00:00:46,630 --> 00:00:45,440

i am just checking a couple of settings

6
00:00:48,950 --> 00:00:46,640

because i've had a little bit of a

7
00:00:51,270 --> 00:00:48,960

technical issue with my internet stream

8
00:00:52,310 --> 00:00:51,280

tonight but everything's looking good

9
00:00:55,990 --> 00:00:52,320

um

10
00:00:58,069 --> 00:00:56,000

let's not waste any more time

11
00:01:00,630 --> 00:00:58,079

let's bring in

12
00:01:02,869 --> 00:01:00,640

your friend and my friend

13
00:01:05,030 --> 00:01:02,879

uh i'm so good colorado springs this

18

00:01:16,469 --> 00:01:14,640

week uh doing some work and

19

00:01:19,109 --> 00:01:16,479

unfortunately my my time schedule is

20

00:01:20,390 --> 00:01:19,119

extremely compressed and it is not mine

21

00:01:22,630 --> 00:01:20,400

so uh

22

00:01:24,870 --> 00:01:22,640

sincere and humble apologies to to you

23

00:01:27,030 --> 00:01:24,880

and and uh your wonderful audience but

24

00:01:28,950 --> 00:01:27,040

uh great to see you again

25

00:01:31,030 --> 00:01:28,960

hey it's so good that you could take the

26

00:01:32,870 --> 00:01:31,040

time out and come back and

27

00:01:34,550 --> 00:01:32,880

i think we fixed the technical issues

28

00:01:36,390 --> 00:01:34,560

that we had last time as far as sharing

29

00:01:37,350 --> 00:01:36,400

screens and all that stuff

30

00:01:38,710 --> 00:01:37,360

thank you

31

00:01:40,469 --> 00:01:38,720

i've never been very technically

32

00:01:42,069 --> 00:01:40,479

proficient so i i well

33

00:01:43,910 --> 00:01:42,079

thanks to me you just we just spent the

34

00:01:45,109 --> 00:01:43,920

last 10 minutes i just sat here and

35

00:01:47,350 --> 00:01:45,119

watched you

36

00:01:48,389 --> 00:01:47,360

work away and do it so no thank you so

37

00:01:50,389 --> 00:01:48,399

much man

38

00:01:52,149 --> 00:01:50,399

um thank you to everybody in the live

39

00:01:54,950 --> 00:01:52,159

chat here right now i really appreciate

40

00:01:56,709 --> 00:01:54,960

you all being here um i have i'm just

41

00:01:58,709 --> 00:01:56,719

gonna state i have turned off super chat

42

00:02:00,630 --> 00:01:58,719

because this is a presentation by lou

43

00:02:02,630 --> 00:02:00,640

this isn't like a massive ama ask

44

00:02:04,870 --> 00:02:02,640

anything and all that so just wanted to

45

00:02:05,990 --> 00:02:04,880

put that out there um

46

00:02:09,029 --> 00:02:06,000

so yeah

47

00:02:11,750 --> 00:02:09,039

here we are lou how's colorado treating

48

00:02:14,630 --> 00:02:11,760

you man uh today's beautiful uh i had a

49

00:02:16,550 --> 00:02:14,640

hell of a drive coming in uh

50

00:02:18,309 --> 00:02:16,560

yesterday uh through they had shut down

51
00:02:19,430 --> 00:02:18,319
the highway so i was coming down highway

52
00:02:20,830 --> 00:02:19,440
25

53
00:02:24,229 --> 00:02:20,840
and fortunately i have

54
00:02:25,990 --> 00:02:24,239
a my truck is you know

55
00:02:27,910 --> 00:02:26,000
jacked up a little bit so i have the

56
00:02:31,910 --> 00:02:27,920
driving driving

57
00:02:34,710 --> 00:02:31,920
what is it uh it's a uh it's a uh a ram

58
00:02:37,750 --> 00:02:34,720
uh with uh four wheel drive with uh with

59
00:02:39,589 --> 00:02:37,760
with dodge cummins uh motor um

60
00:02:41,430 --> 00:02:39,599
so most people know me gear head so yeah

61
00:02:43,110 --> 00:02:41,440
she's a bit of a beast uh you know

62
00:02:46,790 --> 00:02:43,120
definitely go anywhere anytime type

63
00:02:49,110 --> 00:02:46,800

vehicle a bit of a zombie apocalypse

64

00:02:50,710 --> 00:02:49,120

type truck and you know she actually uh

65

00:02:52,630 --> 00:02:50,720

normally she's a parking lot princess

66

00:02:55,030 --> 00:02:52,640

but uh but yesterday she was a workhorse

67

00:02:56,949 --> 00:02:55,040

she uh she did be good

68

00:02:59,110 --> 00:02:56,959

appreciate it man that sounds awesome

69

00:03:00,550 --> 00:02:59,120

man so um

70

00:03:02,630 --> 00:03:00,560

listen we know why we're here i think

71

00:03:04,790 --> 00:03:02,640

everybody's really eager

72

00:03:07,670 --> 00:03:04,800

because we we've we've touched upon this

73

00:03:09,270 --> 00:03:07,680

ai that has been mentioned

74

00:03:10,710 --> 00:03:09,280

for quite some time now

75

00:03:12,390 --> 00:03:10,720

yeah well i was going to initially talk

76

00:03:14,390 --> 00:03:12,400

to you about the ai and i'm going to but

77

00:03:15,910 --> 00:03:14,400

but i think you know what since i put

78

00:03:17,670 --> 00:03:15,920

you guys off for about a week or two on

79

00:03:19,270 --> 00:03:17,680

this and it wasn't intentional but you

80

00:03:20,869 --> 00:03:19,280

know let me give you let me give you the

81

00:03:22,309 --> 00:03:20,879

full presentation if that's okay and i'm

82

00:03:24,550 --> 00:03:22,319

going to go a little faster than i

83

00:03:27,589 --> 00:03:24,560

normally do this is a presentation that

84

00:03:29,110 --> 00:03:27,599

has been provided to some some some

85

00:03:31,910 --> 00:03:29,120

fairly senior people

86

00:03:35,750 --> 00:03:31,920

uh and i think hopefully it'll kind of

87

00:03:37,509 --> 00:03:35,760

give a broad perspective of of you know

88

00:03:39,430 --> 00:03:37,519

what are we doing how are we doing it

89

00:03:41,670 --> 00:03:39,440

you know what have where have we gone

90

00:03:42,710 --> 00:03:41,680

where are we now and where are we going

91

00:03:43,509 --> 00:03:42,720

yeah so i'm going to go ahead and share

92

00:03:45,430 --> 00:03:43,519

if you don't mind i'm just going to

93

00:03:46,710 --> 00:03:45,440

share the screen now

94

00:03:49,430 --> 00:03:46,720

screen

95

00:03:51,110 --> 00:03:49,440

uh forgive me folks if i uh do something

96

00:03:53,350 --> 00:03:51,120

wrong here can you

97

00:03:55,350 --> 00:03:53,360

i can see it man we're ready to roll

98

00:03:57,110 --> 00:03:55,360

right here we go now first of all folks

99

00:03:58,789 --> 00:03:57,120

i know people are going to go ahead and

100

00:04:01,589 --> 00:03:58,799

pick apart this

101
00:04:03,670 --> 00:04:01,599
thing um but uh just know that this is

102
00:04:05,990 --> 00:04:03,680
for really the purpose of this briefing

103
00:04:07,910 --> 00:04:06,000
is to to elicit conversation just get

104
00:04:09,589 --> 00:04:07,920
people talking and understanding the

105
00:04:11,670 --> 00:04:09,599
methodologies and kind of take away the

106
00:04:12,869 --> 00:04:11,680
mystery of of how we've been doing

107
00:04:14,070 --> 00:04:12,879
things so

108
00:04:16,789 --> 00:04:14,080
there's really i've talked about the

109
00:04:18,550 --> 00:04:16,799
five pillars of uap engagement and very

110
00:04:19,670 --> 00:04:18,560
much like this picture here um you know

111
00:04:21,349 --> 00:04:19,680
when you're when you're building these

112
00:04:23,430 --> 00:04:21,359
pillars you really want to be consistent

113
00:04:24,870 --> 00:04:23,440

and build them roughly at the same rate

114

00:04:26,469 --> 00:04:24,880

and the same time

115

00:04:28,629 --> 00:04:26,479

because if one pillar gets higher than

116

00:04:31,350 --> 00:04:28,639

another then you wind up having a

117

00:04:34,310 --> 00:04:31,360

crooked roof so we really have have been

118

00:04:37,110 --> 00:04:34,320

very um diligent in making sure that

119

00:04:38,310 --> 00:04:37,120

these these five pillars all rise

120

00:04:39,909 --> 00:04:38,320

collectively together and by the way

121

00:04:41,670 --> 00:04:39,919

there may be other pillars as we as we

122

00:04:44,469 --> 00:04:41,680

move into the future

123

00:04:47,350 --> 00:04:44,479

so i have this slide up here um just to

124

00:04:49,670 --> 00:04:47,360

provoke conversation um what i usually

125

00:04:51,270 --> 00:04:49,680

tell folks is uh let me see if i can

126
00:04:53,590 --> 00:04:51,280
hide this give me one second does that

127
00:04:55,590 --> 00:04:53,600
work nope i'm sorry guys let's try that

128
00:04:57,670 --> 00:04:55,600
again that's so good

129
00:04:58,950 --> 00:04:57,680
just don't show your calendar

130
00:05:00,150 --> 00:04:58,960
yeah

131
00:05:01,990 --> 00:05:00,160
so you know the question always

132
00:05:03,990 --> 00:05:02,000
everybody asks right you know what is

133
00:05:05,430 --> 00:05:04,000
disclosure and i think uh it's important

134
00:05:07,189 --> 00:05:05,440
in order for us to have a conversation

135
00:05:08,870 --> 00:05:07,199
we really all need to come to agreement

136
00:05:10,790 --> 00:05:08,880
of what it means now this is a

137
00:05:13,350 --> 00:05:10,800
definition um

138
00:05:15,110 --> 00:05:13,360

and uh that that i was able to find the

139

00:05:17,990 --> 00:05:15,120

action of making new or secret

140

00:05:20,070 --> 00:05:18,000

information known um you know pretty

141

00:05:21,270 --> 00:05:20,080

pretty simple actually um not not too

142

00:05:22,870 --> 00:05:21,280

complicated

143

00:05:24,710 --> 00:05:22,880

and we'll get back to that question so

144

00:05:26,230 --> 00:05:24,720

the pillar one is the first pillar of

145

00:05:27,670 --> 00:05:26,240

engagement is legislative engagement

146

00:05:30,070 --> 00:05:27,680

here in our country we have three

147

00:05:31,830 --> 00:05:30,080

branches of government um

148

00:05:33,270 --> 00:05:31,840

there is the legislative branch the

149

00:05:35,990 --> 00:05:33,280

executive branch and then there is the

150

00:05:38,710 --> 00:05:36,000

judicial branch

151
00:05:40,310 --> 00:05:38,720
we chose alleged legislative branch for

152
00:05:41,749 --> 00:05:40,320
a reason because these are the folks

153
00:05:43,909 --> 00:05:41,759
that set the laws of the land and

154
00:05:45,430 --> 00:05:43,919
