arthur arthur conan doyle let's get

133
00:06:06,150 --> 00:06:04,240
something nathan start off with our

134
00:06:07,909 --> 00:06:06,160
first topic you got some lists today or

135
00:06:10,150 --> 00:06:07,919
you want me to rock this

136
00:06:11,830 --> 00:06:10,160
i want you to take the first one okay

137
00:06:14,150 --> 00:06:11,840
okay oh

138
00:06:16,150 --> 00:06:14,160

how nathan came into the ufo space so

139

00:06:17,189 --> 00:06:16,160

i'm sorry unfortunately nathan this one

140

00:06:17,990 --> 00:06:17,199

is you

141

00:06:20,309 --> 00:06:18,000

so

142

00:06:23,430 --> 00:06:20,319

just that's the first question okay

143

00:06:25,430 --> 00:06:23,440

great from deb uh deb a study of uh ufos

144

00:06:27,350 --> 00:06:25,440

and uaps deb

145

00:06:29,430 --> 00:06:27,360

yeah shout out to deb who's doing

146

00:06:32,870 --> 00:06:29,440

amazing things with research in this

147

00:06:34,629 --> 00:06:32,880

space uh her diligence going through all

148

00:06:37,110 --> 00:06:34,639

those records and archives i mean

149

00:06:38,230 --> 00:06:37,120

incredible uh so how did i get into this

150

00:06:39,270 --> 00:06:38,240

um

151
00:06:41,270 --> 00:06:39,280
you know i've always had a little bit of

152
00:06:43,830 --> 00:06:41,280
an interest in in the sci-fi kind of

153
00:06:45,670 --> 00:06:43,840
thing uh but uh

154
00:06:47,670 --> 00:06:45,680
you know probably i don't know five or

155
00:06:49,589 --> 00:06:47,680
six years ago just started

156
00:06:51,990 --> 00:06:49,599
hearing about little rumors here and

157
00:06:54,790 --> 00:06:52,000
there about uh tom delonge and some kind

158
00:06:56,790 --> 00:06:54,800
of crazy uh you know sort of theory that

159
00:06:58,710 --> 00:06:56,800
he had that ufos were real that he was

160
00:07:00,309 --> 00:06:58,720
talking to people and like a lot of

161
00:07:03,189 --> 00:07:00,319
folks i kind of shrugged that off not

162
00:07:05,510 --> 00:07:03,199
thinking too much about it but then

163
00:07:07,510 --> 00:07:05,520

december 2017 happened with the new york

164

00:07:08,870 --> 00:07:07,520

times and the uh the videos that we are

165

00:07:10,950 --> 00:07:08,880

all familiar with

166

00:07:13,589 --> 00:07:10,960

i just sucked me right in wanted to be a

167

00:07:15,189 --> 00:07:13,599

part of this conversation uh and really

168

00:07:17,029 --> 00:07:15,199

kind of just started following folks in

169

00:07:19,990 --> 00:07:17,039

the twitter space just to get a sense of

170

00:07:22,070 --> 00:07:20,000

what the twitter you know vibe was with

171

00:07:24,710 --> 00:07:22,080

ufos and found so many interesting

172

00:07:26,070 --> 00:07:24,720

people kind of uh like a second tribe if

173

00:07:28,629 --> 00:07:26,080

you will of folks that are really

174

00:07:30,550 --> 00:07:28,639

interested in these uh big topics and

175

00:07:32,710 --> 00:07:30,560

you know there's a huge spectrum of of

176

00:07:34,309 --> 00:07:32,720

thought in ufo twitter as you know dj

177

00:07:37,029 --> 00:07:34,319

talking to lots of different folks and

178

00:07:38,710 --> 00:07:37,039

akashi also likes seeing the wide

179

00:07:40,550 --> 00:07:38,720

spectrum of voices that are out there

180

00:07:41,510 --> 00:07:40,560

and i find that really exciting because

181

00:07:43,029 --> 00:07:41,520

it's not

182

00:07:45,110 --> 00:07:43,039

uh you know we're not all on the same

183

00:07:46,869 --> 00:07:45,120

page we've got a lot of different ideas

184

00:07:48,629 --> 00:07:46,879

a lot of different uh you know kind of

185

00:07:50,309 --> 00:07:48,639

hopes or or thoughts wrapped up in this

186

00:07:52,150 --> 00:07:50,319

topic and for me that's really

187

00:07:55,189 --> 00:07:52,160

energizing i like kind of things and

188

00:07:56,230 --> 00:07:55,199

fears and fears oh man definitely tons

189

00:07:57,430 --> 00:07:56,240

of fears

190

00:07:59,749 --> 00:07:57,440

and i think that's very human right

191

00:08:01,110 --> 00:07:59,759

that's kind of who we are and uh i

192

00:08:02,790 --> 00:08:01,120

appreciate that that you know we're like

193

00:08:04,150 --> 00:08:02,800

one human family tackling this topic

194

00:08:06,150 --> 00:08:04,160

together

195

00:08:08,950 --> 00:08:06,160

yeah and i want to say just to follow up

196

00:08:10,550 --> 00:08:08,960

with nathan i also was a sci-fi

197

00:08:13,350 --> 00:08:10,560

uh person i grew up watching the

198

00:08:16,790 --> 00:08:13,360

original star trek and when my parents

199

00:08:19,350 --> 00:08:16,800

told me what time i was born at night i

200

00:08:21,990 --> 00:08:19,360

was like oh wow i i

201

00:08:23,909 --> 00:08:22,000

i was alive in time for star trek

202

00:08:26,629 --> 00:08:23,919

because that's how much i was into that

203

00:08:28,869 --> 00:08:26,639

series so i was also watched consumed

204

00:08:30,230 --> 00:08:28,879

everything sci-fi just like nathan been

205

00:08:32,230 --> 00:08:30,240

fascinated with

206

00:08:35,110 --> 00:08:32,240

star wars blew me away obviously i saw

207

00:08:37,190 --> 00:08:35,120

that in the theater in 77 i was 10

208

00:08:39,909 --> 00:08:37,200

exactly 10 years old and it was just

209

00:08:41,829 --> 00:08:39,919

like wow um

210

00:08:43,509 --> 00:08:41,839

we'll get into like how we came together

211

00:08:45,590 --> 00:08:43,519

but you know what since we got a

212

00:08:47,269 --> 00:08:45,600

celebrity up in this joint

213

00:08:49,829 --> 00:08:47,279

kashi chris

214

00:08:50,949 --> 00:08:49,839

really you see i thought i was gonna ask

215

00:08:51,910 --> 00:08:50,959

can you hear me

216

00:08:53,910 --> 00:08:51,920

yes matt

217

00:08:55,750 --> 00:08:53,920

okay i thought i was to ask questions

218

00:08:58,230 --> 00:08:55,760

but you are okay you are

219

00:08:59,910 --> 00:08:58,240

yeah but this is cool so um my

220

00:09:03,269 --> 00:08:59,920

background so i'm from puerto rico and i

221

00:09:05,670 --> 00:09:03,279

grew up in puerto rico until i was 17.

