make sure you got a chamois if you're

55  
00:02:07,270 --> 00:02:04,560  
gonna get close to it

56  
00:02:09,669 --> 00:02:07,280  
uh but anyway let's bring in our next

57  
00:02:10,469 --> 00:02:09,679  
guest who does know something about uh

58  
00:02:12,309 --> 00:02:10,479  
uh

59  
00:02:13,910 --> 00:02:12,319  
does know something about cars and when

60  
00:02:16,150 --> 00:02:13,920  
he is ahead on the scoreboard you can

61  
00:02:19,190 --> 00:02:16,160  
certainly count on uh him to go to the

62  
00:02:22,070 --> 00:02:19,200  
all corners defense he is an engineer uh

63  
00:02:23,750 --> 00:02:22,080

64

00:02:26,710 --> 00:02:23,760

i'm hoping that he's seen soft squash

65

00:02:30,390 --> 00:02:26,720

but i'm not 100 sure parted people put

66

00:02:31,350 --> 00:02:30,400

76

00:02:55,910 --> 00:02:52,720

because of that she is a positive source

77

00:02:57,509 --> 00:02:55,920

of feedback for everybody she is very a

78

00:03:00,070 --> 00:02:57,519

very pleasant person to be in the

79

00:03:02,790 --> 00:03:00,080

presence of she's amazing she is i get

80

00:03:06,149 --> 00:03:02,800

to meet her at the floor bama uh meetup

81

00:03:09,190 --> 00:03:06,159

and she is just an absolute delight uh

82

00:03:11,589 --> 00:03:09,200

to be with hang out with her uh

83

00:03:13,030 --> 00:03:11,599

narratives and also she's you know

84

00:03:15,190 --> 00:03:13,040

she's a remote viewer she's an

85

00:03:16,790 --> 00:03:15,200

experiencer and someone who's been doing

86

00:03:18,710 --> 00:03:16,800

this a long time and is not just

87

00:03:21,589 --> 00:03:18,720

dropping in the joint but she knows

88

00:03:23,830 --> 00:03:21,599

of you out there are into all natural

90

00:03:27,830 --> 00:03:26,000

shoes uh please check out

91

00:03:30,789 --> 00:03:27,840

birthdayshoes.com

92

00:03:33,670 --> 00:03:30,799

uh justin owings uh who is in the chat

93

00:03:35,670 --> 00:03:33,680

i've been reading his blog since 2009 or

94

00:03:38,149 --> 00:03:35,680

so and have bought several pairs of

95

00:03:40,070 --> 00:03:38,159

shoes like probably 10

96

00:03:42,630 --> 00:03:40,080

based on his recommendations of

97

00:03:44,550 --> 00:03:42,640

different types uh anyway welcome man

98

00:03:47,270 --> 00:03:44,560

it's dan warren and let me pass the

99

00:03:49,190 --> 00:03:47,280

microphone over let me pass it over to

100

00:03:51,670 --> 00:03:49,200

money nathan

101  
00:03:54,070 --> 00:03:51,680  
ah man dan all right so let's just get

102  
00:03:55,910 --> 00:03:54,080  
right into it uh what's going on what

103  
00:03:58,390 --> 00:03:55,920  
you doing i know the tick tocks are

104  
00:04:00,390 --> 00:03:58,400  
flying i don't miss those i love them so

105  
00:04:02,710 --> 00:04:00,400  
much but i mean what's happening in your

106  
00:04:04,390 --> 00:04:02,720  
world right now what are you focused on

107  
00:04:05,830 --> 00:04:04,400  
uh what do you see trending you know

108  
00:04:06,869 --> 00:04:05,840  
what are you getting big response to

109  
00:04:08,550 --> 00:04:06,879  
when you're when you're out there in the

110  
00:04:10,949 --> 00:04:08,560  
tick tick tock world

111  
00:04:13,030 --> 00:04:10,959  
so stupid videos are what get the best

112  
00:04:15,750 --> 00:04:13,040  
response on tick tock of course anything

113  
00:04:17,830 --> 00:04:15,760

i do that is like i made some videos of

114

00:04:19,509 --> 00:04:17,840

me throwing an extension cord because i

115

00:04:22,390 --> 00:04:19,519

can wrap it up like a microphone and

116

00:04:25,189 --> 00:04:22,400

toss it a hundred feet and it'll unravel

117

00:04:25,990 --> 00:04:25,199

and that one gotta that got rave reviews

118

00:04:27,749 --> 00:04:26,000

so

119

00:04:30,310 --> 00:04:27,759

it's always a shock because the ones

120

00:04:32,230 --> 00:04:30,320

that i put all my heart and soul into

121

00:04:33,990 --> 00:04:32,240

those are the ones that do good on

122

00:04:35,909 --> 00:04:34,000

twitter but they're not the ones that do

123

00:04:37,830 --> 00:04:35,919

good on tick tock so it's two different

124

00:04:39,350 --> 00:04:37,840

demographics

125

00:04:41,350 --> 00:04:39,360

but as far as things that are going on

126  
00:04:43,749 --> 00:04:41,360  
right now to me the biggest event that

127  
00:04:45,430 --> 00:04:43,759  
we've had the one i made a video about

128  
00:04:47,670 --> 00:04:45,440  
is going to be the

129  
00:04:50,150 --> 00:04:47,680  
kirsten gillibrand comments that she had

130  
00:04:52,629 --> 00:04:50,160  
after her town hall town hall meeting in

131  
00:04:56,150 --> 00:04:52,639  
manhattan i felt like that was a pretty

132  
00:04:58,870 --> 00:04:56,160  
um pretty big moment in ufology where a

133  
00:05:00,950 --> 00:04:58,880  
sitting senator made the types of

134  
00:05:03,189 --> 00:05:00,960  
statements that she made

135  
00:05:05,029 --> 00:05:03,199  
and she's got her finger on it she is

136  
00:05:06,790 --> 00:05:05,039  
not letting it go

137  
00:05:09,670 --> 00:05:06,800  
she's going to be a pit bull and you saw

138  
00:05:12,070 --> 00:05:09,680

how she responded to the gentleman that

139

00:05:13,749 --> 00:05:12,080

was she was vetting a couple months ago

140

00:05:16,629 --> 00:05:13,759

and he said he didn't really know a lot

141

00:05:18,870 --> 00:05:16,639

about us uap so she was like

142

00:05:21,510 --> 00:05:18,880

you're about to and you're not gonna get

143

00:05:23,430 --> 00:05:21,520

this unless you give me a report on it

144

00:05:25,749 --> 00:05:23,440

so i think that's one of the biggest

145

00:05:27,350 --> 00:05:25,759

things that's happened in in the last

146

00:05:29,350 --> 00:05:27,360

week or two which

147

00:05:31,350 --> 00:05:29,360

let's be honest it feels at this point

148

00:05:34,070 --> 00:05:31,360

in ufology like we're drinking from a

149

00:05:35,350 --> 00:05:34,080

fire hose as far as news and updates and

150

00:05:37,350 --> 00:05:35,360

articles go

151  
00:05:39,909 --> 00:05:37,360  
compared to just two years ago when it

152  
00:05:40,710 --> 00:05:39,919  
was one a month two a month uh and it's

153  
00:05:42,950 --> 00:05:40,720  
just

154  
00:05:44,469 --> 00:05:42,960  
ramped up exponentially in the in the

155  
00:05:46,310 --> 00:05:44,479  
recent past

156  
00:05:47,749 --> 00:05:46,320  
yeah i think that's hard for folks to uh

157  
00:05:50,070 --> 00:05:47,759  
i mean we're kind of in it day in and

158  
00:05:52,469 --> 00:05:50,080  
day out and we maybe kind of forget that

159  
00:05:54,070 --> 00:05:52,479  
so it's great to hear you say that and

160  
00:05:56,790 --> 00:05:54,080  
on the on the gila brand thing in

161  
00:05:59,990 --> 00:05:56,800  
particular what struck me was just there

162  
00:06:01,670 --> 00:06:00,000  
was no uh pushback there was no

163  
00:06:03,270 --> 00:06:01,680

uh this is not something i can talk to

164

00:06:04,230 --> 00:06:03,280

you about right now

165

00:06:06,550 --> 00:06:04,240

it was

166

00:06:08,790 --> 00:06:06,560

total kind of i'm into this let's have

167

00:06:11,590 --> 00:06:08,800

this conversation this is an okay thing

168

00:06:13,670 --> 00:06:11,600

to discuss i mean imagine a senator

169

00:06:15,350 --> 00:06:13,680

taking that approach to this topic

170

00:06:16,469 --> 00:06:15,360

just a few years ago i don't think we

171

00:06:18,230 --> 00:06:16,479

would have seen that happen i think it

172

00:06:19,909 --> 00:06:18,240

would have been that you know sort of

173

00:06:21,189 --> 00:06:19,919

kind of nodding and you know if you can

174

00:06:23,270 --> 00:06:21,199

just kind of move along and i'm going to

175

00:06:24,070 --> 00:06:23,280

get to the next constituent situation

176

00:06:25,990 --> 00:06:24,080

there

177

00:06:28,390 --> 00:06:26,000

completely vague responses and

178

00:06:30,550 --> 00:06:28,400

non-committal uh exchanges is what i

179

00:06:32,390 --> 00:06:30,560

would have expected just a few years ago

180

00:06:34,870 --> 00:06:32,400

um one thing that i am always on the

181

00:06:37,029 --> 00:06:34,880

lookout for is patterns and something

182

00:06:39,430 --> 00:06:37,039

that i noticed because i can't remember

183

00:06:41,189 --> 00:06:39,440

who posted it as a

184

00:06:42,629 --> 00:06:41,199

comment to my tweet

185

00:06:45,990 --> 00:06:42,639

where i posted my

186

00:06:48,390 --> 00:06:46,000

video about the the gillibrand video

187

00:06:50,390 --> 00:06:48,400

was that mike gallagher representative

188

00:06:51,350 --> 00:06:50,400

mike gallagher said i'm not gonna let it

189

00:06:54,309 --> 00:06:51,360

go

190

00:06:56,550 --> 00:06:54,319

he also said it so to me i'm waiting for

191

00:06:58,150 --> 00:06:56,560

that third person which i mean i haven't

192

00:06:59,589 --> 00:06:58,160

listened to all the interviews or all

193

00:07:01,189 --> 00:06:59,599

the comments that the congressmen and

194

00:07:02,710 --> 00:07:01,199

women have made but

195

00:07:04,550 --> 00:07:02,720

to me it almost sounds like they've kind

196

00:07:06,629 --> 00:07:04,560

of huddled together in the background

197

00:07:08,150 --> 00:07:06,639

and said we're not gonna let it go if

198

00:07:09,029 --> 00:07:08,160

you don't let it go i'm not gonna let it

199

00:07:10,550 --> 00:07:09,039

go

200

00:07:11,990 --> 00:07:10,560

so they're starting to use similar

201  
00:07:13,990 --> 00:07:12,000  
vocabulary it could just be a

202  
00:07:15,589 --> 00:07:14,000  
coincidence i'm not gonna say that i

203  
00:07:18,550 --> 00:07:15,599  
have any information that leads me to

204  
00:07:20,309 --> 00:07:18,560  
believe it's a coordinated effort behind

205  
00:07:22,950 --> 00:07:20,319  
the scenes but

206  
00:07:24,870 --> 00:07:22,960  
it seems like they have all

207  
00:07:26,550 --> 00:07:24,880  
kind of reassured each other that

208  
00:07:29,350 --> 00:07:26,560  
they're going to move forward with this

209  
00:07:30,950 --> 00:07:29,360  
whatever this is right and not let go

210  
00:07:33,589 --> 00:07:30,960  
and keep pushing and pushing and pushing

211  
00:07:35,830 --> 00:07:33,599  
and it's just an exciting time

212  
00:07:38,230 --> 00:07:35,840  
to be in a subject like this because of

213  
00:07:39,510 --> 00:07:38,240

that it's unprecedented in my opinion

214

00:07:41,110 --> 00:07:39,520

yeah i mean well they're not sniping at

215

00:07:43,749 --> 00:07:41,120

each other on it so they could easily

216

00:07:44,469 --> 00:07:43,759

use that as a political you know jab oh

217

00:07:46,390 --> 00:07:44,479

my

218

00:07:48,790 --> 00:07:46,400

uh rival across the aisle they're into

219

00:07:51,189 --> 00:07:48,800

ufos you'd never hear that from any of

220

00:07:52,869 --> 00:07:51,199

these folks um you hear the most you'll

221

00:07:54,550 --> 00:07:52,879

hear is that i'm worried we're spending

222

00:07:56,790 --> 00:07:54,560

money and our attention in the wrong

223

00:07:58,550 --> 00:07:56,800

place but no one is is really saying

224

00:08:00,629 --> 00:07:58,560

that this isn't something we should care

225

00:08:02,869 --> 00:08:00,639

about or we should give any of our our

226

00:08:04,550 --> 00:08:02,879

attention to so yeah it's very exciting

227

00:08:06,469 --> 00:08:04,560

and we had you know jim semivan on

228

00:08:07,909 --> 00:08:06,479

recently and the way he kind of never

229

00:08:09,749 --> 00:08:07,919

heard him yeah just

230

00:08:11,589 --> 00:08:09,759

some guy he may have heard of

231

00:08:12,950 --> 00:08:11,599

some sort of officer retired officer

232

00:08:13,749 --> 00:08:12,960

with some agency

233

00:08:15,430 --> 00:08:13,759

uh

234

00:08:16,869 --> 00:08:15,440

you know but he you know he reminded us

235

00:08:19,430 --> 00:08:16,879

that they've seen a lot of the

236

00:08:21,749 --> 00:08:19,440

classified material and that they're

237

00:08:23,350 --> 00:08:21,759

really mad about it you know oh yeah

238

00:08:25,029 --> 00:08:23,360

they're mad that they've been basically

239

00:08:26,790 --> 00:08:25,039

lied to and that's certainly what i've

240

00:08:28,629 --> 00:08:26,800

been hearing from from folks that i talk

241

00:08:30,309 --> 00:08:28,639

with behind the scenes and you know i

242

00:08:31,990 --> 00:08:30,319

think you're right dan they they are

243

00:08:33,350 --> 00:08:32,000

laser focused on this they want some

244

00:08:34,630 --> 00:08:33,360

answers obviously we have a lot of

245

00:08:36,709 --> 00:08:34,640

things going on

246

00:08:38,070 --> 00:08:36,719

in the world and in politics generally

247

00:08:39,990 --> 00:08:38,080

right now so there's a lot of different

248

00:08:41,750 --> 00:08:40,000

topics that are vying for attention but

249

00:08:43,509 --> 00:08:41,760

this doesn't seem to be fading away

250

00:08:45,829 --> 00:08:43,519

going into the background

251  
00:08:48,150 --> 00:08:45,839  
exactly and i think we're also at the

252  
00:08:50,949 --> 00:08:48,160  
point where we can stop saying that the

253  
00:08:53,269 --> 00:08:50,959  
ufo topic is a distraction i feel like

254  
00:08:56,230 --> 00:08:53,279  
it is a legitimate issue

255  
00:09:00,870 --> 00:08:56,240  
it's a national security issue it is a

256  
00:09:07,110 --> 00:09:04,470  
facilities issue it is a

257  
00:09:09,750 --> 00:09:07,120  
a safe what are what are yeah yeah yeah

258  
00:09:12,949 --> 00:09:09,760  
without saying it let's say

259  
00:09:15,430 --> 00:09:12,959  
so it is a concern and it is a legit

260  
00:09:17,269 --> 00:09:15,440  
concern so people are start congressmen

261  
00:09:19,509 --> 00:09:17,279  
and women are starting to recognize that

262  
00:09:21,190 --> 00:09:19,519  
and they're realizing that we might be

263  
00:09:22,949 --> 00:09:21,200

behind the ball

264

00:09:23,750 --> 00:09:22,959

and that they've been

265

00:09:25,269 --> 00:09:23,760

had

266

00:09:27,829 --> 00:09:25,279

the wool pulled over their eyes that's

267

00:09:29,350 --> 00:09:27,839

one of my favorite ross coldheart

268

00:09:30,389 --> 00:09:29,360

comments is when he talks about the

269

00:09:33,030 --> 00:09:30,399

media

270

00:09:34,870 --> 00:09:33,040

being asleep at the will having the wool

271

00:09:37,509 --> 00:09:34,880

pulled over their eyes congress is the

272

00:09:38,630 --> 00:09:37,519

same way they're just as guilty they

273

00:09:41,829 --> 00:09:38,640

like um

274

00:09:44,150 --> 00:09:41,839

dennis kustinich who lost his or his

275

00:09:45,750 --> 00:09:44,160

presidential run ended because he saw a

276

00:09:47,670 --> 00:09:45,760

ufo

277

00:09:50,470 --> 00:09:47,680

what a different world we live in now

278

00:09:53,269 --> 00:09:50,480

yeah from ohio he was in a debate and

279

00:09:54,870 --> 00:09:53,279

they said hey it was stated in a book

280

00:09:57,350 --> 00:09:54,880

and i can't remember the name of the

281

00:10:00,310 --> 00:09:57,360

book or the author at the moment um that

282

00:10:01,910 --> 00:10:00,320

you saw ufo and he said yeah i did and i

283

00:10:04,069 --> 00:10:01,920

couldn't explain it just that the other

284

00:10:07,829 --> 00:10:04,079

and that pretty much tanked his election

285

00:10:10,310 --> 00:10:07,839

campaign and now we have people that are

286

00:10:12,710 --> 00:10:10,320

just recently 20 2020

287

00:10:14,470 --> 00:10:12,720

kirsten gillibrand ran for president i

288

00:10:17,030 --> 00:10:14,480

think marco rubio did too if i'm not

289

00:10:18,870 --> 00:10:17,040

mistaken that's correct and yes and they

290

00:10:20,630 --> 00:10:18,880

uh wait he couldn't have because trump

291

00:10:22,710 --> 00:10:20,640

was uh still in so i think it would have

292

00:10:23,910 --> 00:10:22,720

been 2016 when marco rubio

293

00:10:26,310 --> 00:10:23,920

he did he did

294

00:10:28,230 --> 00:10:26,320

16. yeah yeah okay so so those are

295

00:10:30,150 --> 00:10:28,240

current people that have their eyes on

296

00:10:31,670 --> 00:10:30,160

the prize and they're

297

00:10:35,430 --> 00:10:31,680

they're openly talking about this

298

00:10:37,430 --> 00:10:35,440

subject across the aisle nothing else is

299

00:10:39,350 --> 00:10:37,440

like that at this moment everything else

300

00:10:41,190 --> 00:10:39,360

is bickering this is one of the only

301  
00:10:43,350 --> 00:10:41,200  
things that they come together on and

302  
00:10:44,710 --> 00:10:43,360  
agree that needs to be something it's

303  
00:10:47,829 --> 00:10:44,720  
something that needs to be addressed

304  
00:10:49,750 --> 00:10:47,839  
it's amazing it's the only thing

305  
00:10:51,590 --> 00:10:49,760  
um for those of you out there who are

306  
00:10:54,310 --> 00:10:51,600  
wondering if my head is this fat in

307  
00:10:56,630 --> 00:10:54,320  
person nathan and dan could both confirm

308  
00:10:59,590 --> 00:10:56,640  
that it is but that's you know why we

309  
00:11:01,030 --> 00:10:59,600  
bring hey what's up so uh dave smithers

310  
00:11:02,790 --> 00:11:01,040  
is in the chat i want to say hello to

311  
00:11:05,829 --> 00:11:02,800  
dave smithers from england you should be

312  
00:11:08,710 --> 00:11:05,839  
in bed sir and uh tupacabra our former

313  
00:11:10,150 --> 00:11:08,720

guest is here uh as well laura sosa so

314

00:11:12,790 --> 00:11:10,160

man we've got a lot of cool people not

315

00:11:15,750 --> 00:11:12,800

to mention justin owings birthday shoes

316

00:11:17,590 --> 00:11:15,760

man what's up um but but uh we did bring

317

00:11:19,190 --> 00:11:17,600

on somebody that that that doesn't have

318

00:11:21,269 --> 00:11:19,200

a fat head and that's deb

319

00:11:22,949 --> 00:11:21,279

so uh go go right ahead but before we

320

00:11:26,470 --> 00:11:22,959

get to deb i gotta say something to

321

00:11:28,230 --> 00:11:26,480

tupac tupa i'm gonna call him top pock

322

00:11:29,990 --> 00:11:28,240

is rolling with the homies of reference

323

00:11:33,430 --> 00:11:30,000

to clueless because i watched that with

324

00:11:35,590 --> 00:11:33,440

my kid just two three weeks ago

325

00:11:37,990 --> 00:11:35,600

and man that's that's been going around

326

00:11:42,389 --> 00:11:38,000

our house like on repeat recently i love

327

00:11:45,750 --> 00:11:44,949

actually i had a related question about

328

00:11:47,590 --> 00:11:45,760

um

329

00:11:50,310 --> 00:11:47,600

i know that you deep dive on what's

330

00:11:53,670 --> 00:11:50,320

going on with the politicians current

331

00:11:55,990 --> 00:11:53,680

events and i was struck by the

332

00:11:57,829 --> 00:11:56,000

implication that legacy programs are

333

00:12:00,470 --> 00:11:57,839

still being hidden away

334

00:12:02,550 --> 00:12:00,480

and i feel like you would know about at

335

00:12:04,310 --> 00:12:02,560

least six of them right

336

00:12:07,590 --> 00:12:04,320

so i feel like

337

00:12:09,590 --> 00:12:07,600

yeah at least right so i i'm like

338

00:12:11,350 --> 00:12:09,600

can are you honing in on that are you

339

00:12:12,870 --> 00:12:11,360

going to kind of jump on that point when

340

00:12:15,350 --> 00:12:12,880

you make this video because that's that

341

00:12:16,949 --> 00:12:15,360

really struck me i was like shocked and

342

00:12:19,269 --> 00:12:16,959

i noticed of course that now they are

343

00:12:20,470 --> 00:12:19,279

going back to 1947

344

00:12:22,310 --> 00:12:20,480

that that's one of the things they're

345

00:12:23,990 --> 00:12:22,320

trying to do and

346

00:12:25,750 --> 00:12:24,000

okay so so what are you going to do with

347

00:12:27,750 --> 00:12:25,760

that information

348

00:12:30,550 --> 00:12:27,760

so my answer to that is i'm kind of

349

00:12:33,750 --> 00:12:30,560

doing that um there's two different

350

00:12:35,670 --> 00:12:33,760

videos i'm doing a deep dive on one in

351

00:12:37,829 --> 00:12:35,680

particular but the the other one that i

352

00:12:41,030 --> 00:12:37,839

feel like i'm going to

353

00:12:44,310 --> 00:12:41,040

try to compile some information about is

354

00:12:45,670 --> 00:12:44,320

the calvin photo and the significance of

355

00:12:49,190 --> 00:12:45,680

it if you guys haven't listened to the

356

00:12:51,030 --> 00:12:49,200

uap society podcast with vinnie chris

357

00:12:53,190 --> 00:12:51,040

lato and i'm sorry i can't remember i

358

00:12:55,990 --> 00:12:53,200

think it's a carl crusher and i've

359

00:12:57,910 --> 00:12:56,000

forgotten the fourth fourth person but

360

00:13:00,069 --> 00:12:57,920

ross coldheart was on there and he was

361

00:13:01,430 --> 00:13:00,079

talking to vinnie about the significance

362

00:13:03,829 --> 00:13:01,440

of that photo

363

00:13:04,949 --> 00:13:03,839

and that he has been led to believe that

364

00:13:08,389 --> 00:13:04,959

that is

365

00:13:09,350 --> 00:13:08,399

a reverse engineered craft that was

366

00:13:11,509 --> 00:13:09,360

being

367

00:13:12,870 --> 00:13:11,519

flown out of raf

368

00:13:13,910 --> 00:13:12,880

and so

369

00:13:18,389 --> 00:13:13,920

that

370

00:13:19,750 --> 00:13:18,399

happened right after

371

00:13:22,710 --> 00:13:19,760

um

372

00:13:25,030 --> 00:13:22,720

the the bob i'm i i hate even bringing

373

00:13:26,069 --> 00:13:25,040

up bob lazar but right after bob lazar

374

00:13:29,190 --> 00:13:26,079

happened

375

00:13:30,870 --> 00:13:29,200

they got a lot of attention at s4

376

00:13:34,710 --> 00:13:30,880

all of a sudden we get a picture of the

377

00:13:37,670 --> 00:13:34,720

calvin ufo flying out of raf which is

378

00:13:39,990 --> 00:13:37,680

coming to be thought of as a reverse

379

00:13:43,590 --> 00:13:40,000

engineer amer reverse engineered

380

00:13:44,629 --> 00:13:43,600

american uh ufo uav

381

00:13:46,629 --> 00:13:44,639

it's

382

00:13:48,470 --> 00:13:46,639

i'm trying to connect dots all the time

383

00:13:50,389 --> 00:13:48,480

so those are some dots that i'm seeing

384

00:13:52,069 --> 00:13:50,399

that i want to investigate a little bit

385

00:13:54,069 --> 00:13:52,079

further so that's that's been something

386

00:13:56,310 --> 00:13:54,079

to me that has kind of stood out i

387

00:13:59,189 --> 00:13:56,320

highly recommend that uh

388

00:14:01,509 --> 00:13:59,199

podcast that interview is great

389

00:14:03,829 --> 00:14:01,519

what's up vinny man we got to talk man

390

00:14:06,550 --> 00:14:03,839

disclosure team all day man

391

00:14:07,829 --> 00:14:06,560

uh vinnie is is uh definitely a member

392

00:14:09,829 --> 00:14:07,839

of cab fam

393

00:14:11,750 --> 00:14:09,839

and uh he has a great show in fact uh he

394

00:14:13,509 --> 00:14:11,760

had dr diana sulk on as well and i

395

00:14:15,110 --> 00:14:13,519

haven't heard that episode yet i just

396

00:14:18,310 --> 00:14:15,120

messed him that a while ago but yeah i

397

00:14:20,629 --> 00:14:18,320

will listen to that um i've had some

398

00:14:22,069 --> 00:14:20,639

conversations with uh

399

00:14:25,829 --> 00:14:22,079

frank milburn

400

00:14:28,790 --> 00:14:25,839

um i've had conversation with richard

401  
00:14:30,310 --> 00:14:28,800  
butt on this one a lot of people know is

402  
00:14:33,030 --> 00:14:30,320  
right into a lot of things and kind of

403  
00:14:36,470 --> 00:14:33,040  
ransom and also um condor man

404  
00:14:39,990 --> 00:14:36,480  
uh condorman did show a patent for a

405  
00:14:41,430 --> 00:14:40,000  
diamond shaped dirigible technology as

406  
00:14:43,350 --> 00:14:41,440  
i've mentioned to you guys before i

407  
00:14:45,269 --> 00:14:43,360  
think there are a lot of technologies

408  
00:14:47,269 --> 00:14:45,279  
that they will apply for a patent on

409  
00:14:49,509 --> 00:14:47,279  
that aren't actualized but they're

410  
00:14:51,509 --> 00:14:49,519  
they're thrown out there as chaff for

411  
00:14:54,470 --> 00:14:51,519  
intelligence services and so on like the

412  
00:14:57,110 --> 00:14:54,480  
anti-gravity stuff um

413  
00:14:59,110 --> 00:14:57,120

you know obviously we're not seeing uh

414

00:15:00,870 --> 00:14:59,120

we're not flying around in in our own

415

00:15:03,189 --> 00:15:00,880

anti-gravity craft but

416

00:15:04,629 --> 00:15:03,199

um but it would it would behoove me to

417

00:15:06,470 --> 00:15:04,639

put that out there so that the other

418

00:15:08,870 --> 00:15:06,480

services have to wonder oh there's a

419

00:15:10,629 --> 00:15:08,880

navy patent on do they have something

420

00:15:12,870 --> 00:15:10,639

probably not but they need to look into

421

00:15:15,509 --> 00:15:12,880

it so with regard to that i've been to

422

00:15:18,550 --> 00:15:15,519

raf macrahinish we actually had our

423

00:15:20,069 --> 00:15:18,560

ri there in 2007

424

00:15:22,550 --> 00:15:20,079

when i was stationed in england so we

425

00:15:24,629 --> 00:15:22,560

