

1

00:00:00,000 --> 00:00:07,000

Everything we've done in this investigation has led us to this point.

2

00:00:07,000 --> 00:00:09,000

This is the Holy Grail of interviews.

3

00:00:11,000 --> 00:00:17,000

Something is happening on our very own planet, right in front of our eyes, that we can't explain.

4

00:00:20,000 --> 00:00:28,000

In a search for answers, we've been using powerful link analysis software to track patterns among unidentified phenomena within our skies.

5

00:00:28,000 --> 00:00:31,000

This is huge, he's never talked to anyone before.

6

00:00:31,000 --> 00:00:37,000

Millions of search results and thousands of pieces of evidence from across the globe have led us to this point.

7

00:00:37,000 --> 00:00:43,000

They're picking up some type of sound underneath the ocean that doesn't belong, but the Navy themselves don't know what they are.

8

00:00:43,000 --> 00:00:47,000

And confirmed that something out of the realm of our understanding is here.

9

00:00:47,000 --> 00:00:53,000

Strange objects lurking in the ocean that cannot be explained, able to move at gigantic speeds.

10

00:00:53,000 --> 00:00:55,000

We're going to find out what it is.

11

00:00:55,000 --> 00:01:01,000

With the amount of evidence we have and the patterns we're seeing, it feels like we're on the edge of a breakthrough.

12

00:01:01,000 --> 00:01:04,000

This is much bigger than we ever thought it was.

13

00:01:12,000 --> 00:01:13,000

This is insane.

14

00:01:13,000 --> 00:01:20,000

A UFO incident took place back in the late 70s, where get this, humans are the target.

15

00:01:20,000 --> 00:01:29,000

CIA veteran Mike Cole and conflict analyst Dr. Livingston sent a team to Brazil to investigate reports of unidentified flying objects attacking humans.

16

00:01:29,000 --> 00:01:37,000

Eye witnesses on the ground claim UFOs attacked and injured residents of the island of Colars for more than six months.

17

00:01:37,000 --> 00:01:41,000

The victim says that there were multiple witnesses, most of which were treated by a doctor.

18

00:01:41,000 --> 00:01:44,000

And it looks like that would be the best way to verify accounts.

19

00:01:44,000 --> 00:01:46,000

They're currently tracking her down.

20

00:01:47,000 --> 00:01:53,000

What could come from a doctor is scientific analysis of the events and possibly physical evidence.

21

00:01:53,000 --> 00:02:02,000

They also say there's a stranger incident where the military shows up, takes over the whole island to gather data in this operation plate.

22

00:02:02,000 --> 00:02:04,000

This does seem really strange.

23

00:02:04,000 --> 00:02:14,000

During the four months of what became known as Operation Plate, the Brazilian military took over Colars, set up surveillance posts across the island and investigated the victim's accounts.

24

00:02:14,000 --> 00:02:19,000

The military claimed the operation was inconclusive and promptly classified all related files.

25

00:02:19,000 --> 00:02:23,000

What they're saying in the email is correct. What is going on here?

26

00:02:23,000 --> 00:02:32,000

I don't know if there's a terrestrial or extraterrestrial explanation for what happened, but the military presence on Colars confirms that something happened.

27

00:02:32,000 --> 00:02:39,000

Logically, the next best step is to look at that military intervention. What was Operation Plate?

28

00:02:40,000 --> 00:02:42,000

It's coming up on screen.

29

00:02:45,000 --> 00:02:51,000

Not much, just three files. Why don't we start with the bulletin board?

30

00:02:51,000 --> 00:02:56,000

So here are people discussing the operation. I heard the Brazilian government released some of these files.

31

00:02:56,000 --> 00:03:00,000

My understanding is that some of the Brazilian files have been declassified.

32

00:03:00,000 --> 00:03:02,000

Okay, so there could be some documents floating around.

33

00:03:02,000 --> 00:03:07,000

Robert Bigelow bought and owns all of the files of this incident from the Brazilian government.

34

00:03:07,000 --> 00:03:10,000

We know that name. We've come across that before.

35

00:03:10,000 --> 00:03:17,000

Bigelow, he was the sole contractor to the ATIP program.

36

00:03:17,000 --> 00:03:24,000

ATIP is the US government's recently declassified advanced aerospace threat identification program.

37

00:03:24,000 --> 00:03:27,000

Its sole mission was to investigate UFOs.

38

00:03:27,000 --> 00:03:29,000

My gosh! Oh, I think it is.

39

00:03:29,000 --> 00:03:41,000

And its declassification in 2017 sparked international headlines as it confirmed that the United States acknowledges and cannot explain the source of UFO activity.

40

00:03:41,000 --> 00:03:46,000

Billionaire Robert Bigelow was an architect of this top secret program.

41

00:03:46,000 --> 00:03:51,000

His company, Bigelow Aerospace, developed space habitats for private and government use,

42

00:03:51,000 --> 00:03:55,000

and he privately funds research at sites of high UFO activity.

43

00:03:56,000 --> 00:04:02,000

This is the prime contractor involved in the US Air Forces program to study unexplained aerial phenomena.

44

00:04:02,000 --> 00:04:09,000

And he is interested enough in Operation Plate to purchase all of the files from the Brazilian government that cannot be a coincidence.

45

00:04:09,000 --> 00:04:15,000

Why is Robert Bigelow, a contractor to NASA, and the sole contractor to ATIP,

46

00:04:15,000 --> 00:04:23,000

going through the bureaucratic hurdles and spending his own money to acquire the highly classified Calaris files?

47

00:04:23,000 --> 00:04:29,000

Let's reach out to all of our contacts in Brazil and South America and see if we can get our hands on these documents.

48

00:04:29,000 --> 00:04:32,000

If Bigelow can get these files, so can we.

49

00:04:42,000 --> 00:04:44,000

This is a sensational event.

50

00:04:44,000 --> 00:04:45,000

Yeah.

51

00:04:45,000 --> 00:04:49,000

As the team waits to hear if they'll get access to the Operation Plate documents,

52

00:04:49,000 --> 00:04:53,000

Nick and Paul are on the ground in Brazil to meet with Dr. Valada Carvalho,

53

00:04:53,000 --> 00:04:59,000

the local physician at the time of the alleged UFO attack on humans in 1977.

54

00:05:03,000 --> 00:05:05,000

Hi, Dr. Valada.

55

00:05:05,000 --> 00:05:06,000

Hello.

56

00:05:06,000 --> 00:05:13,000

The fact that we're speaking to a doctor, somebody rational, someone who has an evidence-based procedure for trying to get to the truth,

57

00:05:13,000 --> 00:05:14,000

that's key to us.

58

00:05:14,000 --> 00:05:17,000

If anyone's going to know what really happened to these people, it's her.

59

00:05:19,000 --> 00:05:22,000

We've heard stories from Calaris and we understand that you were there.

60

00:05:22,000 --> 00:05:24,000

Can you tell us what was happening to these people?

61

00:05:28,000 --> 00:05:30,000

The story was exactly the same.

62

00:05:30,000 --> 00:05:37,000

An unidentified flying object released beams of light and attacked people in their houses.

63

00:05:37,000 --> 00:05:41,000

The beam would come through like cracks on the wall, on the ceiling.

64

00:05:41,000 --> 00:05:44,000

They saw the light coming towards them and they would paralyze them.

65

00:05:44,000 --> 00:05:47,000

They weren't able to react or to cry for help.

66

00:05:48,000 --> 00:05:50,000

What kinds of symptoms were they exuding?

67

00:05:52,000 --> 00:06:00,000

They were all really weak with burns on the chest and also two puncture marks on the neck, parallel to each other.

68

00:06:01,000 --> 00:06:07,000

The people in Calaris had two puncture wounds just like the animals back in the US, just like the animals in Perawebe.

69

00:06:07,000 --> 00:06:10,000

This seems to be beyond coincidence now.

70

00:06:17,000 --> 00:06:26,000

I have to ask, in your professional opinion, is there any possibility that all of this was some kind of mass hysteria or mass delusion?

71

00:06:26,000 --> 00:06:28,000

No, no, it doesn't exist.

