

1

00:00:00,000 --> 00:00:04,000

Millions of people around the world believe we have been

2

00:00:04,000 --> 00:00:08,000

visited in the past by extraterrestrial beings.

3

00:00:08,000 --> 00:00:11,000

What if it were true?

4

00:00:11,000 --> 00:00:14,000

For over a decade, the hit TV series,

5

00:00:14,000 --> 00:00:18,000

Ancient Aliens, has examined the profound and highly

6

00:00:18,000 --> 00:00:22,000

controversial theory that extraterrestrials came to Earth

7

00:00:22,000 --> 00:00:28,000

thousands of years ago, and quite possibly, never left.

8

00:00:28,000 --> 00:00:33,000

Now, on a special two-hour Ancient Aliens event...

9

00:00:33,000 --> 00:00:36,000

I think it's utterly, utterly fascinating.

10

00:00:36,000 --> 00:00:41,000

William Shatner will boldly go where he has never gone before,

11

00:00:41,000 --> 00:00:45,000

talking to scientists, spiritual leaders,

12

00:00:45,000 --> 00:00:48,000

and of course, ancient astronaut theorists

13

00:00:48,000 --> 00:00:51,000

in an attempt to answer the question,

14

00:00:51,000 --> 00:00:56,000

could it be that Earth has been visited by extraterrestrials?

15

00:00:56,000 --> 00:01:00,000

Convincing me about ancient aliens is the first step

16

00:01:00,000 --> 00:01:04,000

into convincing me about the existence of the higher power.

17

00:01:04,000 --> 00:01:06,000

So, convince me.

18

00:01:06,000 --> 00:01:14,000

MUSIC

19

00:01:14,000 --> 00:01:17,000

Hello, my name is Shatner,

20

00:01:17,000 --> 00:01:22,000

and we have around here this roundtable of experts

21

00:01:22,000 --> 00:01:25,000

in esoteric knowledge, practical knowledge,

22

00:01:25,000 --> 00:01:29,000

but also people who are equally curious about aliens.

23

00:01:29,000 --> 00:01:33,000

I love the idea that we've been visited,

24

00:01:33,000 --> 00:01:37,000

we have been, we will be, we are by aliens,

25

00:01:37,000 --> 00:01:39,000

but I have my doubts.

26

00:01:39,000 --> 00:01:42,000

I want to be convinced of what you guys know

27

00:01:42,000 --> 00:01:45,000

and what you guys have done for a decade and more

28

00:01:45,000 --> 00:01:47,000

on Ancient Aliens.

29

00:01:47,000 --> 00:01:49,000

So, I throw it open.

30

00:01:49,000 --> 00:01:52,000

You, Giorgio.

31

00:01:52,000 --> 00:01:57,000

There are ancient texts and oral traditions

32

00:01:57,000 --> 00:02:01,000

that have been handed down for thousands of years,

33

00:02:01,000 --> 00:02:05,000

and pretty much, they all begin in the same way

34

00:02:05,000 --> 00:02:08,000

that a long, long time ago,

35

00:02:08,000 --> 00:02:14,000

someone taught us how to build the ancient structures,

36

00:02:14,000 --> 00:02:19,000

how to figure out mathematics and agriculture

37

00:02:19,000 --> 00:02:21,000

and all those different things.

38

00:02:21,000 --> 00:02:25,000

Ancient astronaut theory suggests that at some point

39

00:02:25,000 --> 00:02:31,000

we've had teachers, and they have far more advanced technology

40

00:02:31,000 --> 00:02:37,000

that our ancestors thought was divine or magic.

41

00:02:37,000 --> 00:02:40,000

Ancient astronaut theory challenges humankind's

42

00:02:40,000 --> 00:02:43,000

most established understandings of history,

43

00:02:43,000 --> 00:02:48,000

archaeology, science, and religion.

44

00:02:48,000 --> 00:02:51,000

Proponents suggest that the truth behind the very origins

45

00:02:51,000 --> 00:02:56,000

of the human race is far different and far more profound

46

00:02:56,000 --> 00:02:59,000

than what we've been taught.

47

00:02:59,000 --> 00:03:03,000

Ancient cultures have these very detailed stories

48

00:03:03,000 --> 00:03:08,000

of the so-called gods and described someone

49

00:03:08,000 --> 00:03:10,000

descending from the sky.

50

00:03:10,000 --> 00:03:13,000

We have these stories worldwide,

51

00:03:13,000 --> 00:03:16,000

and so the ancient astronaut theory suggests

52

00:03:16,000 --> 00:03:20,000

that these gods were in flesh and blood, exoterrestrials,

53

00:03:20,000 --> 00:03:24,000

whom our ancestors misinterpreted as divine,

54

00:03:24,000 --> 00:03:29,000

only because they descended from the sky.

55

00:03:29,000 --> 00:03:34,000

All civilizations talk about beings coming from the sky

56

00:03:34,000 --> 00:03:38,000

to assist humankind in development.

57

00:03:38,000 --> 00:03:42,000

They taught astrology, astronomy,

58

00:03:42,000 --> 00:03:45,000

how to make offensive and defensive weapons.

59

00:03:46,000 --> 00:03:50,000

And these traditions are all over the world,

60

00:03:50,000 --> 00:03:54,000

and what they say is there were these avatars,

61

00:03:54,000 --> 00:03:57,000

like Osiris, like Viracocha, coming from the sky.

62

00:03:57,000 --> 00:04:00,000

Their mission was to bring civilization to man

63

00:04:00,000 --> 00:04:05,000

and to teach them medicine, arts, metallurgy,

64

00:04:05,000 --> 00:04:08,000

how to build things, construction, architecture,

65

00:04:08,000 --> 00:04:11,000

everything that we know.

66

00:04:12,000 --> 00:04:15,000

Let me ask you a question about legends then,

67

00:04:15,000 --> 00:04:17,000

because this is all legendary.

68

00:04:17,000 --> 00:04:19,000

Legends are verbal.

69

00:04:19,000 --> 00:04:21,000

They're oral traditions.

70

00:04:21,000 --> 00:04:25,000

If I told you a joke, the whole joke would be different

71

00:04:25,000 --> 00:04:27,000

when it got to the other end of the table.

72

00:04:27,000 --> 00:04:32,000

Legends are oral traditions told around a campfire that changed.

73

00:04:32,000 --> 00:04:34,000

Well, but not by ordinary people.

74

00:04:34,000 --> 00:04:37,000

When you're dealing with aborigines,

75

00:04:37,000 --> 00:04:42,000

oral traditions were actually very rigidly passed on

76

00:04:42,000 --> 00:04:44,000

from generation to generation.

77

00:04:44,000 --> 00:04:46,000

Okay, I'm good with that.

78

00:04:46,000 --> 00:04:48,000

From all of you who've spent a lifetime studying evidence

79

00:04:48,000 --> 00:04:52,000

that ancient aliens came here, are here, were here.

80

00:04:52,000 --> 00:04:54,000

I need you to explain to me the timeline.

81

00:04:54,000 --> 00:05:01,000

Did Eric Vondanakon start it all, or was he popularizing it?

82

00:05:01,000 --> 00:05:04,000

And ancient aliens is continuing that today.

83

00:05:05,000 --> 00:05:09,000

In 1968, Swiss author Eric Vondanakon

84

00:05:09,000 --> 00:05:12,000

published what would become the seminal book

85

00:05:12,000 --> 00:05:17,000

for the ancient astronaut theory, chariots of the gods.

86

00:05:17,000 --> 00:05:20,000

The highly controversial text posed the question,

87

00:05:20,000 --> 00:05:25,000

did aliens come to Earth centuries ago?

88

00:05:25,000 --> 00:05:28,000

It caused an instant sensation,

89

00:05:28,000 --> 00:05:31,000

and two years later, a feature-length documentary

90

00:05:31,000 --> 00:05:35,000

based on Vondanakon's book was so highly regarded

91

00:05:35,000 --> 00:05:39,000

that it was nominated for an Academy Award.

92

00:05:39,000 --> 00:05:43,000

Chariots of the Gods was one of the most impactful

93

00:05:43,000 --> 00:05:48,000

and most intriguing publications in the modern history.

94

00:05:48,000 --> 00:05:54,000

The questions made people seek an answer.

95

00:05:54,000 --> 00:05:59,000

Chariots of the Gods led to a fundamental rethink

96

00:05:59,000 --> 00:06:02,000

about our history, our origins,

97

00:06:02,000 --> 00:06:05,000

and indeed our place in the cosmos.

98

00:06:05,000 --> 00:06:08,000

It helped motivate and push science a little bit

99

00:06:08,000 --> 00:06:10,000

to think about things differently.

100

00:06:10,000 --> 00:06:14,000

Now, the other feature I think that's interesting

101

00:06:14,000 --> 00:06:17,000

is in this space and the intersection

102

00:06:17,000 --> 00:06:19,000

between religion, science,

103

00:06:19,000 --> 00:06:22,000

and other ways of thinking about the world,

104

00:06:22,000 --> 00:06:24,000

you added a new piece and a new dynamic.

105

00:06:24,000 --> 00:06:30,000

When I was ten years old, my dad read Eric Vondanakon's book

106

00:06:30,000 --> 00:06:32,000

and gave it to me and said,

107

00:06:32,000 --> 00:06:34,000

read this son, it'll open your mind.

108

00:06:34,000 --> 00:06:36,000

So that led me to be a scientist to find out

109

00:06:36,000 --> 00:06:38,000

well, I want to know what this really is saying.

110

00:06:38,000 --> 00:06:41,000

And if these things actually did happen,

111

00:06:41,000 --> 00:06:44,000

what can we learn from it that we could use today

112

00:06:44,000 --> 00:06:46,000

to make our lives better today?

113

00:06:46,000 --> 00:06:49,000

I think we can have him join on a Zoom call.

114

00:06:49,000 --> 00:06:53,000

Let's get Eric Vondanakon, father of the ancient

115

00:06:53,000 --> 00:06:56,000

alien theory on screen.

116

00:06:56,000 --> 00:06:57,000

There he is.

117

00:06:57,000 --> 00:06:59,000

Eric Vondanakon, how are you?

118

00:06:59,000 --> 00:07:01,000

Hi, Eric. Good to see you. Hi.

119

00:07:01,000 --> 00:07:06,000

Eric, tell me what the ancient alien theory is.

120

00:07:06,000 --> 00:07:10,000

I spent six years in a Catholic boarding school

121

00:07:10,000 --> 00:07:12,000

led by Jesuits in Switzerland.

122

00:07:12,000 --> 00:07:15,000

And there we had to translate parts of the Bible

123

00:07:15,000 --> 00:07:17,000

from Latin to Greek and from Greek to German.

124

00:07:17,000 --> 00:07:21,000

And I was a deep, absolute deep believer in God.

125

00:07:21,000 --> 00:07:24,000

By the way, I still, as an old man,

126

00:07:24,000 --> 00:07:26,000

I still am a believer in God.

127

00:07:26,000 --> 00:07:30,000

But God, for me as a boy, had to have some qualities.

128

00:07:30,000 --> 00:07:33,000

For example, God does not need a vehicle

129

00:07:33,000 --> 00:07:36,000

in which to move from point A to point B.

130

00:07:36,000 --> 00:07:39,000

God is all over or God is timeless.

131

00:07:39,000 --> 00:07:41,000

Now, while making these translations,

132

00:07:41,000 --> 00:07:45,000

I came together with the God who had vehicles.

133

00:07:45,000 --> 00:07:49,000

He was moving around, written by the prophet of Ezekiel,

134

00:07:49,000 --> 00:07:51,000

by Moses, and others.

135

00:07:51,000 --> 00:07:55,000

So I simply had doubts in my own Catholic education.

136

00:07:55,000 --> 00:07:58,000

And I discovered the book of Enoch.

137

00:07:58,000 --> 00:08:00,000

Talk to us about Enoch.

138

00:08:00,000 --> 00:08:04,000

Enoch is mentioned in the Bible very, very short.

139

00:08:04,000 --> 00:08:08,000

In the beginning, you learn he was the seventh patriarch

140

00:08:08,000 --> 00:08:09,000

before the great flood.

141

00:08:09,000 --> 00:08:12,000

He was the first human who disappeared

142

00:08:12,000 --> 00:08:15,000

with his body into the sky.

143

00:08:16,000 --> 00:08:18,000

Enoch is one of the earliest patriarchs

144

00:08:18,000 --> 00:08:21,000

mentioned in the Hebrew Bible.

145

00:08:21,000 --> 00:08:24,000

He was the great grandfather of Noah,

146

00:08:24,000 --> 00:08:27,000

the man credited with building the ark that saved humankind

147

00:08:27,000 --> 00:08:31,000

and two of every animal from the great flood.

148

00:08:33,000 --> 00:08:37,000

But where the Hebrew Bible only mentions Enoch briefly,

149

00:08:37,000 --> 00:08:40,000

his detailed story is told through more than 100 chapters

150

00:08:40,000 --> 00:08:44,000

in a book that bears his name.

151

00:08:44,000 --> 00:08:47,000

The book of Enoch can still be found in the Bible

152

00:08:47,000 --> 00:08:51,000

used by the Ethiopian Orthodox Church.