222

00:09:07,430 --> 00:09:05,680

so um as far as my background i mean i

223

00:09:09,910 --> 00:09:07,440

always believe that i'm not an

224

00:09:11,110 --> 00:09:09,920

experencer i haven't seen anything but

225

00:09:12,150 --> 00:09:11,120

i don't need

226

00:09:12,949 --> 00:09:12,160

to see

227

00:09:15,110 --> 00:09:12,959

to

228

00:09:17,829 --> 00:09:15,120

realize what's happening around me you

229

00:09:19,990 --> 00:09:17,839

know i i'm looking at things and i'm not

230

00:09:22,310 --> 00:09:20,000

gullible in any way but i've always

231

00:09:24,150 --> 00:09:22,320

believed in something you know something

232

00:09:26,070 --> 00:09:24,160

going out there in in being in puerto

233

00:09:28,230 --> 00:09:26,080

rico it's funny because you get the

234

00:09:30,550 --> 00:09:28,240

threat of we're going to take you to a

235

00:09:32,070 --> 00:09:30,560

junke and the aliens are going to kidnap

236

00:09:33,990 --> 00:09:32,080

you that's just part of

237

00:09:35,990 --> 00:09:34,000

narrative you know it's like a family

238

00:09:38,070 --> 00:09:36,000

thing you know everybody talks about it

239

00:09:40,230 --> 00:09:38,080

is this you know a chupacabra is

240

00:09:41,910 --> 00:09:40,240

important you know prime time news it

241

00:09:43,509 --> 00:09:41,920

will be like in the six o'clock news i

242

00:09:44,949 --> 00:09:43,519

remember last time i visited and

243

00:09:46,870 --> 00:09:44,959

whenever i talked puerto ricans started

244

00:09:49,750 --> 00:09:46,880

getting an accent i apologize it just

245

00:09:52,949 --> 00:09:49,760

comes naturally love it love it i mean

246

00:09:54,550 --> 00:09:52,959

things like that were very natural so um

247

00:09:57,030 --> 00:09:54,560

and then in the last i think it was

248

00:09:58,710 --> 00:09:57,040

pandemic it started making me think and

249

00:10:02,310 --> 00:09:58,720

looking at things and i started looking

250

00:10:05,110 --> 00:10:02,320

at ufo twitter and bumped into um ucr

251

00:10:06,710 --> 00:10:05,120

and ufo jane and um from there it just

252

00:10:09,430 --> 00:10:06,720

kind of took off and

253

00:10:11,750 --> 00:10:09,440

i am obsessed because you don't know

254

00:10:12,470 --> 00:10:11,760

how great the puzzle how big the puzzle

255

00:10:15,030 --> 00:10:12,480

is

256

00:10:17,910 --> 00:10:15,040

and how minute the pieces of that puzzle

257

00:10:20,790 --> 00:10:17,920

are so if anything from that from that

258

00:10:22,790 --> 00:10:20,800

perspective you don't know how wu is woo

259

00:10:24,790 --> 00:10:22,800

anymore you know the things they talked

260

00:10:28,069 --> 00:10:24,800

about before are just kind of normal now

261

00:10:30,949 --> 00:10:28,079

so um that's that and i'm

262

00:10:32,870 --> 00:10:30,959

i'm my concern enough for the future is

263

00:10:34,630 --> 00:10:32,880

this the people that don't think

264

00:10:36,949 --> 00:10:34,640

anything is out there and how they will

265

00:10:39,910 --> 00:10:36,959

do and i think that that's where we play

266

00:10:41,750 --> 00:10:39,920

a role that we can help people kind of

267

00:10:43,190 --> 00:10:41,760

you know kind of bridge the gap between

268

00:10:44,310 --> 00:10:43,200

people who think that there's nothing

269

00:10:46,870 --> 00:10:44,320

outside

270

00:10:48,230 --> 00:10:46,880

and um us that we kind of we're a little

271

00:10:49,509 --> 00:10:48,240

bit more seasoned on it because we've

272

00:10:51,750 --> 00:10:49,519

been looking into it and we're more

273

00:10:55,190 --> 00:10:51,760

open-minded so anyway so that's why i'm

274

00:10:57,430 --> 00:10:55,200

here and because you asked me dj

275

00:10:59,670 --> 00:10:57,440

hello

276

00:11:02,310 --> 00:10:59,680

we love you good to have you with us

277

00:11:03,190 --> 00:11:02,320

what is it inside you that makes you

278

00:11:05,430 --> 00:11:03,200

want to

279

00:11:09,509 --> 00:11:05,440

uh make so many people in our community

280

00:11:14,310 --> 00:11:12,069

i mean i i come in with with pure heart

281

00:11:15,829 --> 00:11:14,320

and intention that's all i can say and

282

00:11:17,269 --> 00:11:15,839

i'm here to help

283

00:11:19,350 --> 00:11:17,279

and i love

284

00:11:20,470 --> 00:11:19,360

you know when when you make somebody

285

00:11:22,870 --> 00:11:20,480

laugh

286

00:11:25,430 --> 00:11:22,880

that makes my day just as much

287

00:11:27,670 --> 00:11:25,440

in in laughter to me it's like the

288

00:11:29,269 --> 00:11:27,680

greatest therapy of them all you know

289

00:11:32,230 --> 00:11:29,279

it's like you could have a really crappy

290

00:11:35,269 --> 00:11:32,240

day and i could look down and look at

291

00:11:37,590 --> 00:11:35,279

you know flares twitter and

292

00:11:39,110 --> 00:11:37,600

just laugh

293

00:11:41,829 --> 00:11:39,120

and i'm not gonna curse because i'm

294

00:11:43,990 --> 00:11:41,839

trying to be cool but and let my butt

295

00:11:46,069 --> 00:11:44,000

off and it just makes everything go away

296

00:11:47,509 --> 00:11:46,079

and it's like if you can connect with

297

00:11:50,150 --> 00:11:47,519

somebody or

298

00:11:52,870 --> 00:11:50,160

if if i can reach out to a politician

299

00:11:55,190 --> 00:11:52,880

and maybe maybe have somebody listen

300

00:11:56,949 --> 00:11:55,200

you know one person listen if we don't

301
00:11:58,949 --> 00:11:56,959
try we're never going to get anywhere

302
00:12:00,949 --> 00:11:58,959
and we can only time little bits and

303
00:12:03,350 --> 00:12:00,959
pieces so i'm also going to be

304
00:12:06,150 --> 00:12:03,360
recruiting some people to the cause oh

305
00:12:08,150 --> 00:12:06,160
excellent yeah i've got some um it i

306
00:12:11,110 --> 00:12:08,160
came from kind of politics which i don't

307
00:12:12,550 --> 00:12:11,120
get into but um my group of activists

308
00:12:14,629 --> 00:12:12,560
are dying for

309
00:12:17,350 --> 00:12:14,639
or chomping at the bit for

310
00:12:20,949 --> 00:12:17,360
some activism so i'm like hmm

311
00:12:22,230 --> 00:12:20,959
maybe i'll it's might recruit them so

312
00:12:24,629 --> 00:12:22,240
anyway

313
00:12:25,910 --> 00:12:24,639

there are many people uh in this space

314

00:12:28,550 --> 00:12:25,920

that will

315

00:12:30,470 --> 00:12:28,560

ascribe a certain importance to you know

316

00:12:33,190 --> 00:12:30,480

and i'll tell you that

317

00:12:35,829 --> 00:12:33,200

i can't think of many

318

00:12:37,829 --> 00:12:35,839

uh and even i can include myself nathan

319

00:12:40,389 --> 00:12:37,839

but i can't think of many that are as

320

00:12:42,550 --> 00:12:40,399

important as you for that very reason i

321

00:12:44,550 --> 00:12:42,560

i realized you diverged away from the

322

00:12:46,470 --> 00:12:44,560

positivity that was pretty slick

323

00:12:47,829 --> 00:12:46,480

but uh but yeah it's

324

00:12:49,430 --> 00:12:47,839

quite real

325

00:12:51,030 --> 00:12:49,440

that's okay you know

326

00:12:51,750 --> 00:12:51,040

we'll celebrate you

327

00:12:54,710 --> 00:12:51,760

no

328

00:12:57,350 --> 00:12:54,720

i i just want to be real and nice and

329

00:12:59,590 --> 00:12:57,360

kind and and promote an environment

330

00:13:01,509 --> 00:12:59,600

where we don't cancel each other out

331

00:13:03,190 --> 00:13:01,519

because i've seen it be so bad in other

332

00:13:04,870 --> 00:13:03,200

areas so it's just you know i try to

333

00:13:06,389 --> 00:13:04,880

promote that so that is something i try

334

00:13:07,350 --> 00:13:06,399

to promote because i just think it's

335

00:13:09,430 --> 00:13:07,360

healthy

336

00:13:11,990 --> 00:13:09,440

we all listen to each other you know you

337

00:13:13,829 --> 00:13:12,000

share our vision you share our vision of

338

00:13:15,269 --> 00:13:13,839

what nathan and i have to bring and

339

00:13:17,670 --> 00:13:15,279

maybe we'll get into that later nathan

340

00:13:19,590 --> 00:13:17,680

but i want to get into the ufo talk now

341

00:13:21,350 --> 00:13:19,600

and we can circle back to how we came

342

00:13:23,269 --> 00:13:21,360

together but i think people are going to

343

00:13:26,389 --> 00:13:23,279

want to hear some meat and potatoes

344

00:13:28,870 --> 00:13:26,399

right now so so let's get into it um

345

00:13:32,069 --> 00:13:28,880

nathan did you have something that or

346

00:13:34,470 --> 00:13:32,079

akashii did you want to uh ask your

347

00:13:36,069 --> 00:13:34,480

question first or would you like to wait

348

00:13:38,069 --> 00:13:36,079

i think i want to wait because i want to

349

00:13:40,389 --> 00:13:38,079

hear a little bit more about your back

350

00:13:41,750 --> 00:13:40,399

story and then my my question kind of

351

00:13:43,910 --> 00:13:41,760

comes at the end

352

00:13:49,030 --> 00:13:43,920

okay okay i know

353

00:13:52,389 --> 00:13:50,629

nathan my brother what do you got man

354

00:13:54,790 --> 00:13:52,399

what's the first thing you that on that

355

00:13:56,389 --> 00:13:54,800

list that really jumped off the page at

356

00:13:58,870 --> 00:13:56,399

you because there were some great

357

00:14:00,069 --> 00:13:58,880

questions from lucy bell and deb and

358

00:14:04,150 --> 00:14:00,079

rodney

359

00:14:05,670 --> 00:14:04,160

yes uh you know there's been a lot of

360

00:14:07,110 --> 00:14:05,680

we're in a bit of a

361

00:14:09,509 --> 00:14:07,120

some might say we've been in a bit of a

362

00:14:12,470 --> 00:14:09,519

lull in terms of a real sort of tangible

363

00:14:15,110 --> 00:14:12,480

information that has come out uh in in

364

00:14:16,790 --> 00:14:15,120

ufo twitter land and as you guys know

365

00:14:18,870 --> 00:14:16,800

when we hit these lulls we kind of like

366

00:14:22,069 --> 00:14:18,880

there's a disturbance in the force and

367

00:14:24,550 --> 00:14:22,079

the community starts kind of uh

368

00:14:25,590 --> 00:14:24,560

getting into a lot of arguments you know

369

00:14:30,470 --> 00:14:25,600

we kind of

370

00:14:32,069 --> 00:14:30,480

you know very simplistic stances

371

00:14:33,269 --> 00:14:32,079

and you know dj i'd love to get your

372

00:14:35,110 --> 00:14:33,279

thoughts on

373

00:14:36,870 --> 00:14:35,120

you know how do you

374

00:14:39,030 --> 00:14:36,880

kind of see

375

00:14:40,949 --> 00:14:39,040

the diversity of viewpoints

376

00:14:43,110 --> 00:14:40,959

in the community and what is your kind

377

00:14:44,550 --> 00:14:43,120

of philosophy on like maintaining some

378

00:14:46,550 --> 00:14:44,560

diversity but

379

00:14:48,150 --> 00:14:46,560

uh you know also kind of keeping the

380

00:14:49,990 --> 00:14:48,160

peace and and you know how do you

381

00:14:52,790 --> 00:14:50,000

approach that

382

00:14:54,629 --> 00:14:52,800

i think uh i like to use the black white

383

00:14:56,550 --> 00:14:54,639

gray metaphor and you guys have heard me

384

00:14:57,509 --> 00:14:56,560

use it on spaces

385

00:14:59,590 --> 00:14:57,519

and

386

00:15:01,829 --> 00:14:59,600

there are so many uh interesting

387

00:15:03,990 --> 00:15:01,839

opinions and people that have different

388

00:15:06,470 --> 00:15:04,000

types of intelligence because there

389

00:15:09,269 --> 00:15:06,480

isn't one type like nathan and i don't

390

00:15:12,550 --> 00:15:09,279

have the exact same type of intelligence

391

00:15:13,430 --> 00:15:12,560

um and akashi and many

392

00:15:14,710 --> 00:15:13,440

you know

393

00:15:16,870 --> 00:15:14,720

literally hundreds of people in our

394

00:15:20,150 --> 00:15:16,880

community so what i try to look at is

395

00:15:22,710 --> 00:15:20,160

that we can have go in all these diverse

396

00:15:25,670 --> 00:15:22,720

directions and entertain things but we

397

00:15:28,230 --> 00:15:25,680

also want to try to see if we can

398

00:15:30,230 --> 00:15:28,240

look at some some some facts and some

399

00:15:32,629 --> 00:15:30,240

events that have occurred like what you

400

00:15:35,269 --> 00:15:32,639

know you saw what dan

401
00:15:37,509 --> 00:15:35,279
warren posted today about uh several

402
00:15:39,749 --> 00:15:37,519
people getting behind uh the gillibrand

403
00:15:42,389 --> 00:15:39,759
resolution in the senate not the least

404
00:15:43,350 --> 00:15:42,399
of which is marco rubio uh lindsey

405
00:15:45,189 --> 00:15:43,360
graham

406
00:15:48,069 --> 00:15:45,199
uh roy blunt

407
00:15:49,990 --> 00:15:48,079
uh and um forgive me if i don't remember

408
00:15:51,509 --> 00:15:50,000
all the the co-sponsors of that

409
00:15:53,269 --> 00:15:51,519
legislation

410
00:15:55,110 --> 00:15:53,279
but um

411
00:15:57,269 --> 00:15:55,120
if we can look at a set of facts and

412
00:15:58,870 --> 00:15:57,279
entertain the possibility of how we got

413
00:16:02,150 --> 00:15:58,880

here and perhaps leave our our

414

00:16:03,509 --> 00:16:02,160
prejudices aside and say okay

415

00:16:05,269 --> 00:16:03,519
um i can

416

00:16:08,069 --> 00:16:05,279
i can feel this

417

00:16:09,990 --> 00:16:08,079
about this uh set of circumstances that

418

00:16:11,829 --> 00:16:10,000
happened but i can also look and say you

419

00:16:14,230 --> 00:16:11,839
know what that is a day fat that is a

420

00:16:16,389 --> 00:16:14,240
fact of of what happened and what what

421

00:16:18,710 --> 00:16:16,399
led up to that and i may not be

422

00:16:20,949 --> 00:16:18,720
comfortable with all the tangents that

423

00:16:22,310 --> 00:16:20,959
surround that but we can agree that it

424

00:16:25,030 --> 00:16:22,320
happened and what may have been the

425

00:16:27,829 --> 00:16:25,040
driver behind that so i like to say life

426
00:16:30,310 --> 00:16:27,839
is in the gray if we say one side is

427
00:16:33,430 --> 00:16:30,320
black and one side is white

428
00:16:35,749 --> 00:16:33,440
then it's all this or it's all that

429
00:16:38,069 --> 00:16:35,759
really it's the gray that we're looking

430
00:16:40,710 --> 00:16:38,079
for whether it be someone in our

431
00:16:43,030 --> 00:16:40,720
community that's controversial to some

432
00:16:44,870 --> 00:16:43,040
not controversial to all perhaps there's

433
00:16:46,550 --> 00:16:44,880
just a little bit of gray there but we

434
00:16:48,310 --> 00:16:46,560
can also extract

435
00:16:50,550 --> 00:16:48,320
a significant amount of facts and

436
00:16:52,949 --> 00:16:50,560
meaning from what that person may have

437
00:16:55,990 --> 00:16:52,959
contributed yeah and interesting that

438
00:16:57,910 --> 00:16:56,000

you use the word gray in a ufo community

439

00:16:59,509 --> 00:16:57,920

uh because it is

440

00:17:02,550 --> 00:16:59,519

perfect metaphor yeah it's a very

441

00:17:05,110 --> 00:17:02,560

prevalent uh sort of image that we have

442

00:17:06,390 --> 00:17:05,120

uh going around with with gray's

443

00:17:07,909 --> 00:17:06,400

you know it makes me think a lot about

444

00:17:09,510 --> 00:17:07,919

our show and i know you kind of

445

00:17:11,510 --> 00:17:09,520

mentioned that we would touch on it

446

00:17:14,309 --> 00:17:11,520

later and i think you know this makes me

447

00:17:16,150 --> 00:17:14,319

want to touch on it now you know we

448

00:17:18,150 --> 00:17:16,160

some things just kind of happened they

449

00:17:20,309 --> 00:17:18,160

fell into place and you and i met really

450

00:17:21,990 --> 00:17:20,319

kind of by accident uh through a meet

451

00:17:25,110 --> 00:17:22,000

mutual friend shout out to andy from

452

00:17:26,949 --> 00:17:25,120

that andy you know huge huge podcast

453

00:17:29,350 --> 00:17:26,959

there and a great guy and he put us

454

00:17:30,789 --> 00:17:29,360

together not knowing that we'd really

455

00:17:33,029 --> 00:17:30,799

you know kind of hit it off and want to

456

00:17:35,029 --> 00:17:33,039

do this thing together and then you we

457

00:17:36,710 --> 00:17:35,039

kind of brainstormed on some ideas on

458

00:17:38,470 --> 00:17:36,720

what to call the show

459

00:17:40,230 --> 00:17:38,480

and uh we came up with calling all

460

00:17:43,669 --> 00:17:40,240

beings you had the great idea of using

461

00:17:45,590 --> 00:17:43,679

the the taxicab image as an icon and and

462

00:17:47,590 --> 00:17:45,600

that's honestly it's a great image

463

00:17:48,950 --> 00:17:47,600

because anyone who's ever

464

00:17:51,029 --> 00:17:48,960

ridden in a cab you know we've all had

465

00:17:53,750 --> 00:17:51,039

like great cab rides we've all had those

466

00:17:56,230 --> 00:17:53,760

cab rides that are a little bit crazy uh

467

00:17:57,990 --> 00:17:56,240

but the thing about riding in a cab or

468

00:17:59,750 --> 00:17:58,000

an uber or a lift or whatever at least

469

00:18:01,430 --> 00:17:59,760

for me it's a chance for me to have a

470

00:18:02,470 --> 00:18:01,440

conversation with somebody that i'm only

471

00:18:03,750 --> 00:18:02,480

gonna know

472

00:18:06,710 --> 00:18:03,760

for 15

473

00:18:08,390 --> 00:18:06,720

20 minutes 30 minutes and and most often

474

00:18:09,909 --> 00:18:08,400

when i'm asking questions like they they

475

00:18:12,310 --> 00:18:09,919

just want to talk they want to tell me

476

00:18:13,990 --> 00:18:12,320

about their life where they've been

477

00:18:16,390 --> 00:18:14,000

and i'm not there to judge i'm just

478

00:18:18,789 --> 00:18:16,400

really there to listen and get to know

479

00:18:20,549 --> 00:18:18,799

this person for this ride

480

00:18:22,710 --> 00:18:20,559

and that's what we're all on together

481

00:18:23,510 --> 00:18:22,720

you know we're all on a ride together

482

00:18:25,270 --> 00:18:23,520

and

483

00:18:26,950 --> 00:18:25,280

i just want to get get to know folks

484

00:18:29,430 --> 00:18:26,960

want to know where they're from what

485

00:18:32,070 --> 00:18:29,440

they're interested in what drives them

486

00:18:34,630 --> 00:18:32,080

and for me the the the truth you know

487

00:18:36,710 --> 00:18:34,640

coming to your point dj that the truth

488

00:18:37,430 --> 00:18:36,720

is really sort of the mixture of all of

489

00:18:41,590 --> 00:18:37,440

these

490

00:18:42,549 --> 00:18:41,600

different voices to kind of get to that

491

00:18:44,870 --> 00:18:42,559

truth

492

00:18:47,110 --> 00:18:44,880

uh because it's not you know no one's no

493

00:18:49,190 --> 00:18:47,120

one really knows what what is going on

494

00:18:50,710 --> 00:18:49,200

here anyone that has a lot of certainty

495

00:18:52,150 --> 00:18:50,720

i think you have to you know be pretty

496

00:18:54,710 --> 00:18:52,160

skeptical of that person the government

497

00:18:56,710 --> 00:18:54,720

doesn't know what's going on here yeah

498

00:18:57,510 --> 00:18:56,720

nobody knows

499

00:19:00,150 --> 00:18:57,520

yeah

500

00:19:01,510 --> 00:19:00,160

no i i i agree with your uh with your

501
00:19:02,789 --> 00:19:01,520
point there nathan

502
00:19:05,909 --> 00:19:02,799
and um

503
00:19:07,909 --> 00:19:05,919
it is a symmetry of people coming

504
00:19:09,270 --> 00:19:07,919
together i think it's very painful for

505
00:19:10,789 --> 00:19:09,280
nathan and i

506
00:19:13,510 --> 00:19:10,799
when we see

507
00:19:18,390 --> 00:19:13,520
a uh like a tim mcmillan arguing with

508
00:19:21,190 --> 00:19:18,400
the joe mergia or we see uh john um

509
00:19:23,990 --> 00:19:21,200
forgive me the the researcher gentlemen

510
00:19:25,990 --> 00:19:24,000
yeah john greenwald uh arguing with with

511
00:19:28,549 --> 00:19:26,000
with somebody else or stephen

512
00:19:31,510 --> 00:19:28,559
greenstreet and and and uh and uh ross

513
00:19:33,590 --> 00:19:31,520

coltart uh i think you know we find that

514

00:19:36,710 --> 00:19:33,600

painful because we see value in what

515

00:19:39,350 --> 00:19:36,720

every one of them brings and says

516

00:19:41,430 --> 00:19:39,360

in the community and we see no value in

517

00:19:43,430 --> 00:19:41,440

them picking at one another so we we

518

00:19:45,350 --> 00:19:43,440

kind of wish that people would try to

519

00:19:47,510 --> 00:19:45,360

see if they can extract some value and

520

00:19:48,950 --> 00:19:47,520

then you know and then step away from

521

00:19:50,710 --> 00:19:48,960

something that maybe they do find

522

00:19:53,430 --> 00:19:50,720

slightly objectionable which is just

523

00:19:55,270 --> 00:19:53,440

human nature after all yeah yeah and to

524

00:19:57,270 --> 00:19:55,280

provide a platform for us to really have

525

00:19:58,789 --> 00:19:57,280

a conversation i think that twitter is

526

00:20:00,230 --> 00:19:58,799

great as it is for

527

00:20:01,590 --> 00:20:00,240

really kind of just getting there seeing

528

00:20:03,270 --> 00:20:01,600

lots of different thoughts at once and

529

00:20:06,390 --> 00:20:03,280

getting little news bites that come

530

00:20:08,470 --> 00:20:06,400

through it's not great for having a

531

00:20:10,390 --> 00:20:08,480

long-form discussion an argument of any

532

00:20:12,390 --> 00:20:10,400

kind it's it really

533

00:20:14,549 --> 00:20:12,400

brings out the worst in people when it

534

00:20:16,710 --> 00:20:14,559

kind of goes in that direction so to

535

00:20:18,549 --> 00:20:16,720

have folks on our show who may have

536

00:20:20,470 --> 00:20:18,559

differing opinions and we can have a

537

00:20:23,029 --> 00:20:20,480

chance to chat it out and see the other

538

00:20:25,270 --> 00:20:23,039

person and kind of come to a maybe an

539

00:20:26,710 --> 00:20:25,280

agreed to disagree but in a civil way

540

00:20:28,950 --> 00:20:26,720

that's what i want to be able to do

541

00:20:30,950 --> 00:20:28,960

rather than you know shut people down

542

00:20:32,710 --> 00:20:30,960

and say well you're not you're not you

543

00:20:34,230 --> 00:20:32,720

don't meet my purity test for this

544

00:20:35,909 --> 00:20:34,240

community and therefore you're not going

545

00:20:38,070 --> 00:20:35,919

to be here any longer

546

00:20:39,029 --> 00:20:38,080

yeah so uh just to you know i think

547

00:20:41,350 --> 00:20:39,039

nathan

548

00:20:44,230 --> 00:20:41,360

wants to contextualize a little bit more

549

00:20:46,390 --> 00:20:44,240

about us uh so really the first time i

550

00:20:48,630 --> 00:20:46,400

heard him you know i said this on

551
00:20:50,710 --> 00:20:48,640
podcast recently is that it was almost

552
00:20:52,390 --> 00:20:50,720
like andy and i were just like looking

553
00:20:54,390 --> 00:20:52,400
at each other like man listen this guy

554
00:20:56,710 --> 00:20:54,400
talked can you believe this i mean he's

555
00:20:59,270 --> 00:20:56,720
amazing i was like i was immediately i

556
00:21:00,630 --> 00:20:59,280
want to dm you know i told him please dm

557
00:21:03,029 --> 00:21:00,640
me after the show

558
00:21:05,190 --> 00:21:03,039
and i want to talk to him and

559
00:21:06,950 --> 00:21:05,200
not knowing that he was going to be my

560
00:21:08,070 --> 00:21:06,960
partner yet we were just going to have a

561
00:21:09,110 --> 00:21:08,080
dialogue

562
00:21:10,870 --> 00:21:09,120
and then

563
00:21:13,510 --> 00:21:10,880

you know the guy's amazing i mean let's

564

00:21:16,470 --> 00:21:13,520

face it everybody knows that um

565

00:21:19,110 --> 00:21:16,480

we both agree on when you come on this

566

00:21:21,110 --> 00:21:19,120

this program we want you to feel more

567

00:21:23,590 --> 00:21:21,120

loved than you thought you could feel

568

00:21:25,110 --> 00:21:23,600

coming on a show uh that that you know

569

00:21:27,990 --> 00:21:25,120

you're welcome here

570

00:21:29,830 --> 00:21:28,000

you're loved here and and that's our

571

00:21:31,909 --> 00:21:29,840

goal is to make you feel really super

572

00:21:33,830 --> 00:21:31,919

comfortable and you guys saw when we had

573

00:21:35,430 --> 00:21:33,840

rick on you know rick is a older

574

00:21:37,110 --> 00:21:35,440

gentleman he's been through every kind

575

00:21:40,549 --> 00:21:37,120

of tough interviewer

576

00:21:42,870 --> 00:21:40,559

nathan and i spent hours uh apart and in

577

00:21:44,950 --> 00:21:42,880

at least an hour together studying up

578

00:21:46,870 --> 00:21:44,960

for that of how we would approach it

579

00:21:49,750 --> 00:21:46,880

and we really wanted to feel a kinship

580

00:21:51,990 --> 00:21:49,760

with rick so uh so we did that you know

581

00:21:54,390 --> 00:21:52,000

we weren't going to try to you know see

582

00:21:56,789 --> 00:21:54,400

if we could be the really cool

583

00:21:59,110 --> 00:21:56,799

you know interviewer morally safer mike

584

00:22:01,590 --> 00:21:59,120

wallace 60 minutes guy because that's

585

00:22:04,870 --> 00:22:01,600

going to get you nowhere with a trained

586

00:22:07,350 --> 00:22:04,880

uh uh interrogator and so you know

587

00:22:10,149 --> 00:22:07,360

that's just an example we want everybody

588

00:22:12,549 --> 00:22:10,159

to come here and feel loved so we

589

00:22:14,710 --> 00:22:12,559

felt philosophically we agree on all

590

00:22:16,710 --> 00:22:14,720

those things about how to how to treat

591

00:22:18,870 --> 00:22:16,720

other humans even if our approach to it

592

00:22:21,590 --> 00:22:18,880

is slightly different i obviously take

593

00:22:23,990 --> 00:22:21,600

the meathead humor approach

594

00:22:26,710 --> 00:22:24,000

nathan takes a serious approach but he

595

00:22:29,590 --> 00:22:26,720

loves people the same way he

596

00:22:32,390 --> 00:22:29,600

speaks glowingly of all of you when

597

00:22:34,470 --> 00:22:32,400

we're on private uh conversation the

598

00:22:36,149 --> 00:22:34,480

other thing is that text is very

599

00:22:38,470 --> 00:22:36,159

impersonal so when you hear anjali talk

600

00:22:40,470 --> 00:22:38,480

about the degradation of communication

601
00:22:42,870 --> 00:22:40,480
according to the beings that she's

602
00:22:46,470 --> 00:22:42,880
interacting with of a higher density

603
00:22:49,270 --> 00:22:46,480
i think in my mind that that refers to

604
00:22:51,750 --> 00:22:49,280
now we want to text people i don't have

605
00:22:52,870 --> 00:22:51,760
time to call you i don't want to talk to

606
00:22:55,029 --> 00:22:52,880
you i want to

607
00:22:57,990 --> 00:22:55,039
get like 20 characters out

608
00:22:59,190 --> 00:22:58,000
and peace i'll talk to you later to me

609
00:23:01,430 --> 00:22:59,200
this is the highest form of

610
00:23:03,510 --> 00:23:01,440
communication that we can have other

611
00:23:05,350 --> 00:23:03,520
than being in person when i get to look

612
00:23:07,669 --> 00:23:05,360
in your eyes i get to feel the emotion

613
00:23:10,950 --> 00:23:07,679

in your voice get your inferences your

614

00:23:14,870 --> 00:23:10,960

metaphors uh that that are lost

615

00:23:16,549 --> 00:23:14,880

uh in in digitization so um that's

616

00:23:18,149 --> 00:23:16,559

that's what we hope to bring is to be

617

00:23:19,669 --> 00:23:18,159

able to interact and everybody knows

618

00:23:21,510 --> 00:23:19,679

that because there's probably more

619

00:23:23,590 --> 00:23:21,520

people on ufo twitter that have my phone

620

00:23:25,750 --> 00:23:23,600

number then you would believe and i

621

00:23:27,430 --> 00:23:25,760

don't care i i've had people call me

622

00:23:29,110 --> 00:23:27,440

from all over and i'm happy to speak

623

00:23:29,990 --> 00:23:29,120

with them yeah

624

00:23:32,630 --> 00:23:30,000

love it

625

00:23:35,110 --> 00:23:32,640

i mean you've been more than welcoming

626

00:23:37,190 --> 00:23:35,120

you guys have been just i mean

627

00:23:38,870 --> 00:23:37,200

i have felt so much love from you guys

628

00:23:39,990 --> 00:23:38,880

so if that was your mission the mission

629

00:23:42,549 --> 00:23:40,000

accomplished

630

00:23:44,710 --> 00:23:42,559

because that's definitely something that

631

00:23:46,789 --> 00:23:44,720

that comes across with your interactions

632

00:23:48,630 --> 00:23:46,799

with you know me and the way that i see

633

00:23:50,470 --> 00:23:48,640

you guys treat other people and i mean

634

00:23:52,070 --> 00:23:50,480

that's really what it's all about

635

00:23:54,470 --> 00:23:52,080

most of the arguments when you really

636

00:23:56,630 --> 00:23:54,480

scrub through it we're kind of splitting

637

00:23:59,510 --> 00:23:56,640

hairs because we're still all on the

638

00:24:01,430 --> 00:23:59,520

same side we think there's something

639

00:24:05,909 --> 00:24:01,440

it's like that's the unity that's the

640

00:24:08,310 --> 00:24:05,919

bond you know we we all are on the side

641

00:24:09,909 --> 00:24:08,320

that believes in something that others

642

00:24:11,830 --> 00:24:09,919

might not even care you know might not

643

00:24:12,950 --> 00:24:11,840

believe in or care about you know

644

00:24:13,990 --> 00:24:12,960

honestly

645

00:24:18,630 --> 00:24:14,000

so

646

00:24:20,549 --> 00:24:18,640

that's what you were doing then then

647

00:24:22,070 --> 00:24:20,559

bravo because you did it

648

00:24:23,510 --> 00:24:22,080

thank you ma'am and and i just want to

649

00:24:24,870 --> 00:24:23,520

say one thing

650

00:24:26,750 --> 00:24:24,880

i think you just pointed this out

651
00:24:29,269 --> 00:24:26,760
perfectly there might be

652
00:24:30,630 --> 00:24:29,279
175 million people in this country that

653
00:24:32,470 --> 00:24:30,640
don't believe

654
00:24:34,310 --> 00:24:32,480
that there is a different intelligence

655
00:24:36,390 --> 00:24:34,320
that's interacting with us

656
00:24:37,110 --> 00:24:36,400
but of the rest of

657
00:24:48,950 --> 00:24:37,120
the

658
00:24:49,830 --> 00:24:48,960
you're a nutcase like get out of my face

659
00:24:51,909 --> 00:24:49,840
i mean

660
00:24:53,110 --> 00:24:51,919
they could go to you know golf courses

661
00:24:54,950 --> 00:24:53,120
and people say

662
00:24:57,350 --> 00:24:54,960
you know what i'll i'm going to tee up

663
00:24:59,750 --> 00:24:57,360

over there so yeah they should celebrate

664

00:25:01,590 --> 00:24:59,760

that they can agree on those basic facts

665

00:25:03,510 --> 00:25:01,600

and they can have that conversation and

666

00:25:06,310 --> 00:25:03,520

not feel like oh they're going to go

667

00:25:08,549 --> 00:25:06,320

laugh at the hippie you know you know

668

00:25:10,230 --> 00:25:08,559

it's what level of hippie

669

00:25:12,549 --> 00:25:10,240

because what level of woo is well we

670

00:25:16,149 --> 00:25:12,559

don't none of us know that so that's

671

00:25:20,149 --> 00:25:18,390

luis and i should agree on what's better

672

00:25:23,510 --> 00:25:20,159

a you know your traditional cuban

673

00:25:24,950 --> 00:25:23,520

sandwich or media noche i mean i we

674

00:25:30,670 --> 00:25:24,960

should be able to talk about this come

675

00:25:30,680 --> 00:25:40,950

[Laughter]

