CABBIE Roundtable

Jan 3, 2022

Calling All Beings

1
00:00:32,790 --> 00:00:08,680
calling all beings y'all

2
00:00:39,350 --> 00:00:36,229
welcome back to calling all beings baby

3
00:00:41,590 --> 00:00:39,360
it's the candy round table

4
00:00:44,869 --> 00:00:41,600
we about to get into it and show you

5
00:00:47,110 --> 00:00:44,879
what kind of talent is going down

6
00:00:49,110 --> 00:00:47,120
when we ain't got no guests

7
00:00:50,310 --> 00:00:49,120
and there's plenty of talent for all of

8
00:00:52,549 --> 00:00:50,320
you

9
00:00:56,310 --> 00:00:52,559
[Laughter]

10
00:01:00,470 --> 00:00:56,320
i'm your host dj along with my co-host

11
00:01:01,990 --> 00:01:00,480
the o.g of calling all beings consider

12
00:01:05,429 --> 00:01:02,000
this brother

13
00:01:08,469 --> 00:01:05,439

party people put your hands together

14

00:01:20,310 --> 00:01:08,479

for north carolina's own

15

00:01:23,990 --> 00:01:21,350

yeah

16

00:01:26,630 --> 00:01:24,000

give it up for nathan and next she's

17

00:01:29,670 --> 00:01:26,640

beautiful she's intellectual she funny

18

00:01:31,670 --> 00:01:29,680

then your mama your papa and mine too

19

00:01:36,630 --> 00:01:31,680

put your hands together for the

20

00:01:37,990 --> 00:01:36,640

associate producer of calling all beings

21

00:01:39,190 --> 00:01:38,000

akash

22

00:01:40,620 --> 00:01:39,200

chris

23

00:01:47,830 --> 00:01:40,630

mullins

24

00:01:50,069 --> 00:01:48,870

all right

25

00:01:53,749 --> 00:01:50,079

this man

26

00:01:56,389 --> 00:01:53,759

is about as funny as i want to be

27

00:01:59,670 --> 00:01:56,399

when i'm sleeping at night and i go i

28

00:02:01,990 --> 00:01:59,680

wish people laugh at what i have to say

29

00:02:05,190 --> 00:02:02,000

and that's when i'm trying to be like

30

00:02:07,510 --> 00:02:05,200

the musician the digital artist the guy

31

00:02:10,070 --> 00:02:07,520

the funny man of this show the humorous

32

00:02:12,229 --> 00:02:10,080

antagonists that got nothing but love

33

00:02:15,550 --> 00:02:12,239

for each and every one of you party

34

00:02:18,309 --> 00:02:15,560

people put your hands together for

35

00:02:20,309 --> 00:02:18,319

california's own

36

00:02:23,180 --> 00:02:20,319

flareous kevin

37

00:02:27,350 --> 00:02:23,190

stephen where's blair

38

00:02:32,470 --> 00:02:29,990

yes we're talking about you that guy oh

39

00:02:34,390 --> 00:02:32,480

yeah hi hey good it's so it's great to

40

00:02:35,509 --> 00:02:34,400

see you yes

41

00:02:37,910 --> 00:02:35,519

hi

42

00:02:40,229 --> 00:02:37,920

all right next uh

43

00:02:42,390 --> 00:02:40,239

you know what uh the the late latest

44

00:02:44,070 --> 00:02:42,400

member to join the show and certainly

45

00:02:46,550 --> 00:02:44,080

not the least important by any means

46

00:02:48,869 --> 00:02:46,560

that would be me uh but what we're

47

00:02:52,070 --> 00:02:48,879

talking about is a a young lady that's

48

00:02:54,630 --> 00:02:52,080

about to start her own show under uh the

49

00:02:56,710 --> 00:02:54,640

calling albion's banner and uh it's

50

00:02:57,670 --> 00:02:56,720

gonna be called debs

51
00:02:59,030 --> 00:02:57,680
data

52
00:03:02,229 --> 00:02:59,040
dojo

53
00:03:04,869 --> 00:03:02,239
so i want everybody to put their hands

54
00:03:06,949 --> 00:03:04,879
together for maryland

55
00:03:09,990 --> 00:03:06,959
oh

56
00:03:11,470 --> 00:03:10,000
at a study of uaps

57
00:03:12,790 --> 00:03:11,480
damn

58
00:03:14,390 --> 00:03:12,800
[Music]

59
00:03:16,949 --> 00:03:14,400
everybody

60
00:03:20,869 --> 00:03:19,190
give it up maryland state flag can't be

61
00:03:22,869 --> 00:03:20,879
messed with man it's the coolest thing

62
00:03:25,110 --> 00:03:22,879
going man

63
00:03:27,190 --> 00:03:25,120

nathan good evening yes well i mean

64

00:03:29,270 --> 00:03:27,200

let's also welcome

65

00:03:32,710 --> 00:03:29,280

you my good sir oh

66

00:03:34,149 --> 00:03:32,720

hey it's me dj you know

67

00:03:35,030 --> 00:03:34,159

everybody

68

00:03:36,710 --> 00:03:35,040

thank you

69

00:03:39,110 --> 00:03:36,720

with the most the man with the biggest

70

00:03:41,270 --> 00:03:39,120

heart new york zone florida zone the

71

00:03:42,789 --> 00:03:41,280

yoga master

72

00:03:44,830 --> 00:03:42,799

not of disaster

73

00:03:48,550 --> 00:03:44,840

the man with a

74

00:03:50,229 --> 00:03:48,560

plan the reason for every season

75

00:03:51,589 --> 00:03:50,239

mister

76

00:03:56,550 --> 00:03:51,599

dj

77

00:04:01,990 --> 00:03:59,509

thank you nathan oh my goodness nathan

78

00:04:03,990 --> 00:04:02,000

nathan just did me up man he intro me

79

00:04:06,470 --> 00:04:04,000

that was so nice man i wasn't expecting

80

00:04:09,110 --> 00:04:06,480

that uh but anyway yeah this this was

81

00:04:11,190 --> 00:04:09,120

really just uh honestly a chance for us

82

00:04:13,190 --> 00:04:11,200

to get together but do it in an

83

00:04:16,150 --> 00:04:13,200

organized fashion i think it's funny

84

00:04:18,069 --> 00:04:16,160

nathan i had a symbiosis on this in that

85

00:04:20,069 --> 00:04:18,079

it could have just been a conversation

86

00:04:21,590 --> 00:04:20,079

but our conversations get wild we're

87

00:04:23,590 --> 00:04:21,600

laughing we're interrupting it we're

88

00:04:25,270 --> 00:04:23,600

tanging all over the place so we decided

89

00:04:27,670 --> 00:04:25,280

to do round table rules and show you

90

00:04:30,469 --> 00:04:27,680

what uh the cabbie show just

91

00:04:32,550 --> 00:04:30,479

self-contained had uh what kind of game

92

00:04:34,710 --> 00:04:32,560

that we have so you be the judge we love

93

00:04:36,390 --> 00:04:34,720

you all let's do it

94

00:04:38,469 --> 00:04:36,400

nathan tell them what the rules are man

95

00:04:40,230 --> 00:04:38,479

all right so these are the rules my

96

00:04:42,550 --> 00:04:40,240

fellow cabbies

97

00:04:44,550 --> 00:04:42,560

uh this is a round table style everyone

98

00:04:46,870 --> 00:04:44,560

gets a chance to introduce a topic

99

00:04:49,189 --> 00:04:46,880

everyone gets a chance to reply to the

100

00:04:51,350 --> 00:04:49,199

topic the introduction will be two

101
00:04:53,510 --> 00:04:51,360
minutes the reply time frame will also

102
00:04:55,670 --> 00:04:53,520
be two minutes if you don't use all your

103
00:04:58,310 --> 00:04:55,680
time that is fine

104
00:04:59,570 --> 00:04:58,320
you may defer your time to your

105
00:05:01,350 --> 00:04:59,580
co-host friend

106
00:05:03,590 --> 00:05:01,360
[Music]

107
00:05:05,590 --> 00:05:03,600
we can just move on to the next topic

108
00:05:08,070 --> 00:05:05,600
it's not a big deal it's very relaxed

109
00:05:10,710 --> 00:05:08,080
around here uh but we do we will cut you

110
00:05:12,280 --> 00:05:10,720
off that being said yes that will

111
00:05:14,629 --> 00:05:12,290
i'm looking at you kevin

112
00:05:17,510 --> 00:05:14,639
[Laughter]

113
00:05:21,189 --> 00:05:17,520

i will cut your feeling it's gonna be me

114

00:05:22,710 --> 00:05:21,199

[Laughter]

