Calling All Beings

1
00:00:30,950 --> 00:00:07,780
calling all beings y'all

2
00:00:35,430 --> 00:00:32,630
hey

3
00:00:37,750 --> 00:00:35,440
welcome back to calling all beings i'm

4
00:00:40,470 --> 00:00:37,760
your host dj san marco along with my

5
00:00:42,229 --> 00:00:40,480
co-host what's this man's name

6
00:00:44,709 --> 00:00:42,239
nathan y'all that's what i'm saying

7
00:00:47,430 --> 00:00:44,719
nathan owens

8
00:00:49,430 --> 00:00:47,440
nft nathan is in the building and we got

9
00:00:52,069 --> 00:00:49,440
our associate producer backstage we

10
00:00:55,029 --> 00:00:52,079
finna introduce her and her name is

11
00:00:56,549 --> 00:00:55,039
akashi chris yes

12
00:00:57,910 --> 00:00:56,559
one and only

13
00:01:00,229 --> 00:00:57,920

but i'll tell you what man we got a

14

00:01:03,029 --> 00:01:00,239

special guest i'll tell you what nathan

15

00:01:05,030 --> 00:01:03,039

i on the same day that i first messaged

16

00:01:06,870 --> 00:01:05,040

this gentleman to come on the show i

17

00:01:07,830 --> 00:01:06,880

messaged the press secretary for joe

18

00:01:11,030 --> 00:01:07,840

biden

19

00:01:13,590 --> 00:01:11,040

and they got back to me the same day

20

00:01:15,590 --> 00:01:13,600

uh that mata looney did so it basically

21

00:01:17,830 --> 00:01:15,600

it took an analogous amount of time to

22

00:01:20,070 --> 00:01:17,840

try to book president biden as it did to

23

00:01:22,950 --> 00:01:20,080

book mike matt only but it's all worth

24

00:01:25,590 --> 00:01:22,960

it man he's so handsome i'm so jealous

25

00:01:27,830 --> 00:01:25,600

uh i i love this guy i love his vibe his

26

00:01:30,789 --> 00:01:27,840

show shout out to kristen manilow so

27

00:01:33,910 --> 00:01:30,799

let's bring him on yes all right party

28

00:01:36,789 --> 00:01:33,920

people put those hands together

29

00:01:40,390 --> 00:01:36,799

for ucr's own

30

00:01:42,789 --> 00:01:40,400

the singularity labs own kristin

31

00:01:48,870 --> 00:01:42,799

mataloni's own

32

00:01:50,630 --> 00:01:48,880

mr singularity mike michael mataloni yes

33

00:01:58,230 --> 00:01:50,640

put those hands together nathan where

34

00:02:01,910 --> 00:02:00,469

what did i walk into i'm just excited

35

00:02:04,149 --> 00:02:01,920

okay here's the reason i'm excited but

36

00:02:05,990 --> 00:02:04,159

first of all because you you general you

37

00:02:07,990 --> 00:02:06,000

we have a scholar and a

38

00:02:10,550 --> 00:02:08,000

gentleman i don't know need help we have

39

00:02:12,309 --> 00:02:10,560

a scholar and uh and a very exuberant

40

00:02:14,070 --> 00:02:12,319

friend of mine and i just wanted to say

41

00:02:16,150 --> 00:02:14,080

cheers to you guys i was excited to take

42

00:02:19,030 --> 00:02:16,160

off the tie i was excited to kick back

43

00:02:22,070 --> 00:02:19,040

and relax and um and and here we are so

44

00:02:24,229 --> 00:02:22,080

thank you so much for this great

45

00:02:26,869 --> 00:02:24,239

the most handsome italian brother in

46

00:02:28,710 --> 00:02:26,879

hashtag ufo twitter right here man

47

00:02:31,270 --> 00:02:28,720

i don't know about that but what i do

48

00:02:32,790 --> 00:02:31,280

know is that the uh the bald head goes a

49

00:02:34,710 --> 00:02:32,800

long way as you've been obviously

50

00:02:36,630 --> 00:02:34,720

experimenting with i have yeah

51
00:02:39,350 --> 00:02:36,640
unfortunately not by choice uh i'd

52
00:02:41,509 --> 00:02:39,360
rather look like artemis's uh boyfriend

53
00:02:43,270 --> 00:02:41,519
josh but you know such a life

54
00:02:45,350 --> 00:02:43,280
so

55
00:02:48,309 --> 00:02:45,360
great here right here another one of my

56
00:02:50,390 --> 00:02:48,319
crushes josh yeah he does man

57
00:02:52,150 --> 00:02:50,400
heart bubble emoji for josh

58
00:02:53,990 --> 00:02:52,160
so uh anyway

59
00:02:56,309 --> 00:02:54,000
it's an honor uh all kidding aside it's

60
00:02:57,910 --> 00:02:56,319
an honor to have you sir uh regardless

61
00:02:59,670 --> 00:02:57,920
if it took me as long to get ahold of

62
00:03:01,190 --> 00:02:59,680
you as it took me to get a hold of

63
00:03:02,869 --> 00:03:01,200

president biden

64

00:03:05,030 --> 00:03:02,879

you need to stop that was not that

65

00:03:07,350 --> 00:03:05,040

difficult we we literally we

66

00:03:09,190 --> 00:03:07,360

you you reached out to me and then yes

67

00:03:11,750 --> 00:03:09,200

yes i agreed and then what did i do i

68

00:03:14,790 --> 00:03:11,760

forgot i did

69

00:03:16,710 --> 00:03:14,800

that doesn't mean that i wasn't uh

70

00:03:18,630 --> 00:03:16,720

thinking about you the whole time okay

71

00:03:20,949 --> 00:03:18,640

well i i appreciate that that i was

72

00:03:22,869 --> 00:03:20,959

still in your thoughts and now

73

00:03:25,030 --> 00:03:22,879

you know what but i want we got to do an

74

00:03:26,309 --> 00:03:25,040

addition an audition right here for luis

75

00:03:28,550 --> 00:03:26,319

before we get going so we're going to

76

00:03:31,110 --> 00:03:28,560

try it again we're in the hospital it's

77

00:03:33,589 --> 00:03:31,120

godfather one you're michael corleone

78

00:03:35,270 --> 00:03:33,599

and you're wheeling don corleone to

79

00:03:37,430 --> 00:03:35,280

another room

80

00:03:39,190 --> 00:03:37,440

because of the fact that uh you know the

81

00:03:41,110 --> 00:03:39,200

bad the the hospital's emptied out

82

00:03:43,430 --> 00:03:41,120

there's no security and they're coming

83

00:03:45,750 --> 00:03:43,440

to kill don corleone and i'm enzo the

84

00:03:47,270 --> 00:03:45,760

baker so i come upstairs

85

00:03:49,430 --> 00:03:47,280

and okay here you are you're wheeling

86

00:03:51,030 --> 00:03:49,440

the dawn you're gonna and this is just a

87

00:03:52,869 --> 00:03:51,040

set up for me and luis you know that

88

00:03:54,710 --> 00:03:52,879

he's gonna do a scene with me okay from

89

00:03:56,070 --> 00:03:54,720

godfather tube that's beside the point

90

00:03:57,750 --> 00:03:56,080

all right so here you go so you're

91

00:04:01,190 --> 00:03:57,760

wheeling your father

92

00:04:03,110 --> 00:04:01,200

don't be like and you who are you

93

00:04:06,390 --> 00:04:03,120

you're asking who i am come on who are

94

00:04:08,470 --> 00:04:06,400

you who who are you

95

00:04:11,190 --> 00:04:08,480

i'm enzo the baker

96

00:04:12,630 --> 00:04:11,200

i come i i i bring a cake

97

00:04:14,710 --> 00:04:12,640

and you're like

98

00:04:16,629 --> 00:04:14,720

what'd i bad things about going down

99

00:04:18,870 --> 00:04:16,639

here man about to be trouble here about

100

00:04:21,189 --> 00:04:18,880

to be trouble there's trouble on the way

101

00:04:23,909 --> 00:04:21,199

oh if there'll be trouble i stay

102

00:04:25,189 --> 00:04:23,919

for your father for your father

103

00:04:26,390 --> 00:04:25,199

so

104

00:04:29,430 --> 00:04:26,400

all right

105

00:04:32,870 --> 00:04:30,950

whenever i'm with dj we're doing the

106

00:04:35,030 --> 00:04:32,880

same it's the same thing so it's all

107

00:04:36,230 --> 00:04:35,040

good man it's all good let's get it yeah

108

00:04:39,830 --> 00:04:36,240

all right

109

00:04:41,590 --> 00:04:39,840

get serious now

110

00:04:44,390 --> 00:04:41,600

we're gonna we're gonna start in my

111

00:04:46,070 --> 00:04:44,400

paisan uh madolooni we're gonna start

112

00:04:47,430 --> 00:04:46,080

talking about some serious stuff here so

113

00:04:49,830 --> 00:04:47,440

we are mike

114

00:04:52,629 --> 00:04:49,840

yes we're gonna get serious man

115

00:04:54,469 --> 00:04:52,639

can we talk about baby yogurt

116

00:04:57,030 --> 00:04:54,479

baby yoda's gonna come in and the

117

00:04:58,629 --> 00:04:57,040

beautiful the amazing the positive the

118

00:05:01,830 --> 00:04:58,639

incomparable akashi chris is going to

119

00:05:03,749 --> 00:05:01,840

come in but uh nonetheless um right now

120

00:05:06,070 --> 00:05:03,759

mike i have been sort of looking into

121

00:05:08,390 --> 00:05:06,080

this notion of singularity in

122

00:05:10,950 --> 00:05:08,400

anticipation of you coming on

123

00:05:12,550 --> 00:05:10,960

and as far as i can tell if i understand

124

00:05:15,189 --> 00:05:12,560

this correctly

125

00:05:17,830 --> 00:05:15,199

if i were to come to the singularity lab

126

00:05:21,189 --> 00:05:17,840

i would come to the singularity lab

127

00:05:22,230 --> 00:05:21,199

you make sure that i'm divorced i emerge

128

00:05:25,189 --> 00:05:22,240

single

129

00:05:27,510 --> 00:05:25,199

that makes me eligible as far as i

130

00:05:29,830 --> 00:05:27,520

understand your theory for hybridization

131

00:05:31,990 --> 00:05:29,840

you could send me out when the et's show

132

00:05:34,790 --> 00:05:32,000

up you you have me breed with one of

133

00:05:37,430 --> 00:05:34,800

theirs and uh and that's the whole idea

134

00:05:40,310 --> 00:05:37,440

is to to promote singularity therefore

135

00:05:42,629 --> 00:05:40,320

that i can sort of procreate with an

136

00:05:43,909 --> 00:05:42,639

extraterrestrial that's right is any of

137

00:05:46,150 --> 00:05:43,919

that incorrect that's right that's right

138

00:05:49,110 --> 00:05:46,160

well that's that's the entire arc of the

139

00:05:52,469 --> 00:05:49,120

the the series but thank you for ruining

140

00:05:54,469 --> 00:05:52,479

it for everyone because we well i what i

141

00:05:56,150 --> 00:05:54,479

attempt to do is build on on this

142

00:05:58,870 --> 00:05:56,160

concept but you've just destroyed the

143

00:06:00,390 --> 00:05:58,880

entire uh the entire arc of the show so

144

00:06:01,350 --> 00:06:00,400

thank you for that it was good to see if

145

00:06:04,469 --> 00:06:01,360

my wife

146

00:06:06,309 --> 00:06:04,479

katie can you grab me a tissue

147

00:06:09,029 --> 00:06:06,319

i think i think she's not getting to

148

00:06:10,790 --> 00:06:09,039

grimaldi's right now so we can't but uh

149

00:06:13,990 --> 00:06:10,800

but

150

00:06:15,350 --> 00:06:14,000

i kid of course that is that is not that

151
00:06:17,909 --> 00:06:15,360
is not the

152
00:06:18,790 --> 00:06:17,919
theme of the show per se

153
00:06:23,430 --> 00:06:18,800
now

154
00:06:26,309 --> 00:06:23,440
for me to for me to

155
00:06:27,830 --> 00:06:26,319
out handedly outright just just throw

156
00:06:29,830 --> 00:06:27,840
that to the ground i couldn't do it

157
00:06:32,309 --> 00:06:29,840
because that's we're we're very open to

158
00:06:33,670 --> 00:06:32,319
the possibilities at the singularity lab

159
00:06:35,909 --> 00:06:33,680
okay well hey

160
00:06:39,430 --> 00:06:35,919
bring me some evidence

161
00:06:40,870 --> 00:06:39,440
bring me data we need more data

162
00:06:43,990 --> 00:06:40,880
i want to be able to put it on the

163
00:06:45,749 --> 00:06:44,000

center's desk and go there i proved it

164

00:06:47,350 --> 00:06:45,759

yeah okay nathan it's your turn go ahead

165

00:06:48,390 --> 00:06:47,360

sir

166

00:06:50,230 --> 00:06:48,400

yeah i mean

167

00:06:51,510 --> 00:06:50,240

michael my my sort of burning question

168

00:06:52,870 --> 00:06:51,520

here is uh

169

00:06:54,309 --> 00:06:52,880

you know

170

00:06:56,150 --> 00:06:54,319

do you guys keep the headphones on

171

00:06:58,230 --> 00:06:56,160

kristen and michael when you just i know

172

00:07:00,710 --> 00:06:58,240

the bedroom's right there right so

173

00:07:03,670 --> 00:07:00,720

we're in the bedroom yes

174

00:07:05,589 --> 00:07:03,680

yes it's just all the time right correct

175

00:07:07,350 --> 00:07:05,599

correct it's it actually helps because

176

00:07:09,430 --> 00:07:07,360

this way we can only communicate to one

177

00:07:12,150 --> 00:07:09,440

another while we're live streaming

178

00:07:19,270 --> 00:07:12,160

uh it's it's what we found is it's a key

179

00:07:23,029 --> 00:07:21,430

keep them on

180

00:07:24,390 --> 00:07:23,039

if i'm upset she doesn't have to hear

181

00:07:26,230 --> 00:07:24,400

about it if she's upset i don't have to

182

00:07:27,670 --> 00:07:26,240

hear about it and then we just and then

183

00:07:29,589 --> 00:07:27,680

we live stream once a week and then we

184

00:07:31,350 --> 00:07:29,599

work out our marital problems uh in

185

00:07:33,510 --> 00:07:31,360

front of you know the audience it's

186

00:07:36,070 --> 00:07:33,520

great to me yeah and yeah how close are

187

00:07:38,390 --> 00:07:36,080

you guys to the to the new place

188

00:07:39,189 --> 00:07:38,400

very close we're super excited we've got

189

00:07:40,230 --> 00:07:39,199

uh

190

00:07:41,990 --> 00:07:40,240

we're

191

00:07:43,749 --> 00:07:42,000

we've never built a house before and

192

00:07:45,110 --> 00:07:43,759

we're building a house now we actually

193

00:07:46,950 --> 00:07:45,120

stumbled upon it after it was already

194

00:07:49,670 --> 00:07:46,960

being built so we none of the specs were

195

00:07:50,869 --> 00:07:49,680

ours we didn't design anything um but

196

00:07:53,589 --> 00:07:50,879

we're super excited about it we're

197

00:07:55,670 --> 00:07:53,599

currently in living in 650 square feet

198

00:07:57,510 --> 00:07:55,680

with three teenagers a 16 year old two

199

00:07:59,990 --> 00:07:57,520

18 year olds are our children

200

00:08:01,189 --> 00:08:00,000

um and so this is going to be this is

201
00:08:04,150 --> 00:08:01,199
going to allow us to spread out a little

202
00:08:05,830 --> 00:08:04,160
bit um not hate each other as a family

203
00:08:08,070 --> 00:08:05,840
it's going to be great huge that's

204
00:08:10,469 --> 00:08:08,080
awesome hey mike before we get into the

205
00:08:12,710 --> 00:08:10,479
the ufo talk i really am curious because

206
00:08:14,710 --> 00:08:12,720
if i understood correctly in prior

207
00:08:16,629 --> 00:08:14,720
discussions that you're in digital

208
00:08:19,029 --> 00:08:16,639
marketing if i'm not mistaken that's

209
00:08:21,589 --> 00:08:19,039
correct sir um i do charge for my

210
00:08:23,430 --> 00:08:21,599
services so if if this was he's gonna be

211
00:08:25,909 --> 00:08:23,440
billing us for this now

212
00:08:26,430 --> 00:08:25,919
oh my god i hope you're cheaper than my

213
00:08:29,670 --> 00:08:26,440

attorney

214

00:08:31,589 --> 00:08:29,680

[Laughter]

