00:00:34,389 --> 00:00:31,910

[Music]

2
00:00:36,630 --> 00:00:34,399

hello everyone thank you so much for

3
00:00:39,270 --> 00:00:36,640

joining me today i hope everyone is

4
00:00:41,590 --> 00:00:39,280

doing well i just want to take this

5
00:00:43,270 --> 00:00:41,600

moment to say a big thank you to max

6
00:00:46,150 --> 00:00:43,280

moskowitz for letting me jump on his

7
00:00:48,310 --> 00:00:46,160

channel for the last hour that was great

8
00:00:49,910 --> 00:00:48,320

um always love speaking to max and then

9
00:00:52,549 --> 00:00:49,920

i want to just shout out the moderators

10
00:00:56,229 --> 00:00:52,559

max who's in here dan the signal my

11
00:00:57,510 --> 00:00:56,239

brother and josh uap uk thank you for um

12
00:00:59,189 --> 00:00:57,520

for the work and

13
00:01:01,590 --> 00:00:59,199

you know making sure the chat

14

00:01:03,110 --> 00:01:01,600

stay mature and classy so i'm sure

15

00:01:05,350 --> 00:01:03,120

there'll be no problems

16

00:01:07,350 --> 00:01:05,360

so yeah um let's get into it without

17

00:01:09,030 --> 00:01:07,360

further ado guys this is why we're here

18

00:01:11,109 --> 00:01:09,040

i'd like to introduce

19

00:01:13,190 --> 00:01:11,119

mr elizondo

20

00:01:14,950 --> 00:01:13,200

hi everybody thanks for having me hey

21

00:01:16,950 --> 00:01:14,960

lou thank you so much for joining me

22

00:01:19,270 --> 00:01:16,960

again it is always an honor and a

23

00:01:20,950 --> 00:01:19,280

pleasure so how are you doing today

24

00:01:22,710 --> 00:01:20,960

oh my goodness um

25

00:01:24,070 --> 00:01:22,720

well you know i know i say this it's

26

00:01:26,070 --> 00:01:24,080

probably a cliché at this point but

27

00:01:28,950 --> 00:01:26,080

every day above ground is a good day so

28

00:01:31,510 --> 00:01:28,960

i'm i'm not complaining um you know

29

00:01:32,950 --> 00:01:31,520

everything is uh is is pretty good

30

00:01:34,870 --> 00:01:32,960

good and you've um

31

00:01:37,510 --> 00:01:34,880

adjusted back to being at home after

32

00:01:39,830 --> 00:01:37,520

your trip at the last weekend

33

00:01:42,149 --> 00:01:39,840

i mean honestly i i've traveled so much

34

00:01:45,109 --> 00:01:42,159

in my career uh even before i ever did

35

00:01:46,789 --> 00:01:45,119

this um i adjust the time zones pretty

36

00:01:48,310 --> 00:01:46,799

pretty quick

37

00:01:50,310 --> 00:01:48,320

so for me it's

38

00:01:52,069 --> 00:01:50,320

i don't really know where i am at any

39

00:01:54,149 --> 00:01:52,079

particular day until i look around and i

40

00:01:56,709 --> 00:01:54,159

realize what time zone i'm in but yeah

41

00:01:59,030 --> 00:01:56,719

i'm i'm i'm quite quite well thanks

42

00:02:00,709 --> 00:01:59,040

now good glad to hear it now let's just

43

00:02:02,469 --> 00:02:00,719

bring up san marino i know it's pretty

44

00:02:04,870 --> 00:02:02,479

much been spoken about quite a few times

45

00:02:06,550 --> 00:02:04,880

this week max did an excellent job while

46

00:02:08,949 --> 00:02:06,560

you and max did an excellent job with

47

00:02:11,910 --> 00:02:08,959

the videos that you did live from san

48

00:02:13,910 --> 00:02:11,920

marino um but let's just touch upon

49

00:02:15,430 --> 00:02:13,920

where we're at if that's okay am i right

50

00:02:17,270 --> 00:02:15,440

in saying that it's now in the hands of

51
00:02:19,350 --> 00:02:17,280
the the representatives within the

52
00:02:21,670 --> 00:02:19,360
government of san marino as to

53
00:02:22,869 --> 00:02:21,680
when and if they take this to the united

54
00:02:24,790 --> 00:02:22,879
nations

55
00:02:26,070 --> 00:02:24,800
yeah um you know of course they want to

56
00:02:28,070 --> 00:02:26,080
make sure what they do they don't do it

57
00:02:29,910 --> 00:02:28,080
in a vacuum um you know what they're

58
00:02:32,630 --> 00:02:29,920
trying to do right now is make sure that

59
00:02:33,910 --> 00:02:32,640
other countries um support this and that

60
00:02:36,630 --> 00:02:33,920
makes political sense you know you don't

61
00:02:38,790 --> 00:02:36,640
want to you don't want to do something

62
00:02:40,390 --> 00:02:38,800
prematurely and it winds up you know

63
00:02:41,990 --> 00:02:40,400

creating some sort of discord

64

00:02:43,670 --> 00:02:42,000

politically with other other countries

65

00:02:45,430 --> 00:02:43,680

and allies and friends

66

00:02:47,270 --> 00:02:45,440

san marino is a very small country but

67

00:02:48,790 --> 00:02:47,280

it's also one of the world's oldest

68

00:02:50,150 --> 00:02:48,800

republics

69

00:02:52,070 --> 00:02:50,160

it's really interesting politically they

70

00:02:53,830 --> 00:02:52,080

have two presidents and those presidents

71

00:02:54,949 --> 00:02:53,840

are only in power for six months at a

72

00:02:56,470 --> 00:02:54,959

time

73

00:02:58,390 --> 00:02:56,480

it's really the ultimate of sharing

74

00:02:59,830 --> 00:02:58,400

power right so here in our country we

75

00:03:01,670 --> 00:02:59,840

have one president and a congress and

76

00:03:03,750 --> 00:03:01,680

whatnot there they have two uh and

77

00:03:05,830 --> 00:03:03,760

they're only there for for again six

78

00:03:08,949 --> 00:03:05,840

months just long enough to not cause any

79

00:03:10,149 --> 00:03:08,959

harm right so um you know there's it's

80

00:03:13,030 --> 00:03:10,159

uh

81

00:03:14,309 --> 00:03:13,040

in a way it's an advantage um

82

00:03:15,910 --> 00:03:14,319

but also in a way it's a bit of a

83

00:03:18,149 --> 00:03:15,920

disadvantage because every six months

84

00:03:20,869 --> 00:03:18,159

you have to kind of re-spin up an

85

00:03:22,630 --> 00:03:20,879

administration on what's important so i

86

00:03:24,869 --> 00:03:22,640

do think the timing's right our italian

87

00:03:27,509 --> 00:03:24,879

friends have done a fantastic job both

88

00:03:30,309 --> 00:03:27,519

the cu and and and icer

89

00:03:31,990 --> 00:03:30,319

um those two organizations as well have

90

00:03:34,390 --> 00:03:32,000

really done a lot to help set the stage

91

00:03:35,589 --> 00:03:34,400

to have this conversation in san marino

92

00:03:37,509 --> 00:03:35,599

and i think ultimately what we're

93

00:03:39,430 --> 00:03:37,519

looking at is the opportunity to create

94

00:03:40,710 --> 00:03:39,440

a geneva-like

95

00:03:44,550 --> 00:03:40,720

type

96

00:03:46,949 --> 00:03:44,560

structure where you have a the world can

97

00:03:47,990 --> 00:03:46,959

come together to this tiny little the

98

00:03:50,070 --> 00:03:48,000

nation

99

00:03:51,670 --> 00:03:50,080

uh and and have a have a comment you

100

00:03:53,990 --> 00:03:51,680

know it's funny ironically enough it's

101
00:03:55,589 --> 00:03:54,000
it's it'd be one of the world's smallest

102
00:03:57,350 --> 00:03:55,599
nations having one of the biggest

103
00:03:58,869 --> 00:03:57,360
leading one of the biggest conversations

104
00:04:01,270 --> 00:03:58,879
um and i think i think there's a lot of

105
00:04:03,110 --> 00:04:01,280
beauty there um you know you don't have

106
00:04:04,309 --> 00:04:03,120
the politics of

107
00:04:06,550 --> 00:04:04,319
of other countries whether it's the

108
00:04:09,270 --> 00:04:06,560
united states or russia or china or you

109
00:04:10,470 --> 00:04:09,280
know larger european countries um they

110
00:04:13,110 --> 00:04:10,480
they seem to

111
00:04:14,390 --> 00:04:13,120
stay relatively immune to those type of

112
00:04:16,069 --> 00:04:14,400
politics

113
00:04:17,110 --> 00:04:16,079

um so yeah that's that's kind of where

114

00:04:18,949 --> 00:04:17,120

we are and right now we're trying to

115

00:04:20,870 --> 00:04:18,959

socialize the idea

116

00:04:23,110 --> 00:04:20,880

make sure that other countries support

117

00:04:23,830 --> 00:04:23,120

this um you know

118

00:04:25,270 --> 00:04:23,840

so

119

00:04:26,790 --> 00:04:25,280

no that's great thank you i think that

120

00:04:28,710 --> 00:04:26,800

was leading into kind of my next point

121

00:04:30,310 --> 00:04:28,720

is whether you personally are planning

122

00:04:31,670 --> 00:04:30,320

on engaging with other governments

123

00:04:33,990 --> 00:04:31,680

within some of the other european

124

00:04:36,070 --> 00:04:34,000

countries you know on a personal level

125

00:04:38,150 --> 00:04:36,080

is that something you're looking to do

126

00:04:40,310 --> 00:04:38,160

absolutely i mean we talk about

127

00:04:42,310 --> 00:04:40,320

international engagement being being one

128

00:04:44,469 --> 00:04:42,320

of the the five fundamental pillars um

129

00:04:45,749 --> 00:04:44,479

when we when i you know i

130

00:04:47,189 --> 00:04:45,759

somewhat just told everybody we're

131

00:04:48,870 --> 00:04:47,199

shifting into third gear that's what i

132

00:04:50,310 --> 00:04:48,880

meant it was very clear

133

00:04:51,830 --> 00:04:50,320

it's time to take this conversation

134

00:04:54,710 --> 00:04:51,840

internationally and not just have the

135

00:04:56,150 --> 00:04:54,720

conversation but but really start to to

136

00:04:58,629 --> 00:04:56,160

look at this thing differently you know

137

00:05:00,070 --> 00:04:58,639

i i one of the things i suggest

138

00:05:01,590 --> 00:05:00,080

is that um

139

00:05:04,150 --> 00:05:01,600

i think one of the greatest hindrances

140

00:05:05,990 --> 00:05:04,160

we've faced politically anyways

141

00:05:08,070 --> 00:05:06,000

uh and probably from a media perspective

142

00:05:10,710 --> 00:05:08,080

has been this notion of you know ufo

143

00:05:13,670 --> 00:05:10,720

conferences and ufo this and ufo that

144

00:05:15,590 --> 00:05:13,680

and i'm wondering if maybe maybe the the

145

00:05:17,909 --> 00:05:15,600

way to handle this now is to rather than

146

00:05:19,189 --> 00:05:17,919

have a ufo conference

147

00:05:19,909 --> 00:05:19,199

now that i think we're at the point

148

00:05:21,749 --> 00:05:19,919

where

149

00:05:23,430 --> 00:05:21,759

that part of the conversation is over

150

00:05:24,870 --> 00:05:23,440

we've now proven the reality of these

151
00:05:26,150 --> 00:05:24,880
things we still don't know what they are

152
00:05:26,950 --> 00:05:26,160
where they're from or anything like that

153
00:05:30,390 --> 00:05:26,960
but

154
00:05:32,070 --> 00:05:30,400
part of the conversation i think what we

155
00:05:34,870 --> 00:05:32,080
need to do is slowly start

156
00:05:37,029 --> 00:05:34,880
changing the conversation vis-a-vis a

157
00:05:39,830 --> 00:05:37,039
ufo conference and instead have a

158
00:05:41,430 --> 00:05:39,840
foreign affairs conference about ufos so

159
00:05:43,270 --> 00:05:41,440
rather than have a ufo conference and

160
00:05:45,430 --> 00:05:43,280
then part of that's about you know

161
00:05:46,950 --> 00:05:45,440
politics and global politics

162
00:05:49,510 --> 00:05:46,960
i think maybe the time has come for us

163
00:05:51,430 --> 00:05:49,520

to to really frame this topic as as a

164

00:05:53,990 --> 00:05:51,440

foreign affairs topic right yeah it

165

00:05:55,110 --> 00:05:54,000

involves all of us collectively and that

166

00:05:57,990 --> 00:05:55,120

way

167

00:06:00,150 --> 00:05:58,000

you know it's no longer just a ufo

168

00:06:01,990 --> 00:06:00,160

conversation it's something much bigger

169

00:06:03,830 --> 00:06:02,000

something much more meaningful

170

00:06:05,350 --> 00:06:03,840

it's hey look we now know the reality of

171

00:06:06,950 --> 00:06:05,360

these things what does this mean for us

172

00:06:09,029 --> 00:06:06,960

as a country what does this mean for us

173

00:06:12,710 --> 00:06:09,039

internationally and as a world

174

00:06:16,150 --> 00:06:12,720

uh inter and intra agency uh efforts

175

00:06:17,990 --> 00:06:16,160

within within governments um and within

176

00:06:20,550 --> 00:06:18,000

you know ngos non-governmental

177

00:06:22,230 --> 00:06:20,560

organizations and big international

178

00:06:24,710 --> 00:06:22,240

if you will institutions like the united

179

00:06:26,469 --> 00:06:24,720

nations like nato and i i think we're

180

00:06:28,309 --> 00:06:26,479

we're slowly beginning to to see that

181

00:06:31,110 --> 00:06:28,319

where the narrative is

182

00:06:33,510 --> 00:06:31,120

has is going from once conspiratorial

183

00:06:35,670 --> 00:06:33,520

you know little green men and silly

184

00:06:37,029 --> 00:06:35,680

little cartoons like that to now want to

185

00:06:38,950 --> 00:06:37,039

pay you know this is

186

00:06:40,870 --> 00:06:38,960

this really is on the world stage this

187

00:06:43,029 --> 00:06:40,880

is a serious conversation

188

00:06:45,590 --> 00:06:43,039

it does involve foreign politics it

189

00:06:47,350 --> 00:06:45,600

involves foreign relations uh and

190

00:06:49,510 --> 00:06:47,360

diplomacy and maybe we need to start

191

00:06:51,029 --> 00:06:49,520

framing framing the conversation in that

192

00:06:52,710 --> 00:06:51,039

way

193

00:06:54,710 --> 00:06:52,720

yeah i agree but i mean recently we've

194

00:06:56,309 --> 00:06:54,720

heard specifically here in the uk that

195

00:06:58,629 --> 00:06:56,319

they were somewhat uncooperative with

196

00:07:00,309 --> 00:06:58,639

the uap task force and obviously now

197

00:07:03,830 --> 00:07:00,319

with the national defense authorization

198

00:07:05,589 --> 00:07:03,840

act specifying information from allies

199

00:07:08,309 --> 00:07:05,599

do you think that that might change i

200

00:07:09,510 --> 00:07:08,319

mean it's quite speculative but

201
00:07:11,350 --> 00:07:09,520
you know you know i don't want to speak

202
00:07:12,710 --> 00:07:11,360
for the uk government but i do i think i

203
00:07:14,309 --> 00:07:12,720
think that they are

204
00:07:16,790 --> 00:07:14,319
will come along i think that the uk

205
00:07:17,909 --> 00:07:16,800
government has to be very mindful of of

206
00:07:20,390 --> 00:07:17,919
its um

207
00:07:23,029 --> 00:07:20,400
public image right uh the

208
00:07:24,950 --> 00:07:23,039
the uk government uh like the american

209
00:07:26,710 --> 00:07:24,960
government or governments

210
00:07:28,629 --> 00:07:26,720
really tries hard to maintain its

211
00:07:29,749 --> 00:07:28,639
credibility with the people and and that

212
00:07:32,309 --> 00:07:29,759
makes sense from a governmental

213
00:07:34,230 --> 00:07:32,319

perspective um so historically when they

214

00:07:36,469 --> 00:07:34,240

said nothing to see here folks it's kind

215

00:07:38,150 --> 00:07:36,479

of hard to go back on that right so

216

00:07:39,909 --> 00:07:38,160

i think what you start seeing is this

217

00:07:43,110 --> 00:07:39,919

undertone of cooperation between the

218

00:07:45,589 --> 00:07:43,120

united states and the uk um maybe not

219

00:07:47,909 --> 00:07:45,599

overtly at first but but you know i

220

00:07:49,830 --> 00:07:47,919

think there are or existing uh

221

00:07:51,830 --> 00:07:49,840

relationships bilateral multilateral

222

00:07:54,150 --> 00:07:51,840

relationships that we have with our very

223

00:07:55,990 --> 00:07:54,160

good friends in the uk um for example

224

00:07:57,990 --> 00:07:56,000

the 5i partnership

225

00:07:59,670 --> 00:07:58,000

so historically we've been we've been

226

00:08:01,430 --> 00:07:59,680

very close we've we've shared

227

00:08:05,029 --> 00:08:01,440

information together we've fought wars

228

00:08:06,390 --> 00:08:05,039

together um so i i do think that that's

229

00:08:08,309 --> 00:08:06,400

going to happen but you know in the long

230

00:08:09,749 --> 00:08:08,319

run that's that's really not up

231

00:08:11,830 --> 00:08:09,759

that's not up for

232

00:08:13,670 --> 00:08:11,840

me or the united states even to to

233

00:08:15,589 --> 00:08:13,680

decide that's up for the uk decide the

234

00:08:16,869 --> 00:08:15,599

uk to decide and this goes for any

235

00:08:19,189 --> 00:08:16,879

country who decides they don't want to

236

00:08:21,589 --> 00:08:19,199

be part of the conversation

237

00:08:22,869 --> 00:08:21,599

then don't but you know

238

00:08:24,469 --> 00:08:22,879

you're going to get left behind in the

239

00:08:26,710 --> 00:08:24,479

conversation if you're not in a

240

00:08:29,189 --> 00:08:26,720

conversation then then you can't be part

241

00:08:30,869 --> 00:08:29,199

of you know formulating the narrative

242

00:08:32,949 --> 00:08:30,879

and and then you know if you're not part

243

00:08:34,389 --> 00:08:32,959

of that then you're victim to it so you

244

00:08:35,750 --> 00:08:34,399

know my only fair word of warning would

245

00:08:38,550 --> 00:08:35,760

be look you know

246

00:08:40,149 --> 00:08:38,560

don't let the train pass you by you know

247

00:08:42,790 --> 00:08:40,159

you can be selective on which car you

248

00:08:44,949 --> 00:08:42,800

want to jump on great but but i wouldn't

249

00:08:46,790 --> 00:08:44,959

let that train leave the station and and

250

00:08:48,710 --> 00:08:46,800

leave you behind yeah do you think it

251
00:08:51,509 --> 00:08:48,720
would be a good time as well for sort of

252
00:08:52,870 --> 00:08:51,519
uap advocates to re-engage with mps and

253
00:08:54,150 --> 00:08:52,880
lords within

254
00:08:56,150 --> 00:08:54,160
the british government and defense

255
00:08:57,910 --> 00:08:56,160
oversight committee i do i think if we

256
00:08:59,509 --> 00:08:57,920
can frame it any in a

257
00:09:01,030 --> 00:08:59,519
you know a a

258
00:09:03,590 --> 00:09:01,040
again into a foreign affairs

259
00:09:05,430 --> 00:09:03,600
conversation you know the problem is we

260
00:09:06,870 --> 00:09:05,440
we we always say things like you know

261
00:09:08,310 --> 00:09:06,880
hey we don't want on the truth we know

262
00:09:09,750 --> 00:09:08,320
they're from the pleiades and you know

263
00:09:11,750 --> 00:09:09,760

elves on the mothership and you need to

264

00:09:12,630 --> 00:09:11,760

get engaged well

265

00:09:14,070 --> 00:09:12,640

you're not going to get a whole lot of

266

00:09:15,910 --> 00:09:14,080

support that way when you start saying

267

00:09:17,269 --> 00:09:15,920

look other countries countries are

268

00:09:20,310 --> 00:09:17,279

getting involved in this conversation

269

00:09:22,230 --> 00:09:20,320

there is a national security issue here

270

00:09:24,070 --> 00:09:22,240

and and border sovereignty and there's

271

00:09:25,590 --> 00:09:24,080

also by the way requirement

272

00:09:27,509 --> 00:09:25,600

for us to work with our friends and

273

00:09:30,230 --> 00:09:27,519

allies let's let's not forget that you

274

00:09:32,949 --> 00:09:30,240

know it could be very easily confused uh

275

00:09:34,870 --> 00:09:32,959

a uap uh incident with some sort of

276

00:09:36,150 --> 00:09:34,880

foreign provocation right we've seen

277

00:09:38,230 --> 00:09:36,160

this already before with the united

278

00:09:39,829 --> 00:09:38,240

states and and russia where we actually

279

00:09:41,350 --> 00:09:39,839

had to have a secret agreement between

280

00:09:43,269 --> 00:09:41,360

the two countries so if someone saw

281

00:09:44,630 --> 00:09:43,279

something over the north pole we didn't

282

00:09:45,910 --> 00:09:44,640

start shooting nukes at each other we

283

00:09:47,750 --> 00:09:45,920

could pick up a phone and be like you

284

00:09:49,350 --> 00:09:47,760

know hey boris is that you guys or they

285

00:09:52,870 --> 00:09:49,360

could call up and say you know hey jack

286

00:09:54,550 --> 00:09:52,880

you know comrade is that you guys um and

287

00:09:56,790 --> 00:09:54,560

and let's not you know forget that we

288

00:09:59,110 --> 00:09:56,800

have other examples today right where we

289

00:10:00,150 --> 00:09:59,120

have countries like india and pakistan

290

00:10:03,030 --> 00:10:00,160

imagine

291

00:10:04,470 --> 00:10:03,040

these two countries which you know we

292

00:10:05,910 --> 00:10:04,480

they're both friends of ours but they

293

00:10:07,990 --> 00:10:05,920

don't necessarily get along with each

294

00:10:10,870 --> 00:10:08,000

other what if we had a same incident

295

00:10:13,030 --> 00:10:10,880

like we did in the 1960s where uh you

296

00:10:15,670 --> 00:10:13,040

know a a nuclear

297

00:10:17,350 --> 00:10:15,680

missile facility was disabled right by

298

00:10:20,389 --> 00:10:17,360

uap and now one of those countries

299

00:10:22,710 --> 00:10:20,399

confuses it as some sort of provocation

300

00:10:24,710 --> 00:10:22,720

you know there's a gentleman in uh in

301

00:10:26,389 --> 00:10:24,720

india named sabir hussein

302

00:10:27,990 --> 00:10:26,399

who was actually one of the first ones

303

00:10:30,470 --> 00:10:28,000

to bring this to the attention of some

304

00:10:33,350 --> 00:10:30,480

folks and he tried to bring it up to to

305

00:10:34,949 --> 00:10:33,360

their um i guess you call it a supreme

306

00:10:36,949 --> 00:10:34,959

court it works a little bit differently

307

00:10:38,550 --> 00:10:36,959

there in india but he tried to raise you

308

00:10:40,470 --> 00:10:38,560

know it and and good for him for doing

309

00:10:41,910 --> 00:10:40,480

so because that's that's a real

310

00:10:43,430 --> 00:10:41,920

potential problem it's not like it's

311

00:10:45,670 --> 00:10:43,440

it's fanciful right because we've

312

00:10:47,509 --> 00:10:45,680

already seen that actually happen

313

00:10:48,710 --> 00:10:47,519

in the united states and even in russia

314

00:10:50,389 --> 00:10:48,720

so um

315

00:10:52,230 --> 00:10:50,399

i i do think it's important we start

316

00:10:53,430 --> 00:10:52,240

having that conversation when we talk to

317

00:10:54,949 --> 00:10:53,440

our elected officials and our

318

00:10:56,310 --> 00:10:54,959

representatives and our respective

319

00:10:59,110 --> 00:10:56,320

governments

320

00:11:00,949 --> 00:10:59,120

i you know start framing this as a

321

00:11:04,069 --> 00:11:00,959

foreign policy

322

00:11:05,910 --> 00:11:04,079

issue and less as a conspiratorial

323

00:11:07,269 --> 00:11:05,920

little green men issue it may turn out

324

00:11:09,190 --> 00:11:07,279

to be that way

325

00:11:10,710 --> 00:11:09,200

but to have the conversation on the

326

00:11:12,470 --> 00:11:10,720

international

327

00:11:14,949 --> 00:11:12,480

level that we're looking for

328

00:11:16,710 --> 00:11:14,959

we really have to begin to to mature the

329

00:11:18,389 --> 00:11:16,720

conversation we can't be stuck in the

330

00:11:21,190 --> 00:11:18,399

same conversation we've had for the last

331

00:11:23,269 --> 00:11:21,200

70 years no absolutely and can you talk

332

00:11:25,829 --> 00:11:23,279

to any benefits that we might have if

333

00:11:27,269 --> 00:11:25,839

nato were involved as well yeah i mean

334

00:11:28,949 --> 00:11:27,279

forgive me by the way i've got something

335

00:11:31,430 --> 00:11:28,959

in my left eye here i went on a little

336

00:11:33,829 --> 00:11:31,440

little hike this morning i decided to

337

00:11:35,269 --> 00:11:33,839

to uh do a little sweat sweat to the

338

00:11:36,710 --> 00:11:35,279

oldies and uh

339

00:11:39,670 --> 00:11:36,720

i think i got something in my eyes so i

340

00:11:41,030 --> 00:11:39,680

apologize no no no problem you know nato

341

00:11:43,190 --> 00:11:41,040

is is uh

342

00:11:44,790 --> 00:11:43,200

you know

343

00:11:47,670 --> 00:11:44,800

north atlantic treaty organization right

344

00:11:48,470 --> 00:11:47,680

it's it's a it's a it's a fundamentally

345

00:11:51,350 --> 00:11:48,480

uh

346

00:11:53,590 --> 00:11:51,360

i think um

347

00:11:55,269 --> 00:11:53,600

balancing agent uh this you know

348

00:11:58,230 --> 00:11:55,279

obviously during during the iron curtain

349

00:11:59,350 --> 00:11:58,240

days you had the warsaw pact and nato

350

00:12:01,030 --> 00:11:59,360

um

351

00:12:02,550 --> 00:12:01,040

you know nato is more of a military

352

00:12:04,150 --> 00:12:02,560

organization

353

00:12:06,150 --> 00:12:04,160

but that does have some other other

354

00:12:08,310 --> 00:12:06,160

functions as well i think nato is

355

00:12:10,550 --> 00:12:08,320

important from a uap perspective

356

00:12:11,590 --> 00:12:10,560

i want to make sure uh because why well

357

00:12:13,430 --> 00:12:11,600

because they're flying around all the

358

00:12:14,949 --> 00:12:13,440

time with with aircraft and sometimes

359

00:12:16,790 --> 00:12:14,959

aircraft are armed and again we don't

360

00:12:18,310 --> 00:12:16,800

want to confuse uap with any type of

361

00:12:19,750 --> 00:12:18,320

provocation

362

00:12:21,670 --> 00:12:19,760

and they also have a lot of sensors that

363

00:12:23,910 --> 00:12:21,680

they can use to help collect additional

364

00:12:26,550 --> 00:12:23,920

information for us so so i do think nato

365

00:12:27,670 --> 00:12:26,560

is important but i also think that it i

366

00:12:29,590 --> 00:12:27,680

at the time

367

00:12:31,430 --> 00:12:29,600

