1
00:00:35,350 --> 00:00:32,470

[Music]

2
00:00:37,190 --> 00:00:35,360

hello guys thank you for

3
00:00:38,869 --> 00:00:37,200

watching the disclosure team youtube

4
00:00:41,510 --> 00:00:38,879

channel i completely messed that up

5
00:00:43,670 --> 00:00:41,520

happy saturday everyone um

6
00:00:46,630 --> 00:00:43,680

this is going to be a great conversation

7
00:00:48,950 --> 00:00:46,640

um we've got a few panel guests jumping

8
00:00:51,510 --> 00:00:48,960

in tonight so let's bring them in one by

9
00:00:53,029 --> 00:00:51,520

one first i'd like to introduce

10
00:00:54,709 --> 00:00:53,039

um

11
00:00:56,549 --> 00:00:54,719

you guys know this guy if you been

12
00:00:58,229 --> 00:00:56,559

anywhere on my instagram page you know

13
00:01:01,510 --> 00:00:58,239

we do these kind of things all the time

14

00:01:04,869 --> 00:01:01,520

on instagram lives please welcome

15

00:01:06,789 --> 00:01:04,879

andy nyu ap discussion what's up brother

16

00:01:08,710 --> 00:01:06,799

what's up bro how are you i'm good man

17

00:01:10,789 --> 00:01:08,720

how are you i'm good

18

00:01:12,070 --> 00:01:10,799

i've got the ec going now okay yeah i

19

00:01:13,270 --> 00:01:12,080

can hear it a little bit but it's all

20

00:01:14,870 --> 00:01:13,280

good yeah

21

00:01:19,350 --> 00:01:14,880

i've got mine on as well i've got a fan

22

00:01:24,310 --> 00:01:22,390

next up guys um we have got a new friend

23

00:01:26,070 --> 00:01:24,320

that i've made recently someone who i

24

00:01:28,390 --> 00:01:26,080

think we all have a lot of respect for

25

00:01:31,190 --> 00:01:28,400

for the work that he's been doing so

26

00:01:33,990 --> 00:01:31,200

please welcome mr chris leto

27

00:01:36,149 --> 00:01:34,000

hi victoria how's it going

28

00:01:37,910 --> 00:01:36,159

how are you how are you great yeah great

29

00:01:39,910 --> 00:01:37,920

to be here

30

00:01:43,109 --> 00:01:39,920

good thank you so much for joining us

31

00:01:45,670 --> 00:01:43,119

and and then finally um this gentleman

32

00:01:47,350 --> 00:01:45,680

is going to talk about a uap that he

33

00:01:49,749 --> 00:01:47,360

filmed we're going to go through the

34

00:01:51,990 --> 00:01:49,759

footage so without further ado

35

00:01:54,230 --> 00:01:52,000

my newest friend

36

00:01:55,670 --> 00:01:54,240

mr nigel benton nigel thank you so much

37

00:01:57,670 --> 00:01:55,680

for joining us

38

00:02:01,030 --> 00:01:57,680

thanks for the invite i mean completely

39

00:02:04,389 --> 00:02:01,040

unexpected and um here we are so

40

00:02:06,389 --> 00:02:04,399

funny how things turn out isn't it

41

00:02:09,029 --> 00:02:06,399

when i took the film so which was a

42

00:02:10,469 --> 00:02:09,039

considerable time ago

43

00:02:12,150 --> 00:02:10,479

well let's jump pretty much let's just

44

00:02:13,110 --> 00:02:12,160

jump straight into it i'll just give a

45

00:02:14,550 --> 00:02:13,120

quick shout out to everyone that's

46

00:02:15,589 --> 00:02:14,560

watching live thank you so much for

47

00:02:18,229 --> 00:02:15,599

joining us

48

00:02:19,670 --> 00:02:18,239

love you guys always joining me live so

49

00:02:22,150 --> 00:02:19,680

thank you for that if you've got any

50

00:02:24,790 --> 00:02:22,160

questions ask away i'll try and look out

51
00:02:27,350 --> 00:02:24,800
for them um so yeah nigel why don't you

52
00:02:28,150 --> 00:02:27,360
talk us through this video and give us a

53
00:02:29,589 --> 00:02:28,160
little

54
00:02:31,190 --> 00:02:29,599
brief

55
00:02:33,430 --> 00:02:31,200
overview of it and then we can actually

56
00:02:35,110 --> 00:02:33,440
get into it if you want right or should

57
00:02:37,110 --> 00:02:35,120
i play it and talk about it at the same

58
00:02:39,030 --> 00:02:37,120
time what do you think

59
00:02:41,910 --> 00:02:39,040
either way don't really mind i mean

60
00:02:42,710 --> 00:02:41,920
essentially this is this is 15 years old

61
00:02:45,910 --> 00:02:42,720
okay

62
00:02:48,070 --> 00:02:45,920
um this this was a year before the first

63
00:02:50,869 --> 00:02:48,080

iphone came out so there's no you know

64

00:02:53,270 --> 00:02:50,879

fortunately it was it was filmed on a

65

00:02:55,589 --> 00:02:53,280

sony handycam so the actual quality of

66

00:02:56,550 --> 00:02:55,599

it considering isn't that bad and i

67

00:02:59,910 --> 00:02:56,560

think the iphone would have been

68

00:03:02,470 --> 00:02:59,920

considerably worse at that time

69

00:03:03,509 --> 00:03:02,480

so essentially it was just complete

70

00:03:05,509 --> 00:03:03,519

random

71

00:03:06,949 --> 00:03:05,519

day 24th of august

72

00:03:09,190 --> 00:03:06,959

2006

73

00:03:10,710 --> 00:03:09,200

um literally sitting in the back garden

74

00:03:13,270 --> 00:03:10,720

at lunch time

75

00:03:15,030 --> 00:03:13,280

beautiful clear blue skies little fluffy

76

00:03:16,790 --> 00:03:15,040

clouds here and there

77

00:03:19,910 --> 00:03:16,800

reclining in the sunshine and happened

78

00:03:21,190 --> 00:03:19,920

to just look slightly behind myself and

79

00:03:23,270 --> 00:03:21,200

spotted

80

00:03:25,350 --> 00:03:23,280

a star literally just

81

00:03:26,949 --> 00:03:25,360

the same as you'd see any star at night

82

00:03:29,270 --> 00:03:26,959

but this was in the blue sky so i

83

00:03:30,949 --> 00:03:29,280

thought that's not right you know

84

00:03:32,309 --> 00:03:30,959

that what is that so i just sat and

85

00:03:34,710 --> 00:03:32,319

watched it for a minute too it didn't

86

00:03:37,110 --> 00:03:34,720

move it didn't disappear so i thought

87

00:03:38,550 --> 00:03:37,120

i've got to get this on camera so i

88

00:03:40,789 --> 00:03:38,560

grabbed the camera

89

00:03:42,949 --> 00:03:40,799

and that's where it starts off on the

90

00:03:44,789 --> 00:03:42,959

footage

91

00:03:47,589 --> 00:03:44,799

that's when i found out how terribly

92

00:03:49,430 --> 00:03:47,599

difficult it is to focus it on a star

93

00:03:51,589 --> 00:03:49,440

you can see with your eyes but through

94

00:03:54,630 --> 00:03:51,599

the viewfinder you know through

95

00:04:00,309 --> 00:03:57,750

nowhere near you know trying to actually

96

00:04:01,990 --> 00:04:00,319

find something to reference it with uh

97

00:04:03,670 --> 00:04:02,000

and then eventually zoom in but didn't

98

00:04:05,429 --> 00:04:03,680

manage to do it of course then you get

99

00:04:07,830 --> 00:04:05,439

shakes because

100

00:04:10,229 --> 00:04:07,840

you know you're magnifying it so much so

101
00:04:12,710 --> 00:04:10,239
your excitement is making it worse than

102
00:04:14,390 --> 00:04:12,720
it it should be but um

103
00:04:16,390 --> 00:04:14,400
fortunately i was managed to you know

104
00:04:18,710 --> 00:04:16,400
have a presence of mine to take a

105
00:04:20,789 --> 00:04:18,720
shot of the clock in the kitchen so we

106
00:04:23,430 --> 00:04:20,799
had a time and i knew what the date was

107
00:04:24,950 --> 00:04:23,440
because i was working from home so

108
00:04:26,950 --> 00:04:24,960
and that's really where it goes on and

109
00:04:30,070 --> 00:04:26,960
then filmed it for probably around half

110
00:04:32,550 --> 00:04:30,080
an hour in total during which time it

111
00:04:34,629 --> 00:04:32,560
barely moved i mean it probably moved

112
00:04:36,070 --> 00:04:34,639
maybe

113
00:04:38,230 --> 00:04:36,080

12 inches

114

00:04:40,070 --> 00:04:38,240

across the sky in that time

115

00:04:41,430 --> 00:04:40,080

eventually i just had to stop filming it

116

00:04:42,870 --> 00:04:41,440

because i got other stuff to do but it

117

00:04:44,230 --> 00:04:42,880

was still there

118

00:04:46,150 --> 00:04:44,240

a little later i checked and then

119

00:04:48,550 --> 00:04:46,160

eventually it just kind of disappeared

120

00:04:49,990 --> 00:04:48,560

it just gone so what actually happened

121

00:04:51,510 --> 00:04:50,000

to it i don't know

122

00:04:53,350 --> 00:04:51,520

um

123

00:04:55,670 --> 00:04:53,360

it's just one of these things that

124

00:04:56,950 --> 00:04:55,680

i just managed to grab

125

00:04:58,310 --> 00:04:56,960

but

126

00:05:00,150 --> 00:04:58,320

i didn't really do anything with it

127

00:05:01,830 --> 00:05:00,160

because i didn't know what to do with it

128

00:05:03,029 --> 00:05:01,840

until i saw

129

00:05:06,390 --> 00:05:03,039

chris's

130

00:05:07,990 --> 00:05:06,400

chat with andy and dave felsh yourself

131

00:05:10,150 --> 00:05:08,000

yeah and

132

00:05:12,150 --> 00:05:10,160

and it was dave falsh's flir video of

133

00:05:14,629 --> 00:05:12,160

the unexpected

134

00:05:15,830 --> 00:05:14,639

object that they filmed and i looked at

135

00:05:17,749 --> 00:05:15,840

that and said

136

00:05:19,110 --> 00:05:17,759

well that's what i got on camera but

137

00:05:21,670 --> 00:05:19,120

mine's in the

138

00:05:23,430 --> 00:05:21,680

visual range not in the infrared

139

00:05:24,870 --> 00:05:23,440

so that's why i contacted chris and said

140

00:05:26,310 --> 00:05:24,880

well what do i do with this would you

141

00:05:28,310 --> 00:05:26,320

guys like to look at it and he said

142

00:05:30,390 --> 00:05:28,320

we'll just post it so i posted it i

143

00:05:33,110 --> 00:05:30,400

threw together a video posted it and

144

00:05:35,990 --> 00:05:33,120

that was a week ago and here we are so

145

00:05:37,830 --> 00:05:36,000

15 years and a week

146

00:05:39,350 --> 00:05:37,840

awesome i love this kind of way of doing

147

00:05:41,909 --> 00:05:39,360

things that people have been sitting on

148

00:05:43,909 --> 00:05:41,919

things for so long and now that they're

149

00:05:45,909 --> 00:05:43,919

seeing more people talking about it more

150

00:05:48,310 --> 00:05:45,919

videos coming out more people willing to

151
00:05:49,510 --> 00:05:48,320
analyze it yeah i think it's fantastic

152
00:05:52,070 --> 00:05:49,520
so chris what did you think when you

153
00:05:53,909 --> 00:05:52,080
first saw the video or got contacted by

154
00:05:56,390 --> 00:05:53,919
nigel

155
00:05:58,150 --> 00:05:56,400
yeah well i i saw his message and i

156
00:05:59,909 --> 00:05:58,160
thought like i don't know what what what

157
00:06:01,189 --> 00:05:59,919
i like him to do you know and i think

158
00:06:02,870 --> 00:06:01,199
the best is

159
00:06:03,670 --> 00:06:02,880
if he just puts it on youtube you know i

160
00:06:06,710 --> 00:06:03,680
can

161
00:06:08,870 --> 00:06:06,720
anything that's on youtube essentially

162
00:06:09,990 --> 00:06:08,880
right without any copyright issues

163
00:06:11,510 --> 00:06:10,000

uh it's just

164

00:06:13,189 --> 00:06:11,520

and everybody has at least everybody

165

00:06:15,029 --> 00:06:13,199

that's watching youtube probably has a

166

00:06:16,550 --> 00:06:15,039

youtube account or something

167

00:06:19,510 --> 00:06:16,560

but it really is just really easy to

168

00:06:20,710 --> 00:06:19,520

just post it you know nigel uh

169

00:06:22,390 --> 00:06:20,720

and i was like hey if you're willing to

170

00:06:24,790 --> 00:06:22,400

post it you know if you want to put this

171

00:06:25,909 --> 00:06:24,800

out public um put it up on youtube you

172

00:06:27,350 --> 00:06:25,919

know and then i can just reference it

173

00:06:29,670 --> 00:06:27,360

direct which is what i did it's super

174

00:06:30,790 --> 00:06:29,680

easy and i made that video uh today so i

175

00:06:33,670 --> 00:06:30,800

released it

176

00:06:35,749 --> 00:06:33,680

um today on on my channel

177

00:06:37,909 --> 00:06:35,759

nice man so yeah and then i went to it

178

00:06:39,590 --> 00:06:37,919

and we'll show it here exactly what he's

179

00:06:41,189 --> 00:06:39,600

saying i mean it looks yeah we'll look

180

00:06:42,070 --> 00:06:41,199

at it right now if you want to let's do

181

00:06:43,510 --> 00:06:42,080

it yeah

182

00:06:45,270 --> 00:06:43,520

yeah you got it lined up on the screen

183

00:06:47,670 --> 00:06:45,280

yeah that's ready to go

184

00:06:49,510 --> 00:06:47,680

yeah so here's his

185

00:06:52,950 --> 00:06:49,520

youtube i guess uh

186

00:06:54,870 --> 00:06:52,960

yeah nigel ben one video man he started

187

00:06:57,990 --> 00:06:54,880

got a new youtuber on the scene

188

00:07:02,629 --> 00:06:58,000

i'll be subscribing i'll be subscribing

189

00:07:06,550 --> 00:07:04,150

subscribe yeah

190

00:07:07,749 --> 00:07:06,560

uh so here it is you know it's uh 20 uh

191

00:07:09,350 --> 00:07:07,759

almost 20 minutes so i'll just go

192

00:07:12,629 --> 00:07:09,360

through it kind of quickly to the main

193

00:07:14,230 --> 00:07:12,639

points okay um but i would you know i'd

194

00:07:16,550 --> 00:07:14,240

say everybody that's interested to go

195

00:07:18,230 --> 00:07:16,560

watch it it's a really good example

196

00:07:19,990 --> 00:07:18,240

uh nigel you know you're also

197

00:07:21,430 --> 00:07:20,000

importantly you're talking through the

198

00:07:22,870 --> 00:07:21,440

through the video you know actually we

199

00:07:25,029 --> 00:07:22,880

do this as a

200

00:07:27,830 --> 00:07:25,039

yeah it's it as a you know fighter

201
00:07:29,510 --> 00:07:27,840
pilots when we debrief uh i i you know

202
00:07:31,029 --> 00:07:29,520
i'll talk all the time you know into the

203
00:07:33,510 --> 00:07:31,039
video like i see him doing this i see

204
00:07:35,029 --> 00:07:33,520
him doing this you know that's a mess up

205
00:07:36,390 --> 00:07:35,039
anything to cue the tape so that you can

206
00:07:37,990 --> 00:07:36,400
go back to it

207
00:07:39,909 --> 00:07:38,000
and actually we have to we need sound to

208
00:07:41,990 --> 00:07:39,919
cure our tapes anyway so you always find

209
00:07:43,589 --> 00:07:42,000
something common so i like how you talk

210
00:07:45,350 --> 00:07:43,599
through the tapes you know i keep seeing

211
00:07:46,869 --> 00:07:45,360
all these videos online

212
00:07:48,230 --> 00:07:46,879
and it's just like this crazy thing

213
00:07:49,990 --> 00:07:48,240

flying

214

00:07:51,510 --> 00:07:50,000

no no

215

00:07:53,589 --> 00:07:51,520

no

216

00:07:54,390 --> 00:07:53,599

yeah the other thing i don't like as

217

00:07:56,710 --> 00:07:54,400

well

218

00:07:59,990 --> 00:07:56,720

that kind of points out to me anyway

219

00:08:01,749 --> 00:08:00,000

that it's fake is it's kind of like well

220

00:08:03,589 --> 00:08:01,759

why were you there

221

00:08:05,189 --> 00:08:03,599

filming that bit you know that yeah

222

00:08:07,029 --> 00:08:05,199

you've got an object in here but then

223

00:08:08,710 --> 00:08:07,039

you go over here

224

00:08:10,230 --> 00:08:08,720

you never did you're not excited come

225

00:08:11,430 --> 00:08:10,240

around and look over there it's kind of

226

00:08:13,189 --> 00:08:11,440

like well

227

00:08:14,869 --> 00:08:13,199

it's over here so why are you moving

228

00:08:17,029 --> 00:08:14,879

around and there's no commentary you

229

00:08:19,830 --> 00:08:17,039

know so this kind of says to me

230

00:08:21,830 --> 00:08:19,840

probably fake probably yeah exactly yeah

231

00:08:23,189 --> 00:08:21,840

and but you in it's would look kind of

232

00:08:24,550 --> 00:08:23,199

so real on yours so you give this good

233

00:08:26,629 --> 00:08:24,560

commentary i think you basically just

234

00:08:27,589 --> 00:08:26,639

covered it um

235

00:08:29,110 --> 00:08:27,599

but

236

00:08:30,710 --> 00:08:29,120

as we go through you know like you

237

00:08:31,909 --> 00:08:30,720

mentioned it's just hard to focus on

238

00:08:33,269 --> 00:08:31,919

this thing right so you're trying to

239

00:08:35,110 --> 00:08:33,279

focus on it here

240

00:08:47,030 --> 00:08:35,120

we can even turn up your sound so you

241

00:08:52,949 --> 00:08:48,389

whoa

242

00:08:56,150 --> 00:08:55,030

yeah i mean that's just crazy to me you

243

00:08:58,470 --> 00:08:56,160

know

244

00:09:00,389 --> 00:08:58,480

it's like exactly like dave vultures

245

00:09:01,829 --> 00:09:00,399

yeah

246

00:09:03,430 --> 00:09:01,839

and this was

247

00:09:05,509 --> 00:09:03,440

just to give it a little bit more

248

00:09:07,269 --> 00:09:05,519

context it was around

249

00:09:10,870 --> 00:09:07,279

it wasn't directly above but it was

250

00:09:13,110 --> 00:09:10,880

around a 75 80 degrees elevation

251
00:09:14,790 --> 00:09:13,120
so it was it was steep and that's why it

252
00:09:16,949 --> 00:09:14,800
got really painful in the neck and the

253
00:09:17,990 --> 00:09:16,959
arms trying to hold camera steady and

254
00:09:19,590 --> 00:09:18,000
film it

255
00:09:21,190 --> 00:09:19,600
yeah and this this isn't the kind of the

256
00:09:22,790 --> 00:09:21,200
kind of camera that would pick up

257
00:09:24,470 --> 00:09:22,800
a distant planet in the daytime because

258
00:09:26,470 --> 00:09:24,480
of the quality of the camera it's really

259
00:09:28,790 --> 00:09:26,480
just a small handy cam for

260
00:09:30,630 --> 00:09:28,800
everyday use isn't it yeah yeah so and i

261
00:09:32,470 --> 00:09:30,640
like this as well yeah this is really

262
00:09:34,550 --> 00:09:32,480
good because i mean if i'm taking a if

263
00:09:36,550 --> 00:09:34,560

you know if i'm filming a ufo hopefully

264

00:09:38,310 --> 00:09:36,560

i'm like i selfie myself in the camera

265

00:09:39,990 --> 00:09:38,320

you know we should just just for fun

266

00:09:41,910 --> 00:09:40,000

this you should be selfing yourself in

267

00:09:44,310 --> 00:09:41,920

the you know with the ufo like here i am

268

00:09:46,230 --> 00:09:44,320

everybody you know

269

00:09:48,070 --> 00:09:46,240

that pairs you man and and like all that

270

00:09:49,670 --> 00:09:48,080

stuff i think makes it harder i mean i'm

271

00:09:51,670 --> 00:09:49,680

no video expert or

272

00:09:53,269 --> 00:09:51,680

you know video deep fake guy expert but

273

00:09:55,430 --> 00:09:53,279

i think it makes it more difficult right

274

00:09:57,590 --> 00:09:55,440

you know so he films here so we see it's

275

00:10:00,389 --> 00:09:57,600

him we can see the type of camera

276

00:10:02,230 --> 00:10:00,399

um and then he looks through the window

277

00:10:03,990 --> 00:10:02,240

uh at the clock you know that was so

278

00:10:06,389 --> 00:10:04,000

awesome i was like yes you know it's so

279

00:10:08,310 --> 00:10:06,399

so good such a good idea that's great

280

00:10:10,630 --> 00:10:08,320

yeah

281

00:10:12,069 --> 00:10:10,640

and then he goes back out so

282

00:10:14,550 --> 00:10:12,079

the other thing i really liked so he

283

00:10:15,590 --> 00:10:14,560

time stamped it i put on my video

284

00:10:17,190 --> 00:10:15,600

um

285

00:10:19,110 --> 00:10:17,200

you know if you can timestamp it i was

286

00:10:20,389 --> 00:10:19,120

thinking with like another another phone

287

00:10:21,670 --> 00:10:20,399

you know if you put up your phone and

288

00:10:23,829 --> 00:10:21,680

like just search

289

00:10:26,069 --> 00:10:23,839

like gmt or something or just even film

290

00:10:28,470 --> 00:10:26,079

anything that says you know your phone

291

00:10:29,910 --> 00:10:28,480

yeah you guys just spread my text but

292

00:10:31,990 --> 00:10:29,920

i think that even

293

00:10:33,910 --> 00:10:32,000

i think that makes it harder to to to

294

00:10:35,829 --> 00:10:33,920

fake as well you know because now they

295

00:10:37,110 --> 00:10:35,839

got to deep fake that thing you know all

296

00:10:39,110 --> 00:10:37,120

these things are gonna have to be fake

297

00:10:40,150 --> 00:10:39,120

right the the more context you can get

298

00:10:42,150 --> 00:10:40,160

in the video

299

00:10:43,910 --> 00:10:42,160

uh the harder i think it is to deep to

300

00:10:45,190 --> 00:10:43,920

fake it i would assume you know i'm not

301
00:10:46,790 --> 00:10:45,200
no but you know

302
00:10:47,990 --> 00:10:46,800
so many people just don't know how to

303
00:10:49,910 --> 00:10:48,000
record

304
00:10:51,430 --> 00:10:49,920
i make fun of that all the time because

305
00:10:53,190 --> 00:10:51,440
it's not that difficult but they get i

306
00:10:54,550 --> 00:10:53,200
guess they don't really think of what to

307
00:10:56,550 --> 00:10:54,560
do at the moment so they just sit there

308
00:10:58,389 --> 00:10:56,560
and film you know what i mean it's hard

309
00:11:00,790 --> 00:10:58,399
man i i would say go and try and film

310
00:11:03,190 --> 00:11:00,800
like an airliner or an airplane

311
00:11:04,790 --> 00:11:03,200
like just recently i someone sent me

312
00:11:06,790 --> 00:11:04,800
incredible footage

313
00:11:09,829 --> 00:11:06,800

but it was only about five seconds long

314

00:11:11,829 --> 00:11:09,839

and i'm like why did you do that

315

00:11:13,430 --> 00:11:11,839

and it was legit i mean legit i didn't

316

00:11:14,949 --> 00:11:13,440

post it because it was so short but it

317

00:11:16,870 --> 00:11:14,959

was a triangle craft that flew right

318

00:11:18,550 --> 00:11:16,880

over her she got scared and ran inside

319

00:11:20,550 --> 00:11:18,560

and stopped recording it was a perfect

320

00:11:22,310 --> 00:11:20,560

triangle and it was and it was lighting

321

00:11:24,230 --> 00:11:22,320

up every single spot was lighting up on

322

00:11:29,670 --> 00:11:24,240

each corner and she ran inside because

323

00:11:34,230 --> 00:11:31,509

exactly and uh i guess the the other

324

00:11:35,829 --> 00:11:34,240

thing he does really just uh these two

325

00:11:37,829 --> 00:11:35,839

things i think and you have a good ufo

326

00:11:39,829 --> 00:11:37,839

video is he uh anchors it so he

327

00:11:42,870 --> 00:11:39,839

basically films the ground

328

00:11:44,150 --> 00:11:42,880

uh and then he hands up so from there we

329

00:11:45,670 --> 00:11:44,160

can go with the direction from where

330

00:11:47,030 --> 00:11:45,680

he's at or if you i mean if you have a

331

00:11:48,389 --> 00:11:47,040

compass i guess that would be perfect

332

00:11:50,069 --> 00:11:48,399

but chances are you're not gonna have a

333

00:11:51,269 --> 00:11:50,079

compass um

334

00:11:52,790 --> 00:11:51,279

but you could i guess in front of your

335

00:11:54,629 --> 00:11:52,800

iphone if you have enough time another

336

00:11:56,069 --> 00:11:54,639

iphone right you can bring up your

337

00:11:58,470 --> 00:11:56,079

compass that but really we just need you

338

00:12:00,710 --> 00:11:58,480

know a direction to where it's going uh

339

00:12:02,550 --> 00:12:00,720

and then a time uh and then

340

00:12:05,030 --> 00:12:02,560

the really the powerful thing is so so

341

00:12:07,750 --> 00:12:05,040

nigel had this what from 15 years ago

342

00:12:09,430 --> 00:12:07,760

right yeah but imagine there's somebody

343

00:12:10,949 --> 00:12:09,440

near this town

344

00:12:13,670 --> 00:12:10,959

that just randomly happened to do the

345

00:12:15,670 --> 00:12:13,680

same thing right yeah so now now we have

346

00:12:17,670 --> 00:12:15,680

two points and now we can kind of get an

347

00:12:20,230 --> 00:12:17,680

idea how far away this thing is

348

00:12:23,030 --> 00:12:20,240

uh because if you look later let me see

349

00:12:25,030 --> 00:12:23,040

here at this point

350

00:12:27,110 --> 00:12:25,040

um

351

00:12:28,550 --> 00:12:27,120

there's a plane that comes along

352

00:12:29,829 --> 00:12:28,560

oh nice

353

00:12:31,190 --> 00:12:29,839

can you explain that because you were

354

00:12:33,750 --> 00:12:31,200

having a hard time finding it right

355

00:12:36,230 --> 00:12:33,760

nigel if i remember yeah i mean in the

356

00:12:37,190 --> 00:12:36,240

early in the early parts of the video

357

00:12:38,550 --> 00:12:37,200

um

358

00:12:40,470 --> 00:12:38,560

there was quite a bit of cloud it wasn't

359

00:12:42,310 --> 00:12:40,480

heavy cloud but there was a bit coming

360

00:12:44,629 --> 00:12:42,320

across so i could kind of relate to that

361

00:12:46,069 --> 00:12:44,639

but towards the end

362

00:12:52,470 --> 00:12:46,079

it was

363

00:12:53,670 --> 00:12:52,480

so this little star that i was trying to

364

00:12:55,190 --> 00:12:53,680

focus on