72

00:06:28,000 --> 00:06:33,000

She was absolutely skeptical until she saw the things herself.

73

00:06:33,000 --> 00:06:36,000

Are you referring to the wounds or did you actually see the light?

74

00:06:36,000 --> 00:06:40,000

The UFOs. She saw the UFOs.

75

00:06:40,000 --> 00:06:45,000

The ship was shaped like a plate and would release the beams of light at people.

76

00:06:48,000 --> 00:06:51,000

What were they doing up there?

77

00:06:51,000 --> 00:06:58,000

It was clear to her that they were there to record, to research, to document and then to cover up.

78

00:06:58,000 --> 00:07:01,000

They called it Operation Plate.

79

00:07:01,000 --> 00:07:08,000

And sometimes she would try to follow the military on their research and they wouldn't let her.

80

00:07:08,000 --> 00:07:10,000

They didn't want her to be there.

81

00:07:10,000 --> 00:07:16,000

She ended up being transferred as a punishment because she was talking about the story.

82

00:07:17,000 --> 00:07:19,000

They ever give you any explanation for what was going on?

83

00:07:19,000 --> 00:07:23,000

No, no. They didn't want to disclose any of the information to the population.

84

00:07:23,000 --> 00:07:30,000

We have a military sending in at least a platoon of soldiers to investigate these objects.

85

00:07:30,000 --> 00:07:34,000

In my opinion, something very bad happened on the island of Chloris.

86

00:07:34,000 --> 00:07:39,000

It's imperative that we acquire these Operation Plate documents and see what they'll tell us about what happened here.

87

00:07:48,000 --> 00:07:53,000

The team is joined by one of Nick's local contacts who secured a meeting with a former government official

88

00:07:53,000 --> 00:07:58,000

claiming to have one of the only remaining copies of the Operation Plate documents.

89

00:07:58,000 --> 00:08:04,000

He's agreed to turn over his files on the condition that his identity remain anonymous.

90

00:08:04,000 --> 00:08:08,000

We found an Operation Plate insider. He was actually on the ground when the events happened

91

00:08:08,000 --> 00:08:11,000

and once the government arrived he helped them with the investigation.

92

00:08:11,000 --> 00:08:15,000

What could possibly be in these documents that would compel him to keep them all this time?

93

00:08:18,000 --> 00:08:20,000

This is everything?

94

00:08:20,000 --> 00:08:22,000

This is everything.

95

00:08:22,000 --> 00:08:25,000

How did you know what was going on?

96

00:08:25,000 --> 00:08:28,000

He has connections within the military.

97

00:08:28,000 --> 00:08:31,000

These documents are going to be a huge resource for us.

98

00:08:31,000 --> 00:08:36,000

We've got our hands on more than a thousand pages of documents related to Operation Plate,

99

00:08:36,000 --> 00:08:40,000

to that military investigation. We've got to dig into this right away.

100

00:08:40,000 --> 00:08:42,000

All right.

101

00:08:42,000 --> 00:08:44,000

Work here.

102

00:08:44,000 --> 00:08:50,000

Nick, Paul and their translator Eduardo moved to a café to dig through the Operation Plate case files

103

00:08:50,000 --> 00:08:57,000

for any details that shed light on what the military concluded was causing the six-month span of UFO activity.

104

00:08:57,000 --> 00:09:00,000

Tell me if I'm reading this correctly. This looks like luminous body.

105

00:09:00,000 --> 00:09:01,000

Yes.

106

00:09:01,000 --> 00:09:03,000

Is this indicating travel?

107

00:09:03,000 --> 00:09:04,000

Like a direction of travel?

108

00:09:04,000 --> 00:09:07,000

The arrows? I don't know exactly what they mean.

109

00:09:08,000 --> 00:09:12,000

This is going to take all night, but we have got to go through every single one of these documents

110

00:09:12,000 --> 00:09:18,000

because somewhere in there buried in those pages could be the answer to what really happened in Calaris.

111

00:09:18,000 --> 00:09:23,000

This is a military report from November 5th, right?

112

00:09:23,000 --> 00:09:25,000

It was a military unit that observed it.

113

00:09:25,000 --> 00:09:26,000

Yes.

114

00:09:26,000 --> 00:09:27,000

And they photographed it.

115

00:09:27,000 --> 00:09:34,000

Here's another one from November 6th, 77, done by the Air Force with connected photographs taken by the Air Force.

116

00:09:34,000 --> 00:09:38,000

I mean, now it's not just hearsay or witness testimony.

117

00:09:38,000 --> 00:09:44,000

We have official classified Brazilian military documentation of these lights, of these objects.

118

00:09:44,000 --> 00:09:47,000

That means the military didn't even know what they were dealing with.

119

00:09:47,000 --> 00:09:55,000

This, to me, looks like the Brazilian military thought that Brazil was under attack by some kind of unknown force.

120

00:09:55,000 --> 00:09:57,000

These are two different incidents, right?

121

00:09:57,000 --> 00:09:58,000

Yeah.

122

00:09:58,000 --> 00:10:03,000

It says here they were floating over water, floated over the water, and then they were floating over the water.

123

00:10:03,000 --> 00:10:05,000

And then moved toward Calaris?

124

00:10:05,000 --> 00:10:06,000

Yeah.

125

00:10:06,000 --> 00:10:07,000

Interesting.

126

00:10:07,000 --> 00:10:13,000

And another map, look at this, is coming in from the water, and this one comes from Calaris and goes back out to the water.

127

00:10:13,000 --> 00:10:23,000

We have another one from a fisherman, and he witnessed this light hovering about two meters on the water in Marjo Bay.

128

00:10:23,000 --> 00:10:29,000

It says it didn't make any disturbance whatsoever to the water to the point that he actually thought it was a submarine.

129

00:10:29,000 --> 00:10:30,000

That's what he thought he was witnessing.

130

00:10:30,000 --> 00:10:32,000

I think that's the bay you're seeing on the map.

131

00:10:34,000 --> 00:10:41,000

The clearest pattern we're seeing is objects traveling over, near, or actually on Marjo Bay.

132

00:10:41,000 --> 00:10:43,000

It is some kind of center of activity.

133

00:10:43,000 --> 00:10:46,000

I mean, that's very clear here.

134

00:10:46,000 --> 00:10:53,000

By far, the most apparent pattern here is that these sightings, both from the civilian witnesses and from the military observations themselves,

135

00:10:53,000 --> 00:10:56,000

are occurring on, over, and near the water.

136

00:10:56,000 --> 00:10:59,000

It's almost like an X marks the spot over Marjo Bay.

137

00:10:59,000 --> 00:11:01,000

With the logical next step, we need to get up there.

138

00:11:01,000 --> 00:11:04,000

Now the question becomes, why is this happening over the water?

139

00:11:08,000 --> 00:11:10,000

This is where he started lights for the first time.

140

00:11:10,000 --> 00:11:14,000

Well, if this guy is still around, he might be able to shed light on us. We need to find him.

141

00:11:14,000 --> 00:11:16,000

All these patterns, they've led us here.

142

00:11:16,000 --> 00:11:19,000

This could be the lunchpin that brings us investigation together.

143

00:11:30,000 --> 00:11:34,000

So here's Marjo Bay. God, it's huge. I mean, it looks like we're on the open ocean.

144

00:11:34,000 --> 00:11:36,000

It sure does. It's a lot bigger than I expected.

145

00:11:36,000 --> 00:11:43,000

Investigative journalist Paul Bevan and military intelligence officer Nick Carnese are in the coastal town of Calaris, Brazil,

146

00:11:43,000 --> 00:11:50,000

investigating an incident that occurred in 1977, where more than 80 victims reported they were attacked by UFOs

147

00:11:50,000 --> 00:11:54,000

that flew at high speeds and shot beams of light into their bodies.

148

00:11:55,000 --> 00:12:03,000

They tracked down a fisherman from the operation plate documents, who leads them to the location where he witnessed one of the large flying objects in 1977.

149

00:12:11,000 --> 00:12:13,000

About how far is it?

150

00:12:25,000 --> 00:12:28,000

Stop, stop, stop, stop, stop, stop, stop.