215

00:08:33,589 --> 00:08:31,599

brilliant move yeah

216

00:08:36,389 --> 00:08:33,599

go on you're actually on the clock now

217

00:08:38,790 --> 00:08:36,399

dj luis if you're sending me an invoice

218

00:08:40,790 --> 00:08:38,800

i'm going to put return sender on it go

219

00:08:42,550 --> 00:08:40,800

ahead

220

00:08:44,710 --> 00:08:42,560

uh no yeah that's my date that's my day

221

00:08:47,509 --> 00:08:44,720

gig i uh i own a small boutique

222

00:08:50,230 --> 00:08:47,519

marketing agency where i help uh

223

00:08:51,269 --> 00:08:50,240

entrepreneurs i help uh most the

224

00:08:53,269 --> 00:08:51,279

majority of my business actually

225

00:08:55,910 --> 00:08:53,279

photographers who teach people how to do

226

00:08:58,550 --> 00:08:55,920

photography and so i run facebook ads

227

00:09:00,389 --> 00:08:58,560

and i help them uh i help them get

228

00:09:01,590 --> 00:09:00,399

clients for their businesses yeah that's

229

00:09:03,110 --> 00:09:01,600

pretty much it

230

00:09:04,550 --> 00:09:03,120

that's i was i was really curious

231

00:09:06,870 --> 00:09:04,560

because i i

232

00:09:10,150 --> 00:09:06,880

think i i'm not sure exactly how you and

233

00:09:12,310 --> 00:09:10,160

luis connected initially on ucr but but

234

00:09:14,710 --> 00:09:12,320

perhaps you'd like to tell about that

235

00:09:17,110 --> 00:09:14,720

because uh you guys are your show's

236

00:09:19,190 --> 00:09:17,120

amazing your show is like uh we have a

237

00:09:21,110 --> 00:09:19,200

dynamic like you and nathan you know i'm

238

00:09:24,310 --> 00:09:21,120

saying like we have we have one of us

239

00:09:26,389 --> 00:09:24,320

who's absolutely insane uh that's you dj

240

00:09:29,750 --> 00:09:26,399

that's you and then we have the more

241

00:09:30,870 --> 00:09:29,760

grounded the more grounded one uh that's

242

00:09:32,630 --> 00:09:30,880

nathan

243

00:09:36,070 --> 00:09:32,640

um and so

244

00:09:37,750 --> 00:09:36,080

yeah no luis and i uh so i was i was

245

00:09:39,670 --> 00:09:37,760

doing some work for the debrief and i

246

00:09:41,190 --> 00:09:39,680

was helping them to get their youtube

247

00:09:45,030 --> 00:09:41,200

channel off the ground

248

00:09:47,509 --> 00:09:45,040

uh and then luis i guess probably saw me

249

00:09:49,750 --> 00:09:47,519

there and then he reached out to me and

250

00:09:51,350 --> 00:09:49,760

see and asked if i wanted to come on do

251
00:09:52,310 --> 00:09:51,360
an interview so we did an interview and

252
00:09:54,389 --> 00:09:52,320
like the

253
00:09:56,230 --> 00:09:54,399
the the people in the chat were like you

254
00:09:57,350 --> 00:09:56,240
guys have amazing chemistry and and you

255
00:09:58,870 --> 00:09:57,360
know i was like i already have a wife

256
00:09:59,750 --> 00:09:58,880
and they were like no but you do it

257
00:10:00,870 --> 00:09:59,760
anyway

258
00:10:02,790 --> 00:10:00,880
and so

259
00:10:04,710 --> 00:10:02,800
they were like uh yeah we were just like

260
00:10:06,230 --> 00:10:04,720
okay cool like we do we just found that

261
00:10:09,190 --> 00:10:06,240
we had this really cool chemistry and

262
00:10:12,230 --> 00:10:09,200
then so he approached me about his um

263
00:10:13,829 --> 00:10:12,240

insane idea of this weird concept called

264

00:10:15,750 --> 00:10:13,839

the big phone home

265

00:10:17,030 --> 00:10:15,760

and i was like that's stupid he was like

266

00:10:19,990 --> 00:10:17,040

no it's not and i was like you're right

267

00:10:22,790 --> 00:10:20,000

it's not and uh he was like would you be

268

00:10:25,350 --> 00:10:22,800

interested in helping me do to host it

269

00:10:29,030 --> 00:10:25,360

and then he's like and build the website

270

00:10:33,350 --> 00:10:30,949

and do like you know several thousand

271

00:10:34,949 --> 00:10:33,360

dollars worth of work purpose

272

00:10:37,509 --> 00:10:34,959

exactly that's exactly right and i was

273

00:10:39,509 --> 00:10:37,519

like sure man like it's you know for for

274

00:10:41,910 --> 00:10:39,519

me the ufo topic has always been an

275

00:10:44,069 --> 00:10:41,920

interesting topic um and i was like you

276

00:10:47,190 --> 00:10:44,079

know let's let's do this this is this is

277

00:10:48,389 --> 00:10:47,200

i'm i want i want to know more and uh if

278

00:10:50,150 --> 00:10:48,399

we can pressure our government into

279

00:10:53,269 --> 00:10:50,160

giving us more information amazing like

280

00:10:54,870 --> 00:10:53,279

it's a cool idea and i had no idea what

281

00:10:56,710 --> 00:10:54,880

it would turn into

282

00:10:59,750 --> 00:10:56,720

no idea we'd end up doing another one no

283

00:11:02,069 --> 00:10:59,760

idea we'd be streaming five days a week

284

00:11:03,350 --> 00:11:02,079

incredible uh for quite a while it was a

285

00:11:06,630 --> 00:11:03,360

it was a

286

00:11:08,790 --> 00:11:06,640

yeah it all happened very quickly

287

00:11:10,710 --> 00:11:08,800

and you're gonna launch other other uh

288

00:11:12,630 --> 00:11:10,720

personalities as well obviously you've

289

00:11:13,990 --> 00:11:12,640

already you've already done that so i

290

00:11:16,470 --> 00:11:14,000

think that's super exciting and you guys

291

00:11:17,430 --> 00:11:16,480

do have a great chemistry uh you know

292

00:11:20,470 --> 00:11:17,440

nathan

293

00:11:22,949 --> 00:11:20,480

you know sort of stood on this topic for

294

00:11:26,710 --> 00:11:22,959

many years before jumping in

295

00:11:29,829 --> 00:11:26,720

swan diving in uh both uh handsome feet

296

00:11:32,230 --> 00:11:29,839

what what was uh the moment for you

297

00:11:33,990 --> 00:11:32,240

where you said because obviously i'm

298

00:11:34,949 --> 00:11:34,000

assuming that you were consuming this

299

00:11:38,389 --> 00:11:34,959

product

300

00:11:41,990 --> 00:11:38,399

meaning ufo media prior to you diving in

301
00:11:44,150 --> 00:11:42,000
um what was that moment honestly um okay

302
00:11:47,670 --> 00:11:44,160
so i actually had a sighting of my own

303
00:11:50,870 --> 00:11:47,680
when i was 11. my whole family

304
00:11:53,030 --> 00:11:50,880
uh saw some pretty wild stuff we were on

305
00:11:55,190 --> 00:11:53,040
the gulf coast

306
00:11:57,350 --> 00:11:55,200
um and we saw some

307
00:11:59,509 --> 00:11:57,360
multiple different colored lights way

308
00:12:01,910 --> 00:11:59,519
over the ocean doing some truly

309
00:12:04,389 --> 00:12:01,920
extraordinary things and my uncle my

310
00:12:07,030 --> 00:12:04,399
mother my aunt like the whole family saw

311
00:12:08,230 --> 00:12:07,040
this thing and we had no idea what to

312
00:12:09,110 --> 00:12:08,240
make of it

313
00:12:10,550 --> 00:12:09,120

um

314

00:12:13,190 --> 00:12:10,560

that was really exciting that that's

315

00:12:15,430 --> 00:12:13,200

what kind of you know took my interest

316

00:12:16,550 --> 00:12:15,440

uh when i was a kid but i had always

317

00:12:19,190 --> 00:12:16,560

been like i was always into the loch

318

00:12:21,990 --> 00:12:19,200

ness monster i was always into the

319

00:12:22,949 --> 00:12:22,000

pyramids like any mystery on earth like

320

00:12:26,150 --> 00:12:22,959

these are the things that i was

321

00:12:28,710 --> 00:12:26,160

fascinated by a huge sci-fi nerd um you

322

00:12:30,470 --> 00:12:28,720

know when i ditch the tie i wear yoda

323

00:12:33,269 --> 00:12:30,480

um yeah

324

00:12:34,710 --> 00:12:33,279

so that's kind of like that's kind of my

325

00:12:37,190 --> 00:12:34,720

my beginning to it and then you know and

326

00:12:38,790 --> 00:12:37,200

then i went off to college and then like

327

00:12:41,350 --> 00:12:38,800

completely forgot about all the cool

328

00:12:44,069 --> 00:12:41,360

stuff i was into and tried to you know

329

00:12:45,750 --> 00:12:44,079

blend in and be a part of society and

330

00:12:47,670 --> 00:12:45,760

then i got irritated with that once i

331

00:12:49,430 --> 00:12:47,680

started taking philosophy and psychology

332

00:12:50,710 --> 00:12:49,440

classes in college and i ditched college

333

00:12:52,389 --> 00:12:50,720

and went to hike the appalachian trail

334

00:12:55,430 --> 00:12:52,399

and i grew up my dreadlocks

335

00:12:56,310 --> 00:12:55,440

and i hitchhiked across the country and

336

00:12:58,150 --> 00:12:56,320

then

337

00:13:03,670 --> 00:12:58,160

i love this

338

00:13:05,350 --> 00:13:03,680

yeah i did uh i did 800 miles to the

339

00:13:07,750 --> 00:13:05,360

appalachian trail i did 100 miles

340

00:13:08,710 --> 00:13:07,760

barefoot what uh because i thought that

341

00:13:11,269 --> 00:13:08,720

would be cool

342

00:13:14,069 --> 00:13:11,279

mataloni i love barefoot hiking do you

343

00:13:15,750 --> 00:13:14,079

really yes i do i have i have like

344

00:13:17,990 --> 00:13:15,760

probably photos and videos of me doing

345

00:13:21,030 --> 00:13:18,000

that love it yeah we are brothers from

346

00:13:23,110 --> 00:13:21,040

another uncle yeah this is where

347

00:13:24,710 --> 00:13:23,120

one of us is good looking

348

00:13:26,310 --> 00:13:24,720

anyway yeah continue on with the story

349

00:13:28,710 --> 00:13:26,320

i'm pretty sure we're both pretty damn

350

00:13:30,790 --> 00:13:28,720

hot up in y'all look at those shades man

351

00:13:32,790 --> 00:13:30,800

um yeah look at the shades look at the

352

00:13:34,550 --> 00:13:32,800

shades okay not not so much the profile

353

00:13:37,670 --> 00:13:34,560

view but go back to the straight go back

354

00:13:40,870 --> 00:13:39,030

he did say we're gonna make him cry so

355

00:13:42,710 --> 00:13:40,880

here we go

356

00:13:44,150 --> 00:13:42,720

if mataloni thinks he's taking over the

357

00:13:45,829 --> 00:13:44,160

show there's no way i understand that

358

00:13:47,829 --> 00:13:45,839

energy what is this the michael madden

359

00:13:53,350 --> 00:13:47,839

show i know what he's trying to do it's

360

00:13:59,509 --> 00:13:55,430

oh this is fun i'm like where do you

361

00:14:03,509 --> 00:14:01,269

he's like i am not telling this dude

362

00:14:05,990 --> 00:14:03,519

anywhere within 700 miles of what city i

363

00:14:08,150 --> 00:14:06,000

live in yeah but i bet it's tampa st

364

00:14:10,310 --> 00:14:08,160

clearwater well ufo twitter is known for

365

00:14:12,949 --> 00:14:10,320

doxxing people so i just i just go ahead

366

00:14:14,949 --> 00:14:12,959

and dox myself i'm in orlando

367

00:14:17,670 --> 00:14:14,959

oh so tampa state clearwater wasn't very

368

00:14:21,030 --> 00:14:17,680

far off not far off from destin what's

369

00:14:23,430 --> 00:14:21,040

up oh you're in destin

370

00:14:25,269 --> 00:14:23,440

wow that's like almost where i saw my

371

00:14:27,350 --> 00:14:25,279

freaking ufos

372

00:14:28,870 --> 00:14:27,360

emerald coast

373

00:14:31,189 --> 00:14:28,880

yeah i can't remember i'll have to i'll

374

00:14:33,030 --> 00:14:31,199

have to find out from my mom or my dad

375

00:14:34,389 --> 00:14:33,040

he he remembers it more vividly than i

376

00:14:36,230 --> 00:14:34,399

do

377

00:14:38,069 --> 00:14:36,240

what was your reaction were there like

378

00:14:40,069 --> 00:14:38,079

was there holy s

379

00:14:42,710 --> 00:14:40,079

coming out of what we were in we saw

380

00:14:45,189 --> 00:14:42,720

like it was multiple objects multiple

381

00:14:46,629 --> 00:14:45,199

colors um and then the movements the

382

00:14:48,870 --> 00:14:46,639

patterns of movement were just

383

00:14:51,269 --> 00:14:48,880

extraordinary we were seeing like 90

384

00:14:53,910 --> 00:14:51,279

degree turns and it was it was something

385

00:14:56,310 --> 00:14:53,920

else man like i i can't believe it i

386

00:14:58,150 --> 00:14:56,320

can't believe what we saw well

387

00:15:00,949 --> 00:14:58,160

i had a sighting as well but ironically

388

00:15:03,509 --> 00:15:00,959

like mcgrillen and luisa sightings are

389

00:15:05,030 --> 00:15:03,519

the two most amazing sightings

390

00:15:08,790 --> 00:15:05,040

that i've heard on from sort of like

391

00:15:10,389 --> 00:15:08,800

these uh content creator types uh

392

00:15:12,069 --> 00:15:10,399

yeah louise is wild

393

00:15:13,509 --> 00:15:12,079

he talks about like you know when he

394

00:15:15,590 --> 00:15:13,519

when people talk about nuts and bolts

395

00:15:18,790 --> 00:15:15,600

like that's that's what luis saw he saw

396

00:15:20,949 --> 00:15:18,800

some nuts and bolts [h__h] i was like

397

00:15:23,350 --> 00:15:20,959

how on earth do you how on earth do we

398

00:15:25,750 --> 00:15:23,360

have some sort of ufo that is nuts and

399

00:15:27,590 --> 00:15:25,760

bolts like i'm thinking i'm thinking

400

00:15:30,710 --> 00:15:27,600

meta materials i'm thinking molecular

401
00:15:32,870 --> 00:15:30,720
atomic structures with no seams and [h__h]

402
00:15:33,990 --> 00:15:32,880
and he's seeing like bolts like you know

403
00:15:36,230 --> 00:15:34,000
crazy

404
00:15:37,829 --> 00:15:36,240
anyway it was he has an extraordinary

405
00:15:40,389 --> 00:15:37,839
extraordinary experience

406
00:15:41,910 --> 00:15:40,399
yeah minutes minutes long the key to it

407
00:15:44,389 --> 00:15:41,920
i think is the length of it like my

408
00:15:46,710 --> 00:15:44,399
sighting i had when i was 14 was a

409
00:15:48,550 --> 00:15:46,720
couple of seconds of seeing something

410
00:15:50,949 --> 00:15:48,560
that i knew was anomalous just from

411
00:15:52,870 --> 00:15:50,959
being a kid that was an aviation junkie

412
00:15:55,430 --> 00:15:52,880
from from a young child

413
00:15:57,910 --> 00:15:55,440

um and and what luis described was

414

00:15:59,910 --> 00:15:57,920

minutes long so i mean you're like oh my

415

00:16:01,670 --> 00:15:59,920

god it has this and it has that and it's

416

00:16:03,829 --> 00:16:01,680

doing this and i see there's all kinds

417

00:16:05,430 --> 00:16:03,839

of details that you could take in after

418

00:16:08,470 --> 00:16:05,440

your mouth closes because you're like

419

00:16:10,230 --> 00:16:08,480

right mm-hmm yeah it's a fascinating

420

00:16:12,470 --> 00:16:10,240

topic though yeah

421

00:16:14,069 --> 00:16:12,480

a lot of hot airs come at him i'm sorry

422

00:16:15,910 --> 00:16:14,079

i could listen to you guys talk all day

423

00:16:18,150 --> 00:16:15,920

i think it's great uh but i'm really

424

00:16:19,910 --> 00:16:18,160

curious michael so on your show you you

425

00:16:21,350 --> 00:16:19,920

know focused on technology futurism that

426

00:16:22,870 --> 00:16:21,360

kind of stuff

427

00:16:24,870 --> 00:16:22,880

is it becoming more

428

00:16:27,670 --> 00:16:24,880

ufo-centric i mean or do you

429

00:16:32,310 --> 00:16:27,680

start it yeah so it's actually the goal

430

00:16:34,550 --> 00:16:32,320

is to um to shift it away from ufos uh

431

00:16:36,629 --> 00:16:34,560

even though i'm i am fascinated with it

432

00:16:38,550 --> 00:16:36,639

my goal is to really and if there's a

433

00:16:40,870 --> 00:16:38,560

ufo connection

434

00:16:42,710 --> 00:16:40,880

to the singularity to because you know

435

00:16:45,269 --> 00:16:42,720

this fascinates me like this whole idea

436

00:16:47,509 --> 00:16:45,279

of future humans and and post post

437

00:16:49,189 --> 00:16:47,519

singularity humanity coming back from

438

00:16:51,110 --> 00:16:49,199

the future like maybe there is this

439

00:16:52,310 --> 00:16:51,120

connection and that's kind of what oh

440

00:16:54,550 --> 00:16:52,320

because you know when i got into the

441

00:16:56,790 --> 00:16:54,560

debrief and then i got back into ufos

442

00:16:58,230 --> 00:16:56,800

and then what i wanted to do was kind of

443

00:17:00,710 --> 00:16:58,240

like what the debrief does like they

444

00:17:02,949 --> 00:17:00,720

don't just focus on ufos they focus on

445

00:17:05,029 --> 00:17:02,959

uh defense they focus on technology they

446

00:17:08,069 --> 00:17:05,039

focus on science and so i want to do all

447

00:17:10,470 --> 00:17:08,079

those kinds of things but i've just been

448

00:17:12,309 --> 00:17:10,480

you know really preoccupied with ufos

449

00:17:14,710 --> 00:17:12,319

lately so that's why the show's been a

450

00:17:16,470 --> 00:17:14,720

lot of ufos but we do

451
00:17:18,390 --> 00:17:16,480
you know want to continue to focus on

452
00:17:20,549 --> 00:17:18,400
and develop the show

453
00:17:23,110 --> 00:17:20,559
you know when it comes to breaking

454
00:17:24,549 --> 00:17:23,120
technology and and science and futurism

455
00:17:26,789 --> 00:17:24,559
and one of the things that i love about

456
00:17:29,190 --> 00:17:26,799
futurism so much is it's it's everyone's

457
00:17:31,430 --> 00:17:29,200
terrible at it like nobody nobody's ever

458
00:17:32,870 --> 00:17:31,440
been very successful at futurism so i

459
00:17:34,470 --> 00:17:32,880
love the fact that we can kind of be

460
00:17:36,390 --> 00:17:34,480
funny and silly and have a good time and

461
00:17:38,789 --> 00:17:36,400
be entertaining when talking about

462
00:17:40,870 --> 00:17:38,799
futurism because everyone's so bad at it

463
00:17:41,990 --> 00:17:40,880

we're never going to get it right yeah

464

00:17:43,750 --> 00:17:42,000

you know we're horrible at that

465

00:17:46,230 --> 00:17:43,760

predictions are even humans are very

466

00:17:47,830 --> 00:17:46,240

short-sighted right we uh we can't

467

00:17:49,430 --> 00:17:47,840

really think or imagine what the future

468

00:17:51,510 --> 00:17:49,440

will be like i mean a few people get it

469

00:17:53,510 --> 00:17:51,520

right but most people fail most people

470

00:17:55,110 --> 00:17:53,520

do we went back in one of our early

471

00:17:56,950 --> 00:17:55,120

episodes and we were going through all

472

00:17:59,029 --> 00:17:56,960

these really bad predictions and one of

473

00:18:01,029 --> 00:17:59,039

them was from like a

474

00:18:03,190 --> 00:18:01,039

head of state in the uk or something and

475

00:18:05,190 --> 00:18:03,200

he was talking about how railroad will

476

00:18:06,710 --> 00:18:05,200

never be a major form of transportation

477

00:18:08,789 --> 00:18:06,720

due to the potential for human

478

00:18:12,150 --> 00:18:08,799

asphyxiation yeah like human

479

00:18:16,070 --> 00:18:14,150

get the wind in the train dude's gonna

480

00:18:16,870 --> 00:18:16,080

kill you think about it

481

00:18:19,590 --> 00:18:16,880

okay

482

00:18:21,029 --> 00:18:19,600

just just think about it i love it man i

483

00:18:23,990 --> 00:18:21,039

think mataloni's buzzed i'm kind of

484

00:18:25,990 --> 00:18:24,000

digging this uh mike can i kid would you

485

00:18:29,590 --> 00:18:26,000

toast me please i'll tell you

486

00:18:33,190 --> 00:18:31,270

what i mean by futures and futurism is

487

00:18:35,830 --> 00:18:33,200

just the idea of thinking about the

488

00:18:37,510 --> 00:18:35,840

future what what's coming and if in

489

00:18:40,390 --> 00:18:37,520

trying to put the pieces together and

490

00:18:43,110 --> 00:18:40,400

the and the momentum and the and the

491

00:18:44,870 --> 00:18:43,120

direction of human civilization today

492

00:18:46,310 --> 00:18:44,880

and trying to project forward what it

493

00:18:48,470 --> 00:18:46,320

might be and i think you make a great

494

00:18:50,390 --> 00:18:48,480

point nathan that it's very difficult to

495

00:18:52,470 --> 00:18:50,400

do that because

496

00:18:54,230 --> 00:18:52,480

of exponential growth and things change

497

00:18:55,990 --> 00:18:54,240

and things you haven't conceived of

498

00:18:57,669 --> 00:18:56,000

today that will exist tomorrow will have

499

00:19:00,310 --> 00:18:57,679

a huge impact on the next 10 years and

500

00:19:03,510 --> 00:19:00,320

it's very difficult to to scope that

501
00:19:05,110 --> 00:19:03,520
that's right that's right

502
00:19:06,310 --> 00:19:05,120
so uh

503
00:19:08,310 --> 00:19:06,320
if you have a show on the singularity

504
00:19:11,029 --> 00:19:08,320
lab you must be familiar with the works

505
00:19:13,350 --> 00:19:11,039
of lee kurzweil oh yeah so you know yeah

506
00:19:15,430 --> 00:19:13,360
there it is back there nice yeah so how

507
00:19:16,710 --> 00:19:15,440
close in your you know

508
00:19:17,990 --> 00:19:16,720
everybody we're just talking about

509
00:19:19,669 --> 00:19:18,000
predictions here but how close do you

510
00:19:21,990 --> 00:19:19,679
think we might be to

511
00:19:23,430 --> 00:19:22,000
something that might be that or

512
00:19:26,870 --> 00:19:23,440
achieving artificial general

513
00:19:32,390 --> 00:19:29,590

don't celebrate that mike i studied i

514

00:19:33,669 --> 00:19:32,400

studied david hansen in hanson robotics

515

00:19:36,150 --> 00:19:33,679

oh yeah

516

00:19:37,909 --> 00:19:36,160

and and boston dynamics and bob raven's

517

00:19:42,310 --> 00:19:37,919

boston right now he's

518

00:19:46,310 --> 00:19:44,549

it's going to be it's going to be sexy

519

00:19:48,550 --> 00:19:46,320

what happens when it's so sexy when

520

00:19:51,110 --> 00:19:48,560

sophia meets that titan thing

521

00:19:53,510 --> 00:19:51,120

[Laughter]

522

00:19:55,029 --> 00:19:53,520

i'm serious man i mean i think i i think

523

00:20:01,510 --> 00:19:55,039

nathan and i have

524

00:20:02,310 --> 00:20:01,520

a.i based uh and actually akashi does as

525

00:20:04,950 --> 00:20:02,320

well

526

00:20:07,510 --> 00:20:04,960

has some concerns about what

527

00:20:09,350 --> 00:20:07,520

what the future of ai is and i think i

528

00:20:11,750 --> 00:20:09,360

did a couple of papers about that a few

529

00:20:13,590 --> 00:20:11,760

semesters ago you did

530

00:20:16,710 --> 00:20:13,600

yeah man i just graduated oh you're

531

00:20:17,990 --> 00:20:16,720

smart too look at this guy no no no no

532

00:20:19,669 --> 00:20:18,000

no no

533

00:20:24,710 --> 00:20:19,679

no

534

00:20:25,909 --> 00:20:24,720

well obviously you weren't paying

535

00:20:27,669 --> 00:20:25,919

attention

536

00:20:28,950 --> 00:20:27,679

no i'm just kidding

537

00:20:29,669 --> 00:20:28,960

all right

538

00:20:33,350 --> 00:20:29,679

no

539

00:20:35,270 --> 00:20:33,360

from a comedic nature but i have a i

540

00:20:38,710 --> 00:20:35,280

have a couple tricks in my sleeve mm-hmm

541

00:20:41,080 --> 00:20:38,720

so he's wily like that he is

542

00:20:41,340 --> 00:20:41,090

and listening skills are quite

543

00:20:43,350 --> 00:20:41,350

[Music]

544

00:20:45,029 --> 00:20:43,360

[Laughter]

545

00:20:47,270 --> 00:20:45,039

mike um

546

00:20:48,630 --> 00:20:47,280

we have some nathan actually hopefully

547

00:20:50,710 --> 00:20:48,640

he's going to bring this out later

548

00:20:52,549 --> 00:20:50,720

nathan i really hope you do because i

549

00:20:55,029 --> 00:20:52,559

really want to hear you bounce this

550

00:20:56,470 --> 00:20:55,039

hypothesis off mike and see what his

551
00:20:57,830 --> 00:20:56,480
thoughts on her because you expressed

552
00:20:59,270 --> 00:20:57,840
some concerns

553
00:21:02,470 --> 00:20:59,280
regarding

554
00:21:04,310 --> 00:21:02,480
how the intelligence would approach us

555
00:21:06,950 --> 00:21:04,320
but before we get to that because we're

556
00:21:11,350 --> 00:21:06,960
on some singles i'm so excited

557
00:21:12,710 --> 00:21:11,360
up in here yes do you have concerns mike

558
00:21:14,950 --> 00:21:12,720
about

559
00:21:16,390 --> 00:21:14,960
general ai and what that could mean

560
00:21:18,950 --> 00:21:16,400
because i will tell you

561
00:21:21,190 --> 00:21:18,960
that if you look at some of the writings

562
00:21:23,750 --> 00:21:21,200
and i don't know if it's scientific how

563
00:21:24,670 --> 00:21:23,760

long is this question yeah right okay go

564

00:21:25,909 --> 00:21:24,680

ahead

565

00:21:31,510 --> 00:21:25,919

[Music]

