IN VARIOUS PLACES around the world, strange and otherworldly light phenomena have been witnessed and reported by many people for hundreds of years. The most well-known and popular of these are the Hessdalen Lights in Norway. But here in the UK, there is a similar and just as bizarre phenomenon which has involved very similar mysterious lights being seen over a long period of time.

Located between Sheffield and Manchester in northern England, the Longdendale valley stretches for 15 miles and is nestled between two peaks, Shining Clough and Bleaklow. It is a quiet area alongside reservoirs and moorland. Dating back hundreds of years, the valley has built quite a reputation for strange phenomena, ranging from ghostly apparitions to UFOs and everything in-between.

Locally, the most well-known of these phenomena is the mysterious "Longdendale Lights", described over the years as "strings of lights", orbs, light beams and other unnatural light formations. The lights witnessed have also varied in colour, including orange, yellow, white and blue lights of varying brightness that have been reported on the ridges and throughout the valley. Over the years many witnesses have come forward to tell of their encounters with these anomalous lights while hiking or driving along the gloomy, quiet valley.

Dr David Clarke is one of the UK's leading authorities on contemporary legend and folklore. He is a co-founder of the Contemporary Legend research group at SHU and combines his interests in folklore with his teaching and research in journalism and

He was assigned to RAF Bentwaters in June of 1979 as a base policeman. On the night of December 25/26, Burroughs accompanied SSGT Penniston in an investigation of unusual lights in the Rendlesham Forest adjacent to the base. What began as a routine response to a possible base incursion or accident scene would become the defining episode of Burroughs life.

Subsequent to his encounter with a craft of unknown origin, Burroughs's career continued to provide him with training in law enforcement and investigation, which would prove invaluable in his personal investigation of the events in Rendlesham Forest.

Of key concern to Burroughs are the medical effects resulting from his encounter, which have prompted, in his words, "an ongoing campaign to force the authorities to reveal the truth about what happened and to seek justice for the men and women caught up in these incidents, some of whom have suffered adverse physical and psychological effects.

He has spoken to audiences around the world about the implications of "Disclosure" - the formal confirmation by heads of state of an extraterrestrial presence engaging the human race. He has lectured around the world on the political implications of UAP/ET phenomena and given over 1200 radio and television interviews. PRG's advocacy work has been extensively covered by national and international media including being featured on CNN, Fox News, MSNBC and in the Washington Post and New York Times.	<p>In 2013 PRG organized and conducted a "Citizen Hearing on Disclosure" at the National Press Club in Washington. In November of 2014 PRG launched a two year political initiative out of Washington, DC that injected the ET issue into the 2016 presidential campaign. PRG recently launched a new exopolitical podcast out of Washington, DC - the DisclosureWire - based in the National Press Building two blocks from the White House.</p> <p>Bassett has appeared in many documentary films and his lectures and interviews are well represented on YouTube.</p> <p>Main website: www.paradigmresearchgroup.org DisclosureWire Podcast: www.disclosurewire.org</p>	Transcript Link

During that time, Bartel was stationed at Nellis Air Force Base in Las Vegas, NV, with two deployments to Saudi Arabia in 1999 and 2002. Later, he went on to become a cadre instructor for the Ground Combat Training Squadron at Creech Air Force Base in Indian Springs, NV. After being honorably discharged from military service, Bartel was hired as a Security Police Officer by the Nevada National Security Site (also known as the Nevada Test Site). The skills and experiences he acquired in the military made him a valuable asset to the BAASS security team given the nature and scope of their DIA contract.</p> <p>When he first deployed to Skinwalker Ranch in October 2010, he did not know much about the property, its past history, or the true nature of US government involvement in the site. For Bartel, it was merely an assignment, like many others in the past, and he adhered strictly to the guidelines and protocols set forth by his employer. Interestingly, an unconventional aspect of his job did require him to try and tap into his surroundings and establish contact with "the unknown."</p> <p>Chris Twitter: https://twitter.com/ChrisBartelSWR Chris Instagram: https://www.instagram.com/christopher.bartel/ University of Maryland Art Gallery's The Skinwalker Ranch Series,</p>	Transcript Link

2022 05 28 Disclosure Team <https://youtu.be/i62Xf6hTSlo> #82 David Marler - Triangle UFOs - David has had a lifelong interest in the subject of UFOs. He joined The Mutual UFO Network (MUFON) in 1990 as a Field Investigator Trainee. Since then, he has served as Field Investigator, State Section Director, as well as Illinois State Director. David is currently an independent UFO researcher. [Transcript Link](#)

During his tenure with MUFON, he had conducted numerous investigations into alleged UFO sightings and related experiences. He has discussed the subject of UFOs on numerous radio and television news programs. He has also lectured on the subject to various school and adult audiences over the years.

