

1

00:00:00,000 --> 00:00:07,000

Hidden power, secrets, cover-ups, corruption.

2

00:00:07,000 --> 00:00:13,000

You think you know the whole story?

3

00:00:13,000 --> 00:00:14,000

Think again.

4

00:00:14,000 --> 00:00:22,440

I've been governor, a Navy SEAL, a fighter.

5

00:00:22,440 --> 00:00:27,960

I've heard things that'll blow your mind, and now I think it's time you get the whole

6

00:00:27,960 --> 00:00:28,960

story.

7

00:00:29,960 --> 00:00:34,200

Now, a doomsday conspiracy.

8

00:00:34,200 --> 00:00:38,080

The government plot to save the elite, but not you.

9

00:00:38,080 --> 00:00:44,040

We are maybe just a few years away from destruction, the likes of which no society has ever seen.

10

00:00:44,040 --> 00:00:48,200

Do scientists really believe the Earth is headed for disaster in 2012?

11

00:00:48,200 --> 00:00:51,960

That would fly out to the transformers of the planet.

12

00:00:51,960 --> 00:00:54,840

We'd be back to the Dark Ages.

13

00:00:54,840 --> 00:01:00,520

One of the scenarios is this 5,000-foot-tall tsunami wave that'll wash over the continental

14

00:01:00,520 --> 00:01:01,960

United States.

15

00:01:01,960 --> 00:01:06,360

Do our leaders think they can build bunkers for a select few and leave the rest of us to

16

00:01:06,360 --> 00:01:08,080

fend for ourselves?

17

00:01:08,080 --> 00:01:13,840

The U.S. government have been on a crash-shelter-building program from coast to coast.

18

00:01:13,840 --> 00:01:20,200

Jesse Ventura takes his investigation to the highest levels of power and deep underground.

19

00:01:20,200 --> 00:01:25,280

Are your security forces prepared to fire on American citizens to protect the facility?

20

00:01:25,280 --> 00:01:26,280

They'll do what it takes.

21

00:01:26,280 --> 00:01:32,520

That could be chaos, the end of civilization, or the beginning of a devious scheme.

22

00:01:32,520 --> 00:01:34,680

Why wouldn't they prepare us?

23

00:01:34,680 --> 00:01:44,720

Ancient prophecies, law symbols, solar explosions, underground bunkers, the 2012 conspiracy.

24

00:01:44,720 --> 00:01:48,200

I'm Jesse Ventura, and this is Conspiracy Theory.

25

00:01:51,200 --> 00:01:57,920

Jesse Ventura is in a race against time at a major American airport.

26

00:01:57,920 --> 00:02:02,720

His investigation into an end-of-the-world conspiracy has led him here.

27

00:02:02,720 --> 00:02:08,720

And all he has to go on is a series of bizarre clues.

28

00:02:08,720 --> 00:02:12,720

What in the hell is that inside the suitcase?

29

00:02:12,720 --> 00:02:15,760

Strange symbols, hidden signs.

30

00:02:15,760 --> 00:02:20,920

A real-life mystery has suddenly become a scene from a Dan Brown thriller.

31

00:02:20,920 --> 00:02:25,960

And then, without warning, Jesse is surrounded by police.

32

00:02:27,960 --> 00:02:29,480

What?

33

00:02:29,480 --> 00:02:31,200

What the hell is this?

34

00:02:34,800 --> 00:02:41,880

When I first heard of this 2012 conspiracy, it sounded like a bunch of New Age mumbo-jumbo.

35

00:02:41,880 --> 00:02:45,640

But then we got a tip from a guy named Jim Higgins.

36

00:02:45,640 --> 00:02:48,520

He edits books on conspiracies.

37

00:02:48,520 --> 00:02:52,600

He said this could be the one to end all.

38

00:02:52,600 --> 00:02:54,120

He wasn't kidding.

39

00:02:54,120 --> 00:02:56,640

The clock could be ticking on this one.

40

00:02:57,640 --> 00:03:02,520

Governor, I think there's a real serious problem that I think you're the person who can look into.

41

00:03:02,520 --> 00:03:05,640

There is something that's going to be happening in the next couple of years.

42

00:03:05,640 --> 00:03:09,760

Scientists have reported that there is going to be solar flare activity.

43

00:03:09,760 --> 00:03:13,520

That's going to be much, much more serious than what we've seen in the past.

44

00:03:13,520 --> 00:03:16,760

And this could cause major repercussions for people in this country.

45

00:03:16,760 --> 00:03:21,040

Wait, in a couple of years, I mean, we're talking the Mayan calendar here.

46

00:03:21,040 --> 00:03:23,640

The governor has reason to be skeptical.

47

00:03:23,640 --> 00:03:31,880

Many fears about 2012 are based on an ancient Mayan calendar that happens to end on December 21st of that year.

48

00:03:31,880 --> 00:03:37,200

But even that so-called end-of-days prophecy has been subject to debate.

49

00:03:37,200 --> 00:03:42,960

Whether you believe in the Mayan calendar prophecies or not is actually sort of beside the point.

50

00:03:42,960 --> 00:03:47,440

There are some actual scientific facts that have been reported by NASA.

51

00:03:47,440 --> 00:03:53,160

In about two years, the sun is going to go through a very unusual series of solar flares.

52

00:03:53,160 --> 00:03:59,560

The radiation that comes out from that solar flare, that electromagnetic energy, is going to hit the Earth.

53

00:03:59,560 --> 00:04:01,800

What they're talking about is something major.

54

00:04:01,800 --> 00:04:04,320

How bad do they think this is going to be?

55

00:04:04,320 --> 00:04:11,360

Well, it can be bad enough that our crumbling electric grid could be hit in a major way.

56

00:04:11,360 --> 00:04:14,480

Now, we're not talking about a few cities losing power even.

57

00:04:14,480 --> 00:04:16,560

We're talking about it could be half the country.

58

00:04:16,560 --> 00:04:17,800

It could be more than that.

59

00:04:17,800 --> 00:04:21,360

The whole country and the government's not concerned about this?

60

00:04:21,360 --> 00:04:22,920

They're not doing anything about it.

61

00:04:24,880 --> 00:04:29,920

Jim Higgins is about to clarify what he means by not doing anything.

62

00:04:29,920 --> 00:04:33,560

The government may not be working to fix the grid.

63

00:04:33,560 --> 00:04:39,000

But some people within the government are planning to ride out the firestorm.

64

00:04:39,000 --> 00:04:40,640

That could be chaos.

65

00:04:40,640 --> 00:04:42,120

Why wouldn't they prepare us?

66

00:04:42,120 --> 00:04:43,520

There are underground bases.

67

00:04:43,520 --> 00:04:45,200

FEMA has one in Mount Weather.

68

00:04:45,200 --> 00:04:51,920

And that is a big fortress where they can house literally thousands of people for continuity of government.

69

00:04:51,920 --> 00:04:55,600

That means keep the government operating in times of an extreme emergency.

70

00:04:55,600 --> 00:04:57,400

Somebody's got to be in charge.

71

00:04:57,400 --> 00:04:57,880

Right.

72

00:04:57,880 --> 00:05:01,320

We know that there are dozens and dozens of other bases.

73

00:05:01,320 --> 00:05:05,440

Reported known government bases in various locations.

74

00:05:05,440 --> 00:05:09,560

Now, who's going to go down into these underground bases?

75

00:05:09,560 --> 00:05:13,120

People who are essentially wealthy and powerful.