365

00:12:57,030 --> 00:12:55,200

every time i tried to zoom in i've got

366

00:12:58,069 --> 00:12:57,040

no reference point

367

00:12:59,910 --> 00:12:58,079

and then

368

00:13:00,790 --> 00:12:59,920

actually on the video you can hear the

369

00:13:03,110 --> 00:13:00,800

jet

370

00:13:05,110 --> 00:13:03,120

kind of in the background it's as it's

371

00:13:06,470 --> 00:13:05,120

kind of coming across you can hear the

372

00:13:08,389 --> 00:13:06,480

sounds coming

373

00:13:09,190 --> 00:13:08,399

so i thought oh yes there's a jet coming

374

00:13:11,030 --> 00:13:09,200

and

375

00:13:13,590 --> 00:13:11,040

looking up i could see it was actually

376

00:13:16,629 --> 00:13:13,600

going to pass pretty much where

377

00:13:18,550 --> 00:13:16,639

my dot was um so i just followed the jet

378

00:13:21,670 --> 00:13:18,560

because that's the only option i got

379

00:13:22,790 --> 00:13:21,680

really um and it was great because it

380

00:13:25,110 --> 00:13:22,800

also

381

00:13:26,230 --> 00:13:25,120

kind of gives you some relation to size

382

00:13:28,230 --> 00:13:26,240

i mean

383

00:13:30,550 --> 00:13:28,240

obviously not side by side i would

384

00:13:31,590 --> 00:13:30,560

suggest that if it is uap then it's

385

00:13:34,550 --> 00:13:31,600

below

386

00:13:36,550 --> 00:13:34,560

the flight path if it's not the uap

387

00:13:38,710 --> 00:13:36,560

it must be huge and above the

388

00:13:40,949 --> 00:13:38,720

flight path so from a scale perspective

389

00:13:42,230 --> 00:13:40,959

in my mind if it's lower it's still

390

00:13:43,670 --> 00:13:42,240

pretty big

391

00:13:45,509 --> 00:13:43,680

but if it's higher it's got to be huge

392

00:13:47,590 --> 00:13:45,519

and maybe the jets would the jet would

393

00:13:49,030 --> 00:13:47,600

have seen it because

394

00:13:50,310 --> 00:13:49,040

you know the way the windows are on the

395

00:13:51,750 --> 00:13:50,320

jet you

396

00:13:54,230 --> 00:13:51,760

possibly have seen it but then again

397

00:13:56,069 --> 00:13:54,240

maybe if the angle is too steep the jet

398

00:13:58,230 --> 00:13:56,079

wouldn't have seen it unless it was from

399

00:13:59,750 --> 00:13:58,240

a long distance and then it would have

400

00:14:01,269 --> 00:13:59,760

been a tiny star that they probably

401
00:14:02,870 --> 00:14:01,279
wouldn't have noticed

402
00:14:05,350 --> 00:14:02,880
i only notice it because i happen to

403
00:14:07,509 --> 00:14:05,360
stare at it long enough i think

404
00:14:10,310 --> 00:14:07,519
and did it move at all i mean i know you

405
00:14:12,870 --> 00:14:10,320
mentioned earlier yeah it didn't move as

406
00:14:15,030 --> 00:14:12,880
it didn't make any movement

407
00:14:16,389 --> 00:14:15,040
but over a period of time it probably

408
00:14:20,150 --> 00:14:16,399
traveled

409
00:14:21,910 --> 00:14:20,160
maybe you know visually i don't know

410
00:14:24,230 --> 00:14:21,920
maybe a foot across the sky if you know

411
00:14:26,470 --> 00:14:24,240
what i mean in that space

412
00:14:28,150 --> 00:14:26,480
but i mean i think you can almost tell

413
00:14:30,150 --> 00:14:28,160

that it does move slightly across but

414

00:14:33,189 --> 00:14:30,160

you can't see the motion you know there

415

00:14:35,430 --> 00:14:33,199

is no actual motion um no indication of

416

00:14:39,030 --> 00:14:35,440

how it's moving or anything

417

00:14:41,189 --> 00:14:39,040

um my only i mean my only kind of as you

418

00:14:42,710 --> 00:14:41,199

go through the eye what what is it as

419

00:14:44,230 --> 00:14:42,720

you're filming i thought you know

420

00:14:45,430 --> 00:14:44,240

obviously i felt balloon first thing i

421

00:14:47,910 --> 00:14:45,440

thought star

422

00:14:48,870 --> 00:14:47,920

but stars no during the day

423

00:14:51,030 --> 00:14:48,880

on a

424

00:14:54,550 --> 00:14:51,040

full sunlight day on

425

00:14:57,269 --> 00:14:54,560

in august it's no it can't be uh yeah i

426

00:14:59,030 --> 00:14:57,279

mean it's opposite the sun so

427

00:15:01,670 --> 00:14:59,040

then it's got to be reflection in my

428

00:15:03,670 --> 00:15:01,680

mind so it's reflecting back

429

00:15:05,269 --> 00:15:03,680

um

430

00:15:07,590 --> 00:15:05,279

just looking at this comment here yeah

431

00:15:08,870 --> 00:15:07,600

it was if it was venus or mars he would

432

00:15:10,790 --> 00:15:08,880

have not lost it it still would have

433

00:15:12,150 --> 00:15:10,800

been there apparently he went and looked

434

00:15:15,509 --> 00:15:12,160

up again and it was gone so i don't

435

00:15:17,430 --> 00:15:15,519

think venus could just move out the way

436

00:15:19,750 --> 00:15:17,440

i don't think venus is ever in that in

437

00:15:21,910 --> 00:15:19,760

the northeast of the sky it's always the

438

00:15:23,509 --> 00:15:21,920

other end isn't it it's always southwest

439

00:15:24,310 --> 00:15:23,519

kind of

440

00:15:26,470 --> 00:15:24,320

i think

441

00:15:27,670 --> 00:15:26,480

somebody mentioned earlier was it could

442

00:15:29,910 --> 00:15:27,680

it have been venus but i think the

443

00:15:32,550 --> 00:15:29,920

elevation is far too high yeah i think

444

00:15:35,189 --> 00:15:32,560

venus whenever we see it is kind of it's

445

00:15:37,509 --> 00:15:35,199

just amazing and it's low level and it's

446

00:15:39,189 --> 00:15:37,519

kind of towards the south

447

00:15:40,870 --> 00:15:39,199

yeah in the middle of the day too yeah

448

00:15:42,310 --> 00:15:40,880

and then you wouldn't see it the light i

449

00:15:43,670 --> 00:15:42,320

mean that's why you can't see those

450

00:15:44,710 --> 00:15:43,680

parts in the daylight because it drowns

451
00:15:48,550 --> 00:15:44,720
everything out

452
00:15:50,949 --> 00:15:48,560
so so to my mind it's reflected light so

453
00:15:52,790 --> 00:15:50,959
it's not it's not it's not a star it

454
00:15:55,110 --> 00:15:52,800
would have to be a supernova to be

455
00:15:56,069 --> 00:15:55,120
visible you know and they know about

456
00:15:59,749 --> 00:15:56,079
that

457
00:16:01,030 --> 00:15:59,759
sorry nigel you said in your video you

458
00:16:02,629 --> 00:16:01,040
write in here that you can't you know

459
00:16:03,910 --> 00:16:02,639
you called your wife but she didn't

460
00:16:07,189 --> 00:16:03,920
answer you left a message that was

461
00:16:09,910 --> 00:16:07,199
awesome you know yeah and also my

462
00:16:13,269 --> 00:16:09,920
business partner um he lives

463
00:16:14,710 --> 00:16:13,279

kind of or lived back then kind of seven

464

00:16:16,550 --> 00:16:14,720

miles east

465

00:16:20,069 --> 00:16:16,560

almost directly east

466

00:16:21,509 --> 00:16:20,079

um and i phoned him and said can you

467

00:16:23,110 --> 00:16:21,519

have a look outside look kind of

468

00:16:24,949 --> 00:16:23,120

northwest can you see this star and he

469

00:16:25,990 --> 00:16:24,959

said he couldn't see anything

470

00:16:26,790 --> 00:16:26,000

um

471

00:16:28,150 --> 00:16:26,800

now

472

00:16:31,189 --> 00:16:28,160

i've been thinking about this a little

473

00:16:32,230 --> 00:16:31,199

bit if he was directly to the east

474

00:16:34,629 --> 00:16:32,240

and

475

00:16:37,749 --> 00:16:34,639

if this object wasn't

476

00:16:39,829 --> 00:16:37,759

so incredibly high or far away

477

00:16:40,629 --> 00:16:39,839

maybe he didn't get the reflection you

478

00:16:42,470 --> 00:16:40,639

know

479

00:16:44,069 --> 00:16:42,480

if it's a ball it's only going to

480

00:16:45,990 --> 00:16:44,079

reflect the front face the back face

481

00:16:47,829 --> 00:16:46,000

won't be visible at all and this thing

482

00:16:50,150 --> 00:16:47,839

was literally a pin prick in the sky you

483

00:16:52,069 --> 00:16:50,160

know it was a star so it wouldn't you

484

00:16:53,110 --> 00:16:52,079

wouldn't have been able to see it had it

485

00:16:56,069 --> 00:16:53,120

been

486

00:16:58,150 --> 00:16:56,079

literally kind of above me there

487

00:17:00,629 --> 00:16:58,160

i think from the side even from behind

488

00:17:02,230 --> 00:17:00,639

if you were further north say i mean

489

00:17:03,749 --> 00:17:02,240

if you're in sheffield

490

00:17:05,829 --> 00:17:03,759

you wouldn't have been able to see it

491

00:17:06,789 --> 00:17:05,839

because the sunlight would have

492

00:17:08,630 --> 00:17:06,799

you know

493

00:17:11,829 --> 00:17:08,640

blinded it out it would just it would

494

00:17:13,829 --> 00:17:11,839

wipe it out completely so to me it

495

00:17:15,750 --> 00:17:13,839

it has to be reflected light off an

496

00:17:18,069 --> 00:17:15,760

object and the only other thing that

497

00:17:20,309 --> 00:17:18,079

ever came to mind was could it be

498

00:17:23,510 --> 00:17:20,319

geostationary satellite

499

00:17:27,029 --> 00:17:23,520

but even then again to see it in in

500

00:17:28,710 --> 00:17:27,039

daylight it's just i can't see it

501
00:17:30,630 --> 00:17:28,720
i can't see it being a weather balloon

502
00:17:33,270 --> 00:17:30,640
because it's in it's in a it's a

503
00:17:35,909 --> 00:17:33,280
commercial flight path i mean these jets

504
00:17:38,950 --> 00:17:35,919
recently i've been looking using radar

505
00:17:40,390 --> 00:17:38,960
um you know the flight radar 24 yeah

506
00:17:43,510 --> 00:17:40,400
jets that go over and they're flying

507
00:17:45,510 --> 00:17:43,520
between 30 and 40 000 feet yeah it's the

508
00:17:46,789 --> 00:17:45,520
same route that they fly they were

509
00:17:47,990 --> 00:17:46,799
flying back

510
00:17:50,070 --> 00:17:48,000
in in

511
00:17:51,430 --> 00:17:50,080
2006 so

512
00:17:54,549 --> 00:17:51,440
you wouldn't want stuff like that

513
00:17:57,350 --> 00:17:54,559

floating around um above a commercial

514

00:18:03,830 --> 00:17:58,710

so

515

00:18:06,390 --> 00:18:03,840

from airliners as well you know they

516

00:18:07,669 --> 00:18:06,400

take the videos from airliner so it's

517

00:18:09,350 --> 00:18:07,679

you could almost do the same thing but

518

00:18:11,029 --> 00:18:09,360

your your time stamp has to be a lot

519

00:18:12,789 --> 00:18:11,039

more accurate i don't know can we tell

520

00:18:14,630 --> 00:18:12,799

exactly where a plane is you know or can

521

00:18:17,430 --> 00:18:14,640

you get how accurate is that

522

00:18:21,029 --> 00:18:18,950

so chris did you analyze this much

523

00:18:23,190 --> 00:18:21,039

further did you zoom in on multiple

524

00:18:25,830 --> 00:18:23,200

points and things like that or no no i

525

00:18:27,990 --> 00:18:25,840

haven't i just saw it uh i thought

526

00:18:30,390 --> 00:18:28,000

really what was

527

00:18:31,190 --> 00:18:30,400

best to learn from it is we need more

528

00:18:32,950 --> 00:18:31,200

more

529

00:18:33,830 --> 00:18:32,960

points of points of you know multiple

530

00:18:35,270 --> 00:18:33,840

sources

531

00:18:36,789 --> 00:18:35,280

absolutely

532

00:18:38,310 --> 00:18:36,799

i think that's a great point and also

533

00:18:40,310 --> 00:18:38,320

the fact that the things you mentioned

534

00:18:42,870 --> 00:18:40,320

with the way nigel went about filming it

535

00:18:44,789 --> 00:18:42,880

with filming himself filming the clock

536

00:18:46,710 --> 00:18:44,799

all those little extra data points that

537

00:18:48,630 --> 00:18:46,720

really are important to

538

00:18:50,549 --> 00:18:48,640

to just filming sightings i know it's

539

00:18:52,630 --> 00:18:50,559

hard in the moment or i i can imagine

540

00:18:55,350 --> 00:18:52,640

it's hard in the moment i've

541

00:18:58,630 --> 00:18:55,360

never seen anything so i can't speak to

542

00:19:00,549 --> 00:18:58,640

that um so yeah no that's that's super

543

00:19:01,909 --> 00:19:00,559

interesting so nigel thank you so much

544

00:19:06,870 --> 00:19:01,919

for bringing that forward i really

545

00:19:10,230 --> 00:19:08,470

yeah i think it's you have to be ready

546

00:19:12,710 --> 00:19:10,240

it's one of those you know maybe once in

547

00:19:15,029 --> 00:19:12,720

a lifetime type things it's so rare

548

00:19:16,630 --> 00:19:15,039

yeah that's when it happened yeah yeah

549

00:19:18,230 --> 00:19:16,640

when good footage comes out you're just

550

00:19:20,710 --> 00:19:18,240

not ready that's why a lot of times it's

551
00:19:22,150 --> 00:19:20,720
such so crappy because it just happens

552
00:19:23,669 --> 00:19:22,160
right then you're like holy crap a lot

553
00:19:24,630 --> 00:19:23,679
of times um

554
00:19:26,789 --> 00:19:24,640
people who

555
00:19:28,549 --> 00:19:26,799
like plane enthusiasts that are watching

556
00:19:30,310 --> 00:19:28,559
planes end up catching as they're

557
00:19:31,669 --> 00:19:30,320
tracking the plane they end up getting

558
00:19:33,510 --> 00:19:31,679
sidetracked because they'll see for

559
00:19:35,990 --> 00:19:33,520
example like an object like that

560
00:19:37,909 --> 00:19:36,000
and you know they'll catch it but um

561
00:19:39,190 --> 00:19:37,919
you know the authentic ones usually no

562
00:19:39,909 --> 00:19:39,200
one's prepared for you know what i'm

563
00:19:41,510 --> 00:19:39,919

saying

564

00:19:42,710 --> 00:19:41,520

yeah because a lot of people the first

565

00:19:45,270 --> 00:19:42,720

thing they want to do is they want to

566

00:19:46,310 --> 00:19:45,280

get it as clear as they can so they zoom

567

00:19:48,470 --> 00:19:46,320

and of course if you've got a bit of

568

00:19:50,070 --> 00:19:48,480

handshake on a full zoom man that thing

569

00:19:52,390 --> 00:19:50,080

looks like it's jumping around all over

570

00:19:54,150 --> 00:19:52,400

the place like so many people don't get

571

00:19:55,750 --> 00:19:54,160

that you know that's why i get so

572

00:19:57,350 --> 00:19:55,760

frustrated with that because it's like

573

00:19:58,470 --> 00:19:57,360

when you're zooming in

574

00:20:00,070 --> 00:19:58,480

all the way

575

00:20:01,669 --> 00:20:00,080

any little movement you make is going to

576
00:20:02,789 --> 00:20:01,679
make this thing jump all over the screen

577
00:20:04,870 --> 00:20:02,799
yeah

578
00:20:06,710 --> 00:20:04,880
so unless you have a tripod sitting

579
00:20:08,230 --> 00:20:06,720
there and you managed to focus in on it

580
00:20:11,110 --> 00:20:08,240
without you know that's the only way

581
00:20:13,350 --> 00:20:11,120
you're going to get a decent stabilized

582
00:20:14,710 --> 00:20:13,360
you know uh recording but

583
00:20:16,470 --> 00:20:14,720
yeah just

584
00:20:17,669 --> 00:20:16,480
no one has a tripod lying around just

585
00:20:19,590 --> 00:20:17,679
because they're going to feel let me

586
00:20:21,750 --> 00:20:19,600
just pull this out of my pocket

587
00:20:24,070 --> 00:20:21,760
i'm ready at the very end of the video

588
00:20:32,710 --> 00:20:24,080

the last comment i make is i wish i had

589

00:20:35,110 --> 00:20:34,070

would you have done anything different

590

00:20:39,029 --> 00:20:35,120

uh

591

00:20:41,029 --> 00:20:39,039

seeing i was looking at a cia document

592

00:20:45,029 --> 00:20:41,039

someone uh martin sent me actually from

593

00:20:49,110 --> 00:20:45,039

duapr uh how to how to photograph a a

594

00:20:51,190 --> 00:20:49,120

ufo right and step one is uh manually

595

00:20:53,830 --> 00:20:51,200

focus it to infinity

596

00:20:55,029 --> 00:20:53,840

i was surprised by that i don't know uh

597

00:20:56,630 --> 00:20:55,039

you know would that have helped you

598

00:20:58,390 --> 00:20:56,640

because i saw you focusing in and out a

599

00:21:00,310 --> 00:20:58,400

lot but it seems like you also went past

600

00:21:02,230 --> 00:21:00,320

it right so

601
00:21:03,590 --> 00:21:02,240
i wonder if infinity you know you didn't

602
00:21:06,470 --> 00:21:03,600
get there if that would have helped

603
00:21:08,950 --> 00:21:06,480
somehow yeah i mean the only the only um

604
00:21:10,870 --> 00:21:08,960
focus sort of zoom was that

605
00:21:11,909 --> 00:21:10,880
you know it's just literally a push

606
00:21:14,310 --> 00:21:11,919
to go in

607
00:21:16,390 --> 00:21:14,320
zoom in push to zoom out

608
00:21:17,909 --> 00:21:16,400
i think there is a digital zoom feature

609
00:21:19,830 --> 00:21:17,919
on it somewhere but

610
00:21:22,070 --> 00:21:19,840
in the you know that was i didn't have

611
00:21:23,830 --> 00:21:22,080
time to set that up really

612
00:21:26,789 --> 00:21:23,840
um

613
00:21:28,310 --> 00:21:26,799

i think if you know

614

00:21:30,549 --> 00:21:28,320

if i've had more people that i could

615

00:21:33,029 --> 00:21:30,559

have called maybe you know i i couldn't

616

00:21:34,870 --> 00:21:33,039

think at the time i mean i

617

00:21:36,950 --> 00:21:34,880

might i've got a younger brother uh but

618

00:21:38,630 --> 00:21:36,960

he was working in

619

00:21:40,230 --> 00:21:38,640

derby at the time he could have done it

620

00:21:42,390 --> 00:21:40,240

but i didn't have his

621

00:21:43,430 --> 00:21:42,400

number i mean he didn't have

622

00:21:44,870 --> 00:21:43,440

you know

623

00:21:46,470 --> 00:21:44,880

the same iphones had to come out i think

624

00:21:49,350 --> 00:21:46,480

were on nokias in those days and i'm not

625

00:21:51,669 --> 00:21:49,360

even sure if he had one so um

626

00:21:53,990 --> 00:21:51,679

it's one of those things you know

627

00:21:55,190 --> 00:21:54,000

in hindsight i wish i'd got a bigger

628

00:21:56,470 --> 00:21:55,200

list of people that i could have

629

00:21:59,350 --> 00:21:56,480

contacted

630

00:22:01,270 --> 00:21:59,360

um and i guess you know unless by some

631

00:22:03,350 --> 00:22:01,280

fluke again

632

00:22:04,390 --> 00:22:03,360

it was nokia phones and whatever back

633

00:22:06,789 --> 00:22:04,400

then so

634

00:22:08,070 --> 00:22:06,799

unless somebody did happen to have a

635

00:22:11,270 --> 00:22:08,080

handycam

636

00:22:14,390 --> 00:22:11,280

and did happen to see it back then

637

00:22:15,750 --> 00:22:14,400

and film it then you know maybe

638

00:22:17,430 --> 00:22:15,760

well there's a chance that they're going

639

00:22:18,310 --> 00:22:17,440

to see this you know but having said

640

00:22:19,430 --> 00:22:18,320

that

641

00:22:21,669 --> 00:22:19,440

you never know

642

00:22:23,909 --> 00:22:21,679

every time i think of what i you know

643

00:22:26,710 --> 00:22:23,919

the story i told vinnie and chris it's

644

00:22:28,710 --> 00:22:26,720

like oh my god if i would have had

645

00:22:29,750 --> 00:22:28,720

some kind of recording equipment with me

646

00:22:32,310 --> 00:22:29,760

at the time

647

00:22:34,470 --> 00:22:32,320

i would have had a freaking

648

00:22:36,549 --> 00:22:34,480

video that would have blown everybody

649

00:22:38,390 --> 00:22:36,559

away like it just every time i think

650

00:22:39,750 --> 00:22:38,400

about it it's like why did i not have

651
00:22:43,270 --> 00:22:39,760
anything but at the time there was no

652
00:22:47,830 --> 00:22:46,149
i mean one thing i did think of this the

653
00:22:50,390 --> 00:22:47,840
other day actually just

654
00:22:52,870 --> 00:22:50,400
i think one thing that i could have done

655
00:22:55,830 --> 00:22:52,880
of course is get in my car

656
00:22:57,110 --> 00:22:55,840
and go drive five miles east or five

657
00:22:58,710 --> 00:22:57,120
miles west

658
00:22:59,669 --> 00:22:58,720
and see if i could find it still you

659
00:23:03,909 --> 00:22:59,679
know

660
00:23:05,350 --> 00:23:03,919
would be my dual source if you like

661
00:23:08,390 --> 00:23:05,360
yeah that was on the list that was on

662
00:23:09,270 --> 00:23:08,400
the cia list as well it was uh

663
00:23:10,630 --> 00:23:09,280

yeah

664

00:23:12,470 --> 00:23:10,640

the only thing i really thought were it

665

00:23:16,310 --> 00:23:12,480

was was good it was like take a lot of

666

00:23:18,149 --> 00:23:16,320

photographs uh and if it's if it's close

667

00:23:20,070 --> 00:23:18,159

um then you want to move around they

668

00:23:22,470 --> 00:23:20,080

said 40 to 60 feet is enough right if

669

00:23:24,630 --> 00:23:22,480

it's close to get different angles

670

00:23:26,549 --> 00:23:24,640

but then it's far away it doesn't help

671

00:23:28,470 --> 00:23:26,559

to move around you but it does help to

672

00:23:30,870 --> 00:23:28,480

get in your car and it said go at least

673

00:23:33,909 --> 00:23:30,880

half of a mile

674

00:23:35,909 --> 00:23:33,919

and then you can do a triangulation yeah

675

00:23:37,669 --> 00:23:35,919

yeah but we chair fly a lot in the air

676

00:23:39,830 --> 00:23:37,679

force you know um you just mentally go

677

00:23:41,909 --> 00:23:39,840

through what you're gonna do uh or the

678

00:23:43,430 --> 00:23:41,919

best is you go practice it right

679

00:23:46,070 --> 00:23:43,440

like really just practicing stuff

680

00:23:47,430 --> 00:23:46,080

actually it works but nobody i i hope

681

00:23:48,789 --> 00:23:47,440

somebody out there is like actually

682

00:23:50,549 --> 00:23:48,799

gonna go and practice you know get

683

00:23:52,390 --> 00:23:50,559

because i charge my camera

684

00:23:53,750 --> 00:23:52,400

one out all right and then try and get

685

00:23:57,990 --> 00:23:53,760

try and get some

686

00:24:01,750 --> 00:23:58,000

plain videos you know good luck you know

687

00:24:02,789 --> 00:24:01,760

see if it works yeah yeah yeah

688

00:24:04,470 --> 00:24:02,799

i'm just gonna give a shout out to

689

00:24:05,909 --> 00:24:04,480

healthy mbs thank you for the five

690

00:24:08,070 --> 00:24:05,919

dollars and you've got a correct

691

00:24:09,990 --> 00:24:08,080

question for chris so chris based on

692

00:24:11,909 --> 00:24:10,000

your experience with usaf fighter jets

693

00:24:14,230 --> 00:24:11,919

and related systems have you been asked

694

00:24:17,110 --> 00:24:14,240

to help analyze or investigate uap type

695

00:24:19,510 --> 00:24:17,120

events for any organization

696

00:24:21,669 --> 00:24:19,520

um yes uh

697

00:24:23,190 --> 00:24:21,679

a group a group of the scu asked me they

698

00:24:26,710 --> 00:24:23,200

were trying to put together some project

699

00:24:28,470 --> 00:24:26,720

i i'm not sure what it is um but later

700

00:24:30,630 --> 00:24:28,480

in september i believe is when they said

701
00:24:33,669 --> 00:24:30,640
they they'd uh

702
00:24:35,110 --> 00:24:33,679
reconvene so just a little bit um i'm

703
00:24:36,710 --> 00:24:35,120
quite new still you know obviously

704
00:24:38,950 --> 00:24:36,720
people have a lot of they already have

705
00:24:40,950 --> 00:24:38,960
their schedules full and everything so

706
00:24:42,630 --> 00:24:40,960
uh i would like to ask some more pilots

707
00:24:43,990 --> 00:24:42,640
though i haven't really

708
00:24:45,590 --> 00:24:44,000
tried to even contact my friends or

709
00:24:47,590 --> 00:24:45,600
whatever you know like what are they

710
00:24:48,950 --> 00:24:47,600
doing my facebook account got cut off

711
00:24:50,950 --> 00:24:48,960
you know i don't know if like

712
00:24:53,590 --> 00:24:50,960
it's like planned or something but uh i

713
00:24:56,070 --> 00:24:53,600

think it just i couldn't access this

714

00:24:58,470 --> 00:24:56,080

this was the six weeks ago and i can and

715

00:24:59,750 --> 00:24:58,480

like facebook will not answer my calls

716

00:25:00,630 --> 00:24:59,760

back you know and i'm like hey my

717

00:25:03,029 --> 00:25:00,640

account's

718

00:25:03,750 --> 00:25:03,039

not working i can't get into it so i

719

00:25:05,110 --> 00:25:03,760

don't know

720

00:25:21,750 --> 00:25:05,120

they'll be like this guy's talking we

721

00:25:24,870 --> 00:25:22,950

yeah

722

00:25:26,950 --> 00:25:24,880

that is so bad like i'm posting probably

723

00:25:27,990 --> 00:25:26,960

once a day at the moment just because

724

00:25:30,070 --> 00:25:28,000

what's the point if they're going to

725

00:25:32,630 --> 00:25:30,080

treat us like that you know what's going

726

00:25:34,230 --> 00:25:32,640

on i don't know on instagram yeah you

727

00:25:35,909 --> 00:25:34,240

you because we have like business

728

00:25:38,070 --> 00:25:35,919

