[Music]

3
00:00:55,549 --> 00:00:52,510
yeah

4
00:00:57,850 --> 00:00:55,559
welcome back to calling all beings it

5
00:01:01,250 --> 00:00:57,860
has been a minute maybe even a second

6
00:01:04,729 --> 00:01:01,260
back after her triumphant return is my

7
00:01:07,210 --> 00:01:04,739
homie Debs I'm your host DJ Money Nathan

8
00:01:10,070 --> 00:01:07,220
is out west looking at some petroglyphs

9
00:01:11,630 --> 00:01:10,080
hieroglyphs and some stars and just

10
00:01:14,450 --> 00:01:11,640
having a good time out west with his

11
00:01:17,690 --> 00:01:14,460
family so we gonna hold it down for cab

12
00:01:20,330 --> 00:01:17,700
Nation today so without further Ado uh

13
00:01:23,210 --> 00:01:20,340

at a study of uap's Debs how you doing

14

00:01:25,969 --> 00:01:23,220

home girl I'm unfortunately thinking of

15

00:01:29,270 --> 00:01:25,979

really bad jokes I could make about

16

00:01:34,249 --> 00:01:29,280

how we had slow dip and now it's a crush

17

00:01:39,530 --> 00:01:37,310

that does sound like some DJ uh dad joke

18

00:01:41,870 --> 00:01:39,540

type stuff so you're right in there uh

19

00:01:43,789 --> 00:01:41,880

Jules is in the chat with us today hello

20

00:01:46,249 --> 00:01:43,799

Miss Jules who knows who's going to want

21

00:01:47,870 --> 00:01:46,259

to join us on a Sunday afternoon if it's

22

00:01:49,069 --> 00:01:47,880

raining where they are and their UFO

23

00:01:51,950 --> 00:01:49,079

head they're probably going to be here

24

00:01:55,010 --> 00:01:51,960

so uh without further Ado let's get to

25

00:01:57,230 --> 00:01:55,020

the two uh principals who then we built

26
00:02:00,530 --> 00:01:57,240
this whole show around okay

27
00:02:03,469 --> 00:02:00,540
so uh we brought in for this Deb we

28
00:02:06,109 --> 00:02:03,479
brought in two uh well first of all we

29
00:02:09,529 --> 00:02:06,119
brought in uh one American brother known

30
00:02:12,110 --> 00:02:09,539
as uh Dan Warren and Dave Smothers so uh

31
00:02:13,610 --> 00:02:12,120
party people put their hands together

32
00:02:18,170 --> 00:02:13,620
[Music]

33
00:02:23,449 --> 00:02:20,449
what's up guys

34
00:02:25,430 --> 00:02:23,459
hi guys happy Sunday

35
00:02:26,570 --> 00:02:25,440
thank you I can't wait to hear what

36
00:02:28,130 --> 00:02:26,580
you're saying then we said you know what

37
00:02:30,589 --> 00:02:28,140
we got to make this party a little bit

38
00:02:32,869 --> 00:02:30,599

bigger and since he's not in the Tour de

39

00:02:36,229 --> 00:02:32,879

France this week I'm not sure what stage

40

00:02:38,510 --> 00:02:36,239

they're in uh we decided that we get the

41

00:02:40,910 --> 00:02:38,520

um the services of somebody who care

42

00:02:44,470 --> 00:02:40,920

about the environment he's host of the

43

00:02:48,830 --> 00:02:44,480

mechanism podcast he is a cycling coach

44

00:02:51,830 --> 00:02:48,840

writer competitor and yoga teacher David

45

00:02:53,750 --> 00:02:51,840

Johnston what's up baby hey hey

46

00:02:56,089 --> 00:02:53,760

47

00:02:58,430 --> 00:02:56,099

West Yorkshire we're happy to have you

49

00:03:01,910 --> 00:02:59,940

as you know it's always an honor to

50

00:03:03,770 --> 00:03:01,920

speak with you and so you know we

51
00:03:07,250 --> 00:03:03,780
brought him in we'll bring on his

52
00:03:08,869 --> 00:03:07,260
co-host this guy is just super badass

53
00:03:10,850 --> 00:03:08,879
man that's all he got to say he's really

54
00:03:13,729 --> 00:03:10,860
smart he's really cool and he's really

55
00:03:17,990 --> 00:03:13,739
capable and he's the host of the

56
00:03:21,110 --> 00:03:18,000
mechanism pop baby UK UAP ass what's up

57
00:03:23,410 --> 00:03:21,120
baby how's it going

58
00:03:26,750 --> 00:03:23,420
how you doing brother

59
00:03:28,490 --> 00:03:26,760
all good that that beard really suits

60
00:03:30,350 --> 00:03:28,500
you to get kind of a robin of Loxley

61
00:03:34,270 --> 00:03:30,360
sort of feel to it

62
00:03:40,910 --> 00:03:38,030
and we have oh we have look at this we

63
00:03:44,570 --> 00:03:40,920

thought that one Quarry wasn't enough so

64

00:03:47,149 --> 00:03:44,580

we decided to bring in two so this dude

65

00:03:49,369 --> 00:03:47,159

I'm I'll tell you what Deb he took over

66

00:03:51,890 --> 00:03:49,379

that that that that situation out there

67

00:03:53,869 --> 00:03:51,900

in Roswell as I said he is a beam of

68

00:03:56,509 --> 00:03:53,879

light and positivity a lot of the people

69

00:03:59,449 --> 00:03:56,519

here haven't had a chance to uh interact

70

00:04:02,089 --> 00:03:59,459

with in person and this is Corey well

71

00:04:03,830 --> 00:04:02,099

first of all my USAF brother Corey

72

00:04:05,560 --> 00:04:03,840

Jacques keel

73

00:04:07,190 --> 00:04:05,570

hey

74

00:04:09,050 --> 00:04:07,200

[Music]