153

00:08:51,000 --> 00:08:56,000

And when archeologists unearthed the Dead Sea Scrolls in 1947,

154

00:08:56,000 --> 00:08:59,000

they found that 11 different manuscripts

155

00:08:59,000 --> 00:09:02,000

of the book of Enoch had been preserved,

156

00:09:02,000 --> 00:09:08,000

indicating that it was considered a work of vital importance.

157

00:09:08,000 --> 00:09:11,000

Enoch was an incredibly popular book

158

00:09:11,000 --> 00:09:15,000

and the time leading up to the formation of Christianity.

159

00:09:15,000 --> 00:09:18,000

In the book, the character of Enoch,

160

00:09:18,000 --> 00:09:21,000

it was said he walked with God and then was no more.

161

00:09:21,000 --> 00:09:25,000

But the tradition grew that Enoch never died.

162

00:09:25,000 --> 00:09:30,000

In fact, the tradition has that he becomes the scribe of God.

163

00:09:30,000 --> 00:09:34,000

He's the only one in heaven allowed to sit, you know, along with God.

164

00:09:34,000 --> 00:09:36,000

And he actually writes these things down

165

00:09:36,000 --> 00:09:39,000

and he reveals information to humanity.

166

00:09:39,000 --> 00:09:42,000

One curious passage from the book of Enoch

167

00:09:42,000 --> 00:09:45,000

tells the story of two angels who visit Enoch

168

00:09:45,000 --> 00:09:50,000

and take him up to heaven in what is described as a fiery chariot.

169

00:09:50,000 --> 00:09:54,000

It's fascinating because Enoch speaks in the first person,

170

00:09:54,000 --> 00:09:55,000

the eye version.

171

00:09:55,000 --> 00:09:58,000

I did, I hear, I learned.

172

00:09:58,000 --> 00:10:00,000

Now, Enoch has no language of technology.

173

00:10:00,000 --> 00:10:03,000

He doesn't know what a spaceship is or a mother's spaceship.

174

00:10:03,000 --> 00:10:06,000

He says, we were over the planet Earth.

175

00:10:06,000 --> 00:10:10,000

I saw the round face, the round face of the Earth.

176

00:10:10,000 --> 00:10:13,000

And up there was something like gigantic diamonds.

177

00:10:13,000 --> 00:10:17,000

Doors opened and doors closed automatically.

178

00:10:17,000 --> 00:10:21,000

He was in space in a mother's spaceship.

179

00:10:23,000 --> 00:10:27,000

And finally, he stands before the throne of the Almighty God.

180

00:10:27,000 --> 00:10:30,000

But this is all nonsense.

181

00:10:30,000 --> 00:10:33,000

If we really would have to do with the Almighty God,

182

00:10:33,000 --> 00:10:36,000

God would never have stand up from his throne,

183

00:10:36,000 --> 00:10:41,000

take a few steps to Enoch and shake his hand and welcome him.

184

00:10:41,000 --> 00:10:44,000

Our ancestors simply didn't understand

185

00:10:44,000 --> 00:10:47,000

that when they went to that so-called celestial realm,

186

00:10:47,000 --> 00:10:51,000

that they actually went to put it in a simple term,

187

00:10:51,000 --> 00:10:54,000

to a spaceship, to a space station

188

00:10:54,000 --> 00:10:59,000

that is told in ancient texts that were orbiting the Earth.

189

00:10:59,000 --> 00:11:00,000

And the Bible is full of it.

190

00:11:00,000 --> 00:11:02,000

And not only the Bible.

191

00:11:02,000 --> 00:11:06,000

I know many, many myths, legends of this planet.

192

00:11:06,000 --> 00:11:08,000

And all came to the same thing.

193

00:11:08,000 --> 00:11:11,000

It was some gods who created humans,

194

00:11:11,000 --> 00:11:15,000

but always according their own image.

195

00:11:15,000 --> 00:11:16,000

We are the copy.

196

00:11:16,000 --> 00:11:19,000

We are the offsprings of extraterrestrials.

197

00:11:19,000 --> 00:11:23,000

And now you arrive in the legend of Adam and Eve.

198

00:11:23,000 --> 00:11:26,000

And the so-called God created humans

199

00:11:26,000 --> 00:11:29,000

according their own image.

200

00:11:29,000 --> 00:11:32,000

And how do you account for archaeological evidence

201

00:11:32,000 --> 00:11:37,000

that shows the evolution of Neanderthals chromagnin?

202

00:11:37,000 --> 00:11:38,000

That's all correct.

203

00:11:38,000 --> 00:11:42,000

I fully agree with archaeology, with the theory of evolution.

204

00:11:42,000 --> 00:11:45,000

Except for our branch,

205

00:11:45,000 --> 00:11:49,000

there was an artificial mutation made by the extraterrestrials.

206

00:11:54,000 --> 00:11:56,000

And you can really compare it.

207

00:11:56,000 --> 00:12:00,000

I mean, all our family brothers and sisters, the apes,

208

00:12:00,000 --> 00:12:04,000

the gorillas, the chimpanzees, they still exist.

209

00:12:04,000 --> 00:12:06,000

We are still of the same family,

210

00:12:06,000 --> 00:12:11,000

but they have not created intelligence, language, information.

211

00:12:11,000 --> 00:12:12,000

Only we.

212

00:12:12,000 --> 00:12:15,000

Why only we out of the same family tree?

213

00:12:15,000 --> 00:12:18,000

Because we are the product of an artificial mutation.

214

00:12:18,000 --> 00:12:20,000

What he's saying is our intelligence is far greater

215

00:12:20,000 --> 00:12:22,000

than the chimpanzee and gorilla.

216

00:12:22,000 --> 00:12:23,000

We now know why.

217

00:12:23,000 --> 00:12:25,000

We have an activated neocortex,

218

00:12:25,000 --> 00:12:28,000

which is the basis for all human civilization.

219

00:12:28,000 --> 00:12:31,000

The neocortex of the human brain

220

00:12:31,000 --> 00:12:35,000

is the region responsible for language, logical reasoning,

221

00:12:35,000 --> 00:12:36,000

and conscious thought.

222

00:12:36,000 --> 00:12:40,000

Many scientists believe the activation of the neocortex

223

00:12:40,000 --> 00:12:45,000

is what makes humans different from all other earthly creatures.

224

00:12:45,000 --> 00:12:49,000

The neocortex is kind of one layer of our cortex

225

00:12:49,000 --> 00:12:54,000

that is fairly unique to homo sapiens.

226

00:12:54,000 --> 00:12:58,000

And as far as we can tell, that's the area where activity is occurring

227

00:12:58,000 --> 00:13:01,000

directly related, particularly to consciousness,

228

00:13:01,000 --> 00:13:03,000

but probably also some of our other senses

229

00:13:03,000 --> 00:13:05,000

and the way they interact.

230

00:13:05,000 --> 00:13:07,000

It is probably the part of the brain because of that,

231

00:13:07,000 --> 00:13:10,000

that most sets us apart from other primates.

232

00:13:12,000 --> 00:13:14,000

There was a genetic alteration.

233

00:13:14,000 --> 00:13:17,000

The National Institute of Health in their own publication

234

00:13:17,000 --> 00:13:21,000

says this is not a natural fusion of chromosome 2

235

00:13:21,000 --> 00:13:23,000

that activated our neocortex.

236

00:13:23,000 --> 00:13:27,000

So are you saying that the neocortex was activated by ancient aliens?

237

00:13:27,000 --> 00:13:28,000

Yes.

238

00:13:29,000 --> 00:13:30,000

Just a small comment.

239

00:13:30,000 --> 00:13:33,000

I'm a specialist in the old writings,

240

00:13:33,000 --> 00:13:37,000

and practically every old writing says the same thing.

241

00:13:37,000 --> 00:13:39,000

Some gods created humans.

242

00:13:39,000 --> 00:13:42,000

Now, is this just imagination?

243

00:13:42,000 --> 00:13:45,000

Worldwide, worldwide, I mean, the Sumerians,

244

00:13:45,000 --> 00:13:49,000

or the biblical translation, or the Maya in Central America,

245

00:13:49,000 --> 00:13:50,000

or Plato in Greek.

246

00:13:50,000 --> 00:13:53,000

Why should they all come to the same lies?

247

00:13:53,000 --> 00:13:57,000

The gods created humans according to their own image.

248

00:13:57,000 --> 00:14:00,000

Eric, in your opinion for you,

249

00:14:00,000 --> 00:14:05,000

what is your top example for a physical representation

250

00:14:05,000 --> 00:14:07,000

of the ancient astronaut theory?

251

00:14:07,000 --> 00:14:08,000

There are many.

252

00:14:08,000 --> 00:14:11,000

One of them which everyone can watch every year.

253

00:14:11,000 --> 00:14:15,000

Just go down to Mexico, go to the city of Chichen Itza.

254

00:14:15,000 --> 00:14:18,000

There is a big pyramid laid out in a special way.

255

00:14:21,000 --> 00:14:25,000

The great pyramid of El Castillo in Chichen Itza

256

00:14:25,000 --> 00:14:30,000

was built by the Maya sometime between the 9th and 12th centuries AD.

257

00:14:30,000 --> 00:14:35,000

It served as a temple to the feathered serpent god, Kukulcan,

258

00:14:35,000 --> 00:14:38,000

and was built to re-enact his descent to earth

259

00:14:38,000 --> 00:14:41,000

through the manipulation of light and shadow.

260

00:14:43,000 --> 00:14:48,000

The Castillo is a stepped pyramid with some outward radiating staircases,

261

00:14:48,000 --> 00:14:51,000

and these staircases have big, high balustrades on them.

262

00:14:51,000 --> 00:14:54,000

And on the autumn and the spring equinox,

263

00:14:54,000 --> 00:14:57,000

the sun casts a shadow across the corner of the stepped pyramid,

264

00:14:57,000 --> 00:15:01,000

and you see the shadows of the steps on the staircase balustrade.

265

00:15:01,000 --> 00:15:05,000

Well, at the base of the balustrade are these big carved snake heads.

266

00:15:06,000 --> 00:15:10,000

And so the entire image is created, an enormous coiled serpent

267

00:15:10,000 --> 00:15:15,000

that begins to descend from this building at this important sunrise event.

268

00:15:16,000 --> 00:15:18,000

This message is clear.

269

00:15:18,000 --> 00:15:23,000

You see god Kukulcan coming down the step of the pyramids

270

00:15:23,000 --> 00:15:27,000

in form of triangles of light and shadow, light and shadow.

271

00:15:27,000 --> 00:15:33,000

Eric, why couldn't these people who lived by the weather

272

00:15:33,000 --> 00:15:37,000

and the sun went to plant their crops, went to harvest?

273

00:15:37,000 --> 00:15:41,000

Why wouldn't they divine through observation

274

00:15:41,000 --> 00:15:44,000

that this was the moment to plant?

275

00:15:44,000 --> 00:15:49,000

Why does it have to prove that an ancient alien gave them the knowledge?

276

00:15:49,000 --> 00:15:51,000

Because they say it.

277

00:15:51,000 --> 00:15:54,000

They say it in their writings, in their mythology.

278

00:15:54,000 --> 00:16:01,000

They say we have received our astronomical knowledge from the gods.

279

00:16:01,000 --> 00:16:05,000

The first writers of the Maya wrote down in their holy writings

280

00:16:05,000 --> 00:16:08,000

that a god with the name of Kukulkan,

281

00:16:08,000 --> 00:16:11,000

which they represented as a snake with feathers,

282

00:16:11,000 --> 00:16:14,000

descended to them and give them their knowledge.

283

00:16:14,000 --> 00:16:18,000

It's their idea, not Eric for the annexes.

284

00:16:18,000 --> 00:16:25,000

Why have our ancestors worldwide created the most gigantic temples or pyramids?

285

00:16:25,000 --> 00:16:30,000

Why? The answer is all over the world the same for the gods.

286

00:16:31,000 --> 00:16:33,000

The so-called gods were a teacher.

287

00:16:33,000 --> 00:16:39,000

They give them information and it's the people who have written down this.

288

00:16:39,000 --> 00:16:45,000

The basic question that I want to have answers to

289

00:16:45,000 --> 00:16:48,000

and we're touching on the edges of it,

290

00:16:48,000 --> 00:16:54,000

but it seems like it's metaphysical.

291

00:16:54,000 --> 00:16:57,000

I can't quite reach it.

292

00:16:57,000 --> 00:17:04,000

Why would a civilization, all these billions of light years away

293

00:17:04,000 --> 00:17:08,000

come here and leave, or if they're here, why aren't they displayed?

294

00:17:08,000 --> 00:17:13,000

Well, I don't know about the presence, but I'm a specialist in the past.

295

00:17:13,000 --> 00:17:16,000

And in the past they wanted to multiply intelligence.

296

00:17:16,000 --> 00:17:21,000

These extraterrestrials changed our line of evolution

297

00:17:21,000 --> 00:17:24,000

simply because they wanted to multiply intelligence in the universe.

298

00:17:24,000 --> 00:17:28,000

We are simply too arrogant to accept this.

299

00:17:28,000 --> 00:17:29,000

We want to be the greatest.

300

00:17:29,000 --> 00:17:34,000

We should become a little more humble and learn we are not the greatest.

301

00:17:34,000 --> 00:17:40,000

Eric van Daneken, what a pleasure it is to speak to you.