151

00:12:30,000 --> 00:12:33,000

This is where he saw the lights for the first time.

152

00:12:33,000 --> 00:12:39,000

They would come from that side, that direction, and then 15 minutes would go by, and they would come from that side.

153

00:12:39,000 --> 00:12:41,000

So they were like flying around.

154

00:12:41,000 --> 00:12:44,000

How many were there? Was it a single light moving or were there multiple lights?

155

00:12:44,000 --> 00:12:46,000

Three. Three.

156

00:12:46,000 --> 00:12:50,000

One kind of yellow, an orange one, and a red one.

157

00:12:50,000 --> 00:12:57,000

He thought they were actually searching for something, he can't tell why, but it's clear that they were gathering information.

158

00:12:57,000 --> 00:13:03,000

So, yeah, their movements weren't random. They seemed to be doing something in an organized way.

159

00:13:03,000 --> 00:13:06,000

Did the light ever shine down on you, on your boat?

160

00:13:06,000 --> 00:13:14,000

The orange light hit directly at him, and it was him and his brother, and everything turned orange.

161

00:13:14,000 --> 00:13:20,000

Everything he could see was orange, and his brother was really desperate. He wanted to throw himself in the water.

162

00:13:28,000 --> 00:13:34,000

He was terrified because there had been attacks before in town, so he knew what the lights could do to him.

163

00:13:34,000 --> 00:13:36,000

Did you see the objects land?

164

00:13:36,000 --> 00:13:42,000

He said to them, they saw it dive deep into the water.

165

00:13:42,000 --> 00:13:43,000

Really?

166

00:13:43,000 --> 00:13:44,000

Went into the water.

167

00:13:44,000 --> 00:13:45,000

Into the water.

168

00:13:46,000 --> 00:13:53,000

Throughout the course of our investigation, we've been looking skyward, but now we've learned these UFOs, it's not just in the sky, they have a connection to the water.

169

00:13:53,000 --> 00:13:56,000

So now the question becomes, have we been looking in the wrong place?

170

00:13:57,000 --> 00:13:58,000

That's really strange.

171

00:13:58,000 --> 00:14:05,000

I mean, you know, you think of them being in the sky, but actually being submersible, essentially being able to transition into the water.

172

00:14:05,000 --> 00:14:06,000

Right.

173

00:14:06,000 --> 00:14:07,000

Right.

174

00:14:07,000 --> 00:14:12,000

The entire time the UFOs haven't been just over the land, they've been going in and out of the water.

175

00:14:12,000 --> 00:14:15,000

This is much bigger than we ever thought it was.

176

00:14:25,000 --> 00:14:32,000

Fishermen are describing craft coming out of the water and flying off, and vice versa.

177

00:14:32,000 --> 00:14:35,000

This is something that is completely foreign to their experience.

178

00:14:35,000 --> 00:14:36,000

It's foreign to mine.

179

00:14:36,000 --> 00:14:42,000

I mean, submarines are under the water, airplanes are in the sky, but I can't think of anything we have that does both of these things.

180

00:14:42,000 --> 00:14:43,000

Right.

181

00:14:43,000 --> 00:14:48,000

I don't know of military assets that are doing this, and certainly can't think of something that could do that in the 70s.

182

00:14:48,000 --> 00:14:54,000

When we look at everything we've seen in this investigation so far, what is the one thing we're seeing again and again?

183

00:14:55,000 --> 00:14:57,000

The thing that sticks out is water.

184

00:14:58,000 --> 00:15:11,000

In Argentina, in Chile, now in Brazil, all of these incidents take place near, on, over, under bodies of water.

185

00:15:14,000 --> 00:15:23,000

Maybe all of these sightings are connected to water, not because these UFOs are interested in the water, but because they're capable of operating beneath it.

186

00:15:23,000 --> 00:15:26,000

We've been looking up, right, when we needed to be looking down.

187

00:15:26,000 --> 00:15:27,000

Makes sense, sure.

188

00:15:27,000 --> 00:15:35,000

The amount of water on this planet, it's the majority of our surface, and we have so little knowledge of what's going on under the waves.

189

00:15:35,000 --> 00:15:39,000

If you were looking to not be observed, that's where you want to be.

190

00:15:39,000 --> 00:15:40,000

Right.

191

00:15:40,000 --> 00:15:47,000

We've only been looking in one direction up, but the pattern that's emerging, it's pretty compelling.

192

00:15:48,000 --> 00:15:59,000

And it may indicate we may be more likely to find something by looking down, not unidentified flying objects, but unidentified submerged objects, USOs.

193

00:15:59,000 --> 00:16:01,000

So let's do a search.

194

00:16:02,000 --> 00:16:08,000

Unidentified flying submersible, submerged. Let's see just what that pulls up.

195

00:16:08,000 --> 00:16:09,000

Okay.

196

00:16:09,000 --> 00:16:10,000

Worldwide.

197

00:16:18,000 --> 00:16:22,000

Okay, well, there's a lot of hits all over the globe here.

198

00:16:22,000 --> 00:16:23,000

Right.

199

00:16:23,000 --> 00:16:25,000

Well, let's start with the sightings database there.

200

00:16:25,000 --> 00:16:26,000

Alrighty.

201

00:16:26,000 --> 00:16:28,000

That's the Nimitz Report.

202

00:16:28,000 --> 00:16:30,000

Why is the Nimitz Report popping up?

203

00:16:30,000 --> 00:16:33,000

Is it because it was an aircraft carrier?

204

00:16:33,000 --> 00:16:35,000

You searched on submersible, right?

205

00:16:35,000 --> 00:16:37,000

Tracking of the water disturbance.

206

00:16:37,000 --> 00:16:38,000

That's right.

207

00:16:38,000 --> 00:16:41,000

The initial disturbance that is seen is under the water.

208

00:16:41,000 --> 00:16:47,000

We saw a disturbance in the water by like a seamount where the waves are breaking over the top, so white water.

209

00:16:47,000 --> 00:16:52,000

You know, we looked at the Nimitz event, we saw it as a UFO event, a flying object.

210

00:16:52,000 --> 00:16:54,000

What if that really was a USO event?

211

00:16:54,000 --> 00:16:57,000

I mean, obviously there was flying phenomena happening, right?

212

00:16:57,000 --> 00:16:58,000

Right.

213

00:16:58,000 --> 00:17:02,000

But that at its core, the real action was under the waves.

214

00:17:02,000 --> 00:17:04,000

What's this last one?

215

00:17:05,000 --> 00:17:09,000

An earlier UFO sighting on the USS Nimitz.

216

00:17:09,000 --> 00:17:16,000

A Navy photographer named Kevin Thomas was apparently on the fan tail when he witnessed a huge vessel surface pretty close to the carrier.

217

00:17:16,000 --> 00:17:18,000

It surfaced, it flew away and out of sight.

218

00:17:18,000 --> 00:17:20,000

I guess it was a USO and a UFO all in one.

219

00:17:20,000 --> 00:17:28,000

So there was another, not just UFO incident, but USO incident that took place on the same aircraft carrier a decade before?

220

00:17:28,000 --> 00:17:29,000

Yep.

221

00:17:29,000 --> 00:17:32,000

Well, if this guy is still around, he might be able to shed light on this.

222

00:17:32,000 --> 00:17:33,000

We need to find him.

223

00:17:33,000 --> 00:17:34,000

Let's do it.

224

00:17:34,000 --> 00:17:45,000

Dr. Livingston digs through the LAS to track any electronic signature on Kevin Thomas, while Mike taps into naval contacts for any information on the former sailor's whereabouts.

225

00:17:45,000 --> 00:17:46,000

This dude is a ghost.

226

00:17:46,000 --> 00:17:50,000

He doesn't have an email address, he doesn't have a telephone.

227

00:17:50,000 --> 00:17:52,000

It's like he's trying not to be found.

228

00:17:52,000 --> 00:17:58,000

I have checked every commercial and even a few non-commercial sources.

229

00:17:58,000 --> 00:17:59,000

I can't find them.

230

00:17:59,000 --> 00:18:02,000

The only thing we have is a last known address in Dallas, Texas.