75

00:04:12,970 --> 00:04:09,060

yes

76

00:04:15,949 --> 00:04:12,980

welcome brother you there you all right

77

00:04:17,750 --> 00:04:15,959

he does have some audio difficulty yeah

78

00:04:20,210 --> 00:04:17,760

let me let me um

79

00:04:22,550 --> 00:04:20,220

I'm gonna boot out this other profile

80

00:04:24,830 --> 00:04:22,560

and then let's see if this there you go

81

00:04:27,290 --> 00:04:24,840

let's see we'll see if he can hear us

82

00:04:28,610 --> 00:04:27,300

Corey can you hear me over

83

00:04:30,710 --> 00:04:28,620

yeah he's gonna have to look at his

84

00:04:32,689 --> 00:04:30,720

settings unfortunately okay yeah Corey

85

00:04:34,969 --> 00:04:32,699

click settings audio and just make sure

86

00:04:36,650 --> 00:04:34,979

that what you've what you want to be

87

00:04:40,969 --> 00:04:36,660

speaking from and hearing from is what's

88

00:04:43,370 --> 00:04:40,979

selected and uh without further Ado as

89

00:04:44,570 --> 00:04:43,380

they say in France

90

00:04:49,189 --> 00:04:44,580

um Dan

91

00:04:50,749 --> 00:04:49,199

dude man there have been so much going

92

00:04:54,050 --> 00:04:50,759

on down

93

00:04:56,990 --> 00:04:54,060

so uh I I heard Ross I heard about the

94

00:04:58,930 --> 00:04:57,000

Jilla brand uh this sort of uh what

95

00:05:01,610 --> 00:04:58,940

would we call it it's a new piece of

96

00:05:05,450 --> 00:05:01,620

legislation right it's not part of the

97

00:05:08,270 --> 00:05:05,460

ndaa am I correct so it's the IAA which

98

00:05:11,749 --> 00:05:08,280

is the intelligence authorization Act of

99

00:05:13,129 --> 00:05:11,759

2024 which from what I'm learning

100

00:05:15,530 --> 00:05:13,139

because I've learned more about

101
00:05:17,570 --> 00:05:15,540
government bureaucracy by looking into

102
00:05:20,390 --> 00:05:17,580
the UFO subject than I would have ever

103
00:05:22,249 --> 00:05:20,400
expected to learn on my own or be

104
00:05:25,189 --> 00:05:22,259
interested in learning but from my

105
00:05:27,710 --> 00:05:25,199
understanding the IAA which still a

106
00:05:30,590 --> 00:05:27,720
brand spearheaded the language of is 10

107
00:05:32,330 --> 00:05:30,600
pages of information and it seems to be

108
00:05:35,330 --> 00:05:32,340
we are shifting our Focus from

109
00:05:37,730 --> 00:05:35,340
investigating sightings to investigating

110
00:05:38,749 --> 00:05:37,740
crash retrieval

111
00:05:42,890 --> 00:05:38,759
um

112
00:05:46,490 --> 00:05:42,900
collected artifacts and material from

113
00:05:48,290 --> 00:05:46,500

things that are not of human origin so

114

00:05:51,409 --> 00:05:48,300

it seems to be very focused on that but

115

00:05:54,710 --> 00:05:51,419

they take that language and then later

116

00:05:56,629 --> 00:05:54,720

on in the year they combined it they

117

00:05:58,430 --> 00:05:56,639

combine it with the National Defense

118

00:06:00,590 --> 00:05:58,440

authorization act language that just

119

00:06:03,770 --> 00:06:00,600

gets put forward so it seems like they

120

00:06:05,290 --> 00:06:03,780

end up taking the IAA and the ndaa

121

00:06:07,850 --> 00:06:05,300

language and mash them together

122

00:06:09,590 --> 00:06:07,860

compromise on what's included in it and

123

00:06:12,230 --> 00:06:09,600

then that's what they put on Joe Biden's

124

00:06:15,230 --> 00:06:12,240

desk in December to get signed into law

125

00:06:17,830 --> 00:06:15,240

at that time so there's there's all

126

00:06:20,390 --> 00:06:17,840

kinds of information in it that have

127

00:06:24,050 --> 00:06:20,400

counters timers on them they have a

128

00:06:26,510 --> 00:06:24,060

60-day is it a 30 day to disclose

129

00:06:29,749 --> 00:06:26,520

it's 60 days to disclose what you have

130

00:06:32,749 --> 00:06:29,759

and then 180 days to show Congress what

131

00:06:34,850 --> 00:06:32,759

you actually have but those timers those

132

00:06:36,290 --> 00:06:34,860

don't start until it's signed into the

133

00:06:38,570 --> 00:06:36,300

law which will probably be at the end of

134

00:06:40,430 --> 00:06:38,580

this year so that in my opinion is the

135

00:06:42,050 --> 00:06:40,440

big news going on right now that of

136

00:06:44,390 --> 00:06:42,060

course is getting overshadowed by all

137

00:06:46,550 --> 00:06:44,400

this fire hose of information that we're

138

00:06:51,550 --> 00:06:46,560

being constantly sprayed with that's

139

00:06:54,650 --> 00:06:51,560

coming out in a mass bombing of UFO news

140

00:06:58,249 --> 00:06:54,660

and information

141

00:07:00,770 --> 00:06:58,259

yeah um that uh that I really like the

142

00:07:02,629 --> 00:07:00,780

language I have one uh one thing I'll

143

00:07:05,029 --> 00:07:02,639

post to the group but I'm gonna wait my

144

00:07:07,430 --> 00:07:05,039

turn David let's go with David Smathers

145

00:07:08,990 --> 00:07:07,440

welcome back Cory

146

00:07:10,490 --> 00:07:09,000

hey thanks for having me bro there's

147

00:07:13,249 --> 00:07:10,500

loads of stuff going on so we'll get to

148

00:07:16,189 --> 00:07:13,259

it but just back on on the III IIA

149

00:07:18,050 --> 00:07:16,199

legislation uh there's three things in

150

00:07:19,850 --> 00:07:18,060

it there's gonna cut the money off to

151
00:07:21,050 --> 00:07:19,860
any saps who haven't declared themselves

152
00:07:23,029 --> 00:07:21,060
to the Congress

153
00:07:25,430 --> 00:07:23,039
they're hanging the material like Dan

154
00:07:27,290 --> 00:07:25,440
said then there's something around a

155
00:07:28,850 --> 00:07:27,300
fast up on any work on propulsory you'll

156
00:07:32,330 --> 00:07:28,860
be doing but isn't we know about

157
00:07:33,830 --> 00:07:32,340
scientifically so three things there and

158
00:07:35,990 --> 00:07:33,840
it's almost like a call to soft

159
00:07:37,309 --> 00:07:36,000
disclosure that's the important thing

160
00:07:39,050 --> 00:07:37,319
because it shows they believe the

161
00:07:41,210 --> 00:07:39,060
whistleblowers the senate in my view

162
00:07:43,730 --> 00:07:41,220
anyway they've used this language in

163
00:07:46,430 --> 00:07:43,740

non-earth origin exotic Tech which is

164

00:07:48,050 --> 00:07:46,440

unheard of and apparently the selling

165

00:07:49,850 --> 00:07:48,060

armed services committee under the

166

00:07:51,710 --> 00:07:49,860

Congressional armed services committee

167

00:07:54,650 --> 00:07:51,720

are going to adopt that language when

168

00:07:56,570 --> 00:07:54,660

they put their stuff to the NDA so it's

169

00:07:58,550 --> 00:07:56,580

very significant and it's almost like a

170

00:08:00,890 --> 00:07:58,560

gauntlet down to the dod saying well

171

00:08:03,170 --> 00:08:00,900

we've heard your side of it but actually

172

00:08:05,990 --> 00:08:03,180

we believe this and we're going to have

173

00:08:07,969 --> 00:08:06,000

any legislation so and one way it's soft

174

00:08:09,650 --> 00:08:07,979

disclosure but it sort of puts the dod

175

00:08:11,930 --> 00:08:09,660

in a box as well so it's very very

176

00:08:15,710 --> 00:08:11,940

significant

177

00:08:18,589 --> 00:08:15,720

David unto you have any fear that

178

00:08:20,689 --> 00:08:18,599

there isn't enough transparency parents

179

00:08:23,089 --> 00:08:20,699

need to know who to take the funding

180

00:08:24,890 --> 00:08:23,099

away from like in other words so they

181

00:08:26,990 --> 00:08:24,900

can say okay we're we're pulling your

182

00:08:28,670 --> 00:08:27,000

funding at this point after the

183

00:08:30,050 --> 00:08:28,680

legislation sign but we don't you know

184

00:08:31,850 --> 00:08:30,060

maybe there are programs out there like

185

00:08:33,469 --> 00:08:31,860

oh they're not going to find us but

186

00:08:35,570 --> 00:08:33,479

that's the thing they just pivoted

187

00:08:37,070 --> 00:08:35,580

instead of it getting the magnifying

188

00:08:39,769 --> 00:08:37,080

glass on saying let's go and have a look

189

00:08:42,350 --> 00:08:39,779

and get an old Dr Kirkpatrick out to go

190

00:08:43,670 --> 00:08:42,360

and Shuffle around you know and pretend

191

00:08:46,430 --> 00:08:43,680

to look for stuff they're putting the

192

00:08:48,610 --> 00:08:46,440

onus on the people to fess up about it

193

00:08:50,990 --> 00:08:48,620

so these are the Private Industry people

194

00:08:52,790 --> 00:08:51,000

so if they find out there's been a sap

195

00:08:54,530 --> 00:08:52,800

running but they've not authorized then

196

00:08:56,329 --> 00:08:54,540

they'll have broke the law so they

197

00:08:59,449 --> 00:08:56,339

pivoted the owners to the owners he's

198

00:09:01,310 --> 00:08:59,459

now on the secret Keepers to say and

199

00:09:02,509 --> 00:09:01,320

that's the key the big difference which

200

00:09:04,550 --> 00:09:02,519

is a good question because I forgot

201
00:09:05,750 --> 00:09:04,560
about that disaster you know the other

202
00:09:07,610 --> 00:09:05,760
thing they've got this thing called a

203
00:09:09,430 --> 00:09:07,620
sense of Congress I think Ross mentioned

204
00:09:12,350 --> 00:09:09,440
it recently and that's about

205
00:09:15,710 --> 00:09:12,360
collaboration I.E call for collaboration

206
00:09:18,290 --> 00:09:15,720
between science Industry universities

207
00:09:20,870 --> 00:09:18,300
uh you know to break this sort of sharp

208
00:09:22,670 --> 00:09:20,880
compound lies at compartmentalization no

209
00:09:24,170 --> 00:09:22,680
pun intended when you say the word sharp

210
00:09:26,810 --> 00:09:24,180
just because yeah no no it's all good

211
00:09:29,350 --> 00:09:26,820
old shop you know no but to break the

212
00:09:32,810 --> 00:09:29,360
company putting me off here DJ

213
00:09:34,490 --> 00:09:32,820

to break the uh to just to break the

214

00:09:36,170 --> 00:09:34,500

compartmentalization on which if you

215

00:09:38,570 --> 00:09:36,180

remember Lou and all that said was a big

216

00:09:40,310 --> 00:09:38,580

problem to develop in the deck so that's

217

00:09:42,769 --> 00:09:40,320

another form of tough disclosure because

218

00:09:44,090 --> 00:09:42,779

when that starts it's effectively the

219

00:09:46,550 --> 00:09:44,100

cat's out of the bag isn't it because

220

00:09:48,670 --> 00:09:46,560

it'll be wider dissemination so it's a

221

00:09:51,949 --> 00:09:48,680

real as Dan said it's such a pivotal

222

00:09:53,449 --> 00:09:51,959

piece of legislation as I say looks like

223

00:09:56,050 --> 00:09:53,459

the Senate have heard something but they

224

00:09:58,730 --> 00:09:56,060

believe from the whistleblowers

225

00:10:00,230 --> 00:09:58,740

can I chime in real quick yes sir tag on

226

00:10:02,810 --> 00:10:00,240

to him I feel like one of the things

227

00:10:05,930 --> 00:10:02,820

that the IAA is doing is it's cutting

228

00:10:08,210 --> 00:10:05,940

off exits it's pretty much saying hey

229

00:10:09,889 --> 00:10:08,220

the dod you don't have the ability to

230

00:10:12,650 --> 00:10:09,899

weasel your way out of the questions

231

00:10:15,410 --> 00:10:12,660

that we ask you by saying oh well it's

232

00:10:17,630 --> 00:10:15,420

not uh quote unquote extraterrestrial

233

00:10:20,210 --> 00:10:17,640

proof of this that or the other so it

234

00:10:21,949 --> 00:10:20,220

seems like they're eliminating they're

235

00:10:25,490 --> 00:10:21,959

going through the process of elimination

236

00:10:28,430 --> 00:10:25,500

by to basically prevent them from having

237

00:10:31,250 --> 00:10:28,440

the ability to get out of answering

238

00:10:33,350 --> 00:10:31,260

those questions and even we as the UFO

239

00:10:35,570 --> 00:10:33,360

Community are adapting our language

240

00:10:38,030 --> 00:10:35,580

because I've heard a lot more people

241

00:10:40,910 --> 00:10:38,040

I've heard a lot less people say things

242

00:10:43,970 --> 00:10:40,920

like extraterrestrial alien things like

243

00:10:46,069 --> 00:10:43,980

that and now we seem to unanimously be

244

00:10:49,310 --> 00:10:46,079

starting to refer to this intelligence

245

00:10:52,009 --> 00:10:49,320

as in a child but not human intelligence

246

00:10:54,290 --> 00:10:52,019

once again eliminating the possibility

247

00:10:56,389 --> 00:10:54,300

for them to say it's something that it's

248

00:10:58,069 --> 00:10:56,399

they that so they can't wheeze a lot of

249

00:11:00,350 --> 00:10:58,079

answering our questions so it seems like

250

00:11:04,610 --> 00:11:00,360

we're all adapting we're all focusing

251
00:11:07,370 --> 00:11:04,620
our microscopes on what is left because

252
00:11:09,590 --> 00:11:07,380
they're trying to throw Taff out of the

253
00:11:11,870 --> 00:11:09,600
airplane as we're zeroing in on them

254
00:11:14,509 --> 00:11:11,880
getting ready to put a lock on and now

255
00:11:16,730 --> 00:11:14,519
they're they're their options are

256
00:11:19,610 --> 00:11:16,740
running out and now the money is going

257
00:11:21,470 --> 00:11:19,620
to start drying up as this process plays

258
00:11:24,470 --> 00:11:21,480
out hopefully

259
00:11:26,389 --> 00:11:24,480
Dan you're giving away our tactics for

260
00:11:29,769 --> 00:11:26,399
certain Munitions that's classified

261
00:11:32,870 --> 00:11:29,779
let's go on a Davey Johnston

262
00:11:34,970 --> 00:11:32,880
yeah I think that God mentioned that

263
00:11:37,310 --> 00:11:34,980

about weaseling out of it uh we just go

264

00:11:39,769 --> 00:11:37,320

back to um our good friend

265

00:11:42,290 --> 00:11:39,779

uh missile Mrs Goff

266

00:11:44,329 --> 00:11:42,300

and her statements that Arrow has

267

00:11:45,470 --> 00:11:44,339

nothing of extraterrestrial origin or

268

00:11:46,910 --> 00:11:45,480

anything that they can say is

269

00:11:48,470 --> 00:11:46,920

extraterrestrial but again they're not

270

00:11:50,630 --> 00:11:48,480

answering the questions the question was

271

00:11:51,949 --> 00:11:50,640

does the Pentagon does the dod have

272

00:11:54,110 --> 00:11:51,959

anything that suggests these may be

273

00:11:56,389 --> 00:11:54,120

non-human so absolutely the closing

274

00:11:57,470 --> 00:11:56,399

loopholes are tightening things up here

275

00:11:59,329 --> 00:11:57,480

um but there's a couple of other areas

276

00:12:01,370 --> 00:11:59,339

that I found really interesting in this

277

00:12:03,949 --> 00:12:01,380

um in this proposed legislation so

278

00:12:06,410 --> 00:12:03,959

section 1104 of that bill

279

00:12:08,210 --> 00:12:06,420

exactly as Dave said they refer

280

00:12:08,870 --> 00:12:08,220

to 60 days

281

00:12:11,090 --> 00:12:08,880

um

282

00:12:13,430 --> 00:12:11,100

to provide notification of what they

283

00:12:15,769 --> 00:12:13,440

have and 180 days to provide a

284

00:12:18,290 --> 00:12:15,779

comprehensive list of all non-earth

285

00:12:21,230 --> 00:12:18,300

origin or exotic unidentified Anonymous

286

00:12:24,350 --> 00:12:21,240

phenomena material words I would never

287

00:12:27,470 --> 00:12:24,360

ever have dreamed of being able to read

288

00:12:30,410 --> 00:12:27,480

in this kind of legislation I have two

289

00:12:31,790 --> 00:12:30,420

concerns here the first is that what are

290

00:12:34,670 --> 00:12:31,800

they doing with that information and

291

00:12:36,650 --> 00:12:34,680

who's that going to it's going to Arrow

292

00:12:39,230 --> 00:12:36,660

how do we feel about Arrow how do we

293

00:12:41,329 --> 00:12:39,240

feel about what they've done so far

294

00:12:43,250 --> 00:12:41,339

admittedly they are the you know the

295

00:12:44,990 --> 00:12:43,260

stocking trade that is their role but

296

00:12:47,449 --> 00:12:45,000

how do we feel about that

297

00:12:49,670 --> 00:12:47,459

and the other thing is

298

00:12:51,350 --> 00:12:49,680

we all know this talk about this this

299

00:12:53,750 --> 00:12:51,360

type of information and this type of

300

00:12:56,269 --> 00:12:53,760

materials have been moved out

301
00:12:58,670 --> 00:12:56,279
of governmental bodies and into Private

302
00:13:01,250 --> 00:12:58,680
Industry so I think there's going to be

303
00:13:04,730 --> 00:13:01,260
some limits and some challenges there

304
00:13:07,610 --> 00:13:04,740
um those are my initial thoughts on that

305
00:13:10,610 --> 00:13:07,620
uh I dig and I've heard some maybe not

306
00:13:12,829 --> 00:13:10,620
all but but maybe some but uh let's go

307
00:13:15,590 --> 00:13:12,839
with uh well first of all Ash remember

308
00:13:17,569 --> 00:13:15,600
if we invoke the name of the word sharp

309
00:13:19,910 --> 00:13:17,579
for this podcast we need to at least do

310
00:13:23,030 --> 00:13:19,920
the air quotes right for in honor of

311
00:13:25,930 --> 00:13:23,040
Christopher so he's like shut up DJ I'm

312
00:13:29,750 --> 00:13:25,940
shooting you go ahead

313
00:13:30,829 --> 00:13:29,760

yeah so um really interesting you've

314

00:13:32,750 --> 00:13:30,839

covered a few bits I was going to cover

315

00:13:34,310 --> 00:13:32,760

anyway but yeah the language is it's

316

00:13:36,170 --> 00:13:34,320

just as you were saying Davey it's

317

00:13:38,629 --> 00:13:36,180

phenomenal like would you would we have

318

00:13:40,490 --> 00:13:38,639

ever expected to see that in a you know

319

00:13:42,350 --> 00:13:40,500

a genuine piece of legislation being put

320

00:13:44,930 --> 00:13:42,360

forward it's it's it just shows how far

321

00:13:46,550 --> 00:13:44,940

we've come the only concern I have is

322

00:13:47,990 --> 00:13:46,560

will that get dumbed down what will that

323

00:13:50,030 --> 00:13:48,000

look like when it actually does reach

324

00:13:51,410 --> 00:13:50,040

the president's desk for that final sign

325

00:13:53,690 --> 00:13:51,420

off how much of it would have been

326

00:13:54,410 --> 00:13:53,700

erased or modified

327

00:13:56,090 --> 00:13:54,420

um

328

00:13:58,190 --> 00:13:56,100

but a really interesting thing I wanted

329

00:13:59,870 --> 00:13:58,200

to go back to was what Dave and yourself

330

00:14:02,750 --> 00:13:59,880

were talking about DJ around the the

331

00:14:04,490 --> 00:14:02,760

onus being on on the the other side

332

00:14:06,410 --> 00:14:04,500

themselves

333

00:14:07,730 --> 00:14:06,420

um I mean we all know how deep some of

334

00:14:09,410 --> 00:14:07,740

these programs can go particularly if

335

00:14:11,990 --> 00:14:09,420

they're off the book so to speak we've

336

00:14:13,790 --> 00:14:12,000

got to look back at history the CIA have

337

00:14:15,170 --> 00:14:13,800

been known to you know set up shell

338

00:14:17,150 --> 00:14:15,180

company after shell company and it's

339

00:14:18,769 --> 00:14:17,160

it's so hard to find that trail and

340

00:14:21,290 --> 00:14:18,779

actually know where that money's going

341

00:14:23,449 --> 00:14:21,300

and be able to pinpoint it to the right

342

00:14:24,170 --> 00:14:23,459

people so if the onus is on the other

343

00:14:25,610 --> 00:14:24,180

side

344

00:14:27,829 --> 00:14:25,620

if they're pretty content that they're

345

00:14:29,569 --> 00:14:27,839

that far deep and buried that nobody's

346

00:14:31,310 --> 00:14:29,579

ever gonna be able to find them

347

00:14:32,870 --> 00:14:31,320

is that a wrestling going to take you

348

