**guest:**

**Baptiste Friscourt**  
**UFO Researcher**

**May 13, 2023**

**Calling All Beings**

1  
00:00:02,959 --> 00:00:06,780  
thank you

2  
00:00:32,110 --> 00:00:25,050  
[Music]

3  
00:00:35,150 --> 00:00:32,120  
yeah

4  
00:00:37,549 --> 00:00:35,160  
welcome back to cab Saturday baby

5  
00:00:40,910 --> 00:00:37,559  
because you know where we're going we're

6  
00:00:43,490 --> 00:00:40,920  
going to France to hang out with my man

7  
00:00:46,610 --> 00:00:43,500  
bob teeth but before we get to him the

8  
00:00:49,010 --> 00:00:46,620  
special guest let's say hello to the

9  
00:00:50,690 --> 00:00:49,020  
brother like no other my man the

10  
00:00:53,209 --> 00:00:50,700  
executive producer the technical

11  
00:00:54,410 --> 00:00:53,219  
director of this joint money Nathan good

12  
00:00:56,330 --> 00:00:54,420  
afternoon sir

13  
00:00:58,729 --> 00:00:56,340

greetings everyone happy Saturday

14

00:00:59,930 --> 00:00:58,739

welcome to calling all beings man it's

15

00:01:01,549 --> 00:00:59,940

good to be here good to be here with

16

00:01:03,410 --> 00:01:01,559

this guy uh last time we talked with him

17

00:01:05,390 --> 00:01:03,420

in September so looking forward to

18

00:01:07,429 --> 00:01:05,400

catching up with him we were due we were

19

00:01:09,289 --> 00:01:07,439

due ironically I was at Barber at

20

00:01:11,149 --> 00:01:09,299

Kayla's race that weekend and now

21

00:01:13,910 --> 00:01:11,159

they've moved Barbara to May so next

22

00:01:15,530 --> 00:01:13,920

weekend uh she'll be a barber but uh

23

00:01:17,870 --> 00:01:15,540

actually I don't know maybe I will make

24

00:01:20,030 --> 00:01:17,880

the trip up there uh but before we go

25

00:01:23,030 --> 00:01:20,040

any further let's say hello to my sister

26  
00:01:26,810 --> 00:01:23,040  
from another mister the centering cam of

27  
00:01:33,550 --> 00:01:26,820  
this joint the soul of it just let your

28  
00:01:38,030 --> 00:01:35,990  
everybody on here got a sense of humor

29  
00:01:40,429 --> 00:01:38,040  
man it's not just me people we're trying

30  
00:01:44,149 --> 00:01:40,439  
now I can be serious I can't I can be

31  
00:01:46,789 --> 00:01:44,159  
serious right Nathan oh yeah I I yeah so

32  
00:01:48,950 --> 00:01:46,799  
serious there have been those times

33  
00:01:50,630 --> 00:01:48,960  
um so anyway this gentleman we're about

34  
00:01:52,370 --> 00:01:50,640  
to bring on

35  
00:01:54,530 --> 00:01:52,380  
um well you know what before we even do

36  
00:01:56,810 --> 00:01:54,540  
that let's do this man

37  
00:02:01,310 --> 00:01:56,820  
oh wait that was it

38  
00:02:05,450 --> 00:02:03,889

there we go you catching it Nathan I I

39

00:02:08,690 --> 00:02:05,460

can see our guests laughing in the

40

00:02:12,240 --> 00:02:08,700

background and off stage so this is so

41

00:02:15,170 --> 00:02:13,670

[Music]

42

00:02:17,809 --> 00:02:15,180

what's up

43

00:02:20,449 --> 00:02:17,819

I love it this brother

44

00:02:24,290 --> 00:02:20,459

many of us uh that are engaged in this

45

00:02:26,150 --> 00:02:24,300

topic from the US and the UK and we've

46

00:02:28,250 --> 00:02:26,160

made strong connections there thank God

47

00:02:30,350 --> 00:02:28,260

uh but you know what there are people

48

00:02:33,050 --> 00:02:30,360

from many many other countries that are

49

00:02:35,150 --> 00:02:33,060

uh into this topic uh thankfully James

50

00:02:38,210 --> 00:02:35,160

Fox brought to us about uh the

51  
00:02:40,610 --> 00:02:38,220  
Brazilians uh and and has made inroads

52  
00:02:42,350 --> 00:02:40,620  
there so that they know that we're we're

53  
00:02:46,070 --> 00:02:42,360  
listening to them and we're watching

54  
00:02:47,869 --> 00:02:46,080  
them and they're engaged and um Vinnie

55  
00:02:49,610 --> 00:02:47,879  
obviously with the Colombians with Ash

56  
00:02:50,690 --> 00:02:49,620  
and and Priscilla was just down there

57  
00:02:53,089 --> 00:02:50,700  
with them

58  
00:02:56,089 --> 00:02:53,099  
well this gentleman right here has an

59  
00:02:59,509 --> 00:02:56,099  
Endeavor that hopes to bring together uh

60  
00:03:01,869 --> 00:02:59,519  
bring data from many many sources and

61  
00:03:05,509 --> 00:03:01,879  
funnel them into

62  
00:03:07,250 --> 00:03:05,519  
a central database where what our data

63  
00:03:08,809 --> 00:03:07,260

set is not going to be well this country

64

00:03:12,110 --> 00:03:08,819

is this and that country has that and

65

00:03:15,050 --> 00:03:12,120

this country is this so um I I was

66

00:03:17,750 --> 00:03:15,060

honored that he made his presentation I

67

00:03:20,449 --> 00:03:17,760

got to see what it was all about

68

00:03:22,610 --> 00:03:20,459

um he became pretty well known after uh

69

00:03:26,210 --> 00:03:22,620

he had Lou Elizondo on his program so

70

00:03:27,830 --> 00:03:26,220

he's a brilliant man from France uh he's

71

00:03:29,990 --> 00:03:27,840

more well spoken than me but then again

72

00:03:33,410 --> 00:03:30,000

I guess half probably three quarters of

73

00:03:38,649 --> 00:03:33,420

Francis so uh party people put those

74

00:03:42,050 --> 00:03:38,659

hands together for Baptist freeze car

75

00:03:42,970 --> 00:03:42,060

hello thank you very much thank you for

76

00:03:46,009 --> 00:03:42,980

having me

77

00:03:48,050 --> 00:03:46,019

amen for Baptiste hey man amen welcome

78

00:03:50,869 --> 00:03:48,060

back

79

00:03:53,690 --> 00:03:50,879

what's going on brother I'm I'm sending

80

00:03:55,910 --> 00:03:53,700

you a real French tune so you can you

81

00:03:58,729 --> 00:03:55,920

can leave stuff with that one okay

82

00:04:01,550 --> 00:03:58,739

please do that yeah uh well you know you

83

00:04:03,289 --> 00:04:01,560

missed it last week I played two uh I

84

00:04:05,449 --> 00:04:03,299

what are those artists that I play

85

00:04:07,610 --> 00:04:05,459

they're they're sort of electronic music

86

00:04:08,990 --> 00:04:07,620

would we call that Nathan I played the

87

00:04:12,830 --> 00:04:09,000

last two times

88

00:04:14,750 --> 00:04:12,840

huh that spunk no no I'll I'll send them

89

00:04:16,969 --> 00:04:14,760

to you but I absolutely love these

90

00:04:20,030 --> 00:04:16,979

artists and I believe that they're both

91

00:04:21,289 --> 00:04:20,040

French and it's sort of it has singing

92

00:04:23,210 --> 00:04:21,299

in there but I believe it's all

93

00:04:24,830 --> 00:04:23,220

electronic music I don't care it sounds

94

00:04:26,990 --> 00:04:24,840

damn good that's awesome you didn't know

95

00:04:29,810 --> 00:04:27,000

about it anyway welcome brother how are

96

00:04:31,790 --> 00:04:29,820

you I'm fine thank you very much for

97

00:04:35,590 --> 00:04:31,800

having me on the greatest show on

98

00:04:41,150 --> 00:04:38,210

appreciate that this rides on us

99

00:04:44,210 --> 00:04:41,160

Baptiste we appreciate that no no and I

100

00:04:45,530 --> 00:04:44,220

speak by heart I feel like home here so

101  
00:04:49,909 --> 00:04:45,540  
thank you very much

102  
00:04:51,350 --> 00:04:49,919  
yeah um so uh so basically you know that

103  
00:04:53,810 --> 00:04:51,360  
one of the reasons that you know we're

104  
00:04:55,430 --> 00:04:53,820  
get I'm glad you know we do Nathan will

105  
00:04:58,010 --> 00:04:55,440  
always ask me can you know we've had

106  
00:05:00,170 --> 00:04:58,020  
this particular individual on uh we'd

107  
00:05:02,510 --> 00:05:00,180  
like to bring them back on so we do like

108  
00:05:06,590 --> 00:05:02,520  
to have guests back on that we've had

109  
00:05:09,170 --> 00:05:06,600  
but uh this particular uh time is you

110  
00:05:10,909 --> 00:05:09,180  
know that you uh uh you you made a

111  
00:05:13,850 --> 00:05:10,919  
presentation about this endeavor that

112  
00:05:15,590 --> 00:05:13,860  
you have and you know what before we

113  
00:05:18,189 --> 00:05:15,600

even get into that I'm I'm really

114

00:05:19,790 --> 00:05:18,199

curious to ask you

115

00:05:30,230 --> 00:05:19,800

is

116

00:05:33,170 --> 00:05:30,240

that you are what was that that

117

00:05:35,450 --> 00:05:33,180

beginning no not at all uh quite the

118

00:05:38,150 --> 00:05:35,460

opposite I have no taste for that field

119

00:05:39,590 --> 00:05:38,160

in particular I I like to I like

120

00:05:43,370 --> 00:05:39,600

knowledge I like to learn things but

121

00:05:48,110 --> 00:05:43,380

from any field what's pointed me towards

122

00:05:49,850 --> 00:05:48,120

the UFOs what was my students uh so

123

00:05:51,469 --> 00:05:49,860

every couple I'm a teacher I'm an art

124

00:05:55,070 --> 00:05:51,479

teacher by trade and every couple of

125

00:05:57,770 --> 00:05:55,080

years I update my lessons and uh to

126

00:06:00,050 --> 00:05:57,780

update my lessons I ask them what they

127

00:06:01,909 --> 00:06:00,060

are interested in and in exchange I

128

00:06:03,650 --> 00:06:01,919

offer them that they can ask me any

129

00:06:04,850 --> 00:06:03,660

question they want and I will find the

130

00:06:08,629 --> 00:06:04,860

answer

131

00:06:13,310 --> 00:06:08,639

and the last time I did that was in 2017

132

00:06:16,490 --> 00:06:13,320

September 2017 and 80 of my students so

133

00:06:20,150 --> 00:06:16,500

that's around 300 students about the

134

00:06:22,010 --> 00:06:20,160

question what are UFOs so I looked

135

00:06:26,570 --> 00:06:22,020

around in the literature I could find

136

00:06:29,150 --> 00:06:26,580

which was dirt and I said to them it's

137

00:06:31,909 --> 00:06:29,160

nothing just a listener very pose of a

138

00:06:34,909 --> 00:06:31,919

brain don't worry about it and when a

139

00:06:37,370 --> 00:06:34,919

couple of months later December 2017 the

140

00:06:39,469 --> 00:06:37,380

New York Times published its articles

141

00:06:42,590 --> 00:06:39,479

so I had to go back to them and say I'm

142

00:06:45,529 --> 00:06:42,600

so I'm very sorry I was mistaken there

143

00:06:47,450 --> 00:06:45,539

is a reality on that phenomenon and I

144

00:06:50,040 --> 00:06:47,460

will endeavor to find the answer because

145

00:06:51,710 --> 00:06:50,050

now I'm humiliated

146

00:06:53,990 --> 00:06:51,720

[Laughter]

