00:01:24,350 --> 00:01:20,939

reinforcements because we got the new

23

00:01:27,350 --> 00:01:24,360

cabbie in that house he's from Bolton

24

00:01:29,230 --> 00:01:27,360

he's a musician and he's a bat

25

00:01:33,469 --> 00:01:29,240

uh

26  
00:01:35,590 --> 00:01:33,479  
his name is Frank Jones so you ain't foe

27  
00:01:38,330 --> 00:01:35,600  
thinker baby

28  
00:01:42,230 --> 00:01:38,340  
how's it going everybody making my

29  
00:01:44,510 --> 00:01:42,240  
official Cubs debut today I've had a

30  
00:01:46,249 --> 00:01:44,520  
nice day relaxing with the family and uh

31  
00:01:47,330 --> 00:01:46,259  
very happy to be here hope everybody's

32  
00:01:49,370 --> 00:01:47,340  
doing well

33  
00:01:51,950 --> 00:01:49,380  
it's an honor to have you to bring you

34  
00:01:54,050 --> 00:01:51,960  
in on uh your your first episode Frank

35  
00:01:58,069 --> 00:01:54,060  
and I had a self-edit when I was saying

36  
00:02:00,050 --> 00:01:58,079  
bat mother you know what I'm saying but

37  
00:02:01,609 --> 00:02:00,060  
it wasn't enough to just have you so we

38  
00:02:03,590 --> 00:02:01,619

had to bring in another intelligent

39

00:02:05,990 --> 00:02:03,600

brother he's from the he from the other

40

00:02:09,640 --> 00:02:06,000

side from Yorkshire put your hands

41

00:02:13,610 --> 00:02:11,210

[Music]

42

00:02:16,369 --> 00:02:13,620

just shifting gears man he about to kick

43

00:02:18,050 --> 00:02:16,379

off another UFO podcast but still he's

44

00:02:20,030 --> 00:02:18,060

not gonna let me announce it so we're

45

00:02:21,890 --> 00:02:20,040

gonna have to wait right Davey I can

46

00:02:24,350 --> 00:02:21,900

tell you the name of it

47

00:02:32,750 --> 00:02:24,360

okay let's do it man what's it called it

48

00:02:39,010 --> 00:02:36,070

yes the mechanism can we say who you're

49

00:02:43,250 --> 00:02:39,020

absolutely please do

50

00:02:46,910 --> 00:02:43,260

ukuap Ash the former brother who was

51  
00:02:51,530 --> 00:02:46,920  
working for the gov in the UK he's a

52  
00:02:52,910 --> 00:02:51,540  
he's also a badass or so uh I'm so happy

53  
00:02:55,430 --> 00:02:52,920  
man that you guys are gonna get it

54  
00:02:58,130 --> 00:02:55,440  
together we can't wait to uh somehow

55  
00:02:59,990 --> 00:02:58,140  
contribute to your show in some way and

56  
00:03:02,089 --> 00:03:00,000  
uh and try to you know like push it out

57  
00:03:04,990 --> 00:03:02,099  
there but you know what uh we got to get

58  
00:03:07,729 --> 00:03:05,000  
to the guests of honor today don't we

59  
00:03:10,850 --> 00:03:07,739  
yeah we do we do Frank's not in his head

60  
00:03:13,750 --> 00:03:10,860  
he said get time he said get to it also

61  
00:03:16,369 --> 00:03:13,760  
all right now

62  
00:03:19,130 --> 00:03:16,379  
all right so uh you know we really

63  
00:03:21,649 --> 00:03:19,140

wanted to do an episode of uh about

64

00:03:24,170 --> 00:03:21,659

ancient structures and I was trying to

65

00:03:27,350 --> 00:03:24,180

think of you know I think it the idea

66

00:03:30,649 --> 00:03:27,360

came from listening to Dan talk on our

67

00:03:32,570 --> 00:03:30,659

show about it a little bit and then uh

68

00:03:35,030 --> 00:03:32,580

after that I was listening to Frank show

69

00:03:37,430 --> 00:03:35,040

and heard uh Dave talking about it and

70

00:03:40,610 --> 00:03:37,440

I'm like ooh how cool would it be to put

71

00:03:42,289 --> 00:03:40,620

Tennessee and Manchester together so uh

72

00:03:43,490 --> 00:03:42,299

with that I asked these two gentlemen if

73

00:03:45,890 --> 00:03:43,500

they would like to do it and it just

74

00:03:47,210 --> 00:03:45,900

took us a couple months and the holidays

75

00:03:50,390 --> 00:03:47,220

and everything else to get it together

76

00:03:53,930 --> 00:03:50,400

so without further ado

77

00:03:56,210 --> 00:03:53,940

he is a UFO Twitter and Tick Tock scent

78

00:03:58,070 --> 00:03:56,220

sensation who ain't got time for the

79

00:04:01,729 --> 00:03:58,080

drama but plenty of time for

80

00:04:04,970 --> 00:04:01,739

contextualization and information you

81

00:04:06,120 --> 00:04:04,980

all know him as hey look over there Dan

82

00:04:08,509 --> 00:04:06,130

Warren

83

00:04:10,250 --> 00:04:08,519

[Applause]

84

00:04:13,009 --> 00:04:10,260

we'll hear you

85

00:04:15,229 --> 00:04:13,019

hey man for Dan Warren that's all I got

86

00:04:16,849 --> 00:04:15,239

to say

87

00:04:18,530 --> 00:04:16,859

um and on the other side of the Ledger

88

00:04:20,870 --> 00:04:18,540

on the other side of the pond we have a

89

00:04:23,990 --> 00:04:20,880

man who know a lot about a lot because

90

00:04:27,230 --> 00:04:24,000

he reads and he done educated himself

91

00:04:30,890 --> 00:04:27,240

about the world and he Ponders both past

92

00:04:32,210 --> 00:04:30,900

present and future okay and guess what

93

00:04:33,950 --> 00:04:32,220

you're like why doesn't he have his own

94

00:04:36,290 --> 00:04:33,960

pocket he don't need to because he'd go

95

00:04:39,890 --> 00:04:36,300

on other people's podcasts and bring the

96

00:04:45,490 --> 00:04:39,900

noise so put your hands together for

97

00:04:51,950 --> 00:04:48,230

there it wait let me get him on this is

98

00:04:56,930 --> 00:04:54,350

there he is hello everybody great to see

99

00:04:59,629 --> 00:04:56,940

you yeah yeah oh my God what an

100

00:05:01,909 --> 00:04:59,639

introduction hey man I wrote that just

101  
00:05:05,150 --> 00:05:01,919  
for you David man your man that got a

102  
00:05:07,010 --> 00:05:05,160  
not a lot of knowledge man well I mean I

103  
00:05:08,749 --> 00:05:07,020  
mean got a good company here I mean it's

104  
00:05:10,490 --> 00:05:08,759  
just an interest with me really but yeah

105  
00:05:12,230 --> 00:05:10,500  
I'm looking forward to this this should

106  
00:05:14,210 --> 00:05:12,240  
be a good chance and you kids in

107  
00:05:15,950 --> 00:05:14,220  
Manchester this is what you know what if

108  
00:05:18,469 --> 00:05:15,960  
you go and get educated you kids in

109  
00:05:20,749 --> 00:05:18,479  
Tennessee you gonna read you do your

110  
00:05:22,490 --> 00:05:20,759  
school work you study stuff like that

111  
00:05:23,810 --> 00:05:22,500  
you're gonna end up like Dan Warren if

112  
00:05:26,450 --> 00:05:23,820  
you're in Manchester you can end up like

113  
00:05:28,730 --> 00:05:26,460

Dave Smothers okay that's what's up all

114

00:05:30,170 --> 00:05:28,740

right so when you first mentioned that I

115

00:05:31,550 --> 00:05:30,180

was going to be on a show with a guy

116

00:05:33,290 --> 00:05:31,560

from Manchester

117

00:05:37,010 --> 00:05:33,300

I don't know if you guys know what

118

00:05:38,990 --> 00:05:37,020

Bonnaroo is the Music Festival held I've

119

00:05:41,629 --> 00:05:39,000

heard of it it's held in the city of

120

00:05:43,070 --> 00:05:41,639

Manchester Tennessee so I thought I was

121

00:05:45,230 --> 00:05:43,080

just going to drive down the road and

122

00:05:47,150 --> 00:05:45,240

sit in a room with this guy and have a

123

00:05:49,189 --> 00:05:47,160

conversation with you guys so I didn't

124

00:05:51,170 --> 00:05:49,199

know this was across an ocean

125

00:05:52,610 --> 00:05:51,180

yes and it's not Manchester New

126  
00:05:53,940 --> 00:05:52,620  
Hampshire either right we went even

127  
00:05:56,450 --> 00:05:53,950  
farther to get Dave

128  
00:05:57,770 --> 00:05:56,460  
[Laughter]

