Calling All Beings

1
00:00:16,930 --> 00:00:09,670
oh

2
00:00:30,580 --> 00:00:25,050
[Music]

3
00:00:35,190 --> 00:00:33,110
[Laughter]

4
00:00:37,190 --> 00:00:35,200
i'm gonna tell you what people we might

5
00:00:39,430 --> 00:00:37,200
be early we might be late i don't know

6
00:00:41,430 --> 00:00:39,440
dr nolan's gonna tell us but i'll tell

7
00:00:43,350 --> 00:00:41,440
you what i'm your host dj you are back

8
00:00:46,709 --> 00:00:43,360
with calling all beings and i'm here

9
00:00:48,470 --> 00:00:46,719
with my co-conspirator my co-creator my

10
00:00:50,790 --> 00:00:48,480
brother from another

11
00:00:53,029 --> 00:00:50,800
money nathan good evening money what's

12
00:00:55,189 --> 00:00:53,039
up dj how's it going man oh my god i

13
00:00:58,069 --> 00:00:55,199

know how excited you've been for this

14

00:00:59,510 --> 00:00:58,079

and the response that we've gotten for

15

00:01:01,670 --> 00:00:59,520

this guest

16

00:01:03,349 --> 00:01:01,680

is i don't know i think

17

00:01:05,509 --> 00:01:03,359

yeah i think only louis lozando is the

18

00:01:07,590 --> 00:01:05,519

only person we've had even close to to

19

00:01:09,429 --> 00:01:07,600

this so yeah i've had people camping

20

00:01:11,830 --> 00:01:09,439

outside the house

21

00:01:14,310 --> 00:01:11,840

uh with like questions on poster board

22

00:01:16,870 --> 00:01:14,320

you know can you ask dr nolan

23

00:01:19,670 --> 00:01:16,880

yes me too

24

00:01:21,830 --> 00:01:19,680

it's wild man so without further ado

25

00:01:25,749 --> 00:01:21,840

this brother right here

26

00:01:28,870 --> 00:01:25,759

is a professor of pathology at stanford

27

00:01:31,830 --> 00:01:28,880

university and a prodigious researcher

28

00:01:34,710 --> 00:01:31,840

of the phenomenon he is fearless he puts

29

00:01:38,069 --> 00:01:34,720

his money where his mouth is so party

30

00:01:39,510 --> 00:01:38,079

people put those hands together

31

00:01:40,630 --> 00:01:39,520

for doctor

32

00:01:41,380 --> 00:01:40,640

gary

33

00:01:43,910 --> 00:01:41,390

nolan

34

00:01:45,990 --> 00:01:43,920

[Music]

35

00:01:47,830 --> 00:01:46,000

yeah baby we're not playing around

36

00:01:48,550 --> 00:01:47,840

tonight no

37

00:01:52,630 --> 00:01:48,560

no

38

00:01:54,550 --> 00:01:52,640

got all three of us the men in black you

39

00:01:56,469 --> 00:01:54,560

people have been wondering who it is

40

00:01:59,830 --> 00:01:56,479

it's that mysterious squadron that rick

41

00:02:02,389 --> 00:01:59,840

dodie talks about uh okay so nathan uh

42

00:02:03,990 --> 00:02:02,399

dr nolan and i are members of it so

43

00:02:06,630 --> 00:02:04,000

that's the right thing we'll just just

44

00:02:09,589 --> 00:02:06,640

start off that's where okay

45

00:02:10,469 --> 00:02:09,599

so anyway welcome dr nolan how are you

46

00:02:12,790 --> 00:02:10,479

sir

47

00:02:14,390 --> 00:02:12,800

great thank you for being here i'm uh

48

00:02:15,430 --> 00:02:14,400

for to the audience i'm just wearing

49

00:02:17,830 --> 00:02:15,440

these in

50

00:02:19,670 --> 00:02:17,840

in compassion and in commiseration with

51
00:02:22,150 --> 00:02:19,680
the uh

52
00:02:24,390 --> 00:02:22,160
you know it it shows that you are a true

53
00:02:26,630 --> 00:02:24,400
team player gary i really like that

54
00:02:29,510 --> 00:02:26,640
um it's an honor to have you like i said

55
00:02:31,670 --> 00:02:29,520
uh i've gotten more people to hit me up

56
00:02:33,670 --> 00:02:31,680
for question actually even then even

57
00:02:36,470 --> 00:02:33,680
then when we had uh wonderful lou

58
00:02:37,830 --> 00:02:36,480
elizondo oh there we go here comes stay

59
00:02:40,070 --> 00:02:37,840
hey

60
00:02:44,710 --> 00:02:41,430
all right

61
00:02:47,830 --> 00:02:44,720
there we go okay so uh so dr noland that

62
00:02:50,949 --> 00:02:47,840
is our experiencer steph uh she is uh

63
00:02:53,430 --> 00:02:50,959

the the fifth member of the jackson five

64

00:02:55,509 --> 00:02:53,440

uh and we just gotta wait for uh michael

65

00:02:58,309 --> 00:02:55,519

and we gotta wait for tito and marlin

66

00:02:59,750 --> 00:02:58,319

but they'll be here shortly okay

67

00:03:01,589 --> 00:02:59,760

steph i had to put you on mute there was

68

00:03:03,589 --> 00:03:01,599

a little feedback happening i just uh

69

00:03:05,990 --> 00:03:03,599

want to draw your attention to it so

70

00:03:07,430 --> 00:03:06,000

uh dr nolan great to have you with us um

71

00:03:09,430 --> 00:03:07,440

i know you've been very busy i know

72

00:03:11,670 --> 00:03:09,440

you've recently uh you know been on

73

00:03:13,270 --> 00:03:11,680

vacation i i hope that was at least a

74

00:03:14,869 --> 00:03:13,280

little bit relaxing i know it wasn't

75

00:03:16,869 --> 00:03:14,879

maybe the perfect vacation you wanted

76

00:03:19,190 --> 00:03:16,879

but uh we're honored to have you with us

77

00:03:21,270 --> 00:03:19,200

this evening and just on a personal

78

00:03:23,350 --> 00:03:21,280

really grateful for what you are doing

79

00:03:25,190 --> 00:03:23,360

in this space and we are courage to kind

80

00:03:27,350 --> 00:03:25,200

of take this on i know it's not

81

00:03:28,789 --> 00:03:27,360

something that uh the academic community

82

00:03:30,470 --> 00:03:28,799

has um

83

00:03:32,390 --> 00:03:30,480

you know willingly wanted to take a look

84

00:03:33,830 --> 00:03:32,400

at shine a spotlight on but the fact

85

00:03:35,509 --> 00:03:33,840

that you've been willing to do that and

86

00:03:37,270 --> 00:03:35,519

kind of lead the way is uh it means a

87

00:03:39,350 --> 00:03:37,280

lot to to those of us who have an

88

00:03:41,190 --> 00:03:39,360

interest in this area so thank you

89

00:03:42,390 --> 00:03:41,200

yeah well thank you i mean

90

00:03:44,149 --> 00:03:42,400

i think you just have to look at some of

91

00:03:46,390 --> 00:03:44,159

the announcements today

92

00:03:50,229 --> 00:03:46,400

uh write the uh

93

00:03:53,030 --> 00:03:50,239

the renaming arrow better name yes

94

00:03:54,229 --> 00:03:53,040

that kirkpatrick is going to be the head

95

00:03:57,670 --> 00:03:54,239

of it the

96

00:04:00,390 --> 00:03:57,680

uh basically the wording in the

97

00:04:01,589 --> 00:04:00,400

ndaa for the defense department

98

00:04:02,789 --> 00:04:01,599

all

99

00:04:04,710 --> 00:04:02,799

supporting

100

00:04:06,789 --> 00:04:04,720

the basically the impetus and the

101
00:04:09,830 --> 00:04:06,799
direction that lou and chris

102
00:04:12,550 --> 00:04:09,840
charted out just a few years ago um and

103
00:04:15,670 --> 00:04:12,560
so i'm just super excited and the number

104
00:04:18,710 --> 00:04:15,680
of uh let's say mainstream scientists

105
00:04:20,789 --> 00:04:18,720
who send me emails saying gary

106
00:04:23,030 --> 00:04:20,799
you were right

107
00:04:25,510 --> 00:04:23,040
i is just it's just it's heartening

108
00:04:26,710 --> 00:04:25,520
actually that you know

109
00:04:28,390 --> 00:04:26,720
the the

110
00:04:29,270 --> 00:04:28,400
scientists in general don't like to be

111
00:04:31,270 --> 00:04:29,280
wrong

112
00:04:35,909 --> 00:04:31,280
but they're willing

113
00:04:39,270 --> 00:04:37,590

do you keep and i told you so bored gary

114

00:04:41,909 --> 00:04:39,280

do you yeah

115

00:04:44,390 --> 00:04:41,919

no but i do i do do quite a bit of i

116

00:04:46,629 --> 00:04:44,400

told you so

117

00:04:48,230 --> 00:04:46,639

you know keep them under my thumb

118

00:04:50,870 --> 00:04:48,240

you're gonna you're actually gonna have

119

00:04:53,030 --> 00:04:50,880

to do that i think uh here in the in the

120

00:04:54,950 --> 00:04:53,040

maybe not too distant future although i

121

00:04:57,510 --> 00:04:54,960

am sort of wedded to the idea that that

122

00:05:00,150 --> 00:04:57,520

this mystery won't be really revealed

123

00:05:03,029 --> 00:05:00,160

until after i'm gone uh but i do want to

124

00:05:05,350 --> 00:05:03,039

say um first of all i think it's awesome

125

00:05:06,870 --> 00:05:05,360

you're uh one of the the only guests

126

00:05:08,070 --> 00:05:06,880

we've had on that can use the word

127

00:05:11,749 --> 00:05:08,080

gestalt

128

00:05:13,830 --> 00:05:11,759

uh in a sentence uh and instantiated so

129

00:05:17,430 --> 00:05:13,840

i want to say thank you for improving my

130

00:05:23,830 --> 00:05:20,550

all right also i want to know if you

131

00:05:26,230 --> 00:05:23,840

think that this is coincidental or not

132

00:05:29,909 --> 00:05:26,240

that both you and my co-conspirator

133

00:05:32,550 --> 00:05:29,919

nathan both look like dr heineck

134

00:05:39,670 --> 00:05:32,560

is that just the jay allen connection

135

00:05:43,189 --> 00:05:40,790

yeah there could be some irish in there

136

00:05:44,390 --> 00:05:43,199

for sure definitely i'm irish german so

137

00:05:47,510 --> 00:05:44,400

oh nice

138

00:05:49,830 --> 00:05:47,520

okay that could that could explain it um

139

00:05:51,909 --> 00:05:49,840

yeah you are the rarest of birds i was

140

00:05:54,310 --> 00:05:51,919

you know being that you have so many

141

00:05:56,790 --> 00:05:54,320

colleagues with that come from you know

142

00:05:58,309 --> 00:05:56,800

other pathologists and and just people

143

00:05:59,830 --> 00:05:58,319

in science in general that come from

144

00:06:02,629 --> 00:05:59,840

your background

145

00:06:05,029 --> 00:06:02,639

and i'm i'm curious do you think that

146

00:06:07,350 --> 00:06:05,039

it's just being human

147

00:06:10,230 --> 00:06:07,360

in terms of uh

148

00:06:11,510 --> 00:06:10,240

not wanting to be derided for engaging

149

00:06:14,150 --> 00:06:11,520

this topic

150

00:06:17,029 --> 00:06:14,160

or was it that experience that you had

151

00:06:18,870 --> 00:06:17,039

as a youth i think that that you are a

152

00:06:21,510 --> 00:06:18,880

rare bird among your colleagues what do

153

00:06:23,909 --> 00:06:21,520

you think is is is the nature of that

154

00:06:26,550 --> 00:06:23,919

you know i i i

155

00:06:27,510 --> 00:06:26,560

it's a good question because i always

156

00:06:29,189 --> 00:06:27,520

wonder

157

00:06:31,110 --> 00:06:29,199

when i talk to other people other

158

00:06:32,950 --> 00:06:31,120

scientists about it

159

00:06:34,150 --> 00:06:32,960

why it isn't obvious to them that it's

160

00:06:36,629 --> 00:06:34,160

something that should be paid attention

161

00:06:38,390 --> 00:06:36,639

to i mean to me it's just obvious

162

00:06:39,430 --> 00:06:38,400

that this is interesting

163

00:06:41,990 --> 00:06:39,440

and

164

00:06:43,270 --> 00:06:42,000

when i do get them like behind closed

165

00:06:44,710 --> 00:06:43,280

doors or

166

00:06:45,990 --> 00:06:44,720

on the side where they're willing to be

167

00:06:48,230 --> 00:06:46,000

a little bit more

168

00:06:50,390 --> 00:06:48,240

uh open in their discussion they do

169

00:06:52,950 --> 00:06:50,400

admit the same kind of interest

170

00:06:55,029 --> 00:06:52,960

but for whatever reason there is that

171

00:06:56,950 --> 00:06:55,039

inhibition that they're afraid of what

172

00:06:59,350 --> 00:06:56,960

other people think about them

173

00:07:01,589 --> 00:06:59,360

and you know maybe this is just part of

174

00:07:03,589 --> 00:07:01,599

i mean i'm openly gay

175

00:07:05,830 --> 00:07:03,599

right and i went through

176

00:07:07,830 --> 00:07:05,840

uh you know i went i i didn't actually

177

00:07:10,629 --> 00:07:07,840

have a bad coming out but i did go

178

00:07:13,029 --> 00:07:10,639

through a situation at stanford where a

179

00:07:14,469 --> 00:07:13,039

senior faculty member you know said some

180

00:07:16,950 --> 00:07:14,479

things that were unfortunate and he

181

00:07:18,150 --> 00:07:16,960

ended up basically being forced out

182

00:07:21,990 --> 00:07:18,160

because

183

00:07:24,629 --> 00:07:22,000

um and so i think that

184

00:07:27,110 --> 00:07:24,639

being able to come out like that and

185

00:07:29,110 --> 00:07:27,120

then also time and again with the things

186

00:07:31,909 --> 00:07:29,120

that i've invented in my lab where i was

187

00:07:33,510 --> 00:07:31,919

told even by a very well-known nobel

188

00:07:34,629 --> 00:07:33,520

prize winner at one point oh that won't

189

00:07:36,790 --> 00:07:34,639

work

190

00:07:39,189 --> 00:07:36,800

uh and then that just to me

191

00:07:40,950 --> 00:07:39,199

is something inside of me says i'm going

192

00:07:43,270 --> 00:07:40,960

to prove it to you

193

00:07:44,629 --> 00:07:43,280

and because i know that i'm right and so

194

00:07:47,350 --> 00:07:44,639

it's like i'm not going to let you stop

195

00:07:49,670 --> 00:07:47,360

me and i know how to do it and so maybe

196

00:07:51,909 --> 00:07:49,680

it's just that i don't think it's

197

00:07:52,869 --> 00:07:51,919

i don't see it's courage i just see it

198

00:07:55,909 --> 00:07:52,879

as

199

00:07:59,990 --> 00:07:55,919

this is the right thing to do so let's

200

00:08:03,189 --> 00:08:00,000

go after it and oh my god if it is right

201

00:08:05,990 --> 00:08:03,199

the opportunities are endless

202

00:08:08,790 --> 00:08:06,000

and so i always look for opportunity and

203

00:08:10,550 --> 00:08:08,800

so i see tremendous opportunity in this

204

00:08:13,909 --> 00:08:10,560

first of all i mean as people have said

205

00:08:17,670 --> 00:08:13,919

before can it bring people together

206

00:08:18,869 --> 00:08:17,680

perhaps will it help dissolve walls

207

00:08:20,790 --> 00:08:18,879

probably

208

00:08:23,189 --> 00:08:20,800

um will it give us a different

209

00:08:25,029 --> 00:08:23,199

perspective on the physics or the

210

00:08:26,390 --> 00:08:25,039

spiritual nature of the universe of

211

00:08:29,189 --> 00:08:26,400

course so

212

00:08:31,510 --> 00:08:29,199

let's just do it

213

00:08:34,550 --> 00:08:31,520

i i i it's just like why

214

00:08:37,029 --> 00:08:34,560
and why we have these skeptics

215

00:08:39,750 --> 00:08:37,039
out there just like peppering i mean

216

00:08:41,990 --> 00:08:39,760
they're becoming less relevant every day

217

00:08:43,909 --> 00:08:42,000
i mean just in the last week

218

00:08:45,030 --> 00:08:43,919
way less relevant so i was like okay you

219

00:08:46,630 --> 00:08:45,040
know i'm not even going to spend any

220

00:08:48,230 --> 00:08:46,640
time thinking about them anymore i mean

221

00:08:50,070 --> 00:08:48,240
it's it's hard

222

00:08:51,590 --> 00:08:50,080
but you know just forget it and let's

223

00:08:53,350 --> 00:08:51,600
move forward because every day is

224

00:08:55,590 --> 00:08:53,360
putting them further and further in the

225

00:08:57,590 --> 00:08:55,600
rearview mirror

226

00:09:00,150 --> 00:08:57,600

it's funny that i had i also have a

227

00:09:02,310 --> 00:09:00,160

question for you about that that and ian

228

00:09:04,070 --> 00:09:02,320

doley when we spoke on the phone he also

229

00:09:06,550 --> 00:09:04,080

i said i have that same question james

230

00:09:08,150 --> 00:09:06,560

i'll get i'll get there uh but anyway

231

00:09:10,310 --> 00:09:08,160

let me uh let me go back to either

232

00:09:11,990 --> 00:09:10,320

nathan or steph uh steph are you ready

233

00:09:13,269 --> 00:09:12,000

with your

234

00:09:17,110 --> 00:09:13,279

yeah

235

00:09:19,509 --> 00:09:17,120

sure absolutely hi it's great to be be

236

00:09:21,910 --> 00:09:19,519

here with all of you and yeah it's an

237

00:09:25,030 --> 00:09:21,920

honor to to be in the same chat room

238

00:09:27,110 --> 00:09:25,040

here with you guys so um yes so i

239

00:09:29,750 --> 00:09:27,120

recently went to the ufo disclosure

240

00:09:32,150 --> 00:09:29,760

symposium and was surrounded by you know

241

00:09:34,550 --> 00:09:32,160

the scientists that have been

242

00:09:38,389 --> 00:09:34,560

speaking upon the subject and i recently

243

00:09:39,230 --> 00:09:38,399

posed this question to him as a test

244

00:09:42,070 --> 00:09:39,240

among

245

00:09:42,790 --> 00:09:42,080

experiencers so what are your thoughts

246

00:09:45,710 --> 00:09:42,800

on

247

00:09:48,070 --> 00:09:45,720

experimenter group research using

248

00:09:50,949 --> 00:09:48,080

electromagnetic frequencies in

249

00:09:53,990 --> 00:09:50,959

comparison to non-experiencers

250

00:09:55,910 --> 00:09:54,000

to create more data-driven analysis

251
00:09:57,350 --> 00:09:55,920
on experiencers

252
00:09:59,590 --> 00:09:57,360
what do you mean by electromagnetic

253
00:10:03,269 --> 00:09:59,600
frequencies

254
00:10:04,870 --> 00:10:03,279
so using some sort of a detection

255
00:10:05,750 --> 00:10:04,880
um

256
00:10:07,910 --> 00:10:05,760
on

257
00:10:09,990 --> 00:10:07,920
say for instance when you're measuring

258
00:10:12,150 --> 00:10:10,000
uh electromagnetic field

259
00:10:15,350 --> 00:10:12,160
in your home say for instance when

260
00:10:17,509 --> 00:10:15,360
you're you know on actual experiencers

261
00:10:20,870 --> 00:10:17,519
and people because they do claim that

262
00:10:22,310 --> 00:10:20,880
they have these electricity type static

263
00:10:24,069 --> 00:10:22,320

feelings happening

264

00:10:25,030 --> 00:10:24,079

so and i've actually experienced it

265

00:10:25,990 --> 00:10:25,040

myself

266

00:10:27,670 --> 00:10:26,000

as well

267

00:10:29,670 --> 00:10:27,680

okay so there's let me sort of separate

268

00:10:32,949 --> 00:10:29,680

this then so you're asking about two

269

00:10:35,430 --> 00:10:32,959

things one is there an area specific

270

00:10:37,590 --> 00:10:35,440

electromagnetic frequency change because

271

00:10:38,470 --> 00:10:37,600

somebody's beaming something at you

272

00:10:41,190 --> 00:10:38,480

yes

273

00:10:43,590 --> 00:10:41,200

and then two is there something coming

274

00:10:46,230 --> 00:10:43,600

from the inside

275

00:10:49,269 --> 00:10:46,240

that is being generated that you feel

276

00:10:51,190 --> 00:10:49,279

but and so can you detect that

277

00:10:53,350 --> 00:10:51,200

correct well i think there's probably a

278

00:10:55,190 --> 00:10:53,360

good proportion for the latter one of

279

00:10:57,509 --> 00:10:55,200

the population walking around right now

280

00:11:01,190 --> 00:10:57,519

with those various wristbands on

281

00:11:03,590 --> 00:11:01,200

sure and so i guess one experiment to do

282

00:11:05,910 --> 00:11:03,600

would be to get uh some appropriate

283

00:11:09,030 --> 00:11:05,920

group with an app that would download

284

00:11:10,710 --> 00:11:09,040

that data and correlate it to

285

00:11:12,310 --> 00:11:10,720

you know some observation that they made

286

00:11:13,030 --> 00:11:12,320

at the time

287

00:11:14,470 --> 00:11:13,040

right

288

00:11:16,630 --> 00:11:14,480

so i think that would be one way to look

289

00:11:18,310 --> 00:11:16,640

for the in the internal changes that

290

00:11:19,590 --> 00:11:18,320

might occur i mean you might not measure

291

00:11:20,790 --> 00:11:19,600

i mean the problem is we can't run

292

00:11:21,509 --> 00:11:20,800

around with

293

00:11:22,310 --> 00:11:21,519

a

294

00:11:25,350 --> 00:11:22,320

uh

295

00:11:27,509 --> 00:11:25,360

an emf detector right

296

00:11:28,949 --> 00:11:27,519

like because it's just the range of

297

00:11:31,430 --> 00:11:28,959

frequencies is so broad that there's no

298

00:11:32,870 --> 00:11:31,440

one detector that measures at all

299

00:11:34,389 --> 00:11:32,880

you've got to basically pick parts of

300

00:11:37,990 --> 00:11:34,399

the spectra

301
00:11:39,910 --> 00:11:38,000
or you would do what i think really um

302
00:11:41,670 --> 00:11:39,920
that calm kelleher

303
00:11:43,670 --> 00:11:41,680
often would talk about and was in all of

304
00:11:44,550 --> 00:11:43,680
those released um

305
00:11:50,470 --> 00:11:44,560
bass

306
00:11:53,350 --> 00:11:50,480
lose track um that basically using the

307
00:11:55,829 --> 00:11:53,360
human as the detection device

308
00:11:57,030 --> 00:11:55,839
um a lot of people out there have said

309
00:11:58,790 --> 00:11:57,040
um

310
00:12:01,269 --> 00:11:58,800
oh well they're basically just using

311
00:12:02,870 --> 00:12:01,279
humans as bait no that wasn't the point

312
00:12:04,870 --> 00:12:02,880
the point was that when something

313
00:12:06,790 --> 00:12:04,880

happens to a person

314

00:12:09,829 --> 00:12:06,800

consider that an event that is

315

00:12:12,069 --> 00:12:09,839

measurable and usable so there's that

316

00:12:15,350 --> 00:12:12,079

now i happen to have one of those

317

00:12:17,509 --> 00:12:15,360

detectors sitting over right here given

318

00:12:18,629 --> 00:12:17,519

to me by you know some of the usual

319

00:12:21,509 --> 00:12:18,639

suspects

320

00:12:23,350 --> 00:12:21,519

and uh nothing unusual has showed up my

321

00:12:24,389 --> 00:12:23,360

brother has one he gets a lot of unusual

322

00:12:27,030 --> 00:12:24,399

stuff

323

00:12:29,829 --> 00:12:27,040

uh but um i mean he's much more of an

324

00:12:33,190 --> 00:12:29,839

experimenter than i am

325

00:12:34,550 --> 00:12:33,200

and so i you know i why not let's do it

326

00:12:37,030 --> 00:12:34,560

i mean we do know that there's a that

327

00:12:39,670 --> 00:12:37,040

there's a specific frequency associated

328

00:12:41,829 --> 00:12:39,680

with some of these

329

00:12:42,949 --> 00:12:41,839

alleged craft i'll keep saying alleged

330

00:12:45,430 --> 00:12:42,959

just because

331

00:12:46,290 --> 00:12:45,440

jason paul velveto out there is always

332

00:12:47,990 --> 00:12:46,300

looking for something

333

00:12:50,629 --> 00:12:48,000

[Laughter]

