

1

00:00:00,000 --> 00:00:04,000

An island of giant statues.

2

00:00:04,000 --> 00:00:08,000

A vast plateau covered in enormous geoglyphs.

3

00:00:08,000 --> 00:00:13,000

A megalithic settlement that dates back more than 12,000 years.

4

00:00:13,000 --> 00:00:17,000

On ancient aliens, we've tracked across deserts,

5

00:00:17,000 --> 00:00:20,000

hacked through jungles, flown to remote islands,

6

00:00:20,000 --> 00:00:25,000

and climbed rugged mountains in order to investigate extraordinary sites

7

00:00:25,000 --> 00:00:29,000

that seem to defy any conventional explanation.

8

00:00:30,000 --> 00:00:35,000

We're going to look back at what I consider to be the top 10 ancient sites we visited.

9

00:00:35,000 --> 00:00:40,000

And you can decide for yourself, do these places hold the proof

10

00:00:40,000 --> 00:00:44,000

that Earth has been visited by extraterrestrials?

11

00:00:52,000 --> 00:00:57,000

When I think of all the mysterious sites we've investigated on ancient aliens,

12

00:00:57,000 --> 00:01:03,000

it's really tough to narrow them down to the top 10, and even tougher to rank them.

13

00:01:03,000 --> 00:01:10,000

Each of these sites offers compelling evidence that extraterrestrials visited our ancestors.

14

00:01:10,000 --> 00:01:17,000

And at one particular site in Peru, that evidence is imprinted right on the vast desert floor.

15

00:01:17,000 --> 00:01:24,000

And what makes it even more incredible is that you can only see it from high above the Earth.

16

00:01:25,000 --> 00:01:31,000

At number 10 on my list of top 10 mysterious sites, the Nazca Lines.

17

00:01:38,000 --> 00:01:42,000

Southern Peru, 1927.

18

00:01:42,000 --> 00:01:49,000

While hiking in the foothills of the arid Nazca Desert, archeologist Terribio Mejia Cespe

19

00:01:49,000 --> 00:01:55,000

discovers what appears to be a large network of ancient roads carved into the Earth.

20

00:01:55,000 --> 00:02:01,000

Years later, as airplane travel to the region becomes more frequent,

21

00:02:01,000 --> 00:02:07,000

aerial flyovers reveal nearly 100 other designs in the nearby landscape.

22

00:02:07,000 --> 00:02:15,000

The Nazca Lines consist of these massive drawings or carvings, if you like, on the ground.

23

00:02:16,000 --> 00:02:22,000

Everything from geometric symbols, lions, to animals, even fish, birds.

24

00:02:22,000 --> 00:02:26,000

But the intriguing thing about them is, you know, that number one, they're massive,

25

00:02:26,000 --> 00:02:30,000

and they can really only be seen properly from the sky.

26

00:02:32,000 --> 00:02:40,000

According to mainstream archeologists, these mysterious Earth drawings were created by the Nazca,

27

00:02:40,000 --> 00:02:47,000

an ancient people that flourished in the region between the 1st century and 8th century AD.

28

00:02:47,000 --> 00:02:49,000

But what was their purpose?

29

00:02:49,000 --> 00:02:52,000

Archeology has still no answer.

30

00:02:52,000 --> 00:02:58,000

In my opinion, it has something to do with the extraterrestrial.

31

00:02:58,000 --> 00:03:05,000

Our ancestors made these gigantic signs in the ground because they want to signalize to the beings up there.

32

00:03:05,000 --> 00:03:07,000

We are here. Come down here.

33

00:03:10,000 --> 00:03:17,000

If you leave Nazca and travel due west some 2,400 miles out into the Pacific Ocean,

34

00:03:17,000 --> 00:03:21,000

you'll eventually reach one of the most remote islands on Earth.

35

00:03:21,000 --> 00:03:27,000

It was discovered by Dutch explorer Jacob Roggeveen on Easter Sunday, 1722.

36

00:03:27,000 --> 00:03:33,000

And he was amazed by the gigantic stone statues he found all over the island.

37

00:03:33,000 --> 00:03:36,000

They've become one of archeology's greatest riddles.

38

00:03:37,000 --> 00:03:41,000

Mysterious site number nine, Easter Island.

39

00:03:44,000 --> 00:03:47,000

April 5th, 1722.

40

00:03:48,000 --> 00:03:55,000

Dutch explorer Jacob Roggeveen and his crew are 2,400 miles off the coast of Chile

41

00:03:55,000 --> 00:03:59,000

when they spot a small land mass completely isolated in the Pacific Ocean.

42

00:04:00,000 --> 00:04:06,000

As they draw closer, they are surprised to find that the remote island is inhabited.

43

00:04:06,000 --> 00:04:12,000

But even more unexpected are the giant stone figures staring out at them from the shore.

44

00:04:14,000 --> 00:04:19,000

The statues on Easter Island, which we call Moai, are one of the great archeological wonders of the world.

45

00:04:19,000 --> 00:04:27,000

We know they carved something like a thousand of them over a period of probably roughly about 500 years.

46

00:04:27,000 --> 00:04:33,000

Weighing tens of tons, no other culture in the world has ever done this, certainly not on this scale.

47

00:04:33,000 --> 00:04:36,000

In many ways, we still don't know exactly how they did it.

48

00:04:37,000 --> 00:04:43,000

The Moai were found to have been carved from the volcanic bedrock at the center of the island.