and i'll share this with you i think

368

00:12:33,990 --> 00:12:31,440

i think we need to start taking this

369

00:12:36,310 --> 00:12:34,000

conversation outside of military

370

00:12:37,990 --> 00:12:36,320

channels and intelligence channels and

371

00:12:39,269 --> 00:12:38,000

opening the aperture so you know up

372

00:12:40,870 --> 00:12:39,279

until this point we've been talking in

373

00:12:42,150 --> 00:12:40,880

my country to the senate armed services

374

00:12:43,350 --> 00:12:42,160

committee the senate select committee

375

00:12:44,629 --> 00:12:43,360

intelligence

376

00:12:45,990 --> 00:12:44,639

um

377

00:12:47,350 --> 00:12:46,000

but i think maybe the time has come to

378

00:12:49,350 --> 00:12:47,360

maybe you know open it's up to the

379

00:12:50,870 --> 00:12:49,360

foreign affairs committee right why not

380

00:12:52,310 --> 00:12:50,880

and bringing state department doesn't

381

00:12:53,430 --> 00:12:52,320

have to be just department of defense

382

00:12:54,790 --> 00:12:53,440

and the intelligence community and

383

00:12:56,230 --> 00:12:54,800

department of energy

384

00:12:58,150 --> 00:12:56,240

let's bring in the state department and

385

00:13:00,310 --> 00:12:58,160

maybe let's do that internationally as

386

00:13:02,550 --> 00:13:00,320

well let's let's start making this a

387

00:13:04,550 --> 00:13:02,560

geopolitical issue right which is what

388

00:13:06,629 --> 00:13:04,560

it really is at the end of the day it

389

00:13:08,230 --> 00:13:06,639

really is and and there's parts of this

390

00:13:10,389 --> 00:13:08,240

conversation that really don't belong in

391

00:13:12,310 --> 00:13:10,399

the national defense arena i don't think

392

00:13:13,110 --> 00:13:12,320

it does it made that very clear

393

00:13:14,870 --> 00:13:13,120

so

394

00:13:16,389 --> 00:13:14,880

i think when we when we talk about this

395

00:13:19,190 --> 00:13:16,399

conversation whether it's to nato or the

396

00:13:20,949 --> 00:13:19,200

united nations or to to uk parliament

397

00:13:23,190 --> 00:13:20,959

you know if if your listeners are out

398

00:13:24,629 --> 00:13:23,200

there and they want to get some traction

399

00:13:26,550 --> 00:13:24,639

on this

400

00:13:27,990 --> 00:13:26,560

we need to we need to up our game we

401
00:13:29,910 --> 00:13:28,000
need to begin to elevate the

402
00:13:31,670 --> 00:13:29,920
conversation to where it belongs right

403
00:13:34,230 --> 00:13:31,680
and out of the the world of the the

404
00:13:36,389 --> 00:13:34,240
silliness and conspiracy and into the

405
00:13:37,990 --> 00:13:36,399
into the world of reality right and

406
00:13:40,790 --> 00:13:38,000
international politics and foreign

407
00:13:42,790 --> 00:13:40,800
policy that's that would be my

408
00:13:44,310 --> 00:13:42,800
my suggestion and nato does play a part

409
00:13:46,470 --> 00:13:44,320
in it but they don't play the only part

410
00:13:47,670 --> 00:13:46,480
of it right no i think that's i think

411
00:13:48,629 --> 00:13:47,680
that's good and i think people will be

412
00:13:50,470 --> 00:13:48,639
pleased to

413
00:13:52,310 --> 00:13:50,480

hear that it isn't just

414

00:13:54,310 --> 00:13:52,320

being spoken about within sort of

415

00:13:56,230 --> 00:13:54,320

military realms of the countries so i

416

00:13:57,910 --> 00:13:56,240

think that's a really positive way the

417

00:13:59,350 --> 00:13:57,920

conversation started there it had to

418

00:14:01,430 --> 00:13:59,360

start there and i know a lot of people

419

00:14:02,629 --> 00:14:01,440

really resented itself fear-mongering

420

00:14:04,230 --> 00:14:02,639

threat threat threat but you know

421

00:14:06,069 --> 00:14:04,240

whatever you know do a better job if you

422

00:14:07,670 --> 00:14:06,079

think you can be my guest

423

00:14:09,269 --> 00:14:07,680

we had to start a conversation somewhere

424

00:14:10,870 --> 00:14:09,279

and that's where we started it yeah but

425

00:14:12,550 --> 00:14:10,880

that's not where the conversation ends

426

00:14:14,389 --> 00:14:12,560

and and this is i've told people a long

427

00:14:16,230 --> 00:14:14,399

time ago we have a road map we're doing

428

00:14:19,030 --> 00:14:16,240

this very diligently you know this is

429

00:14:20,710 --> 00:14:19,040

this is a marathon um you know if if you

430

00:14:22,550 --> 00:14:20,720

don't have the patience for it then then

431

00:14:24,389 --> 00:14:22,560

then pick up a hobby you know pick up

432

00:14:26,629 --> 00:14:24,399

the piano go pick up the violin and

433

00:14:27,829 --> 00:14:26,639

check back in in five years you know or

434

00:14:30,150 --> 00:14:27,839

you know what do it better do a better

435

00:14:31,509 --> 00:14:30,160

job yourself stop bitching and do it you

436

00:14:33,509 --> 00:14:31,519

know stop waiting for me to do

437

00:14:35,110 --> 00:14:33,519

everything for you and chris mellon and

438

00:14:36,550 --> 00:14:35,120

other folks you know otherwise if you

439

00:14:37,910 --> 00:14:36,560

like what we're doing then

440

00:14:39,430 --> 00:14:37,920

you know

441

00:14:40,790 --> 00:14:39,440

a simple thank you would do and we'll

442

00:14:42,069 --> 00:14:40,800

continue doing what we're doing and i

443

00:14:43,750 --> 00:14:42,079

think we are helping with the

444

00:14:45,990 --> 00:14:43,760

conversation i think it's it's becoming

445

00:14:47,829 --> 00:14:46,000

now the the global conversation that we

446

00:14:50,470 --> 00:14:47,839

we set it out to be now i'll tell you

447

00:14:52,230 --> 00:14:50,480

too in that same same regard

448

00:14:53,750 --> 00:14:52,240

the majority of people on ufo twitter

449

00:14:55,189 --> 00:14:53,760

have been very helpful to this they have

450

00:14:56,470 --> 00:14:55,199

been doing exactly what they should be

451
00:14:58,629 --> 00:14:56,480
doing they've been talking and writing

452
00:15:01,590 --> 00:14:58,639
into their elected officials their their

453
00:15:02,870 --> 00:15:01,600
letters are super super high quality

454
00:15:04,470 --> 00:15:02,880
and it's making a difference because

455
00:15:05,350 --> 00:15:04,480
they're not being silly they're they're

456
00:15:08,150 --> 00:15:05,360
being

457
00:15:10,389 --> 00:15:08,160
serious and they're having a great

458
00:15:12,069 --> 00:15:10,399
elevated conversation with their elected

459
00:15:13,829 --> 00:15:12,079
officials and they're making calls right

460
00:15:14,870 --> 00:15:13,839
and they're not sounding conspiratorial

461
00:15:17,030 --> 00:15:14,880
and and

462
00:15:19,030 --> 00:15:17,040
well quite frankly you know uh

463
00:15:20,710 --> 00:15:19,040

unhinged uh they're coming across as

464

00:15:22,470 --> 00:15:20,720

fair-minded and rational and that's

465

00:15:23,990 --> 00:15:22,480

working that's exactly what we need to

466

00:15:26,550 --> 00:15:24,000

have this conversation and continue to

467

00:15:27,829 --> 00:15:26,560

take it to the next level that's amazing

468

00:15:29,430 --> 00:15:27,839

good to hear that it's making a

469

00:15:31,189 --> 00:15:29,440

difference i mean i've got to

470

00:15:32,949 --> 00:15:31,199

give a shout out to louise jimenez and

471

00:15:35,189 --> 00:15:32,959

the guys at the uh unidentified

472

00:15:37,829 --> 00:15:35,199

celebrity reviews absolutely the big

473

00:15:41,590 --> 00:15:37,839

phone home you know these things do work

474

00:15:44,310 --> 00:15:41,600

um so vinnie we're with max uh and uh

475

00:15:46,389 --> 00:15:44,320

moscowitz in in san marino

476

00:15:48,389 --> 00:15:46,399

and uh you know he got a chance to see

477

00:15:50,870 --> 00:15:48,399

kind of a backstage play politically how

478

00:15:52,870 --> 00:15:50,880

this is playing out and i i'm certainly

479

00:15:54,710 --> 00:15:52,880

not gonna speak for max but

480

00:15:55,829 --> 00:15:54,720

you know i was glad that he was there

481

00:15:57,509 --> 00:15:55,839

because

482

00:16:01,030 --> 00:15:57,519

journalists aren't usually offered that

483

00:16:03,189 --> 00:16:01,040

inside perspective right and and he had

484

00:16:04,710 --> 00:16:03,199

a hell of an inside perspective he got

485

00:16:07,350 --> 00:16:04,720

to see things that

486

00:16:09,030 --> 00:16:07,360

that probably publicly um you know would

487

00:16:11,749 --> 00:16:09,040

never be mentioned and he was in the

488

00:16:13,590 --> 00:16:11,759

front row seat watching it all unfold

489

00:16:15,670 --> 00:16:13,600

and i think that's that was very helpful

490

00:16:16,870 --> 00:16:15,680

um it was helpful for us because it

491

00:16:18,870 --> 00:16:16,880

showed that people were taking this

492

00:16:20,230 --> 00:16:18,880

serious in the media but i think it also

493

00:16:21,430 --> 00:16:20,240

helped maybe max a little bit because he

494

00:16:23,590 --> 00:16:21,440

knew that there were

495

00:16:25,110 --> 00:16:23,600

professionals inside

496

00:16:26,870 --> 00:16:25,120

other governments that were taking this

497

00:16:28,949 --> 00:16:26,880

topic very seriously there was a lot of

498

00:16:31,509 --> 00:16:28,959

representation at this

499

00:16:33,269 --> 00:16:31,519

at this uh at this little little meeting

500

00:16:35,269 --> 00:16:33,279

we had um

501
00:16:36,629 --> 00:16:35,279
there in san marino there were there

502
00:16:38,790 --> 00:16:36,639
were some pretty

503
00:16:40,949 --> 00:16:38,800
senior people from other countries that

504
00:16:43,430 --> 00:16:40,959
were participating in this little this

505
00:16:44,710 --> 00:16:43,440
little conference that we had with icer

506
00:16:47,590 --> 00:16:44,720
and the cun

507
00:16:49,910 --> 00:16:47,600
and um you know it's the con every time

508
00:16:51,670 --> 00:16:49,920
i've gone to one of these over the years

509
00:16:53,509 --> 00:16:51,680
last couple years it keeps getting

510
00:16:55,829 --> 00:16:53,519
better and better um

511
00:16:58,230 --> 00:16:55,839
no longer are people selling mood rings

512
00:16:59,749 --> 00:16:58,240
and beads and and you know things like

513
00:17:02,069 --> 00:16:59,759

that outside

514

00:17:03,829 --> 00:17:02,079

these are are you know

515

00:17:06,230 --> 00:17:03,839

you have astrophysicists you have

516

00:17:07,669 --> 00:17:06,240

aerospace uh directors of aerospace

517

00:17:08,549 --> 00:17:07,679

organizations there and they're

518

00:17:10,150 --> 00:17:08,559

listening and they're having

519

00:17:12,230 --> 00:17:10,160

conversations

520

00:17:14,390 --> 00:17:12,240

no one's trying to sell anybody anything

521

00:17:15,669 --> 00:17:14,400

other than um you know have a

522

00:17:17,669 --> 00:17:15,679

conversation

523

00:17:19,990 --> 00:17:17,679

and that's that's meaningful it's

524

00:17:22,789 --> 00:17:20,000

working because we're we're

525

00:17:24,789 --> 00:17:22,799

the the topic of uap is no longer one

526

00:17:26,470 --> 00:17:24,799

about um

527

00:17:29,110 --> 00:17:26,480

personal narratives and agendas and

528

00:17:31,909 --> 00:17:29,120

conspiracies it's it's now about reality

529

00:17:33,270 --> 00:17:31,919

facts data science right and and it's

530

00:17:35,190 --> 00:17:33,280

resonating

531

00:17:37,029 --> 00:17:35,200

that's amazing to hear and that does

532

00:17:39,430 --> 00:17:37,039

just show how far we've come and i think

533

00:17:41,430 --> 00:17:39,440

it will continue to to go in a positive

534

00:17:43,270 --> 00:17:41,440

direction so no good to hear thank you

535

00:17:44,630 --> 00:17:43,280

for that um i'd like to switch this

536

00:17:46,630 --> 00:17:44,640

round and first of all start by

537

00:17:47,909 --> 00:17:46,640

congratulating you on the recent

538

00:17:49,430 --> 00:17:47,919

announcement that you're bringing out

539

00:17:51,190 --> 00:17:49,440

book so

540

00:17:52,710 --> 00:17:51,200

congratulations on that now

541

00:17:54,150 --> 00:17:52,720

thank you a lot of people saw this

542

00:17:55,830 --> 00:17:54,160

headline article within the hollywood

543

00:17:57,430 --> 00:17:55,840

reporter that the book will reveal

544

00:17:58,710 --> 00:17:57,440

shocking details

545

00:18:00,470 --> 00:17:58,720

and now we all know what people on

546

00:18:02,390 --> 00:18:00,480

social media like a lot of are

547

00:18:05,350 --> 00:18:02,400

speculating and making claims that it's

548

00:18:07,350 --> 00:18:05,360

a pay for disclosure tactic which

549

00:18:09,590 --> 00:18:07,360

of course they're going to um can you

550

00:18:11,750 --> 00:18:09,600

just set the record straight please and

551
00:18:13,590 --> 00:18:11,760
so we can yeah i mean first of all what

552
00:18:15,350 --> 00:18:13,600
i'll say is that i'm writing the book um

553
00:18:16,630 --> 00:18:15,360
second of all is that the the intended

554
00:18:19,669 --> 00:18:16,640
audience is for a lot of people that

555
00:18:22,070 --> 00:18:19,679
have never even gone to ufo twitter

556
00:18:23,909 --> 00:18:22,080
and uh you know what i will say and i

557
00:18:24,789 --> 00:18:23,919
won't go into any more detail than this

558
00:18:26,230 --> 00:18:24,799
is that

559
00:18:27,990 --> 00:18:26,240
the purpose of the book is going to be

560
00:18:29,750 --> 00:18:28,000
very very apparent when it comes out and

561
00:18:32,390 --> 00:18:29,760
i think people people who know me are

562
00:18:34,070 --> 00:18:32,400
going to be like ah that clever guy

563
00:18:36,470 --> 00:18:34,080

people who don't know me are going to

564

00:18:38,870 --> 00:18:36,480

probably wind up having to eat some of

565

00:18:40,230 --> 00:18:38,880

their words um you know they're it's

566

00:18:41,750 --> 00:18:40,240

it's funny to watch social media and

567

00:18:43,590 --> 00:18:41,760

people go way out on a limb and start

568

00:18:45,590 --> 00:18:43,600

making speculation while speculation i

569

00:18:47,990 --> 00:18:45,600

have to make right about to pay for pay

570

00:18:50,230 --> 00:18:48,000

for play okay well think that if you

571

00:18:52,470 --> 00:18:50,240

want to but when the book comes out and

572

00:18:54,950 --> 00:18:52,480

and people really go they read it and go

573

00:18:56,950 --> 00:18:54,960

holy crap we this is

574

00:18:58,950 --> 00:18:56,960

now this makes sense now we understand

575

00:18:59,909 --> 00:18:58,960

why you did the way you did it when you

576

00:19:02,470 --> 00:18:59,919

did it

577

00:19:05,350 --> 00:19:02,480

um you know

578

00:19:07,590 --> 00:19:05,360

you know will they apologize no

579

00:19:09,430 --> 00:19:07,600

they'll go hide in the little deep dark

580

00:19:11,110 --> 00:19:09,440

you know corners of twitterverse and

581

00:19:12,710 --> 00:19:11,120

maybe change their name or something uh

582

00:19:14,070 --> 00:19:12,720

but i'm used to it you know for the last

583

00:19:14,950 --> 00:19:14,080

three four years i've been used to

584

00:19:17,029 --> 00:19:14,960

people

585

00:19:18,630 --> 00:19:17,039

always accusing me of one thing um

586

00:19:20,630 --> 00:19:18,640

they're never happy no matter what you

587

00:19:22,630 --> 00:19:20,640

do for them no matter how you do it you

588

00:19:24,230 --> 00:19:22,640

know it's you've just got people that

589

00:19:26,310 --> 00:19:24,240

are sharp shooting you they're throwing

590

00:19:27,430 --> 00:19:26,320

rocks i don't know why that is

591

00:19:30,390 --> 00:19:27,440

it's sad

592

00:19:32,390 --> 00:19:30,400

yeah um you know i really hope that

593

00:19:33,430 --> 00:19:32,400

those type of people find whatever piece

594

00:19:37,350 --> 00:19:33,440

they're

595

00:19:39,430 --> 00:19:37,360

you know but if there's one thing you

596

00:19:40,789 --> 00:19:39,440

know my track record speaks for itself

597

00:19:42,310 --> 00:19:40,799

people should know me now at this point

598

00:19:43,669 --> 00:19:42,320

that i'm not a money grab kind of guy i

599

00:19:45,190 --> 00:19:43,679

do things very deliberately very

600

00:19:47,270 --> 00:19:45,200

strategically

601
00:19:48,870 --> 00:19:47,280
and again i i think the the book is

602
00:19:49,990 --> 00:19:48,880
going to serve a very specific purpose

603
00:19:53,190 --> 00:19:50,000
and i think people are going to be

604
00:19:55,270 --> 00:19:53,200
delighted when it comes out um you know

605
00:19:56,630 --> 00:19:55,280
that's that's that's where we are with

606
00:19:59,750 --> 00:19:56,640
that i'm i'm not going to go into much

607
00:20:01,430 --> 00:19:59,760
more detail than that so um but it's i

608
00:20:03,590 --> 00:20:01,440
think it's going to be

609
00:20:05,270 --> 00:20:03,600
very very eye-opening and i think people

610
00:20:07,029 --> 00:20:05,280
are going to come back and say holy cow

611
00:20:08,789 --> 00:20:07,039
wow that was exactly the way to do it

612
00:20:10,230 --> 00:20:08,799
and by the way it's my narrative so you

613
00:20:13,590 --> 00:20:10,240

know when i sit there and i and i do an

614

00:20:15,909 --> 00:20:13,600

interview on on a like a news major news

615

00:20:18,789 --> 00:20:15,919

media these are like two to three minute

616

00:20:20,789 --> 00:20:18,799

sound bites yeah and it's not it and by

617

00:20:21,909 --> 00:20:20,799

the way i don't control their editing

618

00:20:24,230 --> 00:20:21,919

this is

619

00:20:26,789 --> 00:20:24,240

my narrative from my perspective without

620

00:20:28,630 --> 00:20:26,799

any filter you get to read exactly how i

621

00:20:29,590 --> 00:20:28,640

feel about every single thing about this

622

00:20:31,430 --> 00:20:29,600

topic

623

00:20:32,950 --> 00:20:31,440

moving forward and there is going to be

624

00:20:34,710 --> 00:20:32,960

there's going to be some some

625

00:20:35,510 --> 00:20:34,720

information in there that i

626

00:20:54,710 --> 00:20:35,520

i

627

00:20:56,470 --> 00:20:54,720

say thank you so much for that um are

628

00:20:58,390 --> 00:20:56,480

you able to give us any like eta on when

629

00:21:00,830 --> 00:20:58,400

we can expect to see it

630

00:21:04,149 --> 00:21:00,840

uh i can't you know i uh

631

00:21:05,510 --> 00:21:04,159

i'm very busy it's going to take me a

632

00:21:07,669 --> 00:21:05,520

little bit of time

633

00:21:08,630 --> 00:21:07,679

sure you know i'm i'm dancing as fast as

634

00:21:12,549 --> 00:21:08,640

i can

635

00:21:14,230 --> 00:21:12,559

example like in a couple days i've got

636

00:21:16,070 --> 00:21:14,240

to be back in dc and then i've got some

637

00:21:17,990 --> 00:21:16,080

more travel and it's uh you know

638

00:21:20,070 --> 00:21:18,000

somewhere in there i've gotta i've gotta

639

00:21:22,630 --> 00:21:20,080

find some time to really just you know i

640

00:21:25,029 --> 00:21:22,640

understand completely do you mind it is

641

00:21:27,110 --> 00:21:25,039

the dc thing inspector general related

642

00:21:29,909 --> 00:21:27,120

can you can you elaborate on that at all

643

00:21:31,590 --> 00:21:29,919

um too early for me to discuss that it

644

00:21:34,149 --> 00:21:31,600

is it is related to the topic and i'll

645

00:21:35,990 --> 00:21:34,159

leave it at that fabulous no i i respect

646

00:21:37,909 --> 00:21:36,000

it well i try to avoid dc as much as

647

00:21:40,870 --> 00:21:37,919

possible i don't go to dc unless i have

648

00:21:42,070 --> 00:21:40,880

to go to dc and it's about this topic um

649

00:21:45,110 --> 00:21:42,080

that's why i live out in the middle of

650

00:21:46,789 --> 00:21:45,120

nowhere wyoming because i've had my fill

651
00:21:48,070 --> 00:21:46,799
of dc and no offense to those who live

652
00:21:49,270 --> 00:21:48,080
in dc but

653
00:21:51,909 --> 00:21:49,280
you know that's a that's a young

654
00:21:53,830 --> 00:21:51,919
person's game i'm uh i'm just too old i

655
00:21:57,669 --> 00:21:53,840
tell people this is gray not blonde you

656
00:21:59,510 --> 00:21:57,679
know i'm an old guy and uh the the

657
00:22:01,590 --> 00:21:59,520
the further i can stay away from

658
00:22:03,590 --> 00:22:01,600
washington dc the better

659
00:22:05,990 --> 00:22:03,600
not my sanity

660
00:22:07,430 --> 00:22:06,000
fair enough completely now lou something

661
00:22:09,190 --> 00:22:07,440
that is brought up regularly with

662
00:22:10,149 --> 00:22:09,200
yourself especially recently has been

663
00:22:13,110 --> 00:22:10,159

this

664

00:22:16,310 --> 00:22:13,120

super obvious sensor system

665

00:22:17,750 --> 00:22:16,320

that i get bombarded with questions and

666

00:22:20,070 --> 00:22:17,760

things about so i kind of felt like i

667

00:22:21,510 --> 00:22:20,080

had to bring it up with you but

668

00:22:23,990 --> 00:22:21,520

are you able to talk about it because

669

00:22:25,430 --> 00:22:24,000

i've got some

670

00:22:27,190 --> 00:22:25,440

ideas or

671

00:22:28,870 --> 00:22:27,200

of what we think it is and me this is me

672

00:22:31,270 --> 00:22:28,880

and all the colleagues in the community

673

00:22:33,430 --> 00:22:31,280

if if we can we discuss it can you put

674

00:22:35,830 --> 00:22:33,440

it to bed for us because i i won't i

675

00:22:37,590 --> 00:22:35,840

won't i won't i won't answer i won't

676
00:22:39,750 --> 00:22:37,600
confirm or deny because what i don't

677
00:22:41,350 --> 00:22:39,760
want to do is is

678
00:22:44,549 --> 00:22:41,360
be preemptive

679
00:22:46,470 --> 00:22:44,559
it is it is ridiculously

680
00:22:48,630 --> 00:22:46,480
simple um

681
00:22:50,470 --> 00:22:48,640
but it it takes a little bit of time and

682
00:22:53,029 --> 00:22:50,480
resources to do it

683
00:22:54,950 --> 00:22:53,039
and uh what i want to do is it doesn't

684
00:22:56,630 --> 00:22:54,960
rely solely on like a thing it's not

685
00:22:58,710 --> 00:22:56,640
like a you know a sensor that it put

686
00:23:01,190 --> 00:22:58,720
down and it's a little bit more complex

687
00:23:03,270 --> 00:23:01,200
than that but the data

688
00:23:04,950 --> 00:23:03,280

what i will say is that um we have every

689

00:23:07,029 --> 00:23:04,960

reason to believe that the data already

690

00:23:08,630 --> 00:23:07,039

exists it's already out there and it's

691

00:23:10,230 --> 00:23:08,640

been right under our noses the whole

692

00:23:11,350 --> 00:23:10,240

time

693

00:23:13,029 --> 00:23:11,360

wow

694

00:23:15,029 --> 00:23:13,039

that that kind of

695

00:23:17,029 --> 00:23:15,039

i'm going to have to go back and dig

696

00:23:18,870 --> 00:23:17,039

at some point we will talk about it once

697

00:23:19,909 --> 00:23:18,880

we can get the data and if it turns out

698

00:23:21,750 --> 00:23:19,919

that it doesn't work we'll tell

699

00:23:25,029 --> 00:23:21,760

everybody to look this this was a dead

700

00:23:26,950 --> 00:23:25,039

end but but right now it's uh

701
00:23:29,510 --> 00:23:26,960
most of the folks the scientists are not

702
00:23:32,149 --> 00:23:29,520
in your head saying yeah that actually

703
00:23:33,029 --> 00:23:32,159
that that could be it

704
00:23:34,070 --> 00:23:33,039
wow

705
00:23:37,190 --> 00:23:34,080
that's

706
00:23:38,950 --> 00:23:37,200
intriguing still but no i respect your

707
00:23:40,710 --> 00:23:38,960
your position on that so

708
00:23:43,430 --> 00:23:40,720
guys for everyone watching i tried i

709
00:23:48,149 --> 00:23:46,230
um right let's move on then um one thing

710
00:23:49,830 --> 00:23:48,159
that um i saw recently and a lot of

711
00:23:51,830 --> 00:23:49,840
other people have spoke to me about is

712
00:23:53,590 --> 00:23:51,840
an is an interview that tom delong did

713
00:23:54,950 --> 00:23:53,600

recently now i'm not going to ask for

714

00:23:56,950 --> 00:23:54,960

you to speak on behalf of tom or

715

00:23:58,710 --> 00:23:56,960

anything but he talked about the three

716

00:24:00,950 --> 00:23:58,720

videos that came out through tsa you

717

00:24:02,789 --> 00:24:00,960

know the three navy videos that we all

718

00:24:05,029 --> 00:24:02,799

know so well but he said there were

719

00:24:07,669 --> 00:24:05,039

actually 26 videos

720

00:24:09,990 --> 00:24:07,679

one specifically of a craft 10 feet away

721

00:24:12,230 --> 00:24:10,000

from an f18 scanning the plane for 20

722

00:24:13,990 --> 00:24:12,240

minutes now this sounds familiar

723

00:24:15,269 --> 00:24:14,000

you know add three minutes onto that and

724

00:24:16,789 --> 00:24:15,279

it's the thing we've been talking about

725

00:24:19,510 --> 00:24:16,799

for a while now

726

00:24:22,149 --> 00:24:19,520

one thing that tom said and i quote we

727

00:24:24,390 --> 00:24:22,159

almost got that one out

728

00:24:25,990 --> 00:24:24,400

is is that something you're aware of did

729

00:24:27,830 --> 00:24:26,000

we come close to getting that video out

730

00:24:30,950 --> 00:24:27,840

in the past you know i can't speak for

731

00:24:33,269 --> 00:24:30,960

tom um i love the guy i really do uh

732

00:24:34,390 --> 00:24:33,279

yeah but uh

733

00:24:36,549 --> 00:24:34,400

you know um

734

00:24:38,390 --> 00:24:36,559

[Music]