302

00:17:40,000 --> 00:17:44,000

We appreciate you being here, Eric, and a pleasure to have talked to you.

303

00:17:44,000 --> 00:17:46,000

Thank you so much.

304

00:17:46,000 --> 00:17:47,000

Thank you very much too.

305

00:17:50,000 --> 00:17:54,000

Talk to me about the physical evidence of ancient aliens.

306

00:17:54,000 --> 00:17:59,000

There are many areas of the world, all over the world,

307

00:17:59,000 --> 00:18:05,000

where gigantic, megalithic structures exist that people point at and say,

308

00:18:05,000 --> 00:18:06,000

how did that get there?

309

00:18:06,000 --> 00:18:11,000

The crazy part, a lot of the architectural engineering used to build

310

00:18:11,000 --> 00:18:16,000

some of these large megalithic structures is technology that we do not understand today.

311

00:18:16,000 --> 00:18:20,000

And these temples are aligned to specific star systems.

312

00:18:20,000 --> 00:18:24,000

Why do you do that unless you're trying to get there or call people in?

313

00:18:24,000 --> 00:18:28,000

Well, again, the whole idea of pondering the stars,

314

00:18:28,000 --> 00:18:31,000

they had nothing to do but lie on their back and say, I see a thing here.

315

00:18:31,000 --> 00:18:32,000

Nothing to do?

316

00:18:32,000 --> 00:18:33,000

What?

317

00:18:33,000 --> 00:18:34,000

Nothing to do.

318

00:18:34,000 --> 00:18:37,000

Well, just building pyramids, all these slaves, nothing to do.

319

00:18:37,000 --> 00:18:42,000

No, no, I'm talking about a guy with a beard lying on his back looking at the stars and saying,

320

00:18:42,000 --> 00:18:43,000

why not a moment?

321

00:18:43,000 --> 00:18:49,000

Judging from the biological evidence, I think they're very busy doing other things.

322

00:18:49,000 --> 00:18:54,000

When you're in Egypt and you are in the Ossi on a temple at a place called Abados,

323

00:18:55,000 --> 00:18:59,000

you're in a temple that now we think is at least 10,000 years old

324

00:18:59,000 --> 00:19:04,000

and it's composed of red granite blocks that weigh on average about 50 tons.

325

00:19:04,000 --> 00:19:08,000

And it's the perfection, the precision, it's an intelligence,

326

00:19:08,000 --> 00:19:11,000

it's ancient astronaut evidence.

327

00:19:12,000 --> 00:19:17,000

The Ossirian in Abados is just one of the many ancient megalithic structures

328

00:19:17,000 --> 00:19:20,000

that can be found all over the world,

329

00:19:20,000 --> 00:19:25,000

built with stone blocks that weigh tens and even hundreds of tons.

330

00:19:27,000 --> 00:19:32,000

Stonehenge in England, the ancient temples of Malta,

331

00:19:32,000 --> 00:19:35,000

Balbek in Lebanon,

332

00:19:35,000 --> 00:19:38,000

Nan-Midal in Micronesia,

333

00:19:38,000 --> 00:19:41,000

Saxehuaman in Peru.

334

00:19:41,000 --> 00:19:45,000

No historical record has ever been found to explain how these

335

00:19:45,000 --> 00:19:49,000

and dozens of other megalithic structures were made.

336

00:19:51,000 --> 00:19:54,000

By the way, where were those megalithic blocks mined?

337

00:19:54,000 --> 00:19:57,000

Was it down in the valley or was it up on the mountains?

338

00:19:57,000 --> 00:19:59,000

That's also a great question.

339

00:19:59,000 --> 00:20:02,000

It's often many miles away at Oyante Tombow.

340

00:20:02,000 --> 00:20:06,000

Over mountains, over valleys, over valleys of water.

341

00:20:06,000 --> 00:20:10,000

They've brought giant blocks that are weighing 60, 80 tons at Oyante Tombow.

342

00:20:10,000 --> 00:20:13,000

They actually brought them down a mountain,

343

00:20:13,000 --> 00:20:17,000

across a river which they haven't been able to explain.

344

00:20:17,000 --> 00:20:20,000

And then there is a ramp there actually,

345

00:20:20,000 --> 00:20:23,000

but then they move it up to the very top of a cliff.

346

00:20:25,000 --> 00:20:29,000

The cliff where the ancient site of Oyante Tombow was built

347

00:20:29,000 --> 00:20:35,000

is located at an elevation of over 9,000 feet in the Andes Mountains of Peru.

348

00:20:37,000 --> 00:20:43,000

Historians dated to 1440 A.D. and credit the Inca with its construction.

349

00:20:44,000 --> 00:20:50,000

But some scholars say Oyante Tombow was built upon the ruins of a far older city,

350

00:20:50,000 --> 00:20:53,000

one whose origins remain unknown.

351

00:20:55,000 --> 00:20:58,000

The gate behind me is called the Gateway of the Gods,

352

00:20:58,000 --> 00:21:03,000

and it was built several thousand years before the Inca arrived here.

353

00:21:03,000 --> 00:21:06,000

It was built by a culture we call the Oran Pacha.

354

00:21:06,000 --> 00:21:10,000

We give them that name because we have no idea who they were,

355

00:21:10,000 --> 00:21:13,000

where they came from, or where they went.

356

00:21:14,000 --> 00:21:19,000

It's clearly evident that the earliest parts of Oyante Tombow

357

00:21:19,000 --> 00:21:24,000

dates to at least 12,000 years old, if not older.

358

00:21:26,000 --> 00:21:29,000

But how could people living thousands of years ago

359

00:21:29,000 --> 00:21:32,000

have produced such astonishing stonework,

360

00:21:32,000 --> 00:21:36,000

with massive interlocking blocks precisely fitted together?

361

00:21:37,000 --> 00:21:40,000

Or have moved and set colossal stones of granite,

362

00:21:40,000 --> 00:21:43,000

each weighing more than 50 tons?

363

00:21:44,000 --> 00:21:49,000

What you can't explain is the moving of 50 tons stones

364

00:21:49,000 --> 00:21:55,000

up the sheer face of a cliff to create the walls of the fortress.

365

00:21:55,000 --> 00:22:03,000

That in and of itself required more than cranes, more than lifts, more than scaffolds.

366

00:22:04,000 --> 00:22:08,000

Part of the problem there is that the mainstream archaeologists are saying,

367

00:22:08,000 --> 00:22:12,000

okay, well, you've got a 60 or 80 ton block of red granite,

368

00:22:12,000 --> 00:22:15,000

all you have to do is just get enough people,

369

00:22:15,000 --> 00:22:17,000

and they suppose you didn't have a wheel or anything,

370

00:22:17,000 --> 00:22:21,000

but they propose that they're all wearing harnesses,

371

00:22:21,000 --> 00:22:27,000

and you get, say, 200 people, and they're all, you know, to drag this block.

372

00:22:27,000 --> 00:22:28,000

What's wrong with that?

373

00:22:28,000 --> 00:22:30,000

Well, there's nothing really wrong with it at first,

374

00:22:30,000 --> 00:22:34,000

because you can mathematically say, okay, this block weighs 60 tons,

375

00:22:34,000 --> 00:22:37,000

so this is how many people we need to drag it.

376

00:22:37,000 --> 00:22:42,000

But they're taking it up onto a narrow cliff, okay?

377

00:22:42,000 --> 00:22:45,000

There's no place for those 200 people to stand.

378

00:22:45,000 --> 00:22:47,000

So how do they have to bring it around quarters?

379

00:22:47,000 --> 00:22:49,000

So how do mainstream archaeologists explain it?

380

00:22:49,000 --> 00:22:50,000

They don't.

381

00:22:50,000 --> 00:22:51,000

They can't.

382

00:22:51,000 --> 00:22:52,000

No, no, no, no, no.

383

00:22:52,000 --> 00:22:55,000

Because they're archaeologists, they're not engineers.

384

00:22:55,000 --> 00:22:59,000

But when you bring in an engineer and you say, okay, now how are you going to do this?

385

00:22:59,000 --> 00:23:01,000

And they don't have an answer.

386

00:23:01,000 --> 00:23:03,000

They say, I don't know.

387

00:23:03,000 --> 00:23:04,000

They're brainwaves.

388

00:23:04,000 --> 00:23:05,000

I have been an engineer.

389

00:23:05,000 --> 00:23:06,000

But they're the real experts.

390

00:23:06,000 --> 00:23:08,000

I would love to have an engineer here.

391

00:23:08,000 --> 00:23:09,000

I've been an engineer.

392

00:23:09,000 --> 00:23:10,000

I have three different engineers.

393

00:23:10,000 --> 00:23:11,000

You've been in that area.

394

00:23:11,000 --> 00:23:12,000

Here, we've got one right here.

395

00:23:12,000 --> 00:23:14,000

Well, I have three different engineering engineers.

396

00:23:14,000 --> 00:23:19,000

You're just the man I want to talk to.

397

00:23:19,000 --> 00:23:21,000

But are you prejudiced?

398

00:23:21,000 --> 00:23:22,000

Toward what?

399

00:23:22,000 --> 00:23:24,000

Toward ancient aliens.

400

00:23:24,000 --> 00:23:25,000

No.

401

00:23:25,000 --> 00:23:29,000

In fact, I was skeptical of a lot of the ideas that's being thrown out.

402

00:23:29,000 --> 00:23:33,000

But I always thought that there was something more to the story.

403

00:23:33,000 --> 00:23:35,000

I want to know, could we do this?

404

00:23:35,000 --> 00:23:42,000

We have places where there are laser cut rocks that we don't even have the tools that can do this today.

405

00:23:42,000 --> 00:23:44,000

You take a master tool maker.

406

00:23:44,000 --> 00:23:45,000

My father is one.

407

00:23:45,000 --> 00:23:48,000

He's looked at some of these things and said, I can see the tool marks.

408

00:23:48,000 --> 00:23:51,000

Somebody used a tool machine to cut this thing.

409

00:23:51,000 --> 00:23:53,000

But that was 10,000 years ago.

410

00:23:53,000 --> 00:23:54,000

Before the wheel.

411

00:23:54,000 --> 00:23:58,000

So what we're saying is there was civilization prior to what we think was civilization.

412

00:23:58,000 --> 00:24:04,000

In the early 1990s, Dr. Robert Schock proposed that according to his research,

413

00:24:04,000 --> 00:24:10,000

the Sphinx on the Great Giza Plateau is at least 12,000 years old

414

00:24:10,000 --> 00:24:18,000

because it shows geological features that indicate water marks of a long ago flood.

415

00:24:18,000 --> 00:24:22,000

It was assumed that the erosion on the Sphinx was caused by wind.

416

00:24:22,000 --> 00:24:26,000

As a geologist, Schock spent three seconds looking at it and saying, that's not wind, that's water.

417

00:24:26,000 --> 00:24:32,000

The only time there was water like this in Egypt was at the end of the younger dryest, 10,000 BC.

418

00:24:32,000 --> 00:24:39,000

And so what happened was that he was ripped apart by the archeological community

419

00:24:39,000 --> 00:24:43,000

because nothing before 10,000 BC could exist on Earth

420

00:24:43,000 --> 00:24:46,000

because that is what mainstream archeology suggests.

421

00:24:46,000 --> 00:24:49,000

And they said, well, can you show us anywhere else?

422

00:24:49,000 --> 00:24:51,000

But hunter-gatherers were around 10,000.

423

00:24:51,000 --> 00:24:54,000

But an archeologic, like a structure, a monumental structure.

424

00:24:54,000 --> 00:25:00,000

But in 1993, Gobekli Tepe was suddenly discovered

425

00:25:00,000 --> 00:25:06,000

and mainstream archeologies agree that this is a minimum of 12,000 years old.

426

00:25:06,000 --> 00:25:08,000

Which is the same age as the Sphinx.

427

00:25:08,000 --> 00:25:09,000

Yes.

428

00:25:10,000 --> 00:25:16,000

The ancient stone complex unearthed in southeastern Turkey, known as Gobekli Tepe,

429

00:25:16,000 --> 00:25:20,000

contains the world's oldest known megalithic structures.

430

00:25:20,000 --> 00:25:25,000

With monolous wane up to 10 tons and sophisticated carvings,

431

00:25:25,000 --> 00:25:30,000

experts say that only an advanced civilization could have built it.

432

00:25:30,000 --> 00:25:33,000

But according to mainstream historians,

433

00:25:33,000 --> 00:25:37,000

the world's first true civilization, the Sumerians,

434

00:25:37,000 --> 00:25:42,000

did not arise until thousands of years after Gobekli Tepe was built.

435

00:25:44,000 --> 00:25:48,000

One thing that I've been working on very intensely

436

00:25:48,000 --> 00:25:53,000

over the last 30 plus years is the concept that globally,

437

00:25:53,000 --> 00:25:58,000

civilization goes well back before 5,000 years ago.

438

00:25:59,000 --> 00:26:03,000

This started when I started pushing back the age of the Sphinx

439

00:26:03,000 --> 00:26:09,000

based on the erosional features and the geological features

440

00:26:09,000 --> 00:26:13,000

that were incompatible with the air conditions at the present day.

441

00:26:13,000 --> 00:26:15,000

Then we had Gobekli Tepe.

442

00:26:15,000 --> 00:26:21,000

And that site goes back well over 11,000, 12,000 years ago.