231

00:18:02,000 --> 00:18:05,000

We need to get Nick and Sarah on the ground and see if they can find him.

232

00:18:05,000 --> 00:18:07,000

We need to talk to this guy.

233

00:18:10,000 --> 00:18:11,000

Coming up.

234

00:18:11,000 --> 00:18:15,000

Our military is very much concerned and we should be as well.

235

00:18:15,000 --> 00:18:19,000

The Navy has a program to track unidentified submerged objects.

236

00:18:19,000 --> 00:18:21,000

That's exactly what's going on.

237

00:18:21,000 --> 00:18:23,000

This is the Holy Grail of interviews.

238

00:18:33,000 --> 00:18:42,000

The fact that this is the second time on the Nimitz that we've had a witness to something unexplained is in a space of 13 years that could potentially be massive for the investigation.

239

00:18:42,000 --> 00:18:53,000

Astrophysicist and space journalist Sarah Crutus and US Marine intelligence officer Nick Carnese land in Dallas, Texas and head to the last known address of Kevin Thomas,

240

00:18:53,000 --> 00:19:02,000

a former US Navy combat photographer who claims to have witnessed a USO off the Nimitz aircraft carrier in 1991.

241

00:19:03,000 --> 00:19:08,000

We started this investigation with Kevin Day, who was a witness to the Tic Tac incident on board the Nimitz.

242

00:19:08,000 --> 00:19:17,000

The most significant video to come out of the A-Tip files and now here we are with another guy who worked on the Nimitz aircraft carrier.

243

00:19:18,000 --> 00:19:24,000

Who also seems to have witnessed something incredible and we need to find out exactly what this was.

244

00:19:25,000 --> 00:19:26,000

Listen.

245

00:19:26,000 --> 00:19:27,000

Yep, you ready?

246

00:19:27,000 --> 00:19:28,000

Yep.

247

00:19:31,000 --> 00:19:32,000

Let's hope this guy's in.

248

00:19:34,000 --> 00:19:37,000

Hi, we're looking for Kevin Thomas.

249

00:19:37,000 --> 00:19:38,000

You wouldn't have him, would you?

250

00:19:38,000 --> 00:19:39,000

No.

251

00:19:39,000 --> 00:19:41,000

I did by the house for him about three years ago.

252

00:19:41,000 --> 00:19:42,000

Oh really? Okay.

253

00:19:42,000 --> 00:19:46,000

Do you by chance know if any of the neighbors around here might have been around when he lived here?

254

00:19:46,000 --> 00:19:47,000

No, I don't know.

255

00:19:47,000 --> 00:19:48,000

Okay, we appreciate your time. Thank you.

256

00:19:48,000 --> 00:19:49,000

Okay, you're welcome.

257

00:19:49,000 --> 00:19:50,000

Thanks, sir. Appreciate it.

258

00:19:50,000 --> 00:19:51,000

You bet.

259

00:19:51,000 --> 00:19:52,000

Okay, now the work begins.

260

00:19:52,000 --> 00:19:53,000

All right.

261

00:19:54,000 --> 00:19:55,000

We need to knock on every door.

262

00:19:58,000 --> 00:19:59,000

I don't think anyone's in.

263

00:19:59,000 --> 00:20:00,000

Let's jump across the street.

264

00:20:00,000 --> 00:20:02,000

There must be someone around here who knew him.

265

00:20:06,000 --> 00:20:07,000

Hi.

266

00:20:07,000 --> 00:20:09,000

We're looking for a guy by the name of Kevin Thomas.

267

00:20:09,000 --> 00:20:10,000

He used to live across the street.

268

00:20:10,000 --> 00:20:11,000

Yeah, sure.

269

00:20:11,000 --> 00:20:12,000

I remember Kevin.

270

00:20:12,000 --> 00:20:14,000

Do you know where he moved to?

271

00:20:14,000 --> 00:20:16,000

I don't.

272

00:20:16,000 --> 00:20:21,000

If he mentioned something at one point, I think he bought a farm off 78 north of Bonham,

273

00:20:21,000 --> 00:20:22,000

but I don't have an address.

274

00:20:22,000 --> 00:20:23,000

Okay.

275

00:20:23,000 --> 00:20:24,000

Thank you so much for your time.

276

00:20:24,000 --> 00:20:26,000

All right, at least we have a starting point now, though.

277

00:20:28,000 --> 00:20:29,000

So here's Bonham.

278

00:20:29,000 --> 00:20:31,000

He said it was 78 north.

279

00:20:31,000 --> 00:20:33,000

He was about 58 miles from here.

280

00:20:33,000 --> 00:20:34,000

Let's go knock on some doors.

281

00:20:35,000 --> 00:20:36,000

We now have a solid lead.

282

00:20:36,000 --> 00:20:38,000

Hopefully we can track this guy down.

283

00:20:38,000 --> 00:20:40,000

He could have information about the points to contact.

284

00:20:45,000 --> 00:20:48,000

While Nick and Sarah continue their search,

285

00:20:48,000 --> 00:20:53,000

Mike Cole and Dr. Livingston look for reports of unidentified, submerged objects

286

00:20:53,000 --> 00:20:56,000

that exceed human technological capabilities.

287

00:20:57,000 --> 00:20:59,000

So we have an article.

288

00:20:59,000 --> 00:21:00,000

Can you pull that up?

289

00:21:01,000 --> 00:21:03,000

Okay, this is from July 2015.

290

00:21:03,000 --> 00:21:07,000

Significant claims have been made in recent years regarding unidentified,

291

00:21:07,000 --> 00:21:10,000

submersible objects detected by the US Navy.

292

00:21:11,000 --> 00:21:16,000

Navy contractor Mark Dantonio describes a sudden appearance of an incredibly

293

00:21:16,000 --> 00:21:17,000

high performing object on Sonar.

294

00:21:17,000 --> 00:21:20,000

It was traveling at several hundred knots.

295

00:21:21,000 --> 00:21:28,000

Both the Russians and us have fast moving torpedoes that they could track at 200 knots.

296

00:21:28,000 --> 00:21:29,000

Easy.

297

00:21:29,000 --> 00:21:30,000

Sure.

298

00:21:30,000 --> 00:21:32,000

But this says several hundred knots.

299

00:21:33,000 --> 00:21:36,000

The evidence is showing an undeniable pattern.

300

00:21:36,000 --> 00:21:37,000

Of USO activity.

301

00:21:37,000 --> 00:21:40,000

And look, I don't know if this is evidence of extraterrestrial contact.

302

00:21:40,000 --> 00:21:44,000

I don't know if this is evidence of some kind of military attack that we missed,

303

00:21:44,000 --> 00:21:46,000

but it's too compelling for us to ignore.

304

00:21:46,000 --> 00:21:48,000

We've got to figure out what this is.

305

00:21:48,000 --> 00:21:49,000

I can't believe this.

306

00:21:49,000 --> 00:21:51,000

He's in Southern California.

307

00:21:51,000 --> 00:21:52,000

He is.

308

00:21:52,000 --> 00:21:53,000

Yeah.

309

00:21:53,000 --> 00:21:55,000

Well, let's go check this one out ourselves.

310

00:21:55,000 --> 00:21:59,000

I have complete faith in the field teams, but Mark Dantonio is close.

311

00:21:59,000 --> 00:22:01,000

I want to talk to this guy personally.

312

00:22:01,000 --> 00:22:05,000

Through a deep, deep,

313

00:22:05,000 --> 00:22:06,000

deep.

314

00:22:06,000 --> 00:22:10,000

Through a DIA contact, Mike Echlaers the cellphone number of Mark Dantonio.

315

00:22:10,000 --> 00:22:11,000

Thank you so much.

316

00:22:11,000 --> 00:22:12,000

Okay.

317

00:22:12,000 --> 00:22:16,000

Who confirms that he is currently locally contracted at the Port of Los Angeles and agrees to

318

00:22:16,000 --> 00:22:19,000

an impromptu meeting.

319

00:22:19,000 --> 00:22:24,000

Mark Dantonio appears to be pretty credible is a United States Navy contractor with access

320

00:22:24,000 --> 00:22:25,000

to sensitive programs.

