess such powerful technology? If so, it would not be the first time.

376

00:38:47,000 --> 00:38:57,000

Throughout history, we have individuals who claim to have been mysteriously given information that would lead to the advancement of humankind.

377

00:38:59,000 --> 00:39:11,000

In the 1400s, Leonardo da Vinci said that ideas came to him during meditation. He sketched things like helicopters and tanks.

378

00:39:12,000 --> 00:39:31,000

All sorts of devices that couldn't be realized in his lifetime. In the early 20th century, the Indian mathematician Ramana Jan credited a Hindu god with giving him theorems that mystified everyone at the time, but which now form the basis of string theory.

379

00:39:32,000 --> 00:39:45,000

And then we have Nikola Tesla, who claimed that he was communicating with aliens and that he had the key to wireless energy. But he died before he could give this technology to humankind.

380

00:39:46,000 --> 00:39:56,000

So it may be that in each of these cases, we were given information we weren't quite ready for, but that would be realized at some future time.

381

00:39:57,000 --> 00:40:15,000

I feel very confident in the fact that this is a work of pure inventive genius. And if it's not aligned with contemporary values, that doesn't invalidate its genius.

382

00:40:16,000 --> 00:40:36,000

But there's no question that something, some catalytic event, shifted his focus from being a businessman and engineer to having this vision for something almost extraterrestrial.

383

00:40:37,000 --> 00:40:54,000

Because of George Vantassel's mysterious death in 1978, the Integraton was never completely finished. But it's fascinating to think that George Vantassel did meet with extraterrestrials and they showed him the future.

384

00:40:54,000 --> 00:41:20,000

Some people have speculated that the extraterrestrial agenda is all about a continuous process of evolution to improve us, to make us more intelligent, to civilize us perhaps, to bring us to a level where perhaps one day we'll be fit to take a wider role on the galactic stage.

385

00:41:20,000 --> 00:41:32,000

This phenomena that's taking place today is as old as our history. As our civilization, this isn't anything new that's occurring. They're walking among us on the earth all the time and we don't realize it.

386

00:41:33,000 --> 00:41:47,000

Is it possible that the Integraton provides a glimpse into humanity's future? Was George Vantassel chosen to plant the seed that will give rise to the next giant step in humankind's evolution?

387

00:41:47,000 --> 00:42:05,000

One that will lead to lifetimes that are measured not in years, but centuries. Perhaps the Integraton is more functional than it appears and only when we are able to activate it will we be empowered to fulfill our alien destiny.