115

00:05:23,990 --> 00:05:22,720

so yeah it should be pretty relaxed

116

00:05:25,590 --> 00:05:24,000

there will be a little timer file

117

00:05:27,110 --> 00:05:25,600

sometimes you'll see as much or not but

118

00:05:29,270 --> 00:05:27,120

we'll you know which keep it moving keep

119

00:05:31,830 --> 00:05:29,280

it flowing it's gonna be all good so dj

120

00:05:34,870 --> 00:05:31,840

who is gonna start us off with our first

121

00:05:37,350 --> 00:05:34,880

topic you sir please all right uh

122

00:05:39,350 --> 00:05:37,360

brothers and sisters and and i'm on the

123

00:05:41,830 --> 00:05:39,360

clock so what i wanted to talk to you

124

00:05:43,270 --> 00:05:41,840

guys about today was something uh that

125

00:05:45,029 --> 00:05:43,280

i've been getting into a little bit

126

00:05:47,670 --> 00:05:45,039

since we spoke with uh james iandolly

127

00:05:49,110 --> 00:05:47,680

what's up james and it's called uh

128

00:05:52,469 --> 00:05:49,120

remote viewing

129

00:05:55,590 --> 00:05:52,479

and basically my theory is

130

00:05:57,590 --> 00:05:55,600

um electricity and basically what i'm

131

00:06:00,309 --> 00:05:57,600

trying to do with today with you guys is

132

00:06:02,870 --> 00:06:00,319

not to give an answer but to ask a

133

00:06:05,510 --> 00:06:02,880

question and i mean of the cabbies and

134

00:06:07,670 --> 00:06:05,520

then also all of you out there as well

135

00:06:09,749 --> 00:06:07,680

so uh with this electricity is

136

00:06:11,430 --> 00:06:09,759

everywhere even in the human body our

137

00:06:13,909 --> 00:06:11,440

cells are specialized to conduct

138

00:06:15,990 --> 00:06:13,919

electrical currents electricity is

139

00:06:18,150 --> 00:06:16,000

required for the nervous system to send

140

00:06:20,309 --> 00:06:18,160

signals throughout the body and to the

141

00:06:23,029 --> 00:06:20,319

brain making it possible for us to move

142

00:06:25,909 --> 00:06:23,039

think and feel and this comes from amber

143

00:06:28,550 --> 00:06:25,919

plant february 2016 student at columbia

144

00:06:31,029 --> 00:06:28,560

university so the theory is i was

145

00:06:34,710 --> 00:06:31,039

reading the the study that hal put off

146

00:06:37,510 --> 00:06:34,720

did with sir out in california with pat

147

00:06:40,550 --> 00:06:37,520

price where he was able to

148

00:06:44,150 --> 00:06:40,560

pat price was able to remote view at at

149

00:06:47,270 --> 00:06:44,160

one point using only grid coordinates to

150

00:06:48,390 --> 00:06:47,280

a spot in russia so i began to think

151
00:06:51,350 --> 00:06:48,400
about

152
00:06:53,830 --> 00:06:51,360
hf frequencies and hf frequencies for

153
00:06:56,710 --> 00:06:53,840
those who don't know are between 3 and

154
00:06:59,430 --> 00:06:56,720
30 megahertz and basically they travel

155
00:07:02,710 --> 00:06:59,440
up they bounce off the ionosphere and

156
00:07:05,670 --> 00:07:02,720
they travel back down to uh the receiver

157
00:07:08,070 --> 00:07:05,680
uh at night that band is even more

158
00:07:11,830 --> 00:07:08,080
narrow but it's still we're talking up

159
00:07:13,909 --> 00:07:11,840
to from 250 to 300 miles up

160
00:07:18,230 --> 00:07:13,919
uh and then during the daytime that

161
00:07:21,029 --> 00:07:18,240
field is expanded beyond 300 miles okay

162
00:07:24,390 --> 00:07:21,039
and so what i'm looking at is uh is

163
00:07:26,230 --> 00:07:24,400

whether or not the hypothesis is

164

00:07:27,990 --> 00:07:26,240

how can we distinguish and this is

165

00:07:28,790 --> 00:07:28,000

something that that chris was telling me

166

00:07:31,029 --> 00:07:28,800

about

167

00:07:32,629 --> 00:07:31,039

oh wait it's telling me it's gonna

168

00:07:34,070 --> 00:07:32,639

it's telling me it's gonna close this

169

00:07:35,270 --> 00:07:34,080

file let me see if i get that down there

170

00:07:37,990 --> 00:07:35,280

we go okay

171

00:07:40,309 --> 00:07:38,000

uh the hypothesis is is this something

172

00:07:43,589 --> 00:07:40,319

that is bound to earth

173

00:07:46,869 --> 00:07:43,599

uh in other words is this working like

174

00:07:49,749 --> 00:07:46,879

an hf signal or is it uh what we talked

175

00:07:51,189 --> 00:07:49,759

about earlier uh chris a um

176

00:07:53,430 --> 00:07:51,199

now i'm gonna have to bring back up my

177

00:07:55,830 --> 00:07:53,440

word document um

178

00:07:58,390 --> 00:07:55,840

something that you and i spoke about

179

00:08:00,629 --> 00:07:58,400

quantum entanglement which has no

180

00:08:03,510 --> 00:08:00,639

distance constraint okay

181

00:08:05,990 --> 00:08:03,520

so what i hypothesized if we could put a

182

00:08:07,670 --> 00:08:06,000

person on the moon to walk and then we

183

00:08:10,550 --> 00:08:07,680

could have an individual like pat or

184

00:08:13,110 --> 00:08:10,560

like a joe mcgonagall to see if they

185

00:08:15,510 --> 00:08:13,120

could connect with what that person is

186

00:08:18,150 --> 00:08:15,520

doing if something very unique during a

187

00:08:21,029 --> 00:08:18,160

moonwalk if that's successful and they

188

00:08:23,510 --> 00:08:21,039

can remote view that individual then we

189

00:08:26,950 --> 00:08:23,520

know that that this signal

190

00:08:28,790 --> 00:08:26,960

is not bound by our gravity by uh it's

191

00:08:31,189 --> 00:08:28,800

it's not working off of something like

192

00:08:33,990 --> 00:08:31,199

the ionosphere or a different distance

193

00:08:36,469 --> 00:08:34,000

uh troposphere or the atmosphere uh and

194

00:08:38,230 --> 00:08:36,479

then in fact it can travel beyond

195

00:08:40,709 --> 00:08:38,240

earth's gravity and earth earth's

196

00:08:43,110 --> 00:08:40,719

atmosphere uh and it could be done even

197

00:08:44,149 --> 00:08:43,120

on mars with with the lunar lander so

198

00:08:45,829 --> 00:08:44,159

basically

199

00:08:48,710 --> 00:08:45,839

that's what i want to know and that's

200

00:08:50,870 --> 00:08:48,720

how i think i could test out uh this

201
00:08:52,710 --> 00:08:50,880
theory and come up with

202
00:08:54,550 --> 00:08:52,720
um

203
00:08:57,030 --> 00:08:54,560
because if this person is able to

204
00:08:59,110 --> 00:08:57,040
connect with nathan or or somebody else

205
00:09:00,630 --> 00:08:59,120
and they're standing in front of the the

206
00:09:02,870 --> 00:09:00,640
the brooklyn bridge and they go oh well

207
00:09:04,790 --> 00:09:02,880
i can see a bridge so on and so forth

208
00:09:07,190 --> 00:09:04,800
and they're able to build a scene around

209
00:09:09,350 --> 00:09:07,200
that individual and draw it out

210
00:09:10,630 --> 00:09:09,360
but then he's able to do it through grid

211
00:09:13,110 --> 00:09:10,640
coordinates

212
00:09:15,430 --> 00:09:13,120
and that tells me

213
00:09:18,550 --> 00:09:15,440

at least i think i'm hypothesizing that

214

00:09:22,790 --> 00:09:18,560

he is somehow able to transmit his pulse

215

00:09:25,190 --> 00:09:22,800

to a critical on the internet

216

00:09:27,190 --> 00:09:25,200

grid position on the map

217

00:09:28,630 --> 00:09:27,200

so so anyway are we past two minutes

218

00:09:31,990 --> 00:09:28,640

nathan i don't see my timer but that's

219

00:09:33,269 --> 00:09:32,000

okay oh cut me off i'm sorry no you had

220

00:09:35,030 --> 00:09:33,279

it you needed to finish and i liked it

221

00:09:36,470 --> 00:09:35,040

it was good no that's good that that's

222

00:09:38,550 --> 00:09:36,480

that's basically where i'm at so i'm

223

00:09:39,910 --> 00:09:38,560

sorry i i didn't see it no no the timer

224

00:09:41,509 --> 00:09:39,920

the timer was malfunctioning anyway so

225

00:09:43,030 --> 00:09:41,519

it's all good okay that's right so how

226

00:09:45,190 --> 00:09:43,040

are we going in reply fashion is it

227

00:09:47,430 --> 00:09:45,200

going to be uh yes sir across stuff okay

228

00:09:50,230 --> 00:09:47,440

go the show you know the show

229

00:09:52,230 --> 00:09:50,240

you and then kashi perfect perfect so

230

00:09:54,150 --> 00:09:52,240

i'll use the old timer file just because

231

00:09:55,829 --> 00:09:54,160

i know that one works for sure yes a

232

00:09:57,509 --> 00:09:55,839

little extra to it so

233

00:09:59,829 --> 00:09:57,519

uh yeah i think that's a really cool

234

00:10:01,750 --> 00:09:59,839

idea um there that reminds me of an

235

00:10:03,910 --> 00:10:01,760

experiment that

236

00:10:05,750 --> 00:10:03,920

i read about recently that i think kit

237

00:10:07,350 --> 00:10:05,760

green was trying to get involved with

238

00:10:09,750 --> 00:10:07,360

with um

239

00:10:10,630 --> 00:10:09,760

erie geller and i think it was like one

240

00:10:11,990 --> 00:10:10,640

other

241

00:10:14,310 --> 00:10:12,000

person who had demonstrated some

242

00:10:16,870 --> 00:10:14,320

solubility but the concept would be to

243

00:10:20,150 --> 00:10:16,880

put um two of these folks

244

00:10:22,470 --> 00:10:20,160

into mri machines

245

00:10:24,630 --> 00:10:22,480

and uh and have them sort of

246

00:10:26,550 --> 00:10:24,640

remote view each other basically and

247

00:10:28,550 --> 00:10:26,560

kind of like entangle

248

00:10:30,949 --> 00:10:28,560

their their brains so to speak and then

249

00:10:33,030 --> 00:10:30,959

kind of see what's happening you know in

250

00:10:35,110 --> 00:10:33,040

their brains through the mri machine so

251

00:10:37,750 --> 00:10:35,120

that was a way to scientifically yeah

252

00:10:39,190 --> 00:10:37,760

kind of time to test this hypothesis so

253

00:10:41,350 --> 00:10:39,200

not quite what you're thinking but along

254

00:10:42,790 --> 00:10:41,360

the similar lines there and i think

255

00:10:44,630 --> 00:10:42,800

that's uh

256

00:10:47,190 --> 00:10:44,640

you know if it if it is happening

257

00:10:49,269 --> 00:10:47,200

through a physical process of some kind

258

00:10:50,470 --> 00:10:49,279

like that's a it's a great sort of way

259

00:10:52,710 --> 00:10:50,480

to think about

260

00:10:54,069 --> 00:10:52,720

trying to figure this out from a

261

00:10:55,990 --> 00:10:54,079

materialist

262

00:10:57,590 --> 00:10:56,000

sort of standpoint now if it's not

263

00:10:59,750 --> 00:10:57,600

happening

264

00:11:02,870 --> 00:10:59,760

through a physical process uh some

265

00:11:05,670 --> 00:11:02,880

people postulate that it's not um

266

00:11:08,230 --> 00:11:05,680

that that consciousness is more

267

00:11:10,150 --> 00:11:08,240

the bedrock of of reality so so

268

00:11:12,069 --> 00:11:10,160

everything that is material you know our

269

00:11:12,949 --> 00:11:12,079

brains and atoms all that stuff is stuff

270

00:11:16,150 --> 00:11:12,959

that is

271

00:11:17,509 --> 00:11:16,160

laid on top of the consciousness field

272

00:11:19,509 --> 00:11:17,519

and it really just kind of filters

273

00:11:21,910 --> 00:11:19,519

consciousness down so if that that's

274

00:11:23,350 --> 00:11:21,920

true then there's no real physical

275

00:11:25,829 --> 00:11:23,360

process per se

276

00:11:28,710 --> 00:11:25,839

that we could test maybe to kind of

277

00:11:31,350 --> 00:11:28,720

verify how this mechanism actually works

278

00:11:32,790 --> 00:11:31,360

but i mean i love the i mean we if we're

279

00:11:35,269 --> 00:11:32,800

not studying this or trying to figure

280

00:11:37,269 --> 00:11:35,279

out that you know through a laboratory

281

00:11:38,550 --> 00:11:37,279

kind of test or something we need to be

282

00:11:40,230 --> 00:11:38,560

doing it i think that's a great way to

283

00:11:41,829 --> 00:11:40,240

think about it

284

00:11:43,509 --> 00:11:41,839

so i'll defer the rest of my time to

285

00:11:44,470 --> 00:11:43,519

akashi

286

00:11:45,829 --> 00:11:44,480

cool

287

00:11:47,190 --> 00:11:45,839

so um

288

00:11:50,230 --> 00:11:47,200

this is so

289

00:11:51,829 --> 00:11:50,240

connected to obviously my name akashi

290

00:11:52,870 --> 00:11:51,839

chris right yeah

291

00:11:57,670 --> 00:11:52,880

into

292

00:12:02,069 --> 00:11:59,670

records which

293

00:12:04,629 --> 00:12:02,079

the akashic the the study of the akashic

294

00:12:05,590 --> 00:12:04,639

field and how to scientifically explain

295

00:12:09,190 --> 00:12:05,600

this

296

00:12:11,590 --> 00:12:09,200

goes down that same path it is about

297

00:12:12,790 --> 00:12:11,600

quantum entanglement it is about

298

00:12:14,949 --> 00:12:12,800

um

299

00:12:16,550 --> 00:12:14,959

here's where consciousness comes into it

300

00:12:19,509 --> 00:12:16,560

and i love the way that you're putting

301
00:12:21,910 --> 00:12:19,519
it because i think it's a combination of

302
00:12:23,829 --> 00:12:21,920
using your your consciousness like

303
00:12:26,470 --> 00:12:23,839
awareness going back to all the

304
00:12:29,430 --> 00:12:26,480
practices and protocols we've discussed

305
00:12:32,710 --> 00:12:29,440
uh c5 right you your awareness of

306
00:12:35,030 --> 00:12:32,720
awareness meditation is working up that

307
00:12:37,750 --> 00:12:35,040
awareness factor in your brain i think

308
00:12:38,389 --> 00:12:37,760
there's something to that piece of it

309
00:12:40,389 --> 00:12:38,399
but

310
00:12:42,629 --> 00:12:40,399
because the quantum entanglement if i

311
00:12:44,310 --> 00:12:42,639
understand it correctly it becomes when

312
00:12:46,230 --> 00:12:44,320
something becomes so aware of you and

313
00:12:49,509 --> 00:12:46,240

you become aware of something else and

314

00:12:51,269 --> 00:12:49,519

you're entangled beyond space and time

315

00:12:53,190 --> 00:12:51,279

right and those those there's no

316

00:12:55,350 --> 00:12:53,200

distance yeah there's no distance

317

00:12:58,949 --> 00:12:55,360

because it's all vibration based right

318

00:13:01,430 --> 00:12:58,959

so we're all in this big network so um i

319

00:13:03,430 --> 00:13:01,440

i don't want to random i saw the red dot

320

00:13:04,829 --> 00:13:03,440

you actually have 45 seconds now keep it

321

00:13:06,629 --> 00:13:04,839

oh okay cool i saw

322

00:13:09,350 --> 00:13:06,639

thirteen

323

00:13:10,629 --> 00:13:09,360

um no i mean it it's just absolutely

324

00:13:13,030 --> 00:13:10,639

fascinating it would be great i mean

325

00:13:16,629 --> 00:13:13,040

we've seen so many people that i think

326

00:13:19,509 --> 00:13:16,639

all of it is tied together the c5 the

327

00:13:22,550 --> 00:13:19,519

akashic records the quantum entanglement

328

00:13:25,430 --> 00:13:22,560

the remote viewing that access it's like

329

00:13:27,670 --> 00:13:25,440

you're you're plugging into a hub a

330

00:13:29,509 --> 00:13:27,680

different hub but it's your mind does

331

00:13:31,430 --> 00:13:29,519

your mind have to be ready can you

332

00:13:33,750 --> 00:13:31,440

really try to duplicate those

333

00:13:35,350 --> 00:13:33,760

experiments you know strictly with

334

00:13:36,550 --> 00:13:35,360

science that's the part that'll be

335

00:13:39,509 --> 00:13:36,560

interesting because i think it's a

336

00:13:42,230 --> 00:13:39,519

combination of a mind that's prepared

337

00:13:43,350 --> 00:13:42,240

for that or that's more

338

00:13:45,590 --> 00:13:43,360

trained

339

00:13:47,670 --> 00:13:45,600

so and and if anybody will yield to me i

340

00:13:49,350 --> 00:13:47,680

want to add another piece somebody has

341

00:13:51,910 --> 00:13:49,360

to yield me something

342

00:13:53,670 --> 00:13:51,920

i'm yielding my time to you yeah you can

343

00:13:54,870 --> 00:13:53,680

you have no more time flare has to yield

344

00:13:55,910 --> 00:13:54,880

to me

345

00:13:59,590 --> 00:13:55,920

but

346

00:14:01,350 --> 00:13:59,600

that

347

00:14:03,430 --> 00:14:01,360

one of the parts of the hypothesis is

348

00:14:05,670 --> 00:14:03,440

they gave him grid coordinates

349

00:14:08,150 --> 00:14:05,680

so if they didn't need

350

00:14:10,389 --> 00:14:08,160

for something to travel somewhere they

351

00:14:12,470 --> 00:14:10,399

wouldn't have needed to give him grid

352

00:14:14,550 --> 00:14:12,480

coordinates they could have just said

353

00:14:17,269 --> 00:14:14,560

what's happening in russia around this

354

00:14:19,350 --> 00:14:17,279

spot but they gave him specific grid

355

00:14:21,509 --> 00:14:19,360

coordinates so i don't know how you guys

356

00:14:23,350 --> 00:14:21,519

feel like that plays into it but just

357

00:14:27,269 --> 00:14:23,360

something to think about i'm sorry flair

358

00:14:27,279 --> 00:14:41,590

i think he's frozen in cardiff

359

00:14:47,990 --> 00:14:43,910

oh you know we might actually question

360

00:14:52,310 --> 00:14:49,590

oh

361

00:14:54,150 --> 00:14:52,320

hey uh nathan let's do this let's get

362

00:14:56,710 --> 00:14:54,160

let's get deb in there and let's get

363

00:14:59,030 --> 00:14:56,720

kevin to switch over if he's on the five

364

00:15:00,790 --> 00:14:59,040

gigahertz switch to the 2.4 because i

365

00:15:02,310 --> 00:15:00,800

just did that and it helped

366

00:15:04,069 --> 00:15:02,320

cool all right i did it at the beginning

367

00:15:06,790 --> 00:15:04,079

of the show sounds good dad you want to

368

00:15:07,670 --> 00:15:06,800

jump in on this yeah i just talked to

369

00:15:09,670 --> 00:15:07,680

kev

370

00:15:11,430 --> 00:15:09,680

a few things i wanted to say one for

371

00:15:13,910 --> 00:15:11,440

those who are interested in looking at

372

00:15:16,870 --> 00:15:13,920

the remote viewing stuff the stargate

373

00:15:18,629 --> 00:15:16,880

files are available through the cia

374

00:15:20,550 --> 00:15:18,639

really interesting things they've been

375

00:15:22,470 --> 00:15:20,560

doing experiments with this since the

376

00:15:25,829 --> 00:15:22,480

70s and

377

00:15:27,430 --> 00:15:25,839

what i find and something dj and i have

378

00:15:30,069 --> 00:15:27,440

discussed before

379

00:15:33,110 --> 00:15:30,079

is they may not fully understand the

380

00:15:36,069 --> 00:15:33,120

science behind it there's a level of woo

381

00:15:39,829 --> 00:15:36,079

where they can't fully grasp it yet as

382

00:15:42,230 --> 00:15:39,839

to why it does seem to work and they had

383

00:15:43,430 --> 00:15:42,240

um done some research that showed that

384

00:15:46,230 --> 00:15:43,440

it worked

385

00:15:48,389 --> 00:15:46,240

um so i mean i would like to be able to

386

00:15:50,710 --> 00:15:48,399

put my finger on the science too so i

387

00:15:52,870 --> 00:15:50,720

think i need to learn more about quantum

388

00:15:54,550 --> 00:15:52,880

entanglements because that's

389

00:15:56,389 --> 00:15:54,560

interesting to me i've also heard

390

00:15:57,749 --> 00:15:56,399

something about like

391

00:15:58,710 --> 00:15:57,759

photons

392

00:16:02,069 --> 00:15:58,720

making

393

00:16:04,389 --> 00:16:02,079

each other react in some way um without

394

00:16:06,150 --> 00:16:04,399

even being near each other so there's

395

00:16:08,470 --> 00:16:06,160

just so many things that are going on

396

00:16:10,949 --> 00:16:08,480

that we don't understand

397

00:16:12,870 --> 00:16:10,959

um and as we know the government was

398

00:16:16,629 --> 00:16:12,880

also doing something with

399

00:16:18,870 --> 00:16:16,639

um psycho energetics and psychotronics

400

00:16:21,110 --> 00:16:18,880

so they were really studying those

401
00:16:24,550 --> 00:16:21,120
things for a while and you can still

402
00:16:26,710 --> 00:16:24,560
join groups there's still companies that

403
00:16:29,590 --> 00:16:26,720
do the remote viewing so there's a

404
00:16:32,069 --> 00:16:29,600
validity to it there's a course yeah

405
00:16:34,550 --> 00:16:32,079
there's definitely something going on

406
00:16:35,990 --> 00:16:34,560
and it it does seem to be like like you

407
00:16:39,749 --> 00:16:36,000
said they like using the grades they

408
00:16:41,910 --> 00:16:39,759
like to be pretty particular with it

409
00:16:44,069 --> 00:16:41,920
so yeah hey you got 30 more seconds if

410
00:16:46,389 --> 00:16:44,079
you want i just wish i understood more

411
00:16:48,629 --> 00:16:46,399
about it i would like to know more about

412
00:16:50,230 --> 00:16:48,639
what quantum entanglement means

413
00:16:52,310 --> 00:16:50,240

specifically

414

00:16:54,550 --> 00:16:52,320

so chris could you tell us that a little

415

00:16:55,670 --> 00:16:54,560

time i have left

416

00:16:59,030 --> 00:16:55,680

well i mean

417

00:17:01,350 --> 00:16:59,040

the idea goes back to string theory and

418

00:17:04,230 --> 00:17:01,360

the limit for original limitations for

419

00:17:06,230 --> 00:17:04,240

relativity you know theory theory of

420

00:17:08,710 --> 00:17:06,240

relativity is not being able to deal

421

00:17:11,270 --> 00:17:08,720

with the multi-dimensions right so

422

00:17:14,949 --> 00:17:11,280

quantum entanglement is is really kind

423

00:17:16,829 --> 00:17:14,959

of embracing that super if and i'm not

424

00:17:20,390 --> 00:17:16,839

rather be squinting but

425

00:17:22,470 --> 00:17:20,400

um embracing that concept of super

426

00:17:25,029 --> 00:17:22,480

string theory and thinking that all the

427

00:17:27,029 --> 00:17:25,039

quanta are individually like they're

428

00:17:29,110 --> 00:17:27,039

dots right all over the place and these

429

00:17:31,270 --> 00:17:29,120

strings are gonna get together i'm gonna

430

00:17:33,510 --> 00:17:31,280

turn this off string so can i get

431

00:17:36,150 --> 00:17:33,520

connecting it together and the resonance

432

00:17:38,630 --> 00:17:36,160

is what gets the messages across

433

00:17:40,549 --> 00:17:38,640

that is also related and referred to

434

00:17:43,270 --> 00:17:40,559

when you talk about einstein's thought

435

00:17:46,789 --> 00:17:43,280

experiments where he would go into these

436

00:17:49,430 --> 00:17:46,799

translight states and put himself in a

437

00:17:52,070 --> 00:17:49,440

meditative state and supposedly be able

438

00:17:54,950 --> 00:17:52,080

to ask a very specific question

439

00:17:56,950 --> 00:17:54,960

and get that answer you know but there

440

00:17:59,270 --> 00:17:56,960

was all these rules to it so i think

441

00:18:01,350 --> 00:17:59,280

that's all somewhat tied together if

442

00:18:02,710 --> 00:18:01,360

everything that has happened

443

00:18:04,390 --> 00:18:02,720

will happen

444

00:18:06,230 --> 00:18:04,400

and is happening right now it's out

445

00:18:07,909 --> 00:18:06,240

there and accessible

446

00:18:09,830 --> 00:18:07,919

i think quantum entanglement would be

447

00:18:10,950 --> 00:18:09,840

the answer to no

448

00:18:12,789 --> 00:18:10,960

how it works

449

00:18:14,310 --> 00:18:12,799

all right we gave it we gave you extra

450

00:18:16,630 --> 00:18:14,320

time we got to move on we're going to

451
00:18:17,830 --> 00:18:16,640
have go backs so during the go backs we

452
00:18:23,430 --> 00:18:17,840
can readdress

453
00:18:26,630 --> 00:18:25,110
no question

454
00:18:29,909 --> 00:18:26,640
but we want to give you a chance to

455
00:18:34,549 --> 00:18:29,919
respond to dj's topic

456
00:18:37,430 --> 00:18:35,350
hey

457
00:18:39,669 --> 00:18:37,440
hi so i'm not viewing things like has

458
00:18:41,510 --> 00:18:39,679
anyone ever reviewed like the wrong

459
00:18:43,590 --> 00:18:41,520
person like

460
00:18:45,270 --> 00:18:43,600
naked or you know

461
00:18:47,510 --> 00:18:45,280
who who

462
00:18:49,590 --> 00:18:47,520
i'm wondering

463
00:18:51,430 --> 00:18:49,600

i caught the [h__\h] should i

464

00:18:52,470 --> 00:18:51,440

i mean i'm wondering like

465

00:18:58,710 --> 00:18:52,480

if you're a

466

00:19:01,909 --> 00:19:00,470

you know all right hang on and take the

467

00:19:04,710 --> 00:19:01,919

timer off real quick nathan we gotta