735

00:24:40,630 --> 00:24:38,400

tom's tom

736

00:24:42,710 --> 00:24:40,640

yeah i think we know that

737

00:24:46,149 --> 00:24:42,720

sometimes tom says things

738

00:24:48,310 --> 00:24:46,159

uh that even i have to look and say what

739

00:24:50,789 --> 00:24:48,320

okay where'd you get that

740

00:24:52,470 --> 00:24:50,799

um but um

741

00:24:56,549 --> 00:24:52,480

you know again i i don't want to speak

742

00:24:58,310 --> 00:24:56,559

for tom um you know i i i'm very

743

00:25:01,110 --> 00:24:58,320

if you

744

00:25:03,430 --> 00:25:01,120

chris and i are very measured in what we

745

00:25:06,070 --> 00:25:03,440

say i'd rather i'd rather under promise

746

00:25:07,830 --> 00:25:06,080

and over deliver that's kind of my mo um

747

00:25:09,350 --> 00:25:07,840

i know it drives people crazy and they

748

00:25:11,430 --> 00:25:09,360

start losing patience and we want to

749

00:25:14,549 --> 00:25:11,440

know now i get it

750

00:25:17,669 --> 00:25:14,559

but but there's nothing worse than than

751
00:25:19,269 --> 00:25:17,679
over promising something and so um

752
00:25:21,269 --> 00:25:19,279
you know i i'm very care what i have

753
00:25:23,750 --> 00:25:21,279
said is what i have said for the record

754
00:25:25,990 --> 00:25:23,760
and it's it's that type of stuff that

755
00:25:29,430 --> 00:25:26,000
will someday hopefully soon continue to

756
00:25:31,990 --> 00:25:29,440
be established and reaffirmed

757
00:25:34,149 --> 00:25:32,000
everything i've ever said to to about

758
00:25:35,669 --> 00:25:34,159
this topic uh has always been truthful

759
00:25:37,430 --> 00:25:35,679
and has always come to fruition and

760
00:25:39,190 --> 00:25:37,440
hopefully people might now realize that

761
00:25:41,430 --> 00:25:39,200
i've lived breadcrumbs for three and a

762
00:25:43,110 --> 00:25:41,440
half or four years on this topic

763
00:25:45,029 --> 00:25:43,120

and every single one of those things

764

00:25:47,269 --> 00:25:45,039

have come to fruition

765

00:25:48,870 --> 00:25:47,279

but i'm also very measured i i don't

766

00:25:50,549 --> 00:25:48,880

like to over promise because i don't

767

00:25:53,029 --> 00:25:50,559

want to disappoint anybody i don't want

768

00:25:55,990 --> 00:25:53,039

you to to anybody's expectation any type

769

00:25:57,190 --> 00:25:56,000

of false expectations it's really really

770

00:25:59,510 --> 00:25:57,200

important

771

00:26:01,990 --> 00:25:59,520

especially on this topic because it is

772

00:26:04,230 --> 00:26:02,000

it is so emotional for so many people

773

00:26:04,950 --> 00:26:04,240

and and there is an expectation for me

774

00:26:07,830 --> 00:26:04,960

to

775

00:26:09,430 --> 00:26:07,840

the truth

776

00:26:11,750 --> 00:26:09,440

there's an expectation people have and

777

00:26:14,230 --> 00:26:11,760

it's expectation i have of myself

778

00:26:15,990 --> 00:26:14,240

so for that reason um a lot of times i

779

00:26:18,950 --> 00:26:16,000

just i tend to be

780

00:26:20,710 --> 00:26:18,960

uh a little bit more subdued

781

00:26:22,549 --> 00:26:20,720

simply because uh

782

00:26:24,390 --> 00:26:22,559

you know i don't i don't want to i don't

783

00:26:26,149 --> 00:26:24,400

want to do anything and set anybody's

784

00:26:28,070 --> 00:26:26,159

expectations and all of a sudden i fail

785

00:26:29,750 --> 00:26:28,080

to deliver even a little bit

786

00:26:31,750 --> 00:26:29,760

on that um

787

00:26:33,510 --> 00:26:31,760

so if you look at my my twitter page i

788

00:26:35,990 --> 00:26:33,520

always say on there you know i will

789

00:26:38,470 --> 00:26:36,000

always own my own mistakes and i will

790

00:26:39,830 --> 00:26:38,480

and and i do uh at least the mistakes

791

00:26:41,510 --> 00:26:39,840

that i realize i make right there's

792

00:26:43,190 --> 00:26:41,520

those you can you can't the ones that

793

00:26:45,029 --> 00:26:43,200

you don't realize you make then you know

794

00:26:46,470 --> 00:26:45,039

those are the ones that get you usually

795

00:26:50,390 --> 00:26:46,480

um

796

00:26:52,630 --> 00:26:50,400

that's my perspective i really i'm not

797

00:26:54,789 --> 00:26:52,640

gonna comment on what tom

798

00:26:58,149 --> 00:26:54,799

says or does thomas tom

799

00:27:00,470 --> 00:26:58,159

sure uh you know and um i guess that's

800

00:27:02,950 --> 00:27:00,480

that no that's great no worries thank

801
00:27:05,110 --> 00:27:02,960
you i mean i think we all know that tom

802
00:27:06,390 --> 00:27:05,120
some statements um do go out there a

803
00:27:08,070 --> 00:27:06,400
little bit so

804
00:27:09,909 --> 00:27:08,080
no that's fine

805
00:27:11,830 --> 00:27:09,919
um let's talk about this new ai tool i

806
00:27:13,830 --> 00:27:11,840
know you've mentioned it again but um is

807
00:27:16,070 --> 00:27:13,840
this the one is it related to the scouts

808
00:27:18,549 --> 00:27:16,080
or that ttsa were working on or is this

809
00:27:21,029 --> 00:27:18,559
a completely new platform

810
00:27:23,029 --> 00:27:21,039
well uh

811
00:27:24,950 --> 00:27:23,039
[h__h] i'm almost tempted to share a

812
00:27:26,710 --> 00:27:24,960
screen and show you a little little dry

813
00:27:28,310 --> 00:27:26,720

run i don't know if uh i can do that

814

00:27:29,669 --> 00:27:28,320

would you be okay with that yes

815

00:27:31,750 --> 00:27:29,679

absolutely

816

00:27:33,430 --> 00:27:31,760

okay let me see if i can do this stand

817

00:27:36,149 --> 00:27:33,440

by let me first pull this up yeah let's

818

00:27:39,110 --> 00:27:37,669

i'm going to pull this up first before i

819

00:27:40,470 --> 00:27:39,120

share the screen because i know you have

820

00:27:43,029 --> 00:27:40,480

some very clever people that will

821

00:27:43,990 --> 00:27:43,039

absolutely screen every single thing i

822

00:27:50,870 --> 00:27:44,000

do

823

00:27:55,029 --> 00:27:52,070

i'm probably gonna get myself in trouble

824

00:27:57,990 --> 00:27:56,470

give me a second here

825

00:28:02,070 --> 00:27:58,000

yeah no problem

826

00:28:07,909 --> 00:28:03,990

okay so here's here it is here's the

827

00:28:09,830 --> 00:28:07,919

case study and what i'm going to do um

828

00:28:11,750 --> 00:28:09,840

let me let me caveat a few things here

829

00:28:13,350 --> 00:28:11,760

first okay when i do just because i

830

00:28:17,590 --> 00:28:13,360

don't want anybody let me see i can

831

00:28:20,870 --> 00:28:19,510

okay

832

00:28:22,789 --> 00:28:20,880

see i don't know how i can share this

833

00:28:23,909 --> 00:28:22,799

screen without all of a sudden everybody

834

00:28:25,190 --> 00:28:23,919

and their mother looking at it let me

835

00:28:26,630 --> 00:28:25,200

see if i can do it this way yeah i can

836

00:28:29,269 --> 00:28:26,640

do it this way

837

00:28:31,590 --> 00:28:29,279

okay let's try this

838

00:28:33,990 --> 00:28:31,600

let me come back to you

839

00:28:36,710 --> 00:28:34,000

zoom no i'm not on zoom

840

00:28:41,269 --> 00:28:36,720

i'm on steam yard right stream yeah yeah

841

00:28:44,149 --> 00:28:42,549

and then at the bottom of the screen on

842

00:28:45,590 --> 00:28:44,159

the stream yard there's the share button

843

00:28:48,950 --> 00:28:45,600

if you click that then i can add your

844

00:28:51,590 --> 00:28:48,960

screen okay let's try this boom

845

00:28:54,070 --> 00:28:51,600

uh video share screen okay

846

00:28:56,389 --> 00:28:54,080

your screen

847

00:28:57,990 --> 00:28:56,399

uh i would like to record this computer

848

00:28:59,990 --> 00:28:58,000

screen so i'm allowing you to record it

849

00:29:02,149 --> 00:29:00,000

is that correct yeah that just allows it

850

00:29:04,950 --> 00:29:02,159

to go into the live feed

851
00:29:07,269 --> 00:29:04,960
okay uh sure

852
00:29:09,390 --> 00:29:07,279
is it sharing right now or no i'm not

853
00:29:10,710 --> 00:29:09,400
seeing anything now

854
00:29:12,310 --> 00:29:10,720
[Music]

855
00:29:15,350 --> 00:29:12,320
let's see here entire screen here i'm

856
00:29:16,870 --> 00:29:15,360
trying to here we go let's try that

857
00:29:18,710 --> 00:29:16,880
is it working now no

858
00:29:20,470 --> 00:29:18,720
no

859
00:29:22,870 --> 00:29:20,480
it says chrome has lost permission to

860
00:29:25,269 --> 00:29:22,880
capture your screen okay follow these

861
00:29:26,760 --> 00:29:25,279
steps oh my goodness i'm so sorry

862
00:29:30,470 --> 00:29:26,770
i know don't worry about it

863
00:29:32,980 --> 00:29:32,549

yes browser chrome

864

00:29:34,070 --> 00:29:32,990

um

865

00:29:40,389 --> 00:29:34,080

[Music]

