[Laughter]

12  
00:00:54,709 --> 00:00:53,039

00:02:38,070 --> 00:02:36,400

shortage of excellent material there

00:02:56,229 --> 00:02:54,080

and you will hear of it because it's

64

00:02:59,270 --> 00:02:56,239

very very good uh so you'll be seeing

their content on our podcast feed and uh

66

00:03:03,589 --> 00:03:02,159

on our sort of youtube playlists as well

67

00:03:05,270 --> 00:03:03,599

and uh we'll be having them we actually

68

00:03:06,710 --> 00:03:05,280

69

00:03:09,030 --> 00:03:06,720

show and we'll you'll be seeing more of

70

00:03:11,430 --> 00:03:09,040

them as we go on so our our little

71

00:03:12,869 --> 00:03:11,440

family is growing and we're excited to

72

00:03:15,509 --> 00:03:12,879

announce that today

73

00:03:18,229 --> 00:03:15,519

yeah so definitely uh two people both of

74

00:03:20,790 --> 00:03:18,239

them former uh college english teachers

75

00:03:24,710 --> 00:03:20,800

one creative writing the other one

76

00:03:27,190 --> 00:03:24,720

from the poetry slant shane uh at

77

00:03:29,990 --> 00:03:27,200

southern missouri these guys are they're

78

00:03:31,350 --> 00:03:30,000

very prepared they're super intelligent

79

00:03:33,190 --> 00:03:31,360

they're fun

80

00:03:35,430 --> 00:03:33,200

uh they're they may not be that well

81

00:03:37,430 --> 00:03:35,440

known now but we think they will be uh i

82

00:03:39,350 --> 00:03:37,440

i think they will be and i don't care if

83

00:03:40,949 --> 00:03:39,360

they are not i wanted them to be part of

84

00:03:42,390 --> 00:03:40,959

this uh

85

00:03:43,990 --> 00:03:42,400

because again we're not here to be

86

00:03:46,229 --> 00:03:44,000

famous we're here to have great

87

00:03:47,910 --> 00:03:46,239

conversations we thought that we were

88

00:03:51,190 --> 00:03:47,920

going to have a great conversation with

89

00:03:53,190 --> 00:03:51,200

them we did and as soon as that we got

90

00:03:56,869 --> 00:03:53,200

off air we had a meeting about having

91

00:03:59,030 --> 00:03:56,879

them join our little uh uh cab podcast

92

00:04:01,350 --> 00:03:59,040

network which is really uh nothing to

93

00:04:03,750 --> 00:04:01,360

change the universe we're really just uh

94

00:04:05,750 --> 00:04:03,760

a collection of people that uh we can

95

00:04:08,149 --> 00:04:05,760

enjoy talking to and bring other people

96

00:04:10,470 --> 00:04:08,159

into our are the spreading uh the

97

00:04:12,309 --> 00:04:10,480

positivity and our values and and bring

98

00:04:15,990 --> 00:04:12,319

other people into the circle that's all

99

00:04:18,870 --> 00:04:16,000

it is so uh with that nathan

100

00:04:22,790 --> 00:04:18,880

let's bring him on i got to this brother

101  
00:04:25,430 --> 00:04:22,800  
right here is my brother from the usaf

102  
00:04:27,510 --> 00:04:25,440  
he's my brother in aviation he's my

103  
00:04:30,790 --> 00:04:27,520  
brother in phenomenology

104  
00:04:31,909 --> 00:04:30,800  
and he's my brother in open-minded

105  
00:04:33,670 --> 00:04:31,919  
thought

106  
00:04:37,189 --> 00:04:33,680  
so party people

107  
00:04:39,590 --> 00:04:37,199  
put your hands together for the f-16

108  
00:04:51,510 --> 00:04:39,600  
pilot mr chris

109  
00:04:57,430 --> 00:04:54,230  
good to see you good to have you with us

110  
00:05:01,189 --> 00:04:58,710  
i'll tell you what it's it's been a

111  
00:05:02,950 --> 00:05:01,199  
while man since we had john with troy i

112  
00:05:05,510 --> 00:05:02,960  
just got a text from troy the other day

113  
00:05:08,710 --> 00:05:05,520

he's probably flying his ass off with uh

114

00:05:11,189 --> 00:05:08,720

fedex right now uh going across the pond

115

00:05:13,430 --> 00:05:11,199

uh but i had a question for you to kick

116

00:05:15,430 --> 00:05:13,440

things off uh chris

117

00:05:19,029 --> 00:05:15,440

uh i know that you have a project going

118

00:05:21,270 --> 00:05:19,039

on with alexei i rewatched your episode

119

00:05:23,110 --> 00:05:21,280

with artisan tony uh that's why i'm

120

00:05:25,590 --> 00:05:23,120

artisan dj today

121

00:05:27,189 --> 00:05:25,600

because i make skin care formula i mean

122

00:05:30,070 --> 00:05:27,199

i from scratch

123

00:05:31,350 --> 00:05:30,080

and i i think that qualifies me right as

124

00:05:33,350 --> 00:05:31,360

an artisan

125

00:05:36,070 --> 00:05:33,360

maybe no what

126

00:05:38,950 --> 00:05:36,080

what i'm come on what do you make what

127

00:05:41,189 --> 00:05:38,960

is this hold on dj skin care formula uh

128

00:05:43,270 --> 00:05:41,199

anybody yep

129

00:05:45,749 --> 00:05:43,280

he's not joking either no i'm not i

130

00:05:48,790 --> 00:05:45,759

don't have a can of it i think it counts

131

00:05:52,629 --> 00:05:48,800

legit yeah i make it from scratch

132

00:05:55,350 --> 00:05:52,639

nathan has some and smells great yeah

133

00:05:58,469 --> 00:05:55,360

and uh also are there any benefits

134

00:05:59,510 --> 00:05:58,479

yes uh if you see a photo of me from 10

135

00:06:01,749 --> 00:05:59,520

years ago

136

00:06:03,830 --> 00:06:01,759

my face when i was active duty and see

137

00:06:07,749 --> 00:06:03,840

my face today i probably look younger

138

00:06:09,990 --> 00:06:07,759

today i swear what's in it what um

139

00:06:12,150 --> 00:06:10,000

sunflower oil don't give it all the way

140

00:06:13,830 --> 00:06:12,160

dj no no no no no no no no

141

00:06:15,430 --> 00:06:13,840

it says on the can what's in there

142

00:06:17,510 --> 00:06:15,440

anybody's free to do that i don't you

143

00:06:19,670 --> 00:06:17,520

know make your own um

144

00:06:21,189 --> 00:06:19,680

organic sunflower oil organic shea

145

00:06:23,590 --> 00:06:21,199

butter from ghana

146

00:06:26,790 --> 00:06:23,600

uh organic beeswax

147

00:06:29,189 --> 00:06:26,800

um and uh i put an essential oil in it

148

00:06:31,029 --> 00:06:29,199

called on guard from doterra

149

00:06:33,909 --> 00:06:31,039

i know that essential oil so those

150

00:06:35,670 --> 00:06:33,919

ingredients is is all that it is but it

151  
00:06:37,909 --> 00:06:35,680  
has peppermint and something else in it

152  
00:06:39,909 --> 00:06:37,919  
right it has several different oils it's

153  
00:06:42,469 --> 00:06:39,919  
a confluence of oils that they put

154  
00:06:44,629 --> 00:06:42,479  
together uh and it it works

155  
00:06:46,950 --> 00:06:44,639  
great i mean you can drink you can drink

156  
00:06:48,469 --> 00:06:46,960  
uh a doterra on guard if you put it in

157  
00:06:51,029 --> 00:06:48,479  
water but anyway

158  
00:06:53,830 --> 00:06:51,039  
um so i'm an artisan i mean artisan

159  
00:06:56,230 --> 00:06:53,840  
county what's up brother so anyway i

160  
00:06:58,550 --> 00:06:56,240  
hope artisan tony is here is he here

161  
00:07:01,350 --> 00:06:58,560  
i wish he was i'd like but he might be i

162  
00:07:03,990 --> 00:07:01,360  
don't know um but anyway chris so you

163  
00:07:05,830 --> 00:07:04,000

know given that you're starting this uh

164

00:07:07,589 --> 00:07:05,840

you have this collaboration with alexa

165

00:07:10,150 --> 00:07:07,599

which i think is amazing because you

166

00:07:13,029 --> 00:07:10,160

guys are so great on air together do you

167

00:07:15,189 --> 00:07:13,039

you know given the uh incredible hair

168

00:07:18,790 --> 00:07:15,199

game that he has do you feel any

169

00:07:21,909 --> 00:07:18,800

pressure um to up your hair game in

170

00:07:26,150 --> 00:07:21,919

order to hang out with alexa do you feel

171

00:07:29,990 --> 00:07:27,670

that's actually a pretty good question

172

00:07:31,749 --> 00:07:30,000

um

173

00:07:34,309 --> 00:07:31,759

i think i'm good i think i'm good okay

174

00:07:36,230 --> 00:07:34,319

so i mean if you need to ask a lot i met

175

00:07:39,110 --> 00:07:36,240

him personally we hung out

176

00:07:41,029 --> 00:07:39,120

we had this amazing romantic night in uh

177

00:07:42,469 --> 00:07:41,039

disney world i went to disney world in

178

00:07:45,110 --> 00:07:42,479

january like during the height of the

179

00:07:46,710 --> 00:07:45,120

pandemic we did our family you know once

180

00:07:48,950 --> 00:07:46,720

in a lifetime trip there

181

00:07:51,029 --> 00:07:48,960

and uh met with alexei

182

00:07:53,029 --> 00:07:51,039

and he had this uh

183

00:07:54,950 --> 00:07:53,039

he invented or created an electric

184

00:07:57,350 --> 00:07:54,960

hoverboard which is a electric

185

00:07:59,270 --> 00:07:57,360

skateboard right and you have a little

186

00:08:01,189 --> 00:07:59,280

controller on it that makes it go faster

187

00:08:02,710 --> 00:08:01,199

or slows you down going downhill it's

188

00:08:05,749 --> 00:08:02,720

actually very useful

189

00:08:08,150 --> 00:08:05,759

um and so we rode it all around uh you

190

00:08:10,710 --> 00:08:08,160

know the the outer areas of universal

191

00:08:12,869 --> 00:08:10,720

studio sorry it was universal studios

192

00:08:14,629 --> 00:08:12,879

and we saw like this big

193

00:08:17,270 --> 00:08:14,639

fire in the sky or so he's like what's

194

00:08:19,670 --> 00:08:17,280

that i swear to god and like uh i'm like

195

00:08:22,150 --> 00:08:19,680

i don't know and it was looked like a

196

00:08:24,550 --> 00:08:22,160

comet you know like going really slow

197

00:08:26,390 --> 00:08:24,560

uh if it was you know some sort of

198

00:08:28,230 --> 00:08:26,400

spacex re-entry thing

199

00:08:30,150 --> 00:08:28,240

um and to where i was like everybody

200

00:08:31,270 --> 00:08:30,160

start filming i like yelled everybody

201  
00:08:35,430 --> 00:08:31,280  
around like

202  
00:08:38,469 --> 00:08:36,630  
all right everybody look at me like that

203  
00:08:40,550 --> 00:08:38,479  
was crazy man they just like ran off i

204  
00:08:42,790 --> 00:08:40,560  
was like no no you you i'm serious

205  
00:08:45,110 --> 00:08:42,800  
everyone he sounded like johnny utah

206  
00:08:46,070 --> 00:08:45,120  
prepared people did not help me they ran

207  
00:08:48,310 --> 00:08:46,080  
out

208  
00:08:49,590 --> 00:08:48,320  
actually and and and so we finished and

209  
00:08:51,430 --> 00:08:49,600  
we're and then we're like hey are we

210  
00:08:53,110 --> 00:08:51,440  
crazy man like uh

211  
00:08:55,030 --> 00:08:53,120  
and this guy comes up and he's like did

212  
00:08:58,150 --> 00:08:55,040  
you guys see that

213  
00:08:59,670 --> 00:08:58,160

what was that like a meteor or something

214

00:09:02,389 --> 00:08:59,680

so i don't know you can ask alexa about

215

00:09:04,150 --> 00:09:02,399

it but uh wild he's dope one time we've

216

00:09:06,630 --> 00:09:04,160

hung out man and uh yeah we're gonna

217

00:09:11,110 --> 00:09:06,640

hang out in uh the megacon i put this up

218

00:09:12,550 --> 00:09:11,120

behind me uh may 27th

219

00:09:14,389 --> 00:09:12,560

he's coming up man we got an event

220

00:09:16,070 --> 00:09:14,399

planned it's gonna be big you guys are

221

00:09:17,509 --> 00:09:16,080

headed out to the ranch man you might be

222

00:09:21,110 --> 00:09:17,519

near the ranch right

223

00:09:22,949 --> 00:09:21,120

uh it's hosted by blind uh blind frog uh

224

00:09:25,350 --> 00:09:22,959

ranch okay

225

00:09:27,590 --> 00:09:25,360

so and it'll be at blind fog ranch

226

00:09:28,710 --> 00:09:27,600

outpost which is like in front of utah

227

00:09:30,310 --> 00:09:28,720

so i don't

228

00:09:32,230 --> 00:09:30,320

know we will we will look forward to

229

00:09:34,230 --> 00:09:32,240

your updates there uh and now that

230

00:09:36,470 --> 00:09:34,240

you've answered my ridiculousness no

231

00:09:38,470 --> 00:09:36,480

moose no gel no hair care anything let

232

00:09:40,710 --> 00:09:38,480

me pass it over to money nathan

233

00:09:42,150 --> 00:09:40,720

yeah chris great to see you again uh we

234

00:09:43,670 --> 00:09:42,160

usually end the show like this but i

235

00:09:45,350 --> 00:09:43,680

would like to start the show like this

236

00:09:46,470 --> 00:09:45,360

so tell us what you're working on right

237

00:09:48,470 --> 00:09:46,480

now because i think a lot of the

238

00:09:51,110 --> 00:09:48,480

questions we're going to get into if

239

00:09:53,110 --> 00:09:51,120

revolve around your current interests

240

00:09:54,389 --> 00:09:53,120

and not just like what you're studying

241

00:09:56,230 --> 00:09:54,399

but the community that you're kind of

242

00:09:58,630 --> 00:09:56,240

building so tell us a little bit about

243

00:10:00,470 --> 00:09:58,640

what's going on in your universe

244

00:10:02,949 --> 00:10:00,480

awesome man yeah it's uh it's been

245

00:10:05,269 --> 00:10:02,959

non-stop you know um

246

00:10:07,350 --> 00:10:05,279

i'm super excited about it actually so i

247

00:10:09,670 --> 00:10:07,360

started my youtube channel and

248

00:10:11,269 --> 00:10:09,680

the first videos i made was about nfts

249

00:10:14,389 --> 00:10:11,279

actually and it was about uh blockchain

250

00:10:16,470 --> 00:10:14,399

technology um i was you know i i wanted

251  
00:10:18,630 --> 00:10:16,480  
to be like maybe a futurist i was kind

252  
00:10:20,710 --> 00:10:18,640  
of interested in that future technology

253  
00:10:23,030 --> 00:10:20,720  
so in and investing so i was talking

254  
00:10:23,990 --> 00:10:23,040  
about why you know i invested in tesla

255  
00:10:26,630 --> 00:10:24,000  
and

256  
00:10:29,190 --> 00:10:26,640  
uh what what the next technologies will

257  
00:10:31,350 --> 00:10:29,200  
basically be um the five kind of

258  
00:10:33,910 --> 00:10:31,360  
revolutionary technologies and there's a

259  
00:10:35,750 --> 00:10:33,920  
big argument from arc invest that

260  
00:10:37,670 --> 00:10:35,760  
basically there's five main technologies

261  
00:10:40,069 --> 00:10:37,680  
that are coming together you know it's

262  
00:10:42,870 --> 00:10:40,079  
basically artificial intelligence uh

263  
00:10:44,550 --> 00:10:42,880

blockchain uh technology

264

00:10:46,630 --> 00:10:44,560

robotics

265

00:10:49,829 --> 00:10:46,640

battery technology

266

00:10:50,710 --> 00:10:49,839

um and then the fifth one is

267

00:10:51,910 --> 00:10:50,720

uh

268

00:10:53,990 --> 00:10:51,920

i can't remember

269

00:10:56,230 --> 00:10:54,000

anyway uh blockchain technology so

270

00:10:58,389 --> 00:10:56,240

really was what i kind of went through

271

00:11:00,310 --> 00:10:58,399

for um

272

00:11:02,630 --> 00:11:00,320

my initial start of my channel so i did

273

00:11:03,590 --> 00:11:02,640

some i really researched it

274

00:11:04,949 --> 00:11:03,600

because i think it's the way of the

275

00:11:08,069 --> 00:11:04,959

future um

276

00:11:09,990 --> 00:11:08,079

it's web 3.0 it's really what it is and

277

00:11:11,430 --> 00:11:10,000

nfts is just once

278

00:11:12,310 --> 00:11:11,440

i think very important part of that

279

00:11:16,949 --> 00:11:12,320

whole

280

00:11:19,030 --> 00:11:16,959

revolution coming essentially well when

281

00:11:21,430 --> 00:11:19,040

you say web 3.0 and i've heard that used

282

00:11:23,829 --> 00:11:21,440

a lot so can you distill that down what

283

00:11:25,990 --> 00:11:23,839

does that mean for folks yeah so web one

284

00:11:28,870 --> 00:11:26,000

is basically one-way information that

285

00:11:30,389 --> 00:11:28,880

was like dial-up you know so you dial up

286

00:11:32,069 --> 00:11:30,399

there's a simple web page there you

287

00:11:35,110 --> 00:11:32,079

can't really interact with it right it's

288

00:11:36,870 --> 00:11:35,120

kind of that was web 1.0 web 2.0 is

289

00:11:37,750 --> 00:11:36,880

basically what we're at right now so

290

00:11:40,230 --> 00:11:37,760

basically

291

00:11:41,990 --> 00:11:40,240

it's uh we're interacting

292

00:11:46,150 --> 00:11:42,000

um but there's usually there's some sort

293

00:11:47,030 --> 00:11:46,160

of intermediary between us um still slow

294

00:11:48,710 --> 00:11:47,040

um

295

00:11:51,350 --> 00:11:48,720

it's like social media apps you think of

296

00:11:54,790 --> 00:11:51,360

that that's web 2.0 the internet is you

297

00:11:57,030 --> 00:11:54,800

know two-way so web 3.0 uh is basically

298

00:11:59,350 --> 00:11:57,040

going to be the next version of that and

299

00:12:02,790 --> 00:11:59,360

so the idea is you're going to have um

300

00:12:04,230 --> 00:12:02,800

verified trust in digital digital things

301  
00:12:06,389 --> 00:12:04,240  
that's really what it brings at least

302  
00:12:07,990 --> 00:12:06,399  
for nft technology is now we can

303  
00:12:10,150 --> 00:12:08,000  
actually verify things

304  
00:12:12,470 --> 00:12:10,160  
um and we can set up basically

305  
00:12:14,470 --> 00:12:12,480  
autonomous organizations uh where you

306  
00:12:16,949 --> 00:12:14,480  
can set up smart contracts where artists

307  
00:12:19,590 --> 00:12:16,959  
are paid you know right now uh if an

308  
00:12:21,110 --> 00:12:19,600  
artist sells like a music

309  
00:12:23,670 --> 00:12:21,120  
as an nft

310  
00:12:27,030 --> 00:12:23,680  
um it's working well in photography

311  
00:12:28,790 --> 00:12:27,040  
right they sell their art as a nft the

312  
00:12:30,230 --> 00:12:28,800  
cash comes right to them

313  
00:12:31,990 --> 00:12:30,240

immediately to their wallet wherever

314

00:12:33,269 --> 00:12:32,000

they are in the world right you know

315

00:12:35,190 --> 00:12:33,279

basically last week i was at this big

316

00:12:36,949 --> 00:12:35,200

conference in lisbon and this artist

317

00:12:39,350 --> 00:12:36,959

carlos uh manias

318

00:12:41,030 --> 00:12:39,360

is a now he's a world famous um nft

319

00:12:42,310 --> 00:12:41,040

artist from mexico

320

00:12:43,829 --> 00:12:42,320

because he was he was crying there

321

00:12:46,150 --> 00:12:43,839

essentially he said when he saw his art

322

00:12:48,230 --> 00:12:46,160

in a gallery in the metaverse uh it

323

00:12:50,230 --> 00:12:48,240

basically made him cry because he was uh

324

00:12:52,389 --> 00:12:50,240

you know it made such an impact um so

325

00:12:55,509 --> 00:12:52,399

web 3.0 will be the

326

00:12:58,310 --> 00:12:55,519

it'll link us uh directly uh to remove

327

00:12:59,990 --> 00:12:58,320

all the intermediaries you know your um

328

00:13:01,350 --> 00:13:00,000

the problem is your bureaucracies is

329

00:13:02,710 --> 00:13:01,360

what's going to slow

330

00:13:03,750 --> 00:13:02,720

slow countries down i think that's

331

00:13:05,590 --> 00:13:03,760

what's going to kill them you know

332

00:13:08,150 --> 00:13:05,600

really it's the crushing bureaucracy

333

00:13:09,670 --> 00:13:08,160

that tumbles and tumbles uh

334

00:13:11,829 --> 00:13:09,680

countries you know so

335

00:13:14,230 --> 00:13:11,839

uh this effectively removes that so

336

00:13:15,990 --> 00:13:14,240

whatever companies or countries will

337

00:13:17,509 --> 00:13:16,000

will move to this quicker

338

00:13:21,430 --> 00:13:17,519

right they're gonna be just that much

339

00:13:24,470 --> 00:13:21,440

level faster in magnitudes of speed of

340

00:13:25,190 --> 00:13:24,480

bureaucracy and much more efficient

341

00:13:27,910 --> 00:13:25,200

so

342

00:13:29,670 --> 00:13:27,920

it's undoubtedly the future um

343

00:13:31,190 --> 00:13:29,680

i mean i would bet my life on it at this

344

00:13:33,590 --> 00:13:31,200

point honestly

345

00:13:35,590 --> 00:13:33,600

the technology is there

346

00:13:37,750 --> 00:13:35,600

so what i'm trying to do is create use

347

00:13:39,910 --> 00:13:37,760

that decentralized technology

348

00:13:41,189 --> 00:13:39,920

and get in at the base level right get

349

00:13:42,710 --> 00:13:41,199

in um

350

00:13:45,110 --> 00:13:42,720

while they're creating the technology

351

00:13:47,430 --> 00:13:45,120

now and try and orient it towards like

352

00:13:49,990 --> 00:13:47,440

good you know orient it towards

353

00:13:51,670 --> 00:13:50,000

uh open source getting science

354

00:13:53,670 --> 00:13:51,680

information right getting science for

355

00:13:56,069 --> 00:13:53,680

the people so we can build understanding

356

00:13:58,230 --> 00:13:56,079

and write ourselves into the future

357

00:14:00,150 --> 00:13:58,240

write humans into the code essentially

358

00:14:01,910 --> 00:14:00,160

and to be good to the planet like i went

359

00:14:03,350 --> 00:14:01,920

to this last these last two conferences

360

00:14:05,189 --> 00:14:03,360

i went to it was super fun we're like

361

00:14:07,030 --> 00:14:05,199

having it was like the amazing amazing

362

00:14:09,670 --> 00:14:07,040

parties everybody was it was like you're

363

00:14:11,030 --> 00:14:09,680

in san francisco in 98 you know 99

364

00:14:13,189 --> 00:14:11,040

right before the big blow up everyone's

365

00:14:14,389 --> 00:14:13,199

so excited the technology is obviously

366

00:14:16,710 --> 00:14:14,399

proven

367

00:14:18,790 --> 00:14:16,720

um but i didn't see one mention of the

368

00:14:20,710 --> 00:14:18,800

word science and i didn't see one

369

00:14:22,949 --> 00:14:20,720

mentioned the word education

370

00:14:26,230 --> 00:14:22,959

you know it's all it's all it was sports

371

00:14:28,310 --> 00:14:26,240

casino gambling um pay to earn games

372

00:14:29,670 --> 00:14:28,320

play to earn

373

00:14:31,189 --> 00:14:29,680

what did that what did that say to you

374

00:14:32,150 --> 00:14:31,199

chris if i can

375

00:14:33,750 --> 00:14:32,160

i got

376

00:14:35,910 --> 00:14:33,760

i almost wanted to stand up and just

377

00:14:37,269 --> 00:14:35,920

yell decide like i'm going to do that

378

00:14:39,350 --> 00:14:37,279

next conference man if there's not the

379

00:14:40,949 --> 00:14:39,360

word science up there i'm going to yell

380

00:14:43,269 --> 00:14:40,959

decide you know so we're trying to

381

00:14:45,110 --> 00:14:43,279

create decentralized science right

382

00:14:46,470 --> 00:14:45,120

because d5 if you've if you're in the

383

00:14:50,629 --> 00:14:46,480

crypto world at all which you will be

384

00:14:53,189 --> 00:14:51,670

just wait

385

00:14:54,550 --> 00:14:53,199

uh so

386

00:14:56,470 --> 00:14:54,560

d5 is what everybody's talking about

387

00:14:58,310 --> 00:14:56,480

decentralized finance

388

00:15:01,670 --> 00:14:58,320

um and that's really that's been the

389

00:15:04,230 --> 00:15:01,680

huge buzzword now yeah but no one's even

390

00:15:06,069 --> 00:15:04,240

heard of desai right um in the crypto

391

00:15:07,350 --> 00:15:06,079

world because it doesn't exist because

392

00:15:08,470 --> 00:15:07,360

they don't give a [h\_\_\h] you know they're

393

00:15:10,069 --> 00:15:08,480

just like doing the same thing we've

394

00:15:11,590 --> 00:15:10,079

always done we're gonna optimize for

395

00:15:14,069 --> 00:15:11,600

profit you know we're not going to

396

00:15:16,389 --> 00:15:14,079

consider the planet uh i mean they

397

00:15:19,509 --> 00:15:16,399

mention it they talk about ecolog

398

00:15:20,389 --> 00:15:19,519

ecological things you know and

399

00:15:22,230 --> 00:15:20,399

but

400

00:15:23,750 --> 00:15:22,240

yeah anyway that's the whole project is

401  
00:15:25,590 --> 00:15:23,760  
to start and i think we can leverage

402  
00:15:27,509 --> 00:15:25,600  
this whole decentralized movement

403  
00:15:29,430 --> 00:15:27,519  
leverage the technology create a

404  
00:15:31,590 --> 00:15:29,440  
community focused on getting the the

405  
00:15:32,790 --> 00:15:31,600  
truth right through evidence scientific

406  
00:15:34,470 --> 00:15:32,800  
evidence

407  
00:15:36,470 --> 00:15:34,480  
and we can't it can't be censored right

408  
00:15:39,269 --> 00:15:36,480  
because if it's decentralized it can be

409  
00:15:41,350 --> 00:15:39,279  
censored and anyone on the globe with an

410  
00:15:42,150 --> 00:15:41,360  
internet connection can't participate

411  
00:15:43,509 --> 00:15:42,160  
you know

412  
00:15:45,990 --> 00:15:43,519  
you can get to an internet connection

413  
00:15:47,749 --> 00:15:46,000

you can create a wallet and now you can

414

00:15:50,310 --> 00:15:47,759

purchase if you can get money into the

415

00:15:51,670 --> 00:15:50,320

crypto system now you can purchase

416

00:15:54,150 --> 00:15:51,680

um

417

00:15:55,910 --> 00:15:54,160

an nft you can participate you can join

418

00:15:58,230 --> 00:15:55,920

and that money will be used to find

419

00:16:00,230 --> 00:15:58,240

evidence and if that asset if that nft

420

00:16:02,470 --> 00:16:00,240

goes up in value then you can sell it

421

00:16:03,990 --> 00:16:02,480

for a profit

422

00:16:06,069 --> 00:16:04,000

so and the number one thing they're

423

00:16:08,230 --> 00:16:06,079

looking for in a

424

00:16:10,949 --> 00:16:08,240

successful project the investors the nft

425

00:16:13,110 --> 00:16:10,959

investors the traders is a strong

426  
00:16:14,310 --> 00:16:13,120  
community right a community devoted to

427  
00:16:15,590 --> 00:16:14,320  
the mission really is what they're

428  
00:16:16,949 --> 00:16:15,600  
looking for and that's the one thing

429  
00:16:18,790 --> 00:16:16,959  
they're looking for so that's all we

430  
00:16:20,790 --> 00:16:18,800  
need is to create a strong community

431  
00:16:21,749 --> 00:16:20,800  
that's all really just uh there because

432  
00:16:23,509 --> 00:16:21,759  
the scientists are already there you

433  
00:16:25,030 --> 00:16:23,519  
already have uapx you know we have all

434  
00:16:26,550 --> 00:16:25,040  
these smart superstar scientists what do

435  
00:16:28,710 --> 00:16:26,560  
they need funding right they can't get

436  
00:16:32,310 --> 00:16:28,720  
enough money there's not enough funding

437  
00:16:33,829 --> 00:16:32,320  
anywhere um to do it so the point is

438  
00:16:35,749 --> 00:16:33,839

bring them to the community bring

439

00:16:37,990 --> 00:16:35,759

everybody to the community who wants it

440

00:16:40,150 --> 00:16:38,000

and then now create the community of

441

00:16:43,030 --> 00:16:40,160

open source information

442

00:16:44,790 --> 00:16:43,040

and the nft money will flow in like we

443

00:16:46,949 --> 00:16:44,800

will use the initial money to market

444

00:16:48,870 --> 00:16:46,959

into the nft community and if they see a

445

00:16:50,550 --> 00:16:48,880

strong community there

446

00:16:52,069 --> 00:16:50,560

then it can easily work it can easily

447

00:16:53,910 --> 00:16:52,079

work i mean there's just so much bs and

448

00:16:55,430 --> 00:16:53,920

nft space that's why everyone thinks

449

00:16:56,790 --> 00:16:55,440

it's bs because there's so much [h\_\_h]

