

1

00:00:00,000 --> 00:00:07,000

There's something about this place that seems to have attracted that UFO.

2

00:00:07,000 --> 00:00:11,400

Our mission is to answer one of the most important questions in the world.

3

00:00:11,400 --> 00:00:15,160

We have a cluster of sightings in this three mile area.

4

00:00:15,160 --> 00:00:19,120

As contact been made, do extra terrestrials exist?

5

00:00:19,120 --> 00:00:20,120

Holy ****.

6

00:00:20,120 --> 00:00:21,960

It's almost like it's some sort of lab.

7

00:00:21,960 --> 00:00:26,640

The closer we get, the more it feels like the answers are locked away.

8

00:00:26,640 --> 00:00:28,040

Hello.

9

00:00:28,040 --> 00:00:30,920

I don't see this island on this map.

10

00:00:30,920 --> 00:00:32,880

That was the site of a secret government project.

11

00:00:32,880 --> 00:00:34,840

It's been abandoned for 50 years.

12

00:00:34,840 --> 00:00:39,840

It's starting to feel like governments around the world know something that we don't.

13

00:00:39,840 --> 00:00:41,680

This is an unclassified secret document.

14

00:00:41,680 --> 00:00:43,840

They didn't expect the public to see this.

15

00:00:43,840 --> 00:00:49,520

With the CIA, I started to understand the impact of secrets.

16

00:00:49,520 --> 00:00:50,520

What?

17

00:00:50,520 --> 00:00:52,200

But we deserve the truth.

18

00:00:52,200 --> 00:00:54,920

And the only way we're going to find the answers is on our own.

19

00:00:54,920 --> 00:00:56,640

This place is built like a bunker.

20

00:00:56,640 --> 00:00:58,640

It's definitely made with special purpose.

21

00:01:12,640 --> 00:01:15,120

We've got about five minutes until we get there now.

22

00:01:15,120 --> 00:01:16,120

Okay.

23

00:01:16,120 --> 00:01:20,720

Following a lead in their global investigation into possible extra terrestrial contact with

24

00:01:20,720 --> 00:01:26,240

planet Earth, U.S. Marine Intelligence Officer Nick Carnese and astrophysicist and space

25

00:01:26,240 --> 00:01:31,000

journalist Sarah Crutus head to a UFO hotspot in Carnero, Kansas.

26

00:01:31,000 --> 00:01:32,640

It is interesting though.

27

00:01:32,640 --> 00:01:35,840

We have a suspected landing site and then literally right down the street, we have a

28

00:01:35,840 --> 00:01:38,160

cluster of sidings in this three mile area.

29

00:01:38,160 --> 00:01:39,360

Yeah.

30

00:01:39,360 --> 00:01:44,280

What started out as a pretty wild story, now we've got some real science behind.

31

00:01:44,280 --> 00:01:47,080

Just the soil from the ring repels water.

32

00:01:47,080 --> 00:01:51,720

After the field team's discovery of physical evidence at a UFO landing site known as the

33

00:01:51,720 --> 00:01:57,040

Delfast ring, the command center identified a cluster of UFO sightings.

34

00:01:57,040 --> 00:01:59,680

What is happening in Carnero, Kansas?

35

00:01:59,680 --> 00:02:03,960

All centered around a three mile swath of Kansas farmland.

36

00:02:03,960 --> 00:02:08,240

It's so strange that we have a suspected landing site back in Delfast and not too far away

37

00:02:08,240 --> 00:02:10,800

we have this cluster of low level sightings.

38

00:02:10,800 --> 00:02:11,800

There could be multiple reasons.

39

00:02:11,800 --> 00:02:15,800

We need to see if there's anything in this three mile square area that relates to it.

40

00:02:16,000 --> 00:02:20,520

Most of the sidings in this area relate to low hovering objects which sound oddly similar

41

00:02:20,520 --> 00:02:22,080

to the Delfast ring incident.

42

00:02:22,080 --> 00:02:24,960

What could possibly be around here that might be drawing these objects?

43

00:02:24,960 --> 00:02:26,960

So it's just here we need to turn.

44

00:02:32,160 --> 00:02:34,840

So this is the edge of the three mile square area.

45

00:02:37,080 --> 00:02:40,280

Country roads, we've got maybe a barn over there but otherwise nothing.

46

00:02:41,280 --> 00:02:42,280

There we go.

47

00:02:43,280 --> 00:02:46,280

Do you want to get the drone out?

48

00:02:46,280 --> 00:02:48,280

Yeah, let's go take a look.

49

00:02:51,280 --> 00:02:56,280

Alright, I just set the search area and it will be good.

50

00:02:56,280 --> 00:02:58,280

Do you want to just expand it up a little bit?

51

00:02:58,280 --> 00:03:00,280

Yeah, I don't want to do that.

52

00:03:00,280 --> 00:03:02,280

Alright, it should be good.

53

00:03:09,280 --> 00:03:11,280

Image capture started.

54

00:03:11,280 --> 00:03:12,280

Here we go.

55

00:03:25,280 --> 00:03:28,280

This is going way faster than we could do anything like this on foot.

56

00:03:34,280 --> 00:03:40,280

After making eight passes across the three mile search zone, the drone completes its aerial survey.

57

00:03:42,280 --> 00:03:43,280

Alright.

58

00:03:43,280 --> 00:03:44,280

You got it?

59

00:03:44,280 --> 00:03:45,280

Yeah.

60

00:03:47,280 --> 00:03:49,280

Alright, let's pull up this render.

61

00:03:50,280 --> 00:03:56,280

Alright, so the rendering just completed and this is 3D modeled of the terrain so we can actually see trees.

62

00:03:56,280 --> 00:03:59,280

We're going to start on the corner and start walking our way through.

63

00:04:00,280 --> 00:04:01,280

See this tree line?

64

00:04:01,280 --> 00:04:02,280

Yep.

65

00:04:02,280 --> 00:04:03,280

There's a break and you can see there's a path.

66

00:04:03,280 --> 00:04:05,280

Zoom out just a little bit here.

67

00:04:06,280 --> 00:04:09,280

Yeah, now that's a field, that's a cloud field.

68

00:04:09,280 --> 00:04:14,280

So it just looks like a mix of some farmland, grazing land and trees so far.

69

00:04:15,280 --> 00:04:16,280

This, what's this here?

70

00:04:18,280 --> 00:04:20,280

Oh no, what is that?

71

00:04:20,280 --> 00:04:21,280

That's interesting.

72

00:04:21,280 --> 00:04:23,280

That looks like a concrete pad.

73

00:04:23,280 --> 00:04:26,280

It's just, it's circular, almost looks like a landing pad.

74

00:04:27,280 --> 00:04:28,280

There's nothing on it.

75

00:04:28,280 --> 00:04:30,280

Here, let me adjust the angle here.

76

00:04:31,280 --> 00:04:32,280

That's substantial.

77

00:04:32,280 --> 00:04:33,280

Look at that.

78

00:04:33,280 --> 00:04:34,280

Can we zoom in further?

79

00:04:34,280 --> 00:04:35,280

Yeah.

80

00:04:35,280 --> 00:04:38,280

So what are these two square concretes, what's this here?

81

00:04:38,280 --> 00:04:42,280

Well that looks like another concrete pad and that looks like some sort of old structure on a pad.

82

00:04:42,280 --> 00:04:44,280

The circular concrete pad.

83

00:04:44,280 --> 00:04:46,280

I don't see any other houses, there's nothing else around here.

84

00:04:46,280 --> 00:04:49,280

Let's zoom out, there's not even a major roadway anywhere near this.

85

00:04:50,280 --> 00:04:51,280

I don't know what that could be.

86

00:04:51,280 --> 00:04:53,280

Yeah, that's just so unusual.

87

00:04:53,280 --> 00:04:56,280

We've identified an anomaly that appears to be concrete slab.

88

00:04:56,280 --> 00:04:59,280

And this is really weird because it is in the middle of nowhere.

89

00:04:59,280 --> 00:05:02,280

It doesn't make any sense why it would be there.

90

00:05:02,280 --> 00:05:06,280

And since it is located, literally smack dab in the middle of this cluster of sidings,

91

00:05:06,280 --> 00:05:09,280

I'm wondering if this has something to do with these sidings

92

00:05:09,280 --> 00:05:11,280

and if it could be connected to the Delford spring.

