

1

00:00:00,000 --> 00:00:07,440

The Dome of the Rock, the Temple of Jupiter, Puma Punku.

2

00:00:07,540 --> 00:00:10,840

They are sites sacred to millions of people,

3

00:00:10,940 --> 00:00:14,040

and they are all built atop the ruins of structures

4

00:00:14,140 --> 00:00:16,220

that are far more ancient.

5

00:00:16,320 --> 00:00:18,980

Some of the most iconic temple sites around the world

6

00:00:19,080 --> 00:00:23,560

are built on the exact same location as former temples.

7

00:00:23,660 --> 00:00:25,600

And the question is, why?

8

00:00:25,700 --> 00:00:29,400

What compelled early humans to build and rebuild

9

00:00:29,460 --> 00:00:33,260

in the same place again and again?

10

00:00:33,360 --> 00:00:36,540

It seems they were not only doing it for practical purposes,

11

00:00:36,640 --> 00:00:39,600

but also for religious and spiritual reasons.

12

00:00:39,700 --> 00:00:44,040

Are there locations on Earth that hold special power?

13

00:00:44,140 --> 00:00:48,480

The local population say it was not us who built this.

14

00:00:48,580 --> 00:00:50,480

It was the gods.

15

00:00:50,580 --> 00:00:53,820

And might we find that they were once occupied

16

00:00:53,920 --> 00:00:56,460

by extraterrestrials?

17

00:00:56,560 --> 00:00:58,720

There is no question in my mind

18

00:00:58,780 --> 00:01:01,420

that these are much older sites than we think,

19

00:01:01,520 --> 00:01:04,780

and that they were spots for extraterrestrial communication

20

00:01:04,880 --> 00:01:06,860

a long, long time ago.

21

00:01:09,960 --> 00:01:14,500

There is a doorway in the universe.

22

00:01:14,600 --> 00:01:18,700

Beyond it is the promise of truth.

23

00:01:18,800 --> 00:01:24,040

It demands we question everything we have ever been taught.

24

00:01:24,140 --> 00:01:27,440

The evidence is all around us.

25

00:01:27,460 --> 00:01:31,340

The future is right before our eyes.

26

00:01:31,440 --> 00:01:34,300

We are not alone.

27

00:01:34,400 --> 00:01:36,880

We have never been alone.

28

00:01:47,880 --> 00:01:50,160

Cusco, Peru.

29

00:01:50,260 --> 00:01:53,720

Nestled in a high river valley of the Andes Mountains,

30

00:01:53,780 --> 00:01:58,180

among peaks towering over 20,000 feet,

31

00:01:58,280 --> 00:02:01,720

this once great city served as the capital of the Inca

32

00:02:01,820 --> 00:02:06,500

empire from the 13th to 16th centuries AD.

33

00:02:06,600 --> 00:02:11,800

In 1533, Spanish conquistadors arrived in Cusco

34

00:02:11,900 --> 00:02:14,740

and were astonished by the incredible stonework

35

00:02:14,840 --> 00:02:20,940

founded a site just north of the city called Sansehuaman.

36

00:02:21,740 --> 00:02:25,060

Above the city of Cusco, we find the megalithic site

37

00:02:25,160 --> 00:02:30,100

and huge ceremonial Inca complex called Sansehuaman.

38

00:02:30,200 --> 00:02:34,680

Its most prominent feature is a zigzag wall of three levels.

39

00:02:34,780 --> 00:02:39,320

Some of the stones there weigh as much as 125 tons

40

00:02:39,420 --> 00:02:43,720

and were moved from the quarry at least three miles away.

41

00:02:43,820 --> 00:02:47,420

Sansehuaman is one of the most beautiful ancient structures

42

00:02:47,520 --> 00:02:50,020

you will ever see in your life.

43

00:02:50,080 --> 00:02:54,140

There are massive gigantic megalithic blocks,

44

00:02:54,240 --> 00:02:58,180

and you find the most amazing of masonry style

45

00:02:58,280 --> 00:03:02,420

where you can't even fit a dollar bill in between the fittings

46

00:03:02,520 --> 00:03:06,020

of any of the blocks.

47

00:03:06,120 --> 00:03:08,960

Sansehuaman served both as a fortress

48

00:03:09,060 --> 00:03:11,760

and a ceremonial center.

49

00:03:11,860 --> 00:03:15,360

A circular structure that lies within the megalithic walls,

50

00:03:15,460 --> 00:03:18,700

called Mayuc Marca, was the base of a tower

51

00:03:18,760 --> 00:03:22,160

where the Inca worshiped the sun god Inti.

52

00:03:22,260 --> 00:03:25,760

However, many experts suggest that while the Inca

53

00:03:25,860 --> 00:03:28,700

certainly utilized this megalithic structure,

54

00:03:28,800 --> 00:03:31,700

they were not the ones to build it.

55

00:03:31,800 --> 00:03:35,740

Standard belief is that the Inca constructed Sansehuaman

56

00:03:35,840 --> 00:03:39,440

less than 1,000 years ago.

57

00:03:39,540 --> 00:03:42,480

But some of the earliest Spanish chronicles,

58

00:03:42,580 --> 00:03:45,580

it is said that the Spanish were completely

59

00:03:45,600 --> 00:03:50,200

astounded by seeing this site, and they asked the local Inca,

60

00:03:50,300 --> 00:03:51,640

did you build it?

61

00:03:51,740 --> 00:03:54,280

And the Inca replied, no.

62

00:03:54,380 --> 00:03:59,480

This was here when we arrived 500 years ago.

63

00:03:59,580 --> 00:04:03,280

Many experts believe Sansehuaman predates the Inca

64

00:04:03,380 --> 00:04:06,620

by thousands of years, and that the Inca built

65

00:04:06,720 --> 00:04:10,160

on top of what came before.

66

00:04:10,260 --> 00:04:12,960

The Inca were a Bronze Age civilization,

67

00:04:12,960 --> 00:04:17,820

and the stones at Sansehuaman are metamorphose limestone,

68

00:04:17,920 --> 00:04:20,720

which is much harder than bronze,

69

00:04:20,820 --> 00:04:25,260

and could not be cut or shaped using bronze tools.

70

00:04:25,360 --> 00:04:28,860

Inca built on top, because you can tell a major difference

71

00:04:28,960 --> 00:04:32,960

between megalithic construction, where the stones fit perfectly

72

00:04:33,060 --> 00:04:37,160

together, and the Inca, which is stones piled on top of stones

73

00:04:37,260 --> 00:04:40,960

with mortar as filler.

74

00:04:41,460 --> 00:04:45,120

But if Sansehuaman really does predate the Inca,

75

00:04:45,220 --> 00:04:49,620

as the Inca themselves claimed, how could an even earlier

76

00:04:49,720 --> 00:04:54,320

civilization have possessed far superior technology?

77

00:04:54,420 --> 00:04:58,460

The ancient Inca talk about celestial beings

78

00:04:58,560 --> 00:05:01,820

who descended from the sky a long time ago

79

00:05:01,920 --> 00:05:05,600

and imparted the first knowledge of anything

80

00:05:05,700 --> 00:05:08,320

toward people of Earth.

81

00:05:08,380 --> 00:05:10,420

The ancient astronaut theory suggests

82

00:05:10,520 --> 00:05:13,820

it was human beings who built Sansehuaman,

83

00:05:13,920 --> 00:05:19,760

but under the tutelage of the extraterrestrials.

84

00:05:19,860 --> 00:05:22,960

Is it possible that the astonishing megalithic stonework

85

00:05:23,060 --> 00:05:27,760

at Sansehuaman was achieved with the help of alien technology,

86

00:05:27,860 --> 00:05:31,660

as ancient astronaut theorists suggest?