129  
00:05:59,570 --> 00:05:57,780  
Dave

130  
00:06:03,950 --> 00:05:59,580  
um do you sound like any of the Beatles

131  
00:06:06,710 --> 00:06:03,960  
is there are you channeling either uh

132  
00:06:08,390 --> 00:06:06,720  
you've told me that DJ I can't hear it

133  
00:06:10,909 --> 00:06:08,400  
it's a bit of nuance in England between

134  
00:06:13,070 --> 00:06:10,919  
the Manchester and the Liverpool accent

135  
00:06:15,350 --> 00:06:13,080  
but I suspect you guys can't really hear

136  
00:06:17,270 --> 00:06:15,360  
it I mean we do sound pretty similar and

137  
00:06:19,010 --> 00:06:17,280  
we can go like that and talk like that

138  
00:06:21,969 --> 00:06:19,020

and then it sounds very similar you know

139

00:06:24,650 --> 00:06:21,979

oh it sounds like Harley obviously

140

00:06:26,629 --> 00:06:24,660

no you know we don't do that I saw that

141

00:06:29,510 --> 00:06:26,639

Game of Thrones at that point so it's

142

00:06:31,370 --> 00:06:29,520

it's very uh you know yeah when Drew's

143

00:06:32,870 --> 00:06:31,380

coming he sounds a lot more like one of

144

00:06:35,930 --> 00:06:32,880

the Gallagher brothers out of Oasis

145

00:06:42,249 --> 00:06:35,940

Don't you Dad yeah yeah hey now now I've

146

00:06:48,469 --> 00:06:45,230

I love it man I love these accents all

147

00:06:49,309 --> 00:06:48,479

right I want to kick it off Brothers

148

00:06:52,370 --> 00:06:49,319

um

149

00:06:53,809 --> 00:06:52,380

and I want to ask you guys uh just a

150

00:06:55,490 --> 00:06:53,819

general question and then we'll just you

151  
00:06:57,529 --> 00:06:55,500  
know we'll go to Debs Frank and Davey

152  
00:06:59,749 --> 00:06:57,539  
Davey's our our guest co-host today

153  
00:07:01,309 --> 00:06:59,759  
thank you so much Davey for doing this

154  
00:07:03,529 --> 00:07:01,319  
it's an honor to have you it's an honor

155  
00:07:04,550 --> 00:07:03,539  
to have everybody here actually

156  
00:07:07,909 --> 00:07:04,560  
um

157  
00:07:10,249 --> 00:07:07,919  
so as we know

158  
00:07:11,689 --> 00:07:10,259  
um that these ancient structures that

159  
00:07:13,730 --> 00:07:11,699  
you guys have looked at throughout the

160  
00:07:16,189 --> 00:07:13,740  
course of your lives

161  
00:07:18,650 --> 00:07:16,199  
um can tell us a lot about the past I'm

162  
00:07:21,409 --> 00:07:18,660  
curious I'd like to go to Dave first and

163  
00:07:23,510 --> 00:07:21,419

then uh Dan with this question uh what

164

00:07:26,990 --> 00:07:23,520

can it tell us about our future

165

00:07:28,909 --> 00:07:27,000

uh looking at either one or more of

166

00:07:30,830 --> 00:07:28,919

these structures that that you guys have

167

00:07:32,809 --> 00:07:30,840

thought about

168

00:07:34,370 --> 00:07:32,819

well that's an interesting question uh

169

00:07:37,010 --> 00:07:34,380

what could it tell us about our future

170

00:07:39,529 --> 00:07:37,020

what do you mean DJ do you mean in terms

171

00:07:42,830 --> 00:07:39,539

of uh what what that's where the tech

172

00:07:45,050 --> 00:07:42,840

might take us or yeah anything is there

173

00:07:46,909 --> 00:07:45,060

something I wanted to like ask a

174

00:07:48,290 --> 00:07:46,919

question that as I look at these you

175

00:07:51,170 --> 00:07:48,300

know we always look at them and think

176

00:07:52,730 --> 00:07:51,180

past and so I started thinking well is

177

00:07:54,770 --> 00:07:52,740

there any is can they tell us anything

178

00:07:56,570 --> 00:07:54,780

about their future can they tell us

179

00:07:59,450 --> 00:07:56,580

something we've missed can they tell us

180

00:08:01,790 --> 00:07:59,460

uh possibly where we're going can they

181

00:08:03,430 --> 00:08:01,800

tell us where we need to go

182

00:08:06,350 --> 00:08:03,440

um yeah

183

00:08:08,210 --> 00:08:06,360

I think I mean there's a bit I was going

184

00:08:09,790 --> 00:08:08,220

to talk about about 40 minutes in but we

185

00:08:12,770 --> 00:08:09,800

might as well uh

186

00:08:15,230 --> 00:08:12,780

talk about it now really there is an

187

00:08:17,990 --> 00:08:15,240

argument but we have missed a bit of a

188

00:08:21,050 --> 00:08:18,000

trick as a civilization we use my you

189

00:08:23,689 --> 00:08:21,060

know Force wide electricity nuclear

190

00:08:25,850 --> 00:08:23,699

power mechanical advantage very much

191

00:08:27,350 --> 00:08:25,860

what we use and there's a lot of

192

00:08:29,390 --> 00:08:27,360

evidence that these ancient

193

00:08:31,550 --> 00:08:29,400

civilizations which I'll Backtrack on

194

00:08:33,589 --> 00:08:31,560

that didn't use that sort of thing they

195

00:08:36,409 --> 00:08:33,599

may well have manipulated learn how to

196

00:08:38,449 --> 00:08:36,419

manipulate force force technology you

197

00:08:41,930 --> 00:08:38,459

know like field technology effectively

198

00:08:45,530 --> 00:08:41,940

like anti-grav like Sonic Sonic's is a

199

00:08:48,230 --> 00:08:45,540

big one like electromagnetic stuff it

200

00:08:51,170 --> 00:08:48,240

also might have uh learned out of power

201  
00:08:54,050 --> 00:08:51,180  
to use geomagnetic power electromagnetic

202  
00:08:56,090 --> 00:08:54,060  
power like Tesla from the clouds and

203  
00:08:58,690 --> 00:08:56,100  
also the amount of Master some sort of

204  
00:09:00,530 --> 00:08:58,700  
sciability like uh telekinesis

205  
00:09:03,350 --> 00:09:00,540  
controlling matter they've understood

206  
00:09:05,810 --> 00:09:03,360  
someone about the quantum and their

207  
00:09:07,490 --> 00:09:05,820  
technology consequently we don't see it

208  
00:09:10,610 --> 00:09:07,500  
because it could look very different to

209  
00:09:13,970 --> 00:09:10,620  
ours and so therefore

210  
00:09:16,130 --> 00:09:13,980  
there may be a well something might tell

211  
00:09:18,410 --> 00:09:16,140  
us that we've missed a big technological

212  
00:09:20,509 --> 00:09:18,420  
trick and that's the sort of thing we

213  
00:09:22,130 --> 00:09:20,519

may be seeing from other crafter or

214

00:09:24,050 --> 00:09:22,140

whatever there is a whole new

215

00:09:25,610 --> 00:09:24,060

technological world out there there's

216

00:09:27,590 --> 00:09:25,620

also evidence that the amount of very

217

00:09:29,449 --> 00:09:27,600

much synchronized their sort of

218

00:09:31,009 --> 00:09:29,459

agricultural production and science with

219

00:09:33,410 --> 00:09:31,019

the living in a very sort of quite

220

00:09:35,449 --> 00:09:33,420

harmonious way so it may be we're

221

00:09:37,730 --> 00:09:35,459

looking at our own scientific future But

222

00:09:40,070 --> 00:09:37,740

the irony is it's so different to ours

223

00:09:42,230 --> 00:09:40,080

but we don't see it we look at something

224

00:09:44,630 --> 00:09:42,240

it's a quaint Temple or a lovely little

225

00:09:46,970 --> 00:09:44,640

statue or a nice little Obelisk and it

226

00:09:49,310 --> 00:09:46,980

might be actually be something else now

227

00:09:51,170 --> 00:09:49,320

it takes a lot to get to that statement

228

00:09:53,810 --> 00:09:51,180

I've just said but to answer that

229

00:09:55,670 --> 00:09:53,820

question that's potentially what it

230

00:09:57,350 --> 00:09:55,680

tells about our future but we've missed

231

00:09:59,389 --> 00:09:57,360

the trick and there may be over

232

00:10:01,130 --> 00:09:59,399

technological things and it might be

233

00:10:03,290 --> 00:10:01,140

that the others as I said yeah whatever

234

00:10:06,230 --> 00:10:03,300

you want to call them tell us that as

235

00:10:07,790 --> 00:10:06,240

well you know so that's that's to get

236

00:10:10,130 --> 00:10:07,800

you going anyway

237

00:10:12,590 --> 00:10:10,140

and thank you Dave I appreciate that

238

00:10:14,690 --> 00:10:12,600

that answer that that does kind of where

239

00:10:17,990 --> 00:10:14,700

the you kind of gave us the direction

240

00:10:21,290 --> 00:10:18,000

Dan so I think I'm a on a similar

241

00:10:23,389 --> 00:10:21,300

wavelength as Dave I do believe that our

242

00:10:25,790 --> 00:10:23,399

ancients are forefathers which I want to

243

00:10:27,530 --> 00:10:25,800

make sure that something that I really

244

00:10:29,870 --> 00:10:27,540

enjoy about studying these ancient

245

00:10:32,329 --> 00:10:29,880

structures in this ancient past is that

246

00:10:34,790 --> 00:10:32,339

it's Humanity's history it's not in my

247

00:10:36,889 --> 00:10:34,800

opinion a particular race or division of

248

00:10:39,050 --> 00:10:36,899

humanities history it is world history

249

00:10:41,090 --> 00:10:39,060

it is our history we all get to look at

250

00:10:43,250 --> 00:10:41,100

it and appreciate it and that's one of

251

00:10:46,490 --> 00:10:43,260

the things that makes me

252

00:10:50,389 --> 00:10:46,500

um so impressed by it is it is a

253

00:10:52,850 --> 00:10:50,399

a picture of the greatness that Humanity

254

00:10:54,530 --> 00:10:52,860

can accomplish if they put put their

255

00:10:56,990 --> 00:10:54,540

mind to it and put their effort into it

256

00:10:58,610 --> 00:10:57,000

and we should all be grateful for our

257

00:11:00,710 --> 00:10:58,620

ancients to have done things like that

258

00:11:02,930 --> 00:11:00,720

that have lasted so long because we

259

00:11:04,430 --> 00:11:02,940

don't have anything we have very few

260

00:11:06,590 --> 00:11:04,440

things that exist in the world today

261

00:11:08,509 --> 00:11:06,600

that are going to stand the test of time

262

00:11:11,269 --> 00:11:08,519

like these structures have in the past

263

00:11:12,650 --> 00:11:11,279

so it's a testament to their Ingenuity

264

00:11:17,329 --> 00:11:12,660

their

265

00:11:19,490 --> 00:11:17,339

um that that it's still there and that

266

00:11:21,710 --> 00:11:19,500

one thing that I just said that their

267

00:11:24,710 --> 00:11:21,720

way of thinking is what I think our

268

00:11:26,210 --> 00:11:24,720

future has in store for us we think in a

269

00:11:29,690 --> 00:11:26,220

certain way just like Dave was saying

270

00:11:32,090 --> 00:11:29,700

what if instead of finding

271

00:11:34,970 --> 00:11:32,100

petrochemicals we found some other way

272

00:11:36,470 --> 00:11:34,980

to power our society we would have a

273

00:11:38,630 --> 00:11:36,480

completely different looking technology

274

00:11:40,790 --> 00:11:38,640

that surrounds us right now just like

275

00:11:42,769 --> 00:11:40,800

Nikola Tesla and Thomas Edison were

276

00:11:46,970 --> 00:11:42,779

going back and forth over AC and DC

277

00:11:48,949 --> 00:11:46,980

power 1-1 lost arts our society looks

278

00:11:51,949 --> 00:11:48,959

completely different because of that one

279

00:11:54,350 --> 00:11:51,959

change in the approach to solving a

280

00:11:56,090 --> 00:11:54,360

problem who knows how many times we've

281

00:11:58,750 --> 00:11:56,100

solved problems that have had that large

282

00:12:01,790 --> 00:11:58,760

of an impact in our in Humanity's past

283

00:12:04,310 --> 00:12:01,800

one of the things that I think is

284

00:12:06,590 --> 00:12:04,320

probably it's mainstream for nerds like

285

00:12:08,569 --> 00:12:06,600

me that are into this thing but maybe

286

00:12:11,090 --> 00:12:08,579

not to just the regular person that's

287

00:12:14,449 --> 00:12:11,100

just going about their daily business is

288

00:12:16,009 --> 00:12:14,459

that our society our Humanity has been

289

00:12:18,410 --> 00:12:16,019

reset in the past

290

00:12:20,150 --> 00:12:18,420

that to me is something that we need to

291

00:12:22,610 --> 00:12:20,160

learn from it's happened again it's

292

00:12:24,590 --> 00:12:22,620

happened before it's gonna happen again

293

00:12:26,810 --> 00:12:24,600

we need to be prepared for it we need to

294

00:12:28,730 --> 00:12:26,820

make to take steps to have counter

295

00:12:32,870 --> 00:12:28,740

measures in place to be able to survive

296

00:12:34,490 --> 00:12:32,880

and thrive in a post problem uh world so

297

00:12:36,650 --> 00:12:34,500

what I'm referring to is something

298

00:12:39,170 --> 00:12:36,660

that's probably also better kept for 40

299

00:12:41,569 --> 00:12:39,180

minutes into a podcast but there was an

300

00:12:44,509 --> 00:12:41,579

event that happened 11 600 years ago

301  
00:12:46,910 --> 00:12:44,519  
that basically wiped the Slate clean

302  
00:12:48,350 --> 00:12:46,920  
we don't remember the details of what

303  
00:12:51,050 --> 00:12:48,360  
happened in the past

304  
00:12:52,670 --> 00:12:51,060  
beyond that Mark that's what I'm most

305  
00:12:56,050 --> 00:12:52,680  
excited about in the future is

306  
00:12:58,730 --> 00:12:56,060  
discovering what types of

307  
00:13:00,650 --> 00:12:58,740  
advancements were made prior to that re

308  
00:13:01,850 --> 00:13:00,660  
that big reset that occurred back then

309  
00:13:03,290 --> 00:13:01,860  
so that's what I think we're going to

310  
00:13:05,810 --> 00:13:03,300  
find we're gonna we're gonna refine

311  
00:13:09,650 --> 00:13:05,820  
ourselves we're gonna refine a

312  
00:13:12,110 --> 00:13:09,660  
technology that our forefathers had that

313  
00:13:13,910 --> 00:13:12,120

degraded over time and you can see it in

314

00:13:16,009 --> 00:13:13,920

the way that the megalithic structures

315

00:13:17,990 --> 00:13:16,019

at these sites were built the the

316

00:13:20,449 --> 00:13:18,000

biggest stuff the coolest stuff the most

317

00:13:22,730 --> 00:13:20,459

precise stuff is always at the bottom

318

00:13:24,410 --> 00:13:22,740

it's always the oldest stuff and it's

319

00:13:25,790 --> 00:13:24,420

always the best stuff so that's that's

320

00:13:27,829 --> 00:13:25,800

what I'm looking forward to in the

321

00:13:30,050 --> 00:13:27,839

future is learning more about our past

322

00:13:32,030 --> 00:13:30,060

and being able to utilize it to try to

323

00:13:34,610 --> 00:13:32,040

make Humanity better

324

00:13:37,430 --> 00:13:34,620

can I get an amen for both those answers

325

00:13:40,250 --> 00:13:37,440

from both David Smithers and Dan Warren

326

00:13:43,009 --> 00:13:40,260

uh both of you guys have just won a can

327

00:13:46,009 --> 00:13:43,019

of DJ organic skin care and in this case

328

00:13:48,470 --> 00:13:46,019

a mustache and beard uh what do you call

329

00:13:50,449 --> 00:13:48,480

it uh uh conditioner I guess you call

330

00:13:52,970 --> 00:13:50,459

because I made it extra thick with more

331

00:13:55,430 --> 00:13:52,980

beeswax for the guys uh for the girls

332

00:13:56,990 --> 00:13:55,440

it's a little more creamy-ish beard by

333

00:13:58,069 --> 00:13:57,000

the way I think that's beard bomb beard

334

00:14:00,230 --> 00:13:58,079

bomb yeah yeah thank you brother

335

00:14:02,509 --> 00:14:00,240

somebody that's actually in touch with

336

00:14:05,090 --> 00:14:02,519

modern society uh Dan Warren unlike

337

00:14:07,310 --> 00:14:05,100

myself uh all right uh so what I think

338

00:14:09,410 --> 00:14:07,320

we should do guys as I pass it to Debs

339

00:14:11,090 --> 00:14:09,420

uh and you're right I mean just with

340

00:14:12,769 --> 00:14:11,100

what you guys two said we say thanks

341

00:14:14,870 --> 00:14:12,779

folks have a good night that's all we

342

00:14:16,970 --> 00:14:14,880

have for you because that was that was a

343

00:14:18,889 --> 00:14:16,980

banger from both of you but before I

344

00:14:20,810 --> 00:14:18,899

pass it uh to Debs I think what we

345

00:14:22,550 --> 00:14:20,820

should do here is each question we

346

00:14:24,889 --> 00:14:22,560

should have uh both Dan and Dave

347

00:14:27,889 --> 00:14:24,899

entertain so we'll just do one two one

348

00:14:30,410 --> 00:14:27,899

two punch on on that so uh Deb's uh may

349

00:14:34,009 --> 00:14:30,420

I pass it over to you Ma'am yeah I mean

350

00:14:36,829 --> 00:14:34,019

I had the same thought about that Gap in

351

00:14:38,810 --> 00:14:36,839

knowledge that is really peculiar

352

00:14:41,269 --> 00:14:38,820

um so for instance I was studying the

353

00:14:44,210 --> 00:14:41,279

Mounds in North America which were

354

00:14:46,670 --> 00:14:44,220

considered prehistoric and they asked

355

00:14:48,410 --> 00:14:46,680

indigenous people about them and they

356

00:14:51,290 --> 00:14:48,420

didn't exactly know the history and

357

00:14:53,030 --> 00:14:51,300

that's very unusual and in Egypt they

358

00:14:54,949 --> 00:14:53,040

had hieroglyphs and were writing things

359

00:14:57,650 --> 00:14:54,959

down and they don't seem to know how

360

00:14:59,389 --> 00:14:57,660

pyramids were made so that's unusual so

361

00:15:02,329 --> 00:14:59,399

what are your thoughts about that

362

00:15:04,509 --> 00:15:02,339

rewrite or that Erasure of that

363

00:15:08,150 --> 00:15:04,519

knowledge

364

00:15:10,810 --> 00:15:08,160

uh uh I mean I think it's the old Graham

365

00:15:13,730 --> 00:15:10,820

Hancock thinking it a species with uh

366

00:15:16,129 --> 00:15:13,740

Amnesia really it does seem that a lot

367

00:15:19,370 --> 00:15:16,139

of the techniques that we use to build

368

00:15:21,889 --> 00:15:19,380

the pyramids uh but to do all that well

369

00:15:24,590 --> 00:15:21,899

actually people didn't have the tools to

370

00:15:26,269 --> 00:15:24,600

do that and sold us clearly some sort of

371

00:15:28,490 --> 00:15:26,279

Disconnect there

372

00:15:31,910 --> 00:15:28,500

as Dan was alluding to a lot of these

373

00:15:33,590 --> 00:15:31,920

civilizations but emerged uh you know

374

00:15:36,470 --> 00:15:33,600

the oldest one sits in the most

375

00:15:38,150 --> 00:15:36,480

sophisticated and deteriorating so it's

376

00:15:40,069 --> 00:15:38,160

and like with the mound building stuff

377

00:15:44,689 --> 00:15:40,079

that seems to be linked to a whole other

378

00:15:46,790 --> 00:15:44,699

type of uh Southern USA type population

379

00:15:48,410 --> 00:15:46,800

just under because a lot of this

380

00:15:49,730 --> 00:15:48,420

civilization we're talking about was

381

00:15:51,350 --> 00:15:49,740

probably around the old Ice Age

382

00:15:54,470 --> 00:15:51,360

boundaries you know with a big ice wall

383

00:15:56,449 --> 00:15:54,480

going right down into the USA and so

384

00:15:58,730 --> 00:15:56,459

those that they were probably remnants

385

00:16:01,069 --> 00:15:58,740

about earlier civilizations were much

386

00:16:03,350 --> 00:16:01,079

more Civic in the nature and urbanized

387

00:16:05,269 --> 00:16:03,360

and those Mounds are sort of like the

388

00:16:08,509 --> 00:16:05,279

relics of that they've been built on you

389

00:16:10,310 --> 00:16:08,519

know on a longer time so I think really

390

00:16:13,610 --> 00:16:10,320

uh

391

00:16:15,949 --> 00:16:13,620

I think a lot of those the oldest of

392

00:16:18,230 --> 00:16:15,959

those civilizations in many ways occupy

393

00:16:20,449 --> 00:16:18,240

previous ruins and previous things and

394

00:16:22,730 --> 00:16:20,459

we see little glimpses and fragments of

395

00:16:24,769 --> 00:16:22,740

some tech they might have used some

396

00:16:27,530 --> 00:16:24,779

memories of science or what they might

397

00:16:30,170 --> 00:16:27,540

have done but really the main stuff has

398

00:16:30,889 --> 00:16:30,180

sort of vanished I mean remember most of

399

00:16:36,710 --> 00:16:30,899

the

400

00:16:40,189 --> 00:16:36,720

centers are reckoned to be now

401  
00:16:42,410 --> 00:16:40,199  
underwater and so you you could see the

402  
00:16:45,170 --> 00:16:42,420  
Indus Valley civilizations the Sumerian

403  
00:16:46,670 --> 00:16:45,180  
civilizations they were merely sort of

404  
00:16:48,769 --> 00:16:46,680  
pale reflections of the other

405  
00:16:51,050 --> 00:16:48,779  
civilization who are now submerged and

406  
00:16:52,970 --> 00:16:51,060  
emerged backwards would explain this

407  
00:16:55,610 --> 00:16:52,980  
gradual deterioration the first people

408  
00:16:57,470 --> 00:16:55,620  
retreated back as it were to form new

409  
00:16:59,329 --> 00:16:57,480  
cities and gradually for Garland attack

410  
00:17:00,889 --> 00:16:59,339  
over time so I don't know if that

411  
00:17:04,429 --> 00:17:00,899  
answers your question Deb I'm not sure

412  
00:17:06,650 --> 00:17:04,439  
really but uh that for it's that old

413  
00:17:09,350 --> 00:17:06,660

there is a big gap between this ancient

414

00:17:11,090 --> 00:17:09,360

civilization and our new one and I

415

00:17:13,429 --> 00:17:11,100

suppose there's these Tales of ancient

416

00:17:15,470 --> 00:17:13,439

civilizers who came out from the

417

00:17:17,990 --> 00:17:15,480

destroyed civilization to teach people

418

00:17:19,669 --> 00:17:18,000

again you know how to do Agriculture and

419

00:17:22,929 --> 00:17:19,679

all the rest of it like glow Becky

420

00:17:28,069 --> 00:17:26,030

I'm gonna tag on to something that Dave

421

00:17:30,350 --> 00:17:28,079

just said uh we were talking about what

422

00:17:33,049 --> 00:17:30,360

do we hope is going to happen in the

423

00:17:35,510 --> 00:17:33,059

future for Humanity if you guys are

424

00:17:38,570 --> 00:17:35,520

familiar with lidar and the technology

425

00:17:40,430 --> 00:17:38,580

has been used to scan the uh Amazon and

426

00:17:42,110 --> 00:17:40,440

they find just a enormous amount of

427

00:17:43,850 --> 00:17:42,120

construction that we can't see with the

428

00:17:45,830 --> 00:17:43,860

naked eye we can't see from a plane but

429

00:17:49,310 --> 00:17:45,840

this technology allows us to pull back

430

00:17:50,990 --> 00:17:49,320

the dirt the trees the the underbrush

431

00:17:53,510 --> 00:17:51,000

and see things that we haven't been able

432

00:17:55,490 --> 00:17:53,520

to see before one of the advancements in

433

00:17:59,510 --> 00:17:55,500

technology that I'm hoping is going to

434

00:18:01,789 --> 00:17:59,520

become feasible and widespread across

435

00:18:04,370 --> 00:18:01,799

the globe would be something to address

436

00:18:07,250 --> 00:18:04,380

just what Dave said which is to have to

437

00:18:10,370 --> 00:18:07,260

develop a lidar type system that could

438

00:18:14,029 --> 00:18:10,380

be used on the coastlines from 400 feet

439

00:18:16,669 --> 00:18:14,039

below sea level which is that 11 600

440

00:18:19,130 --> 00:18:16,679

years ago time frame the water erodes

441

00:18:21,289 --> 00:18:19,140

the sea level Rose about 400 feet across

442

00:18:24,049 --> 00:18:21,299

the board elevations of land has changed

443

00:18:25,730 --> 00:18:24,059

alongside that when the glaciers melted

444

00:18:27,409 --> 00:18:25,740

and started moving the ice from certain

445

00:18:28,190 --> 00:18:27,419

locations to other locations but in

446

00:18:31,130 --> 00:18:28,200

general

447

00:18:33,650 --> 00:18:31,140

400 feet sea rise over a thousand years

448

00:18:35,930 --> 00:18:33,660

or so changed the face of civilization

449

00:18:38,090 --> 00:18:35,940

on this planet and if we can develop a

450

00:18:40,490 --> 00:18:38,100

technology that allows us to use sonar

451  
00:18:43,970 --> 00:18:40,500  
or something to just like we did in the

452  
00:18:46,789 --> 00:18:43,980  
Amazon scan the sea floor for the first

453  
00:18:48,470 --> 00:18:46,799  
400 feet from our shorelines we're going

454  
00:18:52,669 --> 00:18:48,480  
to discover things that we didn't know

455  
00:18:55,190 --> 00:18:52,679  
existed that are just rumors and handed

456  
00:18:57,289 --> 00:18:55,200  
down from generation to generation that

457  
00:18:59,090 --> 00:18:57,299  
eventually became myth and lower and no

458  
00:19:01,549 --> 00:18:59,100  
one believed them just like No One

459  
00:19:03,169 --> 00:19:01,559  
Believes people when these ancient

460  
00:19:05,510 --> 00:19:03,179  
civilizations when they say that they

461  
00:19:08,770 --> 00:19:05,520  