93

00:05:13,280 --> 00:05:17,280

From my experience, this isn't the sort of thing you'd expect to see in the middle of farmland in Kansas.

94

00:05:17,280 --> 00:05:19,280

Yeah, I mean there is nothing else around here.

95

00:05:21,280 --> 00:05:22,280

I think we need to go there.

96

00:05:36,280 --> 00:05:38,280

We just got an update from Argentina.

97

00:05:38,280 --> 00:05:43,280

In the command center, CIA veteran Mike Cole and conflict analyst Dr. Livingston

98

00:05:43,280 --> 00:05:47,280

assess the findings from their field team in Bariloche, Argentina.

99

00:05:48,280 --> 00:05:51,280

She lepon el costado al lado de rich.

100

00:05:51,280 --> 00:05:57,280

Where in 1995, multiple pilots claim a UFO touched down on airport grounds,

101

00:05:57,280 --> 00:05:59,280

causing an electrical blackout.

102

00:05:59,280 --> 00:06:03,280

This was an object moving through their airspace that doesn't show up on radar

103

00:06:03,280 --> 00:06:05,280

and is not responding to comms.

104

00:06:05,280 --> 00:06:09,280

At the exact same time, burnt markings are showing up on the airport grounds.

105

00:06:09,280 --> 00:06:11,280

I mean, what that is going on here?

106

00:06:11,280 --> 00:06:18,280

How could you have a burn circle appear in the exact same time vicinity as an eyewitness sees an object?

107

00:06:18,280 --> 00:06:20,280

These two incidents have to be related.

108

00:06:20,280 --> 00:06:22,280

Yeah, that's a hell of a coincidence.

109

00:06:22,280 --> 00:06:25,280

And at the same occurrence of this event, both city loses power?

110

00:06:25,280 --> 00:06:27,280

They never determine what it was.

111

00:06:27,280 --> 00:06:29,280

It makes no sense.

112

00:06:29,280 --> 00:06:34,280

Are we possibly looking at an indicator of a UFO and extraterrestrial intelligence?

113

00:06:34,280 --> 00:06:38,280

Touching down deliberately, landing on the surface of the earth.

114

00:06:38,280 --> 00:06:43,280

Let's see if we can get Paul and Kawa to find this pilot, Jorge Polanco,

115

00:06:43,280 --> 00:06:46,280

who witnessed the event and see what he can tell us from his perspective.

116

00:06:46,280 --> 00:06:49,280

Keep him hot on this trail and see what more they can find out.

117

00:06:49,280 --> 00:06:50,280

Absolutely.

118

00:07:00,280 --> 00:07:01,280

Wow.

119

00:07:02,280 --> 00:07:03,280

So beautiful.

120

00:07:03,280 --> 00:07:05,280

The view from up here is incredible, man.

121

00:07:05,280 --> 00:07:07,280

You can see the whole lake, you can see the city.

122

00:07:07,280 --> 00:07:12,280

Paul Beben, investigative journalist and Kawa Male, Green Beret intelligence sergeant,

123

00:07:12,280 --> 00:07:16,280

along with their translator Dario Amare, are high in the Patagonian mountains

124

00:07:16,280 --> 00:07:19,280

on their way to meet Captain Jorge Polanco,

125

00:07:19,280 --> 00:07:23,280

who nearly collided with the UFO while landing a Boeing 737

126

00:07:23,280 --> 00:07:26,280

filled with passengers at the Berloche airport.

127

00:07:26,280 --> 00:07:29,280

Up here we'll be able to see where he was going and where he says the object was going.

128

00:07:30,280 --> 00:07:34,280

This is a highly trained pilot who has years of experience in this.

129

00:07:34,280 --> 00:07:38,280

He actually flew his plane right next to a UFO.

130

00:07:38,280 --> 00:07:41,280

I mean, that is incredible. We've never seen anything like that.

131

00:07:41,280 --> 00:07:46,280

He can easily be the most important witness we've talked to so far.

132

00:07:49,280 --> 00:07:50,280

Hola.

133

00:07:50,280 --> 00:07:52,280

Como va? Hola.

134

00:07:52,280 --> 00:07:56,280

Jorge, we were just hoping to learn more about the UFO encounter at Berloche airport.

135

00:07:56,280 --> 00:07:58,280

We want to hear your story.

136

00:07:59,280 --> 00:08:10,280

When I was coming in, I saw a very bright light.

137

00:08:10,280 --> 00:08:13,280

At that point, could you see a shape on this object?

138

00:08:13,280 --> 00:08:15,280

Plato de sopa invertido.

139

00:08:15,280 --> 00:08:17,280

Like a saucer.

140

00:08:17,280 --> 00:08:18,280

Averted saucer.

141

00:08:18,280 --> 00:08:22,280

I called the control tower and asked them if they had any idea what that was.

142

00:08:22,280 --> 00:08:26,280

And they said that there was no other aircraft in the area.

143

00:08:29,280 --> 00:08:33,280

I formed and got next to me, following me in the descent.

144

00:08:33,280 --> 00:08:36,280

How close was this thing flying to your airplane?

145

00:08:36,280 --> 00:08:38,280

No more than 30 or 40 meters.

146

00:08:38,280 --> 00:08:40,280

That's only 100 feet.

147

00:08:40,280 --> 00:08:41,280

Wow.

148

00:08:41,280 --> 00:08:44,280

When I was near the airport, the power went out.

149

00:08:44,280 --> 00:08:48,280

So I had to abort the landing and go back up.

150

00:08:48,280 --> 00:08:49,280

What did you think was happening?

151

00:08:49,280 --> 00:08:50,280

Inexplicable.

152

00:08:50,280 --> 00:08:52,280

I can't explain it.

153

00:08:52,280 --> 00:08:57,280

When I saw that I was going back up, it went back to 10,000 feet,

154

00:08:57,280 --> 00:09:01,280

which is the altitude that I was going to go to, to go get back to the runway.

155

00:09:01,280 --> 00:09:05,280

It's like the UFO was always one step ahead of everything that I was thinking.

156

00:09:05,280 --> 00:09:10,280

The idea that you're flying your airplane next to a craft

157

00:09:10,280 --> 00:09:14,280

that seems to have every technological advantage, it's faster.

158

00:09:14,280 --> 00:09:15,280

You can't get away from it.

159

00:09:15,280 --> 00:09:16,280

That's scary.

160

00:09:16,280 --> 00:09:18,280

What was it doing?

161

00:09:18,280 --> 00:09:22,280

Jorge Polango uses an aviation map of the area

162

00:09:22,280 --> 00:09:25,280

to show the team the specific movements of the UFO.

163

00:09:25,280 --> 00:09:27,280

This is the airport.

164

00:09:27,280 --> 00:09:29,280

This is my plane.

165

00:09:29,280 --> 00:09:31,280

And this is the UFO.

166

00:09:31,280 --> 00:09:34,280

This is my trajectory.

167

00:09:34,280 --> 00:09:38,280

After aborting his landing, Jorge circled at 10,000 feet above the lake

168

00:09:38,280 --> 00:09:42,280

that surrounds Bariloche, awaiting instructions from the control tower.

169

00:09:42,280 --> 00:09:43,280

Up to here.

170

00:09:43,280 --> 00:09:47,280

The UFO moved from here to a fantastic speed.

171

00:09:47,280 --> 00:09:49,280

It goes to the center of the lake.

172

00:09:49,280 --> 00:09:51,280

And this is right out here.

173

00:09:51,280 --> 00:09:53,280

Here, there, there.

174

00:09:55,280 --> 00:09:57,280

Jorge, what do you think it was doing?

175

00:09:57,280 --> 00:10:00,280

I was waiting for it.

176

00:10:00,280 --> 00:10:02,280

The UFO hovered over the lake.

177

00:10:02,280 --> 00:10:05,280

We remember thinking it was standing its ground,

178

00:10:05,280 --> 00:10:08,280

as if it were protecting something on or around the lake.

179

00:10:08,280 --> 00:10:10,280

Yes.

180

00:10:10,280 --> 00:10:14,280

I mean, this might be weird, but what if it's the lake?

181

00:10:14,280 --> 00:10:16,280

I'm still asking.

