

1

00:00:00,000 --> 00:00:05,000

A remote land known for bizarre and shocking events.

2

00:00:05,000 --> 00:00:11,000

Alaska is a place where anomalous events clearly

3

00:00:11,000 --> 00:00:17,000

are happening, a vast wilderness where people disappear without a trace.

4

00:00:17,000 --> 00:00:22,000

Up in Alaska, anywhere from 500 to 2,000 people still go missing every year.

5

00:00:22,000 --> 00:00:26,000

And a mysterious home to UFO activity.

6

00:00:26,000 --> 00:00:30,000

In the 37 years I've been flying, I've seen a lot of things.

7

00:00:30,000 --> 00:00:37,000

And what I saw was just not anything ordinary at all.

8

00:00:37,000 --> 00:00:44,000

Could Alaska's rugged landscape conceal secrets that are not of this world?

9

00:00:44,000 --> 00:00:51,000

You have huge areas that are uninhabited and it's such a huge frontier region.

10

00:00:51,000 --> 00:00:54,000

All kinds of things can be happening there.

11

00:00:57,000 --> 00:01:01,000

There is a doorway in the universe.

12

00:01:01,000 --> 00:01:05,000

Beyond it is the promise of truth.

13

00:01:05,000 --> 00:01:11,000

It demands we question everything we have ever been taught.

14

00:01:11,000 --> 00:01:14,000

The evidence is all around us.

15

00:01:14,000 --> 00:01:18,000

The future is right before our eyes.

16

00:01:18,000 --> 00:01:21,000

We are not alone.

17

00:01:21,000 --> 00:01:25,000

We have never been alone.

18

00:01:26,000 --> 00:01:31,000

The future is right before our eyes.

19

00:01:34,000 --> 00:01:38,000

Alaska, the largest of all U.S. states.

20

00:01:38,000 --> 00:01:44,000

It's home to the nation's highest peak, its biggest national park,

21

00:01:44,000 --> 00:01:48,000

and more coastline than all other states combined.

22

00:01:48,000 --> 00:01:53,000

With dense, uninhabited wilderness and countless mountains,

23

00:01:53,000 --> 00:01:58,000

Alaska presents a landscape that can be beautiful,

24

00:01:58,000 --> 00:02:02,000

forbidding and often treacherous.

25

00:02:02,000 --> 00:02:07,000

The entirety of the Alaska wilderness is over 600,000 square miles.

26

00:02:07,000 --> 00:02:11,000

People don't realize this, but it's actually two and a half times the size of Texas.

27

00:02:11,000 --> 00:02:14,000

It's absolutely massive.

28

00:02:14,000 --> 00:02:19,000

It's an area of the world that's extremely desolate, very cold, very remote,

29

00:02:19,000 --> 00:02:23,000

which there are no roads that go to many of these places.

30

00:02:23,000 --> 00:02:30,000

Having worked extensively in Alaska, one cannot overstate the immensity and vastness of the region.

31

00:02:30,000 --> 00:02:34,000

There are some 17 mountain ranges,

32

00:02:34,000 --> 00:02:38,000

66,000 miles of coastland,

33

00:02:38,000 --> 00:02:42,000

and an estimated 3,000 rivers and over 3 million lakes.

34

00:02:42,000 --> 00:02:47,000

So it is really one of the last frontiers in the world,

35

00:02:47,000 --> 00:02:52,000

and one of the most challenging, brutal habitats that I've ever investigated.

36

00:02:52,000 --> 00:02:55,000

We're talking about harsh winters,

37

00:02:55,000 --> 00:02:59,000

craggy peaks, dangerous animals.

38

00:02:59,000 --> 00:03:03,000

It really encompasses all of that.

39

00:03:03,000 --> 00:03:08,000

For centuries, Alaska's vast and rugged landscape

40

00:03:08,000 --> 00:03:13,000

has been known as a place where people disappear with great frequency

41

00:03:13,000 --> 00:03:17,000

and are often never found.

42

00:03:17,000 --> 00:03:22,000

Anywhere from 500 to 2,000 people still go missing every year up in Alaska.

43

00:03:22,000 --> 00:03:29,000

Now they're not all in airplanes, but still it gives you an idea of how dangerous and unpredictable the area is.

44

00:03:29,000 --> 00:03:34,000

If you can get lost on the ground, how much worse would it be if you're in an aircraft?

45

00:03:34,000 --> 00:03:39,000

Most of these disappearances, I think, personally can be explained.

46

00:03:39,000 --> 00:03:43,000

And yet there are some occurrences that I know about

47

00:03:43,000 --> 00:03:48,000

that even I as a professional ex-fighter pilot can't explain.

48

00:03:48,000 --> 00:03:53,000

On October 16, 1972,

49

00:03:53,000 --> 00:03:59,000

one of the most famous disappearances in American history took place over Alaska.

50

00:03:59,000 --> 00:04:05,000

Louisiana congressman and House Majority Leader, Hale Boggs,

51

00:04:05,000 --> 00:04:11,000

boarded a twin-engine Cessna in Anchorage, headed for Juneau, the state capital.

52

00:04:11,000 --> 00:04:16,000

With him was local Alaskan congressman, Nick Begich.

53

00:04:16,000 --> 00:04:20,000

After the congressman's plane departed Anchorage for Juneau,

54

00:04:20,000 --> 00:04:25,000

attempts to reach the pilot by radio were met with an eerie silence.