76

00:05:13,120 --> 00:05:14,120

With the private sector.

77

00:05:14,120 --> 00:05:15,080

And the elite.

78

00:05:15,080 --> 00:05:18,720

So a select few will be taken care of, you're saying?

79

00:05:18,720 --> 00:05:25,760

And they will be put in these underground places while the rest of us are left to deal with the chaos that goes on up here?

80

00:05:25,760 --> 00:05:27,440

Exactly.

81

00:05:27,440 --> 00:05:30,320

It can't get much more clear than that.

82

00:05:30,320 --> 00:05:34,520

The elite live in massive, comfortable underground bunkers.

83

00:05:34,520 --> 00:05:37,080

You and me, we're not invited in.

84

00:05:40,560 --> 00:05:46,560

What you're telling me is that they're preparing, meaning the government, the wealthy people,

85

00:05:46,560 --> 00:05:49,560

they're being taken care of and the hell with the rest of us?

86

00:05:49,560 --> 00:05:50,560

We're being ignored.

87

00:05:50,560 --> 00:05:54,080

Well, Jim, you've intrigued me with this.

88

00:05:54,080 --> 00:05:57,560

I mean, I realize now it's beyond the Mayan calendar.

89

00:05:57,560 --> 00:06:02,560

The Mayans may have been right, but there's facts that indicate why they may be right.

90

00:06:02,560 --> 00:06:05,560

So I'll get my team of investigators on this.

91

00:06:05,560 --> 00:06:06,560

That's great, Governor.

92

00:06:06,560 --> 00:06:07,560

I really think this is important.

93

00:06:07,560 --> 00:06:13,560

Scientists, NASA, all are saying that there's going to be some serious issues.

94

00:06:13,560 --> 00:06:18,560

Now Jesse must find proof the government knows disaster is coming.

95

00:06:18,560 --> 00:06:22,560

Proof they're planning the survival of the elite.

96

00:06:22,560 --> 00:06:27,560

There's true urgency as the governor fills in his team of investigators, researchers and operatives.

97

00:06:27,560 --> 00:06:34,560

Well, people, you know, it doesn't get any bigger than telling you this is the end of civilization.

98

00:06:34,560 --> 00:06:41,560

I talked to this guy and he claims that the government is out building these underground bunkers,

99

00:06:41,560 --> 00:06:46,560

that only the elite or the chosen few will be allowed to be in these bunkers

100

00:06:46,560 --> 00:06:49,560

while the rest of us apparently are going to burn in hell.

101

00:06:49,560 --> 00:06:50,560

Are you serious?

102

00:06:50,560 --> 00:06:52,560

I mean, is this based on that Mayan stuff?

103

00:06:52,560 --> 00:06:53,560

Yeah, it's a movie, right?

104

00:06:53,560 --> 00:06:56,560

This guy says to me that it's real.

105

00:06:56,560 --> 00:06:58,560

Let's remember some people.

106

00:06:58,560 --> 00:07:00,560

We're here to either prove or disprove.

107

00:07:00,560 --> 00:07:03,560

Well, there are quite a few other people that think it's real, too.

108

00:07:03,560 --> 00:07:05,560

So we're all going to die in a couple of years.

109

00:07:05,560 --> 00:07:08,560

We need to find out some scientific facts, don't we?

110

00:07:08,560 --> 00:07:11,560

Okay, look, there's a guy called Larry Joseph. He's a researcher.

111

00:07:11,560 --> 00:07:15,560

He's got the lowdown on all the solar storms and NASA backs him.

112

00:07:15,560 --> 00:07:17,560

Well, then I think I'll take this one.

113

00:07:17,560 --> 00:07:20,560

I want to talk to this Joseph guy myself.

114

00:07:20,560 --> 00:07:23,560

After all, we might be running out of time.

115

00:07:23,560 --> 00:07:28,560

Coming up is the government building secret bunkers for the elite.

116

00:07:28,560 --> 00:07:33,560

Jesse Ventura confronts an expert who says he has proved their planning for disaster.

117

00:07:33,560 --> 00:07:37,560

We are maybe just a few years away from destruction,

118

00:07:37,560 --> 00:07:40,560

the likes of which no society has ever seen.

119

00:07:40,560 --> 00:07:46,560

Then Jesse meets the mold people, ordinary folks already moving underground

120

00:07:46,560 --> 00:07:48,560

to save their lives.

121

00:07:48,560 --> 00:07:51,560

I believe that the government does know something bad is happening.

122

00:07:51,560 --> 00:07:55,560

And later he decipher's clues to a secret shelter

123

00:07:55,560 --> 00:07:58,560

beneath one of the busiest places in the world.

124

00:07:58,560 --> 00:08:01,560

They're almost saying, okay, if you're not perceptive,

125

00:08:01,560 --> 00:08:03,560

you're just going to have to deal with it when it happens.

126

00:08:03,560 --> 00:08:05,560

That's exactly the point.

127

00:08:15,560 --> 00:08:21,560

Every second counts as Jesse Ventura chases down the 2012 conspiracy.

128

00:08:22,560 --> 00:08:26,560

It began as an ancient Mayan prediction that the world will come to an end.

129

00:08:26,560 --> 00:08:32,560

Now there's evidence our government really is scrambling to prepare for a major disaster

130

00:08:32,560 --> 00:08:35,560

and planning to save only the elite.

131

00:08:35,560 --> 00:08:38,560

The governor meets a man who says he has proved ahead.

132

00:08:38,560 --> 00:08:42,560

Lawrence Joseph is a science writer and author.

133

00:08:42,560 --> 00:08:46,560

He knows the scientific fact behind the 2012 warnings.

134

00:08:46,560 --> 00:08:49,560

I'm here to wish you a happy anniversary.

135

00:08:49,560 --> 00:08:51,560

Well, my anniversary was a couple months ago.

136

00:08:51,560 --> 00:08:52,560

What are you talking about?

137

00:08:52,560 --> 00:08:55,560

We all had an anniversary a couple days ago.

138

00:08:55,560 --> 00:09:00,560

It was the 150th anniversary of the greatest solar storm ever to belch out and hit the earth.

139

00:09:00,560 --> 00:09:05,560

Back then, didn't do much, made the Northern Lights sparkle plenty

140

00:09:05,560 --> 00:09:08,560

and made telegraph wires burn a little bit.

141

00:09:08,560 --> 00:09:11,560

But today, if we were hit by that same size solar storm,

142

00:09:11,560 --> 00:09:14,560

the entire electrical power grid would be knocked out.

143

00:09:14,560 --> 00:09:15,560

Of the United States?

144

00:09:15,560 --> 00:09:16,560

Of the United States at least.

145

00:09:16,560 --> 00:09:19,560

According to the National Academy of Sciences, not just me, Governor,

146

00:09:19,560 --> 00:09:23,560

the National Academy of Sciences, which is the closest thing we have to a supreme court

147

00:09:23,560 --> 00:09:25,560

of scientific opinion in this world,

148

00:09:25,560 --> 00:09:30,560

up to 130 million people would be without electricity for months or years.

149

00:09:30,560 --> 00:09:34,560

We would lose basic security, emergency telecommunications, fresh water,

150

00:09:34,560 --> 00:09:37,560

because the pumps are electric and we are vulnerable.

151

00:09:37,560 --> 00:09:41,560

And you're predicting that that is going to happen at what point in time?

152

00:09:41,560 --> 00:09:42,560

2012.

153

00:09:43,560 --> 00:09:46,560

Lawrence Joseph is not exaggerating.

