

1

00:00:00,000 --> 00:00:05,000

Incredible reports from military personnel.

2

00:00:05,000 --> 00:00:07,000

Well, all I can tell you is they're not ours.

3

00:00:07,000 --> 00:00:08,000

Not ours.

4

00:00:08,000 --> 00:00:09,000

We're talking about.

5

00:00:09,000 --> 00:00:13,000

A mysterious material, not of this world.

6

00:00:13,000 --> 00:00:16,000

As I understand, it is pure aluminum.

7

00:00:16,000 --> 00:00:18,000

99.5%.

8

00:00:18,000 --> 00:00:23,000

As far as I know, we can't produce 99.5%.

9

00:00:23,000 --> 00:00:27,000

Leaked government footage of a strange craft.

10

00:00:27,000 --> 00:00:31,000

I've never seen anything like this in my life.

11

00:00:31,000 --> 00:00:35,000

On ancient aliens, we've traveled to mysterious sites,

12

00:00:35,000 --> 00:00:37,000

met with eyewitnesses,

13

00:00:37,000 --> 00:00:42,000

and closely examined evidence of unidentified flying objects.

14

00:00:42,000 --> 00:00:47,000

Now, we take a look back at some of the most incredible reports

15

00:00:47,000 --> 00:00:49,000

we've investigated.

16

00:00:49,000 --> 00:00:53,000

Reports that, according to ancient astronaut theorists,

17

00:00:53,000 --> 00:00:58,000

provide undeniable proof of extraterrestrial visitations.

18

00:01:15,000 --> 00:01:19,000

On ancient aliens, we've investigated not only evidence

19

00:01:19,000 --> 00:01:22,000

of extraterrestrial contact in the distant past,

20

00:01:22,000 --> 00:01:27,000

but incredible modern-day sightings of unidentified flying objects

21

00:01:27,000 --> 00:01:30,000

that suggest these visitors never left.

22

00:01:30,000 --> 00:01:36,000

In recent years, the United States Navy has released extraordinary UFO videos

23

00:01:36,000 --> 00:01:40,000

that even they admit they cannot explain.

24

00:01:40,000 --> 00:01:42,000

What could be more convincing than that?

25

00:01:42,000 --> 00:01:47,000

Well, in 2019, investigative journalist Linda Moulton-Howe

26

00:01:47,000 --> 00:01:53,000

showed me what she believes are remnants of an actual alien craft.

27

00:01:56,000 --> 00:02:00,000

Perump, Nevada, 1996.

28

00:02:00,000 --> 00:02:04,000

Art Bell, founder and original host

29

00:02:04,000 --> 00:02:08,000

of the paranormal-themed radio program Coast to Coast AM,

30

00:02:08,000 --> 00:02:14,000

begins receiving shipments in the mail of mysterious metallic fragments.

31

00:02:15,000 --> 00:02:20,000

Art Bell started getting two shipments coming from a man

32

00:02:20,000 --> 00:02:25,000

who identified himself in a series of five-typed letters.

33

00:02:25,000 --> 00:02:30,000

Instead, he was an Army Sergeant that his grandfather had died in 1974

34

00:02:30,000 --> 00:02:35,000

and had left a box that had a diary and metals.

35

00:02:35,000 --> 00:02:41,000

In the diary, it said that the grandfather, with a group of security people,

36

00:02:41,000 --> 00:02:47,000

saw a wedge-shaped craft that was on what was then called

37

00:02:47,000 --> 00:02:51,000

in the 40s, White Sands Proving Ground in southern New Mexico.

38

00:02:51,000 --> 00:02:58,000

The grandfather saw the bottom of a glow for three hours while they stood around it,

39

00:02:58,000 --> 00:03:01,000

and he pulled off scrapings.

40

00:03:01,000 --> 00:03:08,000

He called them scrapings from the bottom of the wedge-shaped craft where it had glowed.

41

00:03:08,000 --> 00:03:12,000

Art Bell turned over these mysterious fragments and letters

42

00:03:12,000 --> 00:03:16,000

to investigative journalist Linda Moulton-Howe for further study.

43

00:03:16,000 --> 00:03:23,000

In June of 1996, Linda commissioned University of Michigan researchers

44

00:03:23,000 --> 00:03:29,000

to use a scanning electron microscope and a technique known as X-ray fluorescence spectrometry

45

00:03:29,000 --> 00:03:33,000

to analyze the samples and determine their makeup.

46

00:03:33,000 --> 00:03:41,000

It was made out of bismuth, almost pure, one to four microns, and that was the black layer.

47

00:03:41,000 --> 00:03:53,000

The next layer was 97.6% magnesium, 2.4% zinc, and that layering was alternating like that.

48

00:03:53,000 --> 00:03:59,000

So I went to an exotic metals manufacturer in New Jersey,

49

00:03:59,000 --> 00:04:02,000

and I said, how would you make this?

50

00:04:02,000 --> 00:04:07,000

He said, nobody can put bismuth and magnesium together.

51

00:04:07,000 --> 00:04:10,000

It will automatically come apart.

52

00:04:10,000 --> 00:04:19,000

This had to have been manufactured by some kind of an advanced technology,

53

00:04:19,000 --> 00:04:23,000

and he didn't know what that would be either.

54

00:04:23,000 --> 00:04:26,000

I think we've got technology that we didn't make.

55

00:04:26,000 --> 00:04:30,000

A lot of people have come forward with bits and pieces of the same tail.

56

00:04:30,000 --> 00:04:34,000

We are presently analyzing meta materials that we did not make

57

00:04:34,000 --> 00:04:38,000

that's created in a way that is beyond our technology.

58

00:04:38,000 --> 00:04:40,000

Hey, Linda.

59

00:04:40,000 --> 00:04:42,000

Hey, it's good to see you.

60

00:04:42,000 --> 00:04:43,000

Good to see you.

61

00:04:43,000 --> 00:04:47,000

To learn more about these strange metallic fragments, in 2019,

62

00:04:47,000 --> 00:04:52,000

ancient astronaut theorist, Georgiosuclos met up with Linda Moulton-Howe

63

00:04:52,000 --> 00:04:56,000

at a secure storage facility in Los Angeles, California.

64

00:04:56,000 --> 00:04:59,000

Man, this is some door.

65

00:04:59,000 --> 00:05:01,000

Okay.

66

00:05:01,000 --> 00:05:06,000

Well, over the years I've learned that this is really pretty valuable.

67

00:05:06,000 --> 00:05:07,000

Right.

68

00:05:07,000 --> 00:05:11,000

And I better keep it in something like a safety deposit box.

69

00:05:11,000 --> 00:05:12,000

Right.

70

00:05:12,000 --> 00:05:17,000

Earlier in 2019, the United States Army took an interest

71

00:05:17,000 --> 00:05:20,000

in doing its own examination of these materials.

