1
00:00:03,360 --> 00:00:09,430
hello hello hello everyone

2
00:00:16,870 --> 00:00:11,910
just gonna wait a second just check all

3
00:00:19,510 --> 00:00:16,880
of my settings are correct

4
00:00:21,429 --> 00:00:19,520
hey guys how's it going please let me

5
00:00:25,189 --> 00:00:21,439
know in the comments if you can hear me

6
00:00:28,310 --> 00:00:25,199
loud and clear how is everyone

7
00:00:30,230 --> 00:00:28,320
good to see so many of you here this has

8
00:00:32,069 --> 00:00:30,240
been a long time coming

9
00:00:33,750 --> 00:00:32,079
yeah can everybody hear me okay

10
00:00:36,870 --> 00:00:33,760
fantastic

11
00:00:38,869 --> 00:00:36,880
so we all know why we're here

12
00:00:40,389 --> 00:00:38,879
i will just start off by saying i

13
00:00:41,830 --> 00:00:40,399

appreciate you all being here and

14

00:00:43,750 --> 00:00:41,840

commenting in that but can we please

15

00:00:45,670 --> 00:00:43,760

keep the comments respectful

16

00:00:47,190 --> 00:00:45,680

we may all have different views

17

00:00:50,069 --> 00:00:47,200

different opinions

18

00:00:50,950 --> 00:00:50,079

about me about about lou but if we can

19

00:00:52,470 --> 00:00:50,960

just

20

00:00:54,389 --> 00:00:52,480

remember that we all want the same thing

21

00:00:55,910 --> 00:00:54,399

at the end of the day so just try and be

22

00:00:58,069 --> 00:00:55,920

respectful

23

00:01:01,349 --> 00:00:58,079

and so i think let's uh let's bring in

24

00:01:05,189 --> 00:01:04,229

welcome sir well thank you very much

25

00:01:06,630 --> 00:01:05,199

vinnie it's

26

00:01:09,350 --> 00:01:06,640

certainly good to be here and i really

27

00:01:11,109 --> 00:01:09,360

appreciate uh not only your patience

28

00:01:12,390 --> 00:01:11,119

uh but also that of your audience really

29

00:01:14,469 --> 00:01:12,400

really glad to be here

30

00:01:16,230 --> 00:01:14,479

hey it's my pleasure you know we're all

31

00:01:16,789 --> 00:01:16,240

we all have things going on in our lives

32

00:01:18,390 --> 00:01:16,799

and uh

33

00:01:19,990 --> 00:01:18,400

that can't be helped sometimes i'm just

34

00:01:21,830 --> 00:01:20,000

glad that we were able to rearrange and

35

00:01:23,030 --> 00:01:21,840

you're here now for everyone so so thank

36

00:01:27,109 --> 00:01:23,040

you

37

00:01:28,630 --> 00:01:27,119

my pleasure so without further ado

38

00:01:30,469 --> 00:01:28,640

i'm going to jump straight into

39

00:01:31,830 --> 00:01:30,479

something that's that's right up to date

40

00:01:33,270 --> 00:01:31,840

so obviously we couldn't do our

41

00:01:35,030 --> 00:01:33,280

discussion last week because you were in

42

00:01:37,910 --> 00:01:35,040

dc on business

43

00:01:39,190 --> 00:01:37,920

um and after listening to your chat with

44

00:01:41,670 --> 00:01:39,200

mr jimmy church

45

00:01:43,590 --> 00:01:41,680

you laid out that you were you had met

46

00:01:45,030 --> 00:01:43,600

with the inspector general

47

00:01:46,870 --> 00:01:45,040

and so i just wondered if you were able

48

00:01:48,469 --> 00:01:46,880

to give us an update on

49

00:01:50,149 --> 00:01:48,479

on what's been said because i know you

50

00:01:52,069 --> 00:01:50,159

had a quite a long meeting with them

51
00:01:53,350 --> 00:01:52,079
um so if you're able to talk about that

52
00:01:53,990 --> 00:01:53,360
i think a lot of people are quite

53
00:01:57,429 --> 00:01:54,000
intrigued by

54
00:01:59,590 --> 00:01:57,439
it yeah sure so so first of all let me

55
00:02:01,190 --> 00:01:59,600
explain to to your audience who some of

56
00:02:02,870 --> 00:02:01,200
some folks may not be aware

57
00:02:05,190 --> 00:02:02,880
what the role of the inspector general

58
00:02:06,950 --> 00:02:05,200
is um for the department of defense and

59
00:02:09,669 --> 00:02:06,960
the intelligence community

60
00:02:11,750 --> 00:02:09,679
think of it uh from the days of watching

61
00:02:14,630 --> 00:02:11,760
these old cop shows and police shows

62
00:02:15,670 --> 00:02:14,640
internal affairs okay so what the ig is

63
00:02:18,790 --> 00:02:15,680

responsible for

64

00:02:19,350 --> 00:02:18,800

is identifying any type of internal

65

00:02:20,869 --> 00:02:19,360

issues

66

00:02:22,949 --> 00:02:20,879

to the department in this case

67

00:02:23,910 --> 00:02:22,959

department of defense and then making

68

00:02:26,869 --> 00:02:23,920

recommendations

69

00:02:28,070 --> 00:02:26,879

and solutions for the secretary to to

70

00:02:29,830 --> 00:02:28,080

remedy those those

71

00:02:32,150 --> 00:02:29,840

those issues or those those those

72

00:02:34,710 --> 00:02:32,160

complications and problems

73

00:02:35,990 --> 00:02:34,720

so they are an independent body they

74

00:02:37,830 --> 00:02:36,000

don't fall under anybody

75

00:02:40,710 --> 00:02:37,840

other than the secretary of defense

76

00:02:43,270 --> 00:02:40,720

himself or herself whoever's in charge

77

00:02:44,710 --> 00:02:43,280

and they are they are supposed to be

78

00:02:46,630 --> 00:02:44,720

unbiased and fair

79

00:02:48,790 --> 00:02:46,640

uh and ultimately looking out for the

80

00:02:51,110 --> 00:02:48,800

best interests of the department

81

00:02:51,910 --> 00:02:51,120

in this particular case uh the

82

00:02:54,229 --> 00:02:51,920

individual

83

00:02:56,390 --> 00:02:54,239

who who had a had a pleasure speaking

84

00:02:57,509 --> 00:02:56,400

with um this time was a gentleman named

85

00:03:02,229 --> 00:02:57,519

harvey stone

86

00:03:05,589 --> 00:03:02,239

you will

87

00:03:08,710 --> 00:03:05,599

uh uh of the dod

88

00:03:09,509 --> 00:03:08,720

inspector general evaluation a couple

89

00:03:11,589 --> 00:03:09,519

weeks ago

90

00:03:13,830 --> 00:03:11,599

the dod made an announcement that

91

00:03:15,509 --> 00:03:13,840

they're doing this evaluation to see how

92

00:03:18,550 --> 00:03:15,519

the pentagon has over the last several

93

00:03:20,470 --> 00:03:18,560

years been handling this topic

94

00:03:22,869 --> 00:03:20,480

they are not trying to necessarily get

95

00:03:25,990 --> 00:03:22,879

anybody in trouble they're not trying to

96

00:03:29,509 --> 00:03:26,000

play gotcha they simply want to to

97

00:03:31,589 --> 00:03:29,519

find what is broken and then

98

00:03:33,190 --> 00:03:31,599

provide solutions and recommendations to

99

00:03:37,030 --> 00:03:33,200

fix whatever is is

100

00:03:40,229 --> 00:03:37,040

has been identified as being broken um

101

00:03:41,830 --> 00:03:40,239

i i'm out of respect for the dod ig and

102

00:03:43,910 --> 00:03:41,840

to allow them to do their work i'm not

103

00:03:45,910 --> 00:03:43,920

going to go into a lot of details

104

00:03:47,110 --> 00:03:45,920

other than the fact that they seem very

105

00:03:50,070 --> 00:03:47,120

interested in

106

00:03:51,509 --> 00:03:50,080

trying to to find uh where those

107

00:03:54,390 --> 00:03:51,519

challenges exist

108

00:03:55,429 --> 00:03:54,400

and then uh identify remedies uh to

109

00:03:58,470 --> 00:03:55,439

those challenges

110

00:04:00,789 --> 00:03:58,480

and my part in this is to

111

00:04:02,470 --> 00:04:00,799

to help them understand the landscape

112

00:04:03,589 --> 00:04:02,480

understand maybe perhaps a little bit of

113

00:04:06,949 --> 00:04:03,599

the history

114

00:04:09,350 --> 00:04:06,959

uh behind uh behind uh this effort with

115

00:04:12,470 --> 00:04:09,360

uaps and as it relates to a tip

116

00:04:12,789 --> 00:04:12,480

and and the pentagon and then um you

117

00:04:15,270 --> 00:04:12,799

know

118

00:04:17,030 --> 00:04:15,280

let let them make a determination how

119

00:04:17,830 --> 00:04:17,040

best to fix it obviously there's been

120

00:04:20,789 --> 00:04:17,840

some

121

00:04:22,790 --> 00:04:20,799

significant issues um involving not just

122

00:04:25,909 --> 00:04:22,800

the program itself a tip

123

00:04:27,670 --> 00:04:25,919

uh from a uh political i'm sorry from a

124

00:04:28,550 --> 00:04:27,680

public relations perspective but also my

125

00:04:30,790 --> 00:04:28,560

role in it

126
00:04:31,590 --> 00:04:30,800
and it ultimately took a letter from

127
00:04:35,030 --> 00:04:31,600
secretary

128
00:04:37,909 --> 00:04:35,040
had enough coffee

129
00:04:39,590 --> 00:04:37,919
from former senator harry reid yeah uh

130
00:04:41,030 --> 00:04:39,600
who was the senate majority leader at

131
00:04:42,230 --> 00:04:41,040
the time in his program one of the

132
00:04:44,390 --> 00:04:42,240
original sponsors

133
00:04:46,550 --> 00:04:44,400
uh it took finally a letter from him to

134
00:04:48,710 --> 00:04:46,560
to to establish the facts of of you know

135
00:04:49,270 --> 00:04:48,720
what what atip was and and what my role

136
00:04:51,670 --> 00:04:49,280
is and

137
00:04:52,710 --> 00:04:51,680
what what what we were doing um so i

138
00:04:54,830 --> 00:04:52,720

think the department of defense

139

00:04:58,469 --> 00:04:54,840

recognizes that there's been some

140

00:04:59,110 --> 00:04:58,479

uh perhaps some missteps uh we'll just

141

00:05:01,270 --> 00:04:59,120

say that

142

00:05:02,469 --> 00:05:01,280

and whether they were deliberate or or a

143

00:05:05,189 --> 00:05:02,479

consequence of

144

00:05:06,230 --> 00:05:05,199

of uh you know perhaps some sort of

145

00:05:09,830 --> 00:05:06,240

dysfunction

146

00:05:10,310 --> 00:05:09,840

uh is is is gonna be is has his remains

147

00:05:14,710 --> 00:05:10,320

to be

148

00:05:16,790 --> 00:05:14,720

intent within the ig to figure that out

149

00:05:18,710 --> 00:05:16,800

and then hopefully be able to to provide

150

00:05:20,550 --> 00:05:18,720

recommendations moving forward

151
00:05:22,230 --> 00:05:20,560
so we can have a collective conversation

152
00:05:23,430 --> 00:05:22,240
about this while ensuring transparency

153
00:05:25,430 --> 00:05:23,440
with the american people

154
00:05:26,870 --> 00:05:25,440
wonderful that makes perfect sense

155
00:05:28,390 --> 00:05:26,880
thanks for clarifying that

156
00:05:30,550 --> 00:05:28,400
and this case that you're involved in

157
00:05:33,350 --> 00:05:30,560
sorry this evaluation

158
00:05:35,590 --> 00:05:33,360
the one related to your missing emails

159
00:05:36,950 --> 00:05:35,600
now is that an investigation or

160
00:05:39,189 --> 00:05:36,960
i mean because we know that there's an

161
00:05:41,350 --> 00:05:39,199
evaluation about looking into

162
00:05:42,310 --> 00:05:41,360
the dod in the pentagons how they're

163
00:05:45,510 --> 00:05:42,320

looking

164

00:05:48,390 --> 00:05:45,520

this is separate isn't it well so

165

00:05:49,909 --> 00:05:48,400

so there is another um issue that we

166

00:05:52,950 --> 00:05:49,919

we're dealing with right now

167

00:05:54,870 --> 00:05:52,960

and that is the the uh

168

00:05:56,390 --> 00:05:54,880

allegations that all my emails have been

169

00:05:58,710 --> 00:05:56,400

deleted and and here's why that's

170

00:06:01,189 --> 00:05:58,720

problematic because the stated purpose

171

00:06:03,110 --> 00:06:01,199

uh that they they deleted the the

172

00:06:04,390 --> 00:06:03,120

predicate for deleting my emails

173

00:06:06,550 --> 00:06:04,400

was the fact that they were quote

174

00:06:07,909 --> 00:06:06,560

unquote historically not relevant

175

00:06:09,670 --> 00:06:07,919

now if you look at the time when i was

176

00:06:12,150 --> 00:06:09,680

dealing with i had two fundamental

177

00:06:13,749 --> 00:06:12,160

portfolios and the first one was one

178

00:06:16,309 --> 00:06:13,759

involving the 911

179

00:06:17,350 --> 00:06:16,319

uh trials at guantanamo bay so the

180

00:06:19,510 --> 00:06:17,360

individuals

181

00:06:20,950 --> 00:06:19,520

who were allegedly responsible for the 9

182

00:06:23,350 --> 00:06:20,960

11

183

00:06:25,189 --> 00:06:23,360

terrorist attacks in our country and

184

00:06:28,150 --> 00:06:25,199

then the other portfolio was the a-tip

185

00:06:30,469 --> 00:06:28,160

portfolio which i was i was also running

186

00:06:32,150 --> 00:06:30,479

on one hand you have what is is heralded

187

00:06:34,710 --> 00:06:32,160

to be the trial of the century

188

00:06:36,710 --> 00:06:34,720

coming up and then the other one is the

189

00:06:38,309 --> 00:06:36,720

perhaps the most profound question we

190

00:06:39,430 --> 00:06:38,319

faced in our lifetime and whether or not

191

00:06:41,670 --> 00:06:39,440

we are alone

192

00:06:42,550 --> 00:06:41,680

and what was the pentagon's role in that

193

00:06:44,629 --> 00:06:42,560

um

194

00:06:46,469 --> 00:06:44,639

i i find it very hard to believe that

195

00:06:48,390 --> 00:06:46,479

neither one of those topics was ever

196

00:06:51,670 --> 00:06:48,400

deemed historically relevant um

197

00:06:53,830 --> 00:06:51,680

that just doesn't make sense no so right

198

00:06:55,430 --> 00:06:53,840

so and if so those emails were supposed

199

00:06:56,710 --> 00:06:55,440

to be kept into perpetuity which means

200

00:06:58,550 --> 00:06:56,720

they're kept forever

201
00:06:59,909 --> 00:06:58,560
and eventually go to the national nara

202
00:07:02,950 --> 00:06:59,919
national archives

203
00:07:03,990 --> 00:07:02,960
um and so uh we have really two two

204
00:07:06,390 --> 00:07:04,000
possibilities either a

205
00:07:07,589 --> 00:07:06,400
my my emails were deleted which we've

206
00:07:09,430 --> 00:07:07,599
got a then a

207
00:07:10,710 --> 00:07:09,440
significant problem on our hands because

208
00:07:13,189 --> 00:07:10,720
it's either uh

209
00:07:15,430 --> 00:07:13,199
complete incompetence or it was

210
00:07:16,870 --> 00:07:15,440
deliberate as part of a cover-up okay

211
00:07:18,710 --> 00:07:16,880
yeah neither one of those are really

212
00:07:20,390 --> 00:07:18,720
good or the other option is that they

213
00:07:22,870 --> 00:07:20,400

didn't delete my emails

214

00:07:24,790 --> 00:07:22,880

uh and that either they were misinformed

215

00:07:26,710 --> 00:07:24,800

which doesn't look good for the pentagon

216

00:07:28,070 --> 00:07:26,720

or once again that someone is

217

00:07:29,670 --> 00:07:28,080

deliberately playing games here and

218

00:07:31,189 --> 00:07:29,680

trying to obfuscate which again doesn't

219

00:07:33,909 --> 00:07:31,199

look good so

220

00:07:34,629 --> 00:07:33,919

it it's very sad for me because at

221

00:07:37,430 --> 00:07:34,639

the end of the day

222

00:07:38,469 --> 00:07:37,440

i'm not look i i i'm trying to help the

223

00:07:39,830 --> 00:07:38,479

pentagon i'm trying to help the

224

00:07:41,350 --> 00:07:39,840

department of defense get out of this

225

00:07:43,270 --> 00:07:41,360

situation they've backed themselves into

226

00:07:46,070 --> 00:07:43,280

a corner for for a lot of years

227

00:07:47,029 --> 00:07:46,080

yeah i i'm not trying to make them look

228

00:07:50,150 --> 00:07:47,039

foolish

229

00:07:52,710 --> 00:07:50,160

but you know i i i can't excuse

230

00:07:53,830 --> 00:07:52,720

i can't excuse out outright lying to the

231

00:07:55,350 --> 00:07:53,840

american people you can't

232

00:07:56,710 --> 00:07:55,360

you can't tell the american people on

233

00:07:58,230 --> 00:07:56,720

truth you don't have to tell them

234

00:08:00,150 --> 00:07:58,240

everything there's times you can say hey

235

00:08:02,230 --> 00:08:00,160

no statement you know no comment

236

00:08:04,309 --> 00:08:02,240

i can't confirm or deny but but you

237

00:08:06,469 --> 00:08:04,319

can't lie to the american people

238

00:08:07,990 --> 00:08:06,479

there's only very specific circumstances

239

00:08:09,830 --> 00:08:08,000

in which a government

240

00:08:11,029 --> 00:08:09,840

our government is allowed to do that and

241

00:08:14,070 --> 00:08:11,039

i'm not going to go into what those

242

00:08:15,670 --> 00:08:14,080

those exceptions are right now but but

243

00:08:17,830 --> 00:08:15,680

they're they're they're legal exceptions

244

00:08:18,710 --> 00:08:17,840

either legally defined uh by the letter

245

00:08:20,950 --> 00:08:18,720

of the law

246

00:08:22,710 --> 00:08:20,960

um and and this is not one of those

247

00:08:24,950 --> 00:08:22,720

cases so

248

00:08:26,390 --> 00:08:24,960

you know what what exactly is going on

249

00:08:29,909 --> 00:08:26,400

here and why why is it

250

00:08:32,870 --> 00:08:29,919

important to to now delete my records

251
00:08:33,190 --> 00:08:32,880
uh yeah on a conversation involving uaps

252
00:08:34,949 --> 00:08:33,200
right

253
00:08:36,709 --> 00:08:34,959
unless you're trying to hide something

254
00:08:38,469 --> 00:08:36,719
yeah and was it just emails or the

255
00:08:40,790 --> 00:08:38,479
were there files as well that may have

256
00:08:42,949 --> 00:08:40,800
contained classified information

257
00:08:44,710 --> 00:08:42,959
it was all new files it was the shared

258
00:08:46,230 --> 00:08:44,720
folder that had all the

259
00:08:48,230 --> 00:08:46,240
so this is why i really have a hard time

260
00:08:50,470 --> 00:08:48,240
believing they deleted anything because

261
00:08:52,829 --> 00:08:50,480
there's no way you're going to say that

262
00:08:54,230 --> 00:08:52,839
the entire pentagon's ufo files are not

263
00:08:57,430 --> 00:08:54,240

historically

264

00:08:59,269 --> 00:08:57,440

right i mean guys come on i've been been

265

00:09:01,110 --> 00:08:59,279

born at night but not last night right

266

00:09:04,630 --> 00:09:01,120

yeah so you know

267

00:09:06,150 --> 00:09:04,640

that's why i think this this this story

268

00:09:08,150 --> 00:09:06,160

is still evolving and i don't think

269

00:09:10,550 --> 00:09:08,160

anybody buys the fact that they've

270

00:09:12,790 --> 00:09:10,560

deleted my emails there's no way in hell

271

00:09:14,470 --> 00:09:12,800

unless they really really really really

272

00:09:16,230 --> 00:09:14,480

are trying hard to cover their asses

273

00:09:18,230 --> 00:09:16,240

absolutely i mean emails are one thing

274

00:09:21,030 --> 00:09:18,240

but files as well that have

275

00:09:22,230 --> 00:09:21,040

pertained to such important information

276

00:09:23,509 --> 00:09:22,240

i mean there's been a lot of talk

277

00:09:25,350 --> 00:09:23,519

recently about

278

00:09:27,590 --> 00:09:25,360

speculating how long the emails should

279

00:09:28,150 --> 00:09:27,600

have been around until they get deleted

280

00:09:29,710 --> 00:09:28,160

and

281

00:09:31,269 --> 00:09:29,720

you know people were saying up until

282

00:09:33,190 --> 00:09:31,279

2024 and

283

00:09:34,790 --> 00:09:33,200

other people other than a minimum

284

00:09:36,710 --> 00:09:34,800

minimum it's five years

285

00:09:38,389 --> 00:09:36,720

right uh but when you go through the

286

00:09:39,829 --> 00:09:38,399

trail of emails you realize that it

287

00:09:40,790 --> 00:09:39,839

wasn't like they just did it

288

00:09:42,630 --> 00:09:40,800

yesterday which would have been like

289

00:09:44,470 --> 00:09:42,640

three and a half year mark apparently

290

00:09:46,230 --> 00:09:44,480

they deleted my files like

291

00:09:47,910 --> 00:09:46,240

a year ago possibly a year and a half

292

00:09:49,030 --> 00:09:47,920

ago so uh

293

00:09:50,870 --> 00:09:49,040

and then of course there's other

294

00:09:51,590 --> 00:09:50,880

categories of information that the work

295

00:09:53,430 --> 00:09:51,600

i did

296

00:09:54,790 --> 00:09:53,440

uh is supposed to be kept forever it

297

00:09:57,190 --> 00:09:54,800

never gets sure

298