rented the base from the raf for that

426

00:15:27,350 --> 00:15:24,639

it's not a secure base

427

00:15:29,509 --> 00:15:27,360

and i cannot imagine why

428

00:15:31,910 --> 00:15:29,519

if i did if i was flight testing a

429

00:15:33,990 --> 00:15:31,920

secret technology why i would fly it

430

00:15:37,269 --> 00:15:34,000

from somewhere like nevada

431

00:15:38,790 --> 00:15:37,279

to scotland and then fly it in day vmc

432

00:15:41,030 --> 00:15:38,800

which would be day

433

00:15:43,110 --> 00:15:41,040

uh visual meteorological conditions

434

00:15:43,910 --> 00:15:43,120

which means everybody can see it

435

00:15:46,389 --> 00:15:43,920

um

436

00:15:49,829 --> 00:15:46,399

so i can't figure out why you would do

437

00:15:51,189 --> 00:15:49,839

that i also would wonder uh with a craft

438

00:15:55,269 --> 00:15:51,199

that's that big

439

00:15:57,670 --> 00:15:55,279

um you know if it doesn't have

440

00:15:59,430 --> 00:15:57,680

if it's not dirigible in nature and it

441

00:16:01,749 --> 00:15:59,440

doesn't have some omnidirectional

442

00:16:03,990 --> 00:16:01,759

propulsion up down left right

443

00:16:06,150 --> 00:16:04,000

then how do i make a landing in this

444

00:16:08,550 --> 00:16:06,160

craft how do i steer this craft i'm

445

00:16:10,629 --> 00:16:08,560

going to need ailerons i'm going to need

446

00:16:13,030 --> 00:16:10,639

wings that are proportional to the size

447

00:16:14,870 --> 00:16:13,040

of the craft and then horizontal and

448

00:16:17,110 --> 00:16:14,880

vertical stabilizers

449

00:16:18,870 --> 00:16:17,120

etc unless it's dirigible if it's

450

00:16:20,550 --> 00:16:18,880

dirigible that

451

00:16:22,949 --> 00:16:20,560

now i can shrink all the control

452

00:16:24,629 --> 00:16:22,959

surfaces because it's already aloft

453

00:16:30,150 --> 00:16:24,639

but um

454

00:16:32,870 --> 00:16:30,160

so i'll challenge you to tell me what

455

00:16:35,110 --> 00:16:32,880

makes sense in the ufo

456

00:16:36,790 --> 00:16:35,120

community like nothing makes sense

457

00:16:38,870 --> 00:16:36,800

there's so many things that are just

458

00:16:41,749 --> 00:16:38,880

contradicting each other it's so

459

00:16:43,829 --> 00:16:41,759

confusing well to me you have to show me

460

00:16:46,069 --> 00:16:43,839

how it flies if somebody can tell me how

461

00:16:49,269 --> 00:16:46,079

it flies then i can go so when i see

462

00:16:51,430 --> 00:16:49,279

something like for example i saw the uh

463

00:16:52,710 --> 00:16:51,440

that photo where it's the uss something

464

00:16:54,710 --> 00:16:52,720

and there's something that has four

465

00:16:56,310 --> 00:16:54,720

lights on it and it looks like a drone

466

00:16:58,069 --> 00:16:56,320

and to me there's nothing that i see

467

00:17:00,310 --> 00:16:58,079

there that i could say that's not a

468

00:17:02,389 --> 00:17:00,320

that's not a drone but you also can't

469

00:17:04,150 --> 00:17:02,399

tell how it's propelled like it's just

470

00:17:05,750 --> 00:17:04,160

not enough information that's that's a

471

00:17:08,390 --> 00:17:05,760

lot of what we got that we have to work

472

00:17:10,150 --> 00:17:08,400

with is insufficient data well yeah

473

00:17:12,470 --> 00:17:10,160

there are ifs that are involved when the

474

00:17:14,390 --> 00:17:12,480

witnesses say okay it hovered silently

475

00:17:17,350 --> 00:17:14,400

for 10 minutes and then shot straight up

476

00:17:19,750 --> 00:17:17,360

in the air silently now i'm saying it's

477

00:17:21,909 --> 00:17:19,760

not it's not man-made technology

478

00:17:24,150 --> 00:17:21,919

um because we can't do that now

479

00:17:25,510 --> 00:17:24,160

uh so i don't think you could do it then

480

00:17:26,870 --> 00:17:25,520

and if you could do it now we'd be

481

00:17:27,909 --> 00:17:26,880

flying that now

482

00:17:29,750 --> 00:17:27,919

um

483

00:17:31,909 --> 00:17:29,760

and instead i know the planes that we're

484

00:17:33,990 --> 00:17:31,919

buying and they're just not in the realm

485

00:17:35,669 --> 00:17:34,000

of of something in fact i got to show

486

00:17:37,350 --> 00:17:35,679

you guys one of the newest aircraft

487

00:17:38,789 --> 00:17:37,360

we're buying when you see it just know

488

00:17:40,710 --> 00:17:38,799

that it's called the air tractor and

489

00:17:43,190 --> 00:17:40,720

that should tell you something

490

00:17:45,029 --> 00:17:43,200

specifically you dan anyway

491

00:17:46,390 --> 00:17:45,039

let me go with my question that i had

492

00:17:48,230 --> 00:17:46,400

for you dan because it's from

493

00:17:50,789 --> 00:17:48,240

christopher sharp one of your fans oh

494

00:17:52,710 --> 00:17:50,799

awesome yeah i'm a big fan of chris too

495

00:17:55,669 --> 00:17:52,720

yeah he called me today to get this

496

00:17:59,190 --> 00:17:55,679

question in for you um as i was leaving

497

00:18:01,350 --> 00:17:59,200

work uh and just i'm flattered i'm i'm

498

00:18:04,150 --> 00:18:01,360

so flattered by that that's cool yeah he

499

00:18:07,029 --> 00:18:04,160

yeah he loves you dad we all love you um

500

00:18:09,909 --> 00:18:07,039

he says uh he wants to know about how

501  
00:18:11,590 --> 00:18:09,919  
you uh were able to

502  
00:18:14,870 --> 00:18:11,600  
craft this relationship with tim

503  
00:18:17,350 --> 00:18:14,880  
burchette who uh he sees as is certainly

504  
00:18:19,750 --> 00:18:17,360  
an advocate for some for us and somebody

505  
00:18:22,230 --> 00:18:19,760  
that we're really lucky to have and and

506  
00:18:24,070 --> 00:18:22,240  
and and also and why you you do what's a

507  
00:18:26,390 --> 00:18:24,080  
two-part question first about tim and

508  
00:18:28,390 --> 00:18:26,400  
then second half it'd be about how you

509  
00:18:29,750 --> 00:18:28,400  
came up with this idea for tick tock

510  
00:18:32,549 --> 00:18:29,760  
because he loves it

511  
00:18:34,390 --> 00:18:32,559  
so the way that i got a hold of tim is

512  
00:18:36,870 --> 00:18:34,400  
and by the way i think his name is

513  
00:18:39,750 --> 00:18:36,880

pronounced birchit because i have a guy

514

00:18:41,750 --> 00:18:39,760

that i work with named whose last name

515

00:18:43,830 --> 00:18:41,760

is birchette so i'm going with birchette

516

00:18:45,990 --> 00:18:43,840

burchette sounds too french

517

00:18:48,150 --> 00:18:46,000

to european i don't think he would say

518

00:18:50,070 --> 00:18:48,160

it that way whenever i get a hold of him

519

00:18:51,990 --> 00:18:50,080

i'm asking for clarification that's the

520

00:18:54,230 --> 00:18:52,000

one that's the first question i'm asking

521

00:18:56,710 --> 00:18:54,240

is how do you pronounce your last name

522

00:18:58,870 --> 00:18:56,720

um but the way that i ended up getting a

523

00:19:01,270 --> 00:18:58,880

hold of him is because he actually had

524

00:19:04,870 --> 00:19:01,280

two interviews where he openly spoke

525

00:19:06,390 --> 00:19:04,880

about the ufo topic and i made two tick

526

00:19:08,789 --> 00:19:06,400

tocks about it basically saying like he

527

00:19:11,669 --> 00:19:08,799

is saying exactly what we're saying like

528

00:19:13,190 --> 00:19:11,679

this is the frustration that we as a

529

00:19:15,590 --> 00:19:13,200

community have

530

00:19:18,950 --> 00:19:15,600

and we have a congressman that is saying

531

00:19:21,110 --> 00:19:18,960

exactly what we think so it was it was

532

00:19:23,669 --> 00:19:21,120

great to hear it and i ended up taking

533

00:19:25,430 --> 00:19:23,679

screenshots of those two videos printing

534

00:19:26,549 --> 00:19:25,440

them out on a piece of paper and then

535

00:19:29,669 --> 00:19:26,559

writing

536

00:19:32,470 --> 00:19:29,679

dear representative burchett i am going

537

00:19:35,909 --> 00:19:32,480

uh i i appreciate you making these

538

00:19:37,669 --> 00:19:35,919

statements that you have i am

539

00:19:39,430 --> 00:19:37,679

i've made these videos if you want to

540

00:19:40,870 --> 00:19:39,440

check them out go check check them out

541

00:19:43,270 --> 00:19:40,880

here on tik tok or i've got them on

542

00:19:45,190 --> 00:19:43,280

youtube now and i would like to talk to

543

00:19:47,190 --> 00:19:45,200

you about this more at some point and

544

00:19:49,590 --> 00:19:47,200

just see what your thoughts are so at

545

00:19:51,909 --> 00:19:49,600

that point i didn't expect anything to

546

00:19:53,990 --> 00:19:51,919

happen i sent it in i sent it to the

547

00:19:56,310 --> 00:19:54,000

washington the knoxville

548

00:19:58,310 --> 00:19:56,320

and the other there were three offices

549

00:20:01,110 --> 00:19:58,320

office addresses that he had posted i

550

00:20:01,830 --> 00:20:01,120

just printed them out hand wrote them

551

00:20:04,549 --> 00:20:01,840

uh

552

00:20:07,830 --> 00:20:04,559

sent them pictures of me in front of my

553

00:20:10,549 --> 00:20:07,840

restored bronco with my kids and my wife

554

00:20:12,390 --> 00:20:10,559

um posing for father's day and like i'm

555

00:20:13,510 --> 00:20:12,400

just a normal guy just interested in

556

00:20:15,190 --> 00:20:13,520

this topic

557

00:20:17,510 --> 00:20:15,200

i just wanted to talk to you about it so

558

00:20:20,470 --> 00:20:17,520

he ended up actually calling me on like

559

00:20:22,310 --> 00:20:20,480

a friday night as i was grilling some

560

00:20:24,870 --> 00:20:22,320

food for dinner and we had our first

561

00:20:26,870 --> 00:20:24,880

conversation over the phone and the same

562

00:20:28,470 --> 00:20:26,880

thing that he said to me in that phone

563

00:20:31,590 --> 00:20:28,480

call is the same thing he has been

564

00:20:33,350 --> 00:20:31,600

repeating ad nauseam on these interviews

565

00:20:35,750 --> 00:20:33,360

and on these um

566

00:20:38,470 --> 00:20:35,760

news segments so he has been consistent

567

00:20:41,590 --> 00:20:38,480

with his stance that we have been lied

568

00:20:44,230 --> 00:20:41,600

to so it's it's refreshing to see

569

00:20:46,710 --> 00:20:44,240

i feel like i got an insight into his

570

00:20:48,310 --> 00:20:46,720

mentality into his thought process

571

00:20:50,230 --> 00:20:48,320

pretty much before the rest of the ufo

572

00:20:52,549 --> 00:20:50,240

community and it's nice to see that it

573

00:20:54,230 --> 00:20:52,559

has been consistent i don't always agree

574

00:20:56,070 --> 00:20:54,240

with him on politics i'll throw that out

575

00:20:58,950 --> 00:20:56,080

there right now

576

00:21:01,909 --> 00:20:58,960

but i am grateful to have him as an

577

00:21:04,310 --> 00:21:01,919

advocate for uap disclosure because he

578

00:21:06,310 --> 00:21:04,320

has been consistent and i i do feel like

579

00:21:08,630 --> 00:21:06,320

he is going to continue to push

580

00:21:10,390 --> 00:21:08,640

and i feel like in any day now he's

581

00:21:12,230 --> 00:21:10,400

going to say i'm not going to let it go

582

00:21:13,750 --> 00:21:12,240

so i'm hoping that'll end up coming out

583

00:21:16,149 --> 00:21:13,760

of his mouth soon

584

00:21:18,870 --> 00:21:16,159

and and so dan you know graeme rendall

585

00:21:20,870 --> 00:21:18,880

posted his letter to his mp the other

586

00:21:23,190 --> 00:21:20,880

day i'm trying to remember someone else

587

00:21:24,789 --> 00:21:23,200

that said that they wrote to their mp

588

00:21:27,110 --> 00:21:24,799

recently and we're talking about uh

589

00:21:28,390 --> 00:21:27,120

british uh our british brothers and

590

00:21:30,070 --> 00:21:28,400

sisters writing to their members of

591

00:21:32,789 --> 00:21:30,080

parliament

592

00:21:33,590 --> 00:21:32,799

that are i guess house of commons types

593

00:21:36,470 --> 00:21:33,600

um

594

00:21:38,390 --> 00:21:36,480

and uh so you're inspiring people by by

595

00:21:41,190 --> 00:21:38,400

doing stuff like that and obviously

596

00:21:42,950 --> 00:21:41,200

christopher was as well so thank you not

597

00:21:45,270 --> 00:21:42,960

what you're doing is not just localized

598

00:21:47,510 --> 00:21:45,280

but other people are like okay i need to

599

00:21:49,830 --> 00:21:47,520

engage with with my politician on this

600

00:21:51,350 --> 00:21:49,840

topic even though in their case they

601  
00:21:53,110 --> 00:21:51,360  
know that right now the answer they're

602  
00:21:55,190 --> 00:21:53,120  
going to get is going to be a sort of a

603  
00:21:57,590 --> 00:21:55,200  
pat canned answer which graham spoke

604  
00:21:59,430 --> 00:21:57,600  
about uh and let me pass over to the

605  
00:22:00,310 --> 00:21:59,440  
moment but i would recommend that you

606  
00:22:02,070 --> 00:22:00,320  
put

607  
00:22:04,070 --> 00:22:02,080  
your personal self

608  
00:22:05,990 --> 00:22:04,080  
in the letter don't just

609  
00:22:07,909 --> 00:22:06,000  
write something out if you could if

610  
00:22:09,510 --> 00:22:07,919  
you're con if you feel comfortable

611  
00:22:11,029 --> 00:22:09,520  
putting a picture of yourself or your

612  
00:22:13,590 --> 00:22:11,039  
family in there

613  
00:22:14,789 --> 00:22:13,600

someone's gonna open a thousand letters

614

00:22:16,149 --> 00:22:14,799

that day

615

00:22:17,750 --> 00:22:16,159

they're gonna look at that one with the

616

00:22:20,149 --> 00:22:17,760

picture longer than they're gonna look

617

00:22:22,549 --> 00:22:20,159

at any other one so if i mean i hate to

618

00:22:25,510 --> 00:22:22,559

say use your family as leverage it's not

619

00:22:28,710 --> 00:22:25,520

what i'm saying but please

620

00:22:32,549 --> 00:22:30,870

you're a human you're a regular person

621

00:22:34,390 --> 00:22:32,559

you have

622

00:22:35,909 --> 00:22:34,400

you're you're just a regular dude let

623

00:22:37,990 --> 00:22:35,919

them know that it just i feel like

624

00:22:40,549 --> 00:22:38,000

that's something that

625

00:22:42,789 --> 00:22:40,559

that could be beneficial to contacting

626

00:22:45,270 --> 00:22:42,799

our representatives is we're not just a

627

00:22:47,430 --> 00:22:45,280

bunch of words and angry letters i'm

628

00:22:49,350 --> 00:22:47,440

sure they get tons of those yeah we're a

629

00:22:50,789 --> 00:22:49,360

community we're people we're just like

630

00:22:52,630 --> 00:22:50,799

them

631

00:22:54,870 --> 00:22:52,640

yeah yeah spot on

632

00:22:57,430 --> 00:22:54,880

well and and this reminds me or i think

633

00:23:00,310 --> 00:22:57,440

of uh the article that we saw from billy

634

00:23:02,070 --> 00:23:00,320

cox the other day um where he was

635

00:23:03,830 --> 00:23:02,080

talking about uh kind of the body

636

00:23:05,190 --> 00:23:03,840

language analysis of a lot of the folks

637

00:23:07,110 --> 00:23:05,200

that have come forward and mentioned

638

00:23:10,390 --> 00:23:07,120

something about this topic so including

639

00:23:11,909 --> 00:23:10,400

the presidents uh he mentioned uh

640

00:23:13,909 --> 00:23:11,919

woolsey and brennan and brennan in

641

00:23:16,070 --> 00:23:13,919

particular you know i've always been

642

00:23:17,590 --> 00:23:16,080

fascinated by his response to the

643

00:23:19,430 --> 00:23:17,600

questions that he received where he kind

644

00:23:21,590 --> 00:23:19,440

of goes into this uh

645

00:23:23,590 --> 00:23:21,600

he has this very kind of troubled you

646

00:23:25,669 --> 00:23:23,600

know heavy weighed down sort of body

647

00:23:27,190 --> 00:23:25,679

language can you do it nathan can you

648

00:23:29,110 --> 00:23:27,200

yeah it's kind of like

649

00:23:31,430 --> 00:23:29,120

uh you know what it's like and it's it

650

00:23:32,630 --> 00:23:31,440

may constitute some kind of form of life

651  
00:23:35,750 --> 00:23:32,640  
you know so

652  
00:23:36,950 --> 00:23:35,760  
it's it seems clear that there is this

653  
00:23:38,789 --> 00:23:36,960  
you know where i'm going with this dan

654  
00:23:40,549 --> 00:23:38,799  
is that there's this human element here

655  
00:23:41,590 --> 00:23:40,559  
right that it's and i think what you're

656  
00:23:43,269 --> 00:23:41,600  
saying is

657  
00:23:45,510 --> 00:23:43,279  
you know bring that to the forefront of

658  
00:23:46,470 --> 00:23:45,520  
the engagement because really this this

659  
00:23:48,710 --> 00:23:46,480  
issue

660  
00:23:51,029 --> 00:23:48,720  
really does connect us on this

661  
00:23:53,590 --> 00:23:51,039  
fundamental human level and those that

662  
00:23:55,110 --> 00:23:53,600  
are kind of closer to the secrets it's

663  
00:23:56,950 --> 00:23:55,120

not that they don't feel that too you

664

00:23:59,990 --> 00:23:56,960

know that they feel that very profoundly

665

00:24:02,149 --> 00:24:00,000

and so by engaging them in this human

666

00:24:04,470 --> 00:24:02,159

way it's a way to really create that

667

00:24:07,029 --> 00:24:04,480

connection a sense that they will

668

00:24:08,549 --> 00:24:07,039

uh be more likely to respond and and

669

00:24:11,430 --> 00:24:08,559

they'll think of that

670

00:24:14,390 --> 00:24:11,440

that you share with them when they're

671

00:24:16,549 --> 00:24:14,400

kind of fighting for the this cause in

672

00:24:18,710 --> 00:24:16,559

the halls of congress but what i wanted

673

00:24:20,149 --> 00:24:18,720

to ask you about you know just as a

674

00:24:21,669 --> 00:24:20,159

discussion topic

675

00:24:24,230 --> 00:24:21,679

um i haven't listened to the entire

676

00:24:26,149 --> 00:24:24,240

interview with dr priscilla and vinnie

677

00:24:27,750 --> 00:24:26,159

but the part that i did catch was

678

00:24:29,669 --> 00:24:27,760

something that i had not heard before

679

00:24:32,149 --> 00:24:29,679

and she mentioned that

680

00:24:34,310 --> 00:24:32,159

she has absolutely heard from people who

681

00:24:36,470 --> 00:24:34,320

are in some of these

682

00:24:38,230 --> 00:24:36,480

deep black programs

683

00:24:40,789 --> 00:24:38,240

including she said

684

00:24:42,950 --> 00:24:40,799

uh an individual who had been in the

685

00:24:43,750 --> 00:24:42,960

program since they were 18

686

00:24:46,070 --> 00:24:43,760

and

687

00:24:48,549 --> 00:24:46,080

they are now about 60 years old how do

688

00:24:49,909 --> 00:24:48,559

you get that job at 18. right so i was

689

00:24:52,070 --> 00:24:49,919

thinking i was trying to do the math on

690

00:24:55,110 --> 00:24:52,080

that right that's like early 80s you

691

00:24:57,269 --> 00:24:55,120

know 40 years ago uh must have been like

692

00:24:59,029 --> 00:24:57,279

a super bright person that just i don't

693

00:25:01,110 --> 00:24:59,039

know that got picked up into the program

694

00:25:02,230 --> 00:25:01,120

but i mean how far back do you think

695

00:25:04,630 --> 00:25:02,240

this goes

696

00:25:06,549 --> 00:25:04,640

uh where is the biggest amount of smoke

697

00:25:08,710 --> 00:25:06,559

in your mind in terms of the legacy

698

00:25:10,390 --> 00:25:08,720

programs that might be out there

699

00:25:12,070 --> 00:25:10,400

i'm gonna say the most obvious thing

700

00:25:15,510 --> 00:25:12,080

that's ever been said on the show i

701  
00:25:17,430 --> 00:25:15,520  
think it dates back to 1947. i mean

702  
00:25:19,750 --> 00:25:17,440  
everybody's been talking

703  
00:25:22,310 --> 00:25:19,760  
it's been shocking to me how many people

704  
00:25:25,430 --> 00:25:22,320  
have been talking about roswell lately

705  
00:25:28,470 --> 00:25:25,440  
like i thought that was

706  
00:25:31,269 --> 00:25:28,480  
too far gone to be of any value to be of

707  
00:25:33,590 --> 00:25:31,279  
any benefit to this community but it has

708  
00:25:35,909 --> 00:25:33,600  
reared its head again it is shocking to

709  
00:25:38,230 --> 00:25:35,919  
me that that's where lou elizondo has

710  
00:25:40,710 --> 00:25:38,240  
pointed that's where donald trump has

711  
00:25:43,590 --> 00:25:40,720  
pointed there's been so so many people

712  
00:25:45,990 --> 00:25:43,600  
commenting on that recently that it is

713  
00:25:48,070 --> 00:25:46,000

making me look back at it

714

00:25:49,830 --> 00:25:48,080

and and view it in a different light i i

715

00:25:52,630 --> 00:25:49,840

don't know how else to say it but it's

716

00:25:54,390 --> 00:25:52,640

something happened in 1947

717

00:25:57,269 --> 00:25:54,400

all signs are pointing to it and it

718

00:25:59,990 --> 00:25:57,279

wasn't a weather balloon it wasn't

719

00:26:01,750 --> 00:26:00,000

dummies that's so funny it just he was

720

00:26:05,110 --> 00:26:01,760

saying it

721

00:26:05,909 --> 00:26:05,120

so it the the best thing that you can

722

00:26:08,789 --> 00:26:05,919

hear

723

00:26:11,110 --> 00:26:08,799

as far as 1947 goes are the

724

00:26:12,630 --> 00:26:11,120

radio clips that they play i can't i

725

00:26:13,990 --> 00:26:12,640

can't tell you exactly what youtube

726

00:26:17,190 --> 00:26:14,000

channel put this together as a

727

00:26:19,750 --> 00:26:17,200

compilation but they they play the

728

00:26:22,549 --> 00:26:19,760

the news segments from the day they

729

00:26:25,190 --> 00:26:22,559

found it the day that night and then the

730

00:26:27,190 --> 00:26:25,200

next day the tone changes and then it

731

00:26:28,149 --> 00:26:27,200

changes some more and it's just this

732

00:26:29,350 --> 00:26:28,159

weird

733

00:26:32,870 --> 00:26:29,360

um

734

00:26:35,190 --> 00:26:32,880

trajectory that this story takes from

735

00:26:37,669 --> 00:26:35,200

ramping up to all of a sudden being

736

00:26:40,310 --> 00:26:37,679

squashed completely flat it's it's

737

00:26:41,590 --> 00:26:40,320

really strange it's really telling in my

738

00:26:44,149 --> 00:26:41,600

opinion

739

00:26:45,830 --> 00:26:44,159

i i think nathan and deb and i think you

740

00:26:47,909 --> 00:26:45,840

can even you and i have probably had

741

00:26:49,590 --> 00:26:47,919

this conversation during our very early

742

00:26:50,630 --> 00:26:49,600

phone conversations i never didn't

743

00:26:52,789 --> 00:26:50,640

believe

744

00:26:54,470 --> 00:26:52,799

just by the nature of how it went down i

745

00:26:56,390 --> 00:26:54,480

never didn't believe it for a second

746

00:26:58,230 --> 00:26:56,400

because i knew it was crap just because

747

00:27:00,549 --> 00:26:58,240

i i know how they work and i know how

748

00:27:02,789 --> 00:27:00,559

they you know that they would try to do

749

00:27:05,029 --> 00:27:02,799

that so i just kind of i never believed

750

00:27:07,029 --> 00:27:05,039

that and and also who would make a big

751

00:27:08,310 --> 00:27:07,039

deal if it was a crash weather balloon

752

00:27:10,310 --> 00:27:08,320

why the hell are we having all these

753

00:27:13,350 --> 00:27:10,320

deuce and a halves and tractor trailers

754

00:27:16,230 --> 00:27:13,360

rolling out to uh i'm corona new mexico

755

00:27:18,789 --> 00:27:16,240

which is like 90 miles from roswell

756

00:27:21,750 --> 00:27:18,799

uh to pick up a weather balloon and you

757

00:27:22,950 --> 00:27:21,760

know uh so i mean it's just absurd on

758

00:27:25,750 --> 00:27:22,960

his face but

759

00:27:28,070 --> 00:27:25,760

anyway i digress uh one thing i did want

760

00:27:31,350 --> 00:27:28,080

to say though is what you said though

761

00:27:33,750 --> 00:27:31,360

is uh about that that they feel like tim

762

00:27:35,990 --> 00:27:33,760

feels like he's one of us and and

763

00:27:38,310 --> 00:27:36,000

and kirsten does as well

764

00:27:40,230 --> 00:27:38,320

uh and that it's it's uh it's by

765

00:27:41,590 --> 00:27:40,240

political if you will

766

00:27:47,510 --> 00:27:41,600

is

767

00:27:50,230 --> 00:27:47,520

different background than myself as are

768

00:27:51,830 --> 00:27:50,240

you and and deb also is from a

769

00:27:53,669 --> 00:27:51,840

completely different background than

770

00:27:55,909 --> 00:27:53,679

three of us and i'd like to say to

771

00:27:58,070 --> 00:27:55,919

people that these folks like uh whether

772

00:28:01,909 --> 00:27:58,080

you're talking about a richard butt or a

773

00:28:04,710 --> 00:28:01,919

lou elizondo or dan warren uh i you know

774

00:28:07,430 --> 00:28:04,720

lou elizondo is you as it as it relates

775

00:28:10,389 --> 00:28:07,440

to ufology dan warren is you nathan is

776

00:28:13,110 --> 00:28:10,399

you exo is you i'm you

777

00:28:13,990 --> 00:28:13,120

there's not we're all after the same

778

00:28:16,549 --> 00:28:14,000

thing

779

00:28:17,750 --> 00:28:16,559

deb is you you know there's not a well

780

00:28:19,190 --> 00:28:17,760

there's this group and then there's that

781

00:28:21,430 --> 00:28:19,200

group and this group's trying to no

782

00:28:24,710 --> 00:28:21,440

we're all trying to figure out what's

783

00:28:28,710 --> 00:28:27,029

a rising tide lifts all boats like we're

784

