00:00:01,490 --> 00:00:09,790

[Music]

2
00:00:15,650 --> 00:00:12,709

thank you

3
00:00:17,689 --> 00:00:15,660

welcome back to calling all beings I am

4
00:00:21,050 --> 00:00:17,699

your host Nathan that's our super mellow

5
00:00:23,210 --> 00:00:21,060

intro for our fireside chat sessions

6
00:00:25,609 --> 00:00:23,220

which we have introduced over the last

7
00:00:26,929 --> 00:00:25,619

few weeks and uh it's been a fun way to

8
00:00:27,710 --> 00:00:26,939

have a conversation we're just kind of

9
00:00:30,230 --> 00:00:27,720

doing something a little bit more

10
00:00:31,370 --> 00:00:30,240

informal than a a regular interview just

11
00:00:33,650 --> 00:00:31,380

allows us to kind of Go in different

12
00:00:35,330 --> 00:00:33,660

directions and also provides our our

13
00:00:36,650 --> 00:00:35,340

guests with a chance to ask questions as

14

00:00:38,810 --> 00:00:36,660

well so it keeps it kind of interesting

15

00:00:40,190 --> 00:00:38,820

in that regard uh it's been a little

16

00:00:42,590 --> 00:00:40,200

while since we've had a show it's good

17

00:00:45,170 --> 00:00:42,600

to be back on with everybody DJ is out

18

00:00:47,450 --> 00:00:45,180

in the field he's watching some Moto GP

19

00:00:50,029 --> 00:00:47,460

racing as we speak he's going to try to

20

00:00:51,709 --> 00:00:50,039

join us if he gets a chance to with a

21

00:00:54,889 --> 00:00:51,719

mobile connection so we'll see if he

22

00:00:56,750 --> 00:00:54,899

pops on a little bit but until he does I

23

00:00:58,430 --> 00:00:56,760

want to catch up with my co-host for the

24

00:00:59,330 --> 00:00:58,440

day Deb Deb how's it going what you've

25

00:01:02,569 --> 00:00:59,340

been up to

26
00:01:03,650 --> 00:01:02,579
oh I've been busy doing research reading

27
00:01:06,050 --> 00:01:03,660
books

28
00:01:08,450 --> 00:01:06,060
um I took the week off so I could get

29
00:01:11,330 --> 00:01:08,460
some relaxation in before things get

30
00:01:13,910 --> 00:01:11,340
really busy with work but next week back

31
00:01:15,469 --> 00:01:13,920
to work man awesome yeah it's uh and

32
00:01:16,850 --> 00:01:15,479
it's been I don't know how your Summer's

33
00:01:20,810 --> 00:01:16,860
been but it's been a little bit slower

34
00:01:22,130 --> 00:01:20,820
at least on the podcast uh scene uh it

35
00:01:23,450 --> 00:01:22,140
has given me a chance to work on a

36
00:01:25,550 --> 00:01:23,460
couple of other projects which has been

37
00:01:27,469 --> 00:01:25,560
fun but I get the sense that things are

38
00:01:29,210 --> 00:01:27,479

starting to pick up again uh in

39

00:01:30,950 --> 00:01:29,220

particular with today there was a big

40

00:01:33,410 --> 00:01:30,960

interview that we might get a chance to

41

00:01:36,170 --> 00:01:33,420

chat about uh during the during the show

42

00:01:37,789 --> 00:01:36,180

so it feels like things are kind of

43

00:01:39,590 --> 00:01:37,799

picking up again particularly with the

44

00:01:41,929 --> 00:01:39,600

new report that we're expecting at the

45

00:01:43,910 --> 00:01:41,939

end of October uh so hopefully we'll see

46

00:01:46,249 --> 00:01:43,920

some momentum going into the end of the

47

00:01:49,550 --> 00:01:46,259

year could it be a great Halloween this

48

00:01:51,889 --> 00:01:49,560

year I like that optimism excellent well

49

00:01:54,289 --> 00:01:51,899

let's bring on our guests we are very

50

00:01:56,210 --> 00:01:54,299

very excited to have with us Mr Baptist

51
00:01:59,090 --> 00:01:56,220
Court I'm sure I didn't pronounce that

52
00:02:01,370 --> 00:01:59,100
name very accurately but uh he is a a

53
00:02:04,069 --> 00:02:01,380
friend Frenchman who has done so much

54
00:02:06,649 --> 00:02:04,079
for raising the awareness of the UAP

55
00:02:09,290 --> 00:02:06,659
Topic in the EU and in France in

56
00:02:11,510 --> 00:02:09,300
particular he's the host of the Explorer

57
00:02:13,970 --> 00:02:11,520
lab which is a podcast and a YouTube

58
00:02:15,589 --> 00:02:13,980
channel where he does interviews and and

59
00:02:18,170 --> 00:02:15,599
also you know raises the awareness of

60
00:02:20,630 --> 00:02:18,180
the topic in the mainstream he's he's an

61
00:02:21,949 --> 00:02:20,640
Ardent uh sort of social media user

62
00:02:24,010 --> 00:02:21,959
making sure that he doesn't miss

63
00:02:26,809 --> 00:02:24,020

interviews that happen in the community

64

00:02:29,330 --> 00:02:26,819

news articles that are kind of put

65

00:02:30,530 --> 00:02:29,340

published about the topic is just an

66

00:02:33,050 --> 00:02:30,540

excellent resource if you aren't

67

00:02:34,910 --> 00:02:33,060

following him on Twitter you've got to l

68

00:02:36,949 --> 00:02:34,920

think he's a great One-Stop shop for

69

00:02:38,690 --> 00:02:36,959

information so we are very honored to

70

00:02:41,089 --> 00:02:38,700

have him with us this evening for our

71

00:02:44,030 --> 00:02:41,099

fireside chat so please welcome Mr

72

00:02:46,610 --> 00:02:44,040

Baptiste shall I say it put your hands

73

00:02:49,309 --> 00:02:46,620

together yes

74

00:02:52,009 --> 00:02:49,319

thank you very much such an introduction

75

00:02:53,330 --> 00:02:52,019

thank you very much yeah it's great to

76
00:02:56,449 --> 00:02:53,340
have you with us um I hope you're having

77
00:02:58,550 --> 00:02:56,459
a good evening so far uh so tell us a

78
00:02:59,990 --> 00:02:58,560
little bit about uh you know kind of um

79
00:03:02,690 --> 00:03:00,000
I've heard you talk a little bit about

80
00:03:04,190 --> 00:03:02,700
how how you got into the topic and you

81
00:03:05,750 --> 00:03:04,200
started with an interest in a young age

82
00:03:07,670 --> 00:03:05,760
with that I believe it was an incident

83
00:03:09,650 --> 00:03:07,680
that happened in Mexico and you had a

84
00:03:11,930 --> 00:03:09,660
friend that was uh living there at the

85
00:03:13,309 --> 00:03:11,940
time is that right that kind of piqued

86
00:03:17,390 --> 00:03:13,319
your interest and started you down this

87
00:03:20,390 --> 00:03:17,400
UFO Journey absolutely not no that's not

88
00:03:23,570 --> 00:03:20,400

you no no it's not me no I'm I'm a

89

00:03:26,990 --> 00:03:23,580

teacher by trade and every couple of

90

00:03:32,690 --> 00:03:27,000

years I do a big poll with my students

91

00:03:35,710 --> 00:03:32,700

to know what concerns them and in 2017

92

00:03:38,170 --> 00:03:35,720

in September 2017

93

00:03:42,729 --> 00:03:38,180

uh the most

94

00:03:47,869 --> 00:03:42,739

uh a voted question was what are UFOs

95

00:03:50,630 --> 00:03:47,879

and with my usual big mouth I of course

96

00:03:53,869 --> 00:03:50,640

assured them but I will find the answer

97

00:03:58,070 --> 00:03:53,879

and in September 2017 I looked into the

98

00:04:00,710 --> 00:03:58,080

subject and found dirt there was nothing

99

00:04:03,289 --> 00:04:00,720

reliable everybody was steering each

100

00:04:03,289 --> 00:04:04,970

other apart and I said to them it's

101
00:04:11,270 --> 00:04:09,530
and in December 2017 there were the New

102
00:04:13,789 --> 00:04:11,280
York Times articles

103
00:04:15,830 --> 00:04:13,799
so I had to go back to them and say

104
00:04:18,349 --> 00:04:15,840
sorry I was wrong there is actually

105
00:04:21,110 --> 00:04:18,359
something reliable inside

106
00:04:24,409 --> 00:04:21,120
it's a very specific program inside the

107
00:04:26,930 --> 00:04:24,419
dod under supervision of the Congress

108
00:04:29,990 --> 00:04:26,940
and that started my work because I still

109
00:04:31,370 --> 00:04:30,000
didn't have yourself what are UFOs so

110
00:04:34,790 --> 00:04:31,380
since then I've been Gathering

111
00:04:37,370 --> 00:04:34,800
informations to find the answer

112
00:04:39,530 --> 00:04:37,380
amazing I mean I I love that approach

113
00:04:41,210 --> 00:04:39,540

because uh it's it's kind of very

114

00:04:43,909 --> 00:04:41,220

innocent you know you were responding to

115

00:04:45,650 --> 00:04:43,919

the interests of your class and you just

116

00:04:47,689 --> 00:04:45,660

went in to try to find out more about it

117

00:04:50,210 --> 00:04:47,699

and that led you to where you are sounds

118

00:04:51,830 --> 00:04:50,220

like you've kept a pretty open mind but

119

00:04:54,050 --> 00:04:51,840

not only did you sort of conclude there

120

00:04:56,930 --> 00:04:54,060

was something to it but you decided that

121

00:04:58,909 --> 00:04:56,940

you wanted to raise the awareness of the

122

00:05:00,730 --> 00:04:58,919

topic just more generally so what kind

123

00:05:04,249 --> 00:05:00,740

of motivates you to

124

00:05:06,409 --> 00:05:04,259

be such a supporter of the topic in

125

00:05:07,730 --> 00:05:06,419

social media and also on your Explorer

126

00:05:11,270 --> 00:05:07,740

lab Channel

127

00:05:16,070 --> 00:05:11,280

so we the main diagnostic I could do

128

00:05:19,730 --> 00:05:16,080

let's I I did sorry uh was that there

129

00:05:21,530 --> 00:05:19,740

was no real scientific research public

130

00:05:22,909 --> 00:05:21,540

scientific research maybe it's private

131

00:05:27,550 --> 00:05:22,919

scientific research which is not a

132

00:05:32,029 --> 00:05:27,560

public program about it so the the

133

00:05:34,610 --> 00:05:32,039

easiest way to do it is to fire the

134

00:05:36,770 --> 00:05:34,620

Curiosity of scientists

135

00:05:41,090 --> 00:05:36,780

scientists real scientists are people

136

00:05:44,390 --> 00:05:41,100

that love mysteries they love resolving

137

00:05:46,430 --> 00:05:44,400

Mysteries that's why they Vie for the

138

00:05:49,129 --> 00:05:46,440

problem is that there is a taboo on the

139

00:05:50,689 --> 00:05:49,139

subject how do you lift the taboo you

140

00:05:52,749 --> 00:05:50,699

talk about it

141

00:05:56,350 --> 00:05:52,759

so the

142

00:05:58,909 --> 00:05:56,360

what I noticed that there was no

143

00:06:01,249 --> 00:05:58,919

nobody sharing

144

00:06:04,129 --> 00:06:01,259

information

145

00:06:10,249 --> 00:06:04,139

even researchers which is very strange

146

00:06:12,830 --> 00:06:10,259

but I know almost a dozen very reliable

147

00:06:16,129 --> 00:06:12,840

researchers that refuse to share

148

00:06:19,430 --> 00:06:16,139

information and she's very strange they

149

00:06:22,249 --> 00:06:19,440

want to to possess the knowledge and not

150

00:06:24,350 --> 00:06:22,259

to share it so that's why what as that's

151

00:06:26,689 --> 00:06:24,360

what I try to do I try to gather

152

00:06:29,150 --> 00:06:26,699

information and share it

153

00:06:31,309 --> 00:06:29,160

that's fantastic and it I mean again as

154

00:06:33,110 --> 00:06:31,319

I said in the introduction uh you just

155

00:06:35,570 --> 00:06:33,120

seem to never sleep when it comes to

156

00:06:37,370 --> 00:06:35,580

finding it and sharing it so I really

157

00:06:40,010 --> 00:06:37,380

appreciate that it's uh it's it's an

158

00:06:41,629 --> 00:06:40,020

incredible resource and um I hope you

159

00:06:43,909 --> 00:06:41,639

get a lot of thanks for that because it

160

00:06:46,370 --> 00:06:43,919

really is something valuable uh that is

161

00:06:47,510 --> 00:06:46,380

a constant contribution so thank you

162

00:06:48,830 --> 00:06:47,520

um Deb do you have any questions for

163

00:06:50,110 --> 00:06:48,840

Baptiste what I know you've got a long

164

00:06:53,870 --> 00:06:50,120

list so uh

165

00:06:56,090 --> 00:06:53,880

yeah okay so yes I was noticing looking

166

00:06:59,990 --> 00:06:56,100

at the commeto report that they had all

167

00:07:04,670 --> 00:07:00,000

these plans to use all these Sim systems

168

00:07:06,469 --> 00:07:04,680

um radar satellite so on and so forth

169

00:07:07,670 --> 00:07:06,479

um but the I'm going to say this wrong I

170

00:07:08,469 --> 00:07:07,680

hope I don't

171

00:07:11,629 --> 00:07:08,479

um

172

00:07:12,969 --> 00:07:11,639

Jean the Marie we're going to work on

173

00:07:17,390 --> 00:07:12,979

this right

174

00:07:19,670 --> 00:07:17,400

and that they had um a plan in place

175

00:07:22,309 --> 00:07:19,680

where people can talk to

176

00:07:25,610 --> 00:07:22,319

um the police or the military or the Air

177

00:07:28,430 --> 00:07:25,620

Force the defense Ministry in France um

178

00:07:31,309 --> 00:07:28,440

to provide reports but what I noticed is

179

00:07:33,409 --> 00:07:31,319

that stuff's not coming back out now are

180

00:07:35,809 --> 00:07:33,419

you noticing that also that the

181

00:07:38,510 --> 00:07:35,819

information has sort of stalled from

182

00:07:42,830 --> 00:07:38,520

that site of things

183

00:07:45,529 --> 00:07:42,840

so I I would say that I find very

184

00:07:48,110 --> 00:07:45,539

strange to ask information

185

00:07:48,830 --> 00:07:48,120

from either the military or intelligent

186

00:07:51,230 --> 00:07:48,840

service

187

00:07:54,409 --> 00:07:51,240

their their business their main business

188

00:07:56,390 --> 00:07:54,419

is not to talk

189

00:07:59,629 --> 00:07:56,400

if you want information you go to the

190

00:08:01,510 --> 00:07:59,639

scientist not the military when special

191

00:08:05,029 --> 00:08:01,520

review intelligence that is

192

00:08:06,950 --> 00:08:05,039

spread the information it's because it's

193

00:08:09,469 --> 00:08:06,960

useful for them so

194

00:08:12,409 --> 00:08:09,479

even in the military you know we are in

195

00:08:14,570 --> 00:08:12,419

gray walls we are in information Wars so

196

00:08:17,089 --> 00:08:14,580

when you see an information spread by

197

00:08:20,450 --> 00:08:17,099

the military because it serves their

198

00:08:22,670 --> 00:08:20,460

strategy it's a very sensor approach out

199

00:08:25,790 --> 00:08:22,680

of War but it's really well done it's

200

00:08:28,369 --> 00:08:25,800

the terms of War when you want to your

201
00:08:30,830 --> 00:08:28,379
adversary to know you are strong you

202
00:08:33,550 --> 00:08:30,840
appear strong when you want him to think

203
00:08:37,310 --> 00:08:33,560
that you are weak you are pay a week so

204
00:08:39,589 --> 00:08:37,320
I always question a lot any information

205
00:08:41,389 --> 00:08:39,599
can ring from intelligent services or

206
00:08:45,650 --> 00:08:41,399
the military and I don't really

207
00:08:48,470 --> 00:08:45,660
understand why you expect the truth from

208
00:08:51,110 --> 00:08:48,480
them it's really really really not their

209
00:08:53,810 --> 00:08:51,120
job to do so

210
00:08:56,470 --> 00:08:53,820
on the second part you note that the

211
00:08:59,389 --> 00:08:56,480
committer report is heavily

212
00:09:02,570 --> 00:08:59,399
references heavily the military infants

213
00:09:04,009 --> 00:09:02,580

that's true but it's the outside part of

214

00:09:06,530 --> 00:09:04,019

the military

215

00:09:10,790 --> 00:09:06,540

the committee report was structured

216

00:09:14,750 --> 00:09:10,800

around an Institute called the IH edn

217

00:09:17,810 --> 00:09:14,760

which is a kind of military school for

218

00:09:21,710 --> 00:09:17,820

very highly educated people

219

00:09:25,970 --> 00:09:21,720

and it was to express a concern that not

220

00:09:29,329 --> 00:09:25,980

enough resources was given to this topic

221

00:09:33,889 --> 00:09:29,339

by the political corpse

222

00:09:36,530 --> 00:09:33,899

so it's not really you really need to

223

00:09:39,470 --> 00:09:36,540

understand the purpose of that book it

224

00:09:42,650 --> 00:09:39,480

was really never meant to be that public

225

00:09:44,630 --> 00:09:42,660

it was a briefing document made for the

226
00:09:46,910 --> 00:09:44,640
government given to the government read

227
00:09:50,630 --> 00:09:46,920
by the government

228
00:09:54,410 --> 00:09:50,640
what happened is that the public taboo

229
00:09:57,829 --> 00:09:54,420
was so strong at the time that the Press

230
00:10:01,670 --> 00:09:57,839
got hold of it and they destroyed the

231
00:10:04,910 --> 00:10:01,680
reputation of men and very senior

232
00:10:07,070 --> 00:10:04,920
military men that wrote that report

233
00:10:09,829 --> 00:10:07,080
so that's that was the death of that

234
00:10:13,730 --> 00:10:09,839
report in France but we know the

235
00:10:16,490 --> 00:10:13,740
political core Reddit they learn from it

236
00:10:20,150 --> 00:10:16,500
uh they were aware from it but it is

237
00:10:22,550 --> 00:10:20,160
inside a very long string the first

238
00:10:23,410 --> 00:10:22,560

uh defense department French defense

239

00:10:27,590 --> 00:10:23,420

department

240

00:10:31,009 --> 00:10:27,600

uh organization that deal with UFOs was

241

00:10:35,329 --> 00:10:31,019

created in 1951.

242

00:10:38,930 --> 00:10:35,339

and it was made public by 1954.