450

00:16:58,550 --> 00:16:56,800

like um

451  
00:17:00,790 --> 00:16:58,560  
yeah because you can just create a

452  
00:17:02,069 --> 00:17:00,800  
product immediately you know and it

453  
00:17:03,430 --> 00:17:02,079  
doesn't have to really be anything

454  
00:17:05,429 --> 00:17:03,440  
behind it most of these people aren't

455  
00:17:07,029 --> 00:17:05,439  
even doxxed you know they're not even

456  
00:17:08,710 --> 00:17:07,039  
online nobody knows who they are yeah

457  
00:17:10,549 --> 00:17:08,720  
you know and they'll so they just cr you

458  
00:17:12,309 --> 00:17:10,559  
can create just pop up pop up things

459  
00:17:14,949 --> 00:17:12,319  
very easily quickly

460  
00:17:16,870 --> 00:17:14,959  
um and then just run and nobody knows

461  
00:17:18,710 --> 00:17:16,880  
who you really are um so but we're

462  
00:17:21,029 --> 00:17:18,720  
coming out the date like here we are

463  
00:17:22,949 --> 00:17:21,039

right here's the people you know just

464

00:17:25,909 --> 00:17:22,959

bring the money and we can decentralize

465

00:17:29,830 --> 00:17:25,919

it and uh for science so we'll basically

466

00:17:30,870 --> 00:17:29,840

we're gonna launch this very soon um

467

00:17:32,390 --> 00:17:30,880

and so

468

00:17:34,230 --> 00:17:32,400

it's going to be on the discord it's

469

00:17:35,270 --> 00:17:34,240

going to be started on the discord

470

00:17:36,950 --> 00:17:35,280

that's where the community is going to

471

00:17:38,310 --> 00:17:36,960

be and that's how we'll use that to

472

00:17:39,830 --> 00:17:38,320

communicate

473

00:17:41,830 --> 00:17:39,840

to vote for you can put science

474

00:17:44,310 --> 00:17:41,840

proposals up there like say you have

475

00:17:45,430 --> 00:17:44,320

some proposal

476  
00:17:47,430 --> 00:17:45,440  
for whatever you're going to do

477  
00:17:49,830 --> 00:17:47,440  
scientifically and now you can put it up

478  
00:17:52,310 --> 00:17:49,840  
there and we can vote as a community

479  
00:17:54,230 --> 00:17:52,320  
and with the funds now you can use nfts

480  
00:17:55,750 --> 00:17:54,240  
we still need to establish this but it's

481  
00:17:57,350 --> 00:17:55,760  
that is what a dow is a decentralized

482  
00:18:01,110 --> 00:17:57,360  
autonomous organization

483  
00:18:02,789 --> 00:18:01,120  
use these nfts to invest the funds

484  
00:18:04,230 --> 00:18:02,799  
so basically that's how it is yeah

485  
00:18:06,710 --> 00:18:04,240  
here's the question is

486  
00:18:10,150 --> 00:18:06,720  
what is the best place to invest money

487  
00:18:12,549 --> 00:18:10,160  
right now if you want to take part in

488  
00:18:14,070 --> 00:18:12,559

uh getting evidence for uaps or finding

489

00:18:16,150 --> 00:18:14,080

the truth

490

00:18:17,990 --> 00:18:16,160

what's your best avenue

491

00:18:19,510 --> 00:18:18,000

yeah i mean i would i guess

492

00:18:21,270 --> 00:18:19,520

without knowing a lot about what you

493

00:18:25,270 --> 00:18:21,280

just talked about i would say either

494

00:18:27,750 --> 00:18:25,280

uapx or galileo right it's

495

00:18:29,750 --> 00:18:27,760

yeah but how do you give it to them i

496

00:18:31,270 --> 00:18:29,760

guess you could find uapx

497

00:18:33,029 --> 00:18:31,280

right that's a good question i mean i

498

00:18:35,190 --> 00:18:33,039

guess you could cut them a check and

499

00:18:36,789 --> 00:18:35,200

just hope that they you use the phones

500

00:18:38,710 --> 00:18:36,799

wisely right that's

501  
00:18:40,549 --> 00:18:38,720  
yeah yeah but then you don't you don't

502  
00:18:42,950 --> 00:18:40,559  
have any say really in how it's even

503  
00:18:45,190 --> 00:18:42,960  
executed right you know what i'm saying

504  
00:18:46,549 --> 00:18:45,200  
um because then they have to sign nda

505  
00:18:48,950 --> 00:18:46,559  
agreements right because maybe they're

506  
00:18:50,710 --> 00:18:48,960  
they're not funded correctly you know so

507  
00:18:53,110 --> 00:18:50,720  
then you you wait

508  
00:18:55,110 --> 00:18:53,120  
but in this instance you can invest

509  
00:18:57,510 --> 00:18:55,120  
right into an nft

510  
00:18:59,750 --> 00:18:57,520  
50 of the funds will automatically go or

511  
00:19:01,750 --> 00:18:59,760  
the max we can possibly do but i still

512  
00:19:03,190 --> 00:19:01,760  
need to incentivize people to want to go

513  
00:19:04,789 --> 00:19:03,200

for profit you know

514

00:19:06,310 --> 00:19:04,799

it has to be profitable if it's not

515

00:19:07,669 --> 00:19:06,320

profitable it's not going to happen

516

00:19:09,190 --> 00:19:07,679

right you know that's the problem

517

00:19:11,990 --> 00:19:09,200

because like our science funding right

518

00:19:13,830 --> 00:19:12,000

now the the universities are going under

519

00:19:16,470 --> 00:19:13,840

essentially because they're a for-profit

520

00:19:17,909 --> 00:19:16,480

right but the science is not the science

521

00:19:21,110 --> 00:19:17,919

not-for-profit the only ones like

522

00:19:22,789 --> 00:19:21,120

funding the science is your your like

523

00:19:24,789 --> 00:19:22,799

fossil fuel companies and your weapons

524

00:19:26,710 --> 00:19:24,799

manufacturers right you know

525

00:19:28,870 --> 00:19:26,720

so this would be a way to put the money

526

00:19:30,870 --> 00:19:28,880

in and it's open source so you can see

527

00:19:33,830 --> 00:19:30,880

what the projects are funded

528

00:19:36,630 --> 00:19:33,840

um because it's it's

529

00:19:40,230 --> 00:19:36,640

in the end it should be decentralized

530

00:19:43,110 --> 00:19:40,240

so chris the the issue with the the um

531

00:19:45,909 --> 00:19:43,120

the nft cash in and the guy that was on

532

00:19:47,990 --> 00:19:45,919

profiled on netflix who died in india

533

00:19:50,070 --> 00:19:48,000

that was like an intermediary company

534

00:19:52,150 --> 00:19:50,080

right where you would use him to to cash

535

00:19:54,310 --> 00:19:52,160

out is that what that was are you

536

00:19:56,630 --> 00:19:54,320

familiar with that documentary is anyone

537

00:19:58,390 --> 00:19:56,640

here yeah i don't know

538

00:20:01,029 --> 00:19:58,400

yeah it's it's very recent but it's a

539

00:20:02,789 --> 00:20:01,039

young man who had a company and i'll

540

00:20:05,110 --> 00:20:02,799

have to i would have to google it while

541

00:20:07,590 --> 00:20:05,120

while somebody's talking uh but

542

00:20:09,270 --> 00:20:07,600

basically it was a company that was uh

543

00:20:11,510 --> 00:20:09,280

allowing you like there was a guy in san

544

00:20:13,029 --> 00:20:11,520

francisco he needed to cash out like

545

00:20:14,630 --> 00:20:13,039

400k

546

00:20:17,669 --> 00:20:14,640

worth of um

547

00:20:20,470 --> 00:20:17,679

worth of his uh bitcoin and it ended up

548

00:20:22,310 --> 00:20:20,480

that that guy took the money but then uh

549

00:20:24,470 --> 00:20:22,320

went was gone and and nothing happened

550

00:20:27,669 --> 00:20:24,480

he never got his money that guy ended up

551

00:20:30,230 --> 00:20:27,679

going on a trip to india and uh

552

00:20:32,390 --> 00:20:30,240

sadly tragically uh maybe not for some

553

00:20:35,669 --> 00:20:32,400

of the people he built but he died

554

00:20:38,149 --> 00:20:35,679

while he was in india and um so anyway i

555

00:20:41,270 --> 00:20:38,159

just uh i don't know if that's like the

556

00:20:43,990 --> 00:20:41,280

cash out services you know is is that a

557

00:20:46,149 --> 00:20:44,000

thing like are you aware of cash out

558

00:20:46,950 --> 00:20:46,159

services how you transfer your money

559

00:20:49,750 --> 00:20:46,960

into

560

00:20:51,029 --> 00:20:49,760

actual cash

561

00:20:53,190 --> 00:20:51,039

i mean i think that's probably that's

562

00:20:55,350 --> 00:20:53,200

the hardest part right now is once your

563

00:20:57,430 --> 00:20:55,360

money is into the system

564

00:20:58,789 --> 00:20:57,440

we call it it's called fiat right once

565

00:21:01,350 --> 00:20:58,799

your fiat

566

00:21:03,430 --> 00:21:01,360

is turned into crypto

567

00:21:04,789 --> 00:21:03,440

now it's super liquid you can move it

568

00:21:06,870 --> 00:21:04,799

around you can do whatever what you want

569

00:21:08,950 --> 00:21:06,880

with it in just a few minutes you know

570

00:21:10,630 --> 00:21:08,960

really um

571

00:21:14,470 --> 00:21:10,640

it yeah

572

00:21:16,310 --> 00:21:14,480

and so but the problem is if it's

573

00:21:18,149 --> 00:21:16,320

if you want to use it in the real world

574

00:21:19,750 --> 00:21:18,159

until there's crypto services that

575

00:21:20,870 --> 00:21:19,760

accept crypto right i think you know

576

00:21:23,029 --> 00:21:20,880

tesla said they were going to accept

577

00:21:25,590 --> 00:21:23,039

bitcoin last year and that kind of went

578

00:21:27,029 --> 00:21:25,600

everything up in a tizzy right

579

00:21:29,750 --> 00:21:27,039

because then they would be able to pay

580

00:21:33,029 --> 00:21:29,760

direct uh from crypto to crypto

581

00:21:34,390 --> 00:21:33,039

and not having to go into fiat right um

582

00:21:36,149 --> 00:21:34,400

because that's where the government

583

00:21:37,750 --> 00:21:36,159

since they're behind the ball right they

584

00:21:40,149 --> 00:21:37,760

taxed us all for crypto last year but

585

00:21:42,390 --> 00:21:40,159

they didn't provide any security right

586

00:21:45,350 --> 00:21:42,400

we still get scammed all the time

587

00:21:47,430 --> 00:21:45,360

uh or did um but they taxed this

588

00:21:49,430 --> 00:21:47,440

um you know the governments they have

589

00:21:51,909 --> 00:21:49,440

their they know all the fiat

590

00:21:53,350 --> 00:21:51,919

ways you know they they know how the

591

00:21:55,350 --> 00:21:53,360

banks work they know how to track you

592

00:21:57,190 --> 00:21:55,360

down how to audit you and everything

593

00:21:58,870 --> 00:21:57,200

um so that's really the sticking points

594

00:22:01,110 --> 00:21:58,880

where it's getting money into the system

595

00:22:01,990 --> 00:22:01,120

and getting money out of the system

596

00:22:03,590 --> 00:22:02,000

um

597

00:22:06,310 --> 00:22:03,600

but if you're like out in the middle of

598

00:22:08,310 --> 00:22:06,320

africa just go with crypto

599

00:22:11,190 --> 00:22:08,320

i know you can accept crypto someone

600

00:22:12,630 --> 00:22:11,200

comes around here's some crypto you know

601  
00:22:15,029 --> 00:22:12,640  
as long as they accept it at the next

602  
00:22:16,310 --> 00:22:15,039  
next spot over here's some bitcoin

603  
00:22:18,630 --> 00:22:16,320  
you know that's why you wouldn't even

604  
00:22:20,070 --> 00:22:18,640  
need any governments at that point if

605  
00:22:22,149 --> 00:22:20,080  
you consider it that's why that's what

606  
00:22:24,390 --> 00:22:22,159  
terrifies them you know is we're not

607  
00:22:26,070 --> 00:22:24,400  
needed right yeah i mean you still be

608  
00:22:27,909 --> 00:22:26,080  
needed to regulate it because at any

609  
00:22:29,750 --> 00:22:27,919  
point someone could just grab you bring

610  
00:22:31,110 --> 00:22:29,760  
you over to the to the console or

611  
00:22:32,950 --> 00:22:31,120  
whatever and steal all your money you

612  
00:22:34,549 --> 00:22:32,960  
know just hey send this to me

613  
00:22:36,390 --> 00:22:34,559

um i mean we so we still need

614

00:22:38,070 --> 00:22:36,400

governments um it's just they're gonna

615

00:22:40,630 --> 00:22:38,080

it's gonna be very uncomfortable for

616

00:22:42,870 --> 00:22:40,640

them not telling us exactly how to

617

00:22:45,190 --> 00:22:42,880

control all the money or at least

618

00:22:47,029 --> 00:22:45,200

at least right now they haven't

619

00:22:49,270 --> 00:22:47,039

built in the hooks

620

00:22:51,990 --> 00:22:49,280

central bank world bank type stuff right

621

00:22:54,549 --> 00:22:52,000

yeah it's coming yeah that's xrp i met

622

00:22:56,630 --> 00:22:54,559

those guys at the at the conference

623

00:23:00,549 --> 00:22:56,640

they're doing all the underlying

624

00:23:01,830 --> 00:23:00,559

um super low cost transaction stuff

625

00:23:03,270 --> 00:23:01,840

you know the c

626  
00:23:04,149 --> 00:23:03,280  
yeah that so they're doing that behind

627  
00:23:06,149 --> 00:23:04,159  
the scenes and they're and they're

628  
00:23:07,830 --> 00:23:06,159  
really just delaying everything else

629  
00:23:09,270 --> 00:23:07,840  
so if it was hard for you to get you

630  
00:23:10,630 --> 00:23:09,280  
know buy crypto it's probably because

631  
00:23:11,990 --> 00:23:10,640  
the governments were just trying to slow

632  
00:23:13,990 --> 00:23:12,000  
it down

633  
00:23:15,830 --> 00:23:14,000  
because they're they're just i guess

634  
00:23:17,430 --> 00:23:15,840  
slower lazier i don't know what it is

635  
00:23:19,350 --> 00:23:17,440  
they know their government so they can

636  
00:23:20,310 --> 00:23:19,360  
move slower and just tell us what not to

637  
00:23:22,789 --> 00:23:20,320  
do

638  
00:23:25,669 --> 00:23:22,799

but that's the xrp behind it i forget

639

00:23:28,310 --> 00:23:25,679

what they're called it's some compliant

640

00:23:30,070 --> 00:23:28,320

pss compliant or something

641

00:23:32,149 --> 00:23:30,080

yeah well we got to turn it over to

642

00:23:34,549 --> 00:23:32,159

flair and i have a feeling that he is

643

00:23:36,470 --> 00:23:34,559

going to do what aircraft can't do he's

644

00:23:37,270 --> 00:23:36,480

going to make a 90 degree right angle

645

00:23:39,590 --> 00:23:37,280

turn

646

00:23:41,669 --> 00:23:39,600

into the phenomenon i see people getting

647

00:23:43,110 --> 00:23:41,679

zoning out yeah yeah

648

00:23:45,350 --> 00:23:43,120

i love it i could talk about that stuff

649

00:23:46,950 --> 00:23:45,360

for a long time no it's it's fascinating

650

00:23:49,510 --> 00:23:46,960

because you're on the front end of

651  
00:23:51,350 --> 00:23:49,520  
something and we recognize that

652  
00:23:53,269 --> 00:23:51,360  
awesome yeah we need you guys in the

653  
00:23:54,390 --> 00:23:53,279  
community that's it i need you guys if

654  
00:23:55,990 --> 00:23:54,400  
you guys all

655  
00:23:57,909 --> 00:23:56,000  
come together and put your money where

656  
00:23:59,029 --> 00:23:57,919  
your mouth is and your mouth where your

657  
00:23:59,990 --> 00:23:59,039  
money is

658  
00:24:02,149 --> 00:24:00,000  
then

659  
00:24:04,310 --> 00:24:02,159  
we can't it'll work it'll work and

660  
00:24:06,149 --> 00:24:04,320  
there's a chance if it works it goes big

661  
00:24:07,669 --> 00:24:06,159  
like it will go big like you know we

662  
00:24:09,830 --> 00:24:07,679  
want to sell it to you guys to the to

663  
00:24:11,110 --> 00:24:09,840

the initial guys for point one eth um

664

00:24:13,510 --> 00:24:11,120

that's pretty much the cheapest we can

665

00:24:15,830 --> 00:24:13,520

possibly make it uh but if it you know

666

00:24:16,789 --> 00:24:15,840

it could easily go to one two ten east

667

00:24:19,510 --> 00:24:16,799

even

668

00:24:21,350 --> 00:24:19,520

um exciting yeah if it does it'd be

669

00:24:24,950 --> 00:24:21,360

awesome so then everybody would be very

670

00:24:25,669 --> 00:24:24,960

happy and everybody would be very happy

671

00:24:27,350 --> 00:24:25,679

cool

672

00:24:29,110 --> 00:24:27,360

that's it sorry

673

00:24:30,870 --> 00:24:29,120

sorry

674

00:24:34,149 --> 00:24:30,880

you're the guest you're on restriction

675

00:24:37,029 --> 00:24:34,159

now later no more nfc time out no more

676

00:24:38,710 --> 00:24:37,039

great we're standing back

677

00:24:40,390 --> 00:24:38,720

we're sending you we're sending you over

678

00:24:41,750 --> 00:24:40,400

to the command post and you're going to

679

00:24:43,430 --> 00:24:41,760

be there for the next week you're off

680

00:24:47,430 --> 00:24:43,440

the flying schedule i'm just going to go

681

00:24:49,110 --> 00:24:47,440

ahead go ahead kev you're grounded

682

00:24:51,190 --> 00:24:49,120

oh wait that means something else for a

683

00:24:52,549 --> 00:24:51,200

pilot sorry yeah that's a bad thing

684

00:24:54,070 --> 00:24:52,559

that's about yeah i won't say that

685

00:24:55,190 --> 00:24:54,080

you're not grounded you're just gonna

686

00:24:57,669 --> 00:24:55,200

work in the command post right it

687

00:24:59,430 --> 00:24:57,679

doesn't hurt i felt a little twinged

688

00:25:01,590 --> 00:24:59,440

i saw that on your face like oh you're

689

00:25:03,669 --> 00:25:01,600

still you're still a q1 lato that's all

690

00:25:06,070 --> 00:25:03,679

i got to say on your check ride go ahead

691

00:25:07,430 --> 00:25:06,080

well thank you for your service chris

692

00:25:09,750 --> 00:25:07,440

how's that

693

00:25:11,190 --> 00:25:09,760

cool welcome also also dj i wanted to

694

00:25:13,350 --> 00:25:11,200

thank you and actually while i'm doing

695

00:25:15,590 --> 00:25:13,360

that thank my dad he was a vietnam

696

00:25:16,390 --> 00:25:15,600

veteran thank you dad nice

697

00:25:19,110 --> 00:25:16,400

so

698

00:25:21,190 --> 00:25:19,120

that being said chris lato hey we're

699

00:25:23,430 --> 00:25:21,200

talking about community stuff anyway so

700

00:25:26,310 --> 00:25:23,440

i have a question that you know it will

701  
00:25:27,990 --> 00:25:26,320  
fit in so um

702  
00:25:30,230 --> 00:25:28,000  
on the on to the community part so we

703  
00:25:31,990 --> 00:25:30,240  
have a lot of a lot of different camps

704  
00:25:32,630 --> 00:25:32,000  
in the community i notice they break up

705  
00:25:34,470 --> 00:25:32,640  
and

706  
00:25:36,549 --> 00:25:34,480  
you know you've got your you've got your

707  
00:25:38,870 --> 00:25:36,559  
um people the intergalactic travel

708  
00:25:42,230 --> 00:25:38,880  
people you know you've got your uh

709  
00:25:43,990 --> 00:25:42,240  
your consciousness people and even um

710  
00:25:46,950 --> 00:25:44,000  
the people going to the disclosure

