

1

00:00:00,000 --> 00:00:03,940

Extraordinary accounts of missing time.

2

00:00:04,040 --> 00:00:06,880

Once the aircraft penetrated the tunnel,

3

00:00:06,980 --> 00:00:09,780

time started changing instantly.

4

00:00:09,880 --> 00:00:14,880

It only took three minutes and 20 seconds to fly 100 miles.

5

00:00:14,980 --> 00:00:19,220

Other worldly events that seemed to alter reality

6

00:00:19,320 --> 00:00:21,400

seemed like everything was going in slow motion,

7

00:00:21,500 --> 00:00:23,300

like everything was slowing down.

8

00:00:23,400 --> 00:00:28,140

Sightings of strange craft changing location instantaneously.

9

00:00:28,200 --> 00:00:33,880

These vehicles are able to pop in and pop out of either time

10

00:00:33,980 --> 00:00:36,180

or another dimension.

11

00:00:36,280 --> 00:00:39,520

Could extraterrestrials have mastered the ability

12

00:00:39,620 --> 00:00:41,980

to travel through time?

13

00:00:42,080 --> 00:00:46,420

Is Earth being visited not only by entities from other planets,

14

00:00:46,520 --> 00:00:51,800

but also from the future or even the distant past?

15

00:00:51,900 --> 00:00:54,860

Perhaps an alien civilization in outer space.

16

00:00:54,960 --> 00:00:57,340

Thousands of years more advanced than us.

17

00:00:57,360 --> 00:00:59,440

May be able to time travel.

18

00:01:04,040 --> 00:01:08,540

There is a doorway in the universe.

19

00:01:08,640 --> 00:01:12,920

Beyond it is the promise of truth.

20

00:01:13,020 --> 00:01:18,060

It demands we question everything we have ever been taught.

21

00:01:18,160 --> 00:01:21,520

The evidence is all around us.

22

00:01:21,620 --> 00:01:25,560

The future is right before our eyes.

23

00:01:25,820 --> 00:01:28,520

We are not alone.

24

00:01:28,620 --> 00:01:31,160

We have never been alone.

25

00:01:43,260 --> 00:01:46,500

Mount Pion, Turkey.

26

00:01:46,600 --> 00:01:50,740

Here, where the ancient Greek city of Ephesus once stood,

27

00:01:50,840 --> 00:01:54,440

lie the ruins of a religious site known as the grotto

28

00:01:54,460 --> 00:01:56,660

of the Seven Sleepers.

29

00:01:56,760 --> 00:01:59,200

The grotto is thought to be the location

30

00:01:59,300 --> 00:02:02,540

where many centuries ago a group of seven men

31

00:02:02,640 --> 00:02:06,540

experienced a shift in time.

32

00:02:06,640 --> 00:02:08,340

In the Christian and Islamic story

33

00:02:08,440 --> 00:02:10,580

of the Seven Sleepers of Ephesus,

34

00:02:10,680 --> 00:02:14,420

we learn the amazing story of seven warriors who professed

35

00:02:14,520 --> 00:02:18,160

Christianity in 250 AD when it was just beginning

36

00:02:18,260 --> 00:02:21,760

to emerge as a new religion.

37

00:02:22,520 --> 00:02:26,080

The Roman emperor offered these warriors an opportunity

38

00:02:26,180 --> 00:02:29,860

to recant and to disavow their Christianity.

39

00:02:29,960 --> 00:02:32,560

Instead, they decide to sell all their possessions

40

00:02:32,660 --> 00:02:34,860

and go into a cave.

41

00:02:34,960 --> 00:02:37,500

And in response, the emperor decides

42

00:02:37,600 --> 00:02:42,640

to seal this cave with the sleepers inside of it.

43

00:02:42,740 --> 00:02:47,540

Several hundred years go by, and a shepherd

44

00:02:47,640 --> 00:02:51,180

chances upon this cave.

45

00:02:51,680 --> 00:02:56,840

And he breaks down the wall, and the seven people

46

00:02:56,940 --> 00:03:00,140

inside the cave have been sleeping for hundreds of years.

47

00:03:00,240 --> 00:03:02,820

And it's now 300 years later.

48

00:03:02,920 --> 00:03:07,060

And they're still alive, these seven sleepers.

49

00:03:07,160 --> 00:03:10,700

These sleepers then go into Ephesus,

50

00:03:10,800 --> 00:03:12,500

and nothing looks the same.

51

00:03:12,600 --> 00:03:15,360

Something they noticed is that there are Christian crosses

52

00:03:15,460 --> 00:03:20,300

everywhere because by now Christianity is taken over.

53

00:03:20,360 --> 00:03:22,400

The Seven Sleepers of Ephesus, you think, OK,

54

00:03:22,500 --> 00:03:23,760

is it that there's a miracle here?

55

00:03:23,860 --> 00:03:28,040

Or have they been in a place where the timeline has shifted?

56

00:03:28,140 --> 00:03:31,140

And so what seems 300 years to them

57

00:03:31,240 --> 00:03:34,740

has been a much shorter amount of time.

58

00:03:34,840 --> 00:03:38,340

While many scholars regard this story as fictional,

59

00:03:38,440 --> 00:03:40,320

millions of Christians and Muslims

60

00:03:40,420 --> 00:03:43,020

believe a true miracle took place,

61

00:03:43,120 --> 00:03:47,920

and that these seven warriors were transported into the future.

62

00:03:47,980 --> 00:03:51,720

In fact, hundreds of graves have been found at the grotto

63

00:03:51,820 --> 00:03:54,120

dating back to the fifth century,

64

00:03:54,220 --> 00:03:56,420

along with inscriptions indicating

65

00:03:56,520 --> 00:03:58,360

that people were buried there because it

66

00:03:58,460 --> 00:04:01,660

was considered a location of great power.

67

00:04:01,760 --> 00:04:05,300

Today, it remains a popular pilgrimage site,

68

00:04:05,400 --> 00:04:09,000

serving as a testament to humankind's preoccupation

69

00:04:09,100 --> 00:04:12,040

with one of the most significant and least understood

70

00:04:12,140 --> 00:04:16,040

forces in the universe, time.

71

00:04:16,140 --> 00:04:17,240

What is time?

72

00:04:17,300 --> 00:04:18,460

That's a great question.

73

00:04:18,560 --> 00:04:21,360

It's a fundamental question.

74

00:04:21,460 --> 00:04:26,100

We all normally live along the straight line of time

75

00:04:26,200 --> 00:04:28,440

from the past, present, to the future.

76

00:04:28,540 --> 00:04:30,980

But the question is, is there a way around that?

77

00:04:31,080 --> 00:04:34,080

A way to travel through time.

78

00:04:34,180 --> 00:04:36,340

Time is important to us.

79

00:04:36,440 --> 00:04:39,120

The passage of time is an item of grief

80

00:04:39,220 --> 00:04:41,880

that we all know is universal.

81

00:04:41,980 --> 00:04:46,920

We have a kind of longing to defeat time.

82

00:04:47,700 --> 00:04:49,620

Why has time travel stuck around for so long

83

00:04:49,720 --> 00:04:51,120

in human consciousness?

84

00:04:51,220 --> 00:04:54,620

I think this idea that you can go into the ancient past

85

00:04:54,720 --> 00:04:57,500

or travel into the future is the ultimate trip.

86

00:05:01,540 --> 00:05:04,540

The notion of breaking free from the seemingly inescapable

87

00:05:04,640 --> 00:05:08,240

bonds of time has existed in the human imagination

88

00:05:08,340 --> 00:05:10,280

for centuries.

89

00:05:10,380 --> 00:05:12,680

But modern concepts of time travel

90

00:05:12,780 --> 00:05:15,880

are largely credited to science fiction author H.G.

