Calling All Beings

1
00:00:24,890 --> 00:00:09,530
oh

2
00:00:30,509 --> 00:00:29,189
[Music]

3
00:00:33,830 --> 00:00:30,519
wow

4
00:00:35,830 --> 00:00:33,840
remix thank you so much

5
00:00:38,229 --> 00:00:35,840
thunderbird i don't know the digits

6
00:00:40,310 --> 00:00:38,239
charlotte but uh we could we can put her

7
00:00:42,150 --> 00:00:40,320
in the show notes actually she she will

8
00:00:45,110 --> 00:00:42,160
be in the show notes now because she did

9
00:00:47,110 --> 00:00:45,120
she's got the the song so uh her and her

10
00:00:50,229 --> 00:00:47,120
work will be listed in the show notes

11
00:00:51,830 --> 00:00:50,239
wow that is so dope man what's up man

12
00:00:54,389 --> 00:00:51,840
welcome back to calling all beings i'm

13
00:00:57,270 --> 00:00:54,399

your host dj along with my co-host

14

00:00:59,189 --> 00:00:57,280

the man who may experience a nickname

15

00:01:00,229 --> 00:00:59,199

change we'll get to that later money

16

00:01:03,189 --> 00:01:00,239

nathan

17

00:01:07,670 --> 00:01:05,750

what is happening i just got here i'm

18

00:01:09,990 --> 00:01:07,680

getting new nicknames wait till chris

19

00:01:12,550 --> 00:01:10,000

gets here wait till chris gets in here

20

00:01:13,270 --> 00:01:12,560

what's up nathan how's it going how are

21

00:01:17,270 --> 00:01:13,280

you

22

00:01:19,350 --> 00:01:17,280

i'm doing so much better now i feel so

23

00:01:21,109 --> 00:01:19,360

much better now that you guys are here

24

00:01:23,109 --> 00:01:21,119

because i was a little exhausted to be

25

00:01:24,830 --> 00:01:23,119

in the ocean today but you know when you

26

00:01:27,350 --> 00:01:24,840

see kevin how can you really be

27

00:01:28,469 --> 00:01:27,360

exhausted okay hi flares kevin how's our

28

00:01:31,109 --> 00:01:28,479

humorist

29

00:01:34,069 --> 00:01:31,119

i'm good hello everyone how are you

30

00:01:36,390 --> 00:01:34,079

today good it's so good to see you it's

31

00:01:37,830 --> 00:01:36,400

good to see me too i know i'm sure you

32

00:01:39,510 --> 00:01:37,840

like you look in the mirror and go wow

33

00:01:42,310 --> 00:01:39,520

damn it i look good today

34

00:01:43,910 --> 00:01:42,320

um same thing that deb probably says uh

35

00:01:47,670 --> 00:01:43,920

are are uap

36

00:01:49,429 --> 00:01:47,680

a researcher extraordinaire she has she

37

00:01:52,550 --> 00:01:49,439

really has no equal to be honest with

38

00:01:53,830 --> 00:01:52,560

you uh in trying to appraise her the

39

00:01:55,910 --> 00:01:53,840

other day probably took like five

40

00:01:58,469 --> 00:01:55,920

minutes on twitter spaces the other day

41

00:02:00,469 --> 00:01:58,479

hi deb i'm glad you guys can't see me be

42

00:02:02,550 --> 00:02:00,479

red right now oh

43

00:02:04,950 --> 00:02:02,560

you're you know what you're lovely and

44

00:02:06,709 --> 00:02:04,960

you're just such a force multiplier uh

45

00:02:08,949 --> 00:02:06,719

somebody who looks almost as good as i

46

00:02:10,949 --> 00:02:08,959

do

47

00:02:14,070 --> 00:02:10,959

just kidding uh somebody

48

00:02:17,750 --> 00:02:14,080

is our newest member of

49

00:02:20,229 --> 00:02:17,760

of cab who is wearing floral and i i met

50

00:02:22,949 --> 00:02:20,239

the requirement lou elizondo can listen

51
00:02:24,949 --> 00:02:22,959
to directions i can listen to directions

52
00:02:27,589 --> 00:02:24,959
apparently they're

53
00:02:30,710 --> 00:02:27,599
i kevin can listen there's color he's

54
00:02:33,030 --> 00:02:30,720
wearing color yes and nathan's like no

55
00:02:34,869 --> 00:02:33,040
i'm gonna be steve jobs yeah so i can

56
00:02:38,150 --> 00:02:34,879
only do one mode yeah the uap

57
00:02:39,990 --> 00:02:38,160
experiencer i'll send him a a shirt and

58
00:02:43,110 --> 00:02:40,000
then he'll wear it i'm sure i'll send

59
00:02:44,550 --> 00:02:43,120
him a hawaiian the uap experiencer steph

60
00:02:47,110 --> 00:02:44,560
how are you man

61
00:02:49,670 --> 00:02:47,120
so wonderful to see you guys and be

62
00:02:51,750 --> 00:02:49,680
among all of us together and not only

63
00:02:53,190 --> 00:02:51,760

that but welcoming chris i just saw

64

00:02:55,589 --> 00:02:53,200

chris two weeks ago at the ufo

65

00:02:57,270 --> 00:02:55,599

disclosure symposium so it's been you

66

00:02:59,589 --> 00:02:57,280

know a minute but i'm looking forward to

67

00:03:02,229 --> 00:02:59,599

seeing chris and what he has to say and

68

00:03:04,470 --> 00:03:02,239

you know you all look beautiful and deb

69

00:03:05,430 --> 00:03:04,480

your avatar is on point today

70

00:03:07,910 --> 00:03:05,440

on point

71

00:03:09,830 --> 00:03:07,920

thank you you are welcome my dear play

72

00:03:12,390 --> 00:03:09,840

declared it by hair

73

00:03:14,390 --> 00:03:12,400

it looks lovely and and who did the

74

00:03:15,910 --> 00:03:14,400

highlights any we'll get to that later

75

00:03:18,949 --> 00:03:15,920

uh all right

76

00:03:21,430 --> 00:03:18,959

we gonna bring in the man of the hour

77

00:03:23,910 --> 00:03:21,440

he's been doing big things with the uap

78

00:03:27,509 --> 00:03:23,920

society they don't flew this man from

79

00:03:29,589 --> 00:03:27,519

portugal over to utah just to speak

80

00:03:31,190 --> 00:03:29,599

people won't even let they won't even

81

00:03:33,030 --> 00:03:31,200

bring me from the back of the house to

82

00:03:34,789 --> 00:03:33,040

the front of the house to speak

83

00:03:37,350 --> 00:03:34,799

i'm going to tell you what we are so

84

00:03:38,710 --> 00:03:37,360

happy to bring in my u.s air force

85

00:03:41,270 --> 00:03:38,720

brother

86

00:03:43,509 --> 00:03:41,280

put your hands together for the viper

87

00:03:51,910 --> 00:03:43,519

pilot f-16

88

00:03:58,390 --> 00:03:53,910

man

89

00:03:59,750 --> 00:03:58,400

good chris did you did is that what you

90

00:04:01,670 --> 00:03:59,760

were doing

91

00:04:04,309 --> 00:04:01,680

did you say oh i'm gonna go tuck in the

92

00:04:07,030 --> 00:04:04,319

kids but you like did some of this

93

00:04:09,670 --> 00:04:07,040

could you tell yes yes i can tell yes

94

00:04:12,149 --> 00:04:09,680

yeah chris my brother

95

00:04:13,670 --> 00:04:12,159

there's a lot riding on this show today

96

00:04:15,350 --> 00:04:13,680

are you aware that

97

00:04:16,949 --> 00:04:15,360

no you're not

98

00:04:20,710 --> 00:04:16,959

okay

99

00:04:23,590 --> 00:04:20,720

um for some time now we have

100

00:04:25,990 --> 00:04:23,600

you know i i gave this this moniker to

101
00:04:27,670 --> 00:04:26,000
nathan and people seem to like it

102
00:04:31,030 --> 00:04:27,680
where we call him money nathan and the

103
00:04:34,230 --> 00:04:31,040
reason that i gave him that is because

104
00:04:36,469 --> 00:04:34,240
when he opens his lips to speak

105
00:04:37,909 --> 00:04:36,479
what comes out is like my it it's like

106
00:04:39,430 --> 00:04:37,919
money in the bank i don't care who

107
00:04:41,350 --> 00:04:39,440
you're interviewing i don't care who

108
00:04:43,189 --> 00:04:41,360
you're talking to i don't care if he's

109
00:04:46,550 --> 00:04:43,199
trying to counsel somebody

110
00:04:48,469 --> 00:04:46,560
it's money if it's a meeting we're doing

111
00:04:49,990 --> 00:04:48,479
no like when i say not the kind of

112
00:04:51,990 --> 00:04:50,000
counseling you got when you screwed up

113
00:04:54,790 --> 00:04:52,000

in flight i mean like someone that's

114

00:04:57,189 --> 00:04:54,800

asking for help and and and wants you

115

00:04:59,830 --> 00:04:57,199

know wants somebody to speak with

116

00:05:02,390 --> 00:04:59,840

but we may depending on what you present

117

00:05:03,990 --> 00:05:02,400

today we may change his name back to nft

118

00:05:06,070 --> 00:05:04,000

nathan

119

00:05:09,029 --> 00:05:06,080

so there's a lot riding on this it was

120

00:05:11,029 --> 00:05:09,039

nft nathan it was originally we've toyed

121

00:05:13,430 --> 00:05:11,039

around with it i mean but

122

00:05:15,350 --> 00:05:13,440

he'll decide today is he going to be

123

00:05:18,710 --> 00:05:15,360

here to fort known

124

00:05:23,110 --> 00:05:20,710

all right

125

00:05:26,469 --> 00:05:23,120

man your name's a scam i'm actually an

126

00:05:32,150 --> 00:05:29,270

welcome back mr lato uh we want to talk

127

00:05:34,629 --> 00:05:32,160

about uap society because

128

00:05:36,790 --> 00:05:34,639

i'm so proud of you as an air force

129

00:05:38,870 --> 00:05:36,800

brother and i i expressed this to you on

130

00:05:41,029 --> 00:05:38,880

the phone so this is nothing that you

131

00:05:42,950 --> 00:05:41,039

haven't heard before but the audience

132

00:05:45,189 --> 00:05:42,960

and nathan's heard it and maybe even the

133

00:05:49,110 --> 00:05:45,199

cabbies have heard me say this as well

134

00:05:52,950 --> 00:05:49,120

but um to go from hey i'm gonna go and

135

00:05:55,670 --> 00:05:52,960

retire in portugal and surf and raise my

136

00:05:57,430 --> 00:05:55,680

kids here for a more relaxed lifestyle

137

00:05:59,670 --> 00:05:57,440

and them telling you to make a youtube

138

00:06:01,189 --> 00:05:59,680

channel and now you have an organization

139

00:06:03,590 --> 00:06:01,199

to study uaps

140

00:06:06,870 --> 00:06:03,600

oh my god

141

00:06:10,790 --> 00:06:06,880

yeah that was the plan

142

00:06:16,309 --> 00:06:13,749

and and so you know can you explain to

143

00:06:19,590 --> 00:06:16,319

people you know sort of where you're at

144

00:06:22,230 --> 00:06:19,600

now um explain like how you're organized

145

00:06:24,070 --> 00:06:22,240

who are the players in uap society and

146

00:06:25,510 --> 00:06:24,080

what are their roles i know about alexia

147

00:06:27,510 --> 00:06:25,520

i wish you would have drug him out here

148

00:06:29,749 --> 00:06:27,520

today because i like to talk to that cat

149

00:06:31,749 --> 00:06:29,759

great hair also but can you explain him

150

00:06:33,110 --> 00:06:31,759

a link he may he may be available you

151
00:06:35,909 --> 00:06:33,120
could uh

152
00:06:37,909 --> 00:06:35,919
uh i don't think he's following me

153
00:06:39,590 --> 00:06:37,919
you you can send him a link because i'm

154
00:06:40,469 --> 00:06:39,600
not connected with him on anything i

155
00:06:42,150 --> 00:06:40,479
don't

156
00:06:44,550 --> 00:06:42,160
yeah well either way we can get him uh

157
00:06:47,510 --> 00:06:44,560
next time forward yes um go ahead yeah

158
00:06:49,749 --> 00:06:47,520
basically mentioned uh alexei so there's

159
00:06:51,510 --> 00:06:49,759
uh why don't we just start with the main

160
00:06:53,589 --> 00:06:51,520
the company essentially that

161
00:06:55,749 --> 00:06:53,599
inadvertently formed you know i didn't

162
00:06:57,029 --> 00:06:55,759
want employees and i didn't want a boss

163
00:06:57,990 --> 00:06:57,039

you know

164

00:06:59,189 --> 00:06:58,000

um

165

00:07:00,870 --> 00:06:59,199

yeah because it was so awesome not

166

00:07:03,670 --> 00:07:00,880

having any employees and not having a

167

00:07:05,430 --> 00:07:03,680

boss at the same time you know

168

00:07:06,950 --> 00:07:05,440

uh because you know if you have

169

00:07:08,469 --> 00:07:06,960

employees what you find is you work for

170

00:07:10,870 --> 00:07:08,479

them ultimately you ask you know who are

171

00:07:12,230 --> 00:07:10,880

you working for it's like well

172

00:07:13,110 --> 00:07:12,240

all those people

173

00:07:16,309 --> 00:07:13,120

you know

174

00:07:18,070 --> 00:07:16,319

um but for us it'd be so me and my um

175

00:07:20,309 --> 00:07:18,080

basically my roommate from the academy

176
00:07:23,189 --> 00:07:20,319
uh he's he's still a government employee

177
00:07:25,110 --> 00:07:23,199
so he doesn't highlight who he is but

178
00:07:27,430 --> 00:07:25,120
he's basically runs all the finances

179
00:07:30,870 --> 00:07:27,440
he's our cfo

180
00:07:33,510 --> 00:07:30,880
and then the artist is colin stone and

181
00:07:35,990 --> 00:07:33,520
seastone basically lives my friend moved

182
00:07:38,309 --> 00:07:36,000
out here from from san francisco he has

183
00:07:41,830 --> 00:07:38,319
a design company he's had it for

184
00:07:43,749 --> 00:07:41,840
35 years a very successful designer

185
00:07:45,430 --> 00:07:43,759
and so he's turns out he's an amazing

186
00:07:47,749 --> 00:07:45,440
digital artist

187
00:07:50,150 --> 00:07:47,759
and he's so he's made all these ai

188
00:07:52,230 --> 00:07:50,160

creations we actually he made two other

189

00:07:54,869 --> 00:07:52,240

collections like i hired well he

190

00:07:57,029 --> 00:07:54,879

volunteered to help and i got him to or

191

00:07:58,469 --> 00:07:57,039

asked him to create another collection

192

00:08:00,150 --> 00:07:58,479

it's actually our second collection that

193

00:08:02,629 --> 00:08:00,160

nobody's seen

194

00:08:04,150 --> 00:08:02,639

but we have that on the back burner um

195

00:08:07,270 --> 00:08:04,160

because right now he went on his own and

196

00:08:08,309 --> 00:08:07,280

made these ai so artificial intelligence

197

00:08:10,309 --> 00:08:08,319

basically

198

00:08:12,070 --> 00:08:10,319

he made 10 042 of these things he made

199

00:08:13,589 --> 00:08:12,080

many more actually probably made 20 to

200

00:08:15,430 --> 00:08:13,599

30 000

201
00:08:17,110 --> 00:08:15,440
and then we just uh he trimmed them down

202
00:08:18,790 --> 00:08:17,120
essentially and added all these

203
00:08:21,749 --> 00:08:18,800
different metadata

204
00:08:23,110 --> 00:08:21,759
uh these tags and etc so basically

205
00:08:23,990 --> 00:08:23,120
that's that's the art so those are the

206
00:08:27,189 --> 00:08:24,000
main

207
00:08:28,550 --> 00:08:27,199
three founders me my buddy jim and um

208
00:08:31,029 --> 00:08:28,560
colin stone

209
00:08:33,350 --> 00:08:31,039
and then we have alex

210
00:08:35,589 --> 00:08:33,360
he is from space tokens so he's actually

211
00:08:37,509 --> 00:08:35,599
the coder he was a patron of mine

212
00:08:39,350 --> 00:08:37,519
initially so he's a patron signed up to

213
00:08:40,790 --> 00:08:39,360

the later files channel and i've been

214

00:08:42,949 --> 00:08:40,800

talking about you know i talked to my

215

00:08:45,190 --> 00:08:42,959

patrons hey uh this is what's going on

216

00:08:46,870 --> 00:08:45,200

i'm working on these nft projects

217

00:08:48,710 --> 00:08:46,880

and a few guys he was one of them said

218

00:08:51,670 --> 00:08:48,720

hey you know i have my own company i'm

219

00:08:52,630 --> 00:08:51,680

working on as well and so he volunteered

220

00:08:55,110 --> 00:08:52,640

sort of

221

00:08:56,150 --> 00:08:55,120

right he said i can help uh and then i

222

00:08:57,670 --> 00:08:56,160

just

223

00:08:59,269 --> 00:08:57,680

but i had to kind of convince him you

224

00:09:01,509 --> 00:08:59,279

know it'd be like all right everybody

225

00:09:04,550 --> 00:09:01,519

this is the time hey chris somebody in

226

00:09:07,110 --> 00:09:04,560

the chat someone named horseloverfat is

227

00:09:08,470 --> 00:09:07,120

asking who's his name ai designer dude

228

00:09:11,030 --> 00:09:08,480

from san francisco

229

00:09:14,230 --> 00:09:11,040

is that someone connected with you

230

00:09:16,470 --> 00:09:14,240

yeah colin stone that is his yep he's

231

00:09:18,389 --> 00:09:16,480

the artist okay there you go

232

00:09:20,710 --> 00:09:18,399

we i mean we keep it kind of you want to

233

00:09:22,710 --> 00:09:20,720

keep it mysterious somewhat you know to

234

00:09:24,630 --> 00:09:22,720

be who the artist is

235

00:09:26,070 --> 00:09:24,640

right so it's his call sign is c stone

236

00:09:27,990 --> 00:09:26,080

but i know right now we're trying to get

237

00:09:30,150 --> 00:09:28,000

open communication out

238

00:09:31,269 --> 00:09:30,160

so colin stone he's a founder along with

239

00:09:32,230 --> 00:09:31,279

me

240

00:09:35,269 --> 00:09:32,240

uh

241

00:09:36,550 --> 00:09:35,279

yeah and then alex is our coder from

242

00:09:38,710 --> 00:09:36,560

space tokens

243

00:09:40,470 --> 00:09:38,720

okay so that's the four main main

244

00:09:42,470 --> 00:09:40,480

players and then we have our uh

245

00:09:44,470 --> 00:09:42,480

additional so you know we have

246

00:09:46,630 --> 00:09:44,480

additional designers and artists

247

00:09:49,030 --> 00:09:46,640

that work with colin that work for him

248

00:09:51,750 --> 00:09:49,040

or through him or through us we have uh

249

00:09:55,030 --> 00:09:51,760

sarah okay i'm sure you've seen sarah on

250

00:09:57,750 --> 00:09:55,040

the discord sc let it shine so she's my

251
00:09:59,110 --> 00:09:57,760
portuguese portuguese uh she was virtual

252
00:10:01,350 --> 00:09:59,120
assistant but she's a community

253
00:10:03,590 --> 00:10:01,360
operations manager

254
00:10:05,110 --> 00:10:03,600
so she lives here in portugal actually

255
00:10:06,230 --> 00:10:05,120
further north she doesn't live down

256
00:10:08,550 --> 00:10:06,240
south

257
00:10:10,710 --> 00:10:08,560
um so it's great to have her on

258
00:10:13,110 --> 00:10:10,720
basically the same time zone as me and

259
00:10:15,269 --> 00:10:13,120
and also i want to employ local people

260
00:10:17,990 --> 00:10:15,279
you know if i have to have sure if i

261
00:10:20,069 --> 00:10:18,000
have to have employees then we'll do uh

262
00:10:22,389 --> 00:10:20,079
local as much as possible

263
00:10:25,670 --> 00:10:22,399

um and now you know all the ambassadors

264

00:10:26,790 --> 00:10:25,680

so two are here right we have uh nathan

265

00:10:29,910 --> 00:10:26,800

dj

266

00:10:31,590 --> 00:10:29,920

we have um alexei is another ambassador

267

00:10:32,790 --> 00:10:31,600

artist and tony

268

00:10:37,910 --> 00:10:32,800

yeah

269

00:10:39,910 --> 00:10:37,920

he's a man i'm so glad i met him at uh

270

00:10:42,389 --> 00:10:39,920

disclosure symposium steph you're there

271

00:10:44,949 --> 00:10:42,399

he he's awesome man

272

00:10:47,910 --> 00:10:44,959

solid dude love that guy yeah

273

00:10:49,910 --> 00:10:47,920

interviewing that guy was like

274

00:10:51,430 --> 00:10:49,920

uh it's hard to describe but when you

275

00:10:53,910 --> 00:10:51,440

when you start i mean you know you're a

276

00:10:55,910 --> 00:10:53,920

content creator he's just

277

00:10:58,949 --> 00:10:55,920

i i can't he's just one of those guys

278

00:11:00,630 --> 00:10:58,959

never levels ahead to me yeah but uh

279

00:11:03,430 --> 00:11:00,640

let me pass it over to nathan so i don't

280

00:11:04,389 --> 00:11:03,440

hog up all the air in this joint uh yeah

281

00:11:06,949 --> 00:11:04,399

money

282

00:11:09,110 --> 00:11:06,959

or yeah hey chris so uh very excited to

283

00:11:10,870 --> 00:11:09,120