443

00:26:22,000 --> 00:26:27,000

Gobekli Tepe became one of the most important archaeological sites in the world.

444

00:26:27,000 --> 00:26:31,000

These limestone pillars are up to 18 feet high.

445

00:26:31,000 --> 00:26:33,000

They're beautifully dressed and smoothed.

446

00:26:33,000 --> 00:26:36,000

We've never seen work like that from that period before.

447

00:26:36,000 --> 00:26:41,000

And the geomagnetic analyses that have been done of what's under the surface

448

00:26:41,000 --> 00:26:47,000

seem to indicate that there are at least 20 major circular structures in this mound.

449

00:26:47,000 --> 00:26:51,000

And so far they've dug up to half of them.

450

00:26:51,000 --> 00:26:54,000

But there's still an awful lot of work to go.

451

00:26:55,000 --> 00:26:59,000

These early sites go back to the end of the last Ice Age.

452

00:26:59,000 --> 00:27:04,000

We now know, based on a lot of geological data,

453

00:27:04,000 --> 00:27:09,000

that there were incredible climatic changes at the end of the last Ice Age.

454

00:27:11,000 --> 00:27:19,000

There were well-developed cultures, I believe, probably around the world at this early period.

455

00:27:22,000 --> 00:27:26,000

Okay, but when you talk about something like ancient healing,

456

00:27:26,000 --> 00:27:31,000

and we discover that Lister discovers bacteria, cleanliness,

457

00:27:32,000 --> 00:27:35,000

why didn't they know that 4,000 years ago?

458

00:27:35,000 --> 00:27:40,000

A key tenet of ancient astronaut theory is that we have lost knowledge.

459

00:27:40,000 --> 00:27:45,000

We are a civilization with amnesia. We don't know our past.

460

00:27:49,000 --> 00:27:54,000

Somebody explained to me, and I know a little, but not enough,

461

00:27:54,000 --> 00:28:01,000

about practical knowledge in ancient times that is unexplained.

462

00:28:01,000 --> 00:28:06,000

A key tenet of ancient astronaut theory is that we have lost knowledge.

463

00:28:06,000 --> 00:28:10,000

We are a civilization with amnesia. We don't know our past.

464

00:28:10,000 --> 00:28:11,000

That's true.

465

00:28:11,000 --> 00:28:18,000

What traditions say all over the world is there have been civilizations before us,

466

00:28:18,000 --> 00:28:20,000

they have risen and fallen.

467

00:28:20,000 --> 00:28:24,000

Don't forget that the planet is four and a half billion years old.

468

00:28:24,000 --> 00:28:25,000

Don't forget that.

469

00:28:25,000 --> 00:28:29,000

This solar system has been here for four and a half billion years.

470

00:28:29,000 --> 00:28:33,000

And humanity, as far as we know, has only been here for a few thousand,

471

00:28:33,000 --> 00:28:35,000

maybe tens of thousands of years.

472

00:28:35,000 --> 00:28:38,000

So what happened before that?

473

00:28:38,000 --> 00:28:42,000

And we know from the fossil records that there were many mass extinctions.

474

00:28:42,000 --> 00:28:47,000

So who's to say civilizations don't rise and fall over the last few years?

475

00:28:47,000 --> 00:28:52,000

Archaeologists know what those mass extinctions were

476

00:28:52,000 --> 00:28:55,000

and what was alive at that time, and what almost petered out.

477

00:28:55,000 --> 00:28:59,000

I mean, it's there in the earth.

478

00:28:59,000 --> 00:29:02,000

There were civilizations there that came and went.

479

00:29:02,000 --> 00:29:05,000

Part of it is how we look at the past.

480

00:29:05,000 --> 00:29:09,000

Modern archaeologists are just assuming, it's an assumption,

481

00:29:09,000 --> 00:29:11,000

well, they're from the Stone Age.

482

00:29:11,000 --> 00:29:14,000

They don't have electricity. They don't have machines.

483

00:29:14,000 --> 00:29:16,000

They don't have heavy equipment.

484

00:29:16,000 --> 00:29:19,000

They don't have power plants and things like that.

485

00:29:19,000 --> 00:29:21,000

But that may be completely wrong.

486

00:29:21,000 --> 00:29:25,000

The evidence is there that in ancient times they had electricity.

487

00:29:25,000 --> 00:29:26,000

They had batteries.

488

00:29:26,000 --> 00:29:28,000

So look at the back, they had batteries.

489

00:29:28,000 --> 00:29:30,000

Yeah, they had batteries.

490

00:29:31,000 --> 00:29:36,000

In 1938, the director of the National Museum of Iraq

491

00:29:36,000 --> 00:29:40,000

discovered in the archives terracotta pots and copper cylinders

492

00:29:40,000 --> 00:29:43,000

that may have been used as galvanic cells.

493

00:29:43,000 --> 00:29:48,000

The nearly 2,000-year-old devices, called Baghdad batteries,

494

00:29:48,000 --> 00:29:54,000

are believed to predate the invention of the cell battery by more than 1,000 years.

495

00:29:54,000 --> 00:29:58,000

Usually a Baghdad battery would consist of a clay pot,

496

00:29:58,000 --> 00:30:02,000

and it would have an iron rod surrounded by an asphalt stopper.

497

00:30:02,000 --> 00:30:05,000

And you pour any type of a weak acidic liquid in there,

498

00:30:05,000 --> 00:30:07,000

wine, grape juice, vinegar,

499

00:30:07,000 --> 00:30:11,000

and with a voltmeter you can consistently get about 4 volts

500

00:30:11,000 --> 00:30:13,000

with something about that large.

501

00:30:14,000 --> 00:30:18,000

Now, all over Egypt, we see large vials,

502

00:30:18,000 --> 00:30:21,000

which could be a representation of a much larger Baghdad battery,

503

00:30:21,000 --> 00:30:24,000

being able to generate a much larger current.

504

00:30:25,000 --> 00:30:29,000

Mainstream scientists agree that the Baghdad battery

505

00:30:29,000 --> 00:30:33,000

is evidence that ancient people had the means to create power

506

00:30:33,000 --> 00:30:36,000

and the understanding of how to apply it.

507

00:30:36,000 --> 00:30:41,000

Might our ancestors have possessed other advanced technology?

508

00:30:42,000 --> 00:30:48,000

So, today there is a carving in Egypt at the Dendera Temple,

509

00:30:48,000 --> 00:30:50,000

and it's an underground crypt,

510

00:30:50,000 --> 00:30:54,000

and it's this depiction of what looks like...

511

00:30:54,000 --> 00:30:58,000

Archaeologists refer to it as a snake and a lotus flower.

512

00:30:58,000 --> 00:31:02,000

But what's so interesting is the hieroglyphics that have been translated

513

00:31:02,000 --> 00:31:07,000

not only say that what is depicted here is dangerous,

514

00:31:07,000 --> 00:31:10,000

but also it is the bringer of light.

515

00:31:10,000 --> 00:31:15,000

So the hieroglyphics warn you, but also say it's the bringer of light.

516

00:31:15,000 --> 00:31:18,000

So that wants you to both stay away and come.

517

00:31:18,000 --> 00:31:23,000

Well, and the hieroglyphics show a detailed drawing of the equipment.

518

00:31:25,000 --> 00:31:28,000

The reliefs that have become known as the Dendera bulbs

519

00:31:28,000 --> 00:31:31,000

are carved into the walls of a 4,000-year-old temple

520

00:31:31,000 --> 00:31:35,000

dedicated to the Egyptian sky goddess Hathor.

521

00:31:36,000 --> 00:31:40,000

Within the temple, Hathor is depicted sailing in a ship of eternity

522

00:31:40,000 --> 00:31:42,000

along the Milky Way.

523

00:31:43,000 --> 00:31:47,000

Ancient astronaut Theorists suggest that this is, in fact,

524

00:31:47,000 --> 00:31:52,000

a representation of an extraterrestrial arriving in a flying craft.

525

00:31:53,000 --> 00:31:57,000

And the Dendera bulbs are a technology they gave to the Egyptians.

526

00:32:00,000 --> 00:32:06,000

The reason why we have proposed that in Dendera we have depictions of light bulbs

527

00:32:06,000 --> 00:32:10,000

is because you have that cable coming out of that lotus flower

528

00:32:10,000 --> 00:32:15,000

or the bulb's socket that goes underneath it to a box.

529

00:32:15,000 --> 00:32:22,000

And the actual bulb rests on what's called a jet pillar.

530

00:32:22,000 --> 00:32:28,000

And a jet pillar is always referred to as something to do with significant power.

531

00:32:29,000 --> 00:32:34,000

And so the suggestion is that the extraterrestrials provided lighting sources.

532

00:32:35,000 --> 00:32:39,000

And then that was also put in stone.

533

00:32:40,000 --> 00:32:45,000

There is a theory that sound could levitate something,

534

00:32:45,000 --> 00:32:50,000

and that may be the answer to these giant megaliths that seem to be too heavy

535

00:32:50,000 --> 00:32:52,000

for even us to lift.

536

00:32:52,000 --> 00:32:53,000

Let's address that.

537

00:32:53,000 --> 00:32:56,000

Well, there are so many of the ancient astronaut legends where

538

00:32:56,000 --> 00:32:59,000

there are ancient blocks for levitate it in.

539

00:33:00,000 --> 00:33:06,000

One of the most well-known ancient stories of levitation can be found on Chile's Easter Island.

540

00:33:06,000 --> 00:33:11,000

We're standing along the shoreline are nearly 900 megalithic stone statues

541

00:33:11,000 --> 00:33:15,000

called Moai that weigh up to 90 tons each.

542

00:33:17,000 --> 00:33:21,000

According to the oral traditions of the native Rapa Nui people,

543

00:33:21,000 --> 00:33:27,000

a type of energy known as mana was used to levitate the giant sculptures into place.

544

00:33:28,000 --> 00:33:35,000

Curiously, similar stories can be found in association with other ancient megalithic sites all over the world.

545

00:33:36,000 --> 00:33:41,000

Like Stonehenge in England, the Great Pyramid in Egypt,

546

00:33:41,000 --> 00:33:44,000

the Ushma Pyramid in Mexico,

547

00:33:44,000 --> 00:33:47,000

Non-Madal in Micronesia,

548

00:33:47,000 --> 00:33:50,000

and Pumapunko in Bolivia.

549

00:33:52,000 --> 00:33:58,000

It would be one thing to me if this levitation of stones across an island

550

00:33:58,000 --> 00:34:01,000

would be the only story or legend worldwide.

551

00:34:02,000 --> 00:34:13,000

But the fact of the matter is that we have multiple stories that these stones somehow were levitated or flown through the air.

552

00:34:14,000 --> 00:34:22,000

Is it possible that acoustic technology could levitate stones weighing tens and even hundreds of tons?

553

00:34:24,000 --> 00:34:28,000

My father said when they were testing, shake testing the Saturn V,

554

00:34:28,000 --> 00:34:30,000

the first stage that they used,

555

00:34:30,000 --> 00:34:35,000

the thing that the German scientists created using wind tunnels and made a big flute horn.

556

00:34:35,000 --> 00:34:40,000

They shot it with acoustic energy and they called it the Jericho device,

557

00:34:40,000 --> 00:34:42,000

because it was like a big Jericho horn.

558

00:34:42,000 --> 00:34:47,000

It would shake the stage and mimic the vibration of launch.

559

00:34:47,000 --> 00:34:50,000

He said one day they tuned it to a particular frequency,

560

00:34:50,000 --> 00:34:57,000

and when it did, it broke the bolts that had this first stage moored into the concrete

561

00:34:57,000 --> 00:35:00,000

and picked the rocket first stage up.

562

00:35:00,000 --> 00:35:03,000

It had to weigh tons and moved it several meters

563

00:35:03,000 --> 00:35:06,000

and they were afraid it was going to fall over and destroy the first stage.

564

00:35:06,000 --> 00:35:10,000

That's part of the mystique.

565

00:35:10,000 --> 00:35:13,000

The sound is mathematical.

566

00:35:13,000 --> 00:35:21,000

You can draw mathematics to sound and maybe find the formula for the kind of sound you need.

567

00:35:21,000 --> 00:35:23,000

That's so totally fascinating.

568

00:35:23,000 --> 00:35:26,000

The idea that the stones were cut like with a machine.

569

00:35:26,000 --> 00:35:29,000

Was it your dad that saw machine cuts on the stone?

570

00:35:29,000 --> 00:35:31,000

Several others have seen it.

571

00:35:31,000 --> 00:35:36,000

So talk to me about that because that's less dreaming.

572

00:35:36,000 --> 00:35:42,000

There's a place in the high Andes on a plateau called Puma Punku.

573

00:35:42,000 --> 00:35:45,000

It's one of the most magnificent sites on planet Earth.

574

00:35:45,000 --> 00:35:53,000

And their strewn about are these big platforms made out of red sandstone.

575

00:35:53,000 --> 00:35:58,000

And they're massive and some of them are up to 60 tons, 6-0.

576

00:35:58,000 --> 00:36:03,000

But amongst these stones are also Andesite blocks.

577

00:36:03,000 --> 00:36:05,000

There is one rectangular block.

578

00:36:05,000 --> 00:36:07,000

It's about this high.