00:14:34,430 --> 00:14:32,880

know if they've gone this far without

349

00:14:36,290 --> 00:14:34,440

being found

350

00:14:37,670 --> 00:14:36,300

um perhaps the onus on them doesn't go

351
00:14:39,590 --> 00:14:37,680
far enough

352
00:14:41,090 --> 00:14:39,600
um yeah that's that's my biggest concern

353
00:14:43,730 --> 00:14:41,100
I think how are you going to find these

354
00:14:45,350 --> 00:14:43,740
really buried deep programs that are

355
00:14:47,449 --> 00:14:45,360
probably wrapped up in in Private

356
00:14:48,590 --> 00:14:47,459
Industry uh in the Shell company wrapped

357
00:14:51,170 --> 00:14:48,600
in another shell company in another

358
00:14:52,430 --> 00:14:51,180
shell company and that's yeah my initial

359
00:14:55,069 --> 00:14:52,440
thoughts at the moment

360
00:14:57,230 --> 00:14:55,079
what one example Ash is remember those

361
00:14:58,910 --> 00:14:57,240
three contractors actually there was

362
00:15:02,329 --> 00:14:58,920
four aboard the plane that got shot down

363
00:15:05,030 --> 00:15:02,339

in Colombia uh the CIA was running that

364

00:15:07,850 --> 00:15:05,040

operation but when the wives went to uh

365

00:15:09,290 --> 00:15:07,860

to to contact the company and said hey

366

00:15:10,730 --> 00:15:09,300

you know what are you guys doing to get

367

00:15:12,949 --> 00:15:10,740

our husbands released that company

368

00:15:14,329 --> 00:15:12,959

didn't exist anymore so that that's an

369

00:15:15,410 --> 00:15:14,339

example

370

00:15:19,269 --> 00:15:15,420

you know I don't know if you remember

371

00:15:22,250 --> 00:15:19,279

that yeah they got rescued some like uh

372

00:15:26,150 --> 00:15:22,260

2008 seven or eight I think is when they

373

00:15:27,590 --> 00:15:26,160

they organized that uh kind of fake uh

374

00:15:29,449 --> 00:15:27,600

it was supposed to be like some sort of

375

00:15:33,290 --> 00:15:29,459

a U.N helicopter but it actually was

376

00:15:35,410 --> 00:15:33,300

piloted by um a U.S uh Special Forces

377

00:15:37,870 --> 00:15:35,420

aviators and they they ended up getting

378

00:15:40,550 --> 00:15:37,880

airlifting them out of there so anyway

379

00:15:45,050 --> 00:15:40,560

uh let's go to Corey Corey what's your

380

00:15:51,110 --> 00:15:47,210

um hey thanks for having me on DJ hello

381

00:15:53,810 --> 00:15:51,120

shouts out to everyone across the pond

382

00:15:56,269 --> 00:15:53,820

um no you know I think uh Davey and Ash

383

00:15:58,550 --> 00:15:56,279

I would agree uh that

384

00:15:59,930 --> 00:15:58,560

um you know I think that within the dod

385

00:16:02,629 --> 00:15:59,940

there's a there's a certain you know

386

00:16:05,329 --> 00:16:02,639

portion that uh we may be able to get

387

00:16:06,889 --> 00:16:05,339

access to with this legislation but uh

388

00:16:08,750 --> 00:16:06,899

the private sector

389

00:16:11,449 --> 00:16:08,760

uh that you know there may be projects

390

00:16:15,129 --> 00:16:11,459

even Legacy projects uh outside of the

391

00:16:19,129 --> 00:16:15,139

dod that are funded private money

392

00:16:22,250 --> 00:16:19,139

or or government money in in some way so

393

00:16:24,590 --> 00:16:22,260

uh yeah I think there's I think everyone

394

00:16:26,449 --> 00:16:24,600

should be should be sharp and uh I don't

395

00:16:29,210 --> 00:16:26,459

know who said it but asking better

396

00:16:31,790 --> 00:16:29,220

questions yeah there you go

397

00:16:34,850 --> 00:16:31,800

but yeah yeah asking better questions

398

00:16:37,249 --> 00:16:34,860

and uh and even even when we feel that

399

00:16:39,530 --> 00:16:37,259

we have the goods uh from from Congress

400

00:16:41,810 --> 00:16:39,540

continuing to ask questions to see

401
00:16:43,790 --> 00:16:41,820
what's beyond that because it does seem

402
00:16:45,889 --> 00:16:43,800
to be the case that uh Private Industry

403
00:16:49,069 --> 00:16:45,899
uh has a lot of this stuff squirreled

404
00:16:50,990 --> 00:16:49,079
away I can't prove that but that's uh

405
00:16:52,249 --> 00:16:51,000
you know the sense I get from you know

406
00:16:54,170 --> 00:16:52,259
watching the scene

407
00:16:55,970 --> 00:16:54,180
that's a great tangent that you just

408
00:16:58,610 --> 00:16:55,980
thought of that there may there may be

409
00:17:01,850 --> 00:16:58,620
private efforts out there that are uh

410
00:17:05,329 --> 00:17:01,860
maybe DOD uh entities are aware of but

411
00:17:07,069 --> 00:17:05,339
uh not necessarily in control of or you

412
00:17:08,870 --> 00:17:07,079
know perhaps there's an umbrella over it

413
00:17:11,329 --> 00:17:08,880

but it's it's as you said completely

414

00:17:12,890 --> 00:17:11,339

private I just want to

415

00:17:16,309 --> 00:17:12,900

um say Julie

416

00:17:18,230 --> 00:17:16,319

um I I the mechanism we will try to get

417

00:17:20,030 --> 00:17:18,240

the link

418

00:17:22,189 --> 00:17:20,040

um and and I'll stick it up there it is

419

00:17:25,130 --> 00:17:22,199

on Spotify and I I think that's where

420

00:17:27,230 --> 00:17:25,140

I'm subscribed is on Spotify and that is

421

00:17:28,850 --> 00:17:27,240

uh Davian Ash the mechanism is that the

422

00:17:30,230 --> 00:17:28,860

correct am I saying correct it's the

423

00:17:32,510 --> 00:17:30,240

mechanism

424

00:17:35,870 --> 00:17:32,520

yes I'm getting getting thumbs up on

425

00:17:38,990 --> 00:17:35,880

that uh Debs go ahead ma'am

426

00:17:40,730 --> 00:17:39,000

okay so a few things a second hand

427

00:17:43,909 --> 00:17:40,740

source told me that some of these

428

00:17:46,310 --> 00:17:43,919

organizations may want to give up their

429

00:17:48,350 --> 00:17:46,320

technology that they actually inherited

430

00:17:52,130 --> 00:17:48,360

it and they are like what the heck this

431

00:17:55,010 --> 00:17:52,140

is Way Beyond what I was signing up for

432

00:17:57,110 --> 00:17:55,020

um and to add to that

433

00:17:58,970 --> 00:17:57,120

um this last weekend's

434

00:18:00,590 --> 00:17:58,980

um average show was looking at what was

435

00:18:02,690 --> 00:18:00,600

going on with Lockheed and made the

436

00:18:04,909 --> 00:18:02,700

comment it's interesting how like all of

437

00:18:07,190 --> 00:18:04,919

the top 10 people in Lockheed got

438

00:18:08,690 --> 00:18:07,200

changed over like in the last eight

439

00:18:10,130 --> 00:18:08,700

years

440

00:18:11,870 --> 00:18:10,140

um so it might be one of those new

441

00:18:13,789 --> 00:18:11,880

people taking a look at this and going

442

00:18:16,010 --> 00:18:13,799

you know what we're not supposed to be

443

00:18:18,650 --> 00:18:16,020

dealing with this stuff

444

00:18:20,510 --> 00:18:18,660

um let's say in this pack why do we feel

445

00:18:22,730 --> 00:18:20,520

it's like it's a hot potato you know at

446

00:18:26,150 --> 00:18:22,740

this point

447

00:18:27,650 --> 00:18:26,160

yeah I'm sorry go ahead yeah so I mean I

448

00:18:29,270 --> 00:18:27,660

have a lot of thoughts about it you know

449

00:18:30,650 --> 00:18:29,280

but that's one of them that there might

450

00:18:32,450 --> 00:18:30,660

be some people who are like you know

451
00:18:34,850 --> 00:18:32,460
what this has been a heavy burden we're

452
00:18:37,430 --> 00:18:34,860
not in the Cold War it's time to get to

453
00:18:39,350 --> 00:18:37,440
a different stage with this

454
00:18:41,750 --> 00:18:39,360
yep Bravo you know what's interesting

455
00:18:43,789 --> 00:18:41,760
first of all you know Corey said thanks

456
00:18:45,830 --> 00:18:43,799
for being on it's an honor for us you

457
00:18:48,289 --> 00:18:45,840
know Debs and I to have everybody on the

458
00:18:49,970 --> 00:18:48,299
screen that's on here today uh that that

459
00:18:51,289 --> 00:18:49,980
you guys have all decided that you want

460
00:18:53,029 --> 00:18:51,299
to take time away from your day to come

461
00:18:55,010 --> 00:18:53,039
and speak with us we don't take that

462
00:18:56,690 --> 00:18:55,020
lightly we we are honored that you're

463
00:18:59,990 --> 00:18:56,700

all here

464

00:19:03,650 --> 00:19:00,000

um so uh you're welcome Jules uh Jules

465

00:19:06,110 --> 00:19:03,660

is in the chat she is she's uh uh just

466

00:19:07,250 --> 00:19:06,120

another studying force that we have on

467

00:19:09,529 --> 00:19:07,260

the show

468

00:19:13,010 --> 00:19:09,539

um so Mike my comments are

469

00:19:14,630 --> 00:19:13,020

one of the issues that uh

470

00:19:17,930 --> 00:19:14,640

uh one of the problems that was

471

00:19:20,450 --> 00:19:17,940

identified by David crush is that there

472

00:19:23,510 --> 00:19:20,460

are a lot of pro programs out there that

473

00:19:25,789 --> 00:19:23,520

Congress is unaware of I don't know how

474

00:19:29,570 --> 00:19:25,799

many I don't obviously we don't know the

475

00:19:31,490 --> 00:19:29,580

names of them so my thought is is that

476

00:19:32,870 --> 00:19:31,500

and you guys some of you alluded to it

477

00:19:35,210 --> 00:19:32,880

that could continue to be a problem

478

00:19:37,730 --> 00:19:35,220

because they have to first identify them

479

00:19:39,650 --> 00:19:37,740

and they may be betting okay uh I don't

480

00:19:41,750 --> 00:19:39,660

I think I don't know if it was Asher or

481

00:19:43,250 --> 00:19:41,760

Corey that said they mean hey you know

482

00:19:45,770 --> 00:19:43,260

we've gotten away from it this long they

483

00:19:48,650 --> 00:19:45,780

may not find us They don't know about us

484

00:19:51,169 --> 00:19:48,660

uh Crush never did get access we we

485

00:19:53,690 --> 00:19:51,179

slapped him down once he he tried to get

486

00:19:56,570 --> 00:19:53,700

access and that's when he filed his DOD

487

00:19:58,970 --> 00:19:56,580

IG complaint and the second aspect in

488

00:20:01,730 --> 00:19:58,980

the language is that the info is going

489

00:20:04,549 --> 00:20:01,740

to be given to arrow and Mr Kirkpatrick

490

00:20:06,830 --> 00:20:04,559

and I think probably among the panel

491

00:20:09,110 --> 00:20:06,840

here Dan maybe there's some people that

492

00:20:12,049 --> 00:20:09,120

have a little bit of reticence or don't

493

00:20:14,930 --> 00:20:12,059

have the highest degree of trust in in

494

00:20:17,210 --> 00:20:14,940

in that particular entity

495

00:20:18,830 --> 00:20:17,220

no I mean yeah

496

00:20:20,510 --> 00:20:18,840

we'll go to you next day but go ahead

497

00:20:22,669 --> 00:20:20,520

sorry I didn't realize I didn't realize

498

00:20:23,510 --> 00:20:22,679

your subtle linked to down there DJ so

499

00:20:25,430 --> 00:20:23,520

there you go

500

00:20:27,350 --> 00:20:25,440

very subtle see that man that's why

501
00:20:29,570 --> 00:20:27,360
they're paying me so much money

502
00:20:31,909 --> 00:20:29,580
so one of the things that I've heard

503
00:20:33,950 --> 00:20:31,919
recently is that several of the

504
00:20:36,289 --> 00:20:33,960
whistleblowers that have come forward

505
00:20:38,570 --> 00:20:36,299
aren't going directly to Arrow they're

506
00:20:41,150 --> 00:20:38,580
going directly to Congress so I feel

507
00:20:43,730 --> 00:20:41,160
like there are there is reluctance for

508
00:20:46,490 --> 00:20:43,740
some people to not feel safe in doing so

509
00:20:48,470 --> 00:20:46,500
and based on Marco Rubio's

510
00:20:51,590 --> 00:20:48,480
um recent comments where he said they're

511
00:20:53,810 --> 00:20:51,600
even in fear of physical harm I'll say

512
00:20:55,669 --> 00:20:53,820
if you're fear for their career here for

513
00:20:57,590 --> 00:20:55,679

their life more or less

514

00:20:59,870 --> 00:20:57,600

um so they're they're not going through

515

00:21:02,390 --> 00:20:59,880

Arrow because they don't have faith in

516

00:21:05,570 --> 00:21:02,400

it themselves so they're going directly

517

00:21:09,230 --> 00:21:05,580

to Congress to me that's that speaks

518

00:21:10,850 --> 00:21:09,240

volumes about how arrow is perceived by

519

00:21:13,310 --> 00:21:10,860

the people that are associated with

520

00:21:15,470 --> 00:21:13,320

these programs they know that they can't

521

00:21:18,230 --> 00:21:15,480

rely on Arrow to provide the protection

522

00:21:20,390 --> 00:21:18,240

that they feel they need to be able to

523

00:21:22,789 --> 00:21:20,400

have the discussions that they need they

524

00:21:24,890 --> 00:21:22,799

that these guys apparently want to have

525

00:21:27,289 --> 00:21:24,900

not just need to have but they want to

526

00:21:30,470 --> 00:21:27,299

be the ones that that bring this out

527

00:21:31,930 --> 00:21:30,480

into the public Arena so I think that is

528

00:21:35,330 --> 00:21:31,940

telling

529

00:21:38,390 --> 00:21:35,340

indicator of the the Fate that they have

530

00:21:41,390 --> 00:21:38,400

in Arrow and his current formation do I

531

00:21:43,970 --> 00:21:41,400

think arrow is going to change as the

532

00:21:47,390 --> 00:21:43,980

funding improves we do know that Kirsten

533

00:21:49,669 --> 00:21:47,400

gillibrand has secured full funding for

534

00:21:51,710 --> 00:21:49,679

their operations so now maybe they have

535

00:21:53,390 --> 00:21:51,720

the ability to bring the staff in that

536

00:21:56,149 --> 00:21:53,400

would be that would allow them to

537

00:21:58,070 --> 00:21:56,159

respond accordingly in in a manner that

538

00:21:59,690 --> 00:21:58,080

would help them to be able to provide

539

00:22:02,270 --> 00:21:59,700

the service that they've been tasked

540

00:22:04,730 --> 00:22:02,280

with providing to the Congress instead

541

00:22:07,850 --> 00:22:04,740

of being worked around and bypassed by

542

00:22:09,470 --> 00:22:07,860

these people maybe this funding is what

543

00:22:13,850 --> 00:22:09,480

they needed to be able to do a better

544

00:22:17,090 --> 00:22:13,860

job but I'll say there is um

545

00:22:19,850 --> 00:22:17,100

amends to be made it sounds like from

546

00:22:21,890 --> 00:22:19,860

the whistleblowers to arrow and how

547

00:22:24,770 --> 00:22:21,900

they've been treated and I think Rush is

548

00:22:27,049 --> 00:22:24,780

going to be the example of going forward

549

00:22:29,870 --> 00:22:27,059

hey grush is sitting here saying that

550

00:22:33,770 --> 00:22:29,880

he's been ignored directly by

551

00:22:36,409 --> 00:22:33,780

Kirkpatrick so how this plays out with

552

00:22:38,750 --> 00:22:36,419

grush is going to influence heavily in

553

00:22:43,070 --> 00:22:38,760

my opinion how other whistleblowers come

554

00:22:45,830 --> 00:22:43,080

forward to Arrow or to Congress directly

555

00:22:47,690 --> 00:22:45,840

um so so that's where I'm thinking they

556

00:22:49,789 --> 00:22:47,700

don't have the respect that they need

557

00:22:51,409 --> 00:22:49,799

they don't have the authorities that

558

00:22:53,630 --> 00:22:51,419

they need they don't have that title 50

559

00:22:56,029 --> 00:22:53,640

I've heard they have made improvements

560

00:22:59,149 --> 00:22:56,039

in their Staffing to be able to get some

561

00:23:01,190 --> 00:22:59,159

of that but I'm not 100 certain on how

562

00:23:02,870 --> 00:23:01,200

well that's playing out but they do need

563

00:23:10,789 --> 00:23:02,880

to

564

00:23:12,289 --> 00:23:10,799

people and these programs that they can

565

00:23:14,390 --> 00:23:12,299

provide the protection that they need

566

00:23:16,909 --> 00:23:14,400

for them to come forward to Arrow so

567

00:23:18,529 --> 00:23:16,919

that Arrow can do their job and not make

568

00:23:20,750 --> 00:23:18,539

it someone else's problem

569

00:23:23,210 --> 00:23:20,760

give me a percentage on your level of

570

00:23:26,570 --> 00:23:23,220

confidence in them

571

00:23:28,430 --> 00:23:26,580

um well I I'm at the moment I still view

572

00:23:30,110 --> 00:23:28,440

Kirkpatrick as I'm going to give them

573

00:23:33,049 --> 00:23:30,120

the benefit of the doubt I'm going to

574

00:23:36,409 --> 00:23:33,059

give them the J Allen heineck trajectory

575

00:23:40,190 --> 00:23:36,419

in his professional career where he's

576

00:23:42,710 --> 00:23:40,200

starting off as eliminating the

577

00:23:44,990 --> 00:23:42,720

um things as he's just trying to get rid

578

00:23:46,549 --> 00:23:45,000

of as much of it as he can someone

579

00:23:47,649 --> 00:23:46,559

else's problem is what he's famous for

580

00:23:51,529 --> 00:23:47,659

saying

581

00:23:53,450 --> 00:23:51,539

so he is going with the um debunking as

582

00:23:55,610 --> 00:23:53,460

much as I can I'm going to say hey

583

00:23:57,830 --> 00:23:55,620

there's some anomalous stuff but look

584

00:23:59,510 --> 00:23:57,840

we've got this these planes off in the

585

00:24:01,970 --> 00:23:59,520

distance and he didn't know whether the

586

00:24:03,770 --> 00:24:01,980

stars in the background or stars or

587

00:24:07,010 --> 00:24:03,780

smudges on the camera it turns out they

588

00:24:09,529 --> 00:24:07,020

were smudges on the camera or flaws so I

589

00:24:11,210 --> 00:24:09,539

think he is going to be taking the same

590

00:24:13,010 --> 00:24:11,220

trajectory as jail and heideck where he

591

00:24:16,010 --> 00:24:13,020

eventually does start to come around to

592

00:24:19,010 --> 00:24:16,020

it but he's going to he he is not in my

593

00:24:22,430 --> 00:24:19,020

opinion going to take one step on faith

594

00:24:25,010 --> 00:24:22,440

on belief he's going to only take a step

595

00:24:27,890 --> 00:24:25,020

forward with proof and evidence in hand

596

00:24:31,070 --> 00:24:27,900

that he can present so until he has that

597

00:24:34,070 --> 00:24:31,080

he is going to absolutely not cross that

598

00:24:36,289 --> 00:24:34,080

line so I I I give him the benefit of

599

00:24:41,270 --> 00:24:36,299

the doubt I'm gonna say I'm

600

00:24:43,010 --> 00:24:41,280

70 on his team right now but if people

601
00:24:46,490 --> 00:24:43,020
if people don't come and talk to him

602
00:24:48,850 --> 00:24:46,500
then I'm gonna lose faith in him quickly

603
00:24:51,169 --> 00:24:48,860
be interesting if that's uh Victor

604
00:24:54,049 --> 00:24:51,179
wimbenyama's uh free free throw

605
00:24:56,330 --> 00:24:54,059
percentage this year Dan but anyway uh

606
00:25:00,169 --> 00:24:56,340
Dave uh I I suspect that your colleague

607
00:25:01,850 --> 00:25:00,179
Dan that your level of confidence is I

608
00:25:04,190 --> 00:25:01,860
have absolutely no confidence every

609
00:25:06,529 --> 00:25:04,200
emergency Albertson or he's compromised

610
00:25:09,230 --> 00:25:06,539
isn't he he's been dragging his feet not

611
00:25:11,450 --> 00:25:09,240
asking for the money saying this rubbish

612
00:25:13,850 --> 00:25:11,460
scientific High Bar Method but nobody

613
00:25:15,470 --> 00:25:13,860

can pass he's clearly doesn't want to do

614

00:25:19,370 --> 00:25:15,480

anything he's not asked for the money

615

00:25:21,289 --> 00:25:19,380

and anyway I I think that he I mean he's

616

00:25:22,669 --> 00:25:21,299

like a detective anyway for the killer

617

00:25:25,250 --> 00:25:22,679

to come into the police station to

618

00:25:27,590 --> 00:25:25,260

confess you know I mean he's pathetic on

619

00:25:29,269 --> 00:25:27,600

or on a murder killing somebody in a

620

