7
00:00:40,069 --> 00:00:38,079

and it's finally happening tonight good

8
00:00:41,430 --> 00:00:40,079

to see you guys in the comments

9
00:00:43,430 --> 00:00:41,440

we've already been having a laugh behind

10
00:00:46,310 --> 00:00:43,440

the scenes good to see you

11
00:00:47,670 --> 00:00:46,320

13
00:00:53,510 --> 00:00:50,000

further ado i'd like to introduce to you

14

00:00:56,950 --> 00:00:53,520

mr jeremy mcgowan jeremy

15

00:00:58,310 --> 00:00:56,960

vinnie how are you man i am doing well

16

00:01:00,310 --> 00:00:58,320

my friend it is an

17

00:01:01,670 --> 00:01:00,320

honor and a pleasure to be here i really

18

00:01:03,590 --> 00:01:01,680

really appreciate

19

00:01:04,950 --> 00:01:03,600

any chance i get to talk to the folks

20

00:01:06,710 --> 00:01:04,960

across the pond

21

00:01:08,550 --> 00:01:06,720

uh and like i was saying in the chat

22

00:01:10,870 --> 00:01:08,560

apparently today i'm the guy with the

23

00:01:13,109 --> 00:01:10,880

funny accent so

24

00:01:14,310 --> 00:01:13,119

i guess most of your viewers are over in

25

00:01:15,429 --> 00:01:14,320

the uk so

26

00:01:17,670 --> 00:01:15,439

do you know what i think they're

27

00:01:20,789 --> 00:01:17,680

actually mainly in the us to be honest

28

00:01:22,550 --> 00:01:20,799

really yeah i think so yeah

29

00:01:24,310 --> 00:01:22,560

i never planned it that way obviously

30

00:01:26,230 --> 00:01:24,320

they just appear from everywhere but no

31

00:01:27,670 --> 00:01:26,240

yeah i you know what shout out to

32

00:01:28,870 --> 00:01:27,680

everyone that's here whether you're from

33

00:01:32,230 --> 00:01:28,880

any corner of the globe

34

00:01:34,310 --> 00:01:32,240

you're all welcome so um and we've got

35

00:01:36,950 --> 00:01:34,320

mr jason turn or has he gone to finish

36

00:01:37,560 --> 00:01:36,960

doing his decking he's pressure washing

37

00:01:39,590 --> 00:01:37,570

his deck

38

00:01:42,149 --> 00:01:39,600

[Laughter]

39

00:01:44,149 --> 00:01:42,159

so yeah so jeremy how's your day going

40

00:01:45,109 --> 00:01:44,159

so far man it's doing well man it's uh

41

00:01:47,190 --> 00:01:45,119

it's about 11

42

00:01:49,190 --> 00:01:47,200

30 over here in vegas i woke up this

43

00:01:51,030 --> 00:01:49,200

morning i got a chance to uh

44

00:01:54,069 --> 00:01:51,040

cook some breakfast for the family then

45

00:01:55,830 --> 00:01:54,079

go outside and mow my lawn and uh

46

00:01:57,109 --> 00:01:55,840

check out the land mines that my dog

47

00:01:58,709 --> 00:01:57,119

left for me

48

00:02:00,870 --> 00:01:58,719

take a shower and now i'm sitting here

49

00:02:01,670 --> 00:02:00,880

talking to you fine folks sounds going

50

00:02:03,109 --> 00:02:01,680

well good

51
00:02:04,389 --> 00:02:03,119
sounds good man i've just noticed on

52
00:02:05,510 --> 00:02:04,399
your cupboard in the background you got

53
00:02:07,910 --> 00:02:05,520
the sticker

54
00:02:09,510 --> 00:02:07,920
the osiris sticker yeah right right

55
00:02:10,469 --> 00:02:09,520
right there there you go yeah there you

56
00:02:14,070 --> 00:02:10,479
got one

57
00:02:14,630 --> 00:02:14,080
of the osiris as well and of course the

58
00:02:16,710 --> 00:02:14,640
uh

59
00:02:18,710 --> 00:02:16,720
the the logo is emblazoned on the side

60
00:02:21,270 --> 00:02:18,720
of the doors there as well dan

61
00:02:22,150 --> 00:02:21,280
dan zetterman man he knocked that out of

62
00:02:24,470 --> 00:02:22,160
the park

63
00:02:25,270 --> 00:02:24,480

and if you knew if you knew the amount

64

00:02:27,190 --> 00:02:25,280

of detail

65

00:02:28,470 --> 00:02:27,200

and synchronicities that lined up when

66

00:02:31,030 --> 00:02:28,480

he was doing that

67

00:02:32,710 --> 00:02:31,040

right down to the star field that is

68

00:02:33,350 --> 00:02:32,720

that all the stars that you can see in

69

00:02:37,110 --> 00:02:33,360

that

70

00:02:39,430 --> 00:02:37,120

over dan's house

71

00:02:40,470 --> 00:02:39,440

at the minute he finished making the

72

00:02:42,070 --> 00:02:40,480

logo yeah

73

00:02:44,229 --> 00:02:42,080

incredible we had a conversation about

74

00:02:45,589 --> 00:02:44,239

it on instagram live a couple of months

75

00:02:47,270 --> 00:02:45,599

ago and he

76

00:02:49,350 --> 00:02:47,280

yeah he went in and told me everything

77

00:02:51,270 --> 00:02:49,360

about it and i was just blown away

78

00:02:52,710 --> 00:02:51,280

oh yeah yeah and that's not the only

79

00:02:54,390 --> 00:02:52,720

synchronicity that happened during the

80

00:02:57,030 --> 00:02:54,400

course of the making of that it was

81

00:02:57,750 --> 00:02:57,040

it was incredible uh how everything

82

00:03:01,509 --> 00:02:57,760

lined up

83

00:03:02,149 --> 00:03:01,519

yeah amazing stuff so where do we start

84

00:03:04,550 --> 00:03:02,159

i mean

85

00:03:06,070 --> 00:03:04,560

i guess at the start just give us a bit

86

00:03:08,470 --> 00:03:06,080

of your background

87

00:03:09,990 --> 00:03:08,480

you can go back as far as you want and

88

00:03:12,149 --> 00:03:10,000

before you're interested in uap

89

00:03:14,070 --> 00:03:12,159

anything you want but yeah i'll leave it

90

00:03:16,710 --> 00:03:14,080

up to you my man oh man well

91

00:03:18,550 --> 00:03:16,720

obviously i'm a child of the 70s i am 50

92

00:03:21,990 --> 00:03:18,560

years old just as of

93

00:03:22,790 --> 00:03:22,000

recently um so this this obviously takes

94

00:03:24,949 --> 00:03:22,800

a lot of work

95

00:03:25,910 --> 00:03:24,959

because it doesn't it doesn't look like

96

00:03:28,630 --> 00:03:25,920

this man

97

00:03:29,830 --> 00:03:28,640

looking good bro you're at 50 so

98

00:03:32,789 --> 00:03:29,840

congratulations

99

00:03:33,990 --> 00:03:32,799

i appreciate it now i uh man i don't

100

00:03:34,550 --> 00:03:34,000

even i don't even know where to start

101
00:03:38,630 --> 00:03:34,560
talking

102
00:03:42,390 --> 00:03:38,640
like that is

103
00:03:43,750 --> 00:03:42,400
is a lot easier but i guess you know i

104
00:03:47,430 --> 00:03:43,760
ended up in the military

105
00:03:49,589 --> 00:03:47,440
uh at a fairly normal age

106
00:03:51,430 --> 00:03:49,599
i didn't go in super early i didn't go

107
00:03:54,710 --> 00:03:51,440
in super late i turned

108
00:03:56,789 --> 00:03:54,720
21 in basic training right so

109
00:03:58,470 --> 00:03:56,799
uh it was it was the worst birthday i'd

110
00:03:59,670 --> 00:03:58,480
ever had in my life my drill sergeant

111
00:04:02,789 --> 00:03:59,680
comes up to me

112
00:04:04,949 --> 00:04:02,799
hands me a beer tells me i can open it

113
00:04:06,390 --> 00:04:04,959

says happy birthday then have its me

114

00:04:08,149 --> 00:04:06,400

hand it back to him and he drinks it in

115

00:04:10,309 --> 00:04:08,159

front of me

116

00:04:11,350 --> 00:04:10,319

so that was that was my that was my

117

00:04:15,030 --> 00:04:11,360

birthday

118

00:04:17,030 --> 00:04:15,040

um yeah gary shout out gary

119

00:04:18,789 --> 00:04:17,040

in the house we'll be speaking in a few

120

00:04:21,110 --> 00:04:18,799

days gary and uh yeah

121

00:04:22,710 --> 00:04:21,120

maybe you're ten you better trim your

122

00:04:23,990 --> 00:04:22,720

beard gary when you come on so they can

123

00:04:25,350 --> 00:04:24,000

actually see if you're talking or if

124

00:04:28,150 --> 00:04:25,360

you're just a puppet with somebody's

125

00:04:30,390 --> 00:04:28,160

hand up

126

00:04:32,550 --> 00:04:30,400

oh i love the banter already love it

127

00:04:34,629 --> 00:04:32,560

love it love it so yeah sorry to be

128

00:04:36,110 --> 00:04:34,639

interrupted there no no no worries that

129

00:04:39,510 --> 00:04:36,120

i mean that's gary that's what he does

130

00:04:41,430 --> 00:04:39,520

[Laughter]

