

1

00:00:00,000 --> 00:00:09,000

Stargazing scientists at NASA are confident that when the next few decades humans will discover the very first signs of extraterrestrial life.

2

00:00:09,000 --> 00:00:14,000

Yet some believe it's entirely possible alien craft have already visited Earth.

3

00:00:17,000 --> 00:00:19,000

Large black flying object.

4

00:00:19,000 --> 00:00:21,000

Hey calm down calm down.

5

00:00:21,000 --> 00:00:25,000

But extraordinary claims demand extraordinary evidence.

6

00:00:25,000 --> 00:00:33,000

In this series I'm going to investigate some of the most remarkable and recent UFO sightings from around the world.

7

00:00:33,000 --> 00:00:36,000

They saw something really strange in the sky that day.

8

00:00:37,000 --> 00:00:43,000

And I'll be joined by renowned astrophysicist and space journalist Sarah Cruders.

9

00:00:43,000 --> 00:00:48,000

The thing is with something so extraordinary like this we've got to look at all the more logical explanations.

10

00:00:48,000 --> 00:00:51,000

I still think this can be explained by science.

11

00:00:52,000 --> 00:00:56,000

As together we'll separate back from fiction once and for all.

12

00:00:56,000 --> 00:00:59,000

That is an unidentified flying object.

13

00:00:59,000 --> 00:01:01,000

I knew you were going to say that and yes it is.

14

00:01:01,000 --> 00:01:04,000

It's one of the greatest UFO mysteries of all time.

15

00:01:04,000 --> 00:01:09,000

From our specially created UFO investigation hub we'll speak to experts.

16

00:01:09,000 --> 00:01:14,000

We have no conventional explanation for what we are seeing here.

17

00:01:14,000 --> 00:01:15,000

Whistle blowers.

18

00:01:15,000 --> 00:01:21,000

Anytime you step out of ranks in an organization like mine there's obviously going to be some repercussions.

19

00:01:21,000 --> 00:01:23,000

And first hand witnesses.

20

00:01:23,000 --> 00:01:25,000

There was this massive boomerang.

21

00:01:25,000 --> 00:01:28,000

At least a mile to a mile and a half wide.

22

00:01:28,000 --> 00:01:29,000

It was huge.

23

00:01:29,000 --> 00:01:32,000

Wow that just spooked me now.

24

00:01:32,000 --> 00:01:35,000

And finally answer the big question.

25

00:01:36,000 --> 00:01:38,000

Are we alone in the universe?

26

00:01:38,000 --> 00:01:41,000

Whatever they are they're not of this world.

27

00:01:45,000 --> 00:01:50,000

The End

28

00:01:54,000 --> 00:02:00,000

On a clear winter's evening in January 2008 a close encounter of an extraordinary kind

29

00:02:00,000 --> 00:02:05,000

took place in a small Texan dairy town called Stephenville.

30

00:02:07,000 --> 00:02:12,000

Who remains one of the most baffling and hair-raising sightings ever recorded.

31

00:02:15,000 --> 00:02:19,000

A mile wide craft was seen hovering overhead by stunned locals.

32

00:02:21,000 --> 00:02:25,000

Before striking away at hypersonic speed.

33

00:02:25,000 --> 00:02:30,000

Despite dozens of credible eyewitnesses including a police officer.

34

00:02:30,000 --> 00:02:32,000

This thing was huge.

35

00:02:32,000 --> 00:02:33,000

Clearly not stars.

36

00:02:33,000 --> 00:02:35,000

Clearly not a helicopter.

37

00:02:35,000 --> 00:02:37,000

I loved to know what it was.

38

00:02:38,000 --> 00:02:39,000

And a pilot.

39

00:02:39,000 --> 00:02:42,000

It wasn't anything that I'd seen before.

40

00:02:42,000 --> 00:02:44,000

We all looked at each other.

41

00:02:44,000 --> 00:02:47,000

I just asked are y'all seeing what I'm seeing.

42

00:02:49,000 --> 00:02:52,000

This case remains unexplained.

43

00:02:53,000 --> 00:03:01,000

And XMOD official Nick Pogue was under no illusion about the significance of this extraordinary UFO encounter.

44

00:03:02,000 --> 00:03:04,000

This is hugely incredible yes.

45

00:03:04,000 --> 00:03:05,000

What is it?

46

00:03:05,000 --> 00:03:06,000

And what was it doing?

47

00:03:06,000 --> 00:03:07,000

Who was flying it?

48

00:03:07,000 --> 00:03:08,000

Is it Russia?

49

00:03:08,000 --> 00:03:09,000

Is it China?

50

00:03:09,000 --> 00:03:11,000

Is it extraterrestrials?

51

00:03:11,000 --> 00:03:14,000

We're not quite sure what we're dealing with.

52

00:03:17,000 --> 00:03:21,000

Stephenville is a dairy town 100 miles south west of Gallus.

53

00:03:21,000 --> 00:03:24,000

Homes of 22,000 people.

54

00:03:26,000 --> 00:03:30,000

In January 2008 they were settling down for a normal evening.

55

00:03:30,000 --> 00:03:33,000

When something out of this world happened.

56

00:03:34,000 --> 00:03:41,000

Reminiscent of the bizarre Phoenix lights formations that were witnessed 11 years previously in Arizona.

57

00:03:41,000 --> 00:03:49,000

A vast object estimated to be a mile across with an arc of burning bright lights that gleamed in the night sky.

58

00:03:49,000 --> 00:04:00,000

The ominous object hovered in silence for five minutes before shooting away at speeds estimated to be in excess of 3,000 miles per hour.

59

00:04:01,000 --> 00:04:04,000

It was very intense bright lights.

60

00:04:04,000 --> 00:04:09,000

I keep hearing that over and over and over and they spanned a wide area.

61

00:04:09,000 --> 00:04:14,000

Military officials accused the town of letting their imagination run wild.

62

00:04:14,000 --> 00:04:19,000

Suggesting what they'd seen was the sun's reflection on two airliners.

63

00:04:22,000 --> 00:04:26,000

If you look at the trees, you know, it's right here.

64

00:04:26,000 --> 00:04:29,000

I mean it's 300 foot up right here.

65

00:04:29,000 --> 00:04:35,000

13 years on and the people of Stephenville are still desperate for answers.

66

00:04:35,000 --> 00:04:44,000

Could the vast UFO that cast a shadow over this small town on the 8th of January 2008 have been extraterrestrial?

67

00:04:44,000 --> 00:04:47,000

And has there been a cover-up?

68

00:04:48,000 --> 00:04:52,000

Time for Sarah and I to investigate.

