**Calling All Beings**

1  
00:00:32,790 --> 00:00:09,150  
calling all beings y'all

2  
00:00:38,630 --> 00:00:36,150  
yeah welcome back to calling all beings

3  
00:00:41,270 --> 00:00:38,640  
baby i'm your host dj here with my

4  
00:00:42,869 --> 00:00:41,280  
amazing co-host nathan y'all about to

5  
00:00:45,910 --> 00:00:42,879  
know him because he's gonna be on that

6  
00:00:46,869 --> 00:00:45,920  
ufo podcast with andy everybody's about

7  
00:00:48,549 --> 00:00:46,879  
to know

8  
00:00:49,830 --> 00:00:48,559  
thank you so much it's such a i'm so

9  
00:00:52,869 --> 00:00:49,840  
happy that you're going to be going on

10  
00:00:54,229 --> 00:00:52,879  
there nathan thanks man all right

11  
00:00:56,229 --> 00:00:54,239  
and and you know what's going to happen

12  
00:00:58,470 --> 00:00:56,239  
it's about to get real up in here right

13  
00:01:00,389 --> 00:00:58,480

um that's what i heard yeah because we

14

00:01:02,470 --> 00:01:00,399

having the man himself

15

00:01:03,510 --> 00:01:02,480

what we're talking about man this man

16

00:01:05,509 --> 00:01:03,520

okay

17

00:01:07,590 --> 00:01:05,519

this man you know what you notice i'm

18

00:01:09,590 --> 00:01:07,600

wearing black tonight very professional

19

00:01:12,789 --> 00:01:09,600

yeah because this man operates in the

20

00:01:17,270 --> 00:01:14,950

you know what i'm saying this man here

21

00:01:20,149 --> 00:01:17,280

for an appetizer in the air force he was

22

00:01:22,550 --> 00:01:20,159

a combat controller the most difficult

23

00:01:25,109 --> 00:01:22,560

school physically and mentally in the

24

00:01:27,030 --> 00:01:25,119

air force bar none sorry pjs i hope

25

00:01:31,350 --> 00:01:27,040

you're not mad at me and and then after

26  
00:01:32,630 --> 00:01:31,360  
that he was an afosi special agent so

27  
00:01:35,350 --> 00:01:32,640  
party people

28  
00:01:37,749 --> 00:01:35,360  
put your hands together

29  
00:01:39,270 --> 00:01:37,759  
for new mexico's own

30  
00:01:43,990 --> 00:01:39,280  
mr rick

31  
00:01:47,270 --> 00:01:45,510  
yes

32  
00:01:49,990 --> 00:01:47,280  
rick dodie

33  
00:01:52,069 --> 00:01:50,000  
yes jimmy church okay you had him first

34  
00:01:54,149 --> 00:01:52,079  
but we got him now baby look at this i

35  
00:01:56,709 --> 00:01:54,159  
got some air i could i could have i

36  
00:01:58,709 --> 00:01:56,719  
could have some dark hair i you know i

37  
00:02:01,510 --> 00:01:58,719  
may not have the cool guitars on the

38  
00:02:02,870 --> 00:02:01,520

wall but what i do have is

39

00:02:05,109 --> 00:02:02,880

uh

40

00:02:07,350 --> 00:02:05,119

hey rick so so anyway rick

41

00:02:08,869 --> 00:02:07,360

how you doing it's so nice to have you

42

00:02:11,270 --> 00:02:08,879

great to have you on rick

43

00:02:13,430 --> 00:02:11,280

great introduction thanks

44

00:02:15,270 --> 00:02:13,440

see we're bringing it real we're not

45

00:02:18,309 --> 00:02:15,280

messing around rick we're not messing

46

00:02:20,229 --> 00:02:18,319

around uh but no we love to have fun we

47

00:02:21,830 --> 00:02:20,239

like to have our um

48

00:02:23,589 --> 00:02:21,840

and you'll see my voice will calm down

49

00:02:24,630 --> 00:02:23,599

i'll sound like a normal person

50

00:02:30,470 --> 00:02:24,640

but

51  
00:02:32,710 --> 00:02:30,480  
our ufo talk which we absolutely love

52  
00:02:34,710 --> 00:02:32,720  
and respect with a touch of humor

53  
00:02:37,190 --> 00:02:34,720  
because that's authentic and as soon as

54  
00:02:39,270 --> 00:02:37,200  
you're not authentic then uh people like

55  
00:02:41,509 --> 00:02:39,280  
you can sniff out that somebody's a fake

56  
00:02:43,589 --> 00:02:41,519  
and uh listeners also can sniff that out

57  
00:02:46,630 --> 00:02:43,599  
that aren't as astute as yourself and uh

58  
00:02:47,990 --> 00:02:46,640  
that's not us so with that um it's it's

59  
00:02:50,309 --> 00:02:48,000  
a pleasure to have you

60  
00:02:52,229 --> 00:02:50,319  
rick first question and we're gonna pass

61  
00:02:53,670 --> 00:02:52,239  
it back and forth between my brilliant

62  
00:02:56,229 --> 00:02:53,680  
co-host and i

63  
00:02:59,670 --> 00:02:56,239

so you were a combat controller before

64

00:03:05,030 --> 00:03:01,430

no no no no i was

65

00:03:07,589 --> 00:03:05,040

i was a combat controller before i went

66

00:03:08,949 --> 00:03:07,599

into osi that's i was in a regular air

67

00:03:11,350 --> 00:03:08,959

force first

68

00:03:12,790 --> 00:03:11,360

yeah and uh then i got out went to

69

00:03:15,190 --> 00:03:12,800

college

70

00:03:16,070 --> 00:03:15,200

and then i joined osi

71

00:03:20,630 --> 00:03:16,080

okay

72

00:03:23,110 --> 00:03:20,640

that's how it happened

73

00:03:24,949 --> 00:03:23,120

but that's like is that not the hardest

74

00:03:27,030 --> 00:03:24,959

the hardest school the air force has was

75

00:03:27,910 --> 00:03:27,040

combat control

76

00:03:30,949 --> 00:03:27,920

well

77

00:03:35,830 --> 00:03:30,959

yeah it is uh i believe it was uh back

78

00:03:37,350 --> 00:03:35,840

then and but i came in uh back in 1968

79

00:03:38,309 --> 00:03:37,360

69

80

00:03:42,789 --> 00:03:38,319

what

81

00:03:45,509 --> 00:03:42,799

are you doing i'm 71 years old believe

82

00:03:49,030 --> 00:03:45,519

it or not yes i am incredible

83

00:03:51,509 --> 00:03:49,040

he looks like he's i keep in shape

84

00:03:53,270 --> 00:03:51,519

yeah but but back in those days uh

85

00:03:55,589 --> 00:03:53,280

combat controllers

86

00:03:58,149 --> 00:03:55,599

uh we were we were called conte back

87

00:04:00,789 --> 00:03:58,159

controllers but we were uh

88

00:04:01,830 --> 00:04:00,799

assigned to ford air controller units

89

00:04:05,030 --> 00:04:01,840

um

90

00:04:07,589 --> 00:04:05,040

and tactical control flight units

91

00:04:08,550 --> 00:04:07,599

and a lot of our training was army

92

00:04:11,030 --> 00:04:08,560

training

93

00:04:14,789 --> 00:04:11,040

this is 6869 time frame

94

00:04:17,590 --> 00:04:14,799

so the air force didn't have the program

95

00:04:19,670 --> 00:04:17,600

they have now and special tactics

96

00:04:21,590 --> 00:04:19,680

uh back in those days

97

00:04:24,230 --> 00:04:21,600

back in those days when you go through

98

00:04:25,590 --> 00:04:24,240

went to what the basic training and you

99

00:04:29,110 --> 00:04:25,600

were selected

100

00:04:31,110 --> 00:04:29,120

for a special operations uh assignment

101  
00:04:33,510 --> 00:04:31,120  
you went to a personal

102  
00:04:37,670 --> 00:04:33,520  
assessment course at lachlan

103  
00:04:39,430 --> 00:04:37,680  
and they cons it consisted of pj

104  
00:04:40,550 --> 00:04:39,440  
combat controllers and tactical

105  
00:04:42,390 --> 00:04:40,560  
intelligence

106  
00:04:45,270 --> 00:04:42,400  
pipeline students

107  
00:04:46,070 --> 00:04:45,280  
and so out of my flight there were 54 of

108  
00:04:47,670 --> 00:04:46,080  
us

109  
00:04:49,430 --> 00:04:47,680  
uh and you go through

110  
00:04:51,110 --> 00:04:49,440  
everyone went through the same

111  
00:04:55,030 --> 00:04:51,120  
introductory training you had to go

112  
00:04:57,909 --> 00:04:55,040  
through swim a swim uh uh course

113  
00:04:59,189 --> 00:04:57,919

the the uh altitude chamber

114

00:05:01,510 --> 00:04:59,199

um

115

00:05:04,310 --> 00:05:01,520

you carried the rope and the log every

116

00:05:05,670 --> 00:05:04,320

morning you did exercises and that at

117

00:05:07,670 --> 00:05:05,680

the um

118

00:05:12,550 --> 00:05:07,680

fifth week mark is a six week course is

119

00:05:16,230 --> 00:05:14,310

i wanted to be a combat controller

120

00:05:17,749 --> 00:05:16,240

because one of my brothers

121

00:05:20,150 --> 00:05:17,759

my brother was in the army but one of

122

00:05:21,430 --> 00:05:20,160

his best friends was a combat controller

123

00:05:23,590 --> 00:05:21,440

and so i wanted to be one of them

124

00:05:25,189 --> 00:05:23,600

everybody else wanted to be pjs

125

00:05:27,990 --> 00:05:25,199

and so they picked you

126

00:05:30,710 --> 00:05:28,000

and you went into one or the other the

127

00:05:32,550 --> 00:05:30,720

tactical intelligence specialists were

128

00:05:35,029 --> 00:05:32,560

all people with

129

00:05:37,670 --> 00:05:35,039

real funny last names and already spoke

130

00:05:39,990 --> 00:05:37,680

intelligent oh you spoke

131

00:05:43,350 --> 00:05:40,000

you knew where they were going got it

132

00:05:44,950 --> 00:05:43,360

chinese russian and and so forth and so

133

00:05:47,430 --> 00:05:44,960

uh that's how you picked and then from

134

00:05:50,629 --> 00:05:47,440

there you went to the pipeline school

135

00:05:53,510 --> 00:05:50,639

uh you went through uh jump school and

136

00:05:56,710 --> 00:05:53,520

uh and all the different uh courses in

137

00:05:58,950 --> 00:05:56,720

it it took about uh 60

138

00:06:00,230 --> 00:05:58,960

64 66 weeks

139

00:06:01,590 --> 00:06:00,240  
of training

140

00:06:03,270 --> 00:06:01,600  
yeah i knew it was over a year and

141

00:06:04,950 --> 00:06:03,280  
you're on flight status at that point

142

00:06:07,510 --> 00:06:04,960  
you're on right you're on flying status

143

00:06:09,029 --> 00:06:07,520  
so you're making i mean i have no doubt

144

00:06:10,469 --> 00:06:09,039  
rick if you would have continued in that

145

00:06:15,909 --> 00:06:10,479  
career field you would have ended up in

146

00:06:21,110 --> 00:06:19,430  
i was assigned to a unit in um

147

00:06:23,270 --> 00:06:21,120  
just before i got out i got out in

148

00:06:24,870 --> 00:06:23,280  
germany uh to uh

149

00:06:26,629 --> 00:06:24,880  
in bad tolts

150

00:06:28,790 --> 00:06:26,639  
uh to the

151

00:06:31,110 --> 00:06:28,800

612th tax control flight

152

00:06:34,629 --> 00:06:31,120

and that was a predecessor for

153

00:06:38,070 --> 00:06:34,639

was called project rainbow we had pjs we

154

00:06:40,870 --> 00:06:38,080

had tie caps technical air control party

155

00:06:42,710 --> 00:06:40,880

uh and we had uh uh

156

00:06:43,909 --> 00:06:42,720

the weather people the combat weather

157

00:06:46,550 --> 00:06:43,919

people

158

00:06:49,430 --> 00:06:46,560

which was something new uh

159

00:06:50,790 --> 00:06:49,440

and um we kind of got along i mean there

160

00:06:52,230 --> 00:06:50,800

were a few fights here and there you

161

00:06:55,029 --> 00:06:52,240

know with the pjs because they were all

162

00:06:57,350 --> 00:06:55,039

it was always our competition i knew it

163

00:06:59,670 --> 00:06:57,360

yeah yeah yeah yeah always our

164

00:07:02,550 --> 00:06:59,680

competition yeah we were the scarlet

165

00:07:05,189 --> 00:07:02,560

brays and they were the moon room praise

166

00:07:06,950 --> 00:07:05,199

and people would get us mixed up call us

167

00:07:08,710 --> 00:07:06,960

pjs or call them

168

00:07:10,469 --> 00:07:08,720

ccds

169

00:07:12,309 --> 00:07:10,479

people are angry

170

00:07:14,550 --> 00:07:12,319

now let me ask you let me ask a dumb

171

00:07:16,790 --> 00:07:14,560

question as a non-military person what

172

00:07:19,270 --> 00:07:16,800

what is a pj what i don't know what's

173

00:07:21,510 --> 00:07:19,280

the difference pj is a pair of rescue

174

00:07:24,150 --> 00:07:21,520

yeah their job was combat rescue search

175

00:07:26,790 --> 00:07:24,160

and rescue uh they would go out and and

176

00:07:29,430 --> 00:07:26,800

search uh for down pilots

177

00:07:30,390 --> 00:07:29,440

uh and and search and rescue on the

178

00:07:33,990 --> 00:07:30,400

ground

179

00:07:36,390 --> 00:07:34,000

uh they were real famous in vietnam

180

00:07:38,950 --> 00:07:36,400

did some remarkable things

181

00:07:41,749 --> 00:07:38,960

a lot of them uh i think there was two

182

00:07:43,110 --> 00:07:41,759

or three medal of honor winners among

183

00:07:44,790 --> 00:07:43,120

pjs

184

00:07:46,309 --> 00:07:44,800

in fact i have one

185

00:07:48,950 --> 00:07:46,319

living uh

186

00:07:51,350 --> 00:07:48,960

not too far from me who uh

187

00:07:54,950 --> 00:07:51,360

was uh one of the

188

00:07:55,749 --> 00:07:54,960

uh pjs who went in and rescued

189

00:08:01,589 --> 00:07:55,759

uh

190

00:08:05,110 --> 00:08:01,599

laos i don't know if you ever heard of

191

00:08:06,309 --> 00:08:05,120

lima site85 you i'm sure you know i i

192

00:08:08,309 --> 00:08:06,319

don't know if i've heard of that site

193

00:08:09,749 --> 00:08:08,319

but i knew there was things going on in

194

00:08:13,110 --> 00:08:09,759

laos that weren't supposed to be going

195

00:08:15,430 --> 00:08:13,120

on in laos yeah he was a pg out of uh

196

00:08:16,950 --> 00:08:15,440

play cool but he he went in and picked

197

00:08:19,350 --> 00:08:16,960

up but

198

00:08:21,990 --> 00:08:19,360

just just google lima site85 and you

199

00:08:23,990 --> 00:08:22,000

you'll you'll probably read a story okay

200

00:08:26,390 --> 00:08:24,000

that's what pjs did in combat

201  
00:08:28,230 --> 00:08:26,400  
controllers we were different although

202  
00:08:30,309 --> 00:08:28,240  
there were a lot of uh

203  
00:08:32,310 --> 00:08:30,319  
the same training we went through but

204  
00:08:33,190 --> 00:08:32,320  
combat controllers our model was first

205  
00:08:35,430 --> 00:08:33,200  
there

206  
00:08:36,790 --> 00:08:35,440  
we would be the terminal controllers on

207  
00:08:39,190 --> 00:08:36,800  
the ground

208  
00:08:41,829 --> 00:08:39,200  
uh in a combat area we were first there

209  
00:08:43,430 --> 00:08:41,839  
we would jump in and we would call in

210  
00:08:45,910 --> 00:08:43,440  
all the other aircrafts

211  
00:08:48,389 --> 00:08:45,920  
uh we would we would set them up in air

212  
00:08:50,949 --> 00:08:48,399  
air sectors and we would bring them in

213  
00:08:52,949 --> 00:08:50,959

troop drops cargo drops

214

00:08:54,389 --> 00:08:52,959

uh whatever we would set up what we call

215

00:08:56,949 --> 00:08:54,399

a box

216

00:08:59,190 --> 00:08:56,959

uh i'm sure dj knows all about this

217

00:09:01,350 --> 00:08:59,200

box where you you come in on a certain

218

00:09:03,910 --> 00:09:01,360

heading you drop your load and then you

219

00:09:06,949 --> 00:09:03,920

take off and and and then you would hold

220

00:09:09,430 --> 00:09:06,959

you in a particular pattern so we were

221

00:09:10,630 --> 00:09:09,440

we were a form of a combat uh

222

00:09:11,990 --> 00:09:10,640

uh

223

00:09:13,990 --> 00:09:12,000

traffic controller

224

00:09:15,670 --> 00:09:14,000

yep but but we had other missions we

225

00:09:16,870 --> 00:09:15,680

drove fire support missions where we

226

00:09:18,949 --> 00:09:16,880

would go in

227

00:09:20,870 --> 00:09:18,959

and we didn't have lasers back then now

228

00:09:22,550 --> 00:09:20,880

they have lasers they'd lose a target

229

00:09:25,670 --> 00:09:22,560

and the plane would come in and hit the

230

00:09:27,590 --> 00:09:25,680

target we had grid set patterns where

231

00:09:29,590 --> 00:09:27,600

we'd give them a magrid uh they would

232

00:09:30,790 --> 00:09:29,600

have the same map that we would have

233

00:09:31,829 --> 00:09:30,800

hopefully

234

00:09:33,269 --> 00:09:31,839

right yeah

235

00:09:35,990 --> 00:09:33,279

they would they would

236

00:09:38,949 --> 00:09:36,000

yeah exactly right yeah and so and

237

00:09:41,829 --> 00:09:38,959

that's what a a combat uh controller did

238

00:09:43,990 --> 00:09:41,839

and then tactical intelligence

239

00:09:45,990 --> 00:09:44,000  
they're i think they're called um

240

00:09:48,870 --> 00:09:46,000  
special reconnaissance now

241

00:09:50,790 --> 00:09:48,880  
uh but they would go into areas behind

242

00:09:53,269 --> 00:09:50,800  
the line so to speak

243

00:09:54,470 --> 00:09:53,279  
and because they were all linguists

244

00:09:57,190 --> 00:09:54,480  
and um

245

00:09:59,350 --> 00:09:57,200  
and and and operate behind the line and

246

00:10:00,870 --> 00:09:59,360  
then they had combat weather they would

247

00:10:03,110 --> 00:10:00,880  
jump in with us

248

00:10:04,630 --> 00:10:03,120  
uh and and they would be the weather

249

00:10:06,230 --> 00:10:04,640  
people on the ground

250

00:10:08,630 --> 00:10:06,240  
those are my favorite people and i used

251

00:10:11,030 --> 00:10:08,640

to go on trips rick uh like on the

252

00:10:13,030 --> 00:10:11,040

talons and we'd carry a linguist an

253

00:10:14,949 --> 00:10:13,040

intel linguist type person i always want

254

00:10:16,710 --> 00:10:14,959

to hang out eat dinner with them they're

255

00:10:18,949 --> 00:10:16,720

like so interesting they're so not air

256

00:10:19,829 --> 00:10:18,959

crew but they're the most fascinating

257

00:10:22,230 --> 00:10:19,839

people

258

00:10:23,910 --> 00:10:22,240

but um anyway all right we got to get

259

00:10:25,590 --> 00:10:23,920

into some ufos or people going to start

260

00:10:27,430 --> 00:10:25,600

throwing tomatoes

261

00:10:29,990 --> 00:10:27,440

at their screen right now i want to hear

262

00:10:31,829 --> 00:10:30,000

rip talk about crosstalk

263

00:10:33,910 --> 00:10:31,839

so i could go on about this other stuff

264

00:10:35,030 --> 00:10:33,920

all night this is fascinating oh i we

265

00:10:37,750 --> 00:10:35,040

haven't we haven't even scratched

266

00:10:39,670 --> 00:10:37,760

surface i told rick both and nathan his

267

00:10:41,670 --> 00:10:39,680

career was so much i i thought i had an

268

00:10:44,069 --> 00:10:41,680

exciting career flying talons his was

269

00:10:46,470 --> 00:10:44,079

much more exciting than mine but anyway

270

00:10:48,550 --> 00:10:46,480

go ahead nathan go ahead yeah well uh so

271

00:10:51,269 --> 00:10:48,560

yeah as a segue i mean how did you

272

00:10:52,550 --> 00:10:51,279

transition from combat control to air

273

00:10:55,110 --> 00:10:52,560

force osi

274

00:10:58,310 --> 00:10:55,120

how did they come to you did you seek

275

00:11:01,030 --> 00:10:58,320

that out how did that occur

276

00:11:02,150 --> 00:11:01,040

well my father uh i came from military

277

00:11:05,430 --> 00:11:02,160

family

278

00:11:08,389 --> 00:11:05,440

my father was a colonel uh an air force

279

00:11:10,230 --> 00:11:08,399

uh he was a pilot during korea he got

280

00:11:12,710 --> 00:11:10,240

shot down over korea

281

00:11:15,269 --> 00:11:12,720

uh he was rescued behind enemy lines by

282

00:11:16,550 --> 00:11:15,279

the greek army so he loves the greeks

283

00:11:19,430 --> 00:11:16,560

you can could never say anything bad

284

00:11:21,350 --> 00:11:19,440

about the greeks and then um

285

00:11:23,509 --> 00:11:21,360

he never flew again after that i mean it

286

00:11:26,150 --> 00:11:23,519

wasn't necessarily because he was

287

00:11:29,910 --> 00:11:26,160

injured but he just decided to branch

288

00:11:31,990 --> 00:11:29,920

off so he became a intelligence officer

289

00:11:34,470 --> 00:11:32,000

my father was originally

290

00:11:36,790 --> 00:11:34,480

his family was from massachusetts

291

00:11:37,750 --> 00:11:36,800

that my father went to amherst college

292

00:11:40,230 --> 00:11:37,760

okay

293

00:11:42,389 --> 00:11:40,240

and before he went in the military he

294

00:11:43,990 --> 00:11:42,399

was interested in languages so he

295

00:11:45,910 --> 00:11:44,000

he studied russian

296

00:11:47,990 --> 00:11:45,920

i am hearst that back in those days was

297

00:11:49,430 --> 00:11:48,000

a pretty pretty big language school area

298

00:11:50,550 --> 00:11:49,440

i mean if you wanted to learn in

299

00:11:53,430 --> 00:11:50,560

language or

300

00:11:55,750 --> 00:11:53,440

so he's he he majored in russian studies

301  
00:11:57,829 --> 00:11:55,760  
and this is in the 40s when right after

302  
00:12:00,310 --> 00:11:57,839  
the world war ii

303  
00:12:03,030 --> 00:12:00,320  
and um so i was a military brat so to

304  
00:12:05,350 --> 00:12:03,040  
speak my dad went into intelligence

305  
00:12:06,310 --> 00:12:05,360  
uh he was intelligence his entire career

306  
00:12:09,430 --> 00:12:06,320  
other than

307  
00:12:10,629 --> 00:12:09,440  
a few years he he was in as a pilot

308  
00:12:13,750 --> 00:12:10,639  
and um

309  
00:12:15,430 --> 00:12:13,760  
he wasn't osi but he was in uh

310  
00:12:17,829 --> 00:12:15,440  
in uh

311  
00:12:21,030 --> 00:12:17,839  
offensive intelligence collectors

312  
00:12:23,190 --> 00:12:21,040  
uh he spoke fluent russian fluent german

313  
00:12:25,030 --> 00:12:23,200

uh spoke some check

314

00:12:26,870 --> 00:12:25,040

we spent a lot of time in germany in

315

00:12:29,509 --> 00:12:26,880

fact we were in germany when

316

00:12:31,590 --> 00:12:29,519

uh kennedy was assassinated oh well he

317

00:12:33,269 --> 00:12:31,600

was we were assigned a v span

318

00:12:35,990 --> 00:12:33,279

and um

319

00:12:38,629 --> 00:12:36,000

so when i uh i got out of the regular

320

00:12:40,230 --> 00:12:38,639

air force i went to college i wanted to

321

00:12:42,550 --> 00:12:40,240

be a teacher

322

00:12:44,230 --> 00:12:42,560

and so i majored in education but then i

323

00:12:47,030 --> 00:12:44,240

also got interested in

324

00:12:49,269 --> 00:12:47,040

political science um a somewhat of a

325

00:12:52,470 --> 00:12:49,279

good debater so i okay i actually

326

00:12:54,230 --> 00:12:52,480

switched majors to political science i

327

00:12:56,470 --> 00:12:54,240