accounts you'll you can check all your

729

00:25:39,750 --> 00:25:38,080

statistics for like your reach and and

730

00:25:41,190 --> 00:25:39,760

things like that and it's just dive

731

00:25:43,430 --> 00:25:41,200

bombed and people be like well maybe

732

00:25:44,630 --> 00:25:43,440

it's just people aren't interested but

733

00:25:45,909 --> 00:25:44,640

i've been doing it for long enough to

734

00:25:47,909 --> 00:25:45,919

know when

735

00:25:48,950 --> 00:25:47,919

things like that happen

736

00:25:50,549 --> 00:25:48,960

yeah

737

00:25:51,990 --> 00:25:50,559

and you get a steady flow of traffic and

738

00:25:53,750 --> 00:25:52,000

then all of a sudden it's just like

739

00:25:55,269 --> 00:25:53,760

non-existent you're like what

740

00:25:56,549 --> 00:25:55,279

what's going on

741

00:25:58,789 --> 00:25:56,559

and that's when you that's when you know

742

00:26:00,549 --> 00:25:58,799

that something's someone's messing

743

00:26:03,029 --> 00:26:00,559

messing around on the other side

744

00:26:06,310 --> 00:26:03,039

yeah changing the algorithm

745

00:26:07,269 --> 00:26:06,320

it is it is the algorithm which

746

00:26:08,710 --> 00:26:07,279

yeah

747

00:26:11,430 --> 00:26:08,720

and it sucks because they consider it

748

00:26:12,950 --> 00:26:11,440

you know fake news type of crap so when

749

00:26:14,789 --> 00:26:12,960

you post things like this i guess it

750

00:26:16,630 --> 00:26:14,799

pops up and or you know and they're in

751
00:26:17,590 --> 00:26:16,640
the algorithm it sets something off and

752
00:26:19,350 --> 00:26:17,600
then

753
00:26:20,710 --> 00:26:19,360
hits you with like uh some kind of like

754
00:26:22,390 --> 00:26:20,720
um

755
00:26:23,669 --> 00:26:22,400
like a warning i don't know

756
00:26:25,590 --> 00:26:23,679
the thing is i've never had a warning or

757
00:26:27,269 --> 00:26:25,600
anything i've just

758
00:26:29,350 --> 00:26:27,279
had these issues but i i i'm not going

759
00:26:31,750 --> 00:26:29,360
to dwell on it man you know

760
00:26:33,350 --> 00:26:31,760
it is what it is you know

761
00:26:40,310 --> 00:26:33,360
are you going to talk about uh san

762
00:26:45,510 --> 00:26:42,710
right now that's awesome yeah i'll i'll

763
00:26:47,830 --> 00:26:45,520

talk yeah so i'll go i'll go back a few

764

00:26:50,470 --> 00:26:47,840

weeks i was aware that san marino event

765

00:26:53,029 --> 00:26:50,480

was coming up i knew that lou and chris

766

00:26:54,549 --> 00:26:53,039

mellon were flying out to do a talk and

767

00:26:56,390 --> 00:26:54,559

the first thing that comes up in your

768

00:26:58,149 --> 00:26:56,400

head is why are they

769

00:27:00,230 --> 00:26:58,159

traveling all that way to talk for an

770

00:27:02,070 --> 00:27:00,240

hour or so and it's all happening over

771

00:27:05,029 --> 00:27:02,080

zoom and stuff these days there's got to

772

00:27:07,590 --> 00:27:05,039

be something else going on now it's been

773

00:27:10,789 --> 00:27:07,600

speculated for a while now that

774

00:27:12,710 --> 00:27:10,799

because it's an isa conference um who

775

00:27:15,269 --> 00:27:12,720

are at the forefront of pushing the

776

00:27:16,230 --> 00:27:15,279

subject into the united nations i

777

00:27:17,669 --> 00:27:16,240

thought there's got to be some

778

00:27:19,029 --> 00:27:17,679

correlation there

779

00:27:21,750 --> 00:27:19,039

and it's looking like that it's going

780

00:27:23,750 --> 00:27:21,760

that way definitely and that san marino

781

00:27:25,269 --> 00:27:23,760

may be the country to take it to the

782

00:27:26,470 --> 00:27:25,279

united nations

783

00:27:28,389 --> 00:27:26,480

i think we're going to find out more

784

00:27:31,909 --> 00:27:28,399

information in the coming

785

00:27:33,750 --> 00:27:31,919

days weeks but um so max me and max

786

00:27:35,669 --> 00:27:33,760

spoke and we're like dude let's go to

787

00:27:37,590 --> 00:27:35,679

san marino road trip it

788

00:27:39,110 --> 00:27:37,600

i was like yeah i'd love to realized

789

00:27:42,789 --> 00:27:39,120

when it was

790

00:27:45,750 --> 00:27:42,799

couldn't make it so max bless him drove

791

00:27:49,590 --> 00:27:45,760

from holland to germany

792

00:27:51,590 --> 00:27:49,600

from germany to italy um and yeah met

793

00:27:53,669 --> 00:27:51,600

met with lou and

794

00:27:56,149 --> 00:27:53,679

luckily had him on instagram live

795

00:27:57,990 --> 00:27:56,159

earlier for five minutes that was great

796

00:27:59,909 --> 00:27:58,000

he's gonna talk to him tomorrow as well

797

00:28:01,909 --> 00:27:59,919

isn't he he's gonna join max again

798

00:28:04,389 --> 00:28:01,919

tomorrow yeah and that was lou's

799

00:28:05,190 --> 00:28:04,399

suggestion apparently it was yeah yeah

800

00:28:06,870 --> 00:28:05,200

so

801
00:28:07,990 --> 00:28:06,880
yeah it's exciting man but i've got it's

802
00:28:09,430 --> 00:28:08,000
good thing is i've got an interview with

803
00:28:11,590 --> 00:28:09,440
lou in

804
00:28:13,510 --> 00:28:11,600
eight days on my channel so i'll re i'll

805
00:28:15,350 --> 00:28:13,520
get a good hour if not longer to really

806
00:28:17,350 --> 00:28:15,360
throw the questions at him

807
00:28:18,070 --> 00:28:17,360
and you i guess i don't know much about

808
00:28:20,310 --> 00:28:18,080
like

809
00:28:22,230 --> 00:28:20,320
again i'm still so new but bring in this

810
00:28:23,590 --> 00:28:22,240
to the u.n is that

811
00:28:25,590 --> 00:28:23,600
do you think that's the best way to go

812
00:28:28,470 --> 00:28:25,600
or it is because

813
00:28:30,149 --> 00:28:28,480

it will draw in so many other countries

814

00:28:32,389 --> 00:28:30,159

smaller countries that have never had

815

00:28:34,070 --> 00:28:32,399

any chance of talking about the subject

816

00:28:36,470 --> 00:28:34,080

when coming up against the us who are

817

00:28:39,350 --> 00:28:36,480

kind of holding all the big or a lot of

818

00:28:40,149 --> 00:28:39,360

the answers let's say so if we get a a

819

00:28:42,310 --> 00:28:40,159

you know

820

00:28:43,669 --> 00:28:42,320

a conglomerate of many many smaller

821

00:28:44,710 --> 00:28:43,679

countries coming together through the

822

00:28:46,389 --> 00:28:44,720

u.n

823

00:28:48,149 --> 00:28:46,399

then we can get transparency coming out

824

00:28:49,590 --> 00:28:48,159

from that angle and the pentagon and all

825

00:28:51,029 --> 00:28:49,600

them who are still

826

00:28:54,710 --> 00:28:51,039

playing games

827

00:28:57,190 --> 00:28:54,720

become super irrelevant all of a sudden

828

00:28:58,549 --> 00:28:57,200

so yeah it really does right once you go

829

00:28:59,990 --> 00:28:58,559

global

830

00:29:02,149 --> 00:29:00,000

yeah i think it becomes it becomes

831

00:29:03,830 --> 00:29:02,159

embarrassing for the for the states

832

00:29:05,669 --> 00:29:03,840

though doesn't it yeah the american

833

00:29:08,070 --> 00:29:05,679

government then because it's like now

834

00:29:09,990 --> 00:29:08,080

everybody's looking at them saying well

835

00:29:11,830 --> 00:29:10,000

huh what is it what is it

836

00:29:13,110 --> 00:29:11,840

give us some information please

837

00:29:14,789 --> 00:29:13,120

everybody

838

00:29:16,549 --> 00:29:14,799

wants to know and you're the one

839

00:29:17,909 --> 00:29:16,559

just going no there's nothing to see

840

00:29:19,590 --> 00:29:17,919

nothing to see

841

00:29:21,110 --> 00:29:19,600

yeah there are people within the dod and

842

00:29:22,070 --> 00:29:21,120

the pentagon i believe who are on the

843

00:29:23,430 --> 00:29:22,080

side of

844

00:29:25,269 --> 00:29:23,440

putting out the information but they're

845

00:29:26,710 --> 00:29:25,279

just getting stonewalled at the top at

846

00:29:28,149 --> 00:29:26,720

the very high levels from some of the

847

00:29:29,029 --> 00:29:28,159

let's say

848

00:29:31,669 --> 00:29:29,039

um

849

00:29:33,669 --> 00:29:31,679

the old gray hairs of the government who

850

00:29:35,669 --> 00:29:33,679

are still holding you know pulling all

851

00:29:38,389 --> 00:29:35,679

the strings and stuff but there are

852

00:29:40,389 --> 00:29:38,399

lower downs who are younger guys

853

00:29:43,029 --> 00:29:40,399

who want this to come out um

854

00:29:44,789 --> 00:29:43,039

so you know

855

00:29:46,230 --> 00:29:44,799

we'll see if they follow suit if the un

856

00:29:47,909 --> 00:29:46,240

get going

857

00:29:49,029 --> 00:29:47,919

maybe they'll panic and release stuff

858

00:29:51,430 --> 00:29:49,039

because they think well if the u.n are

859

00:29:53,110 --> 00:29:51,440

going to be just the disclosure

860

00:29:54,630 --> 00:29:53,120

group then

861

00:29:56,230 --> 00:29:54,640

we'll do it and then we'll be number one

862

00:29:57,990 --> 00:29:56,240

still i don't know

863

00:29:58,870 --> 00:29:58,000

you got to still ask yourself

864

00:30:00,549 --> 00:29:58,880

why

865

00:30:02,070 --> 00:30:00,559

so adamant about

866

00:30:04,789 --> 00:30:02,080

holding all of this information back

867

00:30:06,789 --> 00:30:04,799

still to this day like what what is the

868

00:30:10,630 --> 00:30:06,799

reason what is their reasoning like what

869

00:30:12,470 --> 00:30:10,640

do they know that they push so hard

870

00:30:14,549 --> 00:30:12,480

to not release anything and to keep

871

00:30:16,149 --> 00:30:14,559

denying it no matter what so that i mean

872

00:30:18,630 --> 00:30:16,159

it's got to be something pretty

873

00:30:20,549 --> 00:30:18,640

significant for them to you know

874

00:30:24,070 --> 00:30:20,559

go at it like this for god knows how

875

00:30:26,070 --> 00:30:24,080

many years and still now as close as we

876

00:30:28,470 --> 00:30:26,080

you know the closest we've gotten is is

877

00:30:30,789 --> 00:30:28,480

is is in this you know time frame time

878

00:30:32,470 --> 00:30:30,799

period and still they push

879

00:30:34,950 --> 00:30:32,480

to not release anything so it makes you

880

00:30:36,789 --> 00:30:34,960

wonder what is it that they know

881

00:30:38,149 --> 00:30:36,799

you know and if we're really prepared to

882

00:30:39,029 --> 00:30:38,159

know

883

00:30:41,269 --> 00:30:39,039

but the thing is it's going to be

884

00:30:43,110 --> 00:30:41,279

multiple things sorry

885

00:30:45,750 --> 00:30:43,120

that's one of the key things it's it's

886

00:30:49,269 --> 00:30:45,760

it's preparing people to

887

00:30:51,029 --> 00:30:49,279

accept a truth that they probably

888

00:30:52,470 --> 00:30:51,039

wouldn't easily accept you know there's

889

00:30:54,789 --> 00:30:52,480

a lot of people in the world that are

890

00:30:55,510 --> 00:30:54,799

highly religious that you know that have

891

00:31:14,070 --> 00:30:55,520

a

892

00:31:15,029 --> 00:31:14,080

nonsense

893

00:31:17,029 --> 00:31:15,039

um

894

00:31:18,630 --> 00:31:17,039

and i think i think any any you know any

895

00:31:20,870 --> 00:31:18,640

any government

896

00:31:22,470 --> 00:31:20,880

that has a lot of secrets that are going

897

00:31:24,549 --> 00:31:22,480

to change the paradigm and change the

898

00:31:26,950 --> 00:31:24,559

way people think about religion think

899

00:31:28,230 --> 00:31:26,960

about you know afterlife think about

900

00:31:30,710 --> 00:31:28,240

origins

901

00:31:32,389 --> 00:31:30,720

it's it's a lot to consider um and you

902

00:31:35,029 --> 00:31:32,399

can see why they wouldn't want to let

903

00:31:37,430 --> 00:31:35,039

out a lot of information all in one go

904

00:31:39,909 --> 00:31:37,440

um so little leaks that just

905

00:31:42,149 --> 00:31:39,919

pertain towards technology maybe is

906

00:31:45,509 --> 00:31:42,159

acceptable but when you're talking about

907

00:31:47,269 --> 00:31:45,519

culture and philosophies and religion

908

00:31:49,509 --> 00:31:47,279

it's a whole different ballgame and i'm

909

00:31:50,710 --> 00:31:49,519

not sure governments are particularly

910

00:31:53,190 --> 00:31:50,720

good at

911

00:31:54,630 --> 00:31:53,200

working for those sort of people

912

00:31:56,149 --> 00:31:54,640

we've got to remember though that

913

00:31:57,350 --> 00:31:56,159

religion for the last

914

00:31:59,509 --> 00:31:57,360

probably at least the last five years

915

00:32:02,070 --> 00:31:59,519

have spoken about their acceptance

916

00:32:04,310 --> 00:32:02,080

um if an extraterrestrial race was to

917

00:32:07,430 --> 00:32:04,320

become known to them that they are

918

00:32:10,149 --> 00:32:07,440

equally a part of the children of god as

919

00:32:11,909 --> 00:32:10,159

the human human races so the acceptance

920

00:32:13,909 --> 00:32:11,919

seems to be there so i don't think they

921

00:32:15,909 --> 00:32:13,919

can just play the religion card as the

922

00:32:18,230 --> 00:32:15,919

the main reason it may play it apart and

923

00:32:19,269 --> 00:32:18,240

be an aspect of it but i think also

924

00:32:21,190 --> 00:32:19,279

what's

925

00:32:22,710 --> 00:32:21,200

good to acknowledge is that if the us

926

00:32:25,190 --> 00:32:22,720

government have known things as far back

927

00:32:26,230 --> 00:32:25,200

as the 40s with with an extraterrestrial

928

00:32:27,909 --> 00:32:26,240

race

929

00:32:29,110 --> 00:32:27,919

it certainly looks or there's evidence

930

00:32:30,870 --> 00:32:29,120

to point to the fact that there's

931

00:32:32,950 --> 00:32:30,880

multiple different

932

00:32:35,269 --> 00:32:32,960

others out there there isn't just an e.t

933

00:32:37,430 --> 00:32:35,279

race maybe the greys but there could be

934

00:32:39,430 --> 00:32:37,440

others like interdimensionals and things

935

00:32:41,990 --> 00:32:39,440

we're not just talking about one

936

00:32:44,230 --> 00:32:42,000

one race or one answer you know what do

937

00:32:45,590 --> 00:32:44,240

you think chris

938

00:32:48,549 --> 00:32:45,600

i don't

939

00:32:50,389 --> 00:32:48,559

the vatican right they

940

00:32:51,509 --> 00:32:50,399

wasn't lou go in there for some reason i

941

00:32:53,350 --> 00:32:51,519

thought originally he was gonna go to

942

00:32:55,590 --> 00:32:53,360

the vatican you know and i was like

943

00:32:56,870 --> 00:32:55,600

maybe down in like the catacombs of the

944

00:32:58,470 --> 00:32:56,880

vatican you know have you been under

945

00:33:01,110 --> 00:32:58,480

there you go under uh

946

00:33:03,590 --> 00:33:01,120

uh the church i got this uh

947

00:33:06,230 --> 00:33:03,600

it was this tour um

948

00:33:08,630 --> 00:33:06,240

it's like it goes it's like some crazy

949

00:33:10,870 --> 00:33:08,640

200 meters below it's built on these

950

00:33:12,789 --> 00:33:10,880

cemeteries you talk about uh

951
00:33:13,669 --> 00:33:12,799
religion and everything you can see the

952
00:33:20,710 --> 00:33:13,679
uh

953
00:33:23,029 --> 00:33:20,720
cemetery you know so like catholic homes

954
00:33:24,389 --> 00:33:23,039
yeah it is catacombs you can you climb

955
00:33:26,070 --> 00:33:24,399
up right you go up the layers you're

956
00:33:27,190 --> 00:33:26,080
basically walking up in time you know it

957
00:33:29,830 --> 00:33:27,200
starts back in the day there's no

958
00:33:33,269 --> 00:33:29,840
crosses uh and then it gets like close

959
00:33:35,590 --> 00:33:33,279
to you know uh zero time and then uh

960
00:33:37,350 --> 00:33:35,600
some crosses were like getting hashed in

961
00:33:38,710 --> 00:33:37,360
you know bat you know

962
00:33:40,950 --> 00:33:38,720
from a later time

963
00:33:42,549 --> 00:33:40,960

and then and then it goes to uh you know

964

00:33:43,669 --> 00:33:42,559

obviously christianity and then and then

965

00:33:45,590 --> 00:33:43,679

from there so

966

00:33:47,350 --> 00:33:45,600

i i was hoping just down there they have

967

00:33:48,789 --> 00:33:47,360

like some crazy alien artifacts or

968

00:33:50,630 --> 00:33:48,799

something you know

969

00:33:52,230 --> 00:33:50,640

i actually heard they uh yeah i don't

970

00:33:56,630 --> 00:33:52,240

know what on the documentary i believe

971

00:33:57,750 --> 00:33:56,640

the vatican supposedly has this um body

972

00:34:01,590 --> 00:33:57,760

of

973

00:34:03,029 --> 00:34:01,600

that um they have you know in a closed

974

00:34:05,350 --> 00:34:03,039

off location or whatever no one's able

975

00:34:07,430 --> 00:34:05,360

to no one's able to go there to actually

976
00:34:10,389 --> 00:34:07,440
you know investigate it or you know look

977
00:34:11,829 --> 00:34:10,399
at it but that's supposedly they have

978
00:34:14,069 --> 00:34:11,839
some kind of

979
00:34:16,310 --> 00:34:14,079
uh body of of an

980
00:34:17,829 --> 00:34:16,320
et's apparently i don't know if it was

981
00:34:20,790 --> 00:34:17,839
retrieved from a crap you know from a

982
00:34:22,149 --> 00:34:20,800
crash or something like that but that's

983
00:34:23,510 --> 00:34:22,159
that's the rumor

984
00:34:25,589 --> 00:34:23,520
i'm not sure how true it is but

985
00:34:26,710 --> 00:34:25,599
apparently no one has access to that

986
00:34:27,589 --> 00:34:26,720
area

987
00:34:29,030 --> 00:34:27,599
cool

988
00:34:30,470 --> 00:34:29,040

john hunsley thank you for the five

989

00:34:32,389 --> 00:34:30,480
pounds and this is an absolutely

990

00:34:33,829 --> 00:34:32,399
fantastic question

991

00:34:36,389 --> 00:34:33,839
what do you guys think is currently the

992

00:34:37,829 --> 00:34:36,399
most compelling ufo uap video evidence

993

00:34:39,829 --> 00:34:37,839
ever taken

994

00:34:41,990 --> 00:34:39,839
wow

995

00:34:43,270 --> 00:34:42,000
i'm gonna i'm gonna throw in the a-10

996

00:34:44,550 --> 00:34:43,280
straight away

997

00:34:47,349 --> 00:34:44,560
because

998

00:34:50,790 --> 00:34:47,359
i think that is incredible

999

00:34:53,589 --> 00:34:50,800
well new it's still not been fully

1000

00:34:55,349 --> 00:34:53,599
concluded um i think the work that chris

1001

00:34:56,389 --> 00:34:55,359

dave and others

1002

00:34:57,430 --> 00:34:56,399

andy

1003

00:34:58,630 --> 00:34:57,440

you know we've been looking at that for

1004

00:34:59,750 --> 00:34:58,640

a little while now and i think it's

1005

00:35:01,430 --> 00:34:59,760

incredible

1006

00:35:02,630 --> 00:35:01,440

so i'm gonna go with that i'm gonna go

1007

00:35:04,950 --> 00:35:02,640

with a10

1008

00:35:07,109 --> 00:35:04,960

who's next

1009

00:35:10,550 --> 00:35:07,119

most compelling i don't know video just

1010

00:35:13,670 --> 00:35:12,550

i for me it's got to be gimbal right i

1011

00:35:16,069 --> 00:35:13,680

mean it was the only one i could

1012

00:35:19,030 --> 00:35:16,079

definitively prove and finally get mick

1013

00:35:20,150 --> 00:35:19,040

west to stop making videos about it

1014

00:35:22,310 --> 00:35:20,160

really

1015

00:35:25,030 --> 00:35:22,320

it took 10 of those but in a row but you

1016

00:35:27,270 --> 00:35:25,040

could like dial you know we drilled down

1017

00:35:31,510 --> 00:35:27,280

for i don't know how many videos

1018

00:35:35,349 --> 00:35:33,589

back and forth then i think so i think

1019

00:35:36,710 --> 00:35:35,359

so i mean i know we shouldn't look at it

1020

00:35:38,870 --> 00:35:36,720

like a competition or a fight or

1021

00:35:41,270 --> 00:35:38,880

anything but yeah no it was look at it

1022

00:35:43,030 --> 00:35:41,280

like that yeah

1023

00:35:45,750 --> 00:35:43,040

it's more fun to do that they always

1024

00:35:47,270 --> 00:35:45,760

come back you know i'm like you know i i

1025

00:35:48,870 --> 00:35:47,280

did think at the end like you know come

1026
00:35:50,310 --> 00:35:48,880
up with an answer for this naysayer you

1027
00:35:51,430 --> 00:35:50,320
know i really thought that in my head

1028
00:35:54,550 --> 00:35:51,440
you know and then they came back i'm

1029
00:35:56,230 --> 00:35:54,560
like oh you know they're so smart

1030
00:35:58,870 --> 00:35:56,240
well chris what about the um what about

1031
00:36:00,950 --> 00:35:58,880
the abuelita footage oh yeah also

1032
00:36:03,109 --> 00:36:00,960
exceptional really the scu did such a

1033
00:36:05,190 --> 00:36:03,119
great job with that that is really good

1034
00:36:06,630 --> 00:36:05,200
because they had so many different

1035
00:36:08,630 --> 00:36:06,640
data points they had the multiple

1036
00:36:10,470 --> 00:36:08,640
sources they tracked

1037
00:36:13,430 --> 00:36:10,480
uh from the you know they were able to

1038
00:36:15,270 --> 00:36:13,440

track the aircraft that was filming the

1039

00:36:17,910 --> 00:36:15,280

the uap they were able to track it with

1040

00:36:19,829 --> 00:36:17,920

another radar so they confirmed that uh

1041

00:36:21,349 --> 00:36:19,839

and then they confirmed with radar that

1042

00:36:22,710 --> 00:36:21,359

they were getting hits off the coast you

1043

00:36:24,550 --> 00:36:22,720

know before these things came up we

1044

00:36:26,550 --> 00:36:24,560

don't know if that or this thing

1045

00:36:28,550 --> 00:36:26,560

yeah came up

1046

00:36:31,190 --> 00:36:28,560

they're so good i i still i really

1047

00:36:34,230 --> 00:36:31,200

believe if we just get you have one with

1048

00:36:35,990 --> 00:36:34,240

like 50 cameras on it like

1049

00:36:37,670 --> 00:36:36,000

that's gonna be that that yeah that's

1050

00:36:39,430 --> 00:36:37,680

gonna be the blockbuster the problem is

1051
00:36:41,109 --> 00:36:39,440
just single source right

1052
00:36:42,390 --> 00:36:41,119
i mean you get one with like there's a

1053
00:36:44,310 --> 00:36:42,400
hundred people

1054
00:36:46,150 --> 00:36:44,320
they all film from different angles

1055
00:36:47,910 --> 00:36:46,160
different houses and then they all go

1056
00:36:50,150 --> 00:36:47,920
and upload like nigel did and it would

1057
00:36:52,310 --> 00:36:50,160
just be like clay's clothes i mean i

1058
00:36:55,109 --> 00:36:52,320
don't know i i believe so though i mean

1059
00:36:56,390 --> 00:36:55,119
and so fast right and i think

1060
00:36:58,150 --> 00:36:56,400
a lot of reasons you only have like five

1061
00:37:00,630 --> 00:36:58,160
seconds on these videos andy is it's

1062
00:37:02,950 --> 00:37:00,640
just so stupidly hard to send data right

1063
00:37:05,030 --> 00:37:02,960

like a lot of if it's a big file like

1064

00:37:05,990 --> 00:37:05,040

nigel's video is like 30 minutes or

1065

00:37:08,870 --> 00:37:06,000

something

1066

00:37:10,790 --> 00:37:08,880

um but youtube man you can upload

1067

00:37:12,310 --> 00:37:10,800

quite large files right it didn't it

1068

00:37:13,430 --> 00:37:12,320

didn't give you any issues right nigel

1069

00:37:17,910 --> 00:37:13,440

or

1070

00:37:19,910 --> 00:37:17,920

some reason the the render

1071

00:37:22,310 --> 00:37:19,920

it ended up being twice as long it's

1072

00:37:23,829 --> 00:37:22,320

kind of like the back end of the thing

1073

00:37:25,030 --> 00:37:23,839

just went black black black black white

1074

00:37:27,190 --> 00:37:25,040

black like so you know it's like the

1075

00:37:29,750 --> 00:37:27,200

fade out just went forever and it took

1076

00:37:31,510 --> 00:37:29,760

like three or four hours to upload

1077

00:37:33,349 --> 00:37:31,520

but i went in and

1078

00:37:35,430 --> 00:37:33,359

redid it because it obviously wasn't the

1079

00:37:36,470 --> 00:37:35,440

film because on i used imovie just put

1080

00:37:37,750 --> 00:37:36,480

it together

1081

00:37:39,589 --> 00:37:37,760

um

1082

00:37:40,790 --> 00:37:39,599

and it was fine so i just uploaded it

1083

00:37:42,550 --> 00:37:40,800

again and

1084

00:37:44,870 --> 00:37:42,560

it wasn't a problem that time so

1085

00:37:47,270 --> 00:37:44,880

literally i think it uploaded in about

1086

00:37:49,349 --> 00:37:47,280

30 minutes or so so it wasn't too bad at

1087

00:37:51,430 --> 00:37:49,359

all and again i trimmed off a little bit

1088

00:37:53,510 --> 00:37:51,440

of the end because it had some kind of

1089

00:37:54,470 --> 00:37:53,520

more personal detail on there so i just

1090

00:37:58,069 --> 00:37:54,480

trimmed that

1091

00:37:59,430 --> 00:37:58,079

for the public version um and that that

1092