468

00:19:07,510 --> 00:19:04,720

talk to we gotta talk to flair flair

469

00:19:10,950 --> 00:19:07,520

do you have to do you have a dual wi-fi

470

00:19:12,870 --> 00:19:10,960

net in your house

471

00:19:15,350 --> 00:19:12,880

do you have two bands

472

00:19:17,350 --> 00:19:15,360

yes no maybe so

473

00:19:19,669 --> 00:19:17,360

yeah

474

00:19:22,470 --> 00:19:19,679

okay go on the other one go on the 2.4

475

00:19:25,909 --> 00:19:25,029

hello

476

00:19:27,510 --> 00:19:25,919

gig

477

00:19:29,270 --> 00:19:27,520

he'll be back he'll be back all right so

478

00:19:31,270 --> 00:19:29,280

he can you know what nathan you can

479

00:19:33,029 --> 00:19:31,280

start you want to start with yours and

480

00:19:35,270 --> 00:19:33,039

then we'll come back and we'll let flair

481

00:19:38,549 --> 00:19:35,280

answer he'll get a double shot of flare

482

00:19:40,150 --> 00:19:38,559

who doesn't want that i love it yes sir

483

00:19:43,029 --> 00:19:40,160

i can't wait to hear what this is about

484

00:19:44,470 --> 00:19:43,039

extra strong uh yeah my

485

00:19:45,669 --> 00:19:44,480

mine's not crazy it's a thought

486

00:19:48,150 --> 00:19:45,679

experiment i wanted to get everybody's

487

00:19:48,950 --> 00:19:48,160

take on it so uh if

488

00:19:50,390 --> 00:19:48,960

all

489

00:19:52,630 --> 00:19:50,400

you know kind of different theories

490

00:19:54,070 --> 00:19:52,640

notwithstanding of what these others

491

00:19:55,190 --> 00:19:54,080

might be and we all know that there's a

492

00:19:57,270 --> 00:19:55,200

lot of different theories about what

493

00:19:59,270 --> 00:19:57,280

they are but let's just for the sake of

494

00:20:00,549 --> 00:19:59,280

argument let's say that they

495

00:20:02,230 --> 00:20:00,559

uh are

496

00:20:04,710 --> 00:20:02,240

uh you know advanced until an advanced

497

00:20:06,230 --> 00:20:04,720

intelligence species that has this tic

498

00:20:08,710 --> 00:20:06,240

tac technology we've talked about that

499

00:20:09,750 --> 00:20:08,720

before many times what it seemingly can

500

00:20:12,870 --> 00:20:09,760

do

501
00:20:15,110 --> 00:20:12,880
in our atmosphere incredible capability

502
00:20:17,750 --> 00:20:15,120
if you're that intelligence what are the

503
00:20:19,029 --> 00:20:17,760
things you would be looking for from

504
00:20:21,909 --> 00:20:19,039
humanity

505
00:20:23,430 --> 00:20:21,919
before you felt comfortable

506
00:20:25,350 --> 00:20:23,440
letting them have access to that

507
00:20:27,590 --> 00:20:25,360
technology or sharing any other

508
00:20:29,110 --> 00:20:27,600
technology with them from your super

509
00:20:31,190 --> 00:20:29,120
intelligent civilization what are the

510
00:20:33,590 --> 00:20:31,200
things that you would need to see

511
00:20:34,950 --> 00:20:33,600
from humanity to give you comfort that

512
00:20:36,630 --> 00:20:34,960
it was okay

513
00:20:38,390 --> 00:20:36,640

to share that knowledge

514

00:20:40,310 --> 00:20:38,400

so i'll yield the rest of my time to you

515

00:20:42,149 --> 00:20:40,320

chris go ahead

516

00:20:43,590 --> 00:20:42,159

go to me yeah we're gonna go across then

517

00:20:47,590 --> 00:20:43,600

we'll come back okay this will be

518

00:20:49,430 --> 00:20:47,600

interesting so yeah um um

519

00:20:52,710 --> 00:20:49,440

that that's

520

00:20:55,430 --> 00:20:52,720

that's a good one because we are looking

521

00:20:58,950 --> 00:20:55,440

so bad as a species

522

00:21:01,510 --> 00:20:58,960

and if if anybody is looking at us on a

523

00:21:03,350 --> 00:21:01,520

you know in in their pockets we're all

524

00:21:05,669 --> 00:21:03,360

nice people inside but sometimes the

525

00:21:07,750 --> 00:21:05,679

things that we just do are so selfish

526

00:21:09,830 --> 00:21:07,760

and if they're looking at how we're

527

00:21:11,590 --> 00:21:09,840

using the weapons if we're looking at

528

00:21:14,149 --> 00:21:11,600

how we're treating to you know treating

529

00:21:17,430 --> 00:21:14,159

each other and how some areas have more

530

00:21:18,950 --> 00:21:17,440

than others and and i i would just look

531

00:21:22,630 --> 00:21:18,960

for some

532

00:21:25,430 --> 00:21:22,640

some assurance of accountability

533

00:21:27,270 --> 00:21:25,440

that it's okay for you to have it

534

00:21:28,230 --> 00:21:27,280

and i think that that's probably why we

535

00:21:30,149 --> 00:21:28,240

don't

536

00:21:31,270 --> 00:21:30,159

because we're not freaking ready and

537

00:21:33,590 --> 00:21:31,280

anybody

538

00:21:35,270 --> 00:21:33,600

i i just think we're not ready

539

00:21:39,750 --> 00:21:35,280

and and that's why we don't have it

540

00:21:43,990 --> 00:21:41,029

anything else you've got a bunch of time

541

00:21:45,510 --> 00:21:44,000

left you want to yield to that

542

00:21:47,190 --> 00:21:45,520

do you want to take a little bit dj

543

00:21:48,070 --> 00:21:47,200

maybe we'll bounce off because i'm i'm

544

00:21:50,310 --> 00:21:48,080

thinking well

545

00:21:53,270 --> 00:21:50,320

let deb go i mean

546

00:21:56,070 --> 00:21:53,280

it'll keep rolling forward

547

00:21:56,950 --> 00:21:56,080

so i have mixed feelings i do think that

548

00:21:59,510 --> 00:21:56,960

they

549

00:22:01,510 --> 00:21:59,520

want something from our planet but i

550

00:22:04,950 --> 00:22:01,520

don't know that they necessarily want

551
00:22:06,070 --> 00:22:04,960
something from us other than maybe our

552
00:22:08,950 --> 00:22:06,080
dna

553
00:22:10,710 --> 00:22:08,960
i think that's a resource for them

554
00:22:13,190 --> 00:22:10,720
maybe you know

555
00:22:15,990 --> 00:22:13,200
you could go into that whole zoo theory

556
00:22:17,510 --> 00:22:16,000
which i'm not a big fan of but right now

557
00:22:19,270 --> 00:22:17,520
but none of those other theories you

558
00:22:21,190 --> 00:22:19,280
know let's ignore those for a second if

559
00:22:23,029 --> 00:22:21,200
if just under my thought experiment what

560
00:22:25,110 --> 00:22:23,039
would you be looking for from humanity

561
00:22:25,830 --> 00:22:25,120
to give us the

562
00:22:26,789 --> 00:22:25,840
reversed the

563
00:22:29,350 --> 00:22:26,799

question

564

00:22:31,110 --> 00:22:29,360

i know they're saying that they really

565

00:22:33,350 --> 00:22:31,120

did

566

00:22:35,190 --> 00:22:33,360

really consider that because that's the

567

00:22:37,270 --> 00:22:35,200

part i'm having a hard time getting past

568

00:22:38,789 --> 00:22:37,280

whether or not they would consider it

569

00:22:40,950 --> 00:22:38,799

um

570

00:22:43,590 --> 00:22:40,960

i guess

571

00:22:46,470 --> 00:22:43,600

i would say that

572

00:22:48,950 --> 00:22:46,480

i don't know like we really have to stop

573

00:22:51,029 --> 00:22:48,960

having war amongst ourselves right

574

00:22:53,270 --> 00:22:51,039

um i think that it's pretty clear that

575

00:22:56,070 --> 00:22:53,280

they're monitoring what we're doing with

576

00:22:58,230 --> 00:22:56,080

our nuclear weapons they're probably

577

00:23:00,870 --> 00:22:58,240

going oh these

578

00:23:02,470 --> 00:23:00,880

let's just say these idiots why are they

579

00:23:04,549 --> 00:23:02,480

playing with something that can destroy

580

00:23:06,470 --> 00:23:04,559

the whole planet right

581

00:23:08,390 --> 00:23:06,480

so that might be

582

00:23:11,909 --> 00:23:08,400

very specifically what they're looking

583

00:23:13,750 --> 00:23:11,919

at the nuclear arms if we were not using

584

00:23:15,350 --> 00:23:13,760

that if we were not trying to power

585

00:23:18,789 --> 00:23:15,360

things with that

586

00:23:20,549 --> 00:23:18,799

they might be more forward with us

587

00:23:23,669 --> 00:23:20,559

i think that honestly that's that would

588

00:23:26,230 --> 00:23:23,679

be that the tipping point right if we

589

00:23:28,549 --> 00:23:26,240

could just eliminate that because

590

00:23:30,549 --> 00:23:28,559

anything other than that you know isn't

591

00:23:32,630 --> 00:23:30,559

as damaging

592

00:23:34,070 --> 00:23:32,640

okay yeah i like it all right dj you got

593

00:23:35,669 --> 00:23:34,080

some more time there

594

00:23:37,990 --> 00:23:35,679

you got all your time and her time so

595

00:23:41,110 --> 00:23:38,000

well you know what i let's go to kev and

596

00:23:42,630 --> 00:23:41,120

then i'll i'll come back around okay

597

00:23:45,269 --> 00:23:42,640

oh kev didn't get to hear the question

598

00:23:46,390 --> 00:23:45,279

question yeah okay so

599

00:23:47,750 --> 00:23:46,400

um

600

00:23:50,070 --> 00:23:47,760

kev we're gonna come back to you in a

601
00:23:51,110 --> 00:23:50,080
second uh just hopefully your your

602
00:23:53,669 --> 00:23:51,120
stuff's good and we're going to give you

603
00:23:56,630 --> 00:23:53,679
nathan's question but basically nathan

604
00:23:59,510 --> 00:23:56,640
um everybody you know kind of came

605
00:24:01,990 --> 00:23:59,520
around to where i was going which was if

606
00:24:04,070 --> 00:24:02,000
i were them i would want to see that

607
00:24:06,070 --> 00:24:04,080
we're being responsible with the

608
00:24:09,669 --> 00:24:06,080
environment that we've been given with

609
00:24:12,149 --> 00:24:09,679
the water with the land with the uh the

610
00:24:14,230 --> 00:24:12,159
flora and fauna and all these sorts of

611
00:24:15,990 --> 00:24:14,240
things because i would say well if i

612
00:24:18,390 --> 00:24:16,000
give them this technology that we have

613
00:24:21,110 --> 00:24:18,400

with the tic tac and they apply that to

614

00:24:22,070 --> 00:24:21,120

a rocket system well then you know we

615

00:24:23,830 --> 00:24:22,080

have

616

00:24:25,990 --> 00:24:23,840

mutually assured destruction it'll just

617

00:24:27,350 --> 00:24:26,000

come but you know the first person that

618

00:24:28,310 --> 00:24:27,360

well actually it won't even be that

619

00:24:29,990 --> 00:24:28,320

because

620

00:24:31,750 --> 00:24:30,000

they'll launch and by the time you

621

00:24:33,750 --> 00:24:31,760

figure that out you're you know you're

622

00:24:36,390 --> 00:24:33,760

already gone so i would think that

623

00:24:40,549 --> 00:24:36,400

they're looking for markers of maturity

624

00:24:41,269 --> 00:24:40,559

uh markers of uh a certain uh uh

625

00:24:52,630 --> 00:24:41,279

uh

626

00:24:56,070 --> 00:24:52,640

there's something that's important to me

627

00:24:58,070 --> 00:24:56,080

that's greater than my own desires as an

628

00:25:00,549 --> 00:24:58,080

individual the way that i'm going to

629

00:25:03,029 --> 00:25:00,559

manage my my smog and all these sorts of

630

00:25:05,430 --> 00:25:03,039

things and and now what i see

631

00:25:07,750 --> 00:25:05,440

at least around here is people are

632

00:25:09,669 --> 00:25:07,760

are taking all the things that would

633

00:25:11,830 --> 00:25:09,679

help keep the air clean off their

634

00:25:12,710 --> 00:25:11,840

vehicle and making them louder

635

00:25:14,789 --> 00:25:12,720

um

636

00:25:16,870 --> 00:25:14,799

and so that doesn't show that you really

637

00:25:18,630 --> 00:25:16,880

care about the environment so

638

00:25:19,990 --> 00:25:18,640

i don't think we're very responsible

639

00:25:22,630 --> 00:25:20,000

that's probably what they're looking for

640

00:25:25,110 --> 00:25:22,640

mm-hmm cool in my opinion can i have one

641

00:25:29,510 --> 00:25:28,549

our ability to really unite

642

00:25:31,510 --> 00:25:29,520

because

643

00:25:32,789 --> 00:25:31,520

you know think about if you're a company

644

00:25:34,789 --> 00:25:32,799

if you think from a corporate

645

00:25:36,630 --> 00:25:34,799

perspective and you're going to acquire

646

00:25:39,029 --> 00:25:36,640

a company do you want to acquire a

647

00:25:40,950 --> 00:25:39,039

company in which is this jailed or do

648

00:25:43,430 --> 00:25:40,960

you want to acquire a company that's

649

00:25:44,390 --> 00:25:43,440

broken and then nobody talks to each

650

00:25:46,310 --> 00:25:44,400

other and you're going to have to

651
00:25:48,070 --> 00:25:46,320
reinvent the wheel i think that they're

652
00:25:49,029 --> 00:25:48,080
going to have to see some unity within

653
00:25:54,470 --> 00:25:49,039
us

654
00:25:57,430 --> 00:25:54,480
they would even want to partner with in

655
00:25:58,149 --> 00:25:57,440
my opinion so yeah

656
00:26:00,549 --> 00:25:58,159
so

657
00:26:03,350 --> 00:26:00,559
nathan do you want to restate the

658
00:26:04,870 --> 00:26:03,360
question for flair sure yeah so uh so

659
00:26:06,870 --> 00:26:04,880
flair my question was

660
00:26:09,190 --> 00:26:06,880
uh ignoring all the different theories

661
00:26:10,950 --> 00:26:09,200
that exist about who they are who the

662
00:26:12,710 --> 00:26:10,960
others are let's just assume they're an

663
00:26:14,390 --> 00:26:12,720

advanced intelligence

664

00:26:15,190 --> 00:26:14,400

an advanced species and when they have

665

00:26:17,190 --> 00:26:15,200

this

666

00:26:18,710 --> 00:26:17,200

tic tac technology

667

00:26:20,149 --> 00:26:18,720

what are the things that if you were

668

00:26:22,230 --> 00:26:20,159

that advanced species you would be

669

00:26:23,669 --> 00:26:22,240

looking for from humanity

670

00:26:25,909 --> 00:26:23,679

as a whole

671

00:26:29,750 --> 00:26:25,919

before you'd be comfortable giving or

672

00:26:31,909 --> 00:26:29,760

sharing any of that technology with

673

00:26:34,310 --> 00:26:31,919

with us

674

00:26:40,549 --> 00:26:38,149

i can answer that question

675

00:26:41,590 --> 00:26:40,559

i think that

676
00:26:43,110 --> 00:26:41,600
to get

677
00:26:45,430 --> 00:26:43,120
all that little technology into those

678
00:26:46,630 --> 00:26:45,440
tiny mints

679
00:26:48,789 --> 00:26:46,640
i think that's where

680
00:26:53,590 --> 00:26:48,799
the answer is i think if we figure out

681
00:26:58,390 --> 00:26:55,750
i love it yes i can compress the

682
00:27:00,549 --> 00:26:58,400
technology into the tic tacs

683
00:27:02,390 --> 00:27:00,559
into the candy oh yeah but then you have

684
00:27:04,950 --> 00:27:02,400
to get out of the box too right it's not

685
00:27:06,149 --> 00:27:04,960
just the mint it's also in the box

686
00:27:09,029 --> 00:27:06,159
we'll cross that bridge when we get

687
00:27:14,870 --> 00:27:11,669
those are details

688
00:27:18,870 --> 00:27:15,990

that's right

689

00:27:20,549 --> 00:27:18,880

all right so now we're back to i believe

690

00:27:22,630 --> 00:27:20,559

we were at

691

00:27:27,029 --> 00:27:22,640

um where were we nathan so basically

692

00:27:30,149 --> 00:27:28,870

uh kev time to respond to your question

693

00:27:31,190 --> 00:27:30,159

yeah go ahead kevin would you like to

694

00:27:34,310 --> 00:27:31,200

talk about

695

00:27:36,149 --> 00:27:34,320

um start the clock and then uh kev if

696

00:27:37,590 --> 00:27:36,159

you would uh if you want to talk remote

697

00:27:40,470 --> 00:27:37,600

viewing with me

698

00:27:42,950 --> 00:27:40,480

this is your time brother yeah so um did

699

00:27:44,870 --> 00:27:42,960

you research any uh remote viewers like

700

00:27:46,870 --> 00:27:44,880

um one

701
00:27:49,190 --> 00:27:46,880
if they've had any awkward accidents

702
00:27:51,830 --> 00:27:49,200
like remote being somebody they didn't

703
00:27:53,350 --> 00:27:51,840
mean to remote like

704
00:27:56,149 --> 00:27:53,360
i need to know this like if i'm in the

705
00:27:57,830 --> 00:27:56,159
shower do i i need to wear clothes

706
00:27:59,909 --> 00:27:57,840
i mean

707
00:28:01,830 --> 00:27:59,919
should i hide my credit cards like

708
00:28:04,389 --> 00:28:01,840
like what what's safe

709
00:28:06,070 --> 00:28:04,399
i know elizondo man i mean they said he

710
00:28:08,710 --> 00:28:06,080
used it he could be watching you shower

711
00:28:18,480 --> 00:28:10,310
all right he's coming in so broken

712
00:28:18,490 --> 00:28:24,950
[Laughter]

713
00:28:27,830 --> 00:28:25,909

you know

714

00:28:29,750 --> 00:28:27,840

kev the answer to your question is yes

715

00:28:31,590 --> 00:28:29,760

you do need to be careful keep your

716

00:28:34,310 --> 00:28:31,600

credit cards in those little security

717

00:28:36,149 --> 00:28:34,320

sleeves that you get from amazon watch

718

00:28:37,990 --> 00:28:36,159

in the shower and

719

00:28:39,190 --> 00:28:38,000

you know that's all i can say you know

720

00:28:41,669 --> 00:28:39,200

be careful

721

00:28:44,470 --> 00:28:41,679

be secure absolutely uh

722

00:28:45,430 --> 00:28:44,480

thank you so much akashi chris

723

00:28:47,430 --> 00:28:45,440

hi

724

00:28:48,870 --> 00:28:47,440

hold on you're mean your topic

725

00:28:50,789 --> 00:28:48,880

i know you have some tech stuff so once

726
00:28:51,990 --> 00:28:50,799
you get set up yeah yeah i'm gonna get

727
00:28:52,870 --> 00:28:52,000
set up

728
00:28:54,630 --> 00:28:52,880
so

729
00:28:56,470 --> 00:28:54,640
hold on

730
00:28:59,430 --> 00:28:56,480
and i'm gonna keep a separate timer off

731
00:29:01,590 --> 00:28:59,440
screen multimedia presentations

732
00:29:03,590 --> 00:29:01,600
that's cool

733
00:29:06,710 --> 00:29:03,600
um

734
00:29:10,310 --> 00:29:08,389
you're gonna go whoa okay she's got a

735
00:29:12,389 --> 00:29:10,320
point

736
00:29:18,870 --> 00:29:12,399
so

737
00:29:20,310 --> 00:29:18,880
submit it for your approval today we're

738
00:29:21,190 --> 00:29:20,320

going to take a journey

739

00:29:22,070 --> 00:29:21,200

through

740

00:29:24,070 --> 00:29:22,080

um

741

00:29:26,950 --> 00:29:24,080

the ancient structures they're silently

742

00:29:30,070 --> 00:29:26,960

screaming hello are we invisible

743

00:29:31,110 --> 00:29:30,080

martian martians martians martians like

744

00:29:34,149 --> 00:29:31,120

back to

745

00:29:35,510 --> 00:29:34,159

anyway we'll explain later so our first

746

00:29:37,190 --> 00:29:35,520

stop

747

00:29:40,950 --> 00:29:37,200

in our little journey is going to be

748

00:29:44,789 --> 00:29:40,960

pumapunko pomponko um hard to date it's

749

00:29:47,510 --> 00:29:44,799

about 2 000 years old it's 13 000 um

750

00:29:49,350 --> 00:29:47,520

foot elevation is above the tree line

751
00:29:52,149 --> 00:29:49,360
those boulders that you see right here

752
00:29:55,110 --> 00:29:52,159
are about a hundred tons each

753
00:29:57,110 --> 00:29:55,120
and look at the exquisite engineering

754
00:29:58,870 --> 00:29:57,120
and manufacturing precision of this

755
00:30:01,750 --> 00:29:58,880
thing and think about the quarry that

756
00:30:04,630 --> 00:30:01,760
those came from are downhill

757
00:30:07,350 --> 00:30:04,640
second pyramids everywhere

758
00:30:10,630 --> 00:30:07,360
uh similar structures all over the world

759
00:30:13,750 --> 00:30:10,640
some identical and design you know from

760
00:30:15,590 --> 00:30:13,760
kafu to chichen itza you can see stuff

761
00:30:17,350 --> 00:30:15,600
that just makes sense and it's not just

762
00:30:18,789 --> 00:30:17,360
the triangles they're very specific

763
00:30:20,470 --> 00:30:18,799

structures

764

00:30:24,070 --> 00:30:20,480

focus on alignment with the stars and

765

00:30:25,510 --> 00:30:24,080

seasons but what was their true purpose

766

00:30:27,510 --> 00:30:25,520

third stop

767

00:30:30,950 --> 00:30:27,520

gosek circle

768

00:30:32,710 --> 00:30:30,960

this one is in durham germany 4 900 bc

769

00:30:34,389 --> 00:30:32,720

so it's older than stonehenge so i

770

00:30:36,149 --> 00:30:34,399

wanted to show it

771

00:30:38,389 --> 00:30:36,159

but notice the patterns because you're

772

00:30:40,950 --> 00:30:38,399

going to see them here again um sun

773

00:30:42,710 --> 00:30:40,960

setting with the winter solstice and the

774

00:30:46,549 --> 00:30:42,720

meridian

775

00:30:49,110 --> 00:30:46,559

next up my favorite gobekli tepe um

776

00:30:52,389 --> 00:30:49,120

turkey the hill of the navel and that's

777

00:30:54,470 --> 00:30:52,399

what means about 12 000 years old spiral

778

00:30:57,029 --> 00:30:54,480

structures with pillars and symbology

779

00:30:59,509 --> 00:30:57,039

that has not yet been deciphered

780

00:31:01,509 --> 00:30:59,519

um it was buried purposely for reasons

781

00:31:03,990 --> 00:31:01,519

that are still in question um they're

782

00:31:06,149 --> 00:31:04,000

thinking potentially was catastrophism

783

00:31:07,830 --> 00:31:06,159

or just concerns you know concerns about

784

00:31:09,590 --> 00:31:07,840

asteroids etc

785

00:31:11,909 --> 00:31:09,600

only a small part of it has been

786

00:31:14,549 --> 00:31:11,919

excavated i wanted to show you something

787

00:31:16,070 --> 00:31:14,559

because um at the beginning in pumapunku

788

00:31:19,269 --> 00:31:16,080

i don't know if you remember the h's but

789

00:31:21,350 --> 00:31:19,279

the h's are right here again so just for

790

00:31:24,230 --> 00:31:21,360

reference and then

791

00:31:26,549 --> 00:31:24,240

which takes you back to bolivia

792

00:31:28,549 --> 00:31:26,559

right down the street from pumapunku is

793

00:31:33,110 --> 00:31:28,559

tia monaco

794

00:31:35,350 --> 00:31:33,120

um about 15 000 years old is uh

795

00:31:37,750 --> 00:31:35,360

let's see believed to be a temple the

796

00:31:39,909 --> 00:31:37,760

gate of the sun is right here

797

00:31:42,230 --> 00:31:39,919

uh the interesting thing about it is

798

00:31:45,190 --> 00:31:42,240

depiction of the many faces that don't

799

00:31:48,070 --> 00:31:45,200

seem to match the people that were um

800

00:31:50,870 --> 00:31:48,080

uh part of that area at the time

801
00:31:52,070 --> 00:31:50,880
so my conclusion or my question to the

802
00:31:53,750 --> 00:31:52,080
group is

803
00:31:55,750 --> 00:31:53,760
where did they come from you know the

804
00:31:57,269 --> 00:31:55,760
theories we got the ancient astronaut

805
00:31:58,470 --> 00:31:57,279
theory right

806
00:32:01,029 --> 00:31:58,480
or

807
00:32:03,110 --> 00:32:01,039
ancient civilizations that are keen

808
00:32:05,350 --> 00:32:03,120
advanced astronomers so in tune with the

809
00:32:07,029 --> 00:32:05,360
earth stars and seasons consciousness

810
00:32:09,590 --> 00:32:07,039
that they tapped into power that we

811
00:32:12,149 --> 00:32:09,600
don't understand therefore explaining

812
00:32:14,149 --> 00:32:12,159
the power grid you know pyramid theories

813
00:32:16,549 --> 00:32:14,159

that travel around the globe engineering

814

00:32:18,470 --> 00:32:16,559

skills energy and the stones resonance

815

00:32:20,630 --> 00:32:18,480

and other technology to transfer and

816

00:32:21,830 --> 00:32:20,640

create such structures

817

00:32:24,070 --> 00:32:21,840

i'm done

818

00:32:26,389 --> 00:32:24,080

love it love it all right so let's start

819

00:32:28,789 --> 00:32:26,399

with uh dj you want to say something no

820

00:32:29,909 --> 00:32:28,799

no round of applause masterfully put

821

00:32:32,149 --> 00:32:29,919

together

822

00:32:33,669 --> 00:32:32,159

uh i messed up on the time didn't i went

823

00:32:35,190 --> 00:32:33,679

way over just just a little bit you can

824

00:32:37,350 --> 00:32:35,200

have some of my time

825

00:32:43,269 --> 00:32:37,360

kevin uh you want to take a response to

826

00:32:46,789 --> 00:32:45,669

kevin yeah sure um so the h stones i

827

00:32:49,590 --> 00:32:46,799

know

828

00:32:52,470 --> 00:32:49,600

there's also a lot of those h

829

00:32:54,070 --> 00:32:52,480

you know the h is at uh

830

00:32:57,110 --> 00:32:54,080

go back as well

831

00:32:59,269 --> 00:32:57,120

also i've seen the h and uh

832

00:33:05,269 --> 00:32:59,279

it's also a rune

833

00:33:08,540 --> 00:33:07,190

a rune

834

00:33:11,029 --> 00:33:08,550

yeah

835

00:33:17,110 --> 00:33:11,039

[Music]