got a degree a degree in political

328

00:12:58,949 --> 00:12:56,480

science with a minor in education and i

329

00:13:01,590 --> 00:12:58,959

tried to teach but then i realized

330

00:13:03,509 --> 00:13:01,600

i didn't have the patience

331

00:13:04,790 --> 00:13:03,519

uh to teach

332

00:13:08,310 --> 00:13:04,800

it's hard

333

00:13:10,710 --> 00:13:08,320

i did i did student teaching in a in an

334

00:13:12,470 --> 00:13:10,720

inner city school in tacoma washington i

335

00:13:15,190 --> 00:13:12,480

went to college at pacific lutheran

336

00:13:16,150 --> 00:13:15,200

university which is in tacoma okay and

337

00:13:20,150 --> 00:13:16,160

um

338

00:13:22,949 --> 00:13:20,160

got a call from a guy well actually a

339

00:13:24,949 --> 00:13:22,959

professor of mine who was a very very

340

00:13:26,710 --> 00:13:24,959

very liberal professor

341

00:13:28,790 --> 00:13:26,720

very liberal

342

00:13:30,230 --> 00:13:28,800

but he gave me a name of a person to

343

00:13:34,550 --> 00:13:30,240

contact

344

00:13:37,910 --> 00:13:34,560

about a job okay and i did and um

345

00:13:40,470 --> 00:13:37,920

the roundabout way i i decided to go

346

00:13:42,550 --> 00:13:40,480

into osi air force officer well it was

347

00:13:43,509 --> 00:13:42,560

an intelligence career field

348

00:13:45,910 --> 00:13:43,519

um

349

00:13:47,509 --> 00:13:45,920

with with initially with dia defense

350

00:13:50,949 --> 00:13:47,519

intelligence agency

351  
00:13:53,910 --> 00:13:50,959  
and then i went to the osi academy and

352  
00:13:56,629 --> 00:13:53,920  
the dia school cia

353  
00:13:59,269 --> 00:13:56,639  
and that's how i ended up in osa

354  
00:14:02,790 --> 00:13:59,279  
that was awesome man i told people how

355  
00:14:04,790 --> 00:14:02,800  
everybody in the air force fears osi

356  
00:14:06,949 --> 00:14:04,800  
he knows that he's nodding his head all

357  
00:14:09,110 --> 00:14:06,959  
right nathan get the ufos before

358  
00:14:10,790 --> 00:14:09,120  
somebody i'm gonna get shot up man i got

359  
00:14:12,230 --> 00:14:10,800  
it i gotta get fragged right in front of

360  
00:14:14,389 --> 00:14:12,240  
rick dodie let's go we can't have we

361  
00:14:16,230 --> 00:14:14,399  
can't have that so yeah so this week uh

362  
00:14:19,030 --> 00:14:16,240  
a shout out to one of our our guests in

363  
00:14:20,949 --> 00:14:19,040

the audience uh uh james ian doley uh

364

00:14:23,590 --> 00:14:20,959

this was kind of his brainchild to spend

365

00:14:25,590 --> 00:14:23,600

a week in the ufo community the content

366

00:14:28,069 --> 00:14:25,600

creator community and talk a little bit

367

00:14:30,310 --> 00:14:28,079

about crash retrieval and so we've got a

368

00:14:32,230 --> 00:14:30,320

lot of shows happening across the the

369

00:14:33,829 --> 00:14:32,240

group of folks that put out content

370

00:14:36,230 --> 00:14:33,839

looking at this topic

371

00:14:38,550 --> 00:14:36,240

and you know so excited to have you on

372

00:14:39,509 --> 00:14:38,560

to kind of get your perspective not only

373

00:14:41,509 --> 00:14:39,519

on

374

00:14:43,990 --> 00:14:41,519

you know kind of what you know

375

00:14:45,509 --> 00:14:44,000

within that space but also we want to

376

00:14:48,310 --> 00:14:45,519

talk a little bit about what's happening

377

00:14:51,110 --> 00:14:48,320

now too uh but but before we get to now

378

00:14:53,509 --> 00:14:51,120

i think i want to start with the past

379

00:14:55,350 --> 00:14:53,519

in your knowledge as far as you you know

380

00:14:57,509 --> 00:14:55,360

and you know as you're probably familiar

381

00:14:59,829 --> 00:14:57,519

jacques volley recently published uh his

382

00:15:02,710 --> 00:14:59,839

book trinity and uh

383

00:15:05,030 --> 00:15:02,720

co-written by paula harris

384

00:15:06,550 --> 00:15:05,040

was was trinity or roswell really the

385

00:15:11,110 --> 00:15:06,560

first sort of

386

00:15:13,430 --> 00:15:11,120

craft crash that that you are aware of

387

00:15:15,189 --> 00:15:13,440

well when i was at kirtland air force

388

00:15:17,350 --> 00:15:15,199

base uh

389

00:15:19,030 --> 00:15:17,360

i had the um

390

00:15:21,030 --> 00:15:19,040

opportunity

391

00:15:22,310 --> 00:15:21,040

to be briefed into a special access

392

00:15:24,310 --> 00:15:22,320

program

393

00:15:27,269 --> 00:15:24,320

a project aquarius

394

00:15:28,230 --> 00:15:27,279

and that involved the historical

395

00:15:30,069 --> 00:15:28,240

uh

396

00:15:31,430 --> 00:15:30,079

connection between the united states

397

00:15:34,470 --> 00:15:31,440

government

398

00:15:37,189 --> 00:15:34,480

and uh ets uh

399

00:15:39,030 --> 00:15:37,199

uaps and ufos we didn't call them uaps

400

00:15:42,550 --> 00:15:39,040

back then with all ufos

401  
00:15:43,910 --> 00:15:42,560  
or uh identified crafts i mean we knew

402  
00:15:45,269 --> 00:15:43,920  
what they were so we call them

403  
00:15:47,350 --> 00:15:45,279  
identified

404  
00:15:48,470 --> 00:15:47,360  
aerial uh crafts

405  
00:15:50,150 --> 00:15:48,480  
and

406  
00:15:52,389 --> 00:15:50,160  
that the briefing that i received in

407  
00:15:54,470 --> 00:15:52,399  
1979

408  
00:15:56,470 --> 00:15:54,480  
uh encompassed

409  
00:15:58,550 --> 00:15:56,480  
crash retrieval

410  
00:15:59,749 --> 00:15:58,560  
when we united states government

411  
00:16:02,629 --> 00:15:59,759  
government

412  
00:16:05,269 --> 00:16:02,639  
first got into the program

413  
00:16:06,790 --> 00:16:05,279

and uh the first uh

414

00:16:09,189 --> 00:16:06,800

part of the briefing

415

00:16:11,430 --> 00:16:09,199

uh was roswell

416

00:16:13,829 --> 00:16:11,440

the roswell crash although

417

00:16:17,509 --> 00:16:13,839

actually the craft crashed and corona

418

00:16:18,470 --> 00:16:17,519

new mexico which is north of roswell

419

00:16:20,230 --> 00:16:18,480

and

420

00:16:22,310 --> 00:16:20,240

what we were told

421

00:16:24,870 --> 00:16:22,320

we saw pictures of what we saw a lone

422

00:16:28,150 --> 00:16:24,880

army film a recovery of

423

00:16:30,470 --> 00:16:28,160

is that during the summer of 1947

424

00:16:31,990 --> 00:16:30,480

there were two et crafts flying over new

425

00:16:33,829 --> 00:16:32,000

mexico

426  
00:16:35,110 --> 00:16:33,839  
and um

427  
00:16:37,670 --> 00:16:35,120  
these crafts

428  
00:16:39,829 --> 00:16:37,680  
during an electric storm in new mexico

429  
00:16:42,550 --> 00:16:39,839  
now dj you've been in new mexico you

430  
00:16:43,749 --> 00:16:42,560  
know how vicious electrical storms can

431  
00:16:47,590 --> 00:16:43,759  
be

432  
00:16:49,430 --> 00:16:47,600  
and what we found out what we not me but

433  
00:16:51,189 --> 00:16:49,440  
our government found out later was

434  
00:16:52,949 --> 00:16:51,199  
apparently these crafts had never

435  
00:16:54,550 --> 00:16:52,959  
encountered lightning

436  
00:16:57,189 --> 00:16:54,560  
and somehow

437  
00:16:58,470 --> 00:16:57,199  
these during the storm they were struck

438  
00:17:00,949 --> 00:16:58,480

by lightning

439

00:17:03,509 --> 00:17:00,959

they collided the two each crafts one

440

00:17:05,110 --> 00:17:03,519

landed near corona new mexico and one

441

00:17:07,429 --> 00:17:05,120

landed west

442

00:17:08,549 --> 00:17:07,439

of socorro new mexico out near horse

443

00:17:10,630 --> 00:17:08,559

mesa

444

00:17:11,990 --> 00:17:10,640

now the corona crash had actually two

445

00:17:13,750 --> 00:17:12,000

sites

446

00:17:16,069 --> 00:17:13,760

one the debris field which was the

447

00:17:18,630 --> 00:17:16,079

antenna portion of the craft

448

00:17:20,390 --> 00:17:18,640

the second crash the second site was

449

00:17:21,909 --> 00:17:20,400

actually the craft

450

00:17:23,590 --> 00:17:21,919

there were actually pictures posted on

451  
00:17:25,350 --> 00:17:23,600  
the internet some years ago about this

452  
00:17:28,069 --> 00:17:25,360  
about regarding this craft an

453  
00:17:32,870 --> 00:17:28,079  
archeological team first found it

454  
00:17:35,350 --> 00:17:32,880  
found um some alien bodies uh dead dead

455  
00:17:36,950 --> 00:17:35,360  
bodies in one live alien one of a live

456  
00:17:38,230 --> 00:17:36,960  
e.t

457  
00:17:40,070 --> 00:17:38,240  
um

458  
00:17:41,750 --> 00:17:40,080  
brazil uh

459  
00:17:44,470 --> 00:17:41,760  
his ranch

460  
00:17:46,789 --> 00:17:44,480  
was the nation of the debris field the

461  
00:17:48,789 --> 00:17:46,799  
antenna portion of the craft

462  
00:17:50,230 --> 00:17:48,799  
which is miles away from the actual

463  
00:17:51,669 --> 00:17:50,240

craft

464

00:17:54,310 --> 00:17:51,679

and that was all recovered in the summer

465

00:17:57,029 --> 00:17:54,320

of 1947 by the united states

466

00:17:58,710 --> 00:17:57,039

uh army out of roswell

467

00:18:01,830 --> 00:17:58,720

the second craft

468

00:18:03,990 --> 00:18:01,840

crashed way in a very very remote area

469

00:18:05,750 --> 00:18:04,000

of catcher and county in western new

470

00:18:09,110 --> 00:18:05,760

mexico up in the mountain

471

00:18:11,590 --> 00:18:09,120

that craft site wasn't found until 1949

472

00:18:13,669 --> 00:18:11,600

by a rancher he was moving his cattle

473

00:18:16,310 --> 00:18:13,679

from a lower grazing area up to a higher

474

00:18:19,830 --> 00:18:16,320

when he found his craft

475

00:18:21,830 --> 00:18:19,840

well the et's inside the craft

476  
00:18:24,070 --> 00:18:21,840  
never got out so they were all decayed

477  
00:18:25,750 --> 00:18:24,080  
inside the craft when he found he didn't

478  
00:18:27,590 --> 00:18:25,760  
know what it was

479  
00:18:29,909 --> 00:18:27,600  
immediately notified

480  
00:18:32,950 --> 00:18:29,919  
the catchment county sheriff now you

481  
00:18:34,310 --> 00:18:32,960  
understand that this is remote

482  
00:18:37,830 --> 00:18:34,320  
in new mexico

483  
00:18:40,710 --> 00:18:37,840  
phones were very very uh remote

484  
00:18:42,950 --> 00:18:40,720  
distance from locations it took him two

485  
00:18:44,470 --> 00:18:42,960  
days to get to a phone to call the

486  
00:18:47,029 --> 00:18:44,480  
county sheriff

487  
00:18:49,510 --> 00:18:47,039  
took the sheriff 11 days to get up to

488  
00:18:51,430 --> 00:18:49,520

the crash site wow and when he got up to

489

00:18:52,950 --> 00:18:51,440

the crash site he realized

490

00:18:54,390 --> 00:18:52,960

well this isn't

491

00:18:56,870 --> 00:18:54,400

this isn't something i don't i know what

492

00:18:58,789 --> 00:18:56,880

to do with so then he notified them the

493

00:19:00,230 --> 00:18:58,799

state police the state police new mexico

494

00:19:02,870 --> 00:19:00,240

state police they didn't know what to do

495

00:19:04,470 --> 00:19:02,880

so anyways they notified at that time

496

00:19:07,350 --> 00:19:04,480

the air force the kirtland air force

497

00:19:10,710 --> 00:19:07,360

base and they responded recovered it

498

00:19:12,549 --> 00:19:10,720

and took the craft uh to uh kirlin and

499

00:19:13,990 --> 00:19:12,559

then on to los alamos

500

00:19:15,590 --> 00:19:14,000

los alamos

501  
00:19:19,110 --> 00:19:15,600  
that's really interesting

502  
00:19:21,190 --> 00:19:19,120  
the live et went to los alamos now

503  
00:19:22,710 --> 00:19:21,200  
contrary to a lot of uh what other

504  
00:19:25,110 --> 00:19:22,720  
people said

505  
00:19:27,590 --> 00:19:25,120  
um the first crash

506  
00:19:28,710 --> 00:19:27,600  
uh that that uh that was taken to

507  
00:19:31,830 --> 00:19:28,720  
roswell

508  
00:19:33,190 --> 00:19:31,840  
and part of the craft was flown uh to

509  
00:19:36,070 --> 00:19:33,200  
write patterson

510  
00:19:38,870 --> 00:19:36,080  
but the ets in the bodies were flown to

511  
00:19:39,830 --> 00:19:38,880  
los alamos they needed a

512  
00:19:49,110 --> 00:19:39,840  
a

513  
00:19:50,310 --> 00:19:49,120

bodies

514

00:19:51,590 --> 00:19:50,320

they don't know what they didn't know

515

00:19:53,510 --> 00:19:51,600

what they were i mean they didn't know

516

00:19:56,549 --> 00:19:53,520

if how they were going to decay they

517

00:19:57,909 --> 00:19:56,559

were biologically different than us

518

00:19:59,190 --> 00:19:57,919

and so they needed to store them

519

00:20:03,110 --> 00:19:59,200

someplace and that's why they went to

520

00:20:04,789 --> 00:20:03,120

los alamos the live e.t la lived from 47

521

00:20:06,470 --> 00:20:04,799

to 1952

522

00:20:09,190 --> 00:20:06,480

at los alamos

523

00:20:10,149 --> 00:20:09,200

if i were to ask you to put a percentage

524

00:20:12,470 --> 00:20:10,159

on your

525

00:20:14,870 --> 00:20:12,480

your level of confidence that this is

526

00:20:16,789 --> 00:20:14,880

the case as it actually unfolded what

527

00:20:18,870 --> 00:20:16,799

percentage would you give that

528

00:20:20,390 --> 00:20:18,880

100

529

00:20:22,870 --> 00:20:20,400

it wasn't just

530

00:20:24,710 --> 00:20:22,880

the briefing that i got because what

531

00:20:26,950 --> 00:20:24,720

number one let me go back a little bit i

532

00:20:28,950 --> 00:20:26,960

was never interested in the subject of

533

00:20:31,029 --> 00:20:28,960

ufos as a kid

534

00:20:33,350 --> 00:20:31,039

i was never interested my father never

535

00:20:35,750 --> 00:20:33,360

spoke about him

536

00:20:37,190 --> 00:20:35,760

my brother on the other hand john is

537

00:20:39,510 --> 00:20:37,200

older than me

538

00:20:41,029 --> 00:20:39,520

he was a uh he was fascinated in the

539

00:20:42,310 --> 00:20:41,039

subject we roomed together we always had

540

00:20:44,630 --> 00:20:42,320

a room together

541

00:20:46,950 --> 00:20:44,640

and uh he would go out and buy true

542

00:20:48,470 --> 00:20:46,960

magazines back that were published back

543

00:20:50,390 --> 00:20:48,480

in the 60s

544

00:20:53,110 --> 00:20:50,400

he also bought the the first book that

545

00:20:53,909 --> 00:20:53,120

george adamski had published

546

00:20:57,430 --> 00:20:53,919

and

547

00:21:00,630 --> 00:20:57,440

these things but i was always hung up

548

00:21:03,190 --> 00:21:00,640

with zane gray i loved westerns and so i

549

00:21:05,830 --> 00:21:03,200

was never interested in the subject

550

00:21:09,510 --> 00:21:05,840

uh nowhere in osis

551  
00:21:12,230 --> 00:21:09,520  
academy the dia intelligence operations

552  
00:21:15,909 --> 00:21:12,240  
course or the cia course

553  
00:21:18,789 --> 00:21:15,919  
was the subject of ufos or ets mentioned

554  
00:21:20,149 --> 00:21:18,799  
none never not even in any way

555  
00:21:22,789 --> 00:21:20,159  
whatsoever

556  
00:21:24,390 --> 00:21:22,799  
so when i got to kirtland and i was

557  
00:21:27,350 --> 00:21:24,400  
involved in an investigation that

558  
00:21:30,390 --> 00:21:27,360  
include that involved a strange object

559  
00:21:32,549 --> 00:21:30,400  
that landed in a remote training area

560  
00:21:35,830 --> 00:21:32,559  
um i didn't know what it was of course

561  
00:21:38,070 --> 00:21:35,840  
my uh initial uh thought was probably

562  
00:21:41,430 --> 00:21:38,080  
was maybe something foreign maybe a

563  
00:21:43,510 --> 00:21:41,440

soviet craft flew in from

564

00:21:45,270 --> 00:21:43,520

mexico or something to that effect

565

00:21:47,510 --> 00:21:45,280

when i sat in this briefing and they

566

00:21:48,230 --> 00:21:47,520

started telling telling us and there

567

00:21:50,310 --> 00:21:48,240

were

568

00:21:51,510 --> 00:21:50,320

other people in this briefing it was the

569

00:21:53,909 --> 00:21:51,520

briefing was done by an air force

570

00:21:56,870 --> 00:21:53,919

colonel when they started telling us and

571

00:21:58,950 --> 00:21:56,880

showing us pictures of recovery film

572

00:22:01,350 --> 00:21:58,960

that that is an older film you could you

573

00:22:03,350 --> 00:22:01,360

could tell it was old about ufos and

574

00:22:05,510 --> 00:22:03,360

about et's

575

00:22:07,270 --> 00:22:05,520

i just couldn't believe it i i i sat

576  
00:22:08,549 --> 00:22:07,280  
there and i thought this was some sort

577  
00:22:10,789 --> 00:22:08,559  
of a

578  
00:22:12,470 --> 00:22:10,799  
psychological operations and i thought

579  
00:22:14,630 --> 00:22:12,480  
they're going to try to psych us out on

580  
00:22:16,710 --> 00:22:14,640  
something and then we were to go out and

581  
00:22:19,350 --> 00:22:16,720  
run some exercise that's what i thought

582  
00:22:20,710 --> 00:22:19,360  
yeah but as we got into it

583  
00:22:22,789 --> 00:22:20,720  
and as we

584  
00:22:25,510 --> 00:22:22,799  
we got more in-depth

585  
00:22:27,350 --> 00:22:25,520  
into what we what we were seeing

586  
00:22:28,470 --> 00:22:27,360  
and the evidence that was presented to

587  
00:22:31,350 --> 00:22:28,480  
us

588  
00:22:32,950 --> 00:22:31,360

i realized my god this is true

589

00:22:35,750 --> 00:22:32,960

now this briefing occurred at the

590

00:22:38,630 --> 00:22:35,760

western uh west west kirtland air force

591

00:22:39,669 --> 00:22:38,640

base and the osi office was on the east

592

00:22:41,430 --> 00:22:39,679

side

593

00:22:43,830 --> 00:22:41,440

i was driving back

594

00:22:45,909 --> 00:22:43,840

and i had to pull off the road and i sat

595

00:22:49,510 --> 00:22:45,919

there for probably 15 to 20 minutes

596

00:22:51,990 --> 00:22:49,520

trying to reconcile what i had just seen

597

00:22:55,510 --> 00:22:52,000

information i just got yeah i still had

598

00:22:58,070 --> 00:22:55,520

some doubts in my mind like you know

599

00:23:00,430 --> 00:22:58,080

is this is there some other type of plan

600

00:23:02,870 --> 00:23:00,440

do they have is this some kind of a

601  
00:23:04,950 --> 00:23:02,880  
psychological operations

602  
00:23:07,430 --> 00:23:04,960  
but when i got back to the office i

603  
00:23:09,190 --> 00:23:07,440  
immediately got

604  
00:23:10,710 --> 00:23:09,200  
got my tickets punched for a special

605  
00:23:14,950 --> 00:23:10,720  
access program

606  
00:23:17,669 --> 00:23:14,960  
meaning we had our own uh uh uh

607  
00:23:20,070 --> 00:23:17,679  
security uh special access security

608  
00:23:22,630 --> 00:23:20,080  
terminal in the osi office meaning a

609  
00:23:25,350 --> 00:23:22,640  
teletype system we could get top secret

610  
00:23:26,470 --> 00:23:25,360  
info in got it and the operator was was

611  
00:23:27,430 --> 00:23:26,480  
a civilian

612  
00:23:30,149 --> 00:23:27,440  
and

613  
00:23:31,990 --> 00:23:30,159

you know he would feed stuff to whoever

614

00:23:34,789 --> 00:23:32,000

had access to it

615

00:23:36,390 --> 00:23:34,799

and uh now let me talk about this real

616

00:23:38,549 --> 00:23:36,400

quick and dj will

617

00:23:40,630 --> 00:23:38,559

will understand this just because you

618

00:23:43,590 --> 00:23:40,640

have a high level security clearance a

619

00:23:45,510 --> 00:23:43,600

top secret doesn't mean you have access

620

00:23:47,350 --> 00:23:45,520

you have to have a need to know

621

00:23:49,990 --> 00:23:47,360

in order to have access to something

622

00:23:51,750 --> 00:23:50,000

okay so there were other osi agents in

623

00:23:53,350 --> 00:23:51,760

the office they didn't have the same

624

00:23:56,549 --> 00:23:53,360

need to know that i did

625

00:23:59,430 --> 00:23:56,559

so i got i started receiving all these

626  
00:24:00,390 --> 00:23:59,440  
teletypes top secret code word

627  
00:24:03,110 --> 00:24:00,400  
uh

628  
00:24:05,909 --> 00:24:03,120  
teletypes about sightings

629  
00:24:07,990 --> 00:24:05,919  
and landings all over the world

630  
00:24:09,909 --> 00:24:08,000  
and with all this

631  
00:24:12,549 --> 00:24:09,919  
totality of it

632  
00:24:17,430 --> 00:24:12,559  
put together i realized that what i the

633  
00:24:19,029 --> 00:24:17,440  
briefing i i received was 100 factual

634  
00:24:20,789 --> 00:24:19,039  
wow and and there's no frame of

635  
00:24:22,149 --> 00:24:20,799  
reference to consider

636  
00:24:23,830 --> 00:24:22,159  
people it's funny that everybody's

637  
00:24:25,190 --> 00:24:23,840  
calling and texting us when we're on air

638  
00:24:28,549 --> 00:24:25,200

because it's happening to both me and

639

00:24:30,470 --> 00:24:28,559

rick but um it's it's me too

640

00:24:32,630 --> 00:24:30,480

i know i know there's no frame of

641

00:24:34,710 --> 00:24:32,640

reference to consume this information

642

00:24:36,630 --> 00:24:34,720

rick you know what i mean like you don't

643

00:24:38,470 --> 00:24:36,640

have a frame of reference to go oh yeah

644

00:24:40,710 --> 00:24:38,480

of course yeah there's they just landed

645

00:24:42,630 --> 00:24:40,720

down in runway eight i got it right

646

00:24:44,630 --> 00:24:42,640

so everything's new and rick how many

647

00:24:46,470 --> 00:24:44,640

folks were in that uh

648

00:24:48,149 --> 00:24:46,480

room with you in that initial briefing

649

00:24:50,070 --> 00:24:48,159

was it who were who were getting this

650

00:24:51,350 --> 00:24:50,080

for the first time with you

651  
00:24:53,590 --> 00:24:51,360  
uh

652  
00:24:54,470 --> 00:24:53,600  
all of them were intelligence officers

653  
00:24:57,430 --> 00:24:54,480  
uh

654  
00:24:59,909 --> 00:24:57,440  
it was myself and one other rsi agent

655  
00:25:00,950 --> 00:24:59,919  
and i i don't know exactly number i

656  
00:25:02,789 --> 00:25:00,960  
would say

657  
00:25:03,909 --> 00:25:02,799  
probably not more than 20.