334

00:12:53,509 --> 00:12:50,639

uh too he's written me about me

335

00:12:56,470 --> 00:12:53,519

something like 15 times

336

00:12:58,550 --> 00:12:56,480

it's like he's obsessed with me

337

00:13:01,269 --> 00:12:58,560

you're not my type

338

00:13:02,870 --> 00:13:01,279

he's attracted to you

339

00:13:07,030 --> 00:13:02,880

this is part of his dating ritual you

340

00:13:11,269 --> 00:13:09,110

well you know so if you are saying that

341

00:13:13,269 --> 00:13:11,279

this is something that it's possible

342

00:13:16,069 --> 00:13:13,279

that we we could test

343

00:13:17,910 --> 00:13:16,079

you know like a uh group

344

00:13:20,470 --> 00:13:17,920

like group experiments basically on

345

00:13:21,910 --> 00:13:20,480

experiences non-experiencers i mean i've

346

00:13:25,350 --> 00:13:21,920

got a few people that are already on

347

00:13:26,790 --> 00:13:25,360

board so we may be contacting you

348

00:13:28,150 --> 00:13:26,800

well you know i mean the thing is that

349

00:13:31,110 --> 00:13:28,160

it's it's

350

00:13:33,509 --> 00:13:31,120

what you want to do is is just set up to

351
00:13:35,430 --> 00:13:33,519
design what a study would look like and

352
00:13:37,190 --> 00:13:35,440
over what time frame and what kinds of

353
00:13:39,590 --> 00:13:37,200
people are you know you need what's

354
00:13:42,150 --> 00:13:39,600
called inclusion and exclusion criteria

355
00:13:43,990 --> 00:13:42,160
i would treat this like a clinical trial

356
00:13:46,069 --> 00:13:44,000
right exactly you know where you

357
00:13:48,870 --> 00:13:46,079
basically very carefully monitor who's

358
00:13:52,389 --> 00:13:48,880
in and who's out of the cohorts

359
00:13:54,150 --> 00:13:52,399
uh and then decide what uh is a real

360
00:13:55,030 --> 00:13:54,160
signal and what's not

361
00:13:55,910 --> 00:13:55,040
um

362
00:14:00,069 --> 00:13:55,920
and

363
00:14:01,430 --> 00:14:00,079

it right it's gotta be double blinded

364

00:14:02,870 --> 00:14:01,440

in other words people have to have

365

00:14:05,189 --> 00:14:02,880

detectors that they don't know aren't

366

00:14:07,990 --> 00:14:05,199

working

367

00:14:09,189 --> 00:14:08,000

right yep yeah i mean that's how you

368

00:14:10,629 --> 00:14:09,199

that's how you would do it that's how

369

00:14:12,470 --> 00:14:10,639

you would convince people that the

370

00:14:14,150 --> 00:14:12,480

signals that you're seeing

371

00:14:17,430 --> 00:14:14,160

are real or are not

372

00:14:19,910 --> 00:14:17,440

right right it's important to test on

373

00:14:21,829 --> 00:14:19,920

non-experiencers as well to see is there

374

00:14:23,750 --> 00:14:21,839

an actual difference that people are

375

00:14:26,069 --> 00:14:23,760

claiming

376

00:14:28,150 --> 00:14:26,079

dr nolan i i like to look at things from

377

00:14:31,189 --> 00:14:28,160

a scientific perspective also a lot of

378

00:14:34,150 --> 00:14:31,199

people don't know that

379

00:14:35,590 --> 00:14:34,160

up here uh and so you know i just wanted

380

00:14:38,150 --> 00:14:35,600

to run this by you because i had this

381

00:14:41,030 --> 00:14:38,160

experience and basically after

382

00:14:43,110 --> 00:14:41,040

interacting with experiencers and then

383

00:14:44,870 --> 00:14:43,120

going back and then finding that my

384

00:14:47,509 --> 00:14:44,880

workout clothing smelled like a

385

00:14:50,150 --> 00:14:47,519

combination of minestrone soup and

386

00:14:52,629 --> 00:14:50,160

french fries so i'm curious if you've

387

00:14:54,230 --> 00:14:52,639

experienced anything like that now

388

00:14:56,470 --> 00:14:54,240

you're dealing with

389

00:14:59,269 --> 00:14:56,480

experience only uh

390

00:15:01,750 --> 00:14:59,279

only found wine and filet mignon

391

00:15:03,670 --> 00:15:01,760

okay all right so it so all right so

392

00:15:05,110 --> 00:15:03,680

maybe we it's a different scent but

393

00:15:07,030 --> 00:15:05,120

there could be something there at least

394

00:15:08,550 --> 00:15:07,040

that we could look at so nathan take it

395

00:15:10,550 --> 00:15:08,560

away sir

396

00:15:12,710 --> 00:15:10,560

yeah so well i did have a prepared

397

00:15:15,110 --> 00:15:12,720

question but i want to stay a minute on

398

00:15:17,110 --> 00:15:15,120

this experience or topic and

399

00:15:19,110 --> 00:15:17,120

because it is so important to many

400

00:15:22,550 --> 00:15:19,120

people and you've mentioned before you

401
00:15:24,150 --> 00:15:22,560
have some experience in your family

402
00:15:26,550 --> 00:15:24,160
and maybe some of your own experience

403
00:15:28,949 --> 00:15:26,560
and we've had a lot of conversations

404
00:15:29,749 --> 00:15:28,959
with experiencers through the show

405
00:15:32,629 --> 00:15:29,759
and

406
00:15:34,870 --> 00:15:32,639
you probably know how very personal it

407
00:15:36,949 --> 00:15:34,880
becomes for someone that's had an event

408
00:15:39,430 --> 00:15:36,959
like this who's seeking answers and do

409
00:15:41,269 --> 00:15:39,440
you do you have this sense that we

410
00:15:43,110 --> 00:15:41,279
through efforts like your own and

411
00:15:44,870 --> 00:15:43,120
through what we're seeing in in the

412
00:15:46,550 --> 00:15:44,880
public discourse that we're getting a

413
00:15:49,030 --> 00:15:46,560

little closer to some of these answers

414

00:15:50,710 --> 00:15:49,040

or are we really just at the very

415

00:15:53,110 --> 00:15:50,720

beginning we're kind of unraveling more

416

00:15:54,790 --> 00:15:53,120

questions what's your sense there i mean

417

00:15:57,350 --> 00:15:54,800

i don't think we're getting closer to

418

00:15:59,350 --> 00:15:57,360

answers but we're getting closer to

419

00:16:00,470 --> 00:15:59,360

admitting that the question is worth

420

00:16:03,189 --> 00:16:00,480

asking

421

00:16:06,069 --> 00:16:03,199

right and admitting to people who have

422

00:16:07,990 --> 00:16:06,079

had the experience that they did

423

00:16:09,829 --> 00:16:08,000

experience something real what it means

424

00:16:11,910 --> 00:16:09,839

is yet to be understood

425

00:16:12,870 --> 00:16:11,920

right i mean this is something that john

426
00:16:15,670 --> 00:16:12,880
mack

427
00:16:18,790 --> 00:16:15,680
approached in the very same way and so

428
00:16:21,670 --> 00:16:18,800
if anything we're relearning the lessons

429
00:16:23,189 --> 00:16:21,680
he already taught

430
00:16:24,069 --> 00:16:23,199
but

431
00:16:27,269 --> 00:16:24,079
it's

432
00:16:29,110 --> 00:16:27,279
part of i think the good part of social

433
00:16:31,110 --> 00:16:29,120
media is it gives people that

434
00:16:33,350 --> 00:16:31,120
opportunity to connect that otherwise

435
00:16:35,749 --> 00:16:33,360
they would have been siloed

436
00:16:36,949 --> 00:16:35,759
you know in iowa or somewhere else where

437
00:16:39,670 --> 00:16:36,959
they couldn't meet these other

438
00:16:41,749 --> 00:16:39,680

individuals and talk through it but i

439

00:16:43,509 --> 00:16:41,759

think what's going to happen or need to

440

00:16:45,829 --> 00:16:43,519

happen at some point and i've seen a few

441

00:16:47,269 --> 00:16:45,839

papers begin this

442

00:16:49,269 --> 00:16:47,279

uh where

443

00:16:51,189 --> 00:16:49,279

you know we need to make a list of the

444

00:16:52,870 --> 00:16:51,199

kinds of people what their professions

445

00:16:54,629 --> 00:16:52,880

are what their

446

00:16:57,350 --> 00:16:54,639

uh you know what their experiences have

447

00:17:00,230 --> 00:16:57,360

been and start to collate uh the

448

00:17:01,110 --> 00:17:00,240

totality of these experiences

449

00:17:03,590 --> 00:17:01,120

with

450

00:17:05,590 --> 00:17:03,600

just a pure data collection

451
00:17:08,230 --> 00:17:05,600
mentality about it

452
00:17:09,590 --> 00:17:08,240
because it's it it

453
00:17:11,189 --> 00:17:09,600
we can go back through the literature

454
00:17:14,230 --> 00:17:11,199
and find many examples of what have been

455
00:17:15,429 --> 00:17:14,240
written but that's all biased in in many

456
00:17:17,590 --> 00:17:15,439
ways that's

457
00:17:18,949 --> 00:17:17,600
things that have been self-reported

458
00:17:22,150 --> 00:17:18,959
and then

459
00:17:23,669 --> 00:17:22,160
chosen by whoever the writer was to

460
00:17:25,990 --> 00:17:23,679
write about it so there's a lot of bias

461
00:17:27,669 --> 00:17:26,000
inherent in that data so you need a much

462
00:17:29,270 --> 00:17:27,679
more open

463
00:17:30,710 --> 00:17:29,280

data set that's more objectively

464

00:17:32,630 --> 00:17:30,720
collected

465

00:17:34,870 --> 00:17:32,640
and then analyzed

466

00:17:36,470 --> 00:17:34,880
uh and so i think that i think that's

467

00:17:38,710 --> 00:17:36,480
the best thing that's come out of it

468

00:17:40,390 --> 00:17:38,720
nathan that we've

469

00:17:43,350 --> 00:17:40,400
admitted that there's it's worth looking

470

00:17:45,590 --> 00:17:43,360
at the government finally daddy has

471

00:17:47,830 --> 00:17:45,600
finally told us that it's okay to do

472

00:17:49,590 --> 00:17:47,840
this for money whatever you know if

473

00:17:51,830 --> 00:17:49,600
you've got money or daddy issues you

474

00:17:59,669 --> 00:17:55,270
you know

475

00:18:02,310 --> 00:17:59,679
seeing or experiencing

476

00:18:05,350 --> 00:18:02,320

has a reality whatever that reality is

477

00:18:07,190 --> 00:18:05,360

right it's validating and uh you know on

478

00:18:09,510 --> 00:18:07,200

that point i've always talked about this

479

00:18:11,669 --> 00:18:09,520

disclosure as really an unfolding

480

00:18:13,430 --> 00:18:11,679

process you know there's kind of a

481

00:18:15,510 --> 00:18:13,440

we're setting permission for each other

482

00:18:16,950 --> 00:18:15,520

by by laying some of these things on the

483

00:18:19,270 --> 00:18:16,960

table and saying

484

00:18:21,350 --> 00:18:19,280

this is valid and then in response the

485

00:18:23,110 --> 00:18:21,360

public is saying well if that is valid

486

00:18:25,350 --> 00:18:23,120

then what about this and that becomes

487

00:18:27,270 --> 00:18:25,360

more valid and so it's a recursive

488

00:18:31,110 --> 00:18:27,280

process it's not just a one and done

489

00:18:33,909 --> 00:18:32,950

i want to pass it over yeah sorry go

490

00:18:36,549 --> 00:18:33,919

ahead

491

00:18:39,430 --> 00:18:36,559

okay uh kev so you haven't met uh some

492

00:18:41,430 --> 00:18:39,440

of the best hair on the entire show is

493

00:18:44,310 --> 00:18:41,440

uh some one of our guys that works with

494

00:18:46,070 --> 00:18:44,320

the children and that is kevin

495

00:18:47,590 --> 00:18:46,080

what's up what's up

496

00:18:48,630 --> 00:18:47,600

welcome how's it going can you guys hear

497

00:18:49,430 --> 00:18:48,640

me

498

00:18:50,630 --> 00:18:49,440

yeah

499

00:18:52,470 --> 00:18:50,640

it sounds great

500

00:18:55,430 --> 00:18:52,480

cool what's up did you use conditioner

501
00:18:55,830 --> 00:18:55,440
for for dr nolan

502
00:18:59,350 --> 00:18:55,840
actually just

503
00:19:00,150 --> 00:18:59,360
just did i just got home yeah i know

504
00:19:02,630 --> 00:19:00,160
um

505
00:19:06,230 --> 00:19:02,640
so we're you're talking about data and

506
00:19:09,430 --> 00:19:06,240
i'm big on data i i work with kids with

507
00:19:11,270 --> 00:19:09,440
diagnosed with autism since 2006.

508
00:19:13,270 --> 00:19:11,280
so um i think i i would have to agree

509
00:19:16,230 --> 00:19:13,280
with you i think that we should should

510
00:19:17,510 --> 00:19:16,240
be more scientific and objective um i i

511
00:19:19,430 --> 00:19:17,520
mean

512
00:19:21,270 --> 00:19:19,440
first of all for the listeners i want to

513
00:19:23,669 --> 00:19:21,280

go over what an operational definition

514

00:19:25,190 --> 00:19:23,679

is so operational definition applied to

515

00:19:26,310 --> 00:19:25,200

data collection so it's a clear and

516

00:19:28,950 --> 00:19:26,320

concise

517

00:19:30,870 --> 00:19:28,960

detailed definition of measurement

518

00:19:33,270 --> 00:19:30,880

the need for operational definition it's

519

00:19:35,110 --> 00:19:33,280

like it's fundamental when collecting

520

00:19:36,710 --> 00:19:35,120

any type of data in science otherwise

521

00:19:38,710 --> 00:19:36,720

we're collecting data on

522

00:19:41,029 --> 00:19:38,720

nothing so alexander he gave us a

523

00:19:43,110 --> 00:19:41,039

working operational definition of what a

524

00:19:44,230 --> 00:19:43,120

uap is with his five observables and

525

00:19:45,029 --> 00:19:44,240

that's based

526

00:19:47,430 --> 00:19:45,039

on

527

00:19:49,029 --> 00:19:47,440

specific observable and measurable data

528

00:19:51,190 --> 00:19:49,039

that's what he's calling for so does

529

00:19:53,669 --> 00:19:51,200

having that operational definition do

530

00:19:56,230 --> 00:19:53,679

you think it devalues

531

00:19:57,990 --> 00:19:56,240

data that was collected prior especially

532

00:19:59,990 --> 00:19:58,000

those um

533

00:20:02,390 --> 00:20:00,000

that might have been selected using

534

00:20:04,710 --> 00:20:02,400

interpretation and speculation

535

00:20:06,789 --> 00:20:04,720

yeah no i don't think it devalues it i

536

00:20:10,230 --> 00:20:06,799

think it it gives us a chance to

537

00:20:11,669 --> 00:20:10,240

recontext it you know to go back and say

538

00:20:14,149 --> 00:20:11,679

well did did

539

00:20:16,230 --> 00:20:14,159

which of these did it meet but one of

540

00:20:19,190 --> 00:20:16,240

the things that lou is doing and i've

541

00:20:22,390 --> 00:20:19,200

come to meet a fair number of people

542

00:20:25,190 --> 00:20:22,400

let's say on the inside who have

543

00:20:27,669 --> 00:20:25,200

um they have a way of talking about this

544

00:20:30,950 --> 00:20:27,679

stuff with a lot of acronyms

545

00:20:32,870 --> 00:20:30,960

uh that are very militarily inclined

546

00:20:35,190 --> 00:20:32,880

uh which is fine because that's how

547

00:20:38,470 --> 00:20:35,200

that's their job that's their profession

548

00:20:41,510 --> 00:20:38,480

and so they're applying that approach to

549

00:20:45,029 --> 00:20:43,350

they love lists

550

00:20:47,270 --> 00:20:45,039

and they love things that they can check

551
00:20:49,029 --> 00:20:47,280
off and fix it in categories the only

552
00:20:50,630 --> 00:20:49,039
thing i would add to

553
00:20:52,310 --> 00:20:50,640
lou's list

554
00:20:54,149 --> 00:20:52,320
is a number six

555
00:20:55,110 --> 00:20:54,159
other

556
00:20:58,070 --> 00:20:55,120
wow

557
00:21:01,270 --> 00:20:58,080
as a bucket into which we throw

558
00:21:04,230 --> 00:21:01,280
things that didn't fit those

559
00:21:05,990 --> 00:21:04,240
for later contacting to make them six

560
00:21:07,990 --> 00:21:06,000
seven eight and nine

561
00:21:09,990 --> 00:21:08,000
right i think that's the only thing that

562
00:21:11,750 --> 00:21:10,000
is missing from

563
00:21:14,549 --> 00:21:11,760

the five observables because there might

564

00:21:17,190 --> 00:21:14,559

be a sixth observable that

565

00:21:18,789 --> 00:21:17,200

we just haven't really noticed yet right

566

00:21:20,630 --> 00:21:18,799

sort of the ropes feldi and the known

567

00:21:22,950 --> 00:21:20,640

unknowns and the the known knows the

568

00:21:24,710 --> 00:21:22,960

known ones right now right i i also

569

00:21:27,110 --> 00:21:24,720

think we could expand on that to say

570

00:21:28,789 --> 00:21:27,120

that humans just in general not even

571

00:21:30,950 --> 00:21:28,799

only military people they want to put

572

00:21:33,190 --> 00:21:30,960

something in a box and when they're

573

00:21:35,909 --> 00:21:33,200

they're looking at something that they

574

00:21:38,390 --> 00:21:35,919

have no box to put it in that's when

575

00:21:40,070 --> 00:21:38,400

either something positive can occur

576

00:21:42,870 --> 00:21:40,080

positive meaning a discussion like this

577

00:21:44,870 --> 00:21:42,880

and something negative could be uh

578

00:21:46,549 --> 00:21:44,880

saying it doesn't exist it didn't happen

579

00:21:48,070 --> 00:21:46,559

it's not real

580

00:21:50,630 --> 00:21:48,080

yeah a lot of that is our culture of

581

00:21:52,230 --> 00:21:50,640

reductionism also you know we tend to we

582

00:21:54,230 --> 00:21:52,240

tend to do that that's just how we view

583

00:21:57,990 --> 00:21:54,240

everything

584

00:22:00,310 --> 00:21:58,000

yeah i know i i agree it's um

585

00:22:02,070 --> 00:22:00,320

you know when i look at all of the

586

00:22:03,750 --> 00:22:02,080

numbers of well

587

00:22:05,750 --> 00:22:03,760

here's one way to think about it there

588

00:22:07,909 --> 00:22:05,760

is so much data we're going to be

589

00:22:09,909 --> 00:22:07,919

throwing a lot of it away

590

00:22:11,909 --> 00:22:09,919

right i mean just look at the number of

591

00:22:13,830 --> 00:22:11,919

sightings that are occurring

592

00:22:15,830 --> 00:22:13,840

you know every day i mean not all of the

593

00:22:17,430 --> 00:22:15,840

videos that are put up

594

00:22:19,909 --> 00:22:17,440

are hoaxes

595

00:22:21,750 --> 00:22:19,919

and they seem to be put up by credible

596

00:22:23,750 --> 00:22:21,760

people and it's just like okay well if

597

00:22:26,470 --> 00:22:23,760

it's a hoax who's who cares i mean

598

00:22:28,950 --> 00:22:26,480

you're not getting that many views so

599

00:22:30,310 --> 00:22:28,960

all of this data now and so i think we

600

00:22:32,630 --> 00:22:30,320

can be

601
00:22:33,669 --> 00:22:32,640
uh conservative in what we are going to

602
00:22:35,270 --> 00:22:33,679
include

603
00:22:38,230 --> 00:22:35,280
at the beginning because you need a

604
00:22:41,029 --> 00:22:38,240
small set that is absolutely invaluable

605
00:22:43,590 --> 00:22:41,039
uh that you can then move forward with

606
00:22:45,270 --> 00:22:43,600
and then make it bigger and and and and

607
00:22:46,710 --> 00:22:45,280
bigger in terms of the

608
00:22:47,750 --> 00:22:46,720
the opportunity

609
00:22:49,190 --> 00:22:47,760
um

610
00:22:51,190 --> 00:22:49,200
you know i i

611
00:22:54,230 --> 00:22:51,200
i know from other

612
00:22:56,149 --> 00:22:54,240
let's say places that

613
00:22:57,270 --> 00:22:56,159

there is so much data already on the

614

00:23:00,310 --> 00:22:57,280

inside

615

00:23:02,070 --> 00:23:00,320

that if any of that were to get outside

616

00:23:03,190 --> 00:23:02,080

it would keep several research

617

00:23:05,510 --> 00:23:03,200

institutes

618

00:23:06,390 --> 00:23:05,520

full-time occupation

619

00:23:08,070 --> 00:23:06,400

wow

620

00:23:09,990 --> 00:23:08,080

amazing and we're building a data set

621

00:23:11,350 --> 00:23:10,000

right here so far we have workout gear

622

00:23:13,270 --> 00:23:11,360

that smells like french fries and

623

00:23:15,430 --> 00:23:13,280

minestrone filet mignon and i thought

624

00:23:18,470 --> 00:23:15,440

nathan was gonna say oh mine smells like

625

00:23:19,430 --> 00:23:18,480

a monte cristo but uh actually

626

00:23:28,950 --> 00:23:19,440

we

627

00:23:31,909 --> 00:23:28,960

very proud of her and that is our

628

00:23:33,750 --> 00:23:31,919

researcher uh a study of uaps the host

629

00:23:37,110 --> 00:23:33,760

of deb's data dojo right there at the

630

00:23:39,029 --> 00:23:37,120

bottom of your screen deb hey there it's

631

00:23:40,390 --> 00:23:39,039

good to finally get to talk to you

632

00:23:42,230 --> 00:23:40,400

actually i've talked to you a couple of

633

00:23:45,430 --> 00:23:42,240

times but at least i get to talk to you

634

00:23:47,110 --> 00:23:45,440

here yay very exciting you're awesome

635

00:23:48,789 --> 00:23:47,120

um

636

00:23:51,110 --> 00:23:48,799

so i guess i'll go into my first

637

00:23:53,909 --> 00:23:51,120

question my first question was that um

638

00:23:57,269 --> 00:23:53,919

it's been said that the cia came to you

639

00:24:00,390 --> 00:23:57,279

to do the research related to the brain

640

00:24:01,590 --> 00:24:00,400

and to study the i can't say it i'm not

641

00:24:03,990 --> 00:24:01,600

even going to try to say it i want to

642

00:24:05,350 --> 00:24:04,000

say that

643

00:24:08,070 --> 00:24:05,360

you i've tried so hard to say it i

644

00:24:11,750 --> 00:24:08,080

cannot do it i'm not going to do it now

645

00:24:14,310 --> 00:24:12,330

yes

646

00:24:16,789 --> 00:24:14,320

[Laughter]