836

00:33:20,549 --> 00:33:19,190

yeah we are missing a lot of flair here

837

00:33:32,950 --> 00:33:20,559

ben

838

00:33:35,990 --> 00:33:34,549

yeah you could go you could try cutting

839

00:33:38,149 --> 00:33:36,000

your videos

840

00:33:39,350 --> 00:33:38,159

off your video and just do audio and

841

00:33:41,110 --> 00:33:39,360

that's a good idea

842

00:33:43,750 --> 00:33:41,120

it's going to get better sweetie and i'd

843

00:33:47,750 --> 00:33:43,760

rather do that give us give us a

844

00:33:47,760 --> 00:33:50,710

testing

845

00:33:54,870 --> 00:33:52,070

we're still getting a little bit of a

846

00:33:57,590 --> 00:33:54,880

delay did you switch over to the 2.4

847

00:34:03,269 --> 00:33:57,600

gigahertz network

848

00:34:07,190 --> 00:34:05,110

yeah i mean it might not be a terrible

849

00:34:09,030 --> 00:34:07,200

idea just because we're we're literally

850

00:34:10,069 --> 00:34:09,040

missing your content we're not able to

851
00:34:11,990 --> 00:34:10,079
hear you

852
00:34:14,069 --> 00:34:12,000
so uh we're gonna have to press on the

853
00:34:15,829 --> 00:34:14,079
deb i'm really sorry about this for the

854
00:34:18,310 --> 00:34:15,839
cabbies out there because this is this

855
00:34:21,909 --> 00:34:18,320
individual is an integral part of our

856
00:34:25,349 --> 00:34:21,919
show he's knowledgeable he's hilarious

857
00:34:27,990 --> 00:34:25,359
and uh yeah and unfortunately suggested

858
00:34:29,349 --> 00:34:28,000
to have him call in dj

859
00:34:31,190 --> 00:34:29,359
i i don't know if we have that

860
00:34:32,629 --> 00:34:31,200
technology

861
00:34:35,190 --> 00:34:32,639
yeah i don't have i don't have that set

862
00:34:37,430 --> 00:34:35,200
up so unfortunately yeah the only thing

863
00:34:39,349 --> 00:34:37,440

he could use his cell phone and and come

864

00:34:41,430 --> 00:34:39,359

in on stream yard on his cell phone if

865

00:34:43,669 --> 00:34:41,440

he thinks that if he has fi he might

866

00:34:45,750 --> 00:34:43,679

have 5g there that would be better than

867

00:34:47,190 --> 00:34:45,760

this right nathan yeah yeah if he wants

868

00:34:49,589 --> 00:34:47,200

to use his cell phone to use the same

869

00:34:51,430 --> 00:34:49,599

link he could come in that way okay so

870

00:34:52,950 --> 00:34:51,440

uh while deb's taking this question

871

00:34:54,950 --> 00:34:52,960

nathan if you could just communicate

872

00:34:57,430 --> 00:34:54,960

that to him and maybe that because i i

873

00:34:59,670 --> 00:34:57,440

really it it breaks me up that we're

874

00:35:01,190 --> 00:34:59,680

missing his content because i know

875

00:35:03,030 --> 00:35:01,200

it's hilarious and he's worked hard on

876

00:35:04,150 --> 00:35:03,040

this so absolutely uh deb take it away

877

00:35:07,030 --> 00:35:04,160

my friend

878

00:35:09,910 --> 00:35:07,040

yeah i'm really interested in the idea

879

00:35:10,790 --> 00:35:09,920

that we have these ancient astronauts

880

00:35:11,510 --> 00:35:10,800

right

881

00:35:13,750 --> 00:35:11,520

but

882

00:35:16,630 --> 00:35:13,760

i recently wrote an article from an

883

00:35:18,790 --> 00:35:16,640

anthropologist that scolds us for

884

00:35:21,750 --> 00:35:18,800

thinking that way

885

00:35:23,990 --> 00:35:21,760

their viewpoint is that these ancient

886

00:35:26,550 --> 00:35:24,000

civilizations were

887

00:35:29,430 --> 00:35:26,560

perhaps as smart as we are now

888

00:35:32,310 --> 00:35:29,440

um and if it's like we're judging them

889

00:35:34,310 --> 00:35:32,320

as being less than sometimes like not

890

00:35:36,870 --> 00:35:34,320

you guys of course but like people in

891

00:35:39,030 --> 00:35:36,880

general and by diminishing them and

892

00:35:39,990 --> 00:35:39,040

saying aliens must have taught them

893

00:35:42,230 --> 00:35:40,000

right

894

00:35:44,069 --> 00:35:42,240

so i think i have mixed feelings so it's

895

00:35:46,870 --> 00:35:44,079

another perspective to think that we

896

00:35:49,430 --> 00:35:46,880

were also just really really smart but

897

00:35:51,750 --> 00:35:49,440

the coincidences are so

898

00:35:54,470 --> 00:35:51,760

interesting like the pyramids everywhere

899

00:35:56,550 --> 00:35:54,480

right and some of the artwork which is

900

00:35:59,430 --> 00:35:56,560

so representative of what we're dealing

901
00:36:02,310 --> 00:35:59,440
with um now that's been going on for

902
00:36:03,510 --> 00:36:02,320
centuries it really clues me into

903
00:36:07,109 --> 00:36:03,520
something

904
00:36:09,750 --> 00:36:07,119
also the story of prometheus and even

905
00:36:11,990 --> 00:36:09,760
lucifer how they helped humanity and

906
00:36:12,870 --> 00:36:12,000
they got in trouble they fell from the

907
00:36:15,589 --> 00:36:12,880
sky

908
00:36:17,910 --> 00:36:15,599
helped humanity got in trouble

909
00:36:20,390 --> 00:36:17,920
i just you kind of wonder why do we have

910
00:36:22,550 --> 00:36:20,400
that story why do we have that artwork

911
00:36:25,510 --> 00:36:22,560
why do we have these patterns

912
00:36:27,750 --> 00:36:25,520
um the only other possible thing i could

913
00:36:30,870 --> 00:36:27,760

come up with is an even more ancient

914

00:36:33,109 --> 00:36:30,880

civilization a common ancestor that

915

00:36:37,109 --> 00:36:33,119

everyone branched away from that's the

916

00:36:39,430 --> 00:36:37,119

only other possibility i can consider

917

00:36:41,270 --> 00:36:39,440

so those are just some thoughts i threw

918

00:36:42,950 --> 00:36:41,280

i'm throwing out there yeah that's great

919

00:36:44,550 --> 00:36:42,960

you got 20 seconds if you want to keep

920

00:36:46,710 --> 00:36:44,560

going yes ma'am

921

00:36:49,030 --> 00:36:46,720

well i just um wanted to know if you had

922

00:36:51,750 --> 00:36:49,040

also looked into the asian ancient

923

00:36:53,349 --> 00:36:51,760

civilizations a little bit more um

924

00:36:55,829 --> 00:36:53,359

because you know i just touched a little

925

00:36:58,870 --> 00:36:55,839

bit on india and it's fascinating some

926
00:37:01,190 --> 00:36:58,880
of the they also have sky gods you know

927
00:37:03,750 --> 00:37:01,200
some of the gods

928
00:37:04,630 --> 00:37:03,760
we got five seconds three

929
00:37:05,750 --> 00:37:04,640
two

930
00:37:07,829 --> 00:37:05,760
one

931
00:37:09,750 --> 00:37:07,839
and and the reason we got to do this is

932
00:37:11,430 --> 00:37:09,760
because when we bring on guests

933
00:37:13,829 --> 00:37:11,440
and they say well you guys didn't follow

934
00:37:15,270 --> 00:37:13,839
the clock why do we have to

935
00:37:16,950 --> 00:37:15,280
we're going to have go backs though

936
00:37:18,870 --> 00:37:16,960
that's we're going to be able to revisit

937
00:37:20,310 --> 00:37:18,880
any topic you want every every one of us

938
00:37:21,750 --> 00:37:20,320

will get to do that

939

00:37:23,750 --> 00:37:21,760

so i'm

940

00:37:27,109 --> 00:37:23,760

yeah hit it man so uh

941

00:37:30,069 --> 00:37:27,119

yeah this was really fascinating um

942

00:37:33,750 --> 00:37:30,079

i i wouldn't take that view necessarily

943

00:37:36,710 --> 00:37:33,760

that it's a an affront to our ancestors

944

00:37:39,829 --> 00:37:36,720

uh they may have been aided uh but as

945

00:37:42,230 --> 00:37:39,839

chris told me uh yesterday i believe

946

00:37:45,510 --> 00:37:42,240

that these stones are not available in

947

00:37:48,870 --> 00:37:45,520

the local landscape up at 13 000 feet of

948

00:37:51,670 --> 00:37:48,880

msl above mean sea level and somehow

949

00:37:53,990 --> 00:37:51,680

they got these stones up there

950

00:37:56,310 --> 00:37:54,000

from quarries that were i don't know

951
00:37:59,829 --> 00:37:56,320
maybe 13 000 feet below

952
00:38:02,630 --> 00:37:59,839
so uh they're huge um and the technology

953
00:38:04,550 --> 00:38:02,640
today doesn't necessarily exist to do

954
00:38:06,310 --> 00:38:04,560
that without you know trucks or

955
00:38:08,069 --> 00:38:06,320
something like that i don't even know i

956
00:38:11,109 --> 00:38:08,079
think they feel like the pyramids would

957
00:38:12,150 --> 00:38:11,119
be difficult to build today even so

958
00:38:14,150 --> 00:38:12,160
um

959
00:38:17,270 --> 00:38:14,160
i think it it's quite possible that they

960
00:38:19,670 --> 00:38:17,280
were aided at some point and that feeds

961
00:38:21,910 --> 00:38:19,680
into the whole lou elizondo theory and

962
00:38:23,829 --> 00:38:21,920
theories that other people have had that

963
00:38:25,589 --> 00:38:23,839

70 000 years ago

964

00:38:26,950 --> 00:38:25,599

our dna was enhanced that they were

965

00:38:29,829 --> 00:38:26,960

already here

966

00:38:32,550 --> 00:38:29,839

that there was uh uh evidence of uh

967

00:38:35,190 --> 00:38:32,560

writings and in different historical

968

00:38:36,950 --> 00:38:35,200

artifacts and and uh artwork that

969

00:38:39,190 --> 00:38:36,960

depicts something that looks like a

970

00:38:41,589 --> 00:38:39,200

saucer or a spaceship

971

00:38:43,109 --> 00:38:41,599

so am i doing good or i have it's good

972

00:38:44,550 --> 00:38:43,119

40 seconds you get 30 seconds beyond

973

00:38:48,790 --> 00:38:44,560

when it goes red

974

00:38:50,870 --> 00:38:48,800

okay so uh in that case i i i feel like

975

00:38:51,910 --> 00:38:50,880

it is possible and i don't think it's an

976
00:38:55,510 --> 00:38:51,920
affront

977
00:38:56,550 --> 00:38:55,520
uh to those peoples that you spoke of

978
00:38:59,270 --> 00:38:56,560
and you pointed out all those

979
00:39:02,310 --> 00:38:59,280
similarities the h is absolutely amazing

980
00:39:03,510 --> 00:39:02,320
how did that h get on two different

981
00:39:06,069 --> 00:39:03,520
continents

982
00:39:08,150 --> 00:39:06,079
unless was it when we were all you know

983
00:39:09,990 --> 00:39:08,160
all those continents were in one piece i

984
00:39:12,230 --> 00:39:10,000
don't know but um

985
00:39:15,510 --> 00:39:12,240
i i think it's i think it's reasonable

986
00:39:17,109 --> 00:39:15,520
to assume now based on dna and so forth

987
00:39:18,790 --> 00:39:17,119
that that perhaps

988
00:39:20,630 --> 00:39:18,800

uh there was

989

00:39:21,990 --> 00:39:20,640

i don't even want to say an intervention

990

00:39:24,630 --> 00:39:22,000

but maybe they were taught something

991

00:39:26,550 --> 00:39:24,640

that they were able to then utilize

992

00:39:28,390 --> 00:39:26,560

i like it

993

00:39:30,310 --> 00:39:28,400

yeah it's a fascinating

994

00:39:32,710 --> 00:39:30,320

topic and it's always i think like

995

00:39:34,790 --> 00:39:32,720

intrigued me just this these common

996

00:39:36,790 --> 00:39:34,800

structures in our ancient past

997

00:39:38,790 --> 00:39:36,800

and it's strange too how our

998

00:39:40,870 --> 00:39:38,800

archaeology seemingly continues to

999

00:39:43,510 --> 00:39:40,880

discover that our civilizations are

1000

00:39:45,109 --> 00:39:43,520

older human civilization in general is

1001
00:39:47,030 --> 00:39:45,119
older than we previously thought so i

1002
00:39:49,109 --> 00:39:47,040
think what that at least tells me is

1003
00:39:51,510 --> 00:39:49,119
that we don't know nearly as much as we

1004
00:39:53,270 --> 00:39:51,520
think we know about our ancient past uh

1005
00:39:55,510 --> 00:39:53,280
we make a lot of assumptions based on

1006
00:39:57,670 --> 00:39:55,520
what scant evidence is there and we're

1007
00:39:59,430 --> 00:39:57,680
also very good at um

1008
00:40:02,150 --> 00:39:59,440
you know coming up with hypotheses to

1009
00:40:03,589 --> 00:40:02,160
kind of tie things together and uh you

1010
00:40:05,589 --> 00:40:03,599
know things that may not actually be

1011
00:40:07,670 --> 00:40:05,599
related we may make them related we're

1012
00:40:09,750 --> 00:40:07,680
just very good at doing that uh one

1013
00:40:12,470 --> 00:40:09,760

thing that i that you know the whole

1014

00:40:14,069 --> 00:40:12,480

topic though makes me think about

1015

00:40:16,710 --> 00:40:14,079

is the way in which

1016

00:40:18,390 --> 00:40:16,720

mysteries drive innovation so

1017

00:40:20,470 --> 00:40:18,400

um regardless of whether or not the

1018

00:40:21,910 --> 00:40:20,480

technologies may or may not be like from

1019

00:40:23,589 --> 00:40:21,920

the same source

1020

00:40:25,750 --> 00:40:23,599

what i think is is really interesting

1021

00:40:27,670 --> 00:40:25,760

about them is the way in which the

1022

00:40:29,430 --> 00:40:27,680

existence of them

1023

00:40:32,470 --> 00:40:29,440

their their very existence sort of

1024

00:40:34,710 --> 00:40:32,480

challenges the human mind to

1025

00:40:36,710 --> 00:40:34,720

to stretch beyond its normal parameters

1026
00:40:38,069 --> 00:40:36,720
you know so these are giant structures

1027
00:40:41,030 --> 00:40:38,079
acquiring tremendous feats of

1028
00:40:43,589 --> 00:40:41,040
engineering mathematics geometry

1029
00:40:45,990 --> 00:40:43,599
there's astronomical alignments and so

1030
00:40:48,230 --> 00:40:46,000
just by the virtue of them existing

1031
00:40:50,390 --> 00:40:48,240
we are looking at them and going huh

1032
00:40:51,910 --> 00:40:50,400
like what does this mean you know and so

1033
00:40:54,309 --> 00:40:51,920
then you have all of these sort of

1034
00:40:56,470 --> 00:40:54,319
theories and sciences basically that

1035
00:40:57,430 --> 00:40:56,480
kind of spin out of just asking that

1036
00:40:59,750 --> 00:40:57,440
question

1037
00:41:02,069 --> 00:40:59,760
and so it's it sort of makes you think

1038
00:41:04,390 --> 00:41:02,079

about artifacts in general so anytime

1039

00:41:06,550 --> 00:41:04,400

you stumble across an artifact that you

1040

00:41:09,270 --> 00:41:06,560

don't know what its real purpose is

1041

00:41:11,589 --> 00:41:09,280

you know our minds are then tuned toward

1042

00:41:13,270 --> 00:41:11,599

coming up with things for it you know

1043

00:41:15,109 --> 00:41:13,280

and those things may have nothing to do

1044

00:41:17,990 --> 00:41:15,119

with what it actually was for but may

1045

00:41:20,069 --> 00:41:18,000

end up creating new science so it's it's

1046

00:41:21,109 --> 00:41:20,079

this uh in a way it's like this like

1047

00:41:23,750 --> 00:41:21,119

catalyst

1048

00:41:25,670 --> 00:41:23,760

to future discovery and what if it's

1049

00:41:27,510 --> 00:41:25,680

left for that very purpose like just to

1050

00:41:31,430 --> 00:41:27,520

kind of like tantalize us and intrigue

1051

00:41:34,790 --> 00:41:32,550

great one

1052

00:41:36,390 --> 00:41:34,800

bravo nathan i there's a lot of meat on

1053

00:41:40,150 --> 00:41:36,400

the bone there for me but it's not my

1054

00:41:42,950 --> 00:41:40,160

turn it is the turn however of

1055

00:41:45,430 --> 00:41:42,960

can i use one can i just one thing i

1056

00:41:47,030 --> 00:41:45,440

just want you you're gonna have go backs

1057

00:41:49,750 --> 00:41:47,040

okay i just want to make sure people

1058

00:41:52,630 --> 00:41:49,760

didn't misunderstand my actual final

1059

00:41:55,270 --> 00:41:52,640

hypothesis oh it wasn't that it was

1060

00:41:58,230 --> 00:41:55,280

ancient aliens i was actually leading

1061

00:42:00,390 --> 00:41:58,240

towards the ancient civilizations

1062

00:42:01,990 --> 00:42:00,400

that could have been here before us in a

1063

00:42:03,670 --> 00:42:02,000

missing history so i just want to make

1064

00:42:05,430 --> 00:42:03,680

sure i'm not misunderstood that i'm

1065

00:42:07,109 --> 00:42:05,440

assuming that aliens came in because

1066

00:42:09,670 --> 00:42:07,119

that's it right you know i'm not

1067

00:42:11,589 --> 00:42:09,680

assuming i'm not assuming that either

1068

00:42:14,710 --> 00:42:11,599

yeah i just want to make sure i'm like a

1069

00:42:16,710 --> 00:42:14,720

disclaimer yeah no it's a good reminder

1070

00:42:18,150 --> 00:42:16,720

it's natural for us to try to piece

1071

00:42:19,990 --> 00:42:18,160

things together because we don't know

1072

00:42:21,349 --> 00:42:20,000

there's no other as humans that's that's

1073

00:42:23,670 --> 00:42:21,359

what we do

1074

00:42:26,230 --> 00:42:23,680

flair is kevin what do you got first

1075

00:42:27,190 --> 00:42:26,240

brother are you there you look great i'm

1076

00:42:28,790 --> 00:42:27,200

sure

1077

00:42:30,390 --> 00:42:28,800

unmuted

1078

00:42:32,230 --> 00:42:30,400

he's on mute we'll see if he'll come

1079

00:42:36,630 --> 00:42:32,240

come in

1080

00:42:41,829 --> 00:42:37,589

we

1081

00:42:42,790 --> 00:42:41,839

wait he's wait hold on hold on maybe

1082

00:42:46,309 --> 00:42:42,800

he's here

1083

00:42:47,670 --> 00:42:46,319

i'm setting up man i had to change rooms

1084

00:42:48,870 --> 00:42:47,680

can you guys hear me

1085

00:42:50,870 --> 00:42:48,880

yes sir

1086

00:42:58,230 --> 00:42:50,880

yes we can hear you

1087

00:43:00,470 --> 00:42:59,030

sorry

1088

00:43:01,670 --> 00:43:00,480

you want us to go to dev first and come

1089

00:43:02,790 --> 00:43:01,680

back to you

1090

00:43:04,950 --> 00:43:02,800

yeah

1091

00:43:07,670 --> 00:43:04,960

all right let's do that so deb

1092

00:43:10,870 --> 00:43:07,680

you guys ready for my topic let's do it

1093

00:43:14,309 --> 00:43:10,880

okay so very similar to what tj was

1094

00:43:18,550 --> 00:43:14,319

talking about i'm also interested in the

1095

00:43:22,470 --> 00:43:18,560

body and the electrical aspect because

1096

00:43:23,910 --> 00:43:22,480

when we talk to people about c5 and

1097

00:43:26,710 --> 00:43:23,920

consciousness

1098

00:43:29,030 --> 00:43:26,720

and remote viewing and out of body that

1099

00:43:32,390 --> 00:43:29,040

seems to be an underlying

1100

00:43:33,910 --> 00:43:32,400

thing and it occurs to me that we may be

1101

00:43:37,589 --> 00:43:33,920

somewhat like

1102

00:43:40,309 --> 00:43:37,599

beacons or antenna that are attracting

1103

00:43:42,790 --> 00:43:40,319

the phenomenon to us and i actually

1104

00:43:45,270 --> 00:43:42,800

watched some videos about it

1105

00:43:48,550 --> 00:43:45,280

um i've watched videos where they talked

1106

00:43:49,910 --> 00:43:48,560

about how we actually emit photons

1107

00:43:51,990 --> 00:43:49,920

from our body

1108

00:43:53,670 --> 00:43:52,000

and they did research to see

1109

00:43:55,109 --> 00:43:53,680

the points in the body without this

1110

00:43:57,270 --> 00:43:55,119

light comes out

1111

00:43:58,950 --> 00:43:57,280

i watched videos about something called

1112

00:44:01,349 --> 00:43:58,960

a bio field

1113

00:44:03,190 --> 00:44:01,359

where there's space around us about six

1114

00:44:06,309 --> 00:44:03,200

feet out

1115

00:44:08,550 --> 00:44:06,319

that is uh indicated is you know of

1116

00:44:10,630 --> 00:44:08,560

being emitted from our bodies

1117

00:44:12,710 --> 00:44:10,640

so we're like little antennas walking

1118

00:44:14,790 --> 00:44:12,720

around and i'm wondering

1119

00:44:17,510 --> 00:44:14,800

you know of course if that can attract

1120

00:44:19,670 --> 00:44:17,520

the phenomenon or if that can be used in

1121

00:44:21,109 --> 00:44:19,680

a way to communicate

1122

00:44:23,349 --> 00:44:21,119

or if that's even what they're

1123

00:44:24,870 --> 00:44:23,359

interested in in the first place because

1124

00:44:25,750 --> 00:44:24,880

you know there's been conversations

1125

00:44:28,309 --> 00:44:25,760

about

1126

00:44:30,870 --> 00:44:28,319

are they seeking something from us

1127

00:44:33,990 --> 00:44:30,880

um and is it something like that that's

1128

00:44:35,670 --> 00:44:34,000

kind of attracting their attention

1129

00:44:39,430 --> 00:44:35,680

so that's that's what i have to say

1130

00:44:44,870 --> 00:44:41,670

all right deb uh you know

1131

00:44:47,270 --> 00:44:44,880

fantastic i'm not sure what to do

1132

00:44:48,150 --> 00:44:47,280

with chris's topic but i love it

1133

00:44:51,030 --> 00:44:48,160

uh

1134

00:44:52,950 --> 00:44:51,040

flair you're back we can see you

1135

00:44:55,109 --> 00:44:52,960

um

1136

00:44:57,589 --> 00:44:55,119

yeah yes we can yeah you're not oh this

1137

00:44:59,990 --> 00:44:57,599

is great we just we just got struck with

1138

00:45:02,069 --> 00:45:00,000

gold okay um

1139

00:45:03,030 --> 00:45:02,079

okay the only way i can think to do this

1140

00:45:05,109 --> 00:45:03,040

nathan

1141

00:45:06,710 --> 00:45:05,119

is that flare's gonna have to do his

1142

00:45:08,150 --> 00:45:06,720

topic i think i think that's why we

1143

00:45:10,630 --> 00:45:08,160

should do it okay

1144

00:45:12,710 --> 00:45:10,640

flareous maximus man

1145

00:45:14,230 --> 00:45:12,720

you are on brother all right we're

1146

00:45:15,270 --> 00:45:14,240

you're okay

1147

00:45:16,230 --> 00:45:15,280

okay

1148

00:45:23,750 --> 00:45:16,240

my turn

1149

00:45:27,829 --> 00:45:25,589

i'm not really on right now

1150

00:45:32,069 --> 00:45:27,839

okay you have to give me a second

1151

00:45:36,309 --> 00:45:34,069

going good how are you flair it's so

1152

00:45:39,030 --> 00:45:36,319

good to see you and actually i think

1153

00:45:40,790 --> 00:45:39,040

we're going to hear you i think

1154

00:45:42,790 --> 00:45:40,800

i hope so

1155

00:45:44,950 --> 00:45:42,800

we hear you

1156

00:45:47,750 --> 00:45:44,960

you hear me loud and clear okay sure

1157

00:45:48,470 --> 00:45:47,760

screen

1158

00:45:50,870 --> 00:45:48,480

we're

1159

00:45:56,230 --> 00:45:53,510

so today i'm talking about gabe

1160

00:45:56,240 --> 00:46:02,150

so here's can you all see this

1161

00:46:06,630 --> 00:46:04,470

all right cool can you hear me testing

1162

00:46:10,470 --> 00:46:06,640

testing

1163

00:46:10,480 --> 00:46:13,190

you can't

1164

00:46:15,829 --> 00:46:15,030

no you're good go yeah

1165

00:46:20,630 --> 00:46:15,839

oh

1166

00:46:23,349 --> 00:46:20,640

back to the last ice age and it is

1167

00:46:26,630 --> 00:46:23,359

approximately you know 12 000 years old

1168

00:46:28,870 --> 00:46:26,640

some people say 10 11. it is 6 000 years

1169

00:46:30,630 --> 00:46:28,880

older than stonehenge okay the reason

1170

00:46:34,390 --> 00:46:30,640

why i think it's interesting is because

1171

00:46:36,630 --> 00:46:34,400

it rewrites history okay because the the

1172

00:46:38,950 --> 00:46:36,640

quakademics say that humans were

1173

00:46:41,349 --> 00:46:38,960

hunter-gatherers at the time not capable

1174

00:46:43,589 --> 00:46:41,359

of building 20-ton megaliths

1175

00:46:44,710 --> 00:46:43,599

they had like stone tools i'm like yeah

1176

00:46:47,109 --> 00:46:44,720

you're not going to build those with

1177

00:46:49,589 --> 00:46:47,119

stone tools so my question is who was

1178

00:46:50,630 --> 00:46:49,599

building megaliths during the last ice

1179

00:46:52,390 --> 00:46:50,640

age

1180

00:46:55,270 --> 00:46:52,400

all right

1181

00:47:00,069 --> 00:46:55,280

so i'm going to go on to the next screen

1182

00:47:04,150 --> 00:47:02,550

with the ufos and the uh no we don't see

1183

00:47:07,750 --> 00:47:04,160

that one

1184

00:47:11,750 --> 00:47:07,760

re-share like the next image or the next

1185

00:47:22,950 --> 00:47:11,760

all right i'll figure this out

1186

00:47:25,670 --> 00:47:24,470

page two

1187

00:47:28,230 --> 00:47:25,680

see what i

1188

00:47:30,950 --> 00:47:28,240

i use some really high technology okay

1189

00:47:32,630 --> 00:47:30,960

very high tech freeware

1190

00:47:34,790 --> 00:47:32,640

what i did is i landed

1191

00:47:36,390 --> 00:47:34,800

i put a roof on it because you know i

1192

00:47:38,630 --> 00:47:36,400

theorized it

1193

00:47:41,270 --> 00:47:38,640

probably has a roof and it just so

1194

00:47:45,270 --> 00:47:41,280

happens that that roof looks like a ufo

1195

00:47:49,430 --> 00:47:46,950

right i'm luck i'm glad you went with

1196

00:47:50,230 --> 00:47:49,440

the metal roof though yeah yeah durable

1197

00:48:01,990 --> 00:47:50,240

right

1198

00:48:04,829 --> 00:48:02,950

so

1199

00:48:07,270 --> 00:48:04,839

zoomed out can you see the next slide

1200

00:48:12,549 --> 00:48:10,710

uh no but here again kevin i actually

1201
00:48:14,470 --> 00:48:12,559
got you covered so let me let me do it

1202
00:48:20,790 --> 00:48:14,480
i'm gonna i can i can share for you i

1203
00:48:27,109 --> 00:48:22,670
you can just say slide slide

1204
00:48:30,230 --> 00:48:27,119
[Laughter]