321

00:22:25,000 --> 00:22:31,000

We are seeing indicator after indicator that there is unidentified submerged objects,

322

00:22:31,000 --> 00:22:33,000

unexplained activity under the water.

323

00:22:33,000 --> 00:22:36,000

He could be a key witness as to the nature of that activity.

324

00:22:36,000 --> 00:22:37,000

All right.

325

00:22:37,000 --> 00:22:43,000

So he sent us an address here, a Navy yard down here in Long Beach.

326

00:22:43,000 --> 00:22:46,000

This guy is an active Navy contractor, right?

327

00:22:46,000 --> 00:22:52,000

So his willingness to go on record is really compelling.

328

00:22:52,000 --> 00:22:57,000

That must be him.

329

00:22:57,000 --> 00:22:59,000

Mark, I appreciate you coming out.

330

00:22:59,000 --> 00:23:00,000

Yeah.

331

00:23:00,000 --> 00:23:05,000

I'm going across the report with pretty extraordinary testimony about a sighting you had.

332

00:23:05,000 --> 00:23:08,000

Can you tell us about the ship's mission that you're sighting occurred on?

333

00:23:08,000 --> 00:23:12,000

I can't say that, but I can say that I was at sea with the crew.

334

00:23:12,000 --> 00:23:18,000

I'm aboard a nuclear sub and then I'm off the side of the control room.

335

00:23:18,000 --> 00:23:19,000

Nice little sonar guy who's watching.

336

00:23:19,000 --> 00:23:22,000

You know, he's the eyes and ears of the boat.

337

00:23:22,000 --> 00:23:27,000

And all of a sudden I hear, Con Sonar, Con Sonar, fast mover, fast mover, kind of frantic.

338

00:23:27,000 --> 00:23:28,000

How fast are we talking?

339

00:23:28,000 --> 00:23:31,000

He said that it was moving several hundred knots.

340

00:23:31,000 --> 00:23:39,000

The closest weapon on the planet that can go 200 knots is the Russian Squall torpedo.

341

00:23:39,000 --> 00:23:40,000

But it's very, very loud.

342

00:23:40,000 --> 00:23:42,000

This was very, very quiet.

343

00:23:42,000 --> 00:23:43,000

How do you know it was quiet?

344

00:23:43,000 --> 00:23:49,000

If it was loud, then that waterfall sonar would have just been all blown out with a lot of bright green.

345

00:23:49,000 --> 00:23:50,000

And it wasn't.

346

00:23:50,000 --> 00:23:52,000

It was a very, very faint trace.

347

00:23:52,000 --> 00:23:57,000

So what you're saying is that this object that was being tracked on Sonar was moving faster than the other.

348

00:23:57,000 --> 00:24:01,000

Moving faster than the most advanced torpedoes that you are aware of.

349

00:24:01,000 --> 00:24:02,000

Yes.

350

00:24:02,000 --> 00:24:06,000

And was emitting less sound than the most advanced torpedoes that you are aware of.

351

00:24:06,000 --> 00:24:09,000

And this includes not just the United States Navy, but any Navy.

352

00:24:09,000 --> 00:24:12,000

As far as I know, absolutely.

353

00:24:12,000 --> 00:24:14,000

And I know that our Navy guys are very, very well trained.

354

00:24:14,000 --> 00:24:17,000

And a sonar operator is supposed to be able to classify anything he sees.

355

00:24:17,000 --> 00:24:20,000

This guy didn't know what he was classifying.

356

00:24:20,000 --> 00:24:22,000

How do you know he didn't know what he was classifying?

357

00:24:22,000 --> 00:24:26,000

Because when the executive officer came, he actually said to the XO,

358

00:24:26,000 --> 00:24:28,000

What do I do with this?

359

00:24:28,000 --> 00:24:32,000

And the XO nodded and he goes, log it and then bury it.

360

00:24:32,000 --> 00:24:33,000

Bury it.

361

00:24:33,000 --> 00:24:35,000

It was business as usual.

362

00:24:35,000 --> 00:24:36,000

Real?

363

00:24:36,000 --> 00:24:37,000

Business as usual.

364

00:24:37,000 --> 00:24:38,000

Like nothing had happened.

365

00:24:38,000 --> 00:24:40,000

Like nothing, and that was making me nuts.

366

00:24:40,000 --> 00:24:45,000

It made me realize the military, the Navy, is seeing things like this a lot.

367

00:24:45,000 --> 00:24:48,000

They have things like the SOSIS net.

368

00:24:48,000 --> 00:24:51,000

It's a very sensitive set of hydrophones all over the oceans.

369

00:24:51,000 --> 00:24:53,000

And here sounds thousands of miles away.

370

00:24:53,000 --> 00:24:57,000

And these hydrophones have been in place for a long, long time.

371

00:24:57,000 --> 00:25:01,000

The SOSIS network is an array of thousands of underwater microphones

372

00:25:01,000 --> 00:25:06,000

installed in secret by the US Navy to track Soviet submarines during the Cold War.

373

00:25:06,000 --> 00:25:11,000

By comparing the timing of incoming sound waves at various points along the network,

374

00:25:11,000 --> 00:25:16,000

SOSIS can compute the speed and direction of any fast-moving underwater object.

375

00:25:16,000 --> 00:25:21,000

The decades-old Sonar Surveillance Tech is now used by oceanic research organizations

376

00:25:21,000 --> 00:25:25,000

to study underwater sound, but its highly sensitive microphones

377

00:25:25,000 --> 00:25:28,000

have also picked up unexplained phenomena.

378

00:25:30,000 --> 00:25:34,000

If I was able to confirm there is indeed a program

379

00:25:34,000 --> 00:25:37,000

cataloging these fast mover things.

380

00:25:37,000 --> 00:25:41,000

You're saying that the Navy has a program, the equivalent of ATIM,

381

00:25:41,000 --> 00:25:43,000

to track unidentified submerged objects.

382

00:25:43,000 --> 00:25:45,000

That's exactly what's going on.

383

00:25:47,000 --> 00:25:51,000

Strange objects able to move at gigantic speeds.

384

00:25:51,000 --> 00:25:53,000

At what kind of speed did it move?

385

00:25:53,000 --> 00:25:55,000

Superphonic.

386

00:26:16,000 --> 00:26:20,000

You're saying that the Navy has a program, the equivalent of ATIM,

387

00:26:20,000 --> 00:26:22,000

to track unidentified submerged objects.

388

00:26:22,000 --> 00:26:24,000

That's exactly what's going on.

389

00:26:25,000 --> 00:26:31,000

We have, for many years, for decades in fact, been tracking USOs.

390

00:26:31,000 --> 00:26:33,000

But the Navy themselves don't know what they are.

391

00:26:33,000 --> 00:26:37,000

They're picking up some type of motion, some type of sound,

392

00:26:37,000 --> 00:26:39,000

underneath the ocean that doesn't belong.

393

00:26:39,000 --> 00:26:42,000

And I think maybe that these underwater objects that are in the ocean

394

00:26:42,000 --> 00:26:44,000

that doesn't belong.

395

00:26:44,000 --> 00:26:47,000

And I think maybe that these underwater objects that move so quickly

396

00:26:47,000 --> 00:26:49,000

underwater are the culprits.

397

00:26:50,000 --> 00:26:54,000

I would love to be able to get into the files of the secret USO program.

398

00:26:54,000 --> 00:26:59,000

But the fact that we're just now hearing about it suggests that it's highly classified.

399

00:26:59,000 --> 00:27:01,000

I don't know how we could possibly get to it.

400

00:27:01,000 --> 00:27:06,000

The next best thing is going to be SOSIS, this sonar surveillance network

401

00:27:06,000 --> 00:27:08,000

that Antonio mentioned.

402

00:27:08,000 --> 00:27:11,000

It's an underwater surveillance system that's in every corner of the world.

403

00:27:11,000 --> 00:27:13,000

That's where we need to look.

404

00:27:13,000 --> 00:27:19,000

It has to be hearing every USO that's active under the water all the time.

405

00:27:22,000 --> 00:27:29,000

All right, let me do a search for Navy SOSIS Unidentified, worldwide.