647

00:24:17,669 --> 00:24:16,799

oh damn titanium

648

00:24:18,950 --> 00:24:17,679

okay

649

00:24:21,110 --> 00:24:18,960

one day one day

650

00:24:22,789 --> 00:24:21,120

it's all good i was i was wondering if

651
00:24:25,430 --> 00:24:22,799
you could tell us

652
00:24:27,350 --> 00:24:25,440
um if they had you

653
00:24:29,430 --> 00:24:27,360
do an nda and if there's some

654
00:24:31,909 --> 00:24:29,440
information that working with the cia

655
00:24:33,430 --> 00:24:31,919
you were just not allowed to convey and

656
00:24:35,669 --> 00:24:33,440
even why it is you were allowed to

657
00:24:38,950 --> 00:24:35,679
convey what you did

658
00:24:41,590 --> 00:24:38,960
um no i was i mean i was asked to keep

659
00:24:42,549 --> 00:24:41,600
it the information private

660
00:24:44,789 --> 00:24:42,559
because

661
00:24:47,029 --> 00:24:44,799
it was about individuals

662
00:24:48,310 --> 00:24:47,039
uh and you know sort of a hipaa

663
00:24:49,909 --> 00:24:48,320

compliance

664

00:24:51,510 --> 00:24:49,919

kind of rule because some of the

665

00:24:52,390 --> 00:24:51,520

individuals names

666

00:24:55,590 --> 00:24:52,400

were

667

00:24:58,310 --> 00:24:55,600

revealed to me because i asked

668

00:24:59,990 --> 00:24:58,320

to meet them i wanted to hear from them

669

00:25:01,350 --> 00:25:00,000

and you know one of the things and this

670

00:25:02,870 --> 00:25:01,360

was related to one of the other

671

00:25:05,669 --> 00:25:02,880

questions uh

672

00:25:08,230 --> 00:25:05,679

steph that you had asked about um

673

00:25:10,070 --> 00:25:08,240

you know measurements on humans

674

00:25:12,470 --> 00:25:10,080

what they asked me to do and the reason

675

00:25:15,590 --> 00:25:12,480

they came to me was not to look at the

676
00:25:18,149 --> 00:25:15,600
brain um was to

677
00:25:19,510 --> 00:25:18,159
utilize one of the instruments in my

678
00:25:21,990 --> 00:25:19,520
laboratory

679
00:25:23,110 --> 00:25:22,000
that had been developed for measuring

680
00:25:26,269 --> 00:25:23,120
blood

681
00:25:29,110 --> 00:25:26,279
events it was called cytoph mass

682
00:25:30,870 --> 00:25:29,120
cytometry it was something we developed

683
00:25:32,470 --> 00:25:30,880
that allowed you to look deeper into the

684
00:25:33,590 --> 00:25:32,480
immune system than anybody could and

685
00:25:34,870 --> 00:25:33,600
still is

686
00:25:37,430 --> 00:25:34,880
the high-end

687
00:25:38,230 --> 00:25:37,440
instrument for this kind of purpose

688
00:25:40,230 --> 00:25:38,240

um

689

00:25:41,990 --> 00:25:40,240

and so that was why they came because

690

00:25:44,870 --> 00:25:42,000

they wanted because many of the

691

00:25:46,870 --> 00:25:44,880

individuals who had been hurt

692

00:25:49,269 --> 00:25:46,880

uh had experienced what you would call

693

00:25:51,669 --> 00:25:49,279

inflammatory events i mean if you you

694

00:25:54,149 --> 00:25:51,679

know i was shown some pictures of of

695

00:25:55,269 --> 00:25:54,159

like red spots you know down somebody's

696

00:26:00,070 --> 00:25:55,279

back

697

00:26:05,350 --> 00:26:02,149

fully called inflammatory events right

698

00:26:06,789 --> 00:26:05,360

some sort of inflammatory signature

699

00:26:09,350 --> 00:26:06,799

and so there's all kinds of immune

700

00:26:10,470 --> 00:26:09,360

system activation events that occur

701
00:26:13,350 --> 00:26:10,480
during this

702
00:26:15,510 --> 00:26:13,360
and the general class of of signals that

703
00:26:16,630 --> 00:26:15,520
are generated during wounds and things

704
00:26:21,029 --> 00:26:16,640
are called

705
00:26:23,430 --> 00:26:21,039
you know i think appropriately alarming

706
00:26:25,669 --> 00:26:23,440
sort of a general class of proteins are

707
00:26:27,029 --> 00:26:25,679
called alarmins and they get secreted

708
00:26:29,029 --> 00:26:27,039
you might hear the term cytokine

709
00:26:30,870 --> 00:26:29,039
occasionally and they turn things on in

710
00:26:33,029 --> 00:26:30,880
cells and so they wanted me to see if i

711
00:26:37,110 --> 00:26:33,039
could see any evidence of that

712
00:26:39,430 --> 00:26:37,120
um and uh part of the problem was that

713
00:26:40,230 --> 00:26:39,440

most of the people who were brought to

714

00:26:41,029 --> 00:26:40,240

me

715

00:26:43,269 --> 00:26:41,039

were

716

00:26:48,870 --> 00:26:43,279

uh

717

00:26:53,909 --> 00:26:49,909

though

718

00:26:59,350 --> 00:26:56,149

it seems oh there it goes okay it's back

719

00:27:01,830 --> 00:26:59,360

um you know it's it's if i were to if i

720

00:27:03,830 --> 00:27:01,840

were to look for a a wound repair

721

00:27:05,669 --> 00:27:03,840

signature in you

722

00:27:07,669 --> 00:27:05,679

20 years after you

723

00:27:10,710 --> 00:27:07,679

fell down and skinned your knee

724

00:27:11,590 --> 00:27:10,720

it just i won't see it it's too long

725

00:27:13,590 --> 00:27:11,600

so

726

00:27:16,390 --> 00:27:13,600

part of what uh

727

00:27:18,870 --> 00:27:16,400

we were trying to set up at the time

728

00:27:21,269 --> 00:27:18,880

was to for people who would be multiple

729

00:27:23,830 --> 00:27:21,279

time experiencers in this or we expected

730

00:27:26,389 --> 00:27:23,840

for instance would go back on the ranch

731

00:27:29,350 --> 00:27:26,399

that if there were an event that

732

00:27:31,269 --> 00:27:29,360

occurred in an acute manner

733

00:27:34,070 --> 00:27:31,279

that we would rapidly be able to collect

734

00:27:36,070 --> 00:27:34,080

their blood and do the studies

735

00:27:38,149 --> 00:27:36,080

uh and so that was what we had set up to

736

00:27:39,909 --> 00:27:38,159

to move forward with

737

00:27:41,269 --> 00:27:39,919

um and so that was the reason they came

738

00:27:44,070 --> 00:27:41,279

the the brain

739

00:27:45,750 --> 00:27:44,080

imaging happened probably only i mean we

740

00:27:47,190 --> 00:27:45,760

had the brain images for quite a while

741

00:27:48,389 --> 00:27:47,200

but it was really only after about three

742

00:27:51,750 --> 00:27:48,399

or four years

743

00:27:52,630 --> 00:27:51,760

that when in looking at the images

744

00:27:54,870 --> 00:27:52,640

uh

745

00:27:56,389 --> 00:27:54,880

we had thought it was damage and then we

746

00:27:58,149 --> 00:27:56,399

realized it wasn't there was plenty of

747

00:27:59,830 --> 00:27:58,159

damage in their brains

748

00:28:02,950 --> 00:27:59,840

right in several of these people that we

749

00:28:05,269 --> 00:28:02,960

looked at um but uh

750

00:28:06,310 --> 00:28:05,279

there was a commonality that we saw in a

751
00:28:08,149 --> 00:28:06,320
couple

752
00:28:09,750 --> 00:28:08,159
that we thought was damage but was

753
00:28:11,269 --> 00:28:09,760
really just this increased neuronal

754
00:28:12,389 --> 00:28:11,279
density

755
00:28:13,909 --> 00:28:12,399
um

756
00:28:15,909 --> 00:28:13,919
and that was the caudiputainment and

757
00:28:17,029 --> 00:28:15,919
that sort of what that spun off from

758
00:28:19,510 --> 00:28:17,039
that

759
00:28:21,830 --> 00:28:19,520
i mean and i want to hopefully i can

760
00:28:23,510 --> 00:28:21,840
stamp out a a

761
00:28:26,710 --> 00:28:23,520
a misapprehension

762
00:28:28,149 --> 00:28:26,720
probably from my not saying it correctly

763
00:28:29,590 --> 00:28:28,159

previously

764

00:28:34,230 --> 00:28:29,600

the

765

00:28:36,070 --> 00:28:34,240

experienced did not cause

766

00:28:38,549 --> 00:28:36,080

the neuronal density

767

00:28:40,710 --> 00:28:38,559

that was pre-existing

768

00:28:42,950 --> 00:28:40,720

that pre-existing neuronal density in

769

00:28:46,389 --> 00:28:42,960

the caudate pataman interface

770

00:28:47,590 --> 00:28:46,399

is now recognized by many people it's

771

00:28:50,789 --> 00:28:47,600

standard

772

00:28:53,430 --> 00:28:50,799

the caudate is involved in intelligence

773

00:28:55,430 --> 00:28:53,440

and intuition dead stop

774

00:28:58,310 --> 00:28:55,440

right so we

775

00:28:59,750 --> 00:28:58,320

inferred that before we had even seen

776

00:29:01,269 --> 00:28:59,760

the literature

777

00:29:03,909 --> 00:29:01,279

based on

778

00:29:05,590 --> 00:29:03,919

two of them and we we basically made an

779

00:29:08,230 --> 00:29:05,600

educated guess

780

00:29:11,830 --> 00:29:08,240

two of the individuals in the cohort we

781

00:29:13,380 --> 00:29:11,840

had looked at were super high-end remote

782

00:29:15,669 --> 00:29:13,390

viewers

783

00:29:16,710 --> 00:29:15,679

[Music]

784

00:29:19,430 --> 00:29:16,720

and so

785

00:29:22,310 --> 00:29:19,440

i see remote viewing and intuition as

786

00:29:24,950 --> 00:29:22,320

almost the same thing you are

787

00:29:27,909 --> 00:29:24,960

coming to a conclusion based on sparse

788

00:29:31,190 --> 00:29:27,919

data you're using some

789

00:29:32,789 --> 00:29:31,200

elements of your circuitry in your head

790

00:29:35,190 --> 00:29:32,799

with just

791

00:29:36,470 --> 00:29:35,200

you know slight data here or there to

792

00:29:37,750 --> 00:29:36,480

put it all together and come to the

793

00:29:40,070 --> 00:29:37,760

right conclusion

794

00:29:41,190 --> 00:29:40,080

that's intuition you know right out of

795

00:29:43,110 --> 00:29:41,200

the box

796

00:29:44,870 --> 00:29:43,120

and so it wasn't until we started

797

00:29:47,110 --> 00:29:44,880

looking into the literature

798

00:29:49,590 --> 00:29:47,120

that uh we realized that there was

799

00:29:52,549 --> 00:29:49,600

extraordinary evidence for this and then

800

00:29:55,669 --> 00:29:52,559

we've since i have since

801

00:29:57,110 --> 00:29:55,679

uh basically got a postdoc and he's

802

00:29:59,750 --> 00:29:57,120

working in a lab

803

00:30:03,750 --> 00:29:59,760

at harvard i pay for him

804

00:30:04,710 --> 00:30:03,760

and um he has we have replicated kit's

805

00:30:05,909 --> 00:30:04,720

original

806

00:30:08,470 --> 00:30:05,919

findings

807

00:30:11,830 --> 00:30:08,480

uh on an independent cohort

808

00:30:13,750 --> 00:30:11,840

showing uh a caudate to intelligence and

809

00:30:15,110 --> 00:30:13,760

capabilities relationship

810

00:30:18,230 --> 00:30:15,120

so it was all there

811

00:30:19,190 --> 00:30:18,240

and it was it it was all there because

812

00:30:21,909 --> 00:30:19,200

of

813

00:30:24,710 --> 00:30:21,919

those two remote viewers

814

00:30:26,870 --> 00:30:24,720

it's it's when you have the extremes

815

00:30:28,710 --> 00:30:26,880

that you can figure out what normal is

816

00:30:31,669 --> 00:30:28,720

or the the meaning of what's going on

817

00:30:34,549 --> 00:30:31,679

with normal and i mean i think kevin's

818

00:30:38,389 --> 00:30:34,559

children that you work with autistics

819

00:30:41,029 --> 00:30:38,399

they're an extreme uh that has a lot of

820

00:30:43,990 --> 00:30:41,039

value i mean there's some incredible

821

00:30:46,389 --> 00:30:44,000

abilities in many of these autistics

822

00:30:48,710 --> 00:30:46,399

uh and so

823

00:30:51,110 --> 00:30:48,720

you know it it unfortunately ends up for

824

00:30:52,470 --> 00:30:51,120

many of them being a

825

00:30:53,510 --> 00:30:52,480

hindrance

826
00:30:56,070 --> 00:30:53,520
but

827
00:30:57,830 --> 00:30:56,080
there's it's part of what i think of as

828
00:31:01,509 --> 00:30:57,840
the as the human

829
00:31:03,350 --> 00:31:01,519
profile of genetic diversity and so you

830
00:31:04,710 --> 00:31:03,360
have to diversify

831
00:31:06,549 --> 00:31:04,720
and sometimes unfortunately the

832
00:31:08,630 --> 00:31:06,559
diversity ends up coming together in a

833
00:31:10,630 --> 00:31:08,640
bad way but the ones that are just a

834
00:31:12,149 --> 00:31:10,640
little short of the edge of the of the

835
00:31:14,389 --> 00:31:12,159
bell curve

836
00:31:15,669 --> 00:31:14,399
those are the geniuses

837
00:31:17,830 --> 00:31:15,679
right they're the geniuses on the

838
00:31:19,669 --> 00:31:17,840

autistic side and they're the geniuses

839

00:31:21,509 --> 00:31:19,679

on the schizophrenic side

840

00:31:23,669 --> 00:31:21,519

you know you go a little bit too far

841

00:31:25,269 --> 00:31:23,679

and you know you fall off the cliff and

842

00:31:27,509 --> 00:31:25,279

you have problems

843

00:31:28,950 --> 00:31:27,519

right but that

844

00:31:32,389 --> 00:31:28,960

um

845

00:31:34,310 --> 00:31:32,399

that diversity is necessary so what's

846

00:31:36,470 --> 00:31:34,320

fascinating about both autism and

847

00:31:39,110 --> 00:31:36,480

schizophrenia is that when you look in

848

00:31:40,870 --> 00:31:39,120

the brain as to which areas of the brain

849

00:31:43,110 --> 00:31:40,880

are altered

850

00:31:44,950 --> 00:31:43,120

uh or there is some what you would it's

851

00:31:46,070 --> 00:31:44,960

called pathology but i think that's a

852

00:31:47,750 --> 00:31:46,080

the wrong kind of word i don't want to

853

00:31:48,710 --> 00:31:47,760

be all woke and everything but

854

00:31:51,509 --> 00:31:48,720

um

855

00:31:53,590 --> 00:31:51,519

it is uh the caudate containment is

856

00:31:56,789 --> 00:31:53,600

damaged in these individuals

857

00:31:58,830 --> 00:31:56,799

so again coming around my brain as being

858

00:32:01,590 --> 00:31:58,840

incredibly important

859

00:32:04,389 --> 00:32:01,600

for perception

860

00:32:06,630 --> 00:32:04,399

and integration of information from your

861

00:32:09,750 --> 00:32:06,640

immediate surroundings

862

00:32:11,430 --> 00:32:09,760

uh and this is where i've posited

863

00:32:12,310 --> 00:32:11,440

complete speculation

864

00:32:14,230 --> 00:32:12,320

that

865

00:32:16,149 --> 00:32:14,240

this is where whatever the antenna is

866

00:32:17,110 --> 00:32:16,159

that the remote viewers

867

00:32:19,830 --> 00:32:17,120

use

868

00:32:22,389 --> 00:32:19,840

integrate information and it's overlaid

869

00:32:25,590 --> 00:32:22,399

onto one or more of the sensory systems

870

00:32:29,029 --> 00:32:25,600

uh inside of these individuals heads and

871

00:32:32,470 --> 00:32:29,039

somehow it reaches perception

872

00:32:35,269 --> 00:32:32,480

and um you know the what i've

873

00:32:36,630 --> 00:32:35,279

you know again also speculated that

874

00:32:40,070 --> 00:32:36,640

if you

875

00:32:42,389 --> 00:32:40,080

if that's true and there are proteins

876

00:32:45,110 --> 00:32:42,399

that design people's brains in certain

877

00:32:46,070 --> 00:32:45,120

ways that creates better antennas let's

878

00:32:47,029 --> 00:32:46,080

say

879

00:32:50,070 --> 00:32:47,039

uh

880

00:32:53,110 --> 00:32:50,080

those proteins have genes

881

00:32:56,470 --> 00:32:53,120

and those genes are heritable

882

00:32:59,350 --> 00:32:56,480

which means you should be able to track

883

00:33:02,230 --> 00:32:59,360

the genes if you get a sufficiently

884

00:33:04,549 --> 00:33:02,240

tight cohort of individuals who have it

885

00:33:06,470 --> 00:33:04,559

and specifically families

886

00:33:09,669 --> 00:33:06,480

family genetics is

887

00:33:12,310 --> 00:33:09,679

is it is absolutely essential for this

888

00:33:13,430 --> 00:33:12,320

you just you increase the signal

889

00:33:16,470 --> 00:33:13,440

and so

890

00:33:17,830 --> 00:33:16,480

what got me all excited about this was

891

00:33:20,630 --> 00:33:17,840

that

892

00:33:22,870 --> 00:33:20,640

uh in our cohort we had a couple of

893

00:33:25,029 --> 00:33:22,880

husband-wife pairs

894

00:33:26,070 --> 00:33:25,039

both of whom had it

895

00:33:28,070 --> 00:33:26,080

even though

896

00:33:30,549 --> 00:33:28,080

it seems to be only found on average at

897

00:33:32,630 --> 00:33:30,559

about 1 in 200 individuals so here in a

898

00:33:34,789 --> 00:33:32,640

cohort of 20 people

899

00:33:36,789 --> 00:33:34,799

you had two pairs of husband wife who

900

00:33:38,710 --> 00:33:36,799

both had it and their and at least one

901
00:33:41,750 --> 00:33:38,720
or more of their children had it the

902
00:33:44,710 --> 00:33:41,760
statistics just doesn't work for that

903
00:33:46,710 --> 00:33:44,720
right i mean it's it's one in 400

904
00:33:48,549 --> 00:33:46,720
20 times 20 for two people coming

905
00:33:49,590 --> 00:33:48,559
together out of a

906
00:33:50,950 --> 00:33:49,600
uh

907
00:33:53,509 --> 00:33:50,960
it's just pure you know it's just how

908
00:33:56,149 --> 00:33:53,519
you how you do it but then to have two

909
00:33:58,230 --> 00:33:56,159
groups of them it's 400 times 400 which

910
00:34:00,310 --> 00:33:58,240
is i don't know 16 000 or something like

911
00:34:02,470 --> 00:34:00,320
that or 160 000.

