

1

00:00:00,000 --> 00:00:07,000

Hidden power, secrets, cover-ups, corruption.

2

00:00:07,000 --> 00:00:13,000

You think you know the whole story?

3

00:00:13,000 --> 00:00:14,000

Think again.

4

00:00:14,000 --> 00:00:22,400

I've been governor, a Navy SEAL, a fighter.

5

00:00:22,400 --> 00:00:28,000

I've heard things that'll blow your mind, and now I think it's time you get the whole

6

00:00:28,000 --> 00:00:29,000

story.

7

00:00:29,000 --> 00:00:37,000

Now, global warming, the most serious threat to our planet or a plot to cheat, extort,

8

00:00:37,000 --> 00:00:39,000

and control you and everyone else.

9

00:00:39,000 --> 00:00:45,000

The greatest control over mankind that we've ever seen.

10

00:00:45,000 --> 00:00:50,500

Jesse Ventura and his conspiracy investigators follow the money trail around the world and

11

00:00:50,500 --> 00:00:57,000

back out to expose the greedy power brokers who pull the strings and rake in billions.

12

00:00:57,000 --> 00:01:01,500

The people who have been plotting this for the last 20 years will finally get what they

13

00:01:01,500 --> 00:01:02,500

want.

14

00:01:02,500 --> 00:01:04,000

They're smarter than we are.

15

00:01:04,000 --> 00:01:08,000

The only green here is cold hard cash.

16

00:01:08,000 --> 00:01:11,500

Our world is confronting a five-alarm fire.

17

00:01:11,500 --> 00:01:15,000

We are now a species out of control.

18

00:01:15,000 --> 00:01:18,000

Why are they trying to destroy you?

19

00:01:18,000 --> 00:01:25,000

The most frightening, inconvenient conspiracy yet, the global warming scam.

20

00:01:25,000 --> 00:01:34,000

I'm Jesse Ventura, a Mrs. Conspiracy Theory.

21

00:01:34,000 --> 00:01:39,700

Jesse Ventura drives to a clandestine meeting in the warehouse district.

22

00:01:39,700 --> 00:01:43,900

He's been told to arrive alone.

23

00:01:43,900 --> 00:01:49,000

He's been promised crucial information about the ringleader of a worldwide environmental

24

00:01:49,000 --> 00:01:50,000

conspiracy.

25

00:01:51,000 --> 00:01:57,000

He's after a man pretending to be a global warming savior while lining his pockets with

26

00:01:57,000 --> 00:01:58,000

cash.

27

00:01:58,000 --> 00:02:07,000

The one thing I learned in government, if you want to find the answer to a question,

28

00:02:07,000 --> 00:02:11,500

follow the money.

29

00:02:11,500 --> 00:02:16,000

Jesse and his team will chase this man all the way to China.

30

00:02:16,000 --> 00:02:27,500

The hunt begins here in San Francisco, the city where the environmental movement was

31

00:02:27,500 --> 00:02:28,500

born.

32

00:02:28,500 --> 00:02:32,000

I never thought I'd be investigating global warming.

33

00:02:32,000 --> 00:02:36,000

I've believed it's real and that saving the planet is good.

34

00:02:36,000 --> 00:02:39,000

But now I'm on my way to see a guy named Noel Shepard.

35

00:02:39,000 --> 00:02:45,000

He says he has proof some people are using global warming as an excuse to make money

36

00:02:45,000 --> 00:02:47,000

and control the world.

37

00:02:47,000 --> 00:02:56,000

That's a conspiracy I want to expose.

38

00:02:56,000 --> 00:03:00,000

So what you're telling me is that there's more to this global warming than what our

39

00:03:00,000 --> 00:03:04,000

media and what our government and everything is telling us.

40

00:03:04,000 --> 00:03:07,000

And is it about money making?

41

00:03:07,000 --> 00:03:08,000

Very, very much so.

42

00:03:08,000 --> 00:03:11,000

Isn't stopping pollution a good idea?

43

00:03:11,000 --> 00:03:14,000

Stopping pollution is a great idea, Governor.

44

00:03:14,000 --> 00:03:16,000

That has nothing to do with pollution.

45

00:03:16,000 --> 00:03:17,000

That's the myth.

46

00:03:17,000 --> 00:03:23,000

This is much more about power and money and control of the population.

47

00:03:23,000 --> 00:03:29,000

Power, money, control.

48

00:03:29,000 --> 00:03:34,000

The global warming movement says our planet is headed to disaster because factories and

49

00:03:34,000 --> 00:03:37,000

cars are heating up the atmosphere with carbon dioxide.

50

00:03:37,000 --> 00:03:40,000

Noel Shepard says it's all a scam.

51

00:03:40,000 --> 00:03:45,000

An industry that feeds off our fears, forcing us to buy billions of dollars worth of green

52

00:03:45,000 --> 00:03:50,000

products, making us lose sleep, worrying about our carbon footprints.

53

00:03:50,000 --> 00:03:57,000

Everything is so connected to carbon dioxide and the emission of carbon dioxide that everything

54

00:03:57,000 --> 00:04:00,000

you do is going to go up in price.

55

00:04:00,000 --> 00:04:04,000

This is going to control virtually every industry that you could name.

56

00:04:04,000 --> 00:04:05,000

We're talking about energy.

57

00:04:05,000 --> 00:04:07,000

We're talking about transportation.

58

00:04:07,000 --> 00:04:11,000

We're talking about our very way of life is going to be radically changed.

59

00:04:11,000 --> 00:04:12,000

That's bad.

60

00:04:12,000 --> 00:04:13,000

Why?

61

00:04:13,000 --> 00:04:17,000

This is considered to be the biggest tax increase on man that we've ever seen.

62

00:04:17,000 --> 00:04:21,000

And once it's put into the system, we'll never be able to get it back.

63

00:04:21,000 --> 00:04:26,000

Shepard says it's all a polluters' Ponzi scheme.

64

00:04:26,000 --> 00:04:30,000

Politicians say they want to set limits on carbon dioxide emissions.

65

00:04:30,000 --> 00:04:35,000

At the same time, they allow corporations that want to pollute more to buy and trade

66

00:04:35,000 --> 00:04:39,000

carbon credits from companies that pollute less.

67

00:04:39,000 --> 00:04:42,000

Permission to pollute if they pay.

68

00:04:42,000 --> 00:04:46,000

This is one of the biggest Ponzi schemes we've ever seen.

69

00:04:46,000 --> 00:04:51,000

Basically what that's going to allow is a company like an oil company.

70

00:04:51,000 --> 00:04:55,000

They can go out, they can spare as much carbon dioxide as they want.

71

00:04:55,000 --> 00:04:57,000

And pollute as much as they want.

72

00:04:57,000 --> 00:05:01,000

Pollute as much as they want, but then go out and buy these credits and just say,

73

00:05:01,000 --> 00:05:02,000

up, we're carbon neutral.

74

00:05:02,000 --> 00:05:08,000

The net result is going to be the greatest control over mankind that we've ever seen.

75

00:05:08,000 --> 00:05:10,000

This whole thing is absurd.