566

00:21:39,029 --> 00:21:33,029

in order to tackle this question i think

567

00:21:45,510 --> 00:21:40,310

allow me to

568

00:21:47,990 --> 00:21:46,549

so

569

00:21:50,470 --> 00:21:48,000

just for just for folks who don't know

570

00:21:52,470 --> 00:21:50,480

give me give me 10 seconds uh

571

00:21:53,990 --> 00:21:52,480

you have narrow ai which is like your

572

00:21:55,590 --> 00:21:54,000

facebook algorithm right and so that's

573

00:21:57,510 --> 00:21:55,600

what i do every day i run facebook ads

574

00:21:58,630 --> 00:21:57,520

and facebook finds people who are

575

00:22:01,029 --> 00:21:58,640

interested in the products that i'm

576

00:22:03,350 --> 00:22:01,039

selling and because they notice who's

577

00:22:04,950 --> 00:22:03,360

interested by clicks then it finds more

578

00:22:07,029 --> 00:22:04,960

people who are who are likely to click

579

00:22:09,190 --> 00:22:07,039

it's a very it's very intelligent but

580

00:22:12,310 --> 00:22:09,200

it's very narrow it's stupid in the in

581

00:22:13,990 --> 00:22:12,320

the in the in the um broad text but it's

582

00:22:15,029 --> 00:22:14,000

very smart in a very narrow text and

583

00:22:19,029 --> 00:22:15,039

then you have

584

00:22:21,830 --> 00:22:19,039

talking about is artificial general

585

00:22:24,630 --> 00:22:21,840

intelligence and that's like your c3po

586

00:22:27,190 --> 00:22:24,640

um that's like a a machine that can

587

00:22:29,909 --> 00:22:27,200

learn like a human being and and and

588

00:22:31,750 --> 00:22:29,919

respond to to stimuli and and solve

589

00:22:34,149 --> 00:22:31,760

problems like a human being can and then

590

00:22:35,750 --> 00:22:34,159

you have asi which is artificial super

591

00:22:38,470 --> 00:22:35,760

intelligence and if you've ever watched

592

00:22:40,710 --> 00:22:38,480

uh westworld uh in the last season they

593

00:22:42,149 --> 00:22:40,720

have that robot god that basically

594

00:22:44,149 --> 00:22:42,159

figures everything out for everybody

595

00:22:46,390 --> 00:22:44,159

that's that's an asi

596

00:22:48,070 --> 00:22:46,400

so what was your question

597

00:22:50,710 --> 00:22:48,080

so

598

00:22:53,430 --> 00:22:50,720

see you you made a big show madeloni and

599

00:22:55,750 --> 00:22:53,440

you got three flat tires right now

600

00:22:56,870 --> 00:22:55,760

okay

601
00:23:00,230 --> 00:22:56,880
pull over

602
00:23:04,470 --> 00:23:01,590
now that i've properly framed the

603
00:23:07,190 --> 00:23:04,480
question for you go on

604
00:23:09,590 --> 00:23:07,200
you totally bombed on the question

605
00:23:14,230 --> 00:23:09,600
i just saw i just saw two satellites

606
00:23:16,710 --> 00:23:14,240
crash in 100 mile orbit okay so anyway

607
00:23:19,830 --> 00:23:16,720
should we be

608
00:23:21,350 --> 00:23:19,840
what i'm talking about i started to type

609
00:23:23,110 --> 00:23:21,360
it here in the chat so that nathan could

610
00:23:24,470 --> 00:23:23,120
could read it but

611
00:23:26,549 --> 00:23:24,480
when you're applying humanistic

612
00:23:28,549 --> 00:23:26,559
tendencies to the programming of general

613
00:23:31,110 --> 00:23:28,559

ai and we know what those laws are you

614

00:23:33,830 --> 00:23:31,120

know there's that i think three laws

615

00:23:38,789 --> 00:23:33,840

that are are supposed to be applied to

616

00:23:41,750 --> 00:23:38,799

uh to a a general law right but

617

00:23:44,149 --> 00:23:41,760

what do you see are the dangers when we

618

00:23:46,390 --> 00:23:44,159

have a humanistic tendency and you apply

619

00:23:51,669 --> 00:23:46,400

that to general ai yeah that's a great

620

00:23:54,789 --> 00:23:53,350

when you apply it to when we're seeing

621

00:23:57,269 --> 00:23:54,799

the repercussions right now with narrow

622

00:23:59,430 --> 00:23:57,279

ai right we're seeing people in echo

623

00:24:01,110 --> 00:23:59,440

chambers and social media bubbles who

624

00:24:03,029 --> 00:24:01,120

are only getting re-fed back the

625

00:24:05,190 --> 00:24:03,039

information that they want to believe

626

00:24:07,430 --> 00:24:05,200

and their biases are confirmed

627

00:24:09,909 --> 00:24:07,440

right that's what's happening now with

628

00:24:12,789 --> 00:24:09,919

with narrow with with artificial narrow

629

00:24:14,390 --> 00:24:12,799

intelligence when we get to agi i think

630

00:24:17,190 --> 00:24:14,400

the question you're really asking is is

631

00:24:20,310 --> 00:24:17,200

it going to wake up is it going to

632

00:24:23,350 --> 00:24:20,320

become self-conscious or self-aware that

633

00:24:25,510 --> 00:24:23,360

it would uh potentially be like hey

634

00:24:28,870 --> 00:24:25,520

humans we don't need you anymore skynet

635

00:24:32,549 --> 00:24:28,880

right so i actually don't that's not a

636

00:24:36,470 --> 00:24:32,559

fear that i have i actually don't see

637

00:24:39,350 --> 00:24:36,480

that happening um humanistic tendency

638

00:24:42,070 --> 00:24:39,360

humanistic tendencies to be optimistic

639

00:24:43,909 --> 00:24:42,080

wait which no because you're dealing

640

00:24:46,149 --> 00:24:43,919

with you just you just express some

641

00:24:47,350 --> 00:24:46,159

concerns about the programming of narrow

642

00:24:49,269 --> 00:24:47,360

ai

643

00:24:52,230 --> 00:24:49,279

so what happens when you apply those

644

00:24:54,149 --> 00:24:52,240

same tendencies the business tendency

645

00:24:56,230 --> 00:24:54,159

the person who might just be evil but

646

00:24:58,390 --> 00:24:56,240

happens to have people working for him

647

00:25:03,190 --> 00:24:58,400

that are are willing to put you know

648

00:25:08,230 --> 00:25:06,070

evil evil bias or evil tendencies from

649

00:25:10,310 --> 00:25:08,240

from their human masters

650

00:25:12,470 --> 00:25:10,320

that's probably the bigger concern like

651
00:25:14,149 --> 00:25:12,480
that's that's probably

652
00:25:15,830 --> 00:25:14,159
what we need to be far more concerned

653
00:25:17,430 --> 00:25:15,840
about and that's one of the things that

654
00:25:19,350 --> 00:25:17,440
you know even even in my show

655
00:25:22,470 --> 00:25:19,360
introduction who's writing the software

656
00:25:24,870 --> 00:25:22,480
that will control the ai of the future

657
00:25:25,750 --> 00:25:24,880
and that's that's my biggest concern

658
00:25:26,950 --> 00:25:25,760
because

659
00:25:29,830 --> 00:25:26,960
we do

660
00:25:31,190 --> 00:25:29,840
know that self-serving capitalistic

661
00:25:32,149 --> 00:25:31,200
interests

662
00:25:33,430 --> 00:25:32,159
will

663
00:25:35,269 --> 00:25:33,440

be

664

00:25:38,549 --> 00:25:35,279

prioritized over

665

00:25:41,190 --> 00:25:38,559

the human um the human perspective but

666

00:25:42,470 --> 00:25:41,200

that being said that being said if we

667

00:25:43,669 --> 00:25:42,480

start to see

668

00:25:45,110 --> 00:25:43,679

and one of the things that everyone's so

669

00:25:46,789 --> 00:25:45,120

afraid of is

670

00:25:49,110 --> 00:25:46,799

uh robots are going to take over

671

00:25:51,110 --> 00:25:49,120

everything right robots are going to and

672

00:25:52,950 --> 00:25:51,120

this was uh you look at andrew yang like

673

00:25:54,710 --> 00:25:52,960

that's what his that's his entire

674

00:25:56,950 --> 00:25:54,720

platform was we were going to automate

675

00:26:00,310 --> 00:25:56,960

away all our jobs and that is happening

676

00:26:03,190 --> 00:26:00,320

in a factory setting plus ubi

677

00:26:04,710 --> 00:26:03,200

plus ubi right well that's but the ubi

678

00:26:05,909 --> 00:26:04,720

was supplemental to the jobs that were

679

00:26:08,310 --> 00:26:05,919

going to be lost to automation right

680

00:26:10,549 --> 00:26:08,320

that's the whole point and so when you

681

00:26:12,950 --> 00:26:10,559

when you have that coming at you you you

682

00:26:15,029 --> 00:26:12,960

have to think drastically when it comes

683

00:26:17,909 --> 00:26:15,039

to what's headed out now there are so

684

00:26:20,310 --> 00:26:17,919

many jobs that that can't be automated

685

00:26:23,830 --> 00:26:20,320

and we're also seeing this kind of weird

686

00:26:26,470 --> 00:26:23,840

interesting play between humans and ai

687

00:26:28,630 --> 00:26:26,480

and robots and and so you're going to

688

00:26:30,870 --> 00:26:28,640

see robots taking jobs but you're also

689

00:26:32,950 --> 00:26:30,880

going to be seeing higher level jobs of

690

00:26:35,350 --> 00:26:32,960

humans working with robots and working

691

00:26:36,870 --> 00:26:35,360

with ai so for example like right now

692

00:26:39,990 --> 00:26:36,880

even with the narrow ai that i'm using

693

00:26:41,909 --> 00:26:40,000

for marketing i still it's still dumb

694

00:26:44,070 --> 00:26:41,919

that i have to like if i wasn't there it

695

00:26:45,669 --> 00:26:44,080

would just crash and burn like i have to

696

00:26:48,149 --> 00:26:45,679

constantly be pushing buttons and

697

00:26:51,029 --> 00:26:48,159

pulling knobs and keeping it you know

698

00:26:53,669 --> 00:26:51,039

and and thinking strategically so when

699

00:26:55,909 --> 00:26:53,679

we have a gi

700

00:26:58,710 --> 00:26:55,919

i think it's going to be the same but

701
00:27:00,549 --> 00:26:58,720
exponentially bigger and again humans

702
00:27:03,110 --> 00:27:00,559
are terrible at futurism and i'm really

703
00:27:04,710 --> 00:27:03,120
dumb so i there's no way i could even

704
00:27:07,029 --> 00:27:04,720
come close to answering that question

705
00:27:08,950 --> 00:27:07,039
but what i can tell you is that

706
00:27:11,430 --> 00:27:08,960
what we're seeing now is going to be

707
00:27:13,909 --> 00:27:11,440
exacerbated and we need to create

708
00:27:17,110 --> 00:27:13,919
filters in order to ensure

709
00:27:18,549 --> 00:27:17,120
that you know the human uh you know on

710
00:27:21,269 --> 00:27:18,559
the bottom rung of the ladder is not

711
00:27:24,149 --> 00:27:21,279
left behind yeah i just want to before

712
00:27:28,070 --> 00:27:24,159
we bring in akashi chris uh the our

713
00:27:30,870 --> 00:27:28,080

amazing uh uh associate producer

714

00:27:33,350 --> 00:27:30,880

associates gotta say can i can i shout

715

00:27:35,830 --> 00:27:33,360

out akashi chris real quick because she

716

00:27:37,990 --> 00:27:35,840

has been so extraordinary in helping

717

00:27:40,070 --> 00:27:38,000

with ucr and the singularity lab and

718

00:27:42,710 --> 00:27:40,080

creating these amazing

719

00:27:46,149 --> 00:27:42,720

deep fakes uh under the tutelage of

720

00:27:48,149 --> 00:27:46,159

grant and uh like fact that she's been

721

00:27:50,070 --> 00:27:48,159

so supportive is just amazing so i just

722

00:27:51,750 --> 00:27:50,080

wanted to i just feel like i needed to

723

00:27:53,350 --> 00:27:51,760

give her a shout out because she's truly

724

00:27:56,310 --> 00:27:53,360

awesome how did she when did she start

725

00:27:58,470 --> 00:27:56,320

producing your stupid show she ca hey

726

00:28:00,710 --> 00:27:58,480

hey madalonie i'm kidding your ass is

727

00:28:02,149 --> 00:28:00,720

gonna be backstage in two seconds he's

728

00:28:03,909 --> 00:28:02,159

out of here he's adding my chat i'ma

729

00:28:05,750 --> 00:28:03,919

check you madeline this is your fault

730

00:28:09,029 --> 00:28:05,760

you were the one who said you were the

731

00:28:11,029 --> 00:28:09,039

one who said we were having cocktails

732

00:28:12,950 --> 00:28:11,039

i want you to be able to control way

733

00:28:14,870 --> 00:28:12,960

nicer i want you to be able to control

734

00:28:16,549 --> 00:28:14,880

yourself all right

735

00:28:18,470 --> 00:28:16,559

so um

736

00:28:21,510 --> 00:28:18,480

i i don't think it was scientific

737

00:28:23,750 --> 00:28:21,520

american but there is a professor at

738

00:28:26,310 --> 00:28:23,760

georgia institute of technology named

739

00:28:29,590 --> 00:28:26,320

ron arkin and he was working on a darpa

740

00:28:30,789 --> 00:28:29,600

initiative that was supposed to teach

741

00:28:32,950 --> 00:28:30,799

um

742

00:28:35,669 --> 00:28:32,960

basically uh he was teaching hide and

743

00:28:37,430 --> 00:28:35,679

seek to two robots so deception

744

00:28:39,190 --> 00:28:37,440

deception was the goal

745

00:28:40,710 --> 00:28:39,200

and and nathan's heard this so so

746

00:28:43,110 --> 00:28:40,720

forgive me nathan but i wanted to

747

00:28:45,029 --> 00:28:43,120

present this to uh mike

748

00:28:47,029 --> 00:28:45,039

and with that deception he wrote an

749

00:28:49,350 --> 00:28:47,039

article about how concerned he is

750

00:28:51,909 --> 00:28:49,360

because if i can teach these robots if

751
00:28:54,470 --> 00:28:51,919
they have ai and i teach them to deceive

752
00:28:55,590 --> 00:28:54,480
then what happens if my personal robot

753
00:28:58,470 --> 00:28:55,600
at home

754
00:29:01,430 --> 00:28:58,480
decides that he knows it knows what's

755
00:29:02,310 --> 00:29:01,440
better for me in a given situation so

756
00:29:06,549 --> 00:29:02,320
we're not

757
00:29:09,430 --> 00:29:06,559
person that's sitting down at the bait

758
00:29:10,789 --> 00:29:09,440
and tackle shop going i'm damn computers

759
00:29:13,190 --> 00:29:10,799
i don't know what the hell they gonna

760
00:29:15,430 --> 00:29:13,200
take over the world this is the guy who

761
00:29:17,750 --> 00:29:15,440
made the experiment created the

762
00:29:18,549 --> 00:29:17,760
experiment with he and his students

763
00:29:20,310 --> 00:29:18,559

so

764

00:29:22,070 --> 00:29:20,320

i think that's a legitimate concern by

765

00:29:23,350 --> 00:29:22,080

someone who's not a lay person i would

766

00:29:26,030 --> 00:29:23,360

completely agree with you if you weren't

767

00:29:30,060 --> 00:29:26,040

wearing sunglasses inside

768

00:29:31,350 --> 00:29:30,070

[Laughter]

769

00:29:32,470 --> 00:29:31,360

[Music]

770

00:29:34,310 --> 00:29:32,480

never mind put it back on i'm just

771

00:29:35,990 --> 00:29:34,320

kidding yeah

772

00:29:38,710 --> 00:29:36,000

painful when you take them off he

773

00:29:40,549 --> 00:29:38,720

becomes unleashed we have to

774

00:29:43,029 --> 00:29:40,559

i'm reaching mechanism it's like

775

00:29:45,029 --> 00:29:43,039

blindness on a on a racehorse that's why

776

00:29:47,110 --> 00:29:45,039

we have them on that's exactly i'm the

777

00:29:48,389 --> 00:29:47,120

thoroughbred of this show i'm an arabian

778

00:29:50,950 --> 00:29:48,399

michael

779

00:29:55,510 --> 00:29:50,960

i didn't come over on a ship my friend i

780

00:30:01,029 --> 00:29:59,110

yeah okay yeah so what he i mean

781

00:30:03,350 --> 00:30:01,039

that's a legitimate concern

782

00:30:05,750 --> 00:30:03,360

and and really honestly mike when you

783

00:30:09,750 --> 00:30:05,760

look at dave dave hanson you know he

784

00:30:12,470 --> 00:30:09,760

moved his company to hong kong to avoid

785

00:30:15,029 --> 00:30:12,480

to basically okay so basically

786

00:30:17,990 --> 00:30:15,039

what i heard from ron arkin and and

787

00:30:19,830 --> 00:30:18,000

people like uh jan

788

00:30:23,029 --> 00:30:19,840

i can't yan i'm trying to remember the

789

00:30:24,710 --> 00:30:23,039

guy who created skype um if you know the

790

00:30:26,470 --> 00:30:24,720

gentleman that i'm talking about but

791

00:30:27,560 --> 00:30:26,480

elon musk young jamie don't we have

792

00:30:30,230 --> 00:30:27,570

young jamie

793

00:30:31,750 --> 00:30:30,240

[Laughter]

794

00:30:33,830 --> 00:30:31,760

you are young

795

00:30:34,630 --> 00:30:33,840

you're probably younger than me mataloni

796

00:30:35,590 --> 00:30:34,640

so

797

00:30:40,470 --> 00:30:35,600

but

798

00:30:43,110 --> 00:30:40,480

they're asking for regulation when do

799

00:30:45,430 --> 00:30:43,120

you find someone who's a creative person

800

00:30:47,269 --> 00:30:45,440

an artist essentially they're they're

801
00:30:49,590 --> 00:30:47,279
digital artists of a different type than

802
00:30:50,710 --> 00:30:49,600
akashishi chris and grant one love to both

803
00:30:51,430 --> 00:30:50,720
you guys

804
00:30:53,909 --> 00:30:51,440
but

805
00:30:55,750 --> 00:30:53,919
um a different type of a digital artist

806
00:30:57,590 --> 00:30:55,760
is saying no i think we need regulation

807
00:30:58,789 --> 00:30:57,600
like for real

808
00:31:00,310 --> 00:30:58,799
well i mean you're actually seeing it

809
00:31:02,149 --> 00:31:00,320
with facebook now they're going okay

810
00:31:04,070 --> 00:31:02,159
we're overwhelmed we can't there's no

811
00:31:05,750 --> 00:31:04,080
way we can be you control it there's no

812
00:31:07,909 --> 00:31:05,760
way we can be freedom of speech

813
00:31:09,590 --> 00:31:07,919

aficionados and content moderators at

814

00:31:11,430 --> 00:31:09,600

the same time you just can't do both

815

00:31:12,710 --> 00:31:11,440

simultaneously so you do need some

816

00:31:15,990 --> 00:31:12,720

legislation

817

00:31:20,070 --> 00:31:16,000

in place um now it took it took facebook

818

00:31:22,149 --> 00:31:20,080

um you know a botched election and no

819

00:31:23,350 --> 00:31:22,159

it took a lot of [h__h] let's just say

820

00:31:26,389 --> 00:31:23,360

let's just say this let's take paul

821

00:31:28,310 --> 00:31:26,399

together it's it it took a lot for

822

00:31:30,389 --> 00:31:28,320

facebook to go

823

00:31:32,389 --> 00:31:30,399

we need some regulation of up and hill

824

00:31:34,310 --> 00:31:32,399

yeah

825

00:31:36,870 --> 00:31:34,320

please don't break us up we'll take some

826

00:31:38,630 --> 00:31:36,880

regulations exactly please don't take

827

00:31:40,630 --> 00:31:38,640

insta please don't take my instagram

828

00:31:42,630 --> 00:31:40,640

please don't take my whatsapp

829

00:31:45,190 --> 00:31:42,640

you know we need some regulations so

830

00:31:48,230 --> 00:31:45,200

yeah that being said i think you make a

831

00:31:54,470 --> 00:31:48,240

a really strong argument here dj i never

832

00:31:57,590 --> 00:31:55,990

it's not going to work

833

00:31:59,190 --> 00:31:57,600

you're not going to bring me down man

834

00:32:00,789 --> 00:31:59,200

that's all i was doing i was like it's

835

00:32:03,269 --> 00:32:00,799

gonna have like i'm just gonna drop this

836

00:32:05,509 --> 00:32:03,279

on him yeah you can fire away but i've

837

00:32:07,669 --> 00:32:05,519

got armor nathan didn't even bud she's

838

00:32:10,149 --> 00:32:07,679

like what's your [h__h] point madeline

839

00:32:12,149 --> 00:32:10,159

um all right bring bring on akashi chris

840

00:32:14,310 --> 00:32:12,159

because mataloni is rambling about how

841

00:32:17,830 --> 00:32:14,320

much he loves and respects me so go

842

00:32:17,840 --> 00:32:20,710

oh my gosh

843

00:32:26,870 --> 00:32:22,950

beautiful this person looks man

844

00:32:31,029 --> 00:32:28,549

that's all i'm hearing it's associate

845

00:32:32,950 --> 00:32:31,039

producer it's it's a good it's a good

846

00:32:35,430 --> 00:32:32,960

gig um

847

00:32:38,870 --> 00:32:35,440

yeah i feel like david byrne like how

848

00:32:41,509 --> 00:32:39,750

like

849

00:32:43,590 --> 00:32:41,519

one day i was talking to my husband

850

00:32:46,549 --> 00:32:43,600

about this ucr show and next i'm a

851
00:32:48,310 --> 00:32:46,559
social producer i'm just kidding

852
00:32:50,950 --> 00:32:48,320
i have concessions

853
00:32:54,549 --> 00:32:50,960
it's me and dj chatting on dm that's the

854
00:32:58,789 --> 00:32:57,029
what about this cool yeah somebody's

855
00:33:00,950 --> 00:32:58,799
gotta talk to him everybody's bringing

856
00:33:02,389 --> 00:33:00,960
love to and you are too mike so don't

857
00:33:04,310 --> 00:33:02,399
try to pretend you're not to the

858
00:33:05,269 --> 00:33:04,320
audience and try to be with the cool

859
00:33:05,990 --> 00:33:05,279
crowd

860
00:33:08,630 --> 00:33:06,000
like

861
00:33:10,230 --> 00:33:08,640
mike talks to me so no there's a lot of

862
00:33:12,389 --> 00:33:10,240
love here everybody has in common and

863
00:33:14,789 --> 00:33:12,399

they we all have a lot of love

864

00:33:16,470 --> 00:33:14,799

um for this community and this is i'm

865

00:33:17,750 --> 00:33:16,480

really appreciating it by the way

866

00:33:19,669 --> 00:33:17,760

because you know it can be a little

867

00:33:22,149 --> 00:33:19,679

volatile out there on the world full

868

00:33:23,750 --> 00:33:22,159

community i'm trying so

869

00:33:26,310 --> 00:33:23,760

i'm i'm feeling the love i'm i'm

870

00:33:27,830 --> 00:33:26,320

appreciating the love right now yeah and

871

00:33:29,269 --> 00:33:27,840

you know at the close of the show we

872

00:33:31,750 --> 00:33:29,279

have a little bit of a surprise for you

873

00:33:33,430 --> 00:33:31,760

mike where it'll become self-evident how

874

00:33:36,950 --> 00:33:33,440

much we really love the community but

875

00:33:39,190 --> 00:33:36,960

that's for later so akashi chris yeah

876

00:33:41,110 --> 00:33:39,200

hey guys welcome mike mataluni i can't

877

00:33:43,990 --> 00:33:41,120

believe i get to do i get to ask him a

878

00:33:46,789 --> 00:33:44,000

question yes yeah yes yes i absolutely

879

00:33:48,230 --> 00:33:46,799

have one before i have a two-parter can

880

00:33:50,389 --> 00:33:48,240

i ask my yeah

881

00:33:52,710 --> 00:33:50,399

i actually have to take notes okay this

882

00:33:55,509 --> 00:33:52,720

is what ucr has done to me did i

883

00:33:57,669 --> 00:33:55,519

actually look into like you know quantum

884

00:34:01,509 --> 00:33:57,679

physics and stuff and i used to follow

885

00:34:07,750 --> 00:34:01,519

the Kardashians i better get here

886

00:34:14,310 --> 00:34:11,270

thanks ucr thanks calling all beings

887

00:34:16,069 --> 00:34:14,320

um so here's my question so actually

888

00:34:18,310 --> 00:34:16,079

this is a serious question that's all

889

00:34:21,430 --> 00:34:18,320

going to make sense with like a serious

890

00:34:23,829 --> 00:34:21,440

question with a woo kicker okay

891

00:34:26,230 --> 00:34:23,839

is there an echo on my mic i don't know

892

00:34:28,550 --> 00:34:26,240

ma'am okay sounds good

893

00:34:31,349 --> 00:34:28,560

so okay so um

894

00:34:32,829 --> 00:34:31,359

i was wondering and i've been in

895

00:34:34,950 --> 00:34:32,839

this show has taken a different

896

00:34:36,790 --> 00:34:34,960

direction since i remember

897

00:34:39,109 --> 00:34:36,800

losing the audience lose it high yeah

898

00:34:40,869 --> 00:34:39,119

there we go what's up hey lou man we did

899

00:34:42,470 --> 00:34:40,879

an audition for you and you weren't even

900

00:34:43,829 --> 00:34:42,480

here he's already back in the day he's

901
00:34:46,389 --> 00:34:43,839
already he's already in the discord he's

902
00:34:49,560 --> 00:34:46,399
already gone mm-hmm yep he's good

903
00:34:49,570 --> 00:34:56,550
[Laughter]