711  
00:25:49,190 --> 00:25:46,960  
symposium it's kind of it may become i'm

712  
00:25:51,669 --> 00:25:49,200  
worried it may become that camp so what

713  
00:25:53,029 --> 00:25:51,679

are what are some of id the ideas for

714

00:25:54,549 --> 00:25:53,039

you guys

715

00:25:55,830 --> 00:25:54,559

to maybe bring this topic to the

716

00:25:56,870 --> 00:25:55,840

mainstream

717

00:25:58,230 --> 00:25:56,880

instead of

718

00:26:00,870 --> 00:25:58,240

you know

719

00:26:04,630 --> 00:26:00,880

kind of keeping it small

720

00:26:09,029 --> 00:26:06,549

bring it out there i mean

721

00:26:11,669 --> 00:26:09,039

yeah we've got the thing is we've got

722

00:26:13,110 --> 00:26:11,679

tik-tok we've got so many different

723

00:26:14,950 --> 00:26:13,120

outlets now

724

00:26:16,870 --> 00:26:14,960

and there's a whole

725

00:26:18,870 --> 00:26:16,880

young generation of people watching this

726

00:26:19,830 --> 00:26:18,880

stuff that we need to bring into this

727

00:26:20,710 --> 00:26:19,840

topic

728

00:26:25,190 --> 00:26:20,720

so

729

00:26:26,470 --> 00:26:25,200

guys have

730

00:26:28,149 --> 00:26:26,480

um

731

00:26:30,390 --> 00:26:28,159

yeah so

732

00:26:32,230 --> 00:26:30,400

we're driving to the

733

00:26:35,190 --> 00:26:32,240

the discord right

734

00:26:36,950 --> 00:26:35,200

so yeah here's an idea um

735

00:26:39,269 --> 00:26:36,960

i was thinking about uh

736

00:26:40,789 --> 00:26:39,279

there's a game that we invented uh two

737

00:26:42,870 --> 00:26:40,799

weeks ago with the little blockchain

738

00:26:45,110 --> 00:26:42,880

group but i think i made it but it i

739

00:26:47,110 --> 00:26:45,120  
made it from a study by

740

00:26:50,149 --> 00:26:47,120  
raiden dr uh

741

00:26:52,070 --> 00:26:50,159  
dean rayden he's from the ionic

742

00:26:53,590 --> 00:26:52,080  
science institute institute of bionics

743

00:26:55,590 --> 00:26:53,600  
sciences

744

00:26:58,470 --> 00:26:55,600  
is a perfect name by the way for that

745

00:27:02,549 --> 00:27:00,310  
sciences yeah

746

00:27:04,549 --> 00:27:02,559  
it was started by edward mitchell right

747

00:27:06,390 --> 00:27:04,559  
that's right institute of noetic science

748

00:27:07,990 --> 00:27:06,400  
institute of noetic science yeah

749

00:27:09,029 --> 00:27:08,000  
interesting i looked up started by him

750

00:27:10,070 --> 00:27:09,039  
interesting

751  
00:27:11,510 --> 00:27:10,080  
um so

752  
00:27:13,029 --> 00:27:11,520  
raiden um

753  
00:27:15,590 --> 00:27:13,039  
talking about consciousness he did a

754  
00:27:17,669 --> 00:27:15,600  
study on the double slit etc

755  
00:27:20,070 --> 00:27:17,679  
but he also mentioned

756  
00:27:20,950 --> 00:27:20,080  
that there was another study they did

757  
00:27:23,350 --> 00:27:20,960  
that

758  
00:27:26,549 --> 00:27:23,360  
i call it the who's calling

759  
00:27:28,710 --> 00:27:26,559  
uh study or who's going to text me next

760  
00:27:29,830 --> 00:27:28,720  
right so how it will work is and we sit

761  
00:27:31,269 --> 00:27:29,840  
and we're creating it hopefully on the

762  
00:27:32,310 --> 00:27:31,279  
discord but i want to make some other

763  
00:27:34,470 --> 00:27:32,320

apps

764

00:27:37,190 --> 00:27:34,480

um is basically like i'm it say i'm the

765

00:27:38,149 --> 00:27:37,200

contestant okay so i'm isolated from you

766

00:27:40,470 --> 00:27:38,159

guys

767

00:27:42,230 --> 00:27:40,480

um and there's the four of you that i

768

00:27:44,230 --> 00:27:42,240

consider myself possibility to be

769

00:27:45,190 --> 00:27:44,240

psychic with right i think me and dj for

770

00:27:47,350 --> 00:27:45,200

sure

771

00:27:50,149 --> 00:27:47,360

nathan probably just for through our

772

00:27:52,389 --> 00:27:50,159

bernardo castro kind of mental linkage

773

00:27:53,430 --> 00:27:52,399

yeah um but probably harder with kevin

774

00:27:54,310 --> 00:27:53,440

and deb right because i don't really

775

00:27:55,110 --> 00:27:54,320

know him

776

00:27:58,789 --> 00:27:55,120

um

777

00:28:03,590 --> 00:28:00,710

but who knows and so what what happens

778

00:28:04,710 --> 00:28:03,600

is we do a random number generator right

779

00:28:06,870 --> 00:28:04,720

and

780

00:28:08,549 --> 00:28:06,880

you guys basically pick a number you're

781

00:28:10,549 --> 00:28:08,559

one two three four

782

00:28:12,070 --> 00:28:10,559

you call you talk into google hey pick a

783

00:28:13,830 --> 00:28:12,080

number one through four

784

00:28:16,630 --> 00:28:13,840

and now the number has been selected the

785

00:28:18,389 --> 00:28:16,640

person so let's say it's dj right

786

00:28:19,590 --> 00:28:18,399

now i have to envision who's going to

787

00:28:21,190 --> 00:28:19,600

call me

788

00:28:22,630 --> 00:28:21,200

so you guys all know

789

00:28:24,549 --> 00:28:22,640

dj you get in your mind like you're

790

00:28:26,310 --> 00:28:24,559

going to call me or text me and then i

791

00:28:28,389 --> 00:28:26,320

and then i select a number right who i

792

00:28:31,029 --> 00:28:28,399

think's actually going to do it

793

00:28:33,350 --> 00:28:31,039

so the numbers should be like 25

794

00:28:36,230 --> 00:28:33,360

if we get enough statistical analysis

795

00:28:38,950 --> 00:28:36,240

right if we do over 30 uh events

796

00:28:40,310 --> 00:28:38,960

the number should be 25 based on

797

00:28:43,990 --> 00:28:40,320

there not being

798

00:28:46,470 --> 00:28:44,000

actual telekinetic possibilities right

799

00:28:49,990 --> 00:28:46,480

um according to raiden it's actually

800

00:28:52,149 --> 00:28:50,000

45 is what they found

801  
00:28:53,669 --> 00:28:52,159  
so if we can do what i was thinking is

802  
00:28:55,830 --> 00:28:53,679  
like a tick i'm trying to spread it on a

803  
00:28:57,669 --> 00:28:55,840  
tick tock that was one idea was to do

804  
00:28:58,870 --> 00:28:57,679  
like a tick tock viral meme game like

805  
00:29:02,549 --> 00:28:58,880  
that

806  
00:29:04,870 --> 00:29:02,559  
there's more to

807  
00:29:06,549 --> 00:29:04,880  
it's like a simple experiment um

808  
00:29:09,269 --> 00:29:06,559  
if you prove that if you can prove

809  
00:29:10,310 --> 00:29:09,279  
actually statistically that

810  
00:29:13,430 --> 00:29:10,320  
you can be

811  
00:29:14,870 --> 00:29:13,440  
telepathic with someone that pretty much

812  
00:29:16,230 --> 00:29:14,880  
you know answers a lot of questions that

813  
00:29:18,149 --> 00:29:16,240

we had a big deal

814

00:29:20,789 --> 00:29:18,159

yeah then it goes to you know remote

815

00:29:22,549 --> 00:29:20,799

viewings possible um

816

00:29:25,029 --> 00:29:22,559

yeah and why don't we use it for for

817

00:29:27,669 --> 00:29:25,039

good and for fun and do science on it

818

00:29:29,510 --> 00:29:27,679

you know and then so that the discord

819

00:29:31,190 --> 00:29:29,520

they're trying to do it now my uh french

820

00:29:33,909 --> 00:29:31,200

buddies trying to uh build this on the

821

00:29:35,510 --> 00:29:33,919

discord uh this game you know and so we

822

00:29:38,870 --> 00:29:35,520

have people come in you go in there you

823

00:29:40,230 --> 00:29:38,880

can do some little little game like that

824

00:29:42,630 --> 00:29:40,240

and then we would hopefully record the

825

00:29:43,830 --> 00:29:42,640

data um that's one idea

826  
00:29:45,430 --> 00:29:43,840  
cool

827  
00:29:47,350 --> 00:29:45,440  
yeah

828  
00:29:50,310 --> 00:29:47,360  
all right chris i guess

829  
00:29:54,389 --> 00:29:52,830  
i'm sorry kev did you have a follow-up

830  
00:29:55,830 --> 00:29:54,399  
um

831  
00:29:57,590 --> 00:29:55,840  
not really i mean unless you guys were

832  
00:29:59,510 --> 00:29:57,600  
gonna all start posting you know karaoke

833  
00:30:01,190 --> 00:29:59,520  
videos i mean that's what that

834  
00:30:02,789 --> 00:30:01,200  
generation of tick tocks doing you know

835  
00:30:05,190 --> 00:30:02,799  
you could do that and would you be

836  
00:30:06,310 --> 00:30:05,200  
willing to do that with you

837  
00:30:08,470 --> 00:30:06,320  
yeah would you

838  
00:30:11,029 --> 00:30:08,480

be willing to do sing a song or yeah

839

00:30:12,470 --> 00:30:11,039

that's that's my question really dancing

840

00:30:13,990 --> 00:30:12,480

i can play you don't have to you just

841

00:30:16,149 --> 00:30:14,000

you just move your mouth you know wait

842

00:30:20,149 --> 00:30:16,159

you missed it he plays guitar kevin

843

00:30:25,990 --> 00:30:22,549

i'll cover for you bro cover for you

844

00:30:29,909 --> 00:30:28,310

it's called

845

00:30:32,070 --> 00:30:29,919

chris i have a question for you but i

846

00:30:33,909 --> 00:30:32,080

need to wait because somebody else who

847

00:30:36,470 --> 00:30:33,919

like you isn't doing anything isn't

848

00:30:38,070 --> 00:30:36,480

putting any effort into anything deb and

849

00:30:40,310 --> 00:30:38,080

by that i mean you guys are putting an

850

00:30:42,470 --> 00:30:40,320

incredible amount of work in um deb

851  
00:30:45,590 --> 00:30:42,480  
would like to speak with you

852  
00:30:49,029 --> 00:30:45,600  
okay hi chris um so i caught that you

853  
00:30:51,350 --> 00:30:49,039  
were interested in crop circles

854  
00:30:53,510 --> 00:30:51,360  
and recently frank millborn mentioned

855  
00:30:56,470 --> 00:30:53,520  
that crop circles may have something to

856  
00:30:57,830 --> 00:30:56,480  
do with ether or the

857  
00:30:59,669 --> 00:30:57,840  
waves

858  
00:31:01,669 --> 00:30:59,679  
above the earth and i was wondering what

859  
00:31:03,430 --> 00:31:01,679  
your thoughts were on that he suspected

860  
00:31:07,669 --> 00:31:03,440  
they were being formed

861  
00:31:10,630 --> 00:31:07,679  
by uaps getting close to the planet and

862  
00:31:13,269 --> 00:31:10,640  
taking energy from the planet

863  
00:31:15,669 --> 00:31:13,279

taking energy ah cool

864

00:31:19,389 --> 00:31:17,430

what's his name frank melbourne does he

865

00:31:22,310 --> 00:31:19,399

have frank milburn yeah

866

00:31:23,149 --> 00:31:22,320

f-a-r-n-c as opposed to k

867

00:31:25,590 --> 00:31:23,159

and

868

00:31:27,590 --> 00:31:25,600

m-i-l-b-u-r-n he's a former

869

00:31:30,389 --> 00:31:27,600

british intel officer and before that

870

00:31:33,830 --> 00:31:30,399

he's a british paratrooper cool he wrote

871

00:31:36,710 --> 00:31:33,840

the beta article that was about the task

872

00:31:38,310 --> 00:31:36,720

force it's really in detail

873

00:31:39,110 --> 00:31:38,320

cool

874

00:31:41,509 --> 00:31:39,120

um

875

00:31:42,789 --> 00:31:41,519

yeah to be honest uh my friend here

876

00:31:44,830 --> 00:31:42,799

he's been telling me to look at crop

877

00:31:47,830 --> 00:31:44,840

circles for a while

878

00:31:49,669 --> 00:31:47,840

um and yeah i guess what kind of i

879

00:31:51,190 --> 00:31:49,679

veered me off was i was i interviewed

880

00:31:52,870 --> 00:31:51,200

nick pope

881

00:31:55,110 --> 00:31:52,880

because there was crop circles in there

882

00:31:57,110 --> 00:31:55,120

and he was vehemently you know he

883

00:31:59,590 --> 00:31:57,120

thought it was just a hoax you know

884

00:32:02,630 --> 00:31:59,600

um that was kind of his argument

885

00:32:03,509 --> 00:32:02,640

and i figured he knew a lot so i guess i

886

00:32:05,350 --> 00:32:03,519

just

887

00:32:06,710 --> 00:32:05,360

took a back seat and then i had a patron

888

00:32:07,509 --> 00:32:06,720

basically like hey man what about that

889

00:32:10,470 --> 00:32:07,519

he said you're gonna look at crop

890

00:32:12,549 --> 00:32:10,480

circles and then my buddy um

891

00:32:15,990 --> 00:32:12,559

yeah interesting to me is how it like

892

00:32:20,950 --> 00:32:16,000

mats down you know if you can look at

893

00:32:23,830 --> 00:32:22,310

yeah i mean i guess you would have to

894

00:32:26,389 --> 00:32:23,840

look at ways that it can be matted

895

00:32:29,750 --> 00:32:28,149

it's difficult though yeah do it other

896

00:32:31,990 --> 00:32:29,760

videos of them forming like that would

897

00:32:34,310 --> 00:32:32,000

be yes

898

00:32:37,029 --> 00:32:34,320

i guess my question is specifically what

899

00:32:38,710 --> 00:32:37,039

do you think of the possibility of it

900

00:32:41,990 --> 00:32:38,720

having to do

901  
00:32:43,750 --> 00:32:42,000  
with the earth's energy

902  
00:32:46,070 --> 00:32:43,760  
uh yeah i mean i

903  
00:32:50,070 --> 00:32:46,080  
i could easily

904  
00:32:52,389 --> 00:32:50,080  
see that i have no idea you know i mean

905  
00:32:54,389 --> 00:32:52,399  
why would it make like this fancy design

906  
00:32:55,750 --> 00:32:54,399  
though

907  
00:32:57,509 --> 00:32:55,760  
just you know

908  
00:32:59,269 --> 00:32:57,519  
i guess that's what's weird to me

909  
00:33:00,950 --> 00:32:59,279  
i guess some people argue that the ones

910  
00:33:02,789 --> 00:33:00,960  
that are faked or the fancy designs and

911  
00:33:05,430 --> 00:33:02,799  
the really simple ones are like that

912  
00:33:09,430 --> 00:33:05,440  
energy pool

913  
00:33:11,029 --> 00:33:09,440

goes in some spectrum of frequency that

914

00:33:12,470 --> 00:33:11,039

like affects the

915

00:33:14,789 --> 00:33:12,480

biologically

916

00:33:15,990 --> 00:33:14,799

biological

917

00:33:17,990 --> 00:33:16,000

plants

918

00:33:19,590 --> 00:33:18,000

yeah

919

00:33:21,909 --> 00:33:19,600

i've heard where they also where they

920

00:33:23,590 --> 00:33:21,919

break at 90 degree angles is something

921

00:33:25,750 --> 00:33:23,600

like when matted down is something

922

00:33:27,269 --> 00:33:25,760

obviously you could do with you know a

923

00:33:29,110 --> 00:33:27,279

mechanical thing you could take a piece

924

00:33:30,870 --> 00:33:29,120

of wood or something you know they've

925

00:33:33,190 --> 00:33:30,880

shown videos of how people do it but

926

00:33:35,750 --> 00:33:33,200

when some of these stems are broken in a

927

00:33:37,830 --> 00:33:35,760

90 degree angle that's something that's

928

00:33:40,710 --> 00:33:37,840

very difficult to do with uh with the

929

00:33:42,470 --> 00:33:40,720

plant that's live you know and flexible

930

00:33:44,230 --> 00:33:42,480

ah that's it's the breaking that was

931

00:33:45,909 --> 00:33:44,240

cool um

932

00:33:47,830 --> 00:33:45,919

so i don't i haven't looked into it so i

933

00:33:49,269 --> 00:33:47,840

really don't know anything about crop

934

00:33:51,909 --> 00:33:49,279

circles i don't know if anybody else on

935

00:33:54,310 --> 00:33:51,919

the on on the team it's cool though it's

936

00:33:56,950 --> 00:33:54,320

it's good i've been getting um in emails

937

00:33:58,710 --> 00:33:56,960

and then i've been getting leads but

938

00:33:59,830 --> 00:33:58,720

so i looked into it a few

939

00:34:01,750 --> 00:33:59,840

weeks ago

940

00:34:04,149 --> 00:34:01,760

a few months maybe and

941

00:34:06,230 --> 00:34:04,159

i found a group in the uk but

942

00:34:07,830 --> 00:34:06,240

unfortunately the main woman who ran

943

00:34:09,030 --> 00:34:07,840

everything had died so she passed away

944

00:34:10,149 --> 00:34:09,040

so

945

00:34:11,909 --> 00:34:10,159

um

946

00:34:15,349 --> 00:34:11,919

yeah another dead end

947

00:34:17,349 --> 00:34:16,230

chris

948

00:34:20,230 --> 00:34:17,359

the um

949

00:34:22,310 --> 00:34:20,240

you you've consumed a lot that uh

950

00:34:25,030 --> 00:34:22,320

discussion you had with tony and lou

951  
00:34:27,030 --> 00:34:25,040  
i've told you ad nauseam on several

952  
00:34:28,790 --> 00:34:27,040  
voice messages i sent you what an

953  
00:34:30,629 --> 00:34:28,800  
amazing conversation and how

954  
00:34:32,310 --> 00:34:30,639  
thought-provoking that was

955  
00:34:34,869 --> 00:34:32,320  
um and you

956  
00:34:37,909 --> 00:34:34,879  
you brought as much to that table uh as

957  
00:34:40,550 --> 00:34:37,919  
anybody in that discussion uh because

958  
00:34:41,829 --> 00:34:40,560  
you you've really um

959  
00:34:43,030 --> 00:34:41,839  
you know like i i talked at the

960  
00:34:44,869 --> 00:34:43,040  
beginning you know i said you know

961  
00:34:48,069 --> 00:34:44,879  
you're a brother in aviation in the air

962  
00:34:49,589 --> 00:34:48,079  
force and in an open-minded thought and

963  
00:34:52,310 --> 00:34:49,599

you really

964

00:34:55,030 --> 00:34:52,320

are not like just looking at this from a

965

00:34:57,030 --> 00:34:55,040

military guy perspective and i think

966

00:34:58,470 --> 00:34:57,040

everybody out there if you're thinking

967

00:35:00,390 --> 00:34:58,480

about having chris on your show should

968

00:35:02,790 --> 00:35:00,400

know that that you're thinking about the

969

00:35:05,109 --> 00:35:02,800

universe and analyzing it and and

970

00:35:06,870 --> 00:35:05,119

reading things like you read alexis book

971

00:35:08,790 --> 00:35:06,880

from many different perspectives to try

972

00:35:10,310 --> 00:35:08,800

to get a handle on this is there

973

00:35:11,190 --> 00:35:10,320

something that

974

00:35:13,510 --> 00:35:11,200

you

975

00:35:14,470 --> 00:35:13,520

that after each one of these shows that

976

00:35:16,069 --> 00:35:14,480

you're on

977

00:35:18,230 --> 00:35:16,079

you see something that people are

978

00:35:20,630 --> 00:35:18,240

missing have you seen something that's

979

00:35:23,750 --> 00:35:20,640

been missed that people aren't talking

980

00:35:31,190 --> 00:35:26,470

relative to the phenomenon the origin if

981

00:35:31,200 --> 00:35:34,710

i don't i don't know i mean there's

982

00:35:40,069 --> 00:35:37,190

there's so many wild theories

983

00:35:44,630 --> 00:35:42,069

i think the truth is probably gonna be

984

00:35:46,950 --> 00:35:44,640

just as wild

985

00:35:47,210 --> 00:35:46,960

so which wild story are you going to go

986

00:35:50,310 --> 00:35:47,220

with

987

00:35:52,310 --> 00:35:50,320

[Laughter]

988

00:35:53,910 --> 00:35:52,320

[Music]

