'Declassified Documents'

Live on YouTube

Thursday August 5th

11.30am PST/2.30pm EST/7.30pm UK

1  
00:00:00,360 --> 00:00:25,509

[Music]

2  
00:00:29,990 --> 00:00:26,470

hey guys

3  
00:00:31,429 --> 00:00:30,000

how's it going uh long time no see it's

4  
00:00:33,110 --> 00:00:31,439

been a while

5  
00:00:34,389 --> 00:00:33,120

uh how is everyone hope everyone's good

6  
00:00:35,830 --> 00:00:34,399

i see that some of you guys are here in

7  
00:00:39,990 --> 00:00:35,840

the chat

8  
00:00:43,430 --> 00:00:40,000

so yeah another day another interview

9  
00:00:50,470 --> 00:00:43,440

without further ado my friend

10  
00:00:55,189 --> 00:00:52,229

hey we're going down to the air b street

11  
00:00:57,590 --> 00:00:55,199

make some rock and roll

12  
00:00:59,189 --> 00:00:57,600

love it man totally trying to get you to

13  
00:00:59,990 --> 00:00:59,199

bust out laughing did you see me down

14

00:01:03,270 --> 00:01:00,000

there

15

00:01:07,030 --> 00:01:03,280

i i noticed some movement

16

00:01:09,750 --> 00:01:07,040

i had my shirt off i was going like this

17

00:01:11,910 --> 00:01:09,760

so how are you bro had a good day yeah

18

00:01:12,390 --> 00:01:11,920

good day good day i'm feeling good today

19

00:01:15,749 --> 00:01:12,400

um

20

00:01:18,550 --> 00:01:15,759

just got done talking to jaz shaw

21

00:01:20,469 --> 00:01:18,560

uh on my channel that's um when i was

22

00:01:22,230 --> 00:01:20,479

just first starting my channel he was

23

00:01:24,789 --> 00:01:22,240

very supportive of me

24

00:01:26,469 --> 00:01:24,799

and did like uh a little piece with me

25

00:01:28,390 --> 00:01:26,479

and i really appreciated that

26

00:01:30,789 --> 00:01:28,400

because you know at that time like you

27

00:01:32,710 --> 00:01:30,799

need and are looking for support

28

00:01:35,030 --> 00:01:32,720

yeah um but you don't want to beg or

29

00:01:35,749 --> 00:01:35,040

anything either and he was just like all

30

00:01:39,350 --> 00:01:35,759

on his own

31

00:01:41,910 --> 00:01:39,360

just so supportive and um

32

00:01:43,590 --> 00:01:41,920

i never forget people know that kind of

33

00:01:45,190 --> 00:01:43,600

stuff that's huge to me

34

00:01:46,630 --> 00:01:45,200

i pretty much had something similar with

35

00:01:49,030 --> 00:01:46,640

james and doley from engaging the

36

00:01:52,550 --> 00:01:49,040

phenomenon and like

37

00:01:54,069 --> 00:01:52,560

i i i was just blown away by like

38

00:01:55,590 --> 00:01:54,079

what you know this guy is saying all

39

00:01:58,149 --> 00:01:55,600

these nice things about me and i've

40

00:02:02,870 --> 00:01:58,159

really done a lot and it's just like

41

00:02:05,350 --> 00:02:02,880

why why i cannot thank him enough

42

00:02:07,270 --> 00:02:05,360

really good dude really yeah um the more

43

00:02:10,389 --> 00:02:07,280

i get to know him as well

44

00:02:12,229 --> 00:02:10,399

um you know the more

45

00:02:13,990 --> 00:02:12,239

impressed and happy i am that there's

46

00:02:16,630 --> 00:02:14,000

people like him out there

47

00:02:18,390 --> 00:02:16,640

yeah man he's going to be big for

48

00:02:18,869 --> 00:02:18,400

through years and years to come in this

49

00:02:21,990 --> 00:02:18,879

subject

50

00:02:24,070 --> 00:02:22,000

man his knowledge is phenomenal yeah you

51  
00:02:25,670 --> 00:02:24,080  
know he never ceases to amaze me i'll

52  
00:02:27,270 --> 00:02:25,680  
see him talking about another aspect

53  
00:02:28,550 --> 00:02:27,280  
that i've not seen him speak on before

54  
00:02:31,750 --> 00:02:28,560  
and he just

55  
00:02:33,990 --> 00:02:31,760  
just so knowledgeable and yeah

56  
00:02:35,509 --> 00:02:34,000  
yeah so hey so tell me a bit more about

57  
00:02:37,509 --> 00:02:35,519  
the the chat with jazz because wasn't

58  
00:02:38,470 --> 00:02:37,519  
jazz on vacation recently or is he back

59  
00:02:42,150 --> 00:02:38,480  
now do you know

60  
00:02:44,630 --> 00:02:42,160  
yeah he's back now he went fishing um

61  
00:02:45,589 --> 00:02:44,640  
caught some fish was hoping to see ufos

62  
00:02:49,350 --> 00:02:45,599  
did not

63  
00:02:53,350 --> 00:02:49,360

but did see one he saw a tic tac

64

00:02:56,630 --> 00:02:53,360

uh when he got home really

65

00:02:59,110 --> 00:02:56,640

genuine sighting yeah whoa

66

00:02:59,910 --> 00:02:59,120

he he took like video and pictures of it

67

00:03:02,470 --> 00:02:59,920

i guess it's

68

00:03:03,509 --> 00:03:02,480

not that great or whatever but you know

69

00:03:05,030 --> 00:03:03,519

you can tell

70

00:03:06,550 --> 00:03:05,040

when somebody's convicted about

71

00:03:09,350 --> 00:03:06,560

something they saw

72

00:03:10,070 --> 00:03:09,360

you can just tell like it's not someone

73

00:03:12,790 --> 00:03:10,080

reaching

74

00:03:13,270 --> 00:03:12,800

it's like you can see the conviction in

75

00:03:15,830 --> 00:03:13,280

him

76

00:03:16,390 --> 00:03:15,840

when he's telling the story like that's

77

00:03:18,869 --> 00:03:16,400

amazing

78

00:03:19,830 --> 00:03:18,879

where's he based what state is he uh new

79

00:03:22,149 --> 00:03:19,840

york

80

00:03:22,949 --> 00:03:22,159

oh right okay yeah i mean i had no idea

81

00:03:25,430 --> 00:03:22,959

wow

82

00:03:28,949 --> 00:03:25,440

yeah so and that's the second thing he

83

00:03:31,270 --> 00:03:28,959

said he saw in six months

84

00:03:32,470 --> 00:03:31,280

a little like me where i just started

85

00:03:34,710 --> 00:03:32,480

seeing stuff all the sudden

86

00:03:36,229 --> 00:03:34,720

hey scott good to see you scott brown

87

00:03:38,390 --> 00:03:36,239

thank you so much mate

88

00:03:40,229 --> 00:03:38,400

thank you so much definitely good to see

89

00:03:44,390 --> 00:03:40,239

all of you in here

90

00:03:50,789 --> 00:03:47,670

josh i i'm not sure

91

00:03:53,830 --> 00:03:50,799

super super nice yep

92

00:03:55,360 --> 00:03:53,840

what's up oh my god it's like we have

93

00:03:57,429 --> 00:03:55,370

the same chat group

94

00:03:59,750 --> 00:03:57,439

[Laughter]

95

00:04:01,190 --> 00:03:59,760

man the colleagues are they're good

96

00:04:04,070 --> 00:04:01,200

they're good guys and gals

97

00:04:05,990 --> 00:04:04,080

supporters yeah love it love it wouldn't

98

00:04:09,030 --> 00:04:06,000

be anywhere without that

99

00:04:10,390 --> 00:04:09,040

exactly man that's why um i almost wish

100

00:04:11,509 --> 00:04:10,400

we could have every single one of them

101  
00:04:13,750 --> 00:04:11,519

join us like

102  
00:04:15,429 --> 00:04:13,760

around the screen and just you're like

103  
00:04:18,629 --> 00:04:15,439

wait

104  
00:04:21,670 --> 00:04:18,639

that'd be awesome man yeah

105  
00:04:23,270 --> 00:04:21,680

so where should we go hey did you like

106  
00:04:24,710 --> 00:04:23,280

the archive background i did this

107  
00:04:27,350 --> 00:04:24,720

because you spent so much time digging

108  
00:04:29,590 --> 00:04:27,360

in documents i thought you

109  
00:04:32,550 --> 00:04:29,600

yeah know mean i see one back there that

110  
00:04:34,310 --> 00:04:32,560

was looks really interesting to me

111  
00:04:36,469 --> 00:04:34,320

you could have left them a bit tidy i

112  
00:04:37,830 --> 00:04:36,479

don't know it's quite quite neat but

113  
00:04:41,350 --> 00:04:37,840

how do you tell what any of them are

114

00:04:44,170 --> 00:04:41,360

dude it's a intuition thing

115

00:04:46,390 --> 00:04:44,180

i just closed my eyes and reach out

116

00:04:48,390 --> 00:04:46,400

[Laughter]

117

00:04:50,150 --> 00:04:48,400

love it say did you do a doc of the day

118

00:04:52,629 --> 00:04:50,160

today with uh jazz

119

00:04:54,469 --> 00:04:52,639

i did not no i took a break from the

120

00:04:54,950 --> 00:04:54,479

docs today because i've been going a

121

00:04:58,469 --> 00:04:54,960

little

122

00:05:01,189 --> 00:04:58,479

uh overboard for a couple days in a row

123

00:05:01,670 --> 00:05:01,199

i noticed i woke up this morning and

124

00:05:04,150 --> 00:05:01,680

obviously

125

00:05:05,510 --> 00:05:04,160

checked my instagram and it was like oh

126

00:05:06,469 --> 00:05:05,520

sean's posted a doc and then i'm

127

00:05:08,550 --> 00:05:06,479

scrolling down oh

128

00:05:10,629 --> 00:05:08,560

there's another one oh and another i

129

00:05:12,070 --> 00:05:10,639

don't know like dude that's incredible

130

00:05:14,710 --> 00:05:12,080

man like

131

00:05:15,590 --> 00:05:14,720

well i have so many of those and really

132

00:05:19,749 --> 00:05:15,600

i just want to

133

00:05:21,430 --> 00:05:19,759

like post them on instagram so

134

00:05:23,029 --> 00:05:21,440

like i said so i can get closure so i

135

00:05:25,590 --> 00:05:23,039

can just move on

136

00:05:26,710 --> 00:05:25,600

yeah and they're not just hanging around

137

00:05:28,629 --> 00:05:26,720

and nobody

138

00:05:30,950 --> 00:05:28,639

sees them or that may want to or

139

00:05:31,430 --> 00:05:30,960

whatever so i'm just posting them on

140

00:05:33,510 --> 00:05:31,440

there

141

00:05:35,590 --> 00:05:33,520

it is what it is no backstory or

142

00:05:37,990 --> 00:05:35,600

anything i'll just tell you what it is

143

00:05:40,150 --> 00:05:38,000

like one project stork no one ever talks

144

00:05:41,670 --> 00:05:40,160

about it

145

00:05:43,350 --> 00:05:41,680

yeah you look at those documents and

146

00:05:47,270 --> 00:05:43,360

they're like what the hell

147

00:05:48,710 --> 00:05:47,280

is this like i can't even make sense of

148

00:05:52,469 --> 00:05:48,720

it really it's tough

149

00:05:54,550 --> 00:05:52,479

it's a lot of code stuff um

150

00:05:56,150 --> 00:05:54,560

you know but whatever i just put it on

151  
00:05:58,230 --> 00:05:56,160  
there you know and that's what it is and

152  
00:06:00,629 --> 00:05:58,240  
i got more coming i'll do that

153  
00:06:01,270 --> 00:06:00,639  
uh because honestly to make a story

154  
00:06:04,550 --> 00:06:01,280  
around

155  
00:06:07,510 --> 00:06:04,560  
all these uh would take me forever so

156  
00:06:10,070 --> 00:06:07,520  
yeah maybe i'll keep the the good ones

157  
00:06:13,430 --> 00:06:10,080  
for doc of the day or something or

158  
00:06:14,070 --> 00:06:13,440  
but yeah doc of the day yeah christopher

159  
00:06:16,950 --> 00:06:14,080  
likes the

160  
00:06:18,830 --> 00:06:16,960  
what the heck is that i like that too

161  
00:06:21,990 --> 00:06:18,840  
yeah

162  
00:06:23,670 --> 00:06:22,000  
you're the only channel that has those

163  
00:06:26,390 --> 00:06:23,680

kind of features like

164

00:06:28,070 --> 00:06:26,400

you know repeating through every kind of

165

00:06:28,790 --> 00:06:28,080

episode or into i think that's really

166

00:06:31,029 --> 00:06:28,800

good

167

00:06:32,790 --> 00:06:31,039

oh thanks man breaks it up a bit as well

168

00:06:34,230 --> 00:06:32,800

you know i feel a bit like sometimes i

169

00:06:36,710 --> 00:06:34,240

just sit here mundane

170

00:06:37,909 --> 00:06:36,720

i don't even do this you know like when

171

00:06:40,950 --> 00:06:37,919

people are speaking

172

00:06:43,590 --> 00:06:40,960

and switch screens like

173

00:06:45,110 --> 00:06:43,600

i ain't got time for all that i rather

174

00:06:47,590 --> 00:06:45,120

focus on the talk here

175

00:06:49,749 --> 00:06:47,600

exactly i completely agree so and like i

176

00:06:54,629 --> 00:06:49,759

don't like this one either

177

00:06:57,749 --> 00:06:54,639

ah that's a bit too close to that yeah

178

00:06:59,430 --> 00:06:57,759

you know well if we ever make it big we

179

00:07:00,790 --> 00:06:59,440

can hire someone to do all that stuff

180

00:07:02,790 --> 00:07:00,800

for us

181

00:07:03,830 --> 00:07:02,800

yeah exactly yeah that's a good point

182

00:07:06,710 --> 00:07:03,840

actually well just get

183

00:07:07,830 --> 00:07:06,720

a makeup artist to make it look pretty

184

00:07:10,230 --> 00:07:07,840

cover my pimples

185

00:07:11,510 --> 00:07:10,240

yeah it's like i'm a real man i got

186

00:07:13,990 --> 00:07:11,520

pimples on my face

187

00:07:17,510 --> 00:07:14,000

[Laughter]