154

00:09:46,560 --> 00:09:52,560

Incredibly, NASA's own studies are in line with ancient Mayan predictions.

155

00:09:52,560 --> 00:09:53,560

This is the report.

156

00:09:53,560 --> 00:09:56,560

It includes opinions from experts around the world.

157

00:09:56,560 --> 00:10:02,560

It concludes that solar storms could lead to a cascade of catastrophe.

158

00:10:02,560 --> 00:10:07,560

Well, if this is such a threat then, and it's only a couple years away,

159

00:10:07,560 --> 00:10:10,560

why isn't it more on the radar screen?

160

00:10:10,560 --> 00:10:12,560

When the National Academy of Sciences report came out,

161

00:10:12,560 --> 00:10:15,560

it did get a little bit of buzz and a little bit of press,

162

00:10:15,560 --> 00:10:17,560

but it's even more than that.

163

00:10:17,560 --> 00:10:24,560

The next month, NASA discovered something that makes the why now more urgent than ever.

164

00:10:24,560 --> 00:10:25,560

And that is?

165

00:10:25,560 --> 00:10:29,560

A squadron of five NASA satellites called Themis, T-H-E-M-I-S,

166

00:10:29,560 --> 00:10:35,560

flew through a hole in the Earth's magnetic field that goes from the pole to equator.

167

00:10:35,560 --> 00:10:36,560

Why is that important?

168

00:10:36,560 --> 00:10:40,560

Because the Earth's magnetic field protects us from blasts from the sun.

169

00:10:40,560 --> 00:10:46,560

Its job is to repel them and spin the blasts around so they don't hit the surface of the Earth.

170

00:10:46,560 --> 00:10:47,560

Sure.

171

00:10:47,560 --> 00:10:52,560

Except that this group of satellites found, much to everyone's surprise,

172

00:10:52,560 --> 00:10:55,560

that there's this giant hole in the Earth's magnetic field.

173

00:10:55,560 --> 00:10:57,560

It's like, the shields are down, Scotty.

174

00:10:57,560 --> 00:10:59,560

They're supposed to be up, but they're down.

175

00:10:59,560 --> 00:11:02,560

Again, no exaggeration.

176

00:11:02,560 --> 00:11:09,560

December 2008, NASA reports its Themis spacecraft have discovered a giant breach in the magnetosphere,

177

00:11:09,560 --> 00:11:13,560

ten times larger than any thought to exist.

178

00:11:13,560 --> 00:11:17,560

And that's the Earth's situation right now, the shields are down?

179

00:11:17,560 --> 00:11:18,560

It is.

180

00:11:20,560 --> 00:11:23,560

While the governor gets a handle on the grim forecast,

181

00:11:23,560 --> 00:11:29,560

his investigator, Jun Sarpang, finds those predictions are actually fairly tame.

182

00:11:30,560 --> 00:11:36,560

In 2012, there will be a huge reversal of solar activity.

183

00:11:36,560 --> 00:11:43,560

And trillions of particles from the sun will fall into the magnetic field from the Earth

184

00:11:43,560 --> 00:11:48,560

and destroy the civilization that we now have.

185

00:11:50,560 --> 00:11:57,560

Patrick Gerald is a Belgian astronomer who's become known as Mr. 2012.

186

00:11:57,560 --> 00:12:00,560

He's telling everyone the end is near.

187

00:12:00,560 --> 00:12:05,560

He's also planning a survival bunker in Africa, the world's largest.

188

00:12:05,560 --> 00:12:07,560

We are starting from scratch.

189

00:12:07,560 --> 00:12:10,560

Everything is completely destroyed.

190

00:12:10,560 --> 00:12:13,560

There is nothing, nothing left, nothing.

191

00:12:14,560 --> 00:12:18,560

When these billion-ton blasts of protons from the sun hit,

192

00:12:18,560 --> 00:12:22,560

we're in the worst position of all because our electrical power grid

193

00:12:22,560 --> 00:12:26,560

that sends current all around the country is operating at higher voltages

194

00:12:26,560 --> 00:12:29,560

and frequencies with more vulnerable transformers than anybody else.

195

00:12:29,560 --> 00:12:31,560

What do we do to prepare for this?

196

00:12:31,560 --> 00:12:33,560

We need to install ground resistors.

197

00:12:33,560 --> 00:12:37,560

Just place those resistors in between the ground and the transformer

198

00:12:37,560 --> 00:12:40,560

and protect the transformers, keep us from shorting out the nation.

199

00:12:40,560 --> 00:12:45,560

But if it's that easy to do, why isn't it being done?

200

00:12:45,560 --> 00:12:51,560

Because we have one problem and it's not money, it's not technology, it's politics, governor.

201

00:12:51,560 --> 00:12:52,560

Politics.

202

00:12:52,560 --> 00:12:59,560

Jesse Ventura may have found another conspiracy that only makes the 2012 problems worse.

203

00:12:59,560 --> 00:13:01,560

You have to understand the nature of the grid.

204

00:13:01,560 --> 00:13:04,560

The grid has grown up from independent generators in different cities

205

00:13:04,560 --> 00:13:10,560

and gets hooked up and is now governed by public, semi-public, private partnerships

206

00:13:10,560 --> 00:13:12,560

that span different states.

207

00:13:12,560 --> 00:13:16,560

Well, my problem is how could that be political?

208

00:13:16,560 --> 00:13:19,560

I mean, wouldn't the federal government take charge of this?

209

00:13:19,560 --> 00:13:22,560

You would think they could, but I do know that it's not being discussed.

210

00:13:22,560 --> 00:13:28,560

So you think that the world is going to end in 2012?

211

00:13:28,560 --> 00:13:30,560

Yes, the world as we know it.

212

00:13:30,560 --> 00:13:35,560

Our civilization will be completely wiped out.

213

00:13:37,560 --> 00:13:43,560

We are maybe just a few years away from destruction, the likes of which no society has ever seen.

214

00:13:44,560 --> 00:13:45,560

Really?

215

00:13:45,560 --> 00:13:46,560

Yeah, really.

216

00:13:49,560 --> 00:14:00,560

Hey people, I gotta tell ya, this Larry Joseph made sense to me, because he talked very scientifically,

217

00:14:00,560 --> 00:14:04,560

then he said you can go to NASA and said if you don't believe me, call them.

218

00:14:04,560 --> 00:14:06,560

Well, he's not the only one that thinks it's real.

219

00:14:06,560 --> 00:14:08,560

There's a Belgian guy called Patrick Gerald.

220

00:14:08,560 --> 00:14:12,560

Now he's leading an expedition to Africa where they're going to build their own city,

221

00:14:12,560 --> 00:14:17,560

which he says will protect them from this huge catastrophe that's going to take place in 2012.

222

00:14:17,560 --> 00:14:21,560

Yeah, and I'm sure in return for your safety, he'll take all of your life savings.

223

00:14:21,560 --> 00:14:25,560

Hold on, hold on. Some of this is actually coming from our own government.

224

00:14:25,560 --> 00:14:28,560

So where are we on these bunkers we're talking about here?

225

00:14:28,560 --> 00:14:33,560

Well, we've been doing some research and we found some satellite imagery that shows what could be

226

00:14:33,560 --> 00:14:36,560

entrances to deep underground military bases.

227

00:14:36,560 --> 00:14:42,560

When we call the companies who supposedly operate these bases, they deny that these facilities even exist.

228

00:14:42,560 --> 00:14:44,560

They deny that they even exist.

