

1

00:00:00,000 --> 00:00:04,000

This time on Chasing UFOs.

2

00:00:04,000 --> 00:00:08,000

At the same height.

3

00:00:08,000 --> 00:00:29,940

There are clouds, there are

4

00:00:30,000 --> 00:00:33,000

clouds, it was alive.

5

00:00:33,000 --> 00:00:35,000

The hunt for answers leads the

6

00:00:35,000 --> 00:00:37,000

team into perilous territory,

7

00:00:37,000 --> 00:00:39,000

as locals fear this wave of

8

00:00:39,000 --> 00:00:41,000

activity could be linked to an

9

00:00:41,000 --> 00:00:43,000

active volcano.

10

00:00:43,000 --> 00:00:45,000

Just at any moment this thing

11

00:00:45,000 --> 00:00:47,000

can just explode.

12

00:00:47,000 --> 00:00:49,000

The investigation takes an

13

00:00:49,000 --> 00:00:51,000

unexpected turn when a well-known

14

00:00:51,000 --> 00:00:53,000

ufologist reveals what he

15

00:00:53,000 --> 00:00:55,000

believes to be undeniable proof

16

00:00:55,000 --> 00:00:57,000

of an alien presence.

17

00:00:57,000 --> 00:01:00,000

Oh my God!

18

00:01:00,000 --> 00:01:02,000

In a race to find out whether

19

00:01:02,000 --> 00:01:04,000

these creatures really do exist,

20

00:01:04,000 --> 00:01:06,000

the team comes face to face with

21

00:01:06,000 --> 00:01:08,000

something terrifying lurking deep

22

00:01:08,000 --> 00:01:10,000

in the Mexican jungle.

23

00:01:10,000 --> 00:01:11,000

Go!

24

00:01:11,000 --> 00:01:13,000

The f***s the way out.

25

00:01:13,000 --> 00:01:15,000

What we have here is not any

26

00:01:15,000 --> 00:01:17,000

earthly craft.

27

00:01:17,000 --> 00:01:18,000

Did you see that?

28

00:01:18,000 --> 00:01:19,000

There's usually a more

29

00:01:19,000 --> 00:01:20,000

conventional explanation for

30

00:01:20,000 --> 00:01:21,000

unidentified things that people

31

00:01:21,000 --> 00:01:22,000

are seeing if you take the time

32

00:01:22,000 --> 00:01:23,000

to look through them.

33

00:01:23,000 --> 00:01:24,000

For the first time in my life,

34

00:01:24,000 --> 00:01:26,000

I'm caught believing that the

35

00:01:26,000 --> 00:01:28,000

possibility of UFOs is all too

36

00:01:28,000 --> 00:01:29,000

real.

37

00:01:29,000 --> 00:01:30,000

For me to be out here looking

38

00:01:30,000 --> 00:01:31,000

for evidence, this is it.

39

00:01:31,000 --> 00:01:32,000

This is what I live for.

40

00:01:32,000 --> 00:01:33,000

This is what I've been dreaming

41

00:01:33,000 --> 00:01:34,000

about.

42

00:01:34,000 --> 00:01:36,000

Oh my God!

43

00:01:36,000 --> 00:01:37,000

Wow!

44

00:01:37,000 --> 00:01:38,000

God!

45

00:01:56,000 --> 00:02:08,000

You know I've never been to

46

00:02:08,000 --> 00:02:09,000

Mexico City.

47

00:02:09,000 --> 00:02:10,000

This is my first time in Mexico City.

48

00:02:10,000 --> 00:02:11,000

It's my first time too.

49

00:02:11,000 --> 00:02:12,000

Yeah?

50

00:02:12,000 --> 00:02:13,000

Yeah.

51

00:02:13,000 --> 00:02:14,000

We're here in Mexico City to

52

00:02:14,000 --> 00:02:21,000

investigate the mothership videos.

53

00:02:21,000 --> 00:02:23,000

I'm going to pull up the

54

00:02:23,000 --> 00:02:24,000

mothership videos to just do a

55

00:02:24,000 --> 00:02:25,000

quick comparison.

56

00:02:25,000 --> 00:02:26,000

All right.

57

00:02:26,000 --> 00:02:28,000

So here are the two angles of

58

00:02:28,000 --> 00:02:30,000

the mothership videos that were

59

00:02:30,000 --> 00:02:31,000

shot from Mexico.

60

00:02:31,000 --> 00:02:34,000

Check them both out.

61

00:02:34,000 --> 00:02:36,000

This is Pedro's angle.

62

00:02:36,000 --> 00:02:37,000

He's the one that shot the video

63

00:02:37,000 --> 00:02:39,000

looking to the east.

64

00:02:39,000 --> 00:02:42,000

Oh, look at that.

65

00:02:42,000 --> 00:02:43,000

Wow.

66

00:02:43,000 --> 00:02:45,000

And then this is Alfredo's

67

00:02:45,000 --> 00:02:48,000

angle looking to the west,

68

00:02:48,000 --> 00:02:51,000

obviously backlit.

69

00:02:51,000 --> 00:02:53,000

So they're actually dancing

70

00:02:53,000 --> 00:02:54,000

around a little bit.

71

00:02:54,000 --> 00:02:55,000

Look at that.

72

00:02:55,000 --> 00:02:57,000

That's interesting.

73

00:02:57,000 --> 00:02:59,000

I've never heard anyone talking

74

00:02:59,000 --> 00:03:00,000

about anything like it and I've

75

00:03:00,000 --> 00:03:02,000

never seen anything like it.

76

00:03:02,000 --> 00:03:04,000

It looks like giving birth, right?

77

00:03:04,000 --> 00:03:06,000

To a baby UFOs.

78

00:03:06,000 --> 00:03:08,000

As a UFO investigator,

79

00:03:08,000 --> 00:03:09,000

someone who's looked at a lot of

80

00:03:09,000 --> 00:03:13,000

footage, it's extremely rare.

81

00:03:13,000 --> 00:03:14,000

Two strangers filming the same

82

00:03:14,000 --> 00:03:16,000

object at the same time,

83

00:03:16,000 --> 00:03:21,000

shot from two separate angles.

84

00:03:21,000 --> 00:03:23,000

I'm anticipating this is going to

85

00:03:23,000 --> 00:03:25,000

be extremely difficult for a

86

00:03:25,000 --> 00:03:26,000

band to debunk.

87

00:03:26,000 --> 00:03:28,000

Oh, is that right?

88

00:03:28,000 --> 00:03:29,000

In fact, it's, you know,

89

00:03:29,000 --> 00:03:31,000

semi-daylight and you have two

90

00:03:31,000 --> 00:03:32,000

separate angles and we have both

91

00:03:32,000 --> 00:03:34,000

the people that shot the videos.

92

00:03:34,000 --> 00:03:35,000

That's a major boon for our

93

00:03:35,000 --> 00:03:36,000

investigation.

94

00:03:36,000 --> 00:03:37,000

I've got the exact opposite

95

00:03:37,000 --> 00:03:38,000

opinion.

96

00:03:38,000 --> 00:03:39,000

I feel like because the data is

97

00:03:39,000 --> 00:03:41,000

so good, we actually have a

98

00:03:41,000 --> 00:03:42,000

chance of identifying it.

99

00:03:42,000 --> 00:03:44,000

To me, it does look like

100

00:03:44,000 --> 00:03:46,000

something is deploying an array

101

00:03:46,000 --> 00:03:48,000

of something else.

102

00:03:48,000 --> 00:03:50,000

I just have no idea what it is

103

00:03:50,000 --> 00:03:51,000

to start, but does that mean it

104

00:03:51,000 --> 00:03:52,000

had to be ET?

105

00:03:52,000 --> 00:03:54,000

No.

106

00:03:54,000 --> 00:03:56,000

First things first, we should

107

00:03:56,000 --> 00:03:57,000

absolutely contact those eye

108

00:03:57,000 --> 00:03:58,000

witnesses.

109

00:03:58,000 --> 00:04:00,000

Having two angles of a video like

110

00:04:00,000 --> 00:04:02,000

that is really unusual and

111

00:04:02,000 --> 00:04:03,000

really valuable to us.