72

00:05:20,000 --> 00:05:27,000

Linda is eager to show Georgios just what it is that has caught the Army's attention.

73

00:05:27,000 --> 00:05:32,000

Here is where the magic business magnates and zinc resides.

74

00:05:32,000 --> 00:05:34,000

There it is, inside the magic box.

75

00:05:34,000 --> 00:05:38,000

Here, I'll take it over here and show it to you.

76

00:05:39,000 --> 00:05:48,000

I have found, since having this in 1996, an evolving with research

77

00:05:48,000 --> 00:05:51,000

that it has become now so valuable.

78

00:05:58,000 --> 00:06:00,000

What am I looking at, Linda?

79

00:06:00,000 --> 00:06:01,000

What is this?

80

00:06:01,000 --> 00:06:03,000

Well, here is.

81

00:06:03,000 --> 00:06:04,000

See all these layers?

82

00:06:04,000 --> 00:06:05,000

Yeah.

83

00:06:05,000 --> 00:06:13,000

When you go to a scanning electron microscope and you see that the black, the black side,

84

00:06:13,000 --> 00:06:20,000

it's pure bismuth and it's one to four microns, which is about half the size of a blood cell.

85

00:06:20,000 --> 00:06:23,000

And then it's alternating, just like a tort cake.

86

00:06:23,000 --> 00:06:24,000

Yeah.

87

00:06:24,000 --> 00:06:27,000

And the top silver, that's the magnesium zinc alloy.

88

00:06:27,000 --> 00:06:28,000

Okay.

89

00:06:28,000 --> 00:06:31,000

So layer by layer by layer in microns.

90

00:06:31,000 --> 00:06:33,000

It's almost the same size.

91

00:06:33,000 --> 00:06:34,000

In microns.

92

00:06:34,000 --> 00:06:37,000

It's almost as if it's reflective too.

93

00:06:37,000 --> 00:06:38,000

Yes.

94

00:06:38,000 --> 00:06:41,000

And when you get it in the sun, it looks like a snow field.

95

00:06:41,000 --> 00:06:44,000

And that's the magnesium zinc.

96

00:06:44,000 --> 00:06:50,000

In addition to this layered material, Linda also has an unusual piece of aluminum.

97

00:06:50,000 --> 00:07:00,000

As I understand from a physicist, it is this pure aluminum, 99.5%, pure aluminum.

98

00:07:00,000 --> 00:07:03,000

As far as I know, we can't produce 99.5%.

99

00:07:03,000 --> 00:07:06,000

I mean, this is incredibly pure.

100

00:07:06,000 --> 00:07:09,000

So where were these pieces allegedly found?

101

00:07:09,000 --> 00:07:15,000

These came out of white sands in New Mexico outside of Roswell.

102

00:07:15,000 --> 00:07:20,000

Is there a connection to Roswell with this piece?

103

00:07:20,000 --> 00:07:30,000

In July of 1947, an unidentified flying object crashed to Earth in the desert just outside Roswell, New Mexico.

104

00:07:30,000 --> 00:07:41,000

It is today the most famous UFO event on record, in part because it was the army itself that reported the craft as a flying disk.

105

00:07:41,000 --> 00:07:48,000

July 8th and 9th, the newspaper headlines, Army captures flying disk outside of Roswell.

106

00:07:48,000 --> 00:07:50,000

How did the newspaper get that story?

107

00:07:50,000 --> 00:07:51,000

Walter Howe.

108

00:07:51,000 --> 00:07:58,000

He was the official public information officer at the Roswell 509 who gave the story to the newspaper.

109

00:07:58,000 --> 00:08:02,000

But the military quickly walked back its story.

110

00:08:02,000 --> 00:08:14,000

Within days, the mysterious Roswell UFO was given an earthly origin when the government claimed that the downed craft was merely a weather balloon.

111

00:08:14,000 --> 00:08:22,000

When you look at the whole Roswell incident, it seems to be a recovery that was very much a scrambled ad hoc thing.

112

00:08:22,000 --> 00:08:28,000

And in fact, witnesses had been to the crash site before the military got there.

113

00:08:28,000 --> 00:08:36,000

In the chaos of trying to clean up this crash site, you have to wonder that whether they would really get it all.

114

00:08:36,000 --> 00:08:39,000

Where would this material actually go?

115

00:08:39,000 --> 00:08:43,000

And would they have left some of it behind just by accident?

116

00:08:44,000 --> 00:09:04,000

In April 2011, the FBI released thousands of files as part of its online FBI vault, including a 1950 briefing to FBI director J. Edgar Hoover regarding informant information about three flying saucers that were recovered in New Mexico.

117

00:09:04,000 --> 00:09:15,000

Many researchers believe this corroborates long-standing rumors that the Roswell incident involved not one, but three crashed UFOs.

118

00:09:15,000 --> 00:09:26,000

And there were numerous other incidents reported during that time period in the area of Roswell and White Sands proving ground that remain mostly unknown.

119

00:09:26,000 --> 00:09:30,000

Are there more pieces of these items?

120

00:09:30,000 --> 00:09:42,000

Well, for the last 15 years, I had a combination of another piece of the Bismuth Magnesium Zinc and another smaller piece of the aluminum.

121

00:09:42,000 --> 00:09:48,000

So the pair that I had before is now involved with military testing.

122

00:09:49,000 --> 00:09:59,000

In 2019, Linda handed over additional samples of the exotic metals for examination by the United States Army.

123

00:09:59,000 --> 00:10:08,000

If multiple flying discs crashed in the New Mexico desert in 1947, was all the debris recovered long ago?

124

00:10:08,000 --> 00:10:16,000

Many believe there are still remnants to be found and at a unique Skywatch facility in the Pacific Northwest.

125

00:10:16,000 --> 00:10:27,000

Researchers suggest they have even more compelling evidence, a glimpse inside an alien craft.

126

00:10:27,000 --> 00:10:40,000

We've covered all kinds of UFO investigations on ancient aliens, but at East City Ranch in Washington State, a team of investigators have taken UFO hunting to a whole new level

127

00:10:40,000 --> 00:10:47,000

because they're watching the skies not only with telescopes and the naked eye, but also with remote viewers.

128

00:10:47,000 --> 00:10:57,000

In 2019, Nick Pope traveled to the ranch to see this for himself and what he experienced was nothing short of mind-blowing.

129

00:10:59,000 --> 00:11:08,000

In May 2019, former British intelligence officer Nick Pope visited the East City Ranch in the Pacific Northwest.

130

00:11:08,000 --> 00:11:15,000

East City is home to the Enlightened Contact with Extraterrestrial Intelligence Organization.

131

00:11:15,000 --> 00:11:21,000

UFO hunters consider it a major hotspot for unexplained aerial phenomena.

132

00:11:21,000 --> 00:11:32,000

Over the past 33 years, scientists from Boeing, NASA and Lockheed Skunkworks have come to East City to research the activity in the sky.