182

00:10:16,280 --> 00:10:21,280

He later learned that there were many UFO sightings over the lake for years.

183

00:10:21,280 --> 00:10:24,280

The way this UFO aligned itself with Jorge's plane

184

00:10:24,280 --> 00:10:29,280

almost looked like a military escort over an unfriendly airspace.

185

00:10:29,280 --> 00:10:32,280

As if it was guarding the lake.

186

00:10:32,280 --> 00:10:38,280

And this isn't the first time that we've seen UFOs drawn to and circling these lakes.

187

00:10:38,280 --> 00:10:43,280

Earlier in the investigation, the team uncovered a pattern of UFO sightings

188

00:10:43,280 --> 00:10:46,280

leading them to a system of lakes in Chile,

189

00:10:46,280 --> 00:10:49,280

where billions of gallons of water disappeared overnight

190

00:10:49,280 --> 00:10:52,280

and strange circles formed on the surface during winter.

191

00:10:52,280 --> 00:10:55,280

What is NASA doing in Chile?

192

00:10:55,280 --> 00:10:59,280

What is it that's drawing all these UFOs to lakes around the world?

193

00:10:59,280 --> 00:11:02,280

Is there some kind of global pattern here?

194

00:11:06,280 --> 00:11:07,280

Coming up.

195

00:11:07,280 --> 00:11:09,280

No trespassing.

196

00:11:09,280 --> 00:11:10,280

Looks abandoned.

197

00:11:10,280 --> 00:11:13,280

Is it just coincidence we've had all these sightings here?

198

00:11:13,280 --> 00:11:15,280

Holy s***.

199

00:11:15,280 --> 00:11:18,280

Why would that UFO be hovering over this island?

200

00:11:18,280 --> 00:11:20,280

What is going on here?

201

00:11:30,280 --> 00:11:31,280

Morning.

202

00:11:31,280 --> 00:11:36,280

Investigative reporter Paul Bevan and Green Beret Intelligent Sergeant Calvamale

203

00:11:36,280 --> 00:11:38,280

are on the ground in Beroloche, Argentina.

204

00:11:38,280 --> 00:11:42,280

They are investigating a mysterious flying object,

205

00:11:42,280 --> 00:11:44,280

Plato de sopa invertido,

206

00:11:44,280 --> 00:11:46,280

that according to pilot Jorge Polanco,

207

00:11:46,280 --> 00:11:50,280

aggressively approached his commercial jet in 1995

208

00:11:50,280 --> 00:11:52,280

during a landing at Beroloché Airport

209

00:11:52,280 --> 00:11:54,280

and then circled the nearby lake.

210

00:11:54,280 --> 00:11:58,280

The UFO hovered over the lake as if it were protecting something.

211

00:11:58,280 --> 00:12:00,280

Okay, thank you.

212

00:12:00,280 --> 00:12:05,280

We've got to figure out what's behind the most intense UFO encounter

213

00:12:05,280 --> 00:12:06,280

that we've seen so far.

214

00:12:06,280 --> 00:12:10,280

What makes this area and this lake so important?

215

00:12:10,280 --> 00:12:14,280

Calvamale's got a map here that plots where the plane went.

216

00:12:14,280 --> 00:12:18,280

Based on what Polanco told us about where the UFO seemed to stop

217

00:12:18,280 --> 00:12:19,280

and hover over the lake,

218

00:12:19,280 --> 00:12:23,280

we plotted those coordinates against other flight paths

219

00:12:23,280 --> 00:12:25,280

in and out of Beroloche Airport.

220

00:12:25,280 --> 00:12:27,280

And by doing that, we're hoping to figure out

221

00:12:27,280 --> 00:12:31,280

what was motivating the UFO to seem to protect this area.

222

00:12:31,280 --> 00:12:35,280

Our goal here is to basically get to the spot of where we think this UFO hovered

223

00:12:35,280 --> 00:12:38,280

and see if we can see anything that sticks out.

224

00:12:38,280 --> 00:12:40,280

Okay, vamos.

225

00:12:44,280 --> 00:12:46,280

Guided by boat captain Luis Mencia,

226

00:12:46,280 --> 00:12:49,280

the team will head five miles into Noel Loppe Lake

227

00:12:49,280 --> 00:12:53,280

to the exact area that this UFO appeared to be protecting.

228

00:12:53,280 --> 00:12:56,280

It's going to take us at least half an hour to get to that point

229

00:12:56,280 --> 00:12:58,280

where we think the UFO hovered,

230

00:12:58,280 --> 00:13:00,280

but it took that UFO like half a second.

231

00:13:00,280 --> 00:13:12,280

Once he got past here and the UFO could see that he was going back towards the airport,

232

00:13:12,280 --> 00:13:14,280

that's when it darted this way.

233

00:13:14,280 --> 00:13:21,280

Maybe this was like a boundary line that they didn't want aircraft crossing into.

234

00:13:21,280 --> 00:13:24,280

So there's something maybe on the other side of this line,

235

00:13:24,280 --> 00:13:27,280

this boundary that it was protecting?

236

00:13:27,280 --> 00:13:28,280

Yeah.

237

00:13:31,280 --> 00:13:35,280

Right now, we are at the exact great coordinates

238

00:13:35,280 --> 00:13:37,280

that we think this UFO is hovering over.

239

00:13:37,280 --> 00:13:39,280

Okay, why would it stop here?

240

00:13:54,280 --> 00:13:56,280

This island isn't on this map.

241

00:14:00,280 --> 00:14:03,280

I don't see this island on this map at all.

242

00:14:03,280 --> 00:14:04,280

Really? That's weird.

243

00:14:04,280 --> 00:14:10,280

But what's crazy is that it's directly in line with the UFO's trajectory.

244

00:14:12,280 --> 00:14:15,280

Hey Luis, hey, what's this island?

245

00:14:22,280 --> 00:14:27,280

The team uncovers a 200-acre abandoned island in the middle of the lake,

246

00:14:27,280 --> 00:14:31,280

just a few hundred feet from where the UFO was hovering in 1995.

247

00:14:31,280 --> 00:14:35,280

This island is right in line with the UFO's flight path.

248

00:14:35,280 --> 00:14:40,280

We've got to figure out if this has something to do with the UFO's behavior.

249

00:14:40,280 --> 00:14:42,280

What was going on here on this island?

250

00:14:45,280 --> 00:14:48,280

Here the government released secret projects.

251

00:14:50,280 --> 00:14:54,280

That was the site of a secret government project and it's been abandoned for 50 years.

252

00:14:54,280 --> 00:14:56,280

Secret government project?

253

00:14:56,280 --> 00:14:57,280

A secret project.

254

00:14:57,280 --> 00:14:58,280

That's right.

255

00:14:58,280 --> 00:15:00,280

Like what kind of secret projects?

256

00:15:03,280 --> 00:15:08,280

On a lake in the middle of nowhere, an abandoned island,

257

00:15:08,280 --> 00:15:12,280

I don't know, in the middle of Patagonia, like what's going on out there?

258

00:15:12,280 --> 00:15:18,280

You know, the question is, is there a correlation between the UFO and possibly this place?

259

00:15:18,280 --> 00:15:20,280

Luis, can you take us to the island?

260

00:15:20,280 --> 00:15:22,280

Can we get on there?

261

00:15:26,280 --> 00:15:28,280

He's not going to leave us there, but he's not getting off the boat.

262

00:15:28,280 --> 00:15:29,280

Okay, let's do it.

263

00:15:29,280 --> 00:15:30,280

Let's go then.

264

00:15:31,280 --> 00:15:33,280

Now we've got to get out there and see what's going on.

265

00:15:33,280 --> 00:15:35,280

See if there's anything out there at all.

266

00:15:43,280 --> 00:15:44,280

Yep.

267

00:15:44,280 --> 00:15:45,280

Alright, thanks bud.

268

00:15:57,280 --> 00:16:00,280

Here's a little stare or something.

269

00:16:00,280 --> 00:16:01,280

This is odd.

270

00:16:01,280 --> 00:16:02,280

Yeah, this is weird.

271

00:16:02,280 --> 00:16:03,280

What is this?

272

00:16:03,280 --> 00:16:04,280

Spooky.

273

00:16:10,280 --> 00:16:12,280

Whoa, look at this man.

274

00:16:12,280 --> 00:16:13,280

Oh wow.