229

00:14:44,560 --> 00:14:46,560

Look at the size of that thing. How can you have a record of that?

230

00:14:46,560 --> 00:14:48,560

And why would they be denying them?

231

00:14:48,560 --> 00:14:53,560

That raises the old flag up again. If it's above board, why do you deny it?

232

00:14:53,560 --> 00:14:55,560

It's one thing to be looking at it from a satellite though.

233

00:14:55,560 --> 00:14:58,560

We got to go up and see what these things look like from land.

234

00:14:58,560 --> 00:15:03,560

You know what? It's time for this investigation to head underground.

235

00:15:05,560 --> 00:15:10,560

Coming up, is there a hidden civilization beneath the American heartland?

236

00:15:10,560 --> 00:15:14,560

Jesse Ventura goes underground to find out.

237

00:15:14,560 --> 00:15:22,560

The majority of our clients are wealthy individuals who are looking for protection against 2012.

238

00:15:22,560 --> 00:15:30,560

Then, Jesse finds bizarre clues leading to a secret city under a very public place.

239

00:15:30,560 --> 00:15:32,560

This is a picture of the end of the world.

240

00:15:33,560 --> 00:15:36,560

And also, unprecedented access.

241

00:15:36,560 --> 00:15:38,560

A third of a mile through solid rock?

242

00:15:38,560 --> 00:15:40,560

That's correct.

243

00:15:40,560 --> 00:15:44,560

Inside the 2012 bunker, the government doesn't bother to hide.

244

00:15:44,560 --> 00:15:49,560

Are your security forces prepared to fire on American citizens to protect the facility?

245

00:15:49,560 --> 00:15:51,560

They'll do what it takes.

246

00:15:51,560 --> 00:16:08,560

Jesse Ventura's investigation of the 2012 conspiracy is about to go underground.

247

00:16:08,560 --> 00:16:10,560

Literally.

248

00:16:10,560 --> 00:16:13,560

Does the government know disaster is coming?

249

00:16:13,560 --> 00:16:19,560

And are they building underground survival bunkers to save an elite few?

250

00:16:20,560 --> 00:16:25,560

Jesse's investigator, Jun Sa-Pong, is in the southwestern desert.

251

00:16:25,560 --> 00:16:32,560

She's matching up the satellite images that supposedly expose the bunker sites.

252

00:16:32,560 --> 00:16:36,560

The governor, meanwhile, is with his advisor, Michael Braverman.

253

00:16:36,560 --> 00:16:39,560

They're deep in the American heartland.

254

00:16:39,560 --> 00:16:42,560

They're about to go even deeper.

255

00:16:42,560 --> 00:16:46,560

Oh my goodness, we're out here in the middle of Kansas.

256

00:16:46,560 --> 00:16:48,560

What the hell are we doing in here?

257

00:16:49,560 --> 00:16:55,560

They're following a lead that civilians are preparing their own underground structures for 2012.

258

00:16:55,560 --> 00:17:01,560

Some of them want to keep it a secret, but one man is willing to give Jesse Ventura a preview.

259

00:17:02,560 --> 00:17:04,560

The old missile base.

260

00:17:04,560 --> 00:17:05,560

This old missile base.

261

00:17:05,560 --> 00:17:08,560

Site 11, the old missile base.

262

00:17:09,560 --> 00:17:11,560

See, we got barbed wire fencing.

263

00:17:11,560 --> 00:17:13,560

There it is, there it is.

264

00:17:13,560 --> 00:17:15,560

Look at that thing.

265

00:17:19,560 --> 00:17:25,560

Larry Hall is the frontman for the 2012 silo project.

266

00:17:25,560 --> 00:17:28,560

This is an Atlas F missile site.

267

00:17:28,560 --> 00:17:30,560

Soon to be a survival condo.

268

00:17:30,560 --> 00:17:32,560

It's an impressive facility.

269

00:17:32,560 --> 00:17:37,560

And this actually housed a missile at one point for national defense.

270

00:17:37,560 --> 00:17:42,560

An intercontinental nuclear-tip ballistic missile that was capable of reaching the Soviet Union.

271

00:17:42,560 --> 00:17:49,560

We're essentially leveraging the tremendously expensive facility of this infrastructure to convert to a modern day use.

272

00:17:49,560 --> 00:17:57,560

So for us to reproduce this cost today, estimates run in the 50 to 60 million dollar range to reproduce this superstructure.

273

00:17:57,560 --> 00:17:58,560

Let's go take a look.

274

00:17:58,560 --> 00:17:59,560

Yeah.

275

00:18:01,560 --> 00:18:02,560

Watch your step here.

276

00:18:02,560 --> 00:18:04,560

This railing is here for an obvious reason.

277

00:18:04,560 --> 00:18:06,560

Yeah, you don't want it.

278

00:18:08,560 --> 00:18:10,560

Oh yeah, it is big, isn't it?

279

00:18:11,560 --> 00:18:13,560

How many feet down is that thing?

280

00:18:13,560 --> 00:18:16,560

184 feet from where your feet are.

281

00:18:16,560 --> 00:18:28,560

These walls and the cap that we're standing on are 9 feet thick of epoxy hardened concrete with some 600 tons of rebar throughout this facility.

282

00:18:28,560 --> 00:18:35,560

This one half of the door, each half weighs 150,000 pounds, 75 tons.

283

00:18:36,560 --> 00:18:40,560

We've got the crane and the basket take us down there.

284

00:18:40,560 --> 00:18:41,560

You want to see what it's all about?

285

00:18:41,560 --> 00:18:42,560

Yeah, why not?

286

00:18:43,560 --> 00:18:47,560

The governor prepares to step into an uncertain future.

287

00:18:48,560 --> 00:18:49,560

Alright.

288

00:18:49,560 --> 00:18:53,560

Never been lowered down into a missile silo before.

289

00:18:54,560 --> 00:18:56,560

Only a piece walking.

290

00:19:06,560 --> 00:19:10,560

Amazing how thick this concrete is.

291

00:19:11,560 --> 00:19:13,560

Well, this is very interesting.

292

00:19:13,560 --> 00:19:29,560

We're right in the middle right now of a former nuclear missile silo, 14 stories deep, that eventually is going to be built into condominiums that will survive virtually almost anything you can imagine.

293

00:19:31,560 --> 00:19:33,560

About 12 more feet.

294

00:19:36,560 --> 00:19:37,560

Good.

295

00:19:37,560 --> 00:19:38,560

Good, good.

296

00:19:41,560 --> 00:19:46,560

Think of this as an inverter, I'll slide down 15 story condominium building.

297

00:19:46,560 --> 00:19:48,560

There will be a pool level on the bottom.

298

00:19:48,560 --> 00:19:53,560

There's a mezzanine level above that that contains a workout facility.

299

00:19:53,560 --> 00:19:56,560

Then there's quite a few other levels.

300

00:19:56,560 --> 00:19:58,560

There's six condominium levels.

301

00:19:58,560 --> 00:20:04,560

There are facilities for hydroponic and aquaculture so we can grow our own organic food.

302

00:20:04,560 --> 00:20:10,560

We're putting all types of green technologies, wind turbines and photovoltaic for heating.

303

00:20:10,560 --> 00:20:13,560

We've got some geothermal heat exchangers that we're putting in here to help.

304

00:20:13,560 --> 00:20:17,560

This is an incredibly energy efficient structure.

305

00:20:18,560 --> 00:20:23,560

The many features of this underground housing project make it easy to forget.