133

00:11:33,000 --> 00:11:44,000

But what sets East City apart from other UFO watch organizations is that their most powerful observational tool is not a telescope, it's remote viewers.

134

00:11:44,000 --> 00:12:00,000

Remote viewing is essentially taking people who have or believe they have the ability to see things not with their eyes but with their mind and putting them to work gathering intelligence.

135

00:12:01,000 --> 00:12:07,000

My first exposure to remote viewing came when I ran the UK government's UFO program.

136

00:12:07,000 --> 00:12:15,000

We looked at UFOs, crop circles, alien abductions, anything mysterious and unexplained, I did it.

137

00:12:15,000 --> 00:12:21,000

Remote viewing might be tapping into unknown dimensions.

138

00:12:21,000 --> 00:12:24,000

I know this sounds like science fiction, but actually it isn't.

139

00:12:24,000 --> 00:12:33,000

Some of the work being done at places like the Large Hadron Collider are now quite seriously looking at the concept of other dimensions.

140

00:12:34,000 --> 00:12:44,000

At East City, ex-government remote viewing expert John Vivonko and UFO sky watcher Peter Slattery lead a team of remote viewers.

141

00:12:44,000 --> 00:12:59,000

Today, they are working on an experiment that will combine human observation and remote viewing in an attempt to better understand what has become a recent increase in UFO sightings over Washington state's Mount Adams.

142

00:13:00,000 --> 00:13:04,000

So let me know please, what are your respective backgrounds with this?

143

00:13:04,000 --> 00:13:14,000

I am a remote viewer, I've been doing this professionally for over 20 years now and I run a team of remote viewers and we work operational type projects for clients.

144

00:13:14,000 --> 00:13:20,000

And we look at different types of phenomena that can't be explained through conventional means.

145

00:13:20,000 --> 00:13:27,000

I'm known as an Experiencer slash Contactee but also a whole Skywatch event, so we're going to do a Skywatch and just see what happens.

146

00:13:27,000 --> 00:13:28,000

Where are we going to do that?

147

00:13:28,000 --> 00:13:30,000

Just going to go out to the Skywatch field here so let's go and check it out.

148

00:13:30,000 --> 00:13:31,000

Okay, great.

149

00:13:31,000 --> 00:13:42,000

As Nick joins Peter to conduct field surveillance, John is stationed two remote viewers in a windowless room, armed with nothing more than a pencil and a drawing pad.

150

00:13:43,000 --> 00:13:51,000

The way it works is that a remote viewer is given a random eight digit number connected to what they're supposed to remote view.

151

00:13:52,000 --> 00:13:56,000

Now they don't get what they're supposed to remote view only the number, that's it.

152

00:13:57,000 --> 00:14:04,000

They're going to be at the location of whatever it is through the mind describing exactly what that is.

153

00:14:05,000 --> 00:14:09,000

So what are these remote viewers actually going to be doing in there?

154

00:14:09,000 --> 00:14:14,000

It's not so much viewing, we get visual snippets and a lot of body sensations.

155

00:14:14,000 --> 00:14:18,000

Basically they're going to be drawing and writing a lot on papers.

156

00:14:19,000 --> 00:14:23,000

Afterwards, once we've got the data, how are we actually going to analyze it?

157

00:14:23,000 --> 00:14:33,000

So I will collect that information from them when they're done and then in the morning we can meet up to see if we can come up with some explanation from what went on.

158

00:14:33,000 --> 00:14:35,000

Well, great, that sounds good.

159

00:14:35,000 --> 00:14:39,000

I hope that we're going to have some interesting and meaningful results.

160

00:14:40,000 --> 00:14:50,000

After discussing the details of the evening's plans, Peter and Nick part ways with John and join the rest of the Skywatch team in the field.

161

00:14:50,000 --> 00:14:53,000

Peter, I see the team has grown somewhat.

162

00:14:53,000 --> 00:14:57,000

We've got Adam here with us, he's going to be helping out the satellite tracker and monitoring the gear.

163

00:14:57,000 --> 00:15:01,000

It's just very important to be very quick off the mark knowing what's what.

164

00:15:01,000 --> 00:15:06,000

Sometimes we could have two things in the sky at the same time and one of them could be a satellite the other night.

165

00:15:06,000 --> 00:15:11,000

People can mix it up so when we're focused on the sky, it's great that somebody is focused on the satellite tracker.

166

00:15:11,000 --> 00:15:14,000

Great, so we're essentially making sure we don't miss anything.

167

00:15:14,000 --> 00:15:16,000

Oh, definitely, yeah, we don't want to muddle things up.

168

00:15:16,000 --> 00:15:22,000

The team gets to work setting up the watch station before the sun goes down for the evening.

169

00:15:22,000 --> 00:15:30,000

They will be using various technology, including infrared cameras, in order to capture any anomalies in the sky.

170

00:15:31,000 --> 00:15:41,000

The location for their watch overlooks Mount Adams, the largest active volcano in Washington state, and a hotspot for UFO sightings.

171

00:15:41,000 --> 00:15:49,000

In fact, Mount Adams is associated with the first UFO case to ever make nationwide headlines.

172

00:15:52,000 --> 00:16:04,000

In June of 1947, aviator and businessman Kenneth Arnold claimed to have witnessed nine UFOs flying in tandem from Mount Rainier at incredible speeds.

173

00:16:05,000 --> 00:16:15,000

He reported that they performed a number of unusual maneuvers and then disappeared into Mount Adams.

174

00:16:15,000 --> 00:16:24,000

As night sets in, the team has all eyes glued to the sky and on the lookout for any objects that might cross their path.

175

00:16:25,000 --> 00:16:33,000

Utilizing real-time satellite tracking data, they can anticipate the arrival of all man-made traffic passing over their airspace.

176

00:16:34,000 --> 00:16:36,000

Hey, is that a satellite?

177

00:16:36,000 --> 00:16:37,000

Yep.

178

00:16:37,000 --> 00:16:40,000

Including the International Space Station, or ISS.

179

00:16:40,000 --> 00:16:43,000

Adam, how are we on the timing with the ISS?

180

00:16:43,000 --> 00:16:45,000

One more minute.

181

00:16:45,000 --> 00:16:47,000

And which direction? West?

182

00:16:47,000 --> 00:16:50,000

It's going to be coming from the west, moving to the east.

183

00:16:50,000 --> 00:16:52,000

Look how bright this thing is.

184

00:16:52,000 --> 00:16:55,000

Whoa, oh, there it is there. See?

185

00:16:56,000 --> 00:16:58,000

That's the spice that I should give you.

186

00:16:58,000 --> 00:16:59,000

That is the ISS, yep.

187

00:16:59,000 --> 00:17:00,000

Okay.

188

00:17:01,000 --> 00:17:10,000

While the field team watches the sky, the remote viewers are sketching visual representations of whatever comes to them.