87

00:05:31,760 --> 00:05:35,200

And if so, might the Inca have built on top of it

88

00:05:35,300 --> 00:05:37,800

and established it as a place of worship

89

00:05:37,880 --> 00:05:41,880

because they were somehow aware of this?

90

00:05:41,980 --> 00:05:44,980

Saxe woman is only one of many places

91

00:05:45,080 --> 00:05:48,640

where ancient civilizations have felt compelled to repeatedly

92

00:05:48,740 --> 00:05:51,380

build their most sacred sites.

93

00:05:51,480 --> 00:05:54,880

In fact, there are locations all around the world

94

00:05:54,980 --> 00:06:00,020

where successive cultures have rebuilt over and over again.

95

00:06:00,120 --> 00:06:04,520

This has been going on since the end of the last Ice Age,

96

00:06:04,540 --> 00:06:09,020

with places like Gobekli Tepe in southeast Turkey,

97

00:06:09,120 --> 00:06:12,420

where the oldest and most sophisticated monuments

98

00:06:12,520 --> 00:06:15,120

were built first on the bedrock,

99

00:06:15,220 --> 00:06:18,500

and then eventually they would be covered over

100

00:06:18,600 --> 00:06:21,360

and a new structure, a new enclosure

101

00:06:21,460 --> 00:06:23,100

built on top of them.

102

00:06:23,200 --> 00:06:25,800

Some of the most iconic temple sites around the world,

103

00:06:25,900 --> 00:06:29,300

from Balbeck and Lebanon to the Temple of Horus and Edfu

104

00:06:29,400 --> 00:06:33,340

in Egypt, are built on the exact same location

105

00:06:33,400 --> 00:06:37,260

as former temples that were reputed to be there.

106

00:06:37,360 --> 00:06:40,000

And the question is why?

107

00:06:40,100 --> 00:06:43,840

It is not uncommon for people to repurpose an old structure

108

00:06:43,940 --> 00:06:48,740

or rebuild on its foundation for practical purposes.

109

00:06:48,840 --> 00:06:51,980

But what ancient astronaut theorists find intriguing

110

00:06:52,080 --> 00:06:55,380

is how the most sacred sites tend to remain sacred

111

00:06:55,480 --> 00:06:59,020

over thousands of years.

112

00:06:59,120 --> 00:07:01,320

And of all the places in the world

113

00:07:01,380 --> 00:07:05,040

where this phenomenon is found, perhaps there is none

114

00:07:05,140 --> 00:07:08,780

more universally revered than the 35-acre platform

115

00:07:08,880 --> 00:07:12,680

in Jerusalem known as Temple Mount.

116

00:07:12,780 --> 00:07:15,620

The Temple Mount is arguably the most important spiritual site

117

00:07:15,720 --> 00:07:17,020

in the world.

118

00:07:17,120 --> 00:07:19,920

All three of the primary monotheistic religions

119

00:07:20,020 --> 00:07:24,260

have a connection to the events of history that occurred

120

00:07:24,360 --> 00:07:27,520

on top of the Temple Mount.

121

00:07:27,620 --> 00:07:30,800

It's believed that is this the stone from which

122

00:07:30,880 --> 00:07:33,740

the world originates.

123

00:07:33,840 --> 00:07:36,880

It's a crucial element in the Jewish tradition.

124

00:07:36,980 --> 00:07:40,820

When Isaac is offered up for sacrifice by Abraham,

125

00:07:40,920 --> 00:07:44,780

this happens on the exposed surface of Mount Moriah.

126

00:07:44,880 --> 00:07:46,420

That's the Temple Mount.

127

00:07:46,520 --> 00:07:50,260

For Muslims, this is where the prophet Muhammad sends up

128

00:07:50,360 --> 00:07:51,520

to heaven.

129

00:07:51,620 --> 00:07:54,600

That stone is now covered over by the Dome of the Rock,

130

00:07:54,700 --> 00:07:58,800

this very important Islamic monument.

131

00:07:59,300 --> 00:08:02,140

The Dome of the Rock has stood at Temple Mount

132

00:08:02,240 --> 00:08:04,940

for more than 1,300 years.

133

00:08:05,040 --> 00:08:08,340

But the very first temple to occupy this sacred space

134

00:08:08,440 --> 00:08:12,240

was the legendary Solomon's Temple, constructed

135

00:08:12,340 --> 00:08:17,220

upon order of the Israelite king in the 10th century BC.

136

00:08:17,320 --> 00:08:20,420

According to the Hebrew Bible, King Solomon

137

00:08:20,520 --> 00:08:22,320

received a message from the heavens

138

00:08:22,420 --> 00:08:25,160

to build his temple on this spot.

139

00:08:25,260 --> 00:08:28,600

Its primary purpose was to house the Ark of the Covenant,

140

00:08:28,660 --> 00:08:32,460

the golden box which carried the two stone tablets inscribed

141

00:08:32,560 --> 00:08:34,600

with the 10 commandments and which

142

00:08:34,700 --> 00:08:38,640

was said to be God's earthly throne.

143

00:08:38,740 --> 00:08:43,040

Solomon has a communication with the angel Michael who

144

00:08:43,140 --> 00:08:48,620

comes and helps Solomon to build this.

145

00:08:48,720 --> 00:08:53,280

And so not only is this the presence of God on this spot,

146

00:08:53,380 --> 00:08:56,920

it's God who's helping in the building of this.

147

00:08:56,940 --> 00:09:00,620

And so that's part of what makes that place so special,

148

00:09:00,720 --> 00:09:03,820

so literally divine.

149

00:09:03,920 --> 00:09:09,400

Solomon's temple was destroyed by the Babylonians in 586 BC.

150

00:09:09,500 --> 00:09:14,100

But 70 years later, Jewish exiles returning to Jerusalem

151

00:09:14,200 --> 00:09:17,740

built a new temple on the exact same location.

152

00:09:17,840 --> 00:09:19,940

That's what we call the second temple.

153

00:09:20,040 --> 00:09:23,440

And that temple survives until the year 70 AD

154

00:09:23,540 --> 00:09:26,140

when it's destroyed by the Romans.

155

00:09:26,600 --> 00:09:30,040

Then in the 7th century, Muslims conquered Jerusalem.

156

00:09:30,140 --> 00:09:32,000

They built the Dome of the Rock there.

157

00:09:32,100 --> 00:09:36,580

And so there's been a long history of different people

158

00:09:36,680 --> 00:09:40,940

coming in, taking control, building, rebuilding places

159

00:09:41,040 --> 00:09:42,020

there.

160

00:09:42,120 --> 00:09:44,820

Solomon was instructed to build the temple

161

00:09:44,920 --> 00:09:47,620

on this incredibly important space.

162

00:09:47,720 --> 00:09:49,220

So why is this space important?

163

00:09:49,320 --> 00:09:50,520

Is it an energetic space?

164

00:09:50,620 --> 00:09:52,260

Is it a portal?

165

00:09:52,320 --> 00:09:56,420

What we see over and over again with these profound religious

166

00:09:56,520 --> 00:10:00,920

sites all over the world is we see this reverence for power

167

00:10:01,020 --> 00:10:06,300

places endures from the earliest human history to today.

168

00:10:06,400 --> 00:10:11,600

We're constantly building on top of these places.

169

00:10:11,700 --> 00:10:14,340

If a higher power instructed King Solomon

170

00:10:14,440 --> 00:10:16,900

to build on Temple Mount, could there

171

00:10:17,000 --> 00:10:21,940

be something special about this particular location on Earth?

172

00:10:22,840 --> 00:10:26,360

And could the same be true for other places around the world

173

00:10:26,460 --> 00:10:30,200

where successive cultures built again and again?

174

00:10:30,300 --> 00:10:32,340

Perhaps further clues can be found

175

00:10:32,440 --> 00:10:35,840

by examining one of the most astonishing megalithic sites

176

00:10:35,940 --> 00:10:40,380

in the world and stories about its connection to the stars.