275

00:16:13,280 --> 00:16:15,280

What is going on here?

276

00:16:27,280 --> 00:16:30,280

Let's take this right here at the top of the hill.

277

00:16:30,280 --> 00:16:36,280

U.S. Marine Intelligence Officer Nick Carnese and Astrophysicist and Space Journalist Sarah Crottis

278

00:16:36,280 --> 00:16:41,280

are in Carnero, Kansas, on their way to the coordinates of a strange structure

279

00:16:41,280 --> 00:16:46,280

located in the exact area where UFO sightings have been clustered for decades.

280

00:16:46,280 --> 00:16:47,280

We're working our way through the Kansas countryside,

281

00:16:47,280 --> 00:16:50,280

trying to locate the anomaly that we detected with drone deploy.

282

00:16:50,280 --> 00:16:52,280

We need to determine if it could be responsible for why this area

283

00:16:52,280 --> 00:16:55,280

has such an unusual cluster of UFO sightings.

284

00:16:56,280 --> 00:16:58,280

It looks like we're going to go a little bit further,

285

00:16:58,280 --> 00:16:59,280

but we might run out of road here.

286

00:16:59,280 --> 00:17:01,280

So, let's go.

287

00:17:01,280 --> 00:17:02,280

Let's see.

288

00:17:05,280 --> 00:17:06,280

How much further does it look?

289

00:17:06,280 --> 00:17:07,280

About a mile.

290

00:17:07,280 --> 00:17:08,280

A mile?

291

00:17:08,280 --> 00:17:09,280

Alright, we're walking.

292

00:17:12,280 --> 00:17:13,280

So we'll go here.

293

00:17:26,280 --> 00:17:31,280

Not our trespass thing.

294

00:17:34,280 --> 00:17:39,280

I mean, this looks like almost like a government fence.

295

00:17:39,280 --> 00:17:42,280

Whatever this is, it looks like no one's been here for a while.

296

00:17:46,280 --> 00:17:48,280

It hasn't really been maintained all that well.

297

00:17:48,280 --> 00:17:51,280

Let's walk the perimeter and see if there's another access point.

298

00:17:56,280 --> 00:18:08,280

It looks abandoned.

299

00:18:14,280 --> 00:18:17,280

This concrete circle, this is what I saw on the drone deploy.

300

00:18:17,280 --> 00:18:20,280

This looks like somewhere you could land a helicopter.

301

00:18:21,280 --> 00:18:25,280

What is this?

302

00:18:33,280 --> 00:18:34,280

Hey, Sarah!

303

00:18:34,280 --> 00:18:35,280

Hey.

304

00:18:35,280 --> 00:18:36,280

Come check this out.

305

00:18:39,280 --> 00:18:40,280

Oh, wow.

306

00:18:40,280 --> 00:18:42,280

I mean, this is at least a foot of concrete.

307

00:18:42,280 --> 00:18:44,280

Looks like it's going down at least a story.

308

00:18:44,280 --> 00:18:46,280

More than just a concrete slab, that's for sure.

309

00:18:46,280 --> 00:18:48,280

I mean, there's a bunch of spyware.

310

00:18:48,280 --> 00:18:50,280

It doesn't look like anyone's been down here alongside.

311

00:18:50,280 --> 00:18:52,280

It's pretty strange that this is out in the middle of nowhere

312

00:18:52,280 --> 00:18:54,280

in the center of a cluster of UFO sightings.

313

00:18:54,280 --> 00:18:57,280

It could be a bunker or maybe a large storm shelter.

314

00:18:57,280 --> 00:18:59,280

I want to get inside and figure out what's going on here.

315

00:18:59,280 --> 00:19:02,280

Alright, I'm going to drop in and then mine head in my pack.

316

00:19:02,280 --> 00:19:03,280

I'm going to take it down.

317

00:19:05,280 --> 00:19:06,280

A little tight.

318

00:19:06,280 --> 00:19:08,280

Alright, stop my ice.

319

00:19:08,280 --> 00:19:09,280

Alright, let's go.

320

00:19:09,280 --> 00:19:10,280

Alright, let's go.

321

00:19:10,280 --> 00:19:11,280

Alright, let's go.

322

00:19:11,280 --> 00:19:12,280

Alright, let's go.

323

00:19:12,280 --> 00:19:13,280

Alright, let's go.

324

00:19:13,280 --> 00:19:14,280

Alright, let's go.

325

00:19:14,280 --> 00:19:16,280

Alright, stop my ice.

326

00:19:21,280 --> 00:19:22,280

You good?

327

00:19:24,280 --> 00:19:25,280

Holy s***.

328

00:19:38,280 --> 00:19:39,280

You good?

329

00:19:41,280 --> 00:19:42,280

You okay?

330

00:19:43,280 --> 00:19:44,280

Yeah.

331

00:19:45,280 --> 00:19:48,280

Nick, Carnazy and Sarah Crutus prepare to investigate

332

00:19:48,280 --> 00:19:52,280

a mysterious concrete structure in the middle of rural Kansas

333

00:19:52,280 --> 00:19:55,280

in the exact area where the team's link analysis software

334

00:19:55,280 --> 00:19:58,280

identified a cluster of UFO sightings.

335

00:19:58,280 --> 00:19:59,280

Am I good to come down?

336

00:19:59,280 --> 00:20:01,280

Yeah, come on down.

337

00:20:05,280 --> 00:20:06,280

What?

338

00:20:08,280 --> 00:20:09,280

There you go.

339

00:20:09,280 --> 00:20:10,280

Check this out.

340

00:20:10,280 --> 00:20:11,280

What is this?

341

00:20:13,280 --> 00:20:14,280

Oh s***, look at that.

342

00:20:14,280 --> 00:20:15,280

Bunk beds.

343

00:20:20,280 --> 00:20:21,280

Hello?

344

00:20:25,280 --> 00:20:26,280

This is really kind of eerie.

345

00:20:26,280 --> 00:20:30,280

The structure is a very solid well-built structure.

346

00:20:30,280 --> 00:20:34,280

But what we're finding inside is run-down, civilian furniture

347

00:20:34,280 --> 00:20:36,280

and spoiled supplies.

348

00:20:36,280 --> 00:20:39,280

It's fascinating that we were led here by a cluster of UFO sightings.

349

00:20:39,280 --> 00:20:41,280

The question is why?

350

00:20:42,280 --> 00:20:44,280

It feels like it's some sort of prepper's bonker.

351

00:20:44,280 --> 00:20:46,280

Someone's waiting for the end of the world or something,

352

00:20:46,280 --> 00:20:48,280

but it's creepy as hell down here.

353

00:20:49,280 --> 00:20:51,280

Come check it out. There's another level.

354

00:20:51,280 --> 00:20:52,280

Whoa.

355

00:20:54,280 --> 00:20:55,280

You first.

356

00:21:09,280 --> 00:21:10,280

Look at this.

357

00:21:10,280 --> 00:21:12,280

It looks like a blast door.

358

00:21:15,280 --> 00:21:16,280

Oh yeah.

359

00:21:16,280 --> 00:21:17,280

This is military.

360

00:21:19,280 --> 00:21:20,280

That's a big one.

361

00:21:23,280 --> 00:21:24,280

Look at the size of this thing.

362

00:21:24,280 --> 00:21:26,280

It's nearly half a foot.

363

00:21:26,280 --> 00:21:27,280

It's half a foot, yeah.

364

00:21:30,280 --> 00:21:32,280

It's almost like it's some sort of lab.

365

00:21:32,280 --> 00:21:34,280

Whatever it is, I mean this is massive.

366

00:21:34,280 --> 00:21:35,280

This is industrial.

367

00:21:41,280 --> 00:21:42,280

Can you open it?

368

00:21:44,280 --> 00:21:45,280

Oh wow.

369

00:21:51,280 --> 00:21:53,280

Looks like batteries here.

370

00:21:56,280 --> 00:21:58,280

I've got circuits, switches, wires.

371

00:22:10,280 --> 00:22:13,280

I think I found the breakers.

372

00:22:14,280 --> 00:22:15,280

Holy s***.

373

00:22:17,280 --> 00:22:18,280

Whoa.

374

00:22:21,280 --> 00:22:23,280

That's insane.