147

00:06:57,230 --> 00:06:54,000

amazing you know

148

00:06:59,809 --> 00:06:57,240

in a like the overwhelming majority of

149

00:07:02,510 --> 00:06:59,819

the world's population felt that way and

150

00:07:05,150 --> 00:07:02,520

it's only a seminal event uh that

151

00:07:07,969 --> 00:07:05,160

changed that and and it was a tangent of

152

00:07:10,730 --> 00:07:07,979

the exact same event not that changed my

153

00:07:14,150 --> 00:07:10,740

belief that it was there but sort of

154

00:07:15,830 --> 00:07:14,160

empowered me to want to talk about it so

155

00:07:17,270 --> 00:07:15,840

um I'm gonna I'm gonna pass you the

156

00:07:20,809 --> 00:07:17,280

money Nathan but before I do I want to

157

00:07:23,210 --> 00:07:20,819

welcome back somebody who was sick in

158

00:07:26,210 --> 00:07:23,220

the hospital uh she is our chat

159

00:07:28,430 --> 00:07:26,220

moderator Julie uh the jewel of Indiana

160

00:07:30,589 --> 00:07:28,440

as we call her who happens to be

161

00:07:33,110 --> 00:07:30,599

residing in Alabama so Julie welcome

162

00:07:35,510 --> 00:07:33,120

back thank you so much uh we're so glad

163

00:07:37,010 --> 00:07:35,520

that you're back and I hope to speak

164

00:07:40,270 --> 00:07:37,020

with you soon I'm glad that you smell

165

00:07:42,770 --> 00:07:40,280

bread I wish I was eating it uh

166

00:07:44,689 --> 00:07:42,780

anyway uh let me pass you over to the

167

00:07:47,689 --> 00:07:44,699

capable hands of the co-conspirator of

168

00:07:49,070 --> 00:07:47,699

cab money Nathan awesome uh yeah so

169

00:07:51,529 --> 00:07:49,080

Baptiste the last time we chatted with

170

00:07:55,430 --> 00:07:51,539

you is in September so it's been quite a

171

00:07:56,809 --> 00:07:55,440

long time always and you I every day I

172

00:07:59,629 --> 00:07:56,819

feel like you're posting stuff you're

173

00:08:01,850 --> 00:07:59,639

sharing stuff if you to me you seem like

174

00:08:04,370 --> 00:08:01,860

a tireless researcher but what's kind of

175

00:08:05,749 --> 00:08:04,380

going on since then what have you been

176

00:08:08,689 --> 00:08:05,759

working on and what's on the horizon

177

00:08:11,390 --> 00:08:08,699

we'd love to hear about it yeah sure so

178

00:08:14,749 --> 00:08:11,400

uh in France we have a public office

179

00:08:17,350 --> 00:08:14,759

about UFOs that is uh financed by the

180

00:08:20,110 --> 00:08:17,360

French NASA it's called Vegeta

181

00:08:23,749 --> 00:08:20,120

the the senior researcher of Japan

182

00:08:27,770 --> 00:08:23,759

decided to create in its own structure

183

00:08:30,710 --> 00:08:27,780

which is called UAP check the idea is to

184

00:08:33,949 --> 00:08:30,720

give the software design inside

185

00:08:36,709 --> 00:08:33,959

vegetable accessible to the public but

186

00:08:39,889 --> 00:08:36,719

around that we want to build an all

187

00:08:42,350 --> 00:08:39,899

uncompassing projects to work on

188

00:08:46,310 --> 00:08:42,360

increasing the level of quality of

189

00:08:48,350 --> 00:08:46,320

information regarding uaps so what I've

190

00:08:50,690 --> 00:08:48,360

been doing on Twitter and

191

00:08:52,790 --> 00:08:50,700

it was quite an extensive work was to

192

00:08:54,769 --> 00:08:52,800

design a way to find any piece of

193

00:08:59,030 --> 00:08:54,779

information as soon as it was published

194

00:09:03,650 --> 00:08:59,040

and to find ways of automating that work

195

00:09:06,110 --> 00:09:03,660

so we are creating uh no software that

196

00:09:08,449 --> 00:09:06,120

is doing automatically that work of

197

00:09:10,329 --> 00:09:08,459

looking in the internet for reliable

198

00:09:13,370 --> 00:09:10,339

sources and then pull up the information

199

00:09:14,949 --> 00:09:13,380

automatically so you don't have to go in

200

00:09:19,490 --> 00:09:14,959

10 different

201  
00:09:21,889 --> 00:09:19,500  
news new sites and they are all vying

202  
00:09:24,410 --> 00:09:21,899  
for to be the first to break the

203  
00:09:25,910 --> 00:09:24,420  
information whoever breaks the

204  
00:09:28,790 --> 00:09:25,920  
information we will relay the

205  
00:09:30,530 --> 00:09:28,800  
information so that's the main point of

206  
00:09:32,570 --> 00:09:30,540  
that part of the software

207  
00:09:33,170 --> 00:09:32,580  
another part will be

208  
00:09:36,710 --> 00:09:33,180  
um

209  
00:09:38,449 --> 00:09:36,720  
a personal research so you can do that

210  
00:09:41,030 --> 00:09:38,459  
when you have reliable resources but

211  
00:09:44,269 --> 00:09:41,040  
when you have an information right

212  
00:09:47,690 --> 00:09:44,279  
images from somebody unknown or somebody

213  
00:09:49,970 --> 00:09:47,700

new with software can't recognize it so

214

00:09:52,730 --> 00:09:49,980

we will have a team that is designed to

215

00:09:54,949 --> 00:09:52,740

do my work that is to look for Reliable

216

00:09:57,230 --> 00:09:54,959

interesting piece of information and

217

00:10:00,650 --> 00:09:57,240

that's a planetary level right now as

218

00:10:02,930 --> 00:10:00,660

the search engine is designed to observe

219

00:10:05,750 --> 00:10:02,940

the language you are using it's limiting

220

00:10:09,170 --> 00:10:05,760

the answers to the language you are

221

00:10:11,389 --> 00:10:09,180

looking for so there is all work to do

222

00:10:13,250 --> 00:10:11,399

with different types of keywords in all

223

00:10:15,350 --> 00:10:13,260

the languages we use on Earth to look

224

00:10:18,710 --> 00:10:15,360

for information everywhere

225

00:10:21,710 --> 00:10:18,720

and we can then also do that in the past

226

00:10:24,590 --> 00:10:21,720

so once we told once we will have to

227

00:10:27,769 --> 00:10:24,600

teach the software to do that at the

228

00:10:30,350 --> 00:10:27,779

present time we can ask him to do that

229

00:10:33,170 --> 00:10:30,360

in the past and to look for specific

230

00:10:36,470 --> 00:10:33,180

areas of information so for example any

231

00:10:38,110 --> 00:10:36,480

article that was between the 15 and 17

232

00:10:42,710 --> 00:10:38,120

April

233

00:10:44,990 --> 00:10:42,720

1974 with the word UFO inside on 10

234

00:10:47,750 --> 00:10:45,000

kilometers around that town and it will

235

00:10:50,930 --> 00:10:47,760

look for that information so that's the

236

00:10:53,449 --> 00:10:50,940

idea of that too so not only

237

00:10:55,490 --> 00:10:53,459

find the information but find the

238

00:10:56,990 --> 00:10:55,500

information everywhere and that every

239

00:11:00,290 --> 00:10:57,000

time

240

00:11:01,449 --> 00:11:00,300

wow wow that won't be enough that won't

241

00:11:03,530 --> 00:11:01,459

be enough

242

00:11:05,030 --> 00:11:03,540

that's incredible so and so you've been

243

00:11:06,350 --> 00:11:05,040

you've been kind of testing it out so it

244

00:11:08,509 --> 00:11:06,360

sounds like the things that I see you

245

00:11:10,550 --> 00:11:08,519

posting and sharing you're you're

246

00:11:12,590 --> 00:11:10,560

pulling from that engine that is in

247

00:11:14,750 --> 00:11:12,600

development that it's already working in

248

00:11:17,509 --> 00:11:14,760

some respect no I'm the I'm the test

249

00:11:20,269 --> 00:11:17,519

group so I'm trying my hardest to beat

250

00:11:23,690 --> 00:11:20,279

it and he's trying his hardest to beat

251  
00:11:26,030 --> 00:11:23,700  
me and we are fine tuning it as long as

252  
00:11:27,410 --> 00:11:26,040  
there is a difference between the two

253  
00:11:30,050 --> 00:11:27,420  
incredible

254  
00:11:31,150 --> 00:11:30,060  
so far this sounds like MotoGP today

255  
00:11:34,370 --> 00:11:31,160  
with

256  
00:11:36,290 --> 00:11:34,380  
Yaya and Mark Marquez uh trying as hard

257  
00:11:37,670 --> 00:11:36,300  
as to be one another and touching one

258  
00:11:40,370 --> 00:11:37,680  
another up a little bit

259  
00:11:43,490 --> 00:11:40,380  
um Deb you know you as a person who

260  
00:11:46,670 --> 00:11:43,500  
researches data and looks for archives

261  
00:11:49,130 --> 00:11:46,680  
and and places where information is is

262  
00:11:50,990 --> 00:11:49,140  
sort of hidden and and you found so much

263  
00:11:52,970 --> 00:11:51,000

of it I I have to think that this is

264

00:11:55,910 --> 00:11:52,980

pretty intriguing for you yeah actually

265

00:11:59,269 --> 00:11:55,920

one thing I've discovered is that once a

266

00:12:02,870 --> 00:11:59,279

topic gets put out in the media it like

267

00:12:04,910 --> 00:12:02,880

almost pollutes Google like if you go to

268

00:12:06,710 --> 00:12:04,920

Google you have to go like 10 pages in

269

00:12:09,230 --> 00:12:06,720

before you're getting that same thing

270

00:12:11,090 --> 00:12:09,240

over and over I cannot tell you how many

271

00:12:14,030 --> 00:12:11,100

gimbal pictures I have seen doing

272

00:12:15,590 --> 00:12:14,040

searches I'm very tired of it what

273

00:12:18,050 --> 00:12:15,600

happens though when I find things is

274

00:12:19,970 --> 00:12:18,060

it's like a back door like sometimes

275

00:12:23,389 --> 00:12:19,980

there's a website that's not even

276

00:12:26,930 --> 00:12:23,399

linking something but still has that on

277

00:12:28,850 --> 00:12:26,940

a page and you find something so I've

278

00:12:30,470 --> 00:12:28,860

been really on top of what Baptiste has

279

00:12:32,329 --> 00:12:30,480

been putting out because he's finding

280

00:12:35,810 --> 00:12:32,339

things that are much harder to find with

281

00:12:37,670 --> 00:12:35,820

Google right now and it's amazing so I

282

00:12:42,550 --> 00:12:37,680

really appreciate your work back Feast

283

00:12:48,170 --> 00:12:45,769

to design the world search engine by

284

00:12:49,250 --> 00:12:48,180

himself I'm only the test group in the

285

00:12:51,050 --> 00:12:49,260

operation

286

00:12:52,970 --> 00:12:51,060

and I wanted to come back to one thing

287

00:12:55,670 --> 00:12:52,980

that you said just just so I have the

288

00:12:58,670 --> 00:12:55,680

clarity on it so did I understand you

289

00:13:02,329 --> 00:12:58,680

correctly that the UAP check is a

290

00:13:06,350 --> 00:13:02,339

product of jaipan like that it's no no

291

00:13:08,210 --> 00:13:06,360

that's all uh microvial Will Made in

292

00:13:11,090 --> 00:13:08,220

large Parts but technology that is used

293

00:13:15,889 --> 00:13:11,100

by the Japan but the technology is is

294

00:13:18,110 --> 00:13:15,899

his so now we are offering that

295

00:13:20,930 --> 00:13:18,120

technology to everyone that wants to use

296

00:13:23,329 --> 00:13:20,940

it and the search engine is only a small

297

00:13:24,710 --> 00:13:23,339

part of the technology we have got it

298

00:13:27,710 --> 00:13:24,720

wow

299

00:13:29,269 --> 00:13:27,720

a shout out to uh all things unexplained

300

00:13:31,730 --> 00:13:29,279

our new homies are going to do that big

301

00:13:34,850 --> 00:13:31,740

round table with us these guys are so

302

00:13:37,970 --> 00:13:34,860

cool uh and in July uh they're going to

303

00:13:39,350 --> 00:13:37,980

do a a mega Roundtable with cab and

304

00:13:41,629 --> 00:13:39,360

hopefully there'll be like 10 of us on

305

00:13:43,190 --> 00:13:41,639

there it'll be ridiculous and uh we're

306

00:13:44,449 --> 00:13:43,200

all going to have a topic so everyone's

307

00:13:47,329 --> 00:13:44,459

gonna have to brainstorm for that

308

00:13:48,590 --> 00:13:47,339

episode so what's up party people uh

309

00:13:51,350 --> 00:13:48,600

thank you all we appreciate what y'all

310

00:13:52,610 --> 00:13:51,360

do as well very excited about that uh

311

00:13:54,530 --> 00:13:52,620

and Nathan man you gotta talked to

312

00:13:57,190 --> 00:13:54,540

noctivigent man we got to get one with

313

00:13:59,569 --> 00:13:57,200

them too those guys are awesome yeah

314

00:14:02,750 --> 00:13:59,579

they were so cool

315

00:14:05,030 --> 00:14:02,760

um Baptiste so it can you uh set

316

00:14:08,690 --> 00:14:05,040

something that you did for me was to say

317

00:14:11,210 --> 00:14:08,700

uh okay if somebody I'm a person and

318

00:14:12,590 --> 00:14:11,220

well obviously you guys knew that it was

319

00:14:15,129 --> 00:14:12,600

probably a person anyway although

320

00:14:18,850 --> 00:14:15,139

there's some question I have some doubts

321

00:14:22,250 --> 00:14:18,860

I'm pointing some doubts here

322

00:14:25,190 --> 00:14:22,260

I have some doubts here on the screen we

323

00:14:26,930 --> 00:14:25,200

do I think there is Thursday out but you

324

00:14:28,730 --> 00:14:26,940

know you you ran through for me what it

325

00:14:30,470 --> 00:14:28,740

would be like if someone has a

326

00:14:32,449 --> 00:14:30,480

particular encounter and they want to

327

00:14:33,889 --> 00:14:32,459

report it and what happens at that point

328

00:14:36,110 --> 00:14:33,899

so I think that's a good jumping off

329

00:14:38,090 --> 00:14:36,120

point to speak about the technology yeah

330

00:14:41,269 --> 00:14:38,100

sure so but some of the parts of a

331

00:14:43,910 --> 00:14:41,279

technology made by Michael Bayo uh in

332

00:14:45,949 --> 00:14:43,920

inside the Japan they designed a method

333

00:14:47,930 --> 00:14:45,959

to cancel out buyers the problem you

334

00:14:50,750 --> 00:14:47,940

have when you are working with human

335

00:14:52,610 --> 00:14:50,760

intelligence is that humans have an ego

336

00:14:55,129 --> 00:14:52,620

humans have a brain and they interpret

337

00:14:58,610 --> 00:14:55,139

data and what you want is the pure data

338

00:15:00,829 --> 00:14:58,620

so you need to have a whole system that

339

00:15:03,590 --> 00:15:00,839

seems simple from the outside but is

340

00:15:05,870 --> 00:15:03,600

designed to cancel out any input you

341

00:15:08,930 --> 00:15:05,880

could add to the signal so we can

342

00:15:12,170 --> 00:15:08,940

extract only the information we need to

343

00:15:14,389 --> 00:15:12,180

be sure of what you sow the idea is that

344

00:15:17,090 --> 00:15:14,399

the software does that automatically and

345

00:15:19,670 --> 00:15:17,100

is perfectly transparent so it shows you

346

00:15:23,090 --> 00:15:19,680

what is the information collected and

347

00:15:26,210 --> 00:15:23,100

what it Compares it to so the witness

348

00:15:29,329 --> 00:15:26,220

can choose where the software is

349

00:15:32,410 --> 00:15:29,339

agreeing with him or not and the

350

00:15:36,290 --> 00:15:32,420

percentile of Correspondence between

351  
00:15:39,829 --> 00:15:36,300  
what the witness so and describes and

352  
00:15:43,910 --> 00:15:39,839  
what the database can explain and then

353  
00:15:46,550 --> 00:15:43,920  
if the witness thinks Nothing fits the

354  
00:15:49,129 --> 00:15:46,560  
description of the software I can edit a

355  
00:15:50,389 --> 00:15:49,139  
full witness report and send into a

356  
00:15:53,329 --> 00:15:50,399  
grant investigator and the ground

357  
00:15:55,730 --> 00:15:53,339  
investigator as a full Consular bias

358  
00:15:58,069 --> 00:15:55,740  
Report with the citing and every piece

359  
00:16:00,230 --> 00:15:58,079  
of information we could gather

360  
00:16:02,449 --> 00:16:00,240  
it's a filter basically so that they

361  
00:16:04,129 --> 00:16:02,459  
they can say you know they may

362  
00:16:07,670 --> 00:16:04,139  
legitimately think I don't know what

363  
00:16:09,350 --> 00:16:07,680

this is and I it could be something and

364

00:16:11,689 --> 00:16:09,360

for that person this is going to offer

365

00:16:14,269 --> 00:16:11,699

them an opportunity for a prosaic

366

00:16:17,230 --> 00:16:14,279

explanation for what they saw before

367

00:16:20,090 --> 00:16:17,240

they say I saw something that is 100

368

00:16:23,509 --> 00:16:20,100

anomalous because we think that

369

00:16:25,430 --> 00:16:23,519

everybody knows you know I I think there

370

00:16:27,769 --> 00:16:25,440

is a portion

371

00:16:30,290 --> 00:16:27,779

I think that there is something in all

372

00:16:32,329 --> 00:16:30,300

of us and depending upon the length and

373

00:16:35,449 --> 00:16:32,339

breadth and the characteristics of what

374

00:16:38,509 --> 00:16:35,459

you're looking at can discern this is

375

00:16:40,129 --> 00:16:38,519

not something that is is man-made this

376

00:16:42,110 --> 00:16:40,139

is something that is I'm looking at

377

00:16:43,970 --> 00:16:42,120

something that's you know that's how I

378

00:16:46,550 --> 00:16:43,980

felt when I had my exciting when I was a

379

00:16:48,410 --> 00:16:46,560

teenager and I had no Aviation knowledge

380

00:16:50,509 --> 00:16:48,420

you know back then other than that I

381

00:16:51,769 --> 00:16:50,519

loved Aviation

382

00:16:53,569 --> 00:16:51,779

um

383

00:16:57,710 --> 00:16:53,579

so

384

00:16:59,810 --> 00:16:57,720

offer them that opportunity to see

385

00:17:01,210 --> 00:16:59,820