177

00:10:40,380 --> 00:10:51,820

Balbec, Lebanon.

178

00:10:51,920 --> 00:10:55,760

Here in the fertile Bekka Valley stands

179

00:10:55,860 --> 00:10:59,200

what many consider to be the greatest ruin of Roman

180

00:10:59,300 --> 00:11:06,000

antiquity, the colossal temple of Jupiter.

181

00:11:06,100 --> 00:11:08,540

But the imposing remains that the Roman Empire

182

00:11:08,600 --> 00:11:11,840

had built over the years, but the imposing remains that tower

183

00:11:11,940 --> 00:11:15,840

over the site today are only the latest in a long line

184

00:11:15,940 --> 00:11:19,780

of structures erected on this spot.

185

00:11:19,880 --> 00:11:23,620

Archaeologists say the area has been continually inhabited

186

00:11:23,720 --> 00:11:26,580

for at least 10,000 years.

187

00:11:26,680 --> 00:11:31,760

And no one knows who built the first place of worship here.

188

00:11:31,860 --> 00:11:35,960

But according to legend, both Egyptian and Assyrian conquerors

189

00:11:36,020 --> 00:11:38,760

built the first anniversaries on the site,

190

00:11:38,860 --> 00:11:41,820

followed by the Canaanites and Phoenicians,

191

00:11:41,920 --> 00:11:44,120

who built a great temple here to their god,

192

00:11:44,220 --> 00:11:46,800

Ball, around 2,500 BC.

193

00:11:49,860 --> 00:11:52,300

Balbec is one of those places where

194

00:11:52,400 --> 00:11:56,600

you have different people over millennia building

195

00:11:56,700 --> 00:12:00,540

their shrines, their temples, to their particular gods

196

00:12:00,640 --> 00:12:01,840

or goddesses.

197

00:12:01,940 --> 00:12:04,840

You've got this temple that's built by the Phoenicians

198

00:12:04,860 --> 00:12:07,500

and their deities, Bal.

199

00:12:07,600 --> 00:12:10,100

Then Alexander the Great conquers this area

200

00:12:10,200 --> 00:12:15,840

and surprise, surprise, builds a temple to the Greek gods.

201

00:12:15,940 --> 00:12:20,640

In the first century BC, roughly 300 years after Alexander

202

00:12:20,740 --> 00:12:23,620

the Great, the Romans conquer Lebanon

203

00:12:23,720 --> 00:12:28,920

and decide to erect a temple here to their chief god, Jupiter.

204

00:12:29,020 --> 00:12:32,860

The main Roman temple once boasted 54 columns,

205

00:12:32,920 --> 00:12:36,580

each a staggering 65 feet in height.

206

00:12:36,680 --> 00:12:39,020

But while visitors to the ruins may first

207

00:12:39,120 --> 00:12:41,720

notice the towering Roman columns,

208

00:12:41,820 --> 00:12:43,920

the most impressive feature at Balbec

209

00:12:44,020 --> 00:12:46,060

is its massive foundation.

210

00:12:46,160 --> 00:12:50,100

To this day, Balbec, Lebanon has remained one of the most

211

00:12:50,200 --> 00:12:54,200

enduring mysteries on planet Earth.

212

00:12:54,300 --> 00:12:57,000

Because the masonry that we find there

213

00:12:57,100 --> 00:13:00,740

is unparalleled compared to the rest of the world.

214

00:13:00,820 --> 00:13:05,780

In fact, there are three stone blocks called the trilithons,

215

00:13:05,880 --> 00:13:10,420

each weighing approximately 800 metric tons,

216

00:13:10,520 --> 00:13:14,460

which is 1.6 million pounds.

217

00:13:14,560 --> 00:13:19,420

Each of these blocks is approximately 62 feet in length,

218

00:13:19,520 --> 00:13:24,700

by about 14 feet in depth and 12 feet in breadth.

219

00:13:24,800 --> 00:13:27,360

And they're not even on the ground.

220

00:13:27,420 --> 00:13:32,520

So whoever placed them there in ancient times

221

00:13:32,620 --> 00:13:37,360

would have had to raise them up to a height of about 20 feet.

222

00:13:37,460 --> 00:13:40,060

Each of the stones were quarried two miles away

223

00:13:40,160 --> 00:13:42,960

and put perfectly into place with such precision

224

00:13:43,060 --> 00:13:45,200

that you can't even put a credit card or a needle

225

00:13:45,300 --> 00:13:48,880

in between those massive blocks.

226

00:13:48,980 --> 00:13:52,640

How ancient people carved and moved such massive stones

227

00:13:52,740 --> 00:13:56,880

is a question that baffles archaeologists to this day.

228

00:13:56,900 --> 00:14:00,600

And equally as mysterious is who placed them there.

229

00:14:00,700 --> 00:14:02,840

The giant blocks in the foundation

230

00:14:02,940 --> 00:14:05,940

are clearly of a different building style

231

00:14:06,040 --> 00:14:08,040

than the temples that sit above.

232

00:14:08,140 --> 00:14:11,880

And in my opinion, that platform is not just ancient.

233

00:14:11,980 --> 00:14:15,480

It is prehistoric.

234

00:14:15,580 --> 00:14:19,220

But if the platform at Balbec was constructed thousands

235

00:14:19,320 --> 00:14:23,320

of years before the Romans arrived in the Bekaa Valley,

236

00:14:23,420 --> 00:14:25,860

why did they choose this as the site to build

237

00:14:25,940 --> 00:14:28,840

their most magnificent temple?

238

00:14:28,940 --> 00:14:32,240

One pioneering Russian scholar has proposed

239

00:14:32,340 --> 00:14:35,240

that humans may have been drawn to this location

240

00:14:35,340 --> 00:14:38,640

because it was the site of one of Earth's earliest

241

00:14:38,740 --> 00:14:40,340

extraterrestrial events.

242

00:14:44,320 --> 00:14:48,860

Leningrad, USSR, 1961.

243

00:14:48,960 --> 00:14:52,920

Scientist and mathematician Dr. Matest agressed,

244

00:14:52,980 --> 00:14:55,880

sends shock waves through the world of academia

245

00:14:55,980 --> 00:14:59,020

with an article in which he poses a new theory called

246

00:14:59,120 --> 00:15:03,560

paleocontact, a precursor to what is known today

247

00:15:03,660 --> 00:15:05,960

as the ancient astronaut theory,

248

00:15:06,060 --> 00:15:08,800

suggesting that certain biblical texts

249

00:15:08,900 --> 00:15:13,100

could be interpreted as evidence of alien visitation.

250

00:15:13,200 --> 00:15:16,100

And according to agressed, one place

251

00:15:16,200 --> 00:15:19,440

where such visitations occurred was Balbec.

252

00:15:19,540 --> 00:15:22,440

Dr. Matest agressed when it to the ancient record

253

00:15:23,060 --> 00:15:25,540

the Book of Enoch and other Hebrew texts,

254

00:15:25,640 --> 00:15:28,740

and noticed that there were beings coming from the sky

255

00:15:28,840 --> 00:15:30,900

or the stars that came to Earth.

256

00:15:31,000 --> 00:15:33,140

And he came up with a theory that they

257

00:15:33,240 --> 00:15:35,940

were extraterrestrial beings who came to Earth

258

00:15:36,040 --> 00:15:39,120

to assist humanity in developing advanced technology

259

00:15:39,220 --> 00:15:43,080

to build stone constructions such as what we see at Balbec

260

00:15:43,180 --> 00:15:44,720

in Lebanon.

261

00:15:44,820 --> 00:15:47,160

Agressed wrote about the Watchers,

262

00:15:47,260 --> 00:15:50,860

a group of fallen angels who, according to the biblical account,

263

00:15:51,360 --> 00:15:53,460

descended to Earth at Mount Hermon,

264

00:15:53,560 --> 00:15:56,560

very near the site of Balbec.