658  
00:25:05,510 --> 00:25:03,919  
okay

659  
00:25:07,350 --> 00:25:05,520  
like this is where his resistance

660  
00:25:09,750 --> 00:25:07,360  
training is coming in he learned this at

661  
00:25:10,710 --> 00:25:09,760  
the ranch i'm just kidding all right so

662  
00:25:12,789 --> 00:25:10,720  
rick

663  
00:25:15,269 --> 00:25:12,799

if you don't mind we have a we have a

664

00:25:17,669 --> 00:25:15,279

guy from australia that has called in to

665

00:25:19,669 --> 00:25:17,679

ask you a question about luis elizondo

666

00:25:21,830 --> 00:25:19,679

stephen greer so we're gonna like like

667

00:25:23,830 --> 00:25:21,840

the beings we're gonna project forward

668

00:25:26,549 --> 00:25:23,840

in time but then we're gonna return back

669

00:25:29,990 --> 00:25:26,559

to kirtland okay okay okay

670

00:25:33,510 --> 00:25:30,000

here we go grant dj how are you buddy

671

00:25:36,549 --> 00:25:33,520

this guy is such an amazing artist um he

672

00:25:38,549 --> 00:25:36,559

is able to digitally put people's faces

673

00:25:40,149 --> 00:25:38,559

on other people's faces it's like john

674

00:25:42,310 --> 00:25:40,159

travolta movie

675

00:25:44,230 --> 00:25:42,320

it's nuts so grant hello say hello to

676

00:25:45,830 --> 00:25:44,240

rick dodie and go ahead brother

677

00:25:48,070 --> 00:25:45,840

well firstly dj and nathan thanks for

678

00:25:49,830 --> 00:25:48,080

having me on guys i really enjoy uh you

679

00:25:51,750 --> 00:25:49,840

know the content you guys put out and

680

00:25:53,669 --> 00:25:51,760

rick it's uh it's a pleasure to to make

681

00:25:57,029 --> 00:25:53,679

your acquaintance so um so thank you for

682

00:25:59,269 --> 00:25:57,039

taking a question or two from me today

683

00:26:01,350 --> 00:25:59,279

you get a question that's all you get a

684

00:26:03,590 --> 00:26:01,360

question i'll limit it to one

685

00:26:05,510 --> 00:26:03,600

so i i i guess the question i had for

686

00:26:08,230 --> 00:26:05,520

you is you know um

687

00:26:09,590 --> 00:26:08,240

based on your background in obviously

688

00:26:11,590 --> 00:26:09,600

you know counterintelligence and the

689

00:26:12,870 --> 00:26:11,600

network that you've established over the

690

00:26:13,909 --> 00:26:12,880

years

691

00:26:15,430 --> 00:26:13,919

uh

692

00:26:16,870 --> 00:26:15,440

you i think you're uniquely positioned

693

00:26:20,549 --> 00:26:16,880

to probably answer this question or at

694

00:26:22,830 --> 00:26:20,559

least opine um so so dr steven greer has

695

00:26:24,710 --> 00:26:22,840

publicly asserted that lou

696

00:26:26,470 --> 00:26:24,720

elizondo uh

697

00:26:29,269 --> 00:26:26,480

is essentially a fear-mongering

698

00:26:31,909 --> 00:26:29,279

disinformation agent and louis louis

699

00:26:34,149 --> 00:26:31,919

lazonda has publicly insinuated that

700

00:26:37,350 --> 00:26:34,159

greer is uh

701  
00:26:38,470 --> 00:26:37,360  
has hoaxed c5 events for for personal

702  
00:26:41,990 --> 00:26:38,480  
gain so

703  
00:26:44,470 --> 00:26:42,000  
i'm interested to get your uh opinion on

704  
00:26:46,230 --> 00:26:44,480  
the greer elizondo dichotomy that that

705  
00:26:49,990 --> 00:26:46,240  
exists at the moment who

706  
00:26:50,000 --> 00:26:55,590  
well my own opinion uh

707  
00:27:03,110 --> 00:26:59,110  
i know steven greer i know him

708  
00:27:04,830 --> 00:27:03,120  
quite well uh i've been acknowledged

709  
00:27:08,070 --> 00:27:04,840  
i've spoke with him many

710  
00:27:12,390 --> 00:27:08,080  
times i don't know

711  
00:27:12,400 --> 00:27:16,870  
in person

712  
00:27:19,990 --> 00:27:18,230  
rick i'm really

713  
00:27:22,310 --> 00:27:20,000

rick excuse me for one second i'm really

714

00:27:24,310 --> 00:27:22,320

sorry to interrupt you uh we're getting

715

00:27:26,389 --> 00:27:24,320

an interruption in your signal is it

716

00:27:29,029 --> 00:27:26,399

possible that you could disconnect and

717

00:27:30,310 --> 00:27:29,039

then and then come back in into the

718

00:27:32,149 --> 00:27:30,320

backstage

719

00:27:34,389 --> 00:27:32,159

uh go ahead and talk real quick let me

720

00:27:36,950 --> 00:27:34,399

see how it's working yeah i think i'm

721

00:27:38,710 --> 00:27:36,960

losing you yeah yeah if you drop and

722

00:27:40,789 --> 00:27:38,720

then use the same link you'll come right

723

00:27:43,830 --> 00:27:40,799

back and we'll put you back on yeah it

724

00:27:45,909 --> 00:27:43,840

seems to work so i apologize

725

00:27:47,990 --> 00:27:45,919

yes please and then just come right back

726

00:27:51,190 --> 00:27:48,000

because without you we have no show okay

727

00:27:56,630 --> 00:27:53,190

great question grant uh so

728

00:27:59,430 --> 00:27:56,640

the unidentified celebrity rev review

729

00:28:02,070 --> 00:27:59,440

grant is a huge fan of theirs and with

730

00:28:03,350 --> 00:28:02,080

good reason and he produces this amazing

731

00:28:05,110 --> 00:28:03,360

i don't know if it's cg i don't know

732

00:28:07,350 --> 00:28:05,120

what the hell it is i just know i can't

733

00:28:09,750 --> 00:28:07,360

do it i love your content and thank you

734

00:28:12,149 --> 00:28:09,760

thank you for what you do anything that

735

00:28:14,710 --> 00:28:12,159

can add some smiles on folks dolls so if

736

00:28:16,630 --> 00:28:14,720

it uh if it adds a bit of levity to

737

00:28:19,430 --> 00:28:16,640

the topics that are serious then you

738

00:28:21,750 --> 00:28:19,440

know it's uh it's i'm happy to do it

739

00:28:23,830 --> 00:28:21,760

yeah we're all for it uh what time is it

740

00:28:26,310 --> 00:28:23,840

right now is it one time zone throughout

741

00:28:28,470 --> 00:28:26,320

the continent of australia uh so i'm in

742

00:28:30,630 --> 00:28:28,480

melbourne australia and it's uh it's

743

00:28:32,789 --> 00:28:30,640

about 11 30 in the morning so i'm just

744

00:28:35,510 --> 00:28:32,799

taking my my mid-morning coffee break

745

00:28:37,830 --> 00:28:35,520

from my uh my day-to-day to uh to have a

746

00:28:39,830 --> 00:28:37,840

chat with you guys i love it i'm so glad

747

00:28:41,830 --> 00:28:39,840

we didn't keep you awake or something

748

00:28:43,669 --> 00:28:41,840

hopefully uh rick is gonna come back

749

00:28:45,029 --> 00:28:43,679

otherwise more people are to throw

750

00:28:48,950 --> 00:28:45,039

tomatoes

751

00:28:50,149 --> 00:28:48,960

could help us cg

752

00:28:50,950 --> 00:28:50,159

turn into a

753

00:28:53,190 --> 00:28:50,960

yeah

754

00:28:55,590 --> 00:28:53,200

turn into a deep fake uh

755

00:28:56,630 --> 00:28:55,600

master class maybe i don't know

756

00:28:58,789 --> 00:28:56,640

i'd actually be interested in doing a

757

00:29:00,389 --> 00:28:58,799

whole show on sort of the deep fakes and

758

00:29:02,149 --> 00:29:00,399

your thoughts on you know kind of where

759

00:29:03,430 --> 00:29:02,159

we're going with uh

760

00:29:05,669 --> 00:29:03,440

sort of

761

00:29:09,269 --> 00:29:05,679

journalism information the information

762

00:29:12,549 --> 00:29:09,279

the public sphere you know how we can

763

00:29:14,389 --> 00:29:12,559

what will we be able to do to verify the

764

00:29:15,510 --> 00:29:14,399

sort of truthfulness of

765

00:29:17,750 --> 00:29:15,520

what we see

766

00:29:20,149 --> 00:29:17,760

well it's it's it's actually fascinating

767

00:29:23,029 --> 00:29:20,159

what people can do now and and what uh

768

00:29:24,950 --> 00:29:23,039

kind of got me into uh exploring the

769

00:29:27,350 --> 00:29:24,960

deep fake area just for a bit of fun

770

00:29:28,549 --> 00:29:27,360

really is um i can't remember his handle

771

00:29:31,430 --> 00:29:28,559

but there's a

772

00:29:33,430 --> 00:29:31,440

there's a guy on um on twitter who does

773

00:29:36,310 --> 00:29:33,440

these absolutely incredibly amazing

774

00:29:38,789 --> 00:29:36,320

defects of tom cruise oh yeah and man

775

00:29:40,710 --> 00:29:38,799

they're just and i think

776

00:29:42,470 --> 00:29:40,720

yeah and justin bieber has actually

777

00:29:43,909 --> 00:29:42,480

fooled recently where he actually

778

00:29:45,669 --> 00:29:43,919

commented on a

779

00:29:47,750 --> 00:29:45,679

on on one of the videos thinking that it

780

00:29:48,470 --> 00:29:47,760

was the real tom cruise so amazing uh

781

00:29:50,070 --> 00:29:48,480

it's

782

00:29:51,430 --> 00:29:50,080

and and he's got the voice down pat for

783

00:29:53,750 --> 00:29:51,440

it as well and everything for it but

784

00:29:56,310 --> 00:29:53,760

it's it's crazy what what can be done

785

00:29:57,350 --> 00:29:56,320

now with uh machine learning and yeah

786

00:30:02,310 --> 00:29:57,360

it's

787

00:30:04,310 --> 00:30:02,320

sure okay and when we left

788

00:30:06,230 --> 00:30:04,320

rick dodi was talking about i know

789

00:30:08,389 --> 00:30:06,240

stephen greer i don't

790

00:30:10,310 --> 00:30:08,399

know lou elizondo but

791

00:30:13,909 --> 00:30:10,320

dot dot dot

792

00:30:15,830 --> 00:30:13,919

okay i know of loose background i know

793

00:30:16,870 --> 00:30:15,840

where he worked in the pentagon what he

794

00:30:21,350 --> 00:30:16,880

did

795

00:30:23,830 --> 00:30:21,360

and where he worked

796

00:30:26,230 --> 00:30:23,840

uh but but that's not as far as i'm

797

00:30:27,510 --> 00:30:26,240

gonna go i don't i don't know

798

00:30:29,510 --> 00:30:27,520

uh

799

00:30:30,950 --> 00:30:29,520

the information that he's providing is

800

00:30:33,669 --> 00:30:30,960

accurate or not

801  
00:30:35,190 --> 00:30:33,679  
i i trust stephen and he's

802  
00:30:37,510 --> 00:30:35,200  
he's done

803  
00:30:38,630 --> 00:30:37,520  
years and years of research into this

804  
00:30:41,669 --> 00:30:38,640  
area

805  
00:30:42,470 --> 00:30:41,679  
and so i i trust uh i guess what stephen

806  
00:30:43,990 --> 00:30:42,480  
said

807  
00:30:46,389 --> 00:30:44,000  
i'm not going to take one side or the

808  
00:30:48,470 --> 00:30:46,399  
other at this time

809  
00:30:50,870 --> 00:30:48,480  
oh my goodness

810  
00:30:53,350 --> 00:30:50,880  
your career in reality television i'm

811  
00:30:56,310 --> 00:30:53,360  
just kidding um i i thank you very much

812  
00:30:57,990 --> 00:30:56,320  
for taking that question rick grant we

813  
00:30:59,669 --> 00:30:58,000

will talk to you sir

814

00:31:02,149 --> 00:30:59,679

we'll talk to you sir because i think

815

00:31:03,669 --> 00:31:02,159

nathan has just built an episode of you

816

00:31:05,190 --> 00:31:03,679

and your work okay we're gonna do it

817

00:31:06,549 --> 00:31:05,200

yeah very good i appreciate it we'll

818

00:31:08,549 --> 00:31:06,559

have you we're gonna have you on i'm

819

00:31:10,310 --> 00:31:08,559

gonna stay right here i'll be happy to

820

00:31:11,990 --> 00:31:10,320

join you guys anytime thanks thanks and

821

00:31:12,870 --> 00:31:12,000

uh i hope the rest of the show goes well

822

00:31:15,430 --> 00:31:12,880

thank you

823

00:31:19,590 --> 00:31:17,350

so rick i guess like what's interesting

824

00:31:20,789 --> 00:31:19,600

me about that answer uh

825

00:31:23,509 --> 00:31:20,799

you know kind of what your thoughts on

826  
00:31:25,190 --> 00:31:23,519  
this so there seems to be like a

827  
00:31:27,430 --> 00:31:25,200  
over time

828  
00:31:29,750 --> 00:31:27,440  
a fragmentation of understanding right

829  
00:31:30,789 --> 00:31:29,760  
so what you just described in your

830  
00:31:33,750 --> 00:31:30,799  
initial

831  
00:31:36,310 --> 00:31:33,760  
experience of this was a very

832  
00:31:37,750 --> 00:31:36,320  
i think clear story you know that you

833  
00:31:39,029 --> 00:31:37,760  
were given a briefing

834  
00:31:40,470 --> 00:31:39,039  
there seems to be a great deal of

835  
00:31:42,070 --> 00:31:40,480  
knowledge that is understood about

836  
00:31:44,149 --> 00:31:42,080  
what's going on

837  
00:31:45,590 --> 00:31:44,159  
and then as we fast forward and time to

838  
00:31:47,110 --> 00:31:45,600

where we are now

839

00:31:49,269 --> 00:31:47,120

we've got a lot of different competing

840

00:31:52,230 --> 00:31:49,279

narratives that are sort of filling the

841

00:31:55,110 --> 00:31:52,240

the airwaves here so is that a

842

00:31:57,110 --> 00:31:55,120

in your opinion is that a result of us

843

00:31:59,990 --> 00:31:57,120

learning more out more about this than

844

00:32:02,149 --> 00:32:00,000

we knew before or is this something else

845

00:32:05,029 --> 00:32:02,159

is it an intentional mudding of of the

846

00:32:06,950 --> 00:32:05,039

waters of what we really know

847

00:32:09,990 --> 00:32:06,960

well i think it's uh

848

00:32:12,710 --> 00:32:10,000

a number of number of reasons but

849

00:32:15,990 --> 00:32:12,720

one particular one is over the years

850

00:32:17,830 --> 00:32:16,000

people have taken this subject

851  
00:32:19,509 --> 00:32:17,840  
they've uh

852  
00:32:21,750 --> 00:32:19,519  
grasped it

853  
00:32:24,950 --> 00:32:21,760  
whether it's

854  
00:32:25,990 --> 00:32:24,960  
in a realm of believability

855  
00:32:27,430 --> 00:32:26,000  
or

856  
00:32:29,110 --> 00:32:27,440  
whether it's

857  
00:32:31,350 --> 00:32:29,120  
just for their own

858  
00:32:33,110 --> 00:32:31,360  
uh for their own sake

859  
00:32:34,630 --> 00:32:33,120  
and they've written books about it

860  
00:32:37,110 --> 00:32:34,640  
they've uh

861  
00:32:37,990 --> 00:32:37,120  
movies and so forth

862  
00:32:42,070 --> 00:32:38,000  
and

863  
00:32:45,509 --> 00:32:42,080

community is there con there's

864

00:32:47,909 --> 00:32:45,519

conflicting uh sides to everything

865

00:32:50,310 --> 00:32:47,919

the ufo community

866

00:32:51,830 --> 00:32:50,320

as phil class said once and we know who

867

00:32:53,830 --> 00:32:51,840

phil class was

868

00:32:57,990 --> 00:32:53,840

he was a skeptic

869

00:33:00,310 --> 00:32:58,000

um he said you do more harm within the

870

00:33:02,789 --> 00:33:00,320

ufo community to yourselves than i could

871

00:33:05,669 --> 00:33:02,799

to ever do on the outside and that's

872

00:33:07,669 --> 00:33:05,679

true there's so many backstabbers within

873

00:33:09,269 --> 00:33:07,679

the ufo community because

874

00:33:10,470 --> 00:33:09,279

one person will write a book about

875

00:33:12,070 --> 00:33:10,480

something

876

00:33:13,269 --> 00:33:12,080

the other person will write a

877

00:33:16,230 --> 00:33:13,279

conflicting

878

00:33:19,269 --> 00:33:16,240

story about that same book that same uh

879

00:33:21,110 --> 00:33:19,279

the book and and then there's a rivalry

880

00:33:24,630 --> 00:33:21,120

between the people within the ufo

881

00:33:27,190 --> 00:33:24,640

community yeah and there's so much um

882

00:33:28,070 --> 00:33:27,200

you know i can i can honestly say that

883

00:33:30,310 --> 00:33:28,080

my

884

00:33:33,190 --> 00:33:30,320

uh 11 years or so being in the

885

00:33:35,509 --> 00:33:33,200

intelligence area and knowing what we

886

00:33:38,870 --> 00:33:35,519

were doing and knowing

887

00:33:41,110 --> 00:33:38,880

what i knew about the ufo phenomena

888

00:33:43,590 --> 00:33:41,120

i can say that probably

889

00:33:47,110 --> 00:33:43,600

easily 60 percent of everything that was

890

00:33:50,070 --> 00:33:47,120

published is absolutely bull

891

00:33:52,630 --> 00:33:50,080

there's no truth whatsoever about a lot

892

00:33:54,149 --> 00:33:52,640

of the information and

893

00:33:55,110 --> 00:33:54,159

and although i

894

00:33:58,470 --> 00:33:55,120

uh

895

00:34:03,029 --> 00:33:58,480

i like

896

00:34:06,710 --> 00:34:03,039

book trinity

897

00:34:10,470 --> 00:34:06,720

uh was a uh well-written book

898

00:34:12,389 --> 00:34:10,480

but the actual event in 1945 if you were

899

00:34:14,790 --> 00:34:12,399

to go and find

900

00:34:17,030 --> 00:34:14,800

the brother brother who is still alive

901  
00:34:19,669 --> 00:34:17,040  
and talk to him

902  
00:34:20,710 --> 00:34:19,679  
which some other people have done

903  
00:34:22,550 --> 00:34:20,720  
they're going to tell you a different

904  
00:34:25,270 --> 00:34:22,560  
story

905  
00:34:28,550 --> 00:34:25,280  
now the state police officer that they

906  
00:34:30,470 --> 00:34:28,560  
quote in the book i spoke with years ago

907  
00:34:33,190 --> 00:34:30,480  
when he was still alive

908  
00:34:35,829 --> 00:34:33,200  
and he emphatically told me

909  
00:34:38,869 --> 00:34:35,839  
that what the the plane that was crack

910  
00:34:40,869 --> 00:34:38,879  
crashed was a us army

911  
00:34:44,389 --> 00:34:40,879  
plane

912  
00:34:46,389 --> 00:34:44,399  
it wasn't a a ufo it wasn't from any

913  
00:34:47,589 --> 00:34:46,399

other planet it was an air force or an

914

00:34:50,069 --> 00:34:47,599

army plane

915

00:34:53,270 --> 00:34:50,079

army air force plane it was flying a

916

00:34:55,109 --> 00:34:53,280

mission it was it was testing a very new

917

00:34:57,109 --> 00:34:55,119

type of radar

918

00:34:59,589 --> 00:34:57,119

and so the equipment inside was

919

00:35:02,150 --> 00:34:59,599

classified for the army air force

920

00:35:04,950 --> 00:35:02,160

that's why the military treated it like

921

00:35:06,069 --> 00:35:04,960

it was like it was now

922

00:35:08,870 --> 00:35:06,079

i'm not gonna

923

00:35:10,150 --> 00:35:08,880

go public and say you know your book is

924

00:35:11,589 --> 00:35:10,160

blown i don't know what the other

925

00:35:13,349 --> 00:35:11,599

brother said and

926

00:35:15,430 --> 00:35:13,359

and maybe there's some truth about

927

00:35:18,870 --> 00:35:15,440

something else in there but

928

00:35:20,390 --> 00:35:18,880

uh i know i know the though uh the the

929

00:35:21,589 --> 00:35:20,400

state police officer

930

00:35:23,910 --> 00:35:21,599

um

931

00:35:25,910 --> 00:35:23,920

and that's what he told me so

932

00:35:27,270 --> 00:35:25,920

uh you can take it whatever way you want

933

00:35:28,230 --> 00:35:27,280

to

934

00:35:31,430 --> 00:35:28,240

you know

935

00:35:32,950 --> 00:35:31,440

rick um i'm going to ask you about other

936

00:35:34,470 --> 00:35:32,960

crashes that you think may or may not

937

00:35:36,630 --> 00:35:34,480

have happened and after that i really

938

00:35:38,150 --> 00:35:36,640

want to kind of get into

939

00:35:39,750 --> 00:35:38,160

you know we can get into a little bit of

940

00:35:41,750 --> 00:35:39,760

nuts and bolts about i'd like to get

941

00:35:44,230 --> 00:35:41,760

your thoughts on area 51 a little bit

942

00:35:45,990 --> 00:35:44,240

obviously i'd like to get your your

943

00:35:48,950 --> 00:35:46,000

thoughts what we'll get into is a little

944

00:35:50,870 --> 00:35:48,960

bit of the the construct of from an

945

00:35:53,109 --> 00:35:50,880

intelligence standpoint of how you would

946

00:35:55,030 --> 00:35:53,119

compartmentalize this information and

947

00:35:57,670 --> 00:35:55,040

although i know nothing uh legitimate

948

00:36:00,390 --> 00:35:57,680

about mj 12 it seems like the type of a

949

00:36:03,190 --> 00:36:00,400

construct i would make to keep people

950

00:36:05,349 --> 00:36:03,200

who have a need to know from knowing

951  
00:36:07,510 --> 00:36:05,359  
because the joint chiefs need to know

952  
00:36:09,670 --> 00:36:07,520  
uh the secretary of defense needs to

953  
00:36:11,190 --> 00:36:09,680  
know the president needs to know so how

954  
00:36:12,870 --> 00:36:11,200  
do i keep them from knowing well i

955  
00:36:14,150 --> 00:36:12,880  
create a program where even though they

956  
00:36:17,190 --> 00:36:14,160  
have a need to know they're not going to

957  
00:36:19,349 --> 00:36:17,200  
know but that's beside the point um

958  
00:36:21,510 --> 00:36:19,359  
how many crashes do you think we'll get

959  
00:36:23,829 --> 00:36:21,520  
into that and i really want to get your

960  
00:36:26,310 --> 00:36:23,839  
how you feel about different things

961  
00:36:28,310 --> 00:36:26,320  
interdimensional versus extraterrestrial

962  
00:36:30,710 --> 00:36:28,320  
all this kind of stuff but

963  
00:36:35,430 --> 00:36:30,720

how many crashes do you think we've had

964

00:36:38,390 --> 00:36:35,440

do you suspect or know of which either

965

00:36:41,750 --> 00:36:38,400

well i know of the the the cronin horse

966

00:36:43,910 --> 00:36:41,760

mesa crash i know of the kingman crash

967

00:36:45,030 --> 00:36:43,920

uh that was in the briefing

968

00:36:48,069 --> 00:36:45,040

um

969

00:36:48,790 --> 00:36:48,079

there was one out

970

00:36:50,550 --> 00:36:48,800

in

971

00:36:52,950 --> 00:36:50,560

the middle of uh

972

00:36:54,630 --> 00:36:52,960

nevada it was near uh

973

00:36:55,990 --> 00:36:54,640

it was called the uh

974

00:36:57,750 --> 00:36:56,000

fallen

975

00:37:00,630 --> 00:36:57,760

uh the following crash it was near

976

00:37:02,390 --> 00:37:00,640

fallen naval air station or the bomber

977

00:37:03,750 --> 00:37:02,400

bombing range and this was in the late

978

00:37:05,750 --> 00:37:03,760

50s

979

00:37:07,510 --> 00:37:05,760

uh there was another one in nevada that

980

00:37:09,910 --> 00:37:07,520

was up

981

00:37:11,750 --> 00:37:09,920

near duck water

982

00:37:14,310 --> 00:37:11,760

and some of these haven't gotten much

983

00:37:16,470 --> 00:37:14,320

publicity i mean we i read about them in

984

00:37:18,390 --> 00:37:16,480

classified documents there have been

985

00:37:20,710 --> 00:37:18,400

some people talk about it i know stan

986

00:37:22,630 --> 00:37:20,720

friedman talk about the fallen case but

987

00:37:23,430 --> 00:37:22,640

he couldn't find anything in any kind of

988

00:37:26,950 --> 00:37:23,440

uh

989

00:37:29,430 --> 00:37:26,960

that

990

00:37:32,550 --> 00:37:29,440

uh and then there were there was another

991

00:37:36,390 --> 00:37:32,560

famous one in canada along

992

00:37:39,349 --> 00:37:36,400

a radar site in in the dew line um

993

00:37:42,630 --> 00:37:39,359

distance early warning line uh radar

994

00:37:44,870 --> 00:37:42,640

site uh radar line uh that they were

995

00:37:46,630 --> 00:37:44,880

created in the 50s and 60s there was one

996

00:37:47,740 --> 00:37:46,640

there that pretty

997

00:37:48,950 --> 00:37:47,750

pretty uh

998

00:37:50,710 --> 00:37:48,960

[Music]

999

00:37:54,870 --> 00:37:50,720

pretty interesting case

1000

00:37:55,910 --> 00:37:54,880

a a um retired air force uh excuse me

1001  
00:37:58,470 --> 00:37:55,920  
retired

1002  
00:38:00,150 --> 00:37:58,480  
canadian forces air force uh canadian

1003  
00:38:02,870 --> 00:38:00,160  
forces

1004  
00:38:04,550 --> 00:38:02,880  
canadian air force canadian air force

1005  
00:38:06,470 --> 00:38:04,560  
yeah canadian air force

1006  
00:38:08,310 --> 00:38:06,480  
um captain

1007  
00:38:10,870 --> 00:38:08,320  
uh excuse me he was captain at the time

1008  
00:38:13,270 --> 00:38:10,880  
he was re he was retired

1009  
00:38:15,109 --> 00:38:13,280  
i believe lieutenant colonel anyways he

1010  
00:38:18,230 --> 00:38:15,119  
talked about this at a ufo convention

1011  
00:38:20,230 --> 00:38:18,240  
some years ago where one crashed i had

1012  
00:38:21,670 --> 00:38:20,240  
never seen anything in any kind of

1013  
00:38:23,030 --> 00:38:21,680

classified

1014

00:38:25,349 --> 00:38:23,040

but after

1015

00:38:27,910 --> 00:38:25,359

i heard this briefing i spoke to

1016

00:38:29,910 --> 00:38:27,920

somebody who still worked within dia

1017

00:38:33,190 --> 00:38:29,920

and he confirmed to me that yes in fact

1018

00:38:35,109 --> 00:38:33,200

that happened in 1959 and it

1019

00:38:37,990 --> 00:38:35,119

i can't remember the name of the radar

1020

00:38:40,950 --> 00:38:38,000

site but it was along the dew line in in

1021

00:38:43,190 --> 00:38:40,960

northern uh alberta i believe or

1022

00:38:43,790 --> 00:38:43,200

saskatchewan

1023

00:38:45,190 --> 00:38:43,800

um

1024

00:38:47,510 --> 00:38:45,200

[Music]

1025

00:38:50,069 --> 00:38:47,520

those are the ones that i actually

1026  
00:38:51,829 --> 00:38:50,079  
would know about during my time period

1027  
00:38:52,950 --> 00:38:51,839  
in in osi

1028  
00:38:55,670 --> 00:38:52,960  
um

1029  
00:38:56,950 --> 00:38:55,680  
since then i've learned about other ones

1030  
00:38:58,310 --> 00:38:56,960  
um

1031  
00:39:02,390 --> 00:38:58,320  
i worked

1032  
00:39:04,069 --> 00:39:02,400  
when i left osi in 1980 and 1994

1033  
00:39:06,310 --> 00:39:04,079  
i went to work for

1034  
00:39:07,990 --> 00:39:06,320  
dr put off in the institute for advanced

1035  
00:39:09,990 --> 00:39:08,000  
studies at austin

1036  
00:39:12,790 --> 00:39:10,000  
i'm sure you you'll read about that and

1037  
00:39:17,750 --> 00:39:12,800  
some and for that time period

1038  
00:39:20,069 --> 00:39:17,760

uh we we did private uh research i did a

1039

00:39:22,230 --> 00:39:20,079

i was a field investigator for him

1040

00:39:24,950 --> 00:39:22,240

i had a darpa clearance

1041

00:39:26,870 --> 00:39:24,960

i went out to different locations

1042

00:39:29,589 --> 00:39:26,880

and one of the sites most fascinating

1043

00:39:32,950 --> 00:39:29,599

site i think the crash site that i've

1044

00:39:36,710 --> 00:39:35,430

before during my osi career i read about

1045

00:39:39,030 --> 00:39:36,720

crashes

1046

00:39:39,829 --> 00:39:39,040

but i haven't i only visited one at one

1047

00:39:42,310 --> 00:39:39,839

time

1048

00:39:44,790 --> 00:39:42,320

and that was when i was assigned to uh

1049

00:39:46,790 --> 00:39:44,800

area 51 but other than that i had not

1050

00:39:48,950 --> 00:39:46,800

actually visited the site well in

1051  
00:39:52,069 --> 00:39:48,960  
western south dakota

1052  
00:39:53,430 --> 00:39:52,079  
there was a uh a rancher near spearfish

1053  
00:39:55,270 --> 00:39:53,440  
south dakota

1054  
00:39:57,670 --> 00:39:55,280  
uh which was out western near the

1055  
00:39:59,750 --> 00:39:57,680  
wyoming border

1056  
00:40:02,470 --> 00:39:59,760  
he had found

1057  
00:40:04,470 --> 00:40:02,480  
some debris on his ranch

1058  
00:40:06,230 --> 00:40:04,480  
and so he um

1059  
00:40:07,750 --> 00:40:06,240  
he didn't know what it was

1060  
00:40:09,910 --> 00:40:07,760  
he didn't really care much about it

1061  
00:40:11,829 --> 00:40:09,920  
because it was in such a remote area

1062  
00:40:14,390 --> 00:40:11,839  
that he didn't bring it up that but some

1063  
00:40:15,750 --> 00:40:14,400

years later two years later he told a

1064

00:40:18,150 --> 00:40:15,760

son

1065

00:40:19,750 --> 00:40:18,160

who was going to take over the ranch

1066

00:40:21,030 --> 00:40:19,760

and so a son went out there and looked

1067

00:40:21,670 --> 00:40:21,040

at this stuff

1068

00:40:23,349 --> 00:40:21,680

and it started

1069

00:40:25,829 --> 00:40:23,359

[Music]