00:28:30,310 --> 00:28:28,720

all trying to get answers we're all

785

00:28:32,549 --> 00:28:30,320

trying to figure this out and we're

786

00:28:35,430 --> 00:28:32,559

taking different paths to try to get to

787

00:28:36,870 --> 00:28:35,440

the same endpoint and

788

00:28:38,389 --> 00:28:36,880

we all have our different journeys in

789

00:28:40,789 --> 00:28:38,399

life and we're all taking different

790

00:28:42,470 --> 00:28:40,799

journeys in the ufo

791

00:28:44,789 --> 00:28:42,480

analysis like we're trying to figure

792

00:28:46,870 --> 00:28:44,799

this out there's no us and them is the

793

00:28:49,110 --> 00:28:46,880

point though lou is one of us he wants

794

00:28:50,630 --> 00:28:49,120

to know too you know except for stephen

795

00:28:52,549 --> 00:28:50,640

green street shout out to steven's green

796

00:28:55,750 --> 00:28:52,559

street

797

00:28:57,430 --> 00:28:55,760

i think he wants it's drones

798

00:28:59,430 --> 00:28:57,440

i love you steven

799

00:29:01,269 --> 00:28:59,440

i think he wants to be convinced that's

800

00:29:04,230 --> 00:29:01,279

what it is oh yeah i mean i can't fault

801  
00:29:07,029 --> 00:29:04,240  
the guy like he's he's asking hard

802  
00:29:09,830 --> 00:29:07,039  
questions that are not getting answered

803  
00:29:11,990 --> 00:29:09,840  
i can't fault the guy for asking

804  
00:29:14,870 --> 00:29:12,000  
are we gonna let people

805  
00:29:17,029 --> 00:29:14,880  
society nathan has a hypothesis on this

806  
00:29:18,789 --> 00:29:17,039  
nathan you ready before no i'm not going

807  
00:29:20,230 --> 00:29:18,799  
to go there okay don't do it okay all

808  
00:29:21,830 --> 00:29:20,240  
right go ahead

809  
00:29:24,549 --> 00:29:21,840  
okay so

810  
00:29:25,990 --> 00:29:24,559  
and it was a combination of like my own

811  
00:29:28,310 --> 00:29:26,000  
research because you know we really do

812  
00:29:30,630 --> 00:29:28,320  
go on a journey and you know listening

813  
00:29:33,269 --> 00:29:30,640

to dr prizolka

814

00:29:36,549 --> 00:29:33,279

on vinnie's show i was thinking about

815

00:29:38,870 --> 00:29:36,559

how often religions and cultures have

816

00:29:40,549 --> 00:29:38,880

parallel things going on

817

00:29:41,990 --> 00:29:40,559

um do you think that there's a

818

00:29:44,870 --> 00:29:42,000

possibility

819

00:29:47,029 --> 00:29:44,880

that the inheritance model of an ancient

820

00:29:49,750 --> 00:29:47,039

civilization is true

821

00:29:51,510 --> 00:29:49,760

it also is reflected in our religion and

822

00:29:53,350 --> 00:29:51,520

that might explain

823

00:29:55,669 --> 00:29:53,360

the possibility of

824

00:29:57,110 --> 00:29:55,679

ultra terrestrials as mentioned by hal

825

00:29:59,830 --> 00:29:57,120

put off

826

00:30:02,630 --> 00:29:59,840

i think it very well could be um if you

827

00:30:04,789 --> 00:30:02,640

look at the megalithic record which is

828

00:30:08,070 --> 00:30:04,799

just the large stone construction that's

829

00:30:10,789 --> 00:30:08,080

occurred in humanities past the most the

830

00:30:13,669 --> 00:30:10,799

largest stones the most elaborate work

831

00:30:15,990 --> 00:30:13,679

is the earliest it sits on the bottom

832

00:30:18,470 --> 00:30:16,000

other civilizations basically found

833

00:30:20,230 --> 00:30:18,480

those sites inherited those sites

834

00:30:22,149 --> 00:30:20,240

built upon them

835

00:30:23,990 --> 00:30:22,159

the question i have is why did those

836

00:30:25,590 --> 00:30:24,000

original builders pick that location

837

00:30:28,389 --> 00:30:25,600

what was the significance of that

838

00:30:30,310 --> 00:30:28,399

location or if it had some significance

839

00:30:31,510 --> 00:30:30,320

why would you build on the top of machu

840

00:30:33,830 --> 00:30:31,520

picchu

841

00:30:36,149 --> 00:30:33,840

with these giant stones and that is in

842

00:30:38,310 --> 00:30:36,159

my opinion if you guys don't know go

843

00:30:40,710 --> 00:30:38,320

look up a brian forrester video on

844

00:30:41,990 --> 00:30:40,720

youtube about machu picchu and you're

845

00:30:44,070 --> 00:30:42,000

going to be blown away you're going to

846

00:30:45,990 --> 00:30:44,080

find out that there's three different

847

00:30:48,149 --> 00:30:46,000

levels of

848

00:30:50,389 --> 00:30:48,159

techniques building techniques that took

849

00:30:53,190 --> 00:30:50,399

place in that same location and the

850

00:30:54,789 --> 00:30:53,200

oldest stuff is the most amazing it's

851  
00:30:55,750 --> 00:30:54,799  
just it blows my mind so there's

852  
00:30:58,070 --> 00:30:55,760  
something

853  
00:30:59,029 --> 00:30:58,080  
we were handed this information those

854  
00:31:01,350 --> 00:30:59,039  
sites

855  
00:31:02,870 --> 00:31:01,360  
we we built upon them for obvious

856  
00:31:04,710 --> 00:31:02,880  
reasons they were there

857  
00:31:06,470 --> 00:31:04,720  
they were picked because there was value

858  
00:31:07,990 --> 00:31:06,480  
in that location for resources or

859  
00:31:09,990 --> 00:31:08,000  
whatever it was

860  
00:31:11,350 --> 00:31:10,000  
um and the same could be true in my

861  
00:31:13,590 --> 00:31:11,360  
opinion for

862  
00:31:15,430 --> 00:31:13,600  
religion like maybe we didn't understand

863  
00:31:17,509 --> 00:31:15,440

why people

864

00:31:19,509 --> 00:31:17,519

worship the way that they did we we

865

00:31:21,509 --> 00:31:19,519

heard about it we interpreted it the way

866

00:31:23,269 --> 00:31:21,519

that we could and i don't want to even

867

00:31:25,190 --> 00:31:23,279

say anything about this because nathan's

868

00:31:26,950 --> 00:31:25,200

in on the panel and he's gonna he's

869

00:31:29,830 --> 00:31:26,960

gonna tell me where i'm wrong that's

870

00:31:32,389 --> 00:31:29,840

fine but but the but the religion in my

871

00:31:35,110 --> 00:31:32,399

opinion that jumps out to me as

872

00:31:38,149 --> 00:31:35,120

what's up with those guys is the indian

873

00:31:41,029 --> 00:31:38,159

religion the the gods that they had

874

00:31:43,990 --> 00:31:41,039

it's just phenomenal their their history

875

00:31:46,149 --> 00:31:44,000

their religious history is

876

00:31:47,590 --> 00:31:46,159

aliens and that's there's no other way

877

00:31:49,269 --> 00:31:47,600

to talk about extraterrestrials that

878

00:31:53,110 --> 00:31:49,279

came to earth and they had blue skin and

879

00:31:55,590 --> 00:31:53,120

four arms and or however many arms um it

880

00:31:57,750 --> 00:31:55,600

why was that so significant

881

00:31:59,750 --> 00:31:57,760

why is it that chris bledsoe

882

00:32:02,230 --> 00:31:59,760

was visited by the lady and she told

883

00:32:05,190 --> 00:32:02,240

them that her name was hathor who is a

884

00:32:07,669 --> 00:32:05,200

egyptian god so

885

00:32:09,509 --> 00:32:07,679

why did lou elizondo make the cigarette

886

00:32:12,389 --> 00:32:09,519

analogy where he said some beings

887

00:32:15,430 --> 00:32:12,399

experience time differently than we do

888

00:32:17,590 --> 00:32:15,440

maybe there are some cree some beings

889

00:32:19,269 --> 00:32:17,600

that ex that have a longer

890

00:32:20,549 --> 00:32:19,279

existence than we do that we don't

891

00:32:22,950 --> 00:32:20,559

understand

892

00:32:23,990 --> 00:32:22,960

so it could be that

893

00:32:26,070 --> 00:32:24,000

hathor

894

00:32:28,870 --> 00:32:26,080

that chris bledsoe met

895

00:32:31,350 --> 00:32:28,880

is the same hathor from egypt that they

896

00:32:33,190 --> 00:32:31,360

depicted on the walls of her temple so

897

00:32:34,549 --> 00:32:33,200

it to me there there could be some

898

00:32:36,789 --> 00:32:34,559

hand-me-down

899

00:32:37,990 --> 00:32:36,799

religious context associated with it

900

00:32:39,669 --> 00:32:38,000

that

901  
00:32:42,549 --> 00:32:39,679  
i want to know about

902  
00:32:44,710 --> 00:32:42,559  
that's where i think um what does it

903  
00:32:47,269 --> 00:32:44,720  
mean to be a human

904  
00:32:48,710 --> 00:32:47,279  
really comes into play like why why are

905  
00:32:50,630 --> 00:32:48,720  
we

906  
00:32:52,310 --> 00:32:50,640  
classifying ourselves as human what are

907  
00:32:53,990 --> 00:32:52,320  
these other things

908  
00:32:56,789 --> 00:32:54,000  
these things that

909  
00:32:58,789 --> 00:32:56,799  
may come as was it woosley or brennan

910  
00:33:01,029 --> 00:32:58,799  
that said these things may represent

911  
00:33:03,669 --> 00:33:01,039  
something we may recognize as something

912  
00:33:06,470 --> 00:33:03,679  
that's similar to life like what a vague

913  
00:33:08,470 --> 00:33:06,480

noncommittal statement to make right

914

00:33:11,110 --> 00:33:08,480

which is something which is something

915

00:33:13,350 --> 00:33:11,120

else that i've picked up on as a pattern

916

00:33:16,149 --> 00:33:13,360

so he basically got on that show and

917

00:33:18,310 --> 00:33:16,159

said there's something up there we don't

918

00:33:20,149 --> 00:33:18,320

really know exactly what it is

919

00:33:22,230 --> 00:33:20,159

lou elizondo recommended that we read

920

00:33:24,470 --> 00:33:22,240

the book chains of the sea

921

00:33:26,630 --> 00:33:24,480

what's that book about

922

00:33:29,590 --> 00:33:26,640

it's about multiple different possible

923

00:33:30,669 --> 00:33:29,600

origins of the uap uh phenomena

924

00:33:32,230 --> 00:33:30,679

including

925

00:33:34,310 --> 00:33:32,240

extraterrestrials

926

00:33:35,830 --> 00:33:34,320

something that is terrestrial in nature

927

00:33:38,950 --> 00:33:35,840

and has always been here and is more

928

00:33:40,549 --> 00:33:38,960

akin to the gin than humanity but we

929

00:33:42,870 --> 00:33:40,559

just can't perceive it

930

00:33:44,470 --> 00:33:42,880

how prudhoff goes on and talks about

931

00:33:46,549 --> 00:33:44,480

ultra-terrestrials

932

00:33:49,669 --> 00:33:46,559

which could be a variety of different

933

00:33:50,950 --> 00:33:49,679

origins including the ancient race of

934

00:33:52,710 --> 00:33:50,960

humanity

935

00:33:55,430 --> 00:33:52,720

that

936

00:33:57,190 --> 00:33:55,440

are there's only remnants left of which

937

00:33:58,710 --> 00:33:57,200

leads to the crypto-terrestrial

938

00:34:00,549 --> 00:33:58,720

hypothesis so

939

00:34:03,190 --> 00:34:00,559

it's all intertwined and this is where i

940

00:34:04,549 --> 00:34:03,200

just feel like we don't know and if you

941

00:34:06,470 --> 00:34:04,559

listen to the guys that were talking

942

00:34:08,149 --> 00:34:06,480

about this back in the 60s

943

00:34:09,669 --> 00:34:08,159

they sound like they could be on this

944

00:34:11,589 --> 00:34:09,679

podcast today

945

00:34:13,349 --> 00:34:11,599

they'd say the exact same thing today

946

00:34:14,790 --> 00:34:13,359

that they did back in the 60s i don't

947

00:34:17,190 --> 00:34:14,800

think that

948

00:34:18,950 --> 00:34:17,200

we as as species

949

00:34:20,389 --> 00:34:18,960

has the ability to understand what we're

950

00:34:21,909 --> 00:34:20,399

dealing with yet

951  
00:34:23,430 --> 00:34:21,919  
i'm hoping that we get there at some

952  
00:34:24,550 --> 00:34:23,440  
point but i don't think we understand

953  
00:34:26,550 --> 00:34:24,560  
what it is

954  
00:34:28,790 --> 00:34:26,560  
jacques volley said et's are too simple

955  
00:34:31,349 --> 00:34:28,800  
of an answer i'm going to have to go

956  
00:34:32,790 --> 00:34:31,359  
with him on this one for the moment

957  
00:34:34,310 --> 00:34:32,800  
one thing i'm going to say i want to say

958  
00:34:36,629 --> 00:34:34,320  
two things first of all nathan can you

959  
00:34:37,750 --> 00:34:36,639  
please send dan a check just for that

960  
00:34:39,909 --> 00:34:37,760  
last

961  
00:34:41,270 --> 00:34:39,919  
segment alone absolutely send him a

962  
00:34:44,550 --> 00:34:41,280  
check

963  
00:34:45,349 --> 00:34:44,560

on the way all right um and dan the only

964

00:34:46,950 --> 00:34:45,359

thing

965

00:34:50,869 --> 00:34:46,960

the only part i

966

00:34:52,629 --> 00:34:50,879

i think our capacity for understanding

967

00:34:53,349 --> 00:34:52,639

is is great

968

00:34:57,109 --> 00:34:53,359

but

969

00:34:58,069 --> 00:34:57,119

if i were to ask you to just know

970

00:35:00,710 --> 00:34:58,079

as

971

00:35:03,270 --> 00:35:00,720

somebody out of the womb so to speak how

972

00:35:05,109 --> 00:35:03,280

to do advanced mathematics without

973

00:35:07,670 --> 00:35:05,119

someone to stand at the blackboard and

974

00:35:09,510 --> 00:35:07,680

say dan this is how it goes you see i'm

975

00:35:11,670 --> 00:35:09,520

going to write out this equation and

976

00:35:14,950 --> 00:35:11,680

then maybe you could pick it up i feel

977

00:35:16,550 --> 00:35:14,960

like if if we had contact where their

978

00:35:19,510 --> 00:35:16,560

aim or their goal

979

00:35:22,069 --> 00:35:19,520

was to have us to understand i believe

980

00:35:24,950 --> 00:35:22,079

and this is maybe complete naivete on my

981

00:35:27,190 --> 00:35:24,960

part so let me just say that i believe

982

00:35:29,990 --> 00:35:27,200

we would have the capacity to understand

983

00:35:32,230 --> 00:35:30,000

if they wanted to explain the nature of

984

00:35:34,230 --> 00:35:32,240

their origin to us

985

00:35:37,190 --> 00:35:34,240

so i'm gonna go with

986

00:35:40,950 --> 00:35:37,200

what i feel like you're describing is

987

00:35:42,390 --> 00:35:40,960

if they gave if they gifted us a craft

988

00:35:44,310 --> 00:35:42,400

that wouldn't

989

00:35:46,310 --> 00:35:44,320

explain it to us like sit they wouldn't

990

00:35:48,230 --> 00:35:46,320

be sitting in front of a chalkboard

991

00:35:50,790 --> 00:35:48,240

teaching us their technology but they

992

00:35:52,710 --> 00:35:50,800

would say hey look this is a craft it

993

00:35:55,270 --> 00:35:52,720

can do amazing things

994

00:35:57,190 --> 00:35:55,280

don't give up keep trying

995

00:35:59,430 --> 00:35:57,200

learn for yourself and that's how i view

996

00:36:01,910 --> 00:35:59,440

the ufo topic as far as

997

00:36:04,470 --> 00:36:01,920

educating people about it i'm not gonna

998

00:36:06,870 --> 00:36:04,480

sit there and try to convince you that

999

00:36:08,630 --> 00:36:06,880

the ufo that ufos are real what i'm

1000

00:36:10,829 --> 00:36:08,640

gonna do is i'm gonna say hey

1001  
00:36:13,910 --> 00:36:10,839  
here's some information that i found

1002  
00:36:15,990 --> 00:36:13,920  
compelling look into it yourself make

1003  
00:36:17,990 --> 00:36:16,000  
think for yourself and make up your own

1004  
00:36:19,910 --> 00:36:18,000  
mind as to if you think this is

1005  
00:36:22,150 --> 00:36:19,920  
something that's worthwhile digging into

1006  
00:36:23,910 --> 00:36:22,160  
deeper and if it is

1007  
00:36:26,150 --> 00:36:23,920  
man there's so much more for you to find

1008  
00:36:28,630 --> 00:36:26,160  
your your learning journey has just

1009  
00:36:31,829 --> 00:36:28,640  
begun so that's that's my goal with my

1010  
00:36:34,710 --> 00:36:31,839  
tick tock channel is to get people

1011  
00:36:37,430 --> 00:36:34,720  
to to hook them with that curiosity bug

1012  
00:36:39,829 --> 00:36:37,440  
that what if uh

1013  
00:36:42,230 --> 00:36:39,839

question that that has been bouncing

1014

00:36:43,910 --> 00:36:42,240

around in my head like a ping-pong ball

1015

00:36:46,470 --> 00:36:43,920

and a glass jar

1016

00:36:47,990 --> 00:36:46,480

for 43 years

1017

00:36:49,990 --> 00:36:48,000

wow well you answered christopher

1018

00:36:52,069 --> 00:36:50,000

sharp's second question so thank you i

1019

00:36:54,230 --> 00:36:52,079

don't remember what it was no that was

1020

00:36:56,630 --> 00:36:54,240

it he wanted to kind of know so what you

1021

00:36:57,990 --> 00:36:56,640

just said about i i go to tick tock i'm

1022

00:37:00,069 --> 00:36:58,000

going to put the i'm not going to tell

1023

00:37:01,190 --> 00:37:00,079

you you need to believe this which is

1024

00:37:03,270 --> 00:37:01,200

which is the

1025

00:37:05,030 --> 00:37:03,280

in my view it's the right stance i don't

1026  
00:37:06,550 --> 00:37:05,040  
have to make you believe anything or

1027  
00:37:08,870 --> 00:37:06,560  
convince you of anything

1028  
00:37:11,030 --> 00:37:08,880  
uh i'm this is what i found out if you

1029  
00:37:12,870 --> 00:37:11,040  
want to take this information in great

1030  
00:37:14,630 --> 00:37:12,880  
if you don't have a great day

1031  
00:37:16,470 --> 00:37:14,640  
nathan i think you're next

1032  
00:37:18,310 --> 00:37:16,480  
yeah well i i i mean just on the

1033  
00:37:22,870 --> 00:37:18,320  
megalithic thing and and kind of the

1034  
00:37:25,270 --> 00:37:22,880  
overall human story right um i i i feel

1035  
00:37:26,470 --> 00:37:25,280  
as if what we're learning is how much we

1036  
00:37:29,270 --> 00:37:26,480  
don't know

1037  
00:37:31,829 --> 00:37:29,280  
you know and and this topic is very good

1038  
00:37:32,790 --> 00:37:31,839

at i think exposing how much we don't

1039

00:37:37,030 --> 00:37:32,800

know

1040

00:37:40,710 --> 00:37:37,040

our kind of western conception of

1041

00:37:42,870 --> 00:37:40,720

history and ancient history archaeology

1042

00:37:44,470 --> 00:37:42,880

all these kind of subjects that

1043

00:37:46,150 --> 00:37:44,480

you know you and i we were born into

1044

00:37:47,829 --> 00:37:46,160

just thinking like oh we kind of figured

1045

00:37:49,990 --> 00:37:47,839

this stuff out and we had these

1046

00:37:51,990 --> 00:37:50,000

disciplines and it all makes sense and

1047

00:37:53,349 --> 00:37:52,000

they're very thoughtful and and well you

1048

00:37:54,390 --> 00:37:53,359

know orchestrated or whatever and they

1049

00:37:56,550 --> 00:37:54,400

have these systems and they're

1050

00:37:58,470 --> 00:37:56,560

explaining our history and it's all very

1051

00:38:00,150 --> 00:37:58,480

neat and tidy and the truth of the

1052

00:38:03,270 --> 00:38:00,160

matter is like we're really just in our

1053

00:38:05,750 --> 00:38:03,280

infancy and we've thrown a narrative at

1054

00:38:07,829 --> 00:38:05,760

the wall here that you know has done a

1055

00:38:10,310 --> 00:38:07,839

decent job explaining

1056

00:38:11,910 --> 00:38:10,320

our past but the more that we dig the

1057

00:38:13,670 --> 00:38:11,920

more that we look around the more we

1058

00:38:15,270 --> 00:38:13,680

kind of have to go wait a minute i don't

1059

00:38:17,589 --> 00:38:15,280

know if that narrative

1060

00:38:20,550 --> 00:38:17,599

quite fits the facts and i think the

1061

00:38:23,270 --> 00:38:20,560

mega the megalithic structures to me

1062

00:38:24,950 --> 00:38:23,280

really highlight that in in the kind of

1063

00:38:26,790 --> 00:38:24,960

and start deep detail you know how do

1064

00:38:29,190 --> 00:38:26,800

you have all of these incredible

1065

00:38:30,550 --> 00:38:29,200

structures around the world and just

1066

00:38:32,470 --> 00:38:30,560

sort of say well i mean the ancient

1067

00:38:33,910 --> 00:38:32,480

people they were just you know really

1068

00:38:35,270 --> 00:38:33,920

they really liked building this stuff

1069

00:38:36,470 --> 00:38:35,280

and they just put a lot of people to it

1070

00:38:38,150 --> 00:38:36,480

and they all kind of figured out these

1071

00:38:39,270 --> 00:38:38,160

techniques and yeah we don't know how to

1072

00:38:40,870 --> 00:38:39,280

do it but i mean they were all just

1073

00:38:42,069 --> 00:38:40,880

doing at the same time even though by

1074

00:38:43,750 --> 00:38:42,079

the way they didn't actually have any

1075

00:38:46,069 --> 00:38:43,760

connection with each other they didn't i

1076

00:38:47,750 --> 00:38:46,079

mean none of that really makes any sense

1077

00:38:50,870 --> 00:38:47,760

yeah exactly in

1078

00:38:53,190 --> 00:38:50,880

incredibly hard stone and yeah

1079

00:38:55,589 --> 00:38:53,200

there's tool marks on the granite that

1080

00:38:57,430 --> 00:38:55,599

can't be explained by pounding one rock

1081

00:38:58,710 --> 00:38:57,440

with another like there's just things

1082

00:39:00,950 --> 00:38:58,720

that oh

1083

00:39:02,550 --> 00:39:00,960

it's the anomalies that we're finding

1084

00:39:05,190 --> 00:39:02,560

that make us question

1085

00:39:07,750 --> 00:39:05,200

the narrative the historical narrative

1086

00:39:09,589 --> 00:39:07,760

of humanity just like it is the

1087

00:39:11,190 --> 00:39:09,599

anomalies that we're finding in our

1088

00:39:14,470 --> 00:39:11,200

skies right now that are making us

1089

00:39:15,910 --> 00:39:14,480

question our reality yeah for sure and

1090

00:39:17,349 --> 00:39:15,920

so what do you think

1091

00:39:19,030 --> 00:39:17,359

you know if you were to kind of peer

1092

00:39:20,630 --> 00:39:19,040

into the crystal ball a little bit into

1093

00:39:22,630 --> 00:39:20,640

the next hundred years

1094

00:39:23,990 --> 00:39:22,640

obviously we can kind of speculate a lot

1095

00:39:25,510 --> 00:39:24,000

here but

1096

00:39:27,270 --> 00:39:25,520

you know what do you think that this

1097

00:39:29,510 --> 00:39:27,280

means for the stories that we take for

1098

00:39:31,430 --> 00:39:29,520

granted today i mean how much reworking

1099

00:39:34,230 --> 00:39:31,440

are we going to see happen as this

1100

00:39:35,270 --> 00:39:34,240

continues to uh unfold and run its

1101  
00:39:37,109 --> 00:39:35,280  
course

1102  
00:39:39,190 --> 00:39:37,119  
so there's what i think and then there's

1103  
00:39:40,470 --> 00:39:39,200  
what i hope for let's see

1104  
00:39:42,870 --> 00:39:40,480  
um

1105  
00:39:44,710 --> 00:39:42,880  
i heard this this is it's gonna go i'm

1106  
00:39:47,750 --> 00:39:44,720  
gonna go dark first

1107  
00:39:49,030 --> 00:39:47,760  
so um and then i'll i'll brighten it up

1108  
00:39:50,550 --> 00:39:49,040  
but the

1109  
00:39:52,710 --> 00:39:50,560  
statement that i heard that has stuck

1110  
00:39:56,069 --> 00:39:52,720  
with me like if you want to envision the

1111  
00:39:59,270 --> 00:39:56,079  
future just envision a boot on a skull

1112  
00:40:01,910 --> 00:39:59,280  
and that's the future of humanity and

1113  
00:40:03,109 --> 00:40:01,920

unfortunately i have to believe that

1114

00:40:05,109 --> 00:40:03,119

based on

1115

00:40:07,190 --> 00:40:05,119

past being an indicator of the future

1116

00:40:08,390 --> 00:40:07,200

i've seen that movie too by the way yeah

1117

00:40:10,470 --> 00:40:08,400

yeah

1118

00:40:13,349 --> 00:40:10,480

so my hopes

1119

00:40:15,670 --> 00:40:13,359

my hope is that what we find out is that

1120

00:40:17,589 --> 00:40:15,680

just like graham hancock has said

1121

00:40:19,349 --> 00:40:17,599

many many times that we are a species

1122

00:40:22,309 --> 00:40:19,359

with amnesia

1123

00:40:24,710 --> 00:40:22,319

that our historical record has been

1124

00:40:26,710 --> 00:40:24,720

wiped off the face of the earth think of

1125

00:40:29,030 --> 00:40:26,720

noah's flood it's it's in multiple

1126  
00:40:30,790 --> 00:40:29,040  
different uh religions and documents

1127  
00:40:33,430 --> 00:40:30,800  
around the world if you look into the

1128  
00:40:35,510 --> 00:40:33,440  
work of randall carlson who actually met

1129  
00:40:38,069 --> 00:40:35,520  
a few weeks ago and i'll tell you right

1130  
00:40:40,470 --> 00:40:38,079  
now i was i was shaking like a leaf

1131  
00:40:43,190 --> 00:40:40,480  
nervous because like he is one of those

1132  
00:40:45,670 --> 00:40:43,200  
guys to me that is my wife has no idea

1133  
00:40:47,030 --> 00:40:45,680  
who he is but i'm just like i'm fanning

1134  
00:40:50,150 --> 00:40:47,040  
out is

1135  
00:40:52,470 --> 00:40:50,160  
i was so nervous to meet him um but he

1136  
00:40:54,950 --> 00:40:52,480  
has found all the evidence in the

1137  
00:40:58,390 --> 00:40:54,960  
geographical record in the channel scab

1138  
00:41:02,069 --> 00:40:58,400

lands of washington of an enormous flood

1139

00:41:04,550 --> 00:41:02,079

not a gradual deterioration of the

1140

00:41:07,109 --> 00:41:04,560

strata that that we see on the surface

1141

00:41:08,069 --> 00:41:07,119

of the earth but a sudden catastrophic

1142

00:41:09,430 --> 00:41:08,079

event

1143

00:41:11,190 --> 00:41:09,440

so what i think is going to happen in

1144

00:41:12,550 --> 00:41:11,200

the next 100 years is that we're going

1145

00:41:15,589 --> 00:41:12,560

to confirm

1146

00:41:18,230 --> 00:41:15,599

that we as a species have been subjected

1147

00:41:21,590 --> 00:41:18,240

to numerous catastrophic events that

1148

00:41:23,349 --> 00:41:21,600

have reset us and demolished our

1149

00:41:25,910 --> 00:41:23,359

[Music]