because they may not have decided what

386

00:17:03,590 --> 00:17:01,220

it is yet

387

00:17:05,390 --> 00:17:03,600

see something and be like oh this is

388

00:17:07,210 --> 00:17:05,400

this is Stone Cold this is Close

389

00:17:10,730 --> 00:17:07,220

Encounters go ahead my friend I'm sorry

390

00:17:13,730 --> 00:17:10,740

no I I interrupted uh that's very true

391

00:17:15,829 --> 00:17:13,740

because we have the statistical data

392

00:17:20,630 --> 00:17:15,839

from the witnesses because we've been

393

00:17:23,090 --> 00:17:20,640

doing that for since 1977. so when you

394

00:17:26,689 --> 00:17:23,100

have the data from the witness it

395

00:17:29,810 --> 00:17:26,699

accurate at 90 percent there is 10

396

00:17:32,510 --> 00:17:29,820

percent that is a mistake from the

397

00:17:34,010 --> 00:17:32,520

specific eyesight of the witness of the

398

00:17:37,250 --> 00:17:34,020

specific lightning of the time of the

399

00:17:40,970 --> 00:17:37,260

day but 90 is true the problem is that

400

00:17:41,870 --> 00:17:40,980

after the data that is recorded by the

401  
00:17:45,470 --> 00:17:41,880  
brain

402  
00:17:47,690 --> 00:17:45,480  
the mind trying to explain it it looks

403  
00:17:50,690 --> 00:17:47,700  
like a plane it looks like a balloon and

404  
00:17:54,289 --> 00:17:50,700  
that's when you have a modification of

405  
00:17:56,270 --> 00:17:54,299  
the memory to fit what the brain thinks

406  
00:17:59,930 --> 00:17:56,280  
it is because it's simpler for the brain

407  
00:18:02,029 --> 00:17:59,940  
to cover it with a simple explanation so

408  
00:18:04,370 --> 00:18:02,039  
the world problem we have is to cancel

409  
00:18:06,169 --> 00:18:04,380  
out that narrative that is created by

410  
00:18:09,470 --> 00:18:06,179  
the brain to explain the phenomenon and

411  
00:18:11,930 --> 00:18:09,480  
just get back to what it looked like but

412  
00:18:14,390 --> 00:18:11,940  
what it was

413  
00:18:16,370 --> 00:18:14,400

that's amazing yeah the the key task

414

00:18:19,970 --> 00:18:16,380

here separating the signal from all of

415

00:18:22,490 --> 00:18:19,980

the noise and there undoubtedly is a lot

416

00:18:24,230 --> 00:18:22,500

of noise that is out there in social

417

00:18:26,330 --> 00:18:24,240

media if someone's saying they're seeing

418

00:18:28,190 --> 00:18:26,340

something they're posting about it uh

419

00:18:29,750 --> 00:18:28,200

how many videos have we all seen someone

420

00:18:30,890 --> 00:18:29,760

saying they think it's something but

421

00:18:33,049 --> 00:18:30,900

it's actually just the starlink

422

00:18:34,490 --> 00:18:33,059

satellites crossing the sky it's not

423

00:18:36,350 --> 00:18:34,500

that this was gonna is gonna help folks

424

00:18:38,330 --> 00:18:36,360

eliminate that and move it to the side

425

00:18:40,970 --> 00:18:38,340

and and leave hopefully the really good

426

00:18:44,330 --> 00:18:40,980

stuff the truly anomalous uh content

427

00:18:46,070 --> 00:18:44,340

left for us to analyze now is it um one

428

00:18:47,810 --> 00:18:46,080

question I have for you is is that is it

429

00:18:50,570 --> 00:18:47,820

like an app that will be on the phone or

430

00:18:53,510 --> 00:18:50,580

or on the web a wet website how is uh

431

00:18:55,610 --> 00:18:53,520

the user interacting with UAP check so

432

00:18:57,529 --> 00:18:55,620

it's a simple form you can go on the

433

00:18:59,150 --> 00:18:57,539

internet with through the website and

434

00:19:01,010 --> 00:18:59,160

you fill out the information it takes

435

00:19:02,570 --> 00:19:01,020

between 30 seconds to five minutes

436

00:19:04,610 --> 00:19:02,580

depending on the amount of information

437

00:19:08,570 --> 00:19:04,620

you collected and then you have

438

00:19:10,669 --> 00:19:08,580

automatically what is the results

439

00:19:12,110 --> 00:19:10,679

amazing and when will it be is it live

440

00:19:14,450 --> 00:19:12,120

now when will people be able to use it

441

00:19:16,370 --> 00:19:14,460

oh we're thinking via summer for the for

442

00:19:18,650 --> 00:19:16,380

this part of the software

443

00:19:20,930 --> 00:19:18,660

fantastic awesome we're close it's

444

00:19:23,570 --> 00:19:20,940

already working right now it's just very

445

00:19:25,490 --> 00:19:23,580

ugly it's like Windows 95 uh type of

446

00:19:27,590 --> 00:19:25,500

tool because we did not need to have an

447

00:19:30,950 --> 00:19:27,600

interface before it was just an internal

448

00:19:32,630 --> 00:19:30,960

software right right

449

00:19:34,490 --> 00:19:32,640

um that's fantastic well one question I

450

00:19:35,510 --> 00:19:34,500

have for you um I wanted you because I

451  
00:19:37,909 --> 00:19:35,520  
know you've thought about this a little

452  
00:19:40,730 --> 00:19:37,919  
bit so what do you think is going to

453  
00:19:43,669 --> 00:19:40,740  
happen when and if the topic becomes

454  
00:19:45,650 --> 00:19:43,679  
more mainstream there's been a lot of

455  
00:19:47,450 --> 00:19:45,660  
folks who've kept it afloat like uh you

456  
00:19:50,210 --> 00:19:47,460  
know our show as an example but a very

457  
00:19:53,390 --> 00:19:50,220  
small example of keeping the interest in

458  
00:19:54,650 --> 00:19:53,400  
this topic alive the the researchers I'm

459  
00:19:57,710 --> 00:19:54,660  
thinking of people like the David

460  
00:20:00,590 --> 00:19:57,720  
marlers who've got tremendous Archive of

461  
00:20:02,390 --> 00:20:00,600  
information about black triangles uh

462  
00:20:05,690 --> 00:20:02,400  
keeping that towards that flame alive

463  
00:20:07,190 --> 00:20:05,700

until the wider sort of world begins to

464

00:20:09,289 --> 00:20:07,200

pay attention what do you see happening

465

00:20:11,090 --> 00:20:09,299

when that shift occurs do you see kind

466

00:20:13,130 --> 00:20:11,100

of a handoff occurring there do you do

467

00:20:15,950 --> 00:20:13,140

you see a greater institutional

468

00:20:17,810 --> 00:20:15,960

investment and awareness uh is the role

469

00:20:19,909 --> 00:20:17,820

that kind of small players have played

470

00:20:21,350 --> 00:20:19,919

will it just kind of fade away or will

471

00:20:23,570 --> 00:20:21,360

it be will there be a partnership what

472

00:20:25,730 --> 00:20:23,580

do you think will happen there

473

00:20:29,630 --> 00:20:25,740

I think there will be an historical

474

00:20:32,570 --> 00:20:29,640

retcon I think that the only way that

475

00:20:34,370 --> 00:20:32,580

Society will accept it is to say that

476

00:20:36,650 --> 00:20:34,380

they always accepted it and it was an

477

00:20:38,210 --> 00:20:36,660

illusion that there was stigma it's what

478

00:20:40,610 --> 00:20:38,220

happens when you have Scientific

479

00:20:42,289 --> 00:20:40,620

Revolution all of a sudden one day

480

00:20:44,690 --> 00:20:42,299

everybody agrees that there is a new

481

00:20:46,850 --> 00:20:44,700

paradigm in town and it was just the old

482

00:20:49,370 --> 00:20:46,860

days where people didn't think that way

483

00:20:52,370 --> 00:20:49,380

so that's what will happen and there

484

00:20:54,830 --> 00:20:52,380

won't be any trouble it will just be a

485

00:20:57,350 --> 00:20:54,840

shift for those like us that have been

486

00:20:58,789 --> 00:20:57,360

aware of what it was in the time but for

487

00:21:01,669 --> 00:20:58,799

most of the people that subject that

488

00:21:04,010 --> 00:21:01,679

doesn't even exist in their reality it's

489

00:21:07,190 --> 00:21:04,020

just that it will pop inside the reality

490

00:21:09,049 --> 00:21:07,200

one day the response well of course it's

491

00:21:11,210 --> 00:21:09,059

true I always knew that was true yeah

492

00:21:13,970 --> 00:21:11,220

that's right that

493

00:21:16,490 --> 00:21:13,980

I think I hear that now from people that

494

00:21:17,330 --> 00:21:16,500

that like about 24 months ago were like

495

00:21:20,289 --> 00:21:17,340

oh

496

00:21:23,570 --> 00:21:20,299

like absolutely Green Man absolutely

497

00:21:26,230 --> 00:21:23,580

stigma to give you an idea a statistical

498

00:21:29,630 --> 00:21:26,240

Point uh

499

00:21:31,630 --> 00:21:29,640

alphago I could concentrate every piece

500

00:21:35,570 --> 00:21:31,640

of reliable information

501  
00:21:41,450 --> 00:21:35,580  
in 10 tweets per week

502  
00:21:46,850 --> 00:21:44,750  
and yeah instrumentals it's tremendous

503  
00:21:47,630 --> 00:21:46,860  
thank you so much yeah I'm more out

504  
00:21:49,130 --> 00:21:47,640  
there

505  
00:21:51,950 --> 00:21:49,140  
um I want to get a question in from the

506  
00:21:53,930 --> 00:21:51,960  
chat uh this is our uh the host of uh

507  
00:21:56,330 --> 00:21:53,940  
actually they're the authors of uh they

508  
00:21:58,549 --> 00:21:56,340  
wrote a book The Bigfoot influencers and

509  
00:22:01,190 --> 00:21:58,559  
they also have a podcast uh Tim and Dana

510  
00:22:02,870 --> 00:22:01,200  
and they want to know uh I'll I'll win

511  
00:22:04,789 --> 00:22:02,880  
this too but I want to get Baptist if we

512  
00:22:07,370 --> 00:22:04,799  
witness a sighting what should we

513  
00:22:08,270 --> 00:22:07,380

immediately write down slash log about

514

00:22:10,430 --> 00:22:08,280

it

515

00:22:12,950 --> 00:22:10,440

so what do you think that they should

516

00:22:15,590 --> 00:22:12,960

should copy down uh when they see

517

00:22:17,210 --> 00:22:15,600

something about these so I will presume

518

00:22:19,789 --> 00:22:17,220

that they have a phone on them because

519

00:22:21,890 --> 00:22:19,799

that support that's our situations or

520

00:22:23,350 --> 00:22:21,900

everybody has a phone on inside so if

521

00:22:26,390 --> 00:22:23,360

you have a phone you have your GPS

522

00:22:27,289 --> 00:22:26,400

coordinates so you need to record your

523

00:22:29,330 --> 00:22:27,299

GPS

524

00:22:31,730 --> 00:22:29,340

you just go to Google map select your

525

00:22:33,610 --> 00:22:31,740

position and record the point you create

526

00:22:37,130 --> 00:22:33,620

on the map so that gives you the GPS

527

00:22:40,669 --> 00:22:37,140

then you take a picture of the wall

528

00:22:43,549 --> 00:22:40,679

field in front of view centered on the

529

00:22:46,669 --> 00:22:43,559

on where you saw the point we really

530

00:22:50,630 --> 00:22:46,679

need to have the field of view with the

531

00:22:52,190 --> 00:22:50,640

ground or pieces of buildings or trees

532

00:22:54,470 --> 00:22:52,200

somewhere so we can't find the

533

00:22:56,630 --> 00:22:54,480

restaurants don't try to estimate the

534

00:22:59,029 --> 00:22:56,640

elevation by yourself of a decent by

535

00:23:01,549 --> 00:22:59,039

yourself the human brain is very very

536

00:23:04,370 --> 00:23:01,559

bad at that even even trained military

537

00:23:06,890 --> 00:23:04,380

people are very bad advisor don't waste

538

00:23:09,590 --> 00:23:06,900

time doing that just take a picture with

539

00:23:11,690 --> 00:23:09,600

a wall field and pieces of ground and in

540

00:23:14,330 --> 00:23:11,700

the picture you put the point where you

541

00:23:16,789 --> 00:23:14,340

saw it and that's all we need as a piece

542

00:23:19,490 --> 00:23:16,799

of information inside the software you

543

00:23:22,010 --> 00:23:19,500

will have the same thing you will have a

544

00:23:24,730 --> 00:23:22,020

map you point the map you draw an arrow

545

00:23:28,310 --> 00:23:24,740

towards the point you are looking at

546

00:23:30,710 --> 00:23:28,320

you show how high were your was leveled

547

00:23:32,330 --> 00:23:30,720

your head to give us an inclination and

548

00:23:35,090 --> 00:23:32,340

then the software does the cross

549

00:23:37,850 --> 00:23:35,100

referencing with the databases

550

00:23:39,230 --> 00:23:37,860

that that is great stuff uh right there

551  
00:23:41,210 --> 00:23:39,240  
because I didn't I never really thought

552  
00:23:42,770 --> 00:23:41,220  
about that but yeah you need to like you

553  
00:23:44,330 --> 00:23:42,780  
said you need to see the area around it

554  
00:23:46,430 --> 00:23:44,340  
and then you could zoom in and get as

555  
00:23:48,289 --> 00:23:46,440  
close as you can after you capture the

556  
00:23:49,970 --> 00:23:48,299  
area and you know try to zoom in on what

557  
00:23:53,510 --> 00:23:49,980  
the object is the other thing is you're

558  
00:23:55,190 --> 00:23:53,520  
listening for sound and so if you know

559  
00:23:57,289 --> 00:23:55,200  
dirigibles don't necessarily make any

560  
00:23:59,390 --> 00:23:57,299  
sound but then if it makes a movement

561  
00:24:02,029 --> 00:23:59,400  
that is uncharacteristic a rapid

562  
00:24:04,669 --> 00:24:02,039  
movement in One Direction or another at

563  
00:24:06,470 --> 00:24:04,679

90 degree angles that's something and

564

00:24:09,289 --> 00:24:06,480

and you're not hearing a correlated

565

00:24:11,750 --> 00:24:09,299

engine noise or noise of some sort of a

566

00:24:13,750 --> 00:24:11,760

propulsion with it that is something

567

00:24:16,490 --> 00:24:13,760

that would get my attention right away

568

00:24:18,049 --> 00:24:16,500

uh and there's there's other things I'm

569

00:24:19,970 --> 00:24:18,059

not gonna you know in terms of light

570

00:24:23,270 --> 00:24:19,980

sources that I don't want to go into

571

00:24:24,890 --> 00:24:23,280

here uh but anybody can reach out to me

572

00:24:27,350 --> 00:24:24,900

and I can give you sort of the checklist

573

00:24:29,810 --> 00:24:27,360

that I would go through if I was looking

574

00:24:31,850 --> 00:24:29,820

at something to try to figure out if if

575

00:24:33,890 --> 00:24:31,860

it was anomalous beyond the the just the

576

00:24:36,010 --> 00:24:33,900

gut feeling but that's the main thing is

577

00:24:37,909 --> 00:24:36,020

do I hear something in is it moving

578

00:24:39,070 --> 00:24:37,919

uncharacteristically of what we call an

579

00:24:42,529 --> 00:24:39,080

aircraft

580

00:24:45,529 --> 00:24:42,539

moving at right angles starting and

581

00:24:49,610 --> 00:24:45,539

stopping quickly and no apparent sound

582

00:24:52,029 --> 00:24:49,620

associated with with that so anyway so I

583

00:24:55,310 --> 00:24:52,039

would I would opposed to that because

584

00:24:57,470 --> 00:24:55,320

there is also a counter by us so by

585

00:24:59,770 --> 00:24:57,480

restricting too much the amount of

586

00:25:02,330 --> 00:24:59,780

information you put in

587

00:25:05,149 --> 00:25:02,340

you are really limiting the number of

588

00:25:07,549 --> 00:25:05,159

rule cases that are happening so that's

589

00:25:10,210 --> 00:25:07,559

why in the in the software you have like

590

00:25:14,270 --> 00:25:10,220

10 to 15 pages that describe the event

591

00:25:16,850 --> 00:25:14,280

piece by piece of movement size shape

592

00:25:19,970 --> 00:25:16,860

colors movement of colors movements over

593

00:25:22,310 --> 00:25:19,980

crafts because every piece of these

594

00:25:25,490 --> 00:25:22,320

information is important to reach a

595

00:25:26,930 --> 00:25:25,500

conclusion afterwards so by it's really

596

00:25:29,690 --> 00:25:26,940

interesting your way of doing it when

597

00:25:32,330 --> 00:25:29,700

you have like 200 000 cases in a

598

00:25:35,029 --> 00:25:32,340

database and you want the really really

599

00:25:37,610 --> 00:25:35,039

good one you want the top 0.5 percent

600

00:25:39,350 --> 00:25:37,620

other cases so and that that's working

601  
00:25:41,330 --> 00:25:39,360  
but when you're working with human

602  
00:25:43,789 --> 00:25:41,340  
intelligence you really need to expand

603  
00:25:44,870 --> 00:25:43,799  
the funnel and then to work on each

604  
00:25:47,149 --> 00:25:44,880  
report

605  
00:25:49,430 --> 00:25:47,159  
you're absolutely right I'm sort of

606  
00:25:52,250 --> 00:25:49,440  
people a couple different podcasts I've

607  
00:25:55,250 --> 00:25:52,260  
been on they ask me what do I look for

608  
00:25:57,230 --> 00:25:55,260  
if I or what would I look for if I saw

609  
00:25:59,029 --> 00:25:57,240  
something to evaluate whether it was

610  
00:26:01,430 --> 00:25:59,039  
anomalous or not but you are right you

611  
00:26:04,549 --> 00:26:01,440  
need to widen out that funnel capture

612  
00:26:06,529 --> 00:26:04,559  
all the data and then let the experts go

613  
00:26:08,930 --> 00:26:06,539

in and look at it and evaluate it and

614

00:26:11,390 --> 00:26:08,940

discriminate as Nathan said filter out

615

00:26:13,669 --> 00:26:11,400

the signal from the noise so yeah you're

616

00:26:16,070 --> 00:26:13,679

right I'm I'm thinking in a sort of a

617

00:26:17,570 --> 00:26:16,080

different context than uh that's two

618

00:26:19,789 --> 00:26:17,580

different methodologies for two

619

00:26:21,890 --> 00:26:19,799

different outputs thanks yeah

620

00:26:23,990 --> 00:26:21,900