912
00:34:04,549 --> 00:34:02,480
so the chances are are low

913
00:34:06,710 --> 00:34:04,559

for that which again it just implies

914

00:34:07,830 --> 00:34:06,720

genetics and once you you find it in the

915

00:34:11,990 --> 00:34:07,840

parents and then you find it in the

916

00:34:14,710 --> 00:34:12,000

children i mean that's sort of game over

917

00:34:16,869 --> 00:34:14,720

so why

918

00:34:19,510 --> 00:34:16,879

gary i have a a question from the friend

919

00:34:21,990 --> 00:34:19,520

of the show but i have another friend

920

00:34:24,470 --> 00:34:22,000

that also wanted to ask this question

921

00:34:25,829 --> 00:34:24,480

related to the caudate potamin

922

00:34:28,069 --> 00:34:25,839

and

923

00:34:31,669 --> 00:34:28,079

i think what he's asking because i don't

924

00:34:33,270 --> 00:34:31,679

have it here on a spreadsheet anymore um

925

00:34:37,030 --> 00:34:33,280

is

926
00:34:38,950 --> 00:34:37,040
viewers specifically do you have a data

927
00:34:40,710 --> 00:34:38,960
set that would reflect whether there's

928
00:34:43,030 --> 00:34:40,720
an enlargement of the brain or a

929
00:34:46,389 --> 00:34:43,040
different shape or anything relative to

930
00:34:47,750 --> 00:34:46,399
the caudate potamen about remote viewers

931
00:34:49,190 --> 00:34:47,760
specifically

932
00:34:50,790 --> 00:34:49,200
no we don't have enough we don't have

933
00:34:52,710 --> 00:34:50,800
enough data but this is the reason

934
00:34:54,230 --> 00:34:52,720
though for doing the studies with the

935
00:34:55,190 --> 00:34:54,240
harvard group

936
00:34:57,510 --> 00:34:55,200
is that

937
00:35:01,190 --> 00:34:57,520
what we've done is we we now have

938
00:35:04,230 --> 00:35:01,200

identified uh online databases for mri

939

00:35:07,750 --> 00:35:04,240

images where many of these mri images

940

00:35:09,750 --> 00:35:07,760

are associated with metadata which is

941

00:35:11,750 --> 00:35:09,760

tests of people's

942

00:35:13,829 --> 00:35:11,760

you know intelligence fluid intelligence

943

00:35:15,190 --> 00:35:13,839

crystallized intelligence emotional

944

00:35:17,030 --> 00:35:15,200

states

945

00:35:25,510 --> 00:35:17,040

et cetera these are all online databases

946

00:35:25,520 --> 00:35:27,910

um

947

00:35:32,790 --> 00:35:31,190

so the first study that we did uh kit

948

00:35:34,710 --> 00:35:32,800

and another uh

949

00:35:36,870 --> 00:35:34,720

neurophysiologist

950

00:35:38,870 --> 00:35:36,880

uh did it by hand it did a

951
00:35:40,470 --> 00:35:38,880
double-blinded measurements of the of

952
00:35:41,829 --> 00:35:40,480
the density to make sure the kit wasn't

953
00:35:43,750 --> 00:35:41,839
fooling himself

954
00:35:45,430 --> 00:35:43,760
so i did not do any of that anymore so

955
00:35:49,349 --> 00:35:45,440
we we

956
00:35:51,109 --> 00:35:49,359
basically uh adapted uh an ai program

957
00:35:53,990 --> 00:35:51,119
for what's called auto segmentation of

958
00:35:55,910 --> 00:35:54,000
images and so if you imagine that

959
00:35:57,910 --> 00:35:55,920
um when you do an mri you're kind of

960
00:35:59,990 --> 00:35:57,920
seeing a shadow of the of the shapes and

961
00:36:02,550 --> 00:36:00,000
objects inside of the brain

962
00:36:05,270 --> 00:36:02,560
this program can can find where the

963
00:36:07,109 --> 00:36:05,280

basal ganglia is can basically create a

964

00:36:10,390 --> 00:36:07,119

contoured surface

965

00:36:12,790 --> 00:36:10,400

around where that is can measure then

966

00:36:15,430 --> 00:36:12,800

the volume can measure the surface area

967

00:36:18,230 --> 00:36:15,440

and with the right running of the mri

968

00:36:19,510 --> 00:36:18,240

you can actually get the density of the

969

00:36:21,910 --> 00:36:19,520

neurons there

970

00:36:24,069 --> 00:36:21,920

and then you can also with something

971

00:36:25,910 --> 00:36:24,079

called tensor uh you can actually look

972

00:36:26,950 --> 00:36:25,920

at the neural tracts between these areas

973

00:36:27,990 --> 00:36:26,960

of the brain

974

00:36:31,750 --> 00:36:28,000

so

975

00:36:33,270 --> 00:36:31,760

while kit focused only on the basal

976
00:36:34,790 --> 00:36:33,280
ganglia because of

977
00:36:36,069 --> 00:36:34,800
the caudipotamia because that's what we

978
00:36:37,270 --> 00:36:36,079
noticed

979
00:36:39,349 --> 00:36:37,280
this is now

980
00:36:42,630 --> 00:36:39,359
and he did it by hand

981
00:36:44,870 --> 00:36:42,640
this is now a fully objective ai driven

982
00:36:47,109 --> 00:36:44,880
map of the whole brain

983
00:36:47,910 --> 00:36:47,119
all the interconnections that you could

984
00:36:50,150 --> 00:36:47,920
want

985
00:36:52,630 --> 00:36:50,160
um it worked we already published one

986
00:36:53,829 --> 00:36:52,640
paper on using it we've got a better

987
00:36:55,190 --> 00:36:53,839
version of it

988
00:36:58,150 --> 00:36:55,200

now

989

00:37:00,069 --> 00:36:58,160

beginning to find is that there's

990

00:37:01,430 --> 00:37:00,079

several different parts of the brain

991

00:37:02,950 --> 00:37:01,440

that seem to be important it wasn't just

992

00:37:04,870 --> 00:37:02,960

the caudiputainment because if the

993

00:37:06,230 --> 00:37:04,880

caudiputainment is collecting more

994

00:37:08,390 --> 00:37:06,240

information or generating more

995

00:37:10,870 --> 00:37:08,400

information then the wiring coming and

996

00:37:12,950 --> 00:37:10,880

going from that has to be better you

997

00:37:15,109 --> 00:37:12,960

know it's got to have more bandwidth

998

00:37:17,270 --> 00:37:15,119

and whatever is receiving or giving that

999

00:37:18,630 --> 00:37:17,280

information has to be different

1000

00:37:21,829 --> 00:37:18,640

so we're getting all of these

1001
00:37:23,750 --> 00:37:21,839
correlation maps of how the brain

1002
00:37:25,510 --> 00:37:23,760
operates and but we're doing it with

1003
00:37:27,270 --> 00:37:25,520
normals

1004
00:37:29,030 --> 00:37:27,280
and the important part about doing it

1005
00:37:31,349 --> 00:37:29,040
with normals is it establishes a

1006
00:37:33,670 --> 00:37:31,359
credibility in the field

1007
00:37:36,310 --> 00:37:33,680
that you now have three or four papers

1008
00:37:37,670 --> 00:37:36,320
that you've published that said here

1009
00:37:39,109 --> 00:37:37,680
it's normal

1010
00:37:41,109 --> 00:37:39,119
here's the people who are referencing

1011
00:37:43,829 --> 00:37:41,119
our papers people are beginning to use

1012
00:37:46,550 --> 00:37:43,839
our algorithms and programs to do it you

1013
00:37:48,310 --> 00:37:46,560

establish credibility and then

1014

00:37:51,589 --> 00:37:48,320

and then we start getting some grants

1015

00:37:53,430 --> 00:37:51,599

and then we go for the cool

1016

00:37:56,790 --> 00:37:53,440

people

1017

00:38:00,470 --> 00:37:59,430

viewers i'm going to call them

1018

00:38:07,190 --> 00:38:00,480

uh

1019

00:38:09,510 --> 00:38:07,200

high-functioning individuals

1020

00:38:12,390 --> 00:38:09,520

you know or even make the even say that

1021

00:38:15,030 --> 00:38:12,400

they claim that they have this ability

1022

00:38:16,550 --> 00:38:15,040

um we think it might be

1023

00:38:17,990 --> 00:38:16,560

hysteria

1024

00:38:20,230 --> 00:38:18,000

you know we'll we'll put that in the

1025

00:38:20,950 --> 00:38:20,240

grant say it might be both

1026

00:38:27,190 --> 00:38:20,960

and

1027

00:38:28,230 --> 00:38:27,200

review the review process i mean you

1028

00:38:29,910 --> 00:38:28,240

usually will get something back and

1029

00:38:32,230 --> 00:38:29,920

they'll say oh this is rubbish and then

1030

00:38:33,589 --> 00:38:32,240

you call up and you and you whine uh and

1031

00:38:35,190 --> 00:38:33,599

you go you know you just go back and

1032

00:38:36,630 --> 00:38:35,200

forth and that's just how it works

1033

00:38:38,390 --> 00:38:36,640

doesn't matter whether it's mainstream

1034

00:38:40,550 --> 00:38:38,400

science or or this

1035

00:38:42,470 --> 00:38:40,560

or you find somebody wealthy enough who

1036

00:38:44,630 --> 00:38:42,480

can fund it out of their pocket and

1037

00:38:46,630 --> 00:38:44,640

there's lots of those people actually

1038

00:38:49,030 --> 00:38:46,640

nathan no i'm just kidding

1039

00:38:51,270 --> 00:38:49,040

all right all right so uh this uh this

1040

00:38:53,670 --> 00:38:51,280

question right here gary is on behalf of

1041

00:38:56,390 --> 00:38:53,680

experiencers uh this is our friend maxie

1042

00:38:58,230 --> 00:38:56,400

mccabe who's a multiple time experiencer

1043

00:39:00,310 --> 00:38:58,240

one of them was

1044

00:39:02,710 --> 00:39:00,320

kind of like the altitude over his house

1045

00:39:04,470 --> 00:39:02,720

as the one that you've described but

1046

00:39:07,589 --> 00:39:04,480

what he's asking is let me make sure i

1047

00:39:11,270 --> 00:39:07,599

get this right white areas of the brain

1048

00:39:14,790 --> 00:39:11,280

were described as similar to ms ms can

1049

00:39:15,829 --> 00:39:14,800

cause potential nerve damage affecting

1050

00:39:18,550 --> 00:39:15,839

sexual

1051

00:39:21,109 --> 00:39:18,560

sensation slash function where any

1052

00:39:22,069 --> 00:39:21,119

subjects i think what he's asking where

1053

00:39:23,829 --> 00:39:22,079

um

1054

00:39:25,589 --> 00:39:23,839

i think he's thinking that other

1055

00:39:28,550 --> 00:39:25,599

experiencers that he's communicating

1056

00:39:31,349 --> 00:39:28,560

with uh after having these prolific

1057

00:39:34,550 --> 00:39:31,359

close contacts are having an issue with

1058

00:39:37,589 --> 00:39:34,560

uh the sexual organs and feeling and

1059

00:39:40,310 --> 00:39:37,599

that they've lost and he's wondering if

1060

00:39:42,470 --> 00:39:40,320

you know if if you've been able to uh

1061

00:39:44,630 --> 00:39:42,480

find that in any of your studies

1062

00:39:48,069 --> 00:39:44,640

that was that question was never asked

1063

00:39:49,750 --> 00:39:48,079

nor that information offered by

1064

00:39:52,470 --> 00:39:49,760

the individuals

1065

00:39:55,670 --> 00:39:52,480

to my knowledge um and i don't

1066

00:39:57,270 --> 00:39:55,680

i have begged kit many times and he says

1067

00:40:00,630 --> 00:39:57,280

one day when he dies he'll give me all

1068

00:40:02,870 --> 00:40:00,640

the data but he doesn't want to do it

1069

00:40:04,150 --> 00:40:02,880

uh until then he's promised me his

1070

00:40:07,270 --> 00:40:04,160

server

1071

00:40:09,589 --> 00:40:07,280

has said that's fine um

1072

00:40:11,270 --> 00:40:09,599

but no but i mean i i think

1073

00:40:14,150 --> 00:40:11,280

seriously though

1074

00:40:17,030 --> 00:40:14,160

when i say that it looks like ms

1075

00:40:19,030 --> 00:40:17,040

ms is kind of random it's

1076

00:40:21,430 --> 00:40:19,040

immune inflammation

1077

00:40:24,309 --> 00:40:21,440

that managed to start attacking the

1078

00:40:25,750 --> 00:40:24,319

myelin sheath somewhere and it's just

1079

00:40:28,950 --> 00:40:25,760

kind of random around the head like

1080

00:40:31,109 --> 00:40:28,960

metastasis of cancers in the body they

1081

00:40:33,430 --> 00:40:31,119

kind of go in certain places

1082

00:40:35,349 --> 00:40:33,440

but they're you know more or less you

1083

00:40:38,470 --> 00:40:35,359

know can show up anywhere

1084

00:40:40,309 --> 00:40:38,480

and this damage but the damage that you

1085

00:40:43,109 --> 00:40:40,319

see in an ms

1086

00:40:44,230 --> 00:40:43,119

mri and i have a family member with

1087

00:40:47,109 --> 00:40:44,240

ms

1088

00:40:48,390 --> 00:40:47,119

um is basically dead tissue it's scar

1089

00:40:49,510 --> 00:40:48,400

tissue

1090

00:40:52,309 --> 00:40:49,520

and so

1091

00:40:53,430 --> 00:40:52,319

an mri of some of these individuals who

1092

00:40:55,349 --> 00:40:53,440

were hurt

1093

00:40:56,230 --> 00:40:55,359

uh in the brain

1094

00:40:58,309 --> 00:40:56,240

uh

1095

00:40:59,190 --> 00:40:58,319

it is dead tissue it's just there's just

1096

00:41:01,109 --> 00:40:59,200

no

1097

00:41:02,550 --> 00:41:01,119

two ways about it

1098

00:41:03,910 --> 00:41:02,560

so

1099

00:41:06,630 --> 00:41:03,920

when i say it's like

1100

00:41:08,390 --> 00:41:06,640

say it's like ms it's i'm actually not

1101
00:41:10,630 --> 00:41:08,400
speaking when i say that to the general

1102
00:41:12,950 --> 00:41:10,640
public i'm speaking to a doctor

1103
00:41:15,270 --> 00:41:12,960
who understands exactly what i mean when

1104
00:41:17,030 --> 00:41:15,280
i say that and so they understand oh

1105
00:41:19,030 --> 00:41:17,040
this is damage

1106
00:41:21,589 --> 00:41:19,040
boom and it and it's it's randomly it's

1107
00:41:22,630 --> 00:41:21,599
sporadic and it looks like

1108
00:41:23,589 --> 00:41:22,640
this

1109
00:41:24,390 --> 00:41:23,599
um

1110
00:41:27,589 --> 00:41:24,400
so

1111
00:41:29,109 --> 00:41:27,599
i i've not seen anything directed but

1112
00:41:32,230 --> 00:41:29,119
that was what attracted us to the

1113
00:41:33,990 --> 00:41:32,240

caudate because that was the commonality

1114

00:41:35,990 --> 00:41:34,000

that was the dense region the white

1115

00:41:38,069 --> 00:41:36,000

region that looked like damage but then

1116

00:41:39,910 --> 00:41:38,079

we looked closely we realized it wasn't

1117

00:41:41,589 --> 00:41:39,920

damage

1118

00:41:44,309 --> 00:41:41,599

good i could tell all those people who

1119

00:41:45,910 --> 00:41:44,319

think that i'm did i have brain tissue

1120

00:41:48,870 --> 00:41:45,920

damage that it's not

1121

00:41:50,870 --> 00:41:48,880

so i'm i'm glad thank you uh

1122

00:41:52,870 --> 00:41:50,880

let's pass it over to our uap

1123

00:41:55,109 --> 00:41:52,880

experiencer step

1124

00:41:59,349 --> 00:41:55,119

perfect segway so

1125

00:42:02,069 --> 00:41:59,359

um the implant subject i have been a

1126
00:42:04,710 --> 00:42:02,079
very up close experiencer myself along

1127
00:42:06,470 --> 00:42:04,720
with my mother my sister and my brother

1128
00:42:07,270 --> 00:42:06,480
back in the 80s

1129
00:42:08,069 --> 00:42:07,280
so

1130
00:42:11,430 --> 00:42:08,079
my

1131
00:42:14,309 --> 00:42:11,440
question to you is regarding mri scans

1132
00:42:17,109 --> 00:42:14,319
i personally have had mri scans with and

1133
00:42:19,750 --> 00:42:17,119
without contrast through those i have

1134
00:42:21,750 --> 00:42:19,760
found two artifacts

1135
00:42:23,109 --> 00:42:21,760
told to me by the doctors that they are

1136
00:42:25,990 --> 00:42:23,119
artifacts

1137
00:42:26,950 --> 00:42:26,000
one is shaped this as an upside down

1138
00:42:29,030 --> 00:42:26,960

tear

1139

00:42:31,510 --> 00:42:29,040

so it's here but upside down on my left

1140

00:42:33,990 --> 00:42:31,520

side and then also i have another one

1141

00:42:36,470 --> 00:42:34,000

that looks like a size of a grain of

1142

00:42:38,550 --> 00:42:36,480

rice within a circle okay

1143

00:42:41,190 --> 00:42:38,560

i'm going with the

1144

00:42:43,750 --> 00:42:41,200

idea that they are just artifacts but

1145

00:42:46,710 --> 00:42:43,760

i'm taking this on with further testing

1146

00:42:48,710 --> 00:42:46,720

and different scans other than an mri

1147

00:42:51,910 --> 00:42:48,720

where and how deep

1148

00:42:53,910 --> 00:42:51,920

so on the left side it would be over my

1149

00:42:56,470 --> 00:42:53,920

chest area

1150

00:42:58,950 --> 00:42:56,480

and then it's also on my left side

1151

00:43:01,109 --> 00:42:58,960

almost on the outer wall

1152

00:43:03,430 --> 00:43:01,119

okay so but these were both in different

1153

00:43:05,910 --> 00:43:03,440

dates and different scans and this is

1154

00:43:08,630 --> 00:43:05,920

this question isn't about myself

1155

00:43:11,589 --> 00:43:08,640

it's just letting you know hey look i am

1156

00:43:13,270 --> 00:43:11,599

researching this on my own terms

1157

00:43:15,510 --> 00:43:13,280

not being an alarmist i'm not trying to

1158

00:43:17,829 --> 00:43:15,520

scare anybody but i am doing the the

1159

00:43:19,270 --> 00:43:17,839

work myself to try and figure it out

1160

00:43:22,309 --> 00:43:19,280

and i know that you're an experiencer

1161

00:43:24,950 --> 00:43:22,319

yourself so i'm curious as to if you've

1162

00:43:26,630 --> 00:43:24,960

had any mri testing as well but i'd like

1163

00:43:29,750 --> 00:43:26,640

to know what your thoughts are on those

1164

00:43:32,069 --> 00:43:29,760

two artifacts that they have found

1165

00:43:34,069 --> 00:43:32,079

right so um

1166

00:43:35,910 --> 00:43:34,079

pathologists and radiologists generally

1167

00:43:38,150 --> 00:43:35,920

call those um

1168

00:43:39,510 --> 00:43:38,160

phantomas

1169

00:43:40,390 --> 00:43:39,520

phantom

1170

00:43:42,390 --> 00:43:40,400

some

1171

00:43:43,829 --> 00:43:42,400

uh cancers you know they're not but

1172

00:43:45,670 --> 00:43:43,839

they're they call them phantoms and

1173

00:43:46,950 --> 00:43:45,680

they're they generally don't think of

1174

00:43:49,510 --> 00:43:46,960

them as anything to worry about

1175

00:43:51,349 --> 00:43:49,520

especially if on subsequent scans they

1176

00:43:54,790 --> 00:43:51,359

haven't changed

1177

00:43:56,069 --> 00:43:54,800

where they are or their size um

1178

00:43:57,670 --> 00:43:56,079

and uh

1179

00:43:59,430 --> 00:43:57,680

you know usually the placements in where

1180

00:44:01,670 --> 00:43:59,440

they're found can tell you

1181

00:44:03,270 --> 00:44:01,680

for instance that it's not cancer if it

1182

00:44:04,550 --> 00:44:03,280

were found in the lung

1183

00:44:07,510 --> 00:44:04,560

those are generally thought of as what

1184

00:44:10,470 --> 00:44:08,710

melomas

1185

00:44:11,910 --> 00:44:10,480

um and it might have been an incipient

1186

00:44:12,870 --> 00:44:11,920

tuberculosis

1187

00:44:13,829 --> 00:44:12,880

cyst

1188

00:44:15,510 --> 00:44:13,839

that was

1189

00:44:16,790 --> 00:44:15,520

encased by the immune system and that

1190

00:44:17,670 --> 00:44:16,800

was the end of it

1191

00:44:19,030 --> 00:44:17,680

right

1192

00:44:21,670 --> 00:44:19,040

so um

1193

00:44:23,510 --> 00:44:21,680

you know all i would say is if i would

1194

00:44:24,390 --> 00:44:23,520

say this to anybody out there

1195

00:44:26,470 --> 00:44:24,400

um

1196

00:44:28,150 --> 00:44:26,480

if you do decide that you want to get

1197

00:44:31,430 --> 00:44:28,160

something removed

1198

00:44:34,309 --> 00:44:31,440

uh make sure you do it with a doctor who

1199

00:44:35,430 --> 00:44:34,319

sends it off to pathology first

1200

00:44:38,230 --> 00:44:35,440

right don't

1201
00:44:39,030 --> 00:44:38,240
have it out and send it to

1202
00:44:40,390 --> 00:44:39,040
you know

1203
00:44:42,150 --> 00:44:40,400
mufon