76

00:05:10,000 --> 00:05:11,000

One more thing.

77

00:05:11,000 --> 00:05:17,000

Despite the media blitz, Shepard says hundreds, even thousands of scientists,

78

00:05:17,000 --> 00:05:20,000

believe that global warming is not even a problem at all.

79

00:05:20,000 --> 00:05:23,000

I don't believe that you've gotten all the truth.

80

00:05:23,000 --> 00:05:25,000

I don't believe America has gotten all the truth.

81

00:05:25,000 --> 00:05:28,000

So I've got a list of scientists that I want you to talk to.

82

00:05:28,000 --> 00:05:30,000

You will learn a lot from these folks.

83

00:05:30,000 --> 00:05:33,000

I promise you you'll think much differently about this after you speak to them.

84

00:05:33,000 --> 00:05:34,000

Okay, I'll do that.

85

00:05:34,000 --> 00:05:35,000

Great.

86

00:05:35,000 --> 00:05:36,000

Thanks, Noel. Appreciate it.

87

00:05:36,000 --> 00:05:37,000

Thank you, sir.

88

00:05:37,000 --> 00:05:38,000

Thank you, Governor.

89

00:05:40,000 --> 00:05:46,000

Jesse Ventura takes Shepard's information back to his team of researchers and investigators.

90

00:05:51,000 --> 00:05:57,000

People are going to become very, very wealthy, pushing this concept of global warming down the

91

00:05:57,000 --> 00:06:02,000

throats of the whole country and for that matter, the world, and that it truly is going to be

92

00:06:02,000 --> 00:06:07,000

used to make money, not necessarily clean up the environment.

93

00:06:07,000 --> 00:06:10,000

And I mean, it took me back because I was a believer.

94

00:06:10,000 --> 00:06:12,000

I am a believer in global warming.

95

00:06:12,000 --> 00:06:18,000

But he gave me this sheet of paper with these three names on it, and he says,

96

00:06:18,000 --> 00:06:22,000

if you don't believe me, he said talk to these three.

97

00:06:22,000 --> 00:06:25,000

So I think this is something we ought to check out.

98

00:06:25,000 --> 00:06:28,000

But there definitely is climate change going on.

99

00:06:28,000 --> 00:06:29,000

No, that's not true.

100

00:06:29,000 --> 00:06:31,000

I've read a lot of stuff about this.

101

00:06:31,000 --> 00:06:33,000

June, I've read a lot of this stuff.

102

00:06:33,000 --> 00:06:34,000

No, no, no.

103

00:06:34,000 --> 00:06:36,000

The climate change is so complicated.

104

00:06:36,000 --> 00:06:38,000

There's so many factors into it.

105

00:06:38,000 --> 00:06:42,000

And as a matter of fact, people think the earth is cooling in the last, I think like eight, ten years.

106

00:06:42,000 --> 00:06:44,000

The climate, the weather is changing.

107

00:06:44,000 --> 00:06:45,000

Wait, I got the answer.

108

00:06:45,000 --> 00:06:50,000

And in the way that's causing trouble, you want to look at the plan of ads.

109

00:06:50,000 --> 00:06:52,000

Okay, there's the list.

110

00:06:52,000 --> 00:06:54,000

Here it is with these three people.

111

00:06:54,000 --> 00:06:57,000

Go out and prove it wrong.

112

00:06:57,000 --> 00:06:59,000

Prove it wrong.

113

00:06:59,000 --> 00:07:00,000

Let's do that.

114

00:07:00,000 --> 00:07:02,000

Go talk to these people and prove them wrong.

115

00:07:02,000 --> 00:07:03,000

We will.

116

00:07:03,000 --> 00:07:04,000

Okay.

117

00:07:05,000 --> 00:07:09,000

Jesse Ventura's investigators set off to do just that.

118

00:07:09,000 --> 00:07:12,000

Find out if this conspiracy is real.

119

00:07:12,000 --> 00:07:20,000

Alex Piper flies to the Massachusetts Institute of Technology, MIT, home to the world's most influential scientists.

120

00:07:21,000 --> 00:07:26,000

June Sarpong travels to meet a climate scientist in the wilderness.

121

00:07:26,000 --> 00:07:32,000

That's where he's hiding, afraid for his life because he defied the global warming forces.

122

00:07:36,000 --> 00:07:44,000

Coming up, this man, threatened with death if he goes public and challenges the global warming crowd.

123

00:07:44,000 --> 00:07:47,000

The stress of death threats is very traumatic.

124

00:07:47,000 --> 00:07:49,000

Why are they trying to destroy me?

125

00:07:49,000 --> 00:07:56,000

Then, Jesse Ventura crashes an interview and demands real answers from a global warming profiteer.

126

00:07:56,000 --> 00:08:00,000

They're telling me that Al Gore could see profits in the billions of dollars.

127

00:08:00,000 --> 00:08:02,000

That's how wealthy he'll become.

128

00:08:02,000 --> 00:08:03,000

Is that true?

129

00:08:05,000 --> 00:08:11,000

And later, from here to China, Jesse hunts the man behind the global warming scam.

130

00:08:12,000 --> 00:08:13,000

He's very hard to get to.

131

00:08:13,000 --> 00:08:15,000

The jet sets all over the planet.

132

00:08:15,000 --> 00:08:16,000

He's a man without a country.

133

00:08:19,000 --> 00:08:24,000

The global warming is a plot by a powerful cabal.

134

00:08:24,000 --> 00:08:30,000

Out to extort, tax and control, you and every one of us.

135

00:08:33,000 --> 00:08:36,000

Now his team is out to find the perpetrators.

136

00:08:36,000 --> 00:08:40,000

The governor's source has let June Sarpong to assist.

137

00:08:40,000 --> 00:08:45,000

It's here that a global warming critic says he's hiding for his life.

138

00:08:45,000 --> 00:08:48,000

I admit, I'm worried.

139

00:08:48,000 --> 00:08:52,000

Once I get to the other side, I'm going to be out of cell phone range.

140

00:08:52,000 --> 00:08:57,000

I don't know if anyone's following me or what to expect.

141

00:08:57,000 --> 00:09:01,000

She finds out that the government is going to stop the war.

142

00:09:01,000 --> 00:09:03,000

She's going to stop the war.

143

00:09:03,000 --> 00:09:05,000

She's going to stop the war.

144

00:09:05,000 --> 00:09:09,000

I don't know if anyone's following me or what to expect.

145

00:09:09,000 --> 00:09:13,000

She finds a man who does not want to be seen or named.

146

00:09:13,000 --> 00:09:18,000

A climate scientist who's been at the top of his field since the 1970s,

147

00:09:18,000 --> 00:09:21,000

when the concern was global cooling.

148

00:09:22,000 --> 00:09:26,000

Can you tell us why you're in silhouette today for this interview?

149

00:09:26,000 --> 00:09:30,000

Well, because the attacks on me personally,

150

00:09:30,000 --> 00:09:34,000

I've been very concerned about the impact on my family particularly.

151

00:09:34,000 --> 00:09:38,000

The stress of death threats is very traumatic.