they're also the ones that that fund the

155
00:05:47,670 --> 00:05:45,440
government they're the ones who who set

156
00:05:49,510 --> 00:05:47,680
the budgets so it's important that as we

157
00:05:51,350 --> 00:05:49,520
ensure we speak

158
00:05:54,070 --> 00:05:51,360
about this topic that we engage our

159
00:05:55,590 --> 00:05:54,080
lawmakers now let me just preface we're

160
00:05:57,270 --> 00:05:55,600
not um

161
00:05:58,629 --> 00:05:57,280
we're not lobbying people say oh you're

162
00:06:00,870 --> 00:05:58,639
lobbying you're lobbyists no we're not

163
00:06:02,710 --> 00:06:00,880

we're not asking for a cent not one red

164

00:06:04,309 --> 00:06:02,720

penny what we're doing is just making

165

00:06:07,510 --> 00:06:04,319

sure that congress members of congress

166

00:06:09,749 --> 00:06:07,520

are informed so you see here some of the

167

00:06:11,270 --> 00:06:09,759

advantages why we do what we do ensuring

168

00:06:13,510 --> 00:06:11,280

lawmakers in the u.s are providing

169

00:06:15,430 --> 00:06:13,520

relevant accurate uap information by

170

00:06:18,150 --> 00:06:15,440

qualified experts what's a qualified

171

00:06:19,590 --> 00:06:18,160

expert now this is not intended to to

172

00:06:21,189 --> 00:06:19,600

hurt anybody's feelings but in

173

00:06:23,110 --> 00:06:21,199

government terms it's people who hold a

174

00:06:26,550 --> 00:06:23,120

security clearance who have a very

175

00:06:28,230 --> 00:06:26,560

specific job um and and and they are a

176

00:06:31,189 --> 00:06:28,240

qualified expert in their field so

177

00:06:33,749 --> 00:06:31,199

whether it's missile telemetry or radar

178

00:06:36,390 --> 00:06:33,759

exploitation or you know fill in the

179

00:06:38,550 --> 00:06:36,400

blank um that is a qualified expert it's

180

00:06:41,270 --> 00:06:38,560

not hobbyist it's not a ufologist it's

181

00:06:42,710 --> 00:06:41,280

it's it's really a someone who has been

182

00:06:44,469 --> 00:06:42,720

is getting paid by the us government to

183

00:06:45,590 --> 00:06:44,479

do a very specific job i know some

184

00:06:47,909 --> 00:06:45,600

people are going to argue that and say

185

00:06:49,110 --> 00:06:47,919

well but that's not really a qualified

186

00:06:50,629 --> 00:06:49,120

expert well

187

00:06:52,070 --> 00:06:50,639

but it isn't government terms i'm not

188

00:06:53,510 --> 00:06:52,080

saying it is from from a universal

189

00:06:55,189 --> 00:06:53,520

perspective simply from a from a

190

00:06:56,950 --> 00:06:55,199

governmental perspective

191

00:06:59,029 --> 00:06:56,960

um and so we make sure that those

192

00:07:00,790 --> 00:06:59,039

briefings uh you know we facilitate

193

00:07:03,350 --> 00:07:00,800

those briefings so they can occur we

194

00:07:05,589 --> 00:07:03,360

also it also it facilitates educated

195

00:07:07,189 --> 00:07:05,599

decisions to properly fund uap efforts

196

00:07:09,510 --> 00:07:07,199

within the us government and so you see

197

00:07:11,350 --> 00:07:09,520

here annual budget cycles mip and nip

198

00:07:13,430 --> 00:07:11,360

stand for military intelligence program

199

00:07:16,710 --> 00:07:13,440

and nip stands for national intelligence

200

00:07:18,629 --> 00:07:16,720

program making sure that congress knows

201

00:07:20,550 --> 00:07:18,639

uh that if you want to help out that's

202

00:07:22,710 --> 00:07:20,560

where you put some of the money so now

203

00:07:24,629 --> 00:07:22,720

you can get the intelligence community

204

00:07:25,589 --> 00:07:24,639

engaged to start actually looking at

205

00:07:28,150 --> 00:07:25,599

this pro

206

00:07:30,629 --> 00:07:28,160

pro this this this effort if you will

207

00:07:32,150 --> 00:07:30,639

this this this problem collectively it

208

00:07:35,430 --> 00:07:32,160

also allows for better oversight and

209

00:07:36,629 --> 00:07:35,440

decreases excessive excessive secrecy so

210

00:07:39,029 --> 00:07:36,639

congress says you know what i want a

211

00:07:40,150 --> 00:07:39,039

180-day report so they get 188 report

212

00:07:42,469 --> 00:07:40,160

they said hey that's great but now i

213

00:07:43,350 --> 00:07:42,479

want a 90-day report and oh by the way i

214

00:07:47,270 --> 00:07:43,360

want

215

00:07:49,430 --> 00:07:47,280

defense every year right so

216

00:07:50,869 --> 00:07:49,440

it becomes a snowball effect and you see

217

00:07:52,070 --> 00:07:50,879

here the the senate select committee on

218

00:07:53,909 --> 00:07:52,080

intelligence and the senate armed

219

00:07:55,510 --> 00:07:53,919

services committee it also permits

220

00:07:57,990 --> 00:07:55,520

dialogue between constituents and

221

00:08:00,070 --> 00:07:58,000

elected officials so now when a

222

00:08:01,589 --> 00:08:00,080

constituent calls and said says to their

223

00:08:03,189 --> 00:08:01,599

elected official have you been briefed

224

00:08:04,710 --> 00:08:03,199

they can say yes and you know what

225

00:08:06,070 --> 00:08:04,720

you're right this is an important topic

226

00:08:08,390 --> 00:08:06,080

for us and it's an important topic for

227

00:08:09,990 --> 00:08:08,400

our district or or our state

228

00:08:12,790 --> 00:08:10,000

it also promotes media acceptance

229

00:08:14,550 --> 00:08:12,800

because now the media feels enjoying to

230

00:08:16,309 --> 00:08:14,560

actually ask the question that they

231

00:08:18,309 --> 00:08:16,319

never wanted to ask before and that is

232

00:08:21,430 --> 00:08:18,319

asking our members of congress what do

233

00:08:23,909 --> 00:08:21,440

you think about ufos right and then of

234

00:08:25,670 --> 00:08:23,919

course it enables international dialogue

235

00:08:27,270 --> 00:08:25,680

with other governments specifically

236

00:08:28,950 --> 00:08:27,280

through their legislative processes so

237

00:08:31,270 --> 00:08:28,960

their congresses their parliaments

238

00:08:33,190 --> 00:08:31,280

committees et cetera so

239

00:08:36,709 --> 00:08:33,200

uh these are just some of the the

240

00:08:38,949 --> 00:08:36,719

reasons why pillar one is so important

241

00:08:40,389 --> 00:08:38,959

yeah

242

00:08:42,149 --> 00:08:40,399

sorry i'm just going to say that last

243

00:08:43,829 --> 00:08:42,159

point on pillar one with

244

00:08:46,230 --> 00:08:43,839

um other governments i mean it does

245

00:08:48,150 --> 00:08:46,240

every time every time that stands out i

246

00:08:50,150 --> 00:08:48,160

think about the uk though how we still

247

00:08:53,990 --> 00:08:50,160

seem to be falling behind

248

00:08:56,790 --> 00:08:54,000

well you know i i i get it uh you know i

249

00:08:58,150 --> 00:08:56,800

we have to have patience though

250

00:08:59,990 --> 00:08:58,160

we we have to

251
00:09:02,150 --> 00:09:00,000
you you can lead a horse to water right

252
00:09:03,990 --> 00:09:02,160
but you can't make a drink absolutely so

253
00:09:06,470 --> 00:09:04,000
we have to you know just continue be

254
00:09:08,550 --> 00:09:06,480
persistent uh and be be

255
00:09:11,750 --> 00:09:08,560
fair-minded and rational about this

256
00:09:14,870 --> 00:09:11,760
topic i think you know i think uh

257
00:09:16,470 --> 00:09:14,880
i think ultimately logic will prevail

258
00:09:18,389 --> 00:09:16,480
the next pillar is executive level

259
00:09:20,310 --> 00:09:18,399
engagement and this is ensuring this

260
00:09:23,269 --> 00:09:20,320
helps ensure that the bureaucracy who is

261
00:09:24,630 --> 00:09:23,279
designed to execute the will of congress

262
00:09:26,470 --> 00:09:24,640
can do so

263
00:09:29,269 --> 00:09:26,480

and they understand what the what those

264

00:09:30,949 --> 00:09:29,279

wants of congress are and then basically

265

00:09:32,790 --> 00:09:30,959

provide deliverables

266

00:09:34,470 --> 00:09:32,800

it also allows for the defense and the

267

00:09:36,870 --> 00:09:34,480

intelligence communities to prioritize

268

00:09:38,630 --> 00:09:36,880

uap data collection now by the way

269

00:09:40,230 --> 00:09:38,640

as you see it's no longer just going to

270

00:09:41,910 --> 00:09:40,240

be defense and intelligence communities

271

00:09:43,910 --> 00:09:41,920

we're beginning to open the aperture but

272

00:09:45,269 --> 00:09:43,920

that's that's where we've been focusing

273

00:09:46,550 --> 00:09:45,279

on for the last three and a half years

274

00:09:48,870 --> 00:09:46,560

and as you see as a result of that you

275

00:09:51,110 --> 00:09:48,880

have a deputy secretary of defense memo

276

00:09:53,910 --> 00:09:51,120

creating a strategic plan literally on

277

00:09:56,550 --> 00:09:53,920

the heels of the 180-day report

278

00:09:59,190 --> 00:09:56,560

but it also enables intra and inter

279

00:10:01,269 --> 00:09:59,200

government efforts to be coordinated so

280

00:10:02,630 --> 00:10:01,279

it's not just across federal agencies

281

00:10:04,470 --> 00:10:02,640

but it's also

282

00:10:06,389 --> 00:10:04,480

up and down and it also includes

283

00:10:08,310 --> 00:10:06,399

organizations not typically maybe

284

00:10:10,389 --> 00:10:08,320

included in the uap conversation like

285

00:10:16,069 --> 00:10:10,399

department of energy like nasa

286

00:10:17,670 --> 00:10:16,079

potentially like faa um so dhs dhs noah

287

00:10:21,350 --> 00:10:17,680

excellent you're right you must have

288

00:10:25,430 --> 00:10:23,990

it also encourages resources and time

289

00:10:27,590 --> 00:10:25,440

investment

290

00:10:31,269 --> 00:10:27,600

uh because now they know that the will

291

00:10:33,509 --> 00:10:31,279

of congress is such and therefore uh you

292

00:10:35,110 --> 00:10:33,519

know the the the executive

293