inherited structures that they inherited

462  
00:19:12,230 --> 00:19:08,780  
sites that's something that is

463  
00:19:14,210 --> 00:19:12,240

a standard model for Humanity for

464

00:19:17,090 --> 00:19:14,220

civilizations if there's something

465

00:19:19,850 --> 00:19:17,100

significant of significant reverence in

466

00:19:21,529 --> 00:19:19,860

a location it's been built there for

467

00:19:24,110 --> 00:19:21,539

certain reasons maybe it's a proximity

468

00:19:25,549 --> 00:19:24,120

to water maybe it's a high elevation or

469

00:19:28,970 --> 00:19:25,559

something like that

470

00:19:31,310 --> 00:19:28,980

Humanity has a habit and has developed a

471

00:19:34,430 --> 00:19:31,320

pattern of building on ancient

472

00:19:36,770 --> 00:19:34,440

structures and improving upon them over

473

00:19:39,409 --> 00:19:36,780

time so if you look at churches in Peru

474

00:19:41,870 --> 00:19:39,419

they're built on the

475

00:19:43,789 --> 00:19:41,880

the foundations of older structures if

476  
00:19:46,250 --> 00:19:43,799  
you look at Machu Picchu in particular

477  
00:19:49,850 --> 00:19:46,260  
there's three different types of

478  
00:19:52,070 --> 00:19:49,860  
megalithic architectural ex that you can

479  
00:19:55,909 --> 00:19:52,080  
see in one location they have the more

480  
00:19:57,710 --> 00:19:55,919  
more recent stuff that's small blocky

481  
00:19:58,970 --> 00:19:57,720  
and a lot of mortar they have older

482  
00:20:00,650 --> 00:19:58,980  
stuff which is a little bit better and

483  
00:20:03,650 --> 00:20:00,660  
then they have some stuff that just does

484  
00:20:06,049 --> 00:20:03,660  
not belong with the with the rest of it

485  
00:20:08,210 --> 00:20:06,059  
and it is true megalithic architecture

486  
00:20:10,970 --> 00:20:08,220  
it's different so there's there's a lot

487  
00:20:12,350 --> 00:20:10,980  
in our past that's been forgotten and

488  
00:20:14,330 --> 00:20:12,360

there's a lot that has been hidden

489

00:20:16,669 --> 00:20:14,340

because we've covered it up with our

490

00:20:18,950 --> 00:20:16,679

modern technology so hopefully we'll

491

00:20:20,630 --> 00:20:18,960

start to learn more about it as time

492

00:20:23,210 --> 00:20:20,640

goes on and one thing I wanted to point

493

00:20:25,970 --> 00:20:23,220

out that Deb was talking about the the

494

00:20:28,190 --> 00:20:25,980

Indian Mounds in the southeast United

495

00:20:29,870 --> 00:20:28,200

States in particular I've been following

496

00:20:33,310 --> 00:20:29,880

this guy I don't know if you can see

497

00:20:36,350 --> 00:20:33,320

this on my phone Dr Greg Little

498

00:20:38,930 --> 00:20:36,360

Dr Greg Little two is his handle on

499

00:20:41,090 --> 00:20:38,940

Twitter he's a professor somewhere

500

00:20:43,610 --> 00:20:41,100

around this Southeast and he posts more

501  
00:20:45,289 --> 00:20:43,620  
information about ancient Indian mounds

502  
00:20:46,610 --> 00:20:45,299  
than anyone I've ever known I've only

503  
00:20:50,150 --> 00:20:46,620  
been following them for about two months

504  
00:20:51,950 --> 00:20:50,160  
but I've blown away by the volume of

505  
00:20:54,350 --> 00:20:51,960  
information he's been he's been able to

506  
00:20:56,450 --> 00:20:54,360  
put on Twitter on a regular basis about

507  
00:20:58,909 --> 00:20:56,460  
Indian mounds and Indian civilization

508  
00:21:01,070 --> 00:20:58,919  
and advancements that they they were

509  
00:21:02,810 --> 00:21:01,080  
able to accomplish back then so it's

510  
00:21:04,610 --> 00:21:02,820  
it's been an amazing he's an amazing guy

511  
00:21:07,850 --> 00:21:04,620  
to follow because it's just a Non-Stop

512  
00:21:10,690 --> 00:21:07,860  
flow of cool ancient Indian Mound

513  
00:21:13,430 --> 00:21:10,700

technology and uh and information

514

00:21:15,409 --> 00:21:13,440

in a city near you most likely

515

00:21:19,010 --> 00:21:15,419

well I was going to say I have Indian

516

00:21:20,510 --> 00:21:19,020

mounds uh not 200 yards from my house uh

517

00:21:22,669 --> 00:21:20,520

in the back the back woods over there

518

00:21:24,650 --> 00:21:22,679

there's three or four or five of them

519

00:21:26,150 --> 00:21:24,660

Unfortunately they sold the land and

520

00:21:28,430 --> 00:21:26,160

yeah it is Florida so they're going to

521

00:21:30,350 --> 00:21:28,440

develop it into condos as as we do

522

00:21:33,490 --> 00:21:30,360

because we don't we can't have nice

523

00:21:37,490 --> 00:21:33,500

things uh and there is really strangely

524

00:21:40,669 --> 00:21:37,500

uh piles of like clam shells that looks

525

00:21:43,669 --> 00:21:40,679

like someone brought clams and and

526

00:21:45,950 --> 00:21:43,679

consumed them and then deposited them in

527

00:21:47,810 --> 00:21:45,960

a central location and it started making

528

00:21:49,730 --> 00:21:47,820

me somebody told me that would be Native

529

00:21:51,529 --> 00:21:49,740

Americans I started thinking I thought

530

00:21:54,590 --> 00:21:51,539

that and then I'm like might be Bigfoot

531

00:21:56,390 --> 00:21:54,600

but anyway I don't know because uh they

532

00:21:59,149 --> 00:21:56,400

they have a tendency to harvest those

533

00:22:01,630 --> 00:21:59,159

those kinds of things to eat as well uh

534

00:22:06,049 --> 00:22:01,640

but with that let me uh pass it over to

535

00:22:13,190 --> 00:22:09,710

yeah so I was um kind of wondering if if

536

00:22:14,630 --> 00:22:13,200

you guys have like a specific site uh

537

00:22:16,549 --> 00:22:14,640

somewhere around the world that you're

538

00:22:18,169 --> 00:22:16,559

particularly interested in you know

539

00:22:19,010 --> 00:22:18,179

perhaps you could talk about it a little

540

00:22:20,510 --> 00:22:19,020

bit

541

00:22:23,029 --> 00:22:20,520

um particularly interested in a site

542

00:22:24,950 --> 00:22:23,039

that you might be familiar with that has

543

00:22:27,710 --> 00:22:24,960

quite a lot of work done in terms of

544

00:22:30,830 --> 00:22:27,720

like scientific analysis on you know the

545

00:22:32,570 --> 00:22:30,840

the buildings or you know the dating of

546

00:22:35,390 --> 00:22:32,580

of the objects and things in that kind

547

00:22:37,070 --> 00:22:35,400

of area so uh yeah be really interested

548

00:22:39,350 --> 00:22:37,080

to hear

549

00:22:41,270 --> 00:22:39,360

I mean to be honest being frank I've not

550

00:22:43,250 --> 00:22:41,280

got there's a few that I would follow

551

00:22:45,230 --> 00:22:43,260

with sites I wouldn't got into any

552

00:22:47,450 --> 00:22:45,240

really massively but one of the most

553

00:22:50,450 --> 00:22:47,460

important ones is the Sarah pm at Sakara

554

00:22:52,310 --> 00:22:50,460

yeah well you've got down London it's a

555

00:22:54,169 --> 00:22:52,320

big complex the Egyptian pyramids were

556

00:22:56,270 --> 00:22:54,179

built in fields effectively most of them

557

00:22:58,310 --> 00:22:56,280

on the west of the Nile and that's one

558

00:23:00,710 --> 00:22:58,320

of the earliest ones and there's a big

559

00:23:02,990 --> 00:23:00,720

there's a big one of the oldest pyramids

560

00:23:04,730 --> 00:23:03,000

I think he's dozak and the Dozer I can

561

00:23:06,710 --> 00:23:04,740

never quite pronounce it anyway within

562

00:23:08,690 --> 00:23:06,720

that complex there's this Sarah PM going

563

00:23:10,850 --> 00:23:08,700

on the ground and you'll all be familiar

564

00:23:13,909 --> 00:23:10,860

with that because it's got 20 I had 24

565

00:23:18,250 --> 00:23:13,919

of these massive Granite 100 ton type

566

00:23:21,110 --> 00:23:18,260

blocks perfectly machined perfect Lids

567

00:23:24,169 --> 00:23:21,120

uh all buried on the ground it's very

568

00:23:26,270 --> 00:23:24,179

difficult to see how any even if we the

569

00:23:28,789 --> 00:23:26,280

take or get actually maneuver them

570

00:23:30,350 --> 00:23:28,799

underground where they were laid out and

571

00:23:32,210 --> 00:23:30,360

uh and it didn't seem to have much

572

00:23:34,430 --> 00:23:32,220

purposely pretty plain they're perfectly

573

00:23:36,770 --> 00:23:34,440

machined made out of granite very hard

574

00:23:38,870 --> 00:23:36,780

to work and they seem to have some

575

00:23:40,789 --> 00:23:38,880

technological purpose in my view but we

576

00:23:43,130 --> 00:23:40,799

don't quite understand coming back to my

577

00:23:45,710 --> 00:23:43,140

first answer and that to me is one of

578

00:23:47,510 --> 00:23:45,720

the most fascinating sites because it's

579

00:23:49,130 --> 00:23:47,520

very plain you've actually got some

580

00:23:51,230 --> 00:23:49,140

hieroglyphics on them but they were

581

00:23:54,470 --> 00:23:51,240

obviously chiseled later on again by

582

00:23:56,149 --> 00:23:54,480

these earlier older or later Egyptian

583

00:23:58,010 --> 00:23:56,159

civilized age you can see the difference

584

00:23:59,450 --> 00:23:58,020

in the deck apparently they were

585

00:24:01,850 --> 00:23:59,460

polished they had some sort of Polish

586

00:24:03,730 --> 00:24:01,860

because you can't make chronic shine so

587

00:24:06,770 --> 00:24:03,740

the level of technology is amazing

588

00:24:08,450 --> 00:24:06,780

they're not I cannot iconographic in

589

00:24:09,710 --> 00:24:08,460

terms of the religious artifacts or

590

00:24:11,870 --> 00:24:09,720

anything like that there's nothing on

591

00:24:13,850 --> 00:24:11,880

them very difficult to move very

592

00:24:16,130 --> 00:24:13,860

difficult to maneuver so how did you do

593

00:24:17,690 --> 00:24:16,140

it and what was the purpose and to me it

594

00:24:20,570 --> 00:24:17,700

looks very much like they had some

595

00:24:23,029 --> 00:24:20,580

production or energy generating purpose

596

00:24:26,090 --> 00:24:23,039

and so that's a really fascinating one

597

00:24:27,830 --> 00:24:26,100

for me Frank the Sarah PM of clearly the

598

00:24:29,870 --> 00:24:27,840

Great Pyramids of interest because well

599

00:24:32,029 --> 00:24:29,880

that's probably everybody sort of looks

600

00:24:34,310 --> 00:24:32,039

at that I suppose and there's loads of

601  
00:24:37,070 --> 00:24:34,320  
really interesting ones because I the

602  
00:24:38,390 --> 00:24:37,080  
way I look at it is my view is try to

603  
00:24:40,070 --> 00:24:38,400  
understand these little ancient

604  
00:24:42,169 --> 00:24:40,080  
fragments of what this earlier

605  
00:24:43,789 --> 00:24:42,179  
civilization was like that was the point

606  
00:24:45,649 --> 00:24:43,799  
of Graham Hancock's fingerprint so the

607  
00:24:47,930 --> 00:24:45,659  
gods title you know you could just

608  
00:24:50,090 --> 00:24:47,940  
slightly see the evidence so for me when

609  
00:24:52,490 --> 00:24:50,100  
I look at ancient sites to try and pick

610  
00:24:53,930 --> 00:24:52,500  
up things that indicate where they were

611  
00:24:56,990 --> 00:24:53,940  
at what level they were at and what they

612  
00:24:59,029 --> 00:24:57,000  
were doing what the Sarah PM is one of

613  
00:25:01,850 --> 00:24:59,039

particular interest to me because it's

614

00:25:06,110 --> 00:25:01,860

almost like a plane Smoking Gun as it

615

00:25:10,430 --> 00:25:08,810

so I'll let me add on to that serpentium

616

00:25:14,270 --> 00:25:10,440

discussion and Davey correct me if I'm

617

00:25:16,190 --> 00:25:14,280

wrong but if I'm not mistaken I think uh

618

00:25:17,990 --> 00:25:16,200

but I am all right so this is me

619

00:25:20,029 --> 00:25:18,000

speculating on things that I don't have

620

00:25:22,010 --> 00:25:20,039

any business speculating on

621

00:25:25,450 --> 00:25:22,020

um one that's what we're here for one

622

00:25:31,370 --> 00:25:28,789

unestablished or unconfirmed is that the

623

00:25:33,350 --> 00:25:31,380

older stuff does not have writing on it

624

00:25:36,230 --> 00:25:33,360

anywhere in the world that's right yeah

625

00:25:38,990 --> 00:25:36,240

it seems like there was a a time when

626  
00:25:41,690 --> 00:25:39,000  
people just wanted the architecture the

627  
00:25:44,029 --> 00:25:41,700  
megaliths to speak for themselves and

628  
00:25:46,669 --> 00:25:44,039  
then after that like you look at the

629  
00:25:49,610 --> 00:25:46,679  
Egyptian uh temples and things like that

630  
00:25:52,430 --> 00:25:49,620  
they put hieroglyphs on everything so to

631  
00:25:54,830 --> 00:25:52,440  
me the Sarah PM is enigmatic for the

632  
00:25:56,690 --> 00:25:54,840  
sheer fact that that is an anomaly in

633  
00:26:00,049 --> 00:25:56,700  
Egypt that they built these amazing

634  
00:26:01,130 --> 00:26:00,059  
things and they didn't sign them they

635  
00:26:03,289 --> 00:26:01,140  
didn't put their signature on them

636  
00:26:05,330 --> 00:26:03,299  
anywhere the pyramids don't the Great

637  
00:26:07,430 --> 00:26:05,340  
Pyramid doesn't have anything carved

638  
00:26:09,529 --> 00:26:07,440

into it originally so it seems like the

639

00:26:11,990 --> 00:26:09,539

older the things that have the mystery

640

00:26:15,529 --> 00:26:12,000

around them that could potentially be

641

00:26:17,390 --> 00:26:15,539

older than we realize are not marked

642

00:26:19,789 --> 00:26:17,400

that's something that I find really

643

00:26:21,710 --> 00:26:19,799

fascinating and Dave if I'm not mistaken

644

00:26:24,890 --> 00:26:21,720

I think there's something else about the

645

00:26:27,370 --> 00:26:24,900

Sarah PM that reminds me of the the

646

00:26:31,250 --> 00:26:27,380

stone of the pregnant woman in Turkey

647

00:26:34,549 --> 00:26:31,260

where the there there was one of these

648

00:26:37,909 --> 00:26:34,559

giant 100 ton uh they called them bull

649

00:26:39,590 --> 00:26:37,919

uh coffins I believe they don't really

650

00:26:41,450 --> 00:26:39,600

know what they're for but one of them

651  
00:26:43,669 --> 00:26:41,460  
was actually in the hallway getting

652  
00:26:46,549 --> 00:26:43,679  
ready to be ready to be moved in place

653  
00:26:48,649 --> 00:26:46,559  
so it hadn't actually been set in its

654  
00:26:50,810 --> 00:26:48,659  
chamber that had been designated for it

655  
00:26:53,210 --> 00:26:50,820  
so it's almost like something had they

656  
00:26:55,909 --> 00:26:53,220  
were in the process of making these

657  
00:26:58,610 --> 00:26:55,919  
things something happened and they just

658  
00:26:59,930 --> 00:26:58,620  
called it off walked away and left it as

659  
00:27:05,510 --> 00:26:59,940  
is

660  
00:27:07,370 --> 00:27:05,520  
yeah there's one of them but they left

661  
00:27:08,990 --> 00:27:07,380  
and there's one of them about a crack in

662  
00:27:10,789 --> 00:27:09,000  
it in the granite and if you look at the

663  
00:27:13,130 --> 00:27:10,799

way they were worked they tried to get

664

00:27:14,690 --> 00:27:13,140

all the cracks out of them so they were

665

00:27:16,430 --> 00:27:14,700

more stable you know in the structure

666

00:27:18,590 --> 00:27:16,440

and that clearly again indicates an

667

00:27:19,970 --> 00:27:18,600

industrial process so there's one that

668

00:27:21,289 --> 00:27:19,980

had a big crack in it so they've been

669

00:27:23,269 --> 00:27:21,299

working but there's another one I think

670

00:27:25,190 --> 00:27:23,279

the one you're talking about and it's

671

00:27:27,110 --> 00:27:25,200

similar in a lot of ancient sites over

672

00:27:29,269 --> 00:27:27,120

the world there's bowed back there's the

673

00:27:31,610 --> 00:27:29,279

the quarries near gizae where they're

674

00:27:33,890 --> 00:27:31,620

doing all the obelisks where some of

675

00:27:35,450 --> 00:27:33,900

these things have just been left as if

676  
00:27:38,210 --> 00:27:35,460  
people were working on them as one in

677  
00:27:40,850 --> 00:27:38,220  
China as well and something happened

678  
00:27:42,950 --> 00:27:40,860  
and the art so that might well have

679  
00:27:44,930 --> 00:27:42,960  
happened there as well but uh so it

680  
00:27:46,909 --> 00:27:44,940  
that's another interesting factor which

681  
00:27:50,649 --> 00:27:46,919  
ties into this subject we might not have

682  
00:27:53,029 --> 00:27:50,659  
time for it today that of cataclysm and

683  
00:27:54,950 --> 00:27:53,039  
civilizations just keep happening on a

684  
00:27:57,289 --> 00:27:54,960  
regular basis and I don't want to go we

685  
00:27:59,269 --> 00:27:57,299  
can get into that we want but it could

686  
00:28:00,590 --> 00:27:59,279  
well be we have successive Cycles in

687  
00:28:02,750 --> 00:28:00,600  
this and that would answer the question

688  
00:28:05,450 --> 00:28:02,760

we've been around for what 300 000 years

689

00:28:07,190 --> 00:28:05,460

200 000 years and atomically humans and

690

00:28:09,529 --> 00:28:07,200

we might just get to a certain point all

691

00:28:10,850 --> 00:28:09,539

the time and something happens because

692

00:28:12,289 --> 00:28:10,860

that would explain why we haven't

693

00:28:13,909 --> 00:28:12,299

Advanced further in that time wouldn't

694

00:28:16,010 --> 00:28:13,919

it but anyway that's quite a bit of the

695

00:28:17,810 --> 00:28:16,020

point but yeah and so there's one that's

696

00:28:19,370 --> 00:28:17,820

got a crack in it which evidences that

697

00:28:21,710 --> 00:28:19,380

there were more bothered about function

698

00:28:23,450 --> 00:28:21,720

than anything else and there's one I

699

00:28:26,149 --> 00:28:23,460

think that was seems to seem to have

700

00:28:28,549 --> 00:28:26,159

just abandoned so yeah yeah anyway yeah

701  
00:28:30,049 --> 00:28:28,559  
so what Dave just mentioned is what I

702  
00:28:32,210 --> 00:28:30,059  
was going to use is my one of my most

703  
00:28:33,049 --> 00:28:32,220  
fascinated with right now

704  
00:28:36,230 --> 00:28:33,059  
um

705  
00:28:38,269 --> 00:28:36,240  
the the ricott structure in Africa which

706  
00:28:40,190 --> 00:28:38,279  
is known as the eye of Africa if you

707  
00:28:41,210 --> 00:28:40,200  
guys are familiar with bright Insight

708  
00:28:43,010 --> 00:28:41,220  
Jimmy

709  
00:28:44,990 --> 00:28:43,020  
um I can't remember corsetti I believe

710  
00:28:48,529 --> 00:28:45,000  
his name he's been on Joe Rogan twice

711  
00:28:51,470 --> 00:28:48,539  
now he has done some amazing uh thinking

712  
00:28:54,350 --> 00:28:51,480  
and researching on this structure that

713  
00:28:56,090 --> 00:28:54,360

has three uh concentric rings in the

714

00:28:59,330 --> 00:28:56,100

landscape that was a natural formation

715

00:29:02,810 --> 00:28:59,340

that he is now proposing is the actual

716

00:29:05,690 --> 00:29:02,820

location of Atlantis and he makes very

717

00:29:08,149 --> 00:29:05,700

valid discussion or very valid points in

718

00:29:11,390 --> 00:29:08,159

his argument for saying that this is

719

00:29:14,269 --> 00:29:11,400

what Atlantis used to be that a wave

720

00:29:16,430 --> 00:29:14,279

basically washed over the during this

721

00:29:19,370 --> 00:29:16,440

cataclysm that we're kind of hinting

722

00:29:22,909 --> 00:29:19,380

around as like this big game changer for

723

00:29:24,950 --> 00:29:22,919

Humanity at that time at the oceans of

724

00:29:26,810 --> 00:29:24,960

the Atlantic swept over the land of

725

00:29:30,669 --> 00:29:26,820

Africa and then swept back into the

726

00:29:33,590 --> 00:29:30,679

Atlantic Ocean there's a giant pile of

727

00:29:35,690 --> 00:29:33,600

sloth that came off of the continent in

728

00:29:38,269 --> 00:29:35,700

the water just off of the west coast of

729

00:29:40,430 --> 00:29:38,279

Africa that is probably the key to the

730

00:29:43,669 --> 00:29:40,440

lock as far as finding out if that is

731

00:29:45,769 --> 00:29:43,679

actually the the home of Atlantis in the

732

00:29:47,930 --> 00:29:45,779

past because if it washed it off just

733

00:29:50,210 --> 00:29:47,940

like a tsunami coming through it's going

734

00:29:52,789 --> 00:29:50,220

to be piling piled up in the ocean just

735

00:29:55,070 --> 00:29:52,799

off of the western coast of Africa so

736

00:29:58,010 --> 00:29:55,080

that to me is the current one that I

737

00:30:01,730 --> 00:29:58,020

find most intriguing but all of Peru is

738

00:30:04,970 --> 00:30:01,740

also my other Fascination it's it's a

739

00:30:08,810 --> 00:30:04,980

it's such an amazing uh feat of

740

00:30:10,610 --> 00:30:08,820

engineering Ingenuity and raw willpower

741

00:30:12,590 --> 00:30:10,620

I'm assuming that what's going on in

742

00:30:14,810 --> 00:30:12,600

Peru a long time ago that I don't feel

743

00:30:16,130 --> 00:30:14,820

like we understand or can explain at

744

00:30:17,990 --> 00:30:16,140

this point

745

00:30:20,389 --> 00:30:18,000

I want to say a couple things one thing

746

00:30:22,130 --> 00:30:20,399

I've already got enough questions now

747

00:30:24,649 --> 00:30:22,140

just from off of what you said to fill

748

00:30:26,450 --> 00:30:24,659

up the rest of the show for me

749

00:30:28,730 --> 00:30:26,460

um the other thing I was going to say is

750

00:30:30,590 --> 00:30:28,740

first of all everybody just give a hand

751  
00:30:32,810 --> 00:30:30,600  
for uh Dan and Dave because this is

752  
00:30:35,210 --> 00:30:32,820  
exactly what I was looking for what I

753  
00:30:38,090 --> 00:30:35,220  
envisioned when I had this episode I was

754  
00:30:39,590 --> 00:30:38,100  
like uh I mean you guys really just have

755  
00:30:42,169 --> 00:30:39,600  
knocked it out of the park and we don't

756  
00:30:43,850 --> 00:30:42,179  
damn near we just got started uh with

757  
00:30:46,190 --> 00:30:43,860  
with knowing about these structures and

758  
00:30:48,710 --> 00:30:46,200  
making interesting points Dave made me

759  
00:30:51,529 --> 00:30:48,720  
think of that Netflix special uh the

760  
00:30:53,149 --> 00:30:51,539  
secrets of the Sakara tomb where what

761  
00:30:56,510 --> 00:30:53,159  
they uncover toward the end of that

762  
00:30:59,510 --> 00:30:56,520  
Netflix show was not what they thought

763  
00:31:01,310 --> 00:30:59,520

going in and found out a lot about it

764

00:31:02,690 --> 00:31:01,320

um I'm not going to spoil it for those

765

00:31:05,090 --> 00:31:02,700

of you who are going to watch it because

766

00:31:07,250 --> 00:31:05,100

it's it's a must it's a must for anyone

767

00:31:09,409 --> 00:31:07,260

who even has a passing interest in this

768

00:31:11,690 --> 00:31:09,419

topic you got to watch that uh Sakara

769

00:31:13,669 --> 00:31:11,700

tomb thing on Netflix

770

00:31:16,070 --> 00:31:13,679

um also I want to say hello to Julie in

771

00:31:20,090 --> 00:31:16,080

the chat uh hi Jules thank you for doing

772

00:31:22,010 --> 00:31:20,100

this we have a couple uh let me see if

773

00:31:23,510 --> 00:31:22,020

there's a question Jules if we have a

774

00:31:25,669 --> 00:31:23,520

question please highlight it we want to

775

00:31:28,190 --> 00:31:25,679

say hi to Benji Benji had a great

776

00:31:30,350 --> 00:31:28,200

conversation uh about Benji and his

777

00:31:32,990 --> 00:31:30,360

experience this week it was a couple

778

00:31:35,330 --> 00:31:33,000

nights ago it was brilliant

779

00:31:37,730 --> 00:31:35,340

um who else is here Scott garan my

780

00:31:40,010 --> 00:31:37,740

former Air Force pair rescue well he's

781

00:31:42,590 --> 00:31:40,020

still my pair rescue brother uh he's

782

00:31:44,990 --> 00:31:42,600

just a former parent rescue men who's my

783

00:31:47,510 --> 00:31:45,000

brother up in Minnesota and man I'm

784

00:31:49,970 --> 00:31:47,520

gonna tell you Dan uh he gave us a video

785

00:31:52,250 --> 00:31:49,980

of him one you know which is like four

786

00:31:55,070 --> 00:31:52,260

feet of snow and that the Bigfoot howl

787

00:31:57,769 --> 00:31:55,080

is ever present in the background nice

788

00:32:00,130 --> 00:31:57,779