55

00:04:25,000 --> 00:04:32,000

He made one mandatory radio reporting, I think, nine minutes after takeoff.

56

00:04:32,000 --> 00:04:35,000

And then they were never seen or heard from again.

57

00:04:35,000 --> 00:04:41,000

The disappearance of two U.S. congressmen made headlines around the world

58

00:04:41,000 --> 00:04:46,000

and prompted an unprecedented search and rescue operation.

59

00:04:46,000 --> 00:04:53,000

At the time, Nixon actually turned it into the most expensive rescue operation ever

60

00:04:53,000 --> 00:04:58,000

in the history of the United States. They still did not find anything.

61

00:04:58,000 --> 00:05:08,000

There were 40-something aircraft involved and they covered an area maybe 360,000 square kilometers.

62

00:05:08,000 --> 00:05:12,000

The fact is, nothing has ever been found or discovered from that aircraft,

63

00:05:12,000 --> 00:05:20,000

not a scrap of metal, nothing concrete, and that again only deepens the mystery in that area.

64

00:05:20,000 --> 00:05:27,000

Literally hundreds of planes have disappeared while in flight over Alaska, never to be recovered.

65

00:05:27,000 --> 00:05:31,000

And while many have blamed the state's extreme weather and terrain,

66

00:05:31,000 --> 00:05:38,000

Alaska has long been known as a hotspot for all kinds of strange phenomena.

67

00:05:38,000 --> 00:05:48,000

As recently as February 10, 2023, a US F-22 fighter jet shot down an unidentified flying object

68

00:05:48,000 --> 00:05:55,000

hovering 10 miles off the north coast of Alaska, making headlines around the world.

69

00:05:55,000 --> 00:06:01,000

The anomalous activity in Alaska has been noted for well over 100 years,

70

00:06:01,000 --> 00:06:07,000

like the Bermuda Triangle and the Devil's Triangle out in Japan.

71

00:06:07,000 --> 00:06:12,000

Within this area, incredible amount of weird things take place.

72

00:06:12,000 --> 00:06:20,000

We have paranormal activity, the appearance of strange cryptids and other monsters of time and space,

73

00:06:20,000 --> 00:06:28,000

as well as the manifestation of UFOs and mysterious lights.

74

00:06:28,000 --> 00:06:35,000

Commercial pilot Theo Chesley has been flying in Alaska for nearly four decades,

75

00:06:35,000 --> 00:06:39,000

and had heard countless stories of bizarre aerial encounters.

76

00:06:39,000 --> 00:06:45,000

But Chesley remained a skeptic until 2019,

77

00:06:45,000 --> 00:06:51,000

when he had his own astonishing experience flying by Mount Chisholm,

78

00:06:51,000 --> 00:06:55,000

an active volcano on Unimac Island in the Aleutians.

79

00:06:55,000 --> 00:07:05,000

The morning in late October 2019, we had a normal charter flight from San Point direct to Dutch Harbor,

80

00:07:05,000 --> 00:07:07,000

with three passengers aboard.

81

00:07:07,000 --> 00:07:11,000

About halfway through the flight, we're approaching the volcano from the north.

82

00:07:11,000 --> 00:07:15,000

Weather that day was fairly good, good visibility,

83

00:07:15,000 --> 00:07:21,000

and we saw something in the sky about 15 miles south of the volcano.

84

00:07:23,000 --> 00:07:30,000

A horizontal disc-shaped object that was very symmetrical, just almost perfect symmetry.

85

00:07:30,000 --> 00:07:38,000

As we continued on our flight path, the disc became more prevalent

86

00:07:39,000 --> 00:07:42,000

and turned into a vertical fashion.

87

00:07:42,000 --> 00:07:49,000

We knew something extraordinary was happening in front of us, just not quite certain what.

88

00:07:49,000 --> 00:07:56,000

As Chesley and his three passengers observed the strange disc-shaped object,

89

00:07:56,000 --> 00:08:03,000

they were shocked to see a second anomaly, one that appeared to come out of the mouth of the volcano.

90

00:08:04,000 --> 00:08:10,000

We noticed something fly out of the crater of the mountain inside of a shrouded wisp of white smoke.

91

00:08:12,000 --> 00:08:17,000

Almost around that same time, a green spear exhibited itself on the side of the mountain,

92

00:08:17,000 --> 00:08:23,000

and as all this was taking place, this object flew into the vertical spear

93

00:08:23,000 --> 00:08:27,000

and pulled it out of shape in a teardrop fashion.

94

00:08:27,000 --> 00:08:31,000

At that point, we decided we did not want to stay in loiter

95

00:08:31,000 --> 00:08:36,000

and maybe have to deal with some different consequences that we weren't going to be prepared for.

96

00:08:37,000 --> 00:08:44,000

Cutsightings like Theo Chesley's shed light on Alaska's strange history of unexplained phenomena,

97

00:08:44,000 --> 00:08:49,000

disappearances, and even seemingly impossible creatures.

98

00:08:49,000 --> 00:08:51,000

Perhaps further clues can be found.

99

00:08:51,000 --> 00:08:57,000

By examining the pictures Chesley took of what he and his passengers witnessed

100

00:08:57,000 --> 00:09:03,000

and his report of a second mysterious encounter.

