Scott Creighton joins us to discuss that despite millennia of fame, the origins of the Great Pyramid of Giza are shrouded in mystery. Believed to be the tomb of an Egyptian king, even though no remains have ever been found, its construction date of roughly 2550 BCE is tied to only one piece of evidence: the crudely painted marks within the pyramid's hidden chambers that refer to the 4th Dynasty king Khufu, discovered in 1837 by Colonel Howard Vyse and his team.

Danny Kerr & Doug Keenan enter the Den of a special Thursday night show to discuss their extensive research into the Great Pyramid. The Pyramid holds many mysteries, and seems to be many things. The Great Pyramid does not seem to be a tomb, it instead seems more like a machine, a machine that generated power, real usable power. Not only that, but The Great Pyramid can be seen as a scale model of not only the earth, but the entire solar system.

To kick off the episode, we are reading listener emails, and giving an update on the John Anthony West Project Fundly Campaign.

We will also hopefully get a sammich update from Denver Michaels at the end of the show! (Send your sammich recipies to [info@denoflore.com](mailto:info@denoflore.com) to enter to win 3 signed copies of Denver Michaels books!)

Support us on Patreon @ <https://patreon.com/denoflore> or at <http://DenofLore.com/support>

Spencer Cross enters the Den for the first time to discuss his research on The Great Pyramid being a factory to produce Mono-Atomic gold. We also go into the details behind the importance of Mono-Atomic Gold, and the process of making it.

Spencer also being a BrewMaster of his own IPA, we also discuss how to make beer!

In the final after-show segment, we bring Denver Michaels on to give an update on his trying Grimsteak's sammich for the "Send Denver Michaels a Sammich Contest" and to talk mound builders & Giants!

In The Great Pyramid: A Factory for Mono-Atomic Gold, Cross identifies the purpose of the structure, what it was making, and the significance of this substance. The world is dominated by an all encompassing hierarchical system which is in and of itself involved in a relentless pursuit of money and energy extracted from the masses. So what is money? It can ultimately be traced in root to an element known as gold. It has been this way for thousands of years. So why is gold the chosen foundational token propping up the global economy? This question is examined and answered within this book.

#### About The Film

-----  
from terramasonica.com

Terra Masonica will focus on the following: What is Freemasonry today? Who are the Freemasons and what do they do?

These simple questions have never really been treated from a global perspective.

After its official creation in London in 1717, Freemasonry quickly spread to all continents. For 300 years, specific entities have been created, differentiated by country and local realities.

This world tour in 80 lodges will outline the similarities and contrasts between lodges on the five continents. For the first time you will explore the real Freemasonry, from Patagonia to Lapland, from USA to India, in 80 lodges. We will discover the oldest lodges on each continent as well as the most peculiar lodges.

Terra Masonica will talk to ordinary Freemasons and will explore

[Transcript Link](#)

Over thousands of years, the priests and sages of the ancient world discovered that the design and location of certain structures had beneficial effects on the crops that sustained life. A body of traditional lore evolved, using architecture and ceremonies that made use of these wholly natural but mysterious effects. In *The Secret of the Temple*, John Michael Greer painstakingly rebuilds a body of lost knowledge that has been used to accumulate and direct energy throughout history, and can be used again today.

The Temple of Solomon was only one of many ancient structures that drew on the temple tradition. The insights of this tradition have been passed down through those in society tasked with protecting ancient wisdom, secret societies like the Knights Templar and the Freemasons. But over time, as cultures and technologies changed, the meaning of these cryptic symbols and rituals became obscured . . . until now. This book explores the esoteric body of knowledge that shaped the world of our forebears, gave rise to the world's most awe-inspiring temples and cathedrals, and continues to fuel speculation about powerful forces at work in our world.

John Michael Greer is an American author, independent scholar, historian of ideas, cultural critic, Neo-druid leader, Hermeticist, environmentalist/conservationist, blogger, novelist, and occultist/esotericist who currently resides in Cumberland, Maryland