131

00:04:42,950 --> 00:04:41,440

no i uh i ended up in the air force and

132

00:04:46,310 --> 00:04:42,960

uh i would have been a

133

00:04:46,950 --> 00:04:46,320

career uh military guy but uh i guess

134

00:04:50,150 --> 00:04:46,960

the the

135

00:04:51,030 --> 00:04:50,160

the medium version of the story is right

136

00:04:52,950 --> 00:04:51,040

after i uh

137

00:04:54,629 --> 00:04:52,960

got to my first duty station uh which

138

00:04:57,830 --> 00:04:54,639

was pope air force base i was

139

00:05:01,670 --> 00:04:57,840

i served there uh technically from uh

140

00:05:03,350 --> 00:05:01,680

90 to 95 basically and

141

00:05:06,070 --> 00:05:03,360

of course i was only on the base for

142

00:05:07,110 --> 00:05:06,080

maybe six to eight months in total out

143

00:05:09,430 --> 00:05:07,120

of the entire four

144

00:05:11,830 --> 00:05:09,440

four and a half years that i was on

145

00:05:14,950 --> 00:05:11,840

stationed at pope because we were the

146

00:05:18,790 --> 00:05:14,960

most highly deployed uh base

147

00:05:20,870 --> 00:05:18,800

in the u.s military at the time because

148

00:05:22,390 --> 00:05:20,880

well pope is now gone it's now part of

149

00:05:25,350 --> 00:05:22,400

fort bragg it's called pope

150

00:05:27,350 --> 00:05:25,360

field but when i was there we had um of

151

00:05:28,790 --> 00:05:27,360

course the uh the 101st airborne the

152

00:05:31,029 --> 00:05:28,800

82nd airborne

153

00:05:33,110 --> 00:05:31,039

uh at fort bragg we had the green beret

154

00:05:34,390 --> 00:05:33,120

training facility we had delta force we

155

00:05:36,150 --> 00:05:34,400

had jsoc

156

00:05:38,230 --> 00:05:36,160

uh we had all the special forces

157

00:05:39,110 --> 00:05:38,240

operators you know the the frog school

158

00:05:41,909 --> 00:05:39,120

was there for the

159

00:05:42,950 --> 00:05:41,919

the seals so basically anybody that was

160

00:05:46,469 --> 00:05:42,960

anybody

161

00:05:49,110 --> 00:05:46,479

went through that general area so

162

00:05:50,469 --> 00:05:49,120

all the special guys uh you know had all

163

00:05:51,590 --> 00:05:50,479

the special jobs and all the special

164

00:05:54,790 --> 00:05:51,600

duties so

165

00:05:57,350 --> 00:05:54,800

i was not special um my unit was

166

00:05:59,590 --> 00:05:57,360

task or attached to jsoc joint special

167

00:06:01,189 --> 00:05:59,600

operations command but only as a support

168

00:06:02,309 --> 00:06:01,199

operations we didn't go in and do the

169

00:06:03,749 --> 00:06:02,319

heavy lifting

170

00:06:06,309 --> 00:06:03,759

we went in and lifted their heavy

171

00:06:09,110 --> 00:06:06,319

equipment okay and wherever they went

172

00:06:10,550 --> 00:06:09,120

uh we would go as as support operators

173

00:06:12,150 --> 00:06:10,560

for them just making sure that their

174

00:06:13,909 --> 00:06:12,160

stuff was safe and secure and

175

00:06:15,909 --> 00:06:13,919

you know their runways were clear and

176

00:06:18,150 --> 00:06:15,919

and the the az that we were

177

00:06:19,510 --> 00:06:18,160

the lz that we were around because it

178

00:06:21,909 --> 00:06:19,520

was free of enemy fires

179

00:06:23,110 --> 00:06:21,919

to make sure that when the the spec ops

180

00:06:25,590 --> 00:06:23,120

guys came in

181

00:06:26,230 --> 00:06:25,600

they uh they had a secure place to bunk

182

00:06:27,909 --> 00:06:26,240

down

183

00:06:30,070 --> 00:06:27,919

and that was basically uh to my

184

00:06:32,469 --> 00:06:30,080

operation there but um

185

00:06:34,309 --> 00:06:32,479

so i was i ended up spending about two

186

00:06:37,350 --> 00:06:34,319

and a half years in total

187

00:06:39,909 --> 00:06:37,360

in the middle east uh in in the first

188

00:06:41,830 --> 00:06:39,919

four years of my military service which

189

00:06:45,510 --> 00:06:41,840

i i don't like that place at

190

00:06:47,350 --> 00:06:45,520

much at all um but uh

191

00:06:48,790 --> 00:06:47,360

but pope was was an interesting place

192

00:06:50,150 --> 00:06:48,800

because it's kind of an indoctrination

193

00:06:53,430 --> 00:06:50,160

by fire i think

194

00:06:55,189 --> 00:06:53,440

uh in in the first four years of my

195

00:06:55,990 --> 00:06:55,199

service i had been to 22 different

196

00:06:57,670 --> 00:06:56,000

countries

197

00:06:59,350 --> 00:06:57,680

by the end of the first year by the end

198

00:07:03,990 --> 00:06:59,360

of the fourth year

199

00:07:07,589 --> 00:07:04,000

it was it was incredible um but

200

00:07:08,390 --> 00:07:07,599

i pope pope was was unique in in the

201
00:07:11,510 --> 00:07:08,400
fact that

202
00:07:13,510 --> 00:07:11,520
i got to see a lot of things and a lot

203
00:07:15,749 --> 00:07:13,520
got to go to a lot of places that i

204
00:07:17,029 --> 00:07:15,759
never would have had the opportunity to

205
00:07:19,110 --> 00:07:17,039
do before

206
00:07:20,469 --> 00:07:19,120
um so i don't even know where i was

207
00:07:23,110 --> 00:07:20,479
going with this but

208
00:07:24,230 --> 00:07:23,120
bro that i'm blown away just by the fact

209
00:07:26,550 --> 00:07:24,240
that

210
00:07:27,990 --> 00:07:26,560
you know you joined and you just one of

211
00:07:30,230 --> 00:07:28,000
the most deployed

212
00:07:31,430 --> 00:07:30,240
groups in the whole of the you know the

213
00:07:32,230 --> 00:07:31,440

air force and stuff and you've got to

214

00:07:33,670 --> 00:07:32,240

see all these countries

215

00:07:35,270 --> 00:07:33,680

do you feel like it toughened you up as

216

00:07:36,150 --> 00:07:35,280

well seeing doing all that stuff so

217

00:07:38,710 --> 00:07:36,160

quickly and

218

00:07:40,950 --> 00:07:38,720

going to different places i'm going to

219

00:07:42,629 --> 00:07:40,960

beat gary to the punch and say no

220

00:07:45,189 --> 00:07:42,639

um because he's going to call me chair

221

00:07:48,230 --> 00:07:45,199

force in probably about three seconds

222

00:07:49,110 --> 00:07:48,240

but i don't i don't know that it

223

00:07:51,430 --> 00:07:49,120

toughened me up

224

00:07:52,230 --> 00:07:51,440

or or anything it opened my eyes a lot i

225

00:07:55,510 --> 00:07:52,240

mean okay

226

00:07:57,909 --> 00:07:55,520

yeah i grew up in in a very rural very

227

00:07:59,589 --> 00:07:57,919

redneck area in west virginia i mean

228

00:08:00,790 --> 00:07:59,599

this is the heart of appalachia where

229

00:08:03,749 --> 00:08:00,800

it's nothing but

230

00:08:05,749 --> 00:08:03,759

coal miners and oil rigs and things like

231

00:08:09,589 --> 00:08:05,759

that over there

232

00:08:11,670 --> 00:08:09,599

so it was a very very closed

233

00:08:13,029 --> 00:08:11,680

society that i grew up in so when i got

234

00:08:16,150 --> 00:08:13,039

into the military

235

00:08:17,589 --> 00:08:16,160

it really exposed me to a completely

236

00:08:20,629 --> 00:08:17,599

different universe

237

00:08:21,670 --> 00:08:20,639

on day one i mean there was there was

238

00:08:24,469 --> 00:08:21,680

two black people

239

00:08:27,270 --> 00:08:24,479

in my school in my high school and they

240

00:08:28,950 --> 00:08:27,280

were half white and they were brothers

241

00:08:30,629 --> 00:08:28,960

and that was that was the only exposure

242

00:08:33,750 --> 00:08:30,639

i had because there was

243

00:08:35,750 --> 00:08:33,760

one one high school in the entire county

244

00:08:40,389 --> 00:08:35,760

um so you know we only had fifteen

245

00:08:43,990 --> 00:08:41,909

thank you so much man i appreciate it

246

00:08:45,509 --> 00:08:44,000

and yeah jeremy you got it there he

247

00:08:47,190 --> 00:08:45,519

called you out sorry to interrupt

248

00:08:49,190 --> 00:08:47,200

yeah sorry you were saying about your

249

00:08:51,910 --> 00:08:49,200

high school that's right

250

00:08:53,350 --> 00:08:51,920

do you know why the navy exists right

251
00:08:55,910 --> 00:08:53,360
it's it's because the marines need

252
00:08:59,750 --> 00:08:55,920
somebody to dance with

253
00:09:01,110 --> 00:08:59,760
so gary yeah come on let me

254
00:09:03,030 --> 00:09:01,120
this is just going to go back and forth

255
00:09:03,590 --> 00:09:03,040
now i love it i love it this is this is

256
00:09:05,110 --> 00:09:03,600
great

257
00:09:06,949 --> 00:09:05,120
but going into the military it really

258
00:09:08,070 --> 00:09:06,959
opened my eyes to new cultures and new

259
00:09:09,910 --> 00:09:08,080
experiences and

260
00:09:12,710 --> 00:09:09,920
different types of people that i had

261
00:09:14,870 --> 00:09:12,720
never been exposed to before and it was

262
00:09:15,750 --> 00:09:14,880
it was pretty entertaining and and uh

263
00:09:18,230 --> 00:09:15,760

awkward and

264

00:09:19,750 --> 00:09:18,240

amazing all at the same time was it and

265

00:09:20,949 --> 00:09:19,760

what percentage of those deployments

266

00:09:22,230 --> 00:09:20,959

across all those different countries

267

00:09:24,949 --> 00:09:22,240

were like

268

00:09:26,310 --> 00:09:24,959

really intense you know like war

269

00:09:29,350 --> 00:09:26,320

situations or was it

270

00:09:32,150 --> 00:09:29,360

more on a different level it

271

00:09:32,470 --> 00:09:32,160

it started off with desert storm whoa i

272

00:09:41,910 --> 00:09:32,480

mean

273

00:09:45,829 --> 00:09:41,920

i went to i had a job out of high school

274

00:09:46,550 --> 00:09:45,839

uh with ibm and i had taken some college

275

00:09:48,949 --> 00:09:46,560

and things like that

276

00:09:50,790 --> 00:09:48,959

and and college and i both agreed that

277

00:09:54,070 --> 00:09:50,800

college probably wasn't the correct

278

00:09:56,470 --> 00:09:54,080

place for me to be so i ended up

279

00:09:57,990 --> 00:09:56,480

getting a job at ibm and i was i was

280

00:09:59,590 --> 00:09:58,000

comfortable there but

281

00:10:01,509 --> 00:09:59,600

you know i didn't fit in because like i

282

00:10:03,509 --> 00:10:01,519

said i came from this redneck

283

00:10:05,350 --> 00:10:03,519

appalachian place and now i'm in

284

00:10:06,790 --> 00:10:05,360

research triangle park in raleigh durham

285

00:10:09,590 --> 00:10:06,800

north carolina working in

286

00:10:10,470 --> 00:10:09,600

in big blue suit and tie and man i don't

287

00:10:13,350 --> 00:10:10,480

like ties

288

00:10:14,710 --> 00:10:13,360

and i rode a motorcycle back and forth

289

00:10:16,790 --> 00:10:14,720

to work all the time and

290

00:10:18,310 --> 00:10:16,800

i usually had particularly crappy days

291

00:10:20,710 --> 00:10:18,320

at ibm just because i didn't

292

00:10:22,630 --> 00:10:20,720

i didn't quite fit in there right and uh

293

00:10:25,670 --> 00:10:22,640

on on one of these random

294

00:10:27,190 --> 00:10:25,680

bride's home i uh i kept seeing the a

295

00:10:29,670 --> 00:10:27,200

recruiter station

296

00:10:31,430 --> 00:10:29,680

every day when i rode home from work and

297

00:10:32,630 --> 00:10:31,440

i had just had a particularly crappy day

298

00:10:35,350 --> 00:10:32,640

at work one day

299

00:10:35,829 --> 00:10:35,360

and i pulled my bike in and uh and rode

300

00:10:38,230 --> 00:10:35,839

into the

301
00:10:40,310 --> 00:10:38,240
the parking lot took my helmet off and

302
00:10:41,990 --> 00:10:40,320
uh they had army navy air force

303
00:10:44,550 --> 00:10:42,000
marine and coast guard recruiters in the

304
00:10:46,550 --> 00:10:44,560
same place and i walked past the uh

305
00:10:48,710 --> 00:10:46,560
the army office and i walked past the uh

306
00:10:50,150 --> 00:10:48,720
the navy and the marine office and

307
00:10:51,430 --> 00:10:50,160
and i got to the air force it was all

308
00:10:52,870 --> 00:10:51,440
the way in the back and i was like yeah

309
00:10:54,470 --> 00:10:52,880
this seems right

310
00:10:56,230 --> 00:10:54,480
so i walk in there and they're like what

311
00:10:59,110 --> 00:10:56,240
what uh

312
00:11:00,550 --> 00:10:59,120
what can we do for you and i was like i

313
00:11:01,829 --> 00:11:00,560

i want to get out of here

314

00:11:03,670 --> 00:11:01,839

you know what do you want to do it's

315

00:11:05,910 --> 00:11:03,680

like i i don't really care i want to

316

00:11:09,269 --> 00:11:05,920

shoot guns and i want to blow things up

317

00:11:10,069 --> 00:11:09,279

nice and they're like okay well we got a

318

00:11:13,030 --> 00:11:10,079

spot for you

319

00:11:14,069 --> 00:11:13,040

and uh within a couple months i found

320

00:11:16,550 --> 00:11:14,079

myself celebrating

321

00:11:17,910 --> 00:11:16,560

christmas uh and then my birthday and

322

00:11:19,590 --> 00:11:17,920

basic training

323

00:11:22,630 --> 00:11:19,600

and uh then the next thing you know i

324

00:11:24,310 --> 00:11:22,640

get to pope and within a couple weeks uh

325

00:11:26,150 --> 00:11:24,320

i'm in the middle of desert storm and

326

00:11:27,190 --> 00:11:26,160

i'm like you know i really wasn't that

327

00:11:30,150 --> 00:11:27,200

bad

328

00:11:31,670 --> 00:11:30,160

that is mind-blowing man and look we see

329

00:11:34,790 --> 00:11:31,680

we got the whole gang here

330

00:11:37,350 --> 00:11:34,800

hello kevin good to see you my friend

331

00:11:39,110 --> 00:11:37,360

senior chief day what's going on man

332

00:11:42,230 --> 00:11:39,120

absolutely honored to have him here

333

00:11:43,350 --> 00:11:42,240

all you guys man this is a mind-blowing

334

00:11:45,030 --> 00:11:43,360

in fact but

335

00:11:46,150 --> 00:11:45,040

listen one thing i wanted to speak to

336

00:11:47,670 --> 00:11:46,160

you about and i mean i don't know how

337

00:11:49,430 --> 00:11:47,680

much you want to go into the history of

338

00:11:50,790 --> 00:11:49,440

your military service but there was a

339

00:11:51,829 --> 00:11:50,800

case that i think a few people have

340

00:11:53,190 --> 00:11:51,839

heard about

341

00:11:55,590 --> 00:11:53,200

where you were guarding something in

342

00:11:58,069 --> 00:11:55,600

particular can you

343

00:12:00,230 --> 00:11:58,079

extrapolate on that yeah i mean it it's

344

00:12:02,150 --> 00:12:00,240

it's a story i've i've told uh a few

345

00:12:05,750 --> 00:12:02,160

times that's uh it's kind of

346

00:12:08,230 --> 00:12:05,760

the reason the reason that i'm uh around

347

00:12:09,269 --> 00:12:08,240

chief day and and gary and jason and

348

00:12:11,590 --> 00:12:09,279

these guys it's

349

00:12:12,470 --> 00:12:11,600

it was a strange turn of events that uh

350

00:12:15,990 --> 00:12:12,480

got me on the

351
00:12:16,310 --> 00:12:16,000
the tv show uh unidentified with uh with

352
00:12:19,590 --> 00:12:16,320
uh

353
00:12:20,550 --> 00:12:19,600
lou elizondo yeah but the the whole

354
00:12:22,949 --> 00:12:20,560
thing was this this

355
00:12:24,069 --> 00:12:22,959
also happened out of pope air force base

356
00:12:26,310 --> 00:12:24,079
and by this time

357
00:12:28,069 --> 00:12:26,320
i had been serving for this was this

358
00:12:30,389 --> 00:12:28,079
would have been towards the middle of

359
00:12:32,150 --> 00:12:30,399
95. so i would have been in for a good

360
00:12:34,310 --> 00:12:32,160
solid four four and a half years by this

361
00:12:37,509 --> 00:12:34,320
time right and uh

362
00:12:39,590 --> 00:12:37,519
at uh at pope you know we we were

363
00:12:41,030 --> 00:12:39,600

like i said the one of the most highly

364

00:12:43,590 --> 00:12:41,040

uh deployed

365

00:12:44,629 --> 00:12:43,600

bases and in my unit was the most highly

366

00:12:46,949 --> 00:12:44,639

deployed unit in the

367

00:12:48,150 --> 00:12:46,959

entire air force at the time and we were

368

00:12:51,110 --> 00:12:48,160

very very

369

00:12:51,590 --> 00:12:51,120

used to having a go bag packed at all

370

00:12:53,750 --> 00:12:51,600

times

371

00:12:55,190 --> 00:12:53,760

and then you get a phone call or

372

00:12:56,470 --> 00:12:55,200

somebody comes knocking on your barracks

373

00:12:58,470 --> 00:12:56,480

door and they said like hey grab your

374

00:13:00,870 --> 00:12:58,480

bag and go you're getting deployed

375

00:13:02,629 --> 00:13:00,880

and 99 times out of 100 you would grab

376

00:13:04,710 --> 00:13:02,639

your bag you would get on a c130 the

377

00:13:06,870 --> 00:13:04,720

rest of your team would be on the plane

378

00:13:08,710 --> 00:13:06,880

you would take off and they would fly

379

00:13:09,590 --> 00:13:08,720

you around for about an hour an hour and

380

00:13:12,870 --> 00:13:09,600

a half

381

00:13:14,310 --> 00:13:12,880

uh the uh your your uh

382

00:13:15,829 --> 00:13:14,320

your flight sergeant would come in and

383

00:13:17,590 --> 00:13:15,839

have you dump your bag out on the middle

384

00:13:18,870 --> 00:13:17,600

of the airplane floor and count all your

385

00:13:19,990 --> 00:13:18,880

gear and make sure you had all your

386

00:13:23,190 --> 00:13:20,000

stuff

387

00:13:25,030 --> 00:13:23,200

and then the plane would land and

388

00:13:26,470 --> 00:13:25,040

you'd be back where you started and

389

00:13:27,670 --> 00:13:26,480

you'd be back at pope going

390

00:13:29,590 --> 00:13:27,680

well what the hell was that well it's

391

00:13:30,949 --> 00:13:29,600

just a round this training exercise to

392

00:13:32,470 --> 00:13:30,959

make sure you got your crap together in

393

00:13:35,750 --> 00:13:32,480

case the real thing happens

394

00:13:38,470 --> 00:13:35,760

yeah so this happened all the time right

395

00:13:39,350 --> 00:13:38,480

and the same thing occurred uh we got a

396

00:13:40,470 --> 00:13:39,360

phone call

397

00:13:42,470 --> 00:13:40,480

and you know grab your bag you're

398

00:13:45,590 --> 00:13:42,480

getting deployed and we were like yeah

399

00:13:47,430 --> 00:13:45,600

okay here we go again we get on the

400

00:13:49,269 --> 00:13:47,440

we get on the plane c-130 out of pope

401
00:13:53,110 --> 00:13:49,279
air force base we launched

402
00:13:53,750 --> 00:13:53,120
and uh we didn't get our gear dumped out

403
00:13:55,590 --> 00:13:53,760
on the

404
00:13:57,030 --> 00:13:55,600
floor of the plane nobody was counting

405
00:13:59,350 --> 00:13:57,040
our canteens or our

406
00:14:01,110 --> 00:13:59,360
chemical patches or anything like that

407
00:14:04,150 --> 00:14:01,120
and it was really kind of quiet

408
00:14:05,430 --> 00:14:04,160
and somber feeling inside the plane and

409
00:14:07,189 --> 00:14:05,440
and one of the things that i noticed

410
00:14:08,470 --> 00:14:07,199
right off the bat is we were not making

411