265

00:15:56,660 --> 00:15:59,660

Agressed suggested that the Watchers were, in fact,

266

00:15:59,760 --> 00:16:03,360

visitors from another planet who built the megalithic platform

267

00:16:03,460 --> 00:16:06,840

at Balbec as a launch pad.

268

00:16:06,940 --> 00:16:09,600

He thought it was a giant stone platform

269

00:16:09,700 --> 00:16:14,440

that spaceships could land on and take off from.

270

00:16:14,540 --> 00:16:16,580

And this makes a lot of sense because it's

271

00:16:16,640 --> 00:16:22,440

so incredibly solid with these huge stone blocks in it

272

00:16:22,540 --> 00:16:25,980

that even huge vehicles, such as rockets,

273

00:16:26,080 --> 00:16:31,780

could land and take off from this huge platform.

274

00:16:31,880 --> 00:16:34,680

Two decades after the publication of Agress's

275

00:16:34,780 --> 00:16:38,360

controversial article, author and researcher Zechariah

276

00:16:38,460 --> 00:16:41,700

Sitchin came to the same conclusion about Balbec

277

00:16:41,800 --> 00:16:45,660

based on a 5,000-year-old Sumerian text.

278

00:16:45,720 --> 00:16:49,860

The Epic of Gilgamesh tells of a hero of superhuman strength

279

00:16:49,960 --> 00:16:53,620

who embarks on an impossible quest.

280

00:16:53,720 --> 00:16:57,360

In the course of his journeys, Gilgamesh arrives at a site

281

00:16:57,460 --> 00:17:01,060

where he encounters other worldly gods, a site that

282

00:17:01,160 --> 00:17:05,100

sounds suspiciously like Balbec.

283

00:17:05,200 --> 00:17:07,400

In the Sumerian Epic of Gilgamesh,

284

00:17:07,500 --> 00:17:11,480

which is one of the great and important legends

285

00:17:11,580 --> 00:17:14,740

of human history, we have the hero arriving

286

00:17:14,800 --> 00:17:20,540

in a place known as the landing place, a space which

287

00:17:20,640 --> 00:17:23,540

allows the ascent and the descent of beings

288

00:17:23,640 --> 00:17:26,940

from the heavens to the earth.

289

00:17:27,040 --> 00:17:29,680

Zechariah Sitchin in the 1970s proposed,

290

00:17:29,780 --> 00:17:33,020

based on his reading of the Epic of Gilgamesh,

291

00:17:33,120 --> 00:17:37,320

that Gilgamesh himself had seen some sort of a spacecraft take

292

00:17:37,420 --> 00:17:42,960

off from a landing site and pinpointed that site as Balbec.

293

00:17:43,080 --> 00:17:47,760

Is it possible that Balbec was a landing pad for alien visitors

294

00:17:47,860 --> 00:17:52,460

and that it remains so for thousands of years?

295

00:17:52,560 --> 00:17:55,200

Could that be why so many ancient peoples,

296

00:17:55,300 --> 00:18:00,060

such as the Egyptians, Assyrians, Canaanites, Phoenicians,

297

00:18:00,160 --> 00:18:04,200

Greeks, and Romans all chose to build and rebuild

298

00:18:04,300 --> 00:18:08,300

some of their greatest temples on this spot?

299

00:18:08,400 --> 00:18:10,540

Perhaps further clues can be found

300

00:18:10,620 --> 00:18:15,180

by examining new discoveries made at a mysterious ancient site

301

00:18:15,280 --> 00:18:17,780

on the other side of the world.

302

00:18:23,160 --> 00:18:26,800

Bolivia, 1549.

303

00:18:26,900 --> 00:18:29,200

While searching for the southern capital of the Inca

304

00:18:29,300 --> 00:18:33,660

Empire, Spanish conquistador Pedro Cieza de Leon

305

00:18:33,760 --> 00:18:36,940

comes upon something far stranger,

306

00:18:37,440 --> 00:18:40,840

a vast, abandoned city near the shore of Lake Titicaca

307

00:18:40,940 --> 00:18:44,080

that the locals call Tiwanaku.

308

00:18:44,180 --> 00:18:46,880

The ruined city contains temples,

309

00:18:46,980 --> 00:18:52,080

huge megalithic structures, and vast ceremonial buildings.

310

00:18:52,180 --> 00:18:54,160

Tiwanaku was huge.

311

00:18:54,260 --> 00:18:58,700

It spanned for miles and miles and had a population of perhaps

312

00:18:58,800 --> 00:19:01,300

as many as 20,000 people.

313

00:19:01,400 --> 00:19:04,300

Among Tiwanaku's most impressive ruins

314

00:19:04,320 --> 00:19:08,000

is a carved monolith called the Gateway to the Sun

315

00:19:08,100 --> 00:19:11,340

and a terrace mound called Puma Puncu,

316

00:19:11,440 --> 00:19:15,980

containing stone blocks cut with extraordinary precision.

317

00:19:16,080 --> 00:19:19,780

According to archaeologists, the Tiwanaku complex

318

00:19:19,880 --> 00:19:23,420

once served as the capital of a sprawling empire that rose

319

00:19:23,520 --> 00:19:27,060

and fell centuries before the Inca.

320

00:19:27,160 --> 00:19:31,160

This is why we have the term called the pre-Inca.

321

00:19:31,260 --> 00:19:33,960

But who were the pre-Inca?

322

00:19:33,960 --> 00:19:36,360

And this is where it gets interesting,

323

00:19:36,460 --> 00:19:42,260

because pre-Inca construction is more sophisticated

324

00:19:42,360 --> 00:19:44,300

than Inca construction.

325

00:19:44,400 --> 00:19:48,240

While some mainstream historians say the site dates back

326

00:19:48,340 --> 00:19:53,400

only to the Bronze Age, others maintain it is far older.

327

00:19:53,500 --> 00:19:56,880

Arthur Puznanski spent an exorbitant amount of time

328

00:19:56,980 --> 00:20:02,880

at Tiwanaku, and he calculated an actual origin date

329

00:20:02,900 --> 00:20:09,380

of Tiwanaku, which he based to be around 12,500 BC,

330

00:20:09,480 --> 00:20:13,580

which is an incredible time, because at that time,

331

00:20:13,680 --> 00:20:15,680

according to mainstream archaeology,

332

00:20:15,780 --> 00:20:18,220

we were munching on bananas.

333

00:20:18,320 --> 00:20:21,860

So it opens up the possibility that this site is vastly

334

00:20:21,960 --> 00:20:25,300

more ancient than were led to believe.

335

00:20:25,400 --> 00:20:27,160

And we're only just now beginning

336

00:20:27,260 --> 00:20:32,000

to discover the complete history of that site.

337

00:20:32,060 --> 00:20:35,460

Some experts believe that the builders of Tiwanaku

338

00:20:35,560 --> 00:20:39,060

were the ancestors of the local Aymara people who still live

339

00:20:39,160 --> 00:20:41,000

in the area today.

340

00:20:41,100 --> 00:20:45,900

But many of the Aymara themselves disagree.

341

00:20:46,000 --> 00:20:49,340

The local population, the ancient Aymara culture,

342

00:20:49,440 --> 00:20:52,520

say it was not us who built this.

343

00:20:52,620 --> 00:20:55,580

It was the gods, los dioses.

344

00:20:55,680 --> 00:20:58,920

Recently, the mystery of who built Tiwanaku

345

00:20:58,980 --> 00:21:02,240

only deepened with a staggering discovery, not

346

00:21:02,340 --> 00:21:04,580

within the city, but beneath it.

347

00:21:07,220 --> 00:21:11,920

2017, researchers from UNESCO, working

348

00:21:12,020 --> 00:21:14,860

with local archaeologists at Tiwanaku,

349

00:21:14,960 --> 00:21:18,100

announced findings that send shock waves through the world

350

00:21:18,200 --> 00:21:20,260

of archaeology.