1070

00:40:27,349 --> 00:40:25,839

working with it trying to drill into it

1071

00:40:29,589 --> 00:40:27,359

and he couldn't do that

1072

00:40:30,630 --> 00:40:29,599

and he thought my gosh this has to be

1073

00:40:33,030 --> 00:40:30,640

something

1074

00:40:34,470 --> 00:40:33,040

out of this world so what he thought it

1075

00:40:35,750 --> 00:40:34,480

was a soviet

1076

00:40:36,950 --> 00:40:35,760

or a russian

1077

00:40:38,390 --> 00:40:36,960

because it had been on the ground for a

1078

00:40:40,150 --> 00:40:38,400

long time

1079

00:40:42,710 --> 00:40:40,160

he thought well maybe it was a russian

1080

00:40:43,910 --> 00:40:42,720

or a soviet satellite that had crashed

1081

00:40:46,390 --> 00:40:43,920

and so

1082

00:40:48,069 --> 00:40:46,400

anyways it got back to us the institute

1083

00:40:50,630 --> 00:40:48,079

for advanced studies i went up there

1084

00:40:54,550 --> 00:40:50,640

with another scientist from the from the

1085

00:40:56,790 --> 00:40:54,560

institute and when i looked at it and

1086

00:40:59,990 --> 00:40:56,800

started analyzing it i realized this was

1087

00:41:02,550 --> 00:41:00,000

in fact e.t extraterrestrial nature

1088

00:41:04,309 --> 00:41:02,560

so i tried i called the closest air

1089

00:41:07,349 --> 00:41:04,319

force base was elsewhere ellsworth air

1090

00:41:10,150 --> 00:41:07,359

force base in rapid city or west east of

1091

00:41:13,109 --> 00:41:10,160

rapid city and i tried to convince them

1092

00:41:15,670 --> 00:41:13,119

to come out there i talked to the osi

1093

00:41:17,750 --> 00:41:15,680

uh agent it was a sunday so i talked to

1094

00:41:21,270 --> 00:41:17,760

the osage that was on call

1095

00:41:23,589 --> 00:41:21,280

he thought it was a coop call at first

1096

00:41:27,190 --> 00:41:23,599

like i was especially you know

1097

00:41:30,069 --> 00:41:27,200

i'm a retired person i'm i was osi agent

1098

00:41:32,309 --> 00:41:30,079

and i started talking to him about osi

1099

00:41:33,270 --> 00:41:32,319

information the only osi agent would

1100

00:41:35,030 --> 00:41:33,280

know

1101  
00:41:36,790 --> 00:41:35,040  
he goes wow i start believing you well

1102  
00:41:39,349 --> 00:41:36,800  
let me see what i can do

1103  
00:41:41,990 --> 00:41:39,359  
so the next afternoon

1104  
00:41:43,349 --> 00:41:42,000  
the air force came out and recovered it

1105  
00:41:44,950 --> 00:41:43,359  
and

1106  
00:41:45,990 --> 00:41:44,960  
what was what was hal put off doing at

1107  
00:41:47,190 --> 00:41:46,000  
this point though is he kind of like

1108  
00:41:48,710 --> 00:41:47,200  
rick why did you make this he was in the

1109  
00:41:50,710 --> 00:41:48,720  
bathroom

1110  
00:41:53,190 --> 00:41:50,720  
i mean come on rick dodie's on the phone

1111  
00:41:55,829 --> 00:41:53,200  
man recognized he gave it away well i

1112  
00:41:58,550 --> 00:41:55,839  
know i coordinated all this with him i i

1113  
00:42:00,710 --> 00:41:58,560

talked to hal and i told hal and he said

1114

00:42:02,790 --> 00:42:00,720

i said there's no way i could

1115

00:42:05,430 --> 00:42:02,800

put this into a vehicle it was a big

1116

00:42:07,589 --> 00:42:05,440

object oh wow and transport it back it

1117

00:42:09,910 --> 00:42:07,599

wasn't it wasn't as small was there

1118

00:42:12,230 --> 00:42:09,920

corrosion was there any corrosion on it

1119

00:42:13,910 --> 00:42:12,240

no not a bit of corrosion it's amazing

1120

00:42:15,510 --> 00:42:13,920

not a bit of corrosion

1121

00:42:18,109 --> 00:42:15,520

uh

1122

00:42:23,109 --> 00:42:20,790

hieroglyphics although i i think they're

1123

00:42:25,430 --> 00:42:23,119

more there were more characters like

1124

00:42:26,950 --> 00:42:25,440

chinese characters that were written on

1125

00:42:29,190 --> 00:42:26,960

about other they were chinese because it

1126

00:42:31,270 --> 00:42:29,200

was analyzed later i took a lot of

1127

00:42:33,030 --> 00:42:31,280

pictures a lot of photographs myself and

1128

00:42:35,030 --> 00:42:33,040

this other scientist

1129

00:42:37,670 --> 00:42:35,040

we managed to take a little piece of

1130

00:42:39,109 --> 00:42:37,680

something that had broken off now that's

1131

00:42:40,550 --> 00:42:39,119

amazing because

1132

00:42:41,430 --> 00:42:40,560

you couldn't drill into this thing

1133

00:42:44,470 --> 00:42:41,440

because

1134

00:42:45,990 --> 00:42:44,480

the rancher's son tried he tried to cut

1135

00:42:48,150 --> 00:42:46,000

it with saws

1136

00:42:50,230 --> 00:42:48,160

rip saws he couldn't even make a dent

1137

00:42:53,109 --> 00:42:50,240

into it but we got a piece we took back

1138

00:42:54,069 --> 00:42:53,119

to the laboratory and we and we analyzed

1139

00:42:56,950 --> 00:42:54,079

it but

1140

00:43:00,470 --> 00:42:56,960

i think the uh you know there are some

1141

00:43:03,190 --> 00:43:00,480

uh laws federal laws under title 50

1142

00:43:04,870 --> 00:43:03,200

united states code and that that we

1143

00:43:06,630 --> 00:43:04,880

couldn't keep this

1144

00:43:09,190 --> 00:43:06,640

we would have had to notify the

1145

00:43:11,190 --> 00:43:09,200

government come on i did what i thought

1146

00:43:14,230 --> 00:43:11,200

why are we following i'm just kidding go

1147

00:43:15,670 --> 00:43:14,240

ahead that i did what i i you know i

1148

00:43:17,750 --> 00:43:15,680

know a lot of people criticize me i

1149

00:43:20,150 --> 00:43:17,760

talked to other people about this uh

1150

00:43:21,670 --> 00:43:20,160

years ago and they said you're oh my god

1151

00:43:23,190 --> 00:43:21,680

you should have put it in the back of

1152

00:43:24,870 --> 00:43:23,200

there's no way i could have lifted this

1153

00:43:27,030 --> 00:43:24,880

thing i mean no i wouldn't either i mean

1154

00:43:28,550 --> 00:43:27,040

you got to do it you know what's legal

1155

00:43:30,230 --> 00:43:28,560

because you could be held responsible

1156

00:43:31,910 --> 00:43:30,240

and that's not something that you want

1157

00:43:37,430 --> 00:43:31,920

to mess with exactly

1158

00:43:40,069 --> 00:43:37,440

um so i have to go to area 51 um rick

1159

00:43:42,550 --> 00:43:40,079

there's a lot of obviously you've heard

1160

00:43:44,710 --> 00:43:42,560

you know years worth of talk about this

1161

00:43:46,309 --> 00:43:44,720

um if there were

1162

00:43:49,109 --> 00:43:46,319

a craft

1163

00:43:51,430 --> 00:43:49,119

um is that a place that you think that

1164

00:43:53,670 --> 00:43:51,440

uh the government would keep a whole

1165

00:43:56,230 --> 00:43:53,680

craft or do you think it would have been

1166

00:43:58,390 --> 00:43:56,240

given over to a private contractor like

1167

00:44:00,390 --> 00:43:58,400

lockheed martin or bigelow what do you

1168

00:44:04,309 --> 00:44:00,400

think the government would do if it had

1169

00:44:06,309 --> 00:44:04,319

a whole craft would it be at an area 51

1170

00:44:08,630 --> 00:44:06,319

no it would be an area 51

1171

00:44:12,309 --> 00:44:08,640

it would be taken there at least during

1172

00:44:13,109 --> 00:44:12,319

my time period and even after that

1173

00:44:15,030 --> 00:44:13,119

uh

1174

00:44:17,109 --> 00:44:15,040

you know i worked at area 51 on two

1175

00:44:18,069 --> 00:44:17,119

occasions i was tdy there

1176

00:44:20,550 --> 00:44:18,079

um

1177

00:44:22,630 --> 00:44:20,560

covering for an agent that who had uh

1178

00:44:23,589 --> 00:44:22,640

got real sick and unfortunately passed

1179

00:44:26,390 --> 00:44:23,599

away

1180

00:44:28,390 --> 00:44:26,400

so i was tdy there on two occasions

1181

00:44:29,670 --> 00:44:28,400

i was briefed into a lot of programs not

1182

00:44:31,750 --> 00:44:29,680

everything i wasn't briefed into

1183

00:44:33,990 --> 00:44:31,760

everything uh but i was briefed into a

1184

00:44:36,710 --> 00:44:34,000

lot of different programs i knew what

1185

00:44:38,309 --> 00:44:36,720

was there i knew we needed to have uh

1186

00:44:40,870 --> 00:44:38,319

crafts that we were studying that we

1187

00:44:42,550 --> 00:44:40,880

obtained the exotic crafts that were

1188

00:44:43,990 --> 00:44:42,560

from uh

1189

00:44:46,870 --> 00:44:44,000

out of this world

1190

00:44:47,990 --> 00:44:46,880

um we had uh ets

1191

00:44:49,430 --> 00:44:48,000

uh

1192

00:44:50,790 --> 00:44:49,440

and so we

1193

00:44:51,990 --> 00:44:50,800

we

1194

00:44:54,790 --> 00:44:52,000

air force

1195

00:44:55,750 --> 00:44:54,800

laboratories there

1196

00:44:57,670 --> 00:44:55,760

um

1197

00:45:00,390 --> 00:44:57,680

san diego national laboratories had a

1198

00:45:04,309 --> 00:45:00,400

facility there los alamos had a facility

1199

00:45:05,670 --> 00:45:04,319

there skunk works had a facility there

1200

00:45:07,670 --> 00:45:05,680

now

1201

00:45:09,829 --> 00:45:07,680

when we talk about area 51 we're talking

1202

00:45:10,710 --> 00:45:09,839

about one area groom lake which was back

1203

00:45:13,910 --> 00:45:10,720

then

1204

00:45:15,670 --> 00:45:13,920

death 3 air force test flight center

1205

00:45:19,510 --> 00:45:15,680

and that's official name for it as you

1206

00:45:21,589 --> 00:45:19,520

would know dj uh but we also had tonopah

1207

00:45:24,390 --> 00:45:21,599

tanapa air force base

1208

00:45:25,510 --> 00:45:24,400

which was even more secretive i think

1209

00:45:29,349 --> 00:45:25,520

at

1210

00:45:30,870 --> 00:45:29,359

for than than area 51 because very few

1211

00:45:34,069 --> 00:45:30,880

people knew

1212

00:45:35,829 --> 00:45:34,079

the operating locations on tunnel paw

1213

00:45:38,390 --> 00:45:35,839

now tuna paw

1214

00:45:42,150 --> 00:45:38,400

and area 51 or groom lake was all

1215

00:45:43,670 --> 00:45:42,160

contained in the nellis uh test training

1216

00:45:45,030 --> 00:45:43,680

range

1217

00:45:47,990 --> 00:45:45,040

and

1218

00:45:51,030 --> 00:45:48,000

within that range we they had

1219

00:45:53,349 --> 00:45:51,040

a a facility called wellington

1220

00:45:56,150 --> 00:45:53,359

wellington test center

1221

00:45:59,030 --> 00:45:56,160

jamestown test center they were very

1222

00:46:01,670 --> 00:45:59,040

highly classified locations because this

1223

00:46:04,230 --> 00:46:01,680

is such a large area that we're within

1224

00:46:06,230 --> 00:46:04,240

that test range they were doing some

1225

00:46:07,430 --> 00:46:06,240

extraordinary

1226  
00:46:09,670 --> 00:46:07,440  
testing

1227  
00:46:11,190 --> 00:46:09,680  
of exotic technology in these different

1228  
00:46:12,790 --> 00:46:11,200  
areas

1229  
00:46:15,829 --> 00:46:12,800  
such as

1230  
00:46:17,430 --> 00:46:15,839  
energy weapons time travel

1231  
00:46:19,030 --> 00:46:17,440  
um

1232  
00:46:26,069 --> 00:46:19,040  
inertia

1233  
00:46:27,670 --> 00:46:26,079  
and then

1234  
00:46:30,069 --> 00:46:27,680  
on top of all that

1235  
00:46:31,829 --> 00:46:30,079  
you had a nevada test site

1236  
00:46:34,230 --> 00:46:31,839  
or the which is now called the nevada

1237  
00:46:35,910 --> 00:46:34,240  
national security site where they

1238  
00:46:38,069 --> 00:46:35,920

detonated nuclear weapons and tested

1239

00:46:40,870 --> 00:46:38,079

nuclear weapons back in the 50s 60s 70s

1240

00:46:43,190 --> 00:46:40,880

and 80s in the early 90s

1241

00:46:44,390 --> 00:46:43,200

there were highly classified facilities

1242

00:46:47,670 --> 00:46:44,400

used by

1243

00:46:50,790 --> 00:46:47,680

lockheed by general dynamics by

1244

00:46:52,309 --> 00:46:50,800

tektronix by e-systems all these

1245

00:46:54,630 --> 00:46:52,319

different

1246

00:46:56,950 --> 00:46:54,640

companies contract companies

1247

00:47:00,470 --> 00:46:56,960

they had their facilities there so there

1248

00:47:02,150 --> 00:47:00,480

was a lot of testing of et technology

1249

00:47:03,910 --> 00:47:02,160

done there also

1250

00:47:06,470 --> 00:47:03,920

so if i and i'm going to turn it over to

1251  
00:47:08,710 --> 00:47:06,480  
nathan because he get he gets the next

1252  
00:47:11,750 --> 00:47:08,720  
we got to share rick i mean i can't just

1253  
00:47:15,750 --> 00:47:13,510  
the question i would ask you like like i

1254  
00:47:17,670 --> 00:47:15,760  
said before your level your percentage

1255  
00:47:20,549 --> 00:47:17,680  
of confidence that there was in fact

1256  
00:47:35,190 --> 00:47:20,559  
craft brought somewhere on that groom

1257  
00:47:39,750 --> 00:47:37,670  
let me say this

1258  
00:47:41,190 --> 00:47:39,760  
i knew where

1259  
00:47:42,150 --> 00:47:41,200  
there was a there's a there's a cup

1260  
00:47:43,910 --> 00:47:42,160  
there's

1261  
00:47:46,710 --> 00:47:43,920  
differences between

1262  
00:47:48,790 --> 00:47:46,720  
lazar's story about s4

1263  
00:47:53,349 --> 00:47:48,800

and what's actually there

1264

00:47:57,270 --> 00:47:53,359

s4 was an underground facility under s2

1265

00:48:00,230 --> 00:47:57,280

s2 was a facility inside the mountain

1266

00:48:03,349 --> 00:48:00,240

underground at papua's lake i'd been

1267

00:48:04,549 --> 00:48:03,359

there i was at s2

1268

00:48:07,670 --> 00:48:04,559

there you go

1269

00:48:09,109 --> 00:48:07,680

i was never at s4 i was never under

1270

00:48:11,910 --> 00:48:09,119

there i didn't have a clearance to go

1271

00:48:13,349 --> 00:48:11,920

under there so i don't know what's under

1272

00:48:15,670 --> 00:48:13,359

the ground there

1273

00:48:18,390 --> 00:48:15,680

but i know s2 which was administrative

1274

00:48:20,549 --> 00:48:18,400

control center for s4

1275

00:48:22,309 --> 00:48:20,559

been there several times

1276

00:48:23,510 --> 00:48:22,319

uh you had to have a special security

1277

00:48:25,670 --> 00:48:23,520

clearance

1278

00:48:28,230 --> 00:48:25,680

exchange badge system

1279

00:48:30,309 --> 00:48:28,240

uh to get to get in in there and then

1280

00:48:31,750 --> 00:48:30,319

underground you had to even have a

1281

00:48:34,390 --> 00:48:31,760

different type of

1282

00:48:36,309 --> 00:48:34,400

entry control system to get there well

1283

00:48:39,910 --> 00:48:36,319

i can tell you that

1284

00:48:41,589 --> 00:48:39,920

i never saw anything at s4 so i don't

1285

00:48:42,549 --> 00:48:41,599

know what's down there

1286

00:48:46,710 --> 00:48:42,559

but

1287

00:48:52,470 --> 00:48:49,349

well angelo seijin would take a jeep

1288

00:48:55,030 --> 00:48:52,480

we all had at cj7 jeeps back in those

1289

00:48:57,990 --> 00:48:55,040

days assigned to us we could go anywhere

1290

00:48:59,589 --> 00:48:58,000

out there uh we had badges to get in

1291

00:49:01,030 --> 00:48:59,599

almost any place

1292

00:49:03,349 --> 00:49:01,040

we would go out

1293

00:49:05,510 --> 00:49:03,359

and on security patrol so to speak is

1294

00:49:08,390 --> 00:49:05,520

what we would call it checking your

1295

00:49:10,230 --> 00:49:08,400

different areas i mean we they had air

1296

00:49:12,549 --> 00:49:10,240

force security police there

1297

00:49:13,829 --> 00:49:12,559

they were debt three out of nellis

1298

00:49:16,069 --> 00:49:13,839

and they had

1299

00:49:18,790 --> 00:49:16,079

uh and they were had high-level security

1300

00:49:22,309 --> 00:49:18,800

clearances they guarded the internal

1301  
00:49:24,230 --> 00:49:22,319  
controllment area the outside perimeter

1302  
00:49:26,069 --> 00:49:24,240  
was all done by whack and hot during

1303  
00:49:27,430 --> 00:49:26,079  
that time period there's civilian

1304  
00:49:29,109 --> 00:49:27,440  
security

1305  
00:49:31,030 --> 00:49:29,119  
we would go out and drive around and we

1306  
00:49:33,750 --> 00:49:31,040  
go out to the test area where they would

1307  
00:49:36,069 --> 00:49:33,760  
do the flying and we would we would sit

1308  
00:49:38,950 --> 00:49:36,079  
there for hours watching at night these

1309  
00:49:40,470 --> 00:49:38,960  
exotic planes fly or or some kind of

1310  
00:49:42,390 --> 00:49:40,480  
crash flying

1311  
00:49:43,990 --> 00:49:42,400  
and they would fly

1312  
00:49:46,390 --> 00:49:44,000  
probably hundreds of miles an hour and

1313  
00:49:49,349 --> 00:49:46,400

stop

1314

00:49:52,150 --> 00:49:49,359

and do all these weird things now

1315

00:49:53,829 --> 00:49:52,160

as dj can can swear to it i i've been in

1316

00:49:59,910 --> 00:49:53,839

many many airplanes

1317

00:50:02,549 --> 00:49:59,920

flew many different type in airplanes

1318

00:50:05,030 --> 00:50:02,559

a pilot couldn't withstand the force the

1319

00:50:07,109 --> 00:50:05,040

g-force by stopping going 100 miles an

1320

00:50:08,630 --> 00:50:07,119

hour right is that not right i i would

1321

00:50:10,470 --> 00:50:08,640

say that's accurate to come to a

1322

00:50:12,710 --> 00:50:10,480

complete stop you would uh you'd

1323

00:50:13,430 --> 00:50:12,720

probably get splattered if you weren't

1324

00:50:15,349 --> 00:50:13,440

uh

1325

00:50:17,430 --> 00:50:15,359

i mean if it's an immediate stop i would

1326  
00:50:18,950 --> 00:50:17,440  
say no yeah yeah and that's what they

1327  
00:50:21,430 --> 00:50:18,960  
were doing

1328  
00:50:24,950 --> 00:50:21,440  
and then one landed close to us once and

1329  
00:50:27,910 --> 00:50:24,960  
it was an oval-shaped object um

1330  
00:50:29,670 --> 00:50:27,920  
it landed i would say maybe a mile maybe

1331  
00:50:30,790 --> 00:50:29,680  
a little over a mile from us on a flat

1332  
00:50:34,069 --> 00:50:30,800  
area

1333  
00:50:36,470 --> 00:50:34,079  
uh vehicles went up to it um

1334  
00:50:37,349 --> 00:50:36,480  
and they were obviously it was having

1335  
00:50:39,190 --> 00:50:37,359  
some

1336  
00:50:40,950 --> 00:50:39,200  
sort of a problem

1337  
00:50:42,950 --> 00:50:40,960  
and eventually

1338  
00:50:44,069 --> 00:50:42,960

uh they were able to get it up back up

1339

00:50:46,630 --> 00:50:44,079

in the air

1340

00:50:49,349 --> 00:50:46,640

and what i saw

1341

00:50:52,710 --> 00:50:49,359

it wasn't a conventional craft uh one a

1342

00:50:57,270 --> 00:50:55,430

drones back in those days drone

1343

00:50:59,829 --> 00:50:57,280

technology was highly classified and i

1344

00:51:01,750 --> 00:50:59,839

saw many many uh classified drone

1345

00:51:03,510 --> 00:51:01,760

projects going on in fact i was a

1346

00:51:06,230 --> 00:51:03,520

counterintelligence officer

1347

00:51:08,549 --> 00:51:06,240

for one particular project uh involving

1348

00:51:10,870 --> 00:51:08,559

drone technology so i know what the

1349

00:51:13,430 --> 00:51:10,880

drones were back in those days and these

1350

00:51:16,470 --> 00:51:13,440

weren't drones in fact back in those

1351  
00:51:19,349 --> 00:51:16,480  
days the order in order to fly a drone

1352  
00:51:21,670 --> 00:51:19,359  
you'd have to have a a control aircraft

1353  
00:51:23,589 --> 00:51:21,680  
take off and those control aircrafts

1354  
00:51:26,150 --> 00:51:23,599  
were uh

1355  
00:51:28,230 --> 00:51:26,160  
135s they would fly

1356  
00:51:29,589 --> 00:51:28,240  
and they would be controlling the drones

1357  
00:51:31,030 --> 00:51:29,599  
in the air they couldn't do it on the

1358  
00:51:33,270 --> 00:51:31,040  
ground back in those days yeah a lot

1359  
00:51:35,190 --> 00:51:33,280  
line of sight want to say yeah

1360  
00:51:37,990 --> 00:51:35,200  
exactly line of sight

1361  
00:51:39,349 --> 00:51:38,000  
exactly and so and a lot of these plane

1362  
00:51:40,390 --> 00:51:39,359  
a lot of these drones were being

1363  
00:51:43,270 --> 00:51:40,400

launched

1364

00:51:46,470 --> 00:51:43,280  
from plane from other planes uh

1365

00:51:50,390 --> 00:51:46,480  
135s or 137s um

1366

00:51:51,510 --> 00:51:50,400  
and and they even had the old um i can't

1367

00:51:53,430 --> 00:51:51,520  
remember

1368

00:51:57,829 --> 00:51:53,440  
they were i think they were the box cars

1369

00:52:00,630 --> 00:51:57,839  
a c 119 oh like a 119 yeah yeah 119 yeah

1370

00:52:01,750 --> 00:52:00,640  
that they had a platform under it

1371

00:52:03,510 --> 00:52:01,760  
and there were

1372

00:52:04,790 --> 00:52:03,520  
two or four engine props i'm not sure

1373

00:52:06,230 --> 00:52:04,800  
whatever yeah

1374

00:52:09,190 --> 00:52:06,240  
cops would take off

1375

00:52:11,670 --> 00:52:09,200  
and launch these drones

1376

00:52:14,069 --> 00:52:11,680

at a you know a couple thousand feet

1377

00:52:16,150 --> 00:52:14,079

and that's how they would test drones so

1378

00:52:18,230 --> 00:52:16,160

we knew when drones were being tested

1379

00:52:19,190 --> 00:52:18,240

because we we all saw saw the control

1380

00:52:25,910 --> 00:52:19,200

aircraft

1381

00:52:29,670 --> 00:52:25,920

some of what we were seeing uh i can

1382

00:52:31,750 --> 00:52:29,680

trace to the f-117 because we were there

1383

00:52:33,510 --> 00:52:31,760

during that time period the early 80s i

1384

00:52:36,950 --> 00:52:33,520

mean i saw the one i saw it on the

1385

00:52:37,750 --> 00:52:36,960

ground i saw the 1 17 or the prototypes

1386

00:52:39,510 --> 00:52:37,760

because they had three different

1387

00:52:41,349 --> 00:52:39,520

prototypes

1388

00:52:44,470 --> 00:52:41,359

i knew they what they were doing there

1389

00:52:47,190 --> 00:52:44,480

the aurora i saw some other planes that

1390

00:52:49,750 --> 00:52:47,200

were being tested that had never that

1391

00:52:52,309 --> 00:52:49,760

were never made into production

1392

00:52:56,150 --> 00:52:55,190

i think without a doubt that there were

1393

00:53:01,829 --> 00:52:56,160

uh

1394

00:53:03,430 --> 00:53:01,839

51.