406

00:27:34,000 --> 00:27:35,000

Three documents.

407

00:27:35,000 --> 00:27:37,000

What's this one, the executive summary?

408

00:27:37,000 --> 00:27:40,000

1970, SOSIS meets its match.

409

00:27:40,000 --> 00:27:45,000

It looks here like the Soviet Union was developing submarines that could defeat SOSIS

410

00:27:45,000 --> 00:27:47,000

that were able to run silently.

411

00:27:47,000 --> 00:27:48,000

What makes sense?

412

00:27:48,000 --> 00:27:50,000

What a threat that would be to the United States of America, right?

413

00:27:50,000 --> 00:27:54,000

We're trying to get better at detecting the Soviets, later the Russians.

414

00:27:54,000 --> 00:27:56,000

The Russians are trying to get better at defeating us.

415

00:27:56,000 --> 00:27:58,000

This is a cat and mouse game.

416

00:27:58,000 --> 00:28:00,000

And it looks like it's still going on today.

417

00:28:00,000 --> 00:28:06,000

We keep hearing these reports related to these USOs of capabilities

418

00:28:06,000 --> 00:28:09,000

well beyond the limits of any human technology.

419

00:28:09,000 --> 00:28:14,000

But I read that executive summary and I think we may see advanced technology

420

00:28:14,000 --> 00:28:17,000

and misinterpret it as something as not of this world.

421

00:28:17,000 --> 00:28:20,000

Maybe this is advanced Russian technology.

422

00:28:20,000 --> 00:28:25,000

The fact that the Russians created technology that could potentially have evaded SOSIS

423

00:28:25,000 --> 00:28:30,000

makes Russian advanced military tech the last thing we have to eliminate

424

00:28:30,000 --> 00:28:34,000

before we can reach a conclusion that these USOs are possibly extraterrestrial.

425

00:28:35,000 --> 00:28:40,000

Mike and Dr. Livingston returned to the command center to track down any informants

426

00:28:40,000 --> 00:28:44,000

who might have knowledge of secret Russian underwater tech.

427

00:28:44,000 --> 00:28:46,000

Alright, we'll just keep working the phone lines.

428

00:28:46,000 --> 00:28:48,000

He worked Russian sub stuff, right?

429

00:28:48,000 --> 00:28:53,000

After combing through their networks, one of Mike's contacts within the DoD's Russian Navy sector

430

00:28:53,000 --> 00:28:57,000

is able to connect the team to a source known for deep ties to the Russian military

431

00:28:57,000 --> 00:28:59,000

who agrees to share his intel.

432

00:28:59,000 --> 00:29:00,000

Let's go.

433

00:29:00,000 --> 00:29:03,000

He's very interested in what this guy has to say.

434

00:29:03,000 --> 00:29:18,000

This witness is an expert on the Russian maritime power.

435

00:29:18,000 --> 00:29:24,000

So if anybody knows whether or not the Russians are capable of these underwater submerged objects,

436

00:29:24,000 --> 00:29:26,000

he's going to know.

437

00:29:26,000 --> 00:29:28,000

Mike and Doc link up with Paul Stonehill,

438

00:29:28,000 --> 00:29:32,000

a former Soviet citizen and journalist specializing in Russian military history.

439

00:29:33,000 --> 00:29:37,000

In order for us to determine that a USO is extraterrestrial,

440

00:29:37,000 --> 00:29:42,000

we first have to eliminate the possibility of Russian military involvement.

441

00:29:42,000 --> 00:29:46,000

Paul Stonehill is an expert on Russian military capabilities.

442

00:29:46,000 --> 00:29:49,000

He has a network of contacts on the current Russian Navy,

443

00:29:49,000 --> 00:29:52,000

and he may be able to give us information about the USO phenomenon.

444

00:29:52,000 --> 00:29:56,000

Where we're at in the investigation now is we have incontrovertible evidence

445

00:29:56,000 --> 00:29:59,000

that there is something going on underneath the water.

446

00:29:59,000 --> 00:30:02,000

And we know it's not our Navy.

447

00:30:02,000 --> 00:30:04,000

So is it possible that the USOs that we're seeing,

448

00:30:04,000 --> 00:30:11,000

that the US Navy is seeing are actually Russian naval programs being tested underneath the water?

449

00:30:11,000 --> 00:30:15,000

No, because they're also investigating the same phenomenon.

450

00:30:15,000 --> 00:30:19,000

The Russians have a secret program to study UFOs and USOs,

451

00:30:19,000 --> 00:30:21,000

interfering with secret missions.

452

00:30:21,000 --> 00:30:28,000

For over 30 years, the Russians wanted to know who are the objects that are chasing Soviet submarine.

453

00:30:28,000 --> 00:30:31,000

The Soviets thought that they were dealing with the Americans,

454

00:30:31,000 --> 00:30:34,000

where they were seeing inexplicable things underwater.

455

00:30:34,000 --> 00:30:37,000

And the Americans thought that they were dealing with the Soviets.

456

00:30:37,000 --> 00:30:41,000

And it took so much time to figure out that it wasn't either side.

457

00:30:41,000 --> 00:30:46,000

We're dealing with something that we cannot explain, and it continues well into today.

458

00:30:47,000 --> 00:30:54,000

What you're saying is that there is activity that neither the Russian or a United States Navy

459

00:30:54,000 --> 00:30:59,000

can credit or explain going on underneath the waves right now.

460

00:30:59,000 --> 00:31:02,000

Yes, strange objects lurking in the oceans,

461

00:31:02,000 --> 00:31:06,000

emitting strange sounds, able to move at gigantic speeds.

462

00:31:06,000 --> 00:31:08,000

Nobody has capabilities like that.

463

00:31:08,000 --> 00:31:14,000

For 30 years, the Russians thought that this USO phenomenon was the United States.

464

00:31:14,000 --> 00:31:17,000

And the United States thought it was the Russians.

465

00:31:17,000 --> 00:31:19,000

If we were both wrong, then what is it?

466

00:31:19,000 --> 00:31:22,000

Everybody's looking in the sky at UFOs.

467

00:31:22,000 --> 00:31:26,000

That's nice, but you should also be concerned about what's going on down below.

468

00:31:26,000 --> 00:31:28,000

Objects that cannot be explained.

469

00:31:28,000 --> 00:31:32,000

Our military is very much concerned, and we should be as well.

470

00:31:33,000 --> 00:31:35,000

All of the evidence is pointing to the water.

471

00:31:35,000 --> 00:31:41,000

And now we have a man with intimate contacts in both the former Soviet and the current Russian Navy

472

00:31:41,000 --> 00:31:45,000

saying that there is no terrestrial explanation.

473

00:31:46,000 --> 00:31:48,000

That's pretty concerning.

474

00:31:53,000 --> 00:31:55,000

What is the name of the aircraft carrier?

475

00:32:00,000 --> 00:32:02,000

Well, this is the road.

476

00:32:04,000 --> 00:32:05,000

No one's home.

477

00:32:05,000 --> 00:32:09,000

After traveling to Bonham, Texas and canvassing houses in the area...

478

00:32:09,000 --> 00:32:11,000

Yeah, it lives right next door.

479

00:32:11,000 --> 00:32:12,000

Oh, really?

480

00:32:12,000 --> 00:32:15,000

Nick and Sarah receive a tip on the location of Kevin Thomas,

481

00:32:15,000 --> 00:32:21,000

a former Navy combat photographer who witnessed a USO off the Nimitz aircraft carrier in 1991.

482

00:32:22,000 --> 00:32:23,000

Ready?

483

00:32:23,000 --> 00:32:24,000

Let's do it.

484

00:32:38,000 --> 00:32:39,000

Hi.

485

00:32:39,000 --> 00:32:41,000

Hey, sir. Sir, I'm Bobby. My name's Nick.

486

00:32:41,000 --> 00:32:42,000

And I'm Sarah. Nice to meet you.

487

00:32:42,000 --> 00:32:43,000

I'm Karnazy.

488

00:32:43,000 --> 00:32:44,000

Okay, and why are you here?