989

00:35:56,870 --> 00:35:53,920

well some of them aren't though like the

990

00:35:59,430 --> 00:35:56,880

fact of of one penetrating

991

00:36:01,750 --> 00:35:59,440

our atmosphere coming from outside of

992

00:36:04,150 --> 00:36:01,760

our orbit coming in is something that

993

00:36:06,950 --> 00:36:04,160

people have been thinking about for 70

994

00:36:09,190 --> 00:36:06,960

years but now when you talk about wow

995

00:36:11,270 --> 00:36:09,200

there could be a base under water there

996

00:36:13,190 --> 00:36:11,280

could be a dimension where they just

997

00:36:15,829 --> 00:36:13,200

sort of appear

998

00:36:17,750 --> 00:36:15,839

um through it through a hole um i've

999

00:36:19,670 --> 00:36:17,760

recently heard about a guy that was

1000

00:36:22,310 --> 00:36:19,680

talking about that that it looked like a

1001  
00:36:24,470 --> 00:36:22,320  
slice in the sky opened up and it and it

1002  
00:36:25,349 --> 00:36:24,480  
popped through there or something so

1003  
00:36:27,829 --> 00:36:25,359  
um

1004  
00:36:30,069 --> 00:36:27,839  
is there one of those that that sort of

1005  
00:36:33,030 --> 00:36:30,079  
makes you go hmm

1006  
00:36:34,310 --> 00:36:33,040  
does dna really is something that you

1007  
00:36:39,670 --> 00:36:34,320  
think about

1008  
00:36:44,069 --> 00:36:42,069  
yeah i mean

1009  
00:36:45,030 --> 00:36:44,079  
yeah i think about all that stuff

1010  
00:36:46,710 --> 00:36:45,040  
it was

1011  
00:36:48,310 --> 00:36:46,720  
i think about a lot of stuff

1012  
00:36:50,069 --> 00:36:48,320  
uh

1013  
00:36:52,710 --> 00:36:50,079

yeah and i guess and nathan got me

1014

00:36:55,030 --> 00:36:52,720

started on that uh with uh

1015

00:36:57,349 --> 00:36:55,040

sorry about that yeah

1016

00:37:00,950 --> 00:36:57,359

analytic idealism

1017

00:37:04,069 --> 00:37:02,790

yeah and then you hear just crazy story

1018

00:37:05,670 --> 00:37:04,079

yeah there's so many stories about

1019

00:37:08,310 --> 00:37:05,680

shared consciousness

1020

00:37:10,550 --> 00:37:08,320

i've heard that several times lately um

1021

00:37:12,950 --> 00:37:10,560

it's usually like someone is under some

1022

00:37:15,990 --> 00:37:12,960

it was lsd with the last two people that

1023

00:37:17,910 --> 00:37:16,000

told me in in confidence

1024

00:37:21,270 --> 00:37:17,920

that they had shared knowledge conscious

1025

00:37:23,829 --> 00:37:21,280

consciousness with the person with them

1026

00:37:25,349 --> 00:37:23,839

and one of them had a time loop

1027

00:37:27,510 --> 00:37:25,359

they said it was a three-minute time

1028

00:37:29,190 --> 00:37:27,520

loop that they were both in

1029

00:37:30,630 --> 00:37:29,200

and they did it like

1030

00:37:32,390 --> 00:37:30,640

i don't know how many thousands of times

1031

00:37:34,390 --> 00:37:32,400

they said wow

1032

00:37:37,349 --> 00:37:34,400

we've talked about that on other shows

1033

00:37:39,670 --> 00:37:37,359

that's the cloud between max and sophia

1034

00:37:42,310 --> 00:37:39,680

the the david hansen robots so it's

1035

00:37:43,990 --> 00:37:42,320

instantaneous if they're both turned on

1036

00:37:46,870 --> 00:37:44,000

and they're both connected to the cloud

1037

00:37:49,109 --> 00:37:46,880

when sophia is is at a symposium

1038

00:37:51,190 --> 00:37:49,119

interacting with a human and they tell

1039

00:37:52,870 --> 00:37:51,200

her something if max is turned on he

1040

00:37:54,790 --> 00:37:52,880

already knows it or as soon as he's

1041

00:37:57,349 --> 00:37:54,800

turned on he downloads it from their

1042

00:38:00,950 --> 00:37:58,710

it's a shared

1043

00:38:02,630 --> 00:38:00,960

shared cloud memory yes that's david

1044

00:38:05,030 --> 00:38:02,640

hanson's thing man

1045

00:38:07,430 --> 00:38:05,040

it's so freaky if you ever see like the

1046

00:38:09,829 --> 00:38:07,440

60 minutes piece or the youtube piece

1047

00:38:11,990 --> 00:38:09,839

about david hansen who uh hanson

1048

00:38:14,390 --> 00:38:12,000

robotics has moved to hong kong and he

1049

00:38:16,870 --> 00:38:14,400

has like a little humanoid that looks

1050

00:38:18,470 --> 00:38:16,880

like a child playing a piano in his

1051

00:38:20,230 --> 00:38:18,480

apartment in hong kong

1052

00:38:23,510 --> 00:38:20,240

and he's like oh this is our daughter

1053

00:38:25,349 --> 00:38:23,520

and it'll totally freak you out

1054

00:38:28,230 --> 00:38:25,359

totally i'll take you out yeah

1055

00:38:29,910 --> 00:38:28,240

yeah it it's really really weird man so

1056

00:38:30,790 --> 00:38:29,920

anyway i didn't mean to shut down the

1057

00:38:31,670 --> 00:38:30,800

panel

1058

00:38:33,510 --> 00:38:31,680

no

1059

00:38:34,870 --> 00:38:33,520

well i mean you're making me i want to

1060

00:38:36,230 --> 00:38:34,880

go a couple different directions here so

1061

00:38:37,910 --> 00:38:36,240

chris i'm going to i'm going to ask two

1062

00:38:39,589 --> 00:38:37,920

questions but the first one is a lot

1063

00:38:40,470 --> 00:38:39,599

shorter so

1064

00:38:42,230 --> 00:38:40,480

um

1065

00:38:44,230 --> 00:38:42,240

you've spent a lot of time looking at

1066

00:38:45,990 --> 00:38:44,240

the three videos and talking about them

1067

00:38:47,750 --> 00:38:46,000

you're probably tired of that but a

1068

00:38:49,030 --> 00:38:47,760

question that i had for you and dj you

1069

00:38:51,430 --> 00:38:49,040

might want to weigh in on this as well

1070

00:38:53,270 --> 00:38:51,440

but my understanding with aviators is

1071

00:38:55,109 --> 00:38:53,280

that um when you're in

1072

00:38:56,550 --> 00:38:55,119

in a very operation

1073

00:38:57,750 --> 00:38:56,560

there's an economy of language right

1074

00:38:59,990 --> 00:38:57,760

there's kind of a

1075

00:39:01,190 --> 00:39:00,000

similar lexicon that you kind of learn

1076

00:39:02,550 --> 00:39:01,200

and adopt because when you're

1077

00:39:05,750 --> 00:39:02,560

communicating with each other it needs

1078

00:39:07,430 --> 00:39:05,760

to be concise it needs to be accurate uh

1079

00:39:08,390 --> 00:39:07,440

it doesn't need to be very fluffy you

1080

00:39:10,150 --> 00:39:08,400

know you need to kind of very

1081

00:39:11,990 --> 00:39:10,160

communicate quickly right clear concise

1082

00:39:13,510 --> 00:39:12,000

correct exactly thank you those are the

1083

00:39:14,790 --> 00:39:13,520

words

1084

00:39:17,829 --> 00:39:14,800

three things that i'm not particularly

1085

00:39:19,270 --> 00:39:17,839

known for but with the gimbal video

1086

00:39:20,150 --> 00:39:19,280

what i wanted to ask specifically about

1087

00:39:22,710 --> 00:39:20,160

that

1088

00:39:25,349 --> 00:39:22,720

when the when the person says it's

1089

00:39:27,190 --> 00:39:25,359

rotating okay

1090

00:39:29,430 --> 00:39:27,200

is that a word that would be used to

1091

00:39:31,990 --> 00:39:29,440

describe the behavior that is on that

1092

00:39:34,710 --> 00:39:32,000

video because when i look at that

1093

00:39:36,630 --> 00:39:34,720

to me it looks like a bank not a not a

1094

00:39:38,630 --> 00:39:36,640

rotation

1095

00:39:40,630 --> 00:39:38,640

and so i didn't know if that you know

1096

00:39:42,390 --> 00:39:40,640

maybe it's just the lexicon they use

1097

00:39:44,950 --> 00:39:42,400

they use that word to describe that kind

1098

00:39:47,589 --> 00:39:44,960

of angular shift or whatever but to me

1099

00:39:48,790 --> 00:39:47,599

it looks like a bank not a spinning

1100

00:39:50,710 --> 00:39:48,800

which is what i think of when i think of

1101  
00:39:52,630 --> 00:39:50,720  
root rotation so could we when they're

1102  
00:39:54,630 --> 00:39:52,640  
saying it's rotating could it mean some

1103  
00:39:56,870 --> 00:39:54,640  
other behavior that is not observed in

1104  
00:39:59,510 --> 00:39:56,880  
the video

1105  
00:40:01,349 --> 00:39:59,520  
uh no i think that's a common term for

1106  
00:40:03,270 --> 00:40:01,359  
rotation

1107  
00:40:05,589 --> 00:40:03,280  
there's a translational line of sight

1108  
00:40:07,670 --> 00:40:05,599  
and there's rotational line of sight

1109  
00:40:09,270 --> 00:40:07,680  
so we talk about in those terms you know

1110  
00:40:10,950 --> 00:40:09,280  
trend this is translational line of

1111  
00:40:13,030 --> 00:40:10,960  
sight and then this is ro you know or

1112  
00:40:15,349 --> 00:40:13,040  
rotational

1113  
00:40:17,030 --> 00:40:15,359

uh yeah i guess

1114

00:40:20,870 --> 00:40:17,040

rotation seems like a common term that

1115

00:40:24,230 --> 00:40:22,630

sorry and that i just always wondered

1116

00:40:27,750 --> 00:40:24,240

about that because you know sort of in

1117

00:40:29,910 --> 00:40:27,760

the lore of ufos rotation can be

1118

00:40:31,910 --> 00:40:29,920

spinning as well not just you know sort

1119

00:40:33,270 --> 00:40:31,920

of banking but

1120

00:40:35,190 --> 00:40:33,280

you've cleared that up for me so i

1121

00:40:37,349 --> 00:40:35,200

appreciate that yeah dj well one thing

1122

00:40:39,030 --> 00:40:37,359

if you're looking at a 2d representation

1123

00:40:40,950 --> 00:40:39,040

of it and he

1124

00:40:42,950 --> 00:40:40,960

is looking at it in a dynamic

1125

00:40:45,510 --> 00:40:42,960

environment in a 3d

1126  
00:40:47,750 --> 00:40:45,520  
environment and so what he's seeing is

1127  
00:40:51,030 --> 00:40:47,760  
first of all it's not doesn't have wings

1128  
00:40:53,190 --> 00:40:51,040  
so but something that's wings that that

1129  
00:40:55,670 --> 00:40:53,200  
you're in a you're at a six o'clock

1130  
00:40:57,510 --> 00:40:55,680  
aspect and in banks you're like oh he's

1131  
00:40:59,990 --> 00:40:57,520  
in the left bank

1132  
00:41:02,390 --> 00:41:00,000  
but well it's a strange so i guess let

1133  
00:41:04,630 --> 00:41:02,400  
me be clear that um

1134  
00:41:07,910 --> 00:41:04,640  
it's clear to me what he's saying but he

1135  
00:41:10,150 --> 00:41:07,920  
is saying it's rotating is a weird word

1136  
00:41:11,430 --> 00:41:10,160  
um because uh

1137  
00:41:14,230 --> 00:41:11,440  
what he's saying to me is that it's

1138  
00:41:16,550 --> 00:41:14,240

rotating like this or like this

1139

00:41:18,790 --> 00:41:16,560

whereas he would say it's turning it's

1140

00:41:21,990 --> 00:41:18,800

banking it's climbing or descending

1141

00:41:24,230 --> 00:41:22,000

uh if it was a common

1142

00:41:25,589 --> 00:41:24,240

term so it's a common term that we use

1143

00:41:26,710 --> 00:41:25,599

to describe

1144

00:41:28,870 --> 00:41:26,720

um

1145

00:41:30,390 --> 00:41:28,880

motion right so i understand what he's

1146

00:41:33,270 --> 00:41:30,400

saying to me that it's either it's

1147

00:41:36,230 --> 00:41:33,280

rotating in some some axis right

1148

00:41:38,150 --> 00:41:36,240

um but using it in in that specific case

1149

00:41:39,990 --> 00:41:38,160

is is weird that's not he's so he's

1150

00:41:41,829 --> 00:41:40,000

saying to me it's weird and it's doing

1151  
00:41:42,870 --> 00:41:41,839  
something i can't describe so i'm saying

1152  
00:41:45,109 --> 00:41:42,880  
rotating

1153  
00:41:47,349 --> 00:41:45,119  
so you think it it would it normally

1154  
00:41:49,109 --> 00:41:47,359  
include an additional qualifier in other

1155  
00:41:51,430 --> 00:41:49,119  
words like it's rotating left it's

1156  
00:41:53,430 --> 00:41:51,440  
rotating right it's

1157  
00:41:55,270 --> 00:41:53,440  
y axis i mean it's um

1158  
00:41:57,430 --> 00:41:55,280  
i understand what he's saying

1159  
00:42:00,390 --> 00:41:57,440  
um and he's saying it's it's it's moving

1160  
00:42:02,870 --> 00:42:00,400  
in a he's using the word rotate which is

1161  
00:42:04,309 --> 00:42:02,880  
weird to me in that context

1162  
00:42:06,630 --> 00:42:04,319  
because i understand what he's saying by

1163  
00:42:09,030 --> 00:42:06,640

rotate meaning is it's rotating uh we

1164

00:42:12,150 --> 00:42:09,040

use that that's a normal term

1165

00:42:15,510 --> 00:42:12,160

uh rotating about your axis or rotating

1166

00:42:18,230 --> 00:42:15,520

vertically or you know um

1167

00:42:20,230 --> 00:42:18,240

uh yeah so then it's a normal term but

1168

00:42:22,550 --> 00:42:20,240

using it in that instance is weird to me

1169

00:42:24,470 --> 00:42:22,560

if that makes sense sure yeah because

1170

00:42:26,390 --> 00:42:24,480

there's no wing form that's what makes

1171

00:42:28,790 --> 00:42:26,400

that's i think why he used rotating

1172

00:42:31,670 --> 00:42:28,800

because if he saw a wing form

1173

00:42:34,230 --> 00:42:31,680

and and he at from a certain aspect he'd

1174

00:42:36,069 --> 00:42:34,240

say it's in a bank but because he's not

1175

00:42:38,470 --> 00:42:36,079

seeing a wing form

1176

00:42:41,589 --> 00:42:38,480

but he is seeing that there's it's a

1177

00:42:43,430 --> 00:42:41,599

flat looks like a flat disc shape or

1178

00:42:46,630 --> 00:42:43,440

something like that i think that's why

1179

00:42:48,550 --> 00:42:46,640

he used the word rotation because um we

1180

00:42:51,910 --> 00:42:48,560

couldn't do that if we had something

1181

00:42:54,069 --> 00:42:51,920

like uh with propellers on on it like

1182

00:42:56,710 --> 00:42:54,079

like a drone you wouldn't be able to

1183

00:42:58,870 --> 00:42:56,720

make it go in like a 90 degree bank like

1184

00:43:00,630 --> 00:42:58,880

that and we should i mean i want to look

1185

00:43:02,950 --> 00:43:00,640

at it so i went in the series debate

1186

00:43:04,790 --> 00:43:02,960

went into its rotating glare finally

1187

00:43:07,270 --> 00:43:04,800

decided on yeah it's probably

1188

00:43:08,550 --> 00:43:07,280

rotating based on the could be movements

1189

00:43:11,190 --> 00:43:08,560

of the pod at least i can't prove it

1190

00:43:12,790 --> 00:43:11,200

isn't um but again this this is kind of

1191

00:43:14,710 --> 00:43:12,800

the debunking

1192

00:43:16,390 --> 00:43:14,720

which i think we should be debunking

1193

00:43:17,990 --> 00:43:16,400

these things right to to poke for holes

1194

00:43:19,349 --> 00:43:18,000

and make sure we get to the truth

1195

00:43:20,150 --> 00:43:19,359

um

1196

00:43:23,030 --> 00:43:20,160

but

1197

00:43:25,430 --> 00:43:23,040

it should also be noted that um ryan

1198

00:43:27,670 --> 00:43:25,440

graves made this whole additional

1199

00:43:30,069 --> 00:43:27,680

presentation on it saying that there was

1200

00:43:31,430 --> 00:43:30,079

five there was three other pilots there

1201  
00:43:32,710 --> 00:43:31,440  
they all saw it he checked their

1202  
00:43:33,990 --> 00:43:32,720  
formations

1203  
00:43:35,750 --> 00:43:34,000  
um

1204  
00:43:37,750 --> 00:43:35,760  
basically the gimbal object stopped and

1205  
00:43:39,430 --> 00:43:37,760  
then reverse course

1206  
00:43:41,349 --> 00:43:39,440  
and they found these five other objects

1207  
00:43:42,950 --> 00:43:41,359  
flying in a v formation

1208  
00:43:44,710 --> 00:43:42,960  
you know it's kind of like we don't talk

1209  
00:43:46,870 --> 00:43:44,720  
about that

1210  
00:43:49,030 --> 00:43:46,880  
but that's actually pretty

1211  
00:43:51,190 --> 00:43:49,040  
pretty good you know like it explains

1212  
00:43:53,190 --> 00:43:51,200  
everything right and now we're arguing

1213  
00:43:54,950 --> 00:43:53,200

about does it rotate or does it spin

1214

00:43:56,309 --> 00:43:54,960

it's like well what about the four guys

1215

00:43:57,829 --> 00:43:56,319

that saw it flying and stopping in

1216

00:43:58,710 --> 00:43:57,839

midair and reversing direction you know

1217

00:43:59,990 --> 00:43:58,720

it's uh

1218

00:44:02,230 --> 00:44:00,000

completely i think it's we're kind of

1219

00:44:03,510 --> 00:44:02,240

like getting distracted on this

1220

00:44:07,750 --> 00:44:03,520

that's the idea

1221

00:44:09,430 --> 00:44:07,760

i would say look at ryan graves when he

1222

00:44:11,030 --> 00:44:09,440

when he made this whole presentation on

1223

00:44:12,950 --> 00:44:11,040

it which he must have gotten approval

1224

00:44:14,790 --> 00:44:12,960

from somebody you know um

1225

00:44:16,069 --> 00:44:14,800

he had to have been approved to release

1226

00:44:17,190 --> 00:44:16,079

that information

1227

00:44:19,030 --> 00:44:17,200

and it's pretty good it goes through

1228

00:44:20,790 --> 00:44:19,040

exactly what they saw they saw it's not

1229

00:44:22,470 --> 00:44:20,800

just this one instance that he recorded

1230

00:44:23,349 --> 00:44:22,480

they recorded the video of

1231

00:44:24,630 --> 00:44:23,359

um

1232

00:44:26,710 --> 00:44:24,640

so yeah i think

1233

00:44:28,710 --> 00:44:26,720

yeah that's it

1234

00:44:30,870 --> 00:44:28,720

you know great points let's look at the

1235

00:44:33,349 --> 00:44:30,880

big picture i guess yeah no and i agree

1236

00:44:36,470 --> 00:44:33,359

but it does sort of speak though to the

1237

00:44:38,870 --> 00:44:36,480

the things that we as a society look at

1238

00:44:39,750 --> 00:44:38,880

and say this is more trustworthy than

1239

00:44:42,870 --> 00:44:39,760

this

1240

00:44:43,670 --> 00:44:42,880

so in the past i think we could say

1241

00:44:46,069 --> 00:44:43,680

the

1242

00:44:47,750 --> 00:44:46,079

four people who are experts at a thing

1243

00:44:49,349 --> 00:44:47,760

saying it's doing a certain thing we

1244

00:44:51,829 --> 00:44:49,359

would put greater weight in that

1245

00:44:53,990 --> 00:44:51,839

testimony than a video

1246

00:44:55,589 --> 00:44:54,000

right but we we've kind of in some ways

1247

00:44:57,670 --> 00:44:55,599

transitioned to a time where it's like

1248

00:44:59,750 --> 00:44:57,680

no no like i don't like it's the death

1249

00:45:01,990 --> 00:44:59,760

of expertise right i i don't care about

1250

00:45:04,470 --> 00:45:02,000

the experts uh it's just what i'm

1251  
00:45:06,390 --> 00:45:04,480  
looking at with my eyeballs and i'm just

1252  
00:45:07,750 --> 00:45:06,400  
feeling like that's not as you know i

1253  
00:45:10,309 --> 00:45:07,760  
don't care what they said it's what i'm

1254  
00:45:13,430 --> 00:45:10,319  
looking at you know yeah

1255  
00:45:17,030 --> 00:45:13,440  
it's what a video game creator can prove

1256  
00:45:19,270 --> 00:45:17,040  
about a military system right right but

1257  
00:45:22,150 --> 00:45:19,280  
that's ultimately should be about

1258  
00:45:24,470 --> 00:45:22,160  
open source discussion um but i think we

1259  
00:45:25,430 --> 00:45:24,480  
could be discussing

1260  
00:45:27,109 --> 00:45:25,440  
uh

1261  
00:45:28,470 --> 00:45:27,119  
that other section you know when that

1262  
00:45:30,470 --> 00:45:28,480  
when the gimbal object is flying in

1263  
00:45:32,309 --> 00:45:30,480

formation with these with these other

1264

00:45:34,069 --> 00:45:32,319

i think it was six objects don't know

1265

00:45:36,309 --> 00:45:34,079

five objects in a v formation you know

1266

00:45:37,910 --> 00:45:36,319

you think about the v formation

1267

00:45:40,230 --> 00:45:37,920

uh i talk to people all the time talking

1268

00:45:41,990 --> 00:45:40,240

about orbs in a v formation and you talk

1269

00:45:44,069 --> 00:45:42,000

and you look at phoenix lights

1270

00:45:46,710 --> 00:45:44,079

uh in a v formation

1271

00:45:49,190 --> 00:45:46,720

you know so i'd say just um

1272

00:45:50,710 --> 00:45:49,200

you know don't i'm not engaging uh you

1273

00:45:52,790 --> 00:45:50,720

know i'm listening to mick west and the

1274

00:45:53,910 --> 00:45:52,800

debunkers for their you know saline

1275

00:45:55,910 --> 00:45:53,920

points

1276

00:45:58,150 --> 00:45:55,920

but we're just moving on you go past you

1277

00:46:01,910 --> 00:45:58,160

go past you know and um that's how we go

1278

00:46:04,069 --> 00:46:01,920

mainstream kevin is is uh

1279

00:46:05,190 --> 00:46:04,079

go past them don't get debunked down in

1280

00:46:06,790 --> 00:46:05,200

this like

1281

00:46:08,390 --> 00:46:06,800

we're just sitting in the you know the

1282

00:46:11,190 --> 00:46:08,400

doldrums you know we want to set we want

1283

00:46:13,430 --> 00:46:11,200

to find evidence like let's get it

1284

00:46:15,109 --> 00:46:13,440

uh and if we're all adhering to the

1285

00:46:16,790 --> 00:46:15,119

mission like they can't stop they can't

1286

00:46:19,750 --> 00:46:16,800

stop everybody you know yeah i think

1287

00:46:21,430 --> 00:46:19,760

that's how you go mainstream is

1288

00:46:23,030 --> 00:46:21,440

coming well i'm going to save my second

1289

00:46:24,550 --> 00:46:23,040

question to later but it's going to be

1290

00:46:26,069 --> 00:46:24,560

about the consciousness stuff i want to

1291

00:46:28,790 --> 00:46:26,079

get into that if we can but kevin i want

1292

00:46:30,069 --> 00:46:28,800

you to go next time

1293

00:46:31,349 --> 00:46:30,079

all right

1294

00:46:32,790 --> 00:46:31,359

well

1295

00:46:34,870 --> 00:46:32,800

you know i think it's interesting what

1296

00:46:37,190 --> 00:46:34,880

what um the public

1297

00:46:38,550 --> 00:46:37,200

is now getting like we're getting a lot

1298

00:46:40,069 --> 00:46:38,560

of stuff on the news you know you're

1299

00:46:42,550 --> 00:46:40,079

saying all this stuff about

1300

00:46:44,550 --> 00:46:42,560

experiencers reporting physiological

1301

00:46:46,790 --> 00:46:44,560

effects you know all that stuff

1302

00:46:49,030 --> 00:46:46,800

um the six observable the stuff that was

1303

00:46:50,710 --> 00:46:49,040

in the ndaa you know the physiological

1304

00:46:52,390 --> 00:46:50,720

effects and then you have the havana

1305

00:46:54,870 --> 00:46:52,400

syndrome stuff coming out

1306

00:46:56,630 --> 00:46:54,880

and i've read stuff from um

1307

00:46:58,950 --> 00:46:56,640

from frank actually frank milburn about

1308

00:47:00,870 --> 00:46:58,960

the weaponized microwave

1309

00:47:02,230 --> 00:47:00,880

emitters so with that being said with

1310

00:47:04,470 --> 00:47:02,240

the weaponized you know i need your help

1311

00:47:06,309 --> 00:47:04,480

with this as a chemist

1312

00:47:09,109 --> 00:47:06,319

so would wearing a suit lined with

1313

00:47:11,910 --> 00:47:09,119

popcorn seeds be a visible early warning

1314

00:47:13,910 --> 00:47:11,920

system for uh you know for the microwave

1315

00:47:16,710 --> 00:47:13,920

weapons you know like hey my suit is

1316

00:47:19,430 --> 00:47:16,720

popping um it's time to take cover bro

1317

00:47:21,109 --> 00:47:19,440

hey hey it's popping you know maybe we

1318

00:47:23,430 --> 00:47:21,119

should throw a blanket over that guy and

1319

00:47:24,630 --> 00:47:23,440

get away or you know get some butter get

1320

00:47:25,829 --> 00:47:24,640

the butter yeah you know at least you

1321

00:47:27,750 --> 00:47:25,839

have a snack while you wait for an

1322

00:47:29,750 --> 00:47:27,760

ambulance you know i think it's it's a

1323

00:47:31,750 --> 00:47:29,760

good idea this is more of a reason to

1324

00:47:33,750 --> 00:47:31,760

keep one of those lead line blankets

1325

00:47:35,670 --> 00:47:33,760

that they have in the x-ray labs in your

1326

00:47:37,190 --> 00:47:35,680

car so you should i think we should all

1327

00:47:38,390 --> 00:47:37,200

have one of those that's a good idea

1328

00:47:41,510 --> 00:47:38,400

chris pop

1329

00:47:43,910 --> 00:47:41,520

suit a suit filled with unpopped popcorn

1330

00:47:45,829 --> 00:47:43,920

do you think that could be beneficial

1331

00:47:47,589 --> 00:47:45,839

for those folks in cuba that are dealing

1332

00:47:49,430 --> 00:47:47,599

with these sonic attacks and so forth

1333

00:47:52,150 --> 00:47:49,440

could be

1334

00:47:54,630 --> 00:47:52,160

yeah it seems like great idea all right

1335

00:47:56,230 --> 00:47:54,640

thanks all right

1336

00:47:57,349 --> 00:47:56,240

nice

1337

00:47:59,430 --> 00:47:57,359

yeah but i mean

1338

00:48:01,910 --> 00:47:59,440

but i will point out one thing right if

1339

00:48:03,349 --> 00:48:01,920

it's hot enough to to pop the popcorn

1340

00:48:05,589 --> 00:48:03,359

right

1341

00:48:08,069 --> 00:48:05,599

i'm pretty sure you'll be burning

1342

00:48:10,069 --> 00:48:08,079

well before that you'll feel the heat oh

1343

00:48:12,710 --> 00:48:10,079

chris do you know what what frequency

1344

00:48:14,630 --> 00:48:12,720

popcorn pops huh

1345

00:48:15,750 --> 00:48:14,640

i don't think so go ahead dab

1346

00:48:17,510 --> 00:48:15,760

microwave

1347

00:48:20,470 --> 00:48:17,520

okay gotta be at temperature first of

1348

00:48:22,470 --> 00:48:20,480

all i love popcorn um second of all i

1349

00:48:24,790 --> 00:48:22,480

just wanted to comment that i've watched

1350

00:48:27,430 --> 00:48:24,800

your video about the range fowler

1351  
00:48:29,670 --> 00:48:27,440  
debriefs that came out and um i was

1352  
00:48:32,470 --> 00:48:29,680  
really enjoying the fact that a there

1353  
00:48:40,549 --> 00:48:32,480  
was another term for uav is being used

1354  
00:48:45,109 --> 00:48:43,270  
okay yeah yeah so i was asking i was

1355  
00:48:48,069 --> 00:48:45,119  
going to ask if you had taken a look at

1356  
00:48:50,150 --> 00:48:48,079  
the nsas and were considering to do the

1357  
00:48:52,309 --> 00:48:50,160  
same thing for their documents which are

1358  
00:48:55,190 --> 00:48:52,319  
primarily radar

1359  
00:48:56,570 --> 00:48:55,200  
um reads

1360  
00:48:58,870 --> 00:48:56,580  
i didn't know about them um

1361  
00:49:01,670 --> 00:48:58,880  
[Music]