188

00:07:19,830 --> 00:07:17,520

yeah so um

189

00:07:21,749 --> 00:07:19,840

yeah the the documents are crazy i

190

00:07:25,270 --> 00:07:21,759

posted that um

191

00:07:28,870 --> 00:07:25,280

the whole study from university colorado

192

00:07:30,550 --> 00:07:28,880

wow which is just uh a bust really

193

00:07:32,309 --> 00:07:30,560

looking at it you're just disappointed

194

00:07:34,550 --> 00:07:32,319

it's like

195

00:07:36,309 --> 00:07:34,560

it was a classic don't think it's

196

00:07:38,150 --> 00:07:36,319

anything that's what happens though with

197

00:07:39,909 --> 00:07:38,160

those documents i did it years ago so

198

00:07:40,950 --> 00:07:39,919

before i had any social media presence

199

00:07:42,550 --> 00:07:40,960

or anything so

200

00:07:44,230 --> 00:07:42,560

i'd go through these documents i'd sit

201  
00:07:45,830 --> 00:07:44,240  
at the desk i'm at now

202  
00:07:47,670 --> 00:07:45,840  
for hours on end and i'd come across

203  
00:07:49,830 --> 00:07:47,680  
something and

204  
00:07:51,909 --> 00:07:49,840  
i'd be like i've got no one to share

205  
00:07:53,110 --> 00:07:51,919  
these weird and wonderful stories and

206  
00:07:54,629 --> 00:07:53,120  
things with and

207  
00:07:56,710 --> 00:07:54,639  
that's why i love it that you're able to

208  
00:07:59,029 --> 00:07:56,720  
do that um

209  
00:08:00,309 --> 00:07:59,039  
this is interesting vinnie do you use

210  
00:08:03,189 --> 00:08:00,319  
purple shampoo

211  
00:08:05,749 --> 00:08:03,199  
that's interesting well it's interesting

212  
00:08:08,309 --> 00:08:05,759  
yes i have been actually

213  
00:08:09,029 --> 00:08:08,319

how can you tell i know maybe i don't

214

00:08:10,469 --> 00:08:09,039

know but

215

00:08:11,749 --> 00:08:10,479

when my blonde's almost out so i'm

216

00:08:12,790 --> 00:08:11,759

thinking about maybe going a different

217

00:08:15,589 --> 00:08:12,800

color

218

00:08:16,869 --> 00:08:15,599

oh no i'm thinking going like pink or

219

00:08:18,230 --> 00:08:16,879

green or something

220

00:08:20,070 --> 00:08:18,240

i don't think i can hang out with you if

221

00:08:22,790 --> 00:08:20,080

you're not blonde you're fitting

222

00:08:23,510 --> 00:08:22,800

no no i needed a blonde friend like i

223

00:08:29,990 --> 00:08:23,520

have

224

00:08:30,950 --> 00:08:30,000

couple gray hairs great redheads a

225

00:08:34,469 --> 00:08:30,960

redhead friend

226

00:08:37,110 --> 00:08:34,479

ah um but you were the blonde friend so

227

00:08:39,190 --> 00:08:37,120

if you change i gotta fill that spot and

228

00:08:41,190 --> 00:08:39,200

i already have a brunette

229

00:08:42,550 --> 00:08:41,200

well i could i could choose another

230

00:08:44,870 --> 00:08:42,560

color and then just wear a blonde wig

231

00:08:46,310 --> 00:08:44,880

when i speak to you

232

00:08:48,230 --> 00:08:46,320

i can even have a long one if that's

233

00:08:48,790 --> 00:08:48,240

your preference you're that you're that

234

00:08:50,470 --> 00:08:48,800

kind of guy

235

00:08:52,150 --> 00:08:50,480

where you get a 10 minute break and you

236

00:08:57,030 --> 00:08:52,160

have to use it 10 minutes before you

237

00:09:00,790 --> 00:08:58,710

that's brilliant you can do whatever you

238

00:09:03,910 --> 00:09:00,800

want i love you whatever color

239

00:09:07,269 --> 00:09:03,920

love you too brother i love you too man

240

00:09:09,430 --> 00:09:07,279

so let's do a little bit of looking at

241

00:09:10,710 --> 00:09:09,440

some documents because i feel like i i i

242

00:09:13,110 --> 00:09:10,720

needed to bring something

243

00:09:14,870 --> 00:09:13,120

and this just keeps cropping back up in

244

00:09:18,230 --> 00:09:14,880

the in conversation across

245

00:09:19,750 --> 00:09:18,240

twitter and everything is

246

00:09:21,110 --> 00:09:19,760

oh i gotta share my screen i was getting

247

00:09:21,430 --> 00:09:21,120

all ready to click a button and be all

248

00:09:25,590 --> 00:09:21,440

like

249

00:09:30,710 --> 00:09:25,600

tala here we go

250

00:09:32,470 --> 00:09:30,720

a tip the atip slides which

251  
00:09:34,310 --> 00:09:32,480  
we mentioned before we came on a tip

252  
00:09:36,150 --> 00:09:34,320  
slide 9 gets a lot of

253  
00:09:37,590 --> 00:09:36,160  
or a lot more talk than the other slides

254  
00:09:39,269 --> 00:09:37,600  
so what i thought we'd do is just go

255  
00:09:40,230 --> 00:09:39,279  
through them and just see what comes to

256  
00:09:42,710 --> 00:09:40,240  
mind because

257  
00:09:43,990 --> 00:09:42,720  
they're quite vague and i just thought

258  
00:09:46,949 --> 00:09:44,000  
let's just see

259  
00:09:47,910 --> 00:09:46,959  
so should we do like an inkblot thing

260  
00:09:51,110 --> 00:09:47,920  
look at that

261  
00:09:55,750 --> 00:09:51,120  
that's louis lozando here we go

262  
00:09:58,070 --> 00:09:55,760  
so uh inform the deputy secretary of

263  
00:09:59,430 --> 00:09:58,080

defense of ongoing initiatives relating

264

00:10:00,710 --> 00:09:59,440

to atip well that's pretty

265

00:10:03,590 --> 00:10:00,720

straightforward there's nothing

266

00:10:05,829 --> 00:10:03,600

bizarre about that request establishment

267

00:10:08,069 --> 00:10:05,839

of a restricted special access program

268

00:10:10,150 --> 00:10:08,079

with a bigoted access list for specific

269

00:10:12,230 --> 00:10:10,160

portions of atip

270

00:10:14,870 --> 00:10:12,240

now what i got from this is that they're

271

00:10:17,829 --> 00:10:14,880

trying to push atip to become its own

272

00:10:19,990 --> 00:10:17,839

standalone sap special access program

273

00:10:22,790 --> 00:10:20,000

where it has more

274

00:10:23,590 --> 00:10:22,800

depth that it can hold back information

275

00:10:25,269 --> 00:10:23,600

and stuff like that

276

00:10:26,870 --> 00:10:25,279

that's kind of what i've i've heard that

277

00:10:27,910 --> 00:10:26,880

sort of said and thrown around as well

278

00:10:31,829 --> 00:10:27,920

what do you think

279

00:10:33,829 --> 00:10:31,839

yeah i could see that i also see maybe

280

00:10:36,949 --> 00:10:33,839

um they're trying to flush out

281

00:10:38,710 --> 00:10:36,959

individual aspects of the program right

282

00:10:40,470 --> 00:10:38,720

right yeah some more people working

283

00:10:41,190 --> 00:10:40,480

there so yeah it seems like they're

284

00:10:43,269 --> 00:10:41,200

trying to

285

00:10:44,389 --> 00:10:43,279

build it up for sure yeah that's

286

00:10:45,829 --> 00:10:44,399

interesting

287

00:10:47,670 --> 00:10:45,839

but i mean again it's just a small

288

00:10:49,910 --> 00:10:47,680

bullet point so it really probably could

289

00:10:53,670 --> 00:10:49,920

be read in multiple ways

290

00:10:56,310 --> 00:10:53,680

yeah yeah it does seem for specific

291

00:10:57,350 --> 00:10:56,320

portions of atip yes so there's certain

292

00:11:00,550 --> 00:10:57,360

aspects of

293

00:11:03,750 --> 00:11:00,560

a tip um

294

00:11:06,470 --> 00:11:03,760

that yeah uh sap

295

00:11:08,150 --> 00:11:06,480

that's cool i'd love to know which

296

00:11:09,190 --> 00:11:08,160

specific portions because we know they

297

00:11:11,750 --> 00:11:09,200

touched on

298

00:11:12,949 --> 00:11:11,760

every aspect of the phenomena yeah i'd

299

00:11:14,949 --> 00:11:12,959

love to know which ones they want to

300

00:11:17,980 --> 00:11:14,959

throw into the special access program

301  
00:11:23,990 --> 00:11:21,509

[Laughter]