189

00:17:10,000 --> 00:17:20,000

Incredibly, as the International Space Station passes overhead, both women begin to draw virtually identical rectangular objects.

190

00:17:21,000 --> 00:17:26,000

Well, it's not a UFO, but it's still a pretty spectacular thing.

191

00:17:26,000 --> 00:17:28,000

Yeah, it's pretty epic to see.

192

00:17:29,000 --> 00:17:40,000

After spotting a few other satellites in the sky, Nick and Peter notice a mysterious, fast-moving object, one that does not appear to be a satellite.

193

00:17:40,000 --> 00:17:42,000

Come on right there right now.

194

00:17:42,000 --> 00:17:44,000

Look how quick it is. Is that a satellite?

195

00:17:45,000 --> 00:17:47,000

I've got it on camera.

196

00:17:47,000 --> 00:17:48,000

Where are you at?

197

00:17:48,000 --> 00:17:50,000

East, southeast.

198

00:17:53,000 --> 00:17:55,000

I see nothing on the tracker.

199

00:17:55,000 --> 00:17:57,000

Can you see it up here, guys?

200

00:17:58,000 --> 00:18:03,000

Okay, I definitely saw it up in that section of the sky with my naked eye.

201

00:18:03,000 --> 00:18:06,000

It just caught my attention out of the corner of my eye.

202

00:18:06,000 --> 00:18:10,000

I turned around, saw it for a few seconds, and then it faded.

203

00:18:10,000 --> 00:18:12,000

That's exactly what I saw.

204

00:18:13,000 --> 00:18:15,000

And there was nothing on the monitor at all?

205

00:18:15,000 --> 00:18:18,000

Nope, nothing at all. That section of the sky was clear.

206

00:18:19,000 --> 00:18:24,000

And that's satellites. What about aircraft and flight plans?

207

00:18:24,000 --> 00:18:26,000

Nope, everything was clear.

208

00:18:26,000 --> 00:18:27,000

Okay.

209

00:18:28,000 --> 00:18:30,000

Well, it was something.

210

00:18:30,000 --> 00:18:37,000

Did Nick Pope and the E-SETI team spot an extraterrestrial object in the night sky?

211

00:18:37,000 --> 00:18:40,000

One that inexplicably disappeared.

212

00:18:41,000 --> 00:18:52,000

Perhaps the answer lies with the remote viewing team, who not only detected an object in the sky, but even got a glimpse of what was inside it.

213

00:18:53,000 --> 00:19:02,000

On Ancient Aliens, we've investigated some pretty extraordinary UFO reports.

214

00:19:02,000 --> 00:19:10,000

And during a trip Nick Pope made to the E-SETI Ranch in Washington State, we actually caught a UFO on camera.

215

00:19:10,000 --> 00:19:16,000

And while Nick and the team were watching the strange craft move across the night sky,

216

00:19:16,000 --> 00:19:22,000

two remote viewers were stationed in a windowless room drawing what they saw as well.

217

00:19:22,000 --> 00:19:26,000

The results were absolutely amazing.

218

00:19:27,000 --> 00:19:31,000

E-SETI Ranch, Trout Lake, Washington.

219

00:19:32,000 --> 00:19:38,000

The morning after successfully capturing an anomalous object during their evening skywatch session.

220

00:19:38,000 --> 00:19:39,000

John, good to see you again.

221

00:19:39,000 --> 00:19:40,000

Good to see you, Nick.

222

00:19:40,000 --> 00:19:46,000

Nick Pope meets up with John Vivonco to see how the remote viewing portion of the experiment went.

223

00:19:46,000 --> 00:19:54,000

Nick is eager to discover if the remote viewers picked up the same objects in the sky that he witnessed with his own eyes,

224

00:19:54,000 --> 00:19:58,000

and perhaps even perceived additional details.

225

00:20:01,000 --> 00:20:06,000

So the remote viewers were tasked on two different things last night.

226

00:20:06,000 --> 00:20:13,000

And I wanted them to describe the first object on the skywatch that was determined to be a satellite.

227

00:20:13,000 --> 00:20:18,000

Right, so they have no idea that you are asking them to look at a satellite.

228

00:20:18,000 --> 00:20:19,000

No.

229

00:20:19,000 --> 00:20:21,000

The satellite is almost the target.

230

00:20:21,000 --> 00:20:22,000

Exactly.

231

00:20:22,000 --> 00:20:23,000

So you ready to go through the first one?

232

00:20:23,000 --> 00:20:24,000

Yes.

233

00:20:24,000 --> 00:20:25,000

Okay.

234

00:20:27,000 --> 00:20:29,000

So this right here is energy.

235

00:20:29,000 --> 00:20:32,000

This is determined to be energy by this remote viewer.

236

00:20:32,000 --> 00:20:36,000

And talking about how it's crackling hits and bounces a burst.

237

00:20:36,000 --> 00:20:37,000

It's like static.

238

00:20:37,000 --> 00:20:42,000

So this is a mixture essentially of almost like a stream of consciousness,

239

00:20:42,000 --> 00:20:44,000

what they are describing here in words.

240

00:20:44,000 --> 00:20:45,000

Right.

241

00:20:45,000 --> 00:20:47,000

And then a visual representation of it.

242

00:20:47,000 --> 00:20:48,000

Right.

243

00:20:48,000 --> 00:20:49,000

Let me show you the next scan.

244

00:20:49,000 --> 00:20:56,000

This subject is talking about a dense material, thick gray cylindrical object.

245

00:20:57,000 --> 00:21:03,000

Now this different viewer is getting the same type of box.

246

00:21:03,000 --> 00:21:04,000

It's got lights blinking.

247

00:21:04,000 --> 00:21:06,000

And these are completely independent from each other.

248

00:21:06,000 --> 00:21:07,000

Right.

249

00:21:07,000 --> 00:21:08,000

Wow.

250

00:21:08,000 --> 00:21:10,000

One, two, pretty much the same.

251

00:21:10,000 --> 00:21:11,000

Pretty much the same.

252

00:21:11,000 --> 00:21:12,000

Wow.

253

00:21:12,000 --> 00:21:13,000

Impressive.

254

00:21:14,000 --> 00:21:16,000

So but let me show you this here.

255

00:21:16,000 --> 00:21:17,000

There's a burst of communication.

256

00:21:17,000 --> 00:21:19,000

It's what I find interesting.

257

00:21:19,000 --> 00:21:23,000

And you have these, almost looks like solar panels on it.

258

00:21:23,000 --> 00:21:26,000

Now we actually saw the International Space Station last night.

259

00:21:26,000 --> 00:21:30,000

And it actually has those two separate light panels.

260

00:21:30,000 --> 00:21:33,000

It like what makes it different from most conventional satellites.

261

00:21:33,000 --> 00:21:35,000

Could this be what we're looking at here?

262

00:21:35,000 --> 00:21:36,000

Absolutely.