1150

00:41:28,309 --> 00:41:25,920

current civilizations but we retained

1151

00:41:29,990 --> 00:41:28,319

the core story through verbal

1152

00:41:33,430 --> 00:41:30,000

communications

1153

00:41:35,750 --> 00:41:33,440

through finding these these locations

1154

00:41:37,589 --> 00:41:35,760

that have these structures that we

1155

00:41:40,230 --> 00:41:37,599

aren't able to to

1156

00:41:41,670 --> 00:41:40,240

make ourselves so we decided to build on

1157

00:41:43,030 --> 00:41:41,680

them we decided to try to replicate them

1158

00:41:45,910 --> 00:41:43,040

we try to

1159

00:41:49,109 --> 00:41:45,920

add hieroglyphs to them to to make them

1160

00:41:51,190 --> 00:41:49,119

ours to add our little piece to this

1161

00:41:52,950 --> 00:41:51,200

slice of history

1162

00:41:55,349 --> 00:41:52,960

that's what i'm hoping for in the next

1163

00:41:57,670 --> 00:41:55,359

100 years is that we recognize that as a

1164

00:42:00,150 --> 00:41:57,680

society that hey

1165

00:42:03,030 --> 00:42:00,160

existence is fleeting on earth

1166

00:42:04,470 --> 00:42:03,040

an asteroid to come and wreck our

1167

00:42:06,390 --> 00:42:04,480

civilization

1168

00:42:07,510 --> 00:42:06,400

um one one thing that i've heard people

1169

00:42:10,870 --> 00:42:07,520

talk about

1170

00:42:12,950 --> 00:42:10,880

with the time traveler the hypothesis

1171

00:42:14,790 --> 00:42:12,960

is they'll say well why would a

1172

00:42:17,349 --> 00:42:14,800

highly advanced human want to come back

1173

00:42:20,069 --> 00:42:17,359

and find out our history when they know

1174

00:42:22,950 --> 00:42:20,079

it already and to me

1175

00:42:25,030 --> 00:42:22,960

i refer to the the fact that a

1176  
00:42:26,870 --> 00:42:25,040  
technological society is going to be the

1177  
00:42:30,150 --> 00:42:26,880  
easiest one to erase

1178  
00:42:32,630 --> 00:42:30,160  
like there's there's all these podcast

1179  
00:42:36,069 --> 00:42:32,640  
tweets that we make they're gonna vanish

1180  
00:42:37,829 --> 00:42:36,079  
with a power outage with a emp we're not

1181  
00:42:39,430 --> 00:42:37,839  
gonna exist those records aren't gonna

1182  
00:42:41,510 --> 00:42:39,440  
exist they could be easily wiped from

1183  
00:42:43,270 --> 00:42:41,520  
the record a thousand years from now of

1184  
00:42:45,270 --> 00:42:43,280  
course they're gonna be gone if if

1185  
00:42:47,190 --> 00:42:45,280  
something had happened stone's going to

1186  
00:42:48,790 --> 00:42:47,200  
last longer that's going to be part of

1187  
00:42:50,950 --> 00:42:48,800  
the record that we're going to see

1188  
00:42:51,750 --> 00:42:50,960

i think the landfills are going to be

1189

00:42:55,349 --> 00:42:51,760

our

1190

00:42:56,950 --> 00:42:55,359

uh contribution to the future to history

1191

00:42:58,390 --> 00:42:56,960

yeah yeah that's where that's where

1192

00:43:00,470 --> 00:42:58,400

they're gonna they're gonna root through

1193

00:43:01,910 --> 00:43:00,480

our landfills and try to figure us out

1194

00:43:03,030 --> 00:43:01,920

based on our trash

1195

00:43:04,309 --> 00:43:03,040

yeah

1196

00:43:06,550 --> 00:43:04,319

now they're gonna find out how much my

1197

00:43:09,430 --> 00:43:06,560

hip surgery cost in that case

1198

00:43:12,950 --> 00:43:11,510

anyway no this is fascinating and by the

1199

00:43:15,430 --> 00:43:12,960

way it made me think that when we have

1200

00:43:17,750 --> 00:43:15,440

dr michael masters on we should have dan

1201

00:43:20,150 --> 00:43:17,760

back on because i have a feeling that

1202

00:43:23,670 --> 00:43:20,160

you guys would have a great dialogue

1203

00:43:25,589 --> 00:43:23,680

um and debs uh i think it's your turn my

1204

00:43:27,190 --> 00:43:25,599

friend yeah i actually think it's so

1205

00:43:28,870 --> 00:43:27,200

weird that you were talking about that

1206

00:43:32,230 --> 00:43:28,880

because i was watching the national

1207

00:43:34,309 --> 00:43:32,240

geographic special about moving the

1208

00:43:36,309 --> 00:43:34,319

ocean aside to see what's underneath and

1209

00:43:39,589 --> 00:43:36,319

the ancient civilizations that are

1210

00:43:41,430 --> 00:43:39,599

actually being found in the ocean so i

1211

00:43:43,910 --> 00:43:41,440

was i was looking for atlantis of course

1212

00:43:47,109 --> 00:43:43,920

but that's i think it's fictitious but

1213

00:43:49,750 --> 00:43:47,119

um i wanted to ask if you had heard

1214

00:43:51,190 --> 00:43:49,760

about the mini hominids

1215

00:43:53,349 --> 00:43:51,200

because i know you're interested a

1216

00:43:55,109 --> 00:43:53,359

little bit

1217

00:43:57,510 --> 00:43:55,119

is that incredibly there's there's two

1218

00:43:59,990 --> 00:43:57,520

now there's one that was off of the

1219

00:44:01,910 --> 00:44:00,000

island uh hold on i wrote this in in

1220

00:44:03,750 --> 00:44:01,920

indonesia and one yes that's the one i'm

1221

00:44:07,030 --> 00:44:03,760

familiar with and the one one in the

1222

00:44:09,270 --> 00:44:07,040

philippines and they just happen to be

1223

00:44:11,270 --> 00:44:09,280

the same size as what we talked about

1224

00:44:13,190 --> 00:44:11,280

when we talk about the grays

1225

00:44:16,390 --> 00:44:13,200

don't you think that's peculiar they're

1226

00:44:17,750 --> 00:44:16,400

about 3.5 to 4 feet tall

1227

00:44:19,990 --> 00:44:17,760

and we

1228

00:44:21,510 --> 00:44:20,000

i i just think that that's something

1229

00:44:23,589 --> 00:44:21,520

people should be investigating there's

1230

00:44:24,710 --> 00:44:23,599

lots of stories in our folklore about

1231

00:44:26,390 --> 00:44:24,720

fairies

1232

00:44:28,550 --> 00:44:26,400

and little people

1233

00:44:31,109 --> 00:44:28,560

and you know sprites and things like

1234

00:44:33,829 --> 00:44:31,119

that so what what is your input on

1235

00:44:35,670 --> 00:44:33,839

the hominids

1236

00:44:37,349 --> 00:44:35,680

i just want to say that james is

1237

00:44:39,750 --> 00:44:37,359

referred to both nathan and i as that

1238

00:44:42,470 --> 00:44:39,760

species so this is a bit of a sensitive

1239

00:44:45,270 --> 00:44:42,480

topic right now oh i'm very sorry i'm

1240

00:44:47,270 --> 00:44:45,280

pretty sure you're not 3.5 feet tall

1241

00:44:49,750 --> 00:44:47,280

though okay

1242

00:44:52,550 --> 00:44:49,760

so it's almost like those species of

1243

00:44:55,190 --> 00:44:52,560

humanity would have a vested interest in

1244

00:44:57,430 --> 00:44:55,200

avoiding contact with us and relying on

1245

00:44:58,390 --> 00:44:57,440

stealth to survive

1246

00:45:00,069 --> 00:44:58,400

so

1247

00:45:01,829 --> 00:45:00,079

if you

1248

00:45:04,069 --> 00:45:01,839

which is i'm alluding to the

1249

00:45:04,870 --> 00:45:04,079

crypto-terrestrial hypothesis so it

1250

00:45:07,670 --> 00:45:04,880

could

1251  
00:45:10,150 --> 00:45:07,680  
very well be that in our ancient past at

1252  
00:45:11,829 --> 00:45:10,160  
some point there have been

1253  
00:45:14,150 --> 00:45:11,839  
hominids that

1254  
00:45:16,550 --> 00:45:14,160  
relied on stealth relied on

1255  
00:45:18,710 --> 00:45:16,560  
staying out of our way more or less to

1256  
00:45:21,270 --> 00:45:18,720  
survive and that could be

1257  
00:45:22,710 --> 00:45:21,280  
because they're smaller than us or

1258  
00:45:24,470 --> 00:45:22,720  
something that would

1259  
00:45:26,550 --> 00:45:24,480  
require them to do it the one of the

1260  
00:45:30,390 --> 00:45:26,560  
things that blows my mind is looking at

1261  
00:45:32,630 --> 00:45:30,400  
the elongated skulls of paracas

1262  
00:45:33,750 --> 00:45:32,640  
those things looked pathetically weak

1263  
00:45:35,829 --> 00:45:33,760

like if you look at them they're like

1264

00:45:36,950 --> 00:45:35,839

man those things couldn't put up with me

1265

00:45:38,950 --> 00:45:36,960

in a fight

1266

00:45:41,589 --> 00:45:38,960

their brains were

1267

00:45:43,430 --> 00:45:41,599

25 larger than us their eye sockets were

1268

00:45:44,710 --> 00:45:43,440

50 larger than us

1269

00:45:46,630 --> 00:45:44,720

maybe they lived in a different

1270

00:45:47,910 --> 00:45:46,640

environment than we do

1271

00:45:50,870 --> 00:45:47,920

than we did

1272

00:45:51,750 --> 00:45:50,880

so maybe that's how they survived they

1273

00:45:53,829 --> 00:45:51,760

it's

1274

00:45:55,670 --> 00:45:53,839

i'm of the opinion that what happened

1275

00:45:58,950 --> 00:45:55,680

was they came from the black seas they

1276

00:46:01,109 --> 00:45:58,960

made it to peru made it to barakas

1277

00:46:03,190 --> 00:46:01,119

they decided to try to

1278

00:46:06,390 --> 00:46:03,200

live amongst the people there

1279

00:46:08,710 --> 00:46:06,400

and just like the neanderthal like

1280

00:46:11,109 --> 00:46:08,720

the two three of the four of us i'm not

1281

00:46:13,030 --> 00:46:11,119

sure about uw have neanderthal dna in

1282

00:46:15,510 --> 00:46:13,040

our genes

1283

00:46:16,309 --> 00:46:15,520

i have a lot apparently

1284

00:46:29,589 --> 00:46:16,319

the

1285

00:46:31,589 --> 00:46:29,599

were close enough to us genetically to

1286

00:46:33,109 --> 00:46:31,599

where they were able to breed with the

1287

00:46:34,870 --> 00:46:33,119

population there

1288

00:46:38,150 --> 00:46:34,880

and they just kind of

1289

00:46:40,309 --> 00:46:38,160

became part of the population so they

1290

00:46:42,390 --> 00:46:40,319

they had something

1291

00:46:45,030 --> 00:46:42,400

genetically different from us that was

1292

00:46:47,349 --> 00:46:45,040

bred out of their lineage at some point

1293

00:46:48,390 --> 00:46:47,359

and it was but where did they come from

1294

00:46:50,309 --> 00:46:48,400

why did they

1295

00:46:52,309 --> 00:46:50,319

why did everything that's so different

1296

00:46:54,069 --> 00:46:52,319

about those skulls exist in the first

1297

00:46:56,950 --> 00:46:54,079

place where

1298

00:46:59,349 --> 00:46:56,960

were they underground dwellers is what i

1299

00:47:00,710 --> 00:46:59,359

lean to and is that why we

1300

00:47:03,109 --> 00:47:00,720

wouldn't have ever found them if they

1301  
00:47:05,910 --> 00:47:03,119  
hadn't come out of hiding and tried to

1302  
00:47:07,750 --> 00:47:05,920  
live amongst the people of caracas

1303  
00:47:09,990 --> 00:47:07,760  
it's it's worth noting that with the

1304  
00:47:11,510 --> 00:47:10,000  
hominids that they were on islands and

1305  
00:47:14,230 --> 00:47:11,520  
with almost all the ancient

1306  
00:47:16,150 --> 00:47:14,240  
civilizations that have gone underwater

1307  
00:47:18,630 --> 00:47:16,160  
they were right next to the water like

1308  
00:47:20,069 --> 00:47:18,640  
an island so you know it kind of makes

1309  
00:47:21,829 --> 00:47:20,079  
you wonder everything's coming out of

1310  
00:47:24,069 --> 00:47:21,839  
the water now is there something we

1311  
00:47:26,069 --> 00:47:24,079  
missed i'm just very curious about that

1312  
00:47:28,549 --> 00:47:26,079  
i wish we knew all the answers

1313  
00:47:30,069 --> 00:47:28,559

and something to point out is uh during

1314

00:47:33,030 --> 00:47:30,079

the younger dryas

1315

00:47:36,069 --> 00:47:33,040

event where there was rapid heating the

1316

00:47:38,390 --> 00:47:36,079

sea levels rose 400 feet and i want to

1317

00:47:39,990 --> 00:47:38,400

say a thousand years i'm giving myself a

1318

00:47:41,430 --> 00:47:40,000

little buffer there i'm not exactly sure

1319

00:47:44,950 --> 00:47:41,440

how how long

1320

00:47:45,990 --> 00:47:44,960

i'm writing this down right 400 feet got

1321

00:47:47,670 --> 00:47:46,000

it

1322

00:47:49,349 --> 00:47:47,680

that that gets you basically to the

1323

00:47:51,270 --> 00:47:49,359

continental shelf

1324

00:47:53,510 --> 00:47:51,280

of all of the continents around the

1325

00:47:55,190 --> 00:47:53,520

world like indonesia

1326

00:47:57,190 --> 00:47:55,200

those areas were

1327

00:47:59,510 --> 00:47:57,200

there there was so much land that was

1328

00:48:01,910 --> 00:47:59,520

exposed and of course where are our

1329

00:48:04,069 --> 00:48:01,920

civilizations going to build themselves

1330

00:48:06,630 --> 00:48:04,079

when we first started to civilize would

1331

00:48:09,190 --> 00:48:06,640

be along the shoreline so

1332

00:48:12,549 --> 00:48:09,200

we've lost an enormous amount of our

1333

00:48:14,150 --> 00:48:12,559

history um that i want to get back

1334

00:48:16,230 --> 00:48:14,160

someday and so that's one of the things

1335

00:48:18,150 --> 00:48:16,240

that i hope for for the ufo uh

1336

00:48:21,109 --> 00:48:18,160

phenomenon is it'll be like oh yeah we

1337

00:48:23,030 --> 00:48:21,119

know that we hear some videos of what

1338

00:48:25,109 --> 00:48:23,040

happened twelve thousand five hundred

1339

00:48:27,349 --> 00:48:25,119

years ago

1340

00:48:29,829 --> 00:48:27,359

dan if only you read a little bit more

1341

00:48:32,710 --> 00:48:29,839

uh dude i'm telling you i don't read

1342

00:48:35,670 --> 00:48:32,720

more topics so if you could kind of i

1343

00:48:37,510 --> 00:48:35,680

absorbed via podcast youtube and well i

1344

00:48:39,430 --> 00:48:37,520

have read some of graham

1345

00:48:42,069 --> 00:48:39,440

i just feel like you just motivated me

1346

00:48:45,190 --> 00:48:42,079

to talk to aliens more i want to talk

1347

00:48:46,549 --> 00:48:45,200

about our history now yes debs you

1348

00:48:47,990 --> 00:48:46,559

should be i don't i can't believe you

1349

00:48:49,750 --> 00:48:48,000

haven't been doing this i can't believe

1350

00:48:53,109 --> 00:48:49,760

they still can't help that a word that's

1351

00:48:56,309 --> 00:48:53,119

not pc anymore man

1352

00:48:58,630 --> 00:48:56,319

hey i have a mac uh but anyway um

1353

00:49:01,270 --> 00:48:58,640

dan like i just now since you're being

1354

00:49:03,349 --> 00:49:01,280

i've got one two three four five

1355

00:49:05,270 --> 00:49:03,359

questions that i've generated just since

1356

00:49:07,910 --> 00:49:05,280

you've begun talking that are great

1357

00:49:09,430 --> 00:49:07,920

questions so um we might extend this one

1358

00:49:11,750 --> 00:49:09,440

out a little bit and also i want to

1359

00:49:13,510 --> 00:49:11,760

encourage you i literally forgot that

1360

00:49:16,710 --> 00:49:13,520

we're in the fireside chat format which

1361

00:49:18,630 --> 00:49:16,720

means you can pose a question to someone

1362

00:49:20,150 --> 00:49:18,640

else or a topic for the group because

1363

00:49:22,150 --> 00:49:20,160

that's really what we're supposed to be

1364

00:49:24,150 --> 00:49:22,160

doing here but we've been so fascinated

1365

00:49:25,910 --> 00:49:24,160

to ask you questions that we forgot all

1366

00:49:28,390 --> 00:49:25,920

about it right now yeah

1367

00:49:31,510 --> 00:49:28,400

good times yeah yeah we totally forgot

1368

00:49:34,390 --> 00:49:31,520

it um so after this uh i'm gonna ask you

1369

00:49:36,390 --> 00:49:34,400

about our friend who is very ever

1370

00:49:39,190 --> 00:49:36,400

omnipresent in the woods up there in

1371

00:49:41,990 --> 00:49:39,200

tennessee uh but but well i shouldn't

1372

00:49:44,069 --> 00:49:42,000

say friend because now after

1373

00:49:47,030 --> 00:49:44,079

okay what happened is nathan turned me

1374

00:49:48,549 --> 00:49:47,040

on to sasquatch chronicles dan sent me

1375

00:49:50,390 --> 00:49:48,559

an episode

1376

00:49:52,470 --> 00:49:50,400

today about that i sent him the best

1377

00:49:54,630 --> 00:49:52,480

episode ever

1378

00:49:55,510 --> 00:49:54,640

it was it i don't know if it's the best

1379

00:49:57,589 --> 00:49:55,520

ever

1380

00:50:01,270 --> 00:49:57,599

that i've heard on his show because he

1381

00:50:02,950 --> 00:50:01,280

has so many amazing episodes two hikers

1382

00:50:04,790 --> 00:50:02,960

in kentucky he's got so many great

1383

00:50:07,190 --> 00:50:04,800

episodes but it was great and i did

1384

00:50:09,190 --> 00:50:07,200

listen to the whole thing so let's talk

1385

00:50:11,990 --> 00:50:09,200

about bigfoot and after the stand you

1386

00:50:14,069 --> 00:50:12,000

can either throw out a topic for the

1387

00:50:16,470 --> 00:50:14,079

group to consider or ask someone in the

1388

00:50:20,230 --> 00:50:16,480

group a question if you so choose

1389

00:50:26,150 --> 00:50:23,430

um i i was so gratified to hear that you

1390

00:50:28,069 --> 00:50:26,160

have an interest in the topic since

1391

00:50:29,829 --> 00:50:28,079

nathan's fully responsible for me not

1392

00:50:31,910 --> 00:50:29,839

sleeping for

1393

00:50:33,109 --> 00:50:31,920

five out of the last ten nights

1394

00:50:35,910 --> 00:50:33,119

um

1395

00:50:38,069 --> 00:50:35,920

what is your your thought on uh let can

1396

00:50:40,710 --> 00:50:38,079

we just start with completely

1397

00:50:43,829 --> 00:50:40,720

terrestrial creature or possibly

1398

00:50:45,750 --> 00:50:43,839

terrestrial and interdimensional or one

1399

00:50:46,790 --> 00:50:45,760

or the other and then you can just take

1400

00:50:47,829 --> 00:50:46,800

it wherever you want to go with it

1401  
00:50:49,750 --> 00:50:47,839  
please

1402  
00:50:52,069 --> 00:50:49,760  
all right as far

1403  
00:50:55,190 --> 00:50:52,079  
my gut tells me it's a terrestrial

1404  
00:50:56,790 --> 00:50:55,200  
hominid just natural creature

1405  
00:50:59,589 --> 00:50:56,800  
um

1406  
00:51:01,750 --> 00:50:59,599  
i don't see why

1407  
00:51:04,390 --> 00:51:01,760  
when i look at humanity i see a lot of

1408  
00:51:05,910 --> 00:51:04,400  
variety i see a huge amount of variety

1409  
00:51:08,630 --> 00:51:05,920  
just like i see

1410  
00:51:11,190 --> 00:51:08,640  
when i look at the canine species i mean

1411  
00:51:13,190 --> 00:51:11,200  
it just runs the gamut of sizes and

1412  
00:51:16,230 --> 00:51:13,200  
shapes and colors and

1413  
00:51:20,230 --> 00:51:16,240

so why wouldn't there be

1414

00:51:22,549 --> 00:51:20,240

a great dane version of humanity that

1415

00:51:26,150 --> 00:51:22,559

wouldn't be exactly like us they could

1416

00:51:28,549 --> 00:51:26,160

be a derivative a branch off of our tree

1417

00:51:31,109 --> 00:51:28,559

the denisovans were larger than us the

1418

00:51:33,430 --> 00:51:31,119

neanderthals were shorter but stouter

1419

00:51:34,470 --> 00:51:33,440

than us so why wouldn't there be

1420

00:51:55,510 --> 00:51:34,480

a

1421

00:51:58,390 --> 00:51:55,520

type people

1422

00:52:01,190 --> 00:51:58,400

the work of hugh newman and

1423

00:52:04,309 --> 00:52:01,200

jim vieira is phenomenal or they've gone

1424

00:52:06,630 --> 00:52:04,319

back in the newspapers where they have

1425

00:52:08,870 --> 00:52:06,640

reports of finding large bones

1426

00:52:10,230 --> 00:52:08,880

um the the oral tradition of the native

1427

00:52:12,069 --> 00:52:10,240

americans where they say they were

1428

00:52:13,510 --> 00:52:12,079

people that were well proportioned that

1429

00:52:15,190 --> 00:52:13,520

were enormous

1430

00:52:17,670 --> 00:52:15,200

that like there's got to be something to

1431

00:52:19,190 --> 00:52:17,680

it in my opinion if it has been

1432

00:52:21,430 --> 00:52:19,200

so well

1433

00:52:23,190 --> 00:52:21,440

documented and i'll say

1434

00:52:26,790 --> 00:52:23,200

in in our oral traditions in our

1435

00:52:30,230 --> 00:52:26,800

histories if you look at gilgamesh

1436

00:52:33,030 --> 00:52:30,240

in samaria he was holding two giants or

1437

00:52:36,069 --> 00:52:33,040

two lions in his arms

1438

00:52:38,790 --> 00:52:36,079

egypt has depictions of giant

1439

00:52:41,270 --> 00:52:38,800

human beings next to regular-sized

1440

00:52:43,030 --> 00:52:41,280

people that look like dwarfs so to me

1441

00:52:44,150 --> 00:52:43,040

there's something there what it is i

1442

00:52:46,470 --> 00:52:44,160

don't know

1443

00:52:49,349 --> 00:52:46,480

but i want to believe that bigfoot's

1444

00:52:52,309 --> 00:52:49,359

there um because of micah hanks i feel

1445

00:52:54,710 --> 00:52:52,319

like i can talk about bigfoot uh and

1446

00:52:56,549 --> 00:52:54,720

ufos in the same podcast

1447

00:52:59,270 --> 00:52:56,559

micah hanks what's up

1448

00:53:00,390 --> 00:52:59,280

and um if when it but then there's those

1449

00:53:02,309 --> 00:53:00,400

anomalies

1450

00:53:04,390 --> 00:53:02,319

that show up when you start looking into

1451

00:53:07,030 --> 00:53:04,400

the bigfoot topic

1452

00:53:09,430 --> 00:53:07,040

they're they're accompanied by lights

1453

00:53:11,589 --> 00:53:09,440

in the forest that

1454

00:53:13,589 --> 00:53:11,599

that are unexplainable that sound like

1455

00:53:16,309 --> 00:53:13,599

orbs there's nothing else i can describe

1456

00:53:18,549 --> 00:53:16,319

them as but they sound like orbs

1457

00:53:20,069 --> 00:53:18,559

that they have a relationship with i

1458

00:53:22,470 --> 00:53:20,079

don't know if they have control of them

1459

00:53:25,270 --> 00:53:22,480

if they have a symbiotic relationship

1460

00:53:27,190 --> 00:53:25,280

but they're seen in similar scenarios at

1461

00:53:29,750 --> 00:53:27,200

similar times

1462

00:53:31,750 --> 00:53:29,760

i've heard some crazy ones on uh

1463

00:53:33,109 --> 00:53:31,760

sasquatch chronicles where

1464

00:53:35,510 --> 00:53:33,119

i one

1465

00:53:37,430 --> 00:53:35,520

a person ran into one with their car and

1466

00:53:39,270 --> 00:53:37,440

as the bigfoot slapped the hood there

1467

00:53:40,790 --> 00:53:39,280

was a flash of light and all of a sudden

1468

00:53:42,870 --> 00:53:40,800

it was gone so

1469

00:53:45,750 --> 00:53:42,880

there's there's all these anomalies that

1470

00:53:47,750 --> 00:53:45,760

show up in it but just like the ufo

1471

00:53:50,470 --> 00:53:47,760

topic and the stigma associated with it

1472

00:53:52,230 --> 00:53:50,480

that keeps people from telling the truth

1473

00:53:53,910 --> 00:53:52,240

telling their actual experiences because

1474

00:53:55,510 --> 00:53:53,920

they're afraid of being judged

1475

00:53:57,589 --> 00:53:55,520

same thing happens in the big foot world

1476

00:54:00,549 --> 00:53:57,599

people don't want to talk about

1477

00:54:02,549 --> 00:54:00,559

the the woo side of their experiences

1478

00:54:04,390 --> 00:54:02,559

their encounters that they

1479

00:54:06,069 --> 00:54:04,400

don't want to be looked down upon

1480

00:54:07,510 --> 00:54:06,079

because they had this strange thing

1481

00:54:09,589 --> 00:54:07,520

happen

1482

00:54:13,109 --> 00:54:09,599

and then you can also take a look at the