1205
00:48:32,950 --> 00:48:30,240
so here you go so side view so i i doubt

1206
00:48:35,829 --> 00:48:32,960
you know with the ufo

1207
00:48:37,589 --> 00:48:35,839
it looks really familiar to me i mean

1208
00:48:39,270 --> 00:48:37,599
do you guys see who this might be

1209
00:48:40,790 --> 00:48:39,280
i'm saying like

1210
00:48:43,030 --> 00:48:40,800
go beckley tepee

1211
00:48:44,790 --> 00:48:43,040
i'm seeing a connection here maybe

1212
00:48:48,069 --> 00:48:44,800
maybe a restroom maybe an ancient

1213
00:48:49,829 --> 00:48:48,079

restroom okay next side please

1214

00:48:50,549 --> 00:48:49,839

it's right outside albuquerque i've been

1215

00:48:51,910 --> 00:48:50,559

there

1216

00:48:53,030 --> 00:48:51,920

sorry oh that's the wrong slide what did

1217

00:48:56,710 --> 00:48:53,040

i do

1218

00:49:01,750 --> 00:48:59,430

this one oh here we go

1219

00:49:03,349 --> 00:49:01,760

so we got proof on the pillars you've

1220

00:49:04,950 --> 00:49:03,359

got one pillar you know he's holding his

1221

00:49:07,270 --> 00:49:04,960

stomach you know that's the universal

1222

00:49:08,630 --> 00:49:07,280

sign for i gotta use

1223

00:49:10,069 --> 00:49:08,640

the head

1224

00:49:13,270 --> 00:49:10,079

right

1225

00:49:14,870 --> 00:49:13,280

we got another pillar maybe come i mean

1226

00:49:16,950 --> 00:49:14,880

another slide coming up do you have

1227

00:49:19,109 --> 00:49:16,960

another is it the last one that i had is

1228

00:49:21,270 --> 00:49:19,119

it this one oh

1229

00:49:23,510 --> 00:49:21,280

okay well we might be missing a slide

1230

00:49:28,470 --> 00:49:23,520

[Laughter]

1231

00:49:31,990 --> 00:49:30,549

i have to use our imaginations on those

1232

00:49:33,829 --> 00:49:32,000

this was my first flying saucer i

1233

00:49:36,230 --> 00:49:33,839

thought that was really cool

1234

00:49:39,270 --> 00:49:36,240

that is very cool yeah okay

1235

00:49:40,390 --> 00:49:39,280

that's my theory when when we go back

1236

00:49:42,470 --> 00:49:40,400

i'll show you the rest of my slides when

1237

00:49:44,790 --> 00:49:42,480

we do call back so

1238

00:49:45,750 --> 00:49:44,800

go back yeah turn go backs we can hit it

1239

00:49:48,080 --> 00:49:45,760

up

1240

00:49:49,430 --> 00:49:48,090

oh my god all right deb you go first

1241

00:49:51,670 --> 00:49:49,440

[Laughter]

1242

00:49:53,190 --> 00:49:51,680

the the go beckley tempe as a bathroom

1243

00:49:55,349 --> 00:49:53,200

you say what did yes

1244

00:49:57,349 --> 00:49:55,359

now it's true we do actually seem to

1245

00:50:01,589 --> 00:49:57,359

really have a thing for that shape and

1246

00:50:05,829 --> 00:50:04,230

the pagodas often have that shape on the

1247

00:50:07,670 --> 00:50:05,839

top

1248

00:50:09,190 --> 00:50:07,680

that's a good point

1249

00:50:14,710 --> 00:50:09,200

they do

1250

00:50:18,870 --> 00:50:17,270

so i so you are you are deb just so i

1251
00:50:21,510 --> 00:50:18,880
get being that you're yielding your time

1252
00:50:23,430 --> 00:50:21,520
to me you are ready to accept that go

1253
00:50:26,549 --> 00:50:23,440
beckley tempe was nothing more than an

1254
00:50:29,030 --> 00:50:26,559
ancient bathroom by the side of route 40

1255
00:50:31,349 --> 00:50:29,040
in albuquerque i'm just saying that

1256
00:50:33,910 --> 00:50:31,359
there is a pattern we do really like

1257
00:50:35,910 --> 00:50:33,920
that shape that's all i can say

1258
00:50:38,470 --> 00:50:35,920
kevin i i don't know you've you've wowed

1259
00:50:41,349 --> 00:50:38,480
us once again you've you've left me i

1260
00:50:43,190 --> 00:50:41,359
feel like for klimt again um i never

1261
00:50:44,549 --> 00:50:43,200
thought you know since whatever chris

1262
00:50:49,589 --> 00:50:44,559
has told me i never thought of go

1263
00:50:51,829 --> 00:50:49,599

beckley tepee could be a facility for

1264

00:50:53,030 --> 00:50:51,839

relieving once nathan

1265

00:50:55,109 --> 00:50:53,040

i don't know how to say it but the

1266

00:50:56,390 --> 00:50:55,119

facilities yeah it's certainly possible

1267

00:50:58,950 --> 00:50:56,400

it's certainly possible i yield the

1268

00:51:01,670 --> 00:50:58,960

balance of my time to nathan

1269

00:51:04,549 --> 00:51:01,680

i think it's i think it's fantastic uh i

1270

00:51:07,190 --> 00:51:04,559

think uh in fact i've seen uh not with

1271

00:51:08,630 --> 00:51:07,200

go beckley teppy perhaps but with uh

1272

00:51:11,270 --> 00:51:08,640

stonehenge

1273

00:51:13,990 --> 00:51:11,280

uh some artistic renderings that it they

1274

00:51:16,710 --> 00:51:14,000

think it did have a roof

1275

00:51:17,589 --> 00:51:16,720

of some kind uh metal or not metal but a

1276

00:51:19,190 --> 00:51:17,599

wooden

1277

00:51:23,270 --> 00:51:19,200

structured kind of

1278

00:51:26,150 --> 00:51:23,280

cloth type roof on it so uh and surely a

1279

00:51:28,230 --> 00:51:26,160

structure of that size uh or this size

1280

00:51:29,270 --> 00:51:28,240

would have needed a restroom right i

1281

00:51:31,109 --> 00:51:29,280

mean

1282

00:51:33,349 --> 00:51:31,119

come on absolutely come on

1283

00:51:35,190 --> 00:51:33,359

and a full day of rituals and you're not

1284

00:51:36,630 --> 00:51:35,200

gonna take a bathroom break i mean

1285

00:51:38,390 --> 00:51:36,640

seriously

1286

00:51:40,390 --> 00:51:38,400

so it's at least

1287

00:51:41,190 --> 00:51:40,400

what do you think invented restrooms

1288

00:51:43,510 --> 00:51:41,200

the

1289

00:51:45,910 --> 00:51:43,520

corruption of nathan is complete he is

1290

00:51:47,510 --> 00:51:45,920

totally bought into the street

1291

00:51:51,030 --> 00:51:47,520

you know i think it's a very plausible

1292

00:51:53,270 --> 00:51:51,040

theory and i'm here for it so

1293

00:51:55,990 --> 00:51:53,280

cool you've done a fantastic job

1294

00:51:58,069 --> 00:51:56,000

uh oh man akashi chris

1295

00:51:59,589 --> 00:51:58,079

who is better played

1296

00:52:01,670 --> 00:51:59,599

i'm sorry nathan i didn't mean to catch

1297

00:52:03,270 --> 00:52:01,680

up no no you're you keep no you you i

1298

00:52:05,829 --> 00:52:03,280

yield the balance of my time chris

1299

00:52:07,190 --> 00:52:05,839

please take that all righty then

1300

00:52:08,640 --> 00:52:07,200

my friend

1301
00:52:11,589 --> 00:52:08,650
um former friend

1302
00:52:12,950 --> 00:52:11,599
[Laughter]

1303
00:52:16,630 --> 00:52:12,960
actually

1304
00:52:18,870 --> 00:52:16,640
um um so my opinion of go back later but

1305
00:52:21,190 --> 00:52:18,880
it's just a little bit different but

1306
00:52:23,270 --> 00:52:21,200
because i am very open-minded i'm

1307
00:52:26,309 --> 00:52:23,280
willing to see kind of a morphing of two

1308
00:52:28,870 --> 00:52:26,319
ideas since we made such a great team so

1309
00:52:30,630 --> 00:52:28,880
um first of all i believe the spirals

1310
00:52:34,549 --> 00:52:30,640
are not really the bathrooms although i

1311
00:52:36,950 --> 00:52:34,559
do see how you know in rural areas a lot

1312
00:52:39,270 --> 00:52:36,960
of the bathrooms are in that spiral mode

1313
00:52:42,470 --> 00:52:39,280

like outside restrooms

1314

00:52:45,589 --> 00:52:42,480

so i i can i can

1315

00:52:48,950 --> 00:52:45,599

open my mind to that very open minded

1316

00:52:51,030 --> 00:52:48,960

um i believe now here's another fun fact

1317

00:52:56,069 --> 00:52:51,040

from the vulture stone which is pillar

1318

00:52:59,270 --> 00:52:56,079

43 and enclosure d when you crouch there

1319

00:53:01,750 --> 00:52:59,280

you can actually see deneb which is part

1320

00:53:03,750 --> 00:53:01,760

of the cygnus constellation so i'm

1321

00:53:06,069 --> 00:53:03,760

thinking about taking your theory and

1322

00:53:09,190 --> 00:53:06,079

saying take the roof off the

1323

00:53:12,950 --> 00:53:09,200

entertainment for the bathroom was the

1324

00:53:17,510 --> 00:53:12,960

stars so maybe it was a restroom and an

1325

00:53:22,549 --> 00:53:21,190

this is this is way out of bound heretic

1326
00:53:25,270 --> 00:53:22,559
heritage

1327
00:53:26,630 --> 00:53:25,280
you know what hennessey

1328
00:53:37,440 --> 00:53:26,640
orion didn't have a

1329
00:53:37,450 --> 00:53:41,270
[Music]