he backs up to a national forest so need

789

00:32:01,970 --> 00:32:00,140

us anymore

790

00:32:03,710 --> 00:32:01,980

anyway

791

00:32:05,149 --> 00:32:03,720

um let's let's get with it if Jules if

792

00:32:08,630 --> 00:32:05,159

somebody's got a question we'll go ahead

793

00:32:10,669 --> 00:32:08,640

and uh and rock it uh and let's continue

794

00:32:12,710 --> 00:32:10,679

with uh our friend uh Davey Johnson

795

00:32:15,350 --> 00:32:12,720

thank you Davey

796

00:32:17,230 --> 00:32:15,360

hi folks so

797

00:32:22,730 --> 00:32:17,240

first of all damn

798

00:32:25,549 --> 00:32:22,740

origins of the Gods Andrew Collins and

799

00:32:27,350 --> 00:32:25,559

Greg Little oh wow all right highly

800

00:32:29,630 --> 00:32:27,360

recommend it Andrew Collins as well with

801  
00:32:32,690 --> 00:32:29,640  
his background in ufology and crop

802  
00:32:34,250 --> 00:32:32,700  
circles yeah it's a must read

803  
00:32:37,490 --> 00:32:34,260  
so there we go

804  
00:32:40,669 --> 00:32:37,500  
you both describe beautifully there

805  
00:32:42,049 --> 00:32:40,679  
your Prime examples if you and you to

806  
00:32:43,730 --> 00:32:42,059  
take this to somebody who had no

807  
00:32:45,649 --> 00:32:43,740  
background in it and say to them this is

808  
00:32:47,870 --> 00:32:45,659  
why you should be studying it

809  
00:32:50,630 --> 00:32:47,880  
and given that

810  
00:32:53,029 --> 00:32:50,640  
so far we've only discovered one percent

811  
00:32:54,409 --> 00:32:53,039  
or uncovered sorry one percent of

812  
00:32:56,450 --> 00:32:54,419  
ancient Egypt

813  
00:32:59,149 --> 00:32:56,460

given that things like Gobekli Tepe

814

00:33:01,010 --> 00:32:59,159

throw the timeline back and back

815

00:33:05,289 --> 00:33:01,020

on the love the quote the more we

816

00:33:10,490 --> 00:33:08,570

what in your eyes would it take for

817

00:33:12,350 --> 00:33:10,500

mainstream Academia

818

00:33:14,149 --> 00:33:12,360

Academia to actually start to change

819

00:33:16,130 --> 00:33:14,159

their views about this and start to

820

00:33:18,169 --> 00:33:16,140

accept some of this ancient civilization

821

00:33:20,930 --> 00:33:18,179

as mainstream we've all seen the

822

00:33:23,509 --> 00:33:20,940

backlash that's come uh going Hancock's

823

00:33:25,490 --> 00:33:23,519

way what needs to change

824

00:33:27,610 --> 00:33:25,500

who wants to take their first Davey or

825

00:33:30,950 --> 00:33:27,620

Dave or Dan

826

00:33:33,049 --> 00:33:30,960

yeah get done first yeah yeah I'll I'll

827

00:33:34,490 --> 00:33:33,059

take the heat off of Dave and try to

828

00:33:36,950 --> 00:33:34,500

tackle this one first

829

00:33:37,490 --> 00:33:36,960

um I I think that there would need to be

830

00:33:41,990 --> 00:33:37,500

um

831

00:33:44,690 --> 00:33:42,000

the the layers of sediment is what the

832

00:33:46,850 --> 00:33:44,700

establishment likes to see if we start

833

00:33:49,430 --> 00:33:46,860

to dig down to layers that we haven't

834

00:33:52,090 --> 00:33:49,440

dug down to before and we find a

835

00:33:55,970 --> 00:33:52,100

structure we find

836

00:33:57,409 --> 00:33:55,980

evidence of advanced civilizations where

837

00:33:59,570 --> 00:33:57,419

we haven't looked before that's what

838

00:34:02,750 --> 00:33:59,580

it's going to take so one of the

839

00:34:06,590 --> 00:34:02,760

problems that Graham Hancock explained

840

00:34:08,869 --> 00:34:06,600

in his book America before is when these

841

00:34:11,389 --> 00:34:08,879

universities go out and they're

842

00:34:15,169 --> 00:34:11,399

researching an area they're digging down

843

00:34:16,550 --> 00:34:15,179

to 5000 years from the present and then

844

00:34:18,290 --> 00:34:16,560

they stop when they find what it is

845

00:34:20,570 --> 00:34:18,300

they're looking for or they say well

846

00:34:22,250 --> 00:34:20,580

it's not here so what I think is going

847

00:34:23,750 --> 00:34:22,260

to have to happen is these these same

848

00:34:27,169 --> 00:34:23,760

places and just like I was describing

849

00:34:29,450 --> 00:34:27,179

before the chances of one civilization

850

00:34:32,089 --> 00:34:29,460

building on top of another civilization

851  
00:34:34,010 --> 00:34:32,099  
is very high like is your house that you

852  
00:34:36,169 --> 00:34:34,020  
live in right now the first house that

853  
00:34:38,149 --> 00:34:36,179  
has ever been on Earth in that location

854  
00:34:41,450 --> 00:34:38,159  
it's probably not there was probably

855  
00:34:42,950 --> 00:34:41,460  
something there before a farm uh or if

856  
00:34:44,389 --> 00:34:42,960  
you guys from Over the pond there's

857  
00:34:46,070 --> 00:34:44,399  
probably other houses and other

858  
00:34:48,169 --> 00:34:46,080  
apartments and things like that from

859  
00:34:49,970 --> 00:34:48,179  
back then so what I think is going to

860  
00:34:52,369 --> 00:34:49,980  
have to happen is they're just like the

861  
00:34:54,349 --> 00:34:52,379  
UFO Community needs to open the aperture

862  
00:34:56,869 --> 00:34:54,359  
on the information that we're taking in

863  
00:34:58,010 --> 00:34:56,879

and how we're viewing this topic same

864

00:35:00,770 --> 00:34:58,020

thing needs to happen for the

865

00:35:03,349 --> 00:35:00,780

architectural or archaeological World

866

00:35:05,510 --> 00:35:03,359

they need to open up their aperture and

867

00:35:09,650 --> 00:35:05,520

say hey instead of just digging down

868

00:35:11,510 --> 00:35:09,660

5000 years and stopping let's move that

869

00:35:13,730 --> 00:35:11,520

evidence out of the way and dig another

870

00:35:15,290 --> 00:35:13,740

few feet deeper and see if we can

871

00:35:18,290 --> 00:35:15,300

continue to find something else of

872

00:35:20,089 --> 00:35:18,300

significance at those deeper depths

873

00:35:22,190 --> 00:35:20,099

that's going to be the nail on the

874

00:35:25,010 --> 00:35:22,200

coffin when they find a structure like

875

00:35:27,650 --> 00:35:25,020

uh up when they find a pyramid under the

876

00:35:29,510 --> 00:35:27,660

under underground at levels that they

877

00:35:31,430 --> 00:35:29,520

shouldn't see it they don't have to

878

00:35:33,349 --> 00:35:31,440

carbon date it at that point the layers

879

00:35:36,170 --> 00:35:33,359

of geography are going to be all they

880

00:35:37,910 --> 00:35:36,180

need to verify to put a stamp on that

881

00:35:39,050 --> 00:35:37,920

time for when that happens so that's

882

00:35:40,250 --> 00:35:39,060

what I think is going to have to happen

883

00:35:42,710 --> 00:35:40,260

in the future they're going to have to

884

00:35:45,230 --> 00:35:42,720

find something at a certain depth that

885

00:35:47,150 --> 00:35:45,240

forces them to accept a different

886

00:35:48,349 --> 00:35:47,160

timeline than what they currently have

887

00:35:50,630 --> 00:35:48,359

established

888

00:35:52,430 --> 00:35:50,640

Dan just to tack on real quick is there

889

00:35:55,370 --> 00:35:52,440

a place that you have in your mind you

890

00:35:56,990 --> 00:35:55,380

would start digging before Mesopotamia I

891

00:35:58,490 --> 00:35:57,000

mean you got to go to the the Middle

892

00:36:00,170 --> 00:35:58,500

East like that's and that's one of the

893

00:36:03,050 --> 00:36:00,180

unfortunate parts of the world that we

894

00:36:06,050 --> 00:36:03,060

live in right now is the the best stuff

895

00:36:08,030 --> 00:36:06,060

the most amazing undiscovered

896

00:36:10,370 --> 00:36:08,040

things on our planet are in the most

897

00:36:12,950 --> 00:36:10,380

dangerous locations

898

00:36:16,190 --> 00:36:12,960

um there and then also the Sahara itself

899

00:36:18,290 --> 00:36:16,200

the Sahara was was not a desert five

900

00:36:21,109 --> 00:36:18,300

thousand six thousand years ago

901  
00:36:22,910 --> 00:36:21,119  
Earth isn't a stable environment we're

902  
00:36:24,589 --> 00:36:22,920  
very lucky in the society that we live

903  
00:36:28,150 --> 00:36:24,599  
in right now that we have experienced

904  
00:36:31,849 --> 00:36:28,160  
this long duration of time without

905  
00:36:34,130 --> 00:36:31,859  
extreme swings in our in our climate we

906  
00:36:35,510 --> 00:36:34,140  
talk about climate change right now we

907  
00:36:37,069 --> 00:36:35,520  
don't know anything about what climate

908  
00:36:38,810 --> 00:36:37,079  
change actually is compared to what our

909  
00:36:40,609 --> 00:36:38,820  
forefathers and our ancestors had to

910  
00:36:44,089 --> 00:36:40,619  
experience and live through and endure

911  
00:36:46,010 --> 00:36:44,099  
through so we're lucky we're fortunate

912  
00:36:48,230 --> 00:36:46,020  
um the Sahara has Secrets under the

913  
00:36:50,510 --> 00:36:48,240

Sands that have been preserved

914

00:36:52,910 --> 00:36:50,520

that we don't know about that we haven't

915

00:36:55,370 --> 00:36:52,920

even that has been lost

916

00:36:57,650 --> 00:36:55,380

we we need to find it again so hopefully

917

00:36:59,329 --> 00:36:57,660

if all right so we'll get lidar for the

918

00:37:00,710 --> 00:36:59,339

Amazon we'll get lidar for the

919

00:37:02,569 --> 00:37:00,720

underwater areas and then we got to get

920

00:37:04,310 --> 00:37:02,579

lidar they can scan through sand I guess

921

00:37:07,370 --> 00:37:04,320

so they don't start to really

922

00:37:09,890 --> 00:37:07,380

make some gains ground penetrating radar

923

00:37:12,349 --> 00:37:09,900

and Moss and I'll tell you during some

924

00:37:15,349 --> 00:37:12,359

of those quiet nights during my first

925

00:37:18,230 --> 00:37:15,359

and second fsoc deployments was Iraq

926

00:37:20,810 --> 00:37:18,240

they were both Iraq and uh or Iraq if

927

00:37:22,250 --> 00:37:20,820

I'm gonna say correctly and some of

928

00:37:23,810 --> 00:37:22,260

those quite nice people would say man

929

00:37:26,810 --> 00:37:23,820

can you believe we're flying over the

930

00:37:29,270 --> 00:37:26,820

cradle of civilization right here and um

931

00:37:31,730 --> 00:37:29,280

this is like Mesopotamia and and it just

932

00:37:33,890 --> 00:37:31,740

you know it of course you know back then

933

00:37:37,430 --> 00:37:33,900

I had no focus on something like that

934

00:37:39,589 --> 00:37:37,440

but but it's uh fascinating and I'm glad

935

00:37:41,390 --> 00:37:39,599

that you had a place in mind and if if

936

00:37:44,390 --> 00:37:41,400

day uh Dave if you forgot the question

937

00:37:48,170 --> 00:37:44,400

Davey please I'm clear with a question

938

00:37:50,089 --> 00:37:48,180

that's fine the the uh yeah I mean I

939

00:37:52,370 --> 00:37:50,099

think that I think Dan's right there I

940

00:37:54,410 --> 00:37:52,380

think now if you remember globekichepi

941

00:37:55,730 --> 00:37:54,420

which really changed the clock because

942

00:37:57,170 --> 00:37:55,740

that was eleven and a half thousand

943

00:37:58,910 --> 00:37:57,180

years ago something like that I think

944

00:38:01,010 --> 00:37:58,920

anyway what happened it was that sort of

945

00:38:03,829 --> 00:38:01,020

time frame and it was clearly built by

946

00:38:05,690 --> 00:38:03,839

an organized group of people to do it

947

00:38:07,790 --> 00:38:05,700

now the only reason the money so very

948

00:38:11,030 --> 00:38:07,800

find that date was the German archeology

949

00:38:12,650 --> 00:38:11,040

I think Smith was his name he found soil

950

00:38:14,569 --> 00:38:12,660

but could not have got there any other

951  
00:38:15,710 --> 00:38:14,579  
way so they had to wear the day I don't

952  
00:38:18,170 --> 00:38:15,720  
think they would have done it otherwise

953  
00:38:20,329 --> 00:38:18,180  
because they hate the very very set in

954  
00:38:21,829 --> 00:38:20,339  
the ways in archeology at the archeology

955  
00:38:23,990 --> 00:38:21,839  
so they might be that but the question

956  
00:38:25,430 --> 00:38:24,000  
is what's the sort of archaeological

957  
00:38:27,829 --> 00:38:25,440  
equivalent of the youth on the White

958  
00:38:29,630 --> 00:38:27,839  
House lawn really isn't it that's what

959  
00:38:31,490 --> 00:38:29,640  
they'd ask you and I agree with them

960  
00:38:34,310 --> 00:38:31,500  
again it'd have to be some big pyramid

961  
00:38:36,349 --> 00:38:34,320  
or some big structure but they are a

962  
00:38:38,030 --> 00:38:36,359  
problematic Bunch the archaeologists I

963  
00:38:39,710 --> 00:38:38,040

mean they've got the roots in the 18th

964

00:38:42,290 --> 00:38:39,720  
to 19th century

965

00:38:43,670 --> 00:38:42,300  
it's a Perry but he's very Colonial and

966

00:38:45,530 --> 00:38:43,680  
a lot of the beliefs around population

967

00:38:47,390 --> 00:38:45,540  
movements are around that particularly

968

00:38:50,990 --> 00:38:47,400  
in the Indian subcontinent they've got

969

00:38:52,910 --> 00:38:51,000  
some very strange ideas about that and

970

00:38:54,530 --> 00:38:52,920  
that really I think the archaeological

971

00:38:56,630 --> 00:38:54,540  
discipline is more like an art history

972

00:38:58,550 --> 00:38:56,640  
movement or a history movement but it is

973

00:39:00,530 --> 00:38:58,560  
a science somebody to be able I guess

974

00:39:01,910 --> 00:39:00,540  
and it really needs to be a more

975

00:39:03,290 --> 00:39:01,920  
scientific discipline because they don't

976  
00:39:05,990 --> 00:39:03,300  
know what they're looking at after time

977  
00:39:08,569 --> 00:39:06,000  
so it needs more linguists Engineers

978  
00:39:10,849 --> 00:39:08,579  
astronomers geologists scientists

979  
00:39:13,010 --> 00:39:10,859  
genealogists it needs a proper

980  
00:39:14,390 --> 00:39:13,020  
multi-disciplinary team because we're

981  
00:39:16,910 --> 00:39:14,400  
looking at some of these ancient

982  
00:39:18,650 --> 00:39:16,920  
structures but and they don't understand

983  
00:39:20,810 --> 00:39:18,660  
but they couldn't have been built using

984  
00:39:22,310 --> 00:39:20,820  
you know a bronze pickaxe and whatever I

985  
00:39:23,810 --> 00:39:22,320  
don't know you know a bit of sand and a

986  
00:39:26,270 --> 00:39:23,820  
brick or something they don't understand

987  
00:39:27,290 --> 00:39:26,280  
that it wouldn't do that and so they

988  
00:39:29,930 --> 00:39:27,300

don't know what they're looking at

989

00:39:32,329 --> 00:39:29,940

really and so they tend to miss stuff

990

00:39:33,829 --> 00:39:32,339

I'll ignore it because it don't fit into

991

00:39:35,810 --> 00:39:33,839

their Paradigm and the other thing is

992

00:39:37,490 --> 00:39:35,820

you can't date stone so what a lot of

993

00:39:39,770 --> 00:39:37,500

people don't realize about these datings

994

00:39:42,710 --> 00:39:39,780

we're here is they very much contextual

995

00:39:44,450 --> 00:39:42,720

on what people believe is the day and is

996

00:39:46,849 --> 00:39:44,460

the historical contacts within that

997

00:39:49,370 --> 00:39:46,859

Monument is so that's why you get these

998

00:39:51,650 --> 00:39:49,380

varying dates and it's very very hard to

999

00:39:53,089 --> 00:39:51,660

contradict it so I think a lot of the

1000

00:39:55,670 --> 00:39:53,099

stuff in South America for instance

1001

00:39:57,530 --> 00:39:55,680

you're a lot older or he's dated

1002

00:39:59,329 --> 00:39:57,540

according to that sort of that sort of

1003

00:40:01,609 --> 00:39:59,339

Paradigm really when you've got the

1004

00:40:03,050 --> 00:40:01,619

example of Clovis first where he

1005

00:40:06,710 --> 00:40:03,060

wouldn't have anybody went into America

1006

00:40:08,210 --> 00:40:06,720

below 13 000 years ago or 13 000 BC our

1007

00:40:10,310 --> 00:40:08,220

30 000 years ago it was something like

1008

00:40:12,290 --> 00:40:10,320

that and anybody who come up with that

1009

00:40:14,150 --> 00:40:12,300

who dug deeper who found anything out

1010

00:40:16,670 --> 00:40:14,160

there destroyed the careers it carried

1011

00:40:18,890 --> 00:40:16,680

on for 90 years until they all died off

1012

00:40:20,990 --> 00:40:18,900

I mean Max what did Max Planck say

1013

00:40:23,870 --> 00:40:21,000

science advances one funeral at a time

1014

00:40:27,109 --> 00:40:23,880

and I'll probably be like archeology as

1015

00:40:29,030 --> 00:40:27,119

well really so so anyway there was cases

1016

00:40:31,370 --> 00:40:29,040

of people were told not to dig below

1017

00:40:33,109 --> 00:40:31,380

certain layers like Dan was saying and

1018

00:40:34,609 --> 00:40:33,119

they'd lose their careers on the back of

1019

00:40:36,890 --> 00:40:34,619

it so you've got things like already

1020

00:40:38,930 --> 00:40:36,900

well Becky Tippy that should have told

1021

00:40:40,910 --> 00:40:38,940

them something was going the Sphinx and

1022

00:40:44,030 --> 00:40:40,920

the weather in some of the age of the

1023

00:40:45,530 --> 00:40:44,040

Cities the lidar you know and some of

1024

00:40:47,270 --> 00:40:45,540

the genealogy shows because they

1025

00:40:50,089 --> 00:40:47,280

believed there was no population

1026

00:40:52,190 --> 00:40:50,099

movement below before Seafair each night

1027

00:40:53,870 --> 00:40:52,200

a lot later on yeah we've got clear

1028

00:40:56,569 --> 00:40:53,880

evidence through genealogy and other

1029

00:40:58,630 --> 00:40:56,579

things shared by iconography pyramids

1030

00:41:01,490 --> 00:40:58,640

all over the world but clearly there was

1031

00:41:03,950 --> 00:41:01,500

evidence of an earlier civilization a

1032

00:41:05,810 --> 00:41:03,960

moment but he just won't have it so I

1033

00:41:07,490 --> 00:41:05,820

think it'll be prayer to convince the

1034

00:41:09,770 --> 00:41:07,500

archaeologists of anything as they

1035

00:41:12,470 --> 00:41:09,780

currently constitute because the dog in

1036

00:41:14,569 --> 00:41:12,480

a big bunker of their own making and

1037

00:41:16,430 --> 00:41:14,579

things just keep getting older and they

1038

00:41:18,589 --> 00:41:16,440

keep getting tired they form the wagons

1039

00:41:20,750 --> 00:41:18,599

ever tighter every time there's an older

1040

00:41:23,329 --> 00:41:20,760

phone so I'm a bit more pessimistic but

1041

00:41:26,210 --> 00:41:23,339

I think Dan's right here it'd have to be

1042

00:41:28,790 --> 00:41:26,220

something pretty big or something that

1043

00:41:30,770 --> 00:41:28,800

they couldn't ignore oh and honest there

1044

00:41:33,170 --> 00:41:30,780

are sorry an archaeologist who isn't

1045

00:41:35,569 --> 00:41:33,180

very dogmatic who like Smith the club

1046

00:41:37,190 --> 00:41:35,579

who gets his results that body can stop

1047

00:41:39,890 --> 00:41:37,200

him

1048

00:41:41,690 --> 00:41:39,900

good stuff gentlemen good stuff uh now

1049

00:41:43,370 --> 00:41:41,700

that we tackled that one we gotta get

1050

00:41:45,770 --> 00:41:43,380

jewels of the wood in here with her

1051

00:41:49,250 --> 00:41:45,780

question our uh chat moderator

1052

00:41:51,410 --> 00:41:49,260

extraordinaire the jewel of Alabama

1053

00:41:53,690 --> 00:41:51,420

um there she is uh do you think that the

1054

00:41:55,550 --> 00:41:53,700

worldwide similarities in megalithic

1055

00:41:58,370 --> 00:41:55,560

structures indicate a worldwide

1056

00:42:02,870 --> 00:41:58,380

civilization that had the ability to

1057

00:42:05,210 --> 00:42:02,880

travel through portals or with Vimana

1058

00:42:07,250 --> 00:42:05,220

I can tell you that I don't I don't know

1059

00:42:10,910 --> 00:42:07,260

about the portals of Ramana

1060

00:42:14,450 --> 00:42:10,920

um being a part of it but when I see the

1061

00:42:18,109 --> 00:42:14,460

uh the carvings of people that are half

1062

00:42:21,109 --> 00:42:18,119

fish half human or they're full humans

1063

00:42:23,390 --> 00:42:21,119

but they have like fish attire

1064

00:42:24,609 --> 00:42:23,400

to me that sounds like there was a

1065

00:42:27,650 --> 00:42:24,619

global

1066

00:42:29,270 --> 00:42:27,660

seafaring uh civilization that lived on

1067

00:42:31,490 --> 00:42:29,280

the planet at the same time as these

1068

00:42:33,470 --> 00:42:31,500

other people and other civilizations did

1069

00:42:36,349 --> 00:42:33,480

that they didn't quite understand like

1070

00:42:37,790 --> 00:42:36,359

they would visit them and they would if

1071

00:42:39,770 --> 00:42:37,800

you see them they usually have what

1072

00:42:42,290 --> 00:42:39,780

looks like a pine cone in their hand and

1073

00:42:44,990 --> 00:42:42,300

in one hand and a handbag in the other

1074

00:42:47,630 --> 00:42:45,000

and it seems like the it's the transfer

1075

00:42:49,670 --> 00:42:47,640

of knowledge is what these people are

1076

00:42:52,849 --> 00:42:49,680

bringing to the other civilizations so

1077

00:42:54,950 --> 00:42:52,859

these uh seafaring people that they just

1078

00:42:56,450 --> 00:42:54,960

kind of said like they must be fish they

1079

00:42:58,130 --> 00:42:56,460

live in the oceans they come from the

1080

00:42:59,870 --> 00:42:58,140

oceans so therefore they're fish that

1081

00:43:03,770 --> 00:42:59,880

makes sense to me

1082

00:43:06,230 --> 00:43:03,780

um that to me is an indicator that there

1083

00:43:09,050 --> 00:43:06,240

was maybe not a worldwide civilization

1084

00:43:11,569 --> 00:43:09,060

that had control over the planet but

1085

00:43:13,730 --> 00:43:11,579

that there was a worldwide influence on

1086

00:43:15,950 --> 00:43:13,740

the thought process and the transfer of

1087

00:43:17,930 --> 00:43:15,960

knowledge across the planet to where

1088

00:43:19,910 --> 00:43:17,940

they could plant the seed in different

1089

00:43:21,470 --> 00:43:19,920

locations and say let me show you how to

1090

00:43:23,510 --> 00:43:21,480

solve this one problem

1091

00:43:25,010 --> 00:43:23,520

and then you take it and you run with it

1092

00:43:27,710 --> 00:43:25,020

if if I gave

1093

00:43:30,230 --> 00:43:27,720

if I gave you guys all a box of eight

1094

00:43:32,089 --> 00:43:30,240

crayons and said draw me a picture of

1095

00:43:33,230 --> 00:43:32,099

your out of the outside of your house

1096

00:43:34,790 --> 00:43:33,240

you're all going to draw different

1097

00:43:37,730 --> 00:43:34,800

things

1098

00:43:39,650 --> 00:43:37,740

um just like if I if someone gave me uh

1099

00:43:41,030 --> 00:43:39,660

different tools I'm gonna be able to do

1100

00:43:43,430 --> 00:43:41,040

different things with them so I think

1101  
00:43:46,130 --> 00:43:43,440  
that's what happened is there was a

1102  
00:43:48,650 --> 00:43:46,140  
advanced civilization that made it

1103  
00:43:50,930 --> 00:43:48,660  
through the catastrophe that we've

1104  
00:43:53,089 --> 00:43:50,940  
touched we've danced around a little bit

1105  
00:43:54,730 --> 00:43:53,099  
in this conversation that was able to

1106  
00:43:57,470 --> 00:43:54,740  
disseminate information

1107  
00:43:59,510 --> 00:43:57,480  
globally and then they they wanted to

1108  
00:44:02,510 --> 00:43:59,520  
keep themselves they didn't just like

1109  
00:44:04,370 --> 00:44:02,520  
today in this modern society that we

1110  
00:44:06,829 --> 00:44:04,380  
live in we're all on the internet

1111  
00:44:09,050 --> 00:44:06,839  
talking to each other from multiple

1112  
00:44:10,069 --> 00:44:09,060  
continents they're still untouched

1113  
00:44:12,650 --> 00:44:10,079

tribes

1114

00:44:14,870 --> 00:44:12,660

in the world that we live in right now

1115

00:44:16,490 --> 00:44:14,880

if we go out and we give them a little

1116

00:44:18,710 --> 00:44:16,500

bit of information on how to sanitize

1117

00:44:20,630 --> 00:44:18,720

water it's going to change their world

1118

00:44:22,370 --> 00:44:20,640

so it's just it's not that you have to

1119

00:44:24,589 --> 00:44:22,380

go in and you have to hold their hand

1120

00:44:26,030 --> 00:44:24,599