243

00:10:40,250 --> 00:10:38,940

before the French Congress in front of

244

00:10:43,130 --> 00:10:40,260

the French Congress took French

245

00:10:45,769 --> 00:10:43,140

congressmen so it's a very very long

246

00:10:47,509 --> 00:10:45,779

history it's just that we have a proper

247

00:10:53,930 --> 00:10:47,519

military and they just don't talk

248

00:10:58,090 --> 00:10:55,670

so that means we're not going to be able

249

00:11:02,150 --> 00:10:58,100

to get that handbook that they created

250

00:11:05,090 --> 00:11:02,160

how the report of me okay got it

251
00:11:09,230 --> 00:11:05,100
you will have the old versions they are

252
00:11:14,509 --> 00:11:11,090
um well and I I had a question then

253
00:11:17,150 --> 00:11:14,519
about uh so where do you see the uh the

254
00:11:18,710 --> 00:11:17,160
French uh sensibilities on this topic

255
00:11:20,690 --> 00:11:18,720
now do you think that that's shifting a

256
00:11:22,670 --> 00:11:20,700
little bit and then I'd like to get your

257
00:11:24,530 --> 00:11:22,680
Insight too just on in the EU more

258
00:11:26,329 --> 00:11:24,540
broadly is there are there any countries

259
00:11:28,130 --> 00:11:26,339
that um

260
00:11:32,630 --> 00:11:28,140
from your perspective might be more open

261
00:11:34,430 --> 00:11:32,640
to this conversation than than others

262
00:11:39,009 --> 00:11:34,440
hmm

263
00:11:43,430 --> 00:11:39,019

so the main Blocker in the EU was the UK

264

00:11:47,509 --> 00:11:43,440

France for decades try to launch a

265

00:11:50,630 --> 00:11:47,519

public European UFO Studio program and

266

00:11:53,870 --> 00:11:50,640

three times it was torpedoed by the UK

267

00:11:56,090 --> 00:11:53,880

and now the UK has left the scene so

268

00:11:58,430 --> 00:11:56,100

there is an opportunity to do something

269

00:12:01,190 --> 00:11:58,440

like that I don't think it would be that

270

00:12:03,949 --> 00:12:01,200

political the last time it was really

271

00:12:06,470 --> 00:12:03,959

pushed by the Belgian states where the

272

00:12:09,110 --> 00:12:06,480

Prime Minister really pushed that

273

00:12:13,910 --> 00:12:09,120

subject and it was his reputation was

274

00:12:16,370 --> 00:12:13,920

destroyed by the UK following it so I

275

00:12:19,009 --> 00:12:16,380

think the the track that is much more

276

00:12:22,069 --> 00:12:19,019

interesting is now what we have with a

277

00:12:24,949 --> 00:12:22,079

committee that is called free AF Sigma

278

00:12:26,750 --> 00:12:24,959

2. it's the French aeronautical

279

00:12:29,750 --> 00:12:26,760

Association

280

00:12:32,870 --> 00:12:29,760

Sigma 2 is a reference of statistical

281

00:12:35,690 --> 00:12:32,880

method of analysis when you have a set

282

00:12:37,610 --> 00:12:35,700

of data you search for rank of stigma

283

00:12:40,069 --> 00:12:37,620

and the iro Rank and statistic map the

284

00:12:43,370 --> 00:12:40,079

more reliable your information is until

285

00:12:45,710 --> 00:12:43,380

you get to five or six Sigma where you

286

00:12:47,930 --> 00:12:45,720

have an increased probability of just

287

00:12:51,290 --> 00:12:47,940

noise creating a signal so it's it's a

288

00:12:53,090 --> 00:12:51,300

kind of statistical analysis drug to for

289

00:12:57,410 --> 00:12:53,100

the name of the committee

290

00:13:01,310 --> 00:12:57,420

they just published last year 400 pages

291

00:13:03,650 --> 00:13:01,320

in English report of UFO studies with

292

00:13:06,470 --> 00:13:03,660

the best scientific analysis you can

293

00:13:09,650 --> 00:13:06,480

find on Earth and destroying some

294

00:13:12,949 --> 00:13:09,660

misconceptions of very well-known UFO

295

00:13:16,190 --> 00:13:12,959

footage believed to be true and very

296

00:13:20,090 --> 00:13:16,200

well explained by conventional means

297

00:13:22,069 --> 00:13:20,100

and I think it's that way to go to

298

00:13:26,930 --> 00:13:22,079

gather scientists interested in that

299

00:13:29,750 --> 00:13:26,940

topic what is doing the SCU or uapx or

300

00:13:31,329 --> 00:13:29,760

Chris letter in the US

301
00:13:34,069 --> 00:13:31,339
and

302
00:13:36,650 --> 00:13:34,079
concentrate your efforts on a very small

303
00:13:40,490 --> 00:13:36,660
data set of very reliable information

304
00:13:43,430 --> 00:13:40,500
and put aside everything that is even a

305
00:13:45,650 --> 00:13:43,440
little gray just use white data

306
00:13:48,650 --> 00:13:45,660
and that's why you you don't see them

307
00:13:50,509 --> 00:13:48,660
using very old data very old data that

308
00:13:54,069 --> 00:13:50,519
is used come from Project Blue Book

309
00:13:58,610 --> 00:13:54,079
which is which was a very very

310
00:14:01,190 --> 00:13:58,620
scientific analysis of UFO case and to

311
00:14:03,650 --> 00:14:01,200
this day is still a very strong data set

312
00:14:05,449 --> 00:14:03,660
the problem is that at the time they had

313
00:14:08,329 --> 00:14:05,459

very poor resources to gather

314

00:14:10,370 --> 00:14:08,339

information on Signal intelligence so

315

00:14:15,290 --> 00:14:10,380

you don't have that much information but

316

00:14:19,610 --> 00:14:18,110

nice and I've heard um recently on an

317

00:14:21,829 --> 00:14:19,620

interview

318

00:14:23,030 --> 00:14:21,839

um with a CIA analyst he's a retired

319

00:14:24,590 --> 00:14:23,040

analyst he was talking about the

320

00:14:26,210 --> 00:14:24,600

different intelligence agencies and one

321

00:14:28,910 --> 00:14:26,220

thing that caught my attention was that

322

00:14:32,389 --> 00:14:28,920

the French are renowned for their

323

00:14:33,530 --> 00:14:32,399

intelligence work that um amongst the

324

00:14:35,690 --> 00:14:33,540

different you know sort of

325

00:14:37,790 --> 00:14:35,700

sub-disciplines and intelligence they

326

00:14:40,370 --> 00:14:37,800

are really well known for their ability

327

00:14:43,150 --> 00:14:40,380

to get inside different states even

328

00:14:45,829 --> 00:14:43,160

friendly States and get quality data out

329

00:14:47,329 --> 00:14:45,839

and create those reports that are so

330

00:14:49,910 --> 00:14:47,339

valuable

331

00:14:52,790 --> 00:14:49,920

um so do you see that uh that that

332

00:14:55,490 --> 00:14:52,800

France will kind of continue applying

333

00:14:57,170 --> 00:14:55,500

pressure and be able to collate more

334

00:14:58,730 --> 00:14:57,180

information with that white data that

335

00:15:01,370 --> 00:14:58,740

you talked about do you have a sense

336

00:15:02,689 --> 00:15:01,380

that that's going to be uh increasing in

337

00:15:05,870 --> 00:15:02,699

the future do we think they'll be more

338

00:15:07,730 --> 00:15:05,880

vocal as a as a state in in this

339

00:15:09,170 --> 00:15:07,740

conversation are we kind of all still

340

00:15:11,150 --> 00:15:09,180

waiting is the world just going to be

341

00:15:13,610 --> 00:15:11,160

waiting on the U.S to kind of take the

342

00:15:16,370 --> 00:15:13,620

the full lead and step forward with what

343

00:15:24,290 --> 00:15:20,590

I would be blunt there is no

344

00:15:26,350 --> 00:15:24,300

advantage of pushing that subject on an

345

00:15:29,810 --> 00:15:26,360

international place

346

00:15:32,829 --> 00:15:29,820

you either have to disclose way of

347

00:15:35,810 --> 00:15:32,839

spying on these objects

348

00:15:39,470 --> 00:15:35,820

telling your own population that you

349

00:15:43,490 --> 00:15:39,480

don't master your own hairsprays

350

00:15:46,610 --> 00:15:43,500

or requesting help from other countries

351
00:15:49,250 --> 00:15:46,620
so the next day they will request

352
00:15:52,790 --> 00:15:49,260
something in counterparts

353
00:15:54,410 --> 00:15:52,800
so publicly there is zero interest in

354
00:15:56,990 --> 00:15:54,420
doing so

355
00:15:59,829 --> 00:15:57,000
on the private level on the discrete

356
00:16:01,509 --> 00:15:59,839
level it's very different

357
00:16:11,329 --> 00:16:01,519
we

358
00:16:13,850 --> 00:16:11,339
military program that should die UFOs is

359
00:16:16,850 --> 00:16:13,860
a very strong signal we don't have the

360
00:16:18,310 --> 00:16:16,860
resources of the us we are a very small

361
00:16:21,470 --> 00:16:18,320
country

362
00:16:25,129 --> 00:16:21,480
France is equivalent to California in a

363
00:16:28,129 --> 00:16:25,139

in financial power so when we give

364

00:16:30,470 --> 00:16:28,139

resources to a program we really ask

365

00:16:32,750 --> 00:16:30,480

ourselves do we need that program or not

366

00:16:36,170 --> 00:16:32,760

and we need that program and it is a

367

00:16:39,470 --> 00:16:36,180

it's a very serious subject the higher

368

00:16:42,829 --> 00:16:39,480

you go in the hierarchy we have military

369

00:16:46,730 --> 00:16:42,839

periods Chasing UFOs above the the

370

00:16:48,949 --> 00:16:46,740

southern civil Mediterranean Sea we have

371

00:16:50,870 --> 00:16:48,959

encounters with them we have very senior

372

00:16:53,210 --> 00:16:50,880

military people that said that they

373

00:16:55,850 --> 00:16:53,220

encountered them in the French Skies we

374

00:16:59,269 --> 00:16:55,860

are very senior civilian Pilots that

375

00:17:01,550 --> 00:16:59,279

gave testimonies and corroborated by

376

00:17:05,090 --> 00:17:01,560

military data on it so

377

00:17:08,270 --> 00:17:05,100

it's a very sturdy topic the problem is

378

00:17:09,949 --> 00:17:08,280

the taboo that was engineered and if you

379

00:17:12,350 --> 00:17:09,959

believe the Australian intelligence

380

00:17:14,329 --> 00:17:12,360

survives by vcia

381

00:17:18,350 --> 00:17:14,339

in the U.S

382

00:17:21,230 --> 00:17:18,360

and that's the only blocker there is so

383

00:17:23,750 --> 00:17:21,240

you don't really need to push the

384

00:17:25,850 --> 00:17:23,760

subject internationally you need to talk

385

00:17:28,010 --> 00:17:25,860

to newspapers you need to talk to

386

00:17:30,230 --> 00:17:28,020

journalists you need to introduce them

387

00:17:31,549 --> 00:17:30,240

to that topic they've been bred to

388

00:17:35,450 --> 00:17:31,559

ignore

389

00:17:39,110 --> 00:17:35,460

Ross culture gave several times a very

390

00:17:41,049 --> 00:17:39,120

interesting testimony about his youth as

391

00:17:44,810 --> 00:17:41,059

a young

392

00:17:47,570 --> 00:17:44,820

journalist and he was taught

393

00:17:50,150 --> 00:17:47,580

to ignore the subject

394

00:17:52,549 --> 00:17:50,160

so you have a world generation of

395

00:17:56,570 --> 00:17:52,559

journalists you need to convince a new

396

00:18:02,690 --> 00:17:59,810

yeah agree yep

397

00:18:05,090 --> 00:18:02,700

one thing I noticed in doing my research

398

00:18:07,669 --> 00:18:05,100

into France

399

00:18:11,750 --> 00:18:07,679

um is that you have a growing problem

400

00:18:13,029 --> 00:18:11,760