112

00:04:03,000 --> 00:04:05,000

So getting to speak to both of

113

00:04:05,000 --> 00:04:07,000

them is imperative, you know,

114

00:04:07,000 --> 00:04:08,000

for analysis.

115

00:04:08,000 --> 00:04:10,000

It's unprecedented, really.

116

00:04:10,000 --> 00:04:11,000

You know, since these videos

117

00:04:11,000 --> 00:04:12,000

were shot on handheld consumer

118

00:04:12,000 --> 00:04:14,000

cameras, they don't have as much

119

00:04:14,000 --> 00:04:16,000

detail as I would like, so I'm

120

00:04:16,000 --> 00:04:18,000

not jumping on the mother ship

121

00:04:18,000 --> 00:04:19,000

bandwagon just yet.

122

00:04:23,000 --> 00:04:24,000

Mexico City is bustling this

123

00:04:24,000 --> 00:04:25,000

morning.

124

00:04:25,000 --> 00:04:27,000

Yes, it is.

125

00:04:32,000 --> 00:04:34,000

After joining our translator,

126

00:04:34,000 --> 00:04:35,000

we're off to meet with the first

127

00:04:35,000 --> 00:04:37,000

of two eye witnesses, Pedro.

128

00:04:39,000 --> 00:04:41,000

Hola, Pedro.

129

00:04:41,000 --> 00:04:42,000

Mucho gusto.

130

00:04:42,000 --> 00:04:43,000

Mucho gusto, señor.

131

00:04:43,000 --> 00:04:44,000

You know, we're very fascinated

132

00:04:44,000 --> 00:04:46,000

by the video he shot, and we'd

133

00:04:46,000 --> 00:04:47,000

love to learn a little bit more

134

00:04:47,000 --> 00:04:48,000

about it.

135

00:04:48,000 --> 00:04:50,000

Sí, están muy contentos ellos de

136

00:04:50,000 --> 00:04:52,000

conocerme, sobre todo están

137

00:04:52,000 --> 00:04:53,000

fascinados con el video que

138

00:04:53,000 --> 00:04:55,000

pudiste, que lograste tomar.

139

00:04:55,000 --> 00:04:59,000

El 22 de mayo, del 2009,

140

00:04:59,000 --> 00:05:02,000

venía yo de satélite y vayó

141

00:05:02,000 --> 00:05:03,000

a Valle Dorado.

142

00:05:05,000 --> 00:05:07,000

He was looking out the window

143

00:05:07,000 --> 00:05:09,000

and he noticed this thing on the

144

00:05:09,000 --> 00:05:10,000

sky.

145

00:05:10,000 --> 00:05:12,000

The object was white, it was

146

00:05:12,000 --> 00:05:14,000

moving, tilting.

147

00:05:14,000 --> 00:05:16,000

So he decided to come off the

148

00:05:16,000 --> 00:05:18,000

bus and then come closer to look

149

00:05:18,000 --> 00:05:19,000

at it.

150

00:05:23,000 --> 00:05:25,000

And was it like size of a

151

00:05:25,000 --> 00:05:27,000

motorcycle, size of a bus,

152

00:05:27,000 --> 00:05:28,000

the size of a car?

153

00:05:28,000 --> 00:05:29,000

Trailer, triple, triple

154

00:05:29,000 --> 00:05:30,000

of a trailer.

155

00:05:30,000 --> 00:05:32,000

It was probably three times

156

00:05:32,000 --> 00:05:34,000

of an 18-wheeler.

157

00:05:34,000 --> 00:05:35,000

Wow.

158

00:05:35,000 --> 00:05:36,000

Wow.

159

00:05:38,000 --> 00:05:40,000

What does he believe he saw?

160

00:05:40,000 --> 00:05:42,000

Las esmeritas eran vivas,

161

00:05:42,000 --> 00:05:43,000

inteligentes.

162

00:05:43,000 --> 00:05:45,000

While shooting, he was

163

00:05:45,000 --> 00:05:48,000

having this feeling that it's not

164

00:05:48,000 --> 00:05:49,000

from the earth.

165

00:05:51,000 --> 00:05:53,000

It was something that had

166

00:05:53,000 --> 00:05:55,000

intelligence and that it was

167

00:05:55,000 --> 00:05:57,000

moving on its own and it was

168

00:05:57,000 --> 00:05:58,000

alive.

169

00:06:01,000 --> 00:06:03,000

Clearly, Pedro is convinced that

170

00:06:03,000 --> 00:06:05,000

what he captured on film was a

171

00:06:05,000 --> 00:06:06,000

bona fide UFO.

172

00:06:12,000 --> 00:06:13,000

Now we're going to meet the

173

00:06:13,000 --> 00:06:15,000

second cameraman who captured the

174

00:06:15,000 --> 00:06:17,000

same object, but this time it's

175

00:06:17,000 --> 00:06:18,000

backlit.

176

00:06:25,000 --> 00:06:27,000

So is there any way he could

177

00:06:27,000 --> 00:06:29,000

sort of walk us through, step by

178

00:06:29,000 --> 00:06:31,000

step, with details of what

179

00:06:31,000 --> 00:06:32,000

happened?

180

00:06:32,000 --> 00:06:42,000

He was standing right here.

181

00:06:42,000 --> 00:06:44,000

He was shooting the airplane route

182

00:06:44,000 --> 00:06:46,000

going into the airport.

183

00:06:46,000 --> 00:06:48,000

He was shooting this commercial

184

00:06:48,000 --> 00:06:50,000

airline airplane and as he was

185

00:06:50,000 --> 00:06:52,000

following the plane he suddenly

186

00:06:52,000 --> 00:06:54,000

saw in the background this oval

187

00:06:54,000 --> 00:06:55,000

type of plane.

188

00:06:55,000 --> 00:06:57,000

He was standing right here.

189

00:06:57,000 --> 00:06:59,000

He was shooting the airplane route

190

00:06:59,000 --> 00:07:01,000

going into the airport.

191

00:07:01,000 --> 00:07:03,000

He was shooting this oval type

192

00:07:03,000 --> 00:07:04,000

object.

193

00:07:04,000 --> 00:07:06,000

And two seconds after

194

00:07:06,000 --> 00:07:08,000

the word, things started coming

195

00:07:08,000 --> 00:07:10,000

out of both ends of this

196

00:07:10,000 --> 00:07:11,000

object.

197

00:07:14,000 --> 00:07:17,000

So what do you believe you saw?

198

00:07:22,000 --> 00:07:24,000

He cannot ensure whether it is a

199

00:07:24,000 --> 00:07:26,000

biological thing or anything else

200

00:07:26,000 --> 00:07:28,000

that regards, but it's something

201

00:07:28,000 --> 00:07:30,000

that is out of this planet.

202

00:07:32,000 --> 00:07:35,000

Does he think that Mexico is a

203

00:07:35,000 --> 00:07:37,000

hotspot for UFO activity?

204

00:07:44,000 --> 00:07:46,000

He is a believer that whenever

205

00:07:46,000 --> 00:07:48,000

there is natural phenomena

206

00:07:48,000 --> 00:07:50,000

happening, volcano activity of

207

00:07:50,000 --> 00:07:53,000

course, there is a sighting of

208

00:07:53,000 --> 00:07:56,000

objects more than other times.

209

00:07:59,000 --> 00:08:00,000

Alfredo just mentioned that he

210

00:08:00,000 --> 00:08:02,000

believes the object he filmed was

211

00:08:02,000 --> 00:08:04,000

related to the local volcano, which

212

00:08:04,000 --> 00:08:06,000

is it turns out is named Popoca

213

00:08:06,000 --> 00:08:08,000

Teppidil, an active volcano just on

214

00:08:08,000 --> 00:08:10,000

the outskirts of town where people

215

00:08:10,000 --> 00:08:12,000

have actually photographed what they

216

00:08:12,000 --> 00:08:13,000

feel are UFOs.

217

00:08:13,000 --> 00:08:15,000

So, following Alfredo's lead,

218

00:08:15,000 --> 00:08:17,000

we're off to the volcano Popoca

219

00:08:17,000 --> 00:08:19,000

Teppidil to begin our investigation

220

00:08:19,000 --> 00:08:21,000

into this case.