have you back with us and excited in

284

00:11:13,269 --> 00:11:10,880

what you guys are doing

285

00:11:14,710 --> 00:11:13,279

with uap society

286

00:11:17,269 --> 00:11:14,720

if we were to kind of distill the

287

00:11:18,790 --> 00:11:17,279

concept down to the basics you know how

288

00:11:19,910 --> 00:11:18,800

would you explain what it is that you're

289

00:11:23,110 --> 00:11:19,920

trying to do

290

00:11:25,430 --> 00:11:23,120

and why you chose going a crypto route

291

00:11:27,350 --> 00:11:25,440

to do it i think that's kind of a big

292

00:11:29,190 --> 00:11:27,360

question that people have is and encrypt

293

00:11:32,230 --> 00:11:29,200

us so new to most folks

294

00:11:35,269 --> 00:11:32,240

so why uh kind of form the organization

295

00:11:39,269 --> 00:11:35,279

and why use crypto as a way to to kind

296

00:11:41,110 --> 00:11:39,279

of organize everybody and fund it

297

00:11:43,190 --> 00:11:41,120

yeah i mean that's the that's the

298

00:11:45,509 --> 00:11:43,200

million-dollar question um so basically

299

00:11:47,110 --> 00:11:45,519

it's it's because

300

00:11:48,870 --> 00:11:47,120

we can't get the information right so

301
00:11:50,550 --> 00:11:48,880
there's basically an argument is if you

302
00:11:52,629 --> 00:11:50,560
really have

303
00:11:54,389 --> 00:11:52,639
let's say extraterrestrial life here

304
00:11:56,550 --> 00:11:54,399
right let's just say for instance that

305
00:11:58,069 --> 00:11:56,560
that it's here and we don't know about

306
00:12:00,629 --> 00:11:58,079
it

307
00:12:02,310 --> 00:12:00,639
like something's messed up is going on

308
00:12:03,829 --> 00:12:02,320
right i mean something seriously screwed

309
00:12:04,550 --> 00:12:03,839
up is going on

310
00:12:07,509 --> 00:12:04,560
so

311
00:12:09,990 --> 00:12:07,519
it just for me it means i can't trust or

312
00:12:12,230 --> 00:12:10,000
it would imply that we can't trust the

313
00:12:13,509 --> 00:12:12,240

centralized repositories of information

314

00:12:14,949 --> 00:12:13,519

that are coming out

315

00:12:16,870 --> 00:12:14,959

so either

316

00:12:19,430 --> 00:12:16,880

they don't have the information and they

317

00:12:20,870 --> 00:12:19,440

can't tell us right or more likely they

318

00:12:21,829 --> 00:12:20,880

have a lot of information and they're

319

00:12:27,670 --> 00:12:21,839

not

320

00:12:31,430 --> 00:12:29,990

whatever it is the end result is you

321

00:12:33,190 --> 00:12:31,440

know after 80 years we still have the

322

00:12:35,509 --> 00:12:33,200

same level of evidence

323

00:12:36,949 --> 00:12:35,519

you know we have we had radar returns of

324

00:12:39,110 --> 00:12:36,959

them going hype you know hypersonic

325

00:12:41,910 --> 00:12:39,120

radar returns we had people saying they

326

00:12:44,470 --> 00:12:41,920

saw all these things we had pictures

327

00:12:46,790 --> 00:12:44,480

you know we had so and now we have

328

00:12:48,629 --> 00:12:46,800

essentially the same data you know

329

00:12:50,550 --> 00:12:48,639

really we don't have much more there

330

00:12:52,069 --> 00:12:50,560

hasn't been any much more release i

331

00:12:53,829 --> 00:12:52,079

guess biological effects you know we

332

00:12:56,389 --> 00:12:53,839

didn't really have that like effects on

333

00:12:57,910 --> 00:12:56,399

humans so there is some additional stuff

334

00:12:59,750 --> 00:12:57,920

but that's the basic argument is that

335

00:13:02,389 --> 00:12:59,760

you have to go

336

00:13:04,470 --> 00:13:02,399

avoiding the centralized repositories of

337

00:13:07,030 --> 00:13:04,480

information essentially

338

00:13:08,790 --> 00:13:07,040

so that's why we need decentralized is

339

00:13:10,629 --> 00:13:08,800

really to to

340

00:13:12,949 --> 00:13:10,639

get around those

341

00:13:14,870 --> 00:13:12,959

information embargoes well why are

342

00:13:17,350 --> 00:13:14,880

for whatever reason they're there if if

343

00:13:18,790 --> 00:13:17,360

it's there just because they the stigma

344

00:13:20,310 --> 00:13:18,800

you know they just can't believe it's

345

00:13:23,350 --> 00:13:20,320

true so they don't actually investigate

346

00:13:24,790 --> 00:13:23,360

it or if it's there because they know or

347

00:13:25,590 --> 00:13:24,800

parts of the government know that it's

348

00:13:27,829 --> 00:13:25,600

true

349

00:13:29,750 --> 00:13:27,839

but they don't want to share it because

350

00:13:31,590 --> 00:13:29,760

it it would give away some advantage

351

00:13:33,030 --> 00:13:31,600

that they have right if you have if you

352

00:13:35,590 --> 00:13:33,040

have alien technology you have

353

00:13:37,750 --> 00:13:35,600

information that aliens exist now you're

354

00:13:39,269 --> 00:13:37,760

going to have a worldwide program right

355

00:13:40,389 --> 00:13:39,279

probably a secret worldwide program

356

00:13:42,389 --> 00:13:40,399

where you're out there looking for this

357

00:13:44,150 --> 00:13:42,399

stuff that's what i would be doing right

358

00:13:46,150 --> 00:13:44,160

if i was planning to try and

359

00:13:48,710 --> 00:13:46,160

give myself an advantage

360

00:13:50,710 --> 00:13:48,720

and then if you can also say that uh if

361

00:13:53,269 --> 00:13:50,720

it's just a fact of life

362

00:13:54,949 --> 00:13:53,279

then you can justify it to yourself for

363

00:13:56,949 --> 00:13:54,959

not sharing it

364

00:13:58,790 --> 00:13:56,959
you know if if this is the truth right

365

00:14:01,030 --> 00:13:58,800
if the world really is round

366

00:14:02,870 --> 00:14:01,040
why do i go why do i need to go and tell

367

00:14:05,030 --> 00:14:02,880
china necessarily that the world is

368

00:14:08,230 --> 00:14:05,040
around and now they can just sail their

369

00:14:10,069 --> 00:14:08,240
ship over to my to my country you know

370

00:14:11,829 --> 00:14:10,079
why not tell them why give that

371

00:14:14,790 --> 00:14:11,839
information why not let them believe

372

00:14:16,470 --> 00:14:14,800
that oh the you know it ends in

373

00:14:18,470 --> 00:14:16,480
waterfalls and dragons

374

00:14:21,110 --> 00:14:18,480
right right maybe we don't want them

375

00:14:22,629 --> 00:14:21,120
coming over here so why would

376

00:14:24,949 --> 00:14:22,639

so you're not

377

00:14:27,189 --> 00:14:24,959

you're not necessarily lying right i

378

00:14:28,870 --> 00:14:27,199

mean although you are but i think what

379

00:14:31,189 --> 00:14:28,880

he's asking is what is this what made

380

00:14:33,670 --> 00:14:31,199

you say i need to do this because there

381

00:14:36,790 --> 00:14:33,680

was obviously something you said i need

382

00:14:38,389 --> 00:14:36,800

to do this research so what was that how

383

00:14:39,990 --> 00:14:38,399

is is it just that

384

00:14:42,550 --> 00:14:40,000

that the lack of it's basically a

385

00:14:43,829 --> 00:14:42,560

frustration yeah go ahead nathan i think

386

00:14:45,509 --> 00:14:43,839

that's what you're about to say it's the

387

00:14:47,269 --> 00:14:45,519

lack of access to

388

00:14:48,629 --> 00:14:47,279

quality information so we're going

389

00:14:50,790 --> 00:14:48,639

around the

390

00:14:51,829 --> 00:14:50,800

the official source of it because they

391

00:14:53,990 --> 00:14:51,839

seem to be

392

00:14:55,990 --> 00:14:54,000

unwilling to share uh or as you said

393

00:14:58,310 --> 00:14:56,000

incapable so we're gonna try to get some

394

00:15:00,870 --> 00:14:58,320

of that information ourselves by forming

395

00:15:03,269 --> 00:15:00,880

an organization devoted to conducting

396

00:15:04,790 --> 00:15:03,279

certain experiments to obtain it so then

397

00:15:06,470 --> 00:15:04,800

it's a matter of well how is the

398

00:15:08,790 --> 00:15:06,480

organization structured so you could do

399

00:15:10,389 --> 00:15:08,800

it a traditional way you could you know

400

00:15:12,150 --> 00:15:10,399

put a bunch of people together like you

401
00:15:13,350 --> 00:15:12,160
said earlier you didn't want bosses or

402
00:15:15,350 --> 00:15:13,360
employees but you could have done it

403
00:15:17,269 --> 00:15:15,360
that way i had more of a traditional

404
00:15:19,189 --> 00:15:17,279
organizational structure instead you

405
00:15:21,590 --> 00:15:19,199
decided to go through

406
00:15:23,670 --> 00:15:21,600
the crypto route which is by its very

407
00:15:25,110 --> 00:15:23,680
nature and i don't ever think everyone

408
00:15:28,069 --> 00:15:25,120
necessarily understands this but by its

409
00:15:30,310 --> 00:15:28,079
very nature it is decentralized in the

410
00:15:32,150 --> 00:15:30,320
way that it is structured

411
00:15:34,550 --> 00:15:32,160
yeah that's it i mean you you hit the

412
00:15:36,150 --> 00:15:34,560
nail on the head because

413
00:15:37,990 --> 00:15:36,160

there's there's no

414

00:15:40,470 --> 00:15:38,000

person or

415

00:15:43,110 --> 00:15:40,480

governmental entity or anyone that

416

00:15:45,590 --> 00:15:43,120

verifies any transactions

417

00:15:48,069 --> 00:15:45,600

on like the ethereum blockchain

418

00:15:49,749 --> 00:15:48,079

you know so so nathan if if you go to

419

00:15:50,790 --> 00:15:49,759

mint one of our like you want to you

420

00:15:51,749 --> 00:15:50,800

want to

421

00:15:53,590 --> 00:15:51,759

support

422

00:15:55,749 --> 00:15:53,600

whatever you know what we're doing what

423

00:15:57,590 --> 00:15:55,759

uap society is doing you want to put in

424

00:15:59,269 --> 00:15:57,600

funds all right you can support by just

425

00:16:00,790 --> 00:15:59,279

coming to the discord okay you don't

426
00:16:02,069 --> 00:16:00,800
have to invest right let's say you want

427
00:16:04,870 --> 00:16:02,079
to invest

428
00:16:06,310 --> 00:16:04,880
then you can come to our minting website

429
00:16:09,269 --> 00:16:06,320
right and mint

430
00:16:11,509 --> 00:16:09,279
some nfts so you can give that money to

431
00:16:13,430 --> 00:16:11,519
our organization essentially

432
00:16:15,910 --> 00:16:13,440
right and that can happen from anywhere

433
00:16:17,990 --> 00:16:15,920
in the world it doesn't matter if it's

434
00:16:20,069 --> 00:16:18,000
you know out in the middle of africa

435
00:16:21,350 --> 00:16:20,079
okay someone can go to our website that

436
00:16:24,550 --> 00:16:21,360
same place

437
00:16:26,230 --> 00:16:24,560
and trade that nft for ethereum

438
00:16:28,870 --> 00:16:26,240

and no one approves it

439

00:16:31,269 --> 00:16:28,880

no government there's no bank

440

00:16:32,629 --> 00:16:31,279

there's no there's no organization

441

00:16:35,189 --> 00:16:32,639

between you

442

00:16:36,949 --> 00:16:35,199

minting that nft and us

443

00:16:38,949 --> 00:16:36,959

so but where you're paying for those

444

00:16:40,710 --> 00:16:38,959

transaction costs

445

00:16:42,629 --> 00:16:40,720

is you're paying the computers to to

446

00:16:44,949 --> 00:16:42,639

verify it that's what you're paying for

447

00:16:47,749 --> 00:16:44,959

so we're not wasting energy right we're

448

00:16:49,749 --> 00:16:47,759

not blockchains aren't wasting energy uh

449

00:16:51,189 --> 00:16:49,759

or you know they're gonna pollute the

450

00:16:53,110 --> 00:16:51,199

world or something if they're using

451
00:16:54,629 --> 00:16:53,120
renewable energy then they're just using

452
00:16:57,509 --> 00:16:54,639
energy right

453
00:16:59,350 --> 00:16:57,519
and the value that they do is we don't

454
00:17:01,590 --> 00:16:59,360
need all those [h__h] organizations

455
00:17:03,430 --> 00:17:01,600
anymore right we needed them in the past

456
00:17:05,429 --> 00:17:03,440
because you didn't have trust right i

457
00:17:07,429 --> 00:17:05,439
needed a bank to say that yeah i'm going

458
00:17:15,189 --> 00:17:07,439
to give this check and send it over you

459
00:17:15,199 --> 00:17:20,329
he was on the twitter face i was like

460
00:17:20,339 --> 00:17:25,350
[Music]

461
00:17:29,510 --> 00:17:27,029
we don't need anyone else we don't need

462
00:17:33,029 --> 00:17:29,520
anyone else like you can you can give to

463
00:17:34,390 --> 00:17:33,039

us we don't even need a website right if

464

00:17:38,390 --> 00:17:34,400
that makes sense so it's totally

465

00:17:41,029 --> 00:17:39,590
right so

466

00:17:42,549 --> 00:17:41,039
and that's kind of

467

00:17:43,750 --> 00:17:42,559
i think maybe

468

00:17:45,190 --> 00:17:43,760
psychological let's talk about the

469

00:17:46,310 --> 00:17:45,200
psychology of it all right so because i

470

00:17:49,270 --> 00:17:46,320
think you're hitting on that a little

471

00:17:51,430 --> 00:17:49,280
bit too so we live in a time where our

472

00:17:53,430 --> 00:17:51,440
our traditional institutions that have

473

00:17:54,470 --> 00:17:53,440
been centralized for so long and have

474

00:17:56,390 --> 00:17:54,480
had

475

00:17:59,270 --> 00:17:56,400
have kind of placed the seal of

476
00:18:02,070 --> 00:17:59,280
authority on things like finance things

477
00:18:03,830 --> 00:18:02,080
like news things like governance you

478
00:18:05,029 --> 00:18:03,840
know all of those sort of traditional

479
00:18:07,590 --> 00:18:05,039
institutions

480
00:18:10,310 --> 00:18:07,600
we have seen over the last really couple

481
00:18:12,070 --> 00:18:10,320
decades but most notably last few years

482
00:18:14,549 --> 00:18:12,080
an erosion in the trust of those

483
00:18:15,990 --> 00:18:14,559
institutions being able to kind of

484
00:18:18,390 --> 00:18:16,000
carry out the functions that they've

485
00:18:21,510 --> 00:18:18,400
traditionally carried out and so

486
00:18:24,549 --> 00:18:21,520
crypto has this has it's a technology

487
00:18:26,310 --> 00:18:24,559
right that allows for

488
00:18:29,350 --> 00:18:26,320

doing those same kinds of traditional

489

00:18:31,750 --> 00:18:29,360

activities but doing them in a in a less

490

00:18:34,150 --> 00:18:31,760

centralized you know sort of just place

491

00:18:36,630 --> 00:18:34,160

our truck your trust in this insert

492

00:18:38,950 --> 00:18:36,640

organization x and instead place it in a

493

00:18:41,190 --> 00:18:38,960

and like the decentralization it is in

494

00:18:43,270 --> 00:18:41,200

fact its strength right that it's

495

00:18:46,310 --> 00:18:43,280

distributed across lots of different

496

00:18:48,549 --> 00:18:46,320

people no one person has the controlling

497

00:18:50,390 --> 00:18:48,559

authority over whatever

498

00:18:52,470 --> 00:18:50,400

the mission is is that is that a good

499

00:18:55,510 --> 00:18:52,480

way to sum that up

500

00:18:57,830 --> 00:18:55,520

yeah i think that's 100 correct um and

501
00:19:00,390 --> 00:18:57,840
the big thing is i think people a lot of

502
00:19:03,110 --> 00:19:00,400
people assume that it's complicated

503
00:19:05,270 --> 00:19:03,120
and that's actually not the case um

504
00:19:07,270 --> 00:19:05,280
it's it's actually quite simple and it

505
00:19:09,510 --> 00:19:07,280
has to be you know the coding contracts

506
00:19:11,510 --> 00:19:09,520
are very simple actually because you're

507
00:19:12,549 --> 00:19:11,520
processing it on thousands and tens of

508
00:19:15,350 --> 00:19:12,559
thousands i don't know how many

509
00:19:16,950 --> 00:19:15,360
thousands of computers the same

510
00:19:18,310 --> 00:19:16,960
you're processing the same transaction

511
00:19:19,750 --> 00:19:18,320
at the same time

512
00:19:22,789 --> 00:19:19,760
right and this means that it doesn't

513
00:19:25,669 --> 00:19:22,799

matter if the nsa wants to doesn't like

514

00:19:27,510 --> 00:19:25,679

what i'm doing they can't stop this

515

00:19:29,510 --> 00:19:27,520

right until they come up with a

516

00:19:31,350 --> 00:19:29,520

technological breakthrough so it's like

517

00:19:34,230 --> 00:19:31,360

the first time in history where the

518

00:19:37,190 --> 00:19:34,240

average person has better cryptographic

519

00:19:38,549 --> 00:19:37,200

um defense than a government or at least

520

00:19:41,029 --> 00:19:38,559

it's equivalent okay maybe they have

521

00:19:43,590 --> 00:19:41,039

some super secret quantum computer

522

00:19:44,789 --> 00:19:43,600

tunneling etc but the problem is it's

523

00:19:46,310 --> 00:19:44,799

open source

524

00:19:48,310 --> 00:19:46,320

right so look at all these hacks that

525

00:19:49,830 --> 00:19:48,320

have happened right how did the nsa

526

00:19:51,190 --> 00:19:49,840

listen to everything

527

00:19:52,870 --> 00:19:51,200

you know how do they record everything a

528

00:19:55,590 --> 00:19:52,880

lot of it is they go through xero what

529

00:19:57,909 --> 00:19:55,600

is it it's called the zero day hacks

530

00:19:58,710 --> 00:19:57,919

right into apple ios devices et cetera

531

00:20:00,789 --> 00:19:58,720

so

532

00:20:02,390 --> 00:20:00,799

you don't you don't see all that stuff

533

00:20:03,669 --> 00:20:02,400

right we don't we don't have access to

534

00:20:06,310 --> 00:20:03,679

the coding

535

00:20:07,430 --> 00:20:06,320

of the apple ios all right i mean you

536

00:20:08,950 --> 00:20:07,440

get

537

00:20:10,390 --> 00:20:08,960

you can develop

538

00:20:12,310 --> 00:20:10,400

programs for it but you're not getting

539

00:20:13,510 --> 00:20:12,320

access to the source code of the iphone

540

00:20:15,990 --> 00:20:13,520

right

541

00:20:18,070 --> 00:20:16,000

but here it's all laid bare

542

00:20:19,590 --> 00:20:18,080

right it's all laid bare and it has to

543

00:20:22,390 --> 00:20:19,600

be simple because it's processed on so

544

00:20:24,310 --> 00:20:22,400

many different computers so

545

00:20:25,270 --> 00:20:24,320

it's a simple process it's a simple

546

00:20:26,070 --> 00:20:25,280

process

547

00:20:28,470 --> 00:20:26,080

but

548

00:20:30,870 --> 00:20:28,480

it because it's decentralized right

549

00:20:32,470 --> 00:20:30,880

because it's open source

550

00:20:34,470 --> 00:20:32,480

everything's visible so people can't

551
00:20:36,149 --> 00:20:34,480
just come in and mess with it they can't

552
00:20:38,390 --> 00:20:36,159
they can't mess with it you know

553
00:20:41,110 --> 00:20:38,400
well if they can we can see it

554
00:20:43,430 --> 00:20:41,120
right um so that provides a huge benefit

555
00:20:46,230 --> 00:20:43,440
right so what does that equate directly

556
00:20:48,470 --> 00:20:46,240
to his transparency

557
00:20:50,070 --> 00:20:48,480
transparency and lack of corruption

558
00:20:51,590 --> 00:20:50,080
because now it's visible right the

559
00:20:52,789 --> 00:20:51,600
problem with corruption is you don't see

560
00:20:54,950 --> 00:20:52,799
what's going i mean maybe you go to

561
00:20:55,820 --> 00:20:54,960
certain countries like russia where it's

562
00:20:57,990 --> 00:20:55,830
everywhere is corrupt

563
00:20:59,270 --> 00:20:58,000

[Laughter]