263

00:21:36,000 --> 00:21:40,000

If what you saw first identified as a satellite, then yeah, absolutely.

264

00:21:40,000 --> 00:21:41,000

Wow.

265

00:21:41,000 --> 00:21:46,000

Two separate remote viewers, both depicting objects that are consistent with the makeup

266

00:21:46,000 --> 00:21:49,000

of the International Space Station.

267

00:21:49,000 --> 00:21:52,000

It is an impressive coincidence.

268

00:21:52,000 --> 00:21:58,000

But not as impressive as what John Vabonco is about to reveal to Nick Pope.

269

00:21:58,000 --> 00:22:03,000

As concerns, the mysterious UFO they spotted in the night sky.

270

00:22:03,000 --> 00:22:04,000

So that's a bona fide UFO.

271

00:22:04,000 --> 00:22:06,000

We can't explain that.

272

00:22:06,000 --> 00:22:07,000

And it blinked out.

273

00:22:07,000 --> 00:22:09,000

It completely disappeared.

274

00:22:10,000 --> 00:22:12,000

What was the first thing you saw?

275

00:22:12,000 --> 00:22:17,000

Well, the first anomalous thing we saw was a flash of light in the sky.

276

00:22:17,000 --> 00:22:18,000

I saw it myself.

277

00:22:18,000 --> 00:22:20,000

We had a satellite tracker up and running.

278

00:22:20,000 --> 00:22:22,000

We eliminated that possibility.

279

00:22:22,000 --> 00:22:23,000

There was no satellite.

280

00:22:23,000 --> 00:22:24,000

So this was anomalous.

281

00:22:24,000 --> 00:22:25,000

That's interesting.

282

00:22:25,000 --> 00:22:27,000

So we get to this page here.

283

00:22:27,000 --> 00:22:30,000

Now they're getting an energy and a structure.

284

00:22:30,000 --> 00:22:33,000

It's this reflective metallic feeling thing.

285

00:22:33,000 --> 00:22:39,000

Almost like a mirage, glowing blue color, very faint pinging sound.

286

00:22:39,000 --> 00:22:40,000

That's interesting.

287

00:22:40,000 --> 00:22:42,000

This is a visual representation.

288

00:22:42,000 --> 00:22:43,000

Visual representation.

289

00:22:43,000 --> 00:22:45,000

So, and it says energy.

290

00:22:45,000 --> 00:22:46,000

Energy, right.

291

00:22:46,000 --> 00:22:49,000

Energy seems to be moving outward in many directions.

292

00:22:49,000 --> 00:22:53,000

So I think what they're trying to do here is display the energy, the ball.

293

00:22:53,000 --> 00:22:54,000

Right.

294

00:22:54,000 --> 00:22:55,000

All right.

295

00:22:56,000 --> 00:22:59,000

You prepare to be weirded out here.

296

00:22:59,000 --> 00:23:00,000

Okay.

297

00:23:00,000 --> 00:23:05,000

And this subject is described as a crystal blue color.

298

00:23:05,000 --> 00:23:08,000

It's angelic and floaty.

299

00:23:08,000 --> 00:23:09,000

Wow.

300

00:23:10,000 --> 00:23:12,000

So is this a person?

301

00:23:12,000 --> 00:23:13,000

What is this?

302

00:23:13,000 --> 00:23:15,000

I'm not sure what this is.

303

00:23:15,000 --> 00:23:16,000

This subject here.

304

00:23:16,000 --> 00:23:20,000

I mean, this is clearly some sort of person.

305

00:23:20,000 --> 00:23:21,000

Or is it?

306

00:23:21,000 --> 00:23:27,000

I mean, if we're talking about something anomalous, is the possibility here that if this was a

307

00:23:27,000 --> 00:23:29,000

UFO, that this is some sort of occupant?

308

00:23:29,000 --> 00:23:31,000

There is that possibility.

309

00:23:31,000 --> 00:23:33,000

An occupant?

310

00:23:33,000 --> 00:23:40,000

Did this remote viewer actually see inside the object that the field team witnessed from

311

00:23:40,000 --> 00:23:41,000

the ground?

312

00:23:41,000 --> 00:23:48,000

And if so, could this confirm that what they saw was an extraterrestrial spacecraft?

313

00:23:48,000 --> 00:23:53,000

This remote viewer is also getting a subject here.

314

00:23:53,000 --> 00:23:58,000

And they're calling this flash of light a subject, which is curious.

315

00:23:58,000 --> 00:24:05,000

And when you see this, uppercase P and a lowercase P, they mean that subject is a para-physical,

316

00:24:05,000 --> 00:24:09,000

which means in remote viewing it is something outside of our 3D reality.

317

00:24:09,000 --> 00:24:14,000

So this subject, according to this remote viewer, is a flash of light on the mountain,

318

00:24:14,000 --> 00:24:18,000

and this subject exists outside of our 3D reality.

319

00:24:18,000 --> 00:24:19,000

That is spooky.

320

00:24:19,000 --> 00:24:22,000

I mean, we saw a flash of light on the mountain.

321

00:24:22,000 --> 00:24:28,000

Are we saying here that this flashing light on the mountain and the sessions suggest that

322

00:24:28,000 --> 00:24:31,000

this is something to do with extraterrestrials?

323

00:24:31,000 --> 00:24:36,000

You know, all I can say is what the remote viewer's got.

324

00:24:36,000 --> 00:24:42,000

And from my perspective, I think you've got a true anomaly there.

325

00:24:42,000 --> 00:24:46,000

Wow.

326

00:24:46,000 --> 00:24:51,000

Could the visions described and illustrated by the remote viewers confirm that what Nick

327

00:24:51,000 --> 00:24:57,000

Pope and the rest of the Skywatch investigators witnessed was in fact an extraterrestrial

328

00:24:57,000 --> 00:24:58,000

craft?

329

00:24:58,000 --> 00:25:05,000

Ancient astronaut theorists say yes and suggest further evidence of an otherworldly presence

330

00:25:05,000 --> 00:25:17,000

visiting Earth can be found by examining Chilean Navy footage of a UFO that defies explanation.

331

00:25:17,000 --> 00:25:24,000

On Ancient Aliens, we have closely examined UFO reports from around the globe, reports

332

00:25:24,000 --> 00:25:26,000

that most governments tried to discredit.

333

00:25:26,000 --> 00:25:32,000

But in the South American country of Chile, they've been openly investigating UFOs for

334

00:25:32,000 --> 00:25:33,000

decades.

335

00:25:33,000 --> 00:25:40,000

In 2014, the Chilean Navy captured footage of one of the most incredible UFOs I've ever

336

00:25:40,000 --> 00:25:47,000

seen, and Dr. Travis Taylor set out to investigate it.

337

00:25:47,000 --> 00:25:51,000

November 11th, 2014.