152

00:09:40,000 --> 00:09:46,000

The doctor says the hammer came down after he took a stand against the popular view of global warming.

153

00:09:47,000 --> 00:09:49,000

So what are your views on global warming?

154

00:09:49,000 --> 00:09:55,000

Well, my views are that global warming has occurred, climate change occurs all the time.

155

00:09:55,000 --> 00:09:59,000

Human production of CO₂ is not the cause of the warming.

156

00:09:59,000 --> 00:10:01,000

So what do you think is causing global warming?

157

00:10:01,000 --> 00:10:04,000

The sun. There's absolutely no question.

158

00:10:04,000 --> 00:10:09,000

The sun is virtually ignored by the authorities,

159

00:10:09,000 --> 00:10:11,000

and particularly the Intergovernmental Panel on Climate Change,

160

00:10:11,000 --> 00:10:17,000

the United Nations organization that are pushing human causes of climate change and CO2.

161

00:10:17,000 --> 00:10:21,000

So if global warming isn't man-made, why are they telling us it is?

162

00:10:21,000 --> 00:10:24,000

Because they're using a vehicle for political control,

163

00:10:24,000 --> 00:10:26,000

control every aspect of people's lives.

164

00:10:26,000 --> 00:10:30,000

The number of children you could have, the number of people on the planet where they can live,

165

00:10:30,000 --> 00:10:33,000

what they can drive, everything.

166

00:10:33,000 --> 00:10:36,000

If you can control carbon, you can control the planet.

167

00:10:36,000 --> 00:10:41,000

The doctor says he was bullied, shunned and worse.

168

00:10:42,000 --> 00:10:48,000

And then how do we get to this stage now where you are frightened for your safety

169

00:10:48,000 --> 00:10:51,000

so we have to hide you effectively?

170

00:10:51,000 --> 00:10:57,000

Well, because the climate issue got picked up as a vehicle for the new religion of environmentalism

171

00:10:57,000 --> 00:11:00,000

and controlling people's behavior.

172

00:11:00,000 --> 00:11:06,000

And so, of course, if you're opposing their religion, then it becomes even nastier.

173

00:11:06,000 --> 00:11:11,000

You've received death threats, your career has been stalled. Who are these people?

174

00:11:11,000 --> 00:11:15,000

Well, it's a question that I ask myself and my family in our discussions ask.

175

00:11:15,000 --> 00:11:18,000

What's their point? Why are they trying to destroy me?

176

00:11:18,000 --> 00:11:22,000

All I'm trying to do is get the truth out there and get some evidence out there.

177

00:11:22,000 --> 00:11:26,000

And I have to come to the conclusion that I'm threatening their power,

178

00:11:26,000 --> 00:11:29,000

I'm threatening their funding and their money.

179

00:11:29,000 --> 00:11:33,000

There's the list. Here it is with these three people.

180

00:11:33,000 --> 00:11:36,000

Go out and prove it wrong.

181

00:11:37,000 --> 00:11:45,000

Meanwhile, Jesse Ventura's orders have sent Alex Piper to MIT to meet a world-renowned physicist.

182

00:11:45,000 --> 00:11:50,000

Jesse wants to know if the doctor in hiding has real reason to be afraid.

183

00:11:50,000 --> 00:11:59,000

I personally think that global warming will turn out to be a disgrace to the scientific community and the environmental movement.

184

00:11:59,000 --> 00:12:06,000

Dr. Richard Lindsens says it's true. A scientist who speaks out against global warming can expect trouble.

185

00:12:06,000 --> 00:12:15,000

You have the environmental movement with this flagship. You have carbon trading, which is a trillion, multi-trillion dollar business.

186

00:12:15,000 --> 00:12:24,000

You have the science funding. By now it's estimated the U.S. alone has spent something on the order of 70 billion dollars on research.

187

00:12:24,000 --> 00:12:31,000

The last thing in the world anyone would want to do is solve the problem. Why choke this gravy train?

188

00:12:31,000 --> 00:12:42,000

In spite of the clear evidence available all around us, there are many who still do not believe that global warming is a problem at all.

189

00:12:42,000 --> 00:12:50,000

Dr. Lindsens says there's a reason the global warming crowd has become more defensive. Their facts aren't adding up.

190

00:12:50,000 --> 00:13:00,000

For good or bad, the temperature has stopped increasing, so the projections of disaster have basically been folding.

191

00:13:00,000 --> 00:13:08,000

The agendas essentially are raising money, raising taxes, gaining control of people's lives.

192

00:13:08,000 --> 00:13:18,000

And the fact that the consumer and the taxpayer will not benefit from it will satisfy them by telling them they're saving the world.

193

00:13:18,000 --> 00:13:20,000

They should get a high from that.

194

00:13:24,000 --> 00:13:25,000

Alex, what did you learn?

195

00:13:25,000 --> 00:13:28,000

He says a lot of people are getting rich off of lies.

196

00:13:28,000 --> 00:13:29,000

Do you believe him?

197

00:13:29,000 --> 00:13:31,000

This guy's got no reason to lie to me.

198

00:13:31,000 --> 00:13:33,000

Has he been paid by the oil companies?

199

00:13:33,000 --> 00:13:35,000

No, he's a professor. He's being paid by MIT.

200

00:13:35,000 --> 00:13:39,000

Wait a minute, people getting rich off lies. Who's he talking about?

201

00:13:39,000 --> 00:13:43,000

He's talking about companies like AI Gore's Mutual Fund has been investing in.

202

00:13:43,000 --> 00:13:52,000

He's talking about a lot of different people who are making money off of governments who are now being pushed to do things to reduce the effect of global warming.

203

00:13:52,000 --> 00:13:53,000

June, what did you learn?

204

00:13:53,000 --> 00:14:03,000

I interviewed a professor, a very well-known professor, and he claims his life was threatened and his family's for standing out against global warming.

205

00:14:03,000 --> 00:14:10,000

Even if, let's say, we don't believe the death threats, his funding was stopped and he wasn't promoted and his career's basically been destroyed.

206

00:14:10,000 --> 00:14:14,000

So that means there's a powerful force out there silencing people, clearly.

207

00:14:14,000 --> 00:14:19,000

But what about Al Gore? I mean, he's been the face and the voice of global warming this whole time.

208

00:14:19,000 --> 00:14:21,000

Do you think he's in on this scam?

209

00:14:21,000 --> 00:14:26,000

I don't know. I mean, Al Gore's a friend of mine. I hate to say that he would be or wouldn't, but I can tell you this.

210

00:14:26,000 --> 00:14:29,000

He's no more of a scientist than I am.

211

00:14:29,000 --> 00:14:37,000

And I think that, you know, if he's got tunnel vision on this and he's making a ton of money off it, apparently, who knows?

212

00:14:37,000 --> 00:14:45,000

Well, we actually have found a company called Hurrah that is basically poised to be the Microsoft

of carbon emission.

213

00:14:45,000 --> 00:14:50,000

It's like a kind of carbon monitoring software that every company is going to have to get.

214

00:14:50,000 --> 00:14:55,000

And Al Gore is a patron for the company, but they won't talk to you.