1204
00:44:44,470 --> 00:44:42,160
right and i had a situation where

1205
00:44:46,630 --> 00:44:44,480
somebody did exactly that

1206
00:44:49,910 --> 00:44:46,640
and then they sent it to me

1207
00:44:53,109 --> 00:44:49,920
and i said okay this is nice where's the

1208
00:44:55,349 --> 00:44:53,119
path report and where's the consent form

1209
00:44:57,589 --> 00:44:55,359
oh do we do we have oh we don't have

1210
00:45:00,230 --> 00:44:57,599
that i said okay what's your address i'm

1211
00:45:03,750 --> 00:45:00,240
fedexing this back to you tomorrow

1212
00:45:06,550 --> 00:45:03,760
right i can be arrested for you know

1213
00:45:07,510 --> 00:45:06,560

especially if that person gets

1214

00:45:08,550 --> 00:45:07,520

cancer

1215

00:45:10,870 --> 00:45:08,560

later

1216

00:45:12,069 --> 00:45:10,880

nobody thought to test it

1217

00:45:13,349 --> 00:45:12,079

so

1218

00:45:16,550 --> 00:45:13,359

you know i

1219

00:45:18,790 --> 00:45:16,560

this whole notion and idea of implants i

1220

00:45:22,150 --> 00:45:18,800

find fascinating

1221

00:45:25,470 --> 00:45:22,160

but again we don't have

1222

00:45:27,829 --> 00:45:25,480

an approach to

1223

00:45:29,510 --> 00:45:27,839

systematically examine them

1224

00:45:31,270 --> 00:45:29,520

right i mean one of the things that i'm

1225

00:45:34,470 --> 00:45:31,280

hoping to be able to set up at some

1226

00:45:36,309 --> 00:45:34,480

point uh and i when i say at some point

1227

00:45:37,109 --> 00:45:36,319

meaning it's actually coming

1228

00:45:39,030 --> 00:45:37,119

um

1229

00:45:41,990 --> 00:45:39,040

is a pipeline

1230

00:45:44,390 --> 00:45:42,000

of analysis uh a regimen that things can

1231

00:45:47,030 --> 00:45:44,400

be put in the front end and the data is

1232

00:45:49,910 --> 00:45:47,040

systematically correct collected

1233

00:45:53,589 --> 00:45:49,920

and then you know analyzed uh because

1234

00:45:56,630 --> 00:45:55,270

lear doing it here and somebody else

1235

00:45:57,829 --> 00:45:56,640

doing it there another person doing

1236

00:45:59,829 --> 00:45:57,839

there and said it looks like this and it

1237

00:46:01,910 --> 00:45:59,839

looks like this and it moved and it had

1238

00:46:02,950 --> 00:46:01,920

tendrils and you know and it was talking

1239

00:46:05,510 --> 00:46:02,960
to me or whatever and it moved

1240

00:46:08,470 --> 00:46:05,520
underneath my skin

1241

00:46:11,030 --> 00:46:08,480
i just can't i can't deal with all of

1242

00:46:14,710 --> 00:46:11,040
that it might all be true

1243

00:46:15,829 --> 00:46:14,720
but it's not something that is

1244

00:46:17,349 --> 00:46:15,839
going to do

1245

00:46:18,470 --> 00:46:17,359
anything except

1246

00:46:20,550 --> 00:46:18,480
get

1247

00:46:22,870 --> 00:46:20,560
anybody who you want to pay attention to

1248

00:46:24,870 --> 00:46:22,880
it to roll their eyes

1249

00:46:26,790 --> 00:46:24,880
um and so

1250

00:46:28,870 --> 00:46:26,800
you know that's been my

1251

00:46:30,550 --> 00:46:28,880

my my push that i

1252

00:46:33,589 --> 00:46:30,560

i mean but i had a conversation about

1253

00:46:38,630 --> 00:46:36,950

someone just the other day somebody like

1254

00:46:40,230 --> 00:46:38,640

really up there

1255

00:46:42,790 --> 00:46:40,240

and um

1256

00:46:44,309 --> 00:46:42,800

i said look they say well we should be

1257

00:46:47,670 --> 00:46:44,319

able to find transmitters and stuff in

1258

00:46:50,470 --> 00:46:47,680

it it's emitting radio frequencies

1259

00:46:52,150 --> 00:46:50,480

well maybe it's not really anything real

1260

00:46:53,670 --> 00:46:52,160

it's just a hunk of metal and it's

1261

00:46:55,190 --> 00:46:53,680

emitting a radio frequency because it's

1262

00:46:56,550 --> 00:46:55,200

acting like a battery because you've got

1263

00:46:58,309 --> 00:46:56,560

it in liquid

1264

00:47:00,390 --> 00:46:58,319

you've got two different metals

1265

00:47:01,750 --> 00:47:00,400

and it's acting like a battery and so

1266

00:47:03,589 --> 00:47:01,760

you're getting a slight emission of a

1267

00:47:06,069 --> 00:47:03,599

signal is not anything right so let's

1268

00:47:08,309 --> 00:47:06,079

just forget about that but if you were a

1269

00:47:10,630 --> 00:47:08,319

higher level intelligence and you wanted

1270

00:47:12,309 --> 00:47:10,640

to make an implant are you going to make

1271

00:47:14,069 --> 00:47:12,319

it so friggin obvious that it looks like

1272

00:47:16,390 --> 00:47:14,079

an rfid chip

1273

00:47:18,150 --> 00:47:16,400

probably not you'll make it look like a

1274

00:47:20,470 --> 00:47:18,160

big blob of gunk

1275

00:47:22,549 --> 00:47:20,480

and then you'll hide the circuitry

1276

00:47:24,790 --> 00:47:22,559

you know scattered throughout the thing

1277

00:47:26,230 --> 00:47:24,800

and you'll use deception

1278

00:47:28,870 --> 00:47:26,240

to throw

1279

00:47:31,829 --> 00:47:28,880

people off

1280

00:47:33,829 --> 00:47:31,839

so it's you have to approach it i mean

1281

00:47:36,790 --> 00:47:33,839

jacques told me this once a long time

1282

00:47:39,430 --> 00:47:36,800

ago um you know a scientist approaches

1283

00:47:42,150 --> 00:47:39,440

the problem and if they get an a 95

1284

00:47:43,990 --> 00:47:42,160

answer uh they're happy and they're done

1285

00:47:45,829 --> 00:47:44,000

an intelligence officer approaches a

1286

00:47:48,390 --> 00:47:45,839

thing and if they get a 95 of the answer

1287

00:47:52,230 --> 00:47:48,400

they think that they've been given it

1288

00:47:52,240 --> 00:47:58,790

and they're really interested in

1289

00:48:02,630 --> 00:48:00,390

we're we're getting

1290

00:48:03,510 --> 00:48:02,640

we're getting you frozen up dr nolan and

1291

00:48:07,030 --> 00:48:03,520

i don't

1292

00:48:09,430 --> 00:48:07,040

like the one we're thinking of i think

1293

00:48:13,349 --> 00:48:09,440

it's the fda with all the food talk so i

1294

00:48:17,109 --> 00:48:15,589

i don't know why i'm breathing it's uh i

1295

00:48:20,069 --> 00:48:17,119

have a pretty good computer but i bet

1296

00:48:20,950 --> 00:48:20,079

you um anyway so

1297

00:48:23,270 --> 00:48:20,960

uh

1298

00:48:25,910 --> 00:48:23,280

you know i think

1299

00:48:27,990 --> 00:48:25,920

the point is that um again it's just

1300

00:48:30,069 --> 00:48:28,000

let's just do it systematically

1301

00:48:32,309 --> 00:48:30,079

right let's have inclusion exclusion

1302

00:48:35,589 --> 00:48:32,319

criteria with these things something

1303

00:48:37,910 --> 00:48:35,599

which has high confidence and uh you

1304

00:48:40,150 --> 00:48:37,920

know and and then because i can tell you

1305

00:48:43,030 --> 00:48:40,160

any of these analyses are expensive as

1306

00:48:44,870 --> 00:48:43,040

hell i mean they really are

1307

00:48:47,750 --> 00:48:44,880

it's

1308

00:48:49,349 --> 00:48:47,760

get an expert on a certain

1309

00:48:51,510 --> 00:48:49,359

i mean they have to have trained on that

1310

00:48:53,750 --> 00:48:51,520

machine for years usually

1311

00:48:56,790 --> 00:48:53,760

and you need about 10 different machines

1312

00:48:57,910 --> 00:48:56,800

each with different capabilities

1313

00:48:59,109 --> 00:48:57,920

and so

1314

00:49:01,349 --> 00:48:59,119

you know you don't want to be going to

1315

00:49:03,829 --> 00:49:01,359

10 different labs

1316

00:49:04,790 --> 00:49:03,839

so we've identified one place that does

1317

00:49:06,549 --> 00:49:04,800

have

1318

00:49:08,390 --> 00:49:06,559

10 of these machines and then we'll sign

1319

00:49:11,109 --> 00:49:08,400

a deal with them

1320

00:49:15,510 --> 00:49:11,119

that will allow us to bring all of the

1321

00:49:19,430 --> 00:49:17,510

well you know as soon as uh to do it

1322

00:49:20,950 --> 00:49:19,440

systematically oh there you go i'm sorry

1323

00:49:22,470 --> 00:49:20,960

you froze i thought you were

1324

00:49:25,270 --> 00:49:22,480

sorry yeah

1325

00:49:27,910 --> 00:49:25,280

all right um let me pass you over to uh

1326

00:49:31,270 --> 00:49:27,920

i'm here okay

1327

00:49:36,390 --> 00:49:32,950

it's an internet thing that's what it's

1328

00:49:41,670 --> 00:49:39,670

uh but it's already red when i drink

1329

00:49:43,349 --> 00:49:41,680

yeah uh we're gonna have to prevent you

1330

00:49:45,109 --> 00:49:43,359

i mean if you're on cough medicine i'm

1331

00:49:46,590 --> 00:49:45,119

sorry we're going to have to not allow

1332

00:49:48,950 --> 00:49:46,600

you to drink wine tonight doctor

1333

00:49:51,190 --> 00:49:48,960

[Laughter]

1334

00:49:53,109 --> 00:49:51,200

all right money nathan all right here

1335

00:49:54,150 --> 00:49:53,119

cheers to dr nolan money nathan it's all

1336

00:49:56,549 --> 00:49:54,160

you brother

1337

00:49:58,230 --> 00:49:56,559

yeah so i mentioned the top of the show

1338

00:50:00,630 --> 00:49:58,240

a lot of folks kind of reach out to me

1339

00:50:03,270 --> 00:50:00,640

with their their questions and this one

1340

00:50:05,190 --> 00:50:03,280

kind of kept popping up so

1341

00:50:06,950 --> 00:50:05,200

a lot of folks are are wanting me to see

1342

00:50:09,670 --> 00:50:06,960

if you might be willing

1343

00:50:13,190 --> 00:50:09,680

to speak more specifically to

1344

00:50:15,750 --> 00:50:13,200

tim taylor from american cosmic um and

1345

00:50:17,589 --> 00:50:15,760

you know he seems to be someone who

1346

00:50:19,349 --> 00:50:17,599

you know spends a lot of time either

1347

00:50:20,309 --> 00:50:19,359

looking for or spending time with prime

1348

00:50:24,230 --> 00:50:20,319

con

1349

00:50:25,990 --> 00:50:24,240

and you may be familiar with the story

1350

00:50:28,150 --> 00:50:26,000

where you know he provided them with

1351

00:50:29,910 --> 00:50:28,160

either a metal or a quasi crystal or

1352

00:50:31,670 --> 00:50:29,920

something which helped them help to

1353

00:50:33,990 --> 00:50:31,680

identify whether they were

1354

00:50:36,069 --> 00:50:34,000

experiencers or not experiencers

1355

00:50:38,630 --> 00:50:36,079

uh does that resonate with you in any

1356

00:50:42,230 --> 00:50:38,640

way or you heard that story or i know

1357

00:50:45,430 --> 00:50:43,829

sorry to the audience i had covert a

1358

00:50:46,630 --> 00:50:45,440

couple of weeks ago

1359

00:50:48,470 --> 00:50:46,640

um

1360

00:50:51,670 --> 00:50:48,480

i mean i know tim very well

1361

00:50:54,309 --> 00:50:51,680

he's a very close friend um great guy

1362

00:50:57,670 --> 00:50:54,319

and really dedicated to all of this uh

1363

00:50:58,630 --> 00:50:57,680

you know i think his interest in this is

1364

00:51:00,470 --> 00:50:58,640

because

1365

00:51:04,150 --> 00:51:00,480

you know from his position

1366

00:51:05,190 --> 00:51:04,160

on the inside uh he has seen things

1367

00:51:08,950 --> 00:51:05,200

right

1368

00:51:10,390 --> 00:51:08,960

you know and um that like many of these

1369

00:51:12,390 --> 00:51:10,400

individuals you know they've they've

1370

00:51:15,510 --> 00:51:12,400

gotten close to the legacy programs

1371

00:51:18,150 --> 00:51:15,520

close enough that they know it's real

1372

00:51:21,190 --> 00:51:18,160

um and so

1373

00:51:23,349 --> 00:51:21,200

i think like i know him specifically

1374

00:51:24,950 --> 00:51:23,359

he is very interested in the spiritual

1375

00:51:27,510 --> 00:51:24,960

aspects of things

1376

00:51:28,950 --> 00:51:27,520

uh and so you know he converted to

1377

00:51:31,510 --> 00:51:28,960

catholicism

1378

00:51:33,109 --> 00:51:31,520

and all uh and so he's looking for

1379

00:51:33,990 --> 00:51:33,119

meaning

1380

00:51:36,390 --> 00:51:34,000

and

1381

00:51:37,910 --> 00:51:36,400

you know we're not getting meaning from

1382

00:51:40,069 --> 00:51:37,920

most of the rest of our lives and we're

1383

00:51:41,030 --> 00:51:40,079

not getting meaning from even going to

1384

00:51:43,670 --> 00:51:41,040

church

1385

00:51:46,150 --> 00:51:43,680

and so we're looking beyond and so i

1386

00:51:47,990 --> 00:51:46,160

think he's looking for fellow travelers

1387

00:51:49,270 --> 00:51:48,000

and he's bringing them together and

1388

00:51:50,870 --> 00:51:49,280

because he knows he can't have these

1389

00:51:53,030 --> 00:51:50,880

conversations

1390

00:51:54,390 --> 00:51:53,040

you know at the airspace corporation

1391

00:51:57,430 --> 00:51:54,400

right

1392

00:51:58,230 --> 00:51:57,440

you know it's uh i mean you can more now

1393

00:52:00,069 --> 00:51:58,240

but

1394

00:52:02,390 --> 00:52:00,079

you know six or seven years ago

1395

00:52:04,630 --> 00:52:02,400

when i visited him at the aerospace

1396

00:52:07,190 --> 00:52:04,640

corporation uh

1397

00:52:08,710 --> 00:52:07,200

and uh i we couldn't talk we couldn't

1398

00:52:11,670 --> 00:52:08,720

talk about any of this stuff

1399

00:52:13,670 --> 00:52:11,680

i i couldn't even go to the bathroom

1400

00:52:15,430 --> 00:52:13,680

at that place without a guard standing

1401

00:52:17,510 --> 00:52:15,440

outside the door wow

1402

00:52:19,270 --> 00:52:17,520

you know that's how locked down this

1403

00:52:20,309 --> 00:52:19,280

that place is

1404

00:52:22,870 --> 00:52:20,319

incredible

1405

00:52:24,309 --> 00:52:22,880

well just as a follow-up to that uh

1406

00:52:27,829 --> 00:52:24,319

question thank you so much for speaking

1407

00:52:29,990 --> 00:52:27,839

to it um you know we've heard reports of

1408

00:52:32,790 --> 00:52:30,000

anomalous physiological and

1409

00:52:34,470 --> 00:52:32,800

psychological effects following exposure

1410

00:52:36,870 --> 00:52:34,480

to some of these purported exotic

1411

00:52:38,230 --> 00:52:36,880

materials such as like electrical

1412

00:52:39,990 --> 00:52:38,240

sensation

1413

00:52:42,630 --> 00:52:40,000

increases in

1414

00:52:44,710 --> 00:52:42,640

the experience of synchronicity the

1415

00:52:47,750 --> 00:52:44,720

download term that you hear within the

1416

00:52:49,589 --> 00:52:47,760

ufo circles uh just to kind of speculate

1417

00:52:51,910 --> 00:52:49,599

here for a second are these metals

1418

00:52:53,270 --> 00:52:51,920

potentially biotechnologies or do they

1419

00:52:55,670 --> 00:52:53,280

possess any kind of

1420

00:52:58,150 --> 00:52:55,680

biological properties to your knowledge

1421

00:53:00,549 --> 00:52:58,160

i i couldn't tell you i i wouldn't even

1422

00:53:01,829 --> 00:53:00,559

begin to speculate um

1423

00:53:02,870 --> 00:53:01,839

you know i think

1424

00:53:04,950 --> 00:53:02,880

maybe

1425

00:53:06,069 --> 00:53:04,960

okay speculate

1426

00:53:08,309 --> 00:53:06,079

uh

1427

00:53:09,750 --> 00:53:08,319

if i were to um

1428

00:53:11,510 --> 00:53:09,760

think of them i would think of them as

1429

00:53:14,230 --> 00:53:11,520

focused devices

1430

00:53:16,549 --> 00:53:14,240

right that you focus on something and

1431

00:53:18,870 --> 00:53:16,559

you think about it and it could just as

1432

00:53:20,309 --> 00:53:18,880

well have been a rock from your garden

1433

00:53:22,870 --> 00:53:20,319

and somebody told you it was from an

1434

00:53:23,750 --> 00:53:22,880

alien craft and because you focused on

1435

00:53:28,470 --> 00:53:23,760

it

1436

00:53:30,549 --> 00:53:28,480

viewing sense where people will focus on

1437

00:53:32,309 --> 00:53:30,559

just random numbers

1438

00:53:35,190 --> 00:53:32,319

and this was jacques valle's idea of how

1439

00:53:37,750 --> 00:53:35,200

to do it uh indirect remote viewing

1440

00:53:39,750 --> 00:53:37,760

there's a different term for it but um

1441

00:53:40,950 --> 00:53:39,760

that that might be part of what's going

1442

00:53:42,790 --> 00:53:40,960

on here

1443

00:53:44,950 --> 00:53:42,800

and it's kind of like the you're

1444

00:53:46,870 --> 00:53:44,960

allowing yourself

1445

00:53:48,549 --> 00:53:46,880

to

1446

00:53:51,430 --> 00:53:48,559

activate

1447

00:53:52,390 --> 00:53:51,440

you know i mean in in clinical trials

1448

00:53:53,270 --> 00:53:52,400

uh

1449

00:53:55,670 --> 00:53:53,280

the

1450

00:53:57,109 --> 00:53:55,680

you know you can give somebody a fake

1451
00:53:59,670 --> 00:53:57,119
pill

1452
00:54:01,109 --> 00:53:59,680
and they'll get better right

1453
00:54:03,430 --> 00:54:01,119
so wow

1454
00:54:05,750 --> 00:54:03,440
this might be similar i don't know i'm

1455
00:54:08,710 --> 00:54:05,760
just guessing sure now there might be

1456
00:54:11,030 --> 00:54:08,720
amongst all of these things a true

1457
00:54:12,790 --> 00:54:11,040
biotechnology or a true

1458
00:54:15,190 --> 00:54:12,800
technology

1459
00:54:16,150 --> 00:54:15,200
but whatever that is it's at a much

1460
00:54:18,230 --> 00:54:16,160
deeper

1461
00:54:20,950 --> 00:54:18,240
level of uh

1462
00:54:22,870 --> 00:54:20,960
technical capability than than

1463
00:54:24,230 --> 00:54:22,880

i think we even if we were to look at it

1464

00:54:26,150 --> 00:54:24,240

and know that's what it is that we'd be

1465

00:54:27,670 --> 00:54:26,160

able to understand it

1466

00:54:29,589 --> 00:54:27,680

so there's this uh sort of

1467

00:54:31,270 --> 00:54:29,599

intentionality this mentation kind of

1468

00:54:32,390 --> 00:54:31,280

quality to it

1469

00:54:33,910 --> 00:54:32,400

maybe even

1470

00:54:35,349 --> 00:54:33,920

the idealistic

1471

00:54:37,190 --> 00:54:35,359

metaphysical model rather than the

1472

00:54:39,109 --> 00:54:37,200

materialist metaphysical model is that

1473

00:54:40,789 --> 00:54:39,119

something that you've entertained or

1474

00:54:43,190 --> 00:54:40,799

yeah sure i mean

1475

00:54:44,950 --> 00:54:43,200

i'm willing to enter so

1476

00:54:47,270 --> 00:54:44,960

even before i got into this area people

1477

00:54:48,470 --> 00:54:47,280

would ask me when i would go give talk

1478

00:54:50,069 --> 00:54:48,480

somewhere and i'd go talk to the

1479

00:54:51,190 --> 00:54:50,079

graduate students and postdocs at lunch

1480

00:54:52,870 --> 00:54:51,200

and they'd say

1481

00:54:54,309 --> 00:54:52,880

how are you so creative that you've got

1482

00:54:56,309 --> 00:54:54,319

all these patents you can come up with

1483

00:54:57,430 --> 00:54:56,319

all these ideas blah blah

1484

00:54:59,750 --> 00:54:57,440

and

1485

00:55:01,270 --> 00:54:59,760

i you know i say well

1486

00:55:05,589 --> 00:55:01,280

what i

1487

00:55:07,510 --> 00:55:05,599

list you you to be a good scientist you

1488

00:55:09,990 --> 00:55:07,520

need to be able to list all of the

1489

00:55:11,990 --> 00:55:10,000

possibilities and i would make the joke

1490

00:55:12,970 --> 00:55:12,000

all the way down to micro dwarves that

1491

00:55:14,789 --> 00:55:12,980

run the universe

1492

00:55:16,950 --> 00:55:14,799

[Laughter]