with some animal mutilations especially

401
00:18:16,450 --> 00:18:13,039
horses

402
00:18:20,690 --> 00:18:16,460
but that there's a really low number of

403
00:18:23,090 --> 00:18:20,700
reported abductions so I feel like

404
00:18:25,010 --> 00:18:23,100
there's still abductions of course but

405
00:18:28,070 --> 00:18:25,020
you know there's a cultural difference

406
00:18:29,570 --> 00:18:28,080
in how people are reporting

407
00:18:32,510 --> 00:18:29,580
um so I guess I just want your

408
00:18:34,310 --> 00:18:32,520
perspective on yeah what is the

409
00:18:36,230 --> 00:18:34,320
perspective of the cultural differences

410
00:18:38,390 --> 00:18:36,240
we've already touched on a few of them

411
00:18:41,090 --> 00:18:38,400
obviously there's a different thought

412
00:18:43,070 --> 00:18:41,100
about the military aspect

413
00:18:46,370 --> 00:18:43,080

that we shouldn't expect that from them

414

00:18:51,490 --> 00:18:46,380

like we do here by but what is your

415

00:18:56,330 --> 00:18:53,690

firstly to to answer your question about

416

00:18:57,409 --> 00:18:56,340

addictions we have them too uh we just

417

00:18:59,450 --> 00:18:57,419

have

418

00:19:01,250 --> 00:18:59,460

um a whole laboratory public laboratory

419

00:19:03,230 --> 00:19:01,260

of research on it

420

00:19:06,350 --> 00:19:03,240

uh when

421

00:19:07,490 --> 00:19:06,360

um an abductee contact with a j-pong who

422

00:19:08,289 --> 00:19:07,500

is the

423

00:19:12,350 --> 00:19:08,299

um

424

00:19:13,789 --> 00:19:12,360

national public office about UFOs if

425

00:19:16,669 --> 00:19:13,799

it's an abduction case with

426

00:19:18,770 --> 00:19:16,679

psychological trauma it is sent to that

427

00:19:22,370 --> 00:19:18,780

laboratory that takes charge of the

428

00:19:26,390 --> 00:19:22,380

patients and heal them the best they can

429

00:19:28,430 --> 00:19:26,400

uh we are also a private Association

430

00:19:30,830 --> 00:19:28,440

that gives support psychological support

431

00:19:31,789 --> 00:19:30,840

to abductees

432

00:19:37,270 --> 00:19:31,799

um

433

00:19:43,190 --> 00:19:40,970

V I'm sorry given can you give me time

434

00:19:46,010 --> 00:19:43,200

to look for the name moment of course

435

00:19:48,529 --> 00:19:47,210

that sounds good

436

00:19:49,730 --> 00:19:48,539

um while you're doing that

437

00:19:51,470 --> 00:19:49,740

um maybe we can chat a little bit about

438

00:19:52,610 --> 00:19:51,480

something that happened today just not

439

00:19:55,430 --> 00:19:52,620

long ago

440

00:19:57,890 --> 00:19:55,440

uh that I'd like to get into

441

00:19:59,210 --> 00:19:57,900

on the show today as well so Deb I don't

442

00:20:01,850 --> 00:19:59,220

know if you had a chance to catch the

443

00:20:03,890 --> 00:20:01,860

interview with uh Jay from Project Unity

444

00:20:06,470 --> 00:20:03,900

and Oak Shannon

445

00:20:09,770 --> 00:20:06,480

um where Oak provided some uh

446

00:20:11,930 --> 00:20:09,780

corroborating evidence for the uh to

447

00:20:14,210 --> 00:20:11,940

some of the details that were present in

448

00:20:16,549 --> 00:20:14,220

the Wilson Davis memo

449

00:20:20,630 --> 00:20:16,559

um specifically you know corroborating

450

00:20:23,390 --> 00:20:20,640

that uh Admiral uh Wilson did call him

451
00:20:25,549 --> 00:20:23,400
to try to get a sense of Eric Davis Kind

452
00:20:28,070 --> 00:20:25,559
of vouch for Eric Davis's credentials

453
00:20:30,950 --> 00:20:28,080
that did take place around the same time

454
00:20:32,870 --> 00:20:30,960
that the memo referenced it did so that

455
00:20:33,950 --> 00:20:32,880
was quite an interesting detail but um I

456
00:20:36,110 --> 00:20:33,960
don't know if you if you caught that and

457
00:20:37,610 --> 00:20:36,120
had any thoughts about that conversation

458
00:20:39,409 --> 00:20:37,620
um actually it doesn't surprise me

459
00:20:41,270 --> 00:20:39,419
everything indicates to me that the

460
00:20:43,010 --> 00:20:41,280
document is real

461
00:20:44,510 --> 00:20:43,020
um I have a different sense of the

462
00:20:46,190 --> 00:20:44,520
weight of it though because I think to

463
00:20:48,590 --> 00:20:46,200

me it was sort of obvious that we had

464

00:20:52,250 --> 00:20:48,600

crash retrieval programs that go went

465

00:20:53,330 --> 00:20:52,260

into private you know hands

466

00:20:55,370 --> 00:20:53,340

um I thought it was pretty much

467

00:20:57,770 --> 00:20:55,380

indicated when Moon dust was all over

468

00:20:59,810 --> 00:20:57,780

the foyers but I am happy that he

469

00:21:01,610 --> 00:20:59,820

confirmed that I did see him mentioning

470

00:21:04,310 --> 00:21:01,620

that on Facebook

471

00:21:06,350 --> 00:21:04,320

um quite a lengthy description of what

472

00:21:08,450 --> 00:21:06,360

his video was going to be so I'll be

473

00:21:11,810 --> 00:21:08,460

happy to look at that later

474

00:21:13,070 --> 00:21:11,820

nice excellent excellent if you did you

475

00:21:14,510 --> 00:21:13,080

catch that interview I know we want to

476

00:21:15,830 --> 00:21:14,520

get back to you but while we're on that

477

00:21:17,750 --> 00:21:15,840

topic did you have a chance to listen to

478

00:21:20,529 --> 00:21:17,760

that earlier today

479

00:21:26,150 --> 00:21:20,539

um I didn't listen to it because I don't

480

00:21:28,250 --> 00:21:26,160

care about the Wilson documents but

481

00:21:32,090 --> 00:21:28,260

that's what I said it's not scientific

482

00:21:34,250 --> 00:21:32,100

scientific data so of course the US has

483

00:21:36,169 --> 00:21:34,260

a program on this of course you have

484

00:21:38,630 --> 00:21:36,179

private contractors that are working on

485

00:21:43,070 --> 00:21:38,640

it it's written in the projects also a

486

00:21:45,529 --> 00:21:43,080

memorandum to the press in 1949.

487

00:21:47,690 --> 00:21:45,539

so you don't need the Wilson memo

488

00:21:50,330 --> 00:21:47,700

document you have a war memorandum

489

00:21:51,770 --> 00:21:50,340

published by your military at by the air

490

00:21:54,070 --> 00:21:51,780

material command

491

00:21:57,409 --> 00:21:54,080

saying that they have

492

00:21:59,990 --> 00:21:57,419

a higher Laboratories privatibility is

493

00:22:02,510 --> 00:22:00,000

to study UFO debris

494

00:22:06,110 --> 00:22:02,520

right yeah I don't need the gray

495

00:22:08,270 --> 00:22:06,120

documents yeah the Midwest program is

496

00:22:10,190 --> 00:22:08,280

going before satellites were in the sky

497

00:22:12,350 --> 00:22:10,200

and they're running around picking up

498

00:22:14,210 --> 00:22:12,360

things all over the world probably in

499

00:22:17,450 --> 00:22:14,220

France too you know they were paying

500

00:22:20,870 --> 00:22:17,460

people for whatever fell from the sky so

501
00:22:22,970 --> 00:22:20,880
so I I it amazes to me that people are

502
00:22:25,789 --> 00:22:22,980
so like was there a crash retrieval

503
00:22:29,210 --> 00:22:25,799
program and I keep thinking you think

504
00:22:33,169 --> 00:22:29,220
maybe yeah it's it's a very simple

505
00:22:37,909 --> 00:22:33,179
question how much resources would the

506
00:22:40,430 --> 00:22:37,919
U.S give to have the latest prototype of

507
00:22:44,270 --> 00:22:40,440
Russian fighter aircraft

508
00:22:47,029 --> 00:22:44,280
and just picture that to another specie

509
00:22:49,970 --> 00:22:47,039
but send the sheep on Earth

510
00:22:52,970 --> 00:22:49,980
just imagine the amount of resources the

511
00:22:55,610 --> 00:22:52,980
U.S would be willing to spend to have

512
00:22:59,149 --> 00:22:57,409
yeah exactly

513
00:23:01,730 --> 00:22:59,159

yeah I'd love to know if there were

514

00:23:03,950 --> 00:23:01,740

breadcrumbs to France picking up some

515

00:23:06,529 --> 00:23:03,960

craft from France too you know that'd be

516

00:23:09,470 --> 00:23:06,539

great to find out we had a lot of debris

517

00:23:11,270 --> 00:23:09,480

we had a lot of debris hmm

518

00:23:13,310 --> 00:23:11,280

yeah so maybe you can speak to that then

519

00:23:16,430 --> 00:23:13,320

uh are you aware of any french programs

520

00:23:19,610 --> 00:23:16,440

to study that uh debris or a

521

00:23:22,549 --> 00:23:19,620

our ongoing programs to study it so as

522

00:23:24,830 --> 00:23:22,559

far as I know the research of it as most

523

00:23:27,190 --> 00:23:24,840

of it is Jack Valley who has an

524

00:23:31,370 --> 00:23:27,200

agreement with the

525

00:23:34,090 --> 00:23:31,380

French national space agency and can use

526

00:23:38,390 --> 00:23:34,100

the this agency

527

00:23:41,570 --> 00:23:38,400

this agencies Laboratories to do

528

00:23:44,930 --> 00:23:41,580

research on these debris recovered and

529

00:23:47,470 --> 00:23:44,940

in the meantime he uses the technology

530

00:23:53,270 --> 00:23:47,480

made by Gary Nolan

531

00:23:55,730 --> 00:23:53,280

which is high on beam microscope

532

00:23:59,750 --> 00:23:55,740

right that's great yeah something like

533

00:24:01,750 --> 00:23:59,760

25 different debris to analyze but it's

534

00:24:06,250 --> 00:24:01,760

known since

535

00:24:08,990 --> 00:24:06,260

1998 uh he published a war report uh in

536

00:24:11,390 --> 00:24:09,000

the tomorrow's scientific exploration if

537

00:24:13,490 --> 00:24:11,400

I remember well where I listed all the

538

00:24:19,130 --> 00:24:13,500

debris he gathered and the basic

539

00:24:23,570 --> 00:24:21,409

yeah and were you able to find what you

540

00:24:28,250 --> 00:24:23,580

were looking for on the on the streets

541

00:24:30,409 --> 00:24:28,260

so it's the O c e r o and if you want

542

00:24:32,930 --> 00:24:30,419

information about French objectives you

543

00:24:34,610 --> 00:24:32,940

can contract them they are very open to

544

00:24:37,010 --> 00:24:34,620

dialogue

545

00:24:39,890 --> 00:24:37,020

I think I may have the link for that I

546

00:24:44,870 --> 00:24:39,900

think I just saw that the other day

547

00:24:49,549 --> 00:24:46,730

and I appreciate that because the

548

00:24:52,010 --> 00:24:49,559

question about that stems from also the

549

00:24:54,770 --> 00:24:52,020

SSE the society

550

00:24:55,730 --> 00:24:54,780

um for scientific exploration there is

551
00:24:58,490 --> 00:24:55,740
someone

552
00:25:00,890 --> 00:24:58,500
um a sociologist who is talking about

553
00:25:03,890 --> 00:25:00,900
how the French report less abductions

554
00:25:07,190 --> 00:25:03,900
and at the time of his comments which I

555
00:25:10,909 --> 00:25:07,200
think was about 2015 he said there were

556
00:25:13,070 --> 00:25:10,919
only a hundred public French reports and

557
00:25:16,310 --> 00:25:13,080
that's in contrast of what the U.S

558
00:25:17,810 --> 00:25:16,320
supposedly had which was about 75

559
00:25:20,810 --> 00:25:17,820
000.