00:14:10,069 --> 00:14:08,480
a turn

412
00:14:12,230 --> 00:14:10,079
because normally they just fly around in

413
00:14:13,110 --> 00:14:12,240

a pattern for a show until you come back

414

00:14:14,949 --> 00:14:13,120

down right

415

00:14:16,310 --> 00:14:14,959

yeah and we weren't making a turn

416

00:14:20,150 --> 00:14:16,320

anywhere and and it

417

00:14:21,670 --> 00:14:20,160

we were heading somewhere and a couple

418

00:14:24,310 --> 00:14:21,680

hours go by and then we start to

419

00:14:24,870 --> 00:14:24,320

start descending and we get off the

420

00:14:26,949 --> 00:14:24,880

plane and

421

00:14:28,230 --> 00:14:26,959

i'm in delaware and i'm like what the

422

00:14:31,269 --> 00:14:28,240

hell is going on and we start

423

00:14:33,670 --> 00:14:31,279

transferring to a c5 out of delaware

424

00:14:35,269 --> 00:14:33,680

and when we got on the c5 they nobody

425

00:14:36,550 --> 00:14:35,279

was telling us where we were going we

426

00:14:38,150 --> 00:14:36,560

didn't have orders

427

00:14:40,230 --> 00:14:38,160

we didn't have paperwork we didn't have

428

00:14:42,949 --> 00:14:40,240

anything all that gets processed

429

00:14:44,550 --> 00:14:42,959

on the back side of things right unless

430

00:14:46,949 --> 00:14:44,560

it's just a standard

431

00:14:48,790 --> 00:14:46,959

you know training or standard routine

432

00:14:50,949 --> 00:14:48,800

deployment but something like this

433

00:14:52,310 --> 00:14:50,959

orders are probably still being typed up

434

00:14:55,430 --> 00:14:52,320

somewhere okay

435

00:14:55,910 --> 00:14:55,440

so we uh we're airborne in the c5 for

436

00:14:57,750 --> 00:14:55,920

maybe an

437

00:14:59,509 --> 00:14:57,760

hour hour and a half until they actually

438

00:15:00,870 --> 00:14:59,519

tell us that this is a real world

439

00:15:02,310 --> 00:15:00,880

deployment and we're going to the

440

00:15:04,230 --> 00:15:02,320

country of jordan

441

00:15:05,670 --> 00:15:04,240

but then they said it's just for an

442

00:15:09,030 --> 00:15:05,680

exercise

443

00:15:11,030 --> 00:15:09,040

i'm like okay so all of this for an

444

00:15:14,389 --> 00:15:11,040

exercise right yeah

445

00:15:16,870 --> 00:15:14,399

so we we landed in jordan and

446

00:15:18,230 --> 00:15:16,880

i had been in the desert multiple times

447

00:15:19,910 --> 00:15:18,240

by then like i said i started off in

448

00:15:22,550 --> 00:15:19,920

desert storm right

449

00:15:23,829 --> 00:15:22,560

so i'd served in in saudi arabia i'd

450

00:15:27,189 --> 00:15:23,839

served in kuwait

451

00:15:29,829 --> 00:15:27,199

uh taiyi foul cars uh all over the place

452

00:15:30,949 --> 00:15:29,839

and when we get to uh to jordan things

453

00:15:33,749 --> 00:15:30,959

were just

454

00:15:35,269 --> 00:15:33,759

different there was there was a feeling

455

00:15:39,110 --> 00:15:35,279

in the air that just

456

00:15:42,710 --> 00:15:39,120

wasn't it it wasn't right

457

00:15:43,829 --> 00:15:42,720

okay and i remember going into the mess

458

00:15:47,030 --> 00:15:43,839

hall

459

00:15:49,670 --> 00:15:47,040

guys call it

460

00:15:50,470 --> 00:15:49,680

and i was looking around and i was

461

00:15:53,749 --> 00:15:50,480

taking note

462

00:15:55,509 --> 00:15:53,759

of everybody that was there because

463

00:15:56,870 --> 00:15:55,519

i only deployed with nine other people

464

00:15:59,509 --> 00:15:56,880

that i knew

465

00:16:00,230 --> 00:15:59,519

um and when i'm looking around i mean

466

00:16:02,470 --> 00:16:00,240

there were

467

00:16:03,430 --> 00:16:02,480

hundreds of other americans that were

468

00:16:05,189 --> 00:16:03,440

there

469

00:16:07,430 --> 00:16:05,199

and i was looking at people from the

470

00:16:09,590 --> 00:16:07,440

75th ranger battalion i was looking at

471

00:16:12,150 --> 00:16:09,600

people from naval special warfare

472

00:16:14,790 --> 00:16:12,160

i was looking at people contractors that

473

00:16:18,069 --> 00:16:14,800

were wearing fbi uniforms cia

474

00:16:20,069 --> 00:16:18,079

uniforms i even saw people from the

475

00:16:23,350 --> 00:16:20,079

department of energy the doe

476

00:16:26,389 --> 00:16:23,360

walking around and i'm like this is

477

00:16:29,749 --> 00:16:26,399

not normal at all

478

00:16:31,749 --> 00:16:29,759

and and i get sent to a post

479

00:16:33,430 --> 00:16:31,759

i get split apart from my team which is

480

00:16:34,230 --> 00:16:33,440

also something that was very strange to

481

00:16:36,150 --> 00:16:34,240

me because

482

00:16:37,749 --> 00:16:36,160

if you train with these folks you know

483

00:16:39,269 --> 00:16:37,759

how they react you know who's going to

484

00:16:41,269 --> 00:16:39,279

snore in the foxhole

485

00:16:43,110 --> 00:16:41,279

you know you know who's who's reliable

486

00:16:44,629 --> 00:16:43,120

on the weapons you you know

487

00:16:46,389 --> 00:16:44,639

what the capabilities of your team

488

00:16:50,710 --> 00:16:46,399

members are sure yeah and

489

00:16:53,110 --> 00:16:50,720

and we we got separated uh

490

00:16:54,550 --> 00:16:53,120

mandatorily separated so i have no idea

491

00:16:56,550 --> 00:16:54,560

where the other nine guys were actually

492

00:16:59,670 --> 00:16:56,560

eight guys and one girl

493

00:17:01,509 --> 00:16:59,680

um and i get stuck on this post

494

00:17:03,030 --> 00:17:01,519

out in the middle of the jordanian

495

00:17:06,549 --> 00:17:03,040

desert and i mean there is

496

00:17:09,669 --> 00:17:06,559

nothing around you you can't see

497

00:17:10,230 --> 00:17:09,679

civilization from horizon horizon it's

498

00:17:13,429 --> 00:17:10,240

just

499

00:17:16,069 --> 00:17:13,439

barren desert with some sand dunes in it

500

00:17:17,110 --> 00:17:16,079

and when i get there the only things

501
00:17:20,470 --> 00:17:17,120
that were there

502
00:17:22,069 --> 00:17:20,480
was a tent just like a gp medium canvas

503
00:17:24,309 --> 00:17:22,079
type tent

504
00:17:25,590 --> 00:17:24,319
and a few dozen meters off to the right

505
00:17:28,950 --> 00:17:25,600
of it was this

506
00:17:31,990 --> 00:17:28,960
big ass wooden crate just a big

507
00:17:34,470 --> 00:17:32,000
box in the middle of the desert um

508
00:17:35,750 --> 00:17:34,480
and what i mean big i mean this thing

509
00:17:38,310 --> 00:17:35,760
looked like

510
00:17:40,230 --> 00:17:38,320
you could drive a car through it or park

511
00:17:40,630 --> 00:17:40,240
a car in it like a volkswagen bug could

512
00:17:42,630 --> 00:17:40,640
be

513
00:17:44,710 --> 00:17:42,640

sealed up inside this crate so we're not

514

00:17:47,990 --> 00:17:44,720

talking like a small little box it's

515

00:17:50,150 --> 00:17:48,000

it's a big crate and

516

00:17:52,150 --> 00:17:50,160

normally when we get on post and we're

517

00:17:53,990 --> 00:17:52,160

told to guard something we have

518

00:17:55,909 --> 00:17:54,000

rules of engagements our roes are

519

00:17:57,669 --> 00:17:55,919

printed out for us our special operating

520

00:17:59,510 --> 00:17:57,679

procedures are printed out for us and it

521

00:18:00,310 --> 00:17:59,520

tells us what our fields of fire are it

522

00:18:01,830 --> 00:18:00,320

tells us

523

00:18:03,830 --> 00:18:01,840

you know when to engage when we're not

524

00:18:05,110 --> 00:18:03,840

supposed to engage challenge words code

525

00:18:06,470 --> 00:18:05,120

words things like this they're all given

526

00:18:07,430 --> 00:18:06,480

to us there was nothing there was no

527

00:18:10,549 --> 00:18:07,440

paperwork there was

528

00:18:12,549 --> 00:18:10,559

nothing there and i can't remember if

529

00:18:13,510 --> 00:18:12,559

the guy was a captain or a major he

530

00:18:15,270 --> 00:18:13,520

comes out

531

00:18:17,590 --> 00:18:15,280

and he's he's giving me and this other

532

00:18:19,190 --> 00:18:17,600

guy a a briefing of what we're supposed

533

00:18:20,710 --> 00:18:19,200

to be doing and he just says don't let

534

00:18:22,710 --> 00:18:20,720

anybody near the crate and don't get

535

00:18:25,190 --> 00:18:22,720

near the crate

536

00:18:26,950 --> 00:18:25,200

that's it it's like yeah don't let

537

00:18:29,510 --> 00:18:26,960

anybody near the crate and don't

538

00:18:30,950 --> 00:18:29,520

come near the crate it's like okay but

539

00:18:31,669 --> 00:18:30,960

what happens if somebody gets near the

540

00:18:34,870 --> 00:18:31,679

crate

541

00:18:37,990 --> 00:18:34,880

he's like shoot them wow

542

00:18:40,549 --> 00:18:38,000

okay so this is not an exercise yeah

543

00:18:42,630 --> 00:18:40,559

and you know i'm i was a 203 gunner at

544

00:18:44,549 --> 00:18:42,640

the time which is a a 40 millimeter

545

00:18:45,430 --> 00:18:44,559

grenade launcher on the bottom of an m16

546

00:18:48,390 --> 00:18:45,440

rifle yeah

547

00:18:50,470 --> 00:18:48,400

so i had 240 rounds of 556 for my rifle

548

00:18:52,390 --> 00:18:50,480

and i had 18 rounds of high explosive

549

00:18:54,070 --> 00:18:52,400

grenades strapped on my vest

550

00:18:55,510 --> 00:18:54,080

and you know you don't do that in an

551
00:18:57,190 --> 00:18:55,520
exercise either you may have the

552
00:18:59,110 --> 00:18:57,200
grenades but they're paint grenades with

553
00:19:00,630 --> 00:18:59,120
orange tips and they just go poof

554
00:19:01,909 --> 00:19:00,640
right yeah they paint some they'll leave

555
00:19:04,070 --> 00:19:01,919
a big ass bruise and they'll paint

556
00:19:07,270 --> 00:19:04,080
somebody orange it looks like a cheeto

557
00:19:09,590 --> 00:19:07,280
but it's not gonna kill them so this was

558
00:19:12,150 --> 00:19:09,600
obviously not an exercise

559
00:19:14,390 --> 00:19:12,160
and then and i was out there for a

560
00:19:15,990 --> 00:19:14,400
number of days with this guy

561
00:19:17,510 --> 00:19:16,000
and i don't know who he was i don't know

562
00:19:19,669 --> 00:19:17,520
what base he was from

563
00:19:21,270 --> 00:19:19,679

um we barely even talked to each other

564

00:19:22,390 --> 00:19:21,280

because we had virtually nothing in

565

00:19:23,830 --> 00:19:22,400

common

566

00:19:26,310 --> 00:19:23,840

but we had each other's backs while we

567

00:19:29,510 --> 00:19:26,320

were out there right yeah and

568

00:19:32,549 --> 00:19:29,520

i used to smoke and i was a chain smoker

569

00:19:34,390 --> 00:19:32,559

i was two packs a day right

570

00:19:35,990 --> 00:19:34,400

back in back at that time and of course

571

00:19:38,630 --> 00:19:36,000

you can't smoke

572

00:19:39,350 --> 00:19:38,640

while you're on post especially on at

573

00:19:41,029 --> 00:19:39,360

night

574

00:19:42,630 --> 00:19:41,039

because the little cherry at the end of

575

00:19:44,630 --> 00:19:42,640

your cigarette you can see that on night

576

00:19:46,390 --> 00:19:44,640

vision goggles from miles away

577

00:19:47,909 --> 00:19:46,400

yeah and uh i didn't really want to get

578

00:19:49,190 --> 00:19:47,919

sniped in the

579

00:19:50,390 --> 00:19:49,200

night and it's not like there was

580

00:19:51,350 --> 00:19:50,400

anybody out there but i mean you know

581

00:19:51,990 --> 00:19:51,360

these are the things that are going

582

00:19:53,669 --> 00:19:52,000

through your head

583

00:19:55,190 --> 00:19:53,679

right of course you never know man

584

00:19:57,990 --> 00:19:55,200

exactly so

585

00:19:59,350 --> 00:19:58,000

so i i would walk away from post because

586

00:20:01,110 --> 00:19:59,360

there was no supervision

587

00:20:02,710 --> 00:20:01,120

there was nobody else out there people

588

00:20:06,149 --> 00:20:02,720

in the tent were gone

589

00:20:07,590 --> 00:20:06,159

um and i would walk out onto the sand

590

00:20:08,630 --> 00:20:07,600

dune and i would lay down on the sand

591

00:20:10,630 --> 00:20:08,640

dude and i would just

592

00:20:11,990 --> 00:20:10,640

kind of it was about 300 meters away and

593

00:20:13,909 --> 00:20:12,000

i could still see the crate

594

00:20:15,590 --> 00:20:13,919

and i could i was up high so i could see

595

00:20:17,270 --> 00:20:15,600

if there was anybody coming around

596

00:20:19,270 --> 00:20:17,280

yeah i would just lay there and smoke a

597

00:20:21,110 --> 00:20:19,280

cigarette or two cigarettes or a handful

598

00:20:26,310 --> 00:20:21,120

of cigarettes until i would go back and

599

00:20:30,310 --> 00:20:28,549

it was just one night uh the the guy

600

00:20:31,990 --> 00:20:30,320

that was that was with me he uh he

601
00:20:32,630 --> 00:20:32,000
smoked as well so he walked out there

602
00:20:35,270 --> 00:20:32,640
with me as

603
00:20:36,789 --> 00:20:35,280
as well and i was just super bored and i

604
00:20:38,630 --> 00:20:36,799
grabbed my night vision goggles

605
00:20:40,789 --> 00:20:38,640
and i put them on i strapped them on my

606
00:20:41,909 --> 00:20:40,799
head and adjusted them down and i just

607
00:20:43,750 --> 00:20:41,919
kind of

608
00:20:45,350 --> 00:20:43,760
laid back on the sand dune and i was

609
00:20:46,149 --> 00:20:45,360
laying pretty much flat on my back

610
00:20:48,870 --> 00:20:46,159
looking

611
00:20:49,750 --> 00:20:48,880
straight up uh through the night vision

612
00:20:52,789 --> 00:20:49,760
goggles

613
00:20:53,830 --> 00:20:52,799

just amazed at the amount of stars that

614

00:20:55,990 --> 00:20:53,840

you can see because

615

00:20:56,950 --> 00:20:56,000

in in the desert at night it is

616

00:20:58,310 --> 00:20:56,960

cloudless

617

00:21:00,230 --> 00:20:58,320

you know there's no atmospheric

618

00:21:01,990 --> 00:21:00,240

distortion there's there's no

619

00:21:03,350 --> 00:21:02,000

pollution out there it's just crystal

620

00:21:05,669 --> 00:21:03,360

clear

621

00:21:07,350 --> 00:21:05,679

all the way to the stars yeah yeah when

622

00:21:08,149 --> 00:21:07,360

you put the night vision goggles on you

623

00:21:11,510 --> 00:21:08,159

can just see

624

00:21:12,390 --> 00:21:11,520

you know a thousand times more uh stars

625

00:21:15,029 --> 00:21:12,400

than you can with your

626
00:21:16,070 --> 00:21:15,039
your naked eye of course yeah and then i

627
00:21:18,390 --> 00:21:16,080
saw something that i

628
00:21:19,350 --> 00:21:18,400
thought was just at first i thought it

629
00:21:23,510 --> 00:21:19,360
was a a

630
00:21:25,990 --> 00:21:23,520
an error in the night vision goggles um

631
00:21:27,510 --> 00:21:26,000
and i kind of smacked him a little bit

632
00:21:29,350 --> 00:21:27,520
and because sand gets down in the

633
00:21:30,149 --> 00:21:29,360
imaging tube and grains of sand will

634
00:21:32,230 --> 00:21:30,159
roll around

635
00:21:33,990 --> 00:21:32,240
and and things like that happen so i'm

636
00:21:34,950 --> 00:21:34,000
okay i'm looking at the night vision

637
00:21:37,270 --> 00:21:34,960
goggles and

638
00:21:38,950 --> 00:21:37,280

blowing dust out of them and things like

639

00:21:40,149 --> 00:21:38,960

that and i put them back on and i'm

640

00:21:41,990 --> 00:21:40,159

laying back there and

641

00:21:43,750 --> 00:21:42,000

and i see it again i'm just like man

642

00:21:46,149 --> 00:21:43,760

this this isn't right

643

00:21:46,870 --> 00:21:46,159

and again i'm flat on my back looking

644

00:21:50,390 --> 00:21:46,880

straight up

645

00:21:52,470 --> 00:21:50,400

and all i can see is is the cloudless

646

00:21:55,110 --> 00:21:52,480

knight and the field of stars out there

647

00:21:55,750 --> 00:21:55,120

and then something is just a bright

648

00:21:58,630 --> 00:21:55,760

bright

649

00:22:00,230 --> 00:21:58,640

pinpoint of light it comes back from my

650

00:22:02,630 --> 00:22:00,240

six o'clock position

651
00:22:03,750 --> 00:22:02,640
shoots straight up over top of me top

652
00:22:06,149 --> 00:22:03,760
dead center

653
00:22:08,310 --> 00:22:06,159
makes a perfect 90 degree turn and

654
00:22:11,270 --> 00:22:08,320
shoots off to my nine o'clock

655
00:22:11,990 --> 00:22:11,280
now this goes from my rear horizon yeah

656
00:22:15,350 --> 00:22:12,000
to my left

657
00:22:17,830 --> 00:22:15,360
horizon with a pivot a turn at the

658
00:22:19,190 --> 00:22:17,840
at the top dead center at 12 o'clock

659
00:22:21,590 --> 00:22:19,200
with no

660
00:22:22,310 --> 00:22:21,600
there was there was no curve there was

661
00:22:24,310 --> 00:22:22,320
no

662
00:22:26,070 --> 00:22:24,320
arc or radius to this turn it was a

663
00:22:28,470 --> 00:22:26,080

perfect 90 degree

664

00:22:29,750 --> 00:22:28,480
and i swear to god there was no

665

00:22:33,029 --> 00:22:29,760
depreciation in

666

00:22:36,070 --> 00:22:33,039
speed it did not slow down it did

667

00:22:39,270 --> 00:22:36,080
not it

668

00:22:40,070 --> 00:22:39,280
it was weird right and i would see this

669

00:22:42,070 --> 00:22:40,080
thing over

670

00:22:43,510 --> 00:22:42,080
and over again it was just following the

671

00:22:45,270 --> 00:22:43,520
same pattern over

672

00:22:46,870 --> 00:22:45,280
so i took the night vision goggles off

673

00:22:48,310 --> 00:22:46,880
and i handed them to the guy beside me

674

00:22:49,270 --> 00:22:48,320
and i'm like here look at this he's like

675

00:22:52,149 --> 00:22:49,280
what am i looking for

676

00:22:53,590 --> 00:22:52,159

i'm like just look so he takes the night

677

00:22:53,990 --> 00:22:53,600

vision goggles and he puts him on and he

678

00:22:56,310 --> 00:22:54,000

he

679

00:22:57,830 --> 00:22:56,320

kind of leans back and it's maybe i

680

00:22:59,110 --> 00:22:57,840

don't know 30 seconds a minute or

681

00:23:00,630 --> 00:22:59,120

something like that

682

00:23:03,029 --> 00:23:00,640

and the next thing i know i could see

683

00:23:07,270 --> 00:23:03,039

his head track and go left

684

00:23:08,390 --> 00:23:07,280

i was like i swear to god man all he

685

00:23:09,430 --> 00:23:08,400

does is he takes the night vision

686

00:23:11,190 --> 00:23:09,440

goggles off

687

00:23:13,029 --> 00:23:11,200

hands him back to me reaches into his

688

00:23:14,710 --> 00:23:13,039

ammo pouch pulls out a pack of

689

00:23:16,630 --> 00:23:14,720

cigarettes

690

00:23:17,750 --> 00:23:16,640

lights one up and walks back to the

691

00:23:20,549 --> 00:23:17,760

crate no

692

00:23:22,230 --> 00:23:20,559

he doesn't say [h__h] doesn't talk about

693

00:23:25,350 --> 00:23:22,240

it the rest of the time

694

00:23:28,390 --> 00:23:25,360

and the bad part is i could not and go

695

00:23:29,909 --> 00:23:28,400

and ask anybody about what the hell this

696

00:23:32,870 --> 00:23:29,919