1483

00:54:16,630 --> 00:54:13,119

work of stan gordon out of pittsburgh uh

1484

00:54:19,589 --> 00:54:16,640

pennsylvania pennsylvania who

1485

00:54:21,990 --> 00:54:19,599

was a amazing ufo researcher and then he

1486

00:54:23,270 --> 00:54:22,000

started to notice patterns which is one

1487

00:54:25,030 --> 00:54:23,280

of the reason like i said one of the

1488

00:54:26,630 --> 00:54:25,040

things that i am looking for all the

1489

00:54:28,790 --> 00:54:26,640

time is patterns

1490

00:54:31,670 --> 00:54:28,800

he's found a pattern where there were

1491

00:54:33,190 --> 00:54:31,680

ufo sightings and then there were

1492

00:54:34,470 --> 00:54:33,200

bigfoot sightings

1493

00:54:36,150 --> 00:54:34,480

and if you

1494

00:54:38,230 --> 00:54:36,160

want to say this guy's not a good

1495

00:54:39,270 --> 00:54:38,240

researcher you've never looked into his

1496

00:54:42,309 --> 00:54:39,280

research

1497

00:54:43,750 --> 00:54:42,319

he was very thorough very complete with

1498

00:54:46,230 --> 00:54:43,760

what he did so

1499

00:54:48,150 --> 00:54:46,240

for somebody of that caliber to look at

1500

00:54:50,309 --> 00:54:48,160

this

1501  
00:54:52,069 --> 00:54:50,319  
bigfoot phenomenon and say there is a

1502  
00:54:54,950 --> 00:54:52,079  
link between the bigfoot phenomena and

1503  
00:54:57,510 --> 00:54:54,960  
the ufo phenomena i got to give it some

1504  
00:54:59,750 --> 00:54:57,520  
credence i have to look at it i i have

1505  
00:55:01,589 --> 00:54:59,760  
to not judge it

1506  
00:55:03,670 --> 00:55:01,599  
make my mind up and then look at it i

1507  
00:55:04,630 --> 00:55:03,680  
have to come into it with an open mind

1508  
00:55:06,390 --> 00:55:04,640  
and say

1509  
00:55:08,549 --> 00:55:06,400  
let me see what he's got let me see how

1510  
00:55:10,069 --> 00:55:08,559  
he's linking these two things together

1511  
00:55:12,069 --> 00:55:10,079  
there's just so much odd stuff

1512  
00:55:14,309 --> 00:55:12,079  
associated with bigfoot

1513  
00:55:17,190 --> 00:55:14,319

for instance we can't find any skeletal

1514

00:55:19,430 --> 00:55:17,200

remains of them like how why why that

1515

00:55:20,789 --> 00:55:19,440

seems so odd that we wouldn't be able to

1516

00:55:22,150 --> 00:55:20,799

at this point

1517

00:55:23,589 --> 00:55:22,160

i don't know if that answered a question

1518

00:55:26,390 --> 00:55:23,599

but that'll just be rambling about

1519

00:55:28,950 --> 00:55:26,400

bigfoot ufos and orbs i love it no i was

1520

00:55:31,430 --> 00:55:28,960

going to say that i i think you i think

1521

00:55:33,270 --> 00:55:31,440

you did i mean you said that it's a def

1522

00:55:35,109 --> 00:55:33,280

it's something that you have to consider

1523

00:55:37,349 --> 00:55:35,119

because of the evidence and i don't know

1524

00:55:38,870 --> 00:55:37,359

if nathan heard the same episode of

1525

00:55:41,910 --> 00:55:38,880

sasquatch chronicles and by the way

1526

00:55:44,069 --> 00:55:41,920

shout out to wes germer uh he and a

1527

00:55:47,270 --> 00:55:44,079

combination of he his brother and his

1528

00:55:49,670 --> 00:55:47,280

colleagues have not almost 900 episodes

1529

00:55:52,630 --> 00:55:49,680

which is remarkable

1530

00:55:57,030 --> 00:55:52,640

yeah yes uh but one of them was that uh

1531

00:55:58,069 --> 00:55:57,040

uh they saw a a sasquatch underneath a

1532

00:56:00,789 --> 00:55:58,079

limb

1533

00:56:03,750 --> 00:56:00,799

and when when the the sasquatch

1534

00:56:06,069 --> 00:56:03,760

disappeared over a ridgeline they ran up

1535

00:56:08,309 --> 00:56:06,079

to where he was standing under this you

1536

00:56:10,390 --> 00:56:08,319

know this prodigious limb and there was

1537

00:56:12,390 --> 00:56:10,400

a static electricity president that

1538

00:56:14,870 --> 00:56:12,400

obviously you know that they could feel

1539

00:56:16,230 --> 00:56:14,880

that static electricity that that those

1540

00:56:18,390 --> 00:56:16,240

are the kinds of things that lead to

1541

00:56:19,829 --> 00:56:18,400

that hypothesis you were just talking

1542

00:56:21,430 --> 00:56:19,839

about because static electricity just

1543

00:56:24,710 --> 00:56:21,440

doesn't exist during the daytime in the

1544

00:56:28,069 --> 00:56:24,720

woods uh surrounded by uh material that

1545

00:56:30,710 --> 00:56:28,079

doesn't conduct electricity so

1546

00:56:32,309 --> 00:56:30,720

uh but anyway dan uh thank you for

1547

00:56:34,309 --> 00:56:32,319

bringing that out because we we're gonna

1548

00:56:37,109 --> 00:56:34,319

get cryptid up in this joint

1549

00:56:39,430 --> 00:56:37,119

um can you uh would you like to either

1550

00:56:42,150 --> 00:56:39,440

present a topic to the group or ask

1551

00:56:44,470 --> 00:56:42,160

somebody a question uh i'll throw a

1552

00:56:45,750 --> 00:56:44,480

cryptid question out there i i feel like

1553

00:56:48,470 --> 00:56:45,760

if you've

1554

00:56:51,270 --> 00:56:48,480

dove into the cryptid world you've got a

1555

00:56:53,670 --> 00:56:51,280

favorite like who is what is your

1556

00:56:55,750 --> 00:56:53,680

favorite cryptid that's not just bigfoot

1557

00:56:57,910 --> 00:56:55,760

you can't name bigfoot you can't name

1558

00:56:59,670 --> 00:56:57,920

logness what is your

1559

00:57:03,030 --> 00:56:59,680

your underground

1560

00:57:06,549 --> 00:57:03,040

uh underdog cryptid

1561

00:57:08,630 --> 00:57:06,559

i mean i love mothman i got you know

1562

00:57:10,390 --> 00:57:08,640

right west virginia right right point

1563

00:57:13,030 --> 00:57:10,400

pleasant i mean what a cool story

1564

00:57:15,270 --> 00:57:13,040

there's just uh i mean

1565

00:57:17,750 --> 00:57:15,280

flying moth i would love to be mothman

1566

00:57:19,910 --> 00:57:17,760

fly around you know

1567

00:57:22,950 --> 00:57:19,920

it sounds sweet

1568

00:57:25,109 --> 00:57:22,960

it's got its perks right totally

1569

00:57:27,829 --> 00:57:25,119

i don't know i feel like are we going

1570

00:57:29,270 --> 00:57:27,839

like possibly real or are we just going

1571

00:57:32,789 --> 00:57:29,280

straight mythology because i love

1572

00:57:35,670 --> 00:57:32,799

unicorns you can have one of each

1573

00:57:37,750 --> 00:57:35,680

okay unicorns and mermaids and i saved

1574

00:57:40,069 --> 00:57:37,760

the mermaids separately because people

1575

00:57:42,309 --> 00:57:40,079

have seen some things in the water that

1576  
00:57:44,309 --> 00:57:42,319  
make you go hmm that sounds more cryptid

1577  
00:57:46,150 --> 00:57:44,319  
than mermaid

1578  
00:57:48,390 --> 00:57:46,160  
all right i i want to throw a quick

1579  
00:57:49,750 --> 00:57:48,400  
shout out based on the mermaid comment

1580  
00:57:51,829 --> 00:57:49,760  
have you guys ever heard of max

1581  
00:57:54,390 --> 00:57:51,839  
hawthorne

1582  
00:57:58,950 --> 00:57:54,400  
he has been on spaced out radio and that

1583  
00:58:02,069 --> 00:57:58,960  
guy is the best podcast guest ever like

1584  
00:58:03,270 --> 00:58:02,079  
he has done all this research on sea

1585  
00:58:04,150 --> 00:58:03,280  
creatures

1586  
00:58:06,789 --> 00:58:04,160  
and

1587  
00:58:09,990 --> 00:58:06,799  
has these amazing stories that he is he

1588  
00:58:11,990 --> 00:58:10,000

can re recount for you during it he's

1589

00:58:13,030 --> 00:58:12,000

written several books called coronas

1590

00:58:16,230 --> 00:58:13,040

rising

1591

00:58:17,349 --> 00:58:16,240

um phenomenal guy man like i follow him

1592

00:58:20,390 --> 00:58:17,359

on twitter

1593

00:58:22,390 --> 00:58:20,400

and uh his interviews are always

1594

00:58:24,309 --> 00:58:22,400

hilarious because his cat always he has

1595

00:58:26,630 --> 00:58:24,319

like an enormous cat that always shows

1596

00:58:29,829 --> 00:58:26,640

up and jumps on them and he talks to it

1597

00:58:32,069 --> 00:58:29,839

like it's a baby on air it cracks me up

1598

00:58:35,109 --> 00:58:32,079

but man the guy has some phenomenal

1599

00:58:37,270 --> 00:58:35,119

stories like 900 foot long sharks wow

1600

00:58:39,589 --> 00:58:37,280

there's just a creature that looked like

1601  
00:58:41,910 --> 00:58:39,599  
a shell this turtle that was spotted and

1602  
00:58:44,069 --> 00:58:41,920  
a picture was taken of it that was

1603  
00:58:45,910 --> 00:58:44,079  
100 feet long or something just

1604  
00:58:47,750 --> 00:58:45,920  
just ridiculous

1605  
00:58:50,309 --> 00:58:47,760  
stuff that has been spotted in our

1606  
00:58:53,589 --> 00:58:50,319  
oceans which makes me think about usos

1607  
00:58:55,589 --> 00:58:53,599  
and um dave fravor's recounting of the

1608  
00:58:57,750 --> 00:58:55,599  
the object that rose from underneath the

1609  
00:58:59,270 --> 00:58:57,760  
torpedo sucked it down as they were

1610  
00:59:02,069 --> 00:58:59,280  
pulling the diver that was trying to

1611  
00:59:04,950 --> 00:59:02,079  
recover out of it like what is going on

1612  
00:59:06,470 --> 00:59:04,960  
under the surface of the ocean mermaids

1613  
00:59:08,309 --> 00:59:06,480

it's huge

1614

00:59:10,630 --> 00:59:08,319

yeah uh i wrote that one down wes

1615

00:59:13,670 --> 00:59:10,640

hawthorne as a possible guest so i'll

1616

00:59:15,910 --> 00:59:13,680

max hawthorne max oh sorry max author

1617

00:59:18,069 --> 00:59:15,920

and i was con i was conflating with wes

1618

00:59:19,030 --> 00:59:18,079

germer so max hawthorne thank you got

1619

00:59:21,750 --> 00:59:19,040

that

1620

00:59:24,390 --> 00:59:21,760

um and i'm gonna break one of the rules

1621

00:59:27,829 --> 00:59:24,400

and say sasquatch just because

1622

00:59:30,390 --> 00:59:27,839

i am fascinated with the idea of this

1623

00:59:32,309 --> 00:59:30,400

creature that is potentially

1624

00:59:35,109 --> 00:59:32,319

uh and you guys can take this around the

1625

00:59:39,670 --> 00:59:35,119

table as well that is part us

1626  
00:59:40,470 --> 00:59:39,680  
and maybe uh part primate and maybe a on

1627  
00:59:43,430 --> 00:59:40,480  
um

1628  
00:59:45,510 --> 00:59:43,440  
i hate to say unevolved because

1629  
00:59:48,069 --> 00:59:45,520  
you know dan was talking about that if

1630  
00:59:48,870 --> 00:59:48,079  
the power went off you know our records

1631  
00:59:54,549 --> 00:59:48,880  
would

1632  
00:59:56,710 --> 00:59:54,559  
very short period of time

1633  
00:59:59,829 --> 00:59:56,720  
uh panic all these sorts of things and

1634  
01:00:02,150 --> 00:59:59,839  
then if i if i refer to sasquatch as

1635  
01:00:05,349 --> 01:00:02,160  
unevolved but yet this is a creature

1636  
01:00:09,030 --> 01:00:05,359  
that has survived and thrived

1637  
01:00:09,990 --> 01:00:09,040  
in the forest uh on its own for

1638  
01:00:11,990 --> 01:00:10,000

you know

1639

01:00:13,589 --> 01:00:12,000

an untold period of time we don't i

1640

01:00:15,670 --> 01:00:13,599

don't know how long dan might know

1641

01:00:16,630 --> 01:00:15,680

nathan might know deb might know

1642

01:00:17,349 --> 01:00:16,640

um

1643

01:00:19,030 --> 01:00:17,359

then

1644

01:00:20,950 --> 01:00:19,040

how how can i necessarily say it's

1645

01:00:22,470 --> 01:00:20,960

unevolved maybe from a technological

1646

01:00:23,510 --> 01:00:22,480

perspective yes

1647

01:00:25,349 --> 01:00:23,520

um

1648

01:00:26,390 --> 01:00:25,359

but but yeah i'm gonna say i'm very

1649

01:00:29,109 --> 01:00:26,400

intrigued

1650

01:00:31,589 --> 01:00:29,119

uh with that creature that it can

1651

01:00:34,390 --> 01:00:31,599

in many cases live

1652

01:00:35,349 --> 01:00:34,400

not harmoniously with humans but be able

1653

01:00:40,069 --> 01:00:35,359

to

1654

01:00:41,349 --> 01:00:40,079

interact with it

1655

01:00:44,150 --> 01:00:41,359

uh and

1656

01:00:46,549 --> 01:00:44,160

so i i find that fascinating there's not

1657

01:00:48,630 --> 01:00:46,559

a lot of creatures that that fall into

1658

01:00:50,870 --> 01:00:48,640

that category so i wouldn't call it

1659

01:00:53,670 --> 01:00:50,880

unevolved i would say it was differently

1660

01:00:56,309 --> 01:00:53,680

adapted it's adapted highly to its

1661

01:00:59,430 --> 01:00:56,319

environment just and it evolved

1662

01:01:02,069 --> 01:00:59,440

differently than we did just like i i

1663

01:01:03,589 --> 01:01:02,079

think three of the four of us wear

1664

01:01:05,430 --> 01:01:03,599

corrective lenses

1665

01:01:07,109 --> 01:01:05,440

because we live in an environment we

1666

01:01:08,150 --> 01:01:07,119

live in a world where looking at things

1667

01:01:09,910 --> 01:01:08,160

close up

1668

01:01:12,390 --> 01:01:09,920

is more important than looking at our

1669

01:01:13,990 --> 01:01:12,400

surroundings at this point so

1670

01:01:16,870 --> 01:01:14,000

um

1671

01:01:19,589 --> 01:01:16,880

our our vision has deteriorated over the

1672

01:01:22,789 --> 01:01:19,599

the last few generations because

1673

01:01:24,950 --> 01:01:22,799

we don't need to be as aware of our

1674

01:01:26,630 --> 01:01:24,960

entire surroundings like we used to i

1675

01:01:29,030 --> 01:01:26,640

think that's part of it we're i feel

1676

01:01:32,069 --> 01:01:29,040

like that's the current sign of us

1677

01:01:34,630 --> 01:01:32,079

changing the way that our physical

1678

01:01:36,630 --> 01:01:34,640

nature is i'm sure it has some a lot to

1679

01:01:39,349 --> 01:01:36,640

do with the fact that our infant

1680

01:01:41,829 --> 01:01:39,359

mortality rate is zero like if i had

1681

01:01:44,710 --> 01:01:41,839

been born with my eyesight i had to get

1682

01:01:47,190 --> 01:01:44,720

lasik i had to get prk which is the

1683

01:01:49,030 --> 01:01:47,200

more extreme version of lasik um if i

1684

01:01:51,349 --> 01:01:49,040

had been born with my eyesight back in

1685

01:01:53,190 --> 01:01:51,359

the 1600s i would have died like no

1686

01:01:55,430 --> 01:01:53,200

doubt about it i wouldn't have survived

1687

01:01:56,470 --> 01:01:55,440

if i was born in

1688

01:01:59,990 --> 01:01:56,480

50

1689

01:02:01,510 --> 01:02:00,000

bc i absolutely would have died so

1690

01:02:03,510 --> 01:02:01,520

maybe it's just

1691

01:02:05,190 --> 01:02:03,520

that's why our eyes are deteriorating

1692

01:02:06,630 --> 01:02:05,200

i'm sure there's part of that

1693

01:02:08,789 --> 01:02:06,640

but i think that

1694

01:02:11,270 --> 01:02:08,799

we're watching ourselves we're

1695

01:02:13,349 --> 01:02:11,280

we're evolving into wall-e right now

1696

01:02:15,829 --> 01:02:13,359

like look at the american physique we're

1697

01:02:16,950 --> 01:02:15,839

changing the way that we look by the way

1698

01:02:19,510 --> 01:02:16,960

that we eat

1699

01:02:21,750 --> 01:02:19,520

yeah it's crazy

1700

01:02:24,390 --> 01:02:21,760

it you know you share this hypothesis i

1701

01:02:25,750 --> 01:02:24,400

i nathan deb do you guys remember dr

1702

01:02:30,230 --> 01:02:25,760

master said the same thing about

1703

01:02:33,270 --> 01:02:31,750

yeah we asked him about that

1704

01:02:35,190 --> 01:02:33,280

yeah and i think we know we often kind

1705

01:02:36,950 --> 01:02:35,200

of confuse the fact that we've been so

1706

01:02:39,510 --> 01:02:36,960

successful and that we're

1707

01:02:42,309 --> 01:02:39,520

you know we spread around the globe with

1708

01:02:45,109 --> 01:02:42,319

our kind of superiority right um

1709

01:02:47,270 --> 01:02:45,119

you know ants are everywhere uh and they

1710

01:02:48,950 --> 01:02:47,280

do a great job surviving and we don't

1711

01:02:50,470 --> 01:02:48,960

interact with them all that much

1712

01:02:52,230 --> 01:02:50,480

and they may think that they're really

1713

01:02:53,990 --> 01:02:52,240

kind of all that there is so we have

1714

01:02:55,349 --> 01:02:54,000

it's very possible we're in the same

1715

01:02:56,390 --> 01:02:55,359

boat you know just because we're

1716

01:02:58,150 --> 01:02:56,400

everywhere

1717

01:03:00,309 --> 01:02:58,160

uh and we're doing a good job

1718

01:03:02,309 --> 01:03:00,319

quote-unquote you know

1719

01:03:04,309 --> 01:03:02,319

reproducing and passing our genes down

1720

01:03:06,390 --> 01:03:04,319

doesn't really reflect at all to what

1721

01:03:09,109 --> 01:03:06,400

else is out there around us and i think

1722

01:03:10,950 --> 01:03:09,119

for me at least that's what the cryptids

1723

01:03:12,630 --> 01:03:10,960

you know kind of hint to and the ufo

1724

01:03:14,950 --> 01:03:12,640

sort of thing hints to

1725

01:03:17,190 --> 01:03:14,960

is that we are

1726

01:03:18,390 --> 01:03:17,200

really in this sort of rich atmosphere

1727

01:03:20,390 --> 01:03:18,400

of life

1728

01:03:23,190 --> 01:03:20,400

it's just that we can't perceive most of

1729

01:03:25,990 --> 01:03:23,200

it and and we we've you know sort of

1730

01:03:28,390 --> 01:03:26,000

conflated our inability to perceive that

1731

01:03:30,789 --> 01:03:28,400

with that there's just nothing there

1732

01:03:32,710 --> 01:03:30,799

that it's only what we can perceive and

1733

01:03:33,589 --> 01:03:32,720

i think this is sort of peeking through

1734

01:03:35,750 --> 01:03:33,599

our

1735

01:03:36,630 --> 01:03:35,760

you know kind of routine perception

1736

01:03:38,470 --> 01:03:36,640

and

1737

01:03:41,109 --> 01:03:38,480

allowing us to

1738

01:03:43,349 --> 01:03:41,119

realize how you know kind of small of a

1739

01:03:44,789 --> 01:03:43,359

niche we actually occupy

1740

01:03:46,789 --> 01:03:44,799

so it's almost like

1741

01:03:49,910 --> 01:03:46,799

as louis lozando said we're in the

1742

01:03:51,990 --> 01:03:49,920

middle like we're not on either end

1743

01:03:53,349 --> 01:03:52,000

extreme end of the spectrum we're

1744

01:03:55,829 --> 01:03:53,359

somewhere in the middle we're not the

1745

01:03:56,950 --> 01:03:55,839

biggest fish we're not the smallest fish

1746

01:04:01,430 --> 01:03:56,960

yeah

1747

01:04:03,029 --> 01:04:01,440

i feel bad that i'm drinking red wine we

1748

01:04:06,069 --> 01:04:03,039

have dan on i feel like i should be

1749

01:04:08,870 --> 01:04:06,079

drinking pappy van winkle or that

1750

01:04:09,670 --> 01:04:08,880

dan has a bottle of that at his house

1751

01:04:11,270 --> 01:04:09,680

so

1752

01:04:14,549 --> 01:04:11,280

i hope you don't judge me for the red

1753

01:04:16,950 --> 01:04:14,559

wine dan no no not at all my wife drinks

1754

01:04:18,630 --> 01:04:16,960

pinot grigio so uh

1755

01:04:21,670 --> 01:04:18,640

you're closer to her taste buds than

1756

01:04:23,990 --> 01:04:21,680

mine i'm i'm a whiskey guy

1757

01:04:25,349 --> 01:04:24,000

what i just said pappy van winkle man i

1758

01:04:27,589 --> 01:04:25,359

don't know what that is i don't know

1759

01:04:29,109 --> 01:04:27,599

it's it's a bourbon oh my god it's so

1760

01:04:31,349 --> 01:04:29,119

hard to get

1761

01:04:35,829 --> 01:04:31,359

i think the bottles are going for i

1762

01:04:39,349 --> 01:04:38,549

yeah it's they're obscenely expensive uh

1763

01:04:41,270 --> 01:04:39,359

well

1764

01:04:43,190 --> 01:04:41,280

i hate to sort of switch gears but i i

1765

01:04:44,309 --> 01:04:43,200

wanted to uh

1766

01:04:45,829 --> 01:04:44,319

i wanted to ask kind of an interesting

1767

01:04:46,870 --> 01:04:45,839

question about about our history because

1768

01:04:49,750 --> 01:04:46,880

we are kind of talking about history

1769

01:04:51,349 --> 01:04:49,760

here but uh how much stake do you put in

1770

01:04:53,109 --> 01:04:51,359

the uh

1771

01:04:55,029 --> 01:04:53,119

and maybe i'll go to dj first with this

1772

01:04:57,029 --> 01:04:55,039

one uh how much safety put into the

1773

01:04:58,710 --> 01:04:57,039

whole eisenhower

1774

01:05:00,470 --> 01:04:58,720

uh alien

1775

01:05:03,190 --> 01:05:00,480

you know encounter do you think that

1776

01:05:04,230 --> 01:05:03,200

there's a some truth to that story

1777

01:05:07,109 --> 01:05:04,240

um

1778

01:05:08,630 --> 01:05:07,119

you know based on when you look at

1779

01:05:11,750 --> 01:05:08,640

you know eisenhower's a four-star

1780

01:05:15,750 --> 01:05:11,760

general you look at how many

1781

01:05:17,270 --> 01:05:15,760

uh men he lost in in world war ii

1782

01:05:20,710 --> 01:05:17,280

and what that

1783

01:05:22,630 --> 01:05:20,720

felt like to him as

1784

01:05:24,950 --> 01:05:22,640

one of the premier officers in in the

1785

01:05:27,270 --> 01:05:24,960

history of our nation who then became

1786

01:05:30,150 --> 01:05:27,280

president he'd be very very sensitive to

1787

01:05:31,670 --> 01:05:30,160

that issue as compared with not say that

1788

01:05:33,109 --> 01:05:31,680

all presidents have to have served or

1789

01:05:35,750 --> 01:05:33,119

anything like that i'm not

1790

01:05:38,470 --> 01:05:35,760

from that that perspective but it would

1791

01:05:41,349 --> 01:05:38,480

be particularly sensitive to him

1792

01:05:42,230 --> 01:05:41,359

so the idea that he would

1793

01:05:44,870 --> 01:05:42,240

um

1794

01:05:45,910 --> 01:05:44,880

that he would trade lives for technology

1795

01:05:48,630 --> 01:05:45,920

is not

1796

01:05:51,270 --> 01:05:48,640

resonant uh with me i i don't think that

1797

01:05:53,990 --> 01:05:51,280

that's something he would do however

1798

01:05:56,470 --> 01:05:54,000

though nathan as the thought experiment

1799

01:05:58,789 --> 01:05:56,480

yeah i think we could i think we could

1800

01:06:00,309 --> 01:05:58,799

play this out a little bit and and maybe

1801  
01:06:02,390 --> 01:06:00,319  
we can just free ourselves up a little

1802  
01:06:04,230 --> 01:06:02,400  
bit you know yeah let's do it yeah

1803  
01:06:06,950 --> 01:06:04,240  
what's a couple kids jumping in the pond

1804  
01:06:09,510 --> 01:06:06,960  
in in uh in devil's tower i mean it's

1805  
01:06:11,910 --> 01:06:09,520  
not a big deal right so

1806  
01:06:13,750 --> 01:06:11,920  
all right so so we're me are we at

1807  
01:06:15,750 --> 01:06:13,760  
edwards air force base is that where

1808  
01:06:18,950 --> 01:06:15,760  
this yeah that's where supposedly the uh

1809  
01:06:21,430 --> 01:06:18,960  
the meeting went down yeah dan

1810  
01:06:23,990 --> 01:06:21,440  
debs people in the chat viewers on

1811  
01:06:26,390 --> 01:06:24,000  
youtube and twitter we

1812  
01:06:28,630 --> 01:06:26,400  
we are at the end of a runway or a

1813  
01:06:30,829 --> 01:06:28,640

lonely taxiway at edwards air force base

1814

01:06:33,880 --> 01:06:30,839

i am representing dwight david

1815

01:06:36,870 --> 01:06:33,890

eisenhower and nathan is the phenomenon

1816

01:06:39,349 --> 01:06:36,880

[Laughter]