00:09:58,710 --> 00:09:57,200

yeah that makes more sense to me uh when

299

00:10:00,470 --> 00:09:58,720

you actually think about it

300

00:10:02,150 --> 00:10:00,480

so well listen thank you so much for

301
00:10:04,310 --> 00:10:02,160
clarifying that um

302
00:10:06,069 --> 00:10:04,320
so moving on we know that also this past

303
00:10:08,150 --> 00:10:06,079
week that officials from the navy and

304
00:10:09,590 --> 00:10:08,160
the fbi gave a classified briefing to

305
00:10:10,470 --> 00:10:09,600
members of the house permanent select

306
00:10:13,750 --> 00:10:10,480
committee

307
00:10:17,269 --> 00:10:13,760
on intelligence counterterrorism etc

308
00:10:19,110 --> 00:10:17,279
so there's a lot of people that really

309
00:10:20,790 --> 00:10:19,120
are skeptical about these things are

310
00:10:22,790 --> 00:10:20,800
they getting the right information the

311
00:10:26,150 --> 00:10:22,800
right number of cases talked about

312
00:10:29,350 --> 00:10:26,160
um so i mean

313
00:10:31,990 --> 00:10:29,360

these 120 cases

314

00:10:33,110 --> 00:10:32,000

is it something are they getting the

315

00:10:35,110 --> 00:10:33,120

best cases

316

00:10:36,389 --> 00:10:35,120

are they are they getting given the

317

00:10:38,949 --> 00:10:36,399

right data

318

00:10:40,470 --> 00:10:38,959

or is it just something to to delay to

319

00:10:42,710 --> 00:10:40,480

delay this issue coming out

320

00:10:45,030 --> 00:10:42,720

well what can you say about that eco is

321

00:10:47,350 --> 00:10:45,040

probably more like 170 cases but i

322

00:10:48,870 --> 00:10:47,360

right okay um but they only started from

323

00:10:50,710 --> 00:10:48,880

the nimitz incident and moved forward

324

00:10:52,150 --> 00:10:50,720

they didn't really look at the the the

325

00:10:54,310 --> 00:10:52,160

complete history of of

326

00:10:55,590 --> 00:10:54,320

of the us involvement with this topic

327

00:10:58,069 --> 00:10:55,600

right um i think

328

00:11:00,790 --> 00:10:58,079

it was uh the effort was was an honest

329

00:11:03,110 --> 00:11:00,800

attempt to try to begin the conversation

330

00:11:05,269 --> 00:11:03,120

uh what we do know is that the the

331

00:11:07,030 --> 00:11:05,279

information provided by the director of

332

00:11:07,910 --> 00:11:07,040

national intelligence and the secretary

333

00:11:09,350 --> 00:11:07,920

of defense

334

00:11:10,630 --> 00:11:09,360

have now stated for the record and

335

00:11:11,750 --> 00:11:10,640

emphatically that this is not our

336

00:11:13,750 --> 00:11:11,760

technology

337

00:11:15,750 --> 00:11:13,760

so that's that's that's a big deal right

338

00:11:17,750 --> 00:11:15,760

that's that's that that is that is a

339

00:11:18,870 --> 00:11:17,760

huge admission because that only leaves

340

00:11:20,310 --> 00:11:18,880

two possibilities

341

00:11:22,310 --> 00:11:20,320

it's either foreign adversarial

342

00:11:23,509 --> 00:11:22,320

technology or it's not

343

00:11:25,590 --> 00:11:23,519

meaning it's something else it's a

344

00:11:28,069 --> 00:11:25,600

completely different paradigm

345

00:11:29,269 --> 00:11:28,079

and so on one hand the government either

346

00:11:30,310 --> 00:11:29,279

has to admit this is the greatest

347

00:11:32,790 --> 00:11:30,320

intelligence failure

348

00:11:33,509 --> 00:11:32,800

that we have ever faced in our country

349

00:11:35,509 --> 00:11:33,519

eclipsing

350

00:11:37,910 --> 00:11:35,519

911 by an order of magnitude because

351
00:11:40,230 --> 00:11:37,920
somehow some country over 70 years

352
00:11:41,269 --> 00:11:40,240
has managed to technologically leapfrog

353
00:11:43,030 --> 00:11:41,279
ahead of us

354
00:11:44,310 --> 00:11:43,040
using this technology and we have no

355
00:11:46,230 --> 00:11:44,320
idea

356
00:11:47,990 --> 00:11:46,240
or that this is something else again

357
00:11:49,990 --> 00:11:48,000
that this is this is a much bigger

358
00:11:51,350 --> 00:11:50,000
question about about our species and

359
00:11:52,870 --> 00:11:51,360
humanity and that's that's where we're

360
00:11:54,550 --> 00:11:52,880
at that's that's that's where the

361
00:11:57,750 --> 00:11:54,560
conversation is right now

362
00:12:00,069 --> 00:11:57,760
um i do think that um i think that

363
00:12:01,990 --> 00:12:00,079

congress will will hopefully see this

364

00:12:04,310 --> 00:12:02,000

and realize that we have to get ahead of

365

00:12:06,230 --> 00:12:04,320

this we have to figure what's going on

366

00:12:08,629 --> 00:12:06,240

i i i think congress will have the

367

00:12:10,230 --> 00:12:08,639

wisdom to to establish a more long-term

368

00:12:11,829 --> 00:12:10,240

enduring capability that's not just

369

00:12:13,910 --> 00:12:11,839

going to be a task force

370

00:12:15,110 --> 00:12:13,920

which is usually set up to solve a

371

00:12:16,949 --> 00:12:15,120

temporary problem

372

00:12:18,069 --> 00:12:16,959

yeah and is something that's going to

373

00:12:19,829 --> 00:12:18,079

hopefully include the whole of

374

00:12:21,110 --> 00:12:19,839

government approach including faa and

375

00:12:23,110 --> 00:12:21,120

department of homeland security and

376

00:12:24,470 --> 00:12:23,120

department of energy and noaa and

377

00:12:25,910 --> 00:12:24,480

you know perhaps national science

378

00:12:27,110 --> 00:12:25,920

foundation get the best and brightest

379

00:12:30,470 --> 00:12:27,120

academics and and

380

00:12:32,470 --> 00:12:30,480

and and scientists academics

381

00:12:34,150 --> 00:12:32,480

uh all involved uh that's what we need

382

00:12:35,590 --> 00:12:34,160

absolutely yeah and i think

383

00:12:37,269 --> 00:12:35,600

i think we're good but you know if i

384

00:12:38,389 --> 00:12:37,279

made vinnie i'd like to share something

385

00:12:40,230 --> 00:12:38,399

with you i haven't

386

00:12:41,430 --> 00:12:40,240

please i haven't really discussed this

387

00:12:44,629 --> 00:12:41,440

with anybody um

388

00:12:45,990 --> 00:12:44,639

but here here is probably the biggest

389

00:12:49,269 --> 00:12:46,000

challenge we have right now

390

00:12:50,870 --> 00:12:49,279

is not necessarily uh

391

00:12:52,550 --> 00:12:50,880

figuring out what's what's up there in

392

00:12:53,829 --> 00:12:52,560

our skies

393

00:12:56,230 --> 00:12:53,839

i think the biggest challenge we have

394

00:12:59,269 --> 00:12:56,240

right now is with ourselves and that is

395

00:13:00,949 --> 00:12:59,279

what does disclosure mean and people you

396

00:13:02,550 --> 00:13:00,959

know everybody you ask is going to have

397

00:13:05,430 --> 00:13:02,560

a different definition but

398

00:13:06,230 --> 00:13:05,440

but specifically first of all what is

399

00:13:09,030 --> 00:13:06,240

disclosure

400

00:13:09,990 --> 00:13:09,040

who who's going to determine when we've

401
00:13:12,150 --> 00:13:10,000
reached disclosure

402
00:13:15,030 --> 00:13:12,160
right that okay now we have disclosure i

403
00:13:18,829 --> 00:13:15,040
mean and then also who decides

404
00:13:22,470 --> 00:13:18,839
uh you know where we go from here

405
00:13:23,509 --> 00:13:22,480
ultimately um it may be by consensus i

406
00:13:25,910 --> 00:13:23,519
don't know but but

407
00:13:26,629 --> 00:13:25,920
who is going to be the one to say we are

408
00:13:30,230 --> 00:13:26,639
now

409
00:13:30,550 --> 00:13:30,240
disclosure because some would argue

410
00:13:32,389 --> 00:13:30,560
we've

411
00:13:33,829 --> 00:13:32,399
just had it it's just it's already

412
00:13:35,190 --> 00:13:33,839
happened it was and

413
00:13:36,710 --> 00:13:35,200

some have said well we haven't had it

414

00:13:39,030 --> 00:13:36,720

yet unless you know we have something

415

00:13:41,910 --> 00:13:39,040

landing in the the white house lawn

416

00:13:43,590 --> 00:13:41,920

uh you know we we first need to decide

417

00:13:44,230 --> 00:13:43,600

that as a people what does disclosure

418

00:13:46,069 --> 00:13:44,240

mean and

419

00:13:48,550 --> 00:13:46,079

and and how do we know when once we get

420

00:13:49,189 --> 00:13:48,560

there right and then we need to make

421

00:13:52,629 --> 00:13:49,199

sure

422

00:13:53,590 --> 00:13:52,639

that whoever we empower uh to make the

423

00:13:55,829 --> 00:13:53,600

recommendations

424

00:13:56,629 --> 00:13:55,839

and determination on on where do we go

425

00:14:00,310 --> 00:13:56,639

from here

426

00:14:02,389 --> 00:14:00,320

um i i'm always very careful to allow

427

00:14:04,230 --> 00:14:02,399

uh people in our governmental

428

00:14:05,269 --> 00:14:04,240

institutions to make that decision on

429

00:14:08,230 --> 00:14:05,279

our behalf

430

00:14:08,949 --> 00:14:08,240

uh unless they have you know if you will

431

00:14:14,949 --> 00:14:08,959

the

432

00:14:15,269 --> 00:14:14,959

i i think i trust an elected official uh

433

00:14:18,949 --> 00:14:15,279

to

434

00:14:21,590 --> 00:14:18,959

more than

435

00:14:23,350 --> 00:14:21,600

uh a government bureaucrat only because

436

00:14:24,629 --> 00:14:23,360

in theory they they represent the will

437

00:14:26,230 --> 00:14:24,639

of their constituents

438

00:14:27,829 --> 00:14:26,240

yeah one would hope that that's you know

439

00:14:30,470 --> 00:14:27,839

what what they're doing

440

00:14:31,350 --> 00:14:30,480

um but these are questions we have to

441

00:14:33,350 --> 00:14:31,360

ask ourselves

442

00:14:34,389 --> 00:14:33,360

and and then maybe the big question is

443

00:14:36,389 --> 00:14:34,399

do we decide

444

00:14:37,350 --> 00:14:36,399

as a society that you know we're not

445

00:14:38,710 --> 00:14:37,360

going to let anybody make that

446

00:14:39,670 --> 00:14:38,720

determination for us we're going to make

447

00:14:41,350 --> 00:14:39,680

that determination

448

00:14:43,030 --> 00:14:41,360

right we're going to decide when we've

449

00:14:44,150 --> 00:14:43,040

reached disclosure and we're going gonna

450

00:14:46,389 --> 00:14:44,160

make the determination

451
00:14:48,470 --> 00:14:46,399
and where we go from here uh and then

452
00:14:49,430 --> 00:14:48,480
government will execute that as as will

453
00:14:51,670 --> 00:14:49,440
of the people

454
00:14:52,550 --> 00:14:51,680
not the other way around yeah and i

455
00:14:55,030 --> 00:14:52,560
think that's

456
00:14:56,629 --> 00:14:55,040
you know we we need to know internally

457
00:14:58,069 --> 00:14:56,639
and externally what does victory look

458
00:15:00,870 --> 00:14:58,079
like how do you know you've

459
00:15:01,670 --> 00:15:00,880
you you've you've reached the next goal

460
00:15:04,230 --> 00:15:01,680
post

461
00:15:05,430 --> 00:15:04,240
if you will and the next waypoint um

462
00:15:06,949 --> 00:15:05,440
because it's important when you're

463
00:15:07,910 --> 00:15:06,959

navigating on a map

464

00:15:09,350 --> 00:15:07,920

you know if you want to know where

465

00:15:10,710 --> 00:15:09,360

you're going you have to first of all

466

00:15:12,150 --> 00:15:10,720

know where you've been to know where you

467

00:15:13,829 --> 00:15:12,160

even are right now and then once you

468

00:15:15,269 --> 00:15:13,839

know where you are then you can design

469

00:15:17,269 --> 00:15:15,279

right because otherwise you can find

470

00:15:18,310 --> 00:15:17,279

yourself way off course yeah and this is

471

00:15:20,230 --> 00:15:18,320

a conversation we

472

00:15:21,670 --> 00:15:20,240

we haven't had yet with ourselves and

473

00:15:23,030 --> 00:15:21,680

it's something that we we desperately

474

00:15:23,910 --> 00:15:23,040

need to do and we need to do it soon

475

00:15:26,230 --> 00:15:23,920

like now

476

00:15:27,750 --> 00:15:26,240

yeah uh if you were to ask me no

477

00:15:29,350 --> 00:15:27,760

absolutely and it's like something that

478

00:15:30,790 --> 00:15:29,360

you've said before about disclosure

479

00:15:32,790 --> 00:15:30,800

being a process

480

00:15:34,389 --> 00:15:32,800

um and i feel that we we have just

481

00:15:36,150 --> 00:15:34,399

started the journey

482

00:15:37,509 --> 00:15:36,160

and we may not know where the journey is

483

00:15:38,949 --> 00:15:37,519

going to end or how long it's going to

484

00:15:39,990 --> 00:15:38,959

take to get there but i think it's a

485

00:15:42,550 --> 00:15:40,000

positive thing that we

486

00:15:44,230 --> 00:15:42,560

have started the journey and we it looks

487

00:15:45,030 --> 00:15:44,240

like we have started it together and we

488

00:15:47,189 --> 00:15:45,040

are all in it

489

00:15:48,310 --> 00:15:47,199

as one and i think it's a big step it's

490

00:15:50,790 --> 00:15:48,320

something that's not

491

00:15:51,350 --> 00:15:50,800

we wanted to happen from a long time ago

492

00:15:55,430 --> 00:15:51,360

so

493

00:15:56,230 --> 00:15:55,440

but by the way vinnie before i forget if

494

00:15:58,310 --> 00:15:56,240

i may hear

495

00:15:59,430 --> 00:15:58,320

um i do want to do one quick shout out

496

00:16:02,069 --> 00:15:59,440

to to somebody

497

00:16:03,350 --> 00:16:02,079

um there was uh i received a tweet from

498

00:16:04,710 --> 00:16:03,360

somebody i won't say who because he

499

00:16:07,269 --> 00:16:04,720

wanted anonymity

500

00:16:08,069 --> 00:16:07,279

but apparently their daughter is uh has

501
00:16:10,550 --> 00:16:08,079
just joined

502
00:16:11,269 --> 00:16:10,560
the british intelligence community oh

503
00:16:14,230 --> 00:16:11,279
wow and

504
00:16:15,749 --> 00:16:14,240
uh is uh fairly excited about it and i

505
00:16:18,949 --> 00:16:15,759
just wanted to offer a a

506
00:16:21,030 --> 00:16:18,959
a very warm heartfelt congratulations

507
00:16:21,990 --> 00:16:21,040
uh it is a profound honor when you are

508
00:16:24,230 --> 00:16:22,000
selected to

509
00:16:25,269 --> 00:16:24,240
to serve your country uh in that type of

510
00:16:26,870 --> 00:16:25,279
capacity

511
00:16:28,310 --> 00:16:26,880
and i just wanted to do a very quick

512
00:16:30,230 --> 00:16:28,320
shout out uh

513
00:16:31,990 --> 00:16:30,240

if if she happens to be listening to

514

00:16:34,230 --> 00:16:32,000

this podcast i just want to say

515

00:16:37,110 --> 00:16:34,240

congratulations very well done

516

00:16:38,790 --> 00:16:37,120

and you know who knows maybe we'll we'll

517

00:16:40,790 --> 00:16:38,800

meet up sometime in the field

518

00:16:41,990 --> 00:16:40,800

you never know and actually i i did see

519

00:16:43,910 --> 00:16:42,000

that tweet so uh

520

00:16:47,030 --> 00:16:43,920

no that's great yeah so if you're

521

00:16:48,389 --> 00:16:47,040

watching there you go

522

00:16:49,910 --> 00:16:48,399

so lou just carrying on from what we

523

00:16:51,590 --> 00:16:49,920

were just saying about the briefing that

524

00:16:53,829 --> 00:16:51,600

was just just happened last week

525

00:16:55,670 --> 00:16:53,839

and we did hear a few statements from

526

00:16:57,829 --> 00:16:55,680

some of the representatives afterwards

527

00:16:59,269 --> 00:16:57,839

but the one that really stood out was i

528

00:17:02,069 --> 00:16:59,279

think it was peter welch who sort of

529

00:17:04,789 --> 00:17:02,079

said i'm not on the edge of my seat

530

00:17:05,590 --> 00:17:04,799

now that doesn't say a lot for us the

531

00:17:08,470 --> 00:17:05,600

public

532

00:17:10,309 --> 00:17:08,480

who are sat here you know desperate to

533

00:17:11,029 --> 00:17:10,319

get information on what might be coming

534

00:17:13,829 --> 00:17:11,039

through

535

00:17:15,350 --> 00:17:13,839

this june 25th report i mean what do you

536

00:17:16,949 --> 00:17:15,360

think about that statement that it's

537

00:17:18,549 --> 00:17:16,959

kind of downplaying it a little bit

538

00:17:19,829 --> 00:17:18,559

well i think no i think it's honest i

539

00:17:21,350 --> 00:17:19,839

think what he's saying is look we don't

540

00:17:22,789 --> 00:17:21,360

have enough information right now to

541

00:17:24,150 --> 00:17:22,799

establish what this is i'm not on the

542

00:17:26,630 --> 00:17:24,160

edge of my seat because

543

00:17:28,470 --> 00:17:26,640

i don't have enough information to to to

544

00:17:30,950 --> 00:17:28,480

to provide any type of of

545

00:17:32,549 --> 00:17:30,960

of recommended outcome of what this is

546

00:17:33,590 --> 00:17:32,559

it's we have more questions than answers

547

00:17:35,990 --> 00:17:33,600

at this point

548

00:17:37,669 --> 00:17:36,000

um you know someone else had indicated

549

00:17:38,390 --> 00:17:37,679

that they think we should have at some

550

00:17:40,789 --> 00:17:38,400

point

551
00:17:42,549 --> 00:17:40,799
congressional hearings on this and uh i

552
00:17:43,830 --> 00:17:42,559
think that's absolutely what we need hey

553
00:17:45,110 --> 00:17:43,840
man let's let's you want to be

554
00:17:47,430 --> 00:17:45,120
transparent put your money where your

555
00:17:49,909 --> 00:17:47,440
mouth is let's do this you know

556
00:17:51,350 --> 00:17:49,919
uh i'm i'm certainly game for that you

557
00:17:52,789 --> 00:17:51,360
know if you if the government gives me

558
00:17:54,549 --> 00:17:52,799
an ability to have a conversation about

559
00:17:55,909 --> 00:17:54,559
things i've been privy to

560
00:17:58,630 --> 00:17:55,919
hey you know and i don't got to worry

561
00:18:00,950 --> 00:17:58,640
about violating my nda

562
00:18:02,150 --> 00:18:00,960
i'll do it now let's go weight off your

563
00:18:05,029 --> 00:18:02,160

shoulders maybe

564

00:18:06,470 --> 00:18:05,039

yeah that's great yeah let's just talk

565

00:18:07,830 --> 00:18:06,480

about something that i've been seeing a

566

00:18:09,830 --> 00:18:07,840

lot recently through my

567

00:18:11,110 --> 00:18:09,840

my instagram account and stuff like that

568

00:18:13,990 --> 00:18:11,120

is this where do you

569

00:18:15,830 --> 00:18:14,000

the use of the word threat every single

570

00:18:17,270 --> 00:18:15,840

day people assume that when as soon as

571

00:18:18,390 --> 00:18:17,280

that word's mentioned that we're talking

572

00:18:21,110 --> 00:18:18,400

about

573

00:18:21,750 --> 00:18:21,120

um these whatever they are beings

574

00:18:24,549 --> 00:18:21,760

objects

575

00:18:26,310 --> 00:18:24,559

that they're here with hostile intents

576

00:18:28,310 --> 00:18:26,320

um it seems like people are jumping from

577

00:18:29,669 --> 00:18:28,320

zero to 100 without actually thinking

578

00:18:30,310 --> 00:18:29,679

about everything in between right we're

579

00:18:33,110 --> 00:18:30,320

not saying

580

00:18:35,029 --> 00:18:33,120

threat in a hostile way could you just

581

00:18:35,669 --> 00:18:35,039

talk about that and talk on that and how

582

00:18:38,470 --> 00:18:35,679

we need to

583

00:18:39,350 --> 00:18:38,480

be careful yeah that's a great point

584

00:18:40,870 --> 00:18:39,360

great point you know

585

00:18:42,230 --> 00:18:40,880

we we're looking at this to determine

586

00:18:43,190 --> 00:18:42,240

whether or not this is a potential

587

00:18:46,789 --> 00:18:43,200

threat

588

00:18:47,830 --> 00:18:46,799

588 speak there's really it's a very simple

589

00:18:50,150 --> 00:18:47,840

calculus you have

590

00:18:51,909 --> 00:18:50,160

capabilities versus intent now we've

591

00:18:53,430 --> 00:18:51,919

seen some of the capabilities

592

00:18:55,110 --> 00:18:53,440

we have no idea the intent so we don't

593

00:18:56,470 --> 00:18:55,120

know if this is a threat okay and second

594

00:18:57,190 --> 00:18:56,480