was because i had literally

697

00:23:33,990 --> 00:23:32,880

walked away from my guard position yeah

698

00:23:36,149 --> 00:23:34,000

right

699

00:23:37,270 --> 00:23:36,159

i can't go flag an officer down and say

700

00:23:39,830 --> 00:23:37,280

hey you know when i

701
00:23:41,669 --> 00:23:39,840
was committing dereliction of duty over

702
00:23:41,990 --> 00:23:41,679
here smoking a cigarette away from post

703
00:23:45,430 --> 00:23:42,000
i

704
00:23:46,870 --> 00:23:45,440
shouldn't be there yeah so

705
00:23:50,230 --> 00:23:46,880
i couldn't say anything i couldn't ask

706
00:23:52,310 --> 00:23:50,240
anybody about what the hell it was but

707
00:23:53,990 --> 00:23:52,320
that's nuts i'm just gonna give a quick

708
00:23:55,990 --> 00:23:54,000
quick shout out to scott jensen but then

709
00:23:57,750 --> 00:23:56,000
we've got a good question here

710
00:23:59,909 --> 00:23:57,760
shout out to my brother my brother in

711
00:24:01,669 --> 00:23:59,919
the comments here hey disclosure bro

712
00:24:04,070 --> 00:24:01,679
could you determine what shape it was at

713
00:24:06,149 --> 00:24:04,080

all no in the night vision goggles as

714

00:24:08,070 --> 00:24:06,159

far away as this thing was it was

715

00:24:10,710 --> 00:24:08,080

literally just a pinpoint of light to me

716

00:24:13,510 --> 00:24:10,720

it was a circular point that was a

717

00:24:17,269 --> 00:24:13,520

couple magnitudes brighter than a star

718

00:24:19,350 --> 00:24:17,279

um there was no sound no sound and

719

00:24:20,789 --> 00:24:19,360

and i know for a fact that we were in

720

00:24:22,630 --> 00:24:20,799

restricted airspace

721

00:24:24,310 --> 00:24:22,640

right so there was there was no aircraft

722

00:24:30,390 --> 00:24:24,320

no

723

00:24:32,390 --> 00:24:30,400

you could see satellites and you can see

724

00:24:33,830 --> 00:24:32,400

the satellites go over and you know what

725

00:24:35,430 --> 00:24:33,840

a satellite is of course you know the

726
00:24:35,750 --> 00:24:35,440
movement the tracking and things like

727
00:24:38,710 --> 00:24:35,760
that

728
00:24:39,830 --> 00:24:38,720
yeah and this would go horizon to

729
00:24:42,230 --> 00:24:39,840
horizon

730
00:24:44,870 --> 00:24:42,240
with a 90 degree turn a perfectly

731
00:24:47,669 --> 00:24:44,880
executed 90 degree turn to the left

732
00:24:49,029 --> 00:24:47,679
with no depreciation and speed no arc no

733
00:24:50,950 --> 00:24:49,039
radius no nothing

734
00:24:52,950 --> 00:24:50,960
and it would go horizontal horizon this

735
00:24:55,430 --> 00:24:52,960
took it under two seconds

736
00:24:57,669 --> 00:24:55,440
that's crazy so just going back to the

737
00:24:58,710 --> 00:24:57,679
the crate that you were guarding

738
00:25:00,710 --> 00:24:58,720

well do you think there's any

739

00:25:01,350 --> 00:25:00,720

correlation between the sighting and the

740

00:25:03,830 --> 00:25:01,360

crate

741

00:25:04,870 --> 00:25:03,840

i do i didn't at the time because i

742

00:25:07,830 --> 00:25:04,880

didn't really know

743

00:25:08,470 --> 00:25:07,840

what was in the crate at the time um it

744

00:25:12,310 --> 00:25:08,480

took

745

00:25:13,350 --> 00:25:12,320

roughly 24 years uh to kind of figure

746

00:25:16,630 --> 00:25:13,360

out

747

00:25:17,909 --> 00:25:16,640

what was truly in the crate now at the

748

00:25:21,190 --> 00:25:17,919

time

749

00:25:23,669 --> 00:25:21,200

i had a i had an idea but i had a wrong

750

00:25:24,710 --> 00:25:23,679

idea in the right direction of what was

751
00:25:27,350 --> 00:25:24,720
in the crate

752
00:25:27,750 --> 00:25:27,360
okay when when i was looking around like

753
00:25:30,789 --> 00:25:27,760
i was

754
00:25:33,269 --> 00:25:30,799
saying and i saw uh not only the ranger

755
00:25:35,269 --> 00:25:33,279
battalion 75th but the

756
00:25:36,870 --> 00:25:35,279
department of energy guys as well and i

757
00:25:38,149 --> 00:25:36,880
had never ever deployed with the

758
00:25:39,590 --> 00:25:38,159
department of energy

759
00:25:41,510 --> 00:25:39,600
and like i said i'd been in the desert

760
00:25:43,350 --> 00:25:41,520
for two and a half years by this time

761
00:25:46,310 --> 00:25:43,360
and i'd never seen the doe walking

762
00:25:47,269 --> 00:25:46,320
around i knew it had to be something

763
00:25:49,909 --> 00:25:47,279

that dealt with

764

00:25:50,710 --> 00:25:49,919

something radiological yeah it's just

765

00:25:54,070 --> 00:25:50,720

the only reason

766

00:25:55,830 --> 00:25:54,080

but i also didn't

767

00:25:57,110 --> 00:25:55,840

think of the way i should have been

768

00:26:00,630 --> 00:25:57,120

thinking at the time so

769

00:26:02,470 --> 00:26:00,640

in my mind back then i thought

770

00:26:04,310 --> 00:26:02,480

that what was in the crate was something

771

00:26:07,350 --> 00:26:04,320

that was radioactive that we

772

00:26:09,990 --> 00:26:07,360

used to help our satellites

773

00:26:10,870 --> 00:26:10,000

focus you know you know give our

774

00:26:12,870 --> 00:26:10,880

satellites

775

00:26:14,630 --> 00:26:12,880

like a ground-based radiological

776

00:26:16,710 --> 00:26:14,640

signature that they can track

777

00:26:19,510 --> 00:26:16,720

for an exercise all right so i figured

778

00:26:21,750 --> 00:26:19,520

that it was something sensitive

779

00:26:22,870 --> 00:26:21,760

i just didn't realize how sensitive it

780

00:26:26,149 --> 00:26:22,880

actually was and i

781

00:26:30,470 --> 00:26:26,159

didn't even know what it was until

782

00:26:32,870 --> 00:26:30,480

after i was being vetted by lou elizondo

783

00:26:34,710 --> 00:26:32,880

and anthony lepay of the history channel

784

00:26:37,909 --> 00:26:34,720

for the tv show

785

00:26:38,470 --> 00:26:37,919

and they were having me dig up all sorts

786

00:26:39,990 --> 00:26:38,480

of proof

787

00:26:42,390 --> 00:26:40,000

you know documents and things like that

788

00:26:43,350 --> 00:26:42,400

certificates of participation my dd214

789

00:26:45,190 --> 00:26:43,360

and i found

790

00:26:47,669 --> 00:26:45,200

i found all the paperwork i found the

791

00:26:49,590 --> 00:26:47,679

rhetor retroactive orders and i gave

792

00:26:51,750 --> 00:26:49,600

i gave lou all of that sort of stuff

793

00:26:53,510 --> 00:26:51,760

right and then anthony lepay

794

00:26:54,789 --> 00:26:53,520

who was the showrunner for uh

795

00:26:57,110 --> 00:26:54,799

unidentified

796

00:26:58,390 --> 00:26:57,120

he wanted to see if i could find anybody

797

00:27:01,110 --> 00:26:58,400

that could corroborate

798

00:27:02,230 --> 00:27:01,120

anything that i was saying right um so i

799

00:27:03,510 --> 00:27:02,240

put my feelers out

800

00:27:06,149 --> 00:27:03,520

and there was a guy that i had been

801
00:27:08,950 --> 00:27:06,159
stationed with at pope early on

802
00:27:10,549 --> 00:27:08,960
who was not part of this deployment but

803
00:27:12,549 --> 00:27:10,559
i just called him up

804
00:27:14,470 --> 00:27:12,559
because i figured that he would help me

805
00:27:18,470 --> 00:27:14,480
track down other people that

806
00:27:20,310 --> 00:27:18,480
that could help corroborate the story

807
00:27:22,070 --> 00:27:20,320
turns out that he had left pope and i

808
00:27:23,909 --> 00:27:22,080
can't mention his name because

809
00:27:25,510 --> 00:27:23,919
he was interviewed by the tv show but it

810
00:27:27,590 --> 00:27:25,520
did not make the air

811
00:27:28,710 --> 00:27:27,600
um they just interviewed him for

812
00:27:31,430 --> 00:27:28,720
corroboration

813
00:27:32,710 --> 00:27:31,440

sure but he refused to go on camera okay

814

00:27:35,669 --> 00:27:32,720

um

815

00:27:36,950 --> 00:27:35,679

he basically said that he had been

816

00:27:39,029 --> 00:27:36,960

transferred out of pope

817

00:27:40,389 --> 00:27:39,039

uh permanent change station out of pope

818

00:27:42,870 --> 00:27:40,399

uh about

819

00:27:44,070 --> 00:27:42,880

a year or so after i had gotten there

820

00:27:47,750 --> 00:27:44,080

and he ended up

821

00:27:48,230 --> 00:27:47,760

providing support for seal team four

822

00:27:51,350 --> 00:27:48,240

right

823

00:27:53,990 --> 00:27:51,360

and ironically he

824

00:27:56,310 --> 00:27:54,000

states that he was on the receiving end

825

00:27:58,470 --> 00:27:56,320

of that crate

826
00:28:00,630 --> 00:27:58,480
and so the crate that i was guarding in

827
00:28:03,590 --> 00:28:00,640
the desert was initially was

828
00:28:04,789 --> 00:28:03,600
eventually picked up and transported by

829
00:28:07,830 --> 00:28:04,799
seal team 4

830
00:28:09,269 --> 00:28:07,840
into egypt and he was saying that the

831
00:28:13,269 --> 00:28:09,279
contents of the crate was

832
00:28:15,029 --> 00:28:13,279
actually a recovered nuclear device

833
00:28:16,789 --> 00:28:15,039
because you know we're talking four

834
00:28:19,430 --> 00:28:16,799
years previous to this

835
00:28:21,029 --> 00:28:19,440
uh the soviet empire had collapsed yeah

836
00:28:22,630 --> 00:28:21,039
and there were errant nukes

837
00:28:24,149 --> 00:28:22,640
all over the place i think john deutch

838
00:28:25,750 --> 00:28:24,159

the director of central intelligence had

839

00:28:27,830 --> 00:28:25,760

even estimated that at one point in time

840

00:28:29,909 --> 00:28:27,840

there was over 600 of them

841

00:28:32,070 --> 00:28:29,919

that were unaccounted for and it took

842

00:28:32,870 --> 00:28:32,080

them a decade or so to track them all

843

00:28:35,669 --> 00:28:32,880

down

844

00:28:36,070 --> 00:28:35,679

and this this was apparently one of them

845

00:28:39,430 --> 00:28:36,080

that

846

00:28:42,230 --> 00:28:39,440

had been recovered and uh and was being

847

00:28:43,590 --> 00:28:42,240

you know we've just recovered it and uh

848

00:28:45,990 --> 00:28:43,600

instead of having

849

00:28:46,950 --> 00:28:46,000

a lot of fanfare you know you you take

850

00:28:50,789 --> 00:28:46,960

all the

851
00:28:53,350 --> 00:28:50,799
talent you have them nearby

852
00:28:53,990 --> 00:28:53,360
but you put a couple of dumb asses with

853
00:28:55,350 --> 00:28:54,000
rifles

854
00:28:57,269 --> 00:28:55,360
in a in a crate in the middle of the

855
00:28:59,029 --> 00:28:57,279
desert to guard it because

856
00:29:00,389 --> 00:28:59,039
it's so remote that if somebody starts

857
00:29:02,470 --> 00:29:00,399
heading to it

858
00:29:03,510 --> 00:29:02,480
by the time we sound the alarm everybody

859
00:29:07,190 --> 00:29:03,520
else is there

860
00:29:10,149 --> 00:29:07,200
yeah yeah that's a correct i mean

861
00:29:12,789 --> 00:29:10,159
so the correlation being the fact that

862
00:29:15,029 --> 00:29:12,799
because this was a stolen nuke

863
00:29:16,310 --> 00:29:15,039

it had apparently been stripped of all

864

00:29:18,149 --> 00:29:16,320

of its shielding

865

00:29:20,710 --> 00:29:18,159

because they were transporting it in an

866

00:29:22,230 --> 00:29:20,720

old ass truck across the desert

867

00:29:23,269 --> 00:29:22,240

coming out of you know one of the fallen

868

00:29:25,029 --> 00:29:23,279

states i think it was coming out of

869

00:29:26,149 --> 00:29:25,039

georgia or something like that sure yeah

870

00:29:26,870 --> 00:29:26,159

yeah and uh

871

00:29:28,630 --> 00:29:26,880

you know they're going through the

872

00:29:29,830 --> 00:29:28,640

desert so just conserve fuel and

873

00:29:31,269 --> 00:29:29,840

everything they strip off all the

874

00:29:33,510 --> 00:29:31,279

shielding on this thing to

875

00:29:35,110 --> 00:29:33,520

conserve weight and so this thing is

876

00:29:36,789 --> 00:29:35,120

glowing

877

00:29:38,310 --> 00:29:36,799

and it's probably emitting enough

878

00:29:41,669 --> 00:29:38,320

radiation that

879

00:29:44,710 --> 00:29:41,679

if there is a correlation between uap

880

00:29:46,630 --> 00:29:44,720

and nuclear devices you know now now

881

00:29:48,149 --> 00:29:46,640

there's this gamma emission coming from

882

00:29:50,149 --> 00:29:48,159

the middle of the desert that never had

883

00:29:52,549 --> 00:29:50,159

a gamma emission before

884

00:29:53,190 --> 00:29:52,559

so i i can only assume that the uap

885

00:29:55,269 --> 00:29:53,200

you're like

886

00:29:56,950 --> 00:29:55,279

what's this i can imagine it's just like

887

00:29:58,630 --> 00:29:56,960

beaming up there like out of the middle

888

00:30:02,070 --> 00:29:58,640

of nowhere just

889

00:30:03,669 --> 00:30:02,080

wow that's mind-blowing man

890

00:30:05,990 --> 00:30:03,679

and the reason that i say that i know

891

00:30:06,950 --> 00:30:06,000

that it was hot radioactive is because

892

00:30:09,590 --> 00:30:06,960

you know the

893

00:30:10,950 --> 00:30:09,600

the the major or the captain whoever he

894

00:30:11,990 --> 00:30:10,960

was basically like you know don't get

895

00:30:15,350 --> 00:30:12,000

near the crate

896

00:30:19,110 --> 00:30:15,360

yeah um and of course i i don't listen

897

00:30:21,990 --> 00:30:19,120

to him you know i stood on the crate i

898

00:30:24,789 --> 00:30:22,000

laid down on the cradle you know i

899

00:30:27,909 --> 00:30:24,799

pissed on the crate

900

00:30:30,870 --> 00:30:27,919

nine years ago uh all

901
00:30:32,310 --> 00:30:30,880
almost to the day nine years ago i was

902
00:30:35,029 --> 00:30:32,320
diagnosed with a very

903
00:30:35,350 --> 00:30:35,039
very specific type of skin cancer that

904
00:30:38,549 --> 00:30:35,360
is

905
00:30:39,510 --> 00:30:38,559
only caused by exposure to radiation and

906
00:30:42,950 --> 00:30:39,520
it was on my

907
00:30:44,630 --> 00:30:42,960
inner thigh and i do not sunbathe in the

908
00:30:46,710 --> 00:30:44,640
nude

909
00:30:48,710 --> 00:30:46,720
so wow now i've had it taken care of

910
00:30:50,630 --> 00:30:48,720
it's it's it's not gone

911
00:30:52,630 --> 00:30:50,640
but i mean it's not come back it's it's

912
00:30:54,470 --> 00:30:52,640
gone but glad to hear glad

913
00:30:56,149 --> 00:30:54,480

you know it's to me that's the

914

00:30:58,870 --> 00:30:56,159

correlative event that

915

00:31:00,470 --> 00:30:58,880

kind of has proof positive that i was

916

00:31:01,350 --> 00:31:00,480

sitting on something that i should not

917

00:31:04,389 --> 00:31:01,360

have been sitting on

918

00:31:06,070 --> 00:31:04,399

whoa that's insane man damn but then i

919

00:31:07,350 --> 00:31:06,080

guess you weren't told at the time so of

920

00:31:09,509 --> 00:31:07,360

course you didn't know you just said

921

00:31:13,110 --> 00:31:09,519

don't go near it well

922

00:31:14,710 --> 00:31:13,120

young and stupid the va

923

00:31:16,389 --> 00:31:14,720

the veterans administration has also

924

00:31:18,149 --> 00:31:16,399

denied my claim

925

00:31:19,509 --> 00:31:18,159

on that they they claim it was not

926
00:31:22,710 --> 00:31:19,519
service connected

927
00:31:24,310 --> 00:31:22,720
because i have no proof of anything that

928
00:31:26,870 --> 00:31:24,320
was in the crate

929
00:31:29,029 --> 00:31:26,880
i mean hell it took john mccain going

930
00:31:30,389 --> 00:31:29,039
for uh to help mr burroughs for the from

931
00:31:32,389 --> 00:31:30,399
the rendlesham accident of course

932
00:31:34,870 --> 00:31:32,399
ea has a long history of this crap so

933
00:31:36,470 --> 00:31:34,880
yeah you know because it's gone

934
00:31:38,149 --> 00:31:36,480
uh you know had it surgically removed

935
00:31:39,669 --> 00:31:38,159
i'm not worried about it at this point

936
00:31:41,350 --> 00:31:39,679
so there's no reason to you know try to

937
00:31:44,470 --> 00:31:41,360
fight the va over something that's not

938
00:31:47,029 --> 00:31:44,480

happen at the moment amazing thank you

939

00:31:48,549 --> 00:31:47,039

so much for going to so much detail on

940

00:31:49,430 --> 00:31:48,559

that story because i was aware of it but

941

00:31:51,590 --> 00:31:49,440

that

942

00:31:53,509 --> 00:31:51,600

the comments are saying it's like

943

00:31:55,590 --> 00:31:53,519

something from a movie script

944

00:31:57,350 --> 00:31:55,600

it's amazing you know people people take

945

00:31:58,870 --> 00:31:57,360

me to task and they say there's no way

946

00:32:00,070 --> 00:31:58,880

that the us government would ever leave

947

00:32:01,830 --> 00:32:00,080

a nuclear weapon

948

00:32:03,590 --> 00:32:01,840

under guard by two low-ranking

949

00:32:05,990 --> 00:32:03,600

individuals in the middle of the desert

950

00:32:06,789 --> 00:32:06,000

but you got to remember within just

951
00:32:10,630 --> 00:32:06,799
minutes

952
00:32:13,990 --> 00:32:10,640
behind me are the 75th ranger battalion

953
00:32:16,310 --> 00:32:14,000
the department of energy the fbi the cia

954
00:32:17,350 --> 00:32:16,320
you know if something goes south it's

955
00:32:19,669 --> 00:32:17,360
not like they can

956
00:32:21,110 --> 00:32:19,679
go anywhere with this crate you would

957
00:32:22,710 --> 00:32:21,120
have to have a crane

958
00:32:24,630 --> 00:32:22,720
you would have to have some sort of

959
00:32:25,590 --> 00:32:24,640
tracked vehicle to get it out of where

960
00:32:30,230 --> 00:32:25,600
it was

961
00:32:32,870 --> 00:32:30,240
mean it makes sense to me i mean

962
00:32:34,549 --> 00:32:32,880
what do i know really but it does it'll

963
00:32:37,590 --> 00:32:34,559

all correlates

964

00:32:39,750 --> 00:32:37,600

so after your time there

965

00:32:41,509 --> 00:32:39,760

and in the air force in general where is

966

00:32:45,029 --> 00:32:41,519

the transition between that

967

00:32:46,710 --> 00:32:45,039

and getting involved with uap

968

00:32:48,470 --> 00:32:46,720

the osiris project and that where

969

00:32:52,070 --> 00:32:48,480

where's the connection

970

00:32:55,190 --> 00:32:52,080

um i got a divorce in 2017

971

00:32:58,310 --> 00:32:55,200

and it was kind of a shitty one and

972

00:33:00,630 --> 00:32:58,320

i spent a significant amount of time

973

00:33:03,590 --> 00:33:00,640

having a pity party for myself

974

00:33:04,950 --> 00:33:03,600

and there was one night where i it was

975

00:33:06,549 --> 00:33:04,960

probably two three o'clock in the

976

00:33:09,029 --> 00:33:06,559

morning i was feeling particularly

977

00:33:10,950 --> 00:33:09,039

crappy about my general situation

978

00:33:12,230 --> 00:33:10,960

and i was sitting on my sofa i flipped

979

00:33:14,389 --> 00:33:12,240

on the tv and

980

00:33:15,830 --> 00:33:14,399

pulled up hulu i think it was or some

981

00:33:18,950 --> 00:33:15,840

streaming service and