00:25:31,490 --> 00:25:29,279

forensic laboratory before he believes

621

00:25:34,010 --> 00:25:31,500

it's happened it's absolutely I think

622

00:25:35,870 --> 00:25:34,020

he's totally compromised he's clearly

623

00:25:37,610 --> 00:25:35,880

parted up to the extent that arrow is

624

00:25:40,909 --> 00:25:37,620

now being used for plausible deniability

625

00:25:43,430 --> 00:25:40,919

for the dod I mean that's how bad it is

626
00:25:44,630 --> 00:25:43,440
oh oh no I don't know about it will cost

627
00:25:46,490 --> 00:25:44,640
it all because it's complete

628
00:25:47,930 --> 00:25:46,500
incompetence all around them so it's

629
00:25:50,510 --> 00:25:47,940
absolutely

630
00:25:52,789 --> 00:25:50,520
uh but I don't I mean I don't think the

631
00:25:54,830 --> 00:25:52,799
two words can can continue to coexist

632
00:25:56,810 --> 00:25:54,840
where we've got Dave Grosh the senate

633
00:25:58,549 --> 00:25:56,820
committee language on one hand and the

634
00:26:00,590 --> 00:25:58,559
DoD said oh I don't know about that and

635
00:26:03,110 --> 00:26:00,600
she'll go back to get any slide rule out

636
00:26:05,149 --> 00:26:03,120
he can't coexist but it's got to change

637
00:26:07,669 --> 00:26:05,159
but the unfortunate thing is Arrow's the

638
00:26:09,890 --> 00:26:07,679

only tool we've got legislatively so

639

00:26:11,390 --> 00:26:09,900

it's for me the clear answer is the

640

00:26:13,490 --> 00:26:11,400

governance needs to be changed and it

641

00:26:15,769 --> 00:26:13,500

needs to be taken out of the old usdi as

642

00:26:17,450 --> 00:26:15,779

it has also been done six months ago and

643

00:26:18,710 --> 00:26:17,460

it hasn't been done and they need to

644

00:26:20,029 --> 00:26:18,720

change the management against somebody

645

00:26:22,250 --> 00:26:20,039

they get competition they've got

646

00:26:24,049 --> 00:26:22,260

confidence in so I think if we wait for

647

00:26:25,549 --> 00:26:24,059

them we'll be waiting forever I mean if

648

00:26:26,330 --> 00:26:25,559

grush would have come forward to him he

649

00:26:28,250 --> 00:26:26,340

would have said oh that's very

650

00:26:30,230 --> 00:26:28,260

interesting come back come back when

651
00:26:32,570 --> 00:26:30,240
you've got a bit more evidence oh I

652
00:26:33,710 --> 00:26:32,580
can't take that that's just the essay oh

653
00:26:35,149 --> 00:26:33,720
no you've got a report that's

654
00:26:37,610 --> 00:26:35,159
interesting no I need to see it happen

655
00:26:39,890 --> 00:26:37,620
thanks that's my high bar of methodology

656
00:26:41,630 --> 00:26:39,900
I mean I'm exaggerating a little bit but

657
00:26:43,970 --> 00:26:41,640
the point is I don't I think there's a

658
00:26:45,649 --> 00:26:43,980
people of no confidence in him and he

659
00:26:47,090 --> 00:26:45,659
deliberately that hearing slapped

660
00:26:48,950 --> 00:26:47,100
everybody in their face didn't he saying

661
00:26:50,470 --> 00:26:48,960
there was no availability now it's

662
00:26:52,810 --> 00:26:50,480
verifiable evidence

663
00:26:55,130 --> 00:26:52,820

we know we've seen loads of the stuff

664

00:26:59,750 --> 00:26:55,140

are he's certainly been told about

665

00:27:01,789 --> 00:26:59,760

anecdotaly so I I have I don't know I

666

00:27:04,149 --> 00:27:01,799

can't go minus but I'd say with him in

667

00:27:07,430 --> 00:27:04,159

charge you have no confidence

668

00:27:09,169 --> 00:27:07,440

I want to say one thing let me let me

669

00:27:12,409 --> 00:27:09,179

push back on you with one bit of

670

00:27:14,769 --> 00:27:12,419

information Dave so Brandon fugel he

671

00:27:17,510 --> 00:27:14,779

likes children

672

00:27:19,490 --> 00:27:17,520

his puppies he's raised his puppies I

673

00:27:22,070 --> 00:27:19,500

heard I'm already joking why Miranda's

674

00:27:24,590 --> 00:27:22,080

I'm just kidding there was a statement

675

00:27:26,870 --> 00:27:24,600

that Brandon fugle made the owner of

676

00:27:29,090 --> 00:27:26,880

Skinwalker Ranch a few months ago where

677

00:27:31,970 --> 00:27:29,100

he said he did meet with Kirkpatrick I

678

00:27:33,409 --> 00:27:31,980

believe years ago and Kirkpatrick said

679

00:27:35,990 --> 00:27:33,419

to him like you don't even try to

680

00:27:38,210 --> 00:27:36,000

convince us that UFOs are

681

00:27:40,190 --> 00:27:38,220

actual factual things in the skies we

682

00:27:43,130 --> 00:27:40,200

already believe that show us something

683

00:27:45,649 --> 00:27:43,140

else what is your faith that that was

684

00:27:47,330 --> 00:27:45,659

the an accurate depiction of

685

00:27:50,990 --> 00:27:47,340

Kirkpatrick's

686

00:27:52,310 --> 00:27:51,000

view on the UFO phenomenon back then and

687

00:27:55,370 --> 00:27:52,320

why do you think that it would have

688

00:27:56,990 --> 00:27:55,380

changed from then to to how it is now

689

00:27:58,130 --> 00:27:57,000

well it's even worse though isn't it

690

00:28:00,169 --> 00:27:58,140

because if he does know he's done

691

00:28:03,409 --> 00:28:00,179

absolutely nothing so prove that has he

692

00:28:05,269 --> 00:28:03,419

that's worse I I think that means he's

693

00:28:07,130 --> 00:28:05,279

completely compromised because I thought

694

00:28:08,870 --> 00:28:07,140

at first he did those British Civil

695

00:28:10,070 --> 00:28:08,880

Service trick to pick somebody who

696

00:28:11,990 --> 00:28:10,080

didn't believe any of it in the first

697

00:28:13,669 --> 00:28:12,000

place and then put them in charge of it

698

00:28:15,830 --> 00:28:13,679

so you get the answer that you want you

699

00:28:18,110 --> 00:28:15,840

know I mean that's the old trick well so

700

00:28:19,850 --> 00:28:18,120

I thought he was that at first but now I

701
00:28:22,250 --> 00:28:19,860
actually think no he's there he's there

702
00:28:24,049 --> 00:28:22,260
sort of pawning this game the method

703
00:28:25,909 --> 00:28:24,059
that everything is done if you're gonna

704
00:28:27,890 --> 00:28:25,919
say how we're gonna make a mess of this

705
00:28:29,930 --> 00:28:27,900
investigation you do exactly what he's

706
00:28:32,090 --> 00:28:29,940
done you know so I have no time for him

707
00:28:33,890 --> 00:28:32,100
I don't believe it I mean that doesn't

708
00:28:35,930 --> 00:28:33,900
mean to say I'm right and you're wrong

709
00:28:37,730 --> 00:28:35,940
Dan of course not I don't sat down you

710
00:28:39,529 --> 00:28:37,740
might be a bit more balanced in your

711
00:28:41,570 --> 00:28:39,539
view and that might be correct but I I

712
00:28:43,909 --> 00:28:41,580
think it's time for him to go we'll get

713
00:28:46,789 --> 00:28:43,919

nowhere with him all I could say is is

714

00:28:49,850 --> 00:28:46,799

this Davey if if you know we could hire

715

00:28:52,250 --> 00:28:49,860

the the Scout sir Fiona Hill right the

716

00:28:55,010 --> 00:28:52,260

expert on Russia and Ukraine then why

717

00:28:56,510 --> 00:28:55,020

couldn't they hire Dave right you know

718

00:28:58,730 --> 00:28:56,520

to Arrow right we could get a man

719

00:29:00,710 --> 00:28:58,740

cunning we got Fiona Hill speak you know

720

00:29:02,810 --> 00:29:00,720

it's an absolute expert on Russian

721

00:29:04,310 --> 00:29:02,820

Ukraine we could have Dave as as an

722

00:29:07,070 --> 00:29:04,320

arrow guy man just bring him over the

723

00:29:10,130 --> 00:29:07,080

states I think we already have

724

00:29:12,470 --> 00:29:10,140

it just it just happens to not be they

725

00:29:15,470 --> 00:29:12,480

dive it's not Dave Smith it was Dave

726

00:29:20,450 --> 00:29:15,480

grosh because if you remember he was

727

00:29:23,930 --> 00:29:22,430

Davey I want to set the table for you on

728

00:29:28,310 --> 00:29:23,940

this before you

729

00:29:30,230 --> 00:29:28,320

so if if Dave says I had I have I don't

730

00:29:33,470 --> 00:29:30,240

he didn't name how many polygraphs he

731

00:29:35,269 --> 00:29:33,480

had but he has tssci slash poly and he

732

00:29:37,490 --> 00:29:35,279

said I had enough polygraphs that I

733

00:29:40,190 --> 00:29:37,500

could have been read into any program

734

00:29:43,070 --> 00:29:40,200

so if they decided not to read him in

735

00:29:46,610 --> 00:29:43,080

and then he said I've given information

736

00:29:49,610 --> 00:29:46,620

I have contacted Mr Kirkpatrick asked

737

00:29:52,669 --> 00:29:49,620

him to call me uh he can investigate the

738

00:29:55,789 --> 00:29:52,679

same things that I did then why uh

739

00:29:59,090 --> 00:29:55,799

doesn't that sort of not leave the out

740

00:30:02,389 --> 00:29:59,100

that that sort of uh was alluded to

741

00:30:04,490 --> 00:30:02,399

no and I think that the the fact that he

742

00:30:05,210 --> 00:30:04,500

raised this IG

743

00:30:09,169 --> 00:30:05,220

um

744

00:30:10,669 --> 00:30:09,179

uh the complexity icig complaint is

745

00:30:12,470 --> 00:30:10,679

evidence to the fact that he wasn't

746

00:30:14,210 --> 00:30:12,480

getting heard and wasn't getting what he

747

00:30:15,889 --> 00:30:14,220

was needed and actually it was turning

748

00:30:17,990 --> 00:30:15,899

against him

749

00:30:19,970 --> 00:30:18,000

um and I do wonder you know what you

750

00:30:22,250 --> 00:30:19,980

said we need we need a man on the inside

751
00:30:24,169 --> 00:30:22,260
and I do wonder whether was the man on

752
00:30:26,990 --> 00:30:24,179
the inside we've heard for years the

753
00:30:29,630 --> 00:30:27,000
talks of the conflicting

754
00:30:31,669 --> 00:30:29,640
um groups that are trying to disclose

755
00:30:32,870 --> 00:30:31,679
soft disclose hard disclose whatever the

756
00:30:34,610 --> 00:30:32,880
groups have been trying to keep it

757
00:30:37,250 --> 00:30:34,620
closed and I wonder whether we were

758
00:30:39,049 --> 00:30:37,260
seeing in the influence that the likes

759
00:30:40,669 --> 00:30:39,059
of grushard and people into the

760
00:30:43,730 --> 00:30:40,679
Whistleblower language that was set up

761
00:30:45,769 --> 00:30:43,740
before that this was a stage to allow

762
00:30:47,630 --> 00:30:45,779
this to happen and we're seeing we're

763
00:30:49,850 --> 00:30:47,640

seeing different parties fighting

764

00:30:52,850 --> 00:30:49,860

against it

765

00:30:54,710 --> 00:30:52,860

I totally agree it's it seems like

766

00:30:56,510 --> 00:30:54,720

there's a little bit of a push pull I've

767

00:30:58,010 --> 00:30:56,520

had discussions with a couple of you

768

00:31:01,010 --> 00:30:58,020

whether or not that office was something

769

00:31:03,830 --> 00:31:01,020

of a dog and pony show because Ash I

770

00:31:05,870 --> 00:31:03,840

when when when I don't know if it was at

771

00:31:08,330 --> 00:31:05,880

the NASA briefing but when they say

772

00:31:11,870 --> 00:31:08,340

start bringing up the word we need

773

00:31:14,450 --> 00:31:11,880

funding to get sensors that have are a

774

00:31:16,430 --> 00:31:14,460

certain polarity and sensitivity it's

775

00:31:18,590 --> 00:31:16,440

like dude you're not going dude you're

776

00:31:20,269 --> 00:31:18,600

not having sensors engineered for Arrow

777

00:31:22,010 --> 00:31:20,279

and I mean that's not happening dude if

778

00:31:22,970 --> 00:31:22,020

you're trying to put that over on us

779

00:31:25,370 --> 00:31:22,980

then you think we're going to buy

780

00:31:26,510 --> 00:31:25,380

anything I mean the military has some

781

00:31:28,789 --> 00:31:26,520

extremely

782

00:31:31,389 --> 00:31:28,799

you know not only the military but the

783

00:31:35,690 --> 00:31:31,399

government has some extremely uh

784

00:31:38,330 --> 00:31:35,700

sensitive uh both you know sonar

785

00:31:40,130 --> 00:31:38,340

um you know visual sensors there's

786

00:31:42,769 --> 00:31:40,140

plenty of Technology out there that have

787

00:31:46,010 --> 00:31:42,779

obviously already captured these these

788

00:31:48,350 --> 00:31:46,020

the uh UAP so that them throwing that

789

00:31:50,630 --> 00:31:48,360

out there certainly they need a budget

790

00:31:53,269 --> 00:31:50,640

for analysts and for people to do

791

00:31:54,830 --> 00:31:53,279

academic investigations and go out and

792

00:31:56,810 --> 00:31:54,840

interview people and stuff but they're

793

00:31:58,669 --> 00:31:56,820

not buying Hardware right Ash I mean

794

00:32:01,250 --> 00:31:58,679

what are we talking about with arrow

795

00:32:03,649 --> 00:32:01,260

here what's your your your take

796

00:32:05,450 --> 00:32:03,659

no I agree I mean come on those sense

797

00:32:08,450 --> 00:32:05,460

systems are already in place it's just

798

00:32:10,730 --> 00:32:08,460

we need a mechanism to be there to

799

00:32:11,870 --> 00:32:10,740

enable Arrow or whichever agency is

800

00:32:13,430 --> 00:32:11,880

actually going to be investigating this

801
00:32:14,930 --> 00:32:13,440
to have access to those sense systems

802
00:32:16,490 --> 00:32:14,940
and have access to the data because

803
00:32:17,510 --> 00:32:16,500
obviously a lot of it is sensitive so

804
00:32:18,769 --> 00:32:17,520
therefore you do need the right

805
00:32:20,750 --> 00:32:18,779
authorities do need the right security

806
00:32:22,490 --> 00:32:20,760
clearances I think it was Christopher

807
00:32:25,070 --> 00:32:22,500
Mellon has alluded to this numerous

808
00:32:26,630 --> 00:32:25,080
times around you know the date is there

809
00:32:28,370 --> 00:32:26,640
we just need someone to allow access to

810
00:32:30,409 --> 00:32:28,380
it and find a way of being able to get

811
00:32:31,970 --> 00:32:30,419
that data back to the right people

812
00:32:33,889 --> 00:32:31,980
um so yeah I I don't know what the score

813
00:32:35,029 --> 00:32:33,899

is there with them them using that as an

814

00:32:37,490 --> 00:32:35,039

excuse but

815

00:32:39,830 --> 00:32:37,500

yeah the center systems are there

816

00:32:42,409 --> 00:32:39,840

um on The Wider scale of things again

817

00:32:46,430 --> 00:32:42,419

I'll go back to Dave's Point um Around

818

00:32:47,630 --> 00:32:46,440

The credibility of Kilpatrick um whether

819

00:32:49,310 --> 00:32:47,640

you're talking about a government agency

820

00:32:51,169 --> 00:32:49,320

or a business at the end of the day if

821

00:32:53,090 --> 00:32:51,179

you haven't got the the buy-in of the

822

00:32:54,289 --> 00:32:53,100

people that you're you're wanting to

823

00:32:56,510 --> 00:32:54,299

come and speak with you and work with

824

00:32:57,529 --> 00:32:56,520

and and have a community with then how

825

00:32:59,389 --> 00:32:57,539

are you ever going to get anywhere

826

00:33:00,110 --> 00:32:59,399

you've lost you've lost their faith

827

00:33:02,810 --> 00:33:00,120

already

828

00:33:04,850 --> 00:33:02,820

um so I think his his time is coming up

829

00:33:06,590 --> 00:33:04,860

in my opinion um it's cards are marked

830

00:33:09,649 --> 00:33:06,600

and if we don't start seeing a change in

831

00:33:11,450 --> 00:33:09,659

in uh an opinion and people actually

832

00:33:12,470 --> 00:33:11,460

going to them rather than bypassing them

833

00:33:13,730 --> 00:33:12,480

and going straight into Congress then I

834

00:33:15,110 --> 00:33:13,740

think that's only going to create more

835

00:33:17,269 --> 00:33:15,120

issues

836

00:33:18,350 --> 00:33:17,279

um and also the whole scientific method

837

00:33:19,669 --> 00:33:18,360

thing around

838

00:33:21,529 --> 00:33:19,679

you know we need to have a rigorous

839

00:33:23,210 --> 00:33:21,539

process before we can prove anything I

840

00:33:24,950 --> 00:33:23,220

mean again I find that a bit ridiculous

841

00:33:26,389 --> 00:33:24,960

I mean we convict people of murder on

842

00:33:27,769 --> 00:33:26,399

less evidence verbal you know we have

843

00:33:29,149 --> 00:33:27,779

verbal testimony in court and that's

844

00:33:31,370 --> 00:33:29,159

that's fine

845

00:33:32,870 --> 00:33:31,380

as it comes to a court case so why is

846

00:33:33,769 --> 00:33:32,880

that not fine in this in this case

847

00:33:35,210 --> 00:33:33,779

particularly when you've got

848

00:33:37,070 --> 00:33:35,220

corroborating evidence as gracious

849

00:33:38,930 --> 00:33:37,080

alluded to you know he's spoken to

850

00:33:40,789 --> 00:33:38,940

numerous people all corroborating

851
00:33:42,649 --> 00:33:40,799
the same thing and they don't know each

852
00:33:44,029 --> 00:33:42,659
other so there's clearly Cooperative

853
00:33:46,070 --> 00:33:44,039
evidence there so I think we should be

854
00:33:47,029 --> 00:33:46,080
putting more emphasis on this verbal

855
00:33:48,529 --> 00:33:47,039
testimony as well and these people

856
00:33:50,990 --> 00:33:48,539
coming forward

857
00:33:52,730 --> 00:33:51,000
um so yeah I'm I'm not feeling it too

858
00:33:55,610 --> 00:33:52,740
much at the moment from Arrow I think we

859
00:33:58,130 --> 00:33:55,620
need to see more progress we need to see

860
00:33:59,389 --> 00:33:58,140
um more of the supposed whistleblowers

861
00:34:01,250 --> 00:33:59,399
and Witnesses coming forward to them

862
00:34:02,690 --> 00:34:01,260
directly before I have any real

863
00:34:08,750 --> 00:34:02,700

confidence in them

864

00:34:14,570 --> 00:34:11,629

um I the first time that I listened to

865

00:34:16,369 --> 00:34:14,580

those comments uh it was amazing for me

866

00:34:17,450 --> 00:34:16,379

I'm sure Dan ran out into the driveway

867

00:34:19,609 --> 00:34:17,460

and shot like three or four

868

00:34:21,290 --> 00:34:19,619

three-pointers at his hoop out in the

869

00:34:22,669 --> 00:34:21,300

driveways like just pumping them out

870

00:34:26,089 --> 00:34:22,679

there like doing some Steph Curry

871

00:34:27,589 --> 00:34:26,099

business but what was your feeling Corey

872

00:34:30,770 --> 00:34:27,599

when you first heard that was it is

873

00:34:33,169 --> 00:34:30,780

jarring for you as it was for me

874

00:34:36,470 --> 00:34:33,179

hold on when I heard of what yeah what

875

00:34:40,669 --> 00:34:36,480

crush's interview with with Ross rossat

876

00:34:42,829 --> 00:34:40,679

oh you know I I was blown away I knew uh

877

00:34:45,730 --> 00:34:42,839

I knew it was a turning point and I knew

878

00:34:48,470 --> 00:34:45,740

that with someone like uh Ross cohort

879

00:34:50,270 --> 00:34:48,480

and you know the UFO Community watching

880

00:34:53,210 --> 00:34:50,280

that we weren't going to be able to put

881

00:34:54,950 --> 00:34:53,220

the toothpaste back in the tube uh and I

882

00:34:58,130 --> 00:34:54,960

kind of quickly established looking at

883

00:35:00,290 --> 00:34:58,140

social media that most of the credible

884

00:35:01,730 --> 00:35:00,300

people in our community found him to be

885

00:35:04,970 --> 00:35:01,740

credible

886

00:35:07,250 --> 00:35:04,980

um so I I and this is kind of why we're

887

00:35:08,990 --> 00:35:07,260

here now so I'm thankful that he that it

888

00:35:11,630 --> 00:35:09,000

came forward and thankful that news

889

00:35:13,010 --> 00:35:11,640

Nation gave you know that that a

890

00:35:14,870 --> 00:35:13,020

platform

891

00:35:16,970 --> 00:35:14,880

um still you know like most of us are

892

00:35:20,390 --> 00:35:16,980

like Hey where's where's the other you

893

00:35:22,609 --> 00:35:20,400