49

00:04:43,000 --> 00:04:50,000

But exactly how the native people managed to move such enormous statues out to Easter Island shoreline,

50

00:04:50,000 --> 00:04:57,000

in some cases more than 11 miles from the quarry, has been the subject of endless debate.

51

00:04:58,000 --> 00:05:03,000

There have been many theories over the years as to how they were moved.

52

00:05:04,000 --> 00:05:12,000

The first theories thought that they must have been dragged horizontally on sledges or rollers or something of that kind.

53

00:05:12,000 --> 00:05:19,000

It was tried again recently for a TV film and again they moved it a few meters, but it really doesn't prove anything.

54

00:05:20,000 --> 00:05:26,000

You're talking about several hundred statues and it would depend on the size and weight of the statue,

55

00:05:26,000 --> 00:05:32,000

the number of people you had available to help, the distance you were going to go, the kind of terrain.

56

00:05:32,000 --> 00:05:35,000

So basically we don't really know.

57

00:05:37,000 --> 00:05:45,000

According to oral tradition and the legends, the people used the mana of the Ariki to make the Moai walk.

58

00:05:45,000 --> 00:05:49,000

The Ariki were the god kings of the communities.

59

00:05:50,000 --> 00:06:00,000

The mana is a special energy or power that some Ariki and important people of the different tribes used to have.

60

00:06:01,000 --> 00:06:13,000

So one has to wonder if mana was some type of extraterrestrial technology that allowed these stones to be levitated into place.

61

00:06:16,000 --> 00:06:24,000

Some have suggested that sound technology was used in order to move some of these rocks because scientists have proposed

62

00:06:24,000 --> 00:06:31,000

that levitation technology can be achieved with one thing, sound frequencies.

63

00:06:32,000 --> 00:06:36,000

This mana is an energy that no one understands today.

64

00:06:37,000 --> 00:06:41,000

Is it some kind of extraterrestrial energy? We just don't know.

65

00:06:42,000 --> 00:06:51,000

You know, what's really curious is that so many of the world's most massive megaliths are found on islands

66

00:06:51,000 --> 00:06:57,000

where in ancient times resources and manpower were extremely limited.

67

00:06:57,000 --> 00:07:06,000

And on one island nation in the middle of the Mediterranean Sea, you'll find some of the oldest and most enormous structures anywhere on Earth.

68

00:07:07,000 --> 00:07:12,000

Number eight in our countdown of mysterious sites, the Islands of Malta.

69

00:07:19,000 --> 00:07:25,000

The Maltese islands lie in the center of the Mediterranean Sea just south of Italy.

70

00:07:26,000 --> 00:07:33,000

Scholars believe the first inhabitants migrated here from the nearby island of Sicily in 5200 BC.

71

00:07:34,000 --> 00:07:43,000

Today, stone structures on two of the islands, Malta and Gozo, are considered by archaeologists to be among the greatest achievements

72

00:07:43,000 --> 00:07:46,000

by ancient builders anywhere in the world.

73

00:07:47,000 --> 00:07:51,000

There are engineering features in these temples that are just astonishing.

74

00:07:52,000 --> 00:07:57,000

We're talking about walls and closing space, paved walkways.

75

00:07:57,000 --> 00:08:00,000

They were ceilinged at one time.

76

00:08:00,000 --> 00:08:06,000

Definitely much more complex than anything else that was appearing on Earth for a very long time.

77

00:08:11,000 --> 00:08:20,000

In 2014, Giorgio Succolos traveled to Malta to get an up-close look at its incredible megalithic structures.

78

00:08:21,000 --> 00:08:29,000

At the temple of Hajar-eem, he met with Dr. Anthony Bonanno, a professor of archaeology and classical literature.

79

00:08:30,000 --> 00:08:32,000

What does Hajar-eem actually mean?

80

00:08:32,000 --> 00:08:34,000

Stones of worship or standing stones.

81

00:08:34,000 --> 00:08:38,000

Like this one? Check this out, this is huge!

82

00:08:38,000 --> 00:08:45,000

Yes, 3 meters high by 6 meters, 50 wide and about another meter thick.

83

00:08:45,000 --> 00:08:49,000

That makes about 20 odd tons.

84

00:08:49,000 --> 00:08:51,000

Minimum.

85

00:08:53,000 --> 00:08:57,000

This is incredible, so this is one of the largest freestanding stones.

86

00:08:57,000 --> 00:09:02,000

When I see stuff like this, that's when I wonder how...

87

00:09:02,000 --> 00:09:06,000

They quarried it in this case, yes, they must have quarried it.

88

00:09:09,000 --> 00:09:14,000

While visitors to these islands are immediately struck by the massive megaliths,

89

00:09:14,000 --> 00:09:19,000

one of Malta's most incredible structures remained hidden for centuries.

90

00:09:22,000 --> 00:09:29,000

In 1902, construction workers accidentally discovered one of Malta's most curious features,

91

00:09:29,000 --> 00:09:35,000

a mysterious underground sanctuary dating to 2500 BC.

92

00:09:35,000 --> 00:09:42,000

Called the Hypogeum, the subterranean structure was revealed to be three levels deep,

93

00:09:42,000 --> 00:09:45,000

all hewn from solid stone.

94

00:09:47,000 --> 00:09:52,000

How could people from that far back, how could they know how to construct such a thing?

95

00:09:52,000 --> 00:09:58,000

If you look at some of the chambers, it looks like it's actually been carved with some type of a

laser.

96

00:09:58,000 --> 00:10:03,000

So I don't know exactly how it was done, but I do know that they had a technology

97

00:10:03,000 --> 00:10:06,000

that far exceeds what we have today as far as stone cutting.