564

00:21:01,190 --> 00:20:59,280

now i've heard that as well like all

565

00:21:03,110 --> 00:21:01,200

businesses in russia has done through

566

00:21:04,630 --> 00:21:03,120

basic i mean i live overseas you know i

567

00:21:05,909 --> 00:21:04,640

know how it works

568

00:21:07,510 --> 00:21:05,919

um

569

00:21:08,710 --> 00:21:07,520

but everything is that all of it is

570

00:21:11,750 --> 00:21:08,720

corrupt basically that's how you do

571

00:21:13,190 --> 00:21:11,760

business there you know right how it is

572

00:21:15,110 --> 00:21:13,200

but the problem is

573

00:21:16,630 --> 00:21:15,120

transparency now it'll push the

574

00:21:17,990 --> 00:21:16,640

corruption outward

575

00:21:19,590 --> 00:21:18,000

so all you have to come you don't have

576
00:21:21,029 --> 00:21:19,600
to confirm and you don't have to verify

577
00:21:22,630 --> 00:21:21,039
the process

578
00:21:24,470 --> 00:21:22,640
um but you do have to verify where

579
00:21:26,390 --> 00:21:24,480
you're sending the the funds you know

580
00:21:28,549 --> 00:21:26,400
you have to verify it's the correct nft

581
00:21:31,510 --> 00:21:28,559
and and all that stuff but you hit it

582
00:21:33,029 --> 00:21:31,520
right it's it's an avenue crypto is an

583
00:21:34,870 --> 00:21:33,039
avenue people keep thinking it's the

584
00:21:37,669 --> 00:21:34,880
final thing they're like i'm

585
00:21:39,350 --> 00:21:37,679
i'm buying just a cartoon and i'm like

586
00:21:41,430 --> 00:21:39,360
you're not buying a cartoon man it's

587
00:21:43,350 --> 00:21:41,440
like uh it's like if someone was buying

588
00:21:45,029 --> 00:21:43,360

a website

589

00:21:47,350 --> 00:21:45,039

you know hey i'm buying i'm buying this

590

00:21:49,510 --> 00:21:47,360

website uapsociety.com

591

00:21:51,590 --> 00:21:49,520

and someone comes along is like well i

592

00:21:52,390 --> 00:21:51,600

can just write uapsociety.com on the

593

00:21:54,430 --> 00:21:52,400

wall

594

00:21:56,470 --> 00:21:54,440

you know or i can just take a picture of

595

00:21:58,950 --> 00:21:56,480

uapsociety.com and put it on my wall and

596

00:22:00,310 --> 00:21:58,960

i'm like dude you don't

597

00:22:02,470 --> 00:22:00,320

i don't even know how to talk to you

598

00:22:04,549 --> 00:22:02,480

like because it's this is a difficult

599

00:22:06,070 --> 00:22:04,559

topic this is not that's why we're doing

600

00:22:07,909 --> 00:22:06,080

this i mean that's

601
00:22:10,549 --> 00:22:07,919
one of the reasons we you know we decide

602
00:22:12,549 --> 00:22:10,559
is is this is not easy and and i would

603
00:22:15,029 --> 00:22:12,559
kind of like to pose the same question

604
00:22:18,310 --> 00:22:15,039
to your colleague alexa if you want to

605
00:22:19,830 --> 00:22:18,320
pop him up there nathan yeah welcome

606
00:22:22,310 --> 00:22:19,840
alexi

607
00:22:24,549 --> 00:22:22,320
how's it going hey brothers i would be

608
00:22:26,549 --> 00:22:24,559
remiss if i didn't say how great your

609
00:22:28,390 --> 00:22:26,559
hair is

610
00:22:31,110 --> 00:22:28,400
and you know i've been dying to say that

611
00:22:32,230 --> 00:22:31,120
since i saw that epic episode with

612
00:22:34,950 --> 00:22:32,240
yourself

613
00:22:36,630 --> 00:22:34,960

artisan tony chris and lou elizondo that

614

00:22:38,950 --> 00:22:36,640

was just

615

00:22:41,430 --> 00:22:38,960

phenomenal if i could just pardon the

616

00:22:43,270 --> 00:22:41,440

pun uh but you know what kevin uh let's

617

00:22:44,789 --> 00:22:43,280

let's get your question for alexei

618

00:22:47,110 --> 00:22:44,799

please

619

00:22:48,870 --> 00:22:47,120

all right well actually i had a general

620

00:22:51,350 --> 00:22:48,880

statement first i wanted to tell you

621

00:22:53,190 --> 00:22:51,360

your team i i'm really i really think

622

00:22:55,190 --> 00:22:53,200

what you guys doing is really awesome so

623

00:22:57,750 --> 00:22:55,200

i'm reminded of a quote

624

00:22:59,350 --> 00:22:57,760

by mckenna all right it says our need to

625

00:23:00,870 --> 00:22:59,360

feel part of the world seems to demand

626

00:23:03,270 --> 00:23:00,880

that we express ourselves through

627

00:23:05,270 --> 00:23:03,280

creative activity so i want to give you

628

00:23:07,510 --> 00:23:05,280

guys props for rising above those

629

00:23:09,430 --> 00:23:07,520

previously laid down models of thinking

630

00:23:11,110 --> 00:23:09,440

and taking responsibility towards

631

00:23:12,230 --> 00:23:11,120

understanding the phenomenon i think

632

00:23:14,950 --> 00:23:12,240

it's great you're taking your own

633

00:23:16,549 --> 00:23:14,960

responsibility rather than you know

634

00:23:19,190 --> 00:23:16,559

walking on somewhat something somebody

635

00:23:20,870 --> 00:23:19,200

else did it's great so um i'm also

636

00:23:21,830 --> 00:23:20,880

looking forward to learning um how to

637

00:23:24,390 --> 00:23:21,840

get

638

00:23:26,630 --> 00:23:24,400

out of our digital signatures on ufos

639

00:23:29,190 --> 00:23:26,640

okay so once i get a i capture my own

640

00:23:30,789 --> 00:23:29,200

ufo can i trade it

641

00:23:32,789 --> 00:23:30,799

on the market

642

00:23:36,149 --> 00:23:32,799

with other people who own you know and

643

00:23:38,470 --> 00:23:36,159

capture their ufos as well

644

00:23:39,990 --> 00:23:38,480

that's a good question you mean captured

645

00:23:41,830 --> 00:23:40,000

or what do you mean by capture do you

646

00:23:43,669 --> 00:23:41,840

take a picture like

647

00:23:47,750 --> 00:23:43,679

yeah yeah you know if i meant can i

648

00:23:52,230 --> 00:23:50,149

mint your own uap i don't understand

649

00:23:53,830 --> 00:23:52,240

yeah okay now actually and more

650

00:23:56,310 --> 00:23:53,840

seriously i have a serious question um

651
00:23:59,110 --> 00:23:56,320
as an artist say we can't not not

652
00:24:00,630 --> 00:23:59,120
everybody can um help the uap society

653
00:24:02,470 --> 00:24:00,640
monetarily is there a way that we can

654
00:24:04,230 --> 00:24:02,480
contribute maybe artistic because i'm

655
00:24:07,110 --> 00:24:04,240
always throwing content out there is

656
00:24:09,669 --> 00:24:07,120
there something um yeah we can do

657
00:24:12,470 --> 00:24:09,679
i think the best would be um if you

658
00:24:13,830 --> 00:24:12,480
have you seen our collection

659
00:24:16,230 --> 00:24:13,840
yeah yeah i have

660
00:24:18,789 --> 00:24:16,240
if you just you have the artistic eye

661
00:24:20,390 --> 00:24:18,799
man what is the the ones that you like

662
00:24:23,750 --> 00:24:20,400
you know just share a few that you like

663
00:24:26,070 --> 00:24:23,760

on your twitter or just highlighting it

664

00:24:27,669 --> 00:24:26,080

okay why can't we give the artist cool

665

00:24:28,710 --> 00:24:27,679

to you you know

666

00:24:29,669 --> 00:24:28,720

okay

667

00:24:31,830 --> 00:24:29,679

cool

668

00:24:34,149 --> 00:24:31,840

yeah i can definitely do that yeah

669

00:24:36,310 --> 00:24:34,159

because i i think there's a huge

670

00:24:37,830 --> 00:24:36,320

untapped

671

00:24:40,390 --> 00:24:37,840

there's just a lot of value in the

672

00:24:42,549 --> 00:24:40,400

actual art part of it

673

00:24:44,630 --> 00:24:42,559

i really dig it if you look once you

674

00:24:47,350 --> 00:24:44,640

start really what you got to do kevin is

675

00:24:49,590 --> 00:24:47,360

just go into open c

676
00:24:51,430 --> 00:24:49,600
and start looking at the traits you look

677
00:24:52,470 --> 00:24:51,440
under the properties

678
00:24:54,549 --> 00:24:52,480
okay

679
00:24:57,029 --> 00:24:54,559
and because the collection the whole

680
00:24:58,710 --> 00:24:57,039
thing is is an art piece it's not just

681
00:25:03,750 --> 00:24:58,720
each one

682
00:25:05,830 --> 00:25:03,760
know each nft is actually in

683
00:25:06,870 --> 00:25:05,840
it's in the whole thing and the metadata

684
00:25:09,430 --> 00:25:06,880
actually is

685
00:25:12,710 --> 00:25:09,440
very thought out over months of time you

686
00:25:14,470 --> 00:25:12,720
know the actual titles uh the traits

687
00:25:16,070 --> 00:25:14,480
so click through the trades it's super

688
00:25:17,669 --> 00:25:16,080

fun because the blockchain you can get

689

00:25:19,750 --> 00:25:17,679

all the information you need everywhere

690

00:25:21,590 --> 00:25:19,760

right you mentioned kind of nathan is

691

00:25:24,470 --> 00:25:21,600

people aren't used to it

692

00:25:27,430 --> 00:25:24,480

the difference in the web 3 is that

693

00:25:30,149 --> 00:25:27,440

there's actually trust in what you're

694

00:25:31,830 --> 00:25:30,159

looking at meaning

695

00:25:33,669 --> 00:25:31,840

right now everything we're aware of in

696

00:25:35,830 --> 00:25:33,679

the digi we're used to in our world our

697

00:25:37,269 --> 00:25:35,840

digital world it's all copy you can copy

698

00:25:39,110 --> 00:25:37,279

paste anything

699

00:25:41,350 --> 00:25:39,120

right so really there's

700

00:25:42,470 --> 00:25:41,360

like over abundance of

701
00:25:44,789 --> 00:25:42,480
of content

702
00:25:47,669 --> 00:25:44,799
it could be fake it could be

703
00:25:50,789 --> 00:25:47,679
real we have no real idea

704
00:25:53,029 --> 00:25:50,799
um but what what the technology brings

705
00:25:55,510 --> 00:25:53,039
with you it brings an avenue a trusted

706
00:25:58,310 --> 00:25:55,520
avenue a verifiable avenue it's like a

707
00:26:01,909 --> 00:25:58,320
super strong little green check mark

708
00:26:03,830 --> 00:26:01,919
on all your things being being real

709
00:26:08,149 --> 00:26:03,840
um so yeah

710
00:26:10,950 --> 00:26:08,159
and one of the things that i'm sorry kev

711
00:26:13,510 --> 00:26:10,960
no i'm good okay i wanted to find out if

712
00:26:16,789 --> 00:26:13,520
if you can pop alexa but what uh what

713
00:26:19,750 --> 00:26:16,799

his on-ramp was to use a nathanism uh

714

00:26:21,510 --> 00:26:19,760

into joining forces with chris in this

715

00:26:23,909 --> 00:26:21,520

venture what is it that spoke to you

716

00:26:27,590 --> 00:26:23,919

that said i want to shift the paradigm

717

00:26:31,830 --> 00:26:30,230

oh alexis on mute so can we unmute him

718

00:26:33,909 --> 00:26:31,840

we can't

719

00:26:35,750 --> 00:26:33,919

there he is i've been uh personally

720

00:26:38,230 --> 00:26:35,760

looking into my entire life since i was

721

00:26:39,669 --> 00:26:38,240

about five years old um and you could

722

00:26:41,430 --> 00:26:39,679

say i've been doing the movement

723

00:26:43,029 --> 00:26:41,440

personally by myself since i graduated

724

00:26:45,830 --> 00:26:43,039

college 2012

725

00:26:47,430 --> 00:26:45,840

as in educating the public on

726

00:26:49,269 --> 00:26:47,440

um the greater reality that we live

727

00:26:50,789 --> 00:26:49,279

within trying to talk about time

728

00:26:51,750 --> 00:26:50,799

different flows of space and things like

729

00:26:53,669 --> 00:26:51,760

that

730

00:26:56,390 --> 00:26:53,679

and it really wasn't going anywhere you

731

00:26:59,029 --> 00:26:56,400

could say until luella zondo started

732

00:27:00,549 --> 00:26:59,039

coming out on the limelight and you know

733

00:27:02,470 --> 00:27:00,559

saying hey these are real things and all

734

00:27:03,269 --> 00:27:02,480

of a sudden now harvard's looking into

735

00:27:05,430 --> 00:27:03,279

it

736

00:27:07,590 --> 00:27:05,440

and uh chris is out there making videos

737

00:27:09,269 --> 00:27:07,600

you know once a skeptic but now

738

00:27:10,870 --> 00:27:09,279

if you know former f16 probably really

739

00:27:12,230 --> 00:27:10,880

looking out there trying to try to find

740

00:27:13,350 --> 00:27:12,240

the truth

741

00:27:18,070 --> 00:27:13,360

and

742

00:27:19,669 --> 00:27:18,080

there's people that have invented

743

00:27:20,870 --> 00:27:19,679

technologies and they've even presented

744

00:27:22,070 --> 00:27:20,880

it to the governments and then the

745

00:27:24,310 --> 00:27:22,080

governments just don't say anything

746

00:27:26,310 --> 00:27:24,320

about it for example jon searle and his

747

00:27:28,149 --> 00:27:26,320

technology

748

00:27:29,190 --> 00:27:28,159

so as far as getting the truth out there

749

00:27:31,510 --> 00:27:29,200

and

750

00:27:32,830 --> 00:27:31,520

getting humanity back into space it

751
00:27:35,350 --> 00:27:32,840
comes down

752
00:27:36,870 --> 00:27:35,360
to we need to do the research ourselves

753
00:27:38,710 --> 00:27:36,880
and we need to find the truth ourselves

754
00:27:40,310 --> 00:27:38,720
um the governments are never going to

755
00:27:41,830 --> 00:27:40,320
give up the information that they have

756
00:27:43,830 --> 00:27:41,840
on uap

757
00:27:46,710 --> 00:27:43,840
it's just the way it is

758
00:27:48,470 --> 00:27:46,720
it's the nature of the beast

759
00:27:50,630 --> 00:27:48,480
it's so beautiful all the people that

760
00:27:52,789 --> 00:27:50,640
have come together over this topic like

761
00:27:54,230 --> 00:27:52,799
yourself and chris you know we talk

762
00:27:56,070 --> 00:27:54,240
about all the time all our friends from

763
00:27:57,990 --> 00:27:56,080

the uk we'd never first of all the

764

00:28:00,389 --> 00:27:58,000

people on this panel never would have

765

00:28:01,669 --> 00:28:00,399

met and we would never have met our our

766

00:28:04,470 --> 00:28:01,679

friends from the uk and you wouldn't

767

00:28:06,789 --> 00:28:04,480

have met chris it's amazing how we've

768

00:28:08,950 --> 00:28:06,799

connected with people from all walks of

769

00:28:10,310 --> 00:28:08,960

life and different countries over this

770

00:28:12,630 --> 00:28:10,320

it's really

771

00:28:15,190 --> 00:28:12,640

incredible it's like woodstock it's

772

00:28:16,630 --> 00:28:15,200

really something else uh steph i believe

773

00:28:19,029 --> 00:28:16,640

had a question i don't know if it was

774

00:28:20,389 --> 00:28:19,039

for you or for chris but steph please go

775

00:28:21,990 --> 00:28:20,399

ahead ma'am

776

00:28:25,350 --> 00:28:22,000

i'll pose the question to chris and

777

00:28:28,389 --> 00:28:25,360

alexi actually so i like kevin i'm also

778

00:28:30,389 --> 00:28:28,399

um a creative so i'm super excited about

779

00:28:33,590 --> 00:28:30,399

the art and for a lot of people that

780

00:28:35,830 --> 00:28:33,600

don't know this is a i generated art so

781

00:28:38,389 --> 00:28:35,840

it's a family of algorithms used to

782

00:28:42,070 --> 00:28:38,399

apply the style of one or more images to

783

00:28:45,990 --> 00:28:42,080

input an image and that just gets me so

784

00:28:48,789 --> 00:28:46,000

excited um i know that there's a cap on

785

00:28:50,870 --> 00:28:48,799

your limit as far as purchasing 10 do

786

00:28:52,230 --> 00:28:50,880

you foresee in the future that you might

787

00:28:53,190 --> 00:28:52,240

extend that

788

00:29:01,269 --> 00:28:53,200

or

789

00:29:03,590 --> 00:29:01,279

white list mint

790

00:29:05,669 --> 00:29:03,600

okay but we raised it to 42 per

791

00:29:08,389 --> 00:29:05,679

transaction actually for the

792

00:29:10,830 --> 00:29:08,399

the public mint tomorrow fantastic that

793

00:29:13,190 --> 00:29:10,840

is exciting news so that's tomorrow then

794

00:29:14,789 --> 00:29:13,200

beautiful and we've actually yeah we've

795

00:29:16,630 --> 00:29:14,799

actually removed the limits because what

796

00:29:18,070 --> 00:29:16,640

we had is people were having issues with

797

00:29:20,310 --> 00:29:18,080

the white list

798

00:29:22,230 --> 00:29:20,320

um because the way the contract

799

00:29:24,070 --> 00:29:22,240

technically was working anyway so we

800

00:29:26,310 --> 00:29:24,080

just removed it to make it easy so

801
00:29:28,389 --> 00:29:26,320
basically anyone can mint at this point

802
00:29:31,110 --> 00:29:28,399
we're just not advertising it yet

803
00:29:33,110 --> 00:29:31,120
cool and that 42 the the answer to the

804
00:29:34,789 --> 00:29:33,120
universe so

805
00:29:36,310 --> 00:29:34,799
i dig it

806
00:29:39,110 --> 00:29:36,320
there's no that's right

807
00:29:41,110 --> 00:29:39,120
there's another reason too is the uh

808
00:29:42,470 --> 00:29:41,120
it goes over ten thousand dollars if you

809
00:29:44,070 --> 00:29:42,480
go try to do

810
00:29:45,990 --> 00:29:44,080
more than that and that

811
00:29:47,909 --> 00:29:46,000
has some other issues but yes good to

812
00:29:49,909 --> 00:29:47,919
know yeah tax purposes and all that fun

813
00:29:51,909 --> 00:29:49,919

stuff too because you can probably write

814

00:29:54,710 --> 00:29:51,919

you can write it off and all that so

815

00:29:56,710 --> 00:29:54,720

all right cool thank you you know if you

816

00:29:59,909 --> 00:29:56,720

guys have seen the story of perseus and

817

00:30:00,789 --> 00:29:59,919

andromeda uh we're at the point now with

818

00:30:03,909 --> 00:30:00,799

deb

819

00:30:07,029 --> 00:30:03,919

where i say we'll release the kraken

820

00:30:09,430 --> 00:30:07,039

which is also known as deb

821

00:30:11,269 --> 00:30:09,440

why thank you

822

00:30:13,510 --> 00:30:11,279

i wanted to um

823

00:30:15,750 --> 00:30:13,520

talk about this in terms of

824

00:30:18,070 --> 00:30:15,760

why you're doing it and i think it's

825

00:30:21,430 --> 00:30:18,080

really important for people to recognize

826

00:30:23,510 --> 00:30:21,440

it's not just you know a money issue or

827

00:30:25,269 --> 00:30:23,520

whatever there's an end game so i wanted

828

00:30:27,990 --> 00:30:25,279

to kind of pull it back

829

00:30:30,549 --> 00:30:28,000

to what you did recently where you had

830

00:30:32,870 --> 00:30:30,559

two balloons go up with equipment and i

831

00:30:37,110 --> 00:30:32,880

wanted to ask if there was any data that

832

00:30:42,549 --> 00:30:40,549

oh alexa you're still muted

833

00:30:45,190 --> 00:30:42,559

that's an interesting uh question we had

834

00:30:47,190 --> 00:30:45,200

two devices on um the balloon in vernal

835

00:30:49,110 --> 00:30:47,200

utah one was a cell phone right that was

836

00:30:52,149 --> 00:30:49,120

doing a live stream and the other was is

837

00:30:54,549 --> 00:30:52,159

a device called the mupus device mupas

838

00:30:55,830 --> 00:30:54,559

which was designed by jim sagala one of

839

00:30:57,509 --> 00:30:55,840

the original scientists from the

840

00:31:00,470 --> 00:30:57,519

skinwalker ranch show

841

00:31:02,070 --> 00:31:00,480

and basically the second we launched

842

00:31:04,230 --> 00:31:02,080

that equipment failed

843

00:31:05,909 --> 00:31:04,240

um but what was really interesting was

844

00:31:08,230 --> 00:31:05,919

that jim had one of his devices

845

00:31:11,269 --> 00:31:08,240

recording inside at the moment of launch

846

00:31:13,110 --> 00:31:11,279

and it recorded spikes and uh the em

847

00:31:14,789 --> 00:31:13,120

basically in microwave and also in the

848

00:31:16,230 --> 00:31:14,799

gamma wave frequencies

849

00:31:19,750 --> 00:31:16,240

and that seems to be something that's

850

00:31:23,110 --> 00:31:19,760

correlated with uh the uap events um are

851
00:31:24,789 --> 00:31:23,120
those spikes those changes in fields so

852
00:31:26,710 --> 00:31:24,799
i mean we didn't get data from the

853
00:31:28,950 --> 00:31:26,720
actual flight itself but we got that

854
00:31:31,029 --> 00:31:28,960
data right there which was showing you

855
00:31:33,590 --> 00:31:31,039
could say

856
00:31:35,430 --> 00:31:33,600
an anomaly right i don't i don't know

857
00:31:37,509 --> 00:31:35,440
any other way to describe it

858
00:31:39,590 --> 00:31:37,519
and i mean yeah just to follow up is

859
00:31:41,509 --> 00:31:39,600
that information gonna be somewhere

860
00:31:43,029 --> 00:31:41,519
really clear and obvious when you start

861
00:31:45,750 --> 00:31:43,039
collecting that data

862
00:31:47,509 --> 00:31:45,760
yeah um i believe right now that the

863
00:31:49,110 --> 00:31:47,519

test results from that first flight are

864

00:31:51,590 --> 00:31:49,120

already on the discord i believe chris

865

00:31:53,350 --> 00:31:51,600

has them posted somewhere up there

866

00:31:55,269 --> 00:31:53,360

and we plan to make everything as open

867

00:31:57,190 --> 00:31:55,279

and as clean and obvious as possible

868

00:31:58,710 --> 00:31:57,200

that way any independent researcher or

869

00:32:00,070 --> 00:31:58,720

scientist can take a look at the data

870

00:32:02,230 --> 00:32:00,080

themselves and come to their own

871

00:32:03,350 --> 00:32:02,240

conclusions because it's just like

872

00:32:05,190 --> 00:32:03,360

having the world government tell you

873

00:32:06,950 --> 00:32:05,200

what to think people shouldn't really be

874

00:32:08,470 --> 00:32:06,960

relying on us what to think they should

875

00:32:10,310 --> 00:32:08,480

be relying on the data that we present

876

00:32:11,830 --> 00:32:10,320

and the data that's collected

877

00:32:14,149 --> 00:32:11,840

um and they can make their own

878

00:32:15,430 --> 00:32:14,159

conclusions on reality

879

00:32:17,430 --> 00:32:15,440

yeah

880

00:32:19,909 --> 00:32:17,440

i love it we're going to get into the

881

00:32:20,870 --> 00:32:19,919

technical aspects of what you guys hope

882

00:32:23,029 --> 00:32:20,880

to do

883

00:32:24,630 --> 00:32:23,039

and maybe you know some milestones that

884

00:32:28,149 --> 00:32:24,640

you're going to hit along the way so let

885

00:32:29,029 --> 00:32:28,159

me pass it back to uh nft nathan i i

886

00:32:31,190 --> 00:32:29,039

don't know what we're gonna do with the

887

00:32:33,669 --> 00:32:31,200

nickname that's gonna be up

888

00:32:36,149 --> 00:32:33,679

it's okay it's all good um

889

00:32:37,590 --> 00:32:36,159

so i you know i i love the idea because

890

00:32:40,630 --> 00:32:37,600

i think

891

00:32:42,389 --> 00:32:40,640

it's really brave and and radical to

892

00:32:43,909 --> 00:32:42,399

kind of jump into this technology and

893

00:32:45,350 --> 00:32:43,919

try something new

894

00:32:46,630 --> 00:32:45,360

um i think

895

00:32:48,789 --> 00:32:46,640

for those that are they're thinking

896

00:32:49,909 --> 00:32:48,799

about joining you know buying an nft or

897

00:32:52,070 --> 00:32:49,919

whatever obviously the normal

898

00:32:54,470 --> 00:32:52,080

disclaimers always apply if you're

899

00:32:55,830 --> 00:32:54,480

investing in anything you should kind of

900

00:32:58,070 --> 00:32:55,840

make sure that you're not putting in

901
00:33:00,230 --> 00:32:58,080
more than you're willing to lose that's

902
00:33:02,630 --> 00:33:00,240
finance 101

903
00:33:04,870 --> 00:33:02,640
but whether it would be doing it through

904
00:33:07,269 --> 00:33:04,880
this kind of structure or through a

905
00:33:09,190 --> 00:33:07,279
traditional organization

906
00:33:11,430 --> 00:33:09,200
we in the community can agree like it's

907
00:33:13,590 --> 00:33:11,440
it's a worthwhile endeavor to do more

908
00:33:14,710 --> 00:33:13,600
citizen science right

909
00:33:18,549 --> 00:33:14,720
so

910
00:33:20,310 --> 00:33:18,559
structure down the art is amazing i love

911
00:33:22,070 --> 00:33:20,320
the ai creations

912
00:33:25,269 --> 00:33:22,080
i love the community activity and

913
00:33:27,669 --> 00:33:25,279

participation the interest level

914

00:33:29,190 --> 00:33:27,679

how do you go about deciding

915

00:33:30,389 --> 00:33:29,200

you know what projects that you're going

916

00:33:31,830 --> 00:33:30,399

to tackle

917

00:33:32,789 --> 00:33:31,840

uh and i'm asking this rhetorically

918

00:33:34,149 --> 00:33:32,799

because i kind of know the answer to

919

00:33:35,590 --> 00:33:34,159

this but not many people may know the

920

00:33:37,590 --> 00:33:35,600

answer so how do you go about picking

921

00:33:39,750 --> 00:33:37,600

the projects how do you go about voting

922