579

00:36:07,000 --> 00:36:12,000

And on one side there is a perfect groove that is so...

580

00:36:12,000 --> 00:36:14,000

The edges are so perfect.

581

00:36:14,000 --> 00:36:18,000

If you were to go down like this with your thumb, you could cut yourself.

582

00:36:23,000 --> 00:36:28,000

Giorgio Suclos has been studying Puma Punku for more than two decades

583

00:36:28,000 --> 00:36:32,000

and has made over a dozen visits to the ancient site.

584

00:36:32,000 --> 00:36:35,000

This is beautiful.

585

00:36:35,000 --> 00:36:40,000

During one such visit in 2014, he documented his investigation

586

00:36:40,000 --> 00:36:46,000

of the incredible stonework found among the mysterious megalithic ruins.

587

00:36:46,000 --> 00:36:49,000

This is pretty amazing.

588

00:36:49,000 --> 00:36:50,000

I checked this out.

589

00:36:50,000 --> 00:36:56,000

If you look at this groove right here, you simply cannot do this with primitive tools.

590

00:36:56,000 --> 00:37:05,000

And you've got these holes drilled at an equidistant as if it's some type of a female piece to a male piece.

591

00:37:05,000 --> 00:37:14,000

I mean, these look like technical components, part of a larger, almost industrial type construction.

592

00:37:15,000 --> 00:37:20,000

I've got a little paper clip, ordinary paper clip that I've just unfurled

593

00:37:20,000 --> 00:37:27,000

to see how deep they go, and they actually go equidistant all the way down.

594

00:37:27,000 --> 00:37:34,000

I mean, that is something that cannot be achieved with chicken bones.

595

00:37:36,000 --> 00:37:39,000

So is there any explanation as to how they carve anything?

596

00:37:39,000 --> 00:37:44,000

So according to the local legends that go back a long, long time,

597

00:37:44,000 --> 00:37:48,000

they say that this was built by the so-called gods.

598

00:37:48,000 --> 00:37:51,000

Now whenever I hear stories about the gods, my ears perk up,

599

00:37:51,000 --> 00:37:56,000

nobody discusses the question or asks the question, who were these gods?

600

00:37:56,000 --> 00:37:58,000

What are we talking about?

601

00:37:58,000 --> 00:38:06,000

Everything that we call in quote advanced in the ancient days from which we would ask, where did this come from?

602

00:38:06,000 --> 00:38:10,000

Now, you could say it came from the angels, you could say it came from aliens.

603

00:38:10,000 --> 00:38:17,000

Here's the crazy part. We could not build the pyramids today. We cannot build the pyramids today.

604

00:38:17,000 --> 00:38:18,000

Why not?

605

00:38:21,000 --> 00:38:32,000

What we're talking about here at this table is physical evidence that ancient aliens came here, are here, were here.

606

00:38:32,000 --> 00:38:37,000

Talk to me about the first one that comes to mind, of course, is the pyramid.

607

00:38:37,000 --> 00:38:41,000

Remember where Moses brought the children of Israel out from? Egypt.

608

00:38:41,000 --> 00:38:42,000

Egypt.

609

00:38:42,000 --> 00:38:50,000

The Torah and the Jewish tradition, which is the foundation of Western tradition, originally came out of Egypt.

610

00:38:50,000 --> 00:38:51,000

Right.

611

00:38:51,000 --> 00:38:54,000

In the tradition that later became the Bible.

612

00:38:54,000 --> 00:38:57,000

Ideas, beliefs like the Ark of the Covenant.

613

00:38:57,000 --> 00:39:03,000

We, these things were clearly based upon knowledge that was brought out of Egypt.

614

00:39:03,000 --> 00:39:10,000

Eric Mondonikin said an interesting thing there too, that the Great Pyramid of Egypt is not a tomb for the pharaohs,

615

00:39:10,000 --> 00:39:12,000

but rather a repository.

616

00:39:12,000 --> 00:39:13,000

A library.

617

00:39:13,000 --> 00:39:14,000

It's a library.

618

00:39:14,000 --> 00:39:15,000

Yeah.

619

00:39:17,000 --> 00:39:25,000

Egypt's Great Pyramid is perhaps the most familiar and most mysterious megalithic structure in all the world.

620

00:39:25,000 --> 00:39:31,000

It is the oldest and largest of the three pyramids that stand on the Giza Plateau.

621

00:39:31,000 --> 00:39:38,000

But exactly how and why the Great Pyramid was constructed remains a mystery.

622

00:39:40,000 --> 00:39:46,000

The Great Pyramid of Giza isn't just one of the seven ancient wonders of the world.

623

00:39:46,000 --> 00:39:48,000

It's the most ancient of them all.

624

00:39:49,000 --> 00:39:52,000

And it's the only one still standing.

625

00:39:52,000 --> 00:39:57,000

And it's what's inside the Great Pyramid of Giza that is absolutely mind boggling.

626

00:39:58,000 --> 00:40:05,000

You look at a beautiful, perfect tunnel with perfectly smooth walls.

627

00:40:06,000 --> 00:40:10,000

An evolved ceiling that rises all the way up.

628

00:40:11,000 --> 00:40:19,000

And there are shafts, tunnels, and the architecture and the way it was built is a mystery till today.

629

00:40:21,000 --> 00:40:31,000

The Great Pyramid consists of nearly two and a half million limestone and granite blocks, many of which were quarried from 500 miles away.

630

00:40:32,000 --> 00:40:41,000

It stands 480 feet high, covers 13 acres, and has an estimated mass of 6 million tons.

631

00:40:43,000 --> 00:40:55,000

According to most Egyptologists, this miracle of engineering was constructed during a 20-year period by order of the Faro Kufu, sometime around 2500 BC.

632

00:40:56,000 --> 00:41:06,000

But many experts dispute this notion, and ancient astronaut Thea suggests the origins of the Great Pyramid are far more profound.

633

00:41:09,000 --> 00:41:14,000

This applies to this discussion right now, you know, to move these blocks in the sand.

634

00:41:14,000 --> 00:41:20,000

Because anybody who's ever played in the sandbox or anybody who's been to the beach, it's very difficult to do.

635

00:41:21,000 --> 00:41:33,000

And if you have a 75-ton block, or 60, and they all vary, there are inside the Grand Gallery, there are some 75-ton blocks in there.

636

00:41:34,000 --> 00:41:39,000

But they floated them on barges, and then they picked them up and they took them up on top of the tunnel.

637

00:41:40,000 --> 00:41:42,000

Okay, so I can get beyond.

638

00:41:42,000 --> 00:41:47,000

Hold on, I need you to explain to me the timeline. What's the pyramid supposed to be?

639

00:41:47,000 --> 00:41:50,000

4,500 years old.

640

00:41:50,000 --> 00:41:53,000

So the Sphinx predated the pyramid?

641

00:41:53,000 --> 00:42:00,000

Yes, and so today, according to some archaeologists, it is a minimum of 12,000 years old.

642

00:42:00,000 --> 00:42:02,000

Which is the same age as the Sphinx?

643

00:42:02,000 --> 00:42:03,000

Yes.

644

00:42:04,000 --> 00:42:09,000

The dating of the Great Pyramid has been the subject of much controversy.

645

00:42:09,000 --> 00:42:20,000

And over the years, many experts have suggested that it was built far earlier than the reign of the Faro Kufu, who ruled around 2,500 BC.

646

00:42:22,000 --> 00:42:31,000

In 1837, a British colonel who became an archaeologist named Richard Howard Weiss used dynamite.

647

00:42:34,000 --> 00:42:43,000

To get up into the King's Chamber of the Great Pyramid, and this was something that had not been entered by other archaeologists before,

648

00:42:43,000 --> 00:42:55,000

when he got into these upper chambers, he then apparently claimed that he found some hieroglyphic cartouches that mentioned the Faro Kufu.

649

00:42:55,000 --> 00:43:05,000

The cartouch, or signature, of Kufu in the King's Chamber, is what Colonel Weiss used to date the Great Pyramid to 2,500 BC.

650

00:43:07,000 --> 00:43:14,000

But he was under tremendous pressure to make a major discovery due to the enormous cost of his expedition.

651

00:43:14,000 --> 00:43:20,000

And some researchers have suggested that he may have actually fabricated this evidence.

652

00:43:21,000 --> 00:43:33,000

Recently, it has been discovered by going through Weiss's journals that he and his journals actually says that there were no hieroglyphs within this chamber.

653

00:43:33,000 --> 00:43:41,000

And so it is suspected that Weiss did, in fact, forge this cartouch of the Faro Kufu.

654

00:43:42,000 --> 00:43:52,000

Is it possible that the Great Pyramid of Giza was constructed long before the reign of Kufu and with the help of extraterrestrials?

655

00:43:53,000 --> 00:44:02,000

Ancient astronaut theorists say yes, and as further evidence point to a very curious detail regarding the placement of the pyramid.

656

00:44:03,000 --> 00:44:15,000

Here's something else, Bill. The central peak of the pyramid, its location on the planet, coincides with a location that is the same number out to about ten digits at least.

657

00:44:15,000 --> 00:44:16,000

What do you mean the same number?

658

00:44:16,000 --> 00:44:17,000

The speed of light.

659

00:44:17,000 --> 00:44:21,000

So the speed of light is like 2.9, 8, 7, 9.

660

00:44:21,000 --> 00:44:24,000

Okay, so if you project a photon out of the tip of the...

661

00:44:24,000 --> 00:44:29,000

No, no, no, no, no, no. If you look at the position on Earth that it is, its location on the map.

662

00:44:29,000 --> 00:44:31,000

Geographic, yeah, more like geographic.

663

00:44:31,000 --> 00:44:32,000

Geographical.

664

00:44:32,000 --> 00:44:33,000

And then the...

665

00:44:33,000 --> 00:44:39,000

The number that describes its position in inclination is the same number as the speed of light.

666

00:44:41,000 --> 00:44:54,000

The latitudinal coordinate for the Great Pyramid is 29.9792458 degrees north, a number that exactly matches the speed of light when measured in meters per second.

667

00:44:54,000 --> 00:45:01,000

Now that's interesting because the Great Pyramid is known as a mountain of light.

668

00:45:01,000 --> 00:45:06,000

So here we have the value of the speed of light encoded into the Great Pyramid.

669

00:45:06,000 --> 00:45:23,000

Another thing we find as well is that the location of the Great Pyramid is really unique because at that specific location, if you pass a great circle from the Great Pyramid through its cardinal and its ordinal directions,

670

00:45:23,000 --> 00:45:32,000

what you find is that these circles will pass through more landmass of the Earth than any other location on Earth.

671

00:45:32,000 --> 00:45:38,000

You find that the Great Pyramid is essentially located at the center of the world's landmass.

672

00:45:39,000 --> 00:45:50,000

This is amazing stuff. When you consider the vast amount of information about the Earth encoded into the Great Pyramid, you cannot consider it all to be coincidence.

673

00:45:51,000 --> 00:46:01,000

Is it possible, as ancient astronaut Theorists suggest, that the information encoded in the Great Pyramid of Giza is a signature of its alien architects?

674

00:46:03,000 --> 00:46:11,000

Sophisticated mathematical and scientific concepts are being embedded or were embedded into the Pyramids.

675

00:46:11,000 --> 00:46:20,000

Correct me if I'm wrong, but there are still hidden chambers that many believe are still to be discovered in the Pyramids that might give us the answers.

676

00:46:20,000 --> 00:46:24,000

The King's Chamber of the Great Pyramid is about the size of this room right here.

677

00:46:24,000 --> 00:46:27,000

And there are a room for 47 more of these rooms inside the Pyramid.

678

00:46:27,000 --> 00:46:33,000

And just three years ago, we discovered that when you go into the Pyramid, and I've been in there 40 times.

679

00:46:33,000 --> 00:46:34,000

Have you?

680

00:46:34,000 --> 00:46:35,000

Yes.

681

00:46:35,000 --> 00:46:44,000

We're going to send the Grand Gallery, and now we know that riding upon the Grand Gallery is another chamber that we knew nothing about until a few years ago.

682

00:46:44,000 --> 00:46:46,000

Did we open it?

683

00:46:46,000 --> 00:46:47,000

We haven't opened it yet.

684

00:46:47,000 --> 00:46:48,000

Why not?

685

00:46:48,000 --> 00:46:50,000

Well, we've talked to the Egyptian authorities.

686

00:46:50,000 --> 00:46:54,000

You're giving me facts, but you haven't convinced me yet.

687

00:46:54,000 --> 00:47:03,000

To me, it's improbable that a spaceship, given unimaginable distances, can traverse those distances.

688

00:47:03,000 --> 00:47:06,000

Does anybody have an answer to that here?

689

00:47:10,000 --> 00:47:18,000

In a universe nearly 14 billion years old, civilizations might be out there with millions of years head start on us.

690

00:47:18,000 --> 00:47:23,000

Just because we can't do it doesn't mean somebody else can.

691

00:47:23,000 --> 00:47:36,000

I've actually had conversations with Mitsukaku several times about the idea of what we would have to do in modern day to build a warp drive to travel between the stars.

692

00:47:36,000 --> 00:47:47,000

The ancient astronaut theory suggests that aliens from another world, and most likely, another star system, came to Earth in the distant past.

693

00:47:48,000 --> 00:47:57,000

Mainstream scientists, however, argue that the distances between stars are simply too vast for this to be possible.