00:10:36,870 --> 00:10:35,120

department could say okay we're going to

294

00:10:39,110 --> 00:10:36,880

take this seriously it also helps

295

00:10:41,430 --> 00:10:39,120

eliminate stove pipes of previous uap

296

00:10:43,990 --> 00:10:41,440

efforts so for example like the uap task

297

00:10:45,110 --> 00:10:44,000

force an atip my program and even asap

298

00:10:47,269 --> 00:10:45,120

to some degree

299

00:10:49,110 --> 00:10:47,279

uh really suffered from stovepipes you

300

00:10:51,110 --> 00:10:49,120

had this office i was squirrel away

301
00:10:53,190 --> 00:10:51,120
under a directorate that was squirreled

302
00:10:54,949 --> 00:10:53,200
away under an undersecretary that was

303
00:10:57,110 --> 00:10:54,959
squirrel away under a department under

304
00:10:58,389 --> 00:10:57,120
squirrel right and so

305
00:11:00,550 --> 00:10:58,399
none of these organizations really

306
00:11:02,069 --> 00:11:00,560
shared information uh very well with

307
00:11:04,550 --> 00:11:02,079
each other and

308
00:11:06,069 --> 00:11:04,560
there wasn't any senior level oversight

309
00:11:07,750 --> 00:11:06,079
now it says you see this last poll here

310
00:11:08,870 --> 00:11:07,760
ensures proper oversight of uap

311
00:11:11,110 --> 00:11:08,880
activities

312
00:11:12,790 --> 00:11:11,120
now you have the director of national

313
00:11:15,430 --> 00:11:12,800

intelligence and the secretary of

314

00:11:18,470 --> 00:11:15,440

defense directly now involved in on the

315

00:11:20,389 --> 00:11:18,480

line of responsibility for this topic so

316

00:11:22,790 --> 00:11:20,399

executive level engagement is important

317

00:11:24,150 --> 00:11:22,800

the next is international engagement

318

00:11:25,910 --> 00:11:24,160

and this is something near and dear i

319

00:11:28,790 --> 00:11:25,920

think to all of our hearts but this

320

00:11:31,430 --> 00:11:28,800

helps us synchronize us efforts with

321

00:11:33,670 --> 00:11:31,440

other nations japan is an example where

322

00:11:35,509 --> 00:11:33,680

about nine months ago they came out and

323

00:11:36,949 --> 00:11:35,519

they said we'd like to enter into a

324

00:11:38,230 --> 00:11:36,959

bilateral information sharing

325

00:11:40,470 --> 00:11:38,240

relationship with the united states

326

00:11:41,990 --> 00:11:40,480

regarding ufos uap

327

00:11:43,910 --> 00:11:42,000

there's other countries as well but they

328

00:11:45,990 --> 00:11:43,920

haven't won they don't want to go public

329

00:11:47,430 --> 00:11:46,000

yet so you don't see them in this slide

330

00:11:48,630 --> 00:11:47,440

so it also helps establish new

331

00:11:50,870 --> 00:11:48,640

opportunities for intelligence

332

00:11:52,550 --> 00:11:50,880

information sharing of uap data not

333

00:11:55,590 --> 00:11:52,560

necessarily with other countries but

334

00:11:57,430 --> 00:11:55,600

international organizations such as nato

335

00:11:58,949 --> 00:11:57,440

and the united nations our five-i

336

00:12:01,110 --> 00:11:58,959

relationship that we cherish so much

337

00:12:03,110 --> 00:12:01,120

with the uk and australia and

338

00:12:05,110 --> 00:12:03,120

canada and some of these other countries

339

00:12:07,430 --> 00:12:05,120

it also removes individual burdens of a

340

00:12:09,829 --> 00:12:07,440

nation and leverages partnerships to

341

00:12:11,430 --> 00:12:09,839

share the responsibility right so what i

342

00:12:13,110 --> 00:12:11,440

mean by that it's no longer one country

343

00:12:14,790 --> 00:12:13,120

having to pay the bill for all of this

344

00:12:17,030 --> 00:12:14,800

we can all kind of pool our resources

345

00:12:19,190 --> 00:12:17,040

together so norad is an example where

346

00:12:21,269 --> 00:12:19,200

you have a u.s commander but you the

347

00:12:23,269 --> 00:12:21,279

deputy commander is canadian

348

00:12:24,470 --> 00:12:23,279

and so you know when you bring the uap

349

00:12:26,870 --> 00:12:24,480

topic to them

350

00:12:29,590 --> 00:12:26,880

uh now it's really more of an

351

00:12:31,990 --> 00:12:29,600

international approach not just a us or

352

00:12:33,670 --> 00:12:32,000

one country approach but also equally

353

00:12:35,110 --> 00:12:33,680

important it minimizes one nation's

354

00:12:36,790 --> 00:12:35,120

ability to control the narrative we've

355

00:12:38,389 --> 00:12:36,800

seen what happens in the last 70 years

356

00:12:40,310 --> 00:12:38,399

when we allow one country to control the

357

00:12:42,550 --> 00:12:40,320

narrative uh and

358

00:12:44,710 --> 00:12:42,560

in essence not a whole lot gets done so

359

00:12:46,629 --> 00:12:44,720

uh really this is very important when

360

00:12:48,949 --> 00:12:46,639

you have an international uh

361

00:12:50,550 --> 00:12:48,959

conversation then you truly have a a

362

00:12:52,310 --> 00:12:50,560

collective conversation it's not just

363

00:12:54,470 --> 00:12:52,320

one country that's that's managing the

364

00:12:55,829 --> 00:12:54,480

the narrative it also encourages joint

365

00:12:57,430 --> 00:12:55,839

research and development efforts and

366

00:12:59,430 --> 00:12:57,440

increased collaboration which is very

367

00:13:00,790 --> 00:12:59,440

important and helps maintain a common

368

00:13:03,350 --> 00:13:00,800

operating picture that's kind of a

369

00:13:04,949 --> 00:13:03,360

military term if you will uh of of the

370

00:13:06,389 --> 00:13:04,959

situation while minimizing this

371

00:13:08,389 --> 00:13:06,399

understanding of adversarial

372

00:13:10,470 --> 00:13:08,399

provocations now

373

00:13:12,629 --> 00:13:10,480

we know that these uaps have interfered

374

00:13:14,870 --> 00:13:12,639

with u.s nuclear capabilities and also

375

00:13:17,030 --> 00:13:14,880

russian nuclear capabilities what most

376

00:13:19,269 --> 00:13:17,040

people may not know maybe some do is

377

00:13:20,470 --> 00:13:19,279

that we actually have a communication

378

00:13:23,670 --> 00:13:20,480

with russia

379

00:13:25,990 --> 00:13:23,680

over the the northern part of uh of the

380

00:13:28,550 --> 00:13:26,000

uh uh well of our of our globe our

381

00:13:30,790 --> 00:13:28,560

planet and because when you launch

382

00:13:32,150 --> 00:13:30,800

nuclear missiles you're gonna not launch

383

00:13:34,629 --> 00:13:32,160

them the quickest way to get them to

384

00:13:36,949 --> 00:13:34,639

russia and russia to get them to us is

385

00:13:38,710 --> 00:13:36,959

over the north pole and so we have this

386

00:13:40,230 --> 00:13:38,720

agreement that if if one of us happens

387

00:13:41,910 --> 00:13:40,240

to see something unusual over the north

388

00:13:43,670 --> 00:13:41,920

pole we can pick up the phone and call

389

00:13:45,189 --> 00:13:43,680

the other and say you know hey boris is

390

00:13:47,910 --> 00:13:45,199

that you or they can call us and say you

391

00:13:49,829 --> 00:13:47,920

know hey joe is that that you guys or is

392

00:13:51,829 --> 00:13:49,839

this something else now why is that

393

00:13:53,189 --> 00:13:51,839

important because we now know countries

394

00:13:54,629 --> 00:13:53,199

like india and pakistan who aren't

395

00:13:56,550 --> 00:13:54,639

necessarily friendly to each other they

396

00:13:58,310 --> 00:13:56,560

both have nuclear capabilities can you

397

00:14:00,230 --> 00:13:58,320

imagine if a ufo

398

00:14:02,870 --> 00:14:00,240

were to be encountered potentially over

399

00:14:04,230 --> 00:14:02,880

one of their nuclear installations and

400

00:14:06,470 --> 00:14:04,240

it gets confused as some sort of

401
00:14:07,189 --> 00:14:06,480
provocation of war by the other side i

402
00:14:08,230 --> 00:14:07,199
mean

403
00:14:10,710 --> 00:14:08,240
that would be

404
00:14:12,790 --> 00:14:10,720
horrible so so it is important that we

405
00:14:15,110 --> 00:14:12,800
we have this international engagement

406
00:14:17,590 --> 00:14:15,120
yeah pillar four is uh mainstream media

407
00:14:19,910 --> 00:14:17,600
engagement this is why people see me on

408
00:14:21,350 --> 00:14:19,920
mainstream media a lot

409
00:14:23,829 --> 00:14:21,360
and despite what people think where i

410
00:14:25,910 --> 00:14:23,839
only do you know one type of of media

411
00:14:28,870 --> 00:14:25,920
outlet that's not true i've done many

412
00:14:30,150 --> 00:14:28,880
many many outlets on both sides

413
00:14:31,990 --> 00:14:30,160

but why is this important because it

414

00:14:34,069 --> 00:14:32,000

socializes the reality of uap to a much

415

00:14:36,550 --> 00:14:34,079

broader audience

416

00:14:37,990 --> 00:14:36,560

it also helps destigmatize the topic

417

00:14:39,509 --> 00:14:38,000

because now they're they're they're

418

00:14:40,470 --> 00:14:39,519

talking about it and they're reporting

419

00:14:42,310 --> 00:14:40,480

on it

420

00:14:43,990 --> 00:14:42,320

it also further encourages legislative

421

00:14:45,590 --> 00:14:44,000

and executive branch involvement because

422

00:14:47,590 --> 00:14:45,600

when the mainstream media starts asking

423

00:14:49,350 --> 00:14:47,600

them hard questions now they want

424

00:14:51,670 --> 00:14:49,360

answers now they're saying you know what

425

00:14:53,829 --> 00:14:51,680

we i can't answer that question but i'm

426

00:14:54,790 --> 00:14:53,839

going to poke somebody who can and we're

427

00:14:57,509 --> 00:14:54,800

going to get back to you with some

428

00:14:59,750 --> 00:14:57,519

answers it also provides data to massive

429

00:15:01,990 --> 00:14:59,760

information consumer base never before

430

00:15:04,550 --> 00:15:02,000

have we been able to take information

431

00:15:06,470 --> 00:15:04,560

across the planet so quickly in various