00:33:41,110 --> 00:33:39,760

for them how do you go about kind of

923

00:33:42,789 --> 00:33:41,120

making sure that

924

00:33:45,190 --> 00:33:42,799

you're being good stewards of the money

925

00:33:47,269 --> 00:33:45,200

that you've received by by the people

926
00:33:49,909 --> 00:33:47,279
who've invested in these nfts how does

927
00:33:51,269 --> 00:33:49,919
all that really work

928
00:33:55,190 --> 00:33:51,279
yeah

929
00:33:56,950 --> 00:33:55,200
do you think

930
00:33:59,269 --> 00:33:56,960
well basically what we have set up right

931
00:34:00,789 --> 00:33:59,279
now is the discord uh wherever it's just

932
00:34:03,029 --> 00:34:00,799
a community anyone can join you don't

933
00:34:05,269 --> 00:34:03,039
even need to own an nfc so anyone can

934
00:34:07,509 --> 00:34:05,279
join the discord and on the discord we

935
00:34:08,869 --> 00:34:07,519
have a section that is proposals

936
00:34:11,270 --> 00:34:08,879
so basically

937
00:34:13,669 --> 00:34:11,280
people can make proposals um and then we

938
00:34:15,030 --> 00:34:13,679

have either vote up or vote down is the

939

00:34:16,790 --> 00:34:15,040

easiest way to put it and we have a

940

00:34:17,750 --> 00:34:16,800

limited budget based on the capital we

941

00:34:19,270 --> 00:34:17,760

raise

942

00:34:20,950 --> 00:34:19,280

and based off the limit you know the

943

00:34:22,629 --> 00:34:20,960

budget that we we raise and the

944

00:34:25,349 --> 00:34:22,639

proposals and the voting up and voting

945

00:34:27,270 --> 00:34:25,359

down is the direction we will go

946

00:34:28,470 --> 00:34:27,280

um i think that's pretty much

947

00:34:31,270 --> 00:34:28,480

straightforward

948

00:34:33,190 --> 00:34:31,280

in the simplest way you know

949

00:34:35,589 --> 00:34:33,200

uh yeah that was great

950

00:34:37,510 --> 00:34:35,599

i wish i could as well and i love it

951
00:34:38,389 --> 00:34:37,520
i think it kind of demystifies a lot of

952
00:34:39,190 --> 00:34:38,399
the

953
00:34:41,190 --> 00:34:39,200
see

954
00:34:44,149 --> 00:34:41,200
for most people who have not done

955
00:34:45,829 --> 00:34:44,159
anything in the crypto space

956
00:34:47,990 --> 00:34:45,839
what they're hearing is the popular

957
00:34:49,109 --> 00:34:48,000
things related to crypto right now

958
00:34:50,550 --> 00:34:49,119
which are

959
00:34:52,389 --> 00:34:50,560
the environmental piece that's in the

960
00:34:53,669 --> 00:34:52,399
news you guys know about that you've

961
00:34:54,550 --> 00:34:53,679
already addressed that chris to certain

962
00:34:57,670 --> 00:34:54,560
degree

963
00:34:59,270 --> 00:34:57,680

the uh you know kind of the

964

00:35:02,950 --> 00:34:59,280

pump and dump is a big you know

965

00:35:05,349 --> 00:35:02,960

component of nfts right now uh

966

00:35:07,109 --> 00:35:05,359

you know that there's this big sort of

967

00:35:08,950 --> 00:35:07,119

potential for risk for people who are

968

00:35:10,790 --> 00:35:08,960

jumping into this space that they could

969

00:35:13,030 --> 00:35:10,800

you know put a lot of money into it and

970

00:35:14,710 --> 00:35:13,040

lose the money and somebody else

971

00:35:17,030 --> 00:35:14,720

you know is running away with a big bag

972

00:35:18,790 --> 00:35:17,040

of cash you know and you can't can't

973

00:35:19,750 --> 00:35:18,800

trace them because it's crypto and it's

974

00:35:22,150 --> 00:35:19,760

totally

975

00:35:23,910 --> 00:35:22,160

concealable so i think for me

976

00:35:26,470 --> 00:35:23,920

the way that you've distilled it down to

977

00:35:29,109 --> 00:35:26,480

these basic concepts it makes it a lot

978

00:35:30,870 --> 00:35:29,119

more approachable and honestly i think

979

00:35:32,950 --> 00:35:30,880

it because of the way crypto works it's

980

00:35:35,430 --> 00:35:32,960

actually very secure it's it's more

981

00:35:38,230 --> 00:35:35,440

transparent than most organizations are

982

00:35:39,510 --> 00:35:38,240

um it's not that one person can just you

983

00:35:41,030 --> 00:35:39,520

know

984

00:35:43,109 --> 00:35:41,040

hit the print button and grab all the

985

00:35:44,710 --> 00:35:43,119

money and go right it doesn't work that

986

00:35:47,030 --> 00:35:44,720

way

987

00:35:50,310 --> 00:35:47,040

yeah i think you mentioned um

988

00:35:51,910 --> 00:35:50,320

some key points there about risk

989

00:35:53,670 --> 00:35:51,920

you know it's really what do people

990

00:35:55,430 --> 00:35:53,680

think they're risking

991

00:35:57,990 --> 00:35:55,440

but like you mentioned this before it's

992

00:35:59,109 --> 00:35:58,000

lack of a lack of understanding you know

993

00:36:00,790 --> 00:35:59,119

the the

994

00:36:02,150 --> 00:36:00,800

the way you're going to get scammed is

995

00:36:05,990 --> 00:36:02,160

is

996

00:36:07,829 --> 00:36:06,000

to trick you into

997

00:36:09,349 --> 00:36:07,839

giving you giving your information to

998

00:36:11,910 --> 00:36:09,359

them you know it's more like all fishing

999

00:36:13,910 --> 00:36:11,920

scams if you can think of it

1000

00:36:16,550 --> 00:36:13,920

that that's how that's how it generally

1001
00:36:17,750 --> 00:36:16,560
can work because people don't understand

1002
00:36:20,150 --> 00:36:17,760
yet

1003
00:36:21,750 --> 00:36:20,160
what's the important stuff to protect

1004
00:36:23,829 --> 00:36:21,760
right you know if i ask for your bank

1005
00:36:25,109 --> 00:36:23,839
account number and your social your

1006
00:36:26,550 --> 00:36:25,119
social security number i'm pretty sure

1007
00:36:28,390 --> 00:36:26,560
you're not going to give it to me

1008
00:36:30,470 --> 00:36:28,400
right but if if you go into a bank and

1009
00:36:31,510 --> 00:36:30,480
they ask for your social security number

1010
00:36:33,829 --> 00:36:31,520
now you're going to tell them that

1011
00:36:34,710 --> 00:36:33,839
probably right to confirm who you are

1012
00:36:37,589 --> 00:36:34,720
so

1013
00:36:39,510 --> 00:36:37,599

you know i think generally people know

1014

00:36:41,430 --> 00:36:39,520

through living day to day over many many

1015

00:36:43,589 --> 00:36:41,440

years

1016

00:36:46,310 --> 00:36:43,599

you understand what information you know

1017

00:36:48,150 --> 00:36:46,320

to keep and when you can give it away

1018

00:36:49,910 --> 00:36:48,160

but in the crypto world it's so new

1019

00:36:51,109 --> 00:36:49,920

right so all of this stuff is totally

1020

00:36:52,790 --> 00:36:51,119

new

1021

00:36:54,150 --> 00:36:52,800

and so people there's a lack of

1022

00:36:56,550 --> 00:36:54,160

understanding right the lack of

1023

00:36:57,910 --> 00:36:56,560

knowledge essentially on what

1024

00:36:59,589 --> 00:36:57,920

what they're risking they don't know

1025

00:37:01,109 --> 00:36:59,599

where the risk is so they just assume

1026

00:37:03,910 --> 00:37:01,119

there's just risk everywhere you know

1027

00:37:05,990 --> 00:37:03,920

they they hear it in the in the news

1028

00:37:08,150 --> 00:37:06,000

so they just assume that uh right away

1029

00:37:09,510 --> 00:37:08,160

as soon as they get involved you know

1030

00:37:12,470 --> 00:37:09,520

they're gonna

1031

00:37:14,470 --> 00:37:12,480

basically get scammed or whatnot and

1032

00:37:17,270 --> 00:37:14,480

you know i to to be honest i have this

1033

00:37:18,950 --> 00:37:17,280

game you know so it happens the other

1034

00:37:20,790 --> 00:37:18,960

but also to be honest i put in three

1035

00:37:22,550 --> 00:37:20,800

thousand dollars in 2019 and it went to

1036

00:37:23,349 --> 00:37:22,560

half a million

1037

00:37:25,349 --> 00:37:23,359

so

1038

00:37:27,510 --> 00:37:25,359

it depends on what you're scamming right

1039

00:37:29,910 --> 00:37:27,520

then it went back down to like 100 you

1040

00:37:31,349 --> 00:37:29,920

know so it's it's huge these giant

1041

00:37:33,510 --> 00:37:31,359

swings

1042

00:37:35,510 --> 00:37:33,520

um so but you don't need to start big

1043

00:37:37,829 --> 00:37:35,520

but you do need to start you need to get

1044

00:37:39,829 --> 00:37:37,839

in there and you have to get wet

1045

00:37:42,150 --> 00:37:39,839

or you're never going to learn like

1046

00:37:43,589 --> 00:37:42,160

you can read about using an iphone and

1047

00:37:46,230 --> 00:37:43,599

why it would change your life right but

1048

00:37:47,030 --> 00:37:46,240

until you really started using it

1049

00:37:48,870 --> 00:37:47,040

you

1050

00:37:51,430 --> 00:37:48,880

everyone i think thought it was kind of

1051
00:37:53,589 --> 00:37:51,440
just bs you know why don't i just call

1052
00:37:55,670 --> 00:37:53,599
or i didn't i just couldn't afford it

1053
00:37:57,910 --> 00:37:55,680
that was the thing yeah i was over at

1054
00:37:59,589 --> 00:37:57,920
mildenhall at the time uh i'd like to

1055
00:38:02,069 --> 00:37:59,599
get into a little bit of tech talk if

1056
00:38:02,790 --> 00:38:02,079
you don't mind and let chris and alexa

1057
00:38:07,030 --> 00:38:02,800
take

1058
00:38:10,150 --> 00:38:07,040
so for a first milestone

1059
00:38:12,470 --> 00:38:10,160
um let's talk about what in terms of

1060
00:38:13,589 --> 00:38:12,480
what you're going to deploy in terms of

1061
00:38:15,349 --> 00:38:13,599
research

1062
00:38:16,790 --> 00:38:15,359
and then you can even give me a second

1063
00:38:18,630 --> 00:38:16,800

milestone but let's start off with

1064

00:38:19,430 --> 00:38:18,640

milestone one what would that look like

1065

00:38:23,510 --> 00:38:19,440

that

1066

00:38:25,589 --> 00:38:23,520

deploy you're going to deploy rather

1067

00:38:27,190 --> 00:38:25,599

so i'd say the first milestone will be

1068

00:38:29,430 --> 00:38:27,200

in september

1069

00:38:30,150 --> 00:38:29,440

it was originally going to be july but i

1070

00:38:32,150 --> 00:38:30,160

think

1071

00:38:33,990 --> 00:38:32,160

based on european

1072

00:38:36,790 --> 00:38:34,000

schedules and everything um we go in

1073

00:38:39,190 --> 00:38:36,800

september so still third quarter

1074

00:38:41,670 --> 00:38:39,200

will be our next launch and so that'll

1075

00:38:43,910 --> 00:38:41,680

basically be alexei will be running

1076

00:38:44,829 --> 00:38:43,920

point in vernal

1077

00:38:47,270 --> 00:38:44,839

with

1078

00:38:48,550 --> 00:38:47,280

reigns backing him up this time he's

1079

00:38:49,829 --> 00:38:48,560

really good at reading checklists and

1080

00:38:51,270 --> 00:38:49,839

doing all that sort of stuff so i think

1081

00:38:52,790 --> 00:38:51,280

it'd be a great team

1082

00:38:55,109 --> 00:38:52,800

working with jim

1083

00:38:58,069 --> 00:38:55,119

and integrating their device jim's

1084

00:39:00,230 --> 00:38:58,079

device essentially if we can into some

1085

00:39:02,230 --> 00:39:00,240

sort of balloon device to go over either

1086

00:39:03,829 --> 00:39:02,240

at least brian fog ranch

1087

00:39:06,069 --> 00:39:03,839

and if they want to participate as well

1088

00:39:07,910 --> 00:39:06,079

then skim marker ranch well let's talk

1089

00:39:09,910 --> 00:39:07,920

about the device because i'm unfamiliar

1090

00:39:12,230 --> 00:39:09,920

i'm a tech guy there's probably some

1091

00:39:13,910 --> 00:39:12,240

other nerds out there like me so let's

1092

00:39:16,550 --> 00:39:13,920

talk about what that device is and what

1093

00:39:18,630 --> 00:39:16,560

it what it is able to what kind of

1094

00:39:20,470 --> 00:39:18,640

information table to gather

1095

00:39:23,190 --> 00:39:20,480

yeah he had it he brought it to the

1096

00:39:24,790 --> 00:39:23,200

megacon disclosure symposium

1097

00:39:26,950 --> 00:39:24,800

and basically it looks like it's

1098

00:39:29,030 --> 00:39:26,960

basically a raspberry pi from what i

1099

00:39:32,310 --> 00:39:29,040

understand raspberry pi with some other

1100

00:39:34,550 --> 00:39:32,320

uh detectors mounted onto it

1101

00:39:36,069 --> 00:39:34,560

why not blueberry because like i'm not a

1102

00:39:38,069 --> 00:39:36,079

raspberry fan

1103

00:39:39,190 --> 00:39:38,079

yeah you speak to watch i don't know

1104

00:39:40,470 --> 00:39:39,200

actually i haven't really messed with

1105

00:39:42,230 --> 00:39:40,480

the device too much you know i've just

1106

00:39:44,310 --> 00:39:42,240

seen it seen the data coming out of it

1107

00:39:45,829 --> 00:39:44,320

alexa i know you're getting we've just

1108

00:39:47,750 --> 00:39:45,839

talked about getting two of these right

1109

00:39:49,589 --> 00:39:47,760

with funds received so we let's talk

1110

00:39:51,910 --> 00:39:49,599

about funds you know so we need funding

1111

00:39:53,589 --> 00:39:51,920

to do this stuff so wait i want to talk

1112

00:39:55,670 --> 00:39:53,599

tech and you want to talk yes i want to

1113

00:39:58,150 --> 00:39:55,680

talk about the device we're gonna buy

1114

00:40:00,069 --> 00:39:58,160

these two devices right at least uh from

1115

00:40:02,310 --> 00:40:00,079

jim because he's gonna put them together

1116

00:40:03,910 --> 00:40:02,320

send them to alexei and now he can start

1117

00:40:05,349 --> 00:40:03,920

playing with them and seeing how he can

1118

00:40:08,230 --> 00:40:05,359

integrate it

1119

00:40:09,510 --> 00:40:08,240

into a aerial device

1120

00:40:10,390 --> 00:40:09,520

because that's what we kind of learned

1121

00:40:12,630 --> 00:40:10,400

is that

1122

00:40:14,550 --> 00:40:12,640

yeah the the power supply essentially

1123

00:40:15,510 --> 00:40:14,560

cut and if you watch the video okay it

1124

00:40:18,230 --> 00:40:15,520

could be

1125

00:40:19,829 --> 00:40:18,240

the spike you know and but it also when

1126
00:40:22,069 --> 00:40:19,839
when we launched it there was a jerk

1127
00:40:23,510 --> 00:40:22,079
right the wind was blowing pretty hard

1128
00:40:24,870 --> 00:40:23,520
if you watch the actual live video it's

1129
00:40:27,670 --> 00:40:24,880
blowing really hard

1130
00:40:29,430 --> 00:40:27,680
and there was a jerk at of the payload

1131
00:40:31,510 --> 00:40:29,440
so i don't know maybe if that there was

1132
00:40:32,870 --> 00:40:31,520
enough g's in there to like knock the

1133
00:40:34,390 --> 00:40:32,880
some something loose and that's what

1134
00:40:36,710 --> 00:40:34,400
disconnected it

1135
00:40:38,630 --> 00:40:36,720
um so we want to do it again and and

1136
00:40:39,910 --> 00:40:38,640
that alone will be a test for is it

1137
00:40:41,990 --> 00:40:39,920
going to work

1138
00:40:43,589 --> 00:40:42,000

uh and then the device so alexa what do

1139

00:40:46,230 --> 00:40:43,599

you know about jim's device tell me

1140

00:40:48,470 --> 00:40:46,240

about it 500 megahertz to six gigahertz

1141

00:40:50,390 --> 00:40:48,480

gamma microwave but that's it

1142

00:40:53,510 --> 00:40:50,400

basically um he's you know originally

1143

00:40:55,990 --> 00:40:53,520

designed it for skinwalker ranch and um

1144

00:40:57,670 --> 00:40:56,000

the tv show and so it measures fluctuate

1145

00:40:59,589 --> 00:40:57,680

it measures background radiation and

1146

00:41:00,550 --> 00:40:59,599

microwave all the way to gamma

1147

00:41:02,710 --> 00:41:00,560

um

1148

00:41:05,109 --> 00:41:02,720

and it it just basically measures like

1149

00:41:06,950 --> 00:41:05,119

the standing background normal

1150

00:41:09,109 --> 00:41:06,960

fluctuations right

1151

00:41:11,349 --> 00:41:09,119

and so what's not typical is seeing

1152

00:41:13,589 --> 00:41:11,359

spikes in microwave or seeing spikes in

1153

00:41:15,990 --> 00:41:13,599

any of them really and so what he's been

1154

00:41:18,950 --> 00:41:16,000

measuring are the spikes that he finds

1155

00:41:20,230 --> 00:41:18,960

associated with the uap events

1156

00:41:22,309 --> 00:41:20,240

and what he's also done with that

1157

00:41:24,550 --> 00:41:22,319

technology is given it to a handful of

1158

00:41:25,990 --> 00:41:24,560

experiencers so these people will take

1159

00:41:27,990 --> 00:41:26,000

them home with them

1160

00:41:29,589 --> 00:41:28,000

and then they'll have a reading of their

1161

00:41:31,109 --> 00:41:29,599

background noises and they notice a

1162

00:41:33,190 --> 00:41:31,119

spike will go up

1163

00:41:35,190 --> 00:41:33,200

now the person becomes agitated and they

1164

00:41:37,750 --> 00:41:35,200

act agitated for the rest of the day

1165

00:41:39,349 --> 00:41:37,760

maybe maybe six hours eight hours then

1166

00:41:41,109 --> 00:41:39,359

another spike happens

1167

00:41:43,349 --> 00:41:41,119

and the agitation goes away person is

1168

00:41:45,270 --> 00:41:43,359

like back to normal wow

1169

00:41:47,430 --> 00:41:45,280

yeah i know it's pretty profound data

1170

00:41:49,030 --> 00:41:47,440

when you think about how

1171

00:41:51,750 --> 00:41:49,040

it could be working and what could be

1172

00:41:53,190 --> 00:41:51,760

happening um and so i think that also to

1173

00:41:55,430 --> 00:41:53,200

go along with those balloons will

1174

00:41:57,190 --> 00:41:55,440

eventually be getting those devices out

1175

00:41:59,190 --> 00:41:57,200

to experiencers

1176

00:42:00,870 --> 00:41:59,200

um because it just seems like a really

1177

00:42:03,190 --> 00:42:00,880

handy piece of equipment kind of a

1178

00:42:05,670 --> 00:42:03,200

general use equipment that can be put on

1179

00:42:07,270 --> 00:42:05,680

balloons can be put underground can be

1180

00:42:08,790 --> 00:42:07,280

put in someone's pocket

1181

00:42:10,470 --> 00:42:08,800

um and the main thing is that it just

1182

00:42:12,309 --> 00:42:10,480

has the battery supply because it has an

1183

00:42:13,750 --> 00:42:12,319

onboard computer that's always recording

1184

00:42:15,109 --> 00:42:13,760

the data

1185

00:42:16,870 --> 00:42:15,119

and then you plug it into a computer

1186

00:42:19,270 --> 00:42:16,880

later and you you know extract all the

1187

00:42:20,870 --> 00:42:19,280

data and that's where jim has you know

1188

00:42:22,630 --> 00:42:20,880

set up programs to where he's comparing

1189

00:42:25,109 --> 00:42:22,640

them all he can track them all

1190

00:42:27,190 --> 00:42:25,119

and um i feel like that to go along with

1191

00:42:30,550 --> 00:42:27,200

sky 360 is going to be something in the

1192

00:42:31,910 --> 00:42:30,560

future that will be distributed as well

1193

00:42:33,750 --> 00:42:31,920

but we have to see where how the

1194

00:42:35,910 --> 00:42:33,760

proposals go and how people react to the

1195

00:42:37,750 --> 00:42:35,920

information so what altitude are you

1196

00:42:39,349 --> 00:42:37,760

thinking the are you planning on these

1197

00:42:41,030 --> 00:42:39,359

balloons going to

1198

00:42:41,990 --> 00:42:41,040

and the second part of the question

1199

00:42:43,990 --> 00:42:42,000

would be

1200

00:42:45,990 --> 00:42:44,000

in that i i'm sure jim has probably

1201
00:42:47,750 --> 00:42:46,000
figured out in this spectrum if

1202
00:42:49,589 --> 00:42:47,760
something appears it's anomalous that

1203
00:42:51,270 --> 00:42:49,599
there's nothing natural

1204
00:42:53,030 --> 00:42:51,280
uh that we know of in

1205
00:42:54,470 --> 00:42:53,040
in terms of atmospherics it's in that

1206
00:42:56,069 --> 00:42:54,480
spectrum is that

1207
00:42:58,630 --> 00:42:56,079
that that's exactly the point is that

1208
00:43:01,910 --> 00:42:58,640
there shouldn't be any anomalous spikes

1209
00:43:04,150 --> 00:43:01,920
happening right like and but by by

1210
00:43:05,670 --> 00:43:04,160
correlating those spikes with events

1211
00:43:07,109 --> 00:43:05,680
whether the event is some type of light

1212
00:43:08,230 --> 00:43:07,119
in the sky or some type of conscious

1213
00:43:10,150 --> 00:43:08,240

experience

1214

00:43:11,910 --> 00:43:10,160

that's an important thing to do okay

1215

00:43:13,750 --> 00:43:11,920

right cool then you can get those

1216

00:43:15,190 --> 00:43:13,760

correlations you can you can actually

1217

00:43:16,870 --> 00:43:15,200

start to do some

1218

00:43:18,950 --> 00:43:16,880

some analysis there with those type with

1219

00:43:21,910 --> 00:43:18,960

that type of information what altitude

1220

00:43:25,109 --> 00:43:21,920

are we thinking that there are

1221

00:43:27,109 --> 00:43:25,119

max altitudes roughly 120 000 feet

1222

00:43:28,950 --> 00:43:27,119

and how do you retrieve it at that point

1223

00:43:30,069 --> 00:43:28,960

do you how do you retrieve it back to

1224

00:43:31,829 --> 00:43:30,079

earth

1225

00:43:33,190 --> 00:43:31,839

basically you put a couple different gps

1226

00:43:35,030 --> 00:43:33,200

trackers on it we had three different

1227

00:43:35,910 --> 00:43:35,040

gps tracking systems on that first

1228

00:43:38,150 --> 00:43:35,920

balloon

1229

00:43:41,190 --> 00:43:38,160

and two of them failed so

1230

00:43:42,470 --> 00:43:41,200

it's important to have backups um i

1231

00:43:44,069 --> 00:43:42,480

believe chris calls it what it's a

1232

00:43:45,430 --> 00:43:44,079

double tapping or

1233

00:43:47,670 --> 00:43:45,440

uh

1234

00:43:49,829 --> 00:43:47,680

that way you know if one system fails

1235

00:43:51,910 --> 00:43:49,839

you you still have your backup to get it

1236

00:43:54,470 --> 00:43:51,920

you know yeah chris is back at the range

1237

00:43:55,829 --> 00:43:54,480

with his m9 all right let me pass it to

1238

00:43:57,670 --> 00:43:55,839

kevin

1239

00:43:59,589 --> 00:43:57,680

i'll have one more no

1240

00:44:02,470 --> 00:43:59,599

yes sir yes sir jim had some other

1241

00:44:04,069 --> 00:44:02,480

things as well he he talked about a i i

1242

00:44:06,150 --> 00:44:04,079

hadn't heard of this maybe you heard of

1243

00:44:08,390 --> 00:44:06,160

it nathan is a

1244

00:44:10,630 --> 00:44:08,400

gravity detector

1245

00:44:12,390 --> 00:44:10,640

so basically he said gravity always

1246

00:44:13,430 --> 00:44:12,400

points you know

1247

00:44:15,190 --> 00:44:13,440

like this

1248

00:44:17,430 --> 00:44:15,200

but he said every once in a while you

1249

00:44:19,910 --> 00:44:17,440

get a little tweak

1250

00:44:21,670 --> 00:44:19,920

or something like this

1251

00:44:23,750 --> 00:44:21,680

which i've never heard of an actual

1252

00:44:25,270 --> 00:44:23,760

change in the

1253

00:44:26,390 --> 00:44:25,280

the gravity field

1254

00:44:28,069 --> 00:44:26,400

that was really interesting to me

1255

00:44:29,990 --> 00:44:28,079

another thing would be cool

1256

00:44:33,510 --> 00:44:30,000

i've i need to track it down we talked

1257

00:44:35,990 --> 00:44:33,520

about in twitter space is cosmic clocks

1258

00:44:38,230 --> 00:44:36,000

have you heard of those i think so yeah

1259

00:44:40,950 --> 00:44:38,240

yeah i need to track it down and then uh

1260

00:44:43,109 --> 00:44:40,960

quantum rng so quantum random number

1261

00:44:44,470 --> 00:44:43,119

generators i thought a cosmic clock was

1262

00:44:47,030 --> 00:44:44,480

a quantum

1263

00:44:48,870 --> 00:44:47,040

rng but i don't know

1264

00:44:50,390 --> 00:44:48,880

i think just cheap ways we can add it

1265

00:44:51,190 --> 00:44:50,400

into one package

1266

00:44:53,750 --> 00:44:51,200

right

1267

00:44:55,670 --> 00:44:53,760

uh and then add it on to the sky 360. so

1268

00:44:57,910 --> 00:44:55,680

that that would kind of be the the home

1269

00:45:01,270 --> 00:44:57,920

run for me is that we're able to

1270

00:45:02,950 --> 00:45:01,280

integrate this smoopass device from jim

1271

00:45:05,430 --> 00:45:02,960

because he's open source that's awesome

1272

00:45:07,190 --> 00:45:05,440

like jim doesn't care about him making a

1273

00:45:08,870 --> 00:45:07,200

product and making a bunch of money so

1274

00:45:11,589 --> 00:45:08,880

he's happy we can use it

1275

00:45:14,230 --> 00:45:11,599

so we can just put that design as like

1276

00:45:16,069 --> 00:45:14,240

the top end part of the sky 360.