69

00:04:57,000 --> 00:05:01,000

Got another exciting one for you here, Sarah.

70

00:05:01,000 --> 00:05:06,000

A place called Stephenville, 100 miles south-west of Dallas, Texas.

71

00:05:06,000 --> 00:05:10,000

A mass sighting. The ship was a mile wide.

72

00:05:10,000 --> 00:05:11,000

A mile wide.

73

00:05:11,000 --> 00:05:16,000

A mile wide. It reached speeds of 3,000 miles per hour.

74

00:05:16,000 --> 00:05:19,000

We know this because it was chased by fighter jets.

75

00:05:19,000 --> 00:05:21,000

Let's find out more about this story.

76

00:05:22,000 --> 00:05:28,000

Immediately following the UFO event, press teams descended on Stephenville.

77

00:05:28,000 --> 00:05:37,000

A news report from the 14th of January 2008, 6 days after the sighting, captures the mood of the town.

78

00:05:37,000 --> 00:05:41,000

Stephenville, Texas is a typical American small town.

79

00:05:41,000 --> 00:05:48,000

The folks here are proud of their high school's football team and proud to be the number one Dairy County in the state.

80

00:05:48,000 --> 00:05:54,000

Stephenville may be typical, but what's happening in the skies above it is a whole other story.

81

00:05:54,000 --> 00:06:00,000

For days, people have been emailing and calling the newsroom saying they've seen a UFO.

82

00:06:00,000 --> 00:06:04,000

It was so fast when it took off, you know, and it made not a sound.

83

00:06:04,000 --> 00:06:11,000

Ricky Sarels was deer hunting in these woods when he says the UFO stopped and hovered just over his head.

84

00:06:11,000 --> 00:06:15,000

It's right here. I mean, it's 300 foot up, right here.

85

00:06:15,000 --> 00:06:20,000

Sarels thought about shooting at the object, but didn't want to start an interstellar war,

86

00:06:20,000 --> 00:06:24,000

so he lowered his gun and high-tailed it back to the house.

87

00:06:24,000 --> 00:06:30,000

Right here, right in this direction, right here. I saw it at about 70 degrees up from the horizon.

88

00:06:30,000 --> 00:06:36,000

Jason Lee also saw the object describing it as brighter than a star and larger.

89

00:06:36,000 --> 00:06:39,000

It isn't the first time Lee has seen a UFO.

90

00:06:39,000 --> 00:06:41,000

It is right there.

91

00:06:41,000 --> 00:06:48,000

In 1995, he took this video of what he says was a flying saucer over his hometown of Clebron, Texas.

92

00:06:48,000 --> 00:06:52,000

I don't know. I'm not going to say little green men.

93

00:06:52,000 --> 00:06:57,000

Rich Matthews, Stephenville, Texas.

94

00:06:57,000 --> 00:07:03,000

Let's just rewind the video slightly. So this guy, he's already seen one UFO. He thinks it's another one.

95

00:07:03,000 --> 00:07:08,000

See this? It's the space shuttle.

96

00:07:08,000 --> 00:07:12,000

Coming into land. 1990s.

97

00:07:12,000 --> 00:07:15,000

I can't work out what it is, though, from there.

98

00:07:15,000 --> 00:07:19,000

This guy, he's saying he saw one light. Others are saying they saw multiple lights.

99

00:07:19,000 --> 00:07:23,000

We've got one guy who didn't want to start an interstellar war but also doesn't know what it is,

100

00:07:23,000 --> 00:07:25,000

but he's already made up his mind that it's aliens.

101

00:07:25,000 --> 00:07:31,000

OK, look, it may turn out not to be flying saucers or an alien species.

102

00:07:31,000 --> 00:07:33,000

It may turn out to be natural phenomena.

103

00:07:33,000 --> 00:07:34,000

Or aircraft.

104

00:07:34,000 --> 00:07:37,000

Yeah, or aircraft, but we're here to investigate.

105

00:07:37,000 --> 00:07:41,000

That is true. And to be fair, more than 50 people have phoned this in.

106

00:07:41,000 --> 00:07:45,000

What I am curious about, though, is whether there's any video evidence or photographic evidence,

107

00:07:45,000 --> 00:07:52,000

because the Phoenix lights, the largest mass sighting ever, that was in 1997, and we had photos from that.

108

00:07:52,000 --> 00:07:57,000

First of all, I want to hear more from Steve. Steve from Stevensville, the pilot.

109

00:07:57,000 --> 00:08:00,000

Yeah, I think we've got a credible witness here. We've got credibility.

110

00:08:00,000 --> 00:08:03,000

He used to see unusual things in the sky, which he can often explain.

111

00:08:03,000 --> 00:08:06,000

We've actually got Steve with us to talk to us now.

112

00:08:06,000 --> 00:08:08,000

OK, let's go to Texas.

113

00:08:10,000 --> 00:08:17,000

Experienced private pilot Steve Allen was one of the many eyewitnesses whose life was changed forever.

114

00:08:17,000 --> 00:08:23,000

That beautiful Texas winter's evening on the 8th of January, 2008.

115

00:08:25,000 --> 00:08:26,000

Hi, Steve.

116

00:08:26,000 --> 00:08:27,000

How are you doing?

117

00:08:27,000 --> 00:08:32,000

Can you tell us what happened that day from your perspective and the perspective of the pilot as well?

118

00:08:32,000 --> 00:08:37,000

One of my friends near Stevensville called me and asked me to come over that afternoon and sit around the campfire.

119

00:08:37,000 --> 00:08:48,000

So as I drove up on location, I stepped out of my pickup, and I could see some bright, high intensity lights coming at us at a very high rate of speed.

120

00:08:50,000 --> 00:08:52,000

And I said, are you guys seeing that?

121

00:08:52,000 --> 00:08:56,000

And they concurred with me and said, yes, we're seeing it.

122

00:08:56,000 --> 00:09:00,000

And as it came past, it made no noise whatsoever.

123

00:09:01,000 --> 00:09:02,000

The ship was massive.

124

00:09:02,000 --> 00:09:06,000

It appeared to be about a half a mile wide and probably a mile long.

125

00:09:09,000 --> 00:09:14,000

It stops over Stevensville, Texas, which is about three or four miles from our location.

126

00:09:15,000 --> 00:09:21,000

It had seven lights across the back blinking in different, no particular order.

127

00:09:22,000 --> 00:09:29,000

They reconfigured to an arch shape and then a split second, they reconfigured two vertical shapes.

128

00:09:30,000 --> 00:09:32,000

And then all of a sudden it burst into a flame.