221

00:08:25,000 --> 00:08:27,000

In order to effectively navigate

222

00:08:27,000 --> 00:08:29,000

around this volcano, we're going to

223

00:08:29,000 --> 00:08:31,000

need some alternate transportation.

224

00:08:35,000 --> 00:08:37,000

Come on, sweetheart. Come on.

225

00:08:40,000 --> 00:08:42,000

Oh, you've done this before.

226

00:08:42,000 --> 00:08:44,000

I have an accident.

227

00:08:44,000 --> 00:08:46,000

Come on, Ben.

228

00:08:46,000 --> 00:08:48,000

Alright!

229

00:08:48,000 --> 00:08:50,000

Hey, Ben, where are you?

230

00:08:50,000 --> 00:08:52,000

Oh, my God!

231

00:08:54,000 --> 00:08:56,000

Hey, hey, this way.

232

00:08:56,000 --> 00:08:58,000

Ben, you tell that donkey who's boss.

233

00:08:58,000 --> 00:09:00,000

You're in the pack, people. This way.

234

00:09:00,000 --> 00:09:03,000

I know where to go.

235

00:09:03,000 --> 00:09:05,000

Follow me.

236

00:09:09,000 --> 00:09:11,000

Put her.

237

00:09:19,000 --> 00:09:20,000

Come on.

238

00:09:20,000 --> 00:09:22,000

It looks like this path goes up to the right over here.

239

00:09:24,000 --> 00:09:26,000

Ben, quit playing with your ass over there.

240

00:09:26,000 --> 00:09:28,000

Come on, Ben. Come on.

241

00:09:28,000 --> 00:09:31,000

Well, I can cross riding a donkey off my bucket list.

242

00:09:34,000 --> 00:09:36,000

Let's tie up the donkeys here,

243

00:09:36,000 --> 00:09:38,000

continue the rest of the way on foot.

244

00:09:38,000 --> 00:09:40,000

Looks like we got a pretty big slope to climb.

245

00:09:42,000 --> 00:09:44,000

What do you think we're at? 8,000?

246

00:09:45,000 --> 00:09:47,000

7? 8,000?

247

00:09:47,000 --> 00:09:48,000

Alright, guys.

248

00:09:48,000 --> 00:09:50,000

So, if we're going to entertain the hypothesis

249

00:09:50,000 --> 00:09:52,000

that extraterrestrials have crossed the Gulf of Space

250

00:09:52,000 --> 00:09:54,000

to investigate this volcano,

251

00:09:54,000 --> 00:09:56,000

well, that to me says there would be something interesting

252

00:09:56,000 --> 00:09:58,000

about this volcano.

253

00:09:58,000 --> 00:10:01,000

So, we're going to do a mineralogical analysis

254

00:10:01,000 --> 00:10:03,000

to see if there is anything that sets this volcano

255

00:10:03,000 --> 00:10:05,000

apart from other volcanoes.

256

00:10:24,000 --> 00:10:26,000

Alright.

257

00:10:26,000 --> 00:10:28,000

You look up there and you can see the plume of smoke.

258

00:10:28,000 --> 00:10:30,000

Two or three weeks ago, there was a big ash eruption.

259

00:10:30,000 --> 00:10:32,000

We have to be cautious.

260

00:10:32,000 --> 00:10:34,000

We have to, you know, listen to our bodies.

261

00:10:34,000 --> 00:10:36,000

If you feel the ground,

262

00:10:36,000 --> 00:10:38,000

you absolutely have to back out and get out of here.

263

00:10:38,000 --> 00:10:40,000

But if the wind shifts at all,

264

00:10:40,000 --> 00:10:42,000

ash particles, it's like razor blades in your lungs,

265

00:10:42,000 --> 00:10:44,000

so keeping those abs is a good thing.

266

00:10:44,000 --> 00:10:46,000

If people are saying that there's something particular

267

00:10:46,000 --> 00:10:48,000

about this volcano,

268

00:10:48,000 --> 00:10:50,000

it's like, you know,

269

00:10:50,000 --> 00:10:52,000

it's like, you know,

270

00:10:52,000 --> 00:10:54,000

there's something particular about this volcano

271

00:10:54,000 --> 00:10:57,000

that makes it an attractive target for extraterrestrial surveillance.

272

00:10:57,000 --> 00:10:59,000

Well, let's put that to the test.

273

00:10:59,000 --> 00:11:01,000

Let's go grab some freshly erupted rocks,

274

00:11:01,000 --> 00:11:03,000

see if it's relatively mundane

275

00:11:03,000 --> 00:11:05,000

or if it's something really exotic.

276

00:11:06,000 --> 00:11:08,000

Hey, will you guys collect samples?

277

00:11:08,000 --> 00:11:10,000

I'm going to head up a little higher

278

00:11:10,000 --> 00:11:12,000

and get a good look at the skies.

279

00:11:16,000 --> 00:11:19,000

I hope the donkeys are okay back there.

280

00:11:19,000 --> 00:11:21,000

They should be fine.

281

00:11:21,000 --> 00:11:23,000

All they wanted to do was eat.

282

00:11:23,000 --> 00:11:25,000

Take a nap.

283

00:11:27,000 --> 00:11:29,000

Here, shine your light back here, would you?

284

00:11:32,000 --> 00:11:35,000

See? That's a pretty nice exposure right there.

285

00:11:35,000 --> 00:11:37,000

It's cool.

286

00:11:37,000 --> 00:11:39,000

Yeah.

287

00:11:40,000 --> 00:11:42,000

Multiple events.

288

00:11:45,000 --> 00:11:47,000

This looks like a pretty good spot.

289

00:11:47,000 --> 00:11:48,000

Okay.

290

00:11:48,000 --> 00:11:50,000

Want me to pull out the evidence kit?

291

00:11:50,000 --> 00:11:52,000

Yeah.

292

00:11:52,000 --> 00:11:54,000

Oh, my goodness.

293

00:11:54,000 --> 00:11:56,000

That ground was so much farther away than I thought it was.

294

00:11:56,000 --> 00:11:57,000

Oh, my goodness.

295

00:11:57,000 --> 00:11:58,000

You okay?

296

00:11:58,000 --> 00:12:00,000

I can just jam my finger in that hole.

297

00:12:00,000 --> 00:12:02,000

You're a complete disaster.

298

00:12:02,000 --> 00:12:04,000

I know. What the hell?

299

00:12:05,000 --> 00:12:07,000

Let's see what this ash is doing.

300

00:12:07,000 --> 00:12:09,000

Oh, man.

301

00:12:17,000 --> 00:12:19,000

Oh, man.

302

00:12:25,000 --> 00:12:27,000

Wow.

303

00:12:27,000 --> 00:12:29,000

Wow.

304

00:12:33,000 --> 00:12:36,000

Wow, you can actually see the steam rising up on the ground.

305

00:12:36,000 --> 00:12:38,000

It's rising up on the volcano.

306

00:12:38,000 --> 00:12:42,000

So odd to be this close to an active volcano,

307

00:12:42,000 --> 00:12:46,000

knowing that just at any moment this thing could just explode.

308

00:12:49,000 --> 00:12:52,000

If I was a UFO, why would I come here?

309

00:12:54,000 --> 00:12:56,000

James the Benin writer?

310

00:12:56,000 --> 00:12:58,000

Hey, James. Are you okay over there?

311

00:12:58,000 --> 00:13:00,000

Yeah, I'm okay right now.

312

00:13:00,000 --> 00:13:03,000

I want to let you know I've got a really good line of sight

313

00:13:03,000 --> 00:13:05,000

on the volcano right now.

314

00:13:05,000 --> 00:13:07,000

It's looking very active.

315

00:13:07,000 --> 00:13:11,000

I'm seeing all kinds of faces being made in the smokestacks.

316

00:13:13,000 --> 00:13:16,000

You know, sort of milling out of this thing, it's really spooky.

317

00:13:18,000 --> 00:13:22,000

Hey, James, we're worried that you might have some slight form of altitude sickness.

318

00:13:22,000 --> 00:13:25,000

Maybe you saw it, but this camera's not.

319

00:13:26,000 --> 00:13:28,000

What?

320

00:13:29,000 --> 00:13:33,000

All right, well, I'll let you know if you need to put your mask on at any point.

321

00:13:33,000 --> 00:13:35,000

Got me that.