98

00:10:07,000 --> 00:10:11,000

If you look at the way some of these walls have been cut,

99

00:10:11,000 --> 00:10:18,000

there had to have been a type of plan or construction plan beforehand.

100

00:10:18,000 --> 00:10:24,000

And one has to wonder if that engineering knowledge was imparted upon the builders,

101

00:10:24,000 --> 00:10:28,000

which were our ancestors, by extraterrestrials.

102

00:10:29,000 --> 00:10:32,000

Could the incredible stonework found at the Hypogeum

103

00:10:32,000 --> 00:10:36,000

have been achieved using extraterrestrial technology?

104

00:10:37,000 --> 00:10:43,000

Curiously, the first archaeological investigations performed at the site in 1907

105

00:10:43,000 --> 00:10:47,000

turned up more than 7,000 skeletons.

106

00:10:47,000 --> 00:10:52,000

And according to a National Geographic magazine article from May 1920,

107

00:10:52,000 --> 00:10:56,000

many were found to have unusually long skulls.

108

00:10:57,000 --> 00:11:04,000

In 2014, I had the great privilege of looking at five of these elongated skulls.

109

00:11:04,000 --> 00:11:11,000

And they were very interesting because one of those skulls that I looked at had a missing sagittal suture.

110

00:11:12,000 --> 00:11:16,000

The sagittal suture connects to the sides and roof of the cranium.

111

00:11:16,000 --> 00:11:22,000

This suture is open when a person is born and closes around the age of 35.

112

00:11:23,000 --> 00:11:28,000

As you can see even from the insiders, no sign of the middle suture.

113

00:11:29,000 --> 00:11:30,000

Right.

114

00:11:30,000 --> 00:11:32,000

Completely fused.

115

00:11:32,000 --> 00:11:34,000

That's fascinating.

116

00:11:35,000 --> 00:11:39,000

Even if you have a suture that ossifies or fuses together,

117

00:11:39,000 --> 00:11:45,000

you still have a fine line that you can discover or detect.

118

00:11:45,000 --> 00:11:49,000

And with the one skull that I was able to look at in Malta,

119

00:11:49,000 --> 00:11:52,000

that suture was completely missing.

120

00:11:55,000 --> 00:12:00,000

Enormous megalithic structures built more than 5,000 years ago.

121

00:12:00,000 --> 00:12:05,000

A mysterious underground sanctuary hidden for centuries.

122

00:12:05,000 --> 00:12:10,000

Ancient skulls of abnormal size and shape.

123

00:12:10,000 --> 00:12:14,000

As far as ancient astronaut theorists are concerned,

124

00:12:14,000 --> 00:12:17,000

the evidence all points to one conclusion.

125

00:12:17,000 --> 00:12:23,000

That the islands of Malta were once home to extraterrestrial beings.

126

00:12:29,000 --> 00:12:34,000

There aren't many places on earth that can turn modern archeology on its head,

127

00:12:34,000 --> 00:12:37,000

like the next mysterious site on our countdown.

128

00:12:37,000 --> 00:12:42,000

It's a place that mainstream science says can't possibly exist.

129

00:12:42,000 --> 00:12:49,000

But not only does it exist, it may even provide evidence of the great flood described in the Bible.

130

00:12:50,000 --> 00:12:54,000

Number 7 in our countdown of the top 10 mysterious sites,

131

00:12:54,000 --> 00:12:56,000

Gobekli Tepe.

132

00:13:02,000 --> 00:13:06,000

San Lir Fatorki, October 1994.

133

00:13:07,000 --> 00:13:10,000

While plowing his field, shepherd Saba Gildiz,

134

00:13:10,000 --> 00:13:14,000

spots a strangely shaped stone protruding from the ground.

135

00:13:15,000 --> 00:13:21,000

After brushing away the dirt, he realizes that it may be part of a much larger object.

136

00:13:22,000 --> 00:13:28,000

It wasn't until German archeologist Klaus Schmidt visited the site and began digging.

137

00:13:28,000 --> 00:13:31,000

They realized what was really at the site.

138

00:13:33,000 --> 00:13:35,000

What he discovered was mind-blowing.

139

00:13:35,000 --> 00:13:39,000

After discovering the first T-shaped pillar buried at the site,

140

00:13:39,000 --> 00:13:43,000

he soon found more of these massive structures.

141

00:13:45,000 --> 00:13:50,000

Klaus Schmidt had the sediment layers of the site radiocarbon dated.

142

00:13:51,000 --> 00:13:57,000

The results indicated that the stone structures could be as much as 12,000 years old,

143

00:13:57,000 --> 00:14:03,000

more than 5,000 years older than mankind's first known civilization in Mesopotamia.

144

00:14:04,000 --> 00:14:09,000

Some researchers propose the megalithic structures provide evidence

145

00:14:09,000 --> 00:14:14,000

that an advanced civilization existed on Earth many thousands of years ago,

146

00:14:14,000 --> 00:14:21,000

one that was assisted by other worldly visitors before falling victim to a deadly cataclysm.

147

00:14:24,000 --> 00:14:29,000

There is evidence of a great cataclysm that took place around 12,900 years ago.

148

00:14:29,000 --> 00:14:32,000

It's called the Young Adryus Impact Event.

149

00:14:33,000 --> 00:14:40,000

Where comets and air bursts impacted the land and the ice sheets causing massive flooding

150

00:14:40,000 --> 00:14:44,000

and Quebec Littepi dates to the time of the Young Adryus Events

151

00:14:44,000 --> 00:14:47,000

that would take place over a few thousand years earlier.