1395

00:53:07,109 --> 00:53:03,440

that's 80

1396

00:53:08,630 --> 00:53:07,119

yeah okay good that's great um so thank

1397

00:53:10,309 --> 00:53:08,640

you i want to i want to drift through a

1398

00:53:11,910 --> 00:53:10,319

little bit into the speculative

1399

00:53:13,109 --> 00:53:11,920

territory so

1400

00:53:17,510 --> 00:53:13,119

uh

1401  
00:53:18,790 --> 00:53:17,520  
because there's a lot of debate about

1402  
00:53:21,349 --> 00:53:18,800  
this

1403  
00:53:22,309 --> 00:53:21,359  
were these crashes

1404  
00:53:24,950 --> 00:53:22,319  
gifts

1405  
00:53:26,549 --> 00:53:24,960  
or some combination of the two because

1406  
00:53:28,470 --> 00:53:26,559  
we've heard stories where

1407  
00:53:29,910 --> 00:53:28,480  
uh you know there's been debris fields

1408  
00:53:31,589 --> 00:53:29,920  
as you've said and then there are other

1409  
00:53:32,950 --> 00:53:31,599  
stories we've heard where

1410  
00:53:34,549 --> 00:53:32,960  
it's almost like they just sort of left

1411  
00:53:35,990 --> 00:53:34,559  
it with the with the keys right in the

1412  
00:53:37,270 --> 00:53:36,000  
engine the engine running you know the

1413  
00:53:38,549 --> 00:53:37,280

lights are still on and it's just been

1414

00:53:40,549 --> 00:53:38,559

landing and you know you can go ahead

1415

00:53:42,630 --> 00:53:40,559

and take it so what's your opinion on

1416

00:53:45,670 --> 00:53:42,640

this uh debate is it is it a mixture of

1417

00:53:47,430 --> 00:53:45,680

the two or one the other

1418

00:53:48,549 --> 00:53:47,440

well i can give you what i know

1419

00:53:49,510 --> 00:53:48,559

factually

1420

00:53:51,990 --> 00:53:49,520

is that

1421

00:53:53,910 --> 00:53:52,000

it's even better

1422

00:53:57,270 --> 00:53:53,920

i know for a fact that

1423

00:53:58,950 --> 00:53:57,280

some of these crafts uh recoveries

1424

00:54:01,109 --> 00:53:58,960

uh had uh

1425

00:54:03,990 --> 00:54:01,119

dead ets in them so

1426

00:54:06,150 --> 00:54:04,000

uh they crashed and and and i know that

1427

00:54:07,349 --> 00:54:06,160

for a fact i read about them i saw the

1428

00:54:10,790 --> 00:54:07,359

photographs

1429

00:54:12,549 --> 00:54:10,800

uh i can tell you that for a fact now

1430

00:54:13,829 --> 00:54:12,559

there are some occasions i know of two

1431

00:54:16,470 --> 00:54:13,839

occasions

1432

00:54:19,190 --> 00:54:16,480

that i did personal research into

1433

00:54:21,589 --> 00:54:19,200

where they found crafts on the ground

1434

00:54:24,870 --> 00:54:21,599

and like you said they were just there

1435

00:54:28,950 --> 00:54:24,880

they left them now one one was

1436

00:54:31,349 --> 00:54:28,960

down in arizona now near yuma um

1437

00:54:34,790 --> 00:54:31,359

the person uh that

1438

00:54:36,309 --> 00:54:34,800

initially told the story wendell stevens

1439

00:54:37,670 --> 00:54:36,319

i'm sure you you know who wendell

1440

00:54:39,589 --> 00:54:37,680

stevens is

1441

00:54:42,309 --> 00:54:39,599

a very good friend of mine

1442

00:54:44,150 --> 00:54:42,319

window had uh pictures and i did a whole

1443

00:54:46,710 --> 00:54:44,160

presentation on it i think there's a

1444

00:54:49,589 --> 00:54:46,720

video out there too of that really yeah

1445

00:54:51,910 --> 00:54:49,599

there's a human video talking about

1446

00:54:53,990 --> 00:54:51,920

that but not not of the actual finding

1447

00:54:55,430 --> 00:54:54,000

of the crap but by him talking about it

1448

00:54:59,190 --> 00:54:55,440

talking about the team that went out

1449

00:55:01,109 --> 00:54:59,200

there and recovered it from uh

1450

00:55:02,069 --> 00:55:01,119

holloman i think it was luke air force

1451  
00:55:04,069 --> 00:55:02,079  
base

1452  
00:55:05,670 --> 00:55:04,079  
yeah luke and uh

1453  
00:55:08,549 --> 00:55:05,680  
what's the one

1454  
00:55:12,390 --> 00:55:10,470  
the uh

1455  
00:55:13,270 --> 00:55:12,400  
uh

1456  
00:55:15,990 --> 00:55:13,280  
davis

1457  
00:55:18,789 --> 00:55:16,000  
yeah yeah uh went down and recovered it

1458  
00:55:21,670 --> 00:55:18,799  
and uh this thing was just on in the

1459  
00:55:23,270 --> 00:55:21,680  
desert found by some hikers

1460  
00:55:25,750 --> 00:55:23,280  
uh eventually

1461  
00:55:27,589 --> 00:55:25,760  
the sheriff got there and and the air

1462  
00:55:29,430 --> 00:55:27,599  
force got there and

1463  
00:55:31,750 --> 00:55:29,440

they actually were

1464

00:55:34,549 --> 00:55:31,760

they could fly it you know how to fly it

1465

00:55:36,950 --> 00:55:34,559

so they went onto big transport vehicle

1466

00:55:39,670 --> 00:55:36,960

and i think

1467

00:55:41,990 --> 00:55:39,680

davis mothman was the closest base

1468

00:55:44,950 --> 00:55:42,000

uh that's in tucson yeah

1469

00:55:47,990 --> 00:55:44,960

to get it up to tucson and to

1470

00:55:50,150 --> 00:55:48,000

davis-monthan and i don't know whatever

1471

00:55:51,030 --> 00:55:50,160

happened to it and dave wendell stephen

1472

00:55:54,710 --> 00:55:51,040

thinks

1473

00:55:56,309 --> 00:55:54,720

it would eventually got to area 51 but

1474

00:55:58,069 --> 00:55:56,319

uh i don't know that they ever learned

1475

00:56:00,069 --> 00:55:58,079

how to fly it so

1476

00:56:01,430 --> 00:56:00,079

that's that's one

1477

00:56:03,750 --> 00:56:01,440

actual

1478

00:56:05,510 --> 00:56:03,760

et craft that i know they just found

1479

00:56:07,109 --> 00:56:05,520

without any bodies in

1480

00:56:09,109 --> 00:56:07,119

amazing so

1481

00:56:11,030 --> 00:56:09,119

so that would fit that nathan maybe what

1482

00:56:12,710 --> 00:56:11,040

you're talking about yeah that certainly

1483

00:56:14,150 --> 00:56:12,720

sounds like it or a drone maybe it was

1484

00:56:16,470 --> 00:56:14,160

doing surveillance

1485

00:56:17,190 --> 00:56:16,480

on their part and then it crashed for

1486

00:56:19,109 --> 00:56:17,200

like

1487

00:56:21,430 --> 00:56:19,119

electromagnetic interference or you know

1488

00:56:23,589 --> 00:56:21,440

actually just you know uh uh lightning

1489

00:56:25,589 --> 00:56:23,599

hit it and it and it reacted you know

1490

00:56:28,069 --> 00:56:25,599

emi can just

1491

00:56:30,710 --> 00:56:28,079

do some serious damage to something well

1492

00:56:31,990 --> 00:56:30,720

let me throw this in when i was

1493

00:56:33,670 --> 00:56:32,000

put off

1494

00:56:36,789 --> 00:56:33,680

one of the things that he was trying to

1495

00:56:40,390 --> 00:56:36,799

work on uh trying to research in

1496

00:56:42,309 --> 00:56:40,400

and there's conjectures all the time

1497

00:56:43,430 --> 00:56:42,319

people saying wait a minute these people

1498

00:56:45,349 --> 00:56:43,440

fly

1499

00:56:47,030 --> 00:56:45,359

hundreds of light years or

1500

00:56:48,789 --> 00:56:47,040

thousands of my

1501

00:56:51,910 --> 00:56:48,799

light years or whatever from another

1502

00:56:53,829 --> 00:56:51,920

planet into our solar system and crash

1503

00:56:55,750 --> 00:56:53,839

how can that happen

1504

00:56:57,349 --> 00:56:55,760

well dr put off

1505

00:56:58,789 --> 00:56:57,359

did a number of different papers

1506

00:57:02,069 --> 00:56:58,799

explaining

1507

00:57:05,670 --> 00:57:04,390

could be distinctly different than where

1508

00:57:08,230 --> 00:57:05,680

they came from

1509

00:57:11,109 --> 00:57:08,240

i mean they leave an atmosphere that is

1510

00:57:14,230 --> 00:57:11,119

entirely different from ours they fly in

1511

00:57:16,150 --> 00:57:14,240

space which is everybody

1512

00:57:18,309 --> 00:57:16,160

spaces same thing

1513

00:57:20,950 --> 00:57:18,319

come into our

1514

00:57:23,349 --> 00:57:20,960

atmosphere with our

1515

00:57:24,390 --> 00:57:23,359

gravity and our inertia systems and so

1516

00:57:26,470 --> 00:57:24,400

forth

1517

00:57:29,190 --> 00:57:26,480

they could experience a whole lot of

1518

00:57:31,990 --> 00:57:29,200

problems that would cause them to crash

1519

00:57:33,750 --> 00:57:32,000

such as lightning and and wind shear and

1520

00:57:35,910 --> 00:57:33,760

all sorts of different things that they

1521

00:57:38,630 --> 00:57:35,920

wouldn't have ever encountered in their

1522

00:57:40,549 --> 00:57:38,640

own in their own planet so just i just

1523

00:57:42,630 --> 00:57:40,559

throw that out there no it's a good

1524

00:57:43,910 --> 00:57:42,640

theory i guess what i'm curious to get

1525

00:57:46,309 --> 00:57:43,920

your take on

1526

00:57:48,630 --> 00:57:46,319

with respect to this is that

1527

00:57:50,789 --> 00:57:48,640

they're

1528

00:57:53,430 --> 00:57:50,799

we're clearly dealing with a very intel

1529

00:57:54,710 --> 00:57:53,440

a high intelligence right so

1530

00:57:56,789 --> 00:57:54,720

what is it

1531

00:57:58,069 --> 00:57:56,799

in your mind what kind of process do you

1532

00:58:01,109 --> 00:57:58,079

go through

1533

00:58:03,829 --> 00:58:01,119

to verify the truthfulness of what we

1534

00:58:05,270 --> 00:58:03,839

are seeing and discovering because

1535

00:58:07,349 --> 00:58:05,280

you know if you're playing if someone's

1536

00:58:10,390 --> 00:58:07,359

playing a game with you and they know

1537

00:58:12,309 --> 00:58:10,400

way more than you do about

1538

00:58:14,549 --> 00:58:12,319

the nature of reality or they have

1539

00:58:16,390 --> 00:58:14,559

mastery over certain technologies or

1540

00:58:17,990 --> 00:58:16,400

we've heard about you know that they

1541

00:58:20,309 --> 00:58:18,000

could have

1542

00:58:22,710 --> 00:58:20,319

uh some degree of control over even our

1543

00:58:24,069 --> 00:58:22,720

our the way we think you know if if you

1544

00:58:25,430 --> 00:58:24,079

if you take all those things into

1545

00:58:27,829 --> 00:58:25,440

consideration

1546

00:58:30,549 --> 00:58:27,839

does that make you question

1547

00:58:32,630 --> 00:58:30,559

kind of what what you see and if it does

1548

00:58:33,990 --> 00:58:32,640

what are the things that eliminate we

1549

00:58:35,910 --> 00:58:34,000

lost rick entirely

1550

00:58:37,270 --> 00:58:35,920

oh my goodness this is terrible i'll

1551  
00:58:38,710 --> 00:58:37,280  
take that question we're going to repeat

1552  
00:58:40,390 --> 00:58:38,720  
that question yeah why don't you take

1553  
00:58:42,630 --> 00:58:40,400  
that question the nexus

1554  
00:58:43,430 --> 00:58:42,640  
i'm just kidding

1555  
00:58:44,549 --> 00:58:43,440  
no

1556  
00:58:46,950 --> 00:58:44,559  
it's fascinating

1557  
00:58:50,470 --> 00:58:46,960  
he's he's yeah he's he's phenomenal i

1558  
00:58:52,630 --> 00:58:50,480  
mean this like he is giving us a lot of

1559  
00:58:54,309 --> 00:58:52,640  
interesting things that uh i i hadn't

1560  
00:58:57,190 --> 00:58:54,319  
heard him talk about so i'm very

1561  
00:58:59,829 --> 00:58:57,200  
gratified that that he's sharing a lot

1562  
00:59:01,190 --> 00:58:59,839  
uh i i kind of like what i don't know

1563  
00:59:03,430 --> 00:59:01,200

what you think nathan i kind of would

1564

00:59:05,109 --> 00:59:03,440

like to get his thing you know we don't

1565

00:59:07,349 --> 00:59:05,119

want to keep him all that long because

1566

00:59:09,589 --> 00:59:07,359

now it's been an hour at this point uh i

1567

00:59:11,750 --> 00:59:09,599

would like to get his take on on tic tac

1568

00:59:14,069 --> 00:59:11,760

and what what thoughts went through his

1569

00:59:15,990 --> 00:59:14,079

head when he saw the performance of that

1570

00:59:17,910 --> 00:59:16,000

and the interaction i would like to get

1571

00:59:20,309 --> 00:59:17,920

his thoughts on whether what he what

1572

00:59:22,630 --> 00:59:20,319

does he think about if possibly some of

1573

00:59:25,030 --> 00:59:22,640

these intelligence were were born here

1574

00:59:27,109 --> 00:59:25,040

and originated here and are appearing

1575

00:59:29,670 --> 00:59:27,119

and disappearing which we we in the

1576

00:59:31,510 --> 00:59:29,680

community think that's a a very very

1577

00:59:33,589 --> 00:59:31,520

plausible hypothesis

1578

00:59:35,829 --> 00:59:33,599

um and i was going to mention pressure

1579

00:59:38,309 --> 00:59:35,839

is what what he was talking about um

1580

00:59:40,390 --> 00:59:38,319

when they come into our atmosphere 14.7

1581

00:59:43,589 --> 00:59:40,400

psi of pressure at

1582

00:59:45,109 --> 00:59:43,599

at sea level that hi rick i'm back

1583

00:59:47,270 --> 00:59:45,119

what's going on i got high speed

1584

00:59:49,109 --> 00:59:47,280

internet here too yeah something fishy

1585

00:59:51,349 --> 00:59:49,119

is happening here rick well uh

1586

00:59:52,870 --> 00:59:51,359

somebody's probably fearing man

1587

00:59:54,870 --> 00:59:52,880

you probably got the gist of my question

1588

00:59:56,789 --> 00:59:54,880

but i guess you know as someone who has

1589

00:59:58,789 --> 00:59:56,799

a background in intelligence and and

1590

01:00:00,390 --> 00:59:58,799

discerning truthfulness

1591

01:00:03,829 --> 01:00:00,400

what are the things that you use to

1592

01:00:05,190 --> 01:00:03,839

apply to this topic that help you get to

1593

01:00:06,470 --> 01:00:05,200

a place where you have a high degree of

1594

01:00:10,710 --> 01:00:06,480

confidence in what it is that you're

1595

01:00:12,150 --> 01:00:10,720

seeing and hearing uh about ufo

1596

01:00:13,910 --> 01:00:12,160

well

1597

01:00:16,150 --> 01:00:13,920

during my time man i learned a lot of

1598

01:00:20,630 --> 01:00:16,160

scientifics i'm not a scientist

1599

01:00:23,109 --> 01:00:20,640

i i am a uh uh i do teach math online so

1600

01:00:26,390 --> 01:00:23,119

i i don't something about mathematics

1601  
01:00:28,789 --> 01:00:26,400  
but i i don't know anything about the

1602  
01:00:30,630 --> 01:00:28,799  
celestial navigation or mechanics or

1603  
01:00:31,670 --> 01:00:30,640  
anything like that uh

1604  
01:00:35,270 --> 01:00:31,680  
so

1605  
01:00:38,390 --> 01:00:35,280  
uh

1606  
01:00:40,630 --> 01:00:38,400  
indicators one of the things we learned

1607  
01:00:43,750 --> 01:00:40,640  
in uh in training

1608  
01:00:46,069 --> 01:00:43,760  
um is uh how to interrogate yeah

1609  
01:00:47,190 --> 01:00:46,079  
interviews and interrogations distinctly

1610  
01:00:49,270 --> 01:00:47,200  
different interviewing somebody

1611  
01:00:50,630 --> 01:00:49,280  
interrogating somebody you watch your

1612  
01:00:53,030 --> 01:00:50,640  
mannerisms

1613  
01:00:54,950 --> 01:00:53,040

uh and so forth so i'm a pretty good

1614

01:00:57,109 --> 01:00:54,960

judge of characters i looked at person

1615

01:00:58,549 --> 01:00:57,119

in their eyes if they can't maintain eye

1616

01:00:59,430 --> 01:00:58,559

contact with me

1617

01:01:01,510 --> 01:00:59,440

um

1618

01:01:02,630 --> 01:01:01,520

i've heard stories

1619

01:01:05,349 --> 01:01:02,640

that were

1620

01:01:07,430 --> 01:01:05,359

clearly out of this world so to speak

1621

01:01:09,030 --> 01:01:07,440

and some of them

1622

01:01:11,430 --> 01:01:09,040

what i'll do is i'll listen to every

1623

01:01:13,829 --> 01:01:11,440

anybody at ufo conventions or

1624

01:01:16,710 --> 01:01:13,839

people sending me emails i'll listen to

1625

01:01:18,470 --> 01:01:16,720

them and then i judge them by number one

1626  
01:01:20,789 --> 01:01:18,480  
their character what i can determine the

1627  
01:01:23,270 --> 01:01:20,799  
character and personality and then also

1628  
01:01:24,470 --> 01:01:23,280  
by the information the subject matter

1629  
01:01:27,030 --> 01:01:24,480  
they're giving me some of the

1630  
01:01:29,750 --> 01:01:27,040  
information i hear is just

1631  
01:01:32,630 --> 01:01:29,760  
total baloney i mean what they claim

1632  
01:01:34,390 --> 01:01:32,640  
they saw or did uh i'll just say well

1633  
01:01:36,470 --> 01:01:34,400  
you know i wasn't there you saw whatever

1634  
01:01:37,349 --> 01:01:36,480  
you did i i can't really make a judgment

1635  
01:01:40,309 --> 01:01:37,359  
on that

1636  
01:01:41,910 --> 01:01:40,319  
um if it's at a ufo convention

1637  
01:01:43,990 --> 01:01:41,920  
uh people

1638  
01:01:47,190 --> 01:01:44,000

most most of these people

1639

01:01:49,589 --> 01:01:47,200

uh will be abductees or

1640

01:01:51,829 --> 01:01:49,599

contactees they call them now and

1641

01:01:54,630 --> 01:01:51,839

they'll come and they'll talk to me well

1642

01:01:57,029 --> 01:01:54,640

i had never been briefed in any programs

1643

01:02:00,069 --> 01:01:57,039

regarding abductees

1644

01:02:02,309 --> 01:02:00,079

until one i i was i didn't handle one i

1645