302  
00:11:28,069 --> 00:11:24,000

yeah you get some more bigoted access

303  
00:11:29,590 --> 00:11:28,079

lists for the bigfoot part of eight tips

304  
00:11:31,590 --> 00:11:29,600

yeti thing people have actually seen

305  
00:11:33,350 --> 00:11:31,600

that that's crazy yeah

306  
00:11:35,110 --> 00:11:33,360

yeah man i could do it i i used to love

307  
00:11:36,550 --> 00:11:35,120

looking into that stuff years ago as

308  
00:11:37,430 --> 00:11:36,560

well i could do a probably do a whole

309  
00:11:40,069 --> 00:11:37,440

show on on

310  
00:11:41,670 --> 00:11:40,079

on bigfoot and yeti but yeah definitely

311  
00:11:45,350 --> 00:11:41,680

another time

312  
00:11:49,030 --> 00:11:46,790

they're gonna hear your chest it's not

313  
00:11:52,870 --> 00:11:49,040

that bad it's not like

314

00:11:58,949 --> 00:11:56,870

it's a [h\_\_h] rug

315

00:12:00,389 --> 00:11:58,959

right next bullet i'm just trying to get

316

00:12:01,829 --> 00:12:00,399

your viewers count up here

317

00:12:03,190 --> 00:12:01,839

you know you take the shirt off usually

318

00:12:03,829 --> 00:12:03,200

that works i don't know yeah look at

319

00:12:06,870 --> 00:12:03,839

that boost

320

00:12:08,470 --> 00:12:06,880

dude dude dead buds are hot these days

321

00:12:10,069 --> 00:12:08,480

okay sorry we're getting off track all

322

00:12:12,470 --> 00:12:10,079

right points all good

323

00:12:13,670 --> 00:12:12,480

so reassign billets resources and

324

00:12:17,110 --> 00:12:13,680

recommend personnel

325

00:12:18,310 --> 00:12:17,120

to a dedicated dod a tip support office

326

00:12:20,629 --> 00:12:18,320

so again it just looks like they're

327

00:12:23,910 --> 00:12:20,639

trying to increase their

328

00:12:26,069 --> 00:12:23,920

yep their everything staffing resources

329

00:12:27,910 --> 00:12:26,079

functions

330

00:12:29,350 --> 00:12:27,920

like a logistics office they're trying

331

00:12:31,430 --> 00:12:29,360

to get yeah yeah

332

00:12:33,030 --> 00:12:31,440

and then finally establish a dod at

333

00:12:37,350 --> 00:12:33,040

reporting chain of command i mean

334

00:12:39,750 --> 00:12:37,360

again great i mean yeah

335

00:12:41,590 --> 00:12:39,760

straightforward or look mission

336

00:12:44,150 --> 00:12:41,600

statement

337

00:12:46,069 --> 00:12:44,160

to further identify understand and take

338

00:12:47,750 --> 00:12:46,079

advantage of a generation of highly

339

00:12:49,509 --> 00:12:47,760

advanced technologies and principles

340

00:12:50,470 --> 00:12:49,519

that may be currently employed by other

341

00:12:52,550 --> 00:12:50,480

countries

342

00:12:54,389 --> 00:12:52,560

actors or entities and use this

343

00:12:55,509 --> 00:12:54,399

technology to the benefit of the

344

00:12:57,110 --> 00:12:55,519

department of

345

00:12:59,350 --> 00:12:57,120

department and provide the us with a

346

00:13:03,590 --> 00:12:59,360

decisive advantage over adversaries and

347

00:13:05,750 --> 00:13:03,600

threats hmm yeah that's it

348

00:13:08,710 --> 00:13:05,760

that's iffy huh what do you think yeah

349

00:13:13,350 --> 00:13:10,389

you know what it reminds me of we want

350

00:13:16,629 --> 00:13:13,360

this technology we want to be the best

351

00:13:18,150 --> 00:13:16,639

which i guess is normal from a you know

352

00:13:21,430 --> 00:13:18,160

a military

353

00:13:23,750 --> 00:13:21,440

dod standpoint but it's a bit brazen and

354

00:13:25,670 --> 00:13:23,760

beat my chest i am the best take

355

00:13:29,350 --> 00:13:25,680

advantage of

356

00:13:33,350 --> 00:13:29,360

really reminds me of

357

00:13:35,110 --> 00:13:33,360

is um the a tick report

358

00:13:36,550 --> 00:13:35,120

and one before that where they're

359

00:13:39,430 --> 00:13:36,560

talking about

360

00:13:40,470 --> 00:13:39,440

um looking into the possibility of using

361

00:13:42,790 --> 00:13:40,480

the phenomenon

362

00:13:43,910 --> 00:13:42,800

against each other in psychological

363

00:13:46,710 --> 00:13:43,920

warfare

364

00:13:48,230 --> 00:13:46,720

or if you're able to create it and then

365

00:13:51,670 --> 00:13:48,240

use it against each other

366

00:13:53,990 --> 00:13:51,680

this seems like kind of

367

00:13:55,269 --> 00:13:54,000

it falls on that yeah absolutely and

368

00:13:55,590 --> 00:13:55,279

that was that the conversation you had

369

00:13:59,350 --> 00:13:55,600

with

370

00:14:02,550 --> 00:13:59,360

um daniel um daniel

371

00:14:04,949 --> 00:14:02,560

yes daniel daniel um i

372

00:14:06,069 --> 00:14:04,959

was going through a lot of that stuff

373

00:14:07,829 --> 00:14:06,079

before he hopped on

374

00:14:09,189 --> 00:14:07,839

yeah uh yeah because i think i was on

375

00:14:10,230 --> 00:14:09,199

for a little part of that wasn't i

376

00:14:13,110 --> 00:14:10,240

that's right yeah

377

00:14:14,790 --> 00:14:13,120

yeah i forgot i'm on you i feel like i

378

00:14:17,509 --> 00:14:14,800

live on youtube half the time

379

00:14:18,310 --> 00:14:17,519

yeah i know it gets blurry yeah where's

380

00:14:20,870 --> 00:14:18,320

my house

381

00:14:22,069 --> 00:14:20,880

it is in the filing cabinet right yeah

382

00:14:23,990 --> 00:14:22,079

oh yeah yeah

383

00:14:26,150 --> 00:14:24,000

no but that's what it's that's what it

384

00:14:29,030 --> 00:14:26,160

sounds like to me it's always

385

00:14:29,990 --> 00:14:29,040

uh take advantage yeah so how can we

386

00:14:31,750 --> 00:14:30,000

take this beautiful

387

00:14:33,269 --> 00:14:31,760

thing and use it against other people

388

00:14:35,910 --> 00:14:33,279

much less like

389

00:14:36,949 --> 00:14:35,920

you know nuclear weapons and and other

390

00:14:40,550 --> 00:14:36,959

uh

391

00:14:41,910 --> 00:14:40,560

major um defense complex issues

392

00:14:45,030 --> 00:14:41,920

yeah but it's funny the way they say

393

00:14:48,710 --> 00:14:45,040

currently employed by other countries

394

00:14:50,150 --> 00:14:48,720

and actors i mean i can see

395

00:14:52,069 --> 00:14:50,160

currently employed by entities when

396

00:14:53,509 --> 00:14:52,079

you're talking about some really highly

397

00:14:55,750 --> 00:14:53,519

advanced technology but

398

00:14:57,430 --> 00:14:55,760

countries and actors i mean countries

399

00:15:00,629 --> 00:14:57,440

entities could also be

400

00:15:03,670 --> 00:15:00,639

like uh uh terrorism

401  
00:15:05,590 --> 00:15:03,680  
a terrorist group yeah that's true we

402  
00:15:08,230 --> 00:15:05,600  
don't have to jump to

403  
00:15:11,990 --> 00:15:08,240  
but alien entities yeah there's

404  
00:15:14,150 --> 00:15:12,000  
obviously a clear

405  
00:15:15,030 --> 00:15:14,160  
a clear thing happening at this point in

406  
00:15:18,550 --> 00:15:15,040  
the slides

407  
00:15:21,269 --> 00:15:18,560  
yeah where they're not uh

408  
00:15:24,829 --> 00:15:21,279  
trying to be too obvious yeah so it's

409  
00:15:27,990 --> 00:15:26,470  
correct

410  
00:15:29,670 --> 00:15:28,000  
a signal had a good comment yeah

411  
00:15:30,710 --> 00:15:29,680  
entities just means non-government

412  
00:15:32,470 --> 00:15:30,720  
actors yeah yeah

413  
00:15:33,910 --> 00:15:32,480

that's the thing it can be read so many

414

00:15:36,150 --> 00:15:33,920

ways and when the first time i read it i

415

00:15:37,829 --> 00:15:36,160

was like wait a minute

416

00:15:39,749 --> 00:15:37,839

you know what what are they trying to

417

00:15:40,389 --> 00:15:39,759

say are they insinuating anything

418

00:15:43,430 --> 00:15:40,399

because

419

00:15:45,829 --> 00:15:43,440

it's so vague sounds like a blanket

420

00:15:46,550 --> 00:15:45,839

statement like an other box like another

421

00:15:49,990 --> 00:15:46,560

bin

422

00:15:51,829 --> 00:15:50,000

yeah uh a-tip vision an integrated

423

00:15:52,629 --> 00:15:51,839

capability that provides the department

424

00:15:54,389 --> 00:15:52,639

with beyond

425

00:15:56,790 --> 00:15:54,399

next-generation technologies and

426  
00:15:58,550 --> 00:15:56,800  
understanding particularly in the areas

427  
00:16:00,870 --> 00:15:58,560  
of aerospace so that's pretty

428  
00:16:02,710 --> 00:16:00,880  
straightforward that one i can

429  
00:16:04,870 --> 00:16:02,720  
you know i can sort of see what they're

430  
00:16:06,870 --> 00:16:04,880  
trying to say with that you know

431  
00:16:08,069 --> 00:16:06,880  
straight-up technologies whether it's

432  
00:16:12,790 --> 00:16:08,079  
not just aerospace

433  
00:16:16,550 --> 00:16:12,800  
or craft it may be abilities and

434  
00:16:19,670 --> 00:16:16,560  
you know it's

435  
00:16:21,509 --> 00:16:19,680  
yeah it does give you yeah they're all

436  
00:16:25,110 --> 00:16:21,519  
behind vinny

437  
00:16:30,870 --> 00:16:25,120  
yeah they're over here yeah uh see

438  
00:16:37,829 --> 00:16:35,110

is nasa you know nasa

439

00:16:38,790 --> 00:16:37,839

we're doing something for nasa which is

440

00:16:43,030 --> 00:16:38,800

interesting because

441

00:16:46,069 --> 00:16:43,040

they are so far ahead at this point

442

00:16:46,790 --> 00:16:46,079

with aerospace engineering and

443

00:16:49,910 --> 00:16:46,800

developing

444

00:16:51,509 --> 00:16:49,920

uh their x plane series and all that

445

00:16:54,790 --> 00:16:51,519

yeah

446

00:16:55,350 --> 00:16:54,800

so and again what we're taking from this

447

00:16:57,590 --> 00:16:55,360

almost

448

00:16:59,749 --> 00:16:57,600

is like a project moon does kind of

449

00:17:01,509 --> 00:16:59,759

thing right where

450

00:17:03,430 --> 00:17:01,519

they're trying to procure the

451  
00:17:05,110 --> 00:17:03,440  
technologies and take advantage of them

452  
00:17:07,750 --> 00:17:05,120  
against adversaries

453  
00:17:08,470 --> 00:17:07,760  
and where are they getting it from yeah

454  
00:17:09,909 --> 00:17:08,480  
but it also

455  
00:17:11,669 --> 00:17:09,919  
because it says at the end particularly

456  
00:17:13,029 --> 00:17:11,679  
in the areas of aerospace that means

457  
00:17:15,429 --> 00:17:13,039  
at the previous part they're talking

458  
00:17:17,029 --> 00:17:15,439  
about various types of technologies and

459  
00:17:18,789 --> 00:17:17,039  
this comment here from south coast media

460  
00:17:20,470 --> 00:17:18,799  
productions does it encompass remote

461  
00:17:23,590 --> 00:17:20,480  
viewing well

462  
00:17:24,549 --> 00:17:23,600  
i think it possibly could cover other

463  
00:17:26,789 --> 00:17:24,559

aspects

464

00:17:28,390 --> 00:17:26,799

other than physical objects and craft it

465

00:17:30,070 --> 00:17:28,400

could cover remote viewing it could

466

00:17:33,190 --> 00:17:30,080

cover psychological

467

00:17:35,830 --> 00:17:33,200

physiological warfare you know why not

468

00:17:37,430 --> 00:17:35,840

i mean they are technologies that sean

469

00:17:40,630 --> 00:17:37,440

has spoken about before on his

470

00:17:42,870 --> 00:17:40,640

channel you know yeah most definitely so

471

00:17:45,669 --> 00:17:42,880

it's a possibility it's unclear though

472

00:17:49,830 --> 00:17:47,990

there we go at preliminary assessments

473

00:17:51,350 --> 00:17:49,840

they like their preliminary assessments

474

00:17:53,669 --> 00:17:51,360

in their government don't they

475

00:17:55,590 --> 00:17:53,679

yeah realization that many of the

476  
00:17:57,590 --> 00:17:55,600  
findings if used against the united

477  
00:17:59,350 --> 00:17:57,600  
states may prove to be decisive game

478  
00:18:01,830 --> 00:17:59,360  
changers for our country

479  
00:18:03,750 --> 00:18:01,840  
well we've heard that term game changes

480  
00:18:04,150 --> 00:18:03,760  
thrown about an awful lot haven't we you

481  
00:18:08,310 --> 00:18:04,160  
know

482  
00:18:15,110 --> 00:18:08,320  
thinking about

483  
00:18:17,750 --> 00:18:15,120  
but again that's the same thing as a

484  
00:18:20,950 --> 00:18:17,760  
report made in 1952 man

485  
00:18:22,789 --> 00:18:20,960  
you know so what's the deal here are you

486  
00:18:25,270 --> 00:18:22,799  
still really trying to work out

487  
00:18:27,270 --> 00:18:25,280  
those same things like you you're still

488  
00:18:28,789 --> 00:18:27,280

trying to figure out if you can use this

489

00:18:30,950 --> 00:18:28,799

against people

490

00:18:32,390 --> 00:18:30,960

or it's strange there's something about

491

00:18:34,789 --> 00:18:32,400

that i just don't buy

492

00:18:35,590 --> 00:18:34,799

you know yeah just because it's been so

493

00:18:39,590 --> 00:18:35,600

long

494

00:18:41,510 --> 00:18:39,600

with the same question you know

495

00:18:44,390 --> 00:18:41,520

but granted that question kind of

496

00:18:46,789 --> 00:18:44,400

disappeared over the course of decades

497

00:18:47,510 --> 00:18:46,799

it did but then they must have still

498

00:18:48,870 --> 00:18:47,520

been asked

499

00:18:50,630 --> 00:18:48,880

somewhere maybe they just did it a

500

00:18:52,870 --> 00:18:50,640

better job of hiding it somewhere

501  
00:18:55,190 --> 00:18:52,880  
yeah maybe you know well i never went to

502  
00:18:58,310 --> 00:18:55,200  
the fdca

503  
00:19:00,390 --> 00:18:58,320  
federal district something

504  
00:19:01,830 --> 00:19:00,400  
civilian something yeah this is the

505  
00:19:03,590 --> 00:19:01,840  
thing as well which again you've covered

506  
00:19:05,110 --> 00:19:03,600  
quite a few times is the amount of times

507  
00:19:05,909 --> 00:19:05,120  
that some of these agencies and smaller

508  
00:19:09,190 --> 00:19:05,919  
departments

509  
00:19:10,630 --> 00:19:09,200  
have changed names over and over again i

510  
00:19:11,909 --> 00:19:10,640  
mean that's going to cause confusion

511  
00:19:13,270 --> 00:19:11,919  
when you're digging for stuff because

512  
00:19:15,029 --> 00:19:13,280  
you're looking at one name you should be

513  
00:19:16,549 --> 00:19:15,039

looking at another and it changes here

514

00:19:19,430 --> 00:19:16,559

and it changes there well

515

00:19:20,390 --> 00:19:19,440

here's a good example so the fdca or

516

00:19:24,230 --> 00:19:20,400

whatever the

517

00:19:25,510 --> 00:19:24,240

mass hysteria psychological part um etip

518

00:19:27,430 --> 00:19:25,520

and everybody said

519

00:19:28,870 --> 00:19:27,440

you know that's their wheelhouse let's

520

00:19:31,510 --> 00:19:28,880

give that part to them

521

00:19:32,230 --> 00:19:31,520

so that wasn't a part of their study or

522

00:19:34,390 --> 00:19:32,240

whatever

523

00:19:36,230 --> 00:19:34,400

and so you're thinking like okay i know

524

00:19:38,710 --> 00:19:36,240

where this went

525

00:19:41,029 --> 00:19:38,720

start digging and you find another

526

00:19:45,190 --> 00:19:41,039

document maybe 15 minutes later

527

00:19:47,830 --> 00:19:45,200

where um the guy

528

00:19:49,430 --> 00:19:47,840

who wound up taking it to university

529

00:19:51,110 --> 00:19:49,440

colorado that doctor what's the name

530

00:19:55,190 --> 00:19:51,120

robertson

531

00:19:58,470 --> 00:19:55,200

or with the c i forget what his name is

532

00:20:01,270 --> 00:19:58,480

condon got the condom report i always

533

00:20:04,549 --> 00:20:01,280

mix those two up robertson

534

00:20:07,830 --> 00:20:04,559

yeah but anyways uh the one of those two

535

00:20:08,310 --> 00:20:07,840

you got involved and pretty much took

536

00:20:11,830 --> 00:20:08,320

that

537

00:20:13,190 --> 00:20:11,840

part away from fdca so it it's like

538

00:20:15,270 --> 00:20:13,200

on the one hand you're thinking you

539

00:20:17,590 --> 00:20:15,280

found something just a few minutes later

540

00:20:19,430 --> 00:20:17,600

it blows up in your face but it seems to

541

00:20:21,110 --> 00:20:19,440

be i totally agree that's what

542

00:20:22,950 --> 00:20:21,120

i used to like i said i used to spend

543

00:20:24,630 --> 00:20:22,960

hours and days nights just buried in

544

00:20:26,630 --> 00:20:24,640

those documents you feel like you've got

545

00:20:27,510 --> 00:20:26,640

so far down towards you're going to get

546

00:20:29,909 --> 00:20:27,520

something

547

00:20:31,350 --> 00:20:29,919

boom brick wall you've got to crawl

548

00:20:32,630 --> 00:20:31,360

right back out of that rabbit hob

549

00:20:35,190 --> 00:20:32,640

and then you got to go down another one

550

00:20:38,950 --> 00:20:35,200

start all over again the way i try to do

551  
00:20:41,669 --> 00:20:38,960  
is just have a grounding of something

552  
00:20:42,870 --> 00:20:41,679  
like a document let's say and i'll read

553  
00:20:44,789 --> 00:20:42,880  
through it

554  
00:20:46,390 --> 00:20:44,799  
and i'll let myself branch out in the

555  
00:20:48,149 --> 00:20:46,400  
different directions it can go

556  
00:20:49,430 --> 00:20:48,159  
with the different tips or possible

557  
00:20:51,830 --> 00:20:49,440  
clues

558  
00:20:53,029 --> 00:20:51,840  
and when i'm i'm feeling pretty

559  
00:20:55,830 --> 00:20:53,039  
confident that

560  
00:20:57,430 --> 00:20:55,840  
i found something or didn't then i just

561  
00:21:00,870 --> 00:20:57,440  
bring it back into the core

562  
00:21:02,870 --> 00:21:00,880  
yeah you know so i never go too far off

563  
00:21:04,230 --> 00:21:02,880

anywhere and just find myself on mars

564

00:21:05,750 --> 00:21:04,240

with a bunch of documents that don't

565

00:21:07,110 --> 00:21:05,760

make sense you know okay but listen

566

00:21:07,590 --> 00:21:07,120

you're still able to do things like

567

00:21:09,830 --> 00:21:07,600

you've just

568

00:21:11,430 --> 00:21:09,840

proved to us right now is you're seeing

569

00:21:13,830 --> 00:21:11,440

correlation between things back in the

570

00:21:15,430 --> 00:21:13,840

50s and 60s that relate and almost sound

571

00:21:15,990 --> 00:21:15,440

the same to now that's that's got to be

572

00:21:19,029 --> 00:21:16,000

a benefit

573

00:21:22,149 --> 00:21:19,039

isn't it you know that's awful that's

574

00:21:25,270 --> 00:21:22,159

that's true um and that's why the

575

00:21:29,750 --> 00:21:25,280

report that has come out recently

576

00:21:32,950 --> 00:21:29,760

i stand by it is a positive

577

00:21:36,470 --> 00:21:32,960

because it's so much different than

578

00:21:38,789 --> 00:21:36,480

any of the other reports i read is it

579

00:21:40,789 --> 00:21:38,799

you know uh some big disclosure where

580

00:21:42,870 --> 00:21:40,799

they're giving you cases and

581

00:21:44,310 --> 00:21:42,880

showing you pictures and stuff first of

582

00:21:45,830 --> 00:21:44,320

all i don't think that would do anything

583

00:21:48,870 --> 00:21:45,840

for disclosure

584

00:21:49,590 --> 00:21:48,880

um because it's just two cases out of so

585

00:21:53,110 --> 00:21:49,600

many

586

00:21:56,390 --> 00:21:53,120

yeah but it

587

00:21:59,750 --> 00:21:56,400

you know they were clear in 144

588

00:22:01,830 --> 00:21:59,760

identified one well

589

00:22:03,430 --> 00:22:01,840

we gotta study more you know and that's

590

00:22:05,669 --> 00:22:03,440

an honest answer to me

591

00:22:07,750 --> 00:22:05,679

no of course you know but the next thing

592

00:22:08,630 --> 00:22:07,760

i would want is them to just not even

593

00:22:11,190 --> 00:22:08,640

mention

594

00:22:13,909 --> 00:22:11,200

anything in the report unless it's

595

00:22:17,830 --> 00:22:15,110

you know yeah i don't want to hear about

596

00:22:19,909 --> 00:22:17,840

helicopters or planes or flares or

597

00:22:20,950 --> 00:22:19,919

any of that stuff just keep that out of

598

00:22:23,029 --> 00:22:20,960

it who cares

599

00:22:24,310 --> 00:22:23,039

just tell me what you got on what's

600

00:22:25,909 --> 00:22:24,320

unidentified

601  
00:22:27,909 --> 00:22:25,919  
that's the funny thing is that the

602  
00:22:30,470 --> 00:22:27,919  
unidentified or the unknown

603  
00:22:32,630 --> 00:22:30,480  
section was like the last one on that

604  
00:22:35,830 --> 00:22:32,640  
list which is like come on man

605  
00:22:38,230 --> 00:22:35,840  
yeah i mean i guess yeah it's not that

606  
00:22:39,510 --> 00:22:38,240  
when the whole the whole number part of

607  
00:22:41,590 --> 00:22:39,520  
the report

608  
00:22:43,190 --> 00:22:41,600  
says a completely different story like

609  
00:22:43,830 --> 00:22:43,200  
they're telling two different stories

610  
00:22:47,430 --> 00:22:43,840  
with the

611  
00:22:51,430 --> 00:22:47,440  
numbers and the words yeah yeah

612  
00:22:54,789 --> 00:22:51,440  
um right before we move on to the next

613  
00:22:55,590 --> 00:22:54,799

bullet points this is where i should be

614

00:22:58,390 --> 00:22:55,600

playing that we

615

00:22:58,950 --> 00:22:58,400

have a guest knock knock knock you only

616

00:23:00,390 --> 00:22:58,960

bring it up

617

00:23:02,950 --> 00:23:00,400

yeah please dude can you show your

618

00:23:03,590 --> 00:23:02,960

screen i don't know if i can actually

619

00:23:05,510 --> 00:23:03,600

never mind

620

00:23:06,630 --> 00:23:05,520

don't worry don't worry but we have a

621

00:23:09,909 --> 00:23:06,640

guest

622

00:23:12,070 --> 00:23:09,919

oh wait yeah probably good go on

623

00:23:13,590 --> 00:23:12,080

if you can do it do it because i love it

624

00:23:15,530 --> 00:23:13,600

all right i should have tapped you up

625

00:23:17,750 --> 00:23:15,540

for these before we even started

626

00:23:20,630 --> 00:23:17,760

[Laughter]