of all there is a fundamental difference

595

00:18:59,750 --> 00:18:57,200

between

596

00:19:01,669 --> 00:18:59,760

a potential threat and hostile intent

597

00:19:02,710 --> 00:19:01,679

and that's a fact so i've often said if

598

00:19:04,789 --> 00:19:02,720

i go to the airport

599

00:19:05,830 --> 00:19:04,799

and i jump on a 737 to fly to let's say

600

00:19:07,510 --> 00:19:05,840

colorado

601
00:19:09,110 --> 00:19:07,520
there's no threat there but if i were to

602
00:19:10,549 --> 00:19:09,120
let's say now be on the runway when one

603
00:19:12,390 --> 00:19:10,559
of these things is passing by and i

604
00:19:14,549 --> 00:19:12,400
happen to get behind the jet engine

605
00:19:15,909 --> 00:19:14,559
at the wrong time you know there's a

606
00:19:16,230 --> 00:19:15,919
process there's a biological threat

607
00:19:18,950 --> 00:19:16,240
there

608
00:19:20,150 --> 00:19:18,960
i'm gonna probably go deaf and lose my

609
00:19:21,510 --> 00:19:20,160
hearing i'm probably gonna get burned

610
00:19:23,669 --> 00:19:21,520
and blown all over the place

611
00:19:24,710 --> 00:19:23,679
maybe break a few bones so you know it's

612
00:19:27,029 --> 00:19:24,720
not that the engine is

613
00:19:28,549 --> 00:19:27,039

necessarily trying to be a threat to me

614

00:19:29,750 --> 00:19:28,559

it's not an intentional threat

615

00:19:31,590 --> 00:19:29,760

it's just a consequence of the

616

00:19:32,710 --> 00:19:31,600

technology that i i wound up

617

00:19:35,190 --> 00:19:32,720

being at the wrong place at the wrong

618

00:19:38,230 --> 00:19:35,200

time so that's one thing about threat

619

00:19:39,510 --> 00:19:38,240

um the other thing is hostile intent you

620

00:19:41,110 --> 00:19:39,520

know they're they're

621

00:19:42,390 --> 00:19:41,120

we're not fear-mongering here we're

622

00:19:43,909 --> 00:19:42,400

first of all we're not even sure if it

623

00:19:44,549 --> 00:19:43,919

is a threat we're trying to determine is

624

00:19:45,990 --> 00:19:44,559

it or not

625

00:19:47,350 --> 00:19:46,000

and anybody who says well we already

626

00:19:49,029 --> 00:19:47,360

know you know and you should be wasting

627

00:19:50,710 --> 00:19:49,039

your time on that no you don't know

628

00:19:52,870 --> 00:19:50,720

okay you think you know and you want to

629

00:19:54,470 --> 00:19:52,880

sit here and tell people that

630

00:19:56,310 --> 00:19:54,480

in your mind that this is a threat but

631

00:19:56,710 --> 00:19:56,320

you know what you can't gamble with my

632

00:19:57,830 --> 00:19:56,720

life

633

00:19:59,190 --> 00:19:57,840

i'm not going to allow you you don't

634

00:20:00,870 --> 00:19:59,200

have the right to do that if you want to

635

00:20:02,549 --> 00:20:00,880

go ahead and gamble with your life

636

00:20:04,149 --> 00:20:02,559

then god bless you go ahead and do it

637

00:20:05,590 --> 00:20:04,159

but don't gamble with mine don't gamble

638

00:20:06,070 --> 00:20:05,600

with my families don't gamble with my

639

00:20:08,230 --> 00:20:06,080

friends

640

00:20:09,590 --> 00:20:08,240

let them make a determination whether or

641

00:20:10,549 --> 00:20:09,600

not they think something like this could

642

00:20:12,149 --> 00:20:10,559

be a threat to them

643

00:20:13,190 --> 00:20:12,159

and and a threat could be anything it

644

00:20:14,710 --> 00:20:13,200

could be threat to your to your

645

00:20:16,310 --> 00:20:14,720

philosophical belief systems

646

00:20:18,470 --> 00:20:16,320

it can be an environmental threat it can

647

00:20:20,950 --> 00:20:18,480

be all sorts of different threats

648

00:20:22,630 --> 00:20:20,960

you know we need to figure it out is

649

00:20:24,470 --> 00:20:22,640

there a potential threat here

650

00:20:26,070 --> 00:20:24,480

which not doesn't even come close to yet

651

00:20:27,909 --> 00:20:26,080

talking about hostile intent

652

00:20:29,510 --> 00:20:27,919

of course and i think people will will

653

00:20:30,870 --> 00:20:29,520

say all the time well you know

654

00:20:32,149 --> 00:20:30,880

we want to make sure this is not

655

00:20:33,430 --> 00:20:32,159

fear-mongering we're going to use this

656

00:20:33,990 --> 00:20:33,440

to go ahead and build you know more

657

00:20:36,470 --> 00:20:34,000

space-based

658

00:20:37,270 --> 00:20:36,480

weapons that's that's utter nonsense

659

00:20:38,710 --> 00:20:37,280

we're not there

660

00:20:40,789 --> 00:20:38,720

we're we're not even there in a

661

00:20:41,990 --> 00:20:40,799

conversation yeah we're just finally

662

00:20:42,870 --> 00:20:42,000

trying to determine what the hell this

663

00:20:45,510 --> 00:20:42,880

thing is

664

00:20:47,029 --> 00:20:45,520

so you know that that's that's part of

665

00:20:48,710 --> 00:20:47,039

my frustration i deal with on a daily

666

00:20:50,950 --> 00:20:48,720

basis so you automatically see that

667

00:20:52,310 --> 00:20:50,960

right you see us army or the

668

00:20:53,590 --> 00:20:52,320

intelligence officer

669

00:20:55,350 --> 00:20:53,600

and these are people that when you look

670

00:20:57,430 --> 00:20:55,360

at their social media profile

671

00:20:58,870 --> 00:20:57,440

you know they they support all these the

672

00:21:01,830 --> 00:20:58,880

these human rights

673

00:21:03,510 --> 00:21:01,840

and and and whatnot and non-stereotypes

674

00:21:04,230 --> 00:21:03,520

and the first one to come out and say oh

675

00:21:06,070 --> 00:21:04,240

look he's a

676
00:21:07,430 --> 00:21:06,080
a military guy you can never count you

677
00:21:11,430 --> 00:21:07,440
can never trust them

678
00:21:11,909 --> 00:21:11,440
what that's crazy do you do you do you

679
00:21:13,669 --> 00:21:11,919
not

680
00:21:15,510 --> 00:21:13,679
see the contradiction in that

681
00:21:17,350 --> 00:21:15,520
perspective you know

682
00:21:18,870 --> 00:21:17,360
al i first of all never said is a threat

683
00:21:19,590 --> 00:21:18,880
i said we're trying to determine if it's

684
00:21:22,230 --> 00:21:19,600
a threat

685
00:21:23,590 --> 00:21:22,240
you've got nothing to worry about who

686
00:21:24,870 --> 00:21:23,600
cares why what do you what do you care

687
00:21:26,470 --> 00:21:24,880
what i what i'm doing with

688
00:21:28,230 --> 00:21:26,480

to determine for me if it's a threat or

689

00:21:29,510 --> 00:21:28,240

not you know if you've already made that

690

00:21:30,870 --> 00:21:29,520

mental

691

00:21:32,630 --> 00:21:30,880

conclusion that it's not then you know

692

00:21:34,310 --> 00:21:32,640

god bless you but don't stop me from

693

00:21:35,190 --> 00:21:34,320

doing what i need to do my own personal

694

00:21:37,350 --> 00:21:35,200

calculus

695

00:21:39,029 --> 00:21:37,360

for me to make that determination myself

696

00:21:40,950 --> 00:21:39,039

absolutely

697

00:21:42,549 --> 00:21:40,960

yeah i mean that's what i say to people

698

00:21:44,310 --> 00:21:42,559

if something's incurring in our

699

00:21:46,070 --> 00:21:44,320

sensitive airspace over nuclear

700

00:21:48,070 --> 00:21:46,080

facilities and military

701
00:21:49,190 --> 00:21:48,080
sensitive areas then i mean it doesn't

702
00:21:51,029 --> 00:21:49,200
just fall straight away

703
00:21:53,029 --> 00:21:51,039
under a national security threat until

704
00:21:53,510 --> 00:21:53,039
proven otherwise look our governments

705
00:21:54,549 --> 00:21:53,520
spend

706
00:21:56,390 --> 00:21:54,559
millions and millions and millions of

707
00:21:58,070 --> 00:21:56,400
dollars just ours all of ours on

708
00:21:59,990 --> 00:21:58,080
protecting its national borders and its

709
00:22:01,750 --> 00:22:00,000
sovereignty that is the job of the

710
00:22:03,430 --> 00:22:01,760
national security apparatus

711
00:22:05,270 --> 00:22:03,440
that is what your taxpayer dollars pay

712
00:22:06,789 --> 00:22:05,280
for if you don't think it's important

713
00:22:08,230 --> 00:22:06,799

then tell your congress people it's not

714

00:22:08,710 --> 00:22:08,240

important don't pay your tax money for

715

00:22:10,470 --> 00:22:08,720

that

716

00:22:11,669 --> 00:22:10,480

and you know we don't have a we won't

717

00:22:12,549 --> 00:22:11,679

have a military national security

718

00:22:14,230 --> 00:22:12,559

apparatus

719

00:22:15,590 --> 00:22:14,240

okay fine but as long as we have a

720

00:22:17,669 --> 00:22:15,600

national security apparatus

721

00:22:18,950 --> 00:22:17,679

that's his job don't get mad at the

722

00:22:21,270 --> 00:22:18,960

government for doing the job it's

723

00:22:23,110 --> 00:22:21,280

supposed to do

724

00:22:25,029 --> 00:22:23,120

brilliant thank you so much right let's

725

00:22:26,390 --> 00:22:25,039

move on to something i really don't i

726

00:22:27,110 --> 00:22:26,400

don't think i've heard you talk about

727

00:22:28,710 --> 00:22:27,120

really

728

00:22:31,029 --> 00:22:28,720

so you recently appeared on an episode

729

00:22:32,630 --> 00:22:31,039

of expedition unknown

730

00:22:34,630 --> 00:22:32,640

expedition x i believe it was called

731

00:22:35,430 --> 00:22:34,640

sorry which focused on catalina island

732

00:22:38,070 --> 00:22:35,440

and the uap

733

00:22:39,510 --> 00:22:38,080

sightings relating to the ocean and at

734

00:22:41,350 --> 00:22:39,520

one point during the show you took a

735

00:22:42,870 --> 00:22:41,360

water sample from an area just off the

736

00:22:45,190 --> 00:22:42,880

coast of the island

737

00:22:46,549 --> 00:22:45,200

where there'd been some strong magnetic

738

00:22:48,390 --> 00:22:46,559

readings

739

00:22:50,870 --> 00:22:48,400

and i think the water sample turned out

740

00:22:52,149 --> 00:22:50,880

that it had higher than normal cesium

741

00:22:54,230 --> 00:22:52,159

isotope levels

742

00:22:56,390 --> 00:22:54,240

and can you confirm this and maybe

743

00:22:58,070 --> 00:22:56,400

extrapolate on any significance to those

744

00:22:59,590 --> 00:22:58,080

findings

745

00:23:01,190 --> 00:22:59,600

well you know we it was my

746

00:23:02,149 --> 00:23:01,200

recommendation to do to do the water

747

00:23:07,110 --> 00:23:02,159

sampling test

748

00:23:10,149 --> 00:23:07,120

um obviously if if uaps or ufos are also

749

00:23:11,350 --> 00:23:10,159

usos or related to usos uh

750

00:23:13,430 --> 00:23:11,360

you know one of the things you want to

751

00:23:15,750 --> 00:23:13,440

do is determine the the effects on the

752

00:23:17,110 --> 00:23:15,760

its environment and biology right so the

753

00:23:18,149 --> 00:23:17,120

one of the easiest ways and cheapest

754

00:23:20,149 --> 00:23:18,159

ways to do that is

755

00:23:21,350 --> 00:23:20,159

just take a water test right now let's

756

00:23:23,190 --> 00:23:21,360

let's let's

757

00:23:25,029 --> 00:23:23,200

not forget here that you've got a lot of

758

00:23:26,310 --> 00:23:25,039

flow rate you got a lot of water coming

759

00:23:27,590 --> 00:23:26,320

up and down the coast

760

00:23:29,990 --> 00:23:27,600

you know the water that you're sampling

761

00:23:32,630 --> 00:23:30,000

now may have been you know

762

00:23:34,390 --> 00:23:32,640

100 miles away out into the deep ocean

763

00:23:35,909 --> 00:23:34,400

just 24 hours earlier so

764

00:23:38,149 --> 00:23:35,919

you got to be careful but if there is a

765

00:23:41,990 --> 00:23:38,159

persistent source

766

00:23:45,110 --> 00:23:42,000

that is is let's say uh

767

00:23:47,830 --> 00:23:45,120

contaminating the the local waters you

768

00:23:49,510 --> 00:23:47,840

should be able to test for that now

769

00:23:51,430 --> 00:23:49,520

the fact that you have more cesium is

770

00:23:53,029 --> 00:23:51,440

interesting but there are things that

771

00:23:56,789 --> 00:23:53,039

mankind does

772

00:23:59,669 --> 00:23:56,799

that that will create that cesium

773

00:24:00,549 --> 00:23:59,679

especially chemical type waste and and

774

00:24:02,630 --> 00:24:00,559

it turns out

775

00:24:03,990 --> 00:24:02,640

that there are some of these there was a

776

00:24:07,029 --> 00:24:04,000

recent article done

777

00:24:08,630 --> 00:24:07,039

that uh over the course of 70 plus years

778

00:24:11,430 --> 00:24:08,640

there's been a lot of

779

00:24:12,549 --> 00:24:11,440

contamination in that water because

780

00:24:15,590 --> 00:24:12,559

there's been a lot of

781

00:24:17,430 --> 00:24:15,600

of waste and it's not just chemical

782

00:24:20,870 --> 00:24:17,440

waste but could even potentially be

783

00:24:21,990 --> 00:24:20,880

radioactive waste could that be answered

784

00:24:23,029 --> 00:24:22,000

could that be the reason why there's

785

00:24:24,390 --> 00:24:23,039

more cesium

786

00:24:26,390 --> 00:24:24,400

we don't know but i will tell you that

787

00:24:27,750 --> 00:24:26,400

we do have some samples very interesting

788

00:24:29,350 --> 00:24:27,760

and by the way

789

00:24:31,029 --> 00:24:29,360

expedition x didn't know this i did not

790

00:24:32,870 --> 00:24:31,039

share this information with them so

791

00:24:35,350 --> 00:24:32,880

i wanted to see for myself and i didn't

792

00:24:38,549 --> 00:24:35,360

want to i didn't want to do anything to

793

00:24:39,190 --> 00:24:38,559

artificially prejudice the the analysis

794

00:24:42,870 --> 00:24:39,200

here

795

00:24:45,909 --> 00:24:42,880

sure but we do have some samples uh

796

00:24:47,190 --> 00:24:45,919

allegedly of some pretty exotic material

797

00:24:49,269 --> 00:24:47,200

that has

798

00:24:51,510 --> 00:24:49,279

interesting high levels of cesium with

799

00:24:54,549 --> 00:24:51,520

some interesting isotopic ratios

800

00:24:55,510 --> 00:24:54,559

so uh that that that is true and so the

801
00:24:58,630 --> 00:24:55,520
question is

802
00:25:00,789 --> 00:24:58,640
uh is this potentially related or

803
00:25:02,470 --> 00:25:00,799
is it not is it just you know hey you

804
00:25:03,430 --> 00:25:02,480
know we got a lot of lot of industrial

805
00:25:05,669 --> 00:25:03,440
waste off the coast of

806
00:25:07,029 --> 00:25:05,679
los angeles and you know that's that's

807
00:25:09,590 --> 00:25:07,039
the consequence of that you know

808
00:25:10,310 --> 00:25:09,600
so we don't know it it's certainly uh

809
00:25:12,470 --> 00:25:10,320
intriguing

810
00:25:14,630 --> 00:25:12,480
uh but we don't have enough data yet to

811
00:25:16,630 --> 00:25:14,640
to have any any real conclusion

812
00:25:18,310 --> 00:25:16,640
but is that still an area of focus that

813
00:25:20,870 --> 00:25:18,320

is ongoing like you say that

814

00:25:22,950 --> 00:25:20,880

it could have some really valuable sure

815

00:25:24,950 --> 00:25:22,960

all the way down the guadalupe island

816

00:25:26,710 --> 00:25:24,960

right so there's there definitely if you

817

00:25:27,990 --> 00:25:26,720

talk not just military personnel where

818

00:25:29,269 --> 00:25:28,000

you talk to the local fishermen

819

00:25:31,350 --> 00:25:29,279

who are their own right trained

820

00:25:32,470 --> 00:25:31,360

observers they've been spent generations

821

00:25:33,830 --> 00:25:32,480

on those waters

822

00:25:34,950 --> 00:25:33,840

they know what's natural and what's not

823

00:25:36,310 --> 00:25:34,960

natural they've seen it all from

824

00:25:37,830 --> 00:25:36,320

bioluminescence to

825

00:25:39,350 --> 00:25:37,840

you know one phenomenon and ball

826

00:25:41,350 --> 00:25:39,360

lightning um

827

00:25:43,350 --> 00:25:41,360

and you know what they're reporting is

828

00:25:44,950 --> 00:25:43,360

is is very very similar to what the

829

00:25:47,669 --> 00:25:44,960

military eyewitnesses are reporting

830

00:25:48,310 --> 00:25:47,679

there's something there um it is it is

831

00:25:50,390 --> 00:25:48,320

one of the

832

00:25:52,070 --> 00:25:50,400

the hot spots now the question is it a

833

00:25:53,830 --> 00:25:52,080

hot spot because there's actually more

834

00:25:57,110 --> 00:25:53,840

activity or is it a hot spot because

835

00:25:59,830 --> 00:25:57,120

we happen to have more eyes if you will

836

00:26:01,669 --> 00:25:59,840

in the area uh both on on the water and

837

00:26:03,830 --> 00:26:01,679

and looking in the skies we have

838

00:26:04,789 --> 00:26:03,840

uh military maneuvers going on and

839

00:26:06,470 --> 00:26:04,799

exercises we have

840

00:26:08,710 --> 00:26:06,480

you know sophisticated radar data and

841

00:26:10,950 --> 00:26:08,720

equipment going on you've got two huge

842

00:26:12,789 --> 00:26:10,960

metropolitan areas between san diego and

843

00:26:15,110 --> 00:26:12,799

tijuana and also of course

844

00:26:16,390 --> 00:26:15,120

los angeles all you know very very

845

00:26:19,750 --> 00:26:16,400

centrally focused

846

00:26:21,909 --> 00:26:19,760

um we we don't know yet um but there

847

00:26:22,470 --> 00:26:21,919

does appear to be a a high prevalence of

848

00:26:25,590 --> 00:26:22,480

uap

849

00:26:27,110 --> 00:26:25,600

activity in in that area

850

00:26:28,950 --> 00:26:27,120

great thank you so much i found that

851

00:26:30,789 --> 00:26:28,960

really interesting um and just

852

00:26:32,310 --> 00:26:30,799

sticking with that that series then

853

00:26:34,070 --> 00:26:32,320

there was a video called from the cliff

854

00:26:34,870 --> 00:26:34,080

side i think it was in the first episode

855

00:26:36,789 --> 00:26:34,880

which

856

00:26:38,310 --> 00:26:36,799

have you seen that clip and it was

857

00:26:41,510 --> 00:26:38,320

caught from the cliffside

858

00:26:42,789 --> 00:26:41,520

um and it showed a uap performing pretty

859

00:26:44,230 --> 00:26:42,799

strange maneuvers

860

00:26:46,870 --> 00:26:44,240

i mean a lot of people say that it's

861

00:26:48,710 --> 00:26:46,880

just the tv show making it up for tvs

862

00:26:50,870 --> 00:26:48,720

purposes for entertainment

863

00:26:53,350 --> 00:26:50,880

can you clarify anything about that at

864

00:26:53,669 --> 00:26:53,360

all well i'll tell you my my impression

865

00:26:55,990 --> 00:26:53,679

and

866

00:26:57,669 --> 00:26:56,000

you know i i don't know the hosts very

867

00:27:00,470 --> 00:26:57,679

well but my impression that both

868

00:27:01,510 --> 00:27:00,480

uh josh gates and his programming and

869

00:27:03,750 --> 00:27:01,520

and his uh

870

00:27:05,110 --> 00:27:03,760

his hosts are always trying to portray

871

00:27:06,950 --> 00:27:05,120

an accurate picture i i

872

00:27:08,789 --> 00:27:06,960

when i was there i didn't notice them

873

00:27:10,149 --> 00:27:08,799

doctoring anything in fact one of them

874

00:27:12,470 --> 00:27:10,159

is a biologist

875

00:27:13,350 --> 00:27:12,480

yeah a scientist and he he's when you

876

00:27:15,669 --> 00:27:13,360

talk to him he

877

00:27:16,710 --> 00:27:15,679

he'll tell you hey look you know i i'm a

878

00:27:18,830 --> 00:27:16,720

scientist you know i

879

00:27:20,389 --> 00:27:18,840

i prefer in following the scientific

880

00:27:22,310 --> 00:27:20,399

method um i

881

00:27:24,070 --> 00:27:22,320

i don't think they they are prone to

882

00:27:26,630 --> 00:27:24,080

hoaxing anything that was not my

883

00:27:27,830 --> 00:27:26,640

impression they seemed very sincere in

884

00:27:30,389 --> 00:27:27,840

their approach

885

00:27:31,269 --> 00:27:30,399

um you know it's hard with a tv show

886

00:27:33,590 --> 00:27:31,279

because

887

00:27:34,310 --> 00:27:33,600

tv has to be not only factual but in

888

00:27:35,990 --> 00:27:34,320