1330
00:53:45,990 --> 00:53:43,829
i could think about that oh man i stick

1331
00:53:47,510 --> 00:53:46,000
to more observatory but maybe they had

1332
00:53:49,750 --> 00:53:47,520
to use it as a bathroom while they were

1333
00:53:51,349 --> 00:53:49,760
looking at stars maybe that's the way

1334
00:53:52,710 --> 00:53:51,359
that we just vultures

1335
00:53:54,069 --> 00:53:52,720
it together

1336
00:53:57,190 --> 00:53:54,079
yeah the vultures the vultures and

1337
00:53:58,870 --> 00:53:57,200
vulture stone are squatting

1338
00:54:00,710 --> 00:53:58,880

the voltage of the vulture stone might

1339

00:54:02,710 --> 00:54:00,720

be a constellation we'll do that one in

1340

00:54:04,470 --> 00:54:02,720

the next time

1341

00:54:06,870 --> 00:54:04,480

there's only two people that have been

1342

00:54:09,190 --> 00:54:06,880

on this show that have made my face hurt

1343

00:54:12,230 --> 00:54:09,200

and it's akashi chris and grant with the

1344

00:54:14,950 --> 00:54:12,240

fakies and flair pretty much every time

1345

00:54:17,270 --> 00:54:14,960

that my face hurts from laughing

1346

00:54:19,910 --> 00:54:17,280

oh my goodness that was great thank you

1347

00:54:23,589 --> 00:54:19,920

so much man yes uh great job steven

1348

00:54:24,630 --> 00:54:23,599

grier flair our very own kev

1349

00:54:29,190 --> 00:54:24,640

deb

1350

00:54:31,030 --> 00:54:29,200

we didn't get to well we we

1351

00:54:32,630 --> 00:54:31,040

kind of it was my fault it was my fault

1352

00:54:35,670 --> 00:54:32,640

deb i i said you could introduce it but

1353

00:54:37,510 --> 00:54:35,680

really your time was for responding to

1354

00:54:39,430 --> 00:54:37,520

akashi's topic but

1355

00:54:41,510 --> 00:54:39,440

uh we'll give you both now so would you

1356

00:54:42,549 --> 00:54:41,520

like to respond to yes matter and then

1357

00:54:44,630 --> 00:54:42,559

kick it off

1358

00:54:46,789 --> 00:54:44,640

okay yeah now i understand okay i

1359

00:54:48,630 --> 00:54:46,799

thought i'd already gotten to respond

1360

00:54:51,190 --> 00:54:48,640

but i definitely had something else i

1361

00:54:53,750 --> 00:54:51,200

wanted to say that i was gonna add that

1362

00:54:56,870 --> 00:54:53,760

i was jealous because if ancient

1363

00:54:58,950 --> 00:54:56,880

civilizations were being helped

1364

00:55:00,150 --> 00:54:58,960

you know in any way by

1365

00:55:02,470 --> 00:55:00,160

visitors

1366

00:55:04,069 --> 00:55:02,480

why are we not getting that help now and

1367

00:55:07,030 --> 00:55:04,079

this is something i've thought of a few

1368

00:55:08,870 --> 00:55:07,040

times like why do we not have that

1369

00:55:12,150 --> 00:55:08,880

direct help

1370

00:55:14,230 --> 00:55:12,160

like do they just so far from trusting

1371

00:55:15,589 --> 00:55:14,240

us right now that they don't want to you

1372

00:55:17,829 --> 00:55:15,599

know that's that's something that i've

1373

00:55:19,270 --> 00:55:17,839

considered a few times that was the only

1374

00:55:21,750 --> 00:55:19,280

other thing i was gonna

1375

00:55:23,510 --> 00:55:21,760

try to add but i mean i do think you

1376

00:55:25,910 --> 00:55:23,520

know there's a potential

1377

00:55:28,390 --> 00:55:25,920

to go along the theory that you know

1378

00:55:30,710 --> 00:55:28,400

like the atlanteans kind of theory that

1379

00:55:32,870 --> 00:55:30,720

there was an ancient civilization it's

1380

00:55:35,589 --> 00:55:32,880

it's also part of that crypto

1381

00:55:36,549 --> 00:55:35,599

terrestrial concept that we may have had

1382

00:55:40,309 --> 00:55:36,559

a common

1383

00:55:42,549 --> 00:55:40,319

ancestor right that evolved separated

1384

00:55:44,549 --> 00:55:42,559

from us and hid from us

1385

00:55:46,829 --> 00:55:44,559

which is an odd thing to think about too

1386

00:55:49,750 --> 00:55:46,839

like why would they do that

1387

00:55:51,910 --> 00:55:49,760

so it's just you know it's left to

1388

00:55:54,230 --> 00:55:51,920

brainstorm you really wonder and you

1389

00:55:56,710 --> 00:55:54,240

wish you could be back there and

1390

00:55:59,349 --> 00:55:56,720

be a part of that but yeah i actually

1391

00:56:02,870 --> 00:55:59,359

thought that i was presenting my topic

1392

00:56:06,309 --> 00:56:02,880

earlier um and that's why i was talking

1393

00:56:08,549 --> 00:56:06,319

about the beacon and the energy

1394

00:56:10,630 --> 00:56:08,559

um and i was

1395

00:56:13,829 --> 00:56:10,640

sort of addressing the fact that i think

1396

00:56:16,309 --> 00:56:13,839

that we're kind of like antenna

1397

00:56:18,950 --> 00:56:16,319

deb i apologize we got really confused

1398

00:56:21,109 --> 00:56:18,960

because of the technological issues we

1399

00:56:22,230 --> 00:56:21,119

had to jump around normally what would

1400

00:56:23,829 --> 00:56:22,240

happen was

1401
00:56:24,950 --> 00:56:23,839
you see the circle that you're seeing

1402
00:56:27,270 --> 00:56:24,960
right here

1403
00:56:29,030 --> 00:56:27,280
is that flair would have uh

1404
00:56:31,270 --> 00:56:29,040
given his topic and then you would

1405
00:56:33,030 --> 00:56:31,280
responded and then you would have given

1406
00:56:36,069 --> 00:56:33,040
yours and i would have responded i would

1407
00:56:38,069 --> 00:56:36,079
give mine nathan etc well it you know we

1408
00:56:40,150 --> 00:56:38,079
got jumbled up so i apologize i didn't

1409
00:56:41,670 --> 00:56:40,160
realize that you were giving your topic

1410
00:56:42,710 --> 00:56:41,680
so anyway

1411
00:56:44,710 --> 00:56:42,720
um

1412
00:56:47,510 --> 00:56:44,720
it's interesting that your topic goes

1413
00:56:48,789 --> 00:56:47,520

right into nathan's topic uh and ties

1414

00:56:50,470 --> 00:56:48,799

right into it

1415

00:56:53,829 --> 00:56:50,480

uh personally

1416

00:56:56,230 --> 00:56:53,839

i think the atlanteans theory or the

1417

00:56:59,109 --> 00:56:56,240

theory that there's another

1418

00:57:01,349 --> 00:56:59,119

sort of

1419

00:57:04,870 --> 00:57:01,359

a race of people like us but they're

1420

00:57:07,030 --> 00:57:04,880

hiding somewhere like uh under the water

1421

00:57:09,589 --> 00:57:07,040

or in the earth that are not

1422

00:57:11,750 --> 00:57:09,599

that are 21st century like us that are

1423

00:57:12,390 --> 00:57:11,760

you know procreating so on and so forth

1424

00:57:15,349 --> 00:57:12,400

i

1425

00:57:18,549 --> 00:57:15,359

me

1426

00:57:20,630 --> 00:57:18,559

but uh possibly the future us or

1427

00:57:23,349 --> 00:57:20,640

something i i can

1428

00:57:24,390 --> 00:57:23,359

you know i i can sign on to that theory

1429

00:57:26,470 --> 00:57:24,400

uh

1430

00:57:27,910 --> 00:57:26,480

but it's a very interesting topic and i

1431

00:57:29,750 --> 00:57:27,920

think that uh

1432

00:57:31,829 --> 00:57:29,760

they obviously

1433

00:57:34,069 --> 00:57:31,839

obviously they have to take a very close

1434

00:57:35,829 --> 00:57:34,079

look at at what we're doing and make a

1435

00:57:37,990 --> 00:57:35,839

decision as to

1436

00:57:40,309 --> 00:57:38,000

uh going back in because you're in

1437

00:57:42,549 --> 00:57:40,319

nathan's point kind of ties together as

1438

00:57:45,190 --> 00:57:42,559

to what they would want to share with us

1439

00:57:46,470 --> 00:57:45,200

and i yield the balance of my time to uh

1440

00:57:48,390 --> 00:57:46,480

nathan

1441

00:57:49,990 --> 00:57:48,400

cool yeah so

1442

00:57:51,829 --> 00:57:50,000

deb the biofield thing was really

1443

00:57:53,510 --> 00:57:51,839

interesting um

1444

00:57:55,030 --> 00:57:53,520

and um

1445

00:57:57,349 --> 00:57:55,040

and there's a lot that kind of comes to

1446

00:57:58,950 --> 00:57:57,359

mind from that so like like think of it

1447

00:58:00,390 --> 00:57:58,960

like this too it's like if we do have a

1448

00:58:02,470 --> 00:58:00,400

bio field

1449

00:58:04,150 --> 00:58:02,480

which as you suggested some science has

1450

00:58:06,230 --> 00:58:04,160

started to take a look at and it kind of

1451
00:58:08,789 --> 00:58:06,240
emanates around us

1452
00:58:10,710 --> 00:58:08,799
if we're within any kind of proximity of

1453
00:58:12,470 --> 00:58:10,720
that field with one another our fields

1454
00:58:15,990 --> 00:58:12,480
may have some sort of

1455
00:58:17,990 --> 00:58:16,000
coherence or linkage or connectivity

1456
00:58:18,870 --> 00:58:18,000
what if we're like able to network in a

1457
00:58:20,390 --> 00:58:18,880
way

1458
00:58:21,990 --> 00:58:20,400
where we're kind of not even aware that

1459
00:58:23,270 --> 00:58:22,000
we are you know what if we're having

1460
00:58:24,630 --> 00:58:23,280
that kind of you've all been like in a

1461
00:58:25,589 --> 00:58:24,640
meeting where you're kind of having that

1462
00:58:28,950 --> 00:58:25,599
like

1463
00:58:30,470 --> 00:58:28,960

getting onto the same page or if you

1464

00:58:32,390 --> 00:58:30,480

spend enough time with the same people

1465

00:58:33,349 --> 00:58:32,400

you start getting onto the same page and

1466

00:58:34,549 --> 00:58:33,359

you kind of complete each other's

1467

00:58:36,309 --> 00:58:34,559

sentences or

1468

00:58:39,030 --> 00:58:36,319

and so what what's really going on there

1469

00:58:41,270 --> 00:58:39,040

beyond just that kind of shared uh time

1470

00:58:42,789 --> 00:58:41,280

together and shared language that you

1471

00:58:44,789 --> 00:58:42,799

sort of build is there really something

1472

00:58:46,630 --> 00:58:44,799

that's happening below the surface

1473

00:58:48,069 --> 00:58:46,640

and two i guess our quantum science is

1474

00:58:50,150 --> 00:58:48,079

now sort of saying

1475

00:58:52,630 --> 00:58:50,160

that material reality doesn't really

1476

00:58:54,150 --> 00:58:52,640

exist you know so there's not really uh

1477

00:58:55,190 --> 00:58:54,160

you know there's no physical matter you

1478

00:58:56,390 --> 00:58:55,200

know there's really just kind of

1479

00:58:59,829 --> 00:58:56,400

vibration

1480

00:59:01,829 --> 00:58:59,839

uh at the core sort of nature of uh of

1481

00:59:05,190 --> 00:59:01,839

what is real and so if that that's true

1482

00:59:07,270 --> 00:59:05,200

then these constructs that you know that

1483

00:59:09,109 --> 00:59:07,280

you and i and the table and you know

1484

00:59:10,710 --> 00:59:09,119

we're all kind of separate things really

1485

00:59:12,390 --> 00:59:10,720

that's not actually true in any way

1486

00:59:13,589 --> 00:59:12,400

shape or form so

1487

00:59:15,349 --> 00:59:13,599

we're

1488

00:59:17,430 --> 00:59:15,359

you know bought borrowing from donald

1489

00:59:20,309 --> 00:59:17,440

hoffman you know we're kind of we've

1490

00:59:21,990 --> 00:59:20,319

we've built these sort of senses to

1491

00:59:24,470 --> 00:59:22,000

navigate through life like they've

1492

00:59:26,630 --> 00:59:24,480

allowed us to to get through the perils

1493

00:59:28,549 --> 00:59:26,640

that exist out in the world but they're

1494

00:59:31,430 --> 00:59:28,559

not actually representations of what is

1495

00:59:32,630 --> 00:59:31,440

really real and so these uh these

1496

00:59:34,950 --> 00:59:32,640

effects that we're seeing these

1497

00:59:37,349 --> 00:59:34,960

biofields or whatnot they may be a hint

1498

00:59:39,430 --> 00:59:37,359

at what at that deeper reality that

1499

00:59:40,870 --> 00:59:39,440

we're just now starting to uncover and

1500

00:59:42,789 --> 00:59:40,880

it's really i think it's a cool time to

1501

00:59:45,109 --> 00:59:42,799

be alive to where quantum science is

1502

00:59:47,910 --> 00:59:45,119

starting to kind of bring into our our

1503

00:59:50,390 --> 00:59:47,920

regular science these notions that um

1504

00:59:52,150 --> 00:59:50,400

for so long have been you know kind of

1505

00:59:54,069 --> 00:59:52,160

out there in our spiritual traditions

1506

00:59:55,430 --> 00:59:54,079

but not in our our scientific ones and

1507

00:59:57,270 --> 00:59:55,440

so we're kind of now actually looking at

1508

00:59:59,829 --> 00:59:57,280

those spiritual things again with fresh

1509

01:00:02,390 --> 00:59:59,839

eyes and saying hey maybe maybe our our

1510

01:00:03,990 --> 01:00:02,400

ancient ancestors really knew something

1511

01:00:05,990 --> 01:00:04,000

they couldn't articulate it in the way

1512

01:00:08,549 --> 01:00:06,000

that our science could do so now but

1513

01:00:10,390 --> 01:00:08,559

they they were in tune with it uh in a

1514

01:00:12,549 --> 01:00:10,400

very powerful way and we're maybe just

1515

01:00:14,470 --> 01:00:12,559

now coming around to that

1516

01:00:16,950 --> 01:00:14,480

and and what's interesting uh with

1517

01:00:19,589 --> 01:00:16,960

nathan said akashi when you talk about

1518

01:00:21,430 --> 01:00:19,599

vibrations we're back to frequency again

1519

01:00:22,950 --> 01:00:21,440

and when we're back to frequency then

1520

01:00:24,950 --> 01:00:22,960

we're talking about

1521

01:00:27,109 --> 01:00:24,960

you know we could possibly be talking

1522

01:00:29,030 --> 01:00:27,119

about bioelectrics so we'll get back

1523

01:00:30,789 --> 01:00:29,040

we'll get to that stuff in the go back

1524

01:00:33,510 --> 01:00:30,799

portion because we're finding a lot of

1525

01:00:34,950 --> 01:00:33,520

synthesis in one another's points so you

1526

01:00:38,950 --> 01:00:34,960

respond to deb

1527

01:00:40,710 --> 01:00:38,960

how how how how how

1528

01:00:42,870 --> 01:00:40,720

yeah chris that's your time i think yeah

1529

01:00:45,510 --> 01:00:42,880

oh is it my time

1530

01:00:46,950 --> 01:00:45,520

i didn't know like i said chris

1531

01:00:48,710 --> 01:00:46,960

oh i'm not going to get anywhere i don't

1532

01:00:51,990 --> 01:00:48,720

know what you're talking to

1533

01:00:53,990 --> 01:00:52,000

um so it's still deb and so back back to

1534

01:00:55,829 --> 01:00:54,000

one point you were talking about now i

1535

01:00:57,910 --> 01:00:55,839

want to kind of expand on it so as far

1536

01:00:59,990 --> 01:00:57,920

as the hub is concerned

1537

01:01:02,150 --> 01:01:00,000

it's like if we're all hubs to this

1538

01:01:04,549 --> 01:01:02,160

major network connection

1539

01:01:06,549 --> 01:01:04,559

then that definitely goes right along

1540

01:01:08,630 --> 01:01:06,559

with everything else you know and kind

1541

01:01:11,750 --> 01:01:08,640

of aligns in a little bit different way

1542

01:01:13,670 --> 01:01:11,760

but still with all the other protocols

1543

01:01:14,789 --> 01:01:13,680

that we're talking about because whether

1544

01:01:16,630 --> 01:01:14,799

it's through

1545

01:01:18,789 --> 01:01:16,640

consciousness

1546

01:01:20,870 --> 01:01:18,799

or you know if there is a physical

1547

01:01:23,750 --> 01:01:20,880

connection that's sitting underneath

1548

01:01:25,109 --> 01:01:23,760

that conscious connection then there's

1549

01:01:27,990 --> 01:01:25,119

your hub

1550

01:01:30,470 --> 01:01:28,000

we're the hub each one of us everything

1551
01:01:33,750 --> 01:01:30,480
in our bodies you know everything around

1552
01:01:36,549 --> 01:01:33,760
us you know is part of it right so

1553
01:01:38,230 --> 01:01:36,559
am i kind of i mean am i kind of off on

1554
01:01:41,030 --> 01:01:38,240
that where you were talking about the

1555
01:01:42,470 --> 01:01:41,040
hub and i can't answer it back and forth

1556
01:01:44,870 --> 01:01:42,480
questions so i'll just you could yield

1557
01:01:46,309 --> 01:01:44,880
some of your time to devin yes deb can

1558
01:01:48,390 --> 01:01:46,319
you tell me a little bit about the hub

1559
01:01:51,430 --> 01:01:48,400
concept well i mean i don't i don't know

1560
01:01:54,309 --> 01:01:51,440
if i've heard the term hub yet so i'm

1561
01:01:56,230 --> 01:01:54,319
curious about the origins of that right

1562
01:01:58,710 --> 01:01:56,240
but i think that's kind of what we are

1563
01:01:59,589 --> 01:01:58,720

like little batteries or maybe or like

1564

01:02:01,829 --> 01:01:59,599

you know

1565

01:02:04,150 --> 01:02:01,839

um just when you break it down we're

1566

01:02:06,390 --> 01:02:04,160

just like little atoms connected by

1567

01:02:08,390 --> 01:02:06,400

electricity so that's just so

1568

01:02:11,270 --> 01:02:08,400

fascinating to me and i wonder

1569

01:02:13,910 --> 01:02:11,280

why it is if that's the case

1570

01:02:16,470 --> 01:02:13,920

when the electricity is gone when we

1571

01:02:18,150 --> 01:02:16,480

pass away why don't we just break apart

1572

01:02:20,069 --> 01:02:18,160

like it's so fascinating i'd like to

1573

01:02:21,589 --> 01:02:20,079

understand a little bit more about that

1574

01:02:23,990 --> 01:02:21,599

you know

1575

01:02:30,549 --> 01:02:24,000

it's just a lot a lot going on

1576

01:02:39,190 --> 01:02:33,109

oh come on you cap

1577

01:02:43,029 --> 01:02:40,870

yeah okay

1578

01:02:44,870 --> 01:02:43,039

serious question for them

1579

01:02:47,510 --> 01:02:44,880

so how do you think this may tie in with

1580

01:02:49,270 --> 01:02:47,520

mental illness maybe

1581

01:02:51,270 --> 01:02:49,280

do you think maybe the connection is

1582

01:02:53,430 --> 01:02:51,280

severed or

1583

01:02:55,910 --> 01:02:53,440

not getting through all the way

1584

01:02:57,910 --> 01:02:55,920

i'm wondering what's your thing

1585

01:03:00,390 --> 01:02:57,920

there could be a lot of possibilities i

1586

01:03:03,190 --> 01:03:00,400

suppose one could be that someone's too

1587

01:03:05,029 --> 01:03:03,200

connected to this right and that they're

1588

01:03:06,789 --> 01:03:05,039

not ready to be

1589

01:03:09,430 --> 01:03:06,799

and they're having a

1590

01:03:11,750 --> 01:03:09,440

dissonance a cognitive dissonance with

1591

01:03:13,829 --> 01:03:11,760

facing it

1592

01:03:16,710 --> 01:03:13,839

you know

1593

01:03:17,910 --> 01:03:16,720

yeah an overload like they are confused

1594

01:03:19,510 --> 01:03:17,920

and maybe

1595

01:03:21,349 --> 01:03:19,520

some of the people that have been

1596

01:03:22,470 --> 01:03:21,359

treated like there was something wrong

1597

01:03:24,390 --> 01:03:22,480

with them

1598

01:03:26,789 --> 01:03:24,400

we're more connected to this basic

1599

01:03:28,870 --> 01:03:26,799

primal part of ourselves than other

1600

01:03:31,670 --> 01:03:28,880

people

1601

01:03:33,910 --> 01:03:31,680

like i'm thinking of you know in history

1602

01:03:36,870 --> 01:03:33,920

um i i can't remember her name was it

1603

01:03:38,789 --> 01:03:36,880

cassandra with a prophet you know she

1604

01:03:41,029 --> 01:03:38,799

was running around telling everyone

1605

01:03:44,309 --> 01:03:41,039

something bad was going to happen and no

1606

01:03:46,789 --> 01:03:44,319

one wanted to believe her and she was

1607

01:03:49,430 --> 01:03:46,799

judged as crazy and then even

1608

01:03:53,029 --> 01:03:49,440

uh joan of arc great same thing judge

1609

01:03:58,230 --> 01:03:55,750

so what okay

1610

01:04:02,069 --> 01:03:58,240

now you still no continue continue 45

1611

01:04:05,510 --> 01:04:03,829

i'll keep going no i can't steal my time

1612

01:04:07,829 --> 01:04:05,520

yeah to the next part you got you still

1613

01:04:09,029 --> 01:04:07,839

got 30 more after this red thing so keep

1614

01:04:10,390 --> 01:04:09,039

going

1615

01:04:12,390 --> 01:04:10,400

okay

1616

01:04:15,109 --> 01:04:12,400

go ahead dad

1617

01:04:17,510 --> 01:04:15,119

no okay tell me i

1618

01:04:20,470 --> 01:04:17,520

yeah no if you had a f if you if you had

1619

01:04:22,630 --> 01:04:20,480

something else to say but if not then uh

1620

01:04:24,470 --> 01:04:22,640

then it is

1621

01:04:26,789 --> 01:04:24,480

my turn to respond to debt no i

1622

01:04:28,230 --> 01:04:26,799

responded to deb so you were the last

1623

01:04:30,630 --> 01:04:28,240

one so now

1624

01:04:31,340 --> 01:04:30,640

go backs time it's time for go backs so

1625

01:04:32,870 --> 01:04:31,350

um

1626

01:04:34,630 --> 01:04:32,880

[Music]