676

00:25:44,870 --> 00:25:43,430

so let's listen all right let's get with

677

00:25:47,269 --> 00:25:44,880

some questions man let's go with some

678

00:25:50,230 --> 00:25:47,279

ufos akashi tighten it up

679

00:25:52,470 --> 00:25:50,240

tighten your shoes up oh my question my

680

00:25:54,549 --> 00:25:52,480

questions oh you can do yours okay all

681

00:25:57,430 --> 00:25:54,559

right oh did you ask me a question ask

682

00:26:00,390 --> 00:25:57,440

you a question

683

00:26:02,390 --> 00:26:00,400

so i'm gonna ask you guys a question so

684

00:26:05,430 --> 00:26:02,400

you know in in looking at you guys you

685

00:26:06,390 --> 00:26:05,440

guys are obviously very aligned but

686

00:26:10,070 --> 00:26:06,400

what

687

00:26:13,430 --> 00:26:10,080

if you had to kind of identify one thing

688

00:26:17,669 --> 00:26:13,440

that you're most misaligned on like

689

00:26:20,149 --> 00:26:18,630

so

690

00:26:21,590 --> 00:26:20,159

nathan i'm gonna give you i was i

691

00:26:31,590 --> 00:26:21,600

thought we were gonna have like a timer

692

00:26:36,149 --> 00:26:34,149

i'm just kidding grant no time

693

00:26:38,230 --> 00:26:36,159

so nathan so i'll start with you so what

694

00:26:40,310 --> 00:26:38,240

is you know when when you guys talk it's

695

00:26:42,950 --> 00:26:40,320

like what what's the one thing that

696

00:26:47,029 --> 00:26:44,230

yeah sure

697

00:26:48,950 --> 00:26:47,039

well we as dj mentioned we

698

00:26:50,710 --> 00:26:48,960

have i think we share a similar spirit

699

00:26:52,870 --> 00:26:50,720

you know so even if we didn't do a

700

00:26:54,950 --> 00:26:52,880

disagreement we

701
00:26:56,310 --> 00:26:54,960
we don't let that go very long before we

702
00:26:57,510 --> 00:26:56,320
both start kind of like you know we need

703
00:26:59,669 --> 00:26:57,520
to come we need to kind of come back

704
00:27:02,870 --> 00:26:59,679
together on the on the big things

705
00:27:04,870 --> 00:27:02,880
but i will say that um

706
00:27:06,310 --> 00:27:04,880
you know it's

707
00:27:08,310 --> 00:27:06,320
i'm trying the right way to frame this

708
00:27:11,190 --> 00:27:08,320
dj the one topic that we've both kind of

709
00:27:12,710 --> 00:27:11,200
gotten into a disagreement on and i

710
00:27:15,430 --> 00:27:12,720
can't think of really any others to be

711
00:27:17,350 --> 00:27:15,440
honest but it's the tic tac and kind of

712
00:27:18,549 --> 00:27:17,360
you know entertaining different theories

713
00:27:21,110 --> 00:27:18,559

and and i don't think we're going to

714

00:27:22,950 --> 00:27:21,120

spend a lot of time on it on this chat

715

00:27:26,149 --> 00:27:22,960

because we could literally spend two

716

00:27:31,590 --> 00:27:29,190

but uh you know dj brings a ton of

717

00:27:34,710 --> 00:27:31,600

knowledge when it comes to

718

00:27:36,870 --> 00:27:34,720

flight and uh and and you know our our

719

00:27:39,590 --> 00:27:36,880

engineering and the level to where we

720

00:27:41,510 --> 00:27:39,600

what we have achieved with flight um

721

00:27:42,470 --> 00:27:41,520

he's got some great anecdotes about that

722

00:27:44,870 --> 00:27:42,480

as well

723

00:27:46,549 --> 00:27:44,880

and uh you know he looks at the tic tac

724

00:27:48,389 --> 00:27:46,559

uh you know i think from that

725

00:27:50,549 --> 00:27:48,399

perspective and it's it's the it really

726

00:27:52,950 --> 00:27:50,559

is the right perspective to look at that

727

00:27:55,110 --> 00:27:52,960

object in terms of this does not seem

728

00:27:56,549 --> 00:27:55,120

like something that we

729

00:27:58,789 --> 00:27:56,559

as humans

730

00:28:00,789 --> 00:27:58,799

you know have engineered that we could

731

00:28:03,190 --> 00:28:00,799

even you know pilot whether we would

732

00:28:05,269 --> 00:28:03,200

pilot it like our someone inside the

733

00:28:07,430 --> 00:28:05,279

object or even remotely very challenging

734

00:28:08,950 --> 00:28:07,440

for us to be able to do that because

735

00:28:11,350 --> 00:28:08,960

of the high level of performance and

736

00:28:13,590 --> 00:28:11,360

many other reasons why

737

00:28:17,909 --> 00:28:13,600

um and so he he approaches it from that

738

00:28:19,990 --> 00:28:17,919

lens and and for myself uh i i tend to

739

00:28:21,990 --> 00:28:20,000

entertain a lot of speculation because

740

00:28:23,510 --> 00:28:22,000

in part because i guess i

741

00:28:25,350 --> 00:28:23,520

i'm already talking about aliens to

742

00:28:27,750 --> 00:28:25,360

begin with so i sort of say like well

743

00:28:28,710 --> 00:28:27,760

what else is anything else is possible

744

00:28:30,870 --> 00:28:28,720

and one of the things i really

745

00:28:32,149 --> 00:28:30,880

appreciate about dj is that he kind of

746

00:28:34,389 --> 00:28:32,159

uh

747

00:28:36,789 --> 00:28:34,399

he he kind of reels me back in sometimes

748

00:28:38,470 --> 00:28:36,799

from entertaining too many different

749

00:28:39,990 --> 00:28:38,480

theories you know because you really can

750

00:28:40,950 --> 00:28:40,000

i think this is a good lesson for all of

751

00:28:42,789 --> 00:28:40,960

us you know

752

00:28:44,070 --> 00:28:42,799

when you've kind of opened one box you

753

00:28:45,909 --> 00:28:44,080

can be like well there's there's a

754

00:28:48,149 --> 00:28:45,919

million boxes i can open any theory is

755

00:28:50,149 --> 00:28:48,159

possible what about this what about that

756

00:28:53,029 --> 00:28:50,159

and i think you know it's helpful to

757

00:28:55,029 --> 00:28:53,039

kind of revisit your biases and and kind

758

00:28:56,630 --> 00:28:55,039

of say look maybe it's maybe i don't

759

00:28:58,549 --> 00:28:56,640

need to entertain every single theory

760

00:29:00,070 --> 00:28:58,559

that is plausible man i'll narrow this

761

00:29:02,389 --> 00:29:00,080

down a little bit more

762

00:29:04,389 --> 00:29:02,399

and uh and say you know right now based

763

00:29:05,590 --> 00:29:04,399

on what i know now

764

00:29:07,990 --> 00:29:05,600

i don't think

765

00:29:10,070 --> 00:29:08,000

that this is a theory worth chasing i

766

00:29:11,669 --> 00:29:10,080

think that that's probably the the best

767

00:29:14,389 --> 00:29:11,679

the best way i can put it without us you

768

00:29:15,750 --> 00:29:14,399

know like really getting into it no yeah

769

00:29:18,230 --> 00:29:15,760

and i'm not trying to start something

770

00:29:20,630 --> 00:29:18,240

i'm just curious what you guys what you

771

00:29:21,430 --> 00:29:20,640

know what theories you guys are not you

772

00:29:22,789 --> 00:29:21,440

know

773

00:29:25,590 --> 00:29:22,799

nathan uh

774

00:29:27,830 --> 00:29:25,600

he contextualized my position basically

775

00:29:29,750 --> 00:29:27,840

perfectly you know the only thing i

776

00:29:31,350 --> 00:29:29,760

would add to it as i say i try to take

777

00:29:33,990 --> 00:29:31,360

what our knowns are

778

00:29:36,310 --> 00:29:34,000

and i try to build out from there and

779

00:29:38,070 --> 00:29:36,320

look very realistically

780

00:29:40,950 --> 00:29:38,080

based on that because i know how

781

00:29:42,870 --> 00:29:40,960

technology that ends up first of all i

782

00:29:44,310 --> 00:29:42,880

know what we're buying right now as a

783

00:29:47,190 --> 00:29:44,320

military i know what we're spending

784

00:29:49,029 --> 00:29:47,200

money on i know what's in test i know

785

00:29:51,269 --> 00:29:49,039

what's not in test

786

00:29:53,269 --> 00:29:51,279

i um and what's in procurement all these

787

00:29:55,750 --> 00:29:53,279

sorts of things so i kind of will extend

788

00:29:58,710 --> 00:29:55,760

out from there and see okay that

789

00:30:00,470 --> 00:29:58,720

but and then i'll say okay so from where

790

00:30:03,750 --> 00:30:00,480

we've come from the beginning of flight

791

00:30:05,510 --> 00:30:03,760

until now this is and what i'm seeing

792

00:30:07,830 --> 00:30:05,520

and based on how long it takes to go

793

00:30:09,430 --> 00:30:07,840

from the military to civil i'll say okay

794

00:30:10,950 --> 00:30:09,440

this is probably possible and then i'll

795

00:30:13,430 --> 00:30:10,960

look at something like that and just be

796

00:30:15,510 --> 00:30:13,440

like there's so many aspects of it that

797

00:30:17,350 --> 00:30:15,520

you would have to understand

798

00:30:20,149 --> 00:30:17,360

how we fly

799

00:30:22,470 --> 00:30:20,159

and when i say the word fly i mean

800

00:30:24,310 --> 00:30:22,480

all that goes into that navigation

801
00:30:25,990 --> 00:30:24,320
traffic avoidance

802
00:30:28,789 --> 00:30:26,000
um

803
00:30:30,230 --> 00:30:28,799
how we start stop turn you know the

804
00:30:32,470 --> 00:30:30,240
basics that you all know and that's

805
00:30:34,310 --> 00:30:32,480
where i'll come to that so i'll try to

806
00:30:36,149 --> 00:30:34,320
find a position where i haven't known

807
00:30:37,590 --> 00:30:36,159
i'll try to build out from there and

808
00:30:39,510 --> 00:30:37,600
then beyond that like when we start

809
00:30:41,990 --> 00:30:39,520
talking about the phenomenon

810
00:30:43,789 --> 00:30:42,000
geez i'm open to everything i mean i

811
00:30:45,830 --> 00:30:43,799
start talking nathan about

812
00:30:48,310 --> 00:30:45,840
ultra-terrestrial and we start talking

813
00:30:51,510 --> 00:30:48,320

about uh historical things like that

814

00:30:53,669 --> 00:30:51,520

that chris is very passionate about that

815

00:30:55,430 --> 00:30:53,679

uh archaeologically speaking there may

816

00:30:57,830 --> 00:30:55,440

be some significant things that are

817

00:31:00,389 --> 00:30:57,840

under the earth right now that would

818

00:31:03,110 --> 00:31:00,399

look like it's uh several thousand years

819

00:31:05,029 --> 00:31:03,120

in our future today but may have

820

00:31:07,430 --> 00:31:05,039

been buried there several thousand years

821

00:31:10,269 --> 00:31:07,440

ago and then we start you know nathan

822

00:31:13,350 --> 00:31:10,279

and i will talk about uh you know uh

823

00:31:15,990 --> 00:31:13,360

extraterrestrial uh and interdimensional

824

00:31:18,310 --> 00:31:16,000

and i'm i'm just so open and interested

825

00:31:20,950 --> 00:31:18,320

in all those things and all the time you

826

00:31:23,590 --> 00:31:20,960

have your james you know ian doley's uh

827

00:31:25,029 --> 00:31:23,600

with his his meta perspective and uh

828

00:31:27,269 --> 00:31:25,039

folks like dan

829

00:31:30,470 --> 00:31:27,279

and folks like nathan and folks like

830

00:31:32,630 --> 00:31:30,480

mike from the singularity lab and folks

831

00:31:35,669 --> 00:31:32,640

like rather be squidding you know that

832

00:31:38,710 --> 00:31:35,679

have all these really uh uh interesting

833

00:31:40,710 --> 00:31:38,720

ideas that provoke me to think

834

00:31:43,750 --> 00:31:40,720

uh in ways that i hadn't thought of so

835

00:31:45,590 --> 00:31:43,760

that's that's the beauty of it

836

00:31:47,509 --> 00:31:45,600

that's why this works

837

00:31:49,350 --> 00:31:47,519

the reason why i ask about the things

838

00:31:52,149 --> 00:31:49,360

that you don't agree on is because it

839

00:31:54,310 --> 00:31:52,159

actually brings up the best in

840

00:31:56,070 --> 00:31:54,320

how you complement each other

841

00:31:58,789 --> 00:31:56,080

that's awesome yeah he's going to be

842

00:32:01,269 --> 00:31:58,799

nathan's going to be a really big person

843

00:32:03,350 --> 00:32:01,279

in this space i i think there's

844

00:32:04,710 --> 00:32:03,360

some people that know him now i think

845

00:32:07,269 --> 00:32:04,720

there are some people that are becoming

846

00:32:09,029 --> 00:32:07,279

aware of him but a lot more people exo

847

00:32:12,070 --> 00:32:09,039

academia i forgot to mention him sorry

848

00:32:14,230 --> 00:32:12,080

exo love you um but yeah there's a lot

849

00:32:15,750 --> 00:32:14,240

of people that are going to become aware

850

00:32:18,549 --> 00:32:15,760

of nathan

851

00:32:20,950 --> 00:32:18,559

yeah well you know we

852

00:32:23,350 --> 00:32:20,960

to me like uh this is a good topic to

853

00:32:26,149 --> 00:32:23,360

discuss you know so the somebody

854

00:32:27,269 --> 00:32:26,159

mentioned today reminded us about how

855

00:32:33,110 --> 00:32:27,279

uh

856

00:32:35,110 --> 00:32:33,120

yeah on his chat with with mike um with

857

00:32:36,950 --> 00:32:35,120

him at a loony yeah

858

00:32:38,470 --> 00:32:36,960

but he mentioned that um

859

00:32:41,190 --> 00:32:38,480

you know if this topic kind of does

860

00:32:43,430 --> 00:32:41,200

break more to the mainstream and becomes

861

00:32:44,470 --> 00:32:43,440

igno officially acknowledged

862

00:32:48,389 --> 00:32:44,480

uh

863

00:32:50,070 --> 00:32:48,399

hasn't that thus far you know we're

864

00:32:51,990 --> 00:32:50,080

going to have a lot of folks that are

865

00:32:53,830 --> 00:32:52,000

going to flood into this space that that

866

00:32:55,110 --> 00:32:53,840

are going to want to study it and and

867

00:32:56,470 --> 00:32:55,120

treat it with a lot of serious the

868

00:32:58,389 --> 00:32:56,480

seriousness that we've all actually

869

00:33:00,389 --> 00:32:58,399

wanted it to be treated with for a long

870

00:33:03,110 --> 00:33:00,399

time you know we're hoping that we get a

871

00:33:05,430 --> 00:33:03,120

lot of the best minds working on this

872

00:33:08,149 --> 00:33:05,440

issue and helping us understand what it

873

00:33:09,990 --> 00:33:08,159

is and you know kurt's point i think was

874

00:33:12,389 --> 00:33:10,000

that uh you know when that day comes

875

00:33:15,430 --> 00:33:12,399

that the folks in in this little

876

00:33:17,350 --> 00:33:15,440

microcosm the ufo twitter folks you know

877

00:33:19,509 --> 00:33:17,360

we're not gonna get any uh uh you know

878

00:33:21,590 --> 00:33:19,519

sort of applause we're not gonna get any

879

00:33:23,909 --> 00:33:21,600

you know gold stars for the work that we

880

00:33:25,110 --> 00:33:23,919

did to try to push this topic forward

881

00:33:26,870 --> 00:33:25,120

you know we're going to have to sort of

882

00:33:29,750 --> 00:33:26,880

be ready or comfortable with the fact

883

00:33:32,310 --> 00:33:29,760

that that we may have to step step aside

884

00:33:34,149 --> 00:33:32,320

and and honestly i'm i'm okay with that

885

00:33:36,070 --> 00:33:34,159

but i do want to get your thoughts dj i

886

00:33:37,990 --> 00:33:36,080

mean if that day comes and and that does

887

00:33:40,470 --> 00:33:38,000

happen and you know what where do you

888

00:33:42,630 --> 00:33:40,480

see the community uh going

889

00:33:44,549 --> 00:33:42,640

uh if it becomes just the thing that

890

00:33:45,830 --> 00:33:44,559

everybody is now like this is just a

891

00:33:47,750 --> 00:33:45,840

fact of life and the world is

892

00:33:49,350 --> 00:33:47,760

acknowledged this is real do you see

893

00:33:51,509 --> 00:33:49,360

this community kind of dissolving or do

894

00:33:52,950 --> 00:33:51,519

you see it growing what kind of you see

895

00:33:55,110 --> 00:33:52,960

for it in the future

896

00:33:57,830 --> 00:33:55,120

for two reasons i don't see it

897

00:33:59,909 --> 00:33:57,840

dissolving uh in fact it may grow and

898

00:34:03,509 --> 00:33:59,919

the reason i believe that if i look at

899

00:34:05,990 --> 00:34:03,519

the mma community when mma and the ufc

900

00:34:08,629 --> 00:34:06,000

got really popular when uh there were

901
00:34:10,869 --> 00:34:08,639
people who were be were ogs so you know

902
00:34:13,349 --> 00:34:10,879
for in our space you could look at

903
00:34:16,069 --> 00:34:13,359
people like james like linda molten howe

904
00:34:17,589 --> 00:34:16,079
like grant cameron like

905
00:34:19,990 --> 00:34:17,599
martin willis

906
00:34:22,629 --> 00:34:20,000
people that have been around for not you

907
00:34:23,750 --> 00:34:22,639
know like two years or a year but

908
00:34:25,510 --> 00:34:23,760
decades

909
00:34:27,109 --> 00:34:25,520
uh and

910
00:34:28,470 --> 00:34:27,119
and so

911
00:34:31,669 --> 00:34:28,480
then you you know you could look at all

912
00:34:33,510 --> 00:34:31,679
the guys now like andy and and and ucr

913
00:34:35,109 --> 00:34:33,520

and all these people you know amy all

914

00:34:37,990 --> 00:34:35,119

these people that are building up

915

00:34:40,950 --> 00:34:38,000

audiences and that trust them and i

916

00:34:42,389 --> 00:34:40,960

don't think that'll go away if

917

00:34:46,869 --> 00:34:42,399

um

918

00:34:49,669 --> 00:34:46,879

news person x from nbc or abc or cbs or

919

00:34:51,750 --> 00:34:49,679

whatever come into the space uh i i

920

00:34:54,230 --> 00:34:51,760

don't think because the credibility the

921

00:34:57,750 --> 00:34:54,240

fact that they're having to cover a

922

00:35:01,270 --> 00:34:57,760

myriad of topics uh that uh the entire

923

00:35:03,829 --> 00:35:01,280

spectrum of news um i i don't think that

924

00:35:06,230 --> 00:35:03,839

that our um

925

00:35:08,710 --> 00:35:06,240

i i don't like to say the word followers

926

00:35:10,950 --> 00:35:08,720

i like to say friends so i would like to

927

00:35:13,030 --> 00:35:10,960

say that our friends from ufo twitter

928

00:35:15,349 --> 00:35:13,040

that we're engaging with every day are

929

00:35:17,109 --> 00:35:15,359

still going to be there because

930

00:35:19,349 --> 00:35:17,119

they know that we're more engaged on the

931

00:35:20,710 --> 00:35:19,359

topic than people that are covering all

932

00:35:22,790 --> 00:35:20,720

of life

933

00:35:24,390 --> 00:35:22,800

yeah yeah so yeah

934

00:35:26,069 --> 00:35:24,400

i hope you're right i mean i do think

935

00:35:27,430 --> 00:35:26,079

that you know those of us who brought a

936

00:35:29,750 --> 00:35:27,440

passion to this want to continue to be

937

00:35:32,390 --> 00:35:29,760

part of that conversation in some way uh

938

00:35:34,069 --> 00:35:32,400

and you know and even if we're not um

939

00:35:36,390 --> 00:35:34,079

you know i do think about the role that

940

00:35:38,470 --> 00:35:36,400

ufo twitter plays in

941

00:35:39,349 --> 00:35:38,480

the the topic generally i mean i think i

942

00:35:40,950 --> 00:35:39,359

i

943

00:35:43,430 --> 00:35:40,960

know for a fact there are lots of folks

944

00:35:45,430 --> 00:35:43,440

that are maybe not actively tweeting but

945

00:35:48,069 --> 00:35:45,440

they're observing the content that is

946

00:35:50,230 --> 00:35:48,079

produced by this community uh that is

947

00:35:52,870 --> 00:35:50,240

trying to draw attention to this topic

948

00:35:54,630 --> 00:35:52,880

and so i do see us as a kind of a

949

00:35:56,950 --> 00:35:54,640

like an energy drink if you will for

950

00:35:59,270 --> 00:35:56,960

this topic for those that are out there

951
00:36:00,710 --> 00:35:59,280
kind of doing work that we may not be

952
00:36:02,710 --> 00:36:00,720
seeing you know there may be a lot of

953
00:36:05,670 --> 00:36:02,720
folks i mean i think think of um you

954
00:36:07,349 --> 00:36:05,680
know elizondo and sean cahill and jake

955
00:36:08,950 --> 00:36:07,359
mann and the guys from skyford i mean

956
00:36:10,710 --> 00:36:08,960
they're out there you know doing their

957
00:36:13,910 --> 00:36:10,720
thing to try to bring awareness to this

958
00:36:15,589 --> 00:36:13,920
topic with a lot of players who who can

959
00:36:17,589 --> 00:36:15,599
really move it forward but we don't we

960
00:36:19,910 --> 00:36:17,599
don't see what they're doing day to day

961
00:36:21,990 --> 00:36:19,920
you know we're privy to very little

962
00:36:24,390 --> 00:36:22,000
about what those guys are actually up to

963
00:36:26,790 --> 00:36:24,400

but i have a feeling that they do

964

00:36:29,670 --> 00:36:26,800

kind of draw from this community a sense

965

00:36:31,349 --> 00:36:29,680

of energy uh and enthusiasm and that

966

00:36:33,510 --> 00:36:31,359

does help kind of move them forward at

967

00:36:36,310 --> 00:36:33,520

least that's what i'm hearing them say

968

00:36:38,550 --> 00:36:36,320

and that does give me a sense of pride

969

00:36:40,550 --> 00:36:38,560

in kind of what we do and it also helps

970

00:36:42,310 --> 00:36:40,560

me focus on what it is that we're trying

971

00:36:44,150 --> 00:36:42,320

to achieve you know so

972

00:36:47,109 --> 00:36:44,160

uh getting distracted by our

973

00:36:49,030 --> 00:36:47,119

disagreements is not actually helpful uh

974

00:36:51,190 --> 00:36:49,040

in moving this forward in any way shape

975

00:36:53,270 --> 00:36:51,200

or form but you know we can we can have

976
00:36:55,190 --> 00:36:53,280
disagreements but we shouldn't you know

977
00:36:57,910 --> 00:36:55,200
kind of uh belittle people in that

978
00:37:00,069 --> 00:36:57,920
process tear down yeah

979
00:37:02,390 --> 00:37:00,079
i agree uh yeah they

980
00:37:04,550 --> 00:37:02,400
frankly you know like chris they can

981
00:37:05,430 --> 00:37:04,560
reach people that we can't reach uh they

982
00:37:07,349 --> 00:37:05,440
can

983
00:37:09,430 --> 00:37:07,359
reach into congress you know just look

984
00:37:12,069 --> 00:37:09,440
at the people you mentioned

985
00:37:14,790 --> 00:37:12,079
uh they can reach uh into congress they

986
00:37:17,270 --> 00:37:14,800
can uh reach over to foreign countries

987
00:37:19,829 --> 00:37:17,280
and be respected i mean if i if one of

988
00:37:21,829 --> 00:37:19,839

us from ufo twitter were to try to

989

00:37:23,109 --> 00:37:21,839

make a trip to the uk or make a trip to

990

00:37:24,310 --> 00:37:23,119

san marino nobody's going to want to

991

00:37:26,069 --> 00:37:24,320

meet with me because they don't know who

992

00:37:29,589 --> 00:37:26,079

i am

993

00:37:31,829 --> 00:37:29,599

and when somebody of a certain uh

994

00:37:34,150 --> 00:37:31,839

whether you like their

995

00:37:37,589 --> 00:37:34,160

how they got their status or not

996

00:37:38,950 --> 00:37:37,599