um but let's go to Deb I don't I want to

621

00:26:25,970 --> 00:26:24,000

leave Deb how you doing girlfriend

622

00:26:28,549 --> 00:26:25,980

yeah I have a couple questions actually

623

00:26:31,490 --> 00:26:28,559

that I want to really touch on the first

624

00:26:34,430 --> 00:26:31,500

is we talked about partnership and kind

625

00:26:35,750 --> 00:26:34,440

of making this available to the public I

626

00:26:37,730 --> 00:26:35,760

know that there are countries that are

627

00:26:40,010 --> 00:26:37,740

just not getting recognized as they

628

00:26:43,010 --> 00:26:40,020

should be like you know Mexico has a lot

629

00:26:44,870 --> 00:26:43,020

of um stuff going on and they have a lot

630

00:26:46,789 --> 00:26:44,880

of serious researchers that actually

631

00:26:48,950 --> 00:26:46,799

involve themselves with their

632

00:26:51,830 --> 00:26:48,960

governments you know Chile

633

00:26:54,289 --> 00:26:51,840

um Peru you know so it goes on and on so

634

00:26:56,750 --> 00:26:54,299

I wanted to know if any of those people

635

00:26:59,570 --> 00:26:56,760

from those organizations are working

636

00:27:03,529 --> 00:26:59,580

with you on this and the second part of

637

00:27:06,169 --> 00:27:03,539

that is will the results be public also

638

00:27:08,990 --> 00:27:06,179

uh what type of results

639

00:27:10,970 --> 00:27:09,000

um when you do all the analysis when

640

00:27:13,070 --> 00:27:10,980

people are reporting is that going to be

641

00:27:16,549 --> 00:27:13,080

available for people to see in return

642

00:27:19,850 --> 00:27:16,559

okay so for the first question we are

643

00:27:22,549 --> 00:27:19,860

currently briefing every Association and

644

00:27:24,470 --> 00:27:22,559

a research group we can find about the

645

00:27:26,750 --> 00:27:24,480

subject and the other planetary level

646

00:27:28,490 --> 00:27:26,760

that's that's why it's taking us so much

647

00:27:29,810 --> 00:27:28,500

time to reach out to everybody and to

648

00:27:31,549 --> 00:27:29,820

explain what we are doing to everybody

649

00:27:34,370 --> 00:27:31,559

because we don't want to Blind sign

650

00:27:37,010 --> 00:27:34,380

anyone and as you said there are a

651  
00:27:39,289 --> 00:27:37,020  
tremendous amount of groups that are

652  
00:27:42,049 --> 00:27:39,299  
looking into it right now and it's

653  
00:27:44,630 --> 00:27:42,059  
increasing day by day and indeed we have

654  
00:27:49,370 --> 00:27:44,640  
contact with almost the old Earth at

655  
00:27:51,289 --> 00:27:49,380  
that point and uh as what it is for the

656  
00:27:53,870 --> 00:27:51,299  
results yes so that's another part of a

657  
00:27:55,430 --> 00:27:53,880  
project so in the in your partial group

658  
00:27:58,490 --> 00:27:55,440  
project would be the scientific studies

659  
00:28:00,409 --> 00:27:58,500  
so all the data we can collect from the

660  
00:28:02,269 --> 00:28:00,419  
software will be available publicly for

661  
00:28:04,970 --> 00:28:02,279  
researchers evidently we will be

662  
00:28:08,029 --> 00:28:04,980  
protecting the personal information of

663  
00:28:11,810 --> 00:28:08,039

the witness and we will Design specific

664

00:28:13,789 --> 00:28:11,820

tools so you can have a constant 3D map

665

00:28:15,769 --> 00:28:13,799

of all the sightings that are currently

666

00:28:17,570 --> 00:28:15,779

happening and different tools that

667

00:28:22,250 --> 00:28:17,580

allows you to scroll through different

668

00:28:25,610 --> 00:28:24,350

and Deb you're mentioning you had

669

00:28:28,070 --> 00:28:25,620

another question so if you have

670

00:28:30,230 --> 00:28:28,080

something else that you wanted yeah the

671

00:28:31,970 --> 00:28:30,240

second one was the results part but I

672

00:28:34,190 --> 00:28:31,980

guess I'm I will just throw this

673

00:28:35,510 --> 00:28:34,200

question out there and see how you'd

674

00:28:37,250 --> 00:28:35,520

handle it

675

00:28:40,669 --> 00:28:37,260

um a lot of people do report having

676  
00:28:42,350 --> 00:28:40,679  
personal physical experiences with uavs

677  
00:28:45,350 --> 00:28:42,360  
and I was just wondering if you're going

678  
00:28:47,029 --> 00:28:45,360  
to touch on that experience or aspect or

679  
00:28:50,930 --> 00:28:47,039  
if it's just going to be about seeing

680  
00:28:54,049 --> 00:28:50,940  
the object so right now it's a UAP check

681  
00:28:56,090 --> 00:28:54,059  
so we are checking what is pretty much a

682  
00:28:58,370 --> 00:28:56,100  
nail phenomena that is right in the

683  
00:29:00,169 --> 00:28:58,380  
environment of a witness and we have a

684  
00:29:02,710 --> 00:29:00,179  
specificity in France we have one

685  
00:29:06,289 --> 00:29:02,720  
Association that is called the zero

686  
00:29:08,750 --> 00:29:06,299  
c-e-r-o that is giving psychological

687  
00:29:10,490 --> 00:29:08,760  
support to close encounter witness and

688  
00:29:12,010 --> 00:29:10,500

we have a war Laboratories discovered

689

00:29:13,630 --> 00:29:12,020

CSA

690

00:29:16,850 --> 00:29:13,640

Circe

691

00:29:19,490 --> 00:29:16,860

that is a state-funded laboratory that

692

00:29:22,669 --> 00:29:19,500

is giving also psychological herbs to

693

00:29:28,549 --> 00:29:24,769

I love that so so basically you're not

694

00:29:31,610 --> 00:29:28,559

set up yet to deal with experiencers and

695

00:29:33,470 --> 00:29:31,620

that sort of uh the the narratives and

696

00:29:35,810 --> 00:29:33,480

the unpacking of of those sorts of

697

00:29:38,450 --> 00:29:35,820

experiences am I am I do I have that

698

00:29:41,269 --> 00:29:38,460

right that's not where our expertise

699

00:29:44,090 --> 00:29:41,279

lies okay so there you go I mean that's

700

00:29:46,669 --> 00:29:44,100

that's a great thing right there

701  
00:29:49,490 --> 00:29:46,679  
um so I I was going to ask you a

702  
00:29:50,330 --> 00:29:49,500  
Baptiste in terms of

703  
00:29:53,029 --> 00:29:50,340  
um

704  
00:29:55,130 --> 00:29:53,039  
say this taking the temperature of

705  
00:29:58,070 --> 00:29:55,140  
France and you know one of the reasons

706  
00:30:00,950 --> 00:29:58,080  
is because we you are sort of our link

707  
00:30:03,769 --> 00:30:00,960  
to France at this point I hope that some

708  
00:30:05,930 --> 00:30:03,779  
of your colleagues and and uh

709  
00:30:08,510 --> 00:30:05,940  
compatriots and friends will come out

710  
00:30:10,310 --> 00:30:08,520  
and and by the way you can sort of send

711  
00:30:12,590 --> 00:30:10,320  
them over to speak with us because we we

712  
00:30:14,990 --> 00:30:12,600  
do want to get more engagement from

713  
00:30:17,149 --> 00:30:15,000

people like I said beyond just you know

714

00:30:18,710 --> 00:30:17,159

the couple of countries that were that

715

00:30:21,409 --> 00:30:18,720

are contributing and we know that

716

00:30:23,630 --> 00:30:21,419

they're out there but where do you see

717

00:30:25,909 --> 00:30:23,640

your country France at right now in

718

00:30:28,250 --> 00:30:25,919

terms of this topic when you do you when

719

00:30:30,889 --> 00:30:28,260

you speak in public about it with uh or

720

00:30:33,230 --> 00:30:30,899

in you know parties or so forth with

721

00:30:35,090 --> 00:30:33,240

colleagues what is what are you what's

722

00:30:38,330 --> 00:30:35,100

your assessment of what we're looking at

723

00:30:41,210 --> 00:30:38,340

now so it changes a lot in the last two

724

00:30:45,110 --> 00:30:41,220

years you really you know yourself in

725

00:30:46,909 --> 00:30:45,120

every newspaper that is uh publishing an

726  
00:30:49,909 --> 00:30:46,919  
article about it there is no jokes

727  
00:30:51,409 --> 00:30:49,919  
anymore nowhere to be found so and it's

728  
00:30:55,130 --> 00:30:51,419  
quite impressive see because as French

729  
00:30:57,830 --> 00:30:55,140  
we love to ridicule so it's very very

730  
00:31:00,769 --> 00:30:57,840  
extreme to see that in just two years

731  
00:31:04,130 --> 00:31:00,779  
all the jokes disappeared and you only

732  
00:31:08,149 --> 00:31:04,140  
have them when somebody is asked on the

733  
00:31:11,570 --> 00:31:08,159  
TV on the TV and he hasn't prepared an

734  
00:31:13,970 --> 00:31:11,580  
answer so he tries to to to cancel out

735  
00:31:15,950 --> 00:31:13,980  
the question by a joke but even then the

736  
00:31:18,169 --> 00:31:15,960  
journalist launches back the question

737  
00:31:20,750 --> 00:31:18,179  
and wants to have an answer so it's

738  
00:31:22,789 --> 00:31:20,760

quite interesting but we don't have a

739

00:31:25,549 --> 00:31:22,799

culture you have in the us where we talk

740

00:31:27,409 --> 00:31:25,559

about problems so as long as the US will

741

00:31:29,930 --> 00:31:27,419

be the one talking out loud about it

742

00:31:31,730 --> 00:31:29,940

there is just no interest for France to

743

00:31:33,889 --> 00:31:31,740

talk about it because you are taking all

744

00:31:36,110 --> 00:31:33,899

the risk and all the heat for it so we

745

00:31:38,810 --> 00:31:36,120

will be following as long as you are

746

00:31:41,389 --> 00:31:38,820

willing to talk about it if you reach

747

00:31:46,090 --> 00:31:41,399

our Disclosure by yourself very well and

748

00:31:49,070 --> 00:31:46,100

then if you fail we will take the the

749

00:31:50,690 --> 00:31:49,080

next position and we will try to reach

750

00:31:53,029 --> 00:31:50,700

out to a disclosure

751

00:31:55,490 --> 00:31:53,039

yeah this is very much uh if you had

752

00:31:57,049 --> 00:31:55,500

these a very very similar design to the

753

00:31:58,789 --> 00:31:57,059

Wright brothers and you were aware of it

754

00:32:01,010 --> 00:31:58,799

it's like hey let them go out and flight

755

00:32:02,690 --> 00:32:01,020

test out on Kill Devil Hills see how

756

00:32:05,529 --> 00:32:02,700

they do and if then they do we'll go

757

00:32:08,450 --> 00:32:05,539

we'll go run our test you know

758

00:32:10,490 --> 00:32:08,460

you also need to consider but we are

759

00:32:12,590 --> 00:32:10,500

different countries so we are not sure

760

00:32:15,409 --> 00:32:12,600

that all the craft we are witnessing

761

00:32:17,930 --> 00:32:15,419

aren't American prototypes of a

762

00:32:20,210 --> 00:32:17,940

breakthrough technology so we had to be

763

00:32:23,630 --> 00:32:20,220

kosher we have to be cautious too

764

00:32:25,909 --> 00:32:23,640

yeah now I I've I've spoke uh at length

765

00:32:28,310 --> 00:32:25,919

about sovereignty a lot of people think

766

00:32:30,830 --> 00:32:28,320

that the United States is controlling

767

00:32:32,630 --> 00:32:30,840

what other countries are doing and that

768

00:32:35,090 --> 00:32:32,640

really belies the notion of sovereignty

769

00:32:38,510 --> 00:32:35,100

particularly when unless you have a

770

00:32:40,789 --> 00:32:38,520

country who's you know their domestic uh

771

00:32:43,430 --> 00:32:40,799

you know product is dependent upon U.S

772

00:32:44,930 --> 00:32:43,440

Aid to you know to survive and and

773

00:32:46,970 --> 00:32:44,940

France is certainly not one of those

774

00:32:49,610 --> 00:32:46,980

countries so

775

00:32:51,409 --> 00:32:49,620

um so I have a question from the arrow

776

00:32:52,909 --> 00:32:51,419

gentleman here and this one is off the

777

00:32:54,830 --> 00:32:52,919

cuff has nothing to do with what we've

778

00:32:56,510 --> 00:32:54,840

been talking about today but I think we

779

00:32:59,810 --> 00:32:56,520

can get Baptiste and everybody else to

780

00:33:02,269 --> 00:32:59,820

react to it is Bob Lazar's UFO story

781

00:33:05,210 --> 00:33:02,279

true or false Baptiste you first and

782

00:33:08,269 --> 00:33:05,220

then we'll go Deb and Nathan or Nathan

783

00:33:10,909 --> 00:33:08,279

it's unproven

784

00:33:12,289 --> 00:33:10,919

what do you your if your gut feeling

785

00:33:14,450 --> 00:33:12,299

your opinion

786

00:33:17,269 --> 00:33:14,460

but I don't care about it it's unproven

787

00:33:19,310 --> 00:33:17,279

there is nothing to prove it oh very

788

00:33:22,009 --> 00:33:19,320

data driven I love it look at this man

789

00:33:23,990 --> 00:33:22,019

we got another TJ Allard in here Nathan

790

00:33:26,750 --> 00:33:24,000

yeah I um

791

00:33:29,330 --> 00:33:26,760

I mean it's fascinating right the the

792

00:33:32,090 --> 00:33:29,340

George Knapp the story and the 80s and

793

00:33:34,190 --> 00:33:32,100

uh some facts that uh later turned out

794

00:33:36,950 --> 00:33:34,200

to be true but he's certainly super

795

00:33:39,049 --> 00:33:36,960

controversial uh figure

796

00:33:41,570 --> 00:33:39,059

um so I think as Baptist is alluding to

797

00:33:42,769 --> 00:33:41,580

it's there's there's so much

798

00:33:44,810 --> 00:33:42,779

um

799

00:33:46,430 --> 00:33:44,820

there's so many confusing aspects to the

800

00:33:48,950 --> 00:33:46,440

story that it's difficult to say this

801  
00:33:51,649 --> 00:33:48,960  
has a lot of at least right now a lot of

802  
00:33:53,389 --> 00:33:51,659  
validity uh that we can kind of hang our

803  
00:33:55,850 --> 00:33:53,399  
head on that

804  
00:33:58,549 --> 00:33:55,860  
um like a lot of things in the UFO lore

805  
00:34:01,549 --> 00:33:58,559  
it it is fraught with some confusing

806  
00:34:04,789 --> 00:34:01,559  
elements that make it difficult to parse

807  
00:34:06,590 --> 00:34:04,799  
uh truth from fiction so I don't know

808  
00:34:08,329 --> 00:34:06,600  
it'll be interesting and certainly I

809  
00:34:11,270 --> 00:34:08,339  
will credit Bob Lazar for getting a lot

810  
00:34:12,589 --> 00:34:11,280  
of folks interested in the topic uh so

811  
00:34:14,450 --> 00:34:12,599  
at the end of the day whether it's true

812  
00:34:17,149 --> 00:34:14,460  
or not it's certainly gotten a lot of

813  
00:34:19,849 --> 00:34:17,159

attention and I tend to think that that

814

00:34:21,710 --> 00:34:19,859

is a net positive overall

815

00:34:24,109 --> 00:34:21,720

that's a great Point I've never heard

816

00:34:27,589 --> 00:34:24,119

that pointed out before people just look

817

00:34:29,990 --> 00:34:27,599

at the edit it look at Nathan to sort of

818

00:34:31,790 --> 00:34:30,000

color between the go outside the lines

819

00:34:33,829 --> 00:34:31,800

there say it's either true or it's false

820

00:34:35,990 --> 00:34:33,839

well this is you know Nathan likes to

821

00:34:38,270 --> 00:34:36,000

find what's positive about a person or

822

00:34:40,190 --> 00:34:38,280

situation and he was just able to do it

823

00:34:42,109 --> 00:34:40,200

right there and extract something

824

00:34:43,430 --> 00:34:42,119

positive out of Lazar whether you

825

00:34:45,950 --> 00:34:43,440

believe him or not more people are

826  
00:34:47,750 --> 00:34:45,960  
talking about it Debs

827  
00:34:50,690 --> 00:34:47,760  
so

828  
00:34:52,250 --> 00:34:50,700  
I this one's tough for me because I

829  
00:34:53,349 --> 00:34:52,260  
don't like to say negative things about

830  
00:34:57,290 --> 00:34:53,359  
people

831  
00:35:00,290 --> 00:34:57,300  
but I will say that I am aware of his

832  
00:35:03,050 --> 00:35:00,300  
background not beings very solid and I

833  
00:35:04,490 --> 00:35:03,060  
am aware of some of his friends and what

834  
00:35:06,710 --> 00:35:04,500  
their motives might have been for the

835  
00:35:09,650 --> 00:35:06,720  
story to get out

836  
00:35:11,930 --> 00:35:09,660  
um so that kind of changes my view of

837  
00:35:15,530 --> 00:35:11,940  
what he's presenting but I want to

838  
00:35:18,950 --> 00:35:15,540

clarify that when the Avro car was being

839

00:35:21,890 --> 00:35:18,960

made people did come out and say I saw

840

00:35:24,290 --> 00:35:21,900

you know saucers inside with the U.S

841

00:35:27,230 --> 00:35:24,300

government and no one believed them so

842

00:35:29,569 --> 00:35:27,240

whether or not he saw something or how

843

00:35:33,410 --> 00:35:29,579

he worked there who knows don't know

844

00:35:35,750 --> 00:35:33,420

there might be some element of Truth to

845

00:35:38,990 --> 00:35:35,760

what he's saying is what I'm willing to

846

00:35:42,290 --> 00:35:41,150

oh that's that's very fair and I've

847

00:35:43,849 --> 00:35:42,300

always said to people there's nothing

848

00:35:45,950 --> 00:35:43,859

wrong with saying you know what the

849

00:35:49,670 --> 00:35:45,960

story doesn't resonate with me I I don't

850

00:35:51,829 --> 00:35:49,680

believe it and that's acceptable then

851  
00:35:53,630 --> 00:35:51,839  
rather going into launching what some

852  
00:35:55,970 --> 00:35:53,640  
people will do is they'll launch into an

853  
00:35:57,530 --> 00:35:55,980  
entire tirade tearing apart the person

854  
00:35:58,849 --> 00:35:57,540  
from top to bottom which you really

855  
00:36:00,650 --> 00:35:58,859  
don't need to do you can just say I

856  