982

00:33:21,509 --> 00:33:18,960

i watched a random episode of the

983

00:33:24,789 --> 00:33:21,519

unidentified tv show

984

00:33:25,909 --> 00:33:24,799

and i was like damn you know

985

00:33:28,070 --> 00:33:25,919

i think they were talking about the

986

00:33:30,070 --> 00:33:28,080

relationship between nukes and uap

987

00:33:31,430 --> 00:33:30,080

sure or or they touched on it or

988

00:33:32,389 --> 00:33:31,440

something i don't remember what episode

989

00:33:37,029 --> 00:33:32,399

it was

990

00:33:40,070 --> 00:33:37,039

so i jump up and i go to reddit

991

00:33:40,710 --> 00:33:40,080

and i write this big long story on

992

00:33:42,950 --> 00:33:40,720

reddit

993

00:33:45,110 --> 00:33:42,960

and i don't do it in a ufo forum i

994

00:33:46,549 --> 00:33:45,120

actually did it in a veterans forum

995

00:33:48,389 --> 00:33:46,559

because remember i said that the guy

996

00:33:48,950 --> 00:33:48,399

that was with me i had no idea who he

997

00:33:52,230 --> 00:33:48,960

was

998

00:33:53,990 --> 00:33:52,240

yeah right i still don't i went to a

999

00:33:55,909 --> 00:33:54,000

veterans forum

1000

00:33:57,190 --> 00:33:55,919

told the story and was hoping that some

1001

00:33:58,549 --> 00:33:57,200

of the detectives the internet

1002

00:34:01,190 --> 00:33:58,559

detectives on reddit

1003

00:34:02,549 --> 00:34:01,200

could help track down the guy okay that

1004

00:34:04,830 --> 00:34:02,559

i was stationed with or

1005

00:34:06,070 --> 00:34:04,840

assigned on a sign with on that uh that

1006

00:34:08,869 --> 00:34:06,080

post

1007

00:34:10,629 --> 00:34:08,879

and people kept asking for more detail

1008

00:34:11,669 --> 00:34:10,639

in more detail more details so finally i

1009

00:34:13,270 --> 00:34:11,679

kind of

1010

00:34:15,349 --> 00:34:13,280

said why and what was going on but i

1011

00:34:17,270 --> 00:34:15,359

left it very vague and they're like hey

1012

00:34:18,869 --> 00:34:17,280

you know you might want to post this in

1013

00:34:26,149 --> 00:34:18,879

the ufo subreddits

1014

00:34:27,829 --> 00:34:26,159

oh god but i did i basically caught cut

1015

00:34:29,109 --> 00:34:27,839

and pasted it and went over to the ufo

1016

00:34:30,869 --> 00:34:29,119

subreddits and then

1017

00:34:33,190 --> 00:34:30,879

all of a sudden people are like oh man

1018

00:34:35,270 --> 00:34:33,200

you got to contact ttsa

1019

00:34:37,030 --> 00:34:35,280

like what the hell is ttsa i've never

1020

00:34:38,149 --> 00:34:37,040

heard of this before

1021

00:34:39,669 --> 00:34:38,159

and they're like oh yeah they're doing

1022

00:34:40,790 --> 00:34:39,679

this show unidentified i'm like well

1023

00:34:42,710 --> 00:34:40,800

that's the show that i

1024

00:34:44,310 --> 00:34:42,720

that i watched and they told me that

1025

00:34:46,389 --> 00:34:44,320

there's an email address

1026
00:34:48,310 --> 00:34:46,399
that pops up at the very end of the show

1027
00:34:50,389 --> 00:34:48,320
where they're asking for

1028
00:34:52,470 --> 00:34:50,399
military people to come forward with

1029
00:34:54,790 --> 00:34:52,480
their story yeah so i go back

1030
00:34:57,270 --> 00:34:54,800
i hit pause i copy down the email

1031
00:34:58,870 --> 00:34:57,280
address and then i take

1032
00:35:00,950 --> 00:34:58,880
a cut and pasted version of everything

1033
00:35:02,790 --> 00:35:00,960
that i put on reddit and i sent it to

1034
00:35:05,750 --> 00:35:02,800
that email address

1035
00:35:06,550 --> 00:35:05,760
and nothing happens for maybe six to

1036
00:35:09,030 --> 00:35:06,560
eight weeks

1037
00:35:09,829 --> 00:35:09,040
there's just radio silence yeah and then

1038
00:35:13,030 --> 00:35:09,839

out of the blue

1039

00:35:14,230 --> 00:35:13,040

i get a phone call from uh uh i think it

1040

00:35:15,990 --> 00:35:14,240

was jessica phillips

1041

00:35:17,990 --> 00:35:16,000

which is one of the the executive

1042

00:35:20,230 --> 00:35:18,000

producers of of the show

1043

00:35:21,910 --> 00:35:20,240

right and she's like mr mcgowan we

1044

00:35:23,750 --> 00:35:21,920

really enjoy your story uh

1045

00:35:25,430 --> 00:35:23,760

lou elizondo wanted me to reach out to

1046

00:35:27,750 --> 00:35:25,440

you and ask if you would be willing to

1047

00:35:30,870 --> 00:35:27,760

talk about this on camera

1048

00:35:32,870 --> 00:35:30,880

and i'm like who

1049

00:35:34,390 --> 00:35:32,880

i had no idea because i had only watched

1050

00:35:36,630 --> 00:35:34,400

that one episode

1051

00:35:37,829 --> 00:35:36,640

yeah of of the first season i didn't i

1052

00:35:40,069 --> 00:35:37,839

mean i kind of

1053

00:35:41,109 --> 00:35:40,079

vaguely remembered who lou was but yeah

1054

00:35:44,150 --> 00:35:41,119

and i was like well

1055

00:35:45,910 --> 00:35:44,160

you know i if you guys can do me a favor

1056

00:35:47,750 --> 00:35:45,920

the only reason that i'm even here is

1057

00:35:48,630 --> 00:35:47,760

because i want to find the guy that i

1058

00:35:51,589 --> 00:35:48,640

was with

1059

00:35:52,790 --> 00:35:51,599

so he can validate my story and validate

1060

00:35:55,270 --> 00:35:52,800

my memory

1061

00:35:57,270 --> 00:35:55,280

so since you guys are a giant tv show

1062

00:35:59,990 --> 00:35:57,280

and have all this production capability

1063

00:36:01,190 --> 00:36:00,000

if you can track him down i'll tell my

1064

00:36:02,870 --> 00:36:01,200

story

1065

00:36:04,710 --> 00:36:02,880

and there are enough yeah yeah we can do

1066

00:36:06,310 --> 00:36:04,720

that absolutely we can put

1067

00:36:08,230 --> 00:36:06,320

we've got some of the best researchers

1068

00:36:09,750 --> 00:36:08,240

blah blah blah i mean so much smoke

1069

00:36:10,630 --> 00:36:09,760

being blowing up my butt at the same

1070

00:36:14,870 --> 00:36:10,640

time

1071

00:36:18,950 --> 00:36:14,880

i mean i was my my gut was barbecued

1072

00:36:22,069 --> 00:36:18,960

but so it wasn't until

1073

00:36:24,710 --> 00:36:22,079

i walked in they flew me to new york

1074

00:36:26,390 --> 00:36:24,720

their studios for a e were in new york

1075

00:36:28,870 --> 00:36:26,400

and they flew me up to new york

1076

00:36:30,069 --> 00:36:28,880

and it wasn't until i actually sat down

1077

00:36:33,430 --> 00:36:30,079

in the chair

1078

00:36:35,510 --> 00:36:33,440

in front of lou that i had decided to

1079

00:36:37,589 --> 00:36:35,520

tell my story because they still had not

1080

00:36:39,349 --> 00:36:37,599

honored their half of the deal

1081

00:36:40,630 --> 00:36:39,359

but when i was sitting there and lou was

1082

00:36:43,190 --> 00:36:40,640

talking to me and

1083

00:36:44,550 --> 00:36:43,200

i think the cameraman's name was matt

1084

00:36:46,950 --> 00:36:44,560

thompson i think i'd

1085

00:36:48,550 --> 00:36:46,960

forgive me if i got that wrong but they

1086

00:36:49,030 --> 00:36:48,560

didn't laugh they didn't snicker they

1087

00:36:51,430 --> 00:36:49,040

didn't

1088

00:36:52,710 --> 00:36:51,440

make me feel stupid or dumb or awkward

1089

00:36:53,829 --> 00:36:52,720

or anything they actually took

1090

00:36:54,550 --> 00:36:53,839

everything that i was saying very

1091

00:36:57,109 --> 00:36:54,560

seriously

1092

00:36:58,069 --> 00:36:57,119

yeah and this was even off camera and

1093

00:37:00,150 --> 00:36:58,079

then they're like you're

1094

00:37:02,470 --> 00:37:00,160

you're okay with telling the story on

1095

00:37:05,829 --> 00:37:02,480

camera and i was like

1096

00:37:07,670 --> 00:37:05,839

sure and you know i i kind of

1097

00:37:08,870 --> 00:37:07,680

lied to them all the way up to the point

1098

00:37:09,829 --> 00:37:08,880

where i get to new york because they

1099

00:37:11,510 --> 00:37:09,839

were like

1100

00:37:13,190 --> 00:37:11,520

counting on me telling the story and in

1101

00:37:15,190 --> 00:37:13,200

the back of my head i was like

1102

00:37:16,310 --> 00:37:15,200

i'll probably walk away from this at the

1103

00:37:18,550 --> 00:37:16,320

very last minute

1104

00:37:20,150 --> 00:37:18,560

right but but lou and matt had uh had

1105

00:37:21,589 --> 00:37:20,160

put me at so much at ease that i was

1106

00:37:24,470 --> 00:37:21,599

able to tell the story

1107

00:37:25,910 --> 00:37:24,480

and that's everything since then has has

1108

00:37:28,390 --> 00:37:25,920

got me to hear

1109

00:37:29,589 --> 00:37:28,400

that's incredible absolutely incredible

1110

00:37:31,910 --> 00:37:29,599

i remember the show

1111

00:37:33,670 --> 00:37:31,920

that you were featured in i mean i've

1112

00:37:34,870 --> 00:37:33,680

followed you ever since and

1113

00:37:38,950 --> 00:37:34,880

seen what you've been doing with the

1114

00:37:42,310 --> 00:37:38,960

osiris projects and now your apx so

1115

00:37:44,310 --> 00:37:42,320

what i guess finishing that tv show

1116

00:37:45,829 --> 00:37:44,320

the asarius project wasn't anything it

1117

00:37:47,589 --> 00:37:45,839

wasn't in your mind or was that

1118

00:37:49,030 --> 00:37:47,599

something then that you just started

1119

00:37:50,390 --> 00:37:49,040

thinking i want to do something in this

1120

00:37:54,390 --> 00:37:50,400

field and no

1121

00:37:58,630 --> 00:37:54,400

um after i finish the tv show there's uh

1122

00:38:00,069 --> 00:37:58,640

there was a guy well ryan sprague

1123

00:38:02,390 --> 00:38:00,079

ryan sprague had reached out to me

1124

00:38:04,390 --> 00:38:02,400

somewhere in the skies podcast

1125

00:38:06,230 --> 00:38:04,400

right that's it yeah yeah he had reached

1126

00:38:07,670 --> 00:38:06,240

out to me and uh he wanted to do an

1127

00:38:09,990 --> 00:38:07,680

interview for me

1128

00:38:11,430 --> 00:38:10,000

and of course i was still under nda with

1129

00:38:13,589 --> 00:38:11,440

the history channel so i called

1130

00:38:14,870 --> 00:38:13,599

i contacted the pr people at their

1131

00:38:16,630 --> 00:38:14,880

history channel they're like oh yeah we

1132

00:38:18,550 --> 00:38:16,640

know ryan it's it's okay you can you can

1133

00:38:20,310 --> 00:38:18,560

go ahead and do that podcast

1134

00:38:22,310 --> 00:38:20,320

so i go on his podcast and the next

1135

00:38:25,030 --> 00:38:22,320

thing i know i'm getting requests

1136

00:38:27,109 --> 00:38:25,040

like every 15 minutes hey come on my

1137

00:38:30,790 --> 00:38:27,119

podcast come on my podcast

1138

00:38:32,069 --> 00:38:30,800

what is a podcast i had no i'd done

1139

00:38:33,910 --> 00:38:32,079

ryan's and i didn't know

1140

00:38:36,069 --> 00:38:33,920

this was an actual thing right right

1141

00:38:37,990 --> 00:38:36,079

because i wasn't i wasn't a ufo guy i

1142

00:38:38,710 --> 00:38:38,000

had maybe read a couple books when i was

1143

00:38:40,230 --> 00:38:38,720

a kid

1144

00:38:42,550 --> 00:38:40,240

you know i watched close encounters of

1145

00:38:45,670 --> 00:38:42,560

the third kind i had had this one

1146

00:38:47,510 --> 00:38:45,680

uh event that i witnessed but by and

1147

00:38:48,950 --> 00:38:47,520

large for the most part i was just like

1148

00:38:50,630 --> 00:38:48,960

okay something weird happened and move

1149

00:38:51,990 --> 00:38:50,640

on with the rest of my life

1150

00:38:54,790 --> 00:38:52,000

and then all of a sudden people are

1151
00:38:56,710 --> 00:38:54,800
asking me to come on their show

1152
00:38:58,150 --> 00:38:56,720
and it was it just it just snowballed

1153
00:38:59,910 --> 00:38:58,160
from there and then

1154
00:39:02,069 --> 00:38:59,920
i get a call from a guy by the name of

1155
00:39:04,790 --> 00:39:02,079
andrew hall who was doing a

1156
00:39:07,270 --> 00:39:04,800
podcast called dead hand radio okay and

1157
00:39:09,829 --> 00:39:07,280
he lives here in las vegas

1158
00:39:11,829 --> 00:39:09,839
um so i met him face to face first and

1159
00:39:13,990 --> 00:39:11,839
then i agreed to go on his podcast and

1160
00:39:17,670 --> 00:39:14,000
then during the podcast

1161
00:39:18,950 --> 00:39:17,680
he had asked me what i thought ufology

1162
00:39:21,910 --> 00:39:18,960
needed

1163
00:39:22,870 --> 00:39:21,920

and i just word vomited at the time and

1164

00:39:25,990 --> 00:39:22,880

i said i

1165

00:39:28,630 --> 00:39:26,000

i i think that it needs standardization

1166

00:39:30,310 --> 00:39:28,640

of data collection so that everybody's

1167

00:39:33,430 --> 00:39:30,320

collecting data the exact

1168

00:39:35,109 --> 00:39:33,440

same way right so there's no disparities

1169

00:39:37,430 --> 00:39:35,119

in cameras and people can't

1170

00:39:39,109 --> 00:39:37,440

uh mic westify you just because of your

1171

00:39:40,550 --> 00:39:39,119

technology that you're using or things

1172

00:39:42,630 --> 00:39:40,560

like that if there was a protocol

1173

00:39:43,910 --> 00:39:42,640

if there was a procedure you know let's

1174

00:39:45,990 --> 00:39:43,920

let's standardize it

1175

00:39:47,349 --> 00:39:46,000

yeah andrew said well have you heard of

1176

00:39:55,910 --> 00:39:47,359

skyhub

1177

00:39:56,950 --> 00:39:55,920

at the same time i've got a dual monitor

1178

00:39:58,790 --> 00:39:56,960

set up here right

1179

00:40:00,230 --> 00:39:58,800

right so while i'm on his podcast i go

1180

00:40:02,870 --> 00:40:00,240

over to my other monitor

1181

00:40:04,150 --> 00:40:02,880

and i start googling what sky hub is as

1182

00:40:06,390 --> 00:40:04,160

he's talking about it i'm like

1183

00:40:07,829 --> 00:40:06,400

this is the coolest thing ever i can

1184

00:40:08,950 --> 00:40:07,839

build this thing i can put it in my

1185

00:40:11,190 --> 00:40:08,960

backyard

1186

00:40:13,030 --> 00:40:11,200

it does all the searching and uploads

1187

00:40:14,550 --> 00:40:13,040

the data and

1188

00:40:16,150 --> 00:40:14,560

so i started going to amazon and i

1189

00:40:17,030 --> 00:40:16,160

started ordering the parts for it and

1190

00:40:18,550 --> 00:40:17,040

everything and

1191

00:40:19,990 --> 00:40:18,560

i think by the end of the week the parts

1192

00:40:21,910 --> 00:40:20,000

had started coming in and i had started

1193

00:40:24,550 --> 00:40:21,920

building my own skyhub unit

1194

00:40:25,349 --> 00:40:24,560

wow and then i think it was probably

1195

00:40:28,069 --> 00:40:25,359

maybe

1196

00:40:29,349 --> 00:40:28,079

three quarters of the way through uh

1197

00:40:32,470 --> 00:40:29,359

through the build

1198

00:40:34,950 --> 00:40:32,480

i realized i'm in las vegas this is

1199

00:40:36,550 --> 00:40:34,960

literally the brightest city in the

1200

00:40:38,950 --> 00:40:36,560

world

1201
00:40:40,470 --> 00:40:38,960
how good is my sky hub gonna operate

1202
00:40:42,550 --> 00:40:40,480
being in the backyard

1203
00:40:44,790 --> 00:40:42,560
if you know the luxor lights coming down

1204
00:40:46,790 --> 00:40:44,800
on the top of this yeah yeah

1205
00:40:48,390 --> 00:40:46,800
so i was like man this [h__h] this this

1206
00:40:49,990 --> 00:40:48,400
thing should be mobile

1207
00:40:51,910 --> 00:40:50,000
i need to get it out in the middle of

1208
00:40:52,550 --> 00:40:51,920
the desert so i started looking at ways

1209
00:40:54,309 --> 00:40:52,560
to

1210
00:40:56,309 --> 00:40:54,319
you know put solar panels on it or

1211
00:40:58,470 --> 00:40:56,319
attach car batteries to it and it just

1212
00:40:59,510 --> 00:40:58,480
became bulky and heavy and huge and

1213
00:41:02,230 --> 00:40:59,520

unwieldy

1214

00:41:03,349 --> 00:41:02,240

and i'm like nah i'm gonna put it on

1215

00:41:07,430 --> 00:41:03,359

wheels

1216

00:41:10,870 --> 00:41:07,440

hell yeah so my daily driver

1217

00:41:11,510 --> 00:41:10,880

was the osiris my my car that i was

1218

00:41:15,349 --> 00:41:11,520

driving

1219

00:41:17,589 --> 00:41:15,359

every single day was this 1999

1220

00:41:20,710 --> 00:41:17,599

land rover discovery 2 that was getting

1221

00:41:23,349 --> 00:41:20,720

me from point a to point b and

1222

00:41:25,430 --> 00:41:23,359

i walk outside and i just start drilling

1223

00:41:27,589 --> 00:41:25,440

holes in my roof and running ethernet

1224

00:41:29,270 --> 00:41:27,599

cable through the side walls and

1225

00:41:31,349 --> 00:41:29,280

tearing up the carpet and running

1226

00:41:33,829 --> 00:41:31,359

antenna lines through it and i'm like

1227

00:41:34,550 --> 00:41:33,839

i'm putting the sky hub in this thing

1228

00:41:37,829 --> 00:41:34,560

yeah that's

1229

00:41:39,510 --> 00:41:37,839

you know it just it got there and uh

1230

00:41:44,470 --> 00:41:39,520

i stepped back and i looked at it i'm

1231

00:41:48,630 --> 00:41:47,109

it just hasn't stopped man no it hasn't

1232

00:41:50,390 --> 00:41:48,640

i've been keeping my eye on it it just

1233

00:41:52,550 --> 00:41:50,400

seems to have like a new sensor array

1234

00:41:54,550 --> 00:41:52,560

every time i look at it or something

1235

00:41:56,390 --> 00:41:54,560

i mean it's absolutely incredible and

1236

00:41:58,550 --> 00:41:56,400

i've seen videos with you driving it and

1237

00:41:59,990 --> 00:41:58,560

so we can see the interior and just

1238

00:42:02,390 --> 00:42:00,000

how much stuff's in there i mean it's

1239

00:42:05,270 --> 00:42:02,400

incredible it's very impressive so

1240

00:42:07,190 --> 00:42:05,280

oh yeah yeah and and uh if if gary's

1241

00:42:07,910 --> 00:42:07,200

still listening he has called me out so

1242

00:42:11,349 --> 00:42:07,920

many times

1243

00:42:14,470 --> 00:42:11,359

because this vehicle is literally built

1244

00:42:16,230 --> 00:42:14,480

to conquer some of the most amazingly

1245

00:42:20,390 --> 00:42:16,240

rough terrain in the world i would yeah

1246

00:42:22,870 --> 00:42:20,400

i would pit a 1990s uh

1247

00:42:23,910 --> 00:42:22,880

land rover up against a jeep any day of

1248

00:42:25,510 --> 00:42:23,920

the week right wow

1249

00:42:29,670 --> 00:42:25,520

they're they're just indestructible

1250

00:42:32,150 --> 00:42:29,680

vehicles but mine is 22 years old

1251

00:42:33,990 --> 00:42:32,160

and i've had this thing airborne i've

1252

00:42:35,990 --> 00:42:34,000

bounced the front end up off the ground

1253

00:42:37,430 --> 00:42:36,000

i've been driving on one wheel down the

1254

00:42:40,550 --> 00:42:37,440

sides of mountains and

1255

00:42:43,510 --> 00:42:40,560

and gary's like you know stop

1256

00:42:44,790 --> 00:42:43,520

you're you're gonna break it and yeah

1257

00:42:46,230 --> 00:42:44,800

you see his comment down there at the