00:38:01,510 --> 00:37:59,440

was rendered in

1093

00:38:02,310 --> 00:38:01,520

youtube in studio so that again took

1094

00:38:04,230 --> 00:38:02,320

about

1095

00:38:05,910 --> 00:38:04,240

15 minutes or something like that so

1096

00:38:07,670 --> 00:38:05,920

it's not a difficult thing as you say

1097

00:38:09,430 --> 00:38:07,680

it's not a difficult thing to do you do

1098

00:38:12,150 --> 00:38:09,440

i guess you have to have a little bit of

1099

00:38:13,430 --> 00:38:12,160

technology on your side if you want to

1100

00:38:15,910 --> 00:38:13,440

actually put it together in the

1101
00:38:17,030 --> 00:38:15,920
presentation form but just uploading a

1102
00:38:19,990 --> 00:38:17,040
video

1103
00:38:21,270 --> 00:38:20,000
is not difficult at all okay i'm just

1104
00:38:23,030 --> 00:38:21,280
going to come in and say john didn't

1105
00:38:25,670 --> 00:38:23,040
like my answer the a-10 he says it's an

1106
00:38:27,430 --> 00:38:25,680
owl now wait i gotta i want to ask i'm

1107
00:38:29,910 --> 00:38:27,440
glad he brought that up

1108
00:38:31,589 --> 00:38:29,920
guys i i have to ask this question okay

1109
00:38:34,150 --> 00:38:31,599
like for example chris you as a

1110
00:38:36,470 --> 00:38:34,160
professional you know pilot and all this

1111
00:38:38,550 --> 00:38:36,480
like i've asked dave the same question

1112
00:38:40,550 --> 00:38:38,560
you know um privately

1113
00:38:42,950 --> 00:38:40,560

is it not frustrating

1114

00:38:44,950 --> 00:38:42,960

when you have years of experience on

1115

00:38:46,550 --> 00:38:44,960

something you know what you're doing you

1116

00:38:47,589 --> 00:38:46,560

know what you're talking about you'll

1117

00:38:49,030 --> 00:38:47,599

give your

1118

00:38:51,430 --> 00:38:49,040

two cents

1119

00:38:53,270 --> 00:38:51,440

in regards to for example you know the

1120

00:38:55,190 --> 00:38:53,280

a10 footage and say okay you know what

1121

00:38:56,069 --> 00:38:55,200

that's not a bird you go and do your

1122

00:38:58,390 --> 00:38:56,079

work

1123

00:39:00,310 --> 00:38:58,400

you take out the exact same clear camera

1124

00:39:02,310 --> 00:39:00,320

that was used and come here and do

1125

00:39:05,190 --> 00:39:02,320

comparison footage and someone still

1126

00:39:08,710 --> 00:39:05,200

comes and tells you it's an owl

1127

00:39:11,109 --> 00:39:08,720

i mean how frustrating is that when

1128

00:39:13,510 --> 00:39:11,119

this is this is what you do you know and

1129

00:39:15,910 --> 00:39:13,520

then some random individual comes and

1130

00:39:17,270 --> 00:39:15,920

says no you're wrong like mick west or

1131

00:39:20,150 --> 00:39:17,280

whatever just said you're wrong you're

1132

00:39:23,910 --> 00:39:20,160

wrong i just gave you all of this

1133

00:39:25,990 --> 00:39:23,920

proof evidence video comparison

1134

00:39:27,750 --> 00:39:26,000

and you said you will want to insist

1135

00:39:29,349 --> 00:39:27,760

that it's a burden this chris is

1136

00:39:31,109 --> 00:39:29,359

prepared because we're jumping right in

1137

00:39:32,630 --> 00:39:31,119

can you hear it i can't help it yeah i

1138

00:39:37,750 --> 00:39:32,640

don't know

1139

00:39:41,990 --> 00:39:40,069

of course yeah it's

1140

00:39:44,550 --> 00:39:42,000

i mean the reason i spoke up and i yeah

1141

00:39:46,069 --> 00:39:44,560

was obviously you know i just did some i

1142

00:39:48,069 --> 00:39:46,079

actually took out a lot of things out of

1143

00:39:48,790 --> 00:39:48,079

that first video

1144

00:39:51,270 --> 00:39:48,800

so

1145

00:39:53,109 --> 00:39:51,280

you know i was fired up uh it happened

1146

00:39:54,550 --> 00:39:53,119

sometimes because it's so blatantly

1147

00:39:56,470 --> 00:39:54,560

obvious i mean you guys don't see it all

1148

00:39:57,589 --> 00:39:56,480

the time but it'd be like if i showed

1149

00:39:59,670 --> 00:39:57,599

you a

1150

00:40:01,750 --> 00:39:59,680

picture of a you know plastic bag like

1151
00:40:03,990 --> 00:40:01,760
flying you know or you made a video with

1152
00:40:05,510 --> 00:40:04,000
your iphone uh you know right outside

1153
00:40:07,510 --> 00:40:05,520
your front door of a plastic bag you

1154
00:40:09,270 --> 00:40:07,520
know floating along and you showed it to

1155
00:40:11,109 --> 00:40:09,280
me and you're like that's a duck you

1156
00:40:13,430 --> 00:40:11,119
know that's basically what i what you're

1157
00:40:15,430 --> 00:40:13,440
telling me you know what i'm just like

1158
00:40:17,829 --> 00:40:15,440
yeah so it's just insane but i mean the

1159
00:40:20,950 --> 00:40:17,839
biggest the biggest evidence for me is

1160
00:40:22,069 --> 00:40:20,960
is just kinematic how i would argue this

1161
00:40:25,030 --> 00:40:22,079
um

1162
00:40:28,069 --> 00:40:25,040
for this a-10 issue is the a10 is flying

1163
00:40:30,470 --> 00:40:28,079

at least 250 knots sideways right

1164

00:40:32,309 --> 00:40:30,480

um so how is it possible that we can

1165

00:40:34,150 --> 00:40:32,319

track this thing for any more than just

1166

00:40:36,630 --> 00:40:34,160

a few fleeting seconds

1167

00:40:38,230 --> 00:40:36,640

uh track the a-10 and that thing in the

1168

00:40:40,390 --> 00:40:38,240

foreground whatever whatever it is you

1169

00:40:41,270 --> 00:40:40,400

know how is that even it's not possible

1170

00:40:44,950 --> 00:40:41,280

you know

1171

00:40:47,750 --> 00:40:44,960

you're zoomed in we have like a little

1172

00:40:49,829 --> 00:40:47,760

soda straw and you're just zoomed in

1173

00:40:51,589 --> 00:40:49,839

you know to ultra narrow field of view

1174

00:40:54,230 --> 00:40:51,599

or whatever he was in there for of view

1175

00:40:55,510 --> 00:40:54,240

and now um now there just happens to be

1176

00:40:57,670 --> 00:40:55,520

this other

1177

00:41:00,069 --> 00:40:57,680

owl in in the way you know the in the

1178

00:41:02,150 --> 00:41:00,079

plane is flying i mean it's it's moving

1179

00:41:03,670 --> 00:41:02,160

hundreds of knots across so it's in its

1180

00:41:06,069 --> 00:41:03,680

line of sight right if it was just going

1181

00:41:08,470 --> 00:41:06,079

away or towards us and i could you could

1182

00:41:10,630 --> 00:41:08,480

maybe argue that this thing is in the in

1183

00:41:12,950 --> 00:41:10,640

the uh foreground and it's not really

1184

00:41:14,950 --> 00:41:12,960

moving or something um but the plane is

1185

00:41:17,030 --> 00:41:14,960

going sideways it's the a10 is obviously

1186

00:41:18,309 --> 00:41:17,040

going sideways so

1187

00:41:20,390 --> 00:41:18,319

yeah

1188

00:41:22,950 --> 00:41:20,400

on that video the a10 video

1189

00:41:26,550 --> 00:41:22,960

as what was that

1190

00:41:29,750 --> 00:41:26,560

yeah yeah it's infrared it wasn't ready

1191

00:41:32,309 --> 00:41:29,760

the jet was hot because it was black

1192

00:41:35,990 --> 00:41:32,319

yeah is that right yeah

1193

00:41:39,270 --> 00:41:37,670

i got it right here you can bring it up

1194

00:41:40,950 --> 00:41:39,280

yeah i believe it was

1195

00:41:42,950 --> 00:41:40,960

yeah so you've got the you've got the

1196

00:41:45,910 --> 00:41:42,960

exhaust coming out of the jet

1197

00:41:48,390 --> 00:41:45,920

yeah oh is the you is that the dot

1198

00:41:51,589 --> 00:41:48,400

yeah right here oh okay so they're both

1199

00:41:54,069 --> 00:41:51,599

let me make it big yep so it's black hot

1200

00:41:55,910 --> 00:41:54,079

right okay it's john

1201
00:41:57,190 --> 00:41:55,920
friction right the jets the aircraft are

1202
00:41:58,230 --> 00:41:57,200
going to be hot for because of the

1203
00:42:00,150 --> 00:41:58,240
friction

1204
00:42:01,510 --> 00:42:00,160
so apparently the a-10 and the bird are

1205
00:42:04,230 --> 00:42:01,520
in the same field of view because the

1206
00:42:06,150 --> 00:42:04,240
bird is closer than the a10 but that

1207
00:42:08,390 --> 00:42:06,160
yeah what do you say to that chris

1208
00:42:10,150 --> 00:42:08,400
well so he's going sideways right and

1209
00:42:12,550 --> 00:42:10,160
and the best way would be to track it if

1210
00:42:14,550 --> 00:42:12,560
we had the uh degree so the way i'll

1211
00:42:17,109 --> 00:42:14,560
analyze it if people still

1212
00:42:18,950 --> 00:42:17,119
still think it's burnt uh

1213
00:42:20,630 --> 00:42:18,960

i'll analyze the the tracking rate

1214

00:42:22,550 --> 00:42:20,640

that's required okay if this thing's

1215

00:42:24,710 --> 00:42:22,560

going 200 knots and he's i mean he's

1216

00:42:25,990 --> 00:42:24,720

obviously if you're down low you're not

1217

00:42:28,150 --> 00:42:26,000

going to be going slow because low and

1218

00:42:30,630 --> 00:42:28,160

slow is very dangerous place to be yeah

1219

00:42:32,150 --> 00:42:30,640

i think he's doing an attack run here uh

1220

00:42:33,829 --> 00:42:32,160

and so he's basically coming off of a

1221

00:42:35,030 --> 00:42:33,839

gun attack or a rocket attack or

1222

00:42:37,270 --> 00:42:35,040

something

1223

00:42:39,829 --> 00:42:37,280

um and then he's gonna be going probably

1224

00:42:41,589 --> 00:42:39,839

three maybe even up to 250 300 knots i

1225

00:42:43,910 --> 00:42:41,599

guess that's like screaming

1226

00:42:45,829 --> 00:42:43,920

uh screaming for an a10 but still from

1227

00:42:48,790 --> 00:42:45,839

the side right so let's watch it just

1228

00:42:49,990 --> 00:42:48,800

imagine it's flying along 200 knots here

1229

00:42:51,670 --> 00:42:50,000

okay

1230

00:42:52,550 --> 00:42:51,680

and he's still going tracking to the

1231

00:42:53,990 --> 00:42:52,560

right

1232

00:42:55,990 --> 00:42:54,000

where's the wings where's the flapping

1233

00:42:57,990 --> 00:42:56,000

if that's close to the screen we've seen

1234

00:43:02,230 --> 00:42:58,000

so many ir videos he goes out of the

1235

00:43:02,240 --> 00:43:08,150

let me check it

1236

00:43:11,589 --> 00:43:09,430

yeah it's broken up though this is on

1237

00:43:13,190 --> 00:43:11,599

dave's channel

1238

00:43:14,630 --> 00:43:13,200

i should say the other one but it stays

1239

00:43:16,630 --> 00:43:14,640

that was a bird look

1240

00:43:18,470 --> 00:43:16,640

if that's a bird it would it would not

1241

00:43:20,710 --> 00:43:18,480

fly like that we've seen so many iron

1242

00:43:22,470 --> 00:43:20,720

videos

1243

00:43:25,109 --> 00:43:22,480

where's the wings

1244

00:43:26,390 --> 00:43:25,119

where's the flap in

1245

00:43:28,390 --> 00:43:26,400

because there's other parts of it right

1246

00:43:29,589 --> 00:43:28,400

where's the full a10 video do you have

1247

00:43:39,670 --> 00:43:29,599

it

1248

00:43:57,430 --> 00:43:40,950

we have to talk about analysis people

1249

00:44:00,390 --> 00:43:58,630

let me know if you want to stop it or

1250

00:44:03,589 --> 00:44:00,400

anything at any time yeah just leave it

1251
00:44:05,270 --> 00:44:03,599
going because it catches back up

1252
00:44:08,870 --> 00:44:05,280
a bird would fly the other way with a

1253
00:44:10,470 --> 00:44:08,880
roaring engine of a warthog

1254
00:44:11,990 --> 00:44:10,480
well i guess the argument is it's closer

1255
00:44:14,309 --> 00:44:12,000
right

1256
00:44:15,829 --> 00:44:14,319
well here's one where's the wings

1257
00:44:17,510 --> 00:44:15,839
how is this going to happen right how is

1258
00:44:19,430 --> 00:44:17,520
it going to be in the same screen right

1259
00:44:21,829 --> 00:44:19,440
now as the a10 right just think it's

1260
00:44:23,190 --> 00:44:21,839
closer yeah the 18's climbing that's

1261
00:44:24,870 --> 00:44:23,200
impossible

1262
00:44:26,550 --> 00:44:24,880
i mean just that the last 10 seconds

1263
00:44:28,069 --> 00:44:26,560

right we just calculated how far an a10

1264

00:44:30,150 --> 00:44:28,079

would have to go and then you'd have to

1265

00:44:32,150 --> 00:44:30,160

track to control it and then you'd have

1266

00:44:34,710 --> 00:44:32,160

to show i mean the whatever's in the

1267

00:44:36,950 --> 00:44:34,720

frame would have to be had flown within

1268

00:44:39,349 --> 00:44:36,960

that little tiny you know

1269

00:44:40,470 --> 00:44:39,359

one degree example to fly with the i

1270

00:44:42,790 --> 00:44:40,480

mean it's just

1271

00:44:44,230 --> 00:44:42,800

it's not possible you know um

1272

00:44:45,910 --> 00:44:44,240

so i don't know show the stabilized

1273

00:44:50,790 --> 00:44:45,920

video you can see the bird flapping you

1274

00:44:54,630 --> 00:44:51,990

you guys just want to make me do more

1275

00:44:56,309 --> 00:44:54,640

work right and just find this thing down

1276

00:44:57,990 --> 00:44:56,319

i know i know this is exactly the

1277

00:44:59,990 --> 00:44:58,000

follower of mine who has been arguing

1278

00:45:01,670 --> 00:45:00,000

this with me now for forever it's

1279

00:45:03,670 --> 00:45:01,680

kinematics

1280

00:45:05,190 --> 00:45:03,680

i mean it so you can't really tell

1281

00:45:06,550 --> 00:45:05,200

because it's moving and so yeah you

1282

00:45:08,150 --> 00:45:06,560

could say i guess it's a bird except

1283

00:45:09,829 --> 00:45:08,160

there's no way it can stay in the frame

1284

00:45:10,710 --> 00:45:09,839

because the the plane is going too fast

1285

00:45:12,309 --> 00:45:10,720

so

1286

00:45:16,230 --> 00:45:12,319

uh we'll check it out i'll

1287

00:45:22,150 --> 00:45:19,510

well wait so i i can't say this there's

1288

00:45:23,829 --> 00:45:22,160

uh there is video that i would like

1289

00:45:26,309 --> 00:45:23,839

i would love for you to see

1290

00:45:29,109 --> 00:45:26,319

that um i just got confirmation

1291

00:45:31,109 --> 00:45:29,119

uh was believed last night that may be

1292

00:45:32,790 --> 00:45:31,119

released

1293

00:45:34,790 --> 00:45:32,800

a little sooner than i thought

1294

00:45:36,309 --> 00:45:34,800

oh do we get an exclusive here aren't

1295

00:45:37,910 --> 00:45:36,319

they

1296

00:45:40,470 --> 00:45:37,920

it's actually from the same individual

1297

00:45:41,910 --> 00:45:40,480

who released uh who sent me the a10

1298

00:45:43,430 --> 00:45:41,920

footage and um

1299

00:45:44,550 --> 00:45:43,440

i don't know if you had seen the bruja

1300

00:45:47,430 --> 00:45:44,560

footage

1301
00:45:49,349 --> 00:45:47,440
from the modern indian reservation

1302
00:45:52,230 --> 00:45:49,359
so there was a third one

1303
00:45:55,030 --> 00:45:52,240
that has been kept um on the wrap since

1304
00:45:57,190 --> 00:45:55,040
i got you know holder

1305
00:45:58,710 --> 00:45:57,200
we haven't talked to the bruja one

1306
00:46:01,829 --> 00:45:58,720
have you guys shown that have you talked

1307
00:46:04,710 --> 00:46:01,839
about that one actually um dave dave did

1308
00:46:05,589 --> 00:46:04,720
an analysis for me on that one as well

1309
00:46:07,190 --> 00:46:05,599
and it's

1310
00:46:10,069 --> 00:46:07,200
it's an interest it's an interesting one

1311
00:46:13,030 --> 00:46:11,990
it's the object

1312
00:46:15,190 --> 00:46:13,040
is is

1313
00:46:17,270 --> 00:46:15,200

somewhat i believe and he came to the

1314

00:46:18,390 --> 00:46:17,280

same conclusions related to the other

1315

00:46:20,230 --> 00:46:18,400

footage

1316

00:46:21,109 --> 00:46:20,240

really talking about yeah because the

1317

00:46:22,950 --> 00:46:21,119

the

1318

00:46:23,829 --> 00:46:22,960

it's it's upright it's not emitting any

1319

00:46:26,309 --> 00:46:23,839

heat

1320

00:46:28,790 --> 00:46:26,319

and um it's traveling at a

1321

00:46:30,710 --> 00:46:28,800

while in the bruja footage if you notice

1322

00:46:32,069 --> 00:46:30,720

once it passes the cattle

1323

00:46:33,750 --> 00:46:32,079

once it passes overhead of the cattle

1324

00:46:35,349 --> 00:46:33,760

actually slows down

1325

00:46:37,349 --> 00:46:35,359

do you have that video is it where is it

1326

00:46:40,069 --> 00:46:37,359

on your link i'm just looking i don't

1327

00:46:43,510 --> 00:46:40,079

think i've got that one yeah so yeah so

1328

00:46:45,349 --> 00:46:43,520

the other footage though the third one

1329

00:46:48,309 --> 00:46:45,359

is about um

1330

00:46:51,030 --> 00:46:48,319

it's almost it's almost an hour

1331

00:46:52,069 --> 00:46:51,040

excellent captured from uh captured from

1332

00:46:53,190 --> 00:46:52,079

the air

1333

00:46:55,750 --> 00:46:53,200

by uh

1334

00:46:58,630 --> 00:46:55,760

homeland uh homeland security

1335

00:47:01,349 --> 00:46:58,640

border patrol through uh flear

1336

00:47:02,550 --> 00:47:01,359

and there's a at least a good 40 full

1337

00:47:04,470 --> 00:47:02,560

minutes

1338

00:47:07,109 --> 00:47:04,480

of this object

1339

00:47:08,390 --> 00:47:07,119

going well over 100 miles per hour

1340

00:47:13,430 --> 00:47:08,400

excellent yeah i think i've heard about

1341

00:47:16,309 --> 00:47:15,030

it's really good

1342

00:47:17,829 --> 00:47:16,319

when is it going to come out i keep

1343

00:47:19,990 --> 00:47:17,839

hearing about it uh coming up well i

1344

00:47:22,309 --> 00:47:20,000

just like i said i just i just got i

1345

00:47:23,910 --> 00:47:22,319

just got word that it

1346

00:47:26,470 --> 00:47:23,920

now may be coming out a lot sooner there

1347

00:47:29,109 --> 00:47:26,480

was some you actually brought up um one

1348

00:47:31,270 --> 00:47:29,119

of the main reasons at the beginning was

1349

00:47:33,589 --> 00:47:31,280

um when you post a video on youtube that

1350

00:47:35,430 --> 00:47:33,599

it allows anyone else to you know post

1351

00:47:37,030 --> 00:47:35,440

it or whatever for copyright loses or

1352

00:47:39,430 --> 00:47:37,040

whatever so

1353

00:47:41,589 --> 00:47:39,440

that was one of the issues they had and

1354

00:47:42,870 --> 00:47:41,599

i decided to privately post it

1355

00:47:44,870 --> 00:47:42,880

to give

1356

00:47:46,470 --> 00:47:44,880

you know the organization working on it

1357

00:47:49,349 --> 00:47:46,480

the go ahead to

1358

00:47:51,109 --> 00:47:49,359

release so now it's just waiting to see

1359

00:47:52,549 --> 00:47:51,119

what exactly they're gonna go through

1360

00:47:54,309 --> 00:47:52,559

with it but

1361

00:47:56,069 --> 00:47:54,319

excellent and what do you guys think of

1362

00:47:58,069 --> 00:47:56,079

sky hub

1363

00:48:00,390 --> 00:47:58,079

um well it's a shame that the american

1364

00:48:01,589 --> 00:48:00,400

side of the whole organization is shut

1365

00:48:02,790 --> 00:48:01,599

down

1366

00:48:04,870 --> 00:48:02,800

yeah i don't know is that what happened

1367

00:48:09,349 --> 00:48:04,880

i don't know anything i'm sorry yeah the

1368

00:48:12,309 --> 00:48:11,109

was the main issue unfortunately there

1369

00:48:13,670 --> 00:48:12,319

was i think there was a bit of back and

1370

00:48:15,750 --> 00:48:13,680

forth between some of the people within

1371

00:48:17,030 --> 00:48:15,760

the organization but i can't really i

1372

00:48:18,870 --> 00:48:17,040

can't really speak to that without

1373

00:48:21,109 --> 00:48:18,880

knowing the full ins and outs but i

1374

00:48:23,030 --> 00:48:21,119

heard the scene i know the european arm

1375

00:48:24,710 --> 00:48:23,040

is still going strong so i think it's a

1376
00:48:26,549 --> 00:48:24,720
great thing you know

1377
00:48:27,510 --> 00:48:26,559
yeah it's excellent yeah is this

1378
00:48:29,589 --> 00:48:27,520
something

1379
00:48:30,950 --> 00:48:29,599
i think

1380
00:48:32,950 --> 00:48:30,960
kevin knew

1381
00:48:34,069 --> 00:48:32,960
was talking about skyhub and isn't

1382
00:48:38,630 --> 00:48:34,079
something it's components you can

1383
00:48:41,829 --> 00:48:40,069
put it together yourself and have it in

1384
00:48:43,510 --> 00:48:41,839
your back garden yeah yeah and then i

1385
00:48:45,349 --> 00:48:43,520
think the software that you use or i

1386
00:48:47,510 --> 00:48:45,359
think that comes from sky herb is like

1387
00:48:49,349 --> 00:48:47,520
it's like an ai that automatically

1388
00:48:51,270 --> 00:48:49,359

tracks things through the sky it it

1389

00:48:53,030 --> 00:48:51,280

knows birds planes and all the regular

1390

00:48:54,710 --> 00:48:53,040

things you'd see in the sky and it

1391

00:48:57,750 --> 00:48:54,720

eliminates them and then picks up any

1392

00:48:59,109 --> 00:48:57,760

anomalies it's it's a fantastic idea in

1393

00:49:00,630 --> 00:48:59,119

a bit of kit i think there's different

1394

00:49:03,109 --> 00:49:00,640

levels as well depending how much you

1395

00:49:04,309 --> 00:49:03,119

want to spend and invest

1396

00:49:05,510 --> 00:49:04,319

yeah i think they're having issues

1397

00:49:06,630 --> 00:49:05,520

though

1398

00:49:07,910 --> 00:49:06,640

so

1399

00:49:08,950 --> 00:49:07,920

now let's just remind me actually

1400

00:49:10,470 --> 00:49:08,960

something that i did think about the

1401

00:49:11,829 --> 00:49:10,480

other day

1402

00:49:14,069 --> 00:49:11,839

you'll get some

1403

00:49:15,990 --> 00:49:14,079

things come into my head now no i'd say

1404

00:49:19,750 --> 00:49:16,000

this because i just wanted to get it out

1405

00:49:21,750 --> 00:49:19,760

and get an answer is it true that uh

1406

00:49:24,870 --> 00:49:21,760

kind of civilian radar

1407

00:49:26,710 --> 00:49:24,880

is is filtered to not pick up anything

1408

00:49:28,950 --> 00:49:26,720

other than civilian and military stuff

1409

00:49:31,430 --> 00:49:28,960

so anything that's just kind of

1410

00:49:33,589 --> 00:49:31,440

random is it is it filtered i i'm sure i

1411

00:49:35,270 --> 00:49:33,599

heard something like that yeah of course

1412

00:49:37,349 --> 00:49:35,280

yeah yeah

1413

00:49:39,190 --> 00:49:37,359

is it actually filtered or is it is it

1414

00:49:41,510 --> 00:49:39,200

filtered as in it doesn't it just

1415

00:49:43,349 --> 00:49:41,520

ignores it or does it record it but just

1416

00:49:45,030 --> 00:49:43,359

puts it to one side

1417

00:49:46,710 --> 00:49:45,040

yeah it depends there's many different

1418

00:49:48,069 --> 00:49:46,720

types of radar you know like weather

1419

00:49:51,589 --> 00:49:48,079

radar

1420

00:49:53,589 --> 00:49:51,599

uh it it goes out and bounces off of you

1421

00:49:55,670 --> 00:49:53,599

know ice and water you know it's looking

1422

00:49:56,710 --> 00:49:55,680

for water and stuff like that you know

1423

00:49:58,230 --> 00:49:56,720

so

1424

00:49:59,670 --> 00:49:58,240

but most if you're looking for planes

1425

00:50:00,870 --> 00:49:59,680

you don't want to pick up all that stuff

1426
00:50:01,829 --> 00:50:00,880
right you want to you want to look

1427
00:50:03,349 --> 00:50:01,839
through the weather that's like the

1428
00:50:05,750 --> 00:50:03,359
benefit of radar is it can go through

1429
00:50:07,349 --> 00:50:05,760
weather in this clear stuff the big

1430
00:50:08,549 --> 00:50:07,359
negative of fear right which i haven't

1431
00:50:10,069 --> 00:50:08,559
really mentioned on any of the videos is

1432
00:50:12,390 --> 00:50:10,079
you can't really see through clouds

1433
00:50:13,990 --> 00:50:12,400
right you know so if i know somebody's

1434
00:50:15,750 --> 00:50:14,000
hunting me and they have an ir like i'm

1435
00:50:17,109 --> 00:50:15,760
gonna go under a tree or in the clouds

1436
00:50:20,230 --> 00:50:17,119
or something you know i don't know or

1437
00:50:21,829 --> 00:50:20,240
like dave said in a was it in a uh a

1438
00:50:24,790 --> 00:50:21,839

greenhouse i think you said that one

1439

00:50:26,950 --> 00:50:24,800

time like oh yeah

1440

00:50:31,349 --> 00:50:26,960

yeah

1441

00:50:33,109 --> 00:50:31,359

through glass it it actually uh reflects

1442

00:50:34,549 --> 00:50:33,119

if you've committed a robbery and you're

1443

00:50:36,870 --> 00:50:34,559

on the run and the police helicopters

1444

00:50:47,990 --> 00:50:36,880

above you with their flare yeah

1445

00:50:50,390 --> 00:50:49,270

i'll keep that in my other pocket

1446

00:50:52,790 --> 00:50:50,400

because in this pocket i've got my

1447

00:50:56,020 --> 00:50:52,800

tripod ready to film

1448

00:50:57,589 --> 00:50:56,030

i'm all set for every possibility

1449

00:50:59,430 --> 00:50:57,599

[Music]