215

00:14:55,000 --> 00:14:57,000

They won't talk to me? Why not?

216

00:14:57,000 --> 00:15:01,000

Well, because they know you're going to ask them the hard questions.

217

00:15:01,000 --> 00:15:03,000

I got an idea, people.

218

00:15:03,000 --> 00:15:10,000

Still ahead, Jesse Ventura gets closer to the sinister forces behind the global warming movement.

219

00:15:11,000 --> 00:15:21,000

He can explain the entire agenda, the move towards world government, the takeover of resources by mega corporations and the shadowy families that control them.

220

00:15:23,000 --> 00:15:30,000

Then, global warming chaos. Jesse bursts in to confront a global warming double talker.

221

00:15:30,000 --> 00:15:35,000

No direct relationship with Al Gore? Let him tell that to me.

222

00:15:35,000 --> 00:15:36,000

No comment.

223

00:15:37,000 --> 00:15:41,000

And later, the hunt leads to big trouble in China.

224

00:15:41,000 --> 00:15:42,000

Come on.

225

00:15:53,000 --> 00:16:05,000

In essence, these scientists are telling the people of every nation that global warming caused by human activities is becoming a serious threat to our common future.

226

00:16:05,000 --> 00:16:11,000

Jesse Ventura is one step closer to finding who's behind the global warming conspiracy.

227

00:16:11,000 --> 00:16:18,000

Next up, the Silicon Valley in Northern California, and a company that staked its future on global warming.

228

00:16:18,000 --> 00:16:26,000

The Harah Corporation helps companies reduce their so-called carbon footprint and avoid paying that carbon tax.

229

00:16:26,000 --> 00:16:33,000

Harah is funded by a venture capital firm whose partners include Al Gore.

230

00:16:36,000 --> 00:16:39,000

June's going to meet the company's CEO.

231

00:16:39,000 --> 00:16:42,000

And I'll be waiting in the wings.

232

00:16:43,000 --> 00:16:46,000

Now, you were going to talk about Harah in a moment.

233

00:16:46,000 --> 00:16:47,000

Harah, is that how I pronounce it?

234

00:16:47,000 --> 00:16:48,000

Harah, hip hip harah.

235

00:16:48,000 --> 00:16:49,000

Hip hip harah.

236

00:16:49,000 --> 00:16:50,000

That's what I'm thinking about.

237

00:16:50,000 --> 00:16:54,000

So do you want to tell me a bit about Harah and what you do with technology?

238

00:16:54,000 --> 00:16:55,000

Absolutely.

239

00:16:55,000 --> 00:17:00,000

What we decided to do was build a company to help companies manage energy, water and waste.

240

00:17:00,000 --> 00:17:08,000

And secondly, help a lot of companies think about their way to contribute to climate change without adversely risking the profit-making of the organization.

241

00:17:08,000 --> 00:17:10,000

So you're still quite small as a company now.

242

00:17:10,000 --> 00:17:11,000

Absolutely.

243

00:17:11,000 --> 00:17:13,000

And so what is the plan, as it were?

244

00:17:13,000 --> 00:17:19,000

Well, I mean, the carbon market is expected to be in the United States a trillion dollars by 2015.

245

00:17:19,000 --> 00:17:26,000

And so the technology that we're delivering plays as little as 10% to as much as half of that number.

246

00:17:27,000 --> 00:17:34,000

The CEO has admitted that his company is in line to rake in billions from global warming.

247

00:17:34,000 --> 00:17:37,000

Jesse Ventura listens from the next room.

248

00:17:37,000 --> 00:17:45,000

He hears the businessman deny profiting from cap and trade laws, government permission to pay and pollute.

249

00:17:45,000 --> 00:17:47,000

Well, we don't directly benefit from cap and trade.

250

00:17:47,000 --> 00:17:53,000

The big driver for us is actually showing cost savings through energy efficiency plays.

251

00:17:53,000 --> 00:17:56,000

Now the CEO is parsing words.

252

00:17:56,000 --> 00:18:00,000

What's next? Denying a connection to Al Gore?

253

00:18:00,000 --> 00:18:10,000

One of the things that sort of come up in the research that we were doing on you guys is that if Al Gore is somehow connected with your company,

254

00:18:10,000 --> 00:18:17,000

and then is also a big advocate for global warming, that it isn't in any way a sort of conflict of interest.

255

00:18:17,000 --> 00:18:22,000

You'd actually have to ask him, but we don't have any direct relationship with Al Gore.

256

00:18:24,000 --> 00:18:29,000

No direct relationship with Al Gore? Let him tell that to me.

257

00:18:31,000 --> 00:18:33,000

This is Governor Ventura.

258

00:18:33,000 --> 00:18:35,000

Hi. Nice to meet you.

259

00:18:35,000 --> 00:18:37,000

Hi, I'm a chatter. Nice to meet you.

260

00:18:37,000 --> 00:18:38,000

Nice to meet you.

261

00:18:38,000 --> 00:18:42,000

And we've been talking about Harar and all they do.

262

00:18:42,000 --> 00:18:49,000

If this cap and trade goes through, they're telling me that Al Gore could see profits in the billions of dollars.

263

00:18:49,000 --> 00:18:52,000

That's how wealthy he'll become. Is that true?

264

00:18:52,000 --> 00:18:53,000

No comment.

265

00:18:53,000 --> 00:18:54,000

No comment.

266

00:18:55,000 --> 00:19:05,000

When people lobby to get the government to pass a particular law, generally the people lobbying for it are doing that because they're going to benefit financially from it.

267

00:19:06,000 --> 00:19:08,000

This is no different, right?

268

00:19:10,000 --> 00:19:11,000

No comment.

269

00:19:12,000 --> 00:19:18,000

The CEO is dodging the questions, but Jesse Ventura is not about to let him off the hook.

270

00:19:18,000 --> 00:19:22,000

I don't think that you're getting in trouble. I thought and said it's the normal thing that happens.

271

00:19:23,000 --> 00:19:27,000

Let me give you an example, the Iraq war. Wait, let me give you the Iraq war.

272

00:19:27,000 --> 00:19:31,000

All I can defend is what my company does. I can't speak for anybody else.

273

00:19:31,000 --> 00:19:35,000

Sure. There's huge profiteers. They've made huge amounts of money.

274

00:19:35,000 --> 00:19:38,000

And that happens whenever the government goes to quote war.

275

00:19:38,000 --> 00:19:39,000

So?

276

00:19:39,000 --> 00:19:44,000

And if this is a war on the environment, well there are going to be profiteers from it.

277

00:19:45,000 --> 00:19:51,000

I don't know if I would qualify that we've ever gone to war for making money sick.

278

00:19:52,000 --> 00:19:54,000

I wouldn't feel comfortable with that line of questioning.

279

00:19:55,000 --> 00:19:58,000

And if this is a war, I don't think that's either the purpose either.

280

00:20:02,000 --> 00:20:04,000

He was trying to protect his people.

281

00:20:05,000 --> 00:20:10,000

Yeah, maybe they never met at the company picnic, but Al Gore owns a piece of his business.