1493

00:55:18,710 --> 00:55:16,960

they are the least likely

1494

00:55:21,109 --> 00:55:18,720

to be true

1495

00:55:23,190 --> 00:55:21,119

but they should be on the table

1496

00:55:25,030 --> 00:55:23,200

right and then you need to rank you need

1497

00:55:27,349 --> 00:55:25,040

to be able to mentally rank order all of

1498

00:55:28,870 --> 00:55:27,359

those things and then mentally find a

1499

00:55:32,470 --> 00:55:28,880

reasonable cutoff that said everything

1500

00:55:34,390 --> 00:55:32,480

below this is you know untestable

1501
00:55:36,789 --> 00:55:34,400
not wrong just untestable

1502
00:55:39,109 --> 00:55:36,799
here's a region that is

1503
00:55:41,270 --> 00:55:39,119
possible and testable but i can't do it

1504
00:55:43,750 --> 00:55:41,280
right now and here's the region that is

1505
00:55:44,549 --> 00:55:43,760
testable and accessible

1506
00:55:45,829 --> 00:55:44,559
um

1507
00:55:47,349 --> 00:55:45,839
and

1508
00:55:49,109 --> 00:55:47,359
that is

1509
00:55:51,510 --> 00:55:49,119
i think an important part of all of

1510
00:55:53,829 --> 00:55:51,520
these discussions is that being able to

1511
00:55:56,069 --> 00:55:53,839
iterate all possibilities

1512
00:55:57,430 --> 00:55:56,079
uh and then rank order them and just put

1513
00:55:58,789 --> 00:55:57,440

some things to the side to say i can

1514

00:56:01,030 --> 00:55:58,799

focus on this

1515

00:56:03,270 --> 00:56:01,040

i mean that's all i've

1516

00:56:05,349 --> 00:56:03,280

never wanted to do with this which is

1517

00:56:06,630 --> 00:56:05,359

why the you know the skeptics of the

1518

00:56:08,309 --> 00:56:06,640

world and i won't even name them because

1519

00:56:09,829 --> 00:56:08,319

i don't want to give them like saying

1520

00:56:11,670 --> 00:56:09,839

the devil's name three times and then we

1521

00:56:13,670 --> 00:56:11,680

don't do that here we go

1522

00:56:19,910 --> 00:56:13,680

yep exactly

1523

00:56:23,750 --> 00:56:21,109

you know

1524

00:56:25,430 --> 00:56:23,760

and so um

1525

00:56:28,390 --> 00:56:25,440

i i think that

1526

00:56:32,390 --> 00:56:28,400

as long as you do that

1527

00:56:33,510 --> 00:56:32,400

it armors you against the skeptics

1528

00:56:35,270 --> 00:56:33,520

because you can always say

1529

00:56:36,870 --> 00:56:35,280

diplomatically i didn't say that's what

1530

00:56:39,030 --> 00:56:36,880

i said it was

1531

00:56:43,109 --> 00:56:39,040

i'm just saying it's a possibility

1532

00:56:46,309 --> 00:56:43,119

right so it's you're the one who keeps

1533

00:56:47,270 --> 00:56:46,319

harping on one conclusion

1534

00:56:53,190 --> 00:56:47,280

but

1535

00:56:56,390 --> 00:56:54,950

claimed was a conclusion

1536

00:56:58,069 --> 00:56:56,400

and so that's why you just need to walk

1537

00:56:59,430 --> 00:56:58,079

back and step back and say no all the

1538

00:57:02,150 --> 00:56:59,440

other possibilities

1539

00:57:03,910 --> 00:57:02,160

you come up with some ideas now

1540

00:57:06,789 --> 00:57:03,920

right you know come up with ideas that

1541

00:57:09,910 --> 00:57:06,799

aren't just not

1542

00:57:16,710 --> 00:57:13,190

excellent well thank you think they're

1543

00:57:19,109 --> 00:57:16,720

to expand their boundaries

1544

00:57:21,109 --> 00:57:19,119

when midwest can admit certain things

1545

00:57:23,030 --> 00:57:21,119

like this

1546

00:57:25,589 --> 00:57:23,040

i will respect his

1547

00:57:28,390 --> 00:57:25,599

opinions until then he's not a scientist

1548

00:57:29,910 --> 00:57:28,400

not happening not i've i've said this

1549

00:57:32,069 --> 00:57:29,920

since we started the show nathan's heard

1550

00:57:34,390 --> 00:57:32,079

me say i said i don't not like the guy

1551
00:57:36,470 --> 00:57:34,400
because he's a skeptic we need skeptics

1552
00:57:38,309 --> 00:57:36,480
we need that that i mean that it but

1553
00:57:40,069 --> 00:57:38,319
he's intellectually dishonest in his

1554
00:57:41,910 --> 00:57:40,079
approach because he's already decided

1555
00:57:44,870 --> 00:57:41,920
what it is and everything is geared

1556
00:57:47,750 --> 00:57:44,880
toward proving it's not what

1557
00:57:50,390 --> 00:57:47,760
in in many cases very credible sources

1558
00:57:53,190 --> 00:57:50,400
have said it is based on actual data

1559
00:57:55,430 --> 00:57:53,200
like tic tac it's so absurd to argue

1560
00:57:58,150 --> 00:57:55,440
that if people will take that approach

1561
00:57:59,510 --> 00:57:58,160
in any phd program at stanford he would

1562
00:58:01,190 --> 00:57:59,520
be booted out in the second year and

1563
00:58:02,950 --> 00:58:01,200

given a masters

1564

00:58:04,630 --> 00:58:02,960

i could care less what he thinks let me

1565

00:58:06,950 --> 00:58:04,640

move on to kevin because i actually do

1566

00:58:09,589 --> 00:58:06,960

care what kevin thinks

1567

00:58:12,069 --> 00:58:09,599

here's the thing i'm a skeptic you know

1568

00:58:15,990 --> 00:58:12,079

but it doesn't nathan's a skeptic

1569

00:58:19,349 --> 00:58:17,670

you know i'm willing to move beyond all

1570

00:58:22,950 --> 00:58:19,359

that too i think that's just a product

1571

00:58:24,470 --> 00:58:22,960

of culture too a lot of that um

1572

00:58:27,430 --> 00:58:24,480

honestly so

1573

00:58:29,430 --> 00:58:27,440

i'm looking down the future and

1574

00:58:31,829 --> 00:58:29,440

i want to know that do you think that

1575

00:58:33,750 --> 00:58:31,839

understanding this phenomenon

1576

00:58:35,589 --> 00:58:33,760

is going to excel us in a direction in

1577

00:58:37,349 --> 00:58:35,599

history that we as a species are

1578

00:58:39,670 --> 00:58:37,359

naturally destined

1579

00:58:45,190 --> 00:58:41,910

i think it'll get us it accelerates yes

1580

00:58:48,390 --> 00:58:45,200

i i think i think with without

1581

00:58:50,630 --> 00:58:48,400

this continuous observation

1582

00:58:51,910 --> 00:58:50,640

we would probably still

1583

00:58:55,910 --> 00:58:51,920

move along

1584

00:58:56,789 --> 00:58:55,920

a path of materialist science

1585

00:59:00,309 --> 00:58:56,799

right

1586

00:59:01,829 --> 00:59:00,319

but these observations tell us that the

1587

00:59:05,349 --> 00:59:01,839

universe might be just a little bit

1588

00:59:09,030 --> 00:59:05,359

bigger than we thought and so it's

1589

00:59:11,349 --> 00:59:09,040

forcing people to more quickly come

1590

00:59:13,190 --> 00:59:11,359

to different conclusions

1591

00:59:15,510 --> 00:59:13,200

about things and maybe it's i mean and

1592

00:59:17,109 --> 00:59:15,520

it is accelerating us

1593

00:59:19,030 --> 00:59:17,119

in different ways i mean where was the

1594

00:59:21,430 --> 00:59:19,040

first idea for warp drive whoever

1595

00:59:23,270 --> 00:59:21,440

thought that up it wasn't it wasn't

1596

00:59:24,470 --> 00:59:23,280

star trek and they you know they

1597

00:59:25,430 --> 00:59:24,480

promoted it

1598

00:59:27,750 --> 00:59:25,440

uh

1599

00:59:29,030 --> 00:59:27,760

put it into the zeitgeist and everything

1600

00:59:30,789 --> 00:59:29,040

but um

1601
00:59:33,829 --> 00:59:30,799
came from science fiction but it also

1602
00:59:35,510 --> 00:59:33,839
came from you know i i will bet that it

1603
00:59:37,510 --> 00:59:35,520
came from some observations that

1604
00:59:39,430 --> 00:59:37,520
somebody made or thought about that

1605
00:59:43,109 --> 00:59:39,440
things could you know

1606
00:59:46,870 --> 00:59:43,119
a species could move faster than light

1607
00:59:49,030 --> 00:59:46,880
once einstein said this is the limit

1608
00:59:50,630 --> 00:59:49,040
somebody asked why

1609
00:59:53,270 --> 00:59:50,640
and when you started writing this

1610
00:59:55,470 --> 00:59:53,280
science fiction story they said well

1611
00:59:58,069 --> 00:59:55,480
for my science fiction

1612
01:00:00,309 --> 00:59:58,079
story to work somebody's got to get from

1613
01:00:02,549 --> 01:00:00,319

the other side of the galaxy to here

1614

01:00:04,950 --> 01:00:02,559

faster than light

1615

01:00:07,670 --> 01:00:04,960

and so

1616

01:00:09,430 --> 01:00:07,680

ben was born the notion of

1617

01:00:11,030 --> 01:00:09,440

warped space

1618

01:00:12,309 --> 01:00:11,040

that we could travel in

1619

01:00:13,910 --> 01:00:12,319

so i think that that's what we're seeing

1620

01:00:15,430 --> 01:00:13,920

right now we're seeing objects that do

1621

01:00:17,349 --> 01:00:15,440

we can't do

1622

01:00:19,510 --> 01:00:17,359

and i mean that's what had

1623

01:00:21,030 --> 01:00:19,520

how put off for instance come up with

1624

01:00:23,190 --> 01:00:21,040

the first equations

1625

01:00:25,910 --> 01:00:23,200

that showed you could warp space and

1626

01:00:28,230 --> 01:00:25,920

explain why these objects were bright

1627

01:00:29,750 --> 01:00:28,240

the equations told you why the object

1628

01:00:32,069 --> 01:00:29,760

was bright

1629

01:00:35,349 --> 01:00:32,079

basically that because

1630

01:00:36,630 --> 01:00:35,359

uh infrared when it passes through this

1631

01:00:38,069 --> 01:00:36,640

field

1632

01:00:41,270 --> 01:00:38,079

would be up

1633

01:00:44,069 --> 01:00:41,280

ticked in frequency and energy infrared

1634

01:00:45,829 --> 01:00:44,079

light became bright white light

1635

01:00:46,789 --> 01:00:45,839

right and actually

1636

01:00:48,710 --> 01:00:46,799

uh

1637

01:00:49,829 --> 01:00:48,720

damaging um

1638

01:00:50,950 --> 01:00:49,839

radiation

1639

01:00:52,309 --> 01:00:50,960

and it's it's all right there in the

1640

01:00:55,270 --> 01:00:52,319

equations

1641

01:00:56,950 --> 01:00:55,280

uh and so that it fell out of

1642

01:00:59,030 --> 01:00:56,960

the equations and fell out of the

1643

01:01:01,349 --> 01:00:59,040

observation that okay

1644

01:01:04,390 --> 01:01:01,359

if it's moving that fast and we want to

1645

01:01:06,710 --> 01:01:04,400

bend einstein's equations

1646

01:01:09,030 --> 01:01:06,720

to the problem

1647

01:01:11,589 --> 01:01:09,040

these assumptions that einstein made

1648

01:01:12,549 --> 01:01:11,599

that this is a limit and and that's a

1649

01:01:15,270 --> 01:01:12,559

you know

1650

01:01:17,270 --> 01:01:15,280

that's a divide by zero let's say that

1651

01:01:19,829 --> 01:01:17,280

that's not a divide by zero

1652

01:01:21,270 --> 01:01:19,839

right let's put a number to it and

1653

01:01:24,549 --> 01:01:21,280

suddenly

1654

01:01:26,630 --> 01:01:24,559

warp drive falls out of it

1655

01:01:28,230 --> 01:01:26,640

and now kubiare has come up with

1656

01:01:30,390 --> 01:01:28,240

another version of it and five other

1657

01:01:32,630 --> 01:01:30,400

guys are going with all

1658

01:01:34,710 --> 01:01:32,640

other versions of it all that takes

1659

01:01:37,030 --> 01:01:34,720

standard theory and just show that if

1660

01:01:39,670 --> 01:01:37,040

you modify if you assume that the amount

1661

01:01:40,390 --> 01:01:39,680

of energy is accessible then you can do

1662

01:01:42,549 --> 01:01:40,400

it

1663

01:01:44,789 --> 01:01:42,559

but nobody ever assumed that the amount

1664

01:01:47,270 --> 01:01:44,799
of energy was possible

1665

01:01:48,870 --> 01:01:47,280
so you just say well i know i can't make

1666

01:01:51,990 --> 01:01:48,880
that amount of energy i'll just assume

1667

01:01:54,950 --> 01:01:52,000
it can be done somehow and if i do that

1668

01:01:56,789 --> 01:01:54,960
this is what i can accomplish with it

1669

01:01:59,349 --> 01:01:56,799
right and so then people say well oh

1670

01:02:01,589 --> 01:01:59,359
well 10 to the 10

1671

01:02:03,670 --> 01:02:01,599
herbs or whatever of energy

1672

01:02:05,270 --> 01:02:03,680
is that's way too much but here i can

1673

01:02:07,190 --> 01:02:05,280
change the equations and i can make it

1674

01:02:09,190 --> 01:02:07,200
10 to the 7. oh i can change it and i

1675

01:02:11,750 --> 01:02:09,200
can make it 10 to the four

1676

01:02:13,589 --> 01:02:11,760

right and so i mean when i remember

1677

01:02:15,670 --> 01:02:13,599

talking with hal about it a long time

1678

01:02:17,349 --> 01:02:15,680

ago now five or six years

1679

01:02:19,510 --> 01:02:17,359

and i said so

1680

01:02:23,270 --> 01:02:19,520

he's i we were sitting in an l we were

1681

01:02:24,390 --> 01:02:23,280

in an elevator um actually in vienna and

1682

01:02:26,069 --> 01:02:24,400

i said well

1683

01:02:27,430 --> 01:02:26,079

how how are they doing so i don't know i

1684

01:02:29,430 --> 01:02:27,440

said but they're getting energy from

1685

01:02:32,710 --> 01:02:29,440

somewhere they said they're cheating

1686

01:02:35,589 --> 01:02:32,720

aren't they i said yeah they're cheating

1687

01:02:38,230 --> 01:02:35,599

they're cheating rule

1688

01:02:40,309 --> 01:02:38,240

that it's very very important point that

1689

01:02:41,750 --> 01:02:40,319

i'm sorry kev go ahead i was just going

1690

01:02:43,589 --> 01:02:41,760

to say the function seems to be that

1691

01:02:45,829 --> 01:02:43,599

they're just confounding

1692

01:02:47,990 --> 01:02:45,839

all rational thought you know

1693

01:02:49,349 --> 01:02:48,000

yeah all the sciences and yeah it's

1694

01:02:51,510 --> 01:02:49,359

always been that way really if you look

1695

01:02:52,710 --> 01:02:51,520

back through history it's always been

1696

01:02:54,390 --> 01:02:52,720

founded

1697

01:02:55,910 --> 01:02:54,400

it i want to say though the important

1698

01:02:58,230 --> 01:02:55,920

point you said though

1699

01:03:00,150 --> 01:02:58,240

for laypersons out there because i'm

1700

01:03:02,069 --> 01:03:00,160

coming from the aviation side of things

1701

01:03:04,950 --> 01:03:02,079

is what you said is having a certain

1702

01:03:07,829 --> 01:03:04,960

amount of energy to move something or to

1703

01:03:09,750 --> 01:03:07,839

make something stay in one position for

1704

01:03:12,230 --> 01:03:09,760

hours and hours at a time or move

1705

01:03:13,829 --> 01:03:12,240

rapidly

1706

01:03:17,990 --> 01:03:13,839

it's very difficult for people to

1707

01:03:20,710 --> 01:03:18,000

conceptualize why it's why that's uh why

1708

01:03:23,750 --> 01:03:20,720

that's not a thing that we're able to do

1709

01:03:25,190 --> 01:03:23,760

at this point in time uh even a laser a

1710

01:03:27,910 --> 01:03:25,200

lot of people don't know like firing a

1711

01:03:30,870 --> 01:03:27,920

laser can't just uh like on star trek

1712

01:03:33,029 --> 01:03:30,880

just have multiple sort of iterations

1713

01:03:35,109 --> 01:03:33,039

right there's a big charging process

1714

01:03:37,510 --> 01:03:35,119

that goes on in the lasers fire and i

1715

01:03:39,270 --> 01:03:37,520

know from the aviation side of the house

1716

01:03:42,230 --> 01:03:39,280

the difficulties that that we've had

1717

01:03:44,230 --> 01:03:42,240

with it so um so anyway thank you for

1718

01:03:46,710 --> 01:03:44,240

pointing that out uh there's multiple

1719

01:03:49,430 --> 01:03:46,720

aspects of these craft that are

1720

01:03:51,349 --> 01:03:49,440

so that are absolutely mind-blowing that

1721

01:03:53,430 --> 01:03:51,359

people don't understand they think you

1722

01:03:55,510 --> 01:03:53,440

can just do it and it's like no you

1723

01:03:58,069 --> 01:03:55,520

can't just do it you can't just fly

1724

01:03:59,190 --> 01:03:58,079

airplanes yeah i mean you know i mean

1725

01:04:01,029 --> 01:03:59,200

there's a couple of different ways you

1726

01:04:03,589 --> 01:04:01,039

could imagine it you either have one

1727

01:04:06,230 --> 01:04:03,599

generator that creates the field

1728

01:04:07,190 --> 01:04:06,240

or let's say that that takes too much

1729

01:04:09,430 --> 01:04:07,200

energy

1730

01:04:11,589 --> 01:04:09,440

to create such a large field

1731

01:04:14,470 --> 01:04:11,599

the other idea that's now out there is

1732

01:04:15,910 --> 01:04:14,480

you have multiple tiny engines

1733

01:04:17,589 --> 01:04:15,920

next to each other

1734

01:04:19,109 --> 01:04:17,599

that when the fields get close to each

1735

01:04:22,150 --> 01:04:19,119

other they converge

1736

01:04:23,750 --> 01:04:22,160

and so you don't have to extract

1737

01:04:24,870 --> 01:04:23,760

extraordinary amounts of energy you just

1738

01:04:26,630 --> 01:04:24,880

need to get a little bit of energy

1739

01:04:28,230 --> 01:04:26,640

locally and then you basically build a

1740

01:04:30,150 --> 01:04:28,240

wall around you

1741

01:04:31,829 --> 01:04:30,160

and but again what falls out of the

1742

01:04:35,109 --> 01:04:31,839

equations is

1743

01:04:37,589 --> 01:04:35,119

momentum-less travel

1744

01:04:39,270 --> 01:04:37,599

right that's right momentum inertia

1745

01:04:40,950 --> 01:04:39,280

instantaneous acceleration and

1746

01:04:42,630 --> 01:04:40,960

deceleration

1747

01:04:44,069 --> 01:04:42,640

trans medium

1748

01:04:46,230 --> 01:04:44,079

it all falls out

1749

01:04:47,109 --> 01:04:46,240

once you do that one thing

1750

01:04:48,630 --> 01:04:47,119

so

1751

01:04:49,829 --> 01:04:48,640

you know i

1752

01:04:51,750 --> 01:04:49,839

whatever these things are they don't

1753

01:04:54,150 --> 01:04:51,760

care that we see them

1754

01:04:55,430 --> 01:04:54,160

and maybe they don't care that we can

1755

01:04:57,190 --> 01:04:55,440

that they say oh well they're never

1756

01:04:59,109 --> 01:04:57,200

going to be able to do this for another

1757

01:05:00,150 --> 01:04:59,119

10 000 years so

1758

01:05:02,390 --> 01:05:00,160

we're just going to go about our

1759

01:05:03,829 --> 01:05:02,400

business whatever their business is

1760

01:05:06,309 --> 01:05:03,839

um

1761

01:05:08,549 --> 01:05:06,319

you know i wrote a i wrote a white paper

1762

01:05:11,589 --> 01:05:08,559

for the senate intelligence committee on

1763

01:05:13,190 --> 01:05:11,599

this whole thing and um

1764

01:05:14,069 --> 01:05:13,200

you know i

1765

01:05:15,589 --> 01:05:14,079

gave

1766

01:05:17,910 --> 01:05:15,599

the opportunities because i'm more

1767

01:05:18,950 --> 01:05:17,920

interested in the opportunities

1768

01:05:21,109 --> 01:05:18,960

uh

1769

01:05:22,630 --> 01:05:21,119

that are there but i said all of this

1770

01:05:24,230 --> 01:05:22,640

speculation

1771

01:05:26,789 --> 01:05:24,240

at the end i said all of this

1772

01:05:28,309 --> 01:05:26,799

speculation leaves out the most obvious

1773

01:05:30,630 --> 01:05:28,319

question

1774

01:05:33,670 --> 01:05:30,640

what is their intent

1775

01:05:35,430 --> 01:05:33,680

towards humanity

1776

01:05:38,230 --> 01:05:35,440

right so again

1777

01:05:40,789 --> 01:05:38,240

it again it's just i don't

1778

01:05:42,390 --> 01:05:40,799

it's real whatever it is so what's its

1779

01:05:44,230 --> 01:05:42,400

intent

1780

01:05:46,710 --> 01:05:44,240

uh and

1781

01:05:48,069 --> 01:05:46,720

you know we could circle this question

1782

01:05:50,549 --> 01:05:48,079

endlessly

1783

01:05:53,750 --> 01:05:50,559

with positive and negative

1784

01:05:55,029 --> 01:05:53,760

vibes about what it is or might be

1785

01:05:57,750 --> 01:05:55,039

um

1786

01:05:59,829 --> 01:05:57,760

it isn't making it obvious for us

1787

01:06:02,309 --> 01:05:59,839

uh you know you can go down a rabbit

1788

01:06:06,390 --> 01:06:02,319

hole of being scared to death

1789

01:06:08,630 --> 01:06:06,400

about it or you can say well

1790

01:06:10,309 --> 01:06:08,640

we're okay for now

1791

01:06:12,630 --> 01:06:10,319

and that's the one i'm gonna take and

1792

01:06:13,829 --> 01:06:12,640

say we're okay for now until somebody

1793

01:06:16,870 --> 01:06:13,839

otherwise

1794

01:06:18,470 --> 01:06:16,880

uh i'm excited because as a scientist

1795

01:06:19,940 --> 01:06:18,480

once i know something

1796

01:06:22,950 --> 01:06:19,950

i'm not interested in anything right

1797

01:06:26,230 --> 01:06:22,960

[Laughter]