560
00:25:24,470 --> 00:25:20,820
uh so first you need to compare to per

561
00:25:28,130 --> 00:25:24,480
capita so the the US is six times the

562
00:25:30,230 --> 00:25:28,140
size of France so you will have more and

563
00:25:33,890 --> 00:25:30,240

a lot you need to understand that

564

00:25:36,169 --> 00:25:33,900

culturally we have a big ego we really

565

00:25:39,590 --> 00:25:36,179

culturally have a big one we are proud

566

00:25:41,390 --> 00:25:39,600

to be French so when we have to say that

567

00:25:44,090 --> 00:25:41,400

we have been abducted and raped inside

568

00:25:47,029 --> 00:25:44,100

the ship by aliens culturally it's

569

00:25:49,430 --> 00:25:47,039

really a struggle for us but you have

570

00:25:52,130 --> 00:25:49,440

married as the boss who wrote a whole

571

00:25:54,350 --> 00:25:52,140

book on your full abductions you have

572

00:25:57,710 --> 00:25:54,360

visual manner that wrote A World Book of

573

00:26:01,549 --> 00:25:57,720

contacties so we have a

574

00:26:06,049 --> 00:26:01,559

very interesting cases of dialogue with

575

00:26:10,850 --> 00:26:08,210

what and just kind of Follow that a

576

00:26:15,950 --> 00:26:10,860

little bit further um what would you say

577

00:26:20,810 --> 00:26:17,990

attitude toward the more sort of

578

00:26:23,810 --> 00:26:20,820

paranormal aspects of of the UFO topic

579

00:26:24,649 --> 00:26:23,820

is is it because it sounds to me like it

580

00:26:26,269 --> 00:26:24,659

uh

581

00:26:28,730 --> 00:26:26,279

it's really only looked at and

582

00:26:30,470 --> 00:26:28,740

appreciated largely from the very sort

583

00:26:34,549 --> 00:26:30,480

of nut nuts and bolts scientific

584

00:26:36,110 --> 00:26:34,559

perspective is there any uh how do the

585

00:26:39,590 --> 00:26:36,120

French people tend to kind of think of

586

00:26:41,710 --> 00:26:39,600

these other strange sort of experiences

587

00:26:45,950 --> 00:26:41,720

of the phenomena whether they be

588

00:26:48,649 --> 00:26:45,960

uh you know orbs or experiences uh with

589

00:26:50,810 --> 00:26:48,659

uh you know people who might be ghosts

590

00:26:52,250 --> 00:26:50,820

or apparitions or you know these other

591

00:26:55,789 --> 00:26:52,260

sort of stories that you hear that might

592

00:26:58,730 --> 00:26:55,799

be related to the UFO phenomenon

593

00:27:01,850 --> 00:26:58,740

so that's my opinion I never found a

594

00:27:03,470 --> 00:27:01,860

real that they said that could show that

595

00:27:05,269 --> 00:27:03,480

scientifically so it's only my

596

00:27:06,049 --> 00:27:05,279

perspective on that

597

00:27:09,010 --> 00:27:06,059

um

598

00:27:13,789 --> 00:27:09,020

I would say that it's the opposite

599

00:27:15,730 --> 00:27:13,799

a very large part of the population at

600

00:27:20,570 --> 00:27:15,740

contact with

601
00:27:22,990 --> 00:27:20,580
anything that you call weird they know

602
00:27:25,850 --> 00:27:23,000
there is something weird in our

603
00:27:29,769 --> 00:27:25,860
perception of reality

604
00:27:34,269 --> 00:27:29,779
and UFOs are lackluster in comparison

605
00:27:36,230 --> 00:27:34,279
people will see that as an entertainment

606
00:27:40,070 --> 00:27:36,240
and

607
00:27:41,990 --> 00:27:40,080
would trust more yeah I think it's a

608
00:27:44,630 --> 00:27:42,000
popular expression they would trust more

609
00:27:47,690 --> 00:27:44,640
a French man saying he saw a ghost and a

610
00:27:49,669 --> 00:27:47,700
Frenchman saying he saw a UFO okay I

611
00:27:52,010 --> 00:27:49,679
think that that's more proper not

612
00:27:54,710 --> 00:27:52,020
publicly but discreetly from one to

613
00:27:57,890 --> 00:27:54,720

another I think it's more suited because

614

00:28:01,549 --> 00:27:57,900

there is no Real Taboo engineer on the

615

00:28:04,909 --> 00:28:01,559

topic of Panama stuff

616

00:28:09,230 --> 00:28:04,919

I I think it's popular in the

617

00:28:12,789 --> 00:28:09,240

um in the public newspapers it's the

618

00:28:15,769 --> 00:28:12,799

opposite the Paranormal is like

619

00:28:19,370 --> 00:28:15,779

banished from any serious publication

620

00:28:22,130 --> 00:28:19,380

but UFOs as they have a nuts and ball

621

00:28:23,690 --> 00:28:22,140

components you have very serious and

622

00:28:25,070 --> 00:28:23,700

Senior journalists that are working on

623

00:28:27,409 --> 00:28:25,080

it and

624

00:28:29,810 --> 00:28:27,419

follow what is happening in the U.S and

625

00:28:31,909 --> 00:28:29,820

relay information for to the French

626

00:28:35,230 --> 00:28:31,919

media

627

00:28:38,630 --> 00:28:35,240

that's fascinating and and that's I mean

628

00:28:40,610 --> 00:28:38,640

that's sort of a Remnant uh

629

00:28:42,230 --> 00:28:40,620

of France's you know sort of more

630

00:28:44,390 --> 00:28:42,240

religious past would you say or what

631

00:28:46,010 --> 00:28:44,400

what's the the comfort with the

632

00:28:49,610 --> 00:28:46,020

Paranormal there is it coming from that

633

00:28:51,529 --> 00:28:49,620

or something else not truly because we

634

00:28:54,010 --> 00:28:51,539

are one of the country which has the

635

00:28:58,070 --> 00:28:54,020

most at least population

636

00:28:59,450 --> 00:28:58,080

so and we have been uh so there is a

637

00:29:02,510 --> 00:28:59,460

nickname for France that teaches the

638

00:29:06,110 --> 00:29:02,520

daughter of a church and it was true for

639

00:29:09,470 --> 00:29:06,120

a very long time but since the 1950s it

640

00:29:11,930 --> 00:29:09,480

has very much degraded and you have a

641

00:29:13,190 --> 00:29:11,940

kind of religious fundamentalism that

642

00:29:16,010 --> 00:29:13,200

happened

643

00:29:19,490 --> 00:29:16,020

um real really like what you can find

644

00:29:21,250 --> 00:29:19,500

the far right in the U.S

645

00:29:24,830 --> 00:29:21,260

um

646

00:29:28,250 --> 00:29:24,840

but I I don't think it's related to it

647

00:29:30,889 --> 00:29:28,260

it's related to it in in the in Italy

648

00:29:34,490 --> 00:29:30,899

Italy yes you have

649

00:29:36,169 --> 00:29:34,500

um we have statistical data on Italy uh

650

00:29:37,970 --> 00:29:36,179

it is the country that has a more

651
00:29:40,789 --> 00:29:37,980
paranormal stuff and it is collaborated

652
00:29:43,549 --> 00:29:40,799
with more practice into religion and

653
00:29:46,070 --> 00:29:43,559
there is a real correlation there

654
00:29:49,690 --> 00:29:46,080
um I think it's really the part about

655
00:29:52,549 --> 00:29:49,700
talking to it publicly that differs it's

656
00:29:57,110 --> 00:29:52,559
pretty well accepted in other countries

657
00:29:59,930 --> 00:29:57,120
like Brazil South even every country in

658
00:30:02,149 --> 00:29:59,940
Southern America is very open on the

659
00:30:04,870 --> 00:30:02,159
subject with Brazilian law is

660
00:30:09,169 --> 00:30:04,880
astonishing about it if you never read

661
00:30:10,789 --> 00:30:09,179
the Brazilian official law on ghosts is

662
00:30:15,169 --> 00:30:10,799
it's

663
00:30:17,510 --> 00:30:15,179

but it exists

664

00:30:19,190 --> 00:30:17,520

and you have that in Italy you have a

665

00:30:21,590 --> 00:30:19,200

little bit of that in Spain and you

666

00:30:23,330 --> 00:30:21,600

don't really don't have that publicly in

667

00:30:25,310 --> 00:30:23,340

France so I think it's more crucial

668

00:30:29,029 --> 00:30:25,320

problem

669

00:30:30,350 --> 00:30:29,039

fascinating that's really interesting

670

00:30:32,750 --> 00:30:30,360

Deb

671

00:30:35,269 --> 00:30:32,760

yeah I was gonna say um I would be

672

00:30:37,549 --> 00:30:35,279

remiss if I didn't ask the question that

673

00:30:39,769 --> 00:30:37,559

teacher would be asking if he was here

674

00:30:42,409 --> 00:30:39,779

right now since we're Spock talking

675

00:30:44,389 --> 00:30:42,419

about the other paranormal and anyone

676
00:30:45,289 --> 00:30:44,399
who's interested in this topic runs into

677
00:30:48,230 --> 00:30:45,299
this

678
00:30:51,350 --> 00:30:48,240
what is the story with Bigfoot in France

679
00:30:59,870 --> 00:30:54,909
I I really appreciate

680
00:31:03,950 --> 00:30:59,880
David's uh walk on the subject and we

681
00:31:06,590 --> 00:31:03,960
have really weird witness testimonies in

682
00:31:09,649 --> 00:31:06,600
France but it's not limited to France

683
00:31:13,970 --> 00:31:09,659
you have some reports in Germany some

684
00:31:16,370 --> 00:31:13,980
reports in Poland all the way to Russia

685
00:31:20,049 --> 00:31:16,380
but

686
00:31:33,850 --> 00:31:23,269
knowledge someone who is really looking

687
00:31:39,529 --> 00:31:37,250
now I'm just gonna say I suspect that my

688
00:31:42,049 --> 00:31:39,539

my view is that it's encrypted right

689

00:31:44,690 --> 00:31:42,059

it's a an entity that we haven't

690

00:31:47,570 --> 00:31:44,700

identified so I don't know if France has

691

00:31:49,970 --> 00:31:47,580

the level of like on uh populated

692

00:31:55,730 --> 00:31:49,980

forests and whatever so maybe you can

693

00:31:55,740 --> 00:32:04,070

um I'm not sure it's that simple

694

00:32:09,230 --> 00:32:06,889

the other the the I'm sure France does

695

00:32:12,230 --> 00:32:09,240

but uh is there like a rich tradition of

696

00:32:15,590 --> 00:32:12,240

folklore in France like uh there is an

697

00:32:18,110 --> 00:32:15,600

in England and in Ireland and

698

00:32:21,769 --> 00:32:18,120

so it was pretty much sterilized by the

699

00:32:23,630 --> 00:32:21,779

Roman Empire so we are not most French

700

00:32:26,029 --> 00:32:23,640

people would say we are Celtic warriors

701
00:32:27,370 --> 00:32:26,039
no no we are Romans we have been

702
00:32:31,909 --> 00:32:27,380
colonized

703
00:32:34,730 --> 00:32:31,919
we have like 20 Celtic words in the

704
00:32:39,049 --> 00:32:34,740
French language compared to the 30 000

705
00:32:42,769 --> 00:32:39,059
in the uh Greek and Italian Roman

706
00:32:45,710 --> 00:32:42,779
Italian Roots so that culture pretty

707
00:32:48,049 --> 00:32:45,720
much obliterated what we add in folklore

708
00:32:49,970 --> 00:32:48,059
at the time but when the Christian

709
00:32:52,430 --> 00:32:49,980
religion established itself in the

710
00:32:54,789 --> 00:32:52,440
fourth Century in France they converted

711
00:32:59,210 --> 00:32:54,799
all the folklore into

712
00:33:02,389 --> 00:32:59,220
uh his local texts so when you dig

713
00:33:04,310 --> 00:33:02,399

inside uh ancient text you can find

714

00:33:06,070 --> 00:33:04,320

rests of

715

00:33:10,310 --> 00:33:06,080

lists

716

00:33:16,370 --> 00:33:10,320

something coming from that workload that

717

00:33:21,049 --> 00:33:18,889

that's fascinating

718

00:33:23,090 --> 00:33:21,059

okay so if you don't mind I'd like to go

719

00:33:24,889 --> 00:33:23,100

a little bit back into something you

720

00:33:27,710 --> 00:33:24,899

said earlier

721

00:33:31,610 --> 00:33:27,720

um you said that in 1951 they started to

722

00:33:34,330 --> 00:33:31,620

study the UFOs in France the Albany

723

00:33:38,750 --> 00:33:34,340

um why do you think it was then was it

724

00:33:41,149 --> 00:33:38,760

as a result of what was going on in the

725

00:33:43,130 --> 00:33:41,159

United States and England or do you

726

00:33:46,070 --> 00:33:43,140

think it was some other thing that was a

727

00:33:50,630 --> 00:33:46,080

catalyst for that involvement

728

00:33:52,669 --> 00:33:50,640

so in in the 50s we had an author called

729

00:33:55,250 --> 00:33:52,679

Jimmy Grier who published that the

730

00:33:58,490 --> 00:33:55,260

original 50s book published two books in

731

00:34:02,029 --> 00:33:58,500

52 and 54. about the subject and it was

732

00:34:04,909 --> 00:34:02,039

pretty much the first to give

733

00:34:08,450 --> 00:34:04,919

information about what was happening in

734

00:34:11,089 --> 00:34:08,460

the U.S because in the US you had uh or

735

00:34:14,510 --> 00:34:11,099

where all what was happening between 42

736

00:34:16,909 --> 00:34:14,520

and 52 which was a very tense period and

737

00:34:19,490 --> 00:34:16,919

you have a book by Greg Wendell in

738

00:34:22,669 --> 00:34:19,500

English about flying sources I don't

739

00:34:24,589 --> 00:34:22,679

remember the name now sorry Graham about

740

00:34:29,810 --> 00:34:24,599

that specific period and you have

741

00:34:31,550 --> 00:34:29,820

another book from him on the 4245 period

742

00:34:33,530 --> 00:34:31,560

on the Foo Fighters which is really

743

00:34:34,970 --> 00:34:33,540

interesting so I I would recommend to go

744

00:34:38,050 --> 00:34:34,980

to the sources to have more information

745

00:34:43,730 --> 00:34:38,060

for the US in France we had

746

00:34:48,909 --> 00:34:43,740

very weird UFO flap I mean people

747

00:34:53,089 --> 00:34:48,919

um going out of flying saucers going to

748

00:34:56,089 --> 00:34:53,099

meeting Farmers under Farmland the

749

00:34:59,690 --> 00:34:56,099

farmers getting scared launching attack

750

00:35:02,450 --> 00:34:59,700

dogs to them the little people going to

751

00:35:05,150 --> 00:35:02,460

hide inside through on top of trees to

752

00:35:07,130 --> 00:35:05,160

escape the dogs the farmers shooting at

753

00:35:09,950 --> 00:35:07,140

them believing it was the return of the

754

00:35:13,069 --> 00:35:09,960

