FEATURED REVIEW

★ 3/10

A travesty!

this edition of 'britain's closest encountererts' was frankly a travesty of a programme that attempted to pass off a famous possible ufo sighting and landing in north wales in January 1974 as being 'poacher's lamps'! Totally one sided in its presentation the documentary's makers featured numerous so called 'sceptics' but not a single ufologist was included to support the view that a very significant ufo incident occurred in north wales that night.

If the one sided nature of this programme was anything to go by it alas does not augur well for the rest of the series, which is set to look at other famous examples of ufo phenomenon in the uk such as the rendlesham forest incident, the welsh triangle and warminster ufo flap.

S1.E1 · Berwyn Mountain Mystery

Wed, Jul 2, 2008

On the evening of 23 January 1974, the quiet Welsh village of Llandrillo was rocked by a loud explosion and impact. The police were inundated with 999 calls, and it was at first assumed that a plane had crashed on the nearby Berwyn Mountains. Witnesses came forward and described a bright, spherical object arcing across the sky. A local nurse gave her account of seeing a large glowing ball of light on the mountainside. The military became involved, and rumours began to circulate that this was a UFO, not a plane. At the same time, geologists theorised that this was an earth tremor - the impact had been measured at 3.5 on the Richter scale, and bright flashes of light often