01:02:03,589 --> 01:02:02,319

could talk about that a little bit later

1646

01:02:05,750 --> 01:02:03,599

and so

1647

01:02:07,990 --> 01:02:05,760

uh i believe that they're

1648

01:02:09,910 --> 01:02:08,000

now i believe at the time and but now i

1649

01:02:11,430 --> 01:02:09,920

believe that there's something to the

1650

01:02:14,150 --> 01:02:11,440

abduction

1651

01:02:16,390 --> 01:02:14,160

phenomena definitely something to it and

1652

01:02:18,710 --> 01:02:16,400

i believe a lot of people and i and i

1653

01:02:20,870 --> 01:02:18,720

really apologize to a lot of people

1654

01:02:23,510 --> 01:02:20,880

over the years that i didn't believe

1655

01:02:26,390 --> 01:02:23,520

i was wrong i mean i know everything

1656

01:02:27,910 --> 01:02:26,400

uh and and i believe a lot of what i

1657

01:02:30,150 --> 01:02:27,920

heard before

1658

01:02:32,150 --> 01:02:30,160

uh i i understand what they were telling

1659

01:02:34,390 --> 01:02:32,160

me that was was truthful

1660

01:02:35,990 --> 01:02:34,400

so that's how i judge people and i judge

1661

01:02:38,390 --> 01:02:36,000

most of it on

1662

01:02:40,789 --> 01:02:38,400

what people tell me like for instance

1663

01:02:44,390 --> 01:02:40,799

i they they claim that they saw a

1664

01:02:47,349 --> 01:02:44,400

aircraft they saw this ufo flying and it

1665

01:02:49,589 --> 01:02:47,359

had these lights on it and well

1666

01:02:51,430 --> 01:02:49,599

you know i'm a trained air traffic

1667

01:02:53,750 --> 01:02:51,440

control specialist

1668

01:02:56,230 --> 01:02:53,760

leaving a i know the lighting systems of

1669

01:02:57,829 --> 01:02:56,240

every single aircraft i know where the

1670

01:02:59,430 --> 01:02:57,839

red light is and the

1671

01:03:00,710 --> 01:02:59,440

and what they're telling me is they're

1672

01:03:02,870 --> 01:03:00,720

describing

1673

01:03:04,470 --> 01:03:02,880

an faa lighting pattern of an aircraft

1674

01:03:07,270 --> 01:03:04,480

and i tried to tell them that i said

1675

01:03:09,750 --> 01:03:07,280

well you know what if a ufo comes to our

1676

01:03:10,950 --> 01:03:09,760

planet they're not going to obey our faa

1677

01:03:12,390 --> 01:03:10,960

rules

1678

01:03:14,069 --> 01:03:12,400

i mean it'd be convenient if they would

1679

01:03:17,109 --> 01:03:14,079

it would be nice i mean

1680

01:03:19,029 --> 01:03:17,119

it would be nice that'd be nice so i'm

1681

01:03:21,910 --> 01:03:19,039

saying yeah you know i don't think what

1682

01:03:23,670 --> 01:03:21,920

you saw was in fact a ufo i think i

1683

01:03:26,549 --> 01:03:23,680

think it was probably a

1684

01:03:29,349 --> 01:03:26,559

a regular aircraft uh

1685

01:03:31,190 --> 01:03:29,359

maybe an air force plane or or a

1686

01:03:34,390 --> 01:03:31,200

civilian

1687

01:03:37,349 --> 01:03:34,400

airliner and so i'll judge him in that

1688

01:03:38,870 --> 01:03:37,359

respect and so and then there's some

1689

01:03:40,150 --> 01:03:38,880

that you just can't

1690

01:03:42,549 --> 01:03:40,160

some people

1691

01:03:44,390 --> 01:03:42,559

will uh like one particular person i'm

1692

01:03:47,670 --> 01:03:44,400

not gonna name the person

1693

01:03:50,710 --> 01:03:47,680

i do shows a gaia i guess you know that

1694

01:03:53,190 --> 01:03:50,720

yeah i did not know that i have about 20

1695

01:03:54,470 --> 01:03:53,200

episodes on gaia cosmic disclosure with

1696

01:03:55,349 --> 01:03:54,480

emery smith

1697

01:03:56,950 --> 01:03:55,359

um

1698

01:03:58,390 --> 01:03:56,960

and there's another person there that

1699

01:03:59,190 --> 01:03:58,400

does some shows

1700

01:04:01,029 --> 01:03:59,200

and

1701

01:04:04,309 --> 01:04:01,039

you know he has a lot of claims about

1702

01:04:05,990 --> 01:04:04,319

being this and that and and and a secret

1703

01:04:07,430 --> 01:04:06,000

space program

1704

01:04:09,670 --> 01:04:07,440

um

1705

01:04:12,710 --> 01:04:09,680

he passed a polygraph examination he

1706

01:04:14,069 --> 01:04:12,720

passed a stress test uh maybe he's

1707

01:04:15,589 --> 01:04:14,079

telling the truth i just don't know

1708

01:04:19,270 --> 01:04:15,599

about any of this so

1709

01:04:20,789 --> 01:04:19,280

i can't judge people anymore uh like i

1710

01:04:23,510 --> 01:04:20,799

like i used to i mean i go to ufo

1711

01:04:25,029 --> 01:04:23,520

conventions and listen to people and i

1712

01:04:26,789 --> 01:04:25,039

want to believe them

1713

01:04:29,109 --> 01:04:26,799

and a lot of people tell me the truth

1714

01:04:31,430 --> 01:04:29,119

they they they tell me this objects

1715

01:04:34,390 --> 01:04:31,440

flying around it didn't have any lights

1716

01:04:36,150 --> 01:04:34,400

on well number one

1717

01:04:39,670 --> 01:04:36,160

that's a good indicator that it was

1718

01:04:43,190 --> 01:04:39,680

something probably i didn't know because

1719

01:04:46,230 --> 01:04:43,200

you can't you can't uh excuse me

1720

01:04:47,990 --> 01:04:46,240

you can't uh fly a a plane

1721

01:04:49,510 --> 01:04:48,000

unless it's under a certain altitude

1722

01:04:51,670 --> 01:04:49,520

without a lighting system at night you

1723

01:04:53,270 --> 01:04:51,680

just can't do that right you i mean you

1724

01:04:55,029 --> 01:04:53,280

can but you're gonna you're very

1725

01:04:57,990 --> 01:04:55,039

dangerous for some problems you're gonna

1726  
01:04:59,190 --> 01:04:58,000  
have f-16s chasing you so somewhere so

1727  
01:05:00,630 --> 01:04:59,200  
ryder

1728  
01:05:01,430 --> 01:05:00,640  
yeah exactly

1729  
01:05:03,349 --> 01:05:01,440  
so

1730  
01:05:05,670 --> 01:05:03,359  
uh that's how i judge people to answer

1731  
01:05:07,589 --> 01:05:05,680  
your question no that's great well i

1732  
01:05:10,789 --> 01:05:07,599  
know we want to transition to

1733  
01:05:12,549 --> 01:05:10,799  
the recent stuff dj but really quickly

1734  
01:05:14,710 --> 01:05:12,559  
do you feel like we're we're kind of

1735  
01:05:16,309 --> 01:05:14,720  
disentangling this though from the past

1736  
01:05:20,390 --> 01:05:16,319  
like

1737  
01:05:21,430 --> 01:05:20,400  
to be very clear and then it kind of got

1738  
01:05:23,670 --> 01:05:21,440

pretty

1739

01:05:25,750 --> 01:05:23,680

as the community

1740

01:05:29,029 --> 01:05:25,760

like allowed its imagination to go to

1741

01:05:31,430 --> 01:05:29,039

run wild and now we are left kind of

1742

01:05:33,589 --> 01:05:31,440

trying to put it back together and and

1743

01:05:35,990 --> 01:05:33,599

form a coherent story do you feel like

1744

01:05:38,470 --> 01:05:36,000

that there's been a lot of damage from

1745

01:05:39,990 --> 01:05:38,480

the intervening years and

1746

01:05:41,589 --> 01:05:40,000

we're now trying to set the right record

1747

01:05:44,710 --> 01:05:41,599

straight and we're doing we're kind of

1748

01:05:47,910 --> 01:05:44,720

restoring the trust with the people and

1749

01:05:50,150 --> 01:05:47,920

telling what's really going on

1750

01:05:51,670 --> 01:05:50,160

well absolutely and you know i have to

1751  
01:05:53,029 --> 01:05:51,680  
blame

1752  
01:05:56,470 --> 01:05:53,039  
um

1753  
01:05:58,789 --> 01:05:56,480  
us intelligence for a lot of this

1754  
01:05:59,910 --> 01:05:58,799  
because and me me being being one of

1755  
01:06:03,990 --> 01:05:59,920  
them uh

1756  
01:06:06,230 --> 01:06:04,000  
there were a lot of uh programs that we

1757  
01:06:08,069 --> 01:06:06,240  
uh we did back in the

1758  
01:06:09,990 --> 01:06:08,079  
late 70s and 80s

1759  
01:06:12,069 --> 01:06:10,000  
that was disinformation we call them

1760  
01:06:14,069 --> 01:06:12,079  
counterintelligence operations sure but

1761  
01:06:16,870 --> 01:06:14,079  
we just informed the public public we

1762  
01:06:21,029 --> 01:06:16,880  
did we did some things that i'm not i'm

1763  
01:06:23,190 --> 01:06:21,039

not proud of i can admit to it

1764

01:06:24,150 --> 01:06:23,200

in disinforming uh the paul benowitz

1765

01:06:26,630 --> 01:06:24,160

case

1766

01:06:28,710 --> 01:06:26,640

and and others um

1767

01:06:30,710 --> 01:06:28,720

trying to convince a person one way to

1768

01:06:32,390 --> 01:06:30,720

the other convincing them that what they

1769

01:06:34,789 --> 01:06:32,400

were seeing

1770

01:06:37,750 --> 01:06:34,799

was in fact ufo when it was really a

1771

01:06:39,510 --> 01:06:37,760

classified air force project or or vice

1772

01:06:41,190 --> 01:06:39,520

versa convincing it was air force

1773

01:06:42,950 --> 01:06:41,200

project when it was actually something

1774

01:06:44,950 --> 01:06:42,960

we didn't know about yeah so we didn't

1775

01:06:48,309 --> 01:06:44,960

want

1776

01:06:51,670 --> 01:06:48,319

uh a a um upset public

1777

01:06:53,349 --> 01:06:51,680

or a panic public so uh the government

1778

01:06:55,510 --> 01:06:53,359

is responsible and that wasn't just me

1779

01:06:57,029 --> 01:06:55,520

there were thousands of other uh

1780

01:06:59,750 --> 01:06:57,039

intelligence officers doing the exact

1781

01:07:03,190 --> 01:06:59,760

same thing that i was doing so uh i

1782

01:07:05,589 --> 01:07:03,200

think that's uh we put we put a a wrench

1783

01:07:07,910 --> 01:07:05,599

in there a monkey wrench in there and

1784

01:07:10,230 --> 01:07:07,920

and we we would be responsible for some

1785

01:07:13,109 --> 01:07:10,240

of that but on the other hand the ufo

1786

01:07:16,069 --> 01:07:13,119

community did it themselves sure by

1787

01:07:18,710 --> 01:07:16,079

writing books uh about things that are

1788

01:07:19,430 --> 01:07:18,720

absolutely not true

1789

01:07:22,549 --> 01:07:19,440

and

1790

01:07:23,829 --> 01:07:22,559

putting uh fear in the public

1791

01:07:27,589 --> 01:07:23,839

uh although

1792

01:07:30,950 --> 01:07:27,599

um i don't wanna sound dramatic now or

1793

01:07:33,270 --> 01:07:30,960

or sound uh upset anybody but there are

1794

01:07:34,789 --> 01:07:33,280

things out there that i

1795

01:07:36,470 --> 01:07:34,799

witnessed

1796

01:07:38,309 --> 01:07:36,480

or i read

1797

01:07:41,190 --> 01:07:38,319

i would briefed into

1798

01:07:43,589 --> 01:07:41,200

that scared me i mean very i mean really

1799

01:07:45,349 --> 01:07:43,599

really scared me and believe me

1800

01:07:48,710 --> 01:07:45,359

i don't scare easy

1801

01:07:51,109 --> 01:07:48,720

i believe that i 100 believe that i

1802

01:07:53,430 --> 01:07:51,119

jumped into an area i jumped into an

1803

01:07:54,630 --> 01:07:53,440

area that there's four of us that jumped

1804

01:07:55,670 --> 01:07:54,640

into and

1805

01:07:58,230 --> 01:07:55,680

it was

1806

01:08:00,470 --> 01:07:58,240

in back in my combat control days and it

1807

01:08:01,910 --> 01:08:00,480

was very you know very dangerous anyways

1808

01:08:02,789 --> 01:08:01,920

getting off that but

1809

01:08:04,549 --> 01:08:02,799

you know

1810

01:08:06,230 --> 01:08:04,559

that really does scare me the things

1811

01:08:08,069 --> 01:08:06,240

that i read and i would i don't want to

1812

01:08:10,069 --> 01:08:08,079

repeat some of the stuff is still

1813

01:08:11,510 --> 01:08:10,079

classified some of the things that

1814

01:08:14,069 --> 01:08:11,520  
happened

1815

01:08:16,229 --> 01:08:14,079  
that that i was there and witnessed is

1816

01:08:17,829 --> 01:08:16,239  
are still classified so there are things

1817

01:08:19,430 --> 01:08:17,839  
out there that uh

1818

01:08:20,229 --> 01:08:19,440  
be careful what you ask for because of

1819

01:08:21,110 --> 01:08:20,239  
course

1820

01:08:23,189 --> 01:08:21,120  
yeah

1821

01:08:25,910 --> 01:08:23,199  
i'm with you and we we wouldn't ask you

1822

01:08:28,789 --> 01:08:25,920  
to to violate anything i'm kind of

1823

01:08:31,110 --> 01:08:28,799  
curious to get your perspective on

1824

01:08:33,189 --> 01:08:31,120  
there's a lot of theories now

1825

01:08:35,430 --> 01:08:33,199  
that are based upon

1826

01:08:37,910 --> 01:08:35,440

vehicles that we see in the air and i've

1827

01:08:40,470 --> 01:08:37,920

kind of stopped using the term flying in

1828

01:08:42,789 --> 01:08:40,480

some instances particularly with tic tac

1829

01:08:45,430 --> 01:08:42,799

because the way that it operates it

1830

01:08:47,749 --> 01:08:45,440

doesn't seem to interact with the air

1831

01:08:48,950 --> 01:08:47,759

the way that uh bernoulli's theorem

1832

01:08:53,510 --> 01:08:48,960

would dictate

1833

01:08:55,749 --> 01:08:53,520

you know first and third laws of motion

1834

01:08:57,269 --> 01:08:55,759

these types of things so i'm not sure

1835

01:08:58,709 --> 01:08:57,279

that they're flying but they're moving

1836

01:08:59,590 --> 01:08:58,719

in our airspace

1837

01:09:00,950 --> 01:08:59,600

um

1838

01:09:02,870 --> 01:09:00,960

because of the fact that some of these

1839

01:09:04,630 --> 01:09:02,880

are going underwater

1840

01:09:07,110 --> 01:09:04,640

where are you on the hypothesis that

1841

01:09:10,470 --> 01:09:07,120

maybe they are from here and are already

1842

01:09:12,709 --> 01:09:10,480

here and are making themselves appear or

1843

01:09:13,430 --> 01:09:12,719

making themselves known when they want

1844

01:09:18,229 --> 01:09:13,440

to

1845

01:09:19,990 --> 01:09:18,239

another medium in the ocean when they

1846

01:09:22,470 --> 01:09:20,000

want to what are your thoughts about

1847

01:09:25,189 --> 01:09:22,480

that hypothesis

1848

01:09:28,149 --> 01:09:25,199

well there are a lot of cases out there

1849

01:09:31,430 --> 01:09:29,430

pertain to

1850

01:09:33,990 --> 01:09:31,440

ufos being seen

1851

01:09:37,349 --> 01:09:34,000

over the ocean over over a body of water

1852

01:09:39,189 --> 01:09:37,359

disappearing into the ocean

1853

01:09:41,829 --> 01:09:39,199

i was never

1854

01:09:43,510 --> 01:09:41,839

never briefed in anything regarding it

1855

01:09:46,550 --> 01:09:43,520

underwater ufo

1856

01:09:49,269 --> 01:09:46,560

i know there were other others i'm a

1857

01:09:52,149 --> 01:09:49,279

member of a retired retired intelligence

1858

01:09:54,630 --> 01:09:52,159

association we have naval officer naval

1859

01:09:56,310 --> 01:09:54,640

intelligence officers in that and they

1860

01:09:59,110 --> 01:09:56,320

tell stories about what they had been

1861

01:10:01,350 --> 01:09:59,120

briefed into regarding uh

1862

01:10:04,470 --> 01:10:01,360

the ufo are you

1863

01:10:06,630 --> 01:10:04,480

under surf surface under underwater

1864

01:10:10,790 --> 01:10:06,640

uso which excuse me yes thank you thanks

1865

01:10:11,830 --> 01:10:10,800

nathan nathan uh usos uh then they and

1866

01:10:14,870 --> 01:10:11,840

there's a

1867

01:10:19,189 --> 01:10:14,880

the most classic was a as a

1868

01:10:21,990 --> 01:10:19,199

submarine that was traveling in the

1869

01:10:25,189 --> 01:10:22,000

this was in the 80s uh chasing a soviet

1870

01:10:27,669 --> 01:10:25,199

submarine in the uh bering strait

1871

01:10:28,790 --> 01:10:27,679

um and they were i don't know how deep

1872

01:10:30,470 --> 01:10:28,800

they were but

1873

01:10:32,709 --> 01:10:30,480

um

1874

01:10:34,070 --> 01:10:32,719

our submarines chasing they were a

1875

01:10:35,910 --> 01:10:34,080

thousand meters from the russian

1876

01:10:37,830 --> 01:10:35,920

submarine all of a sudden

1877

01:10:38,870 --> 01:10:37,840

this craft comes in

1878

01:10:40,470 --> 01:10:38,880

to view

1879

01:10:42,790 --> 01:10:40,480

on sonar

1880

01:10:45,110 --> 01:10:42,800

and it comes right up in front of the

1881

01:10:47,189 --> 01:10:45,120

the the uss submarine i can't remember

1882

01:10:48,310 --> 01:10:47,199

what the name of it was uh

1883

01:10:49,910 --> 01:10:48,320

anyways whatever the name of the

1884

01:10:53,350 --> 01:10:49,920

submarine was

1885

01:10:55,669 --> 01:10:53,360

shocking the whole crew the 80-man crew

1886

01:10:57,189 --> 01:10:55,679

and not knowing what this thing was

1887

01:10:59,350 --> 01:10:57,199

they first thought that it might have

1888

01:11:02,229 --> 01:10:59,360

been something that the soviets had

1889

01:11:03,990 --> 01:11:02,239

fired at him uh maybe an underwater big

1890

01:11:06,870 --> 01:11:04,000

torpedo or something

1891

01:11:08,790 --> 01:11:06,880

but the thing just stopped so it forced

1892

01:11:10,310 --> 01:11:08,800

our submarines stopped

1893

01:11:12,550 --> 01:11:10,320

and now back in those days they

1894

01:11:13,350 --> 01:11:12,560

explained this this

1895

01:11:15,990 --> 01:11:13,360

uh

1896

01:11:18,870 --> 01:11:16,000