1277

00:45:19,510 --> 00:45:16,079

and so people can just add that in as

1278

00:45:22,550 --> 00:45:19,520

like the passive uh emf detector

1279

00:45:24,470 --> 00:45:22,560

slash gravity detector slash

1280

00:45:26,470 --> 00:45:24,480

i don't know cosmic clock

1281

00:45:28,710 --> 00:45:26,480

uh but yeah to add in more stuff you

1282

00:45:30,150 --> 00:45:28,720

know i don't want to complicate sky 360

1283

00:45:32,550 --> 00:45:30,160

you know i want them focusing just on

1284

00:45:33,670 --> 00:45:32,560

the ai solution with this with the

1285

00:45:35,510 --> 00:45:33,680

optical

1286

00:45:37,829 --> 00:45:35,520

yeah i i think i've i've heard of that

1287

00:45:39,670 --> 00:45:37,839

device when they were in another venture

1288

00:45:41,589 --> 00:45:39,680

but i i also i want to say something i

1289

00:45:44,550 --> 00:45:41,599

don't know if the rest of the the cast

1290

00:45:46,790 --> 00:45:44,560

will amen on this but if you've not if

1291

00:45:49,829 --> 00:45:46,800

you're not familiar with david mason

1292

00:45:51,829 --> 00:45:49,839

dave mason who was on our previous show

1293

00:45:52,950 --> 00:45:51,839

that we did and he was on that a tear in

1294

00:45:55,109 --> 00:45:52,960

the sky

1295

00:45:57,430 --> 00:45:55,119

and i think alexi also might be

1296

00:46:00,309 --> 00:45:57,440

intrigued with all the equipment that

1297

00:46:01,510 --> 00:46:00,319

he's designed he actually spoke to us

1298

00:46:04,150 --> 00:46:01,520

this is gonna sound a little bit

1299

00:46:07,750 --> 00:46:04,160

outlandish so forgive me about

1300

00:46:09,829 --> 00:46:07,760

sending up uh light waves so basically

1301
00:46:12,950 --> 00:46:09,839
sound waves of whales that have been

1302
00:46:14,710 --> 00:46:12,960
converted into light waves that he can

1303
00:46:16,790 --> 00:46:14,720
then commute that's just one of the

1304
00:46:19,510 --> 00:46:16,800
things he's doing but if you've seen a

1305
00:46:21,990 --> 00:46:19,520
tear in the sky all that equipment this

1306
00:46:24,470 --> 00:46:22,000
guy's designed and he may be he said he

1307
00:46:26,150 --> 00:46:24,480
told us he's a free agent right nathan

1308
00:46:28,390 --> 00:46:26,160
yeah i think he's definitely open to

1309
00:46:29,750 --> 00:46:28,400
talking to folks and sharing some ideas

1310
00:46:31,990 --> 00:46:29,760
there but he's he's been doing this

1311
00:46:33,270 --> 00:46:32,000
stuff for i think since he was like 13 i

1312
00:46:35,349 --> 00:46:33,280
mean for

1313
00:46:37,190 --> 00:46:35,359

many many years he'd be a smart guy with

1314

00:46:38,390 --> 00:46:37,200

some good ideas but i just love that i

1315

00:46:40,230 --> 00:46:38,400

just love the court concept right

1316

00:46:42,230 --> 00:46:40,240

because what we're trying to propose

1317

00:46:44,309 --> 00:46:42,240

here is that people can literally be

1318

00:46:46,710 --> 00:46:44,319

investors into their own little data

1319

00:46:48,230 --> 00:46:46,720

collection systems and we can position

1320

00:46:50,710 --> 00:46:48,240

these nodes

1321

00:46:51,589 --> 00:46:50,720

really in hotspot areas where we know

1322

00:46:54,309 --> 00:46:51,599

there's

1323

00:46:55,829 --> 00:46:54,319

seemingly a lot of activity but also

1324

00:46:58,630 --> 00:46:55,839

the kind of longer term goal would be to

1325

00:47:00,710 --> 00:46:58,640

distribute them just more broadly around

1326

00:47:02,390 --> 00:47:00,720

the world and then you're collating all

1327

00:47:04,390 --> 00:47:02,400

that information to look for these

1328

00:47:06,150 --> 00:47:04,400

little kind of data

1329

00:47:07,750 --> 00:47:06,160

perturbations and

1330

00:47:10,150 --> 00:47:07,760

you know then you're making some and

1331

00:47:12,390 --> 00:47:10,160

doing some analysis with that how do you

1332

00:47:13,589 --> 00:47:12,400

on the analysis component of it because

1333

00:47:15,750 --> 00:47:13,599

i think you're going to be drowning in a

1334

00:47:17,190 --> 00:47:15,760

lot of information how do you go about

1335

00:47:18,790 --> 00:47:17,200

really

1336

00:47:20,230 --> 00:47:18,800

making sense of that

1337

00:47:22,790 --> 00:47:20,240

yeah i would say that's part of the

1338

00:47:24,710 --> 00:47:22,800

milestone so i mentioned um

1339

00:47:27,270 --> 00:47:24,720

vernal right so alexei is basically lead

1340

00:47:28,230 --> 00:47:27,280

that charge with the with reigns or

1341

00:47:31,270 --> 00:47:28,240

murphy

1342

00:47:33,349 --> 00:47:31,280

and then in sky 360

1343

00:47:35,829 --> 00:47:33,359

uh so basically that's the germany

1344

00:47:39,109 --> 00:47:35,839

effort and so that really focusing on

1345

00:47:41,349 --> 00:47:39,119

the optical development of sky 360. so

1346

00:47:42,069 --> 00:47:41,359

really just getting them the resources

1347

00:47:44,549 --> 00:47:42,079

they

1348

00:47:46,309 --> 00:47:44,559

need the time really the the personnel

1349

00:47:47,510 --> 00:47:46,319

time they really need the engineers to

1350

00:47:49,829 --> 00:47:47,520

work on it

1351
00:47:51,910 --> 00:47:49,839
you know and so if we can get reasonable

1352
00:47:53,349 --> 00:47:51,920
funding from this first drop then we can

1353
00:47:54,309 --> 00:47:53,359
for the next quarter we can probably

1354
00:47:57,510 --> 00:47:54,319
just

1355
00:47:59,270 --> 00:47:57,520
work

1356
00:48:00,309 --> 00:47:59,280
you know that they're probably not up

1357
00:48:01,510 --> 00:48:00,319
you know i don't think we'll have to pay

1358
00:48:03,589 --> 00:48:01,520
them some ridiculous amount you know

1359
00:48:05,109 --> 00:48:03,599
just pay them their freelance

1360
00:48:08,150 --> 00:48:05,119
wages

1361
00:48:10,470 --> 00:48:08,160
and really to get the camera

1362
00:48:12,150 --> 00:48:10,480
solid so the actual fish eye so make

1363
00:48:14,309 --> 00:48:12,160

sure the hardware works you know make

1364

00:48:16,470 --> 00:48:14,319

sure we can get some decent software

1365

00:48:18,390 --> 00:48:16,480

uh written you know and maybe get that

1366

00:48:20,230 --> 00:48:18,400

ai overlay started

1367

00:48:23,270 --> 00:48:20,240

you know that process built through and

1368

00:48:24,630 --> 00:48:23,280

then for them to put up a good system so

1369

00:48:27,589 --> 00:48:24,640

they're going to design like a

1370

00:48:29,589 --> 00:48:27,599

weatherproof payload that we can send up

1371

00:48:31,750 --> 00:48:29,599

with decent cameras and then if we can

1372

00:48:33,430 --> 00:48:31,760

send up two of those now

1373

00:48:35,829 --> 00:48:33,440

uh i think that'd be awesome if we just

1374

00:48:37,589 --> 00:48:35,839

release the balloons at the same time or

1375

00:48:40,230 --> 00:48:37,599

around the same time i think one of them

1376

00:48:42,470 --> 00:48:40,240

will be in enough view of the other

1377

00:48:43,510 --> 00:48:42,480

uh if we can also get a sky 360 on the

1378

00:48:45,670 --> 00:48:43,520

ground

1379

00:48:47,750 --> 00:48:45,680

now we'll have three kind of cameras i

1380

00:48:49,349 --> 00:48:47,760

think it'd be sweet because i think

1381

00:48:51,510 --> 00:48:49,359

logan mentioned that we are we we

1382

00:48:54,470 --> 00:48:51,520

already captured uap in the first

1383

00:48:57,349 --> 00:48:54,480

uh one of the first uh videos um but the

1384

00:48:59,829 --> 00:48:57,359

data the video data is up on our uap

1385

00:49:01,750 --> 00:48:59,839

society youtube so the video data from

1386

00:49:03,030 --> 00:49:01,760

vernal that we do have right so the one

1387

00:49:05,190 --> 00:49:03,040

of the garmin's

1388

00:49:07,670 --> 00:49:05,200

the the the look up worked

1389

00:49:10,150 --> 00:49:07,680

and what that video worked and then my

1390

00:49:11,829 --> 00:49:10,160

garmin looking out worked for 27 minutes

1391

00:49:13,510 --> 00:49:11,839

i don't know why it went off which is

1392

00:49:16,390 --> 00:49:13,520

frustrating

1393

00:49:18,390 --> 00:49:16,400

uh that's up as well as the other video

1394

00:49:19,910 --> 00:49:18,400

from germany the full video which is

1395

00:49:21,190 --> 00:49:19,920

awesome by the way i mean that's super

1396

00:49:24,150 --> 00:49:21,200

cool if you haven't seen that it's at

1397

00:49:25,670 --> 00:49:24,160

night and there is like there is a uap

1398

00:49:27,750 --> 00:49:25,680

in there

1399

00:49:29,589 --> 00:49:27,760

so that's the main data so that's one

1400

00:49:31,750 --> 00:49:29,599

the second probably

1401
00:49:34,230 --> 00:49:31,760
kind of so we got vernal germany for the

1402
00:49:35,910 --> 00:49:34,240
sky 360. and then the third one the

1403
00:49:38,549 --> 00:49:35,920
milestone i think we need to really need

1404
00:49:40,150 --> 00:49:38,559
to handle right now is the process that

1405
00:49:41,670 --> 00:49:40,160
that you kind of talk through so there's

1406
00:49:43,430 --> 00:49:41,680
gonna be so much data

1407
00:49:44,630 --> 00:49:43,440
you know or how do you analyze all this

1408
00:49:46,710 --> 00:49:44,640
stuff you know how do you take a

1409
00:49:48,630 --> 00:49:46,720
decentralized organization and get

1410
00:49:50,710 --> 00:49:48,640
anything useful out of it

1411
00:49:51,910 --> 00:49:50,720
so i think that's the process we need

1412
00:49:53,109 --> 00:49:51,920
is to figure out what we're going to

1413
00:49:54,790 --> 00:49:53,119

propose we kind of talked through that

1414

00:49:56,390 --> 00:49:54,800

before we need people talking on there

1415

00:49:58,390 --> 00:49:56,400

you know interested people come up with

1416

00:50:00,470 --> 00:49:58,400

ideas putting out proposals that don't

1417

00:50:02,069 --> 00:50:00,480

suck right

1418

00:50:04,069 --> 00:50:02,079

some sort of voting mechanism you

1419

00:50:06,150 --> 00:50:04,079

mentioned it you can just

1420

00:50:08,309 --> 00:50:06,160

the technical part is we can verify if

1421

00:50:10,790 --> 00:50:08,319

you own the nft if you own an nft if

1422

00:50:12,710 --> 00:50:10,800

you're a holder now you can verify on

1423

00:50:15,109 --> 00:50:12,720

our discord and you get access to our

1424

00:50:17,750 --> 00:50:15,119

secret channel essentially that nathan

1425

00:50:19,750 --> 00:50:17,760

and i know nathan's been there

1426

00:50:21,670 --> 00:50:19,760

and so now when you vote you can you can

1427

00:50:23,510 --> 00:50:21,680

only get there if you have been verified

1428

00:50:25,109 --> 00:50:23,520

through nft technology

1429

00:50:26,870 --> 00:50:25,119

and now you can vote

1430

00:50:28,870 --> 00:50:26,880

so from there that's how we'll we'll

1431

00:50:31,430 --> 00:50:28,880

pick the science that's how we'll do the

1432

00:50:33,750 --> 00:50:31,440

science right up until now will be us

1433

00:50:35,510 --> 00:50:33,760

right as uap society until we get that

1434

00:50:37,750 --> 00:50:35,520

proposal worked out

1435

00:50:39,430 --> 00:50:37,760

so in the future i see that like nathan

1436

00:50:42,230 --> 00:50:39,440

you want to put a sky 360 in your

1437

00:50:44,309 --> 00:50:42,240

backyard and you live in an area that's

1438

00:50:45,750 --> 00:50:44,319

near a uap hot spot and we need another

1439

00:50:47,510 --> 00:50:45,760

one there

1440

00:50:49,349 --> 00:50:47,520

you put in a proposal

1441

00:50:50,950 --> 00:50:49,359

let's say you'll do it for six thousand

1442

00:50:53,190 --> 00:50:50,960

dollars right five thousand in parts and

1443

00:50:56,470 --> 00:50:53,200

another thousand for your time

1444

00:50:58,069 --> 00:50:56,480

um then we would send you the eth

1445

00:51:00,790 --> 00:50:58,079

and then you would go and do it that's

1446

00:51:02,549 --> 00:51:00,800

the the goal right the end goal

1447

00:51:04,230 --> 00:51:02,559

um to get to there but that process now

1448

00:51:05,750 --> 00:51:04,240

is what we need to build now so now we

1449

00:51:09,190 --> 00:51:05,760

get the data

1450

00:51:10,950 --> 00:51:09,200

we're putting it up on uap society

1451
00:51:12,549 --> 00:51:10,960
youtube so we're just putting it up on

1452
00:51:14,710 --> 00:51:12,559
youtube and the discord so now we're

1453
00:51:16,230 --> 00:51:14,720
just like here's the data

1454
00:51:18,470 --> 00:51:16,240
but then we do need someone to actually

1455
00:51:20,470 --> 00:51:18,480
research it so what we're doing is

1456
00:51:22,710 --> 00:51:20,480
we offered a giveaway so anyone that

1457
00:51:24,390 --> 00:51:22,720
finds valuable science out of it

1458
00:51:25,750 --> 00:51:24,400
we will give you an nft so basically

1459
00:51:27,589 --> 00:51:25,760
we're paying we're kind of like poor

1460
00:51:29,910 --> 00:51:27,599
man's paying people

1461
00:51:31,750 --> 00:51:29,920
uh right now to go and do some analysis

1462
00:51:33,430 --> 00:51:31,760
or make it exciting but at the end of

1463
00:51:34,829 --> 00:51:33,440

the day we need a process and i think it

1464

00:51:36,230 --> 00:51:34,839

needs to go to

1465

00:51:38,870 --> 00:51:36,240

a uh

1466

00:51:40,309 --> 00:51:38,880

a database so a blockchain database to

1467

00:51:43,109 --> 00:51:40,319

store all this stuff and then we need

1468

00:51:45,270 --> 00:51:43,119

some some research teams looking at it

1469

00:51:46,630 --> 00:51:45,280

nice long long hopefully that was

1470

00:51:48,390 --> 00:51:46,640

excellent thank you

1471

00:51:50,470 --> 00:51:48,400

yeah also i want to say to the the

1472

00:51:52,309 --> 00:51:50,480

audience out there that's listening uh

1473

00:51:54,790 --> 00:51:52,319

it it can be a little bit of a challenge

1474

00:51:56,790 --> 00:51:54,800

getting on discord i tried to join chris

1475

00:52:00,230 --> 00:51:56,800

on friday i was not able to get up on

1476
00:52:01,750 --> 00:52:00,240
there but i'm gonna seek out counsel and

1477
00:52:03,589 --> 00:52:01,760
try to get on there otherwise i'll just

1478
00:52:07,109 --> 00:52:03,599
unfriend chris i'm just kidding i won't

1479
00:52:10,390 --> 00:52:08,470
that's right that's where you laugh

1480
00:52:11,910 --> 00:52:10,400
chris come on work with me tip your

1481
00:52:13,589 --> 00:52:11,920
bartenders away

1482
00:52:15,270 --> 00:52:13,599
discord yeah i don't know why people are

1483
00:52:16,470 --> 00:52:15,280
having issues it was the it was the

1484
00:52:20,069 --> 00:52:16,480
captcha

1485
00:52:21,589 --> 00:52:20,079
wouldn't send the text to my phone and

1486
00:52:23,349 --> 00:52:21,599
because it didn't send a text to my

1487
00:52:24,950 --> 00:52:23,359
phone i couldn't resolve the capture but

1488
00:52:26,630 --> 00:52:24,960

anyway you're not the only one lara

1489

00:52:29,430 --> 00:52:26,640

we'll get that figured out and let's go

1490

00:52:31,190 --> 00:52:29,440

with we have kevin deb and steph that

1491

00:52:34,630 --> 00:52:31,200

got to get in here so i'm gonna shut my

1492

00:52:38,549 --> 00:52:36,870

all right well i was just wondering once

1493

00:52:41,030 --> 00:52:38,559

you have all these

1494

00:52:42,950 --> 00:52:41,040

everything set up i mean um

1495

00:52:44,549 --> 00:52:42,960

at some point you're gonna you're gonna

1496

00:52:47,349 --> 00:52:44,559

you're gonna get uh capture some

1497

00:52:49,030 --> 00:52:47,359

sensitive material you know i mean

1498

00:52:50,870 --> 00:52:49,040

what's going to happen

1499

00:52:52,710 --> 00:52:50,880

if that in that case am i going to have

1500

00:52:55,670 --> 00:52:52,720

will smith knocking on my door you know

1501
00:52:57,750 --> 00:52:55,680
with his you know smile you know is that

1502
00:52:59,349 --> 00:52:57,760
going to happen to me

1503
00:53:00,710 --> 00:52:59,359
i don't well

1504
00:53:02,549 --> 00:53:00,720
i guess why would they knock on your

1505
00:53:04,309 --> 00:53:02,559
door i guess

1506
00:53:05,670 --> 00:53:04,319
i don't know what to say

1507
00:53:08,390 --> 00:53:05,680
if i you know well yeah are they going

1508
00:53:12,150 --> 00:53:09,829
i don't know i mean

1509
00:53:14,470 --> 00:53:12,160
i think we'll only have issues if we put

1510
00:53:16,390 --> 00:53:14,480
our camera systems in

1511
00:53:17,190 --> 00:53:16,400
sensitive locations

1512
00:53:19,430 --> 00:53:17,200
okay

1513
00:53:20,230 --> 00:53:19,440

you know if we put it in your backyard

1514

00:53:21,510 --> 00:53:20,240

and

1515

00:53:23,349 --> 00:53:21,520

it's

1516

00:53:24,790 --> 00:53:23,359

you're not pointing your camera right

1517

00:53:28,390 --> 00:53:24,800

into a

1518

00:53:29,349 --> 00:53:28,400

you know area 50 51 or whatever uh if

1519

00:53:31,670 --> 00:53:29,359

it's

1520

00:53:33,670 --> 00:53:31,680

i don't see how they can stop us from

1521

00:53:34,470 --> 00:53:33,680

from looking up

1522

00:53:37,190 --> 00:53:34,480

cool

1523

00:53:38,950 --> 00:53:37,200

can you uh publish that data though if

1524

00:53:45,829 --> 00:53:38,960

it is yeah well the way is just to

1525

00:53:49,910 --> 00:53:48,150

can i reframe what kevin said i think

1526

00:53:52,150 --> 00:53:49,920

what he's talking about let's say that

1527

00:53:54,150 --> 00:53:52,160

that kevin's able to capture something

1528

00:53:56,549 --> 00:53:54,160

on a system that he got from you and he

1529

00:53:58,870 --> 00:53:56,559

captures it and he puts it on youtube

1530

00:54:00,470 --> 00:53:58,880

and then somebody sees that from the

1531

00:54:01,750 --> 00:54:00,480

three-letter agency and knocks on his

1532

00:54:03,990 --> 00:54:01,760

door that

1533

00:54:06,309 --> 00:54:04,000

there there is it is plausible at least

1534

00:54:07,990 --> 00:54:06,319

i mean i'm i'm not a conspiracy theorist

1535

00:54:09,829 --> 00:54:08,000

but it's plausible

1536

00:54:11,990 --> 00:54:09,839

yeah well

1537

00:54:14,309 --> 00:54:12,000

it wouldn't be yeah but that's not how

1538

00:54:16,950 --> 00:54:14,319

it should work you know ideally the

1539

00:54:18,069 --> 00:54:16,960

whole point of sky 360 is that

1540

00:54:20,470 --> 00:54:18,079

uh

1541

00:54:22,630 --> 00:54:20,480

the data will automatically go

1542

00:54:23,510 --> 00:54:22,640

and will automatically be

1543

00:54:24,870 --> 00:54:23,520

uh

1544

00:54:26,950 --> 00:54:24,880

published

1545

00:54:28,549 --> 00:54:26,960

open source and i'm sure this scares the

1546

00:54:30,710 --> 00:54:28,559

hell out of a lot of

1547

00:54:32,710 --> 00:54:30,720

a lot of organizations out there and my

1548

00:54:35,190 --> 00:54:32,720

my rebuttal is why

1549

00:54:36,789 --> 00:54:35,200

you know right yeah and the reason is

1550

00:54:38,549 --> 00:54:36,799

transparency right

1551

00:54:39,990 --> 00:54:38,559

yeah it's not it's not illegal they

1552

00:54:41,510 --> 00:54:40,000

can't take it from you it's not the

1553

00:54:43,109 --> 00:54:41,520

1950s

1554

00:54:44,870 --> 00:54:43,119

uh so

1555

00:54:46,309 --> 00:54:44,880

what's their what's their reason yeah

1556

00:54:48,950 --> 00:54:46,319

and that's the other reason i'm doing

1557

00:54:50,630 --> 00:54:48,960

this decentralized nft stuff because

1558

00:54:51,750 --> 00:54:50,640

your answer back

1559

00:54:54,870 --> 00:54:51,760

highlights

1560

00:54:56,580 --> 00:54:54,880

argument

1561

00:54:58,230 --> 00:54:56,590

your the the way they do it the

1562

00:55:00,150 --> 00:54:58,240

[Music]