627

00:23:21,510 --> 00:23:20,640

let's see here i don't know if it'll let

628

00:23:24,549 --> 00:23:21,520

me share the

629

00:23:25,029 --> 00:23:24,559

audio i think we've killed the vibe now

630

00:23:28,470 --> 00:23:25,039

anyway

631

00:23:31,669 --> 00:23:28,480

yeah it's over move on

632

00:23:33,590 --> 00:23:31,679

look who it is oh my god what's up guys

633

00:23:36,310 --> 00:23:33,600

all right yeah that's my time it was

634

00:23:38,390 --> 00:23:36,320

nice to meet you and talk to you

635

00:23:39,750 --> 00:23:38,400

are you going to leave now i never

636

00:23:43,909 --> 00:23:39,760

signed up for three no

637

00:23:46,950 --> 00:23:43,919

threesome thing okay how are you max

638

00:23:47,269 --> 00:23:46,960

hey uh sean hey vinnie and sean don't

639

00:23:49,269 --> 00:23:47,279

lie

640

00:23:50,789 --> 00:23:49,279

with that we've done lots of threesomes

641

00:23:54,230 --> 00:23:50,799

together yeah

642

00:23:54,470 --> 00:23:54,240

yeah yeah all um we're very comfortable

643

00:23:58,149 --> 00:23:54,480

with

644

00:24:00,310 --> 00:23:58,159

each other same stuff exactly exactly

645

00:24:01,669 --> 00:24:00,320

yeah oh boy yeah if you saw they're uh

646

00:24:03,510 --> 00:24:01,679

never i'm not even gonna get it

647

00:24:06,870 --> 00:24:03,520

let's keep it clean guys we'll keep that

648

00:24:09,029 --> 00:24:06,880

for the the signal chat

649

00:24:14,230 --> 00:24:09,039

i will only say they call him snorkel

650

00:24:20,070 --> 00:24:17,350

anyway let's oh max you really

651  
00:24:21,430 --> 00:24:20,080  
don't know me do you i invented the

652  
00:24:24,470 --> 00:24:21,440  
snorkel

653  
00:24:26,149 --> 00:24:24,480  
that's true that's true so max we've

654  
00:24:28,549 --> 00:24:26,159  
just been going through the atip slides

655  
00:24:30,070 --> 00:24:28,559  
max and trying to just

656  
00:24:31,590 --> 00:24:30,080  
look at the bullet points because

657  
00:24:32,149 --> 00:24:31,600  
they're quite vague and just see what

658  
00:24:35,110 --> 00:24:32,159  
you think

659  
00:24:37,110 --> 00:24:35,120  
you know realization that many of the

660  
00:24:39,510 --> 00:24:37,120  
findings if used against the united

661  
00:24:41,990 --> 00:24:39,520  
states may prove to be decisive

662  
00:24:43,430 --> 00:24:42,000  
games changers for our country

663  
00:24:44,710 --> 00:24:43,440

preliminary evidence

664

00:24:47,190 --> 00:24:44,720

go for that first one what do you make

665

00:24:47,590 --> 00:24:47,200

of that first bullet point realization

666

00:24:50,230 --> 00:24:47,600

that

667

00:24:52,310 --> 00:24:50,240

many of the findings if used against the

668

00:24:55,590 --> 00:24:52,320

united states may prove

669

00:25:00,310 --> 00:24:55,600

to be decisive game changers for

670

00:25:03,990 --> 00:25:00,320

our country but whose country uh

671

00:25:06,549 --> 00:25:04,000

well america right but

672

00:25:08,950 --> 00:25:06,559

look if you read it the realization that

673

00:25:12,549 --> 00:25:08,960

many of the fightings if used against

674

00:25:14,950 --> 00:25:12,559

the united states against

675

00:25:15,909 --> 00:25:14,960

yes so that's okay that could be

676

00:25:19,190 --> 00:25:15,919

adversary

677

00:25:20,470 --> 00:25:19,200

adversarial it could be something else

678

00:25:22,390 --> 00:25:20,480

this is what we're doing this is why

679

00:25:24,390 --> 00:25:22,400

we're going through these vague

680

00:25:26,070 --> 00:25:24,400

bullet points because they don't there's

681

00:25:27,909 --> 00:25:26,080

no clarity to them in what they're

682

00:25:28,149 --> 00:25:27,919

actually saying to me i find it i find

683

00:25:31,269 --> 00:25:28,159

it

684

00:25:31,669 --> 00:25:31,279

very vague actually yeah but what are

685

00:25:36,390 --> 00:25:31,679

they

686

00:25:37,909 --> 00:25:36,400

saying in the first part realization

687

00:25:40,070 --> 00:25:37,919

that many of the findings

688

00:25:42,070 --> 00:25:40,080

so many of the findings let's say they

689

00:25:44,310 --> 00:25:42,080

could be plans for a

690

00:25:46,470 --> 00:25:44,320

sauce anti-gravity saucer so the

691

00:25:48,710 --> 00:25:46,480

realization of that finding

692

00:25:50,870 --> 00:25:48,720

meaning they found it and they realized

693

00:25:54,149 --> 00:25:50,880

that they created it

694

00:25:57,190 --> 00:25:54,159

we're done yeah

695

00:25:57,990 --> 00:25:57,200

okay maybe so if i if i understand this

696

00:26:02,390 --> 00:25:58,000

correctly

697

00:26:06,870 --> 00:26:05,190

many of the findings that that means

698

00:26:11,110 --> 00:26:06,880

findings the u.s

699

00:26:14,149 --> 00:26:11,120

found right specifically i guess

700

00:26:16,070 --> 00:26:14,159

yeah yeah could be used against the

701

00:26:18,630 --> 00:26:16,080

united states so what they found

702

00:26:19,990 --> 00:26:18,640

could be a weapon against the united

703

00:26:23,350 --> 00:26:20,000

states

704

00:26:27,750 --> 00:26:23,360

and it could be decisive

705

00:26:30,230 --> 00:26:27,760

for the united states so if i

706

00:26:30,870 --> 00:26:30,240

understand that correctly if they turn

707

00:26:34,870 --> 00:26:30,880

around

708

00:26:37,830 --> 00:26:34,880

weapon

709

00:26:39,430 --> 00:26:37,840

that is used against them against the

710

00:26:41,430 --> 00:26:39,440

adversary

711

00:26:42,710 --> 00:26:41,440

am i right but that's the thing there's

712

00:26:44,310 --> 00:26:42,720

no right and wrong because it's

713

00:26:46,310 --> 00:26:44,320

speculation about what this

714

00:26:48,310 --> 00:26:46,320

actually means you know it's very

715

00:26:49,190 --> 00:26:48,320

critical it is but it could it could

716

00:26:51,110 --> 00:26:49,200

also mean

717

00:26:52,950 --> 00:26:51,120

speculating here that if used against

718

00:26:54,149 --> 00:26:52,960

could mean something internal within the

719

00:26:56,630 --> 00:26:54,159

u.s that's buried in a

720

00:26:57,590 --> 00:26:56,640

in a program could be used against the

721

00:27:00,870 --> 00:26:57,600

rest of the us

722

00:27:03,350 --> 00:27:00,880

we don't know what it implies but yeah

723

00:27:04,950 --> 00:27:03,360

other questions it's just the u.s or

724

00:27:06,870 --> 00:27:04,960

maybe other countries too

725

00:27:08,870 --> 00:27:06,880

could well be it could work in the world

726

00:27:12,230 --> 00:27:08,880

i would imagine if it could be the us

727

00:27:14,950 --> 00:27:12,240

right right yeah so

728

00:27:15,669 --> 00:27:14,960

very cryptic very so let's move on to

729

00:27:17,830 --> 00:27:15,679

the next one

730

00:27:20,310 --> 00:27:17,840

preliminary evidence indicates that the

731

00:27:21,190 --> 00:27:20,320

united states is incapable of defending

732

00:27:24,070 --> 00:27:21,200

itself towards

733

00:27:25,590 --> 00:27:24,080

some of these technologies okay well

734

00:27:26,470 --> 00:27:25,600

that's a bit more straightforward

735

00:27:29,669 --> 00:27:26,480

because

736

00:27:33,350 --> 00:27:29,679

yeah but that means that uh

737

00:27:35,430 --> 00:27:33,360

we are talking about weapons

738

00:27:37,110 --> 00:27:35,440

well it's objects that are you know

739

00:27:37,909 --> 00:27:37,120

flying in sensitive airspace with

740

00:27:40,950 --> 00:27:37,919

impunity

741

00:27:42,230 --> 00:27:40,960

um interacting with nuclear facilities

742

00:27:43,750 --> 00:27:42,240

all that shebang that we're talking

743

00:27:44,950 --> 00:27:43,760

about at the moment sure sure but that

744

00:27:47,750 --> 00:27:44,960

that doesn't mean it

745

00:27:48,389 --> 00:27:47,760

it it's it's aggressive right no not at

746

00:27:50,950 --> 00:27:48,399

all

747

00:27:52,470 --> 00:27:50,960

but i think what it's saying is that

748

00:27:53,990 --> 00:27:52,480

they don't know they're there until

749

00:27:56,470 --> 00:27:54,000

they're there

750

00:27:58,070 --> 00:27:56,480

you know pretty much if they had to do

751  
00:27:59,590 --> 00:27:58,080  
if they wanted to be violent

752  
00:28:01,510 --> 00:27:59,600  
yeah it's moving it's moving with

753  
00:28:02,310 --> 00:28:01,520  
impunity and if you're moved with

754  
00:28:05,350 --> 00:28:02,320  
impunity

755  
00:28:07,350 --> 00:28:05,360  
and and say they have weapons they can

756  
00:28:08,470 --> 00:28:07,360  
use the weapons with impunity yeah

757  
00:28:10,310 --> 00:28:08,480  
exactly

758  
00:28:11,990 --> 00:28:10,320  
so that i think that one's a little bit

759  
00:28:15,350 --> 00:28:12,000  
more straightforward but still not

760  
00:28:17,590 --> 00:28:15,360  
100 clear yeah so

761  
00:28:19,909 --> 00:28:17,600  
let's move on to the next one several

762  
00:28:21,110 --> 00:28:19,919  
unconventional findings require further

763  
00:28:23,029 --> 00:28:21,120

investigation

764

00:28:24,789 --> 00:28:23,039

in order to determine the full scope of

765

00:28:25,190 --> 00:28:24,799

the threat and their capabilities to be

766

00:28:28,789 --> 00:28:25,200

either

767

00:28:29,750 --> 00:28:28,799

exploited or defeated so i guess that's

768

00:28:31,750 --> 00:28:29,760

saying

769

00:28:33,830 --> 00:28:31,760

can we utilize it or do we just have to

770

00:28:37,669 --> 00:28:33,840

get rid of it

771

00:28:41,110 --> 00:28:37,679

you know do they exploit it well

772

00:28:44,549 --> 00:28:41,120

i i think um we already know uh

773

00:28:47,750 --> 00:28:44,559

some of the findings are being used

774

00:28:51,430 --> 00:28:47,760

by lockheed martin or skunk works

775

00:28:52,710 --> 00:28:51,440

um but that's you know that that's also

776

00:28:55,430 --> 00:28:52,720

very vague

777

00:28:56,789 --> 00:28:55,440

but for for example uh former senator

778

00:29:00,149 --> 00:28:56,799

harry reid

779

00:29:03,510 --> 00:29:00,159

definitely said um you know he was

780

00:29:06,389 --> 00:29:03,520

trying to look into that yeah he got

781

00:29:07,190 --> 00:29:06,399

stonewalled looking through these old

782

00:29:10,830 --> 00:29:07,200

documents

783

00:29:14,470 --> 00:29:10,840

it's it almost seems like

784

00:29:17,510 --> 00:29:14,480

um like lockheed no matter

785

00:29:20,070 --> 00:29:17,520

who the almost the contract went to

786

00:29:22,149 --> 00:29:20,080

for this different stuff like yeah he'd

787

00:29:24,310 --> 00:29:22,159

still seem to have some sort of like

788

00:29:27,430 --> 00:29:24,320

consultant role at least

789

00:29:30,549 --> 00:29:27,440

yeah i think a few of those um

790

00:29:30,789 --> 00:29:30,559

defense aides you know northrop grumman

791

00:29:32,950 --> 00:29:30,799

is

792

00:29:34,310 --> 00:29:32,960

in a very similar position boeing

793

00:29:36,230 --> 00:29:34,320

phantomworks has been

794

00:29:37,830 --> 00:29:36,240

in a similar position to lockheed martin

795

00:29:39,029 --> 00:29:37,840

throughout the years as well

796

00:29:40,470 --> 00:29:39,039

you know people always go back to

797

00:29:42,310 --> 00:29:40,480

lockheed martin but i think they look

798

00:29:45,190 --> 00:29:42,320

over the other two big players

799

00:29:47,029 --> 00:29:45,200

amongst others as well well north rap

800

00:29:48,310 --> 00:29:47,039

was one back in 47.