351

00:21:20,360 --> 00:21:23,740

While analyzing satellite imagery and ground penetrating

352

00:21:23,840 --> 00:21:28,300

radar of the Tiwanaku site, they find dozens of previously

353

00:21:28,320 --> 00:21:33,660

unknown structures buried virtually everywhere they look.

354

00:21:33,760 --> 00:21:36,260

What this aerial technology has found

355

00:21:36,360 --> 00:21:43,400

is 34 acres of terraced mounds, underground platforms,

356

00:21:43,500 --> 00:21:46,840

and elements of a pyramid complex.

357

00:21:46,940 --> 00:21:51,440

Undated constructions reveal that temples

358

00:21:51,540 --> 00:21:56,780

may have taken the form of industrial strength platforms.

359

00:21:56,860 --> 00:22:00,280

And this begs the question, why are the bases,

360

00:22:00,380 --> 00:22:03,980

these platforms, so industrial strength?

361

00:22:04,080 --> 00:22:09,320

It's as though they were built to support extreme weight.

362

00:22:09,420 --> 00:22:13,260

So originally, there could have been one large mega-platform

363

00:22:13,360 --> 00:22:16,460

similar to what we find at Baobag.

364

00:22:16,560 --> 00:22:19,300

This could have belonged to a much earlier civilization.

365

00:22:22,100 --> 00:22:25,100

If Tiwanaku is yet another sacred site,

366

00:22:25,600 --> 00:22:27,500

were successive cultures built temples

367

00:22:27,600 --> 00:22:31,160

atop the ruins of far earlier structures,

368

00:22:31,260 --> 00:22:33,700

is it possible that there is a connection

369

00:22:33,800 --> 00:22:37,040

to extraterrestrial visitation?

370

00:22:37,140 --> 00:22:40,800

As far as ancient astronaut theorists are concerned,

371

00:22:40,900 --> 00:22:44,880

Tiwanaku's most mysterious ruins at Pumapunku

372

00:22:44,980 --> 00:22:47,920

provide the best evidence that the site was not only

373

00:22:48,020 --> 00:22:50,220

significant to the native people,

374

00:22:50,320 --> 00:22:54,620

but also to other worldly visitors.

375

00:22:54,640 --> 00:22:58,880

Pumapunku is, to me, the most important place on Earth

376

00:22:58,980 --> 00:23:04,120

as far as an extraterrestrial visitation would be concerned.

377

00:23:04,220 --> 00:23:06,860

The construction style at Pumapunku

378

00:23:06,960 --> 00:23:12,200

does not exist anywhere else on Earth.

379

00:23:12,300 --> 00:23:14,800

These stones, some of them weighing 100 tons,

380

00:23:14,900 --> 00:23:18,240

are made of anticyte and other hard materials

381

00:23:18,340 --> 00:23:21,940

that today we would use a diamond-tipped drill in order

382

00:23:22,040 --> 00:23:24,380

to shape or mold such stones.

383

00:23:24,400 --> 00:23:28,640

How did they do it with hammers and chisels?

384

00:23:28,740 --> 00:23:31,540

Like the foundation stones beneath Baobag

385

00:23:31,640 --> 00:23:34,480

and the megalithic blocks of Soxewoman,

386

00:23:34,580 --> 00:23:37,080

the buried platforms beneath Pumapunku

387

00:23:37,180 --> 00:23:40,320

raise a provocative question.

388

00:23:40,420 --> 00:23:44,060

Why were the largest, heaviest, and most sophisticated parts

389

00:23:44,160 --> 00:23:50,060

of these sites, those that date back farthest in time?

390

00:23:50,160 --> 00:23:52,700

According to ancient astronaut theorists,

391

00:23:52,720 --> 00:23:56,200

more than 12,000 years ago, human civilizations

392

00:23:56,300 --> 00:24:00,200

existed on Earth that possessed incredible technology,

393

00:24:00,300 --> 00:24:05,140

given to them by extraterrestrial beings.

394

00:24:05,240 --> 00:24:08,480

The ancient Egyptians referred to a time called

395

00:24:08,580 --> 00:24:14,380

the First Time when the gods' extraterrestrial beings walked

396

00:24:14,480 --> 00:24:17,980

among men pre-10,000 BC.

397

00:24:18,080 --> 00:24:22,020

We have authentic legends about these lost lands

398

00:24:22,080 --> 00:24:25,640

and lost worlds, and that extraterrestrials were here

399

00:24:25,740 --> 00:24:26,920

at the same time.

400

00:24:27,020 --> 00:24:28,320

We have these all over the world.

401

00:24:28,420 --> 00:24:31,120

We have the stories of Atlantis and Lemuria.

402

00:24:31,220 --> 00:24:33,820

Many cultures around the world have also

403

00:24:33,920 --> 00:24:37,360

these same legends and lords and myths of cataclysms.

404

00:24:37,460 --> 00:24:40,000

The Scandinavians have this.

405

00:24:40,100 --> 00:24:43,260

Also, we have the flood of Noah.

406

00:24:43,360 --> 00:24:48,500

We have the Greeks also have tales of a flood.

407

00:24:48,560 --> 00:24:53,000

What we now know from incredible amount of evidence

408

00:24:53,100 --> 00:25:00,500

coming from every part of the world is around 10,800 BC.

409

00:25:00,600 --> 00:25:05,300

The Earth suffered a terrible catastrophe

410

00:25:05,400 --> 00:25:09,480

in the form of a comet impact, known as the Younger Dryus

411

00:25:09,580 --> 00:25:11,720

Event.

412

00:25:11,820 --> 00:25:15,780

And this devastated every continent of the world

413

00:25:16,640 --> 00:25:19,240

with fires and floods.

414

00:25:19,340 --> 00:25:20,680

So now it looks like we're looking

415

00:25:20,780 --> 00:25:24,840

at a secret history of planet Earth, one where

416

00:25:24,940 --> 00:25:28,120

there's extraterrestrial intervention.

417

00:25:28,220 --> 00:25:32,760

And there were civilizations and activities going on then.

418

00:25:32,860 --> 00:25:36,700

And they were destroyed in a cataclysmic flood.

419

00:25:36,800 --> 00:25:41,260

From Belbeck and Lebanon to the Temple Mount to Puma Punku,

420

00:25:41,360 --> 00:25:43,800

some of these sites are thought to be the locations

421

00:25:43,860 --> 00:25:46,200

where pre-flood temples once existed.

422

00:25:46,300 --> 00:25:50,200

So after the cataclysm, people are regaining civilization.

423

00:25:50,300 --> 00:25:52,500

And they go back to the exact same location

424

00:25:52,600 --> 00:25:56,900

as previous temples and rebuild the temple there.

425

00:25:57,000 --> 00:25:59,500

Could it be that the most ancient structures found

426

00:25:59,600 --> 00:26:02,000

at sacred sites all over the world

427

00:26:02,100 --> 00:26:06,340

belonged to civilizations that have been lost to history?

428

00:26:06,440 --> 00:26:09,380

Civilizations were extraterrestrials once

429

00:26:09,480 --> 00:26:12,760

lived among humans before falling victim

430

00:26:12,820 --> 00:26:15,220

to a cataclysmic event.

431

00:26:15,320 --> 00:26:17,320

Perhaps further clues can be found

432

00:26:17,420 --> 00:26:20,660

by examining a site in Peru where the Inca claimed

433

00:26:20,760 --> 00:26:24,660

to have had a direct line of communication with the gods.

434

00:26:32,160 --> 00:26:33,040

Cusco, Peru.

435

00:26:36,240 --> 00:26:38,840

In the heart of the ancient Incan capital

436

00:26:38,940 --> 00:26:41,640

stands the convent of Santo Domingo,

437

00:26:41,660 --> 00:26:46,460

a Spanish church constructed roughly 400 years ago.