know major uh major media uh mainstream

894

00:35:25,550 --> 00:35:22,619

media they're kind of quiet on it

895

00:35:27,370 --> 00:35:25,560

but uh right to say the least I

896

00:35:29,810 --> 00:35:27,380

definitely quiet

897

00:35:31,970 --> 00:35:29,820

but I kind of I look at this a little

898

00:35:34,069 --> 00:35:31,980

bit different you know I from like a

899

00:35:36,109 --> 00:35:34,079

public relations standpoint so if you go

900

00:35:38,990 --> 00:35:36,119

back to 2017 and you're listening to a

901
00:35:42,589 --> 00:35:39,000
guy like Tom DeLong and he's talking I

902
00:35:45,829 --> 00:35:42,599
think that we're watching uh a campaign

903
00:35:48,170 --> 00:35:45,839
rollout and I think that Rush probably

904
00:35:50,690 --> 00:35:48,180
there was he probably somebody like him

905
00:35:52,849 --> 00:35:50,700
was probably in the cards and I just

906
00:35:55,790 --> 00:35:52,859
think we're watching it play out in a

907
00:35:58,609 --> 00:35:55,800
kind of a linear fashion so I I'm sure

908
00:36:01,609 --> 00:35:58,619
Rubio uh julabrand people that really

909
00:36:04,010 --> 00:36:01,619
know what uh is going on in terms of

910
00:36:05,630 --> 00:36:04,020
this disclosure movement they probably

911
00:36:07,910 --> 00:36:05,640
know what's going to happen six months

912
00:36:10,010 --> 00:36:07,920
from now or a year from now is what I'm

913
00:36:11,990 --> 00:36:10,020

guessing I don't think that anything

914

00:36:14,210 --> 00:36:12,000

that's going to be said and let's say we

915

00:36:15,710 --> 00:36:14,220

do have public hearings in July I don't

916

00:36:18,410 --> 00:36:15,720

think anything is going to be said there

917

00:36:19,670 --> 00:36:18,420

that they weren't aware of uh from their

918

00:36:21,890 --> 00:36:19,680

perspective there's not going to be any

919

00:36:24,349 --> 00:36:21,900

new information hopefully for us there

920

00:36:26,450 --> 00:36:24,359

is going to be you know information but

921

00:36:28,490 --> 00:36:26,460

uh yeah I think it's a little bit of a

922

00:36:31,190 --> 00:36:28,500

charade and it's something that is game

923

00:36:33,170 --> 00:36:31,200

planned a long time ago and um they know

924

00:36:35,089 --> 00:36:33,180

we're kind of past the point of no

925

00:36:36,829 --> 00:36:35,099

return and we're going to see some

926

00:36:39,109 --> 00:36:36,839

infighting we're going to see factions

927

00:36:41,930 --> 00:36:39,119

that pop up and try to slow it but I

928

00:36:44,569 --> 00:36:41,940

don't think they can stop it it's just

929

00:36:46,730 --> 00:36:44,579

you know the train Train's gonna keep on

930

00:36:49,250 --> 00:36:46,740

rolling yeah there's no there's no way

931

00:36:51,589 --> 00:36:49,260

uh and from a political standpoint I I

932

00:36:53,870 --> 00:36:51,599

you know I think John Ramirez has talked

933

00:36:55,490 --> 00:36:53,880

about you know this is going to be

934

00:36:57,829 --> 00:36:55,500

um you know this is going to be a topic

935

00:37:00,349 --> 00:36:57,839

for the 2024 election

936

00:37:02,630 --> 00:37:00,359

um it's not yet but he seemed to have

937

00:37:05,030 --> 00:37:02,640

some foreknowledge that this is going to

938

00:37:07,069 --> 00:37:05,040

be a topic so I think we're headed yeah

939

00:37:09,650 --> 00:37:07,079

in the right direction and it's just

940

00:37:11,810 --> 00:37:09,660

going to reach that crescendo

941

00:37:13,430 --> 00:37:11,820

yeah I want to I want to tag on to

942

00:37:14,450 --> 00:37:13,440

Corey's comments real quick

943

00:37:17,329 --> 00:37:14,460

um

944

00:37:18,829 --> 00:37:17,339

as far as a long-term plan being

945

00:37:20,690 --> 00:37:18,839

deployed right now

946

00:37:22,910 --> 00:37:20,700

I almost wonder if the current

947

00:37:26,089 --> 00:37:22,920

whistleblower crash retrieval discussion

948

00:37:27,410 --> 00:37:26,099

is actually two years delayed we all

949

00:37:29,210 --> 00:37:27,420

remember that there was supposed to be a

950

00:37:32,450 --> 00:37:29,220

New York Times article that was dropped

951
00:37:35,329 --> 00:37:32,460
about Crash retrieval programs that got

952
00:37:38,450 --> 00:37:35,339
whittled down is my understanding from

953
00:37:40,250 --> 00:37:38,460
what was actually released and

954
00:37:41,870 --> 00:37:40,260
um there was a lot of controversy on

955
00:37:43,810 --> 00:37:41,880
that at the time that it occurred so I

956
00:37:46,490 --> 00:37:43,820
almost wondered if that was the attempt

957
00:37:49,849 --> 00:37:46,500
two years ago to get this information

958
00:37:52,609 --> 00:37:49,859
out in front of the public and they had

959
00:37:55,490 --> 00:37:52,619
to reel it in and it delayed the process

960
00:37:58,430 --> 00:37:55,500
itself to where it is now and so this is

961
00:38:00,349 --> 00:37:58,440
just attempt number two to get this out

962
00:38:02,329 --> 00:38:00,359
into the public discussion

963
00:38:03,890 --> 00:38:02,339

there's a there's a sort of point to

964

00:38:07,130 --> 00:38:03,900

Cory's point though isn't there him but

965

00:38:08,990 --> 00:38:07,140

I don't think he's a consensus rollout I

966

00:38:11,390 --> 00:38:09,000

think he's a roll out by one side but

967

00:38:13,010 --> 00:38:11,400

can't be stopped so for instance I don't

968

00:38:14,329 --> 00:38:13,020

think they've all got together and I

969

00:38:16,190 --> 00:38:14,339

know you weren't saying this Curry by

970

00:38:18,650 --> 00:38:16,200

the way I get that I don't think that

971

00:38:20,569 --> 00:38:18,660

they're all playing the role in the dods

972

00:38:22,730 --> 00:38:20,579

the bad day in the pantomime and I don't

973

00:38:24,650 --> 00:38:22,740

think it's that I think obviously they

974

00:38:27,349 --> 00:38:24,660

went from 17 they've had this plan

975

00:38:30,290 --> 00:38:27,359

strategized as it were getting to Senate

976

00:38:31,849 --> 00:38:30,300

and it they're going and it's that plan

977

00:38:33,770 --> 00:38:31,859

that's going forward and I agree

978

00:38:36,829 --> 00:38:33,780

probably people who are looking at this

979

00:38:38,810 --> 00:38:36,839

and older deck the steps I suspect they

980

00:38:41,210 --> 00:38:38,820

didn't think of what he was going to say

981

00:38:42,770 --> 00:38:41,220

uh they've rushed the impact of it

982

00:38:44,810 --> 00:38:42,780

because he's drove a coach and horses

983

00:38:46,690 --> 00:38:44,820

through what we think of as the stages

984

00:38:48,890 --> 00:38:46,700

of disclosure aren't they

985

00:38:50,569 --> 00:38:48,900

a lot of them were in there the White

986

00:38:53,329 --> 00:38:50,579

House ripping up the paper when they

987

00:38:55,010 --> 00:38:53,339

said what he said you know but so I

988

00:38:57,290 --> 00:38:55,020

think you're right I think there's a lot

989

00:38:59,270 --> 00:38:57,300

they will know what's happening but I'd

990

00:39:01,250 --> 00:38:59,280

say more than it being a steady state

991

00:39:02,870 --> 00:39:01,260

procession to disclosure David in the

992

00:39:04,910 --> 00:39:02,880

disclosure facts and it's a bit more

993

00:39:06,349 --> 00:39:04,920

like a I thought of a bar fight at first

994

00:39:08,450 --> 00:39:06,359

but it's probably not a bad fight is it

995

00:39:10,849 --> 00:39:08,460

and it was all Western bar fights it's

996

00:39:12,349 --> 00:39:10,859

more of a it's sort of happening but

997

00:39:13,910 --> 00:39:12,359

it's a you know it's sort of a bad

998

00:39:15,770 --> 00:39:13,920

that's why I agree they know what's

999

00:39:17,150 --> 00:39:15,780

going to happen but I think it's quite

1000

00:39:19,370 --> 00:39:17,160

unpredictable as well but I don't think

1001

00:39:21,109 --> 00:39:19,380

it was a consensus I think you're right

1002

00:39:23,450 --> 00:39:21,119

Corey I think they've won now and they

1003

00:39:25,730 --> 00:39:23,460

try to check it home aren't they I

1004

00:39:28,069 --> 00:39:25,740

suppose is it is is it like when the

1005

00:39:30,349 --> 00:39:28,079

Manu fans and the Liverpool fans end up

1006

00:39:32,089 --> 00:39:30,359

in like the same bar Dave that kind of

1007

00:39:33,770 --> 00:39:32,099

thing now we're all we're all too

1008

00:39:35,329 --> 00:39:33,780

sophisticated for that days yeah we

1009

00:39:36,890 --> 00:39:35,339

don't be building that sort of behavior

1010

00:39:43,569 --> 00:39:36,900

oh no

1011

00:39:48,290 --> 00:39:45,950

Corey right I think you just kind of put

1012

00:39:50,870 --> 00:39:48,300

like the icing on what I was saying uh

1013

00:39:52,910 --> 00:39:50,880

for sure because uh yeah I don't think

1014

00:39:55,069 --> 00:39:52,920

that there's one big you know meeting

1015

00:39:57,109 --> 00:39:55,079

where all of these policy makers get

1016

00:39:59,270 --> 00:39:57,119

together and say this is the plan I

1017

00:40:00,770 --> 00:39:59,280

think that there's uh you know we've

1018

00:40:02,569 --> 00:40:00,780

talked about it there's infighting

1019

00:40:04,970 --> 00:40:02,579

there's people who want this to come out

1020

00:40:06,950 --> 00:40:04,980

sooner than later and there's people who

1021

00:40:08,510 --> 00:40:06,960

would you know for various reasons uh

1022

00:40:10,370 --> 00:40:08,520

probably a whole different faction that

1023

00:40:12,950 --> 00:40:10,380

would like to you know slow that as much

1024

00:40:15,710 --> 00:40:12,960

as they can uh or are just indifferent

1025

00:40:17,569 --> 00:40:15,720

to it for whatever reason it has to be

1026

00:40:19,310 --> 00:40:17,579

there's no way there could be consensus

1027

00:40:21,170 --> 00:40:19,320

but there's a couple things I want to

1028

00:40:23,329 --> 00:40:21,180

put out there real quick for who

1029

00:40:25,550 --> 00:40:23,339

whoever's in the chat if you have a

1030

00:40:27,829 --> 00:40:25,560

question uh Jules will tell you please

1031

00:40:30,710 --> 00:40:27,839

type it in all caps it will be on our

1032

00:40:34,069 --> 00:40:30,720

next go round uh and then I'm gonna go

1033

00:40:36,470 --> 00:40:34,079

to uh Debs and I'd like to hit this up

1034

00:40:38,870 --> 00:40:36,480

and get everybody's if you can recall

1035

00:40:40,790 --> 00:40:38,880

what your visceral reaction was and

1036

00:40:42,829 --> 00:40:40,800

please don't say I heard it all before

1037

00:40:44,630 --> 00:40:42,839

nothing surprised me as far as what

1038

00:40:46,849 --> 00:40:44,640

Russia's rep Revelations because I know

1039

00:40:48,829 --> 00:40:46,859

that's gonna be I heard it all man it

1040

00:40:51,770 --> 00:40:48,839

ain't nothing he said it surprised me

1041

00:40:56,030 --> 00:40:51,780

but um Deb

1042

00:41:00,349 --> 00:40:56,040

um what is the most surprising thing or

1043

00:41:01,609 --> 00:41:00,359

interesting thing that Dave said look

1044

00:41:04,849 --> 00:41:01,619

I'm calling him Dave like we're friends

1045

00:41:06,290 --> 00:41:04,859

now Dan right but uh I mean he didn't

1046

00:41:08,270 --> 00:41:06,300

stay at my house like he stayed at

1047

00:41:10,730 --> 00:41:08,280

Jeremy corbell's I mean Jeremy probably

1048

00:41:12,109 --> 00:41:10,740

knows what kind of cologne he uses

1049

00:41:14,270 --> 00:41:12,119

um but

1050

00:41:16,310 --> 00:41:14,280

um Deb what was the most interesting

1051

00:41:19,250 --> 00:41:16,320

thing

1052

00:41:22,670 --> 00:41:19,260

um that he said to you or most uh

1053

00:41:25,370 --> 00:41:22,680

surprising thing I think the thing that

1054

00:41:27,170 --> 00:41:25,380

gets pushed under the rug quite often is

1055

00:41:29,569 --> 00:41:27,180

that people have died

1056

00:41:31,670 --> 00:41:29,579

and he said it um and I really think

1057

00:41:33,890 --> 00:41:31,680

people need to pay attention to that and

1058

00:41:35,930 --> 00:41:33,900

he's not the first person by the way who

1059

00:41:38,569 --> 00:41:35,940

said it but everyone seems to be

1060

00:41:39,770 --> 00:41:38,579

overlooking that um Gary Nolan also said

1061

00:41:46,130 --> 00:41:39,780

that

1062

00:41:47,870 --> 00:41:46,140

uaps and yes but but he threw a

1063

00:41:50,030 --> 00:41:47,880

different he threw a Different Twist on

1064

00:41:53,030 --> 00:41:50,040

it because we talked about this during

1065

00:41:55,190 --> 00:41:53,040

this uh either before

1066

00:41:57,470 --> 00:41:55,200

during or after the summer van episode

1067

00:41:59,750 --> 00:41:57,480

when I said I suspect the thing what

1068

00:42:01,069 --> 00:41:59,760

they really don't want us to know is if

1069

00:42:03,470 --> 00:42:01,079

people have been killed by these things

1070

00:42:05,630 --> 00:42:03,480

and he said he used the word When Ross

1071

00:42:08,150 --> 00:42:05,640

asked him murdered

1072

00:42:10,190 --> 00:42:08,160

um he said yeah unfortunately yes I

1073

00:42:12,950 --> 00:42:10,200

think was his response back me up is

1074

00:42:15,950 --> 00:42:12,960

that right Debs uh yeah if anyone looks

1075

00:42:18,050 --> 00:42:15,960

into colorus I mean they're they're not

1076

00:42:19,790 --> 00:42:18,060

all you know rainbows and butterflies

1077

00:42:22,490 --> 00:42:19,800

the incidents that happen there are

1078

00:42:25,010 --> 00:42:22,500

pretty horrific people have you know

1079

00:42:26,990 --> 00:42:25,020

Burns and injuries and you know

1080

00:42:30,410 --> 00:42:27,000

obviously some people may not have ever

1081

00:42:32,750 --> 00:42:30,420

come back after being taken you know so

1082

00:42:35,150 --> 00:42:32,760

either some things

1083

00:42:37,490 --> 00:42:35,160

um that people are kind of missing and

1084

00:42:39,770 --> 00:42:37,500

they keep ignoring the fact that people

1085

00:42:41,810 --> 00:42:39,780

are saying people have died

1086

00:42:43,609 --> 00:42:41,820

so I think

1087

00:42:45,410 --> 00:42:43,619

I'm sorry Debs go ahead please ma'am

1088

00:42:47,990 --> 00:42:45,420

yeah so that's that's one of my concerns

1089

00:42:49,970 --> 00:42:48,000

but I just wanted to let Corey know that

1090

00:42:51,410 --> 00:42:49,980

I did see an article recently about a

1091

00:42:54,170 --> 00:42:51,420

presidential candidate talking about

1092

00:42:55,910 --> 00:42:54,180

this so it is starting to enter the

1093

00:42:57,410 --> 00:42:55,920

presidential race

1094

00:42:59,630 --> 00:42:57,420

here I just want to say here's the Dave

1095

00:43:02,569 --> 00:42:59,640

fan right here Cosmo Dave needs more

1096

00:43:06,650 --> 00:43:02,579

public airtime damn it the the public

1097

00:43:10,250 --> 00:43:06,660

demands more Dave in 2024

1098

00:43:11,870 --> 00:43:10,260

and he should be part of Arrow uh Dan

1099

00:43:14,630 --> 00:43:11,880

um what was the most surprising

1100

00:43:17,210 --> 00:43:14,640

interesting jarring thing that Dave said

1101
00:43:19,609 --> 00:43:17,220
that really hits you because I I

1102
00:43:20,690 --> 00:43:19,619
couldn't have a normal day after hearing

1103
00:43:23,030 --> 00:43:20,700
that

1104
00:43:25,190 --> 00:43:23,040
well there was I mean it was so much of

1105
00:43:27,230 --> 00:43:25,200
it confirmed

1106
00:43:29,390 --> 00:43:27,240
um or backed up and supported things

1107
00:43:31,490 --> 00:43:29,400
that we've all been hearing the thing

1108
00:43:33,170 --> 00:43:31,500
that of course jumped out to me was the

1109
00:43:35,750 --> 00:43:33,180
fourth and fifth Dimensions that he was

1110
00:43:37,490 --> 00:43:35,760
talking about maybe it's not

1111
00:43:38,569 --> 00:43:37,500
um from another planet maybe it's from

1112
00:43:40,910 --> 00:43:38,579
another

1113
00:43:43,609 --> 00:43:40,920

it's hard to even say the words out loud

1114

00:43:46,130 --> 00:43:43,619

Dimension or time and it immediately

1115

00:43:48,650 --> 00:43:46,140

made me think about the description that

1116

00:43:51,530 --> 00:43:48,660

Lou Alexander gave with the sick red

1117

00:43:53,630 --> 00:43:51,540

analogy with some entities potentially

1118

00:43:57,050 --> 00:43:53,640

experiencing time in a different way

1119

00:43:59,450 --> 00:43:57,060

than we do so that once again this is

1120

00:44:02,950 --> 00:43:59,460

where it takes me back to

1121

00:44:05,870 --> 00:44:02,960

um our ancients if these

1122

00:44:08,210 --> 00:44:05,880

non-human intelligences experience time

1123

00:44:11,150 --> 00:44:08,220

in a different way than we do maybe

1124

00:44:12,829 --> 00:44:11,160

they're the same non-human intelligences

1125

00:44:15,050 --> 00:44:12,839

that we're interacting with the

1126

00:44:17,930 --> 00:44:15,060

Egyptians with the

1127

00:44:20,750 --> 00:44:17,940

civilizations down in Peru maybe there

1128

00:44:22,849 --> 00:44:20,760

was an interaction from a long time ago

1129

00:44:24,829 --> 00:44:22,859

and maybe it's the same people and we'll

1130

00:44:27,770 --> 00:44:24,839

be able to learn more about our ancient

1131

00:44:29,750 --> 00:44:27,780

Origins based on the future we're going

1132

00:44:31,730 --> 00:44:29,760

to learn more about our past as we move

1133

00:44:33,290 --> 00:44:31,740

into the future is what I hope from this

1134

00:44:35,089 --> 00:44:33,300

phenomenon and that is one of the things

1135

00:44:37,430 --> 00:44:35,099

that jumped out to me about gracious

1136

00:44:39,290 --> 00:44:37,440

comments is there's there's a potential

1137

00:44:41,990 --> 00:44:39,300

for that to occur

1138

00:44:43,970 --> 00:44:42,000

and by the way Dave and Dan coming up on

1139

00:44:46,370 --> 00:44:43,980

a future ancient civilizations episode

1140

00:44:48,890 --> 00:44:46,380

on cab where we're gonna hit up that new

1141

00:44:51,290 --> 00:44:48,900

uh hidden pyramid documentary and stuff

1142

00:44:53,510 --> 00:44:51,300

that was absolutely fascinating Netflix

1143

00:44:55,430 --> 00:44:53,520

hit it out of the park with that

1144

00:44:57,890 --> 00:44:55,440

um and just to give the quote here

1145

00:44:59,809 --> 00:44:57,900

because I did take notes during that

1146

00:45:00,530 --> 00:44:59,819

interview he said

1147

00:45:02,329 --> 00:45:00,540

um

1148

00:45:05,089 --> 00:45:02,339

craft may not be traveling through space

1149

00:45:07,670 --> 00:45:05,099

as we understand it could be coming from

1150

00:45:12,650 --> 00:45:07,680

a quote higher dimensional physical

1151
00:45:16,550 --> 00:45:12,660
space co-located with us unquote so yeah

1152
00:45:19,550 --> 00:45:16,560
it is okay that that really too it is

1153
00:45:20,809 --> 00:45:19,560
just shocking for a lot of people to

1154
00:45:22,250 --> 00:45:20,819
hear that because it sounds like you're

1155
00:45:25,670 --> 00:45:22,260
talking about a science fiction movie

1156
00:45:27,770 --> 00:45:25,680
Dave so real quick I'm speaking of

1157
00:45:29,690 --> 00:45:27,780
movies if you haven't seen it yet I do

1158
00:45:32,569 --> 00:45:29,700
recommend the new Indiana Jones movie

1159
00:45:33,890 --> 00:45:32,579
because of this exact conversation that

1160
00:45:37,309 --> 00:45:33,900
we're having right now I don't want to

1161
00:45:38,569 --> 00:45:37,319
get any spoilers out but it is it was

1162
00:45:41,809 --> 00:45:38,579
shocking

1163
00:45:44,690 --> 00:45:41,819

um to see the discussion uh the thought