1817

01:06:42,150 --> 01:06:39,359

so i've just landed my ship i guess huh

1818

01:06:44,549 --> 01:06:42,160

yes sir yeah all right so uh so i guess

1819

01:06:46,150 --> 01:06:44,559

you come on board and uh you know we're

1820

01:06:47,829 --> 01:06:46,160

not really talking there's sort of a

1821

01:06:49,270 --> 01:06:47,839

telepathy going on

1822

01:06:50,710 --> 01:06:49,280

and uh

1823

01:06:52,390 --> 01:06:50,720

i'm offering a little bit of a trade

1824

01:06:53,510 --> 01:06:52,400

deal here

1825

01:06:54,710 --> 01:06:53,520

you know i don't know if you've ever

1826

01:06:56,630 --> 01:06:54,720

experienced this problem maybe you would

1827

01:06:58,870 --> 01:06:56,640

like this technology it's uh it's pretty

1828

01:07:01,750 --> 01:06:58,880

good but if you ever gone into a room

1829

01:07:03,589 --> 01:07:01,760

and you needed to turn the lights on

1830

01:07:05,750 --> 01:07:03,599

and uh you can't find the switch you

1831

01:07:07,270 --> 01:07:05,760

know you're just like you don't remember

1832

01:07:09,829 --> 01:07:07,280

not sure where it is

1833

01:07:10,950 --> 01:07:09,839

or you got in bed and you forgot to hit

1834

01:07:12,390 --> 01:07:10,960

the switch

1835

01:07:14,630 --> 01:07:12,400

uh you know you don't want to get up

1836

01:07:17,190 --> 01:07:14,640

again you know there's technology that

1837

01:07:19,750 --> 01:07:17,200

we could give you where if you just kind

1838

01:07:20,870 --> 01:07:19,760

of put your hands together it would

1839

01:07:22,789 --> 01:07:20,880

turn the lights off would that be

1840

01:07:24,230 --> 01:07:22,799

something that would be

1841

01:07:25,270 --> 01:07:24,240

of interest to you would that be a good

1842

01:07:26,470 --> 01:07:25,280

deal

1843

01:07:29,349 --> 01:07:26,480

the clapper

1844

01:07:32,710 --> 01:07:29,359

um yes uh i i think for yeah some sort

1845

01:07:34,150 --> 01:07:32,720

of anti-gravity uh propulsion system and

1846

01:07:37,270 --> 01:07:34,160

the clapper i

1847

01:07:41,190 --> 01:07:39,029

uh you know otherwise i i'll tell you

1848

01:07:42,470 --> 01:07:41,200

what i i have a counteroffer

1849

01:07:45,190 --> 01:07:42,480

um

1850

01:07:46,870 --> 01:07:45,200

we have developed something

1851  
01:07:49,670 --> 01:07:46,880  
that for example

1852  
01:07:52,789 --> 01:07:49,680  
if you were on a spacewalk

1853  
01:07:54,710 --> 01:07:52,799  
and you have some sort of a spanner

1854  
01:07:56,549 --> 01:07:54,720  
on your belt and you don't want to lose

1855  
01:07:58,950 --> 01:07:56,559  
it you know you're outside you have you

1856  
01:08:01,670 --> 01:07:58,960  
have your craft and then all of a sudden

1857  
01:08:03,750 --> 01:08:01,680  
one of these uh one of these little uh

1858  
01:08:05,109 --> 01:08:03,760  
pulses wave guides in the skin needs to

1859  
01:08:07,109 --> 01:08:05,119  
be repaired you need a little bit of

1860  
01:08:09,109 --> 01:08:07,119  
super glue or something or some double

1861  
01:08:11,510 --> 01:08:09,119  
bubble uh and so we have something

1862  
01:08:13,829 --> 01:08:11,520  
called velcro um

1863  
01:08:14,630 --> 01:08:13,839

and i would be willing to trade this to

1864

01:08:17,829 --> 01:08:14,640

you

1865

01:08:20,309 --> 01:08:17,839

i don't know give us some sort of a

1866

01:08:22,070 --> 01:08:20,319

sports car looking disc right that

1867

01:08:25,590 --> 01:08:22,080

sounds pretty intriguing we don't have

1868

01:08:27,030 --> 01:08:25,600

anything like that on the ship um

1869

01:08:28,229 --> 01:08:27,040

you know and quite frankly i never

1870

01:08:29,829 --> 01:08:28,239

thought we would need something like

1871

01:08:31,189 --> 01:08:29,839

that but when you described it to me

1872

01:08:33,349 --> 01:08:31,199

just now i could see there's a lot of

1873

01:08:35,590 --> 01:08:33,359

value to it so yeah let's make a trade

1874

01:08:37,910 --> 01:08:35,600

there that sounds like a good idea to me

1875

01:08:39,829 --> 01:08:37,920

i'll do it i'll do it yeah uh also we'd

1876

01:08:42,470 --> 01:08:39,839

be willing to you know we'd be willing

1877

01:08:44,390 --> 01:08:42,480

to trade some you know uh

1878

01:08:45,430 --> 01:08:44,400

maybe there's something that we've used

1879

01:08:47,430 --> 01:08:45,440

also

1880

01:08:48,950 --> 01:08:47,440

let's say you know the landing gear on

1881

01:08:51,030 --> 01:08:48,960

these ships you know you you know you're

1882

01:08:52,950 --> 01:08:51,040

going through coming into the atmosphere

1883

01:08:54,829 --> 01:08:52,960

things are starting to get rusty we've

1884

01:08:57,189 --> 01:08:54,839

developed something called

1885

01:08:59,910 --> 01:08:57,199

wd-40 it's called just a little bit of

1886

01:09:01,910 --> 01:08:59,920

squirt yeah all your squeaks go away dan

1887

01:09:05,590 --> 01:09:01,920

uses it all the time on the hinges on

1888

01:09:08,789 --> 01:09:07,269

i'm glad you brought it up because uh i

1889

01:09:10,070 --> 01:09:08,799

mean we have some of the squeakiest

1890

01:09:12,149 --> 01:09:10,080

equipment here

1891

01:09:13,269 --> 01:09:12,159

on the ship and if you're saying i can

1892

01:09:15,910 --> 01:09:13,279

just

1893

01:09:19,749 --> 01:09:17,990

and the squeaks are gone then that makes

1894

01:09:21,590 --> 01:09:19,759

my intergalactic travel like a lot

1895

01:09:23,269 --> 01:09:21,600

smoother so i would absolutely be

1896

01:09:24,789 --> 01:09:23,279

willing to make that you got to do it i

1897

01:09:27,110 --> 01:09:24,799

think i think we have a trade here i

1898

01:09:29,349 --> 01:09:27,120

think i think what we've established is

1899

01:09:32,149 --> 01:09:29,359

there's absolutely no question that

1900

01:09:34,709 --> 01:09:32,159

dwight david eisenhower did in fact make

1901

01:09:36,789 --> 01:09:34,719

some sort of a trade barter some sort of

1902

01:09:38,550 --> 01:09:36,799

a deal with the phenomenon nathan i

1903

01:09:40,149 --> 01:09:38,560

think we've solved this yeah with deals

1904

01:09:42,470 --> 01:09:40,159

like those i mean how could it not have

1905

01:09:44,870 --> 01:09:42,480

happened right can i get it amen look at

1906

01:09:48,149 --> 01:09:44,880

that this is how we can get along with

1907

01:09:49,110 --> 01:09:48,159

other intelligences that's it amen and

1908

01:09:51,030 --> 01:09:49,120

trades

1909

01:09:52,950 --> 01:09:51,040

yeah i mean yeah that's

1910

01:09:56,070 --> 01:09:52,960

that little crazy bit aside which we had

1911

01:09:58,149 --> 01:09:56,080

a fun time imagining uh you know dan do

1912

01:10:01,030 --> 01:09:58,159

you think there is anything that like is

1913

01:10:02,630 --> 01:10:01,040

worthy of of exchange you know with our

1914

01:10:04,550 --> 01:10:02,640

our culture and you know kind of

1915

01:10:06,950 --> 01:10:04,560

whatever these other cultures may be i

1916

01:10:08,470 --> 01:10:06,960

mean what kind of uh

1917

01:10:10,390 --> 01:10:08,480

what kind of thing would we be able to

1918

01:10:13,669 --> 01:10:10,400

bring to the table of that do you think

1919

01:10:17,270 --> 01:10:13,679

dna um earth has

1920

01:10:19,270 --> 01:10:17,280

is a mecca for a variety of life to me

1921

01:10:21,510 --> 01:10:19,280

that is the value that we bring to the

1922

01:10:23,590 --> 01:10:21,520

table i think there's asteroids on the

1923

01:10:26,229 --> 01:10:23,600

planet or in the universe that have a

1924

01:10:29,750 --> 01:10:26,239

lot more gold than we have on our in

1925

01:10:31,270 --> 01:10:29,760

our entire planet but we have a variety

1926

01:10:33,430 --> 01:10:31,280

that is

1927

01:10:36,390 --> 01:10:33,440

possibly unsurpassed in the universe i

1928

01:10:38,709 --> 01:10:36,400

i'm obviously i am speaking

1929

01:10:40,470 --> 01:10:38,719

with a lot of assumption

1930

01:10:42,390 --> 01:10:40,480

there but i think that's what it would

1931

01:10:46,709 --> 01:10:42,400

be is we are

1932

01:10:49,590 --> 01:10:46,719

just a seed bank of different types of

1933

01:10:51,990 --> 01:10:49,600

species and variety and it changes

1934

01:10:54,149 --> 01:10:52,000

constantly it's never it's always always

1935

01:10:55,910 --> 01:10:54,159

different like you come back 100 000

1936

01:10:58,790 --> 01:10:55,920

years from now we'll have

1937

01:11:00,550 --> 01:10:58,800

the different animals that we do now so

1938

01:11:02,550 --> 01:11:00,560

it's going to be um

1939

01:11:05,350 --> 01:11:02,560

dna in my opinion i think that's what we

1940

01:11:07,590 --> 01:11:05,360

have and that's why

1941

01:11:10,790 --> 01:11:07,600

there's there's reproductive overtones

1942

01:11:13,590 --> 01:11:10,800

in the abduction phenomena that also

1943

01:11:15,669 --> 01:11:13,600

kind of back that up um

1944

01:11:17,430 --> 01:11:15,679

so we're this garden basically right

1945

01:11:20,310 --> 01:11:17,440

where this uh

1946

01:11:21,030 --> 01:11:20,320

you know really rich cornucopia of life

1947

01:11:28,070 --> 01:11:21,040

that

1948

01:11:31,750 --> 01:11:28,080

now

1949

01:11:33,270 --> 01:11:31,760

that look of joy that look of intrigue

1950

01:11:36,229 --> 01:11:33,280

that you have

1951

01:11:38,390 --> 01:11:36,239

it's not easy that it's that in itself

1952

01:11:40,950 --> 01:11:38,400

is a miracle to maybe to another

1953

01:11:43,350 --> 01:11:40,960

intelligence i'm supposing of course but

1954

01:11:45,510 --> 01:11:43,360

i assume that that is a miracle is that

1955

01:11:48,630 --> 01:11:45,520

that look of joy that feeling that

1956

01:11:50,790 --> 01:11:48,640

emotion and and if if i were to think

1957

01:11:51,590 --> 01:11:50,800

of what they might want to look at us

1958

01:11:54,470 --> 01:11:51,600

for

1959

01:11:55,990 --> 01:11:54,480

is they may desire to have that or see

1960

01:11:58,070 --> 01:11:56,000

if they can breed that into their

1961

01:12:01,510 --> 01:11:58,080

species

1962

01:12:04,630 --> 01:12:01,520

well i've all often thought about

1963

01:12:07,590 --> 01:12:04,640

the grays as more or less minions

1964

01:12:10,709 --> 01:12:07,600

like if you look at the minion movies

1965

01:12:12,870 --> 01:12:10,719

some of them have bad genetics i mean

1966

01:12:15,350 --> 01:12:12,880

some of them are are pretty sharp but a

1967

01:12:18,630 --> 01:12:15,360

lot of them they're so inbred or i don't

1968

01:12:21,189 --> 01:12:18,640

know how they reproduce uh minions but

1969

01:12:22,709 --> 01:12:21,199

they're just not conscious they're not

1970

01:12:24,950 --> 01:12:22,719

deep thinking

1971

01:12:28,310 --> 01:12:24,960

um maybe they

1972

01:12:30,390 --> 01:12:28,320

were so hybridized that they lost the

1973

01:12:31,990 --> 01:12:30,400

um spontaneousness

1974

01:12:34,149 --> 01:12:32,000

of the human

1975

01:12:36,550 --> 01:12:34,159

uh experience like we're very

1976

01:12:38,390 --> 01:12:36,560

unpredictable creatures uh just in

1977

01:12:41,110 --> 01:12:38,400

general we like

1978

01:12:43,350 --> 01:12:41,120

we we like to have fun we like to pick

1979

01:12:45,590 --> 01:12:43,360

on each other like we maybe that's one

1980

01:12:48,149 --> 01:12:45,600

of the things that happens is they they

1981

01:12:50,149 --> 01:12:48,159

have to inject some human dna just to

1982

01:12:52,229 --> 01:12:50,159

make them more pleasant to be around

1983

01:12:54,229 --> 01:12:52,239

because let's face it grays seem really

1984

01:12:55,910 --> 01:12:54,239

boring right

1985

01:12:57,990 --> 01:12:55,920

inner conversation they're looking at

1986

01:13:00,149 --> 01:12:58,000

their four fingers comedy show yeah they

1987

01:13:00,870 --> 01:13:00,159

can't open a budweiser bottle that has

1988

01:13:02,870 --> 01:13:00,880

the

1989

01:13:04,390 --> 01:13:02,880

you know even if it's a twist off it's

1990

01:13:05,189 --> 01:13:04,400

right stuff do you play the banjo you

1991

01:13:05,990 --> 01:13:05,199

know

1992

01:13:07,669 --> 01:13:06,000

yeah

1993

01:13:09,750 --> 01:13:07,679

i had a thought about you know i

1994

01:13:11,990 --> 01:13:09,760

definitely think the dna is of interest

1995

01:13:13,830 --> 01:13:12,000

because we have so many experiencers

1996

01:13:16,149 --> 01:13:13,840

saying that's being taken

1997

01:13:18,229 --> 01:13:16,159

essentially but i thought of the one

1998

01:13:19,030 --> 01:13:18,239

thing that we might be willing to trade

1999

01:13:21,030 --> 01:13:19,040

for

2000

01:13:22,229 --> 01:13:21,040

and i don't think it's going to be

2001

01:13:24,390 --> 01:13:22,239

velcro

2002

01:13:25,669 --> 01:13:24,400

i think it is i think it's going to be

2003

01:13:28,149 --> 01:13:25,679

defense

2004

01:13:32,070 --> 01:13:28,159

if if we get told that they're going to

2005

01:13:34,310 --> 01:13:32,080

defend us from asteroids or other

2006

01:13:38,950 --> 01:13:34,320

visitors i bet you that would be

2007

01:13:42,790 --> 01:13:41,030

like what you would repair the holes in

2008

01:13:44,390 --> 01:13:42,800

the wall i thought spackle is what she

2009

01:13:47,510 --> 01:13:44,400

was going to say so i'm surprised

2010

01:13:49,830 --> 01:13:47,520

there's an individual patrick jackson

2011

01:13:51,750 --> 01:13:49,840

who has talked about like there's a

2012

01:13:53,030 --> 01:13:51,760

defense system that's what he thinks the

2013

01:13:55,430 --> 01:13:53,040

orbs are

2014

01:13:59,189 --> 01:13:55,440

and it's really an interesting concept

2015

01:14:01,350 --> 01:13:59,199

to me that we have possibly visitors

2016

01:14:03,110 --> 01:14:01,360

like working to protect us

2017

01:14:04,709 --> 01:14:03,120

so well that was that's the only thing i

2018

01:14:06,310 --> 01:14:04,719

could think of that would be worth it to

2019

01:14:08,790 --> 01:14:06,320

trade for

2020

01:14:12,390 --> 01:14:08,800

so you just kind of hit on one of the

2021

01:14:14,709 --> 01:14:12,400

topics in chains of the sea there's a

2022

01:14:16,470 --> 01:14:14,719

entity that lives on earth with us that

2023

01:14:18,709 --> 01:14:16,480

we can't perceive

2024

01:14:21,510 --> 01:14:18,719

the extraterrestrials come to earth at

2025

01:14:23,350 --> 01:14:21,520

the same time the humans see it and they

2026

01:14:25,590 --> 01:14:23,360

go and they try to figure it out and

2027

01:14:26,310 --> 01:14:25,600

they end up trying to attack it

2028

01:14:28,470 --> 01:14:26,320

but

2029

01:14:31,430 --> 01:14:28,480

the aliens aren't the extraterrestrials

2030

01:14:33,510 --> 01:14:31,440

are not here for us they're here to to

2031

01:14:36,550 --> 01:14:33,520

interact with these other beings that

2032

01:14:38,550 --> 01:14:36,560

they've had a relationship with for eons

2033

01:14:41,189 --> 01:14:38,560

so it could be that

2034

01:14:43,750 --> 01:14:41,199

we're protected as a byproduct of

2035

01:14:47,030 --> 01:14:43,760

another unseen

2036

01:14:47,990 --> 01:14:47,040

intelligence that's on earth that

2037

01:14:49,990 --> 01:14:48,000

we get

2038

01:14:52,470 --> 01:14:50,000

the benefit of protection

2039

01:14:54,310 --> 01:14:52,480

just like if uh more air what are the

2040

01:14:56,950 --> 01:14:54,320

little sucker fish that swim around on

2041

01:14:58,470 --> 01:14:56,960

the giant sharks whatever those things

2042

01:15:00,310 --> 01:14:58,480

are they're living the drink maybe

2043

01:15:02,470 --> 01:15:00,320

that's what we are there's a big shark

2044

01:15:07,270 --> 01:15:02,480

that we don't even realize that we're

2045

01:15:10,950 --> 01:15:08,709

do you think that they're communicating

2046

01:15:12,630 --> 01:15:10,960

with sea life

2047

01:15:15,270 --> 01:15:12,640

um according to star trek they

2048

01:15:16,950 --> 01:15:15,280

absolutely are

2049

01:15:18,790 --> 01:15:16,960

no according to dan warren i'm not

2050

01:15:20,870 --> 01:15:18,800

interested in bill shatner here i'm

2051

01:15:21,990 --> 01:15:20,880

sorry bill i don't mean that doesn't

2052

01:15:25,270 --> 01:15:22,000

mean we don't want to have you on the

2053

01:15:26,470 --> 01:15:25,280

show but go ahead oh man i don't know if

2054

01:15:29,030 --> 01:15:26,480

they're talking to anything in the

2055

01:15:30,870 --> 01:15:29,040

oceans um

2056

01:15:32,310 --> 01:15:30,880

i think they're probably talking to each

2057

01:15:34,229 --> 01:15:32,320

other in the oceans that's probably

2058

01:15:35,990 --> 01:15:34,239

where the conversation is i think that

2059

01:15:36,950 --> 01:15:36,000

they probably spend more time under the

2060

01:15:38,310 --> 01:15:36,960

sea

2061

01:15:40,390 --> 01:15:38,320

where we can't see them and they're

2062

01:15:42,950 --> 01:15:40,400

protected from us than they do in our

2063

01:15:44,149 --> 01:15:42,960

skies where we have at least a chance of

2064

01:15:45,830 --> 01:15:44,159

seeing them

2065

01:15:47,430 --> 01:15:45,840

that totally makes sense and i just want

2066

01:15:50,390 --> 01:15:47,440

to throw this out there in case you

2067

01:15:52,229 --> 01:15:50,400

didn't and i'm just for for dan i don't

2068

01:15:54,470 --> 01:15:52,239

know if you saw the episode where uh

2069

01:15:55,990 --> 01:15:54,480

dave mason and dave altman from a tear

2070

01:15:57,510 --> 01:15:56,000

in the sky were on

2071

01:15:59,910 --> 01:15:57,520

and um

2072

01:16:01,990 --> 01:15:59,920

dave mason said what they did is they

2073

01:16:03,910 --> 01:16:02,000

they were able to get recordings of

2074

01:16:06,229 --> 01:16:03,920

native whale sounds

2075

01:16:08,870 --> 01:16:06,239

and they were able to synthesize that

2076

01:16:11,110 --> 01:16:08,880

with light patterns so that

2077

01:16:11,910 --> 01:16:11,120

when they viewed the phenomenon they

2078

01:16:14,790 --> 01:16:11,920

would

2079

01:16:16,870 --> 01:16:14,800

um project these light patterns which

2080

01:16:19,910 --> 01:16:16,880

ostensibly were were the sounds of

2081

01:16:22,149 --> 01:16:19,920

whales at the phenomenon to say look

2082

01:16:24,950 --> 01:16:22,159

we're trying to communicate with you but

2083