in fact i actually talked to spoke with

1897

01:11:20,390 --> 01:11:18,880

not on not in person but on phone of the

1898

01:11:21,669 --> 01:11:20,400

submarine commander

1899

01:11:23,510 --> 01:11:21,679

back in those days they didn't have

1900

01:11:27,110 --> 01:11:23,520

monitors they didn't if they didn't have

1901

01:11:29,669 --> 01:11:27,120

uh uh cameras everything was on sonar so

1902

01:11:31,910 --> 01:11:29,679

everything was sonar pictured and they

1903

01:11:33,430 --> 01:11:31,920

see this picture and none of the sonar

1904

01:11:34,550 --> 01:11:33,440

operators the experts could figure out

1905

01:11:36,790 --> 01:11:34,560

what it was

1906

01:11:39,110 --> 01:11:36,800

it seemed to have mass

1907

01:11:41,669 --> 01:11:39,120

but it then it seemed to be less dense

1908

01:11:43,189 --> 01:11:41,679

than something that they would like a a

1909

01:11:44,790 --> 01:11:43,199

metal object

1910

01:11:48,390 --> 01:11:44,800

they couldn't figure it out

1911

01:11:50,630 --> 01:11:48,400

but it did give the the the soviets uh

1912

01:11:52,550 --> 01:11:50,640

a chance to get away so to speak

1913

01:11:55,110 --> 01:11:52,560

and this thing stayed with us for a long

1914

01:11:57,830 --> 01:11:55,120

time when eventually we surfaced and

1915

01:11:58,709 --> 01:11:57,840

there was a uh a destroyer or a navy

1916

01:12:01,110 --> 01:11:58,719

ship

1917

01:12:03,189 --> 01:12:01,120

some distance away but came up

1918

01:12:05,669 --> 01:12:03,199

when they when they surfaced this huge

1919

01:12:07,270 --> 01:12:05,679

object came out of the water

1920

01:12:10,790 --> 01:12:07,280

it came up above the surface and then

1921

01:12:12,709 --> 01:12:10,800

flew above him away now

1922

01:12:16,310 --> 01:12:12,719

you know he says i didn't believe in

1923

01:12:18,470 --> 01:12:16,320

ufos or anything like that now usos now

1924

01:12:20,310 --> 01:12:18,480

what what was that it couldn't be one of

1925

01:12:21,270 --> 01:12:20,320

ours could it

1926

01:12:23,750 --> 01:12:21,280

so

1927

01:12:26,390 --> 01:12:23,760

after that and this was years after i

1928

01:12:28,310 --> 01:12:26,400

got out uh i tend to think there's

1929

01:12:30,790 --> 01:12:28,320

something to it now whether

1930

01:12:33,750 --> 01:12:30,800

we they have a base

1931

01:12:35,270 --> 01:12:33,760

under the ocean like 32 only 32 percent

1932

01:12:37,110 --> 01:12:35,280

of our oceans

1933

01:12:39,270 --> 01:12:37,120

have ever been mapped so

1934

01:12:41,030 --> 01:12:39,280

uh you know we got

1935

01:12:42,950 --> 01:12:41,040

millions of miles of oceans out there

1936

01:12:44,630 --> 01:12:42,960

that we don't know what's down there i

1937

01:12:47,030 --> 01:12:44,640

mean there they were taught they just

1938

01:12:49,430 --> 01:12:47,040

recently i i was listening to somebody

1939

01:12:52,630 --> 01:12:49,440

talk about the indian ocean the southern

1940

01:12:54,470 --> 01:12:52,640

indian ocean and near antarctica

1941

01:12:55,750 --> 01:12:54,480

none of that's ever been met they don't

1942

01:12:57,110 --> 01:12:55,760

know

1943

01:12:59,270 --> 01:12:57,120

okay so

1944

01:13:01,830 --> 01:12:59,280

could degree basis down there

1945

01:13:04,070 --> 01:13:01,840

they're very possible could it be some

1946

01:13:05,750 --> 01:13:04,080

sort of an interdimensional

1947

01:13:09,110 --> 01:13:05,760

craft

1948

01:13:11,669 --> 01:13:09,120

i'm not so much into that i'm not i i

1949

01:13:14,229 --> 01:13:11,679

uh dr put off did a paper on that too

1950

01:13:16,470 --> 01:13:14,239

and you really have to be

1951

01:13:20,149 --> 01:13:16,480

um

1952

01:13:21,830 --> 01:13:20,159

schooled in uh theoretical physics

1953

01:13:23,350 --> 01:13:21,840

to understand

1954

01:13:25,669 --> 01:13:23,360

the

1955

01:13:28,390 --> 01:13:25,679

what would it take

1956

01:13:30,630 --> 01:13:28,400

to fly something in an inner dimension

1957

01:13:33,270 --> 01:13:30,640

and then we see it

1958

01:13:35,189 --> 01:13:33,280

you know it's it's really complex

1959

01:13:36,709 --> 01:13:35,199

so i i'm not sure

1960

01:13:38,149 --> 01:13:36,719

i mean maybe it maybe there is and i

1961

01:13:39,910 --> 01:13:38,159

just don't know about it

1962

01:13:42,310 --> 01:13:39,920

and i i mean there's a lot of things out

1963

01:13:44,229 --> 01:13:42,320

there that i that you're open to it open

1964

01:13:44,950 --> 01:13:44,239

to it i'll be very open to it yes sure

1965

01:13:46,229 --> 01:13:44,960

well

1966

01:13:48,229 --> 01:13:46,239

i just want to say one more thing to

1967

01:13:49,830 --> 01:13:48,239

rick before i turn it to nathan yeah

1968

01:13:51,910 --> 01:13:49,840

rick i know it'll give you great

1969

01:13:54,390 --> 01:13:51,920

pleasure to know that in my head when i

1970

01:13:55,110 --> 01:13:54,400

hear the names rick dodie and hal put

1971

01:13:56,870 --> 01:13:55,120

off

1972

01:13:59,030 --> 01:13:56,880

and kit green

1973

01:14:01,110 --> 01:13:59,040

and and admiral wilson like this

1974

01:14:02,709 --> 01:14:01,120

mysterious music goes off of my head

1975

01:14:04,390 --> 01:14:02,719

it's amazing you're one of the people

1976

01:14:06,149 --> 01:14:04,400

that makes that happen

1977

01:14:07,910 --> 01:14:06,159

i'm sorry i'm being an idiot but this is

1978

01:14:09,669 --> 01:14:07,920

so much fun you're so much fun rick

1979

01:14:10,630 --> 01:14:09,679

thanks for playing yeah i enjoyed having

1980

01:14:11,350 --> 01:14:10,640

another show

1981

01:14:13,350 --> 01:14:11,360

well

1982

01:14:14,470 --> 01:14:13,360

and i guess i'm curious rick so over

1983

01:14:18,149 --> 01:14:14,480

time

1984

01:14:19,830 --> 01:14:18,159

uh as our science has advanced you know

1985

01:14:21,990 --> 01:14:19,840

we have gone from

1986

01:14:24,870 --> 01:14:22,000

uh understanding that you know we're in

1987

01:14:26,709 --> 01:14:24,880

a we're in a galaxy or a planet there we

1988

01:14:28,870 --> 01:14:26,719

even know there are many planets for

1989

01:14:31,030 --> 01:14:28,880

until very in the last i think you know

1990

01:14:33,110 --> 01:14:31,040

three decades or so outside of our solar

1991

01:14:34,950 --> 01:14:33,120

system and then we started imaging them

1992

01:14:36,550 --> 01:14:34,960

and seeing them but then going into

1993

01:14:37,910 --> 01:14:36,560

quantum physics understanding quantum

1994

01:14:39,590 --> 01:14:37,920

physics has changed the way that we look

1995

01:14:42,149 --> 01:14:39,600

at the world and then of course we're on

1996

01:14:44,550 --> 01:14:42,159

the cusp of artificial intelligence and

1997

01:14:46,229 --> 01:14:44,560

we and people talk about ai like ai is

1998

01:14:48,550 --> 01:14:46,239

everywhere but we really haven't yet

1999

01:14:51,030 --> 01:14:48,560

achieved ai we're but we are close and

2000

01:14:53,510 --> 01:14:51,040

we're working on getting there but we

2001

01:14:55,350 --> 01:14:53,520

it's within reach and my point here is

2002

01:14:58,790 --> 01:14:55,360

as our science as our understanding of

2003

01:15:01,430 --> 01:14:58,800

what we are capable of changes does that

2004

01:15:03,910 --> 01:15:01,440

impact our understanding of what this

2005

01:15:05,910 --> 01:15:03,920

actually is

2006

01:15:07,110 --> 01:15:05,920

well absolutely

2007

01:15:08,550 --> 01:15:07,120

in fact

2008

01:15:12,790 --> 01:15:08,560

the

2009

01:15:15,590 --> 01:15:12,800

scientific community

2010

01:15:16,870 --> 01:15:15,600

the uh darpa scientists

2011

01:15:18,790 --> 01:15:16,880

scientists

2012

01:15:21,669 --> 01:15:18,800

in the in the

2013

01:15:24,870 --> 01:15:21,679

secret rooms in los alamos and sandia

2014

01:15:30,950 --> 01:15:28,470

they're doing exactly that as as our

2015

01:15:34,470 --> 01:15:30,960

technology advances our scientific

2016

01:15:36,709 --> 01:15:34,480

understanding of the universe advances

2017

01:15:39,510 --> 01:15:36,719

we go in and bring out these objects

2018

01:15:41,669 --> 01:15:39,520

that we found years ago

2019

01:15:43,350 --> 01:15:41,679

and try to understand them more

2020

01:15:46,149 --> 01:15:43,360

now with our advanced

2021

01:15:47,669 --> 01:15:46,159

learning uh we might be able to

2022

01:15:48,550 --> 01:15:47,679

understand

2023

01:15:51,350 --> 01:15:48,560

this

2024

01:15:54,470 --> 01:15:51,360

object that we that we found that came

2025

01:15:57,030 --> 01:15:54,480

from an e.t the energy device or the

2026

01:15:58,709 --> 01:15:57,040

communications device or the the

2027

01:16:00,630 --> 01:15:58,719

propulsion system

2028

01:16:03,270 --> 01:16:00,640

um

2029

01:16:05,350 --> 01:16:03,280

and and and we do that and and and dr

2030

01:16:08,390 --> 01:16:05,360

putoff has has publicly talked about

2031

01:16:11,270 --> 01:16:08,400

doing that as as other scientists have

2032

01:16:12,149 --> 01:16:11,280

that okay as a as we understand science

2033

01:16:15,189 --> 01:16:12,159

more

2034

01:16:17,270 --> 01:16:15,199

but the problem there is

2035

01:16:18,390 --> 01:16:17,280

this technology that we're looking at

2036

01:16:21,030 --> 01:16:18,400

came from

2037

01:16:22,310 --> 01:16:21,040

an entirely different civilization

2038

01:16:23,750 --> 01:16:22,320

in a different

2039

01:16:26,310 --> 01:16:23,760

different uh

2040

01:16:28,790 --> 01:16:26,320

maybe obviously different solar system

2041

01:16:31,590 --> 01:16:28,800

maybe even a different galaxy although

2042

01:16:34,310 --> 01:16:31,600

i think the consensus among dr puthoff

2043

01:16:35,430 --> 01:16:34,320

and most other scientists is it would be

2044

01:16:38,310 --> 01:16:35,440

from our

2045

01:16:39,510 --> 01:16:38,320

galaxy we we just can't believe

2046

01:16:41,189 --> 01:16:39,520

that

2047

01:16:44,470 --> 01:16:41,199

somebody could travel

2048

01:16:47,030 --> 01:16:44,480

uh from from uh you know a billion light

2049

01:16:49,189 --> 01:16:47,040

years away or 100 million or something

2050

01:16:53,590 --> 01:16:49,199

to our planet so we would we would think

2051  
01:16:54,950 --> 01:16:53,600  
that most of of these were in our our

2052  
01:16:56,070 --> 01:16:54,960  
galaxy

2053  
01:17:00,070 --> 01:16:56,080  
and

2054  
01:17:02,870 --> 01:17:00,080  
they're made with a different technology

2055  
01:17:06,550 --> 01:17:02,880  
different materials

2056  
01:17:09,030 --> 01:17:06,560  
so we may never understand

2057  
01:17:10,550 --> 01:17:09,040  
alien technology yeah we might

2058  
01:17:12,630 --> 01:17:10,560  
understand some

2059  
01:17:15,110 --> 01:17:12,640  
we might and as dr puthoff puts it we

2060  
01:17:16,790 --> 01:17:15,120  
might understand the concept this is a

2061  
01:17:19,030 --> 01:17:16,800  
propulsion system

2062  
01:17:21,030 --> 01:17:19,040  
this works by something

2063  
01:17:23,750 --> 01:17:21,040

we just have to figure out what

2064

01:17:26,149 --> 01:17:23,760  
and something could be some

2065

01:17:27,830 --> 01:17:26,159  
an item or a

2066

01:17:29,750 --> 01:17:27,840  
element that we don't have here on this

2067

01:17:31,430 --> 01:17:29,760  
planet that they have in some other

2068

01:17:33,430 --> 01:17:31,440  
planet

2069

01:17:37,110 --> 01:17:33,440  
and then there's a

2070

01:17:38,870 --> 01:17:37,120  
there's a also a theory that was uh

2071

01:17:40,950 --> 01:17:38,880  
put out some years ago stan friedman

2072

01:17:43,350 --> 01:17:40,960  
talked about this in his book

2073

01:17:45,510 --> 01:17:43,360  
uh if in fact something came from

2074

01:17:48,310 --> 01:17:45,520  
another galaxy

2075

01:17:50,550 --> 01:17:48,320  
a different type of galaxy than ours

2076

01:17:52,390 --> 01:17:50,560

the physics on that galaxy could be

2077

01:17:54,550 --> 01:17:52,400

entirely different

2078

01:17:56,790 --> 01:17:54,560

than the physics here

2079

01:17:59,430 --> 01:17:56,800

now i don't personally believe that but

2080

01:18:01,110 --> 01:17:59,440

because it's just all one one one

2081

01:18:01,830 --> 01:18:01,120

universe i mean goes i'm not a scientist

2082

01:18:03,830 --> 01:18:01,840

though

2083

01:18:06,149 --> 01:18:03,840

but but i understand what two and two is

2084

01:18:08,630 --> 01:18:06,159

for and you know i can understand

2085

01:18:12,310 --> 01:18:08,640

mathematics might be the same but

2086

01:18:15,110 --> 01:18:12,320

there it could be some difference but um

2087

01:18:15,990 --> 01:18:15,120

i think that we have to really advance

2088

01:18:17,430 --> 01:18:16,000

our

2089

01:18:19,910 --> 01:18:17,440

knowledge

2090

01:18:21,189 --> 01:18:19,920

of the of of of the universe before we

2091

01:18:22,630 --> 01:18:21,199

could ever

2092

01:18:24,310 --> 01:18:22,640

try to understand some of the et

2093

01:18:25,430 --> 01:18:24,320

technology

2094

01:18:26,390 --> 01:18:25,440

yeah

2095

01:18:27,510 --> 01:18:26,400

um

2096

01:18:28,870 --> 01:18:27,520

rick

2097

01:18:30,950 --> 01:18:28,880

there i know there's like there's so

2098

01:18:32,709 --> 01:18:30,960

much to get to uh nathan and i are

2099

01:18:34,790 --> 01:18:32,719

struggling thinking about but but we can

2100

01:18:36,550 --> 01:18:34,800

we're not going to we're gonna wrap up

2101  
01:18:38,630 --> 01:18:36,560  
so we just have a couple more questions

2102  
01:18:41,590 --> 01:18:38,640  
if that's okay sure

2103  
01:18:44,630 --> 01:18:41,600  
what were the emotions that you

2104  
01:18:47,270 --> 01:18:44,640  
uh felt and i know that you don't

2105  
01:18:49,510 --> 01:18:47,280  
uh your job is basically to

2106  
01:18:52,149 --> 01:18:49,520  
look at an event and not apply emotion

2107  
01:18:53,430 --> 01:18:52,159  
to it to be dispassionate to be

2108  
01:18:55,189 --> 01:18:53,440  
analytical

2109  
01:18:57,590 --> 01:18:55,199  
to see what's going on and then make an

2110  
01:18:59,510 --> 01:18:57,600  
assessment based on what you've seen and

2111  
01:19:02,790 --> 01:18:59,520  
with that with all that happened

2112  
01:19:03,830 --> 01:19:02,800  
regarding tic tac with dave fravor

2113  
01:19:06,870 --> 01:19:03,840

alex

2114

01:19:10,550 --> 01:19:06,880

chad underwood uh the guys and gals that

2115

01:19:12,390 --> 01:19:10,560

were on the uh uss princeton uh the uh

2116

01:19:13,270 --> 01:19:12,400

aegis radar cruiser

2117

01:19:15,430 --> 01:19:13,280

um

2118

01:19:17,510 --> 01:19:15,440

the e2 hawkeye folks what was your

2119

01:19:19,430 --> 01:19:17,520

assessment of of

2120

01:19:21,350 --> 01:19:19,440

that how did you process that

2121

01:19:22,870 --> 01:19:21,360

information and what did you think about

2122

01:19:25,750 --> 01:19:22,880

it

2123

01:19:28,310 --> 01:19:25,760

i interviewed all right i sat and talked

2124

01:19:29,590 --> 01:19:28,320

with an interview my i sat and i spoke

2125

01:19:32,390 --> 01:19:29,600

with a lot of them

2126  
01:19:35,510 --> 01:19:32,400  
at uh at different locations something

2127  
01:19:37,510 --> 01:19:35,520  
ufo mentioned in other places uh we were

2128  
01:19:40,310 --> 01:19:37,520  
brought together in california

2129  
01:19:42,310 --> 01:19:40,320  
uh about a year and a half ago and and

2130  
01:19:45,910 --> 01:19:42,320  
and it was

2131  
01:19:47,510 --> 01:19:45,920  
discussion

2132  
01:19:49,350 --> 01:19:47,520  
um

2133  
01:19:51,189 --> 01:19:49,360  
they were every single person that

2134  
01:19:54,070 --> 01:19:51,199  
witnessed the tic-tac

2135  
01:19:55,270 --> 01:19:54,080  
the uss nimitz or the the uh

2136  
01:19:58,149 --> 01:19:55,280  
the um

2137  
01:19:59,030 --> 01:19:58,159  
the roosevelt case the pilots

2138  
01:20:00,950 --> 01:19:59,040

um

2139

01:20:04,790 --> 01:20:00,960

they were all very passionate

2140

01:20:07,030 --> 01:20:04,800

i i believe everything they said

2141

01:20:09,430 --> 01:20:07,040

uh they spoke from the heart

2142

01:20:12,149 --> 01:20:09,440

uh they didn't exaggerate

2143

01:20:14,070 --> 01:20:12,159

you know amazing thing about pilots i

2144

01:20:14,950 --> 01:20:14,080

mean and i really admire pilots of

2145

01:20:17,590 --> 01:20:14,960

course

2146

01:20:20,310 --> 01:20:17,600

t.j.u is that they

2147

01:20:21,270 --> 01:20:20,320

they are great observers

2148

01:20:23,910 --> 01:20:21,280

and

2149

01:20:25,750 --> 01:20:23,920

they'll tell you what they see

2150

01:20:28,149 --> 01:20:25,760

and that's it

2151  
01:20:29,590 --> 01:20:28,159  
and um

2152  
01:20:31,189 --> 01:20:29,600  
and and they

2153  
01:20:35,110 --> 01:20:31,199  
they follow

2154  