order for

889

00:27:37,830 --> 00:27:36,000

tv to be successful it has to be

890

00:27:39,350 --> 00:27:37,840

entertaining of course and

891

00:27:40,710 --> 00:27:39,360

this has always been my frustration

892

00:27:42,310 --> 00:27:40,720

because i'm not an entertainer i'm not

893

00:27:43,510 --> 00:27:42,320

an actor you know which with me is what

894

00:27:45,669 --> 00:27:43,520

you see is what you get

895

00:27:46,870 --> 00:27:45,679

yeah i'm not particularly talented in

896

00:27:50,149 --> 00:27:46,880

anything uh

897

00:27:50,789 --> 00:27:50,159

you know so uh i've tell people before

898

00:27:53,990 --> 00:27:50,799

i'm about as

899

00:27:56,710 --> 00:27:54,000

about as attractive as a cement truck so

900

00:27:57,750 --> 00:27:56,720

uh i don't i don't make very good tv um

901
00:27:59,510 --> 00:27:57,760

so

902
00:28:01,510 --> 00:27:59,520

but i do understand that you know if

903
00:28:02,950 --> 00:28:01,520

we're ford for tv to be successful

904
00:28:04,149 --> 00:28:02,960

you have to have eyeballs on the set and

905
00:28:05,590 --> 00:28:04,159

that's how they get there you know

906
00:28:06,870 --> 00:28:05,600

whether they get subscription or they

907
00:28:08,789 --> 00:28:06,880

get through advertisement

908
00:28:10,389 --> 00:28:08,799

yeah so you have to have people tuning

909
00:28:12,389 --> 00:28:10,399

in uh each week

910
00:28:14,789 --> 00:28:12,399

and so there is a part of that element

911
00:28:17,830 --> 00:28:14,799

in in most tv shows

912
00:28:18,389 --> 00:28:17,840

where there is uh the way that they edit

913
00:28:20,710 --> 00:28:18,399

it

914

00:28:22,470 --> 00:28:20,720

ensures that the audience uh will come

915

00:28:24,549 --> 00:28:22,480

back and see more episodes

916

00:28:26,630 --> 00:28:24,559

but it's not disingenuous it's not it's

917

00:28:27,190 --> 00:28:26,640

not artificial drama they're not making

918

00:28:29,510 --> 00:28:27,200

something

919

00:28:31,110 --> 00:28:29,520

up what they're simply doing is they

920

00:28:32,630 --> 00:28:31,120

just don't tell you the reveal

921

00:28:33,990 --> 00:28:32,640

until the next episode and that's how

922

00:28:35,110 --> 00:28:34,000

they keep people coming back right

923

00:28:37,590 --> 00:28:35,120

absolutely

924

00:28:39,909 --> 00:28:37,600

it's it's it's a it's a it's a proven

925

00:28:41,590 --> 00:28:39,919

technique to to keep people interested

926

00:28:43,830 --> 00:28:41,600

uh and that's the same thing even with

927

00:28:45,669 --> 00:28:43,840

media today when you when you look at

928

00:28:45,909 --> 00:28:45,679

some of the major mainstream media you

929

00:28:47,510 --> 00:28:45,919

know

930

00:28:48,870 --> 00:28:47,520

they'll tell you this yeah sure when i

931

00:28:49,430 --> 00:28:48,880

was when i was a young intelligence

932

00:28:51,269 --> 00:28:49,440

officer

933

00:28:52,789 --> 00:28:51,279

i won't say which outlet but we had some

934

00:28:54,389 --> 00:28:52,799

people the media come in

935

00:28:55,830 --> 00:28:54,399

and he said to us hey look we want to

936

00:28:57,909 --> 00:28:55,840

let you guys know something

937

00:28:59,110 --> 00:28:57,919

we're a business i know we come across

938

00:29:00,710 --> 00:28:59,120

as fair and impartial and we're the

939

00:29:02,950 --> 00:29:00,720

media we're news

940

00:29:04,710 --> 00:29:02,960

but we are a business because we don't

941

00:29:06,310 --> 00:29:04,720

get paid we can't pay the salaries of

942

00:29:07,110 --> 00:29:06,320

our anchors and our camera operators and

943

00:29:09,590 --> 00:29:07,120

everything else

944

00:29:10,870 --> 00:29:09,600

unless we have advertisers and only only

945

00:29:11,669 --> 00:29:10,880

way we're going to get money for

946

00:29:14,710 --> 00:29:11,679

advertising

947

00:29:16,070 --> 00:29:14,720

is if people watch so you know we are a

948

00:29:17,430 --> 00:29:16,080

business make no mistake

949

00:29:19,430 --> 00:29:17,440

like any other business and we have to

950

00:29:22,470 --> 00:29:19,440

be financially successful and viable

951
00:29:23,430 --> 00:29:22,480
and that to me really was kind of that

952
00:29:26,630 --> 00:29:23,440
aha moment

953
00:29:28,389 --> 00:29:26,640
because i never really realized that uh

954
00:29:30,549 --> 00:29:28,399
as a young person i thought that you

955
00:29:31,190 --> 00:29:30,559
know there was this sense of duty to

956
00:29:33,269 --> 00:29:31,200
just

957
00:29:34,870 --> 00:29:33,279
report the news and you know whether you

958
00:29:36,549 --> 00:29:34,880
watched it or not it was always going to

959
00:29:39,990 --> 00:29:36,559
be you know this this fair and

960
00:29:41,110 --> 00:29:40,000
impartial uh broadcast and it turns out

961
00:29:42,710 --> 00:29:41,120
that's not the case

962
00:29:45,110 --> 00:29:42,720
uh you know they have to be they have to

963
00:29:47,830 --> 00:29:45,120

be honest they can't lie

964

00:29:49,590 --> 00:29:47,840

uh but you know it there's an art form

965

00:29:50,310 --> 00:29:49,600

to to telling the news that gets people

966

00:29:53,029 --> 00:29:50,320

to tune in

967

00:29:54,630 --> 00:29:53,039

you know day after day after day and i

968

00:29:56,389 --> 00:29:54,640

think it's important you know

969

00:29:58,310 --> 00:29:56,399

very much like this podcast here right

970

00:30:00,789 --> 00:29:58,320

you and me having this conversation

971

00:30:01,750 --> 00:30:00,799

we're not artificially you know making

972

00:30:03,510 --> 00:30:01,760

anything up

973

00:30:05,110 --> 00:30:03,520

you know this is this topic is dramatic

974

00:30:06,950 --> 00:30:05,120

enough as it is

975

00:30:08,630 --> 00:30:06,960

but you know there there's a certain in

976

00:30:09,750 --> 00:30:08,640

order to be viable you need people to

977

00:30:11,190 --> 00:30:09,760

tune in and so

978

00:30:12,710 --> 00:30:11,200

how do you get people to tune in while

979

00:30:14,549 --> 00:30:12,720

you put people up that have an

980

00:30:15,830 --> 00:30:14,559

interesting story to tell or perhaps

981

00:30:17,909 --> 00:30:15,840

you know have been involved in something

982

00:30:20,950 --> 00:30:17,919

historical or or whatever

983

00:30:22,070 --> 00:30:20,960

um and and the show with with josh gates

984

00:30:24,310 --> 00:30:22,080

and expedition x

985

00:30:25,269 --> 00:30:24,320

for me was a wonderful experience um

986

00:30:27,990 --> 00:30:25,279

both myself

987

00:30:28,630 --> 00:30:28,000

and and sean cahill had a chance to be

988

00:30:30,630 --> 00:30:28,640

on it

989

00:30:31,830 --> 00:30:30,640

um i really like their approach and i

990

00:30:32,950 --> 00:30:31,840

really like the fact that they're using

991

00:30:34,950 --> 00:30:32,960

young people

992

00:30:36,310 --> 00:30:34,960

yeah uh because i've told people before

993

00:30:37,750 --> 00:30:36,320

and i know some people get mad at me for

994

00:30:39,669 --> 00:30:37,760

saying this but look my generation has

995

00:30:41,990 --> 00:30:39,679

done enough to screw things up

996

00:30:43,990 --> 00:30:42,000

i think this topic as we move forward

997

00:30:45,269 --> 00:30:44,000

belongs to the next generation

998

00:30:46,470 --> 00:30:45,279

and if we're going to get to the bottom

999

00:30:48,149 --> 00:30:46,480

of this it's going to be the next

1000

00:30:50,149 --> 00:30:48,159

generation doing it it's not going to be

1001
00:30:51,990 --> 00:30:50,159
some old fart like me it's going to be

1002
00:30:53,750 --> 00:30:52,000
you know someone picking up the baton

1003
00:30:55,830 --> 00:30:53,760
and moving forward and that's

1004
00:30:57,430 --> 00:30:55,840
that's that's where that's where the

1005
00:30:58,630 --> 00:30:57,440
future lies and if you don't recognize

1006
00:31:00,470 --> 00:30:58,640
it then you're going to miss the boat

1007
00:31:02,630 --> 00:31:00,480
and it's you're not doing this topic any

1008
00:31:05,029 --> 00:31:02,640
good so we have to be inclusive

1009
00:31:06,870 --> 00:31:05,039
and and and having this conversation and

1010
00:31:08,549 --> 00:31:06,880
letting letting the next generation be

1011
00:31:09,830 --> 00:31:08,559
part of that conversation

1012
00:31:11,029 --> 00:31:09,840
is immensely important this is one of

1013
00:31:12,310 --> 00:31:11,039

the reasons why i just did the shout out

1014

00:31:14,710 --> 00:31:12,320

there's a reason why i

1015

00:31:15,750 --> 00:31:14,720

i talk about you know christina over at

1016

00:31:17,750 --> 00:31:15,760

the uh

1017

00:31:19,110 --> 00:31:17,760

uh the debrief and some of these young

1018

00:31:21,190 --> 00:31:19,120

people that are coming in

1019

00:31:23,190 --> 00:31:21,200

chrissy as well because they're the ones

1020

00:31:24,950 --> 00:31:23,200

that are gonna in 30 40 years they're

1021

00:31:26,470 --> 00:31:24,960

the ones that are going to be

1022

00:31:28,470 --> 00:31:26,480

sitting here having this conversation

1023

00:31:29,750 --> 00:31:28,480

with the world and frankly

1024

00:31:31,430 --> 00:31:29,760

hopefully they're hell of a lot smarter

1025

00:31:32,950 --> 00:31:31,440

than we are on it you know yeah

1026

00:31:34,630 --> 00:31:32,960

absolutely i couldn't agree more

1027

00:31:35,990 --> 00:31:34,640

they're doing some fantastic work both

1028

00:31:37,029 --> 00:31:36,000

for the the females

1029

00:31:38,630 --> 00:31:37,039

just mentioned they're absolutely

1030

00:31:39,669 --> 00:31:38,640

incredible and so that's why i did not i

1031

00:31:40,789 --> 00:31:39,679

don't know a long-winded story about

1032

00:31:42,389 --> 00:31:40,799

expedition x

1033

00:31:44,389 --> 00:31:42,399

that's right because i thought it was

1034

00:31:46,149 --> 00:31:44,399

you know young folks

1035

00:31:48,149 --> 00:31:46,159

trying to have an honest conversation

1036

00:31:49,430 --> 00:31:48,159

about something they invited

1037

00:31:51,269 --> 00:31:49,440

myself and sean to come out there and

1038

00:31:53,269 --> 00:31:51,279

have a conversation and i

1039

00:31:54,950 --> 00:31:53,279

you you and your reader your listeners

1040

00:31:57,990 --> 00:31:54,960

probably know that i i

1041

00:31:59,590 --> 00:31:58,000

i never i try never to pass up an

1042

00:32:01,269 --> 00:31:59,600

opportunity to have this conversation

1043

00:32:02,389 --> 00:32:01,279

with anybody i don't care if it's for tv

1044

00:32:03,909 --> 00:32:02,399

radio podcast

1045

00:32:05,830 --> 00:32:03,919

i don't care if you've got one follower

1046

00:32:07,990 --> 00:32:05,840

or you've got 10 million followers

1047

00:32:09,669 --> 00:32:08,000

you know the conversation's worth having

1048

00:32:11,029 --> 00:32:09,679

that's great thank you so much and it's

1049

00:32:12,470 --> 00:32:11,039

appreciated and

1050

00:32:14,549 --> 00:32:12,480

we can never get enough of hearing what

1051

00:32:16,389 --> 00:32:14,559

you've got to say and

1052

00:32:18,230 --> 00:32:16,399

this leads me on to a recent interview

1053

00:32:19,509 --> 00:32:18,240

you did with our mutual friend a very

1054

00:32:22,710 --> 00:32:19,519

good friend mr max

1055

00:32:23,669 --> 00:32:22,720

muskowitz um yeah you described to max

1056

00:32:25,590 --> 00:32:23,679

in a very

1057

00:32:26,789 --> 00:32:25,600

with some drawings about the different

1058

00:32:29,190 --> 00:32:26,799

shapes of the uap

1059

00:32:31,750 --> 00:32:29,200

and how they could be related the discs

1060

00:32:33,990 --> 00:32:31,760

um moving into a triangle possibly into

1061

00:32:35,190 --> 00:32:34,000

into a cigar it's a beautiful way of

1062

00:32:37,190 --> 00:32:35,200

explaining it

1063

00:32:38,470 --> 00:32:37,200

but going a little bit further on that

1064

00:32:41,269 --> 00:32:38,480

kind of area

1065

00:32:43,110 --> 00:32:41,279

is it possible but that these crafts can

1066

00:32:43,750 --> 00:32:43,120

cause the witnesses to perceive the

1067

00:32:45,350 --> 00:32:43,760

shape

1068

00:32:46,870 --> 00:32:45,360

so to one person it might look like

1069

00:32:48,310 --> 00:32:46,880

something but to another it might look

1070

00:32:48,789 --> 00:32:48,320

like something else and it's actually

1071

00:32:52,149 --> 00:32:48,799

acting

1072

00:32:52,950 --> 00:32:52,159

on the person's you know visions or

1073

00:32:55,430 --> 00:32:52,960

conscious

1074

00:32:56,710 --> 00:32:55,440

levels possibly well we see this all the

1075

00:32:58,789 --> 00:32:56,720

time don't we in nature

1076

00:33:00,950 --> 00:32:58,799

this is not anything that's that super

1077

00:33:01,990 --> 00:33:00,960

sophisticated technology technologically

1078

00:33:04,870 --> 00:33:02,000

speaking

1079

00:33:06,549 --> 00:33:04,880

we see camouflage and mimicry and

1080

00:33:08,070 --> 00:33:06,559

cloaking in nature all the time whether

1081

00:33:10,310 --> 00:33:08,080

it's an octopus trying to

1082

00:33:11,430 --> 00:33:10,320

change its colors to or a cuttlefish

1083

00:33:14,549 --> 00:33:11,440

trying to to

1084

00:33:16,310 --> 00:33:14,559

to uh use bioluminescence to to warn a

1085

00:33:19,669 --> 00:33:16,320

predator potential predator

1086

00:33:21,750 --> 00:33:19,679

or it's you know a a particular gecko

1087

00:33:23,029 --> 00:33:21,760

sitting on a tree limb that now all of a

1088

00:33:24,230 --> 00:33:23,039

sudden assumes the same color and

1089

00:33:26,070 --> 00:33:24,240

texture

1090

00:33:27,830 --> 00:33:26,080

around it there's there's mimicry that

1091

00:33:29,590 --> 00:33:27,840

we see in nature all the time between a

1092

00:33:30,389 --> 00:33:29,600

coral snake which is very very very

1093

00:33:33,909 --> 00:33:30,399

venomous

1094

00:33:36,310 --> 00:33:33,919

at all but the color cor

1095

00:33:37,590 --> 00:33:36,320

the color differentiations on patterns

1096

00:33:41,269 --> 00:33:37,600

are very similar

1097

00:33:42,710 --> 00:33:41,279

um so uh is it possible that this is

1098

00:33:44,389 --> 00:33:42,720

also being used from a technical

1099

00:33:45,909 --> 00:33:44,399

perspective well

1100

00:33:48,070 --> 00:33:45,919

we're doing it now we do it with our b2

1101
00:33:48,630 --> 00:33:48,080
bomber we we use special coatings and

1102
00:33:53,350 --> 00:33:48,640
and

1103
00:33:56,230 --> 00:33:53,360
the fact that we have an aircraft

1104
00:33:56,549 --> 00:33:56,240
in in enemy territory um you know now

1105
00:33:57,990 --> 00:33:56,559
that

1106
00:34:00,789 --> 00:33:58,000
i think what you're asking me is it

1107
00:34:04,710 --> 00:34:00,799
possible that these craft somehow are

1108
00:34:07,269 --> 00:34:04,720
are tapping into uh each individual's

1109
00:34:08,149 --> 00:34:07,279
own psyche and being able to pull

1110
00:34:09,750 --> 00:34:08,159
something out

1111
00:34:11,109 --> 00:34:09,760
yeah and says okay i'm going to go ahead

1112
00:34:12,149 --> 00:34:11,119
and i'm going to look like this or i'm

1113
00:34:13,270 --> 00:34:12,159

going to look like that

1114

00:34:15,349 --> 00:34:13,280

i don't know that there's a lot of

1115

00:34:17,190 --> 00:34:15,359

people that speculate that i i don't

1116

00:34:19,190 --> 00:34:17,200

haven't seen any information

1117

00:34:20,310 --> 00:34:19,200

that substantiates that but it doesn't

1118

00:34:22,950 --> 00:34:20,320

mean that's not the case

1119

00:34:23,990 --> 00:34:22,960

i just i simply haven't had seen that

1120

00:34:26,869 --> 00:34:24,000

myself

1121

00:34:27,990 --> 00:34:26,879

um you know but blow observability is

1122

00:34:29,829 --> 00:34:28,000

one of the observables

1123

00:34:31,270 --> 00:34:29,839

it's the fact that it's hard to see with

1124

00:34:32,869 --> 00:34:31,280

your naked eye it's hard to see

1125

00:34:35,109 --> 00:34:32,879

electro optically it's very hard to see

1126
00:34:38,710 --> 00:34:35,119
on radar um

1127
00:34:39,829 --> 00:34:38,720
so you know i uh again people are gonna

1128
00:34:41,589 --> 00:34:39,839
hear what i have to say they're gonna

1129
00:34:42,950 --> 00:34:41,599
say oh there goes luke you know dodging

1130
00:34:44,710 --> 00:34:42,960
another question

1131
00:34:46,149 --> 00:34:44,720
you know i i'm not dodging a question

1132
00:34:47,510 --> 00:34:46,159
i'm just trying to use common sense i'm

1133
00:34:49,589 --> 00:34:47,520
trying to take you know when someone

1134
00:34:51,669 --> 00:34:49,599
asks me a question say look you know

1135
00:34:52,950 --> 00:34:51,679
it's not that far out there you can look

1136
00:34:54,790 --> 00:34:52,960
right now

1137
00:34:56,310 --> 00:34:54,800
here on our own planet and see examples

1138
00:34:57,030 --> 00:34:56,320

of this biologically occurring all the

1139

00:34:59,109 --> 00:34:57,040

time

1140

00:35:00,630 --> 00:34:59,119

yeah you know it's it's and we do it as

1141

00:35:03,750 --> 00:35:00,640

a species ourselves

1142

00:35:05,270 --> 00:35:03,760

you know so is it is it possible that

1143

00:35:05,990 --> 00:35:05,280

something that is super technologically

1144

00:35:07,990 --> 00:35:06,000

advanced

1145

00:35:09,829 --> 00:35:08,000

could be doing that sure it's possible i

1146

00:35:11,190 --> 00:35:09,839

i don't have any data to necessarily

1147

00:35:12,790 --> 00:35:11,200

back that up right now but it doesn't

1148

00:35:13,990 --> 00:35:12,800

mean in five years we don't come to this

1149

00:35:15,990 --> 00:35:14,000

aha moment this

1150

00:35:17,270 --> 00:35:16,000

epiphany this revelation that that's

1151

00:35:19,750 --> 00:35:17,280

exactly what's happening we

1152

00:35:21,990 --> 00:35:19,760

we just don't have enough data yet to to

1153

00:35:23,589 --> 00:35:22,000

to to make that type of conclusion

1154

00:35:25,349 --> 00:35:23,599

sure doesn't mean that it's not not

1155

00:35:27,030 --> 00:35:25,359

possible yeah and a lot of the examples

1156

00:35:29,030 --> 00:35:27,040

you just gave are um

1157

00:35:30,310 --> 00:35:29,040

are biological things from from our

1158

00:35:32,150 --> 00:35:30,320

world

1159

00:35:34,230 --> 00:35:32,160

is there any research being done on the

1160

00:35:36,870 --> 00:35:34,240

possibility of these objects

1161

00:35:38,550 --> 00:35:36,880

having a biological side to them even

1162

00:35:39,990 --> 00:35:38,560

the actual craft themselves has that

1163

00:35:44,069 --> 00:35:40,000

been looked into much at all

1164

00:35:44,470 --> 00:35:44,079

are you aware of well you know what i'm

1165

00:35:47,670 --> 00:35:44,480

gonna

1166

00:35:49,270 --> 00:35:47,680

another question okay

1167

00:35:51,430 --> 00:35:49,280

you know what's your definition of

1168

00:35:53,510 --> 00:35:51,440

biology i come from a from a background

1169

00:35:54,950 --> 00:35:53,520

of biology of microbiology immunology

1170

00:35:57,310 --> 00:35:54,960

and parasitology

1171

00:35:59,109 --> 00:35:57,320

uh study of parasites not parapsychology

1172

00:36:02,150 --> 00:35:59,119

parasitology

1173

00:36:03,750 --> 00:36:02,160

and you know um every time

1174

00:36:05,670 --> 00:36:03,760

we think we have a definition of what a

1175

00:36:07,190 --> 00:36:05,680

life form is you know mother nature

1176

00:36:08,390 --> 00:36:07,200

throws us a curveball you know for a

1177

00:36:10,470 --> 00:36:08,400

long time we thought

1178

00:36:12,230 --> 00:36:10,480

photosynthesis was the basis of all life

1179

00:36:13,910 --> 00:36:12,240

on this planet turns out it's not

1180

00:36:16,630 --> 00:36:13,920