152

00:14:49,000 --> 00:14:53,000

Quebec Littepi could be the smoking gun of a lost civilization

153

00:14:53,000 --> 00:14:57,000

because it confirms that at the time of the last ice age

154

00:14:57,000 --> 00:15:00,000

there was high culture existing in the world.

155

00:15:00,000 --> 00:15:03,000

This is something that had been speculated for many years.

156

00:15:07,000 --> 00:15:11,000

If you think of Quebec Littepi as one of the most mysterious sites on Earth

157

00:15:11,000 --> 00:15:14,000

there is another that I think is even more baffling.

158

00:15:14,000 --> 00:15:18,000

It's a series of massive stones in northern France

159

00:15:18,000 --> 00:15:23,000

that have been arranged in a very deliberate and perplexing geometric pattern.

160

00:15:23,000 --> 00:15:27,000

Even modern archaeology can't explain their purpose.

161

00:15:28,000 --> 00:15:33,000

At number six on our countdown are the top ten mysterious sites,

162

00:15:33,000 --> 00:15:36,000

the standing stones of Carnac.

163

00:15:41,000 --> 00:15:46,000

On the northwest coast of France, just south of Brittany

164

00:15:46,000 --> 00:15:50,000

lies one of the most important prehistoric sites in Europe.

165

00:15:50,000 --> 00:15:53,000

At the seaside village of Carnac

166

00:15:53,000 --> 00:15:59,000

over 3,000 megalithic stones are placed in rows over two miles long.

167

00:15:59,000 --> 00:16:04,000

The Carnac stones were hewn from local rock formations

168

00:16:04,000 --> 00:16:10,000

and directed between 4,500 to 2,500 BC at the end of the Stone Age.

169

00:16:10,000 --> 00:16:15,000

They are the largest collection of standing stones in the world.

170

00:16:16,000 --> 00:16:21,000

Archaeologists are baffled by the many megaliths at Carnac here.

171

00:16:22,000 --> 00:16:26,000

It's clearly a massive construction project

172

00:16:26,000 --> 00:16:34,000

with blocks of granite weighing 50 to 100 to even up to 350 tons.

173

00:16:35,000 --> 00:16:39,000

Although mainstream archaeologists speculate that the Carnac stones

174

00:16:39,000 --> 00:16:44,000

are most likely tomb markers, ancient astronaut theorists believe

175

00:16:44,000 --> 00:16:49,000

these stones are intentionally laid out in a unique geometric formation.

176

00:16:50,000 --> 00:16:54,000

The Carnac stones were laid out incredibly precisely

177

00:16:54,000 --> 00:17:01,000

using standard units of measurement that show very sophisticated mathematics.

178

00:17:01,000 --> 00:17:08,000

It's been suggested that they were using the Pythagorean theorem thousands of years ago.

179

00:17:08,000 --> 00:17:11,000

It may elude us now exactly what they were trying to accomplish

180

00:17:11,000 --> 00:17:15,000

but it seems like they were encoding some kind of information.

181

00:17:15,000 --> 00:17:22,000

The Pythagorean theorem wasn't established until 2,000 years after the last Carnac stones were erected.

182

00:17:22,000 --> 00:17:26,000

So how could the builders have possessed this knowledge?

183

00:17:26,000 --> 00:17:32,000

And why were the stones arranged in such precise geometrical patterns?

184

00:17:32,000 --> 00:17:38,000

The Carnac stones are a perfect marker for any kind of aerial vehicle looking down on the earth.

185

00:17:38,000 --> 00:17:41,000

The extraterrestrials told our ancestors,

186

00:17:41,000 --> 00:17:48,000

do this, move stones, put it exactly in this pattern we order you.

187

00:17:48,000 --> 00:17:52,000

It was on purpose. The idea was that generations in the far future

188

00:17:52,000 --> 00:17:56,000

would start to ask questions. That's the situation we had today.

189

00:17:58,000 --> 00:18:04,000

Could the Carnac stones contain a mathematical message left by extraterrestrials?

190

00:18:05,000 --> 00:18:08,000

Ancient astronaut theorists say yes

191

00:18:08,000 --> 00:18:15,000

and suggest further evidence can be found by examining a famous megalithic site to the north.

192

00:18:20,000 --> 00:18:25,000

We're nearly halfway through our countdown of my top 10 most mysterious sites

193

00:18:25,000 --> 00:18:28,000

that we've investigated on ancient aliens.

194

00:18:28,000 --> 00:18:33,000

And the next side on my list is one that some believe has the power to heal

195

00:18:33,000 --> 00:18:38,000

while others say it was once a portal through space and time.

196

00:18:38,000 --> 00:18:43,000

But what's most amazing to me is that ancient people arranged these stones

197

00:18:43,000 --> 00:18:47,000

to be an exact replica of our solar system.

198

00:18:48,000 --> 00:18:51,000

Number 5, Stonehenge.

199

00:18:59,000 --> 00:19:01,000

Wiltshire, England.

200

00:19:01,000 --> 00:19:05,000

The Neolithic monument known as Stonehenge

201

00:19:05,000 --> 00:19:10,000

has dominated the landscape here for no less than 5,000 years.

202

00:19:10,000 --> 00:19:15,000

The iconic stone circle consists of vertical standing stones

203

00:19:15,000 --> 00:19:20,000

towering 13 feet tall and weighing 25 tons each,

204

00:19:20,000 --> 00:19:23,000

topped by connecting horizontal lentil stones

205

00:19:23,000 --> 00:19:27,000

and surrounding a smaller ring of stones in the center.