375

00:22:23,280 --> 00:22:25,280

What is that, five stories down?

376

00:22:28,280 --> 00:22:29,280

Whoa.

377

00:22:29,280 --> 00:22:33,280

I think this is a decommissioned nuclear missile silo.

378

00:22:33,280 --> 00:22:35,280

These are the doors that are going to open up

379

00:22:35,280 --> 00:22:38,280

and then the missile would be housed in here.

380

00:22:39,280 --> 00:22:41,280

It goes down hundreds of feet.

381

00:22:41,280 --> 00:22:43,280

From the surface you'd never know this is down here.

382

00:22:43,280 --> 00:22:44,280

I mean this is huge.

383

00:22:44,280 --> 00:22:45,280

It's insane.

384

00:22:45,280 --> 00:22:48,280

But is it just a coincidence that we've had all these sightings?

385

00:22:48,280 --> 00:22:50,280

Or is this the reason for that?

386

00:22:50,280 --> 00:22:52,280

The fact that we were led here by a cluster of VFO sightings,

387

00:22:52,280 --> 00:22:55,280

it proves that there has to be something important down here.

388

00:22:55,280 --> 00:22:58,280

But right now I have far more questions than I have answers.

389

00:23:09,280 --> 00:23:12,280

Here's a little stare.

390

00:23:12,280 --> 00:23:13,280

This is odd.

391

00:23:13,280 --> 00:23:15,280

What is this?

392

00:23:15,280 --> 00:23:16,280

Spooky.

393

00:23:17,280 --> 00:23:20,280

Paul Beben and Calamale are investigating an abandoned island

394

00:23:20,280 --> 00:23:23,280

in the middle of Noel Woppy Lake in Bariloche, Argentina.

395

00:23:23,280 --> 00:23:27,280

That local say was the site of a secret government program.

396

00:23:27,280 --> 00:23:30,280

According to eyewitnesses, in 1995,

397

00:23:30,280 --> 00:23:33,280

a mysterious flying object circled the island

398

00:23:33,280 --> 00:23:35,280

for an extended period of time.

399

00:23:35,280 --> 00:23:38,280

Feels like we're on some kind of abandoned road.

400

00:23:38,280 --> 00:23:41,280

This UFO apparently hovered over this island

401

00:23:41,280 --> 00:23:44,280

almost like it was standing its ground protecting something.

402

00:23:44,280 --> 00:23:47,280

What drew the UFO here?

403

00:23:48,280 --> 00:23:50,280

Whoa, look at this man.

404

00:23:50,280 --> 00:23:51,280

Oh wow.

405

00:23:52,280 --> 00:23:54,280

I mean what is going on here?

406

00:23:54,280 --> 00:23:57,280

600 feet into the interior of the island,

407

00:23:57,280 --> 00:23:59,280

the team uncovers a large defunct structure.

408

00:23:59,280 --> 00:24:01,280

This is massive.

409

00:24:01,280 --> 00:24:03,280

Let's go to that opening. I want to check it out.

410

00:24:03,280 --> 00:24:04,280

Alright.

411

00:24:05,280 --> 00:24:06,280

These walls are what?

412

00:24:06,280 --> 00:24:08,280

Like two and a half, three feet thick?

413

00:24:08,280 --> 00:24:10,280

What era of construction is this?

414

00:24:10,280 --> 00:24:12,280

I have no idea.

415

00:24:12,280 --> 00:24:16,280

It almost feels like a huge warehouse, but like, for what?

416

00:24:19,280 --> 00:24:22,280

Well whatever this thing was man, it was heavy duty, right?

417

00:24:22,280 --> 00:24:24,280

I mean look at that rebar.

418

00:24:25,280 --> 00:24:27,280

This building wasn't just some ordinary building.

419

00:24:27,280 --> 00:24:30,280

It was definitely made with special purpose.

420

00:24:31,280 --> 00:24:35,280

But what I noticed immediately was how thick these walls are

421

00:24:35,280 --> 00:24:37,280

and how reinforced this thing was built.

422

00:24:37,280 --> 00:24:41,280

I mean it was obviously built to contain something or for protection.

423

00:24:41,280 --> 00:24:45,280

I can't grasp like what they were trying to do here.

424

00:24:46,280 --> 00:24:48,280

Paul, are you coming up on another one?

425

00:24:48,280 --> 00:24:49,280

Oh wow.

426

00:24:53,280 --> 00:24:55,280

What is all this man?

427

00:24:56,280 --> 00:25:00,280

I don't know man.

428

00:25:00,280 --> 00:25:02,280

Is it a house or a building? I can't even tell.

429

00:25:02,280 --> 00:25:03,280

I don't know.

430

00:25:09,280 --> 00:25:11,280

There was clearly some heavy equipment in here.

431

00:25:11,280 --> 00:25:15,280

Definitely looks like in some type of industrial room or a control room

432

00:25:15,280 --> 00:25:16,280

or maybe generators.

433

00:25:16,280 --> 00:25:19,280

I'm assuming because these look like generator platforms.

434

00:25:19,280 --> 00:25:22,280

These big bolts that they set the generators onto.

435

00:25:22,280 --> 00:25:25,280

This has been bombed out and abandoned for 20, 30 years.

436

00:25:25,280 --> 00:25:27,280

I mean look at the size of that tree.

437

00:25:28,280 --> 00:25:32,280

If you think this was a generator, I wonder if this was like the power plant.

438

00:25:33,280 --> 00:25:36,280

If this wasn't a generator room, it would be producing a lot of electricity.

439

00:25:36,280 --> 00:25:37,280

A lot of power.

440

00:25:38,280 --> 00:25:39,280

For what?

441

00:25:39,280 --> 00:25:40,280

It's hard to tell.

442

00:25:40,280 --> 00:25:42,280

We just don't have a clue of what this is.

443

00:25:42,280 --> 00:25:46,280

But you take away all the overgrowth and this is a very high ceiling room

444

00:25:46,280 --> 00:25:49,280

with big pieces of industrial equipment all around.

445

00:25:49,280 --> 00:25:53,280

There's no indication of what was being done out here on this island.

446

00:25:57,280 --> 00:25:59,280

Well man, another building.

447

00:25:59,280 --> 00:26:00,280

This one's completely collapsed.

448

00:26:00,280 --> 00:26:03,280

Yeah, this one looks like it was just destroyed.

449

00:26:04,280 --> 00:26:09,280

Scattered across the 200 acre island is a total of 12 abandoned buildings.

450

00:26:10,280 --> 00:26:11,280

Look at these barrels.

451

00:26:11,280 --> 00:26:12,280

Are those solid?

452

00:26:12,280 --> 00:26:13,280

I don't know man.

453

00:26:13,280 --> 00:26:17,280

Everything about this place is so heavy-duty, so overbuilt.

454

00:26:17,280 --> 00:26:20,280

You know, there are those cylinders outside that are solid steel.

455

00:26:20,280 --> 00:26:23,280

So my head is just spinning with questions.

456

00:26:23,280 --> 00:26:25,280

You know, what was this place?

457

00:26:25,280 --> 00:26:26,280

Why was it abandoned?

458

00:26:28,280 --> 00:26:32,280

The team heads to the northern end of the island to explore one of the structures

459

00:26:32,280 --> 00:26:34,280

which appears to be a collapsed bunker.

460

00:26:40,280 --> 00:26:42,280

This part feels like a lab.

461

00:26:43,280 --> 00:26:45,280

I'm just gonna get some pictures.

462

00:26:45,280 --> 00:26:47,280

That's perfect. Put the light on it.

463

00:26:47,280 --> 00:26:48,280

Oh yeah.

464

00:26:49,280 --> 00:26:50,280

I don't know man.

465

00:26:50,280 --> 00:26:53,280

I mean we have ceramic electrical insulators.

466

00:26:53,280 --> 00:26:57,280

These huge concrete platforms that we have these little runners on.

467

00:26:57,280 --> 00:27:00,280

This little cesspool, whatever that is.

468

00:27:02,280 --> 00:27:04,280

Nothing here makes sense.

469

00:27:05,280 --> 00:27:09,280

To me, this feels like a fortified lab of some sort.

470

00:27:09,280 --> 00:27:11,280

I mean they were running, obviously with those insulators,

471

00:27:11,280 --> 00:27:14,280

they're running a huge amount of power through here.