101

00:09:08,000 --> 00:09:16,000

Pilot Theo Chesley has reported one of the most significant and credible UFO sightings in recent Alaskan history.

102

00:09:17,000 --> 00:09:22,000

The incident caught the attention of author and researcher David Chondras,

103

00:09:22,000 --> 00:09:28,000

who traveled to Anchorage to meet with Chesley and examine the evidence of his heroic encounter.

104

00:09:46,000 --> 00:09:50,000

Well, we had a flight back in October 2019.

105

00:09:50,000 --> 00:09:53,000

We were northeast of the mountain.

106

00:09:53,000 --> 00:09:55,000

We were probably 30 miles from the mountain.

107

00:09:55,000 --> 00:10:01,000

We spotted something in the sky, and this is what we saw.

108

00:10:03,000 --> 00:10:05,000

Did it seem to have a cloud around it?

109

00:10:05,000 --> 00:10:10,000

No, it had like a tail on it, a little bit of a wisp coming out of the back.

110

00:10:10,000 --> 00:10:14,000

So I'm looking at it going, okay, what is that?

111

00:10:14,000 --> 00:10:23,000

As we started to come towards the mountain and fly by it, this horizontal disc turned vertical

112

00:10:23,000 --> 00:10:27,000

and came over and sort of parked by the mountain and held its shape.

113

00:10:27,000 --> 00:10:29,000

So it had been moving and then it stopped?

114

00:10:29,000 --> 00:10:35,000

It stopped by the volcano, so I'm like looking at it going, okay, if this is a smoke ring, it's not going to hold its shape.

115

00:10:35,000 --> 00:10:40,000

It's not going to stop. It's going to dissipate. It held its shape the whole time.

116

00:10:41,000 --> 00:10:44,000

And had you ever seen anything like this before?

117

00:10:44,000 --> 00:10:53,000

I had been flying about 35 years and 15,000 hours of flight time, most of them in Alaska, and I had never seen anything like this.

118

00:10:53,000 --> 00:10:57,000

Then we had something fly out of the mountain.

119

00:10:57,000 --> 00:10:59,000

Now the mountain?

120

00:10:59,000 --> 00:11:00,000

A second object.

121

00:11:00,000 --> 00:11:02,000

A second object.

122

00:11:02,000 --> 00:11:05,000

So this object flies out of the mountain.

123

00:11:05,000 --> 00:11:10,000

And at the same time, we're still watching the spear that's vertically parked.

124

00:11:10,000 --> 00:11:12,000

And it's like, it's right over here.

125

00:11:12,000 --> 00:11:17,000

As a matter of fact, I'll show you another picture here that just kind of puts it all together.

126

00:11:17,000 --> 00:11:18,000

Okay.

127

00:11:18,000 --> 00:11:22,000

Okay, so then this appeared on the side of the mountain.

128

00:11:22,000 --> 00:11:26,000

This green orb shows up on the side of the mountain in a lower spot.

129

00:11:27,000 --> 00:11:34,000

The next picture we take, this is what happened to the vertical sphere in the sky.

130

00:11:34,000 --> 00:11:38,000

Something flew inside of it and pulled it out of shape.

131

00:11:38,000 --> 00:11:42,000

You see these two little, I don't know, there's like two little wings out there.

132

00:11:42,000 --> 00:11:48,000

And we like looked at that and I said, no, we're done here. We are leaving the scene here.

133

00:11:48,000 --> 00:11:55,000

And to be honest, you know, my concern level was going about through the roof at that point.

134

00:11:55,000 --> 00:11:58,000

Did it seem like a very large object then?

135

00:11:58,000 --> 00:12:03,000

This is a big mountain and this was something that caught our eye 40 to 50 miles away.

136

00:12:03,000 --> 00:12:06,000

Okay, that's a, you know, it's like 40 to 50 miles away.

137

00:12:06,000 --> 00:12:10,000

So this had to be almost, I want to guess, half a mile wide.

138

00:12:10,000 --> 00:12:11,000

Wow, that's fascinating.

139

00:12:11,000 --> 00:12:20,000

And you know, when it comes to UFO type objects around volcanoes, that's a common thing.

140

00:12:21,000 --> 00:12:31,000

One of the first modern UFO sightings on record involved an entire squadron of vehicles that appeared to enter a volcano.

141

00:12:31,000 --> 00:12:41,000

On June 24th, 1947, Kenneth Arnold was flying his private plane near Mount Rainier in Washington.

142

00:12:41,000 --> 00:12:48,000

When he witnessed nine disc shaped objects move at an impossible speed across the horizon.

143

00:12:48,000 --> 00:12:54,000

Then disappear into a nearby volcano called Mount Adams.

144

00:12:54,000 --> 00:12:59,000

There has been a lot of UFO sightings around volcanoes.

145

00:12:59,000 --> 00:13:07,000

And we've seen this in the Canary Islands, in Mexico, in South America.

146

00:13:07,000 --> 00:13:11,000

You have other places like say, Mount Shasta.

147

00:13:11,000 --> 00:13:14,000

And we're seeing it in Hawaii too.

148

00:13:14,000 --> 00:13:20,000

Where UFOs are seen and there's a lot of activity.

149

00:13:20,000 --> 00:13:26,000

I mean, it definitely makes you wonder, okay, what's in this volcano?

150

00:13:26,000 --> 00:13:28,000

What is the attraction here?

151

00:13:28,000 --> 00:13:31,000

And the crazy thing is, is this was just the first occurrence.