206

00:19:27,000 --> 00:19:32,000

Stonehenge is unlike any stone circle anywhere on the planet.

207

00:19:32,000 --> 00:19:37,000

It's perfectly circular. It has lentils above it.

208

00:19:37,000 --> 00:19:42,000

It's designed with precision engineered astronomical alignments.

209

00:19:43,000 --> 00:19:48,000

How could the ancient Stone Age people of Britain move these stones into place?

210

00:19:50,000 --> 00:19:53,000

However Stonehenge was constructed,

211

00:19:53,000 --> 00:19:58,000

it involved moving much more than just the stone blocks that stand today.

212

00:19:58,000 --> 00:20:04,000

According to researchers, this is just 25% of the original monument.

213

00:20:04,000 --> 00:20:10,000

The center of a much larger structure that was surrounded by multiple concentric circles

214

00:20:10,000 --> 00:20:14,000

constructed over a period of more than a thousand years.

215

00:20:14,000 --> 00:20:20,000

So Stonehenge is very interesting in that it evolves over a very long period of time

216

00:20:20,000 --> 00:20:25,000

and the first thing that goes up at Stonehenge is not there anymore.

217

00:20:25,000 --> 00:20:29,000

It's the 56 holes that today are known as the Aubrey circle

218

00:20:29,000 --> 00:20:35,000

that used to be filled with 56 stones in a big stone circle just inside the henge.

219

00:20:36,000 --> 00:20:42,000

Stonehenge is a replica of our solar system on Earth.

220

00:20:42,000 --> 00:20:50,000

Each circle corresponds with one of our planets inside our solar system including Pluto.

221

00:20:50,000 --> 00:20:54,000

So now we have a structure that's at least 4,000 years old

222

00:20:54,000 --> 00:20:59,000

and our ancestors knew about Pluto without telescopes.

223

00:20:59,000 --> 00:21:06,000

Someone told them about Pluto and all of our planets in our solar system

224

00:21:06,000 --> 00:21:13,000

and that is the message because in Neolithic time there is no way that they knew about this.

225

00:21:18,000 --> 00:21:21,000

As amazing as Stonehenge looks today,

226

00:21:21,000 --> 00:21:26,000

remember what's still standing is only a fraction of the original structure.

227

00:21:26,000 --> 00:21:33,000

But 2,400 miles to the south is an even more extraordinary ancient site

228

00:21:33,000 --> 00:21:36,000

that remains almost perfectly intact.

229

00:21:36,000 --> 00:21:42,000

The number four site on my countdown, Egypt's Giza Plateau.

230

00:21:45,000 --> 00:21:53,000

In April 2018, ancient astronaut theorist George O'Souklos, Egyptologist Rami Romani

231

00:21:53,000 --> 00:21:58,000

and arduous astronomer Dr. Giulio Mali traveled to Cairo to investigate

232

00:21:58,000 --> 00:22:03,000

what is perhaps the most impressive structure ever constructed on Earth,

233

00:22:03,000 --> 00:22:06,000

the Great Pyramid of Giza.

234

00:22:10,000 --> 00:22:14,000

This is one incredible block.

235

00:22:14,000 --> 00:22:17,000

Every single block is bigger than this car.

236

00:22:17,000 --> 00:22:20,000

It is insane, it really is.

237

00:22:20,000 --> 00:22:22,000

Are you ready for some climbing?

238

00:22:22,000 --> 00:22:26,000

I'm going to have goosebumps on my calves right now.

239

00:22:26,000 --> 00:22:32,000

Built from more than 2 million limestone blocks, each weighing thousands of pounds,

240

00:22:32,000 --> 00:22:37,000

the pyramid is aligned perfectly to the cardinal points of the compass,

241

00:22:37,000 --> 00:22:41,000

north, south, east and west,

242

00:22:41,000 --> 00:22:46,000

suggesting that its builders possessed extraordinary geographical knowledge.

243

00:22:46,000 --> 00:22:49,000

According to mainstream Egyptologists,

244

00:22:49,000 --> 00:22:54,000

the Great Pyramid was built sometime around 2500 BC

245

00:22:54,000 --> 00:22:57,000

as the burial tomb of the Pharaoh Khufu,

246

00:22:57,000 --> 00:23:01,000

but this claim has yet to be proven.

247

00:23:01,000 --> 00:23:06,000

Archaeologists and Egyptologists claim that they were tombs for the pharaohs,

248

00:23:06,000 --> 00:23:12,000

and yet no Egyptian pharaoh was ever found in a pyramid in Egypt.

249

00:23:12,000 --> 00:23:15,000

We have found the mummies of many Egyptian pharaohs,

250

00:23:15,000 --> 00:23:21,000

but they're found in vaults deep underground at the valley of the kings in Luxor,

251

00:23:21,000 --> 00:23:24,000

hundreds of miles away from the pyramids.

252

00:23:24,000 --> 00:23:30,000

The pyramids, no real explanation of what their purpose was.

253

00:23:30,000 --> 00:23:36,000

But if the pyramids at Giza were not intended to house the remains of dead pharaohs,

254

00:23:36,000 --> 00:23:41,000

then why were these towering monuments built?

255

00:23:42,000 --> 00:23:46,000

In his 1998 book, *The Giza Power Plant*,

256

00:23:46,000 --> 00:23:49,000

noted machinist and engineer Christopher Dunn,

257

00:23:49,000 --> 00:23:52,000

proposed that the shape, positions of chambers,

258

00:23:52,000 --> 00:23:55,000

and proximity to underground rivers,

259

00:23:55,000 --> 00:24:00,000

indicate the pyramids of Giza functioned as ancient power plants.