1164

00:45:47,510 --> 00:45:44,700

process that went into the plot at once

1165

00:45:49,130 --> 00:45:47,520

about one specific uh

1166

00:45:51,670 --> 00:45:49,140

it's pretty much I'm giving it away

1167

00:45:54,290 --> 00:45:51,680

right now what we're talking about

1168

00:45:58,069 --> 00:45:54,300

resist temptation because I want to go

1169

00:46:01,730 --> 00:45:58,079

see it it's good it's good I I will

1170

00:46:03,829 --> 00:46:01,740

um Dave uh most interesting shocking uh

1171

00:46:06,069 --> 00:46:03,839

did it affect your whole day the next

1172

00:46:10,190 --> 00:46:08,270

well I couldn't believe all the things

1173

00:46:12,770 --> 00:46:10,200

that we knew about but he confirmed and

1174

00:46:14,870 --> 00:46:12,780

what struck me is we lived in this world

1175

00:46:16,430 --> 00:46:14,880

of speculation aren't we for decades or

1176

00:46:18,710 --> 00:46:16,440

whatever I remember we've been into it

1177

00:46:21,290 --> 00:46:18,720

and he immediately sort of collapsed

1178

00:46:22,790 --> 00:46:21,300

that sort of waveform as it were and all

1179

00:46:24,349 --> 00:46:22,800

things we thought were indeterminate

1180

00:46:26,329 --> 00:46:24,359

were determined if you believe a

1181

00:46:28,730 --> 00:46:26,339

strength of his evidence and that was

1182

00:46:30,230 --> 00:46:28,740

the biggest thing for me but maybe a lot

1183

00:46:32,030 --> 00:46:30,240

of the Witnesses were doing over the

1184

00:46:34,430 --> 00:46:32,040

years were much more credible but we've

1185

00:46:35,690 --> 00:46:34,440

been self-editing and that was that was

1186

00:46:37,490 --> 00:46:35,700

the sort of hour and a little bit more

1187

00:46:39,470 --> 00:46:37,500

viscerally than that but that's what I

1188

00:46:42,530 --> 00:46:39,480

thought the thing that really made me

1189

00:46:45,109 --> 00:46:42,540

reaching me snuff box though was the uh

1190

00:46:47,230 --> 00:46:45,119

was the treaty thing I've never I wasn't

1191

00:46:50,390 --> 00:46:47,240

expecting that or that

1192

00:46:52,849 --> 00:46:50,400

absolutely we'll get public internet in

1193

00:46:54,950 --> 00:46:52,859

a bit but all maybe another time but

1194

00:46:57,170 --> 00:46:54,960

what that was what did me but that class

1195

00:47:00,530 --> 00:46:57,180

in the waveforms really really important

1196

00:47:02,870 --> 00:47:00,540

because it moves us right on down the

1197

00:47:05,210 --> 00:47:02,880

road and that's really significant to me

1198

00:47:07,430 --> 00:47:05,220

now I'm so glad you brought that up

1199

00:47:10,550 --> 00:47:07,440

because that was one hey what's up

1200

00:47:13,670 --> 00:47:10,560

Vinnie Adams in the building baby what's

1201
00:47:19,510 --> 00:47:13,680
up Vincenzo I got your uh I've got your

1202
00:47:23,870 --> 00:47:21,710
phone is starting to play Moto America

1203
00:47:26,510 --> 00:47:23,880
right now because I was watching Moto

1204
00:47:28,970 --> 00:47:26,520
America on my phone today uh because

1205
00:47:32,750 --> 00:47:28,980
there's no MotoGP right Davey

1206
00:47:36,050 --> 00:47:32,760
um so Davey what what was it uh brother

1207
00:47:38,329 --> 00:47:36,060
what did you find uh that was the most

1208
00:47:39,950 --> 00:47:38,339
Char uh shocking jarring interesting

1209
00:47:42,470 --> 00:47:39,960
that he said

1210
00:47:46,550 --> 00:47:42,480
for me very similar to Dave was how

1211
00:47:48,230 --> 00:47:46,560
similar this is to the car story we've

1212
00:47:51,290 --> 00:47:48,240
heard this so many times from so many

1213
00:47:53,150 --> 00:47:51,300

people in different ways different forms

1214

00:47:56,030 --> 00:47:53,160

um and then you start to think about you

1215

00:47:58,790 --> 00:47:56,040

know okay so high mesh Ed the former

1216

00:48:01,250 --> 00:47:58,800

Israeli Intel intelligence defense Chief

1217

00:48:02,750 --> 00:48:01,260

who came out and was saying effectively

1218

00:48:05,809 --> 00:48:02,760

these same stories one or two little

1219

00:48:07,609 --> 00:48:05,819

embellishments and bits broad on it and

1220

00:48:09,710 --> 00:48:07,619

the response was he's just repeating

1221

00:48:11,630 --> 00:48:09,720

what he's being told but he wasn't

1222

00:48:13,250 --> 00:48:11,640

telling that much a different story so

1223

00:48:15,829 --> 00:48:13,260

that for me was

1224

00:48:18,890 --> 00:48:15,839

pretty radical but sitting here with my

1225

00:48:21,950 --> 00:48:18,900

UAP Med hat on I have to Echo what Deb

1226

00:48:24,230 --> 00:48:21,960

said about the people having died but

1227

00:48:25,670 --> 00:48:24,240

again I I interpreted that in two ways

1228

00:48:28,970 --> 00:48:25,680

that people have been injured in

1229

00:48:31,550 --> 00:48:28,980

proximity to these objects but even more

1230

00:48:32,510 --> 00:48:31,560

terrifying and this is what really made

1231

00:48:34,430 --> 00:48:32,520

me

1232

00:48:37,930 --> 00:48:34,440

yeah shiver a little bit was that

1233

00:48:40,609 --> 00:48:37,940

perhaps people have been killed around

1234

00:48:42,770 --> 00:48:40,619

keeping this secret secure keeping this

1235

00:48:46,069 --> 00:48:42,780

safe that for me is

1236

00:48:49,370 --> 00:48:46,079

other otherworldly no it's too much of

1237

00:48:56,930 --> 00:48:51,050

I don't know why that came out as funny

1238

00:49:01,490 --> 00:48:58,790

well first of all let's say Bob Marley

1239

00:49:03,770 --> 00:49:01,500

is in the chat we have to say irie man I

1240

00:49:06,109 --> 00:49:03,780

can't wait for the new documentary on

1241

00:49:09,890 --> 00:49:06,119

Netflix man Jamaica is all now they're

1242

00:49:13,390 --> 00:49:09,900

all cringy nowadays I don't care man it

1243

00:49:16,370 --> 00:49:13,400

could suck it yeah uh

1244

00:49:18,530 --> 00:49:16,380

Vinnie thank you for saying that Vinnie

1245

00:49:21,170 --> 00:49:18,540

you're another awesome person we need to

1246

00:49:23,329 --> 00:49:21,180

get you on a panel you and your hair on

1247

00:49:25,309 --> 00:49:23,339

a panel here soon

1248

00:49:27,829 --> 00:49:25,319

um Ash

1249

00:49:30,050 --> 00:49:27,839

two questions for you sir first the the

1250

00:49:31,910 --> 00:49:30,060

question that we post to everybody which

1251
00:49:34,069 --> 00:49:31,920
is what it was the most interesting

1252
00:49:36,770 --> 00:49:34,079
jarring fascinating thing you heard Rush

1253
00:49:38,030 --> 00:49:36,780
say and secondly is What statistic do

1254
00:49:40,309 --> 00:49:38,040
you think

1255
00:49:42,290 --> 00:49:40,319
do they most not want to give up because

1256
00:49:46,550 --> 00:49:42,300
they think it would be so destabilizing

1257
00:49:48,790 --> 00:49:46,560
to the American and World populous

1258
00:49:52,550 --> 00:49:48,800
most interesting first good questions

1259
00:49:53,809 --> 00:49:52,560
yeah so um I think for me the fact that

1260
00:49:55,550 --> 00:49:53,819
we had we have had someone that's

1261
00:49:56,809 --> 00:49:55,560
followed the correct vetting process you

1262
00:49:59,030 --> 00:49:56,819
know has been through the correct

1263
00:50:00,170 --> 00:49:59,040

process to actually come forward

1264

00:50:02,089 --> 00:50:00,180

um and Marco Rubio mentioned that you

1265

00:50:03,410 --> 00:50:02,099

know he was the first one to do that uh

1266

00:50:05,030 --> 00:50:03,420

and and the fact that his background

1267

00:50:07,370 --> 00:50:05,040

he's so credible you know he's a high

1268

00:50:08,870 --> 00:50:07,380

former high level intelligence operative

1269

00:50:10,370 --> 00:50:08,880

had a distinguished career in the

1270

00:50:12,349 --> 00:50:10,380

military as well you know the guy is

1271

00:50:13,490 --> 00:50:12,359

credible whether even just if you looked

1272

00:50:14,990 --> 00:50:13,500

him on paper he's credible they're now

1273

00:50:16,670 --> 00:50:15,000

having seen him in the interview as well

1274

00:50:17,930 --> 00:50:16,680

he comes across as very well presented

1275

00:50:19,670 --> 00:50:17,940

and

1276

00:50:21,349 --> 00:50:19,680

um yeah very diligent

1277

00:50:23,569 --> 00:50:21,359

so yeah all of what the guys have said

1278

00:50:24,890 --> 00:50:23,579

already but I think one thing that he he

1279

00:50:26,270 --> 00:50:24,900

came out with I thought was really

1280

00:50:27,349 --> 00:50:26,280

interested as well and again it's not

1281

00:50:28,490 --> 00:50:27,359

something we haven't heard before but

1282

00:50:30,230 --> 00:50:28,500

the fact again it's coming from someone

1283

00:50:32,089 --> 00:50:30,240

with that level of credibility was I've

1284

00:50:34,010 --> 00:50:32,099

got the comment here um I think Ross

1285

00:50:36,349 --> 00:50:34,020

quarter asked him around around

1286

00:50:37,309 --> 00:50:36,359

bodies and he said well naturally when

1287

00:50:38,870 --> 00:50:37,319

you recover something that's either

1288

00:50:40,550 --> 00:50:38,880

landed or crashed sometimes you

1289

00:50:42,050 --> 00:50:40,560

encounter dead pilots and believe it or

1290

00:50:43,670 --> 00:50:42,060

not as Fantastical as that sounds it's

1291

00:50:45,650 --> 00:50:43,680

true I mean the fact he came out and

1292

00:50:47,690 --> 00:50:45,660

said that you know we have bodies yes

1293

00:50:49,250 --> 00:50:47,700

it's just just like that it's like yeah

1294

00:50:50,450 --> 00:50:49,260

well obviously they crashed so we're

1295

00:50:52,849 --> 00:50:50,460

bound to have bodies we've got bodies

1296

00:50:54,049 --> 00:50:52,859

it's true so and it sounds as if it's

1297

00:50:56,390 --> 00:50:54,059

it's something that happens quite

1298

00:50:58,910 --> 00:50:56,400

regularly you know um so that that was

1299

00:51:00,170 --> 00:50:58,920

quite I found that quite interesting and

1300

00:51:02,690 --> 00:51:00,180

wow that it's come from someone of that

1301

00:51:04,010 --> 00:51:02,700

credibility and seniority and yes

1302

00:51:06,589 --> 00:51:04,020

statistically wise I think it goes back

1303

00:51:08,630 --> 00:51:06,599

to the deaf thing the death um thing

1304

00:51:09,950 --> 00:51:08,640

that David was talking about and again I

1305

00:51:11,510 --> 00:51:09,960

interpret it in that way as well Davey

1306

00:51:13,490 --> 00:51:11,520

both sides both the uaps themselves

1307

00:51:15,109 --> 00:51:13,500

causing deaths and also the secret

1308

00:51:16,430 --> 00:51:15,119

Keepers were hiding the secret by

1309

00:51:17,510 --> 00:51:16,440

killing potentially people as well

1310

00:51:18,650 --> 00:51:17,520

because they didn't want the cat out of

1311

00:51:20,450 --> 00:51:18,660

the bag

1312

00:51:22,430 --> 00:51:20,460

um yeah I mean how many people go

1313

00:51:23,450 --> 00:51:22,440

missing per year I mean there's been

1314

00:51:24,950 --> 00:51:23,460

plenty of work done on that as well

1315

00:51:26,930 --> 00:51:24,960

missing four on that kind of stuff that

1316

00:51:29,030 --> 00:51:26,940

David providers does

1317

00:51:30,470 --> 00:51:29,040

um yeah I mean having dealt with missing

1318

00:51:32,150 --> 00:51:30,480

people as well in my previous career

1319

00:51:34,089 --> 00:51:32,160

there's a lot that goes under the radar

1320

00:51:36,829 --> 00:51:34,099

and people don't actually know about um

1321

00:51:38,930 --> 00:51:36,839

what ends up where do they end up what

1322

00:51:40,609 --> 00:51:38,940

happens to them if it transpired that

1323

00:51:41,870 --> 00:51:40,619

actually this was playing a part in that

1324

00:51:44,030 --> 00:51:41,880

I think that would be hugely

1325

00:51:45,049 --> 00:51:44,040

destabilizing for General populace to

1326
00:51:46,250 --> 00:51:45,059
find out that actually there's something

1327
00:51:48,349 --> 00:51:46,260
out there that we have no control over

1328
00:51:50,270 --> 00:51:48,359
that's just taking people

1329
00:51:52,250 --> 00:51:50,280
you know and we've got no power of it we

1330
00:51:55,010 --> 00:51:52,260
can't stop it let's discuss this just

1331
00:51:56,270 --> 00:51:55,020
between you and me real quick if

1332
00:51:58,430 --> 00:51:56,280
if

1333
00:51:59,990 --> 00:51:58,440
somebody says they they were abducted

1334
00:52:02,390 --> 00:52:00,000
you know or someone you know there's a

1335
00:52:05,150 --> 00:52:02,400
missing person you know it it's it's

1336
00:52:07,849 --> 00:52:05,160
anecdotal in nature but if if the

1337
00:52:10,549 --> 00:52:07,859
military or the dod or an entity where

1338
00:52:13,430 --> 00:52:10,559

they can document without question that

1339

00:52:15,290 --> 00:52:13,440

someone was taken that went aboard a

1340

00:52:18,230 --> 00:52:15,300

craft and you know had a Travis Walton

1341

00:52:21,049 --> 00:52:18,240

and never came back now it's data

1342

00:52:23,150 --> 00:52:21,059

now it's data and that would be very

1343

00:52:24,530 --> 00:52:23,160

very frightening if they knew of cases

1344

00:52:26,930 --> 00:52:24,540

like that and they had to go and knock

1345

00:52:29,089 --> 00:52:26,940

on that service person's family store

1346

00:52:30,950 --> 00:52:29,099

and say yeah um it happened in a

1347

00:52:32,690 --> 00:52:30,960

training accident and by the way you

1348

00:52:35,870 --> 00:52:32,700

know you get into a whole line of things

1349

00:52:38,569 --> 00:52:35,880

if that has happened that is that would

1350

00:52:40,130 --> 00:52:38,579

be very very terrifying and and that's

1351
00:52:42,890 --> 00:52:40,140
you know like I said we talked about

1352
00:52:44,750 --> 00:52:42,900
that after the the semi van episode that

1353
00:52:46,790 --> 00:52:44,760
is one that they don't want to explain

1354
00:52:49,490 --> 00:52:46,800
because it also

1355
00:52:51,349 --> 00:52:49,500
goes toward that there may be a

1356
00:52:54,410 --> 00:52:51,359
malevolent well they're probably most

1357
00:52:55,849 --> 00:52:54,420
likely is a malevolent

1358
00:52:57,770 --> 00:52:55,859
um

1359
00:53:00,230 --> 00:52:57,780
species of these beings that we're

1360
00:53:02,450 --> 00:53:00,240
interacting as well as the benevolent

1361
00:53:06,470 --> 00:53:02,460
ones so that

1362
00:53:09,770 --> 00:53:08,089
yeah yeah totally agree with you on that

1363
00:53:10,670 --> 00:53:09,780

I mean it also goes back to the fact

1364

00:53:12,230 --> 00:53:10,680

that

1365

00:53:14,210 --> 00:53:12,240

the government's primary function is to

1366

00:53:15,890 --> 00:53:14,220

protect its citizens and if it comes

1367

00:53:17,329 --> 00:53:15,900

out and transpires that they can't do

1368

00:53:18,890 --> 00:53:17,339

that then where does that lead to

1369

00:53:20,930 --> 00:53:18,900

government you know that is very

1370

00:53:22,970 --> 00:53:20,940

destabilizing isn't it

1371

00:53:24,950 --> 00:53:22,980

yeah it's what Jim sem event said he

1372

00:53:27,349 --> 00:53:24,960

said one of the difficulties they have

1373

00:53:29,329 --> 00:53:27,359

is they don't know why they've been so

1374

00:53:31,130 --> 00:53:29,339

reticent and this is not to make excuses

1375

00:53:33,710 --> 00:53:31,140

for them it's it's an understanding

1376

00:53:36,230 --> 00:53:33,720

thing not an excuse I agree great job

1377

00:53:37,670 --> 00:53:36,240

guys thing but they they don't know how

1378

00:53:40,190 --> 00:53:37,680

to explain this because they don't

1379

00:53:41,270 --> 00:53:40,200

understand it is what is what what Jim

1380

00:53:46,250 --> 00:53:41,280

said

1381

00:53:48,829 --> 00:53:46,260

um Corey sir uh most interesting uh most

1382

00:53:50,510 --> 00:53:48,839

interesting thing that that you heard oh

1383

00:53:53,030 --> 00:53:50,520

actually we started that question with

1384

00:53:55,970 --> 00:53:53,040

you didn't we yeah I don't know if I

1385

00:53:58,430 --> 00:53:55,980

answered it you know fully but yeah I

1386

00:53:59,930 --> 00:53:58,440

think uh what Ash said when he said uh

1387

00:54:02,930 --> 00:53:59,940

you know inevitably when you find down

1388

00:54:05,270 --> 00:54:02,940

crap you know you find the pilots and I

1389

00:54:08,750 --> 00:54:05,280

thought that was a that was a big

1390

00:54:11,750 --> 00:54:08,760

Revelation that hasn't been said on in

1391

00:54:14,390 --> 00:54:11,760

in public by somebody of his uh of his

1392

00:54:16,430 --> 00:54:14,400

status so I was like that is significant

1393

00:54:18,410 --> 00:54:16,440

he's going there

1394

00:54:20,089 --> 00:54:18,420

I I would like to shout out personally

1395

00:54:23,210 --> 00:54:20,099

for me I'd like to shout out Ross

1396

00:54:25,849 --> 00:54:23,220

coltart and I actually was at the gym

1397

00:54:28,490 --> 00:54:25,859

working out and I messaged the cabbies

1398

00:54:31,790 --> 00:54:28,500

we have a signal cabbie chat and I was

1399

00:54:33,950 --> 00:54:31,800

like guys I cannot believe what Ross did

1400

00:54:35,930 --> 00:54:33,960

with this Roswell question and for

1401

00:54:38,390 --> 00:54:35,940

somebody who does what we do where you

1402

00:54:40,490 --> 00:54:38,400

know interviewers and you see a master

1403

00:54:42,290 --> 00:54:40,500

like Ross you know you're like you've

1404

00:54:44,569 --> 00:54:42,300

just gone to school and seen someone

1405

00:54:47,150 --> 00:54:44,579

who's at a you know a postgraduate level

1406

00:54:48,650 --> 00:54:47,160

of of doing this what what I do and what

1407

00:54:52,250 --> 00:54:48,660

what you guys do

1408

00:54:55,910 --> 00:54:52,260

and I said he asked him in such a way he

1409

00:54:57,770 --> 00:54:55,920

didn't ask him a generalized question

1410

00:55:00,049 --> 00:54:57,780

he said

1411

00:55:01,910 --> 00:55:00,059

something and and somebody please back

1412

00:55:04,370 --> 00:55:01,920

me up on this and and help me out if I

1413

00:55:06,710 --> 00:55:04,380

get it wrong but he said uh talking

1414

00:55:10,670 --> 00:55:06,720

about Roswell and he said what can you

1415

00:55:13,130 --> 00:55:10,680

tell us about the nature of that craft

1416

00:55:15,770 --> 00:55:13,140

and he said or or what to tell and he

1417

00:55:17,690 --> 00:55:15,780

said I can't give you any of the details

1418

00:55:20,390 --> 00:55:17,700

on that on that craft

1419

00:55:22,069 --> 00:55:20,400

so what he was able to get I mean he

1420

00:55:23,569 --> 00:55:22,079

actually said this to Jay if you guys

1421

00:55:25,130 --> 00:55:23,579

listen to him with Project Unity

1422

00:55:28,069 --> 00:55:25,140

yesterday

1423

00:55:30,589 --> 00:55:28,079

um shout out to Project Unity and Jay uh

1424

00:55:32,270 --> 00:55:30,599

so now we know there was a craft I just

1425

00:55:34,309 --> 00:55:32,280

can't tell you the details but if he

1426

00:55:35,870 --> 00:55:34,319

said can we you know can you tell us

1427

00:55:37,910 --> 00:55:35,880

something about Roswell and he'd say

1428

00:55:40,730 --> 00:55:37,920

well I can't speak about Roswell well

1429

00:55:42,829 --> 00:55:40,740

now we have nothing but Ross posed it in

1430

00:55:45,290 --> 00:55:42,839

a way and asked him about that craft

1431

00:55:47,590 --> 00:55:45,300

that he's that he said I can't give you

1432

00:55:51,470 --> 00:55:47,600

the the details of that craft

1433

00:55:54,049 --> 00:55:51,480

[Laughter]