152

00:13:31,000 --> 00:13:32,000

We had a second occurrence.

153

00:13:32,000 --> 00:13:33,000

Okay.

154

00:13:33,000 --> 00:13:38,000

Six months later, I'm by myself in a different aircraft.

155

00:13:38,000 --> 00:13:45,000

And I looked out of my left window and all of a sudden there is a huge cloud formation that came out of nowhere.

156

00:13:45,000 --> 00:13:48,000

And that's right, kind of above the volcano.

157

00:13:48,000 --> 00:13:50,000

Above and east of the mountain.

158

00:13:50,000 --> 00:13:52,000

But I've never seen anything like this in my life.

159

00:13:52,000 --> 00:13:55,000

It was a clear sky without anything and suddenly you saw this.

160

00:13:55,000 --> 00:13:57,000

Well, you saw the picture.

161

00:13:57,000 --> 00:14:05,000

That picture that I took, clear sky, was a minute before this decided to show up.

162

00:14:05,000 --> 00:14:12,000

So the crazy part is, this cloud morphed into several different shapes.

163

00:14:12,000 --> 00:14:18,000

There looks like something black inside there, an object underneath this thing.

164

00:14:18,000 --> 00:14:26,000

During the occurrence, I had the aircraft on autopilot and the aircraft was flying straight and true.

165

00:14:26,000 --> 00:14:31,000

My route of flight took me back by the mountain again.

166

00:14:31,000 --> 00:14:41,000

As I'm coming back, I have the aircraft on autopilot and I looked down and I noticed some 35 degrees off course heading towards the mountain.

167

00:14:41,000 --> 00:14:47,000

I shut the autopilot off, reset the heading, set the airplane back up on course.

168

00:14:47,000 --> 00:14:49,000

And okay, yeah, we're fine.

169

00:14:49,000 --> 00:14:58,000

I'm looking around again, trying to see if there's anything and I looked down and we're heading back towards the mountain again.

170

00:14:58,000 --> 00:15:00,000

It happened two times.

171

00:15:00,000 --> 00:15:03,000

So at that point I go, oh, no, this something's not right here.

172

00:15:03,000 --> 00:15:08,000

I'm going to hand fly the aircraft and we're fine, hand flying the airplane.

173

00:15:08,000 --> 00:15:16,000

But I've never had that happen to me on an autopilot just pull the aircraft, you know, start pulling the aircraft somewhere where it's not supposed to be.

174

00:15:16,000 --> 00:15:24,000

So the autopilot then was somehow sensing some weird magnetic thing and pulling you then out of...

175

00:15:24,000 --> 00:15:28,000

Exactly. Something internally in the aircraft was feeling a magnetic pull.

176

00:15:28,000 --> 00:15:39,000

This sounds a lot like other things that have happened like say in the Bermuda Triangle or something like where their instruments do go AY or they're being taken off course without even knowing it.

177

00:15:39,000 --> 00:15:41,000

And suddenly they vanish, right?

178

00:15:41,000 --> 00:15:42,000

Very much so.

179

00:15:42,000 --> 00:15:45,000

To me this is a very important story.

180

00:15:45,000 --> 00:15:48,000

I'm so glad that you've been able to get these good photographs.

181

00:15:48,000 --> 00:15:55,000

You've got other witnesses and for 70 years there have been planes vanishing, even military planes.

182

00:15:55,000 --> 00:16:01,000

This all fits so squarely into the mystery which is Alaska.

183

00:16:04,000 --> 00:16:11,000

As an experienced pilot, Theo Chesley cannot explain what he saw on those two separate occasions.

184

00:16:11,000 --> 00:16:18,000

Nor explain the magnetic anomaly that interfered with his autopilot instrumentation.

185

00:16:18,000 --> 00:16:25,000

And to ancient astronaut theorist David Chondris, the photographic evidence is astounding.

186

00:16:25,000 --> 00:16:33,000

Theo, it's a great observer. You know that you're really getting good information and reliable information.

187

00:16:33,000 --> 00:16:38,000

This is all compelling evidence that something's happening here in Alaska.

188

00:16:39,000 --> 00:16:43,000

In the 37 years I've been flying I've seen a lot of things.

189

00:16:43,000 --> 00:16:50,000

I've been through a lot of storms, some great flights, some not so great flights.

190

00:16:50,000 --> 00:16:55,000

I'll be the first to tell you when you're saying you're seeing something, you're seeing something.

191

00:16:55,000 --> 00:17:02,000

I'm one of those kind of guys that have to see something that's extraordinary to believe it.

192

00:17:02,000 --> 00:17:08,000

And what I saw was just not anything ordinary at all.

193

00:17:09,000 --> 00:17:18,000

Could an extraterrestrial presence be responsible for the strange sightings and aircraft malfunction that Theo Chesley experienced?

194

00:17:18,000 --> 00:17:24,000

As well as other anomalous events and disappearances that plagued the area?

195

00:17:24,000 --> 00:17:40,000

Ancient astronaut theorists say yes and suggest that recently declassified CIA documents could hold clues to an alien presence under the mountains of Alaska.

196

00:17:41,000 --> 00:18:00,000

Alaska's Aleutian Islands, where pilot Theo Chesley encountered no less than four unidentified flying objects, is an area that has been known for strange sightings dating back to 1945.