282

00:20:11,000 --> 00:20:13,000

He makes sure they make payroll.

283

00:20:14,000 --> 00:20:19,000

Al Gore is making lots of money on global warming. And that's the problem.

284

00:20:19,000 --> 00:20:24,000

He's not hiding. He's up front about it. He won an Oscar and a Nobel Peace Prize.

285

00:20:25,000 --> 00:20:30,000

But is he out to control the world? I know Al Gore. I don't think he's out to do that.

286

00:20:31,000 --> 00:20:36,000

There's got to be someone else behind this. Someone who's a lot less public.

287

00:20:36,000 --> 00:20:40,000

Someone behind the scenes. Really pulling the strings.

288

00:20:41,000 --> 00:20:49,000

Coming up, the hunt leads to one man, singled out as the mysterious figure behind the global warming conspiracy.

289

00:20:50,000 --> 00:20:53,000

We are now a species out of control.

290

00:20:56,000 --> 00:21:01,000

And he's bigger, richer and a whole lot scarier than Al Gore.

291

00:21:02,000 --> 00:21:07,000

He's very hard to get to. He rarely does interviews. He jetsets all over the planet.

292

00:21:07,000 --> 00:21:10,000

He's a very powerful individual, put it that way.

293

00:21:11,000 --> 00:21:17,000

Then, confrontation. The scientist accused of lying to spread global warming hysteria.

294

00:21:17,000 --> 00:21:20,000

People love believing a good conspiracy theory.

295

00:21:22,000 --> 00:21:27,000

And later, Jesse charges into dangerous territory alone.

296

00:21:38,000 --> 00:21:43,000

Jesse Ventura is out to find who's behind the global warming conspiracy.

297

00:21:43,000 --> 00:21:50,000

Whether or not the planet is heating up, the governor has learned that powerful people are using the issue to make billions.

298

00:21:50,000 --> 00:21:56,000

They're also out to control the way we live, from the cars we drive to the food we eat.

299

00:21:56,000 --> 00:22:00,000

Those suspects remain at large as the investigation leads to Washington.

300

00:22:00,000 --> 00:22:07,000

Investigator Alex Piper has tracked down the world's leading and loudest opponent of the global warming movement.

301

00:22:07,000 --> 00:22:13,000

Have you ever seen it reported in any mainstream media that for the last eight years, global temperatures on all measures have fallen?

302

00:22:14,000 --> 00:22:21,000

Lord Christopher Monkton is a businessman, British politician and former advisor to Margaret Thatcher.

303

00:22:21,000 --> 00:22:25,000

So you're saying that there was a collusion between the two?

304

00:22:25,000 --> 00:22:26,000

Yes.

305

00:22:26,000 --> 00:22:27,000

And scientists?

306

00:22:27,000 --> 00:22:28,000

Yes.

307

00:22:28,000 --> 00:22:29,000

And businessmen?

308

00:22:29,000 --> 00:22:30,000

Yes.

309

00:22:30,000 --> 00:22:33,000

To put out some theory?

310

00:22:33,000 --> 00:22:34,000

Yes.

311

00:22:34,000 --> 00:22:36,000

About global warming?

312

00:22:36,000 --> 00:22:37,000

Yes.

313

00:22:37,000 --> 00:22:39,000

As a way to make money?

314

00:22:39,000 --> 00:22:40,000

Mm-hmm.

315

00:22:40,000 --> 00:22:44,000

Christopher Monkton takes the conspiracy theory to a whole new level.

316

00:22:44,000 --> 00:22:50,000

I think that the government is going to be able to make a new level of the global warming.

317

00:22:50,000 --> 00:22:54,000

Christopher Monkton takes the conspiracy theory to a whole new level.

318

00:22:54,000 --> 00:23:03,000

I think that this will be the moment at which the people who have been plotting this for the last 20 years will finally get what they want,

319

00:23:03,000 --> 00:23:08,000

which is this nucleus which can then be grown into a world government.

320

00:23:10,000 --> 00:23:17,000

He says the entire global warming conspiracy can be traced to one man, and he's not Al Gore.

321

00:23:18,000 --> 00:23:23,000

Let's go to Sir Maurice Strong, a senior official of the UN.

322

00:23:23,000 --> 00:23:31,000

He has long been quite open about his desire to establish a world government, by which he does not mean a democratic government.

323

00:23:34,000 --> 00:23:35,000

Maurice Strong.

324

00:23:35,000 --> 00:23:41,000

If Al Gore is the front man for global warming, Maurice Strong is the wizard behind the curtain.

325

00:23:42,000 --> 00:23:43,000

Maurice Strong.

326

00:23:43,000 --> 00:23:51,000

Born in Canada, he's worked for decades with the United Nations, and he's gained a reputation as the world's leading environmentalist.

327

00:23:51,000 --> 00:23:57,000

Nations must accept responsibility for the consequences of their actions on others, in my view.

328

00:23:57,000 --> 00:24:04,000

Maurice Strong was Secretary General of the UN's 1972 Conference on the Human Environment, the one that launched the Green Movement,

329

00:24:04,000 --> 00:24:11,000

first director of the UN's Environment Program, organizer of the UN's Earth Summit in Rio in 1992,

330

00:24:11,000 --> 00:24:16,000

the one that set the stage for the Kyoto Treaty on Controlling Greenhouse Gas Emissions.

331

00:24:16,000 --> 00:24:24,000

We are united as one family, on one home in this universe, and it's called the Earth, and it is the home of all of us,

332

00:24:24,000 --> 00:24:28,000

and it can only be saved by the cooperation of all of us.

333

00:24:29,000 --> 00:24:39,000

But many say Maurice Strong is a wolf in sheep's clothing, that he pretended to be green, so he could get rich and take over the world.

334

00:24:39,000 --> 00:24:44,000

Under the Polluter Pays principle, those who create the damage shouldn't pay for it.

335

00:24:44,000 --> 00:24:50,000

And of course, we in the industrialized countries are creating most of it, and therefore we need to pay for most of it.

336

00:24:51,000 --> 00:24:56,000

You see, Maurice Strong is also a billionaire, an oil billionaire.

337

00:24:56,000 --> 00:25:04,000

He's a director of the Chicago Climate Exchange, which trades and sells carbon credits, the ones that give permission to pollute.

338

00:25:05,000 --> 00:25:09,000

And he was linked to the United Nations Oil for Food corruption scandal.

339

00:25:11,000 --> 00:25:16,000

After that, he quit the UN and moved to Beijing, China.

340

00:25:16,000 --> 00:25:23,000

He was one of those who was instrumental in establishing the Intergovernmental Panel on Climate Change,

341

00:25:23,000 --> 00:25:30,000

and the United Nations Intergovernmental Panel on Climate Change has now produced four major assessments of climate,

342

00:25:30,000 --> 00:25:36,000

each of them more blood-curdling than the last, each of them more absurd than the last,

343

00:25:36,000 --> 00:25:42,000

and they've now got things to such a fever pitch that they will, I think, get an agreement on,

344

00:25:42,000 --> 00:25:46,000

is that what will become a world government should be established.