1434

00:55:56,930 --> 00:55:54,059

was specifically told he wasn't cleared

1435

00:56:00,370 --> 00:55:56,940

to talk about that particular incident

1436

00:56:03,890 --> 00:56:00,380

so what I I guess the

1437

00:56:05,930 --> 00:56:03,900

dopser process eliminated or prevented

1438

00:56:08,390 --> 00:56:05,940

him from being able to discuss Roswell

1439

00:56:10,910 --> 00:56:08,400

is what I took away from the way that he

1440

00:56:12,470 --> 00:56:10,920

phrased his response okay I'm gonna I'm

1441

00:56:14,870 --> 00:56:12,480

gonna give everybody here a homework

1442

00:56:17,930 --> 00:56:14,880

assignment to go back and listen to that

1443

00:56:20,089 --> 00:56:17,940

question because the way that the way

1444

00:56:22,910 --> 00:56:20,099

that he asked the question

1445

00:56:24,770 --> 00:56:22,920

he didn't deny that there was a craft he

1446

00:56:27,170 --> 00:56:24,780

basically said I can't talk about the

1447

00:56:29,809 --> 00:56:27,180

details of that craft then he went on to

1448

00:56:33,530 --> 00:56:29,819

say that the 1994 report was the most

1449

00:56:35,390 --> 00:56:33,540

amateurish uh amalgamation of thrown

1450

00:56:37,430 --> 00:56:35,400

together of different reports in any

1451

00:56:40,609 --> 00:56:37,440

intel analyst could see right through it

1452

00:56:42,589 --> 00:56:40,619

like it's you know uh like it's a tissue

1453

00:56:44,390 --> 00:56:42,599

paper so

1454

00:56:46,670 --> 00:56:44,400

um I I thought that was brilliant but

1455

00:56:48,650 --> 00:56:46,680

yeah if you have a chance go back and

1456

00:56:51,170 --> 00:56:48,660

listen to how Ross asked that question

1457

00:56:53,990 --> 00:56:51,180

and it was just like okay boom that's

1458

00:56:55,849 --> 00:56:54,000

how you do that because that way he

1459

00:56:58,370 --> 00:56:55,859

didn't give any details about it but in

1460

00:57:01,130 --> 00:56:58,380

doing that he basically confirmed it in

1461

00:57:03,349 --> 00:57:01,140

in my mind and he reiterated that on on

1462

00:57:04,849 --> 00:57:03,359

Jay show yesterday by the way

1463

00:57:06,650 --> 00:57:04,859

so

1464

00:57:08,809 --> 00:57:06,660

um yeah we're getting we're about about

1465

00:57:10,549 --> 00:57:08,819

running out of time I wanna I wanna I

1466

00:57:12,890 --> 00:57:10,559

wanna make one more comment about grush

1467

00:57:13,970 --> 00:57:12,900

real quick some of the statements one of

1468

00:57:15,770 --> 00:57:13,980

the things that really stood out to me

1469

00:57:19,609 --> 00:57:15,780

it wasn't my number one but it was close

1470

00:57:22,609 --> 00:57:19,619

number two was the 1933 magenta Italy

1471

00:57:25,370 --> 00:57:22,619

craft but specifically that Pope Pius

1472

00:57:26,990 --> 00:57:25,380

XII was the individual that informed the

1473

00:57:29,270 --> 00:57:27,000

United States of the existence of The

1474

00:57:31,069 --> 00:57:29,280

Craft and where it was located because I

1475

00:57:34,069 --> 00:57:31,079

for a long time been watching the

1476

00:57:35,030 --> 00:57:34,079

Catholic church's response to the

1477

00:57:37,730 --> 00:57:35,040

um

1478

00:57:41,270 --> 00:57:37,740

ongoing UFO phenomenon they held

1479

00:57:43,549 --> 00:57:41,280

conferences about it the uh the

1480

00:57:46,370 --> 00:57:43,559

astronaut that was in the nativity scene

1481

00:57:48,470 --> 00:57:46,380

at the Vatican a few years ago was

1482

00:57:51,109 --> 00:57:48,480

piqued my interest the Pope's Pope

1483

00:57:54,109 --> 00:57:51,119

saying that he would baptize aliens is

1484

00:57:55,790 --> 00:57:54,119

another thing that's my interest what

1485

00:57:58,430 --> 00:57:55,800

does the Catholic Church know that we

1486

00:58:01,790 --> 00:57:58,440

don't know the United States is was

1487

00:58:03,710 --> 00:58:01,800

established in 1776. I don't even know

1488

00:58:06,650 --> 00:58:03,720

when the Catholic church was established

1489

00:58:08,630 --> 00:58:06,660

how much history did they have that are

1490

00:58:11,390 --> 00:58:08,640

hidden in the vaults of their basement

1491

00:58:13,970 --> 00:58:11,400

of their own country that no one can get

1492

00:58:16,190 --> 00:58:13,980

to that is Out Of Reach for research

1493

00:58:19,309 --> 00:58:16,200

what did they know that we don't know

1494

00:58:21,230 --> 00:58:19,319

like so why why are they so forward in

1495

00:58:24,530 --> 00:58:21,240

the way that they

1496

00:58:29,770 --> 00:58:24,540

um have and I I just saw Vince comment

1497

00:58:35,270 --> 00:58:31,549

wallpaper

1498

00:58:37,609 --> 00:58:35,280

I don't have a fancy old old British

1499

00:58:40,250 --> 00:58:37,619

house I have just drywall walls I'm

1500

00:58:43,849 --> 00:58:40,260

dressing them up for the low I have the

1501
00:58:46,190 --> 00:58:43,859
lowest budget office that any of anyone

1502
00:58:50,690 --> 00:58:46,200
on UFO Twitter

1503
00:58:53,150 --> 00:58:50,700
yeah um and and Dan if if we look up the

1504
00:58:55,010 --> 00:58:53,160
um when Saint Peter was Pope I believe

1505
00:58:56,870 --> 00:58:55,020
he was the first the first pope we can

1506
00:58:59,030 --> 00:58:56,880
we can get a pretty good idea of how old

1507
00:59:02,390 --> 00:58:59,040
the Catholic churches in fact they named

1508
00:59:04,789 --> 00:59:02,400
that uh Basilica sempietro after him all

1509
00:59:06,049 --> 00:59:04,799
right um he's a very controversial Pope

1510
00:59:08,569 --> 00:59:06,059
as well actually but anyway we'll get

1511
00:59:10,430 --> 00:59:08,579
into that another time yeah and you know

1512
00:59:12,530 --> 00:59:10,440
the topics that Dan brought up right

1513
00:59:14,510 --> 00:59:12,540

there Dave I think we could hit those

1514

00:59:17,809 --> 00:59:14,520

topics up on the ancient civilizations

1515

00:59:19,910 --> 00:59:17,819

thing when when you you and Dave uh you

1516

00:59:21,589 --> 00:59:19,920

and Dan Rather take Center Stage

1517

00:59:23,270 --> 00:59:21,599

um what I'd like to do now because we're

1518

00:59:24,650 --> 00:59:23,280

we're running out of time here we're

1519

00:59:27,589 --> 00:59:24,660

basically out of time but I'd like to do

1520

00:59:30,289 --> 00:59:27,599

one more go around of anything that um

1521

00:59:32,030 --> 00:59:30,299

uh that that anybody wants to say

1522

00:59:33,890 --> 00:59:32,040

starting with Deb and then we'll just

1523

00:59:36,289 --> 00:59:33,900

you know we'll be able to react to it so

1524

00:59:37,970 --> 00:59:36,299

go ahead Debs please well I'd like to

1525

00:59:41,030 --> 00:59:37,980

talk about something else that caused

1526
00:59:42,710 --> 00:59:41,040
quite a stir this week and that was the

1527
00:59:48,170 --> 00:59:42,720
um alleged

1528
00:59:50,750 --> 00:59:48,180
biology assessment of nhi on Reddit

1529
00:59:53,150 --> 00:59:50,760
um and how pretty accurate it was to

1530
00:59:55,309 --> 00:59:53,160
what experiencers have been claiming and

1531
00:59:57,109 --> 00:59:55,319
the fact that it was connected to Patel

1532
00:59:59,030 --> 00:59:57,119
so I just wanted to see what other

1533
01:00:00,950 --> 00:59:59,040
people thought about it I'm still you

1534
01:00:02,390 --> 01:00:00,960
know one foot in one foot out with

1535
01:00:04,370 --> 01:00:02,400
everything but I just wanted other

1536
01:00:07,630 --> 01:00:04,380
opinions

1537
01:00:10,849 --> 01:00:07,640
go ahead uh Dan

1538
01:00:12,829 --> 01:00:10,859

it's so far above my level and outside

1539

01:00:14,690 --> 01:00:12,839

of my wheelhouse I just had to treat it

1540

01:00:16,670 --> 01:00:14,700

as anecdotal

1541

01:00:19,250 --> 01:00:16,680

um I could be fooled easily by someone

1542

01:00:21,650 --> 01:00:19,260

that is able to speak that language I

1543

01:00:23,210 --> 01:00:21,660

don't I'm a mechanical engineer I

1544

01:00:24,349 --> 01:00:23,220

understand nuts and bolts I don't

1545

01:00:26,210 --> 01:00:24,359

understand

1546

01:00:28,549 --> 01:00:26,220

half of what he was talking about so

1547

01:00:30,349 --> 01:00:28,559

it's way over my head unfortunately

1548

01:00:31,910 --> 01:00:30,359

so anecdotal

1549

01:00:34,430 --> 01:00:31,920

David

1550

01:00:37,430 --> 01:00:34,440

I thought it was both very good and

1551

01:00:39,770 --> 01:00:37,440

could be uh quite dodgy but it hit a lot

1552

01:00:42,530 --> 01:00:39,780

of things it hit the body stuff with her

1553

01:00:45,710 --> 01:00:42,540

from Corso a number of things we'd heard

1554

01:00:47,390 --> 01:00:45,720

again over the time very convincing the

1555

01:00:49,430 --> 01:00:47,400

guy answered questions very quickly

1556

01:00:51,109 --> 01:00:49,440

apparently I assume it wasn't M sending

1557

01:00:54,109 --> 01:00:51,119

himself the questions the answer

1558

01:00:56,030 --> 01:00:54,119

questions very quickly so I thought it

1559

01:00:56,990 --> 01:00:56,040

was uh really pretty good I would say

1560

01:00:58,549 --> 01:00:57,000

though it did come out on the

1561

01:01:00,770 --> 01:00:58,559

anniversary of Roswell

1562

01:01:02,950 --> 01:01:00,780

and but it did pay to a lot of the big

1563

01:01:05,270 --> 01:01:02,960

tropes about alien sort of morphology

1564

01:01:07,130 --> 01:01:05,280

that we've gotten so it could have been

1565

01:01:10,490 --> 01:01:07,140

quite an elaborate so you would say oh

1566

01:01:13,250 --> 01:01:10,500

yeah it's right then so I'm like Debs

1567

01:01:15,289 --> 01:01:13,260

very much attained two minds of it but I

1568

01:01:16,970 --> 01:01:15,299

was certainly very interested I would

1569

01:01:19,010 --> 01:01:16,980

just point out a little linking but they

1570

01:01:21,109 --> 01:01:19,020

didn't have stomachs and there's some

1571

01:01:23,030 --> 01:01:21,119

link to cow things and they often the

1572

01:01:26,270 --> 01:01:23,040

fairies but cow's blood's taken from

1573

01:01:28,970 --> 01:01:26,280

mutilations off from up a cattle

1574

01:01:30,829 --> 01:01:28,980

mutilations for for food and all the

1575

01:01:32,930 --> 01:01:30,839

rest of it so that was a very

1576

01:01:34,490 --> 01:01:32,940

interesting link to me but again

1577

01:01:35,990 --> 01:01:34,500

you could just see what it could have

1578

01:01:37,789 --> 01:01:36,000

been very cleverly written so I thought

1579

01:01:39,770 --> 01:01:37,799

just that you know

1580

01:01:42,410 --> 01:01:39,780

so that's on the fence isn't it a mega

1581

01:01:44,089 --> 01:01:42,420

on the fence there sorry no I I haven't

1582

01:01:45,829 --> 01:01:44,099

even read it so I can't even comment it

1583

01:01:47,630 --> 01:01:45,839

on Davey

1584

01:01:49,190 --> 01:01:47,640

when I was a data analyst we used to

1585

01:01:50,809 --> 01:01:49,200

have a saying if it looks right it's

1586

01:01:51,370 --> 01:01:50,819

probably wrong

1587

01:01:54,530 --> 01:01:51,380

um

1588

01:01:58,510 --> 01:01:54,540

you were a consultant though David

1589

01:02:06,530 --> 01:02:02,289

it's a way of generating more money and

1590

01:02:08,510 --> 01:02:06,540

again this felt too too close to true

1591

01:02:11,210 --> 01:02:08,520

but what I would draw people's attention

1592

01:02:14,510 --> 01:02:11,220

to was Gary Norton's response to it and

1593

01:02:16,910 --> 01:02:14,520

he said here's an opportunity for the

1594

01:02:19,069 --> 01:02:16,920

UAP Twitter UAP Community Reddit

1595

01:02:21,589 --> 01:02:19,079

Community to investigate this properly

1596

01:02:22,730 --> 01:02:21,599

here's what is how you do it so go out

1597

01:02:25,190 --> 01:02:22,740

and do it and again I would encourage

1598

01:02:27,890 --> 01:02:25,200

people to follow the out the steps that

1599

01:02:30,109 --> 01:02:27,900

um that Gary Nolan outlined there

1600

01:02:32,690 --> 01:02:30,119

I hadn't seen that either so I've got

1601
01:02:36,890 --> 01:02:32,700
obviously got a lot of uh catching up to

1602
01:02:41,210 --> 01:02:36,900
do uh Duncan uh if you message uh Debs

1603
01:02:42,309 --> 01:02:41,220
on Twitter DM she can link you to all

1604
01:02:45,770 --> 01:02:42,319
this information

1605
01:02:48,829 --> 01:02:45,780
uh that that she was tracking uh or uh

1606
01:02:49,549 --> 01:02:48,839
last last week or during the weekend

1607
01:02:51,349 --> 01:02:49,559
um

1608
01:02:54,289 --> 01:02:51,359
Ash

1609
01:02:57,170 --> 01:02:54,299
anything about that uh NHL that uh

1610
01:02:58,609 --> 01:02:57,180
biology business uh I have I haven't

1611
01:03:02,510 --> 01:02:58,619
read it yet to be honest with you I've

1612
01:03:04,069 --> 01:03:02,520
had a busy week so no pun intended

1613
01:03:05,390 --> 01:03:04,079

sorry yeah

1614

01:03:07,609 --> 01:03:05,400

um but I'm happy to comment on something

1615

01:03:09,349 --> 01:03:07,619

else I found interesting please it's a

1616

01:03:11,990 --> 01:03:09,359

couple of weeks old now but the the um

1617

01:03:15,289 --> 01:03:12,000

Canadian MP Larry McGuire coming out and

1618

01:03:17,030 --> 01:03:15,299

saying that yeah with the orc UK US

1619

01:03:18,530 --> 01:03:17,040

orcas

1620

01:03:19,970 --> 01:03:18,540

um announcement basically saying that

1621

01:03:21,650 --> 01:03:19,980

Canada's credibility is going to be

1622

01:03:22,730 --> 01:03:21,660

damaged if we don't do something about

1623

01:03:25,250 --> 01:03:22,740

this because there's gonna be an

1624

01:03:28,609 --> 01:03:25,260

announcement from uh yeah from the the

1625

01:03:30,589 --> 01:03:28,619

trio of uh the US UK and Australia so

1626

01:03:32,089 --> 01:03:30,599

what could that be is is the first thing

1627

01:03:34,069 --> 01:03:32,099

and and how how could that damage

1628

01:03:35,690 --> 01:03:34,079

Canada's credibility uh but the fact

1629

01:03:37,010 --> 01:03:35,700

that he says expected upcoming upcoming

1630

01:03:38,510 --> 01:03:37,020

announcements as well is like it's kind

1631

01:03:40,549 --> 01:03:38,520

of been set in stone the wheels are in

1632

01:03:41,690 --> 01:03:40,559

motion so that's really interesting I

1633

01:03:44,390 --> 01:03:41,700

think what are we going to see over the

1634

01:03:46,549 --> 01:03:44,400

coming weeks and months in that regard

1635

01:03:47,930 --> 01:03:46,559

I that was fascinating when that came

1636

01:03:50,990 --> 01:03:47,940

out I was thank God because I was

1637

01:03:53,210 --> 01:03:51,000

looking for anyone to bolster what David

1638

01:03:56,270 --> 01:03:53,220

said uh grush so he didn't feel like he

1639

01:03:58,069 --> 01:03:56,280

was out there all on his own uh but as

1640

01:03:59,809 --> 01:03:58,079

Corey said uh not putting that

1641

01:04:02,150 --> 01:03:59,819

toothpaste back in the tube and then

1642

01:04:03,589 --> 01:04:02,160

Marco Rubio's comments I think Dan was

1643

01:04:04,849 --> 01:04:03,599

shooting more three-pointers after he

1644

01:04:08,809 --> 01:04:04,859

heard that

1645

01:04:11,150 --> 01:04:08,819

um uh Corey what's uh what's on your

1646

01:04:13,130 --> 01:04:11,160

mind what about the biology thing or if

1647

01:04:14,329 --> 01:04:13,140

you have another comment like what uh

1648

01:04:16,370 --> 01:04:14,339

Ash had

1649

01:04:18,410 --> 01:04:16,380

yeah I think Deb mentioned that so I

1650

01:04:19,970 --> 01:04:18,420

haven't just like uh yourself and Ash I

1651

01:04:23,150 --> 01:04:19,980

haven't had a chance to look at that uh

1652

01:04:26,569 --> 01:04:23,160

nhi uh report on you know the biological

1653

01:04:29,270 --> 01:04:26,579

effects on Reddit but uh I had to I had

1654

01:04:30,230 --> 01:04:29,280

to really got really lucky in Roswell we

1655

01:04:36,770 --> 01:04:30,240

had

1656

01:04:39,710 --> 01:04:36,780

and uh I asked him the question I said

1657

01:04:43,010 --> 01:04:39,720

uh representative Gallagher mentioned

1658

01:04:44,390 --> 01:04:43,020

the potential for a parallel Society I

1659

01:04:46,609 --> 01:04:44,400

kind of I try to leave it vague

1660

01:04:48,770 --> 01:04:46,619

something other that's also

1661

01:04:51,109 --> 01:04:48,780

technologically advanced that's living

1662

01:04:53,270 --> 01:04:51,119

living alongside of us

1663

01:04:55,370 --> 01:04:53,280

um and he didn't uh he didn't deny it he

1664

01:04:58,370 --> 01:04:55,380

did say that his his immediate priority

1665

01:05:00,410 --> 01:04:58,380

is to get whistleblowers to testify uh

1666

01:05:02,750 --> 01:05:00,420

but he but he said I I heard that from

1667

01:05:04,670 --> 01:05:02,760

Gallagher and you know Gallagher is uh

1668

01:05:06,650 --> 01:05:04,680

you know a former Marine and he said

1669

01:05:08,510 --> 01:05:06,660

he's no dummy

1670

01:05:10,970 --> 01:05:08,520

so I was kind of so I was kind of

1671

01:05:13,190 --> 01:05:10,980

surprised that he didn't shoot that down

1672

01:05:14,990 --> 01:05:13,200

it's Preposterous Preposterous as it

1673

01:05:17,510 --> 01:05:15,000

sounds that there's you know some

1674

01:05:20,569 --> 01:05:17,520

parallel civilization whether that be uh

1675

01:05:22,670 --> 01:05:20,579

here on Earth or interdimensional or you

1676

01:05:24,170 --> 01:05:22,680

know any other you know whether it's in

1677

01:05:26,390 --> 01:05:24,180

space

1678

01:05:28,370 --> 01:05:26,400

so Corey is an Air Force guy did you

1679

01:05:29,690 --> 01:05:28,380

challenge his notion of the saying

1680

01:05:34,010 --> 01:05:29,700

Marines aren't dumb or anything like

1681

01:05:36,289 --> 01:05:34,020

that no absolutely not absolutely not

1682

01:05:37,970 --> 01:05:36,299

you know I never made it past being a

1683

01:05:38,990 --> 01:05:37,980

staff sergeant so that's still at the

1684

01:05:44,329 --> 01:05:39,000

level where you don't really challenge

1685

01:05:48,470 --> 01:05:46,609

um man I had I had something I was going

1686

01:05:51,650 --> 01:05:48,480

to ask you guys and I've I've brain

1687

01:05:55,370 --> 01:05:51,660

flatulated so I I can't recall what it

1688

01:06:00,530 --> 01:05:58,069

um yeah I had some some overarching uh

1689

01:06:02,450 --> 01:06:00,540

topic but I think it's we're probably

1690

01:06:05,809 --> 01:06:02,460

getting close to to closing it out here

1691

01:06:09,049 --> 01:06:05,819

so let's go with uh parting shots from

1692

01:06:11,329 --> 01:06:09,059

uh anybody uh about and oh I wanted to

1693

01:06:13,190 --> 01:06:11,339

make a culpa on one thing that because

1694

01:06:16,609 --> 01:06:13,200

the thing that I didn't talk about what

1695

01:06:18,710 --> 01:06:16,619

shocked me the most I really I remember

1696

01:06:22,309 --> 01:06:18,720

having a conversation with Nathan and I

1697

01:06:25,130 --> 01:06:22,319

will I'm happy to you know to Pat myself

1698

01:06:27,190 --> 01:06:25,140

on the back when like uh grush says

1699

01:06:30,410 --> 01:06:27,200

about the Tic Tac he said 100

1700

01:06:32,930 --> 01:06:30,420

anomalous legit not our Tech not human

1701

01:06:36,410 --> 01:06:32,940

Tech because Deb's heard me say I'll bet

1702

01:06:38,210 --> 01:06:36,420

my I'd bet against uh MW I'd bet my life

1703

01:06:41,569 --> 01:06:38,220

against his that that's definitely not

1704

01:06:44,089 --> 01:06:41,579

human Tech or or uh of any sort however

1705

01:06:46,370 --> 01:06:44,099

I was pretty wrong I told Nathan I

1706

01:06:48,470 --> 01:06:46,380

didn't think that there was any sort of

1707

01:06:50,150 --> 01:06:48,480

a treaty or agreement I I told him I

1708

01:06:52,970 --> 01:06:50,160

really didn't buy that and now it looks

1709

01:06:56,510 --> 01:06:52,980

like I could be wrong about that so I

1710

01:06:58,190 --> 01:06:56,520

thought that was not shocking in a way

1711

01:07:00,349 --> 01:06:58,200

that those other things that you guys

1712

01:07:02,089 --> 01:07:00,359

brought up those visceral things we

1713

01:07:04,549 --> 01:07:02,099

wondered about bodies we've wondered

1714

01:07:06,470 --> 01:07:04,559

wanted to hear about whether there is a

1715

01:07:08,510 --> 01:07:06,480

a dimension co-located where they can

1716

01:07:10,309 --> 01:07:08,520

come into our reality because it seems

1717

01:07:13,670 --> 01:07:10,319

like that's the way people have seen

1718

01:07:16,130 --> 01:07:13,680

them enter and exit but so those were

1719

01:07:18,289 --> 01:07:16,140

the most shocking but very surprising I

1720

01:07:21,289 --> 01:07:18,299

guess if I were to use the word I was

1721

01:07:24,589 --> 01:07:21,299

surprised that there could be some could

1722

01:07:28,010 --> 01:07:24,599

or have been or could be some sort of a

1723

01:07:30,589 --> 01:07:28,020

treaty it sounds ridiculous but if if he

1724

01:07:33,950 --> 01:07:30,599

said it uh he wouldn't say it flippantly

1725

01:07:36,049 --> 01:07:33,960

he must have based it on something that

1726

01:07:38,089 --> 01:07:36,059

um that he's heard from a really good

1727

01:07:40,789 --> 01:07:38,099

source because they're going to have no

1728

01:07:42,950 --> 01:07:40,799

success in debunking this guy given the

1729

01:07:44,809 --> 01:07:42,960

people who have stood up for him and

1730

01:07:47,390 --> 01:07:44,819

I've said on um

1731

01:07:49,490 --> 01:07:47,400

on pod before

1732

01:07:51,109 --> 01:07:49,500

um I've spoken with a lot of people know

1733

01:07:54,349 --> 01:07:51,119

Richard Budd in the community they don't

1734

01:07:56,750 --> 01:07:54,359

know who he is I know who he is both on

1735

01:07:59,329 --> 01:07:56,760

the official Network and his name and

1736

01:08:01,250 --> 01:07:59,339

all that and he says oh he says I'm I'm

1737

01:08:02,630 --> 01:08:01,260

friends with Dave he said I said did

1738

01:08:04,730 --> 01:08:02,640

they call you to vet him he goes hell no

1739

01:08:07,329 --> 01:08:04,740

he goes they call people a lot higher up

1740

01:08:10,549 --> 01:08:07,339

than me like flag officers to vet him

1741

01:08:13,069 --> 01:08:10,559

I'm like small potatoes compared to you

1742

01:08:15,109 --> 01:08:13,079

know the people that they used to vet

1743

01:08:16,010 --> 01:08:15,119

him and his credentials so that that

1744

01:08:19,130 --> 01:08:16,020

should

1745

01:08:20,510 --> 01:08:19,140

something

1746

01:08:22,669 --> 01:08:20,520

um so yeah they're not going to have any

1747

01:08:25,010 --> 01:08:22,679

success so if he says there was a treaty

1748

01:08:26,870 --> 01:08:25,020

man I got to take that seriously just

1749

01:08:28,309 --> 01:08:26,880

like everything that he says that

1750

01:08:30,470 --> 01:08:28,319

doesn't mean that we're not allowed to

1751

01:08:32,390 --> 01:08:30,480

be skeptical but if you're trying to

1752

01:08:34,910 --> 01:08:32,400

debunk them and use body language and

1753

01:08:38,450 --> 01:08:34,920

stupid things like that then you know

1754

01:08:40,970 --> 01:08:38,460

that's that's on you I mean these it got

1755

01:08:43,910 --> 01:08:40,980

to an extremely high level and he

1756

01:08:46,630 --> 01:08:43,920

ditched a gs-15 salary in retirement

1757

01:08:50,329 --> 01:08:46,640

plus he ditched his Air Force Reserve

1758

01:08:53,749 --> 01:08:50,339

commission uh which is that's another

1759

01:08:55,729 --> 01:08:53,759

retirement I mean if he didn't you know

1760

01:08:58,669 --> 01:08:55,739

put in 20 years in the Air Force Reserve

1761

01:09:00,169 --> 01:08:58,679

and and unfortunately the calculations

1762

01:09:02,269 --> 01:09:00,179

when you don't have a whole lot of

1763

01:09:04,430 --> 01:09:02,279

active duty time in there

1764

01:09:06,590 --> 01:09:04,440

um you stretch that out it generally is

1765

01:09:08,269 --> 01:09:06,600

more than 20 years you have to put in to

1766

01:09:10,970 --> 01:09:08,279

get the type of retirement that a

1767

01:09:12,590 --> 01:09:10,980

military dude has after 20 years active

1768

01:09:15,189 --> 01:09:12,600

duty so

1769

01:09:19,249 --> 01:09:15,199

um he's got a lot of

1770

01:09:22,070 --> 01:09:19,259

credibility based on those two things

1771

01:09:24,229 --> 01:09:22,080

oh uh parting shots I'll go around the

1772

01:09:26,090 --> 01:09:24,239

board Debs

1773

01:09:27,849 --> 01:09:26,100

um actually Davey has something he wants

1774

01:09:30,169 --> 01:09:27,859

to throw out so I thought maybe

1775

01:09:32,269 --> 01:09:30,179

absolutely sitting here on this side of

1776

01:09:35,269 --> 01:09:32,279

the pond so much of what we talk about

1777

01:09:37,789 --> 01:09:35,279

typically in this uh scenario is over

1778

01:09:39,890 --> 01:09:37,799

your Over Yonder where you guys are but

1779

01:09:42,349 --> 01:09:39,900

I heard something wonderful that um

1780

01:09:43,610 --> 01:09:42,359

again the aforementioned Ross Colter

1781

01:09:45,890 --> 01:09:43,620

mentioned and it's something for

1782

01:09:47,990 --> 01:09:45,900

everybody over here in the UK

1783

01:09:50,450 --> 01:09:48,000

and he said he'd heard that British

1784

01:09:54,410 --> 01:09:50,460

Aerospace were one of the companies that

1785

01:09:56,810 --> 01:09:54,420

had these exotic non-earthology parts so

1786

01:09:59,930 --> 01:09:56,820

uh Mr smithist gets the the m6 to

1787

01:10:02,270 --> 01:09:59,940

Preston to Wharton and get looking

1788

01:10:06,229 --> 01:10:02,280

through those filing cabinets mate I'll

1789

01:10:14,150 --> 01:10:07,970

hey yep

1790

01:10:17,030 --> 01:10:14,160

it's gonna take a favor a Elizondo melon

1791

01:10:18,890 --> 01:10:17,040

grush type of person to break open your

1792

01:10:22,970 --> 01:10:18,900

government that's that it's going to

1793

01:10:25,250 --> 01:10:22,980

take that level of a person to just you

1794

01:10:27,649 --> 01:10:25,260

know make them move off of this this

1795

01:10:29,340 --> 01:10:27,659

position as far as as near as I could

1796

01:10:30,649 --> 01:10:29,350

tell and then unfortunately

1797

01:10:32,870 --> 01:10:30,659

[Music]