1258

00:42:48,870 --> 00:42:46,240

bottom

1259

00:42:51,270 --> 00:42:48,880

oh i missed it hold on one sec he says i

1260

00:42:54,390 --> 00:42:51,280

drive like a blind monk

1261

00:42:55,510 --> 00:42:54,400

oh man listen i am just

1262

00:42:57,750 --> 00:42:55,520

obviously i've got it here in the

1263

00:43:02,150 --> 00:42:57,760

background but if you just hang on one

1264

00:43:04,950 --> 00:43:02,160

second so i've i've had to tone it down

1265

00:43:06,390 --> 00:43:04,960

um i've had to yeah there she is there

1266

00:43:08,150 --> 00:43:06,400

she sits

1267

00:43:10,069 --> 00:43:08,160

and that's even before i've gotten the

1268

00:43:12,790 --> 00:43:10,079

uh the other camera mounted on the top

1269

00:43:14,790 --> 00:43:12,800

that's a that's an older photo so

1270

00:43:16,710 --> 00:43:14,800

there's another giant camera that goes

1271

00:43:20,710 --> 00:43:16,720

right beside that weather station now

1272

00:43:23,910 --> 00:43:20,720

wow and uh so how successful has it been

1273

00:43:25,190 --> 00:43:23,920

well so

1274

00:43:27,510 --> 00:43:25,200

that's a that's a that's a trick

1275

00:43:29,829 --> 00:43:27,520

question um

1276

00:43:31,190 --> 00:43:29,839

well i i i genuinely don't know any of

1277

00:43:31,829 --> 00:43:31,200

the data that you've got from it to be

1278

00:43:33,430 --> 00:43:31,839

honest so

1279

00:43:35,030 --> 00:43:33,440

yeah i'm not trying to put you on the

1280

00:43:36,790 --> 00:43:35,040

spot in in any no

1281

00:43:38,390 --> 00:43:36,800

i've i've done some things locally

1282

00:43:42,150 --> 00:43:38,400

around here in vegas

1283

00:43:43,670 --> 00:43:42,160

and and um here's here's the catch with

1284

00:43:45,990 --> 00:43:43,680

with all the sensor tech and everything

1285

00:43:48,150 --> 00:43:46,000

on there i can put this together

1286

00:43:49,589 --> 00:43:48,160

and i'm the dumb guy who can turn a

1287

00:43:51,829 --> 00:43:49,599

steering wheel

1288

00:43:53,190 --> 00:43:51,839

but i'm not the smart guy who can

1289

00:43:55,990 --> 00:43:53,200

interpret the data

1290

00:43:56,470 --> 00:43:56,000

right so the data that i collect and

1291

00:43:59,030 --> 00:43:56,480

catch

1292

00:44:00,870 --> 00:43:59,040

has to be reviewed by somebody who

1293

00:44:03,510 --> 00:44:00,880

understands what that data means

1294

00:44:05,829 --> 00:44:03,520

okay so you know it's like it's like

1295

00:44:07,990 --> 00:44:05,839

being back in the military when

1296

00:44:09,750 --> 00:44:08,000

some analyst somewhere is doing the

1297

00:44:11,670 --> 00:44:09,760

target acquisition for me and i'm just

1298

00:44:15,109 --> 00:44:11,680

the idiot pulling the trigger

1299

00:44:16,950 --> 00:44:15,119

so what it has caught yet i don't know

1300

00:44:18,470 --> 00:44:16,960

i don't know and it's not built for me

1301
00:44:20,550 --> 00:44:18,480
to have instant

1302
00:44:22,550 --> 00:44:20,560
recognition on any sure the you know the

1303
00:44:23,349 --> 00:44:22,560
data is recorded yeah it'll get

1304
00:44:25,270 --> 00:44:23,359
downloaded

1305
00:44:27,670 --> 00:44:25,280
uh it'll get saved it'll get copied

1306
00:44:29,829 --> 00:44:27,680
multiple times and then it'll get sent

1307
00:44:31,430 --> 00:44:29,839
uh to folks much smarter than i am to be

1308
00:44:33,430 --> 00:44:31,440
able to analyze it and come back to me

1309
00:44:36,870 --> 00:44:33,440
and say hey this is anomalous or

1310
00:44:38,470 --> 00:44:36,880
hey you just caught a monarch

1311
00:44:40,069 --> 00:44:38,480
right i mean that's fair enough i'm glad

1312
00:44:41,270 --> 00:44:40,079
you said that because at least you've

1313
00:44:43,030 --> 00:44:41,280

got the data though

1314

00:44:45,190 --> 00:44:43,040

yes and i'd imagine there's quite a lot

1315

00:44:47,430 --> 00:44:45,200

of it as well so yes yes i mean we've

1316

00:44:49,349 --> 00:44:47,440

i've got stacks of hard drives just

1317

00:44:51,190 --> 00:44:49,359

sitting around me here there's there's a

1318

00:44:52,790 --> 00:44:51,200

eight terabyte hard drive right off to

1319

00:44:54,150 --> 00:44:52,800

my right there's there's two four

1320

00:44:56,390 --> 00:44:54,160

terabyte hard drives

1321

00:44:57,510 --> 00:44:56,400

so every time i i hop in the vehicle and

1322

00:44:59,190 --> 00:44:57,520

go somewhere

1323

00:45:00,950 --> 00:44:59,200

you know these will get wiped and

1324

00:45:02,390 --> 00:45:00,960

they'll uh because all the data gets

1325

00:45:04,790 --> 00:45:02,400

uploaded to the cloud

1326

00:45:06,630 --> 00:45:04,800

um so it gets stored in the cloud and

1327

00:45:08,390 --> 00:45:06,640

then i'll take a fresh drive and and go

1328

00:45:11,670 --> 00:45:08,400

out and plug it in and

1329

00:45:13,270 --> 00:45:11,680

see what i catch amazing so i guess

1330

00:45:15,109 --> 00:45:13,280

i mean how long have you been doing that

1331

00:45:15,510 --> 00:45:15,119

with the osiris is it quite a few years

1332

00:45:17,190 --> 00:45:15,520

or

1333

00:45:18,710 --> 00:45:17,200

oh god no this is i've only been doing

1334

00:45:22,150 --> 00:45:18,720

it for a year less

1335

00:45:23,990 --> 00:45:22,160

less than a year wow it seems it's just

1336

00:45:25,510 --> 00:45:24,000

developed and becomes something new and

1337

00:45:27,190 --> 00:45:25,520

newer but all in that short amount of

1338

00:45:27,829 --> 00:45:27,200

time now i mean that's impressive i have

1339

00:45:29,430 --> 00:45:27,839

to say

1340

00:45:30,950 --> 00:45:29,440

well it's like getting a tattoo man you

1341

00:45:33,349 --> 00:45:30,960

can't just get one

1342

00:45:34,550 --> 00:45:33,359

right no they're exactly they're

1343

00:45:36,710 --> 00:45:34,560

addictive

1344

00:45:37,589 --> 00:45:36,720

so you know the tattoos are like cameras

1345

00:45:39,589 --> 00:45:37,599

for the car

1346

00:45:41,270 --> 00:45:39,599

you know i put one camera on it i'm like

1347

00:45:42,230 --> 00:45:41,280

well i need to have this extra

1348

00:45:43,589 --> 00:45:42,240

capability and

1349

00:45:45,670 --> 00:45:43,599

you know this thing sitting right behind

1350

00:45:47,910 --> 00:45:45,680

me right here is a test

1351
00:45:49,030 --> 00:45:47,920
for some new tech that i'm putting on uh

1352
00:45:51,270 --> 00:45:49,040
oh wow

1353
00:45:52,230 --> 00:45:51,280
so this is this is running right now

1354
00:45:55,510 --> 00:45:52,240
giving me a uh

1355
00:45:57,190 --> 00:45:55,520
a baseline on some frequencies that i'm

1356
00:45:58,630 --> 00:45:57,200
that i'm planning on scanning the next

1357
00:46:00,790 --> 00:45:58,640
time i'm out in the field

1358
00:46:02,710 --> 00:46:00,800
but i'm developing the baseline so i

1359
00:46:04,790 --> 00:46:02,720
know what's an abnormal

1360
00:46:07,349 --> 00:46:04,800
uh event characteristic what that looks

1361
00:46:09,109 --> 00:46:07,359
like so i can be able to hit those

1362
00:46:11,270 --> 00:46:09,119
hit those peaks and valleys and in the

1363
00:46:12,390 --> 00:46:11,280

frequencies that i'm looking at so

1364

00:46:13,510 --> 00:46:12,400

you know this is this is going to be

1365

00:46:15,430 --> 00:46:13,520

another thing that you're going to see

1366

00:46:18,470 --> 00:46:15,440

on the osiris very soon is

1367

00:46:21,190 --> 00:46:18,480

is a directional lpd and 8

1368

00:46:22,790 --> 00:46:21,200

lpda antenna that's going to be on a

1369

00:46:26,150 --> 00:46:22,800

mount that is going to be constantly

1370

00:46:27,670 --> 00:46:26,160

sweeping back and forth 180 degrees

1371

00:46:29,829 --> 00:46:27,680

mounted on the front of the vehicle and

1372

00:46:32,870 --> 00:46:29,839

then when it uh when it hits a signal

1373

00:46:35,670 --> 00:46:32,880

i can stop it and then use pitch and

1374

00:46:36,470 --> 00:46:35,680

elevation to try to directionally range

1375

00:46:37,829 --> 00:46:36,480

and find

1376

00:46:40,230 --> 00:46:37,839

where the source of that signal is

1377

00:46:42,309 --> 00:46:40,240

coming wow nice

1378

00:46:43,829 --> 00:46:42,319

so and then i guess this is a natural

1379

00:46:45,990 --> 00:46:43,839

progression to you becoming part of the

1380

00:46:47,750 --> 00:46:46,000

team with uap expedition

1381

00:46:49,190 --> 00:46:47,760

so can you just tell us about how that

1382

00:46:51,109 --> 00:46:49,200

came about and i mean obviously

1383

00:46:52,309 --> 00:46:51,119

were you friends with these guys before

1384

00:46:54,470 --> 00:46:52,319

it happened

1385

00:46:56,069 --> 00:46:54,480

no how did it do i mean obviously

1386

00:46:58,870 --> 00:46:56,079

everybody knows chief day

1387

00:47:00,710 --> 00:46:58,880

yeah everybody knows gary and jason um

1388

00:47:02,790 --> 00:47:00,720

you know these these are the guys

1389

00:47:04,390 --> 00:47:02,800

uh uh you know from from the princeton

1390

00:47:07,589 --> 00:47:04,400

from the nemesis

1391

00:47:08,390 --> 00:47:07,599

and and they they are the reason that

1392

00:47:10,390 --> 00:47:08,400

most of us

1393

00:47:11,910 --> 00:47:10,400

are in this career field not not a

1394

00:47:12,550 --> 00:47:11,920

career field we don't get paid for but

1395

00:47:14,710 --> 00:47:12,560

in this

1396

00:47:16,630 --> 00:47:14,720

research field i guess yeah it's because

1397

00:47:18,470 --> 00:47:16,640

they they had the cojones to come out

1398

00:47:21,750 --> 00:47:18,480

and tell their story

1399

00:47:25,589 --> 00:47:21,760

um and uh and chief day and uh

1400

00:47:27,430 --> 00:47:25,599

and gary put uapx together and that was

1401

00:47:29,270 --> 00:47:27,440

god i don't even know what year that

1402

00:47:30,870 --> 00:47:29,280

actually happened but i had absolutely

1403

00:47:33,349 --> 00:47:30,880

nothing to do with it

1404

00:47:35,109 --> 00:47:33,359

right and to be honest to be brutally

1405

00:47:35,670 --> 00:47:35,119

honest the way that i got involved with

1406

00:47:38,790 --> 00:47:35,680

it

1407

00:47:40,150 --> 00:47:38,800

is through a uh uh somebody in hollywood

1408

00:47:42,230 --> 00:47:40,160

that called me up and said hey we want

1409

00:47:44,870 --> 00:47:42,240

to we want to do a production

1410

00:47:47,190 --> 00:47:44,880

and i'm like well they they didn't call

1411

00:47:49,589 --> 00:47:47,200

me actually they called sky hub

1412

00:47:51,510 --> 00:47:49,599

they were talking about sky hub and then

1413

00:47:53,190 --> 00:47:51,520

i got recommended to them through sky

1414

00:47:56,390 --> 00:47:53,200

hub and then i got hooked up

1415

00:47:58,950 --> 00:47:56,400

with uapx and you know

1416

00:48:00,630 --> 00:47:58,960

i guess gary had been had been watching

1417

00:48:02,150 --> 00:48:00,640

me and the osiris for a little bit he

1418

00:48:04,829 --> 00:48:02,160

was like well i guess i'll take a

1419

00:48:06,630 --> 00:48:04,839

a risk on this [h__h] from the air

1420

00:48:07,829 --> 00:48:06,640

force

1421

00:48:09,109 --> 00:48:07,839

we'll give him a shirt and a hat and

1422

00:48:10,790 --> 00:48:09,119

make him feel at home and see if he

1423

00:48:11,750 --> 00:48:10,800

screws up from there

1424

00:48:13,750 --> 00:48:11,760

it looks like you've been doing some

1425

00:48:14,710 --> 00:48:13,760

good work i mean i haven't seen the work

1426

00:48:16,150 --> 00:48:14,720

obviously but

1427

00:48:18,069 --> 00:48:16,160

you've been out there we've seen all the

1428

00:48:20,549 --> 00:48:18,079

photos of the crew together and i think

1429

00:48:23,750 --> 00:48:20,559

a lot of people very excited to see

1430

00:48:25,109 --> 00:48:23,760

what's coming and like i said i've been

1431

00:48:26,950 --> 00:48:25,119

following you so i know that at this

1432

00:48:28,710 --> 00:48:26,960

point i can't really ask any questions

1433

00:48:30,630 --> 00:48:28,720

about what you guys have been up to or

1434

00:48:31,910 --> 00:48:30,640

what you may have possibly captured

1435

00:48:33,670 --> 00:48:31,920

i think that's something we all have to

1436

00:48:36,549 --> 00:48:33,680

look forward to in the future

1437

00:48:37,510 --> 00:48:36,559

so so i won't go there i i want to

1438

00:48:39,910 --> 00:48:37,520

explain

1439

00:48:40,549 --> 00:48:39,920

as best as i can without violating

1440

00:48:43,030 --> 00:48:40,559

anything

1441

00:48:45,349 --> 00:48:43,040

as to why we can't talk about it please

1442

00:48:48,069 --> 00:48:45,359

do yeah one of the promises that i made

1443

00:48:50,230 --> 00:48:48,079

at the very onset of building the osiris

1444

00:48:52,390 --> 00:48:50,240

is that i was going to give my data

1445

00:48:53,589 --> 00:48:52,400

to the public without any restriction

1446

00:48:56,950 --> 00:48:53,599

whatsoever

1447

00:48:59,990 --> 00:48:56,960

and and this is not my data

1448

00:49:00,309 --> 00:49:00,000

no that's why this is different when

1449

00:49:04,069 --> 00:49:00,319

this

1450

00:49:07,030 --> 00:49:04,079

is paid for by a third party we are

1451
00:49:08,309 --> 00:49:07,040
required to abide by their covenants and

1452
00:49:10,790 --> 00:49:08,319
restrictions

1453
00:49:11,750 --> 00:49:10,800
but when we go out and we do our own

1454
00:49:14,829 --> 00:49:11,760
thing

1455
00:49:17,109 --> 00:49:14,839
then the data becomes public information

1456
00:49:19,510 --> 00:49:17,119
immediately but in this case

1457
00:49:21,430 --> 00:49:19,520
uh secondary to the fact that we're not

1458
00:49:24,870 --> 00:49:21,440
allowed to talk about it yet

1459
00:49:28,470 --> 00:49:24,880
is the fact that this is in

1460
00:49:31,109 --> 00:49:28,480
in my understanding the first if not one

1461
00:49:34,150 --> 00:49:31,119
of the first times humanity has ever

1462
00:49:37,270 --> 00:49:34,160
put together a team like this

1463
00:49:40,069 --> 00:49:37,280

to study this in such intricate

1464

00:49:40,630 --> 00:49:40,079

scientific detail yeah and because of

1465

00:49:43,829 --> 00:49:40,640

that

1466

00:49:46,549 --> 00:49:43,839

we are getting or we have uh

1467

00:49:47,589 --> 00:49:46,559

quantum physicists astrophysicists on

1468

00:49:50,710 --> 00:49:47,599

the team

1469

00:49:52,790 --> 00:49:50,720

who are currently reviewing all the data

1470

00:49:54,710 --> 00:49:52,800

and it's going to go through the entire

1471

00:49:55,829 --> 00:49:54,720

peer review process it's going to go

1472

00:49:57,349 --> 00:49:55,839

through the publication

1473

00:49:58,870 --> 00:49:57,359

process everything is going to be

1474

00:50:02,470 --> 00:49:58,880

handled in a way

1475

00:50:04,230 --> 00:50:02,480

that eliminates the abilities for uh

1476
00:50:05,670 --> 00:50:04,240
people to say well you didn't check this

1477
00:50:06,630 --> 00:50:05,680
or you didn't check that or that's a

1478
00:50:10,069 --> 00:50:06,640
seagull

1479
00:50:11,990 --> 00:50:10,079
this is going to be strict adherence to

1480
00:50:14,630 --> 00:50:12,000
the scientific process the scientific

1481
00:50:16,549 --> 00:50:14,640
method and it's going to be uh it's

1482
00:50:19,910 --> 00:50:16,559
going to change the approach

1483
00:50:22,630 --> 00:50:19,920
and we don't want to just throw out

1484
00:50:24,390 --> 00:50:22,640
terabytes of information without any

1485
00:50:25,510 --> 00:50:24,400
context to them because it won't make

1486
00:50:27,829 --> 00:50:25,520
any sense

1487
00:50:28,710 --> 00:50:27,839
so we have to have our scientists and

1488
00:50:30,950 --> 00:50:28,720

our physicists

1489

00:50:32,790 --> 00:50:30,960

analyze the information to be able to

1490

00:50:36,069 --> 00:50:32,800

tell the whole story

1491

00:50:39,990 --> 00:50:36,079

because you know just one even we get

1492

00:50:42,950 --> 00:50:40,000

fuzzy blurry blob videos we do

1493

00:50:43,670 --> 00:50:42,960

but when we give the other portions of

1494

00:50:47,030 --> 00:50:43,680

the data

1495

00:50:50,230 --> 00:50:47,040

along with that fuzzy blurry blob video

1496

00:50:50,950 --> 00:50:50,240

the nonsensical blob now has a story

1497

00:50:52,950 --> 00:50:50,960

behind it

1498

00:50:53,990 --> 00:50:52,960

sure yeah so you're not asking people

1499

00:50:57,030 --> 00:50:54,000

for faith in

1500

00:50:57,430 --> 00:50:57,040

belief that this is a uap or that this

1501
00:50:59,510 --> 00:50:57,440
was an

1502
00:51:01,109 --> 00:50:59,520
airplane or that this was a bug we're

1503
00:51:01,910 --> 00:51:01,119
not asking for their faith in those

1504
00:51:05,270 --> 00:51:01,920
statements

1505
00:51:08,390 --> 00:51:05,280
we're going to say at some point in time

1506
00:51:11,349 --> 00:51:08,400
that we cut we captured this and

1507
00:51:12,150 --> 00:51:11,359
these other 10 pieces of information

1508
00:51:14,230 --> 00:51:12,160
validate

1509
00:51:16,309 --> 00:51:14,240
that this was a moth or that this was an

1510
00:51:19,430 --> 00:51:16,319
airplane or that this is

1511
00:51:20,150 --> 00:51:19,440
you know whatever it is yeah now that's

1512
00:51:23,270 --> 00:51:20,160
amazing

1513
00:51:24,230 --> 00:51:23,280

i'm so excited i think it's time that we

1514

00:51:25,750 --> 00:51:24,240

step away from

1515

00:51:27,589 --> 00:51:25,760

waiting for the government and things

1516

00:51:28,870 --> 00:51:27,599

like that and to have these civilian

1517

00:51:30,790 --> 00:51:28,880

institutions and

1518

00:51:32,069 --> 00:51:30,800

companies doing exactly what you guys

1519

00:51:33,589 --> 00:51:32,079

are doing right now so

1520

00:51:35,190 --> 00:51:33,599

i tip my hat to you i think it's

1521

00:51:36,790 --> 00:51:35,200

incredible and i cannot wait for the

1522

00:51:38,710 --> 00:51:36,800

future and i hope other people get

1523

00:51:41,750 --> 00:51:38,720

inspired by what you're doing as well

1524

00:51:44,069 --> 00:51:41,760

well don't it it's not me it's

1525

00:51:45,030 --> 00:51:44,079

i am not an individual that's doing this

1526
00:51:49,030 --> 00:51:45,040
this is

1527
00:51:51,990 --> 00:51:49,040
chief day

1528
00:51:52,790 --> 00:51:52,000
is this was his baby jason and uh and

1529
00:51:55,990 --> 00:51:52,800
gary

1530
00:51:58,470 --> 00:51:56,000
order

1531
00:51:59,349 --> 00:51:58,480
are the helmsman of this thing and

1532
00:52:01,589 --> 00:51:59,359
without them

1533
00:52:03,670 --> 00:52:01,599
you know this shirt wouldn't be on me

1534
00:52:07,190 --> 00:52:03,680
and and we wouldn't be doing this so

1535
00:52:09,349 --> 00:52:07,200
it's uh you know we it takes

1536
00:52:10,230 --> 00:52:09,359