it's a fact that people were gonna sit

997

00:37:41,829 --> 00:37:38,960

down at a table and talk with them the

998

00:37:44,390 --> 00:37:41,839

italian government uh the san marino's

999

00:37:46,630 --> 00:37:44,400

uh the the uk somebody from the uk that

1000

00:37:48,550 --> 00:37:46,640

sat down with significant but i got a

1001
00:37:52,630 --> 00:37:48,560
question for y'all

1002
00:37:54,950 --> 00:37:52,640
it's about your boy akashi avi loeb and

1003
00:37:55,990 --> 00:37:54,960
the galileo project

1004
00:37:59,829 --> 00:37:56,000
so

1005
00:38:02,150 --> 00:37:59,839
you and i'd like to pose this question

1006
00:38:05,109 --> 00:38:02,160
to you when you're done i'd like to have

1007
00:38:06,069 --> 00:38:05,119
nathan attack this question as well but

1008
00:38:08,870 --> 00:38:06,079
um

1009
00:38:11,270 --> 00:38:08,880
first of all i love professor loeb he's

1010
00:38:14,150 --> 00:38:11,280
given us a kind of like in the same way

1011
00:38:17,430 --> 00:38:14,160
that uh people like lou and chris about

1012
00:38:20,150 --> 00:38:17,440
credibility to our topic amongst a wider

1013
00:38:22,390 --> 00:38:20,160

audience so has aviloah because in in

1014

00:38:24,710 --> 00:38:22,400

this in the academic space

1015

00:38:26,230 --> 00:38:24,720

he's this big i mean a harvard professor

1016

00:38:28,550 --> 00:38:26,240

it's hard to get you know let's see i'm

1017

00:38:33,030 --> 00:38:28,560

in harvard or cambridge right

1018

00:38:34,950 --> 00:38:33,040

so anyway oxford um so what do you think

1019

00:38:37,510 --> 00:38:34,960

do you expect

1020

00:38:39,430 --> 00:38:37,520

of those guys like so if i would say you

1021

00:38:41,349 --> 00:38:39,440

know galileo project they're going to

1022

00:38:43,270 --> 00:38:41,359

produce x

1023

00:38:45,750 --> 00:38:43,280

uh in terms of after they get their

1024

00:38:48,470 --> 00:38:45,760

equipment fielded what do you think that

1025

00:38:50,230 --> 00:38:48,480

will be the result of what they're able

1026
00:38:52,550 --> 00:38:50,240
to gather and collect once they get

1027
00:38:54,950 --> 00:38:52,560
their sensors deployed

1028
00:38:58,470 --> 00:38:54,960
and then as far as what you know results

1029
00:39:00,870 --> 00:38:58,480
versus what we'll see out of them

1030
00:39:02,390 --> 00:39:00,880
well no you know i wasn't even thinking

1031
00:39:04,150 --> 00:39:02,400
about that but

1032
00:39:06,550 --> 00:39:04,160
results that they'll get what do you

1033
00:39:08,710 --> 00:39:06,560
think they will discover or find if you

1034
00:39:09,910 --> 00:39:08,720
had to look into the imagination of your

1035
00:39:12,950 --> 00:39:09,920
mind

1036
00:39:16,069 --> 00:39:12,960
i mean i i think he's gonna get to at

1037
00:39:18,470 --> 00:39:16,079
least understanding or or

1038
00:39:20,790 --> 00:39:18,480

not sure that really getting that that

1039

00:39:21,750 --> 00:39:20,800

evidentiary proof that everybody you

1040

00:39:23,030 --> 00:39:21,760

know

1041

00:39:24,550 --> 00:39:23,040

you can put a picture in front of

1042

00:39:27,190 --> 00:39:24,560

anybody and they're gonna find a way to

1043

00:39:29,750 --> 00:39:27,200

dispute it even if it's absolutely 100

1044

00:39:33,030 --> 00:39:29,760

true so i think he's going to come out

1045

00:39:36,470 --> 00:39:34,550

it'll be interesting what he comes out

1046

00:39:37,990 --> 00:39:36,480

with on the interdimensional

1047

00:39:39,990 --> 00:39:38,000

because i think that's you know

1048

00:39:41,990 --> 00:39:40,000

definitely the focus you know some of

1049

00:39:45,109 --> 00:39:42,000

the focus that they're you know the the

1050

00:39:47,829 --> 00:39:45,119

the government is taking and isn't his

1051
00:39:50,550 --> 00:39:47,839
place to put people as part of this

1052
00:39:52,230 --> 00:39:50,560
central office that are represented from

1053
00:39:53,990 --> 00:39:52,240
galileo projects so that's where i'm

1054
00:39:56,550 --> 00:39:54,000
like trying to figure out from

1055
00:39:58,950 --> 00:39:56,560
government to galileo projects are going

1056
00:40:00,390 --> 00:39:58,960
to impact what they were able to deliver

1057
00:40:01,910 --> 00:40:00,400
to us

1058
00:40:04,309 --> 00:40:01,920
okay that's interesting because i didn't

1059
00:40:06,710 --> 00:40:04,319
even know that they were going to uh get

1060
00:40:10,230 --> 00:40:06,720
a member of the galileo team on to like

1061
00:40:12,470 --> 00:40:10,240
the uap tf or whatever the the new arm

1062
00:40:14,309 --> 00:40:12,480
of the dod is going to be and we need to

1063
00:40:15,750 --> 00:40:14,319

look at the chat on that one but i

1064

00:40:17,190 --> 00:40:15,760

looked into that and i thought that

1065

00:40:19,109 --> 00:40:17,200

that's what i saw that there was like

1066

00:40:21,750 --> 00:40:19,119

three people when you actually look at

1067

00:40:23,910 --> 00:40:21,760

the disclaimer and all the you know um

1068

00:40:24,870 --> 00:40:23,920

the details on it that three people are

1069

00:40:27,589 --> 00:40:24,880

from

1070

00:40:29,190 --> 00:40:27,599

um avilo and he gets to pick whatever

1071

00:40:31,270 --> 00:40:29,200

those three people are

1072

00:40:33,349 --> 00:40:31,280

so that's where it's like now i'm

1073

00:40:35,829 --> 00:40:33,359

thinking it you know galileo project's

1074

00:40:36,950 --> 00:40:35,839

supposed to be looking outward but we

1075

00:40:39,510 --> 00:40:36,960

know that

1076
00:40:42,309 --> 00:40:39,520
the government is always also looking

1077
00:40:44,550 --> 00:40:42,319
inward so my answer to that would have

1078
00:40:49,030 --> 00:40:44,560
been different before this amendment

1079
00:40:52,230 --> 00:40:50,630
reference to something that we would

1080
00:40:54,710 --> 00:40:52,240
never even think that would be

1081
00:40:56,230 --> 00:40:54,720
referenced by the government came out so

1082
00:40:59,990 --> 00:40:56,240
that i think that changes the game

1083
00:41:01,589 --> 00:41:00,000
especially if abi is part of

1084
00:41:03,910 --> 00:41:01,599
that team

1085
00:41:05,750 --> 00:41:03,920
and if you know is louis on the part of

1086
00:41:07,510 --> 00:41:05,760
the team i don't know i'm just it would

1087
00:41:08,870 --> 00:41:07,520
be really interesting to see who's you

1088
00:41:10,150 --> 00:41:08,880

know who's being targeted for those

1089

00:41:13,670 --> 00:41:10,160

positions

1090

00:41:15,510 --> 00:41:13,680

yeah hashtag akashi

1091

00:41:18,230 --> 00:41:15,520

yeah not me

1092

00:41:19,910 --> 00:41:18,240

nathan yeah so uh

1093

00:41:21,750 --> 00:41:19,920

i know that i muddied the waters on that

1094

00:41:23,510 --> 00:41:21,760

but i'm sorry because i'm like whoa i'll

1095

00:41:25,270 --> 00:41:23,520

be look cool that's one question i

1096

00:41:27,190 --> 00:41:25,280

didn't expect that i'm gonna get i'm

1097

00:41:29,510 --> 00:41:27,200

good with that i love avi

1098

00:41:31,109 --> 00:41:29,520

i thought it was great because uh and

1099

00:41:33,510 --> 00:41:31,119

you you kind of brought the the topic

1100

00:41:35,030 --> 00:41:33,520

together to to the bill so that the the

1101

00:41:37,349 --> 00:41:35,040

bill the rebranded bill the gillibrand

1102

00:41:40,630 --> 00:41:37,359

bill the essay 4593

1103

00:41:42,069 --> 00:41:40,640

uh if you read the text of who's or kind

1104

00:41:44,950 --> 00:41:42,079

of who's going to be invited to be a

1105

00:41:47,430 --> 00:41:44,960

part of this uh team i mean it's pretty

1106

00:41:50,230 --> 00:41:47,440

broad so you know you've got the galileo

1107

00:41:52,630 --> 00:41:50,240

folks you've got uh scu folks i mean the

1108

00:41:53,829 --> 00:41:52,640

scientific coalition for uap studies i

1109

00:41:55,349 --> 00:41:53,839

mean that's

1110

00:41:57,349 --> 00:41:55,359

it you know

1111

00:42:00,470 --> 00:41:57,359

this is the kind of team that you would

1112

00:42:03,910 --> 00:42:00,480

want to be working together to review

1113

00:42:06,309 --> 00:42:03,920

this information to provide it with a

1114

00:42:09,190 --> 00:42:06,319

level of credibility and and i want to

1115

00:42:11,430 --> 00:42:09,200

use that word carefully because i think

1116

00:42:13,430 --> 00:42:11,440

the credibility could cut

1117

00:42:15,190 --> 00:42:13,440

one of two ways right they could go

1118

00:42:16,390 --> 00:42:15,200

through this effort and looks like i've

1119

00:42:18,710 --> 00:42:16,400

lost some

1120

00:42:20,309 --> 00:42:18,720

uh some some lighting here just

1121

00:42:22,230 --> 00:42:20,319

apologize for that but um they could go

1122

00:42:23,510 --> 00:42:22,240

through this effort

1123

00:42:28,870 --> 00:42:23,520

and

1124

00:42:30,790 --> 00:42:28,880

this this is the uaps are real they're

1125

00:42:32,069 --> 00:42:30,800

you know they are something outside of

1126

00:42:33,829 --> 00:42:32,079

the earth they're extraterrestrial

1127

00:42:35,430 --> 00:42:33,839

whatever or they could say you know what

1128

00:42:36,870 --> 00:42:35,440

we've actually looked at this and all

1129

00:42:38,870 --> 00:42:36,880

these intelligent people looked at and

1130

00:42:40,230 --> 00:42:38,880

we've realized it's uh you know it

1131

00:42:42,150 --> 00:42:40,240

really is some sort of atmospheric

1132

00:42:43,990 --> 00:42:42,160

phenomena or it really is uh an

1133

00:42:45,990 --> 00:42:44,000

adversarial technology or really you

1134

00:42:47,670 --> 00:42:46,000

know but the all of these people who are

1135

00:42:49,510 --> 00:42:47,680

collectively kind of looking at this

1136

00:42:51,510 --> 00:42:49,520

together like these are the folks that

1137

00:42:53,910 --> 00:42:51,520

we would want to have

1138

00:42:55,670 --> 00:42:53,920

to to lend their seal of approval one

1139

00:42:57,510 --> 00:42:55,680

way or the other on this now i i tend to

1140

00:42:59,430 --> 00:42:57,520

believe it's going to fall you know one

1141

00:43:01,510 --> 00:42:59,440

way or not the other

1142

00:43:03,349 --> 00:43:01,520

and but i'm so glad to see the list of

1143

00:43:05,349 --> 00:43:03,359

these professionals that are included in

1144

00:43:06,950 --> 00:43:05,359

this initiative because it gives me hope

1145

00:43:08,630 --> 00:43:06,960

that it's not just

1146

00:43:10,069 --> 00:43:08,640

you know the traditional

1147

00:43:12,309 --> 00:43:10,079

government folks that were that we've

1148

00:43:13,990 --> 00:43:12,319

been seeing for so long

1149

00:43:16,870 --> 00:43:14,000

yeah and i believe

1150

00:43:19,270 --> 00:43:16,880

uh obvi labor doctor has been so clear

1151
00:43:21,270 --> 00:43:19,280
on his intentions that he wants to share

1152
00:43:23,430 --> 00:43:21,280
whatever information he gets and that

1153
00:43:25,510 --> 00:43:23,440
he's you know but you know he was

1154
00:43:27,589 --> 00:43:25,520
limited in the you know the funding it

1155
00:43:29,270 --> 00:43:27,599
seems like for the tech that he needs no

1156
00:43:31,829 --> 00:43:29,280
doubt come on that's like we're gonna

1157
00:43:34,470 --> 00:43:31,839
have to do a gofundme for this this is

1158
00:43:35,910 --> 00:43:34,480
ridiculous but now with

1159
00:43:37,270 --> 00:43:35,920
with everything else that's going on

1160
00:43:40,230 --> 00:43:37,280
that's what i'm saying that it's kind of

1161
00:43:42,470 --> 00:43:40,240
evolving into into this you know so much

1162
00:43:44,550 --> 00:43:42,480
bigger thing and moving every single day

1163
00:43:45,990 --> 00:43:44,560

it's crazy it's like keeping up with

1164

00:43:47,990 --> 00:43:46,000

this is insane

1165

00:43:49,750 --> 00:43:48,000

like being on that stage saying he needs

1166

00:43:52,470 --> 00:43:49,760

money and jeff bezos is sitting in the

1167

00:43:55,270 --> 00:43:52,480

front row of the of the national yeah

1168

00:43:57,589 --> 00:43:55,280

yo jeff man yo

1169

00:43:59,349 --> 00:43:57,599

take the credit card out

1170

00:44:00,950 --> 00:43:59,359

but as far as the team i don't know how

1171

00:44:02,630 --> 00:44:00,960

you guys feel about this but when you

1172

00:44:04,870 --> 00:44:02,640

think about it they're gonna need

1173

00:44:06,550 --> 00:44:04,880

somebody to go and get sandwiches so

1174

00:44:08,630 --> 00:44:06,560

when you think about that you start

1175

00:44:09,829 --> 00:44:08,640

thinking about me you're thinking about

1176

00:44:11,589 --> 00:44:09,839

point break

1177

00:44:13,829 --> 00:44:11,599

and you're thinking about gary busey

1178

00:44:16,550 --> 00:44:13,839

going hey utah

1179

00:44:19,670 --> 00:44:16,560

get me two of those meatball sandwiches

1180

00:44:21,510 --> 00:44:19,680

all right angelo hey utah

1181

00:44:25,510 --> 00:44:21,520

get me two

1182

00:44:28,069 --> 00:44:25,520

so i could be i could be johnny utah

1183

00:44:30,309 --> 00:44:28,079

for for this team and nathan do you how

1184

00:44:32,470 --> 00:44:30,319

do you feel that i would perform just in

1185

00:44:34,150 --> 00:44:32,480

terms of like getting lunch and stuff

1186

00:44:35,270 --> 00:44:34,160

i think you'd be terrific at it yeah

1187

00:44:36,870 --> 00:44:35,280

thank you man

1188

00:44:38,950 --> 00:44:36,880

and would you be willing to write a

1189

00:44:41,510 --> 00:44:38,960

recommendation letter you and akashi

1190

00:44:43,670 --> 00:44:41,520

anytime okay all right so avi if you're

1191

00:44:46,230 --> 00:44:43,680

listening no you can expect a letter

1192

00:44:49,349 --> 00:44:46,240

from nathan's office and one from my

1193

00:44:51,829 --> 00:44:49,359

girl from texas takashi chris and i

1194

00:44:53,670 --> 00:44:51,839

would do an excellent job uh i'm gonna

1195

00:44:56,309 --> 00:44:53,680

respect you know whether somebody's like

1196

00:44:58,309 --> 00:44:56,319

gluten-free whether they're vegan

1197

00:44:59,829 --> 00:44:58,319

you know if if pork is not your thing

1198

00:45:01,750 --> 00:44:59,839

we're both jewish you know even though

1199

00:45:03,190 --> 00:45:01,760

i'm italian so i'll take care of you

1200

00:45:06,870 --> 00:45:03,200

anyway you're willing to go to multiple

1201

00:45:10,630 --> 00:45:08,790

yeah i'll bring the cooler and or the

1202

00:45:12,630 --> 00:45:10,640

hot thing you know so we'll we'll take

1203

00:45:14,470 --> 00:45:12,640

care of it start the petition right away

1204

00:45:18,230 --> 00:45:14,480

for you perfect

1205

00:45:19,990 --> 00:45:18,240

i'm going to be off my first

1206

00:45:24,230 --> 00:45:20,000

nft nathan's gonna be off while we

1207

00:45:26,069 --> 00:45:24,240

entertain some questions deb and lucy um

1208

00:45:29,270 --> 00:45:26,079

on the chat this weekend you weren't

1209

00:45:30,390 --> 00:45:29,280

there chris but they had a couple of uh

1210

00:45:32,390 --> 00:45:30,400

questions

1211

00:45:34,470 --> 00:45:32,400

um i want you i want

1212

00:45:36,630 --> 00:45:34,480

i want to say this please don't let me

1213

00:45:38,870 --> 00:45:36,640

forget to get nathan's take on stephen

1214

00:45:40,069 --> 00:45:38,880

green street because it's brilliant

1215

00:45:41,510 --> 00:45:40,079

um

1216

00:45:43,349 --> 00:45:41,520

that said deb

1217

00:45:44,550 --> 00:45:43,359

okay i want the audience to know this

1218

00:45:47,030 --> 00:45:44,560

right now

1219

00:45:49,109 --> 00:45:47,040

i was not going to bring up any topic

1220

00:45:51,589 --> 00:45:49,119

that had to do with the air force or

1221

00:45:53,750 --> 00:45:51,599

obfuscation or making excuses for the

1222

00:45:57,589 --> 00:45:53,760

air force so let me just say that this

1223

00:46:00,710 --> 00:45:57,599

is deb and lucy bell uh a study of ufos

1224

00:46:03,589 --> 00:46:00,720

uaps so nathan we're gonna get to the

1225

00:46:05,750 --> 00:46:03,599

question that deb wanted to uh

1226
00:46:07,750 --> 00:46:05,760
ask you which was about stephen green

1227
00:46:09,670 --> 00:46:07,760
street uh because i was not gonna

1228
00:46:11,910 --> 00:46:09,680
represent your position

1229
00:46:13,670 --> 00:46:11,920
uh on air because it's your it's

1230
00:46:15,510 --> 00:46:13,680
something that you've come up with and i

1231
00:46:17,750 --> 00:46:15,520
think people should hear

1232
00:46:19,829 --> 00:46:17,760
come from your lips

1233
00:46:21,910 --> 00:46:19,839
but before before you do that uh i want

1234
00:46:24,550 --> 00:46:21,920
to answer deb's question because deb

1235
00:46:27,510 --> 00:46:24,560
this question flows right into lucy bell

1236
00:46:29,349 --> 00:46:27,520
so i'm looking at question number three

1237
00:46:31,430 --> 00:46:29,359
oh yes and deb wanted me to talk about

1238
00:46:33,910 --> 00:46:31,440

the role of the air force in the nation

1239

00:46:35,670 --> 00:46:33,920

nations defense i'm sorry and then

1240

00:46:38,150 --> 00:46:35,680

question five

1241

00:46:40,470 --> 00:46:38,160

where um

1242

00:46:43,349 --> 00:46:40,480

lucy bell said because of 70 years of

1243

00:46:45,589 --> 00:46:43,359

obfuscation what is so awful that they

1244

00:46:49,829 --> 00:46:45,599

can't tell us lucy bell

1245

00:46:51,829 --> 00:46:49,839

hi lucy all right so this is what's up

1246

00:46:54,069 --> 00:46:51,839

the mission of the air force is

1247

00:46:56,710 --> 00:46:54,079

different than the united states navy

1248

00:46:57,990 --> 00:46:56,720

so when you present your service your

1249

00:47:00,309 --> 00:46:58,000

service chief

1250

00:47:02,790 --> 00:47:00,319

to the chairman of the joint chiefs of

1251
00:47:04,790 --> 00:47:02,800
staff this the nca is the national

1252
00:47:07,109 --> 00:47:04,800
command authority so you have you know

1253
00:47:10,710 --> 00:47:07,119
the president secretary of defense you

1254
00:47:12,550 --> 00:47:10,720
have the uh the joint chiefs so within

1255
00:47:14,309 --> 00:47:12,560
that structure the air force's

1256
00:47:17,109 --> 00:47:14,319
responsibilities different than the navy

1257
00:47:19,829 --> 00:47:17,119
the navy is to project sea power and air

1258
00:47:21,910 --> 00:47:19,839
power and be able to park basically like

1259
00:47:24,069 --> 00:47:21,920
an air

1260
00:47:26,230 --> 00:47:24,079
oh i'm hearing myself somebody's got me

1261
00:47:27,589 --> 00:47:26,240
no where's me just keep going okay

1262
00:47:29,670 --> 00:47:27,599
okay i'm good

1263
00:47:31,430 --> 00:47:29,680

okay so um

1264

00:47:33,030 --> 00:47:31,440

so what it is is the air force is

1265

00:47:35,510 --> 00:47:33,040

responsible

1266

00:47:36,950 --> 00:47:35,520

to provide so i don't agree with what

1267

00:47:38,870 --> 00:47:36,960

they did so let me just start off with

1268

00:47:42,069 --> 00:47:38,880

that i don't agree with lying and

1269

00:47:44,630 --> 00:47:42,079

obfuscation i don't i i despise being

1270

00:47:46,630 --> 00:47:44,640

lied to and when someone tries to piss

1271

00:47:47,910 --> 00:47:46,640

right on my leg and tell me it's raining

1272

00:47:49,829 --> 00:47:47,920

nathan will tell you there's nothing

1273

00:47:51,270 --> 00:47:49,839

that pisses me off more than that when

1274

00:47:52,630 --> 00:47:51,280

you're trying to bs me because that

1275

00:47:53,670 --> 00:47:52,640

basically means you think you're smarter

1276

00:47:55,910 --> 00:47:53,680

than me

1277

00:47:57,990 --> 00:47:55,920

so um anyway

1278

00:48:00,309 --> 00:47:58,000

their job is basically to provide air

1279

00:48:02,549 --> 00:48:00,319

superiority and top cover over this

1280

00:48:03,430 --> 00:48:02,559

entire 50 states

1281

00:48:04,710 --> 00:48:03,440

and

1282

00:48:06,790 --> 00:48:04,720

basically be able to say to the

1283

00:48:08,790 --> 00:48:06,800

president we have control of these skies

1284

00:48:12,069 --> 00:48:08,800

last time we didn't have control these

1285

00:48:14,710 --> 00:48:12,079

guys were december 7th 1941 when we were

1286

00:48:17,430 --> 00:48:14,720

attacked by the imperial japanese in

1287

00:48:19,829 --> 00:48:17,440

hawaii obviously everybody knows that

1288

00:48:21,510 --> 00:48:19,839

and in the continental us i don't think

1289

00:48:23,910 --> 00:48:21,520

it's ever happened in our history that

1290

00:48:26,630 --> 00:48:23,920

we've faced a foreign power that's been

1291

00:48:28,710 --> 00:48:26,640

able to fly sorties and attack us from

1292

00:48:31,109 --> 00:48:28,720

the air so that's what the air force is

1293

00:48:34,069 --> 00:48:31,119

those lightning bolts that you see on a

1294

00:48:35,990 --> 00:48:34,079

general's wheel cap that he wears that's

1295

00:48:37,750 --> 00:48:36,000

that's what that's all about

1296

00:48:39,829 --> 00:48:37,760

so it was very difficult for the air

1297

00:48:42,549 --> 00:48:39,839

force to be able to say

1298

00:48:44,630 --> 00:48:42,559

hey um everybody this is what's going on

1299

00:48:46,710 --> 00:48:44,640

there's a flying saucer that crashed in

1300

00:48:47,829 --> 00:48:46,720

roswell and then there was another one

1301

00:48:49,670 --> 00:48:47,839

and there was you know the one they had

1302

00:48:52,549 --> 00:48:49,680

in michigan and there's these different

1303

00:48:54,309 --> 00:48:52,559

crashes and you know what um

1304

00:48:56,230 --> 00:48:54,319

it's okay we can't really control them

1305

00:48:57,829 --> 00:48:56,240

we can't take them out of the sky we

1306

00:48:59,510 --> 00:48:57,839

can't shoot at them

1307

00:49:02,069 --> 00:48:59,520

we really can't stop them from doing

1308

00:49:05,430 --> 00:49:02,079

whatever they want to do but don't worry

1309

00:49:06,549 --> 00:49:05,440

because other than those guys we got it

1310

00:49:08,950 --> 00:49:06,559

so

1311

00:49:11,109 --> 00:49:08,960

that way nobody's smiling right now but

1312

00:49:13,510 --> 00:49:11,119

that was meant to be comedic in nature

1313

00:49:15,510 --> 00:49:13,520

um so basically that was basically their

1314

00:49:17,670 --> 00:49:15,520

reason is to be able to say to the

1315

00:49:19,829 --> 00:49:17,680

president say to the country we have

1316

00:49:22,069 --> 00:49:19,839