432

00:15:08,230 --> 00:15:06,480

different if you will uh media

433

00:15:10,389 --> 00:15:08,240

aggregators like associated press or

434

00:15:11,430 --> 00:15:10,399

mother jones or comcast where you could

435

00:15:13,269 --> 00:15:11,440

do a

436

00:15:14,790 --> 00:15:13,279

uh podcast today and it winds up being

437

00:15:16,949 --> 00:15:14,800

in a written article tomorrow and then

438

00:15:18,150 --> 00:15:16,959

later on in the broadcast the next day

439

00:15:19,990 --> 00:15:18,160

and it could be virtually around the

440

00:15:22,069 --> 00:15:20,000

planet now with that said there's also

441

00:15:23,509 --> 00:15:22,079

some danger with that right because

442

00:15:25,030 --> 00:15:23,519

there's an old saying that a lie will

443

00:15:26,310 --> 00:15:25,040

travel around the world in the time it

444

00:15:28,949 --> 00:15:26,320

takes for the truth to leave the front

445

00:15:31,030 --> 00:15:28,959

door so there's it's important that we

446

00:15:34,069 --> 00:15:31,040

we be aware of that and only provide

447

00:15:35,910 --> 00:15:34,079

valid accurate uh information

448

00:15:38,230 --> 00:15:35,920

it also creates positive pressure for

449

00:15:40,710 --> 00:15:38,240

scientific and academic communities you

450

00:15:43,110 --> 00:15:40,720

now have academia asking folks like dr

451

00:15:44,710 --> 00:15:43,120

avi loeb right hey is this topic

452

00:15:45,990 --> 00:15:44,720

important right this is super super

453

00:15:47,990 --> 00:15:46,000

important it's helpful it gives them an

454

00:15:49,829 --> 00:15:48,000

outlet gives them an ability to have the

455

00:15:51,350 --> 00:15:49,839

conversation it also increases

456

00:15:53,350 --> 00:15:51,360

government transparency as we saw with

457

00:15:54,790 --> 00:15:53,360

the new york times story right for for

458

00:15:57,350 --> 00:15:54,800

years if not decades we've been saying

459

00:15:59,189 --> 00:15:57,360

no no we don't look at ufos oh well

460

00:16:00,470 --> 00:15:59,199

surprise we do actually

461

00:16:03,030 --> 00:16:00,480

and then of course it provides a

462

00:16:04,870 --> 00:16:03,040

platform for new theories um because now

463

00:16:06,310 --> 00:16:04,880

people can talk to the media and new

464

00:16:09,350 --> 00:16:06,320

theories and some of them

465

00:16:11,189 --> 00:16:09,360

um you know may not necessarily follow a

466

00:16:12,870 --> 00:16:11,199

line of logic but they're probably worth

467

00:16:14,310 --> 00:16:12,880

listening to anyways

468

00:16:15,430 --> 00:16:14,320

yeah and then pillar five is public

469

00:16:17,670 --> 00:16:15,440

engagement

470

00:16:19,430 --> 00:16:17,680

the most important in my opinion um

471

00:16:21,590 --> 00:16:19,440

because it enables the public to take

472

00:16:22,870 --> 00:16:21,600

part of the uap conversation they see

473

00:16:24,550 --> 00:16:22,880

something on the nightly news and now

474

00:16:26,629 --> 00:16:24,560

they're talking about talking about it

475

00:16:28,550 --> 00:16:26,639

around the water cooler maybe around the

476

00:16:30,470 --> 00:16:28,560

dinner table at night

477

00:16:32,629 --> 00:16:30,480

this is important this is this is this

478

00:16:35,269 --> 00:16:32,639

is it also allows for endorsement for

479

00:16:36,949 --> 00:16:35,279

the other four pillars if the people say

480

00:16:39,110 --> 00:16:36,959

this is a topic that's important to them

481

00:16:40,949 --> 00:16:39,120

the media will cover it and our

482

00:16:42,470 --> 00:16:40,959

legislative uh

483

00:16:45,670 --> 00:16:42,480

members will will

484

00:16:48,550 --> 00:16:45,680

will will begin to to look at this and

485

00:16:50,949 --> 00:16:48,560

same with our executive branch so public

486

00:16:52,550 --> 00:16:50,959

engagement is is is probably the most

487

00:16:54,310 --> 00:16:52,560

important it also bolsters the ability

488

00:16:56,150 --> 00:16:54,320

to fund and budget uap studies in both

489

00:16:57,350 --> 00:16:56,160

government and the private sector

490

00:16:58,870 --> 00:16:57,360

because now people say you know what

491

00:17:00,550 --> 00:16:58,880

this is important and i'm willing to

492

00:17:02,150 --> 00:17:00,560

actually put some money behind this to

493

00:17:03,189 --> 00:17:02,160

for us to try to figure this out one way

494

00:17:05,029 --> 00:17:03,199

or another

495

00:17:07,189 --> 00:17:05,039

it creates a platform for grassroots

496

00:17:09,110 --> 00:17:07,199

enclaves to exist right now you and i

497

00:17:10,789 --> 00:17:09,120

having this conversation this is amazing

498

00:17:11,750 --> 00:17:10,799

you know this is twitter and social

499

00:17:13,990 --> 00:17:11,760

media

500

00:17:16,230 --> 00:17:14,000

it facilitates a confederated effort and

501
00:17:17,590 --> 00:17:16,240
data crowdsourcing environment now now

502
00:17:19,270 --> 00:17:17,600
we've got people have cell phones in

503
00:17:20,630 --> 00:17:19,280
their hands and youtube is full of

504
00:17:23,350 --> 00:17:20,640
videos that we can all look at and

505
00:17:25,750 --> 00:17:23,360
collaborate and talk about um and then

506
00:17:29,510 --> 00:17:25,760
of course helps create new political

507
00:17:32,310 --> 00:17:29,520
platforms and agendas um disclosure i

508
00:17:34,710 --> 00:17:32,320
think being potentially one of them now

509
00:17:36,870 --> 00:17:34,720
those are the five pillars what have

510
00:17:38,789 --> 00:17:36,880
those what have those five pillars

511
00:17:40,230 --> 00:17:38,799
yielded since 2017. of course a lot of

512
00:17:41,270 --> 00:17:40,240
people say yeah not much has happened

513
00:17:42,549 --> 00:17:41,280

you know in the last three and a half

514

00:17:43,990 --> 00:17:42,559

years well

515

00:17:45,669 --> 00:17:44,000

okay let's go down that rabbit hole for

516

00:17:47,590 --> 00:17:45,679

a minute we have dod admitting the three

517

00:17:49,110 --> 00:17:47,600

videos are real they admit that the

518

00:17:51,029 --> 00:17:49,120

videos depict unidentified aerial

519

00:17:53,190 --> 00:17:51,039

vehicles the department of navy creates

520

00:17:55,350 --> 00:17:53,200

a uap reporting policy and guidelines

521

00:17:57,669 --> 00:17:55,360

and actual reporting guidelines and

522

00:17:59,590 --> 00:17:57,679

policies that get promulgated dod

523

00:18:01,350 --> 00:17:59,600

establishes an official uap task force

524

00:18:03,590 --> 00:18:01,360

under the deputy secretary of defense

525

00:18:05,750 --> 00:18:03,600

directly mainstream media takes notice

526

00:18:07,909 --> 00:18:05,760

and begins to actively report on these

527

00:18:09,990 --> 00:18:07,919

encounters members of congress receive

528

00:18:11,430 --> 00:18:10,000

classified briefings members of congress

529

00:18:13,430 --> 00:18:11,440

have taken lead in advocating for

530

00:18:15,750 --> 00:18:13,440

greater transparency former directors of

531

00:18:18,150 --> 00:18:15,760

national intelligence and cia admit and

532

00:18:19,750 --> 00:18:18,160

are talking about uaps potus receives a

533

00:18:21,350 --> 00:18:19,760

classified briefing

534

00:18:23,350 --> 00:18:21,360

on at least two occasions a president of

535

00:18:24,630 --> 00:18:23,360

the united states president a former

536

00:18:26,549 --> 00:18:24,640

president united states publicly

537

00:18:29,669 --> 00:18:26,559

acknowledges the realities of uaps along

538

00:18:30,950 --> 00:18:29,679

with a two foreign two former presidents

539

00:18:32,630 --> 00:18:30,960

of the united states publicly

540

00:18:34,470 --> 00:18:32,640

acknowledged the reality of uaps

541

00:18:37,029 --> 00:18:34,480

congress mandates 180-day report be

542

00:18:39,590 --> 00:18:37,039

submitted by the dod and dni one of only

543

00:18:42,070 --> 00:18:39,600

144 incidents in that 180-day report

544

00:18:44,630 --> 00:18:42,080

were resolved congress mandates a uap

545

00:18:46,310 --> 00:18:44,640

report every 90 days japan requests a

546

00:18:48,390 --> 00:18:46,320

bilateral information sharing group with

547

00:18:50,150 --> 00:18:48,400

the u.s china introduces the five

548

00:18:51,590 --> 00:18:50,160

continents initiative and one of the

549

00:18:53,590 --> 00:18:51,600

largest ic collaborative virtual

550

00:18:56,950 --> 00:18:53,600

environments is created to analyze uap

551
00:18:58,470 --> 00:18:56,960
data now that's just since 2017. i would

552
00:19:00,230 --> 00:18:58,480
argue that probably more has been done

553
00:19:02,070 --> 00:19:00,240
in the last three and a half years than

554
00:19:03,430 --> 00:19:02,080
in the last three decades

555
00:19:05,669 --> 00:19:03,440
now by the way when i say that i'm not

556
00:19:07,510 --> 00:19:05,679
taking credit for it a lot of people

557
00:19:09,350 --> 00:19:07,520
were part of this okay but that's

558
00:19:11,350 --> 00:19:09,360
yesterday what about today well here's

559
00:19:13,110 --> 00:19:11,360
what's going on today folks senior

560
00:19:15,669 --> 00:19:13,120
academics in the us are involved in the

561
00:19:17,190 --> 00:19:15,679
serious study of uap phenomenon renowned

562
00:19:19,510 --> 00:19:17,200
universities in the u.s are expressing

563
00:19:22,070 --> 00:19:19,520

interest in officially studying uaps

564

00:19:23,510 --> 00:19:22,080

scientific enclaves are being created to

565

00:19:25,830 --> 00:19:23,520

test the physics

566

00:19:27,750 --> 00:19:25,840

scholarship programs focusing on uap

567

00:19:30,070 --> 00:19:27,760

performance are being developed

568

00:19:30,789 --> 00:19:30,080

di well defense intelligence university

569

00:19:35,750 --> 00:19:30,799

at

570