260

00:24:00,000 --> 00:24:06,000

This incredible hypothesis, which has since been adopted by other scientists and researchers,

261

00:24:06,000 --> 00:24:10,000

may be impossible to ever prove.

262

00:24:10,000 --> 00:24:17,000

But ancient astronaut theorists believe new information about the great pyramid may soon be revealed.

263

00:24:17,000 --> 00:24:25,000

In March 2016, archaeologists examining the ancient structure with a new technology known as muagradi

264

00:24:25,000 --> 00:24:34,000

made a shocking discovery, a mysterious chamber inside the structure that is as large as the Statue of Liberty.

265

00:24:34,000 --> 00:24:38,000

This new room is only the beginning of it.

266

00:24:38,000 --> 00:24:41,000

I'm sure within the next months or at least two years,

267

00:24:41,000 --> 00:24:45,000

they will discover more rooms in the great pyramid.

268

00:24:45,000 --> 00:24:53,000

I personally think that the great pyramid in Egypt holds some sort of time capsule.

269

00:24:53,000 --> 00:25:00,000

Perhaps what lies within the great pyramid will reveal not only incredible truths about ancient Egypt,

270

00:25:00,000 --> 00:25:04,000

but about the history of humankind.

271

00:25:04,000 --> 00:25:12,000

Could there be clues that reveal that Egypt was once home to an extraterrestrial civilization?

272

00:25:34,000 --> 00:25:38,000

Is it an altitude of 12,000 feet?

273

00:25:38,000 --> 00:25:43,000

Number 3 on my countdown of the world's top 10 mysterious sites,

274

00:25:43,000 --> 00:25:46,000

Saksaihuaman.

275

00:25:49,000 --> 00:25:52,000

Kusko, Peru

276

00:25:52,000 --> 00:25:56,000

On the northern outskirts of what was once the capital city of the Inca,

277

00:25:56,000 --> 00:26:00,000

at an elevation of more than 12,000 feet,

278

00:26:00,000 --> 00:26:04,000

looms the ancient fortress of Saksaihuaman.

279

00:26:04,000 --> 00:26:11,000

Mainstream archaeologists suggest the Inca built this megalithic site in the 15th century AD.

280

00:26:11,000 --> 00:26:19,000

But many researchers now believe that the foundation of Saksaihuaman dates back centuries earlier.

281

00:26:19,000 --> 00:26:27,000

My feeling is that we're looking at a two-phase construction site in many of the so-called incurs stone monuments.

282

00:26:27,000 --> 00:26:34,000

And that the Inca structures sit on top of much more ancient rock cut structures and megalithic structures

283

00:26:34,000 --> 00:26:39,000

that we just don't know who built them. And this actually fits with the Inca's own view.

284

00:26:39,000 --> 00:26:46,000

Like many Inca sites, Saksaihuaman features astonishing stonework.

285

00:26:46,000 --> 00:26:49,000

But not all of it credited to the Inca.

286

00:26:49,000 --> 00:26:52,000

According to conventional archaeology,

287

00:26:52,000 --> 00:26:59,000

the Kilke culture built the older sections of the site approximately 1,000 years ago.

288

00:26:59,000 --> 00:27:06,000

But the Inca themselves believed the site was constructed by an earlier, unnamed race of people

289

00:27:06,000 --> 00:27:11,000

led by a powerful god who descended from the skies.

290

00:27:11,000 --> 00:27:17,000

Throughout time, there has been witness to a god named Veracochoa that visited the South American people

291

00:27:17,000 --> 00:27:21,000

and blessed them and gave them all types of technology.

292

00:27:21,000 --> 00:27:26,000

Some of his physical characteristics make him stand out from the indigenous population

293

00:27:26,000 --> 00:27:30,000

because he was not at all similar to the indigenous people.

294

00:27:30,000 --> 00:27:34,000

Veracochoa was the primary deity of the Andes.

295

00:27:34,000 --> 00:27:45,000

Going back many thousands of years, he was thought to be the founder of all the ancient sites we see in Peru and Bolivia today.

296

00:27:45,000 --> 00:27:49,000

But did Veracochoa actually exist?

297

00:27:49,000 --> 00:27:57,000

Could he have been, as ancient astronaut theorists suggest, a visitor from an alien world?

298

00:27:57,000 --> 00:28:04,000

If so, it might help to explain just how the ancient site was constructed.

299

00:28:04,000 --> 00:28:08,000

It's amazing all these, the weight of the stones.

300

00:28:08,000 --> 00:28:14,000

It's difficult, definitely, for any human to move even in groups.

301

00:28:14,000 --> 00:28:17,000

And the other aspect is how it's put together.

302

00:28:17,000 --> 00:28:25,000

In some stones we will see still now there is like some marks that it seemed that it was dissolved.

303

00:28:25,000 --> 00:28:32,000

The walls are put together with blocks of stone weighing 50 or 100 tons.

304

00:28:32,000 --> 00:28:37,000

Cut and shaped like the pieces of a jigsaw puzzle so that they lock together so tightly

305

00:28:37,000 --> 00:28:42,000

that you can't even get a sheet of paper between them.

306

00:28:42,000 --> 00:28:48,000

According to local legend, a bird was responsible for the seamless construction.

307

00:28:48,000 --> 00:28:58,000

Legends say the winged creature carried a powerful chemical in its beak, a substance capable of melting stone.