306

00:20:23,560 --> 00:20:29,560

People are buying the condos because they believe disaster will strike in 2012.

307

00:20:30,560 --> 00:20:33,560

You've got people that are prepared to buy into this right now.

308

00:20:33,560 --> 00:20:35,560

Now are they just paranoid?

309

00:20:35,560 --> 00:20:36,560

I don't think they're paranoid.

310

00:20:36,560 --> 00:20:42,560

All the interest in 2012 related events and some of the new science that we've gathered from that is,

311

00:20:42,560 --> 00:20:46,560

is I think what's really pushing the interest in this facility.

312

00:20:46,560 --> 00:20:48,560

We can sell this one.

313

00:20:48,560 --> 00:20:51,560

We've got additional silos that we're going to build out.

314

00:20:51,560 --> 00:20:54,560

This is the first one and the response has been phenomenal.

315

00:20:55,560 --> 00:21:05,560

Now 2012, this day the Mayans predicted, there is a lot of scientific evidence that something bad could happen in 2012.

316

00:21:05,560 --> 00:21:07,560

Do you believe that?

317

00:21:07,560 --> 00:21:16,560

What 2012 represents and what we're finding out is increasing amounts of science would be back to the Dark Ages.

318

00:21:17,560 --> 00:21:23,560

If 2012 is true, why isn't our government raising the alarm?

319

00:21:23,560 --> 00:21:33,560

If you were the benefactor of information and you knew that there weren't enough resources worldwide or even nationally

320

00:21:33,560 --> 00:21:39,560

to protect and house everybody for events that are coming, what would you do?

321

00:21:40,560 --> 00:21:44,560

I believe that the government does know something bad is happening.

322

00:21:44,560 --> 00:21:48,560

I don't think they know whether it's going to be an extinction level event.

323

00:21:53,560 --> 00:21:58,560

Coming up, Jesse Ventura tracks down new clues to the 2012 conspiracy.

324

00:21:58,560 --> 00:22:07,560

The US government for the last 10 years have been on a crash shelter building program from coast to coast.

325

00:22:07,560 --> 00:22:13,560

Then, is a busy public facility a giant lid over a secret city?

326

00:22:13,560 --> 00:22:15,560

Jesse arrives to find out.

327

00:22:15,560 --> 00:22:21,560

We needed to work several years in the middle of nowhere where no one would watch what they were doing.

328

00:22:21,560 --> 00:22:27,560

And later, will a government spokesman admit there are secret doomsday bunkers for the elite?

329

00:22:27,560 --> 00:22:30,560

We probably will have the glass doors closed by the time you get here.

330

00:22:40,560 --> 00:22:45,560

Jesse Ventura is deep into the 2012 conspiracy.

331

00:22:45,560 --> 00:22:48,560

14 stories deep.

332

00:22:49,560 --> 00:22:55,560

He's already dug up evidence that the government is keeping secrets about a 2012 apocalypse.

333

00:22:55,560 --> 00:23:00,560

Now, he's about to reveal the truth about a top secret program.

334

00:23:01,560 --> 00:23:09,560

Building underground survival bunkers for the elite, leaving the rest of us to fry in an earthly hell.

335

00:23:09,560 --> 00:23:11,560

Now, watch your step here.

336

00:23:12,560 --> 00:23:17,560

The hunt has led Jesse and Braverman to a private civilian bunker in Kansas.

337

00:23:17,560 --> 00:23:22,560

While June gets a close look at alleged government bunkers seen by satellites.

338

00:23:24,560 --> 00:23:26,560

Those satellite images arrive.

339

00:23:26,560 --> 00:23:30,560

There are facilities or military bases out here in the middle of nowhere.

340

00:23:30,560 --> 00:23:33,560

All of them are guarded and some of the guards are armed.

341

00:23:33,560 --> 00:23:37,560

Excuse me, sir. Can we have permission to drive down this road?

342

00:23:37,560 --> 00:23:41,560

I'm sorry. You'd have to clear it through Northrop Security.

343

00:23:41,560 --> 00:23:45,560

So this is just a testing facility. This is what you do here.

344

00:23:45,560 --> 00:23:47,560

I can't discuss it with you.

345

00:23:47,560 --> 00:23:52,560

A lot of them have landing strips. That would help get materials in and out.

346

00:23:52,560 --> 00:23:56,560

It would also be a way to fly people in in 2012.

347

00:23:56,560 --> 00:24:02,560

There are a lot of these bases out here. They're definitely guarding things that we can't see.

348

00:24:02,560 --> 00:24:05,560

Things that very well could be underground.

349

00:24:06,560 --> 00:24:11,560

Back in the Kansas bunker, Jesse meets the man behind the survival plan.

350

00:24:12,560 --> 00:24:18,560

Jesse, this is Brian Camden. He is the architect and engineer of record for this project.

351

00:24:18,560 --> 00:24:23,560

How many of these structures are you involved in and how many do you know that are being built right now?

352

00:24:23,560 --> 00:24:27,560

Well, this will be our sixth Atlas F missile silo conversion.

353

00:24:27,560 --> 00:24:36,560

The majority of our clients are wealthy individuals who are looking for protection against 2012.

354

00:24:37,560 --> 00:24:41,560

The major conditions that you have to look at are the air supply.

355

00:24:41,560 --> 00:24:46,560

How many persons is the shelter going to be designed to hold with the occupant load on it?

356

00:24:46,560 --> 00:24:47,560

Sure.

357

00:24:47,560 --> 00:24:58,560

And we do a concept that's called balance survivability so that all systems have the same level of survivability depending on any given threat scenario.

358

00:24:59,560 --> 00:25:08,560

One of the scenarios of 2012 is this 5,000 foot tall tsunami wave that will wash over the continental United States.

359

00:25:08,560 --> 00:25:16,560

2012 bunkers we build now are designed to be completely submerged underwater for 100 hours.

360

00:25:16,560 --> 00:25:17,560

Really?

361

00:25:17,560 --> 00:25:23,560

Yes. And the withstand fires of the surrounding area to 1200 degrees for six days.

362

00:25:24,560 --> 00:25:29,560

When December comes of 2012, are you going to be here with your family?

363

00:25:29,560 --> 00:25:32,560

I play on B vacationing at that time. They're in it.

364

00:25:32,560 --> 00:25:33,560

And you too?

365

00:25:33,560 --> 00:25:34,560

Yes.

366

00:25:34,560 --> 00:25:35,560

Really?

367

00:25:35,560 --> 00:25:38,560

That's got to speak volumes to us all, doesn't it?

368

00:25:39,560 --> 00:25:47,560

The architect is obviously privy to high level intelligence. Jesse grills him for information on the government's scheme.

369

00:25:47,560 --> 00:25:50,560

What's the largest one that you know of?

370

00:25:51,560 --> 00:25:52,560

I can't say on camera.

371

00:25:52,560 --> 00:25:53,560

You can't say on camera?

372

00:25:53,560 --> 00:25:54,560

No, no, no.

373

00:25:56,560 --> 00:26:02,560

Jesse is hit on a sensitive subject. He appears to be getting close to a well guarded secret.

374

00:26:02,560 --> 00:26:11,560

But I can tell you the US government for the last 10 years have been on a crash shelter building program from coast to coast.

375

00:26:12,560 --> 00:26:19,560

There have been times when I was trying to order blast valves or filtering equipment for a private client.

376

00:26:19,560 --> 00:26:24,560

And during that time period, you could not get it because the government was buying everything.