second world war so it was a pretty

755

00:35:14,770 --> 00:35:13,079

messy stuff in France so that's why the

756

00:35:18,530 --> 00:35:14,780

French Air Force

757

00:35:20,450 --> 00:35:18,540

acted that fast we had a trauma about it

758

00:35:22,609 --> 00:35:20,460

about the song on World War because we

759

00:35:26,089 --> 00:35:22,619

lost the war in one month because

760

00:35:29,270 --> 00:35:26,099

Belgium didn't want our defensive line

761

00:35:32,890 --> 00:35:29,280

to go along the borders so we

762

00:35:36,530 --> 00:35:32,900

let's see Germany just get around

763

00:35:39,530 --> 00:35:36,540

footballer and our French Air Force was

764

00:35:42,770 --> 00:35:39,540

decimated in the second world war so

765

00:35:46,010 --> 00:35:42,780

when we heard about UFO stuff in the 50s

766

00:35:53,510 --> 00:35:46,020

after being destroyed on Grand Island's

767

00:35:56,510 --> 00:35:55,130

what are uh

768

00:35:58,069 --> 00:35:56,520

uh what are some things that you're kind

769

00:36:00,410 --> 00:35:58,079

of paying really close attention to not

770

00:36:02,390 --> 00:36:00,420

only like in the near term this year

771

00:36:03,470 --> 00:36:02,400

with developments but uh the long term

772

00:36:05,329 --> 00:36:03,480

as well what are some things you're

773

00:36:10,370 --> 00:36:05,339

hoping to see

774

00:36:10,380 --> 00:36:16,490

so I see two ways

775

00:36:21,710 --> 00:36:18,829

and and it's only my opinion I have no

776

00:36:22,790 --> 00:36:21,720

4G no special knowledge it's just what I

777

00:36:26,750 --> 00:36:22,800

see

778

00:36:29,589 --> 00:36:26,760

the first way would be and it was an

779

00:36:33,829 --> 00:36:29,599

idea from a friend of mine in Germany

780

00:36:34,910 --> 00:36:33,839

that wrote UAP theory.com

781

00:36:37,490 --> 00:36:34,920

um

782

00:36:40,370 --> 00:36:37,500

the this everybody is waiting for the

783

00:36:43,069 --> 00:36:40,380

NASA to announce they discovered traces

784

00:36:46,910 --> 00:36:43,079

of Life anywhere and we know that there

785

00:36:49,430 --> 00:36:46,920

were a publication that has been blocked

786

00:36:51,109 --> 00:36:49,440

um because they are not sturdy enough to

787

00:36:53,150 --> 00:36:51,119

public reveal and they could be

788

00:36:56,829 --> 00:36:53,160

criticized because it's not direct

789

00:37:00,230 --> 00:36:56,839

knowledge it's an expiration of data

790

00:37:02,030 --> 00:37:00,240

so maybe everybody on earth is waiting

791

00:37:04,329 --> 00:37:02,040

for that thing that is absolutely

792

00:37:06,589 --> 00:37:04,339

indisputable like having a plant

793

00:37:10,910 --> 00:37:06,599

photographed by

794

00:37:12,849 --> 00:37:10,920

um opportunity on Mars right so okay

795

00:37:16,550 --> 00:37:12,859

it's a plant it's living

796

00:37:19,490 --> 00:37:16,560

okay right yeah it happened

797

00:37:22,310 --> 00:37:19,500

um and I think at that point everybody

798

00:37:23,930 --> 00:37:22,320

will realize we are not alone there is

799

00:37:27,589 --> 00:37:23,940

something else living

800

00:37:29,630 --> 00:37:27,599

people that have the keys to the secrets

801
00:37:32,390 --> 00:37:29,640
will assess the situation how do people

802
00:37:35,810 --> 00:37:32,400
react with their craziness in the air do

803
00:37:38,690 --> 00:37:35,820
they maintain themselves on us and if

804
00:37:40,970 --> 00:37:38,700
they maintain themselves they will

805
00:37:44,150 --> 00:37:40,980
release information at that point slowly

806
00:37:47,450 --> 00:37:44,160
around on on a 10 years program I think

807
00:37:51,710 --> 00:37:47,460
something like that something to go easy

808
00:37:55,670 --> 00:37:51,720
the other part is that melon and it is

809
00:38:00,410 --> 00:37:55,680
on those win they managed to have enough

810
00:38:02,530 --> 00:38:00,420
political Powers by the way of gilibrand

811
00:38:07,190 --> 00:38:02,540
Marco Rubio

812
00:38:09,410 --> 00:38:07,200
and Geico to to bend the will of the

813
00:38:13,069 --> 00:38:09,420

Department of Defense

814

00:38:16,970 --> 00:38:13,079

which is a pretty huge stuff I don't

815

00:38:19,130 --> 00:38:16,980

know if people realize how hard it is

816

00:38:22,310 --> 00:38:19,140

and how amazing it is that they

817

00:38:26,930 --> 00:38:22,320

succeeded so far that

818

00:38:29,930 --> 00:38:26,940

they could win that way and give

819

00:38:31,609 --> 00:38:29,940

um a piece a handpiece you know when you

820

00:38:33,470 --> 00:38:31,619

you want to stop the struggle and you

821

00:38:36,470 --> 00:38:33,480

give a hands of the other one can shake

822

00:38:38,990 --> 00:38:36,480

it to make peace about something uh to

823

00:38:42,410 --> 00:38:39,000

to videod and say okay that topic you

824

00:38:45,890 --> 00:38:42,420

lost just forget about it we we and

825

00:38:48,650 --> 00:38:45,900

that's why you have that feeling of a

826

00:38:51,290 --> 00:38:48,660

blankets about the 70 years of history

827

00:38:55,130 --> 00:38:51,300

on the subjects because it's nasty stuff

828

00:38:57,589 --> 00:38:55,140

inside it's very very massive stuff just

829

00:38:59,750 --> 00:38:57,599

here the number of Lies set by doji

830

00:39:02,630 --> 00:38:59,760

about what he did

831

00:39:04,730 --> 00:39:02,640

if he lies but everything inside that

832

00:39:07,310 --> 00:39:04,740

area of time

833

00:39:10,250 --> 00:39:07,320

what he is hiding behind these lines

834

00:39:12,470 --> 00:39:10,260

that are already very very bad so there

835

00:39:14,390 --> 00:39:12,480

is a really nice Easter that happened in

836

00:39:18,290 --> 00:39:14,400

that era of time and it was not even

837

00:39:21,230 --> 00:39:18,300

protected by the uh the U.S law it was

838

00:39:24,890 --> 00:39:21,240

before the law that forbid operation on

839

00:39:26,870 --> 00:39:24,900

U.S citizen happened so they went really

840

00:39:29,510 --> 00:39:26,880

far to anyone

841

00:39:32,390 --> 00:39:29,520

that he's questioning that go look at

842

00:39:34,550 --> 00:39:32,400

the MK Ultra project and what happened

843

00:39:37,670 --> 00:39:34,560

to Young students that were enlisting in

844

00:39:40,250 --> 00:39:37,680

universities and it's just horrible it's

845

00:39:43,069 --> 00:39:40,260

just horrible what happened and it was

846

00:39:46,069 --> 00:39:43,079

because they thought they needed it for

847

00:39:48,290 --> 00:39:46,079

the Cold War so imagine the level of

848

00:39:52,310 --> 00:39:48,300

secrecy we could have developed for

849

00:39:59,329 --> 00:39:56,349

I I just I just use public historical

850

00:40:02,510 --> 00:39:59,339

data and extrapolate it to something

851
00:40:05,630 --> 00:40:02,520
even bigger as UFOs and it would have

852
00:40:08,690 --> 00:40:05,640
made scared shitless even the strongest

853
00:40:10,849 --> 00:40:08,700
military you have vectors you can you

854
00:40:13,730 --> 00:40:10,859
have potential nuclear vectors that can

855
00:40:16,609 --> 00:40:13,740
appear instantly in the air

856
00:40:18,589 --> 00:40:16,619
above your bases you can't detect them

857
00:40:20,810 --> 00:40:18,599
you can't intercept them and they

858
00:40:23,089 --> 00:40:20,820
disable your nuclear weapons

859
00:40:25,370 --> 00:40:23,099
how do you want to scare more military

860
00:40:28,609 --> 00:40:25,380
men than that

861
00:40:30,829 --> 00:40:28,619
right yeah exactly uh DJ I got you one

862
00:40:34,790 --> 00:40:30,839
welcome to the show bud

863
00:40:37,490 --> 00:40:34,800

hey how's it going guys hi back please

864

00:40:39,109 --> 00:40:37,500

let's go hello how are you

865

00:40:40,970 --> 00:40:39,119

I'm doing good I had to wait for the

866

00:40:43,310 --> 00:40:40,980

super bike race to end those bikes are

867

00:40:44,569 --> 00:40:43,320

the loudest and uh I didn't think I

868

00:40:46,970 --> 00:40:44,579

could get away from them and my

869

00:40:49,490 --> 00:40:46,980

batteries nearly dead but I certainly

870

00:40:51,410 --> 00:40:49,500

have enough to to say hello to you guys

871

00:40:53,810 --> 00:40:51,420

how how's it going

872

00:40:56,030 --> 00:40:53,820

it's going great uh Deb was able to ask

873

00:40:59,810 --> 00:40:56,040

a uh a Sasquatch question about about

874

00:41:03,250 --> 00:41:01,550

I know I owe you buddy

875

00:41:06,109 --> 00:41:03,260

buddy

876

00:41:08,630 --> 00:41:06,119

yeah we have to get into the depth of

877

00:41:12,290 --> 00:41:08,640

that though because the answer was it

878

00:41:14,710 --> 00:41:12,300

may not just be Cryptid yeah yeah I was

879

00:41:16,910 --> 00:41:14,720

gonna ask you so good yeah please

880

00:41:19,370 --> 00:41:16,920

I was gonna follow on that yeah so I

881

00:41:21,109 --> 00:41:19,380

wanted to know Baptista are the

882

00:41:23,750 --> 00:41:21,119

sightings uh that you're familiar with

883

00:41:26,390 --> 00:41:23,760

in France related to Sasquatch are they

884

00:41:29,890 --> 00:41:26,400

uh kind of all over the country are they

885

00:41:32,690 --> 00:41:29,900

primarily at certain regions uh

886

00:41:35,870 --> 00:41:32,700

same stuff people working inside the

887

00:41:38,450 --> 00:41:35,880

forests or close to the limit of a

888

00:41:40,630 --> 00:41:38,460

forest and seeing something well or

889

00:41:43,130 --> 00:41:40,640

hearing voices

890

00:41:45,470 --> 00:41:43,140

or losing control of themselves what

891

00:41:48,770 --> 00:41:45,480

what politics described there were

892

00:41:51,050 --> 00:41:48,780

pretty much exactly the same thing

893

00:41:54,050 --> 00:41:51,060

that's why I don't think it's Bigfoot

894

00:41:55,130 --> 00:41:54,060

because uh if you if you think it's a

895

00:41:58,910 --> 00:41:55,140

Cryptid

896

00:42:00,109 --> 00:41:58,920

uh we have similar species but there are

897

00:42:02,569 --> 00:42:00,119

different

898

00:42:03,849 --> 00:42:02,579

um appearances the physical appearances

899

00:42:14,930 --> 00:42:03,859

of

900

00:42:19,250 --> 00:42:14,940

European population to colonize the US

901
00:42:21,890 --> 00:42:19,260
was the myth that the true myth the

902
00:42:23,750 --> 00:42:21,900
legend that was being spread that

903
00:42:29,030 --> 00:42:23,760
everything was bigger in the US because

904
00:42:32,230 --> 00:42:29,040
you had bigger your game for hunting you

905
00:42:36,770 --> 00:42:32,240
have bigger land bigger crops

906
00:42:39,950 --> 00:42:36,780
and that would be very weird to not see

907
00:42:42,349 --> 00:42:39,960
that inside the Cryptid mm-hmm

908
00:42:44,990 --> 00:42:42,359
right that's a good point so do you

909
00:42:47,930 --> 00:42:45,000
think there's kind of more of a like a a

910
00:42:50,450 --> 00:42:47,940
paranormal paranormal component to the

911
00:42:53,450 --> 00:42:50,460
date Bigfoot sightings then

912
00:42:55,370 --> 00:42:53,460
we have a whole book of accounts but I

913
00:42:56,210 --> 00:42:55,380

don't I don't have itching paper I have

914

00:42:58,010 --> 00:42:56,220

it

915

00:43:00,349 --> 00:42:58,020

um about

916

00:43:03,950 --> 00:43:00,359

um Close Encounters and in Close

917

00:43:05,329 --> 00:43:03,960

Encounters you there is a the theater

918

00:43:08,030 --> 00:43:05,339

effect

919

00:43:10,190 --> 00:43:08,040

there is something wrong with the logic

920

00:43:13,190 --> 00:43:10,200

of the situation and it's like you are

921

00:43:15,290 --> 00:43:13,200

inside a dream like stance where you

922

00:43:19,069 --> 00:43:15,300

don't really questions how logical

923

00:43:21,550 --> 00:43:19,079

things happen to you what value describe

924

00:43:24,170 --> 00:43:21,560

um as a trickster there is something

925

00:43:26,450 --> 00:43:24,180

absurd in the Clown's close encounter

926
00:43:28,910 --> 00:43:26,460
what they just don't talk to us and

927
00:43:32,510 --> 00:43:28,920
explain and we want we understand they

928
00:43:36,650 --> 00:43:32,520
have to invent star systems that don't

929
00:43:39,890 --> 00:43:36,660
exist or right um weird planets we are

930
00:43:43,190 --> 00:43:39,900
say they bring the the witness and if it

931
00:43:44,390 --> 00:43:43,200
is a story that is really dreamlike so I

932
00:43:47,690 --> 00:43:44,400
think there is

933
00:43:50,329 --> 00:43:47,700
um a passage perception part that is

934
00:43:53,569 --> 00:43:50,339
escaping most people you need to

935
00:43:57,290 --> 00:43:53,579
understand that you have very very

936
00:44:01,250 --> 00:43:57,300
shitty senses you don't see reality

937
00:44:04,130 --> 00:44:01,260
right your eyes has only three colors

938
00:44:06,050 --> 00:44:04,140

you can see blue green and red but Soul

939

00:44:08,870 --> 00:44:06,060

everything else is created in your

940

00:44:11,809 --> 00:44:08,880

brain you always have one second delay

941

00:44:17,210 --> 00:44:14,329

to everything that happens around you

942

00:44:19,069 --> 00:44:17,220

the time your brain need to process all

943

00:44:20,930 --> 00:44:19,079

the information that is happening but

944

00:44:23,030 --> 00:44:20,940

that's why you're surprised of something

945

00:44:26,089 --> 00:44:23,040

that's why you think

946

00:44:30,069 --> 00:44:26,099

um you can't catch a fly it's because

947

00:44:33,829 --> 00:44:30,079

the the brain of the fly is so small

948

00:44:37,010 --> 00:44:33,839

it's it thinks three times faster than