438

00:26:46,560 --> 00:26:48,540

But still visible beneath the church

439

00:26:48,640 --> 00:26:53,340

are the remnants of an older and far more impressive structure,

440

00:26:53,440 --> 00:26:56,940

the Incan temple of Corricancha.

441

00:26:57,040 --> 00:26:59,740

Corricancha is probably the premier site

442

00:26:59,840 --> 00:27:02,780

for the ancient Incan civilization.

443

00:27:02,880 --> 00:27:06,120

This was the crowning jewel of their empire.

444

00:27:06,220 --> 00:27:09,520

It reflected the Incan political power,

445

00:27:09,580 --> 00:27:12,420

as well as the religious power.

446

00:27:12,520 --> 00:27:17,780

It had gold plating all along its walls, inside and out,

447

00:27:17,880 --> 00:27:20,580

so it glowed in the sun.

448

00:27:20,680 --> 00:27:24,620

And it was a very imposing structure.

449

00:27:24,720 --> 00:27:29,460

It had a base that was a curved wall with a big garden

450

00:27:29,560 --> 00:27:31,160

at the bottom.

451

00:27:31,260 --> 00:27:33,500

And inside, it had a number of temples.

452

00:27:34,480 --> 00:27:39,440

After the Spanish conquistadors,

453

00:27:39,540 --> 00:27:45,180

SACCUSCO in November of 1533, they demolished the Corricancha

454

00:27:45,280 --> 00:27:50,520

and built a convent and church on its monumental foundation.

455

00:27:50,620 --> 00:27:53,220

All that's left of the original structure

456

00:27:53,320 --> 00:27:55,660

is the impressive stonework of the base

457

00:27:55,760 --> 00:27:58,960

and some underground rooms.

458

00:27:59,060 --> 00:28:02,900

But some experts believe the surviving stonework of the Incan

459

00:28:02,900 --> 00:28:06,000

of Corricancha is too monumental and sophisticated

460

00:28:06,100 --> 00:28:09,800

to have been achieved with the Bronze Age tools of the Inca

461

00:28:09,900 --> 00:28:13,580

and was built instead by an earlier unknown civilization.

462

00:28:16,240 --> 00:28:18,680

With the Corricancha, we have good evidence

463

00:28:18,780 --> 00:28:21,080

that when the Inca arrived in this area,

464

00:28:21,180 --> 00:28:23,820

there was already an earlier megalithic temple there.

465

00:28:23,920 --> 00:28:25,320

They were actually building on something

466

00:28:25,420 --> 00:28:28,260

that was already there, like possibly an ancient platform,

467

00:28:28,360 --> 00:28:30,720

possibly an underground temple, because there's evidence

468

00:28:30,780 --> 00:28:34,020

of tunnels in this area.

469

00:28:34,120 --> 00:28:36,020

For ancient astronaut theorists,

470

00:28:36,120 --> 00:28:40,760

this race is the same question posed by Balbeck and Tijuana.

471

00:28:40,860 --> 00:28:44,360

Why did ancient people repeatedly build temple after temple

472

00:28:44,460 --> 00:28:47,500

on the same sacred spot?

473

00:28:47,600 --> 00:28:50,660

And some believe that in the case of the Corricancha,

474

00:28:50,760 --> 00:28:54,740

Inca legends may provide a pivotal clue,

475

00:28:54,840 --> 00:28:58,880

because tradition states that a special spot within the Corricancha

476

00:28:58,900 --> 00:29:02,440

allowed communication directly with the heavens,

477

00:29:02,540 --> 00:29:05,780

but only when it was activated by the most sacred relic

478

00:29:05,880 --> 00:29:09,520

in the Inca world, a mysterious golden disk

479

00:29:09,620 --> 00:29:13,020

called the Inti Punchaco.

480

00:29:13,120 --> 00:29:17,660

The most legendary relic of any Peruvian era

481

00:29:17,760 --> 00:29:21,460

was said to have been kept in the original Corricancha.

482

00:29:21,560 --> 00:29:25,940

This was the Inti Punchaco.

483

00:29:26,000 --> 00:29:29,740

This sun disk, this golden artifact,

484

00:29:29,840 --> 00:29:37,340

allowed whoever possessed it to commune directly with the gods.

485

00:29:37,440 --> 00:29:40,680

According to the Inca, within the Corricancha,

486

00:29:40,780 --> 00:29:44,080

the Inti Punchaco disk allowed direct contact

487

00:29:44,180 --> 00:29:47,420

with their creator god Viracocha.

488

00:29:47,520 --> 00:29:49,660

Ancient astronaut theorists suggest

489

00:29:49,760 --> 00:29:51,420

that the specific placement of it

490

00:29:51,520 --> 00:29:54,360

was important because it may have been receiving a signal

491

00:29:54,380 --> 00:29:56,720

from beyond Earth.

492

00:29:56,820 --> 00:30:00,420

And they believe the exact spot where it was activated

493

00:30:00,520 --> 00:30:03,520

still exists in a chamber of the Corricancha that

494

00:30:03,620 --> 00:30:07,760

was spared destruction by the Spanish.

495

00:30:07,860 --> 00:30:11,900

In the Corricancha is this special niche.

496

00:30:12,000 --> 00:30:15,700

And today they've covered it with a plexiglass sheet,

497

00:30:15,800 --> 00:30:19,840

but it has blocks that are perfectly cut and articulated

498

00:30:19,940 --> 00:30:23,140

in unusual ways, little notches and things.

499

00:30:23,200 --> 00:30:25,860

Plus drilled holes that go through it,

500

00:30:25,960 --> 00:30:30,040

which seem to be for electric cables or something.

501

00:30:30,140 --> 00:30:37,240

So it would appear that some device was placed into this niche

502

00:30:37,340 --> 00:30:42,780

in the wall that was like a monitor of some kind.

503

00:30:42,880 --> 00:30:46,980

And they've chosen this spot, and all for reasons

504

00:30:47,080 --> 00:30:50,120

that we do not understand.

505

00:30:50,220 --> 00:30:52,020

So could it be that at the Corricancha

506

00:30:52,040 --> 00:30:55,920

there was a sacred kind of part of the site there

507

00:30:56,020 --> 00:30:58,380

where they were connecting with the gods?

508

00:30:58,480 --> 00:31:02,520

Actually something in the land, like a magnetic hotspot

509

00:31:02,620 --> 00:31:06,920

or a vortex that the Inca and then later the Spanish

510

00:31:07,020 --> 00:31:09,420

became aware of.

511

00:31:09,520 --> 00:31:13,160

Is it possible that ancient Peruvians possessed a device

512

00:31:13,260 --> 00:31:15,760

that allowed them to communicate with beings

513

00:31:15,860 --> 00:31:19,100

from beyond Earth?

514

00:31:19,180 --> 00:31:21,680

And that the location of the Corricancha

515

00:31:21,780 --> 00:31:26,180

was essential to activating this technology?

516

00:31:26,280 --> 00:31:30,180

Ancient astronaut theorists say yes and suggest

517

00:31:30,280 --> 00:31:34,320

that clues as to just how such a technology might have worked

518

00:31:34,420 --> 00:31:37,920

can be found by examining mysterious magnetic anomalies

519

00:31:38,020 --> 00:31:42,500

detected at one of the most remote ancient sites in the world.

520

00:31:42,940 --> 00:31:45,240

In the middle of the Pacific Ocean,

521

00:31:45,340 --> 00:31:49,680

roughly 2,500 miles northeast of Australia,

522

00:31:49,780 --> 00:31:54,780

lie the ruins of a once great ancient city, non-Madal,

523

00:31:54,880 --> 00:31:57,280

consisted of hundreds of man-made islets

524

00:31:57,380 --> 00:32:00,720

off the eastern coast of Micronesia.