338

00:25:51,000 --> 00:25:58,000

Just outside of Santiago, Chilean Navy officers aboard an Airbus Cougar helicopter are testing

339

00:25:58,000 --> 00:26:03,000

a forward-looking infrared, or FLIR, high-definition camera.

340

00:26:03,000 --> 00:26:10,000

Suddenly, the camera captures a strange object flying alongside them at an altitude of 4,500

341

00:26:10,000 --> 00:26:11,000

feet.

342

00:26:11,000 --> 00:26:18,000

After tracking it for several minutes, they witness what appears to be some sort of discharge

343

00:26:18,000 --> 00:26:21,000

coming from the craft.

344

00:26:21,000 --> 00:26:27,000

Hougar case was a military helicopter back in 2014 that produced footage in an infrared

345

00:26:27,000 --> 00:26:28,000

camera.

346

00:26:28,000 --> 00:26:31,000

And we're talking about military equipment.

347

00:26:31,000 --> 00:26:35,000

We're talking about millions of dollars in equipment.

348

00:26:35,000 --> 00:26:39,000

It's nine minutes long that they have continuous infrared footage of this phenomena.

349

00:26:39,000 --> 00:26:41,000

That's really unprecedented.

350

00:26:41,000 --> 00:26:47,000

And if this phenomena is going on for nine minutes, we can do analysis on it.

351

00:26:47,000 --> 00:26:56,000

On November 25th, 2019, astrophysicist Dr. Travis Taylor traveled to Los Angeles, California

352

00:26:56,000 --> 00:27:02,000

to review this incredible video with image analyst Michael Bradbury.

353

00:27:02,000 --> 00:27:09,000

For more than a decade, Bradbury has examined videos of alleged UFOs, looking for any signs

354

00:27:09,000 --> 00:27:12,000

that they could be something other than man-made aircraft.

355

00:27:12,000 --> 00:27:18,000

The Chilean helicopter video is really intriguing and fascinating because you have this vehicle

356

00:27:18,000 --> 00:27:24,000

or phenomena, whatever it is, and then it starts releasing some type of material behind it.

357

00:27:24,000 --> 00:27:28,000

So we absolutely need to understand what this phenomena is.

358

00:27:28,000 --> 00:27:33,000

All right, here we go.

359

00:27:33,000 --> 00:27:37,000

So this is from the helicopter not far from San Diego.

360

00:27:37,000 --> 00:27:38,000

Not far.

361

00:27:38,000 --> 00:27:39,000

November of 2014.

362

00:27:39,000 --> 00:27:40,000

Okay.

363

00:27:40,000 --> 00:27:41,000

There's the object.

364

00:27:41,000 --> 00:27:44,000

And it's only visible in infrared format.

365

00:27:44,000 --> 00:27:45,000

And that's really intriguing.

366

00:27:45,000 --> 00:27:48,000

The high-def video, it's like it's not even there.

367

00:27:48,000 --> 00:27:50,000

Two ground radar, didn't see it.

368

00:27:50,000 --> 00:27:53,000

The radar on the helicopter could not pick it up.

369

00:27:53,000 --> 00:27:56,000

So super unique circumstances here.

370

00:27:56,000 --> 00:27:58,000

You got two hot spots and they're separated.

371

00:27:58,000 --> 00:28:00,000

You know, that's intriguing.

372

00:28:00,000 --> 00:28:03,000

I've never seen anything like this in my life.

373

00:28:03,000 --> 00:28:10,000

Michael inverts the image so they can examine the object's shape more closely.

374

00:28:10,000 --> 00:28:17,000

What I've done here is taken the basic infrared and I just kind of flipped it and adjusted it a little better for clarity purposes.

375

00:28:17,000 --> 00:28:21,000

You can clearly see the shape of the vehicle or whatever the thing is.

376

00:28:21,000 --> 00:28:22,000

It's peanut shaped.

377

00:28:22,000 --> 00:28:24,000

Why is it peanut shaped?

378

00:28:24,000 --> 00:28:33,000

The pilot, his description was it had a flat body with these two like bright lenses or something.

379

00:28:33,000 --> 00:28:37,000

You know, it kind of does look like two jet engines if you're looking at it from the back.

380

00:28:37,000 --> 00:28:44,000

But the motion on it looks like it's moving side to side and the aspect ratio doesn't change on the circles.

381

00:28:44,000 --> 00:28:47,000

It's not going into the page as it should be.

382

00:28:47,000 --> 00:28:49,000

There's no other structure.

383

00:28:49,000 --> 00:28:50,000

That's the thing.

384

00:28:50,000 --> 00:28:54,000

You would see wings, a nose cone.

385

00:28:54,000 --> 00:28:56,000

You just see the engine.

386

00:28:56,000 --> 00:29:01,000

You can look at aircraft with an infrared camera and you see the structure because it's hot.

387

00:29:01,000 --> 00:29:02,000

You got sunshine on it.

388

00:29:02,000 --> 00:29:05,000

The engine, just the mechanics of it make it hot.

389

00:29:05,000 --> 00:29:08,000

That's what I'm looking for here is reflectivity off of the physical structure.

390

00:29:08,000 --> 00:29:12,000

There's nothing that kind of throws that idea out.

391

00:29:12,000 --> 00:29:21,000

After isolating the object, Michael applies color filters to better define the object's unique heat signature for closer analysis.

392

00:29:21,000 --> 00:29:23,000

Now this one is really interesting.

393

00:29:23,000 --> 00:29:25,000

This is adjusted, not altered.

394

00:29:25,000 --> 00:29:26,000

Sure, I got it.

395

00:29:26,000 --> 00:29:31,000

So you've got black is hot here, green is ambient temperature, I'm assuming then white is cold.

396

00:29:31,000 --> 00:29:32,000

Correct.

397

00:29:32,000 --> 00:29:33,000

So here's the thing.

398

00:29:33,000 --> 00:29:37,000

There's clearly a field of cold air around this thing.

399

00:29:37,000 --> 00:29:40,000

That's, that's baffling.

400

00:29:40,000 --> 00:29:43,000

This thing, it's hot and then instantly cold.

401

00:29:43,000 --> 00:29:46,000

It's cold and in nature, that's not how things work.

402

00:29:46,000 --> 00:29:47,000

No.

403

00:29:47,000 --> 00:29:52,000

There is a different temperature bubble around the vehicle than there is around normal vehicles.

404

00:29:52,000 --> 00:29:53,000

Exactly.

405

00:29:53,000 --> 00:29:56,000

Which suggests some type of field, whatever that means.

406

00:29:56,000 --> 00:30:00,000

It could be electrical, magnetic, gravitational.

407

00:30:00,000 --> 00:30:06,000

We just don't know what it is, but there is some sort of clear anomaly in some sort of field around this craft.

408

00:30:06,000 --> 00:30:11,000

So when does it start releasing the particulates?

409

00:30:11,000 --> 00:30:15,000

It does at about five minutes end of the video.

410

00:30:15,000 --> 00:30:16,000

So right there.