345

00:25:48,000 --> 00:25:55,000

Christopher Monkton accuses Maurice Strong of stirring up global warming hysteria and doing it through deception.

346

00:25:55,000 --> 00:26:00,000

Falsifying the data. They have been deliberately bending the data.

347

00:26:01,000 --> 00:26:06,000

And I guess that would lead me to Ben Santa, right? That would lead you to Ben Santa.

348

00:26:07,000 --> 00:26:15,000

Dr. Benjamin Santa, climate scientist, and according to global warming skeptics, Maurice Strong's accomplice,

349

00:26:15,000 --> 00:26:23,000

they say he altered a crucial UN report on climate change, deleting opinions that oppose the global warming theory.

350

00:26:23,000 --> 00:26:29,000

In comes Ben Santa and rewrites it for them after the scientists have sent in their finalized draft.

351

00:26:29,000 --> 00:26:37,000

And that finalized draft said, at five different places, there is no discernible human effect on global temperature.

352

00:26:37,000 --> 00:26:38,000

You've seen a copy of this.

353

00:26:38,000 --> 00:26:43,000

I've seen a copy of this. Santa went through, crossed out all of those, and substituted a new conclusion,

354

00:26:43,000 --> 00:26:46,000

and this has been the official conclusion ever since.

355

00:26:49,000 --> 00:26:51,000

Now who is Maurice Strong?

356

00:26:51,000 --> 00:26:54,000

A lot of people know him as the godfather of the environmental movement.

357

00:26:54,000 --> 00:26:57,000

And my daughter mentioned Maurice Strong the whole time as well.

358

00:26:57,000 --> 00:27:02,000

Maurice Strong made the statement that the problem for the planet are the industrialized nations,

359

00:27:02,000 --> 00:27:05,000

and isn't it our responsibility to get rid of them?

360

00:27:06,000 --> 00:27:12,000

This guy's been tied to the UN for over 30 years, having different titles within the UN.

361

00:27:12,000 --> 00:27:14,000

But he's also making money off of it.

362

00:27:14,000 --> 00:27:15,000

He's made millions.

363

00:27:15,000 --> 00:27:22,000

Well, the one thing I learned in government, if you want to find the answer to a question, follow the money.

364

00:27:22,000 --> 00:27:24,000

Well, a lot of that money leads right to Maurice Strong.

365

00:27:25,000 --> 00:27:28,000

All right. How do we get to Maurice Strong?

366

00:27:28,000 --> 00:27:30,000

We've been trying. We can't.

367

00:27:30,000 --> 00:27:34,000

There are so many layers surrounding this man, so many minders,

368

00:27:34,000 --> 00:27:37,000

and at the moment he's in China, which makes it even harder.

369

00:27:37,000 --> 00:27:42,000

Well, if we can't talk to this Maurice Strong, then who the hell can we talk to?

370

00:27:43,000 --> 00:27:48,000

Coming up, the scientist accused of doing Maurice Strong's dirty work.

371

00:27:48,000 --> 00:27:52,000

There were deletions from the chapter. Why did they occur?

372

00:27:53,000 --> 00:27:59,000

Then, Jesse Ventura finds the direct link between global warming and a plot to rule the world.

373

00:27:59,000 --> 00:28:03,000

He can explain the entire agenda, the move towards world government,

374

00:28:03,000 --> 00:28:09,000

the takeover of resources by mega corporations and the shadowy families that control them.

375

00:28:10,000 --> 00:28:13,000

And later, the chase leads to China.

376

00:28:13,000 --> 00:28:14,000

Come on.

377

00:28:23,000 --> 00:28:26,000

The End

378

00:28:28,000 --> 00:28:32,000

Jesse Ventura and his team are hot on the trail of a conspiracy

379

00:28:32,000 --> 00:28:36,000

to use the issue of global warming to control your life.

380

00:28:36,000 --> 00:28:40,000

The investigation has led to a mysterious shadowy figure.

381

00:28:40,000 --> 00:28:43,000

Maurice Strong is the world's leading environmentalist,

382

00:28:43,000 --> 00:28:47,000

who just happens to be a billionaire industrialist.

383

00:28:48,000 --> 00:28:52,000

Jesse's researchers set out to track down Maurice Strong in China.

384

00:28:52,000 --> 00:28:58,000

Well, if we can't talk to this Maurice Strong, then who the hell can we talk to?

385

00:28:58,000 --> 00:29:02,000

While Jun Sarpong has gotten a step closer to his inner circle.

386

00:29:02,000 --> 00:29:08,000

It's me. I got him. Ben Santa. Maurice Strong's Ben Santa.

387

00:29:08,000 --> 00:29:13,000

Yep, he's the climate researcher they're saying doctored the UN report.

388

00:29:13,000 --> 00:29:17,000

Apparently, they say he removed everything against global warming

389

00:29:17,000 --> 00:29:19,000

and stacked the cards for Maurice Strong.

390

00:29:19,000 --> 00:29:23,000

Jun finds Ben Santa working in the highest corridors of power

391

00:29:23,000 --> 00:29:28,000

at the Lawrence Livermore National Laboratory in Northern California.

392

00:29:28,000 --> 00:29:32,000

Why do you think there are so many doubters still?

393

00:29:32,000 --> 00:29:35,000

I don't think there are so many doubters still.

394

00:29:35,000 --> 00:29:40,000

You will always be able to go out and find someone who disagrees with conventional wisdom.

395

00:29:40,000 --> 00:29:47,000

Jun gets to the point. Did he cook the books on global warming, as Christopher Moncton claims?

396

00:29:47,000 --> 00:29:51,000

There is no proven link between human activity and increases in global temperature.

397

00:29:51,000 --> 00:29:54,000

Five times in different words, they said the same thing very plainly.

398

00:29:54,000 --> 00:29:58,000

Santa went through, crossed out all of those, and substituted a new conclusion.

399

00:29:59,000 --> 00:30:04,000

Well, Lord Moncton, to my knowledge, was not part of the process.

400

00:30:05,000 --> 00:30:13,000

I was. Our chapter came to the conclusion, a line that's burned on my memory forever.

401

00:30:13,000 --> 00:30:18,000

The balance of evidence suggests a discernible human influence on global climate.

402

00:30:19,000 --> 00:30:22,000

But did he delete sections of the climate report?

403

00:30:22,000 --> 00:30:28,000

Lord Moncton points to deletions from the chapter, and there were deletions from the chapter.

404

00:30:28,000 --> 00:30:32,000

To be consistent with the other chapters, we dropped the summary at the end.

405

00:30:32,000 --> 00:30:36,000

Why do you think there were so many conspiracy theorists around this issue?

406

00:30:36,000 --> 00:30:39,000

People love believing a good conspiracy theory.

407

00:30:39,000 --> 00:30:46,000

There's another reason conspiracy theories come up, because people leave lots of room for doubt.

408

00:30:46,000 --> 00:30:50,000

Santa doesn't deny deleting information from the UN report.

409

00:30:50,000 --> 00:30:57,000

He just says he's misunderstood, and that leaves a lot of questions about Maurice Strong.