1450

00:51:01,030 --> 00:50:59,440

so yeah i'm just going to give a shout

1451

00:51:03,990 --> 00:51:01,040

out to guitar stinger you're going out

1452

00:51:05,670 --> 00:51:04,000

on a ce5 event tonight good luck man i

1453

00:51:07,910 --> 00:51:05,680

wish you all the best

1454

00:51:09,589 --> 00:51:07,920

so i just wanted to give that shout out

1455

00:51:11,270 --> 00:51:09,599

and if we don't hear from you again we

1456

00:51:13,030 --> 00:51:11,280

know it's work

1457

00:51:14,950 --> 00:51:13,040

well he actually says he's got a group

1458

00:51:17,430 --> 00:51:14,960

of

1459

00:51:19,829 --> 00:51:17,440

10 or 15 people so

1460

00:51:22,069 --> 00:51:19,839

you know he's in good company so they'll

1461

00:51:24,390 --> 00:51:22,079

be good but yeah i wish you luck man did

1462

00:51:25,510 --> 00:51:24,400

you guys uh read the um oh go ahead you

1463

00:51:26,790 --> 00:51:25,520

were going to shout someone else no no

1464

00:51:28,549 --> 00:51:26,800

no i was just going to shout out benji's

1465

00:51:31,030 --> 00:51:28,559

asking about sky 4 which is sean

1466

00:51:32,710 --> 00:51:31,040

cahill's organization um he's saying

1467

00:51:34,470 --> 00:51:32,720

apart from a few tweets and articles

1468

00:51:36,390 --> 00:51:34,480

sean's been a bit quiet lately any word

1469

00:51:38,549 --> 00:51:36,400

on what he's working on with skype but

1470

00:51:40,549 --> 00:51:38,559

no direct word that i've heard benji

1471

00:51:42,630 --> 00:51:40,559

i've heard a few little talks behind the

1472

00:51:45,829 --> 00:51:42,640

scenes but it's not really my place to

1473

00:51:47,990 --> 00:51:45,839

talk about them speculatively so i think

1474

00:51:49,670 --> 00:51:48,000

it's best we wait a little while

1475

00:51:52,150 --> 00:51:49,680

i'm sure they're doing some good work

1476

00:51:53,510 --> 00:51:52,160

lose alluded to something um i don't

1477

00:51:55,910 --> 00:51:53,520

think it'd be much longer before we hear

1478

00:51:56,710 --> 00:51:55,920

what they've been up to so

1479

00:51:58,870 --> 00:51:56,720

yeah

1480

00:52:00,710 --> 00:51:58,880

go on andy you're gonna say man i was

1481

00:52:03,430 --> 00:52:00,720

just gonna say if you guys had seen the

1482

00:52:05,109 --> 00:52:03,440

uh article on medium

1483

00:52:06,870 --> 00:52:05,119

um with the um

1484

00:52:08,390 --> 00:52:06,880

uaps aren't russian or chinese the

1485

00:52:11,109 --> 00:52:08,400

pentagon knows it

1486

00:52:14,069 --> 00:52:11,119

where they uh found

1487

00:52:15,829 --> 00:52:14,079

in in john podesta's emails

1488

00:52:18,549 --> 00:52:15,839

conversations between them uh him and

1489

00:52:21,349 --> 00:52:18,559

bob fish oh yes

1490

00:52:22,630 --> 00:52:21,359

i know that in it very well indeed

1491

00:52:25,109 --> 00:52:22,640

you're talking about the stuff where it

1492

00:52:27,109 --> 00:52:25,119

comes in and the satellites see it like

1493

00:52:28,150 --> 00:52:27,119

the fast walker stuff well there are

1494

00:52:30,549 --> 00:52:28,160

they they

1495

00:52:32,870 --> 00:52:30,559

i i read about it before when they first

1496

00:52:34,150 --> 00:52:32,880

came out um but yeah they

1497

00:52:35,990 --> 00:52:34,160

they could see them coming from deep

1498

00:52:37,990 --> 00:52:36,000

space and actually tracking them all the

1499

00:52:39,990 --> 00:52:38,000

way down until they enter the ocean

1500

00:52:41,829 --> 00:52:40,000

yeah it's not like they don't know what

1501
00:52:44,470 --> 00:52:41,839
these things are and also

1502
00:52:46,390 --> 00:52:44,480
i always say this my biggest argument is

1503
00:52:49,270 --> 00:52:46,400
you can't say it's russia or china or

1504
00:52:51,109 --> 00:52:49,280
any other you know major uh player out

1505
00:52:52,390 --> 00:52:51,119
there because this is a phenomenon

1506
00:52:53,270 --> 00:52:52,400
that's been around since the beginning

1507
00:52:55,349 --> 00:52:53,280
of us

1508
00:52:56,950 --> 00:52:55,359
you know this is you know how could you

1509
00:52:59,109 --> 00:52:56,960
possibly say it's

1510
00:53:01,349 --> 00:52:59,119
china or russia and you go back into

1511
00:53:02,790 --> 00:53:01,359
history and see that this is something

1512
00:53:03,829 --> 00:53:02,800
we've all we've been seeing now since

1513
00:53:06,390 --> 00:53:03,839

the beginning

1514

00:53:08,630 --> 00:53:06,400

since we've been around you know

1515

00:53:11,109 --> 00:53:08,640

i also think that it was china or russia

1516

00:53:13,349 --> 00:53:11,119

they'd let us know by now somewhere in

1517

00:53:15,670 --> 00:53:13,359

some way shape or form and you know if

1518

00:53:17,510 --> 00:53:15,680

they if they're able to just wander

1519

00:53:18,470 --> 00:53:17,520

around you know

1520

00:53:22,230 --> 00:53:18,480

free

1521

00:53:23,430 --> 00:53:22,240

in u.s military airspace

1522

00:53:25,190 --> 00:53:23,440

you know that

1523

00:53:26,470 --> 00:53:25,200

they they'd want you to know it was then

1524

00:53:27,750 --> 00:53:26,480

wouldn't they

1525

00:53:29,190 --> 00:53:27,760

you think you think even if they tried

1526
00:53:30,069 --> 00:53:29,200
to keep it secret it would come out by

1527
00:53:33,750 --> 00:53:30,079
now

1528
00:53:35,670 --> 00:53:33,760
got their own uap program similar to the

1529
00:53:38,630 --> 00:53:35,680
uap task force so

1530
00:53:39,910 --> 00:53:38,640
it doesn't make sense that it's them and

1531
00:53:41,829 --> 00:53:39,920
you know they've got these two bands

1532
00:53:43,589 --> 00:53:41,839
like the ua their task force and then

1533
00:53:45,190 --> 00:53:43,599
their military completely separated

1534
00:53:46,790 --> 00:53:45,200
makes no sense but

1535
00:53:48,950 --> 00:53:46,800
i think as well with

1536
00:53:51,190 --> 00:53:48,960
the stuff that podesta was talking about

1537
00:53:52,870 --> 00:53:51,200
in those emails relates to what lou's

1538
00:53:54,630 --> 00:53:52,880

been talking about recently with these

1539

00:53:55,670 --> 00:53:54,640

sensor systems

1540

00:53:57,589 --> 00:53:55,680

where

1541

00:53:59,990 --> 00:53:57,599

you know anybody pretty much anybody can

1542

00:54:01,750 --> 00:54:00,000

track or predict when uap are going to

1543

00:54:03,670 --> 00:54:01,760

come or be around

1544

00:54:05,349 --> 00:54:03,680

um which he's not given us the answer to

1545

00:54:08,950 --> 00:54:05,359

i've been working tirelessly for the

1546

00:54:10,549 --> 00:54:08,960

last few days it's a compass

1547

00:54:11,910 --> 00:54:10,559

i've got a list of three and that's one

1548

00:54:14,390 --> 00:54:11,920

of them

1549

00:54:16,470 --> 00:54:14,400

actually chris

1550

00:54:17,750 --> 00:54:16,480

now that vinnie mentions that um that

1551
00:54:19,270 --> 00:54:17,760
was one of the reasons i wanted you to

1552
00:54:20,309 --> 00:54:19,280
see that video i sent you with that

1553
00:54:21,829 --> 00:54:20,319
individual

1554
00:54:23,190 --> 00:54:21,839
because if you notice he spoke about

1555
00:54:26,069 --> 00:54:23,200
that where he knew he says that he

1556
00:54:27,910 --> 00:54:26,079
overheard them mentioning that they knew

1557
00:54:30,309 --> 00:54:27,920
when they where they would be when they

1558
00:54:32,870 --> 00:54:30,319
would enter with whatever

1559
00:54:34,309 --> 00:54:32,880
uh warp or or wormhole that they knew

1560
00:54:35,990 --> 00:54:34,319
how to track them

1561
00:54:37,190 --> 00:54:36,000
so that was that was one of the reasons

1562
00:54:38,630 --> 00:54:37,200
why i sent that to you because i wanted

1563
00:54:40,710 --> 00:54:38,640

i wanted to see if you know any of what

1564

00:54:41,670 --> 00:54:40,720

he was saying kind of made any sense you

1565

00:54:42,789 --> 00:54:41,680

know

1566

00:54:44,390 --> 00:54:42,799

but um

1567

00:54:45,510 --> 00:54:44,400

they have the apparently they have the

1568

00:54:47,190 --> 00:54:45,520

ability

1569

00:54:50,230 --> 00:54:47,200

to track these things before they even

1570

00:54:51,990 --> 00:54:50,240

appear yeah the magnetic

1571

00:54:53,349 --> 00:54:52,000

the magnetic field isn't it coming in

1572

00:54:54,710 --> 00:54:53,359

effectively

1573

00:54:56,390 --> 00:54:54,720

i did see something and i'm not sure

1574

00:54:58,470 --> 00:54:56,400

what channel it was on the other night

1575

00:54:59,349 --> 00:54:58,480

um it may have been thomas fessler's

1576

00:55:01,349 --> 00:54:59,359

channel

1577

00:55:03,190 --> 00:55:01,359

right we're discussing the similar thing

1578

00:55:06,230 --> 00:55:03,200

and there was they they mentioned that

1579

00:55:08,390 --> 00:55:06,240

there's a certain radio frequency that

1580

00:55:11,670 --> 00:55:08,400

pops up and they they said that kind of

1581

00:55:13,910 --> 00:55:11,680

can be a precursor of of sightings

1582

00:55:16,230 --> 00:55:13,920

so again if it's you know it could be a

1583

00:55:17,589 --> 00:55:16,240

magnetic kind of anomaly that creates

1584

00:55:20,789 --> 00:55:17,599

this radio

1585

00:55:23,030 --> 00:55:20,799

burst um and that's that you know it

1586

00:55:25,270 --> 00:55:23,040

gives you an idea of when something

1587

00:55:28,710 --> 00:55:25,280

might actually take you know take an

1588

00:55:30,630 --> 00:55:28,720

event or uh or you know or a sighting

1589

00:55:32,950 --> 00:55:30,640

and this is this is now going on a

1590

00:55:35,510 --> 00:55:32,960

couple years that they've apparently had

1591

00:55:36,870 --> 00:55:35,520

this ability

1592

00:55:38,710 --> 00:55:36,880

because initially i was thinking i'll

1593

00:55:40,549 --> 00:55:38,720

drive frequency through ham radio or

1594

00:55:42,230 --> 00:55:40,559

something like that but

1595

00:55:43,670 --> 00:55:42,240

that doesn't make sense that i know it's

1596

00:55:45,510 --> 00:55:43,680

accessible to everyone if everyone goes

1597

00:55:47,430 --> 00:55:45,520

out and buys a ham radio but the way lou

1598

00:55:50,069 --> 00:55:47,440

was talking about it it's something it's

1599

00:55:51,910 --> 00:55:50,079

so simple and basic

1600

00:55:53,910 --> 00:55:51,920

massive grin on his face and it's like

1601
00:55:56,630 --> 00:55:53,920
that made me think we're right back down

1602
00:55:57,829 --> 00:55:56,640
to basics

1603
00:55:59,829 --> 00:55:57,839
yeah

1604
00:56:02,390 --> 00:55:59,839
i mean i'm not saying we're right but it

1605
00:56:04,630 --> 00:56:02,400
makes perfect sense and

1606
00:56:05,829 --> 00:56:04,640
yeah yeah i mean it i think if it's if

1607
00:56:07,670 --> 00:56:05,839
you're talking

1608
00:56:09,990 --> 00:56:07,680
the things that that these things can

1609
00:56:11,030 --> 00:56:10,000
actually do right then it's

1610
00:56:12,789 --> 00:56:11,040
they're doing something with the

1611
00:56:14,230 --> 00:56:12,799
magnetic and electric fields that we

1612
00:56:17,910 --> 00:56:14,240
don't understand right we still don't

1613
00:56:19,589 --> 00:56:17,920

understand why magnetism and electricity

1614

00:56:20,870 --> 00:56:19,599

are related you know despite what they

1615

00:56:23,109 --> 00:56:20,880

all say we don't know why they're

1616

00:56:24,470 --> 00:56:23,119

related like we we observe things you

1617

00:56:25,910 --> 00:56:24,480

know we observe why and same thing with

1618

00:56:27,829 --> 00:56:25,920

gravity we observe

1619

00:56:29,990 --> 00:56:27,839

you know when the apple falls but we

1620

00:56:32,069 --> 00:56:30,000

don't know really why you know they say

1621

00:56:33,270 --> 00:56:32,079

curvature space time it's like okay you

1622

00:56:34,710 --> 00:56:33,280

know

1623

00:56:36,230 --> 00:56:34,720

what is that what's space time then and

1624

00:56:37,510 --> 00:56:36,240

it's like

1625

00:56:38,950 --> 00:56:37,520

i don't really know

1626

00:56:41,109 --> 00:56:38,960

but okay that's curve the thing you

1627

00:56:43,510 --> 00:56:41,119

don't know it's curved and so this this

1628

00:56:44,789 --> 00:56:43,520

causes gravity um so which is

1629

00:56:49,349 --> 00:56:44,799

interesting too i've been looking into

1630

00:56:52,789 --> 00:56:51,030

definitely

1631

00:56:55,589 --> 00:56:52,799

yeah and he mentioned that uh because

1632

00:56:58,390 --> 00:56:55,599

kevin knew uh in another interview with

1633

00:57:00,230 --> 00:56:58,400

uh kurt jaimungal and um and theories

1634

00:57:02,549 --> 00:57:00,240

everything he was talking it was just a

1635

00:57:03,430 --> 00:57:02,559

theory about the cows uh skinwalker

1636

00:57:05,829 --> 00:57:03,440

rants they're talking about all the

1637

00:57:08,630 --> 00:57:05,839

crazy stuff at skimwaker ranch and he's

1638

00:57:11,430 --> 00:57:08,640

talking about uh there's a certain hertz

1639

00:57:12,789 --> 00:57:11,440

that is 12 hertz is supposedly the the

1640

00:57:15,030 --> 00:57:12,799

alpha

1641

00:57:17,829 --> 00:57:15,040

or the the hearts of your brain there's

1642

00:57:19,109 --> 00:57:17,839

some brain uh waves in your brain i

1643

00:57:20,950 --> 00:57:19,119

guess they could run at 12 hertz or

1644

00:57:23,750 --> 00:57:20,960

something and so you can

1645

00:57:25,430 --> 00:57:23,760

potentially maybe excite these

1646

00:57:26,789 --> 00:57:25,440

with those uh frequencies so that could

1647

00:57:28,470 --> 00:57:26,799

be why people feel these kind of weird

1648

00:57:30,390 --> 00:57:28,480

effects or

1649

00:57:31,670 --> 00:57:30,400

you know something like that uh and so

1650

00:57:33,430 --> 00:57:31,680

they were saying

1651
00:57:35,589 --> 00:57:33,440
yeah kevin was talking about how this

1652
00:57:37,829 --> 00:57:35,599
this other uh this other guy sorry wrote

1653
00:57:40,309 --> 00:57:37,839
it down um

1654
00:57:42,630 --> 00:57:40,319
anyway he he'd written he basic it's

1655
00:57:45,349 --> 00:57:42,640
euphoria ufo

1656
00:57:46,870 --> 00:57:45,359
rhea euphoria is the is the effect this

1657
00:57:49,829 --> 00:57:46,880
this man i can't remember his name off

1658
00:57:52,069 --> 00:57:49,839
time i had uh made so that it that low

1659
00:57:53,750 --> 00:57:52,079
frequencies uh is related to gravity

1660
00:57:56,710 --> 00:57:53,760
waves actually if you look at gravity

1661
00:57:58,150 --> 00:57:56,720
wave you know they're just so big um

1662
00:57:59,270 --> 00:57:58,160
but they're so hard to detect right i

1663
00:58:01,030 --> 00:57:59,280

think they're so hard to detect because

1664

00:58:02,230 --> 00:58:01,040

the wavelengths are so big you know so

1665

00:58:04,150 --> 00:58:02,240

yeah

1666

00:58:06,630 --> 00:58:04,160

i think it's all related somehow to

1667

00:58:09,190 --> 00:58:06,640

magnetism electricity and then somehow

1668

00:58:10,710 --> 00:58:09,200

gravity uh and that all just sounds like

1669

00:58:12,950 --> 00:58:10,720

a compass to me you know it all relates

1670

00:58:14,470 --> 00:58:12,960

to your company did you see it i mean we

1671

00:58:16,549 --> 00:58:14,480

know that the

1672

00:58:18,390 --> 00:58:16,559

the guys at skinwalker ranch have been

1673

00:58:20,630 --> 00:58:18,400

having setting up this super duper

1674

00:58:22,390 --> 00:58:20,640

equipment computer things and

1675

00:58:23,829 --> 00:58:22,400

magnetometers and everything

1676
00:58:25,750 --> 00:58:23,839
but the one thing that really stood out

1677
00:58:27,430 --> 00:58:25,760
for me especially in the the tv series

1678
00:58:30,510 --> 00:58:27,440
were they were just having strange

1679
00:58:32,789 --> 00:58:30,520
issues with a compass

1680
00:58:34,549 --> 00:58:32,799
electromagnetic anomalies because the

1681
00:58:36,950 --> 00:58:34,559
compass was completely switching from

1682
00:58:39,750 --> 00:58:36,960
true north to a point on the ranch where

1683
00:58:42,069 --> 00:58:39,760
they were doing specific work and stuff

1684
00:58:44,630 --> 00:58:42,079
absolutely isn't isn't that the same

1685
00:58:45,910 --> 00:58:44,640
thing that pilot uh many many reports

1686
00:58:47,349 --> 00:58:45,920
from pilots

1687
00:58:52,950 --> 00:58:47,359
uh where they say that they're you know

1688
00:58:56,470 --> 00:58:54,230

i really want to do an interview with

1689

00:58:58,230 --> 00:58:56,480

ted ted rowe he gave a great uh i

1690

00:59:00,390 --> 00:58:58,240

actually was next on my list or on my

1691

00:59:02,950 --> 00:59:00,400

list of videos to make is his

1692

00:59:04,549 --> 00:59:02,960

his conference brief at that aiaa

1693

00:59:06,069 --> 00:59:04,559

conference was awesome man he talked

1694

00:59:08,230 --> 00:59:06,079

about that yeah

1695

00:59:09,349 --> 00:59:08,240

they had 57 events

1696

00:59:11,829 --> 00:59:09,359

yeah yeah i think that's what you're

1697

00:59:14,069 --> 00:59:11,839

referring to andy the 57 events

1698

00:59:16,549 --> 00:59:14,079

uh of electrical

1699

00:59:19,030 --> 00:59:16,559

failures or anomalies of some sort on

1700

00:59:20,630 --> 00:59:19,040

the planes when they saw these uh really

1701

00:59:23,349 --> 00:59:20,640

the balls of light is what what he was

1702

00:59:24,549 --> 00:59:23,359

saying in his briefing ted ted wrote uh

1703

00:59:25,990 --> 00:59:24,559

when the balls of light were there they

1704

00:59:27,349 --> 00:59:26,000

were getting weird anomalies and then

1705

00:59:29,109 --> 00:59:27,359

when they when they didn't see the balls

1706

00:59:31,670 --> 00:59:29,119

of light anymore the anomalies went away

1707

00:59:34,150 --> 00:59:31,680

so it was like they were transient

1708

00:59:35,829 --> 00:59:34,160

it's interesting that is interesting man

1709

00:59:39,270 --> 00:59:35,839

definitely

1710

00:59:40,630 --> 00:59:39,280

yeah just going back to the the a i a i

1711

00:59:42,789 --> 00:59:40,640

think when we were talking about which

1712

00:59:45,109 --> 00:59:42,799

was the most compelling sighting you

1713

00:59:47,510 --> 00:59:45,119

said gimbal i'd agree with gimbal but i

1714

00:59:50,390 --> 00:59:47,520

think the most compelling thing

1715

00:59:51,910 --> 00:59:50,400

that i've heard recently was ryan gray's

1716

00:59:53,349 --> 00:59:51,920

talk you know

1717

00:59:55,349 --> 00:59:53,359

discussing

1718

00:59:58,309 --> 00:59:55,359

the the sightings off the of the

1719

01:00:00,870 --> 00:59:58,319

virginia coast of virginia beach in that

1720

01:00:02,390 --> 01:00:00,880

in that kind of in that operation zone

1721

01:00:08,710 --> 01:00:02,400

the whiskey zone is it

1722

01:00:14,069 --> 01:00:11,430

about 10 nautical miles

1723

01:00:20,549 --> 01:00:14,079

um and they would see them day in and

1724

01:00:23,990 --> 01:00:22,390

i kind of looked in that area on google

1725

01:00:25,829 --> 01:00:24,000

earth and it's it's actually quite

1726

01:00:28,390 --> 01:00:25,839

shallow there isn't it goes out very

1727

01:00:30,150 --> 01:00:28,400

quite shallow and i saw there's a

1728

01:00:32,710 --> 01:00:30,160

there's a place called the chesapeake

1729

01:00:34,549 --> 01:00:32,720

light uh the chesapeake lighthouse or

1730

01:00:36,549 --> 01:00:34,559

something and it's it's basically it's

1731

01:00:38,630 --> 01:00:36,559

been there since the 60s there's been a

1732

01:00:41,349 --> 01:00:38,640

lighthouse out there since the

1733

01:00:43,190 --> 01:00:41,359

1800s or something but there's a there's

1734

01:00:44,710 --> 01:00:43,200

it's called the chesapeake light and

1735

01:00:46,549 --> 01:00:44,720

it's this basically it looks like uh it

1736

01:00:48,230 --> 01:00:46,559

kind of looks like a small

1737

01:00:49,990 --> 01:00:48,240

oil rig if you like standing out there

1738

01:00:53,109 --> 01:00:50,000

but it was used for

1739

01:00:55,910 --> 01:00:53,119

um weather and it was also a lighthouse

1740

01:00:58,630 --> 01:00:55,920

at one time that sounds like it would be

1741

01:01:01,030 --> 01:00:58,640

a perfect place to stick some sensors

1742

01:01:04,150 --> 01:01:01,040

and some big cameras and look across

1743

01:01:06,789 --> 01:01:04,160

that space and that's about 13 miles out

1744

01:01:08,789 --> 01:01:06,799

i think but even so that would be a good

1745

01:01:11,270 --> 01:01:08,799

spot if they're there all that time that

1746

01:01:13,589 --> 01:01:11,280

amount of time and that rick regularity

1747

01:01:15,349 --> 01:01:13,599

that would be a good place to

1748

01:01:16,470 --> 01:01:15,359

put these guys yeah but i i did an

1749

01:01:18,789 --> 01:01:16,480

interview with like a good friend of

1750

01:01:21,109 --> 01:01:18,799

mine jeff blask who works he lives in

1751
01:01:23,109 --> 01:01:21,119
florida and works for the the county out

1752
01:01:25,750 --> 01:01:23,119
there they're putting up these massive

1753
01:01:26,789 --> 01:01:25,760
domed what you might think our radar

1754
01:01:28,390 --> 01:01:26,799
stations

1755
01:01:29,829 --> 01:01:28,400
and i mean i did an interview with him

1756
01:01:31,510 --> 01:01:29,839
about it and he spoke to one of the

1757
01:01:33,510 --> 01:01:31,520
contractors working on the case for the

1758
01:01:35,829 --> 01:01:33,520
air force and jokingly said these would

1759
01:01:37,349 --> 01:01:35,839
be great for tracking uap and apparently

1760
01:01:39,430 --> 01:01:37,359
the guy just went to him

1761
01:01:40,710 --> 01:01:39,440
yep you got it that kind of thing and

1762
01:01:43,270 --> 01:01:40,720
apparently they're cropping up across

1763
01:01:45,109 --> 01:01:43,280

multiple coasts now in the u.s brand new

1764

01:01:45,829 --> 01:01:45,119

classic classified data coming out of

1765

01:01:47,829 --> 01:01:45,839

them

1766

01:01:50,390 --> 01:01:47,839

to do with the air force subcontractors

1767

01:01:52,069 --> 01:01:50,400

it's incredible so that's gonna you know

1768

01:01:53,990 --> 01:01:52,079

it's a developing story because we don't

1769

01:01:55,829 --> 01:01:54,000

know much information about it i don't

1770

01:01:57,510 --> 01:01:55,839

even think they're finished yet

1771

01:01:58,710 --> 01:01:57,520

but yeah that's a that's a good rabbit

1772

01:02:00,069 --> 01:01:58,720

hole to go down

1773

01:02:01,430 --> 01:02:00,079

