FEATURED REVIEW

★ 8/10

You are being lied to by the debunkers and negative reviews.

Sure, this isn't going to win any awards for content but anything that sheds light on this subject is a good thing. The governments are lying to you with disinformation campaigns. The likes of the CIA have been controlling the narrative for years. They are and have been brainwashing the public for decades. I have seen 2 UFOs so need NO further proof of their existence. I laugh at all the none believers as they are in for a big shock one day. These things whatever they are have been here on earth longer than we have. I know for a fact something sinister is going on. We are zoo, laboratory and quite possibly a supermarket/fridge for these beings. If there is nothing to fear why all the secrecy? Why is the truth hidden from the public?