377

00:26:26,560 --> 00:26:30,560

First person confirmation of a secret government bunker program.

378

00:26:30,560 --> 00:26:36,560

The architect's claim is explosive, but it pales compared to what he reveals next.

379

00:26:37,560 --> 00:26:43,560

How big is the largest one you know of then without saying where or when or who?

380

00:26:43,560 --> 00:26:45,560

How big is the largest one you know of?

381

00:26:45,560 --> 00:26:49,560

The largest one I know of is about 300,000 square feet.

382

00:26:49,560 --> 00:26:52,560

It is built by the government.

383

00:26:52,560 --> 00:26:55,560

It is located in the Midwest.

384

00:26:55,560 --> 00:27:00,560

It is designed specifically for 2012 in economic collapse.

385

00:27:00,560 --> 00:27:01,560

Really?

386

00:27:01,560 --> 00:27:03,560

300,000 square foot.

387

00:27:03,560 --> 00:27:04,560

Yes.

388

00:27:04,560 --> 00:27:06,560

Specifically for the government.

389

00:27:06,560 --> 00:27:07,560

Yes.

390

00:27:07,560 --> 00:27:13,560

Under an obvious government facility.

391

00:27:13,560 --> 00:27:20,560

But if you are building a 300,000 square foot, anybody, it is hard to keep that a secret, right?

392

00:27:20,560 --> 00:27:22,560

You have huge amounts of equipment and manpower.

393

00:27:22,560 --> 00:27:28,560

What if you were building an above ground structure that took in 4 or 5 square miles?

394

00:27:28,560 --> 00:27:31,560

And this was just a part of it right underneath of it.

395

00:27:31,560 --> 00:27:36,560

Then it could be blended in with the regular work and nobody would really pay attention to it.

396

00:27:36,560 --> 00:27:43,560

If you were building a major metropolitan airport, think how easily it would be to build in underneath of it.

397

00:27:43,560 --> 00:27:44,560

Are you giving us a hint?

398

00:27:44,560 --> 00:27:46,560

That's a hint right there.

399

00:27:59,560 --> 00:28:01,560

14 stories underground.

400

00:28:01,560 --> 00:28:06,560

Jesse Ventura has been given a cryptic clue to the 2012 conspiracy.

401

00:28:06,560 --> 00:28:14,560

The largest underground survival bunker built by the US government under a major US airport.

402

00:28:14,560 --> 00:28:20,560

Jesse's got his conspiracy team following up even before he's back to the surface.

403

00:28:20,560 --> 00:28:21,560

Governor?

404

00:28:21,560 --> 00:28:22,560

Yep.

405

00:28:22,560 --> 00:28:25,560

I've been researching the lead and I think it's quite obvious.

406

00:28:25,560 --> 00:28:26,560

Really?

407

00:28:26,560 --> 00:28:28,560

Coming up.

408

00:28:28,560 --> 00:28:32,560

Jesse follows leads to what could be two secret government bunkers.

409

00:28:32,560 --> 00:28:36,560

Can one be found through law symbols and secret signs?

410

00:28:36,560 --> 00:28:40,560

This looks like a mural of the destruction of the world.

411

00:28:40,560 --> 00:28:47,560

And the other already locked and stocked for Washington power brokers and their rich supporters.

412

00:28:47,560 --> 00:28:52,560

Are your security forces prepared to fire on American citizens to protect the facility?

413

00:28:52,560 --> 00:28:53,560

They'll do what it takes.

414

00:28:56,560 --> 00:29:05,560

The disaster is coming in 2012.

415

00:29:05,560 --> 00:29:07,560

The ancient Mayans predicted it.

416

00:29:07,560 --> 00:29:10,560

Now our government is preparing for it.

417

00:29:10,560 --> 00:29:16,560

Building underground bunkers so the elite can hide while the rest of us die.

418

00:29:16,560 --> 00:29:29,560

The US government for the last 10 years have been on a crash shelter building program from coast to coast.

419

00:29:29,560 --> 00:29:34,560

That's the conspiracy theory Jesse Ventura has been unraveling.

420

00:29:34,560 --> 00:29:40,560

And a survivalist architect has given him a clue to the biggest government bunker of all.

421

00:29:40,560 --> 00:29:42,560

Governor?

422

00:29:42,560 --> 00:29:43,560

Yep.

423

00:29:43,560 --> 00:29:45,560

He's talking about Denver Airport.

424

00:29:45,560 --> 00:29:46,560

Really?

425

00:29:46,560 --> 00:29:47,560

Yep.

426

00:29:47,560 --> 00:29:51,560

The conspiracy theory people believe that Denver Airport was built to hide a bunker.

427

00:29:51,560 --> 00:29:53,560

It went where as a budget.

428

00:29:53,560 --> 00:29:55,560

It's in the middle of nowhere.

429

00:29:55,560 --> 00:29:59,560

And they moved about a third of the earth that they moved to build the Panama Canal.

430

00:29:59,560 --> 00:30:00,560

Really?

431

00:30:00,560 --> 00:30:05,560

The interesting thing is the military have given us the okay to go to Cheyenne Mountain.

432

00:30:05,560 --> 00:30:06,560

Okay.

433

00:30:06,560 --> 00:30:08,560

Cheyenne Mountain, Colorado.

434

00:30:08,560 --> 00:30:13,560

The US military's fortified command center in underground survival bunker.

435

00:30:13,560 --> 00:30:15,560

It's no secret.

436

00:30:15,560 --> 00:30:25,560

But some conspiracy theorists believe a secret underground rail system connects it to the Denver Airport 120 miles away.

437

00:30:25,560 --> 00:30:28,560

But I think the airport is definitely the place to investigate.

438

00:30:28,560 --> 00:30:29,560

Yep.

439

00:30:29,560 --> 00:30:31,560

Well then it's obvious I gotta go to Denver.

440

00:30:31,560 --> 00:30:32,560

First plane available.

441

00:30:32,560 --> 00:30:34,560

Bye bye.

442

00:30:34,560 --> 00:30:37,560

Now the conspiracy team will attack on two fronts.

443

00:30:37,560 --> 00:30:44,560

Jesse's advisor Michael Braverman will infiltrate the stronghold for politicians and the military command.

444

00:30:44,560 --> 00:30:51,560

The governor will fly to Denver International Airport in search of bunkers for the elite.

445

00:30:51,560 --> 00:30:56,560

There's a lot of strange things about this airport.

446

00:30:56,560 --> 00:30:59,560

It's 25 miles from Denver.

447

00:30:59,560 --> 00:31:05,560

That's 19 miles farther away than old Stapleton Airport, which seemed to be just fine.

448

00:31:05,560 --> 00:31:10,560

And they didn't just lay down runways and build terminals.

449

00:31:10,560 --> 00:31:14,560

They've got enough fiber optic cables to cover a city.

450

00:31:14,560 --> 00:31:19,560

A fueling system that's much bigger than any airport would ever need.

451

00:31:19,560 --> 00:31:23,560

Underground tunnels you can drive trucks through.

452

00:31:23,560 --> 00:31:31,560

And it just happens to be in the middle of a big flat vacant piece of land that's twice the size of Manhattan.

453

00:31:35,560 --> 00:31:38,560

When Jesse arrives, Jay Weidner is there to meet him.

454

00:31:38,560 --> 00:31:40,560

Welcome to Denver International Airport.

455

00:31:40,560 --> 00:31:42,560

Oh thank you. Let's take a walk and find out.