1362  
00:49:04,069 --> 00:49:01,680  
yeah that sounds like a good thing to do

1363  
00:49:06,470 --> 00:49:04,079

yeah because i for for anyone who hasn't

1364

00:49:08,870 --> 00:49:06,480

looked they do describe some things

1365

00:49:12,150 --> 00:49:08,880

related to objects but a lot of it is

1366

00:49:15,190 --> 00:49:12,160

just about altitude and radar

1367

00:49:17,829 --> 00:49:15,200

cool so this is the what is it the nsa's

1368

00:49:20,390 --> 00:49:17,839

yes the nsa ufo documents

1369

00:49:21,750 --> 00:49:20,400

ufo documents okay i'll try and get them

1370

00:49:23,349 --> 00:49:21,760

um

1371

00:49:24,870 --> 00:49:23,359

yeah that's what on the discord if

1372

00:49:27,829 --> 00:49:24,880

people share them on there i get stuff

1373

00:49:33,589 --> 00:49:31,510

it's and it's 355 degrees fahrenheit

1374

00:49:35,750 --> 00:49:33,599

oh for popcorn yeah

1375

00:49:37,190 --> 00:49:35,760

oh man

1376

00:49:38,950 --> 00:49:37,200

so yeah that would be that would be a

1377

00:49:40,549 --> 00:49:38,960

problem uncomfortable yeah yeah that

1378

00:49:42,870 --> 00:49:40,559

could be a problem kev it's a good

1379

00:49:45,270 --> 00:49:42,880

thought but back to the drawing board

1380

00:49:46,549 --> 00:49:45,280

yeah it's heat it's not oh check it out

1381

00:49:50,710 --> 00:49:46,559

okay

1382

00:49:50,720 --> 00:49:55,670

i i can send you a link

1383

00:49:58,950 --> 00:49:58,150

got a link for you i do like it because

1384

00:50:00,549 --> 00:49:58,960

um

1385

00:50:02,710 --> 00:50:00,559

well the nsa i wonder that'd be

1386

00:50:04,150 --> 00:50:02,720

interesting to see yeah

1387

00:50:06,309 --> 00:50:04,160

i was thinking about the ballistic

1388

00:50:08,470 --> 00:50:06,319

missile defense system

1389

00:50:10,150 --> 00:50:08,480

or the anti-ballistic missile defense

1390

00:50:13,270 --> 00:50:10,160

system uh basically that's what they

1391

00:50:16,069 --> 00:50:13,280

were picking up the tic tacs with

1392

00:50:18,549 --> 00:50:16,079

so before the nimitz you know before the

1393

00:50:20,470 --> 00:50:18,559

nimitz engagement they were seeing these

1394

00:50:22,549 --> 00:50:20,480

coming from space these contacts 15 to

1395

00:50:24,390 --> 00:50:22,559

20 contacts where'd you get that from

1396

00:50:27,750 --> 00:50:24,400

because i'm interested in that yeah

1397

00:50:29,109 --> 00:50:27,760

that's kevin day uh he says it and his

1398

00:50:31,349 --> 00:50:29,119

it's in uh

1399

00:50:34,230 --> 00:50:31,359

um canoe kevin knuts

1400

00:50:35,430 --> 00:50:34,240

right up on it he gives the data on it

1401  
00:50:37,270 --> 00:50:35,440  
yeah that's what i'm saying you know we

1402  
00:50:39,349 --> 00:50:37,280  
focus we keep focusing on does it

1403  
00:50:42,390 --> 00:50:39,359  
accelerate at an accelerated speed you

1404  
00:50:44,309 --> 00:50:42,400  
know uh in this video um well did it

1405  
00:50:45,670 --> 00:50:44,319  
come down from space in groups of 15 to

1406  
00:50:46,470 --> 00:50:45,680  
20. you know that's more important i

1407  
00:50:47,829 --> 00:50:46,480  
think

1408  
00:50:49,829 --> 00:50:47,839  
i would say so

1409  
00:50:51,430 --> 00:50:49,839  
so 15 to 20 yeah basically they were

1410  
00:50:52,549 --> 00:50:51,440  
picking them up from the ballistic

1411  
00:50:53,990 --> 00:50:52,559  
missile defense system or

1412  
00:50:54,950 --> 00:50:54,000  
anti-anti-ballistic missile defense

1413  
00:50:56,390 --> 00:50:54,960

system

1414

00:50:57,990 --> 00:50:56,400

uh and you know what are these things

1415

00:51:00,309 --> 00:50:58,000

and then they would go to

1416

00:51:03,270 --> 00:51:00,319

and then when they get below 80 000 feet

1417

00:51:04,630 --> 00:51:03,280

then the spy 1 radar would see it

1418

00:51:07,349 --> 00:51:04,640

and they were picking

1419

00:51:09,270 --> 00:51:07,359

again 15 20 contacts going to 28 000

1420

00:51:11,829 --> 00:51:09,280

feet and just like doing this weird like

1421

00:51:13,510 --> 00:51:11,839

along the along a latitude line you're

1422

00:51:15,589 --> 00:51:13,520

asking about uh deb you were asking

1423

00:51:17,270 --> 00:51:15,599

about the crop circles and energy

1424

00:51:18,470 --> 00:51:17,280

um yeah it's kind of interesting to me

1425

00:51:21,349 --> 00:51:18,480

that the

1426

00:51:24,150 --> 00:51:21,359

tic tacs are at 28 000 feet and then

1427

00:51:25,270 --> 00:51:24,160

they just flow in the slow track south

1428

00:51:27,670 --> 00:51:25,280

you know almost like they're like

1429

00:51:29,430 --> 00:51:27,680

charging up or something you know or

1430

00:51:31,510 --> 00:51:29,440

it just seems weird to me in relation to

1431

00:51:32,710 --> 00:51:31,520

the earth and then they go down to like

1432

00:51:34,630 --> 00:51:32,720

um

1433

00:51:35,910 --> 00:51:34,640

the sea level right above 50 feet and

1434

00:51:37,430 --> 00:51:35,920

then they go up and they go down maybe

1435

00:51:38,870 --> 00:51:37,440

they go down another level or something

1436

00:51:41,349 --> 00:51:38,880

and you know

1437

00:51:43,349 --> 00:51:41,359

yeah it's kind of weird uh levels you

1438

00:51:44,630 --> 00:51:43,359

know what's up with the level

1439

00:51:46,069 --> 00:51:44,640

uh

1440

00:51:48,470 --> 00:51:46,079

yeah it's kind of interesting to me

1441

00:51:49,990 --> 00:51:48,480

what's up with the burbling water as as

1442

00:51:52,150 --> 00:51:50,000

they were floating above the water what

1443

00:51:54,790 --> 00:51:52,160

was going on here i mean exactly we

1444

00:51:56,309 --> 00:51:54,800

can't we don't know

1445

00:51:57,750 --> 00:51:56,319

yeah it'd be interesting to think about

1446

00:52:00,710 --> 00:51:57,760

those things you know rather than kind

1447

00:52:01,829 --> 00:52:00,720

of hone in all these these little minute

1448

00:52:03,510 --> 00:52:01,839

uh

1449

00:52:06,069 --> 00:52:03,520

did it or did not

1450

00:52:07,910 --> 00:52:06,079

oh i yeah i mean i've i've i'm we're way

1451  
00:52:09,190 --> 00:52:07,920  
past it's like lou says when you know

1452  
00:52:11,190 --> 00:52:09,200  
whether or not the phenomenon exists

1453  
00:52:13,190 --> 00:52:11,200  
we're way past that those guys are

1454  
00:52:14,150 --> 00:52:13,200  
talking about is it real is it not did

1455  
00:52:16,870 --> 00:52:14,160  
it

1456  
00:52:19,589 --> 00:52:16,880  
i'm not even i don't have you know time

1457  
00:52:21,030 --> 00:52:19,599  
to or energy to put into that uh to what

1458  
00:52:23,750 --> 00:52:21,040  
they say about that i'm more interested

1459  
00:52:25,829 --> 00:52:23,760  
in what is it doing uh what how is it

1460  
00:52:28,549 --> 00:52:25,839  
interacting with the water is that an

1461  
00:52:31,910 --> 00:52:28,559  
extraction of energy is that an exchange

1462  
00:52:33,430 --> 00:52:31,920  
of of of information or data

1463  
00:52:37,990 --> 00:52:33,440

or

1464

00:52:40,390 --> 00:52:38,000

vessel that was under the water that

1465

00:52:42,790 --> 00:52:40,400

they control i'm you know

1466

00:52:44,630 --> 00:52:42,800

uh why are they in formation what does

1467

00:52:46,870 --> 00:52:44,640

that mean i mean obviously they're

1468

00:52:49,190 --> 00:52:46,880

surveilling us i would think

1469

00:52:51,829 --> 00:52:49,200

just being there is surveillance but

1470

00:52:53,430 --> 00:52:51,839

what for what data are they gathering

1471

00:52:55,430 --> 00:52:53,440

are they watching

1472

00:52:59,190 --> 00:52:55,440

uh the are they

1473

00:53:01,190 --> 00:52:59,200

looking at the emitters that happen as a

1474

00:53:02,309 --> 00:53:01,200

that's resultant of nuclear power on

1475

00:53:03,990 --> 00:53:02,319

these ships

1476

00:53:06,870 --> 00:53:04,000

you know there's there's certain

1477

00:53:09,349 --> 00:53:06,880

you know uh uh energy and frequencies

1478

00:53:11,109 --> 00:53:09,359

that are created by a nuclear reactor

1479

00:53:12,870 --> 00:53:11,119

and maybe they're they're

1480

00:53:15,430 --> 00:53:12,880

they're receiving

1481

00:53:16,870 --> 00:53:15,440

those uh i don't want to say signals but

1482

00:53:19,589 --> 00:53:16,880

they're receiving those freaks and

1483

00:53:20,870 --> 00:53:19,599

seeing okay yeah they're just doing x

1484

00:53:22,390 --> 00:53:20,880

and not y

1485

00:53:25,990 --> 00:53:22,400

what's up with all the hot spots though

1486

00:53:27,670 --> 00:53:26,000

you know you see like a skinwalker ranch

1487

00:53:28,390 --> 00:53:27,680

you know you got the vernal

1488

00:53:31,349 --> 00:53:28,400

area

1489

00:53:33,030 --> 00:53:31,359

fernand or the uentah basin

1490

00:53:34,309 --> 00:53:33,040

you know you have um

1491

00:53:35,990 --> 00:53:34,319

la

1492

00:53:38,230 --> 00:53:36,000

uh it could be it's just over there by

1493

00:53:39,750 --> 00:53:38,240

the water uh but uh arizona and

1494

00:53:40,829 --> 00:53:39,760

everybody talks about there seems to be

1495

00:53:45,430 --> 00:53:40,839

like these

1496

00:53:49,270 --> 00:53:47,190

you know is it

1497

00:53:51,349 --> 00:53:49,280

to certain areas like drawn into the

1498

00:53:53,670 --> 00:53:51,359

ground you know if you look at why why

1499

00:53:55,670 --> 00:53:53,680

do people build pyramids

1500

00:53:57,910 --> 00:53:55,680

you know now uh lexa is all about

1501  
00:54:00,150 --> 00:53:57,920  
pyramids man i don't know we're gonna

1502  
00:54:02,390 --> 00:54:00,160  
maybe have to go to egypt or something

1503  
00:54:04,069 --> 00:54:02,400  
it's like indian jones dude i was like

1504  
00:54:05,670 --> 00:54:04,079  
i'm never tired of being a fighter pop

1505  
00:54:07,750 --> 00:54:05,680  
man it's just too stressful

1506  
00:54:09,030 --> 00:54:07,760  
spend time with my family

1507  
00:54:10,630 --> 00:54:09,040  
all right man we need you to go into

1508  
00:54:12,630 --> 00:54:10,640  
this pyramid

1509  
00:54:14,230 --> 00:54:12,640  
uh

1510  
00:54:16,630 --> 00:54:14,240  
i was just studying a little bit about

1511  
00:54:18,790 --> 00:54:16,640  
that last night about giza and

1512  
00:54:21,190 --> 00:54:18,800  
and uh the grand pyramid and all that is

1513  
00:54:22,950 --> 00:54:21,200

fat it's endlessly fascinating yeah why

1514

00:54:24,790 --> 00:54:22,960

is there all pyramids all around you

1515

00:54:27,270 --> 00:54:24,800

know i mean the mayans weren't in

1516

00:54:28,710 --> 00:54:27,280

contact with the you know

1517

00:54:30,790 --> 00:54:28,720

egyptian i think they're separated by a

1518

00:54:32,870 --> 00:54:30,800

few thousand years but

1519

00:54:35,109 --> 00:54:32,880

yeah so what is with the pyramids what's

1520

00:54:36,950 --> 00:54:35,119

with the local localities that's kind of

1521

00:54:39,430 --> 00:54:36,960

interesting to me as well

1522

00:54:41,109 --> 00:54:39,440

um let's go around the panel with both

1523

00:54:44,549 --> 00:54:41,119

those questions the hot spots and the

1524

00:54:46,870 --> 00:54:44,559

pyramids let's go ahead nathan

1525

00:54:49,030 --> 00:54:46,880

yeah uh

1526

00:54:50,069 --> 00:54:49,040

well there's i mean the earth like the

1527

00:54:52,390 --> 00:54:50,079

magnetic

1528

00:54:54,069 --> 00:54:52,400

the iron rich core or whatever obviously

1529

00:54:56,870 --> 00:54:54,079

there's something going on with the

1530

00:54:58,710 --> 00:54:56,880

earth and it's magnetic uh

1531

00:55:00,309 --> 00:54:58,720

not only internally but the fields that

1532

00:55:01,990 --> 00:55:00,319

it creates around it right there so

1533

00:55:04,470 --> 00:55:02,000

there's some sort of field

1534

00:55:06,150 --> 00:55:04,480

effects that

1535

00:55:07,349 --> 00:55:06,160

you know impact the atmosphere and

1536

00:55:09,510 --> 00:55:07,359

things like that i don't know maybe

1537

00:55:11,589 --> 00:55:09,520

there's some kind of

1538

00:55:14,150 --> 00:55:11,599

ability to harness that or channel that

1539

00:55:16,470 --> 00:55:14,160

or it's attract it's attractive for some

1540

00:55:18,069 --> 00:55:16,480

reason um

1541

00:55:19,589 --> 00:55:18,079

i don't really know i mean that that's

1542

00:55:21,030 --> 00:55:19,599

that's you know to me like that's the

1543

00:55:21,670 --> 00:55:21,040

right we need this funding when we need

1544

00:55:23,829 --> 00:55:21,680

this

1545

00:55:25,990 --> 00:55:23,839

to do the science

1546

00:55:27,829 --> 00:55:26,000

i think the scientific community kind of

1547

00:55:29,829 --> 00:55:27,839

is going to look at that and go what's

1548

00:55:31,589 --> 00:55:29,839

the point of looking at this you know

1549

00:55:33,109 --> 00:55:31,599

why would we spend time

1550

00:55:35,829 --> 00:55:33,119

investigating it but these are the sort

1551  
00:55:37,670 --> 00:55:35,839  
of like questions that i think would be

1552  
00:55:41,190 --> 00:55:37,680  
worth

1553  
00:55:43,190 --> 00:55:41,200  
exploring more um

1554  
00:55:44,470 --> 00:55:43,200  
so i don't know i mean i don't have an

1555  
00:55:46,630 --> 00:55:44,480  
answer to that but

1556  
00:55:49,589 --> 00:55:46,640  
it's there there clearly are

1557  
00:55:51,510 --> 00:55:49,599  
anomalies within our atmosphere and our

1558  
00:55:52,870 --> 00:55:51,520  
and within within our core itself like

1559  
00:55:53,670 --> 00:55:52,880  
they just recently talked about there

1560  
00:55:55,990 --> 00:55:53,680  
was

1561  
00:55:57,910 --> 00:55:56,000  
some sort of massive uh

1562  
00:55:59,910 --> 00:55:57,920  
i forget how they

1563  
00:56:02,150 --> 00:55:59,920

quantified it but it's like a it's a

1564

00:56:03,589 --> 00:56:02,160

it's a differentiation in the core of

1565

00:56:07,349 --> 00:56:03,599

the earth

1566

00:56:08,710 --> 00:56:07,359

so small compared to like everything

1567

00:56:10,630 --> 00:56:08,720

that's inside of it i'm not trying to

1568

00:56:11,990 --> 00:56:10,640

get fantastical it's just like true just

1569

00:56:14,150 --> 00:56:12,000

a fact you know there's just a ton of

1570

00:56:16,150 --> 00:56:14,160

there's a lot of mass inside the planet

1571

00:56:18,390 --> 00:56:16,160

you know way more than it is on the

1572

00:56:20,710 --> 00:56:18,400

outside so i i don't know and we just

1573

00:56:22,710 --> 00:56:20,720

did i did a i helped my daughter with

1574

00:56:24,549 --> 00:56:22,720

the seventh grade science experiment

1575

00:56:25,829 --> 00:56:24,559

right where she had to build the the

1576

00:56:27,990 --> 00:56:25,839

earth again

1577

00:56:28,789 --> 00:56:28,000

and it hasn't changed right it's still

1578

00:56:30,549 --> 00:56:28,799

like

1579

00:56:33,030 --> 00:56:30,559

it's just the

1580

00:56:34,789 --> 00:56:33,040

this ball all right it's like the core

1581

00:56:36,549 --> 00:56:34,799

yep and then there's like

1582

00:56:38,789 --> 00:56:36,559

thousands and thousands of miles right

1583

00:56:39,510 --> 00:56:38,799

and then it's like oh this is the mantle

1584

00:56:41,910 --> 00:56:39,520

you know

1585

00:56:44,549 --> 00:56:41,920

uh and then it's like okay the crust

1586

00:56:46,549 --> 00:56:44,559

like it had we haven't even like

1587

00:56:48,309 --> 00:56:46,559

well we can't even drill below a certain

1588

00:56:50,390 --> 00:56:48,319

level you know like it's difficult for

1589

00:56:52,309 --> 00:56:50,400

us everything that we can surmise about

1590

00:56:54,710 --> 00:56:52,319

the interior of our planet is really

1591

00:56:55,910 --> 00:56:54,720

yeah just through like seismic waves and

1592

00:56:57,430 --> 00:56:55,920

you know all these kind of different

1593

00:56:59,829 --> 00:56:57,440

technologies that we

1594

00:57:03,510 --> 00:56:59,839

second hand observe what's going on

1595

00:57:06,069 --> 00:57:03,520

there or we can't first hand observe it

1596

00:57:07,430 --> 00:57:06,079

yeah before i uh i mean obviously the

1597

00:57:09,670 --> 00:57:07,440

government thought it was interesting

1598

00:57:11,829 --> 00:57:09,680

enough to spend multi-million dollars

1599

00:57:13,829 --> 00:57:11,839

uh and give bob bill gallow a contract

1600

00:57:15,190 --> 00:57:13,839

and purchase that or actually they

1601  
00:57:18,390 --> 00:57:15,200  
purchased the property and then they

1602  
00:57:19,670 --> 00:57:18,400  
sold it to a big low um so obviously

1603  
00:57:21,109 --> 00:57:19,680  
there was something there that they

1604  
00:57:23,750 --> 00:57:21,119  
thought was compelling they sent a

1605  
00:57:25,510 --> 00:57:23,760  
number of different uh types of experts

1606  
00:57:27,750 --> 00:57:25,520  
out there uh so there's definitely

1607  
00:57:31,589 --> 00:57:27,760  
something there nathan uh what's your

1608  
00:57:33,510 --> 00:57:31,599  
take uh kev on hot spots and um

1609  
00:57:36,309 --> 00:57:33,520  
and uh what was the other one nathan the

1610  
00:57:38,069 --> 00:57:36,319  
earth's uh the pyramids yeah the the

1611  
00:57:40,230 --> 00:57:38,079  
reason the purpose that those

1612  
00:57:42,069 --> 00:57:40,240  
particularly

1613  
00:57:42,950 --> 00:57:42,079

so the purpose of the pyramids i mean

1614

00:57:59,190 --> 00:57:42,960

the

1615

00:58:01,270 --> 00:57:59,200

function

1616

00:58:03,829 --> 00:58:01,280

i don't know what that was

1617

00:58:05,829 --> 00:58:03,839

also beneath the pyramids supposedly

1618

00:58:07,430 --> 00:58:05,839

there are still tunnels

1619

00:58:09,589 --> 00:58:07,440

and supposedly um the tunnels that

1620

00:58:12,150 --> 00:58:09,599

connect to the other pyramids all kinds

1621

00:58:14,950 --> 00:58:12,160

of stuff going on also what um needs to

1622

00:58:17,829 --> 00:58:14,960

be looked at is the construction i think

1623

00:58:19,829 --> 00:58:17,839

that's more important how was it built

1624

00:58:21,510 --> 00:58:19,839

how did they have the technology i mean

1625

00:58:23,390 --> 00:58:21,520

you look at balbic

1626  
00:58:26,789 --> 00:58:23,400  
you've got

1627  
00:58:29,030 --> 00:58:26,799  
1500 ton blocks how are those moved

1628  
00:58:31,510 --> 00:58:29,040  
those are the foundation stones those

1629  
00:58:34,069 --> 00:58:31,520  
are the things that um really get me as

1630  
00:58:37,270 --> 00:58:34,079  
far as the function of it i i could say

1631  
00:58:39,670 --> 00:58:37,280  
i don't know and i can say probably

1632  
00:58:41,190 --> 00:58:39,680  
our historians don't know either

1633  
00:58:42,789 --> 00:58:41,200  
well what's your opinion on on the

1634  
00:58:45,510 --> 00:58:42,799  
pyramids

1635  
00:58:46,789 --> 00:58:45,520  
or ancient structures

1636  
00:58:48,470 --> 00:58:46,799  
yeah we're going to get back to chris i

1637  
00:58:51,190 --> 00:58:48,480  
want to get deb in here because she had

1638  
00:58:52,549 --> 00:58:51,200

something uh and i just want to say i

1639

00:58:54,870 --> 00:58:52,559

mean obviously

1640

00:58:56,630 --> 00:58:54,880

uh we spoke about the masonic order a

1641

00:58:59,190 --> 00:58:56,640

couple weeks ago with john you know the

1642

00:59:02,230 --> 00:58:59,200

washington monument has a pyramid on top

1643

00:59:04,710 --> 00:59:02,240

of it it's a significant structure in

1644

00:59:08,150 --> 00:59:04,720

the masonic order our money has a

1645

00:59:09,510 --> 00:59:08,160

pyramid with the eyeball in it as well

1646

00:59:12,150 --> 00:59:09,520

and then so i just want to throw that

1647

00:59:14,069 --> 00:59:12,160

out there just for food for thought debs

1648

00:59:16,630 --> 00:59:14,079

okay so i'm going to propose a different

1649

00:59:18,549 --> 00:59:16,640

idea with pyramids please so i do think

1650

00:59:20,069 --> 00:59:18,559

there was a spiritual connection and

1651  
00:59:21,910 --> 00:59:20,079  
they were kind of doing a message with

1652  
00:59:23,670 --> 00:59:21,920  
the different sides like each side might

1653  
00:59:24,789 --> 00:59:23,680  
have represented something but to me it

1654  
00:59:26,230 --> 00:59:24,799  
could be

1655  
00:59:27,990 --> 00:59:26,240  
an antenna

1656  
00:59:30,710 --> 00:59:28,000  
you know they were literally trying to

1657  
00:59:33,109 --> 00:59:30,720  
project something into the sky

1658  
00:59:35,109 --> 00:59:33,119  
um that's the impression that i get from

1659  
00:59:37,190 --> 00:59:35,119  
pyramids and i've actually been to them

1660  
00:59:39,990 --> 00:59:37,200  
so that's kind of cool that i can

1661  
00:59:40,789 --> 00:59:40,000  
comment on them now but um i also wanted

1662  
00:59:42,950 --> 00:59:40,799  
to

1663  
00:59:45,510 --> 00:59:42,960

comment on the hot spots a lot of hot

1664

00:59:46,710 --> 00:59:45,520

spots are actually areas with nuclear

1665

00:59:49,750 --> 00:59:46,720

fallout

1666

00:59:51,750 --> 00:59:49,760

um not not just areas that have magnetic

1667

00:59:54,789 --> 00:59:51,760

connections but like people talk about

1668

00:59:57,670 --> 00:59:54,799

skinwalker that whole area got fallout

1669

01:00:00,069 --> 00:59:57,680

because they were close enough to the

1670

01:00:01,990 --> 01:00:00,079

the triangle of uh

1671

01:00:05,510 --> 01:00:02,000

testing

1672

01:00:07,190 --> 01:00:05,520

oh to like new mexico yep

1673

01:00:08,870 --> 01:00:07,200

that's why i think there's also silver

1674

01:00:09,990 --> 01:00:08,880

radiation on the ranch

1675

01:00:11,510 --> 01:00:10,000

okay

1676  
01:00:12,710 --> 01:00:11,520  
that's a good one

1677  
01:00:14,470 --> 01:00:12,720  
oh chris

1678  
01:00:17,510 --> 01:00:14,480  
your take

1679  
01:00:19,380 --> 01:00:17,520  
i'm going with debs

1680  
01:00:23,030 --> 01:00:19,390  
nfps and dlwg

1681  
01:00:23,829 --> 01:00:23,040  
[Laughter]