322

00:13:58,000 --> 00:14:02,000

So odd to be this close to an active volcano,

323

00:14:02,000 --> 00:14:06,000

knowing that just at any moment this thing could just explode.

324

00:14:10,000 --> 00:14:13,000

If I was a UFO, why would I come here?

325

00:14:16,000 --> 00:14:18,000

Oh, s**t.

326

00:14:18,000 --> 00:14:18,840

to come here.

327

00:14:18,840 --> 00:14:20,840

I think I'm gonna sleep.

328

00:14:32,820 --> 00:14:34,860

See his eyes?

329

00:14:34,880 --> 00:14:37,560

Okay.

330

00:14:38,200 --> 00:14:41,360

No, Miss Ma1a.

331

00:14:42,120 --> 00:14:46,560

It's just a dog.

332

00:14:46,560 --> 00:14:48,560

He was running across the field.

333

00:14:48,560 --> 00:14:49,560

Ah.

334

00:14:55,560 --> 00:14:57,560

What the f*** is that?

335

00:15:01,560 --> 00:15:03,560

Is this gunshots?

336

00:15:07,560 --> 00:15:09,560

James the Ben and Rider.

337

00:15:10,560 --> 00:15:12,560

Go for Ben and Rider.

338

00:15:12,560 --> 00:15:15,560

Hey guys, listen man, I'm here at Wild Dogs.

339

00:15:15,560 --> 00:15:18,560

Gunshots. All kinds of basic activity.

340

00:15:18,560 --> 00:15:22,560

I'm not sure it's safe for us to be adding too much longer.

341

00:15:23,560 --> 00:15:25,560

Can you repeat gunshots?

342

00:15:25,560 --> 00:15:28,560

You haven't been hearing this loud shot gun blasts.

343

00:15:29,560 --> 00:15:30,560

That's a negative James.

344

00:15:30,560 --> 00:15:33,560

From what direction are you hearing the gunshots over?

345

00:15:33,560 --> 00:15:36,560

Wild Dogs all around us.

346

00:15:36,560 --> 00:15:39,560

Gunshots coming from, I think it's the east.

347

00:15:41,560 --> 00:15:42,560

I think it's time to go.

348

00:15:42,560 --> 00:15:44,560

Copy. I think we've got enough ash samples to take back to town.

349

00:15:45,560 --> 00:15:49,560

We'll finish up here. Why don't you rally back at base camp and we'll get out of here.

350

00:15:49,560 --> 00:15:51,560

Copy that.

351

00:16:01,560 --> 00:16:06,560

After collecting samples at the volcano, we decided to follow a new lead.

352

00:16:07,560 --> 00:16:10,560

Alright guys, so this next video is really rare.

353

00:16:10,560 --> 00:16:14,560

It was shot by the Mexican Air Force on their thermal cameras

354

00:16:14,560 --> 00:16:19,560

and they believe it might be footage of multiple UFOs captured in Mexican airspace.

355

00:16:29,560 --> 00:16:31,560

Wow, I've never seen anything like that.

356

00:16:40,560 --> 00:16:42,560

We're shooting all the way up to the hill.

357

00:16:42,560 --> 00:16:45,560

One, two, three, four, six, eight, ten.

358

00:16:45,560 --> 00:16:49,560

These would appear to be orbs flying in the sky.

359

00:16:49,560 --> 00:16:51,560

Amazing stuff.

360

00:16:54,560 --> 00:17:01,560

One of the things we need to keep in mind for our investigation is that these objects were clearly visible with the flare cameras.

361

00:17:01,560 --> 00:17:05,560

They were airborne according to the Mexican Air Force.

362

00:17:05,560 --> 00:17:09,560

They were picked up on a sea view radar, three of them.

363

00:17:09,560 --> 00:17:13,560

There were eleven objects seen in total, all picked up on the flare.

364

00:17:13,560 --> 00:17:19,560

And at one point they surrounded the plane to the point where the pilots got so freaked out

365

00:17:19,560 --> 00:17:26,560

that they switched off their navigation beacons because they wanted to kind of disengage any possible confrontation with these objects.

366

00:17:26,560 --> 00:17:29,560

So these pilots were clearly freaked out.

367

00:17:40,560 --> 00:17:44,560

We were shooting all the way up to the left of several objects.

368

00:17:44,560 --> 00:17:46,560

Did you feel the fear?

369

00:17:46,560 --> 00:17:49,560

Yes, I did.

370

00:17:49,560 --> 00:17:53,560

Personally, I did feel the fear.

371

00:17:53,560 --> 00:17:57,560

Fear is a little scary.

372

00:17:57,560 --> 00:18:04,560

A little scary because we were in front of something that had never happened before.

373

00:18:04,560 --> 00:18:09,560

Well, yes, a little bit of fear.

374

00:18:09,560 --> 00:18:15,560

My gut reaction to the footage is not necessarily that these objects themselves are moving.

375

00:18:15,560 --> 00:18:18,560

They're staying very stationary with respect to each other.

376

00:18:18,560 --> 00:18:20,560

They don't seem to be doing any extreme maneuvers.

377

00:18:20,560 --> 00:18:23,560

They're not flying apart in changing formation or moving toward or away.

378

00:18:23,560 --> 00:18:25,560

They're all staying very static.

379

00:18:25,560 --> 00:18:30,560

And some have suggested in the past that this footage is actually oil rigged, it's on the horizon.

380

00:18:30,560 --> 00:18:35,560

And, you know, to me, I don't think that we can rule that out.

381

00:18:35,560 --> 00:18:39,560

One of the theories to explain this video are stationary oil rigs.

382

00:18:39,560 --> 00:18:45,560

The problem I have with that theory is I would have to completely dismiss two very significant facts,

383

00:18:45,560 --> 00:18:48,560

as stated by the officers from the Mexican Air Force.

384

00:18:48,560 --> 00:18:52,560

One, these two objects out of the 11 were picked up on radar at altitude.

385

00:18:52,560 --> 00:18:59,560

Two, at one point, these objects seemed to circle their very aircraft, which really freaked them out.

386

00:18:59,560 --> 00:19:04,560

The entire commentary of the pilots while it's happening is really valuable.

387

00:19:04,560 --> 00:19:12,560

I think what's even more important is for us to go to this exact site and do a test ourselves.

388

00:19:12,560 --> 00:19:16,560

Yeah, we'll go to the exact location where the sightings occurred, bring our own flare cameras,

389

00:19:16,560 --> 00:19:22,560

and see if we can pick up what some say were oil derricks out in the Gulf, which I highly disagree with.

390

00:19:22,560 --> 00:19:29,560

Get up into the sky and then see if we can't see something similar while we're there looking in the same direction.

391

00:19:29,560 --> 00:19:36,560

Our next move is we get to meet up with a pilot in Campeche, Mexico,

392

00:19:36,560 --> 00:19:41,560

and actually go up in the air with flare cameras to the exact location for recreation.

393

00:19:41,560 --> 00:19:54,560

Our objective is to see whether or not our flare cameras can pick up a heat signal from these oil rigs off the coast of Mexico.

394

00:19:54,560 --> 00:20:00,560

So we will start here, we'll fly into the coordinates.

395

00:20:00,560 --> 00:20:03,560

Yep, and right now we're just calling this division del Norte.

396

00:20:03,560 --> 00:20:08,560

We've gone over this to the exact location where the sighting happened with the Mexican Air Force.

397

00:20:08,560 --> 00:20:10,560

Okay, ready?

398

00:20:10,560 --> 00:20:12,560

Let's go!

399

00:20:15,560 --> 00:20:23,560

Our plan for this test is to get up in a plane and head to the exact coordinates and altitude and run this test for ourselves.

400

00:20:23,560 --> 00:20:30,560

Both Ben and I will be equipped with thermal cameras that will help us detect distinct heat signatures in the area.

401

00:20:30,560 --> 00:20:31,560

Hey guys, ready?

402

00:20:31,560 --> 00:20:32,560

Oh yeah.

403

00:20:32,560 --> 00:20:34,560

Let us know when we're in position.

404

00:20:34,560 --> 00:20:36,560

Once it's a go, we'll start running the test.

405

00:20:39,560 --> 00:20:47,560

In my mind, this will help us determine if offshore burning oil rigs can look anything like that military footage.