controlled the skies you're not seeing

1317

00:49:24,150 --> 00:49:22,079

what you think you're seeing we've got

1318

00:49:26,150 --> 00:49:24,160

all of this

1319

00:49:29,109 --> 00:49:26,160

and nobody can penetrate our air

1320

00:49:30,950 --> 00:49:29,119

defenses and our air power and so that's

1321

00:49:32,549 --> 00:49:30,960

why that they i don't agree that they

1322

00:49:35,430 --> 00:49:32,559

did it i don't think they should have

1323

00:49:37,589 --> 00:49:35,440

done it i'm upset that they did it but

1324

00:49:40,069 --> 00:49:37,599

that was the decision that was made so

1325

00:49:41,270 --> 00:49:40,079

we can disagree but we can also say i

1326

00:49:43,750 --> 00:49:41,280

and we're talking about being in the

1327

00:49:46,150 --> 00:49:43,760

gray i understand why even though i

1328

00:49:48,470 --> 00:49:46,160

disagree with it

1329

00:49:50,470 --> 00:49:48,480

and and and that's what's so awful lucy

1330

00:49:52,470 --> 00:49:50,480

is for them to be able to say

1331

00:49:53,990 --> 00:49:52,480

we really don't have control the skies

1332

00:49:55,109 --> 00:49:54,000

because these things can pretty much do

1333

00:49:56,950 --> 00:49:55,119

whatever they want there's nothing we

1334

00:50:00,069 --> 00:49:56,960

can do about it

1335

00:50:01,589 --> 00:50:00,079

yeah so that's that's that question

1336

00:50:03,109 --> 00:50:01,599

nathan you want to go on to see green

1337

00:50:05,270 --> 00:50:03,119

street

1338

00:50:06,870 --> 00:50:05,280

so let's we need to reset up some of

1339

00:50:09,190 --> 00:50:06,880

that yeah i know

1340

00:50:11,190 --> 00:50:09,200

i know i i know it's not it's not

1341

00:50:13,910 --> 00:50:11,200

comfortable to talk about i'm you know

1342

00:50:15,510 --> 00:50:13,920

everybody knows my background but that's

1343

00:50:17,910 --> 00:50:15,520

that's the reason why they did it even

1344

00:50:21,030 --> 00:50:17,920

if i disagree but more importantly i

1345

00:50:22,549 --> 00:50:21,040

spoke this week um about i'm sorry

1346

00:50:23,829 --> 00:50:22,559

nathan did you want to jump in about

1347

00:50:24,790 --> 00:50:23,839

that before i would go to stephen a

1348

00:50:27,109 --> 00:50:24,800

little brief thing that i'll say i've

1349

00:50:29,430 --> 00:50:27,119

simply to you about that

1350

00:50:31,430 --> 00:50:29,440

take and that is uh you know i've got

1351

00:50:33,430 --> 00:50:31,440

two two kids and you know they're as

1352

00:50:34,870 --> 00:50:33,440

they're growing up i you know my wife

1353

00:50:37,829 --> 00:50:34,880

and i make decisions on how to parent

1354

00:50:40,150 --> 00:50:37,839

them based on how we who they are and

1355

00:50:42,470 --> 00:50:40,160

where they are in their development and

1356

00:50:44,870 --> 00:50:42,480

what we you know feel like we need to do

1357

00:50:46,710 --> 00:50:44,880

for their development right and

1358

00:50:48,069 --> 00:50:46,720

it's only going to be in hindsight you

1359

00:50:49,190 --> 00:50:48,079

know when they're grown up and they're

1360

00:50:50,630 --> 00:50:49,200

you know they're at the therapist's

1361

00:50:51,910 --> 00:50:50,640

office for one issue or another that we

1362

00:50:53,990 --> 00:50:51,920

go you know what maybe we messed up on

1363

00:50:56,069 --> 00:50:54,000

that one thing there they made the wrong

1364

00:50:57,990 --> 00:50:56,079

call on that on that thing that we

1365

00:51:00,390 --> 00:50:58,000

decided to do with them and i have a

1366

00:51:02,150 --> 00:51:00,400

feeling that something similar uh has

1367

00:51:04,630 --> 00:51:02,160

occurred here with this topic and you've

1368

00:51:06,549 --> 00:51:04,640

got a government estate that is you know

1369

00:51:08,470 --> 00:51:06,559

in the moment had to make a decision on

1370

00:51:11,750 --> 00:51:08,480

something that they were probably pretty

1371

00:51:13,349 --> 00:51:11,760

ill-equipped to to to do uh and then you

1372

00:51:16,630 --> 00:51:13,359

know kind of balancing the fate of their

1373

00:51:18,549 --> 00:51:16,640

citizenry against this this subject that

1374

00:51:21,829 --> 00:51:18,559

you know they had no experience with

1375

00:51:23,589 --> 00:51:21,839

before uh and so they made a call and

1376

00:51:25,910 --> 00:51:23,599

you know maybe it was the wrong call and

1377

00:51:27,670 --> 00:51:25,920

i think only time will really tell at

1378

00:51:29,750 --> 00:51:27,680

the end of the day do we want the truth

1379

00:51:33,030 --> 00:51:29,760

absolutely should we get the truth yes

1380

00:51:34,950 --> 00:51:33,040

uh but uh you know i think i'd like to i

1381

00:51:37,030 --> 00:51:34,960

like to think that people are you know

1382

00:51:38,390 --> 00:51:37,040

try to do the right thing i i tend not

1383

00:51:40,069 --> 00:51:38,400

to look at the

1384

00:51:41,990 --> 00:51:40,079

at the government as some sort of big

1385

00:51:43,510 --> 00:51:42,000

bad you know that i that everything that

1386

00:51:44,790 --> 00:51:43,520

they do has some sort of nefarious

1387

00:51:46,790 --> 00:51:44,800

purpose because the government is full

1388

00:51:48,549 --> 00:51:46,800

of people it's what people like dj full

1389

00:51:51,030 --> 00:51:48,559

of people like you know your your

1390

00:51:52,549 --> 00:51:51,040

neighbor you know you know these people

1391

00:51:54,549 --> 00:51:52,559

you know and maybe collectively they

1392

00:51:55,750 --> 00:51:54,559

make bad decisions but i'd like to think

1393

00:51:57,829 --> 00:51:55,760

you know most of the time they make

1394

00:51:59,190 --> 00:51:57,839

pretty good decisions and uh you know

1395

00:52:01,750 --> 00:51:59,200

it's only in hindsight that we can

1396

00:52:04,150 --> 00:52:01,760

really we just easily can judge you know

1397

00:52:05,750 --> 00:52:04,160

whatever somebody decided to do and and

1398

00:52:07,109 --> 00:52:05,760

it feels good in the moment but you know

1399

00:52:08,710 --> 00:52:07,119

we weren't there we weren't there when

1400

00:52:10,870 --> 00:52:08,720

they had to make that call

1401

00:52:12,150 --> 00:52:10,880

i also would like to add and if chris

1402

00:52:14,230 --> 00:52:12,160

wants to weigh in and this will get here

1403

00:52:16,150 --> 00:52:14,240

i would also like to add if you look at

1404

00:52:18,950 --> 00:52:16,160

like for example like in the climate

1405

00:52:21,589 --> 00:52:18,960

accords you know we have 150 countries

1406

00:52:23,510 --> 00:52:21,599

that are that are agreeing on uh

1407

00:52:25,750 --> 00:52:23,520

the paris climate agreement so on and so

1408

00:52:27,030 --> 00:52:25,760

forth but there's none of these

1409

00:52:29,589 --> 00:52:27,040

countries that are coming out and

1410

00:52:31,750 --> 00:52:29,599

talking about ufos and what they've seen

1411

00:52:33,750 --> 00:52:31,760

and giving full and open reporting i

1412

00:52:35,910 --> 00:52:33,760

mean we could talk about the uk we could

1413

00:52:38,390 --> 00:52:35,920

talk about australia we could talk about

1414

00:52:40,150 --> 00:52:38,400

zimbabwe we could talk about portugal we

1415

00:52:42,309 --> 00:52:40,160

could talk about spain we could talk

1416

00:52:44,950 --> 00:52:42,319

about russia we could talk about any

1417

00:52:47,030 --> 00:52:44,960

country that you want and nobody's come

1418

00:52:50,150 --> 00:52:47,040

nobody's rushing out to explain to

1419

00:52:53,589 --> 00:52:50,160

people uh what they've discovered uh as

1420

00:52:56,069 --> 00:52:53,599

as as a government so it's not i hate to

1421

00:52:57,829 --> 00:52:56,079

say it the brazilians uh you know

1422

00:52:59,910 --> 00:52:57,839

similar thing it's not only our

1423

00:53:01,670 --> 00:52:59,920

government it's all the governments it's

1424

00:53:03,990 --> 00:53:01,680

just that you know we're the ones that

1425

00:53:06,309 --> 00:53:04,000

have had the most uh i guess the most

1426

00:53:08,630 --> 00:53:06,319

famous or most reportable topics but

1427

00:53:11,030 --> 00:53:08,640

nathan that was extremely well said

1428

00:53:13,510 --> 00:53:11,040

akashi chris

1429

00:53:17,589 --> 00:53:15,670

nobody wants to be first nobody wants to

1430

00:53:19,750 --> 00:53:17,599

own this problem from a disclosure

1431

00:53:21,349 --> 00:53:19,760

perspective they're and they're looking

1432

00:53:23,109 --> 00:53:21,359

for leadership and you know they're

1433

00:53:25,270 --> 00:53:23,119

still i mean we are still in united

1434

00:53:27,349 --> 00:53:25,280

states they're looking for us to set you

1435

00:53:29,109 --> 00:53:27,359

know they're waiting for us to do

1436

00:53:30,150 --> 00:53:29,119

something so they can figure out what to

1437

00:53:32,870 --> 00:53:30,160

do

1438

00:53:35,270 --> 00:53:32,880

and so i think i think once the united

1439

00:53:36,470 --> 00:53:35,280

states actually makes that you know once

1440

00:53:38,549 --> 00:53:36,480

hopefully

1441

00:53:40,230 --> 00:53:38,559

this office you know actually the bill

1442

00:53:42,390 --> 00:53:40,240

passes where the amendment passes and

1443

00:53:44,549 --> 00:53:42,400

everything gets processed but you know

1444

00:53:46,630 --> 00:53:44,559

maybe this will be the beginning of that

1445

00:53:48,870 --> 00:53:46,640

but i mean it is happening everywhere

1446

00:53:50,390 --> 00:53:48,880

and it's funny because culturally a lot

1447

00:53:52,870 --> 00:53:50,400

of the other countries are a lot more

1448

00:53:54,870 --> 00:53:52,880

open to talk about it you know like

1449

00:53:57,589 --> 00:53:54,880

locally the people that live there are

1450

00:54:00,150 --> 00:53:57,599

very open to talk about these things yet

1451

00:54:03,589 --> 00:54:00,160

their government is waiting for hours

1452

00:54:06,069 --> 00:54:03,599

who has like major stigma on the subject

1453

00:54:08,230 --> 00:54:06,079

to take action so i you know that's part

1454

00:54:10,710 --> 00:54:08,240

is kind of interesting but you know

1455

00:54:13,589 --> 00:54:10,720

who wants to own this problem and and i

1456

00:54:15,270 --> 00:54:13,599

do want to circle back i'm not

1457

00:54:16,790 --> 00:54:15,280

going to die very there's something you

1458

00:54:19,589 --> 00:54:16,800

said earlier we were talking about what

1459

00:54:21,829 --> 00:54:19,599

happens to this community you know after

1460

00:54:23,829 --> 00:54:21,839

after disclosure or whatever well you

1461

00:54:25,750 --> 00:54:23,839

know whose

1462

00:54:28,230 --> 00:54:25,760

jobs will evolve

1463

00:54:30,069 --> 00:54:28,240

i in in our i mean think about where we

1464

00:54:32,790 --> 00:54:30,079

are now from where we were when you

1465

00:54:34,950 --> 00:54:32,800

forgot or when you guys first started

1466

00:54:37,589 --> 00:54:34,960

and how far down the rabbit hole you've

1467

00:54:40,789 --> 00:54:37,599

gone and you know how your visions have

1468

00:54:42,390 --> 00:54:40,799

evolved well you know so will ours and

1469

00:54:43,750 --> 00:54:42,400

we'll be ahead of the game but there's

1470

00:54:46,230 --> 00:54:43,760

going to be a lot of other people that

1471

00:54:48,309 --> 00:54:46,240

won't and even if it becomes mainstream

1472

00:54:49,910 --> 00:54:48,319

they're going to need some help so i

1473

00:54:50,950 --> 00:54:49,920

would think that that's where we can

1474

00:54:53,109 --> 00:54:50,960

support

1475

00:54:55,190 --> 00:54:53,119

you know we can use this to community

1476
00:54:57,109 --> 00:54:55,200
and not let it just disband just because

1477
00:54:58,549 --> 00:54:57,119
we you know we got the answers no that's

1478
00:54:59,510 --> 00:54:58,559
not the end that's the beginning of the

1479
00:55:01,829 --> 00:54:59,520
journey

1480
00:55:01,839 --> 00:55:07,190
this gets seriously next question

1481
00:55:11,030 --> 00:55:09,270
you know could you offer go back i think

1482
00:55:12,230 --> 00:55:11,040
it's a way to circle back because i

1483
00:55:15,030 --> 00:55:12,240
think it's something that's really

1484
00:55:16,950 --> 00:55:15,040
important and it just gets overlooked

1485
00:55:18,950 --> 00:55:16,960
yeah chris every question is just going

1486
00:55:21,589 --> 00:55:18,960
to open another question because there's

1487
00:55:23,750 --> 00:55:21,599
so much we don't know there i and i i'm

1488
00:55:25,910 --> 00:55:23,760

i would guarantee if lou is sitting here

1489

00:55:27,910 --> 00:55:25,920

right now and he's the public person at

1490

00:55:30,230 --> 00:55:27,920

least the public person who knows the

1491

00:55:33,349 --> 00:55:30,240

most he would say there's still so much

1492

00:55:36,870 --> 00:55:33,359

i don't know yeah i mean rick dodie said

1493

00:55:37,910 --> 00:55:36,880

he was scared i mean i mean so

1494

00:55:38,789 --> 00:55:37,920

i mean

1495

00:55:41,270 --> 00:55:38,799

yeah

1496

00:55:43,270 --> 00:55:41,280

he said i'm scared and that dude he said

1497

00:55:45,750 --> 00:55:43,280

he's still scary

1498

00:55:47,910 --> 00:55:45,760

okay he said i'm i saw things that

1499

00:55:50,870 --> 00:55:47,920

scared me and he said what i don't scare

1500

00:55:52,630 --> 00:55:50,880

easily right that's right i believe him

1501

00:55:54,309 --> 00:55:52,640

okay all right i'm sorry i have a

1502

00:55:56,069 --> 00:55:54,319

question from grant

1503

00:55:57,430 --> 00:55:56,079

okay please grant

1504

00:55:59,829 --> 00:55:57,440

you

1505

00:56:02,789 --> 00:55:59,839

so am i gonna read this for reals is

1506

00:56:05,190 --> 00:56:02,799

this are you tricking me here grant okay

1507

00:56:07,430 --> 00:56:05,200

so he goes here's a question for dj in a

1508

00:56:09,510 --> 00:56:07,440

post-9 11 world what are the rules of

1509

00:56:12,870 --> 00:56:09,520

engagement for air force and navy pilots

1510

00:56:14,630 --> 00:56:12,880

and encountering uaps

1511

00:56:19,030 --> 00:56:14,640

um so

1512

00:56:23,030 --> 00:56:19,040

this is uh this is a great question um

1513

00:56:26,870 --> 00:56:23,040

i can uh i'm gonna try to answer this uh

1514

00:56:31,589 --> 00:56:28,230

okay

1515

00:56:33,190 --> 00:56:31,599

what the what the guidance is that uh

1516

00:56:35,750 --> 00:56:33,200

that i'm aware of

1517

00:56:38,390 --> 00:56:35,760

is to use all

1518

00:56:40,870 --> 00:56:38,400

platforms of intelligence gathering

1519

00:56:43,030 --> 00:56:40,880

methodology so that could be

1520

00:56:45,190 --> 00:56:43,040

um if you're measuring uh

1521

00:56:48,789 --> 00:56:45,200

electromagnetic

1522

00:56:49,990 --> 00:56:48,799

signals so you know some forms of sigint

1523

00:56:52,390 --> 00:56:50,000

if you will

1524

00:56:53,589 --> 00:56:52,400

um optically using every sensor

1525

00:56:56,950 --> 00:56:53,599

available

1526

00:56:59,430 --> 00:56:56,960

um seeing what what radar signature uh

1527

00:57:03,270 --> 00:56:59,440

that that that they're getting

1528

00:57:05,750 --> 00:57:03,280

and as well as uh viz obs obviously and

1529

00:57:07,589 --> 00:57:05,760

then also your in your your ir our

1530

00:57:11,430 --> 00:57:07,599

spectrum whether that be with night

1531

00:57:14,870 --> 00:57:11,440

vision and to record because a lot of uh

1532

00:57:16,549 --> 00:57:14,880

in in the older days uh we didn't record

1533

00:57:19,670 --> 00:57:16,559

uh everything of course you know that

1534

00:57:22,390 --> 00:57:19,680

they did on the back in 2004 but i mean

1535

00:57:24,710 --> 00:57:22,400

we've had night vision devices much

1536

00:57:27,030 --> 00:57:24,720

longer than that i mean i flew with uh

1537

00:57:28,069 --> 00:57:27,040

an aircraft that had a sensor ball on it

1538

00:57:31,750 --> 00:57:28,079

from

1539

00:57:33,910 --> 00:57:31,760

uh day one of uh my afsoc career and

1540

00:57:35,670 --> 00:57:33,920

let's say july of o2

1541

00:57:38,309 --> 00:57:35,680

and we weren't recording we didn't have

1542

00:57:39,910 --> 00:57:38,319

a way to record that stuff well now uh

1543

00:57:42,069 --> 00:57:39,920

everything you know you can pop those

1544

00:57:43,349 --> 00:57:42,079

hard drives out and just replay the

1545

00:57:46,309 --> 00:57:43,359

entire mission

1546

00:57:47,670 --> 00:57:46,319

so so yes i would say grant that right

1547

00:57:49,109 --> 00:57:47,680

now um

1548

00:57:53,670 --> 00:57:49,119

it's collect

1549

00:57:56,309 --> 00:57:53,680

and analyze is what what i'm hearing

1550

00:57:59,270 --> 00:57:56,319

yeah great question

1551
00:58:02,069 --> 00:57:59,280
collect collect collect

1552
00:58:03,670 --> 00:58:02,079
by any means necessary for those of you

1553
00:58:06,230 --> 00:58:03,680
from the 60s

1554
00:58:08,630 --> 00:58:06,240
and in the uh civil rights movement yeah

1555
00:58:10,630 --> 00:58:08,640
you know we're dealing with right no so

1556
00:58:13,190 --> 00:58:10,640
i want to go to something really

1557
00:58:15,430 --> 00:58:13,200
interesting chris um

1558
00:58:17,030 --> 00:58:15,440
that um

1559
00:58:19,750 --> 00:58:17,040
you know you you you look for these

1560
00:58:21,430 --> 00:58:19,760
moments when you're with your co-host

1561
00:58:24,309 --> 00:58:21,440
and you're having discussions that you

1562
00:58:26,470 --> 00:58:24,319
wish were recorded and some of those uh

1563
00:58:29,030 --> 00:58:26,480

discussions take place uh on the

1564

00:58:32,630 --> 00:58:29,040

telephone and some of those take place

1565

00:58:34,309 --> 00:58:32,640

after we shut the uh the recording down

1566

00:58:36,390 --> 00:58:34,319

and nathan and i sit and talk for a

1567

00:58:39,109 --> 00:58:36,400

while and one of them i asked him about

1568

00:58:41,990 --> 00:58:39,119

the drama that was going on with stephen

1569

00:58:44,390 --> 00:58:42,000

green street and i've had some some

1570

00:58:45,910 --> 00:58:44,400

pretty healthy and lively debates with

1571

00:58:49,030 --> 00:58:45,920

him online

1572

00:58:51,829 --> 00:58:49,040

not in any way do i mean to

1573

00:58:54,470 --> 00:58:51,839

demean him in any way or be derogatory

1574

00:58:56,069 --> 00:58:54,480

towards him um i respect the guy he's an

1575

00:58:57,829 --> 00:58:56,079

accomplished person

1576

00:59:00,309 --> 00:58:57,839

but when you

1577

00:59:01,990 --> 00:59:00,319

don't quite understand why somebody is

1578

00:59:04,549 --> 00:59:02,000

acting the way they're acting then

1579

00:59:06,390 --> 00:59:04,559

you'll look to somebody that might maybe

1580

00:59:08,549 --> 00:59:06,400

have a window into that

1581

00:59:10,789 --> 00:59:08,559

and what was interesting is that nathan

1582

00:59:13,349 --> 00:59:10,799

opened a window into him that i didn't

1583

00:59:16,710 --> 00:59:13,359

know existed

1584

00:59:18,950 --> 00:59:16,720

and had some interesting analysis

1585

00:59:21,990 --> 00:59:18,960

and not that he's trying to

1586

00:59:23,430 --> 00:59:22,000

and say this is it but he's gonna he's

1587

00:59:25,750 --> 00:59:23,440

gonna provoke some thought in all of us

1588

00:59:28,950 --> 00:59:25,760

so nathan if you would what do you think

1589

00:59:32,230 --> 00:59:28,960

is the genesis of sort of uh

1590

00:59:36,309 --> 00:59:32,240

the unseen way i guess that stephen

1591

00:59:37,589 --> 00:59:36,319

was acting uh on ufo twitter with

1592

00:59:39,510 --> 00:59:37,599

several of us it was a little bit

1593

00:59:41,589 --> 00:59:39,520

perplexing and by the way we hope you

1594

00:59:43,589 --> 00:59:41,599

return stephen because we'd love to

1595

00:59:44,870 --> 00:59:43,599

engage with you either just there or

1596

00:59:47,430 --> 00:59:44,880

wherever

1597

00:59:49,829 --> 00:59:47,440

yeah for sure yeah i mean here's a guy

1598

00:59:52,710 --> 00:59:49,839

who's done a lot of great work for this

1599

00:59:54,470 --> 00:59:52,720

topic and i want to kind of shout out

1600

00:59:56,069 --> 00:59:54,480

that first and then you know what he's

1601
00:59:58,230 --> 00:59:56,079
done with the basement office what he's

1602
01:00:00,150 --> 00:59:58,240
done in his writing for the post and you

1603
01:00:02,069 --> 01:00:00,160
know helping to shine a spotlight on

1604
01:00:03,190 --> 01:00:02,079
this topic has been great and i think

1605
01:00:05,349 --> 01:00:03,200
that's um

1606
01:00:08,230 --> 01:00:05,359
was really welcomed by the community and

1607
01:00:09,910 --> 01:00:08,240
and his i personally really appreciated

1608
01:00:11,030 --> 01:00:09,920
everything that he did uh for the

1609
01:00:11,829 --> 01:00:11,040
community

1610
01:00:15,190 --> 01:00:11,839
um

1611
01:00:17,349 --> 01:00:15,200
but you know similarly like

1612
01:00:20,309 --> 01:00:17,359
the way that he went about sort of kind

1613
01:00:22,230 --> 01:00:20,319

of wanting information or um you know

1614

01:00:23,510 --> 01:00:22,240

prodding people for facts that weren't

1615

01:00:25,510 --> 01:00:23,520

weren't there

1616

01:00:27,829 --> 01:00:25,520

um to me just sort of felt like you know

1617

01:00:29,829 --> 01:00:27,839

kind of full-on uh like he was kind of

1618

01:00:31,270 --> 01:00:29,839

just frustrated you know and i was

1619

01:00:34,710 --> 01:00:31,280

trying to ask myself you know where is

1620

01:00:36,549 --> 01:00:34,720

this sort of frustration coming from

1621

01:00:37,910 --> 01:00:36,559

uh you know because we all we we kind of

1622

01:00:39,750 --> 01:00:37,920

share that frustration i mean i think a

1623

01:00:41,829 --> 01:00:39,760

lot of us do you know we want the truth

1624

01:00:43,670 --> 01:00:41,839

what are the facts you know let's stop

1625

01:00:45,510 --> 01:00:43,680

speculating show me some hard evidence

1626
01:00:47,270 --> 01:00:45,520
like we all want that moment where we

1627
01:00:49,510 --> 01:00:47,280
can be like look you know we can put it

1628
01:00:50,630 --> 01:00:49,520
up on the front page and and and nobody

1629
01:00:51,829 --> 01:00:50,640
can look at that and be like yeah i

1630
01:00:53,349 --> 01:00:51,839
guess there's nothing there anymore you

1631
01:00:54,789 --> 01:00:53,359