129

00:09:36,000 --> 00:09:38,000

And then it simply disappeared.

130

00:09:40,000 --> 00:09:46,000

Before Steven and his friends could process what they'd seen, the UFO reappeared.

131

00:09:47,000 --> 00:09:51,000

It's coming back, coming back by this time going from east to west.

132

00:09:51,000 --> 00:09:54,000

And it had two F-16s trailing it.

133

00:09:54,000 --> 00:09:57,000

That was when it left back out at 1,900 miles an hour.

134

00:09:57,000 --> 00:10:01,000

And the F-16s was going full blast after a burner coming out the back.

135

00:10:01,000 --> 00:10:03,000

There was in hot pursuit.

136

00:10:03,000 --> 00:10:13,000

But having been in the sky so much and so often, have you seen anything that even remotely compares to what you saw that day?

137

00:10:13,000 --> 00:10:18,000

You know, I've never seen anything like that in my entire life.

138

00:10:19,000 --> 00:10:21,000

It was a once in a lifetime experience.

139

00:10:22,000 --> 00:10:28,000

As the craft went past, that I could feel their presence and it felt like they could feel my presence.

140

00:10:28,000 --> 00:10:31,000

It's hard to describe. I've never had a feeling like that before.

141

00:10:31,000 --> 00:10:32,000

Wow.

142

00:10:33,000 --> 00:10:38,000

That's a great story, but why the no photographs of it? It was a mass sighting.

143

00:10:39,000 --> 00:10:45,000

A photograph of something running 2,000 miles an hour, real close to you would be hard to get.

144

00:10:45,000 --> 00:10:51,000

And it happened so quick and the whole event lasted, was somewhere in the 12 to 15 minute area.

145

00:10:53,000 --> 00:10:57,000

Plus, at that time was 2008. I have a flip phone at that time.

146

00:10:57,000 --> 00:11:00,000

So that was, it was before I moved up in the world.

147

00:11:00,000 --> 00:11:06,000

Did you ask the military what they were doing there? What were the fighter jets chasing?

148

00:11:07,000 --> 00:11:11,000

We did the, actually the report that broke the story.

149

00:11:11,000 --> 00:11:18,000

Angela Joyner, which happened to work for Empire Tribune, E.T. out of Stephenville, Texas, ironically enough.

150

00:11:18,000 --> 00:11:26,000

She calls the Naval Air Station, which used to be Kurswell Air Force Base, and spoke to a, I believe a major Lewis, Carl Lewis.

151

00:11:27,000 --> 00:11:31,000

And he denied we didn't have any F-16s in your area at that time.

152

00:11:32,000 --> 00:11:40,000

But on January the 23rd, 12 days later, the military changed its position.

153

00:11:41,000 --> 00:11:49,000

So the reporter calls me up and says, major Lewis says he was mistaken that they did have F-16s in the area.

154

00:11:51,000 --> 00:11:58,000

So you're talking they've got billions of dollars worth of hardware in the area and they forgot that it was there?

155

00:11:59,000 --> 00:12:04,000

I can tell you where my dogs at at this time, much less than a \$200-300 million aircraft.

156

00:12:04,000 --> 00:12:08,000

So I think they was persuaded to change their story.

157

00:12:11,000 --> 00:12:17,000

Steve, thank you for talking to us. If you were us, where would you go next?

158

00:12:18,000 --> 00:12:23,000

Good question. Of course, we have the radar reports.

159

00:12:24,000 --> 00:12:28,000

Not from one radar, but we've got six different radar reports on it.

160

00:12:29,000 --> 00:12:31,000

We'll look into it, Steve. Thanks for talking to us.

161

00:12:32,000 --> 00:12:33,000

My pleasure. Thank y'all.

162

00:12:34,000 --> 00:12:40,000

Well, there you go. I mean, a vivid account, lovely guy, level-headed.

163

00:12:40,000 --> 00:12:41,000

He's a pilot.

164

00:12:41,000 --> 00:12:42,000

He's a pilot.

165

00:12:42,000 --> 00:12:46,000

But unfortunately, there's a lack of evidence. There's no pictures. There's no video.

166

00:12:46,000 --> 00:12:51,000

But this is a challenge with any UFO sighting. People genuinely believe what they see.

167

00:12:51,000 --> 00:12:55,000

But there's a lack of hard evidence. Perhaps they're so frozen, so in awe of what they're seeing,

168

00:12:55,000 --> 00:12:58,000

that they can't get their phone out to take a photo or a video.

169

00:12:58,000 --> 00:13:01,000

Well, listen, what I found most fascinating was the radar.

170

00:13:01,000 --> 00:13:03,000

Me too. We do need to investigate this.

171

00:13:03,000 --> 00:13:05,000

We certainly do. Let's find out more.

172

00:13:07,000 --> 00:13:08,000

Coming up.

173

00:13:08,000 --> 00:13:10,000

The radar data is even maybe better than pictures.

174

00:13:11,000 --> 00:13:16,000

The radar provides corroborating evidence of a massive craft over Stephenville.

175

00:13:16,000 --> 00:13:21,000

It does show large objects that replicated the motions of what the witnesses reported.

176

00:13:21,000 --> 00:13:23,000

Well, this is fascinating.

177

00:13:23,000 --> 00:13:28,000

And suggests the military presence was far greater than they publicly declared.

178

00:13:29,000 --> 00:13:34,000

You've got the AWAC plane, 10 fighter jets in the area, to split off

179

00:13:34,000 --> 00:13:38,000

and went to where our unidentified flying object is.

180

00:13:42,000 --> 00:13:44,000

Stephenville, Texas.

181

00:13:45,000 --> 00:13:50,000

A mile-wide craft, a mothership, witnessed by at least 50 residents,

182

00:13:50,000 --> 00:13:52,000

who all tell exactly the same stories.

183

00:13:53,000 --> 00:13:56,000

It's so fast when it took off, you know, and it made not a sound.

184

00:13:56,000 --> 00:14:00,000

You know, it's right here. I mean, it's 300 foot up, right here.

185

00:14:01,000 --> 00:14:06,000

This phenomenal mass sighting is surely one of the most credible in UFO history.

186

00:14:06,000 --> 00:14:13,000

We're on a mission to uncover the truth about this extraordinary and still unsolved UFO sighting.

187

00:14:14,000 --> 00:14:17,000

MUSIC

188

00:14:23,000 --> 00:14:25,000

OK, sir, let's look at what we've got.

189

00:14:26,000 --> 00:14:28,000

We've got a mass sighting.

190

00:14:28,000 --> 00:14:34,000

People describing a vast spaceship traveling at like 3,000 miles per hour.