197

00:18:00,000 --> 00:18:09,000

When a U.S. Army transport reported seeing a large UFO emerge from the waters near the island of Idok.

198

00:18:09,000 --> 00:18:20,000

Historically, there have been a lot of UFO sightings around the Aleutian Islands and there are 57

volcanoes throughout the Aleutian Islands.

199

00:18:20,000 --> 00:18:27,000

And it seems that some of these volcanoes have some very peculiar activity around them.

200

00:18:28,000 --> 00:18:36,000

But east of the Aleutian Islands is a large area that has become even more notorious or strange phenomenon.

201

00:18:36,000 --> 00:18:39,000

It is called the Alaska Triangle.

202

00:18:39,000 --> 00:18:51,000

The Alaska Triangle is an area roughly between Anchorage, Juneau and Barrow Alaska, more or less running along the border of the Canadian territories and the state of Alaska.

203

00:18:51,000 --> 00:19:02,000

The Alaska Triangle can be likened to the Bermuda Triangle where really strange things happen seemingly without explanation.

204

00:19:02,000 --> 00:19:15,000

Within this region of anomalous activity stands Mount Hayes, one of Alaska's tallest peaks and a place where UFO sightings are reported with great frequency.

205

00:19:15,000 --> 00:19:23,000

Many people have seen UFOs, flying saucers, strange lights flying in and around Mount Hayes.

206

00:19:23,000 --> 00:19:26,000

Now there's no road that can go up there.

207

00:19:26,000 --> 00:19:31,000

The only way to get to Mount Hayes is to actually fly there, which most people don't do.

208

00:19:31,000 --> 00:19:35,000

So what are these crap that are flying around Mount Hayes?

209

00:19:35,000 --> 00:19:44,000

For decades, eyewitness testimony was the only evidence to support the notion that Mount Hayes was a UFO hotspot.

210

00:19:44,000 --> 00:19:55,000

But in 1995, declassified documents revealed that Mount Hayes featured prominently in a top secret

government project called Stargate.

211

00:19:56,000 --> 00:20:05,000

Researchers were looking through CIA documents and they found evidence of a project underneath Mount Hayes.

212

00:20:05,000 --> 00:20:12,000

And they say they saw written in these records that it was actually an alien underground base in this area.

213

00:20:12,000 --> 00:20:21,000

Researchers were astounded to find a reference to an extraterrestrial base in official CIA documents.

214

00:20:22,000 --> 00:20:27,000

And just as intriguing is how this information was obtained.

215

00:20:27,000 --> 00:20:43,000

According to the declassified documents, the existence of an alien base beneath Mount Hayes was gleaned from a top secret experimental investigation technique used by Project Stargate, a technique called remote viewing.

216

00:20:43,000 --> 00:20:47,000

Remote viewing was used by the CIA all during the Cold War.

217

00:20:47,000 --> 00:20:59,000

And this is really a psychic projection technique where from one location, the remote viewer can look into a different place on the Earth's surface,

218

00:20:59,000 --> 00:21:05,000

is able to project his vision there and able to see what is going on.

219

00:21:05,000 --> 00:21:20,000

Project Stargate had a specific purpose of using remote viewers, quite literally psychic spies, to find information on what the Soviets were up to.

220

00:21:22,000 --> 00:21:28,000

The most famous remote viewer to come out of the Stargate project was a man named Pat Price.

221

00:21:29,000 --> 00:21:35,000

Price was the first to report what he believed to be an alien base under Mount Hayes.

222

00:21:35,000 --> 00:21:42,000

He would sit down and draw what he sees and he was deadly accurate on his predictions.

223

00:21:42,000 --> 00:21:55,000

One time Pat Price, remote viewed Mount Hayes, and saw that there was structures that were under the mountain, tubes, tunnels.

224

00:21:55,000 --> 00:21:59,000

And he was intrigued by that, so he went deeper.

225

00:22:00,000 --> 00:22:06,000

Pat Price saw within Mount Hayes what he described as geographical instrumentation.

226

00:22:06,000 --> 00:22:13,000

He saw computers. He also described these strange humanoid creatures that were within the mountain.

227

00:22:13,000 --> 00:22:20,000

And they were working alongside human personnel, which he believed were military personnel.

228

00:22:21,000 --> 00:22:26,000

Price began to fear that he had seen something he wasn't supposed to see.

229

00:22:27,000 --> 00:22:34,000

And told friends that his remote viewing of the secret base under Mount Hayes had put him in grave danger.

230

00:22:36,000 --> 00:22:47,000

In Las Vegas, just as he checked in to the Stardust, somebody deliberately bumped into him and he felt a sharp pain in his leg.

231

00:22:47,000 --> 00:22:56,000

And that evening he started to feel unwell. And the following morning he had convulsions and he died.

232

00:22:58,000 --> 00:23:06,000

What's really strange about Pat Price's death is that the hospital didn't even notify the wife and they had him cremated.

233

00:23:07,000 --> 00:23:22,000

I think it is fair and reasonable to ask the question if Pat Price's mysterious death does not enter into a long lineage of similar tragic deaths of people that are whistleblowers

234

00:23:22,000 --> 00:23:30,000

or are stepping out of line and saying things they shouldn't say about things they have witnessed or know about.

235

00:23:31,000 --> 00:23:43,000

Could the story of Pat Price and Project Stargate indicate that there may be a more profound connection between UFO sightings and Alaska's forbidding terrain?