410

00:30:57,000 --> 00:30:59,000

It's time to get the answers.

411

00:31:03,000 --> 00:31:08,000

Jesse Ventura sets off alone for a meeting with the man he calls his wildcard.

412

00:31:11,000 --> 00:31:14,000

Alex Jones inhabits the conspiracy world as few others.

413

00:31:14,000 --> 00:31:17,000

He's an expert of world renown.

414

00:31:17,000 --> 00:31:19,000

He knows the players.

415

00:31:19,000 --> 00:31:23,000

He knows the connections, the whistleblowers, and the operatives.

416

00:31:23,000 --> 00:31:26,000

Most important, he knows their history.

417

00:31:26,000 --> 00:31:29,000

Alex, good to see you again. Thanks for meeting me here.

418

00:31:29,000 --> 00:31:32,000

Governor, good to see you. I believe I may have the information you're looking for.

419

00:31:32,000 --> 00:31:35,000

Good. Alex, how do we get to Maurice Strong?

420

00:31:35,000 --> 00:31:39,000

He's very hard to get to. He rarely does interviews.

421

00:31:39,000 --> 00:31:42,000

He jetsets all over the planet. He's a man without a country.

422

00:31:42,000 --> 00:31:46,000

He's a major front man for the United Nations. He's been a high-level UN official.

423

00:31:46,000 --> 00:31:53,000

He also works closely with the Rockefeller family, and he is the person behind the call for all these different global taxes.

424

00:31:53,000 --> 00:31:59,000

The way you get to him is with somebody who, 25 years ago, worked very close with him, and that's George Hunt.

425

00:31:59,000 --> 00:32:01,000

George Hunt, okay?

426

00:32:01,000 --> 00:32:09,000

He is the consummate insider. He was there at the beginning, at the embryonic formation of this phony environmental movement

427

00:32:09,000 --> 00:32:14,000

that intends to take over the entire planet's resources and set up a form of tyranny.

428

00:32:14,000 --> 00:32:21,000

So you're telling me that George Hunt is the key? He can put the jigsaw puzzle together on this whole global warming thing.

429

00:32:21,000 --> 00:32:23,000

He's our man on the inside.

430

00:32:23,000 --> 00:32:26,000

And you can set up this meeting with George Hunt?

431

00:32:26,000 --> 00:32:33,000

Jesse, I will have George Hunt here for you in this warehouse, same time, same place tomorrow that you can meet with him.

432

00:32:33,000 --> 00:32:43,000

He can explain the entire agenda, the move towards world government, the takeover of resources by mega corporations and the shadowy families that control them.

433

00:32:43,000 --> 00:32:49,000

All of it ties together. These are the people that are behind the European Union and the Euro.

434

00:32:49,000 --> 00:32:50,000

I'll meet with him, Alex.

435

00:32:50,000 --> 00:32:52,000

Thanks for doing it. Thank you.

436

00:32:52,000 --> 00:32:53,000

And I'll be here tomorrow.

437

00:32:53,000 --> 00:32:54,000

You bet.

438

00:32:54,000 --> 00:32:59,000

George Hunt had better be here, and he'd better have the goods.

439

00:33:03,000 --> 00:33:13,000

Coming up, he shows up all right. The man who makes a direct link between the global warming scare and a plot to rule the world.

440

00:33:13,000 --> 00:33:21,000

Their aims are to create an anxiety about the ecology and global warming and so on.

441

00:33:21,000 --> 00:33:24,000

They're going to use it to take over the world.

442

00:33:25,000 --> 00:33:30,000

And then, Maury's strong can run to China, but can he hide?

443

00:33:30,000 --> 00:33:34,000

Jesse Ventura's investigation arrives in Beijing.

444

00:33:34,000 --> 00:33:36,000

Follow the money.

445

00:33:44,000 --> 00:33:58,000

The global warming conspiracy, a plot to use the hot button issue to control nations, your way of life, and ultimately the world.

446

00:33:58,000 --> 00:34:02,000

Jesse Ventura's investigation has led to one man.

447

00:34:02,000 --> 00:34:08,000

Maury's strong, a UN official credited with launching the environmental movement.

448

00:34:08,000 --> 00:34:12,000

And now there's evidence his ulterior motives were there from the start.

449

00:34:17,000 --> 00:34:20,000

The governor arrives as scheduled at a warehouse.

450

00:34:29,000 --> 00:34:35,000

He's set to meet the man who pulls together all the threats, George Hunt.

451

00:34:38,000 --> 00:34:44,000

It's not truly really about saving the planet from carbon dioxide. It's about making money.

452

00:34:44,000 --> 00:34:50,000

Not at an international level. We're not even talking here about country, country, country.

453

00:34:50,000 --> 00:34:54,000

We're talking about a global type money making thing, correct?

454

00:34:54,000 --> 00:35:06,000

Yes. We're talking about a powerful, immense aristocracy that has the intention of using the fear of the environment.

455

00:35:07,000 --> 00:35:11,000

De-teriorating. They're going to use it to take over the world.

456

00:35:14,000 --> 00:35:19,000

George Hunt was an official at the World Wilderness Congress when he met Maury's strong in 1987.

457

00:35:19,000 --> 00:35:24,000

The Congress is an international forum for discussing the environment.

458

00:35:24,000 --> 00:35:32,000

But Maury's strong showed up to introduce a new player, financier Edmund Rothschild of the Rothschild Banking Dynasty.

459

00:35:33,000 --> 00:35:38,000

And the proposal to create something called a World Conservation Bank.

460

00:35:39,000 --> 00:35:48,000

One of the most important initiatives that is open here is that of the Conservation Banking Program.

461

00:35:48,000 --> 00:35:56,000

We have as our chairman, fortunately, the person who epitomizes that positive synthesis between environment, conservation,

462

00:35:56,000 --> 00:35:59,000

on the one hand, and economics on the other.

463

00:35:59,000 --> 00:36:06,000

And I'm just delighted to have this opportunity of introducing to you Edmund Rothschild.

464

00:36:08,000 --> 00:36:18,000

Maury's strong was in charge of the conservation movement, but he was also Edmund Rothschild's right-hand man.

465

00:36:18,000 --> 00:36:25,000

You have money and the environment in one person. Edmund Rothschild.

466

00:36:25,000 --> 00:36:32,000

Now Maury's strong, I found out during that conference, was the point man, the one that was making the decisions.

467

00:36:32,000 --> 00:36:33,000

And their aims are what?

468

00:36:33,000 --> 00:36:50,000

Their aims are to create an anxiety about global warming to such a fevered pace that they're willing to accept a bank that will accept the responsibility for cleaning up the environment.

469

00:36:50,000 --> 00:36:53,000

And the bank will not be a friendly bank.

470

00:36:53,000 --> 00:37:01,000

So we have the establishment of a World Conservation Bank that will oppose industry, supposedly.

471

00:37:01,000 --> 00:37:07,000

But the aristocrats will cash in on the conservation projects.

472

00:37:07,000 --> 00:37:12,000

They told us that it would be great to have one bank because then we'd only have one currency.