91

00:05:15,940 --> 00:05:20,380

Wells, who in his 1895 book, *The Time Machine*,

92

00:05:20,480 --> 00:05:22,840

speculated as to how time travel might

93

00:05:22,940 --> 00:05:25,820

be scientifically possible.

94

00:05:25,920 --> 00:05:28,220

H.G. Wells began to say to himself,

95

00:05:28,320 --> 00:05:33,260

if we can move in space, why can't we move in time?

96

00:05:33,360 --> 00:05:38,100

And that's the beginning of his novel, The Time Machine.

97

00:05:38,200 --> 00:05:41,360

H.G. Wells said it takes three coordinates

98

00:05:41,460 --> 00:05:43,500

to locate an object in space.

99

00:05:43,560 --> 00:05:46,560

Time, therefore, is the fourth dimension.

100

00:05:46,660 --> 00:05:49,860

We need four coordinates to identify any event

101

00:05:49,960 --> 00:05:52,560

in our universe.

102

00:05:52,660 --> 00:05:58,440

H.G. Wells talked about the idea that space and time were

103

00:05:58,540 --> 00:06:00,380

somehow linked together.

104

00:06:00,480 --> 00:06:03,480

And the protagonist of the book was

105

00:06:03,580 --> 00:06:07,280

able to go at will anytime into the future

106

00:06:07,380 --> 00:06:10,720

or anytime into the past to actually experience

107

00:06:10,820 --> 00:06:11,980

and see what was going on.

108

00:06:13,560 --> 00:06:17,500

Could humankind one day be able to travel back in time

109

00:06:17,600 --> 00:06:19,760

or even into the future?

110

00:06:19,860 --> 00:06:23,160

Incredibly, just a decade after the publication

111

00:06:23,260 --> 00:06:25,800

of The Time Machine, Albert Einstein

112

00:06:25,900 --> 00:06:29,340

proposed a similar vision of time travel.

113

00:06:29,440 --> 00:06:35,540

H.G. Wells in 1895 mentioned the idea of time and space

114

00:06:35,640 --> 00:06:38,180

being connected.

115

00:06:38,280 --> 00:06:40,820

This is interesting because Albert Einstein came up

116

00:06:40,920 --> 00:06:42,820

with a theory of relativity, where

117

00:06:42,880 --> 00:06:47,720

he also proposed that time and space are connected.

118

00:06:47,820 --> 00:06:51,520

Time used to be thought of in Newtonian classical physics

119

00:06:51,620 --> 00:06:53,020

as something absolute.

120

00:06:53,120 --> 00:06:54,020

It didn't change.

121

00:06:54,120 --> 00:06:55,860

It was the same for everybody everywhere.

122

00:06:55,960 --> 00:06:58,460

Einstein came along in 1905, published a paper

123

00:06:58,560 --> 00:07:01,200

on special relativity, and demonstrated

124

00:07:01,300 --> 00:07:03,840

that time is actually relative.

125

00:07:03,940 --> 00:07:06,280

Now, in Einstein's theory, space and time

126

00:07:06,380 --> 00:07:07,300

are linked to each other.

127

00:07:07,400 --> 00:07:08,940

That's why it's called space-time.

128

00:07:09,040 --> 00:07:12,240

Whatever you do to space also happens to time.

129

00:07:12,260 --> 00:07:15,540

A rotating black hole can cause a twisting of space.

130

00:07:15,640 --> 00:07:18,300

Time is linked to space.

131

00:07:18,400 --> 00:07:22,340

So if I'm twisting space, I can twist time.

132

00:07:22,440 --> 00:07:25,180

Mathematically, this has been shown.

133

00:07:25,280 --> 00:07:28,180

I can travel from the future back into the past.

134

00:07:31,120 --> 00:07:34,080

We haven't been able to do it yet experimentally,

135

00:07:34,180 --> 00:07:36,360

but it's a real part of Einstein's general theory

136

00:07:36,460 --> 00:07:38,660

of relativity.

137

00:07:38,680 --> 00:07:42,760

Is it possible that space-time can be manipulated to travel

138

00:07:42,860 --> 00:07:44,520

into the past?

139

00:07:44,620 --> 00:07:47,660

And if so, how close is modern science

140

00:07:47,760 --> 00:07:49,700

to achieving such an incredible feat?

141

00:07:52,440 --> 00:07:56,880

The University of Connecticut, 2021.

142

00:07:56,980 --> 00:08:00,640

Theoretical physicist and professor Dr. Ronald Mallett

143

00:08:00,740 --> 00:08:03,080

works closely with a team of researchers

144

00:08:03,180 --> 00:08:06,780

on a project to realize his lifelong dream.

145

00:08:06,840 --> 00:08:10,080

The creation of a time machine.

146

00:08:10,180 --> 00:08:12,840

By using a mechanism called a ring laser,

147

00:08:12,940 --> 00:08:16,680

Dr. Mallett believes that he can manipulate the fabric of space

148

00:08:16,780 --> 00:08:20,360

and time to create a door that can open to the past.

149

00:08:22,860 --> 00:08:25,860

What I did was I solved Einstein's gravitational field

150

00:08:25,960 --> 00:08:30,060

equations, and I was able to show that a circulating beam

151

00:08:30,160 --> 00:08:34,400

of laser light will cause a twisting of space.

152

00:08:34,460 --> 00:08:35,720

There is a device.

153

00:08:35,820 --> 00:08:37,120

It's called a ring laser.

154

00:08:37,220 --> 00:08:42,060

All it is is a device that causes light to move around in a loop.

155

00:08:42,160 --> 00:08:44,260

You can get it to do that in a number of different ways,

156

00:08:44,360 --> 00:08:46,300

balancing off mirrors, for example.

157

00:08:46,400 --> 00:08:50,140

And I was able to show that a circulating beam of laser

158

00:08:50,240 --> 00:08:52,840

light will cause a twisting of space.

159

00:08:52,940 --> 00:08:56,540

What I was able to show further is that if this twisting of space

160

00:08:56,640 --> 00:09:00,380

was strong enough, it could lead to time being twisted

161

00:09:00,480 --> 00:09:01,620

into a loop.

162

00:09:01,720 --> 00:09:03,280

And these loops in time could allow

163

00:09:03,300 --> 00:09:06,240

for the possibility of time travel in the past.

164

00:09:06,340 --> 00:09:08,780

This is all anchored in Einstein's general theory

165

00:09:08,880 --> 00:09:11,280

of relativity.

166

00:09:11,380 --> 00:09:15,620

While Dr. Mallett's time machine may be theoretically sound,

167

00:09:15,720 --> 00:09:18,720

one major hurdle stands in his way,

168

00:09:18,820 --> 00:09:22,120

harnessing massive amounts of energy.

169

00:09:22,220 --> 00:09:25,000

The real constraint with a time machine at the moment

170

00:09:25,100 --> 00:09:26,960

is the energy involved, because you

171

00:09:27,060 --> 00:09:30,340

have to bend the dimension that's time.

172

00:09:30,400 --> 00:09:34,460

The energy at which you can create a gateway through space

173

00:09:34,560 --> 00:09:37,740

and time is called the Planck energy.

174

00:09:37,840 --> 00:09:41,940

The Planck energy is a quadrillion times more powerful

175

00:09:42,040 --> 00:09:48,180

than our most powerful machine, the large Hadron Collider.

176

00:09:48,280 --> 00:09:51,680

We're talking about the energy of a star, perhaps

177

00:09:51,780 --> 00:09:54,520

an alien civilization and not a space.

178

00:09:54,620 --> 00:09:57,020

Thousands of years more advanced than us

179

00:09:57,120 --> 00:09:59,860

may be able to access the Planck energy

180

00:09:59,920 --> 00:10:03,160

that cannot be ruled out.

181

00:10:03,260 --> 00:10:06,760

If extraterrestrial civilizations have the technology

182

00:10:06,860 --> 00:10:09,460

to traverse the vast distances of space,

183

00:10:09,560 --> 00:10:12,460

as ancient astronaut theorists suggest,

184

00:10:12,560 --> 00:10:14,500

might they have also mastered the ability

185

00:10:14,600 --> 00:10:17,260

to travel through time?