456

00:31:42,560 --> 00:31:45,560

Weidner is a renowned 2012 conspiracy expert.

457

00:31:45,560 --> 00:31:48,560

He knows his way around the mysteries of Denver International.

458

00:31:48,560 --> 00:31:51,560

And the mysteries are not hard to find.

459

00:31:51,560 --> 00:31:58,560

Jesse is only a few steps into the main terminal when he's confronted with a sight out of a Dan Brown novel.

460

00:31:58,560 --> 00:32:00,560

Now this is the symbol of the Freemasons, right?

461

00:32:00,560 --> 00:32:02,560

It is.

462

00:32:02,560 --> 00:32:07,560

The Freemasons, the world's largest secret society,

463

00:32:07,560 --> 00:32:13,560

accused in conspiracies from Satanism to extraterrestrials to the New World Order.

464

00:32:13,560 --> 00:32:16,560

It says New World Airport Commission.

465

00:32:16,560 --> 00:32:17,560

Yes.

466

00:32:17,560 --> 00:32:21,560

Those are strange words. New World Airport Commission.

467

00:32:21,560 --> 00:32:22,560

Yes.

468

00:32:22,560 --> 00:32:23,560

Who are they?

469

00:32:23,560 --> 00:32:27,560

That's actually the \$64 million question because we can't find that out.

470

00:32:27,560 --> 00:32:31,560

But that's nothing compared to what's around the corner.

471

00:32:31,560 --> 00:32:38,560

Ignored by thousands of travelers each day, yet displayed in plain sight.

472

00:32:38,560 --> 00:32:40,560

What the hell is this?

473

00:32:40,560 --> 00:32:43,560

Why would someone put this in an airport?

474

00:32:43,560 --> 00:32:46,560

What are they trying to tell us?

475

00:32:46,560 --> 00:32:49,560

That's the mother of all solar flares.

476

00:32:49,560 --> 00:32:53,560

All the kids are crying and they're holding on and they're looking.

477

00:32:53,560 --> 00:32:57,560

I mean this is literally almost a portrayal of the end of the earth.

478

00:32:57,560 --> 00:33:01,560

It is and the world will be destroyed by fire and there it is.

479

00:33:01,560 --> 00:33:03,560

And look at who's going extinct here.

480

00:33:03,560 --> 00:33:05,560

It's not just animals.

481

00:33:09,560 --> 00:33:10,560

It's people.

482

00:33:10,560 --> 00:33:19,560

So there's a strange motif of Mayan symbolism mixed in with this end of the world motif

483

00:33:19,560 --> 00:33:24,560

which actually explains the purpose of Denver International Airport.

484

00:33:24,560 --> 00:33:26,560

Right here, this explains it.

485

00:33:26,560 --> 00:33:32,560

This is a place for the elites to escape from what this is.

486

00:33:34,560 --> 00:33:41,560

While Jesse translates law symbols, Braverman has managed to get inside Cheyenne Mountain.

487

00:33:41,560 --> 00:33:46,560

This is, as I understand it, the most secure facility in the world.

488

00:33:46,560 --> 00:33:49,560

We like to call it America's Fortress.

489

00:33:49,560 --> 00:33:56,560

A retired Air Force Colonel shows him the place where term officials plan to hide from 2012 disaster.

490

00:33:56,560 --> 00:33:58,560

There are 15 buildings inside here?

491

00:33:58,560 --> 00:33:59,560

There sure are.

492

00:33:59,560 --> 00:34:01,560

12 of those are three stories.

493

00:34:01,560 --> 00:34:02,560

12 three-story boats.

494

00:34:02,560 --> 00:34:03,560

That's correct.

495

00:34:03,560 --> 00:34:04,560

Wow.

496

00:34:04,560 --> 00:34:06,560

We're going about a third of a mile inside the mountain.

497

00:34:06,560 --> 00:34:09,560

A third of a mile through solid rock?

498

00:34:09,560 --> 00:34:10,560

That's correct.

499

00:34:10,560 --> 00:34:12,560

Solid Pikes Peak Grana.

500

00:34:12,560 --> 00:34:15,560

This looks like a mural of the destruction of the world.

501

00:34:15,560 --> 00:34:21,560

These people are living in a basement and all these people are refugees.

502

00:34:21,560 --> 00:34:27,560

And the Lord of Death with the Eagle and the AK-47 is killing the dove of peace.

503

00:34:27,560 --> 00:34:29,560

This is a person from the future.

504

00:34:29,560 --> 00:34:34,560

The future? The man with the machine gun is already here.

505

00:34:34,560 --> 00:34:38,560

Already guarding the 2012 bunkers.

506

00:34:38,560 --> 00:34:43,560

Coming up, the military shocking confirmation of the Doomsday plans.

507

00:34:43,560 --> 00:34:46,560

We probably will have the blast force closed by the time you get here.

508

00:34:46,560 --> 00:34:48,560

So knocking on the Muldermen will do me no good.

509

00:34:48,560 --> 00:34:50,560

You can knock all day long.

510

00:34:50,560 --> 00:34:56,560

And Jesse confronts evidence that construction for the government's predicted apocalypse is still underway.

511

00:34:56,560 --> 00:35:01,560

What in the hell are those? Those are absolutely for a tunnel.

512

00:35:01,560 --> 00:35:17,560

Jesse Ventura is at Denver International Airport searching for evidence of secret 2012 bunkers.

513

00:35:17,560 --> 00:35:26,560

He's getting closer in a scavenger hunt for law symbols when suddenly he's confronted by airport police.

514

00:35:26,560 --> 00:35:29,560

So there's nothing underneath there?

515

00:35:29,560 --> 00:35:37,560

The policemen dismiss the conspiracy theories, but they do confirm the place is laced with underground tunnels.

516

00:35:37,560 --> 00:35:42,560

You see the train you take down here? It actually runs under all the tarmacs and all the other tunnels.

517

00:35:42,560 --> 00:35:46,560

The tunnels on each side of the train is taken total to east tunnel and west tunnel.

518

00:35:46,560 --> 00:35:52,560

Jesse doesn't need the cops for details. The airport is speaking for itself.

519

00:35:53,560 --> 00:36:00,560

It says you can only RSVP a spot in the Doomsday bunker if you can read the invitation.

520

00:36:00,560 --> 00:36:05,560

I don't know why he's coming out of a suitcase, but it's a very disturbing image.

521

00:36:05,560 --> 00:36:11,560

Well, let me ask this. Why are they giving all the hints? I mean, it's like they're almost telling you a story here.

522

00:36:11,560 --> 00:36:16,560

They're almost saying, OK, if you're perceptive enough, you're going to get what's going to happen.

523

00:36:16,560 --> 00:36:19,560

If you're not perceptive, you're just going to have to deal with it when it happens.

524

00:36:19,560 --> 00:36:27,560

See, that's exactly the point. They only want people to survive who have certain kinds of perceptive skills.

525

00:36:32,560 --> 00:36:42,560

Meanwhile, Jesse's advisor is a short distance away inside Cheyenne Mountain, the US government's military command center and bunker.

526

00:36:42,560 --> 00:36:47,560

So now we're deep inside the mountains. As far inside the mountains as you can get right now.

527

00:36:49,560 --> 00:36:52,560

This is the storage area where we keep our button up kits.

528

00:36:52,560 --> 00:36:53,560

What does button up mean?

529

00:36:53,560 --> 00:37:03,560

Button up is when we have a thread out there and we close the blast doors and we plan to have enough crews and personnel in here to maintain the mission for a period of time.