904
00:35:01,430 --> 00:34:58,710
i had a witness there i wasn't alone

905
00:35:03,030 --> 00:35:01,440
okay is this a mass sighting i don't

906
00:35:05,510 --> 00:35:03,040
know

907
00:35:09,030 --> 00:35:05,520
evil woman buddies man go ahead yes okay

908
00:35:11,030 --> 00:35:09,040
so here's my question so um i've been

909
00:35:12,710 --> 00:35:11,040
let me let me see how it even word this

910
00:35:16,390 --> 00:35:12,720
in i'm sorry if i'm on a trip all over

911
00:35:20,069 --> 00:35:16,400
it but what are your thoughts on um the

912
00:35:22,790 --> 00:35:20,079
concept of quanta being connected

913
00:35:25,589 --> 00:35:22,800

like if we're really talking like uh

914

00:35:27,430 --> 00:35:25,599

string theory like mega strings or where

915

00:35:29,589 --> 00:35:27,440

everything's connected via vibrate

916

00:35:30,550 --> 00:35:29,599

vibration right so it's like a one big

917

00:35:32,710 --> 00:35:30,560

network

918

00:35:35,190 --> 00:35:32,720

so what what are your thoughts on that

919

00:35:38,150 --> 00:35:35,200

even being you know

920

00:35:39,670 --> 00:35:38,160

a true theory you know potential that we

921

00:35:41,589 --> 00:35:39,680

could ever get to

922

00:35:44,630 --> 00:35:41,599

yeah i actually keep that very much on

923

00:35:48,230 --> 00:35:44,640

the table in my own thinking um

924

00:35:49,829 --> 00:35:48,240

i mean i had a a philosophy teacher in

925

00:35:52,550 --> 00:35:49,839

college who talked about something

926
00:35:55,109 --> 00:35:52,560
called energy monism basically the idea

927
00:35:59,349 --> 00:35:55,119
that everything is connected we're all

928
00:36:01,750 --> 00:35:59,359
part of one vibratory uh essence and and

929
00:36:03,990 --> 00:36:01,760
material and this is the thing like i

930
00:36:06,390 --> 00:36:04,000
remember remember in high school when

931
00:36:09,109 --> 00:36:06,400
you were learning about like atoms and

932
00:36:10,870 --> 00:36:09,119
molecules and remember in and they they

933
00:36:13,030 --> 00:36:10,880
had the diagrams and they all look like

934
00:36:15,510 --> 00:36:13,040
like billiard balls

935
00:36:17,910 --> 00:36:15,520
that's so wrong

936
00:36:19,670 --> 00:36:17,920
it's so wrong like it's energy vibrate

937
00:36:21,829 --> 00:36:19,680
these are energy packets that don't have

938
00:36:25,270 --> 00:36:21,839

any distinct boundary they're they're

939

00:36:27,190 --> 00:36:25,280

bound by what we can what we can um c

940

00:36:28,230 --> 00:36:27,200

but that's not how they actually exist

941

00:36:31,270 --> 00:36:28,240

they actually

942

00:36:33,430 --> 00:36:31,280

are pure energy radiating in sort of

943

00:36:35,750 --> 00:36:33,440

energy packets and then you get down to

944

00:36:37,750 --> 00:36:35,760

quantum physics and you start to realize

945

00:36:39,270 --> 00:36:37,760

now they exist in superpositions and

946

00:36:40,950 --> 00:36:39,280

they can't you can't ever really tell

947

00:36:43,349 --> 00:36:40,960

where they're going to be

948

00:36:45,510 --> 00:36:43,359

um so i'm somebody who

949

00:36:46,630 --> 00:36:45,520

i'm also a musician so this kind of like

950

00:36:48,870 --> 00:36:46,640

comes oh

951
00:36:51,510 --> 00:36:48,880
this is perfect for um

952
00:36:53,349 --> 00:36:51,520
yeah so like so i i truly believe

953
00:36:56,150 --> 00:36:53,359
everything is vibratory like the the

954
00:36:59,910 --> 00:36:56,160
meat suits that we see ourselves in are

955
00:37:03,030 --> 00:36:59,920
are really just uh energetic vibrations

956
00:37:04,710 --> 00:37:03,040
built upon uh layers and layers of

957
00:37:06,710 --> 00:37:04,720
energy and molecules and atoms and you

958
00:37:09,589 --> 00:37:06,720
think about like the centered nucleus of

959
00:37:11,349 --> 00:37:09,599
an atom if you were to look at the scope

960
00:37:13,829 --> 00:37:11,359
of that and the scale of that and

961
00:37:16,870 --> 00:37:13,839
measure it

962
00:37:20,790 --> 00:37:16,880
in an hour scale you'd be talking about

963
00:37:23,589 --> 00:37:20,800

the pinhead of of a pin and the first

964

00:37:26,950 --> 00:37:23,599

electron would be in the um the

965

00:37:30,870 --> 00:37:26,960

outskirts of that 60 000 person stadium

966

00:37:33,430 --> 00:37:30,880

so we're talking about um extraordinary

967

00:37:35,190 --> 00:37:33,440

uh scale here and so i truly believe i

968

00:37:38,069 --> 00:37:35,200

really do believe that we're all just

969

00:37:40,470 --> 00:37:38,079

kind of energy vibrating and um this is

970

00:37:43,349 --> 00:37:40,480

all uh this is all temporal this is all

971

00:37:46,069 --> 00:37:43,359

temporary yes this is fantastic because

972

00:37:48,230 --> 00:37:46,079

i'm sorry i do remember my my woodpecker

973

00:37:50,630 --> 00:37:48,240

yeah there we go it was a two-parter but

974

00:37:52,550 --> 00:37:50,640

you can go ahead and toast no no we can

975

00:37:54,310 --> 00:37:52,560

take a break for the first that's here's

976
00:37:57,910 --> 00:37:54,320
for the first part not only nathan

977
00:38:00,150 --> 00:37:57,920
refilled nathan refilled yes yes

978
00:38:01,829 --> 00:38:00,160
my second part of my question kristen

979
00:38:02,829 --> 00:38:01,839
mataloni can you please come in and

980
00:38:05,270 --> 00:38:02,839
refill

981
00:38:06,790 --> 00:38:05,280
mike wow

982
00:38:08,630 --> 00:38:06,800
did he just did you just snap your

983
00:38:10,069 --> 00:38:08,640
fingers she's not here she's not here i

984
00:38:12,710 --> 00:38:10,079
would never do that

985
00:38:14,630 --> 00:38:12,720
the word please the word please came out

986
00:38:17,349 --> 00:38:14,640
of my mouth i can't speak to my

987
00:38:19,349 --> 00:38:17,359
grimaldi's brother over there mataloni

988
00:38:22,150 --> 00:38:19,359

where we could coalesce

989

00:38:24,790 --> 00:38:22,160

over a margarita pizza go ahead i love

990

00:38:25,589 --> 00:38:24,800

margarita pizza so the reason why

991

00:38:27,109 --> 00:38:25,599

yes

992

00:38:29,270 --> 00:38:27,119

the reason why i asked that question is

993

00:38:31,510 --> 00:38:29,280

actually because i'm more interested i'm

994

00:38:34,150 --> 00:38:31,520

actually reading or listening to science

995

00:38:36,150 --> 00:38:34,160

and the akashic field

996

00:38:38,230 --> 00:38:36,160

which kind of took me down that path

997

00:38:40,390 --> 00:38:38,240

because obviously that's what my name is

998

00:38:44,150 --> 00:38:40,400

i've been obsessed with the akashic

999

00:38:46,550 --> 00:38:44,160

records in akashic field so um in and i

1000

00:38:49,109 --> 00:38:46,560

saw a post this morning made me think

1001
00:38:50,710 --> 00:38:49,119
um somebody was talking about

1002
00:38:53,109 --> 00:38:50,720
uh

1003
00:38:55,270 --> 00:38:53,119
repeat experiencers

1004
00:38:57,190 --> 00:38:55,280
and how and i can't remember who posted

1005
00:39:00,230 --> 00:38:57,200
this but it was awesome it was like the

1006
00:39:01,990 --> 00:39:00,240
fact that if they're if their meet once

1007
00:39:06,069 --> 00:39:02,000
they're connected and they've made that

1008
00:39:07,190 --> 00:39:06,079
connection and quanta can be aware

1009
00:39:09,990 --> 00:39:07,200
of

1010
00:39:11,670 --> 00:39:10,000
the other quanta if i'm not mistaken or

1011
00:39:13,910 --> 00:39:11,680
hypothetically

1012
00:39:15,910 --> 00:39:13,920
even once it makes that connection the

1013
00:39:18,150 --> 00:39:15,920

idea is that it lives you know that

1014

00:39:20,790 --> 00:39:18,160

connection exists so it was kind of

1015

00:39:22,870 --> 00:39:20,800

taking me down the path of you know

1016

00:39:24,550 --> 00:39:22,880

is it possible plus remote viewing a lot

1017

00:39:25,829 --> 00:39:24,560

of remote viewing could it be that

1018

00:39:27,750 --> 00:39:25,839

they're getting getting access to

1019

00:39:31,030 --> 00:39:27,760

akashic records could there be some kind

1020

00:39:32,870 --> 00:39:31,040

of quantum physical explanation of this

1021

00:39:34,310 --> 00:39:32,880

sure yeah i mean now

1022

00:39:36,470 --> 00:39:34,320

no no i'm trying i mean these are things

1023

00:39:39,750 --> 00:39:36,480

that have fascinated me forever like i

1024

00:39:41,750 --> 00:39:39,760

said i quit college as a philosophy

1025

00:39:43,589 --> 00:39:41,760

minor grew out dreadlocks and hiked the

1026
00:39:45,670 --> 00:39:43,599
appalachian trail so these are obviously

1027
00:39:47,109 --> 00:39:45,680
questions that have always been on the

1028
00:39:49,510 --> 00:39:47,119
top of my mind

1029
00:39:50,950 --> 00:39:49,520
um as i get older and more annoying and

1030
00:39:52,950 --> 00:39:50,960
more skeptical

1031
00:39:54,470 --> 00:39:52,960
uh i tend to

1032
00:39:55,589 --> 00:39:54,480
step back and be like okay we've got

1033
00:39:57,990 --> 00:39:55,599
we've got to figure out a way to prove

1034
00:39:59,030 --> 00:39:58,000
it with with with double blind studies

1035
00:40:01,670 --> 00:39:59,040
we've got to figure out a way to prove

1036
00:40:04,390 --> 00:40:01,680
with science so i i tend to not

1037
00:40:06,069 --> 00:40:04,400
i tend to not jump on

1038
00:40:09,589 --> 00:40:06,079

the way i used to

1039

00:40:12,309 --> 00:40:09,599

but i don't like i seriously do not

1040

00:40:15,910 --> 00:40:12,319

discount the possibility of what you're

1041

00:40:17,750 --> 00:40:15,920

saying and we do know for a fact that

1042

00:40:20,230 --> 00:40:17,760

you know at the molecular level at the

1043

00:40:22,829 --> 00:40:20,240

atomic level we are all just energy

1044

00:40:25,990 --> 00:40:22,839

vibrating like that is that is

1045

00:40:27,910 --> 00:40:26,000

indisputable um with that being said

1046

00:40:29,910 --> 00:40:27,920

virtually anything is possible we just

1047

00:40:31,990 --> 00:40:29,920

need to we just need to

1048

00:40:35,109 --> 00:40:32,000

figure out how to ascertain the truth

1049

00:40:37,109 --> 00:40:35,119

and for you know at the macro level at

1050

00:40:38,470 --> 00:40:37,119

the human level i think we can get a lot

1051

00:40:41,030 --> 00:40:38,480

of answers that we're looking for but

1052

00:40:44,069 --> 00:40:41,040

the the further we dive into

1053

00:40:45,910 --> 00:40:44,079

quant the quantum realm the less

1054

00:40:47,670 --> 00:40:45,920

everything makes sense and that's also

1055

00:40:49,750 --> 00:40:47,680

part of what singularity means

1056

00:40:51,990 --> 00:40:49,760

singularity means it's the point at

1057

00:40:54,390 --> 00:40:52,000

which mathematics and science breaks

1058

00:40:55,510 --> 00:40:54,400

down and it can no longer be explained

1059

00:40:59,030 --> 00:40:55,520

through the mathematics that we've

1060

00:41:01,510 --> 00:40:59,040

created a black hole is a singularity

1061

00:41:04,790 --> 00:41:01,520

no scientist can mathematically explain

1062

00:41:06,630 --> 00:41:04,800

to you how a black hole works yet we

1063

00:41:07,910 --> 00:41:06,640

always rely on science for the answers

1064

00:41:09,589 --> 00:41:07,920

and i think it's so important for us to

1065

00:41:11,190 --> 00:41:09,599

recognize science doesn't have all the

1066

00:41:13,270 --> 00:41:11,200

answers and it's a constantly evolving

1067

00:41:16,069 --> 00:41:13,280

field and we're always trying to develop

1068

00:41:18,870 --> 00:41:16,079

new hypotheses to get to the truth and

1069

00:41:21,990 --> 00:41:18,880

but that being said once you get to the

1070

00:41:24,710 --> 00:41:22,000

quantum realm ah i i just think you i

1071

00:41:26,550 --> 00:41:24,720

don't even know if human beings can

1072

00:41:28,150 --> 00:41:26,560

get i don't even think i don't know if

1073

00:41:30,390 --> 00:41:28,160

human beings can get there or fully

1074

00:41:32,069 --> 00:41:30,400

understand what's really happening in

1075

00:41:34,069 --> 00:41:32,079

in the nature of the universe i don't

1076

00:41:36,069 --> 00:41:34,079

know if it's possible yeah and by the

1077

00:41:39,109 --> 00:41:36,079

way for anybody that uses the word

1078

00:41:42,390 --> 00:41:39,119

gobekli tepee the most in this chat will

1079

00:41:46,390 --> 00:41:42,400

get a free container of dj organic skin

1080

00:41:49,829 --> 00:41:48,550

go buckley tappy go back lee tapping go

1081

00:41:52,230 --> 00:41:49,839

back lee tapping

1082

00:41:54,150 --> 00:41:52,240

tappy go back these happen

1083

00:41:55,990 --> 00:41:54,160

zero dj

1084

00:41:58,230 --> 00:41:56,000

oh no actually no mike just pulled ahead

1085

00:42:00,790 --> 00:41:58,240

of me by seven but anyway

1086

00:42:03,109 --> 00:42:00,800

all right all right mike

1087

00:42:05,430 --> 00:42:03,119

i i would love to get uh your feelings

1088

00:42:08,790 --> 00:42:05,440

on this particular topic but hopefully

1089

00:42:10,069 --> 00:42:08,800

not a one-word answer um but

1090

00:42:13,270 --> 00:42:10,079

uh

1091

00:42:15,109 --> 00:42:13,280

in my mind consciousness is dot dot dot

1092

00:42:19,030 --> 00:42:15,119

please finish that sentence

1093

00:42:20,150 --> 00:42:19,040

in my mind consciousness is

1094

00:42:22,390 --> 00:42:20,160

uh

1095

00:42:24,309 --> 00:42:22,400

an expression

1096

00:42:27,910 --> 00:42:24,319

of an

1097

00:42:31,109 --> 00:42:27,920

unlimited universe that had the

1098

00:42:33,430 --> 00:42:31,119

wherewithal and ability to enfold itself

1099

00:42:34,589 --> 00:42:33,440

through intelligent

1100

00:42:38,230 --> 00:42:34,599

um

1101
00:42:39,750 --> 00:42:38,240
experimentation to create a an existence

1102
00:42:40,870 --> 00:42:39,760
within

1103
00:42:51,670 --> 00:42:40,880
a

1104
00:42:54,470 --> 00:42:51,680
consciousness is

1105
00:42:56,550 --> 00:42:54,480
the universe experiencing itself

1106
00:42:59,109 --> 00:42:56,560
so no humanism involved in that

1107
00:43:03,109 --> 00:42:59,119
whatsoever in your mind it's not it's

1108
00:43:04,630 --> 00:43:03,119
not uh solely humanistic in your mind i

1109
00:43:06,790 --> 00:43:04,640
don't think you can deconstruct

1110
00:43:08,630 --> 00:43:06,800
consciousness the way we'd like to which

1111
00:43:11,030 --> 00:43:08,640
is also why i don't fear

1112
00:43:12,710 --> 00:43:11,040
becoming sentient

1113
00:43:14,470 --> 00:43:12,720

well it can't i don't i don't think he

1114

00:43:16,390 --> 00:43:14,480

could

1115

00:43:17,990 --> 00:43:16,400

right because because we don't know what

1116

00:43:20,390 --> 00:43:18,000

no no no no i'm going to say this

1117

00:43:22,630 --> 00:43:20,400

because we don't know what feeling is

1118

00:43:24,069 --> 00:43:22,640

we can't explain you couldn't explain

1119

00:43:26,630 --> 00:43:24,079

feeling

1120

00:43:28,150 --> 00:43:26,640

beyond just saying that word we don't

1121

00:43:30,069 --> 00:43:28,160

have now

1122

00:43:32,710 --> 00:43:30,079

so when anjali talks about a higher

1123

00:43:35,589 --> 00:43:32,720

density being and that they were able to

1124

00:43:37,750 --> 00:43:35,599

convey to her much more than they're

1125

00:43:38,950 --> 00:43:37,760

talking in my head she goes that's not

1126

00:43:41,190 --> 00:43:38,960

it

1127

00:43:43,589 --> 00:43:41,200

but there was much more that was that

1128

00:43:44,550 --> 00:43:43,599

were conveyed when they communicated

1129

00:43:47,750 --> 00:43:44,560

with me

1130

00:43:50,150 --> 00:43:47,760

so i take that to mean that she has a

1131

00:43:52,390 --> 00:43:50,160

feeling that she has an understanding

1132

00:43:54,470 --> 00:43:52,400

and maybe something broader that i don't

1133

00:43:56,309 --> 00:43:54,480

have something in merriam-webster that i

1134

00:43:58,470 --> 00:43:56,319

can use to express to you

1135

00:44:00,390 --> 00:43:58,480

but i don't think we can express what

1136

00:44:01,670 --> 00:44:00,400

feeling is and therefore i don't know

1137

00:44:03,109 --> 00:44:01,680

that it could

1138

00:44:04,550 --> 00:44:03,119

like

1139

00:44:07,109 --> 00:44:04,560

why don't you cry for us and then you

1140

00:44:09,670 --> 00:44:07,119

can express it like

1141

00:44:12,870 --> 00:44:09,680

why don't you make us a grimaldi's but i

1142

00:44:14,309 --> 00:44:12,880

i don't i i think like energy i don't

1143

00:44:16,069 --> 00:44:14,319

i don't know that it could be all i

1144

00:44:17,750 --> 00:44:16,079

wanted to do is make akashi laugh and

1145

00:44:20,470 --> 00:44:17,760

i've done that everybody have a great

1146

00:44:22,390 --> 00:44:20,480

night yes no no no no you're not getting

1147

00:44:27,109 --> 00:44:22,400

out of here that easy madeleine thank

1148

00:44:31,190 --> 00:44:28,950

i'm saying cannot be created nor

1149

00:44:33,510 --> 00:44:31,200

destroyed yes like energy cannot be

1150

00:44:34,870 --> 00:44:33,520

created or destroyed right

1151
00:44:37,510 --> 00:44:34,880
is the universe does have a

1152
00:44:38,790 --> 00:44:37,520
consciousness maximizing function

1153
00:45:05,670 --> 00:44:38,800
i

1154
00:45:07,990 --> 00:45:05,680
people than me

1155
00:45:12,550 --> 00:45:08,000
answer this question what way smarter

1156
00:45:15,829 --> 00:45:13,910
but for me

1157
00:45:18,390 --> 00:45:15,839
i think

1158
00:45:20,790 --> 00:45:18,400
i would hypothesize that

1159
00:45:23,510 --> 00:45:20,800
the answer is yes that there that the

1160
00:45:24,870 --> 00:45:23,520
universe seeks expression

1161
00:45:26,870 --> 00:45:24,880
um

1162
00:45:29,030 --> 00:45:26,880
you know and so

1163
00:45:32,230 --> 00:45:29,040

but again like that's a very human

1164

00:45:34,309 --> 00:45:32,240

that's a very egocentric uh you know

1165

00:45:36,710 --> 00:45:34,319

that's a very human-centric perspective

1166

00:45:38,950 --> 00:45:36,720

because we have consciousness and so

1167

00:45:41,349 --> 00:45:38,960

we also know that there are many planets

1168

00:45:43,829 --> 00:45:41,359

in our solar system that are virtually

1169

00:45:46,390 --> 00:45:43,839

lifeless we know mars may have

1170

00:45:48,630 --> 00:45:46,400

molecular biology but we haven't seen

1171

00:45:50,309 --> 00:45:48,640

any intelligent life on mars now there

1172

00:45:53,990 --> 00:45:50,319

could be many reasons for that but i

1173

00:45:58,390 --> 00:45:54,000

would argue that the universe is so vast

1174

00:45:59,750 --> 00:45:58,400

that it's highly likely that the it

1175

00:46:01,910 --> 00:45:59,760

there is life

1176

00:46:04,870 --> 00:46:01,920

it's teeming with life um that being

1177

00:46:07,670 --> 00:46:04,880

said if that's the case you know

1178

00:46:09,829 --> 00:46:07,680

the idea that all these amino acids are

1179

00:46:11,349 --> 00:46:09,839

and and you know consciousness can be

1180

00:46:13,589 --> 00:46:11,359

reduced to

1181

00:46:16,550 --> 00:46:13,599

simple electric you know

1182

00:46:18,069 --> 00:46:16,560

electricity firing like why why

1183

00:46:22,150 --> 00:46:18,079

why

1184

00:46:24,069 --> 00:46:22,160

formations

1185

00:46:26,069 --> 00:46:24,079

if there wasn't some sort of

1186

00:46:28,390 --> 00:46:26,079

intelligence at the molecular or the

1187

00:46:30,230 --> 00:46:28,400

atomic level it just doesn't make sense

1188

00:46:31,829 --> 00:46:30,240

to me sure

1189

00:46:33,750 --> 00:46:31,839

yeah well we have this capability to

1190

00:46:35,750 --> 00:46:33,760

sort of look at what we do and what we

1191

00:46:38,390 --> 00:46:35,760

have created and go hey like that seems

1192

00:46:40,710 --> 00:46:38,400

really valuable powerful even

1193

00:46:43,829 --> 00:46:40,720

beyond our beyond the capability of an

1194

00:46:45,990 --> 00:46:43,839

ant this is amazing so this must be

1195

00:46:47,430 --> 00:46:46,000

you know the va the valuable thing that

1196

00:46:49,750 --> 00:46:47,440

exists in the universe that this

1197

00:46:51,910 --> 00:46:49,760

capability that we possess at the same

1198

00:46:53,750 --> 00:46:51,920

time an ant probably could if they could

1199

00:46:55,670 --> 00:46:53,760

articulate it might be able to tell us

1200

00:46:56,390 --> 00:46:55,680

things about how they self-organize or

1201

00:46:58,390 --> 00:46:56,400

how

1202

00:46:59,990 --> 00:46:58,400

uh you know they accomplish what what

1203

00:47:01,990 --> 00:47:00,000

they do together and say hey look at

1204

00:47:04,069 --> 00:47:02,000

what we've done as a like this is pretty

1205

00:47:06,150 --> 00:47:04,079

amazing so maybe the universe has an

1206

00:47:07,190 --> 00:47:06,160

optimizing function for what we do as

1207

00:47:08,550 --> 00:47:07,200

well

1208

00:47:10,150 --> 00:47:08,560

right

1209

00:47:12,150 --> 00:47:10,160

that's such a great point and it's not

1210

00:47:14,390 --> 00:47:12,160

about and i wouldn't say that the human

1211

00:47:16,230 --> 00:47:14,400

universe is optimizing for human

1212

00:47:17,510 --> 00:47:16,240

consciousness or human intelligence what

1213

00:47:21,030 --> 00:47:17,520

i would say is the universe is

1214

00:47:22,549 --> 00:47:21,040

optimizing for complexity and growth and

1215

00:47:25,670 --> 00:47:22,559

self-expression

1216

00:47:27,510 --> 00:47:25,680

so we are simply one form of that

1217

00:47:30,870 --> 00:47:27,520

expression

1218

00:47:32,790 --> 00:47:30,880

let me let me phrase it this way if

1219

00:47:35,270 --> 00:47:32,800

if you said that you said earlier you

1220

00:47:36,950 --> 00:47:35,280

said that uh we're looking at it from a

1221

00:47:39,270 --> 00:47:36,960

human perspective

1222

00:47:40,390 --> 00:47:39,280

but my question would be

1223

00:47:48,790 --> 00:47:40,400

i can

1224

00:47:52,630 --> 00:47:50,790

shut his mic off

1225

00:47:54,710 --> 00:47:52,640

[Laughter]