we have things called chemosynthesis

1181

00:36:18,069 --> 00:36:16,640

right uh and extremophiles that live at

1182

00:36:19,750 --> 00:36:18,079

the bottom of the ocean where

1183

00:36:21,829 --> 00:36:19,760

they gain their nutrition and energy

1184

00:36:22,150 --> 00:36:21,839

through through chemical processes not

1185

00:36:25,750 --> 00:36:22,160

not

1186

00:36:27,109 --> 00:36:25,760

processes right

1187

00:36:29,510 --> 00:36:27,119

and then we thought well okay all living

1188

00:36:31,430 --> 00:36:29,520

things must have dna turns out well okay

1189

00:36:32,069 --> 00:36:31,440

now now some virologists are suggesting

1190

00:36:35,030 --> 00:36:32,079

that

1191

00:36:36,630 --> 00:36:35,040

living things do they replicate they

1192

00:36:38,550 --> 00:36:36,640

defend themselves and they you know

1193

00:36:41,910 --> 00:36:38,560

but they don't have dna at all they have

1194

00:36:45,190 --> 00:36:41,920

rna uh and yet they seem very much alive

1195

00:36:47,109 --> 00:36:45,200

um so so we have to

1196

00:36:49,910 --> 00:36:47,119

we have to understand that when we say

1197

00:36:53,030 --> 00:36:49,920

this is there anything biological

1198

00:36:56,230 --> 00:36:53,040

um behind these things you know it's

1199

00:36:58,069 --> 00:36:56,240

um i think we need to be we need to

1200

00:36:59,510 --> 00:36:58,079

we need to be very clear just like what

1201
00:37:00,630 --> 00:36:59,520
disclosure means we need to know what

1202
00:37:01,990 --> 00:37:00,640
does it mean first of all when you say

1203
00:37:04,550 --> 00:37:02,000
biological because

1204
00:37:06,710 --> 00:37:04,560
you know a kid flying a kite the kite

1205
00:37:08,069 --> 00:37:06,720
isn't a biological organism but the kid

1206
00:37:09,510 --> 00:37:08,079
flying it and controlling it is a

1207
00:37:11,109 --> 00:37:09,520
biological organism right

1208
00:37:13,030 --> 00:37:11,119
sure and then you have that kite

1209
00:37:14,630 --> 00:37:13,040
interacting potentially with birds or

1210
00:37:16,069 --> 00:37:14,640
insects in that are in the atmosphere

1211
00:37:19,349 --> 00:37:16,079
you know or it

1212
00:37:21,670 --> 00:37:19,359
it i guess my point being is that if

1213
00:37:23,109 --> 00:37:21,680

anything's possible we just we need more

1214

00:37:24,870 --> 00:37:23,119

data

1215

00:37:26,310 --> 00:37:24,880

and i think you know these are certainly

1216

00:37:27,270 --> 00:37:26,320

questions that we should be asking

1217

00:37:28,870 --> 00:37:27,280

ourselves

1218

00:37:31,190 --> 00:37:28,880

from an academic and a scientific

1219

00:37:32,870 --> 00:37:31,200

perspective uh you know and let's let's

1220

00:37:35,030 --> 00:37:32,880

let the data speak for itself

1221

00:37:36,310 --> 00:37:35,040

absolutely yeah just sticking with the

1222

00:37:38,790 --> 00:37:36,320

interview you did with max

1223

00:37:39,829 --> 00:37:38,800

um you did you teased us with a little

1224

00:37:41,829 --> 00:37:39,839

quote saying

1225

00:37:43,190 --> 00:37:41,839

there is an elegant way to explain why

1226

00:37:44,950 --> 00:37:43,200

we see what we see

1227

00:37:46,870 --> 00:37:44,960

from the outside when observing these

1228

00:37:48,710 --> 00:37:46,880

phenomena to which you said that you

1229

00:37:49,910 --> 00:37:48,720

would show him another time

1230

00:37:51,990 --> 00:37:49,920

is that something you'd be able to

1231

00:37:55,109 --> 00:37:52,000

discuss with us right now

1232

00:37:55,829 --> 00:37:55,119

um unfortunately not quite yet we are

1233

00:37:59,030 --> 00:37:55,839

okay we are

1234

00:38:00,870 --> 00:37:59,040

those those models are being the par

1235

00:38:03,030 --> 00:38:00,880

part of part of this discussion is

1236

00:38:05,670 --> 00:38:03,040

effective communication

1237

00:38:07,910 --> 00:38:05,680

and the last thing you want to do is

1238

00:38:11,109 --> 00:38:07,920

take an important topic like this

1239

00:38:14,390 --> 00:38:11,119

and if if if you cannot

1240

00:38:16,710 --> 00:38:14,400

communicate concise concisely

1241

00:38:18,230 --> 00:38:16,720

with your audience then you have a

1242

00:38:21,349 --> 00:38:18,240

chance of really

1243

00:38:24,310 --> 00:38:21,359

messing things up and so uh

1244

00:38:24,870 --> 00:38:24,320

efforts are underway to to provide a

1245

00:38:26,790 --> 00:38:24,880

very

1246

00:38:28,310 --> 00:38:26,800

elegant illustration that people can

1247

00:38:31,349 --> 00:38:28,320

look and say

1248

00:38:33,589 --> 00:38:31,359

that makes sense um and i i don't want

1249

00:38:38,710 --> 00:38:33,599

to let that out prematurely

1250

00:38:41,190 --> 00:38:38,720

um because uh you know we we

1251

00:38:42,950 --> 00:38:41,200

i think we can even do a better job of

1252

00:38:45,670 --> 00:38:42,960

of illustrating that

1253

00:38:45,990 --> 00:38:45,680

um and you know hopefully in the in the

1254

00:38:48,950 --> 00:38:46,000

very

1255

00:38:50,069 --> 00:38:48,960

near future an audience will be able to

1256

00:38:51,829 --> 00:38:50,079

see that

1257

00:38:53,829 --> 00:38:51,839

absolutely that's something to look

1258

00:38:54,390 --> 00:38:53,839

forward to then are you able to let us

1259

00:38:57,510 --> 00:38:54,400

know

1260

00:39:00,550 --> 00:38:57,520

who is doing that or looking into that

1261

00:39:05,349 --> 00:39:00,560

um it's a collective okay

1262

00:39:07,430 --> 00:39:05,359

it's uh it's a collective of of um a lot

1263

00:39:10,630 --> 00:39:07,440

of folks that you'd probably recognize

1264

00:39:12,550 --> 00:39:10,640

excellent so i won't try and push that

1265

00:39:14,390 --> 00:39:12,560

point too much any further and let's

1266

00:39:16,230 --> 00:39:14,400

move on now the ufo community

1267

00:39:19,670 --> 00:39:16,240

and others as well have recently become

1268

00:39:22,230 --> 00:39:19,680

aware of this new think tank sky fort

1269

00:39:23,829 --> 00:39:22,240

um led by sean cahill uh and i think a

1270

00:39:25,270 --> 00:39:23,839

few of his friends and he mentioned it

1271

00:39:26,710 --> 00:39:25,280

in a recent interview with

1272

00:39:28,390 --> 00:39:26,720

james e and doley of engaging the

1273

00:39:30,150 --> 00:39:28,400

phenomena and mention that you're

1274

00:39:32,230 --> 00:39:30,160

connected to it and are you able to

1275

00:39:33,910 --> 00:39:32,240

to expand on that a bit and let us know

1276

00:39:36,310 --> 00:39:33,920

what role you will be playing

1277

00:39:36,950 --> 00:39:36,320

yeah a lot of people are yeah i'm an

1278

00:39:39,109 --> 00:39:36,960

advisor

1279

00:39:41,190 --> 00:39:39,119

um you know people say oh this is tsa

1280

00:39:42,870 --> 00:39:41,200

2. 2.0 no it's not

1281

00:39:44,630 --> 00:39:42,880

you know sky fort hasn't asked anybody

1282

00:39:46,790 --> 00:39:44,640

for money it is a

1283

00:39:48,550 --> 00:39:46,800

it is a strategic think tank that is

1284

00:39:51,589 --> 00:39:48,560

helping us navigate

1285

00:39:52,950 --> 00:39:51,599

uh and advise uh through through this

1286

00:39:54,710 --> 00:39:52,960

very interesting topic

1287

00:39:56,150 --> 00:39:54,720

um this we've never really had a

1288

00:39:58,950 --> 00:39:56,160

conversation like this before

1289

00:40:00,069 --> 00:39:58,960

and so you know being able to i've

1290

00:40:01,430 --> 00:40:00,079

mentioned this before

1291

00:40:03,750 --> 00:40:01,440

pardon me there are five pillars of

1292

00:40:05,270 --> 00:40:03,760

emphasis very much like an intelligence

1293

00:40:06,470 --> 00:40:05,280

or a military campaign

1294

00:40:07,910 --> 00:40:06,480

you have to make sure all are

1295

00:40:09,670 --> 00:40:07,920

coordinated and you don't get out in

1296

00:40:11,109 --> 00:40:09,680

front of the headlights too far on one

1297

00:40:13,030 --> 00:40:11,119

of them the first one is

1298

00:40:14,630 --> 00:40:13,040

uh legislative engagement and that's

1299

00:40:14,870 --> 00:40:14,640

engaging our elected officials letting

1300

00:40:16,390 --> 00:40:14,880

them

1301

00:40:18,069 --> 00:40:16,400

know where to find the data and the

1302

00:40:19,990 --> 00:40:18,079

seriousness of the topic

1303

00:40:22,150 --> 00:40:20,000

then it's executive level engagement and

1304

00:40:25,589 --> 00:40:22,160

this that second pillar is engaging our

1305

00:40:27,349 --> 00:40:25,599

department heads and secretary level uh

1306

00:40:28,630 --> 00:40:27,359

leadership letting them know where they

1307

00:40:29,910 --> 00:40:28,640

can find the data right internally to

1308

00:40:31,349 --> 00:40:29,920

their own organizations who are the

1309

00:40:33,349 --> 00:40:31,359

experts within the organizations they

1310

00:40:36,390 --> 00:40:33,359

can leverage et cetera et cetera right

1311

00:40:37,910 --> 00:40:36,400

the third pillar of emphasis is uh

1312

00:40:40,069 --> 00:40:37,920

our international engagement and that's

1313

00:40:41,270 --> 00:40:40,079

engaging our friends and allies in other

1314

00:40:43,270 --> 00:40:41,280

countries and their governments and

1315

00:40:45,910 --> 00:40:43,280

institutions and organizations

1316

00:40:47,589 --> 00:40:45,920

to to to share information get into a

1317

00:40:49,109 --> 00:40:47,599

formal information sharing relationship

1318

00:40:50,470 --> 00:40:49,119

like we just did with japan

1319

00:40:52,230 --> 00:40:50,480

yeah and several other countries now

1320

00:40:52,870 --> 00:40:52,240

that are that are happening uh the

1321

00:40:54,870 --> 00:40:52,880

fourth

1322

00:40:56,550 --> 00:40:54,880

uh pillar of engagement is media

1323

00:40:58,230 --> 00:40:56,560

engagement mainstream media letting them

1324

00:41:00,069 --> 00:40:58,240

know that it's okay to report on this

1325

00:41:01,670 --> 00:41:00,079

topic and despite the stigma taboo

1326

00:41:04,630 --> 00:41:01,680

historically associated

1327

00:41:06,390 --> 00:41:04,640

with this topic um you can you you

1328

00:41:07,589 --> 00:41:06,400

should report on it because it's it's it

1329

00:41:09,430 --> 00:41:07,599

is one that's important and it is

1330

00:41:11,430 --> 00:41:09,440

scientific and it is academic

1331

00:41:13,190 --> 00:41:11,440

and then the last pillar of interest uh

1332

00:41:16,630 --> 00:41:13,200

if we will or emphasis that we

1333

00:41:19,430 --> 00:41:16,640

we dedicate to is is uh

1334

00:41:20,870 --> 00:41:19,440

is is public public engagement exactly

1335

00:41:23,190 --> 00:41:20,880

what we're doing here right now

1336

00:41:24,870 --> 00:41:23,200

right letting the the people know that

1337

00:41:26,470 --> 00:41:24,880

that you know whether you're around the

1338

00:41:28,230 --> 00:41:26,480

dinner table or the water cooler it's

1339

00:41:29,430 --> 00:41:28,240

okay to have a conversation about this

1340

00:41:30,870 --> 00:41:29,440

because ultimately

1341

00:41:32,710 --> 00:41:30,880

and probably this is the most important

1342

00:41:34,390 --> 00:41:32,720

pillar of all because if the people say

1343

00:41:35,670 --> 00:41:34,400

it's okay to have a conversation

1344

00:41:37,589 --> 00:41:35,680

then you're more likely to have your

1345

00:41:38,710 --> 00:41:37,599

elected officials and mainstream media

1346

00:41:40,630 --> 00:41:38,720

reporting on it right

1347

00:41:41,910 --> 00:41:40,640

sure again because they they feel it's

1348

00:41:44,069 --> 00:41:41,920

okay to do so

1349

00:41:45,589 --> 00:41:44,079

absolutely and so it's it's very

1350

00:41:46,390 --> 00:41:45,599

important so what skyford does back to

1351

00:41:47,990 --> 00:41:46,400

your question

1352

00:41:49,750 --> 00:41:48,000

you know eventually get back to it

1353

00:41:51,750 --> 00:41:49,760

that's okay uh is that

1354

00:41:53,190 --> 00:41:51,760

that they are helping us navigate these

1355

00:41:56,230 --> 00:41:53,200

and to make sure

1356

00:41:57,430 --> 00:41:56,240

that we all we we move together

1357

00:42:01,190 --> 00:41:57,440

collectively

1358

00:42:02,790 --> 00:42:01,200

as a process all of these these pillars

1359

00:42:04,470 --> 00:42:02,800

making sure that there are specific

1360

00:42:05,270 --> 00:42:04,480

touch points within each of those

1361

00:42:07,349 --> 00:42:05,280

pillars

1362

00:42:08,550 --> 00:42:07,359

that you want to make sure you you

1363

00:42:10,870 --> 00:42:08,560

engage and

1364

00:42:13,030 --> 00:42:10,880

and skyford has been extremely helpful

1365

00:42:14,950 --> 00:42:13,040

they the connections that that sean

1366

00:42:16,069 --> 00:42:14,960

cahill has managed to amass with folks

1367

00:42:18,309 --> 00:42:16,079

like jesse and

1368

00:42:20,309 --> 00:42:18,319

and jake are enormous they all have

1369

00:42:21,430 --> 00:42:20,319

experience like you do on social media

1370

00:42:23,349 --> 00:42:21,440

and youtube

1371

00:42:25,109 --> 00:42:23,359

and delivering content but they also

1372

00:42:27,030 --> 00:42:25,119

have investigative backgrounds they also

1373

00:42:28,710 --> 00:42:27,040

have media backgrounds they also have

1374

00:42:30,790 --> 00:42:28,720

hollywood backgrounds they all have they

1375

00:42:33,109 --> 00:42:30,800

had the backgrounds necessary

1376

00:42:34,870 --> 00:42:33,119

to orchestrate if you will or conduct

1377

00:42:36,630 --> 00:42:34,880

the orchestra in a way where

1378

00:42:38,790 --> 00:42:36,640

where now you're making music instead of

1379

00:42:40,390 --> 00:42:38,800

just little bits of sounds popping up

1380

00:42:41,510 --> 00:42:40,400

within the orchestra the french horns

1381

00:42:42,630 --> 00:42:41,520

are playing their own tune while the

1382

00:42:43,990 --> 00:42:42,640

violins are kind of

1383

00:42:45,750 --> 00:42:44,000

screeching out something over there on

1384

00:42:47,109 --> 00:42:45,760

that corner the guy on the timpani in

1385

00:42:47,990 --> 00:42:47,119

the back is just you know rocking out to

1386

00:42:51,349 --> 00:42:48,000

ac dc

1387

00:42:52,710 --> 00:42:51,359

yeah it only works when everybody is

1388

00:42:54,550 --> 00:42:52,720

playing together

1389

00:42:57,109 --> 00:42:54,560

in a coordinated manner and that is what

1390

00:42:59,990 --> 00:42:57,119

skype that's the elegance of skyford

1391

00:43:02,390 --> 00:43:00,000

it is a one-stop shop to help us

1392

00:43:05,270 --> 00:43:02,400

recognize those strategic touch points

1393

00:43:06,069 --> 00:43:05,280

and and make sure that the right message

1394

00:43:08,150 --> 00:43:06,079

is delivered

1395

00:43:09,589 --> 00:43:08,160

so so so people can make well-informed

1396

00:43:10,710 --> 00:43:09,599

decisions brilliant

1397

00:43:12,630 --> 00:43:10,720

i just wondered if there would be any

1398

00:43:13,750 --> 00:43:12,640

actual research involved as well looking

1399

00:43:16,790 --> 00:43:13,760

at cases as well

1400

00:43:18,790 --> 00:43:16,800

or there will be but again

1401

00:43:20,470 --> 00:43:18,800

think of skyford as a big umbrella right

1402

00:43:21,910 --> 00:43:20,480

right and under that big umbrella you're

1403

00:43:23,430 --> 00:43:21,920

gonna have several little umbrellas with

1404

00:43:23,829 --> 00:43:23,440

with verticals of different different

1405

00:43:25,109 --> 00:43:23,839

level

1406

00:43:26,870 --> 00:43:25,119

different interests that they're going

1407

00:43:28,710 --> 00:43:26,880

to be engaged in

1408

00:43:30,390 --> 00:43:28,720

yeah that's why you see in there it's an

1409

00:43:32,309 --> 00:43:30,400

incubator you know i'm look i'm not

1410

00:43:33,510 --> 00:43:32,319

i'm not i'm not owner of it i don't have

1411

00:43:35,910 --> 00:43:33,520

any financial interest

1412

00:43:38,069 --> 00:43:35,920

in it uh but they have been been

1413

00:43:39,750 --> 00:43:38,079

exceedingly helpful helping us navigate

1414

00:43:41,990 --> 00:43:39,760

this landscape both for chris mellon and

1415

00:43:44,309 --> 00:43:42,000

myself

1416

00:43:46,069 --> 00:43:44,319

they know what the hell is going on and

1417

00:43:47,349 --> 00:43:46,079

you know when you are when you are in a

1418

00:43:49,589 --> 00:43:47,359

military campaign

1419

00:43:51,430 --> 00:43:49,599

you want good advisors that's that

1420

00:43:53,109 --> 00:43:51,440

that's what you want on your team

1421

00:43:55,109 --> 00:43:53,119

of course people out there the haters

1422

00:43:57,349 --> 00:43:55,119

are going to speculate yeah this is 2.0

1423

00:43:59,190 --> 00:43:57,359

ttsa these guys just want to it's

1424

00:43:59,589 --> 00:43:59,200

another money plug or lou owns the pro

1425

00:44:01,030 --> 00:43:59,599

no i

1426

00:44:03,589 --> 00:44:01,040

have i have no financial interest in

1427

00:44:05,109 --> 00:44:03,599

this i'm not all i am is an advisor i'm

1428

00:44:06,790 --> 00:44:05,119

not on the board of directors

1429

00:44:08,470 --> 00:44:06,800

i don't have any voting privileges i'm

1430

00:44:10,390 --> 00:44:08,480

not getting any money out of this

1431

00:44:11,910 --> 00:44:10,400

in fact i i suspect if you were to talk

1432

00:44:12,630 --> 00:44:11,920

to sky 4 they're probably losing a lot

1433

00:44:14,069 --> 00:44:12,640

of money

1434

00:44:16,069 --> 00:44:14,079

because they're donating most of their

1435

00:44:17,589 --> 00:44:16,079

time to to support this activity they're

1436

00:44:20,069 --> 00:44:17,599

not making a penny right now

1437

00:44:21,430 --> 00:44:20,079

so you know anybody out there who's

1438

00:44:22,230 --> 00:44:21,440

listening in your audience that you know

1439

00:44:24,390 --> 00:44:22,240

wants to

1440

00:44:25,510 --> 00:44:24,400

to throw arrows they probably need to do

1441

00:44:27,349 --> 00:44:25,520

a little bit more research

1442

00:44:29,510 --> 00:44:27,359

you know before they they start making

1443

00:44:31,510 --> 00:44:29,520

you know unqualified

1444

00:44:32,950 --> 00:44:31,520

conclusions like that no that's great

1445

00:44:33,829 --> 00:44:32,960

thank you for talking about it i think a

1446

00:44:35,030 --> 00:44:33,839

lot of people were

1447

00:44:37,270 --> 00:44:35,040

when they first heard the name i think

1448

00:44:38,550 --> 00:44:37,280

it was tucker carlson something that

1449

00:44:41,030 --> 00:44:38,560

produced a document on

1450

00:44:43,270 --> 00:44:41,040

one of his uh things yeah that was i was

1451

00:44:46,630 --> 00:44:43,280

not ready for that

1452

00:44:48,790 --> 00:44:46,640

wow okay yeah i think everybody uh

1453

00:44:50,550 --> 00:44:48,800

eyes wide and like what is sky thought

1454

00:44:51,349 --> 00:44:50,560

so no thank you for clarifying your

1455

00:44:52,710 --> 00:44:51,359

involvement and

1456

00:44:54,790 --> 00:44:52,720

a bit more about what they're they

1457

00:44:56,950 --> 00:44:54,800

intend to do in the future that's great

1458

00:44:58,390 --> 00:44:56,960

uh moving on this is a something i've

1459

00:45:00,790 --> 00:44:58,400

only recently heard about

1460

00:45:03,190 --> 00:45:00,800

back in 2019 rich hoffman of the uh the

1461

00:45:05,829 --> 00:45:03,200

scientific coalition for uap studies

1462

00:45:07,030 --> 00:45:05,839

he briefly mentioned two cases involving

1463

00:45:08,390 --> 00:45:07,040

the navy that we'd not really heard

1464

00:45:11,670 --> 00:45:08,400

about before

1465

00:45:15,190 --> 00:45:11,680

one the uss boxer in 1998 the other the

1466

00:45:17,510 --> 00:45:15,200

uss bainbridge in 2017.