186

00:10:17,360 --> 00:10:19,340

Perhaps further clues can be found

187

00:10:19,440 --> 00:10:22,480

by examining incredible stories of time travel

188

00:10:22,580 --> 00:10:25,580

found in some of the earliest texts ever written.

189

00:10:30,860 --> 00:10:35,860

Houston, Texas, 2016.

190

00:10:35,960 --> 00:10:39,760

After a record-breaking 340 days aboard the International

191

00:10:39,860 --> 00:10:42,660

Space Station, astronaut Scott Kelly

192

00:10:42,760 --> 00:10:46,800

returns to the NASA Johnson Space Center.

193

00:10:46,900 --> 00:10:49,780

The mission was designed to help researchers understand

194

00:10:49,880 --> 00:10:54,580

the effects of long-term spaceflight on the human body.

195

00:10:54,680 --> 00:10:58,020

Scott's identical twin brother and former astronaut,

196

00:10:58,040 --> 00:11:03,120

Mark Kelly, remained on Earth to serve as the control subject.

197

00:11:03,220 --> 00:11:07,220

While Scott was in space, his immune system was more active.

198

00:11:07,320 --> 00:11:11,120

His vision deteriorated, and he lost more bone mass

199

00:11:11,220 --> 00:11:12,920

compared to Mark.

200

00:11:13,020 --> 00:11:15,100

But perhaps the most significant difference

201

00:11:15,200 --> 00:11:19,440

was that for Scott, time had slowed down.

202

00:11:19,540 --> 00:11:24,200

When they measured the aging acceleration of Scott Kelly

203

00:11:24,220 --> 00:11:27,960

and Mark Kelly, the twins, it turns out

204

00:11:28,060 --> 00:11:35,600

that Scott was 0.5 milliseconds younger than Mark.

205

00:11:35,700 --> 00:11:38,100

And so what's going on here?

206

00:11:38,200 --> 00:11:41,740

So that actually fits with time dilation.

207

00:11:41,840 --> 00:11:44,920

It's a phenomena that we have observed to be real,

208

00:11:45,020 --> 00:11:47,680

that the closer you go to the speed of light,

209

00:11:47,780 --> 00:11:50,680

the more time slows down for you.

210

00:11:50,780 --> 00:11:53,180

According to Einstein's theory, especially

211

00:11:53,240 --> 00:11:59,040

relativity, the faster you move, the slower time gets.

212

00:11:59,140 --> 00:12:02,640

So if you have a telescope and could look inside a rocket ship

213

00:12:02,740 --> 00:12:04,680

speeding near the speed of light,

214

00:12:04,780 --> 00:12:08,720

everyone inside that rocket would be frozen,

215

00:12:08,820 --> 00:12:12,260

moving at a different rate in time.

216

00:12:12,360 --> 00:12:15,300

Given that the space station orbits around the planet Earth

217

00:12:15,400 --> 00:12:19,060

at about 17,500 miles per hour, you

218

00:12:19,160 --> 00:12:21,900

can actually calculate how slow time must

219

00:12:21,920 --> 00:12:24,460

beat on the space station.

220

00:12:24,560 --> 00:12:28,560

And so we can actually measure this effect in the laboratory.

221

00:12:28,660 --> 00:12:31,060

Imagine in the future when we have rockets that

222

00:12:31,160 --> 00:12:33,300

can go close to the speed of light.

223

00:12:33,400 --> 00:12:35,940

They could find that days, maybe years,

224

00:12:36,040 --> 00:12:38,600

had passed for the people on board the rocket.

225

00:12:38,700 --> 00:12:40,880

But when they come back, they would find out

226

00:12:40,980 --> 00:12:43,940

that decades had passed here on the Earth.

227

00:12:44,040 --> 00:12:47,220

They could come back and find that they are younger

228

00:12:47,320 --> 00:12:48,880

than their children.

229

00:12:48,980 --> 00:12:51,380

Time travel to the future is real.

230

00:12:51,440 --> 00:12:55,880

We've seen the baby steps of it, but it has happened.

231

00:12:55,980 --> 00:12:59,880

If space travel has revealed to humankind the possibilities

232

00:12:59,980 --> 00:13:02,420

that exist for manipulating time,

233

00:13:02,520 --> 00:13:05,280

is it possible that somewhere in the vast expanse

234

00:13:05,380 --> 00:13:08,120

of the universe, other intelligent beings

235

00:13:08,220 --> 00:13:10,820

have advanced to the point where they are able to move

236

00:13:10,920 --> 00:13:15,360

through time as easily as space?

237

00:13:15,460 --> 00:13:17,700

Ancient astronaut theorists believe

238

00:13:17,800 --> 00:13:20,400

evidence can be found in ancient texts

239

00:13:20,460 --> 00:13:23,520

that our ancestors may have already witnessed,

240

00:13:23,620 --> 00:13:27,260

or even experienced, the bending of time.

241

00:13:27,360 --> 00:13:29,100

There's this wonderful book of stories,

242

00:13:29,200 --> 00:13:32,700

an epic in Hindu culture, the Mahabharata,

243

00:13:32,800 --> 00:13:35,800

written in the third century before the common era.

244

00:13:35,900 --> 00:13:38,100

But this was writing down oral traditions that

245

00:13:38,200 --> 00:13:40,040

were much, much older than that.

246

00:13:40,140 --> 00:13:43,480

And one of the tales is when King Raveta goes up

247

00:13:43,580 --> 00:13:47,480

into the heavens and meets God, the great creator God Brahma

248

00:13:47,580 --> 00:13:48,780

himself.

249

00:13:49,540 --> 00:13:54,440

King Raveta was actually taken into the heavens in a chariot

250

00:13:54,540 --> 00:13:57,740

to visit this gigantic palace that

251

00:13:57,840 --> 00:14:00,180

was in the celestial realm.

252

00:14:00,280 --> 00:14:04,480

And when King Raveta came back, much to his surprise,

253

00:14:04,580 --> 00:14:08,020

he did not recognize a single person that

254

00:14:08,120 --> 00:14:09,420

was in his neighborhood.

255

00:14:09,520 --> 00:14:14,660

In fact, it turns out that he had returned hundreds of years

256

00:14:14,760 --> 00:14:16,000

later.

257

00:14:16,100 --> 00:14:17,860

Now, how is such a thing even possible?

258

00:14:18,860 --> 00:14:23,120

Here we have what is perhaps the first story of time

259

00:14:23,220 --> 00:14:27,260

dilation, where someone has gone up into space,

260

00:14:27,360 --> 00:14:32,860

and say a spaceship, and all this time has passed,

261

00:14:32,960 --> 00:14:37,800

which is exactly what Einstein had talked about in 1905,

262

00:14:37,900 --> 00:14:42,640

only this is a story from thousands of years ago.

263

00:14:42,740 --> 00:14:46,680

Could King Raveta's experience be a historical account

264

00:14:47,680 --> 00:14:53,040

of a time dilation event that occurred thousands of years ago?

265

00:14:53,140 --> 00:14:56,080

For ancient astronaut theorists, this possibility

266

00:14:56,180 --> 00:14:59,080

is made stronger when considering the fact that

267

00:14:59,180 --> 00:15:02,680

similar stories were told in other parts of the world,

268

00:15:02,780 --> 00:15:05,920

like in Egypt, where ancient hieroglyphs describe

269

00:15:06,020 --> 00:15:11,260

a celestial craft called the solar barge of Ra.

270

00:15:11,360 --> 00:15:13,900

There are many references in ancient Egypt

271

00:15:14,160 --> 00:15:19,300

about Ra's solar barge, which was this vehicle that they

272

00:15:19,400 --> 00:15:23,300

described that they saw cross the sky.