know like like there is something you

1632
01:00:56,390 --> 01:00:54,799
cannot avert your eyes from we're

1633
01:00:58,630 --> 01:00:56,400
looking for that moment

1634
01:01:00,470 --> 01:00:58,640
um but what i thought about it he

1635
01:01:01,990 --> 01:01:00,480
mentioned something um

1636
01:01:05,270 --> 01:01:02,000
and i don't remember what interview that

1637
01:01:08,069 --> 01:01:05,280
it was but you know he talked about his

1638
01:01:10,710 --> 01:01:08,079

his younger years and uh being a part of

1639

01:01:12,150 --> 01:01:10,720

uh the the mormon faith and you know

1640

01:01:14,150 --> 01:01:12,160

being very involved with that and

1641

01:01:17,270 --> 01:01:14,160

identify with that because i grew up in

1642

01:01:19,910 --> 01:01:17,280

a very you know uh spiritual home

1643

01:01:21,589 --> 01:01:19,920

uh and and very much was a you know a

1644

01:01:22,870 --> 01:01:21,599

strong christian believer you know in my

1645

01:01:24,549 --> 01:01:22,880

younger years

1646

01:01:26,230 --> 01:01:24,559

uh but i got the sense from that

1647

01:01:27,750 --> 01:01:26,240

interview from him that he

1648

01:01:29,190 --> 01:01:27,760

you know he gave he got to this point in

1649

01:01:31,430 --> 01:01:29,200

his life where he became very

1650

01:01:33,990 --> 01:01:31,440

disillusioned with with the church that

1651
01:01:37,030 --> 01:01:34,000
he the beliefs that he was given uh that

1652
01:01:39,270 --> 01:01:37,040
he walked away from those beliefs and

1653
01:01:40,950 --> 01:01:39,280
uh that he felt in a way

1654
01:01:42,710 --> 01:01:40,960
and i can relate to this too kind of a

1655
01:01:44,309 --> 01:01:42,720
sense of betrayal you know a sense of

1656
01:01:47,750 --> 01:01:44,319
betrayed by

1657
01:01:49,589 --> 01:01:47,760
uh that uh that that family of believers

1658
01:01:51,109 --> 01:01:49,599
that you know raised him to think about

1659
01:01:52,630 --> 01:01:51,119
the world in a certain way and when he

1660
01:01:54,230 --> 01:01:52,640
when he came to this place in his own

1661
01:01:56,630 --> 01:01:54,240
journey that said you know there's

1662
01:01:58,309 --> 01:01:56,640
nothing to this this is a bunch of

1663
01:01:59,910 --> 01:01:58,319

lies you can't really point me in a

1664

01:02:02,309 --> 01:01:59,920

direction where i can see some facts

1665

01:02:04,470 --> 01:02:02,319

about this about these stories

1666

01:02:06,470 --> 01:02:04,480

you know the disillusionment and the

1667

01:02:07,990 --> 01:02:06,480

frustration that accompanied that kind

1668

01:02:09,829 --> 01:02:08,000

of fall

1669

01:02:11,190 --> 01:02:09,839

is something that stays with you forever

1670

01:02:12,789 --> 01:02:11,200

you know like it's not something you can

1671

01:02:14,549 --> 01:02:12,799

just kind of write off

1672

01:02:17,270 --> 01:02:14,559

and so you know i i tend to think that

1673

01:02:19,670 --> 01:02:17,280

he he's bringing that similar

1674

01:02:22,309 --> 01:02:19,680

perspective to this topic that he wants

1675

01:02:25,029 --> 01:02:22,319

to be he doesn't want to be let down he

1676

01:02:26,710 --> 01:02:25,039

doesn't want to be uh duped you know he

1677

01:02:27,589 --> 01:02:26,720

wants he doesn't want none of us want to

1678

01:02:28,470 --> 01:02:27,599

be

1679

01:02:30,230 --> 01:02:28,480

you know

1680

01:02:31,990 --> 01:02:30,240

not able to to sit down when the music

1681

01:02:34,150 --> 01:02:32,000

stops you know we want to be able to

1682

01:02:36,230 --> 01:02:34,160

find that seat and feel a part of the

1683

01:02:37,910 --> 01:02:36,240

group and i think that that's exactly

1684

01:02:40,789 --> 01:02:37,920

you know where he's coming from he he

1685

01:02:43,190 --> 01:02:40,799

wants to be confident that his time and

1686

01:02:45,430 --> 01:02:43,200

energy spent on this topic is time well

1687

01:02:46,710 --> 01:02:45,440

spent that it's not going to be he won't

1688

01:02:48,789 --> 01:02:46,720

be let down

1689

01:02:50,710 --> 01:02:48,799

and you spoke of rejection if i remember

1690

01:02:54,069 --> 01:02:50,720

correctly was that part of it or did i

1691

01:02:56,069 --> 01:02:54,079

imagine that a rejection of

1692

01:02:57,829 --> 01:02:56,079

an authority or

1693

01:03:00,150 --> 01:02:57,839

well yeah i mean that's it definitely is

1694

01:03:01,670 --> 01:03:00,160

a part of that i mean it's uh you know

1695

01:03:05,349 --> 01:03:01,680

if

1696

01:03:06,789 --> 01:03:05,359

rejecting belief you know you're you're

1697

01:03:08,230 --> 01:03:06,799

pushing back against everything that

1698

01:03:10,069 --> 01:03:08,240

you've been taught

1699

01:03:11,750 --> 01:03:10,079

uh you know

1700

01:03:13,910 --> 01:03:11,760

it takes a strong person to do that

1701

01:03:16,309 --> 01:03:13,920

first of all you know let's learn not

1702

01:03:17,670 --> 01:03:16,319

you know discount how much hard work it

1703

01:03:20,630 --> 01:03:17,680

is to do that

1704

01:03:21,589 --> 01:03:20,640

uh to kind of break with the the molding

1705

01:03:22,789 --> 01:03:21,599

that you've

1706

01:03:24,870 --> 01:03:22,799

been given

1707

01:03:27,109 --> 01:03:24,880

um and so you know i think stephen's a

1708

01:03:29,349 --> 01:03:27,119

very strong person i think that he's uh

1709

01:03:31,910 --> 01:03:29,359

he's really created his own he's he's

1710

01:03:34,230 --> 01:03:31,920

gone down his own path and a different

1711

01:03:35,990 --> 01:03:34,240

path from those that that maybe are

1712

01:03:37,589 --> 01:03:36,000

those in his family or where he grew up

1713

01:03:39,670 --> 01:03:37,599

he's he's gone down a very different

1714

01:03:41,910 --> 01:03:39,680

path from those folks and that takes a

1715

01:03:43,829 --> 01:03:41,920

lot of work and um i applaud him for

1716

01:03:45,750 --> 01:03:43,839

that and and every day it's work you

1717

01:03:47,430 --> 01:03:45,760

know because emotional investment

1718

01:03:49,510 --> 01:03:47,440

absolutely you know be a lot easier just

1719

01:03:51,910 --> 01:03:49,520

to kind of lapse back into that to those

1720

01:03:53,910 --> 01:03:51,920

beliefs uh that that structure is still

1721

01:03:55,670 --> 01:03:53,920

there the family's still there

1722

01:03:57,270 --> 01:03:55,680

all those things that he held dear are

1723

01:03:58,309 --> 01:03:57,280

still there he could just you know say

1724

01:04:00,150 --> 01:03:58,319

you know what actually believe that

1725

01:04:03,029 --> 01:04:00,160

stuff again the conformity of of

1726

01:04:04,710 --> 01:04:03,039

returning to lds and yeah

1727

01:04:07,829 --> 01:04:04,720

so you know but not doing that and every

1728

01:04:10,150 --> 01:04:07,839

day taking a stand you know against that

1729

01:04:12,470 --> 01:04:10,160

is very difficult i don't think many

1730

01:04:14,309 --> 01:04:12,480

people necessarily realize how hard that

1731

01:04:16,549 --> 01:04:14,319

that is and again i'm you know i'm

1732

01:04:19,430 --> 01:04:16,559

armchair psychoanalyzing him so i could

1733

01:04:21,910 --> 01:04:19,440

be completely wrong um but that's kind

1734

01:04:23,510 --> 01:04:21,920

of how i looked at his approach to this

1735

01:04:25,510 --> 01:04:23,520

topic that he just doesn't want to be

1736

01:04:27,349 --> 01:04:25,520

let down you know that and and i

1737

01:04:28,710 --> 01:04:27,359

appreciate that i mean none of us do

1738

01:04:31,670 --> 01:04:28,720

right we don't want to be let down by

1739

01:04:32,710 --> 01:04:31,680

this and and and to date we are missing

1740

01:04:35,990 --> 01:04:32,720

some

1741

01:04:37,349 --> 01:04:36,000

really you know hang our hat on and

1742

01:04:40,150 --> 01:04:37,359

we're just waiting for that moment you

1743

01:04:41,670 --> 01:04:40,160

know where's when is that gonna happen

1744

01:04:43,270 --> 01:04:41,680

a lot of us are tired of waiting for

1745

01:04:45,270 --> 01:04:43,280

that

1746

01:04:47,510 --> 01:04:45,280

i got the heart bubble emojis over my

1747

01:04:50,789 --> 01:04:47,520

head now after he's talking chris i got

1748

01:04:51,670 --> 01:04:50,799

the little heart bubble emojis yes

1749

01:04:55,029 --> 01:04:51,680

all right

1750

01:04:57,109 --> 01:04:55,039

so um i had another question here uh

1751

01:04:58,789 --> 01:04:57,119

that i'd like to first i'd like to get

1752

01:05:01,510 --> 01:04:58,799

chris's take on this

1753

01:05:04,549 --> 01:05:01,520

and then nft nathan who we're waiting

1754

01:05:06,069 --> 01:05:04,559

for chris to create nathan's nft but

1755

01:05:07,990 --> 01:05:06,079

it's gonna have to oh

1756

01:05:09,589 --> 01:05:08,000

can you pick up the pipe please nathan

1757

01:05:10,870 --> 01:05:09,599

can you yeah

1758

01:05:13,510 --> 01:05:10,880

can you please

1759

01:05:17,510 --> 01:05:15,670

hold that that's it

1760

01:05:18,309 --> 01:05:17,520

oh gotcha

1761

01:05:25,190 --> 01:05:18,319

all right

1762

01:05:26,950 --> 01:05:25,200

right so uh dna uh akashi

1763

01:05:29,589 --> 01:05:26,960

there's been a lot of talk about it i

1764

01:05:31,270 --> 01:05:29,599

think lou alluded to it perhaps in i

1765

01:05:32,950 --> 01:05:31,280

don't know if it was the kurt jo mongol

1766

01:05:33,910 --> 01:05:32,960

interview so pardon me if someone else

1767

01:05:37,750 --> 01:05:33,920

has that

1768

01:05:40,950 --> 01:05:37,760

but how do are you a uh a theorist in

1769

01:05:43,910 --> 01:05:40,960

that maybe their dna has impacted our

1770

01:05:45,829 --> 01:05:43,920

dna and that we're carrying it so i'd

1771

01:05:46,789 --> 01:05:45,839

like to ask you and then go to nft

1772

01:05:48,950 --> 01:05:46,799

nathan

1773

01:05:50,069 --> 01:05:48,960

are you talking about the hybrid

1774

01:05:52,390 --> 01:05:50,079

uh

1775

01:05:54,390 --> 01:05:52,400

yeah i i think that's where that is i

1776

01:05:57,430 --> 01:05:54,400

mean i'm out of my depth here so i'm

1777

01:05:58,870 --> 01:05:57,440

hoping you guys can enlighten me yes

1778

01:06:00,390 --> 01:05:58,880

sure

1779

01:06:02,710 --> 01:06:00,400

well

1780

01:06:05,109 --> 01:06:02,720

i i'm very open to those ideas only

1781

01:06:07,029 --> 01:06:05,119

because it goes back to you know

1782

01:06:09,029 --> 01:06:07,039

you were talking about how i'm obsessed

1783

01:06:11,670 --> 01:06:09,039

with certain you know ancient structures

1784

01:06:16,630 --> 01:06:11,680

and angels like stations like for

1785

01:06:38,549 --> 01:06:26,230

i

1786

01:06:41,430 --> 01:06:38,559

we've seen a lot of structures that

1787

01:06:44,789 --> 01:06:41,440

don't make any sense a lot of you know

1788

01:06:46,710 --> 01:06:44,799

a lot of places that the structures

1789

01:06:49,270 --> 01:06:46,720

there's no tech that could have existed

1790

01:06:51,109 --> 01:06:49,280

at the time you know i i think you know

1791

01:06:53,349 --> 01:06:51,119

from an ancient civilization the reason

1792

01:06:55,430 --> 01:06:53,359

why this kind of comes into this

1793

01:06:57,510 --> 01:06:55,440

conversation is because we don't know

1794

01:07:00,470 --> 01:06:57,520

who was here before us

1795

01:07:01,510 --> 01:07:00,480

so we don't know what we

1796

01:07:02,390 --> 01:07:01,520

could have

1797

01:07:05,029 --> 01:07:02,400

been

1798

01:07:07,990 --> 01:07:05,039

mixed you know mixed with we don't know

1799

01:07:10,390 --> 01:07:08,000

you know we don't know if if

1800

01:07:13,109 --> 01:07:10,400

if really extraterrestrials or you know

1801

01:07:15,670 --> 01:07:13,119

grace are coming to you know to

1802

01:07:17,589 --> 01:07:15,680

try to get the what is it the grace or

1803

01:07:20,870 --> 01:07:17,599

pro the war

1804

01:07:23,910 --> 01:07:20,880

what was that that story of the grace

1805

01:07:26,069 --> 01:07:23,920

i'm trying to think of is it the grace

1806

01:07:28,069 --> 01:07:26,079

when they're there they want things to

1807

01:07:29,910 --> 01:07:28,079

happen because they wouldn't exist if

1808

01:07:31,109 --> 01:07:29,920

they don't happen but

1809

01:07:33,270 --> 01:07:31,119

you know

1810

01:07:35,349 --> 01:07:33,280

there's another

1811

01:07:37,750 --> 01:07:35,359

i'm all over the place on this because i

1812

01:07:40,549 --> 01:07:37,760

i'm not even sure i i'm totally caught

1813

01:07:43,349 --> 01:07:40,559

up into different versions of what you

1814

01:07:45,829 --> 01:07:43,359

know what could we be mixed with are we

1815

01:07:47,829 --> 01:07:45,839

part reptilian are we you know that the

1816

01:07:50,470 --> 01:07:47,839

whole people have it right right if you

1817

01:07:53,029 --> 01:07:50,480

go down you know on jolly round the hopi

1818

01:07:55,349 --> 01:07:53,039

indians had it right and the end people

1819

01:07:57,910 --> 01:07:55,359

you know are part of this so yeah that

1820

01:07:58,870 --> 01:07:57,920

the hopies believed in the whole ant

1821

01:08:02,710 --> 01:07:58,880

people

1822

01:08:05,750 --> 01:08:02,720

didn't know that i didn't know that no

1823

01:08:08,309 --> 01:08:05,760

check out the hopi indians that's uh

1824

01:08:10,549 --> 01:08:08,319

that was their thing wow i was a big fan

1825

01:08:12,470 --> 01:08:10,559

of adam ant uh

1826

01:08:13,910 --> 01:08:12,480

anyway so i can't i can't even answer

1827

01:08:16,550 --> 01:08:13,920

that question because there's so many

1828

01:08:18,870 --> 01:08:16,560

different ways of looking at you know at

1829

01:08:22,070 --> 01:08:18,880

this and and i'm sorry if i

1830

01:08:29,829 --> 01:08:22,080

botched it you know akash first time

1831

01:08:33,669 --> 01:08:32,229

december 3rd i believe december 3rd

1832

01:08:36,070 --> 01:08:33,679

friday

1833

01:08:38,550 --> 01:08:36,080

yoda so anyway sorry

1834

01:08:39,269 --> 01:08:38,560

nft nathan yeah um

1835

01:08:45,910 --> 01:08:39,279

i

1836

01:08:48,149 --> 01:08:45,920

uh

1837

01:08:50,470 --> 01:08:48,159

give me a little artistic license

1838

01:08:52,550 --> 01:08:50,480

nathan if i had to ask you if you had a

1839

01:08:56,309 --> 01:08:52,560

gut feeling about this

1840

01:08:59,110 --> 01:08:56,319

when you look at these gray creatures

1841

01:09:01,669 --> 01:08:59,120

is that us

1842

01:09:03,269 --> 01:09:01,679

yeah hey mama

1843

01:09:05,510 --> 01:09:03,279

are you going to come say hi to cox i

1844

01:09:07,669 --> 01:09:05,520

love the floating wine glass is awesome

1845

01:09:09,110 --> 01:09:07,679

i wish you yeah it's like

1846

01:09:10,630 --> 01:09:09,120

oh wow

1847

01:09:12,229 --> 01:09:10,640

horde wine glass

1848

01:09:13,749 --> 01:09:12,239

um she didn't feel she didn't want to

1849

01:09:15,590 --> 01:09:13,759

say hello she's

1850

01:09:18,630 --> 01:09:15,600

she'll get a shot yeah she's in her in

1851

01:09:22,630 --> 01:09:19,590

okay

1852

01:09:24,789 --> 01:09:22,640

this is to nathan and akashi chris

1853

01:09:27,669 --> 01:09:24,799

two of the uh people i love from ufo

1854

01:09:28,950 --> 01:09:27,679

twitter of a lot of y'all uh what's up

1855

01:09:30,470 --> 01:09:28,960

what's up man

1856

01:09:33,030 --> 01:09:30,480

well so to answer your question i think

1857

01:09:35,669 --> 01:09:33,040

uh you know humans for the longest time

1858

01:09:38,070 --> 01:09:35,679

we've had stories about this you know so

1859

01:09:39,110 --> 01:09:38,080

in i think most of our major mythologies

1860

01:09:41,110 --> 01:09:39,120

you know where

1861

01:09:42,789 --> 01:09:41,120

we come from

1862

01:09:44,070 --> 01:09:42,799

something that is non-human we are

1863

01:09:48,470 --> 01:09:44,080

created by

1864

01:09:50,229 --> 01:09:48,480

you know there's some there's some sort

1865

01:09:51,910 --> 01:09:50,239

of sense that this that you know we

1866

01:09:53,990 --> 01:09:51,920

didn't just

1867

01:09:56,149 --> 01:09:54,000

uh you know appear like the other

1868

01:09:57,990 --> 01:09:56,159

creatures on the planet did or in the

1869

01:10:00,870 --> 01:09:58,000

same manner you know so that this is

1870

01:10:02,630 --> 01:10:00,880

part of our kind of storytelling and you

1871

01:10:04,390 --> 01:10:02,640

know there's there's a lot of truth to

1872

01:10:06,950 --> 01:10:04,400

mythology you know i think mythology

1873

01:10:08,070 --> 01:10:06,960

helps us navigate the world and and make

1874

01:10:10,229 --> 01:10:08,080

sense of the world that we find

1875

01:10:11,910 --> 01:10:10,239

ourselves in so you know my gut feeling

1876

01:10:13,189 --> 01:10:11,920

is that you know there is more to the

1877

01:10:14,790 --> 01:10:13,199

story but

1878

01:10:17,430 --> 01:10:14,800

you know this is also a topic that i

1879

01:10:19,270 --> 01:10:17,440

think

1880

01:10:21,189 --> 01:10:19,280

you know it's it's so delicate right

1881

01:10:23,110 --> 01:10:21,199

this is such a delicate subject you know

1882

01:10:25,350 --> 01:10:23,120

we're talking about human beings and i

1883

01:10:27,830 --> 01:10:25,360

think our friend lampe you know put it

1884

01:10:29,700 --> 01:10:27,840

really well and helped help frame that

1885

01:10:31,430 --> 01:10:29,710

limpy

1886

01:10:33,910 --> 01:10:31,440

[Laughter]

1887

01:10:35,430 --> 01:10:33,920

but you know her point i think is a is a

1888

01:10:38,310 --> 01:10:35,440

really pertinent one that we really

1889

01:10:40,870 --> 01:10:38,320

cannot lose sight of

1890

01:10:42,950 --> 01:10:40,880

of human dignity you know so

1891

01:10:45,590 --> 01:10:42,960

uh in the in all of our talk about you

1892

01:10:47,350 --> 01:10:45,600

know genetic manipulation or you know

1893

01:10:49,750 --> 01:10:47,360

who may be hybrid or who may not be

1894

01:10:52,149 --> 01:10:49,760

hybrid or whatever is going on here you

1895

01:10:54,470 --> 01:10:52,159

know we can't lose sight of our common

1896

01:10:57,350 --> 01:10:54,480

dignity uh we can't get to a place where

1897

01:10:59,510 --> 01:10:57,360

we uh you know look at each other and

1898

01:11:01,110 --> 01:10:59,520

say well you're less of a human than i

1899

01:11:02,630 --> 01:11:01,120

am and therefore

1900

01:11:04,229 --> 01:11:02,640

whatever it is it's another way to

1901

01:11:06,709 --> 01:11:04,239

divide yeah i mean we've been down there

1902

01:11:08,310 --> 01:11:06,719

that's horse yeah you know we we've

1903

01:11:10,070 --> 01:11:08,320

tried that we've tried that throughout

1904

01:11:11,270 --> 01:11:10,080

history and it's and we still try it

1905

01:11:13,430 --> 01:11:11,280

today there are people who would like to

1906

01:11:15,430 --> 01:11:13,440

divide us that way and you know i'm not

1907

01:11:17,590 --> 01:11:15,440

i'm not for that at all i think uh

1908

01:11:19,750 --> 01:11:17,600

anytime we talk about this we have to be

1909

01:11:20,950 --> 01:11:19,760

very sensitive to that subject but i

1910

01:11:22,630 --> 01:11:20,960

think at the end of the day we want the

1911

01:11:24,550 --> 01:11:22,640

truth you know who are we really this is

1912

01:11:26,630 --> 01:11:24,560

these are the big questions who are we

1913

01:11:28,310 --> 01:11:26,640

how do we get here how do we you know

1914

01:11:29,990 --> 01:11:28,320

come to be who we are why are we so

1915

01:11:31,750 --> 01:11:30,000

different from everything else and and

1916

01:11:33,830 --> 01:11:31,760

so demonstrably different from

1917

01:11:35,510 --> 01:11:33,840

everything else that is on the earth you

1918

01:11:36,390 --> 01:11:35,520

know it's not like uh

1919

01:11:37,590 --> 01:11:36,400

um

1920

01:11:39,350 --> 01:11:37,600

you know there are a lot of other like

1921

01:11:41,350 --> 01:11:39,360

super sentient you know creatures that

1922

01:11:42,070 --> 01:11:41,360

that we share space with i mean we we

1923

01:11:43,990 --> 01:11:42,080

have

1924

01:11:46,709 --> 01:11:44,000

an agree of intelligence that seemingly

1925

01:11:48,950 --> 01:11:46,719

is you know orders of magnitude greater

1926

01:11:51,990 --> 01:11:48,960

than the next intelligent species that

1927

01:11:53,590 --> 01:11:52,000

shares the space with us um so i don't

1928

01:11:55,990 --> 01:11:53,600

know you know it's i hope we get an

1929

01:11:59,270 --> 01:11:56,000

answer to that um i hope that

1930

01:12:01,830 --> 01:11:59,280

you know it's not an answer that um

1931

01:12:04,310 --> 01:12:01,840

you know is too sort of destabilizing

1932

01:12:07,030 --> 01:12:04,320

existentially destabilizing i think we

1933

01:12:09,189 --> 01:12:07,040

need to we need to seriously begin uh

1934

01:12:11,590 --> 01:12:09,199

considering it though uh as a

1935

01:12:13,510 --> 01:12:11,600

possibility and we need to have a mature

1936

01:12:15,669 --> 01:12:13,520

conversation about that so if it is

1937

01:12:17,590 --> 01:12:15,679

something that becomes a reality

1938

01:12:19,750 --> 01:12:17,600

that it that that is how you know we

1939

01:12:21,430 --> 01:12:19,760

came to be who we are i think those of

1940

01:12:24,470 --> 01:12:21,440

us in the community need to be able to

1941

01:12:26,229 --> 01:12:24,480

be thinking about this in a mature way

1942

01:12:28,390 --> 01:12:26,239

in an ethical way so that when that

1943

01:12:29,350 --> 01:12:28,400

conversation happens we can you know

1944

01:12:32,229 --> 01:12:29,360

really

1945

01:12:34,470 --> 01:12:32,239

help people navigate you know through

1946

01:12:36,390 --> 01:12:34,480

that challenging time right i mean it

1947

01:12:38,790 --> 01:12:36,400

because it will be destabilizing i mean

1948

01:12:40,790 --> 01:12:38,800

believe me

1949

01:12:43,830 --> 01:12:40,800

nathan was able to skate around that

1950

01:12:45,669 --> 01:12:43,840

like peggy fleming at the 1980 olympics

1951

01:12:47,669 --> 01:12:45,679

it was a beautiful routine

1952

01:12:48,950 --> 01:12:47,679

it was it was a beautiful pirouette i

1953

01:12:51,010 --> 01:12:48,960

love it

1954

01:12:52,790 --> 01:12:51,020

so i don't know no i i i

1955

01:12:55,270 --> 01:12:52,800

[Laughter]