00:19:37,430 --> 00:19:35,760

university are accepting thesis on uaps

571

00:19:39,270 --> 00:19:37,440

that's that's remarkable that you have

572

00:19:41,190 --> 00:19:39,280

actually these are these these academic

573

00:19:43,750 --> 00:19:41,200

institutions in our national security

574

00:19:45,510 --> 00:19:43,760

apparatus now accepting thesis on uaps

575

00:19:47,909 --> 00:19:45,520

data from previous u.s projects are

576
00:19:50,390 --> 00:19:47,919
being consolidated under a single entity

577
00:19:52,630 --> 00:19:50,400
u.s navy is filing patents on potential

578
00:19:54,549 --> 00:19:52,640
uap propulsion technology

579
00:19:57,029 --> 00:19:54,559
dod is developing a strategic plan to

580
00:19:58,950 --> 00:19:57,039
study uaps for years into the future uap

581
00:20:00,950 --> 00:19:58,960
information is being integrated into u.s

582
00:20:02,630 --> 00:20:00,960
intelligence collection cycle certain

583
00:20:04,710 --> 00:20:02,640
allied nations are expressing interest

584
00:20:07,270 --> 00:20:04,720
in working with the u.s government the

585
00:20:09,270 --> 00:20:07,280
dod ig is conducting an evaluation and

586
00:20:11,270 --> 00:20:09,280
several inquiries into dod's handling of

587
00:20:13,190 --> 00:20:11,280
the uap topic certain members of

588
00:20:14,549 --> 00:20:13,200

congress have expressed desire for

589

00:20:16,230 --> 00:20:14,559

public hearings

590

00:20:18,549 --> 00:20:16,240

study of uaps are being included into

591

00:20:19,830 --> 00:20:18,559

annual budget cycles both mip and nip

592

00:20:21,270 --> 00:20:19,840

former senior members of the

593

00:20:22,789 --> 00:20:21,280

intelligence community are assisting

594

00:20:24,070 --> 00:20:22,799

with u.s government efforts involving

595

00:20:25,110 --> 00:20:24,080

uaps

596

00:20:26,630 --> 00:20:25,120

office of director of national

597

00:20:28,789 --> 00:20:26,640

intelligence office of the secretary of

598

00:20:30,549 --> 00:20:28,799

defense navy spacecom norad and other

599

00:20:32,310 --> 00:20:30,559

elements of the ic are actively working

600

00:20:34,149 --> 00:20:32,320

uap issues and

601
00:20:35,270 --> 00:20:34,159
planning for state local and tribal

602
00:20:39,190 --> 00:20:35,280
authorities

603
00:20:41,430 --> 00:20:39,200
to integrate uap data is underway

604
00:20:44,230 --> 00:20:41,440
that is all what's happening right now

605
00:20:45,830 --> 00:20:44,240
behind the scenes as we speak so if it

606
00:20:46,950 --> 00:20:45,840
wasn't enough the last slide to talk

607
00:20:49,270 --> 00:20:46,960
about what's happened in the last three

608
00:20:51,430 --> 00:20:49,280
and a half years here's what's going on

609
00:20:53,430 --> 00:20:51,440
right now

610
00:20:54,950 --> 00:20:53,440
i'm just going to give you a quick uh

611
00:20:56,630 --> 00:20:54,960
i just want to give a quick shout out

612
00:20:58,070 --> 00:20:56,640
witnesses and gave a super sticker

613
00:21:00,149 --> 00:20:58,080

before thank you so much sean i

614

00:21:02,789 --> 00:21:00,159

appreciate it thomas fester thank you so

615

00:21:04,310 --> 00:21:02,799

much for the super sticker um lu sorry

616

00:21:06,310 --> 00:21:04,320

to interrupt you man let's go on to

617

00:21:08,230 --> 00:21:06,320

phase phase two

618

00:21:09,830 --> 00:21:08,240

yeah so that's all you know that's that

619

00:21:11,029 --> 00:21:09,840

and all that is occurring under phase

620

00:21:13,669 --> 00:21:11,039

one

621

00:21:14,950 --> 00:21:13,679

so so we talked about yesterday we

622

00:21:17,270 --> 00:21:14,960

talked a little bit about today but what

623

00:21:18,789 --> 00:21:17,280

about tomorrow right so

624

00:21:20,470 --> 00:21:18,799

fa you're now going to get information

625

00:21:22,549 --> 00:21:20,480

that has not really been publicly shared

626

00:21:25,029 --> 00:21:22,559

very at all really it's only been in one

627

00:21:26,710 --> 00:21:25,039

other public venue that i'm aware of

628

00:21:28,310 --> 00:21:26,720

but this is what we want to do create a

629

00:21:29,750 --> 00:21:28,320

multi-disciplined environment what does

630

00:21:31,750 --> 00:21:29,760

that mean what does that look like well

631

00:21:33,590 --> 00:21:31,760

it looks something like this

632

00:21:35,669 --> 00:21:33,600

think of a a national or a federal

633

00:21:37,830 --> 00:21:35,679

laboratory and what you now have are

634

00:21:40,310 --> 00:21:37,840

each one of these bubbles surrounding it

635

00:21:42,310 --> 00:21:40,320

are are contributing members to this

636

00:21:44,070 --> 00:21:42,320

federal lab construct where you have the

637

00:21:45,510 --> 00:21:44,080

international community right and

638

00:21:46,870 --> 00:21:45,520

countries part of that by the way each

639

00:21:48,630 --> 00:21:46,880

one of these little bullets are just

640

00:21:49,990 --> 00:21:48,640

sub-examples there's many many many many

641

00:21:51,990 --> 00:21:50,000

examples each one of these little

642

00:21:53,990 --> 00:21:52,000

bubbles could be a whole briefing on its

643

00:21:55,350 --> 00:21:54,000

own you have the academic community you

644

00:21:56,950 --> 00:21:55,360

have the scientific community and

645

00:21:58,390 --> 00:21:56,960

technology community you have the yes

646

00:22:00,149 --> 00:21:58,400

even the private sector

647

00:22:02,310 --> 00:22:00,159

intelligence community defense community

648

00:22:05,590 --> 00:22:02,320

and even the interagencies all working

649

00:22:09,029 --> 00:22:05,600

together to try to to understand this

650

00:22:10,630 --> 00:22:09,039

phenomenon with their respective um

651
00:22:12,470 --> 00:22:10,640
expertise so

652
00:22:14,390 --> 00:22:12,480
let's take for example when someone asks

653
00:22:16,710 --> 00:22:14,400
well what can the technology community

654
00:22:19,510 --> 00:22:16,720
provide us well let's take one sub-tiny

655
00:22:22,310 --> 00:22:19,520
bullet within the technology community

656
00:22:24,310 --> 00:22:22,320
let's talk about artificial intelligence

657
00:22:26,310 --> 00:22:24,320
so here's some basic bullets we know the

658
00:22:28,230 --> 00:22:26,320
technology exists today to analyze uap

659
00:22:30,630 --> 00:22:28,240
data almost instantaneously and it's

660
00:22:32,710 --> 00:22:30,640
anywhere in the world this technology is

661
00:22:34,549 --> 00:22:32,720
relatively low cost now relativity is

662
00:22:36,310 --> 00:22:34,559
important i'll explain that in a minute

663
00:22:38,070 --> 00:22:36,320

this technology continues to improve

664

00:22:40,149 --> 00:22:38,080

over time and this technology offers

665

00:22:41,590 --> 00:22:40,159

innumerable advantages over to human

666

00:22:43,909 --> 00:22:41,600

counterpart

667

00:22:46,950 --> 00:22:43,919

so now what i'm about to present to you

668

00:22:48,630 --> 00:22:46,960

is a test case okay this is an example

669

00:22:51,029 --> 00:22:48,640

of how a.i

670

00:22:52,870 --> 00:22:51,039

can be helpful to our discussion yes we

671

00:22:54,789 --> 00:22:52,880

are currently working on this it's been

672

00:22:57,430 --> 00:22:54,799

a lot of work it's not ready for prime

673

00:23:00,230 --> 00:22:57,440

time so i'm going to run through you an

674

00:23:02,149 --> 00:23:00,240

example with using a real real

675

00:23:03,190 --> 00:23:02,159

real video so this summer we've been

676
00:23:05,110 --> 00:23:03,200
waiting for

677
00:23:06,549 --> 00:23:05,120
yeah this summer we got a video and by

678
00:23:08,310 --> 00:23:06,559
the way this is important to test the

679
00:23:10,870 --> 00:23:08,320
veracity and credibility of information

680
00:23:11,830 --> 00:23:10,880
just as as it is important to test to

681
00:23:14,070 --> 00:23:11,840
see if

682
00:23:15,990 --> 00:23:14,080
if a ufo video or picture is real it's

683
00:23:17,190 --> 00:23:16,000
also important to be able to disprove it

684
00:23:18,230 --> 00:23:17,200
because when you're going to elected

685
00:23:19,990 --> 00:23:18,240
officials

686
00:23:23,590 --> 00:23:20,000
you have to be able to tell them with

687
00:23:26,149 --> 00:23:23,600
confidence 99.9 confidence that this is

688
00:23:29,110 --> 00:23:26,159

legit or it's not so we get a video from

689

00:23:31,990 --> 00:23:29,120

a uh military officer in uh i won't say

690

00:23:34,470 --> 00:23:32,000

exactly where in california and he says

691

00:23:35,990 --> 00:23:34,480

look i i saw a black ufo hovering in the

692

00:23:38,149 --> 00:23:36,000

distance

693

00:23:40,230 --> 00:23:38,159

he took a video uh using regular

694

00:23:43,190 --> 00:23:40,240

resolution on a commercially available

695

00:23:44,310 --> 00:23:43,200

cellular telephone uh he is a us army

696

00:23:45,510 --> 00:23:44,320

officer

697

00:23:47,190 --> 00:23:45,520

and i'm going to play it for you real

698

00:23:48,789 --> 00:23:47,200

quick now when you see it it's going to

699

00:23:50,630 --> 00:23:48,799

be very grainy and you're not going to

700

00:23:52,149 --> 00:23:50,640

see very much

701

00:23:53,830 --> 00:23:52,159

um and

702

00:23:55,269 --> 00:23:53,840

the video itself is actually a little

703

00:23:56,870 --> 00:23:55,279

better quality you had to compress it to

704

00:23:58,470 --> 00:23:56,880

get it on here but that little black

705

00:23:59,750 --> 00:23:58,480

disk back you're looking to say well

706

00:24:01,430 --> 00:23:59,760

that doesn't really look like much of

707

00:24:03,190 --> 00:24:01,440

anything you know even though that the

708

00:24:04,950 --> 00:24:03,200

guy splurged he saw a black disc

709

00:24:06,549 --> 00:24:04,960

hovering in the background

710

00:24:08,549 --> 00:24:06,559

um so

711