00:36:02,650 --> 00:36:00,660  
don't believe it or I don't believe him

857  
00:36:05,930 --> 00:36:02,660  
for me personally

858  
00:36:07,430 --> 00:36:05,940  
looking at all of the evidence that I've

859  
00:36:11,030 --> 00:36:07,440  
heard not looking at his character

860  
00:36:13,430 --> 00:36:11,040  
because you don't know how many uh of

861  
00:36:15,770 --> 00:36:13,440  
these guys uh that work at classified

862  
00:36:17,750 --> 00:36:15,780  
facilities or at strip clubs and doing

863  
00:36:19,970 --> 00:36:17,760

God knows what

864

00:36:22,609 --> 00:36:19,980

um it's it's not like they don't have

865

00:36:24,109 --> 00:36:22,619

regular lives and and you don't know

866

00:36:27,050 --> 00:36:24,119

what they do when they're when they're

867

00:36:29,390 --> 00:36:27,060

not on site what I would say is in my

868

00:36:32,630 --> 00:36:29,400

opinion there is enough

869

00:36:35,650 --> 00:36:32,640

uh evidence that he worked at a couple

870

00:36:37,849 --> 00:36:35,660

of the places that he worked I know that

871

00:36:41,210 --> 00:36:37,859

particularly at the time frame of the

872

00:36:44,510 --> 00:36:41,220

80s I know from my own college that I

873

00:36:46,370 --> 00:36:44,520

went to that if a federal uh agent went

874

00:36:49,550 --> 00:36:46,380

in there and said give me these records

875

00:36:51,109 --> 00:36:49,560

uh paper they would disappear

876

00:36:53,390 --> 00:36:51,119

um if that's what they wanted to

877

00:36:56,030 --> 00:36:53,400

happen and I'm not a con anybody here

878

00:36:59,750 --> 00:36:56,040

can tell you I'm not conspiracy theorist

879

00:37:02,569 --> 00:36:59,760

so I think that there he I have heard

880

00:37:05,089 --> 00:37:02,579

enough based on Eugene G based on some

881

00:37:08,930 --> 00:37:05,099

of the procedures for

882

00:37:11,510 --> 00:37:08,940

um getting onboarded at a place like the

883

00:37:13,910 --> 00:37:11,520

Groom Lake test facility or Air Force

884

00:37:16,190 --> 00:37:13,920

debt three whatever it's called over

885

00:37:18,109 --> 00:37:16,200

there at Groom Lake there's enough of

886

00:37:19,490 --> 00:37:18,119

that to lead me to believe that he

887

00:37:23,510 --> 00:37:19,500

probably worked there and he probably

888

00:37:25,550 --> 00:37:23,520

saw Nick saw something uh

889

00:37:27,230 --> 00:37:25,560

and you know you have people like George

890

00:37:29,750 --> 00:37:27,240

Knapp that that brought it out there and

891

00:37:32,510 --> 00:37:29,760

I don't think that he would make up a

892

00:37:34,250 --> 00:37:32,520

story I to become famous or anything

893

00:37:35,990 --> 00:37:34,260

like that I think

894

00:37:38,450 --> 00:37:36,000

um he did a lot of background checking

895

00:37:40,970 --> 00:37:38,460

and figured out that this guy worked

896

00:37:43,670 --> 00:37:40,980

there what he saw when when he worked

897

00:37:45,470 --> 00:37:43,680

there nobody knows unless you work there

898

00:37:48,050 --> 00:37:45,480

you won't have any idea what he saw

899

00:37:50,750 --> 00:37:48,060

could he have fabricated what he saw

900

00:37:52,970 --> 00:37:50,760

there yes but the fact that he worked

901  
00:37:54,829 --> 00:37:52,980  
there uh and then when you listen to

902  
00:37:57,410 --> 00:37:54,839  
people like Rick Doty who also worked

903  
00:38:00,050 --> 00:37:57,420  
there and said that there is some

904  
00:38:03,710 --> 00:38:00,060  
um he did not get into the area where

905  
00:38:06,890 --> 00:38:03,720  
Bob supposedly worked uh but that there

906  
00:38:08,870 --> 00:38:06,900  
is a um uh he did see some things that

907  
00:38:11,390 --> 00:38:08,880  
he could not explain in the couple of

908  
00:38:13,190 --> 00:38:11,400  
tdys he did out there so

909  
00:38:15,650 --> 00:38:13,200  
um I think there's a good portion of

910  
00:38:18,890 --> 00:38:15,660  
that are true his care his personal

911  
00:38:22,930 --> 00:38:18,900  
character notwithstanding

912  
00:38:30,829 --> 00:38:25,790  
I will I will add something on that

913  
00:38:32,990 --> 00:38:30,839

so what I really like uh timelines and

914

00:38:35,810 --> 00:38:33,000

um what always interested me is that

915

00:38:41,030 --> 00:38:35,820

Liza came out in H2 if I remember well

916

00:38:43,849 --> 00:38:41,040

I'm talking about Area 51 and before you

917

00:38:46,069 --> 00:38:43,859

have 51 what was the main interest of

918

00:38:48,710 --> 00:38:46,079

the UFO Community when they were looking

919

00:38:51,530 --> 00:38:48,720

for Crush retrievals

920

00:38:53,290 --> 00:38:51,540

uh what right Patterson Roswell

921

00:38:56,030 --> 00:38:53,300

right about this on the Air Force Base

922

00:38:59,270 --> 00:38:56,040

it was where the Blue Book Project was I

923

00:39:02,690 --> 00:38:59,280

said including its secret parts and

924

00:39:05,870 --> 00:39:02,700

since then the shift has always been on

925

00:39:08,630 --> 00:39:05,880

area 51. and in intelligence we call

926  
00:39:12,109 --> 00:39:08,640  
that magic trick you you show a light

927  
00:39:13,670 --> 00:39:12,119  
here so people don't look here

928  
00:39:16,550 --> 00:39:13,680  
well let's talk about that for a second

929  
00:39:18,530 --> 00:39:16,560  
so if you want a flight test something

930  
00:39:25,130 --> 00:39:18,540  
that

931  
00:39:28,370 --> 00:39:25,140  
launch test flights out of suburban

932  
00:39:31,310 --> 00:39:28,380  
Southern Ohio in Dayton no you you can't

933  
00:39:34,190 --> 00:39:31,320  
do that so you have to earmark a place

934  
00:39:36,890 --> 00:39:34,200  
that's so far out of the way and then

935  
00:39:39,470 --> 00:39:36,900  
you have to restrict airspace around it

936  
00:39:42,050 --> 00:39:39,480  
so that as a commercial airliner you

937  
00:39:45,349 --> 00:39:42,060  
can't even fly over this airspace

938  
00:39:46,910 --> 00:39:45,359

so you can't get there over the air you

939

00:39:49,310 --> 00:39:46,920

can't get there on the ground and that's

940

00:39:52,030 --> 00:39:49,320

where you would conduct any I would want

941

00:39:55,010 --> 00:39:52,040

to test anything that flies is somewhere

942

00:39:57,650 --> 00:39:55,020

where it is very difficult for the

943

00:39:59,930 --> 00:39:57,660

public to see it which is why when they

944

00:40:01,490 --> 00:39:59,940

talk about like the Calvin incident and

945

00:40:03,109 --> 00:40:01,500

they're you know launching it out over

946

00:40:04,430 --> 00:40:03,119

over Scotland where there's Villages

947

00:40:06,410 --> 00:40:04,440

right around there that's not something

948

00:40:07,190 --> 00:40:06,420

you would really want to do I'm sorry go

949

00:40:09,670 --> 00:40:07,200

ahead

950

00:40:13,010 --> 00:40:09,680

yes but you are talking here about

951  
00:40:15,410 --> 00:40:13,020  
man-made crafts man-made crafts are the

952  
00:40:17,690 --> 00:40:15,420  
signature they are real you you can see

953  
00:40:20,750 --> 00:40:17,700  
them you can hear them the crash

954  
00:40:25,069 --> 00:40:20,760  
retrievals units we are talking out by

955  
00:40:27,650 --> 00:40:25,079  
Design ourselves Beyond any extent that

956  
00:40:31,430 --> 00:40:27,660  
we are right now and it was already

957  
00:40:34,790 --> 00:40:31,440  
itself 70 years ago so you can learn

958  
00:40:37,190 --> 00:40:34,800  
them and use them whenever you want

959  
00:40:40,910 --> 00:40:37,200  
well if you have if you have an area

960  
00:40:43,370 --> 00:40:40,920  
like Dayton Ohio for example and you

961  
00:40:46,870 --> 00:40:43,380  
have a craft lift up to about 500 foot

962  
00:40:49,730 --> 00:40:46,880  
AGL I mean you have people for Miles

963  
00:40:51,349 --> 00:40:49,740

that can see whatever that is like let

964

00:40:54,530 --> 00:40:51,359

let's say that he's telling the truth

965

00:40:57,650 --> 00:40:54,540

and I and and someone was able to test

966

00:40:59,270 --> 00:40:57,660

some sort of a saucer you know and and

967

00:41:01,550 --> 00:40:59,280

was able to I don't know that that

968

00:41:03,170 --> 00:41:01,560

happened you know that's a whole

969

00:41:05,750 --> 00:41:03,180

discussion in itself and we'll never

970

00:41:07,910 --> 00:41:05,760

we'll never know until we know so to

971

00:41:09,470 --> 00:41:07,920

speaking uh whether they were able to put a

972

00:41:11,089 --> 00:41:09,480

human inside one of these craft and

973

00:41:14,030 --> 00:41:11,099

actually fly it right

974

00:41:15,829 --> 00:41:14,040

oh you had design at the time but you

975

00:41:18,349 --> 00:41:15,839

are really looking towards it you have

976  
00:41:21,470 --> 00:41:18,359  
the Russian thermal plan and you have as

977  
00:41:23,930 --> 00:41:21,480  
Deb said the Avro you could really make

978  
00:41:27,109 --> 00:41:23,940  
people think that it was UFOs you even

979  
00:41:30,050 --> 00:41:27,119  
have favor uh describing events where he

980  
00:41:35,050 --> 00:41:30,060  
was doing nighttime flights above the

981  
00:41:39,349 --> 00:41:35,060  
desert uh locating uh ground uh

982  
00:41:41,810 --> 00:41:39,359  
fires with a compass and going very low

983  
00:41:44,569 --> 00:41:41,820  
above them then roaring the Giants so

984  
00:41:46,250 --> 00:41:44,579  
people thought it was UFOs so it's a

985  
00:41:48,710 --> 00:41:46,260  
very long tradition

986  
00:41:50,329 --> 00:41:48,720  
yeah it's it's again it it depends if

987  
00:41:52,790 --> 00:41:50,339  
you if you understand what you're

988  
00:41:55,490 --> 00:41:52,800

looking for and listening for some sort

989

00:41:57,829 --> 00:41:55,500

of a craft like that looks like a saucer

990

00:41:59,569 --> 00:41:57,839

like an Avro car type of thing now what

991

00:42:02,569 --> 00:41:59,579

we're talking about is you have to have

992

00:42:04,730 --> 00:42:02,579

a turbine engine with a bunch of

993

00:42:06,770 --> 00:42:04,740

different ducted exhaust over there sort

994

00:42:09,589 --> 00:42:06,780

of like if anyone's seen the video of

995

00:42:11,329 --> 00:42:09,599

Neil Neil Armstrong testing out the

996

00:42:13,609 --> 00:42:11,339

actually he wasn't testing he was

997

00:42:15,290 --> 00:42:13,619

practicing in the lunar lander outside

998

00:42:17,810 --> 00:42:15,300

of Houston and one of the Rockets

999

00:42:20,030 --> 00:42:17,820

misfires in it and it kind of starts to

1000

00:42:23,510 --> 00:42:20,040

to to Arc over and he pulls the ejection

1001

00:42:25,310 --> 00:42:23,520

seat and he flies out of it if you have

1002

00:42:26,810 --> 00:42:25,320

something like that the amount of fuel

1003

00:42:28,310 --> 00:42:26,820

that you would need I mean basically you

1004

00:42:30,710 --> 00:42:28,320

would have to have the entire saucer

1005

00:42:32,870 --> 00:42:30,720

would have to be a fuel tank in order to

1006

00:42:35,810 --> 00:42:32,880

be able to hover it would make an

1007

00:42:39,290 --> 00:42:35,820

enormous amount of of noise uh with the

1008

00:42:42,349 --> 00:42:39,300

technology that we have in order to uh

1009

00:42:44,510 --> 00:42:42,359

to be able to hover and be stable and go

1010

00:42:46,550 --> 00:42:44,520

forward so I mean it's very much would

1011

00:42:48,470 --> 00:42:46,560

fly like the way that a drone flies

1012

00:42:51,349 --> 00:42:48,480

except it would be a lot of speeder

1013

00:42:54,170 --> 00:42:51,359

Springs and flyweights to duct the the

1014

00:42:57,530 --> 00:42:54,180

thrust exhaust coming out of that engine

1015

00:43:00,950 --> 00:42:57,540

and it just would not do for for what a

1016

00:43:02,390 --> 00:43:00,960

UFO actually is with the with the

1017

00:43:06,230 --> 00:43:02,400

possible exception of the thing that

1018

00:43:08,690 --> 00:43:06,240

Lani Zamora uh saw that kind of I mean

1019

00:43:11,990 --> 00:43:08,700

if it's exactly as he says it kind of

1020

00:43:14,329 --> 00:43:12,000

lends itself to something like that but

1021

00:43:15,589 --> 00:43:14,339

um but that's not again if I'm testing

1022

00:43:18,650 --> 00:43:15,599

things like that I don't want to be

1023

00:43:20,870 --> 00:43:18,660

testing it over Suburban uh Dayton Ohio

1024

00:43:22,609 --> 00:43:20,880

but I would want to test it something

1025

00:43:24,050 --> 00:43:22,619

like that out there in the mid middle of

1026

00:43:27,950 --> 00:43:24,060

nowhere in the desert where I know

1027

00:43:30,410 --> 00:43:27,960

people cannot get a good view of of what

1028

00:43:32,390 --> 00:43:30,420

I'm testing and they picked a perfect

1029

00:43:34,849 --> 00:43:32,400

spot to do that and it by the way it's

1030

00:43:37,190 --> 00:43:34,859

not the only spot there's there's you

1031

00:43:38,569 --> 00:43:37,200

know dugway in Utah there's China Lake

1032

00:43:40,790 --> 00:43:38,579

in California and then there's places

1033

00:43:44,210 --> 00:43:40,800

that I don't even know about uh probably

1034

00:43:46,430 --> 00:43:44,220

several of them so I think that is where

1035

00:43:47,930 --> 00:43:46,440

you would test something try to fly

1036

00:43:51,170 --> 00:43:47,940

something if you were going to do that

1037

00:43:53,450 --> 00:43:51,180

and and that's why whereas perhaps these

1038

00:43:55,490 --> 00:43:53,460

bodies or pieces of this record these

1039

00:43:57,410 --> 00:43:55,500

wreckages have been brought to a place

1040

00:43:58,849 --> 00:43:57,420

where they have underground I mean

1041

00:44:02,210 --> 00:43:58,859

Kirtland Air Force Base also has

1042

00:44:04,010 --> 00:44:02,220

underground areas and so does uh so does

1043

00:44:05,990 --> 00:44:04,020

Wright-Patterson that's where you would

1044

00:44:07,970 --> 00:44:06,000

want to be able to do deep analysis on

1045

00:44:10,609 --> 00:44:07,980

any sort of a biology that you captured

1046

00:44:12,530 --> 00:44:10,619

or materials

1047

00:44:14,089 --> 00:44:12,540

um Wright-Patterson will be perfect but

1048

00:44:17,210 --> 00:44:14,099

certainly not for flying and flight

1049

00:44:21,109 --> 00:44:19,010

um anyway well and I think you both

1050

00:44:23,569 --> 00:44:21,119

highlight just the challenge here in in

1051  
00:44:27,550 --> 00:44:23,579  
looking at the history of this topic

1052  
00:44:31,309 --> 00:44:27,560  
because it is muddied quite a bit by

1053  
00:44:32,930 --> 00:44:31,319  
secrecy and subterfuge and and Baptist

1054  
00:44:35,990 --> 00:44:32,940  
you know you point this out I think very

1055  
00:44:38,990 --> 00:44:36,000  
clearly that uh the the tools and the

1056  
00:44:40,990 --> 00:44:39,000  
tricks that the secret keepers have are

1057  
00:44:44,329 --> 00:44:41,000  
uh

1058  
00:44:47,569 --> 00:44:44,339  
they're they're pretty powerful and

1059  
00:44:49,010 --> 00:44:47,579  
they're pretty uh um persuasive um in

1060  
00:44:51,589 --> 00:44:49,020  
the how and the way they can use

1061  
00:44:53,329 --> 00:44:51,599  
misdirection uh to get people looking in

1062  
00:44:56,089 --> 00:44:53,339  
a different way so it's not just

1063  
00:44:57,829 --> 00:44:56,099

steering public opinion for example it's

1064

00:44:59,870 --> 00:44:57,839

during the opinion of your adversaries

1065

00:45:01,790 --> 00:44:59,880

right so if you can say if you can say

1066

00:45:04,130 --> 00:45:01,800

as you said earlier look over here not

1067

00:45:06,890 --> 00:45:04,140

over here then then things can be

1068

00:45:09,950 --> 00:45:06,900

accomplished in secrecy uh to a greater

1069

00:45:12,130 --> 00:45:09,960

degree and I was wondering you know kind

1070

00:45:15,050 --> 00:45:12,140

of in light of that challenge there

1071

00:45:17,210 --> 00:45:15,060

unearthing the truth from a lot of the

1072

00:45:20,390 --> 00:45:17,220

of this information

1073

00:45:22,670 --> 00:45:20,400

um where do you see the role of AI kind

1074

00:45:25,370 --> 00:45:22,680

of going forward in the future piecing

1075

00:45:28,670 --> 00:45:25,380

that apart looking through that Haystack

1076

00:45:31,309 --> 00:45:28,680

of information and gleaning out some

1077

00:45:33,230 --> 00:45:31,319

some facts and Truth amidst all the

1078

00:45:35,510 --> 00:45:33,240

different narratives there so the

1079

00:45:39,109 --> 00:45:35,520

problem with AI is that it's very very

1080

00:45:41,510 --> 00:45:39,119

badass truth it's a very very badass

1081

00:45:43,670 --> 00:45:41,520

finding the truth it's very good at

1082

00:45:46,130 --> 00:45:43,680

telling you what you want to hear and

1083

00:45:49,490 --> 00:45:46,140

guessing what you want to hear but you

1084

00:45:52,130 --> 00:45:49,500

very very bad at truth and to be honest

1085

00:45:53,630 --> 00:45:52,140

we don't use AI in any of your of our

1086

00:45:56,270 --> 00:45:53,640

software because we want to have open

1087

00:46:01,309 --> 00:45:56,280

box of

1088

00:46:03,589 --> 00:46:01,319

uh of uh sorry algorithms because we

1089

00:46:05,809 --> 00:46:03,599

want to know exactly how a piece of