1226

00:47:57,589 --> 00:47:54,720

that was good um

1227

00:48:00,710 --> 00:47:57,599

but but what i'm saying what i'm asking

1228

00:48:02,470 --> 00:48:00,720

no mike a fair play

1229

00:48:05,030 --> 00:48:02,480

fair play to you mike

1230

00:48:07,430 --> 00:48:05,040

um but the question is is

1231

00:48:09,990 --> 00:48:07,440

could you have another perspective other

1232

00:48:11,990 --> 00:48:10,000

than that because if you're trying to

1233

00:48:14,230 --> 00:48:12,000

make an analysis of an and i always

1234

00:48:16,150 --> 00:48:14,240

criticize neil degrasse tyson and some

1235

00:48:17,829 --> 00:48:16,160

of these other idiots that say things

1236

00:48:20,549 --> 00:48:17,839

like why would they want to come here

1237

00:48:23,030 --> 00:48:20,559

and see us which sounds like

1238

00:48:23,910 --> 00:48:23,040

again like vinnie at the bait and tackle

1239

00:48:25,190 --> 00:48:23,920

shop

1240

00:48:27,109 --> 00:48:25,200

because

1241

00:48:29,270 --> 00:48:27,119

how could you know what another

1242

00:48:31,270 --> 00:48:29,280

intelligence would want right you don't

1243

00:48:32,549 --> 00:48:31,280

know what the hell i want right so how

1244

00:48:34,230 --> 00:48:32,559

could you know

1245

00:48:35,430 --> 00:48:34,240

what another intelligence that we've

1246

00:48:39,910 --> 00:48:35,440

never had

1247

00:48:44,549 --> 00:48:41,829

i know which makes it more and he's

1248

00:48:47,750 --> 00:48:44,559

fascinated by how the world works not

1249

00:48:50,790 --> 00:48:47,760

apparently not uh unless it's this world

1250

00:48:55,270 --> 00:48:50,800

but my question to you is that are we

1251
00:49:00,470 --> 00:48:57,910
are we capable of analyzing it from any

1252
00:49:02,309 --> 00:49:00,480
other perspective other than human do do

1253
00:49:04,230 --> 00:49:02,319
any of us have that capability being

1254
00:49:06,549 --> 00:49:04,240
that we don't know we have not

1255
00:49:08,710 --> 00:49:06,559
made contact with this intelligence to

1256
00:49:11,430 --> 00:49:08,720
give us another perspective yeah i think

1257
00:49:14,870 --> 00:49:11,440
i think the the hubris of the the human

1258
00:49:16,790 --> 00:49:14,880
being to speculate on that is is is

1259
00:49:19,510 --> 00:49:16,800
extraordinary right i think it's it's

1260
00:49:21,349 --> 00:49:19,520
very egotistical of us to

1261
00:49:23,510 --> 00:49:21,359
speculate on that now we can have fun

1262
00:49:25,270 --> 00:49:23,520
speculating on that like but at the same

1263
00:49:27,270 --> 00:49:25,280

time as a scientist you have to

1264

00:49:30,549 --> 00:49:27,280

recognize that people are

1265

00:49:32,309 --> 00:49:30,559

holding on to your words as as important

1266

00:49:35,430 --> 00:49:32,319

and valuable in formulating their own

1267

00:49:37,589 --> 00:49:35,440

ideas and opinions so i think sometimes

1268

00:49:39,109 --> 00:49:37,599

ndt takes that for granted and he

1269

00:49:40,309 --> 00:49:39,119

forgets that

1270

00:49:42,710 --> 00:49:40,319

um

1271

00:49:44,790 --> 00:49:42,720

so you know i think it's i think it's

1272

00:49:47,670 --> 00:49:44,800

hubris to speculate either way now i'll

1273

00:49:50,630 --> 00:49:47,680

go ahead and speculate either way um as

1274

00:49:53,990 --> 00:49:50,640

a human being we are incredibly

1275

00:49:56,630 --> 00:49:54,000

interested explorers but simultaneously

1276

00:49:59,829 --> 00:49:56,640

we are also driven by

1277

00:50:02,069 --> 00:49:59,839

incentives and so human beings didn't go

1278

00:50:04,790 --> 00:50:02,079

to the moon because they were explorers

1279

00:50:07,510 --> 00:50:04,800

they went to the moon because they were

1280

00:50:10,710 --> 00:50:07,520

fighting for supremacy for

1281

00:50:13,990 --> 00:50:10,720

the the cold war we wanted to win

1282

00:50:15,670 --> 00:50:14,000

our in our race against other people so

1283

00:50:17,109 --> 00:50:15,680

there's definitely a competitive nature

1284

00:50:19,190 --> 00:50:17,119

and i don't think we should look at

1285

00:50:20,630 --> 00:50:19,200

ourselves simply as

1286

00:50:22,390 --> 00:50:20,640

um

1287

00:50:23,510 --> 00:50:22,400

uh graceful explorers we have to

1288

00:50:25,349 --> 00:50:23,520

remember that we are we are

1289

00:50:28,870 --> 00:50:25,359

incentive-based creatures and that we

1290

00:50:30,470 --> 00:50:28,880

will act and react based on how we're

1291

00:50:32,150 --> 00:50:30,480

you know how how those incentives are

1292

00:50:35,349 --> 00:50:32,160

being fulfilled

1293

00:50:37,510 --> 00:50:35,359

that being said you know we we do very

1294

00:50:40,150 --> 00:50:37,520

much love to find new things we love to

1295

00:50:41,990 --> 00:50:40,160

see new things that and so we have to

1296

00:50:44,710 --> 00:50:42,000

entertain that as an aspect of

1297

00:50:45,750 --> 00:50:44,720

consciousness and potentially

1298

00:50:47,750 --> 00:50:45,760

uh

1299

00:50:49,349 --> 00:50:47,760

an alien species could have that and we

1300

00:50:51,510 --> 00:50:49,359

have to keep that on the table at all

1301
00:50:54,470 --> 00:50:51,520
times or else we're where

1302
00:50:56,390 --> 00:50:54,480
our hubris is beyond our capabilities

1303
00:50:58,309 --> 00:50:56,400
so i'm going to bring in we actually we

1304
00:51:00,710 --> 00:50:58,319
have to bring in grant's question first

1305
00:51:02,790 --> 00:51:00,720
and as soon as we answer and entertain

1306
00:51:05,109 --> 00:51:02,800
grant's question we're going to bring in

1307
00:51:07,829 --> 00:51:05,119
stephen gruyere's flair

1308
00:51:09,109 --> 00:51:07,839
i love stephen grier's flair but so

1309
00:51:10,470 --> 00:51:09,119
we're going to bring him in and we're

1310
00:51:12,950 --> 00:51:10,480
going to entertain grant's question but

1311
00:51:15,190 --> 00:51:12,960
i just want to say it's totally it's

1312
00:51:16,470 --> 00:51:15,200
it's grounded in normality

1313
00:51:19,190 --> 00:51:16,480

to not

1314

00:51:21,750 --> 00:51:19,200

to know that we can't ha we're not

1315

00:51:23,190 --> 00:51:21,760

capable of another perspective his is

1316

00:51:26,470 --> 00:51:23,200

the less cure

1317

00:51:29,030 --> 00:51:26,480

uh ndt as you call him is is the less

1318

00:51:30,710 --> 00:51:29,040

curious perspective of all of us that

1319

00:51:31,829 --> 00:51:30,720

are involved in this community who are

1320

00:51:34,309 --> 00:51:31,839

interested

1321

00:51:36,230 --> 00:51:34,319

but we're not capable of a perspective

1322

00:51:38,710 --> 00:51:36,240

that goes beyond humanistic at this

1323

00:51:41,270 --> 00:51:38,720

point or humanism that's all we have we

1324

00:51:43,430 --> 00:51:41,280

don't once one of us makes

1325

00:51:45,670 --> 00:51:43,440

i i should say that now when i say that

1326

00:51:46,710 --> 00:51:45,680

the experiencers

1327

00:51:49,750 --> 00:51:46,720

may have

1328

00:51:52,390 --> 00:51:49,760

an advanced perspective beyond ours

1329

00:51:54,870 --> 00:51:52,400

because they've made contact they've

1330

00:51:56,549 --> 00:51:54,880

communicated they've been among them but

1331

00:51:58,470 --> 00:51:56,559

for those of us that haven't had that

1332

00:52:00,230 --> 00:51:58,480

experience work this is where we are we

1333

00:52:01,990 --> 00:52:00,240

can't go any further right please bring

1334

00:52:03,910 --> 00:52:02,000

in grant thank you for entertaining

1335

00:52:04,950 --> 00:52:03,920

grant bring yes bring in grant's

1336

00:52:06,630 --> 00:52:04,960

question please

1337

00:52:09,910 --> 00:52:06,640

he's asked a couple of so let me let me

1338

00:52:10,790 --> 00:52:09,920

find there's i start with the first one

1339

00:52:14,870 --> 00:52:10,800

and then we'll bring into the

1340

00:52:19,349 --> 00:52:17,270

wait but that's the second part

1341

00:52:22,150 --> 00:52:19,359

grant yoda where are you

1342

00:52:26,230 --> 00:52:24,470

i saw it earlier he loves some madaloni

1343

00:52:27,829 --> 00:52:26,240

man he knows madeleine is better looking

1344

00:52:30,390 --> 00:52:27,839

than me i've accepted it

1345

00:52:32,630 --> 00:52:30,400

grant has been so supportive

1346

00:52:34,470 --> 00:52:32,640

of ucr in the singularity lab and he

1347

00:52:35,750 --> 00:52:34,480

helps me cut my clips like the guy is

1348

00:52:37,750 --> 00:52:35,760

amazing

1349

00:52:39,910 --> 00:52:37,760

he and akashi chris

1350

00:52:40,870 --> 00:52:39,920

we don't have words i'm up for clump

1351
00:52:50,790 --> 00:52:40,880
pump

1352
00:52:54,390 --> 00:52:52,549
let me ask this question so we can we

1353
00:52:55,750 --> 00:52:54,400
can have this show uh

1354
00:52:57,670 --> 00:52:55,760
matt looney and the good work he does at

1355
00:52:59,190 --> 00:52:57,680
tsl yes cheers to that a skinwalker

1356
00:53:01,349 --> 00:52:59,200
ranch continues to serve as a living

1357
00:53:04,390 --> 00:53:01,359
laboratory of all things uap high

1358
00:53:07,430 --> 00:53:04,400
strangeness do you think asro would

1359
00:53:09,349 --> 00:53:07,440
collaborate with brandon fugle

1360
00:53:11,270 --> 00:53:09,359
asro

1361
00:53:13,190 --> 00:53:11,280
and please when you say hi strangeness

1362
00:53:15,589 --> 00:53:13,200
please do the quotation marks in honor

1363
00:53:16,710 --> 00:53:15,599

of dr heineck please that's right

1364

00:53:19,109 --> 00:53:16,720

asari

1365

00:53:22,549 --> 00:53:19,119

lee formed pipe please nathan

1366

00:53:22,559 --> 00:53:25,990

yeah nathan

1367

00:53:29,910 --> 00:53:28,230

my brother careful buff my pipe out

1368

00:53:32,150 --> 00:53:29,920

that's right that's my break out that

1369

00:53:35,109 --> 00:53:32,160

pipe baby let's get some arthur conan

1370

00:53:39,190 --> 00:53:35,119

doyle up in his joint the i'm asking

1371

00:53:40,790 --> 00:53:39,200

grant anomalous uh studies resolution

1372

00:53:43,190 --> 00:53:40,800

office or something it's like it's this

1373

00:53:44,069 --> 00:53:43,200

it's the new the new group oh the new oh

1374

00:53:49,270 --> 00:53:44,079

oh

1375

00:53:50,870 --> 00:53:49,280

we're gonna do this

1376

00:53:52,150 --> 00:53:50,880

do you think asro what could would

1377

00:53:54,150 --> 00:53:52,160

collaborate with

1378

00:53:56,950 --> 00:53:54,160

few goal um

1379

00:53:59,430 --> 00:53:56,960

oh that's a great question i

1380

00:54:01,109 --> 00:53:59,440

don't think so i think there's too much

1381

00:54:03,589 --> 00:54:01,119

of a history

1382

00:54:06,870 --> 00:54:03,599

with ossap and

1383

00:54:09,829 --> 00:54:06,880

um and atip when it comes to

1384

00:54:13,349 --> 00:54:09,839

skinwalker ranch and i think the asro

1385

00:54:15,910 --> 00:54:13,359

will want to keep that at bay with a

1386

00:54:17,109 --> 00:54:15,920

20 000 foot stick

1387

00:54:19,190 --> 00:54:17,119

um because they're not going to be able

1388

00:54:20,710 --> 00:54:19,200

to want to be associated with dino

1389

00:54:22,630 --> 00:54:20,720

beavers they're not going to be one want

1390

00:54:24,390 --> 00:54:22,640

to be associated with

1391

00:54:27,030 --> 00:54:24,400

any of the high strangeness i think they

1392

00:54:29,589 --> 00:54:27,040

want to look for nuts and bolts and so i

1393

00:54:31,670 --> 00:54:29,599

don't think they can get the credibility

1394

00:54:34,870 --> 00:54:31,680

and the funding that they want

1395

00:54:37,349 --> 00:54:34,880

um unless they stick to nuts and bolts

1396

00:54:39,109 --> 00:54:37,359

now that's you know whether or not they

1397

00:54:42,150 --> 00:54:39,119

should or should not that's another

1398

00:54:44,549 --> 00:54:42,160

question but i think that they will not

1399

00:54:46,150 --> 00:54:44,559

want to at all i think it's going to be

1400

00:54:48,069 --> 00:54:46,160

a purely nuts and bolts i think it's

1401

00:54:50,470 --> 00:54:48,079

going to be scientific like galileo

1402

00:54:52,549 --> 00:54:50,480

project i have a very hard time seeing

1403

00:54:54,950 --> 00:54:52,559

uh this be anybody's pet project and

1404

00:54:55,910 --> 00:54:54,960

that's a good thing yeah

1405

00:54:58,470 --> 00:54:55,920

i think

1406

00:55:01,430 --> 00:54:58,480

yeah i i just want to add that uh in my

1407

00:55:03,829 --> 00:55:01,440

opinion if the government has already

1408

00:55:05,430 --> 00:55:03,839

owned this this particular property

1409

00:55:07,990 --> 00:55:05,440

then hired uh

1410

00:55:08,789 --> 00:55:08,000

brought in its own people contractors

1411

00:55:17,030 --> 00:55:08,799

and

1412

00:55:18,950 --> 00:55:17,040

of investigated the property under the

1413

00:55:20,549 --> 00:55:18,960

auspices of the government

1414

00:55:22,950 --> 00:55:20,559

i don't think that they have a further

1415

00:55:23,990 --> 00:55:22,960

interest in this point because whatever

1416

00:55:25,510 --> 00:55:24,000

threat

1417

00:55:28,710 --> 00:55:25,520

it poses

1418

00:55:31,510 --> 00:55:28,720

is not existential in the terms of

1419

00:55:33,829 --> 00:55:31,520

uh let's say uh

1420

00:55:36,069 --> 00:55:33,839

invading specific airspace that are

1421

00:55:38,549 --> 00:55:36,079

related to train navy training areas so

1422

00:55:41,349 --> 00:55:38,559

on and so forth so to to them it's an

1423

00:55:44,390 --> 00:55:41,359

interesting cool little bit of

1424

00:55:46,470 --> 00:55:44,400

high strangeness but i don't think that

1425

00:55:49,510 --> 00:55:46,480

uh when you're talking about spreading

1426

00:55:52,470 --> 00:55:49,520

uh dod dollars right now which is uh i

1427

00:55:56,069 --> 00:55:52,480

can tell you is extremely tight

1428

00:55:57,510 --> 00:55:56,079

uh right now right uh and you can't yeah

1429

00:56:00,710 --> 00:55:57,520

and and also

1430

00:56:02,950 --> 00:56:00,720

it's it's very easy for the government

1431

00:56:05,190 --> 00:56:02,960

to we've never been in a point in

1432

00:56:08,230 --> 00:56:05,200

history where we had so many

1433

00:56:10,549 --> 00:56:08,240

drones in existence and so when you have

1434

00:56:13,109 --> 00:56:10,559

the ability to

1435

00:56:15,750 --> 00:56:13,119

look for anomalies in the sky and you

1436

00:56:17,910 --> 00:56:15,760

have drones you can it's such an easier

1437

00:56:19,750 --> 00:56:17,920

sell to the american people because

1438

00:56:21,750 --> 00:56:19,760

they're like oh we're just trying to

1439

00:56:23,510 --> 00:56:21,760

defend our airspace like that's an easy

1440

00:56:26,150 --> 00:56:23,520

sell to the american people

1441

00:56:29,510 --> 00:56:26,160

selling sasquatch taking down your nukes

1442

00:56:30,710 --> 00:56:29,520

not so easy so it's it's i definitely

1443

00:56:33,270 --> 00:56:30,720

think they're going to take that

1444

00:56:34,069 --> 00:56:33,280

approach to it because there's no way

1445

00:56:35,990 --> 00:56:34,079

uh

1446

00:56:38,069 --> 00:56:36,000

there's there's no way you can't support

1447

00:56:40,950 --> 00:56:38,079

defending our airspace from potentially

1448

00:56:42,870 --> 00:56:40,960

anomalous aerial phenomena yeah

1449

00:56:45,990 --> 00:56:42,880

can i just say one thing on that i'm

1450

00:56:49,109 --> 00:56:46,000

sorry i mean it's it's so unfortunate

1451
00:56:50,789 --> 00:56:49,119
because i mean that place has to have

1452
00:56:52,309 --> 00:56:50,799
there's something there's a big piece of

1453
00:56:54,789 --> 00:56:52,319
the puzzle and maybe a small piece of

1454
00:56:57,589 --> 00:56:54,799
the puzzle that that seems to

1455
00:56:59,190 --> 00:56:57,599
lie there and just because it's not a

1456
00:57:01,349 --> 00:56:59,200
threat

1457
00:57:03,430 --> 00:57:01,359
let's just dismiss it we're missing

1458
00:57:04,789 --> 00:57:03,440
we're missing the point yeah i don't

1459
00:57:06,789 --> 00:57:04,799
think it's about i don't think it's

1460
00:57:07,990 --> 00:57:06,799
about just dismissing i think it's about

1461
00:57:10,470 --> 00:57:08,000
selling it to the american people and

1462
00:57:13,270 --> 00:57:10,480
getting funding sure um

1463
00:57:14,950 --> 00:57:13,280

so like even if there is something to be

1464

00:57:17,349 --> 00:57:14,960

gained from that

1465

00:57:20,150 --> 00:57:17,359

do you think that you can sell it to the

1466

00:57:22,069 --> 00:57:20,160

american people i think that's that's

1467

00:57:23,349 --> 00:57:22,079

all i'm saying i don't i'm i'm not

1468

00:57:25,349 --> 00:57:23,359

saying whether or not there's a good

1469

00:57:27,349 --> 00:57:25,359

case for it or not i'm just saying can

1470

00:57:29,589 --> 00:57:27,359

they get funding for it and i would have

1471

00:57:31,430 --> 00:57:29,599

to believe that they wouldn't mess with

1472

00:57:33,990 --> 00:57:31,440

it because they don't want to be

1473

00:57:36,230 --> 00:57:34,000

associated with the paranormal they're

1474

00:57:38,870 --> 00:57:36,240

more interested in identifying objects

1475

00:57:40,710 --> 00:57:38,880

that are unknown sure

1476

00:57:42,789 --> 00:57:40,720

i i wanna drill down on this on three

1477

00:57:44,630 --> 00:57:42,799

aspects one is

1478

00:57:46,150 --> 00:57:44,640

uh to be honest it's not really selling

1479

00:57:47,750 --> 00:57:46,160

it to the american people it's really

1480

00:57:49,829 --> 00:57:47,760

selling it to the people who hold the

1481

00:57:51,990 --> 00:57:49,839

purse strings and that's congress so

1482

00:57:54,230 --> 00:57:52,000

whether nathan and you and myself and

1483

00:57:56,309 --> 00:57:54,240

akashi and all four of us right here

1484

00:57:57,430 --> 00:57:56,319

agree that we should be investigating

1485

00:57:59,349 --> 00:57:57,440

that place

1486

00:58:01,589 --> 00:57:59,359

as much as possible to see what's going

1487

00:58:05,190 --> 00:58:01,599

on there well we all agree with that

1488

00:58:06,630 --> 00:58:05,200

it's only those 50 people and those uh

1489

00:58:07,750 --> 00:58:06,640

i'm trying to remember how many people

1490

00:58:10,870 --> 00:58:07,760

are on are

1491

00:58:13,990 --> 00:58:10,880

in congress now and i have 435 that are

1492

00:58:15,670 --> 00:58:14,000

in uh in uh in the the house that that

1493

00:58:18,069 --> 00:58:15,680

really matter because they hold the

1494

00:58:20,309 --> 00:58:18,079

purse strings and as i mentioned earlier

1495

00:58:23,910 --> 00:58:20,319

we're in a situation right now where

1496

00:58:26,309 --> 00:58:23,920

money is a big big issue right now and

1497

00:58:28,789 --> 00:58:26,319

i'm i'm telling you that from

1498

00:58:30,069 --> 00:58:28,799

it's a big big issue so let's go to what

1499

00:58:32,710 --> 00:58:30,079

mike would do

1500

00:58:36,230 --> 00:58:32,720

if mike was out in his aircraft with a

1501
00:58:38,870 --> 00:58:36,240
sensor and a and and a piece of

1502
00:58:40,710 --> 00:58:38,880
recording hard drive they can one of the