694

00:47:58,000 --> 00:48:11,000

But Dr. Mitsukaku, one of the world's leading theoretical physicists, has proposed that there are likely to be other intelligent beings in the universe, or even more advanced than humans.

695

00:48:11,000 --> 00:48:18,000

And that they could, in fact, possess the technology to travel between stars.

696

00:48:19,000 --> 00:48:23,000

Mitsukaku is waiting to talk to us on the television.

697

00:48:23,000 --> 00:48:31,000

Mitsukaku, it's Bill Shatner and I'm pleased to see you again. Last time we met we were talking string theory.

698

00:48:31,000 --> 00:48:32,000

That's right.

699

00:48:32,000 --> 00:48:39,000

Mitsukaku, what's your opinion of the ancient alien philosophy theory, if you will? What do you think about it?

700

00:48:39,000 --> 00:48:48,000

Well, I think we have to keep our minds open, because first of all, we've discovered 4,000 planets in our sector of the Milky Way galaxy.

701

00:48:48,000 --> 00:48:56,000

We now realize that there could be literally billions of Earth-like planets, some of them twins of the Earth and outer space.

702

00:48:56,000 --> 00:49:01,000

And to believe that we're the only game in town, I think, is rather presumptuous.

703

00:49:02,000 --> 00:49:11,000

Since the universe is 13.8 billion years old, there's plenty of time for civilization to rise and fall.

704

00:49:11,000 --> 00:49:22,000

We're discussing here time travel, warp drive, all those things. And most people think that's theoretically possible, but practically impossible.

705

00:49:22,000 --> 00:49:24,000

What have you got to say about that?

706

00:49:24,000 --> 00:49:33,000

Well, you know, the skeptics make a big mistake thinking that aliens can never visit the Earth because distances are too large.

707

00:49:33,000 --> 00:49:43,000

That assumes that the aliens are maybe only 100 years more advanced than us, but they could be a million years more advanced than us.

708

00:49:43,000 --> 00:49:54,000

In which case, they might, just might, have the capability of rocketing across space-time faster than the speed of light.

709

00:49:54,000 --> 00:50:03,000

This is not out of the question at all. There are two ways in which you can use Einstein's equations to break the light barrier.

710

00:50:03,000 --> 00:50:05,000

The first is wormholes.

711

00:50:06,000 --> 00:50:16,000

The concept of traveling through a wormhole, or stargate, as it is sometimes called, has become a popular device in science fiction.

712

00:50:16,000 --> 00:50:24,000

But the theory was actually proposed by the most famous astrophysicist who ever lived, Albert Einstein.

713

00:50:25,000 --> 00:50:39,000

In 1935, Einstein and fellow physicist Nathan Rosen theorized that two separate points in space could be connected through an Einstein-Rosen bridge, or what we now call a wormhole.

714

00:50:39,000 --> 00:50:45,000

This would make travel to the most remote stars in the universe a real possibility.

715

00:50:46,000 --> 00:50:55,000

What you're talking about is a structure in space that involves very, very strong bending of space and the connecting of two different parts of space.

716

00:50:55,000 --> 00:51:04,000

So if you think of a piece of paper curved around and then punched out and connected from one place to the other, that's your basic wormhole.

717

00:51:04,000 --> 00:51:11,000

Alice's looking glass would be the wormhole, that is punching a hole in space and time.

718

00:51:11,000 --> 00:51:19,000

The second possibility is what's explored in Star Trek, and that is compressing space or the Alcubierre Drive.

719

00:51:19,000 --> 00:51:31,000

You know, Alcubierre once told me that he was watching an episode of Star Trek and said, well, if they do it on Star Trek, why can't I as a physicist do it with Einstein's equations?

720

00:51:31,000 --> 00:51:32,000

I love it.

721

00:51:33,000 --> 00:51:44,000

In the Star Trek television series, the Starship Enterprise is equipped with a warp drive, which enables it to rocket through space faster than the speed of light.

722

00:51:44,000 --> 00:51:59,000

While some scientists have suggested that faster than light travel is an impossibility, in 1994, Mexican theoretical physicist Miguel Alcubierre proposed a warp drive that would do just that.

723

00:52:00,000 --> 00:52:15,000

Miguel Alcubierre developed an equation of warp drive in which he developed mathematics that said, look, with enough energy, you could actually warp space and time around your craft to create a kind of space-time bubble,

724

00:52:15,000 --> 00:52:22,000

and in a sense shrink space in front of you and extend that space behind you.

725

00:52:22,000 --> 00:52:26,000

So you're not exceeding the speed of light within that bubble.

726

00:52:27,000 --> 00:52:32,000

You're obeying all of the laws of physics there, but you're warping space and time.

727

00:52:34,000 --> 00:52:43,000

You compress the space in front of you, expand the space behind you, and whoop, you break the light barrier.

728

00:52:43,000 --> 00:52:49,000

There's always a catch there. You need fantastic amounts of energy in order to do this.

729

00:52:49,000 --> 00:52:58,000

Now, of course, on Star Trek, we have the dilithium crystals, so your spaceship may go zapping through at warp speed.

730

00:52:58,000 --> 00:53:08,000

Let's say you're at visiting Earth and you want to leave the most important piece of scientific information for these rudimentary humans to discover.

731

00:53:08,000 --> 00:53:10,000

What would you think that could be?

732

00:53:10,000 --> 00:53:20,000

Well, I think they would probably leave a piece of their DNA because mechanical things can rust, fall apart, but DNA self-replicates.

733

00:53:20,000 --> 00:53:31,000

It constantly mutates to survive, and the one thing that will survive over millions of years after the aliens have left, for example, would be DNA,

734

00:53:31,000 --> 00:53:44,000

because it's self-replicating, mutating, adaptive, while steel will rust, computers fall apart, and machines break down, but DNA simply keeps on going forever.

735

00:53:44,000 --> 00:53:52,000

They could conceivably also program that DNA or implant scientific knowledge into it that could be rolled out over millennia, perhaps.

736

00:53:52,000 --> 00:54:05,000

In fact, yeah, in fact, scientists have actually looked for messages in the DNA so far they find none, but it's conceivable that one day if we do find a message in DNA, that would be an existential shock.

737

00:54:05,000 --> 00:54:21,000

An existential shock, realizing that somebody is communicating with us after millions of years,

long since machines have turned to dust, that these self-replicating molecules are mutating and surviving.

738

00:54:21,000 --> 00:54:27,000

And are leaving a message. We haven't found it yet, but we cannot rule it out.

739

00:54:27,000 --> 00:54:37,000

Thank you so much for that beautiful way of expressing your thoughts. It was a delight to have talked to you. A pleasure, and I hope we do it again soon.

740

00:54:37,000 --> 00:54:40,000

My pleasure and a great honor to be with you.

741

00:54:40,000 --> 00:54:44,000

Thank you. Take care. Well, what a gift.

742

00:54:44,000 --> 00:54:50,000

But with his last answer, the circle has closed because he mentioned DNA.

743

00:54:52,000 --> 00:55:07,000

What Dr. Michio Kaku said was so important because almost the single biggest objection from the

skeptics to the whole, whether it's the UFO phenomenon, the ancient astronaut theory, is you can't get here from there.

744

00:55:07,000 --> 00:55:10,000

And there was Dr. Michio Kaku saying, oh yes, you can.

745

00:55:10,000 --> 00:55:13,000

If you had a certain level of technology, you could also be able to...

746

00:55:13,000 --> 00:55:15,000

We are unlikely to be first.

747

00:55:15,000 --> 00:55:25,000

The salient question, of course, even that is our imperative is to stay alive, have our civilization stay with us long enough to be able to invent that kind of thing.

748

00:55:25,000 --> 00:55:33,000

You wouldn't build big massive starships to travel around and populate the universe at first. That would take too much time, energy, and resources.

749

00:55:33,000 --> 00:55:41,000

What you would do is create a teeny tiny little probe, and our DNA replicates itself over and over and over.

750

00:55:41,000 --> 00:55:48,000

And you can send it as a particle across the universe when it lands there billion years later.

751

00:55:48,000 --> 00:55:53,000

It might stimulate the growth of life and DNA propagating in other species.

752

00:55:53,000 --> 00:55:56,000

That's the term panspermia.

753

00:55:56,000 --> 00:56:04,000

Panspermia is a hypothesis that suggests alien organisms have reached our planet traveling on meteorites.

754

00:56:04,000 --> 00:56:19,000

Some proponents believe that panspermia was responsible for seeding all life on Earth, while others propose that it may have introduced just one highly unique species, humans.

755

00:56:19,000 --> 00:56:23,000

In the concept of panspermia, there's two ways to look at this.

756

00:56:23,000 --> 00:56:28,000

One is panspermia that happens just like that.

757

00:56:28,000 --> 00:56:32,000

And then there's another version that is called direct panspermia.

758

00:56:32,000 --> 00:56:42,000

And direct panspermia would suggest that it was done deliberately by a far away extraterrestrial advanced civilization.

759

00:56:42,000 --> 00:56:50,000

And why wouldn't a rock which has the cells of life that land on Earth, why don't we think that's sending it seed?

760

00:56:50,000 --> 00:56:52,000

Francis Crick himself said life is a miracle.

761

00:56:52,000 --> 00:57:00,000

And the most practical way to explain how life arose on Earth is that some advanced civilizations

sent out rockets packed with DNA.

762

00:57:00,000 --> 00:57:13,000

Francis Crick was a British geneticist who in 1953, along with American biologist James Watson, discovered the three-dimensional double helix shape of DNA.

763

00:57:13,000 --> 00:57:21,000

This scientific breakthrough was a giant leap forward in unraveling the mystery of humankind's origins.

764

00:57:21,000 --> 00:57:34,000

But Francis Crick found our genetic code to be so complex that he proposed it could not have developed by mere evolutionary chance, and most likely did not originate on Earth.

765

00:57:35,000 --> 00:57:52,000

The information content of life, the level of DNA is so incredibly vast, super astronomical, that one could entertain a possibility that there was been an artificial creation of this.

766

00:57:52,000 --> 00:58:07,000

So what Francis Crick suggested is that perhaps there was a super intelligent life form somewhere nearby to Earth that essentially designed the life that exists on the Earth.

767

00:58:07,000 --> 00:58:12,000

The origin of life is extremely improbable, is something that I would agree with.

768

00:58:12,000 --> 00:58:21,000

I'm skeptical on that. I sit at this table obviously as somebody who investigated UFOs for the British government.

769

00:58:21,000 --> 00:58:33,000

I bow to the greater expertise of my colleagues on the ancient astronaut theory of course. That's not my specialist area, but I am a little skeptical of some of this while aliens tinkered with us.

770

00:58:33,000 --> 00:58:40,000

I think that normal random mutation and natural selection could explain all of this.

771

00:58:40,000 --> 00:58:49,000

Fred Hoyle, astronomer, scientist, commenting on this genetic alteration of chromosome 2 said,

772

00:58:49,000 --> 00:58:57,000

that most of this happening are like a tornado sweeping through a junkyard of 747 parts and manifesting a fully functional 747.

773

00:58:57,000 --> 00:59:06,000

A lot of stuff happens by coincidence, but there are certain things where you have to say coincidence doesn't quite apply.

774

00:59:06,000 --> 00:59:14,000

Some people say, oh well, that was God, and some people say, well no, maybe it wasn't God, but it was an extraterrestrial.

775

00:59:14,000 --> 00:59:18,000

Or it happened so many times, it was bound to happen in that way.

776

00:59:18,000 --> 00:59:26,000

You have to think, well could this have been a random cosmic ray bounced and caused this thing? What are the odds of that actually happening?

777

00:59:26,000 --> 00:59:40,000

Now that did happen in probably billions of instances, but certain things like lining up the human chromosome chain and getting that right and causing that to happen is beyond statistical probability within the life of the universe.

778

00:59:40,000 --> 00:59:41,000

You don't know that.

779

00:59:41,000 --> 00:59:42,000

Yes you do.

780

00:59:42,000 --> 00:59:43,000

Yes you do.

781

00:59:43,000 --> 00:59:44,000

You can mathematically...

782

00:59:44,000 --> 00:59:53,000

Because the numbers involved in the universe, the numbers of what could happen, our mind can't encompass it.

783

00:59:53,000 --> 01:00:02,000

Well in order for the human genome to be created, this thing has to happen, and then this thing, and then this thing, and then this thing, and then this thing.

784

01:00:02,000 --> 01:00:03,000

It's not these things in parallel.

785

01:00:03,000 --> 01:00:06,000

And so the probabilities multiply times each other.

786

01:00:06,000 --> 01:00:12,000

And when you get to the point where all of these things had to happen in sequence to get to the end point,

787

01:00:12,000 --> 01:00:20,000

you can actually do the statistical math for this and show that you could not create that randomly within the age of the universe.

788

01:00:20,000 --> 01:00:26,000

Well look, I was the one who disagreed on the point about tinkering with evolution.

789

01:00:26,000 --> 01:00:28,000

I want you to hold forth Nick.

790

01:00:28,000 --> 01:00:33,000

Yeah, I think that it can all be explained with random mutation and natural selection.

791

01:00:33,000 --> 01:00:38,000

But the point is, we don't necessarily agree all around this table.