411

00:30:16,000 --> 00:30:17,000

Now that's really interesting.

412

00:30:17,000 --> 00:30:18,000

Right here.

413

00:30:18,000 --> 00:30:19,000

So it's very hot, right?

414

00:30:19,000 --> 00:30:21,000

It's saturated black, very hot.

415

00:30:21,000 --> 00:30:24,000

So again, in high depth, you can't see it.

416

00:30:24,000 --> 00:30:26,000

That means it's a temperature plume.

417

00:30:26,000 --> 00:30:29,000

It's not necessarily a particulate plume.

418

00:30:29,000 --> 00:30:36,000

Like if you spray out jet fuel from the back of a plane, it starts cooling off almost immediately and you even get ice crystals in it.

419

00:30:36,000 --> 00:30:38,000

Absolutely, because it's affected by the atmosphere.

420

00:30:38,000 --> 00:30:39,000

This thing stays hot.

421

00:30:39,000 --> 00:30:43,000

And it holds its shape, which in itself is highly unusual.

422

00:30:43,000 --> 00:30:46,000

It doesn't follow standard fluid mechanics.

423

00:30:46,000 --> 00:30:47,000

No.

424

00:30:47,000 --> 00:30:54,000

You can try to debunk this as just an earthly vehicle all you want to, but I've never seen any earthly vehicle that is explained this way.

425

00:30:56,000 --> 00:30:58,000

What on earth could this thing be?

426

00:30:58,000 --> 00:31:04,000

One thing the analysis has done for us is it's allowed us to sort of rule out what's not a commercial airliner.

427

00:31:04,000 --> 00:31:06,000

Well, we didn't have radar tracks and transponder tracks.

428

00:31:06,000 --> 00:31:08,000

We know it wasn't that.

429

00:31:08,000 --> 00:31:14,000

And then this wasn't water or jet fuel or something of substance that the radar would have picked up.

430

00:31:14,000 --> 00:31:17,000

So this is something that we've never seen before.

431

00:31:18,000 --> 00:31:24,000

Could the Chilean Navy have captured footage of an extraterrestrial aircraft?

432

00:31:24,000 --> 00:31:34,000

Recently, military whistleblowers have come forward to claim that while governments around the world may have become more transparent about their UFO investigations,

433

00:31:34,000 --> 00:31:38,000

many are hiding even more sensational evidence.

434

00:31:39,000 --> 00:31:57,000

On Ancient Aliens, we've examined dozens of eyewitness UFO reports from retired military personnel, scientists and whistleblowers who all claim that the government is hiding the truth about an alien presence on Earth.

435

00:31:58,000 --> 00:32:09,000

And in 2019, investigative journalist Linda Moulton-Howe convinced a former Navy Flight Engineer to share an incredible encounter that happened in the last place you might expect.

436

00:32:09,000 --> 00:32:11,000

Antarctica.

437

00:32:13,000 --> 00:32:17,000

Scottsdale, Arizona, February 2019.

438

00:32:18,000 --> 00:32:32,000

Investigative journalist Linda Moulton-Howe arrives to conduct an interview with a former Navy Flight Engineer who has come forward with information about strange events he witnessed during his time in Antarctica.

439

00:32:32,000 --> 00:32:40,000

The new things that I felt needed to be put out in the mainstream.

440

00:32:40,000 --> 00:32:48,000

Brian, as he prefers to be called, requested that his face and voice be obscured to protect his identity.

441

00:32:48,000 --> 00:33:00,000

His unit was based on the southern tip of Ross Island at the U.S. McMurdo Station, the main logistics hub that services nearly all of the scientific outposts on the continent.

442

00:33:00,000 --> 00:33:06,000

Brian, when did you get into the Navy and how did you get to Antarctica?

443

00:33:06,000 --> 00:33:19,000

I enlisted in July of 1976. In order to go to Antarctica, you have to volunteer. It's not a duty station where you are ordered to go.

444

00:33:19,000 --> 00:33:28,000

I was able to get orders to Antarctic Development Squadron 6, which is referred to as VXE-6.

445

00:33:28,000 --> 00:33:32,000

And its mission would be described as what generally?

446

00:33:32,000 --> 00:33:41,000

The mission basically was supplying to out camps, science parties from McMurdo Station to South Pole back and forth.

447

00:33:41,000 --> 00:33:50,000

Talk about sort of the route and what you guys began to see on a repeated basis.

448

00:33:50,000 --> 00:33:58,000

During our 95-96 season, my crew was doing a lot of back and forth to pole.

449

00:33:58,000 --> 00:34:03,000

Mainly it was cargo resupply, personnel exchanges.

450

00:34:03,000 --> 00:34:15,000

That season, prior to us doing missions, we were told by some of our officers that if we saw something flying, that we weren't supposed to say anything.

451

00:34:15,000 --> 00:34:21,000

Oh, so you knew that people were already warning about that you had not seen it?

452

00:34:21,000 --> 00:34:26,000

Yeah, right. Somewhere around December, we were flying a mission from McMurdo.

453

00:34:26,000 --> 00:34:35,000

And my loadmaster in the back, he gets on the intercom, the ICS, and he says, hey, there's something off to the left here kind of shimmering.

454

00:34:35,000 --> 00:34:41,000

So I went up to the flight deck and I'm looking out the big windows. And I see these little disc shaped objects.

455

00:34:41,000 --> 00:34:50,000

There was probably four or five of them. And they were at first when I first saw them, they were just stationary over one mountain peak.

456

00:34:50,000 --> 00:35:00,000

And then all of a sudden, I'm looking at them and one of them takes off by itself and flies at an incredible speed to the next mountaintop and stops.

457

00:35:00,000 --> 00:35:05,000

And then another one in the group takes off at Headstorp where the first one went.

458

00:35:05,000 --> 00:35:08,000

What did the pilot say?

459

00:35:08,000 --> 00:35:16,000

That was kind of funny. My pilot gets on the intercom and he kind of joking and goes, well, all I can tell you is they're not ours.

460

00:35:16,000 --> 00:35:25,000

Not ours? What are you talking about? And then I think back to the little brief we got about if we see something down there, don't say anything.

461

00:35:25,000 --> 00:35:29,000

If we see something else flying around. So now this all comes rings true.

462

00:35:29,000 --> 00:35:35,000

It's like, so they weren't just pulling our leg and joking with us. There's actually something going on here.

463

00:35:35,000 --> 00:35:39,000

And it kept happening. Yes, it happened at least two other times.

464

00:35:41,000 --> 00:35:51,000

Could Brian's incredible story reveal that there are government and military personnel who are aware of an extraterrestrial presence on Earth?

465

00:35:51,000 --> 00:36:08,000

Ancient astronaut theorists say yes and suggest even more compelling evidence of other worldly visitation may be found by examining alleged alien abductees and what might be hidden beneath their skin.