866

00:29:40,399 --> 00:29:43,269

the app it says

867

00:29:48,310 --> 00:29:44,950

well i'll tell you what let me walk you

868

00:29:50,870 --> 00:29:48,320

through it um so

869

00:29:52,230 --> 00:29:50,880

that's obviously not going to work

870

00:29:53,750 --> 00:29:52,240

see this is why i don't like to over

871

00:29:55,269 --> 00:29:53,760

promise right because then it never

872

00:29:57,590 --> 00:29:55,279

works out so

873

00:29:59,430 --> 00:29:57,600

uh what i did is sorry people in the

874

00:30:00,630 --> 00:29:59,440

chat saying can you send it to vinnie is

875

00:30:03,350 --> 00:30:00,640

this something you're allowed to share

876

00:30:05,029 --> 00:30:03,360

with me it's huge file so it's a video

877

00:30:06,149 --> 00:30:05,039

that was taken on a military

878

00:30:08,630 --> 00:30:06,159

installation

879

00:30:10,470 --> 00:30:08,640

by an individual who who was a military

880

00:30:11,430 --> 00:30:10,480

officer who said they saw a black flying

881

00:30:14,549 --> 00:30:11,440

disc

882

00:30:16,549 --> 00:30:14,559

and uh it was hovering and uh so we the

883

00:30:18,149 --> 00:30:16,559

video was poor quality we apply some ai

884

00:30:19,750 --> 00:30:18,159

to it and all of a sudden we show what

885

00:30:21,029 --> 00:30:19,760

the ai can do and there's this black

886

00:30:23,590 --> 00:30:21,039

covering disk

887

00:30:25,510 --> 00:30:23,600

and then we apply the ai to it to look

888

00:30:28,070 --> 00:30:25,520

at the background the pixelation the

889

00:30:30,230 --> 00:30:28,080

object itself and what i will say is

890

00:30:31,590 --> 00:30:30,240

that um things aren't always what they

891

00:30:33,430 --> 00:30:31,600

seem and

892

00:30:36,149 --> 00:30:33,440

it's very the point to this whole

893

00:30:37,830 --> 00:30:36,159

exercise was it's very very important

894

00:30:40,149 --> 00:30:37,840

that

895

00:30:43,590 --> 00:30:40,159

quality of data

896

00:30:46,950 --> 00:30:43,600

is it's imperative because

897

00:30:48,870 --> 00:30:46,960

you need to be able to not only prove

898

00:30:51,029 --> 00:30:48,880

something is authentic but you also need

899

00:30:53,510 --> 00:30:51,039

to be able to prove that it is not

900

00:30:56,389 --> 00:30:53,520

authentic right or that there's

901
00:30:58,230 --> 00:30:56,399
something else going on um and in order

902
00:31:00,389 --> 00:30:58,240
to separate the signal from the noise

903
00:31:02,710 --> 00:31:00,399
because ultimately that's the type of

904
00:31:04,470 --> 00:31:02,720
data that gets people to really

905
00:31:06,070 --> 00:31:04,480
to really listen

906
00:31:07,269 --> 00:31:06,080
and i have a presentation here that i

907
00:31:10,389 --> 00:31:07,279
provided

908
00:31:11,909 --> 00:31:10,399
when i was in san marino i think it was

909
00:31:12,630 --> 00:31:11,919
recorded but that was the pre i was

910
00:31:15,110 --> 00:31:12,640
going to show you part of that

911
00:31:17,110 --> 00:31:15,120
presentation now okay and i think it it

912
00:31:19,029 --> 00:31:17,120
really helps people really grasp where

913
00:31:20,389 --> 00:31:19,039

we are people look at that they go oh

914

00:31:21,750 --> 00:31:20,399

okay because i

915

00:31:24,070 --> 00:31:21,760

i talked about in some detail the five

916

00:31:25,750 --> 00:31:24,080

pillars of engagement i talk about what

917

00:31:27,269 --> 00:31:25,760

we've been collectively able to achieve

918

00:31:29,190 --> 00:31:27,279

in the last three years then i talk

919

00:31:30,630 --> 00:31:29,200

about what we're doing right now things

920

00:31:32,549 --> 00:31:30,640

that are happening right now behind the

921

00:31:34,149 --> 00:31:32,559

scenes and then i talk about where do we

922

00:31:36,470 --> 00:31:34,159

go into the future what what is what

923

00:31:38,710 --> 00:31:36,480

does tomorrow look like and so i have

924

00:31:40,230 --> 00:31:38,720

some some ideas construct of what a

925

00:31:42,389 --> 00:31:40,240

federal lab would look like and who's

926

00:31:44,389 --> 00:31:42,399

all participating and then i go into

927

00:31:46,070 --> 00:31:44,399

some technology we talk about the ai and

928

00:31:48,549 --> 00:31:46,080

i actually do a dry run i actually show

929

00:31:49,830 --> 00:31:48,559

hey look boom boom boom boom boom and by

930

00:31:51,990 --> 00:31:49,840

the time we're done people are kind of

931

00:31:53,350 --> 00:31:52,000

like wow holy smokes that's going to be

932

00:31:55,590 --> 00:31:53,360

available to all of us and we're like

933

00:31:58,070 --> 00:31:55,600

lots we're working on i mean it ain't

934

00:31:59,509 --> 00:31:58,080

cheap but you know that's that's that's

935

00:32:01,430 --> 00:31:59,519

what we're we're in the process of

936

00:32:02,870 --> 00:32:01,440

building uh is that file sorry to

937

00:32:04,870 --> 00:32:02,880

interrupt is that file something you can

938

00:32:07,269 --> 00:32:04,880

send me that i can then share with my

939

00:32:09,110 --> 00:32:07,279

with everyone at a later date

940

00:32:11,190 --> 00:32:09,120

yeah i mean if i'm i'm getting it to

941

00:32:14,870 --> 00:32:11,200

skype for it on wii transfer because it

942

00:32:17,029 --> 00:32:14,880

is such a huge file so sean and jake and

943

00:32:19,590 --> 00:32:17,039

jess will have it and and more than

944

00:32:21,110 --> 00:32:19,600

happy to share it with you

945

00:32:22,710 --> 00:32:21,120

yeah i think you'll find it i mean most

946

00:32:24,549 --> 00:32:22,720

people when they see it they're at that

947

00:32:26,630 --> 00:32:24,559

point they're kind of like oh okay we we

948

00:32:29,029 --> 00:32:26,640

get it this is yeah yeah you this is

949

00:32:30,310 --> 00:32:29,039

this is the the road map of of how we

950

00:32:32,070 --> 00:32:30,320

got to where we are today and you're

951
00:32:33,750 --> 00:32:32,080
right this is we this is probably the

952
00:32:35,029 --> 00:32:33,760
way we should probably be leaning to go

953
00:32:36,549 --> 00:32:35,039
in the future

954
00:32:39,110 --> 00:32:36,559
um

955
00:32:41,750 --> 00:32:39,120
anyways so no it's fantastic so just

956
00:32:42,870 --> 00:32:41,760
because everyone in the in the chats

957
00:32:44,789 --> 00:32:42,880
on the edge of their seats they're

958
00:32:46,870 --> 00:32:44,799
wanting to see let me try one more time

959
00:32:49,909 --> 00:32:46,880
here yeah let's do it i'm sorry guys

960
00:32:51,590 --> 00:32:49,919
let's just try this again

961
00:32:54,149 --> 00:32:51,600
all right let's let's see if we can get

962
00:32:55,669 --> 00:32:54,159
this thing up and running

963
00:32:57,990 --> 00:32:55,679

i'm going to try one more time okay so

964

00:32:59,990 --> 00:32:58,000

i've got this up here

965

00:33:07,830 --> 00:33:00,000

yep boom

966

00:33:12,470 --> 00:33:11,509

share screen yep share screen

967

00:33:14,789 --> 00:33:12,480

to my

968

00:33:16,389 --> 00:33:14,799

share screen

969

00:33:18,310 --> 00:33:16,399

entire screen

970

00:33:22,830 --> 00:33:18,320

yep

971

00:33:26,070 --> 00:33:24,470

share

972

00:33:28,149 --> 00:33:26,080

it says chrome has lost permission to

973

00:33:31,350 --> 00:33:28,159

capture your screen so for whatever

974

00:33:33,269 --> 00:33:31,360

reason chrome isn't letting me do it um

975

00:33:35,110 --> 00:33:33,279

i apologize

976

00:33:36,950 --> 00:33:35,120

no no honestly it's not your fault it's

977

00:33:38,630 --> 00:33:36,960

i i've not had this issue before so

978

00:33:40,549 --> 00:33:38,640

unfortunately i i don't know what to say

979

00:33:42,789 --> 00:33:40,559

so see here i'm telling people i wanna i

980

00:33:44,549 --> 00:33:42,799

wanna you know uh uh under promise over

981

00:33:46,789 --> 00:33:44,559

deliver and here's a perfect example

982

00:33:49,990 --> 00:33:46,799

right you try try to try to do something

983

00:33:51,590 --> 00:33:50,000

man and you crash and burn so uh

984

00:33:53,350 --> 00:33:51,600

like you said you you said you'd send it

985

00:33:54,950 --> 00:33:53,360

to me so for everyone watching when i

986

00:33:56,470 --> 00:33:54,960

get it from lou yeah we'll get we'll get

987

00:33:58,470 --> 00:33:56,480

it out to folks i'll put a video out on

988

00:34:01,669 --> 00:33:58,480

youtube or something and you know so

989

00:34:04,070 --> 00:34:01,679

yeah great um can we just ask about the

990

00:34:05,430 --> 00:34:04,080

when the tool is released to the public

991

00:34:08,069 --> 00:34:05,440

is that is it gonna be an app is it

992

00:34:09,909 --> 00:34:08,079

going to be internet-based software or

993

00:34:12,389 --> 00:34:09,919

what's it what format we're working on

994

00:34:14,149 --> 00:34:12,399

that now you know the problem is it's

995

00:34:15,349 --> 00:34:14,159

it's expensive look at first of all

996

00:34:17,589 --> 00:34:15,359

there's some there's some there's some

997

00:34:18,470 --> 00:34:17,599

pros and cons to ai first of all ai is

998

00:34:20,389 --> 00:34:18,480

great

999

00:34:22,470 --> 00:34:20,399

uh because it never gets tired it works

1000

00:34:23,829 --> 00:34:22,480

24 7. it doesn't you know suffer from

1001
00:34:25,829 --> 00:34:23,839
human fatigue

1002
00:34:27,909 --> 00:34:25,839
but there's also some limitations

1003
00:34:29,669 --> 00:34:27,919
first of all not all ai is created

1004
00:34:31,909 --> 00:34:29,679
equally two

1005
00:34:34,230 --> 00:34:31,919
a.i if you don't train it right you have

1006
00:34:36,710 --> 00:34:34,240
to ai is only as good as its teacher and

1007
00:34:38,389 --> 00:34:36,720
humans or this teacher

1008
00:34:39,510 --> 00:34:38,399
if if you don't train it right in the

1009
00:34:41,510 --> 00:34:39,520
beginning

1010
00:34:43,750 --> 00:34:41,520
problems and misidentifications will

1011
00:34:46,149 --> 00:34:43,760
propagate uh forever so if i for example

1012
00:34:47,270 --> 00:34:46,159
say on the ai that this is a car not a

1013
00:34:49,030 --> 00:34:47,280

cell phone

1014

00:34:51,750 --> 00:34:49,040

from that day forward every time it sees

1015

00:34:53,349 --> 00:34:51,760

this it'll call it a car right and then

1016

00:34:54,790 --> 00:34:53,359

false analytics are further applied to

1017

00:34:56,230 --> 00:34:54,800

it it just gets it's like a cancer just

1018

00:34:57,109 --> 00:34:56,240

grows gross growth so

1019

00:34:59,030 --> 00:34:57,119

uh

1020

00:35:01,430 --> 00:34:59,040

we we're working on that there's also a

1021

00:35:03,109 --> 00:35:01,440

massive upfront cost associated with it

1022

00:35:05,349 --> 00:35:03,119

it will be free there'll be a version

1023

00:35:06,390 --> 00:35:05,359

that's free for everybody to use

1024

00:35:09,589 --> 00:35:06,400

um

1025

00:35:11,270 --> 00:35:09,599

you know it's uh it ain't cheap uh we've

1026
00:35:12,790 --> 00:35:11,280
got some really really good people that

1027
00:35:14,710 --> 00:35:12,800
are working some of the best ai people

1028
00:35:16,470 --> 00:35:14,720
frankly in in the world in my opinion

1029
00:35:18,230 --> 00:35:16,480
that are working on this

1030
00:35:20,310 --> 00:35:18,240
um and they're putting a lot of time and

1031
00:35:21,990 --> 00:35:20,320
money and effort into it so

1032
00:35:23,670 --> 00:35:22,000
there will be there will be hopefully a

1033
00:35:26,310 --> 00:35:23,680
free version there will be a free

1034
00:35:27,589 --> 00:35:26,320
version just hopefully soon uh we want

1035
00:35:29,349 --> 00:35:27,599
to work out the bugs the last thing we

1036
00:35:31,030 --> 00:35:29,359
want to do is make the mistake that

1037
00:35:32,550 --> 00:35:31,040
other people do you provide something

1038
00:35:34,710 --> 00:35:32,560

that's supposed to be an answer all for

1039

00:35:36,630 --> 00:35:34,720

everybody and all of a sudden it's it's

1040

00:35:37,990 --> 00:35:36,640

not ready for prime time right and it's

1041

00:35:38,950 --> 00:35:38,000

important to becoming a miserable

1042

00:35:41,670 --> 00:35:38,960

failure

1043

00:35:42,630 --> 00:35:41,680

um i don't want to do that no

1044

00:35:44,710 --> 00:35:42,640

again

1045

00:35:46,069 --> 00:35:44,720

back to to under promise over deliver

1046

00:35:47,109 --> 00:35:46,079

that's that's what we're trying to do

1047

00:35:48,069 --> 00:35:47,119

and by the way we've been working on

1048

00:35:50,150 --> 00:35:48,079

this for

1049

00:35:51,750 --> 00:35:50,160

for a few years now behind the scenes um

1050

00:35:53,430 --> 00:35:51,760

i haven't provided an update to it

1051
00:35:55,349 --> 00:35:53,440
because i didn't think there was any

1052
00:35:57,750 --> 00:35:55,359
update to provide until we had something

1053
00:35:58,950 --> 00:35:57,760
yeah that makes sense excellent

1054
00:36:00,630 --> 00:35:58,960
i'm going to move on to some questions

1055
00:36:03,190 --> 00:36:00,640
that were submitted through my uh some

1056
00:36:05,910 --> 00:36:03,200
of my social medias um so this one is

1057
00:36:07,270 --> 00:36:05,920
from an an an anonymous

1058
00:36:09,910 --> 00:36:07,280
uh person

1059
00:36:11,990 --> 00:36:09,920
um we when it comes to sizes and shapes

1060
00:36:14,150 --> 00:36:12,000
of uap have you ever come across

1061
00:36:15,910 --> 00:36:14,160
anything on the micro scale when it

1062
00:36:18,390 --> 00:36:15,920
comes to auap

1063
00:36:19,109 --> 00:36:18,400

what a great question um

1064

00:36:21,190 --> 00:36:19,119

no

1065

00:36:22,310 --> 00:36:21,200

uh but that doesn't mean anything if you

1066

00:36:24,390 --> 00:36:22,320

look if you're not looking for it then

1067

00:36:26,310 --> 00:36:24,400

you don't see it necessarily so i think

1068

00:36:27,990 --> 00:36:26,320

that's a great question um it's

1069

00:36:30,069 --> 00:36:28,000

something that we haven't really we

1070

00:36:32,230 --> 00:36:30,079

collectively haven't really considered

1071

00:36:35,510 --> 00:36:32,240

um but it's it's certainly possible look

1072

00:36:38,470 --> 00:36:35,520

we make micro uavs right so we we we

1073

00:36:40,230 --> 00:36:38,480

have technology to do that so i think

1074

00:36:42,470 --> 00:36:40,240

certainly it's in the realm of of

1075

00:36:44,630 --> 00:36:42,480

possibility frankly maybe even the realm

1076
00:36:45,910 --> 00:36:44,640
of likelihood um it's just something we

1077
00:36:47,109 --> 00:36:45,920
haven't really we haven't really looked

1078
00:36:49,109 --> 00:36:47,119
at yet

1079
00:36:50,470 --> 00:36:49,119
fabulous thank you um this one was

1080
00:36:52,150 --> 00:36:50,480
actually a super chat from our

1081
00:36:54,390 --> 00:36:52,160
conversation with gary the other day

1082
00:36:56,630 --> 00:36:54,400
that i said i i promised that i would

1083
00:36:58,550 --> 00:36:56,640
ask so this is for mr carl vibe

1084
00:37:01,030 --> 00:36:58,560
firstly this is a three-parter first

1085
00:37:01,910 --> 00:37:01,040
will lou go on my show

1086
00:37:04,150 --> 00:37:01,920
true

1087
00:37:06,150 --> 00:37:04,160
there you go next question

1088
00:37:09,030 --> 00:37:06,160

can you explain the heavy references to

1089

00:37:11,510 --> 00:37:09,040

greek mythology in the tsa books and

1090

00:37:12,950 --> 00:37:11,520

the masonic symbols in their cartoons

1091

00:37:14,790 --> 00:37:12,960

i've

1092

00:37:17,030 --> 00:37:14,800

looked again this is a time to long

1093

00:37:19,109 --> 00:37:17,040

question uh

1094

00:37:22,150 --> 00:37:19,119

tom tom has admitted he's that's it's a

1095

00:37:25,190 --> 00:37:22,160

work of fiction you know and inspired by

1096

00:37:27,670 --> 00:37:25,200

by his perspective um that perspective

1097

00:37:30,870 --> 00:37:27,680

isn't necessarily shared by others

1098

00:37:32,710 --> 00:37:30,880

um you know i'm not in tsa anymore

1099

00:37:33,829 --> 00:37:32,720

neither is chris mellon or steve justice

1100

00:37:34,870 --> 00:37:33,839

or hal

1101

00:37:36,470 --> 00:37:34,880

um

1102

00:37:38,230 --> 00:37:36,480

you know

1103

00:37:39,910 --> 00:37:38,240

thomas made it clear he's pursuing