1090

00:46:07,849 --> 00:46:05,819

information and their why a piece of

1091

00:46:12,950 --> 00:46:07,859

information landed there and to be

1092

00:46:17,809 --> 00:46:14,809

right I mean it's only as good as the

1093

00:46:19,790 --> 00:46:17,819

way that you incentivize the AI to look

1094

00:46:21,230 --> 00:46:19,800

for certain things right so but it I

1095

00:46:24,950 --> 00:46:21,240

mean you could program it to say look

1096

00:46:27,050 --> 00:46:24,960

for specific fact patterns look for

1097

00:46:29,210 --> 00:46:27,060

um another example that I've heard that

1098

00:46:30,950 --> 00:46:29,220

I think is a good example of using AI in

1099

00:46:33,710 --> 00:46:30,960

this instance I agree with your general

1100

00:46:37,130 --> 00:46:33,720

premise but a good example of this is

1101  
00:46:39,589 --> 00:46:37,140  
looking at old newspaper articles from

1102  
00:46:41,690 --> 00:46:39,599  
from a long time ago before the world

1103  
00:46:43,910 --> 00:46:41,700  
was rapidly connected in the way that it

1104  
00:46:46,010 --> 00:46:43,920  
is now via the Internet and if you can

1105  
00:46:48,410 --> 00:46:46,020  
look at different articles from

1106  
00:46:50,870 --> 00:46:48,420  
different applications from from

1107  
00:46:53,270 --> 00:46:50,880  
Publications around the world and if

1108  
00:46:55,250 --> 00:46:53,280  
language is similar in those

1109  
00:46:57,770 --> 00:46:55,260  
Publications that can tell you that

1110  
00:47:00,710 --> 00:46:57,780  
there was a source perhaps that fed that

1111  
00:47:02,450 --> 00:47:00,720  
information to those Publications that

1112  
00:47:04,370 --> 00:47:02,460  
the world at the time would not have

1113  
00:47:06,230 --> 00:47:04,380

known it came from a single Source

1114

00:47:07,970 --> 00:47:06,240

because there wasn't that degree of

1115

00:47:10,250 --> 00:47:07,980

interconnectedness but the AI would be

1116

00:47:13,550 --> 00:47:10,260

able to aggregate that analyze that and

1117

00:47:15,710 --> 00:47:13,560

see that there may be a threat ahead so

1118

00:47:17,270 --> 00:47:15,720

to speak in this example that ties those

1119

00:47:19,670 --> 00:47:17,280

different pieces of information together

1120

00:47:21,349 --> 00:47:19,680

I I totally agree that it's a tremendous

1121

00:47:23,990 --> 00:47:21,359

challenge right because we we have to be

1122

00:47:25,730 --> 00:47:24,000

careful how we are programming it what

1123

00:47:28,010 --> 00:47:25,740

kind of algorithmic bias we're putting

1124

00:47:29,809 --> 00:47:28,020

into the AI being aware of those biases

1125

00:47:31,250 --> 00:47:29,819

that's super important and everything

1126

00:47:32,870 --> 00:47:31,260

that we're going to be doing with that

1127

00:47:35,270 --> 00:47:32,880

kind of technology is making sure that

1128

00:47:38,030 --> 00:47:35,280

those those uh you know software devices

1129

00:47:40,309 --> 00:47:38,040

are front and center so as we peruse and

1130

00:47:42,770 --> 00:47:40,319

ingest that information we know oh it's

1131

00:47:45,230 --> 00:47:42,780

it's it's it's going to be leaning and

1132

00:47:47,750 --> 00:47:45,240

waiting information of a certain kind

1133

00:47:49,910 --> 00:47:47,760

more than another kind so to kind of

1134

00:47:52,870 --> 00:47:49,920

take that with a little bit of a digital

1135

00:47:55,970 --> 00:47:52,880

grain of salt if you will

1136

00:47:57,470 --> 00:47:55,980

but what we just said the problem in

1137

00:48:00,410 --> 00:47:57,480

that field is that you have this

1138

00:48:02,809 --> 00:48:00,420

information so you have four strikes of

1139

00:48:06,050 --> 00:48:02,819

research that has been left behind to

1140

00:48:08,150 --> 00:48:06,060

waste your time so when your artificial

1141

00:48:10,970 --> 00:48:08,160

intelligence if you design it for it

1142

00:48:13,250 --> 00:48:10,980

we'll find them but it won't be able to

1143

00:48:16,370 --> 00:48:13,260

know if it's a good track or Force track

1144

00:48:18,829 --> 00:48:16,380

and you will be forced to do that work

1145

00:48:23,690 --> 00:48:21,530

yeah I think what Nathan might say

1146

00:48:26,450 --> 00:48:23,700

though if if your respond Nathan is it

1147

00:48:27,950 --> 00:48:26,460

it could shorten your your time frame if

1148

00:48:30,470 --> 00:48:27,960

it could eliminate some possibilities

1149

00:48:32,630 --> 00:48:30,480

and give you places to look

1150

00:48:34,430 --> 00:48:32,640

yeah absolutely I mean yeah I mean if it

1151  
00:48:37,130 --> 00:48:34,440  
can shorten that that task of collection

1152  
00:48:38,750 --> 00:48:37,140  
right and it can say hey we analyzed X

1153  
00:48:41,089 --> 00:48:38,760  
number of different pieces of

1154  
00:48:44,870 --> 00:48:41,099  
information documentation Publications

1155  
00:48:46,970 --> 00:48:44,880  
Etc we found this frequency of uh of

1156  
00:48:48,349 --> 00:48:46,980  
information that I was looking for you

1157  
00:48:50,089 --> 00:48:48,359  
know that may help me in understanding

1158  
00:48:52,250 --> 00:48:50,099  
the uh the degree to which that

1159  
00:48:54,829 --> 00:48:52,260  
particular claim for example at least

1160  
00:48:56,870 --> 00:48:54,839  
made it into publication or made it into

1161  
00:48:58,910 --> 00:48:56,880  
documentation I still have to I think

1162  
00:49:00,710 --> 00:48:58,920  
this is the valid point here I still

1163  
00:49:01,430 --> 00:49:00,720

have to judge whether or not that is in

1164

00:49:03,890 --> 00:49:01,440

fact

1165

00:49:05,390 --> 00:49:03,900

true just because it appears everywhere

1166

00:49:06,890 --> 00:49:05,400

it doesn't make it true I think that's

1167

00:49:10,190 --> 00:49:06,900

one of the biggest things that we've all

1168

00:49:11,930 --> 00:49:10,200

learned in the last decades about our

1169

00:49:13,970 --> 00:49:11,940

media just because it shows up in all of

1170

00:49:15,950 --> 00:49:13,980

our media it doesn't make it actually a

1171

00:49:18,530 --> 00:49:15,960

true thing right we have to use a

1172

00:49:21,230 --> 00:49:18,540

certain degree of discernment there what

1173

00:49:22,849 --> 00:49:21,240

yeah right it's again just highlights I

1174

00:49:26,030 --> 00:49:22,859

think the the tremendous challenge that

1175

00:49:29,030 --> 00:49:26,040

we have here about getting to the truth

1176

00:49:31,130 --> 00:49:29,040

right who who what where does the does

1177

00:49:35,150 --> 00:49:31,140

the information come from in order for

1178

00:49:39,230 --> 00:49:35,160

the public to say this is true

1179

00:49:41,569 --> 00:49:39,240

so I think I can't talk much about it

1180

00:49:44,210 --> 00:49:41,579

because it's just on the on the drawing

1181

00:49:47,510 --> 00:49:44,220

board but we are designing a tool that

1182

00:49:49,910 --> 00:49:47,520

is very specific to gather a quote from

1183

00:49:50,990 --> 00:49:49,920

people locate the quotes and collaborate

1184

00:49:53,750 --> 00:49:51,000

the quotes

1185

00:49:56,329 --> 00:49:53,760

so for example that would be a much more

1186

00:49:58,250 --> 00:49:56,339

useful tool for a journalists than an

1187

00:50:01,069 --> 00:49:58,260

artificial intelligence able to look for

1188

00:50:02,930 --> 00:50:01,079

just patterns of words because then when

1189

00:50:06,170 --> 00:50:02,940

you have two or three times the same

1190

00:50:08,270 --> 00:50:06,180

quote that is corroborated you are

1191

00:50:10,730 --> 00:50:08,280

pretty sure it's true and you just need

1192

00:50:12,890 --> 00:50:10,740

to recheck one time and your show is

1193

00:50:15,109 --> 00:50:12,900

true and you don't need to rely on the

1194

00:50:17,390 --> 00:50:15,119

context it's just plain words of in

1195

00:50:20,450 --> 00:50:17,400

quotes so that's one of the tools we are

1196

00:50:22,490 --> 00:50:20,460

working on not and and I'm not anti-ai

1197

00:50:24,950 --> 00:50:22,500

just that we are very cautious about it

1198

00:50:27,410 --> 00:50:24,960

because we are in a field where you have

1199

00:50:33,230 --> 00:50:27,420

literal information that are made as

1200

00:50:36,650 --> 00:50:34,849

okay I think that's great I'm glad that

1201

00:50:38,809 --> 00:50:36,660

you are because you should be right it's

1202

00:50:41,150 --> 00:50:38,819

a it's a it's a powerful enough it can

1203

00:50:42,829 --> 00:50:41,160

potentially be a dangerous tool so I

1204

00:50:43,790 --> 00:50:42,839

think that's very smart to be cautious

1205

00:50:47,690 --> 00:50:43,800

there

1206

00:50:52,930 --> 00:50:47,700

about Baptiste in these two visits with

1207

00:50:55,790 --> 00:50:52,940

us he's smart uh oh thank you so much

1208

00:50:58,490 --> 00:50:55,800

I have to invite you to dinner come to

1209

00:51:00,290 --> 00:50:58,500

France I would like to it's one of my

1210

00:51:02,329 --> 00:51:00,300

favorite countries

1211

00:51:03,770 --> 00:51:02,339

um you know the UK and France I just get

1212

00:51:05,150 --> 00:51:03,780

such a great feeling every time I'm

1213

00:51:08,210 --> 00:51:05,160

there

1214

00:51:10,250 --> 00:51:08,220

um so I we have a couple questions but I

1215

00:51:11,809 --> 00:51:10,260

want to get Deb in there first and then

1216

00:51:14,089 --> 00:51:11,819

we'll go to Michael's questions from the

1217

00:51:16,609 --> 00:51:14,099

chat and Julie's question so please go

1218

00:51:19,010 --> 00:51:16,619

ahead Miss Deb yeah so I wanted to speak

1219

00:51:21,049 --> 00:51:19,020

to this concept of truth and how people

1220

00:51:23,750 --> 00:51:21,059

respond to information really quick

1221

00:51:26,510 --> 00:51:23,760

because as we know not that long ago

1222

00:51:29,150 --> 00:51:26,520

maybe about a year ago Lockheed just put

1223

00:51:31,430 --> 00:51:29,160

this craft outside to be photographed

1224

00:51:34,430 --> 00:51:31,440

that looks like a saucer

1225

00:51:37,010 --> 00:51:34,440

um in about a couple years ago a craft

1226

00:51:39,410 --> 00:51:37,020

was actually going down the Beltway in I

1227

00:51:42,170 --> 00:51:39,420

believe Maryland or Virginia that looked

1228

00:51:44,569 --> 00:51:42,180

like a saucer and people were just like

1229

00:51:47,270 --> 00:51:44,579

oh okay well it's obviously not Connor

1230

00:51:49,549 --> 00:51:47,280

V1 right so what if we're just kind of

1231

00:51:52,190 --> 00:51:49,559

guinea pigs you know like sometimes I

1232

00:51:54,349 --> 00:51:52,200

wonder about that the CIA openly

1233

00:51:56,990 --> 00:51:54,359

admitted they told people there were

1234

00:51:58,849 --> 00:51:57,000

UFOs at one point in time to cover up

1235

00:52:00,589 --> 00:51:58,859

one of their projects and there's an

1236

00:52:03,109 --> 00:52:00,599

article about that if anyone wants to

1237

00:52:06,109 --> 00:52:03,119

look at it so it does make me wonder

1238

00:52:08,390 --> 00:52:06,119

like how are we going to actually get

1239

00:52:10,250 --> 00:52:08,400

the truth and believe the truth and

1240

00:52:12,589 --> 00:52:10,260

digest that

1241

00:52:15,650 --> 00:52:12,599

um because so many tricks have been done

1242

00:52:19,370 --> 00:52:15,660

so many like well haha well here's our

1243

00:52:21,230 --> 00:52:19,380

saucer kind of tricks have been done too

1244

00:52:23,109 --> 00:52:21,240

you've asked them a big question go

1245

00:52:27,109 --> 00:52:23,119

ahead about these

1246

00:52:30,950 --> 00:52:27,119

I I think it was a a tool between cobal

1247

00:52:33,470 --> 00:52:30,960

and nap uh where they were debating uh

1248

00:52:36,049 --> 00:52:33,480

they imagined that they were talking to

1249

00:52:38,870 --> 00:52:36,059

the military and trying to convince them

1250

00:52:41,450 --> 00:52:38,880

of opening the doors and talking about

1251  
00:52:44,510 --> 00:52:41,460  
UFOs openly and the National Security

1252  
00:52:46,430 --> 00:52:44,520  
guy answered but what are you going to

1253  
00:52:48,950 --> 00:52:46,440  
do with a piece of information for you

1254  
00:52:49,790 --> 00:52:48,960  
just for your curiosity for us it's a

1255  
00:52:52,849 --> 00:52:49,800  
threat

1256  
00:52:54,950 --> 00:52:52,859  
so I would use the same argument why are

1257  
00:52:58,250 --> 00:52:54,960  
you looking toward intelligence that are

1258  
00:53:01,130 --> 00:52:58,260  
literally paid to lie of the military

1259  
00:53:04,130 --> 00:53:01,140  
that are literally paid to not talk

1260  
00:53:06,470 --> 00:53:04,140  
higher scientists create a hedge fund

1261  
00:53:08,990 --> 00:53:06,480  
higher scientists firm vendor tools they

1262  
00:53:12,589 --> 00:53:09,000  
will find the answer

1263  
00:53:14,630 --> 00:53:12,599

in theory the problem is capturing is to

1264

00:53:18,230 --> 00:53:14,640

be able to capture it you know and and

1265

00:53:21,470 --> 00:53:18,240

because the dod already and obviously

1266

00:53:23,809 --> 00:53:21,480

not only the drd dod the nro you know

1267

00:53:26,150 --> 00:53:23,819

NASA has sensors there's different

1268

00:53:28,490 --> 00:53:26,160

um satellite uh agencies that have

1269

00:53:30,349 --> 00:53:28,500

satellites that can see things that uh

1270

00:53:32,990 --> 00:53:30,359

and pick things up and there's rate you

1271

00:53:34,309 --> 00:53:33,000

know NASA has a massive radar in space

1272

00:53:35,630 --> 00:53:34,319

so

1273

00:53:37,549 --> 00:53:35,640

um that's the problem is that they've

1274

00:53:39,770 --> 00:53:37,559

already funded and have all the sensors

1275

00:53:41,510 --> 00:53:39,780

and there's so much money involved I

1276

00:53:43,609 --> 00:53:41,520

think that's the challenge that Avi lobe

1277

00:53:46,250 --> 00:53:43,619

and his his career coming up with his

1278

00:53:48,470 --> 00:53:46,260

Fielding sensors uh and proliferating

1279

00:53:50,510 --> 00:53:48,480

them it's just a lot a lot of money I'm

1280

00:53:53,390 --> 00:53:50,520

not saying it's impossible but I think

1281

00:53:55,609 --> 00:53:53,400

that's that's a challenge I I think that

1282

00:53:58,630 --> 00:53:55,619

he'll follow the community spend the

1283

00:54:01,730 --> 00:53:58,640

energy they did talking about

1284

00:54:03,589 --> 00:54:01,740

encouraging the gay level project we

1285

00:54:05,690 --> 00:54:03,599

will advance much faster

1286

00:54:07,849 --> 00:54:05,700

now you're absolutely right you're

1287

00:54:09,170 --> 00:54:07,859

absolutely right uh let me get a couple

1288

00:54:10,250 --> 00:54:09,180

questions in here that we have from

1289

00:54:12,109 --> 00:54:10,260

Michael

1290

00:54:13,549 --> 00:54:12,119

um he asked first if you've ever and we

1291

00:54:15,470 --> 00:54:13,559

kind of asked you at this beginning and

1292

00:54:17,809 --> 00:54:15,480

it's probably before Michael logged on

1293

00:54:21,230 --> 00:54:17,819

but he says Batiste have you had a

1294

00:54:25,849 --> 00:54:21,240

life-changing experience every day is a

1295

00:54:30,410 --> 00:54:28,309

he's damn right man

1296

00:54:32,569 --> 00:54:30,420

um but yeah he hasn't seen a UFO Michael

1297

00:54:34,190 --> 00:54:32,579

if that's what you're asking we we asked

1298

00:54:36,410 --> 00:54:34,200

him that in the beginning it wasn't an

1299

00:54:38,030 --> 00:54:36,420

event it was a a question from one of

1300

00:54:41,569 --> 00:54:38,040

his students that started this all

1301  
00:54:43,309 --> 00:54:41,579  
because like any great teacher he says I

1302  
00:54:44,990 --> 00:54:43,319  
don't have all the answers but I'll find

1303  
00:54:46,730 --> 00:54:45,000  
you the answer and that's kind of like

1304  
00:54:48,589 --> 00:54:46,740  
how I'm at work if somebody asked me

1305  
00:54:50,329 --> 00:54:48,599  
something like you know something I need

1306  
00:54:52,730 --> 00:54:50,339  
to know or should know I'll be like I I

1307  
00:54:56,270 --> 00:54:52,740  
don't know I will find find you the

1308  
00:55:04,190 --> 00:54:56,280  
answer it would be unfair of me to let

1309  
00:55:17,690 --> 00:55:06,829  
you did

1310  
00:55:21,710 --> 00:55:17,700  
this question

1311  
00:55:24,410 --> 00:55:21,720  
uh yes I said that it wouldn't be fair

1312  
00:55:27,589 --> 00:55:24,420  
for me to let you say that I didn't see

1313  
00:55:29,870 --> 00:55:27,599

a UFO okay he used double negatives so

1314

00:55:31,910 --> 00:55:29,880

he's saying yes yes he saw one he did

1315

00:55:34,069 --> 00:55:31,920

okay well you don't have to share it if

1316

00:55:36,589 --> 00:55:34,079

you don't want to share it it's okay

1317

00:55:38,710 --> 00:55:36,599

um this uh this question right there

1318

00:55:41,150 --> 00:55:38,720

what do you think about Skinwalker Ranch

1319

00:55:42,950 --> 00:55:41,160

uh are you willing to go there and be a

1320

00:55:45,829 --> 00:55:42,960

ranch hand for a couple weeks

1321

00:55:47,530 --> 00:55:45,839

how I would pay to be there I'm a very