David has assisted the History, Learning, Discovery, and Smithsonian Channels on UFO documentaries in addition to independent productions.

David has an extensive personal library of UFO books, journals, magazines, newspapers, and case files from around the world that covers the last 70+ years. With this he has been examining the detailed history of UFO sighting reports and related patterns.

David strives to have an open mind regarding the UFO phenomenon. However, he also acknowledges the need for a skeptical approach when examining each individual UFO report. Despite the large percentage of misidentifications and hoaxes in the UFO data, David recognizes what appears to be a core phenomenon beneath it all.

2022 05 27 Disclosure Team <https://youtu.be/fnPfjxxRIOY> #81 Garry Nolan - UAP, Immunology & more - Garry Nolan got involved working on UFOs after being approached by officials and an aerospace corporation to "help them understand the medical harm that had come to some individuals, related to supposed interactions with an anomalous craft", primarily due to the kinds of blood analysis that his lab can conduct. Initially via CyTOF blood analysis, he helped investigate the brains of around 100 patients, mostly "defense or governmental personnel or people working in the aerospace industry", of which a subset claimed to have seen UAPs and the majority had symptoms that were "basically identical to what's now called Havana syndrome" who had their brains scanned via MRI. He stated that some of the brains were horribly damaged and that "what we thought was the damage across multiple individuals" turned out to be a "over-connection of neurons between the head of the caudate and the putamen" which he claims was disproportionate in this cohort compared to the general population[clarification needed]. Others have independently (and even earlier) verified the role of the caudate in intelligence and planning. For at least multiple individuals of this subset, this brain characteristic was something that the people were born with. [Transcript Link](#)

Previously an investigative reporter on news and current affairs program 60 Minutes on Channel Nine and chief investigations reporter for the Sunday Night news program, Coulthart has won five prestigious Walkley journalism awards, including the most coveted top award for Australian journalism, the Gold Walkley. His broadcast television investigative journalism has also won the top broadcast award, a Logie.	Transcript Link
				Ross is the co-author of bestselling books <i>Dead Man Running</i> and <i>Above the Law</i> , both exposes of organised crime in Australian and international outlaw motorcycle gangs, as well as <i>Charles Bean</i> , <i>Lost Diggers</i> , <i>Lost Tommys</i> and <i>Secrecy for Sale: Inside the Global Offshore Money Maze</i> .	
				Award-winning investigative journalist Ross Coulthart has been intrigued by UFOs since mysterious glowing lights were reported near New Zealand's Kaikoura mountains when he was a teenager. The 1978 sighting is just one of thousands since the 1940s, and yet research into UFOs is still seen as the realm of crackpots and conspiracy theorists.	
				In 2020, however, after decades of denial, the US Department of Defence made the astonishing admission that strange aerial and underwater objects frequently reported and videoed by pilots and tracked by sensors are real, unexplained, and pose a genuine national security concern.	

2022 01 15	Disclosure Team	https://youtu.be/CiaNEE-xBGEs #57 UAPx Panel Discussion	<p>Perhaps you remember November 10, 2004. We sure do. It was the day when Senior Chief Kevin Day of the USS Princeton reported seeing odd and slow-moving objects flying in groups of five to ten off of San Clemente Island, west of the San Diego coast. This led to the USS Nimitz launching F/A-18s to intercept and get visual confirmation...an hour later, Navy pilots would make history by taking infrared videos of what the United States Government has declared as an unidentified object.</p> <p>Gary Voorhis and Jason Turner were aboard the USS Princeton during the now-famous "TicTac Incident" and were witnesses to the activities as well as the videos and subsequent Government actions which led to the public never knowing of this incident for nearly two decades.</p> <p>Senior Chief Kevin Day and Gary Voorhis founded UAPx to search for, collect data on, and ultimately identify Unknown Aerial Phenomena. UAPx is now staffed by top-notch physicists, NASA-trained astronauts, electronic engineers, DoD Analysts, Technical Writers, Researchers, and Attorneys - all joined for the common goal of searching for and identifying UAP.</p> <p>UAPx Website: https://www.uapexpedition.org/ UAPx Twitter: https://twitter.com/UAPx2</p> <p>Gary Voorhis Twitter: https://twitter.com/GaryVoorhis Gary Voorhis Instagram: https://www.instagram.com/voorhisgary/</p>	Transcript Link