473

00:37:13,000 --> 00:37:17,000

So this is really about like an all-world government is what you're talking about here.

474

00:37:17,000 --> 00:37:19,000

It's part of the one-world order.

475

00:37:20,000 --> 00:37:24,000

So Maury's strong had an agenda from the start.

476

00:37:24,000 --> 00:37:26,000

A World Bank.

477

00:37:27,000 --> 00:37:28,000

One currency.

478

00:37:30,000 --> 00:37:32,000

Everything under one roof.

479

00:37:32,000 --> 00:37:33,000

One house.

480

00:37:33,000 --> 00:37:34,000

One house.

481

00:37:34,000 --> 00:37:37,000

So this flies in the face of competition.

482

00:37:37,000 --> 00:37:38,000

This is a monopoly.

483

00:37:38,000 --> 00:37:39,000

Oh no.

484

00:37:39,000 --> 00:37:41,000

It's not competitive.

485

00:37:41,000 --> 00:37:42,000

It's cooperation.

486

00:37:42,000 --> 00:37:43,000

That's simple.

487

00:37:43,000 --> 00:37:45,000

That's what their plan is.

488

00:37:45,000 --> 00:37:47,000

Do you really believe that's what their plan is?

489

00:37:47,000 --> 00:37:49,000

Do you think they can succeed?

490

00:37:49,000 --> 00:37:50,000

Yes.

491

00:37:50,000 --> 00:37:51,000

Really why?

492

00:37:51,000 --> 00:37:53,000

They're smarter than we are.

493

00:37:54,000 --> 00:37:57,000

George Hunt might have a point.

494

00:37:57,000 --> 00:38:01,000

Maury's strong proposed a one-world bank.

495

00:38:01,000 --> 00:38:09,000

Within a few years, countries began throwing away their own currencies and adopting the Euro.

496

00:38:11,000 --> 00:38:15,000

In each case, the citizens have a little less power.

497

00:38:16,000 --> 00:38:20,000

Their futures are decided by some outside group.

498

00:38:22,000 --> 00:38:28,000

And now there's a call for a new global currency to replace the dollar.

499

00:38:29,000 --> 00:38:31,000

And it comes from the UN.

500

00:38:32,000 --> 00:38:36,000

And that comes as no surprise to Jesse, the UN.

501

00:38:37,000 --> 00:38:40,000

The longtime base of Maury's strong.

502

00:38:41,000 --> 00:38:46,000

What is the big picture in your belief of what global warming really is about?

503

00:38:46,000 --> 00:38:47,000

Money.

504

00:38:47,000 --> 00:38:48,000

Money.

505

00:38:48,000 --> 00:38:49,000

It's that simple.

506

00:38:49,000 --> 00:38:50,000

Big money.

507

00:38:50,000 --> 00:38:51,000

Big money.

508

00:38:51,000 --> 00:38:58,000

I always laugh when I think back to Woodward meeting Deepthroat and the bowels of that parking lot and all the president's men.

509

00:38:58,000 --> 00:39:01,000

Deepthroat said to him, follow the money.

510

00:39:02,000 --> 00:39:04,000

And it always seems to be that, right?

511

00:39:04,000 --> 00:39:05,000

Follow the money.

512

00:39:05,000 --> 00:39:06,000

We'll lead you to the answer.

513

00:39:06,000 --> 00:39:07,000

And they're very rich.

514

00:39:07,000 --> 00:39:09,000

And this is all about money.

515

00:39:09,000 --> 00:39:10,000

And power.

516

00:39:13,000 --> 00:39:14,000

Only a theory?

517

00:39:14,000 --> 00:39:23,000

Within days of Jesse's meeting and his words about Watergate, the global warming conspiracy would explode into a scandal called Climate Gate.

518

00:39:28,000 --> 00:39:37,000

Thousands of emails hacked from a leading climate research unit in the UK show that the world's top climate scientists did indeed black ball dissenters.

519

00:39:38,000 --> 00:39:44,000

They obscured, massaged, or destroyed inconvenient temperature data.

520

00:39:46,000 --> 00:39:49,000

And the evidence showed they did it for the money.

521

00:39:49,000 --> 00:39:52,000

More panic equaled more funding.

522

00:39:54,000 --> 00:40:00,000

And if there were any more questions about the intentions of Maury's strong, a dispatch from China helps answer them.

523

00:40:00,000 --> 00:40:05,000

Jesse Ventura's operative in Beijing reports back on Strong's latest activities.

524

00:40:05,000 --> 00:40:09,000

Governor, Robin Eckert here. I'm very glad to help out the team.

525

00:40:09,000 --> 00:40:12,000

Maury's strong is here in Beijing, but he's a very hard fish to catch.

526

00:40:12,000 --> 00:40:16,000

He stays well hidden, but his influence is everywhere.

527

00:40:18,000 --> 00:40:21,000

He's been here since 2005 when he quit the UN.

528

00:40:22,000 --> 00:40:26,000

He ran away during a scandal, left New York and settled here.

529

00:40:28,000 --> 00:40:32,000

That's when it became clear that Strong's a double agent pretending to be an environmentalist.

530

00:40:32,000 --> 00:40:39,000

But really, he's been working as an advisor to the Chinese government and helping them make money of global warming.

531

00:40:39,000 --> 00:40:44,000

He's helping China sell and trade carbon credits, basically, for mission slips to pollute.

532

00:40:47,000 --> 00:40:50,000

He was also involved with a Chinese car company named Sherry.

533

00:40:50,000 --> 00:40:57,000

The man who calls himself Mr. Green was actually standing on flooding the American market with his cheap polluting cars.

534

00:40:58,000 --> 00:41:03,000

Not so green, or if it's green, it's the green of money.

535

00:41:03,000 --> 00:41:05,000

And who knows what's next?

536

00:41:05,000 --> 00:41:10,000

This is where we believe he lives, Governor, right there in that big compound behind Bob Y and the armed guards.

537

00:41:10,000 --> 00:41:18,000

He's very elusive. No sign of him. The cars come and go, but hang on, I think they might have spotted us.

538

00:41:18,000 --> 00:41:21,000

We better go. I'll catch up with you later, Governor. Come on.

539

00:41:27,000 --> 00:41:32,000

Is man-made carbon dioxide heating up the planet and leading to doom?

540

00:41:32,000 --> 00:41:42,000

Despite what's being drummed up by the media, we've discovered that hundreds, thousands of experts

can't even agree on global warming.

541

00:41:42,000 --> 00:41:51,000

But like I said, I'm no scientist. The conspiracy here is a stair tactic to control people, make billions, even trillions in profit.

542

00:41:51,000 --> 00:41:57,000

And the evidence we've uncovered makes it pretty clear money is at the root of this movement.

543

00:41:57,000 --> 00:42:06,000

Al Gore, you've been a real inspiration, but a lot of other people who preach the global warming gospel are not out to save the world.

544

00:42:06,000 --> 00:42:08,000

They're out to run it.

545

00:42:08,000 --> 00:42:12,000

I'm Jesse Ventura, and this is Conspiracy Theory.