489

00:32:44,000 --> 00:32:47,000

I'm a Marine Corps veteran, and this is my partner, Sarah Crittis,

490

00:32:47,000 --> 00:32:49,000

who's conducting an investigation,

491

00:32:49,000 --> 00:32:53,000

and we're trying to track down a gentleman by the name of Kevin Thomas.

492

00:32:54,000 --> 00:32:55,000

That's me.

493

00:32:55,000 --> 00:32:56,000

Oh, perfect.

494

00:32:56,000 --> 00:33:00,000

We really want to talk to you about what you experienced on the Nimitz back in 1991.

495

00:33:01,000 --> 00:33:02,000

How'd you find me?

496

00:33:02,000 --> 00:33:07,000

We've been conducting an independent investigation into unexplained sightings,

497

00:33:07,000 --> 00:33:09,000

and we're good at what we do.

498

00:33:10,000 --> 00:33:13,000

We really want to talk to you because we think your account,

499

00:33:13,000 --> 00:33:16,000

your story could be vital for this investigation.

500

00:33:17,000 --> 00:33:19,000

Honestly, I don't want to talk about it.

501

00:33:20,000 --> 00:33:23,000

We didn't come all this way to be turned away now.

502

00:33:23,000 --> 00:33:25,000

We have to get them to talk.

503

00:33:25,000 --> 00:33:29,000

Everything we've investigated to this point has led us to you,

504

00:33:29,000 --> 00:33:32,000

and we really want to talk to you because we think your account,

505

00:33:32,000 --> 00:33:35,000

your story could be vital for this investigation.

506

00:33:38,000 --> 00:33:39,000

You're a Marine.

507

00:33:39,000 --> 00:33:40,000

Yes, sir.

508

00:33:40,000 --> 00:33:42,000

I'll give you a few minutes.

509

00:33:42,000 --> 00:33:43,000

Okay, come on in.

510

00:33:43,000 --> 00:33:44,000

Thank you.

511

00:33:44,000 --> 00:33:45,000

I really appreciate it.

512

00:33:45,000 --> 00:33:46,000

This is huge.

513

00:33:46,000 --> 00:33:48,000

He's never talked to anyone before.

514

00:33:48,000 --> 00:33:49,000

What he might share with us,

515

00:33:49,000 --> 00:33:53,000

I mean, this could really be the lunchpin that brings this investigation together.

516

00:34:05,000 --> 00:34:07,000

Let's check out the next thing.

517

00:34:07,000 --> 00:34:09,000

Shag Harbor and SOSIS?

518

00:34:09,000 --> 00:34:12,000

The Shag Harbor UFO was detected on SOSIS?

519

00:34:12,000 --> 00:34:14,000

The incident was reported to be a large accident.

520

00:34:14,000 --> 00:34:15,000

Was it a SOSIS?

521

00:34:15,000 --> 00:34:17,000

The incident at Shag Harbor on Canada's east coast

522

00:34:17,000 --> 00:34:20,000

took place on the night of October 4, 1967,

523

00:34:20,000 --> 00:34:25,000

where multiple eyewitnesses reported seeing a large object crash into the water.

524

00:34:25,000 --> 00:34:27,000

Thinking that a plane crash had just occurred,

525

00:34:27,000 --> 00:34:31,000

rescue efforts were deployed immediately to search for survivors.

526

00:34:31,000 --> 00:34:34,000

However, no craft or debris was ever found

527

00:34:34,000 --> 00:34:37,000

despite multiple dive teams coming the ocean floor.

528

00:34:37,000 --> 00:34:42,000

Meanwhile, SOSIS detected a USO that traveled from the point of impact

529

00:34:42,000 --> 00:34:45,000

to 20 miles north where it ultimately disappeared.

530

00:34:45,000 --> 00:34:49,000

No explanation has ever been reached as to what the object was.

531

00:34:49,000 --> 00:34:51,000

The Shag Harbor incident is significant

532

00:34:51,000 --> 00:34:55,000

because you have multiple eyewitness accounts corroborated by instrumentation.

533

00:34:55,000 --> 00:34:59,000

The question is, what the hell was it?

534

00:35:08,000 --> 00:35:11,000

Nick Carnese and Sarah Crutus are on the ground in Bonham, Texas

535

00:35:11,000 --> 00:35:13,000

to secure an interview with Kevin Thomas,

536

00:35:13,000 --> 00:35:17,000

a former combat photographer who allegedly saw a USO

537

00:35:17,000 --> 00:35:20,000

while aboard the USS Nimitz in 1991.

538

00:35:22,000 --> 00:35:27,000

Hi, we really want to talk to you about what you experienced on the Nimitz back in 1991.

539

00:35:27,000 --> 00:35:29,000

I'll give you a few minutes.

540

00:35:29,000 --> 00:35:30,000

Okay, come on in.

541

00:35:30,000 --> 00:35:31,000

Thank you.

542

00:35:32,000 --> 00:35:37,000

All these patterns that we've been gathering through this link analysis software

543

00:35:37,000 --> 00:35:40,000

has led us back to the Nimitz but 13 years earlier.

544

00:35:40,000 --> 00:35:45,000

All I know is I made it really hard to find me, so I'm impressed you're here.

545

00:35:45,000 --> 00:35:49,000

We would really appreciate it if you could just tell us exactly what happened

546

00:35:49,000 --> 00:35:51,000

on the Nimitz back in 1991.

547

00:35:51,000 --> 00:35:55,000

I was a production petty officer in the photo lab,

548

00:35:55,000 --> 00:35:58,000

so I ran the photo lab downstairs for the enlisted personnel.

549

00:35:58,000 --> 00:36:02,000

And I got into this habit of going to watch the sunset

550

00:36:02,000 --> 00:36:05,000

after my ship was over to just kind of decompress.

551

00:36:05,000 --> 00:36:09,000

By now it's night, it's dark, so we went to dark and ship

552

00:36:09,000 --> 00:36:12,000

and when a ship goes to dark and ship, everything gets turned off.

553

00:36:12,000 --> 00:36:15,000

There can be no light anywhere on the ship.

554

00:36:15,000 --> 00:36:18,000

Dark and ship is a defensive maneuver where all lights go dark

555

00:36:18,000 --> 00:36:21,000

and the entire crew locks down inside the ship

556

00:36:21,000 --> 00:36:24,000

in order to camouflage the ship from enemy attack.

557

00:36:24,000 --> 00:36:29,000

The crew isn't told if in order to go dark and ship is a drill or an actual threat.

558

00:36:30,000 --> 00:36:32,000

You have a certain amount of time to get inside the bulkhead

559

00:36:32,000 --> 00:36:34,000

or you're trapped outside and you're not going in.

560

00:36:34,000 --> 00:36:37,000

And when I went to open up the bulkhead, it was locked.

561

00:36:37,000 --> 00:36:40,000

So I figured no big deal, I'll just write it out out here.

562

00:36:40,000 --> 00:36:43,000

So I found my way to the starboard side of the ship

563

00:36:43,000 --> 00:36:47,000

and I looked around the corner and there was something about half way out of the water.

564

00:36:47,000 --> 00:36:49,000

It looked like a huge black triangle.

565

00:36:49,000 --> 00:36:52,000

I would estimate it was bigger than the Nimitz at about 200 yards away.

566

00:36:52,000 --> 00:36:54,000

And the Nimitz is what, a thousand foot long?

567

00:36:54,000 --> 00:36:57,000

I think it's 1119 or a thousand nineteen, it was big.

568

00:36:57,000 --> 00:36:59,000

And I just kind of was froze there.

569

00:36:59,000 --> 00:37:03,000

I mean I have this image of it just looking like this clean dark thing sitting there

570

00:37:03,000 --> 00:37:05,000

with no water dripping off it.

571

00:37:05,000 --> 00:37:06,000

So did it make a sound?

572

00:37:06,000 --> 00:37:07,000

No.

573

00:37:07,000 --> 00:37:08,000

Okay.

574

00:37:08,000 --> 00:37:12,000

I got a real clear view, probably raised up 30, 40 feet and then it was gone.

575

00:37:12,000 --> 00:37:14,000

Did you tell anyone about what you saw?