1627

01:04:36,549 --> 01:04:34,640

you know uh

1628

01:04:39,109 --> 01:04:36,559

i'll start with uh we'll just do in the

1629

01:04:40,950 --> 01:04:39,119

same order that we've been going so

1630

01:04:42,150 --> 01:04:40,960

um

1631

01:04:44,390 --> 01:04:42,160

i'll just say you know we've all

1632

01:04:47,589 --> 01:04:44,400

connected on a a bunch of different

1633

01:04:50,309 --> 01:04:47,599

points uh obviously kev's was a really

1634

01:04:53,029 --> 01:04:50,319

funny part um

1635

01:04:55,589 --> 01:04:53,039

about what akashi was talking about but

1636

01:04:58,470 --> 01:04:55,599

you know maybe there are other uses for

1637

01:05:00,549 --> 01:04:58,480

these spaces than what we thought uh we

1638

01:05:03,029 --> 01:05:00,559

really don't know anything we don't know

1639

01:05:05,589 --> 01:05:03,039

if they've received help we just don't

1640

01:05:06,950 --> 01:05:05,599

know how they were able to uh build

1641

01:05:09,910 --> 01:05:06,960

these structures

1642

01:05:11,670 --> 01:05:09,920

um and we can't figure it out today how

1643

01:05:14,069 --> 01:05:11,680

they would have how they would have

1644

01:05:17,270 --> 01:05:14,079

gotten them up there also the

1645

01:05:20,390 --> 01:05:17,280

the bicontinental uh symbols of an h

1646

01:05:21,270 --> 01:05:20,400

which you said is orion's belt

1647

01:05:24,309 --> 01:05:21,280

um

1648

01:05:26,870 --> 01:05:24,319

no no that was actually on a belt in in

1649

01:05:27,910 --> 01:05:26,880

in one of the pillars within

1650

01:05:30,230 --> 01:05:27,920

tape

1651
01:05:32,630 --> 01:05:30,240
on the belt you see that sign over and

1652
01:05:35,430 --> 01:05:32,640
over again that looks like a star the

1653
01:05:37,109 --> 01:05:35,440
physical structure is not orion's belt

1654
01:05:39,430 --> 01:05:37,119
okay i thought it said it looked like a

1655
01:05:41,910 --> 01:05:39,440
certain star okay it looks like a binary

1656
01:05:44,470 --> 01:05:41,920
star but that's within the cygnus within

1657
01:05:46,950 --> 01:05:44,480
the cygnus um constellation

1658
01:05:49,430 --> 01:05:46,960
of course one of my favorite ones

1659
01:05:53,430 --> 01:05:51,510
what i was going to say though yeah i'm

1660
01:05:54,309 --> 01:05:53,440
trying i'm still trying to figure out

1661
01:05:55,349 --> 01:05:54,319
how

1662
01:05:56,789 --> 01:05:55,359
um

1663
01:05:59,829 --> 01:05:56,799

you know how

1664

01:06:00,950 --> 01:05:59,839

we're able to transmit our consciousness

1665

01:06:04,710 --> 01:06:00,960

or to

1666

01:06:07,190 --> 01:06:04,720

uh to zero in on someone else and zero

1667

01:06:09,589 --> 01:06:07,200

in on the space and we're coming up with

1668

01:06:11,750 --> 01:06:09,599

with vibrations and and we're coming up

1669

01:06:13,109 --> 01:06:11,760

with uh frequencies and that's what

1670

01:06:14,870 --> 01:06:13,119

radios are

1671

01:06:16,470 --> 01:06:14,880

so i'm wondering if that's what they're

1672

01:06:20,230 --> 01:06:16,480

using i don't know

1673

01:06:22,789 --> 01:06:20,240

uh the only way that um we'd be able to

1674

01:06:25,589 --> 01:06:22,799

sort of test that out is uh like i said

1675

01:06:28,630 --> 01:06:25,599

if we did an experiment that was outside

1676

01:06:30,710 --> 01:06:28,640

of uh earth's earth's orbit and see if

1677

01:06:32,549 --> 01:06:30,720

we can see what uh

1678

01:06:34,230 --> 01:06:32,559

uh what an astronaut might be doing on

1679

01:06:36,470 --> 01:06:34,240

the moon then we could say oh wait a

1680

01:06:39,029 --> 01:06:36,480

minute if they can

1681

01:06:41,029 --> 01:06:39,039

remote view on the moon

1682

01:06:42,069 --> 01:06:41,039

then that means this could happen

1683

01:06:45,029 --> 01:06:42,079

anywhere

1684

01:06:46,470 --> 01:06:45,039

and that that would really open up the

1685

01:06:48,390 --> 01:06:46,480

discussion so hopefully they're going to

1686

01:06:51,029 --> 01:06:48,400

do an experiment like that

1687

01:06:53,190 --> 01:06:51,039

um that's the only go back i had nathan

1688

01:06:55,190 --> 01:06:53,200

what do you have sir yeah well i do love

1689

01:06:57,589 --> 01:06:55,200

that uh there was a lot of overlap in

1690

01:06:59,589 --> 01:06:57,599

our topics like that um it's really cool

1691

01:07:01,829 --> 01:06:59,599

to see that it doesn't surprise me too

1692

01:07:03,829 --> 01:07:01,839

much um you know given kind of the

1693

01:07:06,150 --> 01:07:03,839

conversations that we've been having but

1694

01:07:08,630 --> 01:07:06,160

uh there's just so much mystery here we

1695

01:07:10,470 --> 01:07:08,640

often hear the example of you know what

1696

01:07:12,069 --> 01:07:10,480

if we took an iphone or something and

1697

01:07:13,109 --> 01:07:12,079

put it back into the middle ages you

1698

01:07:14,549 --> 01:07:13,119

know they would

1699

01:07:16,390 --> 01:07:14,559

wouldn't know what to do with it they'd

1700

01:07:17,510 --> 01:07:16,400

kind of think it was a polished rock or

1701

01:07:20,069 --> 01:07:17,520

something

1702

01:07:21,910 --> 01:07:20,079

uh but similarly the same concept of

1703

01:07:23,430 --> 01:07:21,920

these structures you know that that we

1704

01:07:24,630 --> 01:07:23,440

that we're looking at like we don't know

1705

01:07:25,750 --> 01:07:24,640

we don't know how they made them you

1706

01:07:27,349 --> 01:07:25,760

know so it's

1707

01:07:30,309 --> 01:07:27,359

they don't to us they don't seem as

1708

01:07:31,670 --> 01:07:30,319

technological as our iphones

1709

01:07:33,750 --> 01:07:31,680

but they also

1710

01:07:36,309 --> 01:07:33,760

are technological in ways that we don't

1711

01:07:38,870 --> 01:07:36,319

understand so they create these kinds of

1712

01:07:41,349 --> 01:07:38,880

ripple effects in the way that we

1713

01:07:43,589 --> 01:07:41,359

behave they've for all we know they

1714

01:07:45,670 --> 01:07:43,599

catalyzed a lot of specific scientific

1715

01:07:47,349 --> 01:07:45,680

discovery you know that eventually led

1716

01:07:49,750 --> 01:07:47,359

to these iphones

1717

01:07:51,510 --> 01:07:49,760

um you know with regard to kind of

1718

01:07:53,190 --> 01:07:51,520

remote viewing

1719

01:07:55,670 --> 01:07:53,200

uh you know one of the things that they

1720

01:07:56,870 --> 01:07:55,680

talk about in the literature is that it

1721

01:07:59,190 --> 01:07:56,880

seems to be

1722

01:08:01,990 --> 01:07:59,200

something that may transcend both

1723

01:08:03,670 --> 01:08:02,000

space and time so there's you know peop

1724

01:08:05,990 --> 01:08:03,680

the the very best remote viewer

1725

01:08:08,789 --> 01:08:06,000

seemingly could remote view the past and

1726

01:08:10,950 --> 01:08:08,799

the future and you know so so that tells

1727

01:08:13,510 --> 01:08:10,960

us something about the nature of time

1728

01:08:15,589 --> 01:08:13,520

uh itself and then um

1729

01:08:17,430 --> 01:08:15,599

you know so i think all these sort of

1730

01:08:18,709 --> 01:08:17,440

things really point to a deeper mystery

1731

01:08:19,430 --> 01:08:18,719

that we're not

1732

01:08:22,950 --> 01:08:19,440

it

1733

01:08:24,630 --> 01:08:22,960

when you're younger and you're exposed

1734

01:08:26,470 --> 01:08:24,640

to the knowledge of your day you think

1735

01:08:28,470 --> 01:08:26,480

hey we've got a lot of stuff figured out

1736

01:08:30,950 --> 01:08:28,480

you know particularly in our you know in

1737

01:08:31,910 --> 01:08:30,960

our 21st century world you know we seem

1738

01:08:33,669 --> 01:08:31,920

to have

1739

01:08:35,189 --> 01:08:33,679

answers to a lot of

1740

01:08:37,030 --> 01:08:35,199

pressing questions

1741

01:08:39,110 --> 01:08:37,040

and we think oh our science is doing a

1742

01:08:41,110 --> 01:08:39,120

pretty good job but i think what this is

1743

01:08:43,269 --> 01:08:41,120

telling us is and you know the older

1744

01:08:45,110 --> 01:08:43,279

that i get anyway the more i discover

1745

01:08:47,030 --> 01:08:45,120

how little we really know

1746

01:08:48,870 --> 01:08:47,040

and uh you know

1747

01:08:51,349 --> 01:08:48,880

there's just so much in the vast

1748

01:08:52,390 --> 01:08:51,359

universe left to uh to kind of stumble

1749

01:08:54,229 --> 01:08:52,400

across

1750

01:08:55,749 --> 01:08:54,239

and what we're doing right now i mean

1751

01:08:57,510 --> 01:08:55,759

think of it this way at one point in the

1752

01:08:59,189 --> 01:08:57,520

future what we're doing now will look

1753

01:09:00,470 --> 01:08:59,199

just the same as you know two people

1754

01:09:02,390 --> 01:09:00,480

rubbing sticks together or something

1755

01:09:04,149 --> 01:09:02,400

trying to make a fire like it's just

1756

01:09:07,269 --> 01:09:04,159

so you know it's really something that i

1757

01:09:09,349 --> 01:09:07,279

think is fun to consider um

1758

01:09:11,510 --> 01:09:09,359

and and hopefully it does encourage all

1759

01:09:13,669 --> 01:09:11,520

of us to kind of you know dream and and

1760

01:09:15,829 --> 01:09:13,679

push the these theories forward

1761

01:09:19,430 --> 01:09:15,839

um and then the last thing i'll say you

1762

01:09:20,950 --> 01:09:19,440

know really quickly on this is that um

1763

01:09:23,349 --> 01:09:20,960

you know i'm on my point with alien

1764

01:09:25,269 --> 01:09:23,359

technology you know it's it's always

1765

01:09:27,189 --> 01:09:25,279

fascinated me that the the accounts of

1766

01:09:29,829 --> 01:09:27,199

the aliens that we hear about they're

1767

01:09:31,189 --> 01:09:29,839

all very kind of monocultural and so i

1768

01:09:33,030 --> 01:09:31,199

think about that with respect to this

1769

01:09:35,030 --> 01:09:33,040

technology transfer you wouldn't give a

1770

01:09:36,309 --> 01:09:35,040

technology to a culture unless you knew

1771

01:09:38,229 --> 01:09:36,319

exactly what they were going to do with

1772

01:09:41,030 --> 01:09:38,239

it how they were going to behave with it

1773

01:09:42,630 --> 01:09:41,040

we are not mono cultural as human beings

1774

01:09:44,870 --> 01:09:42,640

on the planet earth you know we have a

1775

01:09:47,510 --> 01:09:44,880

lot of different belief systems

1776

01:09:49,669 --> 01:09:47,520

priorities political systems so what if

1777

01:09:51,430 --> 01:09:49,679

we have to become mono cultural in order

1778

01:09:52,950 --> 01:09:51,440

for us to be able to share in this type

1779

01:09:54,470 --> 01:09:52,960

of technology what if we have our

1780

01:09:55,750 --> 01:09:54,480

behaviors have to be

1781

01:09:58,070 --> 01:09:55,760

basically

1782

01:09:59,830 --> 01:09:58,080

predictable or homogeneous such that

1783

01:10:01,750 --> 01:09:59,840

these others

1784

01:10:05,510 --> 01:10:01,760

know exactly how we're going to behave

1785

01:10:09,430 --> 01:10:07,750

nathan i just got one thing i'd like to

1786

01:10:11,030 --> 01:10:09,440

take around the table because you just

1787

01:10:12,310 --> 01:10:11,040

made me think of it and i forgot all

1788

01:10:15,830 --> 01:10:12,320

about it

1789

01:10:19,510 --> 01:10:15,840

uh in the piece i read from that um on

1790

01:10:21,750 --> 01:10:19,520

that columbia university pat price saw a

1791

01:10:23,830 --> 01:10:21,760

spot and he said oh there are two water

1792

01:10:25,350 --> 01:10:23,840

towers there and the guy comes back and

1793

01:10:27,590 --> 01:10:25,360

goes he was wrong about that there's no

1794

01:10:30,630 --> 01:10:27,600

water towers of course they said well in

1795

01:10:34,310 --> 01:10:30,640

1919 there was two water towers there

1796

01:10:38,229 --> 01:10:34,320

so i ask you and i'll ask uh akashi and

1797

01:10:40,310 --> 01:10:38,239

and flarius and and debs

1798

01:10:42,790 --> 01:10:40,320

does that change for you at all the fact

1799

01:10:44,950 --> 01:10:42,800

that they could see into the past so if

1800

01:10:46,870 --> 01:10:44,960

you were to say the fact that he could

1801
01:10:49,110 --> 01:10:46,880
see something that's not there anymore

1802
01:10:50,630 --> 01:10:49,120
means what

1803
01:10:52,310 --> 01:10:50,640
uh that the time is a kind of an

1804
01:10:55,430 --> 01:10:52,320
illusion like it's like a construct that

1805
01:10:57,830 --> 01:10:55,440
we have like it's um

1806
01:11:00,870 --> 01:10:57,840
you know whatever has been or will be or

1807
01:11:02,550 --> 01:11:00,880
is like it actually always is like

1808
01:11:05,350 --> 01:11:02,560
there's no

1809
01:11:06,310 --> 01:11:05,360
sequence to it like it just exists as a

1810
01:11:12,149 --> 01:11:06,320
thing

1811
01:11:13,990 --> 01:11:13,110
chris

1812
01:11:15,590 --> 01:11:14,000
hmm

1813
01:11:18,070 --> 01:11:15,600

so that that's an interesting one

1814

01:11:19,990 --> 01:11:18,080

because you know i kind of tend to think

1815

01:11:22,870 --> 01:11:20,000

can

1816

01:11:25,189 --> 01:11:22,880

if you change if if the

1817

01:11:27,750 --> 01:11:25,199

present the past and the future

1818

01:11:30,229 --> 01:11:27,760

happening at the same time how did you

1819

01:11:33,189 --> 01:11:30,239

know how do the timelines change if

1820

01:11:34,790 --> 01:11:33,199

somebody tries to you know

1821

01:11:36,229 --> 01:11:34,800

really get in the middle and change

1822

01:11:38,470 --> 01:11:36,239

something and maybe that's why they

1823

01:11:41,189 --> 01:11:38,480

don't maybe that's why things you know

1824

01:11:43,830 --> 01:11:41,199

stay away because those timelines are

1825

01:11:45,910 --> 01:11:43,840

are precious i or maybe there are

1826

01:11:49,030 --> 01:11:45,920

multi-dimensional and there are multiple

1827

01:11:54,229 --> 01:11:51,110

the question i'm asking is if they could

1828

01:11:56,630 --> 01:11:54,239

see something that used to be there does

1829

01:11:59,110 --> 01:11:56,640

that change your thought about remote

1830

01:12:01,910 --> 01:11:59,120

how the process of remote viewing by the

1831

01:12:03,590 --> 01:12:01,920

fact that he could during this remote

1832

01:12:05,669 --> 01:12:03,600

viewing session

1833

01:12:08,470 --> 01:12:05,679

he saw something that used to be there

1834

01:12:10,630 --> 01:12:08,480

but isn't there now

1835

01:12:11,510 --> 01:12:10,640

it doesn't i mean how does it change it

1836

01:12:13,030 --> 01:12:11,520

it

1837

01:12:13,830 --> 01:12:13,040

i don't know

1838

01:12:27,350 --> 01:12:13,840

i

1839

01:12:28,950 --> 01:12:27,360

60 70 years ago that have been here for

1840

01:12:31,430 --> 01:12:28,960

12 000 years

1841

01:12:33,830 --> 01:12:31,440

so i mean from a remote viewing

1842

01:12:36,070 --> 01:12:33,840

perspective i mean it if you can go into

1843

01:12:37,990 --> 01:12:36,080

the past future you can you can see it

1844

01:12:40,790 --> 01:12:38,000

all and they've been renewing remote

1845

01:12:42,790 --> 01:12:40,800

viewing examples about mars so i mean

1846

01:12:44,950 --> 01:12:42,800

there though there are examples of

1847

01:12:46,709 --> 01:12:44,960

people already doing that so i mean it

1848

01:12:49,430 --> 01:12:46,719

doesn't change anything to me that i

1849

01:12:51,510 --> 01:12:49,440

can't see it now because

1850

01:12:53,270 --> 01:12:51,520

you either trust it or you don't

1851

01:12:55,270 --> 01:12:53,280

no i mean i mean like

1852

01:12:58,790 --> 01:12:55,280

i'm curious if he's connecting with that

1853

01:13:01,510 --> 01:12:58,800

spot and somehow he he's zeroing in on

1854

01:13:03,030 --> 01:13:01,520

that spot and he's connecting with that

1855

01:13:05,430 --> 01:13:03,040

piece of earth

1856

01:13:07,270 --> 01:13:05,440

and and he's seeing what's there

1857

01:13:09,669 --> 01:13:07,280

what's life

1858

01:13:10,950 --> 01:13:09,679

but yeah that that used to be there like

1859

01:13:13,750 --> 01:13:10,960

he can see

1860

01:13:15,430 --> 01:13:13,760

if he's connecting with that spot

1861

01:13:17,830 --> 01:13:15,440

then he's saying

1862

01:13:19,750 --> 01:13:17,840

oh wow there's some there's something

1863

01:13:22,229 --> 01:13:19,760

here even though it's not there any

1864

01:13:23,750 --> 01:13:22,239

there but its presence is still there

1865

01:13:26,550 --> 01:13:23,760

its imprint

1866

01:13:28,790 --> 01:13:26,560

on that on that space remains even

1867

01:13:30,950 --> 01:13:28,800

though the physical object is gone just

1868

01:13:33,030 --> 01:13:30,960

like if we took a bridge pillar out of

1869

01:13:34,470 --> 01:13:33,040

the ground you would say well the bridge

1870

01:13:36,310 --> 01:13:34,480

pillar's not there but i could see where

1871

01:13:37,910 --> 01:13:36,320

it used to be

1872

01:13:39,669 --> 01:13:37,920

and there's that object in the past

1873

01:13:42,229 --> 01:13:39,679

aware of him doing it so if you were to

1874

01:13:43,750 --> 01:13:42,239

go back into the past as that object and

1875

01:13:45,189 --> 01:13:43,760

he's remote viewing it from the future

1876

01:13:47,910 --> 01:13:45,199

would you sense

1877

01:13:48,950 --> 01:13:47,920

him revo viewing you that object in the

1878

01:13:50,310 --> 01:13:48,960

past

1879

01:13:52,390 --> 01:13:50,320

in other words some people that have

1880

01:13:54,070 --> 01:13:52,400

experiences of others and abductions

1881

01:13:56,070 --> 01:13:54,080

what if you're experiencing

1882

01:13:59,110 --> 01:13:56,080

a future you interacting with you in the

1883

01:14:02,310 --> 01:14:00,229

well if

1884

01:14:03,510 --> 01:14:02,320

you can bend space sometimes yeah i mean

1885

01:14:05,189 --> 01:14:03,520

it would depend if you haven't been to

1886

01:14:06,630 --> 01:14:05,199

that spot so there's like there's a

1887

01:14:07,990 --> 01:14:06,640

bunch of variable there's a lot of

1888

01:14:09,910 --> 01:14:08,000

variables in there it's going to be hard

1889

01:14:12,070 --> 01:14:09,920

to isolate but

1890

01:14:14,790 --> 01:14:12,080

it's interesting question i'm wondering

1891

01:14:16,149 --> 01:14:14,800

is he connecting with through that

1892

01:14:18,470 --> 01:14:16,159

person

1893

01:14:20,630 --> 01:14:18,480

he so they said to i want you to connect

1894

01:14:23,270 --> 01:14:20,640

with this person 30 minutes from now all

1895

01:14:25,030 --> 01:14:23,280

right so 30 minutes now and we're on

1896

01:14:26,870 --> 01:14:25,040

now he's connecting with that person but

1897

01:14:29,270 --> 01:14:26,880

through that person

1898

01:14:32,550 --> 01:14:29,280

they're connecting with the the location

1899

01:14:34,709 --> 01:14:32,560

that it's in and somehow he's seeing

1900

01:14:37,030 --> 01:14:34,719

what was historically there

1901

01:14:39,270 --> 01:14:37,040

somehow through that individual that he

1902

01:14:40,870 --> 01:14:39,280

was asked to follow

1903

01:14:43,270 --> 01:14:40,880

and then in another case obviously he

1904

01:14:46,070 --> 01:14:43,280

was given grid coordinates and did

1905

01:14:48,390 --> 01:14:46,080

not a past but a present

1906

01:14:50,470 --> 01:14:48,400

uh so very interesting anyway i don't

1907

01:14:52,550 --> 01:14:50,480

want to take any more time away from

1908

01:14:55,750 --> 01:14:52,560

hilarious kevin because that would be a

1909

01:14:58,310 --> 01:14:55,760

miscarriage of justice give me the data

1910

01:14:59,990 --> 01:14:58,320

i'm sorry go ahead

1911

01:15:01,669 --> 01:15:00,000

yeah

1912

01:15:02,950 --> 01:15:01,679

do i have a question for you or do i get

1913

01:15:06,070 --> 01:15:02,960

to share my stuff

1914

01:15:08,149 --> 01:15:06,080

yo basically anything yeah anything yeah

1915

01:15:09,830 --> 01:15:08,159

okay

1916

01:15:11,510 --> 01:15:09,840

all right well i'm gonna share another

1917

01:15:13,830 --> 01:15:11,520

picture i got more proof

1918

01:15:14,630 --> 01:15:13,840

about my fantastic

1919

01:15:15,590 --> 01:15:14,640

my

1920

01:15:17,189 --> 01:15:15,600

little

1921

01:15:18,790 --> 01:15:17,199

theory

1922

01:15:20,390 --> 01:15:18,800

okay

1923

01:15:23,030 --> 01:15:20,400

all right here we go you just wait

1924

01:15:25,430 --> 01:15:23,040

nathan he's going to show you

1925

01:15:31,830 --> 01:15:25,440

i think it's his duty to share this list

1926

01:15:37,270 --> 01:15:35,110

so here we go we've got we've got him

1927

01:15:38,870 --> 01:15:37,280

we've got their two circular

1928

01:15:40,870 --> 01:15:38,880

obviously they look like

1929

01:15:43,350 --> 01:15:40,880

bodies i mean right

1930

01:15:45,270 --> 01:15:43,360

come on now these were found

1931

01:15:49,669 --> 01:15:45,280

hopefully teppy get more proof this is

1932

01:15:51,910 --> 01:15:49,679

the bathroom okay in here here we've got

1933

01:15:53,430 --> 01:15:51,920

on the toilet on this picture we have an

1934

01:15:55,590 --> 01:15:53,440

animal on a toilet it's like frozen in

1935

01:15:58,390 --> 01:15:55,600

time right frozen

1936

01:16:00,870 --> 01:15:58,400

time good thing it separated at birth

1937

01:16:02,870 --> 01:16:00,880

it's not amazing uncanny

1938

01:16:06,630 --> 01:16:02,880

why do i feel sorry for akashi chris

1939

01:16:10,950 --> 01:16:09,750

because i might have to change my banner

1940

01:16:18,550 --> 01:16:10,960

which is

1941

01:16:35,520 --> 01:16:18,560

where is making a mockery of this

1942

01:16:35,530 --> 01:16:40,149

[Music]

1943

01:16:44,470 --> 01:16:42,070

that clearly looks suspicious you go

1944

01:16:47,270 --> 01:16:44,480

over here i mean come on

1945

01:16:50,070 --> 01:16:47,280

clearly using the bathroom yeah

1946

01:16:51,910 --> 01:16:50,080

i mean the evidence is incontrovertible

1947

01:16:53,350 --> 01:16:51,920

i'm gonna have to change my entire

1948

01:16:55,189 --> 01:16:53,360

presentation

1949

01:16:57,430 --> 01:16:55,199

nathan you couldn't pay for this kind of

1950

01:16:59,189 --> 01:16:57,440

comedy you just can't you can't and and

1951

01:17:01,590 --> 01:16:59,199

and you've ruined it for her i hope

1952

01:17:04,149 --> 01:17:01,600

you're happy kevin

1953

01:17:07,990 --> 01:17:04,159

michael i've ruined it for a

1954

01:17:12,630 --> 01:17:10,870

wait wait go beckley teepee

1955

01:17:14,470 --> 01:17:12,640

oh my god

1956

01:17:25,350 --> 01:17:14,480

right

1957

01:17:30,149 --> 01:17:26,630

because it's supposed to be the name

1958

01:17:31,669 --> 01:17:30,159

exactly um

1959

01:17:33,430 --> 01:17:31,679

are you wondering what the hell did i

1960

01:17:35,990 --> 01:17:33,440

sign up for is that what you're thinking

1961

01:17:38,709 --> 01:17:36,000

right now i i'm gonna take the fifth on

1962

01:17:45,189 --> 01:17:38,719

that but i am trying to contextualize i

1963

01:17:50,310 --> 01:17:47,750

okay okay damn it's steph's turn go

1964

01:17:53,189 --> 01:17:50,320

ahead debs okay so here's what i'm gonna

1965

01:17:55,189 --> 01:17:53,199

do some contextualizing okay so what

1966

01:17:57,430 --> 01:17:55,199

what i'm seeing is we've been talking

1967

01:17:58,709 --> 01:17:57,440

about two major things and they are

1968

01:18:01,990 --> 01:17:58,719

connected

1969

01:18:03,990 --> 01:18:02,000

one is the primal history and i don't

1970

01:18:06,070 --> 01:18:04,000

want to say primal in a way like we

1971

01:18:08,070 --> 01:18:06,080

weren't sophisticated or intelligent or

1972

01:18:10,870 --> 01:18:08,080

whatever because we were awesome but the

1973

01:18:13,990 --> 01:18:10,880

primal history of mankind right

1974

01:18:16,550 --> 01:18:14,000

mixed with our understanding of

1975

01:18:17,750 --> 01:18:16,560

consciousness and the energy and remote

1976

01:18:19,750 --> 01:18:17,760

viewing

1977

01:18:21,830 --> 01:18:19,760

and it's the possibility that in history

1978

01:18:22,790 --> 01:18:21,840

we understood all of that better

1979

01:18:24,950 --> 01:18:22,800

and

1980

01:18:27,030 --> 01:18:24,960

i keep thinking about the three things

1981

01:18:28,229 --> 01:18:27,040

that i keep saying are connected

1982

01:18:31,669 --> 01:18:28,239

religion

1983

01:18:33,750 --> 01:18:31,679

magic and science and they continue even

1984

01:18:36,070 --> 01:18:33,760

in this conversation to show how

1985

01:18:38,070 --> 01:18:36,080

connected they are right

1986

01:18:41,510 --> 01:18:38,080

and i was also thinking

1987

01:18:43,750 --> 01:18:41,520

um about coming back to some things you

1988

01:18:46,790 --> 01:18:43,760

know because it's my turn to do that one

1989

01:18:49,189 --> 01:18:46,800

thing i wanted to come back to was

1990

01:18:51,510 --> 01:18:49,199

whether or not psychologically we are

1991

01:18:53,510 --> 01:18:51,520

capable of accepting

1992

01:18:55,910 --> 01:18:53,520

what an outside

1993

01:18:57,750 --> 01:18:55,920

civilization may want to present to us

1994

01:18:59,270 --> 01:18:57,760

and whether or not that would be an

1995

01:19:01,669 --> 01:18:59,280

issue

1996

01:19:04,310 --> 01:19:01,679

because we stand by this this the

1997

01:19:06,390 --> 01:19:04,320

religion the science and the magic

1998

01:19:08,630 --> 01:19:06,400

and though our ancestors may have been

1999

01:19:10,870 --> 01:19:08,640

able to mix those together nowadays

2000

01:19:12,310 --> 01:19:10,880

people are so resistant to mixing those

2001

01:19:16,149 --> 01:19:12,320

three together

2002

01:19:17,990 --> 01:19:16,159

so in context to go to nathan's question

2003

01:19:20,149 --> 01:19:18,000

would they want to come hang out with us

2004

01:19:21,510 --> 01:19:20,159

if we can't put those back together

2005

01:19:23,750 --> 01:19:21,520

again

2006

01:19:25,750 --> 01:19:23,760

because i'm sure you know that they're

2007

01:19:28,470 --> 01:19:25,760

if they're more advanced than us

2008

01:19:30,870 --> 01:19:28,480

they're cool with it all being together

2009

01:19:33,430 --> 01:19:30,880

and some people have said our ancestors

2010

01:19:35,669 --> 01:19:33,440

were already able to do that

2011

01:19:37,350 --> 01:19:35,679

so that's how i wanted to contextualize

2012

01:19:40,310 --> 01:19:37,360

everything

2013

01:19:46,229 --> 01:19:43,510

yeah um debs i mean i i think that's you

2014

01:19:47,189 --> 01:19:46,239

know that's such such an an open uh

2015

01:19:50,630 --> 01:19:47,199

question

2016

01:19:53,510 --> 01:19:50,640

that that you raised that uh answers

2017

01:19:55,270 --> 01:19:53,520

the most important question is not

2018

01:19:57,510 --> 01:19:55,280

who are they or where are they from the

2019

01:19:58,550 --> 01:19:57,520

most important question is why are they

2020

01:20:00,630 --> 01:19:58,560

here

2021

01:20:02,390 --> 01:20:00,640

or in amalgam what do they want why are

2022

01:20:04,149 --> 01:20:02,400

they here that's the most important

2023

01:20:06,229 --> 01:20:04,159

question the second most

2024

01:20:09,030 --> 01:20:06,239

important question is where are they

2025

01:20:12,470 --> 01:20:09,040

from and then okay what's your name

2026

01:20:15,669 --> 01:20:12,480

my name's steve whatever um

2027

01:20:16,550 --> 01:20:15,679

steve greenstreet whatever anyway uh

2028

01:20:18,950 --> 01:20:16,560

so

2029

01:20:20,709 --> 01:20:18,960

yeah i mean uh that that's that's a very

2030

01:20:22,790 --> 01:20:20,719

good question and it gets back to

2031

01:20:23,590 --> 01:20:22,800

nathan's compartment

2032

01:20:26,070 --> 01:20:23,600

uh

2033

01:20:27,990 --> 01:20:26,080

theory and and do they wanna connect

2034

01:20:30,390 --> 01:20:28,000

with something like this and if they did

2035

01:20:33,910 --> 01:20:30,400

nathan is not sure that he's gonna trust

2036

01:20:36,310 --> 01:20:33,920

whatever they might say if they do make

2037

01:20:37,270 --> 01:20:36,320

verbal contact with us

2038

01:20:39,350 --> 01:20:37,280

uh

2039

01:20:41,110 --> 01:20:39,360

and i i'm gonna chime in and just say

2040

01:20:48,870 --> 01:20:41,120

that you know they could be the reason

2041

01:20:52,950 --> 01:20:50,950

you have ruined it i'm sure akashi's

2042

01:20:55,189 --> 01:20:52,960

gonna have words

2043

01:20:57,030 --> 01:20:55,199

for you after the show nobody's gonna

2044

01:20:59,030 --> 01:20:57,040

hear it but you guys are gonna have

2045

01:21:01,590 --> 01:20:59,040

words that's all there is to it

2046

01:21:02,950 --> 01:21:01,600

yes three demerits for slytherin over

2047

01:21:05,350 --> 01:21:02,960

there so anyway

2048

01:21:07,110 --> 01:21:05,360

[Music]