801  
00:29:49,990 --> 00:29:48,320  
i think i should have a picture of

802  
00:29:51,029 --> 00:29:50,000  
something that looked like a pure

803  
00:29:53,029 --> 00:29:51,039  
boomerang

804  
00:29:54,070 --> 00:29:53,039  
i looked into it and it crashed in

805  
00:29:56,230 --> 00:29:54,080  
mid-air but

806  
00:29:58,230 --> 00:29:56,240  
yeah hey listen that conversation comes

807  
00:29:58,710 --> 00:29:58,240  
up quite regularly like the horton hoe

808  
00:30:02,630 --> 00:29:58,720  
and

809  
00:30:05,190 --> 00:30:02,640  
development post second world war

810  
00:30:05,909 --> 00:30:05,200  
people died in the u2 and the a12

811  
00:30:08,710 --> 00:30:05,919  
testing

812  
00:30:10,230 --> 00:30:08,720  
yeah i think i think this last one is

813  
00:30:12,870 --> 00:30:10,240

actually most interesting

814

00:30:13,830 --> 00:30:12,880

read it for us max the nature of these

815

00:30:16,230 --> 00:30:13,840

technologies

816

00:30:18,310 --> 00:30:16,240

and the fact that the united states has

817

00:30:21,430 --> 00:30:18,320

no countermeasure measures

818

00:30:25,269 --> 00:30:21,440

is considered highly sensitive

819

00:30:28,389 --> 00:30:25,279

so i think yeah i think this is actually

820

00:30:31,029 --> 00:30:28,399

illustrative of the problem

821

00:30:32,950 --> 00:30:31,039

we are facing right now and i think this

822

00:30:37,510 --> 00:30:32,960

is actually why

823

00:30:39,990 --> 00:30:37,520

um mr elizondo and mr reed and mr

824

00:30:40,549 --> 00:30:40,000

melon are disclosing this because they

825

00:30:44,310 --> 00:30:40,559

feel

826  
00:30:49,029 --> 00:30:44,320  
powerless yeah um you know for decades

827  
00:30:52,310 --> 00:30:49,039  
now so there is technology in our skies

828  
00:30:54,310 --> 00:30:52,320  
we cannot counter measure and

829  
00:30:56,389 --> 00:30:54,320  
we are finding we are trying to find

830  
00:30:59,909 --> 00:30:56,399  
ways to counter measure them

831  
00:31:03,110 --> 00:30:59,919  
and for example the dod is not

832  
00:31:07,750 --> 00:31:03,120  
has not been able to do that

833  
00:31:08,549 --> 00:31:07,760  
adversary powers have not been able to

834  
00:31:11,509 --> 00:31:08,559  
do that

835  
00:31:12,389 --> 00:31:11,519  
but now we have uh scientists like avi

836  
00:31:14,710 --> 00:31:12,399  
lope

837  
00:31:15,590 --> 00:31:14,720  
uh trying to figure out what the hell

838  
00:31:19,110 --> 00:31:15,600

these things are

839

00:31:22,389 --> 00:31:19,120  
and maybe not counter measure

840

00:31:26,389 --> 00:31:22,399  
because they have proven to be not

841

00:31:29,269 --> 00:31:26,399  
aggressive or uh you know uh

842

00:31:29,669 --> 00:31:29,279  
you know invasive or something but you

843

00:31:32,149 --> 00:31:29,679  
know

844

00:31:33,590 --> 00:31:32,159  
just find out what what the hell it is

845

00:31:36,149 --> 00:31:33,600  
you guys ever still like

846

00:31:37,590 --> 00:31:36,159  
think like give me a break it's been 80

847

00:31:40,470 --> 00:31:37,600  
years of the same stuff

848

00:31:42,310 --> 00:31:40,480  
you know something this is hogwash do

849

00:31:46,310 --> 00:31:42,320  
you ever think that

850

00:31:49,830 --> 00:31:46,320  
yeah absolutely

851  
00:31:50,950 --> 00:31:49,840  
i mean the thing is if you really dwell

852  
00:31:52,870 --> 00:31:50,960  
on that point

853  
00:31:54,870 --> 00:31:52,880  
it can really bring you down a little

854  
00:31:56,230 --> 00:31:54,880  
bit and i i i think i then think well

855  
00:31:57,590 --> 00:31:56,240  
listen at least i'm in a position now

856  
00:31:59,509 --> 00:31:57,600  
where i feel like i'm adding something

857  
00:32:00,230 --> 00:31:59,519  
to the conversation to try and change

858  
00:32:01,590 --> 00:32:00,240  
that

859  
00:32:03,590 --> 00:32:01,600  
because if i was just sat around doing

860  
00:32:06,470 --> 00:32:03,600  
nothing i'd feel awful

861  
00:32:07,990 --> 00:32:06,480  
yeah do you guys don't you find that all

862  
00:32:11,669 --> 00:32:08,000  
of these points

863  
00:32:16,149 --> 00:32:11,679

are directed to something that could be

864

00:32:18,149 --> 00:32:16,159

potentially aggressive or invasive or

865

00:32:19,990 --> 00:32:18,159

threatening it is but that's the job of

866

00:32:21,909 --> 00:32:20,000

the dod is the department of defense

867

00:32:23,029 --> 00:32:21,919

their job is to defend so if they don't

868

00:32:24,389 --> 00:32:23,039

know something then

869

00:32:26,789 --> 00:32:24,399

you know that's just the way it falls

870

00:32:28,389 --> 00:32:26,799

into that kind of possibility

871

00:32:30,789 --> 00:32:28,399

yeah but maybe maybe that's not the

872

00:32:34,230 --> 00:32:30,799

right way to approach this

873

00:32:36,950 --> 00:32:34,240

you know it's it's very human

874

00:32:37,430 --> 00:32:36,960

to think that anything we don't know is

875

00:32:41,430 --> 00:32:37,440

uh

876

00:32:43,269 --> 00:32:41,440

you know about to kill us

877

00:32:45,350 --> 00:32:43,279

i would gather that they may have

878

00:32:47,909 --> 00:32:45,360

different aspects of this like the

879

00:32:48,710 --> 00:32:47,919

first page of these slides when they

880

00:32:51,990 --> 00:32:48,720

were trying to get

881

00:32:55,509 --> 00:32:52,000

more aspects of a tip kind of beefed up

882

00:32:59,269 --> 00:32:55,519

maybe this one you know this is just

883

00:33:00,710 --> 00:32:59,279

a part of one aspect that they're doing

884

00:33:02,950 --> 00:33:00,720

because right when there's when there's

885

00:33:04,710 --> 00:33:02,960

something unknown isn't it smart to look

886

00:33:05,509 --> 00:33:04,720

at the worst case scenario and plan for

887

00:33:09,350 --> 00:33:05,519

that but not

888

00:33:10,710 --> 00:33:09,360

exactly yeah exactly plan for the worst

889

00:33:14,389 --> 00:33:10,720

hope for the best

890

00:33:15,669 --> 00:33:14,399

right but maybe not uh immediately plan

891

00:33:17,350 --> 00:33:15,679

for the worst

892

00:33:18,789 --> 00:33:17,360

um because you have to look at the

893

00:33:20,710 --> 00:33:18,799

behavior because you know

894

00:33:22,630 --> 00:33:20,720

this has not been going on for five

895

00:33:23,110 --> 00:33:22,640

years this has been going on for 80

896

00:33:25,990 --> 00:33:23,120

years

897

00:33:26,870 --> 00:33:26,000

yeah we had some time to observe

898

00:33:30,310 --> 00:33:26,880

whatever

899

00:33:34,470 --> 00:33:30,320

was going on although uh being very

900

00:33:37,990 --> 00:33:34,480

classified but what if we change

901  
00:33:41,269 --> 00:33:38,000  
our demeanor and

902  
00:33:44,230 --> 00:33:41,279  
uh see if we can instead of

903  
00:33:47,350 --> 00:33:46,310  
aggressiveness which is clearly not the

904  
00:33:50,830 --> 00:33:47,360  
case

905  
00:33:52,789 --> 00:33:50,840  
um maybe see if there's a way to

906  
00:33:56,389 --> 00:33:52,799  
communicate uh

907  
00:34:00,470 --> 00:33:56,399  
with whatever is uh uh uh you know

908  
00:34:01,750 --> 00:34:00,480  
uh penetrating our skies yeah so i think

909  
00:34:03,269 --> 00:34:01,760  
yeah i think that's what the public are

910  
00:34:04,710 --> 00:34:03,279  
doing though with all these initiatives

911  
00:34:07,350 --> 00:34:04,720  
for contact and

912  
00:34:09,510 --> 00:34:07,360  
ce5 and all that the government may be

913  
00:34:12,069 --> 00:34:09,520

looking into it we've seen hal put off

914

00:34:13,669 --> 00:34:12,079

jack valet talking about this thing or

915

00:34:15,109 --> 00:34:13,679

not really talking about it but

916

00:34:16,389 --> 00:34:15,119

bringing it up here and there but i

917

00:34:17,990 --> 00:34:16,399

think there are studies going on in the

918

00:34:18,869 --> 00:34:18,000

background alluding to that kind of

919

00:34:22,069 --> 00:34:18,879

thing

920

00:34:24,310 --> 00:34:22,079

you know did you happen to see the

921

00:34:25,829 --> 00:34:24,320

uh probably not maybe not because i had

922

00:34:28,550 --> 00:34:25,839

posted a lot yesterday

923

00:34:29,430 --> 00:34:28,560

but there was a one um paper uh nasa

924

00:34:32,950 --> 00:34:29,440

paper

925

00:34:37,030 --> 00:34:32,960

it's a good amount of pages probably

926

00:34:38,710 --> 00:34:37,040

40 plus and it's all on contact

927

00:34:40,310 --> 00:34:38,720

i did see it i didn't read through it

928

00:34:42,149 --> 00:34:40,320

how to deal with it now

929

00:34:43,589 --> 00:34:42,159

i've never seen it before never seen

930

00:34:47,990 --> 00:34:43,599

that paper either

931

00:34:51,349 --> 00:34:48,000

teleshot they call it seti c-e-t-i

932

00:34:53,829 --> 00:34:51,359

yeah um yeah but it's pretty it's

933

00:34:56,470 --> 00:34:53,839

pretty it's pretty interesting for sure

934

00:34:58,950 --> 00:34:56,480

um it is it's not the same as seti

935

00:35:01,030 --> 00:34:58,960

is it because that's the scti correct

936

00:35:04,310 --> 00:35:01,040

they're mentioned in there but it's seti

937

00:35:05,910 --> 00:35:04,320

c c-e-t-i yeah um and

938

00:35:07,430 --> 00:35:05,920

it doesn't talk because i thought it was

939

00:35:09,990 --> 00:35:07,440

the same yeah

940

00:35:11,750 --> 00:35:10,000

it doesn't talk as if it happened but it

941

00:35:15,510 --> 00:35:11,760

talks as if it's

942

00:35:18,710 --> 00:35:15,520

impending right you know

943

00:35:21,990 --> 00:35:18,720

um and how to do it and is it dangerous

944

00:35:25,109 --> 00:35:22,000

and talked about um the plan

945

00:35:27,670 --> 00:35:25,119

to send messages into space

946

00:35:28,150 --> 00:35:27,680

and what kind of message that should be

947

00:35:29,510 --> 00:35:28,160

and

948

00:35:31,190 --> 00:35:29,520

how are they going to send them it how

949

00:35:33,270 --> 00:35:31,200

are they going to send the messages

950

00:35:35,190 --> 00:35:33,280

that i don't know it wasn't like

951  
00:35:37,510 --> 00:35:35,200  
consciously do you mean or do you mean

952  
00:35:38,710 --> 00:35:37,520  
no radios or yeah i think it was like

953  
00:35:41,829 --> 00:35:38,720  
radio or

954  
00:35:45,030 --> 00:35:41,839  
something do you remember the the time

955  
00:35:47,510 --> 00:35:45,040  
capsules of nasa you know with

956  
00:35:48,630 --> 00:35:47,520  
the the the the pictures of the the

957  
00:35:52,470 --> 00:35:48,640  
female and the male

958  
00:35:55,510 --> 00:35:52,480  
human being and uh some of our

959  
00:35:56,790 --> 00:35:55,520  
artworks and our place in the universe

960  
00:35:59,990 --> 00:35:56,800  
and stuff

961  
00:36:03,190 --> 00:36:00,000  
from the 70s i remember bro yeah

962  
00:36:05,270 --> 00:36:03,200  
yeah they're like um didn't we send like

963  
00:36:06,630 --> 00:36:05,280

a corvette out there playing a song or

964

00:36:09,910 --> 00:36:06,640

something

965

00:36:13,030 --> 00:36:09,920

uh just a movie

966

00:36:13,910 --> 00:36:13,040

but i i i do think elon sent a uh this

967

00:36:16,150 --> 00:36:13,920

is a tesla

968

00:36:17,589 --> 00:36:16,160

yeah yeah yeah okay that's what it was

969

00:36:19,030 --> 00:36:17,599

with the rocket man in it yeah

970

00:36:20,230 --> 00:36:19,040

so listen let's move on to the next

971

00:36:21,829 --> 00:36:20,240

slide because i think they start getting

972

00:36:24,710 --> 00:36:21,839

a bit better now leading up to

973

00:36:25,270 --> 00:36:24,720

and what i must um state here is that in

974

00:36:26,550 --> 00:36:25,280

this

975

00:36:27,990 --> 00:36:26,560

in these files that were found on

976  
00:36:30,630 --> 00:36:28,000  
christopher mellon's website when these

977  
00:36:33,190 --> 00:36:30,640  
were found a few years back by

978  
00:36:35,270 --> 00:36:33,200  
the mine sublime slides five and six

979  
00:36:36,630 --> 00:36:35,280  
were missing so

980  
00:36:37,750 --> 00:36:36,640  
yeah i just want to bear that in mind

981  
00:36:39,109 --> 00:36:37,760  
i'm not sure where we're at i think

982  
00:36:40,150 --> 00:36:39,119  
we're on yeah we're on seven so we've

983  
00:36:41,990 --> 00:36:40,160  
actually skipped

984  
00:36:43,750 --> 00:36:42,000  
five and six because they weren't there

985  
00:36:45,990 --> 00:36:43,760  
when they were found

986  
00:36:48,790 --> 00:36:46,000  
so yeah so let's look at this a-tip

987  
00:36:52,710 --> 00:36:48,800  
technical studies in the following areas

988  
00:36:55,990 --> 00:36:52,720

lift propulsion control power generation

989

00:36:56,790 --> 00:36:56,000

spatial temporal translation signature

990

00:36:58,790 --> 00:36:56,800

reduction

991

00:36:59,990 --> 00:36:58,800

optical infrared radio frequency

992

00:37:02,230 --> 00:37:00,000

acoustic

993

00:37:03,270 --> 00:37:02,240

technology integration materials

994

00:37:06,950 --> 00:37:03,280

configuration

995

00:37:10,310 --> 00:37:06,960

structure human interface human effects

996

00:37:12,390 --> 00:37:10,320

armament rf and dew

997

00:37:13,349 --> 00:37:12,400

emphasis on unconventional technology

998

00:37:16,390 --> 00:37:13,359

capabilities

999

00:37:19,030 --> 00:37:16,400

40 years in the future and beyond not

1000

00:37:21,030 --> 00:37:19,040

extrapolations of current technology

1001  
00:37:22,550 --> 00:37:21,040  
investigate legitimacy of currently

1002  
00:37:24,390 --> 00:37:22,560  
observed phenomena

1003  
00:37:26,470 --> 00:37:24,400  
are they achievable by current physics

1004  
00:37:29,270 --> 00:37:26,480  
in engineering if not

1005  
00:37:30,950 --> 00:37:29,280  
what research is required to achieve now

1006  
00:37:32,310 --> 00:37:30,960  
listen guys pull anything out of there

1007  
00:37:33,589 --> 00:37:32,320  
that you want and we'll talk about it

1008  
00:37:36,310 --> 00:37:33,599  
because there's a lot of different

1009  
00:37:39,349 --> 00:37:36,320  
obviously points in there or areas

1010  
00:37:41,349 --> 00:37:39,359  
well anything stand out lift uh

1011  
00:37:43,430 --> 00:37:41,359  
we know that propulsion we're probably

1012  
00:37:46,230 --> 00:37:43,440  
talking about anti-gravity they

1013  
00:37:48,550 --> 00:37:46,240

help put off described at 2004 paper how

1014

00:37:52,550 --> 00:37:48,560

he's figured out zero point energy

1015

00:37:56,150 --> 00:37:52,560

which is not the same no it's not um

1016

00:37:59,910 --> 00:37:56,160

but still pretty difficult spatial

1017

00:38:03,190 --> 00:37:59,920

uh temporal translation i think that is

1018

00:38:05,990 --> 00:38:03,200

how to translate space in time

1019

00:38:06,710 --> 00:38:06,000

into something that we can that we can

1020

00:38:09,510 --> 00:38:06,720

fathom

1021

00:38:10,470 --> 00:38:09,520

yeah and work with possibly signature

1022

00:38:13,109 --> 00:38:10,480

reduction

1023

00:38:13,670 --> 00:38:13,119

seems like a camouflage or you know

1024

00:38:17,510 --> 00:38:13,680

stealth

1025

00:38:18,550 --> 00:38:17,520

yeah across different sensor methods by

1026

00:38:19,910 --> 00:38:18,560

the look of it as well

1027

00:38:21,829 --> 00:38:19,920

it is probably getting a lot more

1028

00:38:24,230 --> 00:38:21,839

difficult to do that as countries

1029

00:38:24,950 --> 00:38:24,240

uh you know develop their technology

1030

00:38:27,750 --> 00:38:24,960

they're also

1031

00:38:28,310 --> 00:38:27,760

developing ways to beat each other's

1032

00:38:31,349 --> 00:38:28,320

stealth

1033

00:38:32,310 --> 00:38:31,359

technology exactly all the aegis arrays

1034

00:38:34,470 --> 00:38:32,320

and um

1035

00:38:35,670 --> 00:38:34,480

radar systems that we've seen right you

1036

00:38:38,790 --> 00:38:35,680

know going back to the

1037

00:38:40,630 --> 00:38:38,800

the human interface yeah well this is

1038

00:38:43,270 --> 00:38:40,640

actually very contradiction you know

1039

00:38:44,550 --> 00:38:43,280

uh some of them uh turn up on radar and

1040

00:38:46,790 --> 00:38:44,560

some of them don't

1041

00:38:47,829 --> 00:38:46,800

yeah so that's weird yeah that is look

1042

00:38:49,349 --> 00:38:47,839

at we just got this message from the

1043

00:38:50,870 --> 00:38:49,359

signal we've got our own personal little

1044

00:38:53,670 --> 00:38:50,880

database here thank you dan

1045

00:38:54,550 --> 00:38:53,680

uh rf is radio frequency dw distant

1046

00:38:56,790 --> 00:38:54,560

early warning

1047

00:38:58,150 --> 00:38:56,800

yep awesome that that kind of stuff has

1048

00:38:59,270 --> 00:38:58,160

been implemented in the past but

1049

00:39:00,470 --> 00:38:59,280

probably at different levels and

1050

00:39:03,750 --> 00:39:00,480

capabilities

1051  
00:39:06,310 --> 00:39:03,760  
you know distant early warning systems

1052  
00:39:07,670 --> 00:39:06,320  
you know have been basic in the past and

1053  
00:39:09,589 --> 00:39:07,680  
i guess they just always develop

1054  
00:39:12,790 --> 00:39:09,599  
alongside other technologies like

1055  
00:39:15,270 --> 00:39:12,800  
radar and yeah now i have to

1056  
00:39:17,030 --> 00:39:15,280  
ask this before i feel dumb what does

1057  
00:39:20,630 --> 00:39:17,040  
armament mean

1058  
00:39:22,550 --> 00:39:20,640  
and like um like

1059  
00:39:24,870 --> 00:39:22,560  
have like arm yourself with like have

1060  
00:39:29,270 --> 00:39:24,880  
that oh

1061  
00:39:32,790 --> 00:39:30,710  
that's okay bro no worries i mean i

1062  
00:39:34,790 --> 00:39:32,800  
might be slightly off there but

1063  
00:39:36,069 --> 00:39:34,800

yeah it's like to have the capability to

1064

00:39:39,430 --> 00:39:36,079

arm yourself with these

1065

00:39:41,589 --> 00:39:39,440

functions let's say of radio frequencies

1066

00:39:44,550 --> 00:39:41,599

to detect maybe or to send

1067

00:39:46,150 --> 00:39:44,560

and then right early warning systems

1068

00:39:47,990 --> 00:39:46,160

could be

1069

00:39:50,390 --> 00:39:48,000

you know this means military weapons and

1070

00:39:52,870 --> 00:39:50,400

equipment there you go

1071

00:39:54,230 --> 00:39:52,880

the process of equipping military forces

1072

00:39:56,470 --> 00:39:54,240

for war

1073

00:39:57,750 --> 00:39:56,480

sorry about that guys you know uh oh

1074

00:39:59,190 --> 00:39:57,760

good bro this is why we're here we're

1075

00:40:01,270 --> 00:39:59,200

just spitballing we don't know

1076

00:40:02,950 --> 00:40:01,280

we don't know we just i'm not an english

1077

00:40:03,990 --> 00:40:02,960

native so sometimes i don't know what a

1078

00:40:07,349 --> 00:40:04,000

word means

1079

00:40:09,109 --> 00:40:07,359

that's all good so

1080

00:40:10,870 --> 00:40:09,119

i think the bottom part as well is quite

1081

00:40:12,630 --> 00:40:10,880

interesting investigate the legitimacy

1082

00:40:15,030 --> 00:40:12,640

of currently observed phenomena i mean