530

00:37:03,560 --> 00:37:11,560

In order to do that, we have to have materials for sleeping, for eating, meals ready to eat.

531

00:37:11,560 --> 00:37:13,560

We could support over a thousand folks in the mountain.

532

00:37:13,560 --> 00:37:16,560

What kind of civilians might be allowed in?

533

00:37:16,560 --> 00:37:18,560

The civilians that support the mission here.

534

00:37:19,560 --> 00:37:28,560

Jesse and his guide, Jay Weidner, drive away from the terminal into the 53 square miles of flat vacant land surrounding the airport.

535

00:37:29,560 --> 00:37:35,560

I've learned that in the last decade, the government can't build enough bunkers.

536

00:37:35,560 --> 00:37:36,560

That's exactly right.

537

00:37:36,560 --> 00:37:40,560

Now that leads you with why are they building these bunkers?

538

00:37:40,560 --> 00:37:51,560

The real question is this, Jesse. Why wouldn't the US government take precautions against some kind of external or internal catastrophe?

539

00:37:52,560 --> 00:37:54,560

Why can't they be out front about it?

540

00:37:54,560 --> 00:38:06,560

If everyone found out that there were safe quarters here and a comet was predicted to hit the earth in two weeks, you know, it's very serious security problems.

541

00:38:06,560 --> 00:38:14,560

There would be two, three million Coloradoans trying to get into the underground here and there is not enough room.

542

00:38:14,560 --> 00:38:27,560

Also, I've heard from people that one of the things where they buy confidence is of politicians and people in the military is they're offering them seats here at Denver Airport.

543

00:38:27,560 --> 00:38:30,560

You get a seat to get into the mountains and they're limited seats.

544

00:38:30,560 --> 00:38:33,560

And you think that's how the silence is held?

545

00:38:33,560 --> 00:38:34,560

Absolutely.

546

00:38:35,560 --> 00:38:40,560

Inside Cheyenne Mountain, the Colonel is about to make a chilling revelation.

547

00:38:40,560 --> 00:38:42,560

Everybody seems to know where this facility is.

548

00:38:42,560 --> 00:38:47,560

Let's say that there's a mass event, a terrible crisis like 2012.

549

00:38:47,560 --> 00:38:54,560

What would happen in the event that hundreds of thousands of people storm the gates and want to get in?

550

00:38:54,560 --> 00:39:00,560

That would be a problem. We would have to control that kind of an entourage coming up to the facility.

551

00:39:00,560 --> 00:39:06,560

Are your security forces prepared to fire on American citizens to protect the facility?

552

00:39:06,560 --> 00:39:10,560

Um, they're trained to protect this facility.

553

00:39:12,560 --> 00:39:14,560

And they'll do what it takes.

554

00:39:14,560 --> 00:39:16,560

And they'll do what it takes.

555

00:39:20,560 --> 00:39:25,560

Jesse isn't far from the terminal when he sees something that's almost as shocking.

556

00:39:26,560 --> 00:39:27,560

Construction.

557

00:39:27,560 --> 00:39:31,560

Denver International Airport construction support.

558

00:39:31,560 --> 00:39:38,560

Clearly there's a lot of construction still going on when you look at this because these aren't abandoned places out here.

559

00:39:38,560 --> 00:39:41,560

Surprise that we're even here without getting arrested.

560

00:39:41,560 --> 00:39:48,560

There's also excavation. Clear evidence they're still digging beneath the airport property.

561

00:39:48,560 --> 00:39:52,560

See now that pile of dirt over there, way over there?

562

00:39:52,560 --> 00:39:54,560

That's not a mountain, that's dirt.

563

00:39:54,560 --> 00:39:56,560

This is completely flat here. This is a great place.

564

00:39:56,560 --> 00:39:58,560

That dirt came from somewhere.

565

00:39:58,560 --> 00:40:01,560

Look at the massive quantity of rock.

566

00:40:01,560 --> 00:40:13,560

And then the reason all the earth is being moved, like statues in the desert, tunnels, structures waiting to be placed underground.

567

00:40:13,560 --> 00:40:19,560

What in the hell are those? Those are absolutely for a tunnel. There's no doubt about that.

568

00:40:26,560 --> 00:40:31,560

We've heard that there are tunnels that connect this facility to the Denver Airport.

569

00:40:31,560 --> 00:40:36,560

And we've heard that there is an underground city that dwarfs this.

570

00:40:36,560 --> 00:40:40,560

That's four or five times the size of this built under the Denver Airport.

571

00:40:40,560 --> 00:40:44,560

I am not aware of any kind of facility like that in Denver.

572

00:40:47,560 --> 00:40:54,560

Let's say there is a crisis in 2012. Is this facility equipped to withstand it?

573

00:40:54,560 --> 00:40:56,560

We're very well protected, obviously.

574

00:40:56,560 --> 00:40:58,560

Can I come back if something terrible happens?

575

00:40:58,560 --> 00:41:02,560

We probably will have the blast doors closed by the time you get here.

576

00:41:02,560 --> 00:41:04,560

So knocking on them will do me no good.

577

00:41:04,560 --> 00:41:06,560

You can knock all day long.

578

00:41:10,560 --> 00:41:12,560

They're still working.

579

00:41:12,560 --> 00:41:17,560

There's a lot of construction here. They're refurbishing and rebuilding their underground city.

580

00:41:17,560 --> 00:41:21,560

They made their worst case scenario escape hatch.

581

00:41:21,560 --> 00:41:26,560

You firmly believe there's an underground facility underneath this new Denver Airport.

582

00:41:26,560 --> 00:41:31,560

I've had drywallers, I've had painters, I've had mechanics tell me it. Why would they lie?

583

00:41:31,560 --> 00:41:35,560

I believe them. Too many people tell me the same story and they're just regular folks.

584

00:41:35,560 --> 00:41:37,560

They don't have an agenda.

585

00:41:37,560 --> 00:41:41,560

It's part of a plan to save their butts when the end of the world comes.

586

00:41:43,560 --> 00:41:46,560

And they've got all the money in the world so they can do anything they want.

587

00:41:46,560 --> 00:41:48,560

It's as simple as that.

588

00:41:48,560 --> 00:41:50,560

That's all it is.

589

00:41:52,560 --> 00:42:01,560

More than a dozen contractors refuse to speak with the governor about underground bunkers beneath

the airport.

590

00:42:03,560 --> 00:42:06,560

Put all the ancient prophecies and myths aside.

591

00:42:06,560 --> 00:42:13,560

Experts tell us there's scientific evidence that 2012 could mean big trouble for old Mother Earth.

592

00:42:13,560 --> 00:42:18,560

And no one in the government is even warning us to set aside a flashlight.

593

00:42:18,560 --> 00:42:21,560

A lot of people are already making their own plans.

594

00:42:21,560 --> 00:42:28,560

I never thought I'd see the day when people traded their homes for condos and missile silos.

595

00:42:28,560 --> 00:42:31,560

But they are. And government bunkers?

596

00:42:31,560 --> 00:42:36,560

They're no secret. The only thing we don't know is how many and where.

597

00:42:36,560 --> 00:42:43,560

I'll be thinking about it the next time I fly into Denver Airport and we'll follow up in 2013.

598

00:42:43,560 --> 00:42:48,560

Maybe. I'm Jesse Ventura and this is Conspiracy Theory.

599

00:43:13,560 --> 00:43:15,560

Conspiracy Theory