191

00:14:34,000 --> 00:14:37,000

We've got military jets in the sky, too.

192

00:14:37,000 --> 00:14:41,000

Peel off, head southwest, as if they were chasing something.

193

00:14:42,000 --> 00:14:49,000

We spoke to first-hand witness pilot Steve Allen, who gave us a vivid description of the UFO.

194

00:14:50,000 --> 00:14:54,000

The ship was massive, and it had seven lights across the back blinking,

195

00:14:54,000 --> 00:15:00,000

and it had two F-16s trailing it with full after-burders in hot pursuit,

196

00:15:00,000 --> 00:15:02,000

but they couldn't get close to it.

197

00:15:04,000 --> 00:15:10,000

Having initially denied having any fighter jets in the area, a matter of days later,

198

00:15:10,000 --> 00:15:14,000

the United States Air Force changed its story.

199

00:15:15,000 --> 00:15:18,000

Major Lewis says he was mistaken.

200

00:15:20,000 --> 00:15:25,000

Sounds to me like the U.S. Air Force was scrambling in more ways than one.

201

00:15:30,000 --> 00:15:33,000

What really fascinated me was the radar data.

202

00:15:33,000 --> 00:15:34,000

Me, too.

203

00:15:35,000 --> 00:15:40,000

The key to cracking this case could lie in the radar data from the time of the incident.

204

00:15:40,000 --> 00:15:43,000

We need to get hold of those reports.

205

00:15:43,000 --> 00:15:46,000

I've got just the guy for this. His name is Robert Switek.

206

00:15:48,000 --> 00:15:53,000

He is from MuFON, which is a mutual UFO network, which has been investigating this case.

207

00:15:53,000 --> 00:15:54,000

OK.

208

00:15:54,000 --> 00:15:55,000

Hi, Rob.

209

00:15:56,000 --> 00:15:58,000

Hi, Craig. Good to see you.

210

00:15:59,000 --> 00:16:02,000

Rob is a highly experienced UFO researcher,

211

00:16:02,000 --> 00:16:06,000

and he's investigated the Stephen Phil Sighting extensively.

212

00:16:06,000 --> 00:16:09,000

I want to know what he's discovered.

213

00:16:11,000 --> 00:16:14,000

Rob, what can you tell us about the story?

214

00:16:14,000 --> 00:16:18,000

Some people saw objects, large lights.

215

00:16:18,000 --> 00:16:23,000

Sometimes they hovered, sometimes they moved at extremely high speeds.

216

00:16:23,000 --> 00:16:26,000

But the interesting thing about this is that in one of the sightings,

217

00:16:26,000 --> 00:16:29,000

the object moved sort of intermittently.

218

00:16:29,000 --> 00:16:32,000

Sometimes it would hover and then it would immediately,

219

00:16:32,000 --> 00:16:36,000

within the course of one or two seconds, accelerate to a speed of 500 miles an hour.

220

00:16:38,000 --> 00:16:42,000

And in some cases, it almost hit 2,000, if not more.

221

00:16:42,000 --> 00:16:45,000

This object had no transponder on it,

222

00:16:45,000 --> 00:16:52,000

so it wasn't a commercial aircraft or an aircraft from the Air Force.

223

00:16:53,000 --> 00:16:56,000

How are you able to calculate the speed if you want there?

224

00:16:56,000 --> 00:16:58,000

I mean, you've only got witness accounts.

225

00:16:58,000 --> 00:17:02,000

We got radar returns from the FAA and from the National Weather Service

226

00:17:02,000 --> 00:17:06,000

covering the period of time from 4pm to 8pm on January 8th.

227

00:17:06,000 --> 00:17:10,000

MuFON filed a Freedom of Information Act request with the FAA

228

00:17:10,000 --> 00:17:14,000

and a number of other civilian organizations in the government,

229

00:17:14,000 --> 00:17:16,000

including the Air Force too.

230

00:17:16,000 --> 00:17:19,000

Rob, Sarah made a point before.

231

00:17:19,000 --> 00:17:23,000

In 2008, everyone had cameras on their phones.

232

00:17:23,000 --> 00:17:26,000

How come there's no pictures of this?

233

00:17:26,000 --> 00:17:30,000

The radar data is even maybe better than pictures

234

00:17:30,000 --> 00:17:37,000

since it just show large objects that replicated the motions of what the witnesses reported.

235

00:17:37,000 --> 00:17:40,000

In Stephenville, they saw a very large object.

236

00:17:40,000 --> 00:17:44,000

The witnesses saw that and that object was picked up on radar.

237

00:17:44,000 --> 00:17:50,000

My understanding is that the radar didn't have the capability of recording the size,

238

00:17:50,000 --> 00:17:52,000

so we couldn't get a size of the object.

239

00:17:52,000 --> 00:17:55,000

We could get where it was seen and how fast it moved.

240

00:17:55,000 --> 00:18:00,000

We got back from the radar information that at the same time as these sightings,

241

00:18:00,000 --> 00:18:07,000

we had a 10 military aircraft on training exercises.

242

00:18:07,000 --> 00:18:11,000

At some distance from Stephenville,

243

00:18:11,000 --> 00:18:15,000

when on their return to the Stephenville area, two of the aircraft deviated

244

00:18:15,000 --> 00:18:18,000

right during the time period that this object was being seen,

245

00:18:18,000 --> 00:18:21,000

and we don't know why they deviated.

246

00:18:21,000 --> 00:18:27,000

And you think those fighter jets were going to investigate this unknown phenomenon in the sky?

247

00:18:27,000 --> 00:18:29,000

It's a reasonable assumption, would you say?

248

00:18:29,000 --> 00:18:33,000

It's an assumption, that's correct. It's a reasonable assumption. You are right.

249

00:18:34,000 --> 00:18:37,000

Rob, with the being fighter jets in the area,

250

00:18:37,000 --> 00:18:42,000

do you think this could have been a secret military craft that they've been working on

251

00:18:42,000 --> 00:18:44,000

and they wanted to keep stung?

252

00:18:46,000 --> 00:18:50,000

You could speculate that they did.

253

00:18:50,000 --> 00:18:54,000

Also put into the mix was an AWACS,

254

00:18:54,000 --> 00:19:00,000

an airborne warning and control aircraft that was orbiting for the entire four hours.

255

00:19:00,000 --> 00:19:06,000

This AWACS aircraft is going on just an oval course, a racetrack course, they call it.

256

00:19:06,000 --> 00:19:09,000

Well, it was obviously monitoring something.

