**Quotes**

**Jesse Ventura:** [In the intro to the show] Hidden power, secrets, cover-ups, corruption. You think you know the whole story? Think again. I've been governor, a Navy SEAL, a fighter. I've heard things that will blow your mind. And now I think it's time that you get the whole story.

FEATURED REVIEW

★ 7/10

**you wish it was not just show biz**

Too many facts are in place with years of investigations that should not be ignored. If you think you are still living in America, perhaps staying asleep would be a proper activity. I admire Mr. Ventura for his courage in attempting to open the closed doors of this dark period of American History. I believe that there is more information available with more research that would make the cases more intelligent and credible, but naming sources unfortunately makes a network liable. The very simple fact is that information would be open to media scrutiny if there were not criminal and dangerous activities being addressed. It is difficult to swallow sensationalism, but I for one no longer find it easy to sleep at night or accept that half of my life savings disappeared into the coffers of unspecified institutions when in a Casino I could at least have enjoyed a drink on the house.