00:24:10,310 --> 00:24:08,559

why is that important well because then

712

00:24:11,269 --> 00:24:10,320

what we can do is let me show you the

713

00:24:12,470 --> 00:24:11,279

still

714

00:24:15,269 --> 00:24:12,480

whoa

715

00:24:17,350 --> 00:24:15,279

right this that that people said wait a

716

00:24:19,510 --> 00:24:17,360

minute that looks like a black hovering

717

00:24:21,510 --> 00:24:19,520

disc in the desert you're not you're not

718

00:24:23,990 --> 00:24:21,520

lying holy crap

719

00:24:25,990 --> 00:24:24,000

so let's see what ai can do for us so

720

00:24:27,590 --> 00:24:26,000

you have the ai first look at the

721

00:24:30,310 --> 00:24:27,600

background

722

00:24:32,070 --> 00:24:30,320

and the ai immediately identifies three

723

00:24:34,470 --> 00:24:32,080

environmental anomalies not consistent

724

00:24:36,710 --> 00:24:34,480

with a background right so it looks at

725

00:24:39,029 --> 00:24:36,720

these objects and says this is not

726
00:24:41,110 --> 00:24:39,039
consistent with the background however

727
00:24:43,110 --> 00:24:41,120
the image is legitimate the background

728
00:24:44,789 --> 00:24:43,120
has not been manipulated and is

729
00:24:47,510 --> 00:24:44,799
comparing and contrasting color shape

730
00:24:49,590 --> 00:24:47,520
and pixelation okay

731
00:24:51,909 --> 00:24:49,600
and then we ask the ai okay what about

732
00:24:53,510 --> 00:24:51,919
the object itself

733
00:24:55,430 --> 00:24:53,520
now the human eye can't see it but it

734
00:24:57,510 --> 00:24:55,440
identifies minor pixelation anomalies

735
00:25:00,149 --> 00:24:57,520
that are analyzed to be protrusions some

736
00:25:02,870 --> 00:25:00,159
sort of weird thing coming off the side

737
00:25:04,549 --> 00:25:02,880
of this this black disk right

738
00:25:05,909 --> 00:25:04,559

it also determines that the image is

739

00:25:07,909 --> 00:25:05,919

legitimate and it has not been

740

00:25:09,190 --> 00:25:07,919

manipulated and it is not an artifact

741

00:25:11,669 --> 00:25:09,200

it's a genuine

742

00:25:13,830 --> 00:25:11,679

object on screen

743

00:25:16,470 --> 00:25:13,840

so then you ask okay so regarding the

744

00:25:18,870 --> 00:25:16,480

background what can you tell us well

745

00:25:20,470 --> 00:25:18,880

okay so the artificial intelligence

746

00:25:22,310 --> 00:25:20,480

comes up and says look there's a 94

747

00:25:24,870 --> 00:25:22,320

percent likelihood that that is the tail

748

00:25:27,909 --> 00:25:24,880

of a c-17 aircraft that you're seeing in

749

00:25:30,710 --> 00:25:27,919

the middle uh 85 certainty that that is

750

00:25:32,390 --> 00:25:30,720

an f-35 lightning that you're looking at

751

00:25:33,750 --> 00:25:32,400

and of course they're to the far right

752

00:25:35,269 --> 00:25:33,760

are it looks like the tail of two

753

00:25:37,029 --> 00:25:35,279

aircraft but it doesn't really know what

754

00:25:39,110 --> 00:25:37,039

it is now these pictures are stock

755

00:25:40,950 --> 00:25:39,120

pictures um you know ultimately what

756

00:25:43,830 --> 00:25:40,960

will happen is we'll have the rights to

757

00:25:45,350 --> 00:25:43,840

actually have you know real schematic

758

00:25:47,430 --> 00:25:45,360

hopefully government schematic diagrams

759

00:25:49,190 --> 00:25:47,440

of aircraft that will be able to compare

760

00:25:51,750 --> 00:25:49,200

contrast um

761

00:25:53,510 --> 00:25:51,760

and then when you look at the uh the the

762

00:25:56,390 --> 00:25:53,520

mechanism in the middle here this this

763

00:25:57,830 --> 00:25:56,400

this if you will this this disc it says

764

00:26:01,029 --> 00:25:57,840

there is something for sure coming off

765

00:26:02,789 --> 00:26:01,039

the the the edges of this

766

00:26:04,630 --> 00:26:02,799

of this disc

767

00:26:06,470 --> 00:26:04,640

so then you ask the

768

00:26:08,230 --> 00:26:06,480

ai okay so in your best guess what are

769

00:26:10,390 --> 00:26:08,240

we looking at

770

00:26:14,070 --> 00:26:10,400

what it appears to be a black disc is in

771

00:26:16,070 --> 00:26:14,080

fact an olive dark olive green us army

772

00:26:18,230 --> 00:26:16,080

field tent observation tent and the

773

00:26:21,110 --> 00:26:18,240

protrusions coming off the side are

774

00:26:23,909 --> 00:26:21,120

guide wires and what this is more than

775

00:26:25,590 --> 00:26:23,919

likely is a us army tent that has been

776
00:26:27,909 --> 00:26:25,600
set up as observation

777
00:26:29,190 --> 00:26:27,919
along an airfield to do flight

778
00:26:30,310 --> 00:26:29,200
operations

779
00:26:33,510 --> 00:26:30,320
and so

780
00:26:35,430 --> 00:26:33,520
that is why it is so important that we

781
00:26:37,590 --> 00:26:35,440
invest in these type of capabilities

782
00:26:40,230 --> 00:26:37,600
because not only will it allow us to

783
00:26:42,870 --> 00:26:40,240
identify when a ufo is real but it will

784
00:26:44,870 --> 00:26:42,880
also help us identify when it's not it's

785
00:26:47,029 --> 00:26:44,880
equally important that we can do both

786
00:26:49,510 --> 00:26:47,039
fair and objectively

787
00:26:50,950 --> 00:26:49,520
now limitations of ai

788
00:26:52,390 --> 00:26:50,960

you see here to the left near instant

789

00:26:54,230 --> 00:26:52,400

analysis of massive volume of

790

00:26:57,029 --> 00:26:54,240

information obviously more accurate than

791

00:26:59,750 --> 00:26:57,039

human counterparts it doesn't succumb to

792

00:27:01,269 --> 00:26:59,760

human fatigue operates 24 hours a day

793

00:27:03,029 --> 00:27:01,279

seven days a week operate all

794

00:27:04,789 --> 00:27:03,039

classification levels and the more data

795

00:27:08,149 --> 00:27:04,799

the more accurate it becomes and is bias

796

00:27:11,029 --> 00:27:08,159

neutral but like we all know there are

797

00:27:12,870 --> 00:27:11,039

limitations so all ai must be trained

798

00:27:14,630 --> 00:27:12,880

there is a massive upfront time

799

00:27:16,710 --> 00:27:14,640

investment to train it there's also an

800

00:27:17,909 --> 00:27:16,720

initial investment to to build it is

801
00:27:19,830 --> 00:27:17,919
expensive

802
00:27:22,470 --> 00:27:19,840
it requires human oversight and not all

803
00:27:24,870 --> 00:27:22,480
ai cr is created equal right and bad

804
00:27:27,590 --> 00:27:24,880
data can perpetuate poor results so if i

805
00:27:29,590 --> 00:27:27,600
teach the ai to identify

806
00:27:32,230 --> 00:27:29,600
a tent as a disk then it will always

807
00:27:34,470 --> 00:27:32,240
identify a tent as a disk and last but

808
00:27:35,269 --> 00:27:34,480
not least it lacks human discernment

809
00:27:37,029 --> 00:27:35,279
so

810
00:27:38,789 --> 00:27:37,039
towards the end here i ask everybody the

811
00:27:40,230 --> 00:27:38,799
same question you know the question your

812
00:27:41,590 --> 00:27:40,240
kid always wants to know in the back of

813
00:27:43,029 --> 00:27:41,600

the car when you're going on a trip are

814

00:27:45,029 --> 00:27:43,039

we there yet

815

00:27:46,950 --> 00:27:45,039

are we there we do we have disclosure

816

00:27:49,110 --> 00:27:46,960

and the answer is

817

00:27:51,669 --> 00:27:49,120

i don't know i'll leave that to you so

818

00:27:53,990 --> 00:27:51,679

with that said let me go back here

819

00:27:55,510 --> 00:27:54,000

and come back to you guys i think it's

820

00:27:56,630 --> 00:27:55,520

here right and let me stop sharing my

821

00:27:59,830 --> 00:27:56,640

screen

822

00:28:01,990 --> 00:27:59,840

all right so um that is a presentation

823

00:28:04,470 --> 00:28:02,000

that kind of shows a little bit about

824

00:28:06,789 --> 00:28:04,480

the methodology that we've been using um

825

00:28:08,470 --> 00:28:06,799

a little bit of a method to our madness

826

00:28:11,510 --> 00:28:08,480

the points touch points that we have

827

00:28:13,430 --> 00:28:11,520

been focusing on and also the artificial

828

00:28:15,669 --> 00:28:13,440

intelligence why it's important

829

00:28:18,470 --> 00:28:15,679

because it is equally important to prove

830

00:28:21,029 --> 00:28:18,480

and disprove we have to be objective the

831

00:28:22,149 --> 00:28:21,039

moment you see that black disc people go

832

00:28:25,190 --> 00:28:22,159

whoa

833

00:28:26,870 --> 00:28:25,200

that's incredible and then you say well

834

00:28:28,950 --> 00:28:26,880

yeah but that's because we want to see

835

00:28:30,389 --> 00:28:28,960

it we want to see a disc right we

836

00:28:32,870 --> 00:28:30,399

we're sit we're looking at something and

837

00:28:34,389 --> 00:28:32,880

we're seeing what we what we want to see

838

00:28:35,510 --> 00:28:34,399

and although it's very tempting we

839

00:28:37,430 --> 00:28:35,520

really really

840

00:28:39,269 --> 00:28:37,440

have to be careful to avoid that

841

00:28:40,870 --> 00:28:39,279

temptation um especially if we're going

842

00:28:42,950 --> 00:28:40,880

to be continued to be taken seriously we

843

00:28:45,750 --> 00:28:42,960

have to be our own worst critics if that

844

00:28:47,350 --> 00:28:45,760

makes sense uh absolutely you know i

845

00:28:49,669 --> 00:28:47,360

think that's the only reason why we have

846

00:28:52,710 --> 00:28:49,679

gotten collectively altogether all of us

847

00:28:54,230 --> 00:28:52,720

as far as we have um at least at least

848

00:28:56,070 --> 00:28:54,240

at least so far

849

00:28:57,110 --> 00:28:56,080

i'll tell you right now that black disc

850

00:28:58,389 --> 00:28:57,120

got me

851
00:29:00,950 --> 00:28:58,399
initially

852
00:29:01,690 --> 00:29:00,960
we got all of them

853
00:29:04,149 --> 00:29:01,700
really excited too

854
00:29:06,230 --> 00:29:04,159
[Laughter]