1322

00:55:49,970 --> 00:55:47,540

good guinea pig

1323

00:55:53,569 --> 00:55:49,980

now I would love to to go there to be

1324

00:55:56,930 --> 00:55:53,579

there and I have a full brain scan made

1325

00:55:58,910 --> 00:55:56,940

by one of the best hospital in France to

1326  
00:56:00,890 --> 00:55:58,920  
to check out and compare if I have brain

1327  
00:56:04,370 --> 00:56:00,900  
damage afterwards so there's no problem

1328  
00:56:07,970 --> 00:56:04,380  
for me I will sign any clothes you want

1329  
00:56:10,490 --> 00:56:07,980  
um I I would love to and from every and

1330  
00:56:14,030 --> 00:56:10,500  
if I say that is because every context

1331  
00:56:16,069 --> 00:56:14,040  
that I trust told me that what they were

1332  
00:56:18,950 --> 00:56:16,079  
doing was true

1333  
00:56:21,589 --> 00:56:18,960  
okay and so you're what you're I mean

1334  
00:56:23,890 --> 00:56:21,599  
what do you think about that phenomenon

1335  
00:56:27,049 --> 00:56:23,900  
have you developed any sort of

1336  
00:56:29,569 --> 00:56:27,059  
hypotheses about the origins or origin

1337  
00:56:31,250 --> 00:56:29,579  
if it's a single one what are you what

1338  
00:56:33,650 --> 00:56:31,260

is your leading theory on what you

1339

00:56:36,290 --> 00:56:33,660

think's well it's not even a theory it's

1340

00:56:39,170 --> 00:56:36,300

an idea I like the idea of past

1341

00:56:43,329 --> 00:56:39,180

Chernobyl like something crushed but it

1342

00:56:46,309 --> 00:56:43,339

was a very very nasty Crush like

1343

00:56:47,990 --> 00:56:46,319

very and we have some reports of it

1344

00:56:50,510 --> 00:56:48,000

usually when you have a something that

1345

00:56:53,030 --> 00:56:50,520

crashed either just explode in a

1346

00:56:56,030 --> 00:56:53,040

thousand pieces or it stays in one block

1347

00:56:59,809 --> 00:56:56,040

but you have a few reports where you

1348

00:57:02,210 --> 00:56:59,819

have a Shiva breaks in half and you have

1349

00:57:04,130 --> 00:57:02,220

the two pieces that are separated and I

1350

00:57:05,870 --> 00:57:04,140

think that that's type of disaster that

1351  
00:57:08,870 --> 00:57:05,880  
could have happened and that's explained

1352  
00:57:11,450 --> 00:57:08,880  
a lot of the power spikes leaks of

1353  
00:57:13,790 --> 00:57:11,460  
radiation that kind of stuff

1354  
00:57:16,430 --> 00:57:13,800  
I love that theory I mean that that

1355  
00:57:18,109 --> 00:57:16,440  
makes a lot of sense plus obviously the

1356  
00:57:21,049 --> 00:57:18,119  
physical

1357  
00:57:23,690 --> 00:57:21,059  
um uh what would I call it the barrier

1358  
00:57:26,030 --> 00:57:23,700  
that they encountered in the Mesa where

1359  
00:57:28,370 --> 00:57:26,040  
they they suspected it was Dome shaped

1360  
00:57:31,250 --> 00:57:28,380  
by the reaction of the drill bit after

1361  
00:57:33,950 --> 00:57:31,260  
they drilled uh horizontally into the

1362  
00:57:35,630 --> 00:57:33,960  
Mesa so that's interesting and it's a

1363  
00:57:38,329 --> 00:57:35,640

great Theory

1364

00:57:40,849 --> 00:57:38,339

um Julie asks our chat moderator Jules

1365

00:57:44,329 --> 00:57:40,859

says uh this basically can go for

1366

00:57:46,370 --> 00:57:44,339

Baptist or any of the the folks here uh

1367

00:57:48,349 --> 00:57:46,380

any news about the big uh the big

1368

00:57:51,829 --> 00:57:48,359

Wright-Patt meetings with the big wigs

1369

00:57:56,030 --> 00:57:53,750

do you know anything about t-star I

1370

00:57:59,270 --> 00:57:56,040

haven't so I was looking for a reference

1371

00:58:01,549 --> 00:57:59,280

for you uh for the skin worker Andre is

1372

00:58:03,950 --> 00:58:01,559

a very very good book that has been

1373

00:58:06,650 --> 00:58:03,960

written and it predates the skinwork

1374

00:58:09,910 --> 00:58:06,660

around it's called uh stalker by the

1375

00:58:14,150 --> 00:58:09,920

brothers strugatsky and it's a version

1376

00:58:16,430 --> 00:58:14,160

uh story and it really describes the

1377

00:58:17,930 --> 00:58:16,440

skin worker range so I would encourage

1378

00:58:19,849 --> 00:58:17,940

everybody that is interested in the

1379

00:58:21,109 --> 00:58:19,859

schema programs to read that book and

1380

00:58:22,549 --> 00:58:21,119

then sorry I didn't have a question

1381

00:58:24,049 --> 00:58:22,559

because I was looking for the reference

1382

00:58:26,870 --> 00:58:24,059

no it's okay

1383

00:58:29,809 --> 00:58:26,880

um Julie's asking if you have or either

1384

00:58:33,410 --> 00:58:29,819

Nathan or Deb has any info on the Intel

1385

00:58:35,690 --> 00:58:33,420

or the sort of a higher official meeting

1386

00:58:37,990 --> 00:58:35,700

that was held at wrightpat recently if

1387

00:58:41,930 --> 00:58:38,000

you'd heard anything about that yeah

1388

00:58:44,630 --> 00:58:41,940

as well as far as I know it was related

1389

00:58:46,609 --> 00:58:44,640

to the big leagues of information for

1390

00:58:50,990 --> 00:58:46,619

Military Intelligence on the Minecraft

1391

00:58:53,809 --> 00:58:51,000

server not related to UFOs but what was

1392

00:58:58,069 --> 00:58:53,819

really interesting that the the nature

1393

00:59:02,210 --> 00:58:58,079

of the state then later said that it was

1394

00:59:03,950 --> 00:59:02,220

a very sobering uh briefing here which

1395

00:59:05,049 --> 00:59:03,960

is pretty scary when you think that it

1396

00:59:10,370 --> 00:59:05,059

is

1397

00:59:17,510 --> 00:59:13,849

did you hear anything uh Nathan Deb I I

1398

00:59:21,170 --> 00:59:17,520

heard that it was also about that Reddit

1399

00:59:24,410 --> 00:59:21,180

leak and that's what the focus was the

1400

00:59:28,370 --> 00:59:24,420

issue of security and confidentiality

1401  
00:59:30,890 --> 00:59:28,380  
or yeah the leak issue was that I heard

1402  
00:59:32,329 --> 00:59:30,900  
yeah I think it was the Discord leaks

1403  
00:59:34,549 --> 00:59:32,339  
yeah so we said three different things

1404  
00:59:38,210 --> 00:59:34,559  
but I think it was Discord

1405  
00:59:40,250 --> 00:59:38,220  
um were that young intelligence officer

1406  
00:59:42,530 --> 00:59:40,260  
was sure like basically showboating on

1407  
00:59:44,690 --> 00:59:42,540  
Discord and sharing a bunch of you know

1408  
00:59:47,089 --> 00:59:44,700  
sensitive Secrets

1409  
00:59:48,530 --> 00:59:47,099  
um but even the situation we can be

1410  
00:59:50,630 --> 00:59:48,540  
almost sure that they talk about the

1411  
00:59:53,030 --> 00:59:50,640  
Chinese balloons at least you would

1412  
00:59:54,650 --> 00:59:53,040  
think right uh which I think is still an

1413  
00:59:57,170 --> 00:59:54,660

interesting topic that hasn't really

1414

00:59:59,450 --> 00:59:57,180

been resolved in at least in the public

1415

01:00:01,490 --> 00:59:59,460

uh and as far as I understand not been

1416

01:00:03,049 --> 01:00:01,500

resolved to the satisfaction of the

1417

01:00:04,789 --> 01:00:03,059

Congress either at least the at least

1418

01:00:06,530 --> 01:00:04,799

based on the public statements that

1419

01:00:08,690 --> 01:00:06,540

they've made they still don't really

1420

01:00:11,089 --> 01:00:08,700

know much more than the public knows

1421

01:00:13,730 --> 01:00:11,099

about whatever these objects were that

1422

01:00:15,710 --> 01:00:13,740

were shot down so

1423

01:00:17,030 --> 01:00:15,720

um you know we can certainly say we

1424

01:00:18,349 --> 01:00:17,040

think they were prosaic we don't have

1425

01:00:20,270 --> 01:00:18,359

any reason to believe that they weren't

1426

01:00:24,530 --> 01:00:20,280

but nevertheless it's a little bit odd

1427

01:00:27,410 --> 01:00:24,540

that uh we can get a a cockpit video of

1428

01:00:29,510 --> 01:00:27,420

uh of a of a was it a Reaper drone or

1429

01:00:31,730 --> 01:00:29,520

something that was uh that was gassed

1430

01:00:33,049 --> 01:00:31,740

over in the you know in the Baltic or

1431

01:00:35,510 --> 01:00:33,059

something like that and they released

1432

01:00:37,910 --> 01:00:35,520

that like ASAP but they won't release

1433

01:00:40,150 --> 01:00:37,920

you know shooting a Sidewinder at a

1434

01:00:43,250 --> 01:00:40,160

balloon

1435

01:00:44,750 --> 01:00:43,260

that's a very strange in the February

1436

01:00:45,609 --> 01:00:44,760

shutdowns

1437

01:00:49,190 --> 01:00:45,619

um

1438

01:00:52,190 --> 01:00:49,200

the same information uh he said so

1439

01:00:54,410 --> 01:00:52,200

publicly so there is something very well

1440

01:00:57,410 --> 01:00:54,420

that is happening around that February

1441

01:00:59,150 --> 01:00:57,420

cases I

1442

01:01:01,609 --> 01:00:59,160

thought is that it was really

1443

01:01:03,710 --> 01:01:01,619

interesting how quickly UAP was used to

1444

01:01:06,289 --> 01:01:03,720

discuss that though

1445

01:01:09,490 --> 01:01:06,299

um so it wasn't just like we put that

1446

01:01:11,329 --> 01:01:09,500

title on it they did

1447

01:01:14,270 --> 01:01:11,339

yeah

1448

01:01:16,730 --> 01:01:14,280

um I agree with Nathan I I we don't have

1449

01:01:18,890 --> 01:01:16,740

any any evidence to say that it was

1450

01:01:20,990 --> 01:01:18,900

something other than something Prozac or

1451

01:01:23,870 --> 01:01:21,000

something that was launched by a global

1452

01:01:26,210 --> 01:01:23,880

power competition Nation like obviously

1453

01:01:28,490 --> 01:01:26,220

Russia or China

1454

01:01:31,730 --> 01:01:28,500

um but I can totally understand why they

1455

01:01:33,530 --> 01:01:31,740

would not they would not uh report the

1456

01:01:35,450 --> 01:01:33,540

results of what they found that is

1457

01:01:38,210 --> 01:01:35,460

complete in my mind that's completely

1458

01:01:40,250 --> 01:01:38,220

consistent with what they would do which

1459

01:01:41,750 --> 01:01:40,260

is to say we haven't found it yet we're

1460

01:01:44,210 --> 01:01:41,760

looking for it we don't know what it was

1461

01:01:46,910 --> 01:01:44,220

because once you define it

1462

01:01:48,710 --> 01:01:46,920

uh depending upon what it was then that

1463

01:01:52,130 --> 01:01:48,720

it you know we can get you can get into

1464

01:01:55,670 --> 01:01:52,140

this this uh uh discussion about UAP

1465

01:01:57,890 --> 01:01:55,680

writ large but once you define okay yes

1466

01:02:00,349 --> 01:01:57,900

we found it and this is what it was well

1467

01:02:02,329 --> 01:02:00,359

then whoever launched it if it was one

1468

01:02:04,970 --> 01:02:02,339

of these nations and we think it was we

1469

01:02:07,670 --> 01:02:04,980

don't know for sure because you know

1470

01:02:10,490 --> 01:02:07,680

Common Sense would say that if this were

1471

01:02:12,530 --> 01:02:10,500

another in non-human intelligence craft

1472

01:02:15,049 --> 01:02:12,540

we're probably not going to be able to

1473

01:02:17,030 --> 01:02:15,059

shoot it down with an F-22 the evidence

1474

01:02:19,970 --> 01:02:17,040

you know given by you know everybody

1475

01:02:21,910 --> 01:02:19,980

from Folks at Graham Randall has studied

1476

01:02:26,150 --> 01:02:21,920

up you know up until

1477

01:02:28,430 --> 01:02:26,160

1976 with the Iranian pilot or Iranian

1478

01:02:29,870 --> 01:02:28,440

pilot let me say that correctly

1479

01:02:32,030 --> 01:02:29,880

um so

1480

01:02:33,710 --> 01:02:32,040

um we probably couldn't take down

1481

01:02:36,289 --> 01:02:33,720

something that was of a non-human

1482

01:02:38,870 --> 01:02:36,299

intelligence I would think without maybe

1483

01:02:42,710 --> 01:02:38,880

a very specific type of weapon

1484

01:02:44,569 --> 01:02:42,720

so given that it probably was human made

1485

01:02:46,390 --> 01:02:44,579

and they probably don't want to

1486

01:02:48,829 --> 01:02:46,400

characterize it for the public to let

1487

01:02:50,450 --> 01:02:48,839

those other intelligence Services know

1488

01:02:52,130 --> 01:02:50,460

how they've characterized it and how

1489

01:02:54,530 --> 01:02:52,140

they've defined it

1490

01:02:57,829 --> 01:02:54,540

just Falls sake of the argumentation I

1491

01:03:01,789 --> 01:02:57,839

would oppose that they do Crush

1492

01:03:04,130 --> 01:03:01,799

sure sure no I but if uh the the the the

1493

01:03:07,370 --> 01:03:04,140

times when people say they've shot at

1494

01:03:09,650 --> 01:03:07,380

them uh hasn't been successful I've

1495

01:03:14,030 --> 01:03:09,660

heard of another

1496

01:03:16,549 --> 01:03:14,040

um through somebody that would know uh

1497

01:03:20,390 --> 01:03:16,559

about uh different aircraft that fired

1498

01:03:22,250 --> 01:03:20,400

on one that's not as distant as 1976 and

1499

01:03:25,789 --> 01:03:22,260

it it was able to move out of the way

1500

01:03:28,130 --> 01:03:25,799

predictively before rounds uh collided

1501

01:03:30,890 --> 01:03:28,140

with it so

1502

01:03:34,210 --> 01:03:30,900

um I'm just I'm just taking a stab here

1503

01:03:40,970 --> 01:03:38,030

there's no no missile ever touched one

1504

01:03:43,490 --> 01:03:40,980

or managed to shut down one they are

1505

01:03:46,430 --> 01:03:43,500

they left that missiles but it doesn't

1506

01:03:48,770 --> 01:03:46,440

mean that one time they won't find one

1507

01:03:51,049 --> 01:03:48,780

that is already very damaged and isn't

1508

01:03:54,289 --> 01:03:51,059

able to defend itself yes that's true I

1509

01:03:55,789 --> 01:03:54,299

mean it happened in Independence Day so

1510

01:03:58,490 --> 01:03:55,799

um

1511

01:04:00,890 --> 01:03:58,500

so it is possible but their response is

1512

01:04:02,630 --> 01:04:00,900

I believe is consistent with what I

1513

01:04:05,150 --> 01:04:02,640

would have expected them to do and say

1514

01:04:06,829 --> 01:04:05,160

that that part of it is is what I can

1515

01:04:08,809 --> 01:04:06,839

you know how I would expect them to

1516

01:04:10,910 --> 01:04:08,819

characterize which is hey you know we

1517

01:04:12,829 --> 01:04:10,920

weren't able to find it and when we do

1518

01:04:18,230 --> 01:04:12,839

we'll let you know and that'll be in

1519

01:04:21,230 --> 01:04:18,240

probably 2097. so uh anyway uh let's put

1520

01:04:25,730 --> 01:04:21,240

it up on the screen uh UAP check yep all

1521

01:04:28,190 --> 01:04:25,740

right second here here we go yeah oh we

1522

01:04:32,089 --> 01:04:28,200

have a we have the full website if you

1523

01:04:34,730 --> 01:04:32,099

want oh please yeah all right private

1524

01:04:36,829 --> 01:04:34,740

chat so it's just the backbone it's uh

1525

01:04:38,630 --> 01:04:36,839

it's a build we are working on but it

1526

01:04:41,089 --> 01:04:38,640

will give you an idea

1527

01:04:45,589 --> 01:04:41,099

okay thank you yeah if you could I got

1528

01:04:53,510 --> 01:04:49,609

there it is it is HTTP colon uh is that

1529

01:04:55,789 --> 01:04:53,520

forward slot forward slash uapcheck.com

1530

01:04:58,190 --> 01:04:55,799

um that's awesome man uh you can bring

1531

01:05:00,049 --> 01:04:58,200

in on the screen I can show you around

1532

01:05:02,390 --> 01:05:00,059

if you want oh sure yeah I think you can

1533

01:05:04,430 --> 01:05:02,400

uh share a screen if you want go for it

1534

01:05:07,789 --> 01:05:04,440

brother

1535

01:05:11,930 --> 01:05:07,799

so Baptiste is about to show us uh UAP

1536

01:05:13,430 --> 01:05:11,940

check this new tool UAP reporting how

1537

01:05:19,450 --> 01:05:13,440

would you characterize if you were to

1538

01:05:25,069 --> 01:05:22,309

platform but if you everything you need

1539

01:05:27,230 --> 01:05:25,079

about your APS so uh there is three

1540

01:05:30,109 --> 01:05:27,240

different parts inside the project the

1541

01:05:32,510 --> 01:05:30,119

first part is the news part we will be

1542

01:05:35,030 --> 01:05:32,520

the first launch in two weeks uh what

1543

01:05:36,829 --> 01:05:35,040

you see there is the backbone of it so

1544

01:05:39,109 --> 01:05:36,839

on the left part you have a news

1545

01:05:41,450 --> 01:05:39,119

aggregator so it just links to a

1546

01:05:44,150 --> 01:05:41,460

reliable pieces of content related to

1547

01:05:46,609 --> 01:05:44,160

uaps it's automatically updated every

1548

01:05:48,109 --> 01:05:46,619

hour on the right part we will have our

1549

01:05:50,750 --> 01:05:48,119

own editorial board that will be

1550

01:05:53,990 --> 01:05:50,760

publishing more in-depth analysis about

1551  
01:05:55,730 --> 01:05:54,000  
the subject and the fact checking over a

1552  
01:05:57,170 --> 01:05:55,740  
piece of information that are not that

1553  
01:05:59,809 --> 01:05:57,180  
reliable

1554  
01:06:03,530 --> 01:05:59,819  
then we will have at the end of Summer

1555  
01:06:06,950 --> 01:06:03,540  
of the UAP check software that will be

1556  
01:06:11,630 --> 01:06:06,960  
the reporting software for the witness

1557  
01:06:14,030 --> 01:06:11,640  
and then at so it would be in January we