792

01:00:38,000 --> 01:00:40,000

You've got a diverse group here.

793

01:00:40,000 --> 01:00:45,000

I think it would be very unproductive if we all just nodded along and agreed.

794

01:00:45,000 --> 01:00:48,000

We have different backgrounds, different areas of specialism.

795

01:00:48,000 --> 01:00:50,000

But that's where we get to the good stuff.

796

01:00:50,000 --> 01:00:51,000

Yes.

797

01:00:51,000 --> 01:00:52,000

Where we do disagree.

798

01:00:52,000 --> 01:00:53,000

I absolutely agree.

799

01:00:53,000 --> 01:00:54,000

And I want you to disagree.

800

01:00:54,000 --> 01:00:56,000

I can't tell you how I love this.

801

01:00:56,000 --> 01:00:59,000

We've covered ancient aliens, but what about today?

802

01:00:59,000 --> 01:01:02,000

Does anybody know anything about them today?

803

01:01:04,000 --> 01:01:10,000

I'd love to hear from you guys about UFOs and Roswell.

804

01:01:10,000 --> 01:01:12,000

You keep hearing it was a weather balloon.

805

01:01:12,000 --> 01:01:13,000

It wasn't.

806

01:01:13,000 --> 01:01:18,000

Before ancient aliens, I never paid any attention really to the modern day UFO phenomenon.

807

01:01:18,000 --> 01:01:24,000

But over the past few years, because of ancient aliens and some of the people sitting at this table,

808

01:01:24,000 --> 01:01:28,000

I've gotten very much interested in the modern day UFO phenomenon.

809

01:01:28,000 --> 01:01:33,000

And one person from whom I've learned a lot is Linda Moulton-Howe,

810

01:01:33,000 --> 01:01:35,000

who is one of the experts in modern day UFO.

811

01:01:35,000 --> 01:01:38,000

She's the journalist, the award-winning journalist filmmaker.

812

01:01:40,000 --> 01:01:45,000

Investigative journalist Linda Moulton-Howe has been documenting strange phenomena,

813

01:01:45,000 --> 01:01:50,000

UFO sightings, and alien encounters for more than four decades.

814

01:01:51,000 --> 01:01:56,000

She has received numerous awards for her journalistic excellence in a wide range of fields.

815

01:01:56,000 --> 01:02:01,000

And today is reporter and editor of the website [EarthFiles.com](http://EarthFiles.com),

816

01:02:01,000 --> 01:02:07,000

which contains an archive of nearly 3,000 in-depth UFO reports.

817

01:02:08,000 --> 01:02:10,000

We've got her ready on a call.

818

01:02:11,000 --> 01:02:12,000

Hey, Linda.

819

01:02:12,000 --> 01:02:13,000

Hi, Linda.

820

01:02:13,000 --> 01:02:14,000

Hi, Linda.

821

01:02:14,000 --> 01:02:16,000

I'm William Shatner, Bill Shatner.

822

01:02:16,000 --> 01:02:18,000

It's a pleasure to meet you.

823

01:02:18,000 --> 01:02:20,000

I've heard so much about you.

824

01:02:20,000 --> 01:02:23,000

Everybody around here has come up to tell me how wonderful you are.

825

01:02:24,000 --> 01:02:25,000

That's true.

826

01:02:25,000 --> 01:02:30,000

Well, I feel like I know you as a longtime Star Trek fan.

827

01:02:30,000 --> 01:02:31,000

Oh, I appreciate that.

828

01:02:31,000 --> 01:02:33,000

Wonderful to be here with you.

829

01:02:33,000 --> 01:02:34,000

Thank you.

830

01:02:34,000 --> 01:02:37,000

And I'm consumed by the subject matter.

831

01:02:37,000 --> 01:02:43,000

And we've arrived at spaceships and ancient aliens.

832

01:02:43,000 --> 01:02:45,000

Where are they now?

833

01:02:45,000 --> 01:02:49,000

I think a lot of them are hiding right here on this planet

834

01:02:49,000 --> 01:02:51,000

and have been here for millions of years.

835

01:02:51,000 --> 01:02:54,000

I think this is a revolutionary time,

836

01:02:54,000 --> 01:02:56,000

no matter whatever else happens.

837

01:02:56,000 --> 01:02:59,000

We have to learn we're not alone in the universe.

838

01:02:59,000 --> 01:03:02,000

Are we seeing space vehicles then?

839

01:03:02,000 --> 01:03:05,000

Was Roswell an example of that?

840

01:03:05,000 --> 01:03:07,000

I'll tell you from firsthand knowledge

841

01:03:07,000 --> 01:03:15,000

that there was the retrieval of a craft in July of 1947

842

01:03:15,000 --> 01:03:20,000

when that big headline, a real honest headline,

843

01:03:20,000 --> 01:03:25,000

came out that the Roswell Army Airfield was reporting the downing

844

01:03:25,000 --> 01:03:27,000

of a flying disc.

845

01:03:27,000 --> 01:03:33,000

The Roswell incident has become the most famous UFO event on record,

846

01:03:33,000 --> 01:03:37,000

the crash landing of an unidentified object in the New Mexico desert

847

01:03:37,000 --> 01:03:40,000

in July 1947.

848

01:03:40,000 --> 01:03:46,000

And it was the United States Army that reported the craft as a flying disc.

849

01:03:47,000 --> 01:03:52,000

On July 8th of that year, the Roswell Daily Record had an incredible headline,

850

01:03:52,000 --> 01:03:57,000

which was that the United States Army had captured one of these flying discs

851

01:03:57,000 --> 01:03:59,000

that everyone had been talking about.

852

01:03:59,000 --> 01:04:04,000

It was absolutely a big, big news story at the time.

853

01:04:04,000 --> 01:04:08,000

Within days, the military walked back its story,

854

01:04:08,000 --> 01:04:13,000

suddenly claiming that the crashed object was nothing more than a weather balloon.

855

01:04:13,000 --> 01:04:21,000

But curiously, they said that the balloon was taken to Wright Patterson Air Force Base in Ohio.

856

01:04:21,000 --> 01:04:27,000

When you really think about this, why on earth would anyone send any kind of weather balloon

857

01:04:27,000 --> 01:04:33,000

or the alleged mogul balloon that the Air Force came up with many years later?

858

01:04:33,000 --> 01:04:38,000

And you're going to send this off to Wright Field for technical analysis?

859

01:04:38,000 --> 01:04:40,000

None of that makes any sense whatsoever.

860

01:04:40,000 --> 01:04:47,000

Unless that material was much more exotic and much more scientifically interesting than just a mere balloon.

861

01:04:47,000 --> 01:04:55,000

In April 2011, the FBI released thousands of files as part of its online FBI vault.

862

01:04:55,000 --> 01:05:01,000

And one of those files included a 1950 briefing to FBI Director Jay Edgar Hoover

863

01:05:01,000 --> 01:05:08,000

regarding informant information about three flying saucers that were recovered in New Mexico.

864

01:05:08,000 --> 01:05:16,000

Many researchers believe this corroborates long-standing rumors that the Roswell incident involved not one,

865

01:05:16,000 --> 01:05:21,000

but three crashed UFOs.

866

01:05:21,000 --> 01:05:28,000

Have there been more things that are noted in the news, sightings, saucers and things?

867

01:05:28,000 --> 01:05:35,000

The one that most people are not aware of today, the date was February 25, 1942.

868

01:05:35,000 --> 01:05:39,000

And it's called the Battle of Los Angeles.

869

01:05:39,000 --> 01:05:44,000

It made LA Times an a big front page story.

870

01:05:44,000 --> 01:05:56,000

Five years before the now famous Roswell incident, an extraordinary UFO event was witnessed in the sky over Los Angeles.

871

01:05:56,000 --> 01:06:04,000

What's called the Battle of LA is actually one of the earliest unexplained UFO mysteries in a modern era.

872

01:06:04,000 --> 01:06:11,000

It took place on the early morning of February 25, 1942.

873

01:06:11,000 --> 01:06:19,000

1,430 artillery shells were fired at several unknown objects.

874

01:06:19,000 --> 01:06:23,000

Many eyewitnesses on the ground saw this.

875

01:06:23,000 --> 01:06:26,000

So the question is, what were these things?

876

01:06:26,000 --> 01:06:33,000

In terms of covering it up, the military consistently downplayed this.

877

01:06:33,000 --> 01:06:42,000

Secretary of the Navy said to the public, it was just war nerves, there was nothing out there whatsoever.

878

01:06:42,000 --> 01:06:49,000

In the 1970s, an FLI request obtained a memorandum by Army Chief of Staff General George Marshall,

879

01:06:49,000 --> 01:06:54,000

in which he wrote a memo about this incident to President Franklin Roosevelt.

880

01:06:54,000 --> 01:06:59,000

So it's clear that the military was interested in it.

881

01:06:59,000 --> 01:07:06,000

The secret memo that General Marshall sent to President Roosevelt directly contradicted the Navy's public statement

882

01:07:06,000 --> 01:07:18,000

that there was nothing in the sky over Los Angeles that night, claiming instead that as many as 15 unidentified airplanes may have been involved.

883

01:07:18,000 --> 01:07:28,000

We've had a policy of denial since World War II, thinking that humans could not handle whatever it is that is the perceived bottom line truth.

884

01:07:28,000 --> 01:07:34,000

But assuming all that is true, does American technology have those super ships?

885

01:07:34,000 --> 01:07:40,000

Do we know anything more? Did anything result as a result of that advanced technology?

886

01:07:40,000 --> 01:07:57,000

Well, I think that there is a huge, if you want to call it underground, or a black world of all kinds of back engineering and laboratory and all things related to

887

01:07:57,000 --> 01:08:03,000

whether they were crash disks or technology deliberately placed in our hands.

888

01:08:03,000 --> 01:08:12,000

Given the way the government sends out whistleblowers, all kinds of hidden information, we're getting it all the time.

889

01:08:12,000 --> 01:08:21,000

This mind-blowing idea that you've just espoused, it seems it would be impossible to hide for any length of time.

890

01:08:21,000 --> 01:08:30,000

We honestly do not fully understand agendas, and the biggest problem we have is how do we trust?

891

01:08:30,000 --> 01:08:36,000

It's our own governments and power brokers that keep the human family in the dark.

892

01:08:36,000 --> 01:08:38,000

Fascinating.

893

01:08:38,000 --> 01:08:42,000

Linda, thank you so much for that interesting information.

894

01:08:42,000 --> 01:08:47,000

We'll have an occasion to discuss it here, and it was very informative.

895

01:08:47,000 --> 01:08:50,000

And I thank you so much for spending your time with us.

896

01:08:50,000 --> 01:08:51,000

Thank you, Linda.

897

01:08:51,000 --> 01:08:52,000

Thank you.

898

01:08:52,000 --> 01:08:53,000

Bye, Linda.

899

01:08:53,000 --> 01:08:54,000

Bye, Linda.

900

01:08:54,000 --> 01:08:55,000

Take care.

901

01:08:56,000 --> 01:09:10,000

When you get into the UFO phenomenon, it doesn't take long as you scratch the surface that a conspiracy is there, because at the very least, if there are UFOs, there is a conspiracy to cover it up.

902

01:09:10,000 --> 01:09:11,000

But it's not an information.

903

01:09:11,000 --> 01:09:12,000

Why?

904

01:09:12,000 --> 01:09:13,000

Why?

905

01:09:13,000 --> 01:09:26,000

This is where I part company from some of the people more deeply into the conspiracy theories, because my view, and I've actually done this for the British government, my view is that government doesn't necessarily have all the answers to this.

906

01:09:26,000 --> 01:09:27,000

That's exactly right.

907

01:09:27,000 --> 01:09:28,000

I agree with 100%.

908

01:09:28,000 --> 01:09:30,000

And Nick and I have talked about this.

909

01:09:30,000 --> 01:09:31,000

This is what your conspiracy is.

910

01:09:31,000 --> 01:09:34,000

Your conspiracy is time.

911

01:09:34,000 --> 01:09:45,000

If something happened in 1947 in Roswell, three or four guys, because that's all there was budget for, to go investigate whatever this was went out there.

912

01:09:45,000 --> 01:09:49,000

They took stuff, packed it up in carts, and they may have taken it and had some scientists look at it.

913

01:09:49,000 --> 01:09:50,000

They may not.

914

01:09:50,000 --> 01:09:53,000

They may not have had budget to hire a scientist to look at it.

915

01:09:53,000 --> 01:09:54,000

Scientists are expensive.

916

01:09:54,000 --> 01:10:00,000

Then when they were done with it, they shoved it in a safe or a drawer or a vault somewhere, and they retired.

917

01:10:01,000 --> 01:10:05,000

And when they retired, the next guy comes into the building and he says, hey, I need room in the vault.

918

01:10:05,000 --> 01:10:07,000

What's this stuff over here?

919

01:10:07,000 --> 01:10:09,000

And nobody owned up to who's it.

920

01:10:09,000 --> 01:10:13,000

This is 100% happened because it happened to the Saturn V blueprints.

921

01:10:13,000 --> 01:10:16,000

We find the Saturn V blueprints in Barnes in North Alabama all the time.

922

01:10:16,000 --> 01:10:22,000

So what you ascribe as a plot is stupidity and ignorance and lethargy.

923

01:10:22,000 --> 01:10:24,000

It's a lack of resources and time.