and you have to teach them how to use

1121

00:44:28,069 --> 00:44:26,040

all this stuff you just give them a

1122

00:44:31,190 --> 00:44:28,079

little bit of information to give them a

1123

00:44:33,829 --> 00:44:31,200

kick start and that's what I think the

1124

00:44:35,390 --> 00:44:33,839

the history records indicate with the

1125

00:44:37,309 --> 00:44:35,400

carvings that I've seen

1126

00:44:40,370 --> 00:44:37,319

um that that are talked about very

1127

00:44:43,309 --> 00:44:40,380

frequently in this weird world

1128

00:44:45,290 --> 00:44:43,319

awesome thank you let me pass that to

1129

00:44:47,510 --> 00:44:45,300

Dave and then we'll get back to uh Deb's

1130

00:44:48,770 --> 00:44:47,520

with her question yeah I mean there are

1131

00:44:50,210 --> 00:44:48,780

a lot of counts of Vermont in

1132

00:44:52,210 --> 00:44:50,220

particularly happen in India and other

1133

00:44:54,710 --> 00:44:52,220

types of line craft in the literature

1134

00:44:56,510 --> 00:44:54,720

Tales of craft line in fact that's been

1135

00:44:58,550 --> 00:44:56,520

a lot of confusion with Ancient Aliens

1136

00:45:00,230 --> 00:44:58,560

because people have ascribed that to

1137

00:45:01,790 --> 00:45:00,240

aliens but actually could would just

1138

00:45:04,609 --> 00:45:01,800

have been a more advanced civilization

1139

00:45:06,470 --> 00:45:04,619

there's one apartment King Solomon at an

1140

00:45:08,150 --> 00:45:06,480

old craft apparently he must have got it

1141

00:45:10,309 --> 00:45:08,160

from an old second-hand shop somewhere

1142

00:45:11,750 --> 00:45:10,319

in the markets in the Middle East but

1143

00:45:13,849 --> 00:45:11,760

anyway he hadn't all I'm joking

1144

00:45:15,770 --> 00:45:13,859

obviously he had an old crafter barley

1145

00:45:17,569 --> 00:45:15,780

and he used to fly around as the one was

1146

00:45:19,250 --> 00:45:17,579

called Solomon's mountains and fly under

1147

00:45:22,190 --> 00:45:19,260

some of the descriptions funnily enough

1148

00:45:24,230 --> 00:45:22,200

from what he sees from the air a pretty

1149

00:45:25,970 --> 00:45:24,240

accurate apparently but the very amount

1150

00:45:28,730 --> 00:45:25,980

of things well documented in ancient

1151

00:45:31,250 --> 00:45:28,740

Sanskrit literature about the abilities

1152

00:45:34,370 --> 00:45:31,260

they had some of the ways they could fly

1153

00:45:37,130 --> 00:45:34,380

and it's it's really easy so

1154

00:45:38,870 --> 00:45:37,140

if they did indeed Master field tech and

1155

00:45:41,030 --> 00:45:38,880

we need another program to go in to go

1156

00:45:42,650 --> 00:45:41,040

into the is that right or not but let's

1157

00:45:45,349 --> 00:45:42,660

just assume that there's some evidence

1158

00:45:47,930 --> 00:45:45,359

of it then you could see how they could

1159

00:45:50,210 --> 00:45:47,940

do that and get into anti-gravidics or

1160

00:45:52,670 --> 00:45:50,220

using something Sonic or electromagnetic

1161

00:45:54,530 --> 00:45:52,680

using magnetic fields so I think there

1162

00:45:56,569 --> 00:45:54,540

was some sort of ability to fly there

1163

00:45:59,329 --> 00:45:56,579

just from the ancient Tales and The like

1164

00:46:01,309 --> 00:45:59,339

dances the stories and carvings now with

1165

00:46:02,930 --> 00:46:01,319

dimensional portals only on a lot of

1166

00:46:06,349 --> 00:46:02,940

monuments all around the world you see

1167

00:46:08,809 --> 00:46:06,359

these doors very well carved very

1168

00:46:10,550 --> 00:46:08,819

accurate doors they look you know they

1169

00:46:12,530 --> 00:46:10,560

don't look like some and they're all

1170

00:46:14,210 --> 00:46:12,540

over the place and a lot of the tales

1171

00:46:16,250 --> 00:46:14,220

from the indigenous peoples there or

1172

00:46:18,170 --> 00:46:16,260

whatever aren't about people traveling

1173

00:46:20,210 --> 00:46:18,180

through different things now it does

1174

00:46:22,609 --> 00:46:20,220

sound a bit ridiculous to the modern ear

1175

00:46:24,109 --> 00:46:22,619

but maybe not to what our modern is

1176  
00:46:26,870 --> 00:46:24,119  
because you know we're used to these

1177  
00:46:29,150 --> 00:46:26,880  
things in other contexts but if again if

1178  
00:46:31,970 --> 00:46:29,160  
you've mastered some dimensional stuff

1179  
00:46:34,010 --> 00:46:31,980  
quantum physics things like that there

1180  
00:46:36,589 --> 00:46:34,020  
may well be something to that and while

1181  
00:46:38,990 --> 00:46:36,599  
we are lockdown not with us but people

1182  
00:46:40,730 --> 00:46:39,000  
laugh down the sleeves of it I've often

1183  
00:46:42,050 --> 00:46:40,740  
thought why did they do those doors and

1184  
00:46:43,430 --> 00:46:42,060  
there are a lot of tales of people

1185  
00:46:45,470 --> 00:46:43,440  
traveling through these doors

1186  
00:46:48,230 --> 00:46:45,480  
particularly in South America to other

1187  
00:46:49,910 --> 00:46:48,240  
parts of other complexes as well so

1188  
00:46:51,410 --> 00:46:49,920

there may well be something to it

1189

00:46:54,710 --> 00:46:51,420

because if they have cracked to

1190

00:46:57,109 --> 00:46:54,720

different science as we say that then uh

1191

00:46:59,390 --> 00:46:57,119

it may be quite sure I'll give you an

1192

00:47:01,490 --> 00:46:59,400

example for instance you might have the

1193

00:47:04,430 --> 00:47:01,500

Obelisk for instance one of the theories

1194

00:47:06,230 --> 00:47:04,440

is that the pyramids generated uh Power

1195

00:47:08,329 --> 00:47:06,240

electrical power and the obelisks were

1196

00:47:10,370 --> 00:47:08,339

like some sort of Tesla Tower but

1197

00:47:12,230 --> 00:47:10,380

collected that power and within a radius

1198

00:47:14,510 --> 00:47:12,240

you could give out a thing about like

1199

00:47:17,030 --> 00:47:14,520

Wi-Fi and everybody could use the power

1200

00:47:18,589 --> 00:47:17,040

tools in that radius so so there could

1201  
00:47:20,809 --> 00:47:18,599  
be you know so you'd never think of that

1202  
00:47:22,550 --> 00:47:20,819  
would you it may well be the headdress

1203  
00:47:25,010 --> 00:47:22,560  
of the ancient Egyptians he'd taken from

1204  
00:47:27,410 --> 00:47:25,020  
an earlier civilization that soundic

1205  
00:47:29,030 --> 00:47:27,420  
amplification the man bags I've often

1206  
00:47:31,490 --> 00:47:29,040  
thought they could be a portable power

1207  
00:47:33,349 --> 00:47:31,500  
source so I mean I'm not saying that's

1208  
00:47:35,690 --> 00:47:33,359  
correct but what I'm getting at is a lot

1209  
00:47:37,790 --> 00:47:35,700  
of these things that sound again crazy

1210  
00:47:39,589 --> 00:47:37,800  
once you think of a different type of

1211  
00:47:41,630 --> 00:47:39,599  
tech called well be

1212  
00:47:43,490 --> 00:47:41,640  
could well be you know if oh yeah right

1213  
00:47:45,410 --> 00:47:43,500

I can say that now so I'm not saying

1214

00:47:47,210 --> 00:47:45,420

it's correct and as I say we'd have to

1215

00:47:49,970 --> 00:47:47,220

have quite a detailed discussion to get

1216

00:47:52,309 --> 00:47:49,980

to prove you know where that may come

1217

00:47:55,190 --> 00:47:52,319

from and it probably took ages and a big

1218

00:47:57,950 --> 00:47:55,200

series but but I think there's something

1219

00:47:59,690 --> 00:47:57,960

that was a very interesting question

1220

00:48:01,609 --> 00:47:59,700

I'm gonna tell you what that was a good

1221

00:48:03,470 --> 00:48:01,619

one and uh I forgot I was about to pass

1222

00:48:06,890 --> 00:48:03,480

it to Deb but I got a question I got to

1223

00:48:09,950 --> 00:48:06,900

get in here uh first and then and then

1224

00:48:11,870 --> 00:48:09,960

we'll get to The Debs and I was going to

1225

00:48:13,430 --> 00:48:11,880

ask another question which I'm going to

1226

00:48:16,130 --> 00:48:13,440

say for my next one but I gotta throw

1227

00:48:19,550 --> 00:48:16,140

some meat to the UFO base if you will to

1228

00:48:22,010 --> 00:48:19,560

use a political uh throw here

1229

00:48:25,069 --> 00:48:22,020

um is there an intersection Dan do you

1230

00:48:27,650 --> 00:48:25,079

believe between other intelligences that

1231

00:48:29,870 --> 00:48:27,660

or what we would call UFOs but we could

1232

00:48:32,270 --> 00:48:29,880

just call it a non-human intelligence

1233

00:48:34,670 --> 00:48:32,280

and these ancient structures is there an

1234

00:48:36,349 --> 00:48:34,680

intersection or is there that and I know

1235

00:48:37,849 --> 00:48:36,359

this is hotly debated is this something

1236

00:48:42,470 --> 00:48:37,859

that you don't see

1237

00:48:45,410 --> 00:48:42,480

uh juicy so this is this is the my pet

1238

00:48:46,790 --> 00:48:45,420

hypothesis that I I like to mess around

1239

00:48:49,670 --> 00:48:46,800

with every now and then of course

1240

00:48:50,450 --> 00:48:49,680

everyone when they look at the UFO the

1241

00:48:52,250 --> 00:48:50,460

first

1242

00:48:53,390 --> 00:48:52,260

responses that must come from another

1243

00:48:55,970 --> 00:48:53,400

planet

1244

00:49:00,349 --> 00:48:55,980

the crypto terrestrial hypothesis in my

1245

00:49:03,230 --> 00:49:00,359

opinion has so much it simplifies the

1246

00:49:05,510 --> 00:49:03,240

discussion so much that it shouldn't be

1247

00:49:08,089 --> 00:49:05,520

ignored and the crypto terrestrial

1248

00:49:11,450 --> 00:49:08,099

hypothesis is basically that there is a

1249

00:49:14,690 --> 00:49:11,460

earth-based species that's far far more

1250

00:49:16,250 --> 00:49:14,700

advanced in certain ways than than we

1251

00:49:18,650 --> 00:49:16,260

are they don't have a global

1252

00:49:20,809 --> 00:49:18,660

infrastructure but they would they have

1253

00:49:22,609 --> 00:49:20,819

different abilities I don't know like

1254

00:49:25,010 --> 00:49:22,619

maybe how to move giant stones that we

1255

00:49:28,370 --> 00:49:25,020

can't move that

1256

00:49:31,730 --> 00:49:28,380

they utilize in ways that we don't and

1257

00:49:34,550 --> 00:49:31,740

they've lived alongside of us and one

1258

00:49:37,849 --> 00:49:34,560

thing that I I think about is for our

1259

00:49:40,550 --> 00:49:37,859

modern Humanity we tend to go we we tend

1260

00:49:43,730 --> 00:49:40,560

to spread that is our goal we want to

1261

00:49:46,490 --> 00:49:43,740

grow in numbers we spread we're not very

1262

00:49:48,890 --> 00:49:46,500

sustainable if there was a the more

1263

00:49:50,950 --> 00:49:48,900

advanced we get though the more we get

1264

00:49:54,770 --> 00:49:50,960

concerned about sustainability

1265

00:49:57,470 --> 00:49:54,780

but we're not real quick about figuring

1266

00:49:59,150 --> 00:49:57,480

that out another society that is more

1267

00:50:00,890 --> 00:49:59,160

advanced than us might have gotten to

1268

00:50:04,490 --> 00:50:00,900

the point where they did realize that

1269

00:50:07,309 --> 00:50:04,500

sustainability of a smaller base of

1270

00:50:08,930 --> 00:50:07,319

we'll call them people is easier than

1271

00:50:11,809 --> 00:50:08,940

trying to do it for a huge number of

1272

00:50:15,349 --> 00:50:11,819

people so potentially there's a

1273

00:50:17,990 --> 00:50:15,359

civilization that is much less that has

1274

00:50:19,910 --> 00:50:18,000

less much less people than we do shares

1275

00:50:22,069 --> 00:50:19,920

the planet with us in a sustainable way

1276

00:50:24,890 --> 00:50:22,079

that makes it difficult for us to detect

1277

00:50:27,170 --> 00:50:24,900

so that's where I start to wonder is are

1278

00:50:29,329 --> 00:50:27,180

those civilizations potentially

1279

00:50:32,569 --> 00:50:29,339

responsible for the technology that was

1280

00:50:34,069 --> 00:50:32,579

transferred to the civilizations that

1281

00:50:35,450 --> 00:50:34,079

were able to build these megalithic

1282

00:50:38,210 --> 00:50:35,460

structures that we see all over the

1283

00:50:40,250 --> 00:50:38,220

world and they just don't want to really

1284

00:50:43,790 --> 00:50:40,260

like the fish the guys dress up as fish

1285

00:50:45,829 --> 00:50:43,800

did they come communicate educate and

1286

00:50:47,510 --> 00:50:45,839

then leave and that was it that was that

1287

00:50:49,670 --> 00:50:47,520

was all they wanted to do they just

1288

00:50:51,950 --> 00:50:49,680

wanted to reach out and say hey and

1289

00:50:53,630 --> 00:50:51,960

enjoy this information and let's see

1290

00:50:56,390 --> 00:50:53,640

what happens so maybe that's the

1291

00:50:57,770 --> 00:50:56,400

connection between UFOs maybe they have

1292

00:51:00,410 --> 00:50:57,780

technology

1293

00:51:02,930 --> 00:51:00,420

that we consider so far in advance of

1294

00:51:04,730 --> 00:51:02,940

ours that it can't be from here and the

1295

00:51:07,430 --> 00:51:04,740

perfect way for them to disguise their

1296

00:51:09,650 --> 00:51:07,440

existence on this planet is for them to

1297

00:51:12,109 --> 00:51:09,660

convince us that they're from Outer

1298

00:51:13,549 --> 00:51:12,119

Space if we're busy looking up and

1299

00:51:15,170 --> 00:51:13,559

assuming that everything's coming from

1300

00:51:16,549 --> 00:51:15,180

outer space there's we're not going to

1301  
00:51:17,870 --> 00:51:16,559  
be looking we're going to assume that

1302  
00:51:20,930 --> 00:51:17,880  
they don't live here on the planet with

1303  
00:51:23,450 --> 00:51:20,940  
us let's talk about Bigfoot we think

1304  
00:51:25,430 --> 00:51:23,460  
that Bigfoot lives on this planet but

1305  
00:51:27,470 --> 00:51:25,440  
they're so good at hiding and avoiding

1306  
00:51:29,690 --> 00:51:27,480  
us that there's no chance or that we we

1307  
00:51:33,770 --> 00:51:29,700  
haven't been able to prove it if that's

1308  
00:51:36,890 --> 00:51:33,780  
a large bipedal primate imagine what a

1309  
00:51:39,470 --> 00:51:36,900  
more advanced intelligence Hume version

1310  
00:51:41,930 --> 00:51:39,480  
of a human would be able to do to keep

1311  
00:51:44,270 --> 00:51:41,940  
themselves hidden from us to use to be

1312  
00:51:47,089 --> 00:51:44,280  
evasive in nature and and we wouldn't be

1313  
00:51:48,829 --> 00:51:47,099

able to detect them until our technology

1314

00:51:50,510 --> 00:51:48,839

advanced to the point where we can I

1315

00:51:53,030 --> 00:51:50,520

don't know update our Radars and start

1316

00:51:56,809 --> 00:51:53,040

detecting things that are in our skies

1317

00:51:58,430 --> 00:51:56,819

that they use to monitor us possibly so

1318

00:52:00,650 --> 00:51:58,440

that's that's where I think

1319

00:52:02,750 --> 00:52:00,660

um and and once again it boils down to

1320

00:52:05,030 --> 00:52:02,760

maybe they were more dominant on the

1321

00:52:07,970 --> 00:52:05,040

planet prior to a catastrophe that

1322

00:52:10,609 --> 00:52:07,980

happened 11 600 years ago

1323

00:52:13,190 --> 00:52:10,619

and then they got reset just like we got

1324

00:52:15,890 --> 00:52:13,200

reset and then we've kind of risen pair

1325

00:52:18,349 --> 00:52:15,900

in a parallel manner to to the point

1326

00:52:21,109 --> 00:52:18,359

where we are today and they just haven't

1327

00:52:23,470 --> 00:52:21,119

advanced in the same way that we have so

1328

00:52:25,910 --> 00:52:23,480

a little bit of rambling there I I I

1329

00:52:28,370 --> 00:52:25,920

admit that but yeah that's where I think

1330

00:52:30,290 --> 00:52:28,380

the UFO and the ancient um

1331

00:52:33,410 --> 00:52:30,300

ancient history kind of blend together

1332

00:52:35,030 --> 00:52:33,420

and who are our gods that are the

1333

00:52:37,370 --> 00:52:35,040

Egyptians talked about who are those

1334

00:52:39,290 --> 00:52:37,380

guys where did they come from is that a

1335

00:52:41,630 --> 00:52:39,300

representation of someone that came and

1336

00:52:43,790 --> 00:52:41,640

taught to them is that a blend of

1337

00:52:46,430 --> 00:52:43,800

civilizations

1338

00:52:47,990 --> 00:52:46,440

that's a you it's funny you put you

1339

00:52:49,910 --> 00:52:48,000

posed a great question in your answer

1340

00:52:51,290 --> 00:52:49,920

right there at the end that's great and

1341

00:52:54,109 --> 00:52:51,300

by the way some people would argue that

1342

00:52:56,349 --> 00:52:54,119

Bigfoot is an offshoot of humans and is

1343

00:52:58,490 --> 00:52:56,359

so intelligent in its environment

1344

00:52:59,750 --> 00:52:58,500

obviously it's not going to perform and

1345

00:53:01,309 --> 00:52:59,760

we discussed this a little last night

1346

00:53:04,430 --> 00:53:01,319

it's not going to perform microsurgery

1347

00:53:06,349 --> 00:53:04,440

but in their the way that they dominate

1348

00:53:10,010 --> 00:53:06,359

in the forest you listen to a guy like

1349

00:53:12,230 --> 00:53:10,020

Les Stroud survivor man and he goes I am

1350

00:53:14,630 --> 00:53:12,240

nowhere near

1351

00:53:16,250 --> 00:53:14,640

um The Woodsman that bigfoots are like

1352

00:53:18,829 --> 00:53:16,260

the way that they're able to operate in

1353

00:53:20,930 --> 00:53:18,839

their environment I'm just you know as a

1354

00:53:22,609 --> 00:53:20,940

human I'm I'm great for a human but

1355

00:53:25,849 --> 00:53:22,619

nothing compared to them if I'm

1356

00:53:27,829 --> 00:53:25,859

paraphrasing what he said so anyway Dave

1357

00:53:29,569 --> 00:53:27,839

uh would you like to tackle that one sir

1358

00:53:31,430 --> 00:53:29,579

yeah I mean Don's answer they very

1359

00:53:33,589 --> 00:53:31,440

eloquently on crypto terrestrials she's

1360

00:53:36,470 --> 00:53:33,599

a big interest of mine so I won't go

1361

00:53:37,910 --> 00:53:36,480

over what he said but what is one thing

1362

00:53:41,870 --> 00:53:37,920

to begin plates I was accountable

1363

00:53:43,430 --> 00:53:41,880

Atlantis uh the Great temple three sets

1364

00:53:45,829 --> 00:53:43,440

a soul on it was pretty I think he was

1365

00:53:47,569 --> 00:53:45,839

his ground great grandfather said to him

1366

00:53:49,490 --> 00:53:47,579

but this is happen many times and each

1367

00:53:51,710 --> 00:53:49,500

time humanity must been again again like

1368

00:53:54,170 --> 00:53:51,720

children so you could see the mileage in

1369

00:53:56,210 --> 00:53:54,180

offshore of human civilization some time

1370

00:53:58,309 --> 00:53:56,220

ago decided to stay on the ground

1371

00:53:59,870 --> 00:53:58,319

because it's too tricky so you could do

1372

00:54:01,190 --> 00:53:59,880

that but they might have been around for

1373

00:54:03,950 --> 00:54:01,200

a long time they might have been around

1374

00:54:05,870 --> 00:54:03,960

for a long time there's also other stuff

1375

00:54:08,630 --> 00:54:05,880

around the stories of elves and stuff at

1376

00:54:10,730 --> 00:54:08,640

Jack ballet mentions fairies and all

1377

00:54:12,470 --> 00:54:10,740

those other connections so I think it's

1378

00:54:14,510 --> 00:54:12,480

quite a strong case really team and

1379

00:54:16,790 --> 00:54:14,520

fully enough those three categories I

1380

00:54:19,130 --> 00:54:16,800

did an article about this last year and

1381

00:54:21,650 --> 00:54:19,140

those three categories of science I did

1382

00:54:24,829 --> 00:54:21,660

came from I think it was it feel

1383

00:54:26,809 --> 00:54:24,839

manipulation uh you know earth power and

1384

00:54:28,490 --> 00:54:26,819

scitec effectively what I'll come out of

1385

00:54:31,730 --> 00:54:28,500

at the end of my look at ancient Tech

1386

00:54:33,109 --> 00:54:31,740

fingerprints I used also linked to all

1387

00:54:35,089 --> 00:54:33,119

the things we see now with the

1388

00:54:37,010 --> 00:54:35,099

phenomenon if you see what I mean so you

1389

00:54:38,809 --> 00:54:37,020

could you could say there's quite a link

1390

00:54:41,569 --> 00:54:38,819

there the other thing of course is

1391

00:54:43,309 --> 00:54:41,579

shamanic stuff and people having the

1392

00:54:45,650 --> 00:54:43,319

tales of people talking to being some

1393

00:54:47,930 --> 00:54:45,660

other sanctions and gods and season it

1394

00:54:50,390 --> 00:54:47,940

could be that side of the phenomenon but

1395

00:54:52,790 --> 00:54:50,400

people have been talking to as well so

1396

00:54:55,849 --> 00:54:52,800

so the only missing factories maybe the

1397

00:54:58,190 --> 00:54:55,859

18 Factor but again there are Tales of

1398

00:55:00,290 --> 00:54:58,200

people the sky people people visiting

1399

00:55:02,690 --> 00:55:00,300

again in which they may well have had

1400

00:55:05,569 --> 00:55:02,700

that same relationship we do so yeah I

1401  
00:55:07,010 --> 00:55:05,579  
think it's all on the table really but I

1402  
00:55:09,230 --> 00:55:07,020  
can definitely see a connection to the

1403  
00:55:11,630 --> 00:55:09,240  
tech we saw in the ancient time and the

1404  
00:55:13,309 --> 00:55:11,640  
technically now the lesson for me is

1405  
00:55:15,170 --> 00:55:13,319  
thought maybe as was in the first

1406  
00:55:17,809 --> 00:55:15,180  
question that's a path we may well be

1407  
00:55:19,609 --> 00:55:17,819  
able to go down but we're missing a step

1408  
00:55:21,710 --> 00:55:19,619  
we've made a wrong turn in our

1409  
00:55:23,870 --> 00:55:21,720  
scientific approach so we're not and it

1410  
00:55:25,549 --> 00:55:23,880  
may be a attack but a lot of people use

1411  
00:55:27,950 --> 00:55:25,559  
you know but if we could harness anyway

1412  
00:55:30,170 --> 00:55:27,960  
yeah so I think Dan sort of got it

1413  
00:55:32,030 --> 00:55:30,180

really I've just added a little bit

1414

00:55:34,970 --> 00:55:32,040

but what's what's interesting though

1415

00:55:36,770 --> 00:55:34,980

Dave is that they have chosen to

1416

00:55:37,609 --> 00:55:36,780

interact with them and not interact with

1417

00:55:51,170 --> 00:55:37,619

us

1418

00:55:53,510 --> 00:55:51,180

throwing that out there

1419

00:55:56,329 --> 00:55:53,520

well well do you mean like the crypto

1420

00:55:58,609 --> 00:55:56,339

crypto is what do they say yeah if they

1421

00:56:00,770 --> 00:55:58,619

help them but they're clearly not trying

1422

00:56:02,630 --> 00:56:00,780

to lead us well well I mean the problem

1423

00:56:05,450 --> 00:56:02,640

is I suppose we're in danger of blowing

1424

00:56:07,250 --> 00:56:05,460

up the same place or polluting and

1425

00:56:08,990 --> 00:56:07,260

killing them all right and they might be

1426

00:56:11,990 --> 00:56:09,000

just trying and if there is a regular

1427

00:56:13,730 --> 00:56:12,000

cataclysm cycle they might just want to

1428

00:56:15,710 --> 00:56:13,740

make sure we don't take them with us

1429

00:56:17,630 --> 00:56:15,720

when we go so they might just want to be

1430

00:56:20,690 --> 00:56:17,640

easing as gently into that good night as

1431

00:56:23,450 --> 00:56:20,700

it were to Quality so that might be what

1432

00:56:24,950 --> 00:56:23,460

it's all about and or it could be and

1433

00:56:26,630 --> 00:56:24,960

the third part of my article was about

1434

00:56:29,329 --> 00:56:26,640

this funnily enough but it could be

1435

00:56:30,950 --> 00:56:29,339

apart from that dystopian view but they

1436

00:56:32,329 --> 00:56:30,960

try to tell us and help us and that's

1437

00:56:35,030 --> 00:56:32,339

what we're seeing at the moment the

1438

00:56:37,370 --> 00:56:35,040

activity in the uip world I mean that is

1439

00:56:39,290 --> 00:56:37,380

massive speculation which I like all of

1440

00:56:41,450 --> 00:56:39,300

this but that company other connection

1441

00:56:43,010 --> 00:56:41,460

maybe they've got to tell us and it may

1442

00:56:44,150 --> 00:56:43,020

even if they didn't want to tell us

1443

00:56:46,190 --> 00:56:44,160

normal and it's not their normal

1444

00:56:48,650 --> 00:56:46,200

practice you just like to see us all die