472

00:27:14,280 --> 00:27:17,280

You know, something incredibly big and heavy and important, right?

473

00:27:17,280 --> 00:27:20,280

I mean this place is built like a bunker.

474

00:27:20,280 --> 00:27:25,280

And does all of this have something to do with the UFO encounter?

475

00:27:25,280 --> 00:27:28,280

I mean we're basically right underneath where it was hovering.

476

00:27:44,280 --> 00:27:47,280

We just gotta figure out what was going on on that island.

477

00:27:47,280 --> 00:27:50,280

Paul and Kawa are on the ground in Bariloche, Argentina

478

00:27:50,280 --> 00:27:54,280

where they uncovered an abandoned island filled with massive structures

479

00:27:54,280 --> 00:27:57,280

and heavy-duty equipment, which according to eyewitnesses,

480

00:27:57,280 --> 00:28:03,280

is where in 1995 a mysterious flying object circled for an extended period of time.

481

00:28:06,280 --> 00:28:07,280

Hi, how are you doing?

482

00:28:07,280 --> 00:28:08,280

Hey, nice to meet you.

483

00:28:08,280 --> 00:28:09,280

Nice to meet you.

484

00:28:09,280 --> 00:28:13,280

The team arranges a meeting with local historian and documentarian

485

00:28:13,280 --> 00:28:17,280

Federico Palma, who has done extensive research of the area.

486

00:28:17,280 --> 00:28:19,280

Just follow me, this is the trail.

487

00:28:19,280 --> 00:28:23,280

Federico leads them to a key vantage point on Bariloche's lake.

488

00:28:23,280 --> 00:28:27,280

We've gotta figure out what was going on out on that island.

489

00:28:27,280 --> 00:28:29,280

What are all those abandoned buildings?

490

00:28:29,280 --> 00:28:32,280

And is there any connection between that and the UFO activity?

491

00:28:34,280 --> 00:28:35,280

Wow.

492

00:28:35,280 --> 00:28:36,280

So, do you...

493

00:28:39,280 --> 00:28:41,280

What the heck was going on out there?

494

00:28:41,280 --> 00:28:43,280

That was the place of the WAMUL project.

495

00:28:43,280 --> 00:28:46,280

It was a massive nuclear development project

496

00:28:47,280 --> 00:28:50,280

led by an Austrian scientist called Ronald Richter

497

00:28:50,280 --> 00:28:54,280

and he was trying to create a technology called Nuclear Fusion.

498

00:28:54,280 --> 00:28:56,280

Wow. Good Lord.

499

00:28:56,280 --> 00:28:58,280

I guess you've seen the premises.

500

00:28:58,280 --> 00:28:59,280

Yeah, so we were trying to figure out...

501

00:28:59,280 --> 00:29:03,280

I mean, there are so many buildings out there scattered around a big complex.

502

00:29:03,280 --> 00:29:06,280

So this was basically a secret nuclear project.

503

00:29:06,280 --> 00:29:07,280

Yeah, it was.

504

00:29:07,280 --> 00:29:09,280

What was all that for?

505

00:29:09,280 --> 00:29:13,280

Richter had this idea to emulate the way the sun works,

506

00:29:13,280 --> 00:29:16,280

making this hydrogen reaction by fusion.

507

00:29:16,280 --> 00:29:20,280

The idea was to gain an endless source of power just by this technology.

508

00:29:20,280 --> 00:29:25,280

I mean, Nuclear Fusion is like the holy grail of power, of energy.

509

00:29:25,280 --> 00:29:27,280

It's like God's power.

510

00:29:27,280 --> 00:29:29,280

Nuclear facilities are not common at all

511

00:29:29,280 --> 00:29:32,280

and the fact that we have one exactly where this UFO led us to,

512

00:29:32,280 --> 00:29:35,280

I mean, that's a significant data point in this investigation.

513

00:29:35,280 --> 00:29:38,280

What happened is eventually the government shut it down

514

00:29:38,280 --> 00:29:42,280

because they realized all this money they were throwing here to Richter

515

00:29:42,280 --> 00:29:44,280

wasn't coming to...

516

00:29:44,280 --> 00:29:47,280

They weren't seeing the results that he was promising.

517

00:29:47,280 --> 00:29:50,280

Well, the project itself was a failure,

518

00:29:50,280 --> 00:29:55,280

but it sparked this whole new era in nuclear development in Argentina.

519

00:29:55,280 --> 00:29:59,280

All this infrastructure from the island was moved up here

520

00:29:59,280 --> 00:30:06,280

and created a new institute that was actually very, very successful up to today.

521

00:30:06,280 --> 00:30:09,280

So there's a modern nuclear facility here now?

522

00:30:09,280 --> 00:30:10,280

Yes.

523

00:30:11,280 --> 00:30:16,280

Less than two miles from the abandoned nuclear island is Bariloche Atomic Center,

524

00:30:16,280 --> 00:30:19,280

a world-renowned nuclear research and development facility

525

00:30:19,280 --> 00:30:21,280

that is still active to this day.

526

00:30:21,280 --> 00:30:24,280

So they just... they took all of that research, all the equipment

527

00:30:24,280 --> 00:30:26,280

and moved it off the island right here.

528

00:30:26,280 --> 00:30:29,280

This is right along the line that the UFO traveled.

529

00:30:29,280 --> 00:30:33,280

Now it's a thriving nuclear research facility.

530

00:30:33,280 --> 00:30:36,280

This project, this start point and this project

531

00:30:36,280 --> 00:30:40,280

made Bariloche the capital of nuclear science in Latin America.

532

00:30:40,280 --> 00:30:46,280

This is the place where every young scientist wants to come to research on a real reactor.

533

00:30:46,280 --> 00:30:51,280

And it also happens to be where we're investigating the craziest UFO encounter we've seen so far.

534

00:30:51,280 --> 00:30:55,280

Is all this UFO activity connected to this nuclear energy?

535

00:30:55,280 --> 00:30:56,280

Right.

536

00:30:57,280 --> 00:31:02,280

Is there some connection between nuclear research, nuclear power, nuclear energy?

537

00:31:02,280 --> 00:31:04,280

And UFOs?

538

00:31:17,280 --> 00:31:18,280

Look at that.

539

00:31:18,280 --> 00:31:19,280

Yeah.

540

00:31:19,280 --> 00:31:21,280

It's extraordinary. It's a military installation.

541

00:31:21,280 --> 00:31:27,280

Mike Cole and Dr. Livingston review the findings from the field teams in Argentina and Kansas.

542

00:31:27,280 --> 00:31:31,280

Both legs of this investigation, in Argentina and the United States,

543

00:31:31,280 --> 00:31:35,280

are pointing squarely at nuclear facilities.

544

00:31:35,280 --> 00:31:39,280

This is silo related to the cluster of sightings we saw in the LAS.

545

00:31:39,280 --> 00:31:41,280

It's hard to believe it's a coincidence.

546

00:31:41,280 --> 00:31:43,280

And you know what? We can actually, I think, check that out.

547

00:31:43,280 --> 00:31:47,280

We could overlay nuclear sites in the United States with UFO sightings

548

00:31:47,280 --> 00:31:48,280

and see if there's a correlation.

549

00:31:48,280 --> 00:31:51,280

The team utilizes their link analysis software

550

00:31:51,280 --> 00:31:57,280

to plot every recorded UFO sighting in the United States in the last 100 years.

551

00:31:57,280 --> 00:32:00,280

Oh my God. That's a lot of sightings.

552

00:32:00,280 --> 00:32:04,280

Look at this. New York, Detroit, Chicago, L.A.

553

00:32:04,280 --> 00:32:08,280

This is, in many respects, a population density map of the United States.

554

00:32:08,280 --> 00:32:10,280

This is what we would expect to see.

555

00:32:10,280 --> 00:32:14,280

Sightings over major population centers where you have a lot of eyeballs looking up at the sky.

556

00:32:14,280 --> 00:32:19,280

What's this? Like, nowhere North Dakota, nowhere South Dakota,

557

00:32:19,280 --> 00:32:21,280

nowhere Wyoming or Montana.

558

00:32:21,280 --> 00:32:25,280

These are really sparsely populated areas with tight, tight clusters of sightings.