257

00:19:09,000 --> 00:19:14,000

My reading of it is that the presence of the AWACS is not a usual thing.

258

00:19:14,000 --> 00:19:19,000

The other 10 aircraft presumably could have, and were doing their mission without the need of an AWACS up in the air,

259

00:19:19,000 --> 00:19:23,000

since that's strictly an aircraft that's picking up information.

260

00:19:23,000 --> 00:19:28,000

It's not a fighter aircraft, it's just an airborne instrument package.

261

00:19:28,000 --> 00:19:33,000

Was there any internal investigation, any government investigation to this?

262

00:19:33,000 --> 00:19:38,000

Well, if there was, they haven't informed MUFON, let's put it that way.

263

00:19:38,000 --> 00:19:43,000

We don't have any information on what they arrived at on their own.

264

00:19:43,000 --> 00:19:47,000

That wasn't released. They gave us what they gave us,

265

00:19:47,000 --> 00:19:51,000

and so we have to work with mostly civilian data here.

266

00:19:51,000 --> 00:19:55,000

Let me add another kind of an intriguing wrinkle here.

267

00:19:55,000 --> 00:19:59,000

These kind of objects were tracked over the Washington DC area in 1952.

268

00:19:59,000 --> 00:20:04,000

The same type of behavior was picked up on radar with the objects loitered,

269

00:20:04,000 --> 00:20:09,000

moving at 30, 35 miles an hour, and suddenly would accelerate to terrific bursts.

270

00:20:09,000 --> 00:20:14,000

And that was picked up by national air traffic tracking people at the time.

271

00:20:14,000 --> 00:20:21,000

So the behavior of the objects in the 60 year increment, almost of years, was largely the same.

272

00:20:21,000 --> 00:20:24,000

So we have history to this kind of sighting.

273

00:20:24,000 --> 00:20:28,000

So this is a decades old phenomenon, you'd say then?

274

00:20:28,000 --> 00:20:35,000

Absolutely. I mean, what we saw at Stephenville in the terms of the way these objects behaved

275

00:20:35,000 --> 00:20:39,000

was nothing new to people who knew about the history of the UFO subject.

276

00:20:39,000 --> 00:20:45,000

Do you think these things could be probes, robots, and have no life forms on board them?

277

00:20:45,000 --> 00:20:51,000

That's eminently possible. There have been reports throughout UFO history of very small UFOs,

278

00:20:51,000 --> 00:20:57,000

many UFOs, if you will, just a few feet across, or even, rarely, several inches across.

279

00:20:57,000 --> 00:21:04,000

So those obviously weren't being inhabited by living beings unless you postulate intelligent insects or something like that.

280

00:21:04,000 --> 00:21:12,000

So the conclusion is that if you can't explain them prosaically, that these were unmanned sort of drones of some type.

281

00:21:12,000 --> 00:21:17,000

Well, thank you, Robert. Certainly fascinating and intriguing.

282

00:21:17,000 --> 00:21:21,000

We're going to try our best to get to the bottom of it.

283

00:21:21,000 --> 00:21:25,000

It's been a pleasure. Yeah, let me know if you get to the bottom of it. I'd be the first one interested.

284

00:21:25,000 --> 00:21:27,000

We certainly will. Thank you.

285

00:21:28,000 --> 00:21:34,000

Well, this is fascinating. You've got the AWAC plane circling the sky for four hours.

286

00:21:34,000 --> 00:21:38,000

Radars confirmed there were 10 fighter jets in the area.

287

00:21:38,000 --> 00:21:45,000

Two split off and went south-west. So where our unidentified flying object is?

288

00:21:45,000 --> 00:21:50,000

It could be military aircraft being tested as something really top secret,

289

00:21:50,000 --> 00:21:55,000

a technology that we don't know about, or it could be something that the military was chasing.

290

00:21:55,000 --> 00:21:58,000

This is getting really interesting.

291

00:21:59,000 --> 00:22:04,000

Coming up, we compare other UFOs caught on radar.

292

00:22:04,000 --> 00:22:11,000

This is, to all intents and purposes, official government footage of a UFO.

293

00:22:12,000 --> 00:22:17,000

And in the Stephenville case, the hunt continues for the truth.

294

00:22:17,000 --> 00:22:22,000

We owe it to these people to find out exactly what went on. They deserve an explanation.

295

00:22:26,000 --> 00:22:30,000

The scale of the Stephenville UFO sighting is staggering.

296

00:22:32,000 --> 00:22:37,000

A mile-wide craft passing silently over a small Texan town,

297

00:22:37,000 --> 00:22:43,000

witnessed by at least 50 separate people, including a police officer and a pilot.

298

00:22:43,000 --> 00:22:46,000

Then all of a sudden it burst into a flame.

299

00:22:46,000 --> 00:22:51,000

It looked like it was kind of a dirty, white flame, and then it simply disappeared.

300

00:22:53,000 --> 00:22:56,000

Rob's Vitek from Muthon went deep into the radar data,

301

00:22:56,000 --> 00:23:03,000

which revealed the exact movements of not only the UFO, but a fleet of F-16 fighter jets,

302

00:23:04,000 --> 00:23:09,000

two of which peeled away, allegedly, in pursuit of the UFO.

303

00:23:09,000 --> 00:23:15,000

The radar data is even maybe better than pictures, since it does show large objects

304

00:23:15,000 --> 00:23:20,000

that replicated the motions of what the witnesses reported.

305

00:23:20,000 --> 00:23:25,000

And it's not the first major UFO case to be substantiated by radar.

306

00:23:26,000 --> 00:23:35,000

This mind-blowing UFO was filmed by crew aboard the USS Omaha, back on July 15th, 2019.

307

00:23:35,000 --> 00:23:42,000

It shows a bizarre black spherical object crossing the sky, but then shockingly,

308

00:23:42,000 --> 00:23:47,000

it descends towards the ocean and appears to submerge.

309

00:23:47,000 --> 00:23:49,000

What was that?

310

00:23:49,000 --> 00:23:52,000

Splashed. Mark bearing in range.

311

00:23:55,000 --> 00:24:02,000

No wreckage was found, but new, corroborating radar evidence has emerged.

312

00:24:02,000 --> 00:24:07,000

The radar data was captured on the same date as the submerging sphere,

313

00:24:07,000 --> 00:24:11,000

in the Information Center on USS Omaha.

314

00:24:12,000 --> 00:24:28,000

It shows the aircraft carrier surrounded by not just one, but a swarm of anomalous objects,

315

00:24:28,000 --> 00:24:34,000

suggesting the sphere was only a small part of a larger UFO event.