1467

00:45:19,030 --> 00:45:17,520

i like the little smile there because i

1468

00:45:20,309 --> 00:45:19,040

it sounds like you're aware of them and

1469

00:45:21,510 --> 00:45:20,319

that's what i was going to ask are you

1470

00:45:23,349 --> 00:45:21,520

aware of these cases

1471

00:45:25,990 --> 00:45:23,359

and can you give us any details about

1472

00:45:27,270 --> 00:45:26,000

them i am aware of them i cannot discuss

1473

00:45:29,349 --> 00:45:27,280

them right now

1474

00:45:31,430 --> 00:45:29,359

i think there's there are efforts

1475

00:45:33,270 --> 00:45:31,440

underway right now to to figure that out

1476

00:45:35,430 --> 00:45:33,280

but look i'll i'll give you another

1477

00:45:36,950 --> 00:45:35,440

heads up here it ain't just the main

1478

00:45:38,550 --> 00:45:36,960

bridge it ain't just the kid in the

1479

00:45:41,910 --> 00:45:38,560

omaha it ain't just

1480

00:45:43,270 --> 00:45:41,920

you know uh what what what people know

1481

00:45:47,190 --> 00:45:43,280

about the boxer

1482

00:45:48,870 --> 00:45:47,200

uh you know there's there's some pretty

1483

00:45:50,870 --> 00:45:48,880

pretty interesting encounter encounters

1484

00:45:54,790 --> 00:45:50,880

that are happening as of like last week

1485

00:45:57,190 --> 00:45:54,800

um do these all involve uh data video

1486

00:45:58,950 --> 00:45:57,200

photos everything across the spectrum of

1487

00:46:00,630 --> 00:45:58,960

what we need to analyze these cases as

1488

00:46:02,470 --> 00:46:00,640

well yeah absolutely

1489

00:46:03,829 --> 00:46:02,480

you know and so i i'm not going to

1490

00:46:05,190 --> 00:46:03,839

discuss them right now because that's

1491

00:46:06,470 --> 00:46:05,200

really under the purview of the us

1492

00:46:08,710 --> 00:46:06,480

government i'm not going to tell you

1493

00:46:09,829 --> 00:46:08,720

aors i'm not going to tell you uh

1494

00:46:12,150 --> 00:46:09,839

anything else

1495

00:46:13,829 --> 00:46:12,160

right now until maybe someone else

1496

00:46:14,550 --> 00:46:13,839

decides to have the conversation i

1497

00:46:16,230 --> 00:46:14,560

understand

1498

00:46:18,390 --> 00:46:16,240

you know this is this is occurring

1499

00:46:20,550 --> 00:46:18,400

regular and routinely this is not just

1500

00:46:23,589 --> 00:46:20,560

the nimitz and the roosevelt this is

1501

00:46:24,790 --> 00:46:23,599

this is this is happening all the time

1502

00:46:26,390 --> 00:46:24,800

and are these coming in through the

1503

00:46:29,030 --> 00:46:26,400

official channels that the navy brought

1504

00:46:31,349 --> 00:46:29,040

into effect in 2020 where they kind of

1505

00:46:32,950 --> 00:46:31,359

made it seem okay for the personnel to

1506

00:46:33,510 --> 00:46:32,960

to report these things have we seen an

1507

00:46:35,349 --> 00:46:33,520

influx

1508

00:46:36,630 --> 00:46:35,359

since that happened yeah yeah they're

1509

00:46:38,230 --> 00:46:36,640

reporting it they're doing exactly what

1510

00:46:39,030 --> 00:46:38,240

they're supposed to do the snoopy teams

1511

00:46:41,510 --> 00:46:39,040

are engaged

1512

00:46:42,870 --> 00:46:41,520

it's it's it's working uh you know can

1513

00:46:44,309 --> 00:46:42,880

it work better sure i mean everything

1514

00:46:47,430 --> 00:46:44,319

can work better right of course

1515

00:46:49,670 --> 00:46:47,440

uh it's it's it's it it's it's finally

1516

00:46:50,790 --> 00:46:49,680

that process has been established and it

1517

00:46:53,349 --> 00:46:50,800

is it is working

1518

00:46:54,950 --> 00:46:53,359

um so i'm very pleased by that that was

1519

00:46:57,589 --> 00:46:54,960

one of the greatest

1520

00:46:58,870 --> 00:46:57,599

uh tasks if you will and goals that i

1521

00:47:00,309 --> 00:46:58,880

had when i first left that there would

1522

00:47:02,390 --> 00:47:00,319

be some sort of official reporting

1523

00:47:04,950 --> 00:47:02,400

mechanism that would be established

1524

00:47:06,390 --> 00:47:04,960

and and that's that's well underway

1525

00:47:08,069 --> 00:47:06,400

that's great that's really good to hear

1526

00:47:09,270 --> 00:47:08,079

that it's working and it's only really

1527

00:47:11,349 --> 00:47:09,280

been about a year so

1528

00:47:13,030 --> 00:47:11,359

that's that is a big positive step in

1529

00:47:14,790 --> 00:47:13,040

the right direction

1530

00:47:16,150 --> 00:47:14,800

um yeah the only reason i asked that

1531

00:47:18,470 --> 00:47:16,160

question about the bainbridge and the

1532

00:47:20,630 --> 00:47:18,480

boxer is because i i rewatched the

1533

00:47:21,510 --> 00:47:20,640

lecture that the rich hoffman did and i

1534

00:47:23,589 --> 00:47:21,520

thought well

1535

00:47:24,630 --> 00:47:23,599

if he's mentioning them by name and year

1536

00:47:27,109 --> 00:47:24,640

then maybe it's

1537

00:47:28,710 --> 00:47:27,119

fallen out of some classified area into

1538

00:47:31,670 --> 00:47:28,720

a gray area

1539

00:47:32,390 --> 00:47:31,680

i thought i'd ask yeah and look rich is

1540

00:47:34,230 --> 00:47:32,400

great i mean

1541

00:47:35,990 --> 00:47:34,240

his organization is you know they've

1542

00:47:36,470 --> 00:47:36,000

done a lot they haven't received credit

1543

00:47:38,549 --> 00:47:36,480

for

1544

00:47:39,990 --> 00:47:38,559

behind the scenes but you know they have

1545

00:47:42,549 --> 00:47:40,000

definitely helped congress

1546

00:47:44,230 --> 00:47:42,559

make informed decisions um yeah they are

1547

00:47:45,750 --> 00:47:44,240

these folks are mostly you know

1548

00:47:48,230 --> 00:47:45,760

former or current military and

1549

00:47:50,069 --> 00:47:48,240

intelligence personnel scientists

1550

00:47:51,270 --> 00:47:50,079

working on this topic and it's it's a

1551
00:47:53,270 --> 00:47:51,280
great organization i

1552
00:47:54,309 --> 00:47:53,280
you know i i love what rich has done

1553
00:47:56,069 --> 00:47:54,319
with the scu

1554
00:47:57,910 --> 00:47:56,079
um i think it's something that we've

1555
00:47:59,510 --> 00:47:57,920
needed for a very long time

1556
00:48:01,510 --> 00:47:59,520
and what will be wonderful is when the

1557
00:48:04,150 --> 00:48:01,520
scu can enter into some sort of

1558
00:48:05,990 --> 00:48:04,160
of a work relationship with the us

1559
00:48:07,349 --> 00:48:06,000
government i think that's i think that's

1560
00:48:09,910 --> 00:48:07,359
almost at this point probably an

1561
00:48:11,589 --> 00:48:09,920
inevitability just because of the

1562
00:48:13,829 --> 00:48:11,599
high concentration of expertise

1563
00:48:15,270 --> 00:48:13,839

scientific expertise that they have

1564

00:48:17,109 --> 00:48:15,280

that's great i think this is actually

1565

00:48:18,630 --> 00:48:17,119

probably a good time to tell

1566

00:48:20,150 --> 00:48:18,640

everybody here that's going to see this

1567

00:48:21,589 --> 00:48:20,160

that i have just confirmed an interview

1568

00:48:22,470 --> 00:48:21,599

with rich hoffman which i will be

1569

00:48:25,589 --> 00:48:22,480

conducting

1570

00:48:27,349 --> 00:48:25,599

on wednesday the 7th of july

1571

00:48:29,270 --> 00:48:27,359

and i will put out all the details

1572

00:48:29,990 --> 00:48:29,280

across all my social media platforms but

1573

00:48:31,990 --> 00:48:30,000

that is

1574

00:48:33,670 --> 00:48:32,000

an organization that i am a huge fan of

1575

00:48:35,270 --> 00:48:33,680

i've read a lot of their papers and

1576

00:48:36,870 --> 00:48:35,280

listened to a lot of their speeches and

1577

00:48:38,950 --> 00:48:36,880

lectures and talks so

1578

00:48:40,470 --> 00:48:38,960

i think that scientific angle is is a

1579

00:48:43,589 --> 00:48:40,480

very important in this

1580

00:48:47,109 --> 00:48:43,599

in this day and age yeah

1581

00:48:47,119 --> 00:48:51,349

right i'm going to go into a few

1582

00:48:55,589 --> 00:48:52,549

i don't know how to describe these

1583

00:48:57,990 --> 00:48:55,599

questions but i can tell you

1584

00:48:59,030 --> 00:48:58,000

your hesitation you're mulling in your

1585

00:49:01,670 --> 00:48:59,040

head

1586

00:49:03,349 --> 00:49:01,680

yeah i mean i've got the list um i never

1587

00:49:05,270 --> 00:49:03,359

really know whether to just read it in

1588

00:49:06,470 --> 00:49:05,280

in the list order or just throw a few

1589

00:49:08,390 --> 00:49:06,480

curve balls in

1590

00:49:09,829 --> 00:49:08,400

but i'm going to go and ask are you

1591

00:49:12,710 --> 00:49:09,839

aware of any attempts to

1592

00:49:13,910 --> 00:49:12,720

bait these objects to draw them in and i

1593

00:49:16,470 --> 00:49:13,920

don't mean necessarily through a

1594

00:49:19,589 --> 00:49:16,480

consciousness ce5 thing i mean like

1595

00:49:23,109 --> 00:49:19,599

more of a military aspect

1596

00:49:26,710 --> 00:49:23,119

yes okay

1597

00:49:27,670 --> 00:49:26,720

any i don't suppose you're able to talk

1598

00:49:30,950 --> 00:49:27,680

about that or

1599

00:49:32,230 --> 00:49:30,960

no okay no moving on um

1600

00:49:33,750 --> 00:49:32,240

it's been said that chris mellon was

1601
00:49:35,670 --> 00:49:33,760
denied access to looking into the

1602
00:49:37,270 --> 00:49:35,680
department of energy

1603
00:49:39,510 --> 00:49:37,280
um i don't know much more details on

1604
00:49:41,030 --> 00:49:39,520
that but my question is did atip

1605
00:49:43,030 --> 00:49:41,040
ever work closely with the department of

1606
00:49:43,750 --> 00:49:43,040
energy when we're looking into cases

1607
00:49:46,470 --> 00:49:43,760
were they

1608
00:49:49,030 --> 00:49:46,480
given access uh we were focused

1609
00:49:51,990 --> 00:49:49,040
primarily on dod equities and

1610
00:49:53,670 --> 00:49:52,000
but there were times where you have

1611
00:49:55,430 --> 00:49:53,680
without going into detail here

1612
00:49:57,030 --> 00:49:55,440
there are times where you have joint

1613
00:49:58,150 --> 00:49:57,040

department of energy and department of

1614

00:50:00,549 --> 00:49:58,160

defense equities

1615

00:50:01,910 --> 00:50:00,559

uh at certain facilities okay and i'll

1616

00:50:03,829 --> 00:50:01,920

just i'll leave it at that

1617

00:50:05,430 --> 00:50:03,839

and in those circumstances we were made

1618

00:50:08,390 --> 00:50:05,440

aware through through

1619

00:50:09,990 --> 00:50:08,400

uh other reporting mechanisms of

1620

00:50:12,470 --> 00:50:10,000

interesting incidents

1621

00:50:13,910 --> 00:50:12,480

involving um some of those those

1622

00:50:16,390 --> 00:50:13,920

facilities

1623

00:50:17,589 --> 00:50:16,400

cool that's great thank you so much um

1624

00:50:18,710 --> 00:50:17,599

i'm just going to keep moving through

1625

00:50:20,549 --> 00:50:18,720

these some of these are really short

1626

00:50:22,870 --> 00:50:20,559

questions and

1627

00:50:23,910 --> 00:50:22,880

uh yeah so since a lot of these cases

1628

00:50:25,670 --> 00:50:23,920

have been happening over

1629

00:50:27,510 --> 00:50:25,680

decades now surrounding nuclear

1630

00:50:29,910 --> 00:50:27,520

facilities and really sensitive

1631

00:50:30,870 --> 00:50:29,920

weapons areas has there been anything

1632

00:50:33,829 --> 00:50:30,880

put in place

1633

00:50:36,069 --> 00:50:33,839

to try and deter them from those areas

1634

00:50:37,750 --> 00:50:36,079

or to stop them

1635

00:50:39,270 --> 00:50:37,760

messing with these facilities and

1636

00:50:40,870 --> 00:50:39,280

weapons um

1637

00:50:42,390 --> 00:50:40,880

that would be a question you you would

1638

00:50:44,230 --> 00:50:42,400

have to bring up with

1639

00:50:46,069 --> 00:50:44,240

the the equity holders department of

1640

00:50:47,430 --> 00:50:46,079

defense and department of energy i i

1641

00:50:48,710 --> 00:50:47,440

certainly don't want to speak to

1642

00:50:52,390 --> 00:50:48,720

whatever counter measures

1643

00:50:54,069 --> 00:50:52,400

may be in place okay um i'll i'll have

1644

00:50:57,430 --> 00:50:54,079

to politely defer to

1645

00:51:00,630 --> 00:50:57,440

to them no that's fine no problem at all

1646

00:51:04,390 --> 00:51:02,549

jim semivan now i think we've all been

1647

00:51:06,150 --> 00:51:04,400

aware of jim for a few years now but not

1648

00:51:07,910 --> 00:51:06,160

heard so much recently

1649

00:51:11,030 --> 00:51:07,920

he recently made a statement saying that

1650

00:51:12,790 --> 00:51:11,040

his um his view on this ua ptf report is

1651
00:51:16,069 --> 00:51:12,800
that it will lead to

1652
00:51:18,470 --> 00:51:16,079
a more permanent uh command group

1653
00:51:19,750 --> 00:51:18,480
or task force after that i mean i think

1654
00:51:21,829 --> 00:51:19,760
that is what we all want

1655
00:51:23,109 --> 00:51:21,839
it almost sounded like he knew something

1656
00:51:26,309 --> 00:51:23,119
um

1657
00:51:29,109 --> 00:51:26,319
are you aware of something like that or

1658
00:51:29,829 --> 00:51:29,119
is it well i mean jim jim is i mean jim

1659
00:51:31,670 --> 00:51:29,839
hears

1660
00:51:33,190 --> 00:51:31,680
you know information from his various

1661
00:51:34,870 --> 00:51:33,200
horses um

1662
00:51:36,950 --> 00:51:34,880
you know i'm not going to speculate

1663
00:51:39,190 --> 00:51:36,960

where jim may have heard that

1664

00:51:40,150 --> 00:51:39,200

i've made it no secret that uh you know

1665

00:51:41,430 --> 00:51:40,160

i support

1666

00:51:44,870 --> 00:51:41,440

and so does chris and enduring

1667

00:51:48,150 --> 00:51:44,880

capability um

1668

00:51:50,549 --> 00:51:48,160

you know fill in the blanks sure okay

1669

00:51:52,069 --> 00:51:50,559

um now i think a lot of people are still

1670

00:51:54,549 --> 00:51:52,079

unclear about what happened

1671

00:51:56,630 --> 00:51:54,559

uh with ttsa and how it ended and

1672

00:51:57,990 --> 00:51:56,640

there's a lot of rumors and speculation

1673

00:52:00,470 --> 00:51:58,000

flying around

1674

00:52:01,829 --> 00:52:00,480

um are you able to just give us a brief

1675

00:52:04,309 --> 00:52:01,839

breakdown of

1676
00:52:05,190 --> 00:52:04,319
what happened why it separated and why

1677
00:52:06,710 --> 00:52:05,200
you left and

1678
00:52:08,549 --> 00:52:06,720
and are you still talking and

1679
00:52:09,109 --> 00:52:08,559
communicating i think it just needs to

1680
00:52:11,270 --> 00:52:09,119
be

1681
00:52:13,270 --> 00:52:11,280
laid out there once and for all yeah

1682
00:52:15,670 --> 00:52:13,280
sure so so it wasn't just me who left

1683
00:52:18,630 --> 00:52:15,680
ttsa it was chris mellon and it was

1684
00:52:19,910 --> 00:52:18,640
hal put off and it was uh it was also

1685
00:52:22,309 --> 00:52:19,920
steve justice

1686
00:52:23,430 --> 00:52:22,319
um hal was a founding member he was on

1687
00:52:26,790 --> 00:52:23,440
the board of directors

1688
00:52:29,270 --> 00:52:26,800

um it was decided uh that by by

1689

00:52:29,829 --> 00:52:29,280

folks inside tsa they wanted to pursue

1690

00:52:35,190 --> 00:52:29,839

the

1691

00:52:36,470 --> 00:52:35,200

that really doesn't leave a whole lot of

1692

00:52:39,109 --> 00:52:36,480

of work for

1693

00:52:40,470 --> 00:52:39,119

guys like chris and i and and and steve

1694

00:52:41,750 --> 00:52:40,480

justice who

1695

00:52:44,230 --> 00:52:41,760

you know we're not we're not

1696

00:52:45,190 --> 00:52:44,240

entertainers we're just not and you know

1697

00:52:48,069 --> 00:52:45,200

people see on the street

1698

00:52:49,270 --> 00:52:48,079

oh you got that tv show but i'm not an

1699

00:52:52,230 --> 00:52:49,280

actor

1700

00:52:52,950 --> 00:52:52,240

yeah i'm a former intel officer and so

1701

00:52:55,910 --> 00:52:52,960

um

1702

00:52:56,710 --> 00:52:55,920

our our skill sets uh would have been

1703

00:52:59,829 --> 00:52:56,720

better used

1704

00:53:00,549 --> 00:52:59,839

probably in in a different capacity than

1705

00:53:01,829 --> 00:53:00,559

just

1706

00:53:03,589 --> 00:53:01,839

you know entertainment um

1707

00:53:05,750 --> 00:53:03,599

entertainment's important

1708

00:53:07,510 --> 00:53:05,760

but uh remember that's that's how you in

1709

00:53:09,349 --> 00:53:07,520

some cases you engage the the fifth

1710

00:53:11,910 --> 00:53:09,359

pillar which is public engagement

1711

00:53:12,549 --> 00:53:11,920

yeah but that's not that's not our skill

1712

00:53:14,790 --> 00:53:12,559

set that's

1713

00:53:15,990 --> 00:53:14,800

that's not where we do best you know tom

1714

00:53:18,950 --> 00:53:16,000

and tom

1715

00:53:19,670 --> 00:53:18,960

is a great guy uh he's he's exceedingly

1716

00:53:23,829 --> 00:53:19,680

uh

1717

00:53:26,870 --> 00:53:23,839

very creative

1718

00:53:28,950 --> 00:53:26,880

um but that's not our skill set

1719

00:53:31,030 --> 00:53:28,960

sure and so when the decision was made

1720

00:53:34,390 --> 00:53:31,040

to pursue entertainment

1721

00:53:37,589 --> 00:53:34,400

uh you know it was it was

1722

00:53:40,829 --> 00:53:37,599

um it was prudent

1723

00:53:44,150 --> 00:53:40,839

for for for those of us who are not

1724

00:53:45,670 --> 00:53:44,160

entertainers to to continue to pursue

1725

00:53:46,390 --> 00:53:45,680

this effort the best that we know how

1726
00:53:49,510 --> 00:53:46,400
and that is

1727
00:53:52,710 --> 00:53:49,520
via vis-a-vis government interaction

1728
00:53:53,510 --> 00:53:52,720
media engagement uh you know more more

1729
00:53:57,109 --> 00:53:53,520
strategic

1730
00:54:00,150 --> 00:53:57,119
level dialogue um

1731
00:54:01,670 --> 00:54:00,160
than necessarily you know books or or or

1732
00:54:03,349 --> 00:54:01,680
movies or stuff like that

1733
00:54:04,549 --> 00:54:03,359
no that's great thank you thank you for

1734
00:54:05,990 --> 00:54:04,559
that i mean i think it was important

1735
00:54:07,510 --> 00:54:06,000
because i just get asked it all the time

1736
00:54:07,990 --> 00:54:07,520
and i don't like to speculate and things

1737
00:54:09,589 --> 00:54:08,000
like that

1738
00:54:11,430 --> 00:54:09,599

i think what really interested me with

1739

00:54:12,390 --> 00:54:11,440

that the work going on at that time was

1740

00:54:16,150 --> 00:54:12,400

the adam project

1741

00:54:18,150 --> 00:54:16,160

looking into the meta materials i mean

1742

00:54:20,230 --> 00:54:18,160

i would normally assume that that hal

1743

00:54:21,829 --> 00:54:20,240

put off just continued with that work

1744

00:54:23,990 --> 00:54:21,839

can you can you confirm that at all are

1745

00:54:26,390 --> 00:54:24,000

you aware of it i mean i'd love to

1746

00:54:27,430 --> 00:54:26,400

ask the man himself well i mean

1747

00:54:30,630 --> 00:54:27,440

certainly that's

1748

00:54:31,349 --> 00:54:30,640

very important um you know i i don't

1749

00:54:34,309 --> 00:54:31,359

know what

1750

00:54:35,670 --> 00:54:34,319

ttsa is doing right now uh involving the

1751

00:54:37,829 --> 00:54:35,680

adam i know that that

1752

00:54:39,109 --> 00:54:37,839

we're working on that pretty pretty

1753

00:54:42,870 --> 00:54:39,119

significantly

1754

00:54:44,180 --> 00:54:42,880

uh but adam sorry can i when you say we

1755

00:54:47,190 --> 00:54:44,190

who's we

1756

00:54:50,829 --> 00:54:47,200

[Laughter]