308

00:28:59,000 --> 00:29:05,000

Saksa-guaman means the head of the falcon, falcon's head.

309

00:29:05,000 --> 00:29:14,000

But maybe it was some falcons or maybe some bird people who could connect with the place.

310

00:29:14,000 --> 00:29:22,000

But is it possible, as ancient astronaut theorists suggest, that the mythical bird might actually have been a spacecraft

311

00:29:22,000 --> 00:29:28,000

piloted by alien visitors known to the locals as space brothers?

312

00:29:28,000 --> 00:29:37,000

I believe that it's a combination of the space brothers' technology with other kinds of possibilities.

313

00:29:37,000 --> 00:29:41,000

Nowadays we know different kinds of tools.

314

00:29:41,000 --> 00:29:46,000

We didn't have before these kinds of tools. Or maybe we had more sophisticated.

315

00:29:46,000 --> 00:29:53,000

So the thing is that this place, Saksa-guaman, it continues as a mystery.

316

00:30:16,000 --> 00:30:20,000

This site, the ruins of Balbeck.

317

00:30:26,000 --> 00:30:30,000

Eastern Lebanon, the Bekka Valley.

318

00:30:30,000 --> 00:30:36,000

Here, at this archaeological site, stand the ruins of Heliopolis.

319

00:30:36,000 --> 00:30:42,000

Built in the 4th century BC by Alexander the Great to honor Zeus.

320

00:30:42,000 --> 00:30:52,000

But beneath the Corinthian columns and remnants of both Greek and Roman architecture, lie the ruins

of a site that is much, much older.

321

00:30:52,000 --> 00:30:58,000

According to archaeologists, it dates back nearly 9,000 years.

322

00:30:58,000 --> 00:31:06,000

The ancient city of Balbeck, named after the early Canonite deity, Bal.

323

00:31:06,000 --> 00:31:11,000

Bal is the god of life, the god of the sky, the god of the sun.

324

00:31:11,000 --> 00:31:19,000

He was the god that was venerated on the site of Balbeck during the Canonite and the Phoenician times.

325

00:31:21,000 --> 00:31:31,000

And so because it was already sacred to the god Baal, then later the Greeks and the Romans then would build temples on this very same spot.

326

00:31:32,000 --> 00:31:41,000

Archaeological surveys have revealed that the enormous stone foundation that lies at the base of

the site dates back thousands of years.

327

00:31:41,000 --> 00:31:52,000

Balbeck, as we know from the archaeological evidence, must have existed during theolithic period, between 6 to 8,000 years or even 9,000 years BC.

328

00:31:53,000 --> 00:32:07,000

But even more significant to ancient astronaut theorists is their belief that the colossal stone platform may have been built using extraterrestrial technology.

329

00:32:07,000 --> 00:32:19,000

As evidence, researchers point to the gigantic megalithic stones incorporated into the foundation, each weighing between 800 to 1600 tons

330

00:32:20,000 --> 00:32:23,000

and perfectly fitted together.

331

00:32:24,000 --> 00:32:32,000

In Balbeck, stone blocks were transported, which have a weight of over 1,500 tons.

332

00:32:32,000 --> 00:32:37,000

And this not in a flat land, it's all mountain.

333

00:32:37,000 --> 00:32:46,000

We have absolutely no idea how such heavy loads could there be transported in the mountain.

334

00:32:46,000 --> 00:32:56,000

I have not even a speculation to this, but for sure it does never fit into the prehistoric knowledge of our ancestors.

335

00:32:57,000 --> 00:33:06,000

This is the real mystery of Balbeck, how these stones came to be there, why they were placed there and specifically how they were transported into place.

336

00:33:06,000 --> 00:33:15,000

Because some of the stones are of such magnitude that modern machinery is incapable of putting them there, but somehow our ancestors were able to do this.

337

00:33:17,000 --> 00:33:35,000

It is one of the oldest, oldest megalithic sites on the planet and it has these huge stones laid out in a precise geometrical shape at a time when the prehistoric people who would have lived there would have no concept of how to move stones of that nature.

338

00:33:36,000 --> 00:33:51,000

But if the moving, hoisting and setting of such massive stones was so incredibly difficult, then who or what helped to place them there? And perhaps more importantly, why?

339

00:33:52,000 --> 00:33:57,000

We know that the ancients always went to power places and Balbeck clearly is one of them.

340

00:33:57,000 --> 00:34:05,000

It is a place where the gods were worshipped, where the gods were said to be present. And so when it comes to Balbeck, this platform was built there for a reason.

341

00:34:06,000 --> 00:34:10,000

For what purpose it was used is a question we can't answer at this moment in time.

342

00:34:10,000 --> 00:34:18,000

But what we do know is that whatever was happening there had a great religious significance to them and was linked with worshipping deities.

343

00:34:18,000 --> 00:34:21,000

Deities which clearly are of an otherworldly origin.

344

00:34:22,000 --> 00:34:28,000

Hopefully at one point, archaeology will be so open-minded that they actually want to explore this further.

345

00:34:30,000 --> 00:34:40,000

We're just moments away from the top site on my list and in my opinion we've definitely saved the best for last. Can you guess what it is?

346

00:34:41,000 --> 00:34:48,000

We finally reached number one on my top ten countdown of ancient aliens most mysterious sites.

347

00:34:48,000 --> 00:35:05,000

Lying in ruins atop a vast plateau in the Andes Mountains at an altitude of over 12,000 feet, the megalithic stones found at this incredible location are among the largest on planet Earth.

348

00:35:06,000 --> 00:35:11,000

But even more impressive is how they were cut with such exact precision.