1682  
01:00:25,430 --> 01:00:23,839  
all right

1683  
01:00:27,829 --> 01:00:25,440  
well i have heard it's interesting yeah

1684  
01:00:28,950 --> 01:00:27,839  
that they can align amazing with the

1685  
01:00:30,789 --> 01:00:28,960  
stars

1686  
01:00:33,670 --> 01:00:30,799  
that was always so cool to me

1687  
01:00:35,670 --> 01:00:33,680  
yeah that's iris yeah

1688  
01:00:37,990 --> 01:00:35,680

that and that seemed to line up with

1689

01:00:39,910 --> 01:00:38,000

like the mayans they had their pyramids

1690

01:00:42,549 --> 01:00:39,920

were somehow lined up pointed at certain

1691

01:00:44,950 --> 01:00:42,559

star systems

1692

01:00:46,789 --> 01:00:44,960

um that seems pretty cool to me

1693

01:00:48,470 --> 01:00:46,799

you know maybe it like aligns every two

1694

01:00:50,230 --> 01:00:48,480

thousand one hundred and sixty eight

1695

01:00:51,910 --> 01:00:50,240

years or something you know and if

1696

01:00:53,430 --> 01:00:51,920

you're in that pyramid like this beam of

1697

01:00:56,069 --> 01:00:53,440

light laser light comes out i don't know

1698

01:00:58,870 --> 01:00:56,079

i mean who knows man well ufos

1699

01:01:01,190 --> 01:00:58,880

chris if if they align the the corners

1700

01:01:03,190 --> 01:01:01,200

of those the pyramid to the cardinal

1701  
01:01:05,589 --> 01:01:03,200  
directions and yet compasses weren't

1702  
01:01:07,990 --> 01:01:05,599  
invented yet

1703  
01:01:09,270 --> 01:01:08,000  
so it's not magnetic north right but

1704  
01:01:11,349 --> 01:01:09,280  
it's north

1705  
01:01:13,670 --> 01:01:11,359  
and they're off by

1706  
01:01:15,349 --> 01:01:13,680  
a couple of degrees i can't remember 1

1707  
01:01:17,430 --> 01:01:15,359  
16 or something

1708  
01:01:22,549 --> 01:01:17,440  
yeah

1709  
01:01:24,630 --> 01:01:22,559  
so that's one of the construction

1710  
01:01:26,470 --> 01:01:24,640  
methods the magnetics

1711  
01:01:28,150 --> 01:01:26,480  
yeah they they did it they somehow

1712  
01:01:30,470 --> 01:01:28,160  
figured out you know north south east

1713  
01:01:32,950 --> 01:01:30,480

west and aligned the triangle that way

1714

01:01:35,510 --> 01:01:32,960

yet they did it without uh having the

1715

01:01:37,670 --> 01:01:35,520

benefit of a compass that we know of

1716

01:01:40,069 --> 01:01:37,680

that we know of because

1717

01:01:41,910 --> 01:01:40,079

it would be cool if it was an antenna

1718

01:01:43,829 --> 01:01:41,920

that sounds cool or some sort of

1719

01:01:45,829 --> 01:01:43,839

transmitter

1720

01:01:47,829 --> 01:01:45,839

or receiver what if it was a receiver

1721

01:01:50,870 --> 01:01:47,839

yeah well a transmitter is usually a

1722

01:01:52,390 --> 01:01:50,880

receiver i think or you know um it isn't

1723

01:01:54,470 --> 01:01:52,400

radar no i'm just kidding

1724

01:01:56,309 --> 01:01:54,480

yeah like an amplifier

1725

01:01:57,829 --> 01:01:56,319

yeah yeah it's an amplifier there you go

1726

01:01:59,349 --> 01:01:57,839

it's not the receiver of the transmitter

1727

01:02:01,109 --> 01:01:59,359

it's an amplifier

1728

01:02:03,510 --> 01:02:01,119

so it's like a scalar wave that's

1729

01:02:06,549 --> 01:02:03,520

alexa's kind of thing is that um

1730

01:02:09,270 --> 01:02:06,559

the magic box have you heard of this

1731

01:02:11,990 --> 01:02:09,280

the magic square uh it's a magic square

1732

01:02:14,710 --> 01:02:12,000

do you imagine like uh sudoku of four

1733

01:02:16,710 --> 01:02:14,720

lines and four lines uh you know

1734

01:02:18,390 --> 01:02:16,720

um and each

1735

01:02:21,190 --> 01:02:18,400

row adds up to

1736

01:02:23,109 --> 01:02:21,200

the same number all the way around

1737

01:02:27,029 --> 01:02:23,119

does that make sense called the magic

1738

01:02:29,430 --> 01:02:27,039

square is 34. it's like liquid geometry

1739

01:02:32,390 --> 01:02:29,440

yeah so the magic square if if you do it

1740

01:02:34,630 --> 01:02:32,400

this certain way 34 34 34 is all the way

1741

01:02:36,950 --> 01:02:34,640

around and then inside of each corner

1742

01:02:39,109 --> 01:02:36,960

every each side of each uh 25 percent of

1743

01:02:41,029 --> 01:02:39,119

it is adds up to i don't know the same

1744

01:02:42,789 --> 01:02:41,039

or something it's like a super

1745

01:02:44,630 --> 01:02:42,799

symmetrical basically called the magic

1746

01:02:46,829 --> 01:02:44,640

square

1747

01:02:48,710 --> 01:02:46,839

well it kind of gives you a way to do a

1748

01:02:50,309 --> 01:02:48,720

scalar um

1749

01:02:51,910 --> 01:02:50,319

spin up

1750

01:02:54,309 --> 01:02:51,920

if you follow it because it'll be like

1751

01:02:56,390 --> 01:02:54,319

number one because sorry yeah number one

1752

01:02:59,910 --> 01:02:56,400

if you go one two three four five all

1753

01:03:04,470 --> 01:02:59,920

the way around it makes a scalar wave

1754

01:03:06,870 --> 01:03:04,480

and so that is what um alexa is i think

1755

01:03:08,150 --> 01:03:06,880

yeah is basically if we can

1756

01:03:10,069 --> 01:03:08,160

if you can

1757

01:03:11,589 --> 01:03:10,079

get the right ratio which i think is one

1758

01:03:13,029 --> 01:03:11,599

to four

1759

01:03:14,549 --> 01:03:13,039

you can

1760

01:03:17,510 --> 01:03:14,559

you know basically create an

1761

01:03:20,069 --> 01:03:17,520

interdimensional telescope or something

1762

01:03:24,069 --> 01:03:20,079

the idea is that what he's doing is that

1763

01:03:25,829 --> 01:03:24,079

what his angle of of uh your partnership

1764

01:03:28,230 --> 01:03:25,839

i don't know he said we need to talk

1765

01:03:29,670 --> 01:03:28,240

about pyramids that's the way at the end

1766

01:03:31,270 --> 01:03:29,680

we gotta go

1767

01:03:34,950 --> 01:03:31,280

no our partnership is about going to

1768

01:03:36,230 --> 01:03:34,960

space and nfts and doing cool stuff like

1769

01:03:39,190 --> 01:03:36,240

that

1770

01:03:42,309 --> 01:03:39,200

space

1771

01:03:43,430 --> 01:03:42,319

yes so he's on the nft project as well

1772

01:03:45,349 --> 01:03:43,440

so

1773

01:03:47,589 --> 01:03:45,359

if our plans go right you'll see him on

1774

01:03:49,910 --> 01:03:47,599

uh you'll see him at ufo disclosure

1775

01:03:51,750 --> 01:03:49,920

sorry sorry the other way tell us about

1776

01:03:53,829 --> 01:03:51,760

it uh yeah tell tell us about him a

1777

01:03:55,750 --> 01:03:53,839

little bit

1778

01:03:59,430 --> 01:03:55,760

alexei or

1779

01:04:02,230 --> 01:03:59,440

yeah alexa is awesome man he's um

1780

01:04:04,950 --> 01:04:02,240

he basically has a physics background

1781

01:04:06,950 --> 01:04:04,960

and then he kind of uh

1782

01:04:08,789 --> 01:04:06,960

i don't know went off into the woods and

1783

01:04:11,029 --> 01:04:08,799

meditated for i don't know how many

1784

01:04:13,510 --> 01:04:11,039

months years

1785

01:04:15,589 --> 01:04:13,520

uh now he's back

1786

01:04:17,910 --> 01:04:15,599

but he had a lot of delusions the henry

1787

01:04:21,109 --> 01:04:17,920

david thoreau of physics okay he's a

1788

01:04:22,950 --> 01:04:21,119

deep dude man yeah exactly so you

1789

01:04:25,270 --> 01:04:22,960

basically get you know he's able to

1790

01:04:28,710 --> 01:04:25,280

meditate super

1791

01:04:31,750 --> 01:04:28,720

well and he can communicate

1792

01:04:33,349 --> 01:04:31,760

with known things i don't know

1793

01:04:35,349 --> 01:04:33,359

and uh

1794

01:04:37,029 --> 01:04:35,359

yeah so i don't know he i like talking

1795

01:04:38,950 --> 01:04:37,039

to him i like his energy i like he's

1796

01:04:41,750 --> 01:04:38,960

interested in

1797

01:04:44,069 --> 01:04:41,760

he has ambitious goals to

1798

01:04:46,870 --> 01:04:44,079

uh help humanity

1799

01:04:48,069 --> 01:04:46,880

and and yeah i i respect that you know

1800

01:04:50,069 --> 01:04:48,079

and

1801

01:04:51,990 --> 01:04:50,079

yeah plus he's done

1802

01:04:53,270 --> 01:04:52,000

he's done a lot of cool stuff so and he

1803

01:04:55,750 --> 01:04:53,280

opened my mind to a lot of things you

1804

01:04:57,430 --> 01:04:55,760

know about uh his basic argument is that

1805

01:04:58,710 --> 01:04:57,440

we're you could argue we're inside of a

1806

01:05:00,470 --> 01:04:58,720

black hole

1807

01:05:02,150 --> 01:05:00,480

uh we're just orbiting at different

1808

01:05:05,430 --> 01:05:02,160

different ranges from the from the

1809

01:05:06,950 --> 01:05:05,440

center right and your frequency is

1810

01:05:09,270 --> 01:05:06,960

um

1811

01:05:12,390 --> 01:05:09,280

related to uh

1812

01:05:13,910 --> 01:05:12,400

your uh wavelength right

1813

01:05:15,829 --> 01:05:13,920

so we're all at the same basic

1814

01:05:17,349 --> 01:05:15,839

wavelength which is about the speed of

1815

01:05:19,190 --> 01:05:17,359

light that's that's what our

1816

01:05:20,470 --> 01:05:19,200

acceleration is towards time so he says

1817

01:05:22,390 --> 01:05:20,480

basically everybody's accelerating

1818

01:05:24,150 --> 01:05:22,400

towards the center of the black hole at

1819

01:05:25,750 --> 01:05:24,160

the speed of light so we're all orbiting

1820

01:05:27,750 --> 01:05:25,760

the same we come into synchronicities

1821

01:05:28,870 --> 01:05:27,760

together and that's how we can manifest

1822

01:05:30,470 --> 01:05:28,880

and um

1823

01:05:33,190 --> 01:05:30,480

interact with each other

1824

01:05:36,069 --> 01:05:33,200

and and how big is our solar system in

1825

01:05:39,910 --> 01:05:36,079

relation to the size of the black hole

1826

01:05:41,620 --> 01:05:39,920

that we're in in his estimation

1827

01:05:42,870 --> 01:05:41,630

i i think it's all um

1828

01:05:44,789 --> 01:05:42,880

[Music]

1829

01:05:45,829 --> 01:05:44,799

basically it says we're all kind of the

1830

01:05:49,029 --> 01:05:45,839

same

1831

01:05:50,870 --> 01:05:49,039

understand

1832

01:05:52,470 --> 01:05:50,880

is that you can affect everything

1833

01:05:56,069 --> 01:05:52,480

affects everything else at an infinite

1834

01:05:57,670 --> 01:05:56,079

distance it's just very small far away

1835

01:06:00,630 --> 01:05:57,680

but still affects it

1836

01:06:03,910 --> 01:06:00,640

so that supports that theory that

1837

01:06:07,589 --> 01:06:03,920

uh that ufos turned up when there was a

1838

01:06:09,589 --> 01:06:07,599

nuclear explosion testing in new mexico

1839

01:06:11,589 --> 01:06:09,599

that got their attention because though

1840

01:06:13,029 --> 01:06:11,599

they may have been at an infinite

1841

01:06:15,589 --> 01:06:13,039

distance away

1842

01:06:18,069 --> 01:06:15,599

they were aware there was that sort of

1843

01:06:19,670 --> 01:06:18,079

tremor in the force to use a star wars

1844

01:06:20,870 --> 01:06:19,680

ism

1845

01:06:23,750 --> 01:06:20,880

yeah

1846

01:06:25,109 --> 01:06:23,760

sense um

1847

01:06:26,789 --> 01:06:25,119

basically we're all a lot closer than

1848

01:06:28,150 --> 01:06:26,799

you think everything's a lot closer than

1849

01:06:29,670 --> 01:06:28,160

you think it's just in a different

1850

01:06:31,109 --> 01:06:29,680

dimension

1851  
01:06:32,870 --> 01:06:31,119  
and that's my argument it's a size

1852  
01:06:33,750 --> 01:06:32,880  
dimension based on

1853  
01:06:36,630 --> 01:06:33,760  
um

1854  
01:06:38,870 --> 01:06:36,640  
orbiting inside of a black hole

1855  
01:06:40,470 --> 01:06:38,880  
that's just one yeah that's his i don't

1856  
01:06:42,150 --> 01:06:40,480  
i don't you know i don't know the black

1857  
01:06:44,069 --> 01:06:42,160  
hole thing that's his

1858  
01:06:45,750 --> 01:06:44,079  
uh mine is we're just inside of you can

1859  
01:06:47,109 --> 01:06:45,760  
see the dimensions right we can see

1860  
01:06:48,950 --> 01:06:47,119  
smaller dimensions of life and we can

1861  
01:06:50,870 --> 01:06:48,960  
see i argue we can see larger dimensions

1862  
01:06:53,109 --> 01:06:50,880  
of life we just assume it's it's dark

1863  
01:06:54,950 --> 01:06:53,119

matter

1864

01:06:56,789 --> 01:06:54,960

what larger dimensions of life are you

1865

01:06:57,990 --> 01:06:56,799

referring to

1866

01:07:00,950 --> 01:06:58,000

um

1867

01:07:02,470 --> 01:07:00,960

the the easiest one to see is uh

1868

01:07:05,270 --> 01:07:02,480

the nation i think is probably the

1869

01:07:07,349 --> 01:07:05,280

easiest or corporations

1870

01:07:09,109 --> 01:07:07,359

so the humans basically organized into

1871

01:07:10,470 --> 01:07:09,119

small groups if you can imagine back

1872

01:07:12,309 --> 01:07:10,480

when we were tribes it's like a little

1873

01:07:14,870 --> 01:07:12,319

amoeba

1874

01:07:16,950 --> 01:07:14,880

and and that basically is that whatever

1875

01:07:19,270 --> 01:07:16,960

you want to call that super organism or

1876

01:07:21,750 --> 01:07:19,280

next dimension of life i call it

1877

01:07:24,230 --> 01:07:21,760

uh has organized now into what we see is

1878

01:07:26,230 --> 01:07:24,240

modern nations cities corporations

1879

01:07:27,349 --> 01:07:26,240

groups you know

1880

01:07:29,109 --> 01:07:27,359

um

1881

01:07:31,029 --> 01:07:29,119

so that's the easiest i think larger

1882

01:07:32,390 --> 01:07:31,039

dimension of life is like uh the nation

1883

01:07:33,430 --> 01:07:32,400

you're in you know you're born in it you

1884

01:07:34,710 --> 01:07:33,440

die

1885

01:07:35,829 --> 01:07:34,720

you get a social security number you

1886

01:07:37,349 --> 01:07:35,839

have to go to school to fill certain

1887

01:07:39,510 --> 01:07:37,359

roles in the society right just like

1888

01:07:40,950 --> 01:07:39,520

your your cells

1889

01:07:43,270 --> 01:07:40,960

you know

1890

01:07:44,470 --> 01:07:43,280

unfortunately if you end up in your

1891

01:07:46,309 --> 01:07:44,480

digestive system you're only going to

1892

01:07:47,829 --> 01:07:46,319

live like four days right you're out in

1893

01:07:49,670 --> 01:07:47,839

the front lines

1894

01:07:51,270 --> 01:07:49,680

uh if you're a neuron man you're up in

1895

01:07:52,309 --> 01:07:51,280

the top you're that one percent you live

1896

01:07:54,309 --> 01:07:52,319

forever

1897

01:07:55,510 --> 01:07:54,319

right until the whole organism dies you

1898

01:07:56,390 --> 01:07:55,520

know

1899

01:07:58,470 --> 01:07:56,400

um

1900

01:08:00,230 --> 01:07:58,480

and i think the problem is that the

1901  
01:08:01,430 --> 01:08:00,240  
organisms above us don't realize that

1902  
01:08:02,789 --> 01:08:01,440  
that that we're here or they get they

1903  
01:08:04,309 --> 01:08:02,799  
don't give a [\h\_\_\h]

1904  
01:08:05,990 --> 01:08:04,319  
um

1905  
01:08:09,109 --> 01:08:06,000  
yeah they're not sentient they have

1906  
01:08:12,150 --> 01:08:10,789  
so that's what i think i think it keeps

1907  
01:08:14,710 --> 01:08:12,160  
going as well so when you asked about

1908  
01:08:17,269 --> 01:08:14,720  
dna different levels um yeah i think

1909  
01:08:19,590 --> 01:08:17,279  
likely we are surrounded by probably

1910  
01:08:21,269 --> 01:08:19,600  
billions or trillions of other seed

1911  
01:08:22,950 --> 01:08:21,279  
worlds like our own

1912  
01:08:24,870 --> 01:08:22,960  
you know normally when we find out stuff

1913  
01:08:26,550 --> 01:08:24,880

the number is just mind-blowing right we

1914

01:08:27,749 --> 01:08:26,560

just can't believe it so i think we're

1915

01:08:29,349 --> 01:08:27,759

going to look around and be like oh

1916

01:08:30,709 --> 01:08:29,359

there's another solar system over there

1917

01:08:32,070 --> 01:08:30,719

you know and there's another so like

1918

01:08:33,030 --> 01:08:32,080

that's what always happened and then

1919

01:08:34,870 --> 01:08:33,040

we're like

1920

01:08:36,950 --> 01:08:34,880

like let's go there you know we go and

1921

01:08:39,189 --> 01:08:36,960

we find ourselves and we're like no [h\_\_h]