924

01:10:24,000 --> 01:10:30,000

It's also the inherently secretive nature of the organizations that tend to be running these

programs.

925

01:10:30,000 --> 01:10:31,000

I will go with that.

926

01:10:31,000 --> 01:10:37,000

I mean, look, the NASA supposedly erased all the master tapes of the Apollo 11 program.

927

01:10:37,000 --> 01:10:38,000

I mean, supposedly.

928

01:10:38,000 --> 01:10:39,000

Why?

929

01:10:39,000 --> 01:10:40,000

They needed them.

930

01:10:40,000 --> 01:10:41,000

Well, and again, they...

931

01:10:41,000 --> 01:10:42,000

They needed them.

932

01:10:42,000 --> 01:10:47,000

Yeah, the tapes were so in fact, they needed to reuse them, so they re-recorded over.

933

01:10:47,000 --> 01:10:49,000

Did they erase the tapes?

934

01:10:49,000 --> 01:10:52,000

They erased the tapes because they needed them on another mission

935

01:10:52,000 --> 01:10:55,000

and these tapes didn't exist in multitudes of the time.

936

01:10:55,000 --> 01:10:56,000

It's just like the whole...

937

01:10:56,000 --> 01:10:59,000

So what's the loss in erasing the...

938

01:10:59,000 --> 01:11:02,000

All the original footage of going to the moon has been lost.

939

01:11:02,000 --> 01:11:08,000

We've not ever underestimated the power and abilities of our governments to keep secrets.

940

01:11:08,000 --> 01:11:10,000

I would certainly agree with that.

941

01:11:10,000 --> 01:11:11,000

There's something in our airspace.

942

01:11:11,000 --> 01:11:17,000

There are factions within government that probably think it's Russia or it's China or it's our own tech

943

01:11:17,000 --> 01:11:19,000

and then there's a faction that probably thinks,

944

01:11:19,000 --> 01:11:21,000

what if this is extraterrestrial?

945

01:11:21,000 --> 01:11:27,000

Is it possible that the reason that now we're hearing all this stuff from the government

946

01:11:27,000 --> 01:11:32,000

because, you know, we got our cell phones, I mean, everybody's under surveillance in one way or another,

947

01:11:32,000 --> 01:11:37,000

is it possible that one day there's going to be a sighting that cannot be explained away?

948

01:11:37,000 --> 01:11:44,000

What's interesting is that since UFO groups have come into existence in the 1970s, 1980s,

949

01:11:44,000 --> 01:11:48,000

they've always been laughed at, belittled.

950

01:11:48,000 --> 01:11:54,000

And the US government for decades has denied that they're investigating UFOs.

951

01:11:54,000 --> 01:12:02,000

But in December 2017, there was a New York Times headline story, front page, that said,

952

01:12:02,000 --> 01:12:10,000

yes, the US government had been investigating UFOs and there was a special program for it

953

01:12:10,000 --> 01:12:13,000

and this was not the first time nor is it the last time.

954

01:12:15,000 --> 01:12:22,000

On December 16th, 2017, the New York Times ran a front page story entitled,

955

01:12:22,000 --> 01:12:29,000

Glowing Auras and Black Money, the Pentagon's mysterious UFO program.

956

01:12:29,000 --> 01:12:33,000

It brought to light a top secret US government project,

957

01:12:33,000 --> 01:12:40,000

the Advanced Aerospace Threat Identification Program, otherwise known as ATIP.

958

01:12:40,000 --> 01:12:46,000

This took the subject of UFOs out of the fringe and into the mainstream.

959

01:12:47,000 --> 01:12:52,000

For the first time, these top-level political outlets were talking about this

960

01:12:52,000 --> 01:12:58,000

in a serious investigative journalist mode, not as a joke.

961

01:12:59,000 --> 01:13:05,000

So that was really what opened the floodgates and revelation followed revelation.

962

01:13:05,000 --> 01:13:08,000

This is a completely new ballgame here.

963

01:13:08,000 --> 01:13:11,000

We are in new and uncharted territory.

964

01:13:12,000 --> 01:13:17,000

The article reported that in 2007, without any public debate,

965

01:13:17,000 --> 01:13:24,000

\$22 million was allocated from a Black Money budget to investigate UFOs.

966

01:13:26,000 --> 01:13:28,000

Wait a minute, they've been investigating.

967

01:13:28,000 --> 01:13:29,000

Yes.

968

01:13:29,000 --> 01:13:35,000

They didn't say, now as a result of our investigation, we definitively say there are.

969

01:13:35,000 --> 01:13:38,000

Well, that was December 2017.

970

01:13:38,000 --> 01:13:45,000

On April 27th, 2020, the US government itself admitted that,

971

01:13:45,000 --> 01:13:52,000

yes, we are investigating craft and we do not know where they are from.

972

01:13:52,000 --> 01:13:58,000

They did not say it is extraterrestrial, but in a press release, you have to read between the lines.

973

01:13:58,000 --> 01:13:59,000

So either...

974

01:13:59,000 --> 01:14:01,000

So be careful about reading between those lines towards you.

975

01:14:01,000 --> 01:14:02,000

Man, please finish.

976

01:14:02,000 --> 01:14:03,000

Oh, I love that.

977

01:14:03,000 --> 01:14:04,000

In order, argue.

978

01:14:04,000 --> 01:14:12,000

In either the US government just admitted that somebody else on this planet has better technology than the US Air Force,

979

01:14:12,000 --> 01:14:20,000

which I doubt that they would admit this, or they're pointing to the direction of a non-earthly source.

980

01:14:22,000 --> 01:14:28,000

Within months of the New York Times headline, extraordinary videos associated with ATIP,

981

01:14:28,000 --> 01:14:36,000

featuring three separate UFO encounters captured by infrared cameras mounted on Navy jets, were leaked to the public.

982

01:14:36,000 --> 01:14:38,000

Oh, my gosh.

983

01:14:39,000 --> 01:14:41,000

That's a nice 20 knots quest.

984

01:14:44,000 --> 01:14:46,000

Oh, I think, dude.

985

01:14:46,000 --> 01:14:50,000

But if there's a guy, I think it's working.

986

01:14:53,000 --> 01:14:55,000

Oh, my gosh, dude.

987

01:14:56,000 --> 01:14:57,000

Oh, my gosh.

988

01:14:57,000 --> 01:14:58,000

Let's try it.

989

01:15:00,000 --> 01:15:09,000

While skeptics initially suggested the footage was not genuine, in 2020, the Navy officially released the same videos,

990

01:15:09,000 --> 01:15:18,000

confirming not only that the footage is real, but also that the objects recorded were in fact an identified craft.

991

01:15:19,000 --> 01:15:30,000

Well, I've analyzed those videos in detail, and I will tell you that there's no evidence in them that says that it's not our near-peer adversaries,

992

01:15:30,000 --> 01:15:32,000

like Russia or China.

993

01:15:32,000 --> 01:15:41,000

However, if Russia or China invented these devices, whatever they are in these videos, then they are way ahead of us in physics and engineering.

994

01:15:42,000 --> 01:15:50,000

And that's something that doesn't add up because you don't see the large multi-billion-dollar efforts to put all the right brains in one location.

995

01:15:50,000 --> 01:15:54,000

There isn't the industry going on there that would make them that superior.

996

01:15:54,000 --> 01:15:56,000

So that raises your eyebrow.

997

01:15:56,000 --> 01:16:02,000

Whatever the craft is itself is extremely cold, and it looks like there's a vacuum around this vehicle.

998

01:16:02,000 --> 01:16:10,000

And then the vehicle makes maneuvers that are so rapid, you would pull so many G-forces that it would kill any occupants almost instantly.

999

01:16:10,000 --> 01:16:20,000

I wouldn't call that a smoking gun, but I would say that the technology is so far advanced in these videos that we can't explain how it's doing what it's doing.

1000

01:16:25,000 --> 01:16:33,000

This is now, this is the meat, this is the nut that's opened up and the kernel is here, and I'm the captain.

1001

01:16:33,000 --> 01:16:42,000

That information is like opening the can up.

1002

01:16:42,000 --> 01:16:44,000

That's right, why didn't you?

1003

01:16:44,000 --> 01:16:51,000

The US Navy videos the Senate Intelligence Committee, that's tangible. Three or four things else have happened which are worthy of note here.

1004

01:16:51,000 --> 01:16:59,000

Firstly, the US Navy issued instructions to its own pilots telling them what to do if they encounter these things.

1005

01:16:59,000 --> 01:17:00,000

Which are what?

1006

01:17:00,000 --> 01:17:03,000

That's classified. They confirmed that they've issued the shot.

1007

01:17:03,000 --> 01:17:05,000

Well, it's either run or fight run.

1008

01:17:05,000 --> 01:17:07,000

But now they could actually speak.

1009

01:17:07,000 --> 01:17:09,000

Let me finish, this is important.

1010

01:17:09,000 --> 01:17:16,000

So they've confirmed that those instructions have been issued, but they have not confirmed what they will say.

1011

01:17:16,000 --> 01:17:29,000

In parallel with that, the Senate Intelligence Committee just put into the Intelligence Appropriation Act for Fiscal Year 2021 this demand for a report from Director of National Intelligence.

1012

01:17:30,000 --> 01:17:45,000

And in response to that, a body called the UAP Task Force, Unidentified Aerial Phenomenon, and they released a list of 38 technical studies that they did as part of this program.

1013

01:17:45,000 --> 01:17:51,000

Anti-gravity, wormholes, warp drive, but here's the smoking gun.

1014

01:17:51,000 --> 01:17:54,000

There was a paper on the Drake equation.

1015

01:17:54,000 --> 01:18:02,000

Now the only purpose of the Drake equation is to estimate the number of communicable civilizations in our galaxy.

1016

01:18:02,000 --> 01:18:16,000

In 1961, radio astronomer Frank Drake proposed a mathematical argument for the likelihood of the existence of intelligent extraterrestrial life in the galaxy.

1017

01:18:16,000 --> 01:18:21,000

Frank Drake developed an equation that took the probability of different things happening.

1018

01:18:21,000 --> 01:18:30,000

Having the right type of sun, having the right type of planet, how many planets and stars there were, and made an estimate of how likely life would be.

1019

01:18:30,000 --> 01:18:42,000

The Drake equation would seem to logically predict tens of thousands of civilizations out there that we ought to be able to hear on radio traffic.

1020

01:18:42,000 --> 01:18:52,000

The thing with the videos, there are factions that probably think it's Russia or it's China or it's our own tech, and so it's not Russia and China.

1021

01:18:52,000 --> 01:18:54,000

Otherwise the Drake equation would be hard to find.

1022

01:18:54,000 --> 01:18:58,000

I don't know whether he'd decipher a leap or holding my breath.

1023

01:18:58,000 --> 01:19:00,000

Let me add to this.

1024

01:19:00,000 --> 01:19:07,000

Up until recently, if a pilot saw and reported a UFO, it was the end of his career.

1025

01:19:07,000 --> 01:19:12,000

They decided he was nuts or whatever and wasn't trustworthy or it was something you didn't talk about.

1026

01:19:12,000 --> 01:19:23,000

The new protocols are, while there may be pieces that are classified to it, the deal is if you see something you have to say something to us, because if these things are flying around in our airspace, we need to know about it.

1027

01:19:23,000 --> 01:19:25,000

They destigmatized us.

1028

01:19:25,000 --> 01:19:27,000

That was the point.

1029

01:19:27,000 --> 01:19:36,000

I think that ancient aliens has enabled the world to talk about these topics in a more open fashion.

1030

01:19:36,000 --> 01:19:45,000

I think that a discussion of the extraterrestrial question, the way it is conducted today, was not possible 15 years ago.

1031

01:19:45,000 --> 01:19:53,000

I mean, there are someone at this table who have been following this, including myself, for 25 plus years.

1032

01:19:53,000 --> 01:20:08,000

I think that ancient aliens was the reason for this paradigm shift, that we blazed the trail for these discussions to go on right now and for more people to come on board with these ideas.

1033

01:20:08,000 --> 01:20:13,000

So I think that ancient aliens has been part of disclosure.

1034

01:20:13,000 --> 01:20:24,000

I think it's utterly, utterly fascinating and, you know, we've been at this discussion so beautifully and so connectively.

1035

01:20:24,000 --> 01:20:26,000

I feel like I've known you all my life.

1036

01:20:26,000 --> 01:20:31,000

So the through line that I started our discussion was, convince me.

1037

01:20:31,000 --> 01:20:47,000

What I'd like to tell you is, and I got to chill just thinking about it, is that I feel, I believe much more now about what you purportedly think of as ancient aliens.

1038

01:20:47,000 --> 01:20:55,000

I am beginning to understand more why people of your intelligence and education believe that this is this to be true.

1039

01:20:55,000 --> 01:20:58,000

I understand that more completely now.

1040

01:20:58,000 --> 01:21:05,000

I am so grateful that you impart it to me and hopefully to the audience watching the show.

1041

01:21:05,000 --> 01:21:16,000

This passionate information in all its various forms that you all individually believe, it smacks of passionate smacks of truth,

1042

01:21:16,000 --> 01:21:27,000

it smacks of intrigue, it smacks of complexity and a mystery that is unexplained.

1043

01:21:27,000 --> 01:21:29,000

Thank you.