1503
00:58:41,750 --> 00:58:40,720
things that you guys may not be aware of

1504
00:58:44,069 --> 00:58:41,760
is that

1505
00:58:45,910 --> 00:58:44,079
when aircraft drought flying now and

1506
00:58:48,230 --> 00:58:45,920
there's a sensor feed up

1507
00:58:50,549 --> 00:58:48,240
that feed is now going over through

1508
00:58:53,190 --> 00:58:50,559
satellites to very

1509
00:58:55,510 --> 00:58:53,200
many many places so it's not only the

1510
00:58:57,670 --> 00:58:55,520
people on that aircraft or even on that

1511
00:59:00,710 --> 00:58:57,680
ship that are watching it but there are

1512
00:59:03,030 --> 00:59:00,720
other places that can say i want to see

1513
00:59:05,990 --> 00:59:03,040

that feed and they'll be watching and if

1514

00:59:09,349 --> 00:59:06,000

you remember when the uh bin laden raid

1515

00:59:12,069 --> 00:59:09,359

happened you remember that you saw a uh

1516

00:59:13,750 --> 00:59:12,079

a general uh sitting in the a laptop in

1517

00:59:15,750 --> 00:59:13,760

the white house with president obama and

1518

00:59:17,190 --> 00:59:15,760

hillary clinton staring over his

1519

00:59:20,470 --> 00:59:17,200

shoulder that guy used to be my group

1520

00:59:23,030 --> 00:59:20,480

commander but that's another story uh

1521

00:59:25,990 --> 00:59:23,040

brigadier general brad webb back then

1522

00:59:27,990 --> 00:59:26,000

but uh but anyway the point is is that

1523

00:59:30,789 --> 00:59:28,000

feed is going to many other places not

1524

00:59:34,150 --> 00:59:30,799

just the white house so what that means

1525

00:59:36,390 --> 00:59:34,160

is that if mike decides that if they

1526
00:59:39,430 --> 00:59:36,400
tell mike hey i want you to capture that

1527
00:59:42,710 --> 00:59:39,440
imagery doesn't cost them a penny

1528
00:59:45,589 --> 00:59:42,720
to be able to collect every bit of data

1529
00:59:47,670 --> 00:59:45,599
that mike has when he's up flying and he

1530
00:59:50,789 --> 00:59:47,680
sees something and he keys the mic and

1531
00:59:53,510 --> 00:59:50,799
says i see x and then everybody in the

1532
00:59:55,190 --> 00:59:53,520
control room goes

1533
00:59:57,190 --> 00:59:55,200
and they start looking at their feet and

1534
00:59:59,109 --> 00:59:57,200
going i want

1535
01:00:01,910 --> 00:59:59,119
every bit of that and they call mike's

1536
01:00:03,750 --> 01:00:01,920
call sign and he's like roger

1537
01:00:05,270 --> 01:00:03,760
and then he collects every bit of that

1538
01:00:06,870 --> 01:00:05,280

he yanks his hard drive at the end of

1539

01:00:08,870 --> 01:00:06,880

the mission and then we get to analyze

1540

01:00:10,309 --> 01:00:08,880

all of that data so that doesn't cost

1541

01:00:12,549 --> 01:00:10,319

them a penny

1542

01:00:13,910 --> 01:00:12,559

other types of what we're talking about

1543

01:00:15,670 --> 01:00:13,920

spending money to send people out to

1544

01:00:16,390 --> 01:00:15,680

skinwalker

1545

01:00:18,230 --> 01:00:16,400

or

1546

01:00:20,789 --> 01:00:18,240

things that involved

1547

01:00:22,950 --> 01:00:20,799

launching a mission or creating

1548

01:00:25,349 --> 01:00:22,960

technologies that don't yet exist or

1549

01:00:27,270 --> 01:00:25,359

deploying technologies is money but

1550

01:00:29,510 --> 01:00:27,280

mike's already up there flying all

1551

01:00:32,069 --> 01:00:29,520

they're doing is saying hey we want to

1552

01:00:33,990 --> 01:00:32,079

see that feed that he just got yeah and

1553

01:00:35,589 --> 01:00:34,000

that's how that's how it's done task it

1554

01:00:38,309 --> 01:00:35,599

differently

1555

01:00:39,750 --> 01:00:38,319

but it's free yeah right exactly it's

1556

01:00:41,349 --> 01:00:39,760

already there yeah

1557

01:00:43,190 --> 01:00:41,359

well i guess what what i'm curious about

1558

01:00:45,829 --> 01:00:43,200

here is really more the

1559

01:00:46,710 --> 01:00:45,839

the arc of of ideas you know so the it's

1560

01:00:50,150 --> 01:00:46,720

the

1561

01:00:54,069 --> 01:00:52,230

science what it does is it exposes us to

1562

01:00:56,309 --> 01:00:54,079

new ways of thinking right and and the

1563

01:00:58,230 --> 01:00:56,319

scientists who are who are on the sort

1564

01:00:59,510 --> 01:00:58,240

of edge of discovery you know they're

1565

01:01:02,630 --> 01:00:59,520

they're the ones that are kind of going

1566

01:01:04,630 --> 01:01:02,640

oh like this is now a real this is now a

1567

01:01:06,870 --> 01:01:04,640

fact about reality that i did not know

1568

01:01:09,510 --> 01:01:06,880

before but it's kind of obscure it's

1569

01:01:11,670 --> 01:01:09,520

obscure to it's it's uh relegated to the

1570

01:01:14,390 --> 01:01:11,680

scientific community that is really like

1571

01:01:16,309 --> 01:01:14,400

uncovering that or discovering it that a

1572

01:01:19,030 --> 01:01:16,319

new understanding of reality has to

1573

01:01:20,710 --> 01:01:19,040

trickle into society i mean the the best

1574

01:01:22,150 --> 01:01:20,720

example of this is just how you see the

1575

01:01:23,910 --> 01:01:22,160

word quantum

1576

01:01:25,750 --> 01:01:23,920

like popping up all over the place now

1577

01:01:27,829 --> 01:01:25,760

quantum this quantum that you know it's

1578

01:01:29,750 --> 01:01:27,839

and it's used just very flippantly

1579

01:01:32,150 --> 01:01:29,760

uh and people have a rudimentary

1580

01:01:33,829 --> 01:01:32,160

understanding of quantum mechanics but

1581

01:01:35,990 --> 01:01:33,839

if we were to go back let's say you know

1582

01:01:37,430 --> 01:01:36,000

10 15 years ago you could ask people

1583

01:01:38,950 --> 01:01:37,440

about quantum and they would not really

1584

01:01:40,390 --> 01:01:38,960

know what the heck you were talking

1585

01:01:42,230 --> 01:01:40,400

about but it's

1586

01:01:43,910 --> 01:01:42,240

i know these ideas are becoming

1587

01:01:45,990 --> 01:01:43,920

prominent when you see them in movies

1588

01:01:47,910 --> 01:01:46,000

you know when they're in movies then you

1589

01:01:49,910 --> 01:01:47,920

know the concepts that are that were

1590

01:01:52,309 --> 01:01:49,920

probably i mean quantum mechanics is not

1591

01:01:55,190 --> 01:01:52,319

new it's been around for decades but it

1592

01:01:57,990 --> 01:01:55,200

is in the public consciousness now and

1593

01:01:59,670 --> 01:01:58,000

so to to the point earlier about how

1594

01:02:01,349 --> 01:01:59,680

you know is congress ready congress is

1595

01:02:03,829 --> 01:02:01,359

just a mirror of the american public

1596

01:02:05,270 --> 01:02:03,839

it's a mirror of our society you know

1597

01:02:07,589 --> 01:02:05,280

they're not a bunch of scientists you

1598

01:02:08,789 --> 01:02:07,599

know so we have to get them to a similar

1599

01:02:11,589 --> 01:02:08,799

place just like we have to get the

1600

01:02:14,549 --> 01:02:11,599

general public to be acclimated to these

1601
01:02:16,230 --> 01:02:14,559
concepts and consciousness it may just

1602
01:02:17,510 --> 01:02:16,240
require that we have a greater

1603
01:02:19,190 --> 01:02:17,520
acclimation

1604
01:02:21,270 --> 01:02:19,200
to quantum mechanics before we can

1605
01:02:22,950 --> 01:02:21,280
really even get into the aspects of quan

1606
01:02:25,430 --> 01:02:22,960
of consciousness and the phenomenon that

1607
01:02:26,789 --> 01:02:25,440
skinwalker seems to represent you know

1608
01:02:28,710 --> 01:02:26,799
we're not we're not quite at that place

1609
01:02:30,870 --> 01:02:28,720
where we can have that congress or even

1610
01:02:32,710 --> 01:02:30,880
yeah and in relation to high strangeness

1611
01:02:35,589 --> 01:02:32,720
right could you imagine running for

1612
01:02:38,710 --> 01:02:35,599
congress and then you vote you vote for

1613
01:02:39,990 --> 01:02:38,720

asro and asro is also

1614

01:02:42,230 --> 01:02:40,000

going to

1615

01:02:44,230 --> 01:02:42,240

uh skinwalker about high strangeness and

1616

01:02:46,549 --> 01:02:44,240

then your competitor in your

1617

01:02:47,589 --> 01:02:46,559

congressional race is running ads about

1618

01:02:50,710 --> 01:02:47,599

you going

1619

01:02:54,230 --> 01:02:50,720

so and so voted for bigfoot you're just

1620

01:02:57,589 --> 01:02:55,829

what's sort of funny about that though

1621

01:02:59,670 --> 01:02:57,599

is the fact that we laugh about that at

1622

01:03:00,710 --> 01:02:59,680

the same time i feel that society is

1623

01:03:01,750 --> 01:03:00,720

actually

1624

01:03:04,069 --> 01:03:01,760

uh

1625

01:03:06,470 --> 01:03:04,079

the old rules don't seem to apply in as

1626

01:03:08,549 --> 01:03:06,480

much the same way as they used to and i

1627

01:03:10,390 --> 01:03:08,559

and i think you know recent politics is

1628

01:03:12,230 --> 01:03:10,400

is has proven that out

1629

01:03:14,549 --> 01:03:12,240

with that you know so we have people who

1630

01:03:16,309 --> 01:03:14,559

are much more willing to say hey yeah i

1631

01:03:18,230 --> 01:03:16,319

do want a bigfoot candidate you know and

1632

01:03:20,630 --> 01:03:18,240

i want them to ask the bigfoot questions

1633

01:03:22,950 --> 01:03:20,640

you know that's that's not that's not an

1634

01:03:25,349 --> 01:03:22,960

unfair point that's a very interesting

1635

01:03:28,069 --> 01:03:25,359

point like is has politics changed

1636

01:03:30,069 --> 01:03:28,079

enough now that we do want a bigfoot

1637

01:03:32,390 --> 01:03:30,079

candidate like that's interesting that's

1638

01:03:33,349 --> 01:03:32,400

an interesting question yeah yeah some

1639

01:03:33,990 --> 01:03:33,359

people do

1640

01:03:38,630 --> 01:03:34,000

all right

1641

1652

01:04:16,150 --> 01:04:13,599

mataloni holmes i got some questions man

1653

01:04:18,630 --> 01:04:16,160

i got i got serious questions

1654

01:04:21,349 --> 01:04:18,640

it may not be related to the topic i we

1655

01:04:23,349 --> 01:04:21,359

don't care there is no topic

1656

01:04:25,670 --> 01:04:23,359

all right so um

1657

01:04:26,549 --> 01:04:25,680

michael mataloni yes sir steven griez

1658

01:04:29,910 --> 01:04:26,559

flair

1659

01:04:32,950 --> 01:04:29,920

is it awkward around rather be squinting

1660

01:04:36,780 --> 01:04:32,960

now that uh he stole your co-host role

1661

01:04:47,109 --> 01:04:39,190

[Applause]

1662

01:04:50,950 --> 01:04:49,510

let me let me i'm going to answer that

1663

01:04:52,870 --> 01:04:50,960

with a question

1664

01:04:55,910 --> 01:04:52,880

okay you ready are you ready you're a

1665

01:04:57,829 --> 01:04:55,920

slayer okay could you ever be mad at

1666

01:04:59,510 --> 01:04:57,839

rather

1667

01:05:01,990 --> 01:04:59,520

fair point no

1668

01:05:04,069 --> 01:05:02,000

no that's correct

1669

01:05:06,069 --> 01:05:04,079

okay you win

1670

01:05:07,510 --> 01:05:06,079

that is correct and that is the answer

1671

01:05:09,750 --> 01:05:07,520

question and you kind of blew that out

1672

01:05:11,190 --> 01:05:09,760

of the water

1673

01:05:12,309 --> 01:05:11,200

sorry about that

1674

01:05:14,710 --> 01:05:12,319

that's a good thing yeah yeah okay

1675

01:05:16,549 --> 01:05:14,720

gotcha i was hoping you got a follow-up

1676

01:05:18,549 --> 01:05:16,559

because this dude he uh he's on point

1677

01:05:20,309 --> 01:05:18,559

1678

01:05:23,670 --> 01:05:20,319

right with it kristen's actually making

1679

01:05:25,510 --> 01:05:23,680

me a cocktail kristen

1680

01:05:27,109 --> 01:05:25,520

get come on here

1681

01:05:28,470 --> 01:05:27,119

she's not in here she can't also hear

1682

01:05:30,309 --> 01:05:28,480

you you remember how you're feeling i

1683

01:05:31,430 --> 01:05:30,319

hear that there's a picture mataloni you

1684

01:05:34,870 --> 01:05:31,440

go

1685

01:05:45,109 --> 01:05:41,190

we

1686

01:05:47,910 --> 01:05:45,119

yeah and rather and and rather man i

1687

01:05:50,069 --> 01:05:47,920

want to have a beer with that guy

1688

01:05:51,910 --> 01:05:50,079

me too man i like that guy yeah he's

1689

01:05:53,910 --> 01:05:51,920

amazing cool okay go ahead steven

1690

01:05:55,589 --> 01:05:53,920

grier's flare he's the smartest second

1691

01:05:58,549 --> 01:05:55,599

question did you ever have dreadlocks

1692

01:06:00,470 --> 01:05:58,559

shut the [h__h] up dj what

1693

01:06:02,710 --> 01:06:00,480

was it true did you have dreadlocks at

1694

01:06:04,870 --> 01:06:02,720

one point i mean i did yes that is

1695

01:06:07,910 --> 01:06:04,880

correct i had no that is correct i had

1696

01:06:11,349 --> 01:06:07,920

dreadlocks uh when i was

1697

01:06:13,910 --> 01:06:11,359

2 uh 20 20 years old um i started

1698

01:06:16,309 --> 01:06:13,920

dreading my dreading my hair in college

1699

01:06:18,069 --> 01:06:16,319

no pun intended yep as you said i went

1700

01:06:19,190 --> 01:06:18,079

on like that

1701

01:06:21,029 --> 01:06:19,200

actually my wife and i were actually

1702

01:06:28,630 --> 01:06:21,039

foster parents we lived in oregon and we

1703

01:06:32,390 --> 01:06:30,549

when we were going we were getting our

1704

01:06:34,630 --> 01:06:32,400

certification to be foster parents

1705

01:06:36,789 --> 01:06:34,640

eventually kristen was like

1706

01:06:38,390 --> 01:06:36,799

it's time to cut this off like i don't i

1707

01:06:39,990 --> 01:06:38,400

don't know what our foster kids will

1708

01:06:41,829 --> 01:06:40,000

think if they see you at dreadlocks we

1709

01:06:43,190 --> 01:06:41,839

can't be smoking weed in front of them

1710

01:06:45,349 --> 01:06:43,200

like you got to cut it off and i was

1711

01:06:46,789 --> 01:06:45,359

like

1712

01:06:51,750 --> 01:06:46,799

bob ugh

1713

01:06:54,789 --> 01:06:53,510

oh i put i've are you you're in the

1714

01:06:56,470 --> 01:06:54,799

discord right i've put pictures in the

1715

01:06:58,069 --> 01:06:56,480

display

1716

01:06:59,270 --> 01:06:58,079

okay i'll send you pictures i'll send

1717

01:07:00,870 --> 01:06:59,280

you pictures

1718

01:07:03,190 --> 01:07:00,880

i'll share them on i'll share them on

1719

01:07:06,069 --> 01:07:03,200

the tweeters and i'll tag you in them

1720

01:07:08,230 --> 01:07:06,079

yes we need evidence yeah yeah man we

1721

01:07:09,990 --> 01:07:08,240

got to bring it real man don't play yeah

1722

01:07:11,829 --> 01:07:10,000

no no i totally had dreadlocks now they

1723

01:07:13,670 --> 01:07:11,839

were they were white boy dreadlocks they

1724

01:07:14,549 --> 01:07:13,680

were like handmade

1725

01:07:20,950 --> 01:07:14,559

like

1726

01:07:23,750 --> 01:07:20,960

dreadlocks and kristen will tell you all

1727

01:07:25,270 --> 01:07:23,760

about how not beautiful they were

1728

01:07:38,549 --> 01:07:25,280

yeah

1729

01:07:41,829 --> 01:07:40,069

we found a little bit of a pressure

1730

01:07:44,710 --> 01:07:41,839

point nathan because when i suggested

1731

01:07:45,829 --> 01:07:44,720

that rather was smarter than michael i i

1732

01:07:48,150 --> 01:07:45,839

think we found a little bit of a

1733

01:07:49,349 --> 01:07:48,160

pressure point he said so

1734

01:07:54,309 --> 01:07:49,359

he made a face

1735

01:07:57,829 --> 01:07:56,470

come on that's like saying exo academia

1736

01:07:59,750 --> 01:07:57,839

is smarter than nathan he's not going to

1737

01:08:01,430 --> 01:07:59,760

be offended oh wait i think i just got

1738

01:08:03,980 --> 01:08:01,440

fired

1739

01:08:06,470 --> 01:08:03,990

my match with 401k just got turned off

1740

01:08:08,549 --> 01:08:06,480

[Laughter]

1741

01:08:11,349 --> 01:08:08,559

all right uh stephen greer's flare

1742

01:08:13,270 --> 01:08:11,359

please pimp your channel uh and and tell

1743

01:08:14,789 --> 01:08:13,280

us about what you've got going because

1744

01:08:17,349 --> 01:08:14,799

you've got a new youtube channel please

1745

01:08:19,510 --> 01:08:17,359

tell us about it oh my channel

1746

01:08:22,149 --> 01:08:19,520

oh yeah no it's it's still in uh the

1747

01:08:25,349 --> 01:08:22,159

works i'm i'm putting all my random

1748

01:08:27,189 --> 01:08:25,359

animations on there nice that i've made

1749

01:08:30,229 --> 01:08:27,199

my theater of doom

1750

01:08:31,990 --> 01:08:30,239

um i eventually plan to do interviews

1751

01:08:34,550 --> 01:08:32,000

and have a co-host and all that stuff

1752

01:08:37,269 --> 01:08:34,560

but you know work in progress

1753

01:08:38,550 --> 01:08:37,279

okay well if nathan fires me i'll you

1754

01:08:40,709 --> 01:08:38,560

know i'll come over there you'd be

1755

01:08:42,870 --> 01:08:40,719

looking for all right

1756

01:08:44,870 --> 01:08:42,880

can we check it out now or is it do you

1757

01:08:46,950 --> 01:08:44,880

have animations up now or i have all the

1758

01:08:48,709 --> 01:08:46,960

animations up yeah actually

1759

01:08:50,550 --> 01:08:48,719

so you can check them out whenever

1760

01:08:52,229 --> 01:08:50,560

no where what's the channel what's going

1761

01:08:55,749 --> 01:08:52,239

on

1762

01:08:58,950 --> 01:08:55,759

um is this a family channel

1763

01:09:01,510 --> 01:08:58,960

uh i i i don't encourage a lot of

1764

01:09:04,829 --> 01:09:01,520

cursing but if if if you must let it rip

1765

01:09:07,829 --> 01:09:04,839

okay well the channel name is flares

1766

01:09:10,070 --> 01:09:07,839

unexplainable channel which stands for

1767

01:09:12,149 --> 01:09:10,080

fuc

1768

01:09:14,950 --> 01:09:12,159

oh wait wait a minute i don't know i

1769

01:09:16,550 --> 01:09:14,960

don't get it what's all right i know

1770

01:09:19,189 --> 01:09:16,560

it's foose

1771

01:09:21,829 --> 01:09:19,199

welcome to food

1772

01:09:24,550 --> 01:09:21,839

we will put you uh in the show notes

1773

01:09:26,709 --> 01:09:24,560

and uh i really want to thank you uh

1774

01:09:28,870 --> 01:09:26,719

steven griers flair because one of the

1775

01:09:32,390 --> 01:09:28,880

pleasures of doing this show is really

1776

01:09:34,229 --> 01:09:32,400

to connect uh with uh people that are uh

1777

01:09:35,669 --> 01:09:34,239

just you know really positive and people

1778

01:09:39,110 --> 01:09:35,679

that are bringing something into the

1779

01:09:41,829 --> 01:09:39,120

space and uh it doesn't i don't care if

1780

01:09:44,630 --> 01:09:41,839

you have 10 12 followers or 10 000 i

1781

01:09:46,630 --> 01:09:44,640

mean look at mataloni so um thank you

1782

01:09:47,510 --> 01:09:46,640

very much for coming on and speaking

1783

01:09:49,510 --> 01:09:47,520

with us

1784

01:09:51,349 --> 01:09:49,520

and um i look forward to speaking with

1785

01:09:53,349 --> 01:09:51,359

you again yes okay

1786

01:09:54,790 --> 01:09:53,359

thanks for having me steven griez flair

1787

01:09:56,709 --> 01:09:54,800

thank you so it was so good to see you

1788

01:09:59,669 --> 01:09:56,719

in the flesh

1789

01:10:04,229 --> 01:10:01,910

namaste [h__\h]