1922

01:08:40,789 --> 01:08:39,199

you know like the same thing european

1923

01:08:43,829 --> 01:08:40,799

you're here too how did you get here

1924

01:08:46,070 --> 01:08:43,839

like we came you know back in the

1925

01:08:48,149 --> 01:08:46,080

whatever when we were dinosaurs dark age

1926

01:08:51,030 --> 01:08:48,159

right yeah the first dark age you know

1927

01:08:53,590 --> 01:08:51,040

or yeah if it's humans again um

1928

01:08:56,070 --> 01:08:53,600

so yeah i think it's usually much bigger

1929

01:08:58,309 --> 01:08:56,080

than we can imagine and

1930

01:09:00,630 --> 01:08:58,319

we don't we're not the center

1931

01:09:02,149 --> 01:09:00,640

uh that would be my guess and so i think

1932

01:09:05,829 --> 01:09:02,159

right now if you're just inside of a

1933

01:09:07,430 --> 01:09:05,839

large organism you're forced to do it um

1934

01:09:08,870 --> 01:09:07,440

i see the similarities with youtube as

1935

01:09:09,829 --> 01:09:08,880

well as a major in similarity with the

1936

01:09:14,789 --> 01:09:09,839

brain

1937

01:09:17,349 --> 01:09:14,799

your neurons are tiny little processors

1938

01:09:19,749 --> 01:09:17,359

so they they're thresholds right so

1939

01:09:20,789 --> 01:09:19,759

um they process the information

1940

01:09:22,149 --> 01:09:20,799

whereas

1941

01:09:24,149 --> 01:09:22,159

if you're just sending information it's

1942

01:09:25,269 --> 01:09:24,159

communication right so you have two

1943

01:09:26,789 --> 01:09:25,279

types of kind of

1944

01:09:27,990 --> 01:09:26,799

kind of information of

1945

01:09:29,990 --> 01:09:28,000

um

1946

01:09:31,030 --> 01:09:30,000

sending it communication wise right you

1947

01:09:32,070 --> 01:09:31,040

don't have to change it you can just

1948

01:09:33,189 --> 01:09:32,080

send it

1949

01:09:34,870 --> 01:09:33,199

but if you're gonna change it now you're

1950

01:09:36,390 --> 01:09:34,880

going to process it so that's what your

1951

01:09:37,910 --> 01:09:36,400

brain actually does your little neurons

1952

01:09:39,510 --> 01:09:37,920

right they they reach through the neural

1953

01:09:41,510 --> 01:09:39,520

network as it comes up it reaches a

1954

01:09:42,950 --> 01:09:41,520

threshold and then it passes it on to

1955

01:09:44,709 --> 01:09:42,960

the rest of the network

1956

01:09:47,030 --> 01:09:44,719

um but if you look at me like as a

1957

01:09:48,470 --> 01:09:47,040

youtuber and you guys is also youtubers

1958

01:09:50,309 --> 01:09:48,480

i receive information

1959

01:09:52,390 --> 01:09:50,319

right i just receive it

1960

01:09:54,390 --> 01:09:52,400

and then i process it and using my

1961

01:09:55,990 --> 01:09:54,400

neural network systems right and then i

1962

01:09:58,310 --> 01:09:56,000

disperse it back out in the network

1963

01:09:59,910 --> 01:09:58,320

right and like as i get more you know if

1964

01:10:01,590 --> 01:09:59,920

i get more subs right now i'm like

1965

01:10:03,750 --> 01:10:01,600

higher up in the network you know but if

1966

01:10:05,350 --> 01:10:03,760

you imagine it's like this um

1967

01:10:06,950 --> 01:10:05,360

there's you can see a neural network

1968

01:10:09,270 --> 01:10:06,960

forming

1969

01:10:12,229 --> 01:10:09,280

um and i think it's yeah i think it's

1970

01:10:14,550 --> 01:10:12,239

awesome i think that will be the next

1971

01:10:16,149 --> 01:10:14,560

level i could bounce this again i'm

1972

01:10:18,390 --> 01:10:16,159

gonna want to talk about simulation

1973

01:10:19,510 --> 01:10:18,400

theory relative to this but i gotta pass

1974

01:10:21,270 --> 01:10:19,520

it over

1975

01:10:23,110 --> 01:10:21,280

to my brother

1976

01:10:24,310 --> 01:10:23,120

money nathan

1977

01:10:26,950 --> 01:10:24,320

there are so many directions i want to

1978

01:10:28,149 --> 01:10:26,960

take this conversation um

1979

01:10:29,990 --> 01:10:28,159

but i'm gonna go back to the

1980

01:10:31,990 --> 01:10:30,000

consciousness one that's one what you

1981

01:10:34,550 --> 01:10:32,000

touched on earlier and since we are both

1982

01:10:36,470 --> 01:10:34,560

fans or bernardo castro that we can uh

1983

01:10:38,550 --> 01:10:36,480

touch on that a little bit so

1984

01:10:41,189 --> 01:10:38,560

um

1985

01:10:43,590 --> 01:10:41,199

for those who are not familiar with that

1986

01:10:45,350 --> 01:10:43,600

the idea right we have kind of two main

1987

01:10:47,590 --> 01:10:45,360

just we'll set this up real quick that

1988

01:10:49,350 --> 01:10:47,600

there are two main sort of metaphysical

1989

01:10:50,790 --> 01:10:49,360

concepts there's materialism which is

1990

01:10:52,310 --> 01:10:50,800

the one that we all are the most

1991

01:10:54,630 --> 01:10:52,320

familiar with

1992

01:10:55,510 --> 01:10:54,640

uh the world reality is comprised of

1993

01:10:57,430 --> 01:10:55,520

matter

1994

01:10:59,910 --> 01:10:57,440

uh we can reduce that all the way down

1995

01:11:02,630 --> 01:10:59,920

to the tiny little uh sort of things

1996

01:11:04,950 --> 01:11:02,640

that quarks and whatever things that we

1997

01:11:07,430 --> 01:11:04,960

our physics say exist

1998

01:11:10,550 --> 01:11:07,440

and consciousness comes out of

1999

01:11:13,110 --> 01:11:10,560

interactions that occur between

2000

01:11:15,030 --> 01:11:13,120

amongst sort of aggregating

2001

01:11:16,790 --> 01:11:15,040

bits of matter we don't quite know how

2002

01:11:19,350 --> 01:11:16,800

it works but that's the general concept

2003

01:11:21,910 --> 01:11:19,360

you know brains create our consciousness

2004

01:11:23,669 --> 01:11:21,920

uh idealism is the sort of a different

2005

01:11:24,709 --> 01:11:23,679

way of looking at this issue it's saying

2006

01:11:26,790 --> 01:11:24,719

that

2007

01:11:28,950 --> 01:11:26,800

we don't have

2008

01:11:30,950 --> 01:11:28,960

uh direct experience of matter all we

2009

01:11:33,669 --> 01:11:30,960

have is our experience itself

2010

01:11:35,830 --> 01:11:33,679

and experience is thus the foundation of

2011

01:11:37,189 --> 01:11:35,840

what all there really is matter is

2012

01:11:39,830 --> 01:11:37,199

really just a

2013

01:11:41,669 --> 01:11:39,840

uh kind of a projection of mind it's not

2014

01:11:42,709 --> 01:11:41,679

uh it's not a real thing it's something

2015

01:11:46,470 --> 01:11:42,719

that we

2016

01:11:47,189 --> 01:11:46,480

uh just by being thinking things uh sort

2017

01:11:48,550 --> 01:11:47,199

of

2018

01:11:50,070 --> 01:11:48,560

manifest

2019

01:11:52,149 --> 01:11:50,080

in a way but it

2020

01:11:53,830 --> 01:11:52,159

it's um

2021

01:11:54,950 --> 01:11:53,840

it's a different way of uh thinking

2022

01:11:57,750 --> 01:11:54,960

about

2023

01:11:59,350 --> 01:11:57,760

the ufo and and i think not just the ufo

2024

01:12:00,630 --> 01:11:59,360

problem but but of

2025

01:12:02,550 --> 01:12:00,640

sort of what we hear and sort of

2026

01:12:04,950 --> 01:12:02,560

consciousness research itself i don't

2027

01:12:06,470 --> 01:12:04,960

know to what degree you've looked at uh

2028

01:12:08,950 --> 01:12:06,480

things like

2029

01:12:10,630 --> 01:12:08,960

uh the life after death kinds of studies

2030

01:12:12,229 --> 01:12:10,640

or the things that um

2031

01:12:13,750 --> 01:12:12,239

the the bigelow institute for

2032

01:12:15,430 --> 01:12:13,760

consciousness studies

2033

01:12:16,470 --> 01:12:15,440

so the winner of that contest if you

2034

01:12:18,630 --> 01:12:16,480

haven't read it i would encourage

2035

01:12:20,630 --> 01:12:18,640

everybody to take a look at it uh was is

2036

01:12:23,270 --> 01:12:20,640

dr jeffrey mishloh he wrote a hundred

2037

01:12:24,790 --> 01:12:23,280

page pdf it's free it's got a ton of

2038

01:12:26,709 --> 01:12:24,800

videos on it but what he basically does

2039

01:12:28,709 --> 01:12:26,719

is he goes through all of the sort of

2040

01:12:30,790 --> 01:12:28,719

evidence for the survival of

2041

01:12:33,830 --> 01:12:30,800

consciousness after death and honestly

2042

01:12:36,390 --> 01:12:33,840

to me that evidence is more compelling

2043

01:12:38,709 --> 01:12:36,400

than the ufo evidence and so what

2044

01:12:41,189 --> 01:12:38,719

idealists i think are going to do

2045

01:12:43,350 --> 01:12:41,199

is they're going to take this notion

2046

01:12:45,350 --> 01:12:43,360

of consciousness being fundamental and

2047

01:12:47,830 --> 01:12:45,360

they're going to map onto all of these

2048

01:12:49,669 --> 01:12:47,840

different things paranormal paranormal

2049

01:12:51,510 --> 01:12:49,679

paranormality high strangers the

2050

01:12:53,669 --> 01:12:51,520

survival of consciousness ufos and say

2051

01:12:56,390 --> 01:12:53,679

look it's all coming from mind

2052

01:12:57,990 --> 01:12:56,400

right it's all stemming from from mind i

2053

01:12:59,990 --> 01:12:58,000

know you've gotten into this recently

2054

01:13:02,310 --> 01:13:00,000

and you know kind of pursuing it and

2055

01:13:03,830 --> 01:13:02,320

have you do you feel like it meshes well

2056

01:13:05,270 --> 01:13:03,840

with with the concept you just talked

2057

01:13:08,390 --> 01:13:05,280

about the sort of

2058

01:13:09,990 --> 01:13:08,400

larger organism this kind of layering up

2059

01:13:11,590 --> 01:13:10,000

uh sort of

2060

01:13:15,270 --> 01:13:11,600

notion do you think that these things do

2061

01:13:18,550 --> 01:13:17,430

i do well i don't i've been trying to

2062

01:13:20,709 --> 01:13:18,560

find any

2063

01:13:25,590 --> 01:13:20,719

um

2064

01:13:27,830 --> 01:13:25,600

and things that do work obviously

2065

01:13:29,189 --> 01:13:27,840

but really to shoot a theory down is you

2066

01:13:31,270 --> 01:13:29,199

know things that don't work obvious

2067

01:13:35,830 --> 01:13:31,280

things that don't work

2068

01:13:37,910 --> 01:13:35,840

um and when i analyzed analytic idealism

2069

01:13:39,750 --> 01:13:37,920

um so i basically i took it as they're

2070

01:13:42,229 --> 01:13:39,760

kind of opposites

2071

01:13:43,669 --> 01:13:42,239

you know materialism is the material

2072

01:13:45,830 --> 01:13:43,679

world are

2073

01:13:47,430 --> 01:13:45,840

the things that work our biological

2074

01:13:49,030 --> 01:13:47,440

machinery

2075

01:13:50,950 --> 01:13:49,040

ultimately creates

2076

01:13:52,229 --> 01:13:50,960

the experience that we're undergoing

2077

01:13:53,910 --> 01:13:52,239

right that's kind of what i understand

2078

01:13:56,070 --> 01:13:53,920

and then what i understood from

2079

01:13:58,149 --> 01:13:56,080

idealism is it goes the other way

2080

01:14:00,550 --> 01:13:58,159

is it actually some extra extra force

2081

01:14:02,229 --> 01:14:00,560

some extra some extra thing

2082

01:14:05,350 --> 01:14:02,239

extra physical

2083

01:14:06,790 --> 01:14:05,360

um is actually what's driving the bottom

2084

01:14:08,229 --> 01:14:06,800

and driving all the physics and

2085

01:14:11,270 --> 01:14:08,239

everything so i think of them kind of

2086

01:14:12,709 --> 01:14:11,280

two as a posing really opposite argument

2087

01:14:14,630 --> 01:14:12,719

i don't think you can believe one and

2088

01:14:16,470 --> 01:14:14,640

believe the other right you know so

2089

01:14:19,590 --> 01:14:16,480

they're mutually exclusive

2090

01:14:22,550 --> 01:14:19,600

um but i do think that the

2091

01:14:24,470 --> 01:14:22,560

the scales are so mind-boggling

2092

01:14:28,790 --> 01:14:24,480

you know when you just consider looking

2093

01:14:30,950 --> 01:14:28,800

down how how many cells you make you up

2094

01:14:32,229 --> 01:14:30,960

is insane man

2095

01:14:33,430 --> 01:14:32,239

you know i don't think anyone can really

2096

01:14:35,350 --> 01:14:33,440

cross that

2097

01:14:37,189 --> 01:14:35,360

um and that's not even going down to the

2098

01:14:38,950 --> 01:14:37,199

smaller levels you know it's just the

2099

01:14:41,189 --> 01:14:38,960

cellular level

2100

01:14:44,470 --> 01:14:41,199

and then when you go up

2101  
01:14:47,189 --> 01:14:44,480  
the the scale is just so unbelievable

2102  
01:14:49,340 --> 01:14:47,199  
um that it does seem like it would

2103  
01:14:51,590 --> 01:14:49,350  
something extra sensory um

2104  
01:14:54,310 --> 01:14:51,600  
[Music]

2105  
01:14:57,830 --> 01:14:54,320  
yeah it seems like the the type of thing

2106  
01:15:01,110 --> 01:14:57,840  
of wavelengths um just makes more sense

2107  
01:15:02,550 --> 01:15:01,120  
i guess to my brain that it's possible

2108  
01:15:04,630 --> 01:15:02,560  
but there are different layers of

2109  
01:15:06,950 --> 01:15:04,640  
cognition and sort of what you would say

2110  
01:15:08,630 --> 01:15:06,960  
as well right so that there's

2111  
01:15:11,030 --> 01:15:08,640  
there's our conscious experience of

2112  
01:15:12,229 --> 01:15:11,040  
being chris of nathan of dj right but

2113  
01:15:14,550 --> 01:15:12,239

but there's a

2114

01:15:16,550 --> 01:15:14,560

a higher conscious experience that isn't

2115

01:15:20,390 --> 01:15:16,560

in some ways an aggregate of some of

2116

01:15:21,510 --> 01:15:20,400

these individualized experiences

2117

01:15:23,270 --> 01:15:21,520

yes

2118

01:15:24,950 --> 01:15:23,280

yeah i've been thinking about that you

2119

01:15:27,510 --> 01:15:24,960

know i watched after i did that whole

2120

01:15:29,830 --> 01:15:27,520

analytic idealism course uh i listened

2121

01:15:31,669 --> 01:15:29,840

to sam harris he gave on lex friedman he

2122

01:15:33,750 --> 01:15:31,679

talked about free will

2123

01:15:34,870 --> 01:15:33,760

um and he says you know it doesn't exist

2124

01:15:37,350 --> 01:15:34,880

and

2125

01:15:39,510 --> 01:15:37,360

because he's able to meditate like again

2126

01:15:41,590 --> 01:15:39,520

super low and he can um

2127

01:15:43,110 --> 01:15:41,600

the next word that comes out he you

2128

01:15:44,630 --> 01:15:43,120

can't actually see where it's coming the

2129

01:15:45,830 --> 01:15:44,640

next thought

2130

01:15:48,470 --> 01:15:45,840

so you don't really have free will at

2131

01:15:50,229 --> 01:15:48,480

least over your thoughts um

2132

01:15:52,070 --> 01:15:50,239

and what i was thinking is if you if

2133

01:15:53,830 --> 01:15:52,080

you're talking about actually where you

2134

01:15:55,750 --> 01:15:53,840

think about where we come from right

2135

01:15:56,870 --> 01:15:55,760

you're actually grown at the quantum

2136

01:16:00,070 --> 01:15:56,880

level

2137

01:16:02,229 --> 01:16:00,080

one sperm cell right with one egg

2138

01:16:03,830 --> 01:16:02,239

all it is is like that one

2139

01:16:06,149 --> 01:16:03,840

bit of dna

2140

01:16:09,270 --> 01:16:06,159

um so you're actually grown we're each

2141

01:16:11,990 --> 01:16:09,280

grown from the quantum level up to this

2142

01:16:13,510 --> 01:16:12,000

dimension that we're in now

2143

01:16:14,630 --> 01:16:13,520

um and so

2144

01:16:51,669 --> 01:16:14,640

i

2145

01:16:53,830 --> 01:16:51,679

wavelengths

2146

01:16:59,510 --> 01:16:53,840

so just one quick follow-up is our is

2147

01:17:03,669 --> 01:17:01,270

you could argue in this model that we're

2148

01:17:05,750 --> 01:17:03,679

already interconnected we're already

2149

01:17:07,750 --> 01:17:05,760

sharing a sort of conscious experience

2150

01:17:08,950 --> 01:17:07,760

without technology but because of our

2151  
01:17:11,110 --> 01:17:08,960  
technology

2152  
01:17:13,350 --> 01:17:11,120  
we're manifesting an interconnected

2153  
01:17:15,510 --> 01:17:13,360  
conscious experience that is in some

2154  
01:17:17,030 --> 01:17:15,520  
ways synthetic or

2155  
01:17:19,750 --> 01:17:17,040  
different than

2156  
01:17:21,110 --> 01:17:19,760  
how we're doing it just naturally so you

2157  
01:17:22,870 --> 01:17:21,120  
know could we have this sort of

2158  
01:17:25,750 --> 01:17:22,880  
divergence in a way like where there's

2159  
01:17:28,229 --> 01:17:25,760  
like a a technological emergence of

2160  
01:17:30,070 --> 01:17:28,239  
conscious experience and and our in our

2161  
01:17:34,229 --> 01:17:30,080  
already existing conscious experience

2162  
01:17:38,229 --> 01:17:34,239  
that that doesn't rely on technology

2163  
01:17:42,950 --> 01:17:40,870

people assume that technology is not

2164

01:17:44,790 --> 01:17:42,960

nature

2165

01:17:46,709 --> 01:17:44,800

right but you know everything that we

2166

01:17:49,430 --> 01:17:46,719

you see around you was made from earth

2167

01:17:51,030 --> 01:17:49,440

on earth right yeah so

2168

01:17:52,709 --> 01:17:51,040

it's just what we see it as at our

2169

01:17:54,790 --> 01:17:52,719

dimensional level

2170

01:17:56,550 --> 01:17:54,800

right if you go down into your cytoplasm

2171

01:17:58,709 --> 01:17:56,560

of your each of your little cells it's

2172

01:18:01,030 --> 01:17:58,719

not going to look like

2173

01:18:03,990 --> 01:18:01,040

probably what you're expecting you know

2174

01:18:06,070 --> 01:18:04,000

it may not even look natural

2175

01:18:08,470 --> 01:18:06,080

right but it is

2176

01:18:09,669 --> 01:18:08,480

the roads that we created

2177

01:18:11,830 --> 01:18:09,679

are natural

2178

01:18:13,669 --> 01:18:11,840

came from earth you know that's a great

2179

01:18:16,070 --> 01:18:13,679

that's a great point because we look in

2180

01:18:18,070 --> 01:18:16,080

terms of organic and synthetic but for

2181

01:18:19,910 --> 01:18:18,080

for that matter everything is synthetic

2182

01:18:21,350 --> 01:18:19,920

that we created from that standpoint

2183

01:18:23,030 --> 01:18:21,360

that's not it's made out of the same

2184

01:18:25,590 --> 01:18:23,040

things as dust it's made out of the same

2185

01:18:27,830 --> 01:18:25,600

things as us it looks different

2186

01:18:29,350 --> 01:18:27,840

we're making a semantic

2187

01:18:32,310 --> 01:18:29,360

differentiation there's no real

2188

01:18:34,229 --> 01:18:32,320

differentiation correct yes right

2189

01:18:36,870 --> 01:18:34,239

the problem is that we see it as a

2190

01:18:40,149 --> 01:18:36,880

differentiation

2191

01:18:42,550 --> 01:18:40,159

but it's just a different dimension

2192

01:18:44,950 --> 01:18:42,560

of organization

2193

01:18:46,310 --> 01:18:44,960

you know you're made out of minerals and

2194

01:18:48,229 --> 01:18:46,320

liquids and

2195

01:18:50,950 --> 01:18:48,239

you know basically organic or organic

2196

01:18:53,030 --> 01:18:50,960

chemicals chemicals right

2197

01:18:55,270 --> 01:18:53,040

it's made out of minerals if you look at

2198

01:18:56,709 --> 01:18:55,280

in america or whatever some nations made

2199

01:18:57,910 --> 01:18:56,719

out of minerals

2200

01:19:00,310 --> 01:18:57,920

liquids

2201

01:19:01,430 --> 01:19:00,320

organic and or inorganic chemicals right

2202

01:19:05,350 --> 01:19:01,440

it

2203

01:19:07,350 --> 01:19:05,360

just we we think we're the [h\_\_\h] right we

2204

01:19:08,550 --> 01:19:07,360

think for the end all meal

2205

01:19:10,630 --> 01:19:08,560

and we i think we are actually i think

2206

01:19:12,070 --> 01:19:10,640

it's all related i think we are kind of

2207

01:19:13,910 --> 01:19:12,080

from the same i believe you know at

2208

01:19:14,709 --> 01:19:13,920

least the analytic idealism seems the

2209

01:19:16,310 --> 01:19:14,719

most

2210

01:19:18,470 --> 01:19:16,320

logical to me you know my dog he was

2211

01:19:21,350 --> 01:19:18,480

just uh dreaming you know he's like

2212

01:19:23,030 --> 01:19:21,360

running in his sleep you know

2213

01:19:24,870 --> 01:19:23,040

i mean what is that we're just like yeah

2214

01:19:26,390 --> 01:19:24,880

it's some other thing you know

2215

01:19:28,310 --> 01:19:26,400

he's obviously having some sort of

2216

01:19:30,070 --> 01:19:28,320

conscious experience the dog i mean you

2217

01:19:31,110 --> 01:19:30,080

look into their eyes and they see fear

2218

01:19:32,709 --> 01:19:31,120

and

2219

01:19:34,149 --> 01:19:32,719

so there's something there this there's

2220

01:19:35,669 --> 01:19:34,159

experience

2221

01:19:37,189 --> 01:19:35,679

uh you know when we think animals don't

2222

01:19:39,510 --> 01:19:37,199

communicate it's like so stupid you know

2223

01:19:41,110 --> 01:19:39,520

oh of course they're communicating

2224

01:19:43,189 --> 01:19:41,120

just we don't understand them yet i

2225

01:19:45,189 --> 01:19:43,199

think we will yeah uh maybe they

2226

01:19:46,550 --> 01:19:45,199

communicate with telepathic you know

2227

01:19:48,310 --> 01:19:46,560

maybe your dog just talked to each other

2228

01:19:50,470 --> 01:19:48,320

telepathically and barking is just like

2229

01:19:53,510 --> 01:19:50,480

uh more effective for them or something

2230

01:19:54,870 --> 01:19:53,520

you know i mean we have no idea um

2231

01:19:57,030 --> 01:19:54,880

yeah but

2232

01:19:58,790 --> 01:19:57,040

i mean i think we're learning and

2233

01:20:01,750 --> 01:19:58,800

i never expected we would ever get this

2234

01:20:04,470 --> 01:20:01,760

far in my lifetime you know

2235

01:20:05,910 --> 01:20:04,480

it's uh you see how fast it's changing

2236

01:20:07,350 --> 01:20:05,920

right

2237

01:20:09,750 --> 01:20:07,360

yeah so i think we're going to have a

2238

01:20:11,350 --> 01:20:09,760

lot of understanding happen quickly

2239

01:20:13,270 --> 01:20:11,360

uh artificial intelligence is going to

2240

01:20:14,790 --> 01:20:13,280

keep pushing

2241

01:20:16,149 --> 01:20:14,800

you know just look at what you can do

2242

01:20:17,110 --> 01:20:16,159

with google i mean you can ask it for

2243

01:20:18,390 --> 01:20:17,120

anything

2244

01:20:19,830 --> 01:20:18,400

um

2245

01:20:21,330 --> 01:20:19,840

information is

2246

01:20:22,790 --> 01:20:21,340

open and free um

2247

01:20:24,470 --> 01:20:22,800

[Music]