855
00:29:09,110 --> 00:29:06,240
another shout out sean witnesses in new

856
00:29:11,029 --> 00:29:09,120
york uap another 299 super ticket

857
00:29:12,310 --> 00:29:11,039
brother thank you so much man you don't

858
00:29:14,549 --> 00:29:12,320
have to do that you know i love you

859
00:29:15,350 --> 00:29:14,559
anyway man thank you so much

860
00:29:17,590 --> 00:29:15,360
um

861
00:29:19,350 --> 00:29:17,600
lou if it's okay with you i've got a few

862
00:29:21,909 --> 00:29:19,360
questions lined up are you yeah it's

863
00:29:24,310 --> 00:29:21,919

five thirty right now my time local time

864

00:29:25,909 --> 00:29:24,320

i've got about uh i can probably do ten

865

00:29:27,830 --> 00:29:25,919

minutes and then i've got to jam

866

00:29:30,870 --> 00:29:27,840

unfortunately it's my

867

00:29:32,630 --> 00:29:30,880

my schedule is not mine um i am actually

868

00:29:34,389 --> 00:29:32,640

really really working for believe it or

869

00:29:36,149 --> 00:29:34,399

not completely understand so i'm going

870

00:29:38,149 --> 00:29:36,159

to skip those first few sorry to

871

00:29:39,990 --> 00:29:38,159

everybody i'm i'm going to jump into

872

00:29:42,310 --> 00:29:40,000

what everybody is probably wanting to

873

00:29:45,029 --> 00:29:42,320

talk about which is james uh lakotsky's

874

00:29:46,389 --> 00:29:45,039

book that came out yesterday um

875

00:29:48,310 --> 00:29:46,399

can you talk about your interactions

876
00:29:49,830 --> 00:29:48,320
with james lickowski james is an amazing

877
00:29:52,870 --> 00:29:49,840
human being he is the guy that i could

878
00:29:54,389 --> 00:29:52,880
never mention um because i i i had a

879
00:29:56,789 --> 00:29:54,399
professional uh

880
00:29:58,389 --> 00:29:56,799
respect for him and a personal respect

881
00:29:59,909 --> 00:29:58,399
that i would never revealed his his

882
00:30:01,990 --> 00:29:59,919
identity until he was ready to reveal

883
00:30:04,710 --> 00:30:02,000
his identity and i kept that secret

884
00:30:06,310 --> 00:30:04,720
until he came out with his book

885
00:30:07,669 --> 00:30:06,320
he's an incredible human being by far

886
00:30:09,990 --> 00:30:07,679
one of the greatest rocket scientists

887
00:30:11,990 --> 00:30:10,000
we've ever had and i'm glad he's finally

888
00:30:13,669 --> 00:30:12,000

being vindicated

889

00:30:15,750 --> 00:30:13,679

yeah now the thing is with the book as

890

00:30:18,950 --> 00:30:15,760

well that it doesn't contain top secret

891

00:30:20,630 --> 00:30:18,960

sci information yet it seems to um

892

00:30:22,630 --> 00:30:20,640

portray a lot of information that we

893

00:30:24,710 --> 00:30:22,640

don't know already

894

00:30:27,430 --> 00:30:24,720

how is that hidden somewhere but it's

895

00:30:28,789 --> 00:30:27,440

declassified where's that

896

00:30:30,149 --> 00:30:28,799

he went through a review process he had

897

00:30:32,149 --> 00:30:30,159

to go through uh from my understanding a

898

00:30:35,269 --> 00:30:32,159

very lengthy review process about 14

899

00:30:36,710 --> 00:30:35,279

months through the pentagon um i i

900

00:30:39,350 --> 00:30:36,720

imagine they probably weren't very happy

901
00:30:41,029 --> 00:30:39,360
initially with with him releasing it um

902
00:30:42,870 --> 00:30:41,039
but you know i can't really comment on

903
00:30:45,190 --> 00:30:42,880
the book because it's not my book he

904
00:30:46,710 --> 00:30:45,200
that book was written uh if you have

905
00:30:48,870 --> 00:30:46,720
specific questions about the book my

906
00:30:51,430 --> 00:30:48,880
recommendation would be to approach him

907
00:30:53,269 --> 00:30:51,440
but he he's an incredible human being

908
00:30:55,269 --> 00:30:53,279
now i understand completely let's just

909
00:30:57,430 --> 00:30:55,279
jump back to the ai

910
00:31:00,630 --> 00:30:57,440
software quickly

911
00:31:03,509 --> 00:31:00,640
with the new um avenue the the direction

912
00:31:05,509 --> 00:31:03,519
is going in with the ai and the data and

913
00:31:07,990 --> 00:31:05,519

everything that may come out of it

914

00:31:10,710 --> 00:31:08,000

are we likely to see

915

00:31:13,110 --> 00:31:10,720

a development in the observables let's

916

00:31:15,350 --> 00:31:13,120

say as far as we have

917

00:31:18,710 --> 00:31:15,360

six

918

00:31:20,950 --> 00:31:18,720

could we see that

919

00:31:23,029 --> 00:31:20,960

number jump i sure hope so

920

00:31:24,950 --> 00:31:23,039

yeah i mean that's that's that's that's

921

00:31:26,789 --> 00:31:24,960

the intent right is to to open the

922

00:31:28,710 --> 00:31:26,799

aperture my hope is that we do find

923

00:31:30,310 --> 00:31:28,720

other observables i suspect we probably

924

00:31:33,350 --> 00:31:30,320

will but you don't know what you don't

925

00:31:35,029 --> 00:31:33,360

know right so you know this is this is

926
00:31:36,149 --> 00:31:35,039
part of that i'm sure some really smart

927
00:31:37,590 --> 00:31:36,159
savvy people are going to get a hole

928
00:31:38,710 --> 00:31:37,600
when they start this ai finally gets

929
00:31:40,149 --> 00:31:38,720
fielded they're going to be like they're

930
00:31:41,190 --> 00:31:40,159
going to find all sorts of creative ways

931
00:31:43,190 --> 00:31:41,200
to use it that we never would have

932
00:31:44,549 --> 00:31:43,200
imagined we're going to say holy smokes

933
00:31:47,110 --> 00:31:44,559
yeah

934
00:31:49,750 --> 00:31:47,120
no that's great thank you um and we saw

935
00:31:51,110 --> 00:31:49,760
the interview on um mystery wire with

936
00:31:52,149 --> 00:31:51,120
tom kelleher

937
00:31:54,310 --> 00:31:52,159
and and

938
00:31:55,669 --> 00:31:54,320

another good man colin is is an

939

00:31:58,310 --> 00:31:55,679

incredible human being as well he's done

940

00:32:00,950 --> 00:31:58,320

a lot for for this country we owe him a

941

00:32:03,509 --> 00:32:00,960

great deal of gratitude for sure

942

00:32:05,430 --> 00:32:03,519

absolutely i completely agree i've been

943

00:32:07,269 --> 00:32:05,440

following his work for quite some years

944

00:32:09,230 --> 00:32:07,279

but um he actually talked about a case

945

00:32:10,310 --> 00:32:09,240

which involves some um

946

00:32:11,430 --> 00:32:10,320

[Music]

947

00:32:13,350 --> 00:32:11,440

a public

948

00:32:15,190 --> 00:32:13,360

encounter with a father and daughter

949

00:32:16,149 --> 00:32:15,200

with three orbs that actually entered a

950

00:32:17,830 --> 00:32:16,159

vehicle

951
00:32:19,590 --> 00:32:17,840
um passed through

952
00:32:21,110 --> 00:32:19,600
the father's shoulder we're talking

953
00:32:22,870 --> 00:32:21,120
about three orbs of

954
00:32:24,870 --> 00:32:22,880
baseball size is that something that you

955
00:32:26,230 --> 00:32:24,880
encountered through your studies in atip

956
00:32:27,830 --> 00:32:26,240
that you can correlate to what was

957
00:32:29,110 --> 00:32:27,840
studied in or

958
00:32:31,029 --> 00:32:29,120
you know i'm not gonna i'm not gonna

959
00:32:32,230 --> 00:32:31,039
talk about asap um i've refrained from

960
00:32:34,310 --> 00:32:32,240
that uh

961
00:32:36,630 --> 00:32:34,320
since the beginning it's it's it's not

962
00:32:38,630 --> 00:32:36,640
my place uh i i can't speak from a

963
00:32:41,990 --> 00:32:38,640

position of authority

964

00:32:43,909 --> 00:32:42,000

um or expertise in asap i've made that

965

00:32:46,230 --> 00:32:43,919

very clear since day one

966

00:32:48,389 --> 00:32:46,240

i know people are curious

967

00:32:50,789 --> 00:32:48,399

um i'm curious but

968

00:32:51,909 --> 00:32:50,799

but it's not my area of expertise and it

969

00:32:54,630 --> 00:32:51,919

would be

970

00:32:57,269 --> 00:32:54,640

it wouldn't be wise for me to comment

971

00:33:00,070 --> 00:32:57,279

on on that that aspect

972

00:33:01,990 --> 00:33:00,080

i understand completely um

973

00:33:04,470 --> 00:33:02,000

one thing that has come up is one little

974

00:33:06,789 --> 00:33:04,480

small sentence about remote viewing and

975

00:33:08,630 --> 00:33:06,799

i'm not gonna actually ask you to

976
00:33:09,990 --> 00:33:08,640
comment on this statement but this is

977
00:33:11,509 --> 00:33:10,000
something i've asked you about in the

978
00:33:13,430 --> 00:33:11,519
past that you

979
00:33:17,190 --> 00:33:13,440
didn't want to extrapolate on and this

980
00:33:20,950 --> 00:33:18,870
i'm not going to go there

981
00:33:22,789 --> 00:33:20,960
lou i think

982
00:33:24,389 --> 00:33:22,799
you know this i'm writing saying this

983
00:33:26,310 --> 00:33:24,399
that it's not part of the discussion

984
00:33:28,630 --> 00:33:26,320
that we need to be having right now

985
00:33:30,549 --> 00:33:28,640
um well it's it's it's first of all it's

986
00:33:32,870 --> 00:33:30,559
it's

987
00:33:33,590 --> 00:33:32,880
book

988
00:33:35,350 --> 00:33:33,600

yeah

989

00:33:36,710 --> 00:33:35,360

and if if somebody wants to ask

990

00:33:38,070 --> 00:33:36,720

questions about it they need to ask that

991

00:33:39,350 --> 00:33:38,080

person

992

00:33:42,470 --> 00:33:39,360

you know i've done a lot of things for

993

00:33:44,389 --> 00:33:42,480

my country this most of my my my

994

00:33:46,389 --> 00:33:44,399

background in my professional

995

00:33:49,350 --> 00:33:46,399

uh experience

996

00:33:50,870 --> 00:33:49,360

is is has not been open to the public

997

00:33:52,630 --> 00:33:50,880

the only part of my career that's ever

998

00:33:54,310 --> 00:33:52,640

been opened to public is really my part

999

00:33:57,430 --> 00:33:54,320

concerning uaps

1000

00:33:58,470 --> 00:33:57,440

um and there's a reason for that um

1001
00:33:59,669 --> 00:33:58,480
you know i

1002
00:34:02,070 --> 00:33:59,679
i'm not gonna

1003
00:34:04,149 --> 00:34:02,080
confirm or deny or or elaborate one way

1004
00:34:06,710 --> 00:34:04,159
or the other what some of my other

1005
00:34:07,509 --> 00:34:06,720
duties responsibilities are or were or

1006
00:34:10,550 --> 00:34:07,519
or

1007
00:34:12,310 --> 00:34:10,560
that's i'm not sure it's relevant to the

1008
00:34:15,030 --> 00:34:12,320
conversation to be honest with you we've

1009
00:34:16,389 --> 00:34:15,040
been i think very successful focusing on

1010
00:34:17,510 --> 00:34:16,399
on the uap

1011
00:34:20,389 --> 00:34:17,520
um

1012
00:34:22,470 --> 00:34:20,399
effort and i think we need to at least

1013
00:34:24,230 --> 00:34:22,480

from my perspective that's where that's

1014

00:34:26,629 --> 00:34:24,240

where i need to remain focused

1015

00:34:28,230 --> 00:34:26,639

i completely understand this is an uh

1016

00:34:30,710 --> 00:34:28,240

this conversation has been planned for a

1017

00:34:32,149 --> 00:34:30,720

few weeks with the drop of the book

1018

00:34:35,510 --> 00:34:32,159

yesterday my

1019

00:34:37,510 --> 00:34:35,520

inbox exploded with

1020

00:34:38,629 --> 00:34:37,520

remote viewing this remote viewing that

1021

00:34:40,389 --> 00:34:38,639

and you know

1022

00:34:42,389 --> 00:34:40,399

we touched upon this a while back and i

1023

00:34:43,990 --> 00:34:42,399

understand you're positioned

1024

00:34:45,270 --> 00:34:44,000

um so i just wanted to put this out

1025

00:34:47,430 --> 00:34:45,280

there for everyone that i'm not going to

1026

00:34:49,109 --> 00:34:47,440

push that narrative um

1027

00:34:51,270 --> 00:34:49,119

let's let's finish off on a question

1028

00:34:53,510 --> 00:34:51,280

that i really have got

1029

00:34:54,710 --> 00:34:53,520

for months and months and months

1030

00:34:55,750 --> 00:34:54,720

what

1031

00:34:58,790 --> 00:34:55,760

books

1032

00:35:00,950 --> 00:34:58,800

relating to ufos would you recommend

1033

00:35:02,870 --> 00:35:00,960

anything no don't ask me that you know i

1034

00:35:05,349 --> 00:35:02,880

hate doing that i don't want to endorse

1035

00:35:07,510 --> 00:35:05,359

a product i don't want to is this high

1036

00:35:09,670 --> 00:35:07,520

mistake once before apparently those

1037

00:35:11,910 --> 00:35:09,680

books that what i recommended went on

1038

00:35:13,349 --> 00:35:11,920

amazon became like it was like a six

1039

00:35:15,190 --> 00:35:13,359

dollar book and one of going for like

1040

00:35:17,270 --> 00:35:15,200

500

1041

00:35:19,030 --> 00:35:17,280

for a book and i'm like oh my god you

1042

00:35:20,470 --> 00:35:19,040

know i i didn't mean to do that i just

1043

00:35:22,230 --> 00:35:20,480

people asked me a question i gave him an

1044

00:35:23,990 --> 00:35:22,240

honest answer and all of a sudden you

1045

00:35:26,630 --> 00:35:24,000

know now people are like that book's

1046

00:35:27,990 --> 00:35:26,640

like 500 bucks i'm like oh god no well i

1047

00:35:29,829 --> 00:35:28,000

hope this doesn't affect the price but

1048

00:35:33,030 --> 00:35:29,839

i'll i'll recommend graeme rendell's

1049

00:35:35,190 --> 00:35:33,040

book on the foo fight it's 1940 to 1945.