1563

00:55:02,710 --> 00:55:00,160

there's no reasonable answer because the

1564

00:55:04,390 --> 00:55:02,720

the decentralization in open source is

1565

00:55:06,470 --> 00:55:04,400

for transparency

1566

00:55:07,750 --> 00:55:06,480

so

1567

00:55:08,470 --> 00:55:07,760

that's what they're fighting against

1568

00:55:10,230 --> 00:55:08,480

yeah they're fighting against

1569

00:55:12,870 --> 00:55:10,240

transparency yeah

1570

00:55:15,270 --> 00:55:12,880

yeah they they they coach it as

1571

00:55:19,510 --> 00:55:16,789

i'll try man

1572

00:55:21,910 --> 00:55:19,520

chris your audience does rely on you for

1573

00:55:24,069 --> 00:55:21,920

you know credible evidence and

1574

00:55:26,630 --> 00:55:24,079

this right here is just a perfect

1575

00:55:28,710 --> 00:55:26,640

example for the listeners to hear that

1576

00:55:31,270 --> 00:55:28,720

hey you're putting these programs in

1577

00:55:34,630 --> 00:55:31,280

place for people to set this equipment

1578

00:55:37,190 --> 00:55:34,640

up in their backyard if this is an area

1579

00:55:39,510 --> 00:55:37,200

that you guys need this like localized

1580

00:55:41,829 --> 00:55:39,520

area to gain more

1581

00:55:43,510 --> 00:55:41,839

information so i mean that's extremely

1582

00:55:46,069 --> 00:55:43,520

promising because you have a pretty

1583

00:55:49,190 --> 00:55:46,079

great platform and people rely on you

1584

00:55:51,670 --> 00:55:49,200

upon that you know information so i

1585

00:55:53,750 --> 00:55:51,680

applaud you guys for that um you know

1586

00:55:55,670 --> 00:55:53,760

this is very promising information here

1587

00:55:57,270 --> 00:55:55,680

so thank you for doing that that's

1588

00:55:59,270 --> 00:55:57,280

wonderful

1589

00:56:03,349 --> 00:55:59,280

yeah thanks steve yeah there's a lot of

1590

00:56:04,950 --> 00:56:03,359

pressure um yeah for sure yeah logan has

1591

00:56:06,710 --> 00:56:04,960

a question in there i think it's weird i

1592

00:56:08,470 --> 00:56:06,720

just wanted to say that that's that's

1593

00:56:10,470 --> 00:56:08,480

awesome

1594

00:56:12,470 --> 00:56:10,480

uh logan has a good question in there i

1595

00:56:16,950 --> 00:56:12,480

think it may be too early for to ask

1596

00:56:19,829 --> 00:56:16,960

this but how much does the system cost

1597

00:56:23,030 --> 00:56:19,839

the actual sky 360. so they're designing

1598

00:56:24,150 --> 00:56:23,040

it the low end one is is one thousand

1599

00:56:28,710 --> 00:56:24,160

yeah

1600

00:56:31,990 --> 00:56:28,720

three so one thousand dollars three

1601
00:56:33,270 --> 00:56:32,000
thousand and then the top end is 5 000

1602
00:56:35,990 --> 00:56:33,280
just for the hardware though you got to

1603
00:56:37,109 --> 00:56:36,000
put it together you know time and effort

1604
00:56:40,230 --> 00:56:37,119
yeah

1605
00:56:42,309 --> 00:56:40,240
basically if you're taking your bmw in

1606
00:56:43,510 --> 00:56:42,319
for service you're going to rotate tires

1607
00:56:44,870 --> 00:56:43,520
and all change you're probably at a

1608
00:56:47,030 --> 00:56:44,880
grand right there

1609
00:56:49,109 --> 00:56:47,040
so uh not that i mean well the other

1610
00:56:51,109 --> 00:56:49,119
thing is it it's difficult for one

1611
00:56:53,190 --> 00:56:51,119
person to to

1612
00:56:55,030 --> 00:56:53,200
afford that that's a big ask right i

1613
00:56:57,349 --> 00:56:55,040

mean let's say so you gotta not only do

1614

00:56:59,109 --> 00:56:57,359

you have to spend months

1615

00:57:00,549 --> 00:56:59,119

or whatever however long hopefully it

1616

00:57:01,750 --> 00:57:00,559

doesn't take months but you have to

1617

00:57:03,510 --> 00:57:01,760

spend all the time putting these things

1618

00:57:05,190 --> 00:57:03,520

together right ordering the parts

1619

00:57:06,870 --> 00:57:05,200

getting them all in

1620

00:57:08,470 --> 00:57:06,880

some of them maybe you know the supply

1621

00:57:09,589 --> 00:57:08,480

issues you've got to find other

1622

00:57:11,430 --> 00:57:09,599

other parts

1623

00:57:12,789 --> 00:57:11,440

putting them together right you also

1624

00:57:14,789 --> 00:57:12,799

have to pay

1625

00:57:15,589 --> 00:57:14,799

five thousand dollars or whatever you

1626
00:57:17,510 --> 00:57:15,599
know

1627
00:57:19,349 --> 00:57:17,520
um i think just

1628
00:57:20,950 --> 00:57:19,359
making it so that they don't also have

1629
00:57:22,950 --> 00:57:20,960
to pay

1630
00:57:25,109 --> 00:57:22,960
is a huge difference

1631
00:57:26,470 --> 00:57:25,119
you know or or the people that want to

1632
00:57:28,309 --> 00:57:26,480
pay but they don't want to put in all

1633
00:57:30,950 --> 00:57:28,319
the time you know like say that you just

1634
00:57:32,230 --> 00:57:30,960
have tons of money or you want to invest

1635
00:57:34,150 --> 00:57:32,240
right you really want to invest in this

1636
00:57:36,630 --> 00:57:34,160
or you want to support but you don't

1637
00:57:37,990 --> 00:57:36,640
have the time energy to go and put all

1638
00:57:39,990 --> 00:57:38,000

this stuff together to volunteer all

1639

00:57:41,750 --> 00:57:40,000

your sundays right which all these sky

1640

00:57:44,470 --> 00:57:41,760

360 people are doing so they can just

1641

00:57:47,190 --> 00:57:44,480

give the money you know so

1642

00:57:49,990 --> 00:57:47,200

that's why it seems like such a such a

1643

00:57:51,190 --> 00:57:50,000

simple concept yes why did i do it it's

1644

00:57:56,470 --> 00:57:51,200

not

1645

00:57:59,190 --> 00:57:56,480

you know it's more i've seen i've seen i

1646

00:58:01,109 --> 00:57:59,200

see a clear path like i see a clear

1647

00:58:03,349 --> 00:58:01,119

opportunity

1648

00:58:05,750 --> 00:58:03,359

and you know it's not guaranteed to

1649

00:58:08,150 --> 00:58:05,760

succeed by any means you know but i see

1650

00:58:10,630 --> 00:58:08,160

a path that could change can make a

1651
00:58:12,390 --> 00:58:10,640
serious serious dent

1652
00:58:14,309 --> 00:58:12,400
uh in a lot of things

1653
00:58:16,789 --> 00:58:14,319
and and so that's why i feel obli like i

1654
00:58:18,069 --> 00:58:16,799
feel like i'm required to take it like i

1655
00:58:19,990 --> 00:58:18,079
i owe it

1656
00:58:24,150 --> 00:58:20,000
to somebody i don't know who but

1657
00:58:27,910 --> 00:58:26,069
i would just imagine if an investor came

1658
00:58:29,910 --> 00:58:27,920
along and decided hey i'm gonna grant

1659
00:58:32,309 --> 00:58:29,920
you five thousand dollars to perform

1660
00:58:34,470 --> 00:58:32,319
this research that's a write-off right

1661
00:58:35,990 --> 00:58:34,480
there that's a donation so if there are

1662
00:58:37,510 --> 00:58:36,000
any philanthropists that are watching

1663
00:58:39,030 --> 00:58:37,520

this which i'm sure there will be a

1664

00:58:41,510 --> 00:58:39,040

couple along the way

1665

00:58:43,510 --> 00:58:41,520

that is a write-off so i mean you're

1666

00:58:45,430 --> 00:58:43,520

investing towards our future and finding

1667

00:58:48,390 --> 00:58:45,440

out the truth so

1668

00:58:50,150 --> 00:58:48,400

let's let's go let's do this we yeah we

1669

00:58:52,230 --> 00:58:50,160

set up for people that just don't want

1670

00:58:53,510 --> 00:58:52,240

to do crypto we set up a gofundme on our

1671

00:58:57,109 --> 00:58:53,520

website

1672

00:58:58,870 --> 00:58:57,119

um and if they if we can send them nfts

1673

00:59:00,710 --> 00:58:58,880

in return you know we we don't want to

1674

00:59:02,549 --> 00:59:00,720

be construed as like

1675

00:59:04,630 --> 00:59:02,559

an exchange right so we don't want to be

1676

00:59:06,710 --> 00:59:04,640

giving people crypto

1677

00:59:09,190 --> 00:59:06,720

but if they really can't understand it

1678

00:59:10,470 --> 00:59:09,200

and they give money we will give nfts in

1679

00:59:12,230 --> 00:59:10,480

return

1680

00:59:13,750 --> 00:59:12,240

you know as long as it doesn't put us in

1681

00:59:14,789 --> 00:59:13,760

any sort of issue with the sec or

1682

00:59:16,390 --> 00:59:14,799

something

1683

00:59:18,309 --> 00:59:16,400

that's a great idea they can always go

1684

00:59:20,549 --> 00:59:18,319

fund me and we'll do our best to try and

1685

00:59:22,870 --> 00:59:20,559

get them nfts as a receipt

1686

00:59:26,390 --> 00:59:22,880

if they really don't exactly don't want

1687

00:59:27,990 --> 00:59:26,400

to figure it out i'm like yeah i try to

1688

00:59:29,650 --> 00:59:28,000

some people won't even accept them for

1689

00:59:31,349 --> 00:59:29,660

free you know be like look i will give

1690

00:59:32,630 --> 00:59:31,359

[Laughter]