273

00:15:23,400 --> 00:15:29,480

This solar barge is also known as the ship of a million years.

274

00:15:29,580 --> 00:15:32,720

According to an ancient document known as the Turin

275

00:15:32,820 --> 00:15:36,580

King List, which contains a record of all Egyptian rulers

276

00:15:36,680 --> 00:15:41,120

up until 1300 BC, the earliest pharaohs

277

00:15:41,380 --> 00:15:45,420

lived for hundreds or even thousands of years.

278

00:15:45,520 --> 00:15:47,180

These were the pharaohs who were said

279

00:15:47,280 --> 00:15:51,620

to have journeyed to the stars on the solar barge of Ra.

280

00:15:51,720 --> 00:15:54,820

You look at some of these records from the Egyptians,

281

00:15:54,920 --> 00:15:56,120

and you think, well, OK, if there

282

00:15:56,220 --> 00:15:58,460

is this phenomenon of time dilation,

283

00:15:58,560 --> 00:16:01,500

if these pharaohs really are traveling on craft

284

00:16:01,600 --> 00:16:05,000

at very high speeds, then when they come back,

285

00:16:05,100 --> 00:16:07,800

they're still young, the earth has aged tremendously,

286

00:16:07,900 --> 00:16:10,400

and so is that part of it?

287

00:16:10,460 --> 00:16:12,400

Is that how you have pharaohs that

288

00:16:12,500 --> 00:16:14,520

lived hundreds of years?

289

00:16:14,620 --> 00:16:17,100

You see this effect that we now call time dilation

290

00:16:17,200 --> 00:16:20,160

in various ancient cultures.

291

00:16:20,260 --> 00:16:23,900

There is an artifact at the Ashmolean Museum in Oxford,

292

00:16:24,000 --> 00:16:30,480

England that is called the WB44 Kings List of Ancient Sumeria.

293

00:16:30,580 --> 00:16:35,840

It lists the exact reigning periods of all the kings

294

00:16:35,940 --> 00:16:37,880

of ancient Sumeria.

295

00:16:38,460 --> 00:16:45,300

The total is 266,000 years, and there

296

00:16:45,400 --> 00:16:50,300

are crazy reigning periods that are recorded very specifically,

297

00:16:50,400 --> 00:16:57,000

and I think they knew perfectly well how to record time.

298

00:16:57,100 --> 00:16:59,240

You have these figures in the Bible

299

00:16:59,340 --> 00:17:01,080

that live for hundreds of years.

300

00:17:01,180 --> 00:17:05,480

The oldest figure in the Bible is Mthuselah,

301

00:17:05,520 --> 00:17:08,320

the grandfather of Noah, and he dies.

302

00:17:08,420 --> 00:17:12,660

The Bible tells us the age of 969.

303

00:17:12,760 --> 00:17:16,960

According to the Hebrew Bible, Mthuselah's father, Enoch,

304

00:17:17,060 --> 00:17:19,960

left the earth in a fiery chariot

305

00:17:20,060 --> 00:17:23,800

and was 365 years old when God chose for him

306

00:17:23,900 --> 00:17:27,840

to remain in the heavenly realm.

307

00:17:27,940 --> 00:17:31,380

All other pre-flood patriarchs are recorded as living

308

00:17:31,480 --> 00:17:34,480

for more than 700 years.

309

00:17:34,480 --> 00:17:37,420

Certainly one way that they would be able to have

310

00:17:37,520 --> 00:17:40,060

these incredibly extended lives would

311

00:17:40,160 --> 00:17:43,760

be that they are traveling through space and coming back,

312

00:17:43,860 --> 00:17:49,100

and therefore 400, 900 years can go by,

313

00:17:49,200 --> 00:17:53,800

and that's essentially their age on earth.

314

00:17:53,900 --> 00:17:58,340

These concepts should not be described by our ancestors

315

00:17:58,440 --> 00:18:02,340

because it should have exceeded their knowledge at the time.

316

00:18:02,400 --> 00:18:06,240

But the fact that multiple stories exist where someone

317

00:18:06,340 --> 00:18:12,580

wakes up or gets returned hundreds of years after certain events,

318

00:18:12,680 --> 00:18:13,880

that's strange.

319

00:18:16,780 --> 00:18:20,480

Could these stories be historical accounts of ancient people

320

00:18:20,580 --> 00:18:23,260

experiencing time dilation after traveling

321

00:18:23,360 --> 00:18:26,700

aboard alien spacecraft?

322

00:18:26,800 --> 00:18:30,060

Ancient astronaut theorists say yes

323

00:18:30,120 --> 00:18:34,160

and suggest other accounts, both ancient and modern,

324

00:18:34,260 --> 00:18:37,300

may reveal that extraterrestrials have the ability

325

00:18:37,400 --> 00:18:41,300

to manipulate time in even more extraordinary ways.

326

00:18:47,300 --> 00:18:53,340

And over England, 1935, Royal Air Force Wing Commander Sir

327

00:18:53,440 --> 00:18:56,340

Robert Victor Goddard is dispatched

328

00:18:56,400 --> 00:18:59,440

to inspect an old, disused airfield near Edinburgh,

329

00:18:59,540 --> 00:19:01,100

Scotland.

330

00:19:01,200 --> 00:19:05,100

Sir Robert Victor Goddard was flying over an airfield

331

00:19:05,200 --> 00:19:09,440

to survey and see if the airfield could be used in the future.

332

00:19:09,540 --> 00:19:12,080

And while he's flying over, he knows there's cracks in the air

333

00:19:12,180 --> 00:19:13,940

field and there's grass growing up and cows

334

00:19:14,040 --> 00:19:15,520

are eating the grass and so on.

335

00:19:15,620 --> 00:19:18,520

He's flying home, and he gets kind of lost or turned around

336

00:19:18,620 --> 00:19:20,180

a bit in a storm.

337

00:19:20,280 --> 00:19:24,420

So he decides to fly back to where he was to get up airing.

338

00:19:24,480 --> 00:19:29,740

On the return journey, he encountered very strange yellow

339

00:19:29,840 --> 00:19:32,880

and brown clouds.

340

00:19:32,980 --> 00:19:37,720

Almost like he entered into some kind of otherworldly portal.

341

00:19:37,820 --> 00:19:43,460

And he came out of there and found himself in bright sunlight.

342

00:19:43,560 --> 00:19:48,700

And going over the same airfield, everything was renovated.

343

00:19:48,800 --> 00:19:52,800

And there were aircraft out there on the tarmac,

344

00:19:52,860 --> 00:19:54,960

but they were painted yellow.

345

00:19:55,060 --> 00:20:00,760

And there were people tending these aircraft dressed in blue.

346

00:20:00,860 --> 00:20:04,540

When Goddard landed and told his colleagues what he saw,

347

00:20:04,640 --> 00:20:07,280

they insisted it was not possible,

348

00:20:07,380 --> 00:20:10,880

since RAF planes were painted silver at that time

349

00:20:10,980 --> 00:20:15,180

and mechanics uniforms were tan-colored.

350

00:20:15,280 --> 00:20:18,720

However, just a few years later, the RAF

351

00:20:18,820 --> 00:20:21,280

changed the color of both their training planes

352

00:20:21,340 --> 00:20:24,500

and mechanics uniforms, which Goddard witnessed

353

00:20:24,600 --> 00:20:29,440

when he flew over Drem airfield again in 1939.

354

00:20:29,540 --> 00:20:36,480

He's making another flight and realizes there are the planes.

355

00:20:36,580 --> 00:20:39,680

At Drem, they are painting them yellow.

356

00:20:39,780 --> 00:20:42,520

The people have on blue uniforms.

357

00:20:42,620 --> 00:20:47,160

It is exactly what he remembered seeing when he came out

358

00:20:47,240 --> 00:20:54,140

from beyond this yellow cloud four years before in 1935.