559

00:32:25,280 --> 00:32:30,280

The team uses the LAS to plot every nuclear missile silo in the country

560

00:32:30,280 --> 00:32:33,280

and overlay it on the same map.

561

00:32:33,280 --> 00:32:35,280

Boom. You can't argue with this.

562

00:32:35,280 --> 00:32:41,280

These clusters in these sparsely populated areas, they overlay exactly.

563

00:32:41,280 --> 00:32:43,280

That's a one-to-one correlation.

564

00:32:43,280 --> 00:32:46,280

This really helps us see that there is a pattern,

565

00:32:46,280 --> 00:32:50,280

some sort of connection between UFO sightings and nuclear sites.

566

00:32:50,280 --> 00:32:53,280

If we're dealing with an extraterrestrial intelligence here,

567

00:32:53,280 --> 00:32:57,280

why would they be drawn to military missile sites?

568

00:32:57,280 --> 00:33:04,280

This is either our own aircraft, a foreign adversary engaged in intelligence collection and reconnaissance,

569

00:33:04,280 --> 00:33:08,280

or something unexplained, possibly extraterrestrial craft.

570

00:33:08,280 --> 00:33:12,280

And every single one of these silos is right near a military base.

571

00:33:12,280 --> 00:33:16,280

If there's things being sighted over these bases, there should be a record of them.

572

00:33:16,280 --> 00:33:18,280

Let's do an LAS search through military records.

573

00:33:18,280 --> 00:33:19,280

Let's do it.

574

00:33:19,280 --> 00:33:23,280

UFO, nuclear, military, and silo.

575

00:33:23,280 --> 00:33:24,280

All time.

576

00:33:24,280 --> 00:33:25,280

All time.

577

00:33:25,280 --> 00:33:27,280

And across the entire United States.

578

00:33:27,280 --> 00:33:28,280

Yeah.

579

00:33:34,280 --> 00:33:35,280

There's your results.

580

00:33:35,280 --> 00:33:36,280

Quite a bit, right?

581

00:33:36,280 --> 00:33:37,280

Yeah.

582

00:33:37,280 --> 00:33:40,280

Why don't we start with this one? 98% relevance.

583

00:33:40,280 --> 00:33:43,280

Afe David of Robert L. Salas.

584

00:33:43,280 --> 00:33:47,280

March 1967, first lieutenant in the U.S. Air Force, stationed at Malmstrom.

585

00:33:47,280 --> 00:33:50,280

He receives a call from the Flight Security Controller.

586

00:33:50,280 --> 00:33:55,280

There's a large glowing, pulsating red oval hovering above the front gate.

587

00:33:55,280 --> 00:33:58,280

He says the men have their weapons drawn.

588

00:33:58,280 --> 00:34:02,280

Well, something is what, landing in front of the front gate of a nuclear facility?

589

00:34:02,280 --> 00:34:04,280

Yeah, you're going to be pretty freaked out.

590

00:34:04,280 --> 00:34:05,280

Check this out.

591

00:34:05,280 --> 00:34:09,280

Missiles were disabled and could not be launched.

592

00:34:09,280 --> 00:34:11,280

These are nuclear weapons.

593

00:34:11,280 --> 00:34:15,280

The most powerful ones, not just in our arsenal, but any arsenal.

594

00:34:15,280 --> 00:34:18,280

Just one of these things could level an entire city,

595

00:34:18,280 --> 00:34:23,280

and we lose control of ten of them, all right next to each other,

596

00:34:23,280 --> 00:34:29,280

all in the same few minutes, and right on the doorstep of Malmstrom Air Force Base.

597

00:34:29,280 --> 00:34:30,280

What else do we have?

598

00:34:30,280 --> 00:34:32,280

There were other documents up here, right?

599

00:34:32,280 --> 00:34:33,280

Sure.

600

00:34:33,280 --> 00:34:36,280

Here's another one, around Malmstrom Air Force Base.

601

00:34:36,280 --> 00:34:39,280

This is in 2006, very recent.

602

00:34:39,280 --> 00:34:44,280

A CIA intelligence officer admits to having detected UFO to Montana-based missile silo

603

00:34:44,280 --> 00:34:50,280

and then confesses to not believe the official stance that it was an experimental drone.

604

00:34:50,280 --> 00:34:53,280

Says it from when he was still on active duty in the Air Force,

605

00:34:53,280 --> 00:34:55,280

stationed at Malmstrom, totally freaked him out.

606

00:34:55,280 --> 00:34:59,280

All right, something is clearly going on at Malmstrom Air Force Base.

607

00:34:59,280 --> 00:35:00,280

We need to dig into this.

608

00:35:00,280 --> 00:35:01,280

What are we seeing here?

609

00:35:01,280 --> 00:35:06,280

Our own aircraft, a foreign adversary, or extraterrestrial craft.

610

00:35:06,280 --> 00:35:10,280

And I could think of nobody else I want to talk to more right now, than this man.

611

00:35:10,280 --> 00:35:13,280

Andrew Bustamante.

612

00:35:13,280 --> 00:35:17,280

What we need to do is get Paul and Kyle back in the United States and see what they can dredge out.

613

00:35:17,280 --> 00:35:20,280

And this could be huge.

614

00:35:30,280 --> 00:35:35,280

There is an undeniable correlation between sightings and active nuclear sites.

615

00:35:35,280 --> 00:35:36,280

Look at this.

616

00:35:36,280 --> 00:35:42,280

Mike and Dr. Livingston uncover a declassified FBI file from August 23, 1950,

617

00:35:42,280 --> 00:35:46,280

that reveals the correlation between UFO sightings and nuclear sites,

618

00:35:46,280 --> 00:35:49,280

extends back to the earliest years of the atomic age.

619

00:35:49,280 --> 00:35:53,280

Objects moving at high speed in the shapes resembling half-moon circles and disks,

620

00:35:53,280 --> 00:35:56,280

in the vicinity of sensitive installations in New Mexico.

621

00:35:56,280 --> 00:35:59,280

These are weapons areas in 1950.

622

00:35:59,280 --> 00:36:03,280

Los Alamos and Sandia Nuclear Laboratories.

623

00:36:03,280 --> 00:36:05,280

This is an unclassified secret document.

624

00:36:05,280 --> 00:36:07,280

They didn't expect the public to see this.

625

00:36:07,280 --> 00:36:12,280

Assuming this is extraterrestrial, why would you be drawn to military nuclear assets?

626

00:36:12,280 --> 00:36:14,280

It's going to be one of three main motivations.

627

00:36:14,280 --> 00:36:17,280

Observation, another is invasion, another is conquest.

628

00:36:17,280 --> 00:36:20,280

All three of those, there would be good reason to be interested in something like this.

629

00:36:20,280 --> 00:36:22,280

This is how we would fight back.

630

00:36:22,280 --> 00:36:25,280

Clearly this is a little concerning.

631

00:36:36,280 --> 00:36:39,280

Argentina has is now here.

632

00:36:39,280 --> 00:36:42,280

What is the pattern with nuclear technology and UFOs?

633

00:36:42,280 --> 00:36:43,280

Right.

634

00:36:43,280 --> 00:36:44,280

Back in the United States,

635

00:36:44,280 --> 00:36:48,280

Paul and Kawa are on the ground just outside Momstram Air Force Base.

636

00:36:48,280 --> 00:36:53,280

This area was once home to over 200 nuclear missile silos.

637

00:36:53,280 --> 00:36:57,280

Well, I mean, this guy probably about the most credible source that we could talk to about this.

638

00:36:57,280 --> 00:37:01,280

The team arranges a meeting with Captain Andrew Bustamante,

639

00:37:01,280 --> 00:37:09,280

a former CIA officer who filed an official report of UFO activity at this location on October 6th, 2006,

640

00:37:09,280 --> 00:37:13,280

while serving as this area's nuclear missile supervisor.

641

00:37:13,280 --> 00:37:15,280

This is a highly trained person.

642

00:37:15,280 --> 00:37:16,280

Nice to meet you.

643

00:37:16,280 --> 00:37:18,280

Andrew Bustamante, nice to meet you.

644

00:37:18,280 --> 00:37:21,280

That kind of credibility is absolutely key.

645

00:37:21,280 --> 00:37:23,280

I understand that you spent some time in the military.

646

00:37:23,280 --> 00:37:24,280

How long did you serve in the Air Force?