466

00:36:21,000 --> 00:36:30,000

A few years back I was invited to see a very bizarre and very intriguing collection of what might be alien artifacts.

467

00:36:32,000 --> 00:36:45,000

Houston, Texas. Former law enforcement officer and investigator Darryl Sims has spent three decades collecting evidence left behind at abduction scenes throughout the country.

468

00:36:46,000 --> 00:36:51,000

That treated us at crime scene and to do that you need to know what to look for.

469

00:36:51,000 --> 00:36:57,000

In some of these cases we'll find a burn mark and in rare cases radiation traces where UFO has landed.

470

00:36:57,000 --> 00:37:05,000

People will come back with a scar like a dermatological scoop mark and sometimes we find some type of implant.

471

00:37:05,000 --> 00:37:07,000

Thank you for coming by, Giorgio.

472

00:37:07,000 --> 00:37:18,000

In April 2016 Giorgio Succolos met with Darryl Sims to get a closer look at some of the hard evidence that Sims has collected through the years.

473

00:37:19,000 --> 00:37:26,000

One of the things we found on these abductees is alien leaves like a fingerprint on them.

474

00:37:26,000 --> 00:37:27,000

Really?

475

00:37:27,000 --> 00:37:33,000

When they touch them it leaves a sub dermal mark on you in the form of fingerprints or flown fingers and there's an example.

476

00:37:34,000 --> 00:37:37,000

It impacts the body sub dermally.

477

00:37:37,000 --> 00:37:38,000

This is amazing.

478

00:37:38,000 --> 00:37:43,000

It literally goes into the skin and you can't wash it off, you can't get it off with any kind of solvent or anything.

479

00:37:47,000 --> 00:37:49,000

And here's another good example.

480

00:37:49,000 --> 00:37:53,000

Here are some other hand prints that we found around the world.

481

00:37:53,000 --> 00:37:55,000

This is in Chile.

482

00:37:55,000 --> 00:38:01,000

The lady got touched by this entity with huge prints on both front and back and left caustic burns on her body.

483

00:38:01,000 --> 00:38:03,000

So this was visible light.

484

00:38:03,000 --> 00:38:04,000

Okay.

485

00:38:04,000 --> 00:38:07,000

This same hand print literally shows up in several other cases as well.

486

00:38:07,000 --> 00:38:10,000

A little girl draws the same exact hand.

487

00:38:10,000 --> 00:38:12,000

This was fluorescence.

488

00:38:12,000 --> 00:38:15,000

A police officer gets abducted.

489

00:38:15,000 --> 00:38:20,000

The entity actually comes through the glass window and left the holographic imagery in the glass.

490

00:38:20,000 --> 00:38:22,000

Very odd.

491

00:38:22,000 --> 00:38:24,000

Here's one that fascinates me.

492

00:38:24,000 --> 00:38:27,000

This is a print that came off a wall in Pennsylvania.

493

00:38:27,000 --> 00:38:30,000

The entire family are abductees with the exception of one person.

494

00:38:30,000 --> 00:38:35,000

And this one touched the wall and you can see the fluorescence there where we lit it up.

495

00:38:36,000 --> 00:38:41,000

This is the case of a lady that this is our long finger, you can see the huge long fingerprints.

496

00:38:41,000 --> 00:38:43,000

There's second cups on each hand.

497

00:38:43,000 --> 00:38:44,000

Four fingers.

498

00:38:44,000 --> 00:38:46,000

And this is on her headboard.

499

00:38:49,000 --> 00:38:50,000

That's fantastic.

500

00:38:50,000 --> 00:38:54,000

You've now spent many years studying this.

501

00:38:55,000 --> 00:39:00,000

And you see fingerprints like that, hand prints and, you know, residue.

502

00:39:00,000 --> 00:39:03,000

What is your theory, what we are looking at here?

503

00:39:03,000 --> 00:39:12,000

My estimation as a former police officer is that there was an oil-like substance that apparently exudes from the body of the entity.

504

00:39:12,000 --> 00:39:14,000

That's bizarre.

505

00:39:16,000 --> 00:39:22,000

Perhaps the most intriguing evidence in Sim's collection are the alleged extraterrestrial implants

506

00:39:22,000 --> 00:39:25,000

retrieved from various victims.

507

00:39:29,000 --> 00:39:32,000

I want to show you something rather remarkable.

508

00:39:33,000 --> 00:39:37,000

You can see the little objects here, the perfect T and it went off to the side.

509

00:39:37,000 --> 00:39:38,000

Yes.

510

00:39:41,000 --> 00:39:46,000

So we had them surgically excised and here's what we found.

511

00:39:46,000 --> 00:39:47,000

There's...

512

00:39:47,000 --> 00:39:48,000

Oh wow.

513

00:39:48,000 --> 00:39:49,000

Okay.

514

00:39:49,000 --> 00:39:51,000

They were taken out.

515

00:39:51,000 --> 00:39:55,000

There was a biological cocoon surrounding these originally.

516

00:39:55,000 --> 00:39:59,000

This is bizarre and what did they determine this is?

517

00:39:59,000 --> 00:40:03,000

We had this done in a blinded study in Los Alamos, in Mexico Tech.

518

00:40:03,000 --> 00:40:07,000

They did a quantitative and quantitative analysis and they found...

519

00:40:07,000 --> 00:40:09,000

Georgia, you're not going to believe this.

520

00:40:09,000 --> 00:40:13,000

It turns out that the objects are meteoric in origin.

521

00:40:17,000 --> 00:40:18,000

What's your opinion then?

522

00:40:18,000 --> 00:40:21,000

And how did it get into the woman's body?

523

00:40:21,000 --> 00:40:26,000

In my opinion, what we're looking at are objects that have been installed inside these people.

524

00:40:27,000 --> 00:40:29,000

Someone is doing this.

525

00:40:29,000 --> 00:40:31,000

This is entity-related.

526

00:40:33,000 --> 00:40:37,000

So in my opinion, we're looking at real actual evidence of these cases.

527

00:40:37,000 --> 00:40:39,000

Oh, this is amazing.

528

00:40:40,000 --> 00:40:47,000

Is it possible that the implants collected from the bodies of alleged abductees are of extraterrestrial origin?

529

00:40:48,000 --> 00:40:53,000

If the UFOs reported in our skies belong to alien beings,

530

00:40:53,000 --> 00:40:57,000

could it be that they are not merely visitors to Earth,

531

00:40:57,000 --> 00:41:01,000

but have an agenda for humankind?

532

00:41:02,000 --> 00:41:09,000

The evidence that these incredible encounters and sightings are real can no longer be denied.

533

00:41:09,000 --> 00:41:15,000

And as governments around the world begin to publicly acknowledge the existence of UFOs,

534

00:41:15,000 --> 00:41:20,000

the truth will be revealed that not only have we been visited in the past,

535

00:41:20,000 --> 00:41:26,000

but that our extraterrestrial teachers are still here today.