949

00:44:42,829 --> 00:44:39,770

reality what you feel about reality is

950

00:44:45,290 --> 00:44:42,839

an illusion created in your brain in

951

00:44:48,430 --> 00:44:45,300

cases of Madness it's a part of your

952

00:44:51,589 --> 00:44:48,440

brain that takes control of what you see

953

00:44:55,069 --> 00:44:51,599

and makes you see something that isn't

954

00:44:58,370 --> 00:44:55,079

real for a verse but it is real for you

955

00:45:02,329 --> 00:44:58,380

that's what we call Madness right the

956

00:45:05,510 --> 00:45:02,339

mad person is is apart for a self

957

00:45:06,910 --> 00:45:05,520

it's mine compared to all viewers that

958

00:45:10,309 --> 00:45:06,920

don't see what

959

00:45:13,030 --> 00:45:10,319

her see she says

960

00:45:15,410 --> 00:45:13,040

so I think there is a vast

961

00:45:19,490 --> 00:45:15,420

misunderstanding about what is

962

00:45:21,890 --> 00:45:19,500

perception and how brain creates that

963

00:45:24,609 --> 00:45:21,900

perception if you have a high enough

964

00:45:28,329 --> 00:45:24,619

level of Technology where you can

965

00:45:31,730 --> 00:45:28,339

pinpoint which neuron in the pathway

966

00:45:34,970 --> 00:45:31,740

modifies which information

967

00:45:37,550 --> 00:45:34,980

you can do anything you want and I go

968

00:45:40,190 --> 00:45:37,560

back again to the MK Ultra experiments

969

00:45:42,010 --> 00:45:40,200

that were literally to modify the

970

00:45:47,930 --> 00:45:42,020

perception of a subject of a situation

971

00:45:54,410 --> 00:45:50,870

DJ had a follow-up

972

00:45:57,710 --> 00:45:54,420

uh yes it just had to open my my guess

973

00:46:01,609 --> 00:45:57,720

um one thing if I use the intelligences

974

00:46:03,589 --> 00:46:01,619

that that visit us uh and have abducted

975

00:46:05,990 --> 00:46:03,599

people or have appeared in their home

976
00:46:08,870 --> 00:46:06,000
and not abducted people and then I

977
00:46:11,030 --> 00:46:08,880
contrast that against what Nathan and I

978
00:46:13,069 --> 00:46:11,040
have discovered is you know right now

979
00:46:14,510 --> 00:46:13,079
we're sitting on about you know 13 or

980
00:46:16,730 --> 00:46:14,520
1400

981
00:46:18,770 --> 00:46:16,740
first person encounters with this

982
00:46:20,030 --> 00:46:18,780
creature in the forest Hunters hikers

983
00:46:22,370 --> 00:46:20,040
campers

984
00:46:25,370 --> 00:46:22,380
the diff one of the differences is that

985
00:46:27,290 --> 00:46:25,380
some of these people have found where

986
00:46:29,990 --> 00:46:27,300
the creatures are bedded down and they

987
00:46:32,690 --> 00:46:30,000
can see where they've made a bed they

988
00:46:35,030 --> 00:46:32,700

have found the dung that they say looks

989

00:46:36,829 --> 00:46:35,040

similar to a Foster's lager can for

990

00:46:38,329 --> 00:46:36,839

those of you who've had those gigantic

991

00:46:40,609 --> 00:46:38,339

beers

992

00:46:43,970 --> 00:46:40,619

um they have seen them in the family

993

00:46:47,990 --> 00:46:43,980

unit toddlers being held in their

994

00:46:49,670 --> 00:46:48,000

mother's arms and and so while I have

995

00:46:51,290 --> 00:46:49,680

not decided whether or not I think this

996

00:46:53,270 --> 00:46:51,300

is an interdimensional creature or not I

997

00:46:55,670 --> 00:46:53,280

think it's I'm not that I should I don't

998

00:46:57,410 --> 00:46:55,680

even have an opinion yet I mean I had

999

00:46:58,730 --> 00:46:57,420

one opinion I changed my opinion so

1000

00:47:00,530 --> 00:46:58,740

right now I think I just need to not

1001
00:47:05,030 --> 00:47:00,540
have an opinion but I will say this

1002
00:47:08,870 --> 00:47:05,040
there is a uh a little bit of a gap

1003
00:47:12,829 --> 00:47:08,880
between what we have seen relative to

1004
00:47:15,050 --> 00:47:12,839
real actual creature humanoid creature

1005
00:47:19,250 --> 00:47:15,060
living in the woods subsisting in the

1006
00:47:23,870 --> 00:47:19,260
woods hunting deer uh grabbing calves

1007
00:47:25,730 --> 00:47:23,880
out of uh Farmers uh pens uh eating out

1008
00:47:26,870 --> 00:47:25,740
of people's vegetable gardens that does

1009
00:47:31,370 --> 00:47:26,880
not exist

1010
00:47:34,550 --> 00:47:31,380
with the phenomenon that that uh to not

1011
00:47:36,829 --> 00:47:34,560
necessarily use all the same uh foods

1012
00:47:39,650 --> 00:47:36,839
and so on that we do so I think we're

1013
00:47:42,230 --> 00:47:39,660

I'm leaning towards you know a

1014

00:47:44,089 --> 00:47:42,240

terrestrial mammal but I'm certainly

1015

00:47:45,589 --> 00:47:44,099

open to changing my mind because I've

1016

00:47:49,490 --> 00:47:45,599

already gone back and forth at least

1017

00:47:54,290 --> 00:47:51,050

the

1018

00:47:58,490 --> 00:47:54,300

I think you need to to have if I may a

1019

00:48:03,170 --> 00:48:01,430

very few problems are simple

1020

00:48:06,470 --> 00:48:03,180

there is a way

1021

00:48:08,270 --> 00:48:06,480

um two phases of one coin

1022

00:48:11,030 --> 00:48:08,280

I think that there is another lap

1023

00:48:14,990 --> 00:48:11,040

between two feminomenal

1024

00:48:16,930 --> 00:48:15,000

one that is a being that is an

1025

00:48:19,970 --> 00:48:16,940

Undiscovered specie

1026
00:48:21,770 --> 00:48:19,980
viewer is a phenomenon that is able to

1027
00:48:24,530 --> 00:48:21,780
mimic

1028
00:48:27,109 --> 00:48:24,540
some fingers anything else we have

1029
00:48:28,370 --> 00:48:27,119
reports of UFOs mimicking the shape of

1030
00:48:32,510 --> 00:48:28,380
aircrafts

1031
00:48:35,329 --> 00:48:32,520
we have witness describing CEO of UFO in

1032
00:48:36,730 --> 00:48:35,339
the air changing shapes and turning each

1033
00:48:38,589 --> 00:48:36,740
into into

1034
00:48:40,370 --> 00:48:38,599
a

1035
00:48:42,109 --> 00:48:40,380
flying jet

1036
00:48:46,190 --> 00:48:42,119
um

1037
00:48:48,170 --> 00:48:46,200
we are close encounters where most of

1038
00:48:51,170 --> 00:48:48,180

the people described in Close Encounters

1039

00:48:54,890 --> 00:48:51,180

are human-like

1040

00:48:57,250 --> 00:48:54,900

which is very interesting 60 percent of

1041

00:49:01,970 --> 00:48:57,260

Close Encounters Witness

1042

00:49:04,670 --> 00:49:01,980

describe a human talking to them

1043

00:49:09,470 --> 00:49:04,680

so there is of course an ability to

1044

00:49:12,290 --> 00:49:09,480

mimic us which is very well fought we do

1045

00:49:15,230 --> 00:49:12,300

the same when we want to study yanaz we

1046

00:49:18,470 --> 00:49:15,240

create a robot that looks like Rihanna

1047

00:49:20,630 --> 00:49:18,480

so it can go inside the nest without

1048

00:49:24,170 --> 00:49:20,640

being destroyed

1049

00:49:27,410 --> 00:49:24,180

we have very weird reports that are that

1050

00:49:31,069 --> 00:49:27,420

have been today by David polides that

1051
00:49:34,849 --> 00:49:31,079
describe UFOs landing and Sasquatch

1052
00:49:37,190 --> 00:49:34,859
going out of it and going to the forest

1053
00:49:39,950 --> 00:49:37,200
so I think that that you have a

1054
00:49:44,030 --> 00:49:39,960
phenomenon that can mimic anything it

1055
00:49:47,829 --> 00:49:44,040
wants to study which is wrong of what

1056
00:49:50,150 --> 00:49:47,839
Bigelow says they are under our noses

1057
00:49:52,250 --> 00:49:50,160
yeah I want to say that I share your

1058
00:49:54,470 --> 00:49:52,260
philosophy actually the the cabbies have

1059
00:49:57,470 --> 00:49:54,480
heard me say on many of occasions it's

1060
00:50:00,290 --> 00:49:57,480
not necessarily this or that it is

1061
00:50:02,329 --> 00:50:00,300
perhaps this and that and I've said that

1062
00:50:04,250 --> 00:50:02,339
these guys have probably heard me say

1063
00:50:06,410 --> 00:50:04,260

that more than they wish they did so I

1064

00:50:08,270 --> 00:50:06,420

do agree with you on that so we I think

1065

00:50:11,930 --> 00:50:08,280

we share that opinion I probably didn't

1066

00:50:14,990 --> 00:50:11,940

express myself uh completely but I I

1067

00:50:17,569 --> 00:50:15,000

agree with you it it it can be this and

1068

00:50:19,970 --> 00:50:17,579

that I miss merely I think what I was

1069

00:50:22,370 --> 00:50:19,980

trying to say and not the set of

1070

00:50:24,349 --> 00:50:22,380

expressive particularly well is that

1071

00:50:27,470 --> 00:50:24,359

there are certain types of encounters

1072

00:50:29,630 --> 00:50:27,480

that humans have had uh being physically

1073

00:50:31,910 --> 00:50:29,640

struck by the creature one a couple of

1074

00:50:34,069 --> 00:50:31,920

fishermen in Ohio one of them threw

1075

00:50:37,309 --> 00:50:34,079

rocks at it and was physically struck so

1076
00:50:40,609 --> 00:50:37,319
they're just some you know some more

1077
00:50:42,770 --> 00:50:40,619
terrestrial uh uh happenings but I I

1078
00:50:46,190 --> 00:50:42,780
don't I don't deny that there could have

1079
00:50:48,170 --> 00:50:46,200
also be an interdimensional component in

1080
00:50:51,589 --> 00:50:48,180
addition to that

1081
00:50:53,630 --> 00:50:51,599
and there is the last part there is a

1082
00:50:56,870 --> 00:50:53,640
first stage in the Venn diagram we are

1083
00:51:01,309 --> 00:50:56,880
drawing is that you the human brain is

1084
00:51:03,650 --> 00:51:01,319
perfectly able to lie to itself if you

1085
00:51:06,049 --> 00:51:03,660
see something that you don't want to

1086
00:51:07,609 --> 00:51:06,059
exist your brain will cover it with

1087
00:51:09,010 --> 00:51:07,619
something else

1088
00:51:15,049 --> 00:51:09,020

so

1089

00:51:19,849 --> 00:51:15,059

is under it and you need to pass the

1090

00:51:23,510 --> 00:51:22,609

yeah no for sure I mean it the level of

1091

00:51:25,730 --> 00:51:23,520

uh

1092

00:51:29,690 --> 00:51:25,740

intelligence that we see in the

1093

00:51:30,609 --> 00:51:29,700

phenomena routinely seems to uh indicate

1094

00:51:33,230 --> 00:51:30,619

that

1095

00:51:36,589 --> 00:51:33,240

it's allowing us to see it in a certain

1096

00:51:39,109 --> 00:51:36,599

way uh you know that we

1097

00:51:40,970 --> 00:51:39,119

um as you said very well eloquently we

1098

00:51:43,790 --> 00:51:40,980

are changing the way we perceive it

1099

00:51:47,150 --> 00:51:43,800

because of our filter the filter way we

1100

00:51:48,589 --> 00:51:47,160

filter in data of our own perception

1101
00:51:50,809 --> 00:51:48,599
um it definitely raises a lot of

1102
00:51:53,329 --> 00:51:50,819
interesting questions and DJI I I agree

1103
00:51:55,690 --> 00:51:53,339
it's uh it's quite peculiar

1104
00:51:58,010 --> 00:51:55,700
um particularly if these creatures are

1105
00:52:01,069 --> 00:51:58,020
uh you know just sort of setting a shop

1106
00:52:03,710 --> 00:52:01,079
in our forests around the world uh you

1107
00:52:05,450 --> 00:52:03,720
know could it imply that um you know if

1108
00:52:09,109 --> 00:52:05,460
they if there is some sort of phenomenal

1109
00:52:10,670 --> 00:52:09,119
connection there that they uh you know

1110
00:52:13,190 --> 00:52:10,680
are just sort of stationed here in other

1111
00:52:15,829 --> 00:52:13,200
words for lack of a better term

1112
00:52:17,510 --> 00:52:15,839
um or uh or it's all interconnected on

1113
00:52:20,690 --> 00:52:17,520

some sort of more fundamental longer

1114

00:52:21,950 --> 00:52:20,700

lasting ultra-terrestrial type of deeper

1115

00:52:24,170 --> 00:52:21,960

level

1116

00:52:25,849 --> 00:52:24,180

um but I guess that kind of gets us to a

1117

00:52:27,170 --> 00:52:25,859

good a good question as we kind of Veer

1118

00:52:30,230 --> 00:52:27,180

toward the end of the show but you know

1119

00:52:32,510 --> 00:52:30,240

Baptiste do you have a uh kind of a a

1120

00:52:34,010 --> 00:52:32,520

leading hypothesis about you know

1121

00:52:35,990 --> 00:52:34,020

something that you're particularly drawn

1122

00:52:37,549 --> 00:52:36,000

to on the hypothesis on the phenomenon

1123

00:52:39,109 --> 00:52:37,559

it's something that you know you think

1124

00:52:40,670 --> 00:52:39,119

is the most compelling way to look at

1125

00:52:43,309 --> 00:52:40,680

the information

1126

00:52:46,250 --> 00:52:43,319

uh I think it's the worst problem of

1127

00:52:48,410 --> 00:52:46,260

this topic to to either an hypothesis

1128

00:52:50,750 --> 00:52:48,420

means you have a way to test it

1129

00:52:53,930 --> 00:52:50,760

yeah you don't have hypothesis you have

1130

00:52:57,290 --> 00:52:53,940

ideas sure and ideas are your worst in

1131

00:52:59,450 --> 00:52:57,300

me in science because you prepare what

1132

00:53:03,170 --> 00:52:59,460

you want to see in the data

1133

00:53:04,970 --> 00:53:03,180

so I refuse to have ideas about that

1134

00:53:07,430 --> 00:53:04,980

subjects until I have something in my

1135

00:53:09,770 --> 00:53:07,440

hand and once I will have something in

1136

00:53:12,290 --> 00:53:09,780

my end exactly what is Valerian Nolan

1137

00:53:14,270 --> 00:53:12,300

doing but yeah they have something in

1138

00:53:17,089 --> 00:53:14,280

their hand they are studying it

1139

00:53:21,410 --> 00:53:17,099

that's the way to go and you let the

1140

00:53:24,069 --> 00:53:21,420

data speak what we saw in the data we

1141

00:53:29,470 --> 00:53:24,079

saw that it wasn't

1142

00:53:34,190 --> 00:53:29,480