1798

01:06:31,750 --> 01:06:28,789

and understand the next thing right if

1799

01:06:34,470 --> 01:06:31,760

you can imagine hussein bolt or usain

1800

01:06:36,870 --> 01:06:34,480

bolt in the starting blocks of a 100

1801
01:06:39,670 --> 01:06:36,880
meter race that is debs at the bottom of

1802
01:06:42,069 --> 01:06:39,680
your screen right now take it away debs

1803
01:06:43,829 --> 01:06:42,079
so my question is actually something

1804
01:06:44,829 --> 01:06:43,839
i've touched on a little bit with you

1805
01:06:48,390 --> 01:06:44,839
before

1806
01:06:51,750 --> 01:06:48,400
about psychiatrists therapists and

1807
01:06:53,589 --> 01:06:51,760
doctors why and scientists actually we

1808
01:06:55,750 --> 01:06:53,599
would greatly appreciate that you have

1809
01:06:58,150 --> 01:06:55,760
come forward but why do you think these

1810
01:07:00,150 --> 01:06:58,160
other people are shy about getting

1811
01:07:03,430 --> 01:07:00,160
involved and what do you think we can do

1812
01:07:07,270 --> 01:07:04,710
um

1813
01:07:08,309 --> 01:07:07,280

well why are they shy uh

1814

01:07:10,069 --> 01:07:08,319

well they're just scared of what other

1815

01:07:11,670 --> 01:07:10,079

people think about them

1816

01:07:15,349 --> 01:07:11,680

you know maybe they're at a position in

1817

01:07:18,150 --> 01:07:15,359

their lives where um

1818

01:07:20,309 --> 01:07:18,160

they are monetarily insecure

1819

01:07:22,710 --> 01:07:20,319

um you know i think one of the things

1820

01:07:24,309 --> 01:07:22,720

that has made it possible for me

1821

01:07:26,950 --> 01:07:24,319

to come out as

1822

01:07:28,789 --> 01:07:26,960

in all of this is that i'm i've made a

1823

01:07:31,589 --> 01:07:28,799

lot of money selling companies that spun

1824

01:07:34,710 --> 01:07:31,599

out of my lab so i could lose my job

1825

01:07:38,390 --> 01:07:34,720

tomorrow and i could be perfectly happy

1826

01:07:40,230 --> 01:07:38,400

um you know but all of those successes

1827

01:07:42,950 --> 01:07:40,240

perhaps maybe a little conceited or

1828

01:07:46,069 --> 01:07:42,960

arrogant about what i can do

1829

01:07:48,470 --> 01:07:46,079

um i feel like i can do anything

1830

01:07:50,870 --> 01:07:48,480

so i think that's what we have to get

1831

01:07:52,309 --> 01:07:50,880

across to people and i try to instill in

1832

01:07:54,630 --> 01:07:52,319

my students is

1833

01:07:57,349 --> 01:07:54,640

you can do anything

1834

01:08:01,029 --> 01:07:57,359

just say you want to do it

1835

01:08:02,390 --> 01:08:01,039

uh and make it your purpose and don't be

1836

01:08:04,549 --> 01:08:02,400

afraid

1837

01:08:09,670 --> 01:08:04,559

i mean i've said this before shame

1838

01:08:12,470 --> 01:08:09,680

people use shame to corral society into

1839

01:08:14,069 --> 01:08:12,480

columns and places and boxes

1840

01:08:15,510 --> 01:08:14,079

it's like the first thing you hear and

1841

01:08:17,269 --> 01:08:15,520

remember when you're growing up is you

1842

01:08:20,550 --> 01:08:17,279

should be ashamed of yourself

1843

01:08:21,829 --> 01:08:20,560

yeah and it's you know it controls you

1844

01:08:24,870 --> 01:08:21,839

as long as you're not doing something

1845

01:08:27,110 --> 01:08:24,880

unethical don't let anybody shame you

1846

01:08:28,950 --> 01:08:27,120

into doing what you think is right

1847

01:08:30,870 --> 01:08:28,960

and so i think that's

1848

01:08:33,910 --> 01:08:30,880

kind of the that's the message that i

1849

01:08:36,470 --> 01:08:33,920

send to people often and then creating a

1850

01:08:38,789 --> 01:08:36,480

safe space which is what

1851

01:08:39,910 --> 01:08:38,799

the media is doing now

1852

01:08:43,110 --> 01:08:39,920

and

1853

01:08:44,789 --> 01:08:43,120

the government is doing now i mean

1854

01:08:46,149 --> 01:08:44,799

the new

1855

01:08:48,950 --> 01:08:46,159

arrow

1856

01:08:50,630 --> 01:08:48,960

department created a twitter account

1857

01:08:53,669 --> 01:08:50,640

today

1858

01:08:54,550 --> 01:08:53,679

a twitter account i already followed it

1859

01:08:56,149 --> 01:08:54,560

right

1860

01:08:57,829 --> 01:08:56,159

yeah

1861

01:09:00,709 --> 01:08:57,839

and so

1862

01:09:02,950 --> 01:09:00,719

you know what could be

1863

01:09:05,349 --> 01:09:02,960

a quicker easier way for me to tell some

1864

01:09:06,550 --> 01:09:05,359

of my colleagues that this is real is to

1865

01:09:10,149 --> 01:09:06,560

say

1866

01:09:12,309 --> 01:09:10,159

put a link in an email go look at this

1867

01:09:14,070 --> 01:09:12,319

go look at this

1868

01:09:17,910 --> 01:09:14,080

and at the very least what it will do it

1869

01:09:19,749 --> 01:09:17,920

will it will stop that reflexive

1870

01:09:21,269 --> 01:09:19,759

oh it's tin foil

1871

01:09:24,149 --> 01:09:21,279

territory

1872

01:09:25,430 --> 01:09:24,159

it'll give people pause

1873

01:09:28,950 --> 01:09:25,440

a little bit

1874

01:09:30,550 --> 01:09:28,960

um so you know do i but again at a

1875

01:09:32,870 --> 01:09:30,560

certain point now that the ball is

1876

01:09:36,950 --> 01:09:32,880

rolling i don't need really to convince

1877

01:09:39,829 --> 01:09:36,960

anybody else enough people are convinced

1878

01:09:41,829 --> 01:09:39,839

that there's money pouring into this

1879

01:09:43,110 --> 01:09:41,839

now and there's scientists starting to

1880

01:09:44,630 --> 01:09:43,120

come on board

1881

01:09:46,149 --> 01:09:44,640

serious scientists starting to come on

1882

01:09:48,630 --> 01:09:46,159

board i've got a nobel prize winner

1883

01:09:51,829 --> 01:09:48,640

who's willing to step up and help

1884

01:09:53,430 --> 01:09:51,839

so you know this is it's it's the cat's

1885

01:09:55,669 --> 01:09:53,440

out of the bag

1886

01:09:57,110 --> 01:09:55,679

uh and so it's not going to get stuffed

1887

01:10:01,189 --> 01:09:57,120

back in now

1888

01:10:03,430 --> 01:10:01,199

anytime soon um so

1889

01:10:05,189 --> 01:10:03,440

at this point it's like let's stop

1890

01:10:06,790 --> 01:10:05,199

trying to convince other people that

1891

01:10:09,110 --> 01:10:06,800

we're right

1892

01:10:11,750 --> 01:10:09,120

and just do the work or as jacques would

1893

01:10:14,830 --> 01:10:11,760

say quoting a famous physicist

1894

01:10:18,630 --> 01:10:14,840

shut up and calculate

1895

01:10:20,229 --> 01:10:18,640

right you know just stop

1896

01:10:22,310 --> 01:10:20,239

worrying about what other people are

1897

01:10:24,470 --> 01:10:22,320

thinking and trying to convince anybody

1898

01:10:26,630 --> 01:10:24,480

of anything yeah because they're not

1899

01:10:29,030 --> 01:10:26,640

convincible they're not convinceable

1900

01:10:31,830 --> 01:10:29,040

i would rather harness people's energies

1901

01:10:33,350 --> 01:10:31,840

to do the work

1902

01:10:35,110 --> 01:10:33,360

i mean when people tell me i can't do

1903

01:10:38,070 --> 01:10:35,120

something i don't sit around

1904

01:10:40,470 --> 01:10:38,080

you know writing screeds about them on

1905

01:10:41,830 --> 01:10:40,480

the wall

1906

01:10:47,030 --> 01:10:41,840

i

1907

01:10:50,950 --> 01:10:47,040

doesn't work don't get mad at yourself

1908

01:10:56,070 --> 01:10:53,270

you know you you coming out is just

1909

01:10:58,630 --> 01:10:56,080

emblematic of how you are you know your

1910

01:11:00,310 --> 01:10:58,640

courage that permeates other areas of

1911

01:11:02,470 --> 01:11:00,320

your life and this

1912

01:11:05,110 --> 01:11:02,480

this is no different um

1913

01:11:07,110 --> 01:11:05,120

let me bring you over to stephanie is it

1914

01:11:09,510 --> 01:11:07,120

miss stephanie you're next right ma'am

1915

01:11:11,830 --> 01:11:09,520

sure sure and i'll just say gary one

1916

01:11:14,149 --> 01:11:11,840

thing that we all have in common with

1917

01:11:16,310 --> 01:11:14,159

the stanford professor is none of us

1918

01:11:18,870 --> 01:11:16,320

care about what any one thinks about us

1919

01:11:21,430 --> 01:11:18,880

so same we're all on board with you we

1920

01:11:23,990 --> 01:11:21,440

do not care what anyone thinks of us

1921

01:11:25,110 --> 01:11:24,000

we know we know that they're real so

1922

01:11:29,189 --> 01:11:25,120

okay

1923

01:11:31,990 --> 01:11:29,199

question for you so now that we have

1924

01:11:34,149 --> 01:11:32,000

established the fact that uap are

1925

01:11:36,310 --> 01:11:34,159

actualized they're real

1926

01:11:39,350 --> 01:11:36,320

they are among us um

1927

01:11:41,910 --> 01:11:39,360

if the theory is true that they

1928

01:11:42,630 --> 01:11:41,920

they being the beings are already among

1929

01:11:45,430 --> 01:11:42,640

us

1930

01:11:48,310 --> 01:11:45,440

what would this mean for the cdc and the

1931

01:11:51,110 --> 01:11:48,320

potential of extraterrestrials disease

1932

01:11:53,669 --> 01:11:51,120

merging among humans

1933

01:11:55,189 --> 01:11:53,679

i'm completely i don't even worry about

1934

01:11:58,229 --> 01:11:55,199

it i mean

1935

01:11:59,430 --> 01:11:58,239

i mean they've been

1936

01:12:00,709 --> 01:11:59,440

whatever it is has been here for

1937

01:12:02,229 --> 01:12:00,719

thousands of years tens of thousands of

1938

01:12:04,310 --> 01:12:02,239

years i mean

1939

01:12:07,270 --> 01:12:04,320

you know um

1940

01:12:08,390 --> 01:12:07,280

let's just kind of play with some ideas

1941

01:12:10,390 --> 01:12:08,400

let's say that they were from another

1942

01:12:12,630 --> 01:12:10,400

planet on the other side of the galaxy

1943

01:12:13,910 --> 01:12:12,640

they evolved under different conditions

1944

01:12:15,510 --> 01:12:13,920

they probably don't even have amino

1945

01:12:18,149 --> 01:12:15,520

acids

1946

01:12:20,950 --> 01:12:18,159

right so any virus or

1947

01:12:23,189 --> 01:12:20,960

bug that grew there or isn't going to

1948

01:12:24,630 --> 01:12:23,199

see us as a food source

1949

01:12:27,669 --> 01:12:24,640

uh

1950

01:12:30,149 --> 01:12:27,679

but if they evolved he

1951

01:12:31,030 --> 01:12:30,159

from some prior human species or let's

1952

01:12:33,669 --> 01:12:31,040

say

1953

01:12:35,669 --> 01:12:33,679

you know unbeknownst to us the dinos

1954

01:12:38,630 --> 01:12:35,679

some dinosaurs became

1955

01:12:41,189 --> 01:12:38,640

intelligent and went underground or

1956

01:12:41,990 --> 01:12:41,199

flew off somewhere and came back and now

1957

01:12:45,110 --> 01:12:42,000

they're

1958

01:12:46,550 --> 01:12:45,120

old

1959

01:12:48,390 --> 01:12:46,560

uh again

1960

01:12:51,350 --> 01:12:48,400

very little chance of

1961

01:12:52,470 --> 01:12:51,360

cross species uh

1962

01:12:55,030 --> 01:12:52,480

jumps

1963

01:12:56,550 --> 01:12:55,040

at that i mean you know stuff happens

1964

01:13:00,550 --> 01:12:56,560

cobit happened

1965

01:13:02,790 --> 01:13:00,560

right pangolin and bats you know i but

1966

01:13:04,870 --> 01:13:02,800

i'm not worried about that i would what

1967

01:13:06,229 --> 01:13:04,880

more worry about some i mean if you want

1968

01:13:09,430 --> 01:13:06,239

to worry if you want to get yourself

1969

01:13:10,390 --> 01:13:09,440

worried about pandemics worry about what

1970

01:13:12,390 --> 01:13:10,400

some

1971

01:13:15,590 --> 01:13:12,400

laboratory if

1972

01:13:17,750 --> 01:13:15,600

you know in a terrorist

1973

01:13:19,270 --> 01:13:17,760

organization is up

1974

01:13:20,870 --> 01:13:19,280

because i can think of a hundred ways to

1975

01:13:22,630 --> 01:13:20,880

make something nasty

1976

01:13:24,790 --> 01:13:22,640

and i'm not even and that's what i'm

1977

01:13:27,030 --> 01:13:24,800

trying

1978

01:13:32,229 --> 01:13:27,040

absolutely

1979

01:13:35,590 --> 01:13:33,590

more likely i mean i don't think that

1980

01:13:40,070 --> 01:13:35,600

they walk amongst us but maybe they do i

1981

01:13:42,310 --> 01:13:40,080

don't know but um you know i i don't

1982

01:13:43,830 --> 01:13:42,320

think that there's

1983

01:13:45,510 --> 01:13:43,840

i mean first of all if they're that

1984

01:13:46,870 --> 01:13:45,520

advanced they've probably conquered

1985

01:13:47,990 --> 01:13:46,880

disease

1986

01:13:49,669 --> 01:13:48,000

right

1987

01:13:52,149 --> 01:13:49,679

so they probably aren't carrying

1988

01:13:53,270 --> 01:13:52,159

anything in the first place

1989

01:13:55,990 --> 01:13:53,280

great point

1990

01:13:57,830 --> 01:13:56,000

yeah thank you for hearing my question i

1991

01:14:00,950 --> 01:13:57,840

appreciate that thank you

1992

01:14:03,830 --> 01:14:00,960

dr nolan we have um just over 15 minutes

1993

01:14:06,070 --> 01:14:03,840

left so we'll try to uh get through

1994

01:14:08,310 --> 01:14:06,080

these and uh and get you out of here on

1995

01:14:09,830 --> 01:14:08,320

time so that you can quit drinking wine

1996

01:14:11,430 --> 01:14:09,840

and take hold medicine

1997

01:14:12,550 --> 01:14:11,440

um but

1998

01:14:15,030 --> 01:14:12,560

anyway

1999

01:14:19,110 --> 01:14:15,040

all right so um

2000

01:14:21,990 --> 01:14:19,120

my understanding here uh is that you you

2001

01:14:25,110 --> 01:14:22,000

did uh meet chris bledsoe and and were

2002

01:14:26,830 --> 01:14:25,120

witness to an unexplainable experience

2003

01:14:29,910 --> 01:14:26,840

and sort of

2004

01:14:32,390 --> 01:14:29,920

like oh you have not

2005

01:14:34,790 --> 01:14:32,400

no i i don't think i i mean if i okay if

2006

01:14:36,229 --> 01:14:34,800

i did i think more than once at tim's

2007

01:14:37,510 --> 01:14:36,239

house

2008

01:14:40,070 --> 01:14:37,520

uh

2009

01:14:45,750 --> 01:14:43,830

north carolina or somewhere yes i guess

2010

01:14:49,430 --> 01:14:45,760

okay

2011

01:14:50,870 --> 01:14:49,440

this all wrong my understanding was you

2012

01:14:53,510 --> 01:14:50,880

were on the property or you had an

2013

01:14:55,910 --> 01:14:53,520

unexplainable experience while in their

2014

01:14:57,830 --> 01:14:55,920

in their midst or on their property not

2015

01:14:58,950 --> 01:14:57,840

not okay so you don't have such an

2016

01:15:03,669 --> 01:14:58,960

experience

2017

01:15:06,950 --> 01:15:03,679

oh okay well then i will

2018

01:15:07,990 --> 01:15:06,960

i was go i was gonna uh ask you about

2019

01:15:10,470 --> 01:15:08,000

that but

2020

01:15:12,390 --> 01:15:10,480

uh if not that i did aliens wiped my

2021

01:15:13,830 --> 01:15:12,400

memory

2022

01:15:15,990 --> 01:15:13,840

well don't worry i mean this show is

2023

01:15:18,149 --> 01:15:16,000

well aware that during my abduction

2024

01:15:20,709 --> 01:15:18,159

experience i offered for them to do

2025

01:15:22,470 --> 01:15:20,719

tests on me take dna and they said no

2026

01:15:24,790 --> 01:15:22,480

and brought me home so i don't know i

2027

01:15:26,790 --> 01:15:24,800

was i was offended uh i was told that

2028

01:15:28,630 --> 01:15:26,800

before you got abducted you had hair

2029

01:15:31,110 --> 01:15:28,640

yeah i did

2030

01:15:32,470 --> 01:15:31,120

maybe that's what they took

2031

01:15:34,790 --> 01:15:32,480

that's what it was

2032

01:15:36,470 --> 01:15:34,800

that's what happened

2033

01:15:39,830 --> 01:15:36,480

that's true it was luxurious from what i

2034

01:15:41,430 --> 01:15:39,840

heard yeah

2035

01:15:45,110 --> 01:15:41,440

frampton comes alive

2036

01:15:46,390 --> 01:15:45,120

anyway all right so then if i if i if

2037

01:15:48,950 --> 01:15:46,400

bledsoe's

2038

01:15:51,270 --> 01:15:48,960

and them is not an example

2039

01:15:55,189 --> 01:15:51,280

has there been an experience that you've

2040

01:15:57,990 --> 01:15:55,199

had that has changed you gary

2041

01:15:59,030 --> 01:15:58,000

as as a person which manifested itself

2042

01:16:01,350 --> 01:15:59,040

in say

2043

01:16:03,910 --> 01:16:01,360

a a more fervent approach to your

2044

01:16:06,310 --> 01:16:03,920

research has there been such an event

2045

01:16:08,950 --> 01:16:06,320

throughout everything with uh with

2046

01:16:11,669 --> 01:16:08,960

doctor uh investigating with dr posalka

2047

01:16:13,830 --> 01:16:11,679

and and taylor et cetera et cetera has

2048

01:16:17,030 --> 01:16:13,840

there been such an event and how did

2049

01:16:20,149 --> 01:16:17,040

that and what was the result

2050

01:16:23,430 --> 01:16:20,159

i mean the the event that occurred was

2051

01:16:29,350 --> 01:16:23,440

coming back from new mexico

2052

01:16:33,270 --> 01:16:31,750

luggage that i was worried about that

2053

01:16:35,189 --> 01:16:33,280

something we had found

2054

01:16:37,189 --> 01:16:35,199

and um

2055

01:16:39,350 --> 01:16:37,199

of course it had to go through security

2056

01:16:43,110 --> 01:16:39,360

and i was worried to death about it

2057

01:16:44,229 --> 01:16:43,120

and uh as it was as my

2058

01:16:45,270 --> 01:16:44,239

uh

2059

01:16:46,790 --> 01:16:45,280

backpack

2060

01:16:48,950 --> 01:16:46,800

went into the machine

2061

01:16:50,709 --> 01:16:48,960

the whole machine just shut off

2062

01:16:52,870 --> 01:16:50,719

ah

2063

01:16:54,390 --> 01:16:52,880

and i was like oh my

2064

01:16:55,430 --> 01:16:54,400

god

2065

01:16:59,590 --> 01:16:55,440

they're gonna

2066

01:17:01,110 --> 01:16:59,600

is

2067

01:17:02,550 --> 01:17:01,120

and i'm not gonna have an explanation

2068

01:17:03,830 --> 01:17:02,560

for it

2069

01:17:04,870 --> 01:17:03,840

and

2070

01:17:06,229 --> 01:17:04,880

so

2071

01:17:07,430 --> 01:17:06,239

there was like a

2072

01:17:08,950 --> 01:17:07,440

kebab

2073

01:17:11,430 --> 01:17:08,960

going on everybody's like why did this

2074

01:17:14,550 --> 01:17:11,440

thing shut off and they you know

2075

01:17:16,870 --> 01:17:14,560

wait there and i said oh my my plane

2076

01:17:18,709 --> 01:17:16,880

and uh you know they

2077

01:17:19,750 --> 01:17:18,719

took my bag out and they and they turned

2078

01:17:22,149 --> 01:17:19,760

it on they ran it back through and

2079

01:17:23,510 --> 01:17:22,159

nothing happened that time second time i

2080

01:17:27,110 --> 01:17:23,520

made it i

2081

01:17:30,870 --> 01:17:27,120

i was i was sweating i was

2082

01:17:32,550 --> 01:17:30,880

i went in and uh you know diana and tim

2083

01:17:34,550 --> 01:17:32,560

were sitting in the bar having a drink i

2084

01:17:36,310 --> 01:17:34,560

still remember and i just i

2085

01:17:39,590 --> 01:17:36,320

i was just i was just sweating i said i

2086

01:17:42,630 --> 01:17:41,110

no i went back and i said jog what you

2087

01:17:44,790 --> 01:17:42,640

know what what what do you think what

2088

01:17:47,270 --> 01:17:44,800

could have happened what you know why he

2089

01:17:49,350 --> 01:17:47,280

said well he said well maybe your

2090

01:17:51,110 --> 01:17:49,360

intensity turned it off you were so

2091

01:17:53,830 --> 01:17:51,120

worried

2092

01:17:56,229 --> 01:17:53,840

i i don't know it was you know so that

2093

01:17:58,630 --> 01:17:56,239

changed something for me you know i've

2094

01:18:01,030 --> 01:17:58,640

spoken about that event in london that i

2095

01:18:01,990 --> 01:18:01,040

had waking up and having

2096

01:18:04,630 --> 01:18:02,000

something

2097

01:18:06,550 --> 01:18:04,640

you know basically speak in my head

2098

01:18:08,229 --> 01:18:06,560

uh

2099

01:18:09,189 --> 01:18:08,239

i had an event i think i don't think

2100

01:18:11,110 --> 01:18:09,199

i've ever

2101
01:18:12,870 --> 01:18:11,120
talked about this where i woke up and i

2102
01:18:14,070 --> 01:18:12,880
felt like i was

2103
01:18:17,270 --> 01:18:14,080
you know somewhere out in the middle of

2104
01:18:19,510 --> 01:18:17,280
this of the stars and i looked around

2105
01:18:21,669 --> 01:18:19,520
and i saw i said where am i and i saw i

2106
01:18:23,350 --> 01:18:21,679
said oh that must be where i that must

2107
01:18:25,030 --> 01:18:23,360
be where i am because i was worried that

2108
01:18:27,430 --> 01:18:25,040
i would not be able to get back

2109
01:18:29,510 --> 01:18:27,440
and then i just felt myself going

2110
01:18:30,870 --> 01:18:29,520
right down and i remember specifically

2111
01:18:33,350 --> 01:18:30,880
feeling like i was coming down through

2112
01:18:35,030 --> 01:18:33,360
the roof of the house and i woke up

2113
01:18:38,070 --> 01:18:35,040

so that was an event you know was it an

2114

01:18:41,510 --> 01:18:38,080

out of body was it a was it just a dream

2115

01:18:43,669 --> 01:18:41,520

i'll never know right

2116

01:18:45,750 --> 01:18:43,679

but i remembered it

2117

01:18:48,790 --> 01:18:45,760

right sure the little people in the

2118

01:18:50,630 --> 01:18:48,800

bedroom i remember them you know there's

2119

01:18:52,709 --> 01:18:50,640

there's nobody who's going to tell me it

2120

01:18:56,390 --> 01:18:52,719

didn't happen

2121

01:19:00,790 --> 01:18:58,709

and that blew me away

2122

01:19:03,510 --> 01:19:00,800

totally blew me away he you know

2123

01:19:05,189 --> 01:19:03,520

basically had me do one and i was like

2124

01:19:07,189 --> 01:19:05,199

either this was a magician's trick

2125

01:19:09,110 --> 01:19:07,199

extraordinaire

2126
01:19:12,149 --> 01:19:09,120
but i but

2127
01:19:14,229 --> 01:19:12,159
what i saw was

2128
01:19:17,350 --> 01:19:14,239
what he had

2129
01:19:20,310 --> 01:19:17,360
randomly predicted to show up 10 minutes

2130
01:19:23,189 --> 01:19:20,320
in the future on his computer

2131
01:19:26,709 --> 01:19:23,199
so and that convinced me but but what

2132
01:19:29,270 --> 01:19:26,719
was cool about that moment was

2133
01:19:31,030 --> 01:19:29,280
realizing that the signal that people

2134
01:19:33,830 --> 01:19:31,040
talk about

2135
01:19:36,550 --> 01:19:33,840
has a flavor to it

2136
01:19:37,750 --> 01:19:36,560
there's something different about the

2137
01:19:39,430 --> 01:19:37,760
signal

2138
01:19:40,950 --> 01:19:39,440

than your everyday moments of

2139

01:19:44,070 --> 01:19:40,960

consciousness

2140

01:19:45,189 --> 01:19:44,080

and so i've begun to recognize that

2141

01:19:46,390 --> 01:19:45,199

signal

2142

01:19:48,830 --> 01:19:46,400

when

2143

01:19:51,030 --> 01:19:48,840

let's say moments of intuition

2144

01:19:53,750 --> 01:19:51,040

occur that i know that i should pay

2145

01:19:56,390 --> 01:19:53,760

attention to this because it came from

2146

01:19:58,390 --> 01:19:56,400

somewhere else somehow it's it's it's an

2147

01:19:59,430 --> 01:19:58,400

anomalous signal that came from

2148

01:20:00,709 --> 01:19:59,440

somewhere

2149

01:20:02,149 --> 01:20:00,719

and so

2150

01:20:03,030 --> 01:20:02,159

you know those are kind of the things

2151

01:20:06,709 --> 01:20:03,040

that

2152

01:20:08,950 --> 01:20:06,719

i walk away with and remember

2153

01:20:10,629 --> 01:20:08,960

so there's a there's a purpose yeah

2154

01:20:12,870 --> 01:20:10,639

you're you're

2155

01:20:14,709 --> 01:20:12,880

there's a that's a drive now that that's

2156

01:20:16,950 --> 01:20:14,719

just you know we found the courage we

2157

01:20:19,270 --> 01:20:16,960

found the the impetus the drive beyond

2158

01:20:21,350 --> 01:20:19,280

just the fact that you're a scientist

2159

01:20:23,430 --> 01:20:21,360

it's very interesting let me pass it to

2160

01:20:26,550 --> 01:20:23,440

money nathan please sir

2161

01:20:27,910 --> 01:20:26,560

yeah so um let's say that it's uh

2162

01:20:29,430 --> 01:20:27,920

somewhere i've argued that we're already

2163

01:20:30,790 --> 01:20:29,440

here but we're in a post-disclosure

2164

01:20:33,110 --> 01:20:30,800

world

2165

01:20:35,669 --> 01:20:33,120

and uh

2166

01:20:38,149 --> 01:20:35,679

you know we have those who

2167

01:20:39,590 --> 01:20:38,159

are experiencers or not experiencers and

2168

01:20:41,590 --> 01:20:39,600

or maybe believe themselves to be

2169

01:20:43,830 --> 01:20:41,600

experiencers and we have these

2170

01:20:46,390 --> 01:20:43,840

sort of physiological biomarkers that we

2171

01:20:49,189 --> 01:20:46,400

know of that seem to kind of confirm one

2172

01:20:50,470 --> 01:20:49,199

or the other is there any kind of um

2173

01:20:52,390 --> 01:20:50,480

i don't know if this is maybe an ethical

2174

01:20:53,669 --> 01:20:52,400

concern or whatnot that the population

2175

01:20:55,110 --> 01:20:53,679

might try to

2176

01:20:57,189 --> 01:20:55,120

you know sort of drive or divide

2177

01:20:59,990 --> 01:20:57,199

themselves between these kinds of groups

2178

01:21:01,830 --> 01:21:00,000

by you know doing like a 23andme

2179

01:21:03,830 --> 01:21:01,840

biomarker test you know like that i i

2180

01:21:05,830 --> 01:21:03,840

i'm not or you know have you thought

2181

01:21:09,510 --> 01:21:05,840

about that you know the the

2182

01:21:11,990 --> 01:21:09,520

the marvel universe you know uh it has

2183

01:21:14,310 --> 01:21:12,000

talked about this sort of thing

2184

01:21:16,470 --> 01:21:14,320

already i mean it's been written about

2185

01:21:17,750 --> 01:21:16,480

in science fiction many times you know

2186

01:21:18,709 --> 01:21:17,760

it's

2187

01:21:20,629 --> 01:21:18,719

uh

2188

01:21:21,910 --> 01:21:20,639

nobody nobody wants to think that

2189

01:21:25,110 --> 01:21:21,920

they're about to be replaced by

2190

01:21:29,270 --> 01:21:27,110

you know and so the point would be to

2191

01:21:31,189 --> 01:21:29,280

make sure that nobody thinks you're

2192

01:21:33,510 --> 01:21:31,199

better

2193

01:21:35,560 --> 01:21:33,520

right right don't come across as

2194

01:21:37,510 --> 01:21:35,570

condescending okay i'm coming right

2195

01:21:42,229 --> 01:21:37,520

[Laughter]