316

00:24:34,000 --> 00:24:40,000

Significantly, it was close to where the now infamous USS Nimitz UFO

317

00:24:40,000 --> 00:24:46,000

was also captured on radar and filmed in November 2004.

318

00:24:49,000 --> 00:24:56,000

Well, I think the most fundamental point about all of this is that this is US Navy footage.

319

00:25:00,000 --> 00:25:06,000

We've always known that pilots have seen UFOs, but usually governments deny this sort of thing.

320

00:25:06,000 --> 00:25:12,000

Now, some of the pilots and indeed radar operators have spoken out,

321

00:25:12,000 --> 00:25:16,000

so for the first time, UFOs, whatever they are, they're real.

322

00:25:21,000 --> 00:25:26,000

In the case of Stephenville, the radar data revealed another clue.

323

00:25:26,000 --> 00:25:34,000

The US Air Force had a sensory plane airborne in the same location and in the same time window.

324

00:25:37,000 --> 00:25:43,000

We have got this AWAC plane flying for hours and hours, circling overhead.

325

00:25:43,000 --> 00:25:49,000

We've got 10 fighter jets, two of them peeling off and heading southwest as though they're chasing something.

326

00:25:49,000 --> 00:25:59,000

And we have got over 50, maybe hundreds of eyewitness accounts saying they saw something really strange in the sky that day.

327

00:26:00,000 --> 00:26:04,000

But we haven't got any video evidence, we haven't got any photographic evidence.

328

00:26:05,000 --> 00:26:11,000

Well, that's the problem, however, if we can manage to get hard physical evidence, this will blow this case out of the water.

329

00:26:11,000 --> 00:26:19,000

I spoke to Nick Pope, former MOD investigator, UFO expert, about how hard physical evidence can transform a case.

330

00:26:21,000 --> 00:26:26,000

Nick, how invaluable is quality evidence in a UFO investigation?

331

00:26:26,000 --> 00:26:38,000

It's all about the evidence. Certainly in government, we take a data-led approach to UFO research and investigation, and analysis is key.

332

00:26:38,000 --> 00:26:51,000

Yes, people's stories, what they've witnessed is important, but it's actually analyzing the data that is so key to trying to find a solution to all of this.

333

00:26:51,000 --> 00:26:59,000

With regard to the Nimitz sightings and the other Navy sightings. It's not just the footage, but the radar.

334

00:26:59,000 --> 00:27:07,000

The track is 7, 8, 9, just about up to 46 knots, 50 knots, closing in.

335

00:27:07,000 --> 00:27:15,000

And is there a particular significance when evidence is being captured by the military because they're using the latest, most advanced technology?

336

00:27:15,000 --> 00:27:28,000

Where you've got something that was demonstrably taken, for example, from a military aircraft with forward-looking infrared cameras or whatever, it's authentic.

337

00:27:28,000 --> 00:27:44,000

And also, as you say, yes, the military tend to have very often this cutting-edge technology, so whether you're talking about the cameras or whether you're talking about other sensors, you can get ahead of the game a bit.

338

00:27:44,000 --> 00:27:51,000

And in terms of military sightings, there was a very interesting one in Puerto Rico in 2013.

339

00:27:54,000 --> 00:28:02,000

Yes, this was actually captured from a homeland security aircraft and tracked on radar.

340

00:28:03,000 --> 00:28:13,000

It shows an object traveling pretty fast, very low, over the land and then over the sea.

341

00:28:13,000 --> 00:28:19,000

And a couple of really, really bizarre things happen.

342

00:28:19,000 --> 00:28:24,000

Firstly, this object at one point goes into the ocean.

343

00:28:27,000 --> 00:28:29,000

And then comes out again.

344

00:28:30,000 --> 00:28:34,000

At one point, it appears to split into two.

345

00:28:39,000 --> 00:28:52,000

The important point about this footage is that the people who were there at the time operating this equipment, who know about all the issues with the kit, they're still impressed by this.

346

00:28:52,000 --> 00:28:57,000

But this just adds more credibility to the fact that we can't explain what we're seeing.

347

00:28:57,000 --> 00:29:02,000

Yes, it's multiple sightings across multiple different systems.

348

00:29:02,000 --> 00:29:14,000

And sometimes as well, of course, not necessarily here, but other times with the Nimitz, you always look for these multiple data sources independently corroborating each other.

349

00:29:14,000 --> 00:29:16,000

Why has it been released?

350

00:29:16,000 --> 00:29:18,000

Basically, these people said, look, this happened.

351

00:29:18,000 --> 00:29:21,000

We need to start thinking about this.

352

00:29:21,000 --> 00:29:26,000

Somebody, scientists, need to start studying this phenomenon.

353

00:29:26,000 --> 00:29:30,000

We need to stop sweeping this sort of thing under the carpet.

354

00:29:30,000 --> 00:29:32,000

And we need to say, look, something's going on.

355

00:29:32,000 --> 00:29:41,000

We should be finding out what this is, to all intents and purposes, official government footage of a UFO.

356

00:29:46,000 --> 00:29:51,000

That was going so fast and it's really curious. Do you think it could have been a drone?

357

00:29:51,000 --> 00:29:56,000

Potentially. I mean, one thought I've had is we see these insiders leaking things in the military.

358

00:29:56,000 --> 00:29:58,000

This was leaked by US Homeland Security.

359

00:29:58,000 --> 00:30:06,000

How do we know someone more senior in government isn't leaking these videos because they want people to report things because it's potentially enemy technology.

360

00:30:07,000 --> 00:30:17,000

And I'm curious as to why military authorities have been willing to acknowledge incidents like the Puerto Rico UAP sighting of 2013.

361

00:30:18,000 --> 00:30:29,000

And latterly, the United States Navy pilot sightings from the USS Nimitz and yet changed their story when it came to Stephenville.

362

00:30:29,000 --> 00:30:37,000

First denying there was a military presence in the area, but then when it cropped upon radar, admitting it.

363

00:30:38,000 --> 00:30:40,000

Where do we go from here?

364

00:30:40,000 --> 00:30:43,000

Well, the fact of the matter is Stephenville still remains a mystery.

365

00:30:43,000 --> 00:30:49,000

We have still got a mass sighting. More than 50 people saw something. I don't know what they saw.

366

00:30:49,000 --> 00:30:52,000

How are we going to find our truth in this investigation?

367

00:30:52,000 --> 00:30:56,000

Well, there's one person we need to speak to, one person who might hold the key.

368

00:30:59,000 --> 00:31:06,000

Coming up, eyewitness police Constable Gaten provides details of his own unique encounter.