1445

00:56:52,010 --> 00:56:48,660

and then help us out again but in this

1446

00:56:53,510 --> 00:56:52,020

case with that advanced but we but we've

1447

00:56:55,069 --> 00:56:53,520

had they can't let us go like that

1448

00:56:58,069 --> 00:56:55,079

because we might take them with them so

1449

00:57:00,230 --> 00:56:58,079

that's a potential well you know so uh

1450

00:57:01,849 --> 00:57:00,240

what would it uh Enlighten self-interest

1451

00:57:03,710 --> 00:57:01,859

I think the phrases

1452

00:57:05,809 --> 00:57:03,720

all right let's uh and you know what

1453

00:57:08,089 --> 00:57:05,819

Dave uh send us the link for the article

1454

00:57:10,730 --> 00:57:08,099

it's on Liberation times I'll put that

1455

00:57:12,349 --> 00:57:10,740

in the show notes along with it there's

1456

00:57:13,970 --> 00:57:12,359

another one actually so it's a better

1457

00:57:16,549 --> 00:57:13,980

one it's a more detail on The Liberation

1458

00:57:19,490 --> 00:57:16,559

times one's all right but it was uh it's

1459

00:57:22,010 --> 00:57:19,500

on UK I'll send you the link anyway so

1460

00:57:24,349 --> 00:57:22,020

Ash Ellis's website I think it's UK

1461

00:57:26,329 --> 00:57:24,359

identified that gives you a detailed

1462

00:57:29,270 --> 00:57:26,339

treatment of the stuff so which is

1463

00:57:30,950 --> 00:57:29,280

probably more useful people we will link

1464

00:57:34,190 --> 00:57:30,960

it into the show notes under Dave

1465

00:57:36,170 --> 00:57:34,200

smether's contact info uh Debs you're up

1466

00:57:38,809 --> 00:57:36,180

my friend yeah I'm just really

1467

00:57:41,809 --> 00:57:38,819

interested in how often these structures

1468

00:57:44,030 --> 00:57:41,819

are connected to Star systems

1469

00:57:46,670 --> 00:57:44,040

um interested in what seems to be our

1470

00:57:48,650 --> 00:57:46,680

attempt to always reach the sky

1471

00:57:50,089 --> 00:57:48,660

and I was wondering what your thoughts

1472

00:57:52,069 --> 00:57:50,099

are on that

1473

00:57:53,329 --> 00:57:52,079

so reaching this guy I don't know if we

1474

00:57:56,690 --> 00:57:53,339

were doing that with anything except

1475

00:57:59,390 --> 00:57:56,700

maybe vermana but uh as far as feeling

1476

00:58:02,390 --> 00:57:59,400

connected to the universe I think they

1477

00:58:05,210 --> 00:58:02,400

definitely had a better connection to

1478

00:58:07,490 --> 00:58:05,220

their environment than we do today I we

1479

00:58:09,890 --> 00:58:07,500

most of us that live in cities

1480

00:58:11,870 --> 00:58:09,900

I don't live in the city if you live in

1481

00:58:14,390 --> 00:58:11,880

a city you don't see a lot of stars but

1482

00:58:16,849 --> 00:58:14,400

at night time when there were no street

1483

00:58:18,349 --> 00:58:16,859

lights that was the show that was TV

1484

00:58:20,990 --> 00:58:18,359

that was your phone you would go outside

1485

00:58:22,549 --> 00:58:21,000

and you would stare at the stars and

1486

00:58:23,930 --> 00:58:22,559

wonder I'm sure there was a lot of that

1487

00:58:25,670 --> 00:58:23,940

going on

1488

00:58:28,069 --> 00:58:25,680

um so I think that I think they had a

1489

00:58:29,450 --> 00:58:28,079

particular reverence for that because it

1490

00:58:32,089 --> 00:58:29,460

was

1491

00:58:34,309 --> 00:58:32,099

beyond the ability for them to reach so

1492

00:58:36,589 --> 00:58:34,319

that all they could do was use their

1493

00:58:38,870 --> 00:58:36,599

analytical thought to think about it and

1494

00:58:40,789 --> 00:58:38,880

try to figure out what it means and what

1495

00:58:43,849 --> 00:58:40,799

does it mean to see those things out

1496

00:58:45,890 --> 00:58:43,859

there when we're here on this ground on

1497

00:58:47,930 --> 00:58:45,900

this Earth so I think they were

1498

00:58:49,849 --> 00:58:47,940

basically kind of paying homage to it

1499

00:58:51,650 --> 00:58:49,859

and it became a valuable asset too when

1500

00:58:53,150 --> 00:58:51,660

they started to do things like plant

1501

00:58:55,370 --> 00:58:53,160

crops and they started keeping a

1502

00:58:58,549 --> 00:58:55,380

calendar and then one of the things that

1503

00:59:01,490 --> 00:58:58,559

blows my mind is that the ancient people

1504

00:59:04,089 --> 00:59:01,500

were able to detect that the Earth has a

1505

00:59:07,789 --> 00:59:04,099

wobble to it it's called progression

1506

00:59:09,890 --> 00:59:07,799

procession procession recession and it's

1507

00:59:13,250 --> 00:59:09,900

a wobble in the Earth's axis that

1508

00:59:16,609 --> 00:59:13,260

completes a full cycle every like 26 000

1509

00:59:19,910 --> 00:59:16,619

years so over the course of 72 years the

1510

00:59:21,710 --> 00:59:19,920

stars in the sky shift one degree that

1511

00:59:23,390 --> 00:59:21,720

means and and what was the life

1512

00:59:25,609 --> 00:59:23,400

expectancy of people

1513

00:59:27,650 --> 00:59:25,619

ten thousand years ago seven thousand

1514

00:59:32,089 --> 00:59:27,660

years ago probably not 72 years so how

1515

00:59:34,730 --> 00:59:32,099

did they first of all map the Stars

1516

00:59:38,750 --> 00:59:34,740

second map them so accurately that they

1517

00:59:40,609 --> 00:59:38,760

could detect from in one lifetime or it

1518

00:59:43,430 --> 00:59:40,619

transfer that information to multiple

1519

00:59:45,349 --> 00:59:43,440

lifetimes to see the change in it and

1520

00:59:48,049 --> 00:59:45,359

then calculate how much it was and then

1521

00:59:51,109 --> 00:59:48,059

be able to make adjustments to their

1522

00:59:53,870 --> 00:59:51,119

their information uh accordingly so that

1523

00:59:55,190 --> 00:59:53,880

to me is really telling and that is

1524

00:59:57,349 --> 00:59:55,200

actually a way that they used to date

1525

00:59:59,990 --> 00:59:57,359

some of these sites or

1526

01:00:03,049 --> 01:00:00,000

in in Graham Hancock's case sometimes he

1527

01:00:06,289 --> 01:00:03,059

uses those types of connections to date

1528

01:00:08,390 --> 01:00:06,299

them older than what current archeology

1529

01:00:10,970 --> 01:00:08,400

um attributes to those those particular

1530

01:00:12,410 --> 01:00:10,980

sites so it's it's very interesting that

1531

01:00:13,730 --> 01:00:12,420

they have such a connection with the

1532

01:00:16,069 --> 01:00:13,740

Stars

1533

01:00:17,210 --> 01:00:16,079

um but I also am fascinated by the

1534

01:00:19,490 --> 01:00:17,220

connection that they had to their

1535

01:00:21,950 --> 01:00:19,500

environment on the earth and the biggest

1536

01:00:25,549 --> 01:00:21,960

example to me is the

1537

01:00:27,650 --> 01:00:25,559

um DNT Connection in Ayahuasca how they

1538

01:00:30,770 --> 01:00:27,660

had to find this one plant

1539

01:00:32,809 --> 01:00:30,780

to combine with this other plant that

1540

01:00:35,270 --> 01:00:32,819

allowed the effect to take place and the

1541

01:00:36,890 --> 01:00:35,280

first plant made japuke for a long time

1542

01:00:38,390 --> 01:00:36,900

like why would you take something that

1543

01:00:39,950 --> 01:00:38,400

makes you feel so bad and then turn

1544

01:00:42,109 --> 01:00:39,960

around and take something else and it

1545

01:00:45,470 --> 01:00:42,119

gave you this enlightening experience

1546

01:00:47,690 --> 01:00:45,480

like how did they determine that those

1547

01:00:48,890 --> 01:00:47,700

things work together I know a lot of

1548

01:00:50,990 --> 01:00:48,900

people are just going to say trial and

1549

01:00:52,250 --> 01:00:51,000

error but I've seen the numbers I can't

1550

01:00:55,250 --> 01:00:52,260

remember what they are right now but

1551

01:00:56,750 --> 01:00:55,260

it's like a bajillion to one chance that

1552

01:01:00,770 --> 01:00:56,760

they'd be able to find the combination

1553

01:01:03,530 --> 01:01:00,780

of the plant the process the consumption

1554

01:01:06,170 --> 01:01:03,540

and then the repeat that again with the

1555

01:01:07,730 --> 01:01:06,180

with the second half of it of the

1556

01:01:10,190 --> 01:01:07,740

equation to make it actually be

1557

01:01:13,010 --> 01:01:10,200

effective so how did they know what how

1558

01:01:15,589 --> 01:01:13,020

were they able to to deduce this

1559

01:01:18,109 --> 01:01:15,599

formula without the the use of

1560

01:01:20,150 --> 01:01:18,119

microscope so that's the use of a

1561

01:01:22,069 --> 01:01:20,160

chemical industry that we have right now

1562

01:01:24,289 --> 01:01:22,079

it's amazing to me that they had this

1563

01:01:26,569 --> 01:01:24,299

connection with our planet and it

1564

01:01:29,329 --> 01:01:26,579

extended into the stars and we don't

1565

01:01:30,829 --> 01:01:29,339

have that right now that's what I want I

1566

01:01:32,690 --> 01:01:30,839

want us to get back to the point where

1567

01:01:34,609 --> 01:01:32,700

we do have that connection with our

1568

01:01:37,609 --> 01:01:34,619

environment and we will learn things

1569

01:01:39,109 --> 01:01:37,619

that we have just overlooked I think

1570

01:01:42,230 --> 01:01:39,119

we've become the disconnected

1571

01:01:45,109 --> 01:01:42,240

spiritually from our planet and there's

1572

01:01:47,170 --> 01:01:45,119

a lot that we stand to gain by trying to

1573

01:01:50,809 --> 01:01:47,180

re-establish that connection

1574

01:01:53,710 --> 01:01:50,819

amen say it again brother now I'm out of

1575

01:01:57,049 --> 01:01:53,720

words I gotta take it right

1576

01:01:58,849 --> 01:01:57,059

uh Dave Smathers yeah he's a really

1577

01:02:00,589 --> 01:01:58,859

interesting question that I don't know

1578

01:02:02,809 --> 01:02:00,599

because those are these ancient sites

1579

01:02:04,430 --> 01:02:02,819

they're aligned well you've got they're

1580

01:02:07,069 --> 01:02:04,440

aligned to a lot of different star

1581

01:02:08,990 --> 01:02:07,079

systems particularly in Malta and it

1582

01:02:10,670 --> 01:02:09,000

will all over the place all over all

1583

01:02:12,049 --> 01:02:10,680

over the globe they're aligned and I

1584

01:02:14,270 --> 01:02:12,059

don't know the answer to that question

1585

01:02:16,430 --> 01:02:14,280

clearly what are the implications is

1586

01:02:17,750 --> 01:02:16,440

that there's some sole homage to some

1587

01:02:20,030 --> 01:02:17,760

contact with extraterrestrial

1588

01:02:22,130 --> 01:02:20,040

civilizations or something like that but

1589

01:02:24,710 --> 01:02:22,140

I don't think anyone's definitively

1590

01:02:25,809 --> 01:02:24,720

answered that that question globeki Tepe

1591

01:02:28,609 --> 01:02:25,819

was a right

1592

01:02:32,150 --> 01:02:28,619

to some other ones it's serious

1593

01:02:33,349 --> 01:02:32,160

just Draco and uh Ryan's Belt obviously

1594

01:02:35,630 --> 01:02:33,359

the Great Pyramids are built like

1595

01:02:37,430 --> 01:02:35,640

Orion's Belt so that's interesting so I

1596

01:02:39,230 --> 01:02:37,440

I don't really know the answer to that

1597

01:02:42,349 --> 01:02:39,240

because it could imply some sort of link

1598

01:02:44,870 --> 01:02:42,359

again to the star people or it could be

1599

01:02:46,970 --> 01:02:44,880

something else in their belief system uh

1600

01:02:48,710 --> 01:02:46,980

you know or maybe it could be a warning

1601  
01:02:50,569 --> 01:02:48,720  
for us I suppose as well that could be

1602  
01:02:53,270 --> 01:02:50,579  
that you know like leaving us a warning

1603  
01:02:55,130 --> 01:02:53,280  
but we can't ignore but as Dan was

1604  
01:02:56,809 --> 01:02:55,140  
saying the agents had a brilliant uh

1605  
01:02:58,910 --> 01:02:56,819  
knowledge of Sumerians and a fantastic

1606  
01:03:00,829 --> 01:02:58,920  
knowledge of star systems some of which

1607  
01:03:02,750 --> 01:03:00,839  
we can't see today so how did you do

1608  
01:03:05,210 --> 01:03:02,760  
that if we couldn't see him that would

1609  
01:03:06,829 --> 01:03:05,220  
imply passed on by a more sophisticated

1610  
01:03:09,410 --> 01:03:06,839  
Tech like you said they've got a

1611  
01:03:11,770 --> 01:03:09,420  
knowledge of possession you know uh one

1612  
01:03:14,510 --> 01:03:11,780  
of the precession numbers is 40 the

1613  
01:03:16,670 --> 01:03:14,520

pyramid is a scale model of the Earth or

1614

01:03:18,829 --> 01:03:16,680

the top half of the Earth and if you

1615

01:03:20,390 --> 01:03:18,839

divide it by 44 and that's one of the

1616

01:03:22,910 --> 01:03:20,400

processional numbers you see these

1617

01:03:24,230 --> 01:03:22,920

processional numbers they tend to loads

1618

01:03:26,990 --> 01:03:24,240

of different buildings and these

1619

01:03:29,390 --> 01:03:27,000

relationships to such an extent I think

1620

01:03:30,950 --> 01:03:29,400

it's beyond coincidence I mean I know

1621

01:03:33,289 --> 01:03:30,960

down it sound sounds like others and

1622

01:03:35,270 --> 01:03:33,299

other things you've got the Mayans who

1623

01:03:37,010 --> 01:03:35,280

had this great knowledge of eclipses and

1624

01:03:39,170 --> 01:03:37,020

again these massive calendars going back

1625

01:03:41,030 --> 01:03:39,180

out into doing that it was a tribe who's

1626  
01:03:42,829 --> 01:03:41,040  
never forget they did a dance showing

1627  
01:03:43,970 --> 01:03:42,839  
but he knew Draco which is a thing they

1628  
01:03:46,250 --> 01:03:43,980  
couldn't see

1629  
01:03:48,049 --> 01:03:46,260  
anyway so it's a very old knowledge

1630  
01:03:50,930 --> 01:03:48,059  
system there's also knowledge that we've

1631  
01:03:54,410 --> 01:03:50,940  
mapped the Earth ancient maps show that

1632  
01:03:56,510 --> 01:03:54,420  
the you know the longitude there's also

1633  
01:03:58,609 --> 01:03:56,520  
knowledge of around the measurement

1634  
01:04:00,230 --> 01:03:58,619  
scales showing knowledge of the precise

1635  
01:04:02,329 --> 01:04:00,240  
dimensions of the Earth

1636  
01:04:03,650 --> 01:04:02,339  
anyway I'm going to start going into all

1637  
01:04:06,109 --> 01:04:03,660  
that but the point is

1638  
01:04:07,970 --> 01:04:06,119

but they're all indications of much

1639

01:04:10,910 --> 01:04:07,980

greater Technical and scientific

1640

01:04:12,049 --> 01:04:10,920

knowledge so I do wonder why they have

1641

01:04:13,130 --> 01:04:12,059

these alignments if it's one of those

1642

01:04:14,690 --> 01:04:13,140

things it's a really good question

1643

01:04:16,250 --> 01:04:14,700

because it really pauses me and I

1644

01:04:18,829 --> 01:04:16,260

haven't got a good answer to it because

1645

01:04:20,630 --> 01:04:18,839

none of the answers I've just given you

1646

01:04:21,650 --> 01:04:20,640

it's quite convincing if you see what I

1647

01:04:23,569 --> 01:04:21,660

mean

1648

01:04:25,370 --> 01:04:23,579

that's that's what we're here we're here

1649

01:04:26,990 --> 01:04:25,380

to ruminate on all this so we're gonna

1650

01:04:31,069 --> 01:04:27,000

make sure we get a last question by

1651

01:04:32,510 --> 01:04:31,079

everybody uh Mr Frank Jones

1652

01:04:35,210 --> 01:04:32,520

yeah

1653

01:04:37,190 --> 01:04:35,220

the drama I don't know why I always did

1654

01:04:39,589 --> 01:04:37,200

I think you know the first time I was on

1655

01:04:41,210 --> 01:04:39,599

Camp we did the uh The Beatles thing so

1656

01:04:43,089 --> 01:04:41,220

I always feel inclined to do a scout

1657

01:04:46,069 --> 01:04:43,099

accent

1658

01:04:48,410 --> 01:04:46,079

I've got half my family are in Liverpool

1659

01:04:50,630 --> 01:04:48,420

so uh nobody take offense I hope that

1660

01:04:51,890 --> 01:04:50,640

I'm doing the scouts action uh but yeah

1661

01:04:53,930 --> 01:04:51,900

it's kind of something that you've

1662

01:04:56,450 --> 01:04:53,940

you've all touched on a little bit

1663

01:05:00,109 --> 01:04:56,460

um as you've been going along is is the

1664

01:05:02,210 --> 01:05:00,119

you know the inexplicable accuracy and

1665

01:05:04,309 --> 01:05:02,220

the huge objects and things like that in

1666

01:05:06,530 --> 01:05:04,319

the Sarah pm and whatnot

1667

01:05:08,390 --> 01:05:06,540

I was actually watching

1668

01:05:10,190 --> 01:05:08,400

um I think it was actually The Joe Rogan

1669

01:05:12,770 --> 01:05:10,200

episode that you talked about Dan the

1670

01:05:14,870 --> 01:05:12,780

one with um Ben from Uncharted x with

1671

01:05:17,690 --> 01:05:14,880

the Jimmy corsetti I think his name is

1672

01:05:20,089 --> 01:05:17,700

and there was a bit in there where

1673

01:05:22,430 --> 01:05:20,099

Ben was talking about the accuracy of

1674

01:05:24,289 --> 01:05:22,440

some of these uh I think it was a vars

1675

01:05:25,910 --> 01:05:24,299

that they actually had

1676  
01:05:29,630 --> 01:05:25,920  
um analyzed with like a structured light

1677  
01:05:31,730 --> 01:05:29,640  
analysis and um apparently the the

1678  
01:05:35,569 --> 01:05:31,740  
actual measurements are accurate to

1679  
01:05:37,370 --> 01:05:35,579  
within a thousandth of an inch and he

1680  
01:05:40,250 --> 01:05:37,380  
actually I wrote this down because it

1681  
01:05:42,349 --> 01:05:40,260  
blew my mind a sheet of paper is

1682  
01:05:44,990 --> 01:05:42,359  
actually about seven thousands of an

1683  
01:05:47,390 --> 01:05:45,000  
inch thick and a human hair is two to

1684  
01:05:48,890 --> 01:05:47,400  
three thousands of an inch thick and

1685  
01:05:50,390 --> 01:05:48,900  
these things were accurate to you know

1686  
01:05:52,970 --> 01:05:50,400  
within a thousands of an inch it really

1687  
01:05:55,670 --> 01:05:52,980  
underlines how unbelievably accurate you

1688  
01:05:57,710 --> 01:05:55,680

know it was and you also think about

1689

01:05:59,690 --> 01:05:57,720

the size of some of these objects and

1690

01:06:02,270 --> 01:05:59,700

how they're moved around and the the

1691

01:06:04,670 --> 01:06:02,280

walls in Machu Picchu is it with the

1692

01:06:06,829 --> 01:06:04,680

interlocking huge blocks I'm just

1693

01:06:09,410 --> 01:06:06,839

wondering if you guys have like a

1694

01:06:12,289 --> 01:06:09,420

hypothesis about what type of technology

1695

01:06:15,170 --> 01:06:12,299

that we're actually using to to do this

1696

01:06:16,490 --> 01:06:15,180

because it's just it seems unbelievable

1697

01:06:18,170 --> 01:06:16,500

that they'll be able to do that all

1698

01:06:19,730 --> 01:06:18,180

those thousands of years ago you know

1699

01:06:22,130 --> 01:06:19,740

there's obviously perhaps like a

1700

01:06:24,770 --> 01:06:22,140

resonance type of Technology like some

1701

01:06:27,470 --> 01:06:24,780

kind of machines or maybe even like a

1702

01:06:28,910 --> 01:06:27,480

Consciousness aspect to it somehow so

1703

01:06:30,470 --> 01:06:28,920

yeah just wonder what you guys thoughts

1704

01:06:33,230 --> 01:06:30,480

are on that

1705

01:06:35,630 --> 01:06:33,240

man let's up everybody's damn 401K with

1706

01:06:37,730 --> 01:06:35,640

questions like this man go ahead all

1707

01:06:39,770 --> 01:06:37,740

right so I I'm real familiar with those

1708

01:06:41,930 --> 01:06:39,780

vases or vases that you're talking about

1709

01:06:43,370 --> 01:06:41,940

and they're supposed to have been made

1710

01:06:47,210 --> 01:06:43,380

by hand

1711

01:06:50,750 --> 01:06:47,220

I can grab a tube of Play-Doh and try to

1712

01:06:53,029 --> 01:06:50,760

make something Square looks terrible by

1713

01:06:55,549 --> 01:06:53,039

hand like so that so for me to believe

1714

01:06:57,890 --> 01:06:55,559

that they can make these things as

1715

01:06:59,809 --> 01:06:57,900

accurate as they did and it's not just

1716

01:07:03,230 --> 01:06:59,819

that they made them like a surface is

1717

01:07:04,609 --> 01:07:03,240

flat they made them flat in relation to

1718

01:07:07,789 --> 01:07:04,619

each other so there's something called

1719

01:07:09,710 --> 01:07:07,799

geometric tolerancing where if you have

1720

01:07:12,349 --> 01:07:09,720

a vertical surface and you have a

1721

01:07:13,910 --> 01:07:12,359

horizontal surface for example if they

1722

01:07:17,450 --> 01:07:13,920

are 90 degrees apart from each other

1723

01:07:19,730 --> 01:07:17,460

that's a geometrical reference so the

1724

01:07:21,650 --> 01:07:19,740

the dimensions the parallel lines

1725

01:07:23,450 --> 01:07:21,660

between the bottom and the top of these

1726  
01:07:26,210 --> 01:07:23,460  
vases is what you're talking about like

1727  
01:07:29,630 --> 01:07:26,220  
the Precision between

1728  
01:07:31,309 --> 01:07:29,640  
parts of these vases that are that are

1729  
01:07:33,890 --> 01:07:31,319  
distance from each other it's just

1730  
01:07:35,510 --> 01:07:33,900  
ridiculously accurate and over the top

1731  
01:07:39,170 --> 01:07:35,520  
for something that is just supposed to

1732  
01:07:41,029 --> 01:07:39,180  
be used for storing flour or who knows

1733  
01:07:42,829 --> 01:07:41,039  
what they were using them for and

1734  
01:07:44,569 --> 01:07:42,839  
there's so many of them too that's one

1735  
01:07:47,029 --> 01:07:44,579  
of the other aspects of it but something

1736  
01:07:48,829 --> 01:07:47,039  
else that shouldn't be glossed over is

1737  
01:07:51,650 --> 01:07:48,839  
the hardness of the stone that was used

1738  
01:07:54,349 --> 01:07:51,660

to produce these things they are very

1739

01:07:55,910 --> 01:07:54,359

hard on the moh scale which is just how

1740

01:07:58,370 --> 01:07:55,920

you determine how hard something is

1741

01:08:02,329 --> 01:07:58,380

diamonds being the hardest Plato being

1742

01:08:05,329 --> 01:08:02,339

the softest and so there's just a that

1743

01:08:08,630 --> 01:08:05,339

factor of it and then the thinness of

1744

01:08:10,309 --> 01:08:08,640

the vases of the walls themselves so

1745

01:08:11,630 --> 01:08:10,319

they were able to make to form the

1746

01:08:13,309 --> 01:08:11,640

outside of it and then they have to

1747

01:08:15,470 --> 01:08:13,319

remove the material from the inside of

1748

01:08:17,990 --> 01:08:15,480

it and get it to the point where it was

1749

01:08:20,990 --> 01:08:18,000

as thin so you could see light like

1750

01:08:23,090 --> 01:08:21,000

flashlight through it it's just amazing

1751

01:08:25,430 --> 01:08:23,100

that they were able to do that thing

1752

01:08:27,709 --> 01:08:25,440

um I'm rambling on about these vases and

1753

01:08:30,890 --> 01:08:27,719

I think I've forgot question can you

1754

01:08:32,390 --> 01:08:30,900

help me with that again I'm sorry yes no

1755

01:08:34,249 --> 01:08:32,400

that's cool man not really interesting

1756

01:08:36,590 --> 01:08:34,259

it's not rambly but the question was

1757

01:08:38,450 --> 01:08:36,600

just like what kind of techno technology

1758

01:08:40,130 --> 01:08:38,460

and it would have been that they would

1759

01:08:42,829 --> 01:08:40,140

have been able to create that level of

1760

01:08:44,930 --> 01:08:42,839

accuracy so my my brother actually asked

1761

01:08:46,970 --> 01:08:44,940

me a question similar to this last week

1762

01:08:49,249 --> 01:08:46,980

and I was kind of stumped because he was

1763

01:08:51,709 --> 01:08:49,259

like Hey if if these people were making

1764

01:08:53,390 --> 01:08:51,719

tools or making tools that were able to

1765

01:08:55,130 --> 01:08:53,400

produce these products that were so

1766

01:08:57,410 --> 01:08:55,140

Advanced how come we haven't been

1767

01:08:58,970 --> 01:08:57,420

finding the tools so that made me think

1768

01:09:01,309 --> 01:08:58,980

that's a good question because you have

1769

01:09:04,010 --> 01:09:01,319

to use something harder than the

1770

01:09:06,169 --> 01:09:04,020

material you're working to be able to

1771

01:09:07,729 --> 01:09:06,179

manipulate it and and change it so that

1772

01:09:09,769 --> 01:09:07,739

means that you got to use Diamond to cut

1773

01:09:12,410 --> 01:09:09,779