disparate different types of sensors to

1537
00:52:11,829 --> 00:52:10,240
paint the picture

1538
00:52:13,430 --> 00:52:11,839

and it takes disparate different types

1539

00:52:15,270 --> 00:52:13,440

of people to make the team

1540

00:52:16,549 --> 00:52:15,280

yeah no but listen i'm giving you a

1541

00:52:18,230 --> 00:52:16,559

shout out personally because you did

1542

00:52:20,870 --> 00:52:18,240

your thing with the osiris

1543

00:52:22,710 --> 00:52:20,880

they saw the quality in you they brought

1544

00:52:24,390 --> 00:52:22,720

you onto their team so you know you must

1545

00:52:26,309 --> 00:52:24,400

have been doing something right so

1546

00:52:28,150 --> 00:52:26,319

i appreciate you obviously being humble

1547

00:52:28,870 --> 00:52:28,160

there that's all good but listen i just

1548

00:52:30,950 --> 00:52:28,880

mentioned

1549

00:52:31,990 --> 00:52:30,960

talking about the government so let's

1550

00:52:34,390 --> 00:52:32,000

just switch it over to that

1551
00:52:36,710 --> 00:52:34,400
side of things and the current state of

1552
00:52:38,390 --> 00:52:36,720
what's happening with the ua ptf

1553
00:52:40,309 --> 00:52:38,400
the preliminary investment we saw in

1554
00:52:42,470 --> 00:52:40,319
june 25th and then the announcement

1555
00:52:44,829 --> 00:52:42,480
yesterday about the upcoming bill where

1556
00:52:47,349 --> 00:52:44,839
we're going to have this rollover 90-day

1557
00:52:48,230 --> 00:52:47,359
reporting you know into the congress and

1558
00:52:49,990 --> 00:52:48,240
stuff so

1559
00:52:51,829 --> 00:52:50,000
how do you see everything at the moment

1560
00:52:56,710 --> 00:52:51,839
when it comes to that angle

1561
00:52:59,829 --> 00:52:56,720
of the subject i think there is

1562
00:53:02,870 --> 00:52:59,839
i can understand why people

1563
00:53:04,950 --> 00:53:02,880

become ecstatic and happy

1564

00:53:07,430 --> 00:53:04,960

about the progress that they're seeing

1565

00:53:08,630 --> 00:53:07,440

occur because to be honest and be

1566

00:53:11,430 --> 00:53:08,640

truthful about this

1567

00:53:12,470 --> 00:53:11,440

this is more forward momentum and

1568

00:53:14,470 --> 00:53:12,480

forward progress

1569

00:53:16,069 --> 00:53:14,480

from the government that we've had since

1570

00:53:19,430 --> 00:53:16,079

the close of project blue book

1571

00:53:21,349 --> 00:53:19,440

it's just you know this this is this is

1572

00:53:24,470 --> 00:53:21,359

the the reset button on that

1573

00:53:26,790 --> 00:53:24,480

yeah um but at the same time i am a

1574

00:53:30,390 --> 00:53:26,800

consummate pragmatist

1575

00:53:33,589 --> 00:53:30,400

and i don't trust

1576

00:53:36,069 --> 00:53:33,599

that we will ever see the information

1577

00:53:37,030 --> 00:53:36,079

that is gathered by the government from

1578

00:53:39,750 --> 00:53:37,040

the government

1579

00:53:42,230 --> 00:53:39,760

sure um and that's why that i think that

1580

00:53:43,430 --> 00:53:42,240

that organizations like uapx like the

1581

00:53:46,790 --> 00:53:43,440

galileo project

1582

00:53:48,230 --> 00:53:46,800

like sky hub like like all these other

1583

00:53:50,710 --> 00:53:48,240

groups that are out there collecting

1584

00:53:54,069 --> 00:53:50,720

this information in this data

1585

00:53:55,990 --> 00:53:54,079

you know the technology that skyhub uses

1586

00:53:57,270 --> 00:53:56,000

is virtually the same technology that

1587

00:53:58,630 --> 00:53:57,280

the united states government would have

1588

00:54:00,549 --> 00:53:58,640

used 20 years ago

1589

00:54:03,109 --> 00:54:00,559

and 20 years ago is when all this crap

1590

00:54:05,030 --> 00:54:03,119

happened so we have the tech we have the

1591

00:54:06,870 --> 00:54:05,040

sensors we have the ability to replicate

1592

00:54:08,790 --> 00:54:06,880

what was done 20 years ago

1593

00:54:10,549 --> 00:54:08,800

so now the civilian population may

1594

00:54:13,430 --> 00:54:10,559

actually have a chance to go out and do

1595

00:54:15,030 --> 00:54:13,440

what we could not have done and and we

1596

00:54:16,630 --> 00:54:15,040

can get the information that we're never

1597

00:54:19,430 --> 00:54:16,640

going to get from the government

1598

00:54:19,829 --> 00:54:19,440

yeah and i think that's a great point um

1599

00:54:21,030 --> 00:54:19,839

now

1600

00:54:22,870 --> 00:54:21,040

i'm just going to bring this up we've

1601
00:54:24,790 --> 00:54:22,880
actually got a surprise guest who's just

1602
00:54:27,270 --> 00:54:24,800
just jumped in so i'm going to bring him

1603
00:54:31,750 --> 00:54:27,280
in so don't look so worried

1604
00:54:33,349 --> 00:54:31,760
please welcome mr gary voorhees

1605
00:54:35,510 --> 00:54:33,359
there he is hold on to steal your

1606
00:54:38,150 --> 00:54:35,520
thunder brother

1607
00:54:38,630 --> 00:54:38,160
anytime man any time neighborhood hope

1608
00:54:42,470 --> 00:54:38,640
dealer

1609
00:54:44,309 --> 00:54:42,480
on his way in gary thank you so much for

1610
00:54:45,510 --> 00:54:44,319
jumping in man i saw you in the comments

1611
00:54:47,190 --> 00:54:45,520
i thought you know

1612
00:54:48,950 --> 00:54:47,200
let's just bring you in we are speaking

1613
00:54:49,510 --> 00:54:48,960

in a few days or some point in the week

1614

00:54:51,430 --> 00:54:49,520

but uh

1615

00:54:52,710 --> 00:54:51,440

hey yeah i won't stay too long i figured

1616

00:54:54,390 --> 00:54:52,720

i'd come in

1617

00:54:56,950 --> 00:54:54,400

bust somebody's chops a little bit and

1618

00:54:58,390 --> 00:54:56,960

yeah good man we'd like jason to jump in

1619

00:54:59,430 --> 00:54:58,400

as well but i think he's obviously busy

1620

00:55:01,829 --> 00:54:59,440

housing down his

1621

00:55:03,109 --> 00:55:01,839

yard or whatever he was doing so it's so

1622

00:55:07,109 --> 00:55:03,119

good you're watching

1623

00:55:10,789 --> 00:55:07,119

hey look he's still here

1624

00:55:12,630 --> 00:55:10,799

jason but no thank you yeah so we were

1625

00:55:13,990 --> 00:55:12,640

just talking gary about the current um

1626
00:55:15,510 --> 00:55:14,000
state of things when it comes to looking

1627
00:55:17,109 --> 00:55:15,520
at from the government aspect

1628
00:55:19,190 --> 00:55:17,119
have you got any opinions on that and

1629
00:55:21,270 --> 00:55:19,200
what we're seeing at the moment

1630
00:55:22,549 --> 00:55:21,280
um you want me to be completely frank or

1631
00:55:23,829 --> 00:55:22,559
you want me to be political

1632
00:55:25,750 --> 00:55:23,839
all right [h__h] the government we'll go

1633
00:55:27,430 --> 00:55:25,760
get our own data hey

1634
00:55:29,190 --> 00:55:27,440
that's what i wanted to hear bro

1635
00:55:30,870 --> 00:55:29,200
absolutely and that's why i appreciate

1636
00:55:32,549 --> 00:55:30,880
exactly what you guys are doing

1637
00:55:34,309 --> 00:55:32,559
and i say this to my followers all the

1638
00:55:36,230 --> 00:55:34,319

time sorry my colleagues all the time

1639

00:55:37,750 --> 00:55:36,240

across all of my social media platforms

1640

00:55:38,390 --> 00:55:37,760

is that disclosure is going to come from

1641

00:55:41,109 --> 00:55:38,400

people like

1642

00:55:42,789 --> 00:55:41,119

us you you guys who we can share the

1643

00:55:44,230 --> 00:55:42,799

data out from the information that you

1644

00:55:46,470 --> 00:55:44,240

guys gather and collect

1645

00:55:48,390 --> 00:55:46,480

so well the day the day they come out

1646

00:55:50,710 --> 00:55:48,400

and you know they actually

1647

00:55:51,510 --> 00:55:50,720

on without any strings attached come out

1648

00:55:53,190 --> 00:55:51,520

and help us

1649

00:55:54,870 --> 00:55:53,200

that's that that's that's when i'll be

1650

00:55:55,589 --> 00:55:54,880

like i'm not gonna scratch the

1651
00:55:57,030 --> 00:55:55,599
government

1652
00:55:59,349 --> 00:55:57,040
but i mean when it comes down to it you

1653
00:56:00,870 --> 00:55:59,359
can't fight them so yeah and they're not

1654
00:56:02,630 --> 00:56:00,880
gonna give you what we want

1655
00:56:04,309 --> 00:56:02,640
so we might as well try to figure it out

1656
00:56:06,230 --> 00:56:04,319
ourselves um

1657
00:56:08,309 --> 00:56:06,240
you know with you know the advent of you

1658
00:56:11,109 --> 00:56:08,319
know adding jeremy to our team

1659
00:56:12,549 --> 00:56:11,119
uh gave us a very mobile aspect to our

1660
00:56:13,750 --> 00:56:12,559
research which is

1661
00:56:18,230 --> 00:56:13,760
you know if he can keep the thing

1662
00:56:24,710 --> 00:56:21,990
but it's it's been

1663
00:56:26,069 --> 00:56:24,720

such a pleasure having him and uh you

1664

00:56:28,309 --> 00:56:26,079

know don't don't think that it's all

1665

00:56:30,630 --> 00:56:28,319

been uh you know

1666

00:56:31,349 --> 00:56:30,640

rainbows and sugar he's a pain in my ass

1667

00:56:33,030 --> 00:56:31,359

uh but

1668

00:56:34,549 --> 00:56:33,040

of course that's what i want i want

1669

00:56:36,710 --> 00:56:34,559

people to think for themselves

1670

00:56:38,309 --> 00:56:36,720

yeah uh i would rather have him ask me

1671

00:56:41,430 --> 00:56:38,319

for forgiveness a hundred times

1672

00:56:43,349 --> 00:56:41,440

than you know not

1673

00:56:44,630 --> 00:56:43,359

try anything by himself because i mean

1674

00:56:46,549 --> 00:56:44,640

everybody on my team

1675

00:56:48,390 --> 00:56:46,559

has got a different personality a

1676
00:56:49,670 --> 00:56:48,400
different specialty a different you know

1677
00:56:51,910 --> 00:56:49,680
aspect you know

1678
00:56:53,589 --> 00:56:51,920
he's a cuddly chair force guy uh you

1679
00:56:56,710 --> 00:56:53,599
know we're we're

1680
00:56:59,670 --> 00:56:56,720
we're super comfy navy guys me jason and

1681
00:57:00,390 --> 00:56:59,680
senior chief and then we've got you know

1682
00:57:03,829 --> 00:57:00,400
we've got a

1683
00:57:05,349 --> 00:57:03,839
a a hollywood type on our team that's

1684
00:57:05,750 --> 00:57:05,359
super interested you know and then we've

1685
00:57:09,910 --> 00:57:05,760
got

1686
00:57:10,710 --> 00:57:09,920
that's uh you know now a paranormal

1687
00:57:13,109 --> 00:57:10,720
lawyer

1688
00:57:14,710 --> 00:57:13,119

you know takes up for uh in his

1689

00:57:15,829 --> 00:57:14,720

retirement takes up for all the weird

1690

00:57:18,710 --> 00:57:15,839

stuff and

1691

00:57:21,109 --> 00:57:18,720

you know uh we've even got an astronaut

1692

00:57:23,510 --> 00:57:21,119

yeah we've got one of the only civilian

1693

00:57:25,510 --> 00:57:23,520

nasa trained astronauts and he's also a

1694

00:57:27,589 --> 00:57:25,520

science he hasn't got his phd yet but

1695

00:57:31,030 --> 00:57:27,599

you know what he's still a scientist

1696

00:57:31,670 --> 00:57:31,040

um but uh you know we've got such a

1697

00:57:35,270 --> 00:57:31,680

ragtag

1698

00:57:37,190 --> 00:57:35,280

team of just basically

1699

00:57:38,390 --> 00:57:37,200

i have no problem stepping in and

1700

00:57:41,430 --> 00:57:38,400

picking up

1701
00:57:44,549 --> 00:57:41,440
anybody that's worth a damn that can

1702
00:57:47,030 --> 00:57:44,559
contribute but i also want to keep my t

1703
00:57:49,990 --> 00:57:47,040
team tight you know it's small i i even

1704
00:57:53,030 --> 00:57:50,000
got [h__\h] for bringing jeremy on board

1705
00:57:55,190 --> 00:57:53,040
so but i'm kind of known as a divisive

1706
00:57:57,990 --> 00:57:55,200
personality in certain circles

1707
00:57:59,589 --> 00:57:58,000
yeah he's a pain in the ass he likes to

1708
00:58:01,430 --> 00:57:59,599
do his own thing but that's that's fine

1709
00:58:03,109 --> 00:58:01,440
with me

1710
00:58:04,710 --> 00:58:03,119
it's exciting man i'm telling you from

1711
00:58:05,190 --> 00:58:04,720
someone on the outside that's seen all

1712
00:58:07,430 --> 00:58:05,200
this

1713
00:58:08,230 --> 00:58:07,440

develop over the past few months man you

1714

00:58:10,230 --> 00:58:08,240

know

1715

00:58:11,910 --> 00:58:10,240

i'm i'm excited well let me let me fill

1716

00:58:13,430 --> 00:58:11,920

you in on a couple of things

1717

00:58:16,069 --> 00:58:13,440

thank you jeremy for being very

1718

00:58:17,750 --> 00:58:16,079

tiptoeish around our current project uh

1719

00:58:21,190 --> 00:58:17,760

so we are under nda on our current

1720

00:58:22,870 --> 00:58:21,200

project yeah um but it's obviously

1721

00:58:24,230 --> 00:58:22,880

out there that we did do our first

1722

00:58:27,910 --> 00:58:24,240

expedition yes

1723

00:58:30,710 --> 00:58:27,920

um so and we have then

1724

00:58:32,230 --> 00:58:30,720

the movie movie websites up so it's

1725

00:58:32,549 --> 00:58:32,240

obvious that we're doing a movie about

1726
00:58:36,549 --> 00:58:32,559
it

1727
00:58:38,870 --> 00:58:36,559
so once all the nda's done

1728
00:58:39,589 --> 00:58:38,880
the the premiere is done and

1729
00:58:41,430 --> 00:58:39,599
everything's

1730
00:58:43,829 --> 00:58:41,440
you know our scientists have a chance to

1731
00:58:46,950 --> 00:58:43,839
write up their white paper on our data

1732
00:58:49,109 --> 00:58:46,960
uh we will be giving all

1733
00:58:51,430 --> 00:58:49,119
everything the raw intellect all of the

1734
00:58:53,510 --> 00:58:51,440
data out to anybody that wants it

1735
00:58:54,549 --> 00:58:53,520
now i will warn you it is quite a bit of

1736
00:58:57,510 --> 00:58:54,559
data so

1737
00:58:58,069 --> 00:58:57,520
we are going to be looking into uh you

1738
00:58:59,510 --> 00:58:58,079

know

1739

00:59:01,349 --> 00:58:59,520

i'm going to be reaching out to certain

1740

00:59:03,430 --> 00:59:01,359

people in the community that tend to hub

1741

00:59:04,710 --> 00:59:03,440

large amounts of information to try to

1742

00:59:07,030 --> 00:59:04,720

disseminate this as

1743

00:59:08,390 --> 00:59:07,040

efficiently as possible because you know

1744

00:59:09,109 --> 00:59:08,400

this is going to be like back when you

1745

00:59:13,349 --> 00:59:09,119

were

1746

00:59:16,950 --> 00:59:15,670

you wanna you wanna play the running

1747

00:59:18,150 --> 00:59:16,960

game all right

1748

00:59:19,430 --> 00:59:18,160

i gotta make fun of my friend for a

1749

00:59:23,510 --> 00:59:19,440

little while and then i'll let you play

1750

00:59:26,950 --> 00:59:25,670

hey there's real life for you bro it's

1751

00:59:30,069 --> 00:59:26,960

exactly like my life

1752

00:59:32,870 --> 00:59:30,079

don't you worry about that so

1753

00:59:33,349 --> 00:59:32,880

uh we are gonna disseminate all of our

1754

00:59:35,270 --> 00:59:33,359

data

1755

00:59:37,589 --> 00:59:35,280

uh i mean it is eventually going to get

1756

00:59:39,750 --> 00:59:37,599

to the public everything the raw data

1757

00:59:40,710 --> 00:59:39,760

all of it nothing's gonna be held back

1758

00:59:43,589 --> 00:59:40,720

nothing's gonna be like

1759

00:59:44,390 --> 00:59:43,599

oh this is too good and at midnight on

1760

00:59:46,309 --> 00:59:44,400

tuesday

1761

00:59:48,549 --> 00:59:46,319

i will be releasing and dropping more

1762

00:59:53,030 --> 00:59:48,559

information on everybody

1763

00:59:56,069 --> 00:59:53,040

by the way go check my patreon no

1764

00:59:57,270 --> 00:59:56,079

no we asked for nothing in return um

1765

00:59:58,789 --> 00:59:57,280

because we're going to continue to do

1766

01:00:00,150 --> 00:59:58,799

this regardless of whether we get money

1767

01:00:03,190 --> 01:00:00,160

to do it or not as we are

1768

01:00:03,510 --> 01:00:03,200

we are all broke um i'm soon to be you

1769

01:00:07,750 --> 01:00:03,520

know

1770

01:00:09,990 --> 01:00:07,760

currently looking for another job so

1771

01:00:12,069 --> 01:00:10,000

uh you know we do this all out of pocket

1772

01:00:14,069 --> 01:00:12,079

um so that's why we had to take

1773

01:00:17,190 --> 01:00:14,079

opportunities like this uh

1774

01:00:18,789 --> 01:00:17,200

like like this uh this docu

1775

01:00:20,470 --> 01:00:18,799

documentary that they wanted to film

1776

01:00:22,470 --> 01:00:20,480

about our company so yeah yeah

1777

01:00:23,750 --> 01:00:22,480

if if a production company wants to foot

1778

01:00:26,230 --> 01:00:23,760

the bill to pay

1779

01:00:27,030 --> 01:00:26,240

for actual science we're not going to

1780

01:00:31,109 --> 01:00:27,040

say no

1781

01:00:33,349 --> 01:00:31,119

i know you'd be stupid well i will say

1782

01:00:35,030 --> 01:00:33,359

uh and gary throw a flag up if i'm

1783

01:00:38,390 --> 01:00:35,040

saying too much but i will say

1784

01:00:44,789 --> 01:00:41,430

during during this whole

1785

01:00:46,230 --> 01:00:44,799

production event uh there were a lot of

1786

01:00:49,670 --> 01:00:46,240

concerns

1787

01:00:53,030 --> 01:00:49,680

that we were going to be portrayed as uh

1788

01:00:55,990 --> 01:00:53,040

as something that we're not and we

1789

01:00:56,950 --> 01:00:56,000

we almost walked off the production

1790

01:00:59,270 --> 01:00:56,960

twice

1791

01:01:00,549 --> 01:00:59,280

because we did not think that well to be

1792

01:01:02,630 --> 01:01:00,559

forgotten to be

1793

01:01:04,230 --> 01:01:02,640

to be fair jeremy though you know when

1794

01:01:06,630 --> 01:01:04,240

you've got

1795

01:01:08,069 --> 01:01:06,640

you know when you get people that aren't

1796

01:01:10,069 --> 01:01:08,079

used to dealing with

1797

01:01:11,829 --> 01:01:10,079

real science and but they still have a

1798

01:01:13,270 --> 01:01:11,839

production to do as i'll be honest with

1799

01:01:16,630 --> 01:01:13,280

you i'm going to tell everybody look

1800

01:01:19,670 --> 01:01:16,640

our science is effing boring

1801

01:01:22,470 --> 01:01:19,680

it is horrible i mean only only like

1802

01:01:23,190 --> 01:01:22,480

10 of the hardcore ufo guys would stare

1803

01:01:25,589 --> 01:01:23,200

there

1804

01:01:26,870 --> 01:01:25,599

and watch every every every grain to

1805

01:01:30,150 --> 01:01:26,880

look for anything

1806

01:01:31,829 --> 01:01:30,160

you know so when you're trying to appeal

1807

01:01:34,549 --> 01:01:31,839

to a larger audience you know

1808

01:01:35,109 --> 01:01:34,559

they've got a hard task of taking our

1809

01:01:37,109 --> 01:01:35,119

boring

1810

01:01:38,470 --> 01:01:37,119

science and creating something

1811

01:01:41,270 --> 01:01:38,480

interesting out of it

1812

01:01:41,750 --> 01:01:41,280

so take take that as a caveat when you

1813

01:01:45,270 --> 01:01:41,760

do

1814

01:01:46,309 --> 01:01:45,280

it's going to be pretty amazing because