349

00:35:11,000 --> 00:35:21,000

And to me they provide the strongest evidence that extraterrestrials visited our planet and changed the course of human history.

350

00:35:22,000 --> 00:35:26,000

My number one most mysterious site, Puma Punku.

351

00:35:26,000 --> 00:35:36,000

Olivia, South America.

352

00:35:36,000 --> 00:35:41,000

Here lie the mysterious ancient ruins of Puma Punku.

353

00:35:41,000 --> 00:35:54,000

Spread across a desert plateau are dozens of megalithic stone blocks cut with extreme precision and some weighing more than 100 tons.

354

00:35:55,000 --> 00:36:04,000

These are the mysterious ruins of Puma Punku nearly 13,000 feet in the Altiplano of Bolivia.

355

00:36:05,000 --> 00:36:15,000

What you have here are massive blocks of granite scattered like some kids toy blocks around the site.

356

00:36:16,000 --> 00:36:28,000

Archaeologists are baffled by what Puma Punku was, how it looked and what the purpose of this enormous structure would have been.

357

00:36:31,000 --> 00:36:44,000

What sets Puma Punku apart from other ancient megalithic sites is the incredible stonework, which some researchers suggest is far too sophisticated to have been accomplished using primitive tools.

358

00:36:45,000 --> 00:36:52,000

One of the amazing things here at Puma Punku is the precision of the blocks.

359

00:36:52,000 --> 00:37:00,000

You can see with this block of granite that it's really been cut at very accurate right angles.

360

00:37:01,000 --> 00:37:13,000

Not only do these granite blocks have precision corners, but they also have these difficult drill holes that are going right through the rock.

361

00:37:16,000 --> 00:37:31,000

Mainstream scientists believe the site was originally constructed about 2,000 years ago, but in 1945, archaeologist Arthur Posnanski proposed that Puma Punku was much, much older.

362

00:37:31,000 --> 00:37:40,000

By examining the structures and what he believed were their original alignment with the stars, he dated the ruins to 15,000 BC.

363

00:37:41,000 --> 00:37:50,000

But how could such primitive people, living perhaps over 10,000 years ago, have produced such flawless stonework?

364

00:37:51,000 --> 00:38:00,000

The Spanish conqueror asked the Inca, the people living there, including the king of the Inca, what is this Puma Punku?

365

00:38:00,000 --> 00:38:10,000

And they all said, it's not us, it's not our forefather who made this. This was made by the gods in one single night.

366

00:38:13,000 --> 00:38:26,000

One of the earliest chronicles that we have in regards to Puma Punku talks about that these giant platforms were moved through the air by the sound of a trumpet.

367

00:38:27,000 --> 00:38:30,000

They basically floated into place.

368

00:38:31,000 --> 00:38:39,000

And here's another very interesting thing that according to the myths, this is exactly what happened with the Moai on Easter Island.

369

00:38:41,000 --> 00:38:48,000

Could it be that the local traditions of Easter Island and Puma Punku tell nearly identical stories of levitation?

370

00:38:49,000 --> 00:38:54,000

Because the ancient people at both sites witnessed the same extraterrestrial technology.

371

00:38:56,000 --> 00:39:04,000

And if the stone blocks of Puma Punku were once part of a megalithic structure, how did it end up in ruins?

372

00:39:05,000 --> 00:39:10,000

I honestly believe that Puma Punku is more than 12,000 years old.

373

00:39:11,000 --> 00:39:21,000

12,000 years ago there was a global cataclysm that destroyed a lot of ancient sites that we find, whether in Egypt or the Altiplano of Bolivia.

374

00:39:22,000 --> 00:39:33,000

We had at the end of the last Ice Age all kinds of catastrophic flooding due to the events and the climate changes and the melting of the glaciers and increased precipitation.

375

00:39:34,000 --> 00:39:40,000

There were incredible rises in sea levels since the end of the last Ice Age.

376

00:39:40,000 --> 00:39:47,000

More than 12,000 years ago Lake Titicaca was 100 feet higher than it is today.

377

00:39:48,000 --> 00:39:55,000

And I believed that Puma Punku was literally on the shore of the lake at that time whereas now it's eight miles away.

378

00:39:56,000 --> 00:40:04,000

12,000 years ago it was hit by a wave of mud coming from Lake Titicaca as a tsunami.

379

00:40:04,000 --> 00:40:18,000

A megalithic structure built more than 12,000 years ago with the help of extraterrestrial technology destroyed by a great cataclysm.

380

00:40:19,000 --> 00:40:25,000

If this incredible story is true, one question still remains.

381

00:40:26,000 --> 00:40:28,000

What was Puma Punku?

382

00:40:29,000 --> 00:40:39,000

When you look at the complexity of Puma Punku, the huge platforms, the interlocking blocks that were made into what they thought were indestructible walls,

383

00:40:40,000 --> 00:40:50,000

what you could have is the kind of perfectly made granite spaceport that extraterrestrials would want.

384

00:40:51,000 --> 00:41:00,000

Although the origins of many of the incredible sites we featured on ancient aliens continue to be debated,

385

00:41:01,000 --> 00:41:12,000

to me Puma Punku is so extraordinary that it is the one site where I will say yes, this was likely built directly by the aliens themselves.

386

00:41:13,000 --> 00:41:21,000

But make no mistake, each and every one of the sites on our countdown deserves to be investigated with an open mind.

387

00:41:22,000 --> 00:41:31,000

And it is only by asking the questions that we can finally uncover the truth of our extraterrestrial origins.