Granite you got to use harder materials

1774

01:09:14,030 --> 01:09:12,420

to cut softer materials so why wouldn't

1775

01:09:17,090 --> 01:09:14,040

they have survived why wouldn't we have

1776

01:09:20,870 --> 01:09:17,100

found them that is a very valid question

1777

01:09:23,269 --> 01:09:20,880

and so what what I always go to is

1778

01:09:25,789 --> 01:09:23,279

um maybe they're older than we realized

1779

01:09:29,450 --> 01:09:25,799

and they were so valuable and um

1780

01:09:32,030 --> 01:09:29,460

that they got reused repurposed or maybe

1781

01:09:37,249 --> 01:09:32,040

they got buried maybe that's what the

1782

01:09:38,809 --> 01:09:37,259

big the chambers the bull coffins uh

1783

01:09:41,030 --> 01:09:38,819

I'm forgetting this I want to say in

1784

01:09:42,650 --> 01:09:41,040

Sakara but I can't the mother down in

1785

01:09:44,450 --> 01:09:42,660

the depths of the earth that we talked

1786

01:09:46,010 --> 01:09:44,460

about in the beginning uh maybe that's

1787

01:09:47,269 --> 01:09:46,020

what they did maybe they stored their

1788

01:09:48,950 --> 01:09:47,279

Tools in there maybe those are giant

1789

01:09:51,289 --> 01:09:48,960

toolboxes and we just don't realize it

1790

01:09:54,050 --> 01:09:51,299

but I don't know where it is if you

1791

01:09:55,790 --> 01:09:54,060

watch Brian Forrester videos that guy

1792

01:09:58,130 --> 01:09:55,800

has done some excellent work on trying

1793

01:10:00,890 --> 01:09:58,140

to establish what types of tools were

1794

01:10:04,070 --> 01:10:00,900

used there are circular saw marks that

1795

01:10:06,709 --> 01:10:04,080

be it would be an indication of a

1796

01:10:09,650 --> 01:10:06,719

saw like a I think he said it was like a

1797

01:10:11,209 --> 01:10:09,660

two foot diameter or radius saw blade

1798

01:10:13,970 --> 01:10:11,219

that would have been used to slice some

1799

01:10:16,130 --> 01:10:13,980

of these Limestone blocks in Egypt so I

1800

01:10:17,810 --> 01:10:16,140

think that's a possibility I also think

1801

01:10:19,430 --> 01:10:17,820

that these things could be so old that

1802

01:10:23,270 --> 01:10:19,440

the tools that were used decayed over

1803

01:10:25,669 --> 01:10:23,280

time as well so who I don't know is my

1804

01:10:27,590 --> 01:10:25,679

final answer I guess I'll say

1805

01:10:29,209 --> 01:10:27,600

no that's I also want to ask when are

1806

01:10:32,810 --> 01:10:29,219

you and your family going to Machu

1807

01:10:34,570 --> 01:10:32,820

Picchu Dan uh next Sprint and I I don't

1808

01:10:37,970 --> 01:10:34,580

have any plans on going anytime soon

1809

01:10:39,290 --> 01:10:37,980

come on man you need to go you need to

1810

01:10:41,570 --> 01:10:39,300

go David

1811

01:10:43,910 --> 01:10:41,580

yeah I I think they use the combination

1812

01:10:46,490 --> 01:10:43,920

of Sonics and electromagnetics to do it

1813

01:10:48,050 --> 01:10:46,500

particularly Sonics and the distributed

1814

01:10:49,729 --> 01:10:48,060

the atomic structure of the things today

1815

01:10:52,130 --> 01:10:49,739

because some of those vases you couldn't

1816

01:10:54,530 --> 01:10:52,140

get any tool into doing so I think it

1817

01:10:56,450 --> 01:10:54,540

was like some sort of manipulated Force

1818

01:10:58,550 --> 01:10:56,460

mainly Sonic because I think they use

1819

01:11:00,530 --> 01:10:58,560

Sonic's for lived in as well along with

1820

01:11:01,910 --> 01:11:00,540

electron magnets and they used they

1821

01:11:04,729 --> 01:11:01,920

could force that they're like 3D

1822

01:11:06,169 --> 01:11:04,739

printing only control it and actually

1823

01:11:07,669 --> 01:11:06,179

drill them out like that and I think

1824

01:11:10,310 --> 01:11:07,679

they used a load of things like that in

1825

01:11:12,649 --> 01:11:10,320

those big caves in China were very well

1826

01:11:15,410 --> 01:11:12,659

look very well machined is that it's

1827

01:11:17,330 --> 01:11:15,420

almost like they've blasted the atomic

1828

01:11:19,490 --> 01:11:17,340

particles out of there there wasn't much

1829

01:11:21,350 --> 01:11:19,500

debris as well apparently from them and

1830

01:11:23,810 --> 01:11:21,360

again you can see the marks that so I

1831

01:11:25,790 --> 01:11:23,820

think they were using feel things to do

1832

01:11:27,830 --> 01:11:25,800

a lot of The Cutting I also did write

1833

01:11:29,810 --> 01:11:27,840

about big waves there's loads of

1834

01:11:32,030 --> 01:11:29,820

evidence of like industrial waves on the

1835

01:11:33,590 --> 01:11:32,040

statues a lot of those statues that

1836

01:11:36,649 --> 01:11:33,600

they've got are so precise Crystal

1837

01:11:38,570 --> 01:11:36,659

Network and that we we could hardly do

1838

01:11:40,430 --> 01:11:38,580

it today you've got to use decent lathe

1839

01:11:42,350 --> 01:11:40,440

some of them are settled file views as

1840

01:11:45,229 --> 01:11:42,360

well on the cut like they've been on a

1841

01:11:47,270 --> 01:11:45,239

lathe so that's some tech you know you

1842

01:11:49,070 --> 01:11:47,280

know for them to be able

1843

01:11:51,709 --> 01:11:49,080

to do that so I think it's a combination

1844

01:11:54,110 --> 01:11:51,719

of sort of good machines in second and

1845

01:11:56,870 --> 01:11:54,120

use of Sonics and things and levitation

1846

01:11:58,370 --> 01:11:56,880

through that of course we haven't seen I

1847

01:11:59,689 --> 01:11:58,380

do think some metal tools would have

1848

01:12:01,669 --> 01:11:59,699

perished by now though that's one

1849

01:12:03,649 --> 01:12:01,679

argument about the tools you wouldn't

1850

01:12:06,709 --> 01:12:03,659

have lasted as long as the stone as well

1851

01:12:08,270 --> 01:12:06,719

it's interesting in Sakara just to get

1852

01:12:10,070 --> 01:12:08,280

back to things getting older that which

1853

01:12:12,229 --> 01:12:10,080

was whipping as a permanent Dozer they

1854

01:12:13,729 --> 01:12:12,239

found all those vases thousands of them

1855

01:12:15,110 --> 01:12:13,739

they've never found them again they

1856

01:12:17,270 --> 01:12:15,120

never appeared again they were just

1857

01:12:20,330 --> 01:12:17,280

obviously collected by the old them king

1858

01:12:21,709 --> 01:12:20,340

of pharaoh shoved down there and we you

1859

01:12:24,050 --> 01:12:21,719

know and they were from an older time

1860

01:12:26,930 --> 01:12:24,060

and again they never were replicated

1861

01:12:28,669 --> 01:12:26,940

once again evidencing their existence

1862

01:12:30,950 --> 01:12:28,679

but that's what I think it is Frank I

1863

01:12:33,649 --> 01:12:30,960

think they were manipulating Sonics on

1864

01:12:34,729 --> 01:12:33,659

it because particularly those bars I

1865

01:12:36,350 --> 01:12:34,739

can't understand that they could have

1866

01:12:37,970 --> 01:12:36,360

done that with a tool and I think

1867

01:12:39,770 --> 01:12:37,980

there's something like 3D printing

1868

01:12:42,350 --> 01:12:39,780

probably going on to get there as well

1869

01:12:43,970 --> 01:12:42,360

and I did wonder and that was where the

1870

01:12:45,709 --> 01:12:43,980

psionic stuff going which is really

1871

01:12:48,410 --> 01:12:45,719

going out on the limb and I'm already

1872

01:12:51,229 --> 01:12:48,420

out in about four hours uh with all this

1873

01:12:53,030 --> 01:12:51,239

uh you know uh where some of the size

1874

01:12:55,610 --> 01:12:53,040

stuff could have manipulated the field

1875

01:12:57,470 --> 01:12:55,620

of the where the force went and all the

1876

01:12:59,870 --> 01:12:57,480

rest of it which may be taken a bit far

1877

01:13:01,070 --> 01:12:59,880

but just one last thing about this stuff

1878

01:13:03,350 --> 01:13:01,080

the lives

1879

01:13:05,090 --> 01:13:03,360

so the thinking is that someone else

1880

01:13:06,890 --> 01:13:05,100

sophisticated statues that you can tell

1881

01:13:08,990 --> 01:13:06,900

are exactly symmetrical and perfectly

1882

01:13:11,090 --> 01:13:09,000

machined we're actually from the older

1883

01:13:13,430 --> 01:13:11,100

civilizations and the Egyptians

1884

01:13:15,709 --> 01:13:13,440

repurposed them as their statues so when

1885

01:13:17,510 --> 01:13:15,719

you're looking at those on the Telly on

1886

01:13:19,910 --> 01:13:17,520

the temples or in the thing you might

1887

01:13:21,410 --> 01:13:19,920

actually be looking at how these older

1888

01:13:23,570 --> 01:13:21,420

civilizations were dressed without

1889

01:13:25,610 --> 01:13:23,580

knowing it you might be looking at them

1890

01:13:27,950 --> 01:13:25,620

directly which always blows my head up

1891

01:13:29,990 --> 01:13:27,960

when I think about that

1892

01:13:32,390 --> 01:13:30,000

I'll tell you what

1893

01:13:34,910 --> 01:13:32,400

um I was thinking Jules and I were

1894

01:13:37,729 --> 01:13:34,920

thinking at the same time the same thing

1895

01:13:38,510 --> 01:13:37,739

is about as edlas galnin if that's his

1896

01:13:39,130 --> 01:13:38,520

name

1897

01:13:41,810 --> 01:13:39,140

um

1898

01:13:43,370 --> 01:13:41,820

thank you yeah the Coral Castle in

1899

01:13:45,709 --> 01:13:43,380

Homestead

1900

01:13:48,410 --> 01:13:45,719

um so this is coming from someone who

1901

01:13:52,189 --> 01:13:48,420

has not done the work that uh Dave

1902

01:13:55,130 --> 01:13:52,199

smothers and Dan Dan Warren have done I

1903

01:13:59,390 --> 01:13:55,140

think that he used the same process that

1904

01:14:01,910 --> 01:13:59,400

they used in ancient Egypt but he set up

1905

01:14:05,270 --> 01:14:01,920

a couple of those tripods as a ruse

1906

01:14:08,270 --> 01:14:05,280

because they were not well placed to be

1907

01:14:11,750 --> 01:14:08,280

able to lift and move the rocks that

1908

01:14:14,510 --> 01:14:11,760

were the size that he moved uh is my

1909

01:14:16,790 --> 01:14:14,520

opinion uh on that but you know what I

1910

01:14:18,590 --> 01:14:16,800

want to let Davey get his question in

1911

01:14:20,330 --> 01:14:18,600

there and then we'll we'll get to

1912

01:14:22,970 --> 01:14:20,340

jules's question about that so let's

1913

01:14:25,250 --> 01:14:22,980

let's revisit that in a second but Davey

1914

01:14:28,310 --> 01:14:25,260

please go ahead my friend absolutely and

1915

01:14:31,189 --> 01:14:28,320

I I love Dave's comments around

1916

01:14:33,350 --> 01:14:31,199

Sonics and using electromagnetics and

1917

01:14:36,649 --> 01:14:33,360

it's certainly anybody

1918

01:14:38,390 --> 01:14:36,659

who hasn't done should Google the robot

1919

01:14:40,910 --> 01:14:38,400

that they've just melted

1920

01:14:42,709 --> 01:14:40,920

and reformed using electromagnetics at

1921

01:14:44,330 --> 01:14:42,719

Carnegie Mellon

1922

01:14:46,910 --> 01:14:44,340

we're starting to do it now with certain

1923

01:14:48,290 --> 01:14:46,920

Metals let's say maybe earlier

1924

01:14:50,209 --> 01:14:48,300

civilizations were doing it with other

1925

01:14:52,790 --> 01:14:50,219

substances

1926

01:14:54,890 --> 01:14:52,800

um so my question is

1927

01:14:57,470 --> 01:14:54,900

you're probably familiar with the likes

1928

01:15:00,050 --> 01:14:57,480

of Ley lines and dragon paths or Spirit

1929

01:15:01,850 --> 01:15:00,060

lines as the Incas called them a as the

1930

01:15:03,410 --> 01:15:01,860

Aboriginal Australians call them song

1931

01:15:06,110 --> 01:15:03,420

lines

1932

01:15:08,689 --> 01:15:06,120

do you place any Credence in possible

1933

01:15:10,610 --> 01:15:08,699

energy lines aligning with these

1934

01:15:12,410 --> 01:15:10,620

buildings that being part of this

1935

01:15:13,970 --> 01:15:12,420

ancient civilization or ancient

1936

01:15:16,310 --> 01:15:13,980

structures

1937

01:15:19,490 --> 01:15:16,320

I don't think that it would make it

1938

01:15:22,970 --> 01:15:19,500

particularly easier to manufacture the

1939

01:15:24,950 --> 01:15:22,980

stone and stack the stone but I'm not

1940

01:15:27,590 --> 01:15:24,960

super familiar with the Ley lines and

1941

01:15:30,770 --> 01:15:27,600

what people uh purport that they're able

1942

01:15:35,149 --> 01:15:30,780

to help Humanity with do I think there

1943

01:15:37,490 --> 01:15:35,159

are sinners of increased energy in

1944

01:15:39,950 --> 01:15:37,500

around the globe yeah I think that's an

1945

01:15:41,689 --> 01:15:39,960

actual factual thing how to prove that I

1946

01:15:43,910 --> 01:15:41,699

don't know if anyone has I don't know

1947

01:15:46,010 --> 01:15:43,920

but I think that also would contribute

1948

01:15:48,729 --> 01:15:46,020

to some of the

1949

01:15:51,649 --> 01:15:48,739

stranger aspects of

1950

01:15:54,890 --> 01:15:51,659

life on our planet that could

1951

01:15:56,450 --> 01:15:54,900

potentially be impacted by that

1952

01:15:58,910 --> 01:15:56,460

particular

1953

01:16:01,850 --> 01:15:58,920

energy like when we talk about portals

1954

01:16:04,790 --> 01:16:01,860

earlier maybe that's the energy at those

1955

01:16:06,649 --> 01:16:04,800

Ley lines where they cross maybe it is

1956

01:16:09,410 --> 01:16:06,659

magnified and someone has figured out a

1957

01:16:12,229 --> 01:16:09,420

way to manipulate it to benefit them so

1958

01:16:15,709 --> 01:16:12,239

as far as what those things or how those

1959

01:16:17,990 --> 01:16:15,719

Ley lines are valuable to humanity I I

1960

01:16:20,570 --> 01:16:18,000

don't have a lot of guesses on that one

1961

01:16:22,910 --> 01:16:20,580

unfortunately right now but the the

1962

01:16:23,930 --> 01:16:22,920

dowel rod trick where they can find

1963

01:16:27,290 --> 01:16:23,940

water

1964

01:16:30,770 --> 01:16:27,300

uh using two sticks makes me think that

1965

01:16:32,209 --> 01:16:30,780

if water crossing under traveling in a

1966

01:16:34,030 --> 01:16:32,219

stream underneath the ground can

1967

01:16:37,610 --> 01:16:34,040

manipulate sticks above the ground

1968

01:16:41,510 --> 01:16:37,620

whatever the leyline energy is and

1969

01:16:43,370 --> 01:16:41,520

represents can change things above above

1970

01:16:45,830 --> 01:16:43,380

that area as well so it may it would

1971

01:16:49,130 --> 01:16:45,840

make sense to me that there is an impact

1972

01:16:50,750 --> 01:16:49,140

on the surface from what's going on at

1973

01:16:53,090 --> 01:16:50,760

those areas but I don't know what it is

1974

01:16:55,130 --> 01:16:53,100

I haven't dug into that too deeply to be

1975

01:16:59,390 --> 01:16:55,140

honest

1976

01:17:01,550 --> 01:16:59,400

yeah I was going to say uh uh Dave that

1977

01:17:02,930 --> 01:17:01,560

as far as the centers of energy isn't

1978

01:17:05,390 --> 01:17:02,940

that where you're hiding in that church

1979

01:17:10,270 --> 01:17:05,400

in Scotland you got that that that cup

1980

01:17:15,110 --> 01:17:13,070

yeah I mean getting back to like that

1981

01:17:18,350 --> 01:17:15,120

just that Coral Castle guy he actually

1982

01:17:19,970 --> 01:17:18,360

said but uh he said it guys I worked out

1983

01:17:22,130 --> 01:17:19,980

the ancient Egyptians have done it

1984

01:17:24,050 --> 01:17:22,140

already knew however they knew and it

1985

01:17:25,370 --> 01:17:24,060

was we fundamentally misunderstood the

1986

01:17:27,169 --> 01:17:25,380

nature of gravitated it was all

1987

01:17:29,689 --> 01:17:27,179

electromagnetics that was a quote from

1988

01:17:32,390 --> 01:17:29,699

him so that that's really interesting as

1989

01:17:34,850 --> 01:17:32,400

far to as far to lay lines I do think

1990

01:17:36,770 --> 01:17:34,860

the real energy we just haven't detected

1991

01:17:38,570 --> 01:17:36,780

yet we're not aware of there's too many

1992

01:17:41,209 --> 01:17:38,580

ancient buildings we're aligned to it

1993

01:17:44,570 --> 01:17:41,219

for it to be uh you know for it to be a

1994

01:17:46,970 --> 01:17:44,580

chance and you see a lot of the medieval

1995

01:17:49,250 --> 01:17:46,980

uh medieval monasteries are actually

1996

01:17:51,110 --> 01:17:49,260

aligned to them now as well same sort of

1997

01:17:53,510 --> 01:17:51,120

thing where like there's a deep ancient

1998

01:17:55,430 --> 01:17:53,520

Pagan thing and I think there were some

1999

01:17:57,709 --> 01:17:55,440

sort of sentence of power to draw I

2000

01:17:59,330 --> 01:17:57,719

don't know someone is just again it's an

2001  
01:18:00,830 --> 01:17:59,340  
energy we can't use because we're not

2002  
01:18:02,450 --> 01:18:00,840  
used to it might even have been a sort

2003  
01:18:04,790 --> 01:18:02,460  
of psychic connection or something like

2004  
01:18:06,169 --> 01:18:04,800  
that there's a theory but the pyramids

2005  
01:18:08,570 --> 01:18:06,179  
funnily enough one of the functions

2006  
01:18:10,610 --> 01:18:08,580  
because they're all over the world uh

2007  
01:18:12,649 --> 01:18:10,620  
was a function was to control the sort

2008  
01:18:14,930 --> 01:18:12,659  
of geomagnetic fluctuations in the

2009  
01:18:18,110 --> 01:18:14,940  
planet as well as use the energy

2010  
01:18:19,970 --> 01:18:18,120  
and uh and and part of the thing the

2011  
01:18:21,890 --> 01:18:19,980  
pyramid again is it's got burn marks on

2012  
01:18:23,750 --> 01:18:21,900  
it it blew out because there was a

2013  
01:18:25,850 --> 01:18:23,760

massive surge in that geomagnetically

2014

01:18:28,189 --> 01:18:25,860

one of the cataclysms so anyway the

2015

01:18:30,290 --> 01:18:28,199

point being I think there is some sort

2016

01:18:32,090 --> 01:18:30,300

of relationship between Ley lines and

2017

01:18:34,010 --> 01:18:32,100

the ancient monuments you can clearly

2018

01:18:37,910 --> 01:18:34,020

see it and it's probably a subtle energy

2019

01:18:40,490 --> 01:18:37,920

we can detect I mean I I again as we

2020

01:18:42,530 --> 01:18:40,500

were about this it's big speculation and

2021

01:18:44,149 --> 01:18:42,540

it's just my best guess reading stuff

2022

01:18:46,850 --> 01:18:44,159

but I definitely think there's something

2023

01:18:48,169 --> 01:18:46,860

to it and I think in many ways the old

2024

01:18:50,149 --> 01:18:48,179

storm Builder

2025

01:18:51,649 --> 01:18:50,159

people I think there might have been a

2026

01:18:52,910 --> 01:18:51,659

Remnant they might have had some things

2027

01:18:54,830 --> 01:18:52,920

that attacked they might have been able

2028

01:18:56,450 --> 01:18:54,840

to lift these big Stones you know Stone

2029

01:18:57,950 --> 01:18:56,460

engine all that but they didn't have

2030

01:18:59,030 --> 01:18:57,960

anything else in the tech the new

2031

01:19:00,649 --> 01:18:59,040

acoustics

2032

01:19:02,450 --> 01:19:00,659

but they might not have known anything

2033

01:19:04,790 --> 01:19:02,460

else and I think but they might have

2034

01:19:06,530 --> 01:19:04,800

known about that science as well so

2035

01:19:08,870 --> 01:19:06,540

that'd be why they connected them up so

2036

01:19:11,330 --> 01:19:08,880

it's a really I think it's real damage

2037

01:19:13,250 --> 01:19:11,340

it's just it's just another one of those

2038

01:19:15,410 --> 01:19:13,260

things we've lost us to its significance

2039

01:19:17,270 --> 01:19:15,420

so we had that missing key we go oh yeah

2040

01:19:19,250 --> 01:19:17,280

that's how it works what we just can't

2041

01:19:20,390 --> 01:19:19,260

we just haven't you know as we can make

2042

01:19:23,450 --> 01:19:20,400

that connection

2043

01:19:25,610 --> 01:19:23,460

yeah this energy uh line has been

2044

01:19:28,550 --> 01:19:25,620

attributed to a chip shop in mildenhall

2045

01:19:31,490 --> 01:19:28,560

that some say is the best cod in all the

2046

01:19:33,950 --> 01:19:31,500

UK and we can't find another explanation

2047

01:19:35,930 --> 01:19:33,960

for it uh but let me let me go back to

2048

01:19:38,270 --> 01:19:35,940

Dan and let's tackle this question about

2049

01:19:42,110 --> 01:19:38,280

Coral Castle because it's the only

2050

01:19:43,910 --> 01:19:42,120

modern example we have where by when uh

2051

01:19:46,430 --> 01:19:43,920

I guess the kids would sort of appear

2052

01:19:48,770 --> 01:19:46,440

into the structure when he was where he

2053

01:19:51,169 --> 01:19:48,780

would stop working and nobody actually

2054

01:19:53,390 --> 01:19:51,179

got to see a whole lot there's a lot of

2055

01:19:55,490 --> 01:19:53,400

mystery there but there's there's the

2056

01:19:58,130 --> 01:19:55,500

question Dan and then we'll we'll go to

2057

01:20:00,290 --> 01:19:58,140

Dave with that go ahead sir

2058

01:20:03,290 --> 01:20:00,300

um I actually bought the pamphlet of

2059

01:20:06,649 --> 01:20:03,300

information from the Coral Castle over

2060

01:20:10,850 --> 01:20:06,659

20 years ago and tried to go through it

2061

01:20:14,570 --> 01:20:10,860

he wrote it in a very non-professional

2062

01:20:17,510 --> 01:20:14,580

manner he's basically using

2063

01:20:20,149 --> 01:20:17,520

the language that is easy to understand

2064

01:20:22,490 --> 01:20:20,159

for the Layman I guess is how I'll

2065

01:20:25,610 --> 01:20:22,500

describe it and I can kind of I kind of

2066

01:20:27,890 --> 01:20:25,620

saw what he was saying but I wasn't

2067

01:20:30,169 --> 01:20:27,900

believing that that is what he meant to

2068

01:20:32,149 --> 01:20:30,179

say I was looking for a code or for

2069

01:20:33,770 --> 01:20:32,159

something written in the text that would

2070

01:20:35,870 --> 01:20:33,780

give the secret away because nothing

2071

01:20:37,910 --> 01:20:35,880

that he wrote in any of those

2072

01:20:40,250 --> 01:20:37,920

books or pamphlets or whatever you want

2073

01:20:41,930 --> 01:20:40,260

to call them essays actually told you

2074

01:20:44,090 --> 01:20:41,940

anything about how he moved the stone

2075

01:20:47,090 --> 01:20:44,100

shape the stone or anything like that so

2076

01:20:49,310 --> 01:20:47,100

I think that there is a way to decipher

2077

01:20:51,169 --> 01:20:49,320

the text that he did write and that

2078

01:20:52,970 --> 01:20:51,179

would help you on would help you crack

2079

01:20:54,350 --> 01:20:52,980

the code at least that's what I thought

2080

01:20:56,450 --> 01:20:54,360

at the time that's what I was hoping to

2081

01:20:58,610 --> 01:20:56,460

do but was I was unsuccessful obviously

2082

01:21:00,110 --> 01:20:58,620

or so I'd be living in a Coral Castle

2083

01:21:03,530 --> 01:21:00,120

myself

2084

01:21:05,630 --> 01:21:03,540

um do I think that he figured out a way

2085

01:21:07,550 --> 01:21:05,640

to I don't know if he knew what the

2086

01:21:09,110 --> 01:21:07,560

Egyptians knew once again I feel like

2087

01:21:12,590 --> 01:21:09,120

there's different ways to skin the cat

2088

01:21:14,450 --> 01:21:12,600

and based on your toolbox you're gonna

2089

01:21:17,450 --> 01:21:14,460

solve problems with the tools that you

2090

01:21:19,970 --> 01:21:17,460

have available or at your disposal so

2091

01:21:21,470 --> 01:21:19,980

how he did it might vary slightly from

2092

01:21:23,270 --> 01:21:21,480

the way the Egyptians did it and he

2093

01:21:25,189 --> 01:21:23,280

might have made the leap of oh yeah this

2094

01:21:27,530 --> 01:21:25,199

is probably how they they did it but he

2095

01:21:29,270 --> 01:21:27,540

had a metal crank device that was

2096

01:21:32,570 --> 01:21:29,280

generated that he claimed was generating

2097

01:21:35,030 --> 01:21:32,580

some kind of electricity or magnetic

2098

01:21:37,189 --> 01:21:35,040

field that he was able to use to move

2099

01:21:39,110 --> 01:21:37,199

the stone around one of the things that

2100

01:21:41,450 --> 01:21:39,120

I think is the most incredible fact

2101  
01:21:42,830 --> 01:21:41,460  
about the Coral Castle is that the

2102  
01:21:45,590 --> 01:21:42,840  
current location is not the original

2103  
01:21:46,790 --> 01:21:45,600  