359

00:20:54,240 --> 00:20:58,240

Some people have suggested that Victor Goddard's experience

360

00:20:58,340 --> 00:21:00,380

could be extraterrestrial in nature,

361

00:21:00,480 --> 00:21:04,120

and that just maybe he was thrust through time

362

00:21:04,220 --> 00:21:09,280

by yellow and brown cloud that he encountered.

363

00:21:09,380 --> 00:21:13,660

There are many examples of these weird clouds

364

00:21:13,720 --> 00:21:17,860

being encountered in different parts of the world.

365

00:21:17,960 --> 00:21:20,360

Ancient astronaut theorists propose

366

00:21:20,460 --> 00:21:23,100

that an alien civilization advanced enough

367

00:21:23,200 --> 00:21:25,700

to achieve interstellar travel may also

368

00:21:25,800 --> 00:21:29,840

possess the technology to create portals through time.

369

00:21:29,940 --> 00:21:32,240

And they suggest further evidence

370

00:21:32,340 --> 00:21:34,980

that such gateways have been established here on Earth

371

00:21:35,080 --> 00:21:38,980

can be found by examining the extraordinary events that

372

00:21:39,040 --> 00:21:42,580

have occurred in the Bermuda Triangle.

373

00:21:45,680 --> 00:21:51,080

The Bahamas, December 4, 1970.

374

00:21:51,180 --> 00:21:54,860

At 3 o'clock in the afternoon, pilot Bruce Gernon

375

00:21:54,960 --> 00:21:58,560

departs from Andros Island bound for Palm Beach, Florida,

376

00:21:58,660 --> 00:22:01,700

just north of Miami.

377

00:22:01,800 --> 00:22:04,560

It's a route that he's flown many times before

378

00:22:04,660 --> 00:22:06,600

without incident.

379

00:22:06,660 --> 00:22:10,900

But this flight will be unlike any other.

380

00:22:11,000 --> 00:22:16,400

Since I've been flying for 47 years now,

381

00:22:16,500 --> 00:22:20,580

I've had a lot of flights in that area.

382

00:22:20,680 --> 00:22:23,940

But this experience, I'll never forget.

383

00:22:24,040 --> 00:22:26,540

I'll start at the 100 miles east of Miami

384

00:22:26,640 --> 00:22:33,760

when I found myself surrounded by this strange storm.

385

00:22:33,820 --> 00:22:37,380

Time started changing instantly.

386

00:22:37,480 --> 00:22:40,960

And I believe I actually got to see the fabric of time

387

00:22:41,060 --> 00:22:46,460

itself as I watched the tunnel rotate.

388

00:22:46,560 --> 00:22:51,240

When I reached the other end, the tunnel collapsed.

389

00:22:51,340 --> 00:22:55,840

And I reached the shoreline of Miami Beach.

390

00:22:55,940 --> 00:22:59,740

It only took three minutes and 20 seconds

391

00:22:59,840 --> 00:23:02,020

to fly 100 miles.

392

00:23:02,080 --> 00:23:08,680

I should have been able to fly only 10 miles approximately,

393

00:23:08,780 --> 00:23:11,880

not 100 miles.

394

00:23:11,980 --> 00:23:14,320

I think that what he must have experienced

395

00:23:14,420 --> 00:23:17,020

is perhaps some kind of a time shift,

396

00:23:17,120 --> 00:23:20,160

or he entered into an anomalous vortex

397

00:23:20,260 --> 00:23:23,260

that perhaps was some kind of a time portal.

398

00:23:23,360 --> 00:23:29,100

We don't know, but it's a very curious example of time travel.

399

00:23:29,360 --> 00:23:32,560

Could it be that the route Bruce Gernon traveled led him

400

00:23:32,660 --> 00:23:35,260

into a portal through time?

401

00:23:35,360 --> 00:23:38,500

As far as ancient astronaut theorists are concerned,

402

00:23:38,600 --> 00:23:42,200

this incredible possibility is even more intriguing

403

00:23:42,300 --> 00:23:46,940

because of the area where it happened, the Bermuda Triangle.

404

00:23:47,040 --> 00:23:52,880

The Bermuda Triangle is really located off of Florida.

405

00:23:52,980 --> 00:23:56,180

The northern point of it is the island of Bermuda.

406

00:23:56,240 --> 00:23:59,640

It then goes down to essentially southern Florida

407

00:23:59,740 --> 00:24:01,840

and then out into the Bahamas.

408

00:24:01,940 --> 00:24:04,940

And this is an area that has historically

409

00:24:05,040 --> 00:24:07,380

had strange phenomenon.

410

00:24:07,480 --> 00:24:10,180

While Gernon was fortunate enough to have survived

411

00:24:10,280 --> 00:24:14,020

his harrowing experience, many ships and aircraft traveling

412

00:24:14,120 --> 00:24:17,560

through this region have disappeared without a trace.

413

00:24:21,760 --> 00:24:25,560

In one extraordinary case that occurred on December 5,

414

00:24:25,680 --> 00:24:31,920

1945, five Navy Avenger torpedo bombers known as Flight 19

415

00:24:32,020 --> 00:24:36,020

all went missing at the same time.

416

00:24:36,120 --> 00:24:40,760

All five of their compasses were not working correctly,

417

00:24:40,860 --> 00:24:43,060

and they had two navigational instruments

418

00:24:43,160 --> 00:24:45,260

that they could use, and they were not working properly

419

00:24:45,360 --> 00:24:47,760

either.

420

00:24:47,860 --> 00:24:50,600

The planes disappeared from radar,

421

00:24:50,700 --> 00:24:53,800

and their last communication consisted of nothing,

422

00:24:53,800 --> 00:24:54,900

but iristatic.

423

00:24:58,340 --> 00:25:01,540

The Navy immediately sent a team to search for the missing

424

00:25:01,640 --> 00:25:04,780

bombers, but they never recovered any debris.

425

00:25:08,240 --> 00:25:14,120

Is it possible that the Bermuda Triangle is subject

426

00:25:14,220 --> 00:25:20,620

to portals or vortexes that create these mysteries?

427

00:25:21,120 --> 00:25:25,080

What we do know is that it is a place of intensive

428

00:25:25,180 --> 00:25:28,620

electromagnetic activity, and this

429

00:25:28,720 --> 00:25:31,480

is something that we can tell from the fact

430

00:25:31,580 --> 00:25:36,960

that so many aircraft and ships experience problems

431

00:25:37,060 --> 00:25:38,700

with their instrumentation.

432

00:25:41,400 --> 00:25:45,000

Mike the Bermuda Triangle, being a electromagnetic hotspot,

433

00:25:45,100 --> 00:25:50,500

were portals capable of manipulating time, open and close.

434

00:25:50,500 --> 00:25:53,620

Ancient astronaut theorists say yes,

435

00:25:53,720 --> 00:25:57,000

and they believe that these portals may help explain

436

00:25:57,100 --> 00:26:00,800

some of the strange, otherworldly activity reported

437

00:26:00,900 --> 00:26:03,140

in the area.

438

00:26:03,240 --> 00:26:08,100

Many UFO sightings and more modern UAP videos

439

00:26:08,200 --> 00:26:11,640

that have been released show unusual flight dynamics

440

00:26:11,740 --> 00:26:14,640

and capabilities of these whatever they are.

441

00:26:14,740 --> 00:26:17,840

Well, it may be they're creating portals in our universe

442

00:26:17,840 --> 00:26:20,680

and in our time, in our space that they can move in and out

443

00:26:20,780 --> 00:26:22,640

of at will.

444

00:26:22,740 --> 00:26:24,920

There's no reason to say they can't

445

00:26:25,020 --> 00:26:28,520

until we know what they are.

446

00:26:28,620 --> 00:26:31,460

Is it possible that visitors from other worlds

447

00:26:31,560 --> 00:26:34,220

are utilizing portals in the Bermuda Triangle

448

00:26:34,320 --> 00:26:38,000

to travel through time and space?