an obtain a material to to get

1143

00:53:36,109 --> 00:53:34,200

a coast to coast reference it's

1144

00:53:39,710 --> 00:53:36,119

materials

1145

00:53:42,829 --> 00:53:39,720

what is where is the balance of Isotopes

1146

00:53:45,470 --> 00:53:42,839

inside it meaning it has been engineered

1147

00:53:49,069 --> 00:53:45,480

and it has been engineered in a way that

1148

00:53:51,770 --> 00:53:49,079

doesn't make sense to us I mean it would

1149

00:53:55,670 --> 00:53:51,780

cost a tremendous amount of resources

1150

00:53:58,430 --> 00:53:55,680

for in 1950s do these Isotopes and they

1151
00:54:00,049 --> 00:53:58,440
don't have any use at all

1152
00:54:02,809 --> 00:54:00,059
for us

1153
00:54:05,750 --> 00:54:02,819
so it's really really weird but the

1154
00:54:08,329 --> 00:54:05,760
components could have been made on Earth

1155
00:54:10,490 --> 00:54:08,339
they aren't that different from what you

1156
00:54:13,849 --> 00:54:10,500
find on Earth they have been engineered

1157
00:54:17,930 --> 00:54:13,859
which is a very interesting piece of

1158
00:54:19,329 --> 00:54:17,940
data if it can generalize that statement

1159
00:54:24,049 --> 00:54:19,339
it's not

1160
00:54:26,510 --> 00:54:24,059
a black dwarf materials used to have a

1161
00:54:28,250 --> 00:54:26,520
very strong structure no no it's just

1162
00:54:30,290 --> 00:54:28,260
normal stuff you can find on the ground

1163
00:54:32,630 --> 00:54:30,300

and you put it in a nuclear reactor

1164

00:54:34,970 --> 00:54:32,640

under a certain constraints and it gives

1165

00:54:36,710 --> 00:54:34,980

a good ratio of Isotopes or your

1166

00:54:39,130 --> 00:54:36,720

technology

1167

00:54:43,250 --> 00:54:39,140

and I don't know why

1168

00:54:47,089 --> 00:54:43,260

not it's it starts that sexy it's not

1169

00:54:48,950 --> 00:54:47,099

like a big space Chic like a grandma uh

1170

00:54:52,490 --> 00:54:48,960

coming from another galaxy and meeting

1171

00:54:54,290 --> 00:54:52,500

us with uh Flags or around no it's not

1172

00:54:56,930 --> 00:54:54,300

it's not that way it's not that sexy

1173

00:55:01,490 --> 00:54:56,940

each piece of rock but uh slightly

1174

00:55:04,790 --> 00:55:01,500

different but what we have but it is

1175

00:55:06,829 --> 00:55:04,800

important to wait the information there

1176

00:55:10,970 --> 00:55:06,839

is inside that

1177

00:55:14,690 --> 00:55:10,980

it doesn't may it it wasn't made far

1178

00:55:14,700 --> 00:55:17,210

right

1179

00:55:21,530 --> 00:55:18,770

so I actually

1180

00:55:23,150 --> 00:55:21,540

um heard you talk about this before

1181

00:55:25,430 --> 00:55:23,160

um you were talking about the potential

1182

00:55:27,530 --> 00:55:25,440

of this being something that is evolving

1183

00:55:29,750 --> 00:55:27,540

alongside us

1184

00:55:31,790 --> 00:55:29,760

um using resources on the planet and so

1185

00:55:35,150 --> 00:55:31,800

forth and I feel like the only thing

1186

00:55:37,130 --> 00:55:35,160

that is really consistent is the orbs

1187

00:55:39,890 --> 00:55:37,140

um the orbs that which basically could

1188

00:55:42,410 --> 00:55:39,900

be you know who knew anything from a

1189

00:55:45,230 --> 00:55:42,420

ball of energy to I don't know you know

1190

00:55:47,270 --> 00:55:45,240

something we can't even fathom so I just

1191

00:55:49,430 --> 00:55:47,280

wanted to follow up on what you think

1192

00:55:53,329 --> 00:55:49,440

about that and so if you wanted to

1193

00:55:55,849 --> 00:55:53,339

expound on that Evolution concept

1194

00:55:58,130 --> 00:55:55,859

so first we do to Define what you you

1195

00:56:00,230 --> 00:55:58,140

called offs because there is a very big

1196

00:56:03,890 --> 00:56:00,240

misunderstanding about that

1197

00:56:05,329 --> 00:56:03,900

so I I dislike orbs uh I I prefer

1198

00:56:10,130 --> 00:56:05,339

signals

1199

00:56:11,089 --> 00:56:10,140

are like magic stuff I don't like magic

1200

00:56:14,569 --> 00:56:11,099

stuff

1201
00:56:19,010 --> 00:56:14,579
in the 3af sigma 2 report published in

1202
00:56:22,150 --> 00:56:19,020
2021 you have a whole area of science

1203
00:56:26,930 --> 00:56:22,160
that has been discovered that has

1204
00:56:30,530 --> 00:56:26,940
atmospheric plasmas and they do really

1205
00:56:33,170 --> 00:56:30,540
really weird stuff I mean stuff we don't

1206
00:56:35,870 --> 00:56:33,180
understand we saw them we know it's

1207
00:56:39,049 --> 00:56:35,880
natural it's not technological and it's

1208
00:56:41,390 --> 00:56:39,059
really really weird like in the last SEO

1209
00:56:43,370 --> 00:56:41,400
conference Rich of man described

1210
00:56:44,290 --> 00:56:43,380
studying

1211
00:56:51,170 --> 00:56:44,300
um

1212
00:56:55,609 --> 00:56:51,180
level unstagnant meaning a ball of light

1213
00:56:58,430 --> 00:56:55,619

that hovers but sunlight only in one way

1214

00:57:01,790 --> 00:56:58,440

which is impossible

1215

00:57:07,130 --> 00:57:04,970

so there is a whole area of physics we

1216

00:57:09,890 --> 00:57:07,140

start from the runs to understand that's

1217

00:57:12,470 --> 00:57:09,900

what it's called uaps there was a lot of

1218

00:57:15,790 --> 00:57:12,480

debates about what they call virtue APS

1219

00:57:18,829 --> 00:57:15,800

what not UFOs but uaps means anything

1220

00:57:22,010 --> 00:57:18,839

but you can't detect

1221

00:57:24,710 --> 00:57:22,020

UFOs mean flying objects it's not flying

1222

00:57:27,890 --> 00:57:24,720

it's not all the time objects and I

1223

00:57:30,470 --> 00:57:27,900

agree sometimes there are orbs that are

1224

00:57:33,049 --> 00:57:30,480

doing really weird stuff that seem

1225

00:57:34,250 --> 00:57:33,059

sentient I absolutely agree that the

1226

00:57:37,609 --> 00:57:34,260

problem is that we have the

1227

00:57:41,089 --> 00:57:37,619

technological level to do that you can

1228

00:57:44,750 --> 00:57:41,099

concentrate energy inside the hair at a

1229

00:57:47,270 --> 00:57:44,760

point where it emits light and it's a

1230

00:57:49,910 --> 00:57:47,280

shape of a ball it consumes a track

1231

00:57:52,970 --> 00:57:49,920

loads of energy which can do that and we

1232

00:57:54,890 --> 00:57:52,980

can do that since I think I was 14 years

1233

00:57:56,030 --> 00:57:54,900

old the first time I read an article

1234

00:58:00,230 --> 00:57:56,040

about that

1235

00:58:03,230 --> 00:58:00,240

the Navy is patented to use it to use it

1236

00:58:05,690 --> 00:58:03,240

as a spoof for a message tracking

1237

00:58:09,170 --> 00:58:05,700

infrared signatures

1238

00:58:12,829 --> 00:58:09,180

so I'm very cautious about using the

1239

00:58:15,950 --> 00:58:12,839

orbs as a whole I prefer to talk about

1240

00:58:18,349 --> 00:58:15,960

signals when it's emitting from a source

1241

00:58:21,410 --> 00:58:18,359

and if there is a type of code inside it

1242

00:58:25,309 --> 00:58:21,420

and we have many reports of that we have

1243

00:58:28,490 --> 00:58:25,319

many reports of signals being received

1244

00:58:30,589 --> 00:58:28,500

from Craft that vanished just after it

1245

00:58:32,030 --> 00:58:30,599

which is very interesting and nobody

1246

00:58:34,490 --> 00:58:32,040

talks about it but it is very

1247

00:58:35,930 --> 00:58:34,500

interesting in science we're working on

1248

00:58:38,450 --> 00:58:35,940

now because we're working on making

1249

00:58:43,210 --> 00:58:38,460

light from sound now

1250

00:58:45,710 --> 00:58:43,220

hmm interesting it was 20 years ago

1251
00:58:48,890 --> 00:58:45,720
seriously the technology is 20 years old

1252
00:58:52,190 --> 00:58:50,210
um

1253
00:58:54,650 --> 00:58:52,200
and I forgot the second part of your

1254
00:58:57,289 --> 00:58:54,660
question sorry no I just I was just the

1255
00:59:00,289 --> 00:58:57,299
idea that they're evolving alongside us

1256
00:59:02,809 --> 00:59:00,299
which kind of implies Ultra terrestrial

1257
00:59:05,150 --> 00:59:02,819
no I don't agree at all with that

1258
00:59:08,329 --> 00:59:05,160
exception I've

1259
00:59:12,410 --> 00:59:08,339
there is an old saying science

1260
00:59:14,630 --> 00:59:12,420
um if I don't need it I don't use it it

1261
00:59:17,089 --> 00:59:14,640
doesn't mean that everything is

1262
00:59:18,710 --> 00:59:17,099
supposedly we saw earlier that you need

1263
00:59:22,250 --> 00:59:18,720

to have complex models for complex

1264

00:59:25,309 --> 00:59:22,260

situations but when it is not needed I

1265

00:59:28,609 --> 00:59:25,319

tend to not use it do I need Ultra

1266

00:59:29,930 --> 00:59:28,619

terrestrial now we discovered 10 of our

1267

00:59:32,510 --> 00:59:29,940

oceans

1268

00:59:35,690 --> 00:59:32,520

even in ground do you know if a forest

1269

00:59:37,910 --> 00:59:35,700

near you have you work every centimeters

1270

00:59:40,549 --> 00:59:37,920

of the forest near you

1271

00:59:42,170 --> 00:59:40,559

I'm in Europe I go in the forest every

1272

00:59:44,450 --> 00:59:42,180

10 minutes 10 meters I have an

1273

00:59:46,910 --> 00:59:44,460

Undiscovered Runes of something

1274

00:59:49,490 --> 00:59:46,920

we have been there for 50 000 years

1275

00:59:53,450 --> 00:59:49,500

there are ruins everywhere same thing in

1276
00:59:56,510 --> 00:59:53,460
the US you had human population for 50

1277
00:59:58,910 --> 00:59:56,520
000 years you have the biggest wounds

1278
01:00:01,690 --> 00:59:58,920
complex on Earth

1279
01:00:08,030 --> 01:00:01,700
and people forgot that civilizations

1280
01:00:13,250 --> 01:00:10,190
yeah it's a it's a rich environment full

1281
01:00:15,410 --> 01:00:13,260
of uh relics and information it's kind

1282
01:00:17,630 --> 01:00:15,420
of always around us and we're you know

1283
01:00:19,789 --> 01:00:17,640
we make these discoveries and in a way

1284
01:00:21,170 --> 01:00:19,799
where our surprise is a little bit

1285
01:00:23,270 --> 01:00:21,180
surprising

1286
01:00:24,710 --> 01:00:23,280
you know that we're we're shocked to

1287
01:00:27,049 --> 01:00:24,720
find these things even though they've

1288
01:00:28,910 --> 01:00:27,059

been there uh we should expect to find

1289

01:00:31,309 --> 01:00:28,920

many of these things correct

1290

01:00:34,130 --> 01:00:31,319

um and it's a part of what

1291

01:00:37,789 --> 01:00:34,140

um you you hurt yourself by using the

1292

01:00:39,970 --> 01:00:37,799

Ancient Aliens because any true

1293

01:00:44,089 --> 01:00:39,980

archaeologists

1294

01:00:46,370 --> 01:00:44,099

no it was made by human hands it's just

1295

01:00:51,650 --> 01:00:46,380

that they are time

1296

01:00:55,329 --> 01:00:51,660

on their part we do stuff fast they had

1297

01:00:58,970 --> 01:00:55,339

centuries to build a temple

1298

01:01:02,750 --> 01:00:58,980

take your church in France the root of

1299

01:01:06,470 --> 01:01:02,760

the church is a thousand years old

1300

01:01:08,750 --> 01:01:06,480

and it's not even near what the Romans

1301

01:01:12,230 --> 01:01:08,760

did in Rome

1302

01:01:15,589 --> 01:01:12,240

in 30 years

1303

01:01:19,069 --> 01:01:15,599

we lose Technologies we don't require

1304

01:01:22,789 --> 01:01:19,079

all the time look at what the Egyptians

1305

01:01:26,089 --> 01:01:22,799

did in sculpting it's just amazing they

1306

01:01:29,569 --> 01:01:26,099

had nothing they are the technological

1307

01:01:34,309 --> 01:01:29,579

level of copper they have they had

1308

01:01:38,390 --> 01:01:34,319

points of copper to scratch the stone

1309

01:01:41,150 --> 01:01:38,400

and they did amazing works of details

1310

01:01:44,089 --> 01:01:41,160

because they spent the resources to do

1311

01:01:47,109 --> 01:01:44,099

it and it mattered to them now it's

1312

01:01:50,390 --> 01:01:47,119

really something I push against because

1313

01:01:52,430 --> 01:01:50,400

you are decrabitizing yourself by

1314

01:01:55,670 --> 01:01:52,440

using the Ancient Aliens hypothesis

1315

01:01:58,069 --> 01:01:55,680

right it doesn't mean they weren't there

1316

01:02:00,349 --> 01:01:58,079

but do you see them today giving us

1317

01:02:01,150 --> 01:02:00,359

Technologies or showing us how to do

1318

01:02:04,430 --> 01:02:01,160

things

1319

01:02:06,410 --> 01:02:04,440

and nowhere in history it is written

1320

01:02:09,289 --> 01:02:06,420

somewhere nowhere

1321

01:02:13,549 --> 01:02:09,299

people want to search the archives of

1322

01:02:17,089 --> 01:02:13,559

the Vatican ask the Jews the Jews have

1323

01:02:20,690 --> 01:02:17,099

all their history far beyond what the

1324

01:02:26,569 --> 01:02:20,700

Vatican has for million years of oral

1325

01:02:28,430 --> 01:02:26,579

tradition they have zero about it zero

1326

01:02:30,950 --> 01:02:28,440

weird stuff

1327

01:02:34,549 --> 01:02:30,960

you see it in the fourth century when

1328

01:02:37,010 --> 01:02:34,559

the Quran is written and there you start

1329

01:02:40,250 --> 01:02:37,020

to see what we would call Modern UFOs

1330

01:02:43,609 --> 01:02:40,260

which is really interesting

1331

01:02:46,250 --> 01:02:43,619

why it isn't noticed anywhere else

1332

01:02:48,829 --> 01:02:46,260

modern UFOs I mean things in the sky

1333

01:02:50,030 --> 01:02:48,839

that seems to answer when you talk to

1334

01:02:53,569 --> 01:02:50,040

them

1335

01:02:56,390 --> 01:02:53,579

and it is written in the fourth century