if there's any other place that they

1774

01:02:02,710 --> 01:02:01,440

should put it out it's

1775

01:02:05,670 --> 01:02:02,720

puerto rico

1776

01:02:08,710 --> 01:02:05,680

oh yeah because i believe i mean

1777

01:02:09,990 --> 01:02:08,720

abuelita is a massive hot spot i mean

1778

01:02:11,750 --> 01:02:10,000

like

1779

01:02:14,470 --> 01:02:11,760

you talk about hot spots it's just as

1780

01:02:17,910 --> 01:02:14,480

hot as like brazil and south america

1781

01:02:22,069 --> 01:02:19,990

there's so many stories i've seen so

1782

01:02:23,910 --> 01:02:22,079

many videos it's just

1783

01:02:26,069 --> 01:02:23,920

yes i think i think the whiskies are

1784

01:02:28,069 --> 01:02:26,079

right off here with you

1785

01:02:29,910 --> 01:02:28,079

goes out to like

1786

01:02:31,670 --> 01:02:29,920

here

1787

01:02:33,190 --> 01:02:31,680

on the east side right and so it was

1788

01:02:35,670 --> 01:02:33,200

crazy i was looking at this right and if

1789

01:02:38,630 --> 01:02:35,680

you look but it goes out to here this is

1790

01:02:40,150 --> 01:02:38,640

literally bermuda

1791

01:02:42,230 --> 01:02:40,160

the whiskey don't go into in land

1792

01:02:43,910 --> 01:02:42,240

slightly as well

1793

01:02:45,910 --> 01:02:43,920

a little bit only in water

1794

01:02:49,029 --> 01:02:45,920

oh okay yeah i believe i'm sure they

1795

01:02:51,510 --> 01:02:49,039

have some overland space i think 70

1796

01:02:53,190 --> 01:02:51,520

starts in london maybe it goes 71.72 out

1797

01:02:55,349 --> 01:02:53,200

into the ocean or something

1798

01:02:58,230 --> 01:02:55,359

i'm not sure yeah i don't have it on

1799

01:03:00,150 --> 01:02:58,240

easy access but you know

1800

01:03:01,430 --> 01:03:00,160

yeah i'm i'm sure they have overland

1801
01:03:02,710 --> 01:03:01,440
airspace somewhere i don't know where it

1802
01:03:05,510 --> 01:03:02,720
is but the overall

1803
01:03:08,390 --> 01:03:06,630
over water is great you can go

1804
01:03:10,069 --> 01:03:08,400
supersonic you're not worried about uh

1805
01:03:11,990 --> 01:03:10,079
speed you can do chaff flares you know

1806
01:03:14,150 --> 01:03:12,000
we can't we can't dispense flares or

1807
01:03:15,510 --> 01:03:14,160
chaff over a lot of areas of the land

1808
01:03:17,829 --> 01:03:15,520
and such so

1809
01:03:19,829 --> 01:03:17,839
um

1810
01:03:22,870 --> 01:03:19,839
is that a deep ocean shelf that we can

1811
01:03:24,630 --> 01:03:22,880
see that blue line going into dark blue

1812
01:03:27,270 --> 01:03:24,640
yeah this is your shelf

1813
01:03:30,230 --> 01:03:27,280

so this will go deeper

1814

01:03:31,510 --> 01:03:30,240

if you zoom into virginia beach which is

1815

01:03:34,150 --> 01:03:31,520

just there

1816

01:03:35,430 --> 01:03:34,160

yeah that's where oceana is the the

1817

01:03:38,309 --> 01:03:35,440

neighborhood

1818

01:03:40,230 --> 01:03:38,319

yeah yeah that's right

1819

01:03:41,910 --> 01:03:40,240

it's about 10 nautical miles out that

1820

01:03:42,950 --> 01:03:41,920

they do the the

1821

01:03:44,789 --> 01:03:42,960

sort of

1822

01:03:46,710 --> 01:03:44,799

training which takes it into that

1823

01:03:47,670 --> 01:03:46,720

shallow area and then obviously it drops

1824

01:03:48,950 --> 01:03:47,680

away

1825

01:03:50,390 --> 01:03:48,960

so these things could be coming out of

1826

01:03:51,990 --> 01:03:50,400

them deep water like

1827

01:03:53,270 --> 01:03:52,000

yeah it's like right here is where your

1828

01:03:55,270 --> 01:03:53,280

your uh

1829

01:03:57,270 --> 01:03:55,280

area is interesting how this is uh very

1830

01:03:59,430 --> 01:03:57,280

close to the bermuda triangle exactly

1831

01:04:01,829 --> 01:03:59,440

that's my point i was like what i'm like

1832

01:04:03,910 --> 01:04:01,839

bermuda's right there

1833

01:04:06,470 --> 01:04:03,920

right ryan said he said you know you try

1834

01:04:08,230 --> 01:04:06,480

to reach things flying east out into the

1835

01:04:12,630 --> 01:04:08,240

middle of the ocean where are they going

1836

01:04:14,950 --> 01:04:12,640

well slightly south of that is bermuda

1837

01:04:17,349 --> 01:04:14,960

yeah i don't know you know um

1838

01:04:19,029 --> 01:04:17,359

because if it does mess up your

1839

01:04:20,710 --> 01:04:19,039

navigation equipment

1840

01:04:23,109 --> 01:04:20,720

you know that could have who knows maybe

1841

01:04:24,549 --> 01:04:23,119

i don't know put put chips off course or

1842

01:04:26,069 --> 01:04:24,559

wow it's crazy anyway i was very

1843

01:04:28,950 --> 01:04:26,079

surprised it was bermuda's right there

1844

01:04:31,349 --> 01:04:28,960

kind of yeah yeah i was freaking out

1845

01:04:32,470 --> 01:04:31,359

that's interesting man like 19

1846

01:04:34,549 --> 01:04:32,480

thing isn't it

1847

01:04:36,150 --> 01:04:34,559

you know that they they they had a

1848

01:04:39,430 --> 01:04:36,160

massive issue

1849

01:04:41,190 --> 01:04:39,440

with the navigation they just eventually

1850

01:04:43,109 --> 01:04:41,200

just ran out of fuel they say and just

1851

01:04:44,549 --> 01:04:43,119

ditched and that was it

1852

01:04:46,870 --> 01:04:44,559

but

1853

01:04:48,309 --> 01:04:46,880

completely off course

1854

01:04:50,630 --> 01:04:48,319

you wonder i mean they're kind of the

1855

01:04:52,630 --> 01:04:50,640

same latitudes you know or what is that

1856

01:05:01,270 --> 01:04:52,640

longitudes

1857

01:05:04,870 --> 01:05:02,950

is like 34 or something you know it's

1858

01:05:09,349 --> 01:05:04,880

interesting because the catalina islands

1859

01:05:10,789 --> 01:05:09,359

are basically kind of the same yeah

1860

01:05:13,430 --> 01:05:10,799

yeah another one

1861

01:05:15,589 --> 01:05:13,440

i haven't heard about that recently um

1862

01:05:17,750 --> 01:05:15,599

well that's near that was close to the

1863

01:05:18,950 --> 01:05:17,760

nimitz encounter wasn't it very yeah

1864

01:05:21,589 --> 01:05:18,960

right here

1865

01:05:24,230 --> 01:05:21,599

yeah now i'm the one with um also with

1866

01:05:26,230 --> 01:05:24,240

jeremy corbell the omaha yeah 2019 yeah

1867

01:05:27,270 --> 01:05:26,240

the uh all of those sightings from the

1868

01:05:28,870 --> 01:05:27,280

that that

1869

01:05:30,309 --> 01:05:28,880

there's plenty other like private

1870

01:05:32,150 --> 01:05:30,319

settings that you know

1871

01:05:34,069 --> 01:05:32,160

regular citizens have had in that area

1872

01:05:35,349 --> 01:05:34,079

as well you can find catalina san

1873

01:05:38,309 --> 01:05:35,359

clemente

1874

01:05:41,109 --> 01:05:38,319

all of those little small islands man

1875

01:05:43,349 --> 01:05:41,119

yeah definitely man what about the uk

1876

01:05:45,029 --> 01:05:43,359

where's the places in the uk or

1877

01:05:47,029 --> 01:05:45,039

i don't i don't know

1878

01:05:49,270 --> 01:05:47,039

we don't hear much do we

1879

01:05:51,270 --> 01:05:49,280

no no i hear it's very

1880

01:05:52,870 --> 01:05:51,280

my good buddy he's from uh he's from

1881

01:05:54,789 --> 01:05:52,880

england he saw ufo when he was a kid

1882

01:05:56,309 --> 01:05:54,799

actually ran from it

1883

01:05:57,990 --> 01:05:56,319

where was he

1884

01:06:00,630 --> 01:05:58,000

i i don't know i have to ask i mean

1885

01:06:06,150 --> 01:06:00,640

there's never there's never a clear sky

1886

01:06:09,589 --> 01:06:08,470

so it landed uh he said it landed in uh

1887

01:06:11,430 --> 01:06:09,599

i don't want to show it but it was

1888

01:06:13,270 --> 01:06:11,440

basically a saucer landed and he booked

1889

01:06:15,589 --> 01:06:13,280

out of there you know he branched out

1890

01:06:16,829 --> 01:06:15,599

we'll have to get him on he saw it he

1891

01:06:19,190 --> 01:06:16,839

saw it yeah

1892

01:06:20,549 --> 01:06:19,200

yeah he said he was 10 years old he saw

1893

01:06:22,950 --> 01:06:20,559

it with his brother and they both ran

1894

01:06:24,950 --> 01:06:22,960

inside and then he just made up a story

1895

01:06:27,029 --> 01:06:24,960

for his brother to say like oh we were

1896

01:06:28,870 --> 01:06:27,039

just playing in ufo i think his little

1897

01:06:31,109 --> 01:06:28,880

brother came in and said told mom you

1898

01:06:33,589 --> 01:06:31,119

know hey we saw a spaceship you know and

1899

01:06:36,309 --> 01:06:33,599

then he kind of played it off uh i i had

1900

01:06:37,430 --> 01:06:36,319

um i had someone tell me in a wild story

1901

01:06:39,430 --> 01:06:37,440

i think it was

1902

01:06:41,589 --> 01:06:39,440

from around this area as well when he

1903

01:06:43,670 --> 01:06:41,599

was younger he was sleeping and got

1904

01:06:44,710 --> 01:06:43,680

woken up by um his mother in the middle

1905

01:06:47,109 --> 01:06:44,720

of the night

1906

01:06:49,190 --> 01:06:47,119

and he saw this light entering the room

1907

01:06:50,950 --> 01:06:49,200

and his mom told him don't move his

1908

01:06:52,789 --> 01:06:50,960

little brother was in the room as well

1909

01:06:53,670 --> 01:06:52,799

uh laying down

1910

01:06:55,589 --> 01:06:53,680

and

1911

01:06:57,670 --> 01:06:55,599

she says stay here i'll be right back

1912

01:06:59,349 --> 01:06:57,680

she goes downstairs it goes outside of

1913

01:07:01,750 --> 01:06:59,359

course curiosity

1914

01:07:03,349 --> 01:07:01,760

uh got the better of him he gets up and

1915

01:07:05,349 --> 01:07:03,359

he looks outside

1916

01:07:06,390 --> 01:07:05,359

and he looks out the window

1917

01:07:09,750 --> 01:07:06,400

and

1918

01:07:11,910 --> 01:07:09,760

right over the neighbor's house

1919

01:07:13,589 --> 01:07:11,920

was literally how he said he described

1920

01:07:15,190 --> 01:07:13,599

as 100 foot sausages sitting right over

1921

01:07:16,870 --> 01:07:15,200

the house and everyone in the

1922

01:07:17,829 --> 01:07:16,880

neighborhood was outside staring at this

1923

01:07:20,069 --> 01:07:17,839

thing

1924

01:07:22,390 --> 01:07:20,079

and um

1925

01:07:24,870 --> 01:07:22,400

it was like emitting a red glow

1926

01:07:27,510 --> 01:07:24,880

and his mother came back upstairs and

1927

01:07:29,029 --> 01:07:27,520

grabbed them and shut the windows and

1928

01:07:29,990 --> 01:07:29,039

and basically just stood there until

1929

01:07:31,910 --> 01:07:30,000

this thing

1930

01:07:33,829 --> 01:07:31,920

the light just disappeared so after that

1931

01:07:35,990 --> 01:07:33,839

he wasn't able to see what happened but

1932

01:07:37,109 --> 01:07:36,000

he did tell me that he clearly saw this

1933

01:07:40,870 --> 01:07:37,119

massive

1934

01:07:43,430 --> 01:07:40,880

right over the house

1935

01:07:45,029 --> 01:07:43,440

and everyone everyone was outside so

1936

01:07:46,950 --> 01:07:45,039

it's it was a really really interesting

1937

01:07:48,549 --> 01:07:46,960

story that's when you need nigel there

1938

01:07:51,750 --> 01:07:48,559

man i bet none of those people went and

1939

01:07:55,349 --> 01:07:53,109

you don't do it

1940

01:07:58,150 --> 01:07:56,549

you gotta be ready it's like the

1941

01:07:59,430 --> 01:07:58,160

heimlich you know before the heimlich

1942

01:08:01,589 --> 01:07:59,440

like how many thousands and thousands of

1943

01:08:03,430 --> 01:08:01,599

people just died you know choking to

1944

01:08:05,270 --> 01:08:03,440

death in a restaurant or something yeah

1945

01:08:06,950 --> 01:08:05,280

that's a little shocking

1946

01:08:08,789 --> 01:08:06,960

like i'm still ready you know i'm not a

1947

01:08:10,390 --> 01:08:08,799

very big guy actually but

1948

01:08:11,589 --> 01:08:10,400

i'm always ready to do a highlight it's

1949

01:08:13,670 --> 01:08:11,599

always different when you see it from

1950

01:08:15,270 --> 01:08:13,680

far it's it's different but you know

1951

01:08:17,749 --> 01:08:15,280

like i was saying the shock and awe of

1952

01:08:20,550 --> 01:08:17,759

something like that to be you know

1953

01:08:22,390 --> 01:08:20,560

like that close to you is you don't you

1954

01:08:25,669 --> 01:08:22,400

don't have the time to look for anything

1955

01:08:27,349 --> 01:08:25,679

because you're so taken back by what it

1956

01:08:28,789 --> 01:08:27,359

is that you're looking at you know it's

1957

01:08:30,470 --> 01:08:28,799

like with mine you know it was not even

1958

01:08:33,030 --> 01:08:30,480

that close you know his was closer than

1959

01:08:34,390 --> 01:08:33,040

my sighting and mines literally had me

1960

01:08:36,550 --> 01:08:34,400

where i didn't even want to do anything

1961

01:08:38,070 --> 01:08:36,560

else but stare at this thing because i

1962

01:08:39,910 --> 01:08:38,080

just couldn't believe how close it was

1963

01:08:41,829 --> 01:08:39,920

you know there's been a lot of sightings

1964

01:08:43,269 --> 01:08:41,839

where people have said that they've been

1965

01:08:45,990 --> 01:08:43,279

stuck in that moment but there's

1966

01:08:48,309 --> 01:08:46,000

something that else has taken over their

1967

01:08:49,749 --> 01:08:48,319

their brain to make them just mesmerized

1968

01:08:51,749 --> 01:08:49,759

to the point where they can't just pull

1969

01:08:53,030 --> 01:08:51,759

logical thought out of the head to that

1970

01:08:55,510 --> 01:08:53,040

oh hang on a minute i'll go and grab a

1971

01:08:57,430 --> 01:08:55,520

camera they're so switched into this

1972

01:09:00,149 --> 01:08:57,440

thing that it's almost being affected by

1973

01:09:02,229 --> 01:09:00,159

it it's well it's so it's so just i mean

1974

01:09:03,990 --> 01:09:02,239

it's so out of it you know like like

1975

01:09:05,590 --> 01:09:04,000

it's out of your reality

1976

01:09:08,870 --> 01:09:05,600

it's like the only way i can describe it

1977

01:09:11,910 --> 01:09:08,880

is like a fly or a mosquito being you

1978

01:09:14,390 --> 01:09:11,920

know drawn to uh one of those zappers

1979

01:09:16,309 --> 01:09:14,400

it just sits there yeah

1980

01:09:17,990 --> 01:09:16,319

so it's like literally sitting there

1981

01:09:19,590 --> 01:09:18,000

looking at one of these lights and just

1982

01:09:21,189 --> 01:09:19,600

being mesmerized by what it is you're

1983

01:09:22,789 --> 01:09:21,199

looking at it's it's

1984

01:09:25,030 --> 01:09:22,799

yeah i mean your name's come in here

1985

01:09:26,950 --> 01:09:25,040

you're nailed to the ground

1986

01:09:28,550 --> 01:09:26,960

it must feel like that yeah oh yeah it's

1987

01:09:31,349 --> 01:09:28,560

like literally takes

1988

01:09:33,510 --> 01:09:31,359

it takes over you like i mean it's just

1989

01:09:35,349 --> 01:09:33,520

it's no there's no way to describe it

1990

01:09:37,510 --> 01:09:35,359

you know like you just you literally

1991

01:09:41,030 --> 01:09:37,520

have to experience something like that

1992

01:09:42,950 --> 01:09:41,040

i know i do i want to i was overwhelmed

1993

01:09:44,309 --> 01:09:42,960

around i'm sure chris feels the same

1994

01:09:46,309 --> 01:09:44,319

though i think me and chris are the only

1995

01:09:47,829 --> 01:09:46,319

two have never really seen anything well

1996

01:09:49,669 --> 01:09:47,839

i won't tell the story because i know

1997

01:09:51,189 --> 01:09:49,679

niger you probably don't know but the

1998

01:09:52,030 --> 01:09:51,199

quick version is that i actually was

1999

01:09:54,709 --> 01:09:52,040

about

2000

01:09:56,070 --> 01:09:54,719

150 feet away from one a saucer right

2001

01:09:58,950 --> 01:09:56,080

over my house

2002

01:10:00,550 --> 01:09:58,960

so like you know i've i know the i know

2003

01:10:02,950 --> 01:10:00,560

what that is like to you know sit there

2004

01:10:04,870 --> 01:10:02,960

and just be like like what do you do you

2005

01:10:06,790 --> 01:10:04,880

know you're just staring at me

2006

01:10:08,950 --> 01:10:06,800

can you hear crazy stories too you know

2007

01:10:10,470 --> 01:10:08,960

like the guy on twitter yesterday chris

2008

01:10:12,149 --> 01:10:10,480

on twitter

2009

01:10:14,070 --> 01:10:12,159

you know it's like he's got these you

2010

01:10:15,750 --> 01:10:14,080

know balls of light like following his

2011

01:10:17,669 --> 01:10:15,760

daughter into a room you know and he

2012

01:10:18,630 --> 01:10:17,679

can't go in there he's like can't move

2013

01:10:20,149 --> 01:10:18,640

like

2014

01:10:21,830 --> 01:10:20,159

i don't know oh yeah well they want that

2015

01:10:22,870 --> 01:10:21,840

experience finney you know i want this

2016

01:10:24,550 --> 01:10:22,880

the uh

2017

01:10:25,750 --> 01:10:24,560

just the good cool experiences i don't

2018

01:10:27,510 --> 01:10:25,760

want that's the thing like there's so

2019

01:10:29,510 --> 01:10:27,520

many different versions of what this

2020

01:10:31,910 --> 01:10:29,520

this normally is whether it be crafting

2021

01:10:33,830 --> 01:10:31,920

out out in the sky or orbs in in

2022

01:10:35,830 --> 01:10:33,840

people's houses that was a fantastic

2023

01:10:37,750 --> 01:10:35,840

conversation but you don't know what

2024

01:10:40,229 --> 01:10:37,760

these objects even have smaller beings

2025

01:10:41,669 --> 01:10:40,239

in them who knows i mean doesn't mean

2026
01:10:43,350 --> 01:10:41,679
does it mean that an intelligent being

2027
01:10:44,709 --> 01:10:43,360
has to be the same size as us or the

2028
01:10:46,390 --> 01:10:44,719
same height or a little bit what if

2029
01:10:48,790 --> 01:10:46,400
there's another type of intelligence

2030
01:10:50,950 --> 01:10:48,800
that's way smaller yeah where you see

2031
01:10:52,470 --> 01:10:50,960
these little tiny orbs

2032
01:10:54,550 --> 01:10:52,480
that's that's something i've been

2033
01:10:56,790 --> 01:10:54,560
thinking about a lot recently because

2034
01:10:59,110 --> 01:10:56,800
size and scale

2035
01:11:00,870 --> 01:10:59,120
to us yeah you know if you think about

2036
01:11:02,630 --> 01:11:00,880
time when it goes out into the universe

2037
01:11:04,870 --> 01:11:02,640
this is completely different to here so

2038
01:11:06,550 --> 01:11:04,880

why does scale mean anything when it's

2039

01:11:08,310 --> 01:11:06,560

way out there it's been really on my

2040

01:11:09,430 --> 01:11:08,320

mind there's something i'm thinking

2041

01:11:11,030 --> 01:11:09,440

about

2042

01:11:13,830 --> 01:11:11,040

absolutely

2043

01:11:16,229 --> 01:11:13,840

it's up and down yeah

2044

01:11:17,990 --> 01:11:16,239

it's it's as huge out there as is as

2045

01:11:19,510 --> 01:11:18,000

tiny down there and

2046

01:11:20,470 --> 01:11:19,520

and everything in between

2047

01:11:21,830 --> 01:11:20,480

so

2048

01:11:22,709 --> 01:11:21,840

universe

2049

01:11:24,550 --> 01:11:22,719

yeah

2050

01:11:27,430 --> 01:11:24,560

after that conversation yesterday chris

2051

01:11:29,750 --> 01:11:27,440

on on chris's twitter spaces i i hit him

2052

01:11:31,430 --> 01:11:29,760

up and he's going to come on on here in

2053

01:11:34,470 --> 01:11:31,440

a couple of weeks

2054

01:11:36,149 --> 01:11:34,480

yeah definitely man he's a very very i

2055

01:11:38,229 --> 01:11:36,159

like the guy a lot man i got a lot of

2056

01:11:39,750 --> 01:11:38,239

time for him he's just one of those guys

2057

01:11:42,470 --> 01:11:39,760

that i never connected with and but i've

2058

01:11:44,950 --> 01:11:42,480

seen him everywhere else it's like it's

2059

01:11:47,030 --> 01:11:44,960

time for me to get him on my channel man

2060

01:11:49,510 --> 01:11:47,040

but i mean it's hard right it is hard

2061

01:11:51,510 --> 01:11:49,520

though because

2062

01:11:52,790 --> 01:11:51,520

i mean it's uh it's intense you know

2063

01:11:55,350 --> 01:11:52,800

when that when the people have these

2064

01:11:57,830 --> 01:11:55,360

stories where they're like uh

2065

01:11:59,270 --> 01:11:57,840

you know there's continued contact they

2066

01:12:01,750 --> 01:11:59,280

don't really want and they're in their

2067

01:12:02,950 --> 01:12:01,760

house you know um

2068

01:12:04,470 --> 01:12:02,960

i don't know there's like a lot of

2069

01:12:05,830 --> 01:12:04,480

baggage there you know there is a lot of

2070

01:12:07,590 --> 01:12:05,840

baggage so it is

2071

01:12:09,350 --> 01:12:07,600

you just walk i walk into that room you

2072

01:12:11,910 --> 01:12:09,360

know it's like

2073

01:12:13,189 --> 01:12:11,920

it it's it it is difficult you know like

2074

01:12:15,590 --> 01:12:13,199

well yeah i mean he was talking about

2075

01:12:17,030 --> 01:12:15,600

his experiences growing up and in the

2076

01:12:18,950 --> 01:12:17,040

past then he was talking about how his

2077

01:12:20,229 --> 01:12:18,960

young children are having these

2078

01:12:22,630 --> 01:12:20,239

experiences now

2079

01:12:24,790 --> 01:12:22,640

he couldn't convince his wife of it

2080

01:12:27,430 --> 01:12:24,800

i mean that that dynamic in the family

2081

01:12:29,590 --> 01:12:27,440

must be so stressful

2082

01:12:30,950 --> 01:12:29,600

you know i i i can't even begin to

2083

01:12:32,870 --> 01:12:30,960

imagine how difficult yeah the

2084

01:12:34,149 --> 01:12:32,880

generational effects are freaky too you

2085

01:12:35,669 --> 01:12:34,159

know like it's one thing it happens to

2086

01:12:37,830 --> 01:12:35,679

you but it's like you pass it on your

2087

01:12:40,229 --> 01:12:37,840

kids you know that's messed up you know

2088

01:12:42,709 --> 01:12:40,239

or why why is it going on

2089

01:12:43,990 --> 01:12:42,719

generationally um

2090

01:12:45,350 --> 01:12:44,000

yeah so i mean

2091

01:12:47,110 --> 01:12:45,360

it is it

2092

01:12:48,470 --> 01:12:47,120

yeah there's a lot of baggage right

2093

01:12:51,990 --> 01:12:48,480

there is i mean it's emotional and

2094

01:12:53,669 --> 01:12:52,000

obviously serious serious topic

2095

01:12:55,430 --> 01:12:53,679

that's one that's one of the reasons why

2096

01:12:56,630 --> 01:12:55,440

i say i don't think we're ever going to

2097

01:12:58,229 --> 01:12:56,640

be uh

2098

01:13:01,030 --> 01:12:58,239

really really prepared for it or ready