1050

00:35:38,470 --> 00:35:35,200

i will say i have a copy of it and i

1051

00:35:42,150 --> 00:35:38,480

will say that that i am i am uh i am

1052

00:35:44,550 --> 00:35:42,160

it is uh incredible it i am um

1053

00:35:47,190 --> 00:35:44,560

i am reading it uh but i have to be

1054

00:35:49,510 --> 00:35:47,200

really careful of any endorsing anything

1055

00:35:51,510 --> 00:35:49,520

man you know i didn't i understand with

1056

00:35:53,430 --> 00:35:51,520

of course our our friend in in uh

1057

00:35:54,550 --> 00:35:53,440

australia as well because i really like

1058

00:35:55,510 --> 00:35:54,560

oh yeah

1059

00:35:57,349 --> 00:35:55,520

you know

1060

00:35:59,270 --> 00:35:57,359

man i got beat up so bad for doing that

1061

00:36:00,630 --> 00:35:59,280

people say yeah oh yeah because they

1062

00:36:01,510 --> 00:36:00,640

think i was getting a kickback right and

1063

00:36:03,910 --> 00:36:01,520

i'm like

1064

00:36:05,750 --> 00:36:03,920

no i'm not getting paid

1065

00:36:06,950 --> 00:36:05,760

you know for for some reason everybody

1066

00:36:09,270 --> 00:36:06,960

happens to think something it's always

1067

00:36:11,670 --> 00:36:09,280

about money i'm like well you know

1068

00:36:12,870 --> 00:36:11,680

it's not i think i saw once um recently

1069

00:36:14,390 --> 00:36:12,880

on social media i was making all sorts

1070

00:36:16,310 --> 00:36:14,400

of money with the history channel i'm

1071

00:36:19,190 --> 00:36:16,320

like dude i mean enough with two years

1072

00:36:20,150 --> 00:36:19,200

worth of work to buy a fancy lawnmower

1073

00:36:22,630 --> 00:36:20,160

so

1074

00:36:24,390 --> 00:36:22,640

get over it you know i i made

1075

00:36:26,550 --> 00:36:24,400

substantially less than minimum wage in

1076

00:36:28,150 --> 00:36:26,560

fact it probably if i wanted to i

1077

00:36:30,390 --> 00:36:28,160

could probably have a lawsuit for like

1078

00:36:33,109 --> 00:36:30,400

slave labor because i put two years of

1079

00:36:35,109 --> 00:36:33,119

my life into something and got paid

1080

00:36:36,470 --> 00:36:35,119

peanuts literally i mean and i had to

1081

00:36:37,910 --> 00:36:36,480

take time off for work to do it so i

1082

00:36:39,109 --> 00:36:37,920

actually lost

1083

00:36:41,030 --> 00:36:39,119

money

1084

00:36:42,950 --> 00:36:41,040

doing something that was part of the the

1085

00:36:43,670 --> 00:36:42,960

five pillars there right so that was the

1086

00:36:46,470 --> 00:36:43,680

sure

1087

00:36:49,030 --> 00:36:46,480

five that was part of of of engagement

1088

00:36:51,030 --> 00:36:49,040

you know to to to everybody else public

1089

00:36:52,310 --> 00:36:51,040

engagement that's why that's why chris

1090

00:36:54,950 --> 00:36:52,320

and i did it

1091

00:36:56,790 --> 00:36:54,960

understandable listen lou i will just

1092

00:36:58,390 --> 00:36:56,800

one last question

1093

00:37:01,270 --> 00:36:58,400

what's next for you

1094

00:37:06,390 --> 00:37:01,280

as we see out the end of 2021 in jumping

1095

00:37:10,950 --> 00:37:08,150

well it kind of gave you a sneak peek

1096

00:37:13,190 --> 00:37:10,960

already i thought uh yeah

1097

00:37:15,829 --> 00:37:13,200

kind of you know um

1098

00:37:18,069 --> 00:37:15,839

so when do we expect the drop then and

1099

00:37:19,829 --> 00:37:18,079

am i right saying this is going to be

1100

00:37:21,589 --> 00:37:19,839

app based

1101

00:37:23,030 --> 00:37:21,599

um you know it's going to be multi-base

1102

00:37:24,470 --> 00:37:23,040

it's good there's there's an app but

1103

00:37:25,270 --> 00:37:24,480

there's also a desktop and there's going

1104

00:37:27,030 --> 00:37:25,280

to be

1105

00:37:29,910 --> 00:37:27,040

other pieces to this i mean it's been

1106

00:37:32,150 --> 00:37:29,920

has not been easy um you know

1107

00:37:33,829 --> 00:37:32,160

my intent is to provide it allow this

1108

00:37:35,670 --> 00:37:33,839

capability to go free to anybody who

1109

00:37:37,349 --> 00:37:35,680

wants it and then you know if you want

1110

00:37:39,109 --> 00:37:37,359

to use it for some very very specific

1111

00:37:40,950 --> 00:37:39,119

stuff where it actually is costing us a

1112

00:37:42,390 --> 00:37:40,960

hell of a lot of money then maybe you

1113

00:37:44,710 --> 00:37:42,400

know somebody might want to do a

1114

00:37:46,710 --> 00:37:44,720

subscription but it's not necessary you

1115

00:37:48,069 --> 00:37:46,720

don't have to do that you know it's it's

1116

00:37:49,510 --> 00:37:48,079

going to be available our intent is to

1117

00:37:51,109 --> 00:37:49,520

allow you know

1118

00:37:53,510 --> 00:37:51,119

a version of it free for anybody who

1119

00:37:56,310 --> 00:37:53,520

wants to use it um you know but that

1120

00:37:57,829 --> 00:37:56,320

costs money um and you know nobody's

1121

00:37:59,670 --> 00:37:57,839

donating

1122

00:38:01,190 --> 00:37:59,680

to this it's you know

1123

00:38:03,109 --> 00:38:01,200

people say well where is it i want it

1124

00:38:05,430 --> 00:38:03,119

well yeah sure but you know

1125

00:38:07,589 --> 00:38:05,440

it it ain't cheap and it's been a lot of

1126

00:38:09,750 --> 00:38:07,599

us you know are doing this from from you

1127

00:38:11,829 --> 00:38:09,760

know part of from a place in our heart

1128

00:38:13,589 --> 00:38:11,839

where we want to contribute but

1129

00:38:15,910 --> 00:38:13,599

you know i was like guys you know you

1130

00:38:18,790 --> 00:38:15,920

ain't paying for it so you know you want

1131

00:38:20,630 --> 00:38:18,800

to come around faster well you know

1132

00:38:22,390 --> 00:38:20,640

we're trying our best you know

1133

00:38:24,870 --> 00:38:22,400

absolutely man

1134

00:38:26,230 --> 00:38:24,880

i appreciate it quick shout out to lara

1135

00:38:27,990 --> 00:38:26,240

1136

00:38:29,030 --> 00:38:28,000

1139

00:38:33,589 --> 00:38:32,480

ten dollars so much

1140

00:38:34,950 --> 00:38:33,599

lou

1141

00:38:37,030 --> 00:38:34,960

this has been

1142

00:38:39,109 --> 00:38:37,040

amazing eye opening i'm so blessed that

1143

00:38:41,109 --> 00:38:39,119

you were the i was the first for you to

1144

00:38:43,190 --> 00:38:41,119

show this presentation it means i did it

1145

00:38:44,950 --> 00:38:43,200

at a forum uh but it wasn't really

1146

00:38:47,109 --> 00:38:44,960

public it was invitation only i did it

1147

00:38:48,950 --> 00:38:47,119

in europe uh it has not been publicly

1148

00:38:50,870 --> 00:38:48,960

provided uh it has been provided to some

1149

00:38:52,150 --> 00:38:50,880

other very senior people like i said you

1150

00:38:53,990 --> 00:38:52,160

are really the first that this has been

1151
00:38:57,190 --> 00:38:54,000
publicly provided to you

1152
00:38:58,550 --> 00:38:57,200
that means a lot it means a lot and um

1153
00:39:00,390 --> 00:38:58,560
if you could just hang about for a

1154
00:39:02,710 --> 00:39:00,400
minute after we have this conversation

1155
00:39:04,470 --> 00:39:02,720
a little debrief because we are meeting

1156
00:39:06,150 --> 00:39:04,480
myself and you are meeting in london in

1157
00:39:08,390 --> 00:39:06,160
a couple of weeks and

1158
00:39:09,750 --> 00:39:08,400
we won't say any more about that but

1159
00:39:10,870 --> 00:39:09,760
that could be fun

1160
00:39:12,710 --> 00:39:10,880
everybody

1161
00:39:14,069 --> 00:39:12,720
we'll see if something comes out of that

1162
00:39:16,150 --> 00:39:14,079
a little video a little interview or

1163
00:39:17,910 --> 00:39:16,160

something but uh cuban in the uk there's

1164

00:39:24,310 --> 00:39:17,920

got to be a joke

1165

00:39:29,109 --> 00:39:26,230

i'm ready man i'll tell you

1166

00:39:31,430 --> 00:39:29,119

i love love love the uk if anybody has

1167

00:39:32,950 --> 00:39:31,440

ever wanted to go anywhere in the world

1168

00:39:34,390 --> 00:39:32,960

if you've never been to westminster

1169

00:39:37,910 --> 00:39:34,400

abbey

1170

00:39:40,470 --> 00:39:37,920

you will absolutely be in tears

1171

00:39:43,109 --> 00:39:40,480

it is it is one of the most profoundly

1172

00:39:46,790 --> 00:39:45,030

places i've ever been it's ju it's

1173

00:39:47,910 --> 00:39:46,800

almost overwhelming and when you see the

1174

00:39:50,390 --> 00:39:47,920

history

1175

00:39:52,230 --> 00:39:50,400

uh of uk there and all these people that

1176

00:39:54,150 --> 00:39:52,240

have been buried there and some of the

1177

00:39:56,550 --> 00:39:54,160

tombs and how ornate and the love that

1178

00:39:58,790 --> 00:39:56,560

was put in behind some of those it's

1179

00:40:00,150 --> 00:39:58,800

just breathtaking it's it's absolutely

1180

00:40:02,150 --> 00:40:00,160

incredible

1181

00:40:04,390 --> 00:40:02,160

it is we take it for granted sometimes

1182

00:40:06,790 --> 00:40:04,400

here in the uk um

1183

00:40:08,150 --> 00:40:06,800

finally lara sosa thank you for that

1184

00:40:09,589 --> 00:40:08,160

1188

00:40:17,750 --> 00:40:15,440

know it's you know almost one o'clock

1189

00:40:19,829 --> 00:40:17,760

for you all over there i apologize

1190

00:40:22,069 --> 00:40:19,839

1191

00:40:23,510 --> 00:40:22,079

pleasure it's it's it's always good to

1192

00:40:25,109 --> 00:40:23,520

speak to you man you've always given me

1193

00:40:27,430 --> 00:40:25,119

the time of day and

1194

00:40:29,109 --> 00:40:27,440

yeah it means the world so thank you so

1195

00:40:30,470 --> 00:40:29,119

much man great well i'm sure people are

1196

00:40:31,750 --> 00:40:30,480

1198

no matter what i pledge what i try to do

1200

00:40:37,829 --> 00:40:37,040

they were like oh you

1201

00:40:38,710 --> 00:40:37,839

don't like that you know

1202

00:40:41,910 --> 00:40:38,720

so

1203

00:40:44,710 --> 00:40:41,920