1083

00:40:18,069 --> 00:40:15,040

that's straightforward like

1084

00:40:20,950 --> 00:40:18,079

to me personally yeah

1085

00:40:22,790 --> 00:40:20,960

that's kind of confusing isn't it well i

1086

00:40:24,390 --> 00:40:22,800

do think i do think the most important

1087

00:40:28,230 --> 00:40:24,400

facet of whatever

1088

00:40:31,349 --> 00:40:28,240

this this little uh lineup is

1089

00:40:33,910 --> 00:40:31,359

is again propulsion you know

1090

00:40:34,870 --> 00:40:33,920

if if we figure out propulsion i think

1091

00:40:37,430 --> 00:40:34,880

we figure out

1092

00:40:39,190 --> 00:40:37,440

it all but no no i disagree because it

1093

00:40:39,990 --> 00:40:39,200

depends which propulsion method you

1094

00:40:43,109 --> 00:40:40,000

figure out

1095

00:40:46,150 --> 00:40:43,119

is it anti-gravity electromagnetic or

1096

00:40:48,950 --> 00:40:46,160

multiple other ones but we don't know

1097

00:40:50,390 --> 00:40:48,960

so we have to figure out what propulsion

1098

00:40:52,870 --> 00:40:50,400

is being used

1099

00:40:53,670 --> 00:40:52,880

and i'm not saying it's all the same

1100

00:40:56,790 --> 00:40:53,680

right

1101

00:40:59,750 --> 00:40:56,800

but i feel um

1102

00:41:01,829 --> 00:40:59,760

that if if if we really look into that

1103

00:41:04,309 --> 00:41:01,839

it it might be

1104

00:41:06,550 --> 00:41:04,319

correlating to to whatever we uh we

1105

00:41:07,750 --> 00:41:06,560

observe but then yeah just me

1106

00:41:09,190 --> 00:41:07,760

but no no but the thing is with that

1107

00:41:09,990 --> 00:41:09,200

conversation you can go deeper because

1108

00:41:12,790 --> 00:41:10,000

you can talk about

1109

00:41:14,870 --> 00:41:12,800

physical like craft made out of some

1110

00:41:16,390 --> 00:41:14,880

metal or metamaterial that uses an

1111

00:41:18,470 --> 00:41:16,400

antigravitic or an electro

1112

00:41:20,309 --> 00:41:18,480

electromagnetic propulsion system

1113

00:41:22,150 --> 00:41:20,319

then you can go even further and talk to

1114

00:41:25,750 --> 00:41:22,160

something that may be

1115

00:41:27,589 --> 00:41:25,760

non-physical or something dimensional

1116

00:41:30,309 --> 00:41:27,599

that isn't like a solid form that

1117

00:41:31,190 --> 00:41:30,319

you know you know that rabbit hole gets

1118

00:41:34,230 --> 00:41:31,200

deeper

1119

00:41:35,750 --> 00:41:34,240

if you want it to and i find that

1120

00:41:37,750 --> 00:41:35,760

scary because there aren't there aren't

1121

00:41:38,470 --> 00:41:37,760

any answers i think the people that are

1122

00:41:39,990 --> 00:41:38,480

looking at

1123

00:41:42,230 --> 00:41:40,000

those kind of levels at the moment

1124

00:41:44,550 --> 00:41:42,240

people like dr eric davis and that

1125

00:41:45,990 --> 00:41:44,560

who haven't talked publicly for quite

1126

00:41:47,510 --> 00:41:46,000

some time now

1127

00:41:49,270 --> 00:41:47,520

you know that's where there's some

1128

00:41:50,710 --> 00:41:49,280

serious research and information that i

1129

00:41:54,150 --> 00:41:50,720

just love to hear

1130

00:41:57,589 --> 00:41:54,160

yeah yeah and put off

1131

00:42:00,870 --> 00:41:57,599

yeah and of course signature because

1132

00:42:03,589 --> 00:42:00,880

signature gives a gives away a lot of uh

1133

00:42:04,630 --> 00:42:03,599

information on on how these things

1134

00:42:07,109 --> 00:42:04,640

actually enter

1135

00:42:10,150 --> 00:42:07,119

our skies for example if they come

1136

00:42:12,790 --> 00:42:10,160

through our atmosphere there's heat uh

1137

00:42:14,870 --> 00:42:12,800

ablation you i think you call it you

1138

00:42:19,030 --> 00:42:14,880

know so there's heat signature

1139

00:42:21,750 --> 00:42:19,040

and when they're through uh atmosphere

1140

00:42:24,230 --> 00:42:21,760

they come into our skies and now we have

1141

00:42:27,750 --> 00:42:24,240

other systems to

1142

00:42:31,270 --> 00:42:27,760

detect whatever it is and look if i

1143

00:42:34,230 --> 00:42:31,280

just paraphrase uh what i've heard from

1144

00:42:34,950 --> 00:42:34,240

some of our friends is that these things

1145

00:42:37,030 --> 00:42:34,960

come through

1146

00:42:38,309 --> 00:42:37,040

our atmosphere we can see the the

1147

00:42:42,230 --> 00:42:38,319

signature of heat

1148

00:42:45,829 --> 00:42:42,240

ablation they drop down in a fraction

1149

00:42:48,950 --> 00:42:45,839

of a second and just stop on a dime yeah

1150

00:42:51,589 --> 00:42:48,960

above our sea level

1151  
00:42:52,230 --> 00:42:51,599  
then just disappear like that and turn

1152  
00:42:56,309 --> 00:42:52,240  
up

1153  
00:42:59,990 --> 00:42:59,190  
away you know so i think uh yeah

1154  
00:43:05,430 --> 00:43:00,000  
definitely

1155  
00:43:08,870 --> 00:43:05,440  
um signature is

1156  
00:43:10,470 --> 00:43:08,880  
very important yeah so

1157  
00:43:12,230 --> 00:43:10,480  
and then we've got are they achievable

1158  
00:43:14,950 --> 00:43:12,240  
by current physics and engineering well

1159  
00:43:17,589 --> 00:43:14,960  
i think that's pretty clear that

1160  
00:43:18,230 --> 00:43:17,599  
no but then are they achievable by the

1161  
00:43:21,349 --> 00:43:18,240  
physics

1162  
00:43:21,910 --> 00:43:21,359  
and engineering that we don't see you

1163  
00:43:26,150 --> 00:43:21,920

know

1164

00:43:27,430 --> 00:43:26,160

yeah yeah again it it

1165

00:43:29,990 --> 00:43:27,440

just seems like they don't know what

1166

00:43:31,589 --> 00:43:30,000

they're dealing with you know

1167

00:43:33,270 --> 00:43:31,599

because they're asking these questions

1168

00:43:35,990 --> 00:43:33,280

yeah like can we

1169

00:43:37,990 --> 00:43:36,000

achieve these kinds of technologies

1170

00:43:41,270 --> 00:43:38,000

things we don't understand or

1171

00:43:44,069 --> 00:43:41,280

haven't even decided to give legitimacy

1172

00:43:46,470 --> 00:43:44,079

can we achieve it i'd love to know which

1173

00:43:49,589 --> 00:43:46,480

what year these slides were

1174

00:43:52,630 --> 00:43:49,599

put out to or through atip you know to

1175

00:43:55,510 --> 00:43:52,640

internally this whole thing

1176  
00:43:56,309 --> 00:43:55,520  
is put together and then they say well

1177  
00:43:59,990 --> 00:43:56,319  
we have to

1178  
00:44:03,030 --> 00:44:00,000  
investigate the legitimacy

1179  
00:44:03,910 --> 00:44:03,040  
yeah it's so hard though it's weird it

1180  
00:44:06,230 --> 00:44:03,920  
is

1181  
00:44:09,990 --> 00:44:06,240  
that's the thing it's difficult to you

1182  
00:44:13,190 --> 00:44:11,510  
dude i was running i didn't have a lot

1183  
00:44:16,790 --> 00:44:13,200  
of time i just no no

1184  
00:44:19,510 --> 00:44:16,800  
i mean uh like like well they haven't

1185  
00:44:21,270 --> 00:44:19,520  
legitimized that what is this for they

1186  
00:44:22,790 --> 00:44:21,280  
were maybe this was early days at where

1187  
00:44:24,550 --> 00:44:22,800  
they were running on bare bones low

1188  
00:44:25,510 --> 00:44:24,560

budget you know they got the 22 million

1189

00:44:26,950 --> 00:44:25,520

they think you know we've got to make

1190

00:44:28,550 --> 00:44:26,960

this last let's not

1191

00:44:30,150 --> 00:44:28,560

waste it all on the first bunch of

1192

00:44:31,349 --> 00:44:30,160

slides and stuff let's just go for the

1193

00:44:34,309 --> 00:44:31,359

basics

1194

00:44:36,309 --> 00:44:34,319

yeah but i do think i do think you know

1195

00:44:39,589 --> 00:44:36,319

that they have a a really

1196

00:44:40,550 --> 00:44:39,599

uh great list of whatever we need to

1197

00:44:42,309 --> 00:44:40,560

[h\_\_\h] find out

1198

00:44:43,670 --> 00:44:42,319

you know but the thing is you've always

1199

00:44:45,829 --> 00:44:43,680

got a bear in mind you've got to bear in

1200

00:44:46,630 --> 00:44:45,839

mind the 38 um scientific papers that

1201

00:44:48,150 --> 00:44:46,640

they did as well

1202

00:44:49,670 --> 00:44:48,160

one still being classified i can't

1203

00:44:51,430 --> 00:44:49,680

remember which one

1204

00:44:52,470 --> 00:44:51,440

i've looked into them and got it go

1205

00:44:54,710 --> 00:44:52,480

straight over my head because you're

1206

00:44:57,190 --> 00:44:54,720

going into really high-end physics

1207

00:44:58,309 --> 00:44:57,200

quantum physics mixed with astrophysics

1208

00:45:00,870 --> 00:44:58,319

speaks with

1209

00:45:02,470 --> 00:45:00,880

theoretical physics you know um i bet

1210

00:45:04,470 --> 00:45:02,480

that all relates to exactly what we're

1211

00:45:05,990 --> 00:45:04,480

looking at right now but of course

1212

00:45:07,990 --> 00:45:06,000

i can't join the dots i'm not a

1213

00:45:10,069 --> 00:45:08,000

physicist

1214

00:45:12,150 --> 00:45:10,079

so you know there's that to bear in mind

1215

00:45:12,950 --> 00:45:12,160

but so let's move on to the next one now

1216

00:45:16,710 --> 00:45:12,960

this is just

1217

00:45:18,870 --> 00:45:16,720

an interesting image a patient one month

1218

00:45:21,910 --> 00:45:18,880

following near field exposure to

1219

00:45:24,309 --> 00:45:21,920

unidentified aerial craft at 500 meters

1220

00:45:26,550 --> 00:45:24,319

wait a minute patient died two weeks

1221

00:45:28,950 --> 00:45:26,560

later so i don't know what we're seeing

1222

00:45:29,910 --> 00:45:28,960

yeah what are you doing this was in the

1223

00:45:32,069 --> 00:45:29,920

slides bro

1224

00:45:33,030 --> 00:45:32,079

this was on the mind sublime who found

1225

00:45:34,950 --> 00:45:33,040

this is the guy that

1226

00:45:37,030 --> 00:45:34,960

found this he's only seen this this was

1227

00:45:40,230 --> 00:45:37,040

found on christopher mellon's

1228

00:45:41,430 --> 00:45:40,240

website wow

1229

00:45:43,510 --> 00:45:41,440

i mean i don't know what we're looking

1230

00:45:46,870 --> 00:45:43,520

at you know look

1231

00:45:49,109 --> 00:45:46,880

let me read this patient one month

1232

00:45:51,829 --> 00:45:49,119

following near field exposure to

1233

00:45:55,750 --> 00:45:51,839

unidentified aerial craft at 500

1234

00:45:57,910 --> 00:45:55,760

meters so we're looking at radiation or

1235

00:45:59,670 --> 00:45:57,920

yeah in fact of something along those

1236

00:46:01,510 --> 00:45:59,680

lines well

1237

00:46:03,109 --> 00:46:01,520

there's no information about that for

1238

00:46:05,430 --> 00:46:03,119

for now uh patient

1239

00:46:07,829 --> 00:46:05,440

two died two weeks later now this is

1240

00:46:11,030 --> 00:46:07,839

this is interesting

1241

00:46:22,630 --> 00:46:11,040

well look signal the the cow

1242

00:46:27,990 --> 00:46:24,470

so then that kind of puts all the other

1243

00:46:31,270 --> 00:46:28,000

uh slides into some context there here

1244

00:46:32,870 --> 00:46:31,280

male prostitutes a little bit anyways

1245

00:46:35,510 --> 00:46:32,880

thank you so this is what we're trying

1246

00:46:38,470 --> 00:46:35,520

to figure this out

1247

00:46:39,510 --> 00:46:38,480

oh here we go he's even broke it down

1248

00:46:42,870 --> 00:46:39,520

chordate

1249

00:46:44,150 --> 00:46:42,880

man dan we need you here man let me send

1250

00:46:47,349 --> 00:46:44,160

you a streaming

1251

00:46:49,109 --> 00:46:47,359

uh sorry a poo a man a

1252

00:46:50,790 --> 00:46:49,119

dude who shits himself what the hell is

1253

00:46:53,030 --> 00:46:50,800

that

1254

00:46:54,630 --> 00:46:53,040

oh it's always you bringing in the dirty

1255

00:46:55,750 --> 00:46:54,640

talk

1256

00:46:58,390 --> 00:46:55,760

i'm just going to throw this out there

1257

00:46:59,829 --> 00:46:58,400

dan if you are available text me now

1258

00:47:01,589 --> 00:46:59,839

and i'll send you the stream yard link

1259

00:47:03,190 --> 00:47:01,599

because then

1260

00:47:04,309 --> 00:47:03,200

please comment you need to get out of

1261

00:47:05,510 --> 00:47:04,319

these comments and into this

1262

00:47:08,710 --> 00:47:05,520

conversation

1263

00:47:12,150 --> 00:47:08,720

yeah yeah i feel like

1264

00:47:14,390 --> 00:47:12,160

i interpret everything wrong

1265

00:47:15,990 --> 00:47:14,400

but listen learn more about that this is

1266

00:47:18,950 --> 00:47:16,000

interesting because

1267

00:47:20,230 --> 00:47:18,960

someone innocently died just from being

1268

00:47:22,870 --> 00:47:20,240

near a craft

1269

00:47:24,069 --> 00:47:22,880

now that doesn't mean that whoever was

1270

00:47:26,150 --> 00:47:24,079

in the craft

1271

00:47:27,750 --> 00:47:26,160

was trying to hurt this person but

1272

00:47:31,750 --> 00:47:27,760

whatever field or

1273

00:47:34,470 --> 00:47:31,760

magnetic or electrical or radiation

1274

00:47:36,309 --> 00:47:34,480

this person experienced from 500 meters

1275

00:47:39,510 --> 00:47:36,319

affected their brain

1276

00:47:42,150 --> 00:47:39,520

and killed them so wow does that make

1277

00:47:42,870 --> 00:47:42,160

whatever it is a threat do you see where

1278

00:47:44,710 --> 00:47:42,880

i'm coming from

1279

00:47:46,230 --> 00:47:44,720

right that kind of reminds me of one

1280

00:47:49,670 --> 00:47:46,240

loose says

1281

00:47:53,349 --> 00:47:49,680

that it could just be a byproduct

1282

00:47:56,390 --> 00:47:53,359

of something the phenomenon has like

1283

00:47:57,109 --> 00:47:56,400

maybe it's zipping by one of our planes

1284

00:47:59,750 --> 00:47:57,119

or whatever

1285

00:48:01,349 --> 00:47:59,760

and their radar gets jammed but that

1286

00:48:02,069 --> 00:48:01,359

could be just the construction of

1287

00:48:04,790 --> 00:48:02,079

whatever this

1288

00:48:07,430 --> 00:48:04,800

is and it's a byproduct of it that that

1289

00:48:09,910 --> 00:48:07,440

happens and messes with electronics

1290

00:48:11,510 --> 00:48:09,920

good point yeah a very good point so we

1291

00:48:14,710 --> 00:48:11,520

don't know again this is the thing it's

1292

00:48:16,390 --> 00:48:14,720

how do you read it it could be torture

1293

00:48:18,630 --> 00:48:16,400

man if they're like i'm gonna give you

1294

00:48:19,750 --> 00:48:18,640

like brain stuff and you got two weeks

1295

00:48:22,390 --> 00:48:19,760

to live that's

1296

00:48:23,589 --> 00:48:22,400

terrible if they were doing that on

1297

00:48:25,750 --> 00:48:23,599

purpose

1298

00:48:27,109 --> 00:48:25,760

yeah did you did you guys um hold on a

1299

00:48:27,910 --> 00:48:27,119

minute why how did my brother just

1300

00:48:31,349 --> 00:48:27,920

become

1301

00:48:32,630 --> 00:48:31,359

part that controls critical functions

1302

00:48:35,670 --> 00:48:32,640

most control cognition

1303

00:48:38,950 --> 00:48:35,680

and emotion hey

1304

00:48:42,230 --> 00:48:38,960

wow okay bro thanks dude

1305

00:48:44,710 --> 00:48:42,240

look at look at the brain on bro

1306

00:48:45,910 --> 00:48:44,720

maybe he's found the the article because

1307

00:48:47,589 --> 00:48:45,920

what i haven't shown is that this

1308

00:48:48,710 --> 00:48:47,599

article actually has a lot of footnotes

1309

00:48:52,470 --> 00:48:48,720

and that but if we

1310

00:48:54,150 --> 00:48:52,480

you know we'd be here for three hours um

1311

00:48:55,829 --> 00:48:54,160

we could do another show on that here we

1312

00:48:56,870 --> 00:48:55,839

go gary nolan did a study of people

1313

00:48:58,710 --> 00:48:56,880

exposed to craft

1314

00:49:00,390 --> 00:48:58,720

he found a possible connection with

1315

00:49:01,829 --> 00:49:00,400

increased connections

1316

00:49:03,589 --> 00:49:01,839

to that he's going to make me say that

1317

00:49:05,510 --> 00:49:03,599

again i'm going to scroll back i don't

1318

00:49:08,790 --> 00:49:05,520

even know what it is i got to look it up

1319

00:49:10,470 --> 00:49:08,800

yeah dan has given us some work to do

1320

00:49:12,230 --> 00:49:10,480

thank you called eight poor man thank

1321

00:49:12,950 --> 00:49:12,240

you dan i actually really appreciate

1322

00:49:15,910 --> 00:49:12,960

that because

1323

00:49:17,270 --> 00:49:15,920

he likes showing off but the dude knows

1324

00:49:21,109 --> 00:49:17,280

that's what i love about dan

1325

00:49:21,910 --> 00:49:21,119

love love the guy um oh look disclosure

1326

00:49:25,190 --> 00:49:21,920

bro

1327

00:49:31,190 --> 00:49:28,710

so let's move on to this one

1328

00:49:32,309 --> 00:49:31,200

technical reports now these are these

1329

00:49:34,150 --> 00:49:32,319

are some of the papers that i would

1330

00:49:37,030 --> 00:49:34,160

mention before the 38 papers

1331

00:49:38,150 --> 00:49:37,040

i think it was 38 though written i mean

1332

00:49:39,589 --> 00:49:38,160

if you look at the names

1333

00:49:41,670 --> 00:49:39,599

i don't know if you can see my cursor

1334

00:49:44,150 --> 00:49:41,680

but dr eric davis comes up

1335

00:49:44,870 --> 00:49:44,160

three or four times i think hal put

1336

00:49:48,230 --> 00:49:44,880

off's in there

1337

00:49:50,549 --> 00:49:48,240

somewhere yeah near the top

1338

00:49:52,069 --> 00:49:50,559

so help you know we've got earth tech we

1339

00:49:56,829 --> 00:49:52,079

got northrup so north

1340

00:50:03,109 --> 00:49:58,069

university

1341

00:50:05,670 --> 00:50:03,119

hypertech is uh you know arizona state

1342

00:50:07,589 --> 00:50:05,680

square access wherebean where go

1343

00:50:09,270 --> 00:50:07,599

advanced nuclear propulsion see this is

1344

00:50:11,190 --> 00:50:09,280

like all high-end physics papers you

1345

00:50:11,670 --> 00:50:11,200

know and these are available for anybody

1346

00:50:14,390 --> 00:50:11,680

that's

1347

00:50:15,109 --> 00:50:14,400

watching now or watches later you can go

1348

00:50:16,790 --> 00:50:15,119

and look at

1349

00:50:18,309 --> 00:50:16,800

every single one of the eight tip papers

1350

00:50:20,309 --> 00:50:18,319

except for the one that still remains

1351  
00:50:23,510 --> 00:50:20,319  
classified they are

1352  
00:50:23,990 --> 00:50:23,520  
hard to read but i recommend looking at

1353  
00:50:26,230 --> 00:50:24,000  
them

1354  
00:50:28,150 --> 00:50:26,240  
interesting definitely recommend looking

1355  
00:50:31,270 --> 00:50:28,160  
at them i will do that

1356  
00:50:34,630 --> 00:50:31,280  
um so it leads us on to

1357  
00:50:37,750 --> 00:50:34,640  
the one we all know and love and like

1358  
00:50:39,430 --> 00:50:37,760  
slide nine you know this one really

1359  
00:50:40,230 --> 00:50:39,440  
blows my mind the more i look at it

1360  
00:50:43,349 --> 00:50:40,240  
because

1361  
00:50:45,109 --> 00:50:43,359  
as we as it says the science exists

1362  
00:50:47,190 --> 00:50:45,119  
for an enemy of the united states to

1363  
00:50:48,150 --> 00:50:47,200

manipulate both physical and cognitive

1364