1956

01:12:57,510 --> 01:12:55,280

if if anybody doesn't like my humor

1957

01:12:58,630 --> 01:12:57,520

please say so in the chat

1958

01:13:01,110 --> 01:12:58,640

i'm probably still gonna do it but

1959

01:13:03,750 --> 01:13:01,120

anyway they're all good i know like luis

1960

01:13:05,990 --> 01:13:03,760

jimenez i'm sure him hearing me try to

1961

01:13:08,470 --> 01:13:06,000

be funny is like the way he feels when

1962

01:13:11,110 --> 01:13:08,480

he has influenza you know like he's like

1963

01:13:12,310 --> 01:13:11,120

coughing i need hydration i just give me

1964

01:13:16,229 --> 01:13:12,320

a heating pad

1965

01:13:19,510 --> 01:13:16,239

so anyway guys i love you louise

1966

01:13:22,310 --> 01:13:19,520

anyway um but what i wanted to uh say to

1967

01:13:25,030 --> 01:13:22,320

you nathan and i also am firmly in

1968

01:13:27,910 --> 01:13:25,040

rejection of the

1969

01:13:30,070 --> 01:13:27,920

uh the analogy of humans to ants

1970

01:13:31,510 --> 01:13:30,080

and i get very irritated even up to if

1971

01:13:34,149 --> 01:13:31,520

so if you guys want to see something

1972

01:13:36,550 --> 01:13:34,159

that i will i would argue with lou about

1973

01:13:39,830 --> 01:13:36,560

um i would say to him no we're not like

1974

01:13:42,070 --> 01:13:39,840

ants and the reason uh and i don't think

1975

01:13:44,470 --> 01:13:42,080

that any intelligence that is looking at

1976

01:13:46,550 --> 01:13:44,480

us right now thinks of us as ants for

1977

01:13:48,550 --> 01:13:46,560

the simple fact is we've created

1978

01:13:51,270 --> 01:13:48,560

microchips

1979

01:13:54,310 --> 01:13:51,280

yeah you know we can engineer some

1980

01:13:56,950 --> 01:13:54,320

fairly exotic materials and metals

1981

01:14:00,229 --> 01:13:56,960

we can perform microsurgery the way that

1982

01:14:02,229 --> 01:14:00,239

we perform surgery now compared to let's

1983

01:14:03,270 --> 01:14:02,239

say 80 years ago is absolutely

1984

01:14:05,030 --> 01:14:03,280

incredible

1985

01:14:07,830 --> 01:14:05,040

joints that we didn't used to be able to

1986

01:14:10,630 --> 01:14:07,840

repair that we can um we can travel

1987

01:14:12,709 --> 01:14:10,640

outside of our our solar system now

1988

01:14:16,630 --> 01:14:12,719

or at least produce a craft that can do

1989

01:14:18,550 --> 01:14:16,640

so um so i i don't think we're in in no

1990

01:14:20,470 --> 01:14:18,560

matter what intelligence is coming here

1991

01:14:23,030 --> 01:14:20,480

i still don't think we're ants because

1992

01:14:25,030 --> 01:14:23,040

we can actually express ourselves we can

1993

01:14:27,910 --> 01:14:25,040

have an experience with these beings and

1994

01:14:30,149 --> 01:14:27,920

many of our fellow humans can come back

1995

01:14:33,830 --> 01:14:30,159

and talk about it yeah um that wouldn't

1996

01:14:35,830 --> 01:14:33,840

happen if it was a mastodon or a you

1997

01:14:37,830 --> 01:14:35,840

know a sloth they're not going to be

1998

01:14:39,350 --> 01:14:37,840

able to come and do like john keats and

1999

01:14:40,709 --> 01:14:39,360

write a poem about it

2000

01:14:42,630 --> 01:14:40,719

so i mean

2001

01:14:45,030 --> 01:14:42,640

you know that

2002

01:14:46,070 --> 01:14:45,040

unfortunately yes there are intelligence

2003

01:14:49,270 --> 01:14:46,080

that are

2004

01:14:51,830 --> 01:14:49,280

thousands of years probably and maybe

2005

01:14:54,630 --> 01:14:51,840

nathan tens of thousands maybe millions

2006

01:14:56,470 --> 01:14:54,640

of years ahead of us but we can still

2007

01:14:57,350 --> 01:14:56,480

they still know how to communicate with

2008

01:14:59,110 --> 01:14:57,360

us

2009

01:15:00,630 --> 01:14:59,120

and that we could actually write a book

2010

01:15:04,550 --> 01:15:00,640

about

2011

01:15:06,630 --> 01:15:04,560

and unfortunately your

2012

01:15:08,950 --> 01:15:06,640

your fire ant that stings my foot here

2013

01:15:11,189 --> 01:15:08,960

in florida can't do that right are the

2014

01:15:14,070 --> 01:15:11,199

ones that stunk chris in puerto rico

2015

01:15:16,149 --> 01:15:14,080

we're going to get you fire ants

2016

01:15:17,990 --> 01:15:16,159

sorry go ahead

2017

01:15:19,510 --> 01:15:18,000

well it says something about us

2018

01:15:21,430 --> 01:15:19,520

to me if we had the

2019

01:15:23,030 --> 01:15:21,440

ability like people are actually

2020

01:15:24,709 --> 01:15:23,040

studying this now to like could we

2021

01:15:26,310 --> 01:15:24,719

communicate with whales right like if we

2022

01:15:27,750 --> 01:15:26,320

could actually do that it would be cool

2023

01:15:29,510 --> 01:15:27,760

like we would want to do that we would

2024

01:15:31,110 --> 01:15:29,520

want to learn more about

2025

01:15:32,709 --> 01:15:31,120

the creatures that are in our

2026

01:15:34,390 --> 01:15:32,719

environment and be able to connect with

2027

01:15:36,310 --> 01:15:34,400

them on in ways that we really can't

2028

01:15:37,830 --> 01:15:36,320

right now i mean and i grew up reading

2029

01:15:39,110 --> 01:15:37,840

dr doolittle i thought was an awesome

2030

01:15:41,270 --> 01:15:39,120

story as a kid like that would be

2031

01:15:43,110 --> 01:15:41,280

amazing if we could do that so if we're

2032

01:15:45,510 --> 01:15:43,120

encountering an intelligence that is

2033

01:15:46,950 --> 01:15:45,520

going to write us off as not worthy of

2034

01:15:48,390 --> 01:15:46,960

that kind of relationship when that

2035

01:15:49,189 --> 01:15:48,400

relationship is something we actually

2036

01:15:51,510 --> 01:15:49,199

could

2037

01:15:53,189 --> 01:15:51,520

uh have i mean that's not an

2038

01:15:54,870 --> 01:15:53,199

intelligence i actually want to be you

2039

01:15:57,189 --> 01:15:54,880

know connected with i'd rather not you

2040

01:15:59,910 --> 01:15:57,199

know i i i'd be a little wary of them

2041

01:16:01,189 --> 01:15:59,920

quite frankly uh i i'm a believer that

2042

01:16:03,270 --> 01:16:01,199

uh

2043

01:16:05,030 --> 01:16:03,280

that intelligence you know

2044

01:16:06,709 --> 01:16:05,040

and this is a very anthropomorphic way

2045

01:16:08,709 --> 01:16:06,719

of looking at it i'll admit but you know

2046

01:16:10,550 --> 01:16:08,719

i'd like to believe that you know

2047

01:16:12,630 --> 01:16:10,560

consciousness and intelligence as it as

2048

01:16:15,510 --> 01:16:12,640

it aggregates upward you know becomes

2049

01:16:17,750 --> 01:16:15,520

more curious more compassionate uh you

2050

01:16:19,990 --> 01:16:17,760

know more artistic you know just all the

2051

01:16:21,830 --> 01:16:20,000

things that are the best of our

2052

01:16:22,790 --> 01:16:21,840

qualities that it becomes more and more

2053

01:16:23,830 --> 01:16:22,800

of that

2054

01:16:26,070 --> 01:16:23,840

um

2055

01:16:29,270 --> 01:16:26,080

you know what i what i worry about

2056

01:16:31,189 --> 01:16:29,280

in a lot of the accounts that we hear

2057

01:16:33,590 --> 01:16:31,199

from people is that whatever they're

2058

01:16:36,709 --> 01:16:33,600

encountering sounds

2059

01:16:39,669 --> 01:16:36,719

not like that and more like a machine

2060

01:16:41,830 --> 01:16:39,679

yes and and and i would just say we've

2061

01:16:44,550 --> 01:16:41,840

heard a lot of talk recently about

2062

01:16:46,870 --> 01:16:44,560

future humans and and grays and you know

2063

01:16:48,470 --> 01:16:46,880

warning against a catastrophe and you

2064

01:16:51,189 --> 01:16:48,480

know all i will put out there is what if

2065

01:16:53,350 --> 01:16:51,199

the catastrophe isn't isn't nuclear what

2066

01:16:55,350 --> 01:16:53,360

if the catastrophe isn't an asteroid

2067

01:16:57,590 --> 01:16:55,360

what if the catastrophe you know isn't

2068

01:16:59,030 --> 01:16:57,600

some sort of pandemic what if it is is

2069

01:17:01,270 --> 01:16:59,040

the singularity what if we are

2070

01:17:03,430 --> 01:17:01,280

approaching a point in time where

2071

01:17:06,310 --> 01:17:03,440

the machines where our our connection to

2072

01:17:08,950 --> 01:17:06,320

the machines become so powerful

2073

01:17:11,110 --> 01:17:08,960

and and so intense and and it's a point

2074

01:17:14,310 --> 01:17:11,120

of no return for who we are as human

2075

01:17:16,950 --> 01:17:14,320

beings and and we can undo that we can't

2076

01:17:19,030 --> 01:17:16,960

undo that transition and and think of

2077

01:17:21,270 --> 01:17:19,040

what we might lose by giving up

2078

01:17:23,110 --> 01:17:21,280

ourselves to that to that point we talk

2079

01:17:26,149 --> 01:17:23,120

a lot about the positives but what what

2080

01:17:28,229 --> 01:17:26,159

if we lose way more than we realize what

2081

01:17:30,950 --> 01:17:28,239

if in that journey

2082

01:17:31,910 --> 01:17:30,960

of giving up ourselves to these machines

2083

01:17:34,390 --> 01:17:31,920

that

2084

01:17:36,550 --> 01:17:34,400

we we lose a core part of who we are and

2085

01:17:38,470 --> 01:17:36,560

maybe these future humans who aren't

2086

01:17:39,430 --> 01:17:38,480

machines are trying to come back and say

2087

01:17:41,590 --> 01:17:39,440

look there

2088

01:17:44,470 --> 01:17:41,600

there's something important about being

2089

01:17:46,310 --> 01:17:44,480

human you know hey nathan can i can i

2090

01:17:48,390 --> 01:17:46,320

sum this up in one person's statement

2091

01:17:50,709 --> 01:17:48,400

that you're aware of yeah remind the

2092

01:17:53,590 --> 01:17:50,719

audience of what the little girl from uh

2093

01:17:55,910 --> 01:17:53,600

zimbabwe said um yeah we are becoming

2094

01:17:58,390 --> 01:17:55,920

too technologed i think was the

2095

01:18:00,950 --> 01:17:58,400

that sums up everything you just said

2096

01:18:03,590 --> 01:18:00,960

beware they said no they said don't yeah

2097

01:18:06,310 --> 01:18:03,600

don't become too technology yeah and

2098

01:18:07,189 --> 01:18:06,320

take care of your environment right so

2099

01:18:08,870 --> 01:18:07,199

you know

2100

01:18:10,070 --> 01:18:08,880

the scariest thing i studied in

2101

01:18:12,950 --> 01:18:10,080

undergrad

2102

01:18:15,669 --> 01:18:12,960

was hanson robotics i believe his name

2103

01:18:17,430 --> 01:18:15,679

is david hansen who's moved to hong kong

2104

01:18:20,229 --> 01:18:17,440

and is now without any sort of

2105

01:18:23,270 --> 01:18:20,239

regulation for uh the robots the

2106

01:18:25,270 --> 01:18:23,280

humanoid robots he's producing uh and

2107

01:18:28,070 --> 01:18:25,280

cloud-based uh

2108

01:18:30,470 --> 01:18:28,080

uh information sharing etc uh and by the

2109

01:18:32,709 --> 01:18:30,480

way i'm sure every computer network that

2110

01:18:36,390 --> 01:18:32,719

he's plugged into in hong kong the

2111

01:18:38,310 --> 01:18:36,400

chinese have every single byte of data

2112

01:18:40,630 --> 01:18:38,320

that he's putting uh out of his

2113

01:18:42,229 --> 01:18:40,640

computers they're just looking at it in

2114

01:18:43,110 --> 01:18:42,239

a lab and go oh okay this is what he's

2115

01:18:45,510 --> 01:18:43,120

doing

2116

01:18:48,790 --> 01:18:45,520

um you know that nathan

2117

01:18:51,030 --> 01:18:48,800

and and uh boston dynamics i mean you if

2118

01:18:51,830 --> 01:18:51,040

you start thinking about general ai

2119

01:18:53,910 --> 01:18:51,840

uh

2120

01:18:57,189 --> 01:18:53,920

with a humanoid robot and then the the

2121

01:18:58,550 --> 01:18:57,199

super dynamic abilities of um

2122

01:19:00,709 --> 01:18:58,560

of that and if you want to go the

2123

01:19:02,870 --> 01:19:00,719

science fiction route i mean the one

2124

01:19:04,149 --> 01:19:02,880

some of the latest star wars i don't

2125

01:19:06,470 --> 01:19:04,159

know if it was rogue one it's the first

2126

01:19:09,189 --> 01:19:06,480

time we've ever seen one of these

2127

01:19:11,110 --> 01:19:09,199

uh robots actually hit a human before

2128

01:19:11,990 --> 01:19:11,120

that they they didn't uh they didn't do

2129

01:19:13,990 --> 01:19:12,000

that

2130

01:19:17,189 --> 01:19:14,000

so it's um

2131

01:19:19,189 --> 01:19:17,199

uh it's pretty scary and and i i agree

2132

01:19:22,870 --> 01:19:19,199

with what you're saying actually

2133

01:19:24,709 --> 01:19:22,880

akashi this was one of the first uh

2134

01:19:25,990 --> 01:19:24,719

conversations i had with nathan where he

2135

01:19:27,590 --> 01:19:26,000

expressed

2136

01:19:29,950 --> 01:19:27,600

some

2137

01:19:33,430 --> 01:19:29,960

real questions about

2138

01:19:35,510 --> 01:19:33,440

intelligences and danger and that just

2139

01:19:36,950 --> 01:19:35,520

happened last week but let me get your

2140

01:19:39,110 --> 01:19:36,960

thoughts because it sounds like you yeah

2141

01:19:41,669 --> 01:19:39,120

so yeah just i mean

2142

01:19:42,790 --> 01:19:41,679

going back to the ann's comment if we

2143

01:19:45,350 --> 01:19:42,800

were

2144

01:19:47,430 --> 01:19:45,360

so insignificant i think we wouldn't be

2145

01:19:49,750 --> 01:19:47,440

having this conversation today because

2146

01:19:52,870 --> 01:19:49,760

they've been coming here for a while so

2147

01:19:56,229 --> 01:19:52,880

we're still around so that's good

2148

01:20:02,950 --> 01:19:56,239

that's good i love it perfect

2149

01:20:02,960 --> 01:20:05,350

i love this um

2150

01:20:09,350 --> 01:20:07,430

go ahead akashi i played because it was

2151
01:20:13,350 --> 01:20:09,360
actually okay

2152
01:20:16,149 --> 01:20:13,360
okay so um so we're we're still here

2153
01:20:19,350 --> 01:20:16,159
um our humanity

2154
01:20:23,030 --> 01:20:19,360
is valuable there's something that they

2155
01:20:25,669 --> 01:20:23,040
seem to seek that we still have

2156
01:20:28,550 --> 01:20:25,679
and if anybody's seen freaking

2157
01:20:31,590 --> 01:20:28,560
terminator we i mean every movie has

2158
01:20:33,910 --> 01:20:31,600
told us where this is gonna go if if we

2159
01:20:36,229 --> 01:20:33,920
continue to hand over the decisions to

2160
01:20:38,790 --> 01:20:36,239
ai ai is going to figure out that we're

2161
01:20:41,590 --> 01:20:38,800
stupid and it's going to take over

2162
01:20:43,669 --> 01:20:41,600
because that that is what ai is meant to

2163
01:20:45,510 --> 01:20:43,679

test the boundaries and figure out where

2164

01:20:47,189 --> 01:20:45,520

we're wrong and it's right that's what

2165

01:20:50,149 --> 01:20:47,199

it's programmed to do

2166

01:20:51,910 --> 01:20:50,159

so we're it's it's very much a danger

2167

01:20:55,669 --> 01:20:51,920

zone you know when you talk about that

2168

01:20:56,790 --> 01:20:55,679

and i i don't i think i believe that

2169

01:21:00,709 --> 01:20:56,800

there's

2170

01:21:03,030 --> 01:21:00,719

people that have had these experiences

2171

01:21:05,270 --> 01:21:03,040

that show that they're looking for

2172

01:21:08,070 --> 01:21:05,280

something and yeah it looks like some of

2173

01:21:09,510 --> 01:21:08,080

them are ai and but some of them are not

2174

01:21:12,790 --> 01:21:09,520

and maybe that's what they're trying to

2175

01:21:15,189 --> 01:21:12,800

say we're dying you know our humanity is

2176

01:21:17,189 --> 01:21:15,199

gone and we need it back

2177

01:21:19,430 --> 01:21:17,199

you know i don't know and no none of us

2178

01:21:21,110 --> 01:21:19,440

have the answers so i mean all we can

2179

01:21:23,270 --> 01:21:21,120

sit here is just

2180

01:21:24,870 --> 01:21:23,280

oh we're gonna we're gonna hit you up

2181

01:21:26,550 --> 01:21:24,880

we're gonna hit you up on anjali

2182

01:21:28,870 --> 01:21:26,560

girlfriend because that's like that's a

2183

01:21:31,669 --> 01:21:28,880

conversation maker i want to hear your

2184

01:21:33,030 --> 01:21:31,679

take on anjali my homegirl but before we

2185

01:21:35,830 --> 01:21:33,040

get to that

2186

01:21:37,990 --> 01:21:35,840

uh somebody wanted to ask it was uh

2187

01:21:40,310 --> 01:21:38,000

micelangelo hi mike

2188

01:21:41,910 --> 01:21:40,320

um i don't know if he's related to jerry

2189

01:21:43,750 --> 01:21:41,920

and the phoenix suns and if and i can

2190

01:21:45,830 --> 01:21:43,760

get courtside seats but that's beside

2191

01:21:48,390 --> 01:21:45,840

the point um

2192

01:21:49,350 --> 01:21:48,400

or president of usa basketball but uh

2193

01:21:52,550 --> 01:21:49,360

nathan

2194

01:21:53,430 --> 01:21:52,560

[Laughter]