525

00:32:00,820 --> 00:32:05,620

It has been dubbed the Eighth Wonder of the World.

526

00:32:05,720 --> 00:32:08,660

The site of Nan-Madal on the island of Peruvian

527

00:32:08,760 --> 00:32:12,360

is the place where the ancient Isles were located.

528

00:32:12,360 --> 00:32:13,760

The island of Pompeii and Micronesia

529

00:32:13,860 --> 00:32:17,860

is one of the strangest places on the planet.

530

00:32:17,960 --> 00:32:21,200

It's an 11-square-mile complex composed

531

00:32:21,300 --> 00:32:26,300

of over 250 million tons of basalt logs.

532

00:32:26,400 --> 00:32:31,240

They're floating on a submerged coral reef.

533

00:32:31,340 --> 00:32:34,440

They're 18 feet long, 4 feet in diameter,

534

00:32:34,540 --> 00:32:39,420

and are stacked 40 feet up in the air.

535

00:32:39,520 --> 00:32:40,680

Why did they do this?

536

00:32:40,700 --> 00:32:42,000

And how did they do this?

537

00:32:44,940 --> 00:32:47,780

Today, the site lies abandoned and shunned

538

00:32:47,880 --> 00:32:51,580

by the local Micronesians, who consider it haunted.

539

00:32:51,680 --> 00:32:55,660

Nan-Madal is one of these disappeared civilizations.

540

00:32:55,760 --> 00:32:57,660

It's fascinatingly interesting.

541

00:32:57,760 --> 00:32:59,560

This seems to have been the center of power

542

00:32:59,660 --> 00:33:02,600

of a major civilization.

543

00:33:02,700 --> 00:33:04,300

And yet it also seems that it might

544

00:33:04,400 --> 00:33:06,800

have been built on earlier civilizations that

545

00:33:06,900 --> 00:33:08,100

are lost in time.

546

00:33:10,700 --> 00:33:13,640

Since stone is difficult to accurately date,

547

00:33:13,740 --> 00:33:16,280

no one knows for certain when it was constructed

548

00:33:16,380 --> 00:33:18,880

or how it was built.

549

00:33:18,980 --> 00:33:21,180

When you ask the local population,

550

00:33:21,280 --> 00:33:24,820

where were these blocks quarried?

551

00:33:24,920 --> 00:33:28,420

In unison, they will tell you from across the island,

552

00:33:28,520 --> 00:33:32,800

and they were flown across the island.

553

00:33:32,900 --> 00:33:38,340

According to legend, twin sorcerers of giant proportions

554

00:33:38,400 --> 00:33:42,540

came down from the sky and floated above the site

555

00:33:42,640 --> 00:33:47,340

and positioned the Pusalt columns as they desired.

556

00:33:47,440 --> 00:33:53,280

A legend that's very similar to the same story at Puma Punku.

557

00:33:53,380 --> 00:33:56,860

When I hear stories like that, I wonder, well, perhaps

558

00:33:56,960 --> 00:34:02,360

we have another example of what I refer to as misunderstood

559

00:34:02,460 --> 00:34:04,760

technology.

560

00:34:04,860 --> 00:34:07,260

As with other sites like Puma Punku,

561

00:34:07,280 --> 00:34:09,760

Balbek, and the Kori Kansha, legend

562

00:34:09,860 --> 00:34:13,820

says that these structures were not the first to exist here,

563

00:34:13,920 --> 00:34:17,760

but instead were built above a much older city.

564

00:34:17,860 --> 00:34:21,440

The mystery of Nanamadol is even more intriguing

565

00:34:21,540 --> 00:34:24,600

when we factor in the local legend that

566

00:34:24,700 --> 00:34:29,440

states that it was built on an earlier civilization called

567

00:34:29,540 --> 00:34:35,180

the Kana Mueso, which is submerged below water,

568

00:34:35,240 --> 00:34:39,580

but still has those same basalt megalis.

569

00:34:39,680 --> 00:34:42,340

Objects that appear to be basalt columns

570

00:34:42,440 --> 00:34:46,780

have, in fact, been found beneath the ocean at Nanamadol.

571

00:34:46,880 --> 00:34:48,680

And those who have studied the columns,

572

00:34:48,780 --> 00:34:51,620

both above and below the water, have discovered

573

00:34:51,720 --> 00:34:55,600

a curious electromagnetic anomaly.

574

00:34:55,700 --> 00:34:59,960

There's a strong magnetic field in every single one

575

00:35:00,060 --> 00:35:03,560

of the 250 million tons of basalt there.

576

00:35:03,620 --> 00:35:08,960

You can take a compass and run it along these basalt blocks,

577

00:35:09,060 --> 00:35:13,560

and your compass will just spin as you move it along the blocks.

578

00:35:13,660 --> 00:35:17,100

Also, it's thought that the site itself

579

00:35:17,200 --> 00:35:21,600

is a special power spot and an energy vortex.

580

00:35:21,700 --> 00:35:25,380

And that's why Nanamadol is built there.

581

00:35:25,480 --> 00:35:31,040

And this legendary sunken city called Kana Mueso as well.

582

00:35:31,100 --> 00:35:35,500

The local population also reports many, many sightings

583

00:35:35,600 --> 00:35:40,180

of orbs and lights that have been seen hovering

584

00:35:40,280 --> 00:35:42,640

around Nanamadol.

585

00:35:42,740 --> 00:35:46,420

Is it because of the magnetic spectrum of Earth?

586

00:35:46,520 --> 00:35:49,820

And you have to wonder if through magnetism,

587

00:35:49,920 --> 00:35:52,160

the stones were transporting the first place,

588

00:35:52,260 --> 00:35:55,320

because they were transported through the air.

589

00:35:55,420 --> 00:35:57,260

Some ancient astronaut theorists

590

00:35:57,360 --> 00:36:00,560

suggest that elevated electromagnetic energy,

591

00:36:00,580 --> 00:36:04,820

present at Nanamadol, was not only a powerful tool used

592

00:36:04,920 --> 00:36:07,960

to move the giant basalt columns,

593

00:36:08,060 --> 00:36:10,020

but that it may also have been the reason

594

00:36:10,120 --> 00:36:13,200

that extraterrestrials helped the locals to build here

595

00:36:13,300 --> 00:36:14,960

in the first place.

596

00:36:15,060 --> 00:36:19,200

Could it be that there was a sacred kind of part of the site

597

00:36:19,300 --> 00:36:22,100

there where they were connecting with the gods?

598

00:36:22,200 --> 00:36:24,680

You know, not just through visionary experiences,

599

00:36:24,780 --> 00:36:26,840

but actually something in the land,

600

00:36:26,900 --> 00:36:31,300

like a magnetic hotspot or a vortex.

601

00:36:31,400 --> 00:36:35,540

We hear the word vortex in science fiction, popular culture

602

00:36:35,640 --> 00:36:36,940

all the time.

603

00:36:37,040 --> 00:36:40,440

And a vortex is just a mathematical thing

604

00:36:40,540 --> 00:36:42,680

that describes a swirling motion.

605

00:36:42,780 --> 00:36:47,080

An electromagnetic field can be formed in a vortex.

606

00:36:47,180 --> 00:36:49,260

You can create a vortex that would

607

00:36:49,360 --> 00:36:52,060

enable transporting information from somewhere else

608

00:36:52,160 --> 00:36:55,400

to here at the speed of light or faster than speed of light.

609

00:36:55,420 --> 00:36:57,220

And if there are places on the Earth

610

00:36:57,320 --> 00:37:00,200

where these types of vortexes may be stronger than others,

611

00:37:00,300 --> 00:37:03,700

you can see people going there to build structures

612

00:37:03,800 --> 00:37:07,040

that may be altered the electromagnetic field

613

00:37:07,140 --> 00:37:09,300

of the local environment.