1691

00:59:37,270 --> 00:59:34,870

it won't even touch it it's like if i'm

1692

00:59:39,109 --> 00:59:37,280

like going around just like before cash

1693

00:59:41,109 --> 00:59:39,119

existed it was like here man take this

1694

00:59:43,109 --> 00:59:41,119

like i promise you will like this you

1695

00:59:45,510 --> 00:59:43,119

know here's a hundred dollars

1696

00:59:47,109 --> 00:59:45,520

here's 100 bill i promise you'll enjoy

1697

00:59:48,549 --> 00:59:47,119

this in like 10 years or something i

1698

00:59:50,309 --> 00:59:48,559

know yeah i was going to do that and

1699

00:59:52,309 --> 00:59:50,319

people were like no way man i'm not

1700

00:59:54,710 --> 00:59:52,319

touching that stuff yeah i was going to

1701

00:59:55,990 --> 00:59:54,720

send you and alexi cashing in envelopes

1702

00:59:58,870 --> 00:59:56,000

i i don't know

1703

01:00:00,950 --> 00:59:58,880

debs what do you got for either alexi

1704

01:00:03,910 --> 01:00:00,960

chris or both all these well this is

1705

01:00:05,910 --> 01:00:03,920

sort of a both question i i too am one

1706

01:00:07,910 --> 01:00:05,920

of those people that would be hesitant

1707

01:00:09,829 --> 01:00:07,920

and nervous about doing something like

1708

01:00:11,270 --> 01:00:09,839

this so my question

1709

01:00:13,510 --> 01:00:11,280

is what do you tell people who are

1710

01:00:16,150 --> 01:00:13,520

concerned about security related to

1711

01:00:19,349 --> 01:00:16,160

their money going into this

1712

01:00:21,670 --> 01:00:19,359

uh security so i guess i would say

1713

01:00:25,109 --> 01:00:21,680

it's more secure

1714

01:00:27,430 --> 01:00:25,119

if you take a few simple precautions

1715

01:00:29,030 --> 01:00:27,440

right so if if you understand the very

1716

01:00:31,030 --> 01:00:29,040

very basics

1717

01:00:33,990 --> 01:00:31,040

it's actually more secure than your

1718

01:00:35,829 --> 01:00:34,000

current your credit cards uh who have

1719

01:00:40,309 --> 01:00:35,839

probably i mean how many people just

1720

01:00:44,309 --> 01:00:42,470

yeah just on the screen right so to

1721

01:00:47,349 --> 01:00:44,319

think that our current system is secure

1722

01:00:49,430 --> 01:00:47,359

is just naive right i mean look how many

1723

01:00:50,470 --> 01:00:49,440

two out of three out of the six of us

1724

01:00:52,789 --> 01:00:50,480

have had our

1725

01:00:55,030 --> 01:00:52,799

credit cards hacked

1726
01:00:56,789 --> 01:00:55,040
so it's actually much more secure than

1727
01:00:59,190 --> 01:00:56,799
the current system but

1728
01:01:00,870 --> 01:00:59,200
if they get your recovery phrase right

1729
01:01:02,870 --> 01:01:00,880
if they get your 12

1730
01:01:04,710 --> 01:01:02,880
word secret recovery phrase you're

1731
01:01:06,789 --> 01:01:04,720
screwed right but that's the strength of

1732
01:01:09,349 --> 01:01:06,799
it because if you lose everything and

1733
01:01:11,349 --> 01:01:09,359
you have your 12 word recovery phrase

1734
01:01:13,910 --> 01:01:11,359
from anywhere on the planet

1735
01:01:15,349 --> 01:01:13,920
that you can you can access your funds

1736
01:01:16,390 --> 01:01:15,359
right so it's a

1737
01:01:18,549 --> 01:01:16,400
but if you lose that thing you're

1738
01:01:20,470 --> 01:01:18,559

totally screwed right there's no access

1739

01:01:22,309 --> 01:01:20,480

if somebody gets those 12 word that

1740

01:01:23,750 --> 01:01:22,319

secret recovery phrase you're also

1741

01:01:25,670 --> 01:01:23,760

totally screwed right they can they can

1742

01:01:28,390 --> 01:01:25,680

empty your account immediately

1743

01:01:29,510 --> 01:01:28,400

um so once you just understand that

1744

01:01:30,309 --> 01:01:29,520

basic

1745

01:01:31,910 --> 01:01:30,319

thing

1746

01:01:33,750 --> 01:01:31,920

right and

1747

01:01:36,150 --> 01:01:33,760

and really when can that happen is when

1748

01:01:38,150 --> 01:01:36,160

you interact when you take your wallet

1749

01:01:39,910 --> 01:01:38,160

your digital wallet which is like your

1750

01:01:42,549 --> 01:01:39,920

bank account and when you connect it to

1751
01:01:44,710 --> 01:01:42,559
a website right when you let it interact

1752
01:01:45,990 --> 01:01:44,720
with another website that's when you can

1753
01:01:48,069 --> 01:01:46,000
be vulnerable

1754
01:01:50,230 --> 01:01:48,079
so they trick you into interacting with

1755
01:01:51,910 --> 01:01:50,240
the wrong website

1756
01:01:53,109 --> 01:01:51,920
you know or there's there's small tricks

1757
01:01:56,069 --> 01:01:53,119
like that

1758
01:01:58,870 --> 01:01:56,079
um but the actual inherent

1759
01:02:00,789 --> 01:01:58,880
um security is is much better

1760
01:02:02,789 --> 01:02:00,799
so there there's just some basic

1761
01:02:04,630 --> 01:02:02,799
honestly it doesn't take it's not even

1762
01:02:06,950 --> 01:02:04,640
that long it's just new it's just new

1763
01:02:15,109 --> 01:02:06,960

that that's all there's just

1764

01:02:19,270 --> 01:02:17,349

that sounds as though something fell and

1765

01:02:21,910 --> 01:02:19,280

a green screen background uh my face is

1766

01:02:22,950 --> 01:02:21,920

all red okay it's okay

1767

01:02:25,589 --> 01:02:22,960

it happens

1768

01:02:28,470 --> 01:02:25,599

everybody this is my garage

1769

01:02:29,670 --> 01:02:28,480

f16 pilots they're just like us

1770

01:02:31,430 --> 01:02:29,680

we're human

1771

01:02:32,470 --> 01:02:31,440

my face is red now

1772

01:02:33,510 --> 01:02:32,480

what is that

1773

01:02:36,069 --> 01:02:33,520

this is a

1774

01:02:38,230 --> 01:02:36,079

hardware wallet cold storage

1775

01:02:40,470 --> 01:02:38,240

right

1776

01:02:42,230 --> 01:02:40,480

so i plug this in

1777

01:02:44,549 --> 01:02:42,240

whenever this is plugged in i'm like

1778

01:02:45,910 --> 01:02:44,559

sweating man i'm so nervous it's okay

1779

01:02:49,029 --> 01:02:45,920

dude we're everyone whenever this is

1780

01:02:50,789 --> 01:02:49,039

plugged in i can't uh knowing

1781

01:02:52,470 --> 01:02:50,799

when this is not plugged in no one can

1782

01:02:54,630 --> 01:02:52,480

interact with my funds

1783

01:02:56,470 --> 01:02:54,640

right you see this usb

1784

01:02:59,029 --> 01:02:56,480

this thing's got to be plugged in

1785

01:03:00,870 --> 01:02:59,039

for anyone to touch my touch my meta

1786

01:03:02,950 --> 01:03:00,880

mask

1787

01:03:04,710 --> 01:03:02,960

so i just don't plug it in right and

1788

01:03:06,309 --> 01:03:04,720

when i want to actually when i want to

1789

01:03:07,910 --> 01:03:06,319

connect right when i want to interact

1790

01:03:09,510 --> 01:03:07,920

with another website

1791

01:03:11,589 --> 01:03:09,520

then that's when i

1792

01:03:13,750 --> 01:03:11,599

basically plug this thing in and now my

1793

01:03:15,430 --> 01:03:13,760

money is being used so

1794

01:03:16,630 --> 01:03:15,440

it doesn't matter if people even have my

1795

01:03:17,910 --> 01:03:16,640

account they could have all of my

1796

01:03:19,750 --> 01:03:17,920

account information except for my

1797

01:03:20,789 --> 01:03:19,760

recovery phrase right well even that's

1798

01:03:22,069 --> 01:03:20,799

on here

1799

01:03:23,910 --> 01:03:22,079

they can have all the information but

1800

01:03:25,910 --> 01:03:23,920

they don't have this usb

1801

01:03:26,789 --> 01:03:25,920

they can't touch it

1802

01:03:28,710 --> 01:03:26,799

so

1803

01:03:30,549 --> 01:03:28,720

but but that's new right you don't know

1804

01:03:31,349 --> 01:03:30,559

this seems like crazy to you right like

1805

01:03:49,029 --> 01:03:31,359

a

1806

01:03:51,190 --> 01:03:49,039

then i pull it out now it's like

1807

01:03:53,029 --> 01:03:51,200

on this nobody can touch it if i lose

1808

01:03:54,710 --> 01:03:53,039

this i'm screwed though

1809

01:03:57,510 --> 01:03:54,720

actually take that back there's another

1810

01:03:58,950 --> 01:03:57,520

recovery phrase for this

1811

01:04:00,390 --> 01:03:58,960

so yeah it's just different it's just

1812

01:04:01,990 --> 01:04:00,400

different stuff

1813

01:04:03,190 --> 01:04:02,000

you just have to learn it

1814

01:04:04,230 --> 01:04:03,200

uh

1815

01:04:08,710 --> 01:04:04,240

yeah

1816

01:04:11,109 --> 01:04:08,720

folks like us uh

1817

01:04:12,950 --> 01:04:11,119

i think after debs did you have anything

1818

01:04:15,589 --> 01:04:12,960

further that you wanted to ask chris or

1819

01:04:17,510 --> 01:04:15,599

alexio i had the same question about the

1820

01:04:20,470 --> 01:04:17,520

money like how much this was going to

1821

01:04:23,430 --> 01:04:20,480

cost like the ideal sum and it sounds

1822

01:04:25,510 --> 01:04:23,440

like it's going to be roughly 6 000 for

1823

01:04:26,549 --> 01:04:25,520

the ideal sum and that was kind of

1824

01:04:27,990 --> 01:04:26,559

answered

1825

01:04:30,950 --> 01:04:28,000

so

1826

01:04:34,470 --> 01:04:30,960

yeah but the sum to invest the lowest is

1827

01:04:35,430 --> 01:04:34,480

is uh right now it's 150 per nft

1828

01:04:37,190 --> 01:04:35,440

okay

1829

01:04:38,549 --> 01:04:37,200

that's the cheapest we can make it yeah

1830

01:04:41,430 --> 01:04:38,559

because the transaction costs on

1831

01:04:43,990 --> 01:04:41,440

ethereum are they're going to be high

1832

01:04:46,950 --> 01:04:44,000

so it doesn't make

1833

01:04:48,549 --> 01:04:46,960

we might as well print 10 000 that cost

1834

01:04:51,270 --> 01:04:48,559

0.1 ethereum

1835

01:04:52,789 --> 01:04:51,280

rather than 18 million that cost you

1836

01:04:54,950 --> 01:04:52,799

know a few pennies that's what they do

1837

01:04:56,630 --> 01:04:54,960

with these other tokens

1838

01:04:59,589 --> 01:04:56,640

um but they're not as cool as nfts i

1839

01:05:01,349 --> 01:04:59,599

think yeah that's cool man i'll get one

1840

01:05:02,789 --> 01:05:01,359

that's that sounds good

1841

01:05:05,109 --> 01:05:02,799

um

1842

01:05:08,549 --> 01:05:05,119

we can go back to the money man or the

1843

01:05:10,069 --> 01:05:08,559

nft man we haven't decided yet

1844

01:05:12,549 --> 01:05:10,079

yeah so uh i'm glad you brought the

1845

01:05:14,789 --> 01:05:12,559

ledger up i actually have one as well um

1846

01:05:17,829 --> 01:05:14,799

and and yeah feel free to put your

1847

01:05:21,109 --> 01:05:17,839

backdrop up that's totally fine

1848

01:05:23,029 --> 01:05:21,119

great looking garage by the way also um

1849

01:05:24,470 --> 01:05:23,039

so yeah i have that as well and i got to

1850

01:05:26,150 --> 01:05:24,480

tell you it did take me some time just

1851

01:05:28,870 --> 01:05:26,160

to kind of get used to

1852

01:05:31,109 --> 01:05:28,880

the crypto kind of environment but

1853

01:05:33,029 --> 01:05:31,119

but if you're a person that that likes

1854

01:05:34,630 --> 01:05:33,039

to learn that you're going to put in the

1855

01:05:35,589 --> 01:05:34,640

time to kind of learn something and ask

1856

01:05:37,270 --> 01:05:35,599

questions

1857

01:05:39,589 --> 01:05:37,280

you know i think it's a fun little thing

1858

01:05:41,910 --> 01:05:39,599

to get involved in again

1859

01:05:43,430 --> 01:05:41,920

back to the financial advice though

1860

01:05:45,589 --> 01:05:43,440

don't play with money you don't want to

1861

01:05:48,710 --> 01:05:45,599

lose right so you can you can get into

1862

01:05:50,950 --> 01:05:48,720

crypto with very little of your own

1863

01:05:52,789 --> 01:05:50,960

investment very little of your own funds

1864

01:05:53,910 --> 01:05:52,799

but if you put in a bunch of money and

1865

01:05:55,750 --> 01:05:53,920

all of a sudden you turn around you

1866

01:05:57,349 --> 01:05:55,760

realize you know you lost it or it

1867

01:05:59,190 --> 01:05:57,359

didn't didn't

1868

01:06:00,950 --> 01:05:59,200

you know it didn't accrue a lot of

1869

01:06:02,470 --> 01:06:00,960

interest or something it's it's you know

1870

01:06:04,470 --> 01:06:02,480

that that's the same advice that i would

1871

01:06:07,109 --> 01:06:04,480

give to anybody who's investing in a

1872

01:06:08,549 --> 01:06:07,119

fortune 100 or fortune 500 company if

1873

01:06:09,910 --> 01:06:08,559

that company tanks you're not going to

1874

01:06:12,549 --> 01:06:09,920

get your money back sorry that's how

1875

01:06:14,630 --> 01:06:12,559

investing works so it's not really any

1876

01:06:16,870 --> 01:06:14,640

different i think it's just it's a new

1877

01:06:19,029 --> 01:06:16,880

frontier in terms of

1878

01:06:20,470 --> 01:06:19,039

when it comes to assets when it comes to

1879

01:06:22,150 --> 01:06:20,480

you know really look i think a lot of

1880

01:06:23,910 --> 01:06:22,160

people like you said chris earlier like

1881

01:06:25,589 --> 01:06:23,920

let me look at this art and say well i

1882

01:06:27,190 --> 01:06:25,599

could just make a screenshot of that or

1883

01:06:28,870 --> 01:06:27,200

whatever but but they don't quite

1884

01:06:30,870 --> 01:06:28,880

understand the technology yes you can

1885

01:06:33,430 --> 01:06:30,880

make a screenshot of it but the proof of

1886

01:06:36,230 --> 01:06:33,440

ownership of the art itself is tied to

1887

01:06:38,470 --> 01:06:36,240

the blockchain so you you have a

1888

01:06:40,549 --> 01:06:38,480

verifiable way of saying that it is in

1889

01:06:42,630 --> 01:06:40,559

fact your art

1890

01:06:44,630 --> 01:06:42,640

and with the society the way that the

1891

01:06:45,670 --> 01:06:44,640

art functions is almost kind of like a

1892

01:06:47,750 --> 01:06:45,680

membership

1893

01:06:49,029 --> 01:06:47,760

right it's it's a it's it's like they

1894

01:06:51,270 --> 01:06:49,039

think of it as a

1895

01:06:52,710 --> 01:06:51,280

as a voting club or you know it's it's

1896

01:06:55,270 --> 01:06:52,720

your past

1897

01:06:56,470 --> 01:06:55,280

key to be part of that organization

1898

01:06:58,470 --> 01:06:56,480

and to

1899

01:07:00,789 --> 01:06:58,480

i guess if you're part of the 42 to make

1900

01:07:02,549 --> 01:07:00,799

decisions on the proposals but you don't

1901

01:07:05,029 --> 01:07:02,559

even need that right so anybody can be a

1902

01:07:07,190 --> 01:07:05,039

part of the discord and make suggestions

1903

01:07:08,710 --> 01:07:07,200

anybody can ultimately do the research

1904

01:07:10,789 --> 01:07:08,720

right like when you make the research

1905

01:07:12,309 --> 01:07:10,799

available you could prov you could post

1906

01:07:14,630 --> 01:07:12,319

some guidelines on certain things that

1907

01:07:17,349 --> 01:07:14,640

you guys want the public you know who's

1908

01:07:18,870 --> 01:07:17,359

not maybe even purchased an nft they

1909

01:07:20,230 --> 01:07:18,880

could go to the website they could comb

1910

01:07:22,390 --> 01:07:20,240

through the data and they could be given

1911

01:07:23,510 --> 01:07:22,400

some guidelines on what to look for and

1912

01:07:24,870 --> 01:07:23,520

then kind of

1913

01:07:27,190 --> 01:07:24,880

point that out to you is that something

1914

01:07:29,190 --> 01:07:27,200

that you envision like how accessible

1915

01:07:32,630 --> 01:07:29,200

will the data be to people that may not

1916

01:07:34,390 --> 01:07:32,640

even want to buy an nft

1917

01:07:35,670 --> 01:07:34,400

yeah that's the main difference i think

1918

01:07:37,670 --> 01:07:35,680

between us and

1919

01:07:39,910 --> 01:07:37,680

i would argue

1920

01:07:42,390 --> 01:07:39,920

most other organizations is that we want

1921

01:07:44,549 --> 01:07:42,400

to just post it

1922

01:07:46,789 --> 01:07:44,559

you know i don't care who comes up with

1923

01:07:48,549 --> 01:07:46,799

the answers

1924

01:07:49,910 --> 01:07:48,559

we don't care

1925

01:07:51,990 --> 01:07:49,920

and that's the thing if you're really

1926

01:07:53,829 --> 01:07:52,000

focused on getting the results then it

1927

01:07:55,510 --> 01:07:53,839

shouldn't matter right

1928

01:07:57,270 --> 01:07:55,520

so if you're not going to share your

1929

01:07:59,190 --> 01:07:57,280

information then why aren't you sharing

1930

01:08:01,430 --> 01:07:59,200

your information

1931

01:08:03,510 --> 01:08:01,440

that's you know so i think that we

1932

01:08:05,109 --> 01:08:03,520

should share it fully right if anyone

1933

01:08:07,029 --> 01:08:05,119

wants to come in and help i would ask

1934

01:08:09,109 --> 01:08:07,039

that they tell us that they found some

1935

01:08:11,270 --> 01:08:09,119

amazing thing you know so we're not all

1936

01:08:13,109 --> 01:08:11,280

looking over here i i hope that they

1937

01:08:14,069 --> 01:08:13,119

they return the favor

1938

01:08:15,670 --> 01:08:14,079

you know

1939

01:08:17,990 --> 01:08:15,680

i would be naive to think that that's

1940

01:08:19,430 --> 01:08:18,000

going to happen every time

1941

01:08:20,630 --> 01:08:19,440

but i think the right thing to do is get

1942

01:08:22,550 --> 01:08:20,640

the information out there and get the

1943

01:08:25,269 --> 01:08:22,560

most people looking at it

1944

01:08:27,030 --> 01:08:25,279

and we we're not just we we want we need

1945

01:08:29,990 --> 01:08:27,040

those people to come

1946

01:08:32,470 --> 01:08:30,000

we need those people there

1947

01:08:34,390 --> 01:08:32,480

you're you're people yeah

1948

01:08:36,390 --> 01:08:34,400

you're pure of heart with this i mean

1949

01:08:39,669 --> 01:08:36,400

that's obvious and that's what that's

1950

01:08:41,349 --> 01:08:39,679

why we're here uh because if we didn't

1951

01:08:43,749 --> 01:08:41,359

think that you wouldn't be on the show

1952

01:08:45,749 --> 01:08:43,759

right now but we know that you are

1953

01:08:47,990 --> 01:08:45,759

trying to bring something you and

1954

01:08:49,510 --> 01:08:48,000

there's others obviously you apx and

1955

01:08:52,470 --> 01:08:49,520

there's other people that are trying to

1956

01:08:54,070 --> 01:08:52,480

you you mentioned avi loeb uh

1957

01:08:55,110 --> 01:08:54,080

last time you were on

1958

01:08:56,950 --> 01:08:55,120

um

1959

01:08:59,189 --> 01:08:56,960

but but you know we definitely believe

1960

01:09:02,149 --> 01:08:59,199

in in what you're doing and we do need

1961

01:09:04,550 --> 01:09:02,159

to have research that's not encumbered

1962

01:09:07,189 --> 01:09:04,560

or controlled by any government

1963

01:09:08,789 --> 01:09:07,199

because a lot of governments right now

1964

01:09:10,470 --> 01:09:08,799

we have like

1965

01:09:12,309 --> 01:09:10,480

two governments on the planet that are

1966

01:09:14,470 --> 01:09:12,319

really tough maybe three the chileans

1967

01:09:15,910 --> 01:09:14,480

the brazilians and us and nobody else is

1968

01:09:18,789 --> 01:09:15,920

talking about it

1969

01:09:22,789 --> 01:09:18,799

um so it's very important what you're

1970

01:09:24,070 --> 01:09:22,799

doing let's get a last round uh for

1971

01:09:27,749 --> 01:09:24,080

everybody

1972

01:09:29,910 --> 01:09:27,759

um so kevin uh what and i'll at the end

1973

01:09:32,229 --> 01:09:29,920

i want to try to connect with alexey

1974

01:09:34,309 --> 01:09:32,239

because i i'm not connected with him on

1975

01:09:36,950 --> 01:09:34,319

twitter but i'd like to try to connect

1976

01:09:38,550 --> 01:09:36,960

he and david mason to talk tech and see

1977

01:09:41,590 --> 01:09:38,560

if the sensors

1978

01:09:42,709 --> 01:09:41,600

that david mason has built might be of

1979

01:09:45,590 --> 01:09:42,719

service

1980

01:09:46,789 --> 01:09:45,600

uh to you and you to him

1981

01:09:49,269 --> 01:09:46,799

so

1982

01:09:51,349 --> 01:09:49,279

i'll try to make that connection but uh

1983

01:09:53,749 --> 01:09:51,359

go ahead uh the skate case right at the

1984

01:09:56,550 --> 01:09:53,759

skate case

1985

01:09:57,990 --> 01:09:56,560

okay yeah i will yeah that's on uh

1986

01:09:59,830 --> 01:09:58,000

twitter

1987

01:10:02,470 --> 01:09:59,840

at the skate case

1988

01:10:04,390 --> 01:10:02,480

i love it are you a skateboarder uh but

1989

01:10:07,189 --> 01:10:04,400

you know i skated from class to class

1990

01:10:09,110 --> 01:10:07,199

for a couple years

1991

01:10:11,030 --> 01:10:09,120

i do i do want to recommend that he uses

1992

01:10:13,750 --> 01:10:11,040

some sunscreen i don't know if he's just

1993

01:10:14,630 --> 01:10:13,760

naturally dark complexity

1994

01:10:17,590 --> 01:10:14,640

so

1995

01:10:22,149 --> 01:10:19,990

if i could ask that to let let's say and

1996

01:10:23,750 --> 01:10:22,159

uh also chris get your thoughts too but

1997

01:10:24,950 --> 01:10:23,760

what are some of the intriguing lines of

1998

01:10:26,709 --> 01:10:24,960

science and alissa i know you've got a

1999

01:10:28,149 --> 01:10:26,719

lot of theories on you know kind of what

2000

01:10:32,149 --> 01:10:28,159

this all is and

2001

01:10:34,070 --> 01:10:32,159

but in terms of we talked about sky 360.