1104

00:37:41,109 --> 00:37:39,920

entertainment um

1105

00:37:43,349 --> 00:37:41,119

in this topic

1106

00:37:44,710 --> 00:37:43,359

and he's entitled to do so and you know

1107

00:37:47,349 --> 00:37:44,720

entertainment can be very effective

1108

00:37:49,589 --> 00:37:47,359

tools for for having a conversation

1109

00:37:51,349 --> 00:37:49,599

it's just not my expertise or specialty

1110

00:37:53,349 --> 00:37:51,359

when people say well you're doing a tv

1111

00:37:54,470 --> 00:37:53,359

show and isn't that entertainment well

1112

00:37:56,230 --> 00:37:54,480

there's a difference between

1113

00:37:57,750 --> 00:37:56,240

entertainment and infotainment

1114

00:37:59,270 --> 00:37:57,760

unfortunately sometimes you have to make

1115

00:38:01,190 --> 00:37:59,280

information a little bit interesting for

1116

00:38:02,630 --> 00:38:01,200

people to pay attention yeah i'm not an

1117

00:38:05,829 --> 00:38:02,640

entertainer i never have been i never

1118

00:38:07,270 --> 00:38:05,839

will be um you know my job is to just

1119

00:38:09,910 --> 00:38:07,280

try to present the the truth and the

1120

00:38:11,589 --> 00:38:09,920

facts in a consumable way that's it

1121

00:38:14,069 --> 00:38:11,599

um i don't consider myself an

1122

00:38:17,670 --> 00:38:14,079

entertainer and so entertainment is not

1123

00:38:20,150 --> 00:38:17,680

my thing so books uh secret machines um

1124

00:38:21,510 --> 00:38:20,160

you know that him and lavender wrote

1125

00:38:23,190 --> 00:38:21,520

um

1126

00:38:24,950 --> 00:38:23,200

you know i i

1127

00:38:27,589 --> 00:38:24,960

i think according to tom he's got some

1128

00:38:29,030 --> 00:38:27,599

theories in there uh that that tom

1129

00:38:30,390 --> 00:38:29,040

subscribes to

1130

00:38:32,950 --> 00:38:30,400

um

1131

00:38:34,150 --> 00:38:32,960

but i i can't i can't provide any

1132

00:38:36,230 --> 00:38:34,160

comment it's not

1133

00:38:38,150 --> 00:38:36,240

i don't know that that's fair enough um

1134

00:38:40,550 --> 00:38:38,160

another third and final part of that

1135

00:38:44,829 --> 00:38:40,560

that question or these questions is

1136

00:38:46,790 --> 00:38:44,839

has lou ever been trained in remote

1137

00:38:49,190 --> 00:38:46,800

viewing uh

1138

00:38:52,230 --> 00:38:49,200

let's let's pass on that one for now

1139

00:38:56,069 --> 00:38:52,240

so i don't want to uh i don't want to

1140

00:38:57,670 --> 00:38:56,079

what i don't want to do is um

1141

00:38:58,630 --> 00:38:57,680

i don't want to distract from the topic

1142

00:39:00,310 --> 00:38:58,640

at hand

1143

00:39:01,910 --> 00:39:00,320

i don't want i don't want anything in my

1144

00:39:03,510 --> 00:39:01,920

past or my background it's already

1145

00:39:05,349 --> 00:39:03,520

distraction and people find out certain

1146

00:39:06,870 --> 00:39:05,359

things about your background and

1147

00:39:08,230 --> 00:39:06,880

assignments you have and all of a sudden

1148

00:39:09,349 --> 00:39:08,240

oh he's a bad guy and he shouldn't do

1149

00:39:10,790 --> 00:39:09,359

that i mean

1150

00:39:12,870 --> 00:39:10,800

why would he ever do admission like that

1151

00:39:14,390 --> 00:39:12,880

you know well it was my mission sorry i

1152

00:39:15,829 --> 00:39:14,400

don't want to tell you you know you do

1153

00:39:17,349 --> 00:39:15,839

what you're told when you're when you're

1154

00:39:20,390 --> 00:39:17,359

when you when you serve a government

1155

00:39:21,349 --> 00:39:20,400

yeah um you know that's that's you know

1156

00:39:23,190 --> 00:39:21,359

and if you don't want to then don't

1157

00:39:25,030 --> 00:39:23,200

serve your government you know i'm not

1158

00:39:26,069 --> 00:39:25,040

forcing anybody to do that

1159

00:39:27,750 --> 00:39:26,079

um

1160

00:39:30,150 --> 00:39:27,760

i i don't want i don't want those

1161

00:39:31,589 --> 00:39:30,160

elements any elements of my background

1162

00:39:33,109 --> 00:39:31,599

to to be a distraction of the

1163

00:39:34,310 --> 00:39:33,119

conversation we're having today and

1164

00:39:37,589 --> 00:39:34,320

unfortunately

1165

00:39:40,069 --> 00:39:37,599

um it's it it will be any anything in

1166

00:39:42,710 --> 00:39:40,079

someone's background can can always be

1167

00:39:44,950 --> 00:39:42,720

you know viewed in either positive or a

1168

00:39:46,630 --> 00:39:44,960

negative way and i i don't want to i

1169

00:39:48,630 --> 00:39:46,640

don't want to distract

1170

00:39:50,950 --> 00:39:48,640

absolutely no problem thank you anyway

1171

00:39:53,670 --> 00:39:50,960

um another anonymous question here could

1172

00:39:55,670 --> 00:39:53,680

the 2019 events involving the uss kid

1173

00:39:57,990 --> 00:39:55,680

uss russell and the other navy ships

1174

00:40:00,390 --> 00:39:58,000

actually be a have been a training

1175

00:40:03,589 --> 00:40:00,400

exercise specifically intended to bait

1176

00:40:10,390 --> 00:40:05,589

what a great question

1177

00:40:13,589 --> 00:40:12,390

i probably

1178

00:40:14,790 --> 00:40:13,599

i'm not going to answer that question

1179

00:40:15,990 --> 00:40:14,800

because that's a question that probably

1180

00:40:17,030 --> 00:40:16,000

the government needs to answer for

1181

00:40:17,910 --> 00:40:17,040

itself

1182

00:40:18,710 --> 00:40:17,920

sure

1183

00:40:21,670 --> 00:40:18,720

um

1184

00:40:23,670 --> 00:40:21,680

great great question

1185

00:40:25,349 --> 00:40:23,680

yeah i like that one definitely because

1186

00:40:27,109 --> 00:40:25,359

that was something i was looking into

1187

00:40:28,470 --> 00:40:27,119

for quite some time and i think i asked

1188

00:40:29,670 --> 00:40:28,480

you the bait question on our last

1189

00:40:31,910 --> 00:40:29,680

interview a couple of months ago and

1190

00:40:34,630 --> 00:40:31,920

that that just really fitted together

1191

00:40:37,109 --> 00:40:34,640

for me so i appreciate it um this is a

1192

00:40:39,430 --> 00:40:37,119

question from benji um and this is

1193

00:40:41,750 --> 00:40:39,440

another one about baiting can you talk

1194

00:40:43,109 --> 00:40:41,760

to whether these methods of baiting that

1195

00:40:45,270 --> 00:40:43,119

have been used have actually been

1196

00:40:47,829 --> 00:40:45,280

successful

1197

00:40:49,990 --> 00:40:47,839

i'm going to take a play password

1198

00:40:51,510 --> 00:40:50,000

by the way it is amazing the questions

1199

00:40:52,470 --> 00:40:51,520

now how they have evolved over the last

1200

00:40:54,870 --> 00:40:52,480

three years

1201

00:40:56,390 --> 00:40:54,880

before it was you know uh

1202

00:40:58,790 --> 00:40:56,400

questions like uh

1203

00:41:03,990 --> 00:41:01,109

is elvis alive right now now the

1204

00:41:07,109 --> 00:41:04,000

questions are like really really good

1205

00:41:09,670 --> 00:41:07,119

very very insightful you know someone's

1206

00:41:11,910 --> 00:41:09,680

been doing their homework for sure yeah

1207

00:41:14,309 --> 00:41:11,920

so thank you for those wonderful

1208

00:41:16,150 --> 00:41:14,319

questions um i i suspect we will be able

1209

00:41:18,710 --> 00:41:16,160

to answer them soon i just i'm not at

1210

00:41:22,870 --> 00:41:18,720

liberty to to even go down that road

1211

00:41:25,270 --> 00:41:22,880

right now um but um you know those are

1212

00:41:27,910 --> 00:41:25,280

quick great keep asking those questions

1213

00:41:30,150 --> 00:41:27,920

i've understood um this one is from

1214

00:41:32,069 --> 00:41:30,160

graham when you joined atib did you ever

1215

00:41:34,550 --> 00:41:32,079

consider it was simply a make work

1216

00:41:36,150 --> 00:41:34,560

project and a waste of time even though

1217

00:41:37,750 --> 00:41:36,160

you may have had assurances when being

1218

00:41:39,270 --> 00:41:37,760

invited to join

1219

00:41:41,270 --> 00:41:39,280

no absolutely not it was never a waste

1220

00:41:42,230 --> 00:41:41,280

of time it was it was money well spent

1221

00:41:44,790 --> 00:41:42,240

in fact

1222

00:41:47,030 --> 00:41:44,800

um the u.s taxpayer got got one hell of

1223

00:41:49,349 --> 00:41:47,040

a deal out of it for the for the 22

1224

00:41:52,069 --> 00:41:49,359

million dollars we we we dual use the

1225

00:41:53,349 --> 00:41:52,079

hell out of it man we we we got [h__h] up

1226
00:41:55,030 --> 00:41:53,359
to my language we probably got 100

1227
00:41:56,870 --> 00:41:55,040
million worth of work out of that 22

1228
00:41:58,950 --> 00:41:56,880
million bucks um

1229
00:42:00,870 --> 00:41:58,960
it's a shame that you know other

1230
00:42:02,790 --> 00:42:00,880
government officers couldn't do the same

1231
00:42:04,790 --> 00:42:02,800
but no we we

1232
00:42:06,870 --> 00:42:04,800
i think it was money well well spent and

1233
00:42:08,230 --> 00:42:06,880
i think it was time and resources well

1234
00:42:09,910 --> 00:42:08,240
spent

1235
00:42:11,910 --> 00:42:09,920
excellent thank you for that another

1236
00:42:13,349 --> 00:42:11,920
anonymous one here what are your

1237
00:42:14,870 --> 00:42:13,359
thoughts on the hestalin lights

1238
00:42:16,230 --> 00:42:14,880

phenomenon do you think that there's an

1239

00:42:18,950 --> 00:42:16,240

important connection to what we're

1240

00:42:20,470 --> 00:42:18,960

seeing now in more recent times

1241

00:42:22,550 --> 00:42:20,480

so the what lights if you could repeat

1242

00:42:24,950 --> 00:42:22,560

that the stalin lights

1243

00:42:28,470 --> 00:42:24,960

it's a phenomenon that was studied um i

1244

00:42:30,309 --> 00:42:28,480

think it was norway back in the 1980s

1245

00:42:32,309 --> 00:42:30,319

unfortunately and i know probably we're

1246

00:42:34,550 --> 00:42:32,319

going to think i'm

1247

00:42:36,470 --> 00:42:34,560

you know fibbing here but i i don't know

1248

00:42:38,470 --> 00:42:36,480

i might know the event it's made the

1249

00:42:40,470 --> 00:42:38,480

name may be throwing me off i i don't

1250

00:42:43,109 --> 00:42:40,480

know specifically

1251

00:42:45,349 --> 00:42:43,119

hestilen events uh we

1252

00:42:47,589 --> 00:42:45,359

we focus you know a tip on on current

1253

00:42:50,150 --> 00:42:47,599

military events some some historical

1254

00:42:51,670 --> 00:42:50,160

stuff but but usually u.s related for

1255

00:42:53,510 --> 00:42:51,680

the most part

1256

00:42:55,270 --> 00:42:53,520

not other ones you want to do can you

1257

00:42:57,349 --> 00:42:55,280

describe for me a little bit of what

1258

00:42:59,510 --> 00:42:57,359

happened yeah i think it was it was over

1259

00:43:00,710 --> 00:42:59,520

a number of years it was these sightings

1260

00:43:02,550 --> 00:43:00,720

that were happening regularly and i

1261

00:43:03,990 --> 00:43:02,560

think it was relating to a lot of things

1262

00:43:05,190 --> 00:43:04,000

like ball lightning and things along

1263

00:43:07,270 --> 00:43:05,200

those lines

1264

00:43:09,349 --> 00:43:07,280

um sometimes apparently

1265

00:43:10,950 --> 00:43:09,359

a physical craft as well

1266

00:43:12,309 --> 00:43:10,960

yeah so so ball lightning is something

1267

00:43:15,030 --> 00:43:12,319

very interesting you know obviously it's

1268

00:43:17,270 --> 00:43:15,040

a natural phenomenon there's also we see

1269

00:43:19,349 --> 00:43:17,280

ball lightning and other type of of uh

1270

00:43:21,829 --> 00:43:19,359

electromagnetic discharge associated

1271

00:43:23,990 --> 00:43:21,839

with a great amount of release of energy

1272

00:43:25,670 --> 00:43:24,000

from tectonic movements usually

1273

00:43:27,510 --> 00:43:25,680

typically right before during an

1274

00:43:29,990 --> 00:43:27,520

earthquake you can you can see the whole

1275

00:43:32,390 --> 00:43:30,000

atmosphere start to light up uh you also

1276
00:43:34,309 --> 00:43:32,400
have um you know aurora borealis you

1277
00:43:36,230 --> 00:43:34,319
have something called uh sprites which

1278
00:43:38,230 --> 00:43:36,240
is kind of this this shooting of plasma

1279
00:43:40,790 --> 00:43:38,240
up from the clouds up into the upper

1280
00:43:42,710 --> 00:43:40,800
atmosphere and then of course um you

1281
00:43:44,150 --> 00:43:42,720
know you have man-made stuff and this is

1282
00:43:45,349 --> 00:43:44,160
this is important because what people

1283
00:43:47,030 --> 00:43:45,359
don't realize over the northern

1284
00:43:50,150 --> 00:43:47,040
hemisphere

1285
00:43:51,430 --> 00:43:50,160
a lot of of ballistic tests as it

1286
00:43:55,270 --> 00:43:51,440
relates to

1287
00:43:57,190 --> 00:43:55,280
to ballistic missiles um are are flown

1288
00:43:59,829 --> 00:43:57,200

over the northern hemisphere and so a

1289

00:44:01,670 --> 00:43:59,839

lot of times uh first stage solid rocket

1290

00:44:03,510 --> 00:44:01,680

booster motors on re-entry will come in

1291

00:44:05,829 --> 00:44:03,520

you get this weird spiral effect and

1292

00:44:07,510 --> 00:44:05,839

looks almost like a pinwheel

1293

00:44:09,270 --> 00:44:07,520

because you know

1294

00:44:12,309 --> 00:44:09,280

when you're talking about

1295

00:44:14,790 --> 00:44:12,319

high altitude um you're talking very

1296

00:44:16,550 --> 00:44:14,800

very low air pressure air density

1297

00:44:18,950 --> 00:44:16,560

pressure is almost nil

1298

00:44:21,190 --> 00:44:18,960

and so the way a gas behaves in a vacuum

1299

00:44:23,270 --> 00:44:21,200

environment is substantially different

1300

00:44:25,589 --> 00:44:23,280

than way a gas might

1301

00:44:26,630 --> 00:44:25,599

behave down here you know on

1302

00:44:28,870 --> 00:44:26,640

at

1303

00:44:30,470 --> 00:44:28,880

our pressure and so a lot of times you

1304

00:44:32,230 --> 00:44:30,480

can you know

1305

00:44:34,069 --> 00:44:32,240

kind of fool the eye you look at the eye

1306

00:44:36,150 --> 00:44:34,079

you look up and up in the

1307

00:44:37,910 --> 00:44:36,160

space and you see this object doing all

1308

00:44:39,670 --> 00:44:37,920

sorts of weird stuff

1309

00:44:41,829 --> 00:44:39,680

when reality it's it's just you know it

1310

00:44:44,150 --> 00:44:41,839

could be a hydrazine tank uh bleeding

1311

00:44:47,030 --> 00:44:44,160

off some some some propellant unused

1312

00:44:48,309 --> 00:44:47,040

propellant and um you know when you look

1313

00:44:50,069 --> 00:44:48,319

at that from the ground it can look it

1314

00:44:51,750 --> 00:44:50,079

can look pretty amazing so that's why

1315

00:44:53,349 --> 00:44:51,760

it's important ai going back to our

1316

00:44:54,790 --> 00:44:53,359

conversation about ai that we can

1317

00:44:56,710 --> 00:44:54,800

utilize ai

1318

00:44:58,950 --> 00:44:56,720

recognize those signatures recognize

1319

00:45:01,510 --> 00:44:58,960

those known patterns of the way things

1320

00:45:03,589 --> 00:45:01,520

behave and then filter the the the

1321

00:45:06,550 --> 00:45:03,599

proverbial wheat from the chaff or right

1322

00:45:08,309 --> 00:45:06,560

or isolate the the signal from from the

1323

00:45:09,750 --> 00:45:08,319

rest of the noise and that's when you

1324

00:45:11,349 --> 00:45:09,760

have the aha moment because the last

1325

00:45:13,109 --> 00:45:11,359

thing you want to do is say you know

1326

00:45:16,710 --> 00:45:13,119

look look look here's a uap and it turns

1327

00:45:19,270 --> 00:45:16,720

out no actually it's not right it's uh

1328

00:45:21,190 --> 00:45:19,280

it's uh it's a star link for example

1329

00:45:23,589 --> 00:45:21,200

right yeah so

1330

00:45:24,550 --> 00:45:23,599

thank you excellent thank you um well

1331

00:45:26,870 --> 00:45:24,560

here we go

1332

00:45:28,950 --> 00:45:26,880

mr joshua ringer in your experience with

1333

00:45:31,190 --> 00:45:28,960

the uap phenomenon has anything happened

1334

00:45:34,240 --> 00:45:31,200

or any knowledge been gained that would

1335

00:45:36,870 --> 00:45:34,250

impact your thoughts on the afterlife

1336

00:45:39,030 --> 00:45:36,880

[Music]