2099

01:13:02,070 --> 01:13:01,040

for it acceptance acceptance of accepted

2100

01:13:03,030 --> 01:13:02,080

of it

2101
01:13:05,750 --> 01:13:03,040
because

2102
01:13:07,750 --> 01:13:05,760
what if we find out that um we're looked

2103
01:13:09,830 --> 01:13:07,760
at the same way we look at

2104
01:13:12,070 --> 01:13:09,840
uh you know all other biological life on

2105
01:13:14,229 --> 01:13:12,080
this planet you know we go and we go in

2106
01:13:15,590 --> 01:13:14,239
and snatch up an animal and dissect it

2107
01:13:17,270 --> 01:13:15,600
to learn about it

2108
01:13:18,790 --> 01:13:17,280
do we ask for permission do we give a

2109
01:13:19,990 --> 01:13:18,800
crap about what any of the other species

2110
01:13:23,350 --> 01:13:20,000
think no

2111
01:13:25,910 --> 01:13:23,360
so now now think of us you know sentient

2112
01:13:28,229 --> 01:13:25,920
beings of this planet finding out that

2113
01:13:30,149 --> 01:13:28,239

there's a higher intelligence way more

2114

01:13:32,229 --> 01:13:30,159

advanced doing the same with us and

2115

01:13:33,990 --> 01:13:32,239

don't care about what we think in

2116

01:13:35,750 --> 01:13:34,000

regards to that they don't care to ask

2117

01:13:37,189 --> 01:13:35,760

us for permission they're just doing

2118

01:13:38,550 --> 01:13:37,199

what they do the same way we do what we

2119

01:13:39,590 --> 01:13:38,560

do you know

2120

01:13:41,669 --> 01:13:39,600

so like

2121

01:13:42,950 --> 01:13:41,679

what do you how would you react to that

2122

01:13:44,310 --> 01:13:42,960

the fact that you're completely

2123

01:13:46,070 --> 01:13:44,320

powerless to this

2124

01:13:47,669 --> 01:13:46,080

you know i'll just be like dude you

2125

01:13:49,990 --> 01:13:47,679

don't want to look inside me i smoked

2126

01:13:51,910 --> 01:13:50,000

for 20 years i got black lungs

2127

01:13:52,790 --> 01:13:51,920

i'm not a good example no don't come and

2128

01:13:54,550 --> 01:13:52,800

get me

2129

01:13:57,110 --> 01:13:54,560

i mean i know i'm joking and i shouldn't

2130

01:13:58,790 --> 01:13:57,120

so you know but i do respect experiences

2131

01:13:59,990 --> 01:13:58,800

and things like that but

2132

01:14:01,270 --> 01:14:00,000

yeah it's a difficult one isn't it

2133

01:14:02,950 --> 01:14:01,280

because you know i always came at things

2134

01:14:04,070 --> 01:14:02,960

from a nuts and bolts angle but the way

2135

01:14:06,870 --> 01:14:04,080

the more you look at this and the more

2136

01:14:08,070 --> 01:14:06,880

you deep dive and research

2137

01:14:10,149 --> 01:14:08,080

there's so many different angles and

2138

01:14:12,709 --> 01:14:10,159

aspects of it it's not just a case of

2139

01:14:14,149 --> 01:14:12,719

things in the sky it's it's it's down to

2140

01:14:16,870 --> 01:14:14,159

these personal levels that we just

2141

01:14:19,830 --> 01:14:16,880

mentioned across generations so

2142

01:14:21,510 --> 01:14:19,840

yeah man there's so many more questions

2143

01:14:24,870 --> 01:14:21,520

than answers the more you look into it

2144

01:14:26,390 --> 01:14:24,880

it's that same old cliché

2145

01:14:28,390 --> 01:14:26,400

what do you think on the disclosure you

2146

01:14:31,910 --> 01:14:28,400

know do you think that the u.s

2147

01:14:33,990 --> 01:14:31,920

government knew or back in the 40s 50s

2148

01:14:35,669 --> 01:14:34,000

is that what you believed in ian it's i

2149

01:14:37,350 --> 01:14:35,679

think they knew something i think they

2150

01:14:39,750 --> 01:14:37,360

knew something about certain downed

2151
01:14:41,830 --> 01:14:39,760
craft and probably certain biological

2152
01:14:43,669 --> 01:14:41,840
entities and some bodies maybe but that

2153
01:14:45,830 --> 01:14:43,679
doesn't answer everything that answers

2154
01:14:48,630 --> 01:14:45,840
what happened then doesn't answer these

2155
01:14:49,990 --> 01:14:48,640
things that are supposedly seen

2156
01:14:51,350 --> 01:14:50,000
that look more like they're coming from

2157
01:14:54,149 --> 01:14:51,360
different dimensions that are blinking

2158
01:14:56,149 --> 01:14:54,159
in and out of existence on you know

2159
01:14:57,669 --> 01:14:56,159
i don't think it's all one thing and

2160
01:14:59,430 --> 01:14:57,679
that's just speculation but that's just

2161
01:15:01,430 --> 01:14:59,440
the way through my research that's what

2162
01:15:03,430 --> 01:15:01,440
i've come to that's why i say it's it's

2163
01:15:05,910 --> 01:15:03,440

ask it's given me more questions than

2164

01:15:07,270 --> 01:15:05,920

answers the more i look into it

2165

01:15:09,910 --> 01:15:07,280

yeah i guess the only thing i can think

2166

01:15:11,910 --> 01:15:09,920

of is um you know if your information is

2167

01:15:13,750 --> 01:15:11,920

compartmentalized in

2168

01:15:15,750 --> 01:15:13,760

in militaries or in governments right

2169

01:15:17,590 --> 01:15:15,760

it's usually hidden down

2170

01:15:20,149 --> 01:15:17,600

uh there's lists you know of who

2171

01:15:22,070 --> 01:15:20,159

actually even knows the information um

2172

01:15:23,510 --> 01:15:22,080

you know if you could pass through walls

2173

01:15:25,189 --> 01:15:23,520

travel through walls and you had

2174

01:15:27,430 --> 01:15:25,199

advanced technology it'd be pretty easy

2175

01:15:29,590 --> 01:15:27,440

to to get rid of all those lists and

2176

01:15:30,870 --> 01:15:29,600

they're not it can't be that many right

2177

01:15:33,990 --> 01:15:30,880

yeah you're talking about these super

2178

01:15:36,070 --> 01:15:34,000

secret areas there's not so much

2179

01:15:37,750 --> 01:15:36,080

um that's why i'm like just post that

2180

01:15:39,030 --> 01:15:37,760

sucker to youtube you know like half

2181

01:15:41,590 --> 01:15:39,040

that's supposed to put it on the

2182

01:15:42,790 --> 01:15:41,600

blockchain you know i mean they probably

2183

01:15:44,229 --> 01:15:42,800

they probably have quantum computers

2184

01:15:47,669 --> 01:15:44,239

right because you need quantum computers

2185

01:15:49,350 --> 01:15:47,679

to to beat uh like like bitcoin the nsa

2186

01:15:50,709 --> 01:15:49,360

can't hack bitcoin you know that's

2187

01:15:52,950 --> 01:15:50,719

that's why they don't like it right

2188

01:15:54,310 --> 01:15:52,960

because now for for like the first time

2189

01:15:56,390 --> 01:15:54,320

in history we have

2190

01:15:58,390 --> 01:15:56,400

greater cryptological advantage over uh

2191

01:15:59,510 --> 01:15:58,400

governments right that's it the control

2192

01:16:02,390 --> 01:15:59,520

is with us

2193

01:16:04,229 --> 01:16:02,400

yes yeah unless they say we can't do it

2194

01:16:05,910 --> 01:16:04,239

and so the government can do that right

2195

01:16:08,229 --> 01:16:05,920

like china they shut down all this all

2196

01:16:10,310 --> 01:16:08,239

the crypto uh essentially yeah so they

2197

01:16:11,590 --> 01:16:10,320

shut down everything man they shut down

2198

01:16:12,950 --> 01:16:11,600

you know house you can spend playing

2199

01:16:13,750 --> 01:16:12,960

video games

2200

01:16:18,550 --> 01:16:13,760

yeah

2201

01:16:22,149 --> 01:16:20,310

so no i get you though i i hear where

2202

01:16:23,750 --> 01:16:22,159

you're coming from exactly man

2203

01:16:25,189 --> 01:16:23,760

yeah so i don't know i could see that

2204

01:16:26,950 --> 01:16:25,199

happening i could see people make you

2205

01:16:28,950 --> 01:16:26,960

know it's a crazy time there in the 40s

2206

01:16:30,709 --> 01:16:28,960

and 50s you know you're talking

2207

01:16:32,390 --> 01:16:30,719

we were dropping literally nuclear bombs

2208

01:16:34,709 --> 01:16:32,400

on people and

2209

01:16:36,470 --> 01:16:34,719

you know they who could it's i don't

2210

01:16:38,630 --> 01:16:36,480

think we can imagine their thought

2211

01:16:40,070 --> 01:16:38,640

processes at the time you know the level

2212

01:16:42,070 --> 01:16:40,080

of violence they were in total war

2213

01:16:43,110 --> 01:16:42,080

situation

2214

01:16:44,950 --> 01:16:43,120

so i don't know i could see where they

2215

01:16:46,390 --> 01:16:44,960

disco they hide stuff because they think

2216

01:16:48,630 --> 01:16:46,400

you know whatever the commies are going

2217

01:16:50,470 --> 01:16:48,640

to get it you know and so i could see

2218

01:16:51,830 --> 01:16:50,480

them hiding it at that point

2219

01:16:53,430 --> 01:16:51,840

and then maybe

2220

01:16:55,750 --> 01:16:53,440

they just keep keep it secret for so

2221

01:16:57,590 --> 01:16:55,760

many years seems kind of crazy to me but

2222

01:16:59,189 --> 01:16:57,600

it's i guess it's possible

2223

01:17:01,270 --> 01:16:59,199

it's hard to speculate when you go back

2224

01:17:03,189 --> 01:17:01,280

that far i mean so many people was

2225

01:17:04,550 --> 01:17:03,199

asking questions about war and stuff

2226

01:17:06,630 --> 01:17:04,560

like that they weren't asking questions

2227

01:17:07,590 --> 01:17:06,640

about flying sources and that even

2228

01:17:08,790 --> 01:17:07,600

though it was

2229

01:17:11,189 --> 01:17:08,800

that's when it kind of started being

2230

01:17:13,189 --> 01:17:11,199

portrayed in in film and things like

2231

01:17:15,430 --> 01:17:13,199

that and popular culture that's kind of

2232

01:17:16,550 --> 01:17:15,440

the where it all sort of started but

2233

01:17:18,470 --> 01:17:16,560

they weren't asking the big deep

2234

01:17:19,590 --> 01:17:18,480

questions that we're asking now you know

2235

01:17:21,830 --> 01:17:19,600

asking the questions why the government

2236

01:17:23,110 --> 01:17:21,840

were hiding things you know when project

2237

01:17:24,870 --> 01:17:23,120

blue book was going on the public

2238

01:17:26,790 --> 01:17:24,880

weren't questioning it

2239

01:17:28,709 --> 01:17:26,800

you know it was only after the fact that

2240

01:17:31,830 --> 01:17:28,719

people were like hang on a minute

2241

01:17:34,870 --> 01:17:31,840

are they telling us the truth

2242

01:17:36,709 --> 01:17:34,880

you mean they're lying to us no no no

2243

01:17:39,189 --> 01:17:36,719

well that person may not be lying to you

2244

01:17:41,910 --> 01:17:39,199

that person may actually just not know

2245

01:17:44,229 --> 01:17:41,920

you know so compartmentalization exactly

2246

01:17:45,669 --> 01:17:44,239

yeah again you compartmentalize and and

2247

01:17:47,510 --> 01:17:45,679

that's the thing like if you get it

2248

01:17:49,430 --> 01:17:47,520

narrowed down so small

2249

01:17:52,070 --> 01:17:49,440

then it's a very small target to destroy

2250

01:17:53,270 --> 01:17:52,080

that information right so that's why if

2251

01:17:54,790 --> 01:17:53,280

you can travel through walls and really

2252

01:17:56,310 --> 01:17:54,800

do all this stuff it wouldn't be that

2253

01:17:57,669 --> 01:17:56,320

hard to get rid of it

2254

01:17:59,110 --> 01:17:57,679

yeah that's why i find it difficult when

2255

01:18:00,470 --> 01:17:59,120

people say well the government are never

2256

01:18:01,669 --> 01:18:00,480

going to tell us anything it's like

2257

01:18:04,310 --> 01:18:01,679

you're talking about this massive

2258

01:18:06,310 --> 01:18:04,320

umbrella of the government you know and

2259

01:18:08,070 --> 01:18:06,320

they're not telling us that you can't

2260

01:18:10,310 --> 01:18:08,080

say that you've got to dig right down

2261

01:18:13,510 --> 01:18:10,320

deep into the tiny little annexes at the

2262

01:18:15,830 --> 01:18:13,520

bottom with those few secret keepers

2263

01:18:17,990 --> 01:18:15,840

because everyone else has no idea

2264

01:18:20,470 --> 01:18:18,000

they wish they did but they don't

2265

01:18:22,070 --> 01:18:20,480

so it's not a simple and then sorry the

2266

01:18:23,830 --> 01:18:22,080

ones that are down there are then in

2267

01:18:25,910 --> 01:18:23,840

cahoots with the

2268

01:18:27,830 --> 01:18:25,920

few people within private corporations

2269

01:18:29,830 --> 01:18:27,840

like lockheed and so and so on and so

2270

01:18:31,990 --> 01:18:29,840

forth who might have information but

2271

01:18:33,430 --> 01:18:32,000

even within the private com corporations

2272

01:18:35,110 --> 01:18:33,440

there are need to know and

2273

01:18:36,470 --> 01:18:35,120

compartmentalization

2274

01:18:38,310 --> 01:18:36,480

and i just don't like this whole

2275

01:18:40,310 --> 01:18:38,320

umbrella speak of the government will

2276

01:18:41,590 --> 01:18:40,320

never tell you anything i i hate it when

2277

01:18:43,510 --> 01:18:41,600

people say that

2278

01:18:45,030 --> 01:18:43,520

yeah the uap report though it sold a lot

2279

01:18:46,709 --> 01:18:45,040

you know it really did

2280

01:18:47,910 --> 01:18:46,719

you know you got definite numbers in

2281

01:18:50,229 --> 01:18:47,920

there you got

2282

01:18:52,870 --> 01:18:50,239

you know so it's 11 safety i mean they

2283

01:18:54,790 --> 01:18:52,880

said you know it is a safety

2284

01:18:56,550 --> 01:18:54,800

safety factor you know it's a safety

2285

01:18:58,310 --> 01:18:56,560

issue for sure

2286

01:18:59,510 --> 01:18:58,320

and that is that you know that's that is

2287

01:19:02,950 --> 01:18:59,520

your

2288

01:19:04,390 --> 01:19:02,960

you know f in front of mom kind of

2289

01:19:06,390 --> 01:19:04,400

situation right the only reason you

2290

01:19:07,830 --> 01:19:06,400

would do that i mean it's all

2291

01:19:09,750 --> 01:19:07,840

flying is inherently dangerous

2292

01:19:11,350 --> 01:19:09,760

especially flying fighters and training

2293

01:19:14,550 --> 01:19:11,360

and everything very dangerous

2294

01:19:16,950 --> 01:19:14,560

but we do that um right um because the

2295

01:19:18,550 --> 01:19:16,960

risk is ultimately we think worth it but

2296

01:19:20,709 --> 01:19:18,560

only if you drive down your safety

2297

01:19:22,709 --> 01:19:20,719

numbers enough right if you lose a plane

2298

01:19:24,070 --> 01:19:22,719

every time you go and train

2299

01:19:25,990 --> 01:19:24,080

right

2300

01:19:27,430 --> 01:19:26,000

you're not gonna train um so you have to

2301

01:19:29,270 --> 01:19:27,440

drive your state so that's why safety

2302

01:19:31,189 --> 01:19:29,280

has to be the you have to focus on that

2303

01:19:32,630 --> 01:19:31,199

first right yeah because everyone's

2304

01:19:33,990 --> 01:19:32,640

focusing on the mission like everybody's

2305

01:19:35,750 --> 01:19:34,000

focused on the mission everybody wants

2306

01:19:37,510 --> 01:19:35,760

cooler weapons cooler toys we can shoot

2307

01:19:39,910 --> 01:19:37,520

them faster you know i'm like we already

2308

01:19:41,750 --> 01:19:39,920

shoot them really fast you know um but

2309

01:19:43,910 --> 01:19:41,760

but that's what they're focused on um

2310

01:19:45,910 --> 01:19:43,920

instead of you know i was always on the

2311

01:19:47,750 --> 01:19:45,920

nerdier side the safety side you know

2312

01:19:49,110 --> 01:19:47,760

like you know how can we do it without

2313

01:19:50,950 --> 01:19:49,120

losing assets how can we do it more

2314

01:19:53,189 --> 01:19:50,960

efficient um

2315

01:19:54,950 --> 01:19:53,199

so i don't the safety part but it is

2316

01:19:57,189 --> 01:19:54,960

it's a stopping point you know so if

2317

01:19:58,310 --> 01:19:57,199

they say safety someone has to like hit

2318

01:19:59,750 --> 01:19:58,320

the red button

2319

01:20:01,270 --> 01:19:59,760

so yeah and i think

2320

01:20:03,189 --> 01:20:01,280

yeah i think what people need to realize

2321

01:20:05,030 --> 01:20:03,199

as well that i get a lot of comments on

2322

01:20:06,709 --> 01:20:05,040

my especially on my instagram people

2323

01:20:09,030 --> 01:20:06,719

saying well these these things aren't a

2324

01:20:11,270 --> 01:20:09,040

threat i'm like listen tell that to the

2325

01:20:13,510 --> 01:20:11,280

pilots that having near misses with that

2326

01:20:14,709 --> 01:20:13,520

on a regular basis who are flying you

2327

01:20:16,870 --> 01:20:14,719

know

2328

01:20:19,990 --> 01:20:16,880

super fast in their jets and that who

2329

01:20:22,709 --> 01:20:20,000

are having to perform evasive maneuvers

2330

01:20:24,470 --> 01:20:22,719

just to avoid these things

2331

01:20:26,550 --> 01:20:24,480

how how can you say that these things

2332

01:20:28,950 --> 01:20:26,560

aren't a potential threat yet they're

2333

01:20:30,870 --> 01:20:28,960

they are experienced this by what ryan

2334

01:20:33,750 --> 01:20:30,880

graves says on an almost day-to-day

2335

01:20:36,229 --> 01:20:33,760

basis you know i i think people are just

2336

01:20:38,470 --> 01:20:36,239

so like la di da that aliens are just

2337

01:20:40,629 --> 01:20:38,480

here to help us man like

2338

01:20:43,990 --> 01:20:40,639

come on man it's not that black and

2339

01:20:45,669 --> 01:20:44,000

white no yeah you know it really isn't

2340

01:20:47,990 --> 01:20:45,679

and i you know

2341

01:20:50,709 --> 01:20:48,000

i don't know what to do

2342

01:20:52,390 --> 01:20:50,719

well island um qualified that the other

2343

01:20:53,910 --> 01:20:52,400

day on something i was watching he said

2344

01:20:56,070 --> 01:20:53,920

you know threat threat means two

2345

01:20:58,390 --> 01:20:56,080

different things if it's aggression

2346

01:20:59,830 --> 01:20:58,400

that's a different threat to safety and

2347

01:21:01,430 --> 01:20:59,840

like you're saying safety is the most

2348

01:21:03,270 --> 01:21:01,440

important thing i mean the fact that

2349

01:21:05,910 --> 01:21:03,280

these things are zipping between two

2350

01:21:09,669 --> 01:21:05,920

jets yeah when they're 100 feet apart

2351
01:21:11,910 --> 01:21:09,679
you know which isn't a lot um you know

2352
01:21:14,550 --> 01:21:11,920
it's they met these these objects might

2353
01:21:16,149 --> 01:21:14,560
not collide they may be just due not to

2354
01:21:18,790 --> 01:21:16,159
collide with stuff but it's not it's not

2355
01:21:19,590 --> 01:21:18,800
going to stop one of the jets panicking

2356
01:21:20,709 --> 01:21:19,600
and

2357
01:21:22,470 --> 01:21:20,719
flying

2358
01:21:23,830 --> 01:21:22,480
banking instantly i mean chris you could

2359
01:21:25,669 --> 01:21:23,840
attest to that how would that have made

2360
01:21:28,149 --> 01:21:25,679
you feel you got your f-16 you got your

2361
01:21:30,550 --> 01:21:28,159
wingman off your wing 100 feet or 200

2362
01:21:31,990 --> 01:21:30,560
feet and this thing's coming between you

2363
01:21:32,950 --> 01:21:32,000

i mean i can pretty much guess what

2364

01:21:36,070 --> 01:21:32,960

you're going to say but how would that

2365

01:21:38,790 --> 01:21:36,080

have made you feel man

2366

01:21:40,310 --> 01:21:38,800

i have no idea honestly

2367

01:21:42,390 --> 01:21:40,320

you wouldn't be happy about it would you

2368

01:21:44,870 --> 01:21:42,400

i guess they had some they knew about it

2369

01:21:47,189 --> 01:21:44,880

you know um

2370

01:21:49,590 --> 01:21:47,199

yeah i mean i don't move you know

2371

01:21:51,110 --> 01:21:49,600

i move so slow like my wife

2372

01:21:52,310 --> 01:21:51,120

you know she like catches glasses and

2373

01:21:53,510 --> 01:21:52,320

stuff but i've just been trying like i

2374

01:21:54,950 --> 01:21:53,520

don't move

2375

01:21:56,790 --> 01:21:54,960

like if something happens

2376

01:21:58,709 --> 01:21:56,800

you know on a plane if you if you have

2377

01:22:00,149 --> 01:21:58,719

this jerk reaction it's usually a bad

2378

01:22:01,990 --> 01:22:00,159

reaction you know so

2379

01:22:03,350 --> 01:22:02,000

i go the opposite now like a glass falls

2380

01:22:05,750 --> 01:22:03,360

and i'm just like

2381

01:22:07,430 --> 01:22:05,760

you know i just watch it you know

2382

01:22:09,350 --> 01:22:07,440

reaction you know it's getting better

2383

01:22:11,910 --> 01:22:09,360

i'm trying to like come on man like

2384

01:22:13,350 --> 01:22:11,920

you totally could have cut that uh

2385

01:22:15,750 --> 01:22:13,360

so i wouldn't have done anything really

2386

01:22:17,350 --> 01:22:15,760

i've just been not crashing into the any

2387

01:22:19,350 --> 01:22:17,360

you know and i was just sitting by and

2388

01:22:20,870 --> 01:22:19,360

be like holy [h__h] you know i think i

2389

01:22:22,470 --> 01:22:20,880

think that's really all that

2390

01:22:24,790 --> 01:22:22,480

that would happen stay still and

2391

01:22:26,709 --> 01:22:24,800

nothing's gonna happen

2392

01:22:28,629 --> 01:22:26,719

yeah i don't know how you process it you

2393

01:22:30,390 --> 01:22:28,639

know i don't know yeah they knew about

2394

01:22:32,149 --> 01:22:30,400

it though they had some idea

2395

01:22:34,709 --> 01:22:32,159

well they did yeah they i mean they

2396

01:22:36,229 --> 01:22:34,719

spoke between themselves you know

2397

01:22:37,270 --> 01:22:36,239

i think there was so many conversations

2398

01:22:39,110 --> 01:22:37,280

and we heard i think i've heard ryan

2399

01:22:40,950 --> 01:22:39,120

graves say this before that they would

2400

01:22:42,229 --> 01:22:40,960

have these conversations each time you

2401

01:22:44,149 --> 01:22:42,239

know another squadron went up and that'd

2402

01:22:45,669 --> 01:22:44,159

be like be careful out there they're

2403

01:22:47,510 --> 01:22:45,679

still up there every day we're still

2404

01:22:49,110 --> 01:22:47,520

seeing them like you know joking within

2405

01:22:50,950 --> 01:22:49,120

themselves we're not joking but like

2406

01:22:53,110 --> 01:22:50,960

just

2407

01:22:54,629 --> 01:22:53,120

kind of casually speaking like yep

2408

01:22:55,430 --> 01:22:54,639

they're still up there that kind of

2409

01:22:58,390 --> 01:22:55,440

thing

2410

01:23:00,550 --> 01:22:58,400

like nervous laughter yeah like yeah

2411

01:23:02,790 --> 01:23:00,560

that's exactly it

2412

01:23:05,750 --> 01:23:02,800

okay yeah yeah yeah

2413

01:23:07,110 --> 01:23:05,760

his last his uh in his presentation his

2414

01:23:09,350 --> 01:23:07,120