449

00:26:38,100 --> 00:26:42,240

And if so, do such portals already exist naturally?

450

00:26:42,340 --> 00:26:46,800

Or are they being created with some type of extraterrestrial

451

00:26:46,860 --> 00:26:48,840

technology?

452

00:26:48,940 --> 00:26:52,340

Perhaps the answer can be found by examining the account

453

00:26:52,440 --> 00:26:56,740

of a UFO witness who claims to have received a message

454

00:26:56,840 --> 00:26:57,680

from the future.

455

00:27:02,980 --> 00:27:05,220

In Suffolk County, England, there

456

00:27:05,320 --> 00:27:07,860

is a remote forest in the village of Rendlesham

457

00:27:07,960 --> 00:27:11,020

that has become famous for being the site of one

458

00:27:11,120 --> 00:27:15,200

of the most extraordinary UFO encounters ever reported.

459

00:27:15,220 --> 00:27:17,260

And some of those who experienced it

460

00:27:17,360 --> 00:27:21,460

believe this incident also involved time travel.

461

00:27:21,560 --> 00:27:25,700

The event occurred on December 26, 1980.

462

00:27:25,800 --> 00:27:29,140

Airman John Burroughs was performing a routine security

463

00:27:29,240 --> 00:27:33,040

check at a US Air Force Base when he received orders

464

00:27:33,140 --> 00:27:36,240

to investigate a possible downed aircraft.

465

00:27:36,340 --> 00:27:37,780

My supervisor called me on the radio

466

00:27:37,880 --> 00:27:38,880

and asked me to meet up with him

467

00:27:38,980 --> 00:27:41,020

so we could check these gate.

468

00:27:41,120 --> 00:27:43,180

We're driving down the road leading to these gate

469

00:27:43,240 --> 00:27:45,640

to check on it when all of a sudden he

470

00:27:45,740 --> 00:27:49,480

saw some strange lights in the forest.

471

00:27:49,580 --> 00:27:50,940

So I decided to call it in and let

472

00:27:51,040 --> 00:27:52,780

me know something strange was going on.

473

00:27:52,880 --> 00:27:56,480

They decided to send one of the security units down, which

474

00:27:56,580 --> 00:27:57,920

was Sergeant Penison.

475

00:27:58,020 --> 00:28:00,180

He got down there and he saw the same strange lights

476

00:28:00,280 --> 00:28:00,880

that we were seeing.

477

00:28:03,620 --> 00:28:05,560

I could see all these multiple color lights and things

478

00:28:05,660 --> 00:28:06,760

like that.

479

00:28:06,860 --> 00:28:08,460

And the air felt different.

480

00:28:08,560 --> 00:28:12,460

I don't know how to really explain that,

481

00:28:12,480 --> 00:28:15,560

but it did feel like there was electricity on our skin

482

00:28:15,660 --> 00:28:16,860

and hair and stuff.

483

00:28:16,960 --> 00:28:20,560

But that progressively got worse the closer we got to the tree

484

00:28:20,660 --> 00:28:23,660

line and it got more intense.

485

00:28:23,760 --> 00:28:27,840

There seemed to be like an electricity charged atmosphere.

486

00:28:27,940 --> 00:28:29,600

And then also there were points where

487

00:28:29,700 --> 00:28:32,440

it seemed like everything was going in slow motion.

488

00:28:32,540 --> 00:28:35,440

As the servicemen approached the strange lights,

489

00:28:35,540 --> 00:28:39,040

Sergeant Penison reportedly saw a large craft just

490

00:28:39,140 --> 00:28:40,780

beyond the tree line.

491

00:28:40,840 --> 00:28:42,780

The craft was triangular in shape,

492

00:28:42,880 --> 00:28:47,280

measuring about 6 to 7 feet high, black in color.

493

00:28:47,380 --> 00:28:49,980

I had come around to the far side of the craft

494

00:28:50,080 --> 00:28:53,480

and that's when I noticed that there was inscription on the side.

495

00:28:53,580 --> 00:28:58,320

It was about 3 feet long, maybe 6 inches high.

496

00:28:58,420 --> 00:29:01,800

And so I'm expecting to find, I don't know,

497

00:29:01,900 --> 00:29:04,500

some kind of prototype stuff, USAF.

498

00:29:04,600 --> 00:29:08,240

I'm looking for something very familiar.

499

00:29:08,260 --> 00:29:11,160

Instead of something familiar, I see these pictorial type

500

00:29:11,260 --> 00:29:16,140

glyphs and got running my hand over the side of the craft.

501

00:29:16,240 --> 00:29:17,940

I don't know how to explain this.

502

00:29:18,040 --> 00:29:21,040

It's like someone was holding a picture of it, OK?

503

00:29:21,140 --> 00:29:24,180

I could see it in my mind's eye.

504

00:29:24,280 --> 00:29:27,120

Zeroes, lungs.

505

00:29:27,220 --> 00:29:31,320

So I recorded those one after another.

506

00:29:31,420 --> 00:29:34,720

When Peniston touched the craft, he then

507

00:29:34,780 --> 00:29:40,380

said that he felt a strange download of information

508

00:29:40,480 --> 00:29:44,120

to his mind and he felt compelled the next day

509

00:29:44,220 --> 00:29:48,620

to write down a series of zeros and ones, which we now

510

00:29:48,720 --> 00:29:51,300

regard as binary code.

511

00:29:51,400 --> 00:29:56,800

Years later, a computer programmer took this information,

512

00:29:56,900 --> 00:29:59,940

ran it through a translation program,

513

00:30:00,040 --> 00:30:03,140

and a message emerged.

514

00:30:03,200 --> 00:30:07,240

The message read, exploration of humanity,

515

00:30:07,340 --> 00:30:11,640

continuous for planetary advance,

516

00:30:11,740 --> 00:30:18,720

eyes of your eyes, origin year 8,100.

517

00:30:18,820 --> 00:30:23,960

When one sees origin year 8,100, one

518

00:30:24,060 --> 00:30:26,760

is forced to speculate, might we be looking not just

519

00:30:26,860 --> 00:30:32,560

at extraterrestrials, but time travelers from the future?

520

00:30:32,580 --> 00:30:34,960

After the incident, the US military

521

00:30:35,060 --> 00:30:38,460

conducted a brief investigation, but allegedly

522

00:30:38,560 --> 00:30:43,160

tried to keep the eyewitnesses away from the press.

523

00:30:43,260 --> 00:30:46,060

But for airmen burrows and officer Peniston,

524

00:30:46,160 --> 00:30:50,540

the event wasn't easy to leave behind.

525

00:30:50,640 --> 00:30:54,280

Both men had lasting physical effects from the encounter

526

00:30:54,380 --> 00:30:57,580

and even reported strange dreams.

527

00:30:57,680 --> 00:31:01,680

After the incident, I started having throat and eye problems.

528

00:31:01,740 --> 00:31:03,900

At one point, my gums turned white.

529

00:31:04,000 --> 00:31:07,340

I also had vision problems, and when I went and saw the doctor,

530

00:31:07,440 --> 00:31:09,740

one of his first questions was, had I been ever exposed

531

00:31:09,840 --> 00:31:11,980

to radiation?

532

00:31:12,080 --> 00:31:14,620

I've definitely had dreams about it,

533

00:31:14,720 --> 00:31:17,780

and I still have feelings about what happened

534

00:31:17,880 --> 00:31:21,160

and what could happen in the future.

535

00:31:21,260 --> 00:31:26,260

I got an O.S. service in 1993.

536

00:31:26,360 --> 00:31:28,800

Then I was out about maybe three months,

537

00:31:28,900 --> 00:31:31,060

and then I started getting these dreams.

538

00:31:31,680 --> 00:31:33,720

And nightmares.