647

00:37:24,280 --> 00:37:28,280

I was in the US Air Force for nine years, commissioned as an officer after the first four,

648

00:37:28,280 --> 00:37:35,280

and shortly thereafter gained command of all 200 missiles in the missile field that you see here.

649

00:37:35,280 --> 00:37:38,280

So take us back to the incident. What exactly happened?

650

00:37:38,280 --> 00:37:39,280

Fall of 2006.

651

00:37:39,280 --> 00:37:40,280

Okay.

652

00:37:40,280 --> 00:37:45,280

And we were going through a very routine afternoon overseeing all the missiles.

653

00:37:45,280 --> 00:37:48,280

It's a huge complex, about 100 miles north to south,

654

00:37:48,280 --> 00:37:51,280

and then another 100 miles east to west.

655

00:37:51,280 --> 00:37:52,280

Wow.

656

00:37:52,280 --> 00:37:54,280

In a 13,800 square mile grid,

657

00:37:54,280 --> 00:38:01,280

were the 200 active nuclear missile capsules that were under Captain Bustamante's command.

658

00:38:01,280 --> 00:38:07,280

We have a series of vibrational alarms, each missile capsule, as sensors.

659

00:38:07,280 --> 00:38:13,280

And four different capsules over the course of almost 100 miles in sequence

660

00:38:13,280 --> 00:38:15,280

triggered a vibrational alarm on the surface.

661

00:38:15,280 --> 00:38:18,280

And we're used to seeing vibrational alarms,

662

00:38:18,280 --> 00:38:21,280

but we're not used to seeing them over that distance.

663

00:38:21,280 --> 00:38:26,280

And we're especially not used to seeing them over that distance in a series of time

664

00:38:26,280 --> 00:38:30,280

that is faster than a vehicle or faster than most aircraft can fly.

665

00:38:30,280 --> 00:38:33,280

It sounds like it was a pretty weird incident.

666

00:38:33,280 --> 00:38:37,280

So I actually have a map today that I'm talking about, followed this flight path

667

00:38:37,280 --> 00:38:40,280

from the north to the south across this distance.

668

00:38:40,280 --> 00:38:42,280

And in how long? What kind of time frame?

669

00:38:42,280 --> 00:38:44,280

About 11 minutes.

670

00:38:44,280 --> 00:38:45,280

It's about 600 miles an hour.

671

00:38:45,280 --> 00:38:49,280

If it goes almost 100 miles in basically 10 minutes, you know, 600 miles an hour.

672

00:38:49,280 --> 00:38:51,280

So I mean, that's something moving.

673

00:38:51,280 --> 00:38:52,280

And it wasn't consistent.

674

00:38:52,280 --> 00:38:55,280

On a direct flight path, you would expect to see things at a certain rate.

675

00:38:55,280 --> 00:38:56,280

Right, in a regular path.

676

00:38:56,280 --> 00:39:00,280

Instead, something went off, and then there was a pause, something went off.

677

00:39:00,280 --> 00:39:03,280

Whatever was triggering the alarms wasn't going at a consistent rate.

678

00:39:03,280 --> 00:39:05,280

Right. It was moving irregularly.

679

00:39:05,280 --> 00:39:06,280

Correct.

680

00:39:06,280 --> 00:39:09,280

I can't think of aircraft that are capable of doing that, you know?

681

00:39:09,280 --> 00:39:12,280

A helicopter can't go 600 miles an hour.

682

00:39:12,280 --> 00:39:13,280

Stop, stop, right?

683

00:39:13,280 --> 00:39:15,280

And neither certainly can it plane.

684

00:39:15,280 --> 00:39:19,280

Something that is outside of the realm of what we knew in our position

685

00:39:19,280 --> 00:39:22,280

as nuclear missile command post officers.

686

00:39:22,280 --> 00:39:27,280

Here we are at some of the most secure sites in the world, nuclear missile silos.

687

00:39:27,280 --> 00:39:32,280

And we have the commander of these silos saying that he doesn't understand

688

00:39:32,280 --> 00:39:35,280

what happened with these four sensors that were tripped.

689

00:39:35,280 --> 00:39:38,280

So could this have been extraterrestrial?

690

00:39:38,280 --> 00:39:41,280

Did that ever cross your mind though?

691

00:39:41,280 --> 00:39:42,280

It's always on your mind.

692

00:39:42,280 --> 00:39:47,280

I am someone who recognizes that there's so much in our universe that we don't understand.

693

00:39:47,280 --> 00:39:48,280

Right.

694

00:39:48,280 --> 00:39:53,280

Did the military ever investigate UFO activity that may have caused us?

695

00:39:53,280 --> 00:39:55,280

I don't have the answer to that.

696

00:39:55,280 --> 00:39:58,280

I know that we submitted our report and we were just told,

697

00:39:58,280 --> 00:40:02,280

experimental drone, don't worry about it, we'll take it through separate channels.

698

00:40:02,280 --> 00:40:06,280

The idea that this was a drone that triggered off sensors over 100 miles

699

00:40:06,280 --> 00:40:08,280

and that's basically, it just doesn't make any sense.

700

00:40:08,280 --> 00:40:11,280

And it's also interesting that you guys are almost kind of getting shut down,

701

00:40:11,280 --> 00:40:15,280

you know, when you're inquiring about, hey, can we get some following information?

702

00:40:15,280 --> 00:40:17,280

And these guys are like, hey, is it a drone? Forget about it.

703

00:40:17,280 --> 00:40:19,280

It was absolutely suspicious.

704

00:40:19,280 --> 00:40:25,280

You would never test a military aircraft over territory that's as sensitive as this.

705

00:40:25,280 --> 00:40:29,280

When you carry a rank like commander you feel like somebody should tell you.

706

00:40:29,280 --> 00:40:30,280

Sure.

707

00:40:30,280 --> 00:40:34,280

When I left the Air Force, I actually went into service with the Central Intelligence Agency.

708

00:40:34,280 --> 00:40:39,280

With the CIA, I started to really understand the impact of secrets.

709

00:40:39,280 --> 00:40:40,280

Right.

710

00:40:40,280 --> 00:40:43,280

When you keep them, when you don't, when and how you share them.

711

00:40:43,280 --> 00:40:45,280

My takeaway here is that there's one of two conclusions.

712

00:40:45,280 --> 00:40:48,280

Either there's a secret that's being held and somebody knows what's going on,

713

00:40:48,280 --> 00:40:53,280

or there's a secret that's being held and nobody knows what's going on.

714

00:40:53,280 --> 00:40:56,280

But they know that they can't let it out.

715

00:40:56,280 --> 00:40:59,280

At what point do we start to admit what we don't know

716

00:40:59,280 --> 00:41:02,280

and start sharing information so we can get closer to the truth?

717

00:41:03,280 --> 00:41:06,280

Next time on Contact.

718

00:41:06,280 --> 00:41:09,280

Why was this UFO flying over Montana?

719

00:41:09,280 --> 00:41:10,280

Whoa.

720

00:41:10,280 --> 00:41:12,280

We can authenticate this video.

721

00:41:12,280 --> 00:41:15,280

And can we now rule out the fact that this could have been doctor?

722

00:41:15,280 --> 00:41:18,280

It would be difficult to fabricate.

723

00:41:21,280 --> 00:41:23,280

So this is the spot.

724

00:41:23,280 --> 00:41:28,280

If something strange did happen, somebody witnessed it and can tell us what it was.

725

00:41:28,280 --> 00:41:30,280

We had a cow that was mutilated.

726

00:41:30,280 --> 00:41:32,280

Was there anything else weird about the site?

727

00:41:32,280 --> 00:41:33,280

Well, I guess.

728

00:41:33,280 --> 00:41:36,280

The only thing weird is that she'd been dropped.

729

00:41:36,280 --> 00:41:38,280

Could this have been a UFO?

730

00:41:38,280 --> 00:41:40,280

How else did you explain it?

731

00:41:40,280 --> 00:41:44,280

There are so many questions here and the answers feel like they might be quite dark.

732

00:41:44,280 --> 00:41:46,280

What kind of attacks?

733

00:41:46,280 --> 00:41:50,280

There were flying objects that released beams of light that would hit people.

734

00:41:50,280 --> 00:41:53,280

You're saying people were attacked?