last statement you know where the

2415

01:23:11,110 --> 01:23:09,360

commander of the squadron says it's only

2416

01:23:13,110 --> 01:23:11,120

a matter of time before there's a mishap

2417

01:23:14,870 --> 01:23:13,120

i mean that's just exactly

2418

01:23:17,270 --> 01:23:14,880

he's not like but i think it would be

2419

01:23:19,350 --> 01:23:17,280

more human error than anything

2420

01:23:22,310 --> 01:23:19,360

because this very very very very few

2421

01:23:23,669 --> 01:23:22,320

cases of an unidentified object

2422

01:23:26,310 --> 01:23:23,679

colliding

2423

01:23:28,390 --> 01:23:26,320

with a you know airplane or anything

2424

01:23:30,229 --> 01:23:28,400

like that in the sky

2425

01:23:32,709 --> 01:23:30,239

how do we know that i've heard about

2426

01:23:34,709 --> 01:23:32,719

we've been very very there are a few i

2427

01:23:37,030 --> 01:23:34,719

know it's very no there's a there are a

2428

01:23:38,310 --> 01:23:37,040

few but this it's not like to the point

2429

01:23:40,070 --> 01:23:38,320

where you got to be like oh my god these

2430

01:23:41,430 --> 01:23:40,080

guys don't know how they how to drive up

2431

01:23:43,270 --> 01:23:41,440

there you know what i'm saying

2432

01:23:45,270 --> 01:23:43,280

but um

2433

01:23:46,390 --> 01:23:45,280

it's it's i think

2434

01:23:49,030 --> 01:23:46,400

they know what they're doing you know

2435

01:23:50,709 --> 01:23:49,040

especially when you are flying at 16 000

2436

01:23:53,270 --> 01:23:50,719

miles per hour right over the surface of

2437

01:23:54,629 --> 01:23:53,280

the land and not crash into anything

2438

01:23:56,550 --> 01:23:54,639

pretty sure you you know your your

2439

01:23:58,149 --> 01:23:56,560

skills are up there too

2440

01:24:00,629 --> 01:23:58,159

did you guys read this statement from

2441

01:24:03,430 --> 01:24:00,639

tom delong

2442

01:24:05,750 --> 01:24:03,440

it's a bit small but it's um

2443

01:24:07,030 --> 01:24:05,760

it's talking about videos that they were

2444

01:24:08,709 --> 01:24:07,040

trying to get released at the time of

2445

01:24:10,550 --> 01:24:08,719

the gimbal go faster than the tic tac

2446

01:24:12,790 --> 01:24:10,560

and it's saying there's

2447

01:24:13,750 --> 01:24:12,800

and there were 26 videos

2448

01:24:15,990 --> 01:24:13,760

um

2449

01:24:18,310 --> 01:24:16,000

one very small did some of the videos

2450

01:24:19,830 --> 01:24:18,320

have ufos 10 feet away from the f-18

2451

01:24:22,550 --> 01:24:19,840

tracking them for 20 minutes and it's

2452

01:24:24,629 --> 01:24:22,560

all on camera the ufo's going 600 miles

2453

01:24:25,910 --> 01:24:24,639

an hour and the pilot's freaking out

2454

01:24:27,990 --> 01:24:25,920

screaming

2455

01:24:31,350 --> 01:24:28,000

and all this thing is scanning the plane

2456

01:24:33,189 --> 01:24:31,360

for a whole 20 minutes like

2457

01:24:35,030 --> 01:24:33,199

i'm pretty sure that's a freak i'm

2458

01:24:37,189 --> 01:24:35,040

pretty sure that's the one that lou was

2459

01:24:38,950 --> 01:24:37,199

mentioning with a guy who soiled himself

2460

01:24:40,390 --> 01:24:38,960

i think so as well i'm gonna speak i'm

2461

01:24:43,270 --> 01:24:40,400

gonna ask that question next week like

2462

01:24:45,669 --> 01:24:43,280

he literally soiled himself

2463

01:24:47,590 --> 01:24:45,679

so yeah from the fear that is the 23

2464

01:24:49,030 --> 01:24:47,600

minute video i think so i'm going to try

2465

01:24:51,430 --> 01:24:49,040

and get a bit yeah i'm going to dig in

2466

01:24:53,350 --> 01:24:51,440

with that with low a little bit you know

2467

01:24:55,990 --> 01:24:53,360

we'll see

2468

01:24:57,830 --> 01:24:56,000

yeah yeah 19 well the 19th so what where

2469

01:25:00,790 --> 01:24:57,840

are we eight days away so a week

2470

01:25:02,629 --> 01:25:00,800

tomorrow yeah lou's coming on again

2471

01:25:04,390 --> 01:25:02,639

so i've got him for an hour hour and a

2472

01:25:05,910 --> 01:25:04,400

quarter something like that

2473

01:25:07,270 --> 01:25:05,920

yeah so

2474

01:25:09,270 --> 01:25:07,280

yeah if you guys got any questions you

2475

01:25:11,189 --> 01:25:09,280

want to ask him just just let me know

2476
01:25:12,709 --> 01:25:11,199
about the compass i don't know i i mean

2477
01:25:15,350 --> 01:25:12,719
i kind of feel bad if it is you know

2478
01:25:17,430 --> 01:25:15,360
because he he was pretty obvious but

2479
01:25:18,709 --> 01:25:17,440
wow

2480
01:25:20,390 --> 01:25:18,719
i was going to bring something up along

2481
01:25:22,709 --> 01:25:20,400
the lines of the sensor system and i

2482
01:25:24,149 --> 01:25:22,719
think i mean i i've been thinking about

2483
01:25:25,510 --> 01:25:24,159
it behind the scenes trying to work it

2484
01:25:27,669 --> 01:25:25,520
out and i thought you know like i said

2485
01:25:29,189 --> 01:25:27,679
that was on my list of three

2486
01:25:31,189 --> 01:25:29,199
i didn't want to say anything right now

2487
01:25:33,910 --> 01:25:31,199
but because you said it i'm not okay

2488
01:25:35,510 --> 01:25:33,920

sorry i don't know it's absolutely fine

2489

01:25:38,070 --> 01:25:35,520

yeah you know it's great i think more

2490

01:25:40,229 --> 01:25:38,080

people should know i i just hadn't

2491

01:25:41,270 --> 01:25:40,239

really finished what i was doing but you

2492

01:25:42,550 --> 01:25:41,280

know what

2493

01:25:43,830 --> 01:25:42,560

that's just i'm just gonna throw it out

2494

01:25:45,510 --> 01:25:43,840

there to lou

2495

01:25:47,350 --> 01:25:45,520

and there is i was trying to find it i

2496

01:25:49,590 --> 01:25:47,360

couldn't find it on my phone but martin

2497

01:25:51,510 --> 01:25:49,600

uh from from denmark he he sent a list

2498

01:25:54,229 --> 01:25:51,520

there are these um

2499

01:25:56,790 --> 01:25:54,239

i don't know magnetic detectors around

2500

01:25:58,310 --> 01:25:56,800

you can actually look online to find uh

2501
01:26:00,310 --> 01:25:58,320
i don't know compass measurements i

2502
01:26:02,790 --> 01:26:00,320
guess i'm not sure but i'm looking into

2503
01:26:04,550 --> 01:26:02,800
it maybe there is a national like

2504
01:26:05,430 --> 01:26:04,560
you know magnetic detection system or

2505
01:26:08,790 --> 01:26:05,440
something

2506
01:26:10,709 --> 01:26:08,800
that detects fields for some reason

2507
01:26:12,070 --> 01:26:10,719
so i don't know i was looking at emfs

2508
01:26:13,430 --> 01:26:12,080
too but i couldn't find anything below

2509
01:26:15,270 --> 01:26:13,440
50 hertz you know it's just like these

2510
01:26:17,510 --> 01:26:15,280
cheap crappy ones

2511
01:26:18,629 --> 01:26:17,520
that go from like 50 to 60 hertz

2512
01:26:21,350 --> 01:26:18,639
yeah i've been looking at trying to get

2513
01:26:23,910 --> 01:26:21,360

some ton of data equipment whether it be

2514

01:26:25,830 --> 01:26:23,920

some flare system or some night vision

2515

01:26:28,070 --> 01:26:25,840

or something but yeah

2516

01:26:29,510 --> 01:26:28,080

yeah i have bad skies here and so i want

2517

01:26:30,870 --> 01:26:29,520

to see beyond the clouds that we have

2518

01:26:32,709 --> 01:26:30,880

here nightly and

2519

01:26:34,149 --> 01:26:32,719

you can get flare systems that made by

2520

01:26:35,270 --> 01:26:34,159

flare that actually clip onto your

2521

01:26:37,110 --> 01:26:35,280

iphone

2522

01:26:39,350 --> 01:26:37,120

i've been considering that but then i

2523

01:26:41,430 --> 01:26:39,360

won't get much much distance so i don't

2524

01:26:43,270 --> 01:26:41,440

know andy you've got kind of a neat bit

2525

01:26:44,550 --> 01:26:43,280

okay haven't you you've got one of them

2526

01:26:46,790 --> 01:26:44,560

yeah

2527

01:26:48,709 --> 01:26:46,800

the luna optic third generation uh

2528

01:26:50,709 --> 01:26:48,719

infrared

2529

01:26:53,030 --> 01:26:50,719

yeah i'm just not right it's actually

2530

01:26:54,149 --> 01:26:53,040

crystal crystal clear at night the only

2531

01:26:55,990 --> 01:26:54,159

problem is there's so many damn

2532

01:26:57,830 --> 01:26:56,000

mosquitoes out here that i don't want to

2533

01:26:59,510 --> 01:26:57,840

sit outside in the middle of the night

2534

01:27:01,830 --> 01:26:59,520

i'm waiting for winter to come then i go

2535

01:27:03,590 --> 01:27:01,840

outside you know calmly look up but if i

2536

01:27:05,270 --> 01:27:03,600

do it now forget it i'll freaking die of

2537

01:27:07,030 --> 01:27:05,280

some kind of disease

2538

01:27:12,310 --> 01:27:07,040

goldie just look like a mosquito swarm

2539

01:27:16,950 --> 01:27:15,030

but it is good i'm waiting for that to

2540

01:27:19,510 --> 01:27:16,960

start using it because

2541

01:27:21,350 --> 01:27:19,520

um the clarity is amazing i know i'll

2542

01:27:23,030 --> 01:27:21,360

catch something really good

2543

01:27:24,229 --> 01:27:23,040

yeah now that's cool man well listen

2544

01:27:26,550 --> 01:27:24,239

guys we're about to hit the hour and a

2545

01:27:27,750 --> 01:27:26,560

half mark this is flown by has anyone

2546

01:27:28,709 --> 01:27:27,760

got anything they want to talk about

2547

01:27:30,629 --> 01:27:28,719

before we

2548

01:27:32,709 --> 01:27:30,639

sign off or

2549

01:27:34,310 --> 01:27:32,719

we

2550

01:27:36,149 --> 01:27:34,320

i was going to say just backtracking to

2551

01:27:38,870 --> 01:27:36,159

what andy was saying about his encounter

2552

01:27:40,550 --> 01:27:38,880

and being 100 feet away from something i

2553

01:27:43,189 --> 01:27:40,560

think if my

2554

01:27:45,750 --> 01:27:43,199

sighting had been anything closer than

2555

01:27:47,430 --> 01:27:45,760

you know anything close to that i think

2556

01:27:48,870 --> 01:27:47,440

my reaction would have been a lot

2557

01:27:51,830 --> 01:27:48,880

different

2558

01:27:53,590 --> 01:27:51,840

yeah yeah i think i think you know i

2559

01:27:55,030 --> 01:27:53,600

would have had to have talked to

2560

01:27:57,350 --> 01:27:55,040

somebody about it probably from the

2561

01:27:59,350 --> 01:27:57,360

psychological aspect yeah

2562

01:28:01,270 --> 01:27:59,360

seeing something that close i mean

2563

01:28:03,910 --> 01:28:01,280

you're seeing it and then you go i can't

2564

01:28:05,669 --> 01:28:03,920

be seeing this why why am i seeing that

2565

01:28:07,910 --> 01:28:05,679

i can't i can't be seeing this this

2566

01:28:09,350 --> 01:28:07,920

isn't real it can't be real it is real

2567

01:28:10,870 --> 01:28:09,360

you know that's just all the things that

2568

01:28:13,750 --> 01:28:10,880

must go through your head when you see

2569

01:28:15,750 --> 01:28:13,760

something that close up i mean i could

2570

01:28:18,070 --> 01:28:15,760

literally just

2571

01:28:20,470 --> 01:28:18,080

see it from a distance or a big distance

2572

01:28:22,709 --> 01:28:20,480

so i didn't have that i was quite

2573

01:28:25,030 --> 01:28:22,719

excited but i didn't have the fear thing

2574

01:28:26,550 --> 01:28:25,040

it was i was it was more of a

2575

01:28:28,470 --> 01:28:26,560

it was more of a you know being

2576

01:28:31,830 --> 01:28:28,480

inquisitive as to what it was what could

2577

01:28:33,350 --> 01:28:31,840

it be um it's only recently this become

2578

01:28:34,550 --> 01:28:33,360

that it may have been more than i

2579

01:28:35,430 --> 01:28:34,560

thought it was

2580

01:28:36,709 --> 01:28:35,440

so

2581

01:28:39,189 --> 01:28:36,719

you know but yeah

2582

01:28:40,070 --> 01:28:39,199

i would love i would love all hate to

2583

01:28:42,149 --> 01:28:40,080

see

2584

01:28:45,110 --> 01:28:42,159

one minute close up you know because i

2585

01:28:46,229 --> 01:28:45,120

think the fear factor would be quite

2586

01:28:47,750 --> 01:28:46,239

quite visceral

2587

01:28:50,229 --> 01:28:47,760

that's well that's why i say that you

2588

01:28:51,910 --> 01:28:50,239

know everybody behind you know they oh

2589

01:28:54,390 --> 01:28:51,920

yeah i want to see one i want to see one

2590

01:28:55,590 --> 01:28:54,400

and yeah when you're actually that close

2591

01:28:56,709 --> 01:28:55,600

to one

2592

01:28:57,910 --> 01:28:56,719

you know you don't know how you're going

2593

01:28:59,910 --> 01:28:57,920

to react you don't know what it's going

2594

01:29:02,229 --> 01:28:59,920

to do to you psychologically you know

2595

01:29:04,950 --> 01:29:02,239

it's it's that just the the

2596

01:29:06,709 --> 01:29:04,960

the impact of seeing that is just

2597

01:29:08,470 --> 01:29:06,719

you know vinnie knows that's how i i

2598

01:29:10,550 --> 01:29:08,480

spoke about i told chris so you know the

2599

01:29:12,550 --> 01:29:10,560

story also but psychologically it

2600

01:29:14,550 --> 01:29:12,560

impacted me my entire life

2601
01:29:16,790 --> 01:29:14,560
you know and that's just seeing it from

2602
01:29:18,550 --> 01:29:16,800
that close now imagine this thing

2603
01:29:20,550 --> 01:29:18,560
landing and something coming out of it

2604
01:29:21,830 --> 01:29:20,560
and coming up to you forget it you'd be

2605
01:29:23,030 --> 01:29:21,840
running for the hills you wouldn't want

2606
01:29:25,270 --> 01:29:23,040
to stick around to see what this thing

2607
01:29:26,709 --> 01:29:25,280
was well at least the majority of people

2608
01:29:30,149 --> 01:29:26,719
me i'd be running towards you trying to

2609
01:29:33,910 --> 01:29:31,590
but you know it

2610
01:29:35,750 --> 01:29:33,920
most people i don't i don't think they

2611
01:29:39,910 --> 01:29:35,760
actually have

2612
01:29:40,870 --> 01:29:39,920
the the um the psychological i i guess

2613
01:29:44,229 --> 01:29:40,880

strength

2614

01:29:46,070 --> 01:29:44,239

to actually see that in real life in the

2615

01:29:47,510 --> 01:29:46,080

flesh right in front of you that's

2616

01:29:49,910 --> 01:29:47,520

that's just

2617

01:29:51,030 --> 01:29:49,920

it's it's a whole nother level like of

2618

01:29:54,310 --> 01:29:51,040

of

2619

01:29:57,750 --> 01:29:54,320

it's

2620

01:30:00,149 --> 01:29:57,760

me to explain it you just have to you

2621

01:30:02,310 --> 01:30:00,159

have to see it you know you have to wait

2622

01:30:03,830 --> 01:30:02,320

and bro i'm waiting

2623

01:30:07,430 --> 01:30:03,840

you know it's it's pretty it's

2624

01:30:10,470 --> 01:30:08,790

do you have those moments where you

2625

01:30:12,950 --> 01:30:10,480

completely disbelieve yourself when you

2626
01:30:14,950 --> 01:30:12,960
think back

2627
01:30:16,550 --> 01:30:14,960
let's put it let's say this i i tell

2628
01:30:21,350 --> 01:30:16,560
people

2629
01:30:23,669 --> 01:30:21,360
it's it's so it's so incredible when you

2630
01:30:25,910 --> 01:30:23,679
see it that you actually

2631
01:30:27,830 --> 01:30:25,920
don't believe your own eyes number one

2632
01:30:29,830 --> 01:30:27,840
and it looks like real life the only way

2633
01:30:31,110 --> 01:30:29,840
i could describe it is like

2634
01:30:34,629 --> 01:30:31,120
it looks like you're looking at real

2635
01:30:36,310 --> 01:30:34,639
life cgi that's how incredible it is

2636
01:30:37,750 --> 01:30:36,320
like that's i i can't put it in any

2637
01:30:39,590 --> 01:30:37,760
other terms it's like you're looking at

2638
01:30:42,310 --> 01:30:39,600

something that was literally

2639

01:30:45,030 --> 01:30:42,320

put there by a computer and you know the

2640

01:30:46,550 --> 01:30:45,040

way it moved was just off everything

2641

01:30:47,990 --> 01:30:46,560

about it was just like

2642

01:30:48,709 --> 01:30:48,000

what am i looking at you know what i'm

2643

01:30:51,030 --> 01:30:48,719

saying

2644

01:30:52,550 --> 01:30:51,040

so this is why i say you know people

2645

01:30:54,390 --> 01:30:52,560

think they're ready but i don't really

2646

01:30:56,550 --> 01:30:54,400

think they are maybe a handful of

2647

01:30:58,790 --> 01:30:56,560

humanity may be able to

2648

01:31:00,709 --> 01:30:58,800

you know prepare themselves and and be

2649

01:31:02,950 --> 01:31:00,719

okay with it you know but i don't think

2650

01:31:05,110 --> 01:31:02,960

the majority of people will be able to

2651

01:31:06,709 --> 01:31:05,120

handle something like that it's

2652

01:31:10,709 --> 01:31:06,719

it's pretty

2653

01:31:13,510 --> 01:31:10,719

but then why not open disclosure you

2654

01:31:15,270 --> 01:31:13,520

know is it the government's all unitedly

2655

01:31:17,030 --> 01:31:15,280

not uh admitting and i can't believe

2656

01:31:18,709 --> 01:31:17,040

that's true you know or is it all of

2657

01:31:21,430 --> 01:31:18,719

these disparate you know

2658

01:31:23,669 --> 01:31:21,440

aliens not not wanting to learn or they

2659

01:31:24,390 --> 01:31:23,679

can't we just physically can't

2660

01:31:25,830 --> 01:31:24,400

but

2661

01:31:27,270 --> 01:31:25,840

here's the thing even if even if the

2662

01:31:29,350 --> 01:31:27,280

government disclosed it right and said

2663

01:31:31,669 --> 01:31:29,360

yeah all this is real

2664

01:31:34,390 --> 01:31:31,679

you have to also think about how much

2665

01:31:37,590 --> 01:31:34,400

the what the government's done you know

2666

01:31:39,750 --> 01:31:37,600

it uh sit from them to now to cover this

2667

01:31:41,590 --> 01:31:39,760

up you know people oft

2668

01:31:43,270 --> 01:31:41,600

experiments that probably been done uh

2669

01:31:44,470 --> 01:31:43,280

you know that involve humans and stuff

2670

01:31:45,990 --> 01:31:44,480

like that a lot of other things are

2671

01:31:48,550 --> 01:31:46,000

going to come to light because you're

2672

01:31:50,629 --> 01:31:48,560

now saying okay yeah it's real so now

2673

01:31:52,709 --> 01:31:50,639

that means all these other stories that

2674

01:31:54,629 --> 01:31:52,719

you've heard may possibly be real too

2675

01:31:56,310 --> 01:31:54,639

yeah you know yeah

2676

01:31:57,830 --> 01:31:56,320

you're going to want to freaking admit

2677

01:32:01,189 --> 01:31:57,840

that you know what i'm saying it's going

2678

01:32:02,310 --> 01:32:01,199

to be a freaking pr nightmare

2679

01:32:05,189 --> 01:32:02,320

yeah yeah

2680

01:32:07,350 --> 01:32:05,199

well let's do it you know

2681

01:32:10,149 --> 01:32:07,360

your own evidence man

2682

01:32:13,510 --> 01:32:10,159

you make you bet you lie in it

2683

01:32:15,750 --> 01:32:13,520

that's so funny well listen guys

2684

01:32:17,430 --> 01:32:15,760

thank you so much man like let's do this

2685

01:32:18,870 --> 01:32:17,440

like regularly maybe once a month every

2686

01:32:20,790 --> 01:32:18,880

couple of months or something i feel i

2687

01:32:22,709 --> 01:32:20,800

feel like these conversations when

2688

01:32:24,550 --> 01:32:22,719

they're a bit more organic

2689

01:32:26,629 --> 01:32:24,560

i think people find or get a lot more

2690

01:32:28,550 --> 01:32:26,639

out of them than it's just interviews

2691

01:32:29,990 --> 01:32:28,560

and stuff like that people have been

2692

01:32:31,750 --> 01:32:30,000

messaging me going you need to do more

2693

01:32:33,590 --> 01:32:31,760

panel discussions so

2694

01:32:36,870 --> 01:32:33,600

thank you for that man i really enjoyed

2695

01:32:39,110 --> 01:32:36,880

that so um yeah man like again let's do

2696

01:32:41,030 --> 01:32:39,120

it again in the future and get dave

2697

01:32:43,110 --> 01:32:41,040

involved and other guests as well and

2698

01:32:45,110 --> 01:32:43,120

just keep switching it around and we can

2699

01:32:47,510 --> 01:32:45,120

have up to like eight or ten on these

2700

01:32:48,390 --> 01:32:47,520

stream yards so let's get it going man

2701
01:32:53,110 --> 01:32:48,400
so

2702
01:32:55,350 --> 01:32:53,120
yeah thanks nigel thank you

2703
01:32:56,629 --> 01:32:55,360
nigel thank you brother man

2704
01:32:58,629 --> 01:32:56,639
thank you guys

2705
01:33:01,510 --> 01:32:58,639
it's been fun yeah you said it would be

2706
01:33:06,310 --> 01:33:01,520
fun and it was yeah yeah yeah

2707
01:33:06,320 --> 01:33:11,950
surprise videos

2708
01:33:11,960 --> 01:33:21,510
[Laughter]

2709
01:33:24,870 --> 01:33:23,189
uh commented on his

2710
01:33:27,430 --> 01:33:24,880
sneaky glass of malbec and he said

2711
01:33:29,430 --> 01:33:27,440
always malbec you know so

2712
01:33:31,990 --> 01:33:29,440
that's just it's always a cheers thumbs

2713
01:33:33,669 --> 01:33:32,000

up with a glass of wine next to it yeah

2714

01:33:35,350 --> 01:33:33,679

love it man i absolutely love it well

2715

01:33:37,110 --> 01:33:35,360

actually i don't it's funny that i got

2716

01:33:39,430 --> 01:33:37,120

associated with being a drinker on

2717

01:33:41,430 --> 01:33:39,440

youtube and instagram but hey you know

2718

01:33:45,189 --> 01:33:41,440

at least it isn't just beer

2719

01:33:46,470 --> 01:33:45,199

i keep only wine i keep it classy

2720

01:33:48,390 --> 01:33:46,480

you're a classic

2721

01:33:50,709 --> 01:33:48,400

hey yeah there you go

2722

01:33:51,750 --> 01:33:50,719

it could be worse um i just want to give

2723

01:33:53,189 --> 01:33:51,760

a shout out to everyone that's been

2724

01:33:54,870 --> 01:33:53,199

watching live tonight as well thank you

2725

01:33:57,110 --> 01:33:54,880

so much i appreciate you guys all the

2726

01:33:59,669 --> 01:33:57,120

guys that question us and make us

2727

01:34:01,510 --> 01:33:59,679

you know really have good debates i

2728

01:34:03,110 --> 01:34:01,520

appreciate you guys as well because that

2729

01:34:05,270 --> 01:34:03,120

just motivates us to keep doing what

2730

01:34:06,790 --> 01:34:05,280

we're doing as well so i do appreciate

2731

01:34:08,070 --> 01:34:06,800

that aspect of things as well so don't

2732

01:34:09,189 --> 01:34:08,080

think that we're just against you

2733

01:34:10,070 --> 01:34:09,199

because we're not

2734

01:34:10,870 --> 01:34:10,080

um

2735

01:34:12,629 --> 01:34:10,880

yeah

2736

01:34:13,990 --> 01:34:12,639

guys thank you so much man keep in touch

2737

01:34:16,709 --> 01:34:14,000

and we'll speak soon you guys thank you

2738

01:34:19,510 --> 01:34:16,719

chris you guys randy it's like yeah it's