406

00:20:58,560 --> 00:21:02,560

Okay, so you guys, our ETA is 33 minutes.

407

00:21:02,560 --> 00:21:10,560

We're at an altitude of 3000 feet, we're headed to an altitude of 10,000 feet, which is the altitude roughly the Air Force capture of the UFOs.

408

00:21:10,560 --> 00:21:15,560

Yeah, we should be getting there at the perfect time of day.

409

00:21:15,560 --> 00:21:16,560

Perfect.

410

00:21:16,560 --> 00:21:21,560

I think it's going to be similar conditions too, you see the cloud cover over the Gulf.

411

00:21:21,560 --> 00:21:22,560

I'm trying to...

412

00:21:22,560 --> 00:21:27,560

It's very similar to the day they capture the UFOs.

413

00:21:27,560 --> 00:21:30,560

Your eyes peeled for any UFOs.

414

00:21:31,560 --> 00:21:33,560

5 minutes for arrived point.

415

00:21:33,560 --> 00:21:37,560

Okay guys, get ready, our ETA is one minute.

416

00:21:37,560 --> 00:21:40,560

ETA 15 seconds.

417

00:21:44,560 --> 00:21:52,560

8, 7, 6, 5, 4, 3, 2, let's do this.

418

00:21:58,560 --> 00:22:04,560

Okay James, let us know when we get close to the location where the footage was shot.

419

00:22:04,560 --> 00:22:06,560

We're ready with our thermal cameras.

420

00:22:06,560 --> 00:22:10,560

UFOs are oil rigs, let's see if we can end this debate once and for all.

421

00:22:12,560 --> 00:22:17,560

8, 7, 6, 5, 4, 3, 2, let's do this.

422

00:22:27,560 --> 00:22:28,560

Arrived at the point 2.

423

00:22:28,560 --> 00:22:29,560

We're here.

424

00:22:29,560 --> 00:22:33,560

Our airspeed is 110 knots.

425

00:22:33,560 --> 00:22:36,560

Our altitude is 10,000 feet.

426

00:22:36,560 --> 00:22:37,560

1000 feet.

427

00:22:37,560 --> 00:22:46,560

The exact coordinates of the Air Force's video shot off the coast, I believe it's roughly 80 nautical miles to the coast right now.

428

00:22:46,560 --> 00:22:50,560

So we are exactly where we want to be.

429

00:22:50,560 --> 00:22:51,560

Happy that.

430

00:22:51,560 --> 00:22:56,560

And a little, you know, land below but nothing out of the ordinary.

431

00:22:56,560 --> 00:22:57,560

No platforms.

432

00:22:57,560 --> 00:22:58,560

Happy that.

433

00:22:58,560 --> 00:22:59,560

Can you see the water from here?

434

00:22:59,560 --> 00:23:01,560

It's a good distance out.

435

00:23:01,560 --> 00:23:07,560

I'm having trouble seeing the water with my eyes let alone with the camera, you know.

436

00:23:07,560 --> 00:23:11,560

Now I'm on the binoculars right now and I still can't see the water.

437

00:23:13,560 --> 00:23:17,560

Right now we're in the exact same spot where the Mexican Air Force captured these videos.

438

00:23:17,560 --> 00:23:19,560

Okay, 8, okay.

439

00:23:19,560 --> 00:23:20,560

Perfect.

440

00:23:21,560 --> 00:23:24,560

I can't even see the water with binoculars.

441

00:23:24,560 --> 00:23:29,560

We are 48 miles from the ocean.

442

00:23:29,560 --> 00:23:33,560

Okay guys, we are 48 miles from the ocean.

443

00:23:33,560 --> 00:23:38,560

Not by that explanation of oil platforms, that's for damn sure.

444

00:23:38,560 --> 00:23:41,560

I'm not with this man, is I'm not?

445

00:23:41,560 --> 00:23:48,560

Better if you picked up any imagery at all like any heat signals from the direction of the water on the clear cameras.

446

00:23:49,560 --> 00:23:50,560

Nothing yet.

447

00:23:50,560 --> 00:23:58,560

Okay, well we're gonna fly right over that restricted airspace so we can get and see if we can see some platforms.

448

00:23:58,560 --> 00:24:04,560

From this vantage point, we can barely see the water let alone these oil rigs.

449

00:24:04,560 --> 00:24:08,560

I just don't see how people can mistake these oil rigs for UFOs.

450

00:24:14,560 --> 00:24:16,560

There is a platform here.

451

00:24:16,560 --> 00:24:19,560

Yes sir, we've located one platform.

452

00:24:19,560 --> 00:24:23,560

And so can we turn this possible to a better, whether film?

453

00:24:23,560 --> 00:24:25,560

Okay, you see?

454

00:24:25,560 --> 00:24:26,560

Yes, yes, yes, yes.

455

00:24:26,560 --> 00:24:27,560

Okay.

456

00:24:27,560 --> 00:24:28,560

Guys, I got a platform.

457

00:24:28,560 --> 00:24:32,560

I got a platform and it'll be directly out your window in about four seconds.

458

00:24:36,560 --> 00:24:38,560

I don't see it.

459

00:24:40,560 --> 00:24:42,560

I don't know what they were talking about, honest.

460

00:24:42,560 --> 00:24:44,560

I'm not picking these platforms up.

461

00:24:44,560 --> 00:24:47,560

I can see it with my naked eye and I can't get it on the third one.

462

00:25:03,560 --> 00:25:05,560

I finally got it, I got it.

463

00:25:06,560 --> 00:25:09,560

Okay, so it does record now you guys.

464

00:25:09,560 --> 00:25:11,560

We are at 860 feet.

465

00:25:13,560 --> 00:25:17,560

This is a mile away from the oil rig and we finally picked it up on the flare, is that right?

466

00:25:17,560 --> 00:25:19,560

That's right, finally.

467

00:25:19,560 --> 00:25:21,560

Finally picked it up on the flare and it is baked.

468

00:25:21,560 --> 00:25:24,560

It looks nothing like what we saw.

469

00:25:26,560 --> 00:25:28,560

Okay, copy that writer.

470

00:25:29,560 --> 00:25:40,560

Our tests have clearly demonstrated that even at close range, those oil derricks do not even give off enough heat signal to be picked up on a flare camera.

471

00:25:40,560 --> 00:25:53,560

Because I think the atmospheric conditions were different today than they were for the Mexican flare footage and because the military's camera may have had a different calibration than ours, I don't think that our experiment was conclusive either way.

472

00:25:54,560 --> 00:26:01,560

I personally am convinced that the water was so far away at that location that I couldn't even see with binoculars.

473

00:26:01,560 --> 00:26:11,560

Well, even when I got the oil platform on the thermal camera, it just wasn't resonating as strong as the lights in the video were.

474

00:26:11,560 --> 00:26:15,560

The damn haze, we couldn't see a lot. Even when we were close to the oil rigs.

475

00:26:15,560 --> 00:26:17,560

We couldn't even see the water.

476

00:26:17,560 --> 00:26:24,560

When you look at the video, there's clouds all over the place and these objects are going in and out of the clouds, behind the clouds.

477

00:26:24,560 --> 00:26:28,560

Personally, I'm convinced that what was captured was not oil rigs.

478

00:26:28,560 --> 00:26:36,560

If these videos that we're investigating are real, like the locals claim, then it follows that there could also be landings.

479

00:26:36,560 --> 00:26:43,560

And we're about to meet a man who believes he has proof that they've not only landed, they might have left something behind.

480

00:26:47,560 --> 00:26:58,560

Jaime Moussaint is a former journalist turned popular ufologist and what he claims to be in possession of could change what we know about extraterrestrials forever.

481

00:26:59,560 --> 00:27:02,560

We're really interested in what you have to show us.

482

00:27:02,560 --> 00:27:04,560

Yeah, well, let me show you that.

483

00:27:07,560 --> 00:27:08,560

What is it?

484

00:27:11,560 --> 00:27:15,560

We don't know yet. We are in the process of investigating this creature.

485

00:27:16,560 --> 00:27:19,560

This could become a very important evidence.

486

00:27:21,560 --> 00:27:25,560

This creature was found in a rat trap.