00:50:50,710 --> 00:50:48,160

environments

1365

00:50:52,870 --> 00:50:50,720

in order to penetrate us facilities

1366

00:50:54,630 --> 00:50:52,880

influence decision makers and compromise

1367

00:50:57,829 --> 00:50:54,640

national security

1368

00:50:59,030 --> 00:50:57,839

psychotronic weapons cognitive human

1369

00:51:01,910 --> 00:50:59,040

interface

1370

00:51:04,710 --> 00:51:01,920

penetration of solid surfaces

1371

00:51:07,030 --> 00:51:04,720

instantaneous sensor disassembly

1372

00:51:08,150 --> 00:51:07,040

alteration manipulation of biological

1373

00:51:10,870 --> 00:51:08,160

organisms

1374

00:51:11,510 --> 00:51:10,880

anomalies in the space-time construct

1375

00:51:14,950 --> 00:51:11,520

unique

1376  
00:51:17,190 --> 00:51:14,960  
cognitive human interface experiences

1377  
00:51:18,710 --> 00:51:17,200  
and we'll we'll move on to the last bit

1378  
00:51:20,390 --> 00:51:18,720  
after we've kind of discussed these

1379  
00:51:22,390 --> 00:51:20,400  
points anything stand out for you guys

1380  
00:51:25,510 --> 00:51:22,400  
that you want to discuss

1381  
00:51:26,309 --> 00:51:25,520  
casual conversations read a whole paper

1382  
00:51:29,910 --> 00:51:26,319  
on

1383  
00:51:35,109 --> 00:51:29,920  
me

1384  
00:51:39,670 --> 00:51:37,910  
celebrity at the uni unidentified

1385  
00:51:42,870 --> 00:51:39,680  
celebrity review last night

1386  
00:51:44,630 --> 00:51:42,880  
with us uh green street i didn't i

1387  
00:51:46,150 --> 00:51:44,640  
watched the start where he

1388  
00:51:47,670 --> 00:51:46,160

was going for all the merch and then i

1389

00:51:49,670 --> 00:51:47,680

just got really tired

1390

00:51:51,990 --> 00:51:49,680

now i i do think this really touches

1391

00:51:54,230 --> 00:51:52,000

down on whatever was discussed uh last

1392

00:51:57,030 --> 00:51:54,240

night and i thought it was an amazing

1393

00:51:57,950 --> 00:51:57,040

discussion actually and and now we are

1394

00:52:02,470 --> 00:51:57,960

talking about

1395

00:52:06,790 --> 00:52:05,109

yeah yeah yeah yeah yeah and all over

1396

00:52:10,150 --> 00:52:06,800

twitter today

1397

00:52:12,950 --> 00:52:10,160

yeah yeah yeah yeah yeah yeah

1398

00:52:14,710 --> 00:52:12,960

it is not but it's it's a conversation

1399

00:52:18,069 --> 00:52:14,720

that is needed actually

1400

00:52:19,349 --> 00:52:18,079

uh because we need to you know we we

1401  
00:52:22,710 --> 00:52:19,359  
need to check

1402  
00:52:24,069 --> 00:52:22,720  
check mark that you know we really need

1403  
00:52:27,430 --> 00:52:24,079  
to know

1404  
00:52:30,150 --> 00:52:27,440  
if there is misinformation

1405  
00:52:31,349 --> 00:52:30,160  
used uh and and i think this touches

1406  
00:52:34,549 --> 00:52:31,359  
down on that

1407  
00:52:38,390 --> 00:52:34,559  
um are we being duped what are you guys

1408  
00:52:41,349 --> 00:52:38,400  
who by who though yeah

1409  
00:52:43,270 --> 00:52:41,359  
by lou by chris mellon yeah okay so this

1410  
00:52:46,549 --> 00:52:43,280  
this is the elephant in the room

1411  
00:52:48,150 --> 00:52:46,559  
uh are we i don't think so no um

1412  
00:52:49,990 --> 00:52:48,160  
you're right though that is the elephant

1413  
00:52:50,470 --> 00:52:50,000

in the room that is the elephant in the

1414

00:52:52,390 --> 00:52:50,480

room

1415

00:52:53,910 --> 00:52:52,400

okay let's touch upon it then i think

1416

00:52:57,990 --> 00:52:53,920

that's only fair

1417

00:53:01,270 --> 00:52:58,000

yeah it's painful

1418

00:53:03,589 --> 00:53:01,280

yeah it is but let's let's really

1419

00:53:04,549 --> 00:53:03,599

let's really uh take a deep dive right

1420

00:53:10,790 --> 00:53:04,559

now

1421

00:53:17,589 --> 00:53:10,800

uh

1422

00:53:23,430 --> 00:53:20,790

spread this information why would lou

1423

00:53:24,230 --> 00:53:23,440

have all these battles within the dod

1424

00:53:31,589 --> 00:53:24,240

and

1425

00:53:33,910 --> 00:53:31,599

only to be some sort of well

1426  
00:53:35,109 --> 00:53:33,920  
you could say they're doing that so that

1427  
00:53:37,750 --> 00:53:35,119  
you would be here

1428  
00:53:39,589 --> 00:53:37,760  
saying that when the question came up

1429  
00:53:42,710 --> 00:53:39,599  
exactly

1430  
00:53:43,990 --> 00:53:42,720  
yeah but maybe but maybe i'm i'm a

1431  
00:53:46,950 --> 00:53:44,000  
grateful idiot

1432  
00:53:48,549 --> 00:53:46,960  
you know and and and i'm saying it you

1433  
00:53:51,589 --> 00:53:48,559  
know

1434  
00:53:54,870 --> 00:53:51,599  
an advocate of the devil right uh

1435  
00:53:59,270 --> 00:53:54,880  
i'm one of those guys who is

1436  
00:54:02,390 --> 00:53:59,280  
uh you know has a lot of energy as a

1437  
00:54:05,430 --> 00:54:02,400  
loud noise and uh lets

1438  
00:54:08,950 --> 00:54:05,440

himself you being used for

1439

00:54:12,390 --> 00:54:08,960

some misinformation uh thing uh

1440

00:54:15,109 --> 00:54:12,400

maybe all of us um

1441

00:54:16,549 --> 00:54:15,119

do you think this could be a real

1442

00:54:19,430 --> 00:54:16,559

scenario

1443

00:54:20,870 --> 00:54:19,440

what this slide or the subject at all

1444

00:54:23,349 --> 00:54:20,880

well you're taking into the

1445

00:54:24,230 --> 00:54:23,359

the slide you know that like we we take

1446

00:54:27,510 --> 00:54:24,240

on all this

1447

00:54:28,630 --> 00:54:27,520

information uh we are uh spreading this

1448

00:54:32,630 --> 00:54:28,640

information

1449

00:54:35,829 --> 00:54:32,640

uh is there a way uh like green street

1450

00:54:38,710 --> 00:54:35,839

uh stressed last night um

1451  
00:54:39,270 --> 00:54:38,720  
it could be that we are being used

1452  
00:54:41,910 --> 00:54:39,280  
actually

1453  
00:54:43,750 --> 00:54:41,920  
i don't think we are and as far as

1454  
00:54:44,230 --> 00:54:43,760  
looking at this specific slide i think

1455  
00:54:48,069 --> 00:54:44,240  
you need

1456  
00:54:50,150 --> 00:54:48,079  
that was had between

1457  
00:54:51,670 --> 00:54:50,160  
james e and doley and lou elizondo

1458  
00:54:52,950 --> 00:54:51,680  
regarding slide nine and that

1459  
00:54:57,109 --> 00:54:52,960  
conversation

1460  
00:54:58,950 --> 00:54:57,119  
street i haven't seen it but i've seen

1461  
00:55:02,069 --> 00:54:58,960  
the the backlash on twitter

1462  
00:55:04,549 --> 00:55:02,079  
doesn't sound like it was correctly

1463  
00:55:08,230 --> 00:55:04,559

discussed at the time and it probably

1464

00:55:10,069 --> 00:55:08,240

um warrants further clarification and

1465

00:55:11,430 --> 00:55:10,079

precision on what what he was trying to

1466

00:55:14,309 --> 00:55:11,440

say no

1467

00:55:15,109 --> 00:55:14,319

like in defense of of stephen you know

1468

00:55:17,190 --> 00:55:15,119

um

1469

00:55:18,390 --> 00:55:17,200

he wasn't saying like i i think this is

1470

00:55:20,630 --> 00:55:18,400

the scenario

1471

00:55:22,470 --> 00:55:20,640

i understand yeah yeah i know but i

1472

00:55:25,030 --> 00:55:22,480

think if we're talking about it between

1473

00:55:26,710 --> 00:55:25,040

the three of us we've all spoken to lou

1474

00:55:28,710 --> 00:55:26,720

we've spoken to lou behind the scenes

1475

00:55:29,670 --> 00:55:28,720

max you've spoken to lou probably more

1476

00:55:32,549 --> 00:55:29,680

than most of us

1477

00:55:33,430 --> 00:55:32,559

so let's just get to the to the chases

1478

00:55:34,870 --> 00:55:33,440

that we

1479

00:55:36,069 --> 00:55:34,880

don't believe it's this information

1480

00:55:37,910 --> 00:55:36,079

because of some of the things we've

1481

00:55:39,990 --> 00:55:37,920

spoken to lou about

1482

00:55:41,750 --> 00:55:40,000

and obviously we can't discuss some of

1483

00:55:43,670 --> 00:55:41,760

them sorry everyone

1484

00:55:45,990 --> 00:55:43,680

but it's really i'm saying that to

1485

00:55:47,910 --> 00:55:46,000

emphasize the point of what i believe

1486

00:55:49,990 --> 00:55:47,920

is that lou is not a misinformation or a

1487

00:55:52,470 --> 00:55:50,000

disinformation agent because no no no no

1488

00:55:56,069 --> 00:55:52,480

i've i've stressed this uh

1489

00:55:59,190 --> 00:55:56,079

look i'm i'm gonna say it right out

1490

00:55:59,750 --> 00:55:59,200

right now i trust lou with my life yeah

1491

00:56:03,109 --> 00:55:59,760

i do

1492

00:56:07,430 --> 00:56:03,119

you know uh this guy is solid

1493

00:56:08,870 --> 00:56:07,440

you know he's not a uh shaman a false

1494

00:56:11,670 --> 00:56:08,880

prophet no

1495

00:56:13,270 --> 00:56:11,680

this is a straight-up man and uh you

1496

00:56:15,589 --> 00:56:13,280

know i trust him

1497

00:56:17,589 --> 00:56:15,599

yeah there we go dan it's manufactured

1498

00:56:18,230 --> 00:56:17,599

drama they were riffing don't worry

1499

00:56:19,750 --> 00:56:18,240

about it

1500

00:56:22,470 --> 00:56:19,760

that's exactly kind of what i'm saying

1501  
00:56:25,670 --> 00:56:22,480  
is like i think

1502  
00:56:28,150 --> 00:56:25,680  
it was a conversation that i mean

1503  
00:56:30,309 --> 00:56:28,160  
green street is an investigative

1504  
00:56:33,349 --> 00:56:30,319  
journalist he's got some very

1505  
00:56:35,030 --> 00:56:33,359  
he's been putting out some

1506  
00:56:36,390 --> 00:56:35,040  
some bleepers recently as far as he's

1507  
00:56:39,430 --> 00:56:36,400  
working on a passion

1508  
00:56:42,150 --> 00:56:39,440  
and he's working off of yeah no but i

1509  
00:56:45,829 --> 00:56:44,549  
look what he's doing is actually very

1510  
00:56:50,230 --> 00:56:45,839  
important

1511  
00:56:53,750 --> 00:56:50,240  
you know um he is being critical

1512  
00:56:56,870 --> 00:56:53,760  
as a journalist which is what we all

1513  
00:56:59,910 --> 00:56:56,880

need never settle right

1514

00:57:01,190 --> 00:56:59,920

and and stephen is doing that and uh

1515

00:57:05,109 --> 00:57:01,200

then again

1516

00:57:08,630 --> 00:57:05,119

anything you know

1517

00:57:12,470 --> 00:57:08,640

well he's really testing the

1518

00:57:16,069 --> 00:57:12,480

the whole people should be able to have

1519

00:57:17,910 --> 00:57:16,079

their ideas without fear of

1520

00:57:20,230 --> 00:57:17,920

you know being attacked for them you

1521

00:57:20,950 --> 00:57:20,240

know just really putting that to the

1522

00:57:22,870 --> 00:57:20,960

test

1523

00:57:24,549 --> 00:57:22,880

and seeing how that shakes out because

1524

00:57:27,510 --> 00:57:24,559

that's how it should be i tend to agree

1525

00:57:29,109 --> 00:57:27,520

with you max that you know

1526

00:57:31,349 --> 00:57:29,119

everybody doesn't have to look into the

1527

00:57:32,630 --> 00:57:31,359

same stuff he does but the fact that he

1528

00:57:35,349 --> 00:57:32,640

is looking into it

1529

00:57:36,470 --> 00:57:35,359

and he takes it all the way he's either

1530

00:57:38,870 --> 00:57:36,480

going to come up empty

1531

00:57:40,230 --> 00:57:38,880

empty or find something you know that's

1532

00:57:41,589 --> 00:57:40,240

true

1533

00:57:42,870 --> 00:57:41,599

i think i think what i was kind of

1534

00:57:43,750 --> 00:57:42,880

getting towards is that we're looking at

1535

00:57:46,309 --> 00:57:43,760

these slides i think

1536

00:57:48,309 --> 00:57:46,319

our views are important right now on lou

1537

00:57:50,390 --> 00:57:48,319

because of what we think and if we

1538

00:57:52,230 --> 00:57:50,400

yeah even consider the fact that there's

1539

00:57:53,670 --> 00:57:52,240

misinformation or disinformation people

1540

00:57:54,870 --> 00:57:53,680

that watch this might think that that's

1541

00:57:56,549 --> 00:57:54,880

what we think because

1542

00:57:57,910 --> 00:57:56,559

they might read it wrong no offense to

1543

00:58:00,950 --> 00:57:57,920

everyone watching but

1544

00:58:03,430 --> 00:58:00,960

there's a fine line between speculation

1545

00:58:04,950 --> 00:58:03,440

and conversation and things like that so

1546

00:58:06,470 --> 00:58:04,960

i like to put my viewpoints out there

1547

00:58:09,030 --> 00:58:06,480

quite solidly

1548

00:58:09,589 --> 00:58:09,040

yeah straight up you know but i also

1549

00:58:11,109 --> 00:58:09,599

think

1550

00:58:12,870 --> 00:58:11,119

stephen is touching down on something

1551  
00:58:16,630 --> 00:58:12,880  
very important you know he said

1552  
00:58:19,750 --> 00:58:16,640  
like everything i see i investigate

1553  
00:58:21,270 --> 00:58:19,760  
and i need nuts and bolts yeah and

1554  
00:58:22,870 --> 00:58:21,280  
the thing is they were they were

1555  
00:58:24,470 --> 00:58:22,880  
reviewing mirage men so they'd been

1556  
00:58:26,069 --> 00:58:24,480  
looking into rick doherty so it

1557  
00:58:27,510 --> 00:58:26,079  
naturally the conversation would flow

1558  
00:58:30,710 --> 00:58:27,520  
from that aspect

1559  
00:58:32,309 --> 00:58:30,720  
you know osi you know air force osi

1560  
00:58:33,990 --> 00:58:32,319  
the office of special investigations and

1561  
00:58:34,789 --> 00:58:34,000  
all the dodgy stuff they were doing for

1562  
00:58:37,430 --> 00:58:34,799  
so long

1563  
00:58:37,829 --> 00:58:37,440

yeah look see how the conversation went

1564

00:58:39,910 --> 00:58:37,839

yeah but

1565

00:58:40,950 --> 00:58:39,920

but i think his message is quite

1566

00:58:44,150 --> 00:58:40,960

important because

1567

00:58:47,910 --> 00:58:44,160

we don't have to no we

1568

00:58:49,109 --> 00:58:47,920

we must not settle for anything you know

1569

00:58:51,030 --> 00:58:49,119

we need to keep on

1570

00:58:52,549 --> 00:58:51,040

investigating that makes me think of

1571

00:58:55,829 --> 00:58:52,559

something um

1572

00:58:58,390 --> 00:58:55,839

yeah and what it is is

1573

00:59:00,069 --> 00:58:58,400

there's one way to make sure that this

1574

00:59:02,710 --> 00:59:00,079

whole situation

1575

00:59:04,150 --> 00:59:02,720

um goes well and that you know we

1576  
00:59:05,270 --> 00:59:04,160  
wouldn't be in that situation where

1577  
00:59:08,470 --> 00:59:05,280  
we're being duped

1578  
00:59:11,589 --> 00:59:08,480  
and what it is is uh it's time

1579  
00:59:12,150 --> 00:59:11,599  
that these people um are transparent and

1580  
00:59:15,030 --> 00:59:12,160  
are held

1581  
00:59:18,069 --> 00:59:15,040  
accountable now because they're not

1582  
00:59:20,309 --> 00:59:18,079  
gonna get more opportunities

1583  
00:59:21,750 --> 00:59:20,319  
you know it's it's time to win your

1584  
00:59:24,950 --> 00:59:21,760  
trust back now

1585  
00:59:26,390 --> 00:59:24,960  
it's been dragged on long enough if the

1586  
00:59:29,349 --> 00:59:26,400  
same pattern

1587  
00:59:31,990 --> 00:59:29,359  
repeats itself after all this buildup

1588  
00:59:35,510 --> 00:59:32,000

and it goes back to like we're in 1963

1589

00:59:36,549 --> 00:59:35,520

or something you know that's going to be

1590

00:59:38,630 --> 00:59:36,559

a problem there's

1591

00:59:40,789 --> 00:59:38,640

alexander's going to have to to speak

1592

00:59:43,910 --> 00:59:40,799

for himself and why that is

1593

00:59:47,030 --> 00:59:43,920

melon everybody uh corbell nap

1594

00:59:49,510 --> 00:59:47,040

if like but see the thing is even

1595

00:59:51,430 --> 00:59:49,520

alezando says three years down the road

1596

00:59:53,190 --> 00:59:51,440

we'll still be doing this kind of stuff

1597

00:59:54,390 --> 00:59:53,200

like he's almost setting us up for a

1598

00:59:57,030 --> 00:59:54,400

long call there

1599

00:59:58,630 --> 00:59:57,040

but the weird thing is is there's so

1600

01:00:01,829 --> 00:59:58,640

much

1601

01:00:04,630 --> 01:00:01,839

uh momentum and then to say

1602

01:00:05,109 --> 01:00:04,640

like a three more year thing seems kind

1603

01:00:08,950 --> 01:00:05,119

of

1604

01:00:12,150 --> 01:00:08,960

odd to me you know i feel like

1605

01:00:15,030 --> 01:00:12,160

it needs to keep going in this direction

1606

01:00:15,990 --> 01:00:15,040

or uh to keep the momentum in the

1607

01:00:18,390 --> 01:00:16,000

community

1608

01:00:20,230 --> 01:00:18,400

as powerful and as strong as it is and

1609

01:00:23,109 --> 01:00:20,240

connected right now

1610

01:00:24,470 --> 01:00:23,119

it needs to continue on on that path

1611

01:00:26,230 --> 01:00:24,480

look sean you know um

1612

01:00:29,829 --> 01:00:26,240

yeah we we talked about this i think

1613

01:00:36,230 --> 01:00:33,510

if you look at motive why is there this

1614

01:00:39,430 --> 01:00:36,240

little civil war going on in the dod

1615

01:00:46,069 --> 01:00:43,670

so publicly i don't think

1616

01:00:47,750 --> 01:00:46,079

this is something they would want to put

1617

01:00:50,710 --> 01:00:47,760

out you know this is something you would

1618

01:00:51,430 --> 01:00:50,720

uh rather sweep under the carpet or

1619

01:00:52,470 --> 01:00:51,440

something

1620

01:00:54,230 --> 01:00:52,480

yeah that's what they're good at

1621

01:00:55,190 --> 01:00:54,240

normally yeah that's what they're good

1622

01:00:57,670 --> 01:00:55,200

at normally

1623

01:00:58,470 --> 01:00:57,680

you you don't you know fight each other

1624

01:01:00,789 --> 01:00:58,480

in the street

1625

01:01:02,309 --> 01:01:00,799

which is what go which is what what is

1626

01:01:05,990 --> 01:01:02,319

going on right now

1627

01:01:08,150 --> 01:01:06,000

so to me uh what we talked on before

1628

01:01:09,670 --> 01:01:08,160

uh talked about before is like uh but

1629

01:01:10,470 --> 01:01:09,680

there wherever there their smoke there's

1630

01:01:13,510 --> 01:01:10,480

fire

1631

01:01:16,150 --> 01:01:13,520

so if mr elizondo

1632

01:01:16,710 --> 01:01:16,160

and mr mellon and mr reed are putting

1633

01:01:19,990 --> 01:01:16,720

out

1634

01:01:21,990 --> 01:01:20,000

a uh general public there's something

1635

01:01:23,270 --> 01:01:22,000

going on in our skies and we don't know

1636

01:01:26,309 --> 01:01:23,280

what it is

1637

01:01:29,109 --> 01:01:26,319

and the other side of the dod

1638

01:01:29,829 --> 01:01:29,119

and congress is hell-bent on not telling

1639

01:01:31,910 --> 01:01:29,839

that

1640

01:01:32,950 --> 01:01:31,920

and they are fighting each other you

1641

01:01:36,309 --> 01:01:32,960

know uh

1642

01:01:36,950 --> 01:01:36,319

i think the air force to be honest with

1643

01:01:39,589 --> 01:01:36,960

you

1644

01:01:40,950 --> 01:01:39,599

all right as well i just want to jump in

1645

01:01:41,990 --> 01:01:40,960

on that because what we're talking about

1646

01:01:43,910 --> 01:01:42,000

then with rick doherty and

1647

01:01:45,910 --> 01:01:43,920

misinformation and disinformation

1648

01:01:47,829 --> 01:01:45,920

was the air force it was the air force

1649