1337

00:45:42,069 --> 00:45:39,040

wow thank you for asking that question

1338

00:45:46,309 --> 00:45:44,470

if anything it shows that the universe

1339

00:45:47,910 --> 00:45:46,319

is far more wondrous than we ever give a

1340

00:45:51,430 --> 00:45:47,920

credit for

1341

00:45:55,430 --> 00:45:51,440

um i will share my own personal thoughts

1342

00:45:57,109 --> 00:45:55,440

and let me caveat they are only my my my

1343

00:45:58,870 --> 00:45:57,119

my opinion

1344

00:46:01,990 --> 00:45:58,880

um

1345

00:46:04,710 --> 00:46:02,000

but i i'm fairly convinced

1346

00:46:05,990 --> 00:46:04,720

death is is is a process no different

1347

00:46:08,150 --> 00:46:06,000

than birth

1348

00:46:09,670 --> 00:46:08,160

uh it's a transition and i say that

1349

00:46:11,990 --> 00:46:09,680

because i've seen enough of my fair

1350

00:46:15,670 --> 00:46:12,000

share of death up close and personal

1351

00:46:17,670 --> 00:46:15,680

uh both in in um in

1352

00:46:19,990 --> 00:46:17,680

terrible circumstances and and in

1353

00:46:21,030 --> 00:46:20,000

circumstances that you know were more

1354

00:46:22,390 --> 00:46:21,040

natural

1355

00:46:26,069 --> 00:46:22,400

um

1356

00:46:27,670 --> 00:46:26,079

my opinion

1357

00:46:29,670 --> 00:46:27,680

it's no different than

1358

00:46:32,230 --> 00:46:29,680

walking over the threshold from from

1359

00:46:34,550 --> 00:46:32,240

somewhere else into this this life

1360

00:46:36,230 --> 00:46:34,560

and then stepping over the threshold

1361

00:46:37,270 --> 00:46:36,240

back to something else

1362

00:46:39,030 --> 00:46:37,280

um

1363

00:46:41,430 --> 00:46:39,040

you know we've long we've long known and

1364

00:46:43,349 --> 00:46:41,440

by the way a lot of religions also also

1365

00:46:45,510 --> 00:46:43,359

subscribe to this said we know that

1366

00:46:49,270 --> 00:46:45,520

energy cannot be created or destroyed

1367

00:46:49,810 --> 00:46:49,280

right it just moves on transforms

1368

00:46:51,030 --> 00:46:49,820

um

1369

00:46:53,190 --> 00:46:51,040

[Music]

1370

00:46:54,950 --> 00:46:53,200

you know at some point i may share a

1371

00:46:57,190 --> 00:46:54,960

little bit of of

1372

00:46:59,270 --> 00:46:57,200

my personal experiences again i don't

1373

00:47:00,390 --> 00:46:59,280

want to distract from the topic of uap

1374

00:47:02,069 --> 00:47:00,400

because

1375

00:47:05,109 --> 00:47:02,079

at the end of the day it's really not

1376

00:47:08,230 --> 00:47:05,119

relevant what i think it's not relevant

1377

00:47:09,589 --> 00:47:08,240

my experiences on this kind of stuff

1378

00:47:12,309 --> 00:47:09,599

what matters is what the facts and the

1379

00:47:15,430 --> 00:47:12,319

data suggest right what the facts say

1380

00:47:17,589 --> 00:47:15,440

so i'm always very keen because

1381

00:47:20,790 --> 00:47:17,599

the moment you go from from

1382

00:47:23,030 --> 00:47:20,800

scientific discussion to spirituality

1383

00:47:24,069 --> 00:47:23,040

um it's kind of a slippery slope and

1384

00:47:25,109 --> 00:47:24,079

what we've got to do is we've got to

1385

00:47:27,349 --> 00:47:25,119

make sure we don't blend the two

1386

00:47:28,630 --> 00:47:27,359

together we really really really have to

1387

00:47:30,470 --> 00:47:28,640

be careful now i'm going to share

1388

00:47:33,990 --> 00:47:30,480

something with you real quick

1389

00:47:35,349 --> 00:47:34,000

a quote uh because i think it's it's

1390

00:47:38,309 --> 00:47:35,359

it's relevant and i shared this with

1391

00:47:40,390 --> 00:47:38,319

christina not too long ago

1392

00:47:42,309 --> 00:47:40,400

and then i sent it to my sky fort guys

1393

00:47:44,309 --> 00:47:42,319

and they they they actually were able to

1394

00:47:46,390 --> 00:47:44,319

put a really neat little chart together

1395

00:47:47,190 --> 00:47:46,400

let me pull this up in a second

1396

00:47:49,990 --> 00:47:47,200

sure

1397

00:47:52,470 --> 00:47:50,000

because you know as i i am

1398

00:47:55,030 --> 00:47:52,480

i do feel that science is important i

1399

00:47:57,349 --> 00:47:55,040

tend to stick to the scientific

1400

00:47:59,750 --> 00:47:57,359

um methodology of things i think it's

1401

00:48:01,430 --> 00:47:59,760

important we we we do that but

1402

00:48:02,630 --> 00:48:01,440

i mean it's a big but

1403

00:48:05,349 --> 00:48:02,640

there are

1404

00:48:06,470 --> 00:48:05,359

there's a whole another part of human

1405

00:48:07,589 --> 00:48:06,480

existence

1406

00:48:09,829 --> 00:48:07,599

that

1407

00:48:11,670 --> 00:48:09,839

science can't um

1408

00:48:13,190 --> 00:48:11,680

really can't can't explain and not only

1409

00:48:14,710 --> 00:48:13,200

can it explain it really has no no

1410

00:48:17,349 --> 00:48:14,720

purview either so let me pull this up

1411

00:48:23,670 --> 00:48:19,750

okay i'm gonna have to do this the

1412

00:48:27,030 --> 00:48:23,680

old-fashioned way here we go okay

1413

00:48:34,390 --> 00:48:30,710

this is about scientism okay

1414

00:48:36,470 --> 00:48:34,400

scientism is a speculative world view

1415

00:48:38,309 --> 00:48:36,480

about the ultimate reality of the

1416

00:48:40,150 --> 00:48:38,319

universe

1417

00:48:43,430 --> 00:48:40,160

and its meaning

1418

00:48:46,150 --> 00:48:43,440

once you accept that science is the only

1419

00:48:48,549 --> 00:48:46,160

source of human knowledge you have

1420

00:48:50,150 --> 00:48:48,559

adopted a philosophical position of

1421

00:48:53,349 --> 00:48:50,160

scientism

1422

00:48:55,109 --> 00:48:53,359

that cannot be verified or falsified by

1423

00:48:58,549 --> 00:48:55,119

science itself

1424

00:48:59,750 --> 00:48:58,559

and so why is that interesting to me

1425

00:49:02,790 --> 00:48:59,760

well because

1426
00:49:04,790 --> 00:49:02,800
in the pursuit of science

1427
00:49:07,270 --> 00:49:04,800
scientists often

1428
00:49:08,790 --> 00:49:07,280
wind up adopting

1429
00:49:13,829 --> 00:49:08,800
scientism

1430
00:49:14,710 --> 00:49:13,839
different than any other religion out

1431
00:49:16,790 --> 00:49:14,720
there

1432
00:49:18,790 --> 00:49:16,800
and we must be careful of that we must

1433
00:49:19,910 --> 00:49:18,800
understand that there are limitations to

1434
00:49:21,030 --> 00:49:19,920
science

1435
00:49:24,069 --> 00:49:21,040
um

1436
00:49:27,430 --> 00:49:24,079
there are limitations to to to

1437
00:49:29,990 --> 00:49:27,440
to current and modern technology um

1438
00:49:33,109 --> 00:49:30,000

and i also will remind people that

1439

00:49:35,190 --> 00:49:33,119

everybody's hype every every every well

1440

00:49:37,190 --> 00:49:35,200

substantial substantiated scientific

1441

00:49:38,870 --> 00:49:37,200

principle today that we we just accept

1442

00:49:40,790 --> 00:49:38,880

as being no kidding

1443

00:49:43,910 --> 00:49:40,800

started off as somebody's wacky's any

1444

00:49:47,349 --> 00:49:43,920

hypothesis at some point in the past

1445

00:49:49,750 --> 00:49:47,359

without without without exception so so

1446

00:49:51,829 --> 00:49:49,760

lest we forget that and and remember

1447

00:49:53,349 --> 00:49:51,839

that in the pursuit of science

1448

00:49:54,549 --> 00:49:53,359

let's not get lost in the world of

1449

00:49:57,109 --> 00:49:54,559

scientism

1450

00:49:59,270 --> 00:49:57,119

um you know i i do think there's

1451
00:50:02,549 --> 00:49:59,280
there's much to this universe that that

1452
00:50:03,829 --> 00:50:02,559
is is not is not necessarily um

1453
00:50:05,829 --> 00:50:03,839
can be explained by sign look look at

1454
00:50:07,589 --> 00:50:05,839
the reality of love right if i ask you

1455
00:50:08,950 --> 00:50:07,599
what is love

1456
00:50:10,309 --> 00:50:08,960
well we all agree that there's a thing

1457
00:50:11,670 --> 00:50:10,319
called love because we all feel it and

1458
00:50:13,670 --> 00:50:11,680
yet we'll all explain it a little bit

1459
00:50:15,750 --> 00:50:13,680
differently yeah you can't touch it you

1460
00:50:17,750 --> 00:50:15,760
can't see it you can't hear it you can't

1461
00:50:18,870 --> 00:50:17,760
smell it you can't weigh it you can't

1462
00:50:21,109 --> 00:50:18,880
measure it

1463
00:50:24,150 --> 00:50:21,119

and yet it's something as universal as

1464

00:50:25,589 --> 00:50:24,160

as as you and me and and and as real as

1465

00:50:27,430 --> 00:50:25,599

as our planet

1466

00:50:29,430 --> 00:50:27,440

right look at look at maternal instinct

1467

00:50:31,510 --> 00:50:29,440

look at this is this is something that

1468

00:50:33,829 --> 00:50:31,520

is so innately strong in some human

1469

00:50:35,750 --> 00:50:33,839

beings that it goes contrary to the

1470

00:50:37,510 --> 00:50:35,760

survival of the individual itself they

1471

00:50:39,030 --> 00:50:37,520

will literally

1472

00:50:41,589 --> 00:50:39,040

kill themselves

1473

00:50:44,630 --> 00:50:41,599

to to protect and defend

1474

00:50:46,950 --> 00:50:44,640

uh the next offspring and so so it is

1475

00:50:49,270 --> 00:50:46,960

real you can you know pretend it's not

1476

00:50:50,710 --> 00:50:49,280

but it is and there's an example of of

1477

00:50:52,309 --> 00:50:50,720

the reality of something that is

1478

00:50:54,870 --> 00:50:52,319

spiritual something that we can't

1479

00:50:57,190 --> 00:50:54,880

measure through science and yet is as

1480

00:50:58,390 --> 00:50:57,200

very real as anything else that we deal

1481

00:50:59,589 --> 00:50:58,400

with

1482

00:51:01,910 --> 00:50:59,599

so

1483

00:51:03,750 --> 00:51:01,920

anyways long-winded answer uh i didn't

1484

00:51:06,710 --> 00:51:03,760

mean to digress too much but you're

1485

00:51:09,430 --> 00:51:06,720

asking me a question that i want to be i

1486

00:51:12,390 --> 00:51:09,440

want to answer fairly sure but i also

1487

00:51:14,790 --> 00:51:12,400

don't want to overstate my

1488

00:51:17,030 --> 00:51:14,800

if you will my uh my position uh

1489

00:51:18,470 --> 00:51:17,040

overstep my position in in providing

1490

00:51:19,589 --> 00:51:18,480

this information

1491

00:51:23,589 --> 00:51:19,599

it's

1492

00:51:25,589 --> 00:51:23,599

don't want my opinion to to

1493

00:51:28,390 --> 00:51:25,599

to detract from from our pursuits of

1494

00:51:29,750 --> 00:51:28,400

trying to figure out what what these are

1495

00:51:32,549 --> 00:51:29,760

that was great that was well explained

1496

00:51:34,150 --> 00:51:32,559

and yeah i appreciate that so thank you

1497

00:51:36,870 --> 00:51:34,160

um i'm gonna move on to this question

1498

00:51:39,349 --> 00:51:36,880

from a road warrior can you please ask

1499

00:51:42,230 --> 00:51:39,359

lou what he knows about the ufo and navy

1500

00:51:45,270 --> 00:51:42,240

situation in puerto rico specifically

1501
00:51:47,030 --> 00:51:45,280
lake cartagena and the puerto rico

1502
00:51:48,790 --> 00:51:47,040
trench

1503
00:51:51,030 --> 00:51:48,800
it ain't just puerto rico and you're

1504
00:51:52,470 --> 00:51:51,040
right that's an awfully deep trench 22

1505
00:51:53,990 --> 00:51:52,480
000 feet deep

1506
00:51:55,109 --> 00:51:54,000
a lot of strange weird things happen

1507
00:51:56,470 --> 00:51:55,119
there

1508
00:51:57,430 --> 00:51:56,480
you know you do have some seismic

1509
00:51:59,430 --> 00:51:57,440
activity

1510
00:52:02,950 --> 00:51:59,440
and some subduction zones but you also

1511
00:52:04,870 --> 00:52:02,960
have a lot of other stuff going on

1512
00:52:06,790 --> 00:52:04,880
there has been reported as part of the

1513
00:52:08,230 --> 00:52:06,800

you know bermuda triangle

1514

00:52:09,589 --> 00:52:08,240

so there's a reason why people have

1515

00:52:11,990 --> 00:52:09,599

always talked about the bermuda triangle

1516

00:52:13,670 --> 00:52:12,000

i mean weird things do happen now it can

1517

00:52:15,190 --> 00:52:13,680

possibly be explained by science but in

1518

00:52:17,510 --> 00:52:15,200

reality we don't yet

1519

00:52:20,069 --> 00:52:17,520

know exactly what's going on there

1520

00:52:21,190 --> 00:52:20,079

um you know we've had many accounts

1521

00:52:22,630 --> 00:52:21,200

which i just said you know i'll tell you

1522

00:52:25,670 --> 00:52:22,640

i talked to somebody

1523

00:52:27,589 --> 00:52:25,680

uh in in in the navy

1524

00:52:29,590 --> 00:52:27,599

when was it give me a second i'll tell

1525

00:52:31,190 --> 00:52:29,600

you exactly when

1526

00:52:34,230 --> 00:52:31,200

[Music]