2248

01:20:25,510 --> 01:20:24,480

i mean we get hit by enough energy every

2249

01:20:27,430 --> 01:20:25,520

day to

2250

01:20:29,030 --> 01:20:27,440

destroy the earth like 100 times over

2251

01:20:31,030 --> 01:20:29,040

there's we have enough energy everybody

2252

01:20:33,030 --> 01:20:31,040

like it's yeah i don't know i think i

2253

01:20:34,950 --> 01:20:33,040

feel like we can it's a solvable problem

2254

01:20:36,950 --> 01:20:34,960

and maybe this uap thing and you know

2255

01:20:38,709 --> 01:20:36,960

followed right on the top of covid

2256

01:20:40,629 --> 01:20:38,719

you know um just kind of shocked

2257

01:20:41,990 --> 01:20:40,639

everybody and now it's like

2258

01:20:43,750 --> 01:20:42,000

all right maybe we can stop shooting

2259

01:20:45,590 --> 01:20:43,760

each other doing stupid [h\_\_h] probably

2260

01:20:48,310 --> 01:20:45,600

not right probably not but

2261

01:20:51,350 --> 01:20:48,320

yeah probably we can try

2262

01:20:53,189 --> 01:20:51,360

because it doesn't take many people to

2263

01:20:53,990 --> 01:20:53,199

you know if you talk about a one person

2264

01:20:58,830 --> 01:20:54,000

like

2265

01:21:01,270 --> 01:20:58,840

individual can make a decision and

2266

01:21:02,629 --> 01:21:01,280

override you know hundreds of millions

2267

01:21:05,189 --> 01:21:02,639

of people that

2268

01:21:06,229 --> 01:21:05,199

uh that that live in his country and

2269

01:21:07,830 --> 01:21:06,239

maybe

2270

01:21:09,110 --> 01:21:07,840

three-fourths of them and i'm just

2271

01:21:10,709 --> 01:21:09,120

throwing a number out there i don't know

2272

01:21:13,910 --> 01:21:10,719

that that number's true

2273

01:21:14,709 --> 01:21:13,920

uh do not want to do what he wants to do

2274

01:21:16,310 --> 01:21:14,719

but

2275

01:21:19,110 --> 01:21:16,320

he gets to make that decision and when

2276

01:21:20,550 --> 01:21:19,120

you put have that much power in one

2277

01:21:21,750 --> 01:21:20,560

human being it can be very very

2278

01:21:24,470 --> 01:21:21,760

dangerous

2279

01:21:27,030 --> 01:21:24,480

because their names their ego their

2280

01:21:29,750 --> 01:21:27,040

hopes their dreams their thought that

2281

01:21:31,270 --> 01:21:29,760

their sense of self uh and what they

2282

01:21:34,470 --> 01:21:31,280

seek to their

2283

01:21:37,189 --> 01:21:34,480

how they want to be perceived can inform

2284

01:21:38,709 --> 01:21:37,199

the decision they make that costs

2285

01:21:40,790 --> 01:21:38,719

you know who who knows how many lives

2286

01:21:43,990 --> 01:21:40,800

that's going to cost i think it's much

2287

01:21:49,350 --> 01:21:45,910

i think this this is like a cartoonish

2288

01:21:50,550 --> 01:21:49,360

version that we get in our own society

2289

01:21:51,990 --> 01:21:50,560

in the us

2290

01:21:53,590 --> 01:21:52,000

because you talk to russian people they

2291

01:21:55,830 --> 01:21:53,600

say the exact same thing on the opposite

2292

01:21:58,629 --> 01:21:55,840

side it could be no i'm not doing it

2293

01:22:00,870 --> 01:21:58,639

nato's encroaching on us uh yeah

2294

01:22:02,950 --> 01:22:00,880

it's not exclusive i'm just saying that

2295

01:22:05,110 --> 01:22:02,960

that that it could be it could be our

2296

01:22:06,470 --> 01:22:05,120

country it could be i get no i think i'm

2297

01:22:09,750 --> 01:22:06,480

saying it was

2298

01:22:10,870 --> 01:22:09,760

russia made a russia the country

2299

01:22:12,070 --> 01:22:10,880

led by

2300

01:22:13,830 --> 01:22:12,080

supposedly

2301

01:22:15,750 --> 01:22:13,840

putin right

2302

01:22:17,830 --> 01:22:15,760

russia made the decision i think it was

2303

01:22:20,390 --> 01:22:17,840

an emotional one because it was losing

2304

01:22:21,990 --> 01:22:20,400

like it was being ripped the eukaryote

2305

01:22:24,790 --> 01:22:22,000

ripped from it

2306

01:22:25,910 --> 01:22:24,800

it's an emotional decision you know it

2307

01:22:27,669 --> 01:22:25,920

was a

2308

01:22:30,229 --> 01:22:27,679

i'm gonna die if i don't

2309

01:22:32,149 --> 01:22:30,239

invade ukraine and bring it back stop it

2310

01:22:34,070 --> 01:22:32,159

from leaving right look at when do all

2311

01:22:35,430 --> 01:22:34,080

the wars happen when somebody goes to

2312

01:22:37,990 --> 01:22:35,440

leave you know

2313

01:22:40,390 --> 01:22:38,000

if texas like was likely texas like hey

2314

01:22:42,390 --> 01:22:40,400

i'm gonna leave and join uh

2315

01:22:45,590 --> 01:22:42,400

the new russian

2316

01:22:47,669 --> 01:22:45,600

russian uh conglomerate they we would

2317

01:22:50,709 --> 01:22:47,679

attack man the rest of america would

2318

01:22:52,070 --> 01:22:50,719

attack texas 100 percent

2319

01:22:53,669 --> 01:22:52,080

and it doesn't matter and they would

2320

01:22:54,709 --> 01:22:53,679

they would say the same thing can you

2321

01:22:57,830 --> 01:22:54,719

believe

2322

01:22:59,590 --> 01:22:57,840

biden is crazy and because that's what

2323

01:23:01,830 --> 01:22:59,600

their news would tell them and they

2324

01:23:03,430 --> 01:23:01,840

would believe it because

2325

01:23:04,629 --> 01:23:03,440

let's look over there everybody you know

2326

01:23:06,070 --> 01:23:04,639

like they haven't been

2327

01:23:07,030 --> 01:23:06,080

all of a sudden everybody's an expert on

2328

01:23:09,350 --> 01:23:07,040

russia

2329

01:23:10,950 --> 01:23:09,360

probably couldn't pick ukraine on a map

2330

01:23:13,270 --> 01:23:10,960

you know um

2331

01:23:15,270 --> 01:23:13,280

no i think it was a i think russia did

2332

01:23:16,550 --> 01:23:15,280

it because that's they thought they were

2333

01:23:17,590 --> 01:23:16,560

going to die russia thought they were

2334

01:23:19,430 --> 01:23:17,600

going to die

2335

01:23:21,270 --> 01:23:19,440

right well rationality means different

2336

01:23:22,790 --> 01:23:21,280

things based on different systems right

2337

01:23:24,550 --> 01:23:22,800

so to

2338

01:23:26,470 --> 01:23:24,560

but it's still it's still a similar type

2339

01:23:30,149 --> 01:23:26,480

of behavior right so

2340

01:23:32,870 --> 01:23:30,159

uh our system has certain inputs certain

2341

01:23:34,950 --> 01:23:32,880

cultural uh justifications

2342

01:23:37,030 --> 01:23:34,960

and we you know because we're steeped in

2343

01:23:38,950 --> 01:23:37,040

it we we look at certain decisions say

2344

01:23:40,629 --> 01:23:38,960

that that's rational meaning that is

2345

01:23:42,470 --> 01:23:40,639

consistent with this

2346

01:23:44,709 --> 01:23:42,480

system that we find ourselves in or it's

2347

01:23:46,550 --> 01:23:44,719

inconsistent with it and and the truth

2348

01:23:48,790 --> 01:23:46,560

is that there this is happening

2349

01:23:51,110 --> 01:23:48,800

everywhere around the globe on small

2350

01:23:53,510 --> 01:23:51,120

levels and macro levels and

2351  
01:23:55,189 --> 01:23:53,520  
and when you're not part of that system

2352  
01:23:56,550 --> 01:23:55,199  
it's easy to look at that and go that's

2353  
01:23:58,470 --> 01:23:56,560  
irrational you know like that that

2354  
01:24:00,390 --> 01:23:58,480  
doesn't make any sense but i think what

2355  
01:24:01,350 --> 01:24:00,400  
you're saying is there is a there is to

2356  
01:24:05,510 --> 01:24:01,360  
a certain

2357  
01:24:07,110 --> 01:24:05,520  
degree a level of relativism at work

2358  
01:24:08,870 --> 01:24:07,120  
it's not that just

2359  
01:24:11,590 --> 01:24:08,880  
you know it's total madness you know

2360  
01:24:14,709 --> 01:24:11,600  
it's not complete insanity it's it's

2361  
01:24:16,229 --> 01:24:14,719  
insanity to us you know from our system

2362  
01:24:18,149 --> 01:24:16,239  
and i also want to be careful to say

2363  
01:24:19,990 --> 01:24:18,159

that it's not you know there are

2364

01:24:21,189 --> 01:24:20,000

legitimately and objectively terrible

2365

01:24:23,430 --> 01:24:21,199

things you know

2366

01:24:25,030 --> 01:24:23,440

regardless of of the system that you

2367

01:24:27,189 --> 01:24:25,040

might find yourself in

2368

01:24:28,709 --> 01:24:27,199

and you know hurting people killing

2369

01:24:30,550 --> 01:24:28,719

people innocent people is not a good

2370

01:24:34,149 --> 01:24:30,560

thing

2371

01:24:36,950 --> 01:24:34,159

yeah um exactly you know but like i just

2372

01:24:39,030 --> 01:24:36,960

you know i just killed like i don't know

2373

01:24:40,310 --> 01:24:39,040

five million of my cells right right i

2374

01:24:42,310 --> 01:24:40,320

don't care

2375

01:24:44,709 --> 01:24:42,320

until it starts like affecting my

2376

01:24:46,950 --> 01:24:44,719

ability at the at my level to actually

2377

01:24:48,709 --> 01:24:46,960

function right um

2378

01:24:50,550 --> 01:24:48,719

you know they that's why you're like how

2379

01:24:53,910 --> 01:24:50,560

could this it's a machine i mean it's an

2380

01:24:55,430 --> 01:24:53,920

organic cybernetic giant machine

2381

01:24:57,910 --> 01:24:55,440

um

2382

01:25:00,149 --> 01:24:57,920

yeah and you know it's it to me it seems

2383

01:25:02,629 --> 01:25:00,159

so obvious when you start looking at it

2384

01:25:04,870 --> 01:25:02,639

in that in that light but it's again

2385

01:25:06,470 --> 01:25:04,880

it's hard to look past your own humanity

2386

01:25:07,910 --> 01:25:06,480

you know

2387

01:25:09,669 --> 01:25:07,920

these have got to be quick hitters

2388

01:25:11,350 --> 01:25:09,679

because we only have about six minutes

2389

01:25:13,990 --> 01:25:11,360

left with you so let's get kevin in

2390

01:25:14,950 --> 01:25:14,000

there and then debs please

2391

01:25:16,390 --> 01:25:14,960

okay

2392

01:25:17,830 --> 01:25:16,400

so um

2393

01:25:19,189 --> 01:25:17,840

it's funny because i've been joking

2394

01:25:21,030 --> 01:25:19,199

about free wheel vision versus

2395

01:25:23,110 --> 01:25:21,040

determinism in every episode and you

2396

01:25:23,910 --> 01:25:23,120

guys were just talking about it so i'm

2397

01:25:25,830 --> 01:25:23,920

like

2398

01:25:27,830 --> 01:25:25,840

um so you're obviously a deterministic

2399

01:25:29,910 --> 01:25:27,840

you're you believe that all behavior has

2400

01:25:31,430 --> 01:25:29,920

a cause and is predictable

2401  
01:25:32,870 --> 01:25:31,440  
so in your model

2402  
01:25:37,110 --> 01:25:32,880  
i don't know

2403  
01:25:39,430 --> 01:25:37,120  
know what that means but yeah well

2404  
01:25:41,189 --> 01:25:39,440  
determinism is the opposite of free will

2405  
01:25:43,110 --> 01:25:41,199  
so

2406  
01:25:45,189 --> 01:25:43,120  
yeah yeah that's what sam harris says i

2407  
01:25:46,390 --> 01:25:45,199  
don't know actually oh so yeah okay

2408  
01:25:47,750 --> 01:25:46,400  
where do you stand that would be a

2409  
01:25:51,189 --> 01:25:47,760  
question then

2410  
01:25:52,870 --> 01:25:51,199  
i i don't know the the full question um

2411  
01:25:55,030 --> 01:25:52,880  
okay i don't know um

2412  
01:25:56,550 --> 01:25:55,040  
sold on free will i'm not sure uh oh

2413  
01:25:57,590 --> 01:25:56,560

interesting

2414

01:25:59,510 --> 01:25:57,600

yeah

2415

01:26:01,350 --> 01:25:59,520

okay well that was it that was a quick

2416

01:26:03,669 --> 01:26:01,360

question

2417

01:26:06,070 --> 01:26:03,679

all right is there is there free will or

2418

01:26:07,990 --> 01:26:06,080

my question is um well

2419

01:26:09,270 --> 01:26:08,000

do you believe yeah that there's a free

2420

01:26:10,950 --> 01:26:09,280

will or they do you think that all

2421

01:26:13,189 --> 01:26:10,960

behavior has a cause and is thus

2422

01:26:17,189 --> 01:26:13,199

predictable do you think that we're just

2423

01:26:22,229 --> 01:26:19,110

i don't know i hope not

2424

01:26:25,270 --> 01:26:22,239

i hope not to be really boring

2425

01:26:30,709 --> 01:26:27,350

i doubt it i i think we're definitely

2426

01:26:32,229 --> 01:26:30,719

creatures of our environment um

2427

01:26:34,070 --> 01:26:32,239

but i think the the thoughts and

2428

01:26:35,830 --> 01:26:34,080

everything come you know from somewhere

2429

01:26:37,669 --> 01:26:35,840

else it seems like

2430

01:26:39,030 --> 01:26:37,679

if we can prove this link telepath you

2431

01:26:40,470 --> 01:26:39,040

know if it does actually exist that

2432

01:26:41,830 --> 01:26:40,480

radiant is correct these scientific

2433

01:26:43,830 --> 01:26:41,840

studies are correct

2434

01:26:45,910 --> 01:26:43,840

uh rving certainly i mean the government

2435

01:26:47,350 --> 01:26:45,920

used it for 30 years remote viewing

2436

01:26:48,790 --> 01:26:47,360

if there's a telepathic link then that

2437

01:26:51,189 --> 01:26:48,800

would that would suggest to me that

2438

01:26:53,110 --> 01:26:51,199

there's some extra physical

2439

01:26:53,990 --> 01:26:53,120

extra physical thing

2440

01:26:55,430 --> 01:26:54,000

yeah

2441

01:26:57,590 --> 01:26:55,440

so does that experiment too you're

2442

01:26:59,350 --> 01:26:57,600

talking about earlier that kind of

2443

01:27:01,270 --> 01:26:59,360

proves it because it was actually the

2444

01:27:02,390 --> 01:27:01,280

thought would move the beam over you

2445

01:27:04,950 --> 01:27:02,400

know

2446

01:27:07,350 --> 01:27:04,960

yes yeah yeah i kind of proved something

2447

01:27:08,790 --> 01:27:07,360

too consciousness may be a carrier wave

2448

01:27:11,669 --> 01:27:08,800

you're theorizing i think it's really

2449

01:27:13,910 --> 01:27:11,679

interesting that you said that

2450

01:27:16,070 --> 01:27:13,920

yeah i think um well i know at the end

2451  
01:27:18,629 --> 01:27:16,080  
of the day you know i just want to i

2452  
01:27:20,470 --> 01:27:18,639  
think i think most people

2453  
01:27:22,550 --> 01:27:20,480  
just want to have a happy life with

2454  
01:27:23,910 --> 01:27:22,560  
their families you know

2455  
01:27:26,229 --> 01:27:23,920  
and i think that um

2456  
01:27:27,110 --> 01:27:26,239  
[Music]

2457  
01:27:28,790 --> 01:27:27,120  
you know

2458  
01:27:30,310 --> 01:27:28,800  
it doesn't even matter what it what the

2459  
01:27:32,229 --> 01:27:30,320  
answer is at the end of the day you know

2460  
01:27:33,830 --> 01:27:32,239  
if we achieve that and people have can

2461  
01:27:35,430 --> 01:27:33,840  
have a meaningful life

2462  
01:27:37,510 --> 01:27:35,440  
then

2463  
01:27:39,750 --> 01:27:37,520

you know does free will where does it

2464

01:27:40,790 --> 01:27:39,760

come from even really matter i i don't

2465

01:27:43,030 --> 01:27:40,800

know

2466

01:27:45,510 --> 01:27:43,040

um i certainly feel like

2467

01:27:47,669 --> 01:27:45,520

so what i think is that um

2468

01:27:49,430 --> 01:27:47,679

the future doesn't really exist

2469

01:27:50,790 --> 01:27:49,440

uh it's basically just probabilities

2470

01:27:52,709 --> 01:27:50,800

that can happen

2471

01:27:54,550 --> 01:27:52,719

uh basically waves i think that's where

2472

01:27:55,750 --> 01:27:54,560

the future is quantum essentially where

2473

01:27:58,229 --> 01:27:55,760

it's uh it's

2474

01:28:00,310 --> 01:27:58,239

it's not so set maybe there are certain

2475

01:28:01,990 --> 01:28:00,320

there's a certain probability function

2476

01:28:04,149 --> 01:28:02,000

you can end up in

2477

01:28:06,470 --> 01:28:04,159

but it's not set until it becomes the

2478

01:28:07,910 --> 01:28:06,480

now right until we manifest it or until

2479

01:28:09,030 --> 01:28:07,920

the universe actually observes it

2480

01:28:10,390 --> 01:28:09,040

somehow

2481

01:28:12,709 --> 01:28:10,400

um so i think that's where the

2482

01:28:15,030 --> 01:28:12,719

information may be changing right so if

2483

01:28:17,669 --> 01:28:15,040

it's just if information just be being

2484

01:28:19,750 --> 01:28:17,679

sent it's not changing um

2485

01:28:21,110 --> 01:28:19,760

maybe that's waves right because that's

2486

01:28:22,790 --> 01:28:21,120

why you want to use waves to send

2487

01:28:24,390 --> 01:28:22,800

information that's why we use lasers and

2488

01:28:26,229 --> 01:28:24,400

such like that to send information

2489

01:28:28,229 --> 01:28:26,239

because you can stack waves you can just

2490

01:28:31,189 --> 01:28:28,239

stack them so you can just continue to

2491

01:28:32,310 --> 01:28:31,199

stack uh communication and info and

2492

01:28:33,430 --> 01:28:32,320

energy

2493

01:28:35,430 --> 01:28:33,440

um

2494

01:28:36,950 --> 01:28:35,440

but you can't when it's a particle right

2495

01:28:38,550 --> 01:28:36,960

we can't stack particles at least that

2496

01:28:40,790 --> 01:28:38,560

we know of so that's where we're like

2497

01:28:43,270 --> 01:28:40,800

we're hitting together um and so maybe

2498

01:28:45,110 --> 01:28:43,280

that's where it's it's uh processing you

2499

01:28:47,750 --> 01:28:45,120

know maybe like the the hitchhiker's

2500

01:28:49,590 --> 01:28:47,760

guide of the galaxy is real 42.

2501

01:28:51,990 --> 01:28:49,600

yeah uh

2502

01:28:55,110 --> 01:28:52,000

and that it requires us is to process

2503

01:28:57,350 --> 01:28:55,120

the information and to make to make it

2504

01:28:59,270 --> 01:28:57,360

real i guess or to uh

2505

01:29:03,030 --> 01:28:59,280

to affect it um

2506

01:29:07,110 --> 01:29:05,030

i love it past we can change the path

2507

01:29:09,270 --> 01:29:07,120

that would be my question is uh can we

2508

01:29:11,110 --> 01:29:09,280

change the past well bill and ted

2509

01:29:14,229 --> 01:29:11,120

obviously prove that you can so i think

2510

01:29:16,229 --> 01:29:14,239

that's resolved um but we do right we

2511

01:29:18,390 --> 01:29:16,239

rewrite it definitely

2512

01:29:20,229 --> 01:29:18,400

you're writing history but you're right

2513

01:29:22,709 --> 01:29:20,239

change the past all the time man

2514

01:29:24,310 --> 01:29:22,719

changeable past is changeable

2515

01:29:26,229 --> 01:29:24,320

the future doesn't exist the past is

2516

01:29:28,390 --> 01:29:26,239

changeable and the now who knows what

2517

01:29:30,550 --> 01:29:28,400

the hell it is

2518

01:29:32,550 --> 01:29:30,560

you have the last question i know i i

2519

01:29:34,709 --> 01:29:32,560

have all this time so i'm just going to

2520

01:29:36,950 --> 01:29:34,719

ask you about the life of the universe

2521

01:29:38,709 --> 01:29:36,960

and everything but now we're good you

2522

01:29:40,709 --> 01:29:38,719

already said 42. so

2523

01:29:42,950 --> 01:29:40,719

um i think i'll just ask if you got to

2524

01:29:46,229 --> 01:29:42,960

go to turkey and explore that because

2525

01:29:48,070 --> 01:29:46,239

you're really interested in that um

2526

01:29:50,229 --> 01:29:48,080

i i really hope this summer i actually

2527

01:29:52,470 --> 01:29:50,239

at the last uh conference i went to

2528

01:29:54,870 --> 01:29:52,480

paris for the nft conference and i met

2529

01:29:56,790 --> 01:29:54,880

some guys in turkey some really friendly

2530

01:29:59,750 --> 01:29:56,800

and of course they're super friendly and

2531

01:30:01,430 --> 01:29:59,760

they said it's full up calm it's safe uh

2532

01:30:03,830 --> 01:30:01,440

they'll help me out

2533

01:30:05,270 --> 01:30:03,840

and uh i think i can do it this summer

2534

01:30:06,790 --> 01:30:05,280

for sure i'll go for sure i'm trying to

2535

01:30:07,510 --> 01:30:06,800

get my family to go but maybe maybe just

2536

01:30:11,110 --> 01:30:07,520

me

2537

01:30:13,110 --> 01:30:11,120

about that particular craft uh that that

2538

01:30:15,830 --> 01:30:13,120

a video of the craft where

2539

01:30:18,709 --> 01:30:15,840

apparent beings were visible

2540

01:30:21,030 --> 01:30:18,719

that's yeah they had three summers 2007

2541

01:30:22,070 --> 01:30:21,040

8-9 in turkey were they had mass

2542

01:30:23,590 --> 01:30:22,080

sightings

2543

01:30:24,950 --> 01:30:23,600

so it wasn't just the videos there's a

2544

01:30:26,229 --> 01:30:24,960

lot of video which is interesting

2545

01:30:27,910 --> 01:30:26,239

interesting to me

2546

01:30:29,350 --> 01:30:27,920

but supposedly there was a lot of other

2547

01:30:31,189 --> 01:30:29,360

sightings as well

2548

01:30:33,510 --> 01:30:31,199

i think there'd be a lot of value if you

2549

01:30:36,070 --> 01:30:33,520

do to the community if you do

2550

01:30:38,950 --> 01:30:36,080

get to go there uh chris if you could uh

2551  
01:30:41,590 --> 01:30:38,960  
take these uh the last couple of seconds

2552  
01:30:43,430 --> 01:30:41,600  
or minutes here if you if you wish to

2553  
01:30:45,189 --> 01:30:43,440  
uh put out whatever you'd like to the

2554  
01:30:46,950 --> 01:30:45,199  
community what everything that you're

2555  
01:30:48,709 --> 01:30:46,960  
involved in

2556  
01:30:50,629 --> 01:30:48,719  
yeah excellent i mean the the biggest

2557  
01:30:51,830 --> 01:30:50,639  
thing right now is to build an open

2558  
01:30:54,390 --> 01:30:51,840  
source

2559  
01:30:56,790 --> 01:30:54,400  
community uh on discord where people can

2560  
01:30:58,470 --> 01:30:56,800  
come and contribute and

2561  
01:31:00,149 --> 01:30:58,480  
you know be respected be able to talk

2562  
01:31:02,149 --> 01:31:00,159  
about these things you know it's you can

2563  
01:31:03,669 --> 01:31:02,159

be anonymous on discord you know your

2564

01:31:05,590 --> 01:31:03,679

digital id will be remembered you don't

2565

01:31:08,470 --> 01:31:05,600

have to link that with you

2566

01:31:10,390 --> 01:31:08,480

um so just come and participate

2567

01:31:11,669 --> 01:31:10,400

that would be the biggest thing and and

2568

01:31:14,070 --> 01:31:11,679

we need everything right we need the

2569

01:31:15,750 --> 01:31:14,080

people that have the ideas we need the

2570

01:31:18,149 --> 01:31:15,760

you know experiences there to actually

2571

01:31:20,390 --> 01:31:18,159

give their experiences um people with

2572

01:31:22,070 --> 01:31:20,400

evidence people that have analysis uh

2573

01:31:23,910 --> 01:31:22,080

capabilities you know the idea is it's

2574

01:31:25,669 --> 01:31:23,920

it's a community and then we're gonna

2575

01:31:29,110 --> 01:31:25,679

i'm gonna put the funding there through

2576

01:31:30,709 --> 01:31:29,120

the nfts you know so people can invest

2577

01:31:32,310 --> 01:31:30,719

um

2578

01:31:35,030 --> 01:31:32,320

i believe it'll return you know i don't

2579

01:31:36,470 --> 01:31:35,040

want to leverage my audience or whatever

2580

01:31:37,750 --> 01:31:36,480

you know i'm not trying i don't want to

2581

01:31:39,189 --> 01:31:37,760

sell to people

2582

01:31:41,189 --> 01:31:39,199

um

2583

01:31:43,430 --> 01:31:41,199

but i do want to affect the needle i

2584

01:31:44,470 --> 01:31:43,440

want to move the needle and i think

2585

01:31:46,709 --> 01:31:44,480

we're in it

2586

01:31:48,310 --> 01:31:46,719

just a unique opportunity here you know

2587

01:31:50,149 --> 01:31:48,320

i didn't want to actually build a

2588

01:31:51,750 --> 01:31:50,159

company and do all the stuff for until

2589

01:31:53,270 --> 01:31:51,760

my kids got out of got out of high

2590

01:31:55,110 --> 01:31:53,280

school you know

2591

01:31:57,430 --> 01:31:55,120

but the opportunity is just too great

2592

01:31:59,510 --> 01:31:57,440

like web 3's come in we can leverage it

2593

01:32:01,350 --> 01:31:59,520

we can actually move the needle

2594

01:32:03,270 --> 01:32:01,360

um but it's going to take everybody so

2595

01:32:05,669 --> 01:32:03,280

that's what i would say is you know uap

2596

01:32:07,750 --> 01:32:05,679

society come contribute

2597

01:32:09,910 --> 01:32:07,760

just in some way hang out

2598

01:32:13,390 --> 01:32:09,920

that would be the best discord it go

2599

01:32:15,110 --> 01:32:13,400

check out chris lato it's at

2600

01:32:16,709 --> 01:32:15,120

chrisotis78

2601  
01:32:18,310 --> 01:32:16,719  
on twitter which would tell you that

2602  
01:32:21,189 --> 01:32:18,320  
he's younger than me

2603  
01:32:23,189 --> 01:32:21,199  
uh by 11 years but who's counting

2604  
01:32:25,590 --> 01:32:23,199  
uh great

2605  
01:32:27,510 --> 01:32:25,600  
it's the skincare it's a dj skincare

2606  
01:32:29,990 --> 01:32:27,520  
formula which is i'd be happy to send

2607  
01:32:31,990 --> 01:32:30,000  
some to chris over in portugal only put

2608  
01:32:33,750 --> 01:32:32,000  
it on at night do not put it out on when

2609  
01:32:35,750 --> 01:32:33,760  
you're going out in the sun i'll be in

2610  
01:32:37,350 --> 01:32:35,760  
utah they're flying me to utah so guys

2611  
01:32:38,390 --> 01:32:37,360  
you know support the conference yeah

2612  
01:32:40,790 --> 01:32:38,400  
they paid for it they're not i don't

2613  
01:32:43,270 --> 01:32:40,800

think they're making any money man um so

2614

01:32:44,390 --> 01:32:43,280

the tickets yeah you can come in person

2615

01:32:45,590 --> 01:32:44,400

i'll be there

2616

01:32:48,070 --> 01:32:45,600

i think it's

2617

01:32:50,310 --> 01:32:48,080

vip tickets may still be available at

2618

01:32:51,910 --> 01:32:50,320

least a live stream i'm having my hip

2619

01:32:53,910 --> 01:32:51,920

replaced so i probably

2620

01:32:55,189 --> 01:32:53,920

i'd probably be more likely to stream

2621

01:32:57,430 --> 01:32:55,199

but um

2622

01:32:59,590 --> 01:32:57,440

it's cool yeah travis taylor we'll have

2623

01:33:00,390 --> 01:32:59,600

avi lope i heard there's going to be uh

2624

01:33:01,910 --> 01:33:00,400

from the

2625

01:33:03,510 --> 01:33:01,920

cousin brothers

2626  
01:33:05,669 --> 01:33:03,520  
there's going to be a disclosure movie

2627  
01:33:07,270 --> 01:33:05,679  
played one of i guess their upcoming

2628  
01:33:08,870 --> 01:33:07,280  
movie

2629  
01:33:11,270 --> 01:33:08,880  
it should be exciting

2630  
01:33:13,350 --> 01:33:11,280  
yeah um i personally from a personal

2631  
01:33:15,590 --> 01:33:13,360  
standpoint coming from the background

2632  
01:33:17,590 --> 01:33:15,600  
that we both come from i'm very very

2633  
01:33:19,590 --> 01:33:17,600  
proud of you and what you're doing in

2634  
01:33:20,950 --> 01:33:19,600

2635  
01:33:24,149 --> 01:33:20,960