01:01:49,510 --> 01:01:47,839

officer special investigation

1650

01:01:51,030 --> 01:01:49,520

very different to what lou was involved

1651  
01:01:53,589 --> 01:01:51,040  
in that um

1652  
01:01:55,190 --> 01:01:53,599  
so you know i'll leave it at that as far

1653  
01:01:56,549 --> 01:01:55,200  
as the comparison between doty and lou

1654  
01:01:57,750 --> 01:01:56,559  
in the conversations that were had that

1655  
01:01:59,430 --> 01:01:57,760  
i haven't seen

1656  
01:02:01,829 --> 01:01:59,440  
directly i've just seen that backlash

1657  
01:02:03,750 --> 01:02:01,839  
and everything today on twitter that

1658  
01:02:05,910 --> 01:02:03,760  
signal here absolutely maximum we can't

1659  
01:02:06,630 --> 01:02:05,920  
reach the secret keep as we go for those

1660  
01:02:08,710 --> 01:02:06,640  
closest

1661  
01:02:10,870 --> 01:02:08,720  
unfortunately to be honest the the

1662  
01:02:11,190 --> 01:02:10,880  
dottie conversation is a mute point to

1663  
01:02:12,870 --> 01:02:11,200

me

1664

01:02:14,549 --> 01:02:12,880

uh like what are we we're trying to

1665

01:02:16,710 --> 01:02:14,559

figure out if they will

1666

01:02:17,589 --> 01:02:16,720

do things to trick us to make us believe

1667

01:02:19,670 --> 01:02:17,599

certain things

1668

01:02:21,510 --> 01:02:19,680

we already know they've done it they do

1669

01:02:23,829 --> 01:02:21,520

that they've done it

1670

01:02:24,870 --> 01:02:23,839

through the press in other ways like

1671

01:02:27,990 --> 01:02:24,880

that happens

1672

01:02:29,829 --> 01:02:28,000

so proving that dottie did it is

1673

01:02:31,750 --> 01:02:29,839

ridiculous because

1674

01:02:34,549 --> 01:02:31,760

that sort of thing just like everything

1675

01:02:37,829 --> 01:02:34,559

else is not unique to the ufo community

1676

01:02:38,789 --> 01:02:37,839

no not at all so if they'll do it

1677

01:02:40,470 --> 01:02:38,799

somewhere

1678

01:02:42,309 --> 01:02:40,480

you know to a corporate company or

1679

01:02:45,270 --> 01:02:42,319

whatever like they'll

1680

01:02:46,470 --> 01:02:45,280

they'll do it here we know that so let's

1681

01:02:50,069 --> 01:02:46,480

move past that

1682

01:02:52,870 --> 01:02:50,079

and start opening our mind up

1683

01:02:53,349 --> 01:02:52,880

and get past things like that so we can

1684

01:02:55,589 --> 01:02:53,359

actually

1685

01:02:56,789 --> 01:02:55,599

come up with good productive ideas

1686

01:03:00,309 --> 01:02:56,799

instead of just getting

1687

01:03:02,950 --> 01:03:00,319

stuck in these stupid topics

1688

01:03:03,910 --> 01:03:02,960

that won't really have an answer that'll

1689

01:03:06,789 --> 01:03:03,920

get us anywhere

1690

01:03:07,190 --> 01:03:06,799

exactly man it's like a it just it's

1691

01:03:10,630 --> 01:03:07,200

like

1692

01:03:12,230 --> 01:03:10,640

mud we just want to move forward but

1693

01:03:16,069 --> 01:03:12,240

we're stuck in that moment and we

1694

01:03:19,190 --> 01:03:16,079

need to get past it dude i completely

1695

01:03:22,470 --> 01:03:19,200

agree well well said my man and also

1696

01:03:23,750 --> 01:03:22,480

and also you know uh keep on uh writing

1697

01:03:29,349 --> 01:03:23,760

those foia letters

1698

01:03:31,109 --> 01:03:29,359

you know yeah send those owls man

1699

01:03:33,270 --> 01:03:31,119

yeah i think like because of the lull

1700

01:03:34,549 --> 01:03:33,280

that we're in right now since the 25th

1701

01:03:37,270 --> 01:03:34,559

of june and all that

1702

01:03:39,029 --> 01:03:37,280

we're in a little everyone's looking for

1703

01:03:39,670 --> 01:03:39,039

something to focus on and unfortunately

1704

01:03:41,349 --> 01:03:39,680

it's

1705

01:03:43,910 --> 01:03:41,359

bringing people a little bit more into

1706

01:03:45,589 --> 01:03:43,920

the the little spats and stuff it does

1707

01:03:47,270 --> 01:03:45,599

it does we've seen it before

1708

01:03:48,870 --> 01:03:47,280

you're gonna you're getting people that

1709

01:03:51,109 --> 01:03:48,880

um they're patients

1710

01:03:53,829 --> 01:03:51,119

and you know basically what it is is

1711

01:03:56,230 --> 01:03:53,839

their click bait has run out

1712

01:03:57,589 --> 01:03:56,240

and now they're pissed yeah you know

1713

01:03:59,750 --> 01:03:57,599

like i have nothing

1714

01:04:00,710 --> 01:03:59,760

to look at to keep me excited in this

1715

01:04:04,309 --> 01:04:00,720

anymore

1716

01:04:06,549 --> 01:04:04,319

and that's pissing me off so

1717

01:04:08,230 --> 01:04:06,559

i think this is all just bull crap

1718

01:04:09,270 --> 01:04:08,240

remember you know like that's how it

1719

01:04:13,109 --> 01:04:09,280

goes with people

1720

01:04:16,150 --> 01:04:13,119

you know yeah yeah or vice versa people

1721

01:04:17,990 --> 01:04:16,160

you know will cling on to something else

1722

01:04:19,589 --> 01:04:18,000

whatever theory they have is going on

1723

01:04:22,630 --> 01:04:19,599

right now but the thing is

1724

01:04:25,589 --> 01:04:22,640

we are here it's been uh

1725

01:04:26,870 --> 01:04:25,599

an obvious plan for the past three years

1726

01:04:29,349 --> 01:04:26,880

or four years

1727

01:04:30,230 --> 01:04:29,359

that has brought us to this point you

1728

01:04:33,510 --> 01:04:30,240

know

1729

01:04:36,549 --> 01:04:33,520

and it there is

1730

01:04:36,950 --> 01:04:36,559

whatever the end result or the sum of

1731

01:04:39,990 --> 01:04:36,960

this

1732

01:04:42,390 --> 01:04:40,000

is we may not know

1733

01:04:44,150 --> 01:04:42,400

until it happens but the fact is there

1734

01:04:46,150 --> 01:04:44,160

is something

1735

01:04:47,589 --> 01:04:46,160

yeah going on that's leading to a

1736

01:04:49,829 --> 01:04:47,599

tipping point

1737

01:04:50,710 --> 01:04:49,839

right and whatever it is has yet to be

1738

01:04:55,109 --> 01:04:50,720

determined

1739

01:04:58,069 --> 01:04:55,119

but there is i felt this last year

1740

01:04:59,910 --> 01:04:58,079

i could see it i saw something literally

1741

01:05:02,950 --> 01:04:59,920

but then as i paid attention

1742

01:05:03,990 --> 01:05:02,960

i could see something was happening that

1743

01:05:05,750 --> 01:05:04,000

was important

1744

01:05:07,430 --> 01:05:05,760

and i remember telling my mom like yeah

1745

01:05:09,270 --> 01:05:07,440

i'm doing this podcast because

1746

01:05:11,190 --> 01:05:09,280

i want to do something that's important

1747

01:05:12,710 --> 01:05:11,200

with my life and i have a feeling

1748

01:05:16,309 --> 01:05:12,720

something happening

1749

01:05:18,069 --> 01:05:16,319

something is happening here i agree bro

1750

01:05:19,910 --> 01:05:18,079

look at how important it's been for you

1751  
01:05:20,870 --> 01:05:19,920  
as well look at where you are man i am

1752  
01:05:23,190 --> 01:05:20,880  
so

1753  
01:05:24,549 --> 01:05:23,200  
impressed with what you've done in such

1754  
01:05:27,670 --> 01:05:24,559  
a short amount of time since

1755  
01:05:29,829 --> 01:05:27,680  
last year and i'm honored to call you a

1756  
01:05:31,990 --> 01:05:29,839  
friend and a colleague in this as well

1757  
01:05:32,950 --> 01:05:32,000  
you know you really are for the both of

1758  
01:05:38,150 --> 01:05:32,960  
you

1759  
01:05:42,150 --> 01:05:38,160  
i'm gonna

1760  
01:05:43,910 --> 01:05:42,160  
gone through the a-tip slides and

1761  
01:05:45,190 --> 01:05:43,920  
let's do this again let's do exactly

1762  
01:05:47,270 --> 01:05:45,200  
what we've done with another

1763  
01:05:50,150 --> 01:05:47,280

maybe we'll do the wilson davis memo or

1764

01:05:52,230 --> 01:05:50,160

something next

1765

01:05:54,630 --> 01:05:52,240

i have a lot to say about that one me

1766

01:05:57,270 --> 01:05:54,640

too bro

1767

01:05:58,309 --> 01:05:57,280

let's do a weekly or bi-weekly examine

1768

01:06:00,950 --> 01:05:58,319

of something

1769

01:06:02,230 --> 01:06:00,960

together yeah that's a great idea and by

1770

01:06:05,029 --> 01:06:02,240

the way let's plug

1771

01:06:06,470 --> 01:06:05,039

the big phone home part two absolutely

1772

01:06:08,069 --> 01:06:06,480

early september

1773

01:06:09,670 --> 01:06:08,079

i can't quite remember the dates off the

1774

01:06:11,270 --> 01:06:09,680

top of my head it's around the start the

1775

01:06:13,510 --> 01:06:11,280

third fourth something like that

1776

01:06:15,349 --> 01:06:13,520

the big phone home this is something i

1777

01:06:16,230 --> 01:06:15,359

know you guys last year for that did i i

1778

01:06:18,789 --> 01:06:16,240

made a

1779

01:06:20,710 --> 01:06:18,799

song for it well that's the thing we

1780

01:06:21,670 --> 01:06:20,720

didn't i mean i didn't know max then he

1781

01:06:24,950 --> 01:06:21,680

was honest

1782

01:06:27,029 --> 01:06:24,960

the big phone yeah man and now look at

1783

01:06:29,190 --> 01:06:27,039

us we're going into this

1784

01:06:31,029 --> 01:06:29,200

buddies like yeah i love it it's going

1785

01:06:32,789 --> 01:06:31,039

to be bigger and better than last time

1786

01:06:34,390 --> 01:06:32,799

for everyone watching this now everyone

1787

01:06:35,829 --> 01:06:34,400

that watches this afterwards it's still

1788

01:06:38,390 --> 01:06:35,839

the same old thing

1789

01:06:39,190 --> 01:06:38,400

you can make a difference you can email

1790

01:06:46,230 --> 01:06:39,200

call

1791

01:06:49,190 --> 01:06:46,240

send those owls

1792

01:06:51,029 --> 01:06:49,200

you know you just shared a ross uh video

1793

01:06:51,670 --> 01:06:51,039

where he said congressional hearings

1794

01:06:53,589 --> 01:06:51,680

he's like

1795

01:06:54,950 --> 01:06:53,599

you know it's not a given it doesn't

1796

01:06:57,670 --> 01:06:54,960

have to happen

1797

01:06:58,789 --> 01:06:57,680

like they need to be pressured to put

1798

01:07:01,589 --> 01:06:58,799

this together

1799

01:07:02,630 --> 01:07:01,599

and you need to contact these

1800

01:07:04,470 --> 01:07:02,640

representatives

1801

01:07:06,470 --> 01:07:04,480

so whether it's a call or email they

1802

01:07:08,470 --> 01:07:06,480

need to know how bad you want

1803

01:07:10,549 --> 01:07:08,480

congressional public hearings to happen

1804

01:07:12,069 --> 01:07:10,559

or they're not going to do it definitely

1805

01:07:12,390 --> 01:07:12,079

it's all good getting hearings but we

1806

01:07:15,430 --> 01:07:12,400

need

1807

01:07:18,150 --> 01:07:15,440

public hearings yeah and our audience

1808

01:07:19,109 --> 01:07:18,160

you guys are making the difference

1809

01:07:21,910 --> 01:07:19,119

vinnie's fans

1810

01:07:23,109 --> 01:07:21,920

finnish audience sean's audience you are

1811

01:07:25,670 --> 01:07:23,119

doing the work

1812

01:07:27,029 --> 01:07:25,680

we love you guys please keep on

1813

01:07:30,150 --> 01:07:27,039

following

1814

01:07:31,430 --> 01:07:30,160

us and subscribe to vinnie subscribe to

1815

01:07:35,270 --> 01:07:31,440

sean

1816

01:07:39,910 --> 01:07:35,280

maybe me and

1817

01:07:43,109 --> 01:07:39,920

you know we'll try we'll try to

1818

01:07:45,430 --> 01:07:43,119

keep on covering whatever this is that's

1819

01:07:47,109 --> 01:07:45,440

why we're doing what we're doing man so

1820

01:07:48,630 --> 01:07:47,119

sean before we go tell us what you've

1821

01:07:49,670 --> 01:07:48,640

got coming up in the next few days or

1822

01:07:51,910 --> 01:07:49,680

the next week

1823

01:07:53,349 --> 01:07:51,920

yeah i got a lot of cool stuff coming

1824

01:07:56,390 --> 01:07:53,359

saturday i have

1825

01:07:57,510 --> 01:07:56,400

uh mike d'amate with punk rock and ufos

1826

01:07:59,910 --> 01:07:57,520

i had him on

1827

01:08:01,029 --> 01:07:59,920

early in my show uh when i had like

1828

01:08:04,069 --> 01:08:01,039

maybe

1829

01:08:06,870 --> 01:08:04,079

30 subscribers so and i i

1830

01:08:08,789 --> 01:08:06,880

he's he does really great stuff so i

1831

01:08:10,870 --> 01:08:08,799

wanted to bring him back

1832

01:08:11,910 --> 01:08:10,880

um so that's happening on saturday at 4

1833

01:08:14,630 --> 01:08:11,920

00 central

1834

01:08:15,990 --> 01:08:14,640

on tuesday i have a really really

1835

01:08:17,910 --> 01:08:16,000

exciting big day

1836

01:08:19,269 --> 01:08:17,920

um first of all it's going to be a night

1837

01:08:22,550 --> 01:08:19,279

show

1838

01:08:26,070 --> 01:08:22,560

and i'm going live with uh steve bassett

1839

01:08:27,110 --> 01:08:26,080

at 7 30 central time and right after

1840

01:08:28,630 --> 01:08:27,120

that

1841

01:08:33,749 --> 01:08:28,640

uh ross coldheart is going to be

1842

01:08:39,110 --> 01:08:37,510

i told steve bassett dude ufo twitter

1843

01:08:39,590 --> 01:08:39,120

needs you right now you need to come

1844

01:08:42,709 --> 01:08:39,600

back

1845

01:08:46,149 --> 01:08:42,719

i agree you know oh i agree so

1846

01:08:47,749 --> 01:08:46,159

he's always uh optimistic and um has a

1847

01:08:49,189 --> 01:08:47,759

great way of looking at things so and i

1848

01:08:51,510 --> 01:08:49,199

think we need that so i'm trying to get

1849

01:08:54,390 --> 01:08:51,520

him back on and he's doing it

1850

01:08:55,829 --> 01:08:54,400

sean that's amazing bro i cannot wait

1851

01:08:56,709 --> 01:08:55,839

another thing that you discussed with me

1852

01:08:58,630 --> 01:08:56,719

recently was a

1853

01:08:59,829 --> 01:08:58,640

like a panel discussion around ross

1854

01:09:01,590 --> 01:08:59,839

coulthard's book

1855

01:09:03,189 --> 01:09:01,600

yes is that happening can you tell us

1856

01:09:06,709 --> 01:09:03,199

anything about that yeah that's

1857

01:09:09,590 --> 01:09:06,719

next week on the

1858

01:09:10,390 --> 01:09:09,600

thursday next week actually cool um so

1859

01:09:11,829 --> 01:09:10,400

yeah

1860

01:09:15,749 --> 01:09:11,839

i know you read the book you're welcome

1861

01:09:19,430 --> 01:09:18,709

but uh engaging the phenomenon james it

1862

01:09:22,070 --> 01:09:19,440

will be on

1863

01:09:23,189 --> 01:09:22,080

and we'll be discussing it so it's going

1864

01:09:24,950 --> 01:09:23,199

to be pretty cool

1865

01:09:26,470 --> 01:09:24,960

well speaking of james this is the thing

1866

01:09:29,030 --> 01:09:26,480

because we've just discussed

1867

01:09:30,309 --> 01:09:29,040

the atip slides tonight and it sounds

1868

01:09:32,309 --> 01:09:30,319

like a few people in the comments here

1869

01:09:32,550 --> 01:09:32,319

want to see us do the wilson davis memo

1870

01:09:36,709 --> 01:09:32,560

i

1871

01:09:39,110 --> 01:09:36,719

that

1872

01:09:40,470 --> 01:09:39,120

so yeah yeah let's make it happen i'll

1873

01:09:41,990 --> 01:09:40,480

reach out to james

1874

01:09:43,430 --> 01:09:42,000

i was speaking to him yesterday so i'm

1875

01:09:44,229 --> 01:09:43,440

sure he'd be up for it it's just making

1876

01:09:46,870 --> 01:09:44,239

a date

1877

01:09:48,229 --> 01:09:46,880

where we can all join together so max

1878

01:09:49,829 --> 01:09:48,239

before we go have you got anything

1879

01:09:52,870 --> 01:09:49,839

coming up you want to plug

1880

01:09:54,630 --> 01:09:52,880

no not really okay bro i know

1881

01:09:56,070 --> 01:09:54,640

the thing is with max i know and i think

1882

01:09:56,870 --> 01:09:56,080

everyone else knows that behind the

1883

01:09:58,310 --> 01:09:56,880

scenes

1884

01:10:00,149 --> 01:09:58,320

he slips it in there he's got his

1885

01:10:04,229 --> 01:10:00,159

fingers in some pies whoops

1886

01:10:04,239 --> 01:10:08,390

i'll give a little

1887

01:10:16,229 --> 01:10:11,990

hint just you don't have to but

1888

01:10:19,910 --> 01:10:16,239

but if you guys remember

1889

01:10:23,590 --> 01:10:19,920

i interviewed harry reid i

1890

01:10:26,229 --> 01:10:23,600

got something equivalent to that

1891

01:10:27,910 --> 01:10:26,239

yes i agree let's leave it at that

1892

01:10:39,990 --> 01:10:27,920

because donald trump

1893

01:10:43,990 --> 01:10:42,630

melissa guys thank you so much sean it's

1894

01:10:44,870 --> 01:10:44,000

been an absolute honor to speak thank

1895

01:10:48,390 --> 01:10:44,880

you

1896

01:10:51,030 --> 01:10:48,400

for jumping on as always

1897

01:10:52,790 --> 01:10:51,040

i think together we are we are better

1898

01:10:57,590 --> 01:10:52,800

you know

1899

01:11:01,110 --> 01:11:00,070

i don't trump that i don't like that

1900

01:11:04,149 --> 01:11:01,120

space stuff

1901  
01:11:05,030 --> 01:11:04,159  
now listen we're going to continue you

1902  
01:11:06,500 --> 01:11:05,040  
guys

1903  
01:11:10,630 --> 01:11:06,510  
we'll do this

1904  
01:11:15,110 --> 01:11:13,830  
really good um max we we will be also

1905  
01:11:15,669 --> 01:11:15,120  
i'm just going to say before we go we

1906  
01:11:20,149 --> 01:11:15,679  
will

1907  
01:11:21,430 --> 01:11:20,159  
more episodes of the maxim vinnie uap

1908  
01:11:21,990 --> 01:11:21,440  
show we've been working behind the

1909  
01:11:24,709 --> 01:11:22,000  
scenes

1910  
01:11:26,470 --> 01:11:24,719  
to get that uh happening it's a lot

1911  
01:11:29,350 --> 01:11:26,480  
harder because of

1912  
01:11:30,390 --> 01:11:29,360  
finding people new cases things like

1913  
01:11:32,070 --> 01:11:30,400

that but we've got two

1914

01:11:33,189 --> 01:11:32,080

aren't you choosing the name we are

1915

01:11:34,070 --> 01:11:33,199

changing the name we're going to

1916

01:11:36,070 --> 01:11:34,080

re-brand

1917

01:11:53,430 --> 01:11:36,080

because it's going to be the three of us

1918

01:11:57,830 --> 01:11:56,470

let's um i'm gonna actually

1919

01:11:59,350 --> 01:11:57,840

for anyone that is actually watching

1920

01:12:00,950 --> 01:11:59,360

live right now i am going to be jumping

1921

01:12:02,390 --> 01:12:00,960

straight onto instagram after this

1922

01:12:04,229 --> 01:12:02,400

if you want to come on continue the

1923

01:12:05,830 --> 01:12:04,239

conversation you're both welcome as well

1924

01:12:06,950 --> 01:12:05,840

i'm going to go on live on instagram

1925

01:12:08,310 --> 01:12:06,960

but thank you everyone that's been

1926

01:12:09,430 --> 01:12:08,320

watching here live tonight thank you

1927

01:12:11,270 --> 01:12:09,440

everyone that watches this

1928

01:12:13,830 --> 01:12:11,280

after the fact i appreciate the

1929

01:12:17,270 --> 01:12:13,840

continued support go and subscribe to

1930

01:12:19,189 --> 01:12:17,280

sean go and subscribe to max this is all

1931

01:12:20,950 --> 01:12:19,199

mirrored

1932

01:12:22,870 --> 01:12:20,960

love you guys so much thank you so much

1933

01:12:25,910 --> 01:12:22,880

for joining me tonight and um

1934

01:12:26,310 --> 01:12:25,920

speak to you guys soon no doubt love you