487

00:27:25,560 --> 00:27:31,560

There have been six DNA analysis, but the results are amazing.

488

00:27:33,560 --> 00:27:36,560

This is a creature with unknown origin.

489

00:27:37,560 --> 00:27:39,560

Oh my God!

490

00:27:40,560 --> 00:27:42,560

Oh, he's too much.

491

00:27:45,560 --> 00:27:47,560

He's too much.

492

00:28:15,560 --> 00:28:18,560

This creature was unknown origin.

493

00:28:20,560 --> 00:28:22,560

Oh my God!

494

00:28:23,560 --> 00:28:27,560

Not human and not animal known.

495

00:28:28,560 --> 00:28:32,560

I can use the word alien loosely here because that thing is alien to anything I've ever seen.

496

00:28:32,560 --> 00:28:35,560

At first glance, you're like, this looks like alien out of the movie.

497

00:28:35,560 --> 00:28:38,560

And then you start looking at those fangs and the prolonged head.

498

00:28:38,560 --> 00:28:43,560

I mean, it looks like an alien because it is alien to anything I've ever seen before.

499

00:28:45,560 --> 00:28:49,560

This is probably something that is not from dessert. We don't know.

500

00:28:50,560 --> 00:29:01,560

This should be in a museum for people to see because many people say there are no physical evidence of the presence of extraterrestrials.

501

00:29:01,560 --> 00:29:03,560

Well, this could be it.

502

00:29:03,560 --> 00:29:09,560

I have no idea what this thing is, but I want to know a hell of a lot more about it.

503

00:29:10,560 --> 00:29:14,560

So there is an extraterrestrial connection with Chitonito.

504

00:29:14,560 --> 00:29:19,560

Many people think that there is a relation between the UFO presence and pyramids.

505

00:29:19,560 --> 00:29:27,560

And that area through the years has become one of the most important regarding the sightings of UFOs.

506

00:29:27,560 --> 00:29:30,560

Not very far from where this creature was captured.

507

00:29:30,560 --> 00:29:35,560

But I think we should look that very closely because that's a very good possibility.

508

00:29:36,560 --> 00:29:41,560

Haman Wissan is drawing a parallel between the Mayan temples and UFO activity?

509

00:29:42,560 --> 00:29:44,560

We have to investigate that.

510

00:29:47,560 --> 00:29:55,560

If there's any truth to this theory, then we need to head to the pyramid of Chitsunitsa, one of the Yucatan's Mayan temples.

511

00:29:55,560 --> 00:29:59,560

There, we'll look for the potential presence of aliens.

512

00:29:59,560 --> 00:30:14,560

So our plan for tonight's investigation is to set up some surveillance cameras to try to capture the existence of this extraterrestrial life ourselves.

513

00:30:25,560 --> 00:30:27,560

Well, tonight we have our night vision cameras.

514

00:30:27,560 --> 00:30:28,560

There are more cameras.

515

00:30:28,560 --> 00:30:31,560

We've got the monster, 1200 lens.

516

00:30:31,560 --> 00:30:34,560

I think first order business is to try to get to the top of Castillo.

517

00:30:34,560 --> 00:30:35,560

Set up a camera?

518

00:30:35,560 --> 00:30:36,560

Set up a camera up there.

519

00:30:36,560 --> 00:30:39,560

Yeah, I'll set up a base station on one of the smaller pyramids.

520

00:30:39,560 --> 00:30:43,560

So I'll have field of view and I'll be able to zero in on whatever it is you guys see.

521

00:30:43,560 --> 00:30:45,560

Remember, this is jungle out here.

522

00:30:45,560 --> 00:30:48,560

There's probably like monkeys and pumas and jaguars.

523

00:30:48,560 --> 00:30:49,560

Keep your distance.

524

00:30:49,560 --> 00:30:51,560

You know, so just keep that in mind.

525

00:30:51,560 --> 00:30:52,560

Yeah, for sure.

526

00:30:52,560 --> 00:30:53,560

Definitely, we all should.

527

00:30:58,560 --> 00:31:01,560

Oh, there it is.

528

00:31:01,560 --> 00:31:02,560

All Castillo.

529

00:31:05,560 --> 00:31:07,560

This thing is massive.

530

00:31:07,560 --> 00:31:11,560

It's going to be a nice little workout here.

531

00:31:14,560 --> 00:31:16,560

The natural stair master.

532

00:31:16,560 --> 00:31:18,560

We're headed for James.

533

00:31:19,560 --> 00:31:20,560

Go for James.

534

00:31:21,560 --> 00:31:22,560

Hey, James.

535

00:31:22,560 --> 00:31:23,560

I'm not sure if you can see me on the phone.

536

00:31:23,560 --> 00:31:26,560

We'll camera on the very base of the tower and I'm starting my walk.

537

00:31:26,560 --> 00:31:27,560

Copy that, Ryder.

538

00:31:27,560 --> 00:31:28,560

Take it easy.

539

00:31:28,560 --> 00:31:30,560

Remember, you've got a lot of stairs to climb.

540

00:31:30,560 --> 00:31:31,560

All right, copy that.

541

00:31:31,560 --> 00:31:32,560

I'll let you know I'm at the top.

542

00:31:33,560 --> 00:31:34,560

Here goes nothing.

543

00:31:56,560 --> 00:32:03,560

Well, here it is.

544

00:32:03,560 --> 00:32:07,560

Here's the top.

545

00:32:07,560 --> 00:32:09,560

James, go ahead.

546

00:32:10,560 --> 00:32:12,560

You're on top of the Mayan world right now.

547

00:32:12,560 --> 00:32:13,560

How does it feel?

548

00:32:13,560 --> 00:32:15,560

It is so creepy.

549

00:32:15,560 --> 00:32:17,560

This tower appears to be the only place where it appears.

550

00:32:17,560 --> 00:32:20,560

I'll put it on the top of the tower.

551

00:32:22,560 --> 00:32:25,560

That's the top.

552

00:32:25,560 --> 00:32:27,560

Here it is.

553

00:32:27,560 --> 00:32:29,560

Here's the top.

554

00:32:31,560 --> 00:32:33,560

James, go ahead.

555

00:32:33,560 --> 00:32:38,560

I feel it is so creepy this tower appears massive.

556

00:32:42,360 --> 00:32:43,200

Copy that.

557

00:32:44,960 --> 00:32:45,800

Be careful.

558

00:32:47,840 --> 00:32:48,680

Oh, f***.

559

00:33:03,560 --> 00:33:12,560

A lot of people say this place is filled with strange energy and boy can I feel it.

560

00:33:17,560 --> 00:33:18,560

Come on.

561

00:33:33,560 --> 00:33:36,560

There it is.

562

00:33:41,560 --> 00:33:42,440

Get him.

563

00:33:59,560 --> 00:34:00,720

I didn't tell you, my sister.

564

00:34:00,720 --> 00:34:01,560

I'm sorry.

565

00:34:05,560 --> 00:34:06,520

Rider for James.

566

00:34:08,280 --> 00:34:09,360

Go for James.

567

00:34:09,360 --> 00:34:12,280

I swear if I just heard the strangest noise

568

00:34:12,280 --> 00:34:14,640

being emitted from the main doorway,

569

00:34:14,640 --> 00:34:16,520

I mean, terrifying.

570

00:34:16,520 --> 00:34:19,280

I'd be too freaked out to go in there personally alone.

571

00:34:21,160 --> 00:34:24,440

Like I'm not sure if it's wind moving through here or not,

572

00:34:24,440 --> 00:34:26,600

but it is freaky up here.

573

00:34:26,600 --> 00:34:27,560

Talk to that rider.

574

00:34:27,560 --> 00:34:28,760

So be careful up there.

575

00:34:31,720 --> 00:34:32,560

Wow.

576

00:34:34,360 --> 00:34:35,200

James for Ben.

577

00:34:36,480 --> 00:34:37,200

Yeah, copy that, James.

578

00:34:37,200 --> 00:34:38,040

Go ahead.

579

00:34:38,040 --> 00:34:42,480

I'll let you know, uh, rider made to the top of El Castillo.

580

00:34:42,480 --> 00:34:45,600

He's setting up a surveillance camera as we speak.

581

00:34:45,600 --> 00:34:46,280

Copy that, James.