1336

01:02:58,849 --> 01:02:56,400

so there is a progression of involvement

1337

01:03:01,970 --> 01:02:58,859

from the phenomenon towards us

1338

01:03:04,609 --> 01:03:01,980

and we could have very well been there

1339

01:03:06,470 --> 01:03:04,619

thousands of years ago doesn't mean that

1340

01:03:08,510 --> 01:03:06,480

they need to talk to us they don't talk

1341

01:03:12,770 --> 01:03:08,520

to us today what would they talk to us

1342

01:03:17,990 --> 01:03:15,170

yeah exactly well Deb anyone asking

1343

01:03:20,089 --> 01:03:18,000

about the uh upcoming conference yep I

1344

01:03:21,829 --> 01:03:20,099

had a heard a rumor that there's going

1345

01:03:23,510 --> 01:03:21,839

to be going to be a conference coming up

1346

01:03:25,549 --> 01:03:23,520

I was wondering if you were planning on

1347

01:03:27,109 --> 01:03:25,559

going or if you had any additional

1348

01:03:30,410 --> 01:03:27,119

information you could provide that it

1349

01:03:33,170 --> 01:03:30,420

would be it's I believe on the 13th and

1350

01:03:34,370 --> 01:03:33,180

14th of next month is that something

1351

01:03:37,010 --> 01:03:34,380

you've heard of

1352

01:03:41,329 --> 01:03:37,020

but it's not to remove

1353

01:03:42,470 --> 01:03:41,339

it was not Eden oh yeah I just was

1354

01:03:44,230 --> 01:03:42,480

wondering if you could tell us more

1355

01:03:48,829 --> 01:03:44,240

about it because I I don't know anything

1356

01:03:51,650 --> 01:03:48,839

ah so every few years with Japan creates

1357

01:03:54,370 --> 01:03:51,660

a big conference about uaps but

1358

01:03:56,690 --> 01:03:54,380

everything uaps from crafts to

1359

01:03:57,650 --> 01:03:56,700

atmospheric plasmas that I just talked

1360

01:04:00,589 --> 01:03:57,660

about

1361

01:04:05,210 --> 01:04:00,599

and it's called the kai band conference

1362

01:04:07,910 --> 01:04:05,220

about uaps and this year is the second

1363

01:04:10,910 --> 01:04:07,920

edition of the cap and it's the cap and

1364

01:04:17,569 --> 01:04:14,210

nice and will you be attending

1365

01:04:19,010 --> 01:04:17,579

uh I should be

1366

01:04:20,930 --> 01:04:19,020

excellent

1367

01:04:22,250 --> 01:04:20,940

or what else do you have coming up uh

1368

01:04:24,349 --> 01:04:22,260

and toward the end of the year do you

1369

01:04:26,349 --> 01:04:24,359

have some some shows on Explorer lab

1370

01:04:30,849 --> 01:04:26,359

what things are you working on right now

1371

01:04:33,410 --> 01:04:30,859

so time schedule is a problem I

1372

01:04:35,870 --> 01:04:33,420

improvise everything I don't plan her

1373

01:04:39,170 --> 01:04:35,880

head because I have very huge projects I

1374

01:04:40,789 --> 01:04:39,180

have in my work life some related to the

1375

01:04:43,670 --> 01:04:40,799

phenomenon so I'm not related to a

1376

01:04:46,010 --> 01:04:43,680

phenomenon and I give them priority and

1377

01:04:49,609 --> 01:04:46,020

I have a private life believe it or not

1378

01:04:51,589 --> 01:04:49,619

so you're allowed that yes what I do on

1379

01:04:54,950 --> 01:04:51,599

Twitter and when I do an Explorer lab is

1380

01:04:58,309 --> 01:04:54,960

the the last hour of my day when I have

1381

01:05:01,849 --> 01:04:58,319

enough energy to do something so that's

1382

01:05:04,670 --> 01:05:01,859

the way I work with it so it's not true

1383

01:05:07,910 --> 01:05:04,680

every burden for me to to work on

1384

01:05:11,150 --> 01:05:07,920

got it but I I don't plan anything ahead

1385

01:05:13,069 --> 01:05:11,160

got it cool well I really again want to

1386

01:05:14,990 --> 01:05:13,079

thank you for joining us today um I know

1387

01:05:16,789 --> 01:05:15,000

it's getting late over there and uh we

1388

01:05:18,710 --> 01:05:16,799

had a wonderful time chatting with you I

1389

01:05:22,190 --> 01:05:18,720

love your Insight I love the way you

1390

01:05:24,950 --> 01:05:22,200

look at the topic and to me it's uh it's

1391

01:05:27,410 --> 01:05:24,960

incredibly enriching to hear from

1392

01:05:30,170 --> 01:05:27,420

another perspective around the world and

1393

01:05:31,849 --> 01:05:30,180

and to in the US we kind of get this uh

1394

01:05:33,650 --> 01:05:31,859

we get blinders on thinking that it's

1395

01:05:35,690 --> 01:05:33,660

kind of Just Happening here but it's

1396

01:05:37,370 --> 01:05:35,700

obviously not and there's there's a rich

1397

01:05:39,530 --> 01:05:37,380

amount of information that's happening

1398

01:05:41,809 --> 01:05:39,540

uh throughout the world and and

1399

01:05:43,609 --> 01:05:41,819

excellent conversation to be had so I

1400

01:05:45,589 --> 01:05:43,619

literally applaud what you're doing in

1401

01:05:47,690 --> 01:05:45,599

raising that level of awareness and and

1402

01:05:49,609 --> 01:05:47,700

your willingness to kind of connect with

1403

01:05:51,410 --> 01:05:49,619

those of us over here and and have these

1404

01:05:54,230 --> 01:05:51,420

conversations it means a great deal so

1405

01:05:56,990 --> 01:05:54,240

thank you so much for all that uh let me

1406

01:06:00,890 --> 01:05:57,000

let me answer that yeah

1407

01:06:02,809 --> 01:06:00,900

what you are doing in the U.S is the

1408

01:06:05,270 --> 01:06:02,819

most important thing any human has ever

1409

01:06:07,730 --> 01:06:05,280

done for our species

1410

01:06:09,410 --> 01:06:07,740

there are a factions that don't want to

1411

01:06:11,630 --> 01:06:09,420

talk about this subject

1412

01:06:15,170 --> 01:06:11,640

you are the leader of the Free World

1413

01:06:17,870 --> 01:06:15,180

point and and the French hate that we

1414

01:06:21,109 --> 01:06:17,880

hate that it is not us we should be the

1415

01:06:24,529 --> 01:06:21,119

leader of a free world but you are you

1416

01:06:26,569 --> 01:06:24,539

are and you are pushing very strong on

1417

01:06:28,609 --> 01:06:26,579

that topic and I

1418

01:06:31,190 --> 01:06:28,619

you need to understand that there are

1419

01:06:33,950 --> 01:06:31,200

people that are trying to influence this

1420

01:06:38,930 --> 01:06:33,960

conversation and trying to slow it down

1421

01:06:41,569 --> 01:06:38,940

when you see something a content and

1422

01:06:44,210 --> 01:06:41,579

fundamentally doesn't add anything to a

1423

01:06:47,329 --> 01:06:44,220

subject doesn't show any new data

1424

01:06:49,609 --> 01:06:47,339

nothing just questions things freely

1425

01:06:52,789 --> 01:06:49,619

that's how you create a conspiracy

1426
01:06:55,490 --> 01:06:52,799
theory that's how you have been trapped

1427
01:06:59,390 --> 01:06:55,500
for 50 years since the end of Project

1428
01:07:03,470 --> 01:06:59,400
Blue Book they did the same trick on you

1429
01:07:04,789 --> 01:07:03,480
for 50 years and it works every time you

1430
01:07:07,370 --> 01:07:04,799
give a piece of information there

1431
01:07:08,930 --> 01:07:07,380
another piece of information there the

1432
01:07:10,609 --> 01:07:08,940
two seems contradiction because you

1433
01:07:13,490 --> 01:07:10,619
don't have the whole picture in head

1434
01:07:15,410 --> 01:07:13,500
right so you have factions fighting each

1435
01:07:16,670 --> 01:07:15,420
other and you have the people that have

1436
01:07:20,029 --> 01:07:16,680
the knowledge the whole picture

1437
01:07:21,950 --> 01:07:20,039
understand watching and waiting that you

1438
01:07:23,569 --> 01:07:21,960

die of old age

1439

01:07:28,730 --> 01:07:23,579

you need

1440

01:07:32,410 --> 01:07:28,740

and it's an absolute for our species

1441

01:07:37,250 --> 01:07:32,420

to fight for it and you are the only

1442

01:07:38,870 --> 01:07:37,260

nation in the world that is still truly

1443

01:07:41,870 --> 01:07:38,880

democratic

1444

01:07:43,430 --> 01:07:41,880

our system in France isn't a real

1445

01:07:45,789 --> 01:07:43,440

democracy

1446

01:07:49,190 --> 01:07:45,799

it's a kind of

1447

01:07:52,250 --> 01:07:49,200

balance dictatorship where we change

1448

01:07:55,609 --> 01:07:52,260

dictators every few years but the powers

1449

01:07:58,150 --> 01:07:55,619

we have given to our president are

1450

01:08:01,789 --> 01:07:58,160

astonishing

1451

01:08:04,609 --> 01:08:01,799

you are still a true democracy is it

1452

01:08:07,910 --> 01:08:04,619

correct of course every government every

1453

01:08:09,770 --> 01:08:07,920

human organization on Earth is corrupt

1454

01:08:12,289 --> 01:08:09,780

we are humans it doesn't mean he's

1455

01:08:15,230 --> 01:08:12,299

broken it means you need to fight for it

1456

01:08:19,189 --> 01:08:15,240

you have a part of your own government

1457

01:08:22,430 --> 01:08:19,199

paid by your taxes and uh in the U.S

1458

01:08:25,490 --> 01:08:22,440

paying taxes yeah that is manipulating

1459

01:08:26,450 --> 01:08:25,500

you into trying to make you quit the

1460

01:08:29,870 --> 01:08:26,460

fight

1461

01:08:32,749 --> 01:08:29,880

and he's spreading lies and half truths

1462

01:08:35,689 --> 01:08:32,759

to divert attention from them

1463

01:08:38,349 --> 01:08:35,699

it is really really important that every

1464

01:08:41,269 --> 01:08:38,359

part of your audience know how important

1465

01:08:44,930 --> 01:08:41,279

you as an American citizens

1466

01:08:47,269 --> 01:08:44,940

are important for the world debate

1467

01:08:48,890 --> 01:08:47,279

so thank you all

1468

01:08:52,010 --> 01:08:48,900

thank you

1469

01:08:54,829 --> 01:08:52,020

I really appreciate that Baptist but I

1470

01:08:57,470 --> 01:08:54,839

um I have to say that one of my goals is

1471

01:08:59,570 --> 01:08:57,480

to connect all of the information that

1472

01:09:01,189 --> 01:08:59,580

is available all over the world so that

1473

01:09:04,490 --> 01:09:01,199

we understand that this is a global

1474

01:09:05,870 --> 01:09:04,500

problem even if the US may appear to be

1475

01:09:07,370 --> 01:09:05,880

leading it

1476

01:09:08,870 --> 01:09:07,380

well although they will say that's

1477

01:09:10,789 --> 01:09:08,880

appearances who knows what's going on

1478

01:09:13,309 --> 01:09:10,799

with the five eyes behind closed doors

1479

01:09:16,070 --> 01:09:13,319

and the other eyes that are not

1480

01:09:18,349 --> 01:09:16,080

identified like Japan right who knows

1481

01:09:19,669 --> 01:09:18,359

but I I think we all have to work

1482

01:09:21,289 --> 01:09:19,679

together which is why I'm definitely

1483

01:09:24,430 --> 01:09:21,299

going to bug you for the link for that

1484

01:09:27,590 --> 01:09:24,440

report the um French aeronautical

1485

01:09:29,269 --> 01:09:27,600

Association report I want that now and I

1486

01:09:32,450 --> 01:09:29,279

thank you so much for all that you do

1487

01:09:34,550 --> 01:09:32,460

I'm definitely gonna um I'll keep

1488

01:09:37,130 --> 01:09:34,560

looking out for more information from

1489

01:09:38,630 --> 01:09:37,140

France um and I hope that you can let us

1490

01:09:40,249 --> 01:09:38,640

know what happens with that conference

1491

01:09:41,749 --> 01:09:40,259

and all that great stuff so thank you

1492

01:09:43,189 --> 01:09:41,759

again so much for what you're doing

1493

01:09:45,590 --> 01:09:43,199

because because there's not enough

1494

01:09:47,930 --> 01:09:45,600

voices coming out in the public in

1495

01:09:50,269 --> 01:09:47,940

France and I appreciate that you are

1496

01:09:53,090 --> 01:09:50,279

uh it has been a real pleasure you've

1497

01:09:54,950 --> 01:09:53,100

been adorable with me I you you try to

1498

01:09:57,590 --> 01:09:54,960

trick me with a Sasquatch but it's a I

1499

01:10:00,790 --> 01:09:57,600

I'm a huge fan of David polite's work so

1500

01:10:03,229 --> 01:10:00,800

you want to Corner me on on Sasquatch

1501

01:10:04,810 --> 01:10:03,239

you're a good sport to uh to talk about

1502

01:10:07,790 --> 01:10:04,820

it so thank you

1503

01:10:09,470 --> 01:10:07,800

uh it's fascinating well I want again

1504

01:10:11,270 --> 01:10:09,480

thank you for coming and thank all those

1505

01:10:13,310 --> 01:10:11,280

who have been listening uh along with us

1506

01:10:15,709 --> 01:10:13,320

and in the chat today uh it's been a

1507

01:10:18,950 --> 01:10:15,719

real pleasure and uh next up on our show

1508

01:10:20,689 --> 01:10:18,960

on Monday we've got uh TJ Ellard he'll

1509

01:10:22,970 --> 01:10:20,699

be coming back to the show to talk about

1510

01:10:25,189 --> 01:10:22,980

uh what he's been working on and a

1511

01:10:26,410 --> 01:10:25,199

little bit of Skinwalker Ranch talk as

1512

01:10:28,790 --> 01:10:26,420

well I'm sure

1513

01:10:31,490 --> 01:10:28,800

yeah he's an excellent guy so really

1514

01:10:33,290 --> 01:10:31,500

excited to chat with him again uh and we

1515

01:10:34,850 --> 01:10:33,300

wish all of you a wonderful rest of your

1516

01:10:36,709 --> 01:10:34,860

weekend so hope everybody has a good

1517

01:10:39,590 --> 01:10:36,719

time and uh and a good good week ahead

1518

01:10:41,630 --> 01:10:39,600

and we will catch everyone down the road

1519

01:10:43,370 --> 01:10:41,640

so peace out one love we'll see you down

1520

01:10:45,290 --> 01:10:43,380

the road as DJ says we're always looking

1521

01:10:47,570 --> 01:10:45,300

for what's up what's coming up around

1522

01:10:48,980 --> 01:10:47,580

the bed take care