1757

00:54:54,150 --> 00:54:50,839

um some of my colleagues and associates

1758

00:54:56,870 --> 00:54:54,160

okay uh we are pursuing that of course

1759

00:54:57,750 --> 00:54:56,880

adam is a name given by ttsa you know

1760

00:55:01,190 --> 00:54:57,760

that's that's

1761

00:55:03,190 --> 00:55:01,200

the trademark yeah um you know

1762

00:55:05,030 --> 00:55:03,200

let me let me say this with with ttsa

1763

00:55:06,150 --> 00:55:05,040

look they they have an obligation to

1764

00:55:09,910 --> 00:55:06,160

their investors

1765

00:55:11,829 --> 00:55:09,920

to to do a return on investment and uh

1766

00:55:13,589 --> 00:55:11,839

one of the best ways to do that if you

1767

00:55:14,549 --> 00:55:13,599

are an entertainer is to continue

1768

00:55:17,190 --> 00:55:14,559

entertaining

1769

00:55:17,990 --> 00:55:17,200

yeah and so you know doing movies and

1770

00:55:21,910 --> 00:55:18,000

and

1771

00:55:24,630 --> 00:55:21,920

way to get revenue

1772

00:55:25,910 --> 00:55:24,640

and and and make sure that you fulfill

1773

00:55:29,829 --> 00:55:25,920

your promise

1774

00:55:33,430 --> 00:55:29,839

to to to the investors okay and

1775

00:55:33,990 --> 00:55:33,440

uh i i i don't disagree with that i mean

1776

00:55:36,069 --> 00:55:34,000

your first

1777

00:55:37,109 --> 00:55:36,079

obligation is to your investors making

1778

00:55:40,069 --> 00:55:37,119

sure that you

1779

00:55:42,069 --> 00:55:40,079

so um you know it's it's hard what we're

1780

00:55:44,710 --> 00:55:42,079

doing what chris and i are doing

1781

00:55:45,349 --> 00:55:44,720

is very hard to monetize um in fact it

1782

00:55:48,950 --> 00:55:45,359

it it

1783

00:55:51,750 --> 00:55:48,960

costs a lot of personal resources

1784

00:55:53,030 --> 00:55:51,760

to do what we're doing um you know we

1785

00:55:55,670 --> 00:55:53,040

don't have

1786

00:55:57,270 --> 00:55:55,680

have uh you know banks you know giving

1787

00:55:57,589 --> 00:55:57,280

us money hand over fist to do what we're

1788

00:56:00,470 --> 00:55:57,599

doing

1789

00:56:00,870 --> 00:56:00,480

a lot of this is self-financed uh you

1790

00:56:04,309 --> 00:56:00,880

know

1791

00:56:05,030 --> 00:56:04,319

it's it's it can be can be can be a bit

1792

00:56:06,710 --> 00:56:05,040

of a burden

1793

00:56:09,190 --> 00:56:06,720

um and there are certainly you're not

1794

00:56:12,630 --> 00:56:09,200

gonna have any return on investment for

1795

00:56:13,670 --> 00:56:12,640

for your investors um doing it you know

1796

00:56:17,030 --> 00:56:13,680

what we're doing

1797

00:56:19,430 --> 00:56:17,040

so brilliant that's that's great um

1798

00:56:21,190 --> 00:56:19,440

i'm going to move on to dr eric davis

1799

00:56:24,470 --> 00:56:21,200

who i am a big fan of

1800

00:56:26,230 --> 00:56:24,480

um me too a very big fan now he's uh

1801

00:56:28,309 --> 00:56:26,240

he's claimed a few times that um

1802

00:56:29,990 --> 00:56:28,319

the eight it never ended in 2012 it just

1803

00:56:31,910 --> 00:56:30,000

simply changed managerial

1804

00:56:34,069 --> 00:56:31,920

roles and switched around a few things

1805

00:56:35,750 --> 00:56:34,079

and continues to this day

1806

00:56:37,030 --> 00:56:35,760

um is that what you're talking about

1807

00:56:38,789 --> 00:56:37,040

when you're talking about me and my

1808

00:56:41,030 --> 00:56:38,799

colleagues

1809

00:56:42,230 --> 00:56:41,040

um well first of all eric davis is a

1810

00:56:43,990 --> 00:56:42,240

national treasure and i mean

1811

00:56:45,430 --> 00:56:44,000

absolutely if you ever have a chance to

1812

00:56:47,829 --> 00:56:45,440

meet him uh

1813

00:56:48,549 --> 00:56:47,839

he is one of the original greybeards um

1814

00:56:54,950 --> 00:56:48,559

he

1815

00:56:57,190 --> 00:56:54,960

know i did some things

1816

00:56:57,990 --> 00:56:57,200

i i've read the reports i know exactly

1817

00:56:59,829 --> 00:56:58,000

what he's done for

1818

00:57:01,349 --> 00:56:59,839

his country and and one day they'll

1819

00:57:04,309 --> 00:57:01,359

write a book about him uh

1820

00:57:05,430 --> 00:57:04,319

he he really is he really is the man

1821

00:57:07,750 --> 00:57:05,440

behind the green curtain

1822

00:57:08,549 --> 00:57:07,760

to some degree he's an incredible human

1823

00:57:12,710 --> 00:57:08,559

being

1824

00:57:15,510 --> 00:57:12,720

uh an incredible patriot um as far as

1825

00:57:17,270 --> 00:57:15,520

working with with with eric um yeah i

1826

00:57:19,589 --> 00:57:17,280

mean we we we talk all the time

1827

00:57:20,950 --> 00:57:19,599

right i mean it's it's very it's not

1828

00:57:23,349 --> 00:57:20,960

every day you get a chance to talk to

1829

00:57:25,589 --> 00:57:23,359

you know a nuclear physicist right who's

1830

00:57:27,510 --> 00:57:25,599

worked on beamed energy propulsion and

1831

00:57:30,549 --> 00:57:27,520

you know was the author on some of these

1832

00:57:33,750 --> 00:57:30,559

dirts um he's a living legend

1833

00:57:35,910 --> 00:57:33,760

so yeah of course we we still talk and

1834

00:57:38,069 --> 00:57:35,920

we still collaborate and

1835

00:57:39,349 --> 00:57:38,079

you know when opportunities arise for us

1836

00:57:42,630 --> 00:57:39,359

to all uh

1837

00:57:45,349 --> 00:57:42,640

work together on on on a project we we

1838

00:57:47,030 --> 00:57:45,359

we do that um and if it comes out maybe

1839

00:57:48,470 --> 00:57:47,040

in the next year or so that people find

1840

00:57:49,750 --> 00:57:48,480

out hey there's another project that

1841

00:57:50,789 --> 00:57:49,760

these guys were working on behind the

1842

00:57:53,750 --> 00:57:50,799

scenes

1843

00:57:54,309 --> 00:57:53,760

you know that shouldn't be a surprise

1844

00:57:56,789 --> 00:57:54,319

great

1845

00:57:57,430 --> 00:57:56,799

i look forward to it absolutely thank

1846

00:57:58,950 --> 00:57:57,440

you

1847

00:58:00,630 --> 00:57:58,960

um i'm just going to move on now to a

1848

00:58:03,910 --> 00:58:00,640

few of my follower questions so

1849

00:58:05,990 --> 00:58:03,920

um yeah these are from them not from me

1850

00:58:07,349 --> 00:58:06,000

um so vinnie by the way let me introduce

1851

00:58:09,030 --> 00:58:07,359

i want to propose something i mean don't

1852

00:58:10,230 --> 00:58:09,040

get me wrong i love twitter i'm always

1853

00:58:12,150 --> 00:58:10,240

talking to everybody

1854

00:58:13,910 --> 00:58:12,160

was is there a way where we can like

1855

00:58:16,230 --> 00:58:13,920

change the term or the

1856

00:58:17,430 --> 00:58:16,240

tag of their followers into like

1857

00:58:19,270 --> 00:58:17,440

colleagues because

1858

00:58:20,549 --> 00:58:19,280

i just feel so damn guilty every time

1859

00:58:23,349 --> 00:58:20,559

like someone says i've got

1860

00:58:24,630 --> 00:58:23,359

umpteen number of followers you know i

1861

00:58:26,390 --> 00:58:24,640

on this topic

1862

00:58:27,910 --> 00:58:26,400

i don't think anybody's following

1863

00:58:29,589 --> 00:58:27,920

anybody i think we're all leading the

1864

00:58:31,030 --> 00:58:29,599

charge together and i wish there was a

1865

00:58:33,670 --> 00:58:31,040

way we could change that

1866

00:58:34,549 --> 00:58:33,680

stupid tag that says followers or

1867

00:58:37,030 --> 00:58:34,559

following

1868

00:58:38,150 --> 00:58:37,040

into something like you know i don't

1869

00:58:40,630 --> 00:58:38,160

know some sort of

1870

00:58:42,069 --> 00:58:40,640

collective hey you know you're you're

1871

00:58:43,270 --> 00:58:42,079

you're now part of the part of the fight

1872

00:58:45,670 --> 00:58:43,280

right you're now part

1873

00:58:47,109 --> 00:58:45,680

i agree 100 i will start using my

1874

00:58:48,069 --> 00:58:47,119

colleagues instead of followers i think

1875

00:58:50,309 --> 00:58:48,079

they'll love that and

1876
00:58:52,309 --> 00:58:50,319
and i'm i am classed as disclosure team

1877
00:58:54,230 --> 00:58:52,319
and everyone asks about me and my

1878
00:58:55,430 --> 00:58:54,240
team and it's actually just me and i say

1879
00:58:57,750 --> 00:58:55,440
that my

1880
00:58:59,670 --> 00:58:57,760
colleagues followers are the rest of the

1881
00:59:01,589 --> 00:58:59,680
team we are one collective together

1882
00:59:04,870 --> 00:59:01,599
because we're all after the same thing

1883
00:59:06,390 --> 00:59:04,880
and i always i always tell you exactly

1884
00:59:08,470 --> 00:59:06,400
and i love that you say you know

1885
00:59:09,190 --> 00:59:08,480
disclosure team it's it's right we are a

1886
00:59:13,430 --> 00:59:09,200
team

1887
00:59:15,829 --> 00:59:13,440
when we stand shoulder to shoulder

1888
00:59:16,950 --> 00:59:15,839

and uh you know we are only here because

1889

00:59:18,710 --> 00:59:16,960

we're working together we're not here

1890

00:59:22,549 --> 00:59:18,720

because i got 45 000 followers

1891

00:59:24,470 --> 00:59:22,559

no you know we're here because all of us

1892

00:59:25,349 --> 00:59:24,480

together have decided to to stand

1893

00:59:26,950 --> 00:59:25,359

together

1894

00:59:29,109 --> 00:59:26,960

and and do our best to have this

1895

00:59:29,589 --> 00:59:29,119

conversation together collectively right

1896

00:59:31,190 --> 00:59:29,599

absolutely

1897

00:59:32,309 --> 00:59:31,200

and all opinions matter all opinions

1898

00:59:33,990 --> 00:59:32,319

count even the ones that aren't

1899

00:59:36,470 --> 00:59:34,000

necessarily very nice sometimes

1900

00:59:37,910 --> 00:59:36,480

yeah um you know i i just anyway i just

1901

00:59:39,270 --> 00:59:37,920

say that because i wish there was a way

1902

00:59:40,870 --> 00:59:39,280

we could petition twitter

1903

00:59:42,309 --> 00:59:40,880

and say look is there any way we could

1904

00:59:46,309 --> 00:59:42,319

change anything

1905

00:59:47,829 --> 00:59:46,319

like you know live or whatever

1906

00:59:49,510 --> 00:59:47,839

um i'm gonna take that on board i'm

1907

00:59:51,349 --> 00:59:49,520

gonna use that colleagues instead of

1908

00:59:51,990 --> 00:59:51,359

followers going forward so i appreciate

1909

00:59:57,109 --> 00:59:52,000

that

1910

00:59:59,430 --> 00:59:57,119

so my colleague questions

1911

01:00:01,270 --> 00:59:59,440

this is from kevin o'malley during your

1912

01:00:03,670 --> 01:00:01,280

employment at the pentagon did you

1913

01:00:05,349 --> 01:00:03,680

become aware of other legacy special

1914

01:00:06,789 --> 01:00:05,359

special access programs which have been

1915

01:00:10,309 --> 01:00:06,799

studying uaps

1916

01:00:11,109 --> 01:00:10,319

for decades yeah so great question kevin

1917

01:00:13,589 --> 01:00:11,119

uh the answer is

1918

01:00:14,789 --> 01:00:13,599

yes um but it was more from the project

1919

01:00:17,670 --> 01:00:14,799

blue book perspective

1920

01:00:18,150 --> 01:00:17,680

it wasn't until i got out of the a tip

1921

01:00:21,030 --> 01:00:18,160

uh

1922

01:00:22,789 --> 01:00:21,040

in 2017 that i was on the hill that i

1923

01:00:26,630 --> 01:00:22,799

was introduced to somebody

1924

01:00:27,589 --> 01:00:26,640

who uh was running a a tip like program

1925

01:00:30,150 --> 01:00:27,599

in the 80s

1926

01:00:30,710 --> 01:00:30,160

for for the navy and i was i was i was

1927

01:00:33,589 --> 01:00:30,720

stunned

1928

01:00:34,390 --> 01:00:33,599

i i you know after all these years i

1929

01:00:35,829 --> 01:00:34,400

wound up

1930

01:00:37,750 --> 01:00:35,839

leaving that meeting scratching my head

1931

01:00:39,750 --> 01:00:37,760

saying you know it

1932

01:00:41,030 --> 01:00:39,760

it only took a decade to find out i mean

1933

01:00:43,349 --> 01:00:41,040

wow

1934

01:00:44,870 --> 01:00:43,359

could have been pretty helpful that's

1935

01:00:46,789 --> 01:00:44,880

interesting definitely could have been

1936

01:00:50,069 --> 01:00:46,799

helpful

1937

01:00:50,470 --> 01:00:50,079

so lou um you showed some slides once in

1938

01:00:52,069 --> 01:00:50,480

a nice

1939

01:00:53,190 --> 01:00:52,079

i think or this is the question so i i

1940

01:00:55,109 --> 01:00:53,200

don't know if it's correct but you

1941

01:00:57,270 --> 01:00:55,119

apparently showed some slides in an scu

1942

01:00:59,349 --> 01:00:57,280

briefing on the nature of uaps which

1943

01:01:02,069 --> 01:00:59,359

showed some foreign nations flags

1944

01:01:03,030 --> 01:01:02,079

specifically danish and swedish are you

1945

01:01:05,190 --> 01:01:03,040

aware of

1946

01:01:06,390 --> 01:01:05,200

they them having any sort of military

1947

01:01:08,710 --> 01:01:06,400

uap studies

1948

01:01:10,789 --> 01:01:08,720

groups ongoing or anything like that and

1949

01:01:13,829 --> 01:01:10,799

that's from christian thompson

1950

01:01:16,069 --> 01:01:13,839

uh the answer is yes there they had some

1951

01:01:17,430 --> 01:01:16,079

programs established when i was in atip

1952

01:01:18,630 --> 01:01:17,440

i'm not going to go into a lot of detail

1953

01:01:19,510 --> 01:01:18,640

i want to speak on behalf of another

1954

01:01:21,430 --> 01:01:19,520

country

1955

01:01:23,109 --> 01:01:21,440

where they were they were looking into

1956

01:01:25,430 --> 01:01:23,119

into uaps

1957

01:01:27,030 --> 01:01:25,440

um shouldn't be any surprise no

1958

01:01:28,950 --> 01:01:27,040

absolutely i think that's

1959

01:01:30,630 --> 01:01:28,960

great that they did and you said they

1960

01:01:32,069 --> 01:01:30,640

did rather than they have is that

1961

01:01:34,390 --> 01:01:32,079

something that you

1962

01:01:35,829 --> 01:01:34,400

you think might have ended or well i i

1963

01:01:37,109 --> 01:01:35,839

don't i want to be very careful i don't

1964

01:01:39,109 --> 01:01:37,119

want to speak on behalf of

1965

01:01:40,789 --> 01:01:39,119

countries current capabilities and

1966

01:01:42,870 --> 01:01:40,799

interests

1967

01:01:43,829 --> 01:01:42,880

that i i'd rather let the country speak

1968

01:01:46,309 --> 01:01:43,839

for themselves

1969

01:01:47,910 --> 01:01:46,319

um you know i especially if i have to go

1970

01:01:49,270 --> 01:01:47,920

back over there and work with them

1971

01:01:51,589 --> 01:01:49,280

you know i don't want to be one of those

1972

01:01:54,789 --> 01:01:51,599

guys that you know has made life

1973

01:01:56,470 --> 01:01:54,799

uh complicated for them unnecessarily

1974

01:01:58,069 --> 01:01:56,480

so i don't respect for them i'd rather

1975

01:02:00,150 --> 01:01:58,079

let them answer that question

1976

01:02:02,390 --> 01:02:00,160

um as it relates to present day

1977

01:02:05,190 --> 01:02:02,400

brilliant that's great thank you

1978

01:02:06,069 --> 01:02:05,200

um this is from my good friend mr strafe

1979

01:02:09,349 --> 01:02:06,079

wilson

1980

01:02:11,349 --> 01:02:09,359

did you ever meet uh richard doty

1981

01:02:12,630 --> 01:02:11,359

in a professional capacity during your

1982

01:02:15,750 --> 01:02:12,640

time with atib

1983

01:02:17,589 --> 01:02:15,760

i've never met mr doty uh ever and not

1984

01:02:20,309 --> 01:02:17,599

even in my off even

1985

01:02:20,630 --> 01:02:20,319

even in my current capacity um you know

1986

01:02:39,990 --> 01:02:20,640

i

1987

01:02:41,910 --> 01:02:40,000

um okay perhaps

1988

01:02:43,510 --> 01:02:41,920

i'll leave it at that that's fine that's

1989

01:02:46,069 --> 01:02:43,520

fine

1990

01:02:46,710 --> 01:02:46,079

great question because because i mean

1991

01:02:49,109 --> 01:02:46,720

you both

1992

01:02:50,470 --> 01:02:49,119

both worked under similar intelligence

1993

01:02:55,029 --> 01:02:50,480

agencies

1994

01:02:58,789 --> 01:02:56,549

what are your thoughts on the various

1995

01:03:01,190 --> 01:02:58,799

videos over the years supposedly showing

1996

01:03:04,390 --> 01:03:01,200

real footage of extraterrestrial beings

1997

01:03:07,270 --> 01:03:04,400

such as the skinny bop video

1998

01:03:08,470 --> 01:03:07,280

we'd have to we have to validate and

1999

01:03:11,190 --> 01:03:08,480

verify that before

2000

01:03:11,750 --> 01:03:11,200

i could speculate on it you know i'm not

2001

01:03:26,069 --> 01:03:11,760

a

2002

01:03:28,630 --> 01:03:26,079

um unlike some other folks who you know

2003

01:03:30,470 --> 01:03:28,640

have have recently informed the media

2004

01:03:31,750 --> 01:03:30,480

that they're experts in xyz when they're

2005

01:03:35,589 --> 01:03:31,760

really not

2006

01:03:37,910 --> 01:03:35,599

uh i i'm i'm not a video expert and so

2007

01:03:38,950 --> 01:03:37,920

any type of video whether it's of

2008

01:03:41,430 --> 01:03:38,960

potentially

2009

01:03:42,069 --> 01:03:41,440

extraterrestrial life or anything else

2010

01:03:44,950 --> 01:03:42,079

um

2011

01:03:46,470 --> 01:03:44,960

you know we i would need an expert or

2012

01:03:47,589 --> 01:03:46,480

two or three like we did on our show

2013

01:03:49,190 --> 01:03:47,599

with unidentified

2014

01:03:51,510 --> 01:03:49,200

should sit there and and look at these

2015

01:03:53,670 --> 01:03:51,520

objects uh or in this case

2016

01:03:55,190 --> 01:03:53,680

you know biological organism if that

2017

01:03:56,230 --> 01:03:55,200

indeed is the case i

2018

01:03:57,910 --> 01:03:56,240

i don't know i don't have enough

2019

01:03:58,630 --> 01:03:57,920

information to speculate one way or the

2020

01:04:00,950 --> 01:03:58,640

other

2021

01:04:01,750 --> 01:04:00,960

great no that's fine thank you um just

2022

01:04:05,109 --> 01:04:01,760

keeping with the

2023

01:04:06,630 --> 01:04:05,119

the show unidentified um in the program

2024

01:04:09,029 --> 01:04:06,640

the italians had a

2025

01:04:11,029 --> 01:04:09,039

a frequency that the uaps used to shoot

2026

01:04:13,510 --> 01:04:11,039

down a helicopter

2027

01:04:14,470 --> 01:04:13,520

um can you tell us more about that at

2028

01:04:16,150 --> 01:04:14,480

all because i think you

2029

01:04:17,510 --> 01:04:16,160

you went over there didn't you yeah look

2030

01:04:18,309 --> 01:04:17,520

here here people will look at this and

2031

01:04:20,309 --> 01:04:18,319

say oh the

2032

01:04:22,390 --> 01:04:20,319

italy thing was some guy who who you

2033

01:04:24,549 --> 01:04:22,400

know set fires and it was an artist look

2034

01:04:27,270 --> 01:04:24,559

we we we saw the real file we saw the

2035

01:04:28,789 --> 01:04:27,280

real documents and investigation

2036

01:04:30,789 --> 01:04:28,799

and and that's simply not true people

2037

01:04:32,150 --> 01:04:30,799

say oh that's a hoax no it's not

2038

01:04:34,789 --> 01:04:32,160

okay you weren't there in the meetings

2039

01:04:36,069 --> 01:04:34,799

i'm gonna say you but that we were there

2040

01:04:38,069 --> 01:04:36,079

and what they explained was very

2041

01:04:39,510 --> 01:04:38,079

interesting first of all you had these

2042

01:04:40,950 --> 01:04:39,520

old houses on the seashore

2043

01:04:42,870 --> 01:04:40,960

that were burning up but here's what's

2044

01:04:44,470 --> 01:04:42,880

so interesting they still had the

2045

01:04:46,230 --> 01:04:44,480

original copper wiring running through

2046

01:04:47,029 --> 01:04:46,240

the walls for electricity and whatnot

2047

01:04:50,309 --> 01:04:47,039

well right

2048

01:04:54,390 --> 01:04:50,319

they were able to determine by by

2049

01:04:56,710 --> 01:04:54,400

the the distance between the

2050

01:04:57,510 --> 01:04:56,720

the the points of heat in the copper

2051
01:04:59,349 --> 01:04:57,520
cable

2052
01:05:00,789 --> 01:04:59,359
to determine what the frequency that was

2053
01:05:02,549 --> 01:05:00,799
was been some sort of electromagnetic

2054
01:05:03,910 --> 01:05:02,559
frequency that was being used

2055
01:05:05,750 --> 01:05:03,920
and interestingly enough they thought

2056
01:05:06,789 --> 01:05:05,760
that this was originally a russian sub

2057
01:05:08,069 --> 01:05:06,799
they thought this was some sort of

2058
01:05:10,069 --> 01:05:08,079
directed energy

2059