236

00:23:44,000 --> 00:23:54,000

Perhaps further clues can be found by examining reports of an incredible structure believed to be hidden deep beneath North America's highest mountain range.

237

00:23:55,000 --> 00:23:59,000

A formation known as the Dark Pyramid.

238

00:24:01,000 --> 00:24:09,000

Shenzhen Province, northwestern China, May 21, 1992.

239

00:24:10,000 --> 00:24:19,000

In its race to become a major military power, China sets off the largest underground nuclear bomb test in the history of the nation.

240

00:24:20,000 --> 00:24:30,000

The one megaton blast, 70 times the explosive power of the atomic bomb dropped on Hiroshima, sends shockwaves across the planet.

241

00:24:31,000 --> 00:24:45,000

Thousands of miles away, scientists in the United States begin to study how these shockwaves travel through the Earth's crust, hoping to learn about underground faults and other hidden geological structures.

242

00:24:46,000 --> 00:24:55,000

As the shockwaves reach Alaska, scientists notice highly unusual readings around Mount Denali, North America's tallest peak.

243

00:24:57,000 --> 00:25:06,000

When these ripples of the shockwaves crossed over to Alaska, there was this pyramidal shape that came across their instrumentation,

244

00:25:06,000 --> 00:25:15,000

indicating this massive pyramidal structure located under Mount Denali within the area of the Alaska Triangle.

245

00:25:16,000 --> 00:25:19,000

This is really when the Dark Pyramid was first discovered.

246

00:25:20,000 --> 00:25:33,000

Seismic instruments revealed that the top of the 550-foot-tall pyramid shape lies 150 feet below ground, and just 130 miles southwest of Mount Hayes.

247

00:25:33,000 --> 00:25:39,000

Where remote viewer Pat Price claimed to have detected an underground alien base.

248

00:25:41,000 --> 00:25:57,000

Intrigued by the mysterious discovery, investigative journalist Linda Moulton-Hall began researching the curious findings and what might have compelled scientists to be prepared to record activity underneath Mount Denali.

249

00:25:58,000 --> 00:26:08,000

Why would geophysicists be interested in monitoring to see whether or not there was something underground in Alaska has always been a question in my mind.

250

00:26:10,000 --> 00:26:19,000

Was there already some information that our government had, and this was a perfect opportunity to take advantage of what the Chinese were going to do?

251

00:26:20,000 --> 00:26:36,000

In 2012, after discussing the so-called Dark Pyramid on the coast-to-coast radio show, Linda was contacted by Bruce Pearson, who said he had a story to tell her that might be connected to the alleged underground structure.

252

00:26:37,000 --> 00:26:51,000

I ended up talking with Bruce Pearson, and his father had been in the Navy and ended up describing that on a trip in Alaska.

253

00:26:52,000 --> 00:27:01,000

He met an old Navy pilot, and they talked for a few minutes, and the pilot said, we're just going to go out and do a drop-off.

254

00:27:01,000 --> 00:27:05,000

Why don't you come along and we'll talk all days?

255

00:27:06,000 --> 00:27:15,000

My dad was a very friendly guy, and I guess in Alaska people do things a little differently because there's a companionship that grows out of a survival mentality.

256

00:27:16,000 --> 00:27:28,000

In any event, he told me a bit. He was talking to the pilot, and the pilot said that they had to take a flight out to a secure secret installation.

257

00:27:29,000 --> 00:27:35,000

They had a couple of these, what he described, the silver containers that had to be delivered out

there.

258

00:27:36,000 --> 00:27:48,000

On the way out, he and the co-pilot advised my dad, he said, listen, we're told there's going to be a lot of magnetic interference, and that our instruments are going to go crazy, don't worry about it.

259

00:27:48,000 --> 00:27:53,000

We were told to expect it, and we're flying VFR anyway, visual flight rules.

260

00:27:53,000 --> 00:28:13,000

Bruce said, while his father was telling him the story he began to shake, that when they got to this location, that the helicopter began to shake and roll like he felt that it should crash.

261

00:28:14,000 --> 00:28:29,000

But the helicopter pilot just kept reassuring him that he knew what was happening, and that there was a magnetic field anomaly under the ground, and that was what was causing this.

262

00:28:30,000 --> 00:28:34,000

When they landed, these guys came out with black uniforms on, no insignias, didn't say anything.

263

00:28:35,000 --> 00:28:45,000

Men came, they grabbed all this heavy stuff in there, they put some stuff back in the helicopter, it all happened very fast, bang, and they're out of there.

264

00:28:46,000 --> 00:28:53,000

My father said the odd thing was they didn't even get out of the helicopter, fueled it up, and they took off again. They never even shut the chopper down.

265

00:28:54,000 --> 00:28:59,000

That's not standard procedure. This is not wartime conditions where you refuel with the aircraft running.

266

00:28:59,000 --> 00:29:10,000

So it was very bizarre. He didn't call me until a couple days later and told me about it, and I said, wow, what do you think it was? He goes, I don't know.

267

00:29:11,000 --> 00:29:21,000

That Bruce Pearson story was in the area of Mount Denali, the same area having to do with the dark pyramid possibly underground.

268

00:29:22,000 --> 00:29:32,000

Over the years, Linda has interviewed a number of other people, claiming to have information about a mysterious underground structure near Mount Denali.