1527

00:52:35,670 --> 00:52:34,240

day before yesterday my uh my my wife

1528

00:52:37,589 --> 00:52:35,680

and i are at a restaurant and a

1529

00:52:40,309 --> 00:52:37,599

gentleman comes up and says hey

1530

00:52:42,309 --> 00:52:40,319

uh i i recognize you and so we started

1531

00:52:43,589 --> 00:52:42,319

chatting and i was in the navy and she

1532

00:52:45,430 --> 00:52:43,599

said i was navy i want to thank you for

1533

00:52:46,950 --> 00:52:45,440

your service and you know these were the

1534

00:52:49,270 --> 00:52:46,960

ships they sent me pictures of the ships

1535

00:52:50,870 --> 00:52:49,280

he was on uh really really neat and then

1536

00:52:53,349 --> 00:52:50,880

he goes to tell me about how when they

1537

00:52:54,710 --> 00:52:53,359

were in the bermuda triangle um they

1538

00:52:56,950 --> 00:52:54,720

would they would have all these

1539

00:53:00,470 --> 00:52:56,960

interesting experiences now this is a

1540

00:53:02,230 --> 00:53:00,480

u.s navy ship that is a submarine tender

1541

00:53:03,829 --> 00:53:02,240

right this is the the the ship that's

1542

00:53:07,030 --> 00:53:03,839

responsible for stocking up and

1543

00:53:08,630 --> 00:53:07,040

supplying a nuclear submarine

1544

00:53:10,470 --> 00:53:08,640

and uh you know they've got a lot of

1545

00:53:12,230 --> 00:53:10,480

really good equipment on board and when

1546

00:53:13,270 --> 00:53:12,240

he says everything goes blank and dead

1547

00:53:14,950 --> 00:53:13,280

on the boat

1548

00:53:16,549 --> 00:53:14,960

that's an indicator that hey i mean we

1549

00:53:18,309 --> 00:53:16,559

got backups we got redundancy we've got

1550

00:53:19,430 --> 00:53:18,319

all sorts and he told me at one point

1551

00:53:21,430 --> 00:53:19,440

they had to get a guy out with an

1552

00:53:23,349 --> 00:53:21,440

old-fashioned sextant because everything

1553

00:53:25,910 --> 00:53:23,359

in order to even navigate

1554

00:53:28,549 --> 00:53:25,920

every single thing went down on the boat

1555

00:53:29,349 --> 00:53:28,559

they could they were completely blind

1556

00:53:30,950 --> 00:53:29,359

um

1557

00:53:32,870 --> 00:53:30,960

and that that's in modern times man

1558

00:53:36,710 --> 00:53:32,880

that's that's a that's a modern ship you

1559

00:53:38,150 --> 00:53:36,720

know 1200 foot ginormous hunk of steel

1560

00:53:40,390 --> 00:53:38,160

on the water that's got all sorts of

1561

00:53:42,630 --> 00:53:40,400

capability on board uh just going dead

1562

00:53:44,549 --> 00:53:42,640

in the water that's incredible

1563

00:53:45,670 --> 00:53:44,559

yeah i can i mean i've got i don't wanna

1564

00:53:47,589 --> 00:53:45,680

he didn't give me permission to share

1565

00:53:49,349 --> 00:53:47,599

with everybody but uh you know i can

1566

00:53:51,030 --> 00:53:49,359

well again your people are too savvy i

1567

00:53:52,950 --> 00:53:51,040

throw up i throw a picture up real quick

1568

00:53:54,829 --> 00:53:52,960

but i know exactly what will happen if i

1569

00:53:57,109 --> 00:53:54,839

do that better not

1570

00:54:00,309 --> 00:53:57,119

um you know but that's that's modern

1571

00:54:02,870 --> 00:54:00,319

times um and we also had reports of uap

1572

00:54:04,630 --> 00:54:02,880

we know that there were a lot of in uso

1573

00:54:07,270 --> 00:54:04,640

and the question is are uap really part

1574

00:54:08,870 --> 00:54:07,280

of the uso phenomenon well that

1575

00:54:10,549 --> 00:54:08,880

anecdotally it seems like yeah there is

1576

00:54:12,549 --> 00:54:10,559

you know that trans medium travel that

1577

00:54:15,030 --> 00:54:12,559

maybe usos are part of the greater uap

1578

00:54:18,390 --> 00:54:15,040

issue yeah um certainly seems to be

1579

00:54:20,069 --> 00:54:18,400

enough information to suggest that so um

1580

00:54:22,549 --> 00:54:20,079

yeah it's a that's a really interesting

1581

00:54:25,910 --> 00:54:22,559

place puerto rico uh for for more than

1582

00:54:27,190 --> 00:54:25,920

just one reason yeah lovely thank you um

1583

00:54:28,790 --> 00:54:27,200

this next question are you still

1584

00:54:31,190 --> 00:54:28,800

involved in conversations regarding

1585

00:54:32,870 --> 00:54:31,200

metamaterial testing or are you having

1586

00:54:34,710 --> 00:54:32,880

conversations with people that are

1587

00:54:37,430 --> 00:54:34,720

involved

1588

00:54:40,069 --> 00:54:38,870

and things are going well and i'll leave

1589

00:54:41,270 --> 00:54:40,079

it at that

1590

00:54:42,950 --> 00:54:41,280

brilliant is that something we might

1591

00:54:44,870 --> 00:54:42,960

hear about in the future then i sure

1592

00:54:46,549 --> 00:54:44,880

hope so yeah that's why i'm doing what

1593

00:54:48,069 --> 00:54:46,559

i'm doing i'm not going to keep it

1594

00:54:49,349 --> 00:54:48,079

secret man

1595

00:54:51,510 --> 00:54:49,359

i just got to make sure that you know we

1596

00:54:52,390 --> 00:54:51,520

do it the right way and um we gotta let

1597

00:54:57,190 --> 00:54:52,400

you know

1598

00:54:58,630 --> 00:54:57,200

absolutely now i'm gonna open this up to

1599

00:55:00,789 --> 00:54:58,640

the people in the live chat now if you

1600

00:55:02,789 --> 00:55:00,799

wanna ask questions get them in i can't

1601

00:55:06,230 --> 00:55:02,799

read them all i'm afraid but we'll we'll

1602

00:55:08,630 --> 00:55:06,240

have a go uh mr christian thompson does

1603

00:55:10,230 --> 00:55:08,640

aliens live in other frequencies here on

1604

00:55:12,390 --> 00:55:10,240

earth

1605

00:55:14,309 --> 00:55:12,400

well that's been one of the hypothesis

1606

00:55:16,309 --> 00:55:14,319

that has been presented

1607

00:55:18,789 --> 00:55:16,319

we don't know we know a lot of a lot of

1608

00:55:20,230 --> 00:55:18,799

reality exists in other frequencies

1609

00:55:22,150 --> 00:55:20,240

again your cell phone is a perfect

1610

00:55:23,670 --> 00:55:22,160

example there's there's realities all

1611

00:55:25,270 --> 00:55:23,680

around that we can't perceive whether

1612

00:55:27,910 --> 00:55:25,280

it's wi-fi or

1613

00:55:31,030 --> 00:55:27,920

you know uh fm and am and sell signal

1614

00:55:34,630 --> 00:55:31,040

and gps um it's you know imagine if you

1615

00:55:36,069 --> 00:55:34,640

had this ability to have uh uh you know

1616

00:55:37,670 --> 00:55:36,079

fm vision right right now all of a

1617

00:55:39,430 --> 00:55:37,680

sudden you could see the fm band what

1618

00:55:40,710 --> 00:55:39,440

would the world look like right well

1619

00:55:42,710 --> 00:55:40,720

that's reality that's what these things

1620

00:55:45,270 --> 00:55:42,720

do all the time

1621

00:55:48,470 --> 00:55:45,280

so so we know that

1622

00:55:51,270 --> 00:55:48,480

you know 99.9 of reality lies outside of

1623

00:55:53,030 --> 00:55:51,280

the very narrow electro optical spectrum

1624

00:55:54,630 --> 00:55:53,040

that we call visible light

1625

00:55:57,349 --> 00:55:54,640

everything is either too high or too low

1626
00:56:00,549 --> 00:55:57,359
for us to perceive and so by definition

1627
00:56:02,309 --> 00:56:00,559
there are a lot of things that that that

1628
00:56:03,750 --> 00:56:02,319
can thrive in these other frequencies

1629
00:56:05,589 --> 00:56:03,760
now when i say thrive let me give you an

1630
00:56:07,430 --> 00:56:05,599
example a bumblebee we'll look at

1631
00:56:09,109 --> 00:56:07,440
flowers through ultraviolet and be able

1632
00:56:10,950 --> 00:56:09,119
to look at certain flowers in a certain

1633
00:56:13,270 --> 00:56:10,960
way and know which flowers wants to go

1634
00:56:16,470 --> 00:56:13,280
and and you know it will take the nectar

1635
00:56:17,990 --> 00:56:16,480
and it subsequently pollinates

1636
00:56:19,510 --> 00:56:18,000
we don't see an ultraviolet so we have

1637
00:56:21,829 --> 00:56:19,520
no idea

1638
00:56:23,670 --> 00:56:21,839

that that whole world existed and yet

1639

00:56:24,870 --> 00:56:23,680

these honeybees

1640

00:56:26,549 --> 00:56:24,880

live their life

1641

00:56:28,950 --> 00:56:26,559

you know perceiving in the ultraviolet

1642

00:56:31,349 --> 00:56:28,960

spectrum that's their reality

1643

00:56:34,150 --> 00:56:31,359

now do can things live in other

1644

00:56:35,349 --> 00:56:34,160

frequencies um great question

1645

00:56:37,829 --> 00:56:35,359

you know uh

1646

00:56:40,069 --> 00:56:37,839

there's there's all sorts of

1647

00:56:41,670 --> 00:56:40,079

anecdotal information to suggest that it

1648

00:56:43,270 --> 00:56:41,680

may not even be just frequencies you

1649

00:56:45,190 --> 00:56:43,280

know there was a time in the universe

1650

00:56:47,270 --> 00:56:45,200

where scientists speculate where where

1651
00:56:48,549 --> 00:56:47,280
the amount of matter and anti-matter in

1652
00:56:50,390 --> 00:56:48,559
the universe it could have gone the

1653
00:56:51,910 --> 00:56:50,400
other way we live in a world that we

1654
00:56:54,390 --> 00:56:51,920
called all this matter

1655
00:56:56,950 --> 00:56:54,400
but it could have been anti-matter that

1656
00:56:59,270 --> 00:56:56,960
that wound up winning out

1657
00:57:01,430 --> 00:56:59,280
and and life could have evolved exactly

1658
00:57:03,270 --> 00:57:01,440
like it is now except for it's the

1659
00:57:05,109 --> 00:57:03,280
opposite of matter in in a sense that

1660
00:57:06,789 --> 00:57:05,119
it's it's it's anti-matter

1661
00:57:08,630 --> 00:57:06,799
uh and we would be living in an

1662
00:57:10,470 --> 00:57:08,640
anti-matter world maybe the world we

1663
00:57:11,990 --> 00:57:10,480

live in now is the anti-matter world we

1664

00:57:13,589 --> 00:57:12,000

just call it the matter world because we

1665

00:57:15,190 --> 00:57:13,599

don't know what else to call it but my

1666

00:57:16,549 --> 00:57:15,200

point being is that there's

1667

00:57:19,349 --> 00:57:16,559

there's a lot of

1668

00:57:21,349 --> 00:57:19,359

possibilities of reality and and we need

1669

00:57:23,589 --> 00:57:21,359

to make sure without getting lost in

1670

00:57:25,270 --> 00:57:23,599

those worlds right and and all of a

1671

00:57:27,750 --> 00:57:25,280

sudden creating these

1672

00:57:29,270 --> 00:57:27,760

these pseudo religions about it um you

1673

00:57:31,109 --> 00:57:29,280

know we have to recognize that there

1674

00:57:33,349 --> 00:57:31,119

there are alternatives there are

1675

00:57:34,870 --> 00:57:33,359

realities out there that are are far

1676
00:57:37,670 --> 00:57:34,880
beyond our comprehension and

1677
00:57:40,630 --> 00:57:37,680
understanding um simply because of the

1678
00:57:42,870 --> 00:57:40,640
fact we are a biological organism that

1679
00:57:45,109 --> 00:57:42,880
are living in very specific confines

1680
00:57:47,030 --> 00:57:45,119
within a very specific paradigm

1681
00:57:48,950 --> 00:57:47,040
uh but not all things in the universe

1682
00:57:51,510 --> 00:57:48,960
are confined to that you know we talk

1683
00:57:53,829 --> 00:57:51,520
about life existing in a goldilocks you

1684
00:57:55,670 --> 00:57:53,839
know part of our solar system yeah and

1685
00:57:57,750 --> 00:57:55,680
we expect other life to exist in that

1686
00:57:59,829 --> 00:57:57,760
goldilocks but we know there's life

1687
00:58:01,270 --> 00:57:59,839
forms in our own planet right now that

1688
00:58:03,190 --> 00:58:01,280

if you were to bring it to where you and

1689

00:58:05,270 --> 00:58:03,200

i are would it's not a goldilocks they

1690

00:58:07,510 --> 00:58:05,280

die instantly i remember fishing off the

1691

00:58:10,710 --> 00:58:07,520

coast of well better

1692

00:58:12,549 --> 00:58:10,720

i was off of a a particular place um

1693

00:58:14,870 --> 00:58:12,559

not too long ago taking some r r and we

1694

00:58:16,390 --> 00:58:14,880

did some fishing and a buddy of mine

1695

00:58:17,510 --> 00:58:16,400

threw some line in and the line just

1696

00:58:18,549 --> 00:58:17,520

kept going down and down to down and

1697

00:58:20,069 --> 00:58:18,559

down and down

1698

00:58:21,750 --> 00:58:20,079

and all of a sudden he caught something

1699

00:58:23,349 --> 00:58:21,760

and he starts reeling it up

1700

00:58:24,950 --> 00:58:23,359

and he catches this little fish and

1701
00:58:26,950 --> 00:58:24,960
unfortunately the fish because it lives

1702
00:58:29,190 --> 00:58:26,960
so deep in the water its peridot that

1703
00:58:29,990 --> 00:58:29,200
was its natural state very cold very

1704
00:58:31,430 --> 00:58:30,000
dark

1705
00:58:33,510 --> 00:58:31,440
by the time he brought the little fish

1706
00:58:36,549 --> 00:58:33,520
up it had embolized unfortunately the

1707
00:58:38,470 --> 00:58:36,559
fish died and uh but but the point being

1708
00:58:40,710 --> 00:58:38,480
is that it was brought into a hostile

1709
00:58:43,109 --> 00:58:40,720
environment what we consider

1710
00:58:44,710 --> 00:58:43,119
our goldilocks area er you know if you

1711
00:58:47,430 --> 00:58:44,720
will environment here just in this

1712
00:58:48,950 --> 00:58:47,440
planet is not even goldilocks for for a

1713
00:58:51,589 --> 00:58:48,960

lot of living things in fact it's

1714

00:58:53,670 --> 00:58:51,599

hostile it's caustic it'll kill it

1715

00:58:55,510 --> 00:58:53,680

that's a case in point so we have to be

1716

00:58:57,190 --> 00:58:55,520

careful when we when we

1717

00:58:58,870 --> 00:58:57,200

say things that well everything you know

1718

00:59:01,109 --> 00:58:58,880

that living things can only live you

1719

00:59:02,789 --> 00:59:01,119

know on a planet that's so far from its

1720

00:59:05,510 --> 00:59:02,799

sun with these temperatures and these

1721

00:59:07,030 --> 00:59:05,520

oxygen levels and that's simply not true

1722

00:59:08,710 --> 00:59:07,040

that's simply not true we have to we

1723

00:59:10,789 --> 00:59:08,720

have to think beyond that there are

1724

00:59:13,510 --> 00:59:10,799

examples of life forms on our very own

1725

00:59:15,430 --> 00:59:13,520

planet that that have to live in what we

1726
00:59:17,109 --> 00:59:15,440
would consider inhospitable environments

1727
00:59:19,910 --> 00:59:17,119
if you bring it to our environment

1728
00:59:20,710 --> 00:59:19,920
that's inhospitable so

1729
00:59:22,630 --> 00:59:20,720
no

1730
00:59:24,309 --> 00:59:22,640
excellent thank you um

1731
00:59:26,870 --> 00:59:24,319
witnesses and uap thank you for the

1732
00:59:29,270 --> 00:59:26,880
super sticker my friend sean um

1733
00:59:32,470 --> 00:59:29,280
can you tell us about an atip study of a

1734
00:59:33,670 --> 00:59:32,480
brazil case

1735
00:59:36,150 --> 00:59:33,680
yeah

1736
00:59:38,470 --> 00:59:36,160
uh there were a few i suspect they're

1737
00:59:39,750 --> 00:59:38,480
talking about colors

1738
00:59:40,870 --> 00:59:39,760

um

1739

00:59:43,829 --> 00:59:40,880

you know

1740

00:59:46,789 --> 00:59:43,839

they're um i had the i had the distinct

1741

00:59:49,430 --> 00:59:46,799

honor to to be at a meeting when

1742

00:59:51,589 --> 00:59:49,440

general choi was there for a debriefing

1743

00:59:53,829 --> 00:59:51,599

i got to be careful not to go too far

1744

00:59:56,549 --> 00:59:53,839

down here because

1745

00:59:58,789 --> 00:59:56,559

that report may still be sensitive but

1746

01:00:01,109 --> 00:59:58,799

he uh he provided us a lot of detail

1747

01:00:03,990 --> 01:00:01,119

uh to include some of the the casualties

1748

01:00:04,789 --> 01:00:04,000

um that were deaths from some of his his

1749

01:00:06,630 --> 01:00:04,799

men

1750

01:00:10,069 --> 01:00:06,640

had as a result of the colors incident

1751

01:00:12,309 --> 01:00:10,079

uh and and video and photographs and uh

1752

01:00:14,230 --> 01:00:12,319

it was very very compelling and it was

1753

01:00:15,750 --> 01:00:14,240

well known and it was accepted by all

1754

01:00:17,270 --> 01:00:15,760

the military brass because they were

1755

01:00:19,030 --> 01:00:17,280

there for it and it was over a long

1756

01:00:20,789 --> 01:00:19,040

period of time this wasn't like a 5-10

1757

01:00:23,030 --> 01:00:20,799

minute incident and this had occurred

1758

01:00:25,109 --> 01:00:23,040

over over days

1759

01:00:26,710 --> 01:00:25,119

and so yeah i mean it was it was very

1760

01:00:28,390 --> 01:00:26,720

compelling and that was a that was you

1761

01:00:30,789 --> 01:00:28,400

know that was definitely one of the

1762

01:00:32,230 --> 01:00:30,799

interesting ones that we we looked at in

1763

01:00:34,470 --> 01:00:32,240

brazil you know who's doing a really

1764

01:00:36,710 --> 01:00:34,480

good job with this right now is james

1765

01:00:38,870 --> 01:00:36,720

fox the producer james fox

1766

01:00:42,470 --> 01:00:38,880

he and i talk quite a bit and uh you

1767

01:00:44,309 --> 01:00:42,480

know we we we share things and leads um

1768

01:00:46,549 --> 01:00:44,319

and i don't want to speak for him but

1769

01:00:48,069 --> 01:00:46,559

but he's he's he's hot on the case of

1770

01:00:49,430 --> 01:00:48,079

some really interesting stuff and i'll

1771

01:00:51,750 --> 01:00:49,440

leave it at that

1772

01:00:53,670 --> 01:00:51,760

that's fantastic yeah i'm enjoying

1773

01:00:57,750 --> 01:00:53,680

intrigued by the clarisse case

1774

01:00:59,990 --> 01:00:57,760

um i've lost my questions sorry guys

1775

01:01:02,309 --> 01:01:00,000

here we go cassie chris aguidea puerto

1776

01:01:04,549 --> 01:01:02,319

rico 2013 have you studied and can you

1777

01:01:06,230 --> 01:01:04,559

provide any inside whether it's valid

1778

01:01:07,910 --> 01:01:06,240

does the ship really break up in the end

1779

01:01:10,309 --> 01:01:07,920

or is it possible that is our perception

1780

01:01:11,910 --> 01:01:10,319

once it touches the water no we studied

1781

01:01:14,309 --> 01:01:11,920

it and it was real it was a dhs

1782

01:01:15,750 --> 01:01:14,319

helicopter and i know the military

1783

01:01:17,270 --> 01:01:15,760

installation that was taken over and

1784

01:01:20,230 --> 01:01:17,280

exactly when it happened

1785

01:01:21,670 --> 01:01:20,240

that's very legit um you know there was

1786

01:01:25,430 --> 01:01:21,680

there was some

1787

01:01:27,510 --> 01:01:25,440

concern initially because this was at a

1788

01:01:29,589 --> 01:01:27,520

uh interesting time and the united

1789

01:01:32,549 --> 01:01:29,599

states had some sensitive uh facilities

1790

01:01:33,349 --> 01:01:32,559

there and uh yeah it was uh it was real

1791

01:01:35,670 --> 01:01:33,359

um

1792

01:01:37,750 --> 01:01:35,680

as for the the the what you're talking

1793

01:01:39,270 --> 01:01:37,760

about the breakup there does seem to be

1794

01:01:40,630 --> 01:01:39,280

portions of it where the object goes

1795

01:01:42,549 --> 01:01:40,640

underwater

1796

01:01:45,349 --> 01:01:42,559

without making a splash again

1797

01:01:46,150 --> 01:01:45,359

transmedium travel right and and does so

1798

01:01:48,230 --> 01:01:46,160

with

1799

01:01:49,670 --> 01:01:48,240

losing velocity and then coming back out

1800

01:01:52,069 --> 01:01:49,680

again

1801

01:01:54,870 --> 01:01:52,079

and as far as splitting into two it

1802

01:01:56,150 --> 01:01:54,880

looks like that that looks like a it's

1803

01:01:58,069 --> 01:01:56,160

not an echo

1804

01:01:58,950 --> 01:01:58,079

on the image it looks like it actually

1805

01:02:00,630 --> 01:01:58,960

did

1806

01:02:02,390 --> 01:02:00,640

we don't know what it is i will tell you

1807

01:02:03,910 --> 01:02:02,400

that there were some folks that did it

1808

01:02:05,270 --> 01:02:03,920

you know fair in all fairness they had a

1809

01:02:07,109 --> 01:02:05,280

really compelling argument about some

1810

01:02:10,069 --> 01:02:07,119

chinese lanterns

1811

01:02:11,910 --> 01:02:10,079

that were launched for a wedding nearby

1812

01:02:14,069 --> 01:02:11,920

turns out that the winds were not

1813

01:02:15,349 --> 01:02:14,079

favorable for that it wasn't

1814

01:02:16,950 --> 01:02:15,359

those probably weren't

1815

01:02:18,470 --> 01:02:16,960

you know these chinese lanterns they

1816

01:02:20,230 --> 01:02:18,480

were referring to

1817

01:02:21,990 --> 01:02:20,240

but i appreciate the fact that people

1818