2195

01:21:55,830 --> 01:21:53,440

um

2196

01:21:58,550 --> 01:21:55,840

answers uh basically what mike want to

2197

01:22:00,950 --> 01:21:58,560

know is jack vallee and gary nolan

2198

01:22:04,629 --> 01:22:00,960

uh and these guys have had their hands

2199

01:22:07,189 --> 01:22:04,639

on material that they have gotten from

2200

01:22:09,350 --> 01:22:07,199

vehicles that have crashed here

2201

01:22:10,709 --> 01:22:09,360

lou has spoken to that jacques villa has

2202

01:22:14,790 --> 01:22:10,719

spoken to that

2203

01:22:16,950 --> 01:22:14,800

others i'm sure there are more that i

2204

01:22:18,550 --> 01:22:16,960

haven't thought of tom delong

2205

01:22:20,870 --> 01:22:18,560

and um

2206

01:22:22,709 --> 01:22:20,880

what he wants to know is

2207

01:22:25,270 --> 01:22:22,719

how many tests need to be done to

2208

01:22:27,669 --> 01:22:25,280

determine whether or not these metals

2209

01:22:29,430 --> 01:22:27,679

they've recovered are human or not

2210

01:22:31,750 --> 01:22:29,440

who are the scientists that they're

2211

01:22:34,229 --> 01:22:31,760

waiting to peer review this material

2212

01:22:36,950 --> 01:22:34,239

yeah and why haven't we gotten an answer

2213

01:22:38,550 --> 01:22:36,960

do you think that it's high time that

2214

01:22:41,510 --> 01:22:38,560

legends in our community like jacques

2215

01:22:44,470 --> 01:22:41,520

fillet provide answers and and and

2216

01:22:47,910 --> 01:22:44,480

publicly give us some conclusions as to

2217

01:22:49,750 --> 01:22:47,920

or if not at least some theories on uh

2218

01:22:51,590 --> 01:22:49,760

what this material is and where it came

2219

01:22:53,830 --> 01:22:51,600

from maybe not where it came from but

2220

01:22:56,550 --> 01:22:53,840

the fact that of whether it's exotic

2221

01:22:58,550 --> 01:22:56,560

could have been made on earth uh or not

2222

01:22:59,990 --> 01:22:58,560

yeah i mean we need answers to that i

2223

01:23:02,070 --> 01:23:00,000

i'm hurting to know there are people

2224

01:23:04,149 --> 01:23:02,080

looking at it but i think the longer it

2225

01:23:06,390 --> 01:23:04,159

goes before we the longer it takes to

2226

01:23:08,229 --> 01:23:06,400

get those answers the less

2227

01:23:09,510 --> 01:23:08,239

likely we're gonna like the results is

2228

01:23:10,229 --> 01:23:09,520

what i think

2229

01:23:14,470 --> 01:23:10,239

so

2230

01:23:17,350 --> 01:23:14,480

to hold on to that information if if

2231

01:23:18,550 --> 01:23:17,360

it's not very interesting i think um

2232

01:23:19,990 --> 01:23:18,560

then again depending on who they're

2233

01:23:21,830 --> 01:23:20,000

working with you know if they are

2234

01:23:23,510 --> 01:23:21,840

working with uh you know sort of people

2235

01:23:25,990 --> 01:23:23,520

who have a lot of influence

2236

01:23:28,629 --> 01:23:26,000

uh and particularly influence on on what

2237

01:23:30,070 --> 01:23:28,639

they want people to be aware of uh i

2238

01:23:31,990 --> 01:23:30,080

could see them you know keeping those

2239

01:23:34,229 --> 01:23:32,000

cards pretty close to the chest right

2240

01:23:36,470 --> 01:23:34,239

and not telling us what they really are

2241

01:23:38,709 --> 01:23:36,480

um you know i love squidding's take on

2242

01:23:41,270 --> 01:23:38,719

on the exotic materials uh subject i

2243

01:23:43,510 --> 01:23:41,280

wish i had a cocktail but uh you know

2244

01:23:45,590 --> 01:23:43,520

his and his take is that uh you got the

2245

01:23:47,910 --> 01:23:45,600

pipe

2246

01:23:49,189 --> 01:23:47,920

you know what

2247

01:23:51,270 --> 01:23:49,199

every now and again we want some

2248

01:23:52,870 --> 01:23:51,280

affectations for no particular reason

2249

01:23:54,390 --> 01:23:52,880

yeah just every now and again yeah

2250

01:23:56,070 --> 01:23:54,400

exactly yeah just what if these

2251
01:23:57,189 --> 01:23:56,080
materials are

2252
01:23:59,669 --> 01:23:57,199
like uh

2253
01:24:01,110 --> 01:23:59,679
you know sort of spaceship uh just poop

2254
01:24:03,030 --> 01:24:01,120
you know that you know he's like he

2255
01:24:04,870 --> 01:24:03,040
talks about this

2256
01:24:07,110 --> 01:24:04,880
this is space duty

2257
01:24:09,270 --> 01:24:07,120
yeah

2258
01:24:10,390 --> 01:24:09,280
you know it has no real meaning it's

2259
01:24:11,830 --> 01:24:10,400
just like

2260
01:24:13,830 --> 01:24:11,840
you know the craft for whatever reason

2261
01:24:16,790 --> 01:24:13,840
it's almost uh like a living thing yes

2262
01:24:18,229 --> 01:24:16,800
perfect and uh and it just sheds some

2263
01:24:20,709 --> 01:24:18,239

material every once in a while and it

2264

01:24:22,310 --> 01:24:20,719

doesn't doesn't do anything or you know

2265

01:24:23,830 --> 01:24:22,320

you know that that's interesting theory

2266

01:24:25,990 --> 01:24:23,840

i think it's fun to think about

2267

01:24:27,590 --> 01:24:26,000

i i actually thought of it

2268

01:24:29,270 --> 01:24:27,600

a different take on this as i was

2269

01:24:30,870 --> 01:24:29,280

getting out of the car for yoga and i

2270

01:24:32,390 --> 01:24:30,880

just messaged you

2271

01:24:34,149 --> 01:24:32,400

about akashi

2272

01:24:36,870 --> 01:24:34,159

and and um

2273

01:24:38,629 --> 01:24:36,880

and i kind of thought of how i would

2274

01:24:40,870 --> 01:24:38,639

answer this question

2275

01:24:44,950 --> 01:24:40,880

and i i took it all the way back to our

2276

01:24:47,189 --> 01:24:44,960

discussion uh several weeks ago about

2277

01:24:49,189 --> 01:24:47,199

when the government has material and

2278

01:24:52,070 --> 01:24:49,199

they give it to a contractor and there's

2279

01:24:54,629 --> 01:24:52,080

a custodial exchange of material which

2280

01:24:57,189 --> 01:24:54,639

means i still own it

2281

01:24:59,430 --> 01:24:57,199

i'm giving you custodial responsibility

2282

01:25:00,629 --> 01:24:59,440

you can hold it you can use it you can

2283

01:25:03,350 --> 01:25:00,639

look at it

2284

01:25:05,030 --> 01:25:03,360

but i still own it and i set the terms

2285

01:25:06,790 --> 01:25:05,040

of this of

2286

01:25:08,790 --> 01:25:06,800

the extension and the return of this

2287

01:25:10,470 --> 01:25:08,800

material and then we talk about a

2288

01:25:13,750 --> 01:25:10,480

transfer of ownership so we were talking

2289

01:25:16,390 --> 01:25:13,760

about a craft and if if an entire craft

2290

01:25:18,310 --> 01:25:16,400

would be given over to a private company

2291

01:25:20,229 --> 01:25:18,320

and i told you why i thought that that

2292

01:25:22,550 --> 01:25:20,239

wouldn't happen and gave you like 17

2293

01:25:24,070 --> 01:25:22,560

different reasons why not the least of

2294

01:25:26,629 --> 01:25:24,080

which is that

2295

01:25:29,270 --> 01:25:26,639

scientists and and contractors of every

2296

01:25:31,750 --> 01:25:29,280

denomination will work at these test

2297

01:25:34,790 --> 01:25:31,760

sites for that express purpose so they

2298

01:25:37,189 --> 01:25:34,800

can have uh they're hired to examine

2299

01:25:38,629 --> 01:25:37,199

materials and provide their expertise

2300

01:25:41,189 --> 01:25:38,639

and their analysis

2301

01:25:42,310 --> 01:25:41,199

and uh at the conclusion of of that

2302

01:25:45,030 --> 01:25:42,320

research

2303

01:25:47,030 --> 01:25:45,040

they're uh basically uh

2304

01:25:48,790 --> 01:25:47,040

contracts over thank you we're gonna

2305

01:25:51,030 --> 01:25:48,800

bring in somebody else

2306

01:25:52,470 --> 01:25:51,040

so with regard to exotic materials it's

2307

01:25:55,030 --> 01:25:52,480

quite possible

2308

01:25:57,270 --> 01:25:55,040

that whomever holds this material

2309

01:25:59,590 --> 01:25:57,280

obviously bob bigelow i think is one of

2310

01:26:01,590 --> 01:25:59,600

them and i don't know which lab that

2311

01:26:04,070 --> 01:26:01,600

jacques villa is is examining these

2312

01:26:06,870 --> 01:26:04,080

materials they may have custodial

2313

01:26:08,790 --> 01:26:06,880

responsibility but not ownership so what

2314

01:26:11,110 --> 01:26:08,800

does that mean

2315

01:26:14,070 --> 01:26:11,120

it means that the government has given

2316

01:26:15,990 --> 01:26:14,080

them those materials to analyze but will

2317

01:26:18,310 --> 01:26:16,000

be able to control

2318

01:26:20,950 --> 01:26:18,320

the outcome and the narrative that comes

2319

01:26:22,870 --> 01:26:20,960

out of that scientific research and

2320

01:26:26,149 --> 01:26:22,880

their conclusions that they've come up

2321

01:26:28,550 --> 01:26:26,159

with so if i'm jock valet and i say

2322

01:26:30,709 --> 01:26:28,560

i've got two choices here i can either

2323

01:26:32,950 --> 01:26:30,719

never see this material

2324

01:26:35,030 --> 01:26:32,960

or i can see this material but i gotta

2325

01:26:37,270 --> 01:26:35,040

abide by what they tell me i can do with

2326

01:26:39,430 --> 01:26:37,280

the information that comes out of there

2327

01:26:41,750 --> 01:26:39,440

when they're searching my little satchel

2328

01:26:44,229 --> 01:26:41,760

to make sure that there's no hard drives

2329

01:26:47,270 --> 01:26:44,239

leaving the facility and thumb drives

2330

01:26:49,910 --> 01:26:47,280

and and hard copies so

2331

01:26:51,669 --> 01:26:49,920

the only thing i can assume and this was

2332

01:26:53,270 --> 01:26:51,679

for um

2333

01:26:55,270 --> 01:26:53,280

micelangelo

2334

01:26:57,830 --> 01:26:55,280

i'm gonna make an assumption

2335

01:27:00,709 --> 01:26:57,840

that these materials have been given

2336

01:27:02,950 --> 01:27:00,719

over to certain labs under a custodial

2337

01:27:05,510 --> 01:27:02,960

relationship and not a transfer of

2338

01:27:08,709 --> 01:27:05,520

ownership whereby jacques valet could

2339

01:27:10,629 --> 01:27:08,719

could call a press conference at

2340

01:27:13,430 --> 01:27:10,639

lockheed or bigelow aerospace and say

2341

01:27:15,030 --> 01:27:13,440

well this is what this is our hypothesis

2342

01:27:16,950 --> 01:27:15,040

at least is that

2343

01:27:19,350 --> 01:27:16,960

by the way this material

2344

01:27:21,350 --> 01:27:19,360

we found it at a time when there was not

2345

01:27:24,070 --> 01:27:21,360

a metallurgist on earth that could

2346

01:27:27,189 --> 01:27:24,080

figure out how to make such a composite

2347

01:27:29,669 --> 01:27:27,199

with these materials and there are some

2348

01:27:33,270 --> 01:27:29,679

uh components of it and ores and

2349

01:27:35,750 --> 01:27:33,280

elements of it that uh maybe aren't even

2350

01:27:37,669 --> 01:27:35,760

uh present in this concentration on

2351

01:27:39,910 --> 01:27:37,679

planet earth whatever he would say and

2352

01:27:42,390 --> 01:27:39,920

i'm just throwing i'm just giving you a

2353

01:27:44,470 --> 01:27:42,400

scenario i believe that if there's a

2354

01:27:46,629 --> 01:27:44,480

custodial relationship they can prevent

2355

01:27:49,430 --> 01:27:46,639

that press conference from happening

2356

01:27:51,669 --> 01:27:49,440

yeah and that makes a lot of sense to me

2357

01:27:53,510 --> 01:27:51,679

i just literally came up with that out

2358

01:27:54,950 --> 01:27:53,520

of the car because i'm like

2359

01:27:56,070 --> 01:27:54,960

nathan's asking me what are we going to

2360

01:27:57,669 --> 01:27:56,080

talk about i'm like well we have all

2361

01:27:59,110 --> 01:27:57,679

these questions i'm like okay let me

2362

01:28:00,390 --> 01:27:59,120

grab one and see

2363

01:28:01,830 --> 01:28:00,400

what i can think of that's all i can

2364

01:28:04,550 --> 01:28:01,840

think of is they're not going to

2365

01:28:06,070 --> 01:28:04,560

necessarily allow him to say whatever if

2366

01:28:07,590 --> 01:28:06,080

he's been looking at that material

2367

01:28:10,070 --> 01:28:07,600

whatever they think it is and come out

2368

01:28:12,310 --> 01:28:10,080

and say hey guys we got a piece of metal

2369

01:28:15,030 --> 01:28:12,320

pretty damn sure it's not from this

2370

01:28:16,870 --> 01:28:15,040

planet and we didn't make it right and

2371

01:28:20,070 --> 01:28:16,880

and that may be exactly what that

2372

01:28:23,030 --> 01:28:20,080

material is based on what um geez uh

2373

01:28:25,910 --> 01:28:23,040

jesse marcel and his son have said and

2374

01:28:29,430 --> 01:28:25,920

uh jacques vallee have said and and even

2375

01:28:32,070 --> 01:28:29,440

luis elizondo and others yeah so what

2376

01:28:34,229 --> 01:28:32,080

else we got here guys uh

2377

01:28:36,390 --> 01:28:34,239

uh someone asked about barbara marsden

2378

01:28:40,149 --> 01:28:36,400

in the hybridizing theory i think both

2379

01:28:42,629 --> 01:28:40,159

of you have spoken to that um

2380

01:28:45,510 --> 01:28:42,639

beamed energy propulsion rodney wanted

2381

01:28:47,430 --> 01:28:45,520

to know about beamed energy propulsion

2382

01:28:49,430 --> 01:28:47,440

that chris mellon talked about and what

2383

01:28:51,430 --> 01:28:49,440

do we think about it so

2384

01:28:53,590 --> 01:28:51,440

uh if do you guys want to take a shot at

2385

01:28:56,470 --> 01:28:53,600

beamed energy propulsion i think it's

2386

01:28:57,910 --> 01:28:56,480

great okay yeah me too yeah that's

2387

01:28:58,950 --> 01:28:57,920

nathan because

2388

01:29:00,950 --> 01:28:58,960

i'm like

2389

01:29:03,110 --> 01:29:00,960

back to you nathan

2390

01:29:05,830 --> 01:29:03,120

it's you know who doesn't love being

2391

01:29:07,350 --> 01:29:05,840

energy propulsion um yeah it's a pretty

2392

01:29:08,950 --> 01:29:07,360

cool technology where they're going to

2393

01:29:10,790 --> 01:29:08,960

use uh

2394

01:29:13,990 --> 01:29:10,800

the rudimentary explanation is they're

2395

01:29:16,870 --> 01:29:14,000

using lasers uh to point at objects that

2396

01:29:17,750 --> 01:29:16,880

are in space to energize

2397

01:29:20,149 --> 01:29:17,760

uh

2398

01:29:24,629 --> 01:29:20,159

like the surface of those objects and by

2399

01:29:27,030 --> 01:29:24,639

doing that they can uh cause a small uh

2400

01:29:29,270 --> 01:29:27,040

sort of changes in acceleration um and

2401

01:29:31,270 --> 01:29:29,280

so you know the thing about space which

2402

01:29:32,790 --> 01:29:31,280

is very cool is you can if as long as

2403

01:29:35,110 --> 01:29:32,800

you can just gradually increase the

2404

01:29:37,030 --> 01:29:35,120

speed uh eventually you're gonna get up

2405

01:29:38,629 --> 01:29:37,040

to some really incredible speeds in

2406

01:29:40,390 --> 01:29:38,639

space uh so

2407

01:29:42,790 --> 01:29:40,400

you know to the extent that we could you

2408

01:29:44,950 --> 01:29:42,800

know shoot a laser a laser out at an

2409

01:29:46,470 --> 01:29:44,960

object and and cause that to uh to

2410

01:29:49,030 --> 01:29:46,480

continue to accelerate we could really

2411

01:29:50,470 --> 01:29:49,040

get uh much faster speeds than we we've

2412

01:29:51,830 --> 01:29:50,480

achieved before

2413

01:29:54,470 --> 01:29:51,840

but it's you know it is very

2414

01:29:55,910 --> 01:29:54,480

experimental and uh you know it would be

2415

01:29:57,669 --> 01:29:55,920

challenging and you got to shoot lasers

2416

01:29:59,350 --> 01:29:57,679

in space which you know has its own

2417

01:30:02,870 --> 01:29:59,360

issues

2418

01:30:04,870 --> 01:30:02,880

yep i i think it's uh it as nathan said

2419

01:30:06,470 --> 01:30:04,880

it's fascinating i don't if you're

2420

01:30:08,870 --> 01:30:06,480

asking us if we think that's a

2421

01:30:11,430 --> 01:30:08,880

technology that can be used to fly the

2422

01:30:13,669 --> 01:30:11,440

various different craft that we've seen

2423

01:30:15,750 --> 01:30:13,679

um i i don't think that that's possible

2424

01:30:16,629 --> 01:30:15,760

at this point in time not at least not

2425

01:30:23,430 --> 01:30:16,639

to

2426

01:30:25,910 --> 01:30:23,440

lot of different dynamics there and it

2427

01:30:27,830 --> 01:30:25,920

is super comforting if we could say that

2428

01:30:28,629 --> 01:30:27,840

this is something that we could just you

2429

01:30:30,390 --> 01:30:28,639

know

2430

01:30:31,510 --> 01:30:30,400

execute this with technologies that

2431

01:30:33,669 --> 01:30:31,520

exist but

2432

01:30:35,990 --> 01:30:33,679

the evidence at this point says

2433

01:30:39,030 --> 01:30:36,000

otherwise but i hope that that the

2434

01:30:41,510 --> 01:30:39,040

evidence is going to say yes because i'm

2435

01:30:44,470 --> 01:30:41,520

very into not polluting

2436

01:30:46,870 --> 01:30:44,480

i'm very into um

2437

01:30:49,189 --> 01:30:46,880

if we could have a a technology that

2438

01:30:51,350 --> 01:30:49,199

could propulse uh aircraft through the

2439

01:30:54,229 --> 01:30:51,360

air without burning dinosaurs

2440

01:30:56,629 --> 01:30:54,239

uh and and and burning fuel and creating

2441

01:30:59,430 --> 01:30:56,639

uh carbon emissions that are getting the

2442

01:31:02,709 --> 01:30:59,440

atmosphere so i would love to see any

2443

01:31:05,350 --> 01:31:02,719

kind of a propulsive technology that uh

2444

01:31:06,390 --> 01:31:05,360

and right now what i'm seeing is uh that

2445

01:31:07,990 --> 01:31:06,400

we're not

2446

01:31:09,669 --> 01:31:08,000

we're fielding engines that burn

2447

01:31:10,709 --> 01:31:09,679

considerably cleaner so if you were to

2448

01:31:13,910 --> 01:31:10,719

look at

2449

01:31:16,709 --> 01:31:13,920

or even listen to a a new york mets game

2450

01:31:19,990 --> 01:31:16,719

back from the late 70s and you heard a

2451
01:31:21,750 --> 01:31:20,000
turbo jet engine and when i say turbojet

2452
01:31:23,910 --> 01:31:21,760
i'm i'm saying that you guys are looking

2453
01:31:26,709 --> 01:31:23,920
out at the wing and you're seeing one

2454
01:31:29,189 --> 01:31:26,719
entire cowling from front to back from

2455
01:31:31,430 --> 01:31:29,199
the inlet of the engine to the exhaust

2456
01:31:33,030 --> 01:31:31,440
you're seeing one smooth cowling and

2457
01:31:35,830 --> 01:31:33,040
that's what we would have called a turbo

2458
01:31:37,990 --> 01:31:35,840
jet now we have a turbo fan where you

2459
01:31:39,430 --> 01:31:38,000
guys are seeing this gigantic fan and

2460
01:31:41,910 --> 01:31:39,440
then there's a core

2461
01:31:43,590 --> 01:31:41,920
jet engine inside there and then you'll

2462
01:31:46,550 --> 01:31:43,600
have a couple of different stages of

2463
01:31:49,430 --> 01:31:46,560

turbine one of them turns that fan and

2464

01:31:52,390 --> 01:31:49,440

then the other one turns the actual uh

2465

01:31:54,709 --> 01:31:52,400

compressor section of the jet jet engine

2466

01:31:57,510 --> 01:31:54,719

that you're seeing to suck the air in so

2467

01:31:59,830 --> 01:31:57,520

that's a technology that's much cleaner

2468

01:32:02,390 --> 01:31:59,840

and much quieter and you wouldn't hear

2469

01:32:04,310 --> 01:32:02,400

the deafening roar going over shea

2470

01:32:06,870 --> 01:32:04,320

stadium that you would have heard in the

2471

01:32:09,669 --> 01:32:06,880

days when the sst was flying and even

2472

01:32:12,550 --> 01:32:09,679

your typical 707 back then

2473

01:32:14,950 --> 01:32:12,560

or even in l-1011 or dc-10 so

2474

01:32:17,590 --> 01:32:14,960

technology's come uh

2475

01:32:20,470 --> 01:32:17,600

we're burning cleaner uh and we're using

2476

01:32:21,430 --> 01:32:20,480

less fuel now but

2477

01:32:23,350 --> 01:32:21,440

that

2478

01:32:25,910 --> 01:32:23,360

still basically they're using the very

2479

01:32:28,870 --> 01:32:25,920

same theorem that we flew on and flew

2480

01:32:31,030 --> 01:32:28,880

with in 1903 so

2481

01:32:34,229 --> 01:32:31,040

i have a question

2482

01:32:36,310 --> 01:32:34,239

in the chat no please chad so

2483

01:32:38,310 --> 01:32:36,320

hi we have a question in the chat

2484

01:32:39,990 --> 01:32:38,320

actually it says

2485

01:32:41,990 --> 01:32:40,000

this actually brings up a good point so

2486

01:32:43,510 --> 01:32:42,000

deborah was talking he was like uh they

2487

01:32:45,750 --> 01:32:43,520

were talking about the laser she goes

2488

01:32:48,149 --> 01:32:45,760

think uh think it will still work with

2489

01:32:50,790 --> 01:32:48,159

all the russian debris in the way i love

2490

01:32:53,350 --> 01:32:50,800

that point because this actually brings

2491

01:32:55,990 --> 01:32:53,360

up you know what other things you know

2492

01:32:57,430 --> 01:32:56,000

what insights do you guys have into

2493

01:32:59,350 --> 01:32:57,440

all this russian

2494

01:33:00,870 --> 01:32:59,360

mess that they've made up there in the

2495

01:33:03,669 --> 01:33:00,880

last couple of days i know this is

2496

01:33:07,030 --> 01:33:03,679

pretty new but you know any insights any

2497

01:33:09,350 --> 01:33:07,040

thoughts i love dj's take on that

2498

01:33:11,030 --> 01:33:09,360

um

2499

01:33:12,950 --> 01:33:11,040

so uh

2500

01:33:15,830 --> 01:33:12,960

all i can really tell you guys is that

2501

01:33:18,070 --> 01:33:15,840

there's uh let's just say a bit of a uh

2502

01:33:20,629 --> 01:33:18,080

a competition going on right now between

2503

01:33:22,870 --> 01:33:20,639

the united states china and russia

2504

01:33:24,149 --> 01:33:22,880

and um

2505

01:33:29,750 --> 01:33:24,159

it's uh

2506

01:33:30,790 --> 01:33:29,760

shift from where we were where 12 months

2507

01:33:32,470 --> 01:33:30,800

ago

2508

01:33:35,669 --> 01:33:32,480

and um

2509

01:33:37,430 --> 01:33:35,679

it's a very real problem and that space

2510

01:33:39,110 --> 01:33:37,440

that these uh that orbit that the

2511

01:33:41,990 --> 01:33:39,120

satellites are

2512

01:33:43,590 --> 01:33:42,000

um that are uh that particular distance

2513

01:33:45,590 --> 01:33:43,600

in space from the earth is becoming

2514

01:33:47,590 --> 01:33:45,600

extremely crowded like they were saying

2515

01:33:49,590 --> 01:33:47,600

that telescopes can't see

2516

01:33:53,590 --> 01:33:49,600

through through this band now their

2517

01:33:55,590 --> 01:33:53,600

space junk uh there are uh chinese

2518

01:33:57,830 --> 01:33:55,600

satellites and other satellites there

2519

01:33:59,510 --> 01:33:57,840

are ours as well that are defunct that

2520

01:34:01,830 --> 01:33:59,520

are floating in space that pose a

2521

01:34:04,149 --> 01:34:01,840

problem and the destruction of which

2522

01:34:06,790 --> 01:34:04,159

could cause uh the destruction of

2523

01:34:09,750 --> 01:34:06,800

another satellite as debris hits the

2524

01:34:11,430 --> 01:34:09,760

space station is is is somewhat in

2525

01:34:13,910 --> 01:34:11,440

jeopardy as well

2526

01:34:16,149 --> 01:34:13,920

and um it's not a good situation it's

2527

01:34:17,590 --> 01:34:16,159

why the space force exists

2528

01:34:19,030 --> 01:34:17,600

and um

2529

01:34:20,790 --> 01:34:19,040

it's uh

2530

01:34:23,430 --> 01:34:20,800

it's it's not something that makes me

2531

01:34:24,790 --> 01:34:23,440

feel good or that i i celebrate but at

2532

01:34:27,510 --> 01:34:24,800

the same time

2533

01:34:30,229 --> 01:34:27,520

uh when somebody enters a battle space

2534

01:34:33,830 --> 01:34:30,239

you also have to enter that battle space

2535

01:34:36,149 --> 01:34:33,840

whether you want to be there or not yeah

2536

01:34:37,750 --> 01:34:36,159

and space is uh you know it's it's

2537

01:34:39,510 --> 01:34:37,760

challenge has its own challenges unique

2538

01:34:40,870 --> 01:34:39,520

challenges right it's you know think of

2539

01:34:42,550 --> 01:34:40,880

it like uh

2540

01:34:44,830 --> 01:34:42,560

you know if you're familiar with uh

2541

01:34:47,510 --> 01:34:44,840

traffic in los angeles or new york these

2542

01:34:49,669 --> 01:34:47,520

big metropolitan areas you've got a lot

2543

01:34:50,870 --> 01:34:49,679

of vehicles that are on those uh

2544

01:34:52,470 --> 01:34:50,880

freeways

2545

01:34:53,910 --> 01:34:52,480

and

2546

01:34:55,270 --> 01:34:53,920

those cars are all trying to get a

2547

01:34:57,270 --> 01:34:55,280

certain place or trying to do a certain

2548

01:34:59,189 --> 01:34:57,280

thing some are trying to bring you goods

2549

01:35:00,870 --> 01:34:59,199

and services some are trying to get a

2550

01:35:02,310 --> 01:35:00,880

person from point a to point b you know

2551

01:35:04,629 --> 01:35:02,320

there's doing lots of different things

2552

01:35:06,790 --> 01:35:04,639

if one car has an accident

2553

01:35:09,109 --> 01:35:06,800

you know what what typically happens on

2554

01:35:11,270 --> 01:35:09,119

in in an already crowded

2555

01:35:12,310 --> 01:35:11,280

freeway well the whole thing gets

2556

01:35:14,950 --> 01:35:12,320

you know

2557

01:35:17,270 --> 01:35:14,960

impacted and this is this is why it's so

2558

01:35:20,070 --> 01:35:17,280

delicate right it's um

2559

01:35:21,669 --> 01:35:20,080

not only do we have humans out there on

2560

01:35:24,550 --> 01:35:21,679

the space station that we you know we

2561

01:35:27,030 --> 01:35:24,560

just think about the those people but uh

2562

01:35:29,750 --> 01:35:27,040

you know the world depends on space like

2563

01:35:32,390 --> 01:35:29,760

literally our economies are they're all

2564

01:35:34,709 --> 01:35:32,400

connected they're entwined uh

2565

01:35:36,070 --> 01:35:34,719

you know goods and services flow and and

2566

01:35:37,750 --> 01:35:36,080

so many things happen because of the

2567

01:35:39,109 --> 01:35:37,760

assets that are in space and that's not

2568

01:35:40,070 --> 01:35:39,119

just true for the united states it's

2569

01:35:42,550 --> 01:35:40,080

true for

2570

01:35:44,950 --> 01:35:42,560

all these major powers and so you know

2571

01:35:47,109 --> 01:35:44,960

to be able to uh you know with pinpoint

2572

01:35:49,590 --> 01:35:47,119

precision kind of take out a particular

2573

01:35:50,870 --> 01:35:49,600

asset there and not damage anything else

2574

01:35:53,189 --> 01:35:50,880

in the process

2575

01:35:55,270 --> 01:35:53,199

uh is a pretty powerful capability if in

2576

01:35:56,229 --> 01:35:55,280

fact you know they've reached a point

2577

01:35:58,310 --> 01:35:56,239

where they can do that this

2578

01:36:00,790 --> 01:35:58,320

demonstration tells me they're

2579

01:36:02,709 --> 01:36:00,800

they may not quite be able to

2580

01:36:05,590 --> 01:36:02,719

you know sort of surgically

2581

01:36:07,430 --> 01:36:05,600

uh you know sort of inhibit just one

2582

01:36:09,990 --> 01:36:07,440

asset you know we've created debris

2583

01:36:12,229 --> 01:36:10,000

field we've got a larger problem that

2584

01:36:14,790 --> 01:36:12,239

could impact not just uh you know your

2585

01:36:16,070 --> 01:36:14,800

adversary's assets but also your own you

2586

01:36:17,350 --> 01:36:16,080

know so you have to be pretty careful

2587

01:36:19,189 --> 01:36:17,360

with what you're

2588

01:36:21,109 --> 01:36:19,199

doing up there but it is i mean dj

2589

01:36:24,070 --> 01:36:21,119

you're right it's the next it is the

2590

01:36:26,229 --> 01:36:24,080

next battlefront

2591

01:36:28,550 --> 01:36:26,239

i i want to frame it i want to frame it

2592

01:36:30,550 --> 01:36:28,560

this way so people understand that space

2593

01:36:33,109 --> 01:36:30,560

doesn't mean space

2594

01:36:35,270 --> 01:36:33,119

but if let's say for example that we

2595

01:36:38,310 --> 01:36:35,280

received an intel report

2596

01:36:41,109 --> 01:36:38,320

that uh that people were and i'm gonna

2597

01:36:43,590 --> 01:36:41,119

this is gonna be a fantastic example so

2598

01:36:45,430 --> 01:36:43,600

think phantasm think journey the center

2599

01:36:48,790 --> 01:36:45,440

of the earth type stuff

2600

01:36:52,229 --> 01:36:48,800

let's say that people were digging holes

2601
01:36:54,790 --> 01:36:52,239
in um so we're just gonna say country x

2602
01:36:57,510 --> 01:36:54,800
that exists right on the edge of of

2603
01:36:58,709 --> 01:36:57,520
africa on the the western coast

2604
01:37:00,790 --> 01:36:58,719
and they were digging they were going to

2605
01:37:02,870 --> 01:37:00,800
dig right across

2606
01:37:03,990 --> 01:37:02,880
right and they're under the ocean and

2607
01:37:07,990 --> 01:37:04,000
all of a sudden

2608
01:37:10,149 --> 01:37:08,000
you know you you have sonar uh uh uh

2609
01:37:11,990 --> 01:37:10,159
amphibious vehicles that can see that

2610
01:37:13,750 --> 01:37:12,000
they're actually digging and tunneling

2611
01:37:15,109 --> 01:37:13,760
under the ocean and when they come up

2612
01:37:16,709 --> 01:37:15,119
they're gonna be right smack in the

2613
01:37:19,189 --> 01:37:16,719

middle of brazil

2614

01:37:20,629 --> 01:37:19,199

the brazilians are going to say

2615

01:37:24,070 --> 01:37:20,639

they're doing this

2616

01:37:26,070 --> 01:37:24,080

we now need to tunnel under

2617

01:37:27,350 --> 01:37:26,080

under the ocean and this has now become

2618

01:37:30,550 --> 01:37:27,360

a battle space

2619

01:37:32,870 --> 01:37:30,560

or not

2620

01:37:34,709 --> 01:37:32,880

it's existential now they are tunneling

2621

01:37:36,470 --> 01:37:34,719

under and when they pop up they're going

2622

01:37:38,229 --> 01:37:36,480

to be in miniature ice and their their

2623

01:37:40,790 --> 01:37:38,239

troops are just going to come pouring

2624

01:37:42,390 --> 01:37:40,800

out and take over miniaturize so

2625

01:37:45,030 --> 01:37:42,400

that's that's an example of what i'm

2626

01:37:47,750 --> 01:37:45,040

talking about is that when somebody

2627

01:37:49,510 --> 01:37:47,760

enters into a new area whether that be

2628

01:37:52,070 --> 01:37:49,520

underground whether that be overground

2629

01:37:54,390 --> 01:37:52,080

whether that be in space wherever it's

2630

01:37:55,750 --> 01:37:54,400

like you walking to a parking lot and

2631

01:37:57,350 --> 01:37:55,760

you're with your family and you're after

2632

01:37:59,030 --> 01:37:57,360

dinner and somebody comes up and

2633

01:38:00,310 --> 01:37:59,040

approaches you

2634

01:38:01,830 --> 01:38:00,320

and they say you know what i want to

2635

01:38:03,669 --> 01:38:01,840

fight you and you're right standing with

2636

01:38:05,189 --> 01:38:03,679

your family we're going to have a fight

2637

01:38:06,310 --> 01:38:05,199

now there's not a question of whether or

2638

01:38:08,709 --> 01:38:06,320

not we're going to fight we're going to

2639

01:38:09,910 --> 01:38:08,719

have a fight who's going to win that's

2640

01:38:11,750 --> 01:38:09,920

the question

2641

01:38:13,189 --> 01:38:11,760

but there is going to be a fight so

2642

01:38:15,030 --> 01:38:13,199

anyway

2643

01:38:16,550 --> 01:38:15,040

that's enough of that stuff let's get

2644

01:38:18,629 --> 01:38:16,560

back to having some fun because it's

2645

01:38:21,270 --> 01:38:18,639

about time to shut this down because one

2646

01:38:23,990 --> 01:38:21,280

of the things we try to do here is

2647

01:38:25,750 --> 01:38:24,000

always leave you one mo mm-hmm you want

2648

01:38:28,470 --> 01:38:25,760

more akashi chris you're going to get

2649

01:38:30,390 --> 01:38:28,480

her december 3rd you'd want grant levac

2650

01:38:32,550 --> 01:38:30,400

you want to bring some yoga business up

2651
01:38:34,550 --> 01:38:32,560
in here and have some jedi stuff going

2652
01:38:36,950 --> 01:38:34,560
down and a hood in the whole nine

2653
01:38:38,149 --> 01:38:36,960
there's lightsaber and and chris is

2654
01:38:40,709 --> 01:38:38,159
there she's gonna have the one that's

2655
01:38:42,229 --> 01:38:40,719
got the red on both sides

2656
01:38:44,790 --> 01:38:42,239
you know

2657
01:38:46,229 --> 01:38:44,800
no that's the bad guys that's fine

2658
01:38:48,950 --> 01:38:46,239
you're going to battle grant what do you

2659
01:38:52,070 --> 01:38:48,960
care let's not get picky here is red a

2660
01:38:54,390 --> 01:38:52,080
problem oh give me green

2661
01:38:55,990 --> 01:38:54,400
it's not i'm kidding it's not a battle

2662
01:38:59,109 --> 01:38:56,000
it's going to be good

2663
01:39:01,510 --> 01:38:59,119

nathan my brother this was so much fun

2664

01:39:02,310 --> 01:39:01,520

having a one-on-one conversation enjoyed

2665

01:39:03,430 --> 01:39:02,320

it

2666

01:39:05,270 --> 01:39:03,440

i thought we were going to fight and

2667

01:39:07,109 --> 01:39:05,280

stuff but that's why we didn't

2668

01:39:09,189 --> 01:39:07,119

yeah guys get along really well i'm

2669

01:39:13,750 --> 01:39:09,199

really proud of you yeah we love each

2670

01:39:17,030 --> 01:39:13,760

other we're gonna do man you know um and

2671

01:39:18,550 --> 01:39:17,040

um akashi chris so you're gonna join us

2672

01:39:19,510 --> 01:39:18,560

on the third we're gonna have some

2673

01:39:20,950 --> 01:39:19,520

laughs

2674

01:39:22,709 --> 01:39:20,960

we're gonna have some we're gonna have

2675

01:39:25,109 --> 01:39:22,719

some drinks so i don't think this is

2676

01:39:26,390 --> 01:39:25,119

gonna be a sober episode no okay not

2677

01:39:28,950 --> 01:39:26,400

gonna happen

2678

01:39:31,590 --> 01:39:28,960

and then i don't i don't drink but

2679

01:39:33,830 --> 01:39:31,600

you know yeah yeah i have a five hour

2680

01:39:35,910 --> 01:39:33,840

energy and you just can't stop me from

2681

01:39:36,709 --> 01:39:35,920

maybe six maybe six

2682

01:39:39,350 --> 01:39:36,719

um

2683

01:39:41,030 --> 01:39:39,360

and you know something else hi grant we

2684

01:39:43,510 --> 01:39:41,040

2685

01:39:45,750 --> 01:39:43,520

2686

01:39:47,510 --> 01:39:45,760

2687

01:39:48,870 --> 01:39:47,520

with you and akashi chris which ain't

2688

01:39:50,310 --> 01:39:48,880

gonna be easy

2689

01:39:52,070 --> 01:39:50,320

he's a handful

2690

01:39:53,430 --> 01:39:52,080

he's carrying all those groceries up to

2691

01:39:55,109 --> 01:39:53,440

i swear i'm on chat and she pops up and

2699

01:40:14,310 --> 01:40:12,960

i'm like alien girl as i'm typing it

2700

01:40:16,950 --> 01:40:14,320

2705
01:40:28,229 --> 01:40:25,520
we're gonna be on with the alien girl

2706
01:40:29,990 --> 01:40:28,239

01:41:09,030 --> 01:41:07,119

data

2727

01:41:10,470 --> 01:41:09,040

bring it

2728

01:41:12,149 --> 01:41:10,480

we're going to get a heaping platter of

2729

01:41:13,990 --> 01:41:12,159

it with him

2730

01:41:15,270 --> 01:41:14,000

bladder of data

2731

01:41:18,390 --> 01:41:15,280

data

2732

01:41:20,790 --> 01:41:18,400

um there's no evidence uh right now at

2733

01:41:22,709 --> 01:41:20,800

all that i'm not cgi

2734

01:41:24,790 --> 01:41:22,719

that's true none i mean i've never met

2735

01:41:26,390 --> 01:41:24,800

2736

01:41:27,990 --> 01:41:26,400

and

2740

01:41:45,109 --> 01:41:42,310

[Laughter]

2741

01:41:47,270 --> 01:41:45,119

we want you to like and subscribe to our

2742

01:41:49,109 --> 01:41:47,280

youtube or whatever instead of reminding

2743

01:41:50,550 --> 01:41:49,119

me so when you know what kind of idiocy

2744

01:41:52,470 --> 01:41:50,560

is going to be coming down you can jump

2745

01:41:53,990 --> 01:41:52,480

onto it and by the way we do this

2746

01:41:54,870 --> 01:41:54,000

because

2747

01:41:57,189 --> 01:41:54,880

really

2748

01:41:58,950 --> 01:41:57,199

we'll bring you some guests on here who

2749

01:42:01,030 --> 01:41:58,960

have some gravity in the community so

2750

01:42:02,390 --> 01:42:01,040

that we can bring attention to people

2751

01:42:04,470 --> 01:42:02,400

that aren't as well known but are

2752

01:42:07,510 --> 01:42:04,480

brilliant one of those people might be

2753

01:42:09,750 --> 01:42:07,520

akashishi chris might be lampy maybe it'll

2754

01:42:11,990 --> 01:42:09,760

be divine daisy girl if we can get her

2755

01:42:13,669 --> 01:42:12,000

boss to leave her listen to this girl

2756

01:42:16,310 --> 01:42:13,679

what's going on man

2757

01:42:17,830 --> 01:42:16,320

have somebody she gonna sue your ass

2758

01:42:21,750 --> 01:42:17,840

2759

01:42:23,510 --> 01:42:21,760

come one come on we want to bring

2760

01:42:25,669 --> 01:42:23,520

attention to people that necessarily

2761

01:42:27,830 --> 01:42:25,679

don't get it but uh have brought

2762

01:42:30,070 --> 01:42:27,840

positivity in this space you would and

2763

01:42:32,629 --> 01:42:30,080

you got some opinions like this girl

2764

01:42:34,790 --> 01:42:32,639