369

00:31:06,000 --> 00:31:15,000

They were moving around very very fast rate speed. It wasn't flares. It wasn't the reflection. Lights is what I saw.

370

00:31:17,000 --> 00:31:22,000

But his extraordinary testimony takes the case in an unexpected direction.

371

00:31:22,000 --> 00:31:25,000

His story doesn't match the accounts of other witnesses.

372

00:31:25,000 --> 00:31:27,000

It's like you see completely different things, isn't it?

373

00:31:27,000 --> 00:31:31,000

I believe that he saw something that he can't explain.

374

00:31:37,000 --> 00:31:44,000

We're on a mission to uncover the truth about what the people of Stephenville, Texas, really saw.

375

00:31:44,000 --> 00:31:50,000

Streaking across the early evening sky on the 8th of January, 2008.

376

00:31:52,000 --> 00:32:02,000

The UFO was described by eyewitnesses as a vast mothership, engaged in a game of cat and mouse with

two F-16 fighter jets.

377

00:32:03,000 --> 00:32:09,000

They was in hot pursuit, trying to catch it, but they couldn't get close to it.

378

00:32:10,000 --> 00:32:21,000

Radar data supports the eyewitness testimony, proving the Air Force did have fighter jets and a control aircraft in the sky at the time of the incident.

379

00:32:21,000 --> 00:32:27,000

An airborne warning and control aircraft was orbiting for the entire four hours.

380

00:32:28,000 --> 00:32:38,000

But denials and U-turns by the military have left the people of Stephenville, whose lives have been forever changed, desperate for answers.

381

00:32:46,000 --> 00:32:54,000

Okay, so Sarah, the people of Stephenville in Texas said they saw a vast spaceship in the sky.

382

00:32:54,000 --> 00:33:00,000

A mile long, half a mile wide, travelling at speeds of up to 3,000 miles per hour.

383

00:33:00,000 --> 00:33:03,000

They've been belittled, they've been ridiculed, they've been besmirched.

384

00:33:03,000 --> 00:33:06,000

We're trying to prove for them that this actually happened.

385

00:33:06,000 --> 00:33:14,000

Our problem is we've come up against no physical evidence whatsoever, no photographs, no videos.

386

00:33:14,000 --> 00:33:16,000

But it doesn't mean that it didn't happen.

387

00:33:16,000 --> 00:33:21,000

50 people, more than 50 people have come forward and said they saw strange things in the sky.

388

00:33:21,000 --> 00:33:28,000

I mean, it's highly unlikely that the whole town got together and decided they were going to make up a conspiracy theory just for UFO tourism.

389

00:33:28,000 --> 00:33:34,000

We've got one more eyewitness to help us prove that this actually happened.

390

00:33:36,000 --> 00:33:38,000

Leroy, it's Craig and Sarah here.

391

00:33:38,000 --> 00:33:40,000

Hello there, how are you guys?

392

00:33:40,000 --> 00:33:43,000

We're trying to prove what happened in Stephenville.

393

00:33:43,000 --> 00:33:46,000

Can you convince us that it happened and tell us your story?

394

00:33:46,000 --> 00:33:54,000

Back in 2008, I lived just outside of the little town, 12 miles south of Stephenville.

395

00:33:54,000 --> 00:33:56,000

I lived up on a hill.

396

00:33:56,000 --> 00:34:00,000

I remember that day, simply because it was my wife's birthday.

397

00:34:00,000 --> 00:34:10,000

After we ate, I walked out to my car outside with this part in the driveway to retrieve my credit card.

398

00:34:10,000 --> 00:34:16,000

As I'm walking back, just something caught my attention.

399

00:34:18,000 --> 00:34:22,000

It was off to the southwest sky.

400

00:34:22,000 --> 00:34:25,000

I noticed like an orb.

401

00:34:27,000 --> 00:34:29,000

This thing was huge.

402

00:34:29,000 --> 00:34:34,000

And it was reddish, orange-yellowish color.

403

00:34:35,000 --> 00:34:42,000

I would say, kind of like when you see flowing lava from the volcano.

404

00:34:42,000 --> 00:34:44,000

I didn't know what it was.

405

00:34:44,000 --> 00:34:46,000

I was kind of at all.

406

00:34:46,000 --> 00:34:50,000

I walked inside and my wife and children were waiting for me.

407

00:34:50,000 --> 00:34:54,000

I mentioned to her I wanted her to grab the video camera.

408

00:34:54,000 --> 00:34:58,000

She kind of laughed at me and said, oh, you probably just saw a plane.

409

00:34:58,000 --> 00:34:59,000

Well, it wasn't a plane.

410

00:34:59,000 --> 00:35:01,000

This was much larger.

411

00:35:02,000 --> 00:35:10,000

So I walk outside and my look and my boy at the time, I believe he was eight years old, Ryan went outside with me.

412

00:35:10,000 --> 00:35:15,000

My boy is looking up the sky and he's saying, dad, look, look, look, look.

413

00:35:15,000 --> 00:35:24,000

I look up and I see these bright, I tell them fluorescent colored lights.

414

00:35:25,000 --> 00:35:29,000

They were coming on, flashing, coming off.

415

00:35:29,000 --> 00:35:33,000

They were moving around at a very fast rate of speed.

416

00:35:33,000 --> 00:35:39,000

One would appear here and then it'd go off and it'd appear here.

417

00:35:39,000 --> 00:35:43,000

And they were doing this kind of like a somewhat of formation.

418

00:35:43,000 --> 00:35:46,000

Anyway, I don't know what it was.

419

00:35:46,000 --> 00:35:49,000

They were pretty high up in the sky.

420

00:35:49,000 --> 00:35:52,000

They were not what I had just seen prior.

421

00:35:52,000 --> 00:35:54,000

Not the same color.

422

00:35:54,000 --> 00:36:01,000

All of a sudden they stopped and they like stopped moving around.

423

00:36:01,000 --> 00:36:09,000

And like a school of fish, these things shot off in a direction to the east.

424

00:36:09,000 --> 00:36:11,000

And they were gone.

425

00:36:11,000 --> 00:36:15,000

And they were traveling so fast.

426

00:36:15,000 --> 00:36:21,000

And I'm trying to gather myself and what is it that I'm seeing?

427

00:36:21,000 --> 00:36:26,000

The only thing I can hear is my kid asking me questions, nagging on me.

428

00:36:26,000 --> 00:36:29,000

What is this, dad? Is this a spaceship?

429

00:36:29,000 --> 00:36:32,000

I said, you don't tell nobody.

430

00:36:35,000 --> 00:36:37,000

Leroy, forgive me.