539

00:31:33,820 --> 00:31:37,820

During the dreams, I could see that these were time travelers,

540

00:31:37,920 --> 00:31:40,820

40,000 to 50,000 years in the future.

541

00:31:40,920 --> 00:31:43,460

I see that the purpose to come back

542

00:31:43,560 --> 00:31:47,300

was to correct things, was to fix things.

543

00:31:47,400 --> 00:31:51,240

Something horrible has happened.

544

00:31:51,340 --> 00:31:56,980

Something I have to correct, but it requires time travel.

545

00:31:57,040 --> 00:32:01,000

It requires going back into the past.

546

00:32:01,100 --> 00:32:05,740

I've never had a feeling of it being extraterrestrial.

547

00:32:05,840 --> 00:32:14,680

It's always been that they were simply us in the future.

548

00:32:14,780 --> 00:32:16,780

Could it be that the craft reportedly

549

00:32:16,880 --> 00:32:20,080

witnessed by James Peniston and John Burroughs

550

00:32:20,180 --> 00:32:25,760

came not from a distant star, but from a distant point in time?

551

00:32:25,800 --> 00:32:27,800

Perhaps further clues can be found

552

00:32:27,900 --> 00:32:31,500

by examining trends in evolution and what humans

553

00:32:31,600 --> 00:32:33,440

may look like in the future.

554

00:32:37,340 --> 00:32:38,740

Coming up.

555

00:32:38,840 --> 00:32:42,680

If we look at past trends in our biological form,

556

00:32:42,780 --> 00:32:46,220

we see that we're likely to look very similar to what's most

557

00:32:46,320 --> 00:32:49,020

commonly described in these instances of close encounters.

558

00:32:56,120 --> 00:32:59,860

Butte, Montana, 2019.

559

00:32:59,960 --> 00:33:02,200

Professor of Biological Anthropology

560

00:33:02,300 --> 00:33:05,160

at Montana Technological University,

561

00:33:05,260 --> 00:33:10,540

Dr. Michael Masters publishes Identified Flying Objects.

562

00:33:10,640 --> 00:33:14,340

This groundbreaking book explores the profound notion

563

00:33:14,440 --> 00:33:18,240

that the UFO phenomenon may involve our distant human

564

00:33:18,340 --> 00:33:24,220

descendants traveling backward across the landscape of time.

565

00:33:24,280 --> 00:33:27,380

One of the big questions about backward time travel

566

00:33:27,480 --> 00:33:30,080

is, why aren't we inundated by time tourists

567

00:33:30,180 --> 00:33:32,380

if backward time travel exists?

568

00:33:32,480 --> 00:33:35,220

And the answer may simply be, we do.

569

00:33:35,320 --> 00:33:38,560

We do see them in the form of UFOs

570

00:33:38,660 --> 00:33:42,000

and the form of these alien beings that are most likely

571

00:33:42,100 --> 00:33:44,400

traveling backwards from the human future

572

00:33:44,500 --> 00:33:47,200

using more advanced technology and with a more advanced

573

00:33:47,300 --> 00:33:50,700

physical form than what we have now.

574

00:33:50,760 --> 00:33:53,800

Dr. Masters points out that current accounts

575

00:33:53,900 --> 00:33:56,900

of humanoid aliens, the grays in particular,

576

00:33:57,000 --> 00:34:01,300

bear a striking resemblance to what many biologists predict

577

00:34:01,400 --> 00:34:04,780

humans may look like in the distant future.

578

00:34:04,880 --> 00:34:07,840

If we look at past trends in our biological form

579

00:34:07,940 --> 00:34:10,880

and in our technology, we see the same dominant trends

580

00:34:10,980 --> 00:34:12,280

in our morphology.

581

00:34:12,380 --> 00:34:14,820

Our neurocrania have become enlarged,

582

00:34:14,920 --> 00:34:16,220

becoming more rounded.

583

00:34:16,320 --> 00:34:18,760

Our mid-facial and lower-facial anatomy

584

00:34:18,820 --> 00:34:20,380

has retracted.

585

00:34:20,480 --> 00:34:22,480

If these are to continue into the future,

586

00:34:22,580 --> 00:34:25,960

we're likely to look very similar to what's most commonly

587

00:34:26,060 --> 00:34:28,860

described in these instances of close encounters,

588

00:34:28,960 --> 00:34:34,800

where the beings have big heads, small faces, big eyes.

589

00:34:34,900 --> 00:34:38,640

Many of the types of aliens, if you like,

590

00:34:38,740 --> 00:34:41,400

or strange beings that are in these crafts,

591

00:34:41,500 --> 00:34:42,940

they're often taller.

592

00:34:43,040 --> 00:34:45,080

They've got larger heads, larger eyes.

593

00:34:45,180 --> 00:34:47,520

And that could be a sign of evolution

594

00:34:47,540 --> 00:34:50,680

of our species going thousands or possibly hundreds

595

00:34:50,780 --> 00:34:53,580

of thousands of years into the future.

596

00:34:53,680 --> 00:34:57,560

Could the so-called gray aliens that many people believe

597

00:34:57,660 --> 00:35:02,120

they've encountered actually be human time travelers?

598

00:35:02,220 --> 00:35:05,320

According to some researchers, further evidence

599

00:35:05,420 --> 00:35:08,160

that Earth is being visited by future humans

600

00:35:08,260 --> 00:35:10,940

can be found by examining accounts

601

00:35:11,040 --> 00:35:14,340

of unidentified flying objects.

602

00:35:14,440 --> 00:35:16,300

If we look at the craft, too, they

603

00:35:16,360 --> 00:35:19,520

seem to have a form that indicates the function

604

00:35:19,620 --> 00:35:21,160

of backward time travel.

605

00:35:21,260 --> 00:35:23,200

It's very consistent with research

606

00:35:23,300 --> 00:35:26,860

since Einstein's paper in 1915 demonstrating

607

00:35:26,960 --> 00:35:30,500

how the rotation of a massive or highly energetic disc

608

00:35:30,600 --> 00:35:35,880

or cylinder could create backward time travel capabilities.

609

00:35:35,980 --> 00:35:41,680

Sometimes I ask myself, these UFOs are not time travelers.

610

00:35:41,760 --> 00:35:48,640

It's our own people of the future who study some history.

611

00:35:48,740 --> 00:35:51,280

And they sent some vehicles to measure,

612

00:35:51,380 --> 00:35:53,920

to observe, to photograph us.

613

00:35:54,020 --> 00:35:56,420

But they don't make direct contact.

614

00:35:56,520 --> 00:36:00,820

So I would exclude nothing, not even time travel.

615

00:36:00,920 --> 00:36:04,200

But if future humans have traveled back in time,

616

00:36:04,300 --> 00:36:07,300

are they simply observing events of the past?

617

00:36:07,400 --> 00:36:11,100

Or could they have a more profound agenda?

618

00:36:11,600 --> 00:36:13,420

One of the other ideas relating to this

619

00:36:13,520 --> 00:36:16,600

is the idea that ourselves from the future

620

00:36:16,700 --> 00:36:18,960

are actually trying to help us in some way.

621

00:36:19,060 --> 00:36:21,340

There's some kind of interaction going on.

622

00:36:21,440 --> 00:36:22,900

They could be giving us information

623

00:36:23,000 --> 00:36:25,940

about advances in technology.

624

00:36:26,040 --> 00:36:29,680

They could be giving us information about other planets.

625

00:36:29,780 --> 00:36:32,340

They could be giving us scientific data

626

00:36:32,440 --> 00:36:35,920

that we need to survive that they know about in the future.

627

00:36:36,020 --> 00:36:40,220

But we're yet to get to that point.

628

00:36:40,280 --> 00:36:44,140

Could they be coming back to help evolve us in some way,

629

00:36:44,240 --> 00:36:49,220

to help us learn new technologies and innovations,

630

00:36:49,320 --> 00:36:54,420

perhaps to steer us towards their own future?