01:16:27,030 --> 01:16:24,960

we're doing so in a way that's

2084

01:16:30,149 --> 01:16:27,040

using a species that's not as developed

2085

01:16:31,830 --> 01:16:30,159

at us and shows our our our humanity and

2086

01:16:34,149 --> 01:16:31,840

our our love of

2087

01:16:35,750 --> 01:16:34,159

uh other other beings that we share the

2088

01:16:38,149 --> 01:16:35,760

planet with or other species i should

2089

01:16:40,470 --> 01:16:38,159

say that's thinking outside of the box

2090

01:16:42,630 --> 01:16:40,480

for sure i wouldn't come up with that i

2091

01:16:43,910 --> 01:16:42,640

was i was blown away when he told these

2092

01:16:46,229 --> 01:16:43,920

guys can tell you when he said that i

2093

01:16:49,110 --> 01:16:46,239

was just like oh my god i was i was for

2094

01:16:50,229 --> 01:16:49,120

clamped i was like linda richmond

2095

01:16:52,149 --> 01:16:50,239

yeah

2096

01:16:52,870 --> 01:16:52,159

that's what the hell is that man

2097

01:16:54,229 --> 01:16:52,880

well

2098

01:16:55,750 --> 01:16:54,239

we're gonna take some uh some audience

2099

01:16:57,270 --> 01:16:55,760

questions then we have a few uh in the

2100

01:17:00,070 --> 01:16:57,280

chat um

2101

01:17:02,950 --> 01:17:00,080

deb i i started three i know we talked a

2102

01:17:05,189 --> 01:17:02,960

little bit about um

2103

01:17:07,430 --> 01:17:05,199

this sort of reevaluation of our past

2104

01:17:09,189 --> 01:17:07,440

our ancient past kind of we covered that

2105

01:17:10,630 --> 01:17:09,199

one a little bit but i like this

2106

01:17:12,870 --> 01:17:10,640

question dan so

2107

01:17:16,630 --> 01:17:12,880

do you believe the ufo phenomenon has

2108

01:17:19,110 --> 01:17:16,640

something to do with death

2109

01:17:25,189 --> 01:17:20,950

i don't know i

2110

01:17:27,030 --> 01:17:25,199

i'm struggling to answer that one um

2111

01:17:28,229 --> 01:17:27,040

or how do you maybe we can rephrase that

2112

01:17:30,709 --> 01:17:28,239

i mean i don't know what degree you're

2113

01:17:33,030 --> 01:17:30,719

familiar with the um you know the near

2114

01:17:34,630 --> 01:17:33,040

death experience accounts or the bigaloo

2115

01:17:36,550 --> 01:17:34,640

bigelow institute for consciousness

2116

01:17:38,950 --> 01:17:36,560

studies and you know kind of what we're

2117

01:17:40,390 --> 01:17:38,960

trying to glean from from those

2118

01:17:42,470 --> 01:17:40,400

experiences how much have you looked

2119

01:17:43,910 --> 01:17:42,480

into you know out of body near-death

2120

01:17:46,630 --> 01:17:43,920

death

2121

01:17:49,510 --> 01:17:46,640

past life all that kind of stuff

2122

01:17:51,750 --> 01:17:49,520

to a small extent i haven't dove into

2123

01:17:54,310 --> 01:17:51,760

that like uh other topics but i think

2124

01:17:56,790 --> 01:17:54,320

what the the overarching thing that i

2125

01:17:58,149 --> 01:17:56,800

heard you bring up was consciousness i

2126

01:17:59,350 --> 01:17:58,159

do think there's a consciousness

2127

01:18:02,149 --> 01:17:59,360

connection

2128

01:18:04,310 --> 01:18:02,159

what exactly it is and if it ends at the

2129

01:18:06,950 --> 01:18:04,320

point of the body's death

2130

01:18:08,709 --> 01:18:06,960

if we are just vessels like

2131

01:18:09,590 --> 01:18:08,719

tom belong says

2132

01:18:12,070 --> 01:18:09,600

if we're

2133

01:18:13,430 --> 01:18:12,080

receivers of consciousness instead of

2134

01:18:15,590 --> 01:18:13,440

transmitters

2135

01:18:17,830 --> 01:18:15,600

that to me is

2136

01:18:20,390 --> 01:18:17,840

something that's very intriguing

2137

01:18:22,870 --> 01:18:20,400

and could possibly be why

2138

01:18:25,430 --> 01:18:22,880

uh the uf how we

2139

01:18:27,510 --> 01:18:25,440

interact with the ufo phenomena maybe

2140

01:18:30,229 --> 01:18:27,520

it's on a conscious level

2141

01:18:32,470 --> 01:18:30,239

because when i i think louis elizondo

2142

01:18:34,790 --> 01:18:32,480

said it tom de long has said it a ufo's

2143

01:18:36,310 --> 01:18:34,800

rep is the representation of the nexus

2144

01:18:37,830 --> 01:18:36,320

between quantum physics and

2145

01:18:38,870 --> 01:18:37,840

consciousness

2146

01:18:41,830 --> 01:18:38,880

so

2147

01:18:43,590 --> 01:18:41,840

death is part of consciousness um

2148

01:18:44,790 --> 01:18:43,600

so i guess it does in in that

2149

01:18:45,590 --> 01:18:44,800

perspective

2150

01:18:49,830 --> 01:18:45,600

but

2151  
01:18:51,750 --> 01:18:49,840  
consciousness ceases at the time of

2152  
01:18:54,229 --> 01:18:51,760  
death then i wouldn't think they'd be

2153  
01:18:56,149 --> 01:18:54,239  
too interested in us after the fact

2154  
01:18:56,870 --> 01:18:56,159  
right but why are there ghosts

2155  
01:18:59,350 --> 01:18:56,880  
yeah

2156  
01:19:00,950 --> 01:18:59,360  
i i i have so many questions right here

2157  
01:19:02,470 --> 01:19:00,960  
that we're we're not going to get to

2158  
01:19:04,070 --> 01:19:02,480  
tonight but i want to take this one

2159  
01:19:05,510 --> 01:19:04,080  
around the panel i want to start with

2160  
01:19:07,750 --> 01:19:05,520  
you dan and then go to debs and then go

2161  
01:19:10,950 --> 01:19:07,760  
to nathan please but um

2162  
01:19:14,149 --> 01:19:10,960  
if you were to to uh go and arrive in

2163  
01:19:16,470 --> 01:19:14,159

clas chris bledsoe's property today and

2164

01:19:19,590 --> 01:19:16,480

he basically said to uh dan ask me

2165

01:19:24,310 --> 01:19:22,950

um i would probably say uh do you mind

2166

01:19:25,830 --> 01:19:24,320

if i move in

2167

01:19:28,070 --> 01:19:25,840

and no

2168

01:19:31,510 --> 01:19:28,080

you can't do it that's a perfect cab

2169

01:19:35,510 --> 01:19:33,030

i would have to grill them about the

2170

01:19:37,110 --> 01:19:35,520

lady like without without any doubt i'd

2171

01:19:40,229 --> 01:19:37,120

want to know more about that the fact

2172

01:19:41,110 --> 01:19:40,239

that it that he says she

2173

01:19:42,870 --> 01:19:41,120

and

2174

01:19:45,030 --> 01:19:42,880

she said she was hathor

2175

01:19:47,270 --> 01:19:45,040

like he got elaborate on that like what

2176

01:19:48,390 --> 01:19:47,280

else did she tell you that to me is

2177

01:19:50,470 --> 01:19:48,400

amazing

2178

01:19:52,950 --> 01:19:50,480

like i've said before

2179

01:19:55,830 --> 01:19:52,960

hearing him say that

2180

01:19:58,950 --> 01:19:55,840

makes the 2020 time frame that we're

2181

01:20:01,910 --> 01:19:58,960

living in now and the egyptian pyramid

2182

01:20:04,550 --> 01:20:01,920

era crashed together in a beautiful way

2183

01:20:07,270 --> 01:20:04,560

like if there is some way for me to link

2184

01:20:10,870 --> 01:20:07,280

back to that era which is

2185

01:20:12,149 --> 01:20:10,880

my hands down favorite error in human uh

2186

01:20:15,189 --> 01:20:12,159

civilization

2187

01:20:16,950 --> 01:20:15,199

it's it's what i first

2188

01:20:19,110 --> 01:20:16,960

became obsessed with first i became

2189

01:20:21,189 --> 01:20:19,120

obsessed with looking and memorizing all

2190

01:20:22,470 --> 01:20:21,199

the fish in the encyclopedia that we had

2191

01:20:24,550 --> 01:20:22,480

in my house

2192

01:20:27,590 --> 01:20:24,560

um but then i started getting into the

2193

01:20:31,510 --> 01:20:27,600

egyptian civilization that that lived

2194

01:20:32,950 --> 01:20:31,520

to such a large level back then and

2195

01:20:35,350 --> 01:20:32,960

for for that to be something that could

2196

01:20:37,590 --> 01:20:35,360

be present in today in modern times that

2197

01:20:38,950 --> 01:20:37,600

would blow my mind that would be awesome

2198

01:20:40,310 --> 01:20:38,960

that's what i would want to ask them

2199

01:20:41,910 --> 01:20:40,320

about is tell me

2200

01:20:43,990 --> 01:20:41,920

if they told you anything about egypt

2201

01:20:46,709 --> 01:20:44,000

how do they build those pyramids is that

2202

01:20:48,870 --> 01:20:46,719

a void yes yes

2203

01:20:50,629 --> 01:20:48,880

i love it that is a great question and

2204

01:20:53,510 --> 01:20:50,639

you know what when i meet up with dan

2205

01:20:56,070 --> 01:20:53,520

this time uh when he comes to uh destin

2206

01:20:58,709 --> 01:20:56,080

or miramar i'm gonna talk less keep my

2207

01:21:01,110 --> 01:20:58,719

mouth shut more and i or listen more and

2208

01:21:03,510 --> 01:21:01,120

keep my mouth shut more so

2209

01:21:05,430 --> 01:21:03,520

because you're fascinating deb if you

2210

01:21:06,950 --> 01:21:05,440

were to arrive on the blood soap

2211

01:21:09,350 --> 01:21:06,960

property which is certainly not out of

2212

01:21:10,470 --> 01:21:09,360

the question yet uh what would you ask

2213

01:21:15,430 --> 01:21:10,480

him

2214

01:21:19,910 --> 01:21:15,440

about the healing he has conveyed that

2215

01:21:22,709 --> 01:21:19,920

he's gotten the gift of healing um to

2216

01:21:25,189 --> 01:21:22,719

from the phenomenon so i would like to

2217

01:21:26,950 --> 01:21:25,199

know more about that

2218

01:21:28,390 --> 01:21:26,960

love it yeah that was actually gonna be

2219

01:21:29,990 --> 01:21:28,400

mine too the healing i mean that's

2220

01:21:30,950 --> 01:21:30,000

really fascinating to me

2221

01:21:32,870 --> 01:21:30,960

um

2222

01:21:35,350 --> 01:21:32,880

and i guess if i had to go with a second

2223

01:21:37,990 --> 01:21:35,360

one it would be you know

2224

01:21:40,229 --> 01:21:38,000

he seemingly has uh

2225

01:21:41,750 --> 01:21:40,239

you know some ability to remote view or

2226

01:21:43,910 --> 01:21:41,760

you know he has some kind of psy ability

2227

01:21:46,390 --> 01:21:43,920

so i would love to hear more about like

2228

01:21:48,550 --> 01:21:46,400

what he can do there

2229

01:21:50,629 --> 01:21:48,560

yeah i've heard some not good uh

2230

01:21:52,790 --> 01:21:50,639

premonitions that he's had maybe i don't

2231

01:21:55,110 --> 01:21:52,800

want to hear about maybe yeah just bliss

2232

01:21:56,629 --> 01:21:55,120

on some of that stuff right that's

2233

01:21:58,149 --> 01:21:56,639

another question that i want you're

2234

01:21:59,669 --> 01:21:58,159

going to want to ask the panel if we end

2235

01:22:02,870 --> 01:21:59,679

up having enough time

2236

01:22:04,390 --> 01:22:02,880

um is about the the the worst possible

2237

01:22:07,030 --> 01:22:04,400

scenarios of interaction with the

2238

01:22:10,310 --> 01:22:07,040

phenomenon but for me i think i would

2239

01:22:12,310 --> 01:22:10,320

want to ask him the the time that he was

2240

01:22:14,149 --> 01:22:12,320

in the craft and actually

2241

01:22:16,310 --> 01:22:14,159

went for a ride what did they

2242

01:22:18,950 --> 01:22:16,320

communicate to him

2243

01:22:21,750 --> 01:22:18,960

what entered his mind that they either

2244

01:22:25,030 --> 01:22:21,760

projected into his mind or made him feel

2245

01:22:27,830 --> 01:22:25,040

like i would want to just get into that

2246

01:22:29,110 --> 01:22:27,840

experience about it was it tactile

2247

01:22:30,229 --> 01:22:29,120

uh

2248

01:22:31,750 --> 01:22:30,239

visceral

2249

01:22:33,510 --> 01:22:31,760

all these sorts of things so that that's

2250

01:22:35,669 --> 01:22:33,520

what i would want to ask him

2251

01:22:38,229 --> 01:22:35,679

um deb do you do you have something that

2252

01:22:40,550 --> 01:22:38,239

you'd like to uh present to the the

2253

01:22:42,070 --> 01:22:40,560

group

2254

01:22:43,830 --> 01:22:42,080

um

2255

01:22:44,550 --> 01:22:43,840

what do you mean by percent do you mean

2256

01:22:54,629 --> 01:22:44,560

like

2257

01:23:00,229 --> 01:22:56,950

actually what i was going to do is tie

2258

01:23:00,950 --> 01:23:00,239

in one question that um our friend david

2259

01:23:03,510 --> 01:23:00,960

had

2260

01:23:04,950 --> 01:23:03,520

um brought up that we sort of answered

2261

01:23:07,830 --> 01:23:04,960

but i'm going to change it a little bit

2262

01:23:09,189 --> 01:23:07,840

his question was will the paradigm

2263

01:23:10,070 --> 01:23:09,199

um

2264

01:23:12,229 --> 01:23:10,080

it's

2265

01:23:14,709 --> 01:23:12,239

david smith hurst

2266

01:23:16,950 --> 01:23:14,719

oh dave smithers okay yeah okay

2267

01:23:20,629 --> 01:23:16,960

so he had said will the paradigm shift

2268

01:23:23,189 --> 01:23:20,639

uap disclosure um bring

2269

01:23:26,070 --> 01:23:23,199

brings okay i think i needed a comma

2270

01:23:29,110 --> 01:23:26,080

there well the paradigm shift

2271

01:23:30,870 --> 01:23:29,120

uap disclosure brings lead to a

2272

01:23:33,189 --> 01:23:30,880

re-evaluation of our ancient past so we

2273

01:23:34,870 --> 01:23:33,199

kind of covered that right so

2274

01:23:36,870 --> 01:23:34,880

what i thought i'd ask and we can just

2275

01:23:37,910 --> 01:23:36,880

kind of throw this out to everyone

2276

01:23:41,750 --> 01:23:37,920

is

2277

01:23:44,709 --> 01:23:41,760

what paradigm shift do you guys foresee

2278

01:23:46,950 --> 01:23:44,719

in the near future when this does become

2279

01:23:48,790 --> 01:23:46,960

more evident more disclosed do you think

2280

01:23:50,229 --> 01:23:48,800

i personally i just have to say is i

2281

01:23:51,910 --> 01:23:50,239

don't think society is going to fall

2282

01:23:53,430 --> 01:23:51,920

apart i think they have a two-week

2283

01:23:57,270 --> 01:23:53,440

attention span and they're going to move

2284

01:24:02,149 --> 01:23:59,110

do you want to take that first nathan no

2285

01:24:04,229 --> 01:24:02,159

i'm going to give dan that one fast

2286

01:24:06,149 --> 01:24:04,239

give it to the guest um i think there's

2287

01:24:08,950 --> 01:24:06,159

going to be a uh

2288

01:24:10,550 --> 01:24:08,960

a palpable anger that

2289

01:24:13,350 --> 01:24:10,560

brews

2290

01:24:15,750 --> 01:24:13,360

from a very broad base

2291

01:24:18,950 --> 01:24:15,760

in the united states in particular

2292

01:24:21,270 --> 01:24:18,960

that is going to not be a good

2293

01:24:22,790 --> 01:24:21,280

outcome for the military industrial

2294

01:24:23,750 --> 01:24:22,800

complex

2295

01:24:25,510 --> 01:24:23,760

which is

2296

01:24:27,910 --> 01:24:25,520

justification in my mind for them

2297

01:24:30,870 --> 01:24:27,920

wanting to keep it as a closely guarded

2298

01:24:33,510 --> 01:24:30,880

secret um i think

2299

01:24:35,830 --> 01:24:33,520

the the lack of trust that we're gonna

2300

01:24:38,629 --> 01:24:35,840

be able to put in our

2301

01:24:40,070 --> 01:24:38,639

um well i'll say it this way

2302

01:24:42,790 --> 01:24:40,080

the lack of trust that we're gonna be

2303

01:24:44,629 --> 01:24:42,800

able to put in our past leaders

2304

01:24:47,030 --> 01:24:44,639

is going to be replaced by

2305

01:24:49,430 --> 01:24:47,040

trust that we're going to have in the

2306

01:24:51,510 --> 01:24:49,440

leaders that are pushing this effort now

2307

01:24:53,910 --> 01:24:51,520

to get disclosure to get

2308

01:24:55,750 --> 01:24:53,920

the truth out to the populace

2309

01:24:58,870 --> 01:24:55,760

i think that's going to be a major shift

2310

01:25:01,270 --> 01:24:58,880

i think it's going to be less about me

2311

01:25:03,430 --> 01:25:01,280

red fighting blue and more about

2312

01:25:05,750 --> 01:25:03,440

who was telling the truth and who was in

2313

01:25:06,870 --> 01:25:05,760

the dark or who was

2314

01:25:10,470 --> 01:25:06,880

actively

2315

01:25:15,350 --> 01:25:10,480

engaging in uh

2316

01:25:19,750 --> 01:25:16,629

yeah i mean i think it's gonna be

2317

01:25:21,430 --> 01:25:19,760

incredibly disruptive um

2318

01:25:22,790 --> 01:25:21,440

and not maybe in

2319

01:25:24,950 --> 01:25:22,800

in some obvious ways maybe some

2320

01:25:26,070 --> 01:25:24,960

non-obvious ways but

2321

01:25:26,870 --> 01:25:26,080

i don't think i think there's going to

2322

01:25:29,590 --> 01:25:26,880

be

2323

01:25:31,590 --> 01:25:29,600

a real period of um

2324

01:25:32,950 --> 01:25:31,600

you know kind of soul searching and

2325

01:25:34,550 --> 01:25:32,960

reckoning that we're going to have to do

2326

01:25:35,990 --> 01:25:34,560

with with the story

2327

01:25:38,709 --> 01:25:36,000

um in part because i don't know that

2328

01:25:40,070 --> 01:25:38,719

we're going to get all the answers um

2329

01:25:41,750 --> 01:25:40,080

it's really gonna

2330

01:25:43,750 --> 01:25:41,760

in my opinion at least set the table

2331

01:25:45,830 --> 01:25:43,760

it's gonna give permission for people to

2332

01:25:47,590 --> 01:25:45,840

take this seriously and then that

2333

01:25:48,950 --> 01:25:47,600

validates a lot of experience that

2334

01:25:51,350 --> 01:25:48,960

people have had

2335

01:25:53,910 --> 01:25:51,360

uh with a whole sort of

2336

01:25:55,030 --> 01:25:53,920

multiplicity of phenomena and and then

2337

01:25:59,750 --> 01:25:55,040

how do we

2338

01:26:01,189 --> 01:25:59,760

or kind of get some sort of larger

2339

01:26:02,790 --> 01:26:01,199

learning at it so to send some new

2340

01:26:05,030 --> 01:26:02,800

disciplines will emerge

2341

01:26:06,830 --> 01:26:05,040

uh some new religious practices will

2342

01:26:09,830 --> 01:26:06,840

emerge undoubtedly

2343

01:26:11,669 --> 01:26:09,840

um you know i i've mentioned this to dj

2344

01:26:14,550 --> 01:26:11,679

plenty of times but and on the show as

2345

01:26:16,229 --> 01:26:14,560

well i mean my my hope my optimism is

2346

01:26:19,110 --> 01:26:16,239

that

2347

01:26:21,350 --> 01:26:19,120

you know if it requires a societal shift

2348

01:26:24,709 --> 01:26:21,360

in understanding if it requires just

2349

01:26:25,990 --> 01:26:24,719

enough of our human civilization to be

2350

01:26:29,669 --> 01:26:26,000

ready to

2351

01:26:32,310 --> 01:26:29,679

accept this reality that that's a point

2352

01:26:34,790 --> 01:26:32,320

at which whatever this is or at least

2353

01:26:37,510 --> 01:26:34,800

something one of the groups that are in

2354

01:26:41,030 --> 01:26:37,520

a part of this will emerge from that

2355

01:26:41,830 --> 01:26:41,040