1815

01:01:49,190 --> 01:01:46,319

there's been

1816

01:01:50,309 --> 01:01:49,200

synchronicity out the wazoo doing this

1817

01:01:53,510 --> 01:01:50,319

whole project

1818

01:01:54,789 --> 01:01:53,520

two years ago we were we

1819

01:01:56,950 --> 01:01:54,799

were actually it's been two and a half

1820

01:01:59,029 --> 01:01:56,960

years ago when we started uapx

1821

01:02:00,630 --> 01:01:59,039

everything was just the theory on paper

1822

01:02:01,510 --> 01:02:00,640

hey what are we gonna do about this how

1823

01:02:02,950 --> 01:02:01,520

can we do this

1824

01:02:04,950 --> 01:02:02,960

oh what have you got well let's figure

1825

01:02:05,430 --> 01:02:04,960

out a way to use that let's utilize this

1826
01:02:07,349 --> 01:02:05,440
and then

1827
01:02:08,870 --> 01:02:07,359
you know it was just a lot of big dreams

1828
01:02:10,549 --> 01:02:08,880
and then you know here comes this

1829
01:02:12,150 --> 01:02:10,559
production it's like yeah we'll

1830
01:02:13,750 --> 01:02:12,160
we'll put you up in this spot you do

1831
01:02:15,109 --> 01:02:13,760
your science and it's like we already

1832
01:02:17,270 --> 01:02:15,119
have the equipment we already have the

1833
01:02:19,270 --> 01:02:17,280
personnel

1834
01:02:20,789 --> 01:02:19,280
there we go we're good to go let's do

1835
01:02:22,710 --> 01:02:20,799
this and uh

1836
01:02:24,710 --> 01:02:22,720
and we didn't we did not get a paycheck

1837
01:02:27,510 --> 01:02:24,720
from this they just paid

1838
01:02:28,069 --> 01:02:27,520

for our ability to go do this none of us

1839

01:02:29,349 --> 01:02:28,079

drew it

1840

01:02:31,430 --> 01:02:29,359

i was trying to think if i got any money

1841

01:02:34,309 --> 01:02:31,440

no we got like per diem like to eat

1842

01:02:35,589 --> 01:02:34,319

during the day that type of stuff yeah

1843

01:02:36,630 --> 01:02:35,599

they paid for our expenses and they

1844

01:02:38,470 --> 01:02:36,640

bought us our food

1845

01:02:40,309 --> 01:02:38,480

they did pay for our scientists though

1846

01:02:41,910 --> 01:02:40,319

we full disclosure they paid for our

1847

01:02:44,309 --> 01:02:41,920

scientists but these guys i mean they

1848

01:02:46,390 --> 01:02:44,319

are phds i mean i'm not i'm just a

1849

01:02:47,750 --> 01:02:46,400

freaking washed-up cable guy from

1850

01:02:47,990 --> 01:02:47,760

florida that happened to be in the right

1851
01:02:51,270 --> 01:02:48,000
place

1852
01:02:53,109 --> 01:02:51,280
at the right time but you know

1853
01:02:55,029 --> 01:02:53,119
people like me jeremy the rest of the

1854
01:02:55,510 --> 01:02:55,039
guys you know none of us got paid to do

1855
01:02:58,309 --> 01:02:55,520
this

1856
01:03:00,630 --> 01:02:58,319
uh basically you know the only payments

1857
01:03:03,589 --> 01:03:00,640
that were ever made were to

1858
01:03:05,829 --> 01:03:03,599
a university to legitimize everything so

1859
01:03:07,750 --> 01:03:05,839
that we can actually go do it as a real

1860
01:03:11,910 --> 01:03:07,760
scientific expedition

1861
01:03:13,670 --> 01:03:11,920
um so we're you know coming through nyu

1862
01:03:15,029 --> 01:03:13,680
and you know scientists have to be paid

1863
01:03:15,990 --> 01:03:15,039

i don't care what you say you want a

1864

01:03:18,390 --> 01:03:16,000

scientist to do good work

1865

01:03:19,109 --> 01:03:18,400

you pay them exactly absolutely and i

1866

01:03:22,069 --> 01:03:19,119

will say

1867

01:03:23,829 --> 01:03:22,079

since uapx came on my radar i've been

1868

01:03:24,950 --> 01:03:23,839

talking about it across my socials and

1869

01:03:27,829 --> 01:03:24,960

people are

1870

01:03:29,270 --> 01:03:27,839

really excited man they really are fed

1871

01:03:30,069 --> 01:03:29,280

up of hearing or waiting for things to

1872

01:03:32,950 --> 01:03:30,079

come out of government

1873

01:03:34,309 --> 01:03:32,960

entities or agencies or the military and

1874

01:03:34,630 --> 01:03:34,319

this is this is what we've been waiting

1875

01:03:36,710 --> 01:03:34,640

for

1876

01:03:38,710 --> 01:03:36,720

yes we've seen the galileo project come

1877

01:03:39,750 --> 01:03:38,720

up and that's incredible i spoke to avi

1878

01:03:41,589 --> 01:03:39,760

loeb last week

1879

01:03:43,589 --> 01:03:41,599

really great stuff you know this is that

1880

01:03:45,990 --> 01:03:43,599

raw stuff this is raw

1881

01:03:47,270 --> 01:03:46,000

you what you guys doing i think is

1882

01:03:49,430 --> 01:03:47,280

speaking of avi though

1883

01:03:51,829 --> 01:03:49,440

uh you know looking at his project you

1884

01:03:52,150 --> 01:03:51,839

know at first i was like kind of like oh

1885

01:03:55,829 --> 01:03:52,160

no

1886

01:03:57,430 --> 01:03:55,839

all this great info but when you get to

1887

01:04:00,950 --> 01:03:57,440

think about

1888

01:04:02,870 --> 01:04:00,960

going into a a field that's literally

1889

01:04:04,470 --> 01:04:02,880

i mean there's only a handful of us that

1890

01:04:05,270 --> 01:04:04,480

are really actually doing science in

1891

01:04:07,349 --> 01:04:05,280

this field

1892

01:04:08,950 --> 01:04:07,359

yeah i don't blame them for wanting to

1893

01:04:11,510 --> 01:04:08,960

start with a foundation you know

1894

01:04:12,630 --> 01:04:11,520

without that solid foundation you can't

1895

01:04:14,150 --> 01:04:12,640

build up further

1896

01:04:15,670 --> 01:04:14,160

you know for us like our first

1897

01:04:17,270 --> 01:04:15,680

expedition was

1898

01:04:19,270 --> 01:04:17,280

a lot of trial and error because we

1899

01:04:21,670 --> 01:04:19,280

don't know what equipment would work

1900

01:04:23,670 --> 01:04:21,680

we didn't know what correlations were

1901

01:04:25,829 --> 01:04:23,680

going to match we didn't know if we

1902

01:04:27,510 --> 01:04:25,839

you know we didn't even know half of the

1903

01:04:28,950 --> 01:04:27,520

stuff that we ended up finding or it's

1904

01:04:32,549 --> 01:04:28,960

not finding or

1905

01:04:33,680 --> 01:04:32,559

you know we were just amazed by

1906

01:04:36,870 --> 01:04:33,690

how much can go wrong

1907

01:04:38,950 --> 01:04:36,880

[Laughter]

1908

01:04:40,069 --> 01:04:38,960

down to power failures in the middle of

1909

01:04:43,109 --> 01:04:40,079

some

1910

01:04:44,309 --> 01:04:43,119

go

1911

01:04:46,230 --> 01:04:44,319

let's save some of this for our

1912

01:04:46,950 --> 01:04:46,240

conversation in the week gary because oh

1913

01:04:48,630 --> 01:04:46,960

believe me

1914

01:04:50,710 --> 01:04:48,640

you have no problem with that i have

1915

01:04:52,950 --> 01:04:50,720

plenty to say about uh

1916

01:04:54,950 --> 01:04:52,960

from permaculture to you know if you

1917

01:04:56,470 --> 01:04:54,960

want to talk about uh you know zip ties

1918

01:04:58,230 --> 01:04:56,480

i don't care

1919

01:04:59,910 --> 01:04:58,240

i can make everything sound interesting

1920

01:05:01,670 --> 01:04:59,920

but i'm gonna go ahead and hop off here

1921

01:05:03,270 --> 01:05:01,680

hey thanks for having me on and uh

1922

01:05:06,829 --> 01:05:03,280

speaking of a couple weeks

1923

01:05:08,150 --> 01:05:06,839

hey keep uh keep making this look good

1924

01:05:11,829 --> 01:05:08,160

jeremy

1925

01:05:15,029 --> 01:05:11,839

thanks gary awesome that was nice

1926

01:05:17,589 --> 01:05:15,039

so jeremy i'm gonna throw it back at you

1927

01:05:18,870 --> 01:05:17,599

jumping on that skyhub thing because one

1928

01:05:20,630 --> 01:05:18,880

thing that everyone keeps saying to me

1929

01:05:23,029 --> 01:05:20,640

is that i should do sky herbal

1930

01:05:24,789 --> 01:05:23,039

or how can they do sky her because to

1931

01:05:27,910 --> 01:05:24,799

them it sounds like

1932

01:05:29,430 --> 01:05:27,920

it doesn't sound easy but i think it is

1933

01:05:31,589 --> 01:05:29,440

just a case of

1934

01:05:32,710 --> 01:05:31,599

getting your head down getting yeah it's

1935

01:05:36,069 --> 01:05:32,720

putting play

1936

01:05:39,430 --> 01:05:36,079

the work is already done right and

1937

01:05:42,069 --> 01:05:39,440

a caveat skyhub will never be done

1938

01:05:43,750 --> 01:05:42,079

um they are constantly improving they're

1939

01:05:46,150 --> 01:05:43,760

constantly rewriting the code they're

1940

01:05:48,390 --> 01:05:46,160

constantly updating the capabilities

1941

01:05:49,349 --> 01:05:48,400

and the abilities of the of the

1942

01:05:52,230 --> 01:05:49,359

equipment

1943

01:05:53,750 --> 01:05:52,240

but in a nutshell what they have is they

1944

01:05:56,309 --> 01:05:53,760

have a recipe

1945

01:05:57,109 --> 01:05:56,319

of pieces and parts that you can go on

1946

01:05:59,829 --> 01:05:57,119

amazon

1947

01:06:01,190 --> 01:05:59,839

and purchase yourself then they have a

1948

01:06:03,589 --> 01:06:01,200

set of instructions

1949

01:06:05,029 --> 01:06:03,599

that says you know how to slide tab a

1950

01:06:07,589 --> 01:06:05,039

into slot b

1951

01:06:08,870 --> 01:06:07,599

and how to download the software and how

1952

01:06:11,270 --> 01:06:08,880

to make it run

1953

01:06:13,510 --> 01:06:11,280

and if you can read and if you can

1954

01:06:15,829 --> 01:06:13,520

assemble ikea furniture

1955

01:06:17,750 --> 01:06:15,839

you can build a skyhub wow because the

1956

01:06:19,109 --> 01:06:17,760

instructions are actually easier from

1957

01:06:22,069 --> 01:06:19,119

sky hub ikea is just

1958

01:06:23,750 --> 01:06:22,079

pictures there you go so and you don't

1959

01:06:25,029 --> 01:06:23,760

you don't need to know how to solder

1960

01:06:27,430 --> 01:06:25,039

you don't need to know how to do

1961

01:06:30,630 --> 01:06:27,440

anything special i i

1962

01:06:33,589 --> 01:06:30,640

built mine right here on this desk uh

1963

01:06:35,109 --> 01:06:33,599

and and i've i've tinkered with with

1964

01:06:36,870 --> 01:06:35,119

electronics in the past

1965

01:06:38,309 --> 01:06:36,880

but you put three different types of

1966

01:06:39,430 --> 01:06:38,319

resistors in front of me and i wouldn't

1967

01:06:41,829 --> 01:06:39,440

know the difference

1968

01:06:44,230 --> 01:06:41,839

uh and i didn't need to so the

1969

01:06:47,109 --> 01:06:44,240

assembling a skyhub is extremely easy

1970

01:06:48,549 --> 01:06:47,119

it's and it's budget dependent they have

1971

01:06:50,069 --> 01:06:48,559

several different ways that you can

1972

01:06:51,829 --> 01:06:50,079

approach this depending on how much you

1973

01:06:54,870 --> 01:06:51,839

want to put into it and yeah

1974

01:06:57,589 --> 01:06:54,880

and um i bought uh could be

1975

01:06:58,230 --> 01:06:57,599

because i'm just that kind of guy i i

1976

01:07:00,870 --> 01:06:58,240

bought the

1977

01:07:02,390 --> 01:07:00,880

the creme de la creme of the processor

1978

01:07:04,549 --> 01:07:02,400

and then i bought the shitty

1979

01:07:05,910 --> 01:07:04,559

uh sensors to go around it knowing that

1980

01:07:08,069 --> 01:07:05,920

i could upgrade

1981

01:07:08,950 --> 01:07:08,079

and use the same processor uh in the

1982

01:07:10,789 --> 01:07:08,960

future ah

1983

01:07:12,630 --> 01:07:10,799

i like it yeah it's like a bit like a

1984

01:07:13,029 --> 01:07:12,640

building a pc for anybody that's done

1985

01:07:15,349 --> 01:07:13,039

that

1986

01:07:16,390 --> 01:07:15,359

like it's exactly like building a pc

1987

01:07:19,990 --> 01:07:16,400

except this one

1988

01:07:22,549 --> 01:07:20,000

does weird things i love it i love it

1989

01:07:25,029 --> 01:07:22,559

so i mean all i was really gonna end off

1990

01:07:26,789 --> 01:07:25,039

with was what's next but i think

1991

01:07:29,029 --> 01:07:26,799

we're kind of clear on that to a degree

1992

01:07:32,390 --> 01:07:29,039

aren't we it's the uacx and

1993

01:07:35,829 --> 01:07:32,400

what's next is not stopping

1994

01:07:38,470 --> 01:07:35,839

i mean this like like gary said we're

1995

01:07:40,549 --> 01:07:38,480

in in not so many words we're never

1996

01:07:42,390 --> 01:07:40,559

getting what we want to get from the

1997

01:07:44,309 --> 01:07:42,400

government disclosure

1998

01:07:46,150 --> 01:07:44,319

you know lou elizondo is constantly

1999

01:07:48,390 --> 01:07:46,160

saying disclosure is a process

2000

01:07:49,270 --> 01:07:48,400

well yes it is a process if you're

2001
01:07:51,109 --> 01:07:49,280
waiting on

2002
01:07:52,470 --> 01:07:51,119
information from the government but it

2003
01:07:55,910 --> 01:07:52,480
doesn't have to be

2004
01:07:56,950 --> 01:07:55,920
a long process like i said right now

2005
01:07:59,270 --> 01:07:56,960
today

2006
01:08:00,549 --> 01:07:59,280
we have access to the same sensor tech

2007
01:08:02,470 --> 01:08:00,559
as a civilian

2008
01:08:04,470 --> 01:08:02,480
that the government was using 20 years

2009
01:08:05,990 --> 01:08:04,480
ago yeah and 20 years ago

2010
01:08:08,069 --> 01:08:06,000
is when all of this stuff started

2011
01:08:11,270 --> 01:08:08,079
breaking loose so

2012
01:08:14,309 --> 01:08:11,280
with our ability to go on alibaba or

2013
01:08:16,390 --> 01:08:14,319

amazon or or ebay

2014

01:08:18,070 --> 01:08:16,400

we can build the same technology that

2015

01:08:20,070 --> 01:08:18,080

was in use 20 years ago

2016

01:08:21,349 --> 01:08:20,080

and get the same data from 20 years ago

2017

01:08:24,229 --> 01:08:21,359

and not have to wait

2018

01:08:25,110 --> 01:08:24,239

another 70 years for disclosure to

2019

01:08:27,269 --> 01:08:25,120

actually happen

2020

01:08:28,870 --> 01:08:27,279

they mentor that man and that's what i

2021

01:08:30,709 --> 01:08:28,880

wanted to hear because

2022

01:08:32,789 --> 01:08:30,719

i've done quite a bit of research into

2023

01:08:34,550 --> 01:08:32,799

skyhub i mean to be honest i

2024

01:08:36,070 --> 01:08:34,560

just don't have the time to do it i'd

2025

01:08:36,550 --> 01:08:36,080

like to think i'll get around to it one

2026

01:08:38,149 --> 01:08:36,560

day

2027

01:08:40,309 --> 01:08:38,159

but for everyone that always emails me

2028

01:08:41,510 --> 01:08:40,319

and dm's me saying should i do skyhub

2029

01:08:43,590 --> 01:08:41,520

what do you think

2030

01:08:45,910 --> 01:08:43,600

this is what we needed to hear it is as

2031

01:08:47,510 --> 01:08:45,920

simple as we hoped it would be so yeah

2032

01:08:49,189 --> 01:08:47,520

there's no excuses anymore if it's

2033

01:08:50,309 --> 01:08:49,199

something you want to do let's do it or

2034

01:08:51,749 --> 01:08:50,319

you do it and um

2035

01:08:53,749 --> 01:08:51,759

well i tell you what everybody should do

2036

01:08:55,030 --> 01:08:53,759

anybody who wants to order a skyhub go

2037

01:08:57,590 --> 01:08:55,040

to their website

2038

01:08:58,309 --> 01:08:57,600

look at the shopping list find the

2039

01:09:00,550 --> 01:08:58,319

second

2040

01:09:02,470 --> 01:09:00,560

most expensive thing on the shopping

2041

01:09:04,789 --> 01:09:02,480

list and buy it

2042

01:09:06,630 --> 01:09:04,799

and then have it sit on your desk and

2043

01:09:08,550 --> 01:09:06,640

know that there's one more thing

2044

01:09:09,910 --> 01:09:08,560

above that price range that you have to

2045

01:09:11,749 --> 01:09:09,920

save for but

2046

01:09:13,590 --> 01:09:11,759

everything else is under that price

2047

01:09:15,829 --> 01:09:13,600

range and you should be able to get it

2048

01:09:18,229 --> 01:09:15,839

and just have that second most expensive

2049

01:09:19,430 --> 01:09:18,239

thing staring at you on the desk until

2050

01:09:22,709 --> 01:09:19,440

you get off your ass

2051
01:09:23,990 --> 01:09:22,719
it awesome that's a good way of looking

2052
01:09:25,110 --> 01:09:24,000
at it man because it'll just force you

2053
01:09:27,590 --> 01:09:25,120
to keep going and

2054
01:09:28,309 --> 01:09:27,600
building it up so yeah well listen

2055
01:09:30,950 --> 01:09:28,319
jeremy

2056
01:09:31,910 --> 01:09:30,960
um thank you so much for talking to me

2057
01:09:33,590 --> 01:09:31,920
and listen i think

2058
01:09:35,269 --> 01:09:33,600
it's only right that you come back on in

2059
01:09:36,870 --> 01:09:35,279
the future maybe when gary's on and

2060
01:09:37,669 --> 01:09:36,880
jason's on and stuff like that because i

2061
01:09:39,269 --> 01:09:37,679
love

2062
01:09:40,709 --> 01:09:39,279
the banter between you guys you

2063
01:09:42,070 --> 01:09:40,719

obviously vibe off each other and that's

2064

01:09:43,990 --> 01:09:42,080

just a beautiful thing to see

2065

01:09:45,829 --> 01:09:44,000

man so you really are welcome here

2066

01:09:47,189 --> 01:09:45,839

anytime well hey i appreciate it this

2067

01:09:47,990 --> 01:09:47,199

has been an absolute pleasure it's been

2068

01:09:49,990 --> 01:09:48,000

a while since i've been

2069

01:09:51,990 --> 01:09:50,000

on a podcast because you know we were

2070

01:09:52,390 --> 01:09:52,000

under a little bit of a moratorium there

2071

01:09:54,470 --> 01:09:52,400

but

2072

01:09:56,070 --> 01:09:54,480

things are loosening up so i've got a

2073

01:09:57,750 --> 01:09:56,080

little bit more access now

2074

01:09:59,430 --> 01:09:57,760

hey well that's great man so stay in

2075

01:10:01,350 --> 01:09:59,440

touch and if you hang about

2076

01:10:03,030 --> 01:10:01,360

and i will have a chat off screen in a

2077

01:10:06,229 --> 01:10:03,040

minute absolutely great

2078

01:10:10,149 --> 01:10:06,239

so yeah thank you so much thank you

2079

01:10:11,350 --> 01:10:10,159

all right man guys thank you so much to

2080

01:10:13,030 --> 01:10:11,360

everyone that's been watching live

2081

01:10:14,470 --> 01:10:13,040

tonight this has been one of my favorite

2082

01:10:15,910 --> 01:10:14,480

interviews in a long time

2083

01:10:17,910 --> 01:10:15,920

no offense to everybody else that i've

2084

01:10:20,709 --> 01:10:17,920

interviewed but this was just like

2085

01:10:21,910 --> 01:10:20,719

just hanging out and talking and no

2086

01:10:24,470 --> 01:10:21,920

pressure and

2087

01:10:26,070 --> 01:10:24,480

it was fun this is what we want we talk

2088

01:10:27,830 --> 01:10:26,080

about serious subjects

2089

01:10:29,750 --> 01:10:27,840

but we can still have fun and just be

2090

01:10:31,669 --> 01:10:29,760

normal human beings about it

2091

01:10:33,430 --> 01:10:31,679

and i think we we got that tonight so

2092

01:10:35,669 --> 01:10:33,440

thank you everyone for watching

2093

01:10:37,510 --> 01:10:35,679