269

00:29:33,000 --> 00:29:39,000

One account came from a man who claimed his father has actually been inside the dark pyramid.

270

00:29:40,000 --> 00:29:57,000

He said that his father was working for Western Electric and ended up as a very skilled electronic engineer being asked to go to a location west of what was Mount Denali.

271

00:29:58,000 --> 00:30:14,000

His father told them that there was a big freight elevator that was sticking up out of the ground, and when he got to the bottom, opened up into full bore room work offices.

272

00:30:15,000 --> 00:30:32,000

The father is introduced to the fact that they are at the bottom of a pyramid, and that at each of the three corners, they had these offices that were actually monitoring energy.

273

00:30:33,000 --> 00:30:52,000

And the father tells the son who got in touch with me, we are measuring energy coming out of this pyramid that is enough to power the entire country of Canada.

274

00:30:53,000 --> 00:30:59,000

Could a secret energy source be hidden under the Mount Denali mountain range?

275

00:30:59,000 --> 00:31:13,000

Perhaps clues can be found by examining electromagnetic anomalies that have in fact been detected throughout a vast region surrounding the area where the dark pyramid is said to exist.

276

00:31:14,000 --> 00:31:23,000

This very strange localized magnetic anomaly seems to occur randomly, transiently, and at different locations throughout this vast wilderness.

277

00:31:23,000 --> 00:31:28,000

So much so that the north will be off as much as 30 degrees.

278

00:31:28,000 --> 00:31:31,000

So what's causing these magnetic anomalies?

279

00:31:31,000 --> 00:31:39,000

There are a lot of people who believe that there could be unusual phenomena originating from technology inside this so-called dark pyramid.

280

00:31:40,000 --> 00:31:49,000

Is it possible that there is an ancient pyramid hidden deep under Mount Denali that is generating massive amounts of energy?

281

00:31:49,000 --> 00:32:04,000

And if so, could this structure, along with a secret base, alleged to exist beneath the ground at nearby Mount Hayes, point to an alien presence in Alaska that dates back thousands of years?

282

00:32:05,000 --> 00:32:20,000

Ancient astronaut theorists say yes and suggest that clues to who or what this presence may be can be found in the Inuit stories of contact with sky gods and other worldly beings.

283

00:32:21,000 --> 00:32:36,000

Alaska is home to dozens of indigenous Native American cultures who have inhabited the area for hundreds and in some cases, thousands of years.

284

00:32:36,000 --> 00:32:41,000

There are of course a number of different Native American cultures in Alaska.

285

00:32:42,000 --> 00:32:46,000

You have the Inuit people of the northern coastal regions.

286

00:32:46,000 --> 00:32:57,000

You have the Athabascans of the central Alaskan region, the Yupik people, and then in southeast Alaska you have the Klinket and the Haida tribes.

287

00:33:00,000 --> 00:33:04,000

Each of the Native Alaskan tribes has its own unique traditions.

288

00:33:05,000 --> 00:33:12,000

But these separate cultures all tell stories of the sky people, encountered by their earliest ancestors.

289

00:33:14,000 --> 00:33:20,000

I was stationed in Alaska from 1992 to 1995 as part of the United States Air Force at Elmador Fair Force Base.

290

00:33:22,000 --> 00:33:26,000

And I heard the local legends and lore from the Natives up there.

291

00:33:26,000 --> 00:33:34,000

And local legends dating back centuries talk about strange lights in the sky and strange beings visiting the people.

292

00:33:37,000 --> 00:33:45,000

These cultures had rich stories about contact with beings from beyond this planet, the so-called star people.

293

00:33:46,000 --> 00:33:56,000

Along with stories of star people, many Native Alaskan tribes also have ancient traditions of giant winged beasts descending from the sky.

294

00:33:58,000 --> 00:34:06,000

Alaska has a bounty of strange legends and modern reports of giant winged creatures like thunderbirds that are said to swoop down and snatch people off of peaks.

295

00:34:07,000 --> 00:34:14,000

The thunderbird goes back into deep, deep history of Native American original cultures.

296

00:34:15,000 --> 00:34:26,000

And the thunderbird was not only gigantic in size, but oftentimes was also described as making this incredible thunderous noise.

297

00:34:27,000 --> 00:34:35,000

And sometimes out of the eyes, these beams of light would shoot out.

298

00:34:38,000 --> 00:34:49,000

Is it possible that our ancestors witnessed a technological device and misinterpreted it as a biological entity?

299

00:34:50,000 --> 00:34:52,000

And the answer is a resounding yes.

300

00:34:52,000 --> 00:34:57,000

Mind you, pilots today are referring to their airplanes as birds.

301

00:34:59,000 --> 00:35:10,000

Ancient Alaskan stories of strange entities in the sky and visitors from the stars are perfectly alive with a kind of phenomena that have been reported in modern times.

302

00:35:11,000 --> 00:35:15,000

As are accounts of bizarre otherworldly creatures.

303

00:35:16,000 --> 00:35:23,000

There is a common thread that runs through the Alaska story and it has to do with these supernatural creatures.

304

00:35:24,000 --> 00:35:31,000

They have eyewitness accounts of these bizarre, terrifying creatures that appear in all their tribal stories.

305

00:35:32,000 --> 00:35:37,000

By far the most frightening creature is the Inuit story of the Kushtaka.

306

00:35:38,000 --> 00:35:45,000

This is a being that shapeshifts and people have been seeing them for thousands of years.