431

00:36:37,000 --> 00:36:39,000

Could you have there been fireworks?

432

00:36:39,000 --> 00:36:44,000

Because the way you just described that, it kind of sounds like rockets, firework rockets.

433

00:36:44,000 --> 00:36:50,000

No, sir. No. I'm not the smartest man in the world, but I'm not the dumbest either.

434

00:36:50,000 --> 00:36:57,000

And no, it certainly wasn't fireworks. It wasn't flares. It wasn't the reflection.

435

00:36:57,000 --> 00:37:02,000

Lights is what I saw.

436

00:37:02,000 --> 00:37:07,000

I want to get clear because we've had other witnesses say this was one gigantic craft.

437

00:37:07,000 --> 00:37:10,000

But what you're saying is this was several separate craft.

438

00:37:10,000 --> 00:37:16,000

Okay. As far as craft, I will not use that word because I did not see it.

439

00:37:16,000 --> 00:37:21,000

I saw an orb initially disappeared and was and saw another one.

440

00:37:21,000 --> 00:37:31,000

So I don't know. I don't know. It was something that broke into several pieces, but I did not see a crack.

441

00:37:31,000 --> 00:37:33,000

I love to know what it was.

442

00:37:33,000 --> 00:37:37,000

I think somebody out there knows.

443

00:37:37,000 --> 00:37:44,000

I think the military are aware, even though they did initially deny it for two weeks.

444

00:37:46,000 --> 00:37:52,000

Do you honestly think the government could cover up something as big as this? Do you not think perhaps it's just military technology?

445

00:37:52,000 --> 00:37:57,000

It could be military technology. I'm not going to argue that fact.

446

00:37:57,000 --> 00:38:06,000

What I will argue is that a typical human being like you and I are now going to be able to

withstand these G-forces.

447

00:38:07,000 --> 00:38:13,000

Perhaps they were mancraft. Perhaps they were probes or robots.

448

00:38:13,000 --> 00:38:19,000

You know, that was my thought. I mean, it could have been something that was unmanned, very possible.

449

00:38:19,000 --> 00:38:27,000

I used to not really believe that there was something from out of this world.

450

00:38:27,000 --> 00:38:32,000

But, you know, it kind of opened up my mind.

451

00:38:32,000 --> 00:38:45,000

I think now that it was something that wasn't from here, whatever it is that I saw, I don't think I'll ever really know.

452

00:38:45,000 --> 00:38:47,000

Thanks for talking to us.

453

00:38:47,000 --> 00:38:51,000

Thank you, sir.

454

00:38:51,000 --> 00:38:55,000

Well, there you go, Sarah. I think Leroy was a really compelling witness.

455

00:38:55,000 --> 00:39:02,000

He told that story really, really well. And he looks at the kind of guy that doesn't mess. He doesn't make these kind of things up.

456

00:39:02,000 --> 00:39:06,000

No, I agree with that. I think what was quite compelling is that he was fearful about talking about it.

457

00:39:06,000 --> 00:39:12,000

He told his young lad not to tell anyone else. And he's got nothing to gain by telling his story.

458

00:39:12,000 --> 00:39:18,000

But what I am curious about is his story doesn't match the accounts of other witnesses.

459

00:39:19,000 --> 00:39:25,000

Sarah is correct. There are discrepancies between some of the eyewitness accounts.

460

00:39:25,000 --> 00:39:31,000

Pilot Steve Allen described one vast mother ship.

461

00:39:31,000 --> 00:39:37,000

The ship was massive. It appeared to be about a half a mile wide and probably a mile long.

462

00:39:37,000 --> 00:39:44,000

But Ricky Surrell's, the hunter who didn't want to start an interstellar war, he also saw a massive craft over his head.

463

00:39:44,000 --> 00:39:51,000

And if you look at the trees, you know, it's right here. I mean, it's 300 foot up right here.

464

00:39:51,000 --> 00:39:58,000

But Leroy, he describes multiple brightly lit orbs behaving randomly.

465

00:39:58,000 --> 00:40:09,000

I see these bright lights. They were coming on, flashing, coming off, and they were moving around at a very fast rate of speed.

466

00:40:10,000 --> 00:40:13,000

It's like you see a completely different thing, isn't it?

467

00:40:13,000 --> 00:40:19,000

No, I don't think that's the case. I think based on the evidence we've got so far and based on what we've heard,

468

00:40:19,000 --> 00:40:26,000

I believe that something happened. Something was seen. But what's kind of happened over the years is it's kind of got embellished.

469

00:40:26,000 --> 00:40:32,000

So it was likely that a lot of people did see these lights, but the truth has kind of got muddled in this story over the years.

470

00:40:32,000 --> 00:40:36,000

But I believe that he saw something that he can't explain.

471

00:40:39,000 --> 00:40:45,000

In this fascinating UFO case, we've listened to extraordinary witness testimony.

472

00:40:45,000 --> 00:40:52,000

We've gone deep into the data and reviewed the radar and other technical evidence.

473

00:40:52,000 --> 00:40:56,000

But now, it's time to put our cards on the table.

474

00:40:56,000 --> 00:41:04,000

Was the UFO encounter over Steenville, Texas, 13 years ago extraterrestrial or not?

475

00:41:05,000 --> 00:41:14,000

The people of Steenville had been ridiculed and belittled for coming forward and saying what they saw.

476

00:41:14,000 --> 00:41:23,000

However, with all the evidence that we've got, there's no photos, there's no physical evidence whatsoever.

477

00:41:23,000 --> 00:41:29,000

Now, what they saw, I don't know, but I can't say that they saw a UFO.

478

00:41:30,000 --> 00:41:33,000

So I've got to say, case on proof.

479

00:41:36,000 --> 00:41:38,000

I agree on a lot of your points.

480

00:41:38,000 --> 00:41:45,000

I don't think we're ever going to be able to explain what happened in Steenville.

481

00:41:45,000 --> 00:41:52,000

So based on that, I'm going to say, object unexplained, but case closed.

482

00:41:53,000 --> 00:41:57,000

Okay, but the truth is out there and we move on.

483

00:42:01,000 --> 00:42:08,000

Until new evidence emerges, for now, the Steenville UFO sighting remains a mystery.

484

00:42:08,000 --> 00:42:13,000

But that doesn't mean the witnesses didn't see something otherworldly.

485

00:42:13,000 --> 00:42:21,000

And if extraterrestrials are monitoring Earth, we must prepare ourselves for their next visitation.

486

00:42:21,000 --> 00:42:25,000

Which may be imminent.

487

00:42:51,000 --> 00:42:54,000

Steenville