kind of uh obscure place and take a more

2356

01:26:43,990 --> 01:26:41,840

uh

2357

01:26:46,149 --> 01:26:44,000

active engagement with us as a as a

2358

01:26:48,310 --> 01:26:46,159

civilization i i'm not sure we can

2359

01:26:50,790 --> 01:26:48,320

navigate this just on our own in other

2360

01:26:52,390 --> 01:26:50,800

words i really think we need uh some

2361

01:26:54,550 --> 01:26:52,400

assistance from

2362

01:26:56,870 --> 01:26:54,560

other and other being or beings who have

2363

01:26:59,350 --> 01:26:56,880

kind of been down this path before

2364

01:27:01,990 --> 01:26:59,360

uh and maybe are ready to assist us in

2365

01:27:03,590 --> 01:27:02,000

navigating this kind of uncertain

2366

01:27:05,430 --> 01:27:03,600

future i'm not sure we can handle it

2367

01:27:07,830 --> 01:27:05,440

just with the tools that we have and

2368

01:27:10,310 --> 01:27:07,840

with them what you know then i use that

2369

01:27:11,669 --> 01:27:10,320

in in kind of the broadest sense uh

2370

01:27:13,350 --> 01:27:11,679

being in the

2371

01:27:15,270 --> 01:27:13,360

sort of in the shadows in the way that

2372

01:27:16,950 --> 01:27:15,280

they are now

2373

01:27:18,790 --> 01:27:16,960

we only have two minutes left i think

2374

01:27:20,790 --> 01:27:18,800

deb is asking do you think that that's

2375

01:27:23,350 --> 01:27:20,800

going to happen nathan i think that's

2376

01:27:24,149 --> 01:27:23,360

what she's asking is it will that be not

2377

01:27:29,910 --> 01:27:24,159

to

2378

01:27:31,590 --> 01:27:29,920

these kind of continued slow

2379

01:27:33,590 --> 01:27:31,600

admissions

2380

01:27:35,110 --> 01:27:33,600

and

2381

01:27:38,390 --> 01:27:35,120

you know there will be these kind of

2382

01:27:40,470 --> 01:27:38,400

voids that are created that

2383

01:27:41,510 --> 01:27:40,480

will be filled with more speculation

2384

01:27:43,110 --> 01:27:41,520

i don't think we're going to get the

2385

01:27:44,550 --> 01:27:43,120

full answers and i think it's going to

2386

01:27:46,390 --> 01:27:44,560

take quite a long time for us to get

2387

01:27:48,629 --> 01:27:46,400

those answers unless we have that you

2388

01:27:50,550 --> 01:27:48,639

know more active engagement from one of

2389

01:27:52,470 --> 01:27:50,560

these parties

2390

01:27:54,550 --> 01:27:52,480

and we only have about a minute left uh

2391

01:27:56,629 --> 01:27:54,560

we'll just go just a couple minutes over

2392

01:27:58,229 --> 01:27:56,639

just to get this last answer out and

2393

01:27:59,910 --> 01:27:58,239

then we'll start saying our goodbyes and

2394

01:28:03,030 --> 01:27:59,920

we'll start begging dan to come back on

2395

01:28:05,830 --> 01:28:03,040

again um uh we'll begin we'll begin the

2396

01:28:06,950 --> 01:28:05,840

begging and writing checks but um

2397

01:28:08,470 --> 01:28:06,960

the

2398

01:28:10,470 --> 01:28:08,480

you know in my mind i'm kind of like

2399

01:28:13,510 --> 01:28:10,480

thinking about a belt sander

2400

01:28:16,070 --> 01:28:13,520

and if i have a hand belt sander and

2401

01:28:19,030 --> 01:28:16,080

depending upon what grid i use and how

2402

01:28:21,990 --> 01:28:19,040

much pressure i apply to that piece of

2403

01:28:24,310 --> 01:28:22,000

wood i can really make a big impact

2404

01:28:27,430 --> 01:28:24,320

on that piece of wood

2405

01:28:30,870 --> 01:28:27,440

but if i really want a fine piece of

2406

01:28:33,030 --> 01:28:30,880

wood where when it's done i can dress it

2407

01:28:35,189 --> 01:28:33,040

you know with a good stain and and

2408

01:28:37,750 --> 01:28:35,199

perhaps a good a good protective coating

2409

01:28:40,390 --> 01:28:37,760

like a urethane i might take a finer

2410

01:28:43,270 --> 01:28:40,400

grain of of of sandpaper on that hand

2411

01:28:44,390 --> 01:28:43,280

belt sander and just just press it down

2412

01:28:47,030 --> 01:28:44,400

gently

2413

01:28:48,709 --> 01:28:47,040

and let it start to remove the material

2414

01:28:49,590 --> 01:28:48,719

that's there that that's blocking the

2415

01:28:52,390 --> 01:28:49,600

true

2416

01:28:53,830 --> 01:28:52,400

beauty of the wood

2417

01:28:55,430 --> 01:28:53,840

and i think

2418

01:28:57,669 --> 01:28:55,440

that's the approach

2419

01:29:00,390 --> 01:28:57,679

uh that will happen i think some of that

2420

01:29:02,950 --> 01:29:00,400

will happen because the the phenomenon

2421

01:29:04,629 --> 01:29:02,960

has presented itself and because of the

2422

01:29:05,910 --> 01:29:04,639

fact that they're now reporting

2423

01:29:08,790 --> 01:29:05,920

procedures

2424

01:29:11,590 --> 01:29:08,800

and we saw one pilot the other night

2425

01:29:13,750 --> 01:29:11,600

talk about it we saw two pilots the

2426  
01:29:16,310 --> 01:29:13,760  
other night say you know what we're not

2427  
01:29:18,470 --> 01:29:16,320  
going to say it on talk to la center

2428  
01:29:19,510 --> 01:29:18,480  
radar control and tell them about it but

2429  
01:29:21,510 --> 01:29:19,520  
we're going to call that pilot

2430  
01:29:24,550 --> 01:29:21,520  
afterwards which takes a significant

2431  
01:29:26,629 --> 01:29:24,560  
amount of effort for them to get to to

2432  
01:29:28,390 --> 01:29:26,639  
for for them to figure out that guy's

2433  
01:29:30,310 --> 01:29:28,400  
call sign find out what company he's

2434  
01:29:32,229 --> 01:29:30,320  
with call that company get his cell

2435  
01:29:34,950 --> 01:29:32,239  
phone number and call that guy

2436  
01:29:36,790 --> 01:29:34,960  
uh and they did that so one out of three

2437  
01:29:39,270 --> 01:29:36,800  
right now reported it just the other

2438  
01:29:41,510 --> 01:29:39,280

night so we're in a really good spot

2439

01:29:43,830 --> 01:29:41,520

right now and we're talking about

2440

01:29:45,270 --> 01:29:43,840

subject matter experts that are seeing

2441

01:29:47,590 --> 01:29:45,280

something

2442

01:29:49,669 --> 01:29:47,600

five to ten thousand feet above flight

2443

01:29:51,270 --> 01:29:49,679

level four seven zero or forty seven

2444

01:29:54,470 --> 01:29:51,280

thousand feet

2445

01:29:57,030 --> 01:29:54,480

um that said that is flashing in a way

2446

01:29:59,669 --> 01:29:57,040

that looks anomalous not like the navy

2447

01:30:01,510 --> 01:29:59,679

ship snoopy team video to me that i

2448

01:30:04,950 --> 01:30:01,520

can't i can't glean anything from

2449

01:30:07,110 --> 01:30:04,960

looking at that but when they talk about

2450

01:30:09,110 --> 01:30:07,120

an aircraft at that altitude going into

2451  
01:30:10,070 --> 01:30:09,120  
bank and taking half the state of ohio

2452  
01:30:12,149 --> 01:30:10,080  
to make

2453  
01:30:13,030 --> 01:30:12,159  
one revolution

2454  
01:30:14,790 --> 01:30:13,040  
then

2455  
01:30:17,030 --> 01:30:14,800  
but yet these things are seeing them

2456  
01:30:18,950 --> 01:30:17,040  
doing tight circles coming right over

2457  
01:30:22,070 --> 01:30:18,960  
the windscreen and circling above that

2458  
01:30:25,750 --> 01:30:22,080  
craft now i know that the phenomenon is

2459  
01:30:28,310 --> 01:30:25,760  
showing what it can do showing its wares

2460  
01:30:29,830 --> 01:30:28,320  
saying look at me look at this

2461  
01:30:32,629 --> 01:30:29,840  
just like it did to those tucson

2462  
01:30:34,790 --> 01:30:32,639  
helicopters kind of thing

2463  
01:30:37,510 --> 01:30:34,800

so yeah i think the phenomenon is going

2464

01:30:40,070 --> 01:30:37,520

to play a role in this but i think from

2465

01:30:40,709 --> 01:30:40,080

the pers the human perspective we need

2466

01:30:43,030 --> 01:30:40,719

to

2467

01:30:45,030 --> 01:30:43,040

put that belt sander down with a fine

2468

01:30:46,870 --> 01:30:45,040

grit sandpaper right dan

2469

01:30:49,350 --> 01:30:46,880

and then just put a gentle amount of

2470

01:30:50,470 --> 01:30:49,360

pressure and then just let it start to

2471

01:30:51,910 --> 01:30:50,480

remove

2472

01:30:52,870 --> 01:30:51,920

that old

2473

01:30:55,350 --> 01:30:52,880

dead

2474

01:30:56,950 --> 01:30:55,360

material that is covering up the beauty

2475

01:30:59,990 --> 01:30:56,960

of that wood and eventually we'll get

2476

01:31:06,790 --> 01:31:02,870

220 grit at least yeah there you go

2477

01:31:09,510 --> 01:31:06,800

400 if you really want to be smooth

2478

01:31:11,350 --> 01:31:09,520

so uh we gotta you know that's about

2479

01:31:12,709 --> 01:31:11,360

this went by so fast dan we're like

2480

01:31:14,390 --> 01:31:12,719

we're gonna take an hour and a half

2481

01:31:16,550 --> 01:31:14,400

today well we took an hour and a half

2482

01:31:17,990 --> 01:31:16,560

and i still have a whole bunch of

2483

01:31:20,470 --> 01:31:18,000

questions we're going to get into

2484

01:31:23,110 --> 01:31:20,480

exorcism and catholicism where we're

2485

01:31:26,070 --> 01:31:23,120

going to get into coral castle with you

2486

01:31:27,910 --> 01:31:26,080

so uh yeah

2487

01:31:30,470 --> 01:31:27,920

i haven't ever been down there have you

2488

01:31:32,950 --> 01:31:30,480

been down there i've not been there and

2489

01:31:35,430 --> 01:31:32,960

i'm so sad because i did go to homestead

2490

01:31:37,990 --> 01:31:35,440

within days of me retiring from the air

2491

01:31:40,149 --> 01:31:38,000

force i i drove there spent a week there

2492

01:31:43,270 --> 01:31:40,159

and then departed to move to brazil from

2493

01:31:44,149 --> 01:31:43,280

there but uh but i want to go and

2494

01:31:46,470 --> 01:31:44,159

so

2495

01:31:47,830 --> 01:31:46,480

let's make this pitch now dan will you

2496

01:31:50,310 --> 01:31:47,840

come back on with us we'll have like

2497

01:31:52,149 --> 01:31:50,320

another fireside chat have another guest

2498

01:31:55,030 --> 01:31:52,159

and and we'll just drag you right into

2499

01:31:56,149 --> 01:31:55,040

that yeah i'm game

2500

01:31:57,830 --> 01:31:56,159

count me in

2501

01:32:01,189 --> 01:31:57,840

i'll bring a log

2502

01:32:04,390 --> 01:32:01,199

it it's an honor man to have you on um

2503

01:32:07,430 --> 01:32:04,400

it really is uh you you're such amazing

2504

01:32:09,189 --> 01:32:07,440

conversation is as much there's i

2505

01:32:11,030 --> 01:32:09,199

i can't think of anybody we've we've had

2506

01:32:12,870 --> 01:32:11,040

on this better conversation

2507

01:32:15,350 --> 01:32:12,880

in the two or three times that you've

2508

01:32:17,110 --> 01:32:15,360

been on with us including before i even

2509

01:32:20,390 --> 01:32:17,120

had nathan and had calling all beings

2510

01:32:22,390 --> 01:32:20,400

you came on with me um and you know and

2511

01:32:24,310 --> 01:32:22,400

made conversation i really appreciate

2512

01:32:28,470 --> 01:32:24,320

that um so

2513

01:32:30,470 --> 01:32:28,480

with that let me pass it over to uh debs

2514

01:32:32,950 --> 01:32:30,480

i just wanted to commend you for all

2515

01:32:34,950 --> 01:32:32,960

your work you know you do such deep

2516

01:32:37,669 --> 01:32:34,960

research and you find a way to make it

2517

01:32:39,510 --> 01:32:37,679

like really palpable for people in such

2518

01:32:41,430 --> 01:32:39,520

a short period of time and then and then

2519

01:32:43,430 --> 01:32:41,440

the fact that you share it with us on

2520

01:32:45,669 --> 01:32:43,440

other forums is much appreciated because

2521

01:32:46,950 --> 01:32:45,679

some of us are too old for tick tock

2522

01:32:49,990 --> 01:32:46,960

but

2523

01:32:52,709 --> 01:32:50,000

i just yeah thank you so much i i'm very

2524

01:32:55,030 --> 01:32:52,719

grateful for what you do uh it's it's

2525

01:32:57,750 --> 01:32:55,040

it's fun to do it like i'm a

2526

01:33:00,790 --> 01:32:57,760

goal-oriented person so for me to dig

2527

01:33:03,110 --> 01:33:00,800

into the research and then have a pro

2528

01:33:05,430 --> 01:33:03,120

a goal in mind a product at the end of

2529

01:33:07,590 --> 01:33:05,440

it it's a reward for myself it's what

2530

01:33:10,470 --> 01:33:07,600

helps keep me going and i'm just shocked

2531

01:33:12,470 --> 01:33:10,480

and amazed that other people enjoy it as

2532

01:33:14,310 --> 01:33:12,480

well and i couldn't be happier about it

2533

01:33:16,149 --> 01:33:14,320

it's it's great to have people

2534

01:33:17,510 --> 01:33:16,159

appreciate the work that you put into

2535

01:33:19,910 --> 01:33:17,520

something like this

2536

01:33:21,750 --> 01:33:19,920

and i'm glad some people get value out

2537

01:33:23,350 --> 01:33:21,760

of it so i appreciate you appreciating

2538

01:33:26,070 --> 01:33:23,360

it

2539

01:33:28,070 --> 01:33:26,080

yeah absolutely echo that uh dan you're

2540

01:33:29,590 --> 01:33:28,080

you're the real deal um

2541

01:33:32,229 --> 01:33:29,600

you know you've always been incredibly

2542

01:33:34,070 --> 01:33:32,239

gracious and and kind to uh

2543

01:33:36,070 --> 01:33:34,080

at least in my interactions with you and

2544

01:33:37,510 --> 01:33:36,080

and i think you know you're always

2545

01:33:40,070 --> 01:33:37,520

tomorrow there's always tomorrow we

2546

01:33:41,590 --> 01:33:40,080

could definitely change it uh if we want

2547

01:33:42,390 --> 01:33:41,600

given what's going on

2548

01:33:44,790 --> 01:33:42,400

uh

2549

01:33:46,870 --> 01:33:44,800

but you know huge props to your your

2550

01:33:48,709 --> 01:33:46,880

work ethic on this and and your eye for

2551

01:33:50,550 --> 01:33:48,719

things you know the way that you break

2552

01:33:52,709 --> 01:33:50,560

things down and communicate

2553

01:33:54,550 --> 01:33:52,719

these topics in a really easy to digest

2554

01:33:57,110 --> 01:33:54,560

manner i mean that is not easy to do you

2555

01:33:58,390 --> 01:33:57,120

make it look easy uh and just you know i

2556

01:34:01,189 --> 01:33:58,400

can't thank you enough for doing that

2557

01:34:03,030 --> 01:34:01,199

and i'm really happy to count you as a

2558

01:34:05,350 --> 01:34:03,040

you know as a colleague in this space of

2559

01:34:06,470 --> 01:34:05,360

conversation and uh looking forward to

2560

01:34:07,990 --> 01:34:06,480

future conversations that we're gonna

2561

01:34:09,590 --> 01:34:08,000

have together

2562

01:34:11,430 --> 01:34:09,600

all right well i appreciate you guys

2563

01:34:13,189 --> 01:34:11,440

having me on and we'll definitely do

2564

01:34:15,910 --> 01:34:13,199

this again in the future and i'll be

2565

01:34:18,950 --> 01:34:15,920

hanging out with dj at a

2566

01:34:20,470 --> 01:34:18,960

beach in florida here soon so

2567

01:34:21,990 --> 01:34:20,480

we'll you'll see a picture of us on

2568

01:34:23,990 --> 01:34:22,000

twitter i'm sure

2569

01:34:25,990 --> 01:34:24,000

awesome yeah i'm so honored and so

2570

01:34:28,229 --> 01:34:26,000

blessed and i i can't wait to see i'm

2571

01:34:29,830 --> 01:34:28,239

headed to the uk next week where i'm

2572

01:34:30,870 --> 01:34:29,840

going to see the aforementioned david

2573

01:34:33,750 --> 01:34:30,880

smithers

2574

01:34:34,709 --> 01:34:33,760

and vinnie uh disclosure team and and

2575

01:34:36,709 --> 01:34:34,719

dan

2576

01:34:37,669 --> 01:34:36,719

davey johnston graham

2577

01:34:40,390 --> 01:34:37,679

uh

2578

01:34:43,189 --> 01:34:40,400

man marcio boyle is going to be there

2579

01:34:44,470 --> 01:34:43,199

uh maxie mccabe so there's gonna be a

2580

01:34:45,990 --> 01:34:44,480

slew of our friends they're gonna get

2581

01:34:47,830 --> 01:34:46,000

together and i just wish i could bring

2582

01:34:50,629 --> 01:34:47,840

all of you with me that that's one of

2583

01:34:53,430 --> 01:34:50,639

the biggest benefits to being on ufo

2584

01:34:55,750 --> 01:34:53,440

twitter is you have relationships around

2585

01:34:58,629 --> 01:34:55,760

the globe like i have them in australia

2586

01:35:01,189 --> 01:34:58,639

i have them in europe it's crazy that we

2587

01:35:03,990 --> 01:35:01,199

have this ability to network amongst

2588

01:35:06,310 --> 01:35:04,000

each other on a common topic like this

2589

01:35:08,070 --> 01:35:06,320

which is one of my my hopes for the ufo

2590

01:35:10,070 --> 01:35:08,080

phenomenon is it will bring people

2591

01:35:11,510 --> 01:35:10,080

together i think it'll be that it'll be

2592

01:35:13,109 --> 01:35:11,520

that way for a while but then we'll

2593

01:35:14,950 --> 01:35:13,119

fight amongst each other just like we

2594

01:35:15,830 --> 01:35:14,960

always do but i'm hoping that it'll help

2595

01:35:17,830 --> 01:35:15,840

us

2596

01:35:20,070 --> 01:35:17,840

have a moment of reflection

2597

01:35:21,830 --> 01:35:20,080

you know come together on that i also

2598

01:35:22,950 --> 01:35:21,840

want to thank jewels of the wood dan

2599

01:35:26,390 --> 01:35:22,960

mentioned her

2600

01:35:27,510 --> 01:35:26,400

wood there's no e in there

2601

01:35:30,070 --> 01:35:27,520

probably because she ran out of

2602

01:35:32,390 --> 01:35:30,080

characters but um she's a wonderful

2603

01:35:34,550 --> 01:35:32,400

beautiful person we're very thankful

2604

01:35:36,709 --> 01:35:34,560

that she's uh decided to help us out

2605

01:35:39,430 --> 01:35:36,719

with the chat uh because we certainly

2606

01:35:41,430 --> 01:35:39,440

needed it uh and dan yeah i'll be

2607

01:35:43,430 --> 01:35:41,440

getting with you uh in short order so

2608

01:35:45,270 --> 01:35:43,440

that when we do another one of these uh

2609

01:35:47,510 --> 01:35:45,280

we can just add you in there because

2610

01:35:48,790 --> 01:35:47,520

you're just so damn good it's ridiculous

2611

01:35:54,629 --> 01:35:48,800

so

2612

01:35:57,109 --> 01:35:54,639

this is dj and cab give us a like give

2613

01:35:59,109 --> 01:35:57,119

2614

01:36:01,030 --> 01:35:59,119

love that you've given us and made this

2615

01:36:03,669 --> 01:36:01,040

so much fun for us to do this i think

2616

01:36:05,109 --> 01:36:03,679

like dan we're always wondering what's

2620

01:36:12,149 --> 01:36:11,280

up around the bend

2621

01:36:13,450 --> 01:36:12,159

peace