01:20:38,149 --> 01:20:35,120  
they have to fly in his plane that you

2155  
01:20:39,750 --> 01:20:38,159  
know one small mistake and i mean and i

2156  
01:20:40,870 --> 01:20:39,760  
saw it from the ground on this combat

2157  
01:20:42,870 --> 01:20:40,880  
controller

2158  
01:20:45,189 --> 01:20:42,880  
you know i tell a pilot you know you got

2159  
01:20:46,950 --> 01:20:45,199  
a hole in this one holding pattern and

2160  
01:20:48,070 --> 01:20:46,960  
it might be a really small holding

2161  
01:20:50,950 --> 01:20:48,080  
pattern but

2162  
01:20:53,669 --> 01:20:50,960  
boy this f4 pilot's doing it or this you

2163  
01:20:55,910 --> 01:20:53,679

know whatever plane he's flying

2164

01:20:57,910 --> 01:20:55,920

uh and they're doing exactly what i'm

2165

01:20:59,030 --> 01:20:57,920

telling them to do because there's six

2166

01:21:02,470 --> 01:20:59,040

other

2167

01:21:05,110 --> 01:21:02,480

but but but i admire everything admire

2168

01:21:06,950 --> 01:21:05,120

the the observation abilities of pilots

2169

01:21:09,189 --> 01:21:06,960

and i didn't hear anything from any of

2170

01:21:10,390 --> 01:21:09,199

these uh either the air crew or the

2171

01:21:11,350 --> 01:21:10,400

ground crew

2172

01:21:17,990 --> 01:21:11,360

uh

2173

01:21:19,510 --> 01:21:18,000

what was that called yeah

2174

01:21:20,870 --> 01:21:19,520

e2 hawkeye

2175

01:21:23,750 --> 01:21:20,880

um

2176

01:21:26,229 --> 01:21:23,760

i didn't see any i didn't uh

2177

01:21:29,270 --> 01:21:26,239

see anything that i i thought was out of

2178

01:21:31,910 --> 01:21:29,280

the ordinary i believed i believe them

2179

01:21:33,830 --> 01:21:31,920

the the the pain the pilot uh the male

2180

01:21:37,030 --> 01:21:33,840

and female pilot the co-pilot were

2181

01:21:39,430 --> 01:21:37,040

flying against the tic tac

2182

01:21:40,550 --> 01:21:39,440

perfect observation articulate and

2183

01:21:41,990 --> 01:21:40,560

everything

2184

01:21:44,550 --> 01:21:42,000

talking about the speed that they were

2185

01:21:47,350 --> 01:21:44,560

flying the different headings that they

2186

01:21:49,189 --> 01:21:47,360

were flying and everything i mean

2187

01:21:52,390 --> 01:21:49,199

i don't find anything

2188

01:21:54,709 --> 01:21:52,400

out of the ordinary with anyone that

2189

01:21:56,709 --> 01:21:54,719

witnessed uh these things

2190

01:21:58,870 --> 01:21:56,719

how i think what i was really getting at

2191

01:22:01,270 --> 01:21:58,880

is how how did you feel about what that

2192

01:22:03,830 --> 01:22:01,280

did that craft represent a different

2193

01:22:05,590 --> 01:22:03,840

level of uh some different performance

2194

01:22:07,430 --> 01:22:05,600

characteristics because you probably

2195

01:22:11,030 --> 01:22:07,440

hadn't heard a lot of interactions where

2196

01:22:13,189 --> 01:22:11,040

you have you now have an fa18 that's in

2197

01:22:16,229 --> 01:22:13,199

a in an orbit in a little bit of a

2198

01:22:18,790 --> 01:22:16,239

mexican standoff with a tic-tac after he

2199

01:22:20,070 --> 01:22:18,800

pointed his nose at that object on the

2200

01:22:22,149 --> 01:22:20,080

ground uh

2201  
01:22:24,070 --> 01:22:22,159  
that was hovering above the ocean so i

2202  
01:22:25,990 --> 01:22:24,080  
was wondering if that represented a

2203  
01:22:27,990 --> 01:22:26,000  
little bit of a shift in the

2204  
01:22:30,149 --> 01:22:28,000  
the paradigm in our interactions with

2205  
01:22:32,149 --> 01:22:30,159  
these uh these craft

2206  
01:22:33,270 --> 01:22:32,159  
oh yeah their description of what they

2207  
01:22:37,030 --> 01:22:33,280  
observed

2208  
01:22:40,629 --> 01:22:37,040  
uh was something uh was a craft that i i

2209  
01:22:42,790 --> 01:22:40,639  
had not uh seen or heard uh that were

2210  
01:22:44,149 --> 01:22:42,800  
was clearly probably uh based on my

2211  
01:22:47,189 --> 01:22:44,159  
knowledge in my

2212  
01:22:50,229 --> 01:22:47,199  
uh my history uh uh that wasn't one of

2213  
01:22:52,550 --> 01:22:50,239

ours it was definitely either either

2214

01:22:55,110 --> 01:22:52,560

something that russians or chinese had

2215

01:22:58,229 --> 01:22:55,120

that you know they developed exotic

2216

01:22:59,669 --> 01:22:58,239

technology or it was something from from

2217

01:23:02,229 --> 01:22:59,679

out of this world

2218

01:23:05,030 --> 01:23:02,239

but but i did have an occasion if i

2219

01:23:07,990 --> 01:23:05,040

could just interject real quick please

2220

01:23:10,310 --> 01:23:08,000

in the area 51 there was a ufo incident

2221

01:23:14,950 --> 01:23:10,320

that was flying the craft was flying

2222

01:23:16,950 --> 01:23:14,960

inside another's test and training range

2223

01:23:19,030 --> 01:23:16,960

we had just

2224

01:23:22,070 --> 01:23:19,040

the f-16s were brand new back in the

2225

01:23:24,149 --> 01:23:22,080

early 80s and we just got two new ones

2226

01:23:27,030 --> 01:23:24,159

on alert at nellis

2227

01:23:27,990 --> 01:23:27,040

they flew out after this object now we

2228

01:23:29,990 --> 01:23:28,000

know

2229

01:23:32,310 --> 01:23:30,000

ground controllers knew

2230

01:23:35,110 --> 01:23:32,320

it wasn't one of ours there was nothing

2231

01:23:36,390 --> 01:23:35,120

supposed to be flying and these two f-16

2232

01:23:39,350 --> 01:23:36,400

pilots

2233

01:23:43,189 --> 01:23:39,360

uh and i was happen to be near a radio

2234

01:23:46,790 --> 01:23:43,199

uh listening to they were on a the 230 i

2235

01:23:48,629 --> 01:23:46,800

remember the frequency 234.150 bam and

2236

01:23:50,629 --> 01:23:48,639

and they were

2237

01:23:51,990 --> 01:23:50,639

they were talking

2238

01:23:53,189 --> 01:23:52,000

back and forth

2239

01:23:55,189 --> 01:23:53,199

and and

2240

01:23:56,950 --> 01:23:55,199

listening and seeing what they were

2241

01:23:59,270 --> 01:23:56,960

trying to chase

2242

01:24:01,030 --> 01:23:59,280

and they said this is exotic we can't we

2243

01:24:02,950 --> 01:24:01,040

can't keep up with this and these are

2244

01:24:03,830 --> 01:24:02,960

brand new f-16s

2245

01:24:05,189 --> 01:24:03,840

so

2246

01:24:06,470 --> 01:24:05,199

i did have an occasion to witness

2247

01:24:08,229 --> 01:24:06,480

something like that

2248

01:24:10,390 --> 01:24:08,239

that that is an awesome awesome

2249

01:24:12,510 --> 01:24:10,400

narrative nick thank you uh rick thank

2250

01:24:15,350 --> 01:24:12,520

you for telling that and this this uh

2251

01:24:17,590 --> 01:24:15,360

f-16 still is an amazing aircraft and

2252

01:24:19,910 --> 01:24:17,600

we're still updating him and flying him

2253

01:24:22,229 --> 01:24:19,920

i got to hear uh terry verts the

2254

01:24:24,470 --> 01:24:22,239

astronaut who has this podcast where

2255

01:24:26,629 --> 01:24:24,480

he's interviewing his friend who's an f

2256

01:24:28,709 --> 01:24:26,639

current f-35 pilot and they're going

2257

01:24:32,149 --> 01:24:28,719

over the differences and it's amazing

2258

01:24:36,870 --> 01:24:32,159

but the f-16 remains uh an absolutely

2259

01:24:40,629 --> 01:24:36,880

amazing uh aircraft still today so

2260

01:24:43,510 --> 01:24:40,639

um all right so um i think we we really

2261

01:24:46,390 --> 01:24:43,520

kind of want to wrap it up now uh rick i

2262

01:24:47,990 --> 01:24:46,400

guess we would ask you um

2263

01:24:50,310 --> 01:24:48,000

what disclosure

2264

01:24:52,870 --> 01:24:50,320

what level of disclosure do you think

2265

01:24:54,550 --> 01:24:52,880

the american people should get

2266

01:24:57,910 --> 01:24:54,560

uh how much do you think they should

2267

01:25:00,709 --> 01:24:57,920

know um and why do you why do you feel

2268

01:25:02,950 --> 01:25:00,719

that way whatever that level is

2269

01:25:03,830 --> 01:25:02,960

i think they should they should get the

2270

01:25:06,149 --> 01:25:03,840

uh

2271

01:25:07,830 --> 01:25:06,159

the basics i i don't think there's

2272

01:25:09,189 --> 01:25:07,840

there's a lot of information out there

2273

01:25:11,189 --> 01:25:09,199

that they should they they don't want to

2274

01:25:14,070 --> 01:25:11,199

know uh they they probably shouldn't

2275

01:25:16,070 --> 01:25:14,080

know uh highly technical stuff

2276

01:25:18,470 --> 01:25:16,080

technology that we developed

2277

01:25:19,709 --> 01:25:18,480

from the et's uh propulsion

2278

01:25:22,790 --> 01:25:19,719

and uh

2279

01:25:25,030 --> 01:25:22,800

aerodynamics uh cloaking uh things like

2280

01:25:27,030 --> 01:25:25,040

that no we we're not gonna disclose that

2281

01:25:28,709 --> 01:25:27,040

stuff because it's going to get out to

2282

01:25:30,310 --> 01:25:28,719

the our enemies

2283

01:25:32,390 --> 01:25:30,320

i think they they should know the

2284

01:25:33,830 --> 01:25:32,400

history i have no

2285

01:25:37,750 --> 01:25:33,840

problems with them knowing the history

2286

01:25:39,350 --> 01:25:37,760

from 1947 on and and and if there are if

2287

01:25:41,270 --> 01:25:39,360

the government has information about

2288

01:25:42,870 --> 01:25:41,280

something that happened before that

2289

01:25:44,709 --> 01:25:42,880

that i don't know about

2290

01:25:46,870 --> 01:25:44,719

i think they should disclose it that the

2291

01:25:50,790 --> 01:25:46,880

basic historical facts about our

2292

01:25:52,229 --> 01:25:50,800

contacts with ufos from 1947 on i

2293

01:25:53,510 --> 01:25:52,239

believe they should know they have the

2294

01:25:55,750 --> 01:25:53,520

right to know

2295

01:25:59,430 --> 01:25:55,760

and i think there was a program years

2296

01:26:00,870 --> 01:25:59,440

ago that wanted to do that and i'd know

2297

01:26:02,790 --> 01:26:00,880

a people that were involved in that

2298

01:26:04,870 --> 01:26:02,800

thing that program

2299

01:26:06,070 --> 01:26:04,880

and they tried to get the public

2300

01:26:07,030 --> 01:26:06,080

conditioned

2301

01:26:13,830 --> 01:26:07,040

uh

2302

01:26:16,149 --> 01:26:13,840

1951 that was supposedly

2303

01:26:18,070 --> 01:26:16,159

controlled by an air force captain who

2304

01:26:20,870 --> 01:26:18,080

had actually wrote the script to that

2305

01:26:23,510 --> 01:26:20,880

and so i mean all these these different

2306

01:26:24,870 --> 01:26:23,520

programs over the years

2307

01:26:28,229 --> 01:26:24,880

i think we were trying to condition the

2308

01:26:33,110 --> 01:26:30,709

somehow it got screwed up i don't know

2309

01:26:34,629 --> 01:26:33,120

if it was by whoever's controlling this

2310

01:26:37,189 --> 01:26:34,639

that i don't know at all

2311

01:26:39,910 --> 01:26:37,199

or by our government i don't know but we

2312

01:26:41,990 --> 01:26:39,920

we should have a disclosure and i think

2313

01:26:43,510 --> 01:26:42,000

skinwalker ranch

2314

01:26:45,990 --> 01:26:43,520

uh

2315

01:26:47,189 --> 01:26:46,000

walker the

2316

01:26:50,470 --> 01:26:47,199

pentagon

2317

01:26:54,310 --> 01:26:50,480

i think that's somewhat of a uh

2318

01:26:56,149 --> 01:26:54,320

attempt to disclose some of it

2319

01:26:59,189 --> 01:26:56,159

um

2320

01:27:01,590 --> 01:26:59,199

the construct that you believe i i hate

2321

01:27:04,709 --> 01:27:01,600

to bring this up again and i i hate to

2322

01:27:07,189 --> 01:27:04,719

close with this but people are

2323

01:27:11,189 --> 01:27:07,199

interested to know is that how we would

2324

01:27:13,910 --> 01:27:11,199

obscure this and this mj 12 business

2325

01:27:15,669 --> 01:27:13,920

we spoke about earlier about how do you

2326

01:27:18,229 --> 01:27:15,679

how do you get people who have a need to

2327

01:27:20,629 --> 01:27:18,239

know not to know it do you know what

2328

01:27:21,590 --> 01:27:20,639

kind of a construct there was to be able

2329

01:27:23,830 --> 01:27:21,600

to

2330

01:27:27,110 --> 01:27:23,840

obfuscate this information or at least

2331

01:27:30,310 --> 01:27:27,120

contain it within a relatively small

2332

01:27:35,990 --> 01:27:32,950

no i i wish i knew

2333

01:27:37,030 --> 01:27:36,000

i you know that that question is is one

2334

01:27:39,590 --> 01:27:37,040

for

2335

01:27:42,950 --> 01:27:39,600

somebody well above my pay graze upgrade

2336

01:27:44,390 --> 01:27:42,960

but um i just you know i i just don't i

2337

01:27:47,030 --> 01:27:44,400

don't know um

2338

01:27:49,110 --> 01:27:47,040

mj-12 documents that's we could we could

2339

01:27:51,270 --> 01:27:49,120

do a whole program on that that's okay

2340

01:27:53,189 --> 01:27:51,280

that's okay i i mean i i really

2341

01:27:55,110 --> 01:27:53,199

appreciate your candor i just i had to

2342

01:27:57,189 --> 01:27:55,120

ask i had to get that one in there rick

2343

01:27:58,550 --> 01:27:57,199

you know

2344

01:28:01,110 --> 01:27:58,560

understand what

2345

01:28:02,870 --> 01:28:01,120

uh yeah rick do you uh do you do you

2346

01:28:04,310 --> 01:28:02,880

agree with the sort of sentiment

2347

01:28:08,229 --> 01:28:04,320

expressed by

2348

01:28:11,030 --> 01:28:08,239

reagan at the at the un convention um

2349

01:28:12,310 --> 01:28:11,040

you know that that this is a topic

2350

01:28:14,629 --> 01:28:12,320

that would really kind of bring the

2351

01:28:15,910 --> 01:28:14,639

world together you know in fact louis

2352

01:28:18,310 --> 01:28:15,920

lozando

2353

01:28:20,629 --> 01:28:18,320

i think just yesterday in an interview

2354

01:28:23,750 --> 01:28:20,639

you know was really trying to call for

2355

01:28:26,709 --> 01:28:23,760

a global effort to understand this and

2356

01:28:28,310 --> 01:28:26,719

to work together on this topic

2357

01:28:30,390 --> 01:28:28,320

do you share that sentiment do you think

2358

01:28:33,750 --> 01:28:30,400

that do you show that optimism this

2359

01:28:35,830 --> 01:28:33,760

would be a unifying factor for the world

2360

01:28:38,149 --> 01:28:35,840

yes yes i agree with

2361

01:28:42,070 --> 01:28:38,159

with that statement that lou made i

2362

01:28:44,229 --> 01:28:42,080

i i agree and we should be a personal a

2363

01:28:45,590 --> 01:28:44,239

topic that brought through the united

2364

01:28:48,629 --> 01:28:45,600

nations

2365

01:28:49,990 --> 01:28:48,639

um where each country can come forth and

2366

01:28:51,910 --> 01:28:50,000

and um

2367

01:28:53,189 --> 01:28:51,920

spill the beans so to speak

2368

01:28:54,830 --> 01:28:53,199

i don't know that that's ever gonna

2369

01:28:58,070 --> 01:28:54,840

happen because there's

2370

01:28:59,669 --> 01:28:58,080

um there's so much information that's

2371

01:29:01,030 --> 01:28:59,679

it's compartmented

2372

01:29:02,709 --> 01:29:01,040

from our government that we're not going

2373

01:29:04,870 --> 01:29:02,719

to disclose and there's i know a lot

2374

01:29:06,950 --> 01:29:04,880

from the russians i mean we can do it

2375

01:29:09,110 --> 01:29:06,960

out entire show on that what the

2376

01:29:10,870 --> 01:29:09,120

russians knew what the soviets knew with

2377

01:29:13,189 --> 01:29:10,880

chinese news so i don't think that's

2378

01:29:16,870 --> 01:29:13,199

going to happen i wish

2379

01:29:18,870 --> 01:29:16,880

i wish i wish it would uh we which could

2380

01:29:20,709 --> 01:29:18,880

have a full disclosure

2381

01:29:22,550 --> 01:29:20,719

by uh

2382

01:29:23,830 --> 01:29:22,560

the united nations

2383

01:29:25,830 --> 01:29:23,840

anything that would bring the world

2384

01:29:27,669 --> 01:29:25,840

together um

2385

01:29:29,350 --> 01:29:27,679

rick i i really can't thank you enough

2386

01:29:32,310 --> 01:29:29,360

for coming here and sharing some time

2387

01:29:34,550 --> 01:29:32,320

with us and having some fun with us

2388

01:29:37,110 --> 01:29:34,560

uh laughing with us a little bit yeah

2389

01:29:39,910 --> 01:29:37,120

and and talking to us it uh i really

2390

01:29:42,390 --> 01:29:39,920

mean this as not only a podcast host but

2391

01:29:45,110 --> 01:29:42,400

firm and fellow air force brother it was

2392

01:29:46,790 --> 01:29:45,120

an absolute honor to have you here sir

2393

01:29:48,229 --> 01:29:46,800

um thank you very much i really

2394

01:29:50,709 --> 01:29:48,239

appreciate it well thank you for your

2395

01:29:53,030 --> 01:29:50,719

service too dj and it's a pleasure to

2396

01:29:56,470 --> 01:29:53,040

know you nathan likewise rick hope to

2397

01:29:58,950 --> 01:29:56,480

have uh have you on again soon sometime

2398

01:29:59,990 --> 01:29:58,960

rick dodi ladies and gentlemen thank you

2399

01:30:00,950 --> 01:30:00,000

so much

2400

01:30:02,790 --> 01:30:00,960

thank you