582

00:34:46,280 --> 00:34:47,120

Good news.

583

00:34:54,440 --> 00:34:56,520

This is pretty imposing in the dark.

584

00:34:58,320 --> 00:34:59,080

Wow.

585

00:34:59,080 --> 00:34:59,920

Here we go.

586

00:35:00,720 --> 00:35:03,720

I like the light that he used to.

587

00:35:03,720 --> 00:35:07,720

Yeah, 2000 year old still in staircases.

588

00:35:10,720 --> 00:35:11,560

Wow.

589

00:35:16,240 --> 00:35:21,240

Well, I think, I think this looks like a good spot

590

00:35:21,240 --> 00:35:22,240

for a stakeout.

591

00:35:24,240 --> 00:35:25,760

I think that's Rider.

592

00:35:26,760 --> 00:35:27,760

Nice and easy.

593

00:35:30,760 --> 00:35:32,760

This is like never ending.

594

00:35:35,760 --> 00:35:38,760

No wonder the Mayans were always in such a good shape.

595

00:35:39,760 --> 00:35:40,760

353.

596

00:35:43,760 --> 00:35:45,760

Oh, that's a lot of wind.

597

00:35:45,760 --> 00:35:46,760

It's a lot of wind.

598

00:35:46,760 --> 00:35:48,760

I'm going to get this one.

599

00:35:49,760 --> 00:35:50,760

I'm going to get this one.

600

00:35:50,760 --> 00:35:51,760

I'm going to get this one.

601

00:35:52,760 --> 00:35:53,760

I'm going to get this one.

602

00:35:54,760 --> 00:35:55,760

I was in.

603

00:35:55,760 --> 00:35:57,760

It's pretty incredible up there.

604

00:35:57,760 --> 00:35:59,760

I was able to set the camera up over there

605

00:35:59,760 --> 00:36:01,760

to try to see if we could capture anything.

606

00:36:02,760 --> 00:36:07,760

Let's, uh, start making our way in towards the thick of the jungle.

607

00:36:07,760 --> 00:36:12,760

And, uh, if there is some sort of alien creature out there,

608

00:36:12,760 --> 00:36:14,760

maybe it's deeper in the jungle.

609

00:36:24,760 --> 00:36:25,760

Wow.

610

00:36:38,760 --> 00:36:39,760

Hear that?

611

00:36:39,760 --> 00:36:40,760

No, what do you hear?

612

00:36:40,760 --> 00:36:42,760

Just crawl into the light out there.

613

00:36:46,760 --> 00:36:48,760

Well, luckily I've got the thermal camera, so

614

00:36:49,760 --> 00:36:52,760

we'll hopefully get eyes on something before it gets eyes on us.

615

00:36:54,760 --> 00:36:57,760

Uh, look at these rocks.

616

00:36:57,760 --> 00:37:00,760

These are the rocks they used to build the pyramids with.

617

00:37:00,760 --> 00:37:02,760

Can you imagine handling these?

618

00:37:02,760 --> 00:37:03,760

Look how big they are.

619

00:37:05,760 --> 00:37:09,760

Do you think aliens had anything to do with the building of this place?

620

00:37:10,760 --> 00:37:14,760

Well, I mean, the Mayans talked about it, right?

621

00:37:14,760 --> 00:37:16,760

They would know better than me.

622

00:37:16,760 --> 00:37:17,760

It's true.

623

00:37:24,760 --> 00:37:28,760

The heck do they know so much about the planetary system, you know?

624

00:37:28,760 --> 00:37:31,760

They knew so much about any sophisticated gear.

625

00:37:38,760 --> 00:37:39,760

Whoa.

626

00:37:41,760 --> 00:37:43,760

There's something looking at us.

627

00:37:43,760 --> 00:37:44,760

Ryder.

628

00:37:45,760 --> 00:37:46,760

Ryder.

629

00:37:46,760 --> 00:37:47,760

What?

630

00:37:47,760 --> 00:37:48,760

Come here, right now.

631

00:37:48,760 --> 00:37:49,760

Look, come over here.

632

00:37:49,760 --> 00:37:50,760

I'm here.

633

00:37:50,760 --> 00:37:51,760

Look.

634

00:37:51,760 --> 00:37:53,760

Try to walk through there and see the eyeballs look at them.

635

00:37:53,760 --> 00:37:54,760

See that?

636

00:37:54,760 --> 00:37:55,760

It's big.

637

00:37:56,760 --> 00:37:57,760

See it?

638

00:37:57,760 --> 00:37:58,760

See it?

639

00:37:58,760 --> 00:38:00,760

I want to see it on the thermal camera.

640

00:38:00,760 --> 00:38:02,760

You got it.

641

00:38:02,760 --> 00:38:03,760

Holy s***.

642

00:38:03,760 --> 00:38:04,760

Over.

643

00:38:16,760 --> 00:38:17,760

Ryder.

644

00:38:17,760 --> 00:38:19,760

Look, come over here.

645

00:38:19,760 --> 00:38:20,660

I'm here.

646

00:38:20,660 --> 00:38:23,600

Look through there and see the eyeballs looking at us.

647

00:38:23,600 --> 00:38:24,500

You see that?

648

00:38:24,500 --> 00:38:25,540

It's big.

649

00:38:25,540 --> 00:38:27,300

There's something in the jungle.

650

00:38:27,300 --> 00:38:28,100

See it.

651

00:38:28,100 --> 00:38:28,900

See it.

652

00:38:28,900 --> 00:38:31,300

I want to see it on this camera.

653

00:38:31,300 --> 00:38:32,100

Oh.

654

00:38:32,100 --> 00:38:32,740

You got it.

655

00:38:32,740 --> 00:38:33,980

Holy s***.

656

00:38:33,980 --> 00:38:34,480

Oh, god.

657

00:38:37,980 --> 00:38:38,980

You see that?

658

00:38:38,980 --> 00:38:41,620

Whoa.

659

00:38:41,620 --> 00:38:44,780

Whatever it is, it's definitely moving.

660

00:38:44,780 --> 00:38:45,580

Time to go.

661

00:38:45,580 --> 00:38:47,220

Ryder.

662

00:38:47,220 --> 00:38:49,580

Guys, everyone be really still.

663

00:38:50,540 --> 00:38:51,740

Let's back off, man.

664

00:38:51,740 --> 00:38:53,740

I'm serious.

665

00:38:53,740 --> 00:38:54,740

There it is.

666

00:38:54,740 --> 00:38:55,740

There it is.

667

00:38:55,740 --> 00:38:56,740

Look at us.

668

00:38:56,740 --> 00:38:57,740

Look at us.

669

00:38:57,740 --> 00:38:58,740

Dude, that's a cat.

670

00:38:58,740 --> 00:38:59,740

Come in this way.

671

00:38:59,740 --> 00:39:01,220

It's definitely coming this way.

672

00:39:01,220 --> 00:39:02,220

Grab this s*** and machete.

673

00:39:02,220 --> 00:39:03,220

I'll do the machete.

674

00:39:03,220 --> 00:39:07,220

Put the s*** away out.

675

00:39:07,220 --> 00:39:08,220

What?

676

00:39:08,220 --> 00:39:09,220

I don't know.

677

00:39:09,220 --> 00:39:10,220

Go.

678

00:39:10,220 --> 00:39:11,220

Get me right now.

679

00:39:11,220 --> 00:39:12,220

Go.

680

00:39:12,220 --> 00:39:13,220

Go.

681

00:39:13,220 --> 00:39:14,220

S***.

682

00:39:14,220 --> 00:39:15,220

S***.

683

00:39:20,220 --> 00:39:21,220

Oh, my god.

684

00:39:24,220 --> 00:39:25,220

Talk to Ben.

685

00:39:25,220 --> 00:39:26,220

Tell Ben.

686

00:39:26,220 --> 00:39:28,220

Luckily, he's up somewhere safe right now.

687

00:39:28,220 --> 00:39:30,220

James and Ryder have been.

688

00:39:30,220 --> 00:39:31,220

James has been.

689

00:39:31,220 --> 00:39:32,220

Go ahead.

690

00:39:32,220 --> 00:39:36,220

And we just got stalked by a bull.

691

00:39:36,220 --> 00:39:38,220

It was a big, big cat.