2002

01:10:36,149 --> 01:10:34,080

if we're using those units what are some

2003

01:10:37,990 --> 01:10:36,159

things that kind of pique your interest

2004

01:10:41,590 --> 01:10:38,000

in the collection efforts that those

2005

01:10:44,070 --> 01:10:41,600

modules will do as far as sky 360 uh

2006

01:10:45,430 --> 01:10:44,080

it'll allow us to triangulate right and

2007

01:10:46,550 --> 01:10:45,440

also

2008

01:10:48,229 --> 01:10:46,560

in a way

2009

01:10:49,750 --> 01:10:48,239

not have to be so observant right

2010

01:10:51,350 --> 01:10:49,760

because the artificial intelligent

2011

01:10:53,430 --> 01:10:51,360

program will be doing the observing for

2012

01:10:54,790 --> 01:10:53,440

us so by having these devices aimed at

2013

01:10:56,229 --> 01:10:54,800

the sky all night

2014

01:10:57,830 --> 01:10:56,239

um they'll be able to be able to

2015

01:10:59,430 --> 01:10:57,840

identify it was that an airplane was

2016

01:11:02,630 --> 01:10:59,440

that a bird and then when it sees

2017

01:11:04,630 --> 01:11:02,640

something anomalous it focuses in

2018

01:11:06,630 --> 01:11:04,640

zooms in you get a second line of sight

2019

01:11:08,550 --> 01:11:06,640

and now you can triangulate

2020

01:11:10,149 --> 01:11:08,560

so not only do we have

2021

01:11:12,790 --> 01:11:10,159

you know a nice

2022

01:11:14,550 --> 01:11:12,800

visual visible spectrum image but you

2023

01:11:16,870 --> 01:11:14,560

also have triangulation so you get

2024

01:11:19,030 --> 01:11:16,880

distance you get size uh

2025

01:11:20,550 --> 01:11:19,040

as far as sky 360 i think that being

2026

01:11:22,310 --> 01:11:20,560

would be one of the most beneficial

2027

01:11:24,070 --> 01:11:22,320

things coming out of it

2028

01:11:25,510 --> 01:11:24,080

um and then if we like chris is saying

2029

01:11:27,430 --> 01:11:25,520

make a souped-up version where we throw

2030

01:11:30,149 --> 01:11:27,440

on the muppets device

2031

01:11:32,550 --> 01:11:30,159

now we can see background spikes or

2032

01:11:36,229 --> 01:11:32,560

changes in the gravity field as well as

2033

01:11:41,030 --> 01:11:38,390

nice that's great excellent yeah it's a

2034

01:11:43,510 --> 01:11:41,040

discriminator it it knows what prosaic

2035

01:11:45,189 --> 01:11:43,520

things look like and it just it just i

2036

01:11:47,350 --> 01:11:45,199

don't know i don't have the proper word

2037

01:11:49,350 --> 01:11:47,360

it throws those to the side it doesn't

2038

01:11:50,790 --> 01:11:49,360

ping on those but it does ping on

2039

01:11:52,070 --> 01:11:50,800

something that it doesn't understand

2040

01:11:54,149 --> 01:11:52,080

what it is

2041

01:11:55,750 --> 01:11:54,159

exactly yeah so basically the artificial

2042

01:11:57,350 --> 01:11:55,760

that's the idea too is the programming

2043

01:11:58,790 --> 01:11:57,360

of the artificial intelligence once

2044

01:12:00,630 --> 01:11:58,800

that's out there that same type of

2045

01:12:02,709 --> 01:12:00,640

programming can be translated

2046

01:12:04,790 --> 01:12:02,719

potentially into other systems

2047

01:12:06,950 --> 01:12:04,800

um but right now it's primarily being

2048

01:12:09,270 --> 01:12:06,960

developed specifically for the sky 360

2049

01:12:11,350 --> 01:12:09,280

fish-eye lens as far as i understand

2050

01:12:13,990 --> 01:12:11,360

so yeah that is that is really cool

2051

01:12:16,870 --> 01:12:14,000

stuff and when you talk about emi

2052

01:12:19,510 --> 01:12:16,880

it's almost a given that when one of

2053

01:12:20,830 --> 01:12:19,520

these craft or orbs appears there is

2054

01:12:23,270 --> 01:12:20,840

going to be

2055

01:12:26,470 --> 01:12:23,280

electromagnetic um

2056

01:12:29,510 --> 01:12:26,480

disturbance or a change in a in it in an

2057

01:12:32,790 --> 01:12:29,520

ami field a signature that you can see

2058

01:12:36,310 --> 01:12:32,800

that when i i would i would think almost

2059

01:12:38,630 --> 01:12:36,320

any i hate to say all every always but

2060

01:12:41,030 --> 01:12:38,640

nearly any any uap you would think that

2061

01:12:42,790 --> 01:12:41,040

there would be some sort of a spike in

2062

01:12:44,470 --> 01:12:42,800

electromagnetic interference when they

2063

01:12:46,229 --> 01:12:44,480

show up definitely i mean if you're

2064

01:12:48,310 --> 01:12:46,239

creating a distortion within space-time

2065

01:12:50,149 --> 01:12:48,320

itself then you're distorting the actual

2066

01:12:51,910 --> 01:12:50,159

what i call light state of the universe

2067

01:12:53,750 --> 01:12:51,920

right the incoming and outgoing light of

2068

01:12:55,350 --> 01:12:53,760

our now moment and so basically you

2069

01:12:56,709 --> 01:12:55,360

would see distortions uh whenever

2070

01:12:59,750 --> 01:12:56,719

there's some type of

2071

01:13:01,430 --> 01:12:59,760

inertial craft being used

2072

01:13:03,669 --> 01:13:01,440

awesome what is your degree in if you

2073

01:13:05,830 --> 01:13:03,679

don't mind telling the audience i have

2074

01:13:07,750 --> 01:13:05,840

my background in astrophysics physics

2075

01:13:10,550 --> 01:13:07,760

planetary science and astronomy that's

2076

01:13:12,390 --> 01:13:10,560

from university of colorado and then uh

2077

01:13:13,750 --> 01:13:12,400

to basically design equipment i went

2078

01:13:16,149 --> 01:13:13,760

ahead and got a masters in mechanical

2079

01:13:17,669 --> 01:13:16,159

engineering so that way the focus was on

2080

01:13:19,270 --> 01:13:17,679

building devices

2081

01:13:20,630 --> 01:13:19,280

in order to take people back to the moon

2082

01:13:21,750 --> 01:13:20,640

at the end of the day

2083

01:13:23,430 --> 01:13:21,760

yeah

2084

01:13:25,590 --> 01:13:23,440

like we should let's do it in space

2085

01:13:29,510 --> 01:13:25,600

balloon himself you really could be more

2086

01:13:32,310 --> 01:13:31,110

you really could be more productive with

2087

01:13:35,270 --> 01:13:32,320

your time with all these students i'm

2088

01:13:37,270 --> 01:13:35,280

just kidding that's it that's that's

2089

01:13:39,590 --> 01:13:37,280

impressive i want to see alexi up at

2090

01:13:41,590 --> 01:13:39,600

creststone have all his stuff set up

2091

01:13:44,470 --> 01:13:41,600

there man i guarantee something's going

2092

01:13:46,470 --> 01:13:44,480

to show up guaranteed so well that's

2093

01:13:48,149 --> 01:13:46,480

what i think consciousness aspect has a

2094

01:13:49,990 --> 01:13:48,159

lot to do with it too right i mean when

2095

01:13:51,750 --> 01:13:50,000

you tie in the ce5

2096

01:13:53,430 --> 01:13:51,760

in a way method so when you have the

2097

01:13:54,950 --> 01:13:53,440

intent of going out and looking for

2098

01:13:57,189 --> 01:13:54,960

something

2099

01:13:59,430 --> 01:13:57,199

you're more likely to find it so i think

2100

01:14:02,070 --> 01:13:59,440

uh by just having intent alone and these

2101
01:14:02,950 --> 01:14:02,080
people setting up the sky 360 systems

2102
01:14:09,910 --> 01:14:02,960
it'll

2103
01:14:11,430 --> 01:14:09,920
i i yeah i mean

2104
01:14:14,149 --> 01:14:11,440
it seems like there's definitely a

2105
01:14:17,030 --> 01:14:14,159
congruity there uh congress there let's

2106
01:14:18,790 --> 01:14:17,040
get uh deb in for her her final or

2107
01:14:21,910 --> 01:14:18,800
actually kevin what you got for your

2108
01:14:26,830 --> 01:14:24,070
oh i don't have anything i'm just here

2109
01:14:28,229 --> 01:14:26,840
to learn and listen like it you know i'm

2110
01:14:29,990 --> 01:14:28,239
doing a little thing

2111
01:14:31,990 --> 01:14:30,000
i don't know what i think can i answer

2112
01:14:34,470 --> 01:14:32,000
nathan's question i've wanted to yeah i

2113
01:14:36,070 --> 01:14:34,480

had a few exciting lines um

2114

01:14:38,070 --> 01:14:36,080

i know edgar mitchell he was the

2115

01:14:40,229 --> 01:14:38,080

astronaut after he came back from the

2116

01:14:42,550 --> 01:14:40,239

moon he started the institute of noetic

2117

01:14:45,110 --> 01:14:42,560

sciences right and i guess his big thing

2118

01:14:47,910 --> 01:14:45,120

was to try and find a link

2119

01:14:49,350 --> 01:14:47,920

a psycho a psychokinetic link

2120

01:14:51,990 --> 01:14:49,360

some other way to communicate like

2121

01:14:55,030 --> 01:14:52,000

remote viewing

2122

01:14:56,630 --> 01:14:55,040

or just some way to communicate outside

2123

01:14:57,990 --> 01:14:56,640

of our normal emf you know

2124

01:15:00,310 --> 01:14:58,000

electromagnetic

2125

01:15:02,149 --> 01:15:00,320

frequency stuff that we're all used to

2126
01:15:03,669 --> 01:15:02,159
and i know he was wanting to prove that

2127
01:15:05,430 --> 01:15:03,679
that seems really exciting to me you

2128
01:15:07,510 --> 01:15:05,440
know i think we can do that in a not

2129
01:15:09,189 --> 01:15:07,520
very expensive way

2130
01:15:11,750 --> 01:15:09,199
through games you know if we could

2131
01:15:13,669 --> 01:15:11,760
develop a iphone app

2132
01:15:14,470 --> 01:15:13,679
that could get actual maybe

2133
01:15:16,709 --> 01:15:14,480
not

2134
01:15:19,750 --> 01:15:16,719
maybe uh scientific level data but if it

2135
01:15:21,350 --> 01:15:19,760
could get large data you know

2136
01:15:22,630 --> 01:15:21,360
numbers

2137
01:15:24,709 --> 01:15:22,640
could we do that

2138
01:15:27,270 --> 01:15:24,719

and maybe it wouldn't take so much money

2139

01:15:29,270 --> 01:15:27,280

you know it would be more organizational

2140

01:15:30,950 --> 01:15:29,280

effort

2141

01:15:32,790 --> 01:15:30,960

so i think that'd be really exciting to

2142

01:15:34,950 --> 01:15:32,800

come up with try and find some sort of

2143

01:15:35,830 --> 01:15:34,960

experiments that research that find that

2144

01:15:36,870 --> 01:15:35,840

link

2145

01:15:40,470 --> 01:15:36,880

between

2146

01:15:42,870 --> 01:15:40,480

that would be exciting another one that

2147

01:15:45,830 --> 01:15:42,880

i've heard of is uh

2148

01:15:48,070 --> 01:15:45,840

i what is it iec itc

2149

01:15:50,229 --> 01:15:48,080

uh anyway what you do is you basically

2150

01:15:53,350 --> 01:15:50,239

you set out a recording device

2151
01:15:55,510 --> 01:15:53,360
and then you ask questions and now back

2152
01:15:57,750 --> 01:15:55,520
in the recording you can hear answers

2153
01:16:01,189 --> 01:15:57,760
this seems just crazy to me um again

2154
01:16:03,669 --> 01:16:01,199
that's another way of communication

2155
01:16:06,149 --> 01:16:03,679
uh that seems

2156
01:16:07,590 --> 01:16:06,159
could it be true you know um it's

2157
01:16:08,790 --> 01:16:07,600
certainly something we can test for

2158
01:16:10,870 --> 01:16:08,800
right so you can make scientific

2159
01:16:11,590 --> 01:16:10,880
experiments that test is that real you

2160
01:16:14,070 --> 01:16:11,600
know

2161
01:16:15,590 --> 01:16:14,080
can you can you talk to people behind

2162
01:16:17,590 --> 01:16:15,600
that aren't there i mean that would be

2163
01:16:19,030 --> 01:16:17,600

mind-blowing to me

2164

01:16:21,110 --> 01:16:19,040

that could be proven

2165

01:16:22,550 --> 01:16:21,120

yeah i think they call it maybe evp the

2166

01:16:24,550 --> 01:16:22,560

electronics yeah i've heard many

2167

01:16:26,310 --> 01:16:24,560

different ways

2168

01:16:27,590 --> 01:16:26,320

but basically you're asking questions

2169

01:16:30,229 --> 01:16:27,600

and you're recording through some

2170

01:16:31,590 --> 01:16:30,239

electronic device or recording device

2171

01:16:34,790 --> 01:16:31,600

and you when you listen to that

2172

01:16:37,030 --> 01:16:34,800

recording again you hear answers wow so

2173

01:16:38,630 --> 01:16:37,040

i've had people talk about

2174

01:16:40,870 --> 01:16:38,640

in certain areas as well like i've heard

2175

01:16:43,030 --> 01:16:40,880

it's localized not localized anyway i

2176
01:16:44,630 --> 01:16:43,040
think that's that would be crazy to

2177
01:16:46,470 --> 01:16:44,640
analyze that and it doesn't seem like it

2178
01:16:48,390 --> 01:16:46,480
would cost so much money

2179
01:16:50,550 --> 01:16:48,400
i think that's one avenue

2180
01:16:51,750 --> 01:16:50,560
and then i've always wanted to still

2181
01:16:53,669 --> 01:16:51,760
want to make an interdimensional

2182
01:16:56,070 --> 01:16:53,679
telescope or whatever i want to figure

2183
01:16:57,110 --> 01:16:56,080
out what alex what is inside alexei's

2184
01:16:58,470 --> 01:16:57,120
brain

2185
01:17:01,110 --> 01:16:58,480
that means

2186
01:17:02,950 --> 01:17:01,120
telescope i think it's a pyramid shape

2187
01:17:04,390 --> 01:17:02,960
i think it's some sort of pyramid that

2188
01:17:07,270 --> 01:17:04,400

we'd have to put

2189

01:17:09,189 --> 01:17:07,280

in some sort of localized area you know

2190

01:17:11,189 --> 01:17:09,199

that's famous for this type of stuff and

2191

01:17:12,470 --> 01:17:11,199

then put alexei inside

2192

01:17:17,910 --> 01:17:12,480

if you can like

2193

01:17:21,270 --> 01:17:19,430

incident right and basically the guy

2194

01:17:22,550 --> 01:17:21,280

gets a binary download he ends up

2195

01:17:24,470 --> 01:17:22,560

writing off the binary code in the

2196

01:17:26,390 --> 01:17:24,480

middle of the night and it says progress

2197

01:17:27,430 --> 01:17:26,400

for humanity is at these magnetic hot

2198

01:17:29,750 --> 01:17:27,440

spots

2199

01:17:31,590 --> 01:17:29,760

all over the earth um and he literally

2200

01:17:33,590 --> 01:17:31,600

gives out the longitude and latitude if

2201

01:17:34,709 --> 01:17:33,600

that is what the binary translation

2202

01:17:35,910 --> 01:17:34,719

really is

2203

01:17:38,070 --> 01:17:35,920

and from my understanding there's

2204

01:17:40,229 --> 01:17:38,080

different flows of space um there's

2205

01:17:41,750 --> 01:17:40,239

different densities that we're tuned to

2206

01:17:43,430 --> 01:17:41,760

essentially and each one of our

2207

01:17:46,149 --> 01:17:43,440

conscious harmonics is tuned to a

2208

01:17:47,669 --> 01:17:46,159

certain orbit within spacetime itself

2209

01:17:49,669 --> 01:17:47,679

and so when you have these vortices

2210

01:17:52,070 --> 01:17:49,679

coming in at these different locations

2211

01:17:54,149 --> 01:17:52,080

and it's literally binary code saying

2212

01:17:56,790 --> 01:17:54,159

advancement of mine of mankind is at

2213

01:17:58,630 --> 01:17:56,800

these positions it seems obvious you put

2214

01:18:01,270 --> 01:17:58,640

an interdimensional telescope at those

2215

01:18:04,229 --> 01:18:01,280

positions and you'll be able to see into

2216

01:18:05,430 --> 01:18:04,239

the next layers of experience

2217

01:18:06,870 --> 01:18:05,440

meaning like

2218

01:18:08,950 --> 01:18:06,880

portals that already exist within

2219

01:18:10,390 --> 01:18:08,960

spacetime itself

2220

01:18:11,830 --> 01:18:10,400

and you could use a collimator to

2221

01:18:14,950 --> 01:18:11,840

collimate the energy to naturally

2222

01:18:15,990 --> 01:18:14,960

harmonize with our wake waking state

2223

01:18:18,709 --> 01:18:16,000

yeah

2224

01:18:21,910 --> 01:18:18,719

worth a try is that it i mean geez it's

2225

01:18:26,310 --> 01:18:24,070

honestly that's so incredible because i

2226

01:18:28,790 --> 01:18:26,320

hear a lot of events from experiencers

2227

01:18:31,110 --> 01:18:28,800

where they hear almost an auditory

2228

01:18:32,950 --> 01:18:31,120

illusion so they do

2229

01:18:35,189 --> 01:18:32,960

they hear sounds

2230

01:18:36,149 --> 01:18:35,199

such as say the binary code i've heard

2231

01:18:39,510 --> 01:18:36,159

of that

2232

01:18:42,709 --> 01:18:39,520

buzzing keynotes of c keynotes of a so

2233

01:18:44,870 --> 01:18:42,719

is that some sort of communication is

2234

01:18:46,950 --> 01:18:44,880

that something that we can actually go

2235

01:18:47,750 --> 01:18:46,960

through and

2236

01:18:50,550 --> 01:18:47,760

you know

2237

01:18:52,070 --> 01:18:50,560

identify some some form of speaking and

2238

01:18:53,430 --> 01:18:52,080

you know like they were saying you and

2239

01:18:54,709 --> 01:18:53,440

david mason

2240

01:18:56,310 --> 01:18:54,719

would really

2241

01:18:59,430 --> 01:18:56,320

you guys speak the same language

2242

01:19:01,830 --> 01:18:59,440

scientific technology wise and what he's

2243

01:19:04,630 --> 01:19:01,840

already established is utilizing these

2244

01:19:06,790 --> 01:19:04,640

sounds from whales and he also did

2245

01:19:08,630 --> 01:19:06,800

mention that he's utilizing them in

2246

01:19:10,470 --> 01:19:08,640

their natural state you know he's not

2247

01:19:12,070 --> 01:19:10,480

they're not gathering their the sounds

2248

01:19:14,310 --> 01:19:12,080

from when they're you know

2249

01:19:16,310 --> 01:19:14,320

unfortunately in this captivity type

2250

01:19:19,189 --> 01:19:16,320

state so they're using something that is

2251

01:19:20,870 --> 01:19:19,199

positive and putting that out there

2252

01:19:23,750 --> 01:19:20,880

and then getting back

2253

01:19:25,270 --> 01:19:23,760

some sort of light signal and there

2254

01:19:27,110 --> 01:19:25,280

there's got to be some sort of

2255

01:19:29,590 --> 01:19:27,120

communication that's got to be some form

2256

01:19:31,189 --> 01:19:29,600

of a language and i just think that you

2257

01:19:32,870 --> 01:19:31,199

two definitely need to link up and

2258

01:19:34,950 --> 01:19:32,880

connect because i think that you you

2259

01:19:36,630 --> 01:19:34,960

know these types of things that we're

2260

01:19:38,950 --> 01:19:36,640

thinking about we're exercising our

2261

01:19:40,950 --> 01:19:38,960

minds on the what if these are the

2262

01:19:42,870 --> 01:19:40,960

conversations that need to be had in

2263

01:19:44,709 --> 01:19:42,880

order to establish

2264

01:19:46,870 --> 01:19:44,719

information because we're curious

2265

01:19:49,590 --> 01:19:46,880

because we want to know what the heck is

2266

01:19:52,070 --> 01:19:49,600

out there and i mean it sounds wild and

2267

01:19:53,590 --> 01:19:52,080

and it it it is it's it's a wild thing

2268

01:19:55,750 --> 01:19:53,600

that we're trying to accomplish here

2269

01:19:57,830 --> 01:19:55,760

right and yeah and that's just one

2270

01:19:59,910 --> 01:19:57,840

tangent of what he's doing he has his

2271

01:20:01,590 --> 01:19:59,920

six flea cameras he has these other

2272

01:20:03,910 --> 01:20:01,600

sensors that he he talked about all of

2273

01:20:05,669 --> 01:20:03,920

them i can't recall what all of them are

2274

01:20:08,550 --> 01:20:05,679

but that community he believes they're

2275

01:20:10,390 --> 01:20:08,560

communicating with us through light yeah

2276

01:20:13,030 --> 01:20:10,400

and so he's communicating back with

2277

01:20:15,270 --> 01:20:13,040

light that's that are those converted

2278

01:20:16,870 --> 01:20:15,280

sound waves yeah i mean

2279

01:20:18,709 --> 01:20:16,880

i think it'd be great to get his system

2280

01:20:20,950 --> 01:20:18,719

on board some balloons or on board some

2281

01:20:23,189 --> 01:20:20,960

sky 360 you know at least talk and

2282

01:20:26,070 --> 01:20:23,199

collaborate and see like where we align

2283

01:20:28,470 --> 01:20:26,080

and what we can do yeah we will work to

2284

01:20:31,030 --> 01:20:28,480

make that happen um i don't have his

2285

01:20:32,790 --> 01:20:31,040

he's not on twitter i'm gonna before

2286

01:20:35,189 --> 01:20:32,800

when we close the show i'll type out

2287

01:20:37,270 --> 01:20:35,199

your what your twitter handle is so that

2288

01:20:38,950 --> 01:20:37,280

i can connect with you but let's let

2289

01:20:40,870 --> 01:20:38,960

let's let the kraken get in there again

2290

01:20:42,790 --> 01:20:40,880

what's up deb says your your final

2291

01:20:45,430 --> 01:20:42,800

parting shots for these guys i think i

2292

01:20:46,709 --> 01:20:45,440

liked her hermione better okay hermione

2293

01:20:49,990 --> 01:20:46,719

granger

2294

01:20:51,669 --> 01:20:50,000

i wanted to read a comment from elena

2295

01:20:53,990 --> 01:20:51,679

campbell and then i'm going to do a

2296

01:20:55,030 --> 01:20:54,000

question from baby goat so the comment

2297

01:20:57,510 --> 01:20:55,040

was

2298

01:21:00,870 --> 01:20:57,520

guys did you hear avi slip into a

2299

01:21:03,830 --> 01:21:00,880

symposium speech that he is using crypto

2300

01:21:04,210 --> 01:21:03,840

to raise capital for galileo

2301
01:21:05,510 --> 01:21:04,220

yay

2302
01:21:07,030 --> 01:21:05,520

[Music]

2303
01:21:08,390 --> 01:21:07,040
okay yeah i thought it was quite

2304
01:21:11,270 --> 01:21:08,400
interesting

2305
01:21:14,229 --> 01:21:11,280
right and then um baby goat

2306
01:21:17,990 --> 01:21:14,239
has the question of why go with meta

2307
01:21:21,110 --> 01:21:20,310
uh metamask i've used it i've just used

2308
01:21:23,830 --> 01:21:21,120
it for

2309
01:21:25,270 --> 01:21:23,840
three years now and i know it's i feel

2310
01:21:34,229 --> 01:21:25,280
it's

2311
01:21:35,910 --> 01:21:34,239
common maybe the most used wallet for

2312
01:21:38,149 --> 01:21:35,920
nfts but

2313
01:21:40,629 --> 01:21:38,159

i'm not sure when we did the minting

2314

01:21:43,669 --> 01:21:40,639

uh so to to mint which you can right now

2315

01:21:45,830 --> 01:21:43,679

it's 0.1 0.18 i think that's 150 so i'd

2316

01:21:48,470 --> 01:21:45,840

ask everyone to go if you're interested

2317

01:21:50,830 --> 01:21:48,480

in investing in crypto or in this

2318

01:21:53,830 --> 01:21:50,840

project you can do the gofundme at

2319

01:21:56,870 --> 01:21:53,840

uapsociety.com or you can mint right now

2320

01:21:58,790 --> 01:21:56,880

that means you will pull a random nft

2321

01:22:01,270 --> 01:21:58,800

that we've created it'll just randomly

2322

01:22:03,669 --> 01:22:01,280

select it and give it to you there's

2323

01:22:06,149 --> 01:22:03,679

seven super rare still left

2324

01:22:07,590 --> 01:22:06,159

and around 265

2325

01:22:09,990 --> 01:22:07,600

rare

2326

01:22:12,550 --> 01:22:10,000

the rest are commons all different types

2327

01:22:15,189 --> 01:22:12,560

yeah amazing um

2328

01:22:17,510 --> 01:22:15,199

so i would say basically to to go there

2329

01:22:19,350 --> 01:22:17,520

and if you if you want to support

2330

01:22:20,629 --> 01:22:19,360

then you can do that but like we've been

2331

01:22:22,390 --> 01:22:20,639

saying the whole time we just need

2332

01:22:23,990 --> 01:22:22,400

people to be interested

2333

01:22:26,390 --> 01:22:24,000

willing to put in their time and

2334

01:22:28,149 --> 01:22:26,400

interest and brains

2335

01:22:30,390 --> 01:22:28,159

and you know basically come to the

2336

01:22:32,070 --> 01:22:30,400

discord and help out so

2337

01:22:34,070 --> 01:22:32,080

i got plenty of breath i mean there's so

2338

01:22:36,390 --> 01:22:34,080

much organic i don't need the artificial

2339

01:22:37,270 --> 01:22:36,400

intelligence chris it's all right here

2340

01:22:39,430 --> 01:22:37,280

man

2341

01:22:42,070 --> 01:22:39,440

all right so tommy boyle once you see

2342

01:22:43,590 --> 01:22:42,080

this one right here uh he he wants to be

2343

01:22:47,030 --> 01:22:43,600

your uk tester

2344

01:22:49,750 --> 01:22:47,040

uh so so i just want to make him aware

2345

01:22:50,629 --> 01:22:49,760

of you he can probably contact you and

2346

01:22:53,669 --> 01:22:50,639

all right

2347

01:22:55,030 --> 01:22:53,679

yeah it's uh so sky 360 have their own

2348

01:22:57,830 --> 01:22:55,040

discord that we

2349

01:22:59,990 --> 01:22:57,840

coordinate with if you see ally so ali

2350

01:23:01,270 --> 01:23:00,000

is in the hello alley she's in the

2351

01:23:04,229 --> 01:23:01,280

comments

2352

01:23:06,950 --> 01:23:04,239

um she's also a moderator for them on

2353

01:23:08,950 --> 01:23:06,960

their sky 360. so if they need engine we

2354

01:23:10,629 --> 01:23:08,960

actually do they need engineers

2355

01:23:11,750 --> 01:23:10,639

uh hardware and software engineers but

2356

01:23:13,669 --> 01:23:11,760

right now i think it's actually more

2357

01:23:16,149 --> 01:23:13,679

software engineering

2358

01:23:18,629 --> 01:23:16,159

so definitely man we need it the sky 360

2359

01:23:20,709 --> 01:23:18,639

needs it it's all hands on deck kind of

2360

01:23:23,910 --> 01:23:20,719

kind of mentality

2361

01:23:25,990 --> 01:23:23,920

dig it uh nathan parting shots

2362

01:23:27,910 --> 01:23:26,000

again i'm just really excited uh for

2363

01:23:30,310 --> 01:23:27,920

what you guys are doing mainly because

2364

01:23:32,070 --> 01:23:30,320

you're doing something right and i just

2365

01:23:33,990 --> 01:23:32,080

want to you know to the folks that have

2366

01:23:35,590 --> 01:23:34,000

really come after you guys about you

2367

01:23:36,790 --> 01:23:35,600

know what you're doing

2368

01:23:38,550 --> 01:23:36,800

what are they doing other than

2369

01:23:39,350 --> 01:23:38,560

complaining exactly

2370

01:23:41,590 --> 01:23:39,360

so

2371

01:23:44,149 --> 01:23:41,600

you know i really i applaud the fact

2372

01:23:45,990 --> 01:23:44,159

that you've put this out there that it

2373

01:23:47,750 --> 01:23:46,000

is easy to see what you're doing you

2374

01:23:49,350 --> 01:23:47,760

know you can be it's so simple to be

2375

01:23:50,629 --> 01:23:49,360

part of the discord and participate in

2376

01:23:52,470 --> 01:23:50,639

the community

2377

01:23:55,350 --> 01:23:52,480

i think the way that you're starting

2378

01:23:56,790 --> 01:23:55,360

with the kind of the sky 360 sky 360

2379

01:23:58,709 --> 01:23:56,800

emphasis and the balloons it's

2380

01:24:01,030 --> 01:23:58,719

accessible technology

2381

01:24:02,790 --> 01:24:01,040

it's a good place to start

2382

01:24:04,550 --> 01:24:02,800

and i'm just glad somebody's doing it

2383

01:24:06,790 --> 01:24:04,560

right i mean who knows how long it's

2384

01:24:09,510 --> 01:24:06,800

going to be before we get stuff out of

2385

01:24:11,189 --> 01:24:09,520

galileo or stuff from nasa or you know

2386

01:24:12,149 --> 01:24:11,199

just anybody that that's trying to get

2387

01:24:14,149 --> 01:24:12,159

this

2388

01:24:16,790 --> 01:24:14,159

more information for us to take a look

2389

01:24:19,030 --> 01:24:16,800

at it the the better you know and so

2390

01:24:20,790 --> 01:24:19,040

again kudos to what you're doing i know

2391

01:24:23,030 --> 01:24:20,800

that it takes a lot of guts to do this

2392

01:24:24,149 --> 01:24:23,040

because it is new and it's

2393

01:24:25,430 --> 01:24:24,159

you're having to answer the same

2394

01:24:26,790 --> 01:24:25,440

questions over and over again i'm sure

2395

01:24:28,310 --> 01:24:26,800

it's exhausting

2396

01:24:30,870 --> 01:24:28,320

i know you put a ton of work into it so

2397

01:24:32,709 --> 01:24:30,880

again just just thanks for all that

2398

01:24:35,189 --> 01:24:32,719

no thanks for for coming as well and

2399

01:24:37,350 --> 01:24:35,199

like you've already given great inputs

2400

01:24:39,669 --> 01:24:37,360

you know because we don't know

2401

01:24:40,790 --> 01:24:39,679

how to organize necessarily the best

2402

01:24:43,750 --> 01:24:40,800

research

2403

01:24:44,550 --> 01:24:43,760

you know but but we want to we want to

2404

01:24:46,310 --> 01:24:44,560

so

2405

01:24:47,910 --> 01:24:46,320

come and help man like you your your

2406

01:24:49,669 --> 01:24:47,920

inputs have already been great just you

2407

01:24:51,030 --> 01:24:49,679

know asking the right questions to be

2408

01:24:53,669 --> 01:24:51,040

like oh yeah we do need to be thinking

2409

01:24:55,270 --> 01:24:53,679

about that so yeah it is community

2410

01:24:56,950 --> 01:24:55,280

and yeah it's been awesome having you as

2411

01:24:58,390 --> 01:24:56,960

well on there

2412

01:25:00,470 --> 01:24:58,400

yeah you're part of it

2413

01:25:02,149 --> 01:25:00,480

you really have done something like he

2414

01:25:04,550 --> 01:25:02,159

said i used to say to people on twitter

2415

01:25:06,390 --> 01:25:04,560

when they would complain oh elizondo's

2416

01:25:08,149 --> 01:25:06,400

not telling us enough and shawn and

2417

01:25:10,790 --> 01:25:08,159

melon i'd be like what are you doing

2418

01:25:13,270 --> 01:25:10,800

show me one thing you produce for the

2419

01:25:14,870 --> 01:25:13,280

community and and you get crickets you

2420

01:25:16,950 --> 01:25:14,880

know those guys have produced something

2421

01:25:20,149 --> 01:25:16,960

you are producing something you are

2422

01:25:22,470 --> 01:25:20,159

making something happen more so than i

2423

01:25:24,790 --> 01:25:22,480

but you know i'm just talking head here

2424

01:25:27,270 --> 01:25:24,800

but you are actually producing something

2425

01:25:29,270 --> 01:25:27,280

and that is extremely admirable you know

2426

01:25:32,070 --> 01:25:29,280

you have steph down there working with

2427

01:25:34,070 --> 01:25:32,080

experiencers deb has been there for more

2428

01:25:36,470 --> 01:25:34,080

people than anybody knows about that

2429

01:25:38,790 --> 01:25:36,480

have called to talk with deb about

2430

01:25:40,390 --> 01:25:38,800

experiences and how to deal with it

2431

01:25:42,229 --> 01:25:40,400

nathan as well that's not me right

2432

01:25:44,550 --> 01:25:42,239

that's not my specialty right i get

2433

01:25:46,229 --> 01:25:44,560

people contact me but

2434

01:25:47,430 --> 01:25:46,239

it's not my thing you have to know what

2435

01:25:49,430 --> 01:25:47,440

you can do

2436

01:25:50,870 --> 01:25:49,440

but i know that we need those people so

2437

01:25:52,310 --> 01:25:50,880

yeah we need those people as well like

2438

01:25:54,470 --> 01:25:52,320

so you can

2439

01:25:56,629 --> 01:25:54,480

that's not my thing i'm not i don't know

2440

01:25:58,229 --> 01:25:56,639

how to help you know it's like uh

2441

01:25:59,669 --> 01:25:58,239

no you are though but you're doing it in

2442

01:26:01,830 --> 01:25:59,679

your way obviously we're all not

2443

01:26:03,910 --> 01:26:01,840

universal people able to do everything

2444

01:26:05,590 --> 01:26:03,920

we have to find what we're good at and

2445

01:26:07,430 --> 01:26:05,600

people it's so hard too the topic is so

2446

01:26:10,629 --> 01:26:07,440

difficult i mean

2447

01:26:14,550 --> 01:26:10,639

the topic is so difficult yes yes

2448

01:26:17,189 --> 01:26:14,560

very abstract yeah yeah but uh um do you

2449

01:26:19,510 --> 01:26:17,199

please plug uh if you and alexei would

2450

01:26:21,510 --> 01:26:19,520

plug everything if you just hang off

2451

01:26:23,430 --> 01:26:21,520

camera for a second after we close but

2452

01:26:25,030 --> 01:26:23,440

please plug everything you got going on

2453

01:26:26,669 --> 01:26:25,040

please

2454

01:26:28,790 --> 01:26:26,679

yep for us it's

2455

01:26:30,310 --> 01:26:28,800

uapsociety.com that'll give you the link

2456

01:26:32,070 --> 01:26:30,320

to the discord

2457

01:26:33,350 --> 01:26:32,080

that'll give you the link to the minting

2458

01:26:35,030 --> 01:26:33,360

site

2459

01:26:36,870 --> 01:26:35,040

so that's we try and keep it there

2460

01:26:38,950 --> 01:26:36,880

that's our web 2 portal though that's

2461

01:26:42,149 --> 01:26:38,960

the old school

2462

01:26:43,910 --> 01:26:42,159

the discord is new and and i get it it's

2463

01:26:46,870 --> 01:26:43,920

we're still early you know and that's

2464

01:26:48,550 --> 01:26:46,880

also why i feel required to act is so

2465

01:26:50,629 --> 01:26:48,560

that we can

2466

01:26:52,550 --> 01:26:50,639

put into the base coating if you will

2467

01:26:54,870 --> 01:26:52,560

the base layer that it doesn't have to

2468

01:26:56,550 --> 01:26:54,880

it can be for the good of people

2469

01:26:58,870 --> 01:26:56,560

not just for the good of the

2470

01:27:00,229 --> 01:26:58,880

organizations or the companies or the

2471

01:27:02,550 --> 01:27:00,239

governments right because that they're

2472

01:27:04,550 --> 01:27:02,560

coming in i mean i see them coming in

2473

01:27:06,950 --> 01:27:04,560

at the conferences

2474

01:27:08,629 --> 01:27:06,960

the suits are coming in you know and

2475

01:27:09,669 --> 01:27:08,639

and they're not really happy to be there

2476

01:27:11,270 --> 01:27:09,679

they're not

2477

01:27:12,709 --> 01:27:11,280

the passion's not there they're like

2478

01:27:14,390 --> 01:27:12,719

yeah you know i'm here we're just

2479

01:27:15,750 --> 01:27:14,400

implementing this new program to take

2480

01:27:17,910 --> 01:27:15,760

over the world

2481

01:27:19,750 --> 01:27:17,920

and we'll just make sure it it goes back

2482

01:27:21,110 --> 01:27:19,760

to the shareholders but they're there

2483

01:27:22,550 --> 01:27:21,120

but they're going to meet the crypto

2484

01:27:25,270 --> 01:27:22,560

people and they're like dude we're

2485

01:27:27,510 --> 01:27:25,280

changing it man the revolution

2486

01:27:29,590 --> 01:27:27,520

but they're there and which means you're

2487

01:27:31,669 --> 01:27:29,600

making an impact because if if you were

2488

01:27:34,550 --> 01:27:31,679

insignificant they wouldn't be there but

2489

01:27:36,870 --> 01:27:34,560

the fact that they showed up i i'd spoke

2490

01:27:38,629 --> 01:27:36,880

to these guys that adds to the metrics

2491

01:27:40,550 --> 01:27:38,639

and and those folks that are on the hill

2492

01:27:42,390 --> 01:27:40,560

they read all that they know that they

2493

01:27:44,550 --> 01:27:42,400

know that that happened

2494

01:27:46,550 --> 01:27:44,560

and go to a conference i mean if you get

2495

01:27:48,790 --> 01:27:46,560

a chance you don't think it's real go to

2496

01:27:50,629 --> 01:27:48,800

a go to an nft conference man it feels

2497

01:27:52,790 --> 01:27:50,639

like you're at some

2498

01:27:53,910 --> 01:27:52,800

new future age

2499

01:27:55,030 --> 01:27:53,920

i don't it feels like you're in san

2500

01:27:56,950 --> 01:27:55,040

francisco

2501
01:27:58,550 --> 01:27:56,960
you know right silicon valley spinning

2502
01:27:59,669 --> 01:27:58,560
up i mean it's

2503
01:28:01,669 --> 01:27:59,679
there's so much going it's just

2504
01:28:03,350 --> 01:28:01,679
happening so fast on so on so many

2505
01:28:05,110 --> 01:28:03,360
different levels that

2506
01:28:07,430 --> 01:28:05,120
you don't know what's going on nobody

2507
01:28:09,510 --> 01:28:07,440
can know what everything is going on so

2508
01:28:10,629 --> 01:28:09,520
it's very exciting and i certainly don't

2509
01:28:12,310 --> 01:28:10,639
know where it's going with you guys on

2510
01:28:15,430 --> 01:28:12,320
board man it's so awesome

2511
01:28:17,830 --> 01:28:15,440
it really helps it really really helps

2512
01:28:19,430 --> 01:28:17,840
like a million percent so

2513
01:28:21,430 --> 01:28:19,440

yeah please get involved we want

2514

01:28:23,350 --> 01:28:21,440

everybody to help and

2515

01:28:25,669 --> 01:28:23,360

if you can support if it's exciting to

2516

01:28:27,750 --> 01:28:25,679

you it's fun man i i don't know i'm i'm

2517

01:28:28,470 --> 01:28:27,760

an investor in nfts i like having them

2518

01:28:29,830 --> 01:28:28,480

uh

2519

01:28:31,590 --> 01:28:29,840

they're fun it's better than money i

2520

01:28:33,430 --> 01:28:31,600

think it's more fun at least

2521

01:28:36,790 --> 01:28:33,440

so anyway that's it

2522

01:28:39,750 --> 01:28:36,800

at uap society baby chris lato probably

2523

01:28:40,709 --> 01:28:39,760

and alexa sorry and alexa well alexa you

2524

01:28:43,270 --> 01:28:40,719

know it's probably gonna have his own

2525

01:28:44,310 --> 01:28:43,280

line of sunscreen chris maybe some hair

2526

01:28:45,270 --> 01:28:44,320

moose

2527

01:28:47,030 --> 01:28:45,280

uh

2528

01:28:48,390 --> 01:28:47,040

you know something like that i could see

2529

01:28:50,310 --> 01:28:48,400

happening and then nathan we're gonna

2530

01:28:52,870 --> 01:28:50,320

have to determine if we're changing his

2531

01:28:55,990 --> 01:28:52,880

nickname from money nathan to nft nathan

2532

01:28:56,790 --> 01:28:56,000

you know it's tough tough tough call big

2533

01:28:59,110 --> 01:28:56,800

time

2534

01:29:01,430 --> 01:28:59,120

uh give us a like and a subscribe that's

2535

01:29:03,430 --> 01:29:01,440

all that we want from you and uh thank

2536

01:29:06,470 --> 01:29:03,440

you everybody for being here for uh

2537

01:29:10,950 --> 01:29:06,480

nathan for kevin for debs for stephanie

2538

01:29:13,750 --> 01:29:10,960

for uh alexei and for my man chris lado

2539

01:29:15,030 --> 01:29:13,760

this is dj saying peace out

2540

01:29:16,709 --> 01:29:15,040

one love

2541

01:29:18,390 --> 01:29:16,719

and we'll see you down the road we're

2542

01:29:20,120 --> 01:29:18,400

always wondering what's up around the

2543

01:29:28,490 --> 01:29:20,130

bend