1798

01:10:34,729 --> 01:10:32,880

um it's just a different uh

1799

01:10:37,010 --> 01:10:34,739

that you know the cultures are different

1800

01:10:39,590 --> 01:10:37,020

and that drives the behaviors and you

1801
01:10:41,510 --> 01:10:39,600
guys know it better than I do I have

1802
01:10:44,030 --> 01:10:41,520
spent you know a short period of time

1803
01:10:45,590 --> 01:10:44,040
over there compared to uh that you guys

1804
01:10:47,570 --> 01:10:45,600
have grown up in this culture but people

1805
01:10:51,350 --> 01:10:47,580
just don't want to rock that boat

1806
01:10:54,410 --> 01:10:51,360
so uh Dan uh or actually Deb's Parting

1807
01:10:57,110 --> 01:10:54,420
Shot I just wanted to say thank you to

1808
01:11:00,050 --> 01:10:57,120
everyone who came to speak to us today

1809
01:11:02,630 --> 01:11:00,060
um and also to point out that um John

1810
01:11:07,130 --> 01:11:02,640
Alexander who seems to have been inside

1811
01:11:09,050 --> 01:11:07,140
quite a few UAP programs did say that

1812
01:11:12,709 --> 01:11:09,060
Russia was a hundred percent

1813
01:11:15,410 --> 01:11:12,719

seven it's another one you can just keep

1814

01:11:16,850 --> 01:11:15,420

them keep them coming man you get get to

1815

01:11:19,070 --> 01:11:16,860

that level

1816

01:11:22,189 --> 01:11:19,080

um Dan they're they're gonna have a hard

1817

01:11:26,030 --> 01:11:22,199

time getting into those title title 50

1818

01:11:29,030 --> 01:11:26,040

programs but uh any parting shot on on

1819

01:11:32,390 --> 01:11:29,040

your part my friend yeah so I I just

1820

01:11:34,250 --> 01:11:32,400

want to ask people to consider or one of

1821

01:11:35,689 --> 01:11:34,260

the potential reasons

1822

01:11:38,750 --> 01:11:35,699

for

1823

01:11:41,209 --> 01:11:38,760

the the existing regime that's in place

1824

01:11:44,270 --> 01:11:41,219

not wanting to disclose what's going on

1825

01:11:47,510 --> 01:11:44,280

it could be I I see two different

1826

01:11:51,410 --> 01:11:47,520

possibilities one is that if a craft

1827

01:11:53,390 --> 01:11:51,420

landed in 1933 then it could be more

1828

01:11:56,270 --> 01:11:53,400

than just the United States involved

1829

01:11:58,430 --> 01:11:56,280

with those programs it could be the five

1830

01:12:01,310 --> 01:11:58,440

eyes it could basically go all the way

1831

01:12:03,830 --> 01:12:01,320

back to the Allies from World War II

1832

01:12:07,010 --> 01:12:03,840

being part of what established the

1833

01:12:10,370 --> 01:12:07,020

secrecy program to reverse engineer to

1834

01:12:13,669 --> 01:12:10,380

protect the world from the evil that was

1835

01:12:17,090 --> 01:12:13,679

present at the time and the reluctance

1836

01:12:19,610 --> 01:12:17,100

for the current folks not wanting to

1837

01:12:21,530 --> 01:12:19,620

reveal what's going on is because a lot

1838

01:12:24,169 --> 01:12:21,540

of tough questions are going to be asked

1839

01:12:27,050 --> 01:12:24,179

immediately after that occurs so it

1840

01:12:29,630 --> 01:12:27,060

could be that the people that are in

1841

01:12:32,209 --> 01:12:29,640

charge right now that are in power don't

1842

01:12:35,330 --> 01:12:32,219

want to be the ones holding the bag when

1843

01:12:38,750 --> 01:12:35,340

the sins of their fathers

1844

01:12:40,130 --> 01:12:38,760

quote unquote fathers are revealed they

1845

01:12:42,950 --> 01:12:40,140

don't want to be the one saying well now

1846

01:12:44,930 --> 01:12:42,960

I got to explain what happened what what

1847

01:12:47,410 --> 01:12:44,940

they did and I gotta fall on the sword

1848

01:12:49,970 --> 01:12:47,420

for them I didn't do this but I'm caught

1849

01:12:51,530 --> 01:12:49,980

holding the bag right now

1850

01:12:54,169 --> 01:12:51,540

um so that's something I want people to

1851
01:12:56,810 --> 01:12:54,179
consider and one more thing is the next

1852
01:12:59,330 --> 01:12:56,820
time that you me and Dave are having a

1853
01:13:01,669 --> 01:12:59,340
conversation I want to hear Dave's bar

1854
01:13:03,950 --> 01:13:01,679
fight stories before we end the podcast

1855
01:13:07,490 --> 01:13:03,960
because I don't think it's fair to tease

1856
01:13:09,050 --> 01:13:07,500
us like that no no no I got somebody

1857
01:13:10,970 --> 01:13:09,060
else to do it so you don't look at the

1858
01:13:13,610 --> 01:13:10,980
way he's looking at you over there he's

1859
01:13:16,130 --> 01:13:13,620
respect leave the bar he's a respectable

1860
01:13:18,350 --> 01:13:16,140
man now exactly

1861
01:13:20,149 --> 01:13:18,360
I'm a very respectable gentleman his

1862
01:13:21,950 --> 01:13:20,159
street fighting days are long over but

1863
01:13:22,970 --> 01:13:21,960

yeah maybe he will if he if he's willing

1864

01:13:27,110 --> 01:13:22,980

to share we can push him a little

1865

01:13:29,770 --> 01:13:27,120

further Dan uh you know

1866

01:13:34,070 --> 01:13:32,390

no I was going to say it's not a it's

1867

01:13:36,350 --> 01:13:34,080

not a political thing I think as you

1868

01:13:39,350 --> 01:13:36,360

said it's the left holding the bag issue

1869

01:13:42,590 --> 01:13:39,360

A and B you know you can bring in

1870

01:13:44,990 --> 01:13:42,600

whoever your cabinet sociologists and

1871

01:13:48,649 --> 01:13:45,000

psychologists are and they're they're

1872

01:13:51,229 --> 01:13:48,659

still only going to guess at how the

1873

01:13:53,870 --> 01:13:51,239

American populace which is their Chief

1874

01:13:55,970 --> 01:13:53,880

concern obviously is going to react and

1875

01:13:58,550 --> 01:13:55,980

how destabilizing it may or may not be

1876

01:14:00,890 --> 01:13:58,560

and that is going to depend on how far

1877

01:14:03,350 --> 01:14:00,900

the how far you lift up the garage door

1878

01:14:05,330 --> 01:14:03,360

and what people see and I think that's a

1879

01:14:06,410 --> 01:14:05,340

difficult spot if you listen to Grant

1880

01:14:08,870 --> 01:14:06,420

Cameron

1881

01:14:11,270 --> 01:14:08,880

um he went back over several presidents

1882

01:14:13,970 --> 01:14:11,280

and there was really only two that had

1883

01:14:16,250 --> 01:14:13,980

an interest in in his at least in you

1884

01:14:18,530 --> 01:14:16,260

know in his memory because obviously he

1885

01:14:20,689 --> 01:14:18,540

wasn't around for Nixon and Ford and so

1886

01:14:23,810 --> 01:14:20,699

forth but um

1887

01:14:26,450 --> 01:14:23,820

but yeah it's uh it's very difficult it

1888

01:14:29,090 --> 01:14:26,460

goes back to Jim semivan they they don't

1889

01:14:31,729 --> 01:14:29,100

know how to explain it so I think

1890

01:14:33,950 --> 01:14:31,739

Congress can force the door open to a

1891

01:14:35,209 --> 01:14:33,960

degree and that was the question I was

1892

01:14:37,850 --> 01:14:35,219

going to ask I'm so glad because it

1893

01:14:40,310 --> 01:14:37,860

jarred my memory I I was gonna go around

1894

01:14:42,530 --> 01:14:40,320

the panel and ask everybody how much do

1895

01:14:43,970 --> 01:14:42,540

you think we should be told that was

1896

01:14:45,950 --> 01:14:43,980

going to be my question but I'm not

1897

01:14:47,750 --> 01:14:45,960

going to ask you guys to stay late to

1898

01:14:49,370 --> 01:14:47,760

entertain that unless that's what you

1899

01:14:50,930 --> 01:14:49,380

want and or we could hit it up on a

1900

01:14:52,189 --> 01:14:50,940

future episodes

1901

01:14:54,290 --> 01:14:52,199

um Dave

1902

01:14:55,910 --> 01:14:54,300

uh well on the assumption that nobody

1903

01:14:57,410 --> 01:14:55,920

wants to stay like I don't mind but I'll

1904

01:15:00,290 --> 01:14:57,420

give you I'll hit you with three things

1905

01:15:02,390 --> 01:15:00,300

I was gonna hit you I did want to say uh

1906

01:15:03,830 --> 01:15:02,400

to Dan how brilliant his videos have

1907

01:15:05,810 --> 01:15:03,840

been released in the last four months I

1908

01:15:08,390 --> 01:15:05,820

mean they're always good and really good

1909

01:15:09,530 --> 01:15:08,400

recently mate really really good so I've

1910

01:15:12,010 --> 01:15:09,540

been cheering one of them I was going

1911

01:15:15,950 --> 01:15:12,020

yes quite right well not quite that baby

1912

01:15:17,390 --> 01:15:15,960

but anyway fantastic work uh so the

1913

01:15:19,070 --> 01:15:17,400

first three things I want to say I think

1914

01:15:21,410 --> 01:15:19,080

the elephant in the room sort of is

1915

01:15:23,270 --> 01:15:21,420

about abductions really nobody's really

1916

01:15:25,550 --> 01:15:23,280

talked about it that much and there may

1917

01:15:27,470 --> 01:15:25,560

be a link to that with treaties and it

1918

01:15:28,910 --> 01:15:27,480

may well be if there was some deals on

1919

01:15:32,270 --> 01:15:28,920

has often been rumored but they can

1920

01:15:34,010 --> 01:15:32,280

abduct people uh that that is something

1921

01:15:36,590 --> 01:15:34,020

that'd be very hard to explain away

1922

01:15:38,450 --> 01:15:36,600

isn't it the second one is we're given

1923

01:15:40,070 --> 01:15:38,460

but the app collapse away from and the

1924

01:15:43,370 --> 01:15:40,080

international of Russia and all that no

1925

01:15:45,890 --> 01:15:43,380

us has this technology this asymmetrical

1926

01:15:48,530 --> 01:15:45,900

advantage that may really destabilize

1927

01:15:49,490 --> 01:15:48,540

digital deterrence and it may mean that

1928

01:15:52,910 --> 01:15:49,500

people have to come together

1929

01:15:54,590 --> 01:15:52,920

internationally via the UN to try and

1930

01:15:56,510 --> 01:15:54,600

sort it out and I think this stuff in

1931

01:15:59,930 --> 01:15:56,520

San Marino was more significant than we

1932

01:16:02,149 --> 01:15:59,940

think and finally I would say uh we've

1933

01:16:03,590 --> 01:16:02,159

got to ask the question uh well we often

1934

01:16:06,050 --> 01:16:03,600

think we're strategizing we're winning

1935

01:16:08,810 --> 01:16:06,060

but it's all going one way how far the

1936

01:16:10,970 --> 01:16:08,820

non-disclosure faction prepared to go

1937

01:16:13,189 --> 01:16:10,980

stop this coming out given we don't know

1938

01:16:15,590 --> 01:16:13,199

what they're hiding and what would they

1939

01:16:17,090 --> 01:16:15,600

do to stop it is it cool what is it who

1940

01:16:19,729 --> 01:16:17,100

knows I know that's a little bit uh

1941

01:16:22,550 --> 01:16:19,739

inflammatory the point is we don't know

1942

01:16:24,229 --> 01:16:22,560

what the other side's gonna do and it's

1943

01:16:26,689 --> 01:16:24,239

something that we're thinking about so

1944

01:16:28,430 --> 01:16:26,699

they're my free things to leave us on a

1945

01:16:31,490 --> 01:16:28,440

cliff edge with but I'm quite happy to

1946

01:16:34,550 --> 01:16:31,500

go into your point if people want to

1947

01:16:36,530 --> 01:16:34,560

those are those are great points

1948

01:16:38,090 --> 01:16:36,540

um Dave maybe Dan will send you a check

1949

01:16:40,010 --> 01:16:38,100

for that one

1950

01:16:41,630 --> 01:16:40,020

um well he's already has DJs don't worry

1951

01:16:44,030 --> 01:16:41,640

about that

1952

01:16:45,830 --> 01:16:44,040

yeah no if you want to hit up hit up my

1953

01:16:49,070 --> 01:16:45,840

question real quick feel feel free and

1954

01:16:51,590 --> 01:16:49,080

then we'll go to Davey what was it

1955

01:16:53,750 --> 01:16:51,600

oh man now I gotta remember oh my gosh

1956

01:16:55,790 --> 01:16:53,760

do you think they should tell us what

1957

01:16:58,370 --> 01:16:55,800

yeah I think is well security concerns

1958

01:17:00,590 --> 01:16:58,380

in mind well I think as Western

1959

01:17:02,990 --> 01:17:00,600

democracies we've managed to navigate

1960

01:17:04,729 --> 01:17:03,000

between State secrecy and classified

1961

01:17:07,669 --> 01:17:04,739

sequencing what the people should know

1962

01:17:09,830 --> 01:17:07,679

on accountability so I think basically

1963

01:17:10,910 --> 01:17:09,840

they need to tell us obviously they

1964

01:17:12,649 --> 01:17:10,920

can't tell us things that will

1965

01:17:14,630 --> 01:17:12,659

destabilize this state and they need to

1966

01:17:17,090 --> 01:17:14,640

keep secret I will give the us or

1967

01:17:19,250 --> 01:17:17,100

whoever the Western Alliance a tactical

1968

01:17:21,229 --> 01:17:19,260

disadvantage they've obviously got to

1969

01:17:23,330 --> 01:17:21,239

keep the proportion stuff secret if it's

1970

01:17:25,250 --> 01:17:23,340

a massive power we think it isn't good

1971

01:17:27,350 --> 01:17:25,260

somebody could blow up the world with it

1972

01:17:29,930 --> 01:17:27,360

so clearly they need to keep that quiet

1973

01:17:31,610 --> 01:17:29,940

but the using that I think is a blanket

1974

01:17:33,470 --> 01:17:31,620

reason not to tell us all things that

1975

01:17:35,090 --> 01:17:33,480

may be uncomfortable or to hide their

1976

01:17:37,970 --> 01:17:35,100

own culpability and what they've got to

1977

01:17:39,470 --> 01:17:37,980

do so I think they should tell us as

1978

01:17:41,390 --> 01:17:39,480

much as they can up to the line it

1979

01:17:43,010 --> 01:17:41,400

doesn't compromise our safety but allow

1980

01:17:45,290 --> 01:17:43,020

us to make decisions because this whole

1981

01:17:47,870 --> 01:17:45,300

thing has been characterized by a shady

1982

01:17:50,450 --> 01:17:47,880

cabal on democratically over 70 years

1983

01:17:52,010 --> 01:17:50,460

making decisions become increasingly

1984

01:17:54,350 --> 01:17:52,020

twisted and increasingly in their own

1985

01:17:56,209 --> 01:17:54,360

interests and that is what democracy is

1986

01:17:57,649 --> 01:17:56,219

about it's about that not happening it's

1987

01:17:59,330 --> 01:17:57,659

about not the government of the few

1988

01:18:01,010 --> 01:17:59,340

governing their own interests it's about

1989

01:18:03,229 --> 01:18:01,020

the people or the people's

1990

01:18:05,570 --> 01:18:03,239

Representatives having a say because

1991

01:18:07,070 --> 01:18:05,580

let's say there's a coming some sort of

1992

01:18:08,870 --> 01:18:07,080

coming Calamity or there's some

1993

01:18:10,669 --> 01:18:08,880

overcoming event we don't know about

1994

01:18:11,990 --> 01:18:10,679

they may have made the decision oh

1995

01:18:14,030 --> 01:18:12,000

there's nothing we can do about it

1996

01:18:15,830 --> 01:18:14,040

whereas people like Lou or whatever

1997

01:18:17,630 --> 01:18:15,840

might think no that's not right we need

1998

01:18:19,070 --> 01:18:17,640

to as a society these other solutions

1999

01:18:22,250 --> 01:18:19,080

could be something like that or

2000

01:18:23,990 --> 01:18:22,260

something a bit like dramatic but you

2001

01:18:25,790 --> 01:18:24,000

Western democracies have always

2002

01:18:27,410 --> 01:18:25,800

navigating difficult decisions and

2003

01:18:29,450 --> 01:18:27,420

democracy's been able to make those

2004

01:18:32,149 --> 01:18:29,460

decisions and I think this is no

2005

01:18:33,709 --> 01:18:32,159

different it's just the same problem in

2006

01:18:36,050 --> 01:18:33,719

a different wrapping so that's what I

2007

01:18:39,830 --> 01:18:36,060

think tonight yeah before I go to David

2008

01:18:41,810 --> 01:18:39,840

I love dick Russian that um that he

2009

01:18:44,750 --> 01:18:41,820

really regretted that real world

2010

01:18:46,729 --> 01:18:44,760

problems like you know propulsion energy

2011

01:18:48,169 --> 01:18:46,739

you know I mean maybe there's even

2012

01:18:50,090 --> 01:18:48,179

something with food production that

2013

01:18:52,669 --> 01:18:50,100

could have been achieved if the best and

2014

01:18:55,070 --> 01:18:52,679

brightest uh that in whatever country

2015

01:18:57,350 --> 01:18:55,080

has these craft had been allowed to

2016

01:18:59,450 --> 01:18:57,360

access them and reverse engineer them

2017

01:19:00,950 --> 01:18:59,460

because he's insinuating that we don't

2018

01:19:04,610 --> 01:19:00,960

have the best and the brightest that are

2019

01:19:06,470 --> 01:19:04,620

looking at it now so um Davey what did

2020

01:19:08,450 --> 01:19:06,480

you have sir please

2021

01:19:11,510 --> 01:19:08,460

yeah I would just like to say thank you

2022

01:19:13,130 --> 01:19:11,520

to you DJ and to Deb for hosting us as

2023

01:19:15,770 --> 01:19:13,140

always great to be back with our cab

2024

01:19:18,350 --> 01:19:15,780

family some of the other you know people

2025

01:19:19,669 --> 01:19:18,360

we've met here today and uh Corey I'm

2026

01:19:21,770 --> 01:19:19,679

looking forward to working with you in

2027

01:19:23,810 --> 01:19:21,780

some other areas around this as well

2028

01:19:26,030 --> 01:19:23,820

absolutely um

2029

01:19:28,070 --> 01:19:26,040

and also to Jules for uh our super

2030

01:19:29,390 --> 01:19:28,080

working chat as well hats off to your

2031

01:19:31,490 --> 01:19:29,400

jewels

2032

01:19:33,530 --> 01:19:31,500

I would also like to this is sort of

2033

01:19:35,689 --> 01:19:33,540

ties into what you ask Dave in terms of

2034

01:19:37,669 --> 01:19:35,699

DJ in terms of

2035

01:19:41,330 --> 01:19:37,679

how much should they tell us and I think

2036

01:19:43,970 --> 01:19:41,340

Dave used the word decision probably 15

2037

01:19:46,010 --> 01:19:43,980

times in his response and so without

2038

01:19:48,229 --> 01:19:46,020

sounding like I'm angling for a guest

2039

01:19:50,590 --> 01:19:48,239

slot on the higher side chats or

2040

01:19:53,510 --> 01:19:50,600

something else equally conspiratorial

2041

01:19:55,970 --> 01:19:53,520

who are the decision makers

2042

01:19:58,910 --> 01:19:55,980

are not just about this but who makes

2043

01:20:00,290 --> 01:19:58,920

the real decisions

2044

01:20:03,229 --> 01:20:00,300

it's not a point

2045

01:20:05,209 --> 01:20:03,239

excellent that's a great point and also

2046

01:20:07,070 --> 01:20:05,219

Dave's use of the word cabal usually you

2047

01:20:09,470 --> 01:20:07,080

don't hear that unless you're on like a

2048

01:20:10,729 --> 01:20:09,480

a political program uh where they're

2049

01:20:12,649 --> 01:20:10,739

talking about one side or the other

2050

01:20:15,770 --> 01:20:12,659

you'll hear them use the word cabal so

2051
01:20:19,130 --> 01:20:15,780
Dave great great shoehorn on that wow

2052
01:20:22,250 --> 01:20:19,140
but um Davey that I think what Davey's

2053
01:20:23,870 --> 01:20:22,260
alluding to Ash is that

2054
01:20:25,669 --> 01:20:23,880
um are these people are some of these

2055
01:20:27,649 --> 01:20:25,679
people qualified to make these decisions

2056
01:20:30,229 --> 01:20:27,659
on what we should know and shouldn't

2057
01:20:32,510 --> 01:20:30,239
know and I think uh Davey's saying that

2058
01:20:34,930 --> 01:20:32,520
there's probably you know cabinet

2059
01:20:38,149 --> 01:20:34,940
officials National command authorities

2060
01:20:41,330 --> 01:20:38,159
and or congress elected officials that

2061
01:20:42,649 --> 01:20:41,340
are more uh better placed to decide what

2062
01:20:44,390 --> 01:20:42,659
we should know I think that's where you

2063
01:20:49,669 --> 01:20:44,400

were going Davey but Ash please your

2064

01:20:53,630 --> 01:20:50,990

yeah I was going to talk about something

2065

01:20:55,490 --> 01:20:53,640

else but um go ahead

2066

01:20:56,930 --> 01:20:55,500

my current shirt was going to be around

2067

01:20:58,610 --> 01:20:56,940

um I think Dan mentioned it around five

2068

01:21:00,110 --> 01:20:58,620

O's I think we're going to be seeing a

2069

01:21:01,370 --> 01:21:00,120

bit more around that I certainly here in

2070

01:21:03,169 --> 01:21:01,380

the UK want to find out a bit more about

2071

01:21:05,149 --> 01:21:03,179

that being you know a signatory to that

2072

01:21:07,070 --> 01:21:05,159

our country is uh and the foreign

2073

01:21:09,169 --> 01:21:07,080

material program that's been you know

2074

01:21:11,390 --> 01:21:09,179

alluded to I think that could be an

2075

01:21:12,470 --> 01:21:11,400

inroad for us in the UK to try and find

2076

01:21:14,510 --> 01:21:12,480

out a little bit more information about

2077

01:21:16,430 --> 01:21:14,520

what's what's been going on and our role

2078

01:21:17,750 --> 01:21:16,440

in in the in the wider crash retrieval

2079

01:21:20,270 --> 01:21:17,760

program

2080

01:21:22,790 --> 01:21:20,280

um so yeah that's that's my Pine gift if

2081

01:21:23,930 --> 01:21:22,800

anyone in the UK is listening then I

2082

01:21:25,790 --> 01:21:23,940

think that could be something we need to

2083

01:21:28,189 --> 01:21:25,800

explore and and yeah get those Freedom

2084

01:21:30,050 --> 01:21:28,199

of Information requests in

2085

01:21:32,270 --> 01:21:30,060

uh anyways do you have a question DJ

2086

01:21:34,790 --> 01:21:32,280

around how much information should we

2087

01:21:36,229 --> 01:21:34,800

know yes sir just quickly I think um

2088

01:21:37,370 --> 01:21:36,239

Jeremy Corbell

2089

01:21:39,169 --> 01:21:37,380

um mentioned it on the weaponized

2090

01:21:40,850 --> 01:21:39,179

podcast recently but it's it's you know

2091

01:21:42,770 --> 01:21:40,860

we know about nuclear we know about

2092

01:21:44,870 --> 01:21:42,780

nuclear technology but we don't know how

2093

01:21:46,550 --> 01:21:44,880

to make nuclear weapons so it's the same

2094

01:21:48,110 --> 01:21:46,560

with biotech you know bioweapons we know

2095

01:21:49,490 --> 01:21:48,120

they exist we know bits about them they

2096

01:21:51,470 --> 01:21:49,500

can be researched but we don't give

2097

01:21:53,090 --> 01:21:51,480

people the keys to the the weapons

2098

01:21:54,350 --> 01:21:53,100

themselves that we or the the in-depth

2099

01:21:56,390 --> 01:21:54,360

information around how to make these

2100

01:21:57,770 --> 01:21:56,400

things I think there is a certain amount

2101

01:21:59,209 --> 01:21:57,780

we can know but when it comes to

2102

01:22:00,649 --> 01:21:59,219

specifics and the detail and more

2103

01:22:02,209 --> 01:22:00,659

granular perhaps there are things that

2104

01:22:05,090 --> 01:22:02,219

because they could be weaponized and

2105

01:22:06,290 --> 01:22:05,100

used for um negative means that perhaps

2106

01:22:08,590 --> 01:22:06,300

there's certain things that shouldn't be

2107

01:22:10,669 --> 01:22:08,600

allowed out in the open to the public

2108

01:22:11,810 --> 01:22:10,679

but someone in the chat mentioned yeah

2109

01:22:13,669 --> 01:22:11,820

we should know as much as we can

2110

01:22:14,750 --> 01:22:13,679

possibly know and I think that's true

2111

01:22:17,030 --> 01:22:14,760

um but at the end of the day if it's

2112

01:22:18,410 --> 01:22:17,040

gonna be detrimental to The Wider public

2113

01:22:20,270 --> 01:22:18,420

then there has to be a level somewhere

2114

01:22:21,410 --> 01:22:20,280

and like you were saying DJ we rely on

2115

01:22:23,450 --> 01:22:21,420

the elected officials to make those

2116

01:22:25,610 --> 01:22:23,460

decisions on our behalf

2117

01:22:28,250 --> 01:22:25,620

I agree with what you said 100 and

2118

01:22:30,830 --> 01:22:28,260

Jeremy should have cited David rush in

2119

01:22:32,390 --> 01:22:30,840

apa or MLA formatting because though

2120

01:22:34,550 --> 01:22:32,400

that was his quote

2121

01:22:39,649 --> 01:22:34,560

yeah

2122

01:22:41,149 --> 01:22:39,659

his quote but anyway guys I've listened

2123

01:22:42,229 --> 01:22:41,159

to so many things recently I think I

2124

01:22:43,790 --> 01:22:42,239

probably just said that because the last

2125

01:22:44,950 --> 01:22:43,800

thing I listened to and heard it but

2126

01:22:47,450 --> 01:22:44,960

yeah yeah

2127

01:22:48,830 --> 01:22:47,460

but yeah you're right it was David said

2128

01:22:50,090 --> 01:22:48,840

that it turned it yuck it up here a

2129

01:22:53,830 --> 01:22:50,100

little bit good

2130

01:22:58,550 --> 01:22:56,870

along the lines of David is I hope that

2131

01:23:01,610 --> 01:22:58,560

they can tell us everything they can

2132

01:23:04,130 --> 01:23:01,620

without uh compromising our Global

2133

01:23:05,870 --> 01:23:04,140

Security I'm sure that uh if it does

2134

01:23:08,810 --> 01:23:05,880

involve aspects of free energy and

2135

01:23:10,970 --> 01:23:08,820

Technology uh that there are some

2136

01:23:13,070 --> 01:23:10,980

serious con uh you know safety concerns

2137

01:23:15,350 --> 01:23:13,080

but just as someone said you know we're

2138

01:23:16,970 --> 01:23:15,360

aware that nuclear weapons exist but we

2139

01:23:18,830 --> 01:23:16,980

don't have the materials and you know

2140

01:23:22,729 --> 01:23:18,840

the formula so hopefully they can give

2141

01:23:25,669 --> 01:23:22,739

us a redacted version of what they know

2142

01:23:28,790 --> 01:23:25,679

yeah I I and I'm just for my Parting

2143

01:23:30,470 --> 01:23:28,800

Shot uh thank you Julia

2144

01:23:32,689 --> 01:23:30,480

no yeah we'll we'll get you we'll get

2145

01:23:34,850 --> 01:23:32,699

you definitely get a pardon comment uh

2146

01:23:37,490 --> 01:23:34,860

Julie I agree like And subscribe that

2147

01:23:39,229 --> 01:23:37,500

way when I ask Ross kotak to come on he

2148

01:23:41,870 --> 01:23:39,239

says yes because he sees we have like

2149

01:23:43,250 --> 01:23:41,880

700 subscribers or wherever it is

2150

01:23:46,250 --> 01:23:43,260

um anyway

2151
01:23:48,890 --> 01:23:46,260
um yeah I agree what's released has to

2152
01:23:52,209 --> 01:23:48,900
be safe but I think they can give the

2153
01:23:56,030 --> 01:23:52,219
general idea of of what we have

2154
01:23:58,430 --> 01:23:56,040
and that the nature of some of those

2155
01:24:00,950 --> 01:23:58,440
things that have been discussed uh touch

2156
01:24:03,110 --> 01:24:00,960
on all of them to a degree perhaps

2157
01:24:04,910 --> 01:24:03,120
there's a couple maybe not all of them

2158
01:24:07,370 --> 01:24:04,920
because there's a couple that I think

2159
01:24:09,470 --> 01:24:07,380
are very scary for us to even discuss so

2160
01:24:11,870 --> 01:24:09,480
I could imagine I can't imagine somebody

2161
01:24:13,669 --> 01:24:11,880
getting up on a Podium uh at the White

2162
01:24:16,430 --> 01:24:13,679
House or the Pentagon and talking about

2163
01:24:18,590 --> 01:24:16,440

that uh or even in the Hall of Congress

2164

01:24:20,870 --> 01:24:18,600

but you know what a congressman might

2165

01:24:22,790 --> 01:24:20,880

they might they might talk about it but

2166

01:24:24,410 --> 01:24:22,800

but yeah nothing that would be unsafe

2167

01:24:27,649 --> 01:24:24,420

for destabilizing just the general

2168

01:24:30,890 --> 01:24:27,659

nature so that people as Deb likes to

2169

01:24:32,990 --> 01:24:30,900

say that people can start to come to

2170

01:24:35,570 --> 01:24:33,000

terms that there is something else here

2171

01:24:37,250 --> 01:24:35,580

that we're not alone and you can prepare

2172

01:24:39,590 --> 01:24:37,260

yourself so that you don't absolutely

2173

01:24:41,990 --> 01:24:39,600

freak out if you do see something or if

2174

01:24:44,330 --> 01:24:42,000

something happens that nobody can deny

2175

01:24:46,729 --> 01:24:44,340

then they control the narrative now it's

2176
01:24:49,430 --> 01:24:46,739
Adam out of everybody's hands connect

2177
01:24:52,130 --> 01:24:49,440
comment real quick yes ma'am please

2178
01:24:53,810 --> 01:24:52,140
the best way in my opinion is to just

2179
01:24:56,510 --> 01:24:53,820
let scientists present this information

2180
01:24:58,550 --> 01:24:56,520
because scientists Let Live some of the

2181
01:25:01,130 --> 01:24:58,560
craziest things nowadays and people are

2182
01:25:04,490 --> 01:25:01,140
just not really paying attention no

2183
01:25:07,189 --> 01:25:04,500
one's panicking and like let Avi lope do

2184
01:25:08,630 --> 01:25:07,199
it just kidding yeah maybe someone a

2185
01:25:10,729 --> 01:25:08,640
little more subtle like if they put it

2186
01:25:12,350 --> 01:25:10,739
in science America or something like

2187
01:25:14,810 --> 01:25:12,360
that people are not even going to Blink

2188
01:25:17,930 --> 01:25:14,820

an eye because they identify new species

2189

01:25:19,729 --> 01:25:17,940

all the time so that's just a comment

2190

01:25:21,890 --> 01:25:19,739

that I have to throw out there

2191

01:25:24,229 --> 01:25:21,900

and Corey you had something as well sir

2192

01:25:26,630 --> 01:25:24,239

forward to seeing this disclosure

2200

01:25:45,590 --> 01:25:43,020

2201
01:25:48,350 --> 01:25:45,600

2202

peace out one love we'll see you down

2211
01:26:18,000 --> 01:26:16,139
the road and as always we're wondering

2212
01:26:41,810 --> 01:26:18,010
what's up around the bend

2213
01:26:42,490 --> 01:26:41,820