1790

01:10:06,550 --> 01:10:04,239

hey man don't don't play with yoga man

1791

01:10:09,510 --> 01:10:06,560

now you've gone too far some shots fired

1792

01:10:10,870 --> 01:10:09,520

over there yeah dude i will downward dog

1793

01:10:13,510 --> 01:10:10,880

up in yeah

1794

01:10:16,950 --> 01:10:13,520

well we'll see because i may do you know

1795

01:10:19,110 --> 01:10:16,960

what mike i may do a hashtag ufo twitter

1796

01:10:20,790 --> 01:10:19,120

uh yoga practice and we'll see if you

1797

01:10:23,270 --> 01:10:20,800

turn up and if you have any game so

1798

01:10:25,510 --> 01:10:23,280

we'll okay hey nathan's got game we'll

1799

01:10:27,590 --> 01:10:25,520

see if we got game

1800

01:10:29,030 --> 01:10:27,600

challenge accepted and one other thing i

1801
01:10:31,030 --> 01:10:29,040
wanted to mention mike something that

1802
01:10:34,550 --> 01:10:31,040
akashi chris and i were kicking around

1803
01:10:37,990 --> 01:10:34,560
was the idea of a summertime southeast

1804
01:10:41,350 --> 01:10:38,000
usa hashtag ufo twitter get together

1805
01:10:44,470 --> 01:10:41,360
uh in a central location based on the

1806
01:10:46,229 --> 01:10:44,480
density of population of our our our

1807
01:10:48,229 --> 01:10:46,239
family here if you will

1808
01:10:49,830 --> 01:10:48,239
all right what do you think of that idea

1809
01:10:51,590 --> 01:10:49,840
and would you be interested in attending

1810
01:10:53,830 --> 01:10:51,600
of course like that of course a public

1811
01:10:55,910 --> 01:10:53,840
park for safety you know of course but i

1812
01:10:58,630 --> 01:10:55,920
have a feeling that

1813
01:11:02,470 --> 01:10:58,640

i have

1814

01:11:03,590 --> 01:11:02,480

east coast and so many are west coast

1815

01:11:06,790 --> 01:11:03,600

that we're going to end up meeting in

1816

01:11:08,390 --> 01:11:06,800

oklahoma or something or austin i kind

1817

01:11:10,070 --> 01:11:08,400

of nathan

1818

01:11:11,750 --> 01:11:10,080

you and i talked about austin just

1819

01:11:14,070 --> 01:11:11,760

because one of the cool things is you

1820

01:11:16,790 --> 01:11:14,080

can get to the outskirts because what i

1821

01:11:17,830 --> 01:11:16,800

thought about is i pictured uh drinking

1822

01:11:20,950 --> 01:11:17,840

eating

1823

01:11:24,709 --> 01:11:20,960

hey hey james what's up brother what's

1824

01:11:29,270 --> 01:11:26,709

and and and we thought about the

1825

01:11:31,510 --> 01:11:29,280

possibility of of making stargazing part

1826

01:11:33,590 --> 01:11:31,520

of it where if we could get out away a

1827

01:11:35,910 --> 01:11:33,600

little bit and then actually go look at

1828

01:11:37,669 --> 01:11:35,920

the scar stars and talk so that i'm just

1829

01:11:39,830 --> 01:11:37,679

throwing that sounds awesome yeah i'm

1830

01:11:41,350 --> 01:11:39,840

just throwing things out there for for a

1831

01:11:42,470 --> 01:11:41,360

weekend you know we could do a little

1832

01:11:44,709 --> 01:11:42,480

bit of each

1833

01:11:46,870 --> 01:11:44,719

i like it love it yeah so you'd be

1834

01:11:48,310 --> 01:11:46,880

interested in that i would yeah we've

1835

01:11:51,750 --> 01:11:48,320

been talking we've also been talking

1836

01:11:54,149 --> 01:11:51,760

about um going out to l.a uh lou wants

1837

01:11:57,830 --> 01:11:54,159

to do a like a ucr week where we're like

1838

01:12:01,350 --> 01:11:57,840

we do uh we do a theater uh we do a bar

1839

01:12:02,950 --> 01:12:01,360

um yeah anyway so yeah i'm all about i'm

1840

01:12:05,189 --> 01:12:02,960

all about getting up and and meeting

1841

01:12:07,030 --> 01:12:05,199

some ufo twitter folks

1842

01:12:08,870 --> 01:12:07,040

okay then we'll we'll coordinate with

1843

01:12:11,430 --> 01:12:08,880

you akashi chris

1844

01:12:12,709 --> 01:12:11,440

and nathan myself and anybody else that

1845

01:12:15,669 --> 01:12:12,719

has ideas

1846

01:12:17,270 --> 01:12:15,679

um just dm us and and uh we'll start

1847

01:12:19,110 --> 01:12:17,280

trying to put it together because we're

1848

01:12:20,630 --> 01:12:19,120

on the precipice of winter so it's a

1849

01:12:23,510 --> 01:12:20,640

good time to plan for summer that's

1850

01:12:26,149 --> 01:12:23,520

right that's right that's right

1851

01:12:28,070 --> 01:12:26,159

such a planner hey man i was paid to do

1852

01:12:30,950 --> 01:12:28,080

that in the air force man you know i was

1853

01:12:33,030 --> 01:12:30,960

a mission planner so anyway um let's

1854

01:12:33,910 --> 01:12:33,040

bring in what other uh questions that we

1855

01:12:36,709 --> 01:12:33,920

have

1856

01:12:38,870 --> 01:12:36,719

from the audience uh because i believe

1857

01:12:41,270 --> 01:12:38,880

grant had another question

1858

01:12:43,669 --> 01:12:41,280

uh i don't know if he did but if he did

1859

01:12:45,510 --> 01:12:43,679

he's welcome to post it i will put it up

1860

01:12:48,470 --> 01:12:45,520

but i have a question i'm gonna switch

1861

01:12:50,630 --> 01:12:48,480

gears yes slightly

1862

01:12:51,830 --> 01:12:50,640

determinism what do you think about it

1863

01:12:54,229 --> 01:12:51,840

ooh

1864

01:12:56,470 --> 01:12:54,239

um that's an excellent question all

1865

01:12:58,550 --> 01:12:56,480

right so bring me back to my philosophy

1866

01:13:00,470 --> 01:12:58,560

minor days in college

1867

01:13:03,830 --> 01:13:00,480

uh for those of you who don't know

1868

01:13:04,870 --> 01:13:03,840

determinum determinism means and you go

1869

01:13:06,229 --> 01:13:04,880

like this

1870

01:13:07,910 --> 01:13:06,239

uh

1871

01:13:10,149 --> 01:13:07,920

life is predetermined everything

1872

01:13:12,310 --> 01:13:10,159

everything that has happened will happen

1873

01:13:13,910 --> 01:13:12,320

and your entire life every decision you

1874

01:13:14,950 --> 01:13:13,920

make has already been laid out in front

1875

01:13:17,270 --> 01:13:14,960

of you

1876

01:13:20,390 --> 01:13:17,280

um and you're destined to make those

1877

01:13:23,510 --> 01:13:20,400

decisions so i could dig on terminism

1878

01:13:26,070 --> 01:13:23,520

determinism if we're talking about a

1879

01:13:28,870 --> 01:13:26,080

multiverse where every possibility

1880

01:13:31,350 --> 01:13:28,880

exists and you're taking all of them

1881

01:13:33,110 --> 01:13:31,360

yes okay nice escape hatch there i like

1882

01:13:35,510 --> 01:13:33,120

that

1883

01:13:38,070 --> 01:13:35,520

well i mean yeah it's like utrend of

1884

01:13:41,669 --> 01:13:38,080

utrade of bebenberg who said destiny is

1885

01:13:43,750 --> 01:13:41,679

old that's right you know the vikings

1886

01:13:46,070 --> 01:13:43,760

no i don't i don't i think the universe

1887

01:13:47,590 --> 01:13:46,080

is too dynamic to be deterministic i

1888

01:13:49,510 --> 01:13:47,600

think there's just too much happening

1889

01:13:52,070 --> 01:13:49,520

and it's all moving so quickly and from

1890

01:13:53,590 --> 01:13:52,080

a human perspective i think that

1891

01:13:54,390 --> 01:13:53,600

you know we we

1892

01:14:00,229 --> 01:13:54,400

now

1893

01:14:01,750 --> 01:14:00,239

believe in an unlimited free will just

1894

01:14:04,070 --> 01:14:01,760

because i don't believe in determinism

1895

01:14:05,590 --> 01:14:04,080

doesn't mean i believe in free will so i

1896

01:14:08,630 --> 01:14:05,600

actually fall somewhere in the middle

1897

01:14:09,910 --> 01:14:08,640

here because i think that am i free to

1898

01:14:10,790 --> 01:14:09,920

not go to the bathroom when i have the

1899

01:14:11,910 --> 01:14:10,800

urge

1900

01:14:20,070 --> 01:14:11,920

no

1901

01:14:21,350 --> 01:14:20,080

free will to start with i have physical

1902

01:14:24,950 --> 01:14:21,360

demands

1903

01:14:25,750 --> 01:14:24,960

on my consciousness that require

1904

01:14:27,030 --> 01:14:25,760

a

1905

01:14:28,950 --> 01:14:27,040

uh

1906

01:14:31,110 --> 01:14:28,960

those needs are required to be filled

1907

01:14:32,550 --> 01:14:31,120

period sure um so so i can't have

1908

01:14:36,470 --> 01:14:32,560

complete free will

1909

01:14:38,390 --> 01:14:36,480

um do i have am i free to choose uh to a

1910

01:14:41,430 --> 01:14:38,400

certain extent yes but

1911

01:14:42,950 --> 01:14:41,440

um you know i could have been born into

1912

01:14:44,790 --> 01:14:42,960

a very rich family it could have been

1913

01:14:47,350 --> 01:14:44,800

born into a very poor family

1914

01:14:49,830 --> 01:14:47,360

um so there there are so many things

1915

01:14:50,950 --> 01:14:49,840

that that so many environmental factors

1916

01:14:56,310 --> 01:14:50,960

that

1917

01:14:58,149 --> 01:14:56,320

can't be a sole free will person but

1918

01:15:00,070 --> 01:14:58,159

that also doesn't mean i believe in pure

1919

01:15:02,070 --> 01:15:00,080

determinism either i think there's a

1920

01:15:03,990 --> 01:15:02,080

spectrum um

1921

01:15:05,750 --> 01:15:04,000

and that's why like i hate politics oh

1922

01:15:06,950 --> 01:15:05,760

well i do love to argue politics but i

1923

01:15:09,510 --> 01:15:06,960

hate politics so much because it's all

1924

01:15:12,310 --> 01:15:09,520

black and white sure you can't it's like

1925

01:15:14,630 --> 01:15:12,320

you can't have any sort of perspective

1926

01:15:17,270 --> 01:15:14,640

there's no spectrum allowed in politics

1927

01:15:18,950 --> 01:15:17,280

and i think that's a huge problem and i

1928

01:15:21,030 --> 01:15:18,960

think that's part of the

1929

01:15:24,630 --> 01:15:21,040

issues of polarization in our country

1930

01:15:26,790 --> 01:15:24,640

today michael is not it's not

1931

01:15:28,870 --> 01:15:26,800

life as we know it in the united states

1932

01:15:30,550 --> 01:15:28,880

around the world and

1933

01:15:33,430 --> 01:15:30,560

man we stop making noise when you're

1934

01:15:35,030 --> 01:15:33,440

trying to drink madeluna

1935

01:15:36,310 --> 01:15:35,040

go ahead wait till i he'll wait till i

1936

01:15:37,350 --> 01:15:36,320

start talking again he's got a bit of a

1937

01:15:38,950 --> 01:15:37,360

drinking cup

1938

01:15:40,390 --> 01:15:38,960

he he does have a drink you know what

1939

01:15:41,030 --> 01:15:40,400

i'm going to join him that's a that's an

1940

01:15:42,870 --> 01:15:41,040

area

1941

01:15:44,390 --> 01:15:42,880

for those people i love it man i love

1942

01:15:46,310 --> 01:15:44,400

what kind of energy he brought to that

1943

01:15:47,350 --> 01:15:46,320

the strength

1944

01:15:49,669 --> 01:15:47,360

he's like

1945

01:15:51,430 --> 01:15:49,679

if dj's calling me by my last name i'm

1946

01:15:53,189 --> 01:15:51,440

gonna bring some energy up in there

1947

01:15:55,990 --> 01:15:53,199

right no but no seriously you said this

1948

01:15:57,669 --> 01:15:56,000

that you framed it properly you you you

1949

01:15:59,430 --> 01:15:57,679

let me know with your body language what

1950

01:16:00,870 --> 01:15:59,440

kind of interview you wanted and i'm

1951

01:16:02,550 --> 01:16:00,880

just here to deliver i don't have free

1952

01:16:04,870 --> 01:16:02,560

will on this i'm just i'm just here to

1953

01:16:07,350 --> 01:16:04,880

deliver right but what i meant to say

1954

01:16:10,630 --> 01:16:07,360

that the the metaphor that i like to use

1955

01:16:11,590 --> 01:16:10,640

that nathan really likes or is that

1956

01:16:17,110 --> 01:16:11,600

we

1957

01:16:19,669 --> 01:16:17,120

yes if you are black or you're white

1958

01:16:21,830 --> 01:16:19,679

you're probably way at the extreme on

1959

01:16:23,750 --> 01:16:21,840

something but most of life and you will

1960

01:16:25,669 --> 01:16:23,760

notice i said the mo the word most

1961

01:16:27,189 --> 01:16:25,679

because you and i had that chat about

1962

01:16:29,189 --> 01:16:27,199

absolutism

1963

01:16:30,790 --> 01:16:29,199

is is lived in the gray and i think we

1964

01:16:32,149 --> 01:16:30,800

could look at the phenomenon from the

1965

01:16:34,630 --> 01:16:32,159

same level so you have these people that

1966

01:16:36,070 --> 01:16:34,640

are like oh the you know there's nobody

1967

01:16:38,149 --> 01:16:36,080

from the government that's truthful it's

1968

01:16:39,669 --> 01:16:38,159

all lie everything's a conspiracy and

1969

01:16:42,070 --> 01:16:39,679

you have these people who like anything

1970

01:16:45,430 --> 01:16:42,080

the government says is true but the

1971

01:16:46,870 --> 01:16:45,440

truth is is in the gray somewhere along

1972

01:16:48,070 --> 01:16:46,880

that spectrum

1973

01:16:51,270 --> 01:16:48,080

do you think that's a fair

1974

01:16:54,790 --> 01:16:51,280

characterization of life as humans

1975

01:16:55,990 --> 01:16:54,800

i do i really do i mean do you agree

1976

01:16:57,669 --> 01:16:56,000

there we go

1977

01:17:00,120 --> 01:16:57,679

[Music]

1978

01:17:01,750 --> 01:17:00,130

i'm doing the show i don't like how this

1979

01:17:03,430 --> 01:17:01,760

[Laughter]

1980

01:17:05,030 --> 01:17:03,440

i'm feels you do mike

1981

01:17:06,310 --> 01:17:05,040

our friendship is just beginning it's

1982

01:17:08,630 --> 01:17:06,320

just

1983

01:17:12,390 --> 01:17:08,640

i i'm gonna use the words of chicago

1984

01:17:17,669 --> 01:17:16,149

it's really nice yeah that i actually

1985

01:17:20,950 --> 01:17:17,679

foreshadowing actually but that's

1986

01:17:22,470 --> 01:17:20,960

something else i like that um yeah so

1987

01:17:23,590 --> 01:17:22,480

again we're just we're just at the

1988

01:17:25,160 --> 01:17:23,600

beginning of this extraordinary

1989

01:17:27,590 --> 01:17:25,170

friendship but that being said

1990

01:17:29,910 --> 01:17:27,600

[Laughter]

1991

01:17:31,270 --> 01:17:29,920

i can still agree with you i can still

1992

01:17:33,350 --> 01:17:31,280

agree with you even though we're just at

1993

01:17:34,790 --> 01:17:33,360

the beginning that uh

1994

01:17:36,709 --> 01:17:34,800

you know everything's a spectrum and

1995

01:17:38,229 --> 01:17:36,719

we're we all land somewhere and and

1996

01:17:41,189 --> 01:17:38,239

again that

1997

01:17:42,950 --> 01:17:41,199

the dynamic nature of the universe

1998

01:17:44,630 --> 01:17:42,960

leads me to constantly believe

1999

01:17:46,310 --> 01:17:44,640

everything's always in flux right and

2000

01:17:48,470 --> 01:17:46,320

and again going back to the incentive

2001

01:17:50,870 --> 01:17:48,480

base like everyone in the government is

2002

01:17:52,550 --> 01:17:50,880

incentive based right every human being

2003

01:17:54,709 --> 01:17:52,560

is incentive based you go get a job

2004

01:17:57,750 --> 01:17:54,719

because you need money it's an incentive

2005

01:18:00,950 --> 01:17:57,760

to go to work um you know you want to be

2006

01:18:03,430 --> 01:18:00,960

a good dad because you want to you want

2007

01:18:06,070 --> 01:18:03,440

your kids to grow up in a way that that

2008

01:18:08,390 --> 01:18:06,080

makes them happy that's an incentive

2009

01:18:10,390 --> 01:18:08,400

their happiness is an incentive for you

2010

01:18:12,709 --> 01:18:10,400

sure um so everything

2011

01:18:14,950 --> 01:18:12,719

you know beyond money is is incentive

2012

01:18:16,390 --> 01:18:14,960

based so you know when you think about

2013

01:18:18,149 --> 01:18:16,400

that from that nature then you got to

2014

01:18:20,229 --> 01:18:18,159

remember that there's all these

2015

01:18:21,910 --> 01:18:20,239

different people in the government who

2016

01:18:24,870 --> 01:18:21,920

have very different incentives and

2017

01:18:26,630 --> 01:18:24,880

they're not aligned and so to entertain

2018

01:18:29,430 --> 01:18:26,640

this idea that everything is this

2019

01:18:33,110 --> 01:18:29,440

massive conspiracy driven by this

2020

01:18:37,430 --> 01:18:34,630

i don't know man i don't i don't buy it

2021

01:18:40,630 --> 01:18:37,440

i i find if you're you're better off

2022

01:18:42,709 --> 01:18:40,640

looking for for idiocracy than you are

2023

01:18:45,189 --> 01:18:42,719

looking for conspiracy you're you're far

2024

01:18:47,750 --> 01:18:45,199

more likely to find this exactly yeah

2025

01:18:49,990 --> 01:18:47,760

don't don't assume a conspiracy when

2026

01:18:53,750 --> 01:18:50,000

incompetence will suffice will do

2027

01:18:58,470 --> 01:18:55,750

nathan i don't i don't have the rgb

2028

01:19:00,950 --> 01:18:58,480

color spectrums in front of me but let's

2029

01:19:03,350 --> 01:19:00,960

suffice it to say there are a lot of

2030

01:19:05,189 --> 01:19:03,360

many many shades of grey

2031

01:19:08,950 --> 01:19:05,199

in between black and white

2032

01:19:10,709 --> 01:19:08,960

oh yeah oh can i comment on this comment

2033

01:19:13,189 --> 01:19:10,719

peter peter becker

2034

01:19:14,870 --> 01:19:13,199

says uh like i am not to blame i have no

2035

01:19:16,709 --> 01:19:14,880

free will as an excuse for [\h__\h] we

2036

01:19:19,750 --> 01:19:16,719

do like i don't agree with that either

2037

01:19:20,630 --> 01:19:19,760

so i'm not saying we don't have we don't

2038

01:19:24,790 --> 01:19:20,640

have

2039

01:19:26,390 --> 01:19:24,800
agencies we're all dealing with

2040

01:19:27,910 --> 01:19:26,400
different environments and we're all

2041

01:19:32,470 --> 01:19:27,920
dealing with different

2042

01:19:35,189 --> 01:19:32,480
levels of of of have and and so i think

2043

01:19:38,390 --> 01:19:35,199
it's important to recognize that

2044

01:19:39,990 --> 01:19:38,400
but it's not an excuse just to be

2045

01:19:41,830 --> 01:19:40,000
a dick

2046

01:19:44,229 --> 01:19:41,840
or just do whatever you write yeah like

2047

01:19:46,790 --> 01:19:44,239
you have you have responsibility you

2048

01:19:49,030 --> 01:19:46,800
have some free will but you also have

2049

01:19:51,910 --> 01:19:49,040
environment to overcome so again like

2050

01:19:53,990 --> 01:19:51,920
you said and i'm i'm not liking how much

2051

01:19:55,830 --> 01:19:54,000

i'm agreeing with you dj but you said

2052

01:19:57,910 --> 01:19:55,840

this is not good that there is no

2053

01:19:59,189 --> 01:19:57,920

absolutism there's no you know there's

2054

01:20:01,590 --> 01:19:59,199

no black there's no white it's a

2055

01:20:03,189 --> 01:20:01,600

spectrum of gray and we've got to figure

2056

01:20:05,270 --> 01:20:03,199

out like

2057

01:20:07,750 --> 01:20:05,280

you know and again like you know i'm i'm

2058

01:20:09,669 --> 01:20:07,760

one of these lefty libertarians like i'm

2059

01:20:10,870 --> 01:20:09,679

i'm all about stay the hell out of my

2060

01:20:12,149 --> 01:20:10,880

business let me do what i want but at

2061

01:20:14,149 --> 01:20:12,159

the same time i want to see a social

2062

01:20:16,229 --> 01:20:14,159

safety net like that's just who i am

2063

01:20:17,990 --> 01:20:16,239

like like it or not take it or leave it

2064

01:20:19,430 --> 01:20:18,000

i'm a lefty libertarian i believe in a

2065

01:20:20,870 --> 01:20:19,440

social safety net and i believe leave me

2066

01:20:22,470 --> 01:20:20,880

the [h__\h] alone let me do what i want i'm

2067

01:20:24,709 --> 01:20:22,480

not hurting somebody else

2068

01:20:26,790 --> 01:20:24,719

um that being said

2069

01:20:28,950 --> 01:20:26,800

i recognize that i'm in a position in

2070

01:20:31,350 --> 01:20:28,960

life where i have

2071

01:20:33,750 --> 01:20:31,360

you know come from some challenges but i

2072

01:20:35,350 --> 01:20:33,760

also had a lot going for me and

2073

01:20:37,350 --> 01:20:35,360

especially growing up in the united

2074

01:20:39,110 --> 01:20:37,360

states and having opportunities and

2075

01:20:42,229 --> 01:20:39,120

having an entrepreneurial spirit and

2076

01:20:43,750 --> 01:20:42,239

mind like a lot of kids in poverty don't

2077

01:20:45,110 --> 01:20:43,760

have that and they don't they didn't

2078

01:20:47,830 --> 01:20:45,120

have a parent who taught them that and

2079

01:20:50,550 --> 01:20:47,840

they didn't have this hey mike yo

2080

01:20:52,950 --> 01:20:50,560

think about a track but it doesn't go in

2081

01:20:55,110 --> 01:20:52,960

a circle it goes straight so you're on

2082

01:20:57,750 --> 01:20:55,120

an olympic track and so the starting

2083

01:20:59,910 --> 01:20:57,760

positions are different like you have a

2084

01:21:01,669 --> 01:20:59,920

bracketed starting position so you're

2085

01:21:03,110 --> 01:21:01,679

way back here if you're on the inside

2086

01:21:05,430 --> 01:21:03,120

track you're over here if you're on the

2087

01:21:08,229 --> 01:21:05,440

outside track and it just spiders up

2088

01:21:11,110 --> 01:21:08,239

diagonally at a some sort of a 45 degree

2089

01:21:13,270 --> 01:21:11,120

angle but imagine that track is straight

2090

01:21:16,550 --> 01:21:13,280

and that's what life is is that you and

2091

01:21:18,629 --> 01:21:16,560

i and maybe perhaps nathan started on

2092

01:21:20,870 --> 01:21:18,639

that side of the track where

2093

01:21:22,870 --> 01:21:20,880

we're wait we're on that front bracket

2094

01:21:24,950 --> 01:21:22,880

way out there but someone who grew up in

2095

01:21:28,070 --> 01:21:24,960

a disadvantaged background someone who's

2096

01:21:29,990 --> 01:21:28,080

a person of color uh someone who did not

2097

01:21:33,030 --> 01:21:30,000

uh wasn't it didn't have access to

2098

01:21:35,110 --> 01:21:33,040

proper role models growing up is on that

2099

01:21:37,590 --> 01:21:35,120

inside track but the fact is is that the

2100

01:21:39,430 --> 01:21:37,600

track is straight it's a sprint

2101
01:21:41,350 --> 01:21:39,440
you know and and and they're not going

2102
01:21:43,669 --> 01:21:41,360
to get to the finish line before us

2103
01:21:45,510 --> 01:21:43,679
necessarily only because by virtue of

2104
01:21:47,350 --> 01:21:45,520
the fact of their starting position is

2105
01:21:49,430 --> 01:21:47,360
way back here that's a that's a great

2106
01:21:51,189 --> 01:21:49,440
analogy and um and that's why i think

2107
01:21:52,790 --> 01:21:51,199
it's so important for us to to reach

2108
01:21:54,709 --> 01:21:52,800
back and you know and and play the

2109
01:21:56,310 --> 01:21:54,719
[h__\h] uh what's the

2110
01:21:58,709 --> 01:21:56,320
you know it's a baton rouge like like

2111
01:21:59,590 --> 01:21:58,719
help help the person get up to where you

2112
01:22:00,550 --> 01:21:59,600
are like

2113
01:22:02,149 --> 01:22:00,560

you know

2114

01:22:04,229 --> 01:22:02,159

equality is not a piece of pie there's

2115

01:22:05,110 --> 01:22:04,239

enough for everybody

2116

01:22:07,350 --> 01:22:05,120

yeah

2117

01:22:09,910 --> 01:22:07,360

okay so um unless you're gonna ask a

2118

01:22:11,669 --> 01:22:09,920

question go ahead i know nathan uh if

2119

01:22:13,750 --> 01:22:11,679

you want the last question we got to get

2120

01:22:16,070 --> 01:22:13,760

uh mike out of here it's been an hour

2121

01:22:17,669 --> 01:22:16,080

and a half so basically if you want the

2122

01:22:20,550 --> 01:22:17,679

last question nathan please that's all

2123

01:22:22,310 --> 01:22:20,560

yours and then we'll have the surprise

2124

01:22:23,189 --> 01:22:22,320

okay

2125

01:22:24,870 --> 01:22:23,199

if

2126
01:22:26,410 --> 01:22:24,880
uh yeah right i'm just gonna be as

2127
01:22:26,850 --> 01:22:26,420
surprised as you would

2128
01:22:28,470 --> 01:22:26,860
[Applause]

2129
01:22:30,470 --> 01:22:28,480
[Laughter]