2049

01:21:09,750 --> 01:21:07,120

but now that that that's a great that's

2050

01:21:11,430 --> 01:21:09,760

a great uh a great point and i think

2051
01:21:13,110 --> 01:21:11,440
that's everybody we've all had our go

2052
01:21:16,070 --> 01:21:13,120
backs at this point

2053
01:21:19,110 --> 01:21:16,080
um i want two things together here yeah

2054
01:21:20,950 --> 01:21:19,120
the more we it is so funny to see all of

2055
01:21:23,110 --> 01:21:20,960
our different approaches

2056
01:21:25,030 --> 01:21:23,120
to topics that aren't necessarily

2057
01:21:26,310 --> 01:21:25,040
totally aligned but they turned out to

2058
01:21:28,910 --> 01:21:26,320
be

2059
01:21:31,510 --> 01:21:28,920
talking about ancient you know ancient

2060
01:21:33,030 --> 01:21:31,520
civilizations that were maybe so in tune

2061
01:21:35,990 --> 01:21:33,040
with the earth

2062
01:21:38,070 --> 01:21:36,000
and the environment and the use of the

2063
01:21:39,030 --> 01:21:38,080

resources in a different way that we

2064

01:21:41,590 --> 01:21:39,040

can't

2065

01:21:43,669 --> 01:21:41,600

yet you know and that goes into the

2066

01:21:45,590 --> 01:21:43,679

consciousness you know they were very in

2067

01:21:48,390 --> 01:21:45,600

tune you know maybe they could do things

2068

01:21:49,830 --> 01:21:48,400

so we can't because they were so in tune

2069

01:21:52,229 --> 01:21:49,840

and and here's what we're going to do

2070

01:21:53,750 --> 01:21:52,239

akashi you didn't know that you're going

2071

01:21:55,830 --> 01:21:53,760

to get a gift today but you're actually

2072

01:21:57,430 --> 01:21:55,840

going to get a closing statement but

2073

01:21:59,350 --> 01:21:57,440

we'll start with

2074

01:22:01,910 --> 01:21:59,360

the jay allen heineck

2075

01:22:03,830 --> 01:22:01,920

the sherlock holmes

2076

01:22:06,709 --> 01:22:03,840

the big toe

2077

01:22:08,950 --> 01:22:06,719

of of this program there he is

2078

01:22:11,750 --> 01:22:08,960

dr nathan go ahead brother

2079

01:22:13,350 --> 01:22:11,760

all right so uh to kind of wrap it up um

2080

01:22:16,229 --> 01:22:13,360

i think we got about two minutes but i

2081

01:22:18,550 --> 01:22:16,239

don't think i'll take it all but uh

2082

01:22:21,830 --> 01:22:18,560

that's kind

2083

01:22:23,110 --> 01:22:21,840

yeah uh no great conversation and uh you

2084

01:22:24,550 --> 01:22:23,120

know it makes me think too something

2085

01:22:25,910 --> 01:22:24,560

i've been thinking about recently and it

2086

01:22:26,790 --> 01:22:25,920

ties into everything that we've talked

2087

01:22:28,229 --> 01:22:26,800

about

2088

01:22:30,870 --> 01:22:28,239

and that is that the awakening of our

2089

01:22:33,110 --> 01:22:30,880

consciousness on the earth perhaps did

2090

01:22:35,030 --> 01:22:33,120

serve as a beacon that drew other

2091

01:22:37,750 --> 01:22:35,040

intelligences to us

2092

01:22:40,149 --> 01:22:37,760

so like attracts like and consciousness

2093

01:22:41,830 --> 01:22:40,159

attracts consciousness so as we became

2094

01:22:43,110 --> 01:22:41,840

more conscious

2095

01:22:46,149 --> 01:22:43,120

it attracted

2096

01:22:48,550 --> 01:22:46,159

other consciousnesses to come and see us

2097

01:22:50,149 --> 01:22:48,560

and interact with us in some ways and

2098

01:22:51,990 --> 01:22:50,159

and that might explain the multiple

2099

01:22:53,910 --> 01:22:52,000

kinds of interactions that we've had and

2100

01:22:57,350 --> 01:22:53,920

can account for and it might also mean

2101
01:22:58,950 --> 01:22:57,360
that as our consciousness uh increases

2102
01:23:00,229 --> 01:22:58,960
over time

2103
01:23:03,030 --> 01:23:00,239
as we

2104
01:23:05,270 --> 01:23:03,040
kind of flex that muscle so to speak

2105
01:23:07,910 --> 01:23:05,280
maybe we are manifesting things in our

2106
01:23:10,870 --> 01:23:07,920
reality as well so maybe we are bringing

2107
01:23:13,590 --> 01:23:10,880
about uh sort of change through our

2108
01:23:15,270 --> 01:23:13,600
collective conscious effort as we become

2109
01:23:17,990 --> 01:23:15,280
more conscious aware

2110
01:23:18,709 --> 01:23:18,000
uh in the life of our of our human story

2111
01:23:21,350 --> 01:23:18,719
so

2112
01:23:23,750 --> 01:23:21,360
think about that kind of light

2113
01:23:26,310 --> 01:23:23,760

lighthouse effect uh that maybe we are

2114

01:23:27,590 --> 01:23:26,320

you know drawing uh other things to us

2115

01:23:29,750 --> 01:23:27,600

and they're just they're coming here out

2116

01:23:31,030 --> 01:23:29,760

of curiosity and and and need to

2117

01:23:33,189 --> 01:23:31,040

interact

2118

01:23:34,709 --> 01:23:33,199

that's so north carol so outer banks the

2119

01:23:37,189 --> 01:23:34,719

lighthouse effect

2120

01:23:39,270 --> 01:23:37,199

akashu thank you nathan akashi chris i

2121

01:23:40,870 --> 01:23:39,280

already kind of said my my wrap up

2122

01:23:43,270 --> 01:23:40,880

except for you know

2123

01:23:45,590 --> 01:23:43,280

the whole consciousness piece is just so

2124

01:23:47,590 --> 01:23:45,600

much to it that we need to look into we

2125

01:23:49,430 --> 01:23:47,600

need to dig into because i think we're

2126

01:23:51,990 --> 01:23:49,440

all hitting it from totally different

2127

01:23:54,070 --> 01:23:52,000

approaches but it's the same thing and

2128

01:23:56,310 --> 01:23:54,080

there's something in and

2129

01:23:58,550 --> 01:23:56,320

there's something in the universe that

2130

01:23:59,590 --> 01:23:58,560

allows us to have these communications

2131

01:24:03,270 --> 01:23:59,600

this is

2132

01:24:04,709 --> 01:24:03,280

it's not bs it's real so anyway that's

2133

01:24:07,110 --> 01:24:04,719

all i gotta say that's all i gotta say

2134

01:24:10,709 --> 01:24:07,120

about that thank you thank you thank you

2135

01:24:13,189 --> 01:24:10,719

love for forrest mullins uh and and and

2136

01:24:15,110 --> 01:24:13,199

and thank goodness for my work uh

2137

01:24:17,350 --> 01:24:15,120

actually he's a workout partner of mine

2138

01:24:19,030 --> 01:24:17,360

and nathan james iandoli for making us

2139

01:24:21,669 --> 01:24:19,040

think about consciousness so thank you

2140

01:24:22,470 --> 01:24:21,679

james uh keep lifting brother

2141

01:24:24,790 --> 01:24:22,480

um

2142

01:24:27,030 --> 01:24:24,800

flareous kevin your closing statement

2143

01:24:29,189 --> 01:24:27,040

sir

2144

01:24:31,189 --> 01:24:29,199

all in all i think what gol beckley was

2145

01:24:32,470 --> 01:24:31,199

trying to tell us is that we need to you

2146

01:24:33,430 --> 01:24:32,480

know

2147

01:24:35,350 --> 01:24:33,440

stop

2148

01:24:37,350 --> 01:24:35,360

letting go of

2149

01:24:38,390 --> 01:24:37,360

our past

2150

01:24:41,350 --> 01:24:38,400

you know

2151

01:24:43,510 --> 01:24:41,360

don't hold in anything

2152

01:24:45,270 --> 01:24:43,520

anything uncontrollable you gotta let go

2153

01:24:47,669 --> 01:24:45,280

off

2154

01:24:51,030 --> 01:24:47,679

uh just so you know it doesn't explode

2155

01:24:54,229 --> 01:24:51,040

you you don't want anything to explode

2156

01:24:56,310 --> 01:24:54,239

you know anywhere you're at bad

2157

01:24:58,629 --> 01:24:56,320

definitely bad

2158

01:25:00,229 --> 01:24:58,639

more roughage in the diet and

2159

01:25:02,070 --> 01:25:00,239

vegetables and

2160

01:25:03,750 --> 01:25:02,080

grains i think right i think i see where

2161

01:25:05,750 --> 01:25:03,760

you're great they did they ate a lot of

2162

01:25:09,110 --> 01:25:05,760

grains they found brain silos there you

2163

01:25:09,120 --> 01:25:17,910

i'm just kidding

2164

01:25:20,870 --> 01:25:19,590

i thought it was an analogy i thought it

2165

01:25:21,590 --> 01:25:20,880

was brilliant

2166

01:25:28,229 --> 01:25:21,600

no

2167

01:25:31,350 --> 01:25:28,239

i'm going to bring uh nathan some of

2168

01:25:33,430 --> 01:25:31,360

katy's green juice

2169

01:25:36,709 --> 01:25:33,440

but anyway

2170

01:25:38,709 --> 01:25:36,719

deb uh my dear lady uh i'm sure

2171

01:25:40,790 --> 01:25:38,719

uh flair had many other fascinating

2172

01:25:43,110 --> 01:25:40,800

things to say but it's your turn

2173

01:25:46,229 --> 01:25:43,120

okay so i just wanted to say it was

2174

01:25:48,390 --> 01:25:46,239

really fun to explore humanity because i

2175

01:25:50,070 --> 01:25:48,400

think that was the bottom line and what

2176
01:25:52,870 --> 01:25:50,080
we were doing today

2177
01:25:54,709 --> 01:25:52,880
exploring our capabilities

2178
01:25:57,110 --> 01:25:54,719
historically and

2179
01:25:59,030 --> 01:25:57,120
um within ourselves and

2180
01:26:01,030 --> 01:25:59,040
within our conscious and our collective

2181
01:26:03,669 --> 01:26:01,040
conscious which there's science behind

2182
01:26:07,030 --> 01:26:03,679
by the way which is really interesting

2183
01:26:10,229 --> 01:26:07,040
um and our ability to even perhaps reach

2184
01:26:14,629 --> 01:26:10,239
to different places and times

2185
01:26:16,550 --> 01:26:14,639
or even possibly different um

2186
01:26:17,910 --> 01:26:16,560
dimensions dj

2187
01:26:20,310 --> 01:26:17,920
so it's really interesting i think

2188
01:26:22,709 --> 01:26:20,320

that's the underlying theme of what we

2189

01:26:24,870 --> 01:26:22,719

were talking about ultimately

2190

01:26:27,590 --> 01:26:24,880

exploring our humanity and understanding

2191

01:26:29,510 --> 01:26:27,600

it better and perhaps the more we are

2192

01:26:33,030 --> 01:26:29,520

able to do that the more we'll be able

2193

01:26:34,310 --> 01:26:33,040

to engage with another civilization that

2194

01:26:37,430 --> 01:26:34,320

probably has already had this

2195

01:26:38,709 --> 01:26:37,440

conversation a thousand years ago

2196

01:26:40,629 --> 01:26:38,719

so

2197

01:26:43,830 --> 01:26:40,639

okay

2198

01:26:46,229 --> 01:26:43,840

you know there there is uh a author who

2199

01:26:47,990 --> 01:26:46,239

did a a book on breath work his name is

2200

01:26:49,990 --> 01:26:48,000

dan something i can't remember his name

2201

01:26:51,750 --> 01:26:50,000

but he talked about a yogi that could

2202

01:26:54,950 --> 01:26:51,760

raise the temperature of individual

2203

01:26:56,149 --> 01:26:54,960

fingers so there's a lot of control over

2204

01:26:58,870 --> 01:26:56,159

and that's just you know with his

2205

01:27:02,229 --> 01:26:58,880

breathing and con so there's a lot of

2206

01:27:04,070 --> 01:27:02,239

control you know we i guess

2207

01:27:06,310 --> 01:27:04,080

you know we know that consciousness

2208

01:27:09,110 --> 01:27:06,320

exists but we don't know how to

2209

01:27:10,950 --> 01:27:09,120

necessarily measure it or how to

2210

01:27:13,030 --> 01:27:10,960

the people that do know how to actualize

2211

01:27:15,110 --> 01:27:13,040

it are maybe the remote viewers people

2212

01:27:17,750 --> 01:27:15,120

like james and folks that can do what he

2213

01:27:20,229 --> 01:27:17,760

can do or folks that can remote view but

2214

01:27:22,310 --> 01:27:20,239

for a lot of us we don't know how they

2215

01:27:24,950 --> 01:27:22,320

do it we know that they do it

2216

01:27:26,629 --> 01:27:24,960

so that's what's uh fascinating to me on

2217

01:27:28,390 --> 01:27:26,639

the other part i was thinking about

2218

01:27:30,790 --> 01:27:28,400

something that nathan said

2219

01:27:33,830 --> 01:27:30,800

about um and it made me think of

2220

01:27:36,229 --> 01:27:33,840

singularity because and singularity my

2221

01:27:37,110 --> 01:27:36,239

hey mike how you doing brother

2222

01:27:38,709 --> 01:27:37,120

um

2223

01:27:40,709 --> 01:27:38,719

one of the scary things about

2224

01:27:43,750 --> 01:27:40,719

singularity is that we will be able to

2225

01:27:46,390 --> 01:27:43,760

do that is that at some point i could be

2226

01:27:48,070 --> 01:27:46,400

in hong kong and called nathan

2227

01:27:51,350 --> 01:27:48,080

with my mind because it's like going to

2228

01:27:54,229 --> 01:27:51,360

be a chip in there so i think it's a

2229

01:27:57,669 --> 01:27:54,239

de-evolution in a way of what we are

2230

01:27:59,830 --> 01:27:57,679

because we won't have to work so hard to

2231

01:28:02,550 --> 01:27:59,840

manifest something because basically i'm

2232

01:28:04,870 --> 01:28:02,560

going to use my mental cell phone and

2233

01:28:07,510 --> 01:28:04,880

call nathan but without the device you

2234

01:28:09,990 --> 01:28:07,520

know you hear elon musk talk about that

2235

01:28:12,229 --> 01:28:10,000

you're not that thing is it now but you

2236

01:28:14,550 --> 01:28:12,239

won't have that it'll be in here

2237

01:28:17,430 --> 01:28:14,560

so i i kind of see that and when i think

2238

01:28:18,229 --> 01:28:17,440

about singularity i think about what

2239

01:28:19,669 --> 01:28:18,239

um

2240

01:28:22,390 --> 01:28:19,679

in one way

2241

01:28:25,189 --> 01:28:22,400

what a negative thing it is from from

2242

01:28:29,189 --> 01:28:25,199

that standpoint that will lose the

2243

01:28:31,270 --> 01:28:29,199

ability to to communicate in that way

2244

01:28:33,430 --> 01:28:31,280

but in a positive sense you when you

2245

01:28:36,470 --> 01:28:33,440

look at a planet that has a limited

2246

01:28:38,390 --> 01:28:36,480

amount of resources if everybody's

2247

01:28:40,390 --> 01:28:38,400

saying you know we just got to have more

2248

01:28:42,070 --> 01:28:40,400

people we're going to eat more meat

2249

01:28:43,830 --> 01:28:42,080

we're going to knock down more trees

2250

01:28:45,590 --> 01:28:43,840

eventually there's not going to be any

2251

01:28:48,470 --> 01:28:45,600

left unless you can just

2252

01:28:49,750 --> 01:28:48,480

you know somehow synthetically grow

2253

01:28:51,750 --> 01:28:49,760

uh nature

2254

01:28:54,790 --> 01:28:51,760

um eventually we'll

2255

01:28:57,510 --> 01:28:54,800

you know if we keep uh acting

2256

01:29:00,870 --> 01:28:57,520

i don't acting is the way we do if we if

2257

01:29:02,790 --> 01:29:00,880

we crop procreate and consume as we are

2258

01:29:05,030 --> 01:29:02,800

we'll outgrow this space which is why

2259

01:29:07,030 --> 01:29:05,040

they're trying to work on mars so

2260

01:29:08,950 --> 01:29:07,040

so that's a positive thing about

2261

01:29:11,750 --> 01:29:08,960

singularity if you want to go that way

2262

01:29:13,830 --> 01:29:11,760

where your life isn't devoted to i have

2263

01:29:16,390 --> 01:29:13,840

to carry on my name which is what we

2264

01:29:17,910 --> 01:29:16,400

think about when we hit puberty

2265

01:29:19,669 --> 01:29:17,920

so anyway

2266

01:29:20,629 --> 01:29:19,679

deep thoughts from dj never thought it

2267

01:29:22,310 --> 01:29:20,639

would happen

2268

01:29:24,629 --> 01:29:22,320

uh anyway

2269

01:29:27,270 --> 01:29:24,639

it was fantastic to do a cabbie only

2270

01:29:29,669 --> 01:29:27,280

episode uh it won't be the last one it

2271

01:29:31,270 --> 01:29:29,679

was only the first one and it was great

2272

01:29:34,149 --> 01:29:31,280

to it's probably

2273

01:29:36,550 --> 01:29:34,159

the first time that the entire team that

2274

01:29:38,870 --> 01:29:36,560

you guys have gotten to see us

2275

01:29:41,590 --> 01:29:38,880

what we do on

2276

01:29:43,110 --> 01:29:41,600

signal or or or this medium here when we

2277

01:29:45,189 --> 01:29:43,120

have meetings so

2278

01:29:46,310 --> 01:29:45,199

um so thank you so much everybody for

2279

01:29:49,990 --> 01:29:46,320

tuning in

2280

01:29:52,390 --> 01:29:50,000

uh we love hashtag ufo twitter um we

2281

01:29:55,669 --> 01:29:52,400

want to shout out uh paws rescue

2282

01:29:58,390 --> 01:29:55,679

uh paws in middle georgia uh tia pike

2283

01:30:00,470 --> 01:29:58,400

um she's uh someone where also each of

2284

01:30:03,270 --> 01:30:00,480

these individuals that you see on screen

2285

01:30:05,510 --> 01:30:03,280

will also bring on their own uh

2286

01:30:07,990 --> 01:30:05,520

non-profits that that we want to talk

2287

01:30:10,950 --> 01:30:08,000

about in these 30-second spots on the

2288

01:30:14,070 --> 01:30:10,960

show but if you want to check out uh at

2289

01:30:16,550 --> 01:30:14,080

paws and mid ga uh you can see them on

2290

01:30:20,310 --> 01:30:16,560

instagram you can see them on twitter by

2291

01:30:21,430 --> 01:30:20,320

that same uh handle and she has quite a

2292

01:30:24,550 --> 01:30:21,440

prolific

2293

01:30:26,629 --> 01:30:24,560

facebook she's a brand new 501 3c

2294

01:30:28,709 --> 01:30:26,639

nonprofit rescue

2295

01:30:31,750 --> 01:30:28,719

um and yeah in the coming weeks you'll

2296

01:30:34,149 --> 01:30:31,760

see one from nathan akashi kevin and deb

2297

01:30:37,110 --> 01:30:34,159

so for all of the aforementioned for

2298

01:30:39,669 --> 01:30:37,120

money nathan for our associate producer

2299

01:30:41,189 --> 01:30:39,679

the lovely and the amazing and dedicated

2300

01:30:43,830 --> 01:30:41,199

akashi chris

2301

01:30:47,030 --> 01:30:43,840

for my spirit animal the incredibly

2302

01:30:48,790 --> 01:30:47,040

funny uh flareous kevin that uh i wish i

2303

01:30:49,750 --> 01:30:48,800

was as funny as he is

2304

01:30:52,390 --> 01:30:49,760

and

2305

01:30:55,270 --> 01:30:52,400

for the studious one the one who

2306

01:30:57,510 --> 01:30:55,280

motivated akashi chris to stay up till

2307

01:30:59,830 --> 01:30:57,520

three in the morning researching

2308

01:31:00,830 --> 01:30:59,840

our very own debs

2309

01:31:04,870 --> 01:31:00,840

from

2310

01:31:09,350 --> 01:31:04,880

gryffindor at a study of uaps

2311

01:31:11,830 --> 01:31:09,360

for nathan chris kev deb dj saying

2312

01:31:14,149 --> 01:31:11,840

peace out one love

2313

01:31:15,830 --> 01:31:14,159

we'll see you down the road this group's

2314

01:31:17,830 --> 01:31:15,840

always wondering what's up around that

2315

01:31:19,200 --> 01:31:17,840

bend