2196

01:21:47,189 --> 01:21:44,229

i think that's the most important thing

2197

01:21:48,709 --> 01:21:47,199

is that you know what divides us

2198

01:21:50,229 --> 01:21:48,719

is people thinking that they're better

2199

01:21:51,110 --> 01:21:50,239

than someone else

2200

01:22:03,030 --> 01:21:51,120

right

2201

01:22:06,149 --> 01:22:03,040

now yeah thank you

2202

01:22:07,990 --> 01:22:06,159

uh who's is it kev steph kevin steph and

2203

01:22:11,030 --> 01:22:08,000

we have about

2204

01:22:12,550 --> 01:22:11,040

we've got about eight minutes left

2205

01:22:15,270 --> 01:22:12,560

all right well i was going to go into

2206

01:22:17,830 --> 01:22:15,280

young and archetypes but yeah we don't

2207

01:22:19,990 --> 01:22:17,840

have time to go into jungian archetypes

2208

01:22:21,510 --> 01:22:20,000

so i'll just keep it complicated with

2209

01:22:24,629 --> 01:22:21,520

youngin archetypes

2210

01:22:26,870 --> 01:22:24,639

oh you want to go there all right okay

2211

01:22:27,990 --> 01:22:26,880

so here's the thing i noticed that the

2212

01:22:30,550 --> 01:22:28,000

saucer

2213

01:22:32,629 --> 01:22:30,560

has changed into a tic tac or into a

2214

01:22:35,110 --> 01:22:32,639

shape of an egg and i think young would

2215

01:22:39,350 --> 01:22:35,120

be very very interested in that because

2216

01:22:40,709 --> 01:22:39,360

he was also interested in alchemy so um

2217

01:22:42,790 --> 01:22:40,719

basically

2218

01:22:45,110 --> 01:22:42,800

jung saw the archetype i mean young saw

2219

01:22:47,510 --> 01:22:45,120

the saucer as an archetype of wholeness

2220

01:22:50,229 --> 01:22:47,520

so in alchemy the egg stands for

2221

01:22:51,750 --> 01:22:50,239

the liberated soul now i'm wondering

2222

01:22:54,709 --> 01:22:51,760

if that being said you think that

2223

01:22:56,709 --> 01:22:54,719

humanity's needs have changed from

2224

01:22:59,030 --> 01:22:56,719

needing wholeness in unity to one that

2225

01:23:01,110 --> 01:22:59,040

needs liberation and rebirth and this

2226

01:23:04,550 --> 01:23:01,120

phenomenon may be a projection of this

2227

01:23:07,590 --> 01:23:04,560

need by the collective unconsciousness

2228

01:23:09,669 --> 01:23:07,600

good i i mean it sounds like a decent

2229

01:23:12,390 --> 01:23:09,679

hypothesis to me how would you prove it

2230

01:23:14,950 --> 01:23:12,400

though how do we prove that

2231

01:23:17,110 --> 01:23:14,960

that's the archetypes yeah uh yeah it's

2232

01:23:19,430 --> 01:23:17,120

just you gotta look at the past symbols

2233

01:23:21,669 --> 01:23:19,440

you gotta look at your culture you know

2234

01:23:23,430 --> 01:23:21,679

what kind of what you're projecting onto

2235

01:23:24,950 --> 01:23:23,440

what you're seeing there's a lot that

2236

01:23:26,950 --> 01:23:24,960

goes into that

2237

01:23:30,149 --> 01:23:26,960

i mean consciousness is a machine

2238

01:23:31,750 --> 01:23:30,159

basically yeah no we we do i mean people

2239

01:23:34,229 --> 01:23:31,760

laugh sometimes about this notion of

2240

01:23:36,390 --> 01:23:34,239

consciousness intent creating the future

2241

01:23:38,629 --> 01:23:36,400

we do it every moment i pick up this

2242

01:23:39,990 --> 01:23:38,639

glass and i change quantum reality by my

2243

01:23:41,270 --> 01:23:40,000

intent

2244

01:23:45,350 --> 01:23:41,280

um

2245

01:23:47,750 --> 01:23:45,360

actually diana kind of hinted at this in

2246

01:23:48,709 --> 01:23:47,760

in her book with somebody at a at a

2247

01:23:51,430 --> 01:23:48,719

meeting

2248

01:23:53,030 --> 01:23:51,440

um who was claiming that saucers were a

2249

01:23:56,950 --> 01:23:53,040

representation of

2250

01:23:59,750 --> 01:23:56,960

male desire to see breasts

2251

01:24:01,590 --> 01:23:59,760

and i just i just blew up

2252

01:24:04,870 --> 01:24:01,600

you know that's just you know that's

2253

01:24:07,990 --> 01:24:04,880

just so i said wait a second i'm

2254

01:24:09,590 --> 01:24:08,000

i saw such a thing and you know my

2255

01:24:10,790 --> 01:24:09,600

persuasion

2256

01:24:12,229 --> 01:24:10,800

i should have seen something in a

2257

01:24:14,870 --> 01:24:12,239

different shape

2258

01:24:17,270 --> 01:24:14,880

you know without being exploited

2259

01:24:18,790 --> 01:24:17,280

right so why do you think you know i

2260

01:24:21,270 --> 01:24:18,800

just it just was so

2261

01:24:22,470 --> 01:24:21,280

it was so condescending to say that

2262

01:24:23,590 --> 01:24:22,480

everybody's

2263

01:24:25,270 --> 01:24:23,600

uh

2264

01:24:27,510 --> 01:24:25,280

what they thought they saw was fake and

2265

01:24:30,070 --> 01:24:27,520

it was just their outer manifestation of

2266

01:24:31,990 --> 01:24:30,080

their inner sexual frustrations i said

2267

01:24:33,430 --> 01:24:32,000

it sounds more like your frustrations

2268

01:24:35,590 --> 01:24:33,440

than anybody else

2269

01:24:38,629 --> 01:24:35,600

yes he was projecting for sure

2270

01:24:41,270 --> 01:24:38,639

yeah so i mean i i

2271

01:24:42,390 --> 01:24:41,280

i mean but kevin to be serious i mean

2272

01:24:43,510 --> 01:24:42,400

this notion of the collective

2273

01:24:45,189 --> 01:24:43,520

unconscious

2274

01:24:47,030 --> 01:24:45,199

creating

2275

01:24:48,629 --> 01:24:47,040

what we observe that's right out of

2276

01:24:50,709 --> 01:24:48,639

jacques valet's

2277

01:24:52,550 --> 01:24:50,719

uh thesis

2278

01:24:53,830 --> 01:24:52,560

right that um

2279

01:24:56,229 --> 01:24:53,840

you know you

2280

01:24:58,229 --> 01:24:56,239

it gives or what colin kelleher would

2281

01:25:00,870 --> 01:24:58,239

often say it gives you back what you

2282

01:25:02,390 --> 01:25:00,880

what you want what you give it

2283

01:25:03,590 --> 01:25:02,400

you want something negative it gives you

2284

01:25:06,229 --> 01:25:03,600

back negative you want something

2285

01:25:08,870 --> 01:25:06,239

positive you get back positive

2286

01:25:10,629 --> 01:25:08,880

you know if you i mean

2287

01:25:13,510 --> 01:25:10,639

i i don't know

2288

01:25:15,270 --> 01:25:13,520

it's it's a weird

2289

01:25:16,149 --> 01:25:15,280

it it

2290

01:25:18,550 --> 01:25:16,159

it's

2291

01:25:20,229 --> 01:25:18,560

weird because it it creates apparent

2292

01:25:22,709 --> 01:25:20,239

synchronicities

2293

01:25:24,149 --> 01:25:22,719

that um are

2294

01:25:27,030 --> 01:25:24,159

i don't know

2295

01:25:29,669 --> 01:25:27,040

just make you sit up and pay notice

2296

01:25:32,149 --> 01:25:29,679

you know the the problem is that it's it

2297

01:25:33,270 --> 01:25:32,159

it's it's rife

2298

01:25:35,910 --> 01:25:33,280

here's how i think about it i think it's

2299

01:25:38,870 --> 01:25:35,920

sort of like an intelligence test

2300

01:25:42,229 --> 01:25:38,880

it's rife for ridicule

2301

01:25:43,990 --> 01:25:42,239

but if you are sufficiently

2302

01:25:45,750 --> 01:25:44,000

observant and smart

2303

01:25:47,669 --> 01:25:45,760

you can jump to the conclusion of what

2304

01:25:49,830 --> 01:25:47,679

it is without having to have all of the

2305

01:25:52,390 --> 01:25:49,840

data that proves it

2306

01:25:55,270 --> 01:25:52,400

right and so i can know that something

2307

01:25:58,229 --> 01:25:55,280

is true without being able to draw a

2308

01:25:59,830 --> 01:25:58,239

mathematical or geometric line between a

2309

01:26:01,830 --> 01:25:59,840

to z

2310

01:26:04,149 --> 01:26:01,840

and so i think that's part of what's

2311

01:26:05,669 --> 01:26:04,159

going on here that is like do you know

2312

01:26:08,149 --> 01:26:05,679

what is in front of you and what you're

2313

01:26:11,030 --> 01:26:08,159

seeing

2314

01:26:14,229 --> 01:26:11,040

you know and it draws you forward i mean

2315

01:26:16,310 --> 01:26:14,239

it's very self-congratulatory obviously

2316

01:26:19,030 --> 01:26:16,320

thinking that you know

2317

01:26:22,229 --> 01:26:19,040

we are the chosen etc and it's you know

2318

01:26:24,229 --> 01:26:22,239

it it makes you similarly subject to

2319

01:26:26,470 --> 01:26:24,239

ridicule but

2320

01:26:31,590 --> 01:26:26,480

um i don't see it as that i see it as

2321

01:26:35,430 --> 01:26:33,830

um thank you very much for that answer

2322

01:26:38,070 --> 01:26:35,440

we want to get debs in there we've got

2323

01:26:39,189 --> 01:26:38,080

about four minutes left so debs go ahead

2324

01:26:41,430 --> 01:26:39,199

my friend

2325

01:26:43,430 --> 01:26:41,440

yep we got a question from our friend

2326

01:26:46,790 --> 01:26:43,440

grant lavock who does research in

2327

01:26:48,550 --> 01:26:46,800

australia his question is do you have

2328

01:26:51,350 --> 01:26:48,560

any thoughts on

2329

01:26:53,910 --> 01:26:51,360

why other countries australia the uk are

2330

01:26:56,550 --> 01:26:53,920

dragging their heels on the uap topic

2331

01:27:03,510 --> 01:26:56,560

and not taking it seriously

2332

01:27:09,030 --> 01:27:05,669

well the british i'm i'm was born in

2333

01:27:10,950 --> 01:27:09,040

england you know uh we left because of

2334

01:27:11,990 --> 01:27:10,960

the conservative nature i was born in

2335

01:27:13,669 --> 01:27:12,000

liverpool

2336

01:27:15,350 --> 01:27:13,679

and uh you know that was kind of like

2337

01:27:16,470 --> 01:27:15,360

you might as well it's like the harlem

2338

01:27:18,629 --> 01:27:16,480

of england

2339

01:27:19,830 --> 01:27:18,639

um and uh

2340

01:27:21,910 --> 01:27:19,840

the uh

2341

01:27:24,870 --> 01:27:21,920

i think they're just conservative they

2342

01:27:26,470 --> 01:27:24,880

haven't um

2343

01:27:28,310 --> 01:27:26,480

you know it's i i just call it

2344

01:27:30,830 --> 01:27:28,320

conservatism right i mean they're just

2345

01:27:32,950 --> 01:27:30,840

more conservative about this stuff still

2346

01:27:35,830 --> 01:27:32,960

um you know

2347

01:27:38,310 --> 01:27:35,840

they they don't have a lou elizon uh or

2348

01:27:39,990 --> 01:27:38,320

uh chris mellon with all the contacts on

2349

01:27:42,310 --> 01:27:40,000

the inside

2350

01:27:43,189 --> 01:27:42,320

who are drawing them out

2351

01:27:45,270 --> 01:27:43,199

and

2352

01:27:47,270 --> 01:27:45,280

to be quite honest as well they don't

2353

01:27:48,550 --> 01:27:47,280

have the research programs going on that

2354

01:27:50,070 --> 01:27:48,560

we do

2355

01:27:51,590 --> 01:27:50,080

right so they don't have the raw

2356

01:27:53,350 --> 01:27:51,600

material

2357

01:27:57,110 --> 01:27:53,360

from which to draw

2358

01:27:59,270 --> 01:27:57,120

somebody who is going to reveal all

2359

01:28:01,350 --> 01:27:59,280

you know we have apparently extensive

2360

01:28:03,270 --> 01:28:01,360

programs that have been going on

2361

01:28:04,550 --> 01:28:03,280

right and so lots of potential

2362

01:28:05,430 --> 01:28:04,560

whistleblowers

2363

01:28:07,070 --> 01:28:05,440

i mean

2364

01:28:09,430 --> 01:28:07,080

congrat those

2365

01:28:12,390 --> 01:28:09,440

whistleblower laws because they just

2366

01:28:14,550 --> 01:28:12,400

wanted to shut lou and chris up

2367

01:28:16,470 --> 01:28:14,560

they wrote them because they have seen

2368

01:28:18,390 --> 01:28:16,480

the data

2369

01:28:19,189 --> 01:28:18,400

and it scares the bejesus out of some of

2370

01:28:20,629 --> 01:28:19,199

them

2371

01:28:22,390 --> 01:28:20,639

right because they know what it is that

2372

01:28:23,990 --> 01:28:22,400

they're looking at

2373

01:28:25,910 --> 01:28:24,000

and but then they also know that there

2374

01:28:28,550 --> 01:28:25,920

are people there there's lots of people

2375

01:28:31,030 --> 01:28:28,560

there able to come forward maybe

2376

01:28:34,870 --> 01:28:31,040

britain was just too poor

2377

01:28:37,270 --> 01:28:34,880

so britain proved that you weren't poor

2378

01:28:39,990 --> 01:28:37,280

prove that you weren't behind the eight

2379

01:28:42,229 --> 01:28:40,000

ball on all of this

2380

01:28:44,709 --> 01:28:42,239

australia proved that you had what it

2381

01:28:46,870 --> 01:28:44,719

took to do a study

2382

01:28:48,950 --> 01:28:46,880

or

2383

01:28:50,709 --> 01:28:48,960

stop saying no

2384

01:28:52,790 --> 01:28:50,719

that's how i say i always challenge

2385

01:28:54,550 --> 01:28:52,800

people of you know i think that's the

2386

01:28:56,229 --> 01:28:54,560

way to do it

2387

01:28:57,750 --> 01:28:56,239

uh so i just don't think they had the

2388

01:28:58,870 --> 01:28:57,760

research programs

2389

01:29:00,149 --> 01:28:58,880

and therefore

2390

01:29:03,189 --> 01:29:00,159

there's nobody to tell anything there's

2391

01:29:05,110 --> 01:29:03,199

nobody on the inside to tell parliament

2392

01:29:07,270 --> 01:29:05,120

that they had the the research was going

2393

01:29:08,870 --> 01:29:07,280

on and there was something real

2394

01:29:12,149 --> 01:29:08,880

we have lots of people

2395

01:29:16,070 --> 01:29:12,159

stepping forward and telling them

2396

01:29:19,590 --> 01:29:18,310

as critical as they are of of our

2397

01:29:20,870 --> 01:29:19,600

government and there's a lot to be

2398

01:29:21,669 --> 01:29:20,880

critical of

2399

01:29:23,270 --> 01:29:21,679

um

2400

01:29:25,189 --> 01:29:23,280

they've we've done more than anybody

2401
01:29:27,110 --> 01:29:25,199
else so whatever country you are you're

2402
01:29:29,110 --> 01:29:27,120
not doing more so

2403
01:29:32,790 --> 01:29:29,120
brazil is probably the closest but

2404
01:29:33,990 --> 01:29:32,800
anyway um really quickly

2405
01:29:36,550 --> 01:29:34,000
in chile

2406
01:29:39,110 --> 01:29:36,560
um really quickly um

2407
01:29:40,790 --> 01:29:39,120
the one with uh the two children that

2408
01:29:44,709 --> 01:29:40,800
jacques valet talked about i guess they

2409
01:29:46,790 --> 01:29:44,719
went up in a craft and and came out of

2410
01:29:48,950 --> 01:29:46,800
the craft but came with a piece of

2411
01:29:50,310 --> 01:29:48,960
material that you suspect was then

2412
01:29:57,110 --> 01:29:50,320
replaced by

2413
01:30:01,910 --> 01:29:59,110

right that's uh well that's the trinity

2414

01:30:04,550 --> 01:30:01,920

event um and uh

2415

01:30:07,430 --> 01:30:04,560

they didn't go up in the craft they went

2416

01:30:10,950 --> 01:30:07,440

into the supposed an alleged downed

2417

01:30:12,470 --> 01:30:10,960

craft correct which was on a flat bed i

2418

01:30:13,510 --> 01:30:12,480

think at the time

2419

01:30:15,350 --> 01:30:13,520

um

2420

01:30:17,030 --> 01:30:15,360

and uh

2421

01:30:19,110 --> 01:30:17,040

it was if i remember correctly was

2422

01:30:22,470 --> 01:30:19,120

sitting

2423

01:30:25,830 --> 01:30:24,550

or with the piece um and i've had the

2424

01:30:28,070 --> 01:30:25,840

piece here at my house and we've

2425

01:30:29,669 --> 01:30:28,080

examined it on every which way from

2426

01:30:31,189 --> 01:30:29,679

sunday and it it

2427

01:30:32,950 --> 01:30:31,199

for the life of me it doesn't look like

2428

01:30:34,709 --> 01:30:32,960

anything exotic

2429

01:30:38,629 --> 01:30:34,719

it looks like something somebody just

2430

01:30:41,990 --> 01:30:40,310

got it

2431

01:30:44,149 --> 01:30:42,000

um you know there have been people

2432

01:30:46,629 --> 01:30:44,159

who've said that they found angel hairs

2433

01:30:48,229 --> 01:30:46,639

and and stuff on them and i've looked at

2434

01:30:49,910 --> 01:30:48,239

those angel hairs and it looks like

2435

01:30:52,070 --> 01:30:49,920

nylon fibers from whatever it is they

2436

01:30:54,870 --> 01:30:52,080

wrapped the thing in

2437

01:30:57,590 --> 01:30:54,880

i'd love it to be something amazing

2438

01:30:58,950 --> 01:30:57,600

it's not as far as i can tell

2439

01:31:01,350 --> 01:30:58,960

you know i would love it

2440

01:31:03,350 --> 01:31:01,360

but there's plenty of amazing stuff that

2441

01:31:04,950 --> 01:31:03,360

i know exists so that's the stuff that

2442

01:31:05,910 --> 01:31:04,960

we're trying to get

2443

01:31:08,790 --> 01:31:05,920

uh

2444

01:31:10,790 --> 01:31:08,800

permission to get out

2445

01:31:13,030 --> 01:31:10,800

by all means i hope you do and i know

2446

01:31:14,470 --> 01:31:13,040

the community shares that hope uh let's

2447

01:31:20,950 --> 01:31:14,480

start we're gonna start our round of

2448

01:31:20,960 --> 01:31:25,750

and as soon as she comes off a mute

2449

01:31:29,830 --> 01:31:26,629

hi there

2450

01:31:31,990 --> 01:31:29,840

it has been a pleasure listening to your

2451

01:31:33,110 --> 01:31:32,000

thoughts on all of these

2452

01:31:34,870 --> 01:31:33,120

you know

2453

01:31:37,110 --> 01:31:34,880

questions that we have for you and i

2454

01:31:39,030 --> 01:31:37,120

mean you are the perfect person to ask

2455

01:31:41,189 --> 01:31:39,040

the questions too so thank you for your

2456

01:31:43,750 --> 01:31:41,199

information it's been a pleasure and i

2457

01:31:45,270 --> 01:31:43,760

hope to see you again on the next show

2458

01:31:48,550 --> 01:31:45,280

we will

2459

01:31:50,310 --> 01:31:48,560

awesome thank you ebbs

2460

01:31:52,950 --> 01:31:50,320

i wanted to thank you for your own

2461

01:31:54,470 --> 01:31:52,960

personal financial sacrifices with this

2462

01:31:57,430 --> 01:31:54,480

i know you've spent a lot of money on

2463

01:31:59,830 --> 01:31:57,440

this and also for your availability to

2464

01:32:02,149 --> 01:31:59,840

us the fact that i was able to ever talk

2465

01:32:04,470 --> 01:32:02,159

to you like you're just so accessible

2466

01:32:07,189 --> 01:32:04,480

and friendly so thank you we greatly

2467

01:32:10,950 --> 01:32:07,199

appreciate that and your open-mindedness

2468

01:32:16,870 --> 01:32:13,910

job i appreciate it

2469

01:32:19,350 --> 01:32:16,880

you sir are my new hero

2470

01:32:21,270 --> 01:32:19,360

that's that's all i want to say i mean

2471

01:32:23,830 --> 01:32:21,280

i had you paid for a nuts and bolts

2472

01:32:25,590 --> 01:32:23,840

person but you're you kind of are but

2473

01:32:27,910 --> 01:32:25,600

it the machine your machine is the human

2474

01:32:29,350 --> 01:32:27,920

body so really we're interested in the

2475

01:32:31,350 --> 01:32:29,360

same thing

2476

01:32:35,189 --> 01:32:31,360

you're you're my hero i just thank you

2477

01:32:38,709 --> 01:32:36,950

and

2478

01:32:41,189 --> 01:32:38,719

the money man

2479

01:32:42,550 --> 01:32:41,199

yeah thank you so much um you know i

2480

01:32:44,550 --> 01:32:42,560

think about the hitchhiker effect and

2481

01:32:45,990 --> 01:32:44,560

how we think about that negatively

2482

01:32:48,149 --> 01:32:46,000

but i think about

2483

01:32:50,229 --> 01:32:48,159

these moments as a positive

2484

01:32:52,470 --> 01:32:50,239

hitchhiker effect these are moments

2485

01:32:54,790 --> 01:32:52,480

where we're sharing ideas and and our

2486

01:32:57,270 --> 01:32:54,800

search for for truth and and they kind

2487

01:32:58,310 --> 01:32:57,280

of activate nodes in the network right

2488

01:33:00,709 --> 01:32:58,320

and other

2489

01:33:02,709 --> 01:33:00,719

folks come into the story and and be an

2490

01:33:04,070 --> 01:33:02,719

active player so thank you so much for

2491

01:33:05,669 --> 01:33:04,080

just playing the part that you play in

2492

01:33:07,110 --> 01:33:05,679

this and uh and we look forward to

2493

01:33:08,470 --> 01:33:07,120

seeing what comes out of your continued

2494

01:33:09,830 --> 01:33:08,480

research

2495

01:33:17,510 --> 01:33:09,840

thank you

2496

01:33:20,629 --> 01:33:17,520

i said earlier your courage and your

2497

01:33:22,950 --> 01:33:20,639

determination your dog determination

2498

01:33:26,310 --> 01:33:22,960

looking for answers in a scientific way

2499

01:33:29,990 --> 01:33:26,320

and championing the truth and not

2500

01:33:32,629 --> 01:33:30,000

allowing yourself to be uh bullied by

2501

01:33:34,390 --> 01:33:32,639

uh people that that uh want to change

2502

01:33:37,910 --> 01:33:34,400

the narrative in the direction that's

2503

01:33:39,510 --> 01:33:37,920

gonna gain them popularization you know

2504

01:33:41,590 --> 01:33:39,520

uh to become more popular and gain

2505

01:33:43,189 --> 01:33:41,600

followers and stuff so i think that

2506

01:33:45,910 --> 01:33:43,199

that's amazing

2507

01:33:47,189 --> 01:33:45,920

and uh you ask yourself it

2508

01:33:49,110 --> 01:33:47,199

before

2509

01:33:51,110 --> 01:33:49,120

you asked that question when it was just

2510

01:33:53,189 --> 01:33:51,120

the three of us on air you know what

2511

01:33:55,270 --> 01:33:53,199

made you come on here i hope now that uh

2512

01:33:57,270 --> 01:33:55,280

you realize why that was

2513

01:33:59,030 --> 01:33:57,280

and it was an absolute honor to speak

2514

01:34:01,350 --> 01:33:59,040

with you thank you very much

2515

01:34:02,550 --> 01:34:01,360

namaste

2516

01:34:06,070 --> 01:34:02,560

and on behalf

2517

01:34:08,790 --> 01:34:06,080

it's a great it's a great forum okay

2518

01:34:09,910 --> 01:34:08,800

signing off yeah

2519

01:34:13,110 --> 01:34:09,920

all right

2520

01:34:15,669 --> 01:34:13,120

for dr gary nolan uh for staff for dab

2521

01:34:18,310 --> 01:34:15,679

bend

2526

01:34:32,740 --> 01:34:25,670

peace