location it actually got moved from one

2104  
01:21:49,010 --> 01:21:46,800  
location

2105  
01:21:50,870 --> 01:21:49,020  
put on a truck and then he unloaded it

2106  
01:21:54,410 --> 01:21:50,880  
himself and constructed it where it

2107  
01:21:56,209 --> 01:21:54,420  
currently sits so what that's that's the

2108  
01:21:58,370 --> 01:21:56,219  
thing to me about the tripods that

2109  
01:22:00,470 --> 01:21:58,380  
throws a flag because

2110  
01:22:03,290 --> 01:22:00,480  
glyph using the tripod to lift something

2111  
01:22:05,630 --> 01:22:03,300  
up and down is one thing but reaching

2112  
01:22:08,330 --> 01:22:05,640  
over grabbing the huge Stone off of a

2113  
01:22:10,550 --> 01:22:08,340

truck and moving it I don't know how you

2114

01:22:12,470 --> 01:22:10,560

do that with a tripod maybe I just don't

2115

01:22:14,930 --> 01:22:12,480

know enough of hoisting and rigging to

2116

01:22:16,669 --> 01:22:14,940

be able to figure that out but it really

2117

01:22:19,250 --> 01:22:16,679

jumps out to me is

2118

01:22:21,770 --> 01:22:19,260

something else he was doing

2119

01:22:23,290 --> 01:22:21,780

outside of those tripods that he had on

2120

01:22:26,510 --> 01:22:23,300

there was

2121

01:22:28,010 --> 01:22:26,520

assisting him with his goal there's a

2122

01:22:29,330 --> 01:22:28,020

story about that you know dumb but you

2123

01:22:31,010 --> 01:22:29,340

went you might have heard this he

2124

01:22:32,570 --> 01:22:31,020

apparently the bloke who was on the

2125

01:22:36,050 --> 01:22:32,580

truck when he did it he told him to go

2126

01:22:38,030 --> 01:22:36,060

away for a bit uh and he was off the

2127

01:22:39,410 --> 01:22:38,040

block was off when he come back and

2128

01:22:42,229 --> 01:22:39,420

that's that's one of the stories that

2129

01:22:44,689 --> 01:22:42,239

blocked the driver told so this is yeah

2130

01:22:46,189 --> 01:22:44,699

this isn't that you mentioned that this

2131

01:22:48,470 --> 01:22:46,199

goes back to something that I've heard

2132

01:22:50,450 --> 01:22:48,480

multiple people talk about and I feel

2133

01:22:53,330 --> 01:22:50,460

like it'd be appropriate to say it for

2134

01:22:55,189 --> 01:22:53,340

adley scouting as well is that they

2135

01:22:57,169 --> 01:22:55,199

didn't do it because it was hard they

2136

01:22:58,310 --> 01:22:57,179

did it because it was easy for them they

2137

01:23:01,130 --> 01:22:58,320

wouldn't have gone through all this

2138

01:23:04,010 --> 01:23:01,140

effort if it was using a dollar right

2139

01:23:06,649 --> 01:23:04,020

ball to smash on another rock one guy

2140

01:23:08,510 --> 01:23:06,659

for five years to make this one block

2141

01:23:10,010 --> 01:23:08,520

and then they put it in place like if if

2142

01:23:12,290 --> 01:23:10,020

it was that difficult they wouldn't have

2143

01:23:14,510 --> 01:23:12,300

done it something that they were able to

2144

01:23:18,470 --> 01:23:14,520

figure out made the manipulation of

2145

01:23:19,970 --> 01:23:18,480

stone the placement of stone easy so

2146

01:23:22,130 --> 01:23:19,980

that's what I think edley scouting

2147

01:23:24,649 --> 01:23:22,140

figured out in one way or the other

2148

01:23:25,790 --> 01:23:24,659

that's what I think our ancients somehow

2149

01:23:27,890 --> 01:23:25,800

figured out

2150

01:23:30,290 --> 01:23:27,900

and we've lost that technology it's it's

2151

01:23:33,470 --> 01:23:30,300

not with us but Randall Carson has

2152

01:23:36,470 --> 01:23:33,480

recently been on a mission to basically

2153

01:23:38,990 --> 01:23:36,480

claim that an ancient lost technology

2154

01:23:41,750 --> 01:23:39,000

has been rediscovered and it's going to

2155

01:23:43,250 --> 01:23:41,760

be coming out uh shortly my

2156

01:23:44,990 --> 01:23:43,260

understanding is that that was what He

2157

01:23:47,810 --> 01:23:45,000

was discussing on The Joe Rogan podcast

2158

01:23:51,110 --> 01:23:47,820

that has not been published for one

2159

01:23:52,610 --> 01:23:51,120

reason or another so hopefully that will

2160

01:23:54,290 --> 01:23:52,620

come out and we'll learn more about what

2161

01:23:56,810 --> 01:23:54,300

he's saying

2162

01:23:59,209 --> 01:23:56,820

um I'm interested but I'm not convinced

2163

01:24:02,990 --> 01:23:59,219

yet so we'll we'll see

2164

01:24:05,149 --> 01:24:03,000

but final final question about this

2165

01:24:07,610 --> 01:24:05,159

and then I'm going to go to Dave on this

2166

01:24:09,709 --> 01:24:07,620

did do you believe do you believe

2167

01:24:11,870 --> 01:24:09,719

without knowing we realize Nobody Knows

2168

01:24:14,030 --> 01:24:11,880

the answer do you believe he used the

2169

01:24:16,490 --> 01:24:14,040

same technology potentially that the

2170

01:24:18,169 --> 01:24:16,500

Egyptians did I think these use the same

2171

01:24:21,050 --> 01:24:18,179

principles I would think the technology

2172

01:24:23,510 --> 01:24:21,060

could be different as long as you uh

2173

01:24:25,610 --> 01:24:23,520

utilize the underlying principle behind

2174

01:24:27,770 --> 01:24:25,620

whatever that tool was

2175

01:24:29,689 --> 01:24:27,780

um fair enough I can use it now I can

2176  
01:24:31,130 --> 01:24:29,699  
use a screw to secure two pieces of wood

2177  
01:24:32,570 --> 01:24:31,140  
they're two different Technologies they

2178  
01:24:34,729 --> 01:24:32,580  
serve the same purpose he might have

2179  
01:24:38,090 --> 01:24:34,739  
figured out one way to do it but the

2180  
01:24:39,410 --> 01:24:38,100  
principle stays the same regardless and

2181  
01:24:41,090 --> 01:24:39,420  
for the for the audience out there that

2182  
01:24:42,770 --> 01:24:41,100  
doesn't know or even members of the

2183  
01:24:45,290 --> 01:24:42,780  
panel that don't know Dan is an engineer

2184  
01:24:48,890 --> 01:24:45,300  
by trade so that's why this is of

2185  
01:24:51,290 --> 01:24:48,900  
extreme interest not a good one but I am

2186  
01:24:52,310 --> 01:24:51,300  
one I don't believe that for a second go

2187  
01:24:54,169 --> 01:24:52,320  
ahead Dave

2188  
01:24:55,970 --> 01:24:54,179

yeah well I think Dan's covered it

2189

01:24:58,550 --> 01:24:55,980

pretty well I mean to be honest with you

2190

01:25:00,709 --> 01:24:58,560

if you read the story and things you

2191

01:25:02,750 --> 01:25:00,719

think I can't be for real this bloke no

2192

01:25:05,270 --> 01:25:02,760

no no he has a lot of Hallmarks you can

2193

01:25:07,910 --> 01:25:05,280

use a lot of cobbler to be honest but

2194

01:25:09,290 --> 01:25:07,920

there is I think the core story and what

2195

01:25:11,870 --> 01:25:09,300

he's done and I've read it and I was

2196

01:25:14,450 --> 01:25:11,880

very skeptical I think he as Dan says he

2197

01:25:17,090 --> 01:25:14,460

must have had some technique but he was

2198

01:25:18,890 --> 01:25:17,100

using I wondered in my guilty pleasures

2199

01:25:20,510 --> 01:25:18,900

of thinking about this whether he

2200

01:25:22,550 --> 01:25:20,520

discovered something I found something

2201

01:25:24,770 --> 01:25:22,560

that he was able to use to move it but

2202

01:25:27,050 --> 01:25:24,780

that's just massive maybe it's just a

2203

01:25:28,430 --> 01:25:27,060

romantic view of it that but yeah he

2204

01:25:30,410 --> 01:25:28,440

definitely could there seems to be

2205

01:25:32,209 --> 01:25:30,420

enough but he could move it well I saw

2206

01:25:33,709 --> 01:25:32,219

those pieces of coral or Hollow really

2207

01:25:36,530 --> 01:25:33,719

and we don't realize you know when he

2208

01:25:39,830 --> 01:25:36,540

didn't but uh heavy as hell yeah yeah

2209

01:25:43,130 --> 01:25:39,840

exactly so I think he's I think he

2210

01:25:45,350 --> 01:25:43,140

he did able down I think the most likely

2211

01:25:48,410 --> 01:25:45,360

is that he had discovered some sort of

2212

01:25:50,750 --> 01:25:48,420

principle or if he some sort of tool but

2213

01:25:52,310 --> 01:25:50,760

he cracked it it's so irritating though

2214

01:25:54,830 --> 01:25:52,320

I'm sure it was more irritating for him

2215

01:25:57,229 --> 01:25:54,840

but he died you know without revealing

2216

01:25:58,729 --> 01:25:57,239

he's without telling anybody I mean that

2217

01:26:02,090 --> 01:25:58,739

was I remember I've often thought about

2218

01:26:04,310 --> 01:26:02,100

that if it was true so I can't quite

2219

01:26:07,910 --> 01:26:04,320

bring myself to believe it DJ but I

2220

01:26:09,470 --> 01:26:07,920

think if you were to ask me to bet me

2221

01:26:12,050 --> 01:26:09,480

out on it I probably would have to say

2222

01:26:13,310 --> 01:26:12,060

yes I do believe it but uh I would but I

2223

01:26:15,490 --> 01:26:13,320

wouldn't bet me out in it I'd have to

2224

01:26:18,169 --> 01:26:15,500

leave the room at that point but uh that

2225

01:26:21,350 --> 01:26:18,179

yeah so I think there's a lot to it but

2226

01:26:23,570 --> 01:26:21,360

it feels I'm not entirely convinced

2227

01:26:26,510 --> 01:26:23,580

I can't say why but I'm not

2228

01:26:28,129 --> 01:26:26,520

oh that's that's fair enough uh to me I

2229

01:26:29,810 --> 01:26:28,139

mean kind of like what we do here is

2230

01:26:32,390 --> 01:26:29,820

kind of try to figure out things that we

2231

01:26:34,250 --> 01:26:32,400

don't know and there's so much that we

2232

01:26:37,430 --> 01:26:34,260

there's so much more that we don't know

2233

01:26:41,090 --> 01:26:37,440

than what we do know and so I'm assuming

2234

01:26:43,189 --> 01:26:41,100

uh based on at least the the the uh

2235

01:26:45,530 --> 01:26:43,199

anecdotal historic slash historical

2236

01:26:47,270 --> 01:26:45,540

record that he was able to move and cut

2237

01:26:49,370 --> 01:26:47,280

these stones without power tools and all

2238

01:26:53,390 --> 01:26:49,380

that that he must have figured out so

2239

01:26:56,209 --> 01:26:53,400

something that the as Dan said it may be

2240

01:26:58,250 --> 01:26:56,219

been the principles uh even if he didn't

2241

01:26:59,990 --> 01:26:58,260

employ them in the exact same way he

2242

01:27:02,990 --> 01:27:00,000

used those principles to do things that

2243

01:27:05,510 --> 01:27:03,000

one man could not do which is just it's

2244

01:27:06,830 --> 01:27:05,520

a modern Marvel it's not a miracle

2245

01:27:08,930 --> 01:27:06,840

because

2246

01:27:11,390 --> 01:27:08,940

if if other people could figure out how

2247

01:27:13,910 --> 01:27:11,400

to do it uh then we could we could

2248

01:27:17,090 --> 01:27:13,920

replicate that but what I'd like to do

2249

01:27:18,669 --> 01:27:17,100

now is uh let's put us all on here let

2250

01:27:21,110 --> 01:27:18,679

me see if I can

2251

01:27:23,510 --> 01:27:21,120

uh let's see if we could do this get

2252

01:27:25,550 --> 01:27:23,520

everybody on screen so we can go with

2253

01:27:27,350 --> 01:27:25,560

cabbie goodbyes and we'll start with

2254

01:27:32,030 --> 01:27:27,360

Dave to Dan Dan to Dave and then we'll

2255

01:27:36,709 --> 01:27:34,430

you've lost me DJ sorry okay well look

2256

01:27:38,510 --> 01:27:36,719

so basically uh you know if you want to

2257

01:27:40,790 --> 01:27:38,520

say anything final to Dan Dan will say

2258

01:27:43,430 --> 01:27:40,800

something to you we're saying goodbye to

2259

01:27:44,629 --> 01:27:43,440

our audience uh and and uh thank you to

2260

01:27:46,250 --> 01:27:44,639

one another but we're going to start

2261

01:27:48,950 --> 01:27:46,260

with the two guests

2262

01:27:51,169 --> 01:27:48,960

uh yeah I think uh I think we've sort of

2263

01:27:52,610 --> 01:27:51,179

covered it really I think it's I think

2264

01:27:54,470 --> 01:27:52,620

it's a fascinating subject there's

2265

01:27:56,209 --> 01:27:54,480

enough indicators of the different

2266

01:27:58,669 --> 01:27:56,219

Advanced set they could have used but

2267

01:28:00,229 --> 01:27:58,679

there'd be something to it I mean how

2268

01:28:03,290 --> 01:28:00,239

did the fact is how did they move those

2269

01:28:04,610 --> 01:28:03,300

stones how did the do those cuts the

2270

01:28:07,550 --> 01:28:04,620

evidence that we said there's enough of

2271

01:28:08,930 --> 01:28:07,560

a car those vases uh and there's a thing

2272

01:28:10,850 --> 01:28:08,940

called Terror praise you know it's a

2273

01:28:12,229 --> 01:28:10,860

very advanced soil that they found

2274

01:28:13,790 --> 01:28:12,239

around the world it's got these

2275

01:28:16,790 --> 01:28:13,800

brilliant properties could already be

2276  
01:28:18,410 --> 01:28:16,800  
made by sophisticated uh process and

2277  
01:28:21,050 --> 01:28:18,420  
it's all over the place and it's tens of

2278  
01:28:22,370 --> 01:28:21,060  
thousand years old to me that's proof I

2279  
01:28:24,229 --> 01:28:22,380  
got I should have gone into it more on

2280  
01:28:26,090 --> 01:28:24,239  
the show but anyway so I think there's

2281  
01:28:29,750 --> 01:28:26,100  
enough proof

2282  
01:28:32,030 --> 01:28:29,760  
to show that something happened and uh I

2283  
01:28:33,470 --> 01:28:32,040  
think we just we just don't want to

2284  
01:28:35,030 --> 01:28:33,480  
acknowledge it really and I think it's

2285  
01:28:37,490 --> 01:28:35,040  
one of those things that will come out

2286  
01:28:38,930 --> 01:28:37,500  
over time but inevitably what we think

2287  
01:28:41,090 --> 01:28:38,940  
about will probably be wrong but this

2288  
01:28:43,129 --> 01:28:41,100

has been a really good I was wondering

2289

01:28:45,410 --> 01:28:43,139

how the chat was going to go in terms of

2290

01:28:46,970 --> 01:28:45,420

covering the issues but I think we've

2291

01:28:48,470 --> 01:28:46,980

got a lot we've covered a lot of the

2292

01:28:50,629 --> 01:28:48,480

good stuff and it's great to wear down

2293

01:28:51,890 --> 01:28:50,639

because down down does some really great

2294

01:28:54,229 --> 01:28:51,900

stuff on this and I really enjoy

2295

01:28:56,510 --> 01:28:54,239

watching this stuff so he's really

2296

01:28:58,370 --> 01:28:56,520

pushing it in a relevant way so that

2297

01:28:59,689 --> 01:28:58,380

people can understand it so yeah I've

2298

01:29:02,510 --> 01:28:59,699

really enjoyed it

2299

01:29:03,890 --> 01:29:02,520

damn all right so I'll I'll say this

2300

01:29:06,410 --> 01:29:03,900

like um

2301

01:29:07,729 --> 01:29:06,420

each one of us can talk about music

2302

01:29:10,129 --> 01:29:07,739

together

2303

01:29:13,189 --> 01:29:10,139

but it's not very often when you have

2304

01:29:14,870 --> 01:29:13,199

like a high level musician talk to

2305

01:29:16,490 --> 01:29:14,880

another high level musician the

2306

01:29:18,290 --> 01:29:16,500

conversation that those two people have

2307

01:29:19,930 --> 01:29:18,300

completely different than the

2308

01:29:24,830 --> 01:29:19,940

conversation that they can have with me

2309

01:29:27,770 --> 01:29:24,840

I don't know musical uh actual

2310

01:29:29,450 --> 01:29:27,780

code whatever they call it I'm so I'm so

2311

01:29:30,590 --> 01:29:29,460

out of music I don't know anything about

2312

01:29:33,830 --> 01:29:30,600

it but

2313

01:29:37,010 --> 01:29:33,840

um I can't talk to a polished musician

2314

01:29:38,810 --> 01:29:37,020

and have an interesting conversation I

2315

01:29:40,729 --> 01:29:38,820

can't talk about megalithic structures

2316

01:29:43,129 --> 01:29:40,739

to most people because they don't have

2317

01:29:45,530 --> 01:29:43,139

that depth of knowledge about the

2318

01:29:47,750 --> 01:29:45,540

subject when I talked to Dave when I

2319

01:29:49,550 --> 01:29:47,760

read his article I was like check check

2320

01:29:51,709 --> 01:29:49,560

everything he was saying it was like in

2321

01:29:55,430 --> 01:29:51,719

my wheelhouse so it's fun to be able to

2322

01:29:58,970 --> 01:29:55,440

talk to someone like Dave because he is

2323

01:30:01,490 --> 01:29:58,980

his knowledge level is at at where mine

2324

01:30:03,290 --> 01:30:01,500

is I prop his is above mine I'll go

2325

01:30:05,510 --> 01:30:03,300

ahead and say that but it's great to be

2326  
01:30:07,970 --> 01:30:05,520  
able to have have be able to have this

2327  
01:30:09,649 --> 01:30:07,980  
depth of a conversation with someone

2328  
01:30:12,050 --> 01:30:09,659  
like Dave so it's been really enjoyable

2329  
01:30:13,610 --> 01:30:12,060  
to to do this

2330  
01:30:16,189 --> 01:30:13,620  
um and I thank you guys for bringing me

2331  
01:30:19,729 --> 01:30:16,199  
on and what I'm hoping that we get the

2332  
01:30:21,770 --> 01:30:19,739  
most out of for people that know me I

2333  
01:30:23,090 --> 01:30:21,780  
make a lot of videos about UFOs and the

2334  
01:30:25,189 --> 01:30:23,100  
news that's going on around her right

2335  
01:30:26,870 --> 01:30:25,199  
now my dream would be to one day be able

2336  
01:30:28,910 --> 01:30:26,880  
to start to make videos about ancient

2337  
01:30:30,770 --> 01:30:28,920  
structures ancient civilizations things

2338  
01:30:32,689 --> 01:30:30,780

like that but I I feel like that

2339

01:30:35,270 --> 01:30:32,699

requires traveling and I just can't do

2340

01:30:39,290 --> 01:30:35,280

that right now but my hope for the

2341

01:30:41,570 --> 01:30:39,300

entire UFO subject when it plays out is

2342

01:30:44,990 --> 01:30:41,580

that we do end up learning more about

2343

01:30:46,970 --> 01:30:45,000

our past that our future and our past

2344

01:30:49,010 --> 01:30:46,980

are going to combine

2345

01:30:52,070 --> 01:30:49,020

and it's going to come in the form of a

2346

01:30:53,390 --> 01:30:52,080

UFO I don't know it makes sense to me I

2347

01:30:55,790 --> 01:30:53,400

hope it makes sense to you guys but

2348

01:30:58,010 --> 01:30:55,800

thank you guys for your time uh enjoyed

2349

01:31:00,350 --> 01:30:58,020

it and hope everyone has a good day

2350

01:31:03,050 --> 01:31:00,360

thank you Dan we will we will do it

2351  
01:31:04,669 --> 01:31:03,060  
again this was a part one we can do it

2352  
01:31:07,010 --> 01:31:04,679  
again when you and Dave want to come

2353  
01:31:08,750 --> 01:31:07,020  
back and do another one and uh and uh

2354  
01:31:10,610 --> 01:31:08,760  
let me let with our cabbie goodbyes

2355  
01:31:12,649 --> 01:31:10,620  
we'll go to Davey first and then uh

2356  
01:31:15,229 --> 01:31:12,659  
Frank and then Debs

2357  
01:31:17,030 --> 01:31:15,239  
I'd like to say to Dave and Dan thank

2358  
01:31:20,149 --> 01:31:17,040  
you so much for sharing your knowledge

2359  
01:31:21,890 --> 01:31:20,159  
your expertise your Insight with us I've

2360  
01:31:23,870 --> 01:31:21,900  
realized I've got a load more reading

2361  
01:31:25,610 --> 01:31:23,880  
and learning I need to do go away and

2362  
01:31:27,229 --> 01:31:25,620  
dig into this

2363  
01:31:29,930 --> 01:31:27,239

um and I'd also like to say a huge thank

2364

01:31:31,430 --> 01:31:29,940

you to my beautiful cabbie family for

2365

01:31:33,169 --> 01:31:31,440

allowing me to sit at the cabbie table

2366

01:31:35,810 --> 01:31:33,179

for this one thank you guys and girls

2367

01:31:38,330 --> 01:31:35,820

always honor

2368

01:31:40,550 --> 01:31:38,340

Franklin yeah brilliant I just want to

2369

01:31:43,610 --> 01:31:40,560

say I mean obviously myself and Dave

2370

01:31:46,850 --> 01:31:43,620

speaking near enough every day about stuff

2371

01:31:49,189 --> 01:31:46,860

to do with UFOs and we've spoken quite a

2372

01:31:51,290 --> 01:31:49,199

lot uh over the years about ancient

2373

01:31:53,629 --> 01:31:51,300

civilizations and things as well

2374

01:31:56,149 --> 01:31:53,639

um but Dan um I've obviously seen your

2375

01:31:57,649 --> 01:31:56,159

videos about UFOs but it was brilliant

2376

01:31:59,570 --> 01:31:57,659

to hear you talking about all this and

2377

01:32:01,669 --> 01:31:59,580

you're clearly super knowledgeable about

2378

01:32:03,830 --> 01:32:01,679

it so yeah just thank you for for all of

2379

01:32:05,689 --> 01:32:03,840

your input and it's been a real pleasure

2380

01:32:08,689 --> 01:32:05,699

and I've never actually heard of the

2381

01:32:10,310 --> 01:32:08,699

Coral Castle ever before today so now I

2382

01:32:12,470 --> 01:32:10,320

really want to go there and I'm going to

2383

01:32:14,810 --> 01:32:12,480

be on some website trying to book

2384

01:32:16,790 --> 01:32:14,820

flights after this so um yeah say a

2385

01:32:18,470 --> 01:32:16,800

prayer for my bank account and uh thank

2386

01:32:21,590 --> 01:32:18,480

you everybody

2387

01:32:24,950 --> 01:32:21,600

Debs yep I wanted to say thank you I

2388

01:32:27,229 --> 01:32:24,960

agree with the way that UFOs actually

2389

01:32:29,270 --> 01:32:27,239

lead us to study ourselves it's really

2390

01:32:31,970 --> 01:32:29,280

interesting how that happens it's almost

2391

01:32:34,250 --> 01:32:31,980

like a magnifying glass on Humanity when

2392

01:32:36,950 --> 01:32:34,260

we look at UFOs and the universe

2393

01:32:39,050 --> 01:32:36,960

so I um appreciate that you're helping

2394

01:32:42,770 --> 01:32:39,060

us to understand some of those Mysteries

2395

01:32:48,649 --> 01:32:45,470

I want to thank I'm sorry thank you

2396

01:32:50,870 --> 01:32:48,659

Matt just said my pleasure yeah and I

2397

01:32:52,550 --> 01:32:50,880

was going to say uh I'm so lucky to have

2398

01:32:54,129 --> 01:32:52,560

such an amazing group of friends that we

2399

01:32:56,930 --> 01:32:54,139

could do something like this because

2400

01:32:59,090 --> 01:32:56,940

Nathan and I can Endeavor to bring you

2401  
01:33:00,649 --> 01:32:59,100  
ancient structures but without you we

2402  
01:33:02,390 --> 01:33:00,659  
couldn't have brought you ancient

2403  
01:33:05,090 --> 01:33:02,400  
structures because we don't know enough

2404  
01:33:08,209 --> 01:33:05,100  
about it so we brought you guys here

2405  
01:33:11,390 --> 01:33:08,219  
today so that you can educate not only

2406  
01:33:13,669 --> 01:33:11,400  
us but also the audience about it and

2407  
01:33:16,010 --> 01:33:13,679  
that we can Branch out from just doing

2408  
01:33:17,330 --> 01:33:16,020  
UFOs we're going to talk about Bigfoot

2409  
01:33:20,149 --> 01:33:17,340  
we're going to bring you paranormal

2410  
01:33:23,330 --> 01:33:20,159  
conversation and we've also booked some

2411  
01:33:25,550 --> 01:33:23,340  
great UFO guests as well just so that we

2412  
01:33:29,209 --> 01:33:25,560  
can keep the conversation going into to

2413  
01:33:30,709 --> 01:33:29,219

more broader areas so this is exactly

2414

01:33:32,750 --> 01:33:30,719

what I envisioned it was going to be

2415

01:33:35,810 --> 01:33:32,760

when uh when I kind of set this up with

2416

01:33:37,850 --> 01:33:35,820

you too so thank you very much give us a

2417

01:33:40,430 --> 01:33:37,860

like give us a subscribe we're going to

2418

01:33:43,010 --> 01:33:40,440

have Dave's details including his uh

2419

01:33:44,810 --> 01:33:43,020

paper that you guys can read in the show

2420

01:33:47,030 --> 01:33:44,820

notes we're going to have Dan's linktree

2421

01:33:49,310 --> 01:33:47,040

in the show notes so go and check out

2422

01:33:51,530 --> 01:33:49,320

his is Tick Tock and absolutely Dan life

2423

01:33:53,990 --> 01:33:51,540

is really short and if you want to talk

2424

01:33:56,930 --> 01:33:54,000

ancient structures and do videos about

2425

01:33:59,390 --> 01:33:56,940

them absolutely do them and know that

2426

01:34:02,209 --> 01:33:59,400

anytime you want to bring that over here

2427

01:34:05,870 --> 01:34:02,219

we're we're ready for that so if you so

2428

01:34:09,290 --> 01:34:05,880

choose so okay absolutely noted

2429

01:34:12,229 --> 01:34:09,300

2430

01:34:14,870 --> 01:34:12,239

2433

01:34:24,470 --> 01:34:20,820

2434

01:34:27,110 --> 01:34:24,480