01:05:11,829 --> 01:05:10,079
testing being done by a russian sub off

2060
01:05:13,190 --> 01:05:11,839
the coast because the

2061
01:05:15,430 --> 01:05:13,200
these things kept happening kept saying

2062
01:05:19,190 --> 01:05:15,440
the same and from that they calculated

2063
01:05:21,270 --> 01:05:19,200

the the the electromagnetic uh

2064

01:05:22,549 --> 01:05:21,280

frequency of of what this directed

2065

01:05:24,390 --> 01:05:22,559

energy was

2066

01:05:25,750 --> 01:05:24,400

furthermore they actually evacuated a

2067

01:05:26,870 --> 01:05:25,760

village and built this huge what looked

2068

01:05:29,750 --> 01:05:26,880

like a faraday cage

2069

01:05:31,190 --> 01:05:29,760

according to italian authorities to to

2070

01:05:32,870 --> 01:05:31,200

try to really begin to start

2071

01:05:34,069 --> 01:05:32,880

intercepting these these frequencies and

2072

01:05:35,670 --> 01:05:34,079

figuring it out

2073

01:05:37,190 --> 01:05:35,680

and it turns out that the helicopter

2074

01:05:39,750 --> 01:05:37,200

that they were using which was a

2075

01:05:40,870 --> 01:05:39,760

an undercover helicopter uh there's

2076

01:05:43,270 --> 01:05:40,880

pictures of these

2077

01:05:44,950 --> 01:05:43,280

things of this these objects from

2078

01:05:47,349 --> 01:05:44,960

different perspectives

2079

01:05:49,990 --> 01:05:47,359

following the helicopter and that when

2080

01:05:52,870 --> 01:05:50,000

the helicopter did an emergency landing

2081

01:05:53,270 --> 01:05:52,880

it had its rotor one of its rotors blown

2082

01:05:57,430 --> 01:05:53,280

out

2083

01:06:02,150 --> 01:05:57,440

see the it it

2084

01:06:04,069 --> 01:06:02,160

blown out like that and you know

2085

01:06:06,470 --> 01:06:04,079

these incidents continue to some degree

2086

01:06:08,390 --> 01:06:06,480

after supposedly the perpetrator of

2087

01:06:11,029 --> 01:06:08,400

these house fires was arrested

2088

01:06:12,950 --> 01:06:11,039

so you know it's it's it's simply not

2089

01:06:14,069 --> 01:06:12,960

true what what some people have told us

2090

01:06:15,589 --> 01:06:14,079

at least what from our

2091

01:06:17,270 --> 01:06:15,599

understanding of the investigation which

2092

01:06:18,470 --> 01:06:17,280

we were privy to we actually saw the

2093

01:06:20,549 --> 01:06:18,480

documentation

2094

01:06:21,750 --> 01:06:20,559

and the briefing slides you know it was

2095

01:06:23,990 --> 01:06:21,760

it was very compelling

2096

01:06:26,230 --> 01:06:24,000

um and by the way we were briefed by the

2097

01:06:27,750 --> 01:06:26,240

by their by their joint chiefs of staff

2098

01:06:29,670 --> 01:06:27,760

and the former commander of their navy

2099

01:06:30,710 --> 01:06:29,680

seals who were leading this

2100

01:06:31,910 --> 01:06:30,720

investigation

2101

01:06:33,430 --> 01:06:31,920

there's pictures from different

2102

01:06:35,029 --> 01:06:33,440

perspectives from different people of

2103

01:06:36,470 --> 01:06:35,039

the same object

2104

01:06:38,069 --> 01:06:36,480

maneuvering like this all through the

2105

01:06:40,150 --> 01:06:38,079

sky and there's actually

2106

01:06:41,829 --> 01:06:40,160

photographs and you can see it moving

2107

01:06:43,430 --> 01:06:41,839

with its instantaneous acceleration and

2108

01:06:46,230 --> 01:06:43,440

hypersonic velocity

2109

01:06:47,589 --> 01:06:46,240

so uh you know that that's that's the

2110

01:06:49,829 --> 01:06:47,599

italian uh if you will

2111

01:06:51,190 --> 01:06:49,839

incident that that we've made privy to i

2112

01:06:52,630 --> 01:06:51,200

mean i've seen the program for a few

2113

01:06:53,750 --> 01:06:52,640

times i can't remember was that footage

2114

01:06:56,470 --> 01:06:53,760

actually in the show

2115

01:06:57,510 --> 01:06:56,480

or is it not is it critically available

2116

01:06:59,430 --> 01:06:57,520

the problem is that

2117

01:07:01,190 --> 01:06:59,440

you know i i don't know i don't i've

2118

01:07:02,630 --> 01:07:01,200

never seen it publicly available i i

2119

01:07:04,390 --> 01:07:02,640

tell you from my perspective

2120

01:07:05,750 --> 01:07:04,400

you know what's so frustrating when you

2121

01:07:07,829 --> 01:07:05,760

do a tv shows

2122

01:07:08,789 --> 01:07:07,839

we're filming on a hundred or one ratio

2123

01:07:11,029 --> 01:07:08,799

meaning for

2124

01:07:13,029 --> 01:07:11,039

every one minute you see on on camera

2125

01:07:14,470 --> 01:07:13,039

you have a hundred minutes of film that

2126
01:07:15,349 --> 01:07:14,480
you can't use because there's simply not

2127
01:07:17,190 --> 01:07:15,359
enough time

2128
01:07:19,270 --> 01:07:17,200
right so there's editorial decisions

2129
01:07:20,630 --> 01:07:19,280
made by the editors by these networks to

2130
01:07:21,829 --> 01:07:20,640
decide what's going to go in the show

2131
01:07:23,910 --> 01:07:21,839
and what's not

2132
01:07:26,069 --> 01:07:23,920
and unfortunately so much is left on the

2133
01:07:27,029 --> 01:07:26,079
cutting room floor it's such a shame

2134
01:07:29,430 --> 01:07:27,039
because

2135
01:07:31,430 --> 01:07:29,440
when you see that beat if you will on

2136
01:07:32,710 --> 01:07:31,440
the on the italian investigation

2137
01:07:35,190 --> 01:07:32,720
you haven't seen the rest of what's

2138
01:07:37,109 --> 01:07:35,200

going on which for me was so compelling

2139

01:07:39,190 --> 01:07:37,119

it's like oh my god

2140

01:07:41,109 --> 01:07:39,200

of all the stuff you're going to cut out

2141

01:07:41,990 --> 01:07:41,119

you know why did you cut that out right

2142

01:07:43,990 --> 01:07:42,000

he said well we just simply

2143

01:07:45,589 --> 01:07:44,000

didn't have enough time you know so it

2144

01:07:46,950 --> 01:07:45,599

goes back to you know advertisers and

2145

01:07:47,750 --> 01:07:46,960

having to to make a business out of

2146

01:07:49,910 --> 01:07:47,760

something

2147

01:07:51,750 --> 01:07:49,920

yeah that's frustrating i can imagine

2148

01:07:53,270 --> 01:07:51,760

but that's given me something to

2149

01:07:55,109 --> 01:07:53,280

an angle or a direction to do some

2150

01:07:56,950 --> 01:07:55,119

research into so thank you

2151
01:07:58,630 --> 01:07:56,960
um and i won't keep you too much longer

2152
01:07:59,990 --> 01:07:58,640
i know you've you've probably got a busy

2153
01:08:03,270 --> 01:08:00,000
day ahead of you and

2154
01:08:04,069 --> 01:08:03,280
that but i'll finish on uh on the jeremy

2155
01:08:07,109 --> 01:08:04,079
corbell

2156
01:08:07,589 --> 01:08:07,119
photos videos and data because there are

2157
01:08:10,549 --> 01:08:07,599
two

2158
01:08:11,670 --> 01:08:10,559
views on that then when i see it on with

2159
01:08:15,270 --> 01:08:11,680
my colleagues

2160
01:08:15,990 --> 01:08:15,280
um mixed reactions the the people think

2161
01:08:17,990 --> 01:08:16,000
it's just

2162
01:08:20,229 --> 01:08:18,000
blurry photos and they just want to see

2163
01:08:22,789 --> 01:08:20,239

4k high resolution

2164

01:08:24,550 --> 01:08:22,799

uh videos and photos but i always say

2165

01:08:25,990 --> 01:08:24,560

look we get a lot of backup data with

2166

01:08:27,749 --> 01:08:26,000

flair videos and that

2167

01:08:30,630 --> 01:08:27,759

what are your views on that that thing

2168

01:08:32,950 --> 01:08:30,640

about people just wanting to see a 4k

2169

01:08:33,910 --> 01:08:32,960

photo and not appreciating these

2170

01:08:36,149 --> 01:08:33,920

military

2171

01:08:38,550 --> 01:08:36,159

videos well there are there are high

2172

01:08:39,990 --> 01:08:38,560

definition photos that exist i'm not at

2173

01:08:42,709 --> 01:08:40,000

liberty to discuss some on the

2174

01:08:43,990 --> 01:08:42,719

liberty to to talk about them if they're

2175

01:08:47,189 --> 01:08:44,000

government-sourced

2176
01:08:47,669 --> 01:08:47,199
you know photos or videos um but again

2177
01:08:48,870 --> 01:08:47,679
let me go

2178
01:08:49,910 --> 01:08:48,880
and this is going to be frustrating i

2179
01:08:51,189 --> 01:08:49,920
know part of your audience is going to

2180
01:08:54,309 --> 01:08:51,199
hate me for this

2181
01:08:56,709 --> 01:08:54,319
but our job is not there to satisfy the

2182
01:08:58,789 --> 01:08:56,719
idle curiosity of people our job

2183
01:09:00,229 --> 01:08:58,799
is to get our elected officials engaged

2184
01:09:01,669 --> 01:09:00,239
on this so they can make well-informed

2185
01:09:03,110 --> 01:09:01,679
decisions so we can finally figure this

2186
01:09:04,709 --> 01:09:03,120
out collectively and that's exactly what

2187
01:09:07,030 --> 01:09:04,719
we're doing what's happening

2188
01:09:08,149 --> 01:09:07,040

so you know our mission accomplishment

2189

01:09:10,070 --> 01:09:08,159

is is

2190

01:09:11,910 --> 01:09:10,080

making sure that we have an enduring

2191

01:09:12,390 --> 01:09:11,920

capability so one day you can get those

2192

01:09:15,110 --> 01:09:12,400

4k

2193

01:09:17,110 --> 01:09:15,120

photos but this is not we're not here to

2194

01:09:18,390 --> 01:09:17,120

satisfy the idle curiosity people say

2195

01:09:19,990 --> 01:09:18,400

that's enough lou you need to

2196

01:09:21,030 --> 01:09:20,000

you need to get rid of your your

2197

01:09:22,309 --> 01:09:21,040

non-disclosure agreement with the

2198

01:09:23,669 --> 01:09:22,319

government help with everything and you

2199

01:09:24,470 --> 01:09:23,679

know what you should go to jail for us

2200

01:09:25,829 --> 01:09:24,480

you know

2201

01:09:27,829 --> 01:09:25,839

well that sounds nice but you don't have

2202

01:09:29,669 --> 01:09:27,839

a family to feed you know exactly

2203

01:09:31,349 --> 01:09:29,679

you know it's easy for you to say you

2204

01:09:33,430 --> 01:09:31,359

know but you could always you know

2205

01:09:34,470 --> 01:09:33,440

be in my shoes homie for a minute and

2206

01:09:36,470 --> 01:09:34,480

try what it's like

2207

01:09:37,669 --> 01:09:36,480

it ain't easy you know it's it's a lot

2208

01:09:41,269 --> 01:09:37,679

of work

2209

01:09:42,470 --> 01:09:41,279

and um you know you you're risking a lot

2210

01:09:44,550 --> 01:09:42,480

by by doing that

2211

01:09:45,910 --> 01:09:44,560

and so you know i've i've never been

2212

01:09:47,430 --> 01:09:45,920

once a leak information

2213

01:09:49,749 --> 01:09:47,440

people say you know information was

2214

01:09:51,990 --> 01:09:49,759

leaked i i never leaked information

2215

01:09:53,590 --> 01:09:52,000

i know people have but i don't recommend

2216

01:09:55,430 --> 01:09:53,600

it if you have a security clearance

2217

01:09:56,870 --> 01:09:55,440

um you know i'm held to a different

2218

01:10:00,070 --> 01:09:56,880

standard than you are

2219

01:10:00,790 --> 01:10:00,080

because it to me it's it's guilty

2220

01:10:02,630 --> 01:10:00,800

knowledge i

2221

01:10:03,990 --> 01:10:02,640

if i know something's classified and i

2222

01:10:06,709 --> 01:10:04,000

talk about it

2223

01:10:08,070 --> 01:10:06,719

i go to jail you are a civilian you

2224

01:10:09,430 --> 01:10:08,080

don't have a security clearance if you

2225

01:10:10,550 --> 01:10:09,440

talk about something and didn't know it

2226

01:10:12,790 --> 01:10:10,560

was classified

2227

01:10:13,910 --> 01:10:12,800

there's nothing going to happen to you

2228

01:10:15,350 --> 01:10:13,920

nothing at all

2229

01:10:17,189 --> 01:10:15,360

you get to live your life every day just

2230

01:10:19,189 --> 01:10:17,199

like you normally do guys like me we go

2231

01:10:20,630 --> 01:10:19,199

to jail for 20 years maybe longer

2232

01:10:22,310 --> 01:10:20,640

i think people forget that as well and

2233

01:10:22,790 --> 01:10:22,320

they just expect you to sacrifice your

2234

01:10:25,030 --> 01:10:22,800

life

2235

01:10:26,310 --> 01:10:25,040

for for the masses and i mean that's

2236

01:10:27,669 --> 01:10:26,320

ridiculous

2237

01:10:29,270 --> 01:10:27,679

well and you know honestly if we had

2238

01:10:31,189 --> 01:10:29,280

done it that way three years ago i'm not

2239

01:10:32,790 --> 01:10:31,199

sure we'd be this far down the road

2240

01:10:34,229 --> 01:10:32,800

yeah i think it would just be a blip on

2241

01:10:37,510 --> 01:10:34,239

the radar and you know

2242

01:10:39,270 --> 01:10:37,520

some in you know prisoner number uh and

2243

01:10:40,790 --> 01:10:39,280

and we would not be where we are today

2244

01:10:42,470 --> 01:10:40,800

again we have to be very

2245

01:10:44,630 --> 01:10:42,480

deliberate how we do this i'm not trying

2246

01:10:46,229 --> 01:10:44,640

to be destructive i'm trying to be

2247

01:10:48,390 --> 01:10:46,239

constructive

2248

01:10:49,990 --> 01:10:48,400

that's that's why this is conversation

2249

01:10:52,390 --> 01:10:50,000

is is happening the way it is

2250

01:10:53,270 --> 01:10:52,400

i'm not trying to tear anything down i'm

2251

01:10:57,030 --> 01:10:53,280

trying to to

2252

01:10:59,189 --> 01:10:57,040

to fix it no of course and i'm gonna ask

2253

01:11:01,189 --> 01:10:59,199

you one final question and it

2254

01:11:02,630 --> 01:11:01,199

probably is a little bit cheeky but i'm

2255

01:11:03,510 --> 01:11:02,640

gonna ask anyway we were just talking

2256

01:11:05,830 --> 01:11:03,520

about the 4k

2257

01:11:07,350 --> 01:11:05,840

photos there is this one photo that

2258

01:11:09,350 --> 01:11:07,360

everybody's been talking about for quite

2259

01:11:11,110 --> 01:11:09,360

some time now showing

2260

01:11:13,430 --> 01:11:11,120

reportedly showing a black triangle

2261

01:11:16,070 --> 01:11:13,440

that's come out of the ocean

2262

01:11:16,630 --> 01:11:16,080

have you seen that photo i can't discuss

2263

01:11:19,430 --> 01:11:16,640

it

2264

01:11:21,350 --> 01:11:19,440

okay no worries i thought i'd ask

2265

01:11:23,830 --> 01:11:21,360

questions

2266

01:11:25,189 --> 01:11:23,840

well lou i can just not thank you enough

2267

01:11:27,910 --> 01:11:25,199

for being here and

2268

01:11:29,590 --> 01:11:27,920

and let me ask you these questions um

2269

01:11:31,669 --> 01:11:29,600

very my sincere pleasure

2270

01:11:34,550 --> 01:11:31,679

i i hope i didn't bore you or you or

2271

01:11:37,750 --> 01:11:34,560

your audience too much

2272

01:11:39,750 --> 01:11:37,760

you know i i sometimes i i i tend to

2273

01:11:41,270 --> 01:11:39,760

wear my mind on my sleeve

2274

01:11:43,270 --> 01:11:41,280

maybe sometimes i'm a little bit too

2275

01:11:44,630 --> 01:11:43,280

candid so if i've offended anybody it's

2276

01:11:47,110 --> 01:11:44,640

certainly not my intent

2277

01:11:47,750 --> 01:11:47,120

you've certainly not offended me okay

2278

01:11:50,550 --> 01:11:47,760

well i

2279

01:11:51,430 --> 01:11:50,560

you know i try to i tried to be

2280

01:11:53,910 --> 01:11:51,440

cognizant of that

2281

01:11:56,390 --> 01:11:53,920

try to try to be aware of that i know

2282

01:11:59,189 --> 01:11:56,400

not everybody necessarily

2283

01:11:59,669 --> 01:11:59,199

appreciates you know a military person

2284

01:12:01,910 --> 01:11:59,679

or

2285

01:12:04,310 --> 01:12:01,920

you know someone who wears their you

2286

01:12:07,510 --> 01:12:04,320

know their patriotism on their sleeve i

2287

01:12:09,510 --> 01:12:07,520

i do i do this this country my my family

2288

01:12:11,590 --> 01:12:09,520

coming as my father's side all

2289

01:12:12,870 --> 01:12:11,600

immigrants and and and being in exile

2290

01:12:15,590 --> 01:12:12,880

now from cuba

2291

01:12:16,790 --> 01:12:15,600

uh you know this country's been been

2292

01:12:19,830 --> 01:12:16,800

fantastic for us

2293

01:12:20,310 --> 01:12:19,840

and you know i i i am i am proud i'm

2294

01:12:22,149 --> 01:12:20,320

proud of

2295

01:12:23,590 --> 01:12:22,159

of of the people i had a chance to work

2296

01:12:26,630 --> 01:12:23,600

with and for and

2297

01:12:28,709 --> 01:12:26,640

and the jobs i had a chance to do and um

2298

01:12:29,830 --> 01:12:28,719

you know i hope i hope that doesn't come

2299

01:12:32,470 --> 01:12:29,840

across

2300

01:12:34,149 --> 01:12:32,480

uh as as militant because as much as i

2301
01:12:35,270 --> 01:12:34,159
love our military i'm not necessarily a

2302
01:12:36,709 --> 01:12:35,280
militant guy

2303
01:12:38,790 --> 01:12:36,719
of course it doesn't come across that

2304
01:12:39,350 --> 01:12:38,800
way you know i much prefer a handshake

2305
01:12:45,669 --> 01:12:39,360
than

2306
01:12:48,229 --> 01:12:45,679
and and i think

2307
01:12:48,709 --> 01:12:48,239
even after today this interview and even

2308
01:12:50,550 --> 01:12:48,719
after

2309
01:12:52,470 --> 01:12:50,560
the the report comes out i think there's

2310
01:12:53,750 --> 01:12:52,480
still going to be a million questions

2311
01:12:55,350 --> 01:12:53,760
that people are going to want to ask you

2312
01:12:56,229 --> 01:12:55,360
so i'd love to invite you back on in the

2313
01:12:58,470 --> 01:12:56,239

future

2314

01:12:59,910 --> 01:12:58,480

and the door is always open for you here

2315

01:13:01,030 --> 01:12:59,920

um we love you and we

2316

01:13:03,350 --> 01:13:01,040

we want to thank you for all the work

2317

01:13:04,070 --> 01:13:03,360

that you're doing anytime and thank you

2318

01:13:06,470 --> 01:13:04,080

for what you're doing

2319

01:13:08,390 --> 01:13:06,480

this is so important this is this is not

2320

01:13:10,070 --> 01:13:08,400

lip service i mean i am telling you for

2321

01:13:11,750 --> 01:13:10,080

a matter of fact we would not be having

2322

01:13:13,669 --> 01:13:11,760

this conversation today

2323

01:13:15,830 --> 01:13:13,679

if it wasn't folks for like you and your

2324

01:13:16,950 --> 01:13:15,840

audience who are engaging on this topic

2325

01:13:18,550 --> 01:13:16,960

you've really made a

2326

01:13:20,550 --> 01:13:18,560

look you made a difference this is this

2327

01:13:23,110 --> 01:13:20,560

is a there's a ground swell

2328

01:13:23,669 --> 01:13:23,120

occurring there's a grassroots movement

2329

01:13:25,430 --> 01:13:23,679

and and

2330

01:13:27,189 --> 01:13:25,440

and our governments are paying attention

2331

01:13:28,709 --> 01:13:27,199

to it even now in the uk

2332

01:13:30,229 --> 01:13:28,719

they're beginning to start to warm up to

2333

01:13:31,669 --> 01:13:30,239

the idea that hey maybe we should start

2334

01:13:32,790 --> 01:13:31,679

be looking at this again and start

2335

01:13:35,510 --> 01:13:32,800

talking to

2336

01:13:36,630 --> 01:13:35,520

our citizens it's it's working it's

2337

01:13:39,510 --> 01:13:36,640

actually happening

2338

01:13:40,070 --> 01:13:39,520

so so huge congratulations and a big

2339

01:13:41,830 --> 01:13:40,080

thanks to

2340

01:13:43,590 --> 01:13:41,840

to to you all as well for doing what

2341

01:13:44,630 --> 01:13:43,600

you're doing thank you that's very kind

2342

01:13:47,350 --> 01:13:44,640

of you to say and it's

2343

01:13:48,870 --> 01:13:47,360

it's my pleasure so um guys thank you

2344

01:13:49,990 --> 01:13:48,880

everybody that's been here live with us

2345

01:13:51,430 --> 01:13:50,000

and for everybody that may come and

2346

01:13:53,910 --> 01:13:51,440

watch us in the future

2347

01:13:55,189 --> 01:13:53,920

um thank you so much like i said i'm

2348

01:13:57,430 --> 01:13:55,199

always i'm new to this

2349

01:13:58,630 --> 01:13:57,440

i'm a bit nervous i may get better over

2350

01:14:00,229 --> 01:13:58,640

time but

2351

01:14:02,470 --> 01:14:00,239

you could afford me yeah you don't seem

2352

01:14:04,390 --> 01:14:02,480

nervous a bit you seem like i i i hit it

2353

01:14:07,350 --> 01:14:04,400

where my mood's steady

2354

01:14:09,189 --> 01:14:07,360

thank you right well then yeah i'm gonna

2355

01:14:11,350 --> 01:14:09,199

end this broadcast here guys so

2356

01:14:12,950 --> 01:14:11,360

um oh what i will say is go and join mr

2357

01:14:13,990 --> 01:14:12,960

channel he's interviewing ryan

2359

01:14:17,189 --> 01:14:16,080

sprague so that's where i'm gonna go