614

00:37:09,400 --> 00:37:13,680

Was there even some kind of portal or vortex present

615

00:37:13,780 --> 00:37:16,120

in some of these sacred places?

616

00:37:16,220 --> 00:37:19,220

If that's the case, we have to question

617

00:37:19,320 --> 00:37:23,360

these principles of oracle sites,

618

00:37:23,420 --> 00:37:25,460

megalithic temples.

619

00:37:25,560 --> 00:37:28,960

Were they built to harness this, to be these communication

620

00:37:29,060 --> 00:37:32,160

portals between these different places?

621

00:37:32,260 --> 00:37:35,160

There is no question in my mind that these are much older

622

00:37:35,260 --> 00:37:37,260

sites than we think and that they

623

00:37:37,360 --> 00:37:40,300

were spots for extraterrestrial communication

624

00:37:40,400 --> 00:37:44,500

a long, long time ago.

625

00:37:44,600 --> 00:37:47,980

Is it possible that certain locations around the world

626

00:37:48,080 --> 00:37:51,780

act as vortexes of electromagnetic energy

627

00:37:51,800 --> 00:37:54,580

and that ancient people built their most sacred sites

628

00:37:54,680 --> 00:37:58,040

in these very spots in order to communicate

629

00:37:58,140 --> 00:38:00,980

with other worldly beings?

630

00:38:01,080 --> 00:38:03,380

Ancient astronaut theorists suggest

631

00:38:03,480 --> 00:38:06,920

that although this notion may sound far-fetched,

632

00:38:07,020 --> 00:38:09,860

scientists at NASA recently found evidence

633

00:38:09,960 --> 00:38:12,600

that such portals really do exist.

634

00:38:13,000 --> 00:38:18,700

Huntsville, Alabama, October 30, 2008.

635

00:38:18,800 --> 00:38:21,600

NASA makes a groundbreaking announcement

636

00:38:21,700 --> 00:38:23,400

that there is indisputable evidence

637

00:38:23,500 --> 00:38:27,500

of magnetic portals connecting the Earth and the Sun.

638

00:38:27,600 --> 00:38:30,080

These portals open every eight minutes

639

00:38:30,180 --> 00:38:32,480

and allow the transfer of high-energy particles

640

00:38:32,580 --> 00:38:35,240

between the two celestial bodies.

641

00:38:35,340 --> 00:38:37,580

So you have these two really beautiful bodies

642

00:38:37,680 --> 00:38:40,380

that are connected to the Earth and the Sun.

643

00:38:40,440 --> 00:38:42,580

So you have these two really powerful magnets,

644

00:38:42,680 --> 00:38:44,880

the Earth and the Sun, and their field lines

645

00:38:44,980 --> 00:38:46,280

are crossing each other.

646

00:38:46,380 --> 00:38:48,580

But every now and then, for whatever reason,

647

00:38:48,680 --> 00:38:50,580

we have these flux transfer events

648

00:38:50,680 --> 00:38:53,960

where the field lines will actually connect to each other.

649

00:38:54,060 --> 00:38:57,160

And they create a pathway for the magnetic field of the Sun

650

00:38:57,260 --> 00:39:00,160

to literally be connected to the magnetic field of the Earth.

651

00:39:00,260 --> 00:39:02,760

And it's even being referred to in the scientific literature

652

00:39:02,860 --> 00:39:05,160

as magnetic portals.

653

00:39:05,260 --> 00:39:07,660

We actually have a connection that

654

00:39:08,520 --> 00:39:11,760

could be a transit tube or a pathway for information

655

00:39:11,860 --> 00:39:15,920

to travel from the Sun to the Earth or vice versa.

656

00:39:16,020 --> 00:39:18,300

Ancient astronaut theorists have long

657

00:39:18,400 --> 00:39:22,160

been intrigued by the concept of electromagnetic portals,

658

00:39:22,260 --> 00:39:24,200

since in theory, they could provide

659

00:39:24,300 --> 00:39:27,840

a means of communicating or even traveling rapidly

660

00:39:27,940 --> 00:39:30,140

across the vast distances of space.

661

00:39:32,740 --> 00:39:36,540

The NASA discovery poses an intriguing question.

662

00:39:36,560 --> 00:39:39,040

Could sites around the world, where

663

00:39:39,140 --> 00:39:42,500

successive cultures built their most sacred temples,

664

00:39:42,600 --> 00:39:45,500

be locations that facilitate the creation

665

00:39:45,600 --> 00:39:46,680

of magnetic portals?

666

00:39:50,240 --> 00:39:53,540

Could a civilization with a more advanced knowledge

667

00:39:53,640 --> 00:39:55,780

of physics than we have currently

668

00:39:55,880 --> 00:40:00,220

make use of this flux transfer of these magnetic field lines

669

00:40:00,320 --> 00:40:03,920

connecting between their star and other planets?

670

00:40:04,040 --> 00:40:08,120

Could it create a means of traveling quickly from one

671

00:40:08,220 --> 00:40:09,880

point to the other between them?

672

00:40:09,980 --> 00:40:12,180

Or maybe even something else that we just

673

00:40:12,280 --> 00:40:14,720

haven't discovered yet?

674

00:40:14,820 --> 00:40:17,220

Maybe these sites were kind of manipulating

675

00:40:17,320 --> 00:40:20,220

the energies of the cosmos and the Earth

676

00:40:20,320 --> 00:40:24,360

to open these portals up for this kind of purpose.

677

00:40:24,460 --> 00:40:27,660

And what or who were they really communicating with?

678

00:40:27,760 --> 00:40:29,240

Was it really the gods?

679

00:40:29,340 --> 00:40:31,040

Was it the ancestors?

680

00:40:31,140 --> 00:40:32,640

Or was it otherworldly beings?

681

00:40:34,920 --> 00:40:39,880

Could Balbec, Temple Mount, Puma Punku, the Kori Kansha,

682

00:40:39,980 --> 00:40:42,080

and other sites around the world,

683

00:40:42,180 --> 00:40:45,920

where sacred structures have been built again and again,

684

00:40:46,020 --> 00:40:50,520

have electromagnetic properties similar to non-Madal,

685

00:40:50,620 --> 00:40:53,960

properties that could be harnessed to create gateways

686

00:40:54,060 --> 00:40:57,660

to connect with otherworldly beings?

687

00:40:57,760 --> 00:41:00,600

Over and over around the world, from the beginning of time

688

00:41:00,680 --> 00:41:05,180

to now, we see that sacred sites and power points

689

00:41:05,280 --> 00:41:08,580

have been marked by humankind.

690

00:41:08,680 --> 00:41:14,380

Temples have been built to communicate from Earth to heaven.

691

00:41:14,480 --> 00:41:18,720

Quite clearly, these places are somewhere

692

00:41:18,820 --> 00:41:20,620

that we keep coming back to.

693

00:41:20,720 --> 00:41:22,260

We call them portals.

694

00:41:22,360 --> 00:41:24,520

We call them vortexing.

695

00:41:24,620 --> 00:41:27,100

They are gateways onto another world,

696

00:41:27,200 --> 00:41:30,360

and they are very, very important, not just for human

697

00:41:31,220 --> 00:41:35,500

experience, but for evolution itself.

698

00:41:35,600 --> 00:41:39,200

Are humans drawn to certain locations on Earth?

699

00:41:39,300 --> 00:41:41,940

By a magnetic force.

700

00:41:42,040 --> 00:41:45,440

Do we build our most sacred temples on the same sites

701

00:41:45,540 --> 00:41:49,480

again and again because these locations connect us

702

00:41:49,580 --> 00:41:51,580

to the cosmos?

703

00:41:51,680 --> 00:41:55,780

Perhaps as we continue to unearth even more ancient ruins,

704

00:41:55,880 --> 00:41:58,960

we will come to better understand our connection

705

00:41:58,960 --> 00:42:05,860

to the universe and the truth about our extraterrestrial past.