576

00:37:14,000 --> 00:37:15,000

I didn't have to.

577

00:37:15,000 --> 00:37:21,000

I was at my duty station the next day and there was a guy at the front office of the photo lab

578

00:37:21,000 --> 00:37:24,000

and he came back to me and said, there's two guys here to see you.

579

00:37:24,000 --> 00:37:27,000

And nobody ever says there's two guys here to see you on an aircraft carrier.

580

00:37:27,000 --> 00:37:29,000

It's just very, very odd.

581

00:37:29,000 --> 00:37:32,000

I had a feeling at that moment my heart kind of stopped it.

582

00:37:32,000 --> 00:37:33,000

Uh oh, I'm in trouble.

583

00:37:33,000 --> 00:37:35,000

For being out during the dark out?

584

00:37:35,000 --> 00:37:39,000

Yeah, I think that maybe I saw something I wasn't supposed to see and I'm going to get in a lot of trouble.

585

00:37:39,000 --> 00:37:40,000

And were they in uniform?

586

00:37:40,000 --> 00:37:42,000

No, they were just in civilian clothes.

587

00:37:42,000 --> 00:37:43,000

What did they ask you?

588

00:37:43,000 --> 00:37:44,000

Did they ask you?

589

00:37:44,000 --> 00:37:46,000

They asked me, why didn't I make it back to general quarters?

590

00:37:46,000 --> 00:37:48,000

Why wasn't on my duty station?

591

00:37:48,000 --> 00:37:53,000

Was I outside and they just kept asking over and over in different ways, what did I see?

592

00:37:53,000 --> 00:37:54,000

How did you fail during that?

593

00:37:54,000 --> 00:37:59,000

What was in my mind at the time the guys interviewed me was don't tell these people what you saw

594

00:37:59,000 --> 00:38:01,000

or you're going to be kicked out of the military.

595

00:38:01,000 --> 00:38:06,000

I basically just told them I stood at the after the ship and I just waited until it was over then

came inside.

596

00:38:06,000 --> 00:38:09,000

And I was really silent about it for years until the Tic Tac footage came out.

597

00:38:09,000 --> 00:38:14,000

That is what really has got me thinking about this, probably the reason I let you in the door.

598

00:38:15,000 --> 00:38:25,000

The Tic Tac video, released in 2017, depicts a 2004 encounter between a navy fighter jet flying off the USS Nimitz and a Tic Tac shaped object.

599

00:38:25,000 --> 00:38:33,000

The footage was released through the eight tip program and verified as authentic by the US Navy in September 2019.

600

00:38:33,000 --> 00:38:37,000

What similarities did you see between the Tic Tac and then yours?

601

00:38:37,000 --> 00:38:42,000

But there are some places in the video where it moves and it's like that's the same movement.

602

00:38:42,000 --> 00:38:46,000

Yeah, see it kind of went slow at first and then it went boom and it was gone.

603

00:38:46,000 --> 00:38:48,000

That's exactly what I saw.

604

00:38:48,000 --> 00:38:51,000

It went slow at first and then boom it was gone.

605

00:38:51,000 --> 00:38:53,000

At what kind of speed did it move?

606

00:38:53,000 --> 00:38:55,000

It was super sonic.

607

00:38:55,000 --> 00:38:59,000

So I would have to say Mach 15, Mach 20.

608

00:38:59,000 --> 00:39:01,000

Could a human survive that?

609

00:39:01,000 --> 00:39:05,000

No, the G-forces would turn you into a pancake. You'd be like soup on the floor.

610

00:39:05,000 --> 00:39:07,000

Was this an advanced propulsion system?

611

00:39:07,000 --> 00:39:08,000

No.

612

00:39:08,000 --> 00:39:12,000

In order to have propulsion, that's pushing something in a direction.

613

00:39:12,000 --> 00:39:16,000

There was no propulsion. There was no displacement of the water.

614

00:39:16,000 --> 00:39:19,000

When it took off, it just was there and then it moved.

615

00:39:19,000 --> 00:39:23,000

Do you think it's coincidental that this event occurred during Darkenship?

616

00:39:23,000 --> 00:39:26,000

No, I think Darkenship was called so nobody saw it.

617

00:39:26,000 --> 00:39:28,000

Do you think somebody on that ship knew what was going on?

618

00:39:28,000 --> 00:39:30,000

Yes, absolutely.

619

00:39:30,000 --> 00:39:33,000

I have no doubt that someone on the ship knew what was going on.

620

00:39:33,000 --> 00:39:38,000

And I feel that the reason that I was talked to is to make sure I didn't know what was going on.

621

00:39:39,000 --> 00:39:53,000

After hearing that, he really sounds like he wants to understand what he saw.

622

00:39:53,000 --> 00:39:56,000

I can't think of something that would explain what he's describing.

623

00:39:56,000 --> 00:39:58,000

Is it a secret Navy program?

624

00:39:58,000 --> 00:40:00,000

Some kind of Navy tech that's being tested?

625

00:40:00,000 --> 00:40:02,000

Is it something else we're not thinking of?

626

00:40:02,000 --> 00:40:05,000

Or is it an actual extraterrestrial contact?

627

00:40:05,000 --> 00:40:10,000

The bottom line is extraordinary claims require extraordinary proof.

628

00:40:16,000 --> 00:40:19,000

It's becoming clear why declassified programs like ATIP exist

629

00:40:19,000 --> 00:40:25,000

and why powerful people like Robert Bigelow are investigating this strange phenomenon occurring across the globe

630

00:40:25,000 --> 00:40:31,000

because no person and no govern on the entire planet can explain what's going on.

631

00:40:31,000 --> 00:40:34,000

Do you think the government had something to hide?

632

00:40:34,000 --> 00:40:35,000

Yes, I did.

633

00:40:35,000 --> 00:40:38,000

We've had multiple accounts from both military and civilians.

634

00:40:38,000 --> 00:40:43,000

It wasn't until I served with CIA that I started to understand how secrets really were.

635

00:40:43,000 --> 00:40:47,000

Testifying the phenomenon that just a few months ago I would have believed with science fiction.

636

00:40:47,000 --> 00:40:51,000

Foreigners came in 4x4s all dressed in black.

637

00:40:51,000 --> 00:40:54,000

But meeting with these people, looking them in the eye,

638

00:40:54,000 --> 00:40:57,000

working with a team of highly trained investigators.

639

00:40:57,000 --> 00:40:59,000

We need to find out exactly what happened to it.

640

00:40:59,000 --> 00:41:04,000

It made me think that some of these things I used to think were fiction may in fact be reality.

641

00:41:04,000 --> 00:41:05,000

Come check this out.

642

00:41:05,000 --> 00:41:07,000

Holy s***.

643

00:41:07,000 --> 00:41:11,000

It's no coincidence that Robert Bigelow, the sole contractor to ATIP,

644

00:41:11,000 --> 00:41:15,000

filed the evidence to the exact same spot we did in Brazil.

645

00:41:15,000 --> 00:41:17,000

What was Operation Plate?

646

00:41:17,000 --> 00:41:21,000

The question becomes, how much more evidence does the ATIP program have?

647

00:41:21,000 --> 00:41:25,000

This is an unclassified secret document. They didn't expect the public to see this.

648

00:41:25,000 --> 00:41:28,000

Do they already know that contact is being made?

649

00:41:28,000 --> 00:41:30,000

Could this have been a UFO?

650

00:41:30,000 --> 00:41:32,000

How else can you explain this?

651

00:41:32,000 --> 00:41:36,000

And if this is extraterrestrial contact, why are they here?

652

00:41:36,000 --> 00:41:38,000

What do they want? Should we be worried?

653

00:41:38,000 --> 00:41:43,000

There were flying objects that released beams of light that would hit people.

654

00:41:43,000 --> 00:41:45,000

You're saying people were attacked?

655

00:41:45,000 --> 00:41:48,000

We got involved in this investigation to find the truth.

656

00:41:48,000 --> 00:41:51,000

We're going to have to continue to find the answers ourselves.

657

00:41:51,000 --> 00:41:54,000

We can't turn back now.