1558  
01:06:16,069 --> 01:06:14,040  
will have the control path so we want to

1559  
01:06:19,250 --> 01:06:16,079  
organize art exhibits concerts

1560  
01:06:21,349 --> 01:06:19,260  
conferences about uaps and to expand the

1561  
01:06:24,069 --> 01:06:21,359  
subject towards the population we really

1562  
01:06:30,549 --> 01:06:24,079  
want to breathe the population on mass

1563  
01:06:34,430 --> 01:06:33,410

it's very robust very comprehensive in

1564

01:06:37,670 --> 01:06:34,440

everything you're trying to do right

1565

01:06:39,349 --> 01:06:37,680

Nathan it looks great and uh you you the

1566

01:06:41,089 --> 01:06:39,359

screen that you showed reminded me

1567

01:06:43,549 --> 01:06:41,099

you've been writing for the debrief

1568

01:06:46,370 --> 01:06:43,559

you've been uh putting articles out from

1569

01:06:48,470 --> 01:06:46,380

them and to what degree if can you talk

1570

01:06:50,870 --> 01:06:48,480

to you know the collaborative effort

1571

01:06:52,670 --> 01:06:50,880

there with the debrief and the UAP check

1572

01:06:55,849 --> 01:06:52,680

is is there one

1573

01:06:58,970 --> 01:06:55,859

uh we are very good friends uh it's just

1574

01:07:01,190 --> 01:06:58,980

that the debrief is uh General platform

1575

01:07:04,010 --> 01:07:01,200

it talks about everything about news

1576

01:07:07,309 --> 01:07:04,020

Technologies Etc will be very focused

1577

01:07:09,410 --> 01:07:07,319

about uaps and uh as a teacher I'm also

1578

01:07:11,450 --> 01:07:09,420

a defense teacher so it's a bit of a

1579

01:07:13,309 --> 01:07:11,460

word thing but in France we have what we

1580

01:07:17,150 --> 01:07:13,319

call defense class so it's class that

1581

01:07:19,849 --> 01:07:17,160

are made with the army so I'm I I have

1582

01:07:22,970 --> 01:07:19,859

double job as teacher and defense and in

1583

01:07:26,690 --> 01:07:22,980

art and as I

1584

01:07:30,230 --> 01:07:26,700

I can't talk English when I'm not too

1585

01:07:32,930 --> 01:07:30,240

tired sorry I started to write articles

1586

01:07:35,529 --> 01:07:32,940

about the French defense because we have

1587

01:07:40,130 --> 01:07:35,539

the same problem of

1588

01:07:41,270 --> 01:07:40,140

barrier of language with our army so I

1589

01:07:44,329 --> 01:07:41,280

wanted to

1590

01:07:46,370 --> 01:07:44,339

give an opinion of what we could do in

1591

01:07:48,710 --> 01:07:46,380

France toward the military and

1592

01:07:51,170 --> 01:07:48,720

especially specifically in the areas of

1593

01:07:54,170 --> 01:07:51,180

UAP so here you have an article about

1594

01:07:56,750 --> 01:07:54,180

higher haste airspace so that basically

1595

01:07:58,849 --> 01:07:56,760

the limit between uh the the maximum

1596

01:08:02,510 --> 01:07:58,859

altitude of a plane and the limit of

1597

01:08:07,190 --> 01:08:02,520

space and that's the area where we in

1598

01:08:08,809 --> 01:08:07,200

the limits 2004 events you add a range

1599

01:08:10,910 --> 01:08:08,819

of UFOs that were with what was

1600

01:08:13,670 --> 01:08:10,920

witnessed by Kevin Day

1601

01:08:15,289 --> 01:08:13,680

yeah like 80 000 feet I mean there I

1602

01:08:17,570 --> 01:08:15,299

don't I don't think there's an aircraft

1603

01:08:20,390 --> 01:08:17,580

that could that could get up that high

1604

01:08:22,010 --> 01:08:20,400

with a traditional turbine fan type

1605

01:08:24,169 --> 01:08:22,020

engine I don't even think I don't know

1606

01:08:25,910 --> 01:08:24,179

if you guys have looked into that I

1607

01:08:29,269 --> 01:08:25,920

don't know what the the complete total

1608

01:08:30,650 --> 01:08:29,279

ceiling is but man uh 80 000 feet I mean

1609

01:08:33,110 --> 01:08:30,660

you wouldn't be able to do do a whole

1610

01:08:35,269 --> 01:08:33,120

lot so if you could get up there you're

1611

01:08:36,820 --> 01:08:35,279

hanging on the hanging on the engines

1612

01:08:38,749 --> 01:08:36,830

with the high end over attack

1613

01:08:40,249 --> 01:08:38,759

[Music]

1614

01:08:42,950 --> 01:08:40,259

um not a lot of air to compress anyway

1615

01:08:45,650 --> 01:08:42,960

oh there is a another thing I can show

1616

01:08:48,490 --> 01:08:45,660

you and we just finished uh the

1617

01:08:53,030 --> 01:08:48,500

Prototype of one of our exhibits

1618

01:08:54,829 --> 01:08:53,040

so I asked my students to create an Art

1619

01:08:58,430 --> 01:08:54,839

Exhibit

1620

01:09:01,729 --> 01:08:58,440

uh and we worked with the UNESCO to

1621

01:09:05,769 --> 01:09:01,739

create artworks so on the left are the

1622

01:09:08,209 --> 01:09:05,779

works of my students the theme was

1623

01:09:10,789 --> 01:09:08,219

extraterrestrial Landscapes and then

1624

01:09:13,249 --> 01:09:10,799

with the UNESCO I offered but for each

1625

01:09:14,590 --> 01:09:13,259

artwork so for one of my students we

1626  
01:09:17,990 --> 01:09:14,600  
would be

1627  
01:09:20,030 --> 01:09:18,000  
exhibiting one of the art pieces in

1628  
01:09:22,610 --> 01:09:20,040  
their collection so that we just ended

1629  
01:09:24,769 --> 01:09:22,620  
that attack at exhibits that one of the

1630  
01:09:28,970 --> 01:09:24,779  
prototypes were working on regarding

1631  
01:09:30,229 --> 01:09:28,980  
cultural Outreach about that subject

1632  
01:09:33,169 --> 01:09:30,239  
that's awesome

1633  
01:09:35,030 --> 01:09:33,179  
it's also so cool that you are both dual

1634  
01:09:37,669 --> 01:09:35,040  
hating where you're teaching art and

1635  
01:09:40,370 --> 01:09:37,679  
you're teaching uh defense and it's just

1636  
01:09:42,650 --> 01:09:40,380  
so cool when um when people are able to

1637  
01:09:44,329 --> 01:09:42,660  
straddle these areas instead of you know

1638  
01:09:45,769 --> 01:09:44,339

you can do one but not the other because

1639

01:09:47,269 --> 01:09:45,779

it's just important to being a

1640

01:09:50,390 --> 01:09:47,279

well-rounded person is a sort of

1641

01:09:52,130 --> 01:09:50,400

appreciation of all these things so I

1642

01:09:55,010 --> 01:09:52,140

can only imagine what kind of paintings

1643

01:09:59,169 --> 01:09:55,020

you might have done

1644

01:10:03,830 --> 01:10:01,850

it's it's really something that we we

1645

01:10:05,689 --> 01:10:03,840

pushed inside the project that we don't

1646

01:10:07,850 --> 01:10:05,699

think that only one feed we have the

1647

01:10:11,030 --> 01:10:07,860

answer we need a transdisciplinary push

1648

01:10:13,910 --> 01:10:11,040

to find something reliable uh even as

1649

01:10:16,490 --> 01:10:13,920

information you if you are radar data

1650

01:10:19,250 --> 01:10:16,500

you need to have your ground uh Observer

1651  
01:10:22,010 --> 01:10:19,260  
data from Human intelligence to confirm

1652  
01:10:25,370 --> 01:10:22,020  
that red eyes and spoofs so we really

1653  
01:10:26,930 --> 01:10:25,380  
need to expand the field of research on

1654  
01:10:29,570 --> 01:10:26,940  
new APS

1655  
01:10:31,250 --> 01:10:29,580  
yes we need you know I absolutely you

1656  
01:10:34,310 --> 01:10:31,260  
need to be able to leverage all these

1657  
01:10:37,550 --> 01:10:34,320  
things so it's it's irrefutable whereas

1658  
01:10:39,890 --> 01:10:37,560  
now it sort of opens the door for the

1659  
01:10:43,189 --> 01:10:39,900  
sort of basement you know debunkers to

1660  
01:10:44,870 --> 01:10:43,199  
be able to say oh this isn't real well I

1661  
01:10:46,610 --> 01:10:44,880  
mean the more of these kinds of things

1662  
01:10:48,110 --> 01:10:46,620  
like you say when you can have

1663  
01:10:51,050 --> 01:10:48,120

corroborative data from different

1664

01:10:53,810 --> 01:10:51,060

sources and and probably on that Nimitz

1665

01:10:56,750 --> 01:10:53,820

aspect there's probably a significant as

1666

01:10:59,149 --> 01:10:56,760

Lou says there's a lot more than what we

1667

01:11:02,450 --> 01:10:59,159

haven't seen other than just Kevin day's

1668

01:11:05,570 --> 01:11:02,460

radar the E2 Hawkeyes uh air traffic

1669

01:11:08,990 --> 01:11:05,580

control radar and then the the aircrafts

1670

01:11:10,669 --> 01:11:09,000

uh spoofing of its radar plus the uh the

1671

01:11:12,370 --> 01:11:10,679

visuals that they got that there's more

1672

01:11:14,570 --> 01:11:12,380

than that so I'm sure they have some

1673

01:11:16,850 --> 01:11:14,580

absolutely no spatial

1674

01:11:18,950 --> 01:11:16,860

um anyway tell people where they can

1675

01:11:22,070 --> 01:11:18,960

find you Mr Batiste

1676

01:11:25,790 --> 01:11:22,080

oh it will be on Twitter at batist

1677

01:11:28,189 --> 01:11:25,800

underscore fry that will be the my main

1678

01:11:30,649 --> 01:11:28,199

presence on the internet

1679

01:11:34,430 --> 01:11:30,659

and so and when you got when you guys do

1680

01:11:36,530 --> 01:11:34,440

end up having uh those uh conferences or

1681

01:11:38,510 --> 01:11:36,540

whatever over in France and you need two

1682

01:11:40,910 --> 01:11:38,520

people to introduce people on stage

1683

01:11:43,610 --> 01:11:40,920

Nathan and I are available we will get

1684

01:11:45,229 --> 01:11:43,620

the crowd fired up we will talk about

1685

01:11:48,229 --> 01:11:45,239

the previous guests and the next guest

1686

01:11:51,890 --> 01:11:48,239

and bring them on baby yeah that's how

1687

01:11:53,810 --> 01:11:51,900

we do it all right if I may uh if any

1688

01:11:57,169 --> 01:11:53,820

member of your audience or yourselves

1689

01:12:00,709 --> 01:11:57,179

gentlemen and Miss won't you understand

1690

01:12:03,590 --> 01:12:00,719

write a piece of article for us you are

1691

01:12:05,570 --> 01:12:03,600

more than welcome oh wow thank you cool

1692

01:12:08,030 --> 01:12:05,580

all right yeah if I let me see if uh

1693

01:12:09,890 --> 01:12:08,040

something comes to mind and I'll make

1694

01:12:11,870 --> 01:12:09,900

sure I put it through Nathan's editorial

1695

01:12:14,630 --> 01:12:11,880

process before I send it to you

1696

01:12:16,250 --> 01:12:14,640

stringent editorial process yes yes now

1697

01:12:19,310 --> 01:12:16,260

we really want that platform to be open

1698

01:12:21,649 --> 01:12:19,320

to anyone so really reach out to us we

1699

01:12:25,450 --> 01:12:21,659

are open to every contact where we are

1700

01:12:30,470 --> 01:12:28,970

I love what you're doing but let's let's

1701

01:12:31,669 --> 01:12:30,480

go with cabbie goodbyes and then I'll

1702

01:12:34,070 --> 01:12:31,679

get to a little bit of that in my

1703

01:12:35,990 --> 01:12:34,080

closing go ahead Debs

1704

01:12:38,330 --> 01:12:36,000

um so again thank you so much for

1705

01:12:40,610 --> 01:12:38,340

everything that you are doing I'm really

1706

01:12:42,770 --> 01:12:40,620

excited by a comment you made earlier

1707

01:12:44,330 --> 01:12:42,780

about disclosure

1708

01:12:46,729 --> 01:12:44,340

um I feel like we should have a giant

1709

01:12:49,910 --> 01:12:46,739

International competition and see who

1710

01:12:52,370 --> 01:12:49,920

gets the gold medal in disclosure

1711

01:12:55,070 --> 01:12:52,380

we are preparing something we are

1712

01:12:57,169 --> 01:12:55,080

preparing something yes let's do it

1713

01:13:00,110 --> 01:12:57,179

let's make it an Olympics disclosure

1714

01:13:03,110 --> 01:13:00,120

event so thank you very much again and

1715

01:13:05,330 --> 01:13:03,120

please come again oh thank you very much

1716

01:13:07,810 --> 01:13:05,340

and here with the discus throws Nathan

1717

01:13:11,689 --> 01:13:07,820

yeah we exactly let me spin real quick

1718

01:13:13,130 --> 01:13:11,699

uh we are big fans of Baptiste uh and uh

1719

01:13:15,110 --> 01:13:13,140

it's just great to have you back with us

1720

01:13:17,630 --> 01:13:15,120

uh we are watching what you're doing

1721

01:13:20,090 --> 01:13:17,640

very closely and and rooting for you and

1722

01:13:22,250 --> 01:13:20,100

uh I agree with Deb I mean if we can

1723

01:13:24,649 --> 01:13:22,260

just put our Collective will together to

1724

01:13:26,330 --> 01:13:24,659

trying to crack this uh there's not a

1725

01:13:28,669 --> 01:13:26,340

lot we can't accomplish once the world

1726

01:13:31,250 --> 01:13:28,679

gets United in trying to solve something

1727

01:13:32,810 --> 01:13:31,260

uh amazing things can happen so I'm

1728

01:13:34,850 --> 01:13:32,820

hoping that that's what occurs and I'm

1729

01:13:37,010 --> 01:13:34,860

hoping that in that effort it will unite

1730

01:13:39,709 --> 01:13:37,020

us in a way that maybe we've not been

1731

01:13:42,290 --> 01:13:39,719

United in a long time or maybe ever uh

1732

01:13:43,669 --> 01:13:42,300

which would be really terrific so um

1733

01:13:45,169 --> 01:13:43,679

thank you we'll keep keep in touch and

1734

01:13:48,470 --> 01:13:45,179

hopefully have you back again soon to

1735

01:13:51,890 --> 01:13:48,480

give us an update anytime you want

1736

01:13:54,470 --> 01:13:51,900

yeah brother uh um like you said earlier

1737

01:13:56,209 --> 01:13:54,480

um you alluded to it if you're part of

1738

01:13:58,130 --> 01:13:56,219

the UFO Twitter community and you're

1739

01:14:00,290 --> 01:13:58,140

thinking about that you want to take a

1740

01:14:03,830 --> 01:14:00,300

shot you really want to take a shot at

1741

01:14:06,350 --> 01:14:03,840

somebody in the community you know leave

1742

01:14:09,530 --> 01:14:06,360

that shot aside and just use that energy

1743

01:14:11,450 --> 01:14:09,540

towards figuring it out what can you do

1744

01:14:13,910 --> 01:14:11,460

to move it forward and Deb also

1745

01:14:17,410 --> 01:14:13,920

basically spoke to that as well and so

1746

01:14:21,470 --> 01:14:17,420

did about East I want to thank you for

1747

01:14:23,510 --> 01:14:21,480

including Cab in in in this and reaching

1748

01:14:26,270 --> 01:14:23,520

out to me to tell me about this exciting

1749

01:14:28,370 --> 01:14:26,280

thing which I immediately went and told

1750

01:14:30,830 --> 01:14:28,380

the cabbies all about it is is very

1751

01:14:33,470 --> 01:14:30,840

exciting and what you're doing for the

1752

01:14:37,550 --> 01:14:33,480

community is gigantic there's something

1753

01:14:40,490 --> 01:14:37,560

about not just talking it's doing and

1754

01:14:42,830 --> 01:14:40,500

thank goodness uh that these other folks

1755

01:14:47,450 --> 01:14:42,840

that have developed this software found

1756

01:14:49,970 --> 01:14:47,460

you uh because you do have a a a great

1757

01:14:51,830 --> 01:14:49,980

face in the community so and like I said

1758

01:14:54,290 --> 01:14:51,840

if you have other folks that are from

1759

01:14:56,149 --> 01:14:54,300

France that want to engage with us that

1760

01:14:58,070 --> 01:14:56,159

speak English that's that's our only

1761

01:14:59,870 --> 01:14:58,080

requirement until I get a French

1762

01:15:01,610 --> 01:14:59,880

Canadian on the show and then we can get

1763

01:15:04,490 --> 01:15:01,620

you know we can get somebody to

1764

01:15:06,410 --> 01:15:04,500

translate but um I'm trying to but the

1765

01:15:10,130 --> 01:15:06,420

language barrier is a real problem for

1766

01:15:11,870 --> 01:15:10,140

us no I no I know not everybody needs to

1767

01:15:13,610 --> 01:15:11,880

speak English but if there is somebody

1768

01:15:15,410 --> 01:15:13,620

you know that's our only sort of

1769

01:15:17,689 --> 01:15:15,420

limitation and I say it that way it's

1770

01:15:20,510 --> 01:15:17,699

not a requirement it's just a limitation

1771

01:15:22,370 --> 01:15:20,520

and uh but anybody that you know that

1772

01:15:25,250 --> 01:15:22,380

that you trust that you think would like

1773

01:15:29,090 --> 01:15:25,260

to speak with us uh to your game uh we

1774

01:15:31,010 --> 01:15:29,100

want this uh to be open to to many other

1775

01:15:33,169 --> 01:15:31,020

countries and and as many as we could

1776

01:15:35,090 --> 01:15:33,179

get quite frankly we would like to get

1777

01:15:37,070 --> 01:15:35,100

them on our our schedule and get their

1778

01:15:38,689 --> 01:15:37,080

thoughts and opinions and and people

1779

01:15:40,610 --> 01:15:38,699

that they've known talk to them what's

1780

01:15:43,490 --> 01:15:40,620

happened culturally and and nationally

1781

01:15:46,790 --> 01:15:43,500

for them so thank you very much Baptiste

1782

01:15:48,950 --> 01:15:46,800

we really really do appreciate it go and

1783

01:15:50,750 --> 01:15:48,960

check him out on Twitter give us a like

1784

01:15:53,689 --> 01:15:50,760

and a subscribe one love to everybody

1785

01:15:56,630 --> 01:15:53,699

out there and for uh Debs for Nathan for

1786

01:15:59,270 --> 01:15:56,640

Baptiste this is DJ Singh peace out one

1787

01:16:00,709 --> 01:15:59,280

love we'll see you down the road and as

1788

01:16:01,729 --> 01:16:00,719

always we're wondering what's up around

1789

01:16:04,760 --> 01:16:01,739

the bend