692

00:39:38,220 --> 00:39:40,720

Guys, seriously, it's terrifying.

693

00:39:40,720 --> 00:39:43,220

How far into the woods were you?

694

00:39:43,220 --> 00:39:44,220

Too far.

695

00:39:44,220 --> 00:39:47,420

Ryder and I are going to head back out to the square, see if we can monitor what's

696

00:39:47,420 --> 00:39:49,420

going on up in the skies.

697

00:39:50,260 --> 00:39:51,260

Yeah, copy that.

698

00:39:51,260 --> 00:39:54,260

I could use your eyes on the north side of the pyramid over it.

699

00:39:54,260 --> 00:39:56,260

Let's give the woods a break for a little bit.

700

00:39:56,260 --> 00:39:58,260

Yes, I think it's a great idea.

701

00:40:00,260 --> 00:40:07,860

We continue to investigate for several more hours, but our investigation is far from over.

702

00:40:07,860 --> 00:40:11,660

Once we returned home, fighting jet lag, we got right to work, looking through all the

703

00:40:11,660 --> 00:40:14,260

footage and samples we collected from Mexico.

704

00:40:14,260 --> 00:40:21,260

Okay, guys, so I've pulled up the two different angles from the Mexico mothership videos, and

705

00:40:21,260 --> 00:40:23,260

let's just do a side-by-side comparison here.

706

00:40:23,260 --> 00:40:26,260

See that flicker top and bottom?

707

00:40:26,260 --> 00:40:32,260

It looks like there's rotors that is a very helicopter-type shape.

708

00:40:32,260 --> 00:40:33,260

I'll tell you what I saw.

709

00:40:33,260 --> 00:40:36,260

You know how they make those arches of balloons?

710

00:40:36,260 --> 00:40:37,260

Mm-hmm.

711

00:40:37,260 --> 00:40:41,260

I think that this is like that, and they're becoming untangled.

712

00:40:42,260 --> 00:40:43,260

You know what?

713

00:40:43,260 --> 00:40:46,260

That would make sense because they look tethered.

714

00:40:47,260 --> 00:40:53,260

After analyzing this mothership video, I'm pretty convinced that this is some sort of bundle of

715

00:40:53,260 --> 00:40:59,260

strung-out balloons, and what you're actually seeing is that bundle unravel, and the strings

716

00:40:59,260 --> 00:41:02,260

pulling apart with those balloons with them.

717

00:41:04,260 --> 00:41:10,260

Well, this is the results from the analysis done on the ash sample that you took from the volcano.

718

00:41:11,260 --> 00:41:16,260

Right, and this was related to the hypothesis that we've heard that there are extraterrestrial

719

00:41:16,260 --> 00:41:17,260

visitors to the volcano.

720

00:41:17,260 --> 00:41:21,260

Is there something special about the mineral composition of the volcano?

721

00:41:21,260 --> 00:41:25,260

Well, I mean, they'd be either interested in the minerals or, possibly, they could be interested in the

722

00:41:25,260 --> 00:41:26,260

activity of the volcano.

723

00:41:26,260 --> 00:41:27,260

Who knows?

724

00:41:27,260 --> 00:41:28,260

That's true, too.

725

00:41:28,260 --> 00:41:33,260

I guess what would be unique is if you had an unusual concentration of rare element.

726

00:41:33,260 --> 00:41:39,260

And, I mean, I've got to be honest, it looks like what you'd tend to expect from a volcanic ash club.

727

00:41:41,260 --> 00:41:48,260

By far, our most adventurous experiment in Mexico was the FLIR test that we did based upon this military

728

00:41:48,260 --> 00:41:55,260

video that they say are 11 UFOs captured on thermal imaging by the military in Mexico.

729

00:42:00,260 --> 00:42:05,260

And now let's look at the video that we were able to actually capture from the plane when we were doing

730

00:42:05,260 --> 00:42:06,260

the exact test.

731

00:42:07,260 --> 00:42:08,260

I don't see it.

732

00:42:08,260 --> 00:42:09,260

I can't get out of the thermal.

733

00:42:09,260 --> 00:42:14,260

When we did finally get close enough to see the platforms with our own eyes, that's what

734

00:42:14,260 --> 00:42:17,260

they showed up like on our thermal cameras.

735

00:42:18,260 --> 00:42:20,260

So what do you think we're looking at here?

736

00:42:20,260 --> 00:42:22,260

Do you think that these could be stationary objects?

737

00:42:22,260 --> 00:42:26,260

Yeah, this is actually from the satellite image right now.

738

00:42:26,260 --> 00:42:30,260

It eliminated the original photos so we can do a geometric analysis.

739

00:42:30,260 --> 00:42:32,260

This is all, like, those are very identifiable little objects.

740

00:42:32,260 --> 00:42:38,260

So for my analysis, all I did was I plotted the locations of the oil wells and I sort of tilted them on

741

00:42:38,260 --> 00:42:44,260

angles so you view them on the horizon and I looked at what pattern those dots would make when looked

742

00:42:44,260 --> 00:42:45,260

at from a distance.

743

00:42:45,260 --> 00:42:51,260

And as it turns out, they match what the Mexican military shot amazingly well.

744

00:42:51,260 --> 00:42:54,260

You end up with that collection of lights.

745

00:42:54,260 --> 00:42:55,260

Ben's theory is impressive.

746

00:42:55,260 --> 00:42:59,260

For me, these remain unidentified flying objects.

747

00:43:00,260 --> 00:43:03,260

Let's talk about what Jaime showed us.

748

00:43:04,260 --> 00:43:05,260

Pretty shocking.

749

00:43:05,260 --> 00:43:08,260

It was really shocking when he first revealed it.

750

00:43:08,260 --> 00:43:10,260

I don't know what the hell it is.

751

00:43:10,260 --> 00:43:15,260

He's telling us that this is finally a piece of evidence that extraterrestrials have landed.

752

00:43:15,260 --> 00:43:19,260

And that's why he's done so much DNA analysis of this.

753

00:43:19,260 --> 00:43:24,260

Paleontology uses the geometry of bones to help you determine what something is.

754

00:43:24,260 --> 00:43:30,260

Maybe we can just look at these things bones and help determine if there's a terrestrial explanation.

755

00:43:30,260 --> 00:43:34,260

After doing the little digging, I found that there are a number of unique features to marmosets,

756

00:43:34,260 --> 00:43:41,260

which are mammals native to South America and sold in the region as pets that really match this creature that we were shown.

757

00:43:41,260 --> 00:43:48,260

So I just pulled up the skeleton and skull of a marmoset and did a side-by-side comparison of the key features.

758

00:43:48,260 --> 00:43:51,260

Where is the ear cavity located? Is it missing molar teeth?

759

00:43:51,260 --> 00:43:54,260

The distance and angle between the eye socket and the nose.

760

00:43:54,260 --> 00:43:57,260

It has clawed fingers and it has a segmented tail.

761

00:43:57,260 --> 00:44:02,260

I now think this is definitely a marmoset.

762

00:44:02,260 --> 00:44:06,260

Ben crushed it with his analysis of that alien baby.

763

00:44:06,260 --> 00:44:10,260

I mean, as far as I'm concerned, I'm looking at a marmoset.

764

00:44:11,260 --> 00:44:14,260

This creature closely resembles a marmoset.

765

00:44:14,260 --> 00:44:15,260

You can't deny it.

766

00:44:15,260 --> 00:44:20,260

You got a marmoset, you got the creature, the teeth, the shape of the skull, the tail.

767

00:44:21,260 --> 00:44:28,260

I think Mexico presents a culture that's very open to the idea that we are being visited by beings from another world

768

00:44:28,260 --> 00:44:30,260

and that manifests when everyone looks up at the sky.

769

00:44:33,260 --> 00:44:37,260

So ultimately, I'm not convinced that Mexico is being visited by aliens.

770

00:44:37,260 --> 00:44:40,260

There it is. El Castillo.

771

00:44:40,260 --> 00:44:43,260

Mexico as a whole was fantastic.

772

00:44:43,260 --> 00:44:46,260

I definitely think that there's some strange sightings going on there.

773

00:44:46,260 --> 00:44:54,260

Unfortunately, we couldn't find anything conclusive to say that what we investigated is out of this world.