307

00:35:47,000 --> 00:35:59,000

When considering the high number of UFO sightings that have been reported in Alaska, is it possible that the stories of strange creatures have an otherworldly explanation?

308

00:36:00,000 --> 00:36:15,000

As further support for this notion, ancient astronaut theorists point out that some native Alaskan legends sound suspiciously similar to modern tales of small grey aliens who sometimes abduct humans.

309

00:36:16,000 --> 00:36:23,000

No creature is more frightening to them than the little people which go by a number of different native names, the Anukins, Urchin Rock, Jinxiao.

310

00:36:24,000 --> 00:36:32,000

Perhaps what's most terrifying is that they are said to abduct humans and that they will take them to another realm where they can actually control time.

311

00:36:33,000 --> 00:36:36,000

And these little beings are actually imbued with other magical powers.

312

00:36:37,000 --> 00:36:41,000

The common thread that runs through those stories is the idea of abduction.

313

00:36:42,000 --> 00:36:51,000

That is a direct crossover into the UFO phenomena where people are terrified of UFOs because they've heard that these alien beings are abducting people.

314

00:36:54,000 --> 00:37:08,000

According to some researchers, the many accounts of strange beings in Alaska could also point to the existence of a portal or wormhole, leading to other points in the universe or even alternate dimensions.

315

00:37:09,000 --> 00:37:20,000

There's a theory that extraterrestrials would use wormholes, scientifically known as Einstein-Rosen bridges, a shortcut through space-time.

316

00:37:21,000 --> 00:37:32,000

And UFOs would then apparently arrive out of nowhere seemingly and disappear into nowhere, which is very often what you get in some of the sighting reports.

317

00:37:33,000 --> 00:37:50,000

And I would die to have some answer to this puzzle in Alaska. I don't. But there's something there. There's something that doesn't add up that isn't able to be explained in the prosaic, in my mind.

318

00:37:51,000 --> 00:38:03,000

Could the legends of the native Alaskan people, revealed that strange and perhaps otherworldly phenomena, have been happening in this part of the world for thousands of years?

319

00:38:04,000 --> 00:38:10,000

As far as ancient astronaut theorists are concerned, the answer is a resounding yes.

320

00:38:11,000 --> 00:38:20,000

And they suggest that Alaska's remote location makes it a prime destination for extraterrestrial visitors.

321

00:38:25,000 --> 00:38:38,000

According to ancient astronaut theorists, the question of why more strange phenomena is reported in Alaska than most other places on Earth may have a very simple answer.

322

00:38:39,000 --> 00:38:51,000

They suggest Alaska's remote location and a dense wilderness would make it an ideal destination for

otherworldly visitors who want to remain on the planet undetected.

323

00:38:52,000 --> 00:39:02,000

Alaska is a very remote area. You don't have a lot of people around, and so this could absolutely make it an attractive location to extraterrestrials.

324

00:39:03,000 --> 00:39:17,000

You have all of these volcanoes. You have huge areas that are uninhabited. And it's such a huge frontier region that, you know, all kinds of things could be happening there.

325

00:39:19,000 --> 00:39:28,000

There's a lot of crazy things going on around the whole state, and a lot of these occurrence happen in very remote parts of the state.

326

00:39:29,000 --> 00:39:36,000

So that adds even more intrigue, and I wouldn't discount any stories at this point.

327

00:39:37,000 --> 00:39:41,000

There's just too much out there that you can't discount some of this.

328

00:39:43,000 --> 00:39:48,000

Having worked in Alaska, I can certainly attest to the fact that it is a very dangerous place.

329

00:39:49,000 --> 00:40:04,000

However, there is a real mystery in terms of the state of Alaska. There have been many UFO reports and, of course, inferences to possible UFO abduction, and many of these are supported by Native American traditions that go back hundreds of years.

330

00:40:05,000 --> 00:40:09,000

So we could be dealing with forces beyond our current understanding.

331

00:40:10,000 --> 00:40:28,000

In Alaska, when you bring in evidences gathered from a nuts and bolts standpoint, from the physics standpoint, from the dark pyramid, the fact of magnetic anomalies, or any of the other factors that may be involved here,

332

00:40:28,000 --> 00:40:43,000

it is not reasonable that an educated person taking as objective as possible a view at these incidents could dismiss the possibility that these incidents, in some cases, may be UFO related.

333

00:40:44,000 --> 00:40:54,000

And that is something that should take anyone's breath away or make them pause and think seriously about the earth that we live on.

334

00:40:55,000 --> 00:41:15,000

Modern technology has contributed by leaps and bounds to the search for extraterrestrial intelligence because we have satellite and radar technology with which we can now look into space with more clarity than in all of our previous human history.

335

00:41:16,000 --> 00:41:31,000

And I wish that scientists would at some point train their satellites toward Alaska to see what's going on because clearly something is going on.

336

00:41:32,000 --> 00:41:40,000

Mysterious disappearances, strange creatures, a secret base, an underground pyramid.

337

00:41:41,000 --> 00:41:50,000

Could all the unusual reports coming from Alaska, along with numerous UFO sightings, be connected to an extraterrestrial presence?

338

00:41:50,000 --> 00:42:06,000

Perhaps Alaska's vast and rugged wilderness, extreme weather, and sparse population make it the ideal location for alien life here on Earth.