2130
01:22:31,990 --> 01:22:30,480
exactly all right so

2131
01:22:34,390 --> 01:22:32,000
i'm doing that by the way i'm doing that

2132
01:22:36,229 --> 01:22:34,400
with irony my kid said if i ever use

2133
01:22:38,709 --> 01:22:36,239
these buttons and i'm serious about it

2134
01:22:41,350 --> 01:22:38,719
like put a gun in my mouth and just be

2135
01:22:42,870 --> 01:22:41,360
done with it like she they said you can

2136
01:22:44,229 --> 01:22:42,880
use those you can use those stupid

2137
01:22:46,709 --> 01:22:44,239
buttons but they better be done

2138
01:22:48,709 --> 01:22:46,719

ironically and so yeah and and you know

2139

01:22:50,550 --> 01:22:48,719

what mike you're around older people so

2140

01:22:53,910 --> 01:22:50,560

it's okay i'm 54. i assume you're

2141

01:22:56,310 --> 01:22:53,920

younger than i right right just barely

2142

01:22:58,229 --> 01:22:56,320

okay and let's bring on akashi chris for

2143

01:23:01,430 --> 01:22:58,239

uh if you would please perfect for this

2144

01:23:04,550 --> 01:23:01,440

last event that we're gonna hi akashi

2145

01:23:06,790 --> 01:23:04,560

i have no idea what's about to happen

2146

01:23:09,430 --> 01:23:06,800

i don't know what i signed up for

2147

01:23:11,189 --> 01:23:09,440

i i now believe associate producer means

2148

01:23:13,030 --> 01:23:11,199

guillermo to

2149

01:23:14,310 --> 01:23:13,040

yes

2150

01:23:17,590 --> 01:23:14,320

welcome here

2151

01:23:21,270 --> 01:23:17,600

i believe that's my job now

2152

01:23:22,950 --> 01:23:21,280

uh well so we'll see what happens now

2153

01:23:24,310 --> 01:23:22,960

yes sir please all right so and i think

2154

01:23:25,430 --> 01:23:24,320

it's going to hint back to what you

2155

01:23:27,750 --> 01:23:25,440

talked about beginning the show that i

2156

01:23:30,310 --> 01:23:27,760

wanted to talk about so uh please so

2157

01:23:32,950 --> 01:23:30,320

mata looney uh so

2158

01:23:35,910 --> 01:23:32,960

in an asymmetric relationship and i i

2159

01:23:38,390 --> 01:23:35,920

consider the phenomenon to be

2160

01:23:40,229 --> 01:23:38,400

an asymmetric partner

2161

01:23:43,030 --> 01:23:40,239

to humanity

2162

01:23:44,709 --> 01:23:43,040

dude wow what way to frame that

2163

01:23:46,629 --> 01:23:44,719

that just that hit me pretty deep that

2164

01:23:48,950 --> 01:23:46,639

hit me pretty deep but go on all right

2165

01:23:50,790 --> 01:23:48,960

so they are we are not playing by this

2166

01:23:53,430 --> 01:23:50,800

we're not playing the same deck cards

2167

01:23:55,669 --> 01:23:53,440

yep uh and they at least have some

2168

01:23:58,390 --> 01:23:55,679

capability that we do not so they they

2169

01:24:00,229 --> 01:23:58,400

have uh it's an asymmetric relationship

2170

01:24:01,590 --> 01:24:00,239

and asymmetric relationships exist in

2171

01:24:04,229 --> 01:24:01,600

human relationships it's not something

2172

01:24:06,390 --> 01:24:04,239

new but what uh

2173

01:24:07,750 --> 01:24:06,400

what would it take

2174

01:24:08,629 --> 01:24:07,760

for us

2175

01:24:10,709 --> 01:24:08,639

to

2176

01:24:12,390 --> 01:24:10,719

have a sense of trust

2177

01:24:15,510 --> 01:24:12,400

in the phenomenon

2178

01:24:16,709 --> 01:24:15,520

and if it were to present us with a

2179

01:24:19,669 --> 01:24:16,719

technology

2180

01:24:21,270 --> 01:24:19,679

or information can you do me a favor so

2181

01:24:22,950 --> 01:24:21,280

i don't have to do so i don't have to

2182

01:24:26,070 --> 01:24:22,960

frame this can you frame what you mean

2183

01:24:27,910 --> 01:24:26,080

by the phenomena sure all right so let's

2184

01:24:30,070 --> 01:24:27,920

maybe i'll make it simpler uh rather

2185

01:24:32,709 --> 01:24:30,080

than more you know sort of nebulous

2186

01:24:34,550 --> 01:24:32,719

because it's such an umbrella topic but

2187

01:24:35,750 --> 01:24:34,560

let's say there are i'll just use one of

2188

01:24:37,750 --> 01:24:35,760

the hypotheses there's an

2189

01:24:39,110 --> 01:24:37,760

extraterrestrial intelligence it's got

2190

01:24:41,590 --> 01:24:39,120

advanced uh

2191

01:24:43,030 --> 01:24:41,600

spacecraft it's got the you know these

2192

01:24:44,950 --> 01:24:43,040

incredible capabilities could be

2193

01:24:47,030 --> 01:24:44,960

anywhere in the planet in seconds thank

2194

01:24:49,270 --> 01:24:47,040

you control our are the way to control

2195

01:24:50,709 --> 01:24:49,280

how we think it could uh it can phase

2196

01:24:52,790 --> 01:24:50,719

through walls whatever it's got these

2197

01:24:55,430 --> 01:24:52,800

amazing powers float and all this good

2198

01:24:57,350 --> 01:24:55,440

stuff yeah so if it if it lands on the

2199

01:24:59,430 --> 01:24:57,360

white house lawn and says hey i've got

2200

01:25:01,189 --> 01:24:59,440

this knowledge about the universe or i

2201
01:25:02,550 --> 01:25:01,199
could here's how i could help you with

2202
01:25:04,709 --> 01:25:02,560
xyz

2203
01:25:07,270 --> 01:25:04,719
uh how do we trust it what are things

2204
01:25:10,310 --> 01:25:07,280
that we would be looking for to

2205
01:25:12,870 --> 01:25:10,320
establish trust in that relationship

2206
01:25:16,229 --> 01:25:12,880
are you familiar with uh descartes demon

2207
01:25:19,030 --> 01:25:16,239
um yes the laplace's demon right

2208
01:25:20,310 --> 01:25:19,040
so the yeah the idea is that the idea is

2209
01:25:22,470 --> 01:25:20,320
that you've got

2210
01:25:24,870 --> 01:25:22,480
the the universe is it's constantly

2211
01:25:28,790 --> 01:25:24,880
trying to trick you right it's it's it's

2212
01:25:31,990 --> 01:25:28,800
all a a predetermined set of rules to to

2213
01:25:33,750 --> 01:25:32,000

make you fail and there is uh nothing

2214

01:25:36,709 --> 01:25:33,760

you can do about it so

2215

01:25:38,390 --> 01:25:36,719

if you approach it from uh that

2216

01:25:41,110 --> 01:25:38,400

perspective

2217

01:25:43,110 --> 01:25:41,120

and the relationship is so asymmetrical

2218

01:25:44,870 --> 01:25:43,120

what do you really have to lose

2219

01:25:46,709 --> 01:25:44,880

at this point because they're already

2220

01:25:48,550 --> 01:25:46,719

here they've already landed they've

2221

01:25:51,270 --> 01:25:48,560

already shown what they're possess in

2222

01:25:54,149 --> 01:25:51,280

possession of so you might as well just

2223

01:25:57,030 --> 01:25:54,159

go with the flow because there's no way

2224

01:25:58,070 --> 01:25:57,040

to prove or disprove their abilities and

2225

01:25:58,870 --> 01:25:58,080

or to

2226

01:26:01,270 --> 01:25:58,880

uh

2227

01:26:03,110 --> 01:26:01,280

prove or disprove why you should trust

2228

01:26:04,950 --> 01:26:03,120

them but they're here and they have the

2229

01:26:06,790 --> 01:26:04,960

ability to the relationship is so

2230

01:26:08,870 --> 01:26:06,800

asymmetrical i don't think you have a

2231

01:26:10,870 --> 01:26:08,880

choice right you have you're at a power

2232

01:26:12,790 --> 01:26:10,880

disadvantage and it may take centuries

2233

01:26:15,430 --> 01:26:12,800

to where you have enough

2234

01:26:18,470 --> 01:26:15,440

uh power the symmetry the asymmetry is

2235

01:26:21,430 --> 01:26:18,480

reduced now you may in the future decide

2236

01:26:24,310 --> 01:26:21,440

that uh you know what we got duped a

2237

01:26:26,390 --> 01:26:24,320

couple centuries back by this thing um

2238

01:26:27,910 --> 01:26:26,400

yet now we have unlocked the symbol we

2239

01:26:29,830 --> 01:26:27,920

have either been given or have unlocked

2240

01:26:31,189 --> 01:26:29,840

similar capability and

2241

01:26:32,709 --> 01:26:31,199

you know it could be a little bit time

2242

01:26:34,950 --> 01:26:32,719

for retribution

2243

01:26:37,350 --> 01:26:34,960

or you just go or you just go [h__\h] with

2244

01:26:39,910 --> 01:26:37,360

less evolved society

2245

01:26:42,149 --> 01:26:39,920

wait nathan you mean after the after the

2246

01:26:43,990 --> 01:26:42,159

conscripted after the constricted

2247

01:26:47,270 --> 01:26:44,000

service where we're pushing that little

2248

01:26:49,910 --> 01:26:47,280

grinding wheel around like conan

2249

01:26:52,390 --> 01:26:49,920

exactly no exactly when i find they're

2250

01:26:53,450 --> 01:26:52,400

stone age civilizations i'm a

2251
01:26:54,709 --> 01:26:53,460
i'm a

2252
01:26:55,910 --> 01:26:54,719
[Music]

2253
01:26:57,990 --> 01:26:55,920
we had an interview with every lobe

2254
01:27:00,870 --> 01:26:58,000
today and he'd said he was like i was

2255
01:27:05,350 --> 01:27:00,880
not a star trek fan and and then i just

2256
01:27:12,229 --> 01:27:07,990
that being said like i've always been

2257
01:27:16,229 --> 01:27:12,239
fascinated by the do no harm um prime

2258
01:27:18,629 --> 01:27:16,239
directive of the of the the nature of of

2259
01:27:21,030 --> 01:27:18,639
star trek and so that's kind of where i

2260
01:27:22,070 --> 01:27:21,040
fall on this is that you

2261
01:27:23,270 --> 01:27:22,080
you know

2262
01:27:26,070 --> 01:27:23,280
i i

2263
01:27:28,870 --> 01:27:26,080

i would hope that you know the phenomena

2264

01:27:31,189 --> 01:27:28,880

or this these advanced uh species if

2265

01:27:32,229 --> 01:27:31,199

they are in fact visiting us that they

2266

01:27:33,270 --> 01:27:32,239

would be coming from a similar

2267

01:27:34,229 --> 01:27:33,280

perspective where they're trying to

2268

01:27:37,189 --> 01:27:34,239

observe

2269

01:27:41,030 --> 01:27:37,199

um you know potentially um support

2270

01:27:43,510 --> 01:27:41,040

without being um without harming so

2271

01:27:46,390 --> 01:27:43,520

you know i'm an optimist what can i say

2272

01:27:48,310 --> 01:27:46,400

i i think nathan though has you know in

2273

01:27:49,990 --> 01:27:48,320

that conversation i'm sorry to i didn't

2274

01:27:52,070 --> 01:27:50,000

mean to cut you off nathan but i think

2275

01:27:54,390 --> 01:27:52,080

you do bring up some interesting

2276

01:27:56,629 --> 01:27:54,400

uh points to this that i hadn't thought

2277

01:27:59,030 --> 01:27:56,639

of and nathan has some concerns about

2278

01:28:01,110 --> 01:27:59,040

this and i think that was very evident

2279

01:28:03,189 --> 01:28:01,120

in our conversation nathan no i mean i

2280

01:28:04,950 --> 01:28:03,199

am concerned about it because uh so what

2281

01:28:07,910 --> 01:28:04,960

do you think nathan what do you do you

2282

01:28:10,629 --> 01:28:07,920

think we are in fact being visited by an

2283

01:28:12,470 --> 01:28:10,639

asymmetrical advanced alien species

2284

01:28:14,070 --> 01:28:12,480

potentially potentially is what he's

2285

01:28:15,990 --> 01:28:14,080

saying why don't you let nathan answer

2286

01:28:17,350 --> 01:28:16,000

the question be quiet man we didn't ask

2287

01:28:19,990 --> 01:28:17,360

you madaloni

2288

01:28:22,550 --> 01:28:20,000

sit back and have another drink this is

2289

01:28:25,830 --> 01:28:22,560

the box have a treat right here have a

2290

01:28:28,550 --> 01:28:25,840

drink on me ac dc go ahead

2291

01:28:30,790 --> 01:28:28,560

i love every time every time either dj

2292

01:28:40,830 --> 01:28:30,800

gives me [h__h] or i give dj [h__h] the look

2293

01:28:45,750 --> 01:28:43,750

is uh yeah i think i mean look i think

2294

01:28:48,070 --> 01:28:45,760

we i'm listening nathan even though dj

2295

01:28:50,229 --> 01:28:48,080

won't go ahead it's of an asymmetric uh

2296

01:28:51,430 --> 01:28:50,239

relationship here my concern so and i've

2297

01:28:53,270 --> 01:28:51,440

tried that speaking of asymmetric

2298

01:28:55,750 --> 01:28:53,280

relationships uh right exactly i've

2299

01:28:57,669 --> 01:28:55,760

tried to pose this question to lou uh

2300

01:29:01,669 --> 01:28:57,679

and and i posted in a way that just was

2301

01:29:05,830 --> 01:29:03,990

now blue was like wait where's blue

2302

01:29:07,830 --> 01:29:05,840

which lou luella

2303

01:29:09,990 --> 01:29:07,840

so okay okay

2304

01:29:11,750 --> 01:29:10,000

that was on me on him jimenez was like

2305

01:29:13,590 --> 01:29:11,760

can i put it in front of a center's desk

2306

01:29:16,550 --> 01:29:13,600

no it's over

2307

01:29:18,870 --> 01:29:16,560

i don't i we're not even entertaining it

2308

01:29:21,510 --> 01:29:18,880

mataloni has infected me go ahead so

2309

01:29:24,550 --> 01:29:21,520

yeah my concern is this so we are

2310

01:29:26,149 --> 01:29:24,560

advocating for a position of of greater

2311

01:29:27,830 --> 01:29:26,159

engagement

2312

01:29:29,750 --> 01:29:27,840

at the very least we're advocating for a

2313

01:29:32,070 --> 01:29:29,760

position of greater awareness right so

2314

01:29:33,830 --> 01:29:32,080

we're trying to increase awareness of

2315

01:29:35,830 --> 01:29:33,840

what is happening so that we can study

2316

01:29:37,990 --> 01:29:35,840

at least that that's the premise

2317

01:29:39,990 --> 01:29:38,000

but any kind of increase in awareness

2318

01:29:42,149 --> 01:29:40,000

and study is an increase in the level of

2319

01:29:45,189 --> 01:29:42,159

engagement with whatever this happens to

2320

01:29:48,950 --> 01:29:45,199

be now an intelligence officer someone

2321

01:29:51,270 --> 01:29:48,960

who is who is trained in assessing uh

2322

01:29:52,950 --> 01:29:51,280

your your your adversary and what your

2323

01:29:54,950 --> 01:29:52,960

adversary is capable of doing and i'm

2324

01:29:56,229 --> 01:29:54,960

using that word loosely i don't i'm not

2325

01:29:58,790 --> 01:29:56,239

making a judgment that they're

2326

01:30:00,709 --> 01:29:58,800

necessarily adversarial right but you

2327

01:30:03,030 --> 01:30:00,719

know you're across the chess board from

2328

01:30:04,709 --> 01:30:03,040

us perhaps uh if you're assessing their

2329

01:30:07,910 --> 01:30:04,719

capability i would like to think that

2330

01:30:10,070 --> 01:30:07,920

before we advocate for a move a move of

2331

01:30:11,590 --> 01:30:10,080

one of the chess pieces if you will we

2332

01:30:13,990 --> 01:30:11,600

have a sense

2333

01:30:15,669 --> 01:30:14,000

in which we know how they might respond

2334

01:30:17,430 --> 01:30:15,679

you know it would be really poor of us

2335

01:30:19,510 --> 01:30:17,440

to just sort of like

2336

01:30:21,669 --> 01:30:19,520

lead out with our bishop all of a sudden

2337

01:30:23,830 --> 01:30:21,679

and then know that like oh like we just

2338

01:30:24,950 --> 01:30:23,840

exposed the queen and they're gonna just

2339

01:30:26,629 --> 01:30:24,960

you know

2340

01:30:28,470 --> 01:30:26,639

put our legs out from under us so i'm

2341

01:30:29,910 --> 01:30:28,480

i'm putting a lot of trust in the

2342

01:30:32,229 --> 01:30:29,920

initiative here that this is a

2343

01:30:34,149 --> 01:30:32,239

worthwhile endeavor to make now as you

2344

01:30:35,990 --> 01:30:34,159

pointed out and i kind of agree with you

2345

01:30:38,229 --> 01:30:36,000

we honestly may not have a choice here

2346

01:30:39,750 --> 01:30:38,239

you know if they're already here we we

2347

01:30:42,310 --> 01:30:39,760

don't have necessarily a lot of

2348

01:30:45,189 --> 01:30:42,320

bargaining power uh to disengage from

2349

01:30:49,189 --> 01:30:45,199

but your point dude wow i didn't even

2350

01:30:52,709 --> 01:30:51,110

because if you ignore it

2351

01:30:55,510 --> 01:30:52,719

right because the the fact that we're

2352

01:30:58,709 --> 01:30:55,520

putting engagement and energy into it

2353

01:31:00,390 --> 01:30:58,719

exposes us to playing the game and could

2354

01:31:02,709 --> 01:31:00,400

put we could potentially make a wrong

2355

01:31:04,229 --> 01:31:02,719

chess move if we're not playing chess

2356

01:31:06,229 --> 01:31:04,239

they haven't destroyed us yet and we're

2357

01:31:08,229 --> 01:31:06,239

not playing chess if we start playing

2358

01:31:10,550 --> 01:31:08,239

chess does that expose us to greater

2359

01:31:11,830 --> 01:31:10,560

risk that's such a freaking good point

2360

01:31:13,189 --> 01:31:11,840

and to be honest with you is that what

2361

01:31:14,830 --> 01:31:13,199

you meant by that is that was that your

2362

01:31:18,390 --> 01:31:14,840

point that is my

2363

01:31:20,070 --> 01:31:18,400

concern i have never considered that i

2364

01:31:21,350 --> 01:31:20,080

see now you know why i have heartbreak

2365

01:31:22,950 --> 01:31:21,360

now i know why

2366

01:31:26,229 --> 01:31:22,960

now i know now if this is not an

2367

01:31:27,430 --> 01:31:26,239

asymmetrical relationship no

2368

01:31:30,709 --> 01:31:27,440

no no no

2369

01:31:32,870 --> 01:31:30,719

that's breaking news right there

2370

01:31:33,990 --> 01:31:32,880

you heard it first

2371

01:31:36,070 --> 01:31:34,000

first

2372

01:31:37,750 --> 01:31:36,080

now you know what now you know why i got

2373

01:31:38,950 --> 01:31:37,760

him as my co-host

2374

01:31:40,229 --> 01:31:38,960

i don't know if you're aware of this

2375

01:31:42,709 --> 01:31:40,239

mike because you probably didn't watch

2376

01:31:46,870 --> 01:31:42,719

our last episode

2377

01:31:49,030 --> 01:31:46,880

don't assume things well obviously

2378

01:31:51,510 --> 01:31:49,040

because you don't know how we came to be

2379

01:31:52,950 --> 01:31:51,520

so uh so i can assume i think that's an

2380

01:31:56,149 --> 01:31:52,960

education you should write a song about

2381

01:31:58,709 --> 01:31:56,159

it so i will uh actually uh that that's

2382

01:31:59,669 --> 01:31:58,719

gonna come in a minute but

2383

01:32:04,550 --> 01:31:59,679

nathan

2384

01:32:05,669 --> 01:32:04,560

mcgrillen on and we heard him talk for

2385

01:32:07,750 --> 01:32:05,679

about

2386

01:32:10,229 --> 01:32:07,760

i don't know 35 seconds

2387

01:32:12,310 --> 01:32:10,239

and i was like oh my god i gotta talk i

2388

01:32:14,310 --> 01:32:12,320

gotta dm this

2389

01:32:17,990 --> 01:32:14,320

he's got to be my you know he's got to

2390

01:32:20,149 --> 01:32:18,000

be my co-host and so i you know dm'd him

2391

01:32:22,310 --> 01:32:20,159

he dm'd me and we were under another

2392

01:32:23,910 --> 01:32:22,320

show name at that point luis had been on

2393

01:32:24,709 --> 01:32:23,920

a couple of times under the old show

2394

01:32:26,550 --> 01:32:24,719

name

2395

01:32:29,110 --> 01:32:26,560

and uh and that's how nathan and i got

2396

01:32:30,790 --> 01:32:29,120

together uh the guy's amazing uh i do

2397

01:32:33,510 --> 01:32:30,800

have heart bubble emojis over my head

2398

01:32:36,470 --> 01:32:33,520

when he talks uh every time

2399

01:32:40,950 --> 01:32:36,480

and uh so it's a great relationship um

2400

01:32:42,709 --> 01:32:40,960

so now uh yeah fist bump to everybody um

2401
01:32:44,470 --> 01:32:42,719
where's that surprise

2402
01:32:45,590 --> 01:32:44,480
so

2403
01:32:48,470 --> 01:32:45,600
man

2404
01:32:50,470 --> 01:32:48,480
[Laughter]

2405
01:32:52,470 --> 01:32:50,480
i love madeline you're you're already

2406
01:32:59,510 --> 01:32:52,480
are you making balloons

2407
01:33:05,430 --> 01:33:01,590
he's already getting booked for it for

2408
01:33:10,629 --> 01:33:08,390
but what we want to do madaloni is we're

2409
01:33:12,070 --> 01:33:10,639
in a situation with our community where

2410
01:33:13,270 --> 01:33:12,080
there's a lot of

2411
01:33:15,430 --> 01:33:13,280
fracturing

2412
01:33:16,709 --> 01:33:15,440
but what this group tries to do what you

2413
01:33:19,830 --> 01:33:16,719

try to do

2414

01:33:22,790 --> 01:33:19,840

uh what a number of us on in this space

2415

01:33:25,430 --> 01:33:22,800

try to do is to bring people together to

2416

01:33:28,149 --> 01:33:25,440

show positivity and we're making a lot

2417

01:33:30,709 --> 01:33:28,159

of ground right now uh based on you know

2418

01:33:33,030 --> 01:33:30,719

the senate uh the the gillibrand

2419

01:33:34,870 --> 01:33:33,040

resolution to house resolution 4350 et

2420

01:33:36,790 --> 01:33:34,880

cetera et cetera so we're in a great

2421

01:33:38,070 --> 01:33:36,800

spot so what i thought we would do to

2422

01:33:39,830 --> 01:33:38,080

close the show

2423

01:33:42,629 --> 01:33:39,840

other than to talk about how great your

2424

01:33:43,750 --> 01:33:42,639

show is uh and how great you are which

2425

01:33:46,310 --> 01:33:43,760

is all true

2426

01:33:50,070 --> 01:33:46,320

uh and shout out to kristin mataloni

2427

01:33:50,950 --> 01:33:50,080

rather be squidding uh luis jimenez uh

2428

01:33:52,629 --> 01:33:50,960

who

2429

01:33:54,709 --> 01:33:52,639

finds my jokes to be about like

2430

01:33:57,590 --> 01:33:54,719

contracting influenza but i love luis a

2431

01:33:59,189 --> 01:33:57,600

lot um dude you have me cracking up bro

2432

01:34:00,629 --> 01:33:59,199

i'm not gonna lie you're pretty you're

2433

01:34:03,430 --> 01:34:00,639

you're pretty funny i'm just gonna be

2434

01:34:06,629 --> 01:34:03,440

i'm just gonna come up i love you luis

2435

01:34:08,709 --> 01:34:06,639

and just tell me classic cuban or medley

2436

01:34:09,990 --> 01:34:08,719

and uh we'll get to that next time we

2437

01:34:11,189 --> 01:34:10,000

have him on

2438

01:34:12,629 --> 01:34:11,199

and um

2439

01:34:14,310 --> 01:34:12,639

i wanted to sing a song so we're gonna

2440

01:34:19,430 --> 01:34:14,320

have a little bit of a sing-along to bon

2441

01:34:23,669 --> 01:34:21,430

i don't know what i signed up for i'm so

2442

01:34:27,030 --> 01:34:23,679

scared right now you signed up to sing

2443

01:34:28,149 --> 01:34:27,040

so this is a song that we're dedicating

2444

01:34:33,030 --> 01:34:28,159

this is

2445

01:34:36,870 --> 01:34:33,040

hashtag ufo twitter on behalf of nathan

2446

01:34:38,629 --> 01:34:36,880

akashi chris singularitymike and myself

2447

01:34:40,950 --> 01:34:38,639

all right here we go let's get let's get

2448

01:34:42,870 --> 01:34:40,960

something i

2449

01:34:44,709 --> 01:34:42,880

am i supposed to sing

2450

01:34:46,440 --> 01:34:44,719

yeah

2451
01:34:55,520 --> 01:34:46,450
we're

2452
01:35:00,629 --> 01:34:58,950
[Music]

2453
01:35:06,110 --> 01:35:00,639
living on a prayer

2454
01:35:25,990 --> 01:35:11,980
[Music]

2455
01:35:40,709 --> 01:35:29,390
she brings her

2456
01:36:09,650 --> 01:35:53,270
we

2457
01:36:09,660 --> 01:36:19,030
[Music]

2458
01:36:30,470 --> 01:36:21,430
next time just let me let me look up the

2459
01:36:30,480 --> 01:36:44,470
okay guys it's fantastic all right

2460
01:36:44,480 --> 01:36:53,940
we got it

2461
01:36:53,950 --> 01:37:03,750
[Music]

2462
01:37:03,760 --> 01:37:11,910
we gotta stay together

2463
01:37:16,470 --> 01:37:14,229

hey we're halfway there man

2464

01:37:18,390 --> 01:37:16,480

but we're living on a prayer right now

2465

01:37:20,470 --> 01:37:18,400

and lou and christopher finn to bring

2466

01:37:23,030 --> 01:37:20,480