631

00:36:54,520 --> 00:36:56,860

Maybe these technologies involve everything

632

00:36:56,960 --> 00:37:04,060

from quantum computers to nuclear fusion to AI

633

00:37:04,160 --> 00:37:06,700

and even nanotechnology.

634

00:37:06,800 --> 00:37:10,000

All of these are at the cutting edge of science

635

00:37:10,020 --> 00:37:12,720

and we are actually looking for answers

636

00:37:12,820 --> 00:37:18,300

to how to better perfect these technologies.

637

00:37:18,400 --> 00:37:21,960

If UFOs are crap from our future,

638

00:37:22,060 --> 00:37:24,600

if the beings seen in association with them

639

00:37:24,700 --> 00:37:28,440

are our distant descendants, and they crashed into Roswell,

640

00:37:28,540 --> 00:37:32,940

New Mexico in 1947, it's possible that we've

641

00:37:33,040 --> 00:37:36,240

been reverse engineering this technology,

642

00:37:36,280 --> 00:37:40,680

and not just for the purposes of flying through space

643

00:37:40,780 --> 00:37:44,540

at tremendous speeds or having anti-gravity propulsion

644

00:37:44,640 --> 00:37:47,220

systems, but also potentially to figure out

645

00:37:47,320 --> 00:37:49,420

how to travel through time.

646

00:37:49,520 --> 00:37:51,480

We may be eventually reaching the point

647

00:37:51,580 --> 00:37:53,920

where that technology is ours, coming back through time

648

00:37:54,020 --> 00:37:56,020

again, where there's this constant loop

649

00:37:56,120 --> 00:37:59,760

through the past and the future.

650

00:37:59,860 --> 00:38:02,620

If time travel is possible, could it

651

00:38:02,680 --> 00:38:06,720

be that Earth is being visited by both extraterrestrials

652

00:38:06,820 --> 00:38:10,420

and humans from our own future?

653

00:38:10,520 --> 00:38:14,760

Perhaps further clues can be found by examining the possibility

654

00:38:14,860 --> 00:38:18,600

that the true nature of time is much different than we think.

655

00:38:25,200 --> 00:38:28,240

Boulder, Colorado.

656

00:38:28,340 --> 00:38:31,980

Housed at the National Institute of Standards and Technology,

657

00:38:32,000 --> 00:38:35,600

are two atomic clocks that together serve as the United

658

00:38:35,700 --> 00:38:39,880

States' primary time and frequency standard.

659

00:38:39,980 --> 00:38:44,080

Around the world, similar clocks with incredible precision

660

00:38:44,180 --> 00:38:48,060

set the time by which all of humankind operates.

661

00:38:48,160 --> 00:38:52,560

It is a relentless march of seconds, minutes, hours,

662

00:38:52,660 --> 00:38:56,600

and days, determining when we wake up, go to work,

663

00:38:56,700 --> 00:39:01,900

eat, sleep, celebrate, and ultimately die.

664

00:39:02,980 --> 00:39:06,800

But what if how we perceive time is nothing more than a human

665

00:39:06,900 --> 00:39:10,040

construct, an attempt to quantify and control

666

00:39:10,140 --> 00:39:13,680

a universal force that modern science hasn't even

667

00:39:13,780 --> 00:39:16,880

begun to understand?

668

00:39:16,980 --> 00:39:19,680

We live in the fantasy of linear time

669

00:39:19,780 --> 00:39:23,060

because we have to remember that all the notions of time

670

00:39:23,160 --> 00:39:25,960

are imposed on reality.

671

00:39:26,060 --> 00:39:27,960

Reality flows in its own way.

672

00:39:28,060 --> 00:39:30,360

We imagine that our clocks measure it.

673

00:39:30,360 --> 00:39:33,660

We claim to be able to mark it off in hours and days and things,

674

00:39:33,760 --> 00:39:36,860

but that's all just imposed on it.

675

00:39:36,960 --> 00:39:40,460

Physicists point out that going by modern sciences

676

00:39:40,560 --> 00:39:44,560

linear concept of time, even the idea of the here and now

677

00:39:44,660 --> 00:39:48,200

is merely an illusion, since light and sound do not

678

00:39:48,300 --> 00:39:50,540

travel instantaneously.

679

00:39:50,640 --> 00:39:52,500

When you look in a mirror, you're not really

680

00:39:52,600 --> 00:39:54,340

looking at yourself as you are.

681

00:39:54,440 --> 00:39:57,380

You're looking at yourself as you were about a billionth

682

00:39:57,480 --> 00:39:59,080

of a second ago.

683

00:39:59,100 --> 00:40:00,800

When you look at the moon, you're not really

684

00:40:00,900 --> 00:40:02,940

looking at the moon as it is now.

685

00:40:03,040 --> 00:40:07,180

You're looking at the moon as it was about a second ago.

686

00:40:07,280 --> 00:40:08,480

So when you look at the Pleiades,

687

00:40:08,580 --> 00:40:13,460

you're looking at the Pleiades as they were 400 years ago.

688

00:40:16,060 --> 00:40:18,820

Some of the stars viewable in the night sky

689

00:40:18,920 --> 00:40:22,560

burnt out long ago, which according to a linear model

690

00:40:22,660 --> 00:40:25,560

of time means they no longer exist.

691

00:40:25,660 --> 00:40:28,200

They are no longer reachable.

692

00:40:28,820 --> 00:40:31,200

But what if this model of time is wrong?

693

00:40:33,860 --> 00:40:37,800

Another take on time travel is that when the Big Bang occurred,

694

00:40:37,900 --> 00:40:41,300

all of space and time and everything is in it was created.

695

00:40:41,400 --> 00:40:44,440

So all of time is in the universe already.

696

00:40:44,540 --> 00:40:48,140

For some reason, we can only experience the now.

697

00:40:48,240 --> 00:40:51,080

Could it be that our understanding of time

698

00:40:51,180 --> 00:40:54,080

is limited by how we experience it?

699

00:40:54,180 --> 00:40:56,080

And might a more technologically advanced

700

00:40:56,140 --> 00:40:59,540

extraterrestrial species, or even future humans,

701

00:40:59,640 --> 00:41:02,940

have discovered how to manipulate time and space

702

00:41:03,040 --> 00:41:07,280

to travel both to the past and to the future?

703

00:41:07,380 --> 00:41:13,380

The idea that we may simply be dealing with space people

704

00:41:13,480 --> 00:41:18,060

from other star systems may not be the full answer.

705

00:41:18,160 --> 00:41:22,760

We could be dealing with time travelers.

706

00:41:23,520 --> 00:41:27,020

Could these intelligences have been aiding us,

707

00:41:27,120 --> 00:41:30,700

perhaps guiding us, perhaps controlling

708

00:41:30,800 --> 00:41:34,160

the evolution of humanity?

709

00:41:34,260 --> 00:41:37,440

I rather am a believer in time travel.

710

00:41:37,540 --> 00:41:41,500

I say nothing will be impossible for us in the future.

711

00:41:41,600 --> 00:41:45,440

Even if you think it's completely crazy, it will happen.

712

00:41:45,540 --> 00:41:49,140

Whatever humans are able to think, to calculate,

713

00:41:49,200 --> 00:41:56,000

even to fantasies, will one day become reality?

714

00:41:56,100 --> 00:42:00,080

Is Earth being visited by highly advanced civilizations

715

00:42:00,180 --> 00:42:04,620

that have overcome the limitations of time and space?

716

00:42:04,720 --> 00:42:09,320

And if so, could they even be our own human descendants

717

00:42:09,420 --> 00:42:12,480

traveling back from the future?

718

00:42:12,580 --> 00:42:16,360

Perhaps our notions of time, space, and our place

719

00:42:16,480 --> 00:42:20,720

in the universe are about to be radically altered.

720

00:42:20,820 --> 00:42:23,720

Only time will tell.