01:02:23,990 --> 01:02:22,000

were looking at it uh from a fair and

1819

01:02:25,670 --> 01:02:24,000

objective way and they were bringing in

1820

01:02:27,750 --> 01:02:25,680

all the data right what were the

1821

01:02:30,390 --> 01:02:27,760

prevailing wins right what was what was

1822

01:02:31,990 --> 01:02:30,400

going on at that time um i get i get

1823

01:02:33,270 --> 01:02:32,000

stuff all the time

1824

01:02:34,710 --> 01:02:33,280

from people on the inside of the

1825

01:02:36,230 --> 01:02:34,720

government you know kind of freaked out

1826

01:02:38,549 --> 01:02:36,240

they're like hey check this out we just

1827

01:02:40,230 --> 01:02:38,559

caught this over a military installation

1828

01:02:42,710 --> 01:02:40,240

you know and and and sometimes they're

1829

01:02:44,549 --> 01:02:42,720

just they're just balloons they're just

1830

01:02:46,230 --> 01:02:44,559

balloons they're balloons that you know

1831

01:02:48,309 --> 01:02:46,240

look from a part to release from a party

1832

01:02:50,230 --> 01:02:48,319

maybe someone's 31st birthday and the

1833

01:02:51,670 --> 01:02:50,240

and then the number three gets lost up

1834

01:02:53,109 --> 01:02:51,680

in the air and now that three is turned

1835

01:02:54,870 --> 01:02:53,119

sideways now looks like some sort of

1836

01:02:56,870 --> 01:02:54,880

beautiful shape and people start

1837

01:02:58,309 --> 01:02:56,880

freaking out right um

1838

01:02:59,829 --> 01:02:58,319

you know so

1839

01:03:02,470 --> 01:02:59,839

i'm pleased to say that there's a lot of

1840

01:03:04,789 --> 01:03:02,480

people really looking at this i will

1841

01:03:06,470 --> 01:03:04,799

also say and please forgive me i know

1842

01:03:08,230 --> 01:03:06,480

people are going to be absolutely

1843

01:03:10,950 --> 01:03:08,240

throwing stones at me but

1844

01:03:13,510 --> 01:03:10,960

but you know i i applaud people like

1845

01:03:15,270 --> 01:03:13,520

mick west i i don't necessarily applaud

1846

01:03:17,109 --> 01:03:15,280

their conclusions all the time because

1847

01:03:19,430 --> 01:03:17,119

um you know i there's a difference

1848

01:03:22,710 --> 01:03:19,440

between providing an analytic

1849

01:03:24,390 --> 01:03:22,720

uh opinion and and being conclusive but

1850

01:03:26,870 --> 01:03:24,400

i do think it's important that we have

1851

01:03:28,789 --> 01:03:26,880

people that are trying to find

1852

01:03:30,630 --> 01:03:28,799

explanations because again that's how we

1853

01:03:33,109 --> 01:03:30,640

separate the signal from the noise the

1854

01:03:35,510 --> 01:03:33,119

more we look more we know what a a

1855

01:03:37,910 --> 01:03:35,520

conventional technology looks like

1856

01:03:40,390 --> 01:03:37,920

the better and easier it makes it makes

1857

01:03:42,710 --> 01:03:40,400

it later on to isolate the real thing

1858

01:03:44,309 --> 01:03:42,720

and so that's why i think people like

1859

01:03:46,630 --> 01:03:44,319

mick west and others are actually doing

1860

01:03:48,950 --> 01:03:46,640

a wonderful service for us we may not

1861

01:03:51,349 --> 01:03:48,960

necessarily like how they do it but i

1862

01:03:52,870 --> 01:03:51,359

think i think it's it's important that

1863

01:03:55,430 --> 01:03:52,880

we we

1864

01:03:58,230 --> 01:03:55,440

we allow people to to have that

1865

01:04:00,549 --> 01:03:58,240

conversation um it's it's you know you

1866

01:04:03,510 --> 01:04:00,559

don't want to live in an echo chamber

1867

01:04:04,950 --> 01:04:03,520

even if you you don't agree with them um

1868

01:04:07,109 --> 01:04:04,960

the last thing you want to do is live in

1869

01:04:10,390 --> 01:04:07,119

an echo chamber we want to have we want

1870

01:04:12,950 --> 01:04:10,400

to have all all voices heard

1871

01:04:15,829 --> 01:04:12,960

absolutely no fantastic thank you

1872

01:04:18,390 --> 01:04:15,839

um brayden ross coulthard's docu lou

1873

01:04:20,390 --> 01:04:18,400

states no visible propulsion system no

1874

01:04:23,510 --> 01:04:20,400

obviously signs of lift no wings no

1875

01:04:25,990 --> 01:04:23,520

ailerons no elevators cockpits no rivets

1876

01:04:27,589 --> 01:04:26,000

our photos and vids that detailed or

1877

01:04:28,710 --> 01:04:27,599

seen in person

1878

01:04:31,670 --> 01:04:28,720

yes

1879

01:04:36,069 --> 01:04:34,230

thank you very much um

1880

01:04:37,349 --> 01:04:36,079

oh i do remember i've got a question

1881

01:04:39,589 --> 01:04:37,359

here on my pad

1882

01:04:41,190 --> 01:04:39,599

um are you following the

1883

01:04:44,470 --> 01:04:41,200

current updates with regards to the

1884

01:04:46,390 --> 01:04:44,480

mysterious tucson drone case

1885

01:04:47,670 --> 01:04:46,400

sure and what do you think at the moment

1886

01:04:49,670 --> 01:04:47,680

because i think the latest we saw that

1887

01:04:51,990 --> 01:04:49,680

there was some internal emails where

1888

01:04:54,390 --> 01:04:52,000

they now saying that they saw like

1889

01:04:55,829 --> 01:04:54,400

quadcopter blades so well if you see

1890

01:04:58,630 --> 01:04:55,839

rotors and the chances are it's a

1891

01:04:59,430 --> 01:04:58,640

conventional technology um you know

1892

01:05:02,789 --> 01:04:59,440

that's

1893

01:05:03,990 --> 01:05:02,799

whole different reason a set of reasons

1894

01:05:05,510 --> 01:05:04,000

you know that means there's some sort of

1895

01:05:07,990 --> 01:05:05,520

adversary that's using conversion

1896

01:05:09,510 --> 01:05:08,000

conventional technology and has somehow

1897

01:05:11,029 --> 01:05:09,520

figured out a way to have these things

1898

01:05:12,069 --> 01:05:11,039

loiter for a lot longer and maneuver in

1899

01:05:15,029 --> 01:05:12,079

ways that

1900

01:05:16,789 --> 01:05:15,039

we really have a hard time understanding

1901

01:05:19,510 --> 01:05:16,799

um you know

1902

01:05:21,029 --> 01:05:19,520

we need to make sure that that that's

1903

01:05:22,630 --> 01:05:21,039

what was seen

1904

01:05:24,870 --> 01:05:22,640

but chances are if there's rotors

1905

01:05:27,349 --> 01:05:24,880

associated with it then there's a high

1906

01:05:29,990 --> 01:05:27,359

high degree possibility that it's it's

1907

01:05:32,150 --> 01:05:30,000

it's something very conventional um but

1908

01:05:35,029 --> 01:05:32,160

we need to see we need those emails to

1909

01:05:37,029 --> 01:05:35,039

be to be you know i know i know

1910

01:05:39,430 --> 01:05:37,039

tom and others you know really really

1911

01:05:40,870 --> 01:05:39,440

have a very specific perspective on this

1912

01:05:42,870 --> 01:05:40,880

and i respect that perspective and i

1913

01:05:44,789 --> 01:05:42,880

think they're right some of the time i i

1914

01:05:47,109 --> 01:05:44,799

do i think there's a lot of things

1915

01:05:48,789 --> 01:05:47,119

um you know that that look our foreign

1916

01:05:50,390 --> 01:05:48,799

adversaries are are developing and

1917

01:05:52,230 --> 01:05:50,400

trying to leapfrogger technology every

1918

01:05:54,950 --> 01:05:52,240

day and they are developing some pretty

1919

01:05:56,789 --> 01:05:54,960

crazy stuff just like we are you know

1920

01:05:59,109 --> 01:05:56,799

and sometimes they'll test it and

1921

01:06:01,270 --> 01:05:59,119

they'll test it to see our response

1922

01:06:04,789 --> 01:06:01,280

um that's no surprise we've been doing

1923

01:06:06,549 --> 01:06:04,799

that for for 70 800 years right

1924

01:06:08,789 --> 01:06:06,559

so it's it's

1925

01:06:10,069 --> 01:06:08,799

it's okay uh for for us to have this

1926

01:06:12,549 --> 01:06:10,079

conversation

1927

01:06:14,630 --> 01:06:12,559

um i don't have an opinion yet if it

1928

01:06:16,950 --> 01:06:14,640

turns out that those emails are legit

1929

01:06:19,349 --> 01:06:16,960

then chances are it's it's probably a

1930

01:06:21,029 --> 01:06:19,359

drone um that's why we have to be very

1931

01:06:23,109 --> 01:06:21,039

careful in the beginning i know when we

1932

01:06:25,029 --> 01:06:23,119

see data we're very tempted to jump and

1933

01:06:26,309 --> 01:06:25,039

say here's another example here's a ufo

1934

01:06:29,190 --> 01:06:26,319

well

1935

01:06:29,990 --> 01:06:29,200

again okay but i caution everybody from

1936

01:06:37,029 --> 01:06:30,000

from

1937

01:06:39,510 --> 01:06:37,039

really need data data data um and the

1938

01:06:41,670 --> 01:06:39,520

good news is you know that same data

1939

01:06:43,029 --> 01:06:41,680

that's used to prove something is just a

1940

01:06:44,390 --> 01:06:43,039

quadcopter

1941

01:06:46,630 --> 01:06:44,400

at the end of the day can be the same

1942

01:06:48,309 --> 01:06:46,640

data that proves it isn't and all of a

1943

01:06:50,150 --> 01:06:48,319

sudden now you've got something really

1944

01:06:52,069 --> 01:06:50,160

revolutionary on your hands you've got

1945

01:06:53,990 --> 01:06:52,079

something that's behaving that nothing

1946

01:06:55,109 --> 01:06:54,000

does and we've got it from multiple

1947

01:06:57,029 --> 01:06:55,119

sensors and we've got it from the

1948

01:06:58,549 --> 01:06:57,039

eyewitness and now you're like okay

1949

01:07:00,549 --> 01:06:58,559

that's you know

1950

01:07:01,990 --> 01:07:00,559

that doesn't have you know rotor wash

1951

01:07:04,230 --> 01:07:02,000

that doesn't have a propeller it doesn't

1952

01:07:05,109 --> 01:07:04,240

have wings cockpits ailerons elevators

1953

01:07:06,230 --> 01:07:05,119

you know

1954

01:07:08,230 --> 01:07:06,240

none of that

1955

01:07:11,270 --> 01:07:08,240

and that thing is flying and it's flying

1956

01:07:12,390 --> 01:07:11,280

in a way that we can't um that that's

1957

01:07:13,430 --> 01:07:12,400

that's when you know you have something

1958

01:07:14,390 --> 01:07:13,440

special

1959

01:07:15,990 --> 01:07:14,400

yeah definitely because i've been

1960

01:07:18,390 --> 01:07:16,000

following this case for quite some time

1961

01:07:21,029 --> 01:07:18,400

as it's evolved and then recently we saw

1962

01:07:24,630 --> 01:07:21,039

some flare footage with an 810 warthog

1963

01:07:26,309 --> 01:07:24,640

in it and it just made me think

1964

01:07:27,430 --> 01:07:26,319

that the object we see in this warthog

1965

01:07:28,950 --> 01:07:27,440

video looks

1966

01:07:31,270 --> 01:07:28,960

or sounds like it could be similar to

1967

01:07:34,390 --> 01:07:31,280

what the helicopter pilot saw in the

1968

01:07:35,750 --> 01:07:34,400

tucson case some people swear that that

1969

01:07:38,470 --> 01:07:35,760

that another one you're referring to

1970

01:07:40,470 --> 01:07:38,480

that that video it is a legit video the

1971

01:07:42,950 --> 01:07:40,480

question is what does it show and some

1972

01:07:44,870 --> 01:07:42,960

people say it's a uap other people say

1973

01:07:47,829 --> 01:07:44,880

no to drone uh

1974

01:07:50,309 --> 01:07:47,839

and uh right now um there is some you

1975

01:07:51,589 --> 01:07:50,319

know quietly some fierce debate going on

1976

01:07:54,789 --> 01:07:51,599

to determine

1977

01:07:55,910 --> 01:07:54,799

um what it actually was um and that's

1978

01:07:57,589 --> 01:07:55,920

why it's important you hear from the

1979

01:07:59,190 --> 01:07:57,599

people on the ground you hear from the

1980

01:08:01,190 --> 01:07:59,200

radar operators

1981

01:08:03,270 --> 01:08:01,200

you hear from from the folks there that

1982

01:08:05,349 --> 01:08:03,280

were actually on the scene at the time

1983

01:08:06,870 --> 01:08:05,359

uh possibly from pilots that's all

1984

01:08:08,630 --> 01:08:06,880

that's important then you find out you

1985

01:08:09,829 --> 01:08:08,640

know you cast a broader net you start

1986

01:08:11,670 --> 01:08:09,839

talking to commercial pilots who may

1987

01:08:13,190 --> 01:08:11,680

have been in the area at the time right

1988

01:08:15,109 --> 01:08:13,200

yeah and and whatnot and then you start

1989

01:08:17,749 --> 01:08:15,119

talking to private pilots maybe someone

1990

01:08:19,430 --> 01:08:17,759

who's flying a cessna right

1991

01:08:21,749 --> 01:08:19,440

from the next town over

1992

01:08:23,749 --> 01:08:21,759

so that's that's how you you you get

1993

01:08:24,470 --> 01:08:23,759

additional fidelity on an incident like

1994

01:08:27,110 --> 01:08:24,480

that

1995

01:08:28,470 --> 01:08:27,120

absolutely no thank you um mr

1996

01:08:30,709 --> 01:08:28,480

christopher sharp hi chris hope you're

1997

01:08:34,149 --> 01:08:30,719

doing well my friend um did a tip or the

1998

01:08:37,349 --> 01:08:34,159

uap tf study any uk cases with exception

1999

01:08:41,189 --> 01:08:39,189

i'm going to let them answer that the

2000

01:08:44,550 --> 01:08:41,199

only reason why i say because i

2001

01:08:48,950 --> 01:08:46,550

that is a question that that the uk and

2002

01:08:51,030 --> 01:08:48,960

the united states need to answer i'm not

2003

01:08:53,030 --> 01:08:51,040

going to i'm not going to speak behind i

2004

01:08:54,709 --> 01:08:53,040

don't want to provide an answer

2005

01:08:56,470 --> 01:08:54,719

that um

2006

01:08:58,070 --> 01:08:56,480

puts either country in a situation where

2007

01:08:59,829 --> 01:08:58,080

they they have to

2008

01:09:02,390 --> 01:08:59,839

they have to respond that's not that's

2009

01:09:05,590 --> 01:09:02,400

not from my that's not my place to do

2010

01:09:07,269 --> 01:09:05,600

that's absolutely fantastic um let's do

2011

01:09:08,390 --> 01:09:07,279

one or two are you okay for time luke

2012

01:09:10,470 --> 01:09:08,400

because i know we've just gone over

2013

01:09:13,510 --> 01:09:10,480

actually i do have to get my sorry i

2014

01:09:15,749 --> 01:09:13,520

move my my mother-in-law in her new

2015

01:09:18,390 --> 01:09:15,759

apartment so i have uh

2016

01:09:21,349 --> 01:09:18,400

unfortunately no rest for the weary um

2017

01:09:23,189 --> 01:09:21,359

so no that's absolutely fine so guys

2018

01:09:24,390 --> 01:09:23,199

i'll have to leave it at that maybe lou

2019

01:09:25,910 --> 01:09:24,400

will go

2020

01:09:27,349 --> 01:09:25,920

go ahead and do one more i feel terrible

2021

01:09:29,110 --> 01:09:27,359

you see you're making me feel guilty so

2022

01:09:30,950 --> 01:09:29,120

let's go now i gotta find a really good

2023

01:09:33,189 --> 01:09:30,960

one here we go

2024

01:09:35,910 --> 01:09:33,199

oh no this one here what i lose thoughts

2025

01:09:38,709 --> 01:09:35,920

on the uaps um observing us not only

2026

01:09:40,390 --> 01:09:38,719

military bases but also normal people

2027

01:09:42,149 --> 01:09:40,400

this based on people's experience and

2028

01:09:43,749 --> 01:09:42,159

multiple sightings of the same kind of

2029

01:09:50,870 --> 01:09:43,759

uap

2030

01:09:54,550 --> 01:09:52,950

is it possible that you forgive me i'm

2031

01:09:56,390 --> 01:09:54,560

not sure i understand the question is it

2032

01:09:57,990 --> 01:09:56,400

are they conducting surveillance on us

2033

01:10:00,070 --> 01:09:58,000

is that is that

2034

01:10:01,590 --> 01:10:00,080

yeah i think um

2035

01:10:02,709 --> 01:10:01,600

this is your no actually i know you all

2036

01:10:04,390 --> 01:10:02,719

know thank you for the question i think

2037

01:10:07,510 --> 01:10:04,400

she's alluding to the fact that people

2038

01:10:08,950 --> 01:10:07,520

um civilians are experienced in uap oh i

2039

01:10:10,149 --> 01:10:08,960

say you're saying yeah yeah i mean no

2040

01:10:11,669 --> 01:10:10,159

that's that's that's clear i mean we

2041

01:10:13,910 --> 01:10:11,679

have military incidents but we've have

2042

01:10:15,669 --> 01:10:13,920

historical you know obviously reference

2043

01:10:18,550 --> 01:10:15,679

going back hundreds and hundreds of

2044

01:10:21,350 --> 01:10:18,560

years of uap ufos um in fact for

2045

01:10:22,070 --> 01:10:21,360

indigenous people it was common

2046

01:10:23,910 --> 01:10:22,080

so

2047

01:10:25,990 --> 01:10:23,920

uh i don't think it's anything new i

2048

01:10:27,110 --> 01:10:26,000

think it's certainly possible

2049

01:10:29,030 --> 01:10:27,120

that

2050

01:10:30,310 --> 01:10:29,040

whatever these are are are conducting

2051

01:10:32,470 --> 01:10:30,320

some sort of surveillance or

2052

01:10:34,790 --> 01:10:32,480

reconnaissance on us now the question is

2053

01:10:37,030 --> 01:10:34,800

for what reason right i mean we we we

2054

01:10:38,630 --> 01:10:37,040

surveil species on our own planet all

2055

01:10:40,070 --> 01:10:38,640

the time and we fly helicopter over the

2056

01:10:41,669 --> 01:10:40,080

serengeti we scare the hell out of

2057

01:10:44,310 --> 01:10:41,679

wilder beasts they run in a stampede we

2058

01:10:45,830 --> 01:10:44,320

decide that one we're gonna dart we dart

2059

01:10:47,590 --> 01:10:45,840

it all of a sudden the thing wakes up

2060

01:10:49,189 --> 01:10:47,600

after you know i think what the hell was

2061

01:10:50,229 --> 01:10:49,199

that and all of a sudden it runs back to

2062

01:10:51,750 --> 01:10:50,239

its heart and said man you're not gonna

2063

01:10:53,350 --> 01:10:51,760

believe what just happened to me right

2064

01:10:54,790 --> 01:10:53,360

and what happens to her looks like man

2065

01:10:56,550 --> 01:10:54,800

what are you what are you talking about

2066

01:10:59,990 --> 01:10:56,560

me

2067

01:11:02,070 --> 01:11:00,000

where what what watering hole were you

2068

01:11:03,510 --> 01:11:02,080

just at you know

2069

01:11:04,790 --> 01:11:03,520

no more sun you've been in the sun too

2070

01:11:08,310 --> 01:11:04,800

long there you go

2071

01:11:10,390 --> 01:11:08,320

jim so uh yeah it's certainly possible

2072

01:11:12,790 --> 01:11:10,400

excellent that's great well listen uh

2073

01:11:14,390 --> 01:11:12,800

thank you everyone that has been

2074

01:11:15,750 --> 01:11:14,400

watching for the people that sent super

2075

01:11:16,870 --> 01:11:15,760

stickers thank you so much for the

2076

01:11:19,270 --> 01:11:16,880

questions

2077

01:11:20,470 --> 01:11:19,280

for the continued support and you know

2078

01:11:22,149 --> 01:11:20,480

hopefully we'll do this again in a

2079

01:11:23,750 --> 01:11:22,159

couple more months time

2080

01:11:28,310 --> 01:11:23,760

um and hopefully hopefully we'll do it

2081

01:11:33,669 --> 01:11:31,750

no more said about that just yet

2082

01:11:35,590 --> 01:11:33,679

thank you everyone um i am going to be

2083

01:11:38,070 --> 01:11:35,600

back here in a couple of days time with

2084

01:11:40,229 --> 01:11:38,080

tim mcmillan from the debrief so i am

2085

01:11:41,030 --> 01:11:40,239

great joining me there

2086

01:11:45,990 --> 01:11:41,040

yeah

2087

01:11:47,830 --> 01:11:46,000

tell you he's a hell of an investigator

2088

01:11:49,750 --> 01:11:47,840

man like for real like like from an

2089

01:11:51,990 --> 01:11:49,760

investigator to an investigator

2090

01:11:53,910 --> 01:11:52,000

he's the one guy you do not

2091

01:11:55,750 --> 01:11:53,920

want on your bad side that is the kind

2092

01:11:57,990 --> 01:11:55,760

of guy that will

2093

01:12:01,110 --> 01:11:58,000

find every little thing about you man

2094

01:12:03,110 --> 01:12:01,120

he's he's tenacious as hell

2095

01:12:05,030 --> 01:12:03,120

yeah i'm gonna have to prep for that one

2096

01:12:06,950 --> 01:12:05,040

because uh yeah he's a super

2097

01:12:08,790 --> 01:12:06,960

knowledgeable guy so yeah he is a good

2098

01:12:10,550 --> 01:12:08,800

dude really really good he's really

2099

01:12:12,470 --> 01:12:10,560

helped advance the conversation and he's

2100

01:12:14,310 --> 01:12:12,480

he's he's objective and critical and

2101

01:12:15,990 --> 01:12:14,320

he's he's exactly the kind of guy that

2102

01:12:18,070 --> 01:12:16,000

you want in front of a jury presenting a

2103

01:12:19,750 --> 01:12:18,080

case yeah i mean he's fantastic

2104

01:12:21,750 --> 01:12:19,760

excellent yes i hope everyone can join

2105

01:12:23,270 --> 01:12:21,760

me for that one but for now guys please

2106

01:12:25,430 --> 01:12:23,280

say thank you to lou

2107

01:12:26,790 --> 01:12:25,440

virtually um thanks guys yeah i'll see
